- (2) Limit the duration of employment of an emergency unlicensed hire of the Department of Education to three years.

Testimony in support of this measure was received from the Hawaii State Teachers Association. The Department of Education (Department) and the Hawai'i Teacher Standards Board (HTSB) submitted comments.

Your Committee supports the intent of this measure to clarify any confusion among teachers and administrators regarding the state-federal licensure conflicts that have arisen under the No Child Left Behind (NCLB) law. Your Committee has also considered a number of requests for amendments and is pleased to note that in the last six months the Department and the HTSB have improved the alignment of Hawaii teachers licensing requirements in relation to the highly qualified teacher criteria in NCLB.

Your Committee further finds that the adoption of new administrative rules by HTSB and the clarification that existing alternative routes to licensure do meet federal requirements under NCLB preclude the need for the legislation in this area.

Your Committee has amended this measure by:

- (1) Amending the findings and purpose in section 1 to clarify the requirements of the NCLB law; and the purpose of this Act to better align Hawaii's emergency licensure requirements with the NCLB;
- (2) Deleting section 2, as this section is no longer required;
- (3) Adding new language in section 302A-804(3)(D), Hawaii Revised Statutes, to allow unlicensed individuals who have been hired on an emergency basis and are teaching only non-core subject areas prior to the approval of this measure to attain licensure no later than four years from the date of their employment; and
- (4) Making a technical, nonsubstantive amendment to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2163, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 2662 Judiciary and Labor on S.B. No. 3105

The purpose of this measure is to enable boards and commissions to conduct on-site inspections of locations that are related to the board's business at which attendance by the public is not practicable.

More specifically, the measure authorizes a board or commission to hold a limited meeting in a location that is closed to the public for reasons of practicality, so long as the board or commission determines prior to the limited meeting that an on-site inspection is necessary. The bill also transfers responsibilities for concurrence regarding limited meetings from the Attorney General to the Director of the Office of Information Practices.

Testimony in support of this measure was received from the state Office of Information Practices, The League of Women Voters of Hawaii, and a private citizen.

Your Committee recognizes that information-gathering by a board or commission often requires an on-site visit or inspection to a location that is not open to the public. Your Committee finds that this measure helps boards and commissions to make more informed decisions while still ensuring that the public's business is conducted as openly as possible.

To ensure openness, your Committee amended the measure to require sufficient public deliberation before the board decides to hold the on-site closed meeting.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3105, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2663 Judiciary and Labor on S.B. No. 2784

The purpose of this measure is to extend to United States marshals and deputies some of the powers to make arrests without warrants that are currently granted under state law to federal customs officers and federal immigration officers.

Specifically, this measure gives a marshal or deputy marshal the power to arrest either a person whom the marshal or deputy marshal has probable cause to believe committed an assault or other crime involving physical harm in the presence of the marshal or deputy marshal or a person whom the marshal or deputy marshal has been informed is the subject of an arrest warrant.

Additionally, this measure amends the law that grants customs and immigration officers the powers of arrest by updating the names of the federal agencies.

Testimony in support of the measure was received from the Department of the Attorney General.

Your Committee finds that this measure will not give a marshal or deputy marshal the same range of powers currently granted to customs and immigration officers. Specifically, this measure limits the marshal's or deputy marshal's power of arrest to cases involving crimes of murder and physical assaults committed or being committed in their presence, and when they have authoritative information that the person is the subject of an arrest warrant.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2784, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2664 Judiciary and Labor on S.B. No. 3092

The purpose of this measure is to prevent identity theft of individuals in the State by preventing persons' full social security numbers from being disclosed in certain public documents.

Specifically, this bill would require that judgments, orders, and decrees that are recorded in the Land Court and the Bureau of Conveyances stop using the full social security number and use only the last four digits of the social security number to identify the person against whom the judgment, order, or decree is rendered.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Department of Land and Natural Resources. The Consumer Data Industry Association submitted comments on this measure.

Your Committee believes that this measure, which requires using only the last four digits of persons' social security number in judgments, orders, and decrees filed in the Land Court or the Bureau of Conveyances, will help protect persons from identity theft.

Upon further consideration, your Committee has amended this measure by changing the effective date from "upon its approval" to "January 1, 2050" to facilitate further discussion on this issue.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3092, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2665 Judiciary and Labor on S.B. No. 2201

The purpose of this measure is to prescribe the procedure to be followed at certain neighborhood board meetings, such as the information that may be included in the written public notice, the information that the neighborhood board may receive on a matter, and the deliberation and decision-making process.

The Neighborhood Commission, Neighborhood Board No. 25, Coalition of Hawaii Engineering and Architectural Professionals, and two individuals submitted testimony in support of the measure. The Chamber of Commerce of Hawaii submitted testimony in opposition. The Office of Information Practices and the League of Women Voters of Hawaii submitted comments.

Your Committee finds that the purpose of neighborhood boards is to provide a forum for public input that can then be disseminated to government agencies and elected officials. However, the ability of neighborhood boards to solicit public input is hampered by certain provisions of chapter 92, Hawaii Revised Statutes, commonly known as the Sunshine Law. This measure gives the neighborhood board more flexibility to allow the taking of testimony on a matter that is not specifically noticed for consideration and the receiving of testimony on an official board matter without quorum; provided that no decisions may be made thereon. The measure also permits neighborhood board members to attend and participate in discussions at meetings and presentations related to official

board matters; provided that the discussions occur as part of the meeting or presentation and no deliberation or commitment to vote is made.

Upon further consideration, your Committee has amended this measure by:

- (1) Providing that any information or testimony that the neighborhood board receives on a matter of official board business without a quorum present shall be permitted again at a subsequent meeting when the decision is made;
- (2) Clarifying that neighborhood board members may participate in discussions, including discussions among themselves, at certain information meetings or presentations on matters relating to official board business as long as no commitment to vote is made or sought;
- (3) Permitting discussion of an unanticipated event if:
 - (A) Timely action on the matter is “urgently necessary”, as opposed to “necessary”; and
 - (B) Time does not allow for it to be addressed by an emergency meeting scheduled pursuant to section 92-8; and
- (4) Making technical nonsubstantive amendments for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2201, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2666 Ways and Means on S.B. No. 146

The purpose of this measure is to clarify the administration of special funds in the State.

Your Committee heard, in place of the original draft of Senate Bill No. 146 (2008), a proposed S.D. 1 draft that repeals the hydrogen investment capital special fund.

Your Committee received testimony in opposition to the proposed S.D. 1 draft from the Office of the Governor, Department of Business, Economic Development, and Tourism, Kolohala Holdings, Edutainment Resources, Inc., Global Education Trust, HARK, Inc., Ocean Network, LLC, Bill Spencer, on behalf of the Hawaii Venture Capital Association, Technical Research Associates, Inc., Archinoetics, LLC, Simonpietri Enterprises, and four individuals.

Upon further consideration, your Committee has amended this measure by replacing the contents of S.B. No. 146 with provisions that amend the hydrogen investment capital special fund by:

- (1) Changing the name of the special fund from the “hydrogen investment capital special fund” to the “renewable energy investment capital special fund”;
- (2) Inserting an additional purpose for which moneys in the special fund may be used, specifically, to support the activities of the strategic industries program related to the development of renewable energy resources and technologies in Hawaii; and
- (3) Making technical nonsubstantive conforming amendments to section 211F-5.7, Hawaii Revised Statutes, establishing the special fund.

Your Committee notes that the renamed special fund allows for the continuation and funding of the Hawaii renewable hydrogen program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 146, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 146, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2667 Water and Land on S.B. No. 2997

The purpose of this measure is to establish a process for determining when land use classifications should be rescinded because they have not been used for a period of time, particularly for lands classified as urban or rural.

Prior to public hearing on this measure, your Committee distributed a proposed draft of the measure that proposed the establishment of a process for the transfer of development rights and to create a new land classification called the rural legacy area.

Testimony in opposition to this proposed measure was submitted by the City and County of Honolulu Department of Planning and Permitting, Land Use Research Foundation of Hawaii, and The Chamber of Commerce of Hawaii.

Your Committee finds that a system of transfer development rights provides an alternative means for preserving valuable rural lands by allowing for the transferability of development rights between properties. As part of a statewide development plan, the state Land Use Commission would designate properties whose landowners would be allowed to sell their property’s development rights to a transfer development rights (TDR) bank. The State would store and sell these development rights to landowners in a receiving area designated for high density. This would allow the State to offer compensation to landowners who are willing to retain their land classification or down zone it to conservation or preservation.

Your Committee notes that the concept of a transfer development rights system was proposed by the Chairperson of the Board of Land and Natural Resources as a possible alternative vehicle for preserving such rural lands as those on the north shore of Oahu owned by Kuilima Resort. This measure was introduced in response to the Chairperson’s request.

Your Committee has amended this measure by:

- (1) Replacing its contents with an amended version of the proposed draft that establishes the transfer of development rights program but deletes all provisions relating to the creation of a new land classification known as the rural legacy area; and
- (2) Providing an effective date of July 1, 2050.

Your Committee notes, in addition, that technical, nonsubstantive amendments have been made to the proposed draft for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2997, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2997, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Tokuda). Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 2668 Ways and Means on S.B. No. 3076

The purpose of this measure is to authorize the Department of Health to create exempt positions for epidemiologists.

Your Committee received testimony in support of this measure from the Department of Health. Testimony in opposition to the measure was received from the Hawaii Government Employees Association.

Your Committee finds that due to the limited recruitment pool and an outmoded civil service classification series, the Department is presently unable to recruit qualified epidemiologists for high level public health surveillance and response, unless the Department is given authority to employ those epidemiologists without regard to the civil service system.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3076 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2669 (Majority) Judiciary and Labor on S.B. No. 2373

The purpose of this measure is to require pharmacies and retailers to record in an electronic log certain information of the sales transaction and purchaser of controlled substances.

Testimony in support of this measure was received from the Department of Public Safety and one individual. The American Civil Liberties Union of Hawai'i and one individual testified in opposition. The Hawaii Food Industry Association submitted comments.

This measure requires the recordation, in an electronic log on software provided by the Department of Public Safety, Narcotics Enforcement Division (Division), of information including the date of birth of the purchaser, type of identification provided, agency issuing the identification, any unique number associated with the identification, as well as the name of the substance. The electronic log in Excel worksheet format is to be mailed to the Division once a month. The electronic log must be capable of checking compliance against state and federal laws and of interfacing with other states to ensure compliance, and be subject to random and warrantless inspection by state or county law enforcement officers.

The pharmacy or retailer is to retain the information for a period of two years.

With the decrease in the quality of methamphetamine and the increase in its street price, it is highly likely that criminals will revert back to manufacturing their own high quality methamphetamine using pseudoephedrine products obtained from retail distributors. A study conducted in 2004 indicated that there were 1,883 retail stores in the State that were able to sell pseudoephedrine products, and most of these stores were not pharmacies and were unable to verify prior pseudoephedrine sales with their other retail counterparts. Thus, an individual would have the ability to visit multiple retail chain stores and obtain 3.6 grams of pseudoephedrine per visit without the retailer being able to verify or track the individual's previous purchases that day.

Your Committee finds that this measure is necessary to facilitate law enforcement and prosecution of illegal pseudoephedrine sales in the interests of protecting the public health and safety.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2373, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Nishihara).

SCRep. 2670 Judiciary and Labor on S.B. No. 3087

The purpose of this measure is to allow the Department of Labor and Industrial Relations to immediately suspend and begin debarment proceedings against contractors that purposely defraud the State on a public works project or do not cooperate with the Department of Labor and Industrial Relations in determining if there has been a violation of the prevailing wage law.

Your Committee received testimony in support on this measure from the Department of Labor and Industrial Relations; General Contractors Association of Hawaii; Hawaii Building and Construction Trades Council, AFL-CIO; Building Industry Association of Hawaii (BIA-Hawaii); Laborers' Union Local 368; The Pacific Resource Partnership; and one individual.

Providing for suspension as a penalty will create a clear line for those who are not willing to comply with the law. Chapter 104, Hawaii Revised Statutes, relating to wage and hours of employees on public works, is a law imposed to even the playing field in bidding for public works jobs and pay a prevailing wage to workers. Your Committee finds that it is not unreasonable to impose a three-year suspension for those who are not willing to comply with the law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2671 Judiciary and Labor on S.B. No. 3050

The purpose of this measure is to expand the list of persons mandated to promptly report to the Department of Human Services known or suspected abuse of dependent adults to:

- (1) Employees or officers of the entity or agency designated by the Governor to provide advocacy services to persons with developmental disabilities and mental illness in order to receive federal funds authorized by 42 U.S.C. sections 10801 and 15001;
- (2) Social workers; and
- (3) Caregivers who know or have reason to believe that a dependent adult has been abused and is threatened with imminent abuse.

Your Committee received testimony in support of this measure from the Department of Human Services; State Council on Developmental Disability; and the Hawaii Disability Rights Center. The National Association of Social Workers supported the intent of this measure.

This measure defines "caregiver" as any person who has undertaken the care, custody, or physical control of, or who has a legal or contractual duty to care for the health, safety, and welfare of a dependent adult. Your Committee finds that the dependent adults in our community may be subjected to abuse and neglect and deserve to be afforded the maximum protection possible, and that this measure would strengthen the protection provided.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3050, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2672 Ways and Means on S.B. No. 2262

The purpose of this measure is to extend until July 1, 2011 the sunset date for the voluntary employees' beneficiary association trusts pilot program.

Your Committee received testimony in support of the measure from the Hawaii State Teachers Association, the HSTA Member Benefits Corporation, the Hawaii State Teachers Association-Retired Oahu District, the Hawaii State Teachers Association-Retired, and concerned citizens. Testimony in opposition to the measure was received from the Department of Budget and Finance, the Department of Human Resources Development, and the Hawaii Employer-Union Health Benefits Trust Fund. Comments were received from a concerned citizen.

Your Committee finds that the pilot program will otherwise sunset on July 1, 2009. However, your Committee believes that allowing the program to sunset as scheduled is premature, because the comprehensive impact study on the program to be conducted by the Auditor has not yet been completed or made available.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2262, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2673 Ways and Means on H.B. No. 1755

The purpose of this measure is to clarify the tax consequences of the reduced general excise tax rate of 0.5 per cent on service-to-service wholesale transactions.

Specifically, this measure clarifies that the reduced general excise tax rate of 0.5 per cent on service-to-service wholesale transactions applies to dealers that furnish goods or services to fulfill manufacturer warranty obligations to purchasers of the manufacturer's tangible personal property.

Your Committee received no testimony regarding this measure.

Your Committee finds that this measure clarifies that the reduced general excise rate on service-to-service wholesale transactions, intended to reduce the effects of tax-pyramiding, applies to the service-to-service industry in relation to fulfilling a manufacturer's warranty obligation for tangible personal property.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1755, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Inouye).

SCRep. 2674 (Majority) Judiciary and Labor on S.B. No. 2627

The purpose of this measure is to require any purchase of copper by a scrap dealer or recycler to be made by check payable to the seller, and to provide penalties for a violation therefor.

Your Committee received testimony in support of this measure from Reynolds Recycling.

This measure also requires that:

- (1) At the time of sale of the copper, the seller present to the scrap dealer or recycler a valid photo identification card or license of the seller issued by a federal or state government authorized to issue valid identifications; and
- (2) The check be mailed to the address shown on the identification, or in the alternative, the check is picked up personally by the seller at the place of business of the scrap dealer or recycler.

The intent of this measure is to deter the sale of stolen copper to scrap dealers and recyclers by prohibiting cash transactions and identifying the seller in the process of the sales transaction. Sales of stolen copper, typically copper wire, commonly occur when a copper thief or a confederate walks onto the premises of a scrap dealer or recycler to sell copper for cash. This measure would deter that practice.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2627, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Nishihara).

SCRep. 2675 Ways and Means on S.B. No. 3228

The purpose of this measure is to adjust pension amounts for retired patient employees of Hansen's disease facilities.

This measure also provides for increase authorized by this measure to be paid to the estates of certain retired patient employees who died after July 1, 2007.

Your Committee received testimony in support of this measure from the Department of Health and two individuals.

Your Committee finds that the retired patient employees of the State's Hansen's disease treatment facilities have provided valuable services to their immediate communities and to the residents of the State and that an increase in the amount of the annual pensions of these dedicated individuals is appropriate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3228 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2676 (Majority) Ways and Means on S.B. No. 2779

The purpose of this measure is to clarify the circumstances under which the Governor may suspend statutes relating to wages and hours on public works projects.

The Department of Labor and Industrial Relations and the Department of Accounting and General Services submitted testimony in opposition to this measure.

Your Committee finds that this measure will prevent the Governor from suspending the Wages and Hours of Employees Law unless there is a state of emergency and a state of emergency is proclaimed by the Governor.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2779 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, 1 (Hemmings). Excused, 1 (Hooser).

SCRep. 2677 Ways and Means on S.B. No. 2447

The purpose of this measure is to increase the uniform maintenance allowance for enlisted members of the Hawaii Army and Air National Guard.

Specifically, this measure increases the amount of the uniform maintenance allowance provided by the State to enlisted personnel in the Hawaii Army and Air National Guard from \$1.50 per day to \$10.00 per day, but not to exceed \$150 per year.

Testimony in support of this measure was submitted by the Chamber of Commerce Hawaii, the Hawaii National Guard Enlisted Association, and the Hawaii National Guard Association.

Your Committee finds that the uniform maintenance allowance applies during annual training or year-round training, when federal pay is authorized, or when the Hawaii National Guard is ordered to state active duty. However, your Committee finds that the current cost of uniform maintenance far exceeds the amount of the maintenance allowance, and an increase is long overdue in order for the allowance to keep up with the rate of inflation. Your Committee further finds that an increase in the uniform maintenance allowance will help defray the out-of-pocket costs borne by Hawaii's Army and Air National Guard personnel, and may be beneficial for retention and recruitment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2447 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2678 Ways and Means on S.B. No. 1488

The purpose of this measure is to increase the number of temporary exempt positions under the correctional industries program.

The Department of Public Safety submitted testimony in support of this measure. The Hawaii Government Employees Association submitted testimony in opposition to this measure.

This measure increases the number of temporary exempt positions under the correctional industries program from forty-five to sixty-five positions in any fiscal year. Your Committee finds that this increase in temporary exempt positions will allow for the expansion of the Correction Industries Division's vocational rehabilitative programs and work opportunities for the incarcerated population. Vocational rehabilitative programs and work opportunities help prepare inmates for re-entry into the community.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1488, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2679 Ways and Means on S.B. No. 2803

The purpose of this measure is to implement the recommendations of the Hawaii Identity Theft Task Force Report of December 2007 to improve the security of personal information collected and maintained by state and county government agencies.

Specifically, the measure:

- (1) Requires each state and county agency to designate an employee to ensure the agency's compliance with requirements relating to the security of personal information;
- (2) Establishes the information and privacy security council to be placed administratively within the Department of the Attorney General and appropriates funds for three staff analyst positions to support the council;
- (3) Changes the effective date of chapter 487J, Hawaii Revised Statutes, relating to social security number protection, to July 1, 2009;
- (4) Requires conditions on third party personal information use to be included in contracts between government agencies and third parties that provide support services on behalf of the agency;
- (5) Requires state and county agencies that collect, maintain, or disseminate documents with personal information to:
 - (A) Develop and implement a plan to protect the personal information; and
 - (B) Develop a written plan to eliminate unnecessary collection and use of social security numbers;
- (6) Requires state and county agencies responsible for human resource functions to develop and distribute to agencies guidelines to minimize unauthorized access to personal information;
- (7) Requires state and government agencies to develop a written policy regarding notification of security breaches of personal information; and
- (8) Defines the terms: "government agency", "personal information", "personal information system", "records", and "security breach".

The Department of Education, the Retail Merchants of Hawaii, and the Hawaii Financial Services Association submitted testimony in support of the measure. The Office of the Attorney General and the University of Hawaii submitted testimony in opposition. The Judiciary and the Consumer Data Industry Association submitted comments.

Your Committee finds that the Hawaii Identity Theft Task Force was originally established within the Department of the Attorney General as the Anti-Phishing Task Force by Act 65, Session Laws of Hawaii 2005. Act 65 was amended by Act 140, Session Laws of 2006 to change the name to the Identity Theft Task Force, remove the Task Force from the Department of the Attorney General, require the Office of the Auditor to provide research and organizational support services to the Task Force, and extend its existence through December 31, 2007. Act 140 also added additional members to the Task Force and further directed the Task Force to identify best practices to prevent identity theft and to identify and recommend solutions to issues involving social security number protection. Act 183, Session Laws of Hawaii 2007, appropriated funds to the Office of the Auditor to further the efforts of the Task Force with continued research and support services to develop deterrents to identity theft.

The Hawaii Identity Theft Task Force Report of December 2007 included twelve recommendations intended to assist state and government agencies in protecting personal information, with an emphasis on the security of social security numbers. Your Committee notes that the extensive report reflects the concerted efforts and dedication, over a long period of time, of the members of the Task Force. This measure includes various provisions or requirements intended to safeguard personal information collected and maintained by state and county agencies that were recommended by the Task Force. However, from testimony submitted to this Committee and as noted in an earlier hearing on this measure, a number of concerns have been raised by various agencies or organizations in connection with the implementation of some of the bill's provisions. While it is clear that a number of state and county agencies already have taken significant steps to ensure the security of an individual's personal information while in the agency's custody, it is also clear that further precautions may be needed in certain situations. Your Committee recognizes that some of the security provisions in this measure raise issues that require continued discussions between the parties.

Although your Committee strongly supports the Task Force's position that state and county agencies should implement all necessary and appropriate measures to ensure the security of personal information collected or maintained by those agencies, your Committee also shares the concerns of the parties with some of the provisions in the measure. Accordingly, your Committee requests the parties to continue discussions on this measure to work out their concerns so that a measure in a form acceptable to all parties can be enacted to protect the residents of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2803, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2680 (Majority) Ways and Means on S.B. No. 2680

The purpose of this measure is to extend workers' compensation coverage to students in work-based learning programs when working for a public employer.

Specifically, this measure ensures that students participating in a school-approved work-based learning program sponsored by the Department of Education or the University of Hawaii are covered by workers' compensation coverage, regardless of whether the employer is a public or private employer.

Your Committee received testimony in support of this measure from the Departments of Labor and Industrial Relations and Education. The ILWU, Local 142 offered comments.

Your Committee finds that the extension of workers' compensation coverage to students engaged in work-based learning programs is both responsible and reasonable.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2680 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Hooser).

SCRep. 2681 Ways and Means on S.B. No. 2035

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Maui Preparatory Academy.

Your Committee received testimony in support of this measure from the Maui Preparatory Academy and the Hawaii Association of Independent Schools.

Your Committee finds that this measure will assist Maui Preparatory Academy to improve the lower, middle, and upper school facilities and allow the Academy to expand to a full pre-kindergarten to twelfth-grade educational facility. The special purpose revenue bonds provided under this measure will relieve some of the financial burden placed on the Academy and its alumni, friends, and supporters.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2035, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Fukunaga, Hooser).

SCRep. 2682 Ways and Means on S.B. No. 2571

The purpose of this measure is to increase recycling of food waste.

Specifically, this measure establishes a three-year food waste recycling pilot project in one or more public schools in the State as part of the State's integrated solid waste management plan. The measure also appropriates moneys from the environmental management special fund to the Department of Education to conduct the pilot project.

Comments on this measure were submitted by the Department of Education. Testimony in opposition to this measure was submitted by the Department of Health.

Your Committee finds that state facilities and public schools are among the largest institutional generators of solid waste. Recycling efforts help this problem, but still only reduce a fraction of the solid and liquid waste that is created. Your Committee further finds that food waste recycling falls within the program elements of the State's integrated solid waste management plan. Your Committee believes that a food waste recycling pilot project would promote the State's goals of increasing recycling and reducing the amount of waste entering the State's landfills.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2571, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2683 Ways and Means on S.B. No. 3172

The purpose of this measure is to allow qualified rental assistance applicants up to six months to find a qualified rental dwelling.

Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that the recent explosion of housing sales in Hawaii has included the sale of many rental units. The reduction in the number of rental units has not only increased rental rates, but has made it that much more difficult for low-income renters to find affordable housing.

This measure helps to address the current rental supply problem by providing renters on rental assistance with more time to find a qualified rental unit.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3172 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2684 Ways and Means on S.B. No. 2414

The purpose of this measure is to evaluate the effectiveness of health care programs in the State.

Specifically, this measure directs the Legislative Reference Bureau to compile and analyze existing studies of the various state-funded portions of Medicaid-sponsored programs, including Medicaid and med-QUEST, offered by the State's Department of Human Services. The measure also appropriates an unspecified amount to assist the Bureau to conduct the study.

Your Committee received testimony in opposition to this measure from the State Procurement Office. The Legislative Reference Bureau offered comments.

Your Committee finds that the proposed study constitutes a step towards addressing the complex issues of health care costs in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2414, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2685 Ways and Means on S.B. No. 3048

The purpose of this measure is to increase the loan ceiling for agricultural and ranch operations on Hawaiian home lands from \$50,000 to \$200,000.

Testimony in support of this measure was submitted by the Department of Hawaiian Home Lands.

Your Committee finds that the costs of farming and ranching far exceed the amounts of available loans under the Hawaiian Homes Commission Act, and this creates a barrier to implementing successful farming and ranching operations. Accordingly, your Committee finds that the proposed increase of the ceiling on agricultural and ranching loans will facilitate successful ranching and farming operations on Hawaiian home lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2686 Ways and Means on S.B. No. 2501

The purpose of this measure is to set a new daily rate for the rental motor vehicle surcharge tax.

Specifically, this measure repeals the \$3 a day rate in effect from September 1, 1999, to August 31, 2008, and the \$2 a day rate applicable thereafter for the rental motor vehicle surcharge tax, and sets an unspecified daily rate.

Your Committee received testimony in support of this measure from the Departments of Transportation and Taxation, Catrala Hawaii, and Dollar Thrifty Group. The Tax Foundation of Hawaii offered comments.

Your Committee finds that the \$3 a day rate will drop back to \$2 a day after August 31, 2008, unless the current law is amended. Your Committee finds that maintaining a consistently sufficient revenue stream available for the state highway fund is critical to maintaining the State's highway infrastructure. Increasing the rental motor vehicle surcharge tax will contribute greatly to building reserves in the state highway fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2501, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 2 (Inouye, Whalen). Noes, none. Excused, 1 (Hooser).

SCRep. 2687 Ways and Means on S.B. No. 3011

The purpose of this measure is to increase the effectiveness of the use of the compliance resolution fund.

Specifically, this measure allows the Insurance Division of the Department of Commerce and Consumer Affairs to include a three-month reserve in the calculation of compliance resolution fund assessments to ensure continued operations of the Insurance Division at the end of the fiscal year.

The Department of Commerce and Consumer Affairs submitted testimony in support of this measure. The Hawaii Insurers Council and Property Casualty Insurers Association of America submitted testimony in opposition to this measure. The American Council of Life Insurers and State Farm submitted comments.

The current formula to calculate the assessment amount to be paid by all lines or types of insurance regulated under state insurance law requires the Insurance Commissioner to assess insurers based on the cash balance at the end of the prior fiscal year, anticipated revenues for the current fiscal year, and the proposed fiscal year budget. The Insurance Commissioner is prohibited under current state law from making any assessment until the closing of the prior fiscal year, which delays the receipt of the cash necessary to fund the Insurance Division's operations.

This measure amends the current formula for assessments to include a three-month reserve in the calculation of the assessment amount. Your Committee finds that this measure will help ensure the continued operation of the Insurance Division during the first three months of each new fiscal year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3011, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2688 (Majority) Ways and Means on S.B. No. 2956

The purpose of this measure is to ensure the availability of fresh milk for consumption in Hawaii.

The bill seeks to accomplish this by:

- (1) Ensuring that the remaining Hawaii dairy producers are paid a price commensurate with the quality of the milk they produce; and
- (2) Appropriating funds to establish a strategic plan for the milk industry in Hawaii.

The Department of Agriculture submitted testimony in support of this measure. Meadow Gold Dairies submitted comments.

Once ranked as one of the top three sectors of diversified agriculture, the local dairy industry has experienced a steady decline with production values decreasing from over \$33,300,000 in 1988 to \$18,300,000 in 2005. This measure will help to ensure that one hundred per cent of the local producers' milk produced within their quota will be used for fluid consumption rather than for lower compensated purposes. Your Committee finds that this measure will foster the continued operation of the two remaining local dairies and help to ensure that Hawaii consumers obtain fresher milk.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2956, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, 1 (Hemmings). Excused, none.

SCRep. 2689 Ways and Means on S.B. No. 2623

The purpose of this measure is to expand the renewable energy technologies tax credit for photovoltaic energy systems to also cover solar thermal electric energy systems.

The measure accordingly categorizes the tax credit for both types of systems as one for solar electric energy systems.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, the Hawaii Energy Policy Forum, and the Hawaii Solar Energy Association. Your Committee received testimony in opposition to this measure from the Department of Taxation, and comments from the Tax Foundation of Hawaii.

Your Committee finds that solar energy uses both heat and light as sources of energy. Solar thermal systems include solar water heating that use flat-plate collectors, as compared to solar thermal electric systems which uses parabolic dish troughs to generate electricity. This measure clearly distinguishes between these types of solar energy systems and recognizes the current state of renewable energy technologies in use in Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2623 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2690 (Majority) Ways and Means on S.B. No. 2039

The purpose of this measure is to provide a one-time lump sum pension bonus to state and county retirees who are at least seventy-five years of age who have been in retirement at least twenty years.

Specifically, this measure provides a one-time lump sum bonus equal to the sum derived by adding up \$1 per month of every year of credited service. Additionally, this measure appropriates funds to the Employees' Retirement System to fund the bonuses.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, the Hawaii State Teachers Association-Retired, the United Public Workers, and individuals. Comments on the measure were received from the Employees' Retirement System. Testimony in opposition to the measure was received from the Department of Budget and Finance.

Your Committee finds that this measure will provide some financial relief to older retirees, whose pensions have been outpaced by inflation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2039, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Hooser).

SCRep. 2691 Ways and Means on S.B. No. 2583

The purpose of this measure is to create the Hawaii Capital Cultural District Task Force and to appropriate an unspecified amount of funds for its work.

More specifically, the measure establishes the Hawaii Capital Cultural District Task Force within the State Foundation on Culture and the Arts to review the current operations of the Hawaii State Art Museum, as well as its long range plans for operations and growth, with respect to its location in the No. 1 Capitol District Building.

The Department of Accounting and General Services submitted comments.

Your Committee finds that the Hawaii State Art Museum enhances the district as a cultural and historical destination for both residents and visitors. Your Committee further finds that the task force has an important charge in considering the museum's resource needs within the broader context of available facility space and competing state needs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2583, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2692 Ways and Means on S.B. No. 2155

The purpose of this measure is to clarify that reimbursements received by managed care support contractors for advances made on behalf of the federal government are not subject to the Hawaii general excise tax.

Specifically, this measure clarifies that any amounts received by a managed care support contractor as reimbursements of costs or advances made by the contractor, pursuant to a contract with the federal government for the administration of the TRICARE program, are exempt from the Hawaii general excise tax.

Your Committee finds that the TRICARE program augments the health care services provided by the United States Department of Defense personnel at military facilities and contracts with third-party administrators, known as "managed care support contractors", to establish and maintain networks of TRICARE-authorized civilian health care providers in various regions of the United States. These managed care support contractors make advances to doctors, hospitals, and other providers for costs of health care services provided to TRICARE beneficiaries. The United States Department of Defense then reimburses managed care support contractors the amounts they have advanced.

Your Committee received testimony in support of this measure from the Hawaii Medical Services Association and Goodsill, Anderson, Quinn, and Stifel LLP. The Department of Taxation, Tax Foundation of Hawaii, and two individuals offered comments.

Your Committee finds that the clarification provided by this measure will prevent the costs of health care services delivered through the TRICARE program from increasing and will further preclude any adverse consequences on the members of our uniformed services and their families from the increased costs of health care.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2155, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Inouye).

SCRep. 2693 Ways and Means on S.B. No. 2218

The purpose of this measure is to require electronic monitoring of persons convicted of violating a domestic abuse temporary restraining order or protective order.

The Hawaii State Coalition Against Domestic Violence submitted testimony in support of this measure. The Judiciary submitted comments.

According to the National Institute of Justice and the Centers for Disease Control and Prevention, one in four women in the United States will experience domestic violence during her lifetime. In 2007, eighty-six per cent of the legal assistance provided in Hawaii was for victims of domestic violence. Many victims of domestic violence obtain a temporary restraining order or protective order against the batterer.

Your Committee finds that electronic monitoring of violators of temporary restraining orders and protective orders provides an additional measure of protection by alerting a victim if the batterer is within the defined geographic exclusion zone so that the victim may find a safe location.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2218, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2694 (Majority) Ways and Means on S.B. No. 2493

The purpose of this measure is to appropriate funds for collective bargaining cost items for unit 5 employees and their excluded counterparts for fiscal year 2008-2009.

Your Committee received testimony in opposition to this measure from the Department of Budget and Finance and the Office of Collective Bargaining.

Your Committee finds that this measure is necessary to fulfill the agreement negotiated between the State and the exclusive bargaining representative of collective bargaining unit 5.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2493 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Hooser).

SCRep. 2695 (Majority) Ways and Means on S.B. No. 2562

The purpose of this measure is to authorize permanent absentee voting.

More specifically, the measure allows a registered voter to request permanent absentee voter status, in order to receive an absentee ballot for all subsequent elections conducted in that precinct. The measure appropriates an unspecified amount of funds for implementing and administering this new program.

Testimony in support of the measure was received from the State of Hawaii Office of Elections. The Elections Division, Office of the County Clerk, County of Kauai, submitted comments.

Your Committee supports the goal of encouraging voter participation, and this measure helps achieve that goal by increasing voter convenience and accessibility for all citizens in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2562, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Inouye).

SCRep. 2696 Ways and Means on S.B. No. 2677

The purpose of this measure is to limit the duty of the University of Hawaii to preaudit all proposed payments to those of \$10,000 or more.

Your Committee received testimony in support of this measure from the University of Hawaii.

Your Committee finds that present law requires the University of Hawaii to preaudit proposed payments of any amount. Your Committee finds that eliminating the university's duty to preaudit proposed payments of less than \$10,000 will enable the university to redirect its preauditing resources to the more costly proposed payments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2697 (Joint) Agriculture and Hawaiian Affairs and Health on S.B. No. 2804

The purpose of this measure is to amend the definition of "adulterated" to include pre-packaged meats which have been treated with gas or other technology to enhance their color only.

Testimony in support of this measure was submitted by The Hawaii Teamsters and Allied Workers, Local 996 and one individual.

Your Committees find that pre-packaged meats treated with gas or other technology to enhance their color should be included within the definition of "adulterated" meat as this process may cause the meat to have a red color that can deceive consumers into thinking that the meat is fresher than it really is.

Your Committees have amended this measure by:

- (1) Amending the effective date to July 1, 2050; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2804, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2804, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Baker, Hee, Slom).

SCRep. 2698 Commerce, Consumer Protection and Affordable Housing on S.B. No. 3025

The purpose of this measure is to improve Hawaii's business climate for insurers and to make the insurance statutes easier to understand, technically correct, and consistent by making clarifying amendments to the Insurance Code.

Specifically, this measure:

- (1) Clarifies, for insurance producer licensing purposes, the Insurance Commissioner's authority to summarily suspend a license pending a hearing on actions to suspend, revoke, or refuse to renew a license;
- (2) Limits the amount of the bond to \$500,000 that managing general agents are required to furnish as part of their licensure requirements;
- (3) Deletes the requirement for managing general agents to obtain an errors and omissions policy in an amount based on an upper limit of twenty-five per cent of annual gross direct written premiums and replaces it with a minimum \$1,000,000 errors and omission policy requirement;
- (4) Requires insurers, as part of their required contract provisions with managing general agents, to ensure managing general agents' compliance with statutory bond and errors and omissions policy requirements; and
- (5) Conforms section 431:20-122, Hawaii Revised Statutes, with existing Hawaii law with respect to annual and quarterly financial statement filing requirements for foreign and alien title insurers.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs.

Your Committee finds that making clarifying amendments to the Insurance Code will improve Hawaii's business climate for insurers, which in turn will improve the State's competitiveness in the global insurance industry, and enhance its potential to increase insurance options for its businesses and residents. Furthermore, this measure will provide added assurance that managing general agents have the required bond and errors and omissions policy coverage, the benefits of which will inure to insurance consumers should problems develop with an insurer's managing general agent.

Your Committee has amended this measure by:

- (1) Replacing its effective date from upon approval to July 1, 2050 to encourage further discussion on this matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to improve Hawaii's business climate for insurers and to make the insurance statutes easier to understand, technically correct, and consistent.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3025, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 2699 Commerce, Consumer Protection and Affordable Housing on S.B. No. 3031

The purpose of this measure is to provide further protections to consumers by clarifying the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs' ability to investigate and prosecute cases involving the sale of non-corrective contact lenses.

Testimony in support of this measure was submitted by the Regulated Industries Complaints Office (RICO), Department of Commerce and Consumer Affairs; the Professional and Vocational Licensing Division, Department of Commerce and Consumer Affairs; and the Board of Examiners in Optometry.

Under the federal Food, Drug, and Cosmetic Act, the Food and Drug Administration (FDA) now regulates contact lenses, including decorative, non-corrective lenses, as medical devices instead of cosmetic devices. Despite the federal regulations on non-corrective contact lenses, RICO continues to receive reports concerning the sale of non-corrective contact lenses at swap meets and other inappropriate venues, particularly at Halloween. Your Committee finds that amending chapter 458, Hawaii Revised Statutes, relating to dispensing opticians will complement the federal law and will authorize RICO to take action in the event an unlicensed person tries to sell decorative, non-corrective contact lenses to consumers in Hawaii.

Your Committee has amended this measure by changing the effective date of this measure from July 1, 2008 to July 1, 2050 to ensure continued discussion on this matter.

Your Committee believes that this measure, as amended, fulfills its intent to provide further protections to consumers.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3031, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2700 (Joint) Agriculture and Hawaiian Affairs and Energy and Environment on S.B. No. 2849

The purpose of this measure is to permit lands in agricultural land use districts to be used for agricultural-energy facilities, provided that the primary activity of the agricultural-energy enterprise is agricultural activity.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, Maui County Farm Bureau, and Hawaiian Electric Company, Inc. Testimony in support of the intent of this measure was submitted by the Department of Agriculture.

The Hawaii Agriculture Research Center presented testimony requesting an amendment to this measure to ensure that it could continue its planned usage of the Del Monte Village including agricultural worker rental housing and agricultural business support services.

In light of the Hawaii Agricultural Research Center's concerns and noting the importance of this project, your Committees have amended this measure by making agricultural worker rental housing and agricultural business support services permitted uses within plantation subdivisions in agricultural districts.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2849, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2849, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 3 (Gabbard, Hooser, Ihara). Noes, none. Excused, 3 (Hee, Kokubun, Trimble).

SCRep. 2701 (Joint) Commerce, Consumer Protection and Affordable Housing and Intergovernmental and Military Affairs on S.B. No. 2293

The purpose of this measure is to increase the number of affordable housing units in Hawaii by exempting new multi-family housing condominium developments of fifty units or more per acre from certain state and county affordable housing requirements.

Specifically this measure:

- (1) Exempts new multi-family housing condominium developments of fifty units or more per acre on privately-owned lands or lands owned by the State or county for a period of less than a year as a facilitator of affordable housing from the Hawaii

Housing Finance and Development Corporation's shared appreciation equity program and the ten-year occupancy requirements and transfer restrictions; and

- (2) Exempts an affordable housing multi-family housing condominium development of fifty or more units per acre from being required to be on the same parcel of land as any required market-priced housing development; provided that the both developments are located in the same county, and the areas of the affordable housing development and the market-priced housing development are of equal square footage.

Testimony in support of this measure was submitted by Central Pacific Bank, Central Pacific HomeLoans, and five private individuals. Testimony in opposition to this measure was submitted by the Hawaii Housing Finance and Development Corporation; the Department of Community Services, City and County of Honolulu; the Office of Housing and Community Development, County of Hawaii; and the Office of Hawaiian Affairs.

Affordable housing for Hawaii residents and the local workforce are in critically short supply. Government cannot alone increase the needed supply to meet the overwhelming demand for affordable housing for those with incomes of 140 per cent and below the median income in Hawaii. Your Committees find private landowners and developers need incentives in order to meet the demand for and increase the supply of affordable housing. Eliminating or reducing certain state and county requirements, including the equity sharing program and occupancy and transfer period, for new multi-family condominium housing developments for privately developed projects will encourage the private sector to build affordable workforce housing. However, your Committees recognize that the unit-per-acre density threshold as contained in the measure is too low and that government financial assistance may be considered in future deliberations.

Your Committees note the concerns regarding the exemption from equity sharing and the reduction of the buyback period from ten years to three years, and requested that Hawaii Housing Finance Development Corporation work with the counties to develop amendable language that would also fulfill the purposes of this measure.

Accordingly, your Committees have amended this measure by:

- (1) Increasing the maximum density from fifty units to seventy-five units per acre;
- (2) Adding language that requires the new multi-family housing condominium development on privately owned land to be privately financed without federal, state, or county financing assistance or subsidies;
- (3) Deleting language that would statutorily authorize affordable and market housing units to be located on different parcels on land within the same county; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to increase the number of affordable housing units in Hawaii.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2293, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2293, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 2702 Judiciary and Labor on S.B. No. 2295

The purpose of this measure is to clarify the sunshine law to allow two or more board members to discuss their individual positions, or attend meetings or presentations relating to board business under certain circumstances. This measure also allows members to be polled on official board business outside of meetings under certain circumstances.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, the Coalition of Hawaii Engineering and Architectural Professionals, and two individuals. Testimony in opposition to this measure was submitted by the Chamber of Commerce of Hawaii, a Maui County councilmember, and one individual. Comments on this measure were submitted by the Office of Information Practices and the Board of Education.

The intent of this measure is to facilitate the business of boards and commissions by allowing two or more members but less than a quorum of the board to:

- (1) Attend a meeting of another board or a public hearing at the Legislature and discuss their individual positions and provide testimony; or
- (2) Attend other informational meetings or presentations relating to official board business, with certain restrictions on their activities at those meetings and presentations.

This measure further allows members of the board to be polled in writing, including facsimile and email, regarding their positions.

The intent of this measure is to facilitate the conduct of business of boards and commissions without compromising the integrity of the sunshine law. Your Committee recognizes the practical realities of board functions and duties. Your Committee notes that this measure carefully guards against voting on official board business outside of a duly noticed board meeting.

Your Committee has amended this measure on the recommendation of the Office of Information Practices by:

- (1) Deleting reference to "deliberate" as being redundant to "discussion"; and

- (2) Deleting reference to making public the documentation of the polling pursuant to rules of the board, and instead making the documentation by law a public record to be made available to the public, as required for minutes of board meetings; provided that public availability of the documentation shall occur within seven days after the polling.

Your Committee has also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2295, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2703 Judiciary and Labor on S.B. No. 2962

The purpose of this measure is to strengthen Hawaii's laws against sexual predation of minors and the registration of offenders who commit these and other sexual offenses.

Specifically, this measure would:

- (1) Establish a new offense to address instances of electronic enticement of children where a predator attempts to lure or solicit a minor or arrange a meeting with a minor over the Internet with intent to commit a sex offense or crime against minors, regardless of whether the predator actually attends the arranged meeting;
- (2) Establish a new offense to address a specific form of grooming conduct by child predators involving masturbation or the lewd or lascivious exposure of the predator's genitals over the computer for view by a minor;
- (3) Amend the repeat offender sentencing law to include the offense of failure to comply with covered offender registration requirements and the new offense of indecent electronic display to a child;
- (4) Amend the offense of promoting child abuse in the second degree to address instances of possession of particularly violent or egregious child pornography;
- (5) Clarify the element of electronic enticement of a child in the first degree regarding the intent to promote or facilitate the commission of another crime;
- (6) Provide greater protection for children by adding mandatory sentencing provisions for certain serious child abuse and electronic enticement offenses; and
- (7) Amend Hawaii's sex offender registration laws to comply with parts of Title I of the Adam Walsh Child Protection and Safety Act of 2006, also known as the Sex Offender Registration and Notification Act, to enable the Hawaii sex offender registration program to effectively participate with the nationwide network of sex offender registries.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, the Police Departments of the County of Hawaii, the City and County of Honolulu, and the County of Maui, and a concerned citizen. Your Committee received late testimony in support of the measure from the Department of the Attorney General and the Department of the Prosecuting Attorney of the County of Maui. Late testimony in opposition to the measure was received from the Office of the Public Defender.

Your Committee did not amend language in this bill that would conform chapter 846E, Hawaii Revised Statutes, to the national Sex Offender Registration and Notification Act. Affected provisions involve, among other things, access to registration information (expanding personal data about each offender that must be reported and made available to the public) and termination of registration (replacing current provisions with a system that categorizes offenses as tier 1, tier 2, and tier 3 offenses).

Your Committee has amended the measure to include an effective date of July 1, 2080, to allow consideration of revisions to chapter 846E. While your Committee recognizes that members of the public look at information on the sex offender registry website, the extent to which public notification enhances public safety by reducing recidivism deserves careful analysis as this measure moves through the legislative process.

Your Committee has also amended this measure by:

- (1) Adding an agreement to meet as an element of the new offense of electronic enticement in the third degree;
- (2) Restoring the element of travel to the offense of electronic enticement in the second degree;
- (3) Adding references to sections 2 and 7 of the measure to the "savings clause" in section 16 of the measure because section 2 creates a new criminal offense and section 7 expands an existing offense such that, absent inclusion in the "savings clause," those provisions might run afoul of the prohibition on ex post facto laws in the United States Constitution; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2962, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2704 Judiciary and Labor on S.B. No. 3203

The purpose of this measure is to criminalize "animal hoarding" as a misdemeanor.

Specifically, the measure defines “animal hoarding” as the:

- (1) Possession of a large number of animals;
- (2) Failure to provide necessary sustenance for each of those animals; and
- (3) Display of an inability to recognize or understand the nature of, or reckless disregard for, the conditions under which the pet animals are living and the deleterious impact the conditions have on the pet animals’ and owner’s health and well-being.

Testimony in support of this bill was submitted by a concerned citizen and a Professor of Social Work at the University of Hawaii. Testimony in opposition to the bill was received from Animal Rights Hawaii. Animal Advocate, Inc. submitted comments on the bill.

Your Committee recognizes that animal hoarding cannot be defined by the specific number of animals hoarded, due to variations across cases and the species being hoarded. Your Committee notes that a 1999 research study of fifty-four hoarding cases found that the median number of animals hoarded was thirty-nine per case. In contrast, the American Veterinary Medical Association reported that among the different kinds of pet-owning households in the United States in 2001, Americans owned an average of 1.6 dogs, 2.1 cats, 2.1 birds, and 2.9 horses.

Your Committee has amended the bill by:

- (1) Characterizing the number of animals that is considered hoarding as “more than a typical number” instead of “a large number”; and
- (2) Establishing state of mind requirements with regard to the elements of the number of animals possessed, and failing to provide necessary sustenance.

Your Committee finds that these modifications will more effectively tailor the applicability of the offense to the intended class of offenders.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3203, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2705 (Majority) Judiciary and Labor on S.B. No. 2898

The purpose of this measure is to add a new section to the Hawaii Revised Statutes to allow member states to determine the winner of a presidential election by national popular vote.

Your Committee received testimony in support of this measure from National Popular Vote; The Center for Voting and Democracy; and Capitol Consultants, LLC.

The Office of Elections submitted comments on this measure.

Your Committee finds that this measure would guarantee the presidency and vice presidency to the candidates that receive the most popular votes in all fifty states and the District of Columbia. Your Committee further finds that there is support for the national popular vote both in Hawaii and throughout other jurisdictions.

Your Committee has amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2898, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2898, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 1 (Kokubun).

SCRep. 2706 Judiciary and Labor on S.B. No. 2886

The purpose of this measure is to deter acts of child abandonment.

Specifically, the measure:

- (1) Establishes the offense of abandonment of a child in the second degree and makes it a misdemeanor to abandon a child by leaving the child with a person in reckless disregard of the risk that the person’s true identity is unknown, or that the person has no place of residence or employment or that the other person’s true place of residence or employment is unknown; and
- (2) Elevates the existing offense of abandonment of a child with the intent to desert the child to a class C felony and renames the offense to child abandonment in the first degree.

Your Committee received testimony in support of this measure from Prevent Child Abuse Hawaii. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee notes that it is not their intent to penalize parents who rely on the representation of others or other individuals who falsely identify themselves.

Your Committee has amended this measure by amending the effective date to July 1, 2050, for the purpose of facilitating further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2886, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2886, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2707 Judiciary and Labor on S.B. No. 2009

The purpose of this measure is to clarify that, where the chance to win something of value is offered in conjunction with purchase of an item, the activity constitutes gambling, even if a chance to win is offered by mail at no cost, if the item is offered at a price that is disproportionate to the value of the item, or if the chance to win at no cost by mail is offered from a pool different from the pool from which the chance to win via purchase is drawn.

Testimony in support of this measure was submitted by the Liquor Commission and the Hawaii Coalition Against Legalized Gambling.

Your Committee finds that this measure would address community concerns about vending machines located in bars, lounges, and other retail establishments that dispense sweepstakes cards which, in return for a small fee, provide an opportunity to win various amounts of money along with an item of low value, such as a telephone calling card.

Your Committee has amended this measure by:

- (1) Limiting the application of its free play defense provisions to devices into which a consumer inserts money and the device provides a sweepstakes ticket or card that, by reason of chance, may entitle the consumer to a money prize;
- (2) Revising the phrase "if the item is offered at a price that is disproportionate to the value of the item" by changing "disproportionate to" to "disproportionately high compared to";
- (3) Changing the effective date from upon approval to July 1, 3011; and
- (4) Making technical amendments by placing the new section to be added to the Hawaii Revised Statutes before the section that amends definitions in section 712-1220, Hawaii Revised Statutes, to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2009, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2708 Commerce, Consumer Protection and Affordable Housing on S.B. No. 3002

The purpose of this measure is to provide rapid utility service restoration to customers in an event of exigent circumstances by allowing a public utility to transfer property needed for service restoration without prior approval of the Public Utilities Commission (PUC).

Specifically, this measure amends section 269-19, Hawaii Revised Statutes, to provide an exception for a public utility to sell, lease, assign, mortgage, or otherwise dispose of or encumber its property without first securing an authorizing order from the PUC only under exigent circumstances that call for rapid service restoration in order to prevent serious disruption of essential public services, avoid serious risk to public safety, or mitigate severe economic losses to a utility customer; provided that this action does not hinder or degrade the utility company's operations with respect to its services or other customers, and the utility company is duly compensated and reports in detail to the PUC within thirty days of the action.

Testimony in support of this measure was submitted by the Public Utilities Commission; the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs; Hawaiian Electric Company, Inc.; Maui Electric Company, Ltd.; and Hawaii Electric Light Company.

The PUC requires a public utility to obtain prior approval from the PUC if a public utility intends to sell, lease, assign, mortgage, or otherwise dispose of the whole or any part of its road, line, plant, system, or other property necessary or useful in the performance of the public utility's duties to the public. Your Committee finds that exigent circumstances can create an environment in which prudent, prompt, time-sensitive action by a public utility may be necessary to restore services, and immediate transfer or encumbrance of utility property is necessary to rapidly restore a customer to full or near full operational status. Allowing a public utility to transfer property needed for service restoration without prior approval of the PUC will enable customers to receive prompt restoration services without sustaining prolonged disruption of service or economic loss.

Your Committee has amended this measure by:

- (1) Changing the effective date of this measure from upon its approval to July 1, 2050 to ensure further discussion on this matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to provide rapid utility service restoration to customers in an event of exigent circumstances.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3002, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2709 (Joint) Energy and Environment and Water and Land on S.B. No. 3103

The purpose of this measure is to encourage endangered species restoration by authorizing the development and use of programmatic safe harbor agreements and programmatic habitat conservation plans that cover multiple landowners or a class of landowners over a wide area or region.

Testimony in support of this measure was submitted by the Chairperson of the Board of Land and Natural Resources.

Your Committees find that, by authorizing the development and use of programmatic safe harbor agreements and programmatic habitat conservation plans, and the tools needed to implement them, this measure will encourage greater participation in endangered species restoration by private landowners.

Your Committees further find that similar programmatic safe harbor agreements and programmatic habitat conservation plans have been adopted by federal resource conservation agencies; and thus, this measure will assist state agencies in working cooperatively and concurrently with federal agencies.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to ensure further discussion and consideration.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3103, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3103, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair and the Senate President on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 2710 (Joint) Energy and Environment and Health on S.B. No. 2526

The purpose of this measure is to prohibit cruise ships from burning bunker fuel within five miles of Nawiliwili Harbor, in order to reduce air pollution affecting the Niumalu community.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; Sierra Club, Kaua'i Group of the Hawaii Chapter; Malama Kaua'i; and twenty-five private citizens. Comments were submitted by the Director of Health; Department of Transportation; Princess Cruises and Holland America Line; Royal Caribbean International and Celebrity Cruises; and NCL America Inc., Hawaii Operations.

Your Committees find that it is important to acknowledge the air pollution complaints of the Niumalu community, and to take meaningful action to address the situation. However, to better understand the source of the pollutants and identify the most effective solutions available, the gathering of information is necessary before permanent legislative action is taken.

The testimony of several cruise ship companies has suggested to your Committees that a switch to .5 per cent sulfur fuel may be effective in reducing odor and soot; and thus, in reducing the amount of air pollution caused by cruise ships affecting the Niumalu community.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the content of the measure with a three-year pilot program to be established and implemented by the Department of Health, with results to be reported to the Legislature. The program is designed to determine the current level of and health and environmental impact on the Niumalu community of air pollution caused by bunker fuel-burning cruise vessels docked or moored in Nawiliwili Harbor, and the effect of requiring cruise ships to switch to .5 per cent or lower sulfur fuels while docked or moored;
- (2) Changing the effective date to July 1, 2050, to ensure further discussion and consideration; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2526, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2526, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 3 (Baker, Kokubun, Trimble).

SCRep. 2711 Health on S.B. No. 2882

The purpose of this measure is to continue the provision of mail-order prescriptions for controlled substances by clarifying that an individual may be identified by a unique patient identifier assigned to the individual by the payor or pharmacy benefit manager.

Your Committee received testimony in support of this measure from Medco and Express Scripts. Hawaii Medical Service Association submitted comments on this measure.

Your Committee finds that current law in Hawaii requires a patient using a mail service pharmacy for discounted medications to provide that pharmacy with a copy of a government issued identification or social security number. This is problematic because pharmacies and health plans are not allowed to use social security numbers for patient identification.

Your Committee further finds that forty-nine states already have provisions in place that enable mail-order prescriptions for controlled substances by individuals with a unique patient identifier. Since 1999, companies such as Medco, have been providing mail-order prescription service to residents of Hawaii.

Your Committee has amended this measure by:

- (1) Including insurers as those able to assign unique patient identifiers;
- (2) Defining "mail order pharmacy";
- (3) Clarifying that a patient properly enrolled in a mail order prescription drug plan is "known to" the mail order pharmacist; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2882, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2882, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 2712 Health on S.B. No. 2040

The purpose of this measure is to save lives and improve the quality of life for individuals affected by cancer.

Specifically, this measure seeks to enhance the quality of life of individuals affected by cancer by helping to increase community participation in clinical trials, increase the research utility of the Hawaii Tumor Registry, allow comprehensive monitoring of the efficacy of cancer screening and cancer vaccination activities, enhance the quality of life of cancer survivors, and to stimulate awareness of the cancer information services and local community cancer prevention efforts.

Your Committee received testimony in support of this measure from the Cancer Research Center of Hawaii and the Hawaii Tumor Registry. The Department of Health, Hawaii Medical Association, and Kaiser Permanente submitted testimony supporting the intent of this measure.

Your Committee finds that this is an important measure that would enable citizens of Hawaii the right to make choices regarding their own health care and give options on whether or not to participate in cancer research studies. Your Committee further finds that communities would benefit from better relations between physicians and researchers.

Your Committee has amended this measure by changing the effective date to encourage further discussions on this important measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2040, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 2713 Judiciary and Labor on S.B. No. 2212

The purpose of this measure is to prevent human trafficking and to assist victims of such acts.

Specifically, this measure assists in the prosecution of human trafficking related crimes under Hawaii law by creating a new offense of sexual exploitation of a minor, amending existing kidnapping, extortion, and prosecution offenses, and including sexual exploitation of a minor in the definition of racketeering activity.

Your Committee received testimony in support of this measure from the State Attorney General, the Crime Victim Compensation Commission, the Department of the Prosecuting Attorney for the City and County of Honolulu, the Office of the Prosecuting Attorney for the County of Hawaii, the Honolulu Police Department, the Hawaii Family Forum, the Hawaii Youth Services Network, Na Loio Immigrant Rights and Public Interest Legal Center, the Sex Abuse Treatment Center, the Department of the Prosecuting Attorney for the County of Maui, and one individual. Testimony in opposition was received from the Office of the Public Defender. The Domestic Violence Action Center submitted comments.

Your Committee finds that in the world of human trafficking, men, women, and children, are bought, sold, and held against their will in slave-like conditions. People are trafficked and forced to work in the commercial sex trade, sweatshops, agricultural settings, domestic service, and other types of servitude, for basic food and shelter. It is the intent of your Committee to address this nationwide problem and prosecute these crimes under Hawaii law.

Your Committee has amended this measure by;

- (1) Removing the purpose clause (section 1) of this measure;
- (2) Defining "labor" and "services" in section 707-700, Hawaii Revised Statutes, rather than in sections 707-720 and 707-764, Hawaii Revised Statutes, so these definitions would apply to the substantive extortion offenses in chapter 707, Hawaii Revised Statutes;
- (3) Included in the foregoing definition of "services", the statement that, "Nothing in this chapter [chapter 707] shall be construed to legitimize or legalize prostitution";
- (4) Adding the term "labor" to the definition of extortion in section 707-764, Hawaii Revised Statutes, and the substantive extortion offenses in sections 707-765(1)(a), 707-766(1)(a) and 707-767, Hawaii Revised Statutes;

- (5) Including other immigration documents under section 707-764, Hawaii Revised Statutes, relating to the crime of extortion;
- (6) Amending the effective date to July 1, 2050, for purposes of facilitating further discussion and clarification; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2714 Judiciary and Labor on S.B. No. 2594

The purpose of this measure is to allow public and private sector employees to certify a person or labor organization as their exclusive representative for collective bargaining purposes, absent an election and where no other representative is certified as the exclusive representative. This measure also requires immediate collective bargaining between parties once a person or labor organization is certified as the exclusive representative.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO. The Hawaii Government Employees Association, ILWU Local 142, and Hawaii State Teachers Association testified in support of the measure with amendments. The Department of Labor and Industrial Relations and Office of Collective Bargaining submitted testimony in opposition to this measure.

Your Committee finds that this measure will allow employees to unionize if a majority of employees signed cards expressing their desire to join a union, a practice that currently, an employer does not have to recognize. This method will allow an alternate means of unionizing.

Your Committee has amended this measure to remove section 1, relating to streamlining union certification and facilitating initial collective bargaining agreements for public employees.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2594, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2715 Judiciary and Labor on S.B. No. 2971

The purpose of this measure is to authorize immediate appeals from certain orders regarding injunctions and from denials of sovereign, absolute, or qualified immunity.

Testimony in support of this measure was received from the Department of the Attorney General. Testimony in opposition to the measure was received from the Judiciary and the Consumer Lawyers of Hawaii.

Your Committee finds that this measure will make state court practice consistent with current federal court practice by allowing immediate appeals from preliminary orders granting or refusing injunctions. However, this measure may also burden the appellate courts with an increase in interlocutory appeals and likely delay the resolution of the underlying cases while the appeals are pending. Your Committee acknowledges that allowing interlocutory appeals before a final judgment on the merits erodes the deference appellate courts owe to the trial court's decisions on the many questions of law and fact that arise before judgment.

Your Committee has amended this measure by allowing interlocutory appeals only for denial of motions seeking dismissal or judgment for the movant based on sovereign immunity or qualified immunity. Your Committee has also amended this measure by changing the effective date to July 1, 2099 in order to promote continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2971, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2971, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2716 Judiciary and Labor on S.B. No. 3204

The purpose of this measure is to reduce the number of repetitious and vexatious challenges to criminal convictions by establishing a time limitation for filing habeas corpus complaints and limiting successive complaints.

The Department of the Attorney General, Hawaii County Office of the Prosecuting Attorney, and Maui County Department of the Prosecuting Attorney submitted testimony in support of this measure. The Office of the Public Defender submitted testimony in opposition.

Presently, a petition for post-conviction relief is the only method of challenging judgment and custody that does not have a statute of limitation. As a result, some defendants have repeatedly used this method to challenge convictions and custody long after the events at issue. Your Committee finds that this measure promotes the finality of judgments and sentences while permitting a defendant a reasonable period of time to discover, prepare, and file an action to challenge a conviction and custody.

The permanent Committee on Rules of Penal Procedure and Circuit Court Criminal Rules, proposed a five year limitation on a petition for post-conviction relief under Rule 40 of the Hawaii Rules of Penal Procedure. The proposal was rejected by the Hawaii

Supreme Court because it conflicted with the Legislature's authority regarding habeas corpus. Your Committee finds that the five-year limitation period should be adopted.

Part XI of chapter 844D, Hawaii Revised Statutes, permits a person who was convicted of and sentenced for, or acquitted by reason of physical or mental disease, disorder, or defect of, a crime to file a motion, at any time, for DNA analysis of evidence. As currently worded, this measure bars such a person from presenting DNA evidence that exonerates the person if it is discovered more than five years after a judgment. Your Committee finds that this would be a grave injustice to a wrongly charged or convicted person.

Upon further consideration, your Committee has amended this measure by:

- (1) Establishing a time limitation for filing a petition for post-conviction relief under Hawaii Rules of Penal Procedure, as well as for complaints for a writ of habeas corpus under chapter 660, Hawaii Revised Statutes;
- (2) Providing that the time limitation shall not apply to any motion, petition, or appeal filed pursuant to part XI of chapter 844D; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3204, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2717 Public Safety on S.B. No. 45

The purpose of this measure is to make a technical amendment to the Penal Code provision relating to the obstruction of government operations.

Prior to a hearing on this measure, your Committee circulated a proposed draft that deleted the original contents of the measure and inserted provisions which clarify that, for the nomination of paroling authority members, only a nominee's initial appointment is subject to a recommendation by a nomination panel.

Testimony in support of the proposed draft of the measure was submitted by the Department of Public Safety, the Hawaii Paroling Authority, and the Department of the Attorney General.

Your Committee finds that an expedited process for reappointing current members of the parole board provides for better efficiency and effectiveness in their day-to-day operations. Furthermore, this measure provides clear directives in the appointment process, term limits, and the status of incumbent parole board members.

Your Committee has amended this measure by:

- (1) Deleting the definition of the term "vacancy";
- (2) Changing the date of confirmation and authorization by the Senate to serve on the Hawaii Paroling Authority to after June 30, 2005 and prior to the effective date;
- (3) Changing the effective date to April 30, 2008; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 45, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 45, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Whalen).

SCRep. 2718 Tourism and Government Operations on S.B. No. 2748

The purpose of this measure is to require a pre-job conference under the Hawaii Public Procurement Code for any project with an estimated contract value of \$500,000 or more, and to require that any protest be submitted prior to the pre-job conference.

Your Committee received testimony in support of this measure from the Iron Workers Stabilization Fund and Hawaii Building and Construction Trades Council, AFL-CIO. Testimony in opposition was received from the Department of Accounting and General Services and General Contractors Association of Hawaii. Comments were received from the State Procurement Office.

This measure provides that attendance at the pre-job conference, to be held at least thirty days prior to the date the contractor plans to begin work, is mandatory for the contractor, all subcontractors, and any employee representatives of workers who will be working on the project.

Testimony on this measure indicated that the underlying problem giving rise to this measure is the performance of work by unlicensed subcontractors and specialty contractors, who may not be licensed because they perform work under the umbrella of the general contractor. Your Committee believes the performance of work by unlicensed subcontractors and specialty contractors is a serious problem that should be addressed in this measure.

Another problem sought to be addressed by the labor unions is that of discreet segregation of the work to be performed on any particular job by the multitude of unions on the job simultaneously. Your Committee believes that this is a labor issue, unrelated to procurement.

Your Committee has amended this measure by:

- (1) Deleting its contents;
- (2) Inserting a requirement that verifiable proof of all applicable general, subcontractor, and specialty contractor licenses required by the job be included in the submissions with the offer;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussions; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2748, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2748, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Senate President on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2719 (Majority) Ways and Means on S.B. No. 2615

The purpose of this measure is to provide the non-profit community and the public-at-large with a better understanding of, and more confidence in, the Legislature's award of grants and subsidies.

Specifically, this measure:

- (1) Requires more detailed background information from applicants;
- (2) Provides for transparency and public participation in the selection process; and
- (3) Requires increased financial accountability for selected recipients.

Your Committee received testimony in support of this measure from the Department of Budget and Finance. The Domestic Violence Action Center and the P.H.O.C.U.S.E.D. offered comments.

Upon further consideration, your Committee made the following amendments to further improve the grants award process by:

- (1) Specifying that applications for grants must be submitted to the appropriate legislative committees no later than January 31 before the start of each legislative session, or if January 31 falls upon a Saturday, Sunday, or holiday, by the immediately preceding business day;
- (2) Requiring the applicant to demonstrate that the:
 - (A) Grant or subsidy will not be the sole source of funding for the services for which a grant or subsidy is awarded; and
 - (B) Services to be supported by the grant or subsidy are not already being adequately provided and thus are not duplicative;
- (3) Deleting the requirement that the applicant has a certification of good standing for the Department of Commerce and Consumer Affairs;
- (4) Providing that no grant may be awarded unless the applicant has:
 - (A) Satisfied all obligations to the State, including but not limited to making all necessary tax payments, and has completed and submitted all required documentation with respect to the requesting organization's business with any state department or agency; and
 - (B) Operated in the State for at least an unspecified number of years;
- (5) Clarifying that only nonprofit organizations may be awarded grants or subsidies by:
 - (A) Amending the definition of "recipient" in section 42F-101, Hawaii Revised Statutes; and
 - (B) Consolidating, in section 42F-103, Hawaii Revised Statutes, the various requirements relating to the nonprofit applicant in subsections (b) and (c) within subsection (a) and redesignating the remaining subsections;
- (6) Clarifying that public comment on all applications may be accepted to assist the Legislature in the selection process;
- (7) Requiring that a list of applicants, a brief description of the request, and the amount of each grant or subsidy applied for shall be posted on the Legislature's website before first lateral;
- (8) Requiring each expending agency to develop or identify performance measures for each operating grant or subsidy; and
- (9) Adding to the items to be included by each recipient in the report to be submitted to the expending agency and the Legislature, an assessment of the extent to which the provision of services funded by the grant or subsidy has met performance standards.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2615, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Inouye).

SCRep. 2720 (Joint) Health and Education on S.B. No. 2545

The purpose of this measure is to encourage medical research into the causes, cure, and prevention of Alzheimer's disease by creating a task force to study the feasibility of establishing an Alzheimer's research center in Hawaii.

Your Committees received testimony in support of this measure from University of Hawaii John A. Burns School of Medicine, the Alzheimer's Association, Kokua Council, and one individual.

Your Committees find that the prevalence of Alzheimer's disease is increasing with the growing elder population in Hawaii. Establishing a task force under the supervision of the University of Hawaii John A. Burns School of Medicine to study the feasibility of an Alzheimer's research center is a necessary step forward to address the need for medical research into the causes, cure, and prevention of Alzheimer's disease in Hawaii's multi-ethnic population.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2545 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Baker, Gabbard, Hee, Menor, Tokuda).

SCRep. 2721 (Joint) Health and Energy and Environment on S.B. No. 3072

The purpose of this measure is to protect and preserve the health and safety of the residents and environment of Hawaii.

Specifically, this measure clarifies the reporting requirements for "hazardous substances" and "extremely hazardous substances" by separating the different reporting requirements for "hazardous substances" and "extremely hazardous substances" to ensure that businesses file the required chemical inventory reports for "extremely hazardous substances" and pay the filing fee for reporting such substances.

Your Committees received testimony in support of this measure from the Department of Health, the City and County of Honolulu Local Emergency Planning Committee, and the Campbell Local Emergency Action Network.

Your Committees find that this is an important measure that will enhance the safety of our communities and allow emergency responders to better prepare and respond to emergencies involving hazardous chemicals.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3072 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Baker, Kokubun, Trimble).

SCRep. 2722 Commerce, Consumer Protection and Affordable Housing on S.B. No. 3017

The purpose of this measure is to protect mutual benefit society members by authorizing the Insurance Commissioner of the Department of Commerce and Consumer Affairs to monitor the relationships and transactions between mutual benefit societies and their affiliates.

Specifically, this measure:

- (1) Makes chapter 431, article 11, Hawaii Revised Statutes, expressly applicable to mutual benefit societies; and
- (2) Allows the Insurance Commissioner to monitor the relationship and transactions between mutual benefit societies and their affiliates, and among the affiliates of mutual benefit societies, in the same manner as presently authorized for other insurers.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs. Testimony in opposition to this measure was submitted by the Hawaii Medical Service Association (HMSA).

Your Committee finds that mutual benefit societies are treated differently than other insurers under the Insurance Code, which includes being subjected to limited regulation by the Insurance Commissioner. In Hawaii, several mutual benefit societies provide insurance through the extensive use of their affiliates, which raises special concerns due to the nature of these transactions. This measure increases the regulatory supervision of the Insurance Commissioner over mutual benefit societies and their relationships and transactions with affiliates. Your Committee determines that increased regulation will improve the Insurance Commissioner's ability to protect consumers from improper transactions between mutual benefit societies and their affiliates.

Your Committee recognizes the testimony, submitted by HMSA, indicating concerns as to how this measure will affect the HMSA Foundation, which is a private charitable foundation that provides a vehicle by which HMSA can invest resources in a cost-effective manner to enhance the overall health and quality of life for the communities HMSA serves. Your Committee requests the Insurance Commissioner to address HMSA's concerns regarding the possible affects this measure will have on the HMSA Foundation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3017, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 2723 Judiciary and Labor on S.B. No. 3034

The purpose of this measure is to clarify that compensation received by certain private entities for the use of their facilities as a private shelter in the case of a civil defense emergency involving an attack is not considered compensation for the purposes of section 128-19, Hawaii Revised Statutes.

Your Committee reviewed testimony received by your Committee on Intergovernmental and Military Affairs.

This measure also applies to consideration paid by or on behalf of any minor or student of any age in any day care, preschool, elementary school, middle school, high school, college, university, trade school, or any other educational facility used as a private shelter.

Your Committee finds that during times of disaster emergencies, care homes and similar facilities become places of private shelter. Your Committee finds that there is a need to amend the law regarding the liability of an owner or operator of a hospital, community based care home, home-based care home, home health agency, or health care agency or facility of any type, as well as day care, and educational institutions, when an owner or operator of these facilities permits the use of the property for sheltering persons during disasters and emergencies. The Legislature recognizes that there is a shortage of shelter space in Hawaii and that the private industry should be encouraged to assist in sheltering the public by providing shelter for those persons who by reason of existing relationships may be in these facilities during disasters and emergencies. Under the current law, it is unclear whether owners or operators of certain facilities are able to fully comply with the requirements of section 128-19, Hawaii Revised Statutes, when providing shelter to persons in their care, custody, or charge because section 128-19 requires that shelter be made available without compensation.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2724 (Majority) Ways and Means on S.B. No. 3138

The purpose of this measure is to extend the time allowed for the preparation of a report on the Waianae Coast baseline environmental study to establish the boundaries of an ocean recreation management area between Kalaeloa Point and Kaena Point, Oahu.

Specifically, this measure amends Act 6, Special Session Laws of Hawaii 2005, to require an interim report on the study in 2008 and the final report on the study in 2009. The measure also appropriates an unspecified amount for the continuation of the study.

Testimony in support of this measure was submitted by two concerned individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the Department of Land and Natural Resources submitted a status report, deemed the interim report, to the Legislature on the study for the 2008 Regular Session, and it is expected to submit a final report prior to the 2009 Regular Session. Accordingly, your Committee recognizes that the baseline environmental study is progressing and finds it reasonable to extend the time allowed for the preparation of the final report.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3138, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Inouye).

SCRep. 2725 Commerce, Consumer Protection and Affordable Housing on S.B. No. 2459

The purpose of this measure is to help meet the pharmaceutical needs of patients in the State by authorizing the use of remote dispensing pharmacies under the direct supervision of a registered pharmacist in any county with less than 100,000 residents or outside of a ten mile radius of an existing pharmacy in counties with a population greater than 100,000 residents.

Testimony in support of this measure was submitted by Kauai County Subarea Health Planning Council, Kaiser Permanente, the Hawaii Medical Service Association (HMSA), the Waianae Coast Comprehensive Health Center, Ho'ola Lahui Hawai'i, the Hawaii Pharmacists Association, and one private individual. Testimony in opposition to this measure was submitted by the Department of Commerce and Consumer Affairs, and the Board of Pharmacy.

Your Committee finds that the use of remote dispensing pharmacies that are supported by modern telecommunication technologies offers an innovative and efficient method of providing residents of rural areas of the State with necessary prescription medications. Remote dispensing pharmacies will enable underserved communities to gain access to essential medications.

Your Committee recognizes the concerns indicated in submitted testimony with regards to the county population and ten mile radius requirements. Your Committee believes that remote dispensing machines should be made available to everyone regardless of county populations or radius restrictions as there are areas that do not qualify under the existing restrictions under this measure, but could still benefit greatly by the use of remote dispensing machines.

Furthermore, your Committee notes the comments indicated in testimony submitted by the Department of Commerce and Consumer Affairs that the Department does not have the expertise to perform a financial impact study on the use of remote dispensing machines on local pharmacies within a ten mile radius as required under section 4 of this measure. However, the Department indicated that it is able to report on the use of remote dispensing machines to the Legislature.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that limits a remote dispensing machine to any county with less than 100,000 residents or outside of a ten mile radius of an existing pharmacy in counties with greater than 100,000 residents;
- (2) Deleting language that requires the Department of Commerce and Consumer Affairs to submit an annual report to the Legislature that includes information on the financial impact that remote dispensing machines have on local pharmacies within a ten mile radius;
- (3) Changing the effective date of this measure from upon its approval to July 1, 2050 to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to help meet the pharmaceutical needs of patients in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2459, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2459, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2726 Commerce, Consumer Protection and Affordable Housing on S.B. No. 2584

The purpose of this measure is to support and encourage further growth and productivity of Hawaii's agricultural industry by recognizing honey as an agricultural commodity.

Testimony in support of this measure was submitted by the Department of Agriculture, the Hawaii Farm Bureau Federation, and one private individual.

Hawaii's honey bees are a critical part of the agricultural production chain and responsible for the pollination of many crops grown in the State. Furthermore, local beekeepers produce one of the world's highest quality honeys. Your Committee finds that recognizing honey as an agricultural commodity will provide the recognition and support needed to encourage and expand this industry.

Your Committee recognizes the testimony submitted by the Department of Agriculture indicating that under cooperative agreements with various federal agencies, the Department is able to conduct inspections of a number of imported agricultural commodities and food products. However, raw honey does not qualify under the United States Grade Standards for extracted honey; thus, the Department will not be able to conduct inspections on imported raw honey.

Furthermore, your Committee notes that the Department of Agriculture was requested by the previous committee, the Committee on Agriculture and Hawaiian Affairs, to consult with the Department of the Attorney General to determine how grocers could appropriately be required to provide consumers with honey labeled with its country of origin. The Department of Agriculture indicated to your Committee that they are currently working with the Department of the Attorney General to look at how a country of origin labeling program, such as the labeling program established in Florida, could be implemented in Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date of this measure from July 1, 2008 to July 1, 2050, to encourage further discussion on this matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to support and encourage further growth and productivity of Hawaii's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2584, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2584, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 1 (Taniguchi).

SCRep. 2727 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 1248

The purpose of this measure is to require applicants for various types of electrical licensing to provide evidence of successful completion of an accredited academic and apprenticeship program covering the principles of electrical theory and the requirements of the National Electrical Code, in addition to the existing requirements under chapter 448E, Hawaii Revised Statutes, relating to electricians and plumbers.

Testimony in support of this measure was submitted by the Hawaii Electricians Training Fund; the International Brotherhood of Electrical Workers, Local Union 1186; the Electrical Contractors Association of Hawaii; and three private individuals. Testimony in opposition to this measure was submitted by the Board of Electricians and Plumbers; the United Association of Plumbers and Fitters, Local 675; and two private individuals.

Your Committee finds that requiring academic and apprenticeship training for applicants for various types of electrical licensing will ensure that these individuals have the ability to satisfy the level of proficiency required to complete electrical work in a safe manner. However, your Committee recognizes the submitted testimony indicating that further licensing requirements for electricians are not necessary and indicating concerns with regards to providing academic and apprenticeship requirements for journey worker plumbers. Due to the contentious nature of this measure, your Committee received several amendments suggested by various groups in the electrician industry.

Your Committee notes the amendments suggested by the International Brotherhood of Electrical Workers, Local Union 1186 to apply the academic and apprenticeship requirements to only journey worker electrician classifications, and not to other classifications. Furthermore, your Committee notes the amendment suggested by the Board of Electricians and Plumbers to provide clarity that the academic and apprenticeship requirements in this measure shall not affect the scope of the work of plumbers and electricians licensed under chapter 448E, Hawaii Revised Statutes and its adopted rules, and the amendment suggested by the United Association of Plumbers and Fitters, Local 675 to provide a clause that would clarify that this measure would not affect the rights and duties of other building trades whose duties have included electrical work for the past fifty years.

Your Committee changed the effective date of this measure to July 1, 2050, when this measure was heard during the 2007 Regular Session, and encourages further discussion on this matter as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Adding language that applies the academic and apprenticeship requirements to only journey worker electrician classifications under section 448E-5, Hawaii Revised Statutes;
- (2) Deleting language that applies the academic and apprenticeship requirements to any other electrician or plumber classifications under section 448E-5, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1248, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1248, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 2 (Espero, Sakamoto). Noes, 1 (Trimble). Excused, 1 (Taniguchi).

SCRep. 2728 Commerce, Consumer Protection and Affordable Housing on S.B. No. 1789

The purpose of this measure is to allow community television to develop and respond to the needs of the many diverse communities in the State by authorizing the Director of Commerce and Consumer Affairs to designate an access organization to oversee the development, management, and broadcasting of programs on public education and government (PEG) channels.

Specifically, this measure:

- (1) Authorizes the Director of Commerce and Consumer Affairs to designate an access organization to oversee the development, operation, supervision, management, production, and broadcasting of programs on PEG channels;
- (2) Allows the designation of an access organization to be exempt from the requirements under chapter 103D, Hawaii Revised Statutes, relating to the Procurement Code; and
- (3) Requires the Director of Commerce and Consumer Affairs to seek the advice of the Cable Advisory Committee on any decision designating, modifying, or rescinding a designation of an access organization or the designation requirements.

Testimony in support of this measure was submitted by one private individual.

Your Committee finds that community television is an important and valuable forum that has the ability of informing, educating, communicating with, and representing the voices of various communities and groups. For example, residents of the Waianae Coast have benefited from Olelo's (an access organization) efforts in making PEG programs more accessible by placing a media center in Waianae as well as in five other communities with more locations planned for in the future. Authorizing the Director of Commerce and Consumer Affairs to designate an access organization to oversee the development, operation, supervision, management, production, and broadcasting of programs on PEG channels will ensure that access organizations will continue to provide these valuable community media services to the community.

Selecting a PEG organization through an open competition bid process may have a negative social impact on the rural districts in which these organizations serve. Thus, your Committee further finds that exempting designated access organizations from the Procurement Code under chapter 103D, Hawaii Revised Statutes, will ensure that quality PEG programming, which depends largely upon the sensitivity and perception of the provider to the needs and wants of the community, will continue to serve the community.

Your Committee notes that the previous committee, the Committee on Tourism and Government Operations, inserted into this measure an effective date of July 1, 2050. Your Committee encourages further discussion on the matter as this measure moves through the legislative process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to allow community television to develop and respond to the needs of the many diverse communities in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1789, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1789, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Ayes with Reservations, 2 (Ige, Ihara). Noes, none. Excused, 1 (Taniguchi).

SCRep. 2729 Commerce, Consumer Protection and Affordable Housing on S.B. No. 2094

The purpose of this measure is to permit the examiner of drivers to waive the test of knowledge of the rules of the road for applicants holding a valid driver's license from another state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, a province of the Dominion of Canada, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, or any of the federal government's political subdivisions, territories, or commonwealths.

Testimony in support of this measure was submitted by the Department of Transportation and two private individuals. Testimony in opposition to this measure was submitted by the Department of Customer Services, City and County of Honolulu.

Your Committee finds that since the majority of jurisdictions have adopted uniform motor vehicle laws, this measure would allow for reciprocity similar to that currently permitted for commercial driver's licenses. Section 286-236(g), Hawaii Revised Statutes, allows the examiner to waive the test of knowledge if there is a valid license from another state, Mexico, or a province in Canada.

Your Committee recognizes that the previous committee, the Committee on Transportation and International Affairs, extended the waiver for applicants holding a valid driver's license from the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and any of the federal government's political subdivisions, territories, or commonwealths. Testimony submitted by the City and County of Honolulu indicated that the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau are not participants of the United Nations Convention of Road Traffic; thus, a valid driver's license issued from any of these three nations are not recognized as being valid for operation of a vehicle in any United States jurisdiction. However, your Committee recognizes that a request has been made to encourage the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau to accede to the United Nations Convention of Road Traffic, which will address the concerns raised by the City and County of Honolulu.

Your Committee has amended this measure by changing the effective date of this measure from effective upon its approval to July 1, 2050 to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2094, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2094, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ige, Taniguchi).

SCRep. 2730 (Majority) Commerce, Consumer Protection and Affordable Housing on S.B. No. 2630

The purpose of this measure is to promote transparency of the pricing methods used by Hawaii petroleum industries by expanding the amount of information collected by the Public Utilities Commission (PUC), and requiring the publishing of the collected industry information and gas prices.

Specifically, this measure:

- (1) Requires distributors to report to the PUC their average crude oil costs and their average wholesale gasoline prices charged for each class of trade;
- (2) Requires the PUC to publish, on a weekly basis, the information furnished by the distributors, pursuant to section 486J-4.5, Hawaii Revised Statutes, categorized by island and distributor; and
- (3) Requires the PUC to publish, on a weekly basis, the average retail gasoline prices for each island.

Testimony in opposition to this measure was submitted by Aloha Petroleum, Ltd.; and the Western States Petroleum Association. The Public Utilities Commission submitted testimony expressing serious concerns and comments.

While increased transparency promotes greater public awareness and knowledge, your Committee recognizes the concerns raised in the submitted testimony regarding requiring Hawaii petroleum industries to submit to the PUC their pricing methods, and requiring the PUC to publish this information. The PUC indicated that this measure poses a conflict with section 486J-6, Hawaii Revised Statutes, which protects confidential commercial information from disclosure, and further indicated that the industry and individual distributors will likely disagree with the public disclosure of their confidential commercial information, and may refuse to cooperate with and seek to withhold information from the PUC, despite the enforcement measures that the PUC is authorized to use. Testimony from Aloha Petroleum, Ltd. indicated that the forced release and publication of confidential commercial and proprietary information to the public could cause competitive harm to stakeholders and presents the risk of causing market disruptions within the industry. Furthermore, withholding information by the industry would severely hamper the PUC's ability to efficiently collect the information necessary to implement the petroleum industry monitoring, analysis, and reporting program. Your Committee finds that this measure merits further discussion in order to address the various concerns regarding the release and publication of confidential commercial information and the possible reluctance from the petroleum industries to comply with this measure.

Accordingly, your Committee has amended this measure by changing the effective date from July 1, 2008 to July 1, 2050 to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2630, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Trimble). Excused, 2 (Ige, Ihara).

SCRep. 2731 Education on S.B. No. 2333

The purpose of this measure is to establish a working group to study the feasibility of establishing an Institute of Robotics at the University of Hawaii at Manoa College of Engineering.

Testimony in support of the measure was submitted by the Department of Education, the University of Hawai'i System, and six individuals.

Your Committee finds that to move Hawaii forward to succeed in this new millennium requires a dedication to supporting innovation and technology and growing a qualified workforce to support these areas. Competition in the fields of science, technology, engineering, and math (STEM) has escalated throughout the world, and Hawaii needs to invest in the education and training of our students to ensure that they will succeed in the workforce. Accordingly, last year, the Legislature enacted Act 111, Session Laws of 2007, which sought to create a system of STEM academies for students in middle and high school and other related programs to ensure preparedness of students for post-secondary education and beyond. In keeping with this vision, several high schools throughout the State have established successful robotics programs that have allowed students to develop skills and explore careers in the STEM fields. However, increased opportunities are necessary to allow students to pursue education and careers in these fields and establish Hawaii as a technology axis for the Pacific Region.

This measure establishes a working group to examine the feasibility of creating an Institute of Robotics within the College of Engineering at the University of Hawaii at Manoa. Your Committee determines that this measure allows the State to look at the different ways in which appropriate programs can be developed and funded to concentrate and maximize state resources to increase and grow a highly-skilled, highly-qualified workforce.

The University of Hawaii raised concerns regarding its ability to conduct a feasibility study on an Institute of Robotics and requested amendments to broaden the scope of the issue to allow the University to appropriately explore increased opportunities for individuals to pursue specialized education and careers in robotics.

Accordingly, your Committee has amended this measure by:

- (1) Broadening the scope of the study by requiring the working group to discuss the feasibility of establishing within the College of Engineering at the University of Hawaii at Manoa an Institute of Robotics or a related institute or program with consideration of the appropriate background science and technology fields, and application areas, on which an institute or other program will focus; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2333, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 2732 Health on S.B. No. 409

The purpose of this measure is to ensure patient safety and quality health care in medical-surgical wards of the acute care hospitals in Hawaii.

Specifically, this measure mandates health insurance coverage for medical vigilance services that are approved by the federal Food and Drug Administration.

Your Committee received testimony in support of this measure from Hoana Medical, Inc. and one individual. Hawaii Medical Service Association and Kaiser Permanente submitted testimony with concerns on this measure. The Auditor submitted an update on the submission of the final report.

Your Committee finds that mandatory health insurance coverage for medical vigilance services will substantially enhance patient safety and provide a new standard-of-care for the people of this State. Your Committee further finds that, pursuant to Senate Concurrent Resolution No. 209 C.D. 1 (2007), the Auditor is in the process of completing an impact assessment report, required by sections 23-51 and 23-52, Hawaii Revised Statutes, of the social and financial impacts of mandating coverage of medical vigilance services in acute care hospitals for all policies and contracts, hospital and medical service plan contracts, medical service corporation contracts, and health maintenance organization plans and contracts issued after December 31, 2007.

Accordingly, your Committee has amended this measure by changing the effective date to encourage further discussion regarding the Auditor's report that is to be submitted to the Legislature. Your Committee has further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 409, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 409, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2733 Judiciary and Labor on S.B. No. 3051

The purpose of this measure is to authorize the Department of Human Services, or its designee, to conduct criminal history record checks for those individuals providing services to adults and children at risk.

Your Committee received testimony in support of this measure from the Department of Human Services and the Office of Youth Services. Goodsill Anderson Quinn & Stifel submitted testimony in support of this measure with amendments.

Your Committee finds that, due to the tremendous rise in requests for criminal history record checks, the Department of Human Services finds that it may be beneficial to enable the Department to contract the services of an outside entity so that it can focus on its core responsibilities. While your Committee believes the concept has merit, it believes that this issue would benefit from further discussion and deliberation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the provisions that would enable the Department of Human Services to outsource the responsibility to conduct criminal history record checks to a designee;
- (2) Changing the effective date to July 1, 2050; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, style, and to accurately reflect existing law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3051, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3051, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2734 Judiciary and Labor on S.B. No. 2363

The purpose of this measure is to hold perpetrators strictly liable for sexual assault against persons who are mentally defective.

Specifically, this measure provides that:

- (1) Proof that a person knew that another person was mentally defective shall not be required in any class A felony prosecution for knowingly subjecting another person who is mentally defective to sexual penetration, under section 707-730, Hawaii Revised Statutes (sexual assault in the first degree);
- (2) A person commits the offense of sexual assault in the third degree if the person knowingly subjects to sexual contact another person who is mentally defective, or causes a person who is mentally defective to have sexual contact with the actor; and further provides that proof that the person knew that the other person was mentally defective is not required in any prosecution for knowingly subjecting to sexual contact another person who is mentally defective, or causing a person who is mentally defective to have sexual contact with the actor.

The Honolulu Department of the Prosecuting Attorney and one individual submitted testimony in support of this measure.

Your Committee finds that persons who are mentally defective need additional protection from sexual predators. The term "mentally defective" is defined under section 707-700, Hawaii Revised Statutes, to mean "a person suffering from a disease, disorder, or defect which renders the person incapable of appraising the nature of the person's conduct."

Your Committee further finds that this measure will extend additional protection to a vulnerable segment of the population that has limited, if any, capacity to give knowing and willing consent to sexual acts.

Upon further consideration, your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2363, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2363, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2735 Judiciary and Labor on S.B. No. 2245

The purpose of this measure is to protect young children left unattended in motor vehicles by providing law enforcement with a preventive tool similar to the seat belt use and child safety seat laws.

Specifically, this measure prohibits operators and adult passengers of motor vehicles from leaving the vehicle with an unattended child under the age of nine inside for five minutes or more and makes such conduct a violation of the statewide traffic code, not a crime, for which a violator may only be fined. The measure grants law enforcement officers, firefighters, and rescue team personnel immunity from liability in any civil action for removing the child from the motor vehicle in good faith.

The measure also requires the examiner of drivers to specifically test an applicant for a driver's license for knowledge of the requirement. Finally, the measure requires lessors of rental motor vehicles to display at all times in a conspicuous place in each rental motor vehicle the prohibition against leaving a child unattended in a motor vehicle.

Your Committee received testimony in support of this measure from the Department of the Attorney General. The Department of the Prosecuting Attorney of the City and County of Honolulu and State Farm Mutual Automobile Insurance Company submitted late testimony in support of this measure.

Upon further consideration, your Committee has amended this measure to make technical nonsubstantive amendments including clarifying that the amendments made to section 286-108, Hawaii Revised Statutes, shall not be repealed when that section is repealed and reenacted on January 9, 2011, by Act 72, Session Laws of Hawaii 2005.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2245, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2736 Judiciary and Labor on S.B. No. 2080

The purpose of this measure is to require the Hawaii Teacher Standards Board to revoke a teacher's license when the teacher has been convicted of certain sexual offenses against a minor.

Testimony in support of the measure was submitted by the Department of Education and the Hawaii State Teachers Association.

Your Committee finds that the health and safety of our keiki, particularly while they are in school, is a high priority for the State. While the Department of Education takes necessary precautions in screening and hiring employees, the Hawaii Teacher Standards Board can provide great assistance in ensuring that teachers convicted of certain crimes do not retain or renew their licenses to teach in the State. This measure requires the Hawaii Teacher Standards Board to automatically revoke a teacher's license upon notice that a teacher has been convicted of a sexual offense against a minor. Although this practice is being examined by the Hawaii Teacher Standards Board for inclusion in its administrative rules, your Committee believes that this matter is appropriate for statutory implementation to ensure the safety of our students.

Your Committee has amended this measure by:

- (1) Requiring the Department of Education to notify the clerk of the court of each individual who the Department has identified as a teacher who is being tried by the court for a sexual offense. The clerk of the court shall then transmit a copy of the judgment of conviction to the Hawaii Teacher Standards Board. This change will help the court clerk to identify which defendants are teachers;
- (2) Including sections 707-750, 707-751, 707-752, 707-753, and 707-756, Hawaii Revised Statutes, in the list of sexual offenses for which automatic revocation of a teacher's license applies;
- (3) Changing an incorrect reference to section 707-733.5, Hawaii Revised Statutes, to 707-733.6, Hawaii Revised Statutes; and
- (4) Changing its effective date to July 1, 2050, for purposes of facilitating further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2080, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2080, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2737 Judiciary and Labor on S.B. No. 3070

The purpose of this measure is to clarify court procedures on the seventy-two hour hold and extended hold process as it relates to the conditional release of persons originally committed from the Hawaii State Hospital or related facility.

Your Committee received testimony in support of this measure from the Department of Health and the Judiciary.

Your Committee finds that this measure allows the court to conduct a hearing, at or before the expiration of the seventy-two hour period of hospitalization, to determine whether the person would benefit from further hospitalization which may render a revocation of a conditional release unnecessary. The court, if satisfied at the hearing, may order further temporary hospitalization for a period not to exceed ninety days, subject to extension as appropriate, but not to exceed one year. At any time within that one year period, the court may determine that another hearing should be conducted to determine whether the conditions of release should be modified or that the person should be ordered to the custody of the Director of Health to be subject to further proceedings under law for conditional release.

This measure is intended to make explicit in the statute the distinction between a conditional release and a revocation of a conditional release for a period of seventy-two hours. Testimony indicated that this measure will result in decreasing the utilization of bed space at the Hawaii State Hospital by limiting the length of time of a committal pursuant to a conditional release revocation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3070, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2738 Judiciary and Labor on S.B. No. 2263

The purpose of this measure is to require the University of Hawaii Board of Regents to publicly disclose certain information in open meetings.

Testimony in support of this measure was received from the University of Hawaii Professional Assembly and one individual. The Office of Information Practices submitted comments.

The information to be disclosed under this measure is:

- (1) Compensation offered to newly hired employees;
- (2) Changes in compensation offered to existing employees for administrative positions in the University of Hawaii System filled by excluded employees; and
- (3) All budgetary expenditures made by the Board of Regents.

Over the past few years, salaries of University of Hawaii faculty and administrators have dramatically increased. They have escalated to the point that approximately four hundred and seventy-three faculty and administrators are currently paid salaries that exceed the salary of the Governor of Hawaii, which makes the matter one of statewide importance and concern. Recently, much of the University's management and operations has been called into question, including its current practice of preventing public access to information on the potential salaries of new faculty and administrators and expenditures of the Board of Regents. The public disclosure of information on the salaries of new hires at the University of Hawaii and for raises for top administrators will enable the public to more fully participate in the affairs of this public institution.

The intent of this measure is to afford the public the opportunity to review and comment on the compensation of excluded employees of the University of Hawaii and the expenditures of the Board of Regents.

Your Committee has amended this measure by making technical amendments as suggested by the Hawaii Government Employees Association to clarify that administrative employees of the University of Hawaii are executive/managerial employees under collective bargaining unit 8 and excluded employees represented by AFSCME.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2263, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2263, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2739 Judiciary and Labor on S.B. No. 2896

The purpose of this measure is to reduce and deter unlicensed contractor activity in this State by prohibiting the resumption of work by any contractor who is issued a citation for operating without a license.

Your Committee received testimony in support of this measure from the Subcontractors' Association of Hawaii. Testimony in opposition was received from the General Contractors Association of Hawaii and testimony with concerns was submitted by the Iron Workers Stabilization Fund.

Your Committee finds that unlicensed contracting activity is a serious problem that decreases state revenues and adversely impacts legitimate contractors and consumers, all of whom face the consequences of having to contend with contractors who refuse to play by the rules. Your Committee notes that this measure will focus on those contractors who continue to perform work without a license, by requiring them to cease work immediately upon the issuance of a citation and prohibiting them from resuming work until all licensing requirements are met. In addition, it is the intent of your Committee that the foregoing requirements apply to general contractors as well as subcontractors. In this regard, unlicensed general contractors will receive the same citation and cease and desist orders as unlicensed subcontractors.

Your Committee has amended this measure by requiring investigators to issue both citations and cease and desist orders upon determining that the contractor is performing work without a license.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2896, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2896, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Hee).

SCRep. 2740 Judiciary and Labor on S.B. No. 3080

The purpose of this measure is to enable the Hawaii Health Systems Corporation to perform criminal history record checks on all existing employees, prospective contractors, volunteers, and vendors via the Hawaii Criminal Justice Data Center's Federal Bureau of Investigations (FBI) checks.

Testimony in support of this measure was received from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Currently, the Hawaii Health Systems Corporation is authorized by federal law to conduct FBI criminal history background checks on employees and applicants who will have direct contact with children, the elderly, and disabled patients. This measure would expand that authority to conduct background checks on all employees and applicants, including current and potential contractors, and providers of services and volunteers, without regard to having direct contact with patients.

The intent of this measure is to promote the safety of patients and employees of the Hawaii Health Systems Corporation.

Your Committee has amended this measure by changing the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3080, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3080, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2741 Judiciary and Labor on S.B. No. 3071

The purpose of this measure is to allow the Director of Health to apply to the court for any committed persons to be discharged from, or for the modification of any order granting conditional release.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that enabling the Director of Health to petition the courts for discharges, where appropriate, will help to ease the overcrowding problem at the Hawaii State Hospital and protect the health and safety of the patients and staff at the hospital. Furthermore, the changing mental condition of the person is always relevant at any point in time to the person's legal custodial status. Your Committee notes that a person on conditional release is required to receive community-based mental health services until no longer affected by the mental condition, disorder, or defect and is no longer a danger to themselves or to others.

Your Committee has amended this measure by making technical changes on the recommendation of the Department of Health.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3071, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3071, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2742 (Majority) Judiciary and Labor on S.B. No. 2064

The purpose of this measure is to exempt psychologists from jury service in order to better serve the residents of Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Psychological Association, Na Pu'uwai Native Hawaiian Health Care System, and twenty-one individuals. Your Committee received testimony in opposition to this measure from the Judiciary and The League of Women Voters of Hawaii.

Your Committee finds that exempting psychologists from jury service will serve to protect the health of the public by avoiding a disruption in patient care. In this regard, it is often difficult to replace one psychologist with another, without significant risk to the health or well-being of the patient. Furthermore, patients in rural areas may face additional difficulties due to a shortage of psychologists.

Your Committee has amended this measure by exempting only psychologists who are in the full-time practice of treating patients. Testimony from various proponents of this measure indicated that the need for this exemption is directly related to patient care.

Your Committee has also amended this measure by amending the effective date to July 1, 2050, for purposes of facilitating further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2064, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2064, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 2743 Judiciary and Labor on S.B. No. 3060

The purpose of this measure is to allow the Hawaii Public Housing Authority to hold public housing eviction hearings without the public housing tenant member of the eviction board present so long as quorum is met.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that a situation has developed where public housing eviction hearings have been delayed for months due to an inability to find a public housing tenant to serve on an eviction board, due in part to a fear of retaliation from fellow housing residents.

Your Committee recognizes that the tenant board member plays an important role by representing the tenants' interest at an eviction hearing and your Committee wants to note that this measure is not eliminating the tenant board member from the eviction process but instead enables the eviction process to resume if the tenant board member does not attend the hearing and there is still a quorum of the other members. Your Committee is willing to explore inserting additional language to require at least one meeting to transpire in absence of the tenant member, before a vote is allowed to be taken on the eviction in absence of the tenant member. Accordingly, the vote in absence of the tenant member may be taken on the eviction at the subsequent meeting if there is a quorum. Your Committee further finds that allowing the Hawaii Public Housing Authority to hold eviction hearings without the presence of the tenant member of the board will eliminate time delays and save the Authority, which is currently running at a deficit, the costs incurred by the delays.

Your Committee has amended this measure to change the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3060, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3060, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2744 Ways and Means on S.B. No. 2624

The purpose of this measure is to appropriate moneys to continue the work of the Hawaii Energy Policy Forum.

Specifically, this measure appropriates an unspecified amount of funds to the Hawaii Energy Policy Forum to:

- (1) Implement the detailed action plans to its ten point plan to meet Hawaii's energy goals;
- (2) Monitor energy-related policies and programs to continually assess and update tangible goals, objectives, desired outcomes, and actions to achieve the energy vision and goals of the Hawaii Energy Policy Forum;
- (3) Continue to refine and evaluate benchmarks for measuring outcomes of energy implementation strategies;
- (4) Continue to engage Hawaii's business, government, labor, and community leaders and integrate them into its policy activities and discussions; and
- (5) Continue to educate the greater community and create public awareness about Hawaii's energy needs.

This measure also requires the Hawaii Energy Policy Forum to submit a report to the Legislature prior to the 2009 Regular Session.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii Energy Policy Forum, Hawaiian Electric Company, Inc., and the Hawaii Solar Energy Association. Comments on this measure were submitted by the University of Hawaii at Manoa.

Your Committee finds that the Hawaii Energy Policy Forum has made considerable progress to date, and this measure would allow the Hawaii Energy Policy Forum to continue its work to develop strategies that will meet Hawaii's energy goals.

In addition, your Committee considered S.B. No. 2625, S.D. 1 (2007), which also makes an appropriation to continue the work of the Hawaii Energy Policy Forum. Specifically, this measure appropriates an unspecified amount of funds for the Hawaii Energy Policy Forum to conduct a study on energy-efficient transportation strategies with the Department of Business, Economic Development, and Tourism, the Department of Transportation, and members of the energy-efficient transportation strategies working group. Your Committee further finds that S.B. No. 2625, S.D. 1, would allow for the continued research and development of much-needed energy-efficient transportation alternatives for the State.

Upon further consideration, your Committee finds that both of these measures aim to achieve similarly beneficial goals, and the appropriations in each bill would allow the Hawaii Energy Policy Forum to continue its work toward a clean, efficient, and sustainable energy future for the State.

Accordingly, your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 2625, S.D. 1; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2624, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2624, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2745 Ways and Means on S.B. No. 3221

The purpose of this measure is to:

- (1) Acquire the Coco Palms Resort on the island of Kauai and convert it into a public historical park and cultural center to preserve and benefit native Hawaiian culture; and
- (2) Appropriate matching funds for that purpose.

Bali Hai Weddings and one individual submitted testimony in support of this measure. The Department of Land and Natural Resources submitted comments.

Your Committee finds that the area encompassing the Coco Palms Resort on the island of Kauai is culturally significant to the history of native Hawaiians. The area was once the home of Kauai's last reigning queen, Queen Deborah Kapule, and includes some of the oldest heiau, which are places of refuge and for birthing of chiefs. A two thousand-tree coconut grove is also within the Coco Palms Resort that was originally planted with coconut tree nuts imported from Samoa in 1896. The Coco Palms Resort has been neglected over the years and fallen into disrepair.

This measure appropriates funds for the Board of Land and Natural Resources to enter into negotiations in partnership with other public and nonprofit agencies to acquire the approximately thirty-two acres of land referred to as the Coco Palms Resort for a public historical park and cultural education center. Your Committee finds that this measure will help preserve and benefit the native Hawaiian culture.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the sums of the general obligation bonds and the appropriation to unspecified amounts;
- (2) Adding language to indicate that the appropriation made for the capital improvement project authorized under section 4 of the bill that are unencumbered as of June 30, 2010, shall lapse as of that date;
- (3) Designating the Department of Land and Natural Resources as the expending agency for purposes of the general obligation bonds and the appropriation out of the general revenues; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3221, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3221, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2746 Ways and Means on S.B. No. 2833

The purpose of this measure is to address the long range issues critical to Hawaii's way of life and natural resources by enacting the Hawaii 2050 sustainability plan.

More specifically, the measure:

- (1) Sets forth and adopts the Hawaii 2050 sustainability plan as a new chapter under title 13, Hawaii Revised Statutes;
- (2) Establishes a sustainability council to coordinate, implement, measure, and evaluate the progress of the Hawaii 2050 sustainability plan and its related progress; and
- (3) Appropriates funds for the creation of the council.

Testimony in support of this measure was submitted by the Hawaii Sustainability Task Force, the Office of Hawaiian Affairs, the Hawaii State Teachers Association, the Hawaii Association of Independent Schools, The Nature Conservancy of Hawaii, the Chamber of Commerce of Hawaii, the Aloha United Way, the Hawaii Government Employees Association, the Hawaii State AFL-CIO, the Hawaii Science and Technology Council, the Hawaii Farm Bureau Association, the National Association of Social Workers, Actus Lend Lease, God's Country Waimanalo, and five private individuals. Three private individuals submitted comments. Testimony opposing the measure was submitted by the Office of the Governor, the Hawaii Business Roundtable, and three private individuals.

Your Committee has amended this measure by:

- (1) Clarifying that five of the nine public members of the Sustainability Council initially appointed shall be members of the Hawaii 2050 sustainability task force;
- (2) Clarifying that the five members of each advisory committee shall not be council members;
- (3) Clarifying when the council's first annual report will be due; and
- (4) Making technical nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2833, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, none.

SCRep. 2747 Ways and Means on S.B. No. 2826

The purpose of this measure is to transfer responsibilities for procurement practices training and development from the Department of Human Resources Development to the State Procurement Office. In addition, the measure:

- (1) Mandates procurement practices training for procurement officers of the State and county; and
- (2) Clarifies that the Comptroller serves as an ex-officio nonvoting member of the State Procurement Policy Board.

The State Procurement Office submitted comments.

Your Committee finds that procurement training is an important and vital tool for ensuring that proper procurement practices are achieved in expenditures of public moneys. Your Committee further finds that the charge of conducting procurement training is more appropriately situated with the State Procurement Office rather than the Department of Human Resources Development.

Your Committee has amended this measure to clarify that, although procurement practices training is available to procurement officers of the State and the counties, attendance at procurement training programs is mandatory only for state procurement officers. Attendance is elective for county procurement officers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2826, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2748 (Majority) Ways and Means on S.B. No. 2727

The purpose of this measure is to establish the Ha'iku Valley Cultural Preserve Commission which shall have policy and management oversight of the Ha'iku Valley Cultural Preserve.

Specifically, this measure:

- (1) Establishes the Ha'iku Valley Cultural Preserve and limits its future uses in perpetuity to cultural, archaeological, and environmental preservation, restoration, protection, and education;
- (2) Establishes the Ha'iku Valley Cultural Preserve Commission within the Office of Hawaiian Affairs to have authority over the policy and management of the Ha'iku Valley Cultural Preserve;
- (3) Creates penalties for violating laws or rules applicable to the Ha'iku Valley Cultural Preserve;
- (4) Authorizes the conveyance of "all of Ha'iku Valley" in fee simple to the Office of Hawaiian Affairs and appropriates an unspecified amount for the acquisition of Ha'iku Valley;
- (5) Provides for the preserve's eventual transfer to a sovereign Hawaiian entity upon its recognition by the United States and the State; and
- (6) Establishes the Ha'iku Valley Cultural Preserve Trust Fund.

Testimony in support of this measure was submitted by Kupuna o Kahana, The Koolau Foundation, Koolaupoko Hawaiian Civic Club, and five concerned individuals. Comments on this measure were submitted by the Department of Land and Natural Resources.

Your Committee finds that Ha'iku Valley is home to significant cultural, historical, and environmental resources. Your Committee finds that the creation of the Ha'iku Valley Cultural Preserve and the Ha'iku Valley Cultural Preserve Commission may provide an effective mechanism for preserving these resources.

However, your Committee has concerns with several important provisions relating to the measure and believes that further clarification is needed. Your Committee understands that Ha'iku Valley generally includes several landowners, including the Department of Hawaiian Home Lands. Your Committee believes that this measure ultimately needs to include precise boundaries for the lands to be included in the Ha'iku Valley Cultural Preserve and also needs to address potential impacts that the establishment of the preserve may have on other landowners in the valley.

Furthermore, your Committee notes that the measure limits future activities in the Ha'iku Valley Cultural Preserve, including a prohibition on commercial activities. However, section -7 allows the Ha'iku Valley Cultural Preserve Commission to adopt rules that permit farming activities in the preserve. Your Committee believes that more clarity is needed on the impact on farming in the preserve as a commercial activity.

Upon further consideration, your Committee finds that key provisions of this measure deserve further clarity and discussion as the bill moves forward. Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2727, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2727, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Inouye).

SCRep. 2749 Ways and Means on S.B. No. 2423

The purpose of this measure is to direct the State to acquire Turtle Bay.

Specifically, the measure authorizes the Department of Land and Natural Resources or any other appropriate entity of the State to acquire lands situated in central Oahu owned by Kuilima Resort Company, Oaktree Capital, LLC, and their successor in interest, commonly known as Turtle Bay Hotel and Resort, located in Kahuku, Oahu. Additionally, the measure authorizes the issuance of an unspecified amount of general obligation bonds to purchase the property.

Your Committee received testimony in support of the measure from Trust for Public Land, Surfrider Foundation, and thirty-three individuals.

Your Committee finds that this measure is necessary to protect and preserve lands that are of historic and cultural value to the State.

Your Committee has amended this measure by:

- (1) Redesignating the Governor, or the Governor's designee, as the entity to acquire the lands;
- (2) Identifying the Department of Land and Natural Resources as the expending agency for the general obligation bond appropriation;
- (3) Changing the effective date to July 1, 2050 to promote continued discussion of the matter; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2423, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2423, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 3 (Fukunaga, Kim, Menor). Noes, none. Excused, 1 (Inouye).

SCRep. 2750 Ways and Means on S.B. No. 2191

The purpose of this measure is to conduct a statewide study on undergrounding overhead utility lines.

Specifically, this measure directs the Public Utilities Commission to conduct a statewide study to select one priority region in each county with overhead utility lines that are prone to repeated falling or damage due to weather and other occurrences, and which may be addressed with the undergrounding of utility lines. In consultation with public utility providers and the community, the Commission shall develop a plan to underground overhead utility lines in those areas. This measure also appropriates an unspecified amount from the public utilities commission special fund for the study and planning.

Testimony in support of this measure was submitted by Hawaiian Electric Company, Inc. Comments on this measure were submitted by the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs.

Your Committee finds that severe weather and storm damage repeatedly result in downed utility lines, damaged utility poles, and extended power outages in several vulnerable areas of the State. Your Committee finds that it would be beneficial to identify those areas that are most in need and which will be helped most by underground utility lines. Your Committee believes that a fiscally and logistically sound strategy would be to identify one such area in each county and develop a plan for undergrounding overhead utility lines in that area, in consultation with the local utility provider and the community.

Upon further consideration, your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2191, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2191, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2751 Ways and Means on S.B. No. 2154

The purpose of this measure is to create a pilot community conservation program for the Lahaina and Kaanapali areas of Maui.

Specifically, this measure establishes a five year pilot community conservation program within the Department of Land and Natural Resources Division of Conservation and Resources Enforcement, Maui district office. The program will provide training to volunteers,

and education, and outreach in the community on natural resources laws, regulations, and enforcement. The measure also authorizes the Maui district office to hire ten full-time equivalent employees to staff the pilot program, and appropriates funds for the program.

Testimony in support of this measure was submitted by The Nature Conservancy, Maui Unite, Octopus Garden Divers, and eleven concerned individuals. Comments on this measure were submitted by the Department of Land and Natural Resources.

Your Committee finds that the management and protection of the State's natural and cultural resources may be assisted through the formation of partnerships between communities and the Department of Land and Natural Resources. Your Committee further finds that a community conservation program will empower the community through education on natural resource protection laws, increase community participation in conservation, and reduce the number of resource violations.

Upon consideration, your Committee finds that the pilot community conservation program in the Department of Land and Natural Resources Division of Conservation and Resources Enforcement, Maui district office, should focus on education and conservation efforts related to near-shore and marine resources.

Accordingly, your Committee has amended this measure by:

- (1) Making amendments throughout to specify that the work of the pilot program will relate to near-shore and marine resources;
- (2) Adding a definition of the term "ahupuaa";
- (3) Deleting references to sustainably managing cultural resources as a role of the pilot program;
- (4) Specifying that the appropriation may be used for the hiring of additional staff for the pilot program;
- (5) Replacing the amount of the appropriation with an unspecified amount to facilitate further discussion on this measure; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2154, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2154, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2752 Ways and Means on S.B. No. 1368

The purpose of this measure is to ensure effective timing of development on planned or approved urban or rural land classification.

More specifically, this measure requires the Land Use Commission to establish a "use-it-or-lose-it policy" under which a petition must include and meet deadlines for substantial development progress in order to be approved for reclassification to the urban or rural district. Additionally, the measure requires the Land Use Commission to hold statewide hearings to receive public input in developing this policy and to submit a report of the recommendations to the Legislature and the Governor.

The Office of Planning submitted testimony in support of this measure. The City and County of Honolulu submitted comments.

Your Committee finds that there are instances where lands that have been reclassified by the Land Use Commission to the urban or rural district remain undeveloped for many years after the reclassification. During this time, circumstances may have changed in a manner that significantly impacts the original development proposal and therefore warrants review of the reclassification. Your Committee further finds that this measure will help reduce premature reclassifications and curb speculative land banking.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1368, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1368, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2753 Ways and Means on S.B. No. 2879

The purpose of this measure is to:

- (1) Establish a power of attorney for special education;
- (2) Establish a process to appoint a surrogate decision maker for an adult or emancipated minor who lacks capacity; and
- (3) Clarify the authority of a guardian of an adult or emancipated minor student.

The State Council on Developmental Disabilities, Special Education Advisory Council, Hawaii Disability Rights Center, Community Workgroup, and Family Voices of Hawaii submitted testimony in support of this measure. The Department of Education submitted testimony in opposition to this measure. The Judiciary submitted comments.

When a special education student reaches age eighteen, the presumption is that the student is now capable of making decisions in the student's own educational interest without the consent of either parent. Parents who need or want to continue to participate and provide input in the special educational needs of their adult or emancipated minor children because those children lack capacity are forced to petition the court for guardianship.

This measure attempts to establish a less restrictive alternative to guardianship that balances the continued participation of parents in the special education process with the rights of adult and emancipated minor students. This measure is in response to, in part, the cost and complexity of existing guardianship proceedings.

Your Committee finds that there is a need for a mechanism that includes parents in the special education process without unduly constraining the autonomy of adults or emancipated minors with special education needs.

The proponents of this measure recognize that there are areas of concern that need to be addressed and are actively working to resolve them. Therefore, your Committee has left the effective date of July 1, 2050 in the measure to encourage further discussion. In addition, your Committee has amended this measure by:

- (1) Deleting the appropriation; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2879, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2879, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2754 Ways and Means on S.B. No. 3250

The purpose of this measure is to require the University of Hawaii to develop an incentive and performance outcome funding component for the University's long-range financial plan.

In addition, the measure requires the University to submit to the Legislature an annual incentive and performance report, beginning in 2008.

Your Committee received testimony in support of this measure from the University of Hawaii.

Your Committee finds that the University of Hawaii should be accountable for its funds in a manner that is consistent across university campuses and measurable with respect to fiscal allocations pursuant to:

- (1) Senate Concurrent Resolution No. 79, (2007), that requested the University to link the funding for university campuses with performance goals and to develop a budgeting system that reflects achievements, challenges, and needs; and
- (2) Senate Concurrent Resolution No. 137, (2007) that requested the University of Hawaii to develop a long-term financial plan.

The University of Hawaii recently reexamined and updated its strategic plan for the next eight years and is ready to develop a financial plan to reach its strategic goals by developing an educational compact that would clearly link funding with specific goals and performance measures.

This measure requires the University to develop an incentive and performance outcome funding component for the financial plan by:

- (1) Increasing the legislative and public support for higher education;
- (2) Allocating funds through a dual approach of incentives and performance-based funding;
- (3) Monitoring the general condition of the University system;
- (4) Identifying potential sources of problems or areas for improvement;
- (5) Improving the effectiveness and efficiency of colleges within the University system;
- (6) Focusing college, campus, department, and university efforts on state priorities and goals;
- (7) Assessing progress on state priorities and goals to improve graduate and undergraduate education; and
- (8) Improving consumer information on higher education.

Your Committee has amended the measure by:

- (1) Rephrasing the provision "The purpose of the annual incentive and performance report is to assist the legislature in appropriating 'approximately two per cent' of the University of Hawaii's annual budget..." to "appropriating 'up to two per cent'..."; and
- (2) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3250, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3250, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2755 Ways and Means on S.B. No. 2860

The purpose of this measure is to establish a science and technology task force, attached to the University of Hawaii, to develop a state master plan for science and technology.

Additionally, this measure requires the task force to complete a preliminary plan and report prior to the convening of the Regular Session of 2009, and to submit updated reports every two years thereafter.

Testimony in support of the measure was received from the University of Hawaii system, the Board of Education, and the Hawaii Science and Technology Council. Comments on the measure were submitted by the High Technology Development Corporation.

Your Committee finds that a well-conceived master plan will provide direction for the State in making programmatic and fiscal decisions related to the growing technology industry.

Your Committee has amended the findings section of this measure by correcting an error relating to the duration of the grant award. Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2860, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2860, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (Hooser, Tsutsui, Whalen).

SCRep. 2756 Ways and Means on S.B. No. 2668

The purpose of this measure is to:

- (1) Require the submission of candidates' names for the Regents Candidate Advisory Council within sixty days following the notification of a vacancy;
- (2) Clarify the requirement of the submission of the names of the candidates to the Governor;
- (3) Make confidential all information received or maintained by the Regents Candidate Advisory Council;
- (4) Require candidates to reside in the geographic area that each candidate represents;
- (5) Require the Governor to notify the Regents Candidate Advisory Council of vacancies on the Board of Regents in a timely manner; and
- (6) Appropriate funds for an administrative position to support the operations of the Regents Candidate Advisory Council.

The Regents Candidate Advisory Council submitted testimony in support of this measure.

Your Committee finds that this measure amends the law relating to the Regents Candidate Advisory Council for the Board of Regents of the University of Hawaii to conform with the recent amendment of article X, section 6 of the Hawaii State Constitution.

Upon further consideration, your Committee has amended this measure by replacing the sum of the appropriation with an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2668, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2668, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2757 Ways and Means on S.B. No. 2164

The purpose of this measure is to establish the Hawaii charter schools facilities fund to fund the repair, maintenance, and other facilities needs of charter schools.

More specifically, the measure establishes the Hawaii charter schools facilities fund as a separate fund of the Charter School Administrative Office, and it establishes a Hawaii Charter School Facilities Fund Advisory Board to manage the fund. The measure appropriates \$2,500,000 to this new special fund for fiscal year 2008-2009.

Testimony in support of the measure was received from the West Hawaii Explorations Academy, Kanu o ka Aina Learning Ohana, Kookakoo Corporation, and Halau Ku Mana Public Charter School. Testimony opposing the measure was received from the Department of Budget and Finance. Kamehameha Schools submitted comments.

Your Committee finds that charter schools provide an alternative learning experience for students and families, so it is fitting that funding for charter school operations, including facilities, be accomplished using creative, alternative approaches. Your Committee further finds that the Hawaii charter schools facilities fund is modeled after the Hawaii 3R's program, which has enjoyed great success in its use of private financial and human resources.

Your Committee has amended the measure by:

- (1) Placing the Hawaii charter schools facilities fund in the state treasury, rather than Kanu o ka Aina Learning Ohana;
- (2) Specifying that the Charter School Administrative Office shall administer the Hawaii charter schools facilities fund;
- (2) Clarifying that the fund can receive grants and private donations, in addition to public funds, and that all moneys in the fund shall be used only for the purposes for which the fund was established;
- (3) Exempting the fund from the central services assessment and the pro rata share of administrative expenses; and
- (4) Deleting the specific amount appropriated to the fund; and
- (5) Making necessary conforming amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2164, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2164, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Fukunaga, Hooser).

SCRep. 2758 Ways and Means on S.B. No. 2546

The purpose of this measure is to make clarifying amendments to laws relating to the offender reentry system.

Specifically, these amendments clarify the levels and composition of interagency cooperation and the duties of the Director of Public Safety.

Your Committee received testimony in support of the measure from the Drug Policy Forum of Hawaii, the Community Alliance on Prisons, and a concerned citizen. Testimony in opposition to the measure was received from the Department of Taxation. Comments on the measure were received from the Department of Human Services, Maui Economic Opportunity's BEST Reintegration Program, and a concerned citizen.

Your Committee finds that the offender reentry system assists adult offenders with their reintegration back into society and offers a full continuum of services that are accessible during and immediately after their incarceration.

Your Committee has amended this measure by deleting an amendment that would have reversed the roles of principal and secondary executive departments charged with proposing tax incentives for employers who hire ex-offenders. Your Committee believes that the Department of Public Safety should continue to be the lead agency with assistance of others. Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2546, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2546, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2759 Ways and Means on S.B. No. 2710

The purpose of this measure is to authorize the counties to employ retired state or county government employees who are receiving retirement benefits under the Employees' Retirement System.

Additionally, this measure specifies that the retirees rehired by the counties will not earn additional retirement service credit or be required to contribute to the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Judiciary, the Honolulu Fire Department, the County of Hawaii Department of Human Resources, the County of Maui Department of Personnel Services, and the Hawaii Government Employees Association. Comments on the measure were received from the Employees' Retirement System and the Mayor of the County of Hawaii.

Your Committee finds that this measure will enable retired state and county government employees to return to work as county government employees without incurring any negative financial consequences. This measure will also enable the county governments to hire skilled and qualified employees for labor shortage positions and for other positions that are deemed critical-to-fill.

Your Committee has amended this measure by:

- (1) Clarifying qualifying retirants to include retirants returning to a position of at least one-half of a full-time equivalent position; and
- (2) Making technical amendments recommended by the Employees' Retirement System.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2710, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2710, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2760 (Majority) Ways and Means on S.B. No. 3227

The purpose of this measure is to expand the authority of the Aloha Tower Development Corporation to assist in the development of the statewide harbors modernization plan.

This measure also authorizes the Department of Transportation to issue revenue bonds to finance harbor improvements and transfers the Hana harbor, excluding its small boat ramp facility, from the Department of Land and Natural Resources to the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation, Aloha Tower Development Corporation, Hawaii Harbors Users Group, Chamber of Commerce of Hawaii, and Retail Merchants of Hawaii. The Department of Planning and Permitting of the City and County of Honolulu offered comments.

Upon further consideration, your Committee has amended this measure by making various technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3227, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3227, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 3 (Hooser, Tsutsui, Whalen). Noes, 1 (Kim). Excused, none.

SCRep. 2761 Ways and Means on S.B. No. 3258

The purpose of this measure is to establish guidelines for Medicaid reimbursement to hospitals for patients who are waitlisted for long term care and to long term care facilities for patients with medically complex conditions who were previously receiving acute care services in an acute hospital.

Additionally, this measure appropriates funds for Medicaid reimbursements to hospitals and nursing facilities.

Your Committee received testimony in support of this measure from the Policy Advisory Board for Elder Affairs, Hawaii Disability Rights Center, Healthcare Association of Hawaii, Hawaii Long Term Care Association, and The Queen's Medical Center. Testimony in opposition to the measure was received from the Department of Human Services.

Your Committee finds that adjustment to Medicaid payments will improve the flow of patients from acute hospitals to facilities with long term care beds and will alleviate the waitlist backlog that patients are facing.

Your Committee has amended this measure by adopting the recommendations suggested by Healthcare Association of Hawaii by:

- (1) Recasting the section of the measure on Medicaid reimbursements as a new section to be added to chapter 346, Hawaii Revised Statutes (the Department of Human Services law), and adding clarifying language, such as replacing the term "long term care facilities" with the term "facilities with long term care beds";
- (2) Expanding the appropriation for Medicaid reimbursements to hospitals to include facilities with long term care beds, deleting reference to waitlisted patients and the payment rate, and changing the appropriation to an unspecified amount; and
- (3) Deleting the appropriation for Medicaid payments to nursing facilities as duplicative with the foregoing changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3258, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3258, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2762 Ways and Means on S.B. No. 2214

The purpose of this measure is to increase efforts to allow education and training as one of the pathways to economic self-sufficiency for recipients of federal assistance.

Specifically, this measure modifies the eligibility requirements of and expands the Bridge to Hope program to enable all heads of households who are participating in the First-to-Work program to pursue a full range of educational activities as part of their work activities.

Your Committee received testimony in support of this measure from the Department of Human Services, University of Hawaii, University of Hawaii Bridge to Hope, Legal Aid Society of Hawaii, Hawaii Women Work!, National Association of Social Workers, and thirteen individuals.

Upon further consideration, your Committee amended this measure to clarify the reference to the current statute pursuant to which the Department of Human Services has expanded education policy for First-to-Work participants as section 346-68, Hawaii Revised Statutes. Your Committee also made technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2214, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2214, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2763 Ways and Means on S.B. No. 2246

The purpose of this measure is to:

- (1) Extend the timeframe in which a former foster youth may apply for a higher education board allowance;
- (2) Provide a foster youth, who is between twenty-two and twenty-six years of age as of July 1, 2008, and who is already attending a higher education institution, with an opportunity to apply for a higher education board allowance within one-year;
- (3) Increase the maximum age for the benefit; and
- (4) Set a maximum benefit length of sixty months.

The Department of Human Services; Legal Aid Society of Hawaii; Hawaii Foster Parents Association; Hawaii Youth Services Network; Hawaii Catholic Charities, Hawaii Family Forum; and Children's Alliance of Hawaii, Inc. submitted testimony in support of this measure.

Your Committee finds that compared to the general population, former foster youth have a higher risk of becoming homeless, incarcerated, involved in violence, or of reentering "the system" as parents of abused or neglected children. Higher education board

allowances have been helpful in assisting foster youth to successfully transition into the community. Your Committee finds that this measure will help former foster youth become healthier, more productive adults.

Upon further consideration, your Committee has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2246, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2246, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2764 Ways and Means on S.B. No. 2397

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Castle Medical Center and its affiliates with equipment purchases and for the construction and improvement of health care facilities.

Your Committee received testimony in support of this measure from Healthcare Association of Hawaii and the governing board, the president and chief executive officer, and staff of the Castle Medical Center.

Your Committee finds that this measure will ensure the continued provision of quality health care services at Castle Medical Center.

Your Committee has amended this measure by specifying a bond authorization amount of \$30,000,000 and by changing the effective date to July 1, 2050 to promote continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2397, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 4 (Hooser, Tokuda, Tsutsui, Whalen).

SCRep. 2765 Ways and Means on S.B. No. 2151

The purpose of this measure is to expand the long-term care ombudsman program by adding three county ombudsman positions, and by appropriating funds for those positions.

Specifically, this measure establishes one local ombudsman position in each of the counties of Hawaii, Maui, and Kauai within the Office of the Long-Term Care Ombudsman to work under the supervision of the Long-Term Care Ombudsman in achieving the goals of the program as mandated by the United States Administration on Aging through the Older Americans Act.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, Hawaii Disability Rights Center, National Association of Social Workers, Policy Advisory Board for Elder Affairs, and the Kokua Council. The Executive Office on Aging and the State Long-Term Care Ombudsman offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding five sections to the measure to make amendments to various provisions of the Hawaii Revised Statutes to conform to the change in the title of the Long-Term Care Ombudsman to the State Long-Term Care Ombudsman;
- (2) Adding a provision for the State Long-Term Care Ombudsman, with the approval of the Executive Office on Aging, to appoint the three local long-term care ombudsmen;
- (3) Making a conforming amendment to section 349-22(c), Hawaii Revised Statutes, relating to repeal of the requirement that written consent of the resident or the resident's representative is required to disclose resident records;
- (4) Correcting language in the measure that differed from the printed version of the Hawaii Revised Statutes;
- (5) Adding a requirement to provide contact information for local long-term care ombudsmen to long-term care facilities; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2151, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2151, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2766 Ways and Means on S.B. No. 2273

The purpose of this measure is to expand the income tax credit for motion picture and film production.

Specifically, this measure authorizes an additional five per cent tax credit for qualified production costs in any county, provided that the qualified production meets certain requirements relating to the employment, wages, and training of Hawaii residents.

Additionally, this measure authorizes the Department of Labor and Industrial Relations to implement and operate motion picture, digital media, and film production training programs. This measure specifies that funds from the employment and training fund may be used to support the programs but that the Director of Labor and Industrial Relations may not require employers in general to make contributions to the fund for those programs. Furthermore, this measure appropriates funds to the Department of Labor and Industrial Relations for development and implementation of training programs and the Department of Business, Economic Development, and Tourism for training approval and certification by the film industry branch.

Your Committee received testimony in support of this measure from a concerned citizen. Testimony in opposition to this measure was received from the Department of Business, Economic Development, and Tourism, the Department of Labor and Industrial Relations, and the Hawaii Film and Entertainment Board. Comments on the measure were received from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the additional tax credits created under this measure will promote the local growth of the motion picture and film production industry and increase and diversify employment opportunities for Hawaii residents.

Your Committee has amended this measure by specifying use of the industry standard to calculate the employee's minimum base rate of \$200 per day and making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2273, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2273, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Kim). Noes, none. Excused, 1 (Inouye).

SCRep. 2767 Ways and Means on S.B. No. 2153

The purpose of this measure is to provide a one-time mandatory income tax credit pursuant to article VII, section 6, of the Hawaii State Constitution.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the State is required to issue a mandatory tax credit when the balance of the general fund at the close of each of two successive fiscal years has exceeded five per cent of the general fund revenues for both fiscal years. The tax credit amount under this measure follows a sliding scale based on the adjusted gross income of a taxpayer.

Your Committee has amended the measure by changing the effective date to July 1, 2050 to promote further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2153, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2153, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Inouye).

SCRep. 2768 Ways and Means on S.B. No. 2082

The purpose of this measure is to:

- (1) Require the Department of Public Safety to develop a plan by January 1, 2009, to return as many of the female prisoners who are residents of Hawaii and incarcerated on the mainland as possible to Hawaii by July 1, 2009; and
- (2) Appropriate funds for this purpose.

The Maui Economic Opportunity's BEST Reintegration Program, Drug Policy Forum of Hawaii, Hawaii Youth Services Network, Community Alliance on Prisons, and two individuals submitted testimony in support of this measure. The Department of Public Safety submitted comments.

Approximately one hundred seventy-five female prisoners, who are residents of Hawaii, are incarcerated in mainland prisons. Many of these female prisoners are parents. Studies indicate that the risks to which children of incarcerated parents are exposed are even greater when geographical separation limits or precludes the children's regular visitation with their incarcerated parents. Your Committee finds that the expiration of the current contract for incarcerating female prisoners on the mainland in October 2008, provides an opportunity to develop a plan for housing and rehabilitating female prisoners here in Hawaii. This measure requires the Department of Public Safety to develop a plan by January 1, 2009, to return as many of these female prisoners as possible by July 1, 2009.

Upon further consideration, your Committee has amended this measure by making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2082, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2082, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2769 Ways and Means on S.B. No. 2913

The purpose of this measure is to exempt from the general excise and use taxes fuel sold from a foreign trade zone that is used by common carriers for interisland air transportation.

Your Committee received testimony in support of this measure from the Hawaii Chapter of the March of Dimes, Aloha Airlines, the Transport Workers Union, the Aloha Airlines Pilots' Union, the International Association of Machinists and Aerospace Workers, District 141, and the Association of Flight Attendants. The Governor's Tourism Liaison submitted testimony in opposition. Your Committee received comments on the measure from the Tax Foundation of Hawaii.

Your Committee finds that the sale of fuel sold from a foreign-trade zone for use by carriers traveling out-of-state is exempt from general excise and use taxes. However, carriers traveling interisland routes are not exempt.

This measure levels the playing field for interisland carriers by extending the tax exemption enjoyed by carriers traveling out-of-state to carriers traveling interisland.

Your Committee has amended the measure by:

- (1) Correcting underlying statutory language to reflect the printed version of the Hawaii Revised Statutes at page 2, line 14;
- (2) Clarifying the definition of “interisland air transportation”;
- (3) Clarifying references to the tax exemption in appropriate general excise tax and use tax laws; and
- (4) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2913, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2770 Ways and Means on S.B. No. 2083

The purpose of this measure is to improve the operation and effectiveness of the State Council for Interstate Adult Offender Supervision. More specifically, this measure:

- (1) Increases the membership of the State Council for Interstate Adult Offender Supervision;
- (2) Authorizes the Judiciary to assess a fee on parolees’ and probationers’ prison transfer applications; and
- (3) Establishes and provides funding for one full-time coordinator position under the Judiciary, to help carry out the duties of the interstate compact for the supervision of adult offenders.

The Hawaii Paroling Authority and the Judiciary submitted testimony in support of this measure.

The State Council oversees Hawaii’s participation in the Interstate Commission for Adult Offender Supervision, which is the national governing body for the movement of probation and parole offenders throughout the United States. Your Committee finds that this measure will assist in the oversight of interstate transfers by increasing the state council’s membership to include the Attorney General, Public Defender, and Honolulu Prosecuting Attorney, or their designees.

Testimony indicates that the Judiciary already imposes a probation services fee for each application made by a parolee or probationer for a transfer to the State. In consideration of this, your Committee has amended this measure by:

- (1) Clarifying that the interstate transfer fee applies to applications made by a parolee or probationer for a transfer out of the State; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2083, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2083, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2771 Ways and Means on S.B. No. 3185

The purpose of this measure is to provide funds for cervical cancer and breast cancer screening, education, and outreach.

Specifically, this measure would expand the Breast and Cervical Cancer Treatment Program under the Department of Human Services into the Breast and Cervical Cancer Comprehensive Cancer Control Program in cooperation with the Department of Health. The program would provide screening, education, and outreach services without regard to a patient’s eligibility for medicaid. The expanded role of the program would require the Department of Health to:

- (1) Screen for breast and cervical cancer;
- (2) Provide education on breast and cervical cancer risks; and
- (3) Provide outreach for women who are at risk for breast and cervical cancer.

Furthermore, the measure directs that \$150,000 of the funds appropriated to the Department of Human Services for the breast and cervical cancer comprehensive cancer control program be directed to the Department of Health to provide funding for screening, education, and outreach services.

Testimony in support of this measure was submitted by the American Cancer Society. The Department of Health and the Department of Human Services submitted comments.

Your Committee finds that measure will provide necessary and effective breast and cervical cancer screening, education, and outreach services for women who are not otherwise able to afford early detection services due to insurance status or financial barriers.

Upon further consideration, your Committee has amended this measure as follows by:

- (1) Renaming the program the “Comprehensive Breast and Cervical Cancer Control Program”;

- (2) Clarifying the responsibilities of the Department of Health in supporting the breast and cervical cancer screening, education, and outreach process; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3185, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3185, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2772 Ways and Means on S.B. No. 2840

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism to establish and update a self-sufficiency standard for the State.

More specifically, the measure directs the Department to establish a methodology that truly reflects the cost of living in Hawaii. In turn, such a tool could be used by public, private, and non-profit decision-makers in their efforts to help lower income families reach economic self-sufficiency.

Testimony in support of this measure was submitted by the Hawaii Alliance for Community-Based Economic Development, the Legal Aid Society of Hawaii, the National Association of Social Workers, and Hawaii Women Work! Testimony supporting the intent of the measure was submitted by the Department of Business, Economic Development, and Tourism and the Department of Human Services.

Your Committee has amended this measure to clarify that the self-sufficiency standard shall be updated biennially, or every two years. The measure is further amended to require the Department of Business, Economic Development, and Tourism to report biennially to the Legislature regarding the self-sufficiency standard. Other technical, nonsubstantive amendments have been made for the purpose of style and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2840, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2840, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2773 Ways and Means on S.B. No. 2026

The purpose of this measure is to exempt:

- (1) The offer or sale of a time share interest from the Time Sharing Plans Law if the offer or sale is for an additional interest in the same time share plan to an existing owner; and
- (2) From registration, a time share developer or an affiliated entity under common ownership if the time share interest being sold is in a time share plan located outside of Hawaii and the purchaser is an individual who currently owns a time share interest that was purchased from that developer or affiliated entity.

Wyndham Worldwide, Group RCI, American Resort Development Association, and Marriott International, Inc. submitted testimony in support of this measure. The Department of Commerce and Consumer Affairs submitted comments.

Your Committee finds that state law does not permit the sale of an additional interest in a time share plan to an existing customer in Hawaii when the time share plan is not registered in Hawaii. This measure balances a Hawaii entity's desire to sell additional interests to their existing owners without having to satisfy all of the state registration requirements against the need to ensure that consumer safeguard measures are in place. This will assist the time share industry to expand and provide greater tourism offerings in Hawaii.

Upon further consideration, your Committee has amended this measure by:

- (1) Replacing references in the bill to "the department" with references to "the director" to conform with the term used in the Time Share Plans Law, chapter 514E, Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2026, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2026, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2774 Ways and Means on S.B. No. 2315

The purpose of this measure is to designate a reciprocal insurer and its attorney-in-fact as a single entity.

The measure also exempts reciprocal insurers and their attorney-in-fact from the general excise tax and clarifies that the general excise tax exemption applies to insurers and not insurance companies.

The Department of Commerce and Consumer Affairs and Medical Insurance Exchange of California submitted testimony in support of this measure. The Department of Taxation and Tax Foundation of Hawaii submitted comments.

A reciprocal insurer is an insurance company that provides insurance through unincorporated associations of individuals, partnerships, or corporations called "subscribers" and is owned by its policyholders. The reciprocal insurer operates through an attorney-in-fact that is common to all subscribers.

While the reciprocal insurer and attorney-in-fact are virtually indistinguishable, both are subject to the general excise tax. This measure clarifies that the reciprocal insurer and its attorney-in-fact are a single entity, and except for the general excise tax, is subject to all taxes imposed upon corporations or others doing business in the State, except for taxes on income or gross receipts derived from its principal business as attorney-in-fact.

Your Committee finds that this measure will resolve an inequity in the current application of state tax law and will have a positive effect on the premium rates paid by reciprocal insurer subscribers, many of whom are private physicians.

Upon further consideration, your Committee has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2315, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2315, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2775 Ways and Means on S.B. No. 2783

The purpose of this measure is to include earthquake resistive devices in the state loss mitigation grant program.

The measure also requires the Insurance Commissioner to develop criteria for earthquake resistive devices and appropriates funds to the loss mitigation grant fund.

Your Committee received testimony in support of this measure from the Research Corporation of the University of Hawaii, the Simpson Strong-Tie Company, and the Hawaii Lumber Products Association. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and the Hawaii Association of Realtors. Hawaii Security Shutters submitted comments on this measure.

Your Committee finds that as more and more residents decide against purchasing disaster-related insurance coverage, the importance of loss mitigation increases. Expanding the state loss mitigation grant program to include earthquake resistive devices will provide needed incentives for homeowners to protect against the devastation of natural disasters.

Your Committee has amended the measure by:

- (1) Increasing the grant reimbursement percentage for wind and earthquake devices to fifty per cent;
- (2) Increasing the individual grant limit to \$5,000 for wind and earthquake devices;
- (3) Requiring the Insurance Division of the Department of Commerce and Consumer Affairs to develop a loss mitigation public awareness campaign and providing funding;
- (4) Appropriating funds for a testing facility to test safe room designs and other wind resistant devices;
- (5) Extending the loss mitigation grant program for three years;
- (6) Authorizing the Insurance Commissioner to determine standards for earthquake and wind resistive installation procedures and engineering content; and
- (7) Making technical nonsubstantive amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2783, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2783, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2776 Ways and Means on S.B. No. 2467

The purpose of this measure is to establish a new class of loans that the Department of Agriculture may offer to farmers and aquaculturists.

Specifically, this measure creates a class of (class "H") loans relating to sustainable projects, which are intended to improve operations viability.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Hawaii Aquaculture Association, and the Hawaiian Electric Company.

Your Committee finds that establishing this new class of loans will assist the Department in encouraging the growth, development, and well-being of the agriculture and aquaculture industries in the State.

Your Committee has amended this measure by making conforming amendments and technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2467, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2467, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2777 Ways and Means on S.B. No. 3073

The purpose of this measure is to allow certain Department of Health environmental programs to withhold sufficient moneys to cover the cost of electronic and credit card provider services when conducting business electronically.

Specifically, this measure allows certain programs of the Department of Health that collect fees for the issuance of permits, licenses, certificates, or similar approvals to first deduct any electronic and credit card processing fees or charges made pursuant to agreements between the Department and the electronic services and credit card services providers when the application or payment is made electronically.

Your Committee did not receive any testimony on this measure.

Upon further consideration, your Committee has amended this measure to clarify the title of the new section to be added to the Hawaii Revised Statutes by replacing the word “permits” with the phrase “applications and payments” to more appropriately encompass the true nature of the new provisions relating to the processing of electronic payments for the issuance of permits, licenses, certificates, and similar approvals, and to keep the contents within the narrow title drafted by the administration. Your Committee has also made technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3073, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3073, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2778 (Majority) Ways and Means on S.B. No. 2764

The purpose of this measure is to repeal the qualifying capacity limits provision of the ethanol facility tax credit.

The measure also provides a vehicle to change the total amount of ethanol facility tax credits allowed per year and repeals the sunset provision with respect to the total annual nameplate capacity for qualifying ethanol production facilities.

Your Committee received testimony in support of the measure from Alexander and Baldwin Company. Your Committee received comments on the measure from the Department of Business, Economic Development, and Tourism, the Department of Taxation, and the Tax Foundation of Hawaii.

Your Committee finds that since April 2, 2006, at least eighty-five per cent of Hawaii’s gasoline has been E-10 unleaded, which means gasoline containing ten per cent ethanol. Unfortunately, since there is no ethanol produced in Hawaii, the State imports \$96,000,000 worth of ethanol from foreign markets to meet the E-10 requirement.

This measure represents an opportunity for the State not only to invest in and capitalize on the E-10 gas requirement, but also to reduce its dependence on fossil fuels and establish Hawaii as a green, energy efficient state.

Your Committee has amended the measure by removing the blank amounts representing the total ethanol facility tax credits allowed per year. By retaining the \$12,000,000 limit on tax credits, the State will be able to quantify the cost of the tax credit and better manage the new ethanol production industry.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2764, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, 1 (Hemmings). Excused, none.

SCRep. 2779 Ways and Means on S.B. No. 2455

The purpose of this measure is to expand the renewable energy systems tax credit to include hydrogen energy systems.

Specifically, this measure allows an income tax credit for the installation and placement into use a hydrogen energy system on a property within the State and defines the term “hydrogen energy system”. The tax credit will apply to taxable years beginning after December 31, 2007. The measure authorizes tax credits of:

- (1) Thirty-five per cent of the actual cost or \$5,000 per unit for single-family residential properties, whichever is less;
- (2) Thirty-five per cent of the actual cost or \$10,000 per unit for multi-family residential properties, whichever is less; and
- (3) Thirty-five per cent of the actual cost or \$15,000 per unit for commercial properties, whichever is less.

Testimony in support of this measure was submitted by H2 Technologies, Inc., IdaTech, PLC, Kona Brewing Company, Plug Power, Inc., the National Hydrogen Association, and one concerned individual. Comments on this measure were submitted by the Department of Taxation, the Department of Business, Economic Development, and Tourism, and the Tax Foundation of Hawaii.

Your Committee finds that commercial hydrogen energy technology is an evolving means of achieving a preferred energy future for the State. The hydrogen and full cell technology have the potential to gain widespread use in Hawaii and provide an alternative source of renewable energy for electricity generation and transportation. Your Committee believes that the use of these technology applications should be encouraged through tax incentives that offset some of the costs to users.

Upon further consideration, your Committee has amended this measure by amending the definition of “hydrogen energy systems” to include equipment that produces or uses hydrogen in an electrochemical process to generate energy, electricity, or the transfer of heat.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2455, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2455, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2780 Ways and Means on S.B. No. 788

The purpose of this measure is to extend the lapsing date of certain appropriations relating to civil defense disaster relief to June 30, 2009.

This measure also appropriates unspecified amounts from general revenues for the state civil defense major disaster fund and for the state civil defense emergency supply program.

Your Committee received testimony in support of this measure from the State Department of Defense, Civil Defense Division, and the State Council on Developmental Disabilities. The Board of Land and Natural Resources offered comments.

Upon further consideration, your Committee has:

- (1) Inserted a technical correction referring to Act 118, Session Laws of Hawaii 2006, as amended by Act 89, Session Laws of Hawaii 2007, and reflecting the correct underlying law as it was amended by Act 89;
- (2) Deleted the appropriations of state general revenues for the state civil defense major disaster fund and for the state civil defense emergency supply program from this measure. Your Committee stresses that this deletion in no way dismisses or minimizes the legitimate needs served by these appropriations. However, given current fiscal constraints, your Committee finds that these appropriations for specific purposes will be better served through consideration of these, and all, needs in the larger context of the executive supplemental budget;
- (3) Renumbered the remaining sections accordingly; and
- (4) Changed the effective date of the measure to June 29, 2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 788, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 788, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2781 Ways and Means on S.B. No. 2156

The purpose of this measure is to improve transportation access for individuals who need to enter and leave the West Maui area on a daily basis.

Specifically, this measure creates an informal, temporary West Maui transportation access plan working group within the Department of Transportation to develop a West Maui transportation access plan to address road closures. The measure also allows the hiring of a consultant without regard to the Hawaii procurement code to develop the plan and appropriates an unspecified amount of funds for the purpose.

Your Committee received testimony in support of this measure from the Maui Land & Pineapple Company, Inc. The State Procurement Office offered comments.

Upon further consideration, your Committee has amended this measure by inserting a provision to terminate the temporary West Maui Transportation Access Plan Working Group on June 30, 2009, to assist the Legislature with matters that may arise after the working group submits its report prior to the convening of the 2009 regular session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2156, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2156, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2782 Ways and Means on S.B. No. 2961

The purpose of this measure is to appropriate funds to the Department of the Attorney General and to the Department of Transportation to satisfy claims against the State, its officers, or its employees.

Testimony in support of the measure was submitted by the Department of the Attorney General.

Your Committee finds that this measure is necessary to satisfy various claims against the State, its officers, or its employees.

Your Committee has amended this measure by adding appropriations for three more claims that have been resolved since the measure was last amended.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2961, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2961, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2783 Ways and Means on S.B. No. 2150

The purpose of this measure is to increase adult protective services available to adults in the State who are victims of abuse or neglect.

Specifically, this measure makes numerous revisions to Part X of Chapter 346, Hawaii Revised Statutes, which are intended to increase the protections available to adults who have experienced abuse or neglect or are in danger of abuse or neglect by:

- (1) Expanding the category of adults that are eligible for adult protective services by replacing the term “dependent adult” with the less restrictive term “vulnerable adult”;
- (2) Expanding the definitions of the types of abuse and neglect that will trigger the implementation of this chapter;
- (3) Increasing the authority of the Department of Human Services to investigate reports of abuse; and
- (4) Increasing the requirements for professional health workers and mandated reports when reporting incidents of suspected abuse.

Additionally, this measure permits the Department of Human Services to work with interested stakeholders to develop a strategy for expanding the capacity of community-based services to help with the provision of adult protective services. This measure also appropriates an unspecified amount to the Department of Human Services to hire additional staff and provide additional services necessary to fulfill its expanded role.

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities; the National Association of Social Workers; the Healthcare Association of Hawaii, Catholic Charities Hawaii, and Hale Makua Home Health and Foster Family Programs. The Department of Human Services submitted comments on this measure.

Your Committee finds that the increasing number of older adults in the State will make a greater need for adult protective services a sad reality. As the Department of Human Services is called upon to provide adult protective services to a larger percentage of the adult population, it is important that the adult protective services laws allow the Department the authority to fully address the needs of vulnerable adults. Your Committee further finds that the changes to the adult protective services laws found in this measure will expand the Department of Human Services’ authority to respond, monitor, and intervene, and provide protections for a broader population of vulnerable adults.

Your Committee further finds that it is crucial that the Department have the resources necessary to hire additional staff and provide additional services that will be needed in order to meet its growing responsibilities.

Upon further consideration, your Committee has amended this measure by making minor changes as follows:

- (1) By amending the definition of “abuse” to include “physical abuse” instead of “physical injury”;
- (2) By amending the definition of “self-neglect” or “poor self care” to include the “inability or failure” to perform tasks essential to caring for oneself; and
- (3) By making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2150, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2150, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2784 Ways and Means on S.B. No. 3004

The purpose of this measure is to make various amendments to the laws relating to the administration of the Employees’ Retirement System.

In addition, this measure:

- (1) Requires employers to transmit payroll and personnel transactions electronically to the Employees’ Retirement System;
- (2) Requires direct deposit for lump sum refunds of accumulated contributions greater than \$250 if the member does not elect to roll over the payment into an eligible retirement plan;
- (3) Clarifies that contributory and hybrid plan members must make retirement contributions while on leave of absence for professional improvement or when performing a governmental function in order to receive membership credit;
- (4) Automatically increases the annual ceiling on pension benefits to parallel the increases in the federal ceiling under the Internal Revenue Code;
- (5) Requires the state and county governments to remit the contributions for employees on military leave based upon the compensation that the member would have received had the member not been on active duty military in the armed forces; and
- (6) Clarifies the language that accidental death benefits for noncontributory plan members are not subject to the ten-year service credit requirement.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Employees’ Retirement System.

Your Committee finds that this measure clarifies and conforms existing statutes to current practice as well as to federal law, including the Internal Revenue Code and the Uniform Services Employment and Reemployment Rights Act.

Your Committee has amended this measure to include amendments recommended by the Employees' Retirement System to conform the hybrid plan to federal tax law changes.

Specifically, your Committee has amended this measure to:

- (1) Allow members to rollover and transfer funds to the Employees' Retirement System from their individual retirement accounts and tax sheltered annuities, deferred compensation, and private pension plans to purchase membership service credit and to upgrade their noncontributory plan service to hybrid plan service;
- (2) Prohibit returning vested contributory plan members from opting to switch to the hybrid plan after June 30, 2008; and
- (3) Allow payments for the hybrid plan conversion with "after-tax" employee payroll deductions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3004, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3004, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2785 Ways and Means on S.B. No. 3005

The purpose of this measure is to preserve the tax qualified status of the Employees' Retirement System.

The measure accomplishes this by offering elective officers a one-time election to be excluded from membership in the Employees' Retirement System. Additionally, this measure requires the elective officer to exercise the option within thirty days of taking office.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Employees' Retirement System.

Your Committee finds that this measure is necessary to maintain the tax-qualified status of the Employees' Retirement System. The tax-qualified status is presently endangered by provisions in the law that allow elective officers to exercise their option to join the system at any time during their term of office and allow them to withdraw from membership while remaining in office.

Your Committee has amended this measure, as requested by the Employees' Retirement System, by restoring the bill's original language to clarify the nature of the one-time option to elective officers who are already in office on the effective date of this Act. Your Committee on Ways and Means notes that your Committee on Judiciary and Labor did not note a purposeful intent to change the meaning of this provision and that the change was merely inadvertent due to making technical corrections in the S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3005, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3005, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2786 Ways and Means on S.B. No. 3149

The purpose of this measure is to ensure that moneys in the state highway fund are expended only for state highway projects as intended and not diverted for other purposes, and to generate additional sources of revenue for operation, maintenance, and repair of the state highway system.

Specifically, this measure:

- (1) Prohibits the transfer of moneys out of the state highway fund for non-highway purposes;
- (2) Requires the remittance to the state highway fund of general excise tax revenues derived from the manufacturing, production, wholesaling, and retailing of liquid fuel for other than airplanes or small boats; and
- (3) Changes the tour vehicle surcharge to an unspecified amount.

Testimony in support of this measure was submitted by the Hawaii Highway Users Alliance and the Cement and Concrete Products Industry of Hawaii. Testimony in opposition to this measure was submitted by Robert's Hawaii. Comments on this measure were submitted by the Department of Taxation, Tax Foundation of Hawaii, Hawaii Transportation Association, PHT, Inc. dba Polynesian Hospitality, and Charley's Taxi & Limousine.

Your Committee finds that it is crucial to maintain the viability of the state highway fund to provide for the operation, maintenance, and repair of the State's roadways. This measure would prevent the transfer of funds from the state highway fund to the general fund, as has been done in the past, to the detriment of the quality of our State's roadways.

Your Committee, however, has concerns with the provision of this bill that would divert general excise tax revenue from liquid fuel sales away from the general fund. Your Committee believes that this would deprive the State of a considerable amount of operating revenue and, in turn, deprive other programs in the State of a significant source of funding.

Accordingly, your Committee has amended this measure by deleting section 3 which would require remittance of tax revenue from the manufacturing, production, and retailing of liquid fuel to the state highway fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3149, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3149, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 12. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, none.

SCRep. 2787 (Majority) Ways and Means on S.B. No. 3171

The purpose of this measure is to protect the public by establishing oversight over charitable organizations to ensure against improper and illegal conduct by charities and their leaders.

Specifically, this measure:

- (1) Requires charitable trusts and nonprofit organizations to register and file annual financial reports with the Attorney General;
- (2) Provides standards for registration of professional fund raising counsel and professional solicitors, and registration of charitable trusts and nonprofits;
- (3) Authorizes the Attorney General to conduct investigation on possible violations;
- (4) Prohibits contracting with unregistered solicitors;
- (5) Requires submittal of a filing fee based upon the total revenue of an organization; and
- (6) Appropriates funds to staff additional positions within the Department of the Attorney General to help provide oversight.

Your Committee received testimony in support of this measure from the Children's Alliance of Hawaii. The Hawaii Alliance of Nonprofit Organizations offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Inserting a provision to new section 467B-A, Hawaii Revised Statutes, in section 2 of the measure to require each charitable organization soliciting funds within the State prior to the effective date of the measure to register with the Attorney General no later than December 31, 2008; and
- (2) Deleting the proviso in paragraph (1) of section 13 of the measure providing that the amendments in section 2 of the measure take effect on January 1, 2009, and making other necessary conforming amendments to section 13.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3171, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3171, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, 1 (Hemmings). Excused, none.

SCRep. 2788 (Joint) Commerce, Consumer Protection and Affordable Housing and Ways and Means on S.B. No. 3001

The purpose of this measure is to provide consistency between chapter 269, part VII, Hawaii Revised Statutes, and the processes and procedures applicable to third party administration of energy-efficiency and demand-side management programs and services in Hawaii.

Specifically, this measure:

- (1) Aligns the language of the law with the regulatory processes and procedures that the Public Utilities Commission will establish through a pending docket that will apply under a third party administrator structure for energy-efficiency and demand-side management programs and services in the State;
- (2) Clarifies that moneys collected for the purposes of funding energy-efficiency and demand-side management programs and services shall not be considered state or public moneys subject to legislative appropriation and shall not be required to be deposited into the state treasury;
- (3) Clarifies that the State has the express authority to participate in any energy-efficiency and demand-side management programs and services offered by the third party administrator; and
- (4) Clarifies that the public benefits fee administrator will be regulated under certain sections of chapter 269, Hawaii Revised Statutes, that are also applicable to public utilities, but would not itself be a public utility.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; the Public Utilities Commission (PUC); the Hawaiian Electric Company, Inc.; Maui Electric Company, Ltd.; the Hawaii Electric Light Company; and the Hawaii Solar Energy Association.

Your Committees find that it is necessary to clarify that the public benefits fees collected by Hawaii's electric utility companies shall not be considered state or public funds subject to appropriations by the Legislature or for deposit into the general fund, and shall be used for the purpose of providing energy-efficiency and demand-side management programs and services to Hawaii's residential and commercial ratepayers. The demand-side management surcharge proceeds will be transferred to and managed by a third party administrator, appointed by the PUC, while the PUC will still retain the responsibility, control, and oversight of the moneys through a contract with the third party administrator.

Your Committees have amended this measure by:

- (1) Changing the effective date of this measure from effective upon its approval to July 1, 2050 to ensure further discussion on this matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3001, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3001, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 16. Noes, none. Excused, 3 (Hooser, Sakamoto, Tsutsui).

SCRep. 2789 (Joint) Economic Development and Taxation and Ways and Means on S.B. No. 2646

The purpose of this measure is to provide tax incentives and establish rules that protect and sustain viable agricultural operations on important agricultural lands.

Specifically, this measure provides for certain exclusions from gross income for agricultural leases and real property tax credits on important agricultural lands.

Testimony in support of this measure was submitted by Alexander & Baldwin, Inc., Hawaii Association of REALTORS, Hawaii Crop Improvement Association, Hawaii Cattlemen’s Council, Inc., Hawaii Farm Bureau Federation, Maui County Farm Bureau, The Chamber of Commerce of Hawaii, Land Use Research Foundation of Hawaii, and two individual citizens. Testimony in opposition of this measure was submitted by the Department of Taxation, Department of Budget and Finance, Department of Planning and Permitting of the City and County of Honolulu, Hawaii’s Thousand Friends, and Sierra Club Hawai’i Chapter. Comments on this measure were submitted by the Department of Agriculture.

Your Committees find that it is a long recognized policy of the State to promote agricultural operations and to conserve productive agricultural lands. Although discussion of an incentives package to preserve important agricultural lands has been under discussion for several years, this year’s measure represents a very broad-based approach with tax credits for rental income from agricultural leases, for payment of real property taxes, and for qualified agricultural business expenditures. Other features of this measure include provisions for residential housing on important agricultural lands, loan guaranty programs to be administered by the Department of Agriculture, and expedited permit processing for agricultural operations.

Given the multiple features of S.B. No. 2646 S.D. 2, and the need to quantify the costs of the various programs and tax credits being proposed, your Committees believe that State agencies, including the Department of Agriculture, Department of Taxation, Department of Land and Natural Resources, and Department of Business and Economic Development and Tourism must provide your Committees with specific information on the scope, estimated costs, and potential users of the credits and programs being proposed.

Your Committees received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in the following revenue losses to the State:

Fiscal year 2009	\$22,300,000;
Fiscal year 2010	\$25,100,000;
Fiscal year 2011	\$26,500,000;
Fiscal year 2012	\$27,900,000;
Fiscal year 2013	\$29,300,000;
Annually thereafter	\$29,300,000.

The Department of Taxation’s methodology on the estimated revenue losses is as follows:

Based upon 2002 Census of Agriculture data adjusted for inflation, the Department of Taxation estimates there to be approximately \$13,900,000 of qualifying farm expenses in 2008. The Department further estimates that annual real property tax collections from qualifying taxpayers to be approximately \$15,100,000. All estimations make the assumption that approximately one-sixth, or seventeen per cent, of all farmlands in Hawaii are important agricultural lands. That approximation is based upon an estimate provided by the Department of Agriculture in 2007. Although the maximum allowable credit for agricultural expenses was not specified, the Department assumes that there is no limit. According to Census of Agriculture data from 2002, approximately \$19,700,000 was received from grazing fees and for the rental of agricultural land and buildings.

There is no data on “rental income,” but the Department assumes cash out for these farmers implies rental income for another Hawaii farmer. The Department again assumes approximately one-sixth, or seventeen per cent, of the total farmland would qualify as important agricultural lands and that ninety per cent of the important agricultural lands would result in taxable income. The Department applied those amounts to an average tax rate of six per cent.

Your Committees have reviewed the fiscal impact statement and methodology submitted by the Department of Taxation. However, based upon the information received, your Committees are unable to determine how the Department arrived at its projected revenue losses to the State. Your Committees are requesting that the Department clarify its projected revenue losses and methodologies in order for your Committees to gain a better sense of the overall fiscal impact of the tax credits to the State.

Your Committees further requests that the proponents of this measure prioritize and evaluate the timing of the various programs and tax credits being proposed so that an accurate estimate of the costs for a meaningful incentive package can be determined.

Accordingly, your Committees have amended this measure by:

- (1) Removing the specific percentage for the real property tax credit on lands designated as important agricultural lands;
- (2) Deleting the reference that the distribution and share of the credit shall be determined by rule, rather than requiring the distribution and share of the credit to be determined in conformance with the Internal Revenue Code;
- (3) Adding that recapture rules apply to any lands that lose their designation as important agricultural lands after a credit was properly claimed by the taxpayer;
- (4) Adding that lease arrangements, including lease rents determined by appraisal, are to be reviewed and approved by the Department of Agriculture;

- (5) Adding that rental income from agricultural leases on important agricultural lands shall be excluded from gross income for the length of the agreement;
- (6) Changing the effective date of this Act to facilitate further discussion on this measure;
- (7) Adding a ten year drop dead provision to this measure;
- (8) Adding a repeal and reenactment savings clause; and
- (9) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2646, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2646, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 12. Noes, none. Excused, 3 (Hooser, Tsutsui, Slom).

SCRep. 2790 Ways and Means on S.B. No. 2830

The purpose of this measure is to address a variety of issues relating to support for caregiving.

More specifically this measure:

- (1) Extends the Joint Legislative Committee on Family Caregiving;
- (2) Changes the Joint Legislative Committee on Family Caregiving's name to the Joint Legislative Committee on Aging in Place;
- (3) Expands the Joint Legislative Committee on Aging in Place's mandate to include aging in place issues related to family caregiving;
- (4) Requires the Aging and Disability Resource Center to report to the Joint Legislative Committee on Aging in Place;
- (5) Requires the Joint Legislative Committee on Aging in Place to develop a model for a cash and counseling project;
- (6) Permits the Kupuna Care Program to include overnight, weekend, and emergency respite, as well as to provide grants for caregivers and home modification;
- (7) Establishes a task force to focus on the needs and issues of grandparents raising grandchildren; and
- (8) Appropriates funds to:
 - (A) The Joint Legislative Committee on Aging in Place;
 - (B) The Kupuna Care Program; and
 - (C) The Executive Office on Aging to continue its respite inventory project in collaboration with the University of Hawaii.

The State Council on Developmental Disabilities, Policy Advisory Board for Elder Affairs, Hawaii Aging Advocates Coalition, Kokua Council, American Association of Retired Persons, Healthcare Association of Hawaii, and two individuals submitted testimony in support of this measure. The Executive Office on Aging submitted comments.

Your Committee finds that as Hawaii's population ages, it is increasingly important to provide appropriate support and services to family caregivers so that they can continue to provide crucial assistance to elders. This measure takes a comprehensive approach to maintaining existing, as well as developing additional, family caregiver support and services.

Upon further consideration, your Committee has amended the measure by:

- (1) Deleting section 8 of the measure containing an amendment to the General Appropriations Act of 2007 to provide that a portion of the funding be allocated to expanding the Kupuna Care program because the Committee intends to address funding for Kupuna Care expansion in the executive supplemental budget bill;
- (2) Adding that the sum appropriated in section 9 of the measure to address the Kupuna Care program waitlist will also be used for the expansion of the Kupuna Care program;
- (3) Deleting section 10 of the measure containing an amendment to the General Appropriations Act of 2007 to increase funding for the Executive Office on Aging, because any adjustments for fiscal year 2008-2009 will be addressed in the supplemental budget bill;
- (4) Renumbering remaining sections consecutively and making corresponding changes to the section numbers in section 16; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2830, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2830, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2791 Ways and Means on S.B. No. 2313

The purpose of this measure is to:

- (1) Replace the existing Insurance Fraud Investigations Unit in the Insurance Division of the Department of Commerce and Consumer Affairs with a new Insurance Fraud Investigations Branch that will investigate and prosecute fraud in all lines of insurance, except workers' compensation;
- (2) Expand administrative, civil, and criminal penalties for fraud in all lines of insurance, except for workers' compensation, and for different types of insurance fraud, including fraudulent applications and sales; and
- (3) Require that all fines and settlements resulting from successful insurance fraud prosecutions be deposited into the Compliance Resolution Fund to help the Insurance Fraud Investigations Branch to fund its operational expenses.

Your Committee received testimony in support of the measure from the Department of Commerce and Consumer Affairs, the American Council of Life Insurance, the National Association of Insurance and Financial Advisors, the Property Casualty Insurers Association of America, and State Farm Insurance Companies. Comments were submitted by ILWU, Local 142.

Your Committee notes that while the section 1 of the measure states that its purpose is to expand the jurisdiction of insurance fraud investigations to all lines of insurance except workers' compensation, the operative provisions of the bill do not specifically exclude workers' compensation. The measure also appears to draw a distinction between lines of insurance for the purpose of defining the type of sanctions – criminal, civil, or administrative – that are applicable.

Your Committee also notes that the measure appears to designate attorneys in the Insurance Fraud Investigations Branch as special deputies attorney general but gives the attorney general discretion to make – or withhold – the designation. Finally, your Committee is concerned that, as presently worded, the measure's repeal of certain insurance fraud statutes could unintentionally terminate investigation of offenses committed before its effective date.

On further consideration, your Committee has amended the bill by:

- (1) Amending the operative language of the bill to expand the jurisdiction of insurance fraud investigations to all lines of insurance while specifically excluding workers' compensation;
- (2) Making it clear that attorneys representing the State in insurance fraud prosecutions shall be designated special deputies attorney general by operation of law, without need of designation by the attorney general;
- (3) Clarifying that criminal, civil, and administrative sanctions apply to fraud in all lines of insurance except workers' compensation;
- (4) Adding language to ensure that insurance fraud offenses committed prior to the effective date of the measure can still be prosecuted under the statutory provisions in effect at the time the offenses were committed; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2313, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2313, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2792 Ways and Means on S.B. No. 3010

The purpose of this measure is to provide more comprehensive and stronger regulation of the mortgage broker profession.

Your Committee received testimony in support of this measure from the Hawaii Bankers Association, Primerica Financial Services Home Mortgages, the Mortgage Bankers Association of Hawaii, State Farm Insurance Companies, the Hawaii Association of Mortgage Brokers, and the Hawaii Credit Union League.

Your Committee finds that recent reports of inflated residential mortgage rates, unfair prepayment mortgage penalty provisions, unrealistic hybrid repayment schedules, and other fraudulent acts have caused many states to reexamine their regulation of mortgage brokers. Although the number of complaints against mortgage brokers in Hawaii is less than the mainland, it is sufficient to warrant closer regulation of the mortgage broker industry.

Your Committee also finds that the current regulation of mortgage brokers and loan originators (or mortgage solicitors) under the Department of Commerce and Consumer Affairs' Professional and Vocational Licensing Division is limited to the registration of brokers and solicitors. In light of the recent problems involving mortgage brokers, designating the Department of Commerce and Consumer Affairs' Division of Financial Institutions to exercise direct supervision of the licensing, examination, and regulation of mortgage brokers and loan originators would better serve the interests of consumers.

This measure also grants the Commissioner of Financial Institutions appropriate licensing and enforcement powers and authorizes state participation in a uniform multistate automated licensing system to expedite licensing procedures and information sharing.

Your Committee has amended the measure by:

- (1) Removing or amending erroneous or obsolete references to terms, phrases, and section numbers and headings;
- (2) Removing redundant provisions;
- (3) Clarifying provisions, terms, section titles, etc. to conform to the intent of the measure;
- (4) Making appropriate amendments in other sections of the Hawaii Revised Statutes referencing chapter 454, Hawaii Revised Statutes or other applicable terms in this measure;

- (5) Adding an exemption to the regulation of mortgage brokers for “employees and agents of a licensee if the licensee is an affiliate of a bank and is wholly owned by the holding company that owns the bank;
- (6) Qualifying the prohibition of selling a mortgage loan at a borrower’s home without an appointment, regardless if the sale was initiated by and at the invitation of the borrower; and
- (7) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3010, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3010, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2793 (Majority) Ways and Means on S.B. No. 2829

The purpose of this measure is to adopt changes to Hawaii’s tax law that will allow Hawaii to participate in the Streamlined Sales and Use Tax Agreement.

Testimony in support of this measure was submitted by the Hawaii Association of Realtors, the Hawaii Government Employees Association, and the Retail Merchants of Hawaii. Comments on this measure were submitted by the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2829, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2829, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Whalen). Noes, 1 (Hemmings). Excused, none.

SCRep. 2794 Judiciary and Labor on S.B. No. 3026

The purpose of this measure is to enact a new chapter, known as the Mortgage Rescue Fraud Prevention Act to:

- (1) Require mortgage rescuers to provide homeowners with a written contract that spells out the services the mortgage rescuer is expected to provide and allow the homeowner the right to cancel the contract at any time before the services are rendered; and
- (2) Limit the amount that the mortgage rescuer can make if the homeowner is successful in buying back the home to one hundred twenty-five per cent of the total debt on the home paid by the mortgage rescuer, and require that the mortgage rescuer provide the homeowner with at least eighty-two per cent of the value of their home if the homeowner is eventually unable to buy back the home from the mortgage rescuer.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Hawaii Association of Realtors.

Your Committee finds that persons may prey on homeowners facing property foreclosures, liens, or encumbrances. These devious “mortgage rescuers” offer phantom help to homeowners, taking a fee of a few thousand dollars for supposedly negotiating with the homeowners’ secured creditors. After collecting the fee, little or no work is done for the homeowner who is essentially abandoned. In the most insidious cases, the consultant will persuade families to deed the house to the investors for a year, in which time the homeowner can clear up their credit and refinance their property. However, in many cases the homeowners wind up becoming tenants and being evicted.

Your Committee has amended this measure by:

- (1) Changing from five to fifteen days the period of rescission or cancellation, on the recommendation of the Hawaii Association of Realtors, to be consistent with section 508D-5, Hawaii Revised Statutes, relating to delivery of disclosure statements to the buyer;
- (2) Changing the period in which the distressed property purchaser may record the distressed property conveyance if the contract has not been cancelled, from ten to twenty days after execution; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3026, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3026, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2795 (Majority) Judiciary and Labor on S.B. No. 868

The purpose of this measure is to prohibit an ex-officio member or an interim appointee of a board or commission from serving as chair of that board or commission.

Prior to the hearing on this measure, your Committee circulated a proposed draft that deleted the contents of the measure and inserted provisions that maintain a policy of open communications with boards and commissions when a department director is considering invoking their rights under section 26-35(a)(1), Hawaii Revised Statutes.

Specifically, the proposed draft provides that a board or commission may communicate directly with the Legislature or a legislative committee at the request of the Legislature or legislative committee.

Testimony in support of the proposed draft was submitted by the Policy Advisory Board for Elder Affairs.

Your Committee finds that boards and commissions often provide valuable information or insight in policy discussions that is different from the views or opinions of a department director. Thus, your Committee finds that a practice of open communications with boards and commissions must be maintained when a department director is considering invoking section 26-35(a)(1), Hawaii Revised Statutes, which requires a department director to represent boards or commissions administratively attached to a department when communicating with the Legislature.

Your Committee has amended the proposed draft by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 868, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 2796 Judiciary and Labor on S.B. No. 3197

The purpose of this measure is to ensure that immigrants receive proper immigration services and consultation by prohibiting individuals without training or experience in immigration law from rendering advice to immigrants regarding their immigration issues.

Testimony in support of this measure was submitted by Catholic Charities of Hawaii.

Your Committee finds that immigrants in Hawaii sometimes fall prey to notary publics or travel agents who assist them in their immigration matters, only to receive poor, inaccurate, or unqualified advice. Prohibiting individuals without training or experience in immigration law from rendering advice on immigration matters will provide a safeguard for immigrants who are in the immigration process.

Testimony indicates that nonprofit, religious, charitable, social service, or similar organizations recognized by the U.S. Department of Justice, Board of Immigration Appeals may apply for the accreditation of individuals of good moral character as its representatives. These accredited individuals are authorized to provide limited representation of an organization's clients before the Department of Homeland Security's Citizenship and Immigration Service and before the Board of Immigration Appeals, which includes practice before immigration judges. These accredited individuals serve a vital need in the immigration community, especially when individuals and their families do not have sufficient funds to afford the services of an immigration attorney.

Your Committee has amended this measure by:

- (1) Limiting the exclusion applicable to attorneys, to those who are licensed to practice in Hawaii;
- (2) Limiting the exclusion applicable to paralegals or other employees of an attorney, to those who work for an attorney licensed to practice law in Hawaii; and
- (3) Amending the effective date to July 1, 2050, for purposes of facilitating further discussion and clarification.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3197, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3197, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2797 Judiciary and Labor on S.B. No. 3069

The purpose of this measure is to require the courts to provide the Director of Health with the existing medical, mental health, social, police, and juvenile records of defendants who are committed to the custody of the Department of Health or who are undergoing fitness to proceed mental examinations.

Your Committee received testimony in support of this measure from the Department of Health and the Hawaii Government Employees Association. Testimony in opposition to this measure was received from the City and County of Honolulu Department of the Prosecuting Attorney. Comments were received from the Judiciary.

The intent of this measure is to facilitate the duties of the Department of Health in its statutory responsibilities to:

- (1) Participate in the panel of qualified examiners to determine fitness to proceed; and
- (2) Persons committed to the custody of the Department pursuant to a finding of unfitness to proceed or an acquittal on the ground of mental disease, disorder, or defect.

Your Committee believes that it is necessary for the Department of Health to have the defendant's records for the aforementioned purposes, particularly with regard to diagnosis and treatment.

Your Committee has amended this measure on the recommendation of the Judiciary by clarifying the records to be made available shall exclude juvenile records that are not related to the defendant's mental health or mental condition. In this regard, your Committee is aware that juvenile records are confidential and include a broad range of information, some of which may not be pertinent to the Director of Health. Your Committee has also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3069, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3069, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2798 Judiciary and Labor on S.B. No. 2435

The purpose of this measure is to provide an exemption from civil service for positions or contracts for personal services with qualified community rehabilitation programs lasting no more than one year.

The measure also raises the personnel or contract cost limitation placed on this exemption from \$750,000 to \$1,000,000.

Your Committee received testimony in support of this measure from the Department of Human Resources Development. Testimony in opposition to this measure was submitted by the Hawaii Government Employees Association.

Your Committee finds that contracting opportunities with qualified community rehabilitation programs provide much needed employment opportunities for Hawaii's under employed or unemployed segment and enable workers with disabilities to become contributing members of the community.

Your Committee also finds that raising the personnel or contract cost limitation from \$750,000 to \$1,000,000 would allow these programs to provide more employment opportunities and keep abreast with inflation.

Your Committee has amended this measure to:

- (1) Restrict the exempted positions to custodial and ground maintenance; and
- (2) Change the effective date to July 1, 2050, to facilitate further discussions.

Your Committee notes that the United Public Workers continue to have concerns with this measure because it may impact them.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2435, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2799 Judiciary and Labor on S.B. No. 2129

The purpose of this measure is to ensure the recommendations and positions of the Policy Advisory Board for Elder Affairs (Board) are disseminated unaltered and unedited.

Specifically, this measure prohibits the Director of the Executive Office on Aging from altering, editing, or withholding any work product issued by the Board because that work product is inconsistent with the recommendations or positions of the Administration.

Testimony in support of this measure was received from the Hawai'i Alliance for Retired Americans, the Chair of the Policy Advisory Board for Elder Affairs, and a concerned citizen. The Executive Office on Aging submitted comments.

Your Committee finds that the recommendations and positions of the Board reflect the unique interests of the aging as a group. Undoubtedly, the Legislature, in establishing policy and law for the aging, could benefit from these recommendations and positions. Furthermore, this benefit would ultimately inure to the people and families of the State, including the aging. Your Committee finds that this may be accomplished if the Board were allowed to communicate directly to the Legislature.

Accordingly, your Committee has amended this measure by:

- (1) Giving the Policy Advisory Board for Elder Affairs the authority to directly testify before the Legislature on any matter related to its duties and responsibilities; and
- (2) Changing the effective date to July 1, 2050, to ensure further discussion and consideration.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2129, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2129, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2800 Water and Land on S.B. No. 2641

The purpose of this measure is to establish a five-year moratorium on the development of agricultural lands located in the State for which general planning has not commenced.

Testimony in support of this measure was submitted by Hawaii Thousand Friends. Testimony in support of the intent of this measure was submitted by the Hawaii Farm Bureau Federation. Testimony in opposition to this measure was submitted by the Department of Business, Economic Development and Tourism, Hawaii Reserves, Inc., Hawaii Association of Realtors, City and County of Honolulu Department of Planning and Permitting, Land Use Research Foundation, and The Chamber of Commerce of Hawaii. The Department of Agriculture submitted testimony expressing concern with this measure.

Your Committee notes that in 2005, the Legislature enacted Act 183, Session Laws of Hawaii 2005, implementing article XI, section 3, of the State Constitution regarding important agricultural lands. Act 183 establishes policies and procedures for the identification of important agricultural lands and provides for a process to develop protection and incentive measures for important agricultural lands and agricultural viability. Despite the enactment of Act 183, there has been ongoing delay with the identification of

important agricultural lands. This measure is intended to allow time for the identification of important agricultural lands without the ongoing loss of potential important agricultural lands to development.

Your Committee has amended this measure by:

- (1) Amending the effective date to July 1, 2050; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2641, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2641, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Hee). Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 2801 Economic Development and Taxation on S.B. No. 2498

The purpose of this measure is to establish November 20th of each year as Makahiki Commemoration Day.

Testimony in support of this measure was received from the Office of Hawaiian Affairs and seven individuals.

Your Committee finds that Makahiki was a significant time throughout Polynesia. During this four-month period, conflict and war were set aside and unity and peace prevailed as the people paid tribute to Lono, and to the chiefs in thanks for their wise stewardship.

Your Committee is in support of this measure and its recognition of an annual period of great significance for the indigenous cultures of Polynesia.

Your Committee has amended this measure by:

- (1) Stating in the findings and purpose that the commemoration of this culturally important season is fitting and that consultation with knowledgeable Native Hawaiian cultural practitioners should be sought to ensure that establishing a set date for commemorating the Makahiki season does not affect the ability to perpetuate traditions associated with the Makahiki; and
- (2) Making a technical amendment to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2498, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2498, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 2802 Ways and Means on S.B. No. 2857

The purpose of this measure is to assure the public of the quality of the care that is offered by providers in the growing home care industry.

Specifically, this measure requires the Department of Health to license home care agencies and appropriates funds for a position in the Department to assist with licensure and monitoring of home care agencies.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii. The Departments of Health and Human Services offered comments.

Upon further consideration, your Committee has amended this measure by changing the amount of the appropriation to an unspecified sum and by clarifying that the exemption from home care agency licensure applies to a home- or community-based agency or entity that provides services, rather than to the services themselves. Your Committee has also clarified the effective date provision to ensure that, when the measure is repealed on June 30, 2013, sections 321-11 and 321-11.5, Hawaii Revised Statutes, will be reenacted in the form in which they read on June 30, 2008. Finally, your Committee has made technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2857, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2803 (Majority) Ways and Means on S.B. No. 2342

The purpose of this measure is to ensure the safety, health, and welfare of Hawaii inmates who have been transferred to private correctional facilities on the mainland.

Specifically, this measure requires the Auditor to conduct performance audits of contracted private correctional facilities on the mainland housing Hawaii inmates with regard to the issues of delivery of services, visitation, and the Department of Public Safety's monitoring of the relevant contracts. The Auditor is to conduct audits of the Saguaro Correctional Facility in Eloy, Arizona housing male inmates and the Otter Creek Correctional Facility in Wheelwright, Kentucky housing female inmates.

This measure also contains a proviso that if the State begins a process of returning all female prisoners, who were previously transferred from Hawaii to the Otter Creek Correctional Facility, back to Hawaii in 2009, then the requirement for a performance audit of that facility pursuant to this measure shall be withdrawn.

Your Committee received testimony in support of the measure from the Drug Policy Forum of Hawaii, the Community Alliance on Prisons, and five individuals. One individual offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provision regarding withdrawal of the audit of the Otter Creek Correctional Facility from section 2; and
- (2) Providing in the effective date section of the measure that the requirement to perform the Otter Creek Correctional Facility audit shall not take effect if, by October 1, 2008:
 - (A) The department of public safety has embarked on a plan that will return all female inmates at the facility back to Hawaii by the end of 2009;
 - (B) The director of public safety provides a written certification to the governor and the legislature that the department has embarked on the plan and includes, in the certification, details of the transfer plan and a timeline for all transfers; and
 - (C) The governor transmits to the Auditor a written confirmation attesting that the department of public safety has embarked on the plan.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2342, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2342, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Hooser).

SCRep. 2804 Ways and Means on S.B. No. 2715

The purpose of this measure is to clarify the compensation rates for court-appointed attorneys and guardians ad litem in family court.

The Judiciary submitted testimony in support of this measure.

Your Committee finds that this measure replaces the terms “legal services” and “non-legal services” with “in-court services” and “out-of-court services.” The measure also provides that an attorney who is licensed to practice in Hawaii will receive \$90 an hour compensation for in-court services and \$60 an hour compensation for out-of-court compensation. All services provided by a person who is not an attorney licensed to practice in Hawaii will be compensated at \$60 an hour.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2715, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2805 (Majority) Ways and Means on S.B. No. 2780

The purpose of this measure is to broaden the definition of “public work” to include a construction contract between private parties that use state or county land for commercial activity.

More specifically, the measure specifies that a construction contract must be valued at \$500 or more to qualify as a “public work” and requires copies of qualifying land leases to be filed with the department of accounting and general services.

Testimony in support of the measure was received from the Hawaii Carpenters Union. Testimony opposing the measure was received from the Department of Accounting and General Services, the Department of Labor and Industrial Relations, and the Board of Land and Natural Resources.

Your Committee finds that state land is currently used for a wide variety of private activities and that this measure will help ensure that state wage and hour laws are recognized and enforced in construction projects that involve state or county land.

Your Committee has amended the measure by making a technical correction, raising the threshold of a “public work” construction contract from \$500 to \$500,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2780, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, 1 (Hemmings). Excused, 3 (Hooser, Tsutsui, Whalen).

SCRep. 2806 (Majority) Ways and Means on S.B. No. 2004

The purpose of this measure is to facilitate resolving issues relating to cost reimbursement in the administrative hearings process relating to the education of children with disabilities.

Specifically, this measure extends the deadline to file a request for an administrative hearing relating to the education of a child with a disability from ninety days to one hundred eighty days when the request is for reimbursement of costs of a child’s placement.

Testimony in support of this measure was submitted by the Hawaii Disability Rights Center, the Community Children’s Council Office and thirteen private individuals. Testimony opposing this measure was submitted by the Department of Education and the

Department of the Attorney General. The State Council on Developmental Disabilities, the Special Education Advisory Council, and two private citizens submitted comments.

Your Committee is sympathetic to concerns raised by both parents and the Department of Education. However, a ninety day statute of limitations for parents requesting a due process hearing places an unfair burden and undue stress on many parents. Extending the deadline would allow greater opportunity for parents to resolve issues with the Department. Your Committee further finds that the complexity of this issue seems to warrant continued discussion.

Your Committee has amended this measure by:

- (1) Requiring the Department of Education to report annually to the Legislature the number of requests related to reimbursement of a child's placement that are currently awaiting a due process hearing; and
- (2) Changing the effective date to July 1, 2050, in order to promote continued discussion among interested parties.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2004, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2004, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, 1 (Hemmings). Excused, 1 (English).

SCRep. 2807 (Majority) Ways and Means on S.B. No. 2233

The purpose of this measure is to establish a global youth center within the University of Hawaii.

More specifically, this measure establishes a global youth center to educate future leaders and to support the collaboration between Hawaii and international youth as they collectively engage in the construction of a better future.

Testimony in support of the measure was received from the University of Hawaii System; the East-West Center; the United Nations Association-Hawaii Division; Connections Public Charter School; Co-founder, Global Youth Center; Coordinator, Hawaii Global Youth Center; Ke Ea Hou; and six private citizens.

Your Committee recognizes that Hawaii, due to its cultural, political, economic, and military links to the Asia Pacific region and other parts of the world, is well-positioned to provide leadership in training its youth. Your Committee further finds that the establishment of a global youth center provides the needed opportunities for Hawaii's youth to develop a strong base of global knowledge and skills necessary to thrive in today's changing world.

Your Committee amended this measure by making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2233, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2233, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (English).

SCRep. 2808 Ways and Means on S.B. No. 2433

The purpose of this measure is to establish standards and conditions for the receipt of state funds by the State of Hawaii Museum of Monarchy History.

Your Committee received testimony in support of this measure from a representative of Iolani Palace.

Your Committee finds that the State of Hawaii Museum of Monarchy History, formerly known as the Friends of Iolani Palace has served as the "de facto" caretaker of Iolani Palace by maintaining the Palace for many decades. The State of Hawaii Museum of Monarch History, however, is exempted from the standards and conditions imposed under chapter 42F, Hawaii Revised Statutes, for the receipt of state funds.

This measure addresses that issue by establishing standards and conditions that the State of Hawaii Museum of Monarch History must meet to receive state funds. The standards and conditions are based on standards for the awarding of grants and subsidies under chapter 42F, Hawaii Revised Statutes.

Your Committee has amended the measure by:

- (1) Correcting a reference to "non-profit" organizations that should read "tax-exempt" organizations; and
- (2) Making other technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2433, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2433, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2809 Ways and Means on S.B. No. 2047

The purpose of this measure is to assist taxpayers who are elderly or disabled, caregivers, and who have children by providing income tax credits and an additional personal exemption.

Specifically, this measure provides a home accessibility features for the disabled tax credit to taxpayers who make home modifications to help elderly or disabled persons live in their homes. The tax credit is in an amount equal to fifty per cent of qualified

costs of modifications, capped at \$5,000 for single filers, \$7,500 for head of household filers, and \$10,000 for joint return filers. The measure also defines "accessibility features" and "qualified costs".

In addition, the measure provides a refundable tax credit to a person who provides care to a care recipient provided that only one caregiver per household may claim a tax credit for any care recipient cared for in a taxable year. The amounts of the tax credit vary from ten per cent to one hundred per cent of an amount that is uncharacterized and not described, based upon a graduated adjusted gross income schedule from under \$30,000 to over \$75,000.

The Department of Taxation is to report annually to the Legislature on the number of taxpayers claiming the caregiver tax credit and the total cost of the tax credit. The Department of Taxation is also required to assist the Executive Office on Aging by providing certain information on caregiver services to each taxpayer who claims a credit. The measure appropriates an unspecified amount to the Department of Taxation to process and mail the information. The Executive Office on Aging, assisted by the Department of Taxation, is required to submit a report to the Legislature that evaluates over a three-year period the caregiver tax credit.

Finally, the measure provides an additional income tax exemption known as the "ohana exemption" for each claimed qualified dependent eighteen years old and younger equal to \$1,000 for taxpayers with a federal adjusted gross incomes of \$100,000 or less and \$500 for those with incomes of more than \$100,000 up to \$200,000. The exemption is phased out for those with adjusted gross incomes over \$200,000.

Your Committee received testimony in support of this measure from the Department of Taxation, AARP, and Hawaii Alliance for Retired Americans. The State Council on Developmental Disabilities offered comments.

In order to streamline this measure for meaningful consideration, your Committee has amended this measure to delete all tax measures (in parts II and III) except for the home accessibility features for the disable tax credit in part I. In addition, your Committee has modified that tax credit by limiting the amounts of the credit to specified percentages of qualified costs depending on adjusted gross income, ranging from fifty per cent for adjusted gross income under \$30,000 to five per cent for adjusted gross income \$75,000 and over.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2047, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2047, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2810 Ways and Means on S.B. No. 2891

The purpose of this measure is to appropriate funds for the continuing operations of the Pacific International Space Center for Exploration Systems.

The measure appropriates \$720,000 for fiscal year 2008-2009 for the Center's:

- (1) Continued staff support;
- (2) Continuation of the Center's annual international conference and the student design competition;
- (3) Development of a comprehensive strategic development plan and the inception of a national capital fundraising campaign;
- (4) Research for site selection for development of an analog lunar base on the island of Hawaii;
- (5) Expansion of aerospace education opportunities at both K-12 and university levels statewide and education and outreach programs in local communities; and
- (6) Development of grant proposals for National Aeronautics and Space Administration research funding and development of both national and international partnerships to support the long-term growth and operation of the center.

Your Committee received testimony in support of this measure from the University of Hawaii at Hilo, University of Hawaii at Hilo Conference Center, Hawaii Island Economic Development Board, Enterprise Honolulu, Center for Space Resources, Japan-United States Science, Technology & Space Applications, Japan Manned Space Systems, SpacePartnerships.com, and two individuals. The Department of Business, Economic Development, and Tourism and Boeing Corporation offered comments.

Upon further consideration, your Committee has amended this measure by changing the appropriated amount to an unspecified amount for the purpose of continued discussion. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2891, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2891, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2811 Ways and Means on S.B. No. 2983

The purpose of this measure is to facilitate the community-based economic development program's provision of financial assistance to community-based businesses and enterprises by:

- (1) Authorizing the Hawaii community-based economic development program revolving fund to receive funding from any source;
- (2) Repealing the prohibition on the reallocation of funds from the loan program to the grant program and reducing the maximum interest rate on the loans from ten per cent to six per cent; and

- (3) Reducing the limit on an applicant's total loan balance from \$500,000 to \$250,000.

The Department of Business, Economic Development, and Tourism submitted testimony in support of this measure.

The Hawaii community-based economic development program provides business counseling, and financial and other support to community-based businesses, nonprofit organizations, and entrepreneurs. Your Committee finds that the measure will update and improve the program's provision of these services.

Upon further consideration, your Committee has amended this measure by making technical, nonsubstantive amendments, including the deletion of section 5 of the measure because it does not make any substantive amendments to section 210D-8, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2983, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2983, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2812 Ways and Means on S.B. No. 3167

The purpose of this measure is to provide a tax credit to certain small and light industrial businesses in the Kakaako community development district.

Specifically, this measure provides a tax credit equal to an unspecified percentage of the county industrial real property tax assessed on businesses located on property in the Kakaako community development district zoned I-1 and I-2; provided that the real property is in use for light industrial, wholesaling, or service and commercial operations in the tax year in which the tax credit is claimed and retains the industrial district designation in the year following the tax year in which the tax credit is claimed.

This measure also clarifies that the Hawaii Community Development Authority may, not shall, affix assessments against real property for district-wide improvements.

Your Committee received testimony in support of this measure from the University of Hawaii at Manoa College of Social Sciences Public Policy Center, Hawaii Alliance for Community-Based Economic Development, and Environmental Planning Solutions, LLC. The Department of Taxation submitted testimony in opposition to this measure and the Hawaii Community Development Authority offered comments.

Upon further consideration, your Committee has amended this measure to replace the tax credit based on an unspecified percentage of the county's industrial real property tax assessment, with a tax credit of an unspecified percentage of a taxpayer's general excise tax liability for a business within the Kakaako community development district that is located on real property designated by the county as an industrial district.

Your Committee has also amended this measure to allow the tax credit to be claimed for two years for taxable years beginning after December 31, 2007, and before January 1, 2010 and by repealing the tax credit on January 1, 2010. Finally, your Committee made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3167, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3167, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2813 Ways and Means on S.B. No. 3225

The purpose of this measure is to improve the management of consumptive and nonconsumptive uses of aquatic resources by establishing regional fishery management area plans for Maui and Oahu.

The Humane Society of the United States, Conservation Council for Hawaii, Kihei Community Association, Lost Fish Coalition, Snorkel Bob's Hawaii, Ocean Law & Policy Institute, and two hundred three individuals submitted testimony in support of this measure. The Department of Land and Natural Resources, Hawaii Nearshore Fishermen, and seven individuals submitted testimony in opposition to this measure. Octopus Garden Divers submitted comments.

Your Committee finds that ornamental reef fish are critical to the health of Hawaii's reefs. Currently, there is limited regulation for effective management of this important resource. As a result, reef habitats around Maui and Oahu are being degraded and fish populations are decreasing. There is a need for comprehensive and sustainable strategies to manage the taking of ornamental marine species, as well as for species conservation in the wild.

The West Hawaii regional fishery management area is a network of fish replenishment areas in which aquarium fish collection is prohibited. A portion of the fish replenishment areas also serve as fish reserves where no fishing of reef-dwelling fish is allowed. Recent data indicates that the overall number of yellow tangs has increased in the regional fishery management area at the same time that the aquarium fishery was expanded. This has also had a positive effect on the reef ecosystem and non-extractive activities, such as diving and snorkeling.

Your Committee finds that this measure requires the Department of Land and Natural Resources to establish similar, regionally appropriate, aquarium fishery management strategies for Maui and Oahu.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding a findings and purpose section;

- (2) Establishing the framework for a regionally appropriate aquarium fishery management strategy for the islands of Oahu and Maui;
- (3) Narrowing the scope by, among other things, changing the target area from the regional ocean area surrounding each island to the State's marine waters surrounding each island;
- (4) Requiring public input and consultation prior to designating fish replenishment areas;
- (5) Requiring the Department of Land and Natural Resources to establish the fish replenishment areas before January 1, 2010;
- (6) Requiring the Department of Land and Natural Resources to develop appropriate criteria for classifying species as being of sufficient concern for a harvest prohibition and to provide the list of species of special concern by January 1, 2010;
- (7) Providing authorized agents of the Department of Land and Natural Resources and other duly authorized law enforcement officers with authority to conduct examinations and inspections to enforce the limitations and restrictions within the regional fishery management areas;
- (8) Establishing an interim fish replenishment area in South Maui, from Kahekili Park to Ahihi Kinau, and designating certain species to be included in a harvest prohibition;
- (9) Clarifying that permits shall only be valid for the regional fishery management area for which the permit was issued;
- (10) Establishing penalties for violation of fishing limitations or restrictions within the regional fishery management areas;
- (11) Making the Act effective on July 1, 2050, to encourage further discussion; and
- (12) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3225, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3225, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2814 (Majority) Ways and Means on S.B. No. 2824

The purpose of this measure is to require the Auditor to conduct a compliance, performance, and management audit of the State Procurement Office and government purchasing agencies to ensure compliance with the Hawaii Public Procurement Code.

More specifically, the measure appropriates an unspecified amount of funds for the Auditor to contract with a private entity to conduct the audit and clarifies that the Comptroller serves as an ex-officio nonvoting member of the State Procurement Policy Board.

Your Committee finds that only one audit of the State's procurement practices has been performed since the public procurement code was codified in chapter 103D, Hawaii Revised Statutes, in 1993. That audit occurred in 1995, and your Committee believes that government purchasing practices are due for review. In addition to uncovering deficiencies and improprieties in state procurement, an audit would provide an analysis of how effectively the procurement code is being implemented and enforced. Your Committee believes that this measure will foster public confidence in the integrity of state government's expenditures of public moneys.

Your Committee has amended the measure by:

- (1) Inserting provisions of S.B. No. 2574, S.D. 1, to:
 - (A) Require that moneys received pursuant to a solicitation of funds by the State to cover costs and expenses of state-sponsored trade missions and goodwill trips be deposited into the general fund and disbursed by legislative appropriation; and
 - (B) Appropriates an unspecified amount of funds for costs of state-sponsored trips and endeavors to generate business opportunities and goodwill;
- (2) Inserting provisions of S.B. No. 2823, S.D. 1, to require the State Procurement Office to conduct compliance audits of at least two randomly-chosen executive agencies each year; and
- (3) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2824, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2824, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 2 (Hemmings, Whalen). Excused, 1 (Inouye).

SCRep. 2815 Ways and Means on S.B. No. 2817

The purpose of this measure is to create a temporary Honolua Bay advisory committee to develop a plan to acquire and manage Lipoa Point for public use.

Specifically, this measure sets the membership of the advisory committee and requires it to develop a Honolua Bay acquisition and management plan to purchase Lipoa Point to be developed and maintained as a public open space. The advisory committee is required to submit a written report to the Legislature containing the Honolua Bay acquisition and management plan, findings, recommendations, and any necessary legislative proposals prior to the convening of the Regular Session of 2009. Finally, this measure appropriates an unspecified amount for development of the Honolua Bay acquisition and management plan.

Your Committee received testimony in support of this measure from the Hawaii Democratic Party District 5, Surfrider Foundation, and one individual. The Department of Land and Natural Resources, State Procurement Office, Maui Land and Pineapple Company, Inc., Save Honolulu Coalition, and one individual offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the name of the committee to the "Honolua Bay community trust advisory committee";
- (2) Removing all references to acquisition of land to reflect the committee's focus on developing a management and conservation plan to keep the Lipoa Point area as public open space;
- (3) Clarifying that the committee is to build on the efforts of a community-based stakeholder group convened by the county of Maui Mayor's office to develop both a long- and short-term sustainable management and conservation plan;
- (4) With regard to membership on the committee:
 - (A) Adding a representative of the Mayor of the County of Maui as an ex-officio member of the committee;
 - (B) Replacing the member representing the Hui O Ewa program with a representative of the Ahu Moku council;
 - (C) Adding one member representing a resource conservation organization with members in west Maui;
 - (D) Adding one member representing native Hawaiian stakeholders in the ahupuaa encompassing Honolua Bay; and
 - (E) Adding one member affiliated with the Community Conservation Network; and
- (5) Requiring the committee to submit an interim and final report to the Legislature before the Regular Sessions of 2009 and 2010 and also extending the termination date of the committee to June 30, 2010.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2817, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2816 (Majority) Ways and Means on S.B. No. 2294

The purpose of this measure is to increase the reserved housing requirement for a planned development in the Kakaako community development district.

More specifically, at least twenty-five per cent of the countable floor area of each planned development with a height of more than forty-five feet or a floor area that equals or exceeds one and one-half times the lot area for the development shall be developed and made available for the reserved housing units.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to the measure from the Kamehameha Schools, U. Okada and Co., Interior Showplace, Ltd., General Growth Properties Inc., Tropical Land and Shade Co., Ray's Transmission Service Center, The Converter Factory, and an individual. The Hawaii Community Development Authority and Marshall Realty, Inc. submitted comments on the measure.

Your Committee finds that the Kakaako Community Development District was intended as a mixed-use residential and commercial community for Hawaii families to live and work. The planned community, however, is now dominated by luxury condominium units that are financially out-of-reach for the average family in Hawaii.

By increasing the reserved housing requirement, this measure will ensure that the intent behind the Kakaako Community Development District is maintained and that future developments in the district will help to provide more affordable housing for Hawaii's residents.

Your Committee has amended the measure by:

- (1) Restricting the increased reserved housing requirement to lots of one acre or more; and
- (2) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2294, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2294, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Whalen). Excused, 1 (English).

SCRep. 2817 Ways and Means on S.B. No. 2421

The purpose of this measure is to authorize the Department of Land and Natural Resources to acquire lands owned by the Galbraith Estate in central Oahu through purchase, cooperative agreement, or eminent domain.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation. Comments on this measure were submitted by the Department of Land and Natural Resources and the Trust for Public Land.

Your Committee finds that much of the land in the Galbraith Estate is valuable and productive agricultural land. Its acquisition by the State would be an investment in a sustainable agricultural future. In addition, your Committee finds that acquisition of lands in the Galbraith Estate is in furtherance of the essential public policy of preserving natural resources.

Accordingly, your Committee has amended this measure as follows:

- (1) By replacing the appropriation with a blank amount to facilitate further discussion on this measure; and
- (2) By making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2421, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2421, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2818 Ways and Means on S.B. No. 2198

The purpose of this measure is to establish a land conservation incentives tax credit.

Specifically, this measure:

- (1) Establishes a land conservation incentives tax credit equal to fifty per cent of the fair market value or the amount voluntarily invested in the management of land that is donated to the State for a conservation or preservation purpose; and
- (2) Authorizes the holder of an interest in agricultural lands that qualify for the tax credit to petition to have the agricultural lands designated as important agricultural lands and qualify for important agricultural lands incentives under section 205-46, Hawaii Revised Statutes.

The Trust for Public Land, Nature Conservatory, Maui Land and Pineapple Company, Historic Hawaii Foundation, McCandless Ranch, Kauai Public Land Trust, and one individual submitted testimony in support of this measure. The Department of Taxation, Department of Agriculture, Department of Land and Natural Resources, and Tax Foundation of Hawaii submitted comments.

Undeveloped private lands can provide significant benefits to the general public as watersheds, erosion control, carbon sequestration, green space, recreational space, and cultural preservation. However, there is often no incentive or remuneration to the landowner for the benefit that the undeveloped private lands provide to the public. Your Committee finds that this measure will encourage private landowners to preserve and protect conservation lands.

Upon further consideration, your Committee has amended this measure by:

- (1) Moving from the tax credit eligibility requirements to the definition of “conservation or preservation purpose” the proviso that the taxpayer provide reasonable public access to require that the state agency that designated certain areas to be protected or preserved shall work with the taxpayer to identify opportunities to provide public access if appropriate and reasonable;
- (2) Changing the Act’s effective date to July 1, 2050; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2198, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2198, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2819 (Majority) Ways and Means on S.B. No. 3257

The purpose of this measure is to require the Department of Human Services to provide presumptive eligibility to medicaid- or QUEST-eligible waitlisted patients.

Specifically, this measure requires the Department of Human Services to presume that a waitlisted patient applying for medicaid or QUEST coverage is eligible for coverage; provided that the applicant shows proof of a certain income level and confirmation as a waitlisted patient, and meets a certain level of care requirements as determined by a licensed physician. The Department is required to notify the patient or guardian within forty-five days of the application of eligibility for continuing coverage under either medicaid or QUEST.

However, if the presumed eligible waitlisted patient who receives services is later determined to be ineligible, the Department of Human Services must disenroll that patient, notify the provider or plan of the disenrollment, and reimburse the provider or plan for services provided during the period the waitlisted patient was enrolled. Finally, the Department of Human Services is required to report to the Legislature prior to the 2011 Regular Session regarding the costs and other issues related to presumed eligibility.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center, Hawaii Pacific Health, Hawaii Business Roundtable, and Healthcare Association of Hawaii. The Department of Human Services submitted testimony in opposition. The Queens Medical Center offered comments.

Your Committee notes that experience in other states has found that the error rate in eligibility determinations was as low as four to six per cent, which is a reasonable risk that is offset by the improved utilization of more appropriate and less costly care settings in the home and in the community. Accordingly, your Committee believes that an appropriation of \$200,000 would be reasonable and prudent to cover any reimbursements to providers or plans due to enrolling waitlisted patients eventually determined to be ineligible.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the time of notification from the Department of Human Services to the patient or guardian of eligibility for continuing coverage from forty-five days to an unspecified number of working days;

- (2) Adding a requirement that the applicant show the Department of Human Services the required proof of eligibility within an unspecified number of days after submitting an application;
- (3) Adding an appropriation for an unspecified amount for the Department of Human Services to cover the cost of any reimbursements made to providers or plans for services provided during the time waitlisted patients are enrolled but eventually determined to be ineligible; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3257, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3257, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 2 (Hemmings, Whalen). Excused, 1 (English).

SCRep. 2820 Ways and Means on S.B. No. 2768

The purpose of this measure is to provide the Maui Memorial Medical Center, located in the Maui region of the Hawaii Health Systems Corporation, a means to fund improvements to the facility.

Specifically, this measure authorizes the Maui Health Care Regional System Board of the Hawaii Health Systems Corporation to issue \$150,000,000 in revenue bonds, and additional revenue bonds to refund the initial issue of revenue bonds, to finance the construction, improvement, and equipment of the Maui Memorial Medical Center, including the construction of a new Heart, Brain, and Spine Center on Maui.

Your Committee received testimony in support of this measure from the Maui Memorial Medical Center.

Upon further consideration, your Committee has amended this measure by:

- (1) Correcting the name of the proposed center to the "Heart, Brain, and Vascular Center";
- (2) Clarifying that the \$150,000,000 revenue bond issue authorized in section 2 of the bill is in addition to other amounts of bonds authorized by law; and
- (3) Clarifying that the authority to issue revenue bonds under this measure derives from the powers of a regional system board of the Hawaii Health Systems Corporation pursuant to section 323F-7(c)(15), Hawaii Revised Statutes, and not from the general power to issue revenue bonds inuring to the State under chapter 39, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2768, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2821 Ways and Means on S.B. No. 2845

The purpose of this measure is to require the Legislative Reference Bureau to conduct a study to identify and evaluate options for reorganizing the state agencies that are identified as integral to achieving the State's energy objectives.

Specifically, this measure directs the Legislative Reference Bureau to:

- (1) Identify the statutory responsibilities of state agencies that are integral to successfully achieving state energy objectives;
- (2) Identify any duplication or deficiency in these state agencies' responsibilities relating to state energy objectives;
- (3) Research how other states address similar deficiencies in the administration of their energy policies; and
- (4) Make recommendations regarding how the state agencies can be reorganized to advance the long-term energy strategy.

This measure also appropriates \$75,000 to the Legislative Reference Bureau to contract for the study.

Your Committee received testimony in support of this measure from the Natural Energy Laboratory of Hawaii Authority. The Department of Agriculture submitted testimony in opposition. The Department of Land and Natural Resources offered comments.

Upon further consideration, your Committee has amended this measure by changing the appropriated amount to an unspecified amount for purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2845, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2822 Ways and Means on S.B. No. 2986

The purpose of this measure is to allow certain residential taxpayers to claim a refund for the renewable energy technologies income tax credit.

More specifically, this measure allows a taxpayer whose income consists solely of pension benefits or has an adjusted gross income of \$20,000 or less (or \$40,000 or less in the case of married couples filing jointly), to qualify for a refundable tax credit for the purchase and installation of a renewable energy technology system, including solar water heating, photovoltaic, and wind systems.

Testimony in support of the measure was received from the Department of Business, Economic Development, and Tourism, the Department of Taxation, the Hawaiian Electric Company, Inc., and the Hawaii Solar Energy Association. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that this measure encourages and supports the use of renewable energy and provides Hawaii residents who are pensioners or have limited incomes the opportunity they would not otherwise have to utilize renewable energy technologies.

Your Committee has amended the measure by:

- (1) Changing the taxpayer's qualifying adjusted gross income limit to an unspecified amount;
- (2) Changing the measure's effective date to July 1, 2050 to facilitate continued discussion; and
- (3) Making technical, nonsubstantive amendments for the purpose of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2986, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2823 Judiciary and Labor on S.B. No. 2867

The purpose of this measure is to provide that any false information or misrepresentation knowingly placed in a public procurement bid or a proposal shall be a basis for not awarding the bid or contract to that person, and to subject that person to a mandatory suspension from bidding on any contract for one year.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and the State Procurement Office.

Your Committee finds that this measure provides consequences to offerors who compromise the integrity of the State's procurement laws to gain the award of a bid or contract by knowingly attempting to deceive procurement officers through the provision of false information.

Your Committee has amended this measure as follows by:

- (1) Deleting sections 1 through 6;
- (2) Inserting a section that amends section 103D-310, Hawaii Revised Statutes, relating to the responsibilities of offerors, to include language that embody the intent of the measure as received by the Committee but do so in a unified manner;
- (3) Replacing the term "affiliate" with "subcontractor", since rules adopted pursuant to chapter 103D, Hawaii Revised Statutes, include a definition for "subcontractor" that includes any person who enters into an agreement with the contractor to perform the work of the contractor; and
- (4) Referencing section 103D-702, Hawaii Revised Statutes, relating to the chief procurement officer's authority to debar or suspend, as the applicable section to address debarment and suspension from bidding provisions.

Your Committee has made these amendments based on the recommendation of the State Procurement Office to simplify the applicability of this measure's intent to all source selection methods of procurement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2867, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2867, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2824 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 3077

The purpose of this measure is to provide immunity from liability and entitlement to workers' compensation coverage for licensed medical personnel providing volunteer medical services on behalf of the State or a county.

Your Committees received testimony in support of this measure from the Department of Health.

This measure covers physicians, psychologists, nurses, emergency medical technicians, social workers, and mobile intensive care technicians.

Currently, medical professionals provide volunteer services for and within the State. Although such services are within the scope of their licenses, these licensed individuals are not indemnified by the State when responding in emergency situations. This liability can have a chilling effect on the provision of critical volunteer medical services by qualified individuals that are necessary to supplement the State's own medical personnel, especially in the cases of disasters or emergencies. This measure extends immunity from liability and entitlement to workers' compensation coverage for licensed medical personnel who provide volunteer medical services for the State or a county. Your Committees determine this will help to develop a strong volunteer workforce of medical professionals to support public health interventions and enhance emergency medical surge capacity.

This measure provides volunteer medical assistance personnel immunity from liability for death, injury, or property damage arising from acts or omissions in the course of rendering services, except for willful or criminal misconduct, gross negligence, or reckless conduct. This measure further provides that in the event of death, injury, or property damage arising from a negligent act or omission, volunteer medical service personnel are immune from liability, but the State or county may be sued for damages and held responsible under the doctrine of respondeat superior.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to allow further consideration of the sufficiency of protection this measure affords to members of the public in the event of accidental death, injury, or property damage; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3077, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3077, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 15. Noes, none. Excused, 3 (Hee, Hooser, Tsutsui).

SCRep. 2825 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 3009

The purpose of this measure is to amend the Money Transmitters Act, (chapter 489D, Hawaii Revised Statutes) to effectively regulate the money transmitters industry and to enhance protection of consumers.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Law Offices of Marvin S.C. Dang, L.L.L.C.

Your Committees find that money transmitters sell payment instruments, such as money orders, or receive money for transmission to other locations within the United States or overseas. Chapter 489D, Hawaii Revised Statutes, requires money transmitters to be licensed and in compliance beginning on July 1, 2007. Your Committees further find that there are currently over forty licensed money transmitters in the State.

Your Committees have amended this measure by;

- (1) Clarifying that fees collected by the Division of Financial Institutions, including renewal, application, license, and examination fees, cannot be changed by the Commissioner of Financial Institutions (Commissioner) through the rulemaking process of chapter 91, Hawaii Revised Statutes;
- (2) Replacing the term 'maximum' with 'aggregate' in section 489D-10, Hawaii Revised Statutes, for clarification purposes;
- (3) Revising the amount the Commissioner can charge for an examination fee to sixty dollars;
- (4) Authorizing the Commissioner to charge the money transmitter additional amounts for travel, per diem, and other reasonable expenses;
- (5) Amending the effective date to July 1, 2050, for purposes of facilitating further discussion and clarification; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3009, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3009, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 15. Ayes with Reservations, 2 (Slom, Whalen). Noes, none. Excused, 3 (Hee, Hooser, Tsutsui).

SCRep. 2826 Ways and Means on S.B. No. 2843

The purpose of this measure is to encourage the recycling of electronic devices by directing the Department of Health to establish a program for collecting and recycling electronic devices. The measure also:

- (1) Allows electronic device manufacturers to implement their own collection and recycling plans for discarded devices, subject to approval;
- (2) Creates a monitoring and enforcement mechanism for ensuring compliance with recycling plans;
- (3) Establishes the electronic device recycling fund, which is funded in part by fees collected from manufacturers that sell electronic devices in the State; and
- (4) Bans disposal of electronic devices in solid waste facilities beginning January 1, 2010.

Testimony in support of this measure was submitted by Kauai County Department of Public Works, Covanta Energy Group, and Retail Merchants of Hawaii. Comments on this measure were submitted by the Department of Health and Thomson, Inc..

Upon further consideration, your Committee finds that the goal of this measure is to provide a method for electronic devices, when discarded, to be returned to the manufacturer for recycling. Although this measure places considerable recycling responsibilities on manufacturers of electronic devices, it also provides flexibility for manufacturers to meet their obligation to protect the environment. The Committee further finds that this measure, if implemented, would reduce the amount of waste and toxic materials from discarded electronic devices from entering the State's landfills. It would also encourage greater recycling and reuse of valuable materials and component parts inside the electronic devices.

Your Committee acknowledges that many details still need to be addressed before this measure may be enacted, including the costs of administering the program, added costs to manufacturers and consumers, and the measure's effects on other industries such as retailing, manufacturing, and waste disposal.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of a "covered entity" by deleting the term "county household collector" and including government entities, businesses, and nonprofit organizations, regardless of size, operating on a neighbor island;
- (2) Amending the definition of "covered device" to include printers;
- (3) Inserting language into section -3 that will allow a "sell-through" period so that retailers may have the opportunity to sell any covered device that was on order or in stock before the manufacturer registered;
- (4) Inserting a provision to provide for a graduated registration fee for smaller manufacturers;
- (5) Deleting the electronic device recycling fund and instead requiring fees to be deposited into the environmental management special fund, requiring program implementation, including staffing, to be provided by that fund, and making appropriate conforming amendments to section 342G-63;
- (6) Making all implementation dates in the electronic device recycling program take effect one year later to provide time for the department of health to develop an implementation plan with stakeholder input, including each county, and submit a report to the legislature on the progress;
- (7) Appropriating an unspecified amount from the environmental management special fund to support the planning process for the electronic device recycling program; and
- (8) Making technical nonsubstantive amendments for the purposed of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2843, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2843, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2827 Ways and Means on S.B. No. 2104

The purpose of this measure is to increase the number of potential organ donors to make more organs available for transplantation.

Specifically this measure directs the Department of Health to contract for the establishment of an organ donor registry. The registry will compile organ donor information into a centralized database and make this information available to family members and physicians. The measure appropriates an unspecified amount of funds for the development of the registry.

Testimony in support of this measure was submitted by the Organ Donor Center of Hawaii and the National Kidney Foundation. Comments on this measure were submitted by the Department of Health.

Your Committee supports the efforts to establish a statewide organ donor registry that will allow and encourage more individuals to become organ and tissue donors. Your Committee finds that many more people are awaiting organ transplantation in Hawaii than the number of available donor organs. Much of this organ shortage may be overcome through increased registration of potential donors. Currently, the predominant method of providing notice is by indicating on one's driver's license that one is willing to be an organ donor. However, this method does not capture all of the potential organ donors. Your Committee believes that a comprehensive organ donor registry would be an effective mechanism for providing notice to both family members and medical professionals that an individual is a potential organ donor. By making donors' wishes more readily known, it is anticipated that the supply of donor organs will be increased, and more lives will be saved through organ transplantation.

Your Committee acknowledges that the registry would be an open record so that a donor's family members would know their wishes. Your Committee suggests that an online registry, where information may be accessed by registered members, will allow options beyond the current system of simply providing organ donor notice on one's driver's license.

Your Committee further notes that an appropriation for the organ donor registry may not be required, as federal grant or private foundation funding has been applied for.

Accordingly, your Committee has amended this measure by:

- (1) Specifying in Section 1, that the organ donor registry shall be an open record that is available to individuals who register for online registration access;
- (2) Requiring the registry to allow individuals to register as organ donors through the online system as a future option; and
- (3) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2104, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2104, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2828 (Majority) Ways and Means on S.B. No. 2192

The purpose of this measure is to ensure the health and welfare of the residents of Oahu and especially those near the area of the Waimanalo gulch sanitary landfill for which a permit modification has been applied to increase the maximum allowed grade of the ash monofill portion of the landfill.

Specifically, this measure requires the Department of Health to conduct an independent study and make an independent determination of the effect of increasing the maximum grade of the ash monofill at the Waimanalo gulch sanitary landfill from two hundred twenty feet to approximately two hundred seventy-five feet above mean sea level. Furthermore, this measure requires that the

study include a specific determination of any detrimental effects to the health, safety, and welfare of the community adjacent to or near the landfill and a specific determination of the increased risk of a landslide. The completion of the study and determination is to be a condition precedent to the granting of a modification to the solid waste management permit filed by the City and County of Honolulu and Waste Management of Hawaii, Inc.

Your Committee received testimony in opposition to this measure from the Department of Health.

Upon further consideration, your Committee has amended this measure to clarify that completion of the study and determinations is not a condition precedent to the granting of a modification to the solid waste management permit filed by the City and County of Honolulu and Waste Management of Hawaii, Inc. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2192, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2192, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Inouye).

SCRep. 2829 Ways and Means on S.B. No. 2790

The purpose of this measure is to appropriate funds for the perinatal clinic within the University of Hawaii Medical School, Department of Obstetrics, Gynecology, and Women's Health to help women with a history of substance abuse.

The Drug Policy Forum of Hawaii and Healthy Mothers Healthy Babies submitted testimony in support of this measure. The University of Hawaii System submitted comments.

The perinatal clinic provides substance abuse treatment, prenatal care, and follow-up services in a supportive environment. This approach recognizes the need to provide appropriate health care to substance using pregnant women rather than punitive repercussions. One of the barriers to substance using pregnant women seeking perinatal care is fear of prosecution. Your Committee finds that this measure will further healthy family relationships and help prevent low-birth weight and premature births.

Upon further consideration, your Committee has amended this measure by replacing the amount of the appropriated sum with an unspecified amount.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2790, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2830 Ways and Means on S.B. No. 2822

The purpose of this measure is to establish safe and structured learning environments for school-aged children during non-school hours.

Specifically, this measure:

- (1) Establishes a task force on non-school hour programs;
- (2) Appropriates temporary assistance for needy families funds for the safe haven after-school program in Hawaii County and non-school hour programs, in general; and
- (3) Appropriates general funds for non-school hour activities and an educational specialist II position within the Department of Education.

The Department of Education and HiTech Quest submitted testimony in support of this measure. The Department of Human Services submitted testimony in opposition to this measure. The Department of the Attorney General submitted comments.

Statistics indicate that the rates of juvenile crime, drug use, and experimentation with tobacco, alcohol, and sexual activity increase among unsupervised older children during non-school hours. The Department of Education, Department of Human Services, Department of Parks and Recreation, Hawaii State Student Council, and community agencies have collaborated for the planning, implementation, and evaluation of non-school hour programs. Their efforts have made a significant impact in the community. Your Committee finds that this measure will support existing after school care endeavors, as well as encourage additional non-school hour programs and activities.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the language regarding a non-school hour activities program coordinator in section 9 of the bill because such a position has already been established;
- (2) Establishing the non-school hour activities task force within the Office of Youth Services instead of the Department of Education;
- (3) Establishing an Educational Specialist II position within the Department of Education in lieu of a non-school hour activities program coordinator position;
- (4) Designating the Department of Human Services as the expending agency for the purposes of non-school hour programs for kindergarten through twelfth grades that are administered by the Department of Education;

- (5) Designating the Department of Human Services as the expending agency for the purposes of non-school hour programs for children and youth enrolled in school;
- (6) Clarifying the purpose of the measure and appropriations with respect to qualifying for federal temporary assistance for needy families block grants; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2822, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2822, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2831 Ways and Means on S.B. No. 3255

The purpose of this measure is to establish a long-term care commission to research what resources are necessary to meet state long-term care public policy goals and to recommend a program and funding mechanism that may provide long-term care services in the State.

Specifically, this measure designates members of the commission and sets their terms of office and requires the commission to:

- (1) Review available research, studies, and previously proposed programs;
- (2) Establish a purpose statement;
- (3) Prepare a five-year plan to accomplish the goals, including the recommendation of benchmarks;
- (4) Monitor federal legislation for changes that may impact the program;
- (5) Collaborate with interested stakeholders; and
- (6) Submit an interim report to the legislature no later than twenty days prior to the convening of the 2009 regular session, and a final report to the legislature no later than July 31, 2010.

The measure also appropriates funds to support the work of the long-term care commission.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, American Association of Retired Persons, Hawaii Aging Advocates Coalition, Hawaii Alliance for Retired Americans, and Kokua Council/Policy Advisory Board for Elder Affairs. The State Procurement Office submitted testimony in opposition.

Upon further consideration, your Committee has amended this measure to:

- (1) Require that the University of Hawaii at Manoa, College of Social Sciences Public Policy Center provide administrative support and staffing to facilitate the work of the long-term care commission;
- (2) Change the expending agency from the Senate and the House of Representatives to the University of Hawaii;
- (3) Change the amount of the appropriation to an unspecified amount; and
- (4) Make technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3255, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3255, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2832 Ways and Means on S.B. No. 2579

The purpose of this measure is to establish new penalties for failing to file required campaign spending reports or for filing substantially defective or deficient reports.

In addition, the measure provides that campaign spending penalties and fines shall be deposited into the general fund rather than the Hawaii election campaign fund.

The State Campaign Spending Commission and the League of Women Voters of Hawaii submitted comments on the measure.

Your Committee finds that by establishing the fines assessed on committees for failure to file or for filing a substantially defective report will encourage more timely disclosure and thereby support a central pillar of campaign spending law. Your Committee further finds that fines imposed for failure to file a corrected report electronically within a certain amount of time will also serve to increase compliance with the law.

Your Committee has amended the measure to:

- (1) Clarify that all fines for failing to file a campaign spending report are imposed on the candidate committee, rather than the individual candidate;
- (2) Delete unnecessary language concerning the revisor of statutes renumbering new sections; and
- (3) Make technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2579, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2579, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2833 Ways and Means on S.B. No. 2720

The purpose of this measure is to authorize the State Fire Council to employ an administrator and an administrative assistant.

Testimony in support of this measure was received from the State Fire Council and the Legislative Information Services of Hawaii.

Your Committee finds that the level of operations and responsibility of the State Fire Council warrants the establishment of full-time equivalent staff support. The Council is placed within the Department of Labor and Industrial Relations for administrative purposes.

Your Committee has amended this measure by adding an unspecified amount of funds to the Department of Labor and Industrial Relations for the two State Fire Council positions, and making a conforming amendment to its effective date. Your Committee also made technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2720, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2720, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2834 (Majority) Ways and Means on S.B. No. 2196

The purpose of this measure is to:

- (1) Transfer to the Board of Land and Natural Resources the Department of Transportation's authority to regulate commercial activity on ocean waters, except harbors;
- (2) Clarify that the authority being transferred from the Department of Transportation to the Board of Land and Natural Resources with regard to the commercially permitted use of boating facilities applies to both governmental and private facilities; and
- (3) Authorize the Board of Land and Natural Resources to regulate commercial activity in private marinas.

Testimony in support of this measure was submitted by four concerned individuals. Testimony opposed to this measure was submitted by the Department of Land and Natural Resources and Paradise Cruise, Ltd.

Your Committee finds that expanded developments in visitor and destination areas along the coast have resulted in increased commercial activities taking place in the State's ocean waters. Your Committee finds that this increased use has the potential to create conflicts among users and cause adverse effects on ocean habitats.

Upon further consideration, your Committee finds that it is necessary to clarify that this measure is not intended to add to or modify boating activities that are already regulated. Rather, the intent is to allow the Department of Land and Natural Resources to regulate previously unregulated commercial activities from new resort and marina areas.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a new section 1 that clarifies the intent and purpose of this measure;
- (2) Deleting the proposal to have the Board of Land and Natural Resources assume the function of the Department of Transportation to regulate commercial activity on ocean waters; and
- (3) Clarifying the definition of the "commercial activity" to be regulated in private marinas.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2196, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2196, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Inouye).

SCRep. 2835 (Majority) Ways and Means on S.B. No. 2528

The purpose of this measure is to provide dedicated funding for the care and operation of Kokee state park and the Waimea canyon state park.

Your Committee received testimony in support of this measure from two individuals. The Department of Land and Natural Resources and two individuals submitted testimony in opposition to the measure and one individual submitted comments on the measure.

Your Committee finds that Kokee and Waimea canyon state parks are unique, fragile ecosystems that provide trails and historic-cultural qualities for residents and tourists alike. These parks, however, are in danger of commercialization and overuse and have suffered from disrepair and lack of maintenance.

This measure establishes a budget sub-account for these state parks within the state parks special fund. The sub-account would ensure that a portion of the proceeds from concessions, leases, and commissions collected at the Kokee and Waimea canyon state parks would be used for their repair and upkeep to ensure that the parks' natural beauty and uniqueness are preserved for years to come.

Your Committee has amended the measure by:

- (1) Changing the effective date to July 1, 2050, to promote further discussion on this matter; and
- (2) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2528, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2528, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Inouye).

SCRep. 2836 Ways and Means on S.B. No. 3206

The purpose of this measure is to provide continued community participation in the preservation and protection of Kawai Nui marsh.

Specifically, this measure creates the Kawai Nui Marsh Advisory Council within the Department of Land and Natural Resources, and it will consist of representatives of community and conservation groups and government entities. The council shall review and assist in updating the 1994 Kawai Nui Marsh master plan and facilitate the implementation of the master plan. The measure also requires the Council to enhance education and cultural awareness of the marsh and participate in the protection and preservation of its natural and cultural resources. The measure also appropriates an unspecified amount to support the work of the council.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the City and County of Honolulu, and one concerned individual. Testimony opposed to this measure was submitted by the Hawaii Audubon Society. Comments on this measure were submitted by the Department of Land and Natural Resources.

Your Committee finds that the Kawai Nui Marsh is the largest remaining wetland in the State. Among its ecological treasures are primary habitats for a number of species of endemic and endangered Hawaiian birds. In addition, the Kawai Nui Marsh was designated a wetland of international importance by the Ramsar Convention for the marsh's relationship to surrounding cultural sites.

Your Committee further finds that, despite advocacy and restoration efforts from many devoted community groups, the health of Kawai Nui Marsh has declined. Your Committee believes that the involvement of the community in the planning and implementation of programs in Kawai Nui Marsh is critical to maintain and increase public support for preserving this important wetland. Your Committee also believes that the creation of the Kawai Nui Marsh Advisory Council will engage government entities and community groups together in management of the marsh and will preserve and protect it for the future.

Upon further consideration, your Committee has amended this measure as follows:

- (1) By clarifying that membership of the council shall include a representative of the Department of Land and Natural Resources State Parks Division, rather than the Administrator; and
- (2) By making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3206, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3206, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2837 Ways and Means on S.B. No. 3137

The purpose of this measure is to make an appropriation to the Department of Land and Natural Resources for the purpose of monitoring akule fish from Pearl Harbor to Ka'ena point.

Testimony in support of the measure was received from three private individuals. Testimony opposing the measure was received from the Department of Land and Natural Resources.

Your Committee finds that development and recreational activities along the leeward coast of Oahu have affected the coastal system and the habits of migration of the akule. Your Committee further finds that a tagging study of the akule will provide valuable information about approaches to protecting this valuable aquatic resource in light of commercial activity and traditional fishing practices along the coast.

Upon further consideration, your Committee amended this measure by changing the appropriation amount to an unspecified amount to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3137, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3137, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2838 Ways and Means on S.B. No. 3102

The purpose of this measure is to provide for greater protection of lands that have value as a resource to the State by allowing:

- (1) Public and private moneys to be deposited into the land conservation fund and distributed as grants for the acquisition of land having value as a resource to the State; and

- (2) Moneys from the land conservation fund to be used for the costs of operating, maintaining, and managing lands acquired by way of the land conservation fund.

The Department of Land and Natural Resources, Hawaii Agriculture Research Center, and the Nature Conservatory submitted testimony in support of this measure. The Trust for Public Land submitted testimony in opposition to this measure.

The Legacy Land Conservation Program is currently funded through an annual transfer of ten per cent of the conveyance tax to the land conservation fund. The program has successfully partnered with state and county agencies, as well as nonprofit land conservation organizations to protect a significant amount of the State's resource value lands. However, in the first two years of the program's existence, the applicants' requests have exceeded the sums available to be awarded.

Your Committee finds that this measure will increase the number of quality projects that can be funded through the program by permitting other public and private moneys to be deposited into the land conservation fund. This measure will also help protect resources at risk on the resource value lands by allowing moneys from the land conservation fund to be used for the costs of operating, maintaining, and managing lands acquired by way of the land conservation fund. This will ultimately provide greater public access and enjoyment of the resource value lands.

Upon further consideration, your Committee has amended this measure by:

- (1) Specifying that the costs related to the operation, maintenance, and management of lands acquired by way of the land conservation fund cannot exceed five per cent of annual fund revenues of the previous year, not costs in general; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3102, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3102, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2839 Ways and Means on S.B. No. 2864

The purpose of this measure is to ensure that health plan reimbursements to physicians and hospitals in Hawaii are adequate.

Specifically, this measure requires the Insurance Commissioner to prepare a written report surveying:

- (1) The amount of compensation or salary of the active, practicing doctors in Hawaii in various areas of specialty;
- (2) A comparison of Hawaii physician compensation or salary information to national physician salary information;
- (3) The patient co-share payments in Hawaii compared to patient co-share payments in other states;
- (4) The Hawaii Medical Service Association, Hawaii Management Alliance Association, Kaiser Foundation Health Plan, Summerlin Life and Health Insurance Company, and University Health Alliance to determine various facts relating to reimbursements;
- (5) A comparison of the reimbursements in paragraph (4) with the reimbursements in other states;
- (6) Selected providers, including physicians and hospitals, to provide examples of the actual costs of providing health care services in Hawaii;
- (7) Students at the John A. Burns School of Medicine to determine whether low reimbursements create a disincentive to practice in Hawaii;
- (8) The shortfalls in payments by medicare, medicaid, and private insurance to cover costs incurred by hospitals and physicians;
- (9) A comparison of insurance premiums paid by individuals and employers for health plan coverage in Hawaii with insurance premiums paid in other states; and
- (10) A comparison of the average costs of malpractice insurance premiums incurred by physicians and by specialties in Hawaii with other states.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Healthcare Association of Hawaii.

Upon further consideration, your Committee has amended this measure to identify the compliance resolution fund as being established pursuant to section 26-9(o), Hawaii Revised Statutes, in the appropriation and to change the appropriated amount to an unspecified sum. Your Committee has also made technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2864, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2864, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2840 (Majority) Ways and Means on S.B. No. 2832

The purpose of this measure is to support and encourage a sustainable future for Hawaii by developing and establishing sustainable communities in the State.

Specifically, this measure requires the State in a combined effort with all state departments and agencies to develop and maintain sustainable communities that will:

- (1) Generate, primarily through alternative energy sources, at least fifty per cent of all of the energy requirements for the entire community under development, including residential homes, and areas and services used by the entire community;
- (2) Implement a comprehensive recycling program to divert at least seventy-five per cent of the entire community's solid waste from landfills;
- (3) Implement an extensive community wastewater recycling and treatment management system to treat and recycle the entire community's wastewater for landscaping and other agricultural irrigation requirements offsite;
- (4) Implement an extensive water conservation management plan for the entire community to conserve water through various methods, including rain water harvesting;
- (5) Designate at least fifty per cent of the entire tract of land for the residential community for open space; provided that open space does not include designated golf courses or the shoreline if the community abuts and includes shoreline space;
- (6) Grant public access to nearby cultural or historical sites, public beaches, shores, trails, or other recreational areas; and
- (7) Reserve at least thirty per cent of its residential units within the residential community for affordable housing.

The Department of Business, Economic Development, and Tourism, the Chamber of Commerce of Hawaii, and one individual submitted testimony in opposition to this measure. The Commission on Water Resource Management of the Department of Land and Natural Resources submitted comments.

Your Committee finds that sustainability can be achieved through the cooperative and coordinated efforts of interested parties, state and county government, businesses, and community groups. This measure establishes a framework through which future residential communities can be planned and developed with the goal of sustainability from their inception. However, your Committee recognizes that a number of issues remain to be resolved on this important initiative. Accordingly, your Committee has retained the effective date of July 1, 2050, to encourage continued discussion among affected stakeholders.

Upon further consideration, your Committee has amended this measure by:

- (1) Including in the findings of the measure an example of sustainability concepts being successfully implemented in an existing community;
- (2) Clarifying the process that a developer may use to access incentives for building sustainable residential community developments;
- (3) Clarifying the applicability of the measure to state departments and agencies authorized to grant permits;
- (4) Clarifying the duties and responsibilities of the ad hoc development committee;
- (5) Clarifying the composition of the ad hoc development advisory committee by deleting the energy resources coordinator of the Hawaii housing finance and development corporation or designee and adding the deputy for water resource management of the department of land and natural resources or the deputy's designee and the executive director of the Hawaii housing finance and development corporation or the executive director's designee;
- (6) Conditioning the occupancy of a completed residential community upon the approval of the energy resources coordinator; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2832, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2832, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Whalen). Excused, 1 (English).

SCRep. 2841 Ways and Means on S.B. No. 2733

The purpose of this measure is to:

- (1) Resolve claims and disputes relating to the portion of income and proceeds from the lands of the public land trust for use by the Office of Hawaiian Affairs between November 7, 1978, and July 1, 2008; and
- (2) Fix prospectively, the minimum amount of income and proceeds from the lands of the public land trust that are to be paid to the Office of Hawaiian Affairs at \$15,100,000 annually.

The Department of the Attorney General, Office of Hawaiian Affairs, Maui Native Hawaiian Chamber of Commerce, Native Hawaiian Hospitality Association, Joseph Kealoha, Inc., Dowling Company, Inc., and one hundred four individuals submitted testimony in support of this measure. Na Koa Ikaika o Ka Lahui Hawaii and one individual submitted testimony in opposition to this measure.

Your Committee finds that this measure represents the terms of an agreement proposed by the Governor and the Office of Hawaiian Affairs to resolve claims and disputes arising from the portion of income and proceeds from the lands of the public trust for use by the Office of Hawaiian Affairs, between November 7, 1978, and July 1, 2008.

Upon further consideration, your Committee has amended this measure by making numerous technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2733, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2733, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 2 (Tsutsui, Whalen). Noes, none. Excused, 1 (English).

SCRep. 2842 Ways and Means on S.B. No. 2915

The purpose of this measure is to establish the taro security and purity task force.

Your Committee received testimony in support of the measure from the Department of Agriculture, the Office of Hawaiian Affairs, the University of Hawaii, the Hawaii Island Contractors Association, Na Maka O Ka Aina, and two individuals. Your Committee received comments on the measure from two individuals.

Your Committee finds that the taro security and purity task force is essential to the taro industry to:

- (1) Develop guidelines, protocols, and recommendations for taro policy to ensure that taro is saved and protected in Hawai'i;
- (2) Develop a program of incentives and projects that enhance taro security and purity, provide support to taro farms and farmers, and improve taro markets for the long-term;
- (3) Support the recovery of traditional Hawaiian taro cultivars in the State; and
- (4) Increase public awareness of taro and its role culturally, socially, in health and well-being, environmentally, and economically in the State.

Your Committee has amended the measure by:

- (1) Clarifying that the person retained to assist the task force is hired contractually and is not a state employee;
- (2) Clarifying that the report by the task force is to be submitted to the legislature twenty days prior to the convening of the 2009 regular session;
- (3) Changing the appropriations in section 8 of the measure to unspecified amounts; and
- (4) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2915, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2915, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2843 Ways and Means on S.B. No. 2984

The purpose of this measure is to improve the ability of the disaster loan program to make funds available for disaster relief and rehabilitation through personal and commercial loans following a disaster.

Specifically, this measure:

- (1) Makes changes to the State's disaster loan program to conform to the United States Small Business Administration Disaster Loan Program;
- (2) Allows for the remediation of damaged property;
- (3) Sets loan application deadlines;
- (4) Increases the loan ceiling for individuals and businesses to \$50,000 and \$100,000, respectively;
- (5) Sets the loan interest rate at one per cent below the Small Business Administration's interest rate; and
- (6) Deletes provisions for the transfer of funds from other state loan programs that are no longer funded.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism and the Civil Defense division of the Department of Defense.

Your Committee finds that it is important for the disaster loan program to provide loans to businesses and individuals as quickly as possible following a disaster.

Upon further consideration, your Committee has amended this measure by providing the director more flexibility on establishing loan application deadlines and criteria for waiving deadlines in consideration of exigent circumstances and by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2984, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2984, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2844 Ways and Means on S.B. No. 2480

The purpose of this measure is to appropriate an unspecified amount of additional funds in fiscal year 2008-2000 for the support and expansion of existing Science-Technology-Engineering-Math related programs, including creative media education programs, and project Environmental and Spatial Technology programs.

Your Committee received testimony in support of this measure from the Hawaii Crop Improvement Association and the Economic Development Alliance of Hawaii. Testimony in opposition to the measure was received from the Department of Education. Comments on the measure were received from the University of Hawaii and the Department of Business, Economic Development, and Tourism.

Your Committee finds that funds for the support and expansion of existing Science-Technology-Engineering-Math related programs and project Environmental and Spatial Technology programs were previously appropriated for fiscal year 2008-2009 during the regular session of 2007. However, because these educational programs have been so successful, they require additional funding to accommodate the increased participation levels and program expansion.

Your Committee has amended this measure by incorporating the contents of S.B. No. 2862, S.D. 1, which establishes the science technology and education special fund and redirects appropriations to certain Science-Technology-Engineering-Math related programs through the science technology and education special fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2480, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2480, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2845 Ways and Means on S.B. No. 2482

The purpose of this measure is to extend the lapse date of the funds provided for the planning, design, and construction of a modern laboratory and office complex on Coconut Island.

The University of Hawaii submitted testimony in support of this measure.

The Hawaii Institute of Marine Biology is a world-renowned research institute situated on Coconut Island in Kaneohe Bay. The island itself also provides excellent research opportunities as it is surrounded by sixty-four acres of protected coral reef. The Hawaii Institute of Marine Biology provides research facilities for faculty and students from a broad range of disciplines, including zoology, oceanography, microbiology, molecular biosciences, bioengineering, human nutrition, food and animal sciences, and global environmental sciences. Your Committee finds that this measure will help the University of Hawaii pursue opportunities to further enhance this unique research facility.

Upon further consideration, your Committee has amended this measure by changing the effective date to June 29, 2008, to prevent the funds from lapsing on June 30, 2008, pursuant to Act 160, Session Laws of Hawaii 2006.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2482, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2482, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Fukunaga, Hooser).

SCRep. 2846 Ways and Means on S.B. No. 2774

The purpose of this measure is to establish a task force within the University of Hawaii School of Social Sciences to evaluate comprehensive recycling options available to schools, including a detailed cost-benefit analysis related to establishing a school recycling program in the State.

The Department of Education and the University of Hawaii at Manoa College of Social Sciences Public Policy Center submitted comments.

Your Committee finds that every school day, each student throughout the State produces about half a pound of waste. A school recycling program would reduce unnecessary spending on waste disposal and alleviate some of the spatial issues facing Hawaii landfills. A school recycling program in the State will also teach students important recycling habits and ultimately benefit the environment.

According to the Public Policy Center, the measure's broad scope exceeds what the Public Policy Center's capacity can support this year and would require a substantial redirection of faculty resources. In consideration of this, your Committee amended the measure to narrow its scope by:

- (1) Requiring the scope of the evaluation to be limited to a small number of pilot sites rather than to be comprehensive;
- (2) Requiring the task force to provide a summary feasibility report instead of a detailed cost-benefit analysis; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee retained an appropriation section in the measure. However, given the fact that the scope of the measure has been narrowed, it is likely that no general funds will be needed to implement the project.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2774, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2774, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2847 Ways and Means on S.B. No. 2868

The purpose of this measure is to establish an archaeological data survey database under the State of Hawaii Museum of Natural and Cultural History.

More specifically, the measure will make the database accessible to the public online and requires the Museum of Natural and Cultural History to consult with the State Historic Preservation Division and other appropriate agencies and organizations in developing and maintaining the database. The measure authorizes the Museum to withhold information from the database if its disclosure poses a threat to a site or artifact.

The Department of Land and Natural Resources submitted comments regarding this measure.

Your Committee has amended the measure by making technical, nonsubstantive amendments for the purpose of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2868, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2868, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2848 Ways and Means on S.B. No. 3165

The purpose of this measure is to provide for affordable housing, healthcare and care for the elderly, and services to Hawaii's disadvantaged with respect to mixed-use transit-oriented joint development project opportunities.

Specifically, this measure authorizes the Hawaii Housing Finance and Development Corporation to approve and certify for exemption from the general excise tax any project that provides affordable rental housing or community health care facilities within a mixed-use transit-oriented joint development project approved by the Corporation.

The measure also clarifies that additional amounts not subject to the general excise tax applies to amounts received by an operator of a county bus transportation system. Furthermore, this measure exempts from the general excise tax, amounts received by the operator of a county fixed guideway transportation system and imposes certain conditions and qualifications on the exemption relating to the county's budget and budgeting process. Finally, this measure limits the exemption under the use tax in chapter 238, Hawaii Revised Statutes, to affordable rental housing units.

Your Committee received testimony in support of this measure from the Public Policy Center of the College of Social Sciences of the University of Hawaii, the Hawaii Association of Realtors, and the Hawaii Alliance for Community-Based Economic Development. The Hawaii Housing Finance and Development Corporation of the Department of Business, Economic Development, and Tourism submitted testimony in opposition to this measure and the Department of Taxation offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Adopting the suggestions offered by the City and County of Honolulu to:
 - (A) Delete all provisions relating to the exemption from the general excise tax of amounts received by the:
 - (i) Operator of a county bus transportation system; and
 - (ii) Operator of the fixed guideway transportation system, including provisions relating to the City and County of Honolulu's budget and budgeting process.
 - (B) Remove the definition of "eligible development costs" with respect to claiming a general excise tax exemption;
 - (C) Remove federal approval of mixed-use transit-oriented joint development projects; and
 - (D) Allow community healthcare facilities to claim the use tax exemption; and
- (2) Make technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3165, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3165, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2849 Ways and Means on S.B. No. 3168

The purpose of this measure is to statutorily establish the Academy for Creative Media Program to develop a skilled workforce to support digital media production and provide creative career and business opportunities for Academy students.

The measure also:

- (1) Designates the location of the program to be at the University of Hawaii at West Oahu and specifies its management structure; and
- (2) Deletes provisions related to the program leasing the Public Broadcasting System facility.

One individual submitted testimony in support of this measure. The Department of Education, Chair of the Academy of Creative Media Program at the University of Hawaii at Manoa, and four individuals submitted testimony in opposition to this measure. The University of Hawaii System and the Department of Business, Economic Development, and Tourism submitted comments.

Your Committee finds that the proposal to establish the Academy for Creative Media Program in the College of Arts and Sciences was approved by the Board of Regents of the University of Hawaii on January 16, 2004. In supporting documents presented to the Board, the program was described as "a system-wide endeavor for fostering a progressive and collaborative environment for students, faculty, campuses and departments, while effectively interfacing with global academic, technology and commercial economies. Initially, students will receive credit and degrees, where appropriate, through existing programs. New programs will be developed and approved via established Board of Regents procedures and processes. New programs envisioned include certificate programs, an AA in Creative Media, a BA in Creative Media, an MA in Critical Studies, MFAs in Animation and Computer Games, Writing for Visual Media, Cinematic and Digital Production, Producing, and Innovation Technologies and Creative Media, and a PhD in Critical Studies."

Your Committee further finds that the program has been highly successful in building the collaborative environment and in sustaining an effective global interface during the past four years, in spite of the resource constraints faced by the program. In order to establish "a robust academic, industrial and community framework for the formation and sustainability of a knowledge-based, creative media industry in Hawaii," now is the time for the legislature to support the program's expansion and development of its production-oriented facilities into locations beyond a single campus.

Your Committee believes that this measure provides the means for the program to capitalize upon its earlier achievements, by progressing to the next step in building a system-wide program, and takes Hawaii one step closer towards building the knowledge, creative-based industries of the twenty-first century.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting references in the measure that relate to the establishment of the Academy for Creative Media Program at the West Oahu campus;
- (2) Emphasizing that the program and any degrees offered pursuant thereto should be system-wide and statewide in nature;
- (3) Specifying that the appropriation for the program should be expended to expand programs and facilities at a system-wide, statewide level administered by the University of Hawaii;
- (4) Providing that the expansion of programs and facilities should be directed to the West Oahu-Kapolei region; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3168, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3168, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Tsutsui). Noes, none. Excused, 1 (Inouye).

SCRep. 2850 Ways and Means on S.B. No. 2524

The purpose of this measure is to require and appropriate funds for the creation of separate forensic treatment facilities for the mentally ill in all community correctional centers.

This measure would also require appropriate medical staffing for each facility and ban the practice of placing mentally ill persons either in solitary confinement or in the general correctional population.

Your Committee received comments on this measure from the Department of Public Safety and the Community Alliance on Prisons.

Upon further consideration, your Committee has amended this measure by:

- (1) Replacing the statutory amendments proposed by the measure with language requiring the Department of Public Safety to conduct a study on the feasibility of doing what the bill originally would have required;
- (2) Creating an advisory committee to assist the Department of Public Safety in conducting the feasibility study;
- (3) Requiring the Department of Public Safety to report the findings and recommendations of the feasibility study to the Legislature no later than twenty days prior to the regular legislative session of 2009;
- (4) Changing the purpose of the appropriation to the performance of the feasibility study; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2524, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2524, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (Hooser, Tsutsui, Whalen).

SCRep. 2851 (Majority) Ways and Means on S.B. No. 2878

The purpose of this measure is to establish in the State an early learning system, an Early Learning Council, and the keiki first steps program.

More specifically, this measure establishes an early learning system in Hawaii to provide quality learning opportunities for children, age birth to five. The measure creates the Early Learning Council to govern the early learning system and attaches the council to the

Department of Education. The measure also establishes the keiki first steps program as the first phase of the early learning system and appropriates funding for the program.

Testimony in support of this measure was received from the Department of Education, the University of Hawaii System, the Center on Disability Studies, Honolulu Community College Early Childhood Programs, Kamehameha Schools, Maui Economic Opportunity, Inc., Aloha United Way, the Hawaii Educational Policy Center, the Hawaii Association of Independent Schools, PATCH, Spark M. Matsunaga Institute for Peace, and twenty private individuals. The Office of Information Practices and a private citizen submitted comments. Testimony opposing the measure was received from the Department of Human Services.

Your Committee finds that a comprehensive early learning program that ensures a continuum of quality early learning opportunities will not only benefit Hawaii's children and their families, but is important to the prosperity and productivity of the entire State. Your Committee notes that the primary provisions included in this measure are based upon recommendations from the Early Learning Educational Task Force, which was established by the Legislature pursuant to Act 259, Session Laws of Hawaii 2006. However, recognizing that the Early Learning Council will need additional time to fully develop and identify resources, providers, and facilities for the keiki first steps program to ensure its success, your Committee believes that a phased implementation approach is necessary.

Your Committee has amended this measure by:

- (1) Designating the keiki first steps program as a five-year pilot program, to begin implementation in the 2009-2010 academic year;
- (2) Providing criteria upon which schools will be selected as keiki first steps participating schools and requiring that each district shall have at least two schools participating in the keiki first steps pilot program;
- (3) Requiring the Early Learning Council to research program requirements and report recommendations regarding the implementation of keiki first steps pilot program to the Legislature prior to the start of the 2009 Regular Session;
- (4) Requiring the Early Learning Council to submit annual reports and a final report, recommending whether the program should continue as a permanent program; and
- (5) Deleting the appropriation provision for keiki first steps, while specifying that program funds should be requested in the 2009-2011 biennium budget.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2878, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2878, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, 1 (Hemmings). Excused, 3 (Hooser, Tsutsui, Whalen).

SCRep. 2852 Ways and Means on S.B. No. 591

The purpose of this measure is to update and restate the capital goods excise tax credit.

Your Committee received testimony in support of this measure from the Department of Taxation and a practicing attorney. The Tax Foundation of Hawaii submitted comments on the measure.

Your Committee finds that section 235-110.7, Hawaii Revised Statutes, relating to the capital goods excise tax credit, has been difficult to administer because of references to Internal Revenue Code provisions that have been repealed or substantially amended.

Although this measure repeals section 235-110.7, Hawaii Revised Statutes, the provisions and application of the capital goods tax credit are retained and codified in a new part.

Upon further consideration, your Committee has made the following amendments to the measure:

- (1) Adding a definition of "cost" to include the cost of installing acquired capital goods;
- (2) Removing in the proposed section 235-B(b), the reference to the definition of "basis" in section 235-A;
- (3) Removing references to a decrease in the business use of listed property and the basis of eligible property, respectively, with respect to the occurrence of recaptured property;
- (4) Adding a provision to the effective date section that section 3 (repeal of section 235-110.7, Hawaii Revised Statutes) shall not apply to property placed in service in Hawaii prior to January 1, 2008;
- (5) Deleting references to section 235-110.7, Hawaii Revised Statutes, throughout the Hawaii Revised Statutes; and
- (6) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 591, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 591, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Inouye).

SCRep. 2853 (Majority) Ways and Means on S.B. No. 3252

The purpose of this measure is to address the teacher shortage problem in the State through various initiatives and to make appropriations.

More specifically, the measure:

- (1) Appropriates funds for public school teachers and teacher candidates to take PRAXIS preparatory courses, tutorials, or programs to become highly qualified under the No Child Left Behind Act;
- (2) Provides teachers with full service credit for prior teaching experience, up to a maximum of ten years, when determining the classification of a teacher hired to teach in a hard-to-fill school or subject area; except that such teachers hired between January 1, 2004, and June 30, 2008, shall not receive retroactive pay related to the full service credited;
- (3) Provides national board certified teachers with full credit for the teacher's total number of years of teaching experience;
- (4) Makes appropriation to establish a teacher workforce strategic planning committee to develop and implement a strategic teacher workforce development plan, among other duties;
- (5) Appropriates funds to establish professional development schools within Hawaii public schools to train preservice teachers;
- (6) Appropriates funds to complex areas for academic coaches for students and programs relating to the professional development and retention of teachers;
- (7) Establishes the teacher housing allowance program to provide housing assistance and appropriates funds for the program and for repair and maintenance of existing teacher housing;
- (8) Appropriates funds for the Hawaii teacher cadet program to address the teacher shortage;
- (9) Appropriates funds for a Hawaii beginning teacher induction pilot program within the Department of Education; and
- (10) Appropriates funds to establish additional teacher education positions.

Testimony in support of the measure was submitted by the Hawaii State Teachers Association. The Department of Education, the University of Hawaii, the Hawaii Educational Policy Center, and the Hawaii Teachers Standards Board submitted comments.

Your Committee finds that qualified teachers are a valuable resource in any state. One of the most critical problems in our State is attracting and keeping qualified teachers in our public schools. Good teachers inspire our children to become good students. Good students become knowledgeable, productive, and responsible citizens, who also contribute to the development of a qualified workforce. A skilled, available workforce is essential to the economic well-being of the State. Your Committee believes that this measure takes significant steps in addressing issues relating to qualified teachers.

Your Committee has amended the measure by:

- (1) Providing up to ten years of prior teaching credit to teachers hired to teach in shortage area categories and teachers who meet all requirements of the No Child Left Behind Act;
- (2) Deleting provisions relating to the establishment and funding of a teacher workforce strategic planning commission;
- (3) Deleting an appropriation of funds for the repair and maintenance of existing teacher housing;
- (4) Deleting provisions relating to the establishment and funding of sixteen additional teacher education positions at the West Oahu campus of the University of Hawaii;
- (5) Changing the amounts appropriated in all provisions to unspecified amounts to facilitate further discussion; and
- (6) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3252, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3252, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Hooser).

SCRep. 2854 Ways and Means on S.B. No. 3115

The purpose of this measure is to improve the Department of Taxation's collection capabilities through the efficient allocation of resources and simplified taxpayer filings.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that only twenty-seven per cent of all individual income tax returns are filed electronically. Also, business returns require the manual processing of ninety-six per cent of the over 1,500,000 business returns filed. Manual filings can result in the Department receiving as much as a ton of mail a day.

Your Committee further finds that other states that require electronic filing have experienced higher growth rates, improved taxpayer services, reduced operating costs (e.g., electronic payments, online account access, electronic forms and instructions), and increased their collections without undue burden to taxpayers.

By requiring certain taxpayers to file electronically, enhancing electronic filing services, and improving and funding integrated tax services, your Committee finds that this measure provides the means to improve the administration and efficiency of taxpayer services and collections provided by the Department.

Your Committee notes that the October 1, 2008, contract execution deadline under section 9 of the measure is intended to facilitate the Department's ability to pay back the general fund "advance" for fiscal year 2008-2009, prior to the end of the fiscal year.

Your Committee has amended the measure by:

- (1) Amending section 237-31, Hawaii Revised Statutes, to conform the section to the text of the Hawaii Revised Statutes;

- (2) Including the Streamlined Sales Tax Project and related software upgrading in performance based contracts executed by the Department of Taxation;
- (3) Rephrasing the effective date section to ensure that the amendment made to section 237-31, Hawaii Revised Statutes, is exempt from a repeal and reenactment condition in Act 304, Session Laws of Hawaii 2006; and
- (4) Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3115, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3115, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2855 Ways and Means on S.B. No. 2842

The purpose of this measure is to work toward the goal of energy self-sufficiency for the State by encouraging the use of energy-efficient lighting.

More specifically, the measure:

- (1) Phases out and bans the use of energy-inefficient lighting, especially those products with lead and high mercury content;
- (2) Establishes a state lighting efficiency standard for general purpose lights;
- (3) Requires the use of ENERGY STAR labeled lamps in agency buildings and facilities; and
- (4) Directs the Department of Health to develop a statewide recycling program for recycling mercury-containing compact fluorescent bulbs.

Testimony in support of this measure was received from the Hawaiian Electric Company. Testimony opposing the measure was received from the Department of Health. The Department of Business, Economic Development, and Tourism submitted comments.

In recent years, the Legislature has adopted legislation to encourage the use of renewable energy resources and support energy-efficiency initiatives. Your Committee supports the transition to new and evolving lighting technologies and recognizes the need for a recycling program for mercury-containing compact fluorescent bulbs. This measure continues the State's effort toward energy self-sufficiency.

Your Committee amended this measure by:

- (1) Changing the title of chapter 342J from "Hazardous Waste" to "Hazardous and Universal Waste";
- (2) Changing the title of section 342J-A to "Universal waste; lighting products.";
- (3) Designating that the fines collected under this measure be deposited into the environmental management special fund;
- (4) Authorizing the environmental management special fund to receive fines collected under section 342J-A;
- (5) Requiring the Director of Health to adopt rules to implement new provisions relating to the hazardous universal waste substance provisions;
- (6) Clarifying that provisions relating to fines and maximum amounts of fines shall be provided by rules;
- (7) Appropriating an unspecified amount from the environmental management special fund for the Department of Health to develop a statewide program for recycling mercury-containing compact fluorescent bulbs and making the section effective on July 1, 2008; and
- (8) Making technical nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2842, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2842, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2856 (Majority) Ways and Means on S.B. No. 2932

The purpose of this measure is to increase the state environmental response tax on petroleum in order to increase funding available for energy conservation, alternative energy development, global warming initiatives, and other programs.

Comments on this measure were submitted by the Department of Taxation, the Department of Business, Economic Development, and Tourism, and the Tax Foundation of Hawaii. Testimony opposed to this measure was submitted by the Department of Health.

Your Committee finds that it is critical to support energy resources conservation and environmental protection and to reduce the State's dependence on imported fossil fuels. Your Committee finds that increasing the amount of the environmental response tax collected on each barrel of petroleum product sold in the State would be an effective means of generating revenue to fund programs that work toward these objectives.

Your Committee notes that the percentage of the per barrel tax collected and reserved to address drinking water concerns is presently unspecified in the underlying law. Your Committee recommends that, during subsequent discussions in the appropriate subject matter committees, those committees are requested to consider and recommend an appropriate percentage to be withheld to

address drinking water concerns and provide Department of Health direction as to how those concerns should be addressed. In addition, those committees are requested to consider and recommend an amount to be reserved for other items including energy conservation, alternative energy development, and global warming initiatives.

Your Committee has amended this measure by:

- (1) Adding the Ramseyer provision: "New statutory material is underscored."
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2932, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2932, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 2 (Hemmings, Whalen). Excused, 1 (English).

SCRep. 2857 (Majority) Ways and Means on S.B. No. 2828

The purpose of this measure is to clarify the use of the Governor's emergency powers.

Specifically, this measure, among other things:

- (1) Clarifies under what circumstances the Governor may suspend laws under the Civil Defense and Emergency Act and requires the Governor to report to the Legislature to authorize the continuance of disaster relief actions provided under such a suspension of laws;
- (2) Establishes that certain provisions of the State's disaster relief chapter are operative and supersede provisions of the Civil Defense and Emergency Act in times when an emergency arises that is not considered a civil defense emergency; and
- (3) Provides that any emergency declarations in force prior to the effective date of the measure to expire at the end of the 2008 Regular Session unless reauthorized by the Legislature.

Testimony in opposition to this measure was received from the Senior Policy Advisor of the Governor, the Department of Land and Natural Resources, the Department of the Attorney General, the Department of Accounting and General Services, the Department of Agriculture, and the State Department of Defense.

Your Committee finds that the Governor should not utilize the power to suspend laws in times of acts of war or natural disaster as authorized under the Civil Defense and Emergency Act for purposes of noncivil defense situations unless there is a tangible and measurable threat to the people or environment of the State.

While departmental testimony opposed to this measure detailed ongoing disaster mitigation projects that would be adversely impacted by its implementation, your Committee believes that these disaster mitigation projects will not be impaired by enactment of this measure. Instead this measure will alleviate your Committee's concern with the improper use of emergency powers to circumvent existing laws and county ordinances that prevent improper procurement of services, construction of unsafe and unhealthy structures, uncontrolled development, destruction of Hawaii's fragile environment, pollution of our waters, and the Legislature's authority to ensure the proper expenditure of public funds.

Recently, the Governor issued no less than four emergency proclamations to authorize the expedited construction of structures for the homeless on the Leeward Coast of Oahu and extended the terms of the emergency proclamations during periods when the Legislature was not in session. These emergency proclamations and their extensions while the Legislature was not in session prevented the Legislature from ensuring that public funds were being properly expended by the Governor according to law. These emergency proclamations by the Governor that rely on the authority of the Civil Defense and Emergency Act to develop homeless shelters lack the elements of a civil defense or disaster emergency but allow the Governor to expedite construction and developments without the need to comply with the procurement code, building and zoning codes, environmental and other laws and county ordinances that are intended to prevent construction of unhealthy and unsafe structures and uncontrolled development in the State.

Your Committee notes that, during the 2007 Regular Session, although the Governor had ample opportunity to report to the Legislature on the use of these emergency powers, the Governor did not seek legislative approval to continue the services provided under the emergency proclamations. Rather, the Governor waited until after the 2007 Regular Session adjourned, and then extended the term of the original emergency proclamations for an additional year. What concerns your Committee even more is that throughout the three Special Sessions of the Legislature in 2007, and thus far in the 2008 Regular Session, the Governor has yet to seek approval for continuing this endeavor. Through the use of the powers provided under the existing emergency proclamations and until June 30, 2008 - if the Governor does not further extend the emergency proclamations - the Governor will have circumvented the provisions of at least eighteen state laws and county ordinances for a period of two years.

Again, while your Committee believes that sheltering and providing services to the homeless is an appropriate exercise of governmental authority and resources, your Committee does not concur with the approach the Governor has taken to provide the shelter and services, particularly when the Governor had ample opportunity to collaborate with the Legislature on this important issue. Your Committee believes that the issue of the homeless is a situation that falls under the category of a periodic societal inequity or circumstance that is most appropriately addressed through initiatives proposed by the Governor and approved by the Legislature through the legislative process and one that certainly does not rise to the level of a manmade or natural disaster, the basis upon which the Governor justifies circumventing state laws and county ordinances.

Mindful of the concerns raised by testifiers that the measure as received may prevent the State from taking preventative actions upon the threat of a major natural or manmade disaster or act of war or terrorism, as well as adversely impact ongoing emergency projects that are being undertaken to mitigate previous flood, erosion, wind, earthquake, and other damage caused by natural disasters, your Committee has amended this measure by:

- (1) Amending section 127-2, Hawaii Revised Statutes, to specify that the “disaster relief agency” and “the director of disaster relief” shall be the state civil defense agency and the state director of civil defense;
- (2) Specifying that the limitations on the Governor’s emergency powers do not apply to disasters caused by fire, flood, tidal wave, volcanic eruption, pandemic illness, earthquake, or other natural causes, or manmade disasters including massive oil spills, nuclear accidents, airplane crashes, and civil disturbances, and enemy attacks or acts of terrorism;
- (3) Specifying that the term “other disaster relief” does not include remedying periodic or longstanding societal inequities or circumstances that could otherwise be remedied through the legislative process;
- (4) Clarifying that the definition of “tangible and measurable harm or damage” includes harm or damage that may occur in the immediate future;
- (5) Providing an exception to expiration provisions in Section 4 for certain ongoing disaster related projects; and
- (6) Changing the effective date to upon approval.

Your Committee intends, with this amended measure, to continue to provide the Governor with the powers necessary to protect against the damages that may be caused by acts of war or terrorism as well as by manmade or natural disasters but wishes to make clear that the Governor shall not abuse these powers to circumvent existing laws and the authority vested in the Legislature by the Constitution of the State of Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2828, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 1 (Whalen). Noes, 1 (Hemmings). Excused, 1 (English).

SCRep. 2858 (Majority) Ways and Means on S.B. No. 3215

The purpose of this measure is to stimulate the production of biodiesel in the State by providing various financial incentives.

Specifically, this measure:

- (1) Authorizes the Department of Land and Natural Resources to lease public agricultural lands for growing crops to be used in the production of biodiesel fuel;
- (2) Provides a procurement preference in chapter 103D, Hawaii Revised Statutes, for state vehicles with diesel engines to use biodiesel blended fuels produced in the State from feedstock grown in the State;
- (3) Establishes a state energy feedstock program to support and promote a market for biodiesel feedstock crops grown in the State; and
- (4) Creates a tax exemption for oil seed crushing facilities.

Testimony in support of this measure was submitted by Pacific Biodiesel, Imperium Renewables Hawaii, LLC, Sierra Club, and Hawaiian Electric Company. Testimony in opposition to this measure was submitted by the Board of Land and Natural Resources. Comments on this measure were submitted by the Department of Agriculture, the Department of Taxation, and the Tax Bill Service.

Your Committee finds that financial incentives and tax incentives to develop and produce biodiesel in the State create opportunities for the development of a biodiesel industry in the State. The increased development and availability of biodiesel resources in the State would reduce the State’s dependence on imported fossil fuels.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the grant of rulemaking authority to the Department of Land and Natural Resources as it relates to crops used in the production of biodiesel fuel because the department already possesses general rulemaking authority pursuant to section 171-6(4), Hawaii Revised Statutes;
- (2) Making a clarifying amendment to section 6 by deleting an erroneous reference to an exemption from real property taxes for biodiesel feedstock croplands;
- (3) Replacing, after consultation with the previous committee, the unspecified amount of excluded gain in section 235-7(a)(13), Hawaii Revised Statutes, with “one hundred” per cent, to correct an inadvertent drafting error;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3215, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3215, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, 1 (Hemmings). Excused, none.

SCRep. 2859 Ways and Means on S.B. No. 2818

The purpose of this measure is to combat the crime of human trafficking. Specifically, this measure:

- (1) Extends the sunset date of the Hawaii anti-trafficking task force established in Act 260, Session Laws of Hawaii 2006;

- (2) Adds representatives from additional governmental agencies, human services organizations, and victim services organizations to the task force; and
- (3) Requires the task force submit a final report to the Legislature prior to the 2010 Regular Session.

Testimony in support of this measure was submitted by the Office of the Crime Victim Compensation Commission, the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Sex Abuse Treatment Center.

Your Committee finds that the Hawaii anti-trafficking task force has made significant progress toward achieving its legislative mandate. Your Committee further finds that the sunset date for the task force should be extended to allow it to complete the needs analysis and to draft proposed legislation that will address the needs of victims of human trafficking. Your Committee also believes that the work of the task force will be assisted and improved with input from additional government agencies and service providers.

Upon further consideration, your Committee has amended this measure as follows:

- (1) By requiring the task force to submit an interim report to the Legislature prior to the 2009 Regular Session;
- (2) By requiring the task force's final report to include its findings, recommendations, and any proposed legislation;
- (3) By changing the effective date of the amendments to Act 260 to June 29, 2008, to postpone the cessation of the task force that is otherwise scheduled for June 30, 2008;
- (4) By changing the appropriation to an unspecified amount to facilitate further discussion on this measure; and
- (5) By making technical nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2818, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2818, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2860 Ways and Means on S.B. No. 3234

The purpose of this measure is to:

- (1) Require installation of an ignition interlock device on the vehicle of a person arrested for driving under the influence of an intoxicant in order to prevent the person from starting or operating a motor vehicle with more than a minimal alcohol concentration while the person's case is pending and the person's license is revoked pursuant to chapter 291E, Hawaii Revised Statutes;
- (2) Amend various penalties and conditions related to driver's licenses and operating a vehicle under the influence of an intoxicant;
- (3) Provide for certification of ignition interlock devices and vendors and fund installation of devices for the indigent with surcharges on offenders and fees on vendors; and
- (4) Establish the Hawaii Ignition Interlock Implementation Task Force (Task Force) to prepare for implementation of the ignition interlock device requirement and appropriate funds for the task force.

Your Committee received testimony in support of this measure from the Department of Health, the Department of the Prosecuting Attorney of the City and County of Honolulu, the Honolulu Police Department, Anheuser-Busch Companies, the Alliance of Automobile Manufacturers, and Mothers Against Drunk Driving – Hawaii. The Judiciary and the Department of Transportation submitted comments.

Your Committee finds that, pursuant to House Concurrent Resolution No. 28, H.D. 1 (2007), the Department of Transportation convened a working group of government agencies and community stakeholders to study the feasibility of requiring the installation of ignition interlock devices on vehicles of driving under the influence offenders, including exploring and recommending procedures for the introduction of ignition interlock technology to Hawaii. The working group met several times in 2007 and identified certain elements that are key to a successful ignition interlock program.

Your Committee notes, however, that there were many other issues that could not be resolved by the working group within the time allotted. While the working group was thus not able to propose legislation, this measure contains most of the key elements identified by the working group. It also identifies many of the issues yet to be resolved and establishes a Task Force to address these issues, and propose any necessary additional legislation, during the two-year implementation period established by the measure.

Your Committee is aware that there are a number of amendments that may be necessary to conform existing law to the final form the ignition interlock device program will take when it becomes effective in 2010. However, the ignition interlock provisions of this measure are a collaborative effort to protect Hawaii's residents and visitors from the State's extremely high alcohol-related traffic fatality rate, which was fifty-two per cent in 2006 – the highest in the nation. Your Committee believes that, because of its broad membership, the Task Force is well-suited to address the need for further amendments as it works through the details of implementing the program in the next two years.

Accordingly, your Committee has amended the measure as follows:

- (1) Placing the amendments to section 287-20, Hawaii Revised Statutes, currently in section 9 of the measure, in section 2 and renumbering sections 2 through 8 to be consistent with the practice of placing new and amended statutory sections in ascending numerical order;

- (2) Substituting a reference to section 321-161, Hawaii Revised Statutes, in the proposed new section 291E-A, Hawaii Revised Statutes, and in the proposed definition of "ignition interlock device" with a reference to new section 291E-B that is proposed by this measure. Section 321-161, Hawaii Revised Statutes, grants the Department of Health authority to administer the program pursuant to which drivers arrested for driving under the influence are tested for alcohol and other intoxicants. The proposed section 291E-B confers that authority on the Department of Transportation for the purposes of the ignition interlock device program and is, therefore, the appropriate reference;
- (3) Amending the new section 291E-B by conferring rulemaking authority, pursuant to chapter 91, Hawaii Revised Statutes, on the Department of Transportation so that it can fulfill its responsibilities with regard to the ignition interlock device program to the same extent that the Department of Health now uses its rulemaking authority to fulfill its responsibilities under section 321-161, Hawaii Revised Statutes;
- (4) Deleting a reference to the National Highway Traffic Safety Administration in the proposed section 291E-B(b)(6) that is redundant of a reference in proposed section 291E-B(b)(1);
- (5) Clarifying that the Task Force shall report to the legislature on whether any conforming statutory amendments are necessary to make this measure and current law consistent with each other; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3234, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3234, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2861 Ways and Means on S.B. No. 3174

The purpose of this measure is to extend the sunset date of the increased conveyance tax allocation to the rental housing trust fund.

The measure also authorizes the issuance of bonds for the dwelling unit revolving fund, appropriates funds for expedited third party review of affordable housing projects, and authorizes the issuance of bonds for the construction of affordable housing in cooperation with nonprofit and private developers.

Your Committee received testimony in support of this measure from the Department of Taxation, the Hawaii Housing Finance and Development Corporation, the City and County of Honolulu, the Hawaii Island Community Development Corporation, and the Hawaii Association of Realtors. The Pacific Housing Assistance Corporation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that the affordable housing crisis continues to be one of the State's most significant and challenging social problems and is a critical issue for many Hawaii residents. As the cost of home ownership and rentals increases, the State must continue to assist residents to obtain affordable housing. However, because funding for these matters is more appropriately considered within context of the Executive Supplemental budget, your Committee has amended the measure by removing sections 2, 4, 5, and 6 of the measure, with respect to appropriations for the dwelling unit revolving fund, the rental housing trust fund, and private and nonprofit housing developers. Your Committee is very cognizant of the importance of continued budgetary support for affordable housing and will seek to address these concerns in the overall context of the senate draft of the state supplemental budget.

Your Committee is also aware of the need for additional resources for repair and maintenance concerns in Hawaii Public Housing Authority housing projects and continued support for the homeless and homeless services. These important issues will be addressed within the fiscal constraints and overall context of the state budget as well.

In addition to your Committee's efforts to support affordable housing and homelessness issues through the state budget, a second component of your Committee's plan is to expand on the housing issues raised in this measure. Accordingly, your Committee has further amended the measure to:

- (1) Delete the specific appropriation amount in section 3 of the measure for expedited third party review of affordable housing projects;
- (2) Incorporate the contents of S.B. No. 2560 into the measure to establish a self-help housing technical assistance trust fund under the Hawaii Housing Finance and Development Corporation to provide funding for self-help housing projects;
- (3) Incorporate the contents of S.B. No. 2980 into this measure to provide a vehicle to change the Hula Mae multifamily revenue bond authorization which provides home financing for residents and finances the purchase of the Kukui Gardens Rental Housing Complex;
- (4) Making conforming amendments consistent with the foregoing changes; and
- (5) Making technical nonsubstantive amendments for purposes of clarity and style.

Your Committee believes that this measure and the affordable housing appropriations in the state budget will provide the focus and support needed to assist residents with obtaining affordable housing. Your Committee also appreciates the direction and legislative priority provided by your Committee on Human Services and Public Housing and will continue to depend on their expertise to address the affordable housing issues this session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3174, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3174, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Hooser).

SCRep. 2862 Ways and Means on S.B. No. 2907

The purpose of this measure is to prioritize pastoral and agricultural homesteading programs by establishing a Pastoral and Agricultural Homesteading Division within the Department of Hawaiian Home Lands.

The Department of Hawaiian Home Lands submitted comments.

Pastoral and agricultural homesteading is one of the major programs of the Department of Hawaiian Home Lands that is necessary to satisfy the mandates of the Hawaiian Homes Commission Act of 1920, as amended. Native Hawaiians have the lowest rate of homeownership in the State. More needs to be done to promote successful native Hawaiian farming at various levels and accelerate homeownership opportunities for native Hawaiians. Your Committee finds that this measure will help promote the homesteading of Hawaiian home lands, protect against the loss of the lands to commercial development, and maximize the agricultural use of the lands that are prime for that purpose.

Upon further consideration, your Committee has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style, including:

- (1) Uniformly referencing the Division as the Pastoral and Agricultural Homesteading Division; and
- (2) Clarifying that the Division shall implement, as well as develop projects that maximize the use of Hawaiian home lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2907, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2907, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2863 Ways and Means on S.B. No. 2905

The purpose of this measure is to require the Department of Agriculture to conduct a study on the effect of regulations of Kona coffee blends.

Specifically, this measure requires, and provides funding for, the Department of Agriculture to study the possible impacts of changes to current Hawaii Kona coffee blend laws, including:

- (1) Increasing the required percentage of Kona-grown coffee that entitles a coffee to be labeled "Kona coffee";
- (2) Adapting the labeling standards accordingly;
- (3) Requiring state certification for Kona coffee grown and sold in the north and south Kona districts; and
- (4) Determining what measures and standards would be necessary to support the development and growth of other Hawaii regional coffees.
- (5) Providing a description of the current economic situation concerning Kona coffee as it pertains to farmers, processors, and retailers;
- (6) Identifying existing concerns or issues regarding the current ten per cent Kona coffee minimum blend requirement;
- (7) Evaluating the possible economic impact of raising the current ten per cent Kona coffee minimum blend requirement to a higher requirement, including possible economic impact on farmers, processors, and retailers;
- (8) Evaluating anticipated consumer reaction;
- (9) Evaluating ways to strengthen the State's "truth-in-labeling" laws;
- (10) Examining how to achieve national recognition for Kona coffee and deter the illegal use of the term "Kona Coffee";
- (11) Evaluating whether to institute state certification for Kona coffee grown and sold in the south Kona district and the north Kona district; and
- (12) Determining what measures and standards would be necessary to support the development and growth of other Hawaii regional coffees.

Your Committee received testimony in support of this measure from the Hawaii County Council. The Kona Coffee Farmers Association, Kanalani Ohana Farm, and four individuals submitted testimony in opposition. The Department of Agriculture offered comments.

Your Committee finds that the Department of Agriculture is currently conducting a study on the effectiveness of existing Hawaii Administrative Rules regarding Kona coffee, as requested by Senate Concurrent Resolution No. 102, H.D. 1 (2007). The Department was requested to include "a thorough economic analysis of the probable impact of increasing the minimum content requirement to 50 percent upon each segment of the Kona coffee industry, and each segment of the coffee industry in other parts of the state, such as Ka'u and on islands other than the island of Hawaii."

The resolution further requested the Department of Agriculture to "determine the fiscal impact that stricter labeling requirements or a uniform national labeling requirement standard will have on farmers of small coffee bean farms in Hawaii ... " and "the fiscal impact that a uniform inspection and certification scheme for all Hawaii-grown coffee beans will have on growers of small coffee bean farms".

Your Committee finds that funding support is required for the economic analysis and fiscal impact portions of the Department of Agriculture's study. Accordingly, your Committee has amended this measure to:

- (1) Clarify that the Department of Agriculture is already undertaking a study of issues relating to Kona coffee, pursuant to Senate Concurrent Resolution No. 102, (2007), including an economic analysis and fiscal impact determinations and that these portions of the study require funding support;
- (2) Delete section 2 of the measure requiring the Department of Agriculture to study possible impacts of changes to current Kona coffee blend laws; and
- (3) Provide an appropriation to fund the economic analysis and fiscal impact portions of the Department of Agriculture's study currently being conducted pursuant to Senate Concurrent Resolution No. 102 (2007).

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2905, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2905, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2864 Ways and Means on S.B. No. 2871

The purpose of this measure is to provide a community-based approach to monitoring fishery resources.

Specifically, this measure:

- (1) Establishes the maka'i o ke kai program to involve local communities in the management of Hawaii's near-shore fishery resources;
- (2) Establishes a process for communities that are interested in establishing a maka'i o ke kai programs to submit proposals for matching grants from the State for community-based marine management projects;
- (3) Establishes a Community-based Marine Resource Management Advisory Committee, consisting of community stakeholders, to advise the Department of Land and Natural Resources on matters related to near-shore fishery management and fisheries rules; and
- (4) Appropriates unspecified amounts for the maka'i o ke kai program and the Community-based Marine Resource Management Advisory Committee.

Testimony in support of this measure was submitted by the Conservation Council for Hawaii, the Ocean Tourism Coalition, Malama Hawaii, and two concerned individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the maka'i o ke kai program would be an effective community-based approach for engaging local communities in the management of marine resources in their community and would help to address community concerns regarding rules affecting near-shore fisheries. In addition, your Committee believes, that in the interest of including all stakeholders, the ocean tourism industry should be represented on the management advisory committee.

Accordingly, your Committee has amended this measure by:

- (1) Adding one seat to the Community-based Marine Resource Management Advisory Committee to be filled by a member of the Ocean Tourism Coalition; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2871, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2871, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2865 Judiciary and Labor on S.B. No. 3075

The purpose of this measure is to protect public health and safety by allowing the Department of Health to conduct epidemiological investigations in a timely manner in order to contain and prevent outbreaks of dangerous diseases.

Specifically, this measure amends section 321-29, Hawaii Revised Statutes, to allow the Department of Health to collect samples necessary for epidemiologic investigations.

Your Committee received testimony in support of this measure from the Department of Health. The American Civil Liberties Union submitted testimony in opposition to this measure.

Your Committee finds that epidemiological investigations have been impeded by the refusal of individuals who do not allow Department of Health investigators access to property, or permission to obtain samples necessary for analysis. Your Committee further finds that the timely collection of plant, animal, food, or environmental samples is necessary for the Department to conduct effective investigations and protect the public from outbreaks of dangerous diseases. However, your Committee is concerned with the competing governmental and individual interests and finds it necessary to ensure that individuals will not be subject to unreasonable searches in violation of their privacy rights.

Accordingly, your Committee has amended this measure by clarifying that:

- (1) Reasonable cause must exist for the investigation of a disease that may threaten the public health;
- (2) The investigation is an "administrative investigation", independent of a criminal investigation;

- (3) The Department of Health must obtain consent from the owner, owner's agent, or person in lawful control of the property or an administrative investigation warrant to investigate the property;
- (4) There is an exception to the consent and warrant requirements when exigent circumstances that present imminent danger to public health and safety or the environment exist;
- (5) The investigation shall be limited to only those actions that are necessary to confirm or deny the cause which prompted the investigation;
- (6) When samples are taken as a result of the investigation, the department shall make split samples available to the person whose property is being investigated; and
- (7) A copy of the administrative investigation warrant and all supporting affidavits shall be provided to the person served or left at the entry of the investigated premises.

Your Committee further amended this measure by changing the effective date to encourage further discussions and by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3075, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3075, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2866 Judiciary and Labor on S.B. No. 2808

The purpose of this measure is to exempt from environmental assessment requirements:

- (1) Certain projects involving the use of state or county lands, or when the expenditure of state or county funds limited to an existing public street, road, or highway for an easement, drainage, waterlines, access improvements, utility right of way, or the like; and
- (2) Certain projects involving a modification or disposal of highway access rights or use, occupancy, or work within a public highway right-of-way to serve private development outside the highway right-of-way.

Testimony in support of this measure was submitted by the Department of Transportation; the City and County of Honolulu, Department of Planning and Permitting; the American Society of Civil Engineers; The Chamber of Commerce of Hawaii; the Contractors Association of Kaua'i; The Gas Company; the General Contractors Association of Hawaii; the Hawaii Developers' Council; Hidano Construction, Inc.; HSI Mechanical, Inc.; the Laborers Union Local 368; Maui Contractors Association; Miyake Concrete Accessories, Inc.; Ralph S. Inouye Co., Ltd.; the National Association of Industrial and Office Properties; and one individual. Testimony in opposition was received from Earthjustice; the Native Hawaiian Legal Corporation; the University of Hawaii Environmental Center; the Sierra Club, Hawai'i Chapter; and three individuals.

Your Committee notes that this measure expressly provides that it is not intended to be interpreted as exempting the entirety of a development project from environmental assessment requirements. Additionally, the proposed exemptions are inapplicable when the cumulative impact of certain planned successive actions is significant or when impacts may be significant due to the involvement of a particularly sensitive environment. Further, the proposed exemption for modification or disposal of highway access rights or use is inapplicable when a Land Use Commission or Board of Land and Natural Resources action is involved; when certain small acreages of land undisturbed by intensive human uses is involved; or when the use of certain plants and animals not established in Hawaii are involved.

Your Committee received a large number of comments from the public concerning this measure. Your Committee notes that this bill contains a one-year sunset date in light of a possible study of our State's environmental impact statement law. In this regard, some public street, road, or highway projects may warrant an environmental assessment while others may not. Your Committee also notes the measure's July 1, 2050 effective date to encourage further discussion.

Your Committee hopes that the parties in support and in opposition can work on their differences which will result in a compromise.

Your Committee amended this measure by removing the section 1 purpose clause.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2808, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 2 (Gabbard, Kokubun). Noes, none. Excused, 1 (Hee).

SCRep. 2867 Judiciary and Labor on S.B. No. 2055

The purpose of this measure is to establish procedures and requirements for child custody evaluator training, and certification, and to establish related responsibilities for the board of family court judges and the courts.

Your Committee received testimony in support of this measure from the Hawaii State Coalition Against Domestic Violence, the National Association of Social Workers, Statewide VOICES, the State Commission on Fatherhood, and seven private individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee notes the following comments and concerns expressed in the Judiciary's testimony:

- (1) Currently, finding resources within the Judiciary to provide certification and oversight, and to administer an administrative appeals process, would be difficult;
- (2) The Department of Commerce and Consumer Affairs might be a more appropriate oversight entity than the Judiciary;
- (3) The Family Court of the First Circuit has developed a specialized unit of social workers trained to provide custody evaluator services to indigent parties whose exemption from licensure requirements under section 467E-6(2), Hawaii Revised Statutes, might be impaired by the provisions of this measure; and
- (4) Because this bill precludes attorneys from serving as custody evaluators, it may make it more difficult for parties to find custody evaluators who meet the enumerated requirements. Although the Family Court of the First Circuit no longer maintains a list of possible custody evaluators, of the thirty-one who served as custody evaluators in the past, twenty-five were attorneys. In the Second, Third and Fifth Circuits, five out of twelve private custody evaluators are attorneys.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of “child custody evaluator” to exclude social workers employed by the Judiciary, to retain the current exemption from licensure requirements under section 467E-6(2), Hawaii Revised Statutes, that applies to a specialized unit of Judiciary social workers trained to provide custody evaluator services to indigent parties;
- (2) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (3) Making technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2055, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2055, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2868 Judiciary and Labor on S.B. No. 2054

The purpose of this measure is to amend the best interest of the child criteria and procedures the family court must consider in making a custody or visitation determination concerning a minor child.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence, Statewide VOICES, State Commission on Fatherhood, and eight private individuals. Your Committee received comments from the Judiciary with a suggested additional amendment to the measure.

This measure recognizes the impact of domestic violence on determining the best interest of the child. Your Committee finds that the Committee on Human Services and Public Housing, in its review of this measure, disallowed consideration of each parent’s cooperation to meet the child’s ongoing needs, interests, and schedule, where family violence has been committed by a parent. Your Committee has considered the suggestion made by the Judiciary that a parent’s “willingness” to maintain family connections also should not be considered when domestic violence has been committed by a parent.

Accordingly, your Committee has amended this measure by:

- (1) Providing that each parent’s willingness to allow the child to maintain family connections through family events and activities shall not be considered in determining the best interest of the child, where the court has determined that family violence has been committed by a parent;
- (2) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2054, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2054, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Gabbard, Hee).

SCRep. 2869 Judiciary and Labor on S.B. No. 2730

The purpose of this measure is to establish a preference for grandparents or family members, when making out of home placements for children needing child protective services.

Your Committee received testimony in support of this measure from the Department of Human Services, the Office of Hawaiian Affairs, EPIC Ohana Conferencing, a former foster child, and a set of grandparents of former foster children. Comments on the measure were submitted by the Legal Aid Society of Hawaii and the Judiciary.

Your Committee finds that preserving relationships with family members is crucial to a child’s sense of safety, development, and well being. Accordingly, when children cannot be safely returned home to their parents, child welfare professionals should seek out and consider relatives who are willing and able to provide support and care. This includes seeking out blood relatives, such as grandparents, and hanai and lawe hanai parents.

Additionally, your Committee recognizes that relatives applying for foster custody need timely responses regarding their applications, and if their applications have been denied, the specific reasons for the denial, as well as information about how to proceed from there.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Defining “relative”, “lawe hanai parent” and “hanai parent”;
- (3) Requiring an out of home placement preference for appropriate “relatives”, as defined;
- (4) Requiring that reasonable efforts be made to identify all appropriate relatives within six months of departmental assumption of foster custody of a child;
- (5) Requiring, in finding a safe family home, consideration of the child’s extended family support system, including hanai and lawe hanai parents, and the attempts that have been made to find this support system;
- (6) Requiring written departmental response, within sixty days, to inquiries regarding a relative’s foster placement application, and if a denial was rendered, the inclusion of the reasons for the denial and administrative appeal information; and
- (7) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

Your Committee also finds that relatives should be identified early in the child welfare process and that interested relatives should be provided with timely information regarding the foster parent that is being involved in the child’s life.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2730, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2730, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2870 Judiciary and Labor on S.B. No. 2395

The purpose of this measure is to improve the administration of the State’s language access law and enhance various county representation on the Language Access Advisory Council.

Specifically, the measure clarifies and adds definitions relating to language access to the language access law, adds a representative from each county to the Language Access Advisory Council, and designates the Executive Director of the Hawaii Civil Rights Commission or authorized representative as an ex-officio member of the Language Access Advisory Council.

Testimony in support of this measure was received from the Judiciary, Office of Language Access, Congress of Visayan Organizations, and the Hawaii Interpreter Action Network.

Your Committee finds that this measure will streamline and strengthen Hawaii’s language access law and will allow the Office of Language Access to be more effective in performing its functions, ensuring compliance with the law by providing meaningful access to essential government services to limited English proficient individuals.

Your Committee has amended this measure by:

- (1) Inserting in the provisions that authorize the appointment of county resident representatives to the Language Access Advisory Council, the requirement that the person have an interest in language access; and
- (2) Adding a representative from the Disability and Communication Access Board to the Language Access Advisory Council as an ex-officio member.

Your Committee also amended this measure by making technical, nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2395, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2871 Judiciary and Labor on S.B. No. 2170

The purpose of this measure is to include public beach parks in the definition of “improved public lands” to enable the State and counties to limit governmental liability for injuries caused by dangerous natural conditions on or near public beach parks.

Your Committee received testimony in support of this measure from the Maui County Council and the Hawaii County Council.

Your Committee finds that Act 82, Session Laws of Hawaii 2003, provided the State and the counties with the means to limit their liability for injuries that may be caused by dangerous natural conditions found on public lands.

Your Committee finds that dangerous natural conditions exist within or abut some of the State’s or counties’ beach parks, including dangerous natural conditions such as cliffs, large trees, boulders, and deep streams and rivers.

Your Committee has amended this measure by changing the effective date to July 1, 2050, for the purpose of facilitating further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2170, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2170, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2872 (Majority) Judiciary and Labor on S.B. No. 2366

The purpose of this measure is to improve safety while driving on the State's roadways by prohibiting text messaging while driving.

Specifically, this measure would prohibit writing, reading, or sending text messages on an electronic wireless communications device while driving a motor vehicle. The measure makes exceptions for emergency vehicles, reporting emergencies, receiving emergency alerts, messages relating to the operation of the motor vehicle, or navigation system messages.

Late testimony in support of this measure was submitted by a concerned individual.

Your Committee finds that the practice of writing, sending, and reading text messages while driving creates a safety hazard. "Text messaging" distracts a driver and makes a driver dangerous to themselves and to other persons on the road. Your Committee believes that prohibiting the practice of "text messaging" while driving will improve driver safety in Hawaii.

Upon further consideration, your Committee finds that this measure should clarify that the prohibition will apply to e-mails as well as text messages. Your Committee further finds that a violation should occur only if the driver is involved in an accident as a result of writing, sending, or reading a text message or e-mail, and the driver should have the burden of proving that the driver was not text messaging or emailing at the time of the accident.

To address issues raised that the law enforcement agency may have difficulty proving its case, your Committee has limited issuance of citation to situations where there is an accident and places the burden on the driver to prove that there was no text messaging or emailing.

Accordingly, your Committee has amended this measure as follows:

- (1) By clarifying that the prohibition applies to sending, writing, and receiving e-mails as well as text messages;
- (2) By clarifying that a violation occurs only if the driver is involved in an accident, and that the driver bears the burden of proving that the driver was not text messaging or e-mailing at the time of the accident;
- (3) By changing the effective date to January 1, 2050, to facilitate further discussion on this issue; and
- (4) By making technical nonsubstantive amendments to this measure for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2366, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Nishihara).

SCRep. 2873 Judiciary and Labor on S.B. No. 2334

The purpose of this measure is to repeal the exemption from civil service for the positions of First and Second Deputy Sheriffs and also to require that the Deputy Director for Law Enforcement and the Sheriff be graduates of a law enforcement academy.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and one individual. Testimony in opposition of this measure was submitted by the Department of Public Safety.

Your Committee finds that the Sheriff Division, within the Department of Public Safety, lacks sufficient experienced upper management personnel. Making the positions of First and Second Deputy Sheriffs subject to civil service will provide more stability in management and more effective administration of the Division.

Your Committee further finds that requiring the Deputy Director for Law Enforcement and the Sheriff to be graduates of a law enforcement academy is an appropriate experiential and educational requirement to promote effective law enforcement management.

Your Committee has amended this measure by changing the effective date to July 1, 2050 for the purpose of facilitating further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2334, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2334, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2874 Judiciary and Labor on S.B. No. 2554

The purpose of this measure is to:

- (1) Amend the definition of "display fireworks" to include fireworks designated as UN0334 by the United States Department of Transportation;
- (2) Prohibit throwing ignited fireworks at a person or animals; and
- (3) Prohibit minors from selling fireworks.

Testimony in support of this measure was submitted by the State Fire Council and the Legislative Information Services of Hawaii.

Under present law, section 132D-3(1), Hawaii Revised Statutes (HRS), consumer fireworks may be purchased and used, with a permit, at specified times on three specific days during the year, namely, New Year's Eve, Chinese New Year's Day, and the Fourth of July. However, individuals may purchase fireworks at other times of the year for certain cultural purposes, such as lion dance ceremonies. While a permit and payment of a fee presently is required for these purposes as well, there has been some confusion in

this regard. This measure clarifies that when fireworks are purchased and used for these purposes, a permit and payment of a fee is required.

Your Committee notes that there are cultural uses of consumer fireworks at times other than the three designated holiday periods described in section 132D-3, HRS. Your Committee realizes the need to address the other 362 days of the year and have the permit and fee requirement also apply to those days.

Your Committee has amended this measure by:

- (1) Requiring a permit and \$25 fee for the purchase and use of consumer fireworks for cultural uses that occur at any time other than during the periods prescribed in section 132D-3(1), HRS;
- (2) Clarifying and making technical amendments suggested by the State Fire Council and Legislative Information Services of Hawaii; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2554, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2554, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2875 Judiciary and Labor on S.B. No. 2065

The purpose of this measure is to protect landowners from liability from any damages occurring outside of their land which may have been caused by naturally occurring land failures.

Your Committee received testimony in support of this measure from the Department of the Attorney General, the Department of Land and Natural Resources, the City and County of Honolulu Department of Corporation Counsel, and Kamehameha Schools.

Your Committee finds that this measure removes the liability exposure for naturally occurring movement of unimproved lands owned by private conservation landowners and encourages them to preserve, maintain, and prudently manage their conservation lands in the lands' natural state.

Your Committee has amended this measure by deleting section 1 and making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2065, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2065, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Hee).

SCRep. 2876 Judiciary and Labor on S.B. No. 2063

The purpose of this measure is to provide for a graduated increase in the fine for exhaust pipes or mufflers that increase the noise emitted by a moped, motorcycle, or motor vehicle.

Testimony in support of this measure was received from one individual.

Your Committee finds that exhaust system modifications resulting in amplification of the noise emitted by mopeds and motorcycles is of particular nuisance to the community. This can be a serious problem affecting many neighborhoods throughout the State, especially in densely populated areas and in the late night and early morning hours.

Your Committee has amended this measure by:

- (1) Deleting provisions relating to motor vehicles;
- (2) Making the graduated increase in fines applicable only to mopeds;
- (3) Changing its effective date to July 1, 2050; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2063, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2063, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Nishihara). Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 2877 Ways and Means on S.B. No. 2486

The purpose of this measure is to include water and irrigation systems as a use for the special land and development fund.

Your Committee heard a proposed S.D. 2 draft that establishes a Molokai irrigation system special fund for the irrigation water system on Molokai and creates a Molokai irrigation system water users board with extensive powers and duties parallel to those of the board of agriculture to oversee the fund. The proposed S.D. 2 draft also repeals the existing Molokai irrigation system water users advisory board.

Your Committee received testimony in support of the proposed S.D. 2 draft from the Office of Hawaiian Affairs and one individual. The Departments of Agriculture and Budget and Finance, Molokai Farm Bureau, Molokai Irrigation System Water Users Advisory Board, and one individual submitted testimony in opposition. The Department of Hawaiian Home Lands, Office of the Auditor, and Hoolehua Homestead Farmers offered comments. Your Committee acknowledges that additional commentary was heard by your Committee from an individual providing oral comments in support of the measure.

Your Committee finds that the proposed S.D. 2 is a more appropriate vehicle to implement the recommendations of the Auditor's Report No. 08-03 of February 2008, entitled Financial and Management Audit of the Molokai Irrigation System.

Accordingly, to more closely align the measure with the Auditor's recommendations, your Committee has deleted the contents of the original proposed measure and replaced it with the modified contents of the proposed S.D. 2, which:

- (1) Amend the existing Molokai irrigation system water users advisory board to increase board membership by adding one homestead farmer and by making technical nonsubstantive amendments relating to the appointment of members;
- (2) Creates a subaccount within the irrigation system revolving fund to facilitate increased transparency to assure the appropriate operation of the revolving fund as it relates to deposits and expenditures for the Molokai irrigation system;
- (3) Requires the Molokai irrigation system water users advisory board to develop, in conjunction with the Board of Agriculture, a definition of "homestead farmer";
- (4) Requires the advisory board to report to the Legislature prior to the 2009 regular session, on the progress made toward implementing the objectives outlined in the "Roadmap to Improvement" document generated as a result of meetings between the Board of Agriculture and the Molokai community. The report shall include a timeline for implementation; and
- (5) Appropriates an unspecified amount to the Department of Agriculture to further address the repair and maintenance needs of the Molokai irrigation system.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2486, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2486, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2878 (Majority) Judiciary and Labor on S.B. No. 2341

The purpose of this measure is to require out-of-state detention facilities holding Hawaii prisoners under a contract with the State to make public information about the operation of the prison.

Specifically, this measure:

- (1) Provides that an entity contracting with the State to house prisoners from Hawaii shall have the same duty to release information that a state agency operating such a facility in Hawaii would have under chapter 92F, Hawaii Revised Statutes (HRS);
- (2) Affords any party aggrieved by a violation the same remedies against the contracting entity as provided against government agencies pursuant to chapter 92, HRS; and
- (3) Provides exemptions for certain sensitive or confidential government records pursuant to section 92F-13, HRS, and for trade secrets as defined in section 482B-2, HRS.

Testimony in support of this measure was submitted by the American Civil Liberties Union of Hawaii; The Drug Policy Forum of Hawaii; Community Alliance on Prisons; and two private citizens. Testimony in opposition to this measure was submitted by the Department of Public Safety. Comments were submitted by the Office of Information Practices.

Your Committee finds that this measure will provide accountability and transparency to the public regarding the services provided by a vendor for any contract made with the State to house Hawaii prisoners out-of-state.

This will assist the public in understanding how State funds are being spent and in assessing how the out-of-state detention facility is being operated and managed, and whether the vendor is living up to its contractual responsibilities. This access to information, along with the remedial avenues afforded, will go a long way towards ensuring that Hawaii's inmates receive adequate and fair treatment while incarcerated in out-of-state detention facilities.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2341, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 2879 Judiciary and Labor on S.B. No. 2895

The purpose of this measure is to extend to equine animals some of the protections accorded to pet animals under the laws relating to cruelty to animals.

Specifically, the measure protects horses and related animals by making it a class C felony to harm equine animals in such a way that results in serious bodily injury or death.

Testimony supporting this measure was received from one private individual, and late testimony was received from Compassion for Animals.

Your Committee believes that horses belong under the protection of law and that adding equine animals to the list of animals protected under the animal cruelty law reflects the fact that companion animals come in all shapes and sizes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2895, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2880 Judiciary and Labor on S.B. No. 2396

The purpose of this measure is to protect the health and safety of mental health professionals employed by the Hawaii State Hospital.

Specifically, this measure:

- (1) Expands the offense of assault in the second degree to include intentionally or knowingly causing bodily injury to a person employed at a state-operated or –contracted mental health facility; and
- (2) Defines “a person employed at a state-operated or -contracted mental health facility” to include health care professionals as defined in section 451D-2, Hawaii Revised Statutes, administrators, orderlies, security personnel, volunteers, and any other person who is engaged in the performance of a duty at or who is within a state-operated or –contracted mental health facility.

The Department of Health and the Hawaii Government Employees Association submitted testimony in support of this measure.

According to the Bureau of Labor Statistics, health care workers are sixteen times more likely than other workers to experience violence and have significantly higher rates of nonfatal assaults while at work. Nurses are often the primary targets of nonfatal assaults, with psychiatric nurses experiencing the highest rate of assault. Violence against nurses can range from verbal abuse and threats to physical assault and even homicide.

Under the law, a perpetrator who intentionally and knowingly assaults a correctional or educational worker who is engaged in the performance of the worker’s duty or within a correctional or educational facility could face a possible class C felony charge. However, the same assault upon a person employed at a mental health facility would generally be a misdemeanor. Your Committee finds that this measure will align legal treatment of victims who are employed at a state-operated or state-contracted mental health facility with correctional, educational, and emergency medical personnel.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2881 Ways and Means on S.B. No. 2977

The purpose of this measure is to assist the child support enforcement agency to implement federally mandated requirements and streamline the child support enforcement process in the State.

Specifically, this measure:

- (1) Clarifies the notice requirement to custodial parents regarding state income tax refund setoffs relating to a child support order for medical payments;
- (2) Creates an assistant administrator position for policy and planning purposes; and
- (3) Enables the child support enforcement agency to:
 - (A) Request an administrative hearing on its own behalf after commencement of an administrative proceeding under section 576E-5; and
 - (B) Sign proposed administrative orders when no request for an administrative hearing is made; and
 - (C) Transfer two full-time equivalent positions, which perform similar functions, from the county of Kauai to the Department of the Attorney General.

Your Committee finds that this measure should enhance the effectiveness of the child support enforcement agency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2882 Ways and Means on S.B. No. 2831

The purpose of this measure is to appropriate funds to the University of Hawaii Center on Aging Research and Education for faculty positions and program expenses.

More specifically, the measure appropriates funds for the center to carry out its mission of assuring the well-being of the State’s older adults.

Testimony in support of this measure was submitted by the University of Hawaii, the Policy Advisory Board for Elder Affairs, the Kokua Council, the Hawaii Aging Advocates Coalition, and one private citizen.

Your Committee finds that the joint legislative committee on family caregiving was established under Act 285, Session Laws of Hawaii 2006, to develop a comprehensive public policy to strengthen support for family caregivers in Hawaii. Your Committee

supports the joint committee's recommendations to partner with the University of Hawaii to expand research, education, and training efforts in order to build a family caregiver and "aging in place" support system in Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2831, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2883 Ways and Means on S.B. No. 2901

The purpose of this measure is to appropriate funds to the Department of Defense for repair and improvement to veterans cemeteries among the four counties.

Your Committee received testimony in support of this measure from the Kauai County Council, the Kauai Veterans Council, the Mayor of the County of Kauai, and a concerned citizen. Comments on the measure were received from a concerned citizen.

Your Committee finds that veterans cemeteries across the State, particularly on the neighbor islands, are in chronic disrepair. The funds appropriated in this measure will provide necessary maintenance and upkeep services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2901, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2884 Ways and Means on S.B. No. 3182

The purpose of this measure is to authorize extended prison sentences for offenders who commit felonies against good samaritans.

Specifically, this measure would authorize the imposition of an extended prison sentence where an offender commits a felony against a good samaritan who intervenes in the commission of certain crimes by using justifiable force, contacts proper authorities, or uses other lawful means to help the victim of the crime.

Testimony in support of this measure was submitted by the Department of the Attorney General.

Your Committee finds that people who come to the aid of victims may place themselves in danger of being harmed by the perpetrator of the crime. Protection should be provided for these "good samaritans".

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3182, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2885 Ways and Means on S.B. No. 2088

The purpose of this measure is to allow businesses engaged in commercial aviation training for pilots, dispatchers, mechanics, or traffic controllers to be eligible to participate in the state enterprise zone partnership program.

More specifically, the measure expands the definition of "qualified business" under the state enterprise zone law to include businesses engaged in advanced flight simulator training for pilots, dispatchers, mechanics, or air traffic controllers.

Testimony in support of the measure was received from two private citizens. The Department of Taxation, the Department of Business, Economic Development, and Tourism, and the University of Hawaii System submitted comments.

Your Committee finds that this measure provides an incentive for the private sector to invest in expensive flight training materials and equipment needed by flight schools, which is an investment that should, in turn, make training more available and affordable for prospective students.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2088, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 2886 Ways and Means on S.B. No. 2816

The purpose of this measure is to alleviate ferry transportation difficulties for residents of counties reliant on intra-county ferry services.

Specifically, this measure:

- (1) Requires the Department of Land and Natural Resources to assign priority mooring space to intra-county ferries serving a county with five hundred thousand or fewer people and consisting of at least three islands inhabited by permanent residents; and
- (2) Exempts distributors from fuel tax for fuel sold for ultimate use by the intra-county ferry services.

The Board of Land and Natural Resources, Department of Taxation, Department of Transportation, and Tax Foundation of Hawaii submitted comments.

West Maui residents are served by only one two-lane highway and one small airport. The residents of the island of Lana'i have only one affordable and frequent means of transport to Maui, which is the intra-county ferry from Lana'i to Lahaina. A more convenient route for Lana'i travelers will be to dock in Ma'alaea. This measure will assign priority mooring space to an intra-island ferry serving a route between Lana'i and Ma'alaea harbor and exempt the added fuel costs of this route from the fuel tax.

Your Committee finds that an alternative ferry route from Lana'i to Ma'ālaea harbor will also benefit West Maui residents by easing congestion in and around Lahaina and its small boat harbor. The alternate route to Ma'ālaea will also facilitate emergency ferry operations out of Lahaina if the highway in West Maui is closed for some reason.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2083, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 2887 Ways and Means on S.B. No. 2394

The purpose of this measure is to clarify the awards procedures for federal small business innovation research grants and federal small business technology transfer program grants.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and the High Technology Development Corporation.

Your Committee finds that this measure provides the High Technology Development Corporation with increased flexibility to award grants to stimulate the growth of small businesses involved with high technology in this State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2394 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2888 Ways and Means on S.B. No. 2605

The purpose of this measure is to increase the election fund contribution amount on state income tax returns for campaign spending purposes.

More specifically, the measure increases, from \$2 to \$3, the income tax check-off amount that a state taxpayer may elect to be deposited into the Hawaii election campaign fund from that taxpayer's tax liability.

Testimony in support of the measure was received from the Campaign Spending Commission. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that the tax check-off is the primary source of funding for the Hawaii election campaign fund. Your Committee believes that this measure will increase the amount of partial public funding available to candidates without creating a second system of public financing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Inouye).

SCRep. 2889 Ways and Means on S.B. No. 2850

The purpose of this measure is to establish and appropriate funds for the Department of Agriculture's biosecurity program.

The measure also appropriates funds for planning interim and permanent joint inspection biosecurity facilities.

Your Committee received testimony in support of the measure from the Department of Agriculture, the Department of Land and Natural Resources, the Coordinating Group on Alien Pest Species, the Nature Conservancy of Hawaii, the Conservation Council for Hawaii, the Hawaii Farm Bureau Federation, and the Hawaii Crop Improvement Association.

Your Committee finds that invasive pests can cause millions of dollars in crop losses, the extinction of native species, the destruction of native forests, the spread of disease, and the quarantine of exported agricultural crops.

Despite efforts to detect and eradicate invasive species, the State is constantly at risk from insects, disease-bearing organisms, snakes, weeds, and other invasive pests that attempt to enter our State each year. In response to this threat, the Department of Agriculture has created a biosecurity program to fight invasive species on several fronts by:

- (1) Administering pre-entry measures to minimize the risk of invasive pests entering the State;
- (2) Conducting port-of-entry inspections to detect and quarantine or destroy pests upon arrival; and
- (3) Administering post-entry measures to mitigate the establishment of pests in the State.

Your Committee finds that the codification of the department's biosecurity program is vital to the public's health and welfare.

Your Committee has amended the measure by:

- (1) Amending the proposed section 150A-G of the measure to correct the reference to section "150A-E" to read section "150A-F", Hawaii Revised Statutes;
- (2) Adopting clarifying language recommended by the Department of Agriculture; and
- (3) Making other technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2850, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2850, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Whalen).

SCRep. 2890 Transportation and International Affairs on Gov. Msg. No. 257

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 257 BRENNON MORIOKA, for a term to expire 12-06-2010

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Brennon Morioka to have the necessary qualifications to be nominated as the Director of the Department of Transportation.

Your Committee received testimony in support of Brennon Morioka from a member of the House of Representatives; the Chief of Staff to the Governor; the state Comptroller; the Chairperson of the Board of Agriculture; the Chief Marketing Officer of the Department of Business, Economic Development, and Tourism; the Director of Commerce and Consumer Affairs; the state Adjutant General; the Chairman of the Hawaiian Homes Commission; the Deputy Director of Human Resources Development; the Director of Labor and Industrial Relations; the Chairperson of the Board of Land and Natural Resources; three Deputy Directors of Transportation; the Chancellor of the University of Hawai'i – West Oahu; and the Office of Hawaiian Affairs. Testimony in support was also received from the Executive Director of the Oahu Metropolitan Planning Organization; two members of the City Council of the City and County of Honolulu; the Mayor of the County of Hawai'i; the Mayor of the County of Kaua'i; a member of the Kaua'i County Council; and two members of the Maui County Council.

Additional supportive testimony was submitted by Aloha Airlines; Hawaiian Airlines; United Airlines; Hawaii Superferry; Horizon Lines, LLC; Matson Navigation Company; Young Brothers, Limited; Roberts Hawaii, Inc.; the Airlines Committee of Hawaii; Airport Concessionaires Committee; Catrala-Hawaii; Greeters of Hawaii; Hawaii Transportation Association; Hawaii Harbor Users Group; Hawaii Bicycling League; and Peoples Advocacy for Trails Hawai'i.

Testimony in support was also received from The Chamber of Commerce of Hawaii; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; AARP Hawaii; the American Council of Engineering Companies of Hawaii; the American Society of Civil Engineers; the Coalition of Hawaii Engineering & Architectural Professionals; the Cement and Concrete Products Industry of Hawaii; the General Contractors Association of Hawaii; the Hawaii Building and Construction Trades Council, AFL-CIO; the Hawaii Operating Engineers Industry Stabilization Fund; and The Pacific Resource Partnership.

Further testimony in support included Alexander & Baldwin, Inc.; AMPCO System Parking; Becker Communications, Inc.; CGI Technologies and Solutions, Inc.; Castle & Cooke Hawai'i; DFS Group, LP; The Gas Company; Jas. W. Glover, Ltd.; Grace Pacific Corporation; HMSHost Corporation; Hellmuth, Obata & Kassabaum, Inc.; Ralph S. Inouye Co., Ltd.; KFC Engineering Management, Inc.; KFC Airport, Inc.; KYA Design Group, Inc.; Kapolei Property Development LLC; Kobayashi Group LLC; Lea + Elliot, Inc.; Parsons Transportation Group, Inc.; Sandwich Isles Communications, Inc.; Stanford Carr Development, LLC; Ushijima Architects, Inc.; Weyerhaeuser, Hawaii; and over twenty individuals.

Brennon T. Morioka, Ph.D., P.E., is a licensed civil engineer who began his career in 1992. During that time, he has worked on transportation-related projects for various governmental agencies, including the United States Department of Defense, the state Department of Transportation, and the City and County of Honolulu. Projects included trenchless installation of sewer, water, telecommunication, and drainage lines; telescope foundations on Mauna Kea; resort hotel grading plans and building foundations; design and management of projects to build new submarine and naval piers and bulkheads; airport runways and hangars; and numerous aspects of road construction.

Mr. Morioka holds both a B.S. and M.S. in Civil Engineering from the University of California, Berkeley; and a Ph.D. in Civil Engineering from the University of Hawai'i, where he served as a research and teaching assistant and lecturer from 1995 to 2002. He has also published and presented numerous papers on transportation and other topics.

Mr. Morioka serves as a member of the Hawaii State Earthquake Advisory Committee, the Industry Advisory Committee of the University of Hawai'i College of Engineering, and as the Geotechnical Committee Chair of the American Society of Civil Engineers, among other professional organizations. He was honored as the Young Engineer of the Year, State of Hawaii, in 2001, and was the U.S. Delegate to the 1st International Young Geotechnical Engineers Conference, held in the United Kingdom in 2000.

Mr. Morioka joined the Department of Transportation (Department) as the Deputy Director for the Highways Division in January of 2005. In his testimony before your Committee, Mr. Morioka stressed his satisfaction in seeing many of the Department's major highway projects come to fruition, and his commitment to the continued improvement of the State's highway system. He also noted that while he is very comfortable with the engineering and development aspects of highway programs, he recognizes there is much to learn about airports and harbors, and he commended the Department's deputies, managers, and staff for their willingness to spend the time to "bring him up to speed".

Mr. Morioka believes his experience in the private sector serves him well in government, as he tends to look at the Department's operations from a business perspective as well as that of a member of the public. As he stated in his commitment to the importance of the Department's projects and the urgency with which they must be approached, "time is money, whether in actual monetary terms or the time we spend away from our families as we sit in traffic."

Mr. Morioka responded to numerous questions and comments from Committee members, ranging from additional revenue sources for the State Highway Fund, the lapsing of past capital improvement project funds, project delivery times, roadway graffiti, and the recent rash of copper thefts that have left commuters in the dark on major highway routes.

Your Committee thanked Mr. Morioka for his commitment and his ability to “build bridges” among his constituencies, as witnessed by the comments of so many testifiers on his accessibility. Your Committee also acknowledged the momentous projects facing the Department, from the ongoing airports and harbors modernization plans to expanded options for ground transportation, and the importance of continuing the collaborative work between Mr. Morioka, the Department, and the Legislature.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 2891 Water and Land on Gov. Msg. Nos. 426 and 427

Recommending that the Senate advise and consent to the nominations of the following:

KAUA‘I AQUATIC LIFE AND WILDLIFE ADVISORY COMMITTEE

G.M. No. 426 GEORGE R. COATES, for a term to expire 6-30-2012; and

G.M. No. 427 ELTON S. USHIO, for a term to expire 6-30-2012

Upon review of the background information submitted by the nominee, your Committee finds that George R. Coates attended Chabot College in Hayward, California where he majored in Marine Biology with a Russian History minor. Mr. Coates is a master instructor with the Hawaii Hunter Education Program and a instructor at the Hawaii Hunter Education and Safari Club International Annual Camp. He is currently a licensed real estate salesperson with Aloha Island Properties.

Testimony in support of George R. Coates was submitted by the Department of Land and Natural Resources and the Mayor of the County of Kaua‘i.

Upon review of the background information submitted by the nominee, your Committee finds that Elton S. Ushio received a Bachelor of Business Administration degree from the University of Hawaii at Manoa. Mr. Ushio presently works as the Grant Coordinator for the County of Kauai Civil Defense Agency. He is a volunteer instructor and master instructor with the Hawaii Hunter Education Program and is a National Rifle Association trained Range Safety Officer. He has been a member of the Kauai Aquatic Life and Wildlife Advisory Committee from 1994-2002, and 2004-present. He served as the Chairperson from 1998-2002.

Testimony in support of Elton S. Ushio was submitted by the Department of Land and Natural Resources, the Mayor of the County of Kaua‘i, and one individual.

Your Committee considered each nominee’s submittals regarding their desire to serve, perception of the role and responsibilities of membership, qualifications for membership, and goals for the nominees’ term of service on the Kauai Aquatic Life and Wildlife Advisory Committee. Your Committee believes that the nominees adequately addressed the Committee’s concerns as to these topics.

As affirmed by the records of votes of the members of your Committee on Water and Land that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2892 Water and Land on Gov. Msg. No. 429

Recommending that the Senate advise and consent to the nomination of the following:

KANEOHE BAY REGIONAL COUNCIL

G.M. No. 429 BONNIE K. KAHAPEA-TANNER, for a term to expire 6-30-2012

Upon review of the background information submitted by the nominee, your Committee finds that Bonnie K. Kahapea-Tanner is presently a teacher and project coordinator at the Halau Ku Mana Public Charter School. She holds an Associate Degree in Liberal Arts from Windward Community College, a Bachelor of Arts in Hawaiian Studies from the University of Hawaii at Hilo, and a Masters of Science in Counseling Psychology from Chaminade University. She is presently seeking a doctorate degree in Humanities from the California Institute of Integral Studies. She is being nominated for reappointment to the Kaneohe Bay Regional Council as a representative of the Kaneohe Bay Boating Association.

Ms. Kahapea-Tanner was born and raised in Kaneohe and is a frequent user of Kaneohe Bay. For the past ten years, Ms. Kahapea-Tanner has been involved with the Makali‘i Voyaging Canoe. In 1999, she served as a crew member on the Makali‘i’s voyage to Micronesia, which covered over 4,000 miles across the Pacific Ocean in honor of Master Navigator Mau Piailug.

Testimony in support of Ms. Kahapea-Tanner was submitted by the Department of Land and Natural Resources and two individuals.

Your Committee reviewed the statement submitted by the nominee expressing her desire to serve on the Kaneohe Bay Regional Council, perception of the role and responsibilities of membership, and qualifications for membership. Your Committee believes that Ms. Kahapea-Tanner’s continued service on the Council will benefit both the Council and the constituency she represents.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2893 Water and Land on Gov. Msg. No. 432

Recommending that the Senate advise and consent to the nomination of the following:

LEGACY LAND CONSERVATION COMMISSION

G.M. No. 432 JOAN E. CANFIELD, for a term to expire 6-30-2012

Upon review of background information submitted by the nominee, your Committee finds that Joan E. Canfield holds a Bachelor of Arts in Biology from Oberlin College, a Master of Science in Botany; Plant Ecology from the University of Washington, and a Doctorate in Botany; Plant Ecology from the University of Hawaii. She is presently on the Affiliate Graduate Faculty at the University of Hawaii at Manoa, Department of Botany and Ecology, Evolution and Conservation Biology Program. Dr. Canfield previously served as Deputy Director of the U.S. Geological Survey, Biological Resources Division.

Testimony in support of the nominee was submitted by the U.S. Geological Survey, Department of Land and Natural Resources, and two individuals.

Your Committee questioned the nominee and received responses regarding the nominee's desire to serve, perception of the role and responsibilities of membership, qualifications for membership, and goals for the nominee's term of service on the Legacy Land Conservation Commission. Your Committee finds that the nominee adequately responded to the Committee's inquiry and demonstrated adequate knowledge of and a commitment to work towards the goals of the Commission.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2894 Water and Land on Gov. Msg. No. 433

Recommending that the Senate advise and consent to the nomination of the following:

NATURAL AREA RESERVE SYSTEM COMMISSION

G.M. No. 433 DALE BRIAN BONAR, for a term to expire 6-30-2012

Upon review of background information submitted by the nominee, your Committee finds that Dale Brian Bonar holds a Bachelor of Arts degree in Biology from Whitman College, a Master of Science degree in Marine Science from University of the Pacific, and a Doctorate degree in Zoology from the University of Hawaii. He is presently employed as the Executive Director of Maui Coastal Land Trust.

Testimony in support of Dale Brian Bonar's reappointment to the Natural Area Reserve System Commission was submitted by the Department of Land and Natural Resources, U.S. Geological Survey, and three individuals.

Based upon the information presented by the nominee as well as the testimony in support of his nomination, your Committee believes that the nominee possesses adequate knowledge of and a commitment to work towards the goals of the Natural Area Reserve System Commission.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Kokubun).

SCRep. 2895 Intergovernmental and Military Affairs on Gov. Msg. Nos. 398, 399, 400 and 401

Recommending that the Senate advise and consent to the nominations of the following:

ADVISORY BOARD ON VETERANS' SERVICES

G.M. No. 398 LUIS ALEJANDRO PARKER, for a term to expire 6-30-2008;

G.M. No. 399 LUIS ALEJANDRO PARKER, for a term to expire 6-30-2012;

G.M. No. 400 LLOYD K. SODETANI, for a term to expire 6-30-2012; and

G.M. No. 401 ANNE V. STEVENS, for a term to expire 6-30-2012

Your Committee received testimony in support of Luis Alejandro Parker from the State Department of Defense; Ewa by Gentry Community Association; Vietnam Veterans of America; and two individuals.

The nominee is being appointed to serve out a term to expire on June 30, 2008, and being reappointed to another term to expire on June 30, 2012. He represents the Oahu/Veteran appointment.

Mr. Alejandro received a B.A. degree from the University of West Florida. He is retired from the United States Air Force, graduating from the U.S. Air Force Non-Commissioned Officers Academy. Mr. Alejandro served from 1998 to 2007 as a Vietnam Veterans Advocate for the Vietnam Veterans of America, Oahu Chapter 858, which he founded. He was most recently employed by Kaiser Permanente in Honolulu as a supervisor in diagnostic imaging and records. Mr. Alejandro is a member of the Veterans of Foreign Wars Post 1540, among other military veterans organizations of which he belongs. He also served in the United States Marine Corps and received a Purple Heart.

Your Committee notes from the testimony of the State Department of Defense that the nominee “has created a whirlwind of action in providing information to the Board concerning veterans’ activities as an advocate to veterans.” Your Committee further notes from the nominee’s personal statement that problems can be solved if the right people have the right attitude and tools necessary to do the right thing. Of particular interest to your Committee is Mr. Alejandro’s written answer to the Committee’s written questions that, “We also need to take care of our veterans once they pass on by providing top-quality cemeteries with enough resources to maintain them at the highest possible standard.”

Your Committee received testimony in support of Lloyd K. Sodetani from the State Department of Defense.

The nominee represents the Maui/Veteran appointment. Mr. Sodetani received a B.A. degree from the Washburn University of Topeka and an M.B.A. degree from the University of Hawaii. He also completed the program at the University of Hawaii Graduate Realtor Institute and the Realtors National Marketing Institute. He is a certified real estate broker manager and the President of Maui Realty Co., Inc.

Mr. Sodetani retired in 1999 with the rank of colonel from the United States Army Reserve. He was honorably discharged in 1972 from active duty. Mr. Sodetani’s military awards and ribbons include the Legion of Merit; Meritorious Service Medal with Oak Leaf Cluster; Army Commendation Medal; National Guard Commendation Medal; Hawaii National Guard Service Medal; National Defense Service Ribbon; Army Reserve Component Ribbon; USA Oversea Training Ribbon (7); Army Service Ribbon; Armed Forces Reserve Ribbon (6); Army Overseas Service Ribbon; and Joint Service Unit Citation. He belongs to numerous professional and community organizations on Maui.

Your Committee notes from the testimony of the State Department of Defense that, “Mr. Sodetani has been extremely active with the veterans on the county of Maui. While working as a veteran advocate on Maui, he identifies issues that are affecting these veterans and suggests alternative approaches to OVS to help ensure veterans receive their much-needed benefits. Mr. Sodetani has also taken the initiative to help begin planning for the Maui Veterans to obtain a Maui Veterans Center.” Your Committee further notes from the nominee’s written answer in response to your Committee’s written questions that, “I am dedicated to the veterans, I care about fairness, and I believe in service to my community.”

Your Committee received testimony in support of Anne V. Stevens from the State Department of Defense and one individual.

The nominee represents the Oahu/Veteran appointment. She is currently a volunteer with the Visitor Aloha Society of Hawaii and Family Promise. Ms. Stevens served in the Hawaii State House of Representatives in 2006, representing House District 23. Prior thereto she was the Office Manager for a state senator. Ms. Stevens was the District Manager for Quay Cruise Agency and the Manager of the Norton Lilly Agency (maritime and steamship agency).

Ms. Stevens served with the United States Coast Guard from 1983 to 1995 as a U.S. Coast Guard Officer. Her last assignment was as an Operations Officer Coast Guard Base, Honolulu, Hawaii.

Ms. Stevens received a B.A. degree from Springfield College, and completed the U.S. Coast Guard Office Candidate School. She also completed the Program for Senior Executives in State and Local Government at the John F. Kennedy School of Government at Harvard University. Ms. Stevens is a member of the Waikiki Rotary Club, and is on the Board of Advisors to the Hawaii Ocean Safety Team.

Your Committee notes from the testimony of the State Department of Defense that, “Ms. Stevens has been proactive in making sure the new Yukio Okutsu Veterans Home in Hilo is veteran friendly. She identifies issues and takes alternative approaches in making sure that all veterans are served and given their benefits under VA. She is truly an advocate for veterans.” Your Committee further notes the personal statement of the nominee that she wishes to ensure that veterans receive the best services possible, and that that United States and Hawaii owe veterans an efficient and compassionate delivery of benefits.

As affirmed by the records of votes of the members of your Committee on Intergovernmental and Military Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2896 Education on S.C.R. No. 57

The purpose of this measure is to request that Pahoehoe High and Intermediate school dedicate and rename its gymnasium in honor of Representative Helene H. Hale.

Testimony in support of the measure was submitted by the Hawai’i County Council, the Ka’u/Kea’au/Pahoehoe Complex Area, and four individuals.

Your Committee finds that former Hawaii State Representative Helene H. Hale is widely admired as a strong advocate for improved mental health care, sustainable development, and world peace. She was the first African-American elected to office in Hawaii and the first woman to hold an executive position in local government since Queen Liliuokalani. Representative Hale served as a delegate to the 1978 Constitutional Convention, between 1980 and 1994, served a total of ten years on the Hawaii County Council, and in 2000 won election to the State House of Representatives where she served as the Chair of the Committee on International Affairs. Her accomplishments are many and varied, and she has left an enduring legacy of her commitment to the people of Hawaii, particularly the Big Island, including through assisting in the establishment of the Merrie Monarch Festival. Your Committee determines that the dedication and renaming of the gymnasium at Pahoehoe High and Intermediate School in her honor is a fitting tribute to her years of dedicated service and commitment to the State of Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 57 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 2897 Intergovernmental and Military Affairs on S.C.R. No. 47

The purpose of this measure is to respectfully request the United States Postal Service to commemorate the honorable service of the F-14 Tomcat in defending freedom with a First Class Stamp.

Your Committee received testimony in support of this measure from two Hawaii State House Representatives and nineteen individuals.

The Legislature desires to recognize the exemplary service by the United States Navy's F-14 Tomcat, upon its retirement in 2006 and based upon a reverent understanding of the F-14's contribution to the free world as both a tested and proven weapons platform of the Cold War and an American icon, starring as the center attraction of patriotic films such as "Top Gun" and "The Final Countdown".

The Legislature is thankful to not only the F-14 Tomcat, but also the men and women involved in the development, maintenance, and operation of the Tomcat who helped keep America free throughout the Cold War, allowing all of us to continue in the exercise of democracy.

Your Committee believes that it is highly appropriate for the United States Postal Service to commemorate the honorable service of the U.S. Navy's F-14 Tomcat by issuing a postage stamp depicting the F-14 in the air in a combat maneuver.

Your Committee has amended this measure by:

- (1) Adding more facts about the F-14; and
- (2) Adding transmittals of this measure to the Secretary of Defense, Secretary of the Navy; and Northrop Grumman Corporation, the maker of the F-14.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2898 Intergovernmental and Military Affairs on S.R. No. 22

The purpose of this measure is to respectfully request the United States Postal Service to commemorate the honorable service of the F-14 Tomcat in defending freedom with a First Class Stamp.

Your Committee received testimony in support of this measure from two Hawaii State House Representatives and nineteen individuals.

The Legislature desires to recognize the exemplary service by the United States Navy's F-14 Tomcat, upon its retirement in 2006 and based upon a reverent understanding of the F-14's contribution to the free world as both a tested and proven weapons platform of the Cold War and an American icon, starring as the center attraction of patriotic films such as "Top Gun" and "The Final Countdown".

The Legislature is thankful to not only the F-14 Tomcat, but also the men and women involved in the development, maintenance, and operation of the Tomcat who helped keep America free throughout the Cold War, allowing all of us to continue in the exercise of democracy.

Your Committee believes that it is highly appropriate for the United States Postal Service to commemorate the honorable service of the U.S. Navy's F-14 Tomcat by issuing a postage stamp depicting the F-14 in the air in a combat maneuver.

Your Committee has amended this measure by:

- (1) Adding more facts about the F-14; and
- (2) Adding transmittals of this measure to the Secretary of Defense, Secretary of the Navy; and Northrop Grumman Corporation, the maker of the F-14.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 22, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 22, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2899 Transportation and International Affairs on S.C.R. No. 52

The purpose of this measure is to request:

- (1) The Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority to implement programs to increase the number of visitors from Taiwan;
- (2) The United States Citizenship and Immigration Services and the United States Department of Homeland Security to add Taiwan to the list of visa waivers;
- (3) The Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority to assist and cooperate with the United States Citizenship and Immigration Services and the United States Department of Homeland Security to facilitate the inclusion of Taiwan on the visa waiver list; and
- (4) The Department of Business, Economic Development, and Tourism to develop a list of Hawaii-made products appropriate for exportation to Taiwan.

Testimony in support of this measure was received from two individuals. The Department of Business, Economic Development, and Tourism; the Tourism Liaison; and the Hawaii Tourism Authority provided comments.

Your Committee finds that although the Taiwan visitor market is a promising potential source of tourists to Hawaii, in 2007, only 587,000 visitors from Taiwan arrived in the United States, just 6.5 per cent of the total outbound travelers from Taiwan. In addition, the 6.5 per cent figure for 2007 represented a continuing decline of 6.8 per cent from 2006, and a ten per cent decline from 2005. In 2006, approximately 15,450 Taiwanese visited Hawaii.

Your Committee finds that this measure would benefit Hawaii tourism, which faces a slowdown in visitor arrivals, according to recent projections by the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 52 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hooser).

SCRep. 2900 Transportation and International Affairs on S.R. No. 26

The purpose of this measure is to request:

- (1) The Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority to implement programs to increase the number of visitors from Taiwan;
- (2) The United States Citizenship and Immigration Services and the United States Department of Homeland Security to add Taiwan to the list of visa waivers;
- (3) The Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority to assist and cooperate with the United States Citizenship and Immigration Services and the United States Department of Homeland Security to facilitate the inclusion of Taiwan on the visa waiver list; and
- (4) The Department of Business, Economic Development, and Tourism to develop a list of Hawaii-made products appropriate for exportation to Taiwan.

Testimony in support of this measure was received from two individuals. The Department of Business, Economic Development, and Tourism; the Tourism Liaison; and the Hawaii Tourism Authority provided comments.

Your Committee finds that although the Taiwan visitor market is a promising potential source of tourists to Hawaii, in 2007, only 587,000 visitors from Taiwan arrived in the United States, just 6.5 per cent of the total outbound travelers from Taiwan. In addition, the 6.5 per cent figure for 2007 represented a continuing decline of 6.8 per cent from 2006, and a ten per cent decline from 2005. In 2006, approximately 15,450 Taiwanese visited Hawaii.

Your Committee finds that this measure would benefit Hawaii tourism, which faces a slowdown in visitor arrivals, according to recent projections by the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 26 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hooser).

SCRep. 2901 Education on S.C.R. No. 22

The purpose of this measure is to recognize Patsy Takemoto Mink for her work in championing the cause of equity in athletics on behalf of all women in the United States.

Testimony in support of the measure was submitted by the Department of Education and one individual.

Your Committee finds that Congresswoman Patsy Takemoto Mink left an indelible mark on the hearts and lives of the people of Hawaii and throughout the country. She was a dedicated public servant who, during her thirty-three-year political career, served in the Hawaii Territorial House and Senate, the Hawaii State Senate, the Honolulu City Council, and the United States House of Representatives. Congresswoman Mink is remembered as a champion of the rights of immigrants, minorities, women, families, and children. She herself struggled to overcome gender and racial prejudices and injustices to emerge as one of the most influential leaders of her generation.

Your Committee further finds that Congresswoman Mink's most prominent accomplishment was co-authoring the landmark Title IX Amendment of the Higher Education Act, which prohibits gender discrimination by federally funded educational institutions and guarantees equal federal support for women in academics and athletics. Your Committee determines that it is appropriate to recognize and honor Congresswoman Mink for her contributions to broadening the educational opportunities for girls and women through her fight for equity in women's athletic programs in American high schools, colleges, and universities.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 22 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 2902 Transportation and International Affairs on S.C.R. No. 53

The purpose of this measure is to urge the President of the United States to enter into a free trade agreement with Taiwan in a manner that respects the interests of all countries in the East Asian region.

Testimony in support of this measure was received from the Taiwanese Chamber of Commerce and three individuals.

Your Committee finds that Taiwan is the United States' ninth largest trading partner, eleventh largest export market, and fifth largest farm products market and in 2006, the trade flow between the United States and Taiwan totaled \$61,200,000,000. Your Committee further finds that a free trade agreement may provide more opportunities for United States companies to invest in and export to Taiwan and that consumers in the United States may also benefit from products made in Taiwan.

Your Committee has amended this measure to correct a spelling error.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 53, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hooser).

SCRep. 2903 Transportation and International Affairs on S.R. No. 27

Your Committee finds that Taiwan is the United States' ninth largest trading partner, eleventh largest export market, and fifth largest farm products market and in 2006, the trade flow between the United States and Taiwan totaled \$61,200,000,000. Your Committee further finds that a free trade agreement may provide more opportunities for United States companies to invest in and export to Taiwan and that consumers in the United States may also benefit from products made in Taiwan.

Your Committee has amended this measure to correct a spelling error.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 27, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 27, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Hooser).

SCRep. 2904 Human Services and Public Housing on S.C.R. No. 8

The purpose of this measure is to request that the Governor reschedule observance of the Year of the Family from 2008 to 2009.

Testimony in support of this measure was submitted by the Family Celebration Commission.

Your Committee finds that this measure is essential to provide the Family Celebration Commission with the time necessary to complete its ongoing work and accomplish its objectives in as successful a manner as possible.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 8 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2905 Human Services and Public Housing on S.R. No. 3

The purpose of this measure is to request that the Governor reschedule observance of the Year of the Family from 2008 to 2009.

Testimony in support of this measure was submitted by the Family Celebration Commission.

Your Committee finds that this measure is essential to provide the Family Celebration Commission with the time necessary to complete its ongoing work and accomplish its objectives in as successful a manner as possible.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 3 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2906 Human Services and Public Housing on S.C.R. No. 37

The purpose of this measure is to request the Legislative Reference Bureau to conduct a study into the feasibility of a comprehensive vocational rehabilitation center for deaf and hard of hearing individuals in the State of Hawaii.

Testimony in support of this measure was submitted by the Department of Human Services, the Disability and Communication Access Board, the Deaf Hard of Hearing Advisory Board, and one private citizen. Comments on the measure were submitted by the Legislative Reference Bureau.

Your Committee finds that the deaf and hard of hearing community have unique communication and service needs and a comprehensive center would be the first step in improving the resources and services available to enhance their quality of life.

Your Committee has amended this measure by incorporating the comments made by the Legislative Reference Bureau (LRB) in order to make the requested study more manageable and enable that agency to complete the study in a timely manner. Specifically, the LRB requested the elimination of "feasibility" and instead requests a study on the establishment of a comprehensive center, "suggest" rather than "define" services to be delivered, "roughly estimate the costs of establishing" and survey start-up costs of centers in other states rather than "determine the feasibility", and request the participation of the Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services to identify the deaf and hard of hearing population who may benefit from a comprehensive center, rather than have the LRB identify the population on its own.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 37, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2907 Human Services and Public Housing on S.C.R. No. 25

The purpose of this measure is to convene a Task Force on Aging to study the need for and feasibility of establishing a state Department of Aging.

Testimony in support of this measure was submitted by the Hawai'i Alliance for Retired Americans and Kokua Council. Testimony in opposition to this measure was submitted by the Executive Office on Aging. Comments on the measure were submitted by the Occupational Therapy Association of Hawaii.

Your Committee finds that the population of Hawaii is aging at 2.5 times the national rate and that a statewide cabinet-level Department of Aging may be necessary to coordinate services and resources for the multi-faceted needs of the increasing number of older adults in the State.

Your Committee has amended this measure by:

- (1) Incorporating comments made by the Executive Office on Aging by extending the time frame allotted in which that office is to submit the required report to the Legislature from twenty days prior to the convening of the Regular Session of 2009 to twenty days prior to the adjournment of the Regular Session of 2009; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 25, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2908 Human Services and Public Housing on S.C.R. No. 24

The purpose of this measure is to designate the week of May 5 through May 9 as Hawaii Teen Dating Violence Awareness and Prevention Week.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and the Hawaii Youth Services Network.

Your Committee finds that teenagers, parents, and health and human services professionals alike can often underestimate the amount of intimate partner abuse that occurs among teenagers, and that the cycle of violent behaviors that can trap adults in abusive relationships can begin to be formed in adolescence. Your Committee further finds that there is a great need for information and advice on ways to engage the problem of adolescent dating violence at all possible levels.

Your Committee has amended this measure by:

- (1) Incorporating the comments of the Hawaii State Coalition Against Domestic Violence by changing the calendar week from May 5 through 9, 2008, to the first week in February 2009 to coincide with National Teen Dating Violence Week; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 24, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 24, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2909 (Joint) Water and Land and Tourism and Government Operations on S.C.R. No. 54

The purpose of this measure is to request the Auditor to conduct an audit of the Aloha Tower Development Corporation, particularly with regard to lawsuits relating to development projects.

Testimony in support of this measure was submitted by Cades Schutte; litigation counsel for Kenneth H. Hughes, Inc.; Stubenberg & Durrett; development counsel for Kenneth H. Hughes, Inc.; and one individual. The Aloha Tower Development Corporation submitted testimony that did not express a position regarding this measure but expressed its support for transparency and public review of its records.

Your Committees find that concern was expressed over the Aloha Tower Development Corporation's historical track record with regard to development projects. Specifically, concerns were raised with regard to three proposed development projects which ended up in litigation. As a result of this situation, concerns were raised regarding the Aloha Tower Development Corporation's qualifications and ability to be responsible for implementing the harbor modernization project, envisioned by the Administration that would require the Aloha Tower Development Corporation to work in partnership with the Department of Transportation to manage a complex multi-year project with a potential cost of over a billion dollars.

As affirmed by the records of votes of the members of your Committees on Water and Land and Tourism and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 54 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Fukunaga, Hee, Tsutsui).

SCRep. 2910 Water and Land on Gov. Msg. No. 428

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY (HCDA)

G.M. No. 428 JOSEPH L. DWIGHT, IV, for a term to expire 6-30-2012

Upon review of background information submitted by the nominee, your Committee finds that Joseph L. Dwight, IV holds a Bachelor of Arts from the University of Hawaii at Manoa and a Juris Doctorate degree from the University of Hawaii, William S. Richardson School of Law. He is presently employed as the President and State Manager of First American Title Company, Inc. He is a lifelong resident of Hawaii whose career has been focused on land related issues.

Testimony in support of the appointment of Joseph L. Dwight, IV was submitted by the Hawaii Community Development Authority, Department of Business, Economic Development and Tourism, and two individuals.

Your Committee considered the information submitted by the nominee and the testimony in support of the nominee and believes that the nominee possesses adequate knowledge of and a commitment to work towards the goals of the Authority.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2911 Water and Land on Gov. Msg. No. 431

Recommending that the Senate advise and consent to the nomination of the following:

LAND USE COMMISSION

G.M. No. 431 NORMAND R. LEZY, for a term to expire 6-30-2012

Upon review of background information submitted by the nominee, your Committee finds that Normand R. Lezy was a Cadet at the United States Coast Guard Academy, he subsequently obtained a Bachelor of Arts from the University of Hawaii at Manoa and a Juris Doctorate from the University of Hawaii at Manoa, William S. Richardson School of Law. Mr. Lezy is presently employed as a partner with the law firm Leong, Kunihiro, Leong and Lezy. He has been serving as an Interim At-Large Member of the Land Use Commission.

Testimony in support of Mr. Lezy was submitted by Young Brothers, United States Senator Daniel K. Akaka, the Land Use Commission, Department of Business, Economic Development, and Tourism, and twenty-eight individuals.

Your Committee questioned the nominee and received responses regarding his desire to serve, perception of the role and responsibilities of membership, qualification for membership, and goals for his term of service on the Land Use Commission. Your

Committee believes that Mr. Lezy adequately responded to the Committee's inquiries and demonstrated adequate knowledge of and a commitment to work towards the goals of the Commission.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2912 Tourism and Government Operations on Gov. Msg. Nos. 423 and 424

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE HAWAI'I TOURISM AUTHORITY

G.M. No. 423 DOUGLAS KAHIKINA CHANG, for a term to expire 6-30-2012; and

G.M. No. 424 LEON D. YOSHIDA, for a term to expire 6-30-2012

Your Committee received testimony in support of Douglas Kahikina Chang from the Hawai'i Tourism Authority, State Tourism Liaison, Maui Visitors Bureau, Pacific Marketing Corporation, Kauai Lagoons Resort, Hawai'i Hotel & Lodging Association, Native Hawaiian Hospitality Association, and Hana Coast Realty.

The nominee represents the Maui County appointment to the Board of Directors of the Hawai'i Tourism Authority and is presently being reappointed for a second term. Mr. Chang is the General Manager at the Hotel Hana-Maui, a position he has held since 2001. He has accepted a position to manage The Ritz-Carlton Club and The Residences at Kapalua Bay, starting in mid-March, 2008. He has held hotel managerial positions at the Kaua'i Marriott Resort & Beach Club and Hanalei Bay Resort. Mr. Chang currently serves as the Chairperson of the Board of Directors of the Hawai'i Tourism Authority, and is a Board Member and Officer of the Hana Business Council. He also belongs to the Hawai'i Hotel Association and Maui Hotel Association.

Mr. Chang has been the President, Treasurer, and Founding Member of the Native Hawaiian Hospitality Association; Chairperson of the Kaua'i Visitors Bureau; Board Member of the Maui Visitors Bureau; Executive Board Member of the Hawai'i Visitors and Convention Bureau; Treasurer and Board Member of the Hawai'i Hotel Association, Kaua'i Chapter; Chair of the Kaua'i Visitor Industry Charity Walk; and President of the North Shore Business Council, Kaua'i.

Your Committee notes from the personal statement of the nominee that the Hawai'i Tourism Authority has made progress in building partnerships and has brought funding to areas such as marketing, natural resources, preservation of the host culture, safety and security, airline access, and workforce development. He sees the role of the Authority as finding balance between the needs and quality of life of our resident communities and the commerce of tourism which drives the State's economy. Mr. Chang views the Strategic Tourism Plan as most important as well as accountability to the Plan in the interests of future generations.

Your Committee received testimony in support of Leon D. Yoshida from the Hawai'i Tourism Authority; State Tourism Liaison; 212F Pty Ltd; Bulgari Hotels & Resorts; The Ritz-Carlton Hotel Company, L.L.C.; Central Pacific Bank; eWorld Enterprise Solutions Inc.; First Hawaiian Bank; Grand Hyatt Kaua'i Resort & Spa; Hilton Grand Vacations Club; Ilima Tours & Transportation; Honua Kai Resort Maui; Iolani Sportswear, Ltd.; Island Movers Inc.; JALPAC International Hawaii, Inc.; Japan Airlines International; JCL International Consultants, Inc.; JTB Hawaii, Inc.; Kawakami & Wong, CPAs, LLC; Marc Resorts Hawaii; Marriott North Asia, Hawaii & South Pacific Area Office; MC&A Inc; Outrigger Enterprises Group; Pleasant Holidays; Prince Resorts Hawaii; SeaHawaii, Inc.; The Kahala Hotel & Resort; The Limtiaco Company; Hawaii 5-0 Group, Inc.; Hawai'i Hotel & Lodging Association; one State House of Representatives member; and one individual.

The nominee represents the Oahu appointment (City and County of Honolulu) to the Board of Directors of the Hawai'i Tourism Authority and is presently being reappointed for a second term. Mr. Yoshida is the President of Sawayaka Hawaii Inc., a Japanese in-bound travel company. He is the Founder of Hospitality Solutions, LLC, that develops and markets a B2B Internet-based program to enable travel wholesalers to book group business with hotels on-line. Mr. Yoshida is also the President of Ka Gari Inc., a hospitality marketing firm that assists businesses in business development from the Asia and Pacific markets. His other experience includes Advisor to the Honolulu Festival Foundation; Director of Sales & Marketing, Asia-Pacific, for Hyatt Resorts Hawaii; and Sales Manager for Del E. Webb's Kuilima Resort Hotel & Country Club.

Mr. Yoshida's professional memberships include Japan America Society of Hawaii; Japan-Hawaii Travel Association; and Pacific Area Travel Association. The nominee was Vice Chair from 2006 to 2007 of the Hawai'i Tourism Authority Board.

Your Committee notes the nominee's personal statement that he places emphasis on bringing more chartered flights from Haneda, Japan, to Hawaii; developing the local workforce to work in tourism; and addressing the decline in service quality to our visitors at all facilities in the State that service visitors, including airports, hotels, restaurants, and shops. Mr. Yoshida believes that workforce development is an issue, on the one hand, of bilingualism, where the local populace must be trained to speak Japanese, Chinese, and Korean; on the other hand, there are pockets of very specialized language for which only natives of a particular area are able to speak authentically. Mr. Yoshida also believes that increased outreach to Japan is necessary to address the declining tourism from Japan.

As affirmed by the records of votes of the members of your Committee on Tourism and Government Operations that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2913 (Joint/Majority) Human Services and Public Housing and Intergovernmental and Military Affairs on S.R. No. 19

The purpose of this measure is to request the United States Congress to give statutorily-required authorization for the establishment of a national monument to honor the contributions to leadership by America's women in Washington, D.C.

Testimony in support of this measure was submitted by one private citizen.

Your Committees find that women have made profound contributions to leadership throughout history and supporting the establishment of a national monument for women to bring greater recognition to these contributions is a worthwhile endeavor.

Your Committees have amended this measure by making nonsubstantive amendments throughout for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 19, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 19, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (Hooser, Ihara).

SCRep. 2914 (Joint/Majority) Human Services and Public Housing and Intergovernmental and Military Affairs on S.C.R. No. 44

The purpose of this measure is to request the United States Congress to give statutorily-required authorization for the establishment of a national monument to honor the contributions to leadership by America's women in Washington, D.C.

Testimony in support of this measure was submitted by one private citizen.

Your Committees find that women have made profound contributions to leadership throughout history and supporting the establishment of a national monument for women to bring greater recognition to these contributions is a worthwhile endeavor.

Your Committees have amended this measure by making nonsubstantive amendments throughout for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 44, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 44, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (Hooser, Ihara).

SCRep. 2915 (Joint) Human Services and Public Housing, Tourism and Government Operations and Intergovernmental and Military Affairs on S.C.R. No. 7

The purpose of this measure is to request that certain statewide state and city agencies compile an inventory of abandoned, excess, and underutilized properties under their respective jurisdiction to determine whether these properties may be suitable for the provision of human services.

Comments on the measure were submitted by the Department of Land and Natural Resources.

Your Committees find that there are human services agencies in critical need of office space and an inventory of potential relocation sites would be a first step in helping those agencies more successfully provide essential services to the disadvantaged.

Your Committees have amended this measure by making nonsubstantive amendments throughout the measure for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Tourism and Government Operations and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 7, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 7, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Hooser, Ihara, Trimble).

SCRep. 2916 (Joint) Human Services and Public Housing, Tourism and Government Operations and Intergovernmental and Military Affairs on S.C.R. No. 26

The purpose of this measure is to request the Department of Education, Department of Land and Natural Resources, and the planning departments of the respective counties to compile lists of underutilized properties that may be converted for use by human services agencies.

Testimony in opposition to this measure was submitted by the Department of Education. Comments on the measure were submitted by the Department of Land and Natural Resources.

Your Committees find that there may be a number of underutilized state and county properties that may be used to fill a critical need for office space among human services agencies that would also provide for the public good.

Your Committees have amended this measure by:

- (1) Incorporating the comments of the Department of Education to remove public schools with declining enrollment from the list of properties to be compiled, and remove the requirement of pictures of buildings to be included in the reports to be compiled;
- (2) Amending its title for the purposes of clarity and style; and

(3) Making other technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Tourism and Government Operations and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 26, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 26, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 2 (Ihara, Trimble).

SCRep. 2917 Health on H.B. No. 3161

The purpose of this measure is to ensure that the Hawaii Health Systems Corporation can pay for the operation and provision of current levels of service at its facilities.

Specifically, this measure makes an emergency appropriation in the amount of \$14,000,000 to be used by the Hawaii Health Systems Corporation to pay accounts payable within forty-five days from the date of the invoice for Hawaii Health Systems Corporation's facilities.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, the Kauai Regional Board of the Hawaii Health Systems Corporation, the Oahu Regional Board of the Hawaii Health Systems Corporation, the East Hawaii Regional Board of the Hawaii Health Systems Corporation, Hilo Medical Center, Kona Community Hospital, Maui Memorial Medical Center, Hawaii Government Employees Association, and the United Public Workers/AFSCME, Local 646.

Your Committee finds that the Hawaii Health Systems Corporation is in a financial crisis and unable to pay many of its vendors within a reasonable time frame. Your Committee further finds that this emergency appropriation is necessary to ensure the protection of public health and the provision of essential health care services.

Your Committee is aware that Maui Memorial Medical Center requires additional funds to continue its operations at current levels. Your Committee also is aware that Maui Memorial Medical Center currently is engaged in negotiations to obtain a loan for this purpose and it is likely that the loan will close prior to the time this measure takes effect. To ensure continued operations at Maui Memorial Medical Center, your Committee has amended this measure to appropriate an additional \$11,000,000 and to clarify that that while the appropriation of \$14,000,000 to the Hawaii Health Systems Corporation is made unconditionally, the additional sum of \$11,000,000 will be appropriated for Maui Memorial Medical Center only if the operating loan currently under negotiation fails to close by the time this measure takes effect.

Your Committee further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3161, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 2918 Judiciary and Labor on Gov. Msg. No. 403

Recommending that the Senate advise and consent to the nomination of the following:

DEFENDER COUNCIL

G.M. No. 403 SHIRLEY MIKI KAWAMURA, for a term to expire 6-30-2010

Your Committee received testimony in support of Shirley Miki Kawamura from the State Public Defender, Office of the Governor, and twenty-two individuals.

The nominee represents the Oahu appointment to the Defender Council. Ms. Kawamura is currently an attorney with the law firm of Kawashima, Lorusso, and Tom, LLP, where she has been since 2005. She is a graduate of Iolani School, and received a B.A. degree from Brown University and a J.D. degree from Stanford Law Center. Ms. Kawamura has experience as a Senior Felony Trial Deputy with the Office of the Public Defender, where she served as an attorney from May 1999 to October 2005. Prior thereto, she also worked as an intern for the Office of the Public Defender in Providence, Rhode Island from 1993 to 1994, and as an intern with the Legal Aid Society of Hawaii in 1993. Ms. Kawamura is a Volunteer Guardian Ad Litem and on the Board of Directors of the Legal Aid Society.

Your Committee notes the cumulative testimony that Ms. Kawamura is bright, energetic, personable, collaborative, cooperative, positive in all she does, does more than her share of the work, understands people, and is good at bringing people together. Her experience as a Deputy Public Defender is invaluable to the Defender Council.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2919 Judiciary and Labor on Gov. Msg. No. 404

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TRUSTEES OF THE DEFERRED COMPENSATION PLAN

G.M. No. 404 KENNETH T. TAIRA, for a term to expire 6-30-2012

Your Committee received testimony in support of Kenneth T. Taira from the Department of Human Resources Development and two individuals.

The nominee represents the public employee appointment to the Board of Trustees of the Deferred Compensation Plan. This is a reappointment to a second term. Mr. Taira retired in 2005 as the Chief Negotiator of the State of Hawaii. He has had a long career in Maui County government in personnel administration. Mr. Taira received a B.B.A. degree from the University of Hawaii, and served in the United States Army for two years with the rank of lieutenant in the Adjutant General Corps.

Your Committee notes the testimony of the Department of Human Resources Development that the nominee has demonstrated a sincere desire to make the Deferred Compensation Plan one of the best in the nation, and accordingly supports more enhancements to the Plan such as investment advice to participants.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2920 Judiciary and Labor on Gov. Msg. Nos. 405, 406 and 407

Recommending that the Senate advise and consent to the nominations of the following:

LANGUAGE ACCESS ADVISORY COUNCIL

G.M. No. 405 EARNEST CHUNG, for a term to expire 6-30-2012;

G.M. No. 406 DOMINIC K. INOCELDA, for a term to expire 6-30-2012; and

G.M. No. 407 GERALD HISASHI OHTA, for a term to expire 6-30-2012

Your Committee received testimony in support of Earnest Chung from the Department of Labor and Industrial Relations, Office of Language Access, Catholic Charities Hawai'i, Congress of Visayan Organizations, Filipino Coalition for Solidarity, National Federation of Filipino American Associations, Oahu Filipino Community Council, Pacific Gateway Center, and United Filipino Council of Hawaii.

The nominee represents the covered entity appointment to the Language Access Advisory Council. Sister Earnest was initially appointed to the Council in 2007 for a term to expire in June, 2008. The nominee is currently the Executive Director of Catholic Charities Immigration Services and Social Policy Director of Catholic Charities Hawaii. She has also served as Executive Director of Catholic Charities Elderly Services. Sister Earnest received a B.S. degree from Rogers College (New York) and a M.P.H. degree from the University of Hawaii at Manoa. She is currently active with the St. Francis Health Care System as Board Chair of Community Health Services.

Your Committee notes from the testimony that as Executive Director of Catholic Charities Immigrant Services, Sister Earnest is aware of the much needed services for and issues faced by low-income families, isolated elderly immigrant refugees, and people and families who are homeless. More importantly, Sister Earnest has hands on experience in working with the immigrant communities in Hawaii, which are the communities that often face language access issues when seeking government services.

Your Committee received testimony in support of Dominic K. Inocelda from the Department of Labor and Industrial Relations, Office of Language Access, Congress of Visayan Organizations, Filipino Coalition for Solidarity, National Federation of Filipino American Associations, Oahu Filipino Community Council, Pacific Gateway Center, and United Filipino Council of Hawaii.

The nominee represents the advocacy organization appointment to the Language Access Advisory Council. Mr. Inocelda was initially appointed to the Council in 2007 for a term to expire in June 2008. Mr. Inocelda is currently a social worker with the Susannah Wesley Community Center, where he has served in various other capacities since 1982. Mr. Inocelda received a B.A. degree and a Master's in Social Work from the University of Hawaii at Manoa. He is the President of the Inter-Agency Council on Immigrant Services.

Your Committee notes from the testimony that Mr. Inocelda has worked with limited and non-English speakers, the elderly, public housing residents, and persons with serious mental illnesses. He has been working with Hawaii's immigrant community for more than thirty years.

Your Committee received testimony in support of Gerald Hisashi Ohta from the Department of Labor and Industrial Relations, Office of Language Access, Congress of Visayan Organizations, Filipino Coalition for Solidarity, National Federation of Filipino American Associations, Oahu Filipino Community Council, Pacific Gateway Center, United Filipino Council of Hawaii, and one individual.

The nominee represents the state government appointment to the Language Access Advisory Council. He was initially appointed to the Council in 2007 for a term to expire in June 2008. Mr. Ohta is currently employed by the State Department of Health as Affirmative Action Officer, a position he has held since 1981. The nominee received a B.Ed. degree from the University of Hawaii, where he also received a Public Administration Certificate. Mr. Ohta is currently with the Language Access Working Group, Inter-Agency Council on Immigration Services.

Your Committee notes the nominee's personal statement that he works daily with nondiscrimination issues involving language access. He has instructed departmental, state, and county personnel on issues relating to unlawful harassment concerning language access. According to testimony of the Department of Labor and Industrial Relations, Mr. Ohta has been a very strong proponent of language access and has been a productive member of the Office of Language Access. He is knowledgeable of the issues faced by the limited English proficient population in Hawaii and recognizes the need to continue to work to improve and make accessible

government programs and activities. As the Affirmative Action Officer for the Department of Health, Mr. Ohta has first hand knowledge of the challenges faced by state agencies in complying with Hawaii's language access laws.

As affirmed by the records of votes of the members of your Committee on Judiciary and Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2921 Judiciary and Labor on Gov. Msg. No. 409

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLAND OF OAHU

G.M. No. 409 MAUREEN K. MURAOKA, for a term to expire 6-30-2012

Your Committee received testimony in support of Maureen K. Muraoka from the Office of Elections, one State House of Representatives member, one Honolulu City Councilmember, and three individuals.

The nominee is being reappointed for a second term to the Board of Registration of the Island of Oahu as the Republican appointment. Ms. Muraoka is currently employed as a Legislative Aide in the Hawaii State Legislature.

According to testimony of the Office of Elections, as the Chairperson of the Board of Registration of the Island of Oahu, Ms. Muraoka has shown herself to be fair in her duties. Testimony also indicated that her integrity is exemplary.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2922 Judiciary and Labor on Gov. Msg. Nos. 410 and 411

Recommending that the Senate advise and consent to the nominations of the following:

COMMISSION TO PROMOTE UNIFORM LEGISLATION

G.M. No. 410 PETER J. HAMASAKI, for a term to expire 6-30-2012; and

G.M. No. 411 KEVIN P.H. SUMIDA, for a term to expire 6-30-2012

Your Committee received testimony in support of Peter J. Hamasaki from the State Attorney General and seventeen individuals.

Mr. Hamasaki is being reappointed to a second term. Mr. Hamasaki is currently an attorney with the law firm of McCorriston Miller Mukai MacKinnon LLP, where he has been since 1991. He received a B.A. degree from the University of California, Berkeley, and a J.D. degree from Stanford Law School. During his first term on the Commission, Mr. Hamasaki served on the Drafting Committee for the Model Registered Agents Act and the Drafting Committee to Revise the Uniform Law on Notarial Acts. He also represented the Commission before the Hawaii State Legislature to pass the Uniform Athletes Agent Act, and is presently working with the Judiciary and private companies on the proposed Uniform Real Property Electronic Recording Act.

Your Committee notes from the testimony that the nominee is a brilliant attorney who is capable of analyzing, synthesizing, and explaining even the most complex of legal issues. Mr. Hamasaki is a practical-minded and sensible person who brings common values to the interpretation of the law.

Your Committee received testimony in support of Kevin P.H. Sumida from the State Attorney General and five individuals.

Mr. Sumida is being reappointed to a second term. Mr. Sumida is currently a Principal in the law firm of Sumida & Tsuchiyama, LLC. He received a B.A. degree from Case Western Reserve University and a J.D. degree from the University of Pennsylvania.

According to testimony of a fellow Commissioner, the nominee is effective in his work on the Commission. He participates in floor debates at national meetings and is actively engaged in various drafting committees.

As affirmed by the records of votes of the members of your Committee on Judiciary and Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2923 Education on Gov. Msg. No. 341

Recommending that the Senate advise and consent to the nomination of the following:

EDUCATION COMMISSION OF THE STATES

G.M. No. 341 ANN R. BOTTICELLI, for a term to expire 6-30-2012

Upon review of the information provided, your Committee finds that Ann R. Botticelli currently serves as the Vice President of Community Relations and Communications at Kamehameha Schools and is being nominated for her second term on the Education Commission of the States. Ms. Botticelli is a graduate of Punahou School who earned a bachelor's degree in Journalism from Michigan State University. She has also previously served as a vice president of communications and as a reporter. Ms. Botticelli is

actively involved in her community, having served as a board member for the Mediation Center of the Pacific, the Institute for Human Services, Ho'okako'o Corporation, and the Hawaii Justice Foundation.

Testimony in support of the nominee was submitted by the Hawaii Association of Independent Schools, the Office of Hawaiian Affairs, and three individuals.

Your Committee questioned the nominee regarding her vision for the Education Commission of the States and ways to increase Hawaii's involvement and initiative in contributing to the national framework or forums on education. Your Committee believes that the nominee will properly serve Hawaii through a commitment to working together with other states to evaluate and establish education policy that is appropriate and effective in preparing our students for the future.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2924 Education on Gov. Msg. No. 349

Recommending that the Senate advise and consent to the nomination of the following:

WESTERN INTERSTATE COMMISSION FOR HIGHER EDUCATION (WICHE)

G.M. No. 349 ROY T. OGAWA, for a term to expire 6-30-2012

Upon review of the information provided, your Committee finds that Roy T. Ogawa is an attorney in private practice in the areas of construction and surety matters, business and real estate transactions, and civil litigation involving primarily business transactions, real estate, and construction. He is being nominated for membership for his second term on the Western Interstate Commission for Higher Education. Mr. Ogawa is a graduate of McKinley High School and holds a Bachelor of Arts degree in Mathematics and Sociology from the University of Hawaii and a Juris Doctor degree from Indiana University. He has previously served as a public defender and an arbitrator for the Court Annexed Arbitration Program. Mr. Ogawa has also served on the Board of Directors of the Building Industry Association, as a hearing committee member of the Office of Disciplinary Counsel, and in various capacities on the Western Interstate Commission for Higher Education.

Testimony in support of the nominee was submitted by Castle & Cooke Hawai'i and eight individuals.

Your Committee questioned the nominee regarding, among other things, his understanding of the role and responsibilities as a member of the Commission and what he hopes to accomplish during his term of service. The nominee demonstrated a strong understanding of the issues and concerns facing the State, as well as a commitment to promoting and advancing higher education efforts in the State and in the member states.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 2925 Economic Development and Taxation on H.B. No. 2909

The purpose of this measure is to appropriate funds for fiscal year 2008-2009 to assist the Fiftieth Anniversary of Statehood Commission in carrying out its duties and activities pursuant to Act 140, Session Laws of Hawaii 2007.

Testimony in support of this measure was received from the 50th Anniversary of Statehood Commission.

Your Committee finds that this measure will allow the Commission to continue the development and implementation of events in 2009, to celebrate and commemorate the anniversary of Hawaii's admission as a state.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2909, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2926 Economic Development and Taxation on H.B. No. 3037

The purpose of this measure is to appropriate out of the Stadium Special Fund of the State of Hawaii the sum of \$271,852, or so much thereof as may be necessary, for fiscal year 2007-2008 for the purpose of paying the Aloha Stadium's electricity, sewer, refuse, and insurance premium bills.

Testimony in support of this measure was received from the Department of Accounting and General Services.

Your Committee finds that this measure is necessary to cover budgetary shortfalls that resulted from increased electricity rates, additional sewer assessment fees, higher tipping and refuse disposal fees, and an insurance premium more than double the budgeted rate for Aloha Stadium.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3037, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2927 Economic Development and Taxation on H.B. No. 2473

The purpose of this measure is to appropriate funds for the Hawaii Broadband Task Force for fiscal year 2008-2009.

Testimony in support of this measure was received from the Department of Commerce and Consumer Affairs, the High Technology Development Corporation, and a member of the Hawaii Broadband Task Force.

Your Committee finds that the Task Force has submitted an interim report to the Legislature, as required by Act 2, Special Session Laws of Hawaii 2007, which outlines the vision for broadband in Hawaii and the work of the Task Force since it began meeting in October 2007. Your Committee further finds that in the coming year, the Task Force plans to collect the quantitative data on the availability of current services, which will be necessary to develop sound policy recommendations, as required by Act 2.

Your Committee has amended this measure by deleting its content and replacing the content with that of S.B. No. 2393, S.D. 1, previously heard in this Committee.

As amended, this measure:

- (1) Appropriates \$300,000 in fiscal year 2008-2009 to support the work of the Hawaii Broadband Task Force;
- (2) Clarifies that the expending agency shall be the Office of the Auditor; and
- (3) Takes effect on July 1, 2020.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2473, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2473, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2928 Health on H.B. No. 2137

The purpose of this measure is to offset the financial burden that organ donors may encounter by providing a one-time tax credit in an unspecified amount to help cover expenses related to organ donation.

Your Committee received testimony in support of this measure from the Organ Donor Center of Hawaii. The Department of Taxation submitted comments on this measure.

Your Committee finds that this measure will help to increase the availability of living organ donors. While the waitlist for transplantable organs continues to grow, there may be many potential donors wishing to help save the lives of their loved ones who are prevented from doing so because of the financial burden.

Your Committee received a revenue impact statement from the Department of Taxation in its comments, indicating a revenue loss of an estimated \$15,000 per year, assuming a \$1,000 cap per individual with an estimated fifteen individuals qualifying for the credit each year.

Your Committee adopted the recommendations of the Department of Taxation and has amended this measure by:

- (1) Including a lost wages stipend of one hundred dollars or less per day; provided that the lost wages are actual and not reimbursable or due to leave without pay;
- (2) Clarifying that the credit shall not be allowed for taxpayers who took a medical expense deduction; and
- (3) Deleting the language requiring compliance with all applicable, federal, state, and county statutes, rules, and regulations.

Your Committee further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2137, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2137, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 2929 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2256

The purpose of this measure is to specify that it is not an unfair method of competition or an unfair or deceptive act or practice for accident and health or sickness insurers with a market share of less than five per cent to enter into agreements that allow the insurer to refuse to issue or renew a policy for a person unless the person contracts for another class of insurance, or an additional policy of the same class of insurance.

Your Committees received testimony in support of this measure from Hawaii Medical Assurance Association. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, the Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association. State Farm Insurance Companies submitted comments on this measure.

Your Committees find that this measure is intended to help self-employed workers and small businesses by allowing broader coverage for less cost without affecting the Prepaid Health Care Act. However, your Committees further find that this measure needs to be limited in scope to ensure that it does not cause unintended consequences.

Accordingly, your Committees have amended this measure by deleting its language and inserting language that:

- (1) Allows small insurers with less than five per cent of the market share to offer different types of benefits in a single unified policy;
- (2) Clarifies that the exemption applies only to insurers that are mutual benefit societies pursuant to chapter 432, Hawaii Revised Statutes, with less than five per cent of the health insurance market share offering contracts for dental and vision insurance as a condition, agreement, or understanding to the new health insurance policy or renewal of a health insurance policy under chapter 432;
- (3) Makes a clarifying change to ensure that the foregoing small insurers are exempt from only the anti-bundling provisions of section 431:13-103, Hawaii Revised Statutes, i.e., section 431:13-103(a)(4)(B); and thus, all the other unfair methods of competition and unfair or deceptive acts or practices in the business of insurance set forth in section 431:13-103, continue to apply to these insurers; and
- (4) Changes the effective date to encourage further discussions on the measure.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2256, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2256, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Espero, Ihara, Menor).

SCRep. 2930 (Joint) Health and Human Services and Public Housing on H.B. No. 2758

The purpose of this measure is to ensure the continued strength of Hawaii's health care safety net by requiring the Department of Taxation to defer general excise tax collections for any private hospital located in a county with a population greater than 500,000 that has an annual patient population consisting of 60 per cent or more of uninsured, Medicaid, and Medicare patients.

Your Committees received testimony in support of this measure from Faith Action for Community Equity, Hawaii Building and Construction Trades Council, and one individual. Your Committees received testimony in opposition to this measure from one individual. The Department of Taxation submitted comments on this measure.

Your Committees find that hospitals in our State are in a severe financial crisis. Alternative, long-term financial solutions need to be explored in order to ensure the availability of quality health care services in Hawaii.

Your Committees further find that providing partial financial assistance to hospitals in the form of a loan guarantee program is a step, and by no means a solution, towards ensuring the survival of struggling hospitals. Your Committees also find that hospitals should explore the possibility of special purpose revenue bonds as an alternative funding source.

Accordingly, your Committees have amended this measure by deleting its language and inserting language that:

- (1) Establishes a Hospital Loan Guarantee Program, and a temporary Hospital Loan Guarantee Trust Fund;
- (2) Makes an appropriation out of the general fund for deposit into the temporary Hospital Loan Guarantee Trust Fund; and
- (3) Makes an appropriation out of the temporary Hospital Loan Guarantee Trust Fund as loan guarantees; and
- (4) Changes the effective date to encourage further discussions on this matter.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2758, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2758, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Baker). Noes, none. Excused, 3 (Hooser, Ihara, Menor).

SCRep. 2931 (Majority) Transportation and International Affairs on H.B. No. 2860

The purpose of this measure is to exempt common carriers from the general excise and use taxes for fuel sold from a foreign-trade zone to common carriers for use in interisland air transportation.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism; the Department of Taxation; The Chamber of Commerce of Hawaii; Aloha Airlines, Hawaiian Airlines; the Air Line Pilots Association; the International Association of Machinists and Aerospace Workers, the Transport Workers Union, and the Hawaii Chapter of the March of Dimes. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that currently, aviation fuel purchased in a foreign-trade zone is exempt from state taxation for those flights that are bound for an out-of-state or foreign destination. Because these flights are considered within interstate or foreign commerce, taxation is exempt pursuant to federal law. There is no corresponding exemption for interisland flights because these flights are not considered to be in foreign or interstate commerce for tax purposes by the Department of Taxation.

The language in this measure, including the clarification of "transportation between two points in the State" will resolve this discrepancy.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2034, to July 1, 2008; and
- (2) Making technical, nonsubstantive amendments to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2860, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2860, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Trimble). Excused, 3 (Espero, Hooser, Tsutsui).

SCRep. 2932 Human Services and Public Housing on H.B. No. 3059

The purpose of this measure is to reduce, from ten years to five, the period over which certain state low-income housing tax credits may be taken.

Testimony in support of this measure was submitted by the Department of Taxation, Hawaii Housing Finance and Development Corporation of the Department of Business, Economic Development and Tourism, Castle & Cooke Hawai'i, and the Hawaii Association of Realtors. Comments on the measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that one important method through which the State's affordable housing crisis may be alleviated is the creation of viable tax incentives to promote public-private partnerships to develop additional housing units. The reduction in the tax credit claim period accomplished by this measure will make the credit more attractive to investors and more useful to project partnerships because the return would be realized within a much shorter time frame.

Your Committee has amended this measure by replacing its contents with that of companion bill, S.B. No. 2981, S.D. 2.

The Hawaii Housing Finance and Development Corporation has expressed preference for this Senate companion measure because it clarifies that the state housing credit shall be one hundred per cent of the applicable percentage of the qualified basis of each building located in Hawaii; provided that the applicable percentage is calculated as provided in section 42(b) of the Internal Revenue Code.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3059, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3059, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2933 (Majority) Judiciary and Labor on H.B. No. 2456

The purpose of this measure is exclude from gross income, adjusted gross income, and taxable income, the value of health insurance and other direct or indirect benefits provided by an employer to an employee, in excess of what the employer provides or would provide to single employees, when such benefits are provided to the employee due to the employee's status as a reciprocal beneficiary or a domestic partner.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission and one individual. Comments were received from the Department of Taxation and Tax Foundation of Hawaii.

Currently, neither the State nor federal tax laws recognize reciprocal beneficiaries or domestic partners for income tax purposes. As a result, employer-provided health insurance for an employee's reciprocal beneficiary or domestic partner is treated as taxable income. This measure makes such benefits provided by an employer for an employee's reciprocal beneficiary or domestic partner excludable from state income tax law.

Your Committee finds that this measure extends to reciprocal beneficiaries and domestic partners the same income tax exclusion as provided to married couples for employer-provided health benefits.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2456, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 2934 Tourism and Government Operations on H.B. No. 2985

The purpose of this measure is to establish a hotel renovation tax credit.

Specifically, the measure establishes a fifteen per cent income tax credit for hotel renovation costs.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority, Hawai'i Hotel & Lodging Association, and Outrigger Hotels. Testimony in opposition was received from the Tourism Liaison and Unite Here! Local 5 Hawaii. Comments were received from Department of Taxation and Tax Foundation of Hawaii.

Your Committee notes that a similar hotel construction and remodeling tax credit was enacted by Act 195, Session Laws of Hawaii 2000, and was repealed by Act 9, Special Session Laws of Hawaii 2007, in accordance with a provision that did not extend the tax credit beyond December 31, 2005 (Act 10, Third Special Session 2001). The December 31, 2005 expiration date was an extension of the original December 31, 2002 expiration on the basis of the need to provide an economic stimulus from the ramifications of the events of 9/11 (Senate Committee Report No. 2, Committee on Ways and Means, Third Special Session of 2001).

Your Committee finds that the current economic condition of the State forebodes a downturn in construction. Therefore, your Committee believes that this measure would provide an incentive for hotels to undertake renovations and thereby stimulate the construction industry.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2985, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 1 (Tsutsui).

SCRep. 2935 Water and Land on H.B. No. 2518

The purpose of this measure is to provide a land conservation incentives tax credit to encourage the preservation and protection of land in the State.

Specifically, the measure establishes a Land Conservation Incentives Tax Credit to allow taxpayers to deduct:

- (1) Fifty per cent of the value of the interest on lands donated to the state or a county in perpetuity for conservation purposes; or
- (2) Fifty per cent of the amount invested in the management of lands for conservation purposes under a land protection agreement.

Testimony in support of this measure was submitted by the Trust for Public Land, Maui Land and Pineapple Company, Inc., Hawaii Agriculture Research Center, The Nature Conservancy, Windward Ahupuaa Alliance, and fifteen individuals. The Department of Agriculture and two individuals submitted testimony in support of the intent of this measure. The Tax Foundation of Hawaii submitted comments on this measure.

The Department of Land and Natural Resources testified that it supported the intent of this measure but preferred S.B. No. 2198, S.D. 2, over this measure.

This measure has been amended by replacing its content in its entirety with the content of S.B. No. 2198, S.D. 2, which includes a requirement that the designation of land as significant or important be made by a relevant state agency and that the taxpayer work with the state agency to identify opportunities for public access if appropriate and reasonable.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2518, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2518, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2936 Health on H.B. No. 2540

The purpose of this measure is to ensure the continuous availability of drinkable water in rural communities by authorizing income and general excise tax exemptions for 501(c)(12) companies that provide potable water.

Your Committee received testimony in support of this measure from Horwath Kam and Company, Napu'u Water, Inc., and eight individuals. The Department of Taxation and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that cooperatives that are organized under 26 U.S.C. 501(c)(12) that qualify for federal income tax exemptions should also qualify for state income and general excise tax exemptions because of the purpose for which the cooperative is being operated. Further investigation into the types of exemptions that similar organizations, such as the County Board of Water Supply, receive is in progress.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2540, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Menor).

SCRep. 2937 Agriculture and Hawaiian Affairs on H.B. No. 2739

The purpose of this measure is to support the growth of Hawaii's agriculture industry by amending the enterprise zones ("EZ") law to allow more farmers to qualify for EZ tax incentives.

Specifically, this measure:

- (1) Provides continued EZ eligibility for farmers whose businesses are damaged by force majeure events and extends the eligibility period for the loss;
- (2) Allows agricultural product processing businesses to qualify for EZ incentives;
- (3) Includes as full-time employees, leased or joint employees that allow the agriculture industry to address seasonal workforce needs;
- (4) Requires that, in order to be designated as a qualified business for purpose of EZ incentives, a business increase its average annual number of full-time employees within an EZ by ten per cent during the first year of operation and by fifteen per cent during the fourth through seventh year of operation;
- (5) Allows agricultural businesses to count retail sales of value-added products made from crops grown within the EZ, towards the minimum fifty per cent of gross receipts from business within the zone needed to qualify for EZ incentives; and
- (6) Provides that agricultural businesses shall not be exempt from the payment of general excise taxes on the gross proceeds of agricultural retail sales.

Testimony in support of this measure was submitted by the Hawaii Crop Improvement Association. Testimony in support of the intent of this measure was submitted by the Department of Agriculture, Department of Taxation, Department of Business, Economic Development and Tourism, Hawaii Farm Bureau Federation, Hawaii Agriculture Research Center, and Hawaii Aquaculture Association. The Tax Foundation of Hawaii submitted comments regarding this measure.

Your Committee finds that currently there are more than 5,500 farms in Hawaii, but as of 2006, only forty-four participated in the EZ program. In 2005, only twelve of these forty-four qualified for benefits. This measure would allow more farmers to participate in EZ benefits by adjusting EZ qualification criteria to recognize some of the unique weather and employment challenges that agricultural businesses face in Hawaii.

Your Committee has amended this measure by:

- (1) Amending the required qualifications for being designated as a qualified business for the purpose of EZ incentives;
- (2) Requiring that in order to be designated as a qualified business for purpose of EZ incentives, that a business increase its average annual number of full-time employees within an EZ by ten per cent during the first year of operation, or have an annual two per cent increase in gross sales of agricultural crops or products produced within the EZ;
- (3) Clarifying that agricultural businesses not engaged in genetically-engineered agricultural production shall not be exempt from the payment of general excise taxes on the gross proceeds of agricultural retail sales; and
- (4) By making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2739, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2739, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2938 Agriculture and Hawaiian Affairs on H.B. No. 2261

The purpose of this measure is to assist agriculture and aquaculture in Hawaii by:

- (1) Including farm sustainable projects in the existing agricultural loan program, and aquaculture sustainable projects in the existing aquaculture loan program;
- (2) Establishing specific permitted uses and eligibility requirements for these loans;
- (3) Restricting the loan amounts to \$1,500,000 or eighty-five per cent of the project cost, whichever amount is less; and
- (4) Limiting the term of the loan to forty years.

Testimony in support of this measure was submitted by the Department of Agriculture, Hawaii Farm Bureau Federation, Hawaii Aquaculture Association, Hamakua Springs Country Farms, Hawaiian Electric Company, Inc., and its subsidiary utilities, Maui Electric Company and Hawaii Electric Light Company, and Hawaii Crop Improvement Association.

Your Committee finds that this measure will assist agricultural and aquacultural operations to become more sustainable. As energy costs for farm and aquaculture operations continue to rise, this measure will allow these operations to finance projects which will generate energy to offset some of their costs. In addition, excess energy generated by these projects could be sold to utility companies which would provide supplemental income for the farming or aquaculture operation and reduce the State's reliance on fossil fuels.

This measure has been amended by:

- (1) Reducing the interest charged for class "H" loans from five per cent to three per cent; and
- (2) Making a technical nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2261, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2261, H.D. 2, S.D. 1, and be referred to the Committee on Energy and Environment.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2939 Human Services and Public Housing on H.B. No. 1984

The purpose of this measure is to prohibit the consumption of liquor on any public sidewalk or in the common area of a public housing project.

Testimony in support of this measure was submitted by twenty-five private citizens. Testimony in opposition to this measure was submitted by the Police Department of the City and County of Honolulu.

Your Committee finds that the public consumption of liquor on the sidewalks and common areas of public housing projects promotes attendant illicit activities including drug use and gang violence that terrorize residents and surrounding communities. A prohibition on public liquor consumption would promote the safety and welfare of public housing tenants and community residents.

Your Committee has amended this measure by:

- (1) Removing the time frame of 10:00 p.m. to 5:00 a.m. from the prohibition on liquor consumption in any common area of a public housing project; and

- (2) Changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1984, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1984, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2940 Human Services and Public Housing on H.B. No. 2238

The purpose of this measure is to require public housing projects and affordable housing funded by county or state funds to remain affordable in perpetuity.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs.

Your Committee finds that the availability of public housing helps to meet the critical affordable housing needs of families whose lower household incomes often do not see comparable increases as the cost of living in Hawaii continues to rise simultaneously. Your Committee further finds that requiring public housing to remain affordable in perpetuity is necessary to keep families in homes they can afford, free from a looming threat of homelessness.

Your Committee has amended this measure by:

- (1) Defining "affordable" as "available for households with incomes at or below one hundred forty per cent of the median family income"; and
- (2) Changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2238, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2238, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2941 Human Services and Public Housing on H.B. No. 2515

The purpose of this measure is to appropriate \$26,000,000 in general obligation bonds for the purpose of financing and finalizing the acquisition of a portion of the Kukui Gardens housing project to maintain a portion of that project as long-term affordable rental housing.

Testimony in support of this measure was submitted by the Hawaii Housing Finance and Development Corporation, the Office of Hawaiian Affairs, Faith in Action for Community Equity, and the Hawaii Family Forum.

Your Committee finds that this measure would be a positive resolution for the controversy surrounding Kukui Gardens, and that the preservation of 857 affordable housing units is essential to protect its residents, most of whom are elderly and on fixed incomes, against the threat of homelessness.

Your Committee has amended this measure by changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2515, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2515, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2942 Health on H.B. No. 2306

The purpose of this measure is to continue to ensure the provision of high-quality, low-cost health care services to members of the uniformed services and their families in Hawaii by clarifying that amounts received by a managed care support contractor of the TRICARE program as reimbursements of costs or advances made by the contractor are exempt from the Hawaii general excise tax.

Your Committee received testimony in support of this measure from Hawaii Medical Service Association and the TriWest Healthcare Alliance Inc. The Department of Taxation and Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that in order for this measure to accurately reflect the interpretation of taxes due, a retroactive effective date is necessary to ensure that contractors of the TRICARE program are not penalized.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to be retroactive to January 1, 2005, upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2306, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2306, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Menor).

SCRep. 2943 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 3196

The purpose of this measure is to continue to provide a revenue stream to the State Highway Fund by extending the sunset date of the rental motor vehicle surcharge tax at \$3 per day from August 31, 2008, to August 31, 2009.

The measure also requires the Department of Transportation to conduct a review and study of the financial requirements of the State Highway Fund and report its findings to the 2009 Legislature.

Testimony in support of this measure was submitted by the Department of Taxation; the Department of Transportation; Enterprise Rent-A-Car Company of Hawaii; Catrala-Hawaii; the Hertz Corporation in Hawaii; Dollar Rent-A-Car Hawaii; Thrifty Car Rental Hawaii; Avis Rent-A-Car Hawaii; Budget Rent-A-Car Hawaii; and Alamo Rent-A-Car Hawaii.

Under section 251-2, Hawaii Revised Statutes, a rental motor vehicle surcharge tax is levied and collected at a rate of \$3 per day, or any portion of a day that a rental motor vehicle is rented or leased for the period of September 1, 1999, to August 31, 2008. The rental motor vehicle surcharge tax collected by the Department of Taxation each month for deposit into the State Highway Fund under section 248-9, Hawaii Revised Statutes, is used to pay for the costs of operation, maintenance, improvements, and repair of the state highway system.

Thousands of visitors and residents rent motor vehicles each month, which generates additional funds for the Department of Transportation to operate and maintain the state highway system. Your Committee finds that while extending the sunset date of August 31, 2008, to August 31, 2009, will provide additional revenues to the State Highway Fund for one more year, it believes that repealing the sunset date and amending the daily surcharge tax will allow these additional revenues to continue on a permanent basis.

Accordingly, your Committee has amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 2501, S.D. 2, which:
 - (A) Repeals the \$2 a day rental motor vehicle surcharge;
 - (B) Repeals the \$3 a day rental motor vehicle surcharge sunset date of August 31, 2008; and
 - (C) Changes the \$3 a day rate to an unspecified amount;
- (2) Changing the effective date from taking effect upon its approval to July 1, 2050, to ensure further discussion on this matter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee notes that a study done in 2004 indicated that the national average of rental motor vehicle surcharge taxes is \$6 per day, and recognizes that this average may have risen since 2004. Your Committee believes that the appropriate rental motor vehicle surcharge tax rate merits further discussion by the Committee on Economic Development and Taxation and the Committee on Ways and Means.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to continue to provide additional revenues to the State Highway Fund.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3196, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3196, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 1 (Trimble). Excused, 1 (Taniguchi).

SCRep. 2944 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2248

The purpose of this measure is to streamline the taxation of insurers by recognizing that, for general excise tax purposes, a reciprocal insurer and its attorney-in-fact is a single entity that is not subject to double taxation under state law.

Specifically, this measure:

- (1) Ensures that a reciprocal insurer and its attorney-in-fact shall be considered as a single entity for general excise tax purposes;
- (2) Clarifies that the general excise tax exemption applies to insurers, and not insurance companies, authorized to do business under chapter 431, Hawaii Revised Statutes; and
- (3) Clarifies that the attorney-in-fact of a reciprocal insurer remains subject to all taxes imposed on entities doing business in the State, other than the general excise tax on its gross income as attorney-in-fact.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Department of Taxation, the Property Casualty Insurers Association of America, the Medical Insurance Exchange of California, and the Medical Underwriters of California.

A reciprocal or reciprocal insurer is recognized under chapter 431, Hawaii Revised Statutes, as an insurance company that provides insurance through unincorporated associations of individuals, partnerships, or corporations called "subscribers," and is directly owned by its policyholders. The reciprocal operates through an attorney-in-fact that is common to all subscribers, and as a result, the reciprocal and the attorney-in-fact are virtually indistinguishable.

Your Committee finds that a misinterpretation in the law exists regarding reciprocal insurers resulting in double taxation of reciprocal insurers and their attorneys-in-fact, who unlike their incorporated stock or mutual insurer counterparts, are not exempt from the general excise tax. The Insurance Division of the Department of Commerce and Consumer Affairs has recognized a reciprocal and

its attorney-in-fact as a single entity for regulatory purposes, but since the term “insurance company” is not defined in chapter 237, Hawaii Revised Statutes, relating to general excise taxation, or the Insurance Code under chapter 431, Hawaii Revised Statutes, the law has been interpreted to not apply to a reciprocal and its attorney-in-fact. As a result, the reciprocal and its attorney-in-fact have been singled out and subjected to double taxation, which ultimately affects the premium rates paid by subscribers who are private practice physicians in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date of this measure from July 1, 2020, to July 1, 2008; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that recognizing a reciprocal insurer and its attorney-in-fact as a single entity fulfills the intent of this measure, which is to streamline the taxation of insurers.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2248, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2248, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2945 Energy and Environment on H.B. No. 2922

The purpose of this measure is to reduce the license tax on diesel oil from two cents to one cent per gallon if the diesel oil is used in a power-generating facility.

Testimony in support of this measure was submitted by Kauai Island Utility Cooperative. Testimony in opposition to this measure was submitted by the Department of Transportation. Comments were submitted by the Director of Taxation and the Tax Foundation of Hawaii.

Act 209, Session Laws of Hawaii 2007, increased the rate of license tax imposed upon fuel distributors by section 243-4, Hawaii Revised Statutes, by an additional one cent per gallon of various types of fuel. Your Committee finds that in enacting Act 209, the Legislature did not intend the increased rate to apply to diesel oil sold or used for electrical power-generating facilities. Rather, your Committees believe that the intent of the Act was to tax transportation related fuels that did not contain alcohol and not diesel oil used in power-generating facilities.

The Director of Taxation has suggested to your Committee that the definition of “power-generating facilities” contained in section 243-1, Hawaii Revised Statutes, will be repealed on December 31, 2009. As such, a permanent definition of that term should be provided.

Your Committee has amended this measure by deleting the contents of this measure and replacing it with the contents of S.B. No. 2519, S.D. 1. The amended measure achieves identical goals of the original measure, but removes the definition of “power-generating facilities” contained in section 243-1, Hawaii Revised Statutes, from the provisions that will be repealed on December 31, 2009.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2922, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2922, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 2946 Energy and Environment on H.B. No. 2005

The purpose of this measure is to expand the renewable energy technologies tax credit to include solar electric energy systems.

Testimony in support of this measure was submitted by the Director of Business, Economic Development, and Tourism; a Hawaii County Councilmember; the Hawaii Energy Policy Forum; SunEdison Hawaii; Suntech Hawaii; Hawaii Solar Energy Association; The Vote Solar Initiative; Sopogy Inc.; and The Solar Alliance and the Hawaii PV Coalition. Testimony in opposition to this measure was submitted by the Director of Taxation. Comments were submitted by the Tax Foundation of Hawaii.

The Director of Taxation raised concerns with the way the measure defines the different types of solar energy systems. The Director suggests that it is preferable to define a technology based upon the type of renewable resource that enters a system, rather than by the type of energy that is created by the system. This would be consistent with existing law, which defines renewable energy technologies based upon the type of renewable resource that enters the system. Your Committee encourages discussion to continue in this regard as the measure moves forward to the Committee on Economic Development and Taxation.

Your Committee further finds that this measure will promote the use of renewable energy sources, and thus, support the lessening of Hawaii’s dependence on imported petroleum.

Accordingly, your Committee has amended this measure by changing the effective date to July 1, 2050, to ensure further discussion and consideration.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2005, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2005, H.D. 1, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 2947 Energy and Environment on H.B. No. 3444

The purpose of this measure is to provide additional funding for the energy initiatives to carry out Hawaii's long-term energy strategy through the environmental response and energy security tax and Energy Security Special Fund to secure a sustainable energy future for Hawaii.

Specifically, this measure:

- (1) Establishes the Energy Security Special Fund for the purpose of funding the energy program within the Department of Business, Economic Development, and Tourism; and
- (2) Expands the environment response tax to include an energy security tax to be paid by distributors of petroleum products on each barrel of petroleum product sold in the State.

Testimony in support of this measure was received from the Hawaii Energy Policy Forum, the Hawaii Solar Energy Association, Hawaii Renewable Energy Alliance, and the Sierra Club Hawai'i Chapter. The Department of Taxation submitted testimony in opposition. The Department of Business, Economic Development, and Tourism; the Department of Budget and Finance; the Department of Health; and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that establishing economical energy sources, promoting energy self-sufficiency, and providing energy security are critical elements of a long-term energy strategy for the State. Your Committee further finds that the federal funds that have helped support the State's energy program are diminishing and are expected to be exhausted within the next three to four years. Recent revenue projections for Hawaii indicate additional sources of revenue must be developed in order to continue funding the energy program, as the State's ability to make up the entire shortfall may be limited.

Your Committee has amended this measure by:

- (1) Allocating environmental response and energy security tax revenues collected from each barrel of petroleum product as follows:
 - (A) 5 cents per barrel to be deposited into the Environmental Response Revolving Fund;
 - (B) 12.5 cents per barrel to be deposited into the Energy Security Special Fund; and
 - (C) 2.5 cents per barrel to be deposited into the Energy Systems Development Special Fund; and
- (2) Making the effective date July 1, 2050, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3444, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3444, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 2948 Energy and Environment on H.B. No. 3064

The purpose of this measure is to make the renewable energy technologies tax credit refundable for taxpayers with adjusted gross incomes of \$20,000 or less or taxpayers whose taxable income is exclusively pension or state retirement income.

Testimony in support of this measure was submitted by the Director of Taxation; Director of Business, Economic Development, and Tourism; Hawaiian Electric Company, Inc., and its subsidiaries, Maui Electric Company and Hawaii Electric Light Company, Inc.; Sierra Club, Hawaii Chapter; Hawaii Solar Energy Association; and two private citizens. Comments were submitted by the Tax Foundation of Hawaii.

Your Committee finds that many retirees have little Hawaii taxable income because under current law, pension income, including social security, is not taxable. As a result, while persons in this situation may otherwise have the resources to invest in renewable resource technologies, they presently cannot take advantage of the tax credits offered. This measure will afford certain retirees and persons with low income who have no tax liability with a refundable incentive to install renewable resource technologies, thus enabling them to reduce monthly electricity costs and support efforts to protect the environment.

Your Committee has amended this measure by replacing its contents with the contents of S.B. No. 2986, S.D. 2, which is a similar measure. As amended, this measure specifies that the renewable energy technologies income tax credit is a nonrefundable tax credit, but allows an exception with respect to refunds for:

- (1) Taxpayers whose income is exempt from taxation under certain state and public retirement system laws or who have received compensation in the form of pension for past services; and
- (2) Taxpayers who have less than a certain amount of adjusted gross income.

With respect to taxpayers in the latter category, your Committee has left the amount of adjusted gross income unspecified and encourages further discussion in this regard as the measure moves forward to the Committee on Economic Development and Taxation.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3064, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3064, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 2949 (Joint) Energy and Environment and Agriculture and Hawaiian Affairs on H.B. No. 3410

The purpose of this measure is to provide various market stimulation incentives for the development of biodiesel.

Specifically, this measure:

- (1) Makes state agricultural lands available for biodiesel fuel crops;
- (2) Establishes a state biodiesel feedstock crop and biodiesel fuel purchasing program; and
- (3) Creates tax exemptions for oil seed crushing facilities and lands used for biodiesel feedstock crops.

Testimony in support of this measure was submitted by the Director of Taxation; Hawaiian Electric Company, Maui Electric Company, and Hawaii Electric Light Company; Enterprise Honolulu; BlueEarth Biofuels; and Pacific Biodiesel, Inc. Testimony in opposition to this measure was submitted by the Chairperson of the Board of Agriculture. Comments were submitted by the Chairperson of the Board of Land and Natural Resources; Tax Foundation of Hawaii; and Life of the Land.

Your Committees find that this measure will, by stimulating the biodiesel industry, be a viable means of minimizing Hawaii's dependency on foreign oil. Furthermore, this measure will help to create jobs and strengthen the State's economy by supporting local farmers and associated agricultural businesses that produce and process biodiesel crops.

The Chairperson of the Board of Agriculture testified that the Department of Agriculture (Department) lacks the funds and specialized personnel to purchase biodiesel feedstock, as required under the measure.

Pacific Biodiesel, Inc. and Enterprise Honolulu suggested to your Committees that language stipulating that an oil seed crushing facility cannot be integrated with a biodiesel production facility should be removed, because:

- (1) It may have the unintended effect of preventing independent producers that form cooperatives which grow both biocrops and produce biodiesel from benefiting from this measure; and
- (2) It would prevent biodiesel production facilities from being co-located with seed crushing facilities, even in situations where it may be advantageous to put these two types of facilities in the same location.

Accordingly, your Committees have amended this measure by:

- (1) Removing the requirement that the Department purchase biodiesel feedstock under the energy feedstock provision of the measure;
- (2) Amending the definition of oil seed crushing facility to remove the requirement that an oil seed crushing facility not be integrated with a biodiesel production facility; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committees further find that the Chairperson of the Board of Agriculture has raised concerns that the private sector is better positioned to assume the responsibilities proposed for the Department under the measure. Your Committees encourage the Department to engage in a dialogue with related entities in hope of resolving any concerns. Additionally, your Committees suggest that subsequent committees investigate the amount of funding and resources that the Department will require to fulfill its responsibilities under the measure.

Furthermore, your Committees recognize that the measure's focus on aiding local agricultural interests and requiring a state agency to purchase locally produced products may raise constitutional issues. Your Committees respectfully suggest that these issues be considered by subsequent committees.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3410, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3410, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 2 (Gabbard, Hee). Noes, none. Excused, 3 (English, Slom, Trimble).

SCRep. 2950 Human Services and Public Housing on H.B. No. 584

The purpose of this measure is to establish a long-term care tax credit to be applied to premium payments for long-term care insurance paid by individual taxpayers.

Testimony in support of this measure was submitted by the Department of Taxation, the American Council of Life Insurers, and the National Association of Insurance and Financial Advisors Hawaii. Comments on the measure were submitted by the University of Hawaii Public Policy Center and the Tax Foundation of Hawaii.

Your Committee finds that meeting the growing financial burden for long-term care is an urgent and complex issue facing federal and state governments, and that one potential way to reduce future costs borne by the State is to encourage individuals to purchase long-term care insurance policies. Your Committee further finds that such a strategy would unfetter funds from the government-funded Medicaid "safety-net" to serve those truly in need.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2008, and the measure's applicability to taxable years beginning after December 31, 2008; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 584, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 584, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2951 Human Services and Public Housing on H.B. No. 2778

The purpose of this measure is to create an incentive for small businesses to purchase long-term care insurance for their employees by providing a tax credit for the payment of their long-term care insurance premiums.

Testimony in support of this measure was submitted by the Department of Taxation and the National Association of Insurance and Financial Advisors Hawaii. Comments on the measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that this measure could provide a very worthwhile incentive to encourage employers to make long-term care insurance available for their employees, which would in turn reduce the future financial burden on the State for the costs of long-term care.

Your Committee notes that the Department of Taxation provided testimony identifying an issue relating to the applicability of the tax credit described by the measure to partnerships and other flow-through entities, and indicated that further comment would be submitted to the next Senate committees to hear this measure to address this particular issue.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2008, and the applicability to taxable years beginning after December 31, 2008; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2778, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2778, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2952 Human Services and Public Housing on H.B. No. 3008

The purpose of this measure is to provide a tax credit for qualified capital improvements made to federally qualified health centers.

Testimony in support of this measure was submitted by Hawai'i Primary Care Association, Kokua Kalihi Valley, the Waianae Coast Comprehensive Health Center, and the Waikiki Health Center. Comments on the measure were submitted by the Hawaii Tax Foundation. Comments on the measure were submitted by the Department of Taxation.

Your Committee finds that community health centers in Hawaii are critical safety net providers that face an increasingly high demand for free and discounted medical, dental, behavioral health, pharmaceutical and other services for low-income and underserved groups. In their attempts to meet greater community need, community health centers face the challenging prospects of expanding facilities, obtaining equipment, and upgrading technology systems. Your Committee further finds that community health centers are major economic engines in their respective communities, generating millions of dollars in economic activity, employing a substantial number of people, and providing training, career ladders, and civic leadership opportunities. In addition, your Committee wishes to note that this measure would stimulate nearly \$130,000,000 in capital improvements and expansion and would allow community health centers to increase their capacity by almost sixty per cent.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon its approval, and its applicability to taxable years beginning after December 31, 2008; and
- (2) Incorporating the comments made by the Waianae Coast Comprehensive Health Center to allow the tax credit described in the measure to be claimed by tax-exempt organizations.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3008, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3008, H.D. 2, S.D. 1, and be referred to the Committee on Economic Development and Taxation.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2953 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on H.B. No. 2797

The purpose of this measure is to appropriate funds for the design, planning, and construction of the Kaloko Housing Program in West Hawaii to provide housing and related support services for homeless families.

Testimony in support of this measure was submitted by Mayor of the County of Hawaii, the Hawai'i County Council, the County of Hawaii Office of Housing and Community Development, a Hawai'i County councilmember, County of Hawai'i Office of the Corporation Counsel, the Office of Hawaiian Affairs, Catholic Charities Hawai'i, Community Alliance Partners, Hawaii Family Forum, Partners in Care, Neighborhood Place of Puna, Robert Surber & Associates, Saint Michaels Church, St. Michael's Church Social Ministry Committee, and four private citizens. Comments on the measure were submitted by one private citizen.

Your Committees find that there is an urgent need for homeless and transitional housing on the island of Hawai'i due to the pending closure of its only existing homeless shelter. According to a 2007 study, the County of Hawai'i, with sixty-five per cent of the State's homeless population, is much more impacted by homelessness than any other county in the State, and drastically under-served. Your Committees further find that the Kaloko facility will provide housing, employment and educational opportunities for working homeless families to provide them with the tools necessary to become permanently self-sufficient.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2008; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2797, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2797, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 2954 Ways and Means on H.B. No. 3161

The purpose of this measure is to ensure that the Hawaii Health Systems Corporation has the appropriate funding to ensure the continued operation and provision of current levels of service at its facilities.

Specifically, this measure makes an emergency appropriation in the amount of \$25,000,000, \$11,000,000 of which is provisional for Maui Memorial Medical Center, to be used by the Hawaii Health Systems Corporation to pay accounts payable within forty-five days from the date of the invoice for Hawaii Health Systems Corporation's facilities.

Your Committee received testimony in support of this measure from Hawaii Government Employees Association, Maui Memorial Medical Center, the Hawaii County Council, Kona Community Hospital, Hilo Medical Center, the Hawaii Health Systems Corporation, the Kauai Regional Board of the Hawaii Health Systems Corporation, the Oahu Regional Board of the Hawaii Health Systems Corporation, the East Hawaii Regional Board of the Hawaii Health Systems Corporation, the Healthcare Association of Hawaii, Faith Action for Community Equity, and six individuals.

Your Committee finds that the Hawaii Health Systems Corporation is in a financial crisis and unable to pay many of its vendors within a reasonable time frame. Your Committee further finds that this emergency appropriation is necessary to ensure the protection of public health and the provision of essential health care services.

Your Committee has amended this measure by including a severability clause and by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3161, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3161, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 4 (Kim, Menor, Tokuda, Whalen).

SCRep. 2955 (Joint) Commerce, Consumer Protection and Affordable Housing and Human Services and Public Housing on H.B. No. 2514

The purpose of this measure is to assist in addressing the problems of and provide further opportunities in affordable housing in the State by extending the sunset date for the allocation of fifty per cent of the conveyance tax under section 247-7, Hawaii Revised Statutes, to the Rental Housing Trust Fund established under section 201H-202, Hawaii Revised Statutes, to an unspecified year.

Testimony in support of this measure was submitted by the Hawaii Housing Finance and Development Corporation; the Department of Taxation; the Department of Community Services, City and County of Honolulu; the Office of Hawaiian Affairs; the Hawaii Association of Realtors; the Hawaii Family Forum; Catholic Charities Hawai'i; and one private individual. The Tax Foundation of Hawaii submitted comments.

The Rental Housing Trust Fund provides equity gap financing for the construction or preservation of affordable rental housing projects throughout the State. Through the end of the 2007 calendar year, the Hawaii Housing Finance and Development Corporation has leveraged the Rental Housing Trust Fund to facilitate the development or preservation of 2,391 rental housing units in thirty-two projects statewide. Your Committees find that providing additional funds, including extending the allocation of fifty per cent of the conveyance tax into the Rental Housing Trust Fund, will aid in addressing the lack of affordable housing in the State.

Your Committees recognize that S.B. No. 3174, as amended, also extends the sunset date for the allocation of fifty per cent of the conveyance tax to the Rental Housing Trust Fund for five more years. Your Committees note that the Senate Committee on Ways and Means amended that measure to incorporate various affordable housing measures under S.B. No. 3174, S.D. 2 to include the following:

- (1) Extending the sunset date of the conveyance tax allocation to the Rental Housing Trust Fund to ensure continued funding and emphasis on providing rental housing to those in need;
- (2) Appropriating funds to assist developers in contracting for third party review and certification to expedite the processing and issuance of building permits for affordable housing projects;
- (3) Establishing a Self-help Housing Technical Assistance Trust Fund under the Hawaii Housing Finance and Development Corporation to provide funding for self-help housing projects; and

- (4) Increasing the Hula Mae multifamily revenue bond authorization from \$400,000,000 to \$500,000,000 to not only provide home financing for residents but to also finance the purchase of the Kukui Gardens Rental Housing Complex.

Your Committees encourage further discussion on these matters by the Committee on Economic Development and Taxation and the Committee on Ways and Means as this measure moves through the legislative process.

Your Committees believe that this measure fulfills its intent, which is to assist in addressing the problems of and provide further opportunities in affordable housing in the State.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2514, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Economic Development and Taxation.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Espero, Hooser, Taniguchi).

SCRep. 2956 (Joint/Majority) Commerce, Consumer Protection and Affordable Housing and Health on H.B. No. 2438

The purpose of this measure is to reduce the loss of life and damage to property caused by cigarette-related fires by requiring that only reduced ignition propensity cigarettes be sold in the State.

Specifically, this measure adds a new chapter to the Hawaii Revised Statutes that places the primary responsibility to administer and enforce fire safe cigarettes with the State Fire Council by:

- (1) Authorizing the State Fire Council to oversee, approve, and ensure that cigarettes intended for sale in Hawaii have been tested in accordance to an approved test method and meet performance standards;
- (2) Requiring cigarette manufacturers to submit to the State Fire Council a written certification attesting that each cigarette has been tested in accordance with an approved test method;
- (3) Requiring that all cigarettes intended for sale in Hawaii be certified with an approved marking;
- (4) Allowing the State Fire Council to adopt any rules necessary to implement and authorizing the Department of the Attorney General to enforce the new chapter; and
- (5) Setting forth civil penalties to be assessed against any individuals in violation of the new chapter.

Testimony in support of this measure was submitted by the Department of the Attorney General; the State Fire Council, Department of Labor and Industrial Relations; the Fire Department, County of Kauai; the Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO; the Coalition for a Tobacco-Free Hawaii; and the Retail Merchants of Hawaii.

In 2005, there were 82,400 smoking material fires in the United States that resulted in the deaths of 800 individuals and injured 1,660 individuals. Ninety-three per cent of the deaths and seventy-eight per cent of the injuries were in home fires. Furthermore, property losses from smoking material fires total millions of dollars each year. In Hawaii, 438 fires were caused by cigarettes and resulted in \$1,461,125 in property damage, ten injuries, and no loss of life between 2001 and 2006.

Currently, legislation requiring the sale of only reduced ignition propensity cigarettes has passed in twenty-two states with pending legislation in fifteen other states. Your Committees find that limiting cigarette sales in Hawaii to the sale of only reduced ignition propensity cigarettes will help reduce the number of fire incidents, financial loss, and injuries statewide.

Your Committees have amended this measure by:

- (1) Changing the recertification period for reduced ignition propensity cigarettes from three years to two years to coincide with the biennial state budget cycle;
- (2) Deleting the effective date of this measure and replacing it with September 30, 2010, to coincide the with effective date of a new cigarette tax rate and stamp; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to reduce the loss of life and damage to property caused by cigarette-related fires.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2438, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2438, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Baker). Noes, 1 (Whalen). Excused, 3 (Espero, Ihara, Menor).

SCRep. 2957 Economic Development and Taxation on H.B. No. 2611

The purpose of this measure is to establish standards and conditions for the receipt of funds appropriated to the State of Hawaii Museum of Monarchy History.

Testimony in support of this measure was received from The Friends of Iolani Palace.

Your Committee finds that Act 291, Session Laws of Hawaii 2007, designated the Friends of Iolani Palace as the State of Hawaii Museum of Monarchy History, and exempted the organization from the standards and conditions related to the receipt of funds contained in chapter 42F, Hawaii Revised Statutes.

Your Committee further finds that subsequently, the exemption has raised concerns among both legislators and the Governor, and this measure was introduced to address the issue by establishing standards and conditions that must be met in order to receive state funding. These standards and conditions are essentially identical to those that all non-profit organizations have to satisfy in order to receive grants-in-aid through chapter 42F, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2611, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2958 (Majority) Tourism and Government Operations on H.B. No. 2145

The purpose of this measure is to allow a claimant of unclaimed property in the custody of the State, if the claimant is unable to present the requested documentation of ownership of the unclaimed property, to assert ownership through a notarized affidavit signed under penalty of perjury that certain information is true.

Your Committee received testimony in opposition of this measure from the Department of Budget and Finance. Comments were received from the State Attorney General.

The intent of this measure is to facilitate the process for making valid claims on unclaimed property. The affidavit required under this measure contains information that otherwise would be difficult if not impossible to prove.

Your Committee has amended this measure on the recommendation of the Attorney General by specifying the statutory section number for the offense of perjury, and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2145, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2145, H.D. 1, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Trimble). Excused, 1 (Tsutsui).

SCRep. 2959 Water and Land on H.B. No. 3177

The purpose of this measure is to increase the maximum penalties for violations within the Conservation District under chapter 183C, Hawaii Revised Statutes, and authorize the Board of Land and Natural Resources to assess fines based on damages to any public lands or natural resources within the Conservation District and other factors deemed appropriate by the Board.

Testimony in support of this measure was submitted by the Sierra Club Hawai'i Chapter; Department of Land and Natural Resources; The Nature Conservancy of Hawai'i; Pahio Development, Inc.; and one individual.

Your Committee has amended this measure by:

- (1) Increasing the maximum per violation fine from \$10,000 to \$20,000;
- (2) Increasing the maximum additional fine from \$10,000 to \$20,000 for each day a violation persists after receipt of notice of the violation from the Department of Land and Natural Resources;
- (3) Amending the effective date to July 1, 2008; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3177, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3177, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2960 Water and Land on H.B. No. 2543

The purpose of this measure is to appropriate funds to plan, design, and construct a shooting range in West Hawaii on the island of Hawaii.

Testimony in support of this measure was submitted by the County Council of the County of Hawaii, Mayor of the County of Hawaii, Hawaii Rifle Association, and five individuals. The Department of Land and Natural Resources submitted testimony in support of the intent of this measure.

Your Committee finds that there are presently no shooting ranges in the area of West Hawaii. A shooting range would benefit the police, conservation officers, sheriffs, security guards, hunters, and others licensed to carry firearms who presently have no place to practice shooting and sighting in their firearms. The unauthorized and unsupervised shooting of firearms, and weapons that have not been properly sighted presents a danger to the health and welfare of the public.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2543, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 2961 (Joint) Human Services and Public Housing and Health on H.B. No. 2913

The purpose of this measure is to award a grant to the St. Francis Healthcare System to develop and implement the modified home care and community health demonstration project to provide necessary treatment for patients with chronic kidney and end-stage renal diseases who live in rural areas of the State.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, St. Francis Healthcare System of Hawaii, the National Kidney Foundation, and the Organ Donor Center of Hawaii.

Your Committees find that there is a great need for better, more efficient healthcare delivery to treat serious chronic ailments for patients who live in rural communities, and that fourteen per cent of Hawaii's population, or approximately 200,000 individuals, suffer from kidney disease, with those numbers increasing every year. Your Committees further find that the difficulties in obtaining proper treatment are borne not only by patient-sufferers, but also by their caregivers and families.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2008; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2913, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2913, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 2962 (Joint) Health and Human Services and Public Housing on H.B. No. 2795

The purpose of this measure is to ensure that the community health center system remains financially viable and stable in the face of the increasing needs of the population of uninsured and underinsured residents.

Specifically, this measure establishes a process that enables community health centers and rural health clinics to receive supplemental Medicaid payments and seek modifications to their scope of services. In addition, this measure appropriates funds to adequately pay federally qualified community health centers for services for the uninsured.

Your Committees received testimony in support of this measure from Hawaii Primary Care Association; Waianae Coast Comprehensive Health Center; Waimanalo Health Center; Kalihi-Palama Health Center; Waikiki Health Center; West Hawaii Community Health Center, Inc.; Hamakua Health Center, Inc.; Molokai Community Health Center; Kokua Kalihi Valley; and Bay Clinic, Inc. The Department of Health submitted comments on this measure.

Your Committees find that federally qualified health centers and rural health clinics are essential components of Hawaii's health care system. Two of the most important sources of operating revenues for these community health centers are the Med-QUEST program and subsidies for care for the uninsured. These revenue sources continue to provide inadequate funding and reimbursements that are more than a year overdue, causing the much needed community health centers to be financially unstable and putting the public's health at risk.

Your Committees amended this measure by:

- (1) Deleting its contents and inserting language that will make the State federally compliant with all established deadlines;
- (2) Inserting language that simplifies the process by which federally qualified health centers and rural health clinics receive supplemental Medicaid payments and authorizes the prospective payment system rates to be adjusted for changes in the scope of services furnished by participating federally qualified health centers and rural health clinics;
- (3) Inserting language that permits federally qualified health centers to bill for prenatal services;
- (4) Inserting an appropriation of an unspecified amount for the Department of Health to pay for direct medical services to the uninsured; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2795, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2795, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 2963 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2254

The purpose of this measure is to protect the general public from deceptive marketing practices by prohibiting the deceptive use of the name or trademark of a financial institution in marketing or solicitation practices.

Specifically, this measure:

- (1) Prohibits the deceptive use of the name or trademark of a financial institution or its affiliates or subsidiaries when marketing or soliciting existing or prospective customers if:

- (A) The marketing materials are used without the written permission of the financial institution; and
 - (B) The marketing materials are used in a manner that would lead a reasonable person to believe that the material or solicitation originated from the financial institution; and
- (2) Authorizes a civil penalty of up to \$10,000 for each violation.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Hawaii Credit Union League, the Mortgage Bankers Association of Hawaii, the Hawaii Financial Services Association, and the Hawaii Bankers Association.

With increasing frequency, out-of-state lenders are sending direct mail solicitations for refinance opportunities that prominently list the existing lender in a manner that the recipients are led to erroneously believe that their lenders are sending important notices. The solicitations contain phrases, such as "Time Sensitive Material" and "Payment Reduction Notice," that make the recipient more apt to read the material. Only after carefully reading the literature or calling the listed phone number is it apparent that this is a refinance solicitation from a different lender. Your Committee finds that prohibiting the deceptive use of the name or trademark of a financial institution or its affiliates or subsidiaries in marketing or solicitation practices without the consent of the financial institution, and establishing a civil penalty of \$10,000 per violation will serve to deter these deceptive practices.

Your Committee has amended this measure by changing the effective date of this measure from July 1, 2112 to effective upon its approval.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to protect the general public from deceptive marketing practices.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2254, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2254, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2964 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2255

The purpose of this measure is to conform the Insurance Code with model acts and regulations of the National Association of Insurance Commissioners (NAIC) by amending existing statutes relating to employee group life insurance policies and the replacement of life insurance policies and annuities.

Specifically, this measure amends chapter 431, article 10D, Hawaii Revised Statutes, by:

- (1) Allowing the premiums for an employee group life insurance policy to be paid by the employer, entirely by the insured employees, or partly by both the employer and the insured employees;
- (2) Deleting the requirement that at least seventy-five per cent of eligible employees elect participation in the employee group insurance policy;
- (3) Allowing employee group policies to cover less than ten employees at policy issuance by eliminating the ten employee requirement;
- (4) Amending the provision precluding individual selection by the employees, employer, or trustees of amounts of insurance under an employee group insurance policy by deleting "employees";
- (5) Allowing dependents of the insured employee to be insured up to the amount of coverage of the insured employee under an employee group insurance policy by eliminating the express policy limits against loss due to death of a dependent (other than the spouse); and
- (6) Adding the exercise of the term conversion privilege among corporate affiliates as an exclusion from the applicability of chapter 431, article 10D, Hawaii Revised Statutes, relating to the replacement of life insurance policies and annuities.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the National Association of Insurance and Financial Advisors Hawaii, and the American Council of Life Insurers.

Your Committee finds that adopting model acts and model regulations promotes uniformity of state insurance laws and eases regulatory compliance for insurers transacting business across various states. Adopting various provisions of the NAIC's Group Life Insurance Definition and Group Life Insurance Standard Provisions Model Act by amending chapter 431, article 10D, Hawaii Revised Statutes, will update the Insurance Code and provide greater uniformity with other states' insurance laws.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language from S.B. No. 3245, S.D. 1, which is substantively similar, except for technical differences;
- (2) Replacing the effective date of this measure from effective upon approval to July 1, 2050 to ensure further discussion on this matter by the Committee on Judiciary and Labor; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to conform the Insurance Code with model acts and regulations of the National Association of Insurance Commissioners.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2255, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2255, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2965 Economic Development and Taxation on H.B. No. 2228

The purpose of this measure is to appropriate funds for the Hawaii Community-Based Economic Development (CBED) Technical and Financial Assistance Program to provide loans and grants to qualifying community-based economic development organizations statewide.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism; the Office of Hawaiian Affairs; the Hawai'i Alliance for Community-Based Economic Development; the Hawaii Co-op of Organic Farmers; Empower Oahu; Kona Pacific Farmers Cooperative; and one individual.

Your Committee finds that this measure will provide the CBED program with greater flexibility, with the intent of improving the delivery of services, particularly loans.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2228, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2966 Economic Development and Taxation on H.B. No. 3243

The purpose of this measure is to appropriate funds to support the Honolulu Symphony and its programs.

Testimony in support of this measure was received from the Executive Director of the Honolulu Symphony and one of its board members; the ILWU Local 142; Tim Bostock Productions LLC; and twelve individuals, including musicians and music teachers. The Department of Accounting and General Services testified in opposition. The State Foundation on Culture and the Arts submitted comments.

Your Committee finds that Act 97, Session Laws of Hawaii 2006, and Act 156, Session Laws of Hawaii 2007, provided public support for the Honolulu Symphony by appropriating \$4,000,000 to the State of Hawaii Endowment Fund, from which the income and capital gains earned from that public investment are to be used by the Symphony; provided that the funds are matched by private funds or pledges. Your Committee has been informed that these funds have recently been transferred to the Endowment Fund.

Your Committee notes that resolution of the use of the state appropriation for the endowment corpus and matching pledge amounts has taken two years and three legislative sessions. It is also a period when the Honolulu Symphony has experienced devastating shortfalls in funding, and the loss of many fine musicians due to this financial uncertainty.

While your Committee is relieved that the endowment funds are in place, it will be at least a year before any significant interest will be accrued on the endowment, and available for expenditure by the Honolulu Symphony. Until that time, the Symphony must still struggle to meet the payroll obligations to its musicians and to provide fiscal support for its administration and programs, including marketing, communications, and youth education.

Your Committee is strongly supportive of this measure and has amended it by changing the effective date from July 1, 2020, to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3243, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3243, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2967 Economic Development and Taxation on H.B. No. 3348

The purpose of this measure is to appropriate funds for fiscal year 2008-2009 for the Hawai'i Preservation Fund endowment; provided that no moneys shall be released until the amount appropriated is matched by an equal amount of private contributions to the Hawai'i Preservation Fund endowment.

Testimony in support of this measure was received from Historic Hawai'i Foundation and a Board Member of the Foundation, the National Trust for Historic Preservation and two members of its Board of Advisors, the Hawai'i Capital Cultural District, and one individual. The Department of Land and Natural Resources submitted comments.

Your Committee finds that the Historic Hawai'i Foundation has been a statewide leader for historic preservation since 1974, working in association with the National Trust for Historic Preservation (NTHP). The NTHP is a nonprofit organization chartered by Congress, which currently administers a spend-down preservation fund for projects in Hawai'i. The Hawai'i Preservation Fund, established through a gift from the Historic Hawai'i Foundation in 1998, is anticipated to be depleted by the end of 2008, leaving Hawaii projects to compete for limited unrestricted national dollars.

Your Committee further finds that this measure will help establish a permanent Hawai'i Preservation Fund, with state funding to be leveraged by private contributions, including a lead gift of \$100,000 from a generous donor. Creating a perpetual endowment for the Hawai'i Preservation Fund will create a dedicated funding stream for preservation projects in the State, and provide a catalyst for preservation activities and the leveraging of additional investment from private sources.

Your Committee has amended this measure by replacing the unspecified appropriation with an appropriation of \$1.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3348, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3348, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Ige).

SCRep. 2968 (Joint) Economic Development and Taxation and Education on H.B. No. 3360

The purpose of this measure is to establish and appropriate funds for a task force to develop the Hawaii State Science and Technology Plan.

Testimony in support of the intent of this measure was received from the University of Hawai'i System, the High Technology Development Corporation, and the Hawaii Science & Technology Council.

Your Committee on Economic Development and Taxation previously heard and approved a similar measure, S.B. No. 2860, S.D. 1, which was subsequently approved by the Committee on Ways and Means as S.B. No. 2860, S.D. 2.

Your Committees have amended this measure to delete its content and replace it with the content of S.B. No. 2860, S.D. 2. As amended, this measure:

- (1) Establishes the Science and Technology Task Force in the University of Hawai'i and appropriates the moneys to the University;
- (2) Requires the President of the Senate and the Speaker of the House of Representatives to nominate eight members each for the eighteen-member Task Force, and to include in their nominations senior-level leaders representing traditional and emerging industries, professional services, and cultural and natural resource constituencies;
- (3) Requires that a preliminary Science and Technology Plan be submitted to the 2009 Legislature; and
- (4) Amends the findings and purpose section of this measure to reflect these changes.

Your Committees believe this amended measure will assist the University of Hawai'i in competing for \$15,000,000 over five years in funding from the National Science Foundation's Experimental Program to Stimulate Competitive Research (EPSCoR). As noted by the University, an essential part of EPSCoR's goal of enhancing the competitive position of a jurisdiction's research and research-based education in science and engineering is a well-designed statewide science and technology initiative or plan.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3360, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3360, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Chun Oakland, English, Hee, Ige, Taniguchi).

SCRep. 2969 Human Services and Public Housing on H.B. No. 524

The purpose of this measure is to establish that notice of permanent plan hearings shall be provided at least forty-eight hours prior to the hearing to a child in the custody of the Department of Human Services who is subject to a permanent plan and is at least fourteen years of age.

Testimony in support of this measure was submitted by the Department of Human Services and the Legal Aid Society of Hawai'i.

Your Committee finds that this measure seeks to protect the interests of foster children in child welfare proceedings, would engender better understanding of the overwhelming system into which foster children have been brought, and would promote more consistent court practices across the state circuits.

Your Committee has amended this measure by changing the effective date to "upon approval".

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 524, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 524, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2970 Human Services and Public Housing on H.B. No. 2897

The purpose of this measure is to establish a Department of Human Services three-year pilot project to conduct and expand statewide asset building classes to serve individuals with disabilities and the parents of children with a disability.

Testimony in support of this measure was submitted by the Department of Human Services, the State Council on Developmental Disabilities, and the Hawaii Disability Rights Center.

Your Committee finds that the unemployment rate among individuals with disabilities is extremely high, and assisting these individuals with accessing community resources and obtaining gainful employment will afford major benefits to both the individuals and the community.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2897, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2897, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 2971 Water and Land on H.B. No. 3173

The purpose of this measure is to minimize the damage done to natural resources of Hawaii and to prevent navigational hazards by authorizing the Department of Land and Natural Resources to remove a grounded vessel under its control by any means necessary if the vessel is in imminent danger of breaking up or when the owner cannot remove the grounded vessel in a reasonably safe manner within seventy-two hours.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources. The Ocean Tourism Coalition and two individuals testified in support of the intent of this measure and provided recommended amendments.

Your Committee expressed concern as to whether allowing the Department of Land and Natural Resources to use "any means necessary" to remove a grounded vessel under its control was an appropriate standard, or whether that standard was overly broad. Your Committee encourages further discussion in this regard as the measure moves on to the Committee on Judiciary and Labor.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3173, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Kokubun). Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 2972 (Majority) Education on H.B. No. 602

The purpose of this measure is to require that \$90,000,000 continue to be deposited into the state treasury in each fiscal year to the credit of the State Educational Facilities Improvement Special Fund for public school capital improvement needs.

Testimony in support of the measure was submitted by the Department of Education, the Hawaii State Teachers Association, Na Lei Na 'auao Native Hawaiian Charter School Alliance, and the Hawai'i Charter School Network. Testimony in opposition of the measure was submitted by the Department of Budget and Finance. Comments were received from the Tax Foundation of Hawaii.

Your Committee finds that, pursuant to Act 368, Session Laws of Hawaii 1989, the Legislature established the State Educational Facilities Improvement Special Fund to earmark tax revenues for school facilities improvements. Subsequently, in 1999, the original revenue deposit amount of \$90,000,000 was reduced to \$45,000,000, then reinstated to \$90,000,000 in 2006. The current \$90,000,000 deposit amount will again be reduced to \$45,000,000 on June 30, 2008. This measure ensures that \$90,000,000 continue to be deposited into the state treasury in each fiscal year to the credit of the State Educational Facilities Improvement Special Fund for public school capital improvement needs. Your Committee determines that the tremendous backlog of repair and maintenance projects, which continues to grow, plaguing public schools throughout State requires sustained revenue commitments to ensure the delivery of quality public education to students throughout the State. However, funding priorities of the State should not be unduly or unnecessarily hampered as a result of such funding.

Accordingly, your Committee has amended this measure by extending the repeal date of the law to continue to provide \$90,000,000 in tax revenues to the State Educational Facilities Improvement Special Fund for school facilities improvements until July 1, 2012.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 602, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 602, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 2973 Education on H.B. No. 2971

The purpose of this measure is to require the Department of Education to adopt specified recommendations of the Online Learning Task Force, established pursuant to Act 275, Session Laws of Hawaii 2007.

Testimony in support of the measure was submitted by the Department of Education and one individual.

Your Committee finds that, pursuant to Act 275, Session Laws of Hawaii, the Online Learning Task Force was established and prepared a report to the Legislature that includes a plan for the Department of Education to expand online learning opportunities for Hawaii students. Pursuant to the report, the Online Learning Task Force made several recommendations, including, among other things, establishing a task force to review the State's education policies, requirements, and oversight functions for congruency with the needs and potential of online learning, developing a mentoring and training program for online teachers, establishing an online training program to increase the number of highly qualified teachers, standardizing the procedure for granting credits for online coursework, emphasizing science, technology, engineering, and mathematics online courses, and establishing an online resource center for support and training.

This measure mandates the adoption of the Online Learning Task Force's recommendations for establishing the infrastructure for online learning in primary, secondary, and postsecondary public institutions throughout the State. Your Committee determines that adoption of these recommendations will help to support online learning, which is a rapidly growing field of education that is designed to meet the increasing demands of students, teachers, and parents.

Your Committee has amended this measure by:

- (1) Requiring assessment of the digital literacy of teachers, students, and other personnel to ensure maximum success of online learning programs;
- (2) Clarifying that schools operating as cyber academies, such as Myron B. Thompson Academy or other similar schools, continue their operations; and
- (3) Changing its effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2971, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2971, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 2974 Education on H.B. No. 2972

The purpose of this measure is to provide for timely construction, expansion, consolidation, and closure of underused public schools in Hawaii through an established process.

Specifically, this measure:

- (1) Establishes the Facilities Alignment Commission;
- (2) Establishes procedures for making recommendations for school alignment through the development of a school facilities plan;
- (3) Establishes school alignment selection criteria; and
- (4) Establishes procedures for hearings and final recommendations by the Facilities Alignment Commission.

Testimony in support of the measure was submitted by the Department of Budget and Finance, The Chamber of Commerce of Hawaii, the Hawaii Leeward Planning Conference, BIA-Hawaii, and the Land Use Research Foundation of Hawaii. Testimony in opposition of the measure was submitted by the Department of Education.

Your Committee finds that shifts in demographics within regions of the State necessitate the expansion or construction of schools in areas of rapid population growth. Conversely, other areas support facilities that are currently being underutilized due to movement away from urban centers into the suburbs and require consolidation or closure. Your Committee further finds that decisions regarding which schools or areas are affected should be carefully examined, taking into consideration the many interests involved and the potential impacts on the students, the community, the Department of Education, and the State.

Your Committee believes that the dynamic of the current demographic shifts requires a comprehensive approach to determining where and when public schools should be constructed, expanded, consolidated, or even closed. This measure establishes a Facilities Alignment Commission to develop appropriate criteria and make recommendations for areas for new school construction or school expansion, consolidation, or closure. The Facilities Alignment Commission's work can help to revitalize school facilities within the State by more efficiently and effectively utilizing public resources. However, further clarification is necessary to ensure the successful expansion, closure, or consolidation of schools, that funding is channeled to the appropriate needs, and that the Department of Education is tasked with manageable duties and responsibilities.

Accordingly, your Committee has amended this measure by:

- (1) Including as duties of the Facilities Alignment Commission:
 - (A) Exploring funding mechanism alternatives to ensure that funds derived from the consolidation or closure of schools are redirected back to benefit the affected school or schools or the Department of Education, as appropriate;
 - (B) Developing procedures or guidelines for executing memoranda of agreement or memoranda of understanding with the counties, other departments, or entities regarding property on which affected schools are located with regard to those properties disposition; and
 - (C) Developing procedures or guidelines, with the assistance of the Department of the Attorney General, regarding boilerplate language, terms, and conditions associated with the sale or lease of property on which affected schools are located;
- (2) Changing the deadline for submission of the school facilities plan by the Department of Education to December 31, 2008, and requiring only public schools in critical areas, including those in high-growth or steadily declining population areas, to be included in the school facilities plan; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2972, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2972, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 2975 Agriculture and Hawaiian Affairs on H.B. No. 3126

The purpose of this measure is to increase the loan ceiling for farm and ranch operations on Hawaiian home lands from \$50,000 to \$200,000.

Testimony in support of this measure was submitted by the Department of Hawaiian Home Lands. The Office of Hawaiian Affairs submitted testimony in support of the purpose and intent of this measure.

Your Committee finds that the existing loan ceiling of \$50,000 has not been adjusted since 1982. Your Committee further finds that in order to support and nurture viable farm and ranch operations on Hawaiian home lands, the loan ceiling of \$50,000 should be increased to \$200,000.

Your Committee has amended this measure by inserting the requested amendments into the most recent version of Section 215 of the Hawaiian Homes Commissions Act, 1920, as amended; and

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3126, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2976 Agriculture and Hawaiian Affairs on H.B. No. 2593

The purpose of this measure is to provide funding to pursue drought mitigation projects and measures in each county of the State.

Testimony in support of this measure was submitted by the County Council of the County of Maui, Hawaii Farm Bureau Federation, Hawaii Agriculture Research Center, Honolulu Board of Water Supply, and Hawaii Crop Improvement Association. Testimony in support of the intent of this measure was submitted by the Department of Agriculture. The Department of Land and Natural Resources Commission on Water Resource Management submitted testimony in opposition to this measure citing concern over its budgetary impact.

Your Committee finds that a viable agriculture industry requires a steady, reliable supply of water. However, drought conditions continue to adversely affect Hawaii's farms and ranches, hampering their ability to produce quality products on a consistent basis throughout the year.

Your Committee further finds that to address the harmful impacts of droughts, mitigation measures laid out in the Hawaii Drought Plan must be implemented. The goal of the Hawaii Drought Plan is to develop coordinated emergency response mechanisms while at the same time outlining steps toward mitigating the effects of future drought occurrences. The Hawaii Drought Plan provides clear policies and specifies response entities to implement immediate, short-term, and long-term response measures to mitigate the impact of droughts.

Your Committee also finds that in 2004, county drought committees were formed for each of the four counties in Hawaii. Each of the county drought committees developed a drought mitigation strategy for its respective county, with a focus on drought mitigation projects. These county drought mitigation strategies represent the local needs and concerns of each county and are incorporated by reference into the Hawaii Drought Plan.

Your Committee further finds that to adequately implement the Hawaii Drought Plan, sufficient funding for the counties is necessary to address the many challenges that our agriculture industry faces in preparing for droughts.

Accordingly, your Committee has amended this measure by requiring that the Department of Land and Natural Resources work with the drought committee of each county of the State so that at least one project is funded for each county. Your Committee also changed the effective date of the measure to upon approval.

Your Committee recommends that any future committee hearing this matter consider appropriating \$4,000,000 for the purposes of this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2593, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2593, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2977 Agriculture and Hawaiian Affairs on H.B. No. 2373

The purpose of this measure is to appropriate funds to install a full sprinkler system for the grassy area of the Mo'okini Heiau and the nearby Kamehameha birth site.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and Mo'okini Luakini, Inc., by Leimomi Mo'okini Lum, who is the Kahuna Nui of the Mo'okini Heiau. The Department of Land and Natural Resources submitted testimony in opposition to this measure citing budgetary implications.

Your Committee finds that the 1,500 year-old Mo'okini Heiau, located in the north Kohala area of the island of Hawaii, was once used by kings to pray and offer human sacrifices and is Hawaii's oldest, largest, and most sacred religious site and also a national historic landmark. The massive three-story stone temple, dedicated to Ku, the Hawaiian god of war, was erected in A.D. 480. Each stone is said to have been passed hand-to-hand from Pololu Valley, fourteen miles away, by 18,000 men who worked from sunset to sunrise. King Kamehameha is said to have been born nearby in 1758 and sought spiritual guidance at Mo'okini Heiau before embarking on his campaign to unite Hawaii.

Your Committee further finds that the installation of a full sprinkler system would provide healthy groundcover around Mo'okini Heiau and the nearby Kamehameha birth site. This groundcover would not only provide an area for groups to meet, but would also help control erosion problems caused by wind and rain, which could have a potential damaging effect to the sites.

Your Committee further notes that it has recommended the appropriation of \$180,000 for the purpose of this measure in the companion Senate measure which is S.B. No. 3135.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2373, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 2978 (Joint) Economic Development and Taxation and Tourism and Government Operations on H.B. No. 2259

The purpose of this measure is to appropriate funds to conduct feasibility studies for a spaceport and to pay for consultation and other expenses incurred in applying to the Federal Aviation Administration for a commercial space transportation license.

Testimony in support of this measure was received from a former Governor of the State of Hawaii; the Department of Business, Economic Development, and Tourism; the Department of Transportation; Enterprise Honolulu; Hawaii Island Economic Development Board; Space Frontier Foundation; Rocketplane Global, Inc.; and Zero Gravity Corporation.

Your Committees find that there are several companies that have approached the State to request permission to launch innovative "spaceplanes" from Hawaii as early as 2010. In order for these vehicles to launch and land from Hawaii's airports, the State must apply for and receive a commercial space transport license from the Federal Aviation Administration (FAA).

Your Committees understand that the appropriation in this measure is strictly a one-time request, and should the State receive a license from the FAA, the State will realize income far in excess of the appropriation.

Your Committees have amended this measure by changing the effective date from July 1, 2020, to July 1, 2008.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2259, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2259, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Ige, Tsutsui).

SCRep. 2979 Ways and Means on H.B. No. 3037

The purpose of this measure is to appropriate emergency funds for the Stadium Authority.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that this measure will address the Stadium Authority's budget shortfall for electricity, sewer, refuse, and insurance premium expenses incurred during fiscal year 2007-2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3037, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 4 (Kim, Menor, Tokuda, Whalen).

SCRep. 2980 Ways and Means on H.B. No. 3038

The purpose of this measure is to make an emergency appropriation to the Department of Accounting and General Services.

Specifically, the measure appropriates \$1,000,000 for fiscal year 2007-2008 to cover statewide budgetary shortfalls in electricity payments for facilities assigned to the Department of Accounting and General Services.

Testimony in support of the measure was received from the Department of Accounting and General Services.

Your Committee finds that world oil prices have soared from \$60 per barrel of crude oil at the start of the fiscal year to more than \$100 per barrel for the first time in history by February 2008. Your Committee further finds that pursuant to the requirements of article VII, section 9, of the state constitution, the Governor has requested immediate consideration and passage of this bill by the Legislature, citing an existing critical funding shortage. The measure will allow state agencies to continue to receive electricity, without interruption, and will avoid additional debt stemming from late payment interest charges.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3038, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Menor).

SCRep. 2981 Ways and Means on H.B. No. 2908

The purpose of this measure is to ensure agency accountability regarding audit recommendations made by the Office of the Auditor.

The Office of the Auditor submitted testimony in support of this measure.

The Office of the Auditor currently publishes an annual report that includes a section listing each recommendation from every audit of the previous year and any updates on the status of the recommendation that the Auditor may receive from an audited agency. The Auditor considers these agency updates when planning follow-up audits.

Your Committee finds that this measure would compel an agency to update the Auditor regarding the agency's progress in implementing a recommendation and require the agency to submit a written report to the Auditor, President of the Senate, and Speaker

of the House of Representatives explaining why an audit recommendation was not implemented. Your Committee further finds that this measure will encourage agencies to fully implement the Auditor's recommendations and provide the Legislature with greater oversight over the implementation of audit recommendations.

Upon further consideration, your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2908, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2908, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Menor).

SCRep. 2982 Ways and Means on H.B. No. 118

The purpose of this measure is to authorize the issuance of general obligation bonds to finance various state projects.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that this measure authorizes the financing of project appropriations that are funded by general obligation bonds or reimbursable general obligation bonds. Your Committee further finds that the bonds authorized under this measure will not cause the State's constitutional debt limit to be exceeded.

Your Committee has amended the measure by changing the effective date to July 1, 2020 to facilitate further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 118, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (Menor).

SCRep. 2983 (Joint) Economic Development and Taxation and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2712

The purpose of this measure is to appropriate funds to the City and County of Honolulu for the development of a data encryption system.

Testimony in support of this measure was received from the City and County of Honolulu.

Your Committees find that legislation to deter identity theft, which was passed by the 2006 and 2007 Legislature, represents important steps in ensuring against identity theft. The legislation also represents significant costs for the agencies involved. The City and County of Honolulu, for example, administers a number of state-wide and county-wide computer systems that contain considerable amounts of personal public information, including maintenance of the state and county-wide drivers licensing, motor vehicle registration, voter registration, and juvenile justice information systems.

Your Committees have amended this measure by deleting its content and replacing the content with that of S.B. No. 3145, S.D. 1.

As the two measures are similar in content, the amendments:

- (1) Clarify that the appropriation shall be for a grant-in-aid to the City and County of Honolulu; and
- (2) Make technical, nonsubstantive amendments for the purposes of style and clarity in internal references.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2712, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2712, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (English, Ige, Ihara).

SCRep. 2984 (Joint) Economic Development and Taxation and Agriculture and Hawaiian Affairs on H.B. No. 2955

The purpose of this measure is to establish an archaeological data survey as an online database program of the State of Hawaii Museum of Natural and Cultural History, and authorize the Museum, in consultation with the Office of Hawaiian Affairs and the State Historic Preservation Division, to withhold information from the database if a disclosure may pose a threat to a site or artifact.

Testimony in support of this measure was received from Bishop Museum and the Office of Hawaiian Affairs. The Department of Land and Natural Resources and the Society for Hawaiian Archaeology submitted comments and recommendations for amendments.

Your Committees previously heard and approved a similar measure, S.B. No. 2868, S.D. 1, which was subsequently approved by the Committee on Ways and Means as S.B. No. 2868, S.D. 2.

Your Committees have deleted the content of this measure and replaced it with the content of S.B. No. 2868, S.D. 2. As amended, this measure:

- (1) States that the online database is accessible to the public;
- (2) Clarifies that the information within the database may include the collections of the Bernice Pauahi Bishop Museum, publicly available materials, and materials from private entities or organizations, and that the database may include archaeological information including reports, photographs, drawings, maps, and archived documents; and

- (3) Adds language to specify that the database may also include compilations of collections information from public and private repositories, including a description of the materials and associated documentation in each collection, a listing of the owner or owners, a general assessment of the condition of the components, and other relevant information pertaining to each collection.

Your Committees support this measure and commend the proponents and other parties who have worked in a collaborative effort to resolve their differences and concerns in crafting this measure, as amended.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Agriculture and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2955, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2955, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 2 (English, Ige).

SCRep. 2985 Intergovernmental and Military Affairs on H.B. No. 2376

The purpose of this measure is to reduce the danger of wildfires throughout the State by appropriating funds to the State Fire Council to implement a statewide brushfire mitigation plan.

This measure also appropriates funds to establish four positions to implement a public education program on brushfire prevention and safety.

Your Committee received testimony in support of this measure from the Department of Defense, the State Fire Council, the Honolulu Fire Department, the Maui Fire and Public Safety Department, and the Kauai Fire Department. The Department of Land and Natural Resources supported the intent of this measure with additional comments.

Your Committee finds that large uncontrolled wildfires continue to plague the State, endanger lives and property, tax fire protection resources in our communities, and destroy the environment and irreplaceable plant and wildlife especially in the drier leeward areas.

Your Committee further finds that a statewide brushfire mitigation plan is needed to address the dangers of these wildfires in light of the current drier conditions affecting certain areas of the State. The brushfire mitigation plan includes the identification of private and public brushfire mitigation methods, the development of public brushfire prevention and safety programs, the staffing of positions, and the exploration of additional resources to mitigate the occurrence of these brushfires in this State.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2376, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2986 Intergovernmental and Military Affairs on H.B. No. 2207

The purpose of this measure is to make an appropriation of funds to assist the County of Hawaii with its earthquake recovery efforts.

Your Committee received testimony in support of this measure from the State Civil Defense and a Hawaii County councilmember.

The earthquake of October 2006 caused great damage in the County of Hawaii. Although the Legislature appropriated emergency funds in 2007, the County of Hawaii still requires additional state assistance to enable it to receive matching federal funds for its earthquake recovery efforts, including repairing damage to roads, culverts, bridges, water tanks, and the Waikoloa Reservoirs.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2207, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2987 Intergovernmental and Military Affairs on H.B. No. 2555

The purpose of this measure is to make an appropriation of funds for the operational expenses of the Hawaii Civil Air Patrol.

Your Committee received testimony in support of this measure from the State Civil Defense, the 66th Composite Squadron, Civil Air Patrol, the Hawaii Wing, Civil Air Patrol, the Lyman Field Composite Squadron, and nineteen individuals.

Your Committee finds that the Hawaii Civil Air Patrol is an important resource for state and county civil defense agencies during times of emergency. Since the early 1950s, the volunteers of the Patrol have provided tsunami warning and essential disaster relief services across the State.

Your Committee also finds that funding sources for the Hawaii Civil Air Patrol has declined over the years. For example, for fiscal years 1997 through 2003, no state funding was provided to the Patrol, and for fiscal years 2004 through 2007, funding levels were lower than that provided during the period from fiscal year 1982 until fiscal year 1997. Your Committee is also aware that the legislative appropriation of \$75,000 for fiscal year 2007 will be exhausted by March 31, 2008.

This measure provides needed funding to help ensure the continued provision of the vital services which the volunteers of the Hawaii Civil Air Patrol provide for the welfare and safety of the people of our State.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2555, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2988 Intergovernmental and Military Affairs on H.B. No. 2523

The purpose of this measure is to require the State Land Use Commission to consider the county general plan and all community development plans in its decision making on district boundary amendments.

Your Committee received testimony in support of this measure from the Department of Business Development and Tourism, the Hawaii Association of Realtors, and one individual. The University of Hawaii Environmental Center provided support with reservations.

Your Committee finds this measure will help to build better communities in our State by incorporating sound planning practices which will ensure that issues specific to each county are not overlooked when reviewing district boundary amendments.

Your Committee understands that the State Land Use Commission has adopted section 15-15-77(b)(4), Hawaii Administrative Rules, which requires the Land Use Commission to consider the general plan of the county when establishing the boundaries of the districts. Furthermore, the State Office of Planning also incorporates the county general plan and the community development plans in their review of petitions for district boundary changes. Therefore, this measure would serve to make the language in section 205-17, Hawaii Revised Statutes, consistent with the current operating practices of the State Land Use Commission and the State Office of Planning.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2523, and recommends that it pass Second Reading and be referred to the Committee on Water and Land.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 2989 (Majority) Education on H.B. No. 2045

The purpose of this measure is to establish a global youth center under the University of Hawaii to generate and link an international framework in which youth from around the world may become actively engaged in the attainment of world peace, environmental sustainability, and human and economic productivity for future generations.

Testimony in support of the measure was submitted by the University of Hawai'i System, East-West Center, The United Nations Association of the United States of America-Hawaii Division, West Hawai'i Explorations Academy, Reford-McCandless International, Ke Ea Hou, and seven individuals.

Your Committee finds that the world in which we live is increasingly developing into a global community. Issues facing our society today span countries and cultures and require global thinking that addresses the needs and concerns of numerous diverse political, religious, economic, and socioeconomic views. Your Committee further finds that to achieve world peace, encourage productivity, and attain sustainability for future generations, collaborative efforts must be made now to educate and prepare the youth of the world. This measure establishes the Global Youth Center in Hawaii to provide the framework for youth from around the world to become actively engaged in discussing issues related to and influencing the international community today. Your Committee determines that the Global Youth Center will provide Hawaii students, particularly public school students, opportunities to become more involved in international dialogue and interaction and greatly benefit the community at large.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2045, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 1 (Slom). Excused, 2 (Hee, Taniguchi).

SCRep. 2990 Education on H.B. No. 2245

The purpose of this measure is to authorize the transfer of all University of Hawaii funds, with the exception of general funds, into the University of Hawaii Commercial Enterprises Revolving Fund for the establishment of new enterprises.

Testimony in support of the measure was submitted by the University of Hawai'i System.

Your Committee finds that, pursuant to Act 193, Session Laws of Hawaii 2001, the University of Hawaii was authorized to transfer all funds at its disposal, except general funds, into the University of Hawaii Commercial Enterprises Revolving Fund. This authority has resulted in the University's ability to initiate successful endeavors, including the University of Hawaii Rainbowtique outlet that generates revenues through the sale of licensed university merchandise. However, under Act 193, this authority was revoked on June 30, 2004. This measure reinstates the University's authority to cull moneys under its control for establishing new commercial enterprises.

However, your Committee is concerned that tuition and fees special fund moneys, the use of which is often not readily associated with known or directly-related expenditures, would be included as a source of funding for the commercial enterprises revolving fund. Exclusion of these funds will still provide greater flexibility to the University to engage in activities that will generate additional revenues for the common benefit of the entire system.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the University of Hawaii has the authority to transfer all funds at its disposal, except general funds and tuition and fees special fund moneys, into the University of Hawaii Commercial Enterprises Revolving Fund for the establishment of new enterprises; provided that no more than ten per cent of the tuition and fees special fund moneys may be loaned to the revolving fund to finance new enterprises; and
- (2) Changing its effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2245, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2245, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Hee, Taniguchi).

SCRep. 2991 Education on H.B. No. 2163

The purpose of this measure is to require the University of Hawaii to preaudit only proposed payments of \$10,000 or more.

Testimony in support of the measure was submitted by the University of Hawai'i System.

Your Committee finds that the University of Hawaii is currently required to preaudit all proposed payments to determine the propriety of expenditures and compliance with applicable laws, executive orders, and rules as may be in effect. Contrarily, the Department of Accounting and General Services is not so required, but must only preaudit payments of \$10,000 or more. This measure limits the University of Hawaii's duty to preaudit payments to those totaling \$10,000 or more. Your Committee believes that the time and resources necessary for the University of Hawaii to fulfill its current duty is unduly taxing on the system and that this change will allow the University to more efficiently and effectively utilize its resources to focus on preaudits that may require increased examination.

Your Committee has amended this measure by including language to preserve changes made by this measure to section 40-1(b), Hawaii Revised Statutes, when that section is repealed and reenacted pursuant to Act 306, Session Laws of Hawaii 2006.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2163, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2163, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Hee, Taniguchi).

SCRep. 2992 Education on H.B. No. 3398

The purpose of this measure is to appropriate funds to the University of Hawai'i System to provide Philippine language and Filipino-American studies courses throughout the system.

Testimony in support of the measure was submitted by the Hawaii Interpreter Action Network; the National Federation of Filipino American Associations Region XII; the Filipino American Citizens League; the Filipino Coalition for Solidarity; the Oahu Filipino Community Council; the Philippine Nurses Association-Hawaii; the Congress of Visayan Organizations; Nursing Advocates & Mentors, Inc.; United Filipino Council of Hawaii; and ten individuals. Testimony in opposition of the measure was submitted by the University of Hawai'i System and one individual.

Your Committee finds that since their initial immigration, the Filipino community has grown and continues to be prevalent in Hawaii. However, despite their significant representation in the general population, including in our public schools, Filipinos are largely underrepresented in higher education, representing a small percentage of enrollment in the University of Hawai'i System and a small percentage of individuals possessing postsecondary degrees. Given their significance in Hawaii's demographic composition, the Filipino community must be supported to increase the representation of Filipino students and professionals trained in the Philippine languages and cultures who can work in the area of education, health, legal services, and commerce. This measure appropriates funds for the University of Hawai'i System to provide courses in the Philippine languages and cultures to help to increase academic interest and student success. Your Committee determines that increasing educational opportunities for higher education in the Philippine languages and cultures is necessary and appropriate to the University of Hawaii's mission and fulfilling the needs and responsibilities of the State.

Your Committee has amended this measure by:

- (1) Specifying the amount of \$250,000 to be appropriated to the University of Hawaii campuses as follows:
 - (A) \$50,000 for the University of Hawaii at Hilo;
 - (B) \$75,000 for Hawaii, Honolulu, Kauai, Kapiolani, Leeward, Maui, and Windward Community Colleges;
 - (C) \$50,000 for the University of Hawaii West Oahu; and
 - (D) \$75,000 for the University of Hawaii at Manoa; and
- (2) Changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3398, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3398, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2993 Education on H.B. No. 3226

The purpose of this measure is to make clarifying changes to the composition, duties, and activities of the Candidate Advisory Council for the Board of Regents of the University of Hawaii.

Specifically, this measure:

- (1) Requires the submission of candidates for the Board of Regents within sixty days following notification from the Governor of a vacancy due to resignation, death, or removal by the Governor;

- (2) Requires the Council to submit the names of candidates for the Board of Regents to the Governor;
- (3) Makes confidential information concerning potential candidates that is not of public record; provided that information relating to a candidate who is appointed by the Governor shall be disclosed;
- (4) Requires that candidates for the Board of Regents reside in the geographic areas that they represent;
- (5) Requires the Governor to notify the Candidate Advisory Council for the Board of Regents of vacancies on the Board in a timely manner; and
- (6) Authorizes an administrator position to be established to support the Candidate Advisory Council and provides for an appropriation from general funds to support Candidate Advisory Council operations.

Comments on this measure were submitted by the Regents Candidate Advisory Council.

Your Committee finds that, pursuant to Act 56, Session Laws of Hawaii 2007, the Candidate Advisory Council was established in response to the voters' desire to amend the nomination process for the Board of Regents of the University of Hawaii. Since the law's enactment, the Candidate Advisory Council has been convened and is currently in operation and attending to its responsibility to provide recommendations of candidates to the Governor for nomination to the Board of Regents. However, certain provisions relating to the existence and operations of the Candidate Advisory Council require modification in order to improve operations.

This measure addresses concerns raised by the Candidate Advisory Council, formulated as a result of its attempts to implement and comply with the law, which includes, among other things, ensuring the Council receives timely notification from the Governor when a vacancy occurs on the Board of Regents, ensuring the confidentiality of information regarding applicants, and providing the necessary support for the Council's operations. Your Committee determines that the provisions contained in this measure will assist the Candidate Advisory Council in dutifully executing its responsibilities.

Testimony provided raised concerns regarding what information received by the Candidate Advisory Council should remain confidential. Your Committee believes that certain information should be confidential and that individuals who eventually become members of the Board of Regents will also be subject to public disclosure requirements under the existing law that are applicable to all public officials and certain public employees.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Regents Candidate Advisory Council is required to submit candidates to the Governor within sixty days after written notification of a vacancy;
- (2) Clarifying what information received by the Regents Candidate Advisory Council shall be confidential;
- (3) Changing the effective date to July 1, 2008; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3226, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3226, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Hee, Taniguchi).

SCRep. 2994 Education on H.B. No. 2369

The purpose of this measure is to require funds deposited into the After-school Plus Program Revolving Fund to include only funds collected as fees or charges for participation in the program and interest earned on the revolving fund deposits.

This measure also:

- (1) Clarifies that the revolving fund is part of the state treasury; and
- (2) Clarifies that the After-school Plus Program funds shall be used to support the program.

Testimony in support of the measure was submitted by the Department of Education.

Your Committee finds that the After-school Plus Program of the Department of Education provides after-school child care and activities for eligible low-income and latchkey children. The Program is supported by the fees and charges and other moneys deposited into the Program Revolving Fund. Currently, the law provides for the deposit of general funds into the revolving fund; however, such deposits are problematic as they render the fund, essentially, not a true revolving fund. This measure requires that the revolving fund include only funds collected as fees or charges for participation in the program and interest earned on the revolving fund deposits. Your Committee finds that this measure will allow the revolving fund to satisfy the criteria for being a true revolving fund.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2369, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 2995 Education on H.B. No. 2614

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Island Pacific Academy in the planning and construction of its educational facilities.

Testimony in support of this measure was submitted by the Hawaii Association of Independent Schools and Island Pacific Academy.

Your Committee finds that pursuant to part VIII, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges, and universities that serve the general public. This measure will support the educational needs of the State's children by allowing Island Pacific Academy to construct an athletic and performing arts center at the school and eliminate current interest rate risk on the remaining portion of its original bank loan without relying entirely on the monetary contributions of the school's alumni, friends, and other supporters. Your Committee believes that the issuance of special purpose revenue bonds under this measure is in the public interest and for the public's general welfare.

Your Committee has amended this measure by:

- (1) Including language that authorizes the Department of Budget and Finance to combine into a single issue of special purpose revenue bonds, in one or more series, refunding special purpose revenue bonds; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2614, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2614, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 2996 Education on H.B. No. 2547

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Maui Preparatory Academy in the planning and construction of its educational facilities.

Testimony in support of this measure was submitted by the Hawaii Association of Independent Schools and Maui Preparatory Academy.

Your Committee finds that pursuant to part VIII, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist not-for-profit private nonsectarian and sectarian elementary schools, secondary schools, colleges, and universities that serve the general public. This measure will support the educational needs of the State's children by allowing Maui Preparatory Academy to improve its lower, middle, and upper school facilities to allow for expansion to a full pre-kindergarten to twelfth grade school without relying entirely on the monetary contributions of the school's alumni, friends, and other supporters. Your Committee believes that the issuance of special purpose revenue bonds under this measure is in the public interest and for the public's general welfare.

Your Committee has amended this measure by:

- (1) Including language that authorizes the Department of Budget and Finance to combine into a single issue of special purpose revenue bonds, in one or more series, refunding special purpose revenue bonds; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2547, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2547, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 2997 Health on H.B. No. 2366

The purpose of this measure is to help save the lives of individuals in need or organ transplants by establishing a statewide organ donor registry.

Your Committee received testimony in support of this measure from the Organ Donor Center of Hawaii; the Hawaii Coalition on Donation; the National Federation of Filipino American Associations; the Philippine Nurses Association; Nursing Advocates and Mentors, Inc.; the Filipino Coalition for Solidarity; the Filipino American Citizens League; AIM Healthcare Institute; the United Filipino Council of Hawaii; Case Management Professionals, Inc.; and three individuals. The Department of Health submitted comments on this measure.

Your Committee finds that the establishment of a statewide organ donor registry is imperative in meeting the needs of those waitlisted for organ donations. However, funding alternatives, such as federal matching funds or grants, should be pursued to ensure the registry will remain viable.

Your Committee has amended this measure by establishing the statewide organ donor registry in statute under the Department of Health and by providing that the department may contract for the establishment of the statewide organ donor registry.

Your Committee further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2366, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2366, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 2998 (Majority) Transportation and International Affairs on H.B. No. 3011

The purpose of this measure is to allow for greater flexibility in granting special motor vehicle registration under the State's administrative revocation law, by:

- (1) Reducing the requirement that the applicant be completely dependent on the motor vehicle for the necessities of life by deleting the word "completely"; and
- (2) Requiring the Administrative Director of the Courts to also consider the impact, including adverse effects on the respondent's household members, of refusing to grant the special motor vehicle registration.

Testimony in support of this measure was received from one individual. The Judiciary submitted comments.

Your Committee has heard that this measure would reduce the purposefully high objective standard, "completely dependent on the motor vehicle for the necessities of life," to an unspecified standard more akin to an inconvenience, particularly in families with multiple vehicles. In addition, the question was raised about the effect this change would have on the seriousness of the offense of operating a vehicle under the influence of an intoxicant.

Your Committee has considered these points, and has amended this measure accordingly, by restoring the word "completely" in section 291E-48(a)(3), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3011, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3011, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 1 (Trimble). Excused, 1 (Tsutsui).

SCRep. 2999 (Joint/Majority) Transportation and International Affairs and Judiciary and Labor on H.B. No. 3377

The purpose of this measure is to:

- (1) Require installation of an ignition interlock device on the vehicle of a person arrested for driving under the influence, which prevents the person from starting or operating a motor vehicle with more than a minimal alcohol concentration during the period that the person's case is pending and the person's license is revoked pursuant to chapter 291E, Hawaii Revised Statutes;
- (2) Amend various penalties and conditions related to licenses and operating a vehicle under the influence of an intoxicant;
- (3) Provide for certification of devices and vendors and funds installation of devices for the indigent with surcharges on offenders and fees on vendors; and
- (4) Establish the Hawaii Ignition Interlock Implementation Task Force (Task Force) to prepare for implementation and appropriate funds for the task force.

Testimony in support of this measure was received from the Department of the Prosecuting Attorney of the City and County of Honolulu, the Honolulu Police Department, the Mayor and the County Council of the County of Hawai'i, Anheuser-Busch Companies, the Alliance of Automobile Manufacturers, and Mothers Against Drunk Driving – Hawaii. The Judiciary, the Department of the Attorney General, the Department of Budget and Finance, the Department of Health, the Department of Transportation, and the Office of the Public Defender submitted comments.

Your Committees previously heard and amended a companion measure, S.B. No. 3234, S.D.1, which was further amended by the Committee on Ways and Means as S.B. No. 3234, S.D. 2. Your Committees have deleted the content of this measure and replaced it with the content of S.B. No. 3234, S.D. 2.

Specifically, the amendments:

- (1) Amend section 287-20(a), Hawaii Revised Statutes, to reference new sections in 291E-61, Hawaii Revised Statutes;
- (2) Replace the reference to section 321-161, Hawaii Revised Statutes, in the proposed new section 291E-A, Hawaii Revised Statutes, and in the proposed definition of "ignition interlock device" with a reference to the new section 291E-B that is proposed by this measure;
- (3) Add one additional new section, chapter 291E-B, Hawaii Revised Statutes, to establish standards for certification and monitoring of ignition interlock devices, to be administered by the Department of Transportation, and to confer rulemaking authority, pursuant to chapter 91, Hawaii Revised Statutes, on the Director of Transportation for the purposes of this section;
- (4) Delete section 11 of this measure, which amended section 321-161, Hawaii Revised Statutes, to establish standards for certification and monitoring of ignition interlock devices, administered by the Department of Health;
- (5) Correct a reference to the MADD member on the Task Force;
- (6) Clarify that the Task Force shall report to the Legislature on whether any conforming statutory amendments are necessary to make this measure and current law consistent with each other; and
- (7) Make technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees are aware that some of the amendments in this measure may have additional consequences, such as the amendments made to section 287-20(a) and to section 291E-41(f), Hawaii Revised Statutes, which would extend an exemption currently afforded only first offenders to all offenders. Your Committees understand there are also a number of amendments that may be necessary to conform existing law to the final form the ignition interlock device program will take when it becomes effective in

2010. However, the ignition interlock provisions of this measure are a collaborative effort to protect Hawaii's residents and visitors from the State's extremely high alcohol-related traffic fatality rate, which was fifty-two per cent in 2006 – the highest in the nation. Your Committees believe that, because of its broad membership, the Task Force is well-suited to address the need for further amendments as it works through the details of implementing the program in the next two years.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3377, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3377, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, 1 (Slom). Excused, 4 (Espero, Hooser, Kokubun, Tsutsui).

SCRep. 3000 Transportation and International Affairs on H.B. No. 3197

The purpose of this measure is to make an emergency appropriation for additional funds from the State Highway Fund to cover the rising costs needed to properly operate and maintain the state highway system for fiscal year 2007-2008.

Testimony in support of this measure was received from the Department of Transportation, the Hawaii Transportation Association, and the General Contractors Association of Hawaii.

Your Committee finds that during the 2007 legislative session, the Legislature increased the revenues deposited into the State Highway Fund by approximately \$21,200,000 for fiscal year 2007-2008, by extending the \$3 per day rental vehicle surcharge tax and increasing the fuel tax on gasoline and diesel oil by \$.01 per gallon. While the Legislature increased the revenues, the authority to expend moneys was not provided, and this measure will authorize the Department of Transportation to spend the appropriations to supplement their current maintenance levels.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3197, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3001 Transportation and International Affairs on H.B. No. 2437

The purpose of this measure is to require the Director of Transportation to:

- (1) Undertake a study to develop a comprehensive set of recommendations for improving traffic flow in the Central Oahu corridor;
- (2) Establish a task force composed of area residents, appropriate state and county land use and transportation officials, and area developers to provide advice and assistance to the Department as it conducts the study;
- (3) Submit the findings and recommendations to the Governor and the Legislature no later than December 31, 2008, including any necessary proposed legislation to implement the study's recommendations; and
- (4) Appropriate funds to the Department for the study.

Testimony in support of this measure was received from Neighborhood Board No. 25 and one individual. The Department of Transportation submitted testimony in opposition.

Your Committee finds that the projected growth of residential housing in Central Oahu will have further adverse impacts on transit corridors that are already heavily used by residents and visitors alike.

Your Committee understands that undertaking a study of this magnitude is projected to cost approximately \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2437, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 3 (Hooser, Inouye, Tsutsui).

SCRep. 3002 Transportation and International Affairs on H.B. No. 3249

The purpose of this measure is to prohibit parking of motor vehicles on bicycle lanes or bicycle paths, and to establish a fine of up to \$500 per violation.

Testimony in support of this measure was received from the Department of Transportation and one individual.

Your Committee finds that bikeways throughout the State are often located adjacent to heavily traveled roads and highways, and when bikeways are blocked by parked cars, safety for both bicyclists and drivers is compromised. This measure would improve traffic safety by ensuring that bikeways remain clear of parked vehicles.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3249, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3003 (Joint) Health and Human Services and Public Housing on H.B. No. 2881

The purpose of this measure is to continue the provision of perinatal services for women with histories of substance abuse by making permanent the perinatal clinic that was established pursuant to Act 248, Session Laws of Hawaii 2006.

Your Committees received testimony in support of this measure from Healthy Mothers Healthy Babies, Perinatal Addiction Treatment of Hawaii, The Drug Policy Forum of Hawaii, The Salvation Army, and one individual. The Department of Human Services and the University of Hawaii at Manoa submitted comments on this measure.

Your Committees find that since the Perinatal Addiction Treatment of Hawaii (PATH) clinic opened in 2007 it has served over sixty women and delivered sixteen healthy infants. Making this perinatal clinic permanent will enable the continuance of an important program that adequately addresses the needs of pregnant women suffering from substance abuse and ensure the delivery of healthy infants.

Your Committees have amended this measure by requiring the perinatal clinic to submit annual reports identifying the services that are being provided, the number of individuals that the services are being provided to, and the effectiveness of those services to the Legislature no later than twenty days prior to the convening of each regular session.

Your Committees further amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2881, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2881, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and the Majority Leader on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Sakamoto, Whalen).

SCRep. 3004 Judiciary and Labor on H.B. No. 1365

The purpose of this measure is to clarify that the Board of Trustees of both the State of Hawaii Deferred Compensation Plan and the State Deferred Compensation Retirement Plan for part-time, temporary, and seasonal or casual employees may select and offer participants investment products that are commonly offered in the securities industry or other deferred compensation plans and are determined to be reasonable, prudent investment products.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

This measure provides the Board of Trustees with sufficient authority to keep pace with the ever changing securities industry, and to select and offer the best investment products to participants of both plans. The securities industry has been changing constantly and new types of investment products are being created and offered to the public.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussion on this legislation, and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1365, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3005 Water and Land on H.B. No. 2907

The purpose of this measure is to make an appropriation to the Department of Land and Natural Resources for the control and abatement of the feral pig population, including the purchase of box traps, baits, and corrals.

Testimony in support of this measure was submitted by the Conservation Council for Hawai'i and Hawaii Audubon Society. The Department of Land and Natural Resources submitted testimony in support of the intent of this measure. One individual expressed concern over the lack of community participation in feral pig eradication programs.

Your Committee finds that recently, there has been an increase in the feral pig population in certain areas, especially in areas where public hunting is limited. The Department of Land and Natural Resources has responded by creating special hunts and opening new areas to allow public hunting to be used to assist the control efforts. Expanded use of trapping methods would increase the success of the program, particularly in urban areas where public hunting must be limited.

Your Committee further finds that while the Department of Land and Natural Resources has worked with the Oahu Pig Hunters Association and private land owners to control feral pig populations, the participation of interested groups promoting humane control methods has been limited. Your Committee strongly recommends that the Department of Land and Natural Resources meet with representatives of various interested parties to further develop its feral pig eradication program.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2907, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 3006 Water and Land on H.B. No. 3178

The purpose of this measure is to increase civil penalty fine amounts for violations of the State's natural resources laws committed on public lands and to clarify penalties for encroachment upon public lands.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, Pahio Development, Inc., The Hanalei Watershed Hui, and one individual.

Your Committee finds that in recent years, there has been an increase in the intentional violation of and blatant disregard for state natural resources laws. Consequently, the State has been under considerable strain in fulfilling its obligation to protect Hawaii's natural resources for the benefit of all of its residents and future generations, due to ineffective enforcement tools, limited resources, and a shortage of enforcement personnel. Existing civil penalties for most violations are nominal and do not appear to deter such behavior effectively.

Your Committee finds that increasing penalties for civil violations of the State's natural resources laws is an effective means for deterring unlawful behavior by imposing serious consequences for such violations.

Your Committee has amended this measure by doubling the proposed dollar amounts for fines increased therein.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3178, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3007 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2347

The purpose of this measure is to ensure that law enforcement efforts to crack down on metal theft are not hampered by what appears to be an ambiguity in the law by affirming that a scrap dealer can be punished for violations involving either being unlicensed or by failing to keep or falsifying records.

Testimony in support of this measure was submitted by the Department of the Attorney General; the Department of the Prosecuting Attorney, City and County of Honolulu; and the Honolulu Police Department, City and County of Honolulu.

Your Committee finds that in its current form, section 445-235, Hawaii Revised Statutes, can be construed to mean that a person must violate both, the licensing requirements under section 445-232, Hawaii Revised Statutes, and the documentation requirements under section 445-233, Hawaii Revised Statutes, before a penalty can be imposed. Legislative history indicates the necessity for documentation of sales to combat fencing of stolen goods, and the necessity of licensing to ensure appropriate regulation of persons who buy scrap metal. Thus, amending section 445-235, Hawaii Revised Statutes, will affirm the Legislature's intent that a scrap dealer can be punished for violations involving either being unlicensed or by failing to keep or falsifying records.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2347, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Sakamoto).

SCRep. 3008 Commerce, Consumer Protection and Affordable Housing on H.B. No. 3331

The purpose of this measure is to clarify dispute resolution procedures relating to the interpretation or enforcement of a condominium association's declaration, bylaws, house rules, and other management matters.

Specifically, this measure:

- (1) Specifies the dispute resolution parameters relating to the interpretation or enforcement of a condominium association's declaration, bylaws, house rules, and other management matters;
- (2) Requires the mediator to provide written notices to all parties of the request to mediate, the disposition of the mediation, and to specify the termination date;
- (3) Allows parties whose disputes are not resolved by mediation to file for arbitration no sooner than thirty days from the termination date of the mediation; and
- (4) Makes the option for an administrative hearing more widely available in order to resolve disputes.

Testimony in support of this measure was submitted by the Hawaii Council of Associations of Apartment Owners and the Hawaii Independent Condominium and Cooperative Owners. The Hawaii Chapter of the Community Associations Institute submitted testimony in opposition to this measure.

Your Committee finds that further clarity is needed regarding condominium dispute resolution under sections 514A-121.5 and 514B-161, Hawaii Revised Statutes. Amending both sections to specify the dispute resolution parameters relating to the interpretation or enforcement of a condominium association's declaration, bylaws, house rules, and other management matters will provide further clarity for condominium unit owners and association board members in order to resolve disputes. Your Committee recognizes that mediation can be a less expensive alternative in resolving disputes compared to arbitration, but is concerned that mediation may not always be the most effective method to achieve a resolution. Your Committee believes that more information is needed in order to determine whether mediation is a viable alternative.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the mediation service or mediator who provides mediation services to the parties in dispute to submit written notice to the Real Estate Commission upon being selected;
- (2) Requiring the mediation service or mediator who provides mediation services to the parties in dispute to submit written notice to the Real Estate Commission of the disposition of the mediation proceeding, including any failures to reach a disposition and the reasons for the failure;
- (3) Requiring the Real Estate Commission to submit a written report to the Legislature prior to the 2009 Regular Session regarding condominium disputes handled through mediation;
- (4) Changing the effective date from January 1, 2112, to effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3331, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3331, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Sakamoto).

SCRep. 3009 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2326

The purpose of this measure is to protect Hawaii consumers from property consultants who prey on homeowners facing foreclosure by requiring these consultants to provide homeowners with a written contract spelling out services and with the right to cancel at any time before the services are actually performed.

Specifically, this measure establishes a new chapter under title 26, Hawaii Revised Statutes, to set forth the Mortgage Rescue Fraud Act to:

- (1) Require mortgage rescuers to provide homeowners with a written contract that spells out the services the mortgage rescuer is expected to provide and allow the homeowner the right to cancel the contract at any time before the services are rendered; and
- (2) Limit the amount that the mortgage rescuer can make if the homeowner is successful in buying back the home to one hundred twenty-five per cent of the total debt on the home paid by the mortgage rescuer, and require that the mortgage rescuer provide the homeowner with at least eighty-two per cent of the value of their home if the homeowner is eventually unable to buy back the home from the mortgage rescuer.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Hawaii Association of Realtors, and the Legal Aid Society of Hawai'i.

Scammers called "mortgage rescuers" seek to take advantage of desperate homeowners trying to save their property from foreclosure by offering phantom help to homeowners, and taking a fee of a few thousand dollars for supposedly negotiating with the homeowners' creditors. After collecting the money, many mortgage rescuers do little or no work and essentially abandon the homeowners. In the most insidious cases, the mortgage rescuer will persuade families to deed their home to investors for a year to supposedly allow families time to clear up their credit and refinance the property, and then take back title free and clear. In many cases, the homeowners wind up becoming tenants and then being evicted from their own home. Your Committee finds that this measure addresses both forms of trickery by forcing the mortgage rescuers to provide homeowners with a written contract that spells out the services the mortgage rescuer is expected to provide and allowing the homeowner the right to cancel the contract at any time before the services are rendered.

Your Committee has amended this measure by:

- (1) Changing from five to fifteen days the period of rescission or cancellation, on the recommendation of the Hawaii Association of Realtors, to be consistent with section 508D-5, Hawaii Revised Statutes, relating to delivery of disclosure statements to the buyer;
- (2) Changing the period in which the distressed property purchaser may record the distressed property conveyance if the contract has not been cancelled, from ten to twenty days after execution; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills the intent of this measure, which is to protect Hawaii consumers from property consultants who prey on homeowners facing foreclosure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2326, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2326, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 3010 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2513

The purpose of this measure is to assist in addressing the problems of and provide further opportunities in affordable housing in the State by authorizing the issuance of an unspecified sum in general obligation bonds, the revenues from which are to be paid into the Dwelling Unit Revolving Fund for the Hawaii Housing Finance Development Corporation to use for housing development.

Testimony in support of this measure was submitted by the Hawaii Housing Finance and Development Corporation.

The lack of affordable housing is a crisis that continues to be a significant and challenging social problem in the State as the costs of home ownership and rentals are increasing. The prospect of making high mortgage payments and saving enough money for the down payment and closing costs needed to buy a home at current market prices is a formidable challenge for many families in the State. Your Committee finds that providing additional funds into the Dwelling Unit Revolving Fund will aid in addressing the lack of affordable housing in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2513, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 3011 Commerce, Consumer Protection and Affordable Housing on H.B. No. 3367

The purpose of this measure is to ensure that the Wireless Enhanced 911 Fund is administered properly and in an effective manner by requiring the Auditor to conduct a financial and management audit of the Wireless Enhanced 911 Fund.

Testimony in support of this measure was submitted by the Department of Accounting and General Services; and the Honolulu Police Department, City and County of Honolulu.

The Wireless Enhanced 911 Fund was established under section 138-3, Hawaii Revised Statutes, to ensure adequate recovery for the deployment of phase I and phase II wireless enhanced 911 services. Currently, wireless enhanced 911 services are available through all carriers on all islands, except for the island of Molokai, which has one wireless carrier remaining to be implemented. Your Committee finds that requiring the Auditor to conduct a financial and management audit of the Wireless Enhanced 911 Fund will ensure that the purposes and intent of establishing the fund are fulfilled.

Your Committee notes that the amount of funds required to implement phases I and II of the wireless enhanced 911 services is less than originally forecasted. Because certain wireless service providers have chosen not to seek reimbursement for wireless 911 deployment costs from the Wireless Enhanced 911 Fund, your Committee further finds that reducing the surcharge imposed on every commercial mobile radio service connection will reimburse the public. Your Committee further notes that the reduction in the surcharge amount will take into account the amount of funds needed to complete statewide deployment, operate, and maintain the wireless enhanced 911 systems, and allow for future enhancements to the system due to technological advancements.

Accordingly, your Committee has amended this measure by:

- (1) Inserting section 1 of S.B. No. 2958 S.D. 1, which amends section 138-4, Hawaii Revised Statute to decrease the surcharge tax assessed to customers from \$0.66 to \$0.43 per month for each commercial mobile radio service connection;
- (2) Adding language that requires the Auditor to determine whether the surcharge tax assessed to customers is sufficient to fund the Wireless Enhanced 911 Fund, and, if not, to recommend an appropriate surcharge tax amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills its intent, which is to ensure that the Wireless Enhanced 911 Fund is administered properly and in an effective manner.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3367, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3367, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Sakamoto).

SCRep. 3012 Human Services and Public Housing on H.B. No. 2761

The purpose of this measure is to extend post-partum and interconception care from eight weeks to six months for all women of childbearing age who participate in the Hawaii QUEST program.

Testimony in support of this measure was submitted by the American Physical Therapy Association Hawaii Chapter, the Hawai'i Primary Care Association, Healthy Mothers Healthy Babies, the March of Dimes Foundation Hawaii Chapter, and four private citizens. Testimony in opposition to this measure was submitted by the Hawaii Medical Association. Written comments on the measure were submitted by the Department of Human Services.

Your Committee finds that this measure would provide a cost-effective means to contribute to the overall improvement in health and access to healthcare for women and children in Hawaii. Your Committee further finds that this measure would help to reduce the instances of unintended pregnancies and poor birth outcomes, and ensure that new mothers have access to much needed pre- and post-partum support and services.

Your Committee notes that, in order to be eligible for Hawaii QUEST benefits, adults must not have countable family income that is more than one-hundred per cent of the current Federal Poverty Level, and pregnant women must not have a countable family income that is more than one-hundred-eighty-five per cent of the current Federal Poverty Level (with her unborn child(ren) included in her household size). Currently, interconception services are covered for women receiving QUEST benefits who are at or below one-hundred per cent of Federal Poverty Level. This measure is necessary to provide post-partum and interconception coverage for women who are QUEST beneficiaries whose countable family income is between one-hundred-one and one-hundred-eighty-five per cent of Federal Poverty Level.

Your Committee has amended this measure by:

- (1) Incorporating the comments made by the March of Dimes Foundation by removing the requirement that the Department of Health determine an age range for applicability for “women of childbearing age”, and removing from the coverage description for women “of childbearing age”; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2761, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2761, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3013 Human Services and Public Housing on H.B. No. 2770

The purpose of this measure is to expand the Bridge to Hope Program to enable all heads of households participating in the First-to-Work Program to pursue an approved course of study that is not strictly limited to vocational education.

Testimony in support of this measure was submitted by the Department of Human Services, the Office of Hawaiian Affairs, the University of Hawai'i System, the Hawaii Women's Coalition, Healthy Mothers Healthy Babies, Legal Aid Society of Hawai'i, and ten private citizens.

Your Committee finds that as poverty can affect a family for generations, so can success, and that the Bridge to Hope program is an important local model helping families transition from poverty to self-sufficiency through the attainment of higher education. However, recent changes to the Temporary Assistance for Needy Families (TANF) work requirements have significantly limited the higher education activities that would enable recipient families to remain TANF-eligible, and threaten the success of this program. This measure would ensure the on-going success of the Bridge to Hope program by allowing single and two-parent households in the First-to-Work Program to continue to be eligible for assistance while pursuing baccalaureate degrees in addition to vocational education.

Your Committee has amended this measure by:

- (1) Incorporating oral comments made by the University of Hawaii by inserting “but not limited to” so that a participant in the First-to-Work program may pursue “an approved course of study including, but not limited to, vocational education; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2770, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2770, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3014 Economic Development and Taxation on H.B. No. 3191

The purpose of this measure is to amend Hawaii's income tax laws to conform to changes in the federal Internal Revenue Code.

Testimony in support of this measure was submitted by the Department of Taxation. Comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that, to promote tax simplicity, it is a long recognized policy of the State to conform its own income tax definitions and determination of gross income to the income tax laws of the Internal Revenue Code. Conformity of the Hawaii income tax laws to the Internal Revenue Code assists the Department of Taxation to efficiently administer the reporting of gross income by Hawaii's taxpayers in an accurate manner.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in an annual revenue loss to the State of approximately \$506,000. Their methodology is as follows:

The Mortgage Forgiveness Debt Relief Act of 2007 would be responsible for \$473,000 of the annual losses and The Small Business and Work Opportunity Tax Act of 2007 would be responsible for \$33,000 of the annual losses. The revenue impact resulted from a revenue estimate developed by Congress' Joint Committee on Taxation that was adjusted three times to get a revenue impact on the State of Hawaii. The first adjustment reflected Hawaii's economy being equal to one-half of one per cent of the U.S. Gross Domestic Product. The second adjustment accounted for the difference between the federal and Hawaii effective tax rates. It assumed the Hawaii effective tax rate as being equal to twenty-five per cent of the federal individual income tax rate and eighteen per cent of the federal corporate tax rate. The third adjustment accounted for the difference in fiscal years. The federal fiscal year ends on September 30th, while the Hawaii fiscal year ends on June 30th. This revenue impact was based upon annual tax rates that are estimated for fiscal year 2008.

Your Committee has amended this measure by:

- (1) Changing the maximum deduction under section 179 (with respect to the election to expense certain depreciable business assets) of the Internal Revenue Code to apply to taxable years beginning after 2007;
- (2) Adding and amending section 235-2.5(a)(3), Hawaii Revised Statutes, to include prospective provisions for federal public laws that amend sections of the Internal Revenue Code;
- (3) Deleting the reference to Congressional Acts in the Internal Revenue Code being operative for Hawaii Income tax purposes in the effective date section of this measure; and

- (4) Making a technical, nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3191, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3191, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (English, Ige).

SCRep. 3015 Human Services and Public Housing on H.B. No. 2735

The purpose of this measure is to appropriate funds for the contract hiring of at least three full-time security guards, police officers, or public safety officers with police powers at Mayor Wright Homes public housing complex, and to require a report to the Legislature on the progress of security improvements at Mayor Wright Homes.

Testimony in support of this measure was submitted by one private citizen. Testimony in opposition to this measure was submitted by one private citizen.

Your Committee finds that the residents of public housing projects have valid security concerns and that more must be done to ensure that the Hawaii Public Housing Authority is placing the highest possible priority on their safety and welfare.

Your Committee has amended this measure by:

- (1) Removing the specific number of security positions;
- (2) Changing the focus of the measure from Mayor Wright Homes to public housing projects generally;
- (3) Changing the description of the security positions to "security guards and state or county law enforcement officers"; and
- (4) Changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2735, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2735, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3016 (Joint) Human Services and Public Housing and Health on H.B. No. 2576

The purpose of this measure is to appropriate funds for community-based dental health clinics of the Hawaii Health Systems Corporation to provide dental services to kupuna, keiki, the developmentally disabled, and the uninsured.

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities and the Hawai'i Primary Care Association. Comments on the measure were submitted by the Department of Human Services and Hawaii Health Systems Corporation. Oral comments on the measure were given by the Department of the Attorney General.

Your Committees find that dental care is one of the major health concerns for individuals with developmental disabilities who too often do not access dental care services in an appropriate and timely manner. Your Committees further find that there is a great need to subsidize uncompensated operating room costs for anesthesia and surgical procedures for children and adults with developmental disabilities who are patients of Hawaii Health Systems Corporation pediatric dental residency programs, particularly in underserved communities on the neighbor islands.

Your Committees wish to note that the Hawai'i Primary Care Association has indicated that an appropriation amount of \$150,000 would be appropriate, and used to pay for statewide operating room costs that exceed Medicaid payment allowances.

Your Committees have amended this measure by:

- (1) Addressing several of the testifiers concerns regarding the specified expending agency by changing it from the Department of Human Services to the Hawaii Health Systems Corporation; and
- (2) Changing the effective date to July 1, 2008.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2576, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2576, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and the Chair on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Menor, Hemmings, Whalen).

SCRep. 3017 (Joint/Majority) Human Services and Public Housing and Judiciary and Labor on H.B. No. 2272

The purpose of this measure is to extend civil service exemptions under section 76-77, Hawaii Revised Statutes, to positions or contracts for custodial and grounds maintenance services with qualified community rehabilitation programs, lasting no longer than a year, and at a cost of no more than \$1,000,000.

Testimony in support of this measure was submitted by Ka Lima O Maui. Testimony in opposition to this measure was submitted by the Hawaii Government Employees Association and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committees find that contracts made by qualified community rehabilitation programs for custodial and grounds maintenance services have successfully enabled many of the State's most severely disabled workers to become independent and self-supporting members of the community.

Your Committees note that it is not the intent of this measure for qualified community rehabilitation programs to expand their contracts for custodial and grounds maintenance services, but to exempt their contracts already in existence.

Your Committees have amended this measure by replacing its contents with that of S.B. No. 2435, S.D. 2. As amended, this measure:

- (1) Eliminates the existing exemption related to contracts for personal services with private persons or entities for services lasting no longer than one year and which cost less than \$750,000, in favor of a new exemption for contracts for personal services with qualified community rehabilitation programs for custodial and grounds maintenance services lasting no longer than a year, and costing no more than \$1,000,000; and
- (2) Requires the Department of Human Resources Development to report annually to the Legislature on the expenditures of qualified community rehabilitation programs and related activities.

Your Committees also have amended the effective date of the measure to July 1, 2050.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2272, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2272, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and the Chair on behalf of the Committees. Ayes, 8. Noes, 1 (Hee). Excused, 2 (Hooser, Nishihara).

SCRep. 3018 Human Services and Public Housing on H.B. No. 2346

The purpose of this measure is to amend the penal law concerning the offense of endangering the welfare of a minor.

Specifically, this measure would expand the crime of endangering the welfare of a minor in the first degree, which is a class C felony, to include Schedule I, II, and III controlled substances. The measure would also expand the misdemeanor offense of endangering the welfare of a minor in the second degree to include Schedule I and II controlled substances.

Testimony in support of this measure was submitted by the Department of Public Safety and the Department of the Prosecuting Attorney of the City and County of Honolulu. Testimony in opposition to this measure was submitted by Community Alliance on Prisons and the Drug Policy Forum of Hawai'i. Written comments on the measure were submitted by the Office of the Public Defender.

Your Committee finds that this measure would create greater protection for the health and safety of the children of Hawaii, and is necessary because of the high risk of injury ingestion of Schedule I, II, and III controlled substances can cause. As suggested by the Department of Public Safety and the Department of the Prosecuting Attorney, your Committee further finds that Schedule IV drugs should be added to the lists of both offenses because of these substances' commonality and high instance of abuse in the community.

Your Committee notes that, as suggested by the Department of Public Safety, adding Schedule III and IV controlled substances to the offense of endangering the welfare of a minor in the second degree generally should not apply to mothers who breastfeed and unwittingly introduce Schedule I, II, III, or IV controlled substances into their babies' systems because this offense requires a "reckless" state of mind which requires an individual to demonstrate a conscious disregard for substantial and unjustifiable risk in the course of their conduct.

Accordingly, your Committee has amended this measure by:

- (1) Incorporating the comments of the Department of Public Safety by adding Schedule IV controlled substances to the description of endangering the welfare of a minor in the first degree, and by adding Schedule III and IV controlled substances to the description of endangering the welfare of a minor in the second degree; and
- (2) By changing the effective date to "upon approval".

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2346, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2346, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3019 (Joint) Human Services and Public Housing and Health on H.B. No. 2412

The purpose of this measure is to meet rising health care costs and ensure that Hawaii's residents have continued access to quality health care by appropriating funds for the State's portion of the federal disproportionate share hospital allowance.

Testimony in support of this measure was submitted by the Department of Human Services, the Hawai'i Business Roundtable, Hawaii Health Systems Corporation, the Healthcare Association of Hawaii, and Kaiser Permanente.

Your Committees find that this measure would provide an opportunity to qualify for approximately \$7,000,000 of federal funds to support health care for Hawaii's most vulnerable residents, and that the status quo of inadequate federal reimbursement is unsustainable and puts quality healthcare for these individuals and families at risk. Your Committees further find that inadequate

reimbursement must be addressed, as it is a major factor in physician attrition and reduced patient access to specialty care, and it impacts the quality of care that is available to all, not just the very poor.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$5,774,340; and
- (2) Changing the effective date to July 1, 2008.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2412, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2412, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Ihara, Menor, Hemmings, Whalen).

SCRep. 3020 Human Services and Public Housing on H.B. No. 3352

The purpose of this measure is to require the Auditor to perform a financial and management audit of the Hawaii Disability Rights Center.

Testimony in support of this measure was submitted by five private citizens. Testimony in opposition to this measure was submitted by the Hawaii Disability Rights Center. Comments on the measure were submitted by the State Council on Developmental Disabilities.

Your Committee finds that it is important that agencies expending state funds be subject to review by the State, and that an audit of the Hawaii Disability Rights Center would ensure that the Protection and Advocacy System's use of public funds is appropriate, efficient, and in conformance with the expectations of the Legislature.

Your Committee has amended this measure by replacing its contents with that of S.B. No. 2758, S.D. 1. Where the current measure called for a financial and management audit of the Hawaii Disability Rights Center within the Hawaii session laws, the measure as amended by your Committee made would amend section 23-5, Hawaii Revised Statutes, to establish in statute the power of the Auditor to examine and inspect all accounts, books, records, files, papers, documents, and all financial affairs of the Hawaii Disability Rights Center, and to require the Auditor to conduct a management audit of the Hawaii Disability Rights Center at least every seven years.

Your Committee also changed the effective date of the measure to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3352, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3352, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3021 Human Services and Public Housing on H.B. No. 523

The purpose of this measure is to:

- (1) Establish guiding principles by which the Department of Human Services shall abide with respect to foster children; and
- (2) Authorize the family court to issue necessary orders, sua sponte or on motion of a guardian ad litem, to ensure adherence to these guiding principles.

Testimony in support of this measure was submitted by the Department of Human Services, Hawaii Youth Services Network, and the Legal Aid Society of Hawai'i. Written testimony commenting on the measure was submitted by the Judiciary.

Your Committee finds that this measure would give youth a voice and the ability to participate in significant decisions impacting their own lives in court hearings, meetings with their case workers, and transitional planning conferences. Your Committee further finds that this measure would promote the stability of foster placements, assist foster children in understanding the protections available to them when they enter foster custody, and help to improve the overall quality of life for foster children.

Your Committee has amended this measure by changing the effective date to "upon approval".

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 523, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 523, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3022 Human Services and Public Housing on H.B. No. 3400

The purpose of this measure is to require the Department of Human Services to amend its administrative rules to add legal guardians to the definition of a specified relative for purposes of determining eligibility for assistance programs.

Testimony in support of this measure was submitted by the Legal Aid Society of Hawai'i. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that currently, a family that takes a non-relative child into its household to keep the child out of the child welfare system, but suffers financial hardship because of it, is ineligible to apply for public assistance to help support that child. This

measure would allow these non-relative guardians who prevent children from becoming wards of the State to receive public assistance on behalf of the child.

Your Committee has amended this measure by changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3400, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3400, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3023 (Joint) Agriculture and Hawaiian Affairs and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2965

The purpose of this measure is to authorize a person who, controls, operates, or manages an agricultural water system to negotiate an agreement for the production of emergency power for the system following the Governor's declaration of a disaster.

Testimony in support of this measure was submitted by the Kamehameha Schools, Kohala Crayfish Farm, The Kohala Ditch Project, Island Resources, Ltd., Department of Agriculture, and one individual. The Department of Commerce and Consumer Affairs and the Public Utilities Commission submitted comments regarding this measure.

Your Committees find that agricultural water security is essential to maintain public health and well-being, ensure future cultivation of food, fiber, and energy crops, and enhance rural recreation and community aesthetics. On October 15, 2006, the Kiholo earthquake caused considerable damage to irrigation systems in the Waimea and Hamakua areas on the island of Hawaii, causing the agricultural water users to depend on ground water to supply water to the ditch systems and incurring costs for the transmission of water and energy to run pumps.

On October 15, 2006, the Governor proclaimed these areas to be disaster areas and directed government agencies to take such action and employ such measures for water supply and other emergency functions as necessary. Furthermore, the Governor's proclamation suspended statutes, including those relating to procurement, public lands management, water development, the State water code, and public utilities. These emergency measures are to continue until an appropriate time for termination determined by the Governor.

Your Committees further find that agricultural water systems are critical for agricultural production and that measures should be implemented to allow appropriate responses to conditions caused by natural disasters such as earthquakes.

Your Committees have amended this measure by adding a provision that, in the event that an agreement for electrical power is negotiated with an independent power producer, that the execution of such an agreement shall not render the independent power producer subject to the jurisdiction of the Public Utilities Commission.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2965, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2965, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 5 (English, Ige, Ihara, Sakamoto, Slom).

SCRep. 3024 Agriculture and Hawaiian Affairs on H.B. No. 3120

The purpose of this measure is to authorize the Board of Agriculture to contract with third parties for the use of animal quarantine property or facilities, provided that:

- (1) The Board determines that the property or facilities are not required for use by the animal quarantine program;
- (2) The property or facilities are leased or rented at not less than fifty per cent of fair market value;
- (3) The property or facilities are used for animal welfare; and
- (4) The property or facilities are only used by the third party.

The Hawaiian Humane Society submitted testimony in support of the intent of this measure. The Department of Agriculture submitted testimony in support of this measure and proposed amendments. Testimony in opposition to this measure was submitted by Animal CARE Foundation and one individual.

Your Committee has amended this measure by replacing its contents with the contents of S.B. No. 3042 which provides that the Board of Agriculture is authorized to contract, without any restrictions on what the Board may charge for leasing or renting the property or facilities, with third parties for the use or rental of animal quarantine property or facilities; provided that:

- (1) The Board determines that the property or facilities are not required for use by the animal quarantine program; and
- (2) The property or facilities are only used by the third party.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3120, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3120, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Gabbard). Noes, none. Excused, 2 (English, Slom).

SCRep. 3025 Economic Development and Taxation on H.B. No. 2736

The purpose of this measure is to protect Hawaii's small businesses by:

- (1) Establishing the Small Business Bill of Rights; and
- (2) Authorizing the Ombudsman to investigate complaints of violations of the Small Business Bill of Rights.

Testimony in support of this measure was received from the National Federation of Independent Business, the Small Business Regulatory Review Board, The Chamber of Commerce of Hawaii, and the Retail Merchants of Hawaii. The Department of Business, Economic Development, and Tourism; the Department of Commerce and Consumer Affairs; and the Ombudsman submitted comments.

Your Committee finds that small businesses are an essential element in strengthening and diversifying Hawaii's economy. A "small business bill of rights" would afford small businesses equal and fair treatment and aid in the reduction of roadblocks to business success, which will result in increased investments and job growth in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying the right to submit complaints regarding the administrative actions of state and county agencies with the Office of the Ombudsman, in accordance with chapter 96, Hawaii Revised Statutes;
- (2) Deleting section 3, which would authorize any person to lodge a complaint with the Ombudsman, as unnecessary, since existing law already allows this; and
- (3) Making nonsubstantive, technical amendments to conform to the preferred drafting style.

Your Committee wishes to thank the Department of Business, Economic Development, and Tourism; the Small Business Regulatory Review Board; the Department of Commerce and Consumer Affairs; and small business advocates for their collaborative efforts to draft language that will be acceptable to the parties involved. Your Committee notes that these entities may still have further recommendations for amendments to this measure when it is heard by the Committees on Judiciary and Labor and Commerce, Consumer Protection, and Affordable Housing.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2736, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2736, H.D. 1, S.D. 1, and be referred to the Committees on Judiciary and Labor and Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3026 Economic Development and Taxation on H.B. No. 2395

The purpose of this measure is to establish the Hawaii Innovation Development Corporation to promote the development and exploitation of innovations and inventions that have direct economic benefits for Hawaii.

Testimony in support of this measure was received from Unite Here! Local 5, the Professional Inventors Alliance, and one individual. The Department of Business, Economic Development, and Tourism submitted testimony in opposition. The Department of Budget and Finance and the Office of Information Practices submitted comments.

Your Committee finds that this measure continues to generate a worthwhile discussion of alternative means to encourage innovation and inventions by and for the citizens of Hawaii.

Your Committee has amended this measure by:

- (1) Deleting the appropriations in sections 2 and 3, for the purposes of further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2395, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2395, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3027 Economic Development and Taxation on H.B. No. 3358

The purpose of this measure is to support Hawaii's high technology industry by:

- (1) Requiring the Department of Business, Economic Development, and Tourism to consult with the High Technology Development Corporation to plan for the establishment of a high technology park on Oahu, and work with the Department of Land and Natural Resources to identify public or private lands that may be acquired for the park; and
- (2) Appropriating funds for infrastructure to build the park.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism and the High Technology Development Corporation.

Your Committee finds that Hawaii's technology and defense-related industries have shown strong growth and expansion potential, and the development of an "employment anchor" facility, such as a high technology park, may be the key to preparing Hawaii's current and future workforce for the challenges involved in high technology.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3358, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3028 (Joint) Education and Energy and Environment on H.B. No. 2166

The purpose of this measure is to appropriate funds to the University of Hawaii to finance energy conservation and renewable energy measures to make Saunders Hall at the University of Hawaii at Manoa a campus and community model of sustainability and energy conservation.

Testimony in support of the measure was submitted by Hawaii Energy Policy Forum, the Help Us Bridge Student Sustainability Team, the Environmental Center of the University of Hawaii, and two individuals. Testimony in support of the intent of the measure was submitted by the University of Hawaii System.

Your Committees find that the State and all of its residents must endeavor to reduce energy consumption through the use of alternative energy sources and energy efficient means. The University of Hawaii System has been and continues to have the opportunity to be a pioneer in this effort through the development of models for campus energy savings that can benefit the entire system and the community at large. Currently, at the Manoa campus, the University is operating the Sustainable Saunders Project, which seeks to make the building a livable, sustainable quality home to faculty, staff, and students through campus energy savings. A preliminary energy efficient audit was conducted on the project, which yielded several recommendations.

This measure appropriates funds to implement recommendations from the audit. Your Committees determine that such funding can help to reduce or offset Saunders Hall's energy load, which will pay for itself in six to seven years, as well as reduce its current utility costs through the installation of conservation and renewable energy measures.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$1,024,000 for energy conservation and renewable energy measures that are part of the Sustainable Saunders Project;
- (2) Changing the effective date to July 1, 2008; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2166, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2166, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3029 (Joint) Education and Human Services and Public Housing on H.B. No. 2051

The purpose of this measure is to establish rules for the provision of transportation services and school placement decisions for foster children.

Testimony in support of the measure was submitted by the Department of Education, the Legal Aid Society of Hawaii, and eight individuals, including four current or former foster children. Testimony in support of the intent of this measure was received from the Department of Human Services.

Your Committees find that children placed in foster care often experience not only psychological and emotional trauma, but also additional problems due to their displacement from families, friends, and schools. Your Committees further find that, to the extent that greater stability can be provided in the lives of foster children, they will reap greater benefits in their homes and in their schools. This measure provides that, whenever possible, a foster child continue enrollment in the foster child's current school, even when the foster child is moved into a different foster placement; provided that such decision is based upon what is in the foster child's best interest.

Your Committees have amended this measure by:

- (1) Changing its effective date to July 1, 2008; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Education and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2051, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2051, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and the Majority Leader on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hee, Ihara, Nishihara).

SCRep. 3030 (Joint) Education and Judiciary and Labor on H.B. No. 2441

The purpose of this measure is to provide for workers' compensation coverage for students participating in school-approved work-based learning programs sponsored by the Department of Education or the University of Hawaii.

Testimony in support of the measure was submitted by the Department of Labor and Industrial Relations, the Department of Education, and the ILWU Local 142.

Your Committees find that under the current law, students who participate in school-approved work-based learning programs that are sponsored by the Department of Education or the University of Hawaii are provided workers' compensation coverage if the work is performed for private employers. However, the law does not cover similar students who provide work for the University of Hawaii, the Department of Education, or any other public entity. This measure extends workers' compensation coverage to students participating in work-study programs for both private and public employers. Your Committees determine that such coverage will help to protect our students while providing them with the greatest number of opportunities to prepare themselves for entering the workforce.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2441, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Hee, Kokubun).

SCRep. 3031 Human Services and Public Housing on H.B. No. 2196

The purpose of this measure is to create and amend a number of mandates concerning the Joint Legislative Committee on Family Caregiving.

Specifically, this measure:

- (1) Extends the term of the Joint Legislative Committee on Family Caregiving (Committee);
- (2) Changes the Committee's name to the Joint Legislative Committee on Aging in Place;
- (3) Expands the Committee's mandate to include aging in place issues related to family caregiving;
- (4) Requires the Hawaii Aging and Disability Resource Center to report to the Committee;
- (5) Requires the Committee to design a cash and counseling project and appropriates funds therefor;
- (6) Allows the Kupuna Care program to include overnight, weekend, and emergency respite, and provide grants to caregivers and for home modification; and
- (7) Appropriates funds to the Kupuna Care program.

Testimony in support of this measure was submitted by the Disability and Communication Access Board, the State Council on Developmental Disabilities, the City and County of Honolulu, the Maui County Executive on Aging, the Policy Advisory Board for Elder Affairs, AARP Hawaii, Catholic Charities of Hawai'i, Hawaii Aging Advocates Coalition, Hawai'i Alliance for Retired Americans, Healthcare Association of Hawaii, ILWU Local 142, Kokua Council, Project Dana, and one private citizen. Comments on the measure were submitted by the Executive Office on Aging.

Your Committee finds that family caregiving plays a vital role in addressing the needs of the increasing elder and disability populations needing long-term care services and community support. Your Committee further finds that the efforts of the Joint Legislative Committee on Family Caregiving are making inroads into developing viable support systems for family caregivers that include coordinated services and policies, training and education, respite services, financial incentives, and paid family leave.

Your Committee has amended this measure by:

- (1) Replacing its contents with that of S.B. No. 2830, S.D. 1, which, in addition to the seven above-listed items, also does the following:
 - (A) Amends the above-listed item number five concerning the cash and counseling project to designing a model cash and counseling program;
 - (B) Establishes a task force to focus on the needs and issues of grandparents raising grandchildren; and
 - (C) Appropriates funds to the Executive Office on Aging to continue its respite inventory project in collaboration with the University of Hawaii;
- (2) Changing the effective date to June 30, 2008; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2196, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2196, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3032 Intergovernmental and Military Affairs on H.B. No. 2217

The purpose of this measure is to require the Director of the Office of Information Practices to provide a written opinion within ninety days of when a county legislative body, or member thereof, makes a written request for a written advisory opinion.

Your Committee received testimony in support of this measure from the Maui County Council. The Office of Information Practices submitted testimony in opposition to this measure.

Your Committee finds that the Office of Information Practices is responsible for subject matter under the Uniform Information Practices Act, chapter 92F, Hawaii Revised Statutes, and under the Sunshine Law, part 1 chapter 92, Hawaii Revised Statutes, which

provides jurisdiction over all government records of all state and county agencies as well as the meetings of all boards and commissions.

Your Committee understands the need for the written advisory opinion requirement but finds that the ninety day deadline for responding to these requests may provide an automatic priority to opinion requests from county legislative bodies. This may unduly restrict the Office of Information Practice's ability to prioritize its workload based on public policy considerations.

Your Committee has therefore amended this measure to delete any reference to a ninety day deadline for responding to requests made by county legislative bodies.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2217, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2217, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee . Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3033 Health on H.B. No. 3152

The purpose of this measure is to comply with collective bargaining increases negotiated by the ambulance service provider on Oahu.

Specifically, this measure makes an emergency appropriation out of the general revenues in the amount of \$507,539 and a special emergency appropriation out of the Emergency Medical Services Fund in the amount of \$1,300,000 to pay ambulance service contract collective bargaining costs.

Your Committee received testimony in support of this measure from the Department of Health and the City and County of Honolulu Emergency Services Division.

Your Committee finds that this emergency appropriation is necessary to ensure the continued provision of ambulance services on Oahu.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3152, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3034 Health on H.B. No. 2165

The purpose of this measure is to provide additional means to qualify for licensure as a registered nurse by allowing bachelor's degree graduates who have completed the pre-licensure portion of a master's entry program in nursing, to apply for a license as a registered nurse by examination.

Your Committee received testimony in support of this measure from the University of Hawaii School of Nursing and Dental Hygiene, the Board of Nursing, the Hawaii State Center for Nursing, Hawaii Pacific Health, Healthcare Association of Hawaii, Hawaii Government Employees Association, and four individuals.

Your Committee finds that Hawaii is experiencing a severe nursing workforce shortage. This measure will help to address this shortage by authorizing an accelerated program with entry at the master's level that provides licensure by examination for qualifying registered nurses.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2165, and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3035 Health on H.B. No. 3106

The purpose of this measure is to ensure that all applicants granted an acupuncture license meet equivalent standards of training and education.

Specifically, this measure requires foreign-educated acupuncture applicants to have their educational information evaluated by a board approved and designated professional evaluator to determine curriculum equivalency.

Your Committee received testimony in support of this measure from the Board of Acupuncture.

Your Committee finds that the Board of Acupuncture is required to review and approve foreign school curricula to ensure that it meets United States educational requirements, a mandate that the Board does not have the expertise or resources to effectively undertake. This measure will ensure educational equivalency by requiring, at the applicant's expense, a professional credentialing evaluator, with the expertise and resources, to appropriately evaluate foreign curriculum and transcripts.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3106, and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3036 Health on H.B. No. 2139

The purpose of this measure is to increase the number of lives saved by patients in need of organ transplants by revising the Uniform Anatomical Gift Act to conform to the 2006 Uniform Anatomical Gift Act law adopted in other states throughout the nation.

Your Committee received testimony in support of this measure from the Organ Donor Center of Hawaii, the Commission to Promote Uniform Legislation, the Hawaii Coalition on Donation, and one individual.

Your Committee finds that the 2006 Uniform Anatomical Gift Act is the foundation for successful organ donation throughout the United States. This measure provides an important update to reflect the current system of allocations of organs for transplantation and to help increase available organs and tissues for transplantation that will serve to save the lives of many individuals on organ donor waitlists.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2139, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3037 Health on H.B. No. 1890

The purpose of this measure is to provide funding for health care and other services for individuals living with the human immunodeficiency virus or acquired immunodeficiency syndrome that have low incomes or insufficient health insurance.

Your Committee received testimony in support of this measure from the Clint Spencer Clinic, Life Foundation, Gregory House Programs, West Oahu Hope for a Cure Foundation, and nine individuals. The Department of Health submitted testimony in opposition to this measure.

Your Committee finds that, due to federal funding cutbacks, supplementary funding is necessary to continue services provided by the only acquired immunodeficiency syndrome clinical trials program in Hawaii.

Your Committee has amended this measure by changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1890, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1890, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3038 Health on H.B. No. 3146

The purpose of this measure is to appropriate emergency funds for the ongoing services revenue shortfall of the Adult Mental Health Division of the Department of Health and for operational costs at the Hawaii State Hospital.

Your Committee received testimony in support of this measure from the Department of Health, the Hawaii Substance Abuse Coalition, and the National Alliance on Mental Illness. The State Council on Mental Health submitted comments on this measure.

Your Committee finds that a funding emergency exists for the Adult Mental Health Division of the Department of Health. In this regard, an emergency increase in funds is needed to continue existing services to meet the needs of the expanding eligible population and to continue required services developed during the fiscal year. Furthermore, additional emergency funding is also required to address higher operational costs at the Hawaii State Hospital due to an increased census.

Your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Appropriates \$10,250,443 for ongoing services provided by the Adult Mental Health Division of the Department of Health and to address a revenue shortfall and operational costs at the Hawaii State Hospital;
- (2) Increases the expenditure ceiling of the Mental Health and Substance Abuse Special Fund established under section 334-15, Hawaii Revised Statutes, by \$1,200,000 and appropriates the same amount out of the special fund for ongoing services provided by the Adult Mental Health Division; and
- (3) Makes technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3146, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3146, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3039 Health on H.B. No. 2301

The purpose of this measure is to:

- (1) Prohibit the interference in the practice of dentistry by an unlicensed person or entity; and
- (2) Prohibit the practice of dentistry in a commercial or mercantile establishment that is a business enterprise engaged in the selling of commodities or services unrelated to the practice of dentistry or other healing arts.

Your Committee received testimony in support of this measure from the Board of Dental Examiners, the Hawaii Dental Association, and sixty-eight individuals.

Your Committee finds that to protect the health and welfare of dental patients, licensed dentists should be held accountable for their actions and professional judgment. In addition, licensed dentists should have the ability to treat patients outside of regular business hours, particularly in emergency situations.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that states, "No person or entity without a license issued pursuant to this chapter shall direct or interfere with a licensed dentist's judgment and competent practice of dentistry";
- (2) Inserting language that clarifies that the licensed dentist shall not permit a non-dentist to direct or interfere with the licensee's professional judgment or patient care;
- (3) Exempting the State or any county, any legally incorporated eleemosynary dispensary or infirmary, private school, or welfare center from the prohibition of ownership and interference with the licensee's practice of dentistry;
- (4) Authorizing licensed dentists to have access to the dental office, facilities, and equipment necessary to provide service to the licensee's patients;
- (5) Deleting language that prohibits the practice of dentistry in a commercial or mercantile establishment;
- (6) Changing the effective date to "upon approval"; and
- (7) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2301, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2301, H.D. 1, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3040 Health on H.B. No. 2675

The purpose of this measure is to establish a Medical Marijuana Task Force within the University of Hawaii for administrative purposes to examine current medical marijuana laws regarding adequate supply for qualified patients, developing safe growing facilities, and solutions for inter-island travel.

Your Committee received testimony in support of this measure from the State Representative from the 11th Representative District; the Marijuana Policy Project; The Drug Policy Forum; and six individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety, the City and County of Honolulu Department of the Prosecuting Attorney, the Honolulu Police Department, and the Hawaii Medical Association.

Your Committee finds that Hawaii's medical marijuana program that was established in 2000 has been successful for qualifying patients who are licensed for the use of medical marijuana. However, since the program was put into practice issues have been raised concerning access to adequate supply for qualified patients, distinguishing between mature and immature plants under the law, the feasibility of establishing safe growing facilities, and problems encountered with inter-island travel.

Accordingly, your Committee has amended this measure by broadening the scope of the task force to include:

- (1) The examination of all issues and obstacles that qualifying patients have encountered in the application of the medical marijuana program;
- (2) Research of advances made by other states regarding medical marijuana laws and programs; and
- (3) The examination of current laws regarding any implications of removing the distinction between mature and immature plants.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2675, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2675, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, none.

SCRep. 3041 Health on H.B. No. 2271

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Castle Medical Center, a Hawaii not-for-profit corporation, in financing and refinancing equipment purchases, and the construction and improvement of its health care facilities.

Your Committee received testimony in support of this measure from Castle Medical Center, the Healthcare Association of Hawaii, and two individuals. The Department of Budget and Finance submitted comments on this measure.

Your Committee finds that Castle Medical Center intends to use the special purpose revenue bonds as a means of financing the outpatient infrastructure of the facility, including renovations to the emergency department, replacement of the pharmacy, and expansion of the imaging center. Your Committee further finds that this issuance, while improving access to health care, does not involve any appropriation or expenditure of state funds, and it does not affect the financial liability of the State.

Your Committee adopted the recommendations of the Department of Budget and Finance and has amended this measure by:

- (1) Including a lapse date of June 30, 2013, to be consistent with Act 148, Session Laws of Hawaii 2001, which states that no authorization shall be made for a period exceeding five years of its enactment; and

- (2) Authorizing the Department to refund the special purpose revenue bonds after the lapse date of June 30, 2013, if advantageous to Castle Medical Center.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2271, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2271, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3042 (Joint/Majority) Health and Education on H.B. No. 2164

The purpose of this measure is to expand available revenue sources to support the Cancer Research Center of Hawaii and to authorize the Cancer Research Special Fund to be used for capital improvements.

Your Committees received testimony in support of this measure from the University of Hawai'i System. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committees find that an increasing number of cancer patients have amplified the need for expanded cancer research in Hawaii. The Cancer Research Center's primary source of revenue continues to be the cigarette tax. Additional revenue sources provided in this measure are necessary to ensure that the Center will be adequately funded.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2164, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, 1 (Slom). Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3043 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2134

The purpose of this measure is to continue the financial support of the Hawaii State Center for Nursing (Center).

Specifically, this measure extends, for one year, the sunset date on the provisions of Act 198, Session Laws of Hawaii 2003, that establish the Center for Nursing fee and the deposit and disbursement of those nursing licensure fees into the Compliance Resolution Fund for the Center.

Your Committees received testimony in support of this measure from the Board of Nursing, The Queen's Medical Center, the Hawaii State Center for Nursing, Hawaii Pacific Health, Healthcare Association of Hawaii, the University of Hawaii at Manoa School of Nursing, Hawaii Government Employees Association and thirty-one individuals. The Hawaii Nurses' Association and thirty-five individuals submitted testimony in opposition to this measure.

Your Committees find that the Center provides a valuable service to the health care community by addressing issues related to the nursing shortage, particularly those issues relating to recruitment and retention of registered nurses and nursing faculty. Financial support of the Center is essential for the continuance of its purpose and operations.

Accordingly, your Committees have amended this measure by inserting language that:

- (1) Extends the sunset date on section 10 of Act 198, Session Laws of Hawaii 2003, five years to July 1, 2014;
- (2) Establishes a non-managerial staff nurse member on the advisory board for the Hawaii Center for Nursing; and
- (3) Requires the advisory board for the Hawaii Center for Nursing to submit to the Legislature:
 - (A) An interim report on the progress and findings of the five-year longitudinal study currently being conducted by the Center regarding new graduate registered nurses turnover and best practices in retention of nurses; and
 - (B) A report on funding alternatives that will enable the Center to continue its operations and services.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2134, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2134, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Ayes with Reservations, 2 (Espero, Trimble). Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3044 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2224

The purpose of this measure is to provide relief for individuals who are ineligible for employer based health care coverage under the Prepaid Health Care Act by expanding health care coverage to part-time employees.

Specifically, this measure requires insurers that offer health care coverage to the regular employees of any group or association, to also offer the same coverage to part-time employees who work at least fifteen hours, but less than twenty hours per week for a single-employer.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Hawaii State Teachers Association, and one individual. The Hawaii Medical Service Association, the Hawaii Association of Health Plans, The Chamber of Commerce of Hawaii, and Kaiser Permanente submitted comments on this measure.

Your Committees find that this measure seeks to fill a void in the Prepaid Health Care Act by requiring insurers to offer group coverage to employers for their part-time employees. However, your Committees are concerned that the effect of this measure would be a rise in premium costs for small group health plans due to adverse selection.

Accordingly, your Committees have amended this measure by deleting its language and inserting language that:

- (1) Beginning September 1, 2008, and annually thereafter, requires all group health issuers to offer small group health plans to self-employed individuals who live, work, or reside in the group health issuer's service areas; provided that the Insurance Commissioner may exempt a group health issuer if the Commissioner determines that the group health issuer does not have the capacity to deliver services adequately to enrollees of additional groups given its obligation to existing employer groups;
- (2) Authorizes, rather than requires, the Insurance Commissioner to exempt group health plans offered to small employers that employ only one employee if such plan satisfies the requirements of chapter 393, Hawaii Revised Statutes, and upon determination by the Insurance Commissioner as to the adequacy of the insurer's capacity;
- (3) Inserts a sunset date of July 1, 2013 in order for the Legislature to revisit this issue in five years to examine the cost impact of this measure; and
- (4) Makes technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2224, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2224, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3045 Economic Development and Taxation on H.B. No. 2415

The purpose of this measure is to clarify the awards procedures for federal small business innovation research grants (SBIR) or federal small business technology transfer program grants (STTR).

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism (DBEDT); the High Technology Development Corporation (HTDC); and the Hawaii Aquaculture Association.

Subsequent to the decision-making of March 11, 2008, your Committee circulated a Proposed S.D. 1 on this measure, voted to reconsider the Committee's previous decision, and accepted additional testimony on the Proposed S.D. 1, which added language to:

- (1) Require HTDC to expend any funds remaining from the appropriation in Act 255, Session Laws of Hawaii 2006, for SBIR and STTR grants in 2008 and 2009; and
- (2) Repeal chapter 206M, Hawaii Revised Statutes, the High Technology Innovation Corporation (HTIC).

Testimony in support of the Proposed S.D. 1 was received from the Hawaii Aquaculture Association. The Department of Business, Economic Development, and Tourism and the High Technology Development Corporation submitted comments.

Your Committee finds that Act 255, Session Laws of Hawaii 2006, appropriated \$400,000 for fiscal year 2006-2007 for the HTDC to establish an international business and technology incubator program with Hawaii and China technology businesses.

According to information furnished to your Committee by DBEDT, changes to the technology incubator program resulted in HTDC entering into a contract with HTIC for a two-year project period. The DBEDT information further states that the balance of contract funds with HTIC is \$342,800, after expenditures of \$57,171, and \$29 that lapsed to the general fund. Based on this information, your Committee added the provision in the Proposed S.D. 1, which would require HTDC to expend any funds remaining from the appropriation in Act 255, Session Laws of Hawaii 2006, for SBIR and STTR grants in 2008 and 2009.

In testimony on the Proposed S.D. 1, however, HTDC noted that "funding from Act 255 which created the International Incubator Program lapsed on 6/30/07." The testimony subsequently stated that the "State accounting system reflects a remaining unobligated balance that lapsed from Act 255 as of June 30, 2007 was approximately \$29.00." Your Committee is somewhat confused by these statements from DBEDT and HTDC, for although they refer to some of the same amounts, it is unclear how, or if, the funds were expended.

HTDC testimony further noted that HTIC also currently manages contracts for HTDC that include a \$500,000 STEM grant from the National Governors' Association (NGA). Yet when questioned by your Committee, HTDC responded that HTIC has no staff and is served by volunteers. Your Committee finds it very troubling that appropriations approved in 2007 in Act 111 and Act 271 fund similar innovation education programs, and were developed through a "collaborative" process between the Administration and the Legislature. Yet the information on the NGA award is contained almost as an afterthought in testimony related to HTIC.

In summary, your Committee has directed the Director of DBEDT to respond to the many issues raised during the hearing on the Proposed S.D. 1, and in particular an accounting of the \$400,000 appropriation in Act 255, Session Laws of Hawaii 2005, and a full accounting of the HTIC.

For the purpose of further discussion, your Committee has amended this measure by:

- (1) Deleting section 2, which would require HTDC to expend any funds remaining from the appropriation in Act 255, Session Laws of Hawaii 2006, for SBIR and STTR grants in 2008 and 2009;
- (2) Requiring that any contractual obligations entered into by the High Technology Innovation Corporation shall cease upon repeal of chapter 206M, Hawaii Revised Statutes, and any unexpended contractual funds shall lapse to the general fund; and

- (3) Appropriating \$200,000 for fiscal year 2008-2009 for small business innovation research grants or small business technology transfer program grants.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2415, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2415, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3046 Economic Development and Taxation on H.B. No. 2781

The purpose of this measure is to assist small businesses by:

- (1) Requiring an agency to include, in its Small Business Impact Statement, information comparing the costs and benefits of a proposed rule to those of the comparable or related federal, state, or county law, to justify the proposed higher standard; and
- (2) Requiring an agency to periodically identify and justify existing rules that impose those higher standards.

Testimony in support of this measure was received from the National Federation of Independent Business and The Hawaii Business League. The Department of Commerce and Consumer Affairs and the Small Business Regulatory Review Board (SBRRB) submitted comments.

Your Committee finds that, while well intended, this measure would significantly increase the workload of the SBRRB and the resources necessary to support the increased responsibilities.

Your Committee further finds, however, that the concerns this measure would address require solutions if Hawaii's small businesses are to prevail in the face of increasing government requirements. Your Committee has amended this measure accordingly, by deleting its content and replacing it with language to:

- (1) Direct the SBRRB to convene a working group to study and make recommendations to resolve the concerns related to chapter 201M, Hawaii Revised Statutes, relating to small business regulatory flexibility; and
- (2) Report to the 2009 Legislature on its findings and recommendations, including any legislation necessary to implement the recommendations.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2781, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2781, H.D. 2, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3047 Economic Development and Taxation on H.B. No. 3279

The purpose of this measure is to ensure the continuation of the capital improvement project appropriation for the Hawaii United Okinawa Association, Oahu, by:

- (1) Declaring that a grant to the Hawaii United Okinawa Association is for a public purpose, is in the public interest, and is for the public health, safety, and general welfare of the State;
- (2) Clarifying that the appropriation is for land acquisition related to the expansion of the Hawaii Okinawa Center in Waipio Gentry; and
- (3) Adding a proviso that the general obligation bond fund appropriation for the Hawaii United Okinawa Association, Oahu, Item No. 16.03, shall be administered by the State Foundation on Culture and the Arts.

Testimony in support of this measure was received from the Hawaii United Okinawa Association (Association) and Chinen & Arinaga Financial Groups, Inc.

Your Committee finds that this appropriation, pursuant to Act 178, Session Laws of Hawaii 2005, as amended by Act 160, Session Laws of Hawaii 2006, will lapse as of June 30, 2008. Your Committee has heard that the Association was not notified until the end of the 2007 calendar year that in order to retain the appropriation, amendments were necessary to state a public purpose and to designate the State Foundation on Culture and the Arts as the administering agency.

Your Committee is supportive of the services provided by the Association to the people of Hawaii, and believes the Administration could have been much more expeditious in working with the Association to clarify the appropriation.

Your Committee defers to the Committee on Ways and Means as to whether a more appropriate solution might be to extend the term of the appropriation.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3279, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3048 Transportation and International Affairs on H.B. No. 2953

The purpose of this measure is to provide an exemption from certain requirements of proof of vehicle ownership to drivers of vehicles traveling on an interisland ferry; provided that:

- (1) The drivers present identification of the driver, a current certificate of registration for the vehicle, and proof of motor vehicle insurance; and
- (2) The interisland ferry carrier keeps a record of transporting the vehicle by recording the vehicle identification number and retaining the information for three years after the date of travel.

Testimony in support of this measure was received from Hawaii Superferry, Catrala-Hawaii, and Young Brothers, Limited.

Your Committee finds that this measure will simplify the documentation needed to travel on an interisland ferry with a vehicle, particularly if the person driving the vehicle is not the owner.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2953, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3049 (Joint/Majority) Transportation and International Affairs and Tourism and Government Operations on H.B. No. 2531

The purpose of this measure is to require the Maui Civil Defense Agency to develop, with the assistance of a temporary working group, a West Maui transportation access plan, which can serve as a model for developing plans in other areas having similar problems, such as West Kaua'i, Waianai, and the Kealahou area.

Testimony in support of this measure was received from the Department of Transportation and Maui Land & Pineapple Company, Inc. The State Procurement Office submitted comments.

Your Committees find that the State has no coordinated plan to transport people into and out of West Maui during non-emergency road closures. Because there is no hospital in West Maui, such road closures put peoples' lives at risk. They also divide families, as many Maui residents work in West Maui but reside in other parts of Maui County, and the booming visitor industry in West Maui is also jeopardized.

Your Committee on Transportation previously heard and approved a comparable measure, S.B. No. 2156, S.D. No. 1.

Your Committees have amended this measure by deleting its content and replacing it with the content of S.B. No. 2156, S.D. 1. As amended, this measure:

- (1) Authorizes the Department of Transportation, rather than the Maui Civil Defense Agency, to convene the working group and develop the plan, and appropriates funds to the Department of Transportation;
- (2) Terminates the temporary working group on June 30, 2009;
- (3) Changes the effective date from July 1, 2008, to July 1, 2050; and
- (4) Makes technical, nonsubstantive amendments to reflect the change in the convening agency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2531, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2531, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 2 (Nishihara, Trimble). Noes, 1 (Kim). Excused, 1 (Tsutsui).

SCRep. 3050 Transportation and International Affairs on H.B. No. 1101

The purpose of this measure is to allow the examiner of drivers to waive the knowledge test for applicants holding a valid drivers license from another state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, a province of the Dominion of Canada, or the Commonwealth of the Northern Mariana Islands.

Testimony in support of this measure was received from the Department of Transportation and the four counties.

Your Committee finds that since the majority of jurisdictions have adopted uniform motor vehicle laws, this measure would allow for reciprocity similar to that currently permitted for commercial driver's licenses. Section 286-236(g), Hawaii Revised Statutes, allows the examiner to waive the test of knowledge if there is a valid license from another state, Mexico, or a province in Canada.

Your Committee previously heard and approved a similar measure, S.B. No. 2094, S.D. 1. Your Committee has amended this measure by incorporating the additional new language contained in S.B. No. 2094, S.D. 1. As amended, this measure:

- (1) Adds the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, or any of the federal government's political subdivisions, territories, or commonwealths; and
- (2) Changes the effective date from July 1, 2050, to upon approval.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1101, H.D. 2, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as H.B. No. 1101, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3051 (Majority) Transportation and International Affairs on H.B. No. 2034

The purpose of this measure is to protect the children of Hawaii by:

- (1) Prohibiting operators and adult passengers of motor vehicles from leaving the vehicle with an unattended child under the age of nine, inside for five minutes or more, as a violation of the statewide traffic code for which a violator may only be fined;
- (2) Requiring that knowledge of the prohibition be tested on the driver's examination; and
- (3) Requiring rental car companies to provide notice of the prohibition in each rental motor vehicle.

Testimony in support of this measure was received from the Office of the Governor; the Department of the Attorney General; the Department of Human Services; the Department of the Prosecuting Attorney, City and County of Honolulu; State Farm Mutual Automobile Insurance Company; Healthy Mothers, Healthy Babies Coalition of Hawai'i; Hot Spot; and one individual.

Your Committee finds that that Hawaii is not immune to the tragic consequences of children left unattended in vehicles. Four times within seven months in 2005, children were left in cars that were stolen. Since 2003, three children have died from heat stroke after being left unattended in a car by a parent or caregiver. While parents and caregivers know it is not safe to leave children home alone and unattended, they continue to leave children unattended in a car even though it is as dangerous, or more so.

Your Committee has amended this measure by deleting its content and replacing it with the content of S.B. No. 2245, S.D. 1. As amended, this measure makes technical, nonsubstantive amendments to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2034, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2034, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 1 (Trimble). Excused, 1 (Tsutsui).

SCRep. 3052 Energy and Environment on H.B. No. 2003

The purpose of this measure is to plan for a preferred energy future for Hawaii by allowing the Hawaii Energy Policy Forum (Forum) to continue its work in implementing the vision, concepts, and recommendations of the updated Ten Point Plan to meet Hawaii's energy goals.

Specifically, this measure appropriates funds for the Forum to continue its work in developing smart energy solutions through an action plan that identifies specific areas of interest on which the Forum will focus.

Testimony in support of this measure was submitted by the Director of Business, Economic Development, and Tourism; Director of the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs; Hawai'i County Council; Hawaiian Electric Company, Inc. and its subsidiary utilities, Maui Electric Company, Ltd. and Hawaii Electric Light Company, Inc.; Hawaii Energy Policy Forum; and the Hawaii Solar Energy Association. Comments were submitted by the University of Hawaii at Manoa.

Your Committee finds that the Forum has made considerable progress to date and continued support is necessary to allow for the implementation of detailed actions plans, discussion and study of related issues, and promotion of greater community awareness of energy issues.

Your Committee has amended this measure by adding the contents of H.B. No. 2004, H.D. 2, which also appropriates funds to the Forum for the purpose of working with the Energy-Efficient Transportation Strategies Working Group created by Act 254, Session Laws of Hawaii 2007, to develop energy-efficient transportation strategies.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2003, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 3053 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 2589

The purpose of this measure is to further aid in the deterrence of copper theft by establishing additional requirements for scrap dealers and recyclers when paying for copper purchases.

Specifically, this measure:

- (1) Amends section 445-233, Hawaii Revised Statutes, by requiring a scrap dealer to issue and mail to a seller a check no sooner than five days after the purchase of any copper, and requires the canceled check to be retained by the scrap dealer for two years and make the check available for inspection;
- (2) Amends section 7 of Act 197, Session Laws of Hawaii 2007, by allowing section 445-233, Hawaii Revised Statutes, to sunset on July 1, 2009; and
- (3) Adds a new section to chapter 445, Hawaii Revised Statutes, to become effective on July 1, 2009 that:
 - (A) Requires a scrap dealer to obtain a written statement signed by the seller upon purchase of the scrap metal;

(B) Requires a scrap dealer to retain the written statement for two years and make the written statement available for inspection; and

(C) Requires a scrap dealer to issue and mail to a seller a check no sooner than five days after the purchase of any copper.

Testimony in support of this measure was submitted by Okuda Metal, Inc.; and Reynolds Recycling. Testimony in opposition to this measure was submitted by the Department of the Attorney General; the Department of the Prosecuting Attorney, City and County of Honolulu; and the Police Department, City and County of Honolulu.

Your Committee finds that copper theft continues to be a serious problem, inasmuch as copper thieves illegally traffic in stolen copper as a ready source of cash. Discouraging copper thieves from selling stolen copper to scrap dealers would reduce the incidence of copper theft in Hawaii. Your Committee notes the testimony submitted in opposition to this measure that raises concerns regarding the language that repeals the current language under section 445-233, Hawaii Revised Statutes, and replaces it with language that appears to be less stringent than the current language requires. Furthermore, your Committee recognizes that while the current law requiring certain documentation of scrap metal purchases has been in effect for only eight months, this law appears to be working in reducing the market for resale of stolen copper items.

Accordingly, your Committee has amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 2627, S.D. 1, which requires scrap dealers and recyclers to pay for copper purchases by check, issue the check payable to the name of the seller, and mail the check to the address shown on the identification of the seller, or arrange for a personal pick-up of the check; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2589, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2589, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Trimble). Excused, 3 (Espero, Sakamoto, Taniguchi).

SCRep. 3054 (Majority) Commerce, Consumer Protection and Affordable Housing on H.B. No. 2732

The purpose of this measure is to increase reserved housing units in Hawaii by increasing the reserved housing requirement for a planned development on a lot of at least one acre located in the mauka area of the Kakaako Community Development District.

Specifically, this measure:

- (1) Requires that, for a major development on a lot at least one acre located in the mauka area of the Kakaako Community Development District, at least twenty-five per cent of the floor area is constructed and made available as reserved housing units;
- (2) Requires that, for a planned development with multi-family dwelling units located in the mauka area of the Kakaako Community Development District on a lot between 20,000 and 43,559 square feet, at least twenty per cent of the units shall be reserved housing units;
- (3) Requires the Hawaii Community Development Authority to adopt and implement rules without regard to the notice and public hearing requirements under chapter 91, Hawaii Revised Statutes, to facilitate the implementation of rules; and
- (4) Prohibits the Hawaii Community Development Authority from accepting permit applications for planned developments on lots of at least one acre before the adoption to rules.

Testimony in support of this measure was submitted by Central Pacific Bank; Yamaguchi & Yamaguchi, Inc.; Central Pacific HomeLoans, Inc.; Marshall Realty, Inc.; and two private individuals. Testimony in opposition of this measure was submitted by the Hawaii Community Development Authority; Kamehameha Schools; General Growth Properties, Inc.; The Gas Company; Servco Pacific Inc.; and U. Okada & Co., Ltd.

Affordable housing for the Hawaii residents and the local workforce are in critical short supply. Government cannot alone increase the needed supply to meet the overwhelming demand for affordable housing for those with incomes of 140 per cent and below the median income in Hawaii. Your Committee finds that private landowners and developers need incentives in order to meet the demand for and increase the supply of affordable housing.

With respect to the Kakaako Community Development District, your Committee notes that it was intended that this area be transformed from an industrial area and developed into a mixed-use residential and commercial area that would provide opportunities for Hawaii families to live, work, and play within the same community. Instead, this area has experienced an increase in the development of luxury condominium units that are too expensive for a majority of Hawaii families to afford.

Your Committee recognizes the concerns raised in testimony in opposition to this measure, and requested that the various stakeholders in the Kakaako area meet to reach a consensus on developing incentives to build affordable housing units in the Kakaako mauka area. Your Committee appreciates the efforts of the various stakeholders and encourages further discussion on providing incentives for private landowners to develop affordable housing units in the Kakaako Community Development District by the Committee on Ways and Means.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2294, S.D. 1, which are substantively similar, except for technical differences;

- (2) Adding language that:
- (A) Prohibits a developer from satisfying the reserved housing requirement by making a cash payment;
 - (B) Calculates the countable floor area based on the plan submitted to the Hawaii Community Development Authority before any building permit application is submitted;
 - (C) Allows a developer to sell a credit to another developer at a price mutually agreed upon, and allows the developer who purchases the credit to deduct the credit from the reserved housing square footage or units required of that developer's project; and
 - (D) Requires the Hawaii Community Development Authority to prohibit developers from submitting a building permit application to the City and County of Honolulu until the adoption and implementation of rules; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2732, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2732, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Trimble). Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3055 Economic Development and Taxation on H.B. No. 2961

The purpose of this measure is to evaluate the impact of various high technology tax incentives on Hawaii's economy.

Specifically, this measure authorizes the Department of Taxation to conduct various studies on existing and proposed tax incentives, including the high technology business investment tax credit and the tax credit for research activities. This measure also makes an appropriation to carry out the purposes of this measure.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, Hawaii State Teachers Association, Hawaii Association of REALTORS, and Retail Merchants of Hawaii. Comments on this measure were submitted by the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that numerous other states have adopted the National Streamlined Sales and Use Tax Project approach in streamlining their tax systems to avoid further erosion of their tax bases in the global economy. Your Committee previously heard and passed S.B. No. 2829 S.D. 1, a measure that will position Hawaii to adopt the necessary changes to bring its tax system into compliance with the national Streamlined Sales and Use Tax Agreement. Your Committee has amended this measure by deleting the content of H.B. No. 2961, H.D. 2, and replacing the content with S.B. No. 2829 S.D. 1. As amended, this measure:

- (1) Will support Hawaii's participation in the national Streamlined Sales and Use Tax Agreement which will level the playing field between local and out-of-state retailers on the collection and remittance of general excise and use taxes on purchases by Hawaii residents; and
- (2) Will establish a streamlined system of tax collection for sellers in a global economy that will still respect the sovereignty of state borders.

Accordingly, it is the intent of your Committee to support allowing Hawaii to participate fully in the Streamlined Sales and Use Tax Agreement. Your Committee finds that a measured and orderly approach toward stabilizing Hawaii's tax revenue base is an important step in establishing confidence in the State of Hawaii's ability to withstand the challenges of major economic downturns.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2961, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2961, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3056 (Joint) Agriculture and Hawaiian Affairs and Water and Land on H.B. No. 2293

The purpose of this measure is to improve the operational flexibility of the Agribusiness Development Corporation (ADC) and preserve valuable agricultural lands by, among other things, authorizing ADC to:

- (1) Acquire specific agricultural lands located on Oahu and owned by the Galbraith Estate through a combination of general fund appropriations and revenue bonds issued by ADC with the approval of the Governor;
- (2) Purchase, accept, and maintain permanent conservation easements, or transfer these easements to qualified land trust in accordance with the federal Natural Resources Conservation Service Farm and Ranch Lands Protection Program; and
- (3) Contract with certain financial institutions to provide lease management services when leasing ADC-controlled agricultural land.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, Kamehameha Schools, The Trust for Public Land, Wahiawa Community and Business Association, ILWU, Local 142, and HPC Foods, Ltd. Testimony in support of the intent of this measure was submitted by the Agribusiness Development Corporation, the Department of the Army, and one individual. In addition, the Department of Budget and Finance and the Office of Hawaiian Affairs submitted comments regarding this measure and testimony providing updated information regarding the Galbraith Estate land was submitted by Bank of Hawaii.

Your Committees take notice that the testimony submitted by the Office of Hawaiian Affairs explains that the spiritual epicenter site known as Kukaniloko is located within the Galbraith Estate lands. Kukaniloko has been dated as being established in the 12th century and commands one of the highest protocols and therefore is referred to as wahi kapu (sacred and taboo space). Native Hawaiian practitioners continue to access Kukaniloko.

Your Committees further note that the Department of the Army has testified that many of the Galbraith Estate lands are near or adjacent to Schofield Barracks, and serve as a buffer between Schofield Barracks and the neighboring communities. The acquisition of the Galbraith Estate lands would help ensure that incompatible development near Schofield Barracks will be minimized.

Your Committees have amended this measure by:

- (1) Replacing its content with the content of H.B. No. 2292, which is a substantially similar measure, except that it:
 - (A) Additionally addresses the acquisition of important agricultural lands by the Agribusiness Development Corporation; and
 - (B) Appropriates an unspecified sum to purchase the Galbraith Estate lands through the purchase of United States Treasury zero coupon bonds for a negotiated installment purchase agreement or by lump sum payment;
- (2) Providing that the Department of Land and Natural Resources shall have the authority to acquire the Galbraith Estate lands through exercise of its power of eminent domain; and
- (3) Changing its effective date to July 1, 2008.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2293, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2293, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (English, Fukunaga, Slom).

SCRep. 3057 (Joint) Agriculture and Hawaiian Affairs and Water and Land on H.B. No. 2292

The purpose of this measure is to expand the authority of the Agribusiness Development Corporation (ADC) and preserve valuable agricultural lands by, among other things:

- (1) Specifying that the Legislature, through a bill enacted into law, may authorize ADC to acquire agricultural lands for the protection of agricultural lands, public land banking, or promotion of farm ownership and diversified agriculture;
- (2) Specifying that the landowner who agrees to the sale of lands shall receive payment:
 - (A) In a lump sum;
 - (B) From revenues derived from the issuance of revenue bonds by the ADC; or
 - (C) Through an installment purchase agreement;
- (3) Establishing requirements for the use of installment purchase agreements including the purchase of U.S. Treasury zero coupon bonds;
- (4) Authorizing ADC to acquire specific agricultural lands located on Oahu and owned by the Galbraith Estate through a lump sum payment or an installment purchase agreement;
- (5) Authorizing ADC to purchase, accept, and maintain permanent conservation easements, or transfer these easements to qualified land trust in accordance with the federal Natural Resources Conservation Service Farm and Ranch Lands Protection Program; and
- (6) Allowing ADC to contract with certain financial institutions to provide lease management services when leasing ADC-controlled agricultural land.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, Kamehameha Schools, The Trust for Public Lands, HPC Foods, Ltd., Wahiawa Community and Business Association, and ILWU, Local 142. The Agribusiness Development Corporation, Department of the Army, and one individual submitted testimony in support of the intent of this measure. The Department of Budget and Finance submitted comments regarding this measure and Bank of Hawaii submitted information regarding this measure.

Your Committees have amended this measure by amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2292, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2292, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (English, Fukunaga, Slom).

SCRep. 3058 (Joint) Agriculture and Hawaiian Affairs and Water and Land on H.B. No. 2737

The purpose of this measure is to appropriate funds to the Department of Agriculture for the planning and design of reservoirs with minimum cumulative capacities of 300,000,000 gallons in Upcountry Maui to serve both agricultural and residential water needs.

Testimony in support of this measure was submitted by the Office of the Mayor of the County of Maui, Department of Water Supply of the County of Maui, County Council of the County of Maui, Hawaii Farm Bureau Federation, Maui County Farm Bureau, and three individuals. The Department of Agriculture submitted comments regarding this measure.

Your Committees have amended this measure by:

- (1) Replacing its contents with the content of S.B. No. 2516, S.D. 1, which, among other things, appropriates the funds for the plan and design of reservoirs to the County of Maui with a requirement for federal and county matching funds in an unspecified amount; and
- (2) Making this measure effective upon approval.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2737, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2737, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (English, Fukunaga, Slom).

SCRep. 3059 (Joint) Agriculture and Hawaiian Affairs and Water and Land on H.B. No. 2810

The purpose of this measure is to support agriculture by, among other things:

- (1) Authorizing the Public Utilities Commission to establish preferential water rates for potable water used for agricultural activities;
- (2) Requiring public utilities, upon application and proof of qualification, to provide preferential rates for potable water used for agricultural activities; and
- (3) Allowing the preferential water rates to be subsidized by the water rates charged to other customers of the public utility.

Testimony in support of this measure was submitted by the Department of Agriculture, Public Utilities Commission, Hawaii Crop Improvement Association, and Hawaii County Council. Hawaii Farm Bureau Federation; Maui County Farm Bureau; Palila Growers, LLC; and Kohala Ranch Water Company submitted testimony in support and proposed amendments to this measure. Testimony in support of the intent of this measure was submitted by the Department of Commerce and Consumer Affairs. Hawaii Reserves, Inc. submitted testimony in opposition to this measure.

Your Committees note that the Public Utilities Commission has represented that their process for considering a request for a change in water rate provides for the amortization of the applicant's assets. Therefore, it is not necessary to include a provision in this measure to require that such amortization be allowed.

Your Committees further encourage the Department of Agriculture to assist the Public Utilities Commission in making determinations as to whether an operation is a legitimate agricultural activity.

Your Committees have amended this measure by:

- (1) Amending the definition of "agricultural activities" as requested by the Hawaii Farm Bureau Federation; and
- (2) Amending the effective date to July 1, 2050.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2810, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2810, H.D. 1, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (English, Fukunaga, Slom).

SCRep. 3060 (Joint) Agriculture and Hawaiian Affairs and Water and Land on H.B. No. 2450

The purpose of this measure is to protect farming operations from urban encroachment by requiring the reclassification, into the urban and rural district, of any land that is contiguous to the agricultural district, to contain a condition that nonagricultural development shall not be permitted within a certain distance of the property line bordering a parcel in the agricultural district on which farming operations are being conducted.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, Maui County Farm Bureau, Hawaii Crop Improvement Association, Hawaiian Marine Enterprises, and Lalamilo Farm Lots Association. Testimony in support of the intent of this measure was submitted by the Department of Business, Economic Development and Tourism. The University of Hawaii Environmental Center submitted comments regarding this measure. Testimony expressing concerns about this measure was submitted by Hawaii's Thousand Friends. Testimony in opposition to this measure was submitted by the City and County of Honolulu Department of Planning and Permitting, Land Use Research Foundation of Hawaii and Hawaii Reserves, Inc. The Department of Agriculture testified in support of the protection of agricultural operations from nuisance complaints as provided in the Right to Farm Act.

The Land Use Research Foundation has expressed concern over the whether the creation of a buffer zone would constitute a taking of private property rights. Your Committees encourage the Land Use Research Foundation to work together with the Hawaii Farm Bureau Federation to address this concern prior to this measure being heard by the Committee on Judiciary and Labor.

Your Committees have amended this measure by replacing its contents with the content of H.B. No. 408, S.D. 1. As amended, this measure requires, upon a request to reclassify, to an urban or rural district designation, a land district that is contiguous to an existing designated agricultural district, that the Land Use Commission:

- (1) Notify the applicant requesting the reclassification of the presence of the contiguous agricultural district; and
- (2) Impose the conditions that the applicant permit existing farm operations in the contiguous agricultural district, not declare the farming operation a nuisance, and comply with chapter 165, Hawaii Revised Statutes, the State's Right to Farm Act.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2450, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2450, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (English, Fukunaga, Slom).

SCRep. 3061 (Joint) Water and Land and Intergovernmental and Military Affairs on H.B. No. 2526

The purpose of this measure is to add an objective in the State Plan to require that land development be in compliance with smart growth principles.

Testimony in support of this measure was submitted by the Windward Ahupua'a Alliance and one individual. Testimony in support of the intent of this measure was submitted by the Department of Business, Economic Development and Tourism and Hawaii Association of Realtors.

Your Committees have amended this measure by adding a Part II which is the content of S.B. No. 2833, S.D. 1, which, among other things:

- (1) Sets forth and adopts the Hawaii 2050 sustainability plan;
- (2) Establishes a sustainability council to coordinate, implement, measure, and evaluate the progress of the Hawaii 2050 sustainability plan and its related activities; and
- (3) Appropriates funds for the creation of the Sustainability Council.

Your Committee has also amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Water and Land and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2526, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2526, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Fukunaga, Tsutsui, Whalen).

SCRep. 3062 (Joint) Water and Land, Agriculture and Hawaiian Affairs and Judiciary and Labor on H.B. No. 2704

The purpose of this measure is to establish the Ha'iku Valley Cultural Preserve Commission (Commission), to have policy and management oversight of the Ha'iku Valley cultural preserve.

The measure also authorizes the Office of Planning and the Attorney General, after consulting with the Ha'iku Valley Cultural Preserve Commission, to convey the Ha'iku Valley Cultural Preserve in fee simple to the Office of Hawaiian Affairs and appropriates funds for this purpose.

Testimony in support of this measure was submitted by the Chairperson of the Board of Land and Natural Resources; Chairperson of the Hawaiian Homes Commission; Office of Hawaiian Affairs; Association of Hawaiian Civic Clubs; Sierra Club, Hawaii Chapter; Hawaii Farm Bureau Federation; Ko'olau Foundation; and the Ko'olau-poko Hawaiian Civic Club. Testimony in opposition to this measure was submitted by one private citizen. Comments were submitted by the Director of Finance.

Your Committees find that the establishment of the Commission will provide a system that recognizes Ha'iku Valley's unique challenges and preserves in perpetuity its cultural and historic resources for the people of Hawai'i.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Hawaiian Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2704, H.D. 2, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 4 (English, Fukunaga, Nishihara, Whalen).

SCRep. 3063 (Joint) Commerce, Consumer Protection and Affordable Housing and Intergovernmental and Military Affairs on H.B. No. 2512

The purpose of this measure is to assist in addressing the problems of and provide further opportunities in affordable housing in the State by appropriating an unspecified sum to the Hawaii Housing Finance and Development Corporation to use to assist developers in contracting for third party review and certification to expedite the processing and issuance of building permits for affordable housing projects.

Testimony in support of this measure was submitted by the Hawaii Housing Finance and Development Corporation; the Department of Planning and Permitting, City and County of Honolulu; the Pacific Housing Assistance Corporation; the Hawaii Building and Construction Trades Council, AFL-CIO; and Castle & Cooke Hawai'i.

The lack of affordable housing is a crisis that continues to be a significant and challenging social problem in the State as the costs of home ownership and rentals are increasing. The prospect of making high mortgage payments and saving enough money for the down payment and closing costs needed to buy a home at current market prices is a formidable challenge for many families in the State. Your Committees find that providing additional funds to use to assist developers in contracting for third party review and certification to expedite the processing and issuance of building permits for affordable housing projects will aid in addressing the lack of affordable housing in the State.

Your Committees recognize that the Committee on Ways and Means created an affordable housing package under S.B. No. 3174, S.D. 2, that (1) makes an appropriation for expedited third party review of affordable housing projects, (2) establishes a self-help housing technical assistance trust fund under the Hawaii Housing Finance and Development Corporation to provide funding for self-help housing projects, (3) increases the Hula Mae multifamily revenue bond authorization that provides home financing for residents, and finances the purchase of the Kukui Gardens Rental Housing Complex, and (4) extends the sunset date of the increased conveyance tax allocation to the Rental Housing Trust Fund. Your Committees believe that the same should be done to this measure, but note that the extension of the sunset date of the conveyance tax allocation to the Rental Housing Trust Fund under H.B. No. 2514, H.D. 1, has already been passed unamended by the Committee on Commerce, Consumer Protection, and Housing, and is currently referred to the Committee on Economic Development and Taxation.

Accordingly, your Committees have amended this measure by:

- (1) Incorporating the contents of H.B. No. 3403, H.D. 2, into this measure to establish a Self-Help Housing Trust Fund under the Hawaii Housing Finance and Development Corporation to provide funding for self-help housing projects;
- (2) Incorporating the contents of H.B. No. 3058, H.D. 1, into this measure to provide a vehicle to change the Hula Mae multifamily revenue bond authorization that provides home financing for residents and finances the purchase of the Kukui Gardens Rental Housing Complex;
- (3) Making conforming amendments consistent with the foregoing changes;
- (4) Inserting an effective date of upon its approval; provided that the appropriations in this measure shall become effective on July 1, 2008; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity and style.

Your Committees offer the following information regarding the fiscal implications of establishing a Self-Help Housing Trust Fund for further discussion by the Committee on Ways and Means. The typical technical assistance costs in Hawaii roughly average \$20,000 per home. A trust fund dedicated to providing funds for technical assistance costs will allow self-help housing programs to provide approximately fifty additional affordable housing units per year, which equate to roughly \$1,000,000 in technical assistance costs. The Committees note that the technical assistance cost of \$20,000 per home is a best estimate based on current projects. The consumer price index may be used to determine a sliding scale of technical assistance costs per home in the future, if necessary.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2512, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2512, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Espero, Sakamoto, Taniguchi, Tsutsui).

SCRep. 3064 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2372

The purpose of this measure is to address an omission in time share laws by allowing the sale of an additional interest in a time share plan to an existing customer in Hawaii when the time share plan is not registered in Hawaii.

Specifically, this measure:

- (1) Allows registered developers to sell additional time share interests to existing owners of an out-of-state time share plan that is not registered in Hawaii; and
- (2) Allows registered developers to sell time share interests in an out-of-state time share plan that has not been registered in Hawaii to anyone who owns an interest in any of the developer's time share plans.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs; Group RCI; the American Resort Development Association (ARDA); and Wyndham Worldwide.

Hawaii's time share industry currently accounts for over eight per cent of the lodging inventory in the State and plays an integral role in Hawaii's tourism offerings. Existing law does not allow the sale of an additional interest in a time share plan to an existing customer in Hawaii when the time share plan is not registered in Hawaii. Your Committee finds that allowing an entity in Hawaii to sell additional interests to their existing owners, without having to satisfy all of the state registration requirements while ensuring certain consumer protection safeguards are met, will enable the time share industry in Hawaii to further expand and provide greater tourism offerings in the State.

Your Committee recognizes the efforts of Wyndham Worldwide and the Department of Commerce and Consumer Affairs in working together to develop language that addresses the concerns raised by the Department with respect to the proposed exemption to the time share laws in this measure. Your Committee notes that the concern regarding the incorporation of affiliates under common control as an exemption has not yet been resolved, and encourages further discussion on this matter as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with language proposed by Wyndham Worldwide in cooperation with the Department of Commerce and Consumer Affairs that:
 - (A) Addresses concerns raised by the Department with respect to this measure; and
 - (B) Adds additional consumer protection provisions to ensure that owners are fully protected;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion on this matter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2372, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2372, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3065 Education on H.B. No. 2521

The purpose of this measure is to ensuring proper funding for repair and maintenance projects of the University of Hawaii facilities.

Specifically, this measure:

- (1) Requires one per cent of general revenues accrued from July 1, 2008, to June 30, 2014, to be deposited into the newly-created University of Hawaii Repair and Maintenance Special Account for the repair and maintenance of university facilities;
- (2) Expresses the Legislature's intent to authorize and appropriate, in each fiscal year of the fiscal period July 1, 2008, to June 30, 2014, at least an additional \$50,000,000 in general obligation bonds for the repair and maintenance of university facilities;
- (3) Provides that, if the \$50,000,000 in bonds is not appropriated in a fiscal year, general excise tax revenues to make up the shortfall shall be automatically transferred to the special account;
- (4) States that the appropriations of special account moneys and general obligation bond funds shall be in lump sums so that the University of Hawaii has the discretion to identify the repair and maintenance projects that should be funded;
- (5) Appropriates \$50,000,000 from the special account in fiscal year 2008-2009 for the repair and maintenance of university facilities; and
- (6) Authorizes and appropriates \$50,000,000 in general obligation bonds for the repair and maintenance of university facilities.

Testimony in support of the measure was submitted by the University of Hawaii System; the University of Hawaii at Manoa; the University of Hawaii at Manoa Athletics Department; the College of Languages, Linguistics, and Literature of the University of Hawaii at Manoa; the University of Hawaii Student Caucus; Ho'opili, D.R. Horton, Schuler Division; and fourteen individuals. Testimony in opposition of the measure was submitted by the Department of Budget and Finance and the Department of Taxation. Comments on the measure were also submitted by the Tax Foundation of Hawaii and two individuals.

Your Committee finds that a significant backlog of repair and maintenance projects exists in our public schools, including the University of Hawaii System. As the State's sole public system of higher education, efforts must be made to ensure that it remains a system of premier institutions of higher learning that will rival the elite universities of this nation through the provision of safe and modern facilities for its students. This measure establishes the Legislature's commitment to properly funding existing and anticipated repair and maintenance projects of the University of Hawaii in the present, as well as in the future.

Your Committee believes that additional funding is necessary to help to alleviate the current backlog of repair and maintenance projects within the University of Hawaii System to attempt to lower them to manageable levels. Your Committee believes that additional funding provided through the authorization for the issuance of general obligation bonds is necessary to help to alleviate the current backlog, while also ensuring that improvements to the university athletics facilities are made a priority as well.

Additionally, your Committee finds that the establishment of an Academy of Creative Media at the University of Hawaii West Oahu campus is necessary and appropriate to support a broad range of twenty-first century development and jobs, such as creative media, high technology and alternate energy ventures, and dual use and science-technology applications.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with the contents of S.B. Nos. 2820, S.D. 1, and 3168, S.D. 2, which accomplishes the following:

- (1) Authorizes the issuance of general obligation bonds to fund University of Hawaii repair and maintenance projects; provided that a portion of the funds are allocated to the University of Hawaii athletics facilities;
- (2) Establishes the Academy for Creative Media program in statute under the University of Hawaii; and
- (3) Amends Act 11, Special Session Laws of Hawaii 2007, to delete all references to a lease agreement with Public Safety Hawaii, to delete the references to equipment and installation in the appropriation section, and to clarify that funds appropriated shall be expended to expand programs and facilities of the Academy for Creative Media program statewide.

Your Committee has also amended the effective date of the measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2521, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2521, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3066 Education on H.B. No. 2978

The purpose of this measure is to establish the Funding Formula Task Force to develop an equitable, consistent, and responsive funding formula for the distribution of fiscal resources throughout the University of Hawaii system.

Testimony in support of the measure was submitted by the University of Hawaii at Hilo and the University of Hawaii at Hilo Student Association. Comments on the measure were submitted by the University of Hawaii System and the Office of Information Practices.

Your Committee finds that the higher education provided to students of the University of Hawaii system is crucial to the prosperity of the State. The State must commit resources and other support as an investment in higher education to ensure the development of a qualified and trained workforce to support the current and future needs of the State. Funding is a key issue for the University of Hawaii for the provision of quality academic programs taught by capable educators and including strong student support that will allow the State to reap wide-reaching, long-term benefits. This measure establishes the Funding Formula Task Force to develop an appropriate funding formula for the University of Hawaii System and appropriates funds for those campuses that have seen significant enrollment increases.

Testimony provided indicated that a more comprehensive approach to developing the long-term financial plan of the University of Hawaii, including various methods for reassessing funding models, should be taken. Your Committee believes that goals such as education quality and effectiveness, access-diversity-equity, efficiency and productivity, contribution to state need, and connection and contribution to other education sectors, including measures related to increasing student enrollment, need to be translated from goals and measures in annual reports to a more select list of indicators that can be easily understood and followed.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with language included in S.B. No. 3250, S.D. 2, with additional changes, which accomplishes the following with respect to the incentive and performance outcome funding component of the University of Hawaii's long-range financial plan:

- (1) Increases the legislative and public support for higher education;
- (2) Allocates funds through a dual approach of incentives and performance-based funding;
- (3) Monitors the general condition of the University system;
- (4) Identifies potential sources of problems or areas for improvement;
- (5) Improves the effectiveness and efficiency of colleges within the University system;
- (6) Focusing program, department, college, and university efforts on state priorities and goals;
- (7) Assesses progress on state priorities and goals to improve graduate and undergraduate education;
- (8) Improves consumer information on higher education;
- (9) Specifies information to be included in the annual incentive and performance reports beginning in 2008;
- (10) Requires the University of Hawaii to hire an independent higher education finance expert to report and make recommendations on full-time equivalent enrollment;
- (11) Appropriates funds for the hiring of an independent higher education finance expert; and
- (12) Makes the effective date of the measure July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2978, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2978, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Taniguchi). Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3067 (Joint) Economic Development and Taxation and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2040

The purpose of this measure is to authorize an independent study and analysis of Hawaii's economy, including recommendations for public policy changes that will begin to address the cost of living, affordability, and quality of life issues that Hawaii residents face.

Testimony in support of this measure was received from Hawaii Habitat for Humanity Association, the Snyder Family Trust/STI Industries, and two individuals. The Department of Business, Economic Development, and Tourism and The Chamber of Commerce of Hawaii submitted comments.

Your Committees find that many of the issues this measure proposes to study are already the subject of studies and reports produced by both the State and private sector entities. For this reason, your Committees have determined that, while well intended, the measure may not successfully respond to the affordability and quality of life issues that Hawaii residents face.

Your Committees have amended this measure to address two specific economic issues – the fiscal impact of commercial leases on small businesses and the State's long-term sustainability.

Specifically, your Committees have deleted the content of this measure and replaced it with language from H.B. No. 1075, H.D.1, designated as part I, and S.B. No. 2555, S.D. 2, designated as parts II through VI. The amendments to this measure are as follows:

- (1) Part I adds a:
- (A) Findings and purpose section regarding the stabilization of Hawaii's economy by lessening the onerous provisions of existing commercial and industrial leases of certain lands within urban districts by correcting inequities in long term commercial and industrial ground leases; and
 - (B) New section to chapter 519, Hawaii Revised Statutes, on terms and conditions of leases of commercial and industrial property that is situated in the State; zoned by a county for commercial, industrial, or mixed use; subject to a lease with an initial term of more than twenty-five years and an unexpired term of five years or more; and all or a portion of which is a parcel of real property of fifty thousand square feet or more that is owned by a lessor;
- (2) Part II adds a findings and purpose section regarding the establishment within the executive branch of state government of a new department of planning and sustainability to address issues regarding the long-range planning of the State and how it affects Hawaii's economy, to coordinate policies and actions relating to state planning and sustainability, and to provide a comprehensive sustainability agenda for the State;
- (3) Part III amends various sections in chapter 26, Hawaii Revised Statutes, to establish a Department of Planning and Sustainability (Department), and to designate the existing agencies placed within the Department for administrative purposes;
- (4) Part IV adds a new chapter to the Hawaii Revised Statutes to establish the Department, its objectives, powers and duties, jurisdiction, personnel, and rulemaking requirements;
- (5) Part V amends various sections of the Hawaii Revised Statutes to reflect the above changes;
- (6) Part VI establishes guidelines for implementation, transfer provisions, and other administrative provisions related to changes in the Hawaii Revised Statutes; and
- (7) Restores the effective date to July 1, 2008, to ensure implementation of section 14 on July 1, 2010.

Your Committees believe that Hawaii's economy is more vulnerable than most to local, national, and international fluctuations in market and other forces. The development of a strong, sustainable economy is critical to meeting and overcoming these challenges.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2040, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2040, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 5 (Baker, Ihara, Sakamoto, Taniguchi, Slom).

SCRep. 3068 Public Safety on H.B. No. 2009

The purpose of this measure is to implement the recommendation of the Auditor in an October 2007 report for a legislative reassessment of the need for, or repeal of, the Correctional Program Revolving Fund.

Specifically, this measure repeals section 353-33, Hawaii Revised Statutes, which established the Correctional Program Revolving Fund.

Testimony in support of this measure was submitted by the Department of Public Safety.

Your Committee finds that the Correctional Program Revolving Fund, established to offset the cost of inmate programs through revenues derived from fees charged to committed or detained persons participating in correctional programs, was closed in 1996 due to inactivity.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purpose of conforming with bill drafting conventions.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2009, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Whalen).

SCRep. 3069 Public Safety on H.B. No. 2436

The purpose of this measure is to strengthen the regulation and enforcement of fireworks by:

- (1) Clarifying the definition of display fireworks;
- (2) Making it unlawful, without a permit, to throw any ignited fireworks from or at a moving vehicle, or at any person or animal;
- (3) Making it unlawful, without a permit, to discharge any fireworks in certain places or within a certain number of feet of various facilities;
- (4) Requiring a permit for a fee to purchase and use consumer fireworks, aerial devices, display fireworks, or articles pyrotechnic within five hundred feet from any hotel; and
- (5) Prohibiting minors from selling fireworks.

Testimony in support of this measure was submitted by the State Fire Council, Honolulu Fire Department, Department of Fire and Public Safety for the County of Maui, Legislative Information Services of Hawaii, and four individual citizens.

Your Committee finds that clarifying the permissible times, places, and uses for fireworks is important to various public groups and individuals so they will know how to comply with the laws concerning the use of fireworks. Specifically, this measure clarifies when a permit is required to purchase and use fireworks and when the use of fireworks without a permit is unlawful.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2436, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2436, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Whalen).

SCRep. 3070 (Joint) Public Safety and Judiciary and Labor on H.B. No. 1402

The purpose of this measure is to support the Correctional Industries Program by removing the limitation of forty-five temporary exempt positions during any fiscal year and to instead permit an unlimited amount of temporary exempt positions.

Testimony in support of this measure was submitted by the Department of Public Safety. Testimony in opposition of this measure was submitted by the Hawaii Government Employees Association.

Your Committees find that providing the Correctional Industries Program with an appropriate number of temporary exempt positions will enable the Program to efficiently administer the daily workload and to effectively fulfill the purposes of the Program. At the same time, your Committees believe that it is equally important for the Correctional Industries Program to be fiscally responsible in carrying out the purposes of the Program.

Accordingly, your Committees have amended this measure by limiting the maximum number of temporary exempt positions for the Correctional Industries Program in any fiscal year to sixty-five employees. This will allow gradual growth of the Program and enable the offering of increased correctional industries work opportunities and vocational rehabilitation programs for the incarcerated population.

As affirmed by the records of votes of the members of your Committees on Public Safety and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1402, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1402, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 3071 (Joint) Human Services and Public Housing and Education on H.B. No. 2962

The purpose of this measure is to appropriate funds for the implementation of the Safe Haven demonstration program in the County of Hawaii.

Testimony in support of this measure was submitted by one private individual. Testimony in opposition to this measure was submitted by the Department of Education.

Your Committees find that offering youth safe, supportive, and enjoyable programs to participate in during non-school hours will help to promote increased self-esteem and positive social behaviors, and reduce the likelihood of risky conduct including experimentation with alcohol, drugs, and sexual activity.

Your Committees have amended this measure by replacing its contents with that of S.B. No. 2822, S.D. 2, which is an omnibus non-school hours measure that provides for the following:

- (1) An appropriation out of Temporary Assistance for Needy Families funds for non-school hour programs to be expended by the Department of Human Services;
- (2) An appropriation for the Safe Haven demonstration program in the County of Hawaii;
- (3) The establishment of a non-school hour activities task force; and
- (4) A general fund appropriation for non-school hour activities and an educational specialist II position to coordinate the State's non-school hour programs.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2962, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2962, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and the Chair on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hee, Ihara, Nishihara).

SCRep. 3072 (Joint) Human Services and Public Housing and Health on H.B. No. 2581

The purpose of this measure is to establish a Home and Community Based Services Care Home and Long-Term Care Home Facility Repair and Renovation Loan Guarantee Office and program administered by the Department of Human Services to guarantee qualified loans made for the repair or renovation of care homes or facilities.

Testimony in opposition to this measure was submitted by the Department of Health and the Department of Human Services.

Your Committees find that this measure would encourage the upgrades necessary to home- and community-based facilities to increase their capacity so that a greater number of elderly and disabled clients who so elect may remain in the community setting.

Your Committees note that the Department of Human Services has requested \$1,600,000 in its budget for state fiscal year 2008-2009 for Medicaid clients deinstitutionalized from hospitals to home and community-based services. These moneys would provide an excellent funding opportunity for the office and program established by this measure.

Your Committees have amended this measure by:

- (1) Changing its effective date to July 1, 2008; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2581, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2581, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and the Chair on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Sakamoto, Whalen).

SCRep. 3073 (Joint) Human Services and Public Housing and Public Safety on H.B. No. 2763

The purpose of this measure is to re-establish the Children of Incarcerated Parents Task Force, which ceased to exist on December 31, 2007, for a new term to last until December 31, 2011, to require annual task force reports to the Legislature, and to make a task force appropriation.

Testimony in support of this measure was submitted by the Task Force on Children of Incarcerated Parents, the Community Alliance on Prisons, the Drug Policy Forum of Hawai'i, the Hawaii Youth Services Network, and one private citizen. Comments on the measure were submitted by the Department of Human Services and the Department of Public Safety.

Your Committees find that children of incarcerated parents are six to seven times more likely to become incarcerated themselves, and that if the State is to reduce the current trend of escalating incarceration rates and costs, the factors that contribute to incarceration must be addressed. Your Committees further find that the establishment of services and programs for children of incarcerated parents will help to maintain family bonds and motivate parents to rebuild positive family lives, which will, in turn, ultimately help to reduce recidivism.

Your Committees have amended this measure by changing its effective date to July 1, 2008.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Public Safety that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2763, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2763, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and the Chair on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Nishihara).

SCRep. 3074 Human Services and Public Housing on H.B. No. 2596

The purpose of this measure is to address the grave issue of children being injured or exposed to unreasonable risk of injury or neglect by parents, guardians, or caregivers who test positive for illegal drug use.

Specifically, this measure:

- (1) Requires the Department of Human Services to investigate reports of drug use on a home where a child resides within twenty-four hours;
- (2) Requires a parent, legal custodian, cohabitant or caregiver to participate in substance abuse treatment for at least one year before being awarded custody or supervision of a child; and
- (3) Establishes a system for the Department of Human Services to allow children to continue to reside in a pre-existing caregiver's safe home rather than enter foster care under certain conditions.

Testimony in support of this measure was submitted by one private citizen. Testimony in opposition to this measure was submitted by the Community Alliance on Prisons, the Drug Policy Forum of Hawai'i, and the American Civil Liberties Union of Hawai'i. Comments on the measure were submitted by the Department of the Attorney General, the Department of Health, the Department of Human Services, the Judiciary, and the Legal Aid Society of Hawai'i.

Your Committee finds that, although it is in the community's interest to seek to protect children from every harm possible, as commented on by several testifiers, section 1 of the measure may overly intrude on parents' fundamental rights. Your Committee finds that the other sections of the measure establish greater protections for children and that a task force can investigate, develop a plan and recommendations, and report on the conditions of children living in households in which there has been reported illicit drug use.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 of the measure to establish a task force convened by the Department of Human Services to examine situations that have resulted in a child fatality or serious injury, develop a plan to prevent injury or exposure to unreasonable risk of injury or neglect by parents, guardians, or caregivers who test positive for illegal drug use;
- (2) Removing the severability clause;
- (3) Changing the effective date to July 1, 2008; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2596, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2596, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Majority Leader on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 3075 Human Services and Public Housing on H.B. No. 2665

The purpose of this measure is to authorize the Hawaii Public Housing Authority to include, as part of a request for proposals for the construction or renovation of a public housing project, a price preference or scoring bonus for a person who proposes to redevelop concurrently low-income housing units on adjacent real property.

Testimony in support of this measure was submitted by the Hawaii Public Housing Authority.

Your Committee finds that this measure offers a worthwhile incentive for developers to build or renovate the maximum number of affordable housing units possible to help ease the shortage of affordable units in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2665, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2665, H.D. 1, S.D. 1, and be referred to the Committee on Tourism and Government Operations.

Signed by the Majority Leader on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 3076 (Joint) Human Services and Public Housing and Judiciary and Labor on H.B. No. 2520

The purpose of this measure is to amend the temporary disability insurance law to permit an eligible employee to collect up to four weeks of temporary disability insurance benefit payments to care for a family member with a qualifying disability.

Testimony in support of this measure was submitted by Representative Marilyn Lee, the Policy Advisory Board for Elder Affairs, the Hawaii Aging Advocates Coalition, the Hawaii Government Employees Association, Hawaii Teamsters and Allied Workers, Local 996, ILWU Local 142, the National Multiple Sclerosis Society, Kokua Council, and one private citizen. Testimony in opposition to this measure was submitted by Department of Labor and Industrial Relations, 3 Point Restoration Hawaii, Inc., Alakai Mechanical Corporation, Building Industry Association Hawaii, Delta Construction Corporation, the General Contractors Association of Hawaii, Grace Pacific Corporation, GP Roadway Solutions, GPRM Prestress LLC, the Hawaii Bankers Association, Hawaii Electric Light Company, Hawaiian Dredging Construction Company, Hawaiian Electric Company, Healy Tibbitts Builders, Inc., Hidano Construction, Inc., Jayar Construction, Inc., King & Neel, Inc., Kokea Construction and Consultants, Inc., Klopfenstein's Lighting Inc., Lindemann Construction Inc., Marsh USA, Master Sheet Metal, Inc., Maui Electric Company, Maui Paving LLC, the National Federation of Independent Businesses, Office Pavilion, Pacific Rim Partners, LLC, Projects Plus Inc., Ralph S. Inouye Co., Ltd., Retail Merchants of Hawaii, Royal Contracting Co., Ltd., S & M Sakamoto, Inc., S & S Taylan Inc., Society for Human Resource Management Hawaii Chapter, and Title Guaranty Escrow Services, Inc.

Your Committees find that while it is a worthwhile endeavor to promote measures to allow the elderly to age at home, and thus support the many family caregivers who make this possible, it is clear from the testimony received on this measure that more time must be committed to exploring alternative means of providing financial support for family caregivers in Hawaii that could potentially include a Temporary Disability Insurance component, but could also include income tax credits, unemployment insurance benefits, and other potential mechanisms.

Accordingly, your Committees have amended this measure by:

- (1) Replacing its contents with that of S.B. 2044, S.D. 1, which creates a working group to address issues concerning support of family caregivers; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2520, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2520, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader and the Chair on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Hooser, Nishihara).

SCRep. 3077 Human Services and Public Housing on H.B. No. 3140

The purpose of this measure is to make an emergency general funds appropriation to repay the Department of Budget and Finance for a loan made to cover payroll and risk management costs for liability insurance for the Hawaii Public Housing Authority in fiscal year 2006-2007, and to address budget deficits for certain public housing programs.

Testimony in support of this measure was submitted by the Hawaii Public Housing Authority and the Office of Hawaiian Affairs.

Your Committee finds that for most of its history, the Hawaii Public Housing Authority has been a self-supporting agency, and that the availability of affordable housing for Hawaii residents made possible through the Authority's necessary programs should not be stymied because of the funding issues that this measure addresses.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3140, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 3078 Human Services and Public Housing on H.B. No. 2511

The purpose of this measure is to provide qualified rental assistance applicants up to ninety days to find a qualified rental dwelling.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and one private citizen. Testimony in opposition to this measure was submitted by the Hawaii Centers for Independent Living. Written comments on the measure were submitted by the Hawaii Public Housing Authority.

Your Committee finds that lower income households can face significant challenges finding an affordable rental housing unit, largely due to the insufficient number of such units. Your Committee finds that this measure would give these households the extra time needed to secure a rental unit that is both affordable and appropriate for their household size and composition.

Accordingly, your Committee has amended this measure by replacing its contents with that of S.B. No. 3172, which provides qualified rental assistance applicants up to six months to find a qualified rental dwelling.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2511, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2511, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Sakamoto).

SCRep. 3079 Human Services and Public Housing on H.B. No. 2062

The purpose of this measure is to allow for the transfer of Medicaid funds from a nursing facility or long-term care-based facility to pay for home- and community-based long-term care and services when a Medicaid-eligible individual elects to remain and receive care at home.

Testimony in support of this measure was submitted by the Hawaii Disability Rights Center, the Policy Advisory Board for Elder Affairs, the Fil-Am Courier, the Filipino American Citizens League, the Filipino Coalition for Solidarity, the Congress of Visayan Organizations, the Hawaii Coalition of CareGivers, Hawaii Centers for Independent Living, the National Federation of Filipino American Associations, Nursing Advocates & Mentors, Inc., the Oahu Filipino Community Council, the Philippine Nurses Association-Hawaii, and the United Filipino Council of Hawaii. Written comments on the measure were submitted by the Department of Human Services.

Your Committee finds that Medicaid payments are often made to acute care facilities far in excess of what might be paid to home- and community-based care providers, in some situations when community-based care would be more appropriate. As of 2006, Hawaii spent 82.7 per cent of its long-term care budget to pay for institutional care, leaving only 17.3 per cent in the communities. This measure would give qualified nursing home patients the option of being cared for by family members at home or by a residential care provider in the community, thereby creating greater choice, potential for cost savings, and an enhanced quality of life. Further, giving flexibility to the Department of Human Services and the ability to transfer Medicaid funds to pay more for community-based care should help to facilitate the placement of especially "challenging" patients to move from acute care to community-based care.

Your Committee has amended this measure by changing its effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2062, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2062, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 3080 (Majority) Human Services and Public Housing on H.B. No. 2047

The purpose of this measure is to support asset-building among low- and moderate-income families by:

- (1) Amending the guidelines for individual development accounts;
- (2) Designating the Department of Human Services to administer the individual development account program;
- (3) Adding one motor vehicle to the list of qualified account expenditures; and
- (4) Amending the funding mechanisms of the individual development account program and appropriating funds therefor.

Testimony in support of this measure was submitted by the Department of Human Services, the Hawai'i Alliance for Community-Based Economic Development, the Legal Aid Society of Hawai'i, and Aloha United Way.

Your Committee finds that individual development accounts are vital tools in assisting individuals with improving their financial literacy and encouraging saving toward the goal of homeownership, degrees in higher education, or owning a small business. Your Committee further finds that this measure would substantially widen the current individual development account program's impact.

Your Committee has amended this measure by:

- (1) Incorporating the joint comments made by the Legal Aid Society and the Department of Human Services by expanding the definition of "department" in section 2 of the measure to mean "the Department of Human Services or another state agency";
- (2) Changing its effective date to July 1, 2008; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2047, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2047, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, 1 (Hemmings). Excused, 1 (Chun Oakland).

SCRep. 3081 Commerce, Consumer Protection and Affordable Housing on H.B. No. 94

The purpose of this measure is to provide protections for terminally or chronically ill consumers and healthy, elderly consumers who wish to sell their insurance policies to third party brokers in return for a portion of the death benefit.

Specifically, this measure regulates the life settlement industry by adopting the National Conference of Insurance Legislators' (NCOIL) Life Settlements Model Act by allowing the Insurance Commissioner of the Insurance Division, Department of Commerce and Consumer Affairs to:

- (1) License brokers who negotiate life settlement contracts on behalf of the life insurance policy's owner;
- (2) License providers who effectuate life settlement contracts with the owner; and
- (3) Conduct investigations and examinations of brokers and providers.

Testimony in support of this measure was submitted by the American Council of Life Insurers, and the National Association of Insurance and Financial Advisors Hawaii. The Department of Commerce and Consumer Affairs and the Life Settlements Institute submitted comments.

Life settlements contracts, when done properly, provide a means for consumers to make use of the value in their life insurance contracts when their life circumstances put them in a situation where they need funds. A life settlement is the sale to a third party of a previously issued and in-force existing life insurance policy for more than its cash surrender value but less than its net death benefit. Your Committee finds that this measure, which adopts the NCOIL's Life Settlements Model Act, will provide added protections for insureds who may be enticed into entering a life settlement contract and face unexpected taxes, transaction fees, loss of insurance capacity, legal costs, and loss of privacy with respect to their medical records.

Your Committee has amended this measure by:

- (1) Deleting the definition for "stranger-originated life insurance" or "STOLI" and replacing it with language that defines "stranger-oriented life insurance" or "STOLI", which provides further clarity and consistency; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 94, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 94, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3082 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2408

The purpose of this measure is to provide further oversight, regulation, and licensure of mortgage brokers and solicitors in the State by amending chapter 454, Hawaii Revised Statutes, relating to mortgage brokers and solicitors.

Specifically, this measure extensively amends chapter 454, Hawaii Revised Statutes, by:

- (1) Transferring regulatory oversight within the Department of Commerce and Consumer Affairs from the Director of Commerce and Consumer Affairs to the Commissioner of Financial Institutions;
- (2) Providing exemptions from the mortgage broker law;
- (3) Expanding licensing and license renewal requirements for mortgage brokers and loan originators;
- (4) Authorizing the Commissioner of Financial Institutions to examine mortgage brokers and solicitors (renamed as loan originators) for compliance with laws, and to impose fines and suspend, restrict, revoke, or terminate licenses for violations;
- (5) Defining advertising requirements;
- (6) Allowing participation in the uniform multistate automated licensing system; and
- (7) Establishing fines and penalties for enforcement purposes.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; State Farm Insurance Companies; the Hawaii Association of Mortgage Brokers; Primerica Financial Services Home Mortgages, Inc.; the Hawaii Financial Services Association; the Hawaii Credit Union League; the ILWU Local 142; and eleven private individuals. Testimony in opposition to this

measure was submitted by the Department of Commerce and Consumer Affairs, the Hawaii Bankers Association, and the Mortgage Bankers Association of Hawaii.

The residential real estate boom of the past several years, which has only recently come to an abrupt end, spawned a significant number of national complaints against mortgage brokers. These complaints continue as borrowers find that what they had understood to be a "good" loan was in fact not as good as expected. Increased loan rates, prepayment penalties, esoteric repayment schedules and fraud have all contributed to create what the U.S. Federal Bureau of Investigation has termed, "the fastest growing white collar crime in the country." While the volume of complaints in Hawaii has not been as overwhelming as that seen on the mainland, complaints here are tracking on a continuous and disturbing upward trend, which shows little signs of declining.

The responsibility for the licensing of mortgage brokers and loan originators (or mortgage solicitors) currently rests with the Professional and Vocational Licensing (PVL) Division of the Department of Commerce and Consumer Affairs pursuant to chapter 454, Hawaii Revised Statutes. PVL's oversight of mortgage brokers and solicitors is essentially limited to the registration of licensed brokers and solicitors. Your Committee finds that mere registration is no longer adequate in light of the problems within the lending industry and a unified, effective, and seamless supervision of the residential mortgage industry's activities in the State is needed to protect Hawaii consumers and homeowners. Consumer interests will be better protected by charging a single division (Division of Financial Institutions of the Department of Commerce and Consumer Affairs) with the overall supervision of the licensing, examination, and regulation of mortgage brokers and loan originators.

Your Committee notes the concerns raised and various suggested amendments submitted to improve this measure, and recognizes the efforts made by various parties who worked together in developing language to effectively and efficiently regulate the residential mortgage industry. Your Committee recognizes the federal legislation regarding the regulation of mortgage brokers currently pending in Congress, and has considered amending language in the submitted proposed drafts of this measure to ensure that, if enacted, this measure will correspond with the federal legislation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with language proposed by the Department of Commerce and Consumer Affairs that:
 - (A) Clarifies exemptions and prohibited activities;
 - (B) Authorizes the Commissioner of Financial Institutions to establish application requirements;
 - (C) Authorizes the participation in a uniform multistate automated licensing system to expedite licensing procedures and information sharing;
 - (D) Authorizes the Division of Financial Institutions to examine licensees and provides for the confidentiality of all examination related information;
 - (E) Authorizes the Commissioner of Financial Institutions to investigate or enjoin any individual for violations, and to set fees, commissions, and charges for licenses;
 - (F) Establishes a fine of not more than \$5,000 for a violation, or imprisonment of not more than one year, or both, or a fine not more than \$10,000 for a violation that includes conduct that is directed towards or committed against an elder;
 - (G) Regulates advertising of mortgage broker or loan originator services;
 - (H) Regulates the requirements for written agreements for any transaction between a mortgage broker or a loan originator and a borrower;
 - (I) Amends various sections of the Hawaii Revised Statutes to implement the transition and implementation of the mortgage brokers law under the Division of Financial Institutions;
 - (J) Repeals chapter 454, Hawaii Revised Statutes, relating to the licensing and regulation of mortgage brokers and solicitors;
 - (K) Appropriates \$140,000 out of the Compliance Resolution Fund to carry out the purposes of the measure, including the hiring of additional staff for the Division of Financial Institutions; and
 - (L) Establishes a timeline to phase-out the licenses issued under chapter 454, Hawaii Revised Statutes, and implement requirements for licenses issued under the new chapter relating to mortgage brokers and loan originators;
- (2) Inserting an effective date of July 1, 2008 to ensure further discussion on this matter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2408, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2408, H.D. 1, S.D. 1, and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3083 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2527

The purpose of this measure is to promote smart growth principles and sustainability by establishing a system of greenways and trails, and allowing for the coordination of smart growth planning in the State.

Specifically, this measure:

- (1) Amends chapter 198D, Hawaii Revised Statutes, by requiring the Department of Land and Natural Resources to establish a statewide greenways and trails system; and
- (2) Amends chapter 225M, Hawaii Revised Statutes, by requiring the Office of Planning to coordinate efforts to incorporate the principles of smart growth in new and existing communities in the State.

Testimony in support of this measure was submitted by the Hawaii Association of Realtors and the Windward Ahupua'a Alliance. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources. Comments were submitted by the Office of Planning; the Department of Planning and Permitting, City and County of Honolulu; and one private individual.

Your Committee finds that given Hawaii's limited natural resources, the implementation of smart growth principles is crucial to the sustainability of the State. Smart growth principles are successful when government agencies make combined and coordinated systematic changes that are consistent with community planning and development, and land preservation.

Although your Committee recognizes that establishing a greenways and trails system creates and ensures a more sustainable future for the State, it also recognizes that requiring the Department of Land and Natural Resources to establish a system of greenways and trails under chapter 198D, Hawaii Revised Statutes, relating to the Na Ala Hele program may not be appropriate. Instead, your Committee believes that a coordinated, combined effort of government agencies is needed to develop a plan to establish a statewide greenways and trails system.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that requires the Department of Land and Natural Resources to establish a statewide greenways and trails system;
- (2) Inserting the contents of S.B. No. 2832, S.D. 1, which requires the State, in a combined effort with all state departments and agencies to develop and maintain sustainable communities that will:
 - (A) Generate at least fifty per cent of all of the energy requirements for the entire community under development, including but not limited to, residential homes and areas and services for and used by the entire community under development, primarily from alternative energy sources;
 - (B) Implement a comprehensive recycling program that will enable the community to divert at least seventy-five per cent of its solid waste from the landfills;
 - (C) Implement an extensive community wastewater recycling and treatment management system that would enable the community under development to treat and recycle all of its wastewater for landscaping water requirements onsite of the community and any agricultural water irrigation requirements offsite of the community;
 - (D) Implement an extensive water conservation management plan that would enable the community under development to conserve water by using various methods, including but not limited to rain water harvesting to use for landscaping, non-potable uses, and low flow toilets and showers;
 - (E) Protect and preserve open space by designating at least fifty per cent of the entire tract of land for the residential community for open space; provided that open space shall not include areas designated for golf courses; and provided further that open space shall include the shoreline, if the planned community abuts and includes shoreline space;
 - (F) Promote and encourage visitation to any nearby cultural or historical sites, public beaches, shores, trails, and other outdoor recreational areas by not restricting public access to these areas; and
 - (G) Provide affordable housing units by designating and reserving at least thirty per cent of all of its residential units within the planned community for affordable housing units for residents to enable them to stay in Hawaii and provide shelter for their families;
- (3) Adding language that requires the Office of Planning to develop a plan to establish a statewide system for greenways and trails by:
 - (A) Coordinating and consulting with the Department of Transportation and the Department of Land and Natural Resources;
 - (B) Seeking input from the counties;
 - (C) Investigating and exploring other jurisdictions that have established and implemented a greenways and trails system;
 - (D) Investigating the use of transportation enhancement funds to establish and implement a statewide greenways and trails system; and
 - (E) Establishing a timeline in implementing a greenways and trails system;
- (4) Inserting an effective date of July 1, 2050 to ensure further discussion on this matter; and
- (5) Making technical, nonsubstantive and conforming amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2527, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2527, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3084 (Joint) Commerce, Consumer Protection and Affordable Housing and Judiciary and Labor on H.B. No. 2302

The purpose of this measure is to modernize certain functions of the Bureau of Conveyances by amending chapter 502, Hawaii Revised Statutes, to enable the Bureau of Conveyances to accept and use electronic records and signatures.

Specifically, this measure:

- (1) Permits the Registrar of the Bureau of Conveyances to accept electronic documents with electronic signatures for recording; and
- (2) Requires the Judiciary to study the effects that electronic recording may have on the adjudication of Land Court applications, and the permissible uses for electronic recording.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Hawaii Association of Realtors, Wyndham Worldwide, the Commission to Promote Uniform Legislation, the American Resort Development Association, Hilton Grand Vacations Club, and the Hawaii Land Title Association. The Judiciary submitted comments.

Your Committees find that the widespread enactment of the Uniform Electronic Transactions Act and the federal Electronic Signatures in Global and National Commerce Act has made it possible to treat sales contracts, mortgage instruments, and promissory notes that are memorialized in electronic form with electronic signatures to be equivalent to paper documents with manual signatures. Currently, the Registrar at the Bureau of Conveyances is required to accept only original paper instruments with original signatures for recordation in the Regular System and the Land Court system, and changes in statute are necessary in order for the Registrar to accept documents electronically.

Although there is a need to modernize certain functions at the Bureau of Conveyances, your Committees have concerns that amending the statute to allow electronic filing and use of documents may be premature, especially in light of the concerns raised by the Judiciary as well as the findings in the draft report submitted by Joint Senate-House Investigative Committee on the Bureau of Conveyances established under S.C.R. No. 226 (2007). Your Committees note the numerous questions and concerns that have been raised relating to the electronic record keeping system already installed at the Bureau of Conveyances, especially with respect to the oversight and maintenance of the current system and the security of the documents electronically deposited and archived in the system. Although testimony indicated that a working group established by the Department of Land and Natural Resources has strongly recommended automating the filing and recordation of Bureau documents, more information regarding feasibility, cost, and impact is needed before a new electronic filing system is installed at the Bureau of Conveyances.

Accordingly, your Committees have amended this measure by:

- (1) Deleting any language that amends chapter 502, Hawaii Revised Statutes, that permits the Registrar of the Bureau of Conveyances to accept electronic documents with electronic signatures for recording;
- (2) Adding language that requires the Department of Land and Natural Resources to conduct a feasibility study to include:
 - (A) Making an assessment of the current electronic record keeping system at the Bureau of Conveyances;
 - (B) Determining how a new electronic filing system will be implemented at the Bureau of Conveyances;
 - (C) Determining the impact that electronic filing will have on the Bureau of Conveyances, its operations, and to the public;
 - (D) Determining the cost of installation and maintenance of a new electronic filing system;
 - (E) Establishing a time frame for procuring, implementing, and getting a new electronic filing system up and running at the Bureau of Conveyances;
 - (F) Exploring the electronic filing systems in other jurisdictions and the impact the electronic filing has on that jurisdiction; and
 - (G) Addressing any concerns raised with respect to the current computer system at the Bureau of Conveyances in the Joint Senate-House Investigative Committee report as well as the investigation by the Department of the Attorney General and the ethics probe by the Hawaii State Ethics Commission, if those reports are released during the study;
- (3) Adding language that requires the Department of Land and Natural Resources to submit a written report of its findings and recommendations prior to the 2009 Regular Session;
- (4) Inserting an effective date of July 1, 2010, to ensure further discussion on this matter; and
- (5) Making technical, nonsubstantive or conforming amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2302, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2302, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees . Ayes, 8. Ayes with Reservations, 2 (Slom, Trimble). Noes, none. Excused, 3 (Hee, Ihara, Nishihara).

SCRep. 3085 Judiciary and Labor on H.B. No. 2998

The purpose of this measure is to establish the Adam Walsh Act Compliance Working Group, in conformance with the mandates of the federal Adam Walsh Child Protection and Public Safety Act of 2006 (Public Law No. 248-109, the "Adam Walsh Act").

Your Committee received testimony in support of this measure from the Department of Public Safety and State Public Defender. Comments were received from the State Attorney General and American Civil Liberties Union of Hawai'i. Testimony in opposition was received from the Honolulu Police Department.

The Adam Walsh Act requires the fifty states, the District of Columbia, the five principal United States territories, and federally recognized Indian tribes that function as sex offender registration jurisdictions to conform their laws to guidelines for sex offender registration adopted by the Department of Justice by July 29, 2009. Failing substantial compliance with the guidelines, a jurisdiction faces the loss of ten per cent of any federal funds it may receive pursuant to the Edward Byrne Memorial Justice Assistance Grant program.

The Adam Walsh Act Compliance Working Group will report to the 2009 Legislature on draft legislation, among other things, to bring the State into compliance with the Adam Walsh Act and implementation guidelines.

Your Committee has amended this measure by:

- (1) Adding a representative of the American Civil Liberties Union and the Hawaii Criminal Defense Attorneys Association to the membership of the Adam Walsh Compliance Working Group; and
- (2) Requiring the Working Group to review the provisions of H.B. No. 3040 and H.B. No. 3040, H.D.1, as it relates to the sex offender registry laws.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2998, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2998, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3086 Judiciary and Labor on H.B. No. 2698

The purpose of this measure is to clarify the existing two-tier fee schedule for reasonable compensation paid by the family court to appointed counsel and guardians ad litem.

Your Committee received testimony in support of this measure from the Judiciary.

The intent of this measure, according to testimony of the Judiciary, is to clarify Act 218, Session Laws of Hawaii 2007, to distinguish the types and conditions of services provided by court appointed counsel and guardians ad litem, including Hawaii licensed attorneys and other persons who are not licensed to practice law in this State. The actual rate of compensation of \$90 and \$60 per hour depending on the level of services, as provided in Act 218, is not changed. Furthermore, this measure does not preclude the Judiciary from contracting for court-appointed counsel and guardian ad litem services under the procurement law.

Your Committee has amended this measure by changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2698, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2698, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Kokubun, Nishihara).

SCRep. 3087 Judiciary and Labor on H.B. No. 2387

The purpose of this measure is to:

- (1) Clarify the workers' compensation law to require fees for examination by an impartial physician to be paid from the Special Compensation Fund in addition to other funds appropriated by the Legislature for use by the Department of Labor and Industrial Relations; and
- (2) Make an unspecified appropriation out of the Special Compensation Fund for departmentally-ordered examinations by impartial physicians pursuant to the workers' compensation law.

Your Committee received testimony in support of this measure from the ILWU Local 142 and Hawaii Government Employees Association. Testimony in opposition was received from the Department of Labor and Industrial Relations; Department of Human Resources Development; Hawaiian Electric Co. Inc.; Maui Electric Company, Ltd.; Hawaii Electric Light Company, Inc.; American Insurance Association; Hawaii Insurers Council; and one individual.

Your Committee recognizes the importance of independent medical examinations in the workers' compensation claim process. However, independent medical examinations occur frequently and can become costly. Your Committee believes that the issue of whether the Special Compensation Fund should be required to pay for the examinations needs further study, inasmuch as the original intent of the Special Compensation Fund does not appear to be for this purpose and would divert moneys from compensating injured workers.

Accordingly, your Committee has amended this measure by deleting its contents and inserting a provision to establish a working group on funding for workers' compensation independent medical examinations to study and report to the 2009 Legislature on the preferred methods of paying for independent medical examinations.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2387, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2387, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3088 (Majority) Judiciary and Labor on H.B. No. 2388

The purpose of this measure is to clarify workers' compensation law on the provision of medical care, services, and supplies, that when a dispute exists between an injured employee and the employer or the employer's insurer regarding a proposed treatment plan or whether medical services should be continued, the injured employee shall continue to receive essential medical services until the Director of Labor and Industrial Relations issues a decision on whether the injured employee's medical treatment should be continued.

This measure further provides that if the Director of Labor and Industrial Relations determines that medical services pursuant to the treatment plan should be or should have been discontinued, the Director shall designate the date after which medical services under that treatment plan are denied. The employer or the employer's insurer may recover from the claimant's personal health care provider, or from any other appropriate occupational or non-occupational insurer, all the sums paid for medical services rendered after the date designated by the Director. The attending physician, injured employee, employer, or insurance carrier may request in writing that the Director review the denial of the treatment plan or the continuation of medical services.

Your Committee received testimony in support of this measure from the Hawaii State Chiropractic Association; Hawaii Government Employees Association; Hawaii Chapter, American Physical Therapy Association; Hawaii State Teachers Association; ILWU Local 142; and two attorneys. Testimony in opposition was received from the Department of Human Resources Development, Department of Labor and Industrial Relations, American Insurance Association, Building Industry Association-Hawaii, The Chamber of Commerce of Hawaii, General Contractors Association of Hawaii, Hawaii Independent Insurance Agents Association, Hawaii Insurers Council, Hawaiian Electric Co. Inc., Maui Electric Company, Ltd., Hawaii Electric Light Company, Inc., National Federation of Independent Businesses, Property Casualty Insurers Association of America, Retail Merchants of Hawaii, Society for Human Resource Management Hawaii, and three individuals.

Your Committee finds that when a dispute exists between an injured employee and the employer or the employer's insurer regarding a proposed treatment plan or whether medical services should be continued, the injured employee should continue to receive essential medical services until the Director issues a decision on whether the injured employee's medical treatment should be continued. The intent of your Committee is to protect the injured worker by assuring a continuation of medical care while any disputes are being adjudicated administratively.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2388, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2388, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 3089 Judiciary and Labor on H.B. No. 2772

The purpose of this measure is to amend Act 260, Session Laws of Hawaii 2006, relating to protection for victims of human trafficking, to clarify the membership of the Hawaii Anti-Trafficking Task Force and to extend the reporting date to 2010 for the Task Force final report to the Legislature.

This measure also appropriates an unspecified amount for travel and clerical expenses of the Hawaii Anti-Trafficking Task Force and extends the cease-to-exist date of the Task Force to June 30, 2010.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Honolulu Department of the Prosecuting Attorney, and The Sex Abuse Treatment Center.

This measure adds the following to the membership of the Hawaii Anti-Trafficking Task Force: the Immigration Information Office of the County of Hawaii, Crime Victim Compensation Commission, Office of the Gender Equity Counselor of the University of Hawaii, Hawaii State Coalition Against Domestic Violence, Hawaii contractees for services under the Office of Refugee Resettlement of the United States Department of Health and Human Services, and Hawaii contractees for services under the United States Conference of Catholic Bishops. Your Committee finds that all of the added entities play an integral part in the purposes of the Task Force.

Your Committee has amended this measure by deleting its contents and inserting provisions of S.B. No. 2818, S.D. 2, a similar measure, which also:

- (1) Adds the State Public Defender to the membership;
- (2) Adds a reporting date of 2009 for an interim report;
- (3) Clarifies that the final report shall include findings and recommendations and any proposed legislation;
- (4) Changes the effective date of the Act to July 1, 2008, and changes the effective date of amendments to the Task Force to June 29, 2008; and
- (5) Makes technical formatting changes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2772, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2772, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Kokubun, Nishihara).

SCRep. 3090 (Majority) Judiciary and Labor on H.B. No. 2386

The purpose of this measure is to make amendments to the provision of temporary total disability (TTD) benefits under the workers' compensation law to:

- (1) Allow for the termination of TTD benefits if the employee's treating physician determines that the employee is able to resume work and the employer has made a bona fide offer of suitable work within the employee's medical restrictions, upon order of the Director of Labor and Industrial Relations (Director) after a full and fair hearing;
- (2) Clarify that when the employer is of the opinion that benefits should be terminated, the Director shall hold a hearing and render a prompt decision indicating whether the benefits should have been discontinued, and if so, the date of discontinuance; whereupon the employer may request the Director to issue a credit for the amount of benefits paid by the employer after the date that the Director has determined should have been the last date of payment;
- (3) Clarify that an employee is entitled to receive a weekly benefit equal to seventy per cent of the injured employee's average weekly wages, or a maximum weekly income benefit based upon the state average weekly wage applicable on the date compensation was first received, under specified conditions; and
- (4) Require the employer or insurance carrier who fails to comply with the section to pay attorney's fees and costs to the employee for enforcement of the section.

Your Committee received testimony in support of this measure from the ILWU Local 142; Hawaii State Teachers Association; Hawaii Chapter, American Physical Therapy Association; Hawaii State Chiropractic Association; and two individuals. Testimony in opposition was received from the Department of Human Resources Development; Department of Labor and Industrial Relations; Associated Builders and Contractors of Hawaii; American Insurance Association; Building Industry Association – Hawaii; The Chamber of Commerce of Hawaii; General Contractors Association of Hawaii; Hawaii Independent Insurance Agents Association; Hawaii Insurers Council; Hawaiian Electric Co. Inc.; Maui Electric Company, Ltd.; Hawaii Electric Light Company, Inc.; Kaua'i Chamber of Commerce; National Federation of Independent Businesses; Property Casualty Insurers Association of America; Retail Merchants of Hawaii; Society for Human Resource Management Hawaii; and two individuals.

Your Committee finds that injured workers need to be paid workers' compensation benefits for TTD as soon as possible, without regard to whether the employer controverts the claim. Your Committee further finds that employees receiving TTD benefits should be offered other suitable work by the employer. Your Committee notes that this measure still protects the employer's procedural rights to contest a claim. Your Committee further finds that a benefit of seventy per cent of the injured employee's average weekly wage for a permanent or total disability is reasonable and in keeping with the cost of living.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue discussions in this matter, and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2386, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2386, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 3091 (Majority) Judiciary and Labor on H.B. No. 3422

The purpose of this measure is to expand and increase the surcharge in state district court cases, and increase the filing fee in state circuit court cases, to fund indigent legal services.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center, Hawaii Disability Rights Center, Hawaii Justice Foundation, Legal Aid Society of Hawai'i, Hawaii State Bar Association, Na Loio, and Hawai'i Access to Justice Hui. Testimony in opposition was received from the Collection Law Section of the Hawaii State Bar Association and one individual.

The Access to Justice Hui's final report of November 2007 found that four out of five low- and moderate-income residents do not have their legal services needs met and that legal service providers are only able to assist one in three who contact them for assistance. Your Committee finds that to increase the delivery of legal services, more funding is necessary and can be generated by increasing the surcharge for indigent legal services, as recommended by the Access to Justice Hui.

Your Committee notes the concerns of testifiers to the effect that:

- (1) This measure expands the applicability of the surcharge and increases the surcharge to all cases filed in state district court, which could work to the detriment of complainants in all types of cases;
- (2) This measure would increase the filing fee in the circuit courts, which would likely produce greater revenue inasmuch as these cases involve multiple filings by multiple parties in the same case;
- (3) This measure effectively operates as a tax on access to justice in the courts; and
- (4) Litigants in summary judgment cases, for example, rarely recover the amount of the delinquent rent so they are placed at a disadvantage at the outset of the filing of papers because they cannot make up for the cost of the filing fees.

Your Committee encourages further discussion in this regard as this measure progresses through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3422, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Nishihara). Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 3092 Public Safety on H.B. No. 2685

The purpose of this measure is to direct the Department of Public Safety and Office of Planning to plan and design the construction and operation of a new minimum-security facility that has appropriate access to various support facilities and services for the inmates.

Specifically, this measure requires that the new minimum-security facility have access to courts, public transportation, other support services.

Testimony in support of this measure was submitted by the Hawaii Building and Construction Trades Council, AFL-CIO. Testimony in opposition of this measure was submitted by the Department of Public Safety, Community Alliance on Prisons, and four individual citizens. Comments on this measure were submitted by the Office of Planning.

Your Committee finds that providing inmates with support facilities, such as a drug rehabilitation center, and support services, such as transitional or reintegration programs, that are in a close proximity to a correctional facility is a very important step in the inmate being successfully reintegrated into the community.

Accordingly, your Committee has amended this measure by:

- (1) Deleting references to the Office of Planning and replacing those references with the Department of Accounting and General Services; and
- (2) Amending this measure to include an emphasis on the establishment of a drug rehabilitation center and transitional or reintegration programs.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2685, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2685, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Nishihara).

SCRep. 3093 (Joint) Public Safety and Water and Land on H.B. No. 3016

The purpose of this measure is to assist and protect law enforcement officers of the Department of Land and Natural Resources Division of Conservation and Resources Enforcement Program in carrying out their duties.

Specifically, this measure authorizes, upon proper accreditation or credentialing, Division of Conservation and Resources Enforcement officers to carry and use electric guns while on duty and to appropriate funds to the Department of Land and Natural Resources to establish an accreditation or credentialing program, purchase the electric guns and related equipment, and to train the law enforcement officers.

Testimony in support of this measure was submitted by Department of Land and Natural Resources, Hawaii Government Employees Association, The Nature Conservancy, the Hawaii Rifle Association, and five individual citizens. Testimony in opposition of this measure was submitted by one individual citizen. Comments on this measure were submitted by the Department of Public Safety (PSD).

Your Committees find that providing a means for the law enforcement officers to successfully perform their job responsibilities is very important to protecting citizens of Hawaii and our natural resources. Providing the law enforcement officers with electric guns, rather than weapons with lethal force, enables the officers to do their jobs in a safe work environment.

The PSD has informed your Committees that while the measure allows the law enforcement officers in the Sheriff Division of the PSD to carry and use electric guns, it fails to allow investigators of the Narcotics Enforcement Division of the PSD to carry and use electric guns. The PSD suggests that both of its law enforcement divisions require the use of electric guns.

Accordingly, your Committees have amended this measure by allowing enforcement officers of the PSD, including investigators of the Narcotics Enforcement Division as well as law enforcement officers of the Sheriff Division, to carry and use electric guns.

As affirmed by the records of votes of the members of your Committees on Public Safety and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3016, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3016, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Tokuda, Whalen).

SCRep. 3094 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 509

The purpose of this measure is to prohibit a towing company from charging the owner of a vehicle targeted for towing if the owner of the vehicle appears on the scene.

Testimony in support of this measure was received from the Department of Commerce and Consumer Affairs, Waialae Towing, and D&H Towing.

Your Committees have heard and approved a comparable measure, H.B. No. 2954, S.D. 1, which incorporates the language in this measure.

Therefore, your Committees have amended this measure by deleting its content and replacing it with new language to:

- (1) Amend chapter 261, Hawaii Revised Statutes, to establish a Rental Motor Vehicle Customer Facility Charge Special Fund (Fund) for the enhancement, renovation, operation, and maintenance of existing rental motor vehicle customer facilities and the development of new rental motor vehicle customer facilities at state airports;
- (2) Amend section 261-7, Hawaii Revised Statutes, to authorize the Department of Transportation to establish and collect a monthly rental motor vehicle customer facility charge for deposit in the Fund;
- (3) Amend other sections of Hawaii Revised Statutes, as appropriate, to reference the new Fund;
- (4) Authorize the Department of Transportation, as of September 1, 2008, to collect a \$1 daily charge on rentals at state airports, until the sum of \$25,000,000 is collected and deposited in the Fund;
- (5) Appropriate out of the Fund the sum of \$7,000,000 for:
 - (A) Planning and design of rental motor vehicle customer facilities at state airports; and
 - (B) Improvement, pavement, construction, and fencing to an existing ground-level storage area shared by rental motor vehicle concessions at the state airport located in Kahului, Maui; and
- (6) Provide an effective date of July 1, 2008.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 509, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 509, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3095 (Majority) Tourism and Government Operations on H.B. No. 3386

The purpose of this measure is to establish procedures to allow the employment or retention of outside attorneys by any court, judicial office, legislative office, board, commission, or agency.

Your Committee received testimony in support of this measure from the Judiciary. Testimony in opposition was received from the State Attorney General.

Your Committee finds that ethical conflict of interest may preclude the State Attorney General from representing any of the state entities simultaneously in the same matter. A typical example is legislative investigative committees which have a state department or agency as the subject of the investigation. The State Attorney General has the duty, pursuant to section 26-7, Hawaii Revised Statutes, to provide legal services to the Governor, Legislature, and state departments. However, this duty must be balanced against Rule 1.7, Conflict of Interest: General Rule, of the Hawai'i Rules of Professional Conduct as adopted and promulgated by the Hawaii Supreme Court, which does provide some leeway for representation in spite of a potential conflict of interest upon specified conditions and procedures.

Accordingly, your Committee has amended this measure:

- (1) To provide procedures in potential conflict of interest situations involving the State Attorney General in the representation of any court or judicial or legislative office of the State. Your Committee has endeavored to craft the language to mirror as much as possible Rule 1.7, which is the arbiter of professional conduct for attorneys; and
- (2) To change the effective date to upon its approval.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3386, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3386, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Trimble). Excused, 1 (Tsutsui).

SCRep. 3096 (Joint) Economic Development and Taxation and Education on H.B. No. 2429

The purpose of this measure is to create the University of Hawaii Stadium Corporation and transfer the duties of maintenance, operation, management, and improvement of Aloha Stadium from the Stadium Authority to the University of Hawaii Stadium Corporation.

Testimony in support of this measure was received from the Hawaii Government Employees Association, Local 152, AFL-CIO. The Department of Accounting and General Services (DAGS), the Chairperson of the Stadium Authority, the Aloha Stadium Swap Meet Vendor's Association, Bubble Shack Hawaiian Soap Company, and three individuals, including two Swap Meet vendors, testified in opposition. The Aloha Stadium Manager, the State Procurement Office, the University of Hawai'i System (University), and one individual submitted comments.

Your Committees are well aware of both the benefits and the deficiencies of Aloha Stadium. As recently as 2005, DAGS contracted for a planning study for Aloha Stadium. The final report, published in December 2005, included findings and recommendations related to a conditional survey, structural safety, capital improvements, stadium enhancements, and new stadium options.

Your Committees are in agreement that Aloha Stadium should be maintained to maximize the current use and income from the varied activities. However, your Committees are also in agreement that it may not be in the best long-term interests of the public to maintain the current stadium in perpetuity.

Your Committees have amended this measure accordingly, by deleting its content and replacing it with a study of the feasibility of constructing a new recreational stadium in West Oahu. Specifically, this measure:

- (1) Amends the findings and purpose section to reflect the other changes;
- (2) Requires the University, with the assistance of other public and private sector entities involved in the development of West Oahu, to study the feasibility of constructing a new recreational stadium in West Oahu;
- (3) Authorizes the study to include:
 - (A) The focus of a new stadium;
 - (B) Possible sites located in or near regional growth centers in the West Oahu region;
 - (C) Funding and development options; and
 - (D) Alternative uses for the current Aloha Stadium facility and site, as a means of financing the new stadium;
- (4) Requires the University to consider and update as necessary the December 2005 Aloha Stadium Planning Study Final Report;
- (5) Requires the University to submit the findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2009;
- (6) Appropriates funds from the Stadium Special Fund to be expended by the University for the study; provided that the University provides in-kind or other resources as appropriate to conduct the study; and
- (7) Makes the measure effective upon approval with the appropriation effective on July 1, 2008.

Your Committees wish to assure the current users of Aloha Stadium that it is not the intent of the Committees to adversely impact any of the current activities during the conduct of the study.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2429, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2429, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and the Vice Chair on behalf of the Committees. Ayes, 9. Noes, none. Excused, 4 (Chun Oakland, Hee, Ige, Slom).

SCRep. 3097 (Joint) Economic Development and Taxation and Education on H.B. No. 2587

The purpose of this measure is to support creative educational programs by appropriating funds for:

- (1) Creativity academies, including equipment, training, instructors;
- (2) Marketing for the creative or production center incubator; and
- (3) Development of a turnkey digital media program that can be replicated for use in the University of Hawaii community colleges.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism; the University of Hawai'i System; Uluā Media; four students and three instructors and administrators from the Kea'au Middle College High School, a partner with Hawai'i Community College; nine students and faculty from Kapiolani Community College, and a member of the Kilauea School PTSA. The Department of Education submitted comments.

Your Committees are in strong support of innovation programs that will provide the most benefit to the students of Hawaii. Your Committees also wish to thank the many participants who have provided the Committees with additional budget and programmatic information, and look forward to the continuing collaborative work of all parties as this measure proceeds through the legislative process.

Your Committees have amended this measure by:

- (1) Deleting the specific language detailing the creativity academies from the findings and purpose section, for the purpose of further discussion;
- (2) Clarifying that the appropriation is for equipment, training, the hiring of instructors, and travel costs for student and instructor participation in competitions outside the State;
- (3) Changing the expending agency to an unspecified agency, for the purpose of further discussion; and
- (4) Making nonsubstantive, technical amendments to conform to the preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2587, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2587, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 4 (Chun Oakland, Hee, Ige, Slom).

SCRep. 3098 Water and Land on H.B. No. 3176

The purpose of this measure is to authorize the Chairperson of the Board of Land and Natural Resources to impose additional administrative penalties for per square meter of area damaged to Hawaii's stony coral reefs and live rocks.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition, The Nature Conservancy, the University of Hawaii Environmental Center, Hawaii Nearshore Fishermen, and three individuals. The Department of Land and Natural Resources submitted testimony in opposition but supports the original version of this measure.

Your Committee finds that Hawaii's live coral reefs provide food and shelter for the myriad of native and endemic reef organisms that populate the State's coastal waters. This unique ecosystem serves as a backbone of the State's vibrant marine tourism industry, creating many of our world-famous wave breaks, providing subsistence, recreational, and commercial fishing for residents and visitors alike.

Your Committee also finds that there has been an increase in the number of human and non-human damage to Hawaii's living coral colonies and live rock environments, and therefore understands the importance this measure provides in protecting Hawaii's unique ocean ecosystem and natural resources for the benefit of its residents and future generations.

Your Committee has amended this measure by:

- (1) Authorizing the Chairperson of the Board of Land and Natural Resources to assess additional fines of up to \$10,000 per square meter of area damaged for breaking stony coral or live rock or using an accepted economic valuation method; and
- (2) Changing the effective date to July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3176, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3176, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3099 (Joint) Agriculture and Hawaiian Affairs and Water and Land on H.B. No. 2357

The purpose of this measure is to provide incentives and protections to establish and sustain viable agricultural operations on important agricultural lands.

Specifically, this measure:

- (1) Provides income and general excise tax benefits for rental income from certain agricultural leases on important agricultural lands;
- (2) Allows residential dwelling units for farmers and their employees and families on important agricultural lands under certain conditions;
- (3) Establishes the important agricultural land qualified agricultural cost tax credit to provide financial support for the repair, maintenance, and expansion of farming operation infrastructure;
- (4) Authorizes the Chair of the Board of Agriculture to guarantee loans for agricultural projects on important agricultural lands;
- (5) Requires the state agricultural water use and development plan to include an inventory of public and private irrigation water systems, and to identify water sources used by agricultural operations on important agricultural lands and the current and future water needs of these operations; and
- (6) Prioritizes the processing of permit applications and renewals for agricultural processing facilities that process crops and livestock from an important agricultural lands related business.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation; Maui County Farm Bureau; Kamehameha Schools; Maui Land and Pineapple Company, Inc.; Hawaii Cattlemen's Council, Inc.; Alexander and Baldwin, Inc.; Hawaiian Marine Enterprises; and Castle and Cooke Hawai'i. Testimony in support of the intent of this measure was submitted by the Department of Agriculture; Department of Business, Economic Development and Tourism; Hawaii Association of Realtors; The Chamber of Commerce of Hawaii; Hawaii Leeward Planning Conference; and Food Company Hawaii. The City and County of Honolulu Department of Planning and Permitting testified in support of the intent of this measure but expressed opposition to certain elements. Testimony in opposition to this measure was submitted by the Department of Budget and Finance and Hawaii's Thousand Friends. The Department of Taxation submitted testimony expressing concern and proposing an amendment to this measure.

Your Committees have amended this measure by:

- (1) In response to the concern expressed by the Department of Taxation, deleting extended term and lease assignment treatment language from the proposed exclusion of agricultural lease rental income from gross income; and
- (2) For purpose of the important agricultural land qualified agricultural cost tax credit, including in the definition of "qualified agricultural costs", expenditures for regulatory processing, studies, legal and other consultant services related to obtaining or retaining sufficient water for agricultural activities and retaining the right to farm on land identified as important agricultural lands.

In addition, your Committees are pleased at the progress that has been made so far and urge all interested groups to continue to work together to resolve their issues and concerns. Specifically, your Committees encourage the Office of State Planning to work with the Hawaii Farm Bureau Federation to address their concerns.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2357, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2357, H.D. 1, S.D. 1, and be referred to the Committees on Economic Development and Taxation and Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (English, Fukunaga, Slom).

SCRep. 3100 (Joint) Agriculture and Hawaiian Affairs and Education on H.B. No. 3309

The purpose of this measure is to support the University of Hawaii College of Tropical Agriculture and Human Resources (CTAHR) by appropriating funds for it to move its agribusiness incubator and Poamoho station projects and personnel to a site in Kunia.

Testimony in support of this measure was submitted by the University of Hawai'i System, Dole Food Company Hawaii, Hawaii Agriculture Research Center, and one individual. Testimony in support of the intent of this measure was submitted by the Agribusiness Development Corporation and Department of Agriculture.

Your Committees have amended this measure by adding a Part II which provides an unspecified appropriation for the completion of the renovation of the Komohana Agricultural Complex in Hilo. It is the recommendation of your Committees that the Committee on Ways and Means consider inserting the amount of six million dollars for the purpose of Part II of this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3309, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3309, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Chun Oakland, English, Hee, Taniguchi).

SCRep. 3101 (Joint) Agriculture and Hawaiian Affairs and Education on H.B. No. 935

The purpose of this measure is to appropriate funds for the increased cost of, and to attract federal funding for, statewide technical assistance provided to the aquaculture industry through the University of Hawaii Sea Grant Extension Service.

Testimony in support of this measure was submitted by the Department of Agriculture, Hawaii Aquaculture Association, Pacific Aquaculture and Biotechnology LLC, Kona Blue Water Farms, LLC, Oceanic Institute, High Health Aquaculture Inc., Kohala Crawfish Farm, Deep Blue Research, Reef Culture Technologies, LLC, and two individuals. Testimony in support of the intent of this measure was submitted by the Hawaii Science and Technology Council.

Your Committees have amended this measure by adding as Part II, an appropriation to the Oceanic Institute to complete the Hawaii Feed Mill project located at the University of Hawaii at Hilo research farm at Panaewa, Hawaii.

Your Committees find that approximately \$1.7 million has been spent on equipment and federal and state funding of \$1.5 million has been secured for the Hawaii Feed Mill project. The Oceanic Institute estimates that it requires an additional one million dollars to complete the Hawaii Feed Mill project. In addition to this effort, the Oceanic Institute has been working closely with the University of Hawaii at Hilo on aquaculture projects at Puhi Bay. Your Committees recommend that the Committee on Ways and Means consider inserting an appropriation in the amount of one million dollars for Part II of this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 935, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 935, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 2 (Chun Oakland, Nishihara).

SCRep. 3102 Agriculture and Hawaiian Affairs on H.B. No. 1616

The purpose of this measure is to appropriate funds to the Department of Agriculture to develop the concept of and conduct a feasibility study that includes cost estimates for the establishment of a primary quarantine and laboratory facility for aquatic species used in the Hawaii agricultural industry.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation, Hawaii Aquaculture Association, Day2 Resources, LLC, Aquatic Innovations, Paradise Shrimp Farm Corp., and two individuals. Testimony in support of the intent of this measure was submitted by the Department of Agriculture.

Your Committee has amended this measure by adding as Part II the content of Part II of H.B. No. 1615, S.D. 1, which appropriates funds to the University of Hawaii Sea Grant College program for an 'opihi restoration project to obtain a current baseline population of Hawaiian 'opihi throughout the islands. The 'opihi restoration program is planned to be a hatchery-based restocking program which has proven to be the most viable method for enhancing the natural populations of 'opihi.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1616, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1616, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 3103 (Joint) Agriculture and Hawaiian Affairs, Energy and Environment and Transportation and International Affairs on H.B. No. 2843

The purpose of this measure is to increase the scope of the existing inspection, quarantine, and eradication service fee to provide funding for the Department of Agriculture to conduct inspections of imported freight to prevent the introduction of invasive species, and for the facilities necessary to conduct such inspections.

Testimony in support of this measure was submitted by the Department of Agriculture, Hawaii County Council, Hawaii Farm Bureau Federation, Maui County Farm Bureau, Hawaii Audubon Society, The Nature Conservancy of Hawaii, Conservation Council for Hawaii, Coordinating Group on Alien Pest Species, and one individual. Testimony in support of the intent of this measure was submitted by Alexander and Baldwin, Inc. and The University of Hawaii Environmental Center. Testimony in opposition to this measure was submitted by the Hawaii Food Industry Association, Airlines Committee of Hawaii, and Air Transport Association. The Department of Land and Natural Resources submitted testimony requesting further discussion regarding this measure, but deferring to the Department of Agriculture should this measure pass these Committees. The Tax Foundation of Hawaii submitted comments regarding this measure.

Your Committees encourage that any future committee considering this measure consider that the assessed fee take into consideration the amount of administrative costs incurred as a result of agricultural inspections, including operational and capital improvement project costs. In addition, your Committees recommend that any future committee considering this measure consider including a provision which would provide for the potential reimbursement of administrative costs incurred by complying with required agricultural inspections.

Your Committees have amended this measure by amending the effective date to July 1, 2050 to allow for further discussion regarding this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Energy and Environment and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2843, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2843, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Ayes with Reservations, 2 (Slom, Trimble). Noes, none. Excused, 3 (Hee, Ihara, Tsutsui).

SCRep. 3104 Health on H.B. No. 2519

The purpose of this measure is to address the physician and dentist shortage in health professional shortage areas of the State by:

- (1) Establishing the Hawaii Health Corps that shall provide loan repayment and stipend programs for physicians and dentists who agree to work in health professional shortage areas; and
- (2) Expanding the Enterprise Zone Business Tax Credit, providing general excise tax exemptions, and other tax incentives for physicians and dentists who establish or maintain practices in designated enterprise zones.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Kaiser Permanente, Hawaii Primary Care Association, Hawaii Medical Service Association, Healthcare Association of Hawaii, Hawaii Medical Association, Hawaii Association of Health Plans, and Consumer Lawyers of Hawaii. The Department of Health; the Department of Taxation; the Department of Business, Economic Development, and Tourism; Hawaii Health Systems Corporation; the Tax Foundation of Hawaii; and the University of Hawai'i System submitted comments on this measure. The Department of Budget and Finance submitted testimony in opposition to this measure.

Your Committee finds that the State is facing a critical shortage of physicians and dentists, particularly in rural areas of the State. However, further research needs to be conducted to find solutions that will ensure that appropriate and effective incentives are implemented.

Accordingly, your Committee has amended this measure by deleting its language and inserting language that establishes the Hawaii Health Corps Task Force that is to study the feasibility of a loan repayment program, a stipend program, and tax incentives for physicians and dentists who agree to work in health professional shortage areas of the State and as first responders during civil defense and other public health emergencies.

Your Committee further amended this measure by inserting an appropriation for the Hawaii Health Corps Task Force to conduct a feasibility study that effectuates the purposes of this measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2519, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2519, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3105 Health on H.B. No. 2727

The purpose of this measure is to ensure that children diagnosed with autism spectrum disorders have access to quality health care services and treatment.

Specifically, this measure:

- (1) Requires health insurers to provide coverage for autism spectrum disorders; and
- (2) Establishes the temporary autism disorders spectrum benefits and coverage task force to discuss and seek input on the problems faced by parents of children with autism and what can be done to ensure that proper benefits and services are

provided through public and private resources to address the special needs of children with autism, including providing services involving applied behavioral analyses techniques.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center, Autism Speaks, and seventeen individuals. Your Committee received testimony in opposition to this measure from the Department of Health and Hawaii Medical Service Association. The Department of Commerce and Consumer Affairs, the State Council on Developmental Disabilities, Kaiser Permanente, and Hawaii Association of Health Plans submitted comments on this measure.

Your Committee finds that section 23-51, Hawaii Revised Statutes (HRS), requires that “[b]efore any legislative measure that mandates health insurance coverage for specific health services, specific diseases, or certain providers of health care services as part of individual or group health insurance policies, can be considered, there shall be concurrent resolutions passed requesting the auditor to prepare and submit to the legislature a report that assesses both the social and financial effects of the proposed mandated coverage.”

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that mandates health care coverage for autism spectrum disorders; and
- (2) Clarifying that the task force is to research health insurance coverage plans that cover autism spectrum disorders in other states and develop a plan of services that health insurers should be mandated to cover.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2727, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2727, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3106 (Joint) Health and Energy and Environment on H.B. No. 2076

The purpose of this measure is to protect the public health and welfare by establishing air sampling stations to determine whether, and to what degree, depleted uranium contamination is taking place outside military facilities where depleted uranium munitions are used.

Your Committees received testimony in support of this measure from Life of the Land and five individuals. Your Committees received testimony in opposition to this measure from one individual. The Department of Health and the Department of Defense submitted comments on this measure.

Your Committees find that it is well-documented that depleted uranium is a highly toxic substance that is used in military munitions. The Department of Health estimates that the cost of implementing this measure will be \$1.6 million. This measure will serve to protect the public health by determining whether there is in fact evidence of depleted uranium contamination and the location of contamination sites.

Your Committees have amended this measure by changing the effective date to July 1, 2050 to encourage further discussions on this matter.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2076, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2076, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Ayes with Reservations, 3 (Baker, Kokubun, Whalen). Noes, none. Excused, none.

SCRep. 3107 Energy and Environment on H.B. No. 2825

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in an amount not exceeding \$35,000,000 to assist Sopogy, Inc. with planning, designing, construction, equipping, and operating a solar farm power plant on the island of Oahu to produce electricity from solar power.

Testimony in support of the measure was submitted by the Hawaii Renewable Energy Alliance, the High Technology Development Corporation, and Sopogy, Inc. Comments on the measure were submitted by the Department of Budget and Finance and the Department of the Attorney General.

Your Committee finds that pursuant to part V, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist industrial enterprises. This measure will support the energy needs of the State by helping Sopogy, Inc. to plan, design, construct, equip, and operate a solar farm power plant on the island of Oahu to produce electricity from solar power. Your Committee believes that the issuance of special purpose revenue bonds under this measure is in the public interest and for the public's general welfare.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with the language from S.B. No. 3190, which:

- (1) Authorizes the issuance of special purpose revenue bonds for Sopogy, Inc., pursuant to part V, chapter 39A, Hawaii Revised Statutes, rather than part VI, chapter 39A, Hawaii Revised Statutes;
- (2) Makes the measure effective upon its approval, rather than on July 1, 2008; and
- (3) Makes technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2825, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2825, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 3108 Energy and Environment on H.B. No. 2661

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$38,000,000 to assist Hui Mana 'Oma'o to establish facilities to convert potential renewable energy resources into electrical energy for public consumption.

Testimony in support of the measure was submitted by Hui Mana 'Oma'o, LLC. Comments on the measure were also submitted by the Department of the Attorney General.

Your Committee finds that pursuant to part V, chapter 39A, Hawaii Revised Statutes, special purpose revenue bonds may be issued to assist industrial enterprises. This measure will support the energy needs of the State by helping Hui Mana 'Oma'o to establish facilities to convert renewable energy resources into electrical energy. Your Committee believes that the issuance of special purpose revenue bonds under this measure is in the public interest and for the public's general welfare.

Your Committee has amended this measure by deleting its contents and replacing it with the language from S.B. No. 2329, which:

- (1) Authorizes the issuance of special purpose revenue bonds for Hui Mana 'Oma'o, LLC, pursuant to part V, chapter 39A, Hawaii Revised Statutes;
- (2) Makes the measure effective upon its approval, rather than on July 1, 2020; and
- (3) Makes technical, nonsubstantive changes for purposes of clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2661, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2661, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 3109 Energy and Environment on H.B. No. 2505

The purpose of this measure is to appropriate funds to establish a full-time, permanent renewable energy facilitator position in the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from Castle & Cooke Hawai'i; UPC Hawaii Wind Management, LLC; Hawaii Renewable Energy Alliance; and Hawaii Energy Policy Forum. Comments were received from the Department of Business, Economic Development, and Tourism.

Your Committee finds that renewable energy resources offer Hawaii important economic, environmental, and energy security benefits, especially since Hawaii's dependency on petroleum is the highest in the nation, accounting for approximately ninety per cent of the State's energy needs. This high petroleum dependency makes consumers extremely vulnerable to any oil embargo, supply disruption, international market dysfunction, and many other factors beyond Hawaii's control.

Your Committee further finds that there is a need to streamline the permitting process to provide predictability and to encourage private companies to commit the substantial amounts of capital, time, and effort necessary to develop such projects. Therefore, investment in additional personnel is essential.

Your Committee has amended this measure by deleting its contents and inserting the provisions of S.B. No. 2844, a similar measure that does not include a separate section to establish a position for a renewable energy facilitator. As amended, this measure makes an appropriation of \$122,904, for fiscal year 2008-2009, to establish one full-time permanent position for a renewable energy facilitator in the Department of Business, Economic Development, and Tourism. The facilitator would facilitate the efficient permitting of renewable energy projects and initiate the implementation of key renewable energy projects permitting efficiency improvement strategies identified by the Department. Your Committee has also changed the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2505, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2505, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3110 Energy and Environment on H.B. No. 2211

The purpose of this measure is to appropriate funds for the Water Pollution Control Revolving Fund.

Testimony in support of the measure was submitted by the Department of Environmental Services of the City and County of Honolulu, Hawaii Bio Energy, the Department of Environmental Management of the County of Maui, the Department of Environmental Management of the County of Hawaii, the Hawaii County Council, a Hawaii County councilmember, a Kauai County councilmember, and the County of Kauai Public Works Department. Testimony in opposition of the measure was submitted by the Department of Health. Comments on the measure were also submitted by the Mayor of the County of Hawaii and the University of Hawaii System.

Your Committee finds that pursuant to section 342D-83, Hawaii Revised Statutes, the Water Pollution Control Revolving Fund was established to provide financial assistance to eligible parties for projects or activities to plan, design, and construct publicly owned

wastewater treatment works, implement management programs, and implement conservation and management plans. Currently, the Revolving Fund is depleted and must be replenished to allow the fund to be administered, operated, and maintained to remain available in perpetuity for its stated purpose, as provided in section 342D-83, Hawaii Revised Statutes. This measure appropriates funds for the Water Pollution Control Revolving Fund to ensure the needs of the State and the counties are addressed, including the replacement of large-capacity cesspools in accordance with federal law.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2211, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3111 Energy and Environment on H.B. No. 3213

The purpose of this measure is to remove the maximum limitation on fees for air pollution emissions from covered sources.

Testimony in support of the measure was submitted by the Sierra Club, Hawaii Chapter and the University of Hawaii Environmental Center. Comments on the measure were also submitted by the Department of Health.

Your Committee finds that, under the current law, covered source permit holders are required to pay fees per ton of pollution emitted annually. The law, however, does not require covered source permit holders to pay fees for the emission of pollution in excess of four thousand tons. This measure establishes parity for covered source permit holders that emit less than four thousand tons of pollution annually. Your Committee determines that this change in the law will close the loophole that exists, which acts as a disincentive to reducing pollution by larger pollution sources. This change will also increase the fees collected to allow for the continued funding of the Clean Air Branch of the Department of Health and for other programs.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3213, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3112 Water and Land on H.B. No. 2687

The purpose of this measure is to require the Department of Land and Natural Resources to conduct a review of any administrative rule adopted after January 1, 2008, concerning:

- (1) The protection and propagation of introduced and transplanted aquatic life; or
- (2) The conservation and allocation of the natural supply of aquatic life;

and determine and report on, among other things, whether the rules have achieved their intended purpose, the impact on the general public and user groups, and the impact on the health of the resource.

Testimony in support of this measure was submitted by Hawaii Nearshore Fishermen, The Nature Conservancy, and two individuals. Testimony in opposition to this measure was submitted by the Conservation Council for Hawaii, Department of Land and Natural Resources, Ocean Law and Policy Institute of the Pacific Forum CSIS, and Hawaii Audubon Society.

Your Committee has amended this measure by requiring that the Department of Land and Natural Resources establish a working group consisting of a commercial fisherman, recreational fisherman, and a scientist or educator having a background related to fishing. The members of the working group shall, among other things, each be knowledgeable of deep sea and shoreline fishing methods, be residents of Hawaii, be knowledgeable practitioners of native Hawaiian cultural fishing practices, and have knowledge of current State and federal fishing laws and rules governing waters in and around the State. The purpose of this working group is to work with the Department of Land and Natural Resources in performing the review and reporting required by this measure.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2687, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2687, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3113 (Joint) Judiciary and Labor and Intergovernmental and Military Affairs on H.B. No. 2710

The purpose of this measure is to allow the State and the county governments to re-employ retired state and county employees to fill labor shortage and difficult-to-fill exempt or civil service positions.

Your Committees received testimony in support of this measure from the Judiciary, Department of Education, Department of Human Resources Development, Hawaii Health Systems Corporation, Hawaii Council of Mayors, Honolulu County Department of Human Resources, Mayor of Hawai'i County, Mayor of Kaua'i County, Hawai'i County Department of Human Resources, Hawai'i County Fire Department, Honolulu Police Department, Honolulu Fire Department, Maui County Department of Personnel Services, Maui County Department of Fire and Public Safety, Maui Police Department, Hawaii Government Employees Association, and Hawaii State Teachers Association. Comments were received from the Employees' Retirement System.

Your Committees find that with the low unemployment rate the State is now experiencing, state and county governments have more vacancies occurring with a dwindling number of qualified applicants. Your Committees recognize that retired state and county employees form a lucrative pool of experienced and knowledgeable people who may be willing to return to work with the State or the counties, rather than going into the private sector to work after retirement.

Your Committees request the Committee on Ways and Means to look into an issue related to health coverage of the retirees. The measure may have conflicting provisions where one provision allows the retiree to continue receiving retiree health coverage under the Employer-Union Health Benefits Trust Fund and another provision requires a retiree to join a collective bargaining unit. The Trust Fund may require health coverage of the retiree under the collective bargaining unit unless these two provisions are reconciled. Your Committees believe that allowing a retiree to continue receiving health insurance coverage as a retiree provides another incentive for the retiree to re-enter into the state or county government workforce.

Your Committees have amended this measure by:

- (1) Deleting the word “only” in reference to eligibility for a position of at least one-half of a full-time equivalent position;
- (2) Clarifying that the rehiring of retired state or county government employees is pursuant to the new section created by the measure;
- (3) Clarifying that political subdivisions of the State are included in the definition of “state jurisdiction”;
- (4) Deleting the purpose section; and
- (5) Making conforming amendments to Act 286, Session Laws of Hawaii 2006, relating to the rehiring of teachers and administrators, on the recommendation of the Employees’ Retirement System.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2710, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2710, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Hee, Kokubun, Tsutsui).

SCRep. 3114 Intergovernmental and Military Affairs on H.B. No. 2730

The purpose of this measure is to prescribe certain procedures to be followed at neighborhood board meetings, including the information that may be included in the written public notice, the information that the board may discuss pursuant to the public input agenda, the quorum requirements, and matters related to unanticipated events.

Your Committee received testimony in support of this measure from the Planning and Permitting Department of the City and County of Honolulu, the Neighborhood Commission, the Downtown Neighborhood Board, the Waipahu Neighborhood Board, the Kalihi Valley Neighborhood Board, the Hawaii Kai Neighborhood Board, the Waikiki Neighborhood Board, the Neighborhood Commission Office of the City and County of Honolulu, and two private individuals. The League of Women Voters of Hawaii and The Chamber of Commerce of Hawaii submitted testimony with their comments. The Office of Information Practices submitted testimony expressing its concerns.

Your Committee finds that the neighborhood board meeting is important in that it provides the public with a forum to raise and obtain solutions to issues of neighborhood concern. In this regard, the “Sunshine Law”, chapter 92, Hawaii Revised Statutes, as it applies to board activities and processes, has provided protection of a citizen’s right to know and to have access to open meetings. However, it has also created barriers that in certain instances may delay or prevent a board from fulfilling its responsibilities.

This measure removes the barrier that prevents community leaders and the public from participating in planning for their communities at public information meetings and workshops for the various city and county plans. It also allows the boards to receive information even if there is no quorum at a board meeting, which is important under certain circumstances, such as when time-sensitive announcements are involved. The measure also authorizes a board to take action on an unanticipated event in the public interest that is not on the agenda in the same manner as when the board holds an emergency meeting to take action on an issue.

Your Committee has amended this measure by:

- (1) Deleting the requirement of a quorum for discussions prior to and related to voting to address a comment raised by the Office of Information Practices; and
- (2) Requiring board members to report matters presented without a quorum, at the next neighborhood board meeting as information or as testimony.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2730, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2730, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3115 Judiciary and Labor on H.B. No. 2700

The purpose of this measure is to make an appropriation for the Judiciary Supplemental Budget Appropriations Act of 2008.

Your Committee received testimony in support of this measure from the Judiciary, Domestic Violence Action Center, Legal Aid Society of Hawai‘i, Na Loio, Volunteer Legal Services Hawai‘i, and one individual.

Your Committee has amended this measure by:

- (1) Restoring most of the positions as originally requested in H.B. No. 2700 that were filled or for which selection is in the process;

- (2) Restoring the funds that were originally contained in H.B. No. 2700 that were reduced by the four per cent discretionary cut taken in the House Draft 1;
- (3) Restoring the budget of the Judicial Selection Commission;
- (4) Restoring most of the capital improvement project requests; with the only remaining reduction being in the lump sum funding request so that the same amount will be appropriated for the 2008-2009 fiscal year as the current fiscal year;
- (5) Adding appropriations for guardians ad litem to provide legal services for indigents: Legal Aid Society - \$800,000; Na Loio - \$600,000; and Volunteer Legal Services - \$400,000; and
- (6) Deleting section 3 of House Draft 1 of this measure;

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2700, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2700, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3116 (Majority) Judiciary and Labor on H.B. No. 661

The purpose of this measure is to establish a system of comprehensive public funding of any county council election in the State.

Your Committee received testimony in support of this measure from the Hawai'i County Council; Americans for Democratic Action, Hawaii Chapter; Conservation Council for Hawai'i; Democratic Party of Hawai'i; Global H.O.P.E.; The League of Women Voters of Hawaii; Progressive Democrats of Hawai'i; Sierra Club, Hawai'i Chapter; Hawaii Clean Elections; Common Cause Hawaii; Kookia Council; Life of the Land; the Mayor of Hawaii County; one Hawai'i County Council Member; and eighty-four individuals. Comments were received from the Campaign Spending Commission and Office of Elections.

Many testifiers who supported this measure requested that the measure apply only to Hawaii County Council elections. According to testimony of the Hawaii County Council, it is offering the Hawaii County Council elections as a test case for total public election financing. Seven states and two cities already have voluntary comprehensive public funding of elections in place: Arizona, Connecticut, Maine, New Jersey, New Mexico, North Carolina, Vermont, Albuquerque, New Mexico, and Portland, Oregon, according to Common Cause.

Your Committee finds that comprehensive public financing of campaigns has promising potential and should be explored on a pilot basis to determine if it fulfills its promise. Your Committee believes that establishing a pilot project will provide a means by which some benchmark issues, such as the number of candidates per district, percentage of contested elections, incumbency rates, incumbency victory margins, and voter participation rates, may be experienced and addressed.

Your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Making the measure a pilot project to apply only to the Hawaii County Council elections in the years 2010, 2012, and 2014;
- (3) Deleting the statutory conformity revisions, since this measure enacts a pilot project;
- (4) Providing for a \$5 individual qualifying contribution to a participating candidate;
- (5) Allowing ten business days following the receipt of the candidate's completed application for certification under this measure;
- (6) Prohibiting any candidate receiving comprehensive public funding to be eligible to also receive partial public funding in any of the election years of 2010, 2012, and 2014;
- (7) Inserting an appropriation for \$100,000 in each year of the election cycle to which this measure applies, for the Campaign Spending Commission to hire additional staff positions and other assistance to support comprehensive publicly funded elections under this measure;
- (8) Changing the threshold amount that triggers the distribution of funds to certified candidates from \$500,000 to \$300,000;
- (9) Changing the effective date to January 1, 2010, and the appropriation to take effect on July 1, 2008; and
- (10) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 661, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 661, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Gabbard). Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 3117 (Joint) Agriculture and Hawaiian Affairs and Health on H.B. No. 2887

The purpose of this measure is to exempt persons deemed by the Department of Health to be kahuna ka kakau, or experts in traditional Hawaiian tattooing, from laws pertaining to the licensing and regulating of tattoo artists.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, Hawaiian Political Action Council of Hawaii and one individual. The Department of Health submitted testimony in support of this measure with reservations about its ability to determine whether a person is a kahuna ka kakau.

In light of the reservations expressed by the Department of Health, your Committees have amended this measure by deleting its content and replacing it with new language which requires the Department of Health to convene a working group to address issues relating to the practice of traditional Hawaiian tattooing. The replacement language sets forth the desired makeup of the working group, the scope of issues to be addressed, and requires that a report of their findings and recommendations be submitted to the Legislature no later than twenty days prior to the convening of the 2009 Regular Session.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2887, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2887, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Hee, Menor, Slom).

SCRep. 3118 Health on H.B. No. 466

The purpose of this measure is to provide sexual assault survivors with informed access to emergency contraception by requiring hospitals and health facilities that provide medical care to these survivors to provide accurate information about emergency contraception.

Your Committee held a public hearing on a proposed draft of this measure that deletes the language in its entirety and inserts language that enacts the recommendations made by the task force convened by Senate Concurrent Resolution No. 117, S.D. 1, H.D. 1, 2006, to "evaluate and recommend possible procedural, statutory, and public policy changes to minimize the census at Hawaii State Hospital and promote community based health services for forensic patients."

Specifically, the proposed draft of this measure:

- (1) Requires the Department of Health to produce an annual report on forensic patients;
- (2) Requires yearly court status hearings for individuals ordered to be conditionally released or hospitalized as inpatients by the mental health court;
- (3) Reduces the minimum length of hospitalization from ninety days to thirty days for individuals who are recommitted after conditional release;
- (4) Provides the alternative of further temporary hospitalization instead of proceeding immediately to a revocation of a person's conditional release when a person is in violation of the conditions of the conditional release; and
- (5) Makes an appropriation for mental health court operations.

Your Committee received testimony in support of the proposed draft of this measure from the Hawaii Disability Rights Center. Your Committee received testimony in opposition to the proposed draft from the City and County of Honolulu Department of the Prosecuting Attorney. The Judiciary and the Department of Health submitted comments on this measure.

Your Committee finds that there is no limit in Hawaii for how long an individual may be on conditional release. Individuals, many of whom are no longer appropriate for conditional release, could potentially be on conditional release for the rest of their lives.

Your Committee further finds that enabling the Director of Health to petition the courts for discharges, where appropriate, will help to ease the overcrowding problem at the Hawaii State Hospital and protect the health and safety of the patients and staff at the hospital.

Accordingly, your Committee has amended this measure by:

- (1) Including language from S.B. No. 3071 that authorizes the Director of Health to petition the court on behalf of any individual served by the Department of Health for discharge from conditional release in appropriate cases;
- (2) Clarifying that the period to be covered in the Department of Health's annual report is the fiscal year and that the annual report is to be submitted no later than twenty days prior to the convening of each regular legislative session;
- (3) Clarifying that the annual report's information on the underlying crimes of committed persons should include information on the types of offenses committed in addition to the grade of offenses committed; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 466, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 466, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3119 Health on H.B. No. 2283

The purpose of this measure is to allow unlicensed tattoo artists to temporarily practice their art for educational, trade show, or product demonstration purposes by issuing temporary certificates of registration through the Department of Health.

Your Committee received testimony in support of this measure from two individuals. The Department of Health submitted comments on this measure.

Your Committee finds that the regulation of all tattoo artists should be changed from licensing to registration whereby the Department of Health will have means to continue to keep track of practitioners. Your Committee further finds that the Department of Health should be authorized to charge registration fees to offset the additional costs of implementing this measure.

Accordingly, your Committee has amended this measure by:

- (1) Repealing the licensure procedures, requirements, and penalties regarding tattoo artists;
- (2) Inserting language that requires all tattoo artists to register with the Department of Health;
- (3) Including language that requires an initial registration fee of \$75 and annual renewal fee of \$7.50; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2283, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2283, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3120 Health on H.B. No. 7

The purpose of this measure is to increase access to affordable prescription drugs by requiring the Governor to enter into a written agreement no later than January 1, 2009, that allows Hawaii residents to participate in the I-SaveRx prescription drug program by July 1, 2009.

Your Committee received testimony in support of this measure from the Policy Advisory Board for Elder Affairs, the Kokua Council, the City and County of Honolulu Department of Community Services, Hawaii Government Employees Association, ILWU Local 142, the Hawaii State Teachers Association, and four individuals.

Your Committee received testimony in opposition to this measure from the Attorney General, the Department of Human Services, the City and County of Honolulu Department of the Prosecuting Attorney, and Pharmaceutical Research and Manufacturers of America.

Your Committee finds that the pharmaceutical industry is the most profitable business in the country. Your Committee further finds that several states have joined forces in the successful I-SaveRx program that provides reduced prices on prescription medications. This measure would provide the residents of Hawaii with the choice to purchase medications through the I-SaveRx program and would substantially benefit the elderly, uninsured, and underinsured, those who are most in need.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 7, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (Menor).

SCRep. 3121 (Joint) Health and Human Services and Public Housing on H.B. No. 1993

The purpose of this measure is to provide cost-effective care for Hawaii residents who are uninsured while at the same time ensuring that the community health center system remains financially viable and stable in the face of a growing population of uninsured persons.

Specifically, this measure makes an appropriation in an unspecified amount to pay for the provision of direct health care to the uninsured, which may include primary medical, dental, and behavioral health care; provided that distribution of funds may be on a "per visit" basis, taking into consideration the needs on all islands.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Healthcare Association of Hawaii; Waianae Coast Comprehensive Health Center; Waimanalo Health Center; Bay Clinic, Inc.; Kalihi-Palama Health Center; Molokai Community Health Center; the Filipino Coalition for Solidarity; Nursing Advocates and Mentors, Inc.; the National Federation of Filipino American Associations Region XII; Hawaii Primary Care Association; Waikiki Health Center; West Hawaii Community Health Center; Ho'ola Lahui Hawai'i; Kokua Kalihi Valley; and nine individuals. Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees find that Hawaii's community health centers served over 30,000 uninsured patients in 2006. This measure will help to ensure the viability of these community health centers and access to important basic health care for all residents of the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1993, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair and the Majority Leader on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Menor, Hemmings).

SCRep. 3122 Energy and Environment on H.B. No. 2168

The purpose of this measure is to authorize special purpose revenue bonds in a total amount not to exceed \$50,000,000, to H2 Technologies, Incorporated for the construction of a hydrogen generation appliance research, development, and manufacturing facility and laboratory and a gasoline- or diesel-to-hydrogen automobile conversion garage on the island of Hawaii.

Testimony in support of this measure was submitted by the Kona-Kohala Chamber of Commerce; High Technology Development Corporation, Hawaii Gateway Energy Center at the Natural Energy Laboratory of Hawaii Authority; Hawaii Island Economic Development Board; Hawaii Pacific Productions; Natural Energy Laboratory of Hawaii Authority; Natural Investments LLC; Aurora

Research, LLC; Kona Brewing Company; Lotus Cafe; Sacred Fire Candle Company; and seven private citizens. Comments were submitted by the State Attorney General; and H2 Technologies, Inc.

Your Committee finds that use of hydrogen as a transportation fuel and for use with fuel cell technology for electrical generation will:

- (1) Reduce Hawaii's dependence on imported fossil fuels, including gasoline and diesel, for electrical generation and transportation, thereby increasing Hawaii's energy security;
- (2) Help to meet Hawaii's renewable energy goals by encouraging home or office energy production with on-island-produced renewable hydrogen energy;
- (3) Reduce greenhouse gas emissions via a renewable closed-loop carbon system; and
- (4) Provide significant reductions of hydrocarbon, sulfur, toxic compounds, and particulate matter emissions as compared to burning petroleum-based fossil fuels.

Your Committee further finds that benefits from the H2 Technologies Incorporated project will include:

- (1) Encouraging local high-technology clean hydrogen energy research, development, and manufacturing to help move Hawaii's economy toward energy self-sufficiency;
- (2) Providing transportation and generation fuel at competitive prices as compared to importation alternatives;
- (3) Reducing the cost of doing business in Hawaii by lowering the cost of energy and transportation;
- (4) Speeding up the goal of creating a "hydrogen highway" on the island of Hawaii and making full use of the Hydrogen Investment Capital Special Fund passed by the Legislature during the Regular Session of 2006; and
- (5) Assisting the State, County of Hawaii, and the federal government to meet their goals and mandates for energy efficiency and renewable energy use.

Therefore, by supporting energy self-sufficiency, this measure promotes broad public benefits, including increased energy security, resistance to increases in oil prices, environmental sustainability, economic development, and job creation.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2168, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 3123 Energy and Environment on H.B. No. 2401

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not exceeding \$20,000,000, for the purpose of assisting Oceanlinx Hawaii LLC, with the planning, design, and construction of a hydrokinetic power generation facility off-shore of Maui.

Testimony in support of this measure was submitted by the Hawaiian Electric Company, Inc. and its subsidiary utilities, Maui Electric Company, Ltd., and Hawaii Electric Light Company, Inc. Comments were submitted by the State Attorney General; and Oceanlinx Hawaii LLC.

Your Committee finds that by supporting Oceanlinx Hawaii LLC in the planning, design, and construction of a wave energy, or hydrokinetic, power facility, this measure will, by contributing to the use of renewable energy resources, provide numerous benefits, including:

- (1) Reducing dependence on imported fossil fuels for electrical generation, thereby increasing Hawaii's energy security;
- (2) Helping to meet Hawaii's renewable energy goals by using existing natural energy resources;
- (3) Supporting the environmentally beneficial development of one of Hawaii's abundant renewable energy resources; and
- (4) Assisting the State, the County of Maui, and the federal government to meet their goals and mandates for energy efficiency and renewable energy use.

Your Committee has amended this measure by deleting the contents of this measure and replacing it with the contents of S.B. No. 2034, which also authorizes the issuance of special purpose revenue bonds to assist Oceanlinx Hawaii LLC, but has an effective date of upon approval, rather than July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2401, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2401, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 3124 Energy and Environment on H.B. No. 2504

The purpose of this measure is to increase energy efficiency and the use of renewable energy resources in the State.

Specifically, this measure would:

- (1) Phase out and ban the use of certain energy-inefficient lighting, especially those products with lead and high mercury content;

- (2) Establish a state lighting efficiency standard for general purpose lights; and
- (3) Direct the Department of Health to develop a statewide recycling program for the recycling of fluorescent lamps.

Testimony in support of this measure was submitted by the Department of Education, the Hawaiian Electric Company, Inc., Hawaii Electric Light Company, Inc., Maui Electric Company, and the Sierra Club, Hawai'i Chapter. Testimony in opposition to this measure was submitted by the Department of Health. Comments on the measure were submitted by the Department of Business, Economic Development and Tourism, and the National Electrical Manufacturers Association.

Your Committee finds that this measure encourages Hawaii consumers to make better informed, more environmentally-responsible choices when making purchases to suit their lighting and energy needs. Your Committee further finds that the measure would result in cost-savings for the consumer, and a cleaner, healthier environment for the community.

Your Committee has amended this measure by:

- (1) Replacing its contents with that of S.B. No. 2842, S.D. 2, which does the following:
 - (A) Amends section 1 by placing it later in the measure at section 2, and:
 - (i) Extends for two years until December 31, 2015, the date after which no general purpose lights, as defined in the section, that produce less than thirty lumens per watt of electricity consumed, may be sold in the State;
 - (ii) Extends for two years until January 1, 2016, the date after which no general purpose light producing less than fifty lumens per watt of electricity consumed may be sold in the State;
 - (iii) Specifies that the Department of Business, Economic Development and Tourism (DBEDT) shall notify retail sellers of the section's new provisions;
 - (iv) Specifies the misdemeanor fines for violation of subsections (a) or (b) at a minimum of \$50 and a maximum of \$500;
 - (v) Adds clauses that state that each general purpose light sold in violation of any section shall constitute a separate offense and that fines collected pursuant to the section shall be deposited into the environmental management special fund; and
 - (vi) Specifies that DBEDT "shall develop a consumer education program" rather than "may recommend programs" regarding the use of general purpose lights;
 - (B) Amends section 2 of the measure by placing it later in the measure at section 4, replacing "hazardous" with "universal waste" in the title of the new part, and removes the exemption that would have allowed for the sale of high output and very high output linear fluorescent lamps greater than thirty-two millimeters in diameter and preheat linear fluorescent lamps after January 1, 2010; adds that fines collected pursuant to this section shall be deposited into the Environmental Management Special Fund; and that the director of DBEDT shall adopt rules to implement this part;
 - (C) Amends the new section titled "Lighting efficiency standards" by removing the clause that would have exempted from fines any employees of a firm, company, association, corporation, or other organization that violates the new section, if the employee does not have ownership or management interest in the enterprise;
 - (D) Adds a new section to amend section 342G-63, Hawaii Revised Statutes, as a conforming statute to specify that all moneys collected pursuant to the new section 342J-A shall be deposited into the Environmental Management Special Fund;
 - (E) Adds a blank appropriation section;
 - (F) Adds a severability clause;
 - (G) Adds a technical Ramseyer clause at section 10; and
 - (H) Changes the measure's effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2504, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2504, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 3125 Energy and Environment on H.B. No. 2507

The purpose of this measure is to appropriate funds to establish two positions to support the implementation of Act 234, Session Laws of Hawaii 2007, which, among other things, established the Greenhouse Gas Emissions Reduction Task Force (Task Force).

Testimony in support of this measure was submitted by the Greenhouse Gas Emissions Working Group of the Hawaii Energy Policy Forum of the University of Hawai'i at Manoa, the Hawaiian Electric Company, Inc., Hawaii Electric Light Company, Inc., Maui Electric Company, Ltd., and the Sierra Club, Hawai'i Chapter.

Your Committee finds that while enactment of Act 234 by the 2007 Legislature was a forward step towards a reduction in Hawaii's contribution to global climate change, there remains the difficult task of reaching the new greenhouse gas standard. This measure will help to ensure that the arduous and necessary work of the Task Force is continuously supported, and will be completed in as thorough and timely a manner as possible.

Your Committee has amended this measure by:

- (1) Replacing its contents with that of S.B. No. 2846, which is similar, but for an appropriation amount of \$135,000, and some technical, nonsubstantive differences in language; and
- (2) Changing its effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2507, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2507, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3126 Energy and Environment on H.B. No. 3151

The purpose of this measure is to allow certain environmental programs of the Department of Health to conduct business electronically and withhold fees or charges associated with electronic or credit card processing that is owed by the Department to an electronic or credit card services provider.

Your Committee received testimony in support of this measure from the Department of Health, the Hawaii Information Consortium, LLC, and three individuals.

Your Committee finds that the Department of Health processes hundreds of permit applications on an annual basis relating to environmental programs. This measure serves to increase the efficiency of the permit application process and the collection of fees, and thereby save considerable staff time and minimize data entry errors.

Your Committee also finds that this measure will encourage the Department of Health to utilize this electronic method since it allows the Department of Health to deduct the processing and credit card fees that are generally charged to the Department.

Your Committee has amended this measure by deleting its contents and replacing it with the contents of S.B. No. 3073, S.D. 1. The amended measure achieves identical goals of the original measure and correctly references chapters 340E and 340F, Hawaii Revised Statutes, rather than chapters 342E and 342F, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3151, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3151, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, none.

SCRep. 3127 (Joint) Energy and Environment and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2862

The purpose of this measure is to improve the permitting process required for the development of a wind energy project that would use an undersea cable to transmit electricity between islands.

Specifically, this measure establishes a coordinated permitting process under the Department of Business, Economic Development, and Tourism for the approval of the permits required for an interisland wind energy and undersea cable project.

Testimony in support of this measure was submitted by UPC Wind Management, LLC. Testimony in opposition to this measure was submitted by Hawaii Renewable Energy Alliance; Life of the Land; and one private citizen. Comments were submitted by the Director of Health; Director of Business, Economic Development, and Tourism and; Castle & Cooke Hawaii.

Your Committees find that the coordinated permitting process must not neglect due process, and encourage further discussion and review related to due process related concerns.

Your Committees further find that there is a need to streamline the permitting process to provide predictability and to encourage private companies to commit substantial amounts of capital, time, and effort necessary to develop renewable energy projects.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2862, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2862, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Ihara). Noes, none. Excused, 3 (Espero, Ige, Sakamoto).

SCRep. 3128 (Joint/Majority) Energy and Environment and Education on H.B. No. 2510

The purpose of this measure is to require the Legislative Reference Bureau to contract with the University of Hawaii to conduct a study to modernize Hawaii's Environmental Impact Statement process.

Testimony in support of the measure was submitted by the Office of Hawaiian Affairs; The Chamber of Commerce of Hawaii; Sierra Club, Hawai'i Chapter; the Conservation Council for Hawaii; the Hawaii Audubon Society; the Coalition of Hawaii Engineering and Architectural Professionals; the University of Hawaii Environmental Center; and two individuals. Comments on the measure were also submitted by the Office of Environmental Quality Control, the Legislative Reference Bureau, and the University of Hawaii System.

Your Committees find that the state of the environment in Hawaii and globally are of the utmost concern to us all. We must make all efforts to protect the State, its resources, the economy, and its residents from the potentially harmful impacts of environmental issues. This measure requires the Legislative Reference Bureau to contract with the University of Hawaii to conduct a study to modernize Hawaii's Environmental Impact Statement process. However, the study was previously mandated pursuant to section 10 of Act 1, Session Laws of Hawaii 2008. Therefore, your Committees believe that addressing the current and potential impacts of global climate warming trends in the State is an important issue, vital to the future of the State and its residents. Your Committees determine that the establishment of a global warming task force will help to prepare the State to address or mitigate the short- and long-term effects of global warming.

Accordingly, your Committees have amended this measure by deleting its contents and replacing it with the contents of S.B. No. 2016, S.D. 1, which establishes a global warming task force to assess the current and potential impacts of climate warming trends and rising ocean levels, requires the task force to report its findings to the Legislature and the Governor prior to the Regular Session of 2009, and appropriates funds for this purpose.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2510, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2510, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and the Majority Leader on behalf of the Committees. Ayes, 9. Ayes with Reservations, 1 (Ihara). Noes, 1 (Slom). Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3129 (Joint/Majority) Energy and Environment and Economic Development and Taxation on H.B. No. 2509

The purpose of this measure is to encourage recycling of electronic devices sold within the State by establishing an electronic device recycling program.

Specifically, this measure establishes a state program for collection, recycling, enforcement, and monitoring of covered electronic devices, and provides program funding through an Electronic Device Recycling Fund.

Testimony in support of this measure was submitted by the Superintendent of Education; Retail Merchants of Hawaii; and the Sierra Club, Hawai'i Chapter. Testimony in opposition to this measure was submitted by the University of Hawai'i System; and Apple, Inc. Comments were submitted by the Director of Health; Director of Finance; Director of the Department of Public Works, County of Kaua'i; Covanta Energy Group; AT&T; Thompson Inc.; Information Technology Industry Council; Tax Foundation of Hawaii; Verizon Wireless; Motorola; and two private citizens.

Your Committees find that, unless properly managed, pollution from discarded electronics can harm the environment and human health. As electronics contain valuable resources such as copper, gold, and aluminum, valuable resources are lost for future use when discarded electronics are disposed of in landfills. Therefore, this measure both protects the public from possible exposure to hazardous materials, and supports the public interest in recycling.

The Department of Education and the University of Hawaii have suggested to your Committees that including government entities and computers and computer printers in the measure will assist schools in the disposal of obsolete or non-functioning electronic equipment.

The Covanta Energy Group has suggested to your Committees that it is not feasible to separate specific materials, such as electronic devices, that are in the waste stream delivered to a waste-to-energy facility.

AT&T has suggested to your Committees that telephone recycling is already extensively provided for under the industry's recycling program.

Accordingly, your Committees have amended this measure by:

- (1) Including government entities in the definition of "covered entities";
- (2) Including computers and computer printers in the definition of "covered electronic device";
- (3) Excluding all telephones, regardless of the size of the video display area from being a "covered electronic device";
- (4) Providing that county authorized waste-to-energy facilities shall not be in violation of the electronic waste recycling provisions of this measure for electronic devices that enter the facility via the waste stream in the normal course of operations; and
- (5) Changing the effective date to July 1, 2050, to ensure further discussion and consideration

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Taxation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2509, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2509, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, 1 (Trimble). Excused, 2 (Ige, Slom).

SCRep. 3130 (Joint) Energy and Environment and Tourism and Government Operations on H.B. No. 2506

The purpose of this measure is to direct the Legislative Reference Bureau to:

- (1) Identify the statutory responsibilities of state agencies that are integral to successfully achieving state energy objectives;
- (2) Identify any duplication or deficiency in these state agencies' responsibilities relating to state energy objectives;
- (3) Research how other states address similar deficiencies in the administration of their energy policies; and

(4) Make recommendations regarding how the state agencies can be reorganized to advance the long-term energy strategy.

Testimony in opposition to this measure was submitted by the Director of Business, Economic Development, and Tourism. Comments were submitted by the Legislative Reference Bureau; the State Procurement Office; Natural Energy Laboratory of Hawaii Authority; and the Hawaii Renewable Energy Alliance.

Your Committees find that any governmental agency with the authority to expend funds should be in compliance with chapter 103D, Hawaii Revised Statutes, which promotes fair and equitable treatment of all persons involved with the procurement system, fosters effective broad-based competition, and increases public confidence in public procurement. Accordingly, your Committees have amended this measure by removing the exemption from chapter 103D, Hawaii Revised Statutes, for any contract issued pursuant to this measure.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2506, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2506, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 1 (Tsutsui).

SCRep. 3131 Agriculture and Hawaiian Affairs on H.B. No. 3310

The purpose of this measure is to appropriate funds for a grant to the Hawaii Farm Bureau Federation to conduct agricultural research and development.

Testimony in support of this measure was submitted by the Department of Agriculture, Alexander & Baldwin, Inc., the Hawaii Aquaculture Association, the Hawaii Agriculture Research Center, the Hawaii Crop Improvement Association, the Hawaii Farm Bureau Federation, the Kauai County Farm Bureau, the Land Use Research Foundation of Hawaii, the Maui County Farm Bureau, and one private citizen.

Your Committee finds that funding for cutting edge research is necessary for Hawaii's agricultural industry to remain competitive in the global market. Your Committee further finds that legislative funding for the Hawaii Farm Bureau Federation in the past three years has generated at least thirty-three projects benefiting both the local industry and the consumer, ranging from tea and organic produce, to food safety and agricultural tourism.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3310, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 3132 Agriculture and Hawaiian Affairs on H.B. No. 1988

The purpose of this measure is to make an appropriation to establish a Macadamia Nut Commission to collect a mandatory assessment on macadamia nut processors and producers to achieve certain marketing and promotional objectives of the macadamia nut industry in Hawaii.

Testimony in support of this measure was submitted by the Macadamia Nut Association. The Department of Agriculture submitted comments regarding this measure.

Your Committee has amended this measure by deleting its content and replacing it with language that appropriates funds for the Department of Agriculture to undertake a study to review successful agricultural commissions in other jurisdictions in order to develop the best structure for a proposed Hawaii Macadamia Nut Commission. The replacement language further sets forth the issues to be addressed in the study and requires that a report of the findings be submitted to the Legislature.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1988, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1988, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 3133 Agriculture and Hawaiian Affairs on H.B. No. 3425

The purpose of this measure is to provide funding for statewide taro research that focuses specifically on the apple snail problem.

Your Committee received testimony in support of this measure from Department of Agriculture, Department of Land and Natural Resources, Office of Hawaiian Affairs, Hawaii County Council, Hawaii Farm Bureau Federation, The Nature Conservancy, Hawaii Crop Improvement Association, 'E kupaku ka 'aina, Kaua'i Taro Growers Association, one Hawai'i County councilmember, and four individuals.

Taro and taro markets are in a state of decline. In addition, the threats that taro farming families and communities face in cultivating taro are numerous and growing. Taro lands in Hawaii represent less than one per cent of all agricultural lands in cultivation in the State, yet it remains the most important traditional cultural crop in Hawaii. The invasive apple snail, *pomacae canaliculata*, represents the greatest concern to taro farmers. The apple snail accounted for eighteen to twenty-five per cent of crop losses in recent years. There has been rapid spread of this pest in wetland taro systems, natural wetlands, estuaries, streams, ditches, reservoirs, ponds, and springs on all islands (except Molokai and Kahoolawe), resulting in negative environmental, agricultural, economic, health-related,

educational, and cultural impacts of this invasive species on the taro farming community, the taro market, and the overall natural environment.

Your Committee has amended this measure by deleting its contents and inserting provisions of S.B. No. 2518, a similar measure, that makes an appropriation of \$500,000 for a grant-in-aid to 'E kupaku ka 'aina – The Hawaii Land Restoration Institute to be allocated as follows: (1) \$450,000 for laboratory costs and compensation for taro farmers conducting experiments to improve and protect taro; and (2) \$50,000 for documentation and outreach of Kauai organic cover crop control practices.

Your Committee requests that the Committee on Ways and Means add a proviso to the appropriation to make the expenditure of any funds appropriated contingent upon receiving matching funds from the Office of Hawaiian Affairs.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3425, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3425, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 3134 (Joint) Agriculture and Hawaiian Affairs, Water and Land and Intergovernmental and Military Affairs on H.B. No. 2807

The purpose of this measure is to provide incentives for landowners to designate their lands as important agricultural lands (IALs) by:

- (1) Allowing a landowner, who has been granted a declaratory order from the Land Use Commission (LUC) to designate all or some of the landowner's land as IAL, to fulfill a state or county affordable housing assessment (assessment) by providing affordable housing in lands zoned as rural in lieu of satisfying the assessment in the urban district; and
- (2) Revising the landowner petition process for IAL designation by:
 - (A) Specifying that a farmer or landowner may petition LUC for declaratory order to designate lands as IALs in perpetuity; and
 - (B) Allowing farmers or landowners that petition the LUC for declaratory order to designate lands as IALs in perpetuity to seek, in the same petition, a reclassification of land from the agricultural district to the rural district, urban district, or a combination of both, under certain conditions.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation, the Hawaii Association of Realtors, Kamehameha Schools, and the Land Use Research Foundation of Hawaii. Your Committees also received testimony in support with amendments from Castle and Cooke, Alexander and Baldwin, Dole Food Company, Department of Agriculture, The Chamber of Commerce of Hawaii, and the Kauai Chamber of Commerce. Testimony in opposition was received from the City and County of Honolulu Department of Planning and Permitting, the Department of Business, Economic Development and Tourism, Office of Planning, the Hawaii Chapter of the Sierra Club, Hawaii's Thousand Friends, Puakala Farms, a Councilmember from the County of Kauai, and four individuals.

Your Committees find that Act 183, Session Laws of Hawaii 2005, was enacted to establish standards, criteria, and mechanisms to identify important agricultural lands and to implement the intent of Article XI, section 3, of the Hawaii State Constitution, which provided the framework for state policies to promote agriculture and the conservation of productive agricultural lands in the State.

Your Committees also find that it is a long recognized policy of the State to promote agricultural operations and to conserve productive agricultural lands. Although discussion of an incentives package to preserve important agricultural lands has been under discussion for several years, no such incentive package has yet been enacted.

To this end, your Committees have amended the measure by deleting its contents and inserting therefor, language that provides incentives to landowners of important agricultural lands by:

- (1) Providing that rental income from agricultural leases are to be excluded from gross income calculations;
- (2) Allowing agricultural landowners to receive a real property tax credit;
- (3) Allowing agricultural landowners to construct residential housing for its employees, farmers, and families;
- (4) Allowing agricultural landowners to receive a business tax credit; and
- (5) Providing a loan guaranty program to agricultural producers for the purpose of agricultural or aquacultural operations or capital improvements.

Your Committees believe that this amended measure represents a very broad-based approach with tax credits for rental income from agricultural leases, for payment of real property taxes, and for qualified agricultural business expenditures. Other features of this measure include provisions for residential housing on important agricultural lands, loan guaranty programs to be administered by the Department of Agriculture, and expedited permit processing for agricultural operations.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2807, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2807, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 5 (Fukunaga, Gabbard, Hemmings, Slom, Whalen).

SCRep. 3135 Water and Land on H.B. No. 2872

The purpose of this measure is to require the Department of Land and Natural Resources to extend the recreation-residence use leases at the Koke'e and Waimea Canyon State parks for five years.

Testimony in support of this measure was submitted by a Councilmember of the Kauai County Council, and twenty individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources and the State Attorney General.

Your Committee notes its concern over testimony that there is a high concentration of lead in the public water supply at Koke'e State park. Your Committee strongly encourages the Department of Land and Natural Resources to investigate these claims and to take necessary and appropriate action to ensure the health, safety, and welfare of the public utilizing the park.

Your Committee has amended this measure by:

- (1) Allowing the Department of Land and Natural Resources to hold a public auction of the leases within a State park or forest reserve, subject to the most recent occupant of the land's right to match the winning bid at auction;
- (2) Allowing the Department of Land and Natural Resources to limit bidders at a public auction to bona fide full-time residents of the State;
- (3) Requiring that the Department of Land and Natural Resources enforce the provisions of recreational-residential leases;
- (4) Requiring that the Department of Land and Natural Resources establish a schedule of penalties and fines for any breach of a recreational-residential lease, unless penalties and fines are specified in the lease.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2872, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2872, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3136 Water and Land on H.B. No. 1898

The original purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to address the problems of the Kailua waterways system by appropriating funds to:
 - (A) Conduct an engineering study and an environmental assessment for the preliminary design and specification of measures to restore adequate water flow from Kawainui marsh to Kawainui stream using siphons, tunnels, pumps, or other appropriate measures;
 - (B) Conduct a study to maximize the efficiency of the monthly stream mouth opening procedures, as well as to improve procedures to respond to threats of flooding due to a blocked canal mouth; and
 - (C) Design and implement measures to reduce the amount of polluted runoff delivered to Kaelepulu pond by redesigning and restoring the function of the Keopu flood basin; and
- (2) Appropriate funds, under certain conditions, for the Department of Transportation to plan, design, and construct measures to address water quality, siltation, and other Kailua waterway system problems as mentioned in this measure.

Testimony in support of this measure was submitted by the Windward Ahupua'a Alliance, and thirty-nine individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee notes that the various bodies of water which make up the Kailua waterway system are owned by various entities, including the City and County of Honolulu, the State, and private owners. As such, your Committee is cognizant of issues relating to liability with regard to the various bodies of water that make up the Kailua waterway system.

Your Committee has amended this measure by:

- (1) Providing that the City and County of Honolulu, not the Department of Land and Natural Resources, shall undertake the tasks set forth in section 2 of this measure;
- (2) Requiring that the City and County of Honolulu work in consultation with the Department of Health to ensure water quality;
- (3) Appropriating funds to the City and County of Honolulu for the purposes set forth in section 2 of this measure;
- (4) Adding as Part II of this measure, the content of S.B. No. 2486, S.D. 2, which appropriates funds for the Moloka'i Irrigation System Water Users Advisory Board and:
 - (A) Adds a member to the Moloka'i Irrigation System Water Users Advisory Board;
 - (B) Creates a sub-account in the Irrigation System Revolving Fund to enhance transparency; and
 - (C) Requires the board to develop a definition of "homestead farmer" and report progress of roadmap meetings with homesteaders.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1898, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1898, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 3137 Water and Land on H.B. No. 839

The purpose of this measure is to ensure the continued rights of public access to shoreline areas of the State for recreational and cultural purposes by appropriating funds for the surveying and mapping of all existing public access ways to shorelines throughout the State.

Testimony in support of this measure was submitted by Beach Access Hawaii, Surfrider Foundation Maui Chapter, Sierra Club Oahu Group, Livable Hawaii Kai Hui, Windward Ahupua'a Alliance, Surfrider Foundation Oahu Chapter, Niu Valley Community Association, Kuli'ou'ou/Kalani Iki Neighborhood Board #2, Office of Hawaiian Affairs, Sierra Club Hawaii Chapter and seventeen individuals. Testimony in support of the intent of this measure was submitted by KAHEA. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources. The University of Hawaii Environmental Center submitted comments regarding this measure.

Your Committee notes that the Office of Planning (Office) testified that it has some of the information required by this measure available in its databases. Further, your Committee finds that the Office as mandated under chapter 225M, Hawaii Revised Statutes, is the lead agency responsible for statewide planning and the development of a geographic information system database. Part of the Office's responsibilities included in section 225M 2(4) (B), Hawaii Revised Statutes, states as follows:

Collecting, integrating, analyzing, maintaining, and disseminating various forms of data and information, including geospatial data and information, to further effective state planning, policy analysis and development . . . The Office shall be the lead agency responsible for coordinating the maintenance of the multi-agency, statewide planning and geographic information system and coordinating, collecting, integrating, and disseminating geospatial data sets that are used to support a variety of state agency applications and other spatial data analyses to enhance decision making. The Office shall promote and encourage free and open data sharing among and between all government agencies. To ensure the maintenance of a comprehensive, accurate, up-to-date geospatial data resource that can be drawn upon for decision making related to essential public policy issues such as land use planning, resource management, homeland security, and the overall health, safety, and well-being of Hawaii's citizens . . .

Your Committee finds that in light of testimony and the Office's statutory responsibility as the lead agency for geospatial surveying and mapping, the Office is best equipped to work with the counties to survey and map the required information of all public access to shorelines and nearby parking to develop a database for use by the public. Your Committee further finds that the database developed pursuant to this bill should be posted on the websites of the Office of Planning and the counties.

Further, your Committee finds that the Department of Land and Natural Resources is mandated by statute to enter into agreements with the counties for the acquisition of public-rights-of-ways and access corridors. Specifically, section 115-7, Hawaii Revised Statutes, reads:

§115-7 State and county co-sponsorship of programs. The department of land and natural resources shall enter into agreements with the council of any county providing for the acquisition of public rights-of-way and public transit corridors pursuant to this chapter; provided that the county shall match the funds which have been appropriated by the legislature. The development and maintenance of the rights-of-way and public transit corridors shall be the responsibility of the county.

The surveys and maps required by this measure will assist the Department of Land and Natural Resources in being able to comply with its obligations under section 115-7.

Your Committee has amended this measure by:

- (1) Adding parking nearby to public accesses to the information to be surveyed and mapped;
- (2) Requiring that the survey and mapping be undertaken by the Office of Planning, Coastal Zone Management Program rather than by the Department of Land and Natural Resources; and
- (3) Making the appropriation of funds to the Office of Planning, Coastal Zone Management Program rather than to the Department of Land and Natural Resources.

Your Committee also finds that the Office of Planning receives federal funds through the Coastal Zone Management Program that may be available for this request. Another source of funding that should be considered is the Statewide Geospatial Information and Data Integration Special Fund under section 225M-7, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 839, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 839, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 3138 (Joint) Energy and Environment, Water and Land and Intergovernmental and Military Affairs on H.B. No. 2863

The purpose of this measure is to establish a renewable energy facility siting process to expedite the review and action upon state and county permits necessary for the siting, development, construction, and operation of a renewable energy facility.

Specifically, the measure provides the Energy Resources Coordinator (Coordinator) with the authority to establish and implement a consolidated application process to facilitate the expedited siting, development, construction, and operation of a renewable energy facility.

Testimony in support of this measure was submitted by the Public Utilities Commission; Imperium Renewables Hawaii; and Castle & Cooke Hawaii. Testimony in opposition to this measure was submitted by Hawaii Energy Policy Forum; Sierra Club, Hawaii

Chapter; Department of Planning and Permitting of the City and County of Honolulu; and twelve private citizens. Comments were submitted by the Department of Health; Department of Business, Economic Development, and Tourism; Hawaii Renewable Energy Alliance; The University of Hawaii Environmental Center, Life of the Land; and three private citizens.

Your Committees have amended this measure by adopting language that preserves the Coordinator's the authority to oversee the consolidated application process, but preserves the authority of the state and county agencies to review and approve applicable permits under their respective jurisdictions. The Coordinator's role, under the amended measure is to:

- (1) Consult with appropriate state and county agencies to develop and establish a consolidated application;
- (2) Receive a consolidated application, in a form as the Coordinator shall prescribe, from an applicant for the approval of the siting, development, construction, and operation of a renewable energy facility, with an appropriate initial application fee as determined by the Coordinator;
- (3) Identify all state and county permits necessary for approval of the renewable energy facility;
- (4) Assist in the permit application process by coordinating permitting processes, giving technical assistance, overseeing the creation of the permit plan, and providing general oversight to facilitate the successful and expedient permitting of the siting of a renewable energy facility;
- (5) Gather from the applicant any information the Coordinator finds relevant and necessary for the reviewing and processing of a permit application by the federal, state, and county agencies; and
- (6) Work with the federal, state, and county agencies and the applicant to determine the terms and conditions of the permits that are necessary to effectuate this measure and to protect the public health and safety and promote the general welfare.

As part of the expedited process, the measure authorizes the Coordinator to adopt interim rules without regard to the public notice and hearing requirements of chapter 91, Hawaii Revised Statutes, or the small business impact review requirements of chapter 201M, Hawaii Revised Statutes. Your Committees find that there are possible concerns regarding this exemption and encourages further review by subsequent Committees.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water and Land and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2863, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2863, H.D. 2, S.D. 1, and be referred to the Committees on Commerce, Consumer Protection, and Affordable Housing and Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 3 (Fukunaga, Ihara, Hemmings).

SCRep. 3139 (Majority) Energy and Environment on H.B. No. 2811

The purpose of this measure is to appropriate funds to the Energy Systems Development Special Fund for the Hawaii Natural Energy Institute, which is tasked to, among other things, conduct research and development of renewable sources of energy and deploy efficient energy end-use technologies.

Testimony in support of this measure was submitted by the Hawai'i County Council. Comments were submitted by the Hawaii Natural Energy Institute, University of Hawai'i System; and Hawaii BioEnergy LLC.

Your Committee has amended this measure by deleting the contents and replacing it with the contents of S.B. No. 2630, S.D. 1. The amended measure promotes transparency of the pricing methods used by the Hawaii petroleum industry by requiring the publishing of certain categories of collected industry information and gas prices.

Your Committee finds that this measure advances the legitimate state interest of encouraging fair trade practices by promoting transparency of the pricing methods used by the Hawaii petroleum industry.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2811, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2811, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Ihara). Noes, 1 (Trimble). Excused, none.

SCRep. 3140 Energy and Environment on H.B. No. 2550

The purpose of this measure is to enhance Hawaii's energy and economic security and reduce its vulnerability to fluctuating fuel prices related to electricity generation by removing barriers to the development of solar electric resources and increasing the accessibility of net energy metering.

Testimony in support of this measure was submitted by the Director of Business, Economic Development, and Tourism; Suntech Hawaii; SunEdison; Zero Emissions Leasing LLC; and Sierra Club, Hawaii Chapter. Testimony in opposition to this measure was submitted by the Hawaiian Electric Company and its subsidiary utilities, Maui Electric Company and Hawaii Electric Light Company. Comments were submitted by the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs; Chairman of the Public Utilities Commission (PUC); Kauai Island Utility Cooperative; and Hawaii Solar Energy Association.

Your Committee finds that Hawaii has an abundance of renewable energy resources that can and should be used to reduce the State's dependence on imported fossil fuels. Net-energy metering programs encourage utility customers to invest in renewable energy systems by allowing customers who own and operate certain renewable facilities to be paid the utility's retail rate for electricity generated by an eligible customer-generator and fed back to the electric grid.

To improve its response to the needs of the net-energy metering program, your Committee finds that the PUC requires the flexibility to evaluate and set the thresholds for the total rated generating capacity and customer-generator size applicable to the net energy metering program. Given the relatively small size of systems on certain islands, the PUC also requires the authority to evaluate the applicability of the thresholds on an island-by-island or utility grid basis to ensure that the thresholds are reasonable. Finally, reserving, for eligible residential or small commercial customer- generators, a percentage of the total rated generating capacity produced from eligible customer-generators, will provide incentive for increased participation in the net-energy metering program.

Accordingly, your Committee has amended this measure by limiting its scope to the following:

- (1) Allowing the PUC to modify, rather than limiting it to only increasing, the total rated generating capacity produced by eligible customer-generators;
- (2) Allowing the PUC to define the maximum capacity for eligible residential or small commercial customer-generators, to evaluate, on an island-by-island basis, the applicability of the generating capacity requirements and, in its discretion, to exempt an island or a utility grid system from the generating capacity requirements;
- (3) Requiring the PUC to ensure that a percentage of the total rated generating capacity produced by eligible customer-generators is reserved for electricity produced by eligible residential or small commercial customer-generators; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee finds that the authority given to the PUC by this measure will enable it to monitor, evaluate, and adjust the parameters of the net-energy metering program so that every reasonable opportunity is taken to increase renewable energy resource development through the program for the benefit of the people of the State.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2550, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2550, H.D. 2, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Kokubun). Noes, none. Excused, 1 (Ihara).

SCRep. 3141 Energy and Environment on H.B. No. 2261

The purpose of this measure is to include farm sustainable projects in the existing agricultural loan program, and aquaculture sustainable projects in the existing aquacultural loan program.

Testimony in support of this measure was submitted by the Chairperson of the Board of Agriculture; Hawaiian Electric Company and its subsidiary utilities, Maui Electric Company and Hawaii Electric Light Company; Hawaii Crop Improvement Association; Hawaii Farm Bureau Federation; Hawaii Aquaculture Association; Hawaii Beekeepers' Association; and Hawaiian Marine Enterprises.

Your Committee finds that this measure will have an impact on reducing Hawaii's reliance on fossil fuels, reducing farm production costs, and creating new business opportunities for farmers. In this regard, this measure will enable farm and aquaculture operations to finance projects that will generate renewable energy or utilize technology that will offset some of the operation's energy costs. Additionally, any excess energy produced could be sold to utility companies. This measure will also enable farm and aquaculture operations to finance food safety and traceability projects, which in turn will improve their safety, competitiveness, and sustainability.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2261, H.D. 2, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 3142 Economic Development and Taxation on H.B. No. 2985

The purpose of this measure is to establish an income tax credit for hotel renovation in the amount of fifteen per cent of the renovation costs incurred during the taxable year for each hotel facility located in the State.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority; Tourism Liaison; Unite Here! Local 5 Hawaii; and Hawai'i Hotel & Lodging Association. Comments were received from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee notes that a similar hotel construction and remodeling tax credit was enacted by Act 195, Session Laws of Hawaii 2000, and was repealed by Act 9, Session Laws of Hawaii 2007, in accordance with a provision that did not extend the tax credit beyond December 31, 2005 (Act 10, Third Special Session 2001). The December 31, 2005 expiration date was an extension of the original December 31, 2002 expiration on the basis of the need to provide an economic stimulus from the ramifications of the events of 9/11 (Senate Committee Report No. 2, Committee on Ways and Means, Third Special Session of 2001).

Your Committee finds that the current economic condition of the State forebodes a downturn in construction. Therefore, your Committee believes that this measure would provide an incentive for hotels to undertake renovations and thereby stimulate the construction industry.

The Department of Taxation states that, depending on when this measure takes effect prior to 2014, there are two possible scenarios:

1. Construction continues as normal from now until 2015:

FY2015 (loss): \$9.1 million;
 FY2016 (loss): \$9.4 million;

FY2017 (loss): \$9.7 million.

2. Hotels delay construction to take advantage of the credit:

FY2012 (loss): \$2.2 million;
 FY2013 (loss): \$2.2 million;
 FY2014 (loss): \$2.3 million;
 FY2015 (loss): \$11.7 million;
 FY2016 (loss): \$12.0 million;
 FY2017 (loss): \$12.4 million;
 FY2018 (loss): \$12.7 million.

Under scenario 1, the amount of eligible existing hotel stock was taken, and assuming an annual depreciation of 2.0 per cent, it is estimated that two per cent of eligible units will be renovated in any given year. Assuming a renovation cost of \$63,000 (based on inflation-adjusted renovation costs in 2002), it is estimated that the estimated renovation costs will total \$60.9 million in 2014. With a fifteen per cent tax credit, the tax credit will result in a revenue loss of \$9.1 million in FY2015.

Under scenario 2, it is assumed that any renovation after 2010 will be postponed until after 2014 to take advantage of the credit. Thus, the loss in revenue from FY2011-2014 will be the forgone general excise tax revenue from the construction that otherwise would have happened. The loss in revenue from FY2015 onwards will be the credit cost of the now-increased construction, less the additional general excise tax that was displaced from FY2011-2014.

To encourage further discussion, your Committee has amended this measure by leaving unspecified, the percentage of renovation costs that may be claimed for the proposed tax credit. Technical, nonsubstantive amendments were also made for the purpose of style and clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2985, H.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2985, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3143 Economic Development and Taxation on H.B. No. 3059

The purpose of this measure is to reduce the term in which state low-income housing tax credits are claimed from ten to five years, and to enact provisions to implement and administer tax procedures for claiming the credit.

Testimony in support of this measure was submitted by the Department of Taxation, Hawaii Housing Finance and Development Corporation, Office of Housing and Community Development for the County of Hawaii, Kaua'i County Housing Agency, Hawaii Association of REALTORS, EAH Housing, Castle & Cooke Hawaii, and Catholic Charities Hawai'i. Comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committee recognizes that affordable housing is an important issue. To effectively eliminate the affordable housing crisis, sufficient incentives must be available in order to leverage public-private partnerships to construct additional housing in Hawaii. Through the use of low-income housing tax credits, partnerships between the State and private developers are leveraged through attractive tax incentives that subsidize investments in projects.

Your Committee previously heard and approved a similar measure, S.B. No. 2981, S.D. 2. Your Committee has amended this measure by deleting and replacing its contents with S.B. No. 2981, S.D. 2 and making technical, nonsubstantive amendments for the purpose of clarity. As amended, this measure increases the low-income housing tax credit to one hundred per cent of the qualified basis for each building located in Hawaii and applies it to buildings placed in service after December 31, 2008.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in the following revenue losses to the State:

FY 2009: None
 FY 2010: \$1,250,000
 FY 2011: \$2,500,000
 FY 2012: \$3,130,000
 FY 2013: \$3,250,000

Their methodology is as follows:

Absent this measure, state low-income housing tax credits for new developments issued in 2007 would total \$1,250,000 for tax year 2009. This measure would increase the tax credits to \$5,000,000, which would result in net decreased tax revenue of \$3,750,000 for fiscal year 2010. The net cost for additional years would already include the additional credits from new investments in that particular year, along with the additional credits awarded from the investments in previous years.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3059, H.D. 1, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 3059, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3144 Economic Development and Taxation on H.B. No. 2306

The purpose of this measure is to continue to ensure the provision of high-quality, low-cost health care services to members of the uniformed services and their families in Hawaii.

Specifically, this measure clarifies that the amounts received by a managed care support contractor as a reimbursement for costs or advances made by the contractor pursuant to a contract under the federal TRICARE program are exempt from Hawaii general excise taxes.

Testimony in support of this measure was submitted by the Hawaii Medical Service Association and TriWest Healthcare Alliance Inc. Comments on this measure were submitted by the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that in order for this measure to accurately reflect the interpretation of taxes due, a retroactive effective date is necessary to ensure that contractors of the TRICARE program are not unfairly penalized.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2306, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2306, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3145 Economic Development and Taxation on H.B. No. 2518

The purpose of this measure is to provide a land conservation incentives tax credit to encourage the preservation and protection of land in the State.

Specifically, the measure establishes a Land Conservation Incentives Tax Credit to allow taxpayers to deduct:

- (1) Fifty per cent of the value of the interest on lands donated to the state or a county in perpetuity for conservation purposes; or
- (2) Fifty per cent of the amount invested in the management of lands for conservation purposes under a land protection agreement.

Testimony in support of this measure was submitted by the Department of Agriculture, Department of Land and Natural Resources, Hawaii Agriculture Research Center, The Nature Conservancy, Office of Hawaiian Affairs, The Trust for Public Land, and one individual. Testimony in opposition of this measure was submitted by the Department of Taxation. Comments on this measure were submitted by the Tax Foundation of Hawaii and the University of Hawaii Environmental Center.

Your Committee finds that undeveloped private lands can provide significant benefits to the general public as watersheds, erosion control, carbon sequestration, green space, recreational space, and cultural preservation. However, there is often no incentive or remuneration to the landowner for the benefit that the undeveloped private lands provide to the public. Your Committee finds that this measure will encourage private landowners to preserve and protect conservation lands.

Your Committee previously heard and approved a similar measure, S.B. No. 2198, S.D. 2. Your Committee has amended this measure by deleting the content of H.B. 2518 H.D. 1, S.D. 1 and replacing it with the contents of S.B. No. 2198, S.D. 2, with a clarifying amendment. As amended, this measure includes a requirement that the designation of land as significant or important, be made by a relevant state agency and that the taxpayer work with the state agency to identify opportunities for public access if appropriate and reasonable. Your Committee further amended this measure by adding that only upon the designation of important agricultural lands shall the holder of the interest in the agricultural lands be entitled to the tax incentives under section 205-46, Hawaii Revised Statutes.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in an annual revenue loss to the State of approximately \$3,200,000 in fiscal year 2009. Their methodology is as follows:

The Legacy Land Conservation program under the Department of Land and Natural Resources provides matching funds for non-profits to engage in land purchases for conservation. In many of these cases, a part of the land interest is gifted to the non-profit. It is assumed that most conservation land donation transactions go through this mechanism.

Gifts through the Legacy Lands project for 2008 are projected to be \$3,238,500. The Department of Taxation assumed that this covers half of all eligible transactions under the credit (including investments in the management of land to protect or enhance a conservation or preservation purpose under an agreement). Thus, the Department of Taxation projects the value of eligible transactions to be \$6,500,000, of which a fifty per cent tax credit would cause a revenue loss of \$3,200,000. The revenue impact on future years is indeterminate, due to the large volatility in gift amounts from year-to-year.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2518, H.D. 1, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2518, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3146 Economic Development and Taxation on H.B. No. 2739

The purpose of this measure is to protect and support the growth of Hawaii's agriculture industry by amending the enterprise zones law to allow more farmers to qualify for the associated tax incentives.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, Department of Taxation, Hawaii Aquaculture Association, Hawaii Agriculture Research Center, and Hawaii Farm Bureau Federation. Comments on this measure were submitted by the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that currently, there are more than 5,500 farms in Hawaii, but as of 2006, only forty-four participated in the enterprise zone program. In 2005, only twelve of these forty-four qualified for benefits. This measure would allow more farmers to participate in enterprise zone benefits by adjusting the enterprise zone qualification criteria to recognize some of the unique weather and employment challenges that agricultural businesses face in Hawaii.

Your Committee received a fiscal impact statement from the Department of Taxation. No fiscal impact on projected revenue losses to the State was cited because of the effective date of this measure. However, the Department of Taxation did project a fiscal impact that assumed this measure would be approved before June 30, 2008. Those projections reported a revenue loss to the State of \$800,000 in fiscal year 2009, \$2,400,000 in fiscal year 2010, \$800,000 in fiscal year 2011, and \$550,000 each year thereafter. Their methodology is as follows:

It is estimated that the construction of facilities for the agricultural and processing facilities would cost \$100,000,000 over three years, with \$20,000,000 being incurred in the first and third years and \$60,000,000 being incurred in the second year. In the fourth year and thereafter, the facilities are assumed to generate \$50,000,000 in gross receipts and to increase the enterprise zone tax credit by twenty per cent. General excise taxes are foregone at the rate of four per cent of the construction costs and at one-half of one per cent on the gross receipts from the new agricultural and processing facilities.

Your Committee has amended this measure by:

- (1) Expanding the qualified businesses that are eligible for the tax incentives to include businesses that increase their gross sales from agricultural crops or agricultural products by two per cent annually;
- (2) Deleting the reference that eligible businesses include those businesses that increase their number of employees from the initial year of operations;
- (3) Adding that receipts from value-added products grown from an enterprise zone count toward the gross receipt requirement; and
- (4) Clarifying in section 209E-11, Hawaii Revised Statutes, that the seven-year period of eligibility for the exemption from general excise tax for construction within an enterprise zone shall be tolled for the duration of a force majeure event.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2739, H.D. 1, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2739, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3147 Economic Development and Taxation on H.B. No. 2514

The purpose of this measure is to assist in addressing the problems of and provide further opportunities in affordable housing in the State by extending the sunset date for the allocation of fifty per cent of the conveyance tax under section 247-7, Hawaii Revised Statutes, to the Rental Housing Trust Fund established under section 201H-202, Hawaii Revised Statutes, to an unspecified year.

Testimony in support of this measure was submitted by the Department of Taxation, the Hawaii Housing Finance and Development Corporation, the Kaua'i County Housing Agency, the Office of Hawaiian Affairs, the Hawaii Association of Realtors, EAH Housing, and Catholic Charities of Hawai'i. The Tax Foundation of Hawaii submitted comments.

The Rental Housing Trust Fund provides equity gap financing for the construction or preservation of affordable rental housing projects throughout the State. Through the end of the 2007 calendar year, the Hawaii Housing Finance and Development Corporation has leveraged the Rental Housing Trust Fund to facilitate the development or preservation of 2,391 rental housing units in thirty-two projects statewide. Your Committee finds that providing additional funds, including extending the allocation of fifty per cent of the conveyance tax into the Rental Housing Trust Fund, will aid in addressing the lack of affordable housing in the State.

If this measure should take effect in fiscal year 2009, there will be no impact on overall tax collections; however, the allocation of funds will be affected. There is an expected general fund tax revenue loss of approximately \$9,400,000 for fiscal year 2009 and annually thereafter. The Rental Housing Trust Fund will increase by the same amount. According to the Department of Taxation's Annual Report, total conveyance tax revenue for fiscal year 2007 was \$46,000,000. It was expected that after Act 100, Session Laws of Hawaii 2006, was repealed, an additional twenty per cent of the conveyance tax revenue would be deposited into the general fund. This amount is therefore assumed to be the revenue lost.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2514, H.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3148 Economic Development and Taxation on H.B. No. 2456

The purpose of this measure is to exclude from gross income, adjusted gross income, and taxable income the value of health insurance and other direct or indirect benefits provided by an employer to an employee in excess of what the employer provides or would provide to single employees when such benefits are provided to the employee due to the employee's status as a reciprocal beneficiary or a domestic partner.

Testimony in support of this measure was received from the Hawai'i Civil Rights Commission and one individual. The Department of Taxation (Department) and the Tax Foundation of Hawaii submitted comments.

The Department projected a revenue loss of approximately \$800,000 for fiscal year 2009, and thereafter. In determining the loss, the Department assumed reciprocal beneficiaries can decrease their tax liability by five per cent. According to the Hawaii Family Forum, the Department of Health reported there were 1,284 individuals who registered as reciprocal beneficiaries (2006). The Department then assumed that reciprocal beneficiaries would decrease their tax liability by ten per cent. According to the Department of Taxation Annual Report (2005-2006), the State collected approximately \$1,600,000,000 in individual income tax collections in 2006.

The Department also requested an amendment, to delete the reference to "direct or indirect" benefits, in the new language. However, the Director was unable to provide a rationale for the amendment when questioned. If the Department intends to pursue this request in subsequent committees, your Committee would recommend that the Department determine why the amendment is necessary and convey that information clearly.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2456, H.D. 2, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3149 Economic Development and Taxation on H.B. No. 2137

The purpose of this measure is to offset the financial burden that organ donors may encounter by providing a one-time tax credit of an unspecified amount to help cover expenses related for an organ transplant and donation.

Testimony in support of this measure was submitted by the Hawai'i Coalition on Donation, Organ Donor Center of Hawaii, and TeamPraxis. Comments on this measure were submitted by the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that this measure will help to alleviate the financial burden on some taxpayers who have a desire to donate their organs, but are unable to do so due to financial constraints. Your Committee also finds that funding initiatives by certain medical associations or health insurers to establish and implement electronic medical records systems for independent physicians throughout Hawaii to use and share patient information with other physicians or specialists would enable patients to receive better healthcare services without increased costs to the patients.

Your Committee received a fiscal impact statement from the Department of Taxation that projects an annual revenue loss to the State of approximately \$15,000, beginning in fiscal year 2009, assuming this measure includes a cap of \$1,000 per taxpayer and is effective for taxable years beginning after December 31, 2007. Their methodology is as follows:

Taking into consideration the adjusted gross income limitation in this measure, there would be on average only fifteen taxpayers in Hawaii that would qualify for the credit each year. With a maximum credit of \$1,000 per taxpayer, the annual loss of revenue to the State would be approximately \$15,000.

Your Committee has amended this measure by:

- (1) Removing the residency requirement to claim the organ donor tax credit and inserting therefor, a requirement that the claimant be subject to income tax liability under chapter 235, Hawaii Revised Statutes;
- (2) Deleting the definition of "full-time resident of the State";
- (3) Adding a tax credit for the establishment and implementation of electronic medical records systems for qualified physicians that are incurred pursuant to a health insurer's grant program; and
- (4) Making technical, nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2137, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2137, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3150 Economic Development and Taxation on H.B. No. 2778

The purpose of this measure is to create an incentive for small businesses to purchase long-term care insurance for their employees by providing a tax credit for the payment of their long-term care insurance premiums.

Testimony in support of this measure was submitted by the Department of Taxation, the American Council of Life Insurers, Kokua Council, National Association of Insurance and Financial Advisors, and The Chamber of Commerce of Hawaii. Comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that this measure could provide a very worthwhile incentive to encourage employers to make long-term care insurance available for their employees, which would in turn reduce the future financial burden on the State for the costs of long-term care.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in an annual revenue loss to the State of approximately \$900,000, beginning in fiscal year 2010. Their methodology is as follows:

Based upon the best estimate from the long-term care industry, employers pay between \$5 and \$15 in premiums per employee each month. It is estimated that approximately 50,000 employees have long-term care insurance provided to them through their employer. It is also assumed that employers pay \$120 in premiums per employee each year for long-term care insurance. A fifty per cent tax credit on those premiums would be equal to \$60. According to the Hawaii State Data Book of 2006, 490,682 workers were employed in 2005 and fifty-nine per cent of those employees were employed by small businesses. The Department of Taxation assumed employers purchased long-term care insurance for fifty per cent of small business employment share, i.e. approximately thirty per cent. Thus, approximately 15,000 employees had their long-term care insurance covered by their employers (50,000 x 30%). The total tax credits from the long-term care insurance would amount to approximately \$900,000 (\$15,000 x \$60) each year.

Your Committee has amended this measure by changing the effective date to July 1, 2050, and applying the tax credit to taxable years beginning after December 31, 2050.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2778, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2778, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3151 Economic Development and Taxation on H.B. No. 584

The purpose of this measure is to establish a long-term care tax credit to be applied to premium payments for long-term care insurance paid by individual taxpayers.

Testimony in support of this measure was submitted by the Department of Taxation, the American Council of Life Insurers, and the National Association of Insurance and Financial Advisors Hawaii. Comments on this measure were submitted by the University of Hawaii Social Science Public Policy Center and the Tax Foundation of Hawaii.

Your Committee finds that meeting the growing financial burden for long-term care is an urgent and complex issue facing federal and state governments, and that one potential way to reduce future costs borne by the State is to encourage individuals to purchase long-term care insurance policies. Your Committee further finds that such a strategy would unfetter funds from the government-funded Medicaid "safety-net" to serve those truly in need.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in an annual revenue loss to the State of approximately \$6,000,000 beginning in fiscal year 2010. Their methodology is as follows:

The Department of Commerce and Consumer Affairs (DCCA) indicated that the estimated long-term care premiums are about \$39,100,000 in fiscal year 2003. From preliminary discussions with the DCCA, the average premium per person is assumed to be about \$2,500 per year and the number of insured persons is assumed to be about 15,640. Based upon adjusted gross income, the participation rate for single, head of household, and qualifying widower are assumed to be thirty per cent of the DCCA estimated number of insured persons. Joint taxpayers and married filing separately taxpayers are at sixty per cent and ten per cent respectively, resulting in a total of 6,506 qualifying taxpayers. The Department of Taxation also assumed that fifty per cent of qualifying taxpayers purchased long-term care policies through their employer and they paid fifty per cent of the premium.

Your Committee has amended this measure by:

- (1) Deleting the fifty per cent limitation on the tax credit for long-term care insurance premiums and leaving the percentage amount of that limitation unspecified;
- (2) Changing the effective date of the measure to July 1, 2050;
- (3) Making the tax credit applicable to taxable years beginning after December 31, 2050; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 584, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 584, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3152 Economic Development and Taxation on H.B. No. 3196

The purpose of this measure is to provide an unspecified amount of rental motor vehicle surcharge taxes on rental motor vehicles in an effort to generate funds for the State Highway Fund.

Testimony in support of this measure was submitted by the Department of Taxation and the Department of Transportation. Testimony in opposition of this measure was submitted by the Avis Budget Group, Inc., The Hertz Corporation, Enterprise Rent-A-Car Company of Hawaii, Alamo Rent A Car Company of Hawaii, and National Car Rental Company of Hawaii. Comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that thousands of visitors and residents rent motor vehicles each month, which generates additional funds for the Department of Transportation to operate and maintain the state highway system. Your Committee believes that it is vital to charge a rental motor vehicle surcharge tax that is fair to the visitor and resident consumers and that still provides adequate moneys to the State Highway Fund.

Your Committee has amended this measure by requiring the Department of Transportation to report on additional revenue-generating initiatives that will replenish the State Highway Fund no later than twenty days prior to the convening of the Regular Session of 2009.

The Department of Taxation reported that this measure has an indeterminable revenue impact on the State because there is an unspecified dollar amount for the rental motor vehicle surcharge tax. However, assuming that the rental motor vehicle surcharge tax is \$3 per day, the State Highway Fund will increase by \$13,300,000 in fiscal year 2009, and \$16,000,000 in fiscal year 2010 and thereafter. Their methodology is as follows:

The \$3 per day rental motor vehicle surcharge tax currently yields approximately \$48,000,000 each year. That total includes the taxes assessed against tour buses and vans, even though those taxes account for less than one per cent of the annual totals. An increase of \$1 per day would yield an additional \$16,000,000 each year.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3196, H.D. 1, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 3196, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3153 Economic Development and Taxation on H.B. No. 2860

The purpose of this measure is to exempt common carriers from the general excise and use taxes for fuel sold from a foreign-trade zone to common carriers for use in interisland air transportation.

Testimony in support of this measure was submitted by the Department of Taxation; the Tourism Liaison of the Department of Business, Economic Development & Tourism; The Chamber of Commerce of Hawaii; Aloha Airlines, Hawaiian Airlines; the Association of Flight Attendants; the International Association of Machinists and Aerospace Workers, the Transport Workers Union, and the Hawaii Chapter of the March of Dimes, and one anonymous individual citizen. Comments on this measure were submitted by Tax Foundation of Hawaii.

Your Committee finds that currently, aviation fuel purchased in a foreign-trade zone is exempt from state taxation for those flights that are bound for an out-of-state or foreign destination. Because these flights are considered within interstate or foreign commerce, taxation is exempt pursuant to federal law. There is no corresponding exemption for interisland flights because these flights are not considered to be in foreign or interstate commerce for tax purposes by the Department of Taxation. Your Committee also finds that it is fiscally responsible to cap the maximum amount of aviation fuel that is not taxed under chapter 237, Hawaii Revised Statutes.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in the following approximate revenue losses to the State:

- (1) \$5,100,000 for fiscal year 2009;
- (2) \$5,300,000 for fiscal year 2010; and
- (3) \$5,500,000 for fiscal year 2011.

Their methodology is as follows:

During fiscal year 2007 approximately 110,000,000 gallons of fuel was sold on Oahu. From previous estimates it was found that approximately fifty-five per cent of that was from non-exempt fuels. General excise revenues were calculated from that amount, which totaled \$4,800,000. That total was inflated by the Consumer Price Index for the relevant years above.

Your Committee has amended this measure by adding a maximum dollar limitation on the amount received from sales of aviation fuel that is not subject to general excise taxes each year.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2860, H.D. 2, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2860, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3154 Economic Development and Taxation on H.B. No. 2005

The purpose of this measure is to expand the renewable energy technologies tax credit to include solar electric energy systems.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism; the Hawaii Solar Energy Association; The Solar Alliance; Sopogy, Inc.; and SunEdison. The Department of Taxation and the Hawaii Renewable Energy Alliance testified in opposition. The Tax Foundation of Hawaii submitted comments.

The Department of Taxation stated the revenue impact as follows:

FY2009 (loss): \$315,000
 FY2010 (loss): \$2,300,000
 FY2011 (loss): \$1,300,000
 FY2012 and annually thereafter (loss): \$2,300,000

In addition, the Department of Taxation noted that the change in solar qualifications would allow certain types of solar devices to qualify for the \$500,000 credit where originally they would only qualify for the \$250,000 solar thermal credit. It is estimated that at most, two of these (commercial) systems will be built per year.

The transferability of the credit is functionally equivalent to making the credit refundable. Average tax liabilities for different AGI brackets were estimated, and using the 2005 participation rates for the renewable energy credit, the amount of "carry-over" credit was estimated. From this, it was assumed that all of the carry-over credit would become sold/repurchased, and thus be applied to someone else's tax liability and result in revenue loss.

The impact due to future commercial projects was calculated from a list of planned and proposed projects, with estimated or known completion dates. It was assumed that these projects would be eligible for the maximum credit of \$500,000. It is also assumed that these projects will have little to no tax liability (as any income will most likely be offset by depreciation), thus the transferability of the credit will result in a cost equal to the full eligible credit amount. Thus the revenue loss from commercial properties in a year is equal to \$500,000 multiplied by the number of new facilities built.

Your Committee heard a number of concerns raised about this measure, and would like to thank the parties for their collaborative efforts to resolve these issues. Your Committee has amended this measure to reflect the changes proposed by the Department of Taxation and the industry. Recognizing this as a "work in progress", your Committee urges the parties to continue their efforts to refine this measure as it moves through the legislative process.

As amended, this measure:

- (1) Clarifies that the renewable energy technologies tax credit may be refundable or non-refundable for solar energy systems, and is non-refundable unless stated otherwise;
- (2) Deletes the provisions of existing law related to the apportionment of the tax credit and the distribution and share of credit;
- (3) Restructures the solar energy thermal systems portion of the tax credit to reflect the non-refundable and refundable credits for solar energy systems;
- (4) Restructures the wind-energy portion of the tax credit to accommodate the amendments to solar energy systems;
- (5) Adds a definition of "household use";
- (6) Deletes the specific tax credit language for photovoltaic energy systems;
- (7) Amends the definition of "renewable energy technology system", and replaces references to heat, light, and photovoltaic throughout the section with reference to energy from the sun; and
- (8) Makes nonsubstantive, technical amendments for the purpose of the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2005, H.D. 1, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.B. No. 2005, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Ige, Slom).

SCRep. 3155 Economic Development and Taxation on H.B. No. 3064

The purpose of this measure is to provide economic incentive for installing renewable resource technologies to certain retirees and persons with low income who cannot take advantage of the tax credits presently offered because they have no tax liability.

Specifically, this measure allows a taxpayer whose sole source of income is derived from pension benefits or with a low adjusted gross income level (currently unspecified) to qualify for a refundable tax credit for the purchase and installation of a renewable energy technology system, which includes solar water heating, photovoltaic, and wind systems.

Testimony in support of this measure was submitted by the Department of Taxation; Department of Business, Economic Development, and Tourism; Hawaiian Electric Company, Inc. and its subsidiaries, Maui Electric Company and Hawaii Electric Light Company, Inc.; Hawaii Energy Policy Forum; Sierra Club, Hawaii Chapter; Hawaii Renewable Energy Alliance; and the Hawaii Solar Energy Association. Comments were submitted by the Tax Foundation of Hawaii; and the University of Hawaii Environmental Center.

Your Committee finds that many retirees have little Hawaii taxable income because pension income, including social security, is not taxable. These persons may otherwise have the resources to invest in renewable resource technologies; however, they presently cannot take advantage of the tax credits offered. This measure will afford certain retirees and persons with low income who have no tax liability with a refundable incentive to install renewable resource technologies, thus enabling them to reduce monthly electricity costs and support efforts to protect the environment.

The Department of Taxation testified that the revenue impact of the measure is indeterminate due to the unspecified adjusted gross income (AGI) level. However, if the AGI level is set at \$20,000, the Department projects a revenue loss in income tax of \$41,000 annually. While not entirely clear, the Department's methodology is as follows:

The estimate for making the renewable energy tax credit refundable for taxpayers with adjusted gross income of \$20,000 or less (or \$40,000 or less for joint filers) is based on 2005 renewable energy tax credit data. The total number of returns that claimed the renewable energy credit for Single/Married Filing Separately and Head of Households with AGI less than \$20,000 is 316, with a total amount claimed of \$117,304. The total number of returns that claimed the renewable energy credit for Single/Married Filing Separate and Head of Households with AGI less than \$20,000 is 76 returns, with a total amount claimed of \$16,861. The total number of returns that claimed the renewable energy credit for Joint filers with AGI less than \$40,000 is 240, with a total amount claimed of \$100,443. The total credit claimed was \$117,304. Because the proposed credit is refundable, the Department assumes an increase of thirty-five per cent. Therefore, the estimated lost in income tax is \$41,000 annually.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3064, H.D. 2, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3156 Economic Development and Taxation on H.B. No. 3444

The purpose of this measure is to provide additional funding for the energy initiatives to carry out Hawaii's long-term energy strategy through expanding the purpose of the existing Environmental Response Tax, renaming it as the Environmental Response and Energy Security Tax, and establishing an Energy Security Special Fund to secure a sustainable energy future for Hawaii.

Testimony in support of this measure was submitted by the University of Hawai'i System, Hawaii Energy Policy Forum, Kauai Island Utility Cooperative, Sierra Club Hawai'i Chapter, Hawaii Renewable Energy Alliance, and Hawaii Solar Energy Association. Testimony in opposition of this measure was submitted by the Department of Taxation, Department of Budget and Finance, and Department of Health. Comments on this measure were submitted by the Department of Business, Economic Development, and Tourism, and Tax Foundation of Hawaii.

Your Committee finds that establishing economical energy sources, promoting energy self-sufficiency, and providing energy security are critical elements of a long-term energy strategy for the State. Your Committee further finds that the federal funds that

have helped support the State's energy program are diminishing and are expected to be exhausted within the next three to four years. Recent revenue projections for Hawaii indicate additional sources of revenue must be developed in order to continue funding the energy program, as the State's ability to make up the entire shortfall may be limited.

The Department of Taxation expressed strong concerns about the potential regressivity of the increase in gasoline prices that Hawaii taxpayers will pay from the results of this measure. Your Committee is likewise concerned that the impact of the increase may fall disproportionately upon those with the least ability to absorb the fee increase. For example, the Department of Business, Economic Development and Tourism estimated the annual impact to residents to be approximately \$3.80 per year (or, as pointed out by the Sierra Club representative, the equivalent of a tall latte at Starbucks - which might represent small change to fund programs to move Hawai'i towards energy self-sufficiency).

However, your Committee notes that the estimate of the Department of Business, Economic Development and Tourism is based on an average calculated across the State's entire population, whereas the real impact will be on those who drive long distances to work or school.

Although Department of Business, Economic Development and Tourism characterized the offset-mechanism that could be utilized as a rebate, the more appropriate mechanism is likely to be a consumption credit for those who: (1) fall below a specific income threshold, (2) have to commute to school or work over long distances, and (3) have limited alternatives (e.g., bus schedules may not offer reliable alternative due to timetable or routes). Your Committee therefore urges the Department of Taxation to continue to examine the best means of addressing potentially negative impacts of this measure upon low-income residents, and to provide the Legislature with appropriate amendments to correct the inequity.

The Department of Taxation also submitted a fiscal impact statement to your Committee that projected approximate revenues to be received by the State from this measure. It is estimated that an additional \$5,200,000 of revenue will be received by the various special funds each year. Specifically, \$4,400,000 would be deposited into the Energy Security Special Fund and approximately \$800,000 would be deposited into the Energy Systems Development Special Fund. Their methodology is as follows:

Based upon the Liquid Fuel Tax Base and Collections Report for fiscal year 2007, \$1,700,000 was collected into the Environmental Response Revolving Fund, which is \$0.05 cents per barrel of oil sold. To approximate the number of barrels of oil sold, the Department of Taxation divided the total collections by \$0.05 cents to get 34,800,000 barrels of oil. The Department of Taxation then imposed the additional \$0.15 cent per barrel tax increase to approximate the total revenues generated on top of the existing \$0.05 cent per barrel of oil sold going to the Environmental Response Revolving Fund.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3444, H.D. 2, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 3157 Judiciary and Labor on H.B. No. 1832

The purpose of this measure is to enact limitations on outdoor advertising on residential property by limiting the size of the signage.

Your Committee received testimony in support of this measure from The Outdoor Circle, Na Leo Pohai (Outdoor Circle), and one individual. Testimony in opposition was received from the Honolulu Department of Planning and Permitting. Comments were received from the State Attorney General and American Civil Liberties Union of Hawai'i.

Current law delegates to the counties size limitations on outdoor signs (section 445-113(2), Hawaii Revised Statutes). This measure limits the size of signs, billboards, and outdoor advertising devices on residential properties to no larger than four feet by two feet, with the total area of all signs for each residential property unit limited to sixteen square feet. In a multi-unit residential structure, each separate unit is entitled to the same size signage as a residential property, provided that signs shall be no larger than eight by four feet on a structure with four or more units and are limited to common areas, with the total area of all signs in the common area not exceeding sixty-four square feet. This measure also prohibits signage on residential property if the owner of the property has received any payment, fee, or valuable consideration in return for the display.

The intent of this measure, among other things, is to eliminate large campaign banners by setting sensible maximum square footage for campaign signs on any one property. While your Committee is cognizant of property owners' rights, your Committee must balance those rights with the greater good of preventing what some consider to be eyesores in the neighborhood. The typical scenario is strategically located corner properties that display multiple signs plastering a fence or wall, which creates a visual blight as well as a potential traffic and pedestrian distraction.

Your Committee has amended this measure by:

- (1) Clarifying that "valuable consideration" does not include any benefit derived by the tenant or owner from the effect of advertising, on the recommendation of the State Attorney General;
- (2) Deleting reference to four or more units, on the recommendation of the State Attorney General;
- (3) Adding that the size limitation as to multi-unit residential properties apply if the rules of the association of apartment owners allow any signs;
- (4) Changing the effective date to July 1, 2050, to promote continued discussion on this issue; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1832, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1832, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 2 (Gabbard, Kokubun). Noes, none. Excused, 1 (Hee).

SCRep. 3158 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2492

The purpose of this measure is to provide further clarity and procedural guidance with respect to planned community associations in the State by requiring the votes of each board member of a planned community association to be recorded in the minutes of the board of directors meetings, and requiring the inclusion of property restrictions or conditions of use in a seller's disclosure statement.

Specifically, this measure:

- (1) Requires the minutes of board of directors' meetings for a planned community association to include the recorded vote of each board member present on all motions except motions voted upon in executive session;
- (2) Requires sellers of residential real property to disclose all restrictions or conditions on use relating to the property and contained in a recorded document, including any unrecorded rules or guidelines issued by entities responsible for enforcing the restrictions or conditions; and
- (3) Specifies the types of planned communities for which seller disclosure statements must include the planned community declaration and association documents.

Testimony in support of this measure was submitted by the Hawaii Association of Realtors and the Hawaii Chapter of the Community Associations Institute.

There is a lack of disclosure that commonly affects the sale of properties in projects that are not condominiums or residential cooperatives, but are nonetheless subject to restrictive covenants or controlled by a homeowners' association. The parties to the purchase and sale of these types of properties frequently overlook the fact that the purchaser is subject to restrictions on the purchaser's ability to use the property being purchased. This omission often leads to disputes and misunderstandings when the purchaser subsequently discovers that the purchaser is required to comply with those restrictions.

Your Committee finds that requiring the inclusion of property restrictions or conditions of use in a seller's disclosure statement will ensure that a purchaser of property is fully aware of the restrictions imposed on the property. Your Committee further finds that requiring the votes of each board member to be recorded in the minutes of meetings of the board of directors for a planned community association will provide further clarity on procedures relating to planned community association board of director meetings.

Your Committee has amended this measure by:

- (1) Changing the effective date of this measure from January 1, 2050, to effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee believes that this measure, as amended, fulfills its intent, which is to provide further clarity and procedural guidance with respect to planned community associations in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2492, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2492, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 3159 (Joint) Commerce, Consumer Protection and Affordable Housing and Human Services and Public Housing on H.B. No. 2662

The purpose of this measure is to increase the number of affordable housing units in Hawaii by exempting new multi-family housing condominium developments of seventy-five units or more per acre from certain state and county affordable housing requirements.

Specifically, this measure exempts new multi-family housing condominium developments of seventy-five units or more per acre on privately-owned lands and privately financed without federal, state, or county financing assistance or subsidies from the Hawaii Housing Finance and Development Corporation's shared appreciation equity program and the ten-year occupancy requirements and transfer restrictions.

Testimony in support of this measure was submitted by the Hawaii Housing and Finance Development Corporation; the Office of Hawaiian Affairs; Central Pacific Bank; Central Pacific HomeLoans, Inc.; Yamaguchi & Yamaguchi, Inc.; Marshall Realty, Inc.; and one private individual. The Department of Planning and Permitting, City and County of Honolulu submitted comments.

Affordable housing for Hawaii residents and the local workforce are in critically short supply. Government cannot alone increase the needed supply to meet the overwhelming demand for affordable housing for those with incomes of 140 per cent and below the median income in Hawaii. Your Committees find private landowners and developers need incentives in order to meet the demand for and increase the supply of affordable housing. Providing an exemption from certain state and county requirements, including the equity sharing program and occupancy and transfer period, for new multi-family condominium housing developments for privately developed projects will encourage the private sector to build affordable workforce housing.

Your Committees have amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 2293, S.D. 1, which are substantively similar, except for technical differences;

- (2) Changing the effective date from effective upon its approval to July 1, 2050, to ensure further discussion on this matter as this measure moves through the legislative process; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committees believe that this measure, as amended, fulfills the intent of this measure, which is to increase the number of affordable housing units in Hawaii.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Human Services and Public Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2662, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2662, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair and the Majority Leader on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Ige, Sakamoto, Taniguchi).

SCRep. 3160 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 2954

The purpose of this measure is to allow towing companies to charge overtime fees during certain hours of operations, and to require tow companies operating in a county with a population of 500,000 or more to offer consumer service twenty-four hours a day to be entitled to the overtime charge.

Testimony in support of this measure was received from Wai lae Towing, D&H Towing, and four property managers. The Department of Commerce and Consumer Affairs submitted testimony in opposition. The Hawaii State Towing Association submitted comments.

Your Committees find that illegally parked vehicles are a continuing problem, often blocking access to buildings, driveways, and emergency routes. While tow companies provide a service in removing these vehicles, vehicle owners have complained that the current law is unclear regarding the unhooking of a vehicle if the owner returns before the vehicle has been removed.

Your Committees have amended this measure by adding an amendment contained in a related measure, H.B. No. 509, H.D. 2, also heard by your Committees. As amended, this measure also prohibits a towing company from charging the owner of a vehicle if the owner of the vehicle appears on the scene while the vehicle is in the process of being hooked up or is hooked up.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2954, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2954, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3161 (Majority) Judiciary and Labor on H.B. No. 2974

The purpose of this measure is to allow streamlined union certification procedures and to facilitate initial collective bargaining agreements under the Hawaii Employment Relations Act.

Your Committee received testimony in support of this measure from ILWU Local 142; Hawaii Building and Construction Trades Council, AFL-CIO; Hawaii Government Employees Association; Hawaii State AFL-CIO; and Hawaii State Teachers Association. Testimony in opposition was received from the Department of Labor and Industrial Relations, The Chamber of Commerce of Hawaii, and the Society for Human Resource Management Hawaii.

Streamlined union certification under this measure allows for an alternative method to elections for purposes of union representation. Accordingly, a petition is filed by an employee or group of employees or any individual or labor organization acting on their behalf alleging that a majority of employees in a bargaining unit wish to be represented for collective bargaining purposes. If the Hawaii Labor Relations Board, after investigation of the petition, finds that a majority of the employees of a bargaining unit have signed valid authorizations designating the individual or labor organization specified in the petition as their bargaining representative, and that no other individual or labor organization is currently certified or recognized as the exclusive representative, the Board shall not direct an election but shall certify the individual or labor organization as the representative.

This measure also facilitates initial collective bargaining agreements by providing that, after a specified time period has elapsed after the receipt by the Board of a request for collective bargaining, made by an individual or labor organization newly organized or certified as a representative, the parties shall meet and commence to bargain collectively and shall make every reasonable effort to conclude and sign a collective bargaining agreement. Failure to reach such an agreement after a specified period allows the parties to request conciliation. If the conciliator is not able to bring about agreement by conciliation, the conciliator shall refer the dispute to an arbitration panel to render a binding decision, effective for two years, to settle the dispute. The decision may be amended by written consent of the parties during the two-year period.

This measure is modeled after the federal Employee Free Choice Act (H.R. 800 and S. 1040), presently pending in the United States Congress, that would amend the National Labor Relations Act to establish an efficient system to enable employees to form, join, or assist labor organizations.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2974, H.D. 2, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Nishihara). Noes, 1 (Slom). Excused, 2 (Hee, Kokubun).

SCRep. 3162 Judiciary and Labor on H.B. No. 2656

The purpose of this measure is to clarify the definition of “immediate family” to include reciprocal beneficiaries for the purpose of the campaign financing laws.

Your Committee received testimony in support of this measure from the Gay, Lesbian, Bisexual, and Transgendered Caucus of the Democratic Party of Hawaii; The Gay and Lesbian Education and Advocacy Foundation; and two individuals. Comments were received from the Campaign Spending Commission.

Under current law, campaign contributions from a candidate’s “immediate family” are exempt from certain contribution limits. This measure makes these exemptions available to reciprocal beneficiaries, thus enabling them to participate and contribute to the election process as would a candidate’s immediate family.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2656, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Kokubun, Nishihara).

SCRep. 3163 (Majority) Judiciary and Labor on H.B. No. 2391

The purpose of this measure is to allow a deputy attorney general to provide pro bono legal services if the pro bono legal services do not create a conflict of interest with the duties of the deputy’s office.

Your Committee received testimony in support of this measure from the Legal Aid Society of Hawaii. Testimony in opposition was received from the State Attorney General.

This measure conforms current law regarding private practice by deputy attorneys general to the requirement of the Hawaii Supreme Court in Rule 6.1, which states that providing pro bono service is the individual ethical commitment of each member of the Hawaii State Bar Association and encourages all members of the bar to aspire to perform at least fifty hours of pro bono services annually.

Because pro bono legal services may sometimes involve matters with the State, which is represented by the State Attorney General and which may therefore involve a conflict of interest for the deputy, this measure is necessary to allow deputies to fulfill their ethical legal obligations to the bar when such work does not conflict with their duties with the Attorney General’s Office.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2391, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Kokubun, Nishihara).

SCRep. 3164 Commerce, Consumer Protection and Affordable Housing on H.B. No. 3080

The purpose of this measure is to provide rapid utility service restoration to customers in an event of exigent circumstances by allowing a public utility to transfer property needed for service restoration without prior approval of the Public Utilities Commission (PUC).

Specifically, this measure amends section 269-19, Hawaii Revised Statutes, to provide an exception for a public utility to sell, lease, assign, mortgage, or otherwise dispose of or encumber its property without first securing an authorizing order from the PUC only under exigent circumstances that call for rapid service restoration in order to prevent serious disruption of essential public services, avoid serious risk to public safety, or mitigate severe economic losses to a utility customer; provided that this action does not hinder or degrade the utility company’s operations with respect to its services or other customers, and the utility company is duly compensated and reports in detail to the PUC within thirty days of the action.

Testimony in support of this measure was submitted by the Public Utilities Commission; the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs; the Hawaiian Electric Company, Inc.; the Maui Electric Company, Ltd.; and the Hawaii Electric Light Company.

The PUC requires a public utility to obtain prior approval from the PUC if a public utility intends to sell, lease, assign, mortgage, or otherwise dispose of the whole or any part of its road, line, plant, system, or other property necessary or useful in the performance of the public utility’s duties to the public. Your Committee finds that exigent circumstances can create an environment in which prudent, prompt, time-sensitive action by a public utility may be necessary to restore services, and immediate transfer or encumbrance of utility property is necessary to rapidly restore a customer to full or near full operational status. Allowing a public utility to transfer property needed for service restoration without prior approval of the PUC will enable customers to receive prompt restoration services without sustaining prolonged disruption of service or economic loss.

Your Committee believes that this measure fulfills its intent, which is to provide rapid utility service restoration to customers in an event of exigent circumstances.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3080, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3165 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2169

The purpose of this measure is to distinguish and eliminate confusion between the Board of Medical Examiners and the county medical examiners by changing the Board's name to the "Hawaii Medical Board."

Testimony in support of this measure was submitted by the Board of Medical Examiners.

Out of seventy state boards of medicine or osteopathic medicine, only a minority of the states, including Hawaii, use the name "Board of Medical Examiners". Your Committee finds that changing the Board's name to the "Hawaii Medical Board" will bring the Board's name in line with similar state boards of medicine across the nation. Your Committee further finds that changing the Board's name will eliminate any confusion between the county medical examiner that performs death investigations and the Board that oversees licensure and regulations of physicians in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2169, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3166 Human Services and Public Housing on H.B. No. 2138

The purpose of this measure is to establish the first Saturday in November as Caregiver Recognition Day.

Testimony in support of this measure was submitted by the Executive Office on Aging, the Policy Advisory Board for Elder Affairs, and the Hawai'i Alliance for Retired Americans.

Your Committee finds that establishing a Caregiver Recognition Day would celebrate and bring public attention to the thousands of caregivers who perform essential services for family members and patients each and every day. Your Committee further finds that many caregivers perform caregiving duties as a natural extension of their family lives, even though it can mean great personal and professional sacrifice.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2138, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Majority Leader on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3167 (Joint) Judiciary and Labor and Education on S.C.R. No. 113

The purpose of this measure is to request the Educational Workforce Working Group to continue its work for planning and implementing recommendations from its 2007 report to the Legislature.

Testimony in support of the measure was submitted by the Department of Education and the Office of Hawaiian Affairs.

Your Committees find that the Legislature, pursuant to Act 283, Session Laws of Hawaii 2007, established the Educational Workforce Working Group, to address workforce needs and methods for increasing the workforce supply in the State. Currently, workforce needs in the State are not being adequately met, and the State must develop innovative and alternative means for providing an adequate, qualified workforce to meet Hawaii's needs. The Educational Workforce Working Group made several recommendations in its 2007 report to the Legislature. This measure requests the Educational Workforce Working Group to continue its work to plan and implement its recommendations. Your Committees support the Working Group and its recommendations and believe its continued work will help to grow and support the workforce needs of the State.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 113 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Hee, Kokubun).

SCRep. 3168 Education on S.C.R. No. 75

The purpose of this measure is to request the University of Hawaii System to conduct a study on the feasibility and potential benefits of allowing individual campuses to set appropriate levels of nonresident students or, alternatively, to investigate lifting the existing caps altogether.

Testimony in support of the measure was submitted by the University of Hawaii System and the University of Hawaii at Hilo.

Your Committee finds that under the University of Hawaii system, enrollment caps on nonresident students are currently set at thirty per cent at the baccalaureate campuses and fifteen per cent at the community colleges. Although the University of Hawaii is a public university system that endeavors to serve students from Hawaii as its first and highest priority, these caps may be too restrictive or even unnecessary and not in the best interest of the system and its students. Many smaller states enjoy nonresident enrollment rates over fifty per cent through which increased tuition, fees, and room and board charges incurred by nonresident students can contribute significantly to revenues of the State. This measure requests the University of Hawaii System to examine the feasibility and potential benefits of eliminating or allowing individual campuses to set appropriate levels for nonresident student caps. Your Committee determines that this study will be helpful in allowing the campuses, and the system as a whole, to recognize the diversity and flexibility of the individual campuses and develop policies that are tailored to the objectives and capacities of each campus.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 75 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3169 Education on S.C.R. No. 72

The purpose of this measure is to request the Department of Education to conduct a feasibility study on the impacts of a longer school day for students, grades kindergarten through twelve.

Testimony in opposition of this measure was submitted by the Department of Education.

Your Committee finds that, across the country, states are moving toward lengthening school days at struggling schools, as a result of poor test results and the failure to meet standards under the No Child Left Behind Act. The increased time spent at school during a school day, among other things, offers students who might not otherwise attend voluntary after-school programs to spend additional time on their studies. Additionally, the extra time can bolster not only instruction in core subjects, such as math, English, and science, but also allow time for study in elective courses that enhance and support the learning experience, including art, music, and drama. This measure requests the Department of Education to conduct a feasibility study on the advantages and disadvantages of extending the current school day for students in grades kindergarten through twelve. Your Committee believes the study is necessary to properly explore not only the potential benefits, but also the additional costs and other consequences of making such a change.

Additionally, your Committee finds that, on average, American students attend school approximately one hundred and eighty-three days per year, with Hawaii students participating in approximately one hundred and eighty days of instruction per year. However, in many other academically successful countries, the average days of instruction per year total approximately one hundred and ninety days to in excess of two hundred and forty days, such as in the United Kingdom, Japan, and Germany. As a result, it is unreasonable and unfair to expect students in Hawaii, or throughout the nation, to perform at the same level as their peers in these other countries where the students have spent what may ultimately be the equivalent of additional years in school by the time of high school graduation. Your Committee determines that examination of increasing the number of days of instruction in the current school year is also necessary to further explore methods for improving students' academic achievement and overall performance on standardized tests, particularly in schools where test scores are lower than the national or state averages.

Accordingly, your Committee has amended this measure and its title by including a request that the Department of Education also examine the benefits and detriments involved in increasing the number of days of instruction in the current school year.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 72, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 72, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 3170 Education on S.C.R. No. 74

The purpose of this measure is to request the Department of Education to convene a working group to develop guidelines to reduce the truancy rate in public schools.

Testimony in support of the measure was submitted by the Department of Education and two individuals.

Your Committee finds that truancy in the public school system is an increasing problem, in that truancy often correlates to, among other things, substance abuse, limited social and emotional competence, mental health problems, and poor physical health. The rate of truancy in public schools continues to increase. Truancy also leads to students becoming high school dropouts, who account for a higher percentage of individuals who live in poverty than their counterparts who earn high school diplomas, have been shown to earn only sixty-five per cent of the median earnings, and are more likely to be unemployed than high school graduates.

This measure requests the Department of Education to convene a working group to address the need to reduce the truancy, and eventual dropout, rate of students in the public school system. Your Committee determines that increased efforts must be explored and initiated to ensure our students are in daily attendance and do not drop out of school so that they may have a brighter and more prosperous future. Additionally, maximum success in reducing truancy rates also requires input from students at the high school and postsecondary levels.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the inclusion of representation by high school and postsecondary students on the Working Group on Truancy Rate Reduction; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 74, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 74, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 3171 Education on S.C.R. No. 84

The purpose of this measure is to request the Department of Education to offer nutritionally-sound public school lunch menus that include vegetarian and vegan meals.

Testimony in support of the measure was submitted by the Hawaii Medical Service Association, and thirty individuals. Testimony in opposition to the measure was submitted by the Department of Education and the Department of Health.

Your Committee finds that children, in particular, require nutritionally-balanced diets to promote and support healthy lifestyles. Increasingly, more individuals, including children, are adopting vegetarian or vegan lifestyles, which are not currently supported by the food services of the public schools. This measure requests the Department of Education to develop nutritionally-sound school lunch menus that also include vegetarian and vegan meals. Your Committee determines that providing our students with healthy,

nutritionally-sound menu options will offer vegetarian and vegan students appropriate meals and provide all students with nutritious and well-balanced lunches while in school.

However, concerns were raised, among other things, regarding the fact that the task of developing a plan for providing vegetarian or vegan meals in all public schools is too daunting a proposition for the Department of Education. Your Committee understands that this request may be overwhelming at this time, but believes that all efforts to increase awareness and availability of nutritionally-sound public school meals that include vegetarian and vegan options in at least some capacity are beneficial to our students and the State.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the provision that requested the Department of Education to develop a plan to provide vegetarian and vegan meals that are nutritious and balanced and available to students in all public schools;
- (2) Requesting that the Department of Education conduct training and workshops for cafeteria managers and workers to increase awareness of the benefits of and options for providing vegetarian and vegan meals that are nutritious and balanced to students in public schools;
- (3) Requesting the Department of Education to post on its website a list of schools with vegetarian and vegan menu options;
- (4) Deleting the request that the Department of Education post vegetarian and vegan recipes and menus that meet USDA requirements to facilitate the development of vegetarian and vegan options for students in Hawaii;
- (5) Requesting the Department of Education to consider rather than develop nutritionally-sound public school menu plans that include vegetarian and vegan public school meals; and
- (6) Specifying that the Department of Education report to the Legislature on action undertaken pursuant to the measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 84, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 84, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 3172 Education on Gov. Msg. Nos. 342, 343, 344 and 345

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMISSION FOR NATIONAL AND COMMUNITY SERVICE

- G.M. No. 342 RYAN R. PERREIRA, for a term to expire 6-30-2011;
- G.M. No. 343 CONCHITA D. STEWART, for a term to expire 6-30-2011;
- G.M. No. 344 T. 'AULANI WILHELM, for a term to expire 6-30-2011; and
- G.M. No. 345 MARCIE WONG, for a term to expire 6-30-2011

Upon review of the information provided, your Committee finds that Ryan R. Perreira currently serves as a counselor at Windward Community College and is being nominated for his second term of membership on the Hawaii Commission for National and Community Service as a representative with expertise in the educational, training, and developmental needs of youths. Mr. Perreira is a graduate of Kauai High School and has earned a bachelor's degree from the University of Hawaii at Hilo, and a master's degree in social work from the University of Hawaii at Manoa. He is also a certified True Colors trainer and a member of professional organizations.

Testimony in support of Mr. Perreira was submitted by one individual.

Upon review of the information provided, your Committee finds that Conchita D. Stewart is a graduate of St. Andrew's Priory, who also attended the University of Hawaii at Manoa. She is being nominated for her second term of membership on the Hawaii Commission for National and Community Service as a representative of community-based agencies or organizations in the State. Ms. Stewart has served in various positions throughout her career, including service as a receptionist/typist, administrator-project manager, and service representative. She has also been actively involved in various community and charitable organizations in the State.

Testimony in support of Ms. Stewart was submitted by one individual.

Upon review of the information provided, your Committee finds that T. 'Aulani Wilhelm currently serves as the Monument Superintendent of the National Oceanic and Atmospheric Administration/Papahānaumokuākea Marine National Monument and is being nominated for her second term of membership on the Hawaii Commission for National and Community Service as a representative of experts in the delivery of human, educational, environmental, or public safety services to communities and persons. Ms. Wilhelm graduated magna cum laude with a bachelor's degree in the honors seminar program with a double major in Political Science and Philosophy and Communications Arts and Sciences from the University of Southern California. She has served in various positions throughout her career, including service as a reserve coordinator, a coordinator/co-founder of a conservation public awareness partnership and initiative, public information officer, program officer, and project manager. She has been actively involved in numerous community and professional organizations, through which she has been recognized and honored for her achievements.

Testimony in support of Ms. Wilhelm was submitted by one individual.

Upon review of the information provided, your Committee finds that Marcie Wong graduated magna cum laude with an associate's degree in Medical Assistance from Heald College and is being nominated for her second term of membership on the Hawaii Commission for National and Community Service as a representative of community-based agencies or organizations in the State. Ms. Wong has previously served as a mobile agent/clerk, medical assistant, cashier, bank teller, and warehouse worker.

Testimony in support of Ms. Wong was submitted by The Filipino Community Center, Inc.; the Parish Administrator of Saint John Apostle and Evangelist Catholic Church; and one individual.

Your Committee questioned the nominees regarding, among other things, their understanding of the role and responsibilities as members of the Commission and what they hope to accomplish during their terms of service. The nominees demonstrated an understanding and commitment to growing and improving community service efforts and programs within the State. Your Committee believes the nominees will suitably serve and represent the best interests of the State, including seeking to increase volunteers, companies, and organizations, especially with regard to the public schools.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Record of Votes for Ryan R. Perreira and T. 'Aulani Wilhelm: Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

Signed by the Chair on behalf of the Committee. Record of Votes for Conchita D. Stewart and Marcie Wong: Ayes, 6. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 3173 Education on Gov. Msg. Nos. 346, 347 and 348

Recommending that the Senate advise and consent to the nominations of the following:

CENTER FOR NURSING ADVISORY BOARD

G.M. No. 346 AGNES E. PIGAO CADIZ, for a term to expire 6-30-2012;

G.M. No. 347 JOAN ANNE CRAFT, RN, for a term to expire 6-30-2012; and

G.M. No. 348 ROSE ANN M. POYZER, RN, for a term to expire 6-30-2012

Upon review of the information provided, your Committee finds that Agnes Pigao Cadiz holds a bachelor's degree in nursing from Seattle University and is a registered nurse, who has served twenty of the past thirty-five years of her career serving the people of Hawaii. She is being nominated for reappointment to a second full term of membership on the Center for Nursing Advisory Board as a representative of the Hawaii Nurses' Association, professional component, term to expire on June 30, 2012. Pursuant to section 26-34, Hawaii Revised Statutes, she will have served the combined maximum terms of service of eight consecutive years on the Center for Nursing Advisory Board as of January 9, 2012. As such, it is not the intent of your Committee to recommend to advise and consent on this nomination beyond the term limits of January 9, 2012.

Throughout her career, Ms. Cadiz has served as the Executive Director of the Hawaii Nurses' Association, a nursing services manager II, registered professional nurse VI and IV, nursing and health services director, public health nurse, and clinic manager. She has also been actively involved in various professional and community organizations and has been recognized and honored for her contributions and achievements over the years.

Testimony in support of Ms. Cadiz was submitted by the Hawai'i State Center for Nursing and four individuals.

Upon review of the information provided, your Committee finds that Joan Anne Craft earned a bachelor's degree in nursing from New York University and currently serves as a staff nurse in the Neuro ICU at The Queen's Medical Center. She is being nominated for her second term of membership on the Center for Nursing Advisory Board as a representative of labor organizations. Ms. Craft has previously served as an assistant clinical coordinator for adult ICU and as a charge nurse in the adult ICU and the surgical unit/post-operative unit. She has also received professional certification as a critical care registered nurse, a certified neuroscience registered nurse, and for advanced cardiac life support.

Testimony in support of Ms. Craft was submitted by five individuals.

Upon review of the information provided, your Committee finds that Rose Ann M. Poyzer, RN, earned a bachelor's degree in nursing from the College of St. Catherine, in St. Paul, Minnesota, and a bachelor's and master's degree in public health nursing from Catholic University in Washington, DC. She is being nominated for reappointment to a second full term of membership on the Center for Nursing Advisory Board as a representative of the Healthcare Association of Hawaii, term to expire on June 30, 2012. Pursuant to section 26-34, Hawaii Revised Statutes, she will have served the combined maximum terms of service of eight consecutive years on the Center for Nursing Advisory Board as of January 9, 2012. As such, it is not the intent of your Committee to recommend to advise and consent on this nomination beyond the term limits of January 9, 2012.

Throughout her career, Ms. Poyzer has served in numerous positions, including as the Vice President of the Home Care and Hospice Division of the Hawaii Association for Home Care, as an instructor in a nursing diploma programs, and in numerous other capacities relating to nursing and the provision of health care services. She has been a member of various professional and community organizations and has been recognized and honored for her contributions and achievements.

Testimony in support of Ms. Poyzer was submitted by the Healthcare Association of Hawaii, the Hawai'i State Center for Nursing, and one individual.

Your Committee questioned the nominees regarding, among other things, their understanding of the role and responsibilities as members of the Advisory Board and what they hope to accomplish during their terms of service. The nominees demonstrated a strong understanding of the issues facing the concerns with workforce development and supply, as well as a commitment to growing and advancing the nursing profession throughout the State.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Record of Votes for Joan Anne Craft: Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

Signed by the Chair on behalf of the Committee. Record of Votes for all other nominees: Ayes, 6. Noes, none. Excused, 2 (Hee, Nishihara).

SCRep. 3174 Water and Land on Gov. Msg. No. 485

Recommending that the Senate advise and consent to the nomination of the following:

KANEOHE BAY REGIONAL COUNCIL

G.M. No. 485 JOSEPH G. PICKARD, for a term to expire 6-30-2012

Testimony in support of this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that Joseph G. Pickard was one of the founding members of the Kaneohe Bay Regional Council. Mr. Pickard is a respected member of the Kaneohe community and has been a commercial operator on Kaneohe Bay for several years. Your Committee further finds that Mr. Pickard is a valuable asset to the Kaneohe Bay Regional Council.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 3175 Water and Land on Gov. Msg. No. 487

Recommending that the Senate advise and consent to the nomination of the following:

LEGACY LAND CONSERVATION COMMISSION

G.M. No. 487 LORI LEIMAMO BUCHANAN, for a term to expire 6-30-2012

Testimony in support of this nomination was submitted by the Coordinating Group on Alien Pest Species, Department of Land and Natural Resources, Hui Honu, Inc., The Nature Conservancy, Big Island Invasive Species Committee, the State Representative from House District 13, and one individual.

Your Committee finds that Lori Leimamo Buchanan is a lifelong resident of Moloka'i who attended and graduated from Moloka'i High and Intermediate School. Ms. Buchanan has served as the chairperson of the Moloka'i Planning Commission for five years and presently serves as the program manager of the Moloka'i Invasive Species Committee. The nominee is an active member of The Nature Conservancy and would fill the requirement of being a member of the Legacy Land Conservation Commission from a land conservation organization organized in the State.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 3176 Water and Land on Gov. Msg. No. 488

Recommending that the Senate advise and consent to the nomination of the following:

NATURAL AREA RESERVE SYSTEM COMMISSION

G.M. No. 488 RICHARD FLINT HUGHES, Ph.D., for a term to expire 6-30-2012

Testimony in support of this nomination was submitted by the Coordinating Group on Alien Pest Species and the Department of Land and Natural Resources.

Your Committee finds that Dr. Richard Flint Hughes is currently a member of the Natural Area Reserve System Commission serving as a member who has requisite scientific and academic qualifications. Dr. Hughes has a degree in Human Biology and a Master of Science in Biology from Stanford University, a doctorate degree in Forest Science from Oregon State University, and a Post-Doctorate in Ecosystem Ecology from the University of Colorado at Boulder. Dr. Hughes is currently a botanist with the Institute of Pacific Island Forestry and will continue to fill the botany subject matter position on the Natural Area Reserve System Commission. Dr. Hughes was originally appointed to the Natural Area Reserve System Commission in 2004.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

SCRep. 3177 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on S.C.R. No. 78

The purpose of this measure is to provide federal financial assistance to those persons in the United States under the Compacts of Free Association.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committees find that in 1986, the United States entered into a Compact of Free Association (COFA) with the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. The terms of COFA established mutually beneficial rights and obligations in economic development and defense, and created the right of COFA citizens to freely travel to work and reside in the United States without a durational limit.

Your Committees recognize that many of these COFA migrants arrive with serious medical needs, and require financial and housing assistance because of the lack of resources available to them. Congress recognized the significant effect on the resources of the places to which the COFA citizens migrated to and explicitly stated that "it is not the intent of Congress to cause any adverse consequences for an affected jurisdiction." P.L. 108-188, section 104(e)(1).

Your Committees also find that despite losing access to federal funds for services to COFA migrants because of the Personal Responsibility Work Opportunities Reconciliation Act, the State has continued to make the services available through equivalent state-funded services to address the social, educational, public safety, and medical needs of the COFA citizens.

Your Committees recognize that in 2006, the cost reported to state agencies to provide services for COFA migrants was over \$91,000,000, while the federal assistance to the State as Compact Impact Assistance was approximately \$10,600,000.

Your Committees therefore support this measure for federal financial assistance to COFA migrants since it serves the purpose of COFA and would also alleviate the burden on the State's budget.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 78 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3178 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on S.R. No. 43

The purpose of this measure is to provide federal financial assistance to those persons in the United States under the Compacts of Free Association.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committees find that in 1986, the United States entered into a Compact of Free Association (COFA) with the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. The terms of COFA established mutually beneficial rights and obligations in economic development and defense, and created the right of COFA citizens to freely travel to work and reside in the United States without a durational limit.

Your Committees recognize that many of these COFA migrants arrive with serious medical needs, and require financial and housing assistance because of the lack of resources available to them. Congress recognized the significant effect on the resources of the places to which the COFA citizens migrated to and explicitly stated that "it is not the intent of Congress to cause any adverse consequences for an affected jurisdiction." P.L. 108-188, section 104(e)(1).

Your Committees also find that despite losing access to federal funds for services to COFA migrants because of the Personal Responsibility Work Opportunities Reconciliation Act, the State has continued to make the services available through equivalent state-funded services to address the social, educational, public safety, and medical needs of the COFA citizens.

Your Committees recognize that in 2006, the cost reported to state agencies to provide services for COFA migrants was over \$91,000,000, while the federal assistance to the State as Compact Impact Assistance was approximately \$10,600,000.

Your Committees therefore support this measure for federal financial assistance to COFA migrants since it serves the purpose of COFA and would also alleviate the burden on the State's budget.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 43 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3179 Human Services and Public Housing on S.C.R. No. 61

The purpose of this measure is to urge the Hawaii Public Housing Authority to issue a request for proposals to form public/private partnerships for the purpose of reconstructing, renovating, and repairing the Authority's inventory of public housing projects.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs. Comments on the measure were submitted by the Hawaii Public Housing Authority.

Your Committee finds that the repair and renovation of existing public housing will require financial resources beyond the State's capacity, and that financial resources from the private sector could be leveraged in creative ways to help to bridge the funding gaps.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 61 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3180 Human Services and Public Housing on S.C.R. No. 63

The purpose of this measure is to encourage participation in the Black Ribbon and Black Arm Band Campaign against domestic violence which urges men to show their support for:

- (1) Ending men's violence against women;
- (2) Raising awareness of the problem in the community;
- (3) Conducting educational work in schools, workplaces, and communities; and
- (4) Supporting organizations that assist with the consequences of violence against women.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence.

Your Committee finds that domestic violence is a grave problem in Hawaii and that the State and the community must work to address its causes and devastating effects.

Your Committee has amended this measure by:

- (1) Incorporating the comments made by the Hawaii State Coalition Against Domestic Violence by changing the color "black" to "purple" in the title and throughout the measure, to align with the nationally-accepted color representing domestic violence causes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 63, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 63, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3181 Human Services and Public Housing on S.R. No. 36

The purpose of this measure is to encourage participation in the Black Ribbon and Black Arm Band Campaign against domestic violence which urges men to show their support for:

- (1) Ending men's violence against women;
- (2) Raising awareness of the problem in the community;
- (3) Conducting educational work in schools, workplaces, and communities; and
- (4) Supporting organizations that assist with the consequences of violence against women.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence.

Your Committee finds that domestic violence is a grave problem in Hawaii and that the State and the community must work to address its causes and devastating effects.

Your Committee has amended this measure by:

- (1) Incorporating the comments made by the Hawaii State Coalition Against Domestic Violence by changing the color "black" to "purple" in the title and throughout the measure, to align with the nationally-accepted color representing domestic violence causes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

The purpose of this measure is to

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 36, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 36, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3182 Human Services and Public Housing on S.C.R. No. 85

The purpose of this measure is to urge associations of apartment and condominium unit owners throughout the State to conduct voluntary surveys of special needs residents and draft plans to address those needs in the event of an emergency.

Testimony in support of this measure was submitted by the Disability and Communication Access Board, the Fire Department of the City and County of Honolulu, and the Policy Advisory Board for Elder Affairs. Comments on the measure were submitted by the Real Estate Commission.

Your Committee finds that increased emergency readiness ought to be encouraged to help to ensure the continued safety and well-being of persons with disabilities and special health needs.

Your Committee has amended this measure by incorporating comments made by the Real Estate Commission to restrict its notification obligation to associations that are registered with the Department of Commerce and Consumer Affairs, and through a method that will not exceed its Condominium Education Trust Fund budget.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 85, as amended herein, and recommends that it be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing, in the form attached hereto as S.C.R. No. 85, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3183 Human Services and Public Housing on S.R. No. 47

The purpose of this measure is to urge associations of apartment and condominium unit owners throughout the State to conduct voluntary surveys of special needs residents and draft plans to address those needs in the event of an emergency.

Testimony in support of this measure was submitted by the Disability and Communication Access Board, the Fire Department of the City and County of Honolulu, and the Policy Advisory Board for Elder Affairs. Comments on the measure were submitted by the Real Estate Commission.

Your Committee finds that increased emergency readiness ought to be encouraged to help to ensure the continued safety and well-being of persons with disabilities and special health needs.

Your Committee has amended this measure by incorporating comments made by the Real Estate Commission to restrict its notification obligation to associations that are registered with the Department of Commerce and Consumer Affairs, and through a method that will not exceed its Condominium Education Trust Fund budget.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 47, as amended herein, and recommends that it be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing, in the form attached hereto as S.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3184 Human Services and Public Housing on S.C.R. No. 128

The purpose of this measure is to request that the Auditor conduct a management and financial audit of the Punchbowl Homes facility of the Hawaii Public Housing Authority.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs. Written comments on the measure were submitted by the Hawaii Public Housing Authority.

Your Committee finds that the State has a duty to ensure that public housing facilities are properly maintained, and that a management and financial audit, and an investigation into on-going resident issues at Punchbowl Homes, are warranted.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 128 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3185 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 304

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DENTAL EXAMINERS

G.M. No. 304 ARMAND K. CHONG D.D.S., for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Armand K. Chong, D.D.S. to have the necessary qualifications to be nominated to the Board of Dental Examiners for a second term.

Testimony in support of Dr. Chong's nomination was submitted by the Department of Commerce and Consumer Affairs.

Dr. Chong is a graduate of Iolani School, and attended Oregon State University, the University of Hawaii at Manoa, and Chaminade University before earning his Doctor of Dental Surgery from the University of Missouri at Kansas City School of Dentistry. Currently, he is the dentist for his privately-owned practice, and is a Certified Independent Medical Examiner by the American Board of Independent Medical Examiners. He is also the founder of the Hawaii TMJ Institute and a teaching faculty member of the Department of Geriatrics at the University of Hawaii John A. Burns School of Medicine.

Dr. Chong is a member of several professional organizations, including the American Dental Association, the Hawaii Dental Association, the Academy of General Dentistry, the American Board of Independent Medical Examiners, the Honolulu County Dental Society, and the International College of Cranio-Mandibular Orthopedics, to name a few. He has also served as a football and girls basketball coach for Iolani School, and is a past President of the Iolani School Alumni Association. Furthermore, he has served as a member of the Board of Directors of Catholic Charities Family Services as well as a member of the Prince Kuhio Hawaiian Civic Club.

Dr. Chong has been nominated to serve a second term on the Board of Dental Examiners. He is a valuable member and contributes greatly to the discussions at the meetings of the Board by sharing insights that are based on the many years of experience as a licensed dentist in active practice. Moreover, he serves as an examiner for dental licensure exams, which determines whether an individual is

qualified to practice dentistry in Hawaii. Dr. Chong's extensive knowledge and experience in the practice of dentistry and specialty dentistry are invaluable assets for the Board of Dental Examiners.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3186 Transportation and International Affairs on Gov. Msg. No. 542

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON TRANSPORTATION

G.M. No. 542 RICHARD R. HOUCK, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Richard R. Houck to have the necessary qualifications to be nominated to the Commission on Transportation.

Your Committee received testimony in support of Richard R. Houck from the Department of Transportation.

Richard R. Houck, Rear Admiral, United States Coast Guard (ret) recently completed a thirty-two-year career in the Coast Guard, where he held leadership positions in operations, strategic planning, congressional and governmental relations, engineering, and financial management. In addition, he oversaw operations in the Pacific Northwest as District Commander; served as Assistant Commandant for Planning, Resources and Procurement (developing and executing an \$8 billion annual budget); and served as the pre-designated PFO (Principal Federal Official) for disasters in Puerto Rico and US Virgin Islands. Mr. Houck brings leadership, strategic planning, systems thinking, and team-building to the Commission. In his statement to the Committee, Mr. Houck also noted that it would be a particular honor to follow his father-in-law, Robert T. Leary, who served on the Commission in the 1970s.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Inouye, Tsutsui).

SCRep. 3187 Education on S.C.R. No. 111

The purpose of this measure is to request the Department of Education and appropriate entities to prepare curricular materials that reflect the Hawaii standards to assist a teacher who has to temporarily teach in an area where the teacher is not highly qualified.

Testimony in support of the measure was submitted by the Department of Education.

Your Committee finds that children are our most precious resource and providing them with a quality education is and should continue to be a priority of the State. Recently, the State has suffered a teacher shortage that has ultimately resulted in many teachers not satisfying the requirements for being deemed highly qualified teachers under the No Child Left Behind Act. In fact, many of these teachers are properly credentialed in one area; however, they are considered unqualified if they teach courses in a different subject area, which many are called upon to do in light of the teacher shortage issue. This measure requests the Department of Education to prepare curricular materials that reflect the Hawaii standards to assist a teacher who has to temporarily teach in an area where the teacher is not highly qualified. Your Committee determines that this measure will not only assist the teachers but also ensure that students will receive the appropriate learning materials. These efforts will complement the Department of Education and the Board of Education's continued support of programs to assure that all teachers become highly qualified.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 111 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3188 Education on S.C.R. No. 120

The purpose of this measure is to request the University of Hawaii and the Department of Education to develop, offer, and expand Philippine language courses.

Comments on the measure were submitted by the University of Hawaii System and the Department of Education.

Your Committee finds that since their initial immigration, the Filipino community has grown and continues to be prevalent in Hawaii. However, despite their significant representation in the general population, including in our public schools, Filipinos are largely underrepresented in higher education, representing a small percentage of enrollment in the University of Hawaii System and a small percentage of individuals possessing postsecondary degrees. Given their significance in Hawaii's demographic composition, the Filipino community must be supported to increase the representation of Filipino students and professionals trained in the Philippine languages who can work in the area of education, health, legal services, and commerce. This measure requests the University of Hawaii and the Department of Education to develop, offer, and expand Philippine language courses. Your Committee determines that the increased provision of courses in the Philippine languages will help to increase academic interest and student success.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 120 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3189 Education on S.C.R. No. 180

The purpose of this measure is to support the University of Hawaii in its efforts to enhance and diversify its sources of revenue and maximize the use of its facilities.

Testimony in support of the measure was submitted by the University of Hawaii at Manoa.

Your Committee finds that the University of Hawaii System is the sole public postsecondary educational system in the State, and serves as the premier in the Pacific region. The University of Hawaii maintains efforts to enhance and diversify its revenue base, including through the rental of its facilities for public and private events. Your Committee further finds that, pursuant to a Honolulu City Council Resolution, the University of Hawaii, however, is prohibited from utilizing certain facilities for activities of a commercial nature, except under certain circumstances. This measure supports the University of Hawaii in its efforts to enhance and diversify its sources of revenue and maximize the use of its facilities and urges the Honolulu City Council to amend its policy restricting or prohibiting the University's use of its facilities for revenue generating purposes. Your Committee determines that supporting and increasing the University's opportunities and efforts to generate revenues and utilize its facilities will contribute greatly to the effective and efficient operations of the University.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 180 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3190 Education on S.C.R. No. 184

The purpose of this measure is to request the University of Hawaii to report on Higher Education Student Financial Assistance Commissions in other states.

Testimony in support of the measure was submitted by the University of Hawaii System.

Your Committee finds that the State, in the present as well as the future, requires a highly-qualified and trained workforce to meet the changing demands of State and the world. The cost of postsecondary education is a huge burden and often a complete barrier for many. Efforts to increase access to education and training are necessary to ensure a qualified workforce. Currently, the Hawaii Post-Secondary Education Commission has a limited scope of serving as a vehicle for receiving federal funds. However, in other jurisdictions, similar entities, state higher education financial assistance commissions, work to improve student access to pursue higher education and state educational capital. This measure requests the University of Hawaii to study higher education student financial assistance commissions of other states and report to the Legislature to determine the appropriate structure for Hawaii to follow. Your Committee determines that this study is necessary to increase access to higher education and will ultimately benefit the State as a whole.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 184 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3191 Education on S.C.R. No. 220

The purpose of this measure is to request the Department of Education to consider continuing Projection Graduation training through driver education underwriters' fees as part of traffic safety education.

Testimony in support of the measure was submitted by the Department of Education, Mothers Against Drunk Driving – Hawaii and one individual.

Your Committee finds that the youth must be protected from the severe and negative consequences of alcohol and drug abuse, which is often a problem on certain occasions such as graduation night. Accordingly, "Project Graduation" was conceived as an all-night, alcohol- and drug-free, post-commencement festivity during which graduates celebrate spiritedly and safely. Over the years, the event has grown and a large percentage of public high schools host their own Project Graduation events here in Hawaii. Unfortunately, the federal grant supporting Project Graduation training is scheduled to expire in September 2008. This measure requests the Department of Education to consider continuing Projection Graduation training through driver education underwriters' fees as part of traffic safety education. Your Committee determines that the utilization of these funds is necessary and appropriate to promoting traffic safety education in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 220 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 3192 (Joint) Education and Health on S.C.R. No. 94

The purpose of this measure is to urge the University of Hawaii to begin rebuilding the School of Public Health by 2012.

Testimony in support of the measure was submitted by the Office of Hawaiian Affairs. Comments on the measure were submitted by the University of Hawaii System.

Your Committees find that, after graduating three thousand and five hundred individuals over the years, in 1999, the University of Hawaii School of Public Health lost its accreditation. Subsequently, in 2000, the school was incorporated into the John A. Burns School of Medicine as the Office of Public Health Studies. However, at the time of closure of the School of Public Health, the University of Hawaii indicated that it planned to pursue the rebuilding of the school within five years. Since that time, the State has made strides towards preparing to restore the School of Public Health. This measure requests the University of Hawaii to begin

rebuilding the School of Public Health by 2012. Your Committees determine that reinstatement of the School of Public Health is critical to addressing the health workforce shortage problem within the State.

Late testimony was provided by the Office of Hawaiian Affairs that sought to highlight the following, with which your Committees concur and would suggest the University to also consider:

- (1) That graduates of the school should be specifically prepared to improve the health of this State through a sound understanding of Hawaii's cultural contexts, accomplished through the formation of partnerships with other University of Hawaii departments; and
- (2) That special focus be paid to Hawaii's ailing rural communities, including through the provision of loan repayment benefits for future graduates of the School of Public Health for each post-graduate year spent servicing Hawaii's rural communities.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 94 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Chun Oakland, Fukunaga, Hee, Menor, Nishihara).

SCRep. 3193 Education on S.C.R. No. 83

The purpose of this measure is to request the Hawaii Teacher Standards Board to commission an independent study on the appropriate accountability structure for the Hawaii Teacher Standards Board.

Testimony in support of the measure was submitted by the Hawaii State Teachers Association. Comments on the measure were also submitted by the Department of Education and the Hawaii Teacher Standards Board.

Your Committee finds that teacher licensing is under the purview of the Hawaii Teacher Standards Board, which, although administratively attached to the Department of Education, is autonomous from any agency or department of the State. Your Committee further finds that some form of accountability is necessary to ensure the Hawaii Teacher Standards Board is fulfilling its mission and appropriately licensing and regulating teachers in the State. Numerous other professional and vocational licensing boards currently fall within the authority of the Department of Commerce and Consumer Affairs. This measure requests the Hawaii Teacher Standards Board to commission an independent study to determine the appropriate accountability structure for the Hawaii Teacher Standards Board, including exploration and propriety of oversight by the Department of Commerce and Consumer Affairs.

Your Committee determines that this study is necessary to ensure that the proper structure exists for the Hawaii Teacher Standards Board and to ensure proper regulation of teacher licenses that allows for the growth and support of an adequate teacher workforce in the State. Additionally, your Committee finds that the Auditor is the appropriate entity to conduct such a study, which should be expanded to explore the manner by which other jurisdictions oversee teacher licensing in order to determine the most appropriate structure for Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the Auditor to conduct the study of the Hawaii Teacher Standards Board accountability structure, which shall include examination of:
 - (A) Whether the current organizational placement of the Board as an administratively attached agency to the Department of Education is conducive to timely and efficient service to those applying for licenses;
 - (B) Whether the functions and operations of the Board are similar to those in other states or jurisdictions with similar numbers of students, such as Nebraska;
 - (C) Whether the functions and operations of the Board are similar to the functions and operations of other Hawaii agencies, such as the Department of Commerce and Consumer Affairs, and whether the Board might find a better fit in another agency;
 - (D) Whether the Board's long-range planning has built-in appropriate policy foundations, benchmarks, and accountability mechanisms; and
 - (E) Whether the Board's appeals process has a defensible, rational basis, and whether that process has yielded any structural changes, improved operations, or more effective screening of applicants over the years of the board's existence;
- (2) Requesting that the Auditor review the fiscal management of the Hawaii Teacher Standards Board, which review shall include, but not be limited to, the following:
 - (A) How the Board's budget is developed and approved;
 - (B) How expenditures are made and monitored; and
 - (C) How external audit findings, if any, are resolved;
- (3) Amending the title of the measure to reflect its amended purpose; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 83, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 83, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 3194 Education on S.C.R. No. 110

The purpose of this measure is to urge the Department of Education to study the feasibility of integrating into the curriculum rehabilitation programs for students with anger issues.

Testimony in support of the measure was submitted by the Department of Education, the Office of Hawaiian Affairs, and twelve individuals.

Your Committee finds that the world in which we live is fraught with violence and killing. We live in an era that has included the war in Iraq and violence in our schools and neighborhoods throughout the nation. Your Committee further finds that, although Hawaii promotes the spirit of aloha, incidents of violence have infiltrated our own communities, including our schools. In order to foster peaceful school environments and communities, especially for our keiki, the State must actively address and assist students who possess anger issues. This measure urges the Department of Education to integrate into the current curriculum rehabilitation programs for students with anger management problems. Your Committee determines that such assistance will help students to learn appropriate coping skills to reduce incidents of violence in our schools and communities.

Your Committee has amended this measure by:

- (1) Specifying that the feasibility study on integrating rehabilitation programs for students with anger problems be a joint effort between the Department of Education and the Department of Health, including changing the title to reflect the same; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 110, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 110, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3195 (Majority) Education on S.C.R. No. 121

The purpose of this measure is to request the Department of Education to develop bidialectal teaching strategies for teachers whose students' mother tongue is Hawai'i Pidgin.

Testimony in support of the measure was submitted by fourteen individuals. Testimony in opposition of the measure was submitted by the Department of Education.

Your Committee finds that Hawaii is composed of diverse ethnic, as well as socioeconomic, political, religious and philosophical groups. One aspect of the local culture is the use of Hawai'i Pidgin by children and adults, particularly in specific geographic areas within the State. Your Committee finds that the implementation of bidialectal, or speaking fluently two dialects of the same language, learning strategies has been beneficial in helping Hawai'i Pidgin speaking students to succeed on Standard Achievement Test scores. This measure requests the Department of Education to develop bidialectal teaching strategies for teachers whose students' mother dialect is Hawai'i Pidgin to provide students with the skills and knowledge to speak Hawai'i Pidgin at home with family and friends but also learn to speak standard American English while at school or as otherwise necessary and appropriate.

The Department of Education indicated that it currently maintains standards for educating students in the use of standard English, including through programs for English as a Second Language students and English Language Learner students, and opposed this measure due to its low priority and the increased costs associated with its implementation. Your Committee determines that although the Department supports some efforts to assist Hawai'i Pidgin-speaking students, the implementation of additional strategies may still prove useful.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the Sato Center for Pidgin, Creole and Dialect Studies and the Department of Second Language Studies of the University of Hawai'i at Manoa, in consultation with the Department of Education and the College of Education and the Department of Linguistics of the University of Hawai'i at Manoa, to develop bidialectal teaching strategies for teachers whose students' mother tongue is Hawai'i Pidgin, as well as to develop plans for conducting a controlled empirical study on the effectiveness of bidialectal teaching strategies for Hawai'i public schools with strong Hawai'i pidgin populations; and
- (2) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 121, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 121, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3196 Education on S.C.R. No. 158

The purpose of this measure is to request that the University of Hawaii School of Social Work dedicate its school in honor of Myron "Pinky" Thompson and change its name to "The Myron Thompson School of Social Work."

Your Committee held a public hearing on a proposed S.D. 1, which requests the Department of Education to pursue a financing agreement for the construction of the new Kihei High School on Maui and to consider a design-build approach for the school.

Testimony in support of the proposed S.D. 1 was submitted by the Department of Education and one individual.

Your Committee finds that the community of Kihei on the island of Maui supports a rapidly growing population; however, it lacks a public high school to serve its students. Recently, the Legislature appropriated funds for the construction of a new Kihei High School

which is estimated to cost in excess of \$100,000,000. To mitigate the high costs to the State, in light of the lack of funds to serve all of the needs of the State, alternative methods for funding the new Kihei High School must be explored and utilized. This measure, as amended, requests the Department of Education to use the design-build approach for the school as well as pursue a financing agreement for its construction. Your Committee determines that exploration of these alternatives will contribute to the fiscal responsibility of state resources and funds.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with language that requests the Department of Education to pursue a financing agreement for the construction of the new Kihei High School on Maui and to consider a design-build approach for the school, including changing the measure's title, and providing supporting facts therefor.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 158, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 158, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 3197 Economic Development and Taxation on S.C.R. No. 5

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism to establish the statewide Interfaith Steering Committee to explore the possibility of organizing a major international interfaith conference in Hawaii to take place by 2011.

Testimony in support of this measure was received from the All Believers Network, the Board of Directors of Seicho-No-Ie Hawaii, Unity Church of Hawaii, and The Interfaith Open Table. The Department of Business, Economic Development, and Tourism (DBEDT) submitted comments.

Your Committee is supportive of the general concept of this measure, but agrees with DBEDT that it may not be the appropriate entity to undertake the establishment of the statewide Interfaith Steering Committee.

Your Committee has amended this measure accordingly, by:

- (1) Amending the title to read:

“SENATE CONCURRENT RESOLUTION SUPPORTING THE EFFORTS OF THE ALL BELIEVERS NETWORK TO ESTABLISH THE STATEWIDE INTERFAITH STEERING COMMITTEE TO EXPLORE THE POSSIBILITY OF ORGANIZING A MAJOR INTERNATIONAL INTERFAITH CONFERENCE IN HAWAII TO TAKE PLACE BY 2011;”

- (2) Amending the body of this measure to reflect this change;
- (3) Requesting the statewide Interfaith Steering Committee to convey to the Legislature no later than December 2010, the results of its efforts to organize a major international interfaith conference in Hawaii to take place by 2011; and
- (4) Transmitting a certified copy of this Concurrent Resolution to the All Believers Network, with the All Believers Network to transmit copies to the various religious and interfaith organizations and groups named in this measure.

Your Committee believes that requesting the All Believers Network to transmit copies of this measure to the various religious and interfaith organizations and groups will provide the All Believers Network with an ideal means to ask for the participation of these entities on the statewide Interfaith Steering Committee.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3198 (Joint) Human Services and Public Housing and Health on S.C.R. No. 33

The purpose of this measure is to effectuate the recommendations of the Maui Health Initiative Task Force established pursuant to Act 219, Session Laws of Hawaii 2007, concerning a collaborative study conducted on infrastructure and workforce shortages in the State.

Testimony in support of this measure was submitted by the Healthcare Association of Hawaii. Testimony in opposition to this measure was submitted by the Department of Health, the Department of Human Services, and the Executive Office on Aging.

Your Committees find that planning an integrated and coordinated long term care policy among the counties and the State is of vital importance to the great number of residents who depend, or will in the future, on the availability of quality long term care services for themselves or a family member. As such, the work of the Long Term Living Initiative should continue to be supported.

Your Committees have amended this measure and its title by incorporating the joint comments made by the Department of Human Services and the Executive Office on Aging by replacing the request for a collaborative study and a report submitted to the 2009 Legislature, with a call for the Departments of Health and Human Services, the Executive Office on Aging and the State Health Planning and Development Agency, to continue their work on the Long Term Living Initiative to expand long term care infrastructure, workforce development, financing mechanisms, and to begin a new focus on partnering with the counties to plan an integrated and coordinated policy with the State.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 33, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 33, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Menor, Hemmings).

SCRep. 3199 Human Services and Public Housing on S.C.R. No. 106

The purpose of this measure is to request that the Office of Youth Services and Child Welfare Services conduct a collaborative study into safe shelter options for youth.

Testimony in support of this measure was submitted by the Office of Youth Services and three private citizens.

Your Committee finds that current Hawaii law requires parents or guardians to provide consent before a minor may be admitted into an emergency shelter, and that children are entitled to emergency shelter benefits in the same way as adults and should not be denied services and forced to remain on the streets.

Your Committee has amended this measure and its title by incorporating comments made by the Office of Youth Services to:

- (1) Replace "Child Welfare Services" with the "Department of Human Services"; and
- (2) Add a working study group convened by the Office of Youth Services and the Department of Human Services to conduct the study into safe shelter options and submit a report to the 2009 Legislature.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 106, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 106, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3200 Transportation and International Affairs on S.C.R. No. 51

The purpose of this measure is to urge the United States Congress to support the Korea-United States Free Trade Agreement.

Testimony in support of this measure was received from the Consulate General of the Republic of Korea.

Your Committee is supportive of this measure, and believes that its passage may be instrumental in gaining the approval of the United States Congress for this important trade agreement.

Your Committee has amended this measure by:

- (1) Correcting all references to "South Korea", to reference the official title of the "Republic of Korea";
- (2) Clarifying that the waiver program is the visa waiver program; and
- (3) Adding the Consulate General of the Republic of Korea to the list of those receiving a certified copy of the measure.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 51, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 51, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Inouye, Tsutsui).

SCRep. 3201 Transportation and International Affairs on S.R. No. 25

The purpose of this measure is to urge the United States Congress to support the Korea-United States Free Trade Agreement.

Testimony in support of this measure was received from the Consulate General of the Republic of Korea.

Your Committee is supportive of this measure, and believes that its passage may be instrumental in gaining the approval of the United States Congress for this important trade agreement.

Your Committee has amended this measure by:

- (1) Correcting all references to "South Korea", to reference the official title of the "Republic of Korea";
- (2) Clarifying that the waiver program is the visa waiver program; and
- (3) Adding the Consulate General of the Republic of Korea to the list of those receiving a certified copy of the measure.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 25, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 25, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Inouye, Tsutsui).

SCRep. 3202 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on S.C.R. No. 108

The purpose of this measure is to encourage construction of more roundabouts instead of signalized, right-angle intersections in the State.

The Department of Transportation (Department) submitted comments on this measure.

Your Committees support the continuing consideration of traffic safety alternatives, and find that this measure will ensure review of options, such as roundabouts, without mandating their use if the transportation agencies find the alternatives inappropriate for specific intersections.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 108 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3203 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on S.R. No. 60

The purpose of this measure is to encourage construction of more roundabouts instead of signalized, right-angle intersections in the State.

The Department of Transportation (Department) submitted comments on this measure.

Your Committees support the continuing consideration of traffic safety alternatives, and find that this measure will ensure review of options, such as roundabouts, without mandating their use if the transportation agencies find the alternatives inappropriate for specific intersections.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 60 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3204 Intergovernmental and Military Affairs on S.C.R. No. 109

The purpose of this measure is to support the provision of full federal veteran benefits and services to approximately eighteen thousand Filipino wartime veterans that served the United States in World War II.

Your Committee did not receive any testimony on this measure.

Your Committee finds that from 1941-1946, tens of thousands of Filipino soldiers were held as prisoners, risking their lives and the lives of their families while maintaining underground battles against the invading Japanese forces and boldly assisting the United States Armed Forces in its campaign to liberate the Philippines.

Your Committee finds that these Filipino wartime veterans, many of whom were permanently disabled and honorably discharged from the military after serving more than ninety days on active duty military service during World War II are eligible for federal veterans' benefits and services. Former President Bill Clinton, President George W. Bush and the United States Congress by H.R. 622/S. 387 recognized the vital role that the Filipino wartime soldiers played in assisting the United States Armed Forces.

Your Committee further recognizes that despite these formal acknowledgments of the Filipino American veterans' contributions to the cause of the United States during World War II, they still have not received full veterans' benefits and services from the federal government. Senator Daniel Akaka, Chairman of the Senate Committee on Veterans' Affairs therefore introduced S. 1315, the Veterans' Benefits Enhancement Act of 2007, to address these concerns. Your Committee strongly supports the passage and enactment into law of S. 1315, which provides Filipino war veterans with their long awaited veteran benefits and services.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 109 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3205 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 89

The purpose of this measure is to assist in addressing the lack of affordable housing in the State by requesting the Auditor to examine the issue of the upcoming condominium and cooperative housing project lease expirations, and its potential impact on the availability of replacement and affordable housing for Hawaii residents.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; Monarch Properties, Inc.; the Hawaii Independent Condominium & Cooperative Owners; the Hawaii Council of Associations of Apartment Owners; and thirteen private individuals.

Leasehold condominium and cooperative housing units are a relatively affordable housing option for thousands of Hawaii residents, but opportunities to use this housing option are declining as the expiration of existing leases for over 8,000 leasehold condominium and cooperative housing units approaches and are set to revert to its fee owners within the next thirty years. The lease to fee conversion of these units will have a detrimental impact on thousands of individuals who occupy these units, many of whom are elderly, and do not have the funds to purchase the fee simple interest in their units.

Your Committee finds that the displacement of hundreds of lessees each year due to leasehold conversion could have a dramatic impact on the existing affordable housing crisis in the State, and potentially leave many of lessees homeless. Requesting the Auditor to examine the issues of the upcoming condominium and cooperative housing project lease expirations and its potential impact on the availability of replacement and affordable housing for displaced residents will allow the State to anticipate the short- and long-term impact of leasehold conversion of condominium and cooperative housing units on the State's available affordable housing stock. Your Committee further finds that requesting the Auditor to provide recommendations to mitigate the reduction in affordable housing stock due to leasehold expirations will aid the Legislature in developing appropriate legislation relating to fee conversion or lease extensions of leasehold condominium and cooperative units.

Your Committee notes the willingness from Monarch Properties, Inc. to participate in assisting the Auditor in providing any additional or necessary information for the requested study, and encourages Monarch Properties' participation and input.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 89 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3206 Education on S.C.R. No. 139

The purpose of this measure is to request the Department of Education to change the Hawaii Administrative Rules to allow home schooled students to participate in public school co-curricular or extracurricular activities.

Testimony in opposition of the measure was submitted by the Department of Education.

Your Committee finds that home schooling is a popular and viable option for many parents. Accordingly, home schooled students require a well-balanced education, similar to public schools students. However, home schooled students lack the same academic and recreational enrichment provided by extracurricular activities available to public school students. Your Committee further finds that extracurricular activities, including athletics, play an important role in the holistic development of a child. Although the public school system, as well as the Department of Human Services, affords public school students the opportunity to participate in numerous before- and after-school activities that enhance their development as contributing members of our communities, home school students are not provided with the same access to such activities. This measure seeks to remedy that inequity by requesting the Department of Education to amend its rules to provide home schooled students access to extracurricular activities of the public school at which they would otherwise attend.

However, testimony provided indicated that the Department of Education is not the appropriate entity to fulfill such request. Accordingly, your Committee has amended this measure by requesting the Board of Education, rather than the Department of Education, to change the Hawaii Administrative Rules to provide home schooled students access to co-curricular and extracurricular activities, and also amends the title to reflect such change.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 139, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 139, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Nishihara).

SCRep. 3207 (Joint) Education and Health on S.C.R. No. 134

The purpose of this measure is to urge the Department of Education and the Department of Health to “buy local” to encourage sustainability.

Testimony in support of the measure was submitted by the Department of Education. Comments on the measure were submitted by the Department of Health.

Your Committees find that sustainability is an issue of paramount concern to the State and its residents. In 2005, the Hawaii 2050 Sustainability Task Force was convened to create a state planning process for creating a sustainable Hawaii to ensure that our unique islands and way of life are maintained and sustained for current and future generations to enjoy. Part of the Hawaii 2050 Sustainability Plan, which the Task Force developed, is the initiative to increase and support production and consumption of local products. This measure urges the Departments of Education and Health, two of the largest state departments, to play a major role in supporting the “buy local” initiative and promoting sustainability within the State.

Testimony received by the Department of Health sought clarification on the current state of the law to support the need for the measure.

Accordingly, your Committees have amended the measure by referencing section 3-120-4, Hawaii Administrative Rules, which exempts the procurement of certain products and services, including fresh meats and produce, from the Hawaii Procurement Code. Such reference underscores the need to encourage the Departments of Education and Health to support the “buy local” initiative whenever possible.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 134, as amended herein, and recommend that it be referred to the Committee on Commerce, Consumer Protection, and Affordable Housing, in the form attached hereto as S.C.R. No. 134, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Chun Oakland, Fukunaga, Hee, Menor, Nishihara).

SCRep. 3208 Human Services and Public Housing on S.C.R. No. 124

The purpose of this measure is to request that the Auditor conduct a financial and management audit of Department of Human Services Medicaid-sponsored programs to identify any areas of concern and submit a report to the Legislature.

Testimony in support of this measure was submitted by AlohaCare, Hamakua Health Center, Inc., Papa Ola Lokahi, and Waianae Coast Comprehensive Health Center. Written comments on the measure were submitted by the Department of Human Services.

Your Committee finds that this measure shall provide the appropriate oversight, evaluation, and feedback necessary concerning a State division that manages a budget of over \$1,300,000,000 each year and is responsible for the provision of health-related services for 200,000 of our community’s most vulnerable residents.

Your Committee has amended this measure by incorporating the comments made by AlohaCare by including in the audit a particular emphasis on the programs of QUEST, QUEST-Net, QUEST-ACE (Adult Coverage Expansion) and QUEST Expanded

Access (QExA), and to add as a potential area of concern the recent QUEST Expanded Access for the Aged, Blind, and Disabled Request for Proposals.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 124, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 124, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3209 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 2428

The purpose of this measure is to exempt state highway projects from county subdivision approvals regarding highway projects that involve acquisitions.

Testimony in support of this measure was received from the Department of Transportation and The Chamber of Commerce of Hawaii. The Department of Planning and Permitting, City and County of Honolulu submitted testimony in opposition.

Your Committees find that the current county approval process duplicates many of the practices already required in long range planning, environmental studies, the public involvement process and the legislative approval of each project. The county process requires an application for each subdivision taking, an application fee, tax clearances, a response to numerous reviewing agencies and requires the owners to sign off on subdivision applications before negotiations are completed. This measure would eliminate the lengthy and redundant review process.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2428, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3210 (Majority) Transportation and International Affairs on H.B. No. 2847

The purpose of this measure is to:

- (1) Expand the conditions allowed for a conditional license permit to add when a respondent must drive to school or vocational training, for personal medical or dental care, or to assist in the care of another person who is unable to drive; and
- (2) Clarify when a conditional license permit is permissible for certain commercial drivers.

Testimony in opposition to this measure was submitted by Mothers Against Drunk Driving Hawaii (MADD). The Judiciary submitted comments.

Your Committee has considered the concerns raised by the testifiers, particularly those of MADD, that if the ignition interlock measures are approved by the 2008 Legislature, the amendments in this measure would be unnecessary.

Your Committee has amended this measure by changing the effective date from July 1, 2008, to July 1, 2040, for the purpose of further discussion and to review the progress on the ignition interlock measures.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2847, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2847, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 1 (Trimble). Excused, 1 (Tsutsui).

SCRep. 3211 (Joint) Transportation and International Affairs and Intergovernmental and Military Affairs on H.B. No. 2524

The purpose of this measure is to require the Statewide Transportation Council to comply with county transportation and general plans, to the extent it does not affect the availability of federal funds, in the preparation of the statewide transportation plan for projected transportation needs for a six-year period.

Testimony in support of this measure was received from the Department of Planning and Permitting, City and County of Honolulu, a member of the Maui County Council, and The Chamber of Commerce of Hawaii. The Department of Transportation submitted testimony in opposition.

Your Committees find that this measure will ensure consistency among the plans, and eliminate the potential for conflicts.

Your Committees have amended this measure to clarify that the Statewide Transportation Council's compliance with county transportation and general plans, "does not adversely affect the availability of federal funds."

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2524, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2524, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3212 Health on S.C.R. No. 190

The purpose of this measure is to request the Legislative Reference Bureau to conduct a study on the potential financial and economical impact to the State and the State's health care system of providing care for patients with chronic kidney disease.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the Legislative Reference Bureau does not have the technical expertise required to appropriately analyze the economic impact on the State that this measure requests.

Accordingly, your Committee has amended this measure and its title by additionally requesting the Department of Business, Economic Development, and Tourism to conduct the economic analysis needed to determine the economic impact on the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 190, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 190, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Menor).

SCRep. 3213 Health on S.R. No. 109

The purpose of this measure is to request the Legislative Reference Bureau to conduct a study on the potential financial and economical impact to the State and the State's health care system of providing care for patients with chronic kidney disease.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the Legislative Reference Bureau does not have the technical expertise required to appropriately analyze the economic impact on the State that this measure requests.

Accordingly, your Committee has amended this measure and its title by additionally requesting the Department of Business, Economic Development, and Tourism to conduct the economic analysis needed to determine the economic impact on the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 109, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 109, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Menor).

SCRep. 3214 Education on S.C.R. No. 114

The purpose of this measure is to request the Department of Education to establish a working group to review the functions and processes of its Office of Human Resources and recommend and assist in implementing re-engineering efforts to update, streamline, and improve the effectiveness and efficiency of the office.

Testimony in support of the measure was submitted by the Hawaii Government Employees Association. Testimony in opposition of the measure was submitted by the Department of Education.

Your Committee finds that the Office of Human Resources is tasked with the inimitable job of processing the placement and payment and maintaining the records of thousands of Department personnel. The Office of Human Resources is currently converting its hardcopy records into electronic systems and, for an entity that has been criticized for its delay in processing applications and paychecks, loss of records, difficulty in information search, and user unfriendliness, assistance appears warranted. This measure requests the Department of Education to convene a working group to review the functions and processes of its Office of Human Resources and recommend and assist in implementing re-engineering efforts.

Testimony received by the Department of Education indicated that in 2007 it contracted the services of Accuity LLP to conduct a comprehensive assessment of its Office of Human Resources. The assessment is anticipated to be completed in August 2008. The Department suggested that the establishment of an advisory group to assist the Office of Human Resources in implementing the recommendations of Accuity would be appropriate and appreciated. Your Committee determines that an advisory group can provide great assistance to the Department in improving the efficiency and efficacy of its operations.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the request that the Department of Education convene a working group to review the functions and processes of its Office of Human Resources and recommend and assist in implementing re-engineering efforts to update, streamline, and improve the effectiveness and efficiency of the Office;
- (2) Requesting the Department of Education to convene an advisory group to assist the Office of Human Resources in implementing the recommendations of the assessment conducted by Accuity, and changing the title and providing supporting facts therefor; and
- (3) Requesting the advisory group to report to the Legislature prior to the 2009 and 2010 Regular Sessions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 114, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 114, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 3215 Education on S.C.R. No. 115

The purpose of this measure is to request the Department of Education to establish at least one three year pilot model complex to identify critical department rules and policies that impede effective decision-making, administering, and teaching and to operate free of those rules and policies.

Testimony in support of the measure was submitted by the Department of Education, the Hawaii State Teachers Association, and Wai'anae High School Community Council. Comments on the measure were also submitted by the Hawaii Government Employees Association and one private individual.

Your Committee finds that the public school system is responsible for providing our keiki with a quality education to prepare them for postsecondary education or the workforce. School and complex personnel, programs, and resources could be better utilized if they were able to operate free from the control and restrictions imposed by the Department of Education's rules and policies. School administrators and personnel are closer to their student constituencies and their increased authority would facilitate the appropriate allocation of underutilized or inefficiently utilized resources within the schools or complexes to achieve greater efficiency and improved results. This measure requests the Department of Education to establish at least one three year pilot model complex to identify critical department rules and policies that impede effective decision-making, administering, and teaching and to operate free of those rules and policies. Your Committee determines that the pilot project speaks to the concerns of administrators and teachers who have expressed that the provision of more authority and opportunities to the administrators and teachers would enhance learning in the schools and result in increased accountability.

Your Committee has amended this measure by clarifying that the model complex established pursuant to this measure shall be allowed to operate free of identified and agreed upon department rules and policies, in year two, after consultation with the Department of Education, the exclusive representatives for bargaining units for teachers, principals, and classified personnel and consideration of compliance and health and safety concerns.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 115, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 115, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 3216 (Joint) Education and Intergovernmental and Military Affairs on S.C.R. No. 192

The purpose of this measure is to request Kauai Community College to work with the Kauai Police Department to explore the development of an associate of science degree program in criminal justice.

Testimony in support of the measure was submitted by one individual. Comments on the measure were submitted by the University of Hawaii System.

Your Committees find that Kauai Police Department has experienced difficulty in recruiting and retaining qualified police officers to work in its rural community. Increasing the number of qualified candidates who already reside in Kauai would address this problem. This measure requests Kauai Community College, the island's sole postsecondary educational institution, to explore developing a degree program in criminal justice. Your Committees determine that such effort will expand the pool of candidates for the police force in Kauai and help to ensure the safety and protection of the island's residents.

As affirmed by the records of votes of the members of your Committees on Education and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 192 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hee, Nishihara, Tsutsui).

SCRep. 3217 (Joint) Health and Human Services and Public Housing on S.C.R. No. 79

The purpose of this measure is to determine the appropriate and effective public health practices that can be implemented to screen and treat individuals residing in public housing and emergency shelters for tuberculosis.

Your Committees received testimony in support of the intent of this measure from one individual.

Your Committees find that tuberculosis is a highly infectious communicable disease that poses a serious public health risk. Many migrants to Hawaii who are in need of housing assistance also may be in need of serious medical care, particularly tuberculosis screening and treatment. Your Committees further find that this measure will help to determine the appropriate and effective public health practices that can be implemented to screen and treat individuals residing in public housing and emergency shelters for tuberculosis.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 79 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Fukunaga, Ihara, Menor, Sakamoto).

SCRep. 3218 (Joint) Health and Human Services and Public Housing on S.R. No. 44

The purpose of this measure is to determine the appropriate and effective public health practices that can be implemented to screen and treat individuals residing in public housing and emergency shelters for tuberculosis.

Your Committees received testimony in support of the intent of this measure from one individual.

Your Committees find that tuberculosis is a highly infectious communicable disease that poses a serious public health risk. Many migrants to Hawaii who are in need of housing assistance also may be in need of serious medical care, particularly tuberculosis

screening and treatment. Your Committees further find that this measure will help to determine the appropriate and effective public health practices that can be implemented to screen and treat individuals residing in public housing and emergency shelters for tuberculosis.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 44 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Fukunaga, Ihara, Menor, Sakamoto).

SCRep. 3219 (Majority) Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 231

The purpose of this measure is to assist in addressing the existing problems and issues at the Bureau of Conveyances by urging the Department of Land and Natural Resources to develop and implement a comprehensive plan to assist the Bureau of Conveyances in becoming a more efficient, effective, and accountable operation, and to develop strategic initiatives for the Bureau.

Testimony in support of this measure was submitted by the Hawaii Association of Realtors; the American Resort Development Association (ARDA); and the Hawaii Government Employees Association (HGEA), AFSCME, Local 152. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

In 2007, the Legislature adopted S.C.R. No. 226, which established a Joint Senate-House Investigative Committee to investigate the personnel, operational, and fiscal management of the Bureau of Conveyances to ensure that the Bureau serves the public at its most optimal level, and required the Joint Investigative Committee to submit its findings and recommendations to the Legislature. During the six months of public hearings and intense investigative work, the Joint Investigative Committee uncovered several and sometimes troubling findings relating to the voluminous and escalating problems at the Bureau of Conveyances. As a result, the Joint Investigative Committee drew three prevailing and interlocking conclusions from its findings:

- (1) Severe mismanagement of the employees and operations of the Bureau of Conveyances hampers effective and efficient property recordings;
- (2) A lack of fiscal management and accountability at the Bureau of Conveyances has led to a loss of revenue for the State; and
- (3) Employee and operational mismanagement and a lack of fiscal accountability cause the operations of the Bureau of Conveyances to be vulnerable to abuse.

The Joint Investigative Committee found it necessary and appropriate to develop and mandate methods and solutions, short- and long-range, to assist the Bureau of Conveyances in becoming a more efficient, effective, and accountable operation, especially in light of the long standing nature of the problems uncovered, and the appearance that the Bureau of Conveyances lacks the will or capability to address these issues without some form of concentrated intervention. Thus, your Committee finds that urging the Department of Land and Natural Resources to develop and implement a comprehensive plan to assist the Bureau of Conveyances in becoming a more efficient, effective, and accountable operation, and to develop strategic initiatives for the Bureau will provide the special concentrated and comprehensive action that is necessary to address the problems at the Bureau.

Your Committee notes the Working Group that the Department of Land and Natural Resources formed in October 2007 to address some of the problems at the Bureau of Conveyances, and its development of an automation plan to enhance the Bureau's ability to serve the public. However, while your Committee recognizes that the implementation of an automation plan may aid in streamlining certain functions and services at the Bureau, your Committee emphasizes that a comprehensive plan is necessary and vital in order to address the full range of problems and issues that the Bureau currently faces, which automation cannot appropriately and effectively address.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 231 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Trimble). Excused, 2 (Ihara, Taniguchi).

SCRep. 3220 (Majority) Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 232

The purpose of this measure is to assist in addressing the existing problems and issues at the Bureau of Conveyances by requesting the Legislative Reference Bureau to investigate and develop feasibility and implementation models regarding merging the Land Court and Regular Systems, reassigning the Bureau of Conveyances to another state department, and privatizing certain functions of the Bureau of Conveyances.

Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources. The Legislative Reference Bureau and the Hawaii Government Employees Association (HGEA), AFSCME, Local 152 submitted comments.

In 2007, the Legislature adopted S.C.R. No. 226, which established a Joint Senate-House Investigative Committee to investigate the personnel, operational, and fiscal management of the Bureau of Conveyances to ensure that the Bureau serves the public at its most optimal level, and required the Joint Investigative Committee to submit its findings and recommendations to the Legislature. During the six months of public hearings and intense investigative work, the Joint Investigative Committee uncovered several and sometimes troubling findings relating to the voluminous and escalating problems at the Bureau of Conveyances. As a result, the Joint Investigative Committee drew three prevailing and interlocking conclusions from its findings:

- (1) Severe mismanagement of the employees and operations of the Bureau of Conveyances hampers effective and efficient property recordings;
- (2) A lack of fiscal management and accountability at the Bureau of Conveyances has led to a loss of revenue for the State; and

- (3) Employee and operational mismanagement and a lack of fiscal accountability cause the operations of the Bureau of Conveyances to be vulnerable to abuse.

The Joint Investigative Committee found it necessary and appropriate to develop and mandate methods and solutions, short- and long-range, to assist the Bureau of Conveyances in becoming a more efficient, effective, and accountable operation, especially in light of the breadth and depth of the challenges the Bureau of Conveyances faces, and given the relative lack of success that accompanied earlier attempts at improving its operations. Your Committee finds that requesting the Legislative Reference Bureau to develop feasibility and implementation models regarding long-term options for the Bureau of Conveyances will provide the special concentrated and comprehensive action that is necessary to address the problems at the Bureau of Conveyances.

Your Committee notes the concerns HGEA indicated in testimony regarding one of the components of the study that requests an investigation of privatizing certain functions of the Bureau of Conveyances. Your Committee emphasizes, however, that the intent of the requested study is to investigate the feasibility of privatization, and not to actually implement this option. Your Committee believes that additional information is necessary before appropriate and effective legislation is enacted and long-term options are implemented at the Bureau of Conveyances.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 232 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Trimble). Excused, 2 (Ihara, Taniguchi).

SCRep. 3221 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 41

The purpose of this measure is to provide regulation and licensing requirements of individuals purporting to be experts in the control of workplace hazards by requesting the Auditor to conduct a sunrise review of the industrial hygiene, safety, and health physics professions.

Testimony in support of this measure was submitted by the American Industrial Hygiene Association (AIHA).

Your Committee finds that increasing workplace hazards require a new breed of professionals who can recognize, evaluate, and control these workplace hazards such as methamphetamine laboratories, mold invasion, radon, and asbestos, and the continued threat of other hazards such as the pandemic flu, and biological and nuclear terrorism. It is imperative that individuals purporting to be experts in the control of workplace hazards meet minimum educational standards and experience requirements prior to holding themselves out as occupational and environmental health and safety professionals.

S.B. No. 2075 (2008) proposes to regulate the industrial hygiene, safety, and health physics professions, which are presently unregulated. However, pursuant to section 26H-6, Hawaii Revised Statutes, before new regulatory measures can be enacted that would subject unregulated professions and vocations to licensing or other regulatory controls, the Auditor is required to conduct a sunrise review of the proposed regulation. Thus, requesting the Auditor to conduct a sunrise review of the industrial hygiene, safety, and health physics professions complies with this statutory requirement.

Your Committee has amended this measure by inserting the appropriate legislative bill number to correctly refer to it in this measure for analysis.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 41, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 41, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3222 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on S.C.R. No. 93

The purpose of this measure is to urge the State Building Code Council to adopt expeditiously the provisions in the International Building Code, 2006 edition, relating to physical assistance in evacuation for residents in assisted living facilities or similar facilities.

Testimony in support of this measure was submitted by the Department of Human Services, the Department of Accounting and General Services, and the Disability and Communication Access Board.

Your Committees find that the Legislature has long recognized the importance of developing a long-term care infrastructure plan to ensure public safety while supporting aging in place, and that this measure is necessary to protect the health and welfare of residents of assisted living facilities.

Your Committees have amended this measure and its title by:

- (1) Incorporating the comments made by the Department of Human Services clarifying the description of the International Building Code, 2006 edition, to include mention of the recommended amendments made by the Department of Human Services' report to the Legislature pursuant to S.C.R. 144, S.D. 1, adopted by the 2006 Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 93, as amended herein, and recommend that it be referred to the Committee on Tourism and Government Operations, in the form attached hereto as S.C.R. No. 93, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3223 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on S.R. No. 53

The purpose of this measure is to urge the State Building Code Council to adopt expeditiously the provisions in the International Building Code, 2006 edition, relating to physical assistance in evacuation for residents in assisted living facilities or similar facilities.

Testimony in support of this measure was submitted by the Department of Human Services, the Department of Accounting and General Services, and the Disability and Communication Access Board.

Your Committees find that the Legislature has long recognized the importance of developing a long-term care infrastructure plan to ensure public safety while supporting aging in place, and that this measure is necessary to protect the health and welfare of residents of assisted living facilities.

Your Committees have amended this measure and its title by:

- (1) Incorporating the comments made by the Department of Human Services clarifying the description of the International Building Code, 2006 edition, to include mention of the recommended amendments made by the Department of Human Services' report to the Legislature pursuant to S.C.R. 144, S.D. 1, adopted by the 2006 Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 53, as amended herein, and recommend that it be referred to the Committee on Tourism and Government Operations, in the form attached hereto as S.R. No. 53, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3224 Ways and Means on H.B. No. 2860

The purpose of this measure is to exempt fuel sold from a foreign-trade zone to interisland airline carriers from general excise and use taxes.

Your Committee received testimony in support of the measure from the Department of Taxation, the Chamber of Commerce of Hawaii, Aloha Airlines, and Hawaiian Airlines. The State Tourism Liaison and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that the State is dependent upon an efficient and reliable inter-island airline industry to provide quick and economical transportation between the islands. The industry, however, has faced severe financial challenges in recent years in the form of airfare wars, bankruptcies, and skyrocketing fuel costs.

Your Committee also finds that the sale of fuel sold from a foreign-trade zone for use by airlines traveling out-of-state is exempt from the general excise and use taxes. However, this exemption does not extend to airline carriers traveling interisland.

By exempting the general excise and use taxes on fuel sold from a foreign-trade zone to interisland airline carriers, this measure not only provides needed financial relief to the interisland airline industry, but also levels the playing field with respect to the tax treatment of all airlines purchasing fuel from a foreign-trade zone.

Your Committee has amended the measure by:

- (1) Removing the limit on the general excise tax exemption available to interisland airline carriers; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2860, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2860, H.D. 2, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3225 Economic Development and Taxation on S.C.R. No. 96

The purpose of this measure is to request the Auditor to:

- (1) Conduct a program, performance, and financial audit of the Natural Energy Laboratory of Hawaii Authority; and
- (2) Submit a report of the findings and recommendations to the 2009 Legislature.

Testimony in support of this measure was received from the Keahole Point Association, the Hawaii Aquaculture Association, High Health Aquaculture, and a former board member of the Natural Energy Laboratory of Hawaii Authority (NELHA). NELHA submitted comments.

Your Committee has heard concerns by many of the tenants at the NELHA facility, particularly regarding the rates tenants pay for pumped seawater. Your Committee has also heard from NELHA that the recent financial audits of NELHA are "clean" audits, and that there is not a problem with the fiscal viability and public accountability of NELHA.

Your Committee certainly understands the considerable frustration of both sides. It is precisely because of this ongoing frustration, that your Committee supports the audit in this measure as a means of coming to resolution on the scope of the issues, so that solutions may be crafted to address them.

Your Committee refers to the testimony of a former NELHA board member, that "it is timely for a third party to conduct a financial and management audit of NELHA to determine if current policies and management actions are fulfilling NELHA's purpose of business facilitation and economic development according to chapter 227D, Hawaii Revised Statutes." He further recommends interviewing

existing tenants concerning the impacts of current sea water rate increases, and a review of the NELHA rule-making procedures, for the continued success of NELHA to diversify and expand the State economy is critical to all stakeholders.

Your Committee has amended this measure accordingly, to address the factual errors pointed out by the Authority, by:

- (1) Deleting the WHEREAS language related to the vacancy rate and energy costs of the Gateway Energy Center;
- (2) Deleting the WHEREAS language related to a lease agreement for the high-tech computing facility; and
- (3) Amending the WHEREAS language related to seawater pumping.

Your Committee has not amended the components of the audit, and urges further discussion as this measure continues through the legislative process.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 96, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 96, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3226 Economic Development and Taxation on S.C.R. No. 163

The purpose of this measure is to request the Department of Taxation to examine and report on the payment of general excise taxes that result from commissions earned on sales of imported tangible personal property purchased directly by a consumer from a manufacturer.

Comments on this measure were submitted by the Department of Taxation.

Your Committee finds that placing the general excise tax burden that results from commissions on sales of imported tangible personal property on the appropriate taxpayer is an important aspect to administering fair and accurate tax laws and policies for taxpayers subject to the laws of this State.

Your Committee also encourages the Department of Taxation to discuss implementation policies and reporting procedures for commissions on sales of imported tangible personal property with industry practitioners and representatives during the Department of Taxation's Tax Workshops in 2008.

Your Committee amended this measure and its title by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 163, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 163, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3227 Economic Development and Taxation on S.R. No. 89

The purpose of this measure is to request the Department of Taxation to examine and report on the payment of general excise taxes that result from commissions earned on sales of imported tangible personal property purchased directly by a consumer from a manufacturer.

Comments on this measure were submitted by the Department of Taxation.

Your Committee finds that placing the general excise tax burden that results from commissions on sales of imported tangible personal property on the appropriate taxpayer is an important aspect to administering fair and accurate tax laws and policies for taxpayers subject to the laws of this State.

Your Committee also encourages the Department of Taxation to discuss implementation policies and reporting procedures for commissions on sales of imported tangible personal property with industry practitioners and representatives during the Department of Taxation's Tax Workshops in 2008.

Your Committee amended this measure and its title by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 89, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 89, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3228 (Joint) Economic Development and Taxation and Education on S.C.R. No. 70

The purpose of this measure is to request the Legislative Reference Bureau to prepare a report on the advisability and feasibility of establishing certificate, undergraduate, and graduate degree programs within the University of Hawai'i for the study of sports and entertainment management.

Testimony in support of this measure was received from the Tourism Liaison, Aloha Section PGA, and a faculty member of the Shidler College of Business, University of Hawai'i. The University of Hawai'i System and the Legislative Reference Bureau submitted comments.

Your Committees find that the University of Hawai'i currently offers classes in sports and entertainment management, legal issues in sports and entertainment, and sports and entertainment marketing. Your Committees have heard that student interest in these classes

has been overwhelming and that an expansion of this curriculum offers opportunities for the growth and economic development of the sports and entertainment industry.

Your Committees further find that the feasibility study in this measure will provide the University with the information necessary to make a sound decision regarding the establishment of such a program, including possible changes in organization and staff, funding, organizational impacts, benefits to the University and the State, potential problems or issues, and other information that may be relevant to the decision.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 70 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 4 (English, Taniguchi, Tokuda, Slom).

SCRep. 3229 (Joint) Energy and Environment and Intergovernmental and Military Affairs on S.C.R. No. 219

The purpose of this measure is to examine the feasibility of recycling plastic waste by converting it to energy.

Specifically, this measure requests the Legislative Reference Bureau with the cooperation of the Director of Environmental Services, the Recycling Coordinator of the City and County of Honolulu, and the Facility Manager of H-Power, to examine and report to the Legislature regarding the existing waste to energy program on Oahu as it relates to the collection of a dedicated recycling stream of plastics for conversion to energy.

Testimony in support of this measure was submitted by the Hawaii Food Industry Association, American Chemistry Council, and TSphere Energy. Comments were submitted by the Legislative Reference Bureau.

Your Committees find that Oahu already operates a waste to energy facility at H-Power in Campbell Industrial Park and it is estimated that the island of Oahu uses, in addition to other plastic waste, 300,000,000 plastic bags annually. Therefore, an abundant amount of plastic waste is available to be separated, collected, and recycled for possible use as an energy supply in the State's existing facility.

Your Committees further find that plastics are made from petroleum derivatives and release high levels of energy when burned. Thus, the conversion of plastic waste into energy can create an abundant amount of energy for electricity, while reducing the cost of municipal waste disposal and conserving landfill space.

Your Committees have heard testimony that one ton of plastic could be converted to energy equal to approximately six barrels of oil. Therefore, if found environmentally and economically feasible, the recycling of plastic waste for use as an energy supply may lessen Hawaii's dependence on imported energy sources while making the State a leader in waste-to-energy recycling.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 219 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Ihara, Kokubun, Tsutsui).

SCRep. 3230 (Joint) Energy and Environment and Intergovernmental and Military Affairs on S.R. No. 130

The purpose of this measure is to examine the feasibility of recycling plastic waste by converting it to energy.

Specifically, this measure requests the Legislative Reference Bureau with the cooperation of the Director of Environmental Services, the Recycling Coordinator of the City and County of Honolulu, and the Facility Manager of H-Power, to examine and report to the Legislature regarding the existing waste to energy program on Oahu as it relates to the collection of a dedicated recycling stream of plastics for conversion to energy.

Testimony in support of this measure was submitted by the Hawaii Food Industry Association, American Chemistry Council, and TSphere Energy. Comments were submitted by the Legislative Reference Bureau.

Your Committees find that Oahu already operates a waste to energy facility at H-Power in Campbell Industrial Park and it is estimated that the island of Oahu uses, in addition to other plastic waste, 300,000,000 plastic bags annually. Therefore, an abundant amount of plastic waste is available to be separated, collected, and recycled for possible use as an energy supply in the State's existing facility.

Your Committees further find that plastics are made from petroleum derivatives and release high levels of energy when burned. Thus, the conversion of plastic waste into energy can create an abundant amount of energy for electricity, while reducing the cost of municipal waste disposal and conserving landfill space.

Your Committees have heard testimony that one ton of plastic could be converted to energy equal to approximately six barrels of oil. Therefore, if found environmentally and economically feasible, the recycling of plastic waste for use as an energy supply may lessen Hawaii's dependence on imported energy sources while making the State a leader in waste-to-energy recycling.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 130 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 3 (Ihara, Kokubun, Tsutsui).

SCRep. 3231 Human Services and Public Housing on S.C.R. No. 98

The purpose of this measure is to request that the Auditor perform a financial and management audit of the Hawaii Disability Rights Center.

Testimony in support of this measure was submitted by four private citizens. Testimony in opposition to this measure was submitted by the Hawaii Disability Rights Center.

Your Committee finds that an audit is warranted to assess to what extent the Hawaii Disability Rights Center is meeting the protection and advocacy objectives with which it is charged, and to what extent the Center is organized, managed, and makes efficient use of funds and resources.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 98, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 98, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3232 Public Safety on S.C.R. No. 160

The purpose of this measure is to request the Legislative Reference Bureau to review and compare the parole policies of this State with other jurisdictions in order to determine the impact of Hawaii's parole policies on the prison population in this State.

Written testimony in support of this measure was submitted by the Hawaii Paroling Authority, Community Alliance on Prisons, Drug Policy Forum of Hawai'i, and two individual citizens. Oral testimony in support of this measure was given by one individual citizen. Written comments on this measure were submitted by the Legislative Reference Bureau.

Your Committee finds that the parole policies and procedures in this State serve important purposes, such as protecting our communities and relieving the correctional system from overcrowding. An independent review and examination of the parole policies in Hawaii and other jurisdictions by the Legislative Reference Bureau would benefit the correctional system in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 160, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 160, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 3233 Water and Land on S.C.R. No. 95

The purpose of this measure is to request that the Legislative Reference Bureau conduct a study on establishing a geological survey as a state agency.

Testimony in support of this measure was submitted by one interested individual. The Legislative Reference Bureau submitted comments regarding this measure.

Your Committee finds that Hawaii faces a wide range of geological issues, including coastal erosion, limited ground and surface water, rock falls and landslides, earthquakes, volcanic eruptions, depleted rock aggregate resources, and geothermal energy. Currently, Hawaii's activities related to these geological issues are spread among a variety of state and county agencies, such as the Department of Land and Natural Resources' Commission on Water Resource Management and Office of Conservation and Coastal Lands, the Department of Health, and the various county water supply departments. These state and county agencies serve specific purposes for their respective agencies, potentially leaving gaps in efforts to collect and analyze geologic data on issues of importance to the State such as: geologic hazards, including but not limited to earthquakes, coastal erosion and flooding, flash flooding, rock falls, landslides, soil erosion, and volcanism; and geologic resources, including but not limited to groundwater, watersheds, rock quarrying, sand and gravel mining, geothermal energy, reef management, wetland and dune management, and beach and shoreline management.

Your Committee further finds that Hawaii is one of only two states that have never received federal funds to perform geological studies. Your Committee believes that a Hawaii state geological survey could compete for such federal funds and provide a broader range of geological information.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 95 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3234 Water and Land on S.R. No. 55

The purpose of this measure is to request that the Legislative Reference Bureau conduct a study on establishing a geological survey as a state agency.

Testimony in support of this measure was submitted by one interested individual. The Legislative Reference Bureau submitted comments regarding this measure.

Your Committee finds that Hawaii faces a wide range of geological issues, including coastal erosion, limited ground and surface water, rock falls and landslides, earthquakes, volcanic eruptions, depleted rock aggregate resources, and geothermal energy. Currently, Hawaii's activities related to these geological issues are spread among a variety of state and county agencies, such as the Department

of Land and Natural Resources' Commission on Water Resource Management and Office of Conservation and Coastal Lands, the Department of Health, and the various county water supply departments. These state and county agencies serve specific purposes for their respective agencies, potentially leaving gaps in efforts to collect and analyze geologic data on issues of importance to the State such as: geologic hazards, including but not limited to earthquakes, coastal erosion and flooding, flash flooding, rock falls, landslides, soil erosion, and volcanism; and geologic resources, including but not limited to groundwater, watersheds, rock quarrying, sand and gravel mining, geothermal energy, reef management, wetland and dune management, and beach and shoreline management.

Your Committee further finds that Hawaii is one of only two states that have never received federal funds to perform geological studies. Your Committee believes that a Hawaii state geological survey could compete for such federal funds and provide a broader range of geological information.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 55 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee . Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3235 Economic Development and Taxation on S.C.R. No. 177

The purpose of this measure is to request that the Attorney General:

- (1) Examine several specific topics related to cybercrime in Hawaii; and
- (2) Report to the 2009 Legislature on the findings, and any recommendations for legislation to deter and punish cybercrime.

Testimony in support of this measure was received from one individual.

Your Committee finds that "traditional" crime has developed new forms to take advantage of increasingly sophisticated technology. While many of the types of crime remain essentially similar, the use of technology has taken the means of perpetrating the crime to a new level. Your Committee is supportive of this measure to assist in ensuring that Hawaii's laws are effective in dealing with cybercrime.

Your Committee has amended this measure by adding one additional topic to the study: cyberstalking involving e-mails containing false, derogatory, harassing, or defamatory messages, or those in which the sender pretends the messages are written by a person other than the sender.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 177, as amended herein, and recommends that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.C.R. No. 177, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3236 Economic Development and Taxation on S.R. No. 100

The purpose of this measure is to request that the Attorney General:

- (1) Examine several specific topics related to cybercrime in Hawaii; and
- (2) Report to the 2009 Legislature on the findings, and any recommendations for legislation to deter and punish cybercrime.

Testimony in support of this measure was received from one individual.

Your Committee finds that "traditional" crime has developed new forms to take advantage of increasingly sophisticated technology. While many of the types of crime remain essentially similar, the use of technology has taken the means of perpetrating the crime to a new level. Your Committee is supportive of this measure to assist in ensuring that Hawaii's laws are effective in dealing with cybercrime.

Your Committee has amended this measure by adding one additional topic to the study: cyberstalking involving e-mails containing false, derogatory, harassing, or defamatory messages, or those in which the sender pretends the messages are written by a person other than the sender.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 100, as amended herein, and recommends that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.R. No. 100, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3237 Human Services and Public Housing on S.C.R. No. 137

The purpose of this measure is to request the convening of a task force to identify the legal and logistical impediments to the sharing of criminal background information of immigrants between the federal government and the State and between state departments.

Testimony in support of this measure was submitted by the Department of Education.

Your Committee finds that this measure and the task force that it calls for are necessary to provide potentially critical criminal background information on individuals who may pose a risk to the safety and well-being of Hawaii residents.

Your Committee has amended this measure and its title by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 137, as amended herein, and recommends that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.C.R. No. 137, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3238 (Joint) Human Services and Public Housing and Agriculture and Hawaiian Affairs on S.C.R. No. 133

The purpose of this measure is to request that the Department of Human Services convene a task force and establish a pilot project to determine the feasibility of implementing portions of Native Hawaiian Child Welfare Act, which establishes certain custody proceedings for Native Hawaiian children.

Testimony in support of this measure was submitted by the Department of Human Services. The Office of Hawaiian Affairs testified orally that it is currently reviewing its position on this measure.

Your Committees find that approximately fifty per cent of Department of Human Services' child welfare cases involve Native Hawaiian families. Your Committees further find that ensuring that the particular needs of these children are being met while navigating the child welfare system raises complex and sensitive issues, warranting the establishment of a task force with the expertise to address the relevant issues collaboratively and effectively.

Your Committees have amended this measure and its title by:

- (1) Incorporating the comments made by the Department of Human Services to:
 - (A) Require Na Kupuna O Waianae to convene the task force rather than the Department of Human Services;
 - (B) Require the Department of Human Services to serve as a member of the task force;
 - (C) Require the task force to examine the feasibility of conducting the pilot project, rather than requiring the Department of Human Services to establish the pilot project; and
 - (D) Extend the task force term from one year to two years, with an interim report due twenty days prior to the convening of the Regular Session of 2009, and a final report due twenty days prior to the convening of the Regular Session of 2010; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Agriculture and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 133, as amended herein, and recommend that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.C.R. No. 133, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (English, Hee, Hooser, Hemmings).

SCRep. 3239 (Joint) Human Services and Public Housing and Agriculture and Hawaiian Affairs on S.R. No. 69

The purpose of this measure is to request that the Department of Human Services convene a task force and establish a pilot project to determine the feasibility of implementing portions of Native Hawaiian Child Welfare Act, which establishes certain custody proceedings for Native Hawaiian children.

Testimony in support of this measure was submitted by the Department of Human Services. The Office of Hawaiian Affairs testified orally that it is currently reviewing its position on this measure.

Your Committees find that approximately fifty per cent of Department of Human Services' child welfare cases involve Native Hawaiian families. Your Committees further find that ensuring that the particular needs of these children are being met while navigating the child welfare system raises complex and sensitive issues, warranting the establishment of a task force with the expertise to address the relevant issues collaboratively and effectively.

Your Committees have amended this measure and its title by:

- (1) Incorporating the comments made by the Department of Human Services to:
 - (A) Require Na Kupuna O Waianae to convene the task force rather than the Department of Human Services;
 - (B) Require the Department of Human Services to serve as a member of the task force;
 - (C) Require the task force to examine the feasibility of conducting the pilot project, rather than requiring the Department of Human Services to establish the pilot project; and
 - (D) Extend the task force term from one year to two years, with an interim report due twenty days prior to the convening of the Regular Session of 2009, and a final report due twenty days prior to the convening of the Regular Session of 2010; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Agriculture and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 69, as amended herein, and recommend that it be referred to the Committee on Judiciary and Labor, in the form attached hereto as S.R. No. 69, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (English, Hee, Hooser, Hemmings).

SCRep. 3240 Economic Development and Taxation on S.C.R. No. 212

The purpose of this measure is to request the Office of the Auditor to perform a management and financial audit of the High Technology Development Corporation, the Hawaii Strategic Development Corporation, and the programs and entities under their respective purviews.

The High Technology Development Corporation and the Hawaii Strategic Development Corporation submitted comments.

Your Committee finds that pursuant to the hearings convened as a result of Senate Resolution No. 2, 2008, a number of questions have arisen regarding the actions by the Department of Business, Economic Development, and Tourism in pursuing initiatives that appear to benefit private parties rather than valid state interests. These, in turn, raised considerable concern over the Department's management, performance, and what appear to be inadequate internal controls.

Your Committee finds that, in some instances, the actions of the Department have further impacted the Department's attached agencies, including those named in this measure.

Your Committee has therefore expanded the scope of this measure, by:

(1) Changing its title to:

“REQUESTING THE OFFICE OF THE AUDITOR TO PERFORM A MANAGEMENT, FINANCIAL, AND PROGRAM AUDIT OF THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM, INCLUDING THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION, THE HAWAII STRATEGIC DEVELOPMENT CORPORATION, AND THE PROGRAMS AND ENTITIES UNDER THEIR RESPECTIVE PURVIEWS”;

- (2) Adding an additional WHEREAS clause regarding the Legislature's purpose in establishing the High Technology Innovation Corporation;
- (3) Deleting the WHEREAS clause regarding the State Private Investment Fund;
- (4) Deleting the WHEREAS clause regarding the impact of the High Technology Development Corporation and the Hawaii Strategic Development Corporation;
- (5) Adding an additional WHEREAS clause regarding the recent actions by the Department of Business, Economic Development, and Tourism in pursuing initiatives rejected by the Legislature, which have raised considerable concern over the Department's management, performance, and what appear to be inadequate internal controls;
- (6) Adding an additional WHEREAS clause stating that the last financial audit of the Department of Business, Economic Development, and Tourism was in 2003;
- (7) Amending the BE IT RESOLVED clause to request the Auditor to conduct a management, financial, and program audit of the Department of Business, Economic Development, and Tourism, including strategic marketing and support, creative industries, general support for economic development, and the High Technology Development Corporation, Hawaii Strategic Development Corporation and the programs and entities under their purviews; and
- (8) Adding the Director of Business, Economic Development, and Tourism to the list of those receiving a certified copy of the measure.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 212, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 212, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3241 Economic Development and Taxation on S.C.R. No. 162

The purpose of this measure is to request the Department of Taxation to report the fiscal impact and rate of usage by taxpayers of various tax credits and exemptions under chapters 235, 237, 239, and 244D, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, Hawaii Bankers Association, Hawaiian Telecom, State Farm Insurance Companies, and Marriott International, Inc. Comments on this measure were submitted by the Department of Taxation and Hawaii Association of REALTORS.

Your Committee finds that a report on the fiscal impact and rate of usage by taxpayers of certain tax credits and exemptions will result in findings that will enhance the government's fiscal decisions. An analysis by the Department of Taxation of the tax credits and exemptions in this measure will help to ensure that the Legislature is fully informed of the potential economic and social impacts that may result from changes to the tax credits or exemptions.

Your Committee is aware of the Department of Taxation's concerns regarding its ability to adequately comply with each of the requests in this measure due to a lack of financial and human resources that are currently in the Department of Taxation, which would be necessary to thoroughly and successfully carry out all of the requirements of this measure. Accordingly, your Committee directs the Department of Taxation to provide a cost estimate of the staffing and related resources required to undertake the study sought by this measure so that the Legislature can prioritize the most pressing issues and areas for review or evaluation.

Your Committee has amended this measure by making technical amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 162, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 162, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3242 Economic Development and Taxation on S.R. No. 88

The purpose of this measure is to request the Department of Taxation to report the fiscal impact and rate of usage by taxpayers of various tax credits and exemptions under chapters 235, 237, 239, and 244D, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, Hawaii Bankers Association, Hawaiian Telecom, State Farm Insurance Companies, and Marriott International, Inc. Comments on this measure were submitted by the Department of Taxation and Hawaii Association of REALTORS.

Your Committee finds that a report on the fiscal impact and rate of usage by taxpayers of certain tax credits and exemptions will result in findings that will enhance the government's fiscal decisions. An analysis by the Department of Taxation of the tax credits and exemptions in this measure will help to ensure that the Legislature is fully informed of the potential economic and social impacts that may result from changes to the tax credits or exemptions.

Your Committee is aware of the Department of Taxation's concerns regarding its ability to adequately comply with each of the requests in this measure due to a lack of financial and human resources that are currently in the Department of Taxation, which would be necessary to thoroughly and successfully carry out all of the requirements of this measure. Accordingly, your Committee directs the Department of Taxation to provide a cost estimate of the staffing and related resources required to undertake the study sought by this measure so that the Legislature can prioritize the most pressing issues and areas for review or evaluation.

Your Committee has amended this measure by making technical amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 88, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 88, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3243 (Joint) Health and Economic Development and Taxation on S.C.R. No. 34

The purpose of this measure is to request the Department of Taxation to study the impacts of implementing the tax incentive recommendations put forth by the Maui Health Initiative Task Force.

Your Committees received testimony in support of this measure from the Hawaii Disability Rights Center.

Your Committees find that the Maui Health Initiative Task Force, created by Act 219, Session Laws of Hawaii 2007, was tasked with determining the current and future health care needs of Maui County. In its final report that was submitted to the Legislature, the task force recommended the implementation of several state tax credits that would serve as incentives for health care providers to work in Maui County and for the development of electronic medical records services. Your Committees further find that this measure is necessary to study the impacts of implementing these tax credits and to propose legislation for the next legislative session.

As affirmed by the records of votes of the members of your Committees on Health and Economic Development and Taxation that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 34 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (English, Menor).

SCRep. 3244 (Joint) Health and Economic Development and Taxation on S.R. No. 15

The purpose of this measure is to request the Department of Taxation to study the impacts of implementing the tax incentive recommendations put forth by the Maui Health Initiative Task Force.

Your Committees received testimony in support of this measure from the Hawaii Disability Rights Center.

Your Committees find that the Maui Health Initiative Task Force, created by Act 219, Session Laws of Hawaii 2007, was tasked with determining the current and future health care needs of Maui County. In its final report that was submitted to the Legislature, the task force recommended the implementation of several state tax credits that would serve as incentives for health care providers to work in Maui County and for the development of electronic medical records services. Your Committees further find that this measure is necessary to study the impacts of implementing these tax credits and to propose legislation for the next legislative session.

As affirmed by the records of votes of the members of your Committees on Health and Economic Development and Taxation that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 15 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (English, Menor).

SCRep. 3245 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 196

The purpose of this measure is to request the Auditor to conduct an impact assessment report, pursuant to sections 23-51 and 23-52, Hawaii Revised Statutes, of the social and financial impacts of mandating coverage of the diagnosis and treatment of autism spectrum disorders for all policies and contracts, hospital and medical service plan contracts, medical service corporation contracts, and health maintenance organization plans and contracts issued after December 31, 2008, as provided in S.B. No. 2532 (2008).

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, the State Council on Developmental Disabilities, Autism Speaks, Hawaii Disability Rights Center, and two individuals.

Your Committees find that an Auditor's sunrise study is required before health insurance coverage can be mandated for the diagnosis and treatment of autism spectrum disorders. Your Committees further find that S.B. No. 2532, S.D. 1 has been introduced in the Legislature and includes the information required for the Auditor to conduct the study and report requested by this measure.

Accordingly, your Committees have amended this measure by clarifying that S.B. No. 2532, S.D. 1, that mandates coverage of the diagnosis and treatment of autism spectrum disorders, is the appropriate measure designated by the Legislature for the Auditor's report.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 196, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 196, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Fukunaga, Ihara, Menor, Sakamoto).

SCRep. 3246 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 103

The purpose of this measure is to request the Auditor to conduct a study of Act 226, Session Laws of Hawaii 2007, which requires certification of nurse aides who work in state-licensed or state-certified health care settings, regarding the impact the Act has had on nurse aides and the costs for certification and competency evaluations.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that Act 226, Session Laws of Hawaii 2007, parallels federal requirements by requiring nurse aides who work in nursing facilities that participate in Medicare and Medicaid programs to become certified. In addition, Act 226 has allowed the Department of Commerce and Consumer Affairs to better monitor and evaluate the competency of nurse aides practicing in the State. Your Committees further find that an Auditor's impact study is necessary to assess the costs incurred since the enactment of Act 226 and potential future costs.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 103 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Fukunaga, Ihara, Menor, Sakamoto).

SCRep. 3247 Human Services and Public Housing on S.C.R. No. 200

The purpose of this measure is to request that the Auditor conduct a financial and management audit of the Hawaii Centers for Independent Living in the State of Hawaii.

Testimony in support of this measure was submitted by the Disability and Communication Access Board and thirty private citizens. Testimony in opposition to this measure was submitted by the Hawaii Centers for Independent Living, Hui Kupuna VIP, and forty private citizens.

Your Committee finds that a financial and management audit of the Hawaii Centers for Independent Living would:

- (1) Address concerns about whether the Hawaii Centers for Independent Living is providing adequate services to consumers;
- (2) Determine if improvement in Center operations and services are required, and if the services are being provided as required by Center contracts; and
- (3) Reveal whether the Center has complied with the requirements of federal and state law, including the timely filing of reports with contracting agencies.

Your Committee has amended this measure by making additional note of the substance of certain testimony received at the public hearing held on March 25, 2008, and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 200, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 200, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3248 Water and Land on S.C.R. No. 210

The purpose of this measure is to comply with the requirements of Section 171-50, Hawaii Revised Statutes, which states that all land exchanges with the Department of Land and Natural Resources shall be subject to disapproval by the Legislature. The statute requires the Department to introduce a resolution to the Legislature detailing the proposed exchange. The proposed exchange involves Tiana Partners, the Hawaiian Humane Society and the Department of Land and Natural Resources.

Testimony in support of this measure was submitted by the Hawaiian Humane Society and the Department of Land and Natural Resources.

Your Committee finds that this exchange has been approved in principle by the Board of Land and Natural Resources at its meetings on December 8, 2006 and December 14, 2007. The proposed exchange involves property, located in Niu, Oahu, currently owned by Tiana Partners (48%) and the Hawaiian Humane Society (52%) with the State of Hawaii holding a springing executory interest from the Hawaiian Humane Society's interest. The Hawaiian Humane Society is proposing to transfer its (52%), with the State releasing its springing executory interest, in three of four parcels to Tiana Partners for cash and other consideration. The Hawaiian Humane Society's interest in the fourth parcel will be transferred to the Department of Land and Natural Resources to be included in the Department's Honolulu Watershed Forest Reserve for watershed protection.

Your Committee finds that the exchange is in the best interest of the State of Hawaii and the interested parties and although section 171-50, Hawaii Revised Statutes, does not require the Legislature to explicitly approve such land exchanges, your Committee believes this measure should continue through the legislative process as a vehicle for further discussion and review on the matter.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 210 and recommends that it be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3249 Water and Land on S.R. No. 124

The purpose of this measure is to comply with the requirements of Section 171-50, Hawaii Revised Statutes, which states that all land exchanges with the Department of Land and Natural Resources shall be subject to disapproval by the Legislature. The statute requires the Department to introduce a resolution to the Legislature detailing the proposed exchange. The proposed exchange involves Tiana Partners, the Hawaiian Humane Society and the Department of Land and Natural Resources.

Testimony in support of this measure was submitted by the Hawaiian Humane Society and the Department of Land and Natural Resources.

Your Committee finds that this exchange has been approved in principle by the Board of Land and Natural Resources at its meetings on December 8, 2006 and December 14, 2007. The proposed exchange involves property, located in Niu, Oahu, currently owned by Tiana Partners (48%) and the Hawaiian Humane Society (52%) with the State of Hawaii holding a springing executory interest from the Hawaiian Humane Society's interest. The Hawaiian Humane Society is proposing to transfer its (52%), with the State releasing its springing executory interest, in three of four parcels to Tiana Partners for cash and other consideration. The Hawaiian Humane Society's interest in the fourth parcel will be transferred to the Department of Land and Natural Resources to be included in the Department's Honolulu Watershed Forest Reserve for watershed protection.

Your Committee finds that the exchange is in the best interest of the State of Hawaii and the interested parties and although section 171-50, Hawaii Revised Statutes, does not require the Legislature to explicitly approve such land exchanges, your Committee believes this measure should continue through the legislative process as a vehicle for further discussion and review on the matter.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 124 and recommends that it be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3250 Agriculture and Hawaiian Affairs on S.C.R. No. 138

The purpose of this measure is to disapprove the salary increases recommended by the salary commission for the Trustees of the Office of Hawaiian Affairs.

Prior to the hearing on this measure, a proposed draft was circulated which amended the title and purpose of this measure to request a financial and management audit of the Office of Hawaiian Affairs.

Testimony in support of the proposed draft of the measure was submitted by Na Koa Ikaika o Ka Lahui Hawaii, Sovereign Councils of the Hawaiian Homelands Assembly, Hawaiian Political Action Council of Hawaii, and seventeen individuals. Testimony in opposition to this measure was submitted by the Office of Hawaiian Affairs, Winer Meheula and Devins, State Attorney General, Native Hawaiian Legal Corporation, and six individuals. The executive director of the Native Hawaiian Education Council, testifying in his individual capacity, submitted comments on this measure.

Your Committee advised those present at the hearing that the purpose of the proposed draft of this measure was to respond to the numerous requests made by beneficiaries of the Office of Hawaiian Affairs and the community. Your Committee notes that the testimony received reflected a concern in both the general community and the Hawaiian community over the management of the Office of Hawaiian Affairs. Your Committee further notes that part of the reason for these feelings of mistrust may be the findings set forth in previous audit reports relating to the Office of Hawaiian Affairs. Further, your Committee strongly recommends that the requested audit be utilized as an opportunity for the Office of Hawaiian Affairs to address or dispel the various concerns expressed by its beneficiaries and the community.

Your Committee has amended the proposed draft of this measure to accurately reflect the reason for its introduction.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 138, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 138, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Hee).

SCRep. 3251 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 299

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF CHIROPRACTIC EXAMINERS

G.M. No. 299 NICHOLAS G. OPIE DC, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Nicholas G. Opie, D.C. to have the necessary qualifications to be nominated to the State Board of Chiropractic Examiners for a second term.

Testimony in support of Dr. Opie's nomination was submitted by the Department of Commerce and Consumer Affairs, the National Board of Chiropractic Examiners (NBCE), the International Chiropractors Association (ICA), and six private individuals.

Dr. Opie received his Bachelor of Science in Biology from Pacific University and his Doctor of Chiropractic from the Western States Chiropractic College in Portland, Oregon. He currently provides chiropractic services to his clients at his private practice in Kailua. He has extensively participated as a committee member and examiner for the National Board of Chiropractic Examiners and as a delegate to the Federation of Chiropractic Licensing Board Annual Business Meetings.

Dr. Opie is a licensed chiropractor, and has been serving on the Board of Chiropractic Examiners since July 28, 2004. He is keenly aware of the issues that confront the regulatory authority and is prepared to engage in discussion on the issues that are presented to the Board. Dr. Opie's demonstrated commitment, motivation, education, and professional experiences will continue to greatly assist the Board of Chiropractic Examiners.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3252 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 313

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF EXAMINERS IN NATUROPATHY

G.M. No. 313 MICHAEL L. TRAUB, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Michael L. Traub, N.D. to have the necessary qualifications to be nominated to the Board of Examiners in Naturopathy for a second term.

Testimony in support of Dr. Traub's nomination was submitted by the Department of Commerce and Consumer Affairs.

Dr. Traub received his Bachelor of Science in Biological Sciences from the University of California at Irvine, and another Bachelor of Science in Human Biology from Kansas Newman College. Subsequently, he received his Doctor of Naturopathic Medicine from the National College of Naturopathic Medicine in Portland, Oregon. He currently practices naturopathic medicine at Ho'o Lokahi in Kailua-Kona on the Island of Hawaii and is a licensed naturopathic physician in this State. He has extensive teaching experience and has authored several published works. He is a member of a long list of professional societies and organizations of which he has served several leadership roles.

Dr. Traub currently serves as the Chairperson for the Board of Examiners in Naturopathy where he contributes his knowledge of the field of naturopathic medicine as well as history to the Board. Dr. Traub's demonstrated commitment, motivation, education, and professional experiences will continue to greatly assist the Board of Examiners in Naturopathy.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3253 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 314

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF NURSING

G.M. No. 314 PATRICIA A. LANGE-OTSUKA, for a term to expire 6-30-2011

Testimony in support of Patricia A. Lange-Otsuka's nomination was submitted by the Department of Commerce and Consumer Affairs, State Board of Nursing, the Center for Nursing, and one individual.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Patricia A. Lange-Otsuka, Ed.D., MSN, ARPN, BC, CNE to have the necessary qualifications to be nominated to the State Board of Nursing for a second term.

Dr. Lange-Otsuka received her Bachelor of Science in Nursing from Bowling Green State University and her Master of Science in Nursing from the School of Nursing at the Medical University of Ohio. Subsequently, she engaged in post graduate study in Pharmacology for Advanced Practice Nurses at the University of Hawaii and received her Doctorate in Education from Nova Southeastern University. She is currently licensed as a Registered Nurse and an Advanced Practice Registered Nurse in Hawaii and Ohio as well as being certified as a Clinical Specialist in Community Health and as a Nurse Educator.

Dr. Lange-Otsuka is presently the Interim Dean of Nursing and a Professor of Nursing at Hawaii Pacific University where she oversees the day-to-day management of the graduate nursing program, including recruitment, advising, and scheduling, and also serves as the Undergraduate Academic Coordinator for the nursing program. She is the author of an extensive list of published works, has participated in numerous research activities, and has presented a number of professional presentations.

Dr. Lange-Otsuka is being nominated to serve a second term on the State Board of Nursing where she has been a reliable member and draws from her more than twenty years of experience in nursing to contribute to the breadth of information that is necessary for the

Board to make its decisions. Dr. Lange-Otsuka's demonstrated commitment and extensive experience in nursing makes her a valuable asset to the State Board of Nursing for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3254 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 319

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHYSICAL THERAPY

G.M. No. 319 HARRIETT CHRISTINA BAXENDALE, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Harriett Christina Baxendale, P.T. to have the necessary qualifications to be nominated to the Board of Physical Therapy for a second term.

Testimony in support of Ms. Baxendale's nomination was submitted by the Department of Commerce and Consumer Affairs; the Hawaii Chapter, American Physical Therapy Association; and one private individual.

Ms. Baxendale received her Bachelor of Science in Physical Therapy from the California State University at Long Beach. She currently serves as a Physical Therapy Consultant for Ho'okele Personnel Health Planners where she performs home safety evaluations, assesses clients' safety once they are discharged from acute hospital, rehabilitation, or home care programs, provides consultation services to clients, family members, and caregivers, and assists with personal health management needs. Prior to her current position, she served as a Staff Physical Therapist at the Kapiolani Medical Center at Pali Momi, Kaiser Medical Center at Moanalua, Prime Care Home Health Services, and Vencare Rehab Services at Pearl City Nursing Home. Ms. Baxendale is a licensed physical therapist in California and Hawaii and is an active member of the American Physical Therapy Association (APTA) and the Hawaii Chapter, American Physical Therapy Association (HAPTA).

Ms. Baxendale has been serving as the Board's Chairperson since July 2007 and her leadership abilities have enabled the Board of Physical Therapy to continue to make progress in discussions regarding amendments to the Board's Administrative Rules. Her thoughtful insights gained over the many years of experience as a licensed physical therapist and her participation as the Board-appointed delegate to the Federation of State Boards of Physical Therapy's annual meetings have made her a valuable asset to the Board. Ms. Baxendale's demonstrated commitment, motivation, education, and professional experiences will continue to greatly assist the Board of Physical Therapy.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3255 Economic Development and Taxation on Gov. Msg. Nos. 330, 331 and 332

Recommending that the Senate advise and consent to the nominations of the following:

SMALL BUSINESS REGULATORY REVIEW BOARD

G.M. No. 330 DONALD L. DYMOND, for a term to expire 6-30-2012;

G.M. No. 331 DORVIN D. LEIS, for a term to expire 6-30-2012; and

G.M. No. 332 MICHAEL C. L. YEE, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Donald L. Dymond, Dorvin D. Leis, and Michael C. L. Yee to have the necessary qualifications to be nominated to the Small Business Regulatory Review Board.

Your Committee received testimony in support of Donald L. Dymond from the Department of Business, Economic Development, and Tourism and the Chairperson of the Small Business Regulatory Review Board.

Donald L. Dymond is the owner of Kalapawai Market, Kalapawai Cafe & Deli, and Zia's Cafe, a small business enterprise located in Kailua and Kaneohe, Oahu. He purchased, and has successfully expanded the business, since 1992, after careers in retail, sales and sales management, and real estate brokerage and sales both in California and Hawaii. He is a graduate of Fresno State University, with a Bachelor of Science degree. Mr. Dymond is active in numerous professional and windward community organizations, and serves as a board member on the Kailua Chamber of Commerce and Le Jardin Academy. He is a reappointment to the Small Business Regulatory Review Board.

Your Committee received testimony in support of Dorvin D. Leis from the Department of Business, Economic Development, and Tourism; the Chairperson of the Small Business Regulatory Review Board; the President of the University of Hawai'i System; the Chancellor of Maui Community College; the President and CEO of the University of Hawai'i Foundation; two senior executives from Central Pacific Bank; and two senior executives from First Hawaiian Bank.

Dorvin D. Leis is the owner and Chairman of the Board of Dorvin D. Leis Co., Inc., a licensed contracting business established in Hawaii in 1960. In addition to his extensive business experience, Mr. Leis is a member of many professional and civic organizations, including the American Institute of Architects, the Mechanical Contractors Association of America, the Elks Club, and the University of Hawaii Founders Club, among others. He received the Outstanding Citizen Award from the Maui Council of the Boy Scouts of America in 2006 and holds numerous honors from Maui business and civic organizations. Mr. Leis is a reappointment to the Small Business Regulatory Review Board.

Your Committee received testimony in support of Michael C. L. Yee from the Department of Business, Economic Development, and Tourism; the Chairperson of the Small Business Regulatory Review Board; a senior executive from First Hawaiian Bank; a senior executive from Castle & Cooke Hawai'i; the Development Director of Iolani School; and one individual.

Michael C. L. Yee is the owner and managing member of Enviroservices and Training Center, LLC, founded in 1994, and prior to that was Vice President of Unitek Environmental Services. He is a graduate of the University of Washington, earned a M.P.H. from the University of Hawai'i, and has taught environmental classes at Leeward Community College and the University of Hawai'i. Mr. Yee is a registered environmental professional, a registered sanitarian, and a certified hazardous materials manager. In addition to his active involvement in community and youth organizations, he is a reappointment to the Small Business Regulatory Review Board, where he is currently the 2nd Vice Chair.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3256 Economic Development and Taxation on Gov. Msg. Nos. 333, 334, 335 and 336

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE HAWAI'I STRATEGIC DEVELOPMENT CORPORATION

G.M. No. 333 BLENN AKIRA FUJIMOTO, for a term to expire 6-30-2012;

G.M. No. 334 VINCENT A. PIEKARSKI, for a term to expire 6-30-2009;

G.M. No. 335 ERIC BRANDON YEE, for a term to expire 6-30-2008; and

G.M. No. 336 ERIC BRANDON YEE, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Blenn Akira Fujimoto, Vincent A. Piekarski, and Eric Brandon Yee, to have the necessary qualifications to be nominated to the Board of Directors of the Hawai'i Strategic Development Corporation.

Your Committee received testimony in support of Blenn Akira Fujimoto from the Department of Business, Economic Development, and Tourism; the Hawaii Strategic Development Corporation; a Senior Vice President and Director with Central Pacific Bank; and the President and CEO of Avalon Group.

Blenn Akira Fujimoto is Vice Chairman, Hawaii Market, of Central Pacific Bank and Chief Executive Officer of Central Pacific HomeLoans, a wholly owned subsidiary of Central Pacific Bank. Before joining Central Pacific Bank in 2000, he served for twenty years in senior management with Bank of Hawaii, most recently as Vice President and District Manager of the Ala Moana District. Mr. Fujimoto is a graduate of the University of Hawaii, and of the Pacific Coast Banking School at the University of Washington. He is a member of many professional and civic organizations, including Enterprise Honolulu, the Pacific and Asian Affairs Council, Aloha United Way, and the Manoa Valley Theater, among others. Mr. Fujimoto is a reappointment to the Board of Directors of the Hawai'i Strategic Development Corporation.

Your Committee received testimony in support of Vincent A. Piekarski from the Department of Business, Economic Development, and Tourism; the Hawaii Strategic Development Corporation; a Vice President with Bank of Hawaii; a Senior Vice President with Servco Pacific Inc.; and a member of his law firm.

Vincent A. Piekarski is an attorney with Goodwill Anderson Quinn & Stifel, joining the firm in 1982. He holds a B.A. from the University of Wisconsin, a J.D. from Harvard Law School, and an LL.M. from the University of London. He has substantial experience in the areas of finance, real estate, and business, and assisted the University of Hawaii in the development of the John A. Burns School of Medicine and represented the developer of the Cancer Research Center. Mr. Piekarski is a member of both the American Bar Association and the Hawaii State Bar Association, and has been listed in the publication, "Best Lawyers in America" since 2005. He also served as the Vice President and Director of the Hawaii Chamber Music Series from 1999 until 2005.

Your Committee received testimony in support of Eric Brandon Yee from the Department of Business, Economic Development, and Tourism; the Hawaii Strategic Development Corporation; a Senior Vice President and Director with Central Pacific Bank; and the Chairman of DragonBridge Capital.

Eric Brandon Yee is Vice President and Senior Relationship Officer at Central Pacific Bank (CPB), a position he has held since 2005. In addition to comprehensive wealth management for his clients, Mr. Yee assists CPB in evaluating technology-related and other direct investment opportunities on behalf of the bank's holding company. His previous banking experience includes Greater Bay Bancorp, Silicon Valley Bank, and Bank of Hawaii, and he has extensive knowledge of the many phases of venture capital investment. Mr. Yee is a graduate of the University of California, Berkeley, and holds an M.B.A. from the University of Hawaii. He has served on numerous community and civic boards, including the Boys and Girls Clubs, the American Lung Association, and Big Brothers Big Sisters of Hawaii.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3257 Economic Development and Taxation on Gov. Msg. No. 468

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION

G.M. No. 468 CRAIG I. NAKANISHI, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Craig I. Nakanishi to have the necessary qualifications to be nominated to the Board of Directors of the High Technology Development Corporation.

Your Committee received testimony in support of Craig I. Nakanishi from the Department of Business, Economic Development, and Tourism; the High Technology Development Corporation; Young Brothers; the Chief Operating Officer of Imperium Renewables Hawaii LLC; the Chief Executive Officer of Zero Emissions Leasing LLC; a Senior Vice President of Ohana Pacific Bank; and three individuals.

Craig I. Nakanishi is a partner and practicing attorney with Rush Moore LLP. Prior to joining the firm in 2003, Mr. Nakanishi practiced law with the Los Angeles office of Jones Day Reavis & Pogue, and was a partner at the Honolulu offices of Goodsill Anderson Quinn & Stifel, and Catalani Nakanishi & Caliboso. He also served as law clerk to the Honorable Robert Boochever of the Ninth Circuit Court of Appeals. Mr. Nakanishi holds a B.B.A. (with distinction) from the University of Hawai'i, College of Business Administration, and a J.D. from University of California at Davis. Mr. Nakanishi is active professionally as a member of the Hawaii State Bar Association, the National Asian Pacific American Bar Association, and is listed in the publication "Best Lawyers in America in 2008". In addition, he is active in the community as a member of the Rotary Club of Honolulu, Friends of Foster Kids and Foster Family Programs of Hawaii, and the Coalition for a Drug Free Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3258 Intergovernmental and Military Affairs on Gov. Msg. No. 510

Recommending that the Senate advise and consent to the nomination of the following:

CIVIL DEFENSE ADVISORY COUNCIL

G.M. No. 510 MYRON N. DOBASHI, for a term to expire 6-30-2012

Your Committee reviewed the personal history and statement submitted by the nominee, and finds Myron N. Dobashi to have the necessary qualifications to be appointed to the Civil Defense Advisory Council.

Your Committee received testimony in support of this measure from the Adjutant General and Director of Civil Defense, State Department of Defense, and the Vice Director of Civil Defense, State Department of Defense.

Mr. Dobashi has served as a Civil Defense Advisor to State Civil Defense since 2004 and has over thirty-three years of experience as a member of the Hawaii Air National Guard (HIANG) in multiple key positions including command at all levels with the last four years as the Assistant Adjutant General, Department of Defense and Commander, HIANG.

In the Vietnam War, Mr. Dobashi served as a weapons controller involved in emergency recoveries of battle-damaged aircraft, air defense and air cover for search and rescue missions in enemy and sensitive territories. He has also served in leadership roles in emergency response and recovery operations in both Hurricane Iwa (1982) and Hurricane Iniki (1992). He is well qualified to respond to the issues of emergency response capabilities, public safety, and public security given his extensive background in wartime emergency preparedness and relief operations involving hurricanes in Hawaii. Mr. Dobashi continues to participate in Civil Defense sponsored events and Civil Defense Advisory meetings and provides valuable community feedback on emergency preparedness and public safety issues to the County of Kauai.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3259 Tourism and Government Operations on Gov. Msg. No. 484

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAI'I TOURISM AUTHORITY

G.M. No. 484 KYOKO Y. KIMURA, for a term to expire 6-30-2012

Your Committee received testimony in support of Kyoko Y. Kimura from the Hawai'i Tourism Authority, Tourism Liaison, Maui Visitors Bureau, Pacific Cancer Foundation, Hawaii Employers Council, Maui Economic Development Board, Inc., Hawai'i Hotel & Lodging Association, Japanese Cultural Society of Maui, Maui Hotel & Lodging Association, and two individuals.

The nominee received a B.A. degree from Kobe Jogakuin University, Master in Translation from the Babel Institute of Communication, Certified Hotel Administrator from the American Hotel and Lodging Association, and GMP from Cornell University School of Hotel Administration. She is currently the President and General Manager of Diamond Hotel Resort & Spa. Ms. Kimura is presently a board member of the Hawaii Hotel Association and was formerly the Board Chairperson of the Maui Hotel Association. In addition, she belongs to numerous community and cultural associations.

Ms. Kimura was initially appointed to the Board of Directors of the Hawai'i Tourism Authority in 2003. She notes that her outstanding accomplishment has been to serve on the Marketing Committee as a member and Chair. During this time, the Marketing Committee made great strides in marketing by selecting four international major marketing contractors during a very difficult period following 9/11.

Your Committee notes Ms. Kimura's written statement that she sees the role of the Board as aiding in the development of a vision and strategy for the State's tourism. The Hawaii Tourism Authority needs to give "visionary directions" to staff members and marketing contractors and monitor that execution of programs to be consistent with the strategic plan.

Your Committee is pleased with Ms. Kimura's emphasis on effective, accountable marketing strategies. Your Committee believes that Ms. Kimura's past service on the Board of Directors of the Hawai'i Tourism Authority has been excellent.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 3260 Water and Land on Gov. Msg. No. 532

Recommending that the Senate advise and consent to the nomination of the following:

NATURAL AREA RESERVE SYSTEM COMMISSION

G.M. No. 532 TRAE MENARD, for a term to expire 6-30-2012

Testimony in support of this nomination was submitted by the Department of Land and Natural Resources, Conservation Council for Hawai'i, The Nature Conservancy of Hawai'i, Coordinating Group on Alien Pest Species, County of Kaua'i Department of Water and two individuals.

Mr. Menard satisfies the requirement of one of the six members with scientific qualifications and an academic degree and will fill the ecology subject matter position on the Commission. He received a Bachelor of Arts degree in Environmental Studies from the University of California, Santa Cruz and a Master's degree in Geography from the University of Hawaii at Manoa. Mr. Menard is presently the Kauai program director for The Nature Conservancy and the Kauai Watershed Alliance Coordinator.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3261 Water and Land on Gov. Msg. No. 543

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON WATER RESOURCE MANAGEMENT

G.M. No. 543 LAWRENCE H. MIIKE MD, JD, for a term to expire 6-30-2012

One interested individual submitted testimony in support of this nomination.

Your Committee finds that Dr. Miike would satisfy the requirement that the Commission have a member having substantial experience in traditional Hawaiian water resource management techniques and in traditional riparian usage. In 2004, Dr. Miike published the book "Water and the Law in Hawaii" which discussed, among other things, the role water played in the mythology and history of Hawaii and how water law has evolved from the ahupua'a system to the current urbanized state. Dr. Miike presently represents the Commission as the hearings officer for the contested case in which there have been petitions filed to restore the four streams of Na Wai 'Eha on Maui.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3262 (Joint) Human Services and Public Housing and Health on S.R. No. 115

The purpose of this measure is to request that the Oahu Regional Board of the Hawaii Health Systems Corporation convene a task force to assist in the development of a long-term care master plan for Leahi Hospital and adjacent state lands.

Testimony in support of this measure was submitted by the Oahu Region Hawaii Health Systems Corporation, the Oahu Regional Board of the Hawaii Health Systems Corporation, the Hawaii Alliance of Retired Americans, and Kokua Council.

Your Committees find that Leahi Hospital has begun the process of developing a master plan to address the State's long-term care public policy goals, that this master plan offers an opportunity to create innovative and effective models of long-term care services, including residential care, and that this important work would be further assisted by the task force established by this measure.

Your Committees have amended this measure by incorporating the oral comments made by the University of Hawaii to include as a task force member a representative of the University of Hawaii System, and include as a recipient of a certified copy of the measure the President of the University of Hawaii.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 115, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 115, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Fukunaga, Ihara, Menor, Sakamoto).

SCRep. 3263 (Joint) Human Services and Public Housing and Health on S.C.R. No. 201

The purpose of this measure is to request that the Oahu Regional Board of the Hawaii Health Systems Corporation convene a task force to assist in the development of a long-term care master plan for Leahi Hospital and adjacent state lands.

Testimony in support of this measure was submitted by the Oahu Region Hawaii Health Systems Corporation, the Oahu Regional Board of the Hawaii Health Systems Corporation, the Hawaii Alliance of Retired Americans, and Kokua Council.

Your Committees find that Leahi Hospital has begun the process of developing a master plan to address the State's long-term care public policy goals, that this master plan offers an opportunity to create innovative and effective models of long-term care services, including residential care, and that this important work would be further assisted by the task force established by this measure.

Your Committees have amended this measure by incorporating the oral comments made by the University of Hawaii to include as a task force member a representative of the University of Hawaii System, and include as a recipient of a certified copy of the measure the President of the University of Hawaii.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 201, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 201, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Fukunaga, Ihara, Menor, Sakamoto).

SCRep. 3264 Water and Land on S.R. No. 42

The purpose of this measure is to request that the Governor proclaim June 8th of each year as World Ocean Day.

Testimony in support of this measure was submitted by the Hawaii Audubon Society, Surfrider Foundation Oahu Chapter, The Nature Conservancy of Hawaii, Kai Makana, and thirty interested individuals. Girl Scout Troop 401 submitted testimony in support of this measure and attached a petition with approximately 486 signatures in support of this measure. Testimony in support of the intent of this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the concept of World Ocean Day was established in 1992 at the United Nations Earth Summit. The world's oceans are critical to maintaining the planet's ecosystems and are essential to human health and well-being.

Your Committee further finds that Hawaii's location in the middle of the Pacific Ocean and its distinction of being the farthest removed islands from any other body of land in the world makes it an appropriate participant in World Ocean Day. Your Committee believes that World Ocean Day is an opportunity to educate the world's population about conserving and protecting the world's oceans and fragile marine environment.

Your Committee has amended this measure by:

- (1) Requesting that the President of the United States proclaim June 8th of every year as World Ocean Day and changing the measure's title to reflect this amendment;
- (2) Supplementing the justifications given for requesting the proclamation of World Ocean Day; and
- (3) Supplementing the list of recipients of copies of the resolution to include the President of the United States and various interested governmental agencies and private organizations.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 42, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 42, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3265 Water and Land on S.C.R. No. 77

The purpose of this measure is to request that the Governor proclaim June 8th of each year as World Ocean Day.

Testimony in support of this measure was submitted by the Hawaii Audubon Society, Surfrider Foundation Oahu Chapter, The Nature Conservancy of Hawaii, Kai Makana, and thirty interested individuals. Girl Scout Troop 401 submitted testimony in support of this measure and attached a petition with approximately 486 signatures in support of this measure. Testimony in support of the intent of this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the concept of World Ocean Day was established in 1992 at the United Nations Earth Summit. The world's oceans are critical to maintaining the planet's ecosystems and are essential to human health and well-being.

Your Committee further finds that Hawaii's location in the middle of the Pacific Ocean and its distinction of being the farthest removed islands from any other body of land in the world makes it an appropriate participant in World Ocean Day. Your Committee believes that World Ocean Day is an opportunity to educate the world's population about conserving and protecting the world's oceans and fragile marine environment.

Your Committee has amended this measure by:

- (1) Requesting that the President of the United States proclaim June 8th of every year as World Ocean Day and changing the measure's title to reflect this amendment;
- (2) Supplementing the justifications given for requesting the proclamation of World Ocean Day; and
- (3) Supplementing the list of recipients of copies of the resolution to include the President of the United States and various interested governmental agencies and private organizations.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 77, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 77, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3266 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2460

The purpose of this measure is to provide diversification for the investment of condominium funds, especially for those condominium associations that have large memberships and a high amount of money to invest, by clarifying that condominium associations may invest association funds in certificates of deposit through the Certificate of Deposit Account Registry Service network.

Testimony in support of this measure was submitted by the Hawaii Bankers Association. Testimony in opposition to this measure was submitted by the Real Estate Commission. The Hawaii Association of Realtors submitted comments.

The Certificate of Deposit Account Registry Service (CDARS) is a program that enables even the smallest financial institution in Hawaii to provide its customers with access to multi-million dollar Federal Deposit Insurance Corporation (FDIC) insurance coverage for their certificates of deposit, and has been deemed an acceptable investment for public funds in Hawaii. While your Committee recognizes that the condominium associations already have the ability to invest in certificate of deposits through the CDARS network, your Committee finds that this measure eliminates any uncertainty as to whether CDARS is an authorized investment for condominium associations.

Your Committee notes the concerns indicated in testimony submitted by the Real Estate Commission, and appreciates the Hawaii Bankers Association working together with the Real Estate Commission to develop language to address the Commission's concerns.

Accordingly, your Committee has amended this measure by:

- (1) Adding language that allows funds collected by an condominium association to be placed through a federally insured financial institution located in the State for investment in certificates of deposit issued through the Certificates of Deposit Account Registry Service in federally insured financial institutions located in the United States; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2460, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2460, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3267 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2591

The purpose of this measure is to provide further clarity in the law relating to gift certificates or gift cards by excluding certain types of stored value cards that are not viewed as gift cards.

Testimony in support of this measure was submitted by First Hawaiian Bank, the Retail Merchants of Hawaii, and one private individual. Testimony in opposition to this measure was submitted the Department of Commerce and Consumer Affairs.

Section 481B-13, Hawaii Revised Statutes, prohibits merchants from charging fees for the issuance and maintenance of all gift cards. This law was enacted in large part due to concerns that consumers were being saddled with issuance and dormancy fees during their use of gift cards. Your Committee finds that the current definition for gift card is broad enough to allow it to cover other forms of stored value cards that are not truly gift cards. Amending section 481B-13, Hawaii Revised Statutes, by allowing exclusions for rebate cards, debit cards, payroll cards, prepaid calling cards, insurance claim cards, government benefit cards, transportation cards, and meal cards will provide further clarity in the applicability of the gift certificate law and narrow the definition for gift cards.

Your Committee has amended this measure by:

- (1) Changing its effective date from July 1, 2050 to effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2591, H.D. 1, as amended

herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2591, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Taniguchi).

SCRep. 3268 Commerce, Consumer Protection and Affordable Housing on H.B. No. 3109

The purpose of this measure is to provide further protections to consumers by clarifying the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs' ability to investigate and prosecute cases involving the sale of non-corrective contact lenses.

Testimony in support of this measure was submitted by the Professional and Vocational Licensing Division (PVL), Department of Commerce and Consumer Affairs; the Regulated Industries Complaints Office (RICO), Department of Commerce and Consumer Affairs; and the Board of Examiners in Optometry.

Under the federal Food, Drug, and Cosmetic Act, the Food and Drug Administration (FDA) now regulates contact lenses, including decorative, non-corrective lenses, as medical devices instead of cosmetic devices. Despite the federal regulations on non-corrective contact lenses, RICO continues to receive reports concerning the sale of non-corrective contact lenses at swap meets and other inappropriate venues, particularly at Halloween. Your Committee finds that amending chapter 458, Hawaii Revised Statutes, relating to dispensing opticians will complement the federal law and will authorize RICO to take action in the event an unlicensed person tries to sell decorative, non-corrective contact lenses to consumers in Hawaii.

Your Committee has amended this measure by changing its effective date from July 1, 2008, to effective upon approval.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3109, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3269 (Joint) Transportation and International Affairs and Water and Land on H.B. No. 2917

The purpose of this measure is to require the department of transportation to allow, under certain conditions:

- (1) A vessel with a use permit to moor in Kewalo Basin to moor in Honolulu Harbor; and
- (2) A vessel with a use permit to moor in Honolulu Harbor to moor in Kewalo Basin.

Testimony in support of this measure was received from the Ocean Tourism Coalition; Paradise Cruise, Ltd.; P&R Water Taxi, LLC; Hawaii Tuna, Inc.; and one individual.

Your Committees find that although both Kewalo Basin and Honolulu Harbor are currently under the jurisdiction of the Department of Transportation, there is the possibility that Kewalo Basin may be transferred to another state agency. This measure would provide for the continuation of current operations should that transfer occur.

Your Committees have amended this measure by clarifying that the department with jurisdiction over Kewalo Basin, rather than the Department of Transportation, shall allow a vessel with a use permit authorizing the vessel to moor in Honolulu Harbor to moor in Kewalo Basin, under certain conditions.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2917, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2917, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 5 (Espero, Fukunaga, Inouye, Tokuda, Tsutsui).

SCRep. 3270 Commerce, Consumer Protection and Affordable Housing on H.B. No. 3325

The purpose of this measure is to streamline the registration of time share plans by exempting registered time share plans from the registration requirements of the Uniform Land Sales Practices Act, chapter 484, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs; the American Resort Development Association; Marriott International, Inc.; and Wyndham Worldwide.

Your Committee finds that registered time share plans undergo a thorough review by the Department of Commerce and Consumer Affairs prior to commencing with sales, and, as part of the registration process, are required to prepare and keep a current, detailed disclosure document that explains the parameters of the time share plan for review by consumers prior to the purchase of a time share interest. Exempting time share plans that are duly registered under chapter 514E, Hawaii Revised Statutes, from the purview of chapter 484, Hawaii Revised Statutes, will treat registered time share plans similar to registered condominium projects, which are also exempt from the requirements of chapter 484, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3325, H.D. 2, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Taniguchi).

SCRep. 3271 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2810

The purpose of this measure is to promote long-term viability of agriculture in the State by providing preferential water rates for potable water for agricultural activities.

Specifically, this measure:

- (1) Authorizes the Public Utilities Commission to establish preferential rates for potable water used for agricultural activities in a public utility's service area;
- (2) Requires public utilities, upon application and proof of qualification, to provide preferential rates for potable water used for agricultural activities; and
- (3) Allows the preferential water rates to be subsidized by the water rates charged to other customers of the public utility.

Testimony in support of this measure was submitted by the Maui County Farm Bureau.

Although many agricultural producers in the State are able to access lower agricultural water rates provided by county water systems for agricultural purposes, there are a number of farmers who are forced to depend on expensive residential water rates provided by public utilities. Your Committee finds that affordable water rates for agricultural activities will contribute in creating an agricultural industry in Hawaii that is more sustainable and competitive. Authorizing the Public Utilities Commission to establish preferential rates for potable water used for agricultural activities in a public utility's service area will promote the long-term viability of agriculture in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2810, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3272 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 325

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 325 BARRY F. LUTERMAN PHD, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Barry F. Luterman, Ph.D. to have the necessary qualifications to be nominated to the Board of Speech Pathology and Audiology for a second term.

Testimony in support of Dr. Luterman's nomination was submitted by the Department of Commerce and Consumer Affairs.

Dr. Luterman received his Bachelor of Arts in Speech and Hearing from Brooklyn College, his Master of Science in Psychoacoustics and Clinical Audiology from the University of Wisconsin, and his Doctorate degree from the University of Missouri. Prior to retiring in 2002, Dr. Luterman served as an Assistant Professor in the Division of Speech Pathology and Audiology at the John A. Burns School of Medicine at the University of Hawaii. Prior to his teaching position at the medical school, Dr. Luterman was employed at the Veterans Administration as a Supervising Audiologist for over twenty-five years. He is a recipient of a number of awards for his contributions and service to the Veterans Administration and has authored numerous published works. He is a licensed Audiologist in Hawaii and a member of the American Speech and Hearing Association.

Dr. Luterman has been nominated to serve a second term on the Board of Speech Pathology and Audiology where his extensive education and experience enables him to evaluate the issues facing the Board objectively, and balance the interests of consumers and licensees. Of particular note, Dr. Luterman indicated to your Committee that funding is desperately needed to keep the Speech Pathology and Audiology program at the University of Hawaii running. Currently, the program is on probation and, if the program loses its accreditation, students will be forced to receive their education in speech pathology and audiology outside of the State. He further indicated that the average career life expectancy for a speech pathologist or audiologist is seven years, due in large part to many of the program's graduates being single females who after marriage and having children decide to focus their careers in other areas outside of speech pathology and audiology. Thus, the State may face a shortage of speech pathologists and audiologists in the near future. Dr. Luterman's demonstrated commitment, motivation, education, and experiences will greatly assist the Board of Speech Pathology and Audiology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3273 Economic Development and Taxation on Gov. Msg. Nos. 328, 461 and 462

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII HISTORIC PLACES REVIEW BOARD

G.M. No. 328 KENNETH HAYS, for a term to expire 6-30-2012;

G.M. No. 461 WILLIAM RYAN CHAPMAN, for a term to expire 6-30-2012; and

G.M. No. 462 LAURA C. SCHUSTER, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Kenneth Hays, William Ryan Chapman, and Laura C. Schuster to have the necessary qualifications to be nominated to the Hawai'i Historic Places Review Board.

Your Committee received testimony in support of Kenneth Hays from the Department of Land and Natural Resources and the Curator of Washington Place.

Kenneth Hays is the Architectural Historian-Manager of Historic Military Architecture with the Directorate of Public Works, U.S. Army Garrison-HI, a position he has held since 2002. As a private consultant, he also developed an extensive Architectural Conservation Plan for Washington Place, the 1847 Greek Revival house that was the home of Queen Lili'uokalani, the last Hawaiian monarch, and the home to a dozen of the governors of Hawai'i until 2001. Mr. Hays holds a Master of Arts in Preservation Studies from Boston University, and has completed preservation studies in London, England; as well as The Restoration School at Thomas Jefferson's Poplar Forest, Virginia; the Newport Symposiums, Rhode Island; and the University of Hawaii. He is a reappointment to the Hawai'i Historic Places Review Board.

Your Committee received testimony in support of William Ryan Chapman from the Department of Land and Natural Resources, Historic Hawai'i Foundation, and three individuals.

William Ryan Chapman is currently a Professor and Director of the Graduate Program in Historic Preservation at the University of Hawai'i at Manoa. Before joining the University in 1993, Dr. Chapman previously worked as a historian for the National Park Service in Pennsylvania and as an architectural historian for the Division of Archaeology and Historic Preservation at the Virgin Islands Planning Office. Dr. Chapman obtained a Doctorate of Philosophy in Anthropology from the University of Oxford, a Master of Science in Historic Preservation from Columbia University, a Master of Studies in Anthropology from the University of Oxford, and a Bachelor of Arts in Anthropology from the University of Virginia. He has published extensively and has been the recipient of numerous grants and awards.

Your Committee received testimony in support of Laura C. Schuster from the Department of Land and Natural Resources, Historic Hawai'i Foundation, and the Society for Hawaiian Archaeology.

Laura C. Schuster has served as Chief of the Cultural Resources Management Program at Hawaii Volcanoes National Park since 1998, and has thirty-four years in the field of archaeology. In addition to her work with the National Park Service, Ms. Schuster worked as an archeologist and curatorial assistant at the Bernice Pauahi Bishop Museum, as an archeologist at the Museum of New Mexico, and has volunteered with the Pacific Area Conservation Center. Ms. Schuster obtained a Master of Arts in Anthropology from the University of Hawaii at Manoa and a Bachelor of Arts in Anthropology from San Diego State University. She is a member of the Society for Hawaiian Archeology and is active in community service projects and activities on the Big Island.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Record of Votes for Kenneth Hays: Ayes, 5. Noes, none. Excused, 1 (English).

Signed by the Chair on behalf of the Committee. Record of Votes for all other nominees: Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3274 Public Safety on S.C.R. No. 101

The purpose of this measure is to request the Department of Public Safety to identify, for consideration during the 2009 Regular Session, two possible locations to use as a headquarters site for the Sheriff Division.

Testimony in support of this measure was submitted by two individual citizens.

Your Committee finds that a primary purpose of the Sheriff Division is to protect the people and property within its jurisdiction. The identification and subsequent creation of a headquarters site for the Sheriff Division would assist them in carrying out their duties to serve the needs of the public. A centrally located headquarters for the Sheriff Division on Oahu would enable them to successfully complete their daily responsibilities in a more efficient and effective manner.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 101 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Nishihara).

SCRep. 3275 Public Safety on S.R. No. 56

The purpose of this measure is to request the Department of Public Safety to identify, for consideration during the 2009 Regular Session, two possible locations to use as a headquarters site for the Sheriff Division.

Testimony in support of this measure was submitted by two individual citizens.

Your Committee finds that a primary purpose of the Sheriff Division is to protect the people and property within its jurisdiction. The identification and subsequent creation of a headquarters site for the Sheriff Division would assist them in carrying out their duties to serve the needs of the public. A centrally located headquarters for the Sheriff Division on Oahu would enable them to successfully complete their daily responsibilities in a more efficient and effective manner.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 56 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes,3. Noes, none. Excused, 1 (Nishihara).

SCRep. 3276 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2727

The purpose of this measure is to ensure that children diagnosed with autism spectrum disorders have access to quality health care services and treatment by establishing a temporary autism disorders spectrum benefits and coverage task force to research the problems faced by parents of children with autism and what can be done to ensure that proper benefits and services are provided through public and private resources to address the special needs of children with autism, including providing services involving applied behavioral analyses techniques.

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities, Kaiser Permanente Hawaii, the Hawaii Disability Rights Center, and two private individuals. Testimony in opposition to this measure was submitted by the Department of Health.

Autism is a complex neurobiological disorder that impairs a person's ability to communicate and relate to others, and is often associated with repetitive behavior, poor eye contact, and rigidity in routines. Children with autism often have co-occurring conditions that require special services from trained medical professionals and a full range of therapies. Autism is a treatable condition and with proper medical intervention and intensive therapies children with autism can improve to such an extent that they can enter into mainstream classrooms unassisted. Unfortunately, children with autism are often denied coverage for necessary therapies by private insurance companies, which can further delay their ability to speak and communicate. Your Committee finds that establishing a temporary autism disorders spectrum benefits and coverage task force will ensure that children diagnosed with autism spectrum disorders have access to quality health care services and treatment.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2727, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3277 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2887

The purpose of this measure is to observe the cultural practices of traditional Hawaiian tattooing while ensuring that health and safety measures are provided by requiring the Department of Health to convene a working group to address the issues relating to the practice of traditional Hawaiian tattooing, and submit a written report of the working group's findings and recommendations to the Legislature prior to the 2009 Regular Session.

Testimony in support of this measure was submitted by one private individual.

Traditional Hawaiian tattooing is a sacred cultural practice that connects individuals to their ancestors. Individuals who wish to receive tattoos in the traditional manner must often conduct in-depth genealogical and spiritual research before they are tattooed. The practice is rising in popularity as more Native Hawaiians seek out ways to reconnect to their rich cultural heritage. Your Committee recognizes that traditional Hawaiian tattooing utilizes procedures, equipment, and dyes that are inconsistent with current health standards and raises health concerns. Requiring the Department of Health to convene a working group to address the issues relating to the practice of traditional Hawaiian tattooing will enable the Legislature to enact appropriate legislation that will allow individuals to safely receive tattoos in the traditional manner.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2887, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3278 Commerce, Consumer Protection and Affordable Housing on H.B. No. 3106

The purpose of this measure is to ensure that all applicants granted an acupuncture license meet equivalent standards of training and education.

Specifically, this measure requires foreign-educated acupuncture applicants to have their educational information evaluated by a board approved and designated professional evaluator to determine curriculum equivalency.

Testimony in support of this measure was submitted by the Board of Acupuncture.

Section 436E-5, Hawaii Revised Statutes, requires the Board of Acupuncture to ensure that applicants for acupuncture examination and licensure meet the same high standards for acupuncture education, regardless of whether applicants attend a program located in the United States or in a foreign country. Unlike a national accrediting body that oversees U.S. acupuncture programs, a similar accrediting body to oversee the foreign acupuncture education programs does not exist, which forces the Board of Acupuncture to undertake duties similar to that of an accrediting body to meet its requirements under section 436E-5, Hawaii Revised Statutes, with respect to foreign applicants.

Your Committee finds that this measure will ensure educational equivalency requiring, at the applicant's expense, a professional credentialing evaluator with the expertise and resources to appropriately evaluate foreign curriculum and transcripts. This will assist the Board of Acupuncture in expediting the applications from graduates of foreign acupuncture programs, and ensure that all applicants for acupuncture, regardless of the country location of their education, meet the standards of acupuncture education.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3106, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 3279 (Joint) Intergovernmental and Military Affairs and Transportation and International Affairs on H.B. No. 2467

The purpose of this measure is to allow the State Fire Council to adopt a State Fire Code to become part of but without being bound by the form of the State Building Code and also require the State to conduct annual fire and safety inspections at state-owned airport facilities.

Your Committees received testimony in support of this measure from the Honolulu Fire Department, the Department of Fire and Public Safety, County of Maui, and the Hawaii Fire Department.

Your Committees find the need to maintain consistent language in the State Fire Code with the language in the State Building Code may not be necessary, but that the State Fire Code should be part of the State Building Code, as provided in section 107-25, Hawaii Revised Statutes.

Your Committees further find that it is the responsibility of the State to provide fire protection and safety at state-owned airport facilities. This measure expressly states that the State Fire Code requires the State to conduct annual fire and safety inspections at all state-owned airport facilities, as required in section 132-6(b), Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2467, H.D. 2, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 2 (Hooser, Tsutsui).

SCRep. 3280 (Joint) Commerce, Consumer Protection and Affordable Housing and Judiciary and Labor on H.B. No. 3085

The purpose of this measure is to correct a notable ambiguity in the law governing trade names by clarifying ownership rights and registration rights with respect to trade names.

Specifically, this measure:

- (1) Lays out the “confusingly similar” standard with respect to ownership rights and the “substantially similar” standard” with respect to registration rights, and clarifies the manner in which each standard relates to the appeal of a registered trade name or entity name;
- (2) Clarifies and corrects inconsistencies, ambiguities, and errors under chapter 482, Hawaii Revised Statutes; and
- (3) Revises the penalties for false filings to the Director of Commerce and Consumer Affairs, and clarifies that aggrieved filers may seek injunctive relief in a court of competent jurisdiction.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs.

There has been an increase in the number of trade name cases filed with the Office of Administrative Hearings at the Department of Commerce and Consumer Affairs as more and more businesses look to the Department to resolve their trade name disputes. Your Committees find that inconsistencies and ambiguities with respect to chapter 482, Hawaii Revised Statutes, relating to the registration and protection of trademarks deserve clarification for more efficient implementation.

Your Committees have amended this measure by deleting its contents and replacing it with the contents of S.B. No. 3007, S.D. 1, which are substantially similar, except for technical differences.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3085, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3085, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Hee, Ihara, Nishihara).

SCRep. 3281 Water and Land on H.B. No. 3174

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources (DLNR) to adopt, amend, and repeal administrative rules that are equivalent to and consistent with federal fisheries regulations, under certain conditions;
- (2) Specifically allow the Board of Land and Natural Resources to annually declare a fishing season, total fishing quota, or individual fishing quotas, or impose the requirements for other mechanisms, to prevent overfishing, that are consistent with federal fisheries regulations and rules adopted under this measure; and
- (3) Require that when the federal fisheries agency declares the fishery to be sustainable and accordingly amends or repeals its regulations, the DLNR shall amend its rules or regulations accordingly.

Testimony in support of this measure was submitted by the Board of Land and Natural Resources, Office of Hawaiian Affairs, and one individual. Testimony in opposition to this measure was submitted by the Hawaii Boaters Political Action Association.

Your Committee finds that this measure would facilitate management and enforcement of shared jurisdiction for fish stocks that occur in both State and federal waters by establishing consistent regulations for both state and federal waters.

Your Committee has amended this measure by:

- (1) Providing that the Board of Land and Natural Resources' authority to enact mechanisms to prevent overfishing must be related to bag, size, and gear limits that are enacted by the federal government; and
- (2) Amending the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3174, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3174, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3282 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. Nos. 323 and 324

Recommending that the Senate advise and consent to the nominations of the following:

REAL ESTATE COMMISSION

G.M. No. 323 CAROL MAE A. BALL, for a term to expire 6-30-2012; and

G.M. No. 324 MICHELE SUNAHARA LOUDERMILK, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Carol Mae A. Ball and Michele Sunahara Loudermilk to have the necessary qualifications to be nominated to the Real Estate Commission.

Testimony in support of Ms. Ball's nomination was submitted by the Department of Commerce and Consumer Affairs, the Real Estate Commission, the Hawaii Association of Realtors, and one private individual.

Ms. Ball graduated from Baldwin High School and received her Bachelor of Arts from the University of Michigan. She is currently the owner of Carol Ball School of Real Estate that is state accredited for prelicensing and continuing education, and serves as an instructor at Maui Community College of a real estate prelicensing course. She is a certified Real Estate Broker Manager (CRB), a Certified Real Estate Specialist (CRS), a Graduated Realtors Institute (GRI), and an Accredited Buyers Representative Manager (ABRM).

In 2001 and 2003, Ms. Ball was the recipient of the Women Who Mean Business Award that recognizes the top twelve women-owned companies in Hawaii. She has extensive community and professional organization involvement, including with the Maui Chamber of Commerce, Maui Mall Merchants Association, Mediation Services of Maui, and Maui United Way, to name a few and of which she has served leadership roles.

Ms. Ball is an active and valuable member of the Real Estate Commission and her participation and valuable insights gained over her many years of experience as a licensed real estate broker demonstrate her commitment to the issues that come before the Commission and carrying out the purposes of the Commission. Ms. Ball's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Real Estate Commission for a second term.

Testimony in support of Ms. Loudermilk's nomination was submitted by the Department of Commerce and Consumer Affairs, the Real Estate Commission, and seven private individuals.

Ms. Loudermilk is a graduate of Punahou School, and received her Bachelor of Arts degrees in Journalism and Romance Languages from the University of Oregon and her Doctorate of Jurisprudence from the William S. Richardson School of Law at the University of Hawaii. She currently serves as the Associate General Counsel for Alexander & Baldwin, Inc. where she primarily focuses her practice on leasing, purchase and sale, development, and financing. Prior to her current place of employment, she was an Associate and later a Partner at Cades Schutte, LLLP.

Ms. Loudermilk is a member of the Hawaii State Bar Association and has been an active member of the Hawaii Women's Legal Foundation and Hawaii Women Lawyers where she has served leadership roles. Most recently, she was the Sponsorship Chairperson for the Japanese Cultural Center of Hawaii.

Ms. Loudermilk has served on the Real Estate Commission since July 1, 2004, and her legal background has enabled her to quickly understand the purpose of the Commission, her role as a public member, and the complex issues facing the Commission and its three standing committees. She possesses the ability to focus on the issues, articulate ideas, and play an important part in discussions and decisions. Ms. Loudermilk's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Real Estate Commission for a second term.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3283 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. Nos. 305 and 306

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF PROFESSIONAL ENGINEERS, ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS

G.M. No. 305 MICHAEL S. CHU, for a term to expire 6-30-2012; and

G.M. No. 306 ROSS S. OKUDA, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Michael S. Chu and Ross S. Okuda to have the necessary qualifications to be nominated to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Testimony in support of Mr. Chu's nomination was submitted by the Department of Commerce and Consumer Affairs; Engineering Solutions, Inc.; the Coalition of Hawaii Engineering & Architectural Professionals; and three private individuals.

Mr. Chu is a graduate of Iolani School and received his Bachelor of Science in Landscape Architecture from California State Polytechnic University. He is currently the owner and landscape architect for LP & D Hawaii. He is a member of the American Society of Landscape Architects and a board member of the Institute for Human Services. He also serves his community as a member of the Piers 5 & 6 Public Advisory Group and has served as a member of the Neighborhood Board No. 12.

Mr. Chu has been a licensed landscape architect since 1982, and has been a valuable member Board of Professional Engineers, Architects, Surveyors, and Landscape Architects, including serving as the Board's Chairperson from July 1, 2006 to June 30, 2007. He is an active member who provides valuable insights that he has gained from twenty-six years of active practice as a landscape architect. He has also represented the Board at national and regional meetings to address issues related to the practice of landscape architects. Mr. Chu's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects for a second term.

Testimony in support of Mr. Okuda's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Okuda is a graduate of Waipahu High School and received his Bachelor of Science degree in Mechanical Engineering from the University of Hawaii at Manoa. He currently serves as a Principal Mechanical Engineer for Mechanical Enterprises, Inc. where he oversees day-to-day operations, scopes projects and proposals, completes design documents, and provides construction supervision. Prior to his current position, he served as a Principal Mechanical Engineer for Yahiku Associates, Inc. and as a Mechanical Engineer for Cedric Chong & Associates, Inc.

Mr. Okuda has been a licensed mechanical engineer in Hawaii since 1997 and has demonstrated himself as an active member of the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects where he provides insightful contributions on mechanical engineering and general engineering. He has represented the Board at national meetings in addressing issues related to the practice of engineering. Mr. Okuda's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects for a second term.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3284 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 303

Recommending that the Senate advise and consent to the nomination of the following:

CREDIT UNION ADVISORY BOARD

G.M. No. 303 WAYNE MINORU SHINTANI, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Wayne Minoru Shintani to have the necessary qualifications to be nominated to the Credit Union Advisory Board for a second term.

Testimony in support of Mr. Shintani's nomination was submitted by the Department of Commerce and Consumer Affairs and the Hawaii Credit Union League.

Mr. Shintani received his Bachelor of Business Administration from the University of Hawaii at Manoa and his Master of Business Administration from Hawaii Pacific University. He is currently the Assistant Manager and Loan Manager at Oahu One Credit Union where his primary responsibilities revolve around the success of the entire loan department and require management of the other functions of the credit union. In his spare time, he serves his community as an AYSO referee, coach, and indoor soccer coordinator.

Mr. Shintani currently serves as the Chairperson of the Credit Union Advisory Board. He is someone who embodies the spirit of the credit union movement and is actively working to realize the credit union mission within his community. He is very familiar with the state laws and rules governing state chartered credit unions as Oahu One Credit Union is one of the two state chartered credit unions in Hawaii. Mr. Shintani's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Credit Union Advisory Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3285 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 301

Recommending that the Senate advise and consent to the nomination of the following:

CONTRACTORS LICENSE BOARD

G.M. No. 301 DENNY R. SADOWSKI, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Denny R. Sadowski to have the necessary qualifications to be nominated to the Contractors License Board for a second term.

Testimony in support of Mr. Sadowski's nomination was submitted by the Department of Commerce and Consumer Affairs; Castle & Cooke Homes Hawaii; the Building Industry Association (BIA) – Hawaii; the Coalition of Hawaii Engineering & Architectural Professionals; CC Engineering & Construction, Inc.; and five private individuals.

Mr. Sadowski received his Bachelor in Business Administration degree and his Master of Arts degree in Student Personnel Administration from Iowa State University. He currently serves as Secretary and Treasurer of CO-HA Builders, Inc. dba Applied Surfacing Technology, which he founded and has owned for over thirty years. He is a member of BIA-Hawaii, where he served on the Board of Directors and as Chairperson of its Government Relations Committee, and is a member of the General Contractors Association. He also serves as the President of the AOA for 949 Prospect and Vice President of the AOA for Harbor View Plaza.

Mr. Sadowski has been a licensed contractor in Hawaii since 1979 and holds a specialty contractor license in the asphalt paving and synthetic field surface classifications. He has demonstrated to the Contractors License Board his many years of experience in the construction industry and his familiarity with licensing issues and concerns. Due to his experience in government affairs as the Chairperson of the BIA-Hawaii's Government Relations Committee, he is instrumental in tracking legislative matters and testifies at legislative hearings on the Board's behalf. Mr. Sadowski's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Contractors License Board for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3286 Tourism and Government Operations on Gov. Msg. No. 541

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAII TOURISM AUTHORITY

G.M. No. 541 SHARON R. WEINER, for a term to expire 6-30-2012

Your Committee received testimony in support of Sharon R. Weiner from the Hawai'i Tourism Authority; Tourism Liaison; Shidler College of Business at the University of Hawai'i at Manoa; Retail Merchants of Hawaii; Louis Vuitton Hawaii; Hawai'i Hotel & Lodging Association; Waikiki Community Center; DFS Hawaii; World of Aloha; First Insurance Company of Hawaii, Ltd.; Alexander & Baldwin, Inc.; HMSHost Hawaiian Islands; Island Shoppers, Inc.; and seven individuals.

The nominee is a nomination of the Senate President and represents at large/Oahu (City and County of Honolulu). Ms. Weiner is currently the Vice President of Duty Free Shoppers Hawaii and Duty Free Shoppers Group Limited. Previously, she was President and Chief Executive Officer and owner of Stryker Weiner Public Relations Firm, and served as Executive Director of the Visitor Industry Executive Council. In addition, she has worked as the Public Relations Manager for C. Brewer & Company.

Ms. Weiner received a B.A. degree from Northwestern University and an M.B.A. degree from the University of Hawaii. She is a public relations management professional who is an Accredited Member of the Public Relations Society of America. Ms. Weiner's experience with the Society includes serving as President of the Hawaii Chapter, Chairman of the Pacific Region, Hall of Honor, and recipient of the Gregg W. Perry Award. The nominee maintains directorships and memberships in numerous business, retail, and tourism organizations, as well as being a Regent of Chaminade University of Honolulu.

Your Committee notes that the nominee has extensive experience in the visitor industry in Hawaii, having been for many years a public relations executive representing myriad interests in tourism such as hotels, airlines, ground operators, and destination organizations (Oahu Visitors Bureau and Maui Visitors Bureau). During her years with DFS, Ms. Weiner has developed a keen understanding for the complex role that international tourism plays in Hawaii's economy.

Your Committee believes that Ms. Weiner will bring a much needed breadth and depth to tourism promotion with her experience in the retail sector, as well as Hawaii tourism in general.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3287 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 134

The purpose of this measure is to encourage and promote a more sustainable future for the State by urging the Department of Education and the Department of Health to "buy local".

Testimony in support of this measure was submitted by the Department of Education, the Department of Health, and the Hawaii Food Industry Association.

In light of local, regional, and global changes, and to better define and implement state goals, objectives, policies, and priority guidelines, the Legislature enacted Act 8, Special Session Laws of Hawaii 2005, which created the Hawaii 2050 Sustainability Task Force to review the Hawaii State Plan and the State's planning process. The Hawaii 2050 Sustainability Plan provides a framework for addressing vital quality-of-life and public policy issues, including land and water use, energy, public infrastructure, economic development, transportation, education, the arts, and health, and provides strategies to meet the needs of Hawaii's residents now and in

the future. Your Committee finds that one of the initiatives of the Hawaii 2050 Sustainability Plan is to increase and support the production and consumption of local products, and urging the Department of Education and the Department of Health to “buy local” will support this initiative and promote a more sustainable future for the State.

Your Committee recognizes the amendments suggested by the Hawaii Food Industry Association that tie into the “buy local” theme by encouraging the Department of Education and the Department of Health to create and implement food ware and food waste recycling programs in Hawaii. The Hawaii Food Industry Association indicated that Massachusetts has already successfully implemented a recycling program where food waste and polystyrene food trays are separated in cafeterias and sent to their respective locations for recycling. Your Committee finds that the recycling of these materials completes the circle of consumption by beginning with the purchase of local products and ending with the recycling of what is left of these local products to create new local products for local consumption.

Accordingly, your Committee has amended this measure and its title by:

- (1) Expanding its scope with the addition of language that encourages the Department of Education and the Department of Health to create and implement food ware and food waste recycling programs to promote a stronger sustainable future for Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 134, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 134, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3288 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2559

The purpose of this measure is to update the Uniform Unclaimed Property Act (Act) by enacting the 1995 version of the Act.

Your Committee received testimony in support of this measure from the State Commission to Promote Uniform Legislation. The Retail Merchants of Hawaii submitted comments and requested amendments.

This measure updates existing law, among other things, by:

- (1) Clarifying certain jurisdictional issues;
- (2) Clarifying what constitutes unclaimed property;
- (3) Placing restrictions on the “dormancy” charges that holders may impose;
- (4) Requiring the payment of interest on certain property items; and
- (5) Restricting the ability of third parties to charge service fees to “find” unclaimed property for clients.

Your Committee has amended the measure in the manner proposed by the Retail Merchants of Hawaii, by adding a new section - 3.5 making gift certificates and gift cards exempt from the Act as long as they have no expiration dates or fees.

To assist smaller merchants who are more likely to have existing stocks of gift certificates or gift cards with expiration dates, this measure also exempts gift certificates and cards that have expiration dates or fees if:

- (1) The gift certificate or gift card is issued before January 1, 2010; and
- (2) The issuer adopts a policy to honor the gift certificate or gift card after the expiration date and eliminates any charges and fees.

Gift certificates and gift cards have become a popular item in the commercial marketplace, a certain percentage of which go unredeemed. Your Committee finds that these amendments are beneficial to:

- (1) Consumers by eliminating any deadlines by which gift certificates and gift cards must be used;
- (2) Issuers of gift certificates or gift cards who will not need to worry about maintaining records to turn over to the Administrator of the unclaimed property program (the Director of Finance); and
- (3) The unclaimed property program, which will be relieved of having to deal with large numbers of unredeemed and partially redeemed gift certificates and gift cards.

The measure was also amended to:

- (1) Make conforming amendments with respect to gift certificates and cards;
- (2) Clarify that the Administrator can use investment earnings to pay dividends and interest under section -12; and
- (3) Make other technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2559, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2559, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ige, Taniguchi).

SCRep. 3289 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2920

The purpose of this measure is to deter the commission of fraud crimes against people and their property by preventing notarized documents from being altered by substituting content that was not part of the document to which the notarial seal originally was applied.

Specifically, this measure:

- (1) Requires notaries to place the notary's seal over a succinct phrase describing the document being notarized and keep a record describing the nature of the notarized document; and
- (2) Authorizes the Attorney General to prescribe measures as necessary to prevent the fraudulent use of notarized documents.

Testimony in support of this measure was submitted by the Department of the Attorney General and the host of the television show America's Most Wanted.

Your Committee finds that the alteration of notarized documents undermines the various requirements for these documents that are imposed to ensure their authenticity. Your Committee notes that the Department of the Attorney General's testimony suggested a more comprehensive approach be exercised in order to address the issues relating to notaries.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 2 of this measure and replacing it with sections 1, 2, and 3 of H.B. No. 3053, which adds definitions to chapter 456, Hawaii Revised Statutes; clarifies the powers and duties of the Attorney General with respect to notaries public; creates four new criminal offenses if a notary public knowingly notarizes a document and fails to include a certification that includes:
 - (A) The date of the notarization and signature of the notary public;
 - (B) The printed name and stamp or seal of the notary public;
 - (C) The identification of the jurisdiction in which the notarial act is performed;
 - (D) The identification or description of the document being notarized, placed in close proximity to the acknowledgement or jurat; and
 - (E) The statement of the number of pages and date of the document;
- (2) Adds section 4 of H.B. No. 3053, which amends section 456-9, Hawaii Revised Statutes, to include administrative fines and identifies six acts of misconduct related to the prevention of fraud;
- (3) Adds section 5 of H.B. No. 3053, which amends section 456-9.5, Hawaii Revised Statutes, to include the deposit of administrative fines related to fraud prevention into the Notaries Public Revolving Fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2920, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2920, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3290 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2165

The purpose of this measure is to reduce the nursing shortage in the State by providing additional means by which a student may qualify for licensure as a registered nurse.

Specifically, this measure allows a master's degree candidate in a nursing program, who has completed the pre-licensure component of the program at an accredited and Board of Nursing-qualified school of nursing, to apply for a license by examination to practice as a registered nurse.

Testimony in support of this measure was submitted by the University of Hawaii System, the Board of Nursing, the Healthcare Association of Hawaii, and four private individuals.

The Master's Entry Program in Nursing (MEPN) is designed for adult learners with no prior nursing experience or education, who have a baccalaureate degree or higher in another field other than nursing, are leadership bound, and are seeking a career in advanced practice nursing. The program equips students with entry-level professional nursing competencies as a foundation for advanced practice roles, and was developed by the University of Hawaii at Manoa's School of Nursing and Dental Hygiene in response to the nursing shortage in the State and student interest. Your Committee finds that providing an additional means to qualify for licensure as a registered nurse by allowing a graduate who has completed the pre-licensure portion of an MEPN to apply for a license as a registered nurse by examination fulfills the intent of this measure, which is to reduce the nursing shortage in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2165, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3291 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2301

The purpose of this measure is to ensure that licensed dentists act in the best interest of their patients by prohibiting the interference of the practice of dentistry by an unlicensed person.

Specifically, this measure:

- (1) Prohibits a licensed dentist from permitting an unlicensed person or entity from interfering with the licensee's practice of dentistry; provided that this prohibition does not apply to the employment of dentists by the State, non-profit hospitals, or eleemosynary facilities; and
- (2) Lists the prohibited activities that a licensed dentist shall not allow a non-dentist to perform in the course of the licensed dentist's practice of dentistry.

Testimony in support of this measure was submitted by the Board of Dental Examiners, the Hawaii Dental Association, and fifty-six private individuals.

Your Committee finds that licensed dentists should rely on the best of their training and intuition to act in the best interests of their patients, and should not be beholden to an arrangement where financial interests dictate the promotion of a treatment that would profit the practice owner rather than benefit the patient. Clarifying that only a licensed dentist can own, direct, and control the practice of dentistry, and prohibiting the interference in the practice of dentistry from non-dentists will enable licensed dentists to uphold the ethics of the profession and act in the best interest of their patients.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2301, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3292 Water and Land on H.B. No. 2523

The purpose of this measure is to amend the Land Use Commission's decision making criteria for petitions to reclassify land to include the County General Plan and all community, development, or community development plans adopted pursuant to the county general plan.

Testimony in support of this measure was submitted by the City and County of Honolulu Department of Planning and Permitting, Hawaii Association of Realtors, State Office of Planning, Land Use Research Foundation of Hawaii, and two members of the County Council of the County of Maui. The University of Hawaii Environmental Center submitted comments on this measure.

Your Committee finds that land use decisions that affect residents living and working within a county should be made at the level closest to those people. This measure will ensure that the Land Use Commission gives due consideration to the policy and decisions of the counties as expressed in the county general plans.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2523, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3293 Economic Development and Taxation on H.B. No. 3343

The purpose of this measure is to amend chapter 8, Hawaii Revised Statutes, to designate the month of October as "Filipino-American History Month" to commemorate the contributions of Filipino-Americans to the history and heritage of Hawaii and the United States, and to establish that it is not a state holiday.

Testimony in support of this measure was received from the Hawai'i Civil Rights Commission, the Office of the Mayor of the City and County of Honolulu, the National Federal of Filipino American Associations Region XII, the Filipino-American Historical Society of Hawaii, the United Filipino Council of Hawaii, the Filipino Coalition for Solidarity, the Oahu Filipino Community Council, the Filipino American Citizens League, the Congress of Visayan Organizations, the Philippine Nurses Association-Hawaii, the Nursing Advocates & Mentors, Inc., and a volunteer docent at the Hawaii Plantation Village in Waipahu.

Your Committee finds that 2006 marked the one hundred year anniversary of the arrival of the first group of Filipino immigrant workers to plantations in Hawaii. 2006 was a year of celebrations throughout the Islands commemorating the cultural, economic, educational, political, and social life of the Filipinos and their effects on the island communities.

Your Committee has heard that those celebrations contributed to a wealth of written and other materials on the history of the struggles of the Filipino immigrants. The designation of October as Filipino-American Month will encourage the continuing development of these important historical and cultural resources.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3343, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3294 Water and Land on H.B. No. 3175

The purpose of this measure is to amend the title of section 189-3, Hawaii Revised Statutes, to more accurately reflect the need for flexibility in commercial marine fishing reporting requirements.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, The Nature Conservancy of Hawai'i, and one interested individual.

Your Committee finds that it is beneficial to bring state requirements regarding commercial fishing reporting into compliance with federal regulations in fishery areas under the joint jurisdiction of the state and federal governments.

Your Committee has amended this measure by adding a new section within chapter 189, Hawaii Revised Statutes, which would require that in fishery areas under joint state and federal jurisdiction, that the Department of Land and Natural Resources shall adopt rules necessary to effectuate the federal requirements.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3175, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3175, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 3295 Judiciary and Labor on H.B. No. 2697

The purpose of this measure is to allow the Intermediate Appellate Court to subpoena and compel the attendance of witnesses from any part of the State and to compel the production of books, papers, documents, or tangible things.

This measure also authorizes any judge of the Intermediate Appellate Court to administer oaths thereto.

Your Committee received testimony in support of this measure from the Judiciary.

Testimony indicated that there are some statutes which provide for the Intermediate Appellate Court to take in evidence (trial de novo), hence the necessity for this measure.

Your Committee has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2697, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2697, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3296 Agriculture and Hawaiian Affairs on H.B. No. 2085

The purpose of this measure is to require at least four of the eight members of the Board of the Agribusiness Development Corporation (ADC) to have knowledge, experience, and expertise within certain identified secondary industries related to agriculture.

Testimony in opposition to this measure was submitted by the Agribusiness Development Corporation, Hawaii Agriculture Research Center, Hawaii Aquaculture Association, McCall Flower Farm, Inc., East Kauai Water Users' Cooperative, Paradise Flower Farms, Inc., Maui County Farm Bureau, and two current ADC board members. Another ADC current board member submitted comments on this measure.

Your Committee has amended this measure by adding a requirement that the ADC develop a five year strategic plan and report back to the Legislature before the 2009 Regular Session.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2085, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2085, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Hee).

SCRep. 3297 (Joint) Agriculture and Hawaiian Affairs and Energy and Environment on H.B. No. 2517

The purpose of this measure is to:

- (1) Authorize the Department of Agriculture to regulate or prohibit the sale of specific plants designated as restricted plants;
- (2) Prohibit the sale of noxious weeds; and
- (3) Recognize that designated restricted plants can be pests or be hosts for pests.

Testimony in support of this measure was submitted by the Department of Agriculture, Department of Land and Natural Resources, Office of Hawaiian Affairs, The Nature Conservancy of Hawai'i, Hawaii Audubon Society, Conservation Council for Hawai'i, Coordinating Group on Alien Pest Species, and a member of the Hawai'i County Council.

Your Committees find that presently, the Department of Agriculture can regulate the importation and movement of restricted plants, but has no authority to regulate the sale of restricted plants. Your Committees believe that it is to the benefit of the State to provide the Department of Agriculture the authority to regulate the sale of restricted plants.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2517, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2517, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Hee, Ihara).

SCRep. 3298 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2550

The purpose of this measure is to encourage customers to invest in renewable energy systems through net-energy metering programs by requiring the Public Utilities Commission to reserve a percentage of an electric utility's total rated generating capacity produced by eligible net-energy metering customer-generators for residential and small commercial customers.

Specifically, this measure requires the Public Utilities Commission to:

- (1) Ensure that a percentage of the total rated generating capacity produced by eligible customer-generators be reserved for electricity produced by eligible residential or small commercial customer-generators;
- (2) Define the maximum capacity for eligible residential or small commercial customer-generators; and
- (3) Evaluate the applicability of generating capacity requirements on an island-by-island basis.

Testimony in support of this measure was submitted by the Public Utilities Commission (PUC); the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs; the Hawaiian Electric Company; Maui Electric Company; Hawaii Electric Light Company; the Kauai Island Utility Cooperative; the Hawaii Solar Energy Association; SunEdison Hawaii; the Hawaii PV Coalition; the Solar Alliance; the Zero Emissions Leasing LLC; the Sierra Club, Hawai'i Chapter; the Hawaii Renewable Energy Alliance; and two private individuals. The Department of Business, Economic Development, and Tourism submitted comments.

Your Committee finds that Hawaii has an abundance of renewable energy resources that can and should be used to reduce the State's dependence on imported fossil fuels. Net-energy metering programs encourages customers to invest in renewable energy systems by allowing customers who own and operate certain renewable facilities to be paid the utility's retail rate for electricity generated by an eligible customer-generator and fed back to the electric grid. Although it is important that the State decrease its dependence on imported fossil fuels by using renewable energy technologies, your Committee believes that further study is necessary to prevent detrimental customer subsidization and system safety impacts before goals are mandated.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the PUC to submit a written report to the Legislature prior to the 2009 Regular Session that includes:
 - (A) Any rules, decisions, or orders submitted by the PUC regarding the total rated generating capacity produced by eligible customer-generators;
 - (B) Any rules, decisions, or orders submitted by the PUC regarding the maximum capacity for eligible residential or small commercial customer-generators; and
 - (C) Any results regarding the PUC's evaluation of the applicability of the generating capacity requirements on an island-by-island basis, and any decisions to exempt an island or a utility grid system from the generating capacity requirements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2550, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2550, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3299 (Majority) Ways and Means on H.B. No. 509

The purpose of this measure is to authorize the Department of Transportation to establish and collect rental motor vehicle customer facility charges.

Specifically, this measure creates a rental motor vehicle customer facility charge special fund and establishes a \$1 daily charge on rentals at state airports to be deposited in a special fund established in the measure for the purpose of improving rental motor vehicle customer facilities. The measure also appropriates moneys from the special fund.

In view of the recent developments concerning the financial difficulties encountered by Aloha Airlines, one of the State's interisland air carriers, your Committee has circulated a proposed S.D. 2 draft to authorize the Department of Business, Economic Development, and Tourism, through its Director, to guarantee loans from private lending institutions to assist Hawaii interisland air carriers.

The proposed S.D. 2 draft authorizes loan guarantees of up to ninety per cent of the principal balance of a loan made by a private lending institution up to an unspecified aggregate state liability amount. The term of the loan guarantee may not exceed ten years.

Your Committee received testimony in support of the proposed S.D. 2 draft from Hawaii Island Air dba Island Air and one individual. The Department of Budget and Finance and Catrala-Hawaii offered comments.

Upon further consideration, and after hearing the proposed S.D. 2 draft, your Committee has amended this measure by deleting its contents and replacing it with the proposed S.D. 2 draft, to which your Committee has made the following additional changes that:

- (1) Add a definition of "Hawaii air carrier" to include any commercial air carrier that is certified under Federal Aviation Regulation 121, serving the Hawaii interisland market as of March 29, 2008, and providing the carriage of persons or property by air for compensation or hire between any two points, both of which are within the State of Hawaii;

- (2) Clarify that the Director, and not the Department of Business, Economic Development, and Tourism, acts to authorize any loan guarantees;
- (3) Require that any Hawaii air carrier who uses moneys obtained under a loan guarantee to hire new employees shall give first preference to hiring employees of a Hawaii air carrier who have been displaced after March 30, 2008; provided that the Hawaii air carrier may not refuse to hire or employ any person because of race, sex, sexual orientation, age, religion, color, ancestry, disability, marital status, or arrest and court record;
- (4) Require that the procedures and forms used by the Air Transportation Stabilization Board of the United States Department of the Treasury be adopted for use under this measure;
- (5) Add a section creating the Hawaii interisland air carrier loan guarantee trust fund to serve as the reserve for all loans guaranteed;
- (6) Add an appropriation of an unspecified amount for deposit into the Hawaii interisland air carrier loan guarantee trust fund;
- (7) Change the repeal date to June 30, 2020; and
- (8) Make technical nonsubstantive amendments for the purposes of style and consistency.

Your Committee requests the members of Hawaii's congressional delegation to encourage the United States Departments of Justice and Transportation to intervene and investigate recent predatory pricing practices involving Hawaii's air carriers that have greatly contributed to the current situation. Your Committee also intends to explore the feasibility of using the airport special fund to support the reserve requirement of the Hawaii interisland air carrier loan guarantee trust fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 509, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 509, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 2 (Menor, Whalen). Noes, 1 (Hemmings). Excused, none.

SCRep. 3300 Ways and Means on H.B. No. 2062

The purpose of this measure is to allow persons eligible to receive Medicaid funds for care at nursing home facilities to remain at home and receive home- and community-based long-term care.

Specifically, this measure requires the Department of Human Services to transfer Medicaid funds intended for payment to a nursing facility or long-term care-based facility for payment for home- or community-based long-term care, support, and services. However, this measure also provides that the costs for home- and community-based services may not exceed, on an average per capita basis, the total expenditures that would have been incurred if the individual received facility-based long-term care, services, or support. The Department of Human Services is also required to apply for all waivers and grants necessary to implement this measure.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center, Congress of Visayan Organizations, Nursing Advocates & Mentors, Inc., Filipino American Citizens League, Oahu Filipino Community Council, Filipino Coalition of Solidarity, Philippine Nurses Association, National Federation of Filipino American Associations, United Filipino Council of Hawaii, Hawaii Coalition of Caregivers, Adult Foster Home Association, Hawaii Coalition of Caregivers, Big Island Chapter, and three individuals. The Department of Human Services and the Healthcare Association of Hawaii offered comments.

Your Committee has amended this measure by making clarifying technical nonsubstantive changes for the purposes of clarity and consistency.

Your Committee finds that, should the Department succeed in obtaining all necessary waivers from the federal government, scarce Medicaid funds intended to pay for institutional care can be put to more efficient use by paying for home- and community-based long-term care services for those individuals who choose to remain in the community or relocate from a more expensive nursing facility environment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2062, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2062, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3301 Ways and Means on H.B. No. 2770

The purpose of this measure is to clarify the eligibility requirements for the Bridge to Hope program.

The bill also expands the program to enable all heads of households who are receiving financial assistance and participating in the First to Work program to pursue a full range of educational activities as part of their work activities.

Specifically, this measure expands the Bridge to Hope program to allow temporary assistance for needy families program participants to use the expanded education options that participants in the temporary assistance for other needy families currently use.

Your Committee received testimony in support of this measure from the Department of Human Services, the University of Hawaii, the University of Hawaii Bridge to Hope, and one individual.

Your Committee finds that expanding the education options to enable all heads of households who are receiving financial assistance and participating in the First to Work program is consistent with the State's intention to include education and training as one of the pathways to economic self-sufficiency.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2770, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2770, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3302 Commerce, Consumer Protection and Affordable Housing on S.R. No. 47

The purpose of this measure is to recognize and appropriately accommodate the needs of seniors and residents with special health requirements by urging associations of apartment owners and condominium unit owners in the State to develop emergency plans for residents that address the special needs of seniors and medically fragile residents.

Testimony in support of this measure was submitted by the Department of Defense; the Honolulu Fire Department, City and County of Honolulu; the Fire Department, County of Kauai; the Disability and Communication Access Board; the Hawaii Independent Condominium & Cooperative Owners; and one private individual.

Your Committee finds that, of the seniors who live in high-rise and multiple residential building in the State, many have special medical needs that become critical and require special attention during an emergency, especially in situations that result in the loss of electricity to power building elevators, appliances, and medical devices. Established emergency plans and procedures in times of emergency will ensure that the needs of seniors and medically fragile residents will be appropriately addressed by the associations of apartment owners, condominium unit owners' associations, and first responders to emergencies.

Your Committee has amended this measure by:

- (1) Adding language that clarifies that the emergency plans developed by an association of apartment owners or a condominium unit owners' association should include evacuation and shelter-in-place plans that address the special needs of senior and medically fragile residents;
- (2) Adding language that urges the association of apartment owners and condominium unit owners' association to include in their annual statements filed with the Real Estate Commission any developed emergency plans that address the special needs of senior and medically fragile residents to be used in the event of an emergency; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 47, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 47, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5 Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3303 Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 85

The purpose of this measure is to recognize and appropriately accommodate the needs of seniors and residents with special health requirements by urging associations of apartment owners and condominium unit owners in the State to develop emergency plans for residents that address the special needs of seniors and medically fragile residents.

Testimony in support of this measure was submitted by the Department of Defense; the Honolulu Fire Department, City and County of Honolulu; the Fire Department, County of Kauai; the Disability and Communication Access Board; the Hawaii Independent Condominium & Cooperative Owners; and one private individual.

Your Committee finds that, of the seniors who live in high-rise and multiple residential building in the State, many have special medical needs that become critical and require special attention during an emergency, especially in situations that result in the loss of electricity to power building elevators, appliances, and medical devices. Established emergency plans and procedures in times of emergency will ensure that the needs of seniors and medically fragile residents will be appropriately addressed by the associations of apartment owners, condominium unit owners' associations, and first responders to emergencies.

Your Committee has amended this measure by:

- (1) Adding language that clarifies that the emergency plans developed by an association of apartment owners or a condominium unit owners' association should include evacuation and shelter-in-place plans that address the special needs of senior and medically fragile residents;
- (2) Adding language that urges the association of apartment owners and condominium unit owners' association to include in their annual statements filed with the Real Estate Commission any developed emergency plans that address the special needs of senior and medically fragile residents to be used in the event of an emergency; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 85, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 85, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5 Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3304 Economic Development and Taxation on S.R. No. 132

The purpose of this measure is to request the Hawai'i State Foundation on Culture and the Arts to establish the Hawai'i Capital Cultural District Task Force to review the current operations of the Hawai'i State Art Museum and its long range plans for operations and growth, with respect to the museum's location in the No. 1 Capitol District Building.

The State Foundation on Culture and the Arts (SFCA) submitted comments.

Your Committee finds that there is a plan in place that would appear to duplicate much of the work requested of the task force established in this measure.

Your Committee has amended this measure by deleting its title and content and replacing it as follows:

- (1) With a title to read, "ACKNOWLEDGING THE WORK OF THE STATE FOUNDATION ON CULTURE AND THE ARTS IN SUPPORTING ARTS AND CULTURE IN HAWAII, AND REQUESTING THAT AS AGENCIES MOVE FROM THE NO. 1 CAPITOL DISTRICT BUILDING, THE VACATED SPACE SHALL BE ASSIGNED TO THE STATE FOUNDATION ON CULTURE AND THE ARTS AND THE STATE ART MUSEUM";
- (2) With six new WHEREAS clauses relating the history of the SFCA, the SFCA's Art in Public Places Program, the State Art Museum, and the need for additional space to house these important cultural programs; and
- (3) With three new BE IT RESOLVED clauses to:
 - (A) Acknowledge the work of the SFCA in supporting arts and culture in Hawaii;
 - (B) Request that as agencies move from the No. 1 Capitol District Building, the vacated space be assigned to the SFCA and the State Art Museum; and
 - (C) Request that when the SFCA and the museum occupy the majority of square footage in the building, the building be renamed "The Hawaii State Art Museum".

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 132, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 132, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5 Noes, none. Excused, 1 (English).

SCRep. 3305 Economic Development and Taxation on S.C.R. No. 225

The purpose of this measure is to request the Hawai'i State Foundation on Culture and the Arts to establish the Hawai'i Capital Cultural District Task Force to review the current operations of the Hawai'i State Art Museum and its long range plans for operations and growth, with respect to the museum's location in the No. 1 Capitol District Building.

The State Foundation on Culture and the Arts (SFCA) submitted comments.

Your Committee finds that there is a plan in place that would appear to duplicate much of the work requested of the task force established in this measure.

Your Committee has amended this measure by deleting its title and content and replacing it as follows:

- (1) With a title to read, "ACKNOWLEDGING THE WORK OF THE STATE FOUNDATION ON CULTURE AND THE ARTS IN SUPPORTING ARTS AND CULTURE IN HAWAII, AND REQUESTING THAT AS AGENCIES MOVE FROM THE NO. 1 CAPITOL DISTRICT BUILDING, THE VACATED SPACE SHALL BE ASSIGNED TO THE STATE FOUNDATION ON CULTURE AND THE ARTS AND THE STATE ART MUSEUM";
- (2) With six new WHEREAS clauses relating the history of the SFCA, the SFCA's Art in Public Places Program, the State Art Museum, and the need for additional space to house these important cultural programs; and
- (3) With three new BE IT RESOLVED clauses to:
 - (A) Acknowledge the work of the SFCA in supporting arts and culture in Hawaii;
 - (B) Request that as agencies move from the No. 1 Capitol District Building, the vacated space be assigned to the SFCA and the State Art Museum; and
 - (C) Request that when the SFCA and the museum occupy the majority of square footage in the building, the building be renamed "The Hawaii State Art Museum".

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 225, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 225, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5 Noes, none. Excused, 1 (English).

SCRep. 3306 (Joint) Human Services and Public Housing, Intergovernmental and Military Affairs and Education on S.R. No. 118

The purpose of this measure is to request that the University of Hawaii Natural Disaster Preparedness Training Center include in its work program a component that addresses the needs of Hawaii's at-risk elderly and persons with disabilities.

Testimony in support of this measure was submitted by the Disability and Communication Access Board and the University of Hawaii System.

Your Committees find that an island state is vulnerable to many types of natural hazards, including floods, earthquakes, and brush fires, and that maximum preparedness is the key to recovery from any such events occurring in the State. Your Committees further find that state-wide preparedness plans must take into account the special needs of the elderly, persons with disabilities, and those with medical conditions.

Your Committees have amended this measure and its title to reflect the proper name of the Natural Disaster Preparedness Training Center, and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 118, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 118, S.D. 1.

Signed by the Chairs on behalf of the Committees Ayes, 7 Noes, none. Excused, 6 (Hooser, Ihara, Nishihara, Taniguchi, Tokuda, Tsutsui).

SCRep. 3307 (Joint) Human Services and Public Housing, Intergovernmental and Military Affairs and Education on S.C.R. No. 204

The purpose of this measure is to request that the University of Hawaii Natural Disaster Preparedness Training Center include in its work program a component that addresses the needs of Hawaii's at-risk elderly and persons with disabilities.

Testimony in support of this measure was submitted by the Disability and Communication Access Board and the University of Hawaii System.

Your Committees find that an island state is vulnerable to many types of natural hazards, including floods, earthquakes, and brush fires, and that maximum preparedness is the key to recovery from any such events occurring in the State. Your Committees further find that state-wide preparedness plans must take into account the special needs of the elderly, persons with disabilities, and those with medical conditions.

Your Committees have amended this measure and its title to reflect the proper name of the Natural Disaster Preparedness Training Center, and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 204, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 204, S.D. 1.

Signed by the Chairs on behalf of the Committees Ayes, 7. Noes, none. Excused, 6 (Hooser, Ihara, Nishihara, Taniguchi, Tokuda, Tsutsui).

SCRep. 3308 (Joint) Human Services and Public Housing and Public Safety on S.R. No. 59

The purpose of this measure is to request that the Department of Human Services convene a task force to establish protocols and training programs for first responders to use when coming into contact with children who may be the victims of or who are at risk for child abuse.

Testimony in support of this measure was submitted by the Department of Human Services.

Your Committees find that first responders have the ability to enter into a wide variety of situations and must be able to respond appropriately if a child is present who has been harmed or who may be at risk for child abuse. To ensure the continued safety of such children, first responders need to be trained to assess and identify situations for which protective protocols may be appropriate.

Your Committees have amended this measure by:

- (1) Incorporating the comments made by the Department of Human Services to allow for additional types of first responders to participate in the training programs, include in the initial report to the Legislature the "estimated costs of implementation", rather than a report on the implementation, and a clause stating that, in order to avoid task force duplication, if H.B. No. 2596, H.D. 2, S.D. 1, is enacted into law in the current legislative session, then the task force described in this measure will be incorporated into the task force required by that Act; and
- (2) Making technical, nonsubstantive amendments to the measure and its title for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Public Safety that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 59, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 59, S.D. 1.

Signed by the Chairs on behalf of the Committees Ayes, 7. Noes, none. Excused, 1 (Nishihara).

SCRep. 3309 (Joint) Human Services and Public Housing and Public Safety on S.C.R. No. 105

The purpose of this measure is to request that the Department of Human Services convene a task force to establish protocols and training programs for first responders to use when coming into contact with children who may be the victims of or who are at risk for child abuse.

Testimony in support of this measure was submitted by the Department of Human Services.

Your Committees find that first responders have the ability to enter into a wide variety of situations and must be able to respond appropriately if a child is present who has been harmed or who may be at risk for child abuse. To ensure the continued safety of such children, first responders need to be trained to assess and identify situations for which protective protocols may be appropriate.

Your Committees have amended this measure by:

- (1) Incorporating the comments made by the Department of Human Services to allow for additional types of first responders to participate in the training programs, include in the initial report to the Legislature the “estimated costs of implementation”, rather than a report on the implementation, and a clause stating that, in order to avoid task force duplication, if H.B. No. 2596, H.D. 2, S.D. 1, is enacted into law in the current legislative session, then the task force described in this measure will be incorporated into the task force required by that Act; and
- (2) Making technical, nonsubstantive amendments to the measure and its title for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Public Safety that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 105, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 105, S.D. 1.

Signed by the Chairs on behalf of the Committees Ayes, 7. Noes, none. Excused, 1 (Nishihara).

SCRep. 3310 Public Safety on S.C.R. No. 125

The purpose of this measure is to request the Department of Public Safety to establish an earned-time program that reduces the minimum period of time that inmates must wait to become eligible for parole.

Testimony in support of this measure was submitted by the Hawaii Paroling Authority, Community Alliance on Prisons, the Drug Policy Forum of Hawai‘i, and three individual citizens. Testimony in opposition of this measure was submitted by the Department of Public Safety and Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that providing Hawaii inmates incarcerated in Hawaii and on the mainland with an early parole eligibility program has the benefits of reducing inmate overcrowding and increasing the inmate’s likelihood of successful reintegration into the community. Your Committee also finds that in order to have a successful early parole eligibility program, the appropriate needs and criteria for the program need to be researched and analyzed before a program is established.

Accordingly, your Committee has amended this measure and its title by removing the establishment of an earned-time program and instead requesting the Department of Public Safety to research and study early parole eligibility programs in other jurisdictions before establishing an earned-time program.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 125, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 125, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Nishihara).

SCRep. 3311 Public Safety on S.R. No. 64

The purpose of this measure is to request the Department of Public Safety to establish an earned-time program that reduces the minimum period of time that inmates must wait to become eligible for parole.

Testimony in support of this measure was submitted by the Hawaii Paroling Authority, Community Alliance on Prisons, the Drug Policy Forum of Hawai‘i, and three individual citizens. Testimony in opposition of this measure was submitted by the Department of Public Safety and Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that providing Hawaii inmates incarcerated in Hawaii and on the mainland with an early parole eligibility program has the benefits of reducing inmate overcrowding and increasing the inmate’s likelihood of successful reintegration into the community. Your Committee also finds that in order to have a successful early parole eligibility program, the appropriate needs and criteria for the program need to be researched and analyzed before a program is established.

Accordingly, your Committee has amended this measure and its title by removing the establishment of an earned-time program and instead requesting the Department of Public Safety to research and study early parole eligibility programs in other jurisdictions before establishing an earned-time program.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 64, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 64, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Nishihara).

SCRep. 3312 (Joint) Human Services and Public Housing and Intergovernmental and Military Affairs on H.C.R. No. 111

The purpose of this measure is to urge Hawaii’s Congressional Delegation to support legislative incentives for public housing tenants to make the transition to permanent housing.

Testimony in support of this measure was submitted by the Hawaii Public Housing Authority.

Your Committees find that public housing best provides for the general welfare when used as a resource for individuals as a stepping-stone to self-sufficiency. Your Committees further find that there are over 11,880 individuals on the current waitlist for public housing in Hawaii, and that there are many public housing tenants who could benefit from the proper incentives and support programs to transition out of public housing and into more permanent housing.

Your Committees have amended this measure and its title by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 111, H.D. 1, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 111, H.D. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 4. Noes, none. Excused, 3 (Hooser, Ihara, Tsutsui).

SCRep. 3313 (Joint) Health, Human Services and Public Housing and Intergovernmental and Military Affairs on S.R. No. 83

The purpose of this measure is to proclaim the Legislature's support for the "Divided We Fail" campaign to find long term solutions for affordable access to health care and financial security for all of Hawaii's residents.

Your Committees received testimony in support of this measure from the American Association of Retired Persons, and nine individuals.

Your Committees find that health care and financial security are the most vital issues facing our State. Supporting the "Divided We Fail" campaign provides a significant step forward in the bipartisan approach to finding long term health care and financial solutions for the people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 83 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3314 (Joint) Health, Human Services and Public Housing and Intergovernmental and Military Affairs on S.C.R. No. 153

The purpose of this measure is to proclaim the Legislature's support for the "Divided We Fail" campaign to find long term solutions for affordable access to health care and financial security for all of Hawaii's residents.

Your Committees received testimony in support of this measure from the American Association of Retired Persons, and nine individuals.

Your Committees find that health care and financial security are the most vital issues facing our State. Supporting the "Divided We Fail" campaign provides a significant step forward in the bipartisan approach to finding long term health care and financial solutions for the people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 153 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3315 (Majority) Judiciary and Labor on S.C.R. No. 222

The purpose of this measure is to:

- (1) Request the respective head of the Departments of Budget and Finance; Business, Economic Development, and Tourism; Commerce and Consumer Affairs; Hawaiian Home Lands; Health; Human Services; Labor and Industrial Relations; Land and Natural Resources; and Public Safety, respectively, to submit reports to the Legislature no later than twenty days prior to the convening of the 2009 Regular Session on the number of exempt positions under laws other than the civil service chapter that have been converted to civil service in their respective departments; and
- (2) Request these departments to convert all exempt clerical and paraprofessional positions to civil service by December 31, 2008.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association. Comments were received from the Department of Commerce and Consumer Affairs, Department of Human Resources Development, and Department of Land and Natural Resources.

Act 253, Session Laws of Hawaii 2000, amended public employment laws and rules that had evolved over decades by reforming the civil service system and making government more efficient, effective, and responsive. An important objective of civil service reform and Act 253, Session Laws of Hawaii 2000, was to increase the number of positions included in the civil service system, where appointments and promotions are made under a system of merit determined by competitive examination, and to decrease the use of exempt appointments, which are positions outside the civil service system. This measure is an important step toward fulfilling the legislative intent of Act 253.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 222 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Gabbard, Hee).

SCRep. 3316 (Joint/Majority) Water and Land and Human Services and Public Housing on S.C.R. No. 119

The purpose of this measure is to request that the Board of Land and Natural Resources ("Board") lease approximately 13.2 acres of State owned land near Ke'ehi Lagoon to Pacific Gateway Center at a nominal lease rent for the Ke'ehi Community Resource Center ("Center").

Testimony in support of this measure was submitted by Paradise Cruise, Ltd. and Pacific Gateway Center. The Department of Land and Natural Resources submitted testimony in support of the intent of this measure.

Your Committees find that both Pacific Gateway Center and Oahu Head Start provide community services and are working together to create a one-stop service center to be known as the Ke'ehi Community Resource Center. The Center is being planned to be located on approximately 13.2 acres of vacant and unimproved state-owned public land located near Ke'ehi Lagoon. Your Committees further find that pursuant to section 171-43.1, Hawaii Revised Statutes, the Board is permitted to lease public lands, by direct negotiation and for nominal consideration, to a qualified eleemosynary organization. Your Committees find that it would be in the public interest for the Board to lease the 13.2 acres near Ke'ehi Lagoon to Pacific Gateway Center for nominal consideration, to be used for the Center.

As affirmed by the records of votes of the members of your Committees on Water and Land and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 119 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, 1 (Hemmings). Excused, 1 (Whalen).

SCRep. 3317 Judiciary and Labor on H.B. No. 1978

The purpose of this measure is to make permanent the prohibition against urinating and defecating in a public place or any area where such act is likely to be observed by the public in Downtown Honolulu.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Downtown Neighborhood Board No. 13, and three individuals.

Act 84, Session Laws of Hawaii 2004, relating to public order, enacted the offense of urinating or defecating in public which applies to the area of Downtown Honolulu only.

Your Committee notes the following findings of Senate Standing Committee Report No. 2919, Regular Session of 2004, of the Standing Committee on Judiciary and Hawaiian Affairs:

Your Committee finds that urinating and defecating in public has become increasingly common in Hawaii. These behaviors are vile, create health risks stemming from human waste, and discourage people from patronizing establishments in the area because of the smell and unsightliness. Currently there are no laws that make these acts illegal. However, your Committee believes that this measure will deter many from urinating and defecating in public and equip law enforcement with a tool to penalize individuals that continue to urinate and defecate in public.

Your Committee has amended this measure by:

- (1) Extending the sunset date to December 31, 2012, rather than making the law permanent;
- (2) Changing the effective date from July 1, 2112, to upon approval; and
- (3) Adding the Ramseyer language for underscored material.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1978, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1978, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Hee).

SCRep. 3318 (Joint/Majority) Energy and Environment and Intergovernmental and Military Affairs on H.B. No. 2977

The purpose of this measure is to address the coqui frog infestation problem near residential areas.

Specifically, this measure requires the Hawaii Invasive Species Council (HISC) to give priority in its required coqui frog eradication plan to eradicating coqui frogs on state or county land within one mile of residential areas.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs. Testimony in opposition to this measure was submitted by the Conservation Council for Hawaii. Comments were submitted by the Chairperson of the Board of Land and Natural Resources; Chairperson of the Board of Agriculture; and The Nature Conservancy of Hawaii.

Your Committees find that the coqui frog population has not yet been mitigated to a level acceptable to affected communities, and continues to be a problem in certain areas throughout the State.

The Board of Land and Natural Resources has suggested to your Committees that the measure's focus on eradicating coqui frogs that are on state or county land and within one mile of residential areas may not be the best approach for all islands, as it may not be the most effective way to prevent introduction or removal of new infestations into new areas or slow the spread of coqui frogs into ecologically sensitive areas.

Accordingly, your Committees have amended this measure by omitting the requirement that priority be given only to eradicating the coqui frogs which are specifically on state or county land and within one mile of residential areas.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2977, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2977, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 4. Noes, 1 (Trimble). Excused, 3 (Ihara, Kokubun, Tsutsui).

SCRep. 3319 Judiciary and Labor on H.B. No. 3011

The purpose of this measure is to allow for greater flexibility in granting special motor vehicle registration under the State's administrative revocation law, by requiring the Administrative Director of the Courts to also consider the impact, including adverse effects on the respondent's household members, of refusing to grant the special motor vehicle registration.

Your Committee finds that oftentimes a driver who has had a motor vehicle registration administratively revoked is a co-registrant with a family member for the motor vehicle. For example, a parent may be a co-registrant with an adult child whose license was administratively revoked. Depriving an otherwise law abiding co-registrant of the ability to use their motor vehicle may in certain instances be too onerous a penalty and cause an undue hardship on the non-offending co-registrant. This measure facilitates that consideration.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3011, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Gabbard, Hee).

SCRep. 3320 Judiciary and Labor on H.B. No. 2254

The purpose of this measure is to prohibit the use of the name or trademark of a financial institution or its affiliates or subsidiaries when marketing or soliciting existing or prospective customers if such marketing materials are used without written permission and in a manner that would lead a reasonable person to believe that the material or solicitation originated from a financial institution or its affiliates or subsidiaries.

A civil penalty of up to \$10,000 is authorized for each violation.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Hawaii Financial Services Association.

This measure addresses the common practice of out-of-state lenders who send direct mail solicitations for refinance opportunities that prominently list the existing lender in a manner that the recipients are led to erroneously believe that their lenders are sending important notices. The solicitations contain phrases, such as "Time Sensitive Material" and "Payment Reduction Notice," that make the recipient more apt to read the material. Only after carefully reading the literature or calling the listed phone number is it apparent that this is a refinance solicitation from a different lender.

According to testimony of the Hawaii Financial Services Association, this measure is necessary to prevent the all too common situation in which mortgage loan customers of Hawaii financial services loan companies are deceived by mail solicitations from mainland lenders regarding refinancing that make reference to the name of the Hawaii financial services loan company, originating the mortgage loan, to wrongly suggest that the Hawaii financial services loan company is the solicitor when in fact it is not. The name of the mainland lender does not appear in the solicitations or is in obscure fine print.

The intent of this measure is to protect the general public from deceptive marketing practices by banks and financial institutions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2254, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3321 Judiciary and Labor on H.B. No. 2675

The purpose of this measure is to establish a Medical Marijuana Task Force within the University of Hawaii for administrative purposes to examine current medical marijuana laws regarding adequate supply for qualified patients, developing safe growing facilities, and solutions for inter-island travel.

Your Committee received testimony in support of this measure from Patients Without Time, Law Enforcement Against Prohibition, and twenty-nine individuals. Testimony in opposition was received from the Department of Public Safety. Comments were received from one individual.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2675, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Gabbard, Hee).

SCRep. 3322 Judiciary and Labor on H.B. No. 2326

The purpose of this measure is to enact a new chapter, known as the Mortgage Rescue Fraud Prevention Act, to regulate distressed property consultants and their practices and contracts.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Association of Realtors, Hawaii Financial Services Association, and Legal Aid Society of Hawai'i.

This measure is intended to protect Hawaii consumers from persons who prey on homeowners facing property foreclosures, liens, or encumbrances. These distressed property consultants, known as "mortgage rescuers", charge a high fee and often do little or no work, and employ deceptive tactics that sometimes eventuate in the homeowner having to deed their property to the mortgage rescuer. This measure addresses both forms of trickery by requiring the consultants to provide homeowners with a written contract spelling out their services and by giving the homeowner the right to cancel at any time before the services are actually performed.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2326, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Gabbard, Hee).

SCRep. 3323 Ways and Means on H.B. No. 2366

The purpose of this measure is to increase the number of potential organ donors in Hawaii.

Specifically, this measure establishes a statewide organ donor registry within the Department of Health to compile organ donor information into a centralized database and make the information available to family members and physicians. The measure also allows the Director of Health to contract for the establishment of the organ donor registry and appropriates an unspecified amount for the establishment of the registry.

Testimony in support of this measure was submitted by the Organ Donor Center of Hawaii, Congress of Visayan Organizations, Filipino American Citizens League, National Federation of Filipino American Associations, Nursing Advocates & Mentors, Inc., Philippine Nurses Association, United Filipino Council of Hawaii, Filipino Coalition of Solidarity, Case Management Professionals, Inc., AIM Healthcare Institute, and three concerned individuals.

Your Committee finds that the number of people awaiting organ transplants in Hawaii exceeds the number of available donor organs. In addition, the number of registered organ donors has declined over the past few years. As a result, more people are dying or are being removed from the organ transplant waitlist because they have become too sick to receive a transplant. Your Committee finds that this measure will help to increase the registration of potential organ donors and reduce the organ shortage in this State. Accordingly, your Committee supports the establishment of a statewide organ donor registry.

Furthermore, your Committee acknowledges that the Department of Health, along with a consortium of organizations, including the Organ Donor Center of Hawaii, has applied for a federal grant to assist in the establishment of the statewide organ donor registry. For this reason, an appropriation from the general fund may not be necessary.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2366, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3324 Ways and Means on H.B. No. 2238

The purpose of this measure is to require public housing projects and affordable housing developments funded by county or state funds to remain affordable in perpetuity.

Your Committee received testimony in support of this measure from the Mayor of Maui County. The Office of Housing and Community Development of the County of Hawaii submitted testimony in opposition.

Your Committee finds that providing affordable housing for Hawaii's residents continues to be one of the State's most significant and challenging social problems. With rising rental costs and a shrinking rental market, it is imperative that the State reassure families living in housing projects that their residences will not be sold to the highest bidder. This measure provides that assurance by requiring public housing projects and affordable housing developments funded by county or state funds to remain affordable in perpetuity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2238, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3325 Ways and Means on H.B. No. 2739

The purpose of this measure is to allow agricultural businesses to continue to qualify for enterprise zone benefits in case of force majeure events.

Specifically, this measure allows qualified enterprise zone businesses to remain eligible for tax and other benefits for the period of a force majeure event. The measure also creates three new definitions of "force majeure event", "joint employment", and "leased employee", and amends the definitions of "full-time employee" and "qualified business".

In addition, this measure allows businesses either beginning operation or already in operation in an enterprise zone to remain eligible by increasing its gross sales of agricultural crops or agricultural products produced within the enterprise zone by two per cent annually--and counts value-added agricultural product retail sales towards qualification for tax credits--instead of meeting the employment requirement.

Finally, this measure disallows agricultural businesses not engaged in genetically-engineered agricultural production to be exempt from the general excise tax on the gross proceeds of agricultural retail sales. This measure takes effect on July 1, 2034.

Your Committee received testimony in support of this measure from the Departments of Business, Economic Development, and Tourism, Agriculture, and Taxation, the County of Maui, Hawaii Crop Improvement Association, Hawaii Agriculture Research Center, Hawaii Farm Bureau Federation, and Hawaii Aquaculture Association. The Tax Foundation of Hawaii offered comments.

Your Committee finds that the purposes expressed in this measure deserve further consideration and discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2739, H.D. 1, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Kim, Hemmings).

SCRep. 3326 Ways and Means on H.B. No. 2441

The purpose of this measure is to require workers' compensation coverage for students employed by public employers who are participating in Department of Education or University of Hawaii school-approved work-based learning programs.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that private employers are required to provide workers' compensation coverage to students in Department of Education or University of Hawaii school-approved work-based learning programs. This workers' compensation coverage, however, does not extend to students employed by public employers. This measure provides students employed by public employers the same workers' compensation protection as students employed by private employers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2441, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3327 Ways and Means on H.B. No. 2163

The purpose of this measure is to require the University of Hawaii to preaudit only those proposed payments made by the University that are \$10,000 or more in value.

Your Committee received testimony in support of this measure from the University of Hawaii.

Your Committee finds that the University of Hawaii audit system involves the review of all financial transactions for legality, propriety, conformity to policies and rules, and the adequacy of supporting documentation. This system has become increasingly difficult to maintain due to staffing and resource shortages, and late penalty time constraints.

This measure will allow the University to redesign its preaudit system to use resources more effectively with risk-based sampling techniques to provide a more efficient and productive audit system. The measure will also provide parity with the Department of Accounting and General Service's policy of auditing only payments of \$10,000 or more.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2163, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3328 Ways and Means on H.B. No. 2527

The purpose of this measure is to promote smart growth and sustainability by requiring the Office of Planning to develop and promote the use of smart growth principles in new and existing communities.

Specifically, this measure requires the Office of Planning to coordinate efforts to incorporate the principles of smart growth in new and existing communities in the State and sets out those principles. The Office of Planning is to report annually to the Legislature on its activities and the implementation of smart growth projects in each preceding calendar year.

This measure also establishes a process, and provides incentives, by which developers of residential communities may elect to develop sustainable communities in the State that will:

- (1) Generate at least fifty per cent of all of the energy requirements for the entire community under development;
- (2) Implement a comprehensive recycling program;
- (3) Implement an extensive community wastewater recycling and treatment management system;
- (4) Implement an extensive water conservation management plan;
- (5) Protect and preserve open space;
- (6) Promote and encourage visitation to any nearby cultural or historical sites, public beaches, shores, trails, and other outdoor recreational areas; and
- (7) Provide affordable housing units by designating at least thirty per cent of all residential units as affordable housing.

This measure also requires the Office of Planning to develop a plan to establish a statewide system for greenways and trails. The measure takes effect on July 1, 2050.

The Department of Business, Economic Development, and Tourism, the City and County of Honolulu, the Hawaii Association of Realtors, and the Windward Ahupuaa Alliance offered comments.

Your Committee finds that the purposes of this measure deserve further consideration and discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2527, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3329 Ways and Means on H.B. No. 2306

The purpose of this measure is to avoid increasing the costs of health care services delivered to military members or their dependents through the TRICARE program.

Specifically, this measure exempts from the state general excise tax amounts received by managed care support contractors as reimbursements of costs or advances made pursuant to a contract for the administration of the federal TRICARE program. This measure would become effective upon approval and is retroactive to January 1, 2005.

Testimony in support of this measure was submitted by TriWest Healthcare Alliance, Inc. Comments on this measure were submitted by the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure would clarify that reimbursements received by managed care support contractors through the TRICARE program, for health services provided to military personnel or their dependents in Hawaii, are not subject to the state general excise tax.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2306, H.D. 2, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3330 Ways and Means on H.B. No. 2761

The purpose of this measure is to improve the health and access to healthcare for low-income women and children in the State.

Specifically, this measure extends post-partum and interconception care from eight weeks to six months for women enrolled in the Hawaii QUEST program.

Testimony in support of this measure was submitted by the Hawaii Primary Care Association, Pacific Gateway Center, March of Dimes, and two concerned individuals. Comments on this measure were submitted by the Department of Human Services and a concerned individual.

Your Committee finds that this measure will improve the overall health of women and children in the State by providing postpartum care, as well as a full scope of preventive and primary care services for women between pregnancies, for up to six months.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2761, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3331 Ways and Means on H.B. No. 2763

The purpose of this measure is to re-establish the Children of Incarcerated Parents Task Force through December 31, 2011 and to appropriate funds for its operation.

The Office of Hawaiian Affairs, Drug Policy Forum of Hawaii, Community Alliance on Prisons, the Children of Incarcerated Parents Task Force, and one individual submitted testimony in support of this measure. The Department of Public Safety submitted testimony in opposition to this measure. The Department of Human Services submitted comments.

The Children of Incarcerated Parents Task Force was established by Senate Concurrent Resolution No. 128 (2005), and extended until December 31, 2007, by Act 256, Session Laws of Hawaii 2006, to develop, among other things, programs and support services for children of incarcerated parents. However, since the task force was not convened until May 2007, members had insufficient time to address all of the complex issues surrounding this subject before it ceased to exist.

It is estimated that there are approximately six thousand children in Hawaii of incarcerated parents. However, your Committee finds that more accurate data regarding this population is necessary to appropriately design programs and support services for this vulnerable population. Currently, there are no state programs aimed at these children's specific needs. According to national data, children of incarcerated parents are six to seven times more likely than their peers to end up incarcerated themselves. This measure will help to develop methods to prevent generational incarceration.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2763, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3332 Judiciary and Labor on H.B. No. 2730

The purpose of this measure is to prescribe certain procedures to be followed in the conduct of business by Honolulu county neighborhood boards and such other neighborhood boards as may be created in other counties and overseen by a county-based commission.

This measure:

- (1) Allows the written public notice of a neighborhood board meeting to include an opportunity for the board to receive public input on issues not specifically noticed for consideration at the forthcoming meeting; provided that decision-making on those issues is postponed to a later duly-noticed meeting;
- (2) Requires a quorum for a meeting of the board to conduct official board business and to vote;
- (3) Allows the board to receive information or testimony on a matter of official business without a quorum; provided that the board shall not make a decision on the issue and the board members shall report the matters presented as information or testimony at the next board meeting;
- (4) Allows two or more members of a board, but fewer than the number necessary to constitute a quorum, to attend informational meetings or presentations on matters relating to official board business, including meetings of another entity, seminars, and

community meetings; provided that the presentation is not specifically and exclusively organized for or directed toward members of the board;

- (5) Allows board members to participate in discussions, including discussions among themselves; provided that the discussions occur during and as a part of the informational meeting or presentation and that there is no commitment relating to a vote on the issue; and
- (6) Allows the board to discuss an unanticipated event that occurs after public notice of a board meeting has been issued but before the scheduled meeting, if timely action is necessary for the public health, safety, and welfare. At a duly noticed meeting, a board may take action on the unanticipated event in the public interest that is not on the agenda, as if the board held an emergency meeting.

Your Committee received testimony in support of this measure from the Honolulu Department of Planning and Permitting, the Honolulu Neighborhood Commission Office, the Honolulu Neighborhood Commission, Waipahu Neighborhood Board No. 22, and three individuals.

Your Committee notes that the current sunshine law in chapter 92, Hawaii Revised Statutes, is absent of specific provisions that apply to the conduct of neighborhood boards. Although neighborhood boards do not possess legislative authority, they are nonetheless a vital part of the democratic process and accessibility to government.

The intent of your Committee is to preserve the openness of deliberations and decision-making of neighborhood boards, and to improve the quality of those decisions. It is not the intent of your Committee for this measure to circumvent the sunshine laws.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2730, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3333 Judiciary and Labor on H.B. No. 2696

The purpose of this measure is to provide that a vacancy on the Board of the Judiciary History Center shall be filled for the remainder of the unexpired term or, if expired, for a new term by the Chief Justice.

This measure further provides that a vacancy in any one of the three positions originally appointed by the Chief Justice from a list submitted by the Friends of the Judiciary History Center shall be filled by the Chief Justice from a list of three candidates submitted by the Friends of the Judiciary History Center.

Your Committee received testimony in support of this measure from the Judiciary and the Friends of the Judiciary History Center of Hawai'i.

This measure is intended to facilitate the filling of vacancies for an unexpired term on the Board of the Judiciary History Center by reducing the number of nominees from seven, which is presently required for new appointments, to three, to be submitted by the Friends of the Judiciary History Center. Current law does not provide procedures for the filling of vacancies.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2696, H.D. 2, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3334 Judiciary and Labor on H.B. No. 2699

The purpose of this measure is to clarify the Uniform Probate Code to:

- (1) Exempt payable-on-death accounts established at a financial institution from being payable under Hawaii's anti-lapse statute, section 560:2-706, Hawaii Revised Statutes;
- (2) Require the personal representative to furnish copies of a supplemental inventory or appraisal to interested parties who request it or who requested a copy of the original inventory;
- (3) Allow the court, for good cause shown, to waive requirements that the kokua kanawai in a guardianship proceeding interview the respondent in person and visit the respondent's present dwelling;
- (4) Permit the confidential written report of a kokua kanawai to be made available to any nominated guardian and nominated guardian's and respondent's lawyers, among other statutorily designated parties;
- (5) Allow the court, for good cause shown, to extend the time limit of fourteen days for the order of appointment of guardian and notice of the right to request termination or modification to be sent or delivered to the ward, or to otherwise modify or waive the requirement that the order and notice be sent or delivered; and
- (6) Allow the court, for good cause shown, to extend the time limit of fourteen days for the order of appointment of a conservator and statement of the right to seek termination or modification to be sent or delivered to the protected person, or to otherwise modify or waive the requirement that the order and statement be sent or delivered.

Your Committee received testimony in support of this measure from the Standing Committee on the Uniform Probate Code and Probate Code Practices of the Judiciary of the State of Hawaii.

Your Committee has amended this measure by changing the effective date to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2699, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2699, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3335 Judiciary and Labor on H.B. No. 2729

The purpose of this measure is to create a criminal offense of burglary in the first degree, a class A felony.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney, Honolulu Police Department, and Hawaii Rifle Association. Testimony in opposition was received from the State Public Defender.

Under this measure, burglary in the first degree is committed when a person intentionally enters or remains unlawfully in a dwelling with the intent to commit a crime against a person or property therein, and is armed with a dangerous instrument in the course of committing the offense. This measure makes the existing crime of burglary in the first degree into burglary in the second degree and defines the existing term "in the course of committing the offense". The measure also makes the existing crime of burglary in the second degree into burglary in the third degree.

Your Committee intends this measure to apply particularly to home invasion type burglaries, which are committed by burglars who are armed and dangerous. Your Committee believes the class A felony designation is warranted in view of the premeditated and vicious nature of home invasions that have been known to result in death of or serious injury to the home's occupants.

Your Committee has amended this measure by:

- (1) Changing the definition of "dangerous instrument" to include firearms, among other things, on the recommendation of the Honolulu Prosecuting Attorney; and
- (2) Changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2729, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2729, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3336 Judiciary and Labor on H.B. No. 3002

The purpose of this measure is to clarify as a class C felony, a third and any subsequent offense of prostitution by a person who pays, or offers or agrees to pay, a fee for sex with another person. Under this measure the class C felony sentence is without possibility of deferral of further proceedings and without possibility of suspension of sentence.

Your Committee received testimony in support of this measure from the Kukui Plaza Association of Owners, Downtown Neighborhood Board No. 13, EAH Housing, Honolulu Tower AOA, and thirty-two individuals. Testimony in opposition was received from the State Public Defender.

This measure, for lack of better terminology, is commonly referred to as a "john law." Your Committee finds that this measure adds another means of deterring prostitution, by increasing the criminal penalties for johns who habitually solicit prostitutes.

Your Committee has amended this measure on the recommendation of the State Attorney General by enacting a new separate offense of habitual solicitation of prostitution, a class C felony, for the third and subsequent offense after two or more prior convictions for specified prostitution offenses within a ten year period of the instant offense. The measure sunsets on June 30, 2010, in order for this measure to be evaluated to determine its effectiveness.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3002, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3002, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3337 Judiciary and Labor on H.B. No. 3383

The purpose of this measure is to clarify the law on multiple terms of imprisonment to require multiple terms of imprisonment, whether imposed at the same time or at different times, to run concurrently unless the court orders or the statute mandates that the terms run consecutively.

Your Committee received testimony in support of this measure from the State Public Defender and Community Alliance on Prisons. Testimony in opposition was received from the State Attorney General and the Honolulu Prosecuting Attorney. Comments were received from the Department of Public Safety.

Testimony on this measure indicates that there has been some misunderstanding and misinterpretation of the sentencing law involving multiple terms of imprisonment. This measure clarifies the confusion. In this regard, your Committee finds that the harsher sentence of consecutive time should be specifically stated by the court.

Your Committee has concerns regarding the retroactive application of this measure. Testimony indicated that the Department of Public Safety "would be required to review thousands of individual inmate files and amend the sentence computations immediately. . . . Further, if this measure were to be enacted as currently written, the State would be exposed to extensive liability for overstayed detention on a number of cases."

Your Committee urges the Department of Public Safety to work on a plan and procedure to process cases that would be affected by this measure. Accordingly, the Department is requested to report to your Committee before the commencement of conference meetings on this measure.

Your Committee has amended this measure by:

- (1) Applying it prospectively, beginning with terms of imprisonment imposed on or after January 1, 2009; and
- (2) Changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3383, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3338 Water and Land on Gov. Msg. No. 258

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE OFFICE OF PLANNING

G.M. No. 258 ABBEY SETH MAYER, for a term to expire 12-06-2010

Your Committee has reviewed the personal history, resume, and statement submitted by the Governor's nominee to the Office of Planning. Your Committee has also heard over eight hours of testimony regarding his nomination.

Considering the entire body of its work, your Committee voted to advise and consent with expressions of strong reservations so that the entire Senate may consider the issues specifically relating to the nominee's lack of qualifications for the Director of the Office of Planning articulated in chapter 225M, Hawaii Revised Statutes, and his brief residency in Hawaii nearly entirely spent on one island, Moloka'i.

Testimony in support of this nomination was submitted by Inouye Construction, LLC, Office of Hawaiian Affairs, Lokahi Pacific, Hawai'i Carpenters Union, Empower Oahu, a Trustee of the Office of Hawaiian Affairs, the Director of the Department of Business, Economic Development and Tourism, the Chair of the Board of Land and Natural Resources, and approximately forty-nine individuals.

Testimony in opposition to this nomination was submitted by Hawai'i's Thousand Friends, Puakala Farms, and approximately seventy-four individuals.

Mr. Mayer graduated from Roslyn High School, Roslyn, New York in 1991 and received a Bachelors Degree in Art & Painting Concentration from Yale University.

Your Committee recognizes that the Office of Planning is one of the most important State agencies and is specifically responsible for:

- (1) State comprehensive planning and program coordination;
- (2) Strategic planning regarding significant issues, problems, and opportunities confronting the State;
- (3) Facilitating coordinated and cooperative planning and policy development and implementation activities among State agencies, and between the state, county, and federal governments;
- (4) Collecting, integrating, analyzing, maintaining, and disseminating various forms of data and information, including geospatial data and information to further effective state planning, policy analysis and development, and delivery of government services;
- (5) Developing and presenting the position of the State in all boundary change petitions and proceedings before the Land Use Commission, assisting state agencies in the development and submittal of petitions for land use district boundary amendments, and conducting periodic reviews of the classification and districting of all lands in the State;
- (6) Carrying out the lead agency responsibilities for the Hawaii coastal zone management program;
- (7) Conducting plans and studies to determine the capability of various regions within the State to support projected increases in both residential populations and visitors, potential impacts on these regions from projected increases in population, the maximum annual visitor carrying capacity for the State, by region, county and island, and appropriate guidance and management of regions and areas of statewide critical concern; and
- (8) Participating in and ensuring that state plans, policies, and objectives are consistent with regional, national, and international planning efforts.

In recognition of the Office of Planning's important role and in keeping with the Legislature's stated goal of promoting a sustainable future for Hawai'i, the Legislature enacted into law specific qualifications that the Director shall possess as explicitly set forth in section 225M-2(a), Hawaii Revised Statutes:

The director shall have: training in the field of urban and regional planning, public administration, or other related fields experience in programs or services related to governmental planning and experience in a supervisory, consultative, or administrative capacity.

Prior to moving to Hawai'i, the nominee's work experience consisted of one year as a resident manager of a farm in Essex, New York, two years as a writer of unpublished novel while in the Yukon Territory, Canada, and one year working as a foreman and brokerage manager of a marina in Branford, Connecticut.

Your Committee has expressed strong concerns that the nominee's educational credentials fail to satisfy the statutorily required qualifications for serving as the Director of the Office of Planning. For example, the nominee received his Bachelors degree in Art and Painting Concentration from Yale University.

Your Committee notes that former Directors of the Office of Planning each met and exceeded the standards required by chapter 225M, Hawaii Revised Statutes, regardless that the State Senate did not advise and consent to their appointments. Past Directors of Planning have set the standard by earning the following credentials and years of service in Hawaii:

- (1) The first Director of the Office of Planning, was the Vice-President for Administration, University of Hawaii for eight years, Special Assistant to the Governor, Acting Chairman of the Public Utilities Commission and a juris doctorate degree;
- (2) The Director during the period 1994-1996 earned a PhD in Urban and Regional Planning from the Massachusetts Institute of Technology, was a regional economist for the Bureau of Economic Analysis in the Department of Commerce in Washington D.C. and earned a Masters degree in Architecture from the Harvard Graduate School of Design;
- (3) The Director during the period 1996-1997 was the Deputy Director of Department of Business, Economic Development and Tourism and earned a Masters in Business Administration from the Wharton School of Business;
- (4) The Director during the period 1998-2002 was a Certified Planner of the American Institute of Planning who also had over twenty years of planning experience including the post of Planning Director for the County of Maui; and
- (5) The Director during the period 2005-2007 is an attorney who specialized in environmental and administrative law for seven years. Besides holding a Juris Doctorate, this Director also earned a Master's in Public Policy from the Georgetown University Public Policy Institute, worked for the Office of Hawaiian Affairs, and served as an elected member of the State Board of Education.

Your Committee is also concerned that the nominee failed to articulate a clear understanding and knowledge of the responsibilities of the Office of Planning and the duties of the Director. He testified that he lacked the knowledge of the state of the County of Hawaii's planning process as well as the other counties.

Upon being advised that the Director must possess knowledge as to the status of the counties' planning processes, the nominee advised the Committee that the Office of Planning had qualified staff which he would rely upon to advise him. He explained that planning work is to be done by staff and that it is the Director's role to ensure that the staff's work is implemented. He further testified that he saw the Director's responsibility to be working with State agencies and getting federal funding.

Your Committee also questioned the nominee regarding the coordination of the geographic information system ("GIS") for the State which is a specifically enumerated responsibility of the Office of Planning. The Committee expressed concern that there was no State standard for a GIS program. The nominee responded that the Office of Planning faced the challenge of having obsolete software and did not know what stage the counties were at with regard to their GIS programs. He stated that his personal experience with the GIS is that he has used the products but has not done any mapping.

Also during the hearings, Committee members questioned the nominee on the State's plans regarding the development of affordable housing, education, and health facilities. The nominee responded that he believed that each project needed to be considered individually. Your Committee is concerned that this response is contrary to the responsibility of the Office of Planning to address these broad issues statewide on a comprehensive planning basis.

In addition to the concerns and reservations set forth above, at the time of decision making, each voting member of your Committee expressed strong reservations over the nomination of Mr. Mayer for reasons which include but are not limited to:

- (1) The nominee did not exhibit a satisfactory familiarity with the governing statute of the Office of Planning chapter 225M, Hawaii Revised Statutes. Specifically, he did not satisfactorily establish that he understood the responsibility of the Office of Planning or the role of its Director;
- (2) The Office of Planning is considered to be one of the most important State agencies, especially in light of the current economic hardships being faced by the State, and as such it is imperative to have a qualified person appointed to lead the Office of Planning now and in the future;
- (3) The nominee's training and educational background is not related to the fields specified in section 225M-2, Hawaii Revised Statutes; and
- (4) Concern over the Administration not heeding the Legislature's desire to have a nominee with a solid planning background supported by a track record of many years of service and tenure in the State of Hawaii.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, and recommends with strong reservations that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 4 (Fukunaga, Hee, Kokubun, Tokuda). Noes, none. Excused, 1 (Whalen).

SCRep. 3339 Judiciary and Labor on H.B. No. 2139

The purpose of this measure is enact the Revised Uniform Anatomical Gift Act to conform to the 2006 Uniform Anatomical Gift Act law enacted in other states.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation, National Kidney Foundation of Hawaii, and Organ Donor Center of Hawaii. Comments were received from The Queen's Medical Center.

The State's current law on anatomical gifts was enacted by Act 267, Session Laws of Hawaii 1988, which is now superseded by an updated and revised 2006 Uniform Anatomical Gift Act, which is the foundation for successful organ donation throughout the United States. This measure provides an important update to reflect the current system of allocations of organs for transplantation and to help increase available organs and tissues for transplantation that will serve to save the lives of many individuals on organ donor waitlists.

Your Committee has amended this measure by:

- (1) Clarifying the role of the attending physician in making decisions concerning medical suitability of the part, on the recommendation of The Queen's Medical Center; and
- (2) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2139, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2139, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, none.

SCRep. 3340 Judiciary and Labor on H.B. No. 2224

The purpose of this measure is to increase accessibility to health insurance for self-employed individuals.

This measure:

- (1) Adds definitions, to be used when applying federal law, for "qualifying event" and "self-employed individual"; and
- (2) Provides that beginning September 1, 2008 and annually thereafter, all group health issuers shall offer small group health plans to self-employed individuals who live, work, or reside in the group health issuer's service area and upon specified conditions and requirements.

Your Committee received testimony in support of this measure from the State Insurance Commissioner, the Hawaii Association of Realtors, The Chamber of Commerce of Hawaii, and Kaiser Permanente.

This measure is intended to provide health insurance coverage to self-employed individuals. Sole proprietors are in an unusual situation. According to testimony of the State Insurance Commissioner, if self-employed individuals are incorporated, they can obtain health insurance under existing guaranteed issue requirements. If they are not incorporated, they cannot obtain such a policy. Yet, there is no significant difference in risk associated with the lack of incorporation that should bar the obtaining of health insurance. Therefore, this measure could significantly reduce the number of uninsured in the ranks of an estimated 12,000 sole proprietors.

Your Committee has amended this measure to clarify that the eligible self-employed individual must be "registered" or "licensed" by the Department of Commerce and Consumer Affairs.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2224, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2224, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Gabbard, Hee).

SCRep. 3341 Judiciary and Labor on H.B. No. 2436

The purpose of this measure is to strengthen the regulation and enforcement of fireworks by:

- (1) Adding a reference to the most recent citation to federal regulations for purposes of the definition of "display fireworks";
- (2) Clarifying the prohibitions on using fireworks without a permit;
- (3) Requiring a permit for the purchase or use of consumer fireworks or for cultural uses during specified times; and
- (4) Prohibiting the sale of fireworks or articles pyrotechnic by minors.

Your Committee received testimony in support of this measure from the State Fire Council and Kauai Fire Department.

Your Committee finds that it is desirable to require individuals who want to ignite consumer fireworks, including paperless firecrackers or any other type of novelty fireworks or firecrackers at other than statutory permissible times, to obtain a permit from the fire department for a fee of \$25.

The intent of the other provisions of this measure is to enhance the enforcement of fireworks prohibitions and to protect the public safety.

Your Committee has amended this measure by amending the title of section 132D-12, Hawaii Revised Statutes, to conform with the amendments to that section by adding "sale by minors".

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2436, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2436, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3342 Judiciary and Labor on H.B. No. 3173

The purpose of this measure is to authorize the Department of Land and Natural Resources to remove a grounded vessel under its control by any means necessary if the vessel is in imminent danger of breaking up or when the owner cannot remove the grounded vessel in a reasonably safe manner within seventy-two hours.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and Ocean Tourism Coalition.

This measure applies to all vessels grounded on state submerged lands, shorelines, and coral reefs. Current law requires the owner of the vessel to immediately remove that vessel at the owner's expense. The Department of Land and Natural Resources, for purposes of removal of the vessel, may assume control of the grounded vessel or a vessel that is in imminent danger of breaking up, and cannot be removed in a safe manner by the owner. This measure is intended to facilitate the removal.

The intent of this measure is to minimize the damage done to natural resources of Hawaii and to prevent navigational hazards.

Your Committee has amended this measure by:

- (1) Substituting removal by any means necessary with removal by conventional salvage methods, in the interests of specificity; and
- (2) Changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3173, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3173, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Gabbard).

SCRep. 3343 Judiciary and Labor on H.B. No. 94

The purpose of this measure is to establish consumer protections in life settlement contracts where the owner of a life insurance policy transfers the death benefit or any portion of the policy for compensation that is less than the expected death benefit, but more than the surrender value of the policy.

Your Committee received testimony in support of this measure from the Life Settlements Institute. Comments were received from the Department of Commerce and Consumer Affairs, the American Council of Life Insurers, and the National Association of Insurance and Financial Advisors.

This measure regulates life settlement contracts involving life insurance policies. A life settlement contract is a written agreement entered into between a provider and an owner establishing the terms under which compensation or any thing of value will be paid, and is less than the expected death benefit of the owner's policy or certificate, in return for the owner's assignment, transfer, sale, devise, or bequest of the death benefit or any portion of the policy or certificate for compensation where the minimum value of the contract is greater than a cash surrender value or accelerated death benefit available under the policy or certificate at the time of an application for a life settlement contract.

Your Committee finds that the potential for deception, misrepresentation, and loss of the full benefit of the value of the policy warrants a law to regulate these instruments in the interests of protecting consumers.

Your Committee has amended this measure by changing the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 94, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 94, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, none.

SCRep. 3344 (Majority) Ways and Means on H.B. No. 661

The purpose of this measure is to establish a comprehensive public funding pilot program for the Hawaii County Council elections of 2010, 2012, and 2014.

Your Committee received testimony in support of this measure from the Hawaii County Council, the Conservation Council for Hawaii, Life of the Land, the League of Women Voters of Hawaii, the Hawaii chapter of the Sierra Club, Voter Owned Hawaii, the Hawaii chapter of Americans for Democratic Action, and five concerned citizens. Testimony in opposition to the measure was received from the Campaign Spending Commission. Comments on the measure were received from the Office of Elections.

Your Committee finds that the campaign spending laws presently authorize partial public funding of elections. This measure will test the viability of comprehensive public funding of elections by limiting comprehensive public funding to a single county for three election years.

Your Committee has amended this measure by:

- (1) Incorporating changes recommended by the Campaign Spending Commission in order to clarify the intent or facilitate the implementation of the measure, remove redundant provisions or provisions that are inconsistent with the present elections law, and conform existing election laws to the measure;
- (2) Replacing the Office of Elections with the Hawaii County Clerk as the entity to certify that a candidate will be placed on the ballot in the general election;

- (3) Deleting the appropriations to the Campaign Spending Commission;
- (4) Changing the effective date of the measure to July 1, 2008, and clarifying that it shall be applicable beginning with the general election year of 2010, to ensure sufficient time for necessary preparations such as form development and training, and for a thorough review of the provisions herein and the making of any necessary modifications; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 661, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 661, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 2 (Hemmings, Whalen). Excused, 1 (English).

SCRep. 3345 Ways and Means on H.B. No. 2415

The purpose of this measure is to clarify the amounts of grants the High Technology Development Corporation may award to certain businesses.

Specifically, this measure allows the High Technology Development Corporation to grant:

- (1) Up to fifty per cent of the amount received by a business under a federal small business innovation research phase I award or contract rather than the lesser of that amount or a maximum of \$25,000; and
- (2) Up to fifty per cent of the amount received by a business under a federal small business technology transfer program award or contract rather than a maximum of \$25,000.

This measure repeals part IV of chapter 206M, Hawaii Revised Statutes, relating to the High Technology Innovation Corporation, and terminates any contractual obligations entered into by the High Technology Innovation Corporation upon repeal of chapter 206M. Finally, this measure appropriates \$200,000 for small business innovation research grants or small business technology transfer program grants.

Your Committee received testimony in support of this measure from the Hawaii Aquaculture Association. The Department of Business, Economic Development, and Tourism and the High Technology Development Corporation offered comments.

Upon further consideration, your Committee has amended this measure to change the appropriation amount of \$200,000 to an unspecified amount for the purpose of promoting further discussion. Your Committee has also made a technical nonsubstantive amendment to correct an erroneous reference to the repeal of the entirety of chapter 206M, Hawaii Revised Statutes, relating to the High Technology Development Corporation. The repeal should refer to only "part IV of" chapter 206M, Hawaii Revised Statutes, relating to the High Technology Innovation Corporation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2415, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2415, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3346 Ways and Means on H.B. No. 2965

The purpose of this measure is ensure the security of the agricultural water supply by authorizing emergency measures to be taken in response to damages caused by natural disasters.

Specifically, this measure authorizes the negotiation of agreements for the production of emergency power for agricultural water systems in the event of a disaster declared by the governor.

Testimony in support of this measure was submitted by the Department of Agriculture, Hawaii Farm Bureau Federation, Island Resources, Ltd., and two concerned individuals.

Your Committee finds that the security of the agricultural water supply is crucial to maintaining public health and well-being and ensuring the continued production of food and energy crops during an emergency. The Kiholo earthquake in 2006 caused significant damage to irrigation systems on Hawaii, and farmers and ranchers were forced to incur significant expense to provide power for backup irrigation pumps. Your Committee believes that this measure would allow agricultural producers to avoid similar hardships in the event of a future disaster and streamline their ability to continue production during an emergency.

Upon further consideration, your Committee has amended this measure by making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2965, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2965, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3347 Ways and Means on H.B. No. 1402

The purpose of this measure is to increase the ceiling on temporary exempt positions for the correctional industries program from forty-five to sixty-five.

Your Committee received testimony in support of the measure from the Department of Public Safety. Testimony in opposition to the measure was received from the Hawaii Government Employees Association.

Your Committee finds that an increased number of temporary exempt positions will enable the Department of Public Safety to more effectively overcome any temporary exigencies encountered in its administration of its correctional industries program.

Your Committee has amended this measure by changing the effective date from July 1, 2007 to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1402, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1402, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3348 Ways and Means on H.B. No. 2164

The purpose of this measure is to expand available revenue sources to support the Cancer Research Center of Hawaii.

More specifically, the measure:

- (1) Allows the special fund to be used for capital improvements; and
- (2) Requires that all other fees, charges, and other moneys received in conjunction with the programs of the Center and transfers from other accounts or funds, be deposited into the special fund.

The University of Hawaii System and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that the increasing number of cancer patients in Hawaii has amplified the need for expanded cancer research in Hawaii. While the cigarette tax will continue to be the primary source of funding for the Center, this measure will provide for additional revenue sources that are vital for the furtherance of cancer care and research in Hawaii.

Upon further consideration, your Committee has amended this measure by replacing the term "capital improvements" with "capital expenditures", which is the measure's original wording, to allow for greater flexibility in building and financing the new cancer research center facility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2164, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2164, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3349 (Majority) Ways and Means on H.B. No. 602

The purpose of this measure is to ensure funding to improve public school facilities.

More specifically, this measure extends the sunset date of Act 304, Session Laws of Hawaii 2006, from June 30, 2008, to June 30, 2012, to continue the required deposit in each fiscal year of \$90,000,000 into the state treasury, to the credit of the Educational Facilities Improvement Special Fund for public school capital improvement needs.

Testimony in support of the measure was submitted by the Department of Education. Testimony opposing the measure was submitted by the Department of Taxation and the Department of Budget and Finance. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that the educational facilities improvement special fund is used to plan, design, acquire land for, construct, and maintain public school facilities. Your Committee further finds that the sustained revenue commitment delivered by this measure would allow the Department of Education to address its backlog of repair and maintenance projects, thereby helping to ensure a quality public education for Hawaii's children.

Upon further consideration, your Committee has amended the measure by:

- (1) Clarifying in section 1 that the measure extends, rather than repeals, the sunset date of Act 304, Session Laws of Hawaii 2006; and
- (2) Changing the effective date of the measure to June 29, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 602, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 602, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Whalen). Excused, 1 (English).

SCRep. 3350 Ways and Means on H.B. No. 2429

The purpose of this measure is to require the University of Hawaii, with the assistance of other public and private sector entities involved in the development of west Oahu, to study the feasibility of constructing a new recreational stadium in west Oahu.

The measure requires the University of Hawaii to include in its study an assessment of the:

- (1) Optimal focus of a new recreational stadium;
- (2) Possible sites located in or near regional growth centers in the west Oahu region;
- (3) Funding and development options; and

(4) Alternative uses for the current Aloha Stadium facility and site.

The University of Hawaii may consult with various entities regarding the study, as appropriate and to consider and update as necessary the findings and recommendations of the December 2005 Aloha Stadium Planning Study Final Report. The University of Hawaii is to report findings and recommendations to the Legislature no later than twenty days prior to the convening of the regular session of 2009. Finally, this measure appropriates an unspecified amount for the study.

Your Committee received testimony in opposition to this measure from one individual. The University of Hawaii System offered comments.

Upon further consideration, your Committee has amended this measure to change the effective date to July 1, 2020 for the purpose of stimulating further discussion. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2429, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2429, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3351 Ways and Means on H.B. No. 2245

The purpose of this measure is to allow the University of Hawaii to use its funds, with limitations, to finance the establishment of new enterprises.

Specifically, this measure authorizes the transfer of all University of Hawaii funds, with the exception of general funds and tuition and fees special fund moneys, into the University of Hawaii commercial enterprises revolving fund to finance the establishment of new enterprises. This measure also provides that no more than ten per cent of tuition and fees special fund moneys may be loaned to the revolving fund to establish new enterprises.

Testimony in support of this measure was submitted by the University of Hawaii System.

Your Committee finds that this measure will allow the University of Hawaii to utilize more of the funds under its control to create new commercial enterprises that may serve to generate additional revenue for the university.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that revolving fund moneys may be used to finance the establishment of new commercial enterprises;
- (2) Making technical nonsubstantive amendments for the purposed of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2245, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2245, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3352 Ways and Means on H.B. No. 2687

The purpose of this measure is to require the Department of Land and Natural Resources to review certain of its administrative rules relating to aquatic life adopted after January 1, 2008.

Specifically, this measure requires the Department of Land and Natural Resources, in conjunction with a working group that represents the commercial fishing industry, recreational fishing community, and the scientific and academic community, to review administrative rules adopted by the Department pursuant to Chapters 187A and 188, Hawaii Revised Statutes, after January 1, 2008. The measure further requires the Department and the working group to determine and report on a variety of issues, including whether the rules are achieving their intended purposes, timeframes to achieve intended purposes, effects of the rules on the health of the resources, and effects of the rules on the general public and user groups.

Testimony in support of this measure was submitted by the Hawaii Tropical Fish Association and a concerned individual. Testimony opposed to this measure was submitted by the Department of Land and Natural Resources, the Nature Conservancy, and a concerned individual. Comments on this measure were submitted by Coral Fish Hawaii and Tropical Express Diving.

Your Committee finds that it is the primary responsibility of the Department of Land and Natural Resources to protect our limited natural resources. The rules adopted by the Department to carry out this responsibility should be balanced with ensuring the public's reasonable use of these resources, if such use or activity can be carried out without undue harm to the resources.

Your Committee also recognizes the concerns of the Department of Land and Natural Resources and others that the Department may not have the resources and capacity needed to carry out the broad review and reporting requirements found in this measure. Your Committee also notes that, while the establishment of a working group would assist the Department and provide stakeholder input, the narrowly defined membership criteria for the group may preclude many qualified people from participating and may ultimately damage the ability of the group to effectuate a meaningful review.

Accordingly, your Committee has amended this measure to establish more defined parameters for reviewing and reporting on the effectiveness of the administrative rules. Specifically, this measure has been amended by:

- (1) Identifying only the Department of Land and Natural Resources' recent lay gill net and bottomfish rules for present monitoring, analysis, and reporting to the Legislature;

- (2) Directing the Department to consult with relevant stakeholders including fishermen, Native Hawaiian practitioners, marine scientists, and conservation groups;
- (3) Directing the Department to incorporate a monitoring and evaluation component into any new regulations of fish stocks or fishing gear; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2687, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2687, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Tokuda). Noes, none. Excused, 1 (English).

SCRep. 3353 Ways and Means on H.B. No. 2843

The purpose of this measure is to expand the invasive species inspection, quarantine, and eradication service fee to include all freight imported into the State.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Hawaii County Council, the Conservation Council for Hawaii, the Maui County Farm Bureau, the Nature Conservancy, the Hawaii Food Industry Association, the Big Island Invasive Species Committee, and two individuals. The Airlines Committee of Hawaii submitted testimony in opposition to the measure. The Department of Land and Natural Resources, the Tax Foundation of Hawaii, Alexander and Baldwin, and the University of Hawaii Environmental Center submitted comments.

Your Committee finds that the ongoing battle to keep invasive species from entering the State is expensive but necessary to protect Hawaii from the adverse effects of these foreign pests. To help finance the State's efforts to protect against invasive species, this measure expands the invasive species inspection, quarantine, and eradication fee assessed on incoming container shipments, to include all incoming freight regardless of mode of transportation. The expanded fee will provide needed funds to ensure that the State is adequately protected against invasive species.

Your Committee has amended the measure by:

- (1) Specifying that the party responsible for paying the fee is the person paying the freight charges to a transportation company;
- (2) Clarifying that the transportation company is not liable for the fee in the event the party responsible for the fee fails to pay it; and
- (3) Making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2843, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2843, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3354 Ways and Means on H.B. No. 2872

The purpose of this measure is to allow the Department of Land and Natural Resources to auction public leased lands within the state park or forest reserve for recreation-residence use.

Your Committee received testimony in support of this measure from an individual. The Department of Land and Natural Resources opposed the measure.

Your Committee finds that currently, the Board of Land and Natural Resources leases public lands for recreation-residence use by direct negotiation. This measure expands the Board's leasing capability by allowing the Board to lease public lands for recreation-residence use by public auction. The measure also allows the Board to offer current lessees or permittees an opportunity to match a winning bid at auction and allows the Board to require bidders to be full-time residents.

Your Committee has amended the measure by substituting the reference to "domestic partners" with "reciprocal beneficiaries" since the State does not recognize domestic partnerships.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2872, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2872, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3355 Ways and Means on H.B. No. 2998

The purpose of this measure is to establish the Adam Walsh Act Compliance Working Group in conformance with the federal Adam Walsh Child Protection and Public Safety Act of 2006.

No testimony was submitted on this measure.

The federal Adam Walsh Child Protection and Public Safety Act of 2006 (Adam Walsh Act) requires each state to conform its laws by July 29, 2009, to Department of Justice guidelines for sex offender registration or face the loss of ten per cent of any federal funding the state may receive pursuant to the Edward Byrne Memorial Justice Assistance Grant Program. Your Committee finds that this measure will establish a working group to: determine, among other things, whether the additional costs of complying with the Adam

Walsh Act outweigh the funds that Hawaii will retain by complying; and review the Hawaii Revised Statutes and propose legislation as necessary to comply with the Adam Walsh Act.

Upon further consideration, your Committee has amended this measure by:

- (1) Requiring the Department of the Attorney General to convene the working group;
- (2) Deleting the appropriation section because the Department of the Attorney General should be able to provide the administrative, technical, and clerical support services necessary to assist the working group without additional funding;
- (3) Making the Act effective upon approval; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2998, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2998, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3356 Ways and Means on H.B. No. 2972

The purpose of this measure is to establish a process to provide for the timely construction, expansion, consolidation, or closure of public schools in Hawaii.

More specifically, the measure:

- (1) Establishes the Facilities Alignment Commission to develop appropriate criteria and make recommendations for areas for new school construction or school expansion, consolidation, or closure;
- (2) Establishes school alignment selection criteria;
- (3) Establishes procedures for making recommendations for school alignment; and
- (4) Establishes procedures for hearings and final recommendations by the Facilities Alignment Commission.

Testimony in support of the measure was submitted by the Department of Budget and Finance and the Chamber of Commerce of Hawaii. Testimony opposing the measure was received from the Department of Education.

Your Committee finds that changing demographics in Hawaii have left some public schools overburdened and others underused, thereby necessitating a need to revitalize school facilities statewide. Your Committee recognizes that public education tax dollars must be invested in a more efficient and effective manner, while also finding that school alignment decisions must be carefully examined and take into consideration the many interests involved, as well as the potential impacts on students, the community, the Department of Education, and the State as a whole.

Upon further consideration, your Committee has amended the measure by:

- (1) Narrowing the measure's scope to focus on only the consolidation or closure of underused public schools, rather than on their construction, expansion, consolidation, or closure;
- (2) Deleting certain duties of the Facilities Alignment Commission, including:
 - (a) Exploring funding mechanism alternatives for funds derived from the consolidation or closure of schools;
 - (b) Developing procedures or guidelines for executing memoranda of agreement or understanding; and
 - (c) Developing procedures or guidelines regarding boilerplate language associated with the sale or lease of certain school property;
- (3) Changing the deadline for the Department of Education's submission of a school facilities plan from December 31, 2008 to June 30, 2009;
- (4) Specifying the schools and complexes whose projected enrollment shall be used by the Department of Education to make an assessment for its school facilities plan;
- (5) Changing the deadline for the Commission's establishment of the school alignment selection criteria from December 31, 2008 to December 31, 2009;
- (6) Deleting the Facilities Alignment Commission's power to access records of the Department of Accounting and General Services;
- (7) Extending by one year the deadlines for submission of the Facilities Alignment Commission's preliminary and final recommendations; and
- (8) Changing the target date for implementation of the Commission's recommendations from the 2011-2012 school year to the 2012-2013 school year; and
- (9) Making technical, nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2972, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2972, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3357 Ways and Means on H.B. No. 3016

The purpose of this measure is to authorize law enforcement officers of the Department of Land and Natural Resources Division of Conservation and Resources Enforcement Program to use electric guns in discharging their duties.

Specifically, this measure exempts Division of Conservation and Resources Enforcement officers from the prohibition against possession of electric guns. It also clarifies that law enforcement officers of the Department of Public Safety are exempt from the prohibition, in recognition of transfer to the Department of Public Safety the functions and authority of sheriffs. The measure also requires the Department of Land and Natural Resources to maintain records regarding electric guns and report annually on their use. Finally, the measure appropriates funds to the Department of Land and Natural Resources to establish an accreditation or credentialing program, purchase the electric guns and related equipment, and to train the law enforcement officers.

Testimony in support of this measure was submitted by the Nature Conservancy of Hawaii. Testimony in opposition to this measure was submitted by the American Civil Liberties Union of Hawaii and a concerned citizen. Comments on this measure were submitted by the Department of Land and Natural Resources.

Your Committee finds that providing a less-than-lethal means to assist Conservation and Resources Enforcement Officers in the performance of their duties will help them successfully and safely protect the citizens of Hawaii and our natural resources. To ensure that electric guns are used as intended, this measure requires that the Department of Land and Natural Resources establish an accreditation and credentialing program for the use of electric guns by the Conservation and Resources Enforcement Officers.

Your Committee notes that accreditation or credentialing from a national program could be a very expensive and lengthy process. Your Committee also notes that it was the intent of the Committees on Public Safety and Water and Land to clarify that Narcotics Enforcement Investigators and Law Enforcement Officers in the sheriff's division of the Department of Public Safety also be authorized to possess electric guns. However, the actual language of Senate Draft 2 referred only to Law Enforcement Officers of the Department of Public Safety.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Department of Land and Natural Resources, prior to purchasing electric guns and related equipment, to obtain proficiency training in the use, handling, and storage of electric guns for Conservation and Resources Enforcement Officers from a certified trainer or training program used or offered by the county police departments for this purpose;
- (2) Clarifying that Narcotics Enforcement Investigators and Law Enforcement Officers in the sheriff's division of the Department of Public Safety are also authorized to possess electric guns; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3016, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3016, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3358 Ways and Means on H.B. No. 2710

The purpose of this measure is to authorize the State and county governments to hire retired state or county government employees under certain conditions.

This measure also ensures that the re-employed retirants who return to public employment will be able to continue to receive retirement benefits and health benefits without penalty but not be able to earn additional retirement system benefits for their re-employment.

Your Committee received testimony in support of this measure from the Judiciary, the Department of Education, the Department of Human Resources Development, the Mayor of the County of Kauai, the Fire Department of the County of Kauai, the Honolulu Fire Department, the Department of Personnel Services of the County of Maui, the Fire Department of the County of Hawaii, the Hawaii Government Employees Association, and the Hawaii Council of Mayors. Comments were received from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that this measure allows the State and county governments to recapture a source of skilled labor that was otherwise deemed lost to the private sector due to the present structure of the Employees' Retirement System law.

Your Committee has amended this measure to reconcile the possible conflict between allowing the retirant to continue receiving retirant health coverage under the Employer-Union Health Benefits Trust Fund and requiring health coverage of the retirant under the collective bargaining unit. Specifically, your Committee added a reference to chapter 89, relating to collective bargaining in public employment, to the laws that are exempted from applicability to this measure. Your Committee also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2710, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2710, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3359 Ways and Means on H.B. No. 2531

The purpose of this measure is to require the Department of Transportation to develop a West Maui transportation access plan, which can serve as a model for developing plans in other areas having similar problems, such as West Kauai, Wainee, and the Kealahou area.

Specifically, this measure creates a temporary West Maui transportation access plan working group within the Department of Transportation to develop and submit a plan to the Legislature prior to the regular session of 2009; designates the members of the working group; allows a consultant to be contracted to develop the plan; and appropriates an unspecified amount to develop the plan, including the hiring of a consultant.

The Department of Transportation submitted comments on this measure.

Your Committee notes that, because the road in question is a state-owned road, the Director of Transportation should work with the Mayor of Maui County to ensure that appropriate administrative support is provided to the working group.

Your Committee has amended this measure to correct the name of the Maui Visitors Bureau.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2531, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2531, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3360 Ways and Means on H.B. No. 2387

The purpose of this measure is to determine how best to fund independent medical examinations in workers' compensation cases.

Specifically, this measure establishes a thirteen-member working group on funding for workers' compensation independent medical examinations, to be placed under the Department of Labor and Industrial Relations for administrative purposes, to study and determine the alternative methods or combination of methods of paying impartial physicians to conduct medical examinations in workers' compensation cases. The working group is to report findings and recommendations, including suggested legislation, to the Legislature no later than twenty days prior to the convening of the regular session of 2009 and terminates on May 15, 2009.

The Department of Human Resources Development submitted testimony in opposition to this measure.

Your Committee finds that the efforts of the working group will prove valuable to the efficient and equitable conduct of the State's workers' compensation program.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2387, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2387, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3361 Ways and Means on H.B. No. 2978

The purpose of this measure is to require the University of Hawaii to prepare an annual incentive and performance report and plan for the Legislature.

This measure also appropriates funds for the University of Hawaii to hire an independent higher education finance expert as a consultant to assist in developing the incentive and performance report and plan.

Your Committee received comments on the measure from the University of Hawaii system and the University of Hawaii - Hilo.

Your Committee finds that fulfillment of the University's strategic plan and related state goals requires adequate and equitable funding of the various campuses of the University of Hawaii system over the long term.

Your Committee has amended this measure by:

- (1) Eliminating the requirement that the incentive and performance report and plan contain descriptions of proposals to be carried out at the program, department, campus, or system level;
- (2) Requiring the University of Hawaii to establish a task force to assist the University of Hawaii in developing a funding formula for the distribution of fiscal resources to the various University of Hawaii campuses;
- (3) Redirecting the role of the consultant from assisting with development of the incentive and performance report and plan to assisting the funding formula task force;
- (4) Changing the appropriation to an unspecified amount; and
- (5) Changing the effective date to July 1, 2080 to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2978, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2978, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3362 Ways and Means on H.B. No. 2971

The purpose of this measure is to expand online learning opportunities for students across the State, requiring the Department of Education to implement the recommendations of the Online Learning Task Force.

Testimony in support of the measure was submitted by the Office of Hawaiian Affairs.

Your Committee finds that online learning provides a flexible, alternative learning environment to help meet the needs of all student learners. The expanded use of online technology promises to increase the number of qualified teachers and to better reach our State's rural communities. Implementing the recommendations of the task force also promises to promote the twenty-first century skills valued in professional careers.

Your Committee notes that the Department of Education has advised that additional funding is not required to implement the recommendations of the Online Learning Task Force.

Upon further consideration, your Committee has amended this measure by inserting a sunset date of June 30, 2013.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2971, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2971, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3363 Ways and Means on H.B. No. 2672

The purpose of this measure is to repeal the cap on the permissible balance in the state parking revolving fund.

The Department of Accounting and General Services submitted comments on the measure.

Your Committee finds that the Comptroller is authorized to expend moneys from the state parking fund as necessary to defray the cost of paving parking areas; purchasing, installing, and operating parking meters; and controlling parking on state land within the Comptroller's jurisdiction. Currently, any moneys in excess of \$500,000 remaining on balance in the state parking fund on June 30 of each fiscal year lapses and is transferred to the state general fund on July 1 of each year. Your Committee further finds that the repeal of the cap will enable the Department of Accounting and General Services to address parking maintenance and operational needs in a timely manner.

Upon further consideration, your Committee has amended this measure by making it effective on July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2672, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2672, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3364 Ways and Means on H.B. No. 2521

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds for repair and maintenance projects at the University of Hawaii at Manoa;
- (2) Statutorily establish the Academy for Creative Media Program at the University of Hawaii; and
- (3) Repeal the mandate under Act 11, Special Session Laws of Hawaii 2007, to require the University of Hawaii to lease the public broadcasting facility and studio on its Manoa campus to PBS Hawaii for a term of not less than thirty-five years.

Your Committee received testimony in support of the measure from the University of Hawaii System.

Your Committee finds that the success of the Academy for Creative Media Program at the University of Hawaii has been achieved without a central facility or permanent home on any campus and without programmatic funding other than faculty salaries. Your Committee accordingly finds that the statutory establishment of the academy for creative media program within the University of Hawaii is an issue of statewide concern because the academy is an integral building component of the creative media industry in the State.

Your Committee has amended this measure by:

- (1) Deleting provisions authorizing the issuance of general obligation bonds to fund University of Hawaii repair and maintenance projects, as funding for this purpose is being considered within the context of the executive supplemental budget;
- (2) Changing the appropriation previously authorized under Act 11, Special Session Laws of Hawaii 2007, for fiscal year 2008-2009 for the academy of creative media program to an unspecified amount;
- (3) Correcting findings made under Act 11, Special Session Laws of Hawaii 2007, with regard to the academy for creative media program; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2521, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2521, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3365 Ways and Means on H.B. No. 2473

The purpose of this measure is to appropriate funds for fiscal year 2008-2009 to allow the Hawaii Broadband Task Force to continue its mission.

The Hawaii Broadband Task Force submitted testimony in support of this measure.

The Hawaii Broadband Task Force was established by Act 2, First Special Session Laws of Hawaii 2007, to remove barriers to broadband access and identify actions that will increase investment in and the availability of advanced broadband capabilities at more affordable costs. Your Committee finds that broadband networks and advanced communication services are essential for the State to keep pace with global changes in economic diversification, energy and environmental technology, healthcare, public safety, and education.

Your Committee has amended this measure by:

- (1) Changing the appropriation for fiscal year 2008-2009 to an unspecified amount; and
- (2) Making the Act effective on July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2473, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2473, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3366 (Majority) Ways and Means on H.B. No. 2045

The purpose of this measure is to establish a Global Youth Center at the University of Hawaii that will provide a unique opportunity for youth around the world to work together for a better future and create peaceful and sustainable communities worldwide.

Your Committee received testimony in support of this measure from the United Nations Association – USA Hawaii Division, the Global Youth Center Hawaii, the Connections Public Charter School, Ke Ea Hou, the North Hawaii Youth Coalition, World Youth Congress Series, the Children's Rights Council, the Global Youth Center, and four individuals.

Your Committee finds that the Global Youth Center will engage youth as active participants in planning their futures by enabling them to identify and address major global issues that include world peace, sustainability, and economic and human productivity. Participation in the Center will train future leaders who can communicate effectively and shape the issues that affect them. As a crossroads of the east and west, a Global Youth Center located in Hawaii would be ideally positioned to serve youth in Hawaii and youth around the world who seek to shape a more peaceful and healthier earth.

Your Committee has amended the measure by making technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2045, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2045, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (English).

SCRep. 3367 Ways and Means on H.B. No. 2271

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Castle Medical Center and its affiliates.

Your Committee received testimony in support of this measure from Castle Medical Center, the Hawaii Building and Construction Trades Council, AFL-CIO, and Healthcare Association of Hawaii.

Your Committee finds that Castle Medical Center and its affiliates are non-profit corporations that provide health care facilities to the general public. The bond proceeds will be used for equipment purchases and the construction and improvement of its health care facilities.

Your Committee has amended this measure by:

- (1) Inserting a bond authorization amount of \$30,000,000;
- (2) Inserting new language relating to the authorization to issue bonds for multiple projects; and
- (3) Changing the effective date from July 1, 2020, to July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2271, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2271, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3368 Ways and Means on H.B. No. 2272

The purpose of this measure is to replace the exemption from county civil service laws for contracts for personal services with private entities of limited duration and amount.

The new exemption would be for contracts for personal services with qualified community rehabilitation programs for custodial and ground maintenance services, and with an increased ceiling on the amount from \$750,000 to \$1,000,000.

This measure also requires the Department of Human Resources Development to provide annual reports to the Legislature on expenditures of qualified community rehabilitation programs and related activities.

Your Committee received testimony in support of this measure from Ka Lima O Maui. Testimony in opposition to this measure was received from the Department of Environmental Management and the Planning Department of the County of Hawaii and the Hawaii Government Employees Association. Comments on the measure were offered by the Department of Human Resources of the County of Hawaii and the Department of Personnel Services of the County of Maui.

Your Committee finds that contracts with qualified community rehabilitation programs for custodial and grounds maintenance services successfully enable severely disabled workers to achieve financial independence.

Your Committee has amended this measure by extending the present exemption for contracts for personal services with private entities for services of limited duration and amount to contracts with qualified community rehabilitation programs for building, custodial, and ground maintenance services that last no more than a year and cost no more than \$1,000,000. Your Committee has also amended this measure by changing the effective date to "upon approval".

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2272, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2272, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3369 Ways and Means on H.B. No. 2293

The purpose of this measure is to improve the operational flexibility of the Agribusiness Development Corporation to preserve valuable agricultural lands.

Specifically, this measure:

- (1) Authorizes the Agribusiness Development Corporation to:
 - (A) Purchase, accept, and maintain permanent conservation easements or transfer the easements to a qualified land trust;
 - (B) Contract with financial institutions to provide lease management services;
 - (C) Acquire agricultural lands for the protection of agricultural lands, public land banking, or the promotion of farm ownership and diversified agriculture by lump sum or installment purchase agreement, including lands on Oahu owned by the Galbraith Estate;
 - (D) With the approval of the Governor, issue revenue bonds to finance acquisition of the agricultural lands; and
 - (E) Lease the agricultural lands acquired pursuant to the proposed new section 163A, Hawaii Revised Statutes, for up to fifty-five years;
- (2) Authorizes the Department of Land and Natural Resources to exercise its power of eminent domain to acquire the lands on Oahu owned by the Galbraith Estate if the Agribusiness Development Corporation does reach an agreement for its purchase within a reasonable time; and
- (3) Appropriates funds out of the general revenues of the State to purchase the lands on Oahu owned by the Galbraith Estate.

The Agribusiness Development Corporation, Hawaii Farm Bureau Federation, Trust for Public Land, and one individual submitted testimony in support of this measure. The Department of Budget and Finance submitted comments.

Your Committee finds that this measure will further the State's responsibility under article XI, sections 3, 4, and 10 of the state constitution to, among other things, conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and assure the availability of agriculturally suitable lands.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying in section 7 of the measure that the Agribusiness Development Corporation is also authorized to issue revenue bonds, with the approval of the Governor, to acquire agricultural lands for the protection of agricultural lands, public land banking, or the promotion of farm ownership and diversified agriculture; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2293, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2293, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Kim, Hemmings).

SCRep. 3370 Ways and Means on H.B. No. 2881

The purpose of this measure is to make permanent the pilot perinatal clinic established at the University of Hawaii's John A. Burns School of Medicine.

The measure also appropriates an unspecified amount for the continued operation of the clinic.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawaii. The University of Hawaii offered comments.

Your Committee finds that the perinatal clinic at the University's Clinical Educational and Research Associate's Program provides comprehensive prenatal, delivery, and postpartum care and other services to women who have a history of methamphetamine and other substance abuse, including alcohol and tobacco abuse. The clinic's services reduce risks during pregnancy and increase positive birth outcomes.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2881, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2881, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3371 Ways and Means on H.B. No. 2196

The purpose of this measure is to create and amend a number of mandates concerning the Joint Legislative Committee on Family Caregiving.

Specifically, this measure:

- (1) Changes the name of the Joint Legislative Committee on Family Caregiving to the Joint Legislative Committee on Aging in Place (Committee);
- (2) Permits the Committee to explore issues of "aging in place" as they relate to family caregiving;
- (3) Requires the Hawaii Aging and Disability Resource Center to update the Committee regarding the development and implementation of the physical site for the center in the county of Hawaii and the virtual site for the center in the city and county of Honolulu;
- (4) Extends the Committee until June 30, 2009;
- (5) Requires the Committee to design a model cash and counseling program for non-Medicaid participants and permits the Committee to contract with a qualified consultant to assist the Committee;
- (6) Authorizes the Kupuna Care Program to offer emergency, overnight, and weekend respite services and provide grants for home modifications and family caregivers;
- (7) Establishes a Grandparents Raising Grandchildren Task Force to focus on that population's needs; and
- (8) Appropriates funds:
 - (A) For the Committee to design a model cash and counseling program for non-Medicaid participants;
 - (B) To expand the Kupuna Care Program and address its waitlist; and
 - (C) For the Executive Office on Aging, in collaboration with the University of Hawaii School of Social Work, to continue its inventory of respite services in Hawaii.

The Office of Hawaiian Affairs, State Council on Developmental Disabilities, Policy Advisory Board for Elder Affairs, AARP Hawaii, Healthcare Association of Hawaii, Catholic Charities of Hawaii, Hawaii Aging Advocates, National Multiple Sclerosis Society, Kookua Council, Project Dana, Waikiki Health Center, and two concerned individuals submitted testimony in support of this measure.

Your Committee finds that due to a shortage of care providers in Hawaii, family caregiving has become a critical element of the State's health and long-term care system. By 2020, more than one in four individuals in the State is expected to be sixty years old or older. The need for personal care assistance due to physical, sensory, cognitive, and self-care disabilities increases with age. As Hawaii's population ages, many more families will be providing higher levels of long-term care to frail and disabled older adults at home. Your Committee further finds that this measure helps to strengthen support for family caregivers.

Upon further consideration, your Committee has amended this measure by:

- (1) Specifying that the task force shall be convened by its co-chairs;
- (2) Clarifying that the head of each enumerated agency or organization shall designate its representative to the task force, except that the Executive Office on Aging shall appoint the individual who is a grandparent;
- (3) Changing the effective date of the measure to June 29, 2008; provided that sections 5, 8, 9, 10, and 14 shall take effect on July 1, 2008; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2196, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2196, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3372 Ways and Means on H.B. No. 2511

The purpose of this measure is to provide qualified rental assistance applicants under the rental assistance program up to one hundred eighty days to find a qualified rental unit.

Your Committee received testimony opposed to this measure from the Hawaii Public Housing Authority.

Your Committee believes that this measure may ease the burden and stress on persons in the rental assistance program by providing those who qualify for rental assistance with more time to find a qualified rental unit.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion on this issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2511, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2511, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3373 Ways and Means on H.B. No. 3059

The purpose of this measure is to increase the value of the low-income housing tax credit by reducing the credit period or the period over which the credit is taken from ten to five years.

The measure also increases the low-income housing tax credit from fifty to one hundred per cent of the applicable percentage of the qualified basis of housing projects.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, EAH Housing, and Castle and Cooke Hawaii. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that the low-income housing tax credit is an important financing tax incentive to encourage the construction of low-income housing projects. Currently, the low-income housing tax credit provides a dollar-for-dollar credit against an annual income tax liability over a ten-year period. Developers typically need to sell the tax credit to investors to finance housing projects. Because the tax credit is spread over ten years, investors that buy these tax credits demand substantial discounts to offset the present value of their upfront investment. By reducing the credit period from ten to five years, this measure significantly enhances the value of the tax credits by generating more equity to develop more affordable low-income housing within a shorter period of time.

Your Committee has amended the measure by making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3059, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3059, H.D. 1, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3374 Ways and Means on H.B. No. 3140

The purpose of this measure is to make an emergency general fund appropriation to the Hawaii Public Housing Authority for fiscal year 2007-2008.

Specifically, the emergency appropriation would be used to repay the Department of Budget and Finance for a loan to pay for liability insurance and payroll costs and to address budget deficits for certain public housing programs.

Testimony in support of the measure was submitted by the Hawaii Public Housing Authority.

Your Committee finds that the availability of affordable housing for Hawaii residents should not be stymied by the funding issues that this measure addresses. Your Committee further finds that new leadership at the Hawaii Public Housing Authority has demonstrated its commitment to making important changes at the agency, including returning the agency to firm fiscal footing, improving staff morale, improving tenant relations, and improving and expanding the public housing inventory.

Upon further consideration, your Committee has amended the measure by:

- (1) Lowering the amount of the emergency appropriation based upon the Housing Authority's updated financial data, which includes increased rental income and a higher federal operating subsidy;
- (2) Including greater detail about the planned allocations for the emergency appropriation; and
- (3) Making conforming amendments to delete references to programs for which funding is not allocated.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3140, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3140, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3375 Ways and Means on H.B. No. 3352

The purpose of this measure is to require the Auditor to perform a financial and management audit of the Hawaii Disability Rights Center.

More specifically, the measure amends section 23-5, Hawaii Revised Statutes, to require that the Auditor perform an audit of the Hawaii Disability Rights Center at least once every seven years. The measure also statutorily establishes the Auditor's power to examine and inspect the Center's records and documents.

Testimony in support of this measure was submitted by The Hawaii Down Syndrome Congress and four private individuals. Testimony opposing the measure was submitted by the Hawaii Disability Rights Center. Two private individuals submitted comments.

Your Committee finds that agencies expending state funds should be subject to review by the State. Your Committee notes that the current agency designated by law as Hawaii's Protection and Advocacy System to provide advocacy services to persons with developmental disabilities or mental illness, the Hawaii Disability Rights Center, has not been subject to state review or oversight in the thirty years since its designation. Your Committee further finds that an audit would ensure that the Protection and Advocacy System's use of public funds in Hawaii is appropriate, efficient, and in conformance with the expectations of the Legislature.

Upon further consideration, your Committee has amended this measure by:

- (1) Replacing references to the Hawaii Disability Rights Center with references to the entity or agency designated pursuant to section 333F-8.5, Hawaii Revised Statutes, to provide advocacy services, to ensure continuity if the Center changes its name in the future or is replaced by a successor agency;
- (2) Clarifying that the type of audit to be conducted by the Auditor is a financial and management audit; and
- (3) Making technical nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3352, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3352, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 2 (Hooser, Tsutsui). Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3376 Ways and Means on H.B. No. 3367

The purpose of this measure is to require the Auditor to conduct a financial and management audit of the Wireless Enhanced 911 Fund to ensure that the Fund is administered properly and effectively.

More specifically, as part of that audit, the Auditor is directed to determine whether the surcharge tax assessed to mobile phone customers for E911 emergency mobile phone services is sufficient to fund the Wireless Enhanced 911 Fund. This measure also decreases the surcharge on each mobile phone from \$0.66 to \$0.43 per month.

Your Committee finds that requiring the Auditor to conduct a financial and management audit of the Wireless Enhanced 911 Fund will help ensure that the purposes and intent of establishing the fund are fulfilled. Your Committee further finds that the amount of funds required to implement phases I and II of the wireless enhanced 911 services is less than originally forecasted, thereby warranting a reduction in the surcharge imposed on customers.

Upon further consideration, your Committee has amended the measure by changing two references to the surcharge imposed on customers for the Wireless Enhanced 911 Fund to clarify that the surcharge is not a tax.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3367, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3367, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3377 (Majority) Ways and Means on H.B. No. 2961

The purpose of this measure is to adopt changes to Hawaii's tax law that will allow Hawaii to participate in the Streamlined Sales and Use Tax Agreement.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, the Retail Merchants of Hawaii, and the Hawaii Science and Technology Council. Comments on this measure were submitted by the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee has amended this measure by allocating one hundred per cent of all new use tax revenues under the Streamlined Sales and Use Tax Agreement for facility and infrastructure needs of the Department of Education and the University of Hawaii for a period of five years, until 2015, subject to further evaluation and review of the effectiveness of the allocation of these revenues for education-related purposes.

Your Committee has also amended this bill by deleting the appropriation to the office of the Auditor, and requiring, instead, that the Department of Taxation provide support to the Streamlined Sales and Use Tax Agreement certification team established to work with the Department in petitioning for certification of Hawaii's compliance with the Agreement.

Finally, your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2961, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2961, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, 1 (Whalen). Excused, 3 (English, Menor, Hemmings).

SCRep. 3378 Commerce, Consumer Protection and Affordable Housing on H.B. No. 7

The purpose of this measure is to increase access to affordable prescription drugs by requiring the Governor to enter into a written agreement no later than January 1, 2009, that allows Hawaii residents to participate in the I-SaveRx prescription program by July 1, 2009.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the Policy Advisory Board for Elder Affairs; the Kokua Council; the ILWU, Local 142; and three private individuals. Testimony in opposition to this measure was submitted by the Department of Human Services, the Board of Pharmacy, and the Pharmaceutical Research and Manufacturers of America (PhRMA). The Department of the Attorney General submitted comments.

Your Committee finds that several states have joined forces in the successful I-SaveRx program that provides reduced prices on prescription medications from Europe and Canada. This measure would provide Hawaii residents with the choice to purchase medications through the I-SaveRx program, and would substantially benefit the elderly, uninsured, and underinsured who are most in need. However, your Committee recognizes the legal and safety concerns regarding this prescription drug program alternative, especially with respect to the how this program will be implemented in the absence of federal oversight and regulation by the Food & Drug Administration.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the I-SaveRx internet website shall expressly disclose to program participants that the prescription drugs offered through the program are from Europe and Canada, and that the State will not be liable for any injury or damage caused to a person from using a prescription drug obtained through the program;
- (2) Requiring the Department of Human Services to submit a written report to the Legislature prior to the 2011 Regular Session that indicates the status of the I-SaveRx program, any problems implementing the program, the effectiveness of any consumer outreach and educational programs regarding the I-SaveRx program, and any recommendations regarding the feasibility of continuing the I-SaveRx program on a permanent basis;
- (3) Adding a sunset date of June 30, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 7, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 7, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3379 (Joint) Commerce, Consumer Protection and Affordable Housing and Ways and Means on H.B. No. 2526

The purpose of this measure is to promote smart growth principles and sustainability by adding an objective in the State Plan to require that land development be in compliance with smart growth principles and by adopting the Hawaii 2050 Sustainability Plan.

Specifically, this measure:

- (1) Amends chapter 226, Hawaii Revised Statutes, by adding an objective to the State Plan that requires land development be in compliance with smart growth principles, and lists ten smart growth principles to guide land development;
- (2) Sets forth and adopts the Hawaii 2050 Sustainability Plan as a new chapter under title 13, Hawaii Revised Statutes;
- (3) Establishes a Sustainability Council to coordinate, implement, measure, and evaluate the progress of the Hawaii Sustainability Plan and its related activities; and
- (4) Makes a blank appropriation to the Office of the Auditor to expend for the creation of the Sustainability Council.

Testimony in support of this measure was submitted by The Chamber of Commerce of Hawaii and the Hawaii Association of Realtors. The Office of Planning, Department of Business, Economic Development, and Tourism submitted comments.

Your Committees find that given Hawaii's limited natural resources, the implementation of smart growth principles is crucial to the sustainability of the State. Smart growth principles are successful when government agencies make combined and coordinated systematic changes that are consistent with community planning and development, and land preservation.

Furthermore, to better define and implement state goals, objectives, policies, and priority guidelines, your Committees recognize that the Legislature enacted Act 8, Special Session Laws of Hawaii 2005, which created the Hawaii 2050 Sustainability Task Force to review the Hawaii State Plan and the State's planning process. The Hawaii 2050 Sustainability Plan provides a framework for addressing vital quality-of-life and public policy issues, including land and water use, energy, public infrastructure, economic development, transportation, education, the arts, and health, and provides strategies to meet the needs of Hawaii's residents now and in the future.

Developing the Sustainability Plan required a tremendous amount of time, energy, and resources, however, the members of the Task Force were committed to providing a plan that creates a sustainable vision for Hawaii. Extensive community engagement meetings were conducted statewide to allow an opportunity for the public to engage in the process of creating a sustainable future for Hawaii, and for the task force to gain insights from the public on their visions and hopes for the future. Thus, the Hawaii 2050 Sustainability Plan is the "People's Plan" as it incorporates the community's input and visions within its sustainability goals and objectives.

Your Committees further find that the Hawaii 2050 Sustainability Plan is an important tool and guiding force for the State and that community engagement is vital for the development, implementation, and longevity of the plan. Thus, it is important that the

combined efforts of the Task Force, government and private sectors, and the community in creating the Hawaii 2050 Sustainability Plan are recognized, set forth, and implemented.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2526, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 2526, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 16. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3380 (Joint) Commerce, Consumer Protection and Affordable Housing and Ways and Means on H.B. No. 2863

The purpose of this measure is to promote and encourage the development and use of renewable energy resources to create a more sustainable future for Hawaii by establishing a renewable energy siting process to expedite any applicable state and county permit processes that are necessary for the planning, development, and operation of a renewable energy facility.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; the Department of Health; Castle & Cooke Hawaii; Imperium Hawaii; and the Hawaii Renewable Energy Alliance. Testimony in opposition to this measure was submitted by the Sierra Club, Hawai'i Chapter; and one private individual. One private individual submitted comments.

Hawaii has an abundant supply of renewable energy resources such as solar, geothermal, wind, and wave that can be used to lower the State's dependence on fossil fuels to generate its energy needs. Your Committees find that, for many years, the existing state and county permitting process has been identified as one of the key barriers to the development of renewable energy projects in Hawaii. Establishing and implementing a means to assist both permitting agencies and project proponents by promoting permitting system efficiencies such as concurrent reviews and agency coordination will enable and encourage the development of renewable energy initiatives and projects in Hawaii.

Your Committees note the concerns regarding the lack of public input and participation from members of the community that will be affected by the development of a renewable energy facility in their community. Your Committees recognize that community sentiment and awareness are also key factors in the development of any new initiative or project that is proposed to be built in or near a community, and further find that opportunities for public engagement should be afforded and included in the plans for the development of a renewable energy facility.

Your Committees further note that H.B. No. 2505 (2008), as amended, will establish an Energy Security Special Fund into which will be deposited a portion of the State Environmental Response and Energy Security Tax on each barrel of petroleum product sold by a distributor to a retail dealer or end user. The moneys from the Energy Security Special Fund will be expended by the Department of Business, Economic Development, and Tourism for its energy programs, including projects that ensure dependable, efficient, and economical energy, promote energy self-sufficiency, and provide greater energy security for the State. Your Committees further find that the establishment of a renewable energy facility siting process falls under the purview of such energy programs and should be funded by using moneys from that special fund.

Accordingly, your Committees have amended this measure by:

- (1) Adding language that requires the Energy Resources Coordinator to hold a public meeting on the island in which the renewable energy facility will be built in order to:
 - (A) Allow members of the affected communities to provide input regarding the development of a renewable energy facility in or near their community;
 - (B) Promote public awareness of any plans for a renewable energy facility in the proposed area; and
 - (C) Allow the Energy Resources Coordinator, the renewable energy facility developer or applicant, and any applicable permitting agency to gain public sentiment and input regarding the proposed project and to include that information in the plans for the development of a renewable energy facility;
- (2) Expanding the duties of the Energy Resources Coordinator to include the coordination of public meetings on the island that a renewable energy facility is proposed to be developed;
- (3) Changing the source of funding for the establishment and operation of the renewable energy facility siting process from a general fund appropriation to the Energy Security Special Fund established under H.B. No. 2505 (2008), as amended and enacted;
- (4) Adding language that requires the Energy Resources Coordinator to deposit into the Energy Security Special Fund, established under H.B. No. 2505 (2008), as amended and enacted, any unencumbered fees collected from the applicant; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Affordable Housing and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2863, H.D. 2, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 2863, H.D. 2, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 18. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 1 (Ihara).

SCRep. 3381 Judiciary and Labor on H.B. No. 2347

The purpose of this measure is to clarify that any person who violates the law on requiring scrap dealers to obtain a license or the law on requiring scrap dealers to obtain a written statement from the seller, is guilty of a misdemeanor.

Your Committee received testimony in support of this measure from the State Attorney General and the Honolulu Prosecuting Attorney.

Current law may be read to require that both section 445-232 (scrap dealer licensing) and section 445-233 (written statement), Hawaii Revised Statutes, be violated before a penalty can be imposed for violation of either of them. This concern arises from the fact that the reference to these two sections in section 445-235, Hawaii Revised Statutes, is separated by the conjunctive "and" instead of the disjunctive "or." This measure remedies that ambiguity by changing the "and" to "or". In addition, this measure declares that it was never the Legislature's intent to require that both sections be violated before a penalty can be imposed for violation of either of them.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2347, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3382 Judiciary and Labor on H.B. No. 523

The purpose of this measure is to:

- (1) Establish guiding principles by which the Department of Human Services shall abide with respect to foster children; and
- (2) Authorize the family court to issue necessary orders, sua sponte or on motion of a guardian ad litem, to ensure adherence to these guiding principles.

Your Committee received testimony in support of this measure from the Department of Human Services and Legal Aid Society of Hawaii. Comments were received from the Judiciary.

Your Committee finds that this measure would give youth a voice and the ability to participate in significant decisions impacting their own lives in court hearings, meetings with their case workers, and transitional planning conferences. Your Committee further finds that this measure would promote the stability of foster placements, assist foster children in understanding the protections available to them when they enter foster custody, and help to improve the overall quality of life for foster children.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 523, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3383 Ways and Means on H.B. No. 2261

The purpose of this measure is to authorize the Department of Agriculture to offer a new class of loans in its agricultural loans and aquaculture loan programs.

Specifically, the new class of loans will cover either farm sustainable projects under the agricultural loans program or aquaculture sustainable projects under the aquaculture loan program. Sustainable projects are defined as projects that improve the operation's viability but are not directly tied to farm crop or aquaculture production, such as the generation of energy and power.

The loans shall not exceed a term of forty years and an amount that is the lesser of \$1,500,000 or eighty-five per cent of the project cost. For the agricultural loans, the simple interest rate on the unpaid principal balance will be three per cent a year. For the aquaculture loans, the simple interest rate on the unpaid principal balance will be set by rule.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau Federation, Hawaii Aquaculture Association, Hawaii Crop Improvement Association, and Hawaiian Electric Company.

Your Committee finds that this measure will encourage the agriculture and aquaculture industries to contribute to the production of alternative sources of energy for the consumers of this State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2261, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3384 Ways and Means on H.B. No. 3120

The purpose of this measure is to give the Board of Agriculture greater flexibility to contract with third parties for the use of animal quarantine property or facilities.

Specifically, this measure authorizes the Board of Agriculture to contract with third parties for the use or rental of animal quarantine property or facilities that are not required for use under the animal quarantine program without the need to lease or rent the property or facilities at fair market value.

Your Committee received testimony in support of this measure from the Department of Agriculture and the Hawaiian Humane Society.

Your Committee finds that this measure will allow the Department of Agriculture's animal quarantine program to more efficiently use nonessential animal quarantine facilities in an appropriate manner.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3120, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3385 Ways and Means on H.B. No. 3196

The purpose of this measure is to increase funds available to the state highway fund by adjusting the rental motor vehicle surcharge tax from \$2 per day to an unspecified amount.

The measure also requires the Department of Transportation to suggest additional revenue-generating initiatives to replenish the state highway fund.

Your Committee received testimony in support of this measure from the Department of Taxation and the Department of Transportation. Testimony in opposition to this measure was received from Catrala Hawaii, Hertz Corporation, National Car Rental, Enterprise, and Alamo Rent A Car. Comments on the measure were submitted by the Tax Foundation of Hawaii.

Your Committee finds that the rental motor vehicle surcharge tax is an important source of revenues for the state highway fund. The current \$3 a day rate yields approximately \$48,000,000 each year. Unless the present law is changed, the rental motor vehicle tax will revert from \$3 a day to \$2 a day effective September 1, 2008, causing an expected drop in revenues. This measure is therefore necessary to balance the need for an adequate source of revenues for the state highway fund with a tax rate that is fair and reasonable to the lessors who are the surcharge taxpayers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3196, H.D. 1, S.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Ayes with Reservations, 2 (Menor, Whalen). Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3386 Ways and Means on H.B. No. 2587

The purpose of this measure is to appropriate funds to support the establishment of creativity academies in the State.

More specifically, the measure will fund the cost of equipment, training, and hiring of instructors, as well as travel costs for student and instructor participation in competitions outside the State, as related to creativity academies.

Testimony in support of this measure was received from three instructors and a counselor at Kapiolani Community College, Ulua Media, and one private individual. The Department of Business, Economic Development, and Tourism and the Department of Education submitted comments.

Your Committee finds that creativity academies seek to integrate the teaching, learning, and use of science, technology, engineering, mathematics, and new media arts-related skills throughout Hawaii's public education system, all of which are important skills for the twenty-first century. Your Committee further finds that the intent of this initiative is to create a bridge from middle school to college to industry while building upon best practices and to benefit our students as well as our state economy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2587, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3387 Ways and Means on H.B. No. 2614

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Island Pacific Academy, Inc. in the planning, construction, improvement, and equipping of its educational facilities in Hawaii.

Island Pacific Academy, the Island Pacific Academy Parent Association, the Hawaii Association of Independent Schools, and two individuals submitted testimony in support of this measure.

Island Pacific Academy, Inc. is a not-for-profit corporation, and the first and largest independent school in West Oahu. Island Pacific Academy, Inc. requests special purpose revenue bonds in a total amount not to exceed \$30,000,000, in one or more series, to assist it in financing or refinancing the planning, construction, improvement, and equipping of its educational facilities. Your Committee finds that this constitutes a project as defined in part VIII, chapter 39A, Hawaii Revised Statutes, and that the issuance of special purpose revenue bonds for this purpose is in the public interest and for the public health, safety, and general welfare of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2614, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3388 Ways and Means on H.B. No. 3151

The purpose of this measure is to authorize specified environmental protection programs of the Department of Health to conduct business electronically and to deduct service provider fees or charges from the electronic or credit card payments made by applicants for departmental program approvals.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that the Department of Health is currently developing an electronic permitting and fee payment procedure in order to increase efficiency in permit processing. In order for this process to be successful, the Department requires legislative

approval to deduct processing and credit card fees from the permit fees paid electronically by the applicants. Without such approval, the Department will have no choice but to add a surcharge to the permit application fees that are paid electronically, and to pay the processing and credit card fees to the service providers from other program funds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3151, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3389 Ways and Means on H.B. No. 2283

The purpose of this measure is to regulate tattoo artists through registration rather than through licensure.

This measure replaces the present licensing provisions for tattoo artists with registration provisions and requires regulations to be reviewed annually.

Testimony in support of this measure was submitted by a concerned citizen. Comments on the measure were submitted by the Department of Health.

Your Committee finds that regulating tattoo artists through registration will enable the Department of Health to continue to protect the public health and allow monitoring of tattoo artists.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2283, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3390 Ways and Means on H.B. No. 2698

The purpose of this measure is to clarify the existing two-tier fee schedule for reasonable compensation paid by the Family Court to appointed counsel and guardian ad litem.

The Judiciary submitted testimony in support of this measure.

Act 218, Session Laws of Hawaii 2007, increased the hourly rate for appointed counsel and guardian ad litem to \$90 per hour for "legal services" and \$60 per hour for "non-legal services." Your Committee finds that this measure clarifies that the \$90 per hour rate was intended to apply to "in-court" time, which can be readily confirmed through minutes and other verifiable sources. This measure also clarifies that only an attorney who is licensed to practice in the State is entitled to the \$90 per hour rate for in-court services; all other services are reimbursed at the \$60 per hour rate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2698, H.D. 3, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3391 Ways and Means on H.B. No. 2772

The purpose of this measure is to combat and deter human trafficking.

Specifically, this measure:

- (1) Extends the Hawaii Anti-Trafficking Task Force to June 30, 2010;
- (2) Adds additional members to the task force;
- (3) Requires the task force to report to the Legislature no later than twenty days prior to the convening of the 2009 and 2010 Regular Sessions; and
- (4) Appropriates funds for the task force to carry out its activities pursuant to Act 260, Session Laws of Hawaii 2006.

The Honolulu Prosecuting Attorney, Sex Abuse Treatment Center, and Crime Victim Compensation Commission submitted testimony in support of this measure.

Human trafficking is a serious offense. The Hawaii Anti-Trafficking Task Force was established, among other things, to review other states' laws and recommend changes as necessary to Hawaii's law to prevent human trafficking and support victims of human trafficking. Your Committee finds that while the Hawaii Anti-Trafficking Task Force made significant progress towards its legislative mandate, more time is necessary for it to complete its analysis of the needs assessment and to draft proposed legislation to improve the provision of services to victims of human trafficking.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2772, H.D. 3, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3392 Ways and Means on H.B. No. 2009

The purpose of this measure is to repeal section 353-33, Hawaii Revised Statutes, which established the correctional program revolving fund to offset the cost of providing programs for inmates.

Testimony in support of this measure was submitted by the Department of Public Safety.

Your Committee finds that the Correctional Program Revolving Fund was closed in 1996 due to inactivity, and, accordingly, the section within the Hawaii Revised Statutes that addresses the fund and its operation should be repealed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2009, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3393 Ways and Means on H.B. No. 2685

The purpose of this measure is to manage the continued growth of Hawaii's inmate population.

Specifically, this measure directs the Department of Public Safety and the Department of Accounting and General Services to plan and design the construction and operation of a new minimum-security facility that either includes or is located at a site with appropriate access to courts, public transportation, drug rehabilitation centers, transitional or reintegration programs, and other support services similar to the facilities of the Honolulu Federal Detention Center.

The Department of Public Safety and Community Alliance on Prisons submitted testimony in opposition to this measure. One individual submitted comments.

Your Committee finds that the State contracts to house more than half of its prison population or approximately two thousand fifty-nine inmates at out-of-state correctional facilities. According to the Department of Public Safety's 2006 annual report, forty-eight per cent of male inmates and sixty-one per cent of female inmates are classified as minimum-security risk or are considered "community-custody." However, the State's only two minimum-security prisons often exceed operational capacity. Your Committee finds that this measure will help to manage the State's inmate population by directing the Department of Public Safety and the Department of Accounting and General Services to plan and design for the construction and operation of a new minimum-security facility here in Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2685, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3394 Ways and Means on H.B. No. 3197

The purpose of this measure is to appropriate \$21,253,032 from the state highway fund for operating and maintenance costs of the state highway system for fiscal year 2007-2008.

Your Committee received testimony in support of this measure from the Hawaii Transportation Association.

Your Committee finds that this emergency appropriation from the state highway fund is necessary to cover the rising costs of operating and maintaining the state highway system for fiscal year 2007-2008. The appropriation will ensure the continued safety of the public.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3197, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3395 Ways and Means on H.B. No. 2369

The purpose of this measure is to clarify the Legislature's intent to support the After-School Plus Program primarily through program user fees.

Specifically, the measure limits funds deposited into the After-School Plus Program Revolving Fund to only fees or charges for participation in the program and interest earned on revolving fund deposits. The measure also clarifies that the revolving fund is part of the state treasury.

Testimony in support of the measure was submitted by the Department of Education.

Your Committee finds that the Department of Education's After-School Plus Program provides a safe, secure and nurturing after-school environment for public elementary school children whose parents work, attend school, or participate in job training programs. Your Committee finds that under this measure, which disallows the deposit of general funds into the fund, the After-School Plus Program Revolving Fund will meet the criteria of a true revolving fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2369, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3396 (Joint) Agriculture and Hawaiian Affairs and Energy and Environment on H.B. No. 2502

The purpose of this measure is to make solar energy a permitted use in the agricultural district on Land Study Bureau "D" and "E" rated agricultural land.

Testimony in support of this measure was submitted by Dowling Company, Inc.; Castle and Cooke Hawai'i; The Chamber of Commerce of Hawaii; Sopogy, Inc.; University of Hawaii at Manoa College of Social Sciences Hawaii Energy Policy Forum; Sunpower Corporation Systems; The Pacific Resource Partnership; Hawaii Renewable Energy Alliance; and Land Use Research Foundation of Hawaii. Testimony in support of the intent of this measure was submitted by the Hawaii Farm Bureau Federation. The Department of Agriculture submitted testimony in support of this measure with a proposed amendment.

Your Committees find that renewable energy resources can greatly benefit Hawaii's economy, environment, energy security, and sustainability. The increased use of Hawaii's abundant renewable energy sources, such as wind, solar, ocean thermal, wave, and biomass resources is key to reducing Hawaii's green house gas emissions and contribution to global warming and will create new employment opportunities and economic diversification. Your Committees further find that allowing solar energy facilities to be built on marginal agricultural lands may have more beneficial effects for Hawaii's economy, environment, and energy security than leaving such lands unused.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2502, H.D. 2, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Hee, Ihara).

SCRep. 3397 Energy and Environment on H.B. No. 647

The purpose of this measure is to repeal section 196-18, Hawaii Revised Statutes, which establishes a Public-private Advisory Committee (Advisory Committee) that provides input on state energy management.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; and the Advisory Committee.

Your Committee finds that in its 2008 report to the Legislature, the Advisory Committee, recognizing the importance of energy policy and management, submitted twenty-five key recommendations addressing, among other things, energy use reduction, the enhancement of renewable energy use, and building design improvement. In this context, the Advisory Committee also addressed monitoring and audit design and implementation, the identification of funding needs, policy development, incentive programs for energy conservation, purchasing and energy-savings contract specifications, and building design specifications to optimize long-term energy efficiency and conservation for State facilities. These recommendations will serve as a framework in developing a sustainable future for the State of Hawaii.

Your Committee also finds that the rapidly changing global energy environment, by virtue of its tendency to present rapid and unpredictable challenges and opportunities, requires a capacity for flexibility in administrative response. The Department of Business, Economic Development, and Tourism currently has the authority to convene ad hoc discussion groups and committees to discuss and evaluate energy resource related issues and concerns.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 647, H.D. 2, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 3398 (Joint) Health and Energy and Environment on H.B. No. 3150

The purpose of this measure is to protect and preserve the public health and safety by ensuring that emergency responders and the Department of Health have complete and accurate information about the location and types of "extremely hazardous substances" at an emergency site.

Your Committees received testimony in support of this measure from the Department of Health, the County of Maui Department of Fire and Public Safety, the City and County of Honolulu- Honolulu Local Emergency Planning Committee, and the City and County of Honolulu Fire Department.

Your Committees find that in a number of instances facilities have misinterpreted the reporting requirements for hazardous substances and do not file the required chemical inventory form. This measure clarifies the reporting requirements and distinguishes between "hazardous substances" and "extremely hazardous substances."

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3150, H.D. 2, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, none.

SCRep. 3399 Commerce, Consumer Protection and Affordable Housing on H.B. No. 2894

The purpose of this measure is to ensure that planned community associations are able to effectively enforce assessments and restrictive covenants and to ensure that all property owners within planned communities and members of planned community associations are entitled to the rights and protections provided under the law relating to planned community associations, by making clarifying amendments to chapter 421J, Hawaii Revised Statutes.

Specifically, this measure amends chapter 421J, Hawaii Revised Statutes, by:

- (1) Adding a new section to establish a rule of interpretation that is similar to the rule of interpretation in the condominium law;
- (2) Adding a new section to allow non-condominium homeowner associations to restate their documents by board resolution and without an owner vote, which is similar to the procedures used by condominium associations to restate their documents;
- (3) Amending section 421J-2, Hawaii Revised Statutes, to clarify the definitions for "association", "declaration", and "planned community"; and

- (4) Amending section 421J-12, Hawaii Revised Statutes, to make it easier to amend the governing documents of non-condominium associations by permitting amendments to be made by written consent as well as by vote at a meeting, even if documents do not specifically permit a vote by written consent.

Testimony in support of this measure was submitted by the Hawaii Chapter of the Community Associations Institute, the Kaanapali Hillside Homeowners' Association, and two private individuals.

Your Committee finds that some planned communities and planned community associations that were created prior to the enactment of chapter 421J, Hawaii Revised Statutes, relating to planned community associations, may not be deemed as a planned community or a planned community association as currently defined. Thus, these property owners are not afforded the rights and protections provided under chapter 421J. Amending the law relating to planned community associations will ensure that planned community associations are able to effectively enforce assessments and restrictive covenants and will make available to these associations and the landowners of these communities the rights and protections provided under chapter 421J, Hawaii Revised Statutes.

Your Committee recognizes the concerns that amending the definitions for a planned community and the documents of a planned community may cause unintended consequences. However, your Committee notes that agreeable language has been proposed that meets the concerns of the parties involved.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "association documents" under section 421J-2, Hawaii Revised Statutes, to add language that includes the payment of money as a regular assessment as part of the association documents;
- (2) Amending the definition of "declaration" under section 421J-2, Hawaii Revised Statutes, to add language that clarifies that the declaration of the association means any recorded association document and excludes a mandatory payment of money as a regular annual assessment as this assessment will be included by the amendments to the definition of "association documents";
- (3) Amending the definition of "planned community" under section 421J, Hawaii Revised Statutes, to add language that includes real property, other than a condominium or a cooperative housing corporation or a time share plan, that is subject to a planned community association as defined under section 607-14, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2894, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2894, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 3400 Ways and Means on H.B. No. 2500

The purpose of this bill is to appropriate supplemental funds for the operating and capital improvement costs of the Executive Branch for fiscal year July 1, 2008, through June 30, 2009.

GENERAL OVERVIEW

Last session, your Committee crafted a budget reflecting our shared goals, principles, and priorities, and laid the groundwork for the creation of a sustainable Hawai'i, supporting strong families and communities, a healthy economy and environment, and a literate and competent workforce able to compete in the global marketplace. Acutely aware that Hawai'i's strong economic growth of the mid-2000's had begun to cool, however, your Committee noted that caution should be exercised when obligating the State to pay for new programs and positions (with their recurring costs) that are not absolutely essential. Your Committee's cautious approach was well-founded.

STATE OF THE ECONOMY

HAWAII'S ECONOMY HAS SLOWED

After strong economic growth in the mid-2000s — peaking with double-digit growth rates in fiscal year 2005 (16 per cent) and 2006 (10.9 per cent) — Hawai'i's economy slowed sharply in 2006 and 2007. In February 2008, a distinguished local economist commented that, "[a]ll indications now are for slower growth in Hawai'i's near future."

The Department of Business, Economic Development & Tourism, in its latest quarterly economic report, stated that "total visitor arrivals are now expected to decline 1.4 per cent in 2008, in contrast to a 1.0 per cent growth in the last forecast ... [s]imilarly, visitor days are now expected to decrease 1.5 per cent in 2008, as compared to 1.0 per cent increase earlier."

In the past week, Molokai Properties Limited (commonly known as Molokai Ranch) announced the shut down of its operations on Molokai, and Aloha Airlines announced the shut down of its passenger service on March 31, 2008, after 61 years of operation in Hawai'i. Furthermore, as noted by one of Hawai'i's daily newspapers on March 30, 2008, "Hawai'i mortgage delinquencies ratcheted up last year and show no indication of slowing this year as economic growth weakens, inflation remains strong and home values flatten."

Clearly, these are unsettled economic times. Hawai'i's economy has slowed substantially, and the State's budget must account for and reflect the economic slowdown.

COUNCIL ON REVENUES

At its March 12, 2008 meeting, the Council on Revenues lowered its January forecast of the general fund tax revenues for fiscal year 2007-2008 from 4.9 per cent to 3.9 per cent. The Council kept its January forecast for fiscal year 2008-2009 through fiscal year

2012-2013. Because those projected increases are from a smaller base, general fund revenues in each of those fiscal years are lower as well.

For fiscal year 2006-2007 through fiscal year 2008-2009, combined, based on the Council on Revenues' forecasts between March 2007 (the basis for the balanced budget passed by the Legislature last year) and March 2008, the budget has to account for a \$487,000,000 shortfall in actual and projected general fund revenues. In other words, between last year and this year, the State has nearly half-a-billion dollars less in general fund revenues to consider in its budget as it seeks to balance the many worthy, competing interests vying for State resources.

INFLATION

The Administration continues to claim that Hawaii's economy is growing, albeit more slowly. Spinning the economic growth issue this way does a disservice to Hawaii's people by creating the false impression that Hawaii's economy is growing in real dollars.

The truth is that inflation is eating up most, if not all, of Hawaii's increase in general fund revenues. In its latest quarterly report, Department of Business, Economic Development & Tourism stated that the Honolulu Consumer Price Index is expected to rise 4.0 per cent in 2008. Therefore, considering the Council on Revenues' projection of 3.9 per cent growth for fiscal year 2007-2008, Hawaii's real (inflation-adjusted) growth projection is closer to zero for the fiscal year.

Indeed, the effects of inflation are seen throughout the executive supplemental budget bill and in several emergency appropriation bills submitted by the Governor requesting supplemental funds to cover increased costs for energy, food, health care services, repair and maintenance, and other necessary goods and services.

As the state Comptroller acknowledged in testimony to your Committee, world oil prices have been steadily increasing, causing electricity rates to go up. However, even with that acknowledgment, the Administration continues to assume oil prices of \$70 a barrel in estimating and budgeting for energy costs, while in reality, oil prices are now over \$100 a barrel. The Administration's consistently low estimates for energy costs have resulted in *annual* requests for emergency appropriations to cover for actual costs. We expect that the Administration will *again* have to request emergency appropriations to cover actual energy costs next year. This is just one area where the Administration does not appear to have updated its financial plan. This creates a flawed picture of the true cost of government, as well as the resources required in future years.

Finally, your Committee takes heed of the University of Hawai'i Economic Research Organization's warning that, this year, "inflation will continue to be relatively high because of the recent sharp spike in oil prices and high food prices which will take some time to recede." With that admonishment, Hawaii's real growth is not in positive, but negative numbers for the near term.

NATIONAL ECONOMIC OUTLOOK

Growth of United States economic output (real gross domestic product) slowed to a meager 0.6 per cent annual rate in the final quarter of 2007, according to the "advance" estimate released by the United States Commerce Department on January 30, 2008. The weakest parts of the economy in the fourth quarter were sectors affected directly or indirectly by the national housing downturn.

Residential fixed investment fell at an annual rate of 23.9 per cent, the steepest decline yet in the two-year slide, and growth of personal consumption expenditures slowed to an annual pace of 2 per cent — presumably weighed down by loss of housing equity and related concerns.

The labor market also showed serious recent signs of weakness, largely because of job losses in residential construction and related areas (including housing finance).

The recent weakness of the gross domestic product, the labor market and the non-manufacturing sector, along with the systematic decline in the Conference Board's index of leading economic indicators since last fall, have stoked recession worries among financial market participants and policymakers in Washington, D.C.

The University of Hawai'i Economic Research Organization's March 21, 2008, forecast for the United States economy "implies a relatively mild recession by historical standards, but with a similarly restrained pace of economic recovery."

REVENUE PICTURE IN OTHER STATES

As of mid-March 2008, according to the Center on Budget and Policy Priorities, about half of the states are grappling with deep budget cuts and tax proposals to close revenue shortfalls.

- In California, lawmakers have made emergency cuts and authorized billions in bond sales to halve a deficit once projected at \$16 billion through June 2009. California lawmakers have already cut more than \$1 billion in payments to physicians caring for people who rely on the state for health care;
- Arizona must cut about \$1.8 billion or 16 per cent of its general fund budget; and
- New Jersey is grappling with a \$3.2 billion deficit, which is nearly 10 per cent of the state's general fund budget.

In short, the revenue picture in about half of the states is considerably worse than it is in Hawai'i. However, it would be wise to take note of their situations and be aware of the potential impacts on Hawai'i's economy. Given the added likelihood of a recession for the United States economy, it imperative that the State of Hawai'i exercise fiscal restraint.

SUPPLEMENTAL BUDGET HIGHLIGHTS

With substantially lower than projected general fund revenues on hand, your Committee sought to preserve and ensure essential health and safety funding in this supplemental budget. Your Committee also sought to preserve funding for critical education, workforce, and economic stimulus initiatives.

Regardless, it is necessary to make reductions to the Administration's supplemental budget request. Your Committee did this through a combination of denying requests, vacancy adjustments, and reduction of the departments' general fund non-fixed cost "discretionary" budget appropriations.

Regarding vacancy adjustments, your Committee considered positions that have been vacant since June 30, 2007, or longer. Your Committee did not eliminate any position counts, unless those position counts were trade-offs for new positions. Your Committee believes this approach will soften the reductions imposed on departments and allow departments to activate and fill those positions when economic times are more favorable. Your Committee further notes that funds were not taken from positions filled with eighty-nine-day hires.

Finally, your Committee reduced the departments' general fund discretionary funds an average of 4 per cent, with a range of 2.5 per cent to 5 per cent. In making those reductions, your Committee tried to take into account the ability of the individual departments to sustain the level of reduction imposed in this supplemental budget.

Health, Human Services, and Public Safety

Health

Your Committee remains fully committed to ensuring that essential health, safety, and education services remain a legislative priority.

To that end, your Committee provided funds to meet the statewide needs of the Emergency Medical Services (EMS) contracted ambulance services. Your Committee provided \$2,638,980 in general funds and \$2,027,743 in special funds for emergency medical services through contracting agencies on the islands of Oahu, Hawai'i, Kauai, Maui, Molokai, and Lanai. This level of funding ensures that the EMS's operational needs are met. Additionally, this funding provides an Emergency Medical Technician training stipend in accordance with Act 213, Session Laws of Hawai'i 2007, to ensure a continued supply of trained paramedics in Hawai'i.

Your Committee also supports the continuing development and operation of a comprehensive statewide trauma system and therefore provided two temporary positions and \$6,882,307 in special funds to increase the Trauma System Special Fund ceiling. Trauma is the leading cause of early disability and the loss of many productive years of life, costing Hawai'i too many lives and millions of dollars each year. These funds will help provide a systematic, comprehensive, and coordinated trauma system and will primarily assist hospitals that provide acute trauma care, while improving and expanding the delivery of trauma services on the neighbor islands.

Your Committee continues to support the State's mentally ill population and has provided the Department of Health's Adult Mental Health Division with \$10,000,000 in general funds for purchase of service contracts. These contracts will allow individuals to be diverted or discharged from the Hawai'i State Hospital and assist the State Hospital to better manage its census, while allowing the admission of individuals who are court-ordered to the hospital. Your Committee received a Governor's Message for additional program support at the Hawai'i State Hospital too late to be considered in this draft of the executive supplemental budget. However, your Committee is committed to improved working conditions and patient services at our State's inpatient mental health facility.

Your Committee also provided:

- \$1,224,206 in general funds and \$1,659,671 in interdepartmental transfer funds to provide for the increase in the number of qualifying Medicaid claims for individuals with developmental disabilities admitted to the Home and Community-Based Waiver Services, which will meet state matching requirements under federal Title XIX;
- \$100,000 in general funds for HIV prevention and care for those with HIV/AIDS, to preserve services in light of the impending loss of federal Ryan White funds;
- \$2,750,000 in federal funds to reflect the Hawai'i Access to Recovery grant awarded in September 2007 and to offer support services that are intended to reduce substance abuse among families;
- \$170,880 in special funds to increase the Domestic Violence and Sexual Assault Special Fund ceiling, which will expand statewide community-based prevention initiatives for domestic violence and sexual assault, including programs through the Hawai'i State Coalition Against Domestic Violence, the Expressive Arts Project, and development programs at the University of Hawai'i at Manoa, Women's Center; and
- One temporary position and \$483,333 in federal funds to establish a federal fund ceiling for the United States Department of Agriculture Food Emergency Response Network Cooperative Agreement, which will help mitigate threats to our food supply and provide support in response to any outbreak of threat agents.

Hawai'i Health Systems Corporation and Kahuku Hospital

Your Committee recognizes the importance of providing better healthcare for the people of Hawai'i through the support of rural acute and long term care facilities. The Hawai'i Health Systems Corporation hospitals face tremendous challenges with, among other things, federal and private reimbursement rates failing to keep pace with rising medical costs. To help maintain the current level of essential health care services by those hospitals, your Committee did *not* subject the Corporation hospitals to a 4 per cent reduction and instead provided an increase of \$5,000,000 in general funds for fiscal year 2008-2009. Your Committee does not believe that funds provided to safety net hospitals are discretionary. Your Committee recognizes that the increase is far short of the \$86,000,000 increase in supplemental funding requested by the Hawai'i Health Systems Corporation, but current economic conditions do not allow for more.

Human Services

Given the state of Hawaii's economy, it has become increasingly important to support the Department of Human Services in its effort to provide services to those most in need. Your Committee has provided \$4,300,000 in general funds for services at existing shelters and operating funds related to five new shelters scheduled to begin service in fiscal year 2008-2009.

To support the Department of Human Services' staff, your Committee has provided \$7,027,516 in federal funds to increase the federal fringe benefit ceiling in light of a higher federal fringe benefit rate. Your Committee also converted fifty-nine positions from temporary to permanent in order to improve recruitment and retention of staff.

For healthcare payments to offset new federal restrictions requiring states to impose a one-year uninsured period before a child can be eligible for coverage for the State Children's Health Insurance Program, your Committee has provided \$585,000 in general funds to ensure that Hawaii's children have continued coverage.

Finally, your Committee provided \$160,000 in special funds to expand domestic violence services. These funds will support projects to help ensure the safety and protection of domestic violence victims and their children by coordinating prevention and intervention services.

Temporary Assistance for Needy Families (TANF)

Your Committee is concerned about the unsustainable rate of expenditure of TANF funds and cash reserves proposed by the Department of Human Services. The expenditure plan proposed by the Administration for fiscal year 2008-2009 would spend all of the \$98.9 million in the TANF block grant and \$40 million of the cash reserve. At that rate of spending, by 2010 the TANF cash reserve would be gone, replaced by an \$18.5 million deficit. Therefore, your Committee pared back spending while providing for essential programs and preserving an adequate reserve. Your Committee reduced \$9.8 million in purchase of service contracts to reduce out-of-wedlock pregnancies and encourage the formation and maintenance of two-parent families, \$4 million for purchase of service contracts for child welfare, \$5.6 million in uncommitted funds to the Department, and \$7 million for work and work support programs. In your Committee's TANF expenditure plan, funding of \$19 million is still provided for work and work support programs, \$3 million for Enhanced Healthy Start on all islands (child welfare), and \$2.8 million for Uniting Peer Learning and Integrating New Knowledge (UPLINK), a highly effective positive youth development program for middle school students. Other TANF funds address after school hours programs for youth in various programs, work support programs, and family strengthening programs offered by various nonprofit organizations.

As a transition to a more prudent approach to TANF expenditures, especially in light of our current economic climate when TANF reserves may be needed for cash assistance, your Committee is spending \$17 million from the TANF reserve fund for those additional services. Unlike the Administration's plan, your Committee's approach will leave the TANF reserve with \$44 million in fiscal year 2008-2009 (or one year's worth of cash assistance payments).

Public Safety

Your Committee recognizes the impact of inflation on the provision of basic needs for our correctional facilities for both inmates and operational staff. Your Committee has, therefore, provided \$1,171,962 in general funds to address increasing costs for food supplies as well as repairs and maintenance. With respect to other basic needs of the inmate population, your Committee has also found it necessary to provide \$1,373,836 in general funds to cover increased costs associated with providing health care services.

Consistent with the goal of addressing essential safety concerns, your Committee has provided twelve permanent positions and \$267,001 in general funds to mitigate existing security shortfalls following the reorganization of the Hawai'i Community Correctional Center.

Your Committee also continued to address specific health concerns in correctional facilities by providing:

- Three permanent positions and \$155,690 in general funds for additional nursing staff;
- Twenty-one permanent positions and \$662,250 in general funds for additional mental health services staff; and
- \$191,499 in general funds for higher salaries to retain and recruit physicians and psychiatrists.

In addition, the State's correctional facilities must continue to address overcrowding issues. Your Committee has therefore provided:

- \$247,650 in general funds to establish an intensive outpatient program to expedite the release of moderate risk offenders who currently undergo a more extensive high risk offenders' program; and
- Two permanent positions and \$62,862 in general funds for the Inmate Classification Office to allow for more efficient prisoner transfer and placement.

Finally, your Committee has traded off \$745,584 in general funds from vacant Adult Correctional Officer positions to provide \$745,584 in general funds for overtime pay. Your Committee believes that this is a step towards addressing the existing overtime issues in correctional facilities with a more efficient and accurate approach. Your Committee expects the Department of Public Safety to account for and report the amount of overtime compensation and adopt strategies to reduce such expenditures.

Defense

The State Civil Defense Division has been at the forefront in responding to the needs of our State when man-made and natural disasters occur. State Civil Defense provides a vital service to the State by coordinating private and other public authorities, planning and mobilizing rapid response services and recovery efforts, and restoring essential public services.

To ensure the health, safety, and emergency disaster preparedness of the State, your Committee has provided 21.5 temporary positions, \$848,171 in general funds, and a \$308,537 increase in the federal fund ceiling. These appropriations should sustain around-the-clock disaster warning personnel, the logistics staff that maintains the emergency supply cache, and the October 2006 Kiholo Bay Disaster Recovery Efforts staff. Your Committee also provided four positions and \$26,682 in general funds to provide continuity in the area of earthquake planning, survivable crisis management, population protection and disaster mitigation.

Your Committee also recognizes the valuable service and contribution of the Hawai'i Civil Air Patrol to the emergency preparedness efforts of the State. Your Committee has provided an additional \$19,000 in general funds for aircraft maintenance, emergency power supplies and ground training.

Finally, your Committee notes its concern regarding the current condition of the veterans' cemeteries throughout the State and has appropriated \$170,329 in general funds to the Office of Veterans Services to provide burial vaults and soil to limit the incidence of sinking graves in veterans' cemeteries and repair sunken gravesites. Your Committee expects that the Office of Veterans Services, together with the neighbor island counties, will increase its efforts in addressing much needed repair and maintenance at veterans' cemeteries on the neighbor islands.

Education

Public Education

Education remains a high priority for the State and, to the extent possible, your Committee sought to preserve the funding for the education of Hawaii's children, despite decreased revenue projections. Your Committee has worked closely with the Department of Education to address the most urgent of the Department's supplemental budget requests.

To improve access to education for children of homeless families, your Committee has provided two positions and \$600,000 in general funds for the Homeless Concerns Resource Program to address homeless concerns on Hawai'i and Maui.

In addition, your Committee has provided \$1,594,788 in general funds for the Weighted Student Formula to increase the weight for transiency/mobility from 0.025 to 0.05.

Because of the increase in the number of public charter schools, your Committee found it necessary to increase support for children enrolled in charter schools. Your Committee has approved the transfer of \$2,631,412 in general funds from the Department of Education to public charter schools to reflect the transfer of students from the Department of Education schools to charter schools. In addition, your Committee has provided \$1,833,293 in general funds to support two new start-up charter schools, Kona Pacific on the Big Island and Kawaikini New Century Public Charter School on Kauai.

Your Committee also provided:

- 108 positions for services for children with autism, to move away from more expensive contracted services and to provide better continuity of services; and
- \$322,625 in general funds for the transfer of responsibility for the Teacher Housing Revolving Fund from the Department of Human Services to the Department of Education, and an additional \$700,000 in revolving funds to improve teacher housing units and provide positions for the program.

Finally, your Committee provided a total of \$76,971,044 in increased fixed costs as follows:

- \$62,687,846 in general funds to address the increase in the pension accumulation requirement;
- \$9,522,996 in general funds to address the increase in social security payments;
- \$2,964,749 in general funds for debt service payments to reflect a decrease in budgeted interest payments due to the deferral of a bond issuance; and
- \$1,795,453 in general funds to reflect fiscal year 2008-2009 health benefits premium rates and updated enrollment projections.

Higher Education

The University of Hawai'i system is the State's only public institution for higher learning. As such, it is imperative that the University of Hawai'i provide quality education to prepare students to meet the demands of Hawai'i's labor market.

Your Committee considered each of the Board of Regents' requests and tried to accommodate each campus's top priority. In addition to the appropriation of general funds, your Committee understands that the University of Hawai'i is anticipating an additional \$19 million in tuition and fees revenues every year until 2012. Therefore, your Committee has directed the University to use its increased revenues to offset the costs of some of its general funded requests.

Providing necessary educational resources is essential to delivering a quality education. Your Committee has provided the University of Hawai'i with 50.5 positions, \$1,915,800 in general funds, \$1,917,500 in special funds, and \$350,000 in revolving funds for various types of educational resources throughout the university system. These funds will provide students with additional classroom equipment, teaching assistants, computers, and technical equipment. Funding will also provide resources for distance education programs, articulation and transfer, the William S. Richardson Law School Library, the University of Hawai'i-Manoa Library, the Hyperbaric Treatment Center at the John A. Burns School of Medicine, the Hawaiian Knowledge Center for Hawaiian language at the University of Hawai'i-Manoa, and the University of Hawai'i-Manoa Center for Smart Building and Community Design.

In addition, your Committee wants to ensure that the University of Hawai'i-Manoa, as a major research institution, has access to quality information. To achieve this, your Committee provided eight positions and \$2,399,875 in general funds to maintain and improve library collections and services at Hamilton and Sinclair Libraries.

In light of recent national and local occurrences, it is clear that campus safety for University of Hawai'i's students, faculty, and staff must be improved. To that end, your Committee provided forty-one positions and \$2,957,486 in general funds for campus security throughout all University of Hawai'i campuses. In addition, your Committee authorized the use of \$75,000 in special funds for the University of Hawai'i-Manoa to hire additional students to assist Campus Security with patrol and escort responsibilities. To increase safety and visibility at night, your Committee provided \$200,000 in general funds, \$200,000 in special funds, and \$100,000 in

revolving funds for lighting fixtures throughout the University of Hawai'i-Manoa campus. Your Committee also provided \$182,500 in general funds for five Mauna Kea Rangers to help ensure the safety and security of visitors to Mauna Kea and provide first-aid to injured and sick individuals.

Quality student services are another important part of creating a positive academic environment. Your Committee understands the importance of accessible student services and provided the University of Hawai'i with eight positions, \$271,619 in general funds, and \$351,869 in special funds for such purposes. The appropriation includes resources for the Counseling and Student Development Center and the Children's Center at the University of Hawai'i Manoa, as well as resources for safety education and physical and mental health services at the University of Hawai'i-Hilo.

Your Committee also provided:

- A \$3,000,000 increase in the University of Hawai'i-Hilo special fund ceiling to address increased enrollment and expansion by enabling the campus to expend funds for instructional purposes as well as student housing and auxiliary services;
- \$1,142,080 in special funds for Women Scholarships for Title IX compliance at the University of Hawai'i-Manoa; and
- \$85,000 in general funds for the Aquarium to replace a well water sump cover and install service scaffolding and railings that are required by the Hawai'i Occupational Safety and Health Law.

Finally, your Committee provided a total of \$18,401,650 in increased fixed costs as follows:

- \$16,154,285 in general funds to address the increase in pension accumulation requirement; and
- \$2,247,365 in general funds to address the increase in social security payments.

Environment

Land and Natural Resources

Your Committee recognizes the importance of safeguarding Hawaii's precious natural resources and seeks to supplement the Department of Land and Natural Resources' budget with the necessary funds to adequately protect and maintain Hawaii's lands and wildlife.

A major concern of your Committee is the protection of the State's natural area reserves, not only for the benefit and enjoyment of the people of Hawai'i, but also for future generations. To carry out this objective, your Committee has provided the Department with a \$2,000,000 ceiling increase in the Natural Area Reserves Special Fund for the Management of Natural Area Reserves, Watershed Partnerships Related Projects, Natural Area Partnerships, and the Youth Conservation Corps.

Maintaining Hawaii's image as a beautiful destination is vital to Hawaii's tourism industry. Your Committee encourages the sustainable use of Hawaii's natural resources to support tourism and Hawaii's economy and has approved a \$900,000 ceiling increase in the Park Development and Operation Fund for the expenditure of annually deposited funds from the Hawai'i Tourism Authority to support various projects. In addition, your Committee has approved a transfer of \$1,000,000 in interdepartmental transfer funds from the Hawai'i Tourism Authority for the purpose of beach restoration.

Your Committee finds that illegal activities, including drug activities, vandalism, assault, drinking, and theft at various state parks and small boat harbors are exacerbated by the Department's limited staffing. To aid the Department's enforcement capabilities, your Committee finds that additional conservation and resources enforcement officers are needed. Therefore, your Committee provided eleven additional enforcement officers and four clerical support positions statewide and \$167,160 in general funds and \$420,432 in special funds.

Hawaii's rich cultural resources and unique ecosystems are constantly besieged by invasive species and public overuse. To prevent further degradation and disappearance of the State's fragile environment, your Committee provided \$400,000 in general funds to support the fight against the coqui frog infestation in Hawai'i, Maui, and Kauai counties. Another area of concern is Hawaii's aquatic resources. Your Committee provided \$1,052,500 in federal funds for the monitoring, management, and surveying of aquatic resources, including coral reefs and bottom fisheries, as well as management of the Humpback Whale Sanctuary and studies related to the Northwestern Hawaiian Island Marine National Monument.

Finally, your Committee is concerned with the protection of endangered species. The State is currently in violation of the federal Endangered Species Act with regard to the Hawaiian monk seal population. Beginning in March 2009, four positions in the Division of Aquatics Resources Sanctuary Program will lose federal funding. Your Committee finds that these positions are vital to the protection of both the monk seal population and the turtle population and has therefore provided \$97,780 in general funds to sustain these positions.

Agriculture

The State has taken various initiatives to combat invasive species in the past few years. However, with numerous shipping vessels coming to and from our islands to transport goods and basic everyday needs, the threat to our environment is still present. Act 9, Special Session 2007, established a user fee for the inspection of sea containers bound for Hawai'i that may also be carrying pests. Your Committee has provided a \$565,464 special fund ceiling to meet state mandates to conduct harbor inspection programs and early detection and rapid response activities against invasive species.

The Department of Agriculture carries out programs to conserve, develop and utilize the agricultural resources and infrastructure of the State. As the Department's agricultural and non-agricultural park programs continue to experience substantial growth, there is a need to closely monitor these programs. Your Committee has provided two positions and \$140,162 in special funds to manage agricultural and non-agricultural park lands in the State.

CommerceBusiness, Economic Development, and Tourism

Your Committee recognizes the importance of continuing to provide funds to support the economic development of Hawai'i. Your Committee has therefore provided \$2,000,000 in special funds to increase the spending ceiling of the Convention Center Enterprise Special Fund to accommodate new business opportunities for the Convention Center.

Regarding the Office of Aerospace Development, your Committee notes the importance and potential for growth of the aerospace industry in Hawai'i and has provided \$130,000 in general funds for further development of the industry.

Your Committee also notes that it is crucial for the High Technology Development Corporation to continue to provide support for Hawai'i companies that have been awarded the Small Business Innovation Research or Small Business Technology Transfer grants. Your Committee has therefore provided \$100,001 in general funds to provide matching grants for the companies to remain competitive on a national scale.

Finally, your Committee also provided:

- \$1,978,587 in federal funds for the Brownsfields Cleanup Revolving Loan Fund to offer financing for developers to remediate and redevelop environmentally impaired properties;
- \$6,090,625 in special funds to increase the spending ceiling of the Hydrogen Investment Capital Special Fund to a total of \$8,700,000 for fiscal year 2008-2009 (in accordance with a contract with Kolohala Holdings LLP); and
- \$8,000,000 in trust funds to increase the ceiling of the Rental Housing Trust Fund so that it may continue to provide a reliable opportunity of financing for developers of affordable housing units.

Commerce and Consumer Affairs

The major functions of the Department of Commerce and Consumer Affairs are to develop standards relating to the licensing and general supervision of various industries; issue professional licenses; represent, protect, and advance the interests of consumers; coordinate consumer protection activities, conduct investigations, and research and enforce laws and rules; and provide consumer education services and programs.

Your Committee applauds the Department for meeting its mandate without using general funds. To further support its goal, your Committee has provided four permanent positions and one temporary position and a \$299,881 increase in special fund ceilings to continue its licensing and regulation activities and services.

Your Committee also appropriated \$1,115,000 in special funds for actuarial services to conduct examinations of domestic insurers and \$355,000 in special funds for contracted actuarial services for required statutory examinations of captive insurance companies to ensure transparency in Hawai'i's insurance industry.

Finally, your Committee provided \$65,000 in special funds to the Department to allow continued funding of the Economic Cadre Program. The program aims to train selected teachers to promote and advocate the integration of economics into the school community.

Labor and Industrial Relations

Your Committee finds that there is a delay before workers' compensation cases can be brought to trial, primarily because of the number of appeals being filed annually. This delay is problematic for time-sensitive cases, such as treatment plan denial cases in which workers cannot receive treatment until a decision on their case is made. To help ensure prompt decisions on such cases, your Committee provided the Labor and Industrial Relations Appeals Board with an additional \$65,000 in general funds for a hearings officer to expedite hearings on workers' compensation treatment plan issues, vocational rehabilitation issues, and temporary total disability issues.

Your Committee recognizes the success of the Office of Community Services in providing employment core services to the disadvantaged. To enable the Office of Community Services to expand employment core services and service Compacts of Free Association clients, your Committee provided \$1,200,000 in interdepartmental transfer funds for these purposes.

Transportation

The continued safety and operation of state harbors, through which most of Hawai'i's goods and necessities enter the State, is critical. To that end, your Committee provided:

- \$241,860 in special funds and \$725,579 in federal funds to fund harbor security projects; and
- \$500,000 in special funds for engineering and architectural services to inspect and evaluate the structural integrity of harbor facilities.

Your Committee also provided a total of \$14,711,000 in special funds for the maintenance of various state highways and roads as well as training crews to manage storm water systems.

Other Department HighlightsBudget and Finance

In fiscal year 2005, the Employees' Retirement System began implementation of the new Pension Management Information System and will continue rollout of major functionalities in fiscal year 2008-2009. Your Committee appreciates the need for continued support of the new Pension Management Information System, and its ability to provide services in a more timely manner to an increasing

customer base of 106,000 members, retirees, and beneficiaries. To aid and assist the Employees' Retirement System and new Pension Management Information System, your Committee is providing \$2,000,000 in other funds to assist the conversion efforts of hybrid plan members with noncontributory service to hybrid service; \$500,000 in other funds to replace computer systems that are nearly twenty years old, enable other technological improvements, and provide maintenance; \$250,000 in other funds for overtime expenses for increased workload requirements; and sixteen positions.

Your Committee acknowledges the vital role of the Hawai'i Employer-Union Health Benefits Trust Fund, which provides affordable health and other benefit plans to state and county employees and retirees. The Employer-Union Health Benefits Trust Fund does not have the in-house expertise necessary to invest its funds in the best interest of the plans' participants and beneficiaries. Your Committee is providing \$300,000 for investment consultant services to effectively manage and optimize fund performance.

Your Committee strongly believes in providing adequate legal services to indigent persons charged with criminal offenses. The average misdemeanor/felony caseload per deputy public defender in the Kona Branch of the Office of the Public Defender far exceeds national caseload benchmarks. Population growth and the upcoming change in assignment of criminal cases in the South Kohala and Kau districts will further increase workload in the Kona office. To effectively process these additional cases and avoid potential excess costs of private counsel, your Committee is establishing a Deputy Public Defender III position for the Kona branch of the Office of the Public Defender and providing \$57,500 in general funds.

The use of renewable electrical energy is important to Hawaii's environment and economic landscape. Section 269-95, Hawaii Revised Statutes, states that the Public Utilities Commission shall contract with the Hawai'i Natural Energy Institute for studies regarding renewable portfolio standards. Your Committee provided \$500,000 in special funds for this important research initiative.

Accounting and General Services

Your Committee recognizes the Department of Accounting and General Service's role in ensuring the timely and accurate recording and accounting of all state financial transactions. Your Committee has provided \$90,000 in general funds to cover additional costs of actuarial valuations of post-employment health benefits plans to meet the reporting standards issued by the Government Accounting Standards Board.

As previously noted, the price per barrel of oil has been rising steadily, resulting in higher than anticipated energy consumption costs. Consequently, your Committee has provided \$694,600 in general funds to enable the Department to pay for increases in electricity costs. In addition, your Committee believes that steps must be taken to efficiently manage our energy resources in the face of external economic factors. Your Committee provided \$400,000 in revolving funds to install energy efficient ballasts and bulbs in various state parking lots.

Your Committee acknowledges that the University of Hawaii's successful football season brought much attention to the condition of the Aloha Stadium. The long-time venue for various sporting and spectator events suffers from wear and tear brought on by time, natural elements and abuse. Your Committee has provided \$803,100 in special funds to cover various operational and utility expenses and to continue funding the stadium's multi-year seat replacement project to safeguard spectator health and safety. Your Committee has also provided \$117,671 in special funds to cover pay adjustments of part-time intermittent workers who are integral to the stadium's operation and safety.

Attorney General

The illegal drug activity involving methamphetamine or "ice" is a serious problem in the State. Act 63, Session Laws of Hawai'i 2003, created the Drug Nuisance Abatement Unit in an effort to prosecute violators of drug nuisance abatement laws. Since its inception in 2003, the unit has had tremendous success in closing down drug houses and disrupting the distribution and manufacture of drugs. Because of the unit's success, Act 180, Session Laws of Hawai'i 2007, provided the unit with funding for additional personnel to maximize the unit's performance and increase the number of drug house closings. However, this funding was only provided in fiscal year 2007-2008. To continue the Drug Nuisance Abatement Unit's efforts to address illegal drug activity, your Committee maintained this increased funding and provided the unit with 2.5 permanent positions and \$141,875 in general funds.

In addition, your Committee provided \$91,015 in federal funds for the Coverdell Grant which enables the Narcotics Enforcement Division to develop, maintain, and improve their capacity for forensic drug analysis. The Coverdell Grant also supports county forensic laboratories.

Your Committee also provided:

- In recognition of the importance of having updated and accurate information on sex offenders, 5.28 positions and \$193,675 in general funds for additional enforcement of Sex Offender Registration requirements;
- Two positions, \$20,931 in general funds, and \$56,881 in federal funds to the Child Support and Enforcement Agency to process a backlog of cases; and
- Two positions and \$98,394 in interdepartmental transfer funds to provide legal services to the Hawai'i State Hospital and the Hawai'i Housing Finance and Development Corporation.

Grants-in-Aid

Hawaii's grant-in-aid program under chapter 42F, Hawaii Revised Statutes, provides critical funding to nonprofit organizations that provide important services in the community. Your Committee is mindful that millions of dollars appropriated for grant-in-aid applicants in fiscal year 2007-2008 have not been released. However, many of these nonprofit organizations provide necessary services throughout Hawai'i efficiently and at a lower cost.

This legislative session, \$47 million in operating grants-in-aid and \$110 million in capital improvement grants-in-aid were requested. The vast majority of the applications came from worthy organizations in sincere need of support to sustain valuable programs for their constituents and our community. Understanding the State's budgetary constraints, your Committee provided \$4.3

million for operating grants-in-aid (less than 10 per cent of what was requested) and \$9.8 million in capital improvement project grants-in-aid (8 per cent of what was requested).

CAPITAL IMPROVEMENT PROGRAM HIGHLIGHTS

Mindful of the slowing in the State's economic growth and aware of important infrastructure needs, your Committee has approached capital investment with due regard for the State's fiscal uncertainty but acknowledging the role such investment can play to spur economic growth. While some would cut back on public investment when economic projections are less than optimistic your Committee finds that such times require sustained investment in the education, transportation, and health infrastructure projects that are vitally important to regaining sustained fiscal growth. Capital investment should be the engine of recovery rather than a casualty of a slowed economy.

Education Capital Improvement Projects

The Governor's proposed supplemental budget included a total of \$180,000,000 in capital improvement project funding for the Department of Education for fiscal year 2008-2009. Only \$40,000,000 of this was new funding; \$140,000,000 of the Governor's request was conversion of previously appropriated general funds to general obligation bonds. Your Committee finds that to be an inadequate response to the deteriorating infrastructure facing public schools today. Your Committee's supplemental budget provides \$373,975,000 in special funds for public schools for fiscal year 2008-2009. Included in that amount is an appropriation of \$49,020,000 for statewide cesspool removal to avoid federal Environmental Protection Agency sanctions. Also included is a total of \$192,461,000 in lump sum appropriations for classroom renovations and school building improvements. In addition to the new funding for schools, your Committee has reauthorized the Department of Budget and Finance to expend \$230,400,000 in previous appropriations for the State Educational Facilities Improvement special fund that were set to lapse on June 30, 2008.

Your Committee has taken note of the alarming state of some facilities within the University of Hawai'i system and provided \$106,395,000 in general obligation bond funds and \$17,883,000 in revenue bond funds for a total of \$124,278,000 for fiscal year 2008-2009 for renovations and repair and maintenance of the University's physical assets. Included are \$10,168,000 for renovation of Gartley Hall at the Manoa campus, and \$16,200,000 for the Hawai'i Community College Manono campus and the West Hawai'i Education Center. In addition, your Committee provided \$10,395,000 in general obligation bond funds for a new classroom building at the Waianae Education Center.

Transportation Capital Improvement Projects

An efficient system of harbors and airports is vital to the flow of people and goods to, from, and within Hawai'i. Your Committee has provided \$124,375,000 in revenue bond funding for the Department of Transportation's Harbor Modernization Plan for fiscal year 2008-2009. New funding of \$250,122,000 in general obligation bonds and \$14,478,000 in other federal funds are provided for airports modernization and maintenance statewide--bringing the total authorization for airports in fiscal year 2008-2009 to \$306,869,000.

Energy Efficiency

Your Committee recognizes that energy efficiency is an investment that pays for itself, and to that end has increased energy conservation and efficiency appropriations by \$8,750,000 in general obligation bond funds for fiscal year 2008-2009.

Housing Capital Improvement Projects

The lack of affordable housing and the resulting homeless problem are major concerns of your Committee. Appropriations to address these issues include a total infusion of \$30,000,000 in general obligation bond funds into the Rental Housing Trust Fund and the Dwelling Unit Revolving Fund to finance additional affordable housing. Your Committee also provided \$10,000,000 in general obligation bond funds for a new facility for the homeless on Oahu, \$6,000,000 in general obligation bond funds for the Kaloko Housing Program in West Hawai'i, and \$26,000,000 to complete the purchase of Kukui Gardens.

Health Capital Improvement Projects

Your Committee provided \$36,182,000 in general obligation bond funds for improvements to facilities within the Hawai'i Health Systems Corporation, and an additional \$6,406,000 in general obligation bond funds for the Hawai'i State Hospital.

Conclusion

Given substantially lower than projected general fund growth for fiscal year 2007-2008, your Committee has crafted an honest, responsible and sustainable supplemental budget. This budget does not create false impressions, and should not give rise to false expectations.

In total (all sources of funding), this supplemental budget appropriates \$10,773,849,714 in fiscal year 2008-2009. Specifically regarding general fund appropriations, this budget appropriates \$5,325,468,704 in fiscal year 2008-2009. Compared with the budget request submitted by the Governor in December 2007, as adjusted by Governor's Messages throughout this legislative session, this budget represents a decrease of \$32,447,614 in fiscal year 2008-2009 in general fund appropriations.

Your Committee received testimony in support of this measure from: the Hawaii Health Systems Corporation, Oahu Region; the Kona Community Hospital; the Hilo Medical Center, the Finance Information Systems and Audit Committee, Hawaii Health Systems Corporation Board, the Hawaii Health Systems Corporation, Kauai Region, Hawaii Health Systems Corporation, Kauai Region Board of Directors, Hawai'i Tourism Authority, the Kauai County Housing Agency, and the Hawai'i Island Community Development Corporation.

Your Committee received testimony in opposition to this measure from the: Japanese American Citizens League of Hawai'i, Waianae Community Outreach, and one individual.

Your Committee received comments on this measure from the Department of Taxation, the Department of Land and Natural Resources, the Department of Business, Economic Development and Tourism, the Department of Human Services, the Department of

Commerce and Consumer Affairs, the Hawai'i Housing Finance and Development Corporation, the Hawai'i Health Systems Corporation, the College of Arts and Humanities, University of Hawai'i Manoa, the University of Hawai'i William S. Richardson School of Law, the High Technology Development Corporation, the Hawai'i Agriculture Association, Faith in Action for Community Equity, the Richardson School of Law Alumni Association, Group 70 International, EAH Housing; Hawai'i Alliance for Community Based Economic Development, the Hawai'i Credit Union League, the Hawai'i Council on Economic Education, Island Insurance Company, Ltd., Stanford Carr Development, LLC, Enterprise Honolulu, Acutron Co. Inc., Catholic Charities Hawai'i, the Family Life Center, Inc., Partners in Development Foundation, Big Brothers Big Sisters of Honolulu, Legal Aid Society of Hawai'i, Parents and Children Together, Blueprint for Change, the Partners in Development Foundation, Family Support Services of West Hawai'i, Maui Family Support Services, the YWCA, Hawai'i Island, the Hawai'i Family Support Institute, and eleven individuals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2500, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2500, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Menor). Noes, none. Excused, 1 (English).

SCRep. 3401 Economic Development and Taxation on H.B. No. 2486

The purpose of this measure is to require a private or public owner of a building over fifty years old to provide archival quality black and white photographs of the building to the Department of Land and Natural Resources, as a condition of receiving a permit or approval to demolish, construct, or otherwise alter that building.

Testimony in support of this measure was received from the Historic Hawai'i Foundation. Hawaiian Electric Company and its subsidiaries, Hawaii Electric Light Company and Maui Electric Company, testified in opposition. The Department of Land and Natural Resources submitted comments.

Your Committee finds that while the intent of this measure would be to produce a lasting record of many of Hawaii's historic buildings, it raises a number of concerns in its present form. Photographs alone would be incomplete without any supportive information, such as a survey form. In addition, this measure would place an unnecessary burden on the applicant since archival photographs are very costly, and if the applicant is unable to afford the necessary documentation, they may be less likely to seek out permits for alteration, construction, and demolition of historic buildings.

Your Committee has amended this measure by:

- (1) Clarifying that the requirement for archival photographs would apply only to "any building that is eligible for listing or is listed on the Hawaii or national register of historic places"; and
- (2) Making technical, nonsubstantive amendments for clarity and to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2486, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3402 (Joint/Majority) Economic Development and Taxation and Ways and Means on H.B. No. 1412

The purpose of this measure is to create revenue-generating initiatives that will be used by the Department of Taxation (Department) to:

- (1) Enhance the capabilities of the Department's computer system;
- (2) Improve the efficiency and operational procedures for collection of tax revenues;
- (3) Provide a source of funds for the Department to enter into performance-based contracts that relate to automated tax systems; and
- (4) Establish an Integrated Tax Information Management Systems (ITIMS) Special Fund to financially carry out the administrative and operational expenses related to this measure.

Testimony in support of this measure was submitted by the Department. Comments on this measure were submitted by the Tax Foundation of Hawaii.

Your Committees find that the 2008 Legislature must seek solutions to offset the impacts of a troubled national economy, as well as recent events in Hawaii that will have both short and long-term ramifications for state residents. The projected revenue gains in this measure will contribute significantly to those solutions.

Act 273, Session Laws of Hawaii 1996, authorized the Department to enter into a performance-based contract to acquire the ITIMS. In this case, the "performance" consisted of the State collecting more tax revenue than it would have without the vendor's services – more than \$252,000,000 during the five-year project. It also represents a three hundred seventy-five per cent return on investment.

This measure would enable the Department to continue to "work smarter, not just harder" to further expand the revenue stream and the successful delinquent collections project. The enhanced electronic filings and payments, internet portals of tax accounts, and online tax clearances will streamline the process for both taxpayers and the Department. The additional information available to the Department will assist in delinquent collections through more efficient matching of federal and state data and crosschecking with other relevant business data.

Your Committees further find that, like the five-year ITIMS project, the benefits funding in this measure establishes mandatory performance targets that the vendor must achieve to be paid. As measurable revenues attributable to the new initiatives are realized and certified, these revenues will be distributed between the Integrated Tax Services and Management Special Fund and the general fund. The benefit is two-fold:

- (1) A self-sufficient model to fund Integrated Tax Services and Management revenue-generating initiatives and related tax processing and capacity improvements; and
- (2) Additional general fund revenues of an estimated \$125,000,000 over five years, through 2013.

Clearly, this will contribute to the stability of the State's economy, and provide a revenue stream for many initiatives that may otherwise face curtailed budgets, such as the innovative education programs established statewide in 2007. Your Committees believe that providing a substantial and consistent revenue source, without additional appropriations, is the most significant benefit of all.

Your Committees have previously heard and approved a similar measure, S.B. No. 3115, S.D. 2. Your Committees have amended this measure by deleting and replacing the contents of this measure with S.B. No. 3115, S.D. 2, as amended by your Committees. As such, this measure:

- (1) Renames the Special Fund as the Integrated Tax Services and Management Special Fund and expands the uses of the Special Fund to include improved tax collection capabilities and efficiencies and to support any committees established in conjunction with the Streamlined Sales and Use Tax Agreement;
- (2) Adds a requirement for the Department to execute performance-based contracts and work assignments in a timely manner;
- (3) Adds the requirement that the Department shall utilize the performance-based contracts to implement and administer taxes such as:
 - (A) The City and County of Honolulu Surcharge under Act 247, Session Laws of Hawaii 2005; and
 - (B) The Streamlined Sales and Use Tax Agreement under Act 3, Special Session Laws of Hawaii 2005;
- (4) Adds the requirement that, upon full payment to the automated tax systems vendor, the State shall receive a permanent license for the use of the automated tax systems;
- (5) Adds the requirement for the Director of Taxation to report to the Legislature on any additional staffing needs, or savings in the Department's resource requirements, due to the implementation of the Integrated Tax Services and Management System beginning with the 2009 Regular Session;
- (6) Provides a specific appropriation that reflects the Department's cost estimates to administer and implement the purposes of this measure for the first year of the project; provided that the Department repays the general fund for the 2008-2009 fiscal year appropriation made from the general fund to the Integrated Tax Services and Management Special Fund within the same fiscal year;
- (7) Adds a section that amends section 231-8.5, Hawaii Revised Statutes, relating to the rules applicable to filing electronic tax returns, to require the Department to adopt rules pursuant to chapter 91, Hawaii Revised Statutes;
- (8) Adds a section that amends section 231-9.9(a), Hawaii Revised Statutes, relating to the taxpayers that are required to file electronic tax returns, to require, if required by rule, those taxpayers with a tax liability of \$100,000 or less to file their tax return electronically;
- (9) Makes the effective date June 29, 2008; and
- (10) Makes technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Economic Development and Taxation and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1412, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1412, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 13. Noes, 1 (Slom). Excused, 1 (Menor).

SCRep. 3403 (Joint) Energy and Environment and Commerce, Consumer Protection and Affordable Housing on H.B. No. 3407

The purpose of this measure is to remove the restriction on converting an existing gasoline dealer retail station to a company retail station by a gasoline manufacturer or petroleum products wholesaler (jobber).

Specifically, this measure repeals the gasoline service station anti-encroachment laws under chapter 486H, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Western States Petroleum Association; Aloha Petroleum, Ltd.; Mid Pac Petroleum, LLC; Kahala Shell Auto Care; and four private citizens. Testimony in opposition to this measure was submitted by Aiea Shell; Aloha Shell Service; and one private citizen. Comments were submitted by the Department of Economic Development, and Tourism (DBEDT).

Your Committees are aware of the concern that, by allowing existing dealer gasoline stations to be converted into company stations, this measure may have the unintended effect of creating a more concentrated market with fewer competitors, resulting in higher prices.

However, testimony from DBEDT noted that economic research published by the Federal Trade Commission in 1999 indicates that divorcement and anti-encroachment laws tend to increase retail gasoline prices. In addition, DBEDT pointed out that Hawaii's

divorcement law previously stifled the efforts of a refinery to create a low-priced volume retail business. Therefore, this measure may benefit the public by helping to lower gasoline prices.

As gasoline prices affect every person and business in this State, your Committees find that the important issues raised by this measure should be further explored by the Legislature in conference committee.

Accordingly, your Committees have amended this measure by changing the effective date to July 1, 2050, to ensure further discussion and consideration.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3407, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3407, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair and the Majority Leader on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 3404 (Joint) Energy and Environment and Agriculture and Hawaiian Affairs on H.B. No. 3179

The purpose of this measure is to encourage the local production of organic material used in producing biofuels and other bioenergy resources by making growers and producers of the organic material eligible for leases of public land without the necessity of a public auction, under Act 102, Session Laws of Hawaii 2002.

Specifically, this measure amends the definition of "renewable energy producer" in section 171-95, Hawaii Revised Statutes, to include growers and producers of organic material to be used primarily for the production of biofuels and other bioenergy resources.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and Hawaiian Electric Company, Inc., Maui Electric Company, and Hawaii Electric Light Company.

Your Committees find that this measure will:

- (1) Support the State's current energy policy promoting the development of renewable energy;
- (2) Decrease the State's reliance on fossil fuels and assist in supplying the public with a reliable alternate source of fuel and energy; and
- (3) Promote the renewable energy industry and increase employment opportunities related to the production of organic material used for biofuels and other bioenergy resources.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 3179, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 3179, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Hee, Ihara).

SCRep. 3405 (Joint) Energy and Environment and Transportation and International Affairs on H.B. No. 2263

The purpose of this measure is to limit noise emanating from vessels using state harbors by allowing the Director of Transportation (DOT) to adopt rules regulating harbor noise.

Testimony in support of this measure was submitted by Downtown Neighborhood Board No.13 and three private citizens.

Your Committees find that as working harbors, many of Hawaii's harbors produce large amounts of noise. While the DOT currently has the authority to adopt rules regulating the manner in which vessels may enter and moor, anchor, or dock in the commercial harbors, ports, and roadsteads, this authority may not be specific enough to allow the DOT to adopt rules that regulate excessive and harmful noises emanating from these vessels. Your Committees find that granting the DOT this authority will help alleviate the concerns of individuals affected by the noise from Hawaii's harbors.

In addition, your Committees have considered and agreed to amend this measure by:

- (1) Designating section 1 of the measure as part I; and
- (2) Adding as part II of the measure, an amendment to section 291-36, Hawaii Revised Statutes, to exempt from scaling any vehicles used in transshipping neighbor island bound cargo directly between piers in Honolulu Harbor, and any activities limited to crossing a public road, street, or highway within the State at locations approved by the Director of Transportation, in the case of state highways, or the county engineer, in the case of county roads and streets.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2263, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2263, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 3 (Ihara, Kokubun, Tsutsui).

SCRep. 3406 (Majority) Judiciary and Labor on H.B. No. 2929

The purpose of this measure is to provide for an independent medical examination or a permanent impairment rating examination of an injured employee in workers' compensation cases, and to make a report to the employer accordingly.

Your Committee received testimony in support of this measure from the Hawaii Chapter, American Physical Therapy Association; Hawaii State AFL-CIO; Hawaii Chiropractic Association; Hawaii State Teachers Association; International Association of Rehabilitation Professionals; ILWU Local 142; Spada Builders Inc.; Vocational Management Consultants; and fifteen individuals. Testimony in opposition was received from the Department of Human Resources Development; Department of Labor and Industrial Relations; American Insurance Association; Building Industry Association – Hawaii; Hawaii Employers' Mutual Insurance Company, Inc.; Hawaii Insurers Council; Hawaii Medical Association; Outrigger Hotels; Hawaiian Electric Co. Inc.; Maui Electric Company, Ltd.; Hawaii Electric Light Company, Inc.; The Chamber of Commerce of Hawaii; Kaua'i Chamber of Commerce; National Federation of Independent Businesses; Property Casualty Insurers Association of America; Retail Merchants of Hawaii; and two individuals.

Under this measure, after an injury and after a claim is filed by the injured employee, the employer, upon mutual agreement of the parties, may appoint a qualified physician, paid by the employer, to conduct the independent medical examination or permanent impairment rating. If the parties cannot agree on a physician, procedures are set out for the Director of Labor and Industrial Relations to appoint a qualified physician. When an injured employee has attained medical stability as determined by the injured employee's attending physician, the employer may appoint a physician, paid by the employer and selected by agreement of the parties, who shall conduct a permanent impairment rating examination of the injured employee. This measure defines "medical stability" to mean that the injured employee's medical condition is static and well stabilized that no further improvement in the injured employee's work-related condition can be expected from further medical treatment and that continued medical care will only prevent deterioration of the condition.

This measure also repeals current law giving the right to an employer who is dissatisfied with the progress of the case or where major elective surgery is contemplated, to appoint a physician or surgeon of the employer's choice to examine the injured employee and make a report to the employer accordingly. The employer may then forward the report to the Director of Labor and Industrial Relations if the employer remains dissatisfied.

The intent of this measure is to assure impartiality in the conduct of independent medical examinations and permanent impairment rating examinations, by providing for mutual cooperation between the parties in the selection of the examining physician. Your Committee believes that the mutual selection of a physician is worth an attempt on a trial basis to evaluate whether processing of workers' compensation claims can be expedited and whether expenses can be reduced.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2008, and a sunset date of July 1, 2011; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2929, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2929, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Slom). Excused, 2 (Hee, Nishihara).

SCRep. 3407 Judiciary and Labor on H.B. No. 3040

The purpose of this measure is to strengthen Hawaii's laws against sexual predation of minors and the registration of offenders who commit these and other sexual offenses.

This measure:

- (1) Creates two criminal offenses of electronic enticement of a child in the third degree, a misdemeanor, and indecent electronic display to a child, a class C felony;
- (2) Updates the repeat offender sentencing law to include the offense of failure to comply with covered offender registration requirements and the new offense of electronic display to a child;
- (3) Provides greater protection to children by adding a mandatory sentencing provision to the offense of electronic enticement of a child in the first degree; and
- (4) Clarifies the sex offender registry laws to increase the reporting information so that the whereabouts of sex offenders may be known at any given time.

Your Committee received testimony in support of this measure from the State Attorney General; Honolulu Prosecuting Attorney; Honolulu Police Department; Hawaii County Police Department; Maui Prosecuting Attorney; Maui Police Department; The Children's Alliance of Hawaii, Inc.; and Hawaii Family Forum. Testimony in opposition was received from the State Public Defender and American Civil Liberties Union of Hawai'i.

Your Committee finds that with the widespread use and acceptance of the Internet and computers as tools for social networking and the anonymity it appears to provide, children and teens are at a greater risk for victimization by persons who seek out minors for sexual purposes. Perhaps there can be no class of individuals who are more vulnerable than our children. Each day there are media reports of countless numbers of online predators utilizing the Internet to target and prey upon innocent and unsuspecting children. Unfortunately, these predators abuse modern day technology to covertly invade what is considered to be the most secure of places, the home. Sadly, there have been numerous real life cases that have ended in unimaginable tragedy.

Your Committee is cognizant that one of the arguments of the State Public Defender is that studies have shown that the lowest cases of recidivism occur when the offender is subject to treatment and monitoring. However, it is the responsibility of the Legislature to provide for policies that promote public safety. In balancing the equities, your Committee prefers to err on the side of caution to protect children.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting provisions of S.B. No. 2962, S.D. 1, a companion measure, without inclusion of the amendments to the sex offender registry laws, inasmuch as the Adam Walsh Act Compliance Working Group (H.B. No. 2998, S.D. 1) will study that issue and report to the Legislature accordingly for the 2009 Regular Session;
- (2) Changing the effective date from January 1, 2112 to July 1, 2050 to continue the discussions in this matter; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3040, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 3040, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3408 Judiciary and Labor on H.B. No. 516

The purpose of this measure is to impose lifetime parole upon release from prison of a repeat sexual offender convicted on two prior and separate occasions of an offense of sexual assault in the first, second, or third degrees, or continuous sexual assault of a minor under the age of fourteen years.

This measure further provides that a repeat sexual offender placed on lifetime parole shall have the right to initiate a special proceeding to challenge the applicability of lifetime parole.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority. Testimony in opposition was received from the Public Defender.

Your Committee finds that the seriousness of the sexual offenses to which this measure applies, and the prevalence of sexual offenders who have been convicted multiple times, warrant the imposition of lifetime parole for deterrence and protection of the public.

Your Committee notes the testimony of the Hawaii Paroling Authority that it needs more resources to hire additional parole officers and for added personnel, office space, and equipment under this measure.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 516, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 516, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3409 (Majority) Judiciary and Labor on H.B. No. 2204

The purpose of this measure is to exempt government entities from the definition of "owner" for purposes of the law on absolute liability of firearm owners for discharge of a firearm that proximately causes personal injury or property damage to any person.

This measure further provides that it shall not be construed to relieve government entities from any other tort liability.

Your Committee received testimony in support of this measure from the State Attorney General and Mayor of the County of Hawaii. Testimony in opposition was received from the Hawaii Rifle Association, Lessons in Firearms Education, and Consumer Lawyers of Hawaii.

This measure clarifies existing law on absolute liability for damages for the discharge of a firearm, by excepting government entities from absolute liability.

Your Committee has amended this measure by:

- (1) Clarifying that the absolute liability does not apply to the State or counties owning the firearm if the law enforcement officer uses the firearm outside of the course and scope of employment as a law enforcement officer;
- (2) Clarifying that the measure shall not be construed to relieve the State and counties from any other tort liability that may be applicable to the State or counties;
- (3) Changing the effective date to July 1, 2050 to continue the discussions on this matter; and
- (4) Making technical, nonsubstantive amendments.

Your Committee intends that the State or county shall not be liable in instances where the law enforcement officer uses the firearm for personal use not related to the officer's duties or employment.

Your Committee intends the State or county to be afforded a limited exemption in instances where the law enforcement officer

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2204, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2204, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Ayes with Reservations, 2 (Gabbard, Nishihara). Noes, 1 (Slom). Excused, 1 (Hee).

SCRep. 3410 Judiciary and Labor on H.B. No. 2557

The purpose of this measure is to enact a limitation on compelling testimony from journalists and newscasters (shield law).

Your Committee received testimony in support of this measure from the League of Women Voters, Honolulu Community-Media Council, and two individuals. Testimony in opposition was received from the Judiciary, State Attorney General, Honolulu Prosecuting Attorney, Honolulu Police Department, and The Big Island Press Club. Comments were received from the American Civil Liberties Union of Hawai'i and from an ad hoc association of journalists, newspapers, and media.

This measure applies to any newspaper, magazine, news agency, press association, wire service, or radio or television transmission station or network, with regards to testimony or the production of evidence before a legislative, executive, or judicial officer or body, or any other authority having the power to compel testimony or the production of evidence, to disclose, by subpoena or otherwise. The shield provided under this measure is that no fine or imprisonment shall be imposed against a person claiming the privilege for refusal to disclose information considered to be privileged pursuant to this measure.

Your Committee has amended this measure on the recommendation of the media representative who stated that, although they are collaborating with other interested parties such as the Prosecuting Attorney and the Attorney General, they have not come to a consensus. The amendments suggested at this time include specifying the applicable persons, news entities, circumstances, and conditions of the protections afforded by this measure. It was further indicated that they are close in agreement on concept but need additional time to carefully craft the language, due to the inherent contentious nature of this issue. Your Committee has also changed the effective date to July 1, 2050, to allow discussion on these matters.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2557, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2557, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3411 Judiciary and Labor on H.B. No. 2253

The purpose of this measure is to enhance the administration of liquor laws by updating the statutes relating to licensing, adjudications, and operations of the liquor industry.

Your Committee received testimony in support of this measure from the Small Business Regulatory Review Board and Kauai County Liquor Department (also testifying on behalf of all county liquor departments and commissions). Testimony in opposition was received from the Hawaii Bar Owners Association, Honolulu Tavern, E & J Lounge Operating Co., Inc., Bombay's of Amsterdam Inc., and four individuals.

Your Committee has amended this measure by:

- (1) Deleting the purpose section as it no longer accurately describes the amended measure;
- (2) Deleting section 4, relating to using license fees for enforcement, because the title of this measure does not accommodate substantive amendments;
- (3) Changing the effective date to July 1, 2050, to continue discussions on this matter, including the review of other proposed changes that may be substantive amendments; and
- (4) Making a technical, nonsubstantive amendment to conform the measure to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2253, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2253, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3412 (Majority) Judiciary and Labor on H.B. No. 1745

The purpose of this measure is to require a successor employer to rehire one hundred per cent of incumbent nonsupervisory and nonconfidential employees in the event of divestiture of a company.

Your Committee received testimony in support of this measure from ILWU Local 142; Unite Here! Local 5 Hawaii; Hawaii State Teachers Association; and Hawaii State AFL-CIO. Testimony in opposition was received from the Department of Labor and Industrial Relations; The Hawaii Business League; Hawai'i Hotel & Lodging Association; National Federation of Independent Businesses; Retail Merchants of Hawaii; The Chamber of Commerce of Hawaii; and Outrigger Hotels. Testimony in opposition was received from Aloha Airlines.

This measure applies whenever there is a divestiture, defined as a transfer of any establishment which employs at any time in the preceding twelve-month period, one hundred or more persons, including employees holding a management or similar position, from one employer to another because of the sale, transfer, merger, and other business takeover or transaction of business interests. An establishment is an industrial, commercial, or other business entity. The successor employer may retain less than one hundred per cent of incumbent employees if the nature of the successor establishment is substantially dissimilar to the former establishment or the

human resource needs of the successor employer are reduced, resulting in a reduction of needed employees, as long as the number of employees to be dislocated is in direct proportion to the reduction in the total human resource needs of the successor employer.

This measure also amends section 383-66, Hawaii Revised Statutes, relating to the determination of employer unemployment contribution rates, by:

- (A) Repealing now obsolete provisions of past contribution schedules; and
- (B) Extending from December 31, 1992 to December 31, 2007, the provision allowing a predecessor employer to waive the rights to all or the clearly identifiable and segregable portion of the predecessor's prior experience record in favor of a successor employer where the successor employer acquired a clearly identifiable and segregable portion of the predecessor's organization, trade, or business.

Your Committee has amended this measure by:

- (1) Providing for a penalty of \$1; and
- (2) Adding "divestiture" as a conforming amendment to the purpose section of chapter 394B, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1745, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1745, H.D. 3, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 1 (Gabbard). Noes, 1 (Slom). Excused, 2 (Hee, Nishihara).

SCRep. 3413 Ways and Means on H.B. No. 2605

The purpose of this measure is to recognize the service and dedication of members of the National Guard and Reserves by providing to them the same exemption of motor vehicle weight taxes and fees as received by their active duty counterparts.

Specifically, the measure exempts all members in good standing of the National Guard, reserves, or armed services, including the Coast Guard, from county vehicular taxes and fees for their privately owned vehicles.

Testimony in support of the measure was received from the Department of Defense, the Department of Taxation, the City and County of Honolulu, the Chamber of Commerce of Hawaii, twelve members of the Hawaii National Guard Enlisted Association, two members of the Hawaii National Guard Association, and seven private citizens. The Tax Foundation submitted comments.

Your Committee finds that this exemption indicates to the members of the Guard and Reserves, especially those that recently returned from Iraq and Afghanistan, that Hawaii truly cares and supports their service to the State and nation. Your Committee also recognizes that benefits like this exemption help influence our highly trained and experienced service members to remain in the Guard and Reserve and also assists in recruiting new members.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the exemption for registration fees;
- (2) Restricting the vehicle weight tax exemption to one noncommercial motor vehicle (rather than an unlimited number) per member;
- (3) Changing the effective date to October 1, 2008 rather than October 1, 2020; and
- (4) Making a technical nonsubstantive amendment for purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2605, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2605, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3414 (Joint) Water and Land, Intergovernmental and Military Affairs and Energy and Environment on H.B. No. 1037

The purpose of this measure is to require agencies to account for sea-level rise and to minimize risks from coastal hazards such as erosion, storm inundation, hurricanes, and tsunamis. This measure also extends shoreline setbacks to not less than forty feet from the shoreline and requires counties to account for annual erosion rates in establishing setback ordinances.

Testimony in support of this measure was submitted by the State Department of Defense. The Department of Land and Natural Resources, Office of Hawaiian Affairs, Sierra Club Hawai'i Chapter, and two individuals submitted testimony in support of this measure with proposed amendments. Testimony in support of the intent of this measure was submitted by the State Office of Planning. The City and County of Honolulu Department of Planning and Permitting submitted testimony in opposition to this measure.

Your Committees find that it is important for the Legislature to codify its policy regarding taking preventative measures against potential damage to structures by coastal hazards. Your Committees further find that the various agencies issuing permits for shoreline construction must consider the issue of sea-level rise when considering whether to grant permits.

Your Committees have amended this measure as follows:

- (1) By making the established shoreline setbacks mandatory upon the counties;

- (2) By providing that the erosion-rate based determination of required shoreline setbacks be based upon a one hundred-year projection rather than a fifty-year projection;
- (3) By providing that the determination of whether to grant a variance to the required shoreline setback shall be based on whether it is determined to be in the public interest rather than whether there is likely to be hardship to the applicant if the variance is not granted; and
- (4) By making technical, nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the records of votes of the members of your Committees on Water and Land and Intergovernmental and Military Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1037, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1037, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Ayes with Reservations, 1 (Trimble). Noes, none. Excused, 4 (Ihara, Kokubun, Tsutsui, Whalen).

SCRep. 3415 Judiciary and Labor on H.B. No. 2346

The purpose of this measure is to expand:

- (1) The offenses of endangering the welfare of a minor in the first degree to include intentionally or knowingly causing or permitting the minor to inject, ingest, inhale, or otherwise introduce into the minor's body any schedule I, schedule II, schedule III, or schedule IV controlled substance, that has not been prescribed by a physician for the minor; and
- (2) The offenses of endangering the welfare of a minor in the second degree to include recklessly causing or permitting the minor to inject, ingest, inhale, or otherwise introduce into the minor's body any schedule I, schedule II, schedule III, or schedule IV controlled substance, that has not been prescribed by a physician for the minor. The use of medical marijuana by a minor as permitted under the stringent requirements of the medical use of marijuana law would not be an offense under these expanded crimes.

Your Committee received testimony in support of this measure from the Department of Public Safety and Honolulu Prosecuting Attorney. Testimony in opposition was received from the Drug Policy Forum of Hawaii.

Your Committee finds that this measure would create greater protection for the health and safety of the children of Hawaii, and is necessary because of the high risk of injury caused by ingestion of Schedule I, II, III, and IV controlled substances.

Your Committee remains concerned about the applicability of this measure to breastfeeding women who may have ingested controlled substances, whether knowingly or otherwise. Your Committee is not satisfied that the current language of the measure will not apply to a breastfeeding woman. Accordingly, your Committee has amended this measure by changing the effective date to July 1, 2050 to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2346, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2346, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3416 (Majority) Judiciary and Labor on H.B. No. 2589

The purpose of this measure is require a scrap dealer or recycler, as applicable, who purchases any copper, to pay for the copper by check payable to the seller.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney; Reynolds Recycling, Inc.; and one individual.

This measure further provides that at the time of sale of the copper, the seller shall present to the scrap dealer or recycler a valid photo identification card or license of the seller issued by a federal or state government agency authorized to issue valid identification. The check may be mailed to the address shown on the identification, or the scrap dealer or recycler may arrange for the check to be picked up personally by the seller at the place of business of the scrap dealer or recycler.

Your Committee finds that copper theft continues to be a serious problem, inasmuch as copper thieves illegally traffic in stolen copper as a ready source of cash. Discouraging copper thieves from selling stolen copper for cash to scrap dealers would reduce the incidence of copper theft.

Your Committee has amended this measure on the recommendation of the Honolulu Prosecuting Attorney by clarifying the penalty section by making the scrap dealer offenses severable rather than joint.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2589, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2589, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 1 (Hee).

SCRep. 3417 Judiciary and Labor on H.B. No. 2255

The purpose of this measure is to conform the Insurance Code with model acts and regulations of the National Association of Insurance Commissioners (NAIC) by amending existing statutes relating to employee group life insurance policies and the replacement of life insurance policies and annuities.

Your Committee received testimony in support of this measure from the State Insurance Commissioner, American Council of Life Insurers, and the National Association of Insurance and Financial Advisors.

This measure, among other things, clarifies that premiums for the policy may be paid entirely by the employer, or by funds paid entirely by the insured employees, or by funds contributed by both the employer and the insured employees, and deletes the requirement that at least seventy-five per cent of eligible employees elect participation in the employee group insurance policy. This measure also allows employee group policies to cover less than ten employees at policy issuance by eliminating the ten employee requirement.

Your Committee has amended this measure on the recommendation of the State Insurance Commissioner and the American Council of Life Insurers to restore the H.D. 2 version of this measure referencing precluding individual selection. Your Committee has further amended this measure by changing the effective date to July 1, 2051, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2255, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2255, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3418 Judiciary and Labor on H.B. No. 2450

The purpose of this measure is to require the Land Use Commission, if the Commission receives a request to reclassify a land district to an urban or rural district designation that is contiguous to an existing designated agricultural district, to inform the applicant requesting the reclassification of the presence of the existing agricultural and contiguous agricultural district.

This measure also requires, as a condition for the land use district reclassification, that the applicant permit the continued operation of any existing farming operation on the contiguous agricultural district, and that the applicant not declare any farming operation a nuisance and otherwise comply with the Hawaii Right to Farm Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development & Tourism; Department of Agriculture; Hawaii Farm Bureau Federation; and Lalamilo Farm Lots Association. Testimony in opposition was received from Hawaii's Thousand Friends.

Your Committee finds that developers desire to maximize the use of their lands, thus forcing adjacent farmers to curtail or terminate the use of their land for farming. The intent of this measure is to protect, preserve, and perpetuate farm operations that may be adjacent to developed land as a result of a land reclassification proceeding.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to continue the discussions in this matter; and
- (2) Making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2450, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2450, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3419 Judiciary and Labor on H.B. No. 660

The purpose of this measure is to clarify that the circuit courts have jurisdiction over actions for impeachment of county officers that are subject to impeachment.

Your Committee received testimony in support of this measure from the Ethics Commission of the City and County of Honolulu.

Your Committee finds that this measure is necessary to validate the various county ordinances relating to appeals of county impeachment cases. Currently, counties enact ordinances to provide for an appeals process to the courts in impeachment cases. However, only the Legislature has the authority to enact laws to specify the jurisdiction of the courts.

The intent of this measure is to facilitate the enactment of valid county ordinances providing for an impeachment process applicable to county officials.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 660, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 660, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3420 Judiciary and Labor on H.B. No. 3249

The purpose of this measure is to prohibit parking of motor vehicles on bicycle lanes or bicycle paths, and to establish a fine of up to \$500 per violation.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that bikeways throughout the State are often located adjacent to heavily traveled roads and highways, and when bikeways are blocked by parked cars, safety for both bicyclists and drivers is compromised. This measure would improve traffic safety by ensuring that bikeways remain clear of parked vehicles.

Your Committee has amended this measure by changing the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3249, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3249, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3421 Ways and Means on H.B. No. 2700

The purpose of this measure is to provide the Judiciary with the supplemental appropriations and authorizations for its operations and capital improvements for fiscal biennium 2007-2009 by amending the Judiciary Appropriations Act of 2007.

Your Committee provided an additional \$4,199,468 in general funds and \$144,556 in special funds, increasing the Judiciary's total budget for fiscal year 2008-2009 to \$140,706,652.

In light of the most recent financial projections, your Committee took a conservative approach in providing funding for fiscal year 2008-2009. The following items were provided to the Judiciary to address safety concerns:

- (1) \$111,479 in general funds to replace metal detectors and x-ray machines;
- (2) \$120,560 in general funds to replace air conditioner condenser water pipes;
- (3) \$200,000 in general funds to replace carpeting; and
- (4) \$442,472 in general funds for risk management purposes.

Your Committee recognizes the need to support the Judiciary in its efforts to provide services to the public. Your Committee provided the Judiciary with the following items to expand vital services and programs:

- (1) \$28,000 in general funds to provide medical care to juveniles housed at the detention facility;
- (2) \$208,000 in general funds for increased psychiatric/psychological fees;
- (3) \$443,064 in general funds to expand the Maui/Molokai Drug Court;
- (4) \$215,637 in general funds and four positions to expand the Hamakua North/South Kohala court;
- (5) \$110,000 in general funds to expand court interpreter services;
- (6) \$1,906,658 in general funds for contracted guardian ad litem and court-appointed counsel fees; and
- (7) \$150,000 in general funds to expand existing domestic violence services.

In order to provide access to legal services for those who otherwise cannot obtain them, your Committee also provided the Judiciary \$2,050,000 for the following grants-in-aid service providers: Legal Aid Society of Hawaii, Volunteer Legal Services, Hawaii Family Law Clinic, Children's Alliance of Hawaii, and Na Loio.

Your Committee's capital improvements appropriations for the Judiciary focus on completion of the Kapolei Judiciary Complex Phase I and necessary renovation and repair of existing facilities statewide. General obligation bond funds of \$14,660,000 were provided for the Judiciary for fiscal year 2008-2009, including \$9,225,000 for equipment for the Kapolei facility; funds for remodeling of facilities vacated by staff moving to the Kapolei Complex; critical improvements necessary for public access and safety at court facilities; and funds to begin planning for a status offender shelter and juvenile services center at the current site of the juvenile detention facility that is moving to Kapolei.

Finally, your Committee made technical amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2700, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2700, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3422 Ways and Means on H.B. No. 3422

The purpose of this measure is to expand the availability of civil legal services to indigent persons in Hawaii.

Specifically, this measure generates additional funding for the delivery of indigent legal services by amending the surcharge to the initial filing fee in circuit court and district court to an unspecified amount. This measure also amends the maximum allowable income level for an indigent person to an unspecified amount.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs; Legal Aid Society of Hawaii; Native Hawaiian Legal Corporation; Hawaii Justice Foundation; Hawaii Disability Rights Center; eight attorneys and law firms; and one individual. Testimony opposed to this measure was submitted by MEDCAH, Inc., Maui Collection Service, and one attorney.

Your Committee finds that it is necessary to increase the availability of civil legal services to indigent persons and that it is appropriate to fund this increase in services with the increase in the initial filing fee surcharge in Circuit Court and District Court provided by this measure.

Accordingly, your Committee has amended this measure by changing the amount of the initial filing fee surcharges to \$1 to encourage further discussion on the issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3422, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3422, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (Hemmings, Whalen).

SCRep. 3423 Ways and Means on H.B. No. 3377

The purpose of this measure is to:

- (1) Require installation of an ignition interlock device on the vehicle of a person arrested for driving under the influence of an intoxicant in order to prevent the person from starting or operating a motor vehicle with more than a minimal alcohol concentration while the person's case is pending and the person's license is revoked pursuant to chapter 291E, Hawaii Revised Statutes;
- (2) Amend various penalties and conditions related to driver's licenses and operating a vehicle under the influence of an intoxicant;
- (3) Provide for certification of ignition interlock devices and vendors and fund installation of devices for the indigent with surcharges on offenders and fees on vendors; and
- (4) Establish the Hawaii Ignition Interlock Implementation Task Force (Task Force) to prepare for implementation of the ignition interlock device requirement and appropriate funds for the task force.

Your Committee received testimony in support of this measure from the Department of Health, the Department of Transportation, the Mayor of the County of Hawaii, the Department of the Prosecuting Attorney of the City and County of Honolulu, AAA Hawaii, the Alliance of Automobile Manufacturers, and Mothers Against Drunk Driving – Hawaii. Testimony in opposition was received from the Hawaii Insurers Council and State Farm Insurance Companies. The Department of the Attorney General, the Department of Budget and Finance, and the Judiciary submitted comments.

Your Committee finds that, pursuant to House Concurrent Resolution No. 28, H.D. 1 (2007), the Department of Transportation convened a working group of government agencies and community stakeholders to study the feasibility of requiring the installation of ignition interlock devices on vehicles of persons driving under the influence of offenders, including exploring and recommending procedures for the introduction of ignition interlock technology to Hawaii. The working group met several times in 2007 and identified certain elements that are key to a successful ignition interlock program.

Your Committee notes, however, that there were many other issues that could not be resolved by the working group within the time allotted. While the working group was thus not able to propose legislation, this measure contains most of the key elements identified by the working group. It also identifies many of the issues yet to be resolved and establishes a Task Force to address these issues, and propose any necessary additional legislation, during the two-year implementation period established by the measure.

Your Committee is aware that there are a number of amendments that may be necessary to conform existing law to the final form the ignition interlock device program will take when it takes effect in 2010. Your Committee previously made some of these amendments to the Senate companion to this measure, S.B. No. 3234, S.D. 2. Other amendments, such as those recommended by the Department of Transportation, can be addressed in Conference Committee proceedings on this measure. Still others, including some previously made to this measure and those suggested by the Judiciary regarding supervision of offenders, should be addressed by the Task Force, which, because of its broad membership, is well-suited to address these issues as it works through the details of implementing the program in the next two years.

Accordingly, your Committee has amended the measure by:

- (1) Deleting section 2, which would have amended section 287-20, Hawaii Revised Statutes, and by deleting the amendment to section 291E-41(h), Hawaii Revised Statutes, both of which would have exempted even repeat and highly intoxicated drivers from the requirement to post financial responsibility before resuming driving, and renumbering the remaining sections accordingly;
- (2) Further amending section 804-7.1, Hawaii Revised Statutes, to clarify that the ignition interlock device must be installed during the period in which the driver is released on bail, recognizance, or supervised release; and
- (3) Changing the source of funds to be appropriated for Task Force operations from general funds to the driver education and training special fund, since driver education and behavior modification are key objectives of this measure; and
- (4) Making technical nonsubstantive changes for consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3377, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3377, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, 1 (English).

SCRep. 3424 Ways and Means on H.B. No. 2456

The purpose of this measure is to extend to reciprocal beneficiaries and domestic partners the same income tax exclusion as provided to married couples for employer-provided health benefits.

Specifically, this measure excludes from gross income, adjusted gross income, and taxable income, the value of health insurance and other direct or indirect benefits provided by an employer to an employee in excess of what the employer provides or would provide to single employees, when those benefits are provided to the employee based on the employee's status as a reciprocal beneficiary or a domestic partner. This measure takes effect on January 1, 2020.

Your Committee received testimony in support of this measure from Pride At Work Hawaii and one individual. The Department of Taxation and the Tax Foundation of Hawaii offered comments.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2009; and
- (2) Removing all references to "domestic partner", because unlike reciprocal beneficiaries, domestic partnership is not generally recognized under Hawaii law.

Your Committee finds that this measure provides a measure of equity in the State's income tax law that is overdue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2456, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2456, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3425 Ways and Means on H.B. No. 1365

The purpose of this measure is to expand the types of investment products into which public employees may invest their deferred compensation to also include reasonably prudent investment products that are commonly offered in the securities industry or by other deferred compensation plans.

This measure covers the deferred compensation plans of both the employees who are members of the Employees' Retirement System and the part-time, temporary, seasonal or casual employees who are not eligible to participate in the Employees' Retirement System.

Testimony in support of the measure was submitted by the Department of Human Resources Development.

Your Committee finds that this measure will ensure that the best investment products available in a constantly changing securities market will be offered in the deferred compensation plans of public employees.

Your Committee amended this measure by changing the effective date to July 1, 2008 and making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1365, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1365, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3426 Ways and Means on H.B. No. 2372

The purpose of this measure is to streamline purchases of time share interests from the same developer by existing owners, by exempting certain purchases from the requirements of chapter 514E, Hawaii Revised Statutes.

The American Resort Development Association, Group RCI, Wyndham Worldwide, and Marriott International, Inc. submitted testimony in support of this measure. The Department of Commerce and Consumer Affairs submitted comments.

Your Committee finds that this measure will allow the sale of additional interests in timeshare plans that are not registered in Hawaii to existing owners in Hawaii without the satisfaction of all of the state registration requirements, but with substantive safeguards for consumer protection.

Upon further consideration, your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2372, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2372, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

SCRep. 3427 Ways and Means on H.B. No. 2520

The purpose of this measure is to support family caregivers by establishing a working group to explore various funding mechanisms that could potentially support family caregivers.

The Chamber of Commerce of Hawaii, Retail Merchants of Hawaii, the Representative of the 38th Representative District, and two individuals submitted testimony in support of this measure. The National Federation of Independent Businesses submitted testimony in opposition to this measure. The Department of Labor and Industrial Relations, Hawaii Government Employees Association, Kokea Construction & Consultants, Inc., and Building Industry Association of Hawaii submitted comments.

According to a recent needs assessment, more than twenty-five per cent of Hawaii's households have at least one individual providing informal, unpaid care for an adult aged sixty or older with physical or cognitive disabilities. This percentage is expected to

increase as Hawaii's population ages. The needs assessment also revealed that family caregivers have lower than expected income and that caregiving has negatively affected the employment of one quarter of family caregivers. Your Committee finds that efforts must be made to find an appropriate means of providing financial support to family caregivers so that they can continue to provide essential caregiving services to their family members.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that the working group reports to the Joint Legislative Committee on Aging in Place and ceases to exist on June 30, 2009;
- (2) Clarifying that the Joint Legislative Committee on Aging in Place, in lieu of the working group, shall submit a report to the Legislature prior to the 2009 Regular Session; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2520, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2520, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3428 Ways and Means on H.B. No. 2540

The purpose of this measure is to provide an income tax and general excise tax exemption for certain federally tax exempt companies that provide potable water.

Your Committee received testimony supporting this measure from the Hawaii Society of Certified Public Accountants, Horwath Kam and Company, Napuu Water Inc., and two individuals. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that federally tax exempt companies that provide potable water in rural communities provide a service that would otherwise be provided by government. To support these companies, this measure provides needed state tax relief to ensure the continued operation and supply of potable water in these rural communities.

Your Committee has amended the measure by changing the effective date to upon approval and changing the applicable taxable years to begin after December 31, 2050, to ensure consideration in conference committee of potential financial and tax issues that may impact this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2540, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2540, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3429 Ways and Means on H.B. No. 2137

The purpose of this measure is to offset the financial burden incurred by organ donors and to defray the costs to medical providers of converting to an electronic records systems.

Specifically this measure:

- (1) Provides a one-time individual income tax credit of an unspecified amount to offset the financial costs of organ donation; and
- (2) Provides an income tax credit to licensed physicians who participate in an insurer's grant program, to offset the costs of establishing and implementing an electronic medical records system.

Testimony in support of this measure as submitted by Organ Donor Center of Hawaii and Team Praxis. Comments on this measure were submitted by the Department of Taxation, Tax Foundation of Hawaii, and Hawaii Medical Services Association.

Your Committee finds that this measure will help to offset the unreimbursed costs associated with organ donation and provide a means for those who may wish to donate an organ but are prevented by the financial expense. In addition, your Committee believes that the increased use of electronic medical records systems in Hawaii will benefit both patients and doctors. Your Committee finds that a tax credit may offer an added incentive to independent physicians to transition to electronic medical records systems.

Your Committee has amended this measure by:

- (1) Clarifying that qualifying physicians must be independent physicians licensed under chapter 453 or 460, Hawaii Revised Statutes so as not to exclude osteopathic physicians and surgeons;
- (2) Clarifying that the training, installation, and technical support for the electronic medical records system is provided by experienced vendors; and
- (3) Making nonsubstantive technical amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2137, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2137, H.D. 2, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3430 Ways and Means on H.B. No. 2047

The purpose of this measure is to support asset-building among low- and moderate-income families.

More specifically, the measure would expand the efficiency and effectiveness of individual development account programs by:

- (1) Clarifying the guidelines for individual development accounts;
- (2) Designating the Department of Human Services to administer the individual development account programs;
- (3) Adding one motor vehicle to the list of qualified account expenditures;
- (4) Amending the funding mechanisms of the individual development account program; and
- (5) Appropriating general funds to operate the individual development account programs.

Testimony in support of the measure was submitted by the Legal Aid Society of Hawaii, the Hawaii Alliance for Community-Based Economic Development, and the Aloha United Way. The Department of Human Services submitted comments.

Individual development accounts are matched savings accounts that enable participants to more quickly save funds for the purchase of a home or car, the creation of a small business, or more education. Your Committee finds that individual development accounts are an integral part of a comprehensive policy to help people build assets and move from dependency on government support to self-sufficiency. This measure creates opportunities for more Hawaii families to achieve their asset-building goals.

Your Committee has amended this measure by making technical nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2047, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2047, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3431 Ways and Means on H.B. No. 2661

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Hui Mana 'Oma'o to establish facilities to convert renewable energy resources into electrical energy for consumption by the general public.

Hui Mana 'Oma'o, LLC. submitted testimony in support of this measure.

Hui Mana 'Oma'o is dedicated to developing and operating renewable energy projects to deliver electricity to Hawaii's franchised electric utility companies. Hui Mana 'Oma'o is proposing to harness two different renewable resources, each of which would independently provide intermittent power. However, the combination of both resources, in conjunction with a state-of-the-art automated dispatch, advanced technical monitoring, short-term electrical storage technologies, or shared utilization of utility-provided regulating reserve will produce grid-quality power to Oahu's utility network. Your Committee finds that this measure will help to reduce the State's dependence on fossil fuels and the issuance of special purpose revenue bonds for this project is in the public interest.

Upon further consideration, your Committee has amended this measure by clarifying that the combining of two or more intermittent renewable energy resources for the purpose of enhancing the reliability of the resulting electrical energy produced constitutes a project as defined in part V, chapter 39A, Hawaii Revised Statutes, and the financing thereof is assistance to an industrial enterprise.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2661, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2661, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3432 (Majority) Ways and Means on H.B. No. 2811

The purpose of this measure is to require the oil industry to report weekly to the Public Utilities Commission on the price of oil and gasoline.

The measure also requires the Public Utilities Commission to publish weekly oil industry reports on the average oil and wholesale gasoline prices for each island.

Your Committee received testimony in support of this measure from the Hawaii County Council. Testimony in opposition was received from the Western States Petroleum Association, Aloha Petroleum Company, Koolau Chevron Food Mart, Waiialae Chevron, Tesoro Hawaii Corporation, and Akana Petroleum Inc.

Your Committee finds that the volatile and skyrocketing prices of crude oil and gasoline require the State to be more proactive with respect to documenting and studying the fluctuating price of oil and gasoline. This measure requires the oil industry to report oil and gasoline prices on a weekly basis to the Public Utilities Commission to gain an accurate assessment of the price of oil and gasoline in the State and to provide the basis for managing the State's energy resources.

Your Committee has amended the measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (2) Making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2811, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2811, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Ayes with Reservations, 1 (Tsutsui). Noes, 1 (Whalen). Excused, none.

SCRep. 3433 Ways and Means on H.B. No. 2506

The purpose of this measure is to ensure the advancement of the State's long-term energy strategy by requiring the Legislative Reference Bureau to conduct a study to identify and evaluate options for the most efficient use of state resources that are integral to achieving the State's energy objectives.

Specifically, this measure directs the Legislative Reference Bureau to conduct a study that:

- (1) Identifies the statutory responsibilities of state agencies that are integral to successfully achieving state energy objectives;
- (2) Identifies any duplication or deficiency in these state agencies' responsibilities relating to state energy objectives;
- (3) Researches how other states address similar deficiencies in the administration of their energy policies; and
- (4) Makes recommendations regarding how the state agencies can be reorganized to advance the long-term energy strategy.

Testimony opposed to this measure was submitted by the Department of Business, Economic Development, and Tourism.

Your Committee finds that this measure would enable the most effective and efficient use of state resources to successfully achieve the State's long term energy goals. Your Committee further finds that it is important that the research and analysis required by this measure be undertaken in a timely manner.

Accordingly, your Committee has amended this bill by exempting any contract issued under this measure from the public procurement code. Your Committee has also made a few technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2506, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2506, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3434 Judiciary and Labor on H.B. No. 2438

The purpose of this measure is to require that only reduced ignition propensity cigarettes be sold in the State.

Your Committee received testimony in support of this measure from the State Attorney General, State Fire Council, and Kauai Fire Department.

Your Committee finds that, under this measure, reduced ignition propensity cigarettes will be regulated by testing. Testing of cigarettes shall be conducted in accordance with the American Society of Testing and Materials standard E2187-04 "Standard Test Method for Measuring the Ignition Strength of Cigarettes." The State Fire Council may adopt as rules pursuant to chapter 91, Hawaii Revised Statutes, a subsequent American Society of Testing and Materials Standard Test Method for Measuring the Ignition Strength of Cigarettes upon a finding that the subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette when compared to the percentage of full-length burns the same cigarette would exhibit when tested in accordance with American Society of Testing and Materials standard E2187-04 and the performance standard set by this measure.

According to previous testimony of the State Fire Council on this measure, similar legislation has been adopted in twenty-two other states, which affects fifty-two per cent of the United States and Canada. Fifteen states have pending legislation to require reduced ignition propensity cigarettes.

Your Committee has amended this measure by:

- (1) Making clarifying amendments regarding contraband and seizure of such, on the recommendation of the State Attorney General;
- (2) Making a technical conforming amendment to authorize the State Fire Council to test the cigarettes under this measure; and
- (3) Changing the effective date to upon approval, and to be implemented to coincide with the excise tax incremental increase on cigarettes effective September 30, 2009.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2438, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2438, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, none.

SCRep. 3435 (Majority) Judiciary and Labor on H.B. No. 3386

The purpose of this measure is to provide procedures in potential conflict of interest situations involving the State Attorney General in the representation of any court or judicial or legislative office of the State.

Your Committee received testimony in support of this measure from the Judiciary and the Hawaii Association of Public Accountants. Comments were received from the Hawaii Association of Realtors, Niwao & Roberts, State Farm Mutual Insurance

Company, and the National Association of Insurance and Financial Advisors. Testimony in opposition was received from the State Attorney General.

Your Committee finds that ethical conflict of interest may preclude the State Attorney General from representing two or more state entities simultaneously in the same matter. A typical example is legislative investigative committees which have a state department or agency as the subject of the investigation. The State Attorney General has the duty, pursuant to section 26-7, Hawaii Revised Statutes, to provide legal services to the Governor, Legislature, and state departments. However, this duty must be balanced against Rule 1.7, Conflict of Interest: General Rule, of the Hawai'i Rules of Professional Conduct as adopted and promulgated by the Hawaii Supreme Court, which does provide some leeway for representation in spite of a potential conflict of interest upon specified conditions and procedures.

Your Committee has amended this measure by:

- (1) Adding an exemption for the Department of Taxation to hire its own attorneys for limited circumstances, on the recommendation of the Department of Taxation;
- (2) Adding a definition of "practice of law", on the recommendation of the Hawaii Association of Realtors;
- (3) Changing the effective date to July 1, 2050, to continue the discussions on the definition of the "practice of law" among the accountants, insurers, realtors, and the Hawaii State Bar Association; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3386, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3386, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Slom). Excused, 1 (Gabbard).

SCRep. 3436 Ways and Means on H.B. No. 2519

The purpose of this measure is to create a Hawaii Health Corps Task Force to study the feasibility of loan repayment and stipend programs and tax incentives for physicians and dentists who work in health professional shortage areas and as first responders during civil defense emergencies.

Your Committee has circulated a proposed S.D. 2 draft that requires the Legislative Reference Bureau, instead of the Hawaii Health Corps Task Force, to research the actions, programs, or approaches other jurisdictions have taken to address physician and dentist shortages, including student loan repayment and stipend programs, and to report its findings and recommendations to the Legislature prior to the convening of the regular session of 2009.

The proposed S.D. 2 draft also creates a pilot project to grant various tax and other benefits for seven years similar to those provided within enterprise zones under the Department of Business, Economic Development, and Tourism, to physicians and dentists who agree to work for seven consecutive years within certain areas of the State that are medically underserved or where a health professional shortage exists.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, University of Hawaii, Mayor of Hawaii County, and Consumer Lawyers of Hawaii. The Department of Taxation offered comments.

Upon further consideration, your Committee has amended this measure by deleting its contents and replacing it with the proposed S.D. 2 draft. Your Committee has made additional changes to the proposed S.D. 2 draft by:

- (1) Placing the pilot project within the enterprise zone program of the Department of Business, Economic Development, and Tourism and requiring the Department of Health to work cooperatively with the Department of Business, Economic Development, and Tourism to implement the project;
- (2) Clarifying the definitions of "health professional shortage area" and "medically underserved area";
- (3) Streamlining the subjects of rules to be adopted by the Department of Business, Economic Development, and Tourism;
- (4) Clarifying that prospective physicians and dentists seeking the seven-year cycle of tax and other benefits by working within a medical practice shortage zone as a qualified medical practice may enter into agreements with the Department of Business, Economic Development, and Tourism only within the five years immediately after the effective date of the Act, or by June 30, 2013, and that the seven-year cycle of tax and other benefits may not be granted beyond June 30, 2020, when the Act is repealed;
- (4) Changing the repeal date to June 30, 2020; and
- (5) Making various technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2519, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2519, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3437 Ways and Means on H.B. No. 2040

The purpose of this measure is to:

- (1) Mandate certain conditions applicable to certain commercial and industrial leases; and

- (2) Create a Department of Planning and Sustainability.

Specifically, part I of this measure mandates certain conditions applicable to certain commercial and industrial leases. Parts II to VI of the measure combine the Office of Planning, Commission on Water Resource Management, Energy Resources Coordinator responsibilities, Land Use Commission, Office of Environmental Quality Control, and Hawaii Community Development Authority into one new Department of Planning and Sustainability.

Your Committee received testimony in opposition to this measure from the Commission on Water Resource Management of the Department of Land and Natural Resources, the Chamber of Commerce of Hawaii, Kamehameha Schools, Kaneohe Ranch, and three individuals. The Department of Business, Economic Development, and Tourism, the Office of Planning within the Department of Business, Economic Development, and Tourism, and Queen Emma Land Company offered comments.

Your Committee finds that a new Department of Planning and Sustainability is necessary to address issues regarding the long-range planning of the State and how planning affects Hawaii's economy, coordinate policies and actions relating to state planning and sustainability, and provide a comprehensive sustainability agenda for the State.

Upon further consideration, your Committee has amended this measure by:

- (1) Inserting a restriction to clarify that, unless expressly stated to the contrary in a lease, leases of commercial or industrial leasehold property shall be subject to certain terms and conditions;
- (2) Deleting the requirement that periodic step-ups in lease rent over the term of the lease be determined, in part, on the financial feasibility of the rent increase in relation to the current use of the leasehold property;
- (3) Clarifying that the provision relating to renegotiation of lease rents applies to leases existing on July 1, 2008, and by further providing that if the lessee has subtenants with subleases that provide for recovery by the lessee of ground lease rent, those subtenants will be charged their pro-rata share of the fair and reasonable annual rent; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2040, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, none.

SCRep. 3438 Ways and Means on H.B. No. 3191

The purpose of this measure is to update Hawaii's tax law to conform to the latest amendments to the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Department of Taxation. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that Hawaii income tax law is based in large part, on the Internal Revenue Code. Except for a few exceptions, this measure conforms Hawaii tax law to the latest amendments to the Internal Revenue Code.

Your Committee has amended the measure by:

- (1) Changing the reference to 2007 to 2006 with respect to section 179 deductions under the Internal Revenue Code; and
- (2) Adding a provision that retroactive and prospective effective dates contained in congressional acts relating to the Internal Revenue Code and enacted during 2007 shall be operative for chapter 235, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3191, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3191, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3439 Ways and Means on H.B. No. 3126

The purpose of this measure is to increase the loan ceiling for farm, ranch, or aquaculture operations on Hawaiian home lands from \$50,000 to \$200,000.

Your Committee notes that this measure proposes to amend paragraph (1) of the version of section 215, Hawaiian Homes Commission Act, 1920, as amended by Act 107, Session Laws of Hawaii 2000. The effectiveness of Act 107, which amended paragraph (2) of section 215, is conditioned upon receipt of the consent of the United States Congress to the amendment.

Your Committee finds that the loan ceiling was last raised in 1982 to \$50,000. Your Committee further finds that raising the loan ceiling will promote agricultural activity that will rehabilitate homestead lands.

Accordingly, upon further consideration, your Committee has amended this measure to delete the severability provision in section 2, renumber the remaining sections appropriately, and condition the effectiveness of the measure upon obtaining the consent of Congress.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3126, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3126, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3440 Ways and Means on H.B. No. 2376

The purpose of this measure is to reduce the danger from wildfires in the State.

Specifically, this measure:

- (1) Requires the State Fire Council to develop a statewide brushfire mitigation plan that includes methods to reduce brushfires, public education, and exploration of additional brushfire prevention and mitigation resources;
- (2) Directs the State Fire Council to investigate the use of reduced-ignition-propensity cigarettes as a method of preventing brushfires; and
- (3) Appropriates an unspecified amount to develop the brushfire mitigation plan and establish and staff up to four positions to implement a brushfire public education program.

Testimony in support of this measure was submitted by the State Fire Council, the Maui County Department of Fire and Public Safety, and the Kauai County Fire Department. The Board of Land and Natural Resources submitted comments on this measure.

Your Committee finds that large uncontrolled wildfires are a danger to residents of the State and their homes and businesses. Your Committee believes that a brushfire mitigation plan, including a public education program on brushfire prevention and safety, would help the State prevent dangerous wildfires and mitigate the effects of wildfires when they occur.

Your Committee has amended this measure by:

- (1) Reducing the number of positions to be created from four to two and specifying that they are full-time positions for one administrator and one administrative assistant; and
- (2) Statutorily establishing the positions in section 132-16, Hawaii Revised Statutes, to provide support staff for the State Fire Council, including assisting the Council in developing a statewide brushfire mitigation program and implementing a public education program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2376, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2376, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Kim, Menor).

SCRep. 3441 (Majority) Ways and Means on H.B. No. 2388

The purpose of this measure is to require an employer to continue providing essential medical services to an injured employee despite a dispute over whether treatment should be continued, until the Director of Labor and Industrial Relations decides whether treatment should be continued.

This measure sets a thirty-day deadline from the filing of the dispute by which the Director must decide the issue. If the Director determines that medical services should be or should have been discontinued, then the Director is to designate the date after which medical services for that treatment plan will be denied. The measure allows the employer or the employer's insurer to recover from the claimant's personal health care provider, or from any other appropriate occupational or non-occupational insurer, the money paid for medical services rendered after the date designated by the Director. Finally, the attending physician, injured employee, employer, or insurance carrier may request a review of the Director's decision.

Your Committee received testimony in support of this measure from the Hawaii State Chiropractic Association. The Department of Human Resources Development, Hawaii Insurers Council, National Federation of Independent Business Hawaii, Retail Merchants of Hawaii, Property Casualty Insurers Association of America, Kauai Chamber of Commerce, NetEnterprise Inc., Chamber of Commerce of Hawaii, American Insurance Association, General Contractors Association of Hawaii, Hawaii Independent Insurance Agents Association, MMK Maui LP, and Hawaiian Electric Co., Inc. submitted testimony in opposition. The American Physical Therapy Association, Hawaii Chapter, offered comments.

Upon further consideration, your Committee has amended this measure by creating a temporary working group to consider the issue, when there exists a dispute over whether treatment to an injured employee should be continued, whether an employer should be required to continue medical services to the injured employee until the director of labor and industrial relations makes a decision whether the treatment should be continued. The Chairperson of the Senate Judiciary and Labor Committee and the Chairperson of the House Labor and Public Employment Committee, or their designees, shall act as co-chairpersons. The working group is to report its recommendations, including any necessary legislation, to the Legislature no later than twenty days prior to the convening of the regular session of 2009. The Department of Labor and Industrial Relations is to assist the working group in drafting recommended legislation and provide administrative support as needed.

Your Committee also amended this measure to change the effective date from July 1, 2050, to July 1, 2009, except that the section creating the temporary working group takes effect upon approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2388, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2388, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 2 (Hemmings, Whalen). Excused, none.

SCRep. 3442 Judiciary and Labor on H.B. No. 3331

The purpose of this measure is to clarify dispute resolution procedures relating to the mediation of condominium disputes involving the interpretation or enforcement of the association of apartment owners' declaration, bylaws, house rules, or other specified matters.

This measure also requires the Real Estate Commission to report to the 2009 Legislature on various matters indicative of the effectiveness of this measure.

Your Committee received testimony in support of this measure from the Hawaii Independent Condominium & Cooperative Owners and Hawaii Council of Associations of Apartment Owners. Testimony in opposition was received from the Community Associations Institute (Hawaii Chapter), The Mediation Center of the Pacific, and one individual. Comments were received from the Real Estate Commission.

This measure is intended to run concurrently with Act 277, Session Laws of Hawaii 2006, which enacted into condominium law a hearings procedure to resolve disputes not resolved by mediation in addition to other available legal remedies. Act 277 sunsets on June 30, 2009, as does this measure. This measure strengthens the mediation procedures, as distinguished from arbitration and administrative hearings (condo court) and provides a viable, less adversarial means of resolving differences between owners and the association of apartment owners.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the Real Estate Commission make a report to the Legislature;
- (2) Correcting an internal section number cross-reference; and
- (3) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3331, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3331, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3443 (Joint) Judiciary and Labor and Ways and Means on H.B. No. 2408

The purpose of this measure is enact new provisions to regulate mortgage brokers and loan originators, and to repeal existing law regulating mortgage brokers and solicitors.

Your Committees received testimony in support of this measure from the Commissioner of Financial Institutions, Hawaii Association of Mortgage Brokers, Hawaii Bankers Association, Hawaii Financial Services Association, Legal Aid Society of Hawaii, Mortgage Bankers Association of Hawaii, Primerica Financial Services Home Mortgages, Inc., State Farm Insurance Companies, and fifteen individuals.

This measure transfers the responsibility for regulation of the mortgage broker industry from the Professional and Vocational Licensing Division, in conjunction with the Regulated Industry Complaints Office, to the Division of Financial Institutions, and expands and strengthen the regulation of the industry. This measure also provides more specialized regulation of mortgage brokers and loan originators by the Division of Financial Institutions.

Presently, mortgage lenders who are banks, savings associations, financial services loan companies, and credit unions are exempt from the requirements of chapter 454, Hawaii Revised Statutes, relating to mortgage brokers and solicitors. This measure also brings out-of-state mortgage lenders who are not subject to federal banking examination under the licensing and regulatory oversight of the Division of Financial Institutions.

The regulatory reorganization under this measure provides a more thorough, unified, effective, and seamless supervision of the residential mortgage industry's activities in Hawaii. This measure also improves licensed residential mortgage broker and loan originator skill and experience levels, so as to better ensure that licensees do not engage in unfair, deceptive, or fraudulent practices, particularly with regard to predatory lending practices.

Your Committees note the following concerns regarding this measure, expressed in the testimony:

- (1) Whether affiliates of banks, who are not now subject to a federal banking examination and would be required under pending federal legislation to be licensed by the State to sell mortgage loans, should nonetheless be exempted; and
- (2) Whether a promissory note and mortgage evidencing a residential mortgage loan should be declared void and unenforceable because a non-licensed mortgage broker or loan originator was involved.

Your Committees note that the exemption for an individual who is an exclusive agent of a bank or savings association is consistent with federal court cases such as *State Farm Bank, F.S.B. v. Burke*, 445 F.supp.2d 207(D.Conn.2006), based upon the rulings of the Office of Thrift Supervision which preempts state regulation of federal savings associations conducted through agents of the federal savings association.

Your Committees request the Conference Committee on this measure to consider whether the exemptions provided in this measure and the exemptions proposed by Primerica Financial Services Home Mortgages, Inc., should correspond with pending federal legislation to regulate mortgage brokers.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2025, to continue the discussions in this matter; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2408, H.D. 1, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 2408, H.D. 1, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 15. Noes, none. Excused, 3 (Hee, Menor, Nishihara).

SCRep. 3444 Judiciary and Labor on H.B. No. 362

The purpose of this measure is to require the driver of a motor vehicle involved in an accident that results only in damage to the vehicle, to move the vehicle to a safe location off the roadway, including a shoulder lane or median, as close to the accident scene as possible.

This measure also clarifies that a driver is not liable or at fault for the accident for having removed the vehicle by sole reason of moving the vehicle.

Your Committee received testimony in support of this measure from the Honolulu Police Department and the Honolulu Prosecuting Attorney.

Your Committee finds that motor vehicle accidents that do not result in bodily injuries could pose significant traffic hazards when vehicles are left on the roadway to await the arrival of police. Motorists who are involved in accidents are reluctant to remove their damaged vehicles from the scene of the accident, often causing huge traffic congestion. Your Committee further finds that existing law is silent about the duties of a driver to move the vehicle to a safe location nearest to the scene of an accident, as recommended by the Honolulu Police Department.

Your Committee has amended this measure by:

- (1) Clarifying the manner in which the vehicle is to be moved;
- (2) Deleting reference to removing the vehicle as not being the sole basis of liability; and
- (3) Changing the effective date to July 1, 2050, to continue the discussions in this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 362, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 362, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3445 Ways and Means on H.B. No. 2704

The purpose of this measure is to preserve and protect the historic and cultural resources of Ha'iku Valley on the island of Oahu.

More specifically, the measure:

1. Establishes the Ha'iku Valley Cultural Preserve Commission to manage the Ha'iku Valley Cultural Preserve;
2. Specifies the exclusive uses of the Ha'iku Valley Cultural Preserve;
3. Authorizes the Office of Planning and the Department of the Attorney General, after consultation with the Ha'iku Valley Cultural Preserve Commission, to initiate the conveyance of all of the Ha'iku Valley Cultural Preserve in fee simple to the Office of Hawaiian Affairs; and
4. Appropriates funds for the Office of Hawaiian Affairs to acquire the Ha'iku Valley Cultural Preserve.

The Department of Land and Natural Resources, Department of Transportation, Office of Hawaiian Affairs, Kamehameha Schools, Koolau Foundation, and one individual submitted testimony in support of this measure.

Your Committee finds that Ha'iku Valley on the island of Oahu has historic and cultural importance to the native people of Hawaii. The area is renowned for its archaeological and other historic and cultural sites, such as lo'i, sacred sites, and burial sites, and for the presence of native and endangered flora and fauna. Your Committee further finds that this measure provides a means to address Ha'iku Valley's unique challenges and preserves in perpetuity its historic and cultural resources for the people of Hawaii.

Upon further consideration, your Committee has amended this measure by:

1. Substituting reference to the Office of Hawaiian Affairs for the Department of Land and Natural Resources to clarify (in § -9 of section 2 of the measure) that the Ha'iku Valley Cultural Preserve Commission is authorized to set, charge, and collect administrative fines, or bring legal action to recover administrative costs of the commission or the Office of Hawaiian Affairs;
2. Clarifying in section 3 of the measure that it is the Ha'iku Valley Cultural Preserve, not the Ha'iku Valley Cultural Preserve Commission, that is being conveyed;
3. Directing the Department of Land and Natural Resources and any other department with an interest in lands within the Ha'iku Valley Cultural Preserve, with oversight from the Office of Planning and the Department of the Attorney General, to deed to the Office of Hawaiian Affairs the lands within the Ha'iku Valley Cultural Preserve;
4. Directing the Governor to set aside the lands within the Ha'iku Valley Cultural Preserve;
5. Adding a saving clause; and
6. Changing the effective date of the measure to upon approval; provided that section 5 of the Act shall take effect on July 1, 2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2704, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2704, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3446 Ways and Means on H.B. No. 2302

The purpose of this measure is to require the Department of Land and Natural Resources to conduct a feasibility study on implementing an electronic filing system at the Bureau of Conveyances.

More specifically, the feasibility study would:

- (1) Determine the impact of such a filing system on the operations of the Bureau of Conveyances and the public;
- (2) Determine the cost of installing and maintaining a new system;
- (3) Establish a time frame for procuring, implementing, and launching a new electronic filing system;
- (4) Explore similar systems in other jurisdictions; and
- (5) Address concerns regarding the current computer system at the Bureau of Conveyances.

Testimony opposing the measure was received from the Department of Land and Natural Resources.

Your Committee finds that the widespread enactment of the Uniform Electronic Signatures Transactions Act and the federal Electronic Signatures in Global and National Commerce Act has made it possible to treat sales contracts, mortgage instruments, and promissory notes memorialized in electronic form with electronic signatures as equivalent to paper documents with manual signatures. Your Committee further finds that allowing the Bureau of Conveyances to accept the recordation of documents digitally would greatly streamline the process of recording real estate documents.

Upon further consideration, your Committee has amended the measure by:

- (1) Deleting the requirement for the Department of Land and Natural Resources to perform a feasibility study on a new electronic filing system at the Bureau of Conveyances;
- (2) Requiring the Department of Land and Natural Resources to initiate the planning and design of a new electronic filing system;
- (3) Requiring the Department of Land and Natural Resources to submit to the Legislature, prior to the convening of the 2009 Regular Session, a report detailing the timeline and requirements for launching an electronic filing system by July 1, 2009;
- (4) Making an appropriation of an unspecified amount; and
- (5) Making a technical, nonsubstantive change for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2302, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2302, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3447 Ways and Means on H.B. No. 3348

The purpose of this measure is to increase funding for historic preservation.

Specifically, this measure appropriates funds for the Hawaii Preservation Fund Endowment, established by the Historic Hawaii Foundation in cooperation with the National Trust for Historic Preservation. This measure conditions the release of funds upon being matched by an equal amount of private contributions to the Hawaii Preservation Fund Endowment.

The Hawaii Historic Foundation, Heritage Caucus, Hawaii Theatre Center, and four individuals submitted testimony in support of this measure. The Board of Land and Natural Resources submitted comments.

Your Committee finds that there is significant value in preserving and perpetuating structures that reflect Hawaii's cultural, artistic, architectural, and historic heritage. In particular, these structures enhance tourism and increase property values. Your Committee further finds that this measure will provide initial funding that can be used to grant awards to Hawaii-based non-profit organizations and state agencies dedicated to preservation services.

Upon further consideration, your Committee has amended this measure by:

- (1) Appropriating the funds to the Hawaii Historic Preservation Special Fund, established under section 6E-16, Hawaii Revised Statutes, instead of the Hawaii preservation fund endowment, which was going to be established; and
- (2) Making technical, nonsubstantive changes for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3348, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3348, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3448 Ways and Means on H.B. No. 2395

The purpose of this measure is to establish the Hawaii Innovation Development Corporation to promote the development and exploitation of innovations and inventions that have direct economic benefits for Hawaii.

The Professional Inventors Alliance and one individual submitted testimony in support of this measure. The Department of Budget and Finance submitted testimony in opposition to this measure. The Department of Business, Economic Development, and Tourism and the Office of Information Practices submitted comments.

Your Committee finds that this measure will help encourage and support innovations and inventions by and for the economic benefit of the people of Hawaii.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that the Board of Directors of the Hawaii Innovation Development Corporation is subject to the provisions of chapter 92, Hawaii Revised Statutes;
- (2) Deleting the language in proposed section -4, Hawaii Revised Statutes, regarding discretionary executive meetings to support the intent that proprietary information be confidential;
- (3) Clarifying in proposed section -8, Hawaii Revised Statutes, that any document or data made or received by any member or employee of the Hawaii Innovation Development Corporation is confidential to the extent that the document or data consists of trade secrets or other proprietary information;
- (4) Defining "proprietary information" to include information that could be protected as intellectual property, such as by copyright or patent;
- (5) Inserting the contents of S.B. No. 2480, S.D. 2, as part II of the bill, to:
 - (A) Establish the science, technology, and education special fund;
 - (B) Amend Act 111, Session Laws of Hawaii 2007, to redirect deposit of the fiscal year 2008-2009 appropriation into the science, technology, and education special fund;
 - (C) Amend Acts 111 and 271, Session Laws of Hawaii 2007, by appropriating additional funds in fiscal year 2008-2009 for the support and expansion of existing STEM-related programs such as robotics, research experiences for teachers, and project EAST programs; and
 - (D) Appropriate funds from the federal temporary assistance for needy families program funds and from general funds for STEM programs and K-12 creative media education programs; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2395, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2395, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3449 (Majority) Ways and Means on H.B. No. 2386

The purpose of this measure is to discourage employers from routinely denying temporary disability benefits to injured employees by:

- (1) Prohibiting an employer from denying payments of temporary total disability even if the employer controverts the employee's right to receive those benefits;
- (2) Specifying that the payment of these benefits shall only be terminated upon:
 - (A) An order of the director; or
 - (B) The determination by employee's treating physician that the employee is able to resume work and the employer has made a bona fide offer of suitable work within the employee's medical restrictions;
- (3) Specifying that the director's order to terminate temporary total disability benefits must be based on a full and fair hearing;
- (4) Authorizing the director to determine, following a hearing, the date after which temporary total disability benefits should have been discontinued and to issue an overpayment credit to the employer for benefits paid after that date;
- (5) Requiring an employer to pay attorney's fees and costs to the employee for failure to comply with requirements relating to total disability benefits; and
- (6) Raising the weekly benefits for permanent or temporary total disability benefits from sixty-six and two-thirds to either seventy per cent of the employee's average weekly wages or maximum amount of the state average weekly wage, if payment of those benefits were not begun within thirty days of or within the same year as the date of injury.

Testimony in support of this measure was submitted by Hawaii State Chiropractic Association, the Hawaii Chapter of the American Physical Therapy Association, and ILWU Local 142. Testimony in opposition was submitted by the Department of Labor and Industrial Relations, the Department of Human Resources Development, Chamber of Commerce of Hawaii, Hawaiian Island Contractors' Association, General Contractors Association of Hawaii, Hawaii Insurers Council, Retail Merchants of Hawaii, Building Industry Association-Hawaii, NFIB Hawaii, Kauai Chamber of Commerce, American Insurance Association, Hawaiian Electric Co. Inc., Honolulu Star-Bulletin/Midweek, Grace Pacific Corporation, and Oceanic Imaging Consultants.

This measure is necessary to provide employers and their carriers with adequate disincentives from engaging in the practice of routinely denying benefits "pending investigation." The denial of benefits without valid reasons imposes undue financial hardships upon injured employees. In some cases, the routine denial of benefits has forced injured employees to return to work prematurely.

Your Committee has amended this measure by:

- (1) Replacing the holding of an administrative hearing with a review of the case file and position papers submitted by the parties as the basis for the director's order to terminate temporary total disability benefits;
- (2) Establishing a working group to address the concerns of this measure and report its recommendations to the Legislature prior to the 2009 Regular Session;
- (3) Retaining the effective date of July 1, 2050, to facilitate further discussion, while adding a provision to specify an effective date of July 1, 2009, if the working group fails to reach a consensus; and
- (4) Specifying an effective date of "upon approval" for the establishment of the working group.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2386, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2386, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 2 (Hemmings, Whalen). Excused, none.

SCRep. 3450 Ways and Means on H.B. No. 2922

The purpose of this measure is to reduce the license tax on diesel oil paid by entities that use diesel oil in a power-generating facility.

Specifically, this measure reduces the rate of tax for diesel oil from two cents to one cent on each gallon of diesel oil used in a power-generating facility.

Your Committee received testimony in support of this measure from the Kauai Island Utility Cooperative. The Department of Transportation submitted testimony in opposition. The Department of Taxation and the Tax Foundation of Hawaii offered comments.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding a provision that the entity paying the reduced rate on diesel oil must certify annually to the Public Utilities Commission, on a form to be supplied by the Commission, that the reduced rate paid by the entity reduces costs to ratepayers;
- (2) Changing the effective date to July 1, 2009, and making a corresponding change to the application of the reduced rates to taxable years beginning after December 31, 2008; and
- (3) Making a technical nonsubstantive change for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2922, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2922, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3451 Ways and Means on H.B. No. 2005

The purpose of this measure is to expand the renewable energy technologies tax credit to include a refundable or non-refundable tax credit for solar energy systems.

In addition, this measure restructures the existing renewable energy technology tax credit and distinguishes between solar energy systems designed to heat water for household use and all other solar energy systems. The measure does not alter the existing tax credit or cap amounts.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; Hawaii County Council; Hawaii Energy Policy Forum; Hawaii Solar Energy Association; Hawaii PV Coalition & The Solar Alliance; Maui Land and Pineapple Company; Solar Wave Hawaii; Island Pacific Energy; and two concerned individuals. Comments on this measure were submitted by the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure will clarify the applicability of the existing renewable energy technologies tax credit and provide a tax incentive for the use of renewable energy by Hawaii residents.

Your Committee has amended this measure by:

- (1) Clarifying the distinction between the two types of solar energy systems, solar thermal and solar electric, for which a tax credit may be claimed;
- (2) Adding a definition of "solar electric energy system" to include solar thermal electric and photovoltaic systems;
- (3) Adding a definition of "solar thermal energy system" to include solar water heating, solar air conditioning, solar space heating, solar drying, and solar process heat systems;
- (4) Deleting the definition of "household use"; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2005, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2005, H.D. 1, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 1 (English).

SCRep. 3452 Ways and Means on H.B. No. 2507

The purpose of this measure is to appropriate general funds for two additional temporary staff positions for the greenhouse gas emissions reduction task force established within the Department of Business, Economic Development, and Tourism by Act 234, Session Laws of Hawaii 2007.

Testimony in support of the measure was received from the Hawaii Energy Policy Forum and Hawaiian Electric Company, Inc.

Your Committee finds that the greenhouse gas emissions reduction task force was established in 2007 to prepare a comprehensive work plan and regulatory scheme for implementing feasible, cost-effective reductions in greenhouse gas emissions. The numerous and demanding tasks imposed on the task force have created a need for additional professional and technical support.

Your Committee amended this measure by:

- (1) Changing the source of appropriations from general funds to the energy security special fund, which is being established through a different measure;
- (2) Changing the appropriation to an unspecified amount; and
- (3) Making the effective date of this measure the same as, and contingent upon, the effective date of H.B. No. 2505 in any form, as that measure establishes the energy security special fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2507, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2507, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3453 Judiciary and Labor on H.B. No. 3177

The purpose of this measure is to:

- (1) Increase the maximum allowable fine from \$2,000 to \$20,000 for violation of the State's land use conservation district laws and rules, and an additional fine of up to \$20,000 for a wilful violation per day per violation after written or verbal notification from the Department of Land and Natural Resources is given; and
- (2) Allow the Board of Land and Natural Resources to set, charge, and collect the fine based on the value of the natural resource that is damaged, the market value of the natural resource damaged, and any other factor it deems appropriate.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, The Nature Conservancy of Hawai'i, and Sierra Club Hawai'i Chapter.

Your Committee finds that the State has a public trust obligation and must remain vigilant in its duty to protect Hawaii's natural resources for the benefit of all of its residents and future generations. In recent years, there has been an increase in the incidences of intentional violation of and blatant disregard for state natural resource laws and rules.

Your Committee has amended this measure by:

- (1) Clarifying that the exercise of native Hawaiian gathering rights or traditional cultural practices are excluded from the penalty section; and
- (2) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3177, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3177, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3454 Judiciary and Labor on H.B. No. 3176

The purpose of this measure is to authorize the Chairperson of the Board of Land and Natural Resources to impose an additional administrative penalty of a fine of up to \$10,000 for per square meter of area damaged to Hawaii's stony coral reefs and live rocks, or in the alternative, utilize an accepted economic valuation method to gauge the relative value of the particular area damaged and use that value as the fine amount, whichever is greater.

This measure also defines "accepted economic valuation method", "breaking", "damaging", "live rock", and "stony coral".

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and Ocean Tourism Coalition. Testimony in opposition was received from RT Distributors.

Your Committee finds that Hawaii's live coral reefs provide food and shelter for the myriad of native and endemic reef organisms that populate the State's coastal waters. This unique ecosystem serves as the backbone of the State's vibrant marine tourism industry, creating many of our world-famous wave breaks, providing subsistence, recreational, and commercial fishing for residents and visitors alike.

Your Committee further finds that there has been an increase in the occurrence of human and non-human damage to Hawaii's living coral colonies and live rock environments, and therefore understands the importance of this measure in that it provides an additional mechanism to protect Hawaii's unique ocean ecosystem and natural resources for the benefit of its residents and future generations.

Your Committee has amended this measure by making it apply:

- (1) To an intentional act or an act in total disregard to causing damage; and
- (2) To an unspecified minimum amount of square footage of damage.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3176, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3176, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3455 Judiciary and Labor on H.B. No. 3178

The purpose of this measure is to increase civil penalty fine amounts for violations of the State's natural resources laws committed on public lands and to clarify penalties for encroachment upon public lands.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that in recent years, there has been an increase in the intentional violation of and blatant disregard for state natural resources laws. Consequently, the State has been under considerable strain in fulfilling its obligation to protect Hawaii's natural resources for the benefit of all of its residents and future generations, due to ineffective enforcement tools, limited resources, and a shortage of enforcement personnel. Existing civil penalties for most violations are nominal and do not appear to deter such behavior effectively.

Your Committee finds that increasing penalties for civil violations of the State's natural resources laws is an effective means for deterring unlawful behavior by imposing serious consequences for such violations.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 3178, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 3178, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3456 (Joint) Judiciary and Labor and Ways and Means on H.B. No. 2781

The purpose of this measure is to require the Small Business Regulatory Review Board to convene a working group to study and make recommendations to resolve the concerns related to chapter 201M, Hawaii Revised Statutes, relating to small business regulatory flexibility.

This measure also requires the Small Business Regulatory Review Board to report to the 2009 Legislature on its findings and recommendations, including any legislation necessary to implement the recommendations.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; and the National Federation of Independent Businesses in Hawaii.

The working group would include, but not be limited to, representatives of small business organizations, the Department of Business, Economic Development, and Tourism; the Department of Commerce and Consumer Affairs; and others as deemed appropriate. The Chairperson of the Small Business Regulatory Review Board shall serve as chair of the working group.

This measure represents a continuous effort by the Legislature to lighten the regulatory burden on small businesses, since the enactment of Act 168, Session Laws of Hawaii 1998, the Small Business Regulatory Flexibility Act. A working group of stakeholders is necessary to identify problem areas and remedies thereto, and to make recommendations for legislation.

Your Committees have amended this measure by:

- (1) Adding the provisions of a similar measure, H.B. No. 2736, S.D. 1, as amended, on the recommendation of the Small Business Regulatory Review Board. These added provisions establish the small business bill of rights and authorizes the Ombudsman to investigate complaints of violations of these rights;
- (2) Changing the effective date to July 1, 2050; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2781, H.D. 2, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 2781, H.D. 2, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 15. Noes, none. Excused, 3 (Hee, Menor, Nishihara).

SCRep. 3457 (Joint) Judiciary and Labor and Ways and Means on H.B. No. 466

The purpose of this measure is to implement the recommendations of the task force convened pursuant to S.C.R. No. 117, S.D. 1, H.D. 1 (2006), to evaluate and recommend changes to minimize the census at the Hawaii State Hospital and promote community based health services for forensic patients.

Specifically, this measure:

- (1) Requires the Department of Health to submit to the Legislature specified yearly data on forensic patients;
- (2) Requires yearly court status hearings for individuals who are acquitted by reason of insanity to assess the need for further inpatient hospitalization;
- (3) Decreasing from ninety to thirty days following the revocation of conditional release, the time in which the Director of Health is required to make an application for either conditional release or discharge of the person;
- (4) Provides statutory guidance and clarification on the seventy-two hour hold and extended hold process for patients under conditional release;
- (5) Authorizes the Director of Health to petition the court in appropriate cases for legal discharge from conditional release or modification of the order granting conditional release on behalf of an individual served by the Department of Health; and
- (6) Makes an unspecified appropriation to the Judiciary to support the operations and expansion of the mental health court.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Disability Rights Center, and Hawaii Government Employees Association. Comments were received from the Judiciary.

Your Committees find that, in Hawaii, there is no limit to how long an individual may be on conditional release. Individuals whose mental condition status has changed sufficiently to no longer warrant conditional release, could potentially be on conditional release for the rest of their lives. Periodic mandatory court hearings under this measure ensures that courts hear all conditional release cases on a regular basis so that appropriate cases are continued on conditional release and other cases are legally discharged from conditional release.

Your Committees further find that enabling the Director of Health to petition the courts for discharges, where appropriate, will help to ease the overcrowding problem at the Hawaii State Hospital and protect the health and safety of the patients and staff at the hospital.

Your Committees recognize the following concerns raised in the testimony regarding the mandatory conditional release hearings:

- (1) There is a likelihood that the courts and treatment teams may not understand the difference between a seventy-two hour hold or extended hold and a conditional release revocation, which could result in a misapplication of revocation when a seventy-two hour hold would be more appropriate; the measure may need more explicit language for clarification; and
- (2) With regard to funding the pilot mental health court on Oahu (the State's only mental health court), current funding is entirely by grant and therefore is of limited scope and influence; should the mental health court be expanded to include more patients of the Hawaii State Hospital, more substantial and permanent funding needs to be explored.

Your Committees urge that these concerns be addressed in Conference Committee deliberations on this measure.

Your Committees have amended this measure by:

- (1) Requiring the court, except if the individual has applied for conditional release or discharge within the previous year, to conduct a hearing at specified annual intervals to assess the need for further hospitalization;
- (2) Increasing from thirty to forty-five days following the revocation of conditional release, the time in which the Director of Health is required to make an application for either conditional release or discharge of the person, if the Director is satisfied that specified conditions have been met;
- (3) Adding, from S.B. No. 2396, H.D. 1, a provision to establish that an attack on a person employed at a State-operated hospital or State-contracted mental health facility is assault in the second degree under the Penal Code;
- (4) Changing the effective date to July 1, 2025, to continue the discussions in this matter; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 466, H.D. 1, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 466, H.D. 1, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ayes, 15. Noes, none. Excused, 3 (Hee, Menor, Nishihara).

SCRep. 3458 Judiciary and Labor on H.B. No. 2953

The purpose of this measure is to provide an exemption from the requirement of shipping a vehicle inter-island for the drivers of the vehicles traveling on an inter-island ferry; provided that:

- (1) The drivers present identification of the driver, a current certificate of registration for the vehicle, and proof of motor vehicle insurance; and
- (2) The inter-island ferry carrier keeps a record of transporting the vehicle by recording the vehicle identification number and retaining the information for three years after the date of travel.

Your Committee received testimony in support of this measure from Hawaii Superferry and Young Brothers, Limited.

The intent of this measure is to facilitate the inter-island shipping of vehicles by inter-island ferry carriers. Requiring the presentation of the certificate of registration, identification, and proof of motor vehicle insurance helps prevent the shipping of stolen vehicles from one island to another. However, your Committee is concerned that the same rationale for exempting an inter-island ferry

might also apply to inter-island cargo container ships and barges. Therefore, your Committee believes that this measure requires further deliberation to ensure an equitable application.

Accordingly, your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2953, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2953, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3459 Ways and Means on H.B. No. 2505

The purpose of this measure is to streamline the permitting and approval process for renewable energy projects in the State.

Specifically, this measure establishes a full-time, permanent renewable energy facilitator position in the Department of Business, Economic Development, and Tourism, and appropriates moneys.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; Hawaii Energy Policy Forum; and Castle and Cooke Hawaii.

Your Committee recognizes the importance of increasing Hawaii's energy self-sufficiency and achieving the State's energy goals of energy independence, greater energy security, and reduced greenhouse gas emissions. Your Committee finds that a renewable energy facilitator would be able to help streamline the permitting process to allow greater development of renewable energy resources in the State. In addition, your Committee acknowledges the importance of providing adequate funding to carry out Hawaii's long-term energy strategy and believes that additional sources of revenue must be developed to replace dwindling federal funds and continue the State's energy program.

In addition, your Committee finds that the renewable energy facilitator should have a certain amount of operational authority over the renewable energy facility siting process. Your Committee believes that the efficiency of this process is central to streamlining the implementation of renewable energy projects in the State.

Accordingly, your Committee has amended this measure by:

- (1) Establishing a permanent renewable energy facilitator position, exempt from chapter 76, within the Department of Business, Economic Development, and Tourism, and placing the mandate for this position in chapter 201, Hawaii Revised Statutes;
- (2) Including general qualifications for the position of renewable energy facilitator;
- (3) Directing the renewable energy facilitator to administer the day-to-day coordination of renewable energy projects on behalf of the Department and the day-to-day operations of the renewable energy facility siting process that is proposed in H.B. No. 2863, which is being recommended for passage on Third Reading by your Committees on Commerce, Consumer Protection and Affordable Housing and Ways and Means;
- (4) Requiring the renewable energy facilitator to submit periodic reports to the Legislature on renewable energy facilitation activities and the progress of the renewable energy facility siting process;
- (5) Funding the renewable energy facilitator position from the energy security special fund created in this measure;
- (6) Replacing the amount of the \$112,940 appropriated for the renewable energy facilitator position with an unspecified amount;
- (7) Inserting the contents of House Bill No. 3444, H.D. 2, S.D. 1, which provides additional funding for energy initiatives through the environmental response and energy security tax and energy security special fund, into part II of this measure, and further amending these provisions by:
 - (A) Increasing the environmental response and energy security tax to fifteen cents per barrel of petroleum, with five cents of the tax per barrel being distributed to the environmental response revolving fund, seven cents of the tax per barrel being distributed to the energy security special fund, and three cents per barrel of the tax being distributed to the energy systems development special fund;
 - (B) Deleting the reference in section 343-3.5(b)(1) to an unspecified amount of the per barrel tax to be used to address concerns related to drinking water;
 - (C) Establishing the energy security special fund in chapter 201, Hawaii Revised Statutes;
 - (D) Funding the energy security special fund, in part, with fees generated from the renewable energy facility siting process;
 - (E) Including, among the uses of the energy security special fund, funding of the renewable energy facilitator position and support of the renewable energy facility siting process that is proposed in H.B. No. 2863, which is being recommended for passage on Third Reading by your Committees on Commerce, Consumer Protection and Affordable Housing and Ways and Means; and
 - (F) Changing the source of the appropriation in section 3 of the measure from the general fund to the environmental response revolving fund, and specifying that this appropriation is for the purpose of providing initial funding for the renewable energy facilitator position until adequate revenue from the environmental response and energy security tax is deposited into the energy security special fund; and
- (8) Changing the effective date of this measure to July 1, 2050, to encourage further discussion on these issues; and

(9) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2505, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2505, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Ayes with Reservations, 1 (Whalen). Noes, none. Excused, none.

SCRep. 3460 Judiciary and Labor on H.B. No. 1984

The purpose of this measure is to prohibit the consumption of liquor on any public sidewalk or in the common area of a public housing project.

Your Committee received testimony in support of this measure from seventeen individuals. Testimony in opposition was submitted by the Honolulu Police Department.

Your Committee finds that the public consumption of liquor on the sidewalks and common areas of public housing projects may promote attendant illicit activities such as drug use and gang violence, and may result in the terrorization of residents and surrounding communities. A prohibition on public liquor consumption would help ensure the safety and welfare of public housing tenants and community residents.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1984, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3461 Judiciary and Labor on H.B. No. 2256

The purpose of this measure is to allow mutual benefit societies with less than five per cent of the health insurance market share offering contracts for dental and vision insurance to bundle different types of benefits into a single unified policy without violating anti-tying statutes.

Your Committee received testimony in support of this measure from the Hawaii Medical Assurance Association. Testimony in opposition was received from the State Insurance Commissioner, State Attorney General, State Farm Insurance Companies, and Hawaii Medical Services Association.

Your Committee finds that small insurers are essential in providing consumers with insurance coverage options where the consumers may not be able to readily obtain or afford coverage from larger insurers. In order to compete, small insurers frequently exercise the longstanding practice of "bundling" different classes of insurance, such as health, dental, and vision, together in a unified single policy to provide broader insurance coverage as well as greater flexibility and pricing options for consumers. This bill attempts to clarify that small insurers may bundle different classes of insurance.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2256, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3462 Ways and Means on H.B. No. 2547

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to Maui Preparatory Academy for the planning, construction, improvement, and equipping of its educational facilities.

Testimony in support of the measure was submitted by the Hawaii Association of Independent Schools and Maui Preparatory Academy.

This measure will facilitate the goal of Maui Preparatory Academy to expand into a full pre-kindergarten to twelfth grade school. The school is presently a pre-kindergarten to tenth grade school.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2547, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, none.

SCRep. 3463 Ways and Means on H.B. No. 2955

The purpose of this measure is to establish an archaeological data survey as an online database program under the State of Hawaii Museum of Natural and Cultural History.

More specifically, the measure provides online access to a range of Hawaiian archeological information for the benefit of archaeologists, researchers, educators, and the public. The measure authorizes the Museum, in consultation with the Office of Hawaiian Affairs and the State Historic Preservation Division of the Department of Land and Natural Resources, to withhold information from the database if disclosure poses a threat to a site or artifact.

Testimony in support of the measure was received from the Office of Hawaiian Affairs, the Bishop Museum, and two private individuals. The Board of Land and Natural Resources submitted comments.

Your Committee finds that establishing an online database for the collection and dissemination of important archaeological information would increase awareness of traditional Hawaiian material culture and facilitate improved preservation of Hawaiian

archeological resources. In touting the benefits of online access to information, your Committee also recognizes the importance of safeguarding confidential and sensitive information regarding Hawaii's historic and cultural sites, as permitted by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2955, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Kim, Menor).

SCRep. 3464 Ways and Means on H.B. No. 2003

The purpose of this measure is to support energy initiatives in the State.

Specifically, this measure appropriates an unspecified amount of funds in part I for the Hawaii Energy Policy Forum at the University of Hawaii to continue to:

- (1) Implement the Forum's Ten Point Plan to meet Hawaii's energy goals;
- (2) Monitor energy-related policies and programs to achieve the energy vision and goals of the Forum;
- (3) Refine and evaluate benchmarks for measuring outcomes of energy implementation strategies;
- (4) Engage Hawaii's business, government, labor, and community leaders and integrate them into the policy activities and discussions of the Forum; and
- (5) Educate the greater community and create public awareness about Hawaii's energy needs.

The Hawaii Energy Policy Forum is to submit a report on the updated detailed action plan and timeline to the Legislature no later than twenty days prior to the convening of the regular session of 2009.

This measure also appropriates an unspecified amount of funds in part II to support the continued work of the Hawaii Energy Policy forum with the Energy-Efficient Transportation Strategies Working Group created by Act 254, Session Laws of Hawaii 2007, to develop energy-efficient transportation strategies. More specifically, the provisions:

- (1) Require the Hawaii Energy Policy Forum at the University of Hawaii at Manoa to conduct a study on energy-efficient transportation strategies in conjunction with the Department of Business, Economic Development, and Tourism; Department of Transportation; each county; and other members of the Energy-Efficient Transportation Strategies Working Group. The study is to include:
 - (A) Determining the availability of data;
 - (B) Identifying gaps in critical data; and
 - (C) Developing a plan for developing, using, and maintaining a statewide transportation energy-efficiency information and monitoring system; and
- (2) Provide funding to be expended by the Social Sciences Public Policy Center at the University of Hawaii to collect and analyze data and to develop a plan for developing, using, and maintaining a statewide transportation energy-efficiency information and monitoring system.

The Hawaii Energy Policy Forum is to submit an interim progress report and a final report of its findings and recommendations to the Legislature no later than twenty days prior to the convening of the regular sessions of 2009 and 2010, respectively.

Your Committee received testimony in support of this measure from the Hawaii Energy Policy Forum, Alliance of Automobile Manufacturers, Hawaiian Electric Company, Inc., and the Hawaii Solar Energy Association. The Department of Business, Economic Development, and Tourism, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and the University of Hawaii submitted comments.

Your Committee finds that the State must continue its efforts to reduce dependence on fossil fuels. Your Committee further finds that this measure builds on the considerable work and progress made by the Hawaii Energy Policy Forum and Energy-Efficient Transportation Strategies Working Group towards a more sustainable, renewable, and affordable energy future.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2003, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 8. Noes, none. Excused, 4 (Chun Oakland, English, Menor, Hemmings).

SCRep. 3465 Education on S.C.R. No. 118

The purpose of this measure is to request the Department of Education to convene a task force to study funding adequacy and the achievement thereof.

Testimony in opposition of the measure was submitted by the Department of Education.

Your Committee finds that public schools in Hawaii are in dire need of funding not only to provide adequate facilities and learning materials to meet current mandates for schools, but also to strive to achieve a comprehensive public education system that provides state-of-the-art facilities, qualified teachers and administrators, and cutting-edge learning experiences for children in preschool through postsecondary education. Although the task often seems insurmountable, it is critical to address the current and future funding needs of the public school system as well as the propriety of appropriations made and the use of those funds.

This measure requests the Department of Education to convene a task force to examine methods for determining the current funding inadequacies and methods establishing a workable plan necessary to address such inadequacies. However, your Committee determines that, while adequacy of funding is a key issue, transparency and accountability of the Department of Education is also crucial in ensuring that high quality public education is being provided, which includes the improvement, expansion, and establishment of new facilities and programs, as necessary.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the request that the Department of Education convene a task force to study funding adequacy within the public school system;
- (2) Changing the title of the measure to reflect the Legislature's request for status reports on recommendations of program and school audits including comparisons of Hawaii's utilization and adequacy of funding;
- (3) Requesting the Department of Education to convene a working group to propose areas for improved transparency and an implementation plan for such purpose;
- (4) Specifying areas and issues for the working group to consider;
- (5) Requesting the Hawaii Policy Education Center to conduct a study of existing data that compares Hawaii, national averages, Massachusetts, Minnesota, New Hampshire, Connecticut, Kansas, and Washington and at least five other "peer" states suggested by the Department of Education in specified areas; and
- (6) Requesting the working group and the Hawaii Educational Policy Center to report to the Legislature prior to the Regular Session of 2009.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 118, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 118, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Ayes with Reservations, 1 (Taniguchi). Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 3466 Energy and Environment on S.C.R. No. 126

The purpose of this measure is to request the Department of Health to establish a Global Warming Task Force to assess the effects of global warming in the State.

Testimony in support of this measure was submitted by The Nature Conservancy of Hawaii. Testimony in opposition to this measure was submitted by the Department of Health. Comments were submitted by Windward Ahupua'a Alliance.

Your Committee finds that Hawaii, as an island state, is particularly vulnerable to rising ocean levels and other consequences of global warming; and therefore, the State must take action to address the near-term and long-term effects of global warming. However, before action may be taken, efforts must be made to fully predict and evaluate the effects that rising ocean levels and other consequences of climate change will have upon Hawaii.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 126 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 3467 Energy and Environment on S.R. No. 65

The purpose of this measure is to request the Department of Health to establish a Global Warming Task Force to assess the effects of global warming in the State.

Testimony in support of this measure was submitted by The Nature Conservancy of Hawaii. Testimony in opposition to this measure was submitted by the Department of Health. Comments were submitted by Windward Ahupua'a Alliance.

Your Committee finds that Hawaii, as an island state, is particularly vulnerable to rising ocean levels and other consequences of global warming; and therefore, the State must take action to address the near-term and long-term effects of global warming. However, before action may be taken, efforts must be made to fully predict and evaluate the effects that rising ocean levels and other consequences of climate change will have upon Hawaii.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 65 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 3468 (Joint) Energy and Environment and Education on S.C.R. No. 230

The purpose of this measure is to request the University of Hawaii College of Social Sciences Public Policy Center to convene a task force to evaluate recycling options available to schools and prepare a feasibility report on the establishment of a school recycling program in the State.

Testimony in support of this measure was submitted by the Hawaii Food Industry Association; and Hawaii Foam Products, LLC. Comments were submitted by the Superintendent of Education.

Your Committees find that this measure promotes the recycling industry, as schools can help create infrastructure and supply raw materials that will lead to opportunities for the development of recycling projects in the private sector.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 230 and recommend its adoption.

Signed by the Chair and the Vice Chair on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Ihara, Kokubun, Taniguchi, Tokuda).

SCRep. 3469 Health on S.C.R. No. 161

The purpose of this measure is to protect public health and safety by requesting the Department of Health to implement a statewide rainwater detention and retention pond safety program.

Your Committee received testimony in support of this measure from the ILWU Local 142; Dowling Company, Inc.; and thirty seven individuals. The Coalition of Hawaii Engineering and Architectural Professionals submitted comments on this measure.

Your Committee finds that rainwater retention and detention ponds need to be regulated in order to protect public health and safety. The costs of implementing a statewide rainwater detention and retention pond safety program are minimal, particularly when a child's safety is put at risk.

Your Committee has amended this measure to clarify that the safety program is not intended to apply to golf course properties.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 161, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 161, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3470 (Joint) Health and Education on S.R. No. 14

The purpose of this measure is to request the Department of Health to assess the advantages and disadvantages of requiring cervical cancer vaccinations for girls before they enter the seventh grade.

Your Committees received testimony with comments on this measure from the Department of Health.

Your Committees find that the Department of Health's Immunization Branch convened a working group in 2007 that is currently working with Department and community stakeholders to review and update school immunization and examination requirements. This working group should additionally be requested to assess the advantages and disadvantages of requiring cervical cancer vaccinations for girls before they enter the seventh grade.

Accordingly, your Committees have amended this measure requesting the working group to assess the advantages and disadvantages of requiring cervical cancer vaccinations for girls before they enter the seventh grade.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 14, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 14, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3471 (Joint) Health and Education on S.C.R. No. 20

The purpose of this measure is to request the Department of Health to assess the advantages and disadvantages of requiring cervical cancer vaccinations for girls before they enter the seventh grade.

Your Committees received testimony with comments on this measure from the Department of Health.

Your Committees find that the Department of Health's Immunization Branch convened a working group in 2007 that is currently working with Department and community stakeholders to review and update school immunization and examination requirements. This working group should additionally be requested to assess the advantages and disadvantages of requiring cervical cancer vaccinations for girls before they enter the seventh grade.

Accordingly, your Committees have amended this measure requesting the working group to assess the advantages and disadvantages of requiring cervical cancer vaccinations for girls before they enter the seventh grade.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 20, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 20, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3472 (Joint) Human Services and Public Housing and Education on S.R. No. 116

The purpose of this measure is to request that the William S. Richardson School of Law conduct a study of the federal, state, and county statutes and laws relating to adult residential care home facilities, including an examination of the impact that the care home facilities have on the communities in which they are located.

Testimony in support of this measure was submitted by a professor from the William S. Richardson School of Law, the Aina Haina Community Association, and six private citizens. Testimony in opposition to this measure was submitted by the Hawaii Coalition of Caregivers.

Your Committees find that moderated discussions among all interested parties would be the first step to create the public fora necessary to achieve greater balance between the needs of the senior and disabled populations served by Type II adult residential care homes (ARCH) and the rights and interests of home-owners and residents in the communities in which ARCH II facilities are located.

Your Committees have amended this measure and its title by:

- (1) Changing the requested study to a request for the William S. Richardson School of Law to facilitate a discussion among all interested parties relating to the impact that ARCH II facilities have on their respective communities, and include in its report any proposed legislation concerning the creation of appropriate venues for public comment on proposed residential care facilities or on-going discussion or comment concerning facilities in operation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 116, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 116, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Ihara). Noes, none. Excused, 4 (Hooser, Nishihara, Taniguchi, Tokuda).

SCRep. 3473 (Joint) Human Services and Public Housing and Education on S.C.R. No. 202

The purpose of this measure is to request that the William S. Richardson School of Law conduct a study of the federal, state, and county statutes and laws relating to adult residential care home facilities, including an examination of the impact that the care home facilities have on the communities in which they are located.

Testimony in support of this measure was submitted by a professor from the William S. Richardson School of Law, the Aina Haina Community Association, and six private citizens. Testimony in opposition to this measure was submitted by the Hawaii Coalition of Caregivers.

Your Committees find that moderated discussions among all interested parties would be the first step to create the public fora necessary to achieve greater balance between the needs of the senior and disabled populations served by Type II adult residential care homes (ARCH) and the rights and interests of home-owners and residents in the communities in which ARCH II facilities are located.

Your Committees have amended this measure and its title by:

- (1) Changing the requested study to a request for the William S. Richardson School of Law to facilitate a discussion among all interested parties relating to the impact that ARCH II facilities have on their respective communities, and include in its report any proposed legislation concerning the creation of appropriate venues for public comment on proposed residential care facilities or on-going discussion or comment concerning facilities in operation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 202, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 202, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Ihara). Noes, none. Excused, 4 (Hooser, Nishihara, Taniguchi, Tokuda).

SCRep. 3474 Water and Land on S.C.R. No. 17

The purpose of this measure is to urge the Department of Land and Natural Resources ("DLNR") to develop and adopt administrative rules regarding the creation and enforcement of bag limits for ornamental fish.

Testimony in support of this measure was submitted by the Kihei Community Association, Ko'olaupoko Hawaiian Civic Club, The Humane Society of the United States/Humane Society International, and fifty-two individuals. Testimony in support of the intent of this measure was submitted by the Department of Land and Natural Resources, and one individual. Testimony in support of this measure with amendments was submitted by the Office of Hawaiian Affairs, and two individuals. Testimony in opposition to this measure was submitted by the Hawaii Tropical Fish Association; Milly All Seas Fisheries; Greg Tides In, Inc.; and five individuals.

Your Committee has amended this measure and its title as follows:

- (1) Urging the DLNR to consult with the University of Hawaii School of Ocean and Earth Science and Technology, Department of Oceanography, Hawaii Institute of Marine Biology, and the Waikiki Aquarium, to develop and adopt administrative rules regarding the collection of ornamental reef fish;
- (2) Urging the DLNR to establish fish replenishment areas for the waters surrounding Oahu and Maui, the purpose of which shall be limited to the replenishment of ornamental, non-consumptive fish. The fish replenishment areas for Oahu and Maui are requested to be modeled after the program established by the West Hawaii Fisheries Council; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 17, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 17, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3475 Water and Land on S.R. No. 11

The purpose of this measure is to urge the Department of Land and Natural Resources (“DLNR”) to develop and adopt administrative rules regarding the creation and enforcement of bag limits for ornamental fish.

Testimony in support of this measure was submitted by the Kihei Community Association, Ko‘olaupoko Hawaiian Civic Club, The Humane Society of the United States/Humane Society International, and fifty-two individuals. Testimony in support of the intent of this measure was submitted by the Department of Land and Natural Resources, and one individual. Testimony in support of this measure with amendments was submitted by the Office of Hawaiian Affairs, and two individuals. Testimony in opposition to this measure was submitted by the Hawaii Tropical Fish Association; Milly All Seas Fisheries; Greg Tides In, Inc.; and five individuals.

Your Committee has amended this measure and its title as follows:

- (1) Urging the DLNR to consult with the University of Hawaii School of Ocean and Earth Science and Technology, Department of Oceanography, Hawaii Institute of Marine Biology, and the Waikiki Aquarium, to develop and adopt administrative rules regarding the collection of ornamental reef fish;
- (2) Urging the DLNR to establish fish replenishment areas for the waters surrounding Oahu and Maui, the purpose of which shall be limited to the replenishment of ornamental, non-consumptive fish. The fish replenishment areas for Oahu and Maui are requested to be modeled after the program established by the West Hawaii Fisheries Council; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 11, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 11, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3476 Water and Land on S.C.R. No. 147

The purpose of this measure is to request the Department of Land and Natural Resources to regularly consult with Ho‘olaulima Ia Kawai Nui to coordinate efforts to protect, preserve, and maintain the natural, cultural, and scenic resources of Kawainui Marsh.

Testimony in support of the intent of this measure was submitted by the Department of Land and Natural Resources and Office of Hawaiian Affairs. ‘Ahahui Malama I Ka Lokahi and Kawai Nui Heritage Foundation submitted testimony in support with proposed amendments. Testimony in opposition of this measure was submitted by the Windward Ahupua‘a Alliance.

Your Committee finds that despite their significance to Hawaii’s environment, wetlands such as Kawainui Marsh are increasingly threatened by urban sprawl as the wetlands are drained, dredged, and filled to provide land for residential and commercial development. Your Committee further finds that since 2003, Ho‘olaulima ia Kawai Nui has been actively advocating to unite county, state, and federal agencies to further the goal of consolidating the ownership of the Kawainui/Hamakua Marsh complex under the State. It is the recommendation of your Committee that the Department of Land and Natural Resources regularly consult with Ho‘olaulima ia Kawai Nui and other interested stakeholders regarding the Kawainui/Hamakua Marsh complex.

Your Committee has amended this measure and its title by:

- (1) Amending references to “Kawai Nui” to “Kawainui” to accurately reflect the historical spelling of this place name;
- (2) Amending references to “Kawai Nui Marsh” to the “Kawainui/Hamakua Marsh complex” to reflect the inclusion of the Hamakua wetlands and related waterways that enter and leave the Kawainui Marsh;
- (3) Providing for the inclusion of interested stakeholders in consultations between Ho‘olaulima ia Kawai Nui and the Department of Land and Natural Resources and changing the focus of the consultations to coordinating efforts to protect, conserve, and restore the natural, cultural, and scenic resources of the Kawainui/Hamakua Marsh Complex; and
- (4) Making technical, nonsubstantive, amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 147, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 147, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3477 Water and Land on S.R. No. 79

The purpose of this measure is to request the Department of Land and Natural Resources to regularly consult with Ho‘olaulima Ia Kawai Nui to coordinate efforts to protect, preserve, and maintain the natural, cultural, and scenic resources of Kawainui Marsh.

Testimony in support of the intent of this measure was submitted by the Department of Land and Natural Resources and Office of Hawaiian Affairs. ‘Ahahui Malama I Ka Lokahi and Kawai Nui Heritage Foundation submitted testimony in support with proposed amendments. Testimony in opposition of this measure was submitted by the Windward Ahupua‘a Alliance.

Your Committee finds that despite their significance to Hawaii’s environment, wetlands such as Kawainui Marsh are increasingly threatened by urban sprawl as the wetlands are drained, dredged, and filled to provide land for residential and commercial development. Your Committee further finds that since 2003, Ho‘olaulima ia Kawai Nui has been actively advocating to unite county, state, and federal agencies to further the goal of consolidating the ownership of the Kawainui/Hamakua Marsh complex under the State. It is the recommendation of your Committee that the Department of Land and Natural Resources regularly consult with Ho‘olaulima ia Kawai Nui and other interested stakeholders regarding the Kawainui/Hamakua Marsh complex.

Your Committee has amended this measure and its title by:

- (1) Amending references to “Kawai Nui” to “Kawainui” to accurately reflect the historical spelling of this place name;
- (2) Amending references to “Kawai Nui Marsh” to the “Kawainui/Hamakua Marsh complex” to reflect the inclusion of the Hamakua wetlands and related waterways that enter and leave the Kawainui Marsh;

- (4) Making technical, nonsubstantive, amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 79, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 79, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3478 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 308

Recommending that the Senate advise and consent to the nomination of the following:

HOISTING MACHINE OPERATORS ADVISORY BOARD

G.M. No. 308 THOMAS S. VENDETTA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Thomas S. Vendetta to have the necessary qualifications to be nominated to the Hoisting Machine Operators Advisory Board for a second term.

Testimony in support of Mr. Vendetta’s nomination was submitted by the Department of Labor and Industrial Relations.

Mr. Vendetta graduated from Waianae High School and received his Bachelor of Science degree in Civil Engineering from the University of Hawaii. He currently serves as the Chief of the Division of Industrial Safety and Workers’ Compensation, Department of Human Resources, City and County of Honolulu where he is responsible for administering the City’s safety and self-insured workers’ compensation program. Prior to his current position, he served as a Civil Engineer and later as a Refuse Disposal Operations Engineer for the Department of Public Works, City and County of Honolulu.

Mr. Vendetta is a member of the National Safety Council; a Chairperson of the Vehicle Accident Review Committee, City and County of Honolulu; a member of the Local Emergency Planning Committee, City and County of Honolulu; and a member of the Hawaii Occupational Safety and Health (HIOSH) Advisory Committee, Department of Labor and Industrial Relations.

Mr. Vendetta is being nominated to serve a second term on the Hoisting Machine Operators Advisory Board where he currently serves as its Chairperson. His participation in discussions of Board matters and his leadership skills have had positive effects in effectively moving crane certification and enforcement matters and issues forward. Mr. Vendetta’s demonstrated commitment, motivation, education, and professional experiences will greatly assist the Hoisting Machine Operators Advisory Board for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3479 Human Services and Public Housing on Gov. Msg. Nos. 350, 351, 352 and 353

Recommending that the Senate advise and consent to the nominations of the following:

STATEWIDE COUNCIL ON INDEPENDENT LIVING

G.M. No. 350 LILLIAN GONZALES BROWN, for a term to expire 6-30-2011;

G.M. No. 351 LOUISE R. HORIO, for a term to expire 6-30-2011;

G.M. No. 352 MARGARET LEVY-DOHANOS CAN, for a term to expire 6-30-2011; and

G.M. No. 353 SANDRA K. MEEHAN, for a term to expire 6-30-2011

Your Committee received written testimony in support of each of the nominees from the Department of Human Services and oral testimony in support of each of the nominees from the State Independent Living Council (SILC).

Your Committee received additional written testimony in support of nominee Louise R. Horio from the Interagency COORDINATION Councils and two private citizens. Written comments on the nomination were submitted by the Disability and Communication Access Board.

Your Committee received additional written testimony in support of nominee Margaret Levy-Dohanos Can from CareResource Hawaii, and two private citizens.

Your Committee received additional written testimony in support of nominee Sandra K. Meehan from Hawaii Fi-Do Service and Therapy Dogs and one private citizen.

Nominee Brown currently serves as the SILC Treasurer. An individual with a disability herself, she is also a freelance disability educator and consultant.

Nominee Horio currently serves as a substitute member of SILC. She is a retired school teacher of thirty years, now physically disabled and significantly visually impaired, the current President of Hui Kupuna VIP, a senior group of visually impaired persons, and a member of the Working Group to develop the 2008 Interagency Action Plan for the Emergency Preparedness of People with Disabilities and Special Health Needs.

Nominee Can currently serves as a member of SILC. She has been a certified nursing assistant and caregiver for seventeen years, a longtime public transportation and paratransit advocate, is a founding member/owner of the Paradise Home Care Cooperative set to open in June 2008, and a member of the Puna Community Development Plan Mass Transit Working Group.

Nominee Meehan currently serves as the Chair of SILC. She has considerable work experience in independent living and the development of independent living outreach services and centers, including directorship of the Tri-County Independent Living Center, advocate with the Association of Independent Living Centers of Utah, and outreach coordinator for the Hawaii Centers for Independent Living. She is also an individual with a disability, and has been a longtime advocate for persons with disabilities.

Upon review of the testimony, personal history, and statements submitted by the nominees, your Committee finds that the nominees have the necessary qualifications to serve on the Statewide Council on Independent Living.

As affirmed by the records of votes of the members of your Committee on Human Services and Public Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3480 Human Services and Public Housing on Gov. Msg. No. 355

Recommending that the Senate advise and consent to the nomination of the following:

STATE REHABILITATION COUNCIL

G.M. No. 355 LARRY M. LITTLETON, for a term to expire 6-30-2011

Your Committee received testimony in support of the nominee from the Office of the Mayor of the County of Kauai, the Department of Human Services, and the State Rehabilitation Council (Council). Written comments regarding the nominee were submitted by the Disability and Communication Access Board.

Nominee Littleton has been an active member of the Council for the past three years. As a member of the Council's Human Resources Committee, the nominee was instrumental in producing the Council's first ever brochure of the Hawaii SRC Public Education Initiative, aimed at educating employers about the many positive aspects of hiring persons with disabilities. The nominee has co-chaired the Kauai Mayor's Advisory Committee on Equal Access, and has been an active member of the Working Group to develop the 2008 Interagency Action Plan for the Emergency Preparedness of People with Disabilities and Special Health Needs. Further, the nominee has a sensory disability and represents the County of Kauai. Nominee Littleton will continue to be a valuable asset to the Council and those it serves.

Upon review of the testimony, your Committee finds that the nominee has the necessary qualifications to continue to serve on the State Rehabilitation Council.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 3481 (Joint) Education, Agriculture and Hawaiian Affairs, Economic Development and Taxation and Water and Land on S.C.R. No. 235

The purpose of this measure is to:

- (1) Request the University of Hawaii at Manoa to expand upon its Master of Arts program in Applied Archaeology;
- (2) Request the University of Hawaii at Manoa to establish a graduate program in Cultural Resource Management at the University of Hawaii at Hilo; and
- (3) Request the State Historical Preservation Division of the Department of Land and Natural Resources to revive its archaeological working group.

Testimony in support of the measure was submitted by the Bishop Museum and the Society for Hawaiian Archaeology. Comments on the measure were submitted by the Department of Land and Natural Resources and the University of Hawaii System.

Your Committees find that cultural and historic preservation are of critical importance to the State and its residents, and the State must work to ensure that such is supported and perpetuated. As is the case in many other areas of great importance throughout the State, there is currently a shortage of qualified individuals with proper education, credentials, and experience to understand and address the needs and concerns regarding cultural and historic preservation of the Hawaiian culture. This measure requests the University of Hawaii to develop and grow a graduate program in Applied Archaeology at its Manoa campus as well as throughout the other campuses and Cultural Resources Management at its Hilo campus. Your Committees determine that the development and expansion of these programs will help to grow a qualified workforce in Hawaii without requiring residents to pursue an education in these areas elsewhere and will ultimately provide for the preservation of the Hawaiian culture and history.

Your Committees further find that in 2006, the State Historic Preservation Division of the Department of Land and Natural Resources established an archaeological working group to address current and future archaeological issues in Hawaii. However, the working group was unable to complete its work and issue its findings and recommendations based thereupon. This measure also requests the State Historic Preservation Division of the Department of Land and Natural Resources to reconvene the working group to complete its work. Your Committees determine that the working group's findings and recommendations will help to provide valuable guidance on necessary planning and action by the State to ensure the proper preservation and protection of Hawaiian history and culture.

Your Committees have amended this measure by making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education, Agriculture and Hawaiian Affairs, Economic Development and Taxation, and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 235, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 235, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 6 (Chun Oakland, English, Ige, Kokubun, Nishihara, Taniguchi).

SCRep. 3482 (Joint) Education, Agriculture and Hawaiian Affairs, Economic Development and Taxation and Water and Land on S.R. No. 138

The purpose of this measure is to:

- (1) Request the University of Hawaii at Manoa to expand upon its Master of Arts program in Applied Archaeology;
- (2) Request the University of Hawaii at Manoa to establish a graduate program in Cultural Resource Management at the University of Hawaii at Hilo; and
- (3) Request the State Historical Preservation Division of the Department of Land and Natural Resources to revive its archaeological working group.

Testimony in support of the measure was submitted by the Bishop Museum and the Society for Hawaiian Archaeology. Comments on the measure were submitted by the Department of Land and Natural Resources and the University of Hawaii System.

Your Committees find that cultural and historic preservation are of critical importance to the State and its residents, and the State must work to ensure that such is supported and perpetuated. As is the case in many other areas of great importance throughout the State, there is currently a shortage of qualified individuals with proper education, credentials, and experience to understand and address the needs and concerns regarding cultural and historic preservation of the Hawaiian culture. This measure requests the University of Hawaii to develop and grow a graduate program in Applied Archaeology at its Manoa campus as well as throughout the other campuses and Cultural Resources Management at its Hilo campus. Your Committees determine that the development and expansion of these programs will help to grow a qualified workforce in Hawaii without requiring residents to pursue an education in these areas elsewhere and will ultimately provide for the preservation of the Hawaiian culture and history.

Your Committees further find that in 2006, the State Historic Preservation Division of the Department of Land and Natural Resources established an archaeological working group to address current and future archaeological issues in Hawaii. However, the working group was unable to complete its work and issue its findings and recommendations based thereupon. This measure also requests the State Historic Preservation Division of the Department of Land and Natural Resources to reconvene the working group to complete its work. Your Committees determine that the working group's findings and recommendations will help to provide valuable guidance on necessary planning and action by the State to ensure the proper preservation and protection of Hawaiian history and culture.

Your Committees have amended this measure by making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education, Agriculture and Hawaiian Affairs, Economic Development and Taxation, and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 138, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 138, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 6 (Chun Oakland, English, Ige, Kokubun, Nishihara, Taniguchi).

SCRep. 3483 (Joint) Human Services and Public Housing and Commerce, Consumer Protection and Affordable Housing on S.C.R. No. 152

The purpose of this measure is to request that the Hawaii Public Housing Authority and the Hawaii Housing Finance and Development Corporation create a master plan to redevelop Kukui Gardens and Mayor Wright Homes that includes mixed use commercial and residential market rate housing as well as low- to moderate-income housing.

Written comments on the measure were submitted by the Hawaii Public Housing Authority and the Hawaii Housing Finance and Development Corporation.

Your Committees find that this measure will improve the condition of both of these public housing facilities, as well as the overall quality of life for residents and the surrounding community.

Your Committees have amended this measure and its title by requesting that the Hawaii Public Housing Authority and the Hawaii Housing Finance and Development Corporation convene a working group to create the redevelopment master plans for Kukui Gardens and Mayor Wright Homes, that will include representatives from Kukui EAH/DGI Associates, L.P., residents of the public housing projects, and other community stakeholders.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 152, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 152, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Ige, Hemmings, Trimble).

SCRep. 3484 (Joint) Human Services and Public Housing and Commerce, Consumer Protection and Affordable Housing on S.R. No. 82

The purpose of this measure is to request that the Hawaii Public Housing Authority and the Hawaii Housing Finance and Development Corporation create a master plan to redevelop Kukui Gardens and Mayor Wright Homes that includes mixed use commercial and residential market rate housing as well as low- to moderate-income housing.

Written comments on the measure were submitted by the Hawaii Public Housing Authority and the Hawaii Housing Finance and Development Corporation.

Your Committees find that this measure will improve the condition of both of these public housing facilities, as well as the overall quality of life for residents and the surrounding community.

Your Committees have amended this measure and its title by requesting that the Hawaii Public Housing Authority and the Hawaii Housing Finance and Development Corporation convene a working group to create the redevelopment master plans for Kukui Gardens and Mayor Wright Homes, that will include representatives from Kukui EAH/DGI Associates, L.P., residents of the public housing projects, and other community stakeholders.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 82, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 82, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Ige, Hemmings, Trimble).

SCRep. 3485 (Joint) Health and Human Services and Public Housing on H.C.R. No. 53

The purpose of this measure is to support the continuation of work being completed by the 2007 Waitlist Task Force created by the Healthcare Association of Hawaii, regarding data analysis in finding solutions to the problem of patients waitlisted for long-term care.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii.

Your Committees find that Senate Concurrent Resolution No. 198 that was adopted by the 2007 Legislature requested the Healthcare Association of Hawaii to study the problem of patients being waitlisted for long-term care. Your Committees further find that the 2007 Waitlist Task Force, created by the Healthcare Association of Hawaii, has completed a substantial amount of work and has submitted a report and proposed legislation that addresses many of the problem areas identified through its research. However, continued support is necessary to enable the task force to complete its data analysis on additional areas of need that are identified in its December 2007 Waitlist Task Force Report.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 53, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3486 Tourism and Government Operations on S.C.R. No. 93

The purpose of this measure is to urge the State Building Code Council to adopt provisions in the International Building Code, 2006 Edition, relating to physical assistance in evacuation for residents in assisted living facilities or similar facilities.

Testimony in support of the measure was submitted by the Department of Human Services, the Department of Accounting and General Services, the Disability and Communication Access Board, and the City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that, given Hawaii's aging population, the State must support efforts to address long-term care needs and initiatives to assist elderly individuals to age in place. Assisted living facilities provide a combination of housing and personalized support services designed to respond to individual needs and to promote choice, responsibility, independence, privacy, dignity, and individuality. The care provided in assisted living facilities allows those seniors who do not require the level of care that is required in skilled nursing facilities to receive appropriate assistance while preserving and maintaining their independence.

This measure requests the State Building Code Council to adopt provisions of the International Building Code that relate to physical assistance in evacuation for residents in assisted living facilities, or other appropriate measures. Your Committee determines that the adoption of such provisions is necessary for promoting the safety of assisted living facilities, which is also critical to expanding long-term care options in Hawaii.

Your Committee has amended this measure by including language to express the consensus of the Department of Human Services, the Department of Accounting and General Services, and the City and County of Honolulu that such provisions be included in the State Building Code.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 93, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 93, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 3487 Tourism and Government Operations on S.R. No. 53

The purpose of this measure is to urge the State Building Code Council to adopt provisions in the International Building Code, 2006 Edition, relating to physical assistance in evacuation for residents in assisted living facilities or similar facilities.

Testimony in support of the measure was submitted by the Department of Human Services, the Department of Accounting and General Services, the Disability and Communication Access Board, and the City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that, given Hawaii's aging population, the State must support efforts to address long-term care needs and initiatives to assist elderly individuals to age in place. Assisted living facilities provide a combination of housing and personalized support services designed to respond to individual needs and to promote choice, responsibility, independence, privacy, dignity, and individuality. The care provided in assisted living facilities allows those seniors who do not require the level of care that is required in skilled nursing facilities to receive appropriate assistance while preserving and maintaining their independence.

This measure requests the State Building Code Council to adopt provisions of the International Building Code that relate to physical assistance in evacuation for residents in assisted living facilities, or other appropriate measures. Your Committee determines that the adoption of such provisions is necessary for promoting the safety of assisted living facilities, which is also critical to expanding long-term care options in Hawaii.

Your Committee has amended this measure by including language to express the consensus of the Department of Human Services, the Department of Accounting and General Services, and the City and County of Honolulu that such provisions be included in the State Building Code.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 53, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 53, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 3488 Energy and Environment on Gov. Msg. Nos. 470, 471, 472, 473, 474, 475 and 476

Recommending that the Senate advise and consent to the nominations of the following:

ENVIRONMENTAL COUNCIL

G.M. No. 470 ROBERT T. INOUE, for a term to expire 6-30-2008;

G.M. No. 471 ROBERT T. INOUE, for a term to expire 6-30-2012;

G.M. No. 472 ROBERT A. KING, for a term to expire 6-30-2012;

G.M. No. 473 WADE L. LORD, for a term to expire 6-30-2011;

G.M. No. 474 CHRISTOPHER B. STEELE, for a term to expire 6-30-2011;

G.M. No. 475 JAMES RAY SULLIVAN, for a term to expire 6-30-2008; and

G.M. No. 476 JAMES RAY SULLIVAN, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees and submitted testimony, your Committee finds the aforementioned nominees to have the necessary qualifications to be nominated to the Environmental Council.

Your Committee received testimony in support of the nomination of Robert T. Inouye from the Office of Environmental Quality Control, a member of the County Council County of Kauai; Okahara and Associates, Inc.; a Business Officer from the Naval Facilities Engineering Command, Pacific; and five private citizens.

Mr. Inouye holds a Bachelor of Science degree in Chemical Engineering from Purdue University. His professional experience includes involvement in sugar production, mechanical engineering, and wastewater systems. As an environmental coordinator at the Navy's Pacific Missile Range Facility, he managed power generation utilizing renewable fuel and engaged in environmental engineering management concerning issues involving the National Environmental Policy Act (NEPA) and cultural and natural resources.

Your Committee received testimony in support of the nomination of Robert A. King from the Office of Environmental Quality Control; Hawaii Small Business Development Center Network; and two private citizens.

Mr. King attended California State University, Chico and his professional experience includes operating a marine repair business and marine and power generation sales and service. He is the President of Pacific Biodiesel and as such, oversees operations in Hawaii, Oregon, and Texas, as well as construction in the United States and Asia. He is also a founding member of the Sustainable Biodiesel Alliance and the Hawaii Ag Alliance.

Mr. King is the current Chair of the Environmental Council and a member of the Annual Report Committee and the Administrative Rules Committee.

Your Committee received testimony in support of the nomination of Wade L. Lord from the Office of Environmental Quality Control; Kauai Chamber of Commerce; Kauai County Farm Bureau; A&B Properties, Inc.; CB Richard Ellis, Inc.; and eight private citizens.

Mr. Lord holds a Bachelor of Arts degree in Business Administration from California State University, Chico, a real estate sales license, and is a Certified Commercial Investment Manager (CCIM) Candidate Designee. His professional experience includes

commercial real estate business and real estate development focused on the field of redevelopment. He is also the current Chairman of the Kauai Visitors Bureau and a Hawaii Conventions & Visitors Bureau board member.

Mr. Lord has served on the Environmental Council as an interim member for the last six months, during which time he has been involved with the Legislation and Education/Cultural Committees.

Your Committee received testimony in support of the nomination of Christopher B. Steele from the Office of Environmental Quality Control; The Associated General Contractors of America; the American Lung Association of Hawaii; Rubber Pavements Association; Environmental Science International, Inc.; Maritime Consultants of the Pacific, LLC; Zero Emissions Leasing LLC; Argosy Acoustics Inc.; Stormwater Risk Management, LLC; LFR, Inc.; Est8Planning Counsel LLLC; and seven private citizens.

Mr. Steele holds a Bachelor of Science degree in Business from Hawaii Pacific University. His professional experience includes construction, marketing, and working as an environmental specialist in private industry. Having been employed by Grace Pacific since 1975, his career has spanned from equipment operator, foreman, supervisor, dispatcher, laboratory technician, superintendent, marketing and sales, to manager of environmental compliance.

Mr. Steele has served on the Environmental Council as an interim member for the last six months, during which time he has been involved with the Exemption List Committee. In addition, he has been active in various capacities with several professional organizations, including the Hawaii General Contractor Association, the Asphalt Rubberized Association, the Associated General Contractors of America, the American Rock Mechanics of America, the Hawaii Professional Environmental Association, the Hawaii Department of Transportation storm water committee and recycle specification committee, and the Association of Environmental Professionals of America.

Your Committee received testimony in support of the nomination of James Ray Sullivan from the Department of Business, Economic Development, and Tourism; Office of Environmental Quality Control; Actus Lend Lease; Architects Hawaii Ltd.; Chateau Waikiki; and the Lutheran Church of Honolulu.

Your Committee finds that Mr. Sullivan holds a Bachelor of Science degree in Mechanical Engineering from the California Polytechnic State University, specializing in heating, ventilating, air conditioning and refrigeration, and solar energy systems design. He also holds an Engineer-In Training Certificate. His professional experience includes involvement in the building of wastewater treatment plants, pumping stations, water treatment plants, and a 3.4 acre park. He is also a U.S. Green Building Council Leadership in Energy and Environmental Design (LEED) Accredited Professional, and has participated on several LEED projects as both a consultant and active team member. In addition, he is on the Chateau Waikiki AOA Board of Directors.

As affirmed by the records of votes of the members of your Committee on Energy and Environment that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3489 (Joint) Water and Land, Agriculture and Hawaiian Affairs and Transportation and International Affairs on S.R. No. 31

The purpose of this measure is to request the Department of Land and Natural Resources ("DLNR") to cooperate with the Department of Transportation ("DOT") to conduct a study as to the feasibility of providing a permanent port and dock facility for the Hawaiian voyaging canoes Hokule'a, Makali'i, Hokualaka'i, Nanahoe, and Mo'okiha.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources and Department of Transportation.

Your Committees find that voyaging canoes that are designed, built, and operated in the traditional manner of Pacific Islanders play an important role in preserving, perpetuating, and practicing traditional Hawaiian culture. The nonprofit organizations and educational institutions that promote traditional Hawaiian culture by usage of the voyaging canoes do not have a permanent place to dock them and are charged mooring fees by the DLNR. Your Committees recommend that the DLNR, in cooperation with the DOT, should conduct a study to determine whether it is feasible to provide a permanent port and dock facility for the voyaging canoes.

Your Committees have amended this measure and its title by requesting that the DLNR, in cooperation with the DOT, establish a working group of stakeholders to study the feasibility of providing a permanent port and dock facility for the voyaging canoes and to make a recommendation as to the location of a permanent port and dock facility. The working group is to consist of representatives of DLNR, DOT, and the Polynesian Voyaging Society.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Hawaiian Affairs and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 31, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 31, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Noes, none. Excused, 3 (Inouye, Tsutsui, Whalen).

SCRep. 3490 (Joint) Water and Land, Agriculture and Hawaiian Affairs and Transportation and International Affairs on S.C.R. No. 59

The purpose of this measure is to request the Department of Land and Natural Resources ("DLNR") to cooperate with the Department of Transportation ("DOT") to conduct a study as to the feasibility of providing a permanent port and dock facility for the Hawaiian voyaging canoes Hokule'a, Makali'i, Hokualaka'i, Nanahoe, and Mo'okiha.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources and Department of Transportation.

Your Committees find that voyaging canoes that are designed, built, and operated in the traditional manner of Pacific Islanders play an important role in preserving, perpetuating, and practicing traditional Hawaiian culture. The nonprofit organizations and educational institutions that promote traditional Hawaiian culture by usage of the voyaging canoes do not have a permanent place to dock them and are charged mooring fees by the DLNR. Your Committees recommend that the DLNR, in cooperation with the DOT, should conduct a study to determine whether it is feasible to provide a permanent port and dock facility for the voyaging canoes.

Your Committees have amended this measure and its title by requesting that the DLNR, in cooperation with the DOT, establish a working group of stakeholders to study the feasibility of providing a permanent port and dock facility for the voyaging canoes and to make a recommendation as to the location of a permanent port and dock facility. The working group is to consist of representatives of DLNR, DOT, and the Polynesian Voyaging Society.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Hawaiian Affairs and Transportation and International Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 59, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 59, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 10. Noes, none. Excused, 3 (Inouye, Tsutsui, Whalen).

SCRep. 3491 (Joint) Health and Judiciary and Labor on S.C.R. No. 208

The purpose of this measure is to recognize and acknowledge the people of Kalaupapa and their families for their sacrifices, and apologizing to the people of Kalaupapa and their families for any harsh restrictions that caused them undue pain as the result of government policies surrounding leprosy.

Your Committees received testimony in support of this measure from the International Association for Integration, Dignity, and Economic Advancement; Ka 'Ohana O Kalaupapa; the Kawaihapai Ohana; and five individuals.

Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees find that it is imperative that we sincerely acknowledge and honor with great gratitude the sacrifices that the people of Kalaupapa and their families have made. Your Committees recognize that the parties that testified on this resolution worked on compromise language. However, some of the Committee members have concerns that what was requested by the proponents of this measure was recognition and appreciation for the sacrifices that the patients and families made, rather than an apology.

Your Committees further find that the Department of Health testified in opposition to this measure due to potential state liability concerns that this measure may unintentionally pose.

Your Committees have amended this measure to address the concerns of the Department of Health, while upholding the intent of this measure by:

- (1) Changing the title and language of the measure to clarify the Legislature's intent to offer gratitude to the people of Kalaupapa and their families for their great sacrifices and hardships as a result of their forced isolation, which at the time was believed to protect the public's health;
- (2) Clarifying that the government has maintained Kalaupapa for the last remaining residents as long as they choose to remain there, and provides for their medical, food, and housing needs; and
- (3) Clarifying that while the adoption of this measure does not confer any legal cause of action or any legal rights, remedies, relief, restitution, or reparations on any person, it nonetheless apologizes for the past actions against, and treatment of, past and current residents of Kalaupapa.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 208, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 208, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Ayes with Reservations, 4 (Gabbard, Nishihara, Taniguchi, Slom). Noes, none. Excused, 3 (Hee, Kokubun, Menor).

SCRep. 3492 Ways and Means on S.C.R. No. 212

The purpose of this measure is to request the Auditor to perform a management, financial, and program audit of the Department of Business, Economic Development, and Tourism, focusing on:

- (1) Strategic marketing and support, creative industries, and general support for economic development;
- (2) The High Technology Development Corporation and the programs and entities under its purview; and
- (3) The Hawaii Strategic Development Corporation and the programs and entities under its purview.

The High Technology Development Corporation commented that it welcomes the audit, that it has been ten years since the last audit was done by the Auditor, and expressed the Corporation's desire for focus in the audit to not replicate the Corporation's annual federally-required audits due to its limited ability to respond as a result of budget cuts. The Hawaii Strategic Development Corporation also commented that it welcomes the audit, that the Corporation's revolving fund is audited annually, and that the Corporation is confident its actions will be found to be fully in support of state interests as intended by the Legislature.

Upon further consideration, your Committee has amended this measure by:

- (1) Amending the title of the measure to read:

“REQUESTING THE AUDITOR TO INVESTIGATE PROCUREMENT AND EXPENDITURE PRACTICES OF THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM AND SELECTED ATTACHED AGENCIES”; and

- (2) Deleting its contents and replacing it with a request for the Auditor to investigate procurement and expenditure practices of the Department of Business, Economic Development, and Tourism and selected attached agencies, including the High Technology Development Corporation, the High Technology Innovation Corporation, the Hawaii Strategic Development Corporation, and any programs and entities under each respective corporation.

The amended measure also requests the Auditor to investigate programs within the Department of Business, Economic Development, and Tourism that include but are not limited to those covering strategic marketing and support, including the overseas offices, creative industries, energy and strategic industries, the foreign trade zone, and general support for economic development.

Finally, in the amended measure, the Auditor is requested to report findings and recommendations, including any necessary proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2009.

Your Committee finds that the shift in focus and expansion of the audit to be carried out by the Auditor is appropriate to achieve a higher level of confidence in understanding the procurement and expenditure practices of the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 212, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 212, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3493 (Joint) Agriculture and Hawaiian Affairs and Economic Development and Taxation on S.C.R. No. 206

The purpose of this measure is to recognize and acknowledge September 2nd of each year as Queen Liliu‘okalani’s birthday in the State of Hawai‘i, as a non-State holiday and commemorating Queen Liliu‘okalani for her outstanding courage and dedication to her people in the face of oppression.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs.

Your Committees find that Queen Liliu‘okalani was a remarkable individual in Hawai‘i’s history, a brave individual who exemplified the highest qualities and characteristics of a world leader of peace during her reign as the last ruling monarch of the Kingdom of Hawai‘i, until the eventual illegal overthrow of her monarchy on January 17, 1893.

Your Committees further find that it is fitting that the people of Hawai‘i annually commemorate Queen Liliu‘okalani’s birthday, to honor her, and to educate residents and visitors alike about her life and the importance of cultivating peace, and to ensure that her story is never forgotten.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Economic Development and Taxation that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 206 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Ige, Kokubun).

SCRep. 3494 (Joint) Agriculture and Hawaiian Affairs and Economic Development and Taxation on S.R. No. 120

The purpose of this measure is to recognize and acknowledge September 2nd of each year as Queen Liliu‘okalani’s birthday in the State of Hawai‘i, as a non-State holiday and commemorating Queen Liliu‘okalani for her outstanding courage and dedication to her people in the face of oppression.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs.

Your Committees find that Queen Liliu‘okalani was a remarkable individual in Hawai‘i’s history, a brave individual who exemplified the highest qualities and characteristics of a world leader of peace during her reign as the last ruling monarch of the Kingdom of Hawai‘i, until the eventual illegal overthrow of her monarchy on January 17, 1893.

Your Committees further find that it is fitting that the people of Hawai‘i annually commemorate Queen Liliu‘okalani’s birthday, to honor her, and to educate residents and visitors alike about her life and the importance of cultivating peace, and to ensure that her story is never forgotten.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Economic Development and Taxation that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 120 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Ige, Kokubun).

SCRep. 3495 (Joint) Agriculture and Hawaiian Affairs, Water and Land and Intergovernmental and Military Affairs on S.R. No. 76

The purpose of this measure is to:

- (1) Urge the City and County of Honolulu to initiate and advance the process to identify and map the Galbraith lands as important agricultural lands;
- (2) Urge the Honolulu City Council to adopt important agricultural land maps delineating the Galbraith lands, once the land maps are submitted;

- (3) Urge the Department of Agriculture and Office of Planning to support the designation of the Galbraith lands as important agricultural lands;
- (4) Urge the Land Use Commission, upon receipt of the important agricultural land maps delineating the Galbraith lands, to identify and designate the Galbraith lands as important agricultural lands; and
- (5) Urging the Land Use Commission and the City and County of Honolulu, once the Galbraith lands are identified and designated as important agricultural lands, to restrict the land use to facilitate the long-term dedication of the Galbraith lands as agricultural lands to preserve and perpetuate the lands for the continuing benefit of the people of Hawaii.

Testimony in support of this measure was submitted by the Kawaihapai Ohana. The Office of Planning submitted testimony in support of the intent of this measure.

The George Galbraith Trust lands, i.e., "Galbraith lands," are current and former pineapple plantation lands located north of Wahiawa, Oahu. Your Committees find that the Galbraith lands are a prime example of agricultural lands that have a special historical, cultural, and visual value to the people of Hawaii. Your Committees further find that as an alternative to acquiring the Galbraith lands, the State should restrict the land use to preserve and perpetuate the Galbraith lands as agricultural for the continuing benefit of the people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 76 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Tsutsui, Whalen).

SCRep. 3496 (Joint) Agriculture and Hawaiian Affairs, Water and Land and Intergovernmental and Military Affairs on S.C.R. No. 144

The purpose of this measure is to:

- (1) Urge the City and County of Honolulu to initiate and advance the process to identify and map the Galbraith lands as important agricultural lands;
- (2) Urge the Honolulu City Council to adopt important agricultural land maps delineating the Galbraith lands, once the land maps are submitted;
- (3) Urge the Department of Agriculture and Office of Planning to support the designation of the Galbraith lands as important agricultural lands;
- (4) Urge the Land Use Commission, upon receipt of the important agricultural land maps delineating the Galbraith lands, to identify and designate the Galbraith lands as important agricultural lands; and
- (5) Urging the Land Use Commission and the City and County of Honolulu, once the Galbraith lands are identified and designated as important agricultural lands, to restrict the land use to facilitate the long-term dedication of the Galbraith lands as agricultural lands to preserve and perpetuate the lands for the continuing benefit of the people of Hawaii.

Testimony in support of this measure was submitted by the Kawaihapai Ohana. The Office of Planning submitted testimony in support of the intent of this measure.

The George Galbraith Trust lands, i.e., "Galbraith lands," are current and former pineapple plantation lands located north of Wahiawa, Oahu. Your Committees find that the Galbraith lands are a prime example of agricultural lands that have a special historical, cultural, and visual value to the people of Hawaii. Your Committees further find that as an alternative to acquiring the Galbraith lands, the State should restrict the land use to preserve and perpetuate the Galbraith lands as agricultural for the continuing benefit of the people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Water and Land and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 144 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 9. Noes, none. Excused, 2 (Tsutsui, Whalen).

SCRep. 3497 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 296

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 296 CARLA M. MORIOKA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Carla M. Morioka to have the necessary qualifications to be nominated to the State Board of Barbering and Cosmetology for a second term.

Testimony in support of Ms. Morioka's nomination was submitted by the Department of Commerce and Consumer Affairs, and four private individuals.

Ms. Morioka attended the University of Hawaii and Hawaii Business College as well as Crel Beauty College. She began her career in cosmetology at Bishop Beauty Salon and then owned and operated her own business, Carla's, until 1980. She later served as a teacher at Trendsetter's Beauty College where she taught all phases of the cosmetology training hours. She currently freelances as a cosmetologist by providing services to her clients at their homes in the evenings and on the weekends. In 1982, Ms. Morioka was

employed at Hickam Air Force Base where she served as a Clerk Typist, Secretary, and then an Administrative Assistant until her retirement in January 2007. In her spare time, she serves as a Mentor at Mokulele Elementary School for two hours each week.

Ms. Morioka has been a licensed cosmetologist since 1964, and currently serves as the Vice Chairperson on the State Board of Barbering and Cosmetology. In fulfilling its regulatory duties and responsibilities, the Board has come to rely on her expertise and experience as a licensed cosmetologist, a former beauty school instructor, and a former beauty shop owner and operator. The depth and breadth of her experience and knowledge in a variety of different areas with the profession gained over the span of her professional career have been advantageous to the Board, especially in working to update the Board's Administrative Rules. Ms. Morioka's demonstrated commitment, motivation, and professional experiences will greatly assist the State Board of Barbering and Cosmetology for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3498 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 300

Recommending that the Senate advise and consent to the nomination of the following:

CONTRACTORS LICENSE BOARD

G.M. No. 300 NEAL K. ARITA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Neal K. Arita to have the necessary qualifications to be nominated to the Contractors License Board for a second term.

Testimony in support of Mr. Arita's nomination was submitted by the Department of Commerce and Consumer Affairs, and the Subcontractors Association of Hawaii.

Mr. Arita graduated from Moanalua High School and received his Bachelor of Arts degree in Communications from the University of Hawaii. He currently serves as a Vice President in Direct Sales and Service for Alakai Mechanical Corporation where he plans, directs, and markets for air conditioning and plumbing services, and oversees the work scheduling, jobsite safety program enforcement, quality control, customer satisfaction, and business development. Prior to his employment at Alakai Mechanical Corporation, he was employed at Heide & Cook where he served as a Service Manager.

Mr. Arita is an Associate Member of the Building Owners and Managers Association, and the Institute of Real Estate Management. He also serves on the Sheet Metal Contractors Association of Hawaii, and the Plumbers and Mechanical Contractors Association of Hawaii. He volunteers his time at the Leeward Community Church where he serves as an Elder, and serves as an Assistant Scout Master for Boy Scout Troop 164 in Mililani.

Mr. Arita holds a current contractor license and holds a specialty contractor license in plumbing, refrigeration, sheet metal, and ventilating and air conditioning classifications. He is a conscientious member who is accessible, approachable, and open to different points of view. His experience with the various plumbing and mechanical trades brings additional perspective to the Board's discussions and deliberations. Mr. Arita's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Contractors License Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3499 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. Nos. 309, 310 and 311

Recommending that the Senate advise and consent to the nominations of the following:

MOTOR VEHICLE INDUSTRY LICENSING BOARD

G.M. No. 309 RUSSELL Y. J. CHUNG, for a term to expire 6-30-2012;

G.M. No. 310 THOMAS I. NAKAMA, for a term to expire 6-30-2012; and

G.M. No. 311 DONALD K. TOUCHI, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Russell Y. J. Chung, Thomas I. Nakama, and Donald K. Touchi to have the necessary qualifications to be nominated to the Motor Vehicle Industry Licensing Board.

Testimony in support of Mr. Chung's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Chung received his Bachelor's degree in Architecture from the University of Hawaii at Manoa and his Master's degree in Landscape Architecture from the California State Polytechnic University. He is currently the Executive Vice President and Principal for PBR Hawaii & Associates, Inc., which is a firm active in all aspects of land planning, landscape architecture, environmental studies, and graphic design. Prior to his employment at PBR Hawaii, he served as a Landscape Designer for Hawaii Design Associates, Inc. and two firms in California.

Mr. Chung is a member of the Hawaii Chapter of the American Society of Landscape Architects where he also previously served as a Trustee, President, and Vice President at separate times. Furthermore, he is a member of the Council of Landscape Architectural Registration Boards and has previously served on the American Society of Landscape Architects Government Affairs Task Force, the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects, and the Diamond Head Citizens Advisory Committee.

Mr. Chung is being nominated to serve for a second term on the Motor Vehicle Industry Licensing Board as a public member. He is a reliable member who attends the Board's meetings regularly and he has demonstrated that he understands the duties and responsibilities as a member of the Board, particularly in his role in representing the public's perspective. Mr. Chung's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Motor Vehicle Industry Licensing Board.

Testimony in support of Mr. Nakama's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Nakama is a graduate of Kaimuki High School and served in the United States Army and the Hawaii Army National Guard. Prior to retiring in 2003, he was a Vice President and General Manager for Cutter Management Co. for nearly twenty-nine years, and served as a Sales Manager at Honolulu Ford before moving over to Cutter Management.

Mr. Nakama is licensed as a motor vehicle salesperson and has extensive knowledge about the motor vehicle industry through his employment with several licensed motor vehicle dealerships in Hawaii. He is a reliable member and actively participates in the discussions of the Motor Vehicle Industry Licensing Board. Mr. Nakama's demonstrated commitment, motivation, and professional experiences will greatly assist the Motor Vehicle Industry Licensing Board.

Testimony in support of Mr. Touchi's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Touchi received his Bachelor of Business Administration from the University of Hawaii, and received his Charter Life Underwriter's designation and his Chartered Financial Consultant's designation from American College in Bryn Mawr, Pennsylvania. He is currently semi-retired in insurance sales. He also served as an adjunct faculty member at American College where he taught courses in business insurance, estate planning, and pension planning.

Mr. Touchi served in the 11th Army Band of the Hawaii Army National Guard from 1964 to 1991, on the State Plan Policy Council, and as the Chairperson for the City Salary Commission. He has volunteered his time at the Institute for Human Services, and plays the piano weekly at St. Francis West Hospice, Veteran Affairs Center for the Aged at Tripler, and the Pearl City Nursing Home.

Mr. Touchi is being nominated to serve a second term on the Motor Vehicle Industry Licensing Board as a public member. He has quickly and comfortably assumed his duties and responsibilities as a member representing the public's perspective. He methodically evaluates the issues being discussed by the Board and does not hesitate to tackle issues that are controversial. Mr. Touchi's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Motor Vehicle Industry Licensing Board for a second term.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3500 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 316

Recommending that the Senate advise and consent to the nomination of the following:

PEST CONTROL BOARD

G.M. No. 316 RANDALL J. BURNETT, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Randall J. Burnett to have the necessary qualifications to be nominated to the Pest Control Board for a second term.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs and the Hawaii Pest Control Association.

Mr. Burnett attended St. Louis School and received his Bachelor of Science in Criminal Justice from Chaminade University. He also received a certificate in Entomology through a special three-year program offered by the University of Hawaii. He currently serves as a police officer for the Honolulu Police Department, and is employed at Burnett's Termite & Pest Control LLC, which was founded by his father in 1948. He began his career in the termite and pest control industry at a young age while accompanying his father on small residential projects.

Mr. Burnett has been an active member in local sporting activities and events by serving as a volleyball, basketball, and Little League baseball coach over the past several years. He is also a past Kaneohe Pop Warner President and served on the Kaneohe Sports Counsel.

Mr. Burnett has been licensed as a pest control operator since 1995 and is a diligent and contributing member of the Pest Control Board who takes his commitment to public service seriously. He shares valuable insights that he has gained over his many years of experience as a licensed pest control operator and contributes meaningfully to the discussions of the Board. Mr. Burnett's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Pest Control Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the

nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3501 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 326

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF CERTIFICATION OF OPERATING PERSONNEL IN WASTEWATER TREATMENT PLANTS

G.M. No. 326 CHARLES H. DAWRS, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Charles H. Dawrs to have the necessary qualifications to be nominated to the Board of Certification of Operating Personnel in Wastewater Treatment Plants for a second term.

Testimony in support of Mr. Dawrs' nomination was submitted by the Department of Health.

Mr. Dawrs attended the University of Southern California where he studied Mechanical Engineering. He is currently a Civil Project Engineer for Hualalai Investors LLC where he is responsible for reviewing the design and overseeing the construction of the new regional Hualalai Wastewater Treatment Plant, which is scheduled to begin construction this year. He also oversees the current day-to-day operations of the Hualalai Resort water utilities as well as the design and construction of the expansion of the Hualalai Resort potable and brackish water systems.

Mr. Dawrs has previously been employed at the County of Hawaii's Department of Public Works and the Department of Environmental Management where he began as an Assistant Operator and worked up to serving as an Operation Supervisor IV. He has operated and supervised the operations of several projects, including the Hilo Wastewater Treatment Plant, the Kualaimano Wastewater Treatment Plant, the Papaikou Wastewater Treatment Plant, the Kapehu Wastewater Treatment Plant, and the East Hawaii Sewage Pumping Stations.

In his spare time, Mr. Dawrs has participated in several canoe club activities. He has served as a Novice Womens Coach for the Puna Canoe Club, a Vice President and a member of the Board of Directors for the Kamehameha Canoe Club, and a member of the Board of Directors for the Moku O Hawaii Canoe Association. He also enjoys free diving and spear fishing, and slack key guitar playing.

Mr. Dawrs is a Grade 4 certified wastewater treatment plant operator and has over fourteen years of wastewater operation and maintenance experience. His demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Certification of Operating Personnel in Wastewater Treatment Plants for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Sakamoto).

SCRep. 3502 Water and Land on Gov. Msg. No. 430

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF LAND AND NATURAL RESOURCES

G.M. No. 430 RON AGOR, for a term to expire 6-30-2012

Testimony in support of this nomination has been submitted by Oceanfront Realty International, Inc., Waimea Plantation Cottages, Kikiaola Land Company, the Chief of the Kaua'i Fire Department, Mayor of the County of Kaua'i, the State Representative of House District No. 16, and twelve interested individuals. One individual submitted testimony in opposition to this nomination.

Mr. Agor is presently the Kaua'i representative on the Board of Land and Natural Resources. He attended California Polytechnic State University San Luis Obispo and is a professional architect who is actively involved as a community volunteer with such organizations as the YMCA of Kaua'i, Kaua'i Children's Discovery Museum, Kaua'i Economic Development Agency, Saint Catherine's Catholic Church, and Immaculate Conception Catholic Church. Mr. Agor is also the founder and vice president of the Kaua'i Association of Architects, president and vice president of the Kaua'i Filipino Chamber of Commerce, and a member of the County of Kaua'i Building Permit Task Force.

Your Committee questioned the nominee on his role on the Board of Land and Natural Resources and his understanding of the Department's responsibilities as the steward of public lands. Your Committee finds Mr. Agor adequately answered the Committee's questions and is qualified to serve on the Board of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3503 Water and Land on Gov. Msg. No. 425

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE ALOHA TOWER DEVELOPMENT CORPORATION

G.M. No. 425 MELISSA TEVES PAVLICEK, for a term to expire 6-30-2012

Testimony in support of this nomination was submitted by the Aloha Tower Development Corporation, Department of Business, Economic Development and Tourism, Aloha Airlines, 'Olelo Community Television, Commercial and Business Lending, and nine individuals.

Ms. Pavlicek has been a member of the Board of Directors of the Aloha Tower Development Corporation ("ATDC") for the past four years and has served as the chairperson since her second year on the ATDC board. Ms. Pavlicek is a small business owner who is a graduate of the Baldwin High School and the University of Hawaii. She presently serves as a member of the Board of Directors of the Legal Aid Society of Hawaii, Hawaii Justice Foundation, Lawyers for Equal Justice, Hawaii Women Lawyers, and 'Olelo Community Television. Ms. Pavlicek is also a member of the Organization of Women Leaders.

Your Committee finds that Ms. Pavlicek possesses the necessary experience and qualifications to serve on the Board of Directors of the Aloha Tower Development Corporation.

As affirmed by the records of votes of the members of your Committee on Water and Land that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3504 Economic Development and Taxation on S.R. No. 128

The purpose of this measure is to honor former Governor Ariyoshi, whose vision for the Natural Energy Laboratory of Hawaii Authority has become synonymous with the current vision for a sustainable future for Hawaii by renaming the Natural Energy Laboratory of Hawaii Authority (NELHA) as the "George R. Ariyoshi Natural Energy Laboratory".

Testimony in support of this measure was received from the Hawaii Government Employees Association, AFSCME Local 152; the ILWU Local 142; and one individual. The Hawaii Aquaculture Association submitted comments.

Your Committee wishes to voice its strong support for the intent of this measure, which is to honor and acknowledge Governor Ariyoshi, who was so instrumental in the development of this facility and the development of the Hawaii aquaculture industry. However, since energy research and development is only a portion of past and present activities at this facility, and since aquaculture research, development, and commercialization has long been the primary activity at the facility, both past and present, your Committee agrees with the comments of the Hawaii Aquaculture Association, that a more inclusive name would be more appropriate.

Your Committee urges the Department of Business, Economic Development, and Tourism, under whose purview NELHA operates, and the Department of Accounting and General Services, which has the primary responsibility for state facilities, to meet with the introducer of this measure to determine an appropriate name for the multi-purpose state facility, while honoring Governor Ariyoshi. In determining the most appropriate name for the NELHA facility, the parties are requested to consider the primary current and projected uses, including aquaculture. The parties are also requested to convey this information to all subsequent committees to which this measure is referred, in order to amend the language appropriately.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 128 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3505 Economic Development and Taxation on S.C.R. No. 217

The purpose of this measure is to honor former Governor Ariyoshi, whose vision for the Natural Energy Laboratory of Hawaii Authority has become synonymous with the current vision for a sustainable future for Hawaii by renaming the Natural Energy Laboratory of Hawaii Authority (NELHA) as the "George R. Ariyoshi Natural Energy Laboratory".

Testimony in support of this measure was received from the Hawaii Government Employees Association, AFSCME Local 152; the ILWU Local 142; and one individual. The Hawaii Aquaculture Association submitted comments.

Your Committee wishes to voice its strong support for the intent of this measure, which is to honor and acknowledge Governor Ariyoshi, who was so instrumental in the development of this facility and the development of the Hawaii aquaculture industry. However, since energy research and development is only a portion of past and present activities at this facility, and since aquaculture research, development, and commercialization has long been the primary activity at the facility, both past and present, your Committee agrees with the comments of the Hawaii Aquaculture Association, that a more inclusive name would be more appropriate.

Your Committee urges the Department of Business, Economic Development, and Tourism, under whose purview NELHA operates, and the Department of Accounting and General Services, which has the primary responsibility for state facilities, to meet with the introducer of this measure to determine an appropriate name for the multi-purpose state facility, while honoring Governor Ariyoshi. In determining the most appropriate name for the NELHA facility, the parties are requested to consider the primary current and projected uses, including aquaculture. The parties are also requested to convey this information to all subsequent committees to which this measure is referred, in order to amend the language appropriately.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 217 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3506 Ways and Means on S.C.R. No. 41

The purpose of this measure is to request the Auditor to conduct a sunrise review of the industrial hygiene, safety, and health physics professions, which are proposed to be regulated under S.B. No. 2075 (2008).

No testimony was submitted to your Committee. However, your Committee notes that testimony in support of the measure was submitted to the prior committee.

Your Committee believes that a sunrise review will assist the Legislature in determining whether the public health and safety will be served by requiring individuals who represent themselves as experts in the control of workplace hazards to meet minimum educational and experience requirements.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 41, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3507 Ways and Means on S.C.R. No. 135

The purpose of this measure is to request the Legislative Reference Bureau to survey nursing facilities in other states to determine how nursing facilities in rural areas address the transportation and parking issues related to transport of nursing facility residents.

Furthermore, the Legislative Reference Bureau is requested to consult with the Disability and Communication Access Board, Long-Term Care Social Workers of Hawaii, National Association of Social Workers, Hawaii Chapter, Nursing Facility Administrators, and the Hawaii State Long-Term Care Ombudsman, as necessary. The Bureau is requested to report the results of its survey, including any necessary proposed legislation, to the Legislature before the Regular Session of 2009.

This measure also requests the Disability and Communication Access Board, Long-Term Care Social Workers of Hawaii, National Association of Social Workers, Hawaii Chapter, Nursing Facility Administrators, and the Hawaii State Long-Term Care Ombudsman to meet to discuss an alternative solution to the transportation and parking problems of nursing facilities and make recommendations, including proposed legislation, at the state and county levels, as appropriate, to the Legislature and the appropriate county council before the convening of the Regular Session of 2009 and before the convening of the appropriate county council 2009 legislative session.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Healthcare Association of Hawaii, National Association of Social Workers, Hawaii Chapter, and twenty-three individuals. The Legislative Reference Bureau offered comments.

Your Committee encourages the Legislative Reference Bureau to consider expanding the survey to consider the challenges faced by a wider variety of transportation services that assist elderly and handicapped passengers. Taxi Cabs, Handivans, and long-term care facility vans are a few examples of transportation services that may face problems similar to those of nursing homes when dropping off and picking up passengers with limited mobility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 135 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3508 Ways and Means on S.C.R. No. 103

The purpose of this measure is to request the Auditor to conduct a study on the impact of Act 226, Session Laws of Hawaii 2007, on nurse aides who work in state-licensed or state-certified health care settings and other persons or areas identified by the Auditor.

In addition, this measure requests the Auditor to study the possible sources of funding of the costs for recertification and competency evaluations for nurse aides. The measure also requests the Auditor to seek input from various interested parties.

Testimony in support of this measure was submitted by the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and the Healthcare Association of Hawaii.

Your Committee finds that Act 226, Session Laws of Hawaii 2007, requires the certification and recertification of nurse aides, but does not address the costs for recertification and competency evaluations. There is concern that this may present a practical conflict with federal laws that mandate that no charge shall be imposed upon Medicare or Medicaid certified nurse aides. Your Committee finds that this measure would provide valuable data and analysis to determine the impact of Act 226 on nurse aides who work in state-certified or state-licensed health care settings. This information would also assist the Legislature in determining whether amendments to Act 226, Session Laws of Hawaii 2007, are needed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 103 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3509 Ways and Means on S.C.R. No. 37

The purpose of this measure is to request the Legislative Reference Bureau to study the establishment of a comprehensive vocational rehabilitation center for deaf and hard of hearing individuals.

More specifically, the measure requests the Legislative Reference Bureau to suggest services for the center, survey centers in other states to estimate start-up and operating costs, and consult with agencies that serve the target population. The measure also requests the Department of Human Services to assist in identifying the potential beneficiaries of such a center.

Testimony in support of the measure was received from The Deaf and Hard of Hearing Advisory Board and the Disability and Communication Access Board. The Department of Human Services and the Legislative Reference Bureau submitted comments.

Your Committee finds that deaf and hard of hearing persons have unique communication and service needs. Comprehensive vocational rehabilitation services for Hawaii's citizens who are deaf and hard of hearing would help to broaden their employment options and promote their successful integration in the community. Identifying areas of need and funding possibilities would be a good first step toward improving services for this population.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 37, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3510 Ways and Means on S.C.R. No. 196

The purpose of this measure is to request the Auditor to assess the social and financial impacts of requiring coverage for the diagnosis and treatment of autism spectrum disorders in the policies, plans, and contracts of health insurance and related products as mandated by S.B. No. 2532, S.D. 1 (2008).

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities, the Disability and Communications Access Board, the Hawaii Disability Rights Center, Autism Speaks, and the Autism Society of Hawaii.

Private health insurers are denying coverage of therapies that may be necessary or effective for the treatment of autism. The failure to provide coverage is thought to produce lower short-term insurance costs at the expense of higher long-term health care costs.

A review by the Auditor of this measure is required by law as a condition of enactment, and will be helpful to the Legislature in resolving this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 196, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3511 (Majority) Ways and Means on S.C.R. No. 124

The purpose of this measure is to request the Auditor to conduct a financial and management audit of the Department of Human Services' Medicaid-sponsored programs, with a particular emphasis on the QUEST, QUEST-Net, QUEST-ACE, and QUEST Expanded Access programs.

Testimony in support of the measure was submitted by the Waianae Coast Comprehensive Health Center, the Kalihi-Palama Health Center, the Hawaii Primary Care Association, AlohaCare, and Papa Ola Lokahi. The Department of Human Services submitted comments.

Your Committee finds that more than 200,000 individuals were enrolled in state Medicaid programs in 2007 and that the programs' continued financial viability is vital to ensuring continued access to needed medical, mental health, and dental services for our community's most vulnerable population. Your Committee further finds that a financial and management audit would provide the appropriate oversight, evaluation, and feedback regarding the State's Med-Quest Division, which administers all Medicaid-sponsored programs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 124, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Menor).

SCRep. 3512 Ways and Means on S.C.R. No. 200

The purpose of this measure is to request the Auditor to conduct a financial and management audit of the Hawaii Centers for Independent Living.

Testimony in support of this measure was received from the Disability and Communication Access Board, the Affordable Housing and Homeless Alliance, and seven private individuals. The Department of Human Services and one private individual submitted comments.

Your Committee finds that the Hawaii Centers for Independent Living, a nonprofit organization that receives federal and state funds to help individuals with disabilities achieve independence, faces serious allegations of mismanagement, misappropriation of state funds, failure to perform all of the duties under contract with the State, and a breach of fiduciary duty by its board of directors and officers. Your Committee further finds that these allegations set forth compelling reasons for an audit, and that an audit would help determine any necessary corrections of the actions of the Centers and ensure the provision of the services needed for the health and well-being of Hawaii's citizens.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 200, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3513 Ways and Means on S.R. No. 88

The purpose of this measure is to request the Department of Taxation to report to the Legislature on the fiscal impact and rate of usage of various state tax credits and exemptions.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association.

The Department of Taxation and the Hawaii Science and Technology Council submitted comments.

Your Committee finds that assessing the effectiveness and efficiency of tax credits and exemptions is necessary to understand the fiscal impact and rate of usage of these tax preferences. The Department of Taxation, however, has not submitted any, or at least an updated report of the fiscal impact and rate of usage of certain tax credits and exemptions under chapters 235, 237, 239, and 244D, Hawaii Revised Statutes. Your Committee finds that the Legislature would benefit greatly from an updated report by the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 88, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3514 Ways and Means on S.C.R. No. 162

The purpose of this measure is to request the Department of Taxation to report to the Legislature on the fiscal impact and rate of usage of various state tax credits and exemptions.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association.

The Department of Taxation and the Hawaii Science and Technology Council submitted comments.

Your Committee finds that assessing the effectiveness and efficiency of tax credits and exemptions is necessary to understand the fiscal impact and rate of usage of these tax preferences. The Department of Taxation, however, has not submitted any, or at least an updated report of the fiscal impact and rate of usage of certain tax credits and exemptions under chapters 235, 237, 239, and 244D, Hawaii Revised Statutes. Your Committee finds that the Legislature would benefit greatly from an updated report by the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 162, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3515 (Majority) Ways and Means on S.C.R. No. 25

The purpose of this measure is to address the multi-faceted needs of Hawaii's older population.

Specifically, this measure establishes a joint legislative Task Force on Aging to study the need for, feasibility of, and preliminary plans necessary for consolidating publicly-funded programs and services that serve Hawaii's older population under the jurisdiction of a new Department of Aging.

The Policy Advisory Board for Elder Affairs and Kohala Senior Citizens Club submitted testimony in support of this measure. The Executive Office on Aging submitted testimony in opposition to this measure. The Occupational Therapy Association of Hawaii submitted comments.

It is projected that nearly one-third of Hawaii's population will be aged sixty or older by the year 2020. Currently, the array of publicly-funded programs and services that serve Hawaii's older population are scattered among various state, local, and nonprofit agencies. This disparate system can be difficult for a caregiver or care recipient to navigate, especially in a time of crisis. Your Committee finds that the scope and magnitude of overlapping issues facing Hawaii's older population may necessitate department-level attention. This measure will investigate the feasibility of establishing a new Department of Aging to centralize these programs and services to address the multi-faceted needs of Hawaii's older population.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Menor).

SCRep. 3516 Ways and Means on S.R. No. 89

The purpose of this measure is to request the Department of Taxation to examine the general excise tax assessed on commissions earned by a manufacturer's sales representative for the sale of imported tangible personal property that is purchased by a consumer directly from the manufacturer.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds a disturbing inequity with respect to the assessment of the general excise tax on the sale of an out-of-state manufacturer's product in Hawaii. If a manufacturer's product is sold locally to a consumer by the manufacturer's representative, the general excise tax is assessed on the representative at a rate of one-half of one per cent. But, if the consumer orders the same product directly from the manufacturer, the sales representative is assessed a general excise tax of four and one-half per cent. To the detriment of the sales representative, the same manufacturer's product sold to the same consumer results in differing applications of the general excise tax.

Before taking legislative action on this matter, however, your Committee believes that the Legislature would benefit from the Department of Taxation's expertise, analysis, and recommendations on this issue to ultimately provide relief to manufacturer's representatives.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 89, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3517 Ways and Means on S.C.R. No. 163

The purpose of this measure is to request the Department of Taxation to examine the general excise tax assessed on commissions earned by a manufacturer's sales representative for the sale of imported tangible personal property that is purchased by a consumer directly from the manufacturer.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds a disturbing inequity with respect to the assessment of the general excise tax on the sale of an out-of-state manufacturer's product in Hawaii. If a manufacturer's product is sold locally to a consumer by the manufacturer's representative, the general excise tax is assessed on the representative at a rate of one-half of one per cent. But, if the consumer orders the same product directly from the manufacturer, the sales representative is assessed a general excise tax of four and one-half per cent. To the detriment of the sales representative, the same manufacturer's product sold to the same consumer results in differing applications of the general excise tax.

Before taking legislative action on this matter, however, your Committee believes that the Legislature would benefit from the Department of Taxation's expertise, analysis, and recommendations on this issue to ultimately provide relief to manufacturer's representatives.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 163, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3518 Ways and Means on S.R. No. 55

The purpose of this measure is to request the Legislative Reference Bureau to conduct a comprehensive study on establishing a Hawaii State Geological Survey.

The measure also requests that the Legislative Reference Bureau consult with interested parties and organizations in the preparation of the study.

Comments on this measure were submitted by the Legislative Reference Bureau.

Your Committee finds that Hawaii is affected by a wide variety of geological activity, and that responsibility for monitoring those activities is distributed among a variety of state and county agencies. Your Committee further finds that the formation of a state geological survey would consolidate these roles into one agency and would allow the State to seek federal funds to perform geological studies that would provide a broader range of information about geological activity in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 55 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3519 Ways and Means on S.C.R. No. 95

The purpose of this measure is to request the Legislative Reference Bureau to conduct a comprehensive study on establishing a Hawaii State Geological Survey.

The measure also requests that the Legislative Reference Bureau consult with interested parties and organizations in the preparation of the study.

Comments on this measure were submitted by the Legislative Reference Bureau.

Your Committee finds that Hawaii is affected by a wide variety of geological activity, and that responsibility for monitoring those activities is distributed among a variety of state and county agencies. Your Committee further finds that the formation of a state geological survey would consolidate these roles into one agency and would allow the State to seek federal funds to perform geological studies that would provide a broader range of information about geological activity in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 95 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3520 (Majority) Ways and Means on S.R. No. 15

The purpose of this measure is to request the Department of Taxation to conduct a study on implementing recommendations of the Maui Health Initiative Task Force relating to various proposed tax credits.

Specifically, this measure requests the Department of Taxation to study the projected tax revenue loss and details regarding the administrative implementation of the following proposed state tax credits:

- (1) For health care providers, facilities, and services related to the provision of health care or the training of health care professionals in Hawaii;
- (2) To encourage the development, maintenance, and operation of electronic medical records systems that are inter-operable with Hawaii's regional health information organization;
- (3) For families caring for loved ones at home; and

- (4) For private entities that obtain land for and to build alternative long-term care beds to provide for Medicaid patients.

The Department of Taxation is requested to report findings and recommendations to the Legislature and the Governor before December 1, 2008. Finally, this measure requests the Department of Taxation to conduct a legislative informational briefing on its report after the Department files its report.

The Department of Taxation offered comments concerning this measure.

Your Committee finds that the Department of Taxation has the data and expertise to conduct the requested study. The request for such a study to determine projected revenue loss and administrative implementation of proposed tax credits is good public policy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Menor).

SCRep. 3521 (Majority) Ways and Means on S.C.R. No. 34

The purpose of this measure is to request the Department of Taxation to conduct a study on implementing recommendations of the Maui Health Initiative Task Force relating to various proposed tax credits.

Specifically, this measure requests the Department of Taxation to study the projected tax revenue loss and details regarding the administrative implementation of the following proposed state tax credits:

- (1) For health care providers, facilities, and services related to the provision of health care or the training of health care professionals in Hawaii;
- (2) To encourage the development, maintenance, and operation of electronic medical records systems that are inter-operable with Hawaii's regional health information organization;
- (3) For families caring for loved ones at home; and
- (4) For private entities that obtain land for and to build alternative long-term care beds to provide for Medicaid patients.

The Department of Taxation is requested to report findings and recommendations to the Legislature and the Governor before December 1, 2008. Finally, this measure requests the Department of Taxation to conduct a legislative informational briefing on its report after the Department files its report.

The Department of Taxation offered comments concerning this measure.

Your Committee finds that the Department of Taxation has the data and expertise to conduct the requested study. The request for such a study to determine projected revenue loss and administrative implementation of proposed tax credits is good public policy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 34 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Menor).

SCRep. 3522 Education on S.C.R. No. 88

The purpose of this measure is to request the Department of Education to include shaded play areas in its plans for all new elementary schools and to establish and phase-in a plan to provide shaded play areas at all existing elementary schools by 2011.

Testimony in support of the measure was submitted by the Hawaii State Teachers Association and one individual. Testimony in opposition of the measure was submitted by the Department of Education.

Your Committee finds that research indicates that exposure to the sun's ultraviolet light presents an increased risk for the occurrence of skin cancer, which is the most common form of all cancers. The risk is further exacerbated for children who are exposed to ultraviolet light at an early age. Your Committee further finds that while children are in school, the State must provide not only an appropriate public education, including proper instruction and opportunities to participate in physical education, but also the proper protection from harmful elements, including the sun, while in school and participating in outdoor activities. This measure requests the Department of Education to develop a plan for including shaded play areas in all public elementary schools by the year 2011.

Testimony provided indicated that the inclusion of shaded play areas in all public elementary schools may not be the most prudent course of action in terms of the Department of Education's priorities, which includes protecting students from harm while in school. While your Committee understands that necessary funding, time, and resources must be focused on the provision of a proper education, including adequate facilities, teachers, and supplies, the establishment of a model or guidelines would allow independent groups to furnish shaded play areas at public schools to protect students from the harmful effects of sun exposure.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language requesting the Department of Education to develop a plan for including shaded play areas in all public elementary schools by the year 2011;
- (2) Requesting the Department of Education to develop a prototype model or guidelines for schools, community groups, or volunteer organizations to follow when installing or creating shaded play areas at public schools, and changing the title of the measure to reflect such request; and
- (3) Requesting the Department of Education to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2009.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 88, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 88, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Hee, Taniguchi).

SCRep. 3523 (Joint) Health and Human Services and Public Housing on S.R. No. 68

The purpose of this measure is to protect the health and welfare of children by requesting the Department of Health to convene a task force to investigate the risks involved in the use of bisphenol-A and phthalates in consumer products, including children's toys and childcare products.

Your Committees received testimony in opposition to this measure from the Department of Health and the American Chemistry Council.

Your Committees find that bisphenol-A and phthalates compounds have been found in many consumer products, including toys and teethingers for children. Your Committees are extremely concerned about negative health effects these compounds may cause.

According to the Department of Health, the federal Centers for Disease Control and Prevention (CDC) has conducted research into the health effects caused by bisphenol-A and phthalates compounds in consumer products and has found inconclusive evidence of harmful effects. The CDC concluded that more research was necessary to assess the human health effects of these compounds.

Accordingly, your Committees have amended this measure and its title by removing the language requesting the Department of Health to convene a task force and replacing it with language requesting the Department of Health to monitor research being conducted to investigate the risks involved in the use of bisphenol-A and phthalates in consumer products, including children's toys and childcare products.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 68, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 68, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Ihara, Menor, Hemmings, Whalen).

SCRep. 3524 (Joint) Health and Human Services and Public Housing on S.C.R. No. 132

The purpose of this measure is to protect the health and welfare of children by requesting the Department of Health to convene a task force to investigate the risks involved in the use of bisphenol-A and phthalates in consumer products, including children's toys and childcare products.

Your Committees received testimony in opposition to this measure from the Department of Health and the American Chemistry Council.

Your Committees find that bisphenol-A and phthalates compounds have been found in many consumer products, including toys and teethingers for children. Your Committees are extremely concerned about negative health effects these compounds may cause.

According to the Department of Health, the federal Centers for Disease Control and Prevention (CDC) has conducted research into the health effects caused by bisphenol-A and phthalates compounds in consumer products and has found inconclusive evidence of harmful effects. The CDC concluded that more research was necessary to assess the human health effects of these compounds.

Accordingly, your Committees have amended this measure and its title by removing the language requesting the Department of Health to convene a task force and replacing it with language requesting the Department of Health to monitor research being conducted to investigate the risks involved in the use of bisphenol-A and phthalates in consumer products, including children's toys and childcare products.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 132, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 132, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Ihara, Menor, Hemmings, Whalen).

SCRep. 3525 (Joint) Public Safety and Judiciary and Labor on S.C.R. No. 102

The purpose of this measure is to request the Department of Public Safety and the Department of Human Resources Development to negotiate with the Hawaii Government Employees Association higher salaries and increased benefits for deputy sheriffs throughout Hawaii.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and twenty-one individual citizens. Testimony in opposition of this measure was submitted by the Department of Human Resources Development.

Your Committees find that the State expends substantial financial resources, typically over \$100,000 per recruit, on training deputy sheriffs to protect the people of, and property located in, Hawaii. The low salaries and benefits that are currently received by deputy sheriffs in Hawaii are not competitive with their counterparts on the mainland or county police officers in Hawaii. Consequently, after just a couple of years of service in Hawaii, many deputy sheriffs are recruited by deputy sheriff departments, or other law enforcement agencies, on the West Coast of the mainland that have substantially more attractive compensation packages for the deputy sheriffs.

Your Committees further find that the starting salaries for equivalent positions on the mainland are approximately thirty per cent higher than for deputy sheriffs in Hawaii. Also, within just the past two years, forty deputy sheriffs have left the Department of Public Safety for higher paying law enforcement positions in Hawaii and on the mainland. That rate of turnover has made it very challenging for the Department of Public Safety to retain deputy sheriffs and continue to provide superior services for the State of Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 102, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 102, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Hee, Sakamoto).

SCRep. 3526 (Joint) Public Safety and Judiciary and Labor on S.R. No. 57

The purpose of this measure is to request the Department of Public Safety and the Department of Human Resources Development to negotiate with the Hawaii Government Employees Association higher salaries and increased benefits for deputy sheriffs throughout Hawaii.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and twenty-one individual citizens. Testimony in opposition of this measure was submitted by the Department of Human Resources Development.

Your Committees find that the State expends substantial financial resources, typically over \$100,000 per recruit, on training deputy sheriffs to protect the people of, and property located in, Hawaii. The low salaries and benefits that are currently received by deputy sheriffs in Hawaii are not competitive with their counterparts on the mainland or county police officers in Hawaii. Consequently, after just a couple of years of service in Hawaii, many deputy sheriffs are recruited by deputy sheriff departments, or other law enforcement agencies, on the West Coast of the mainland that have substantially more attractive compensation packages for the deputy sheriffs.

Your Committees further find that the starting salaries for equivalent positions on the mainland are approximately thirty per cent higher than for deputy sheriffs in Hawaii. Also, within just the past two years, forty deputy sheriffs have left the Department of Public Safety for higher paying law enforcement positions in Hawaii and on the mainland. That rate of turnover has made it very challenging for the Department of Public Safety to retain deputy sheriffs and continue to provide superior services for the State of Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 57, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 57, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Hee, Sakamoto).

SCRep. 3527 Ways and Means on S.C.R. No. 160

The purpose of this measure is to request the Legislative Reference Bureau to review and compare the parole policies of this State with other jurisdictions in order to determine the impact of Hawaii's parole policies on the prison population in this State.

Testimony in support of this measure was submitted by the Community Alliance on Prisons and the Drug Policy Forum of Hawai'i. Comments on this measure were submitted by the Hawaii Paroling Authority and the Legislative Reference Bureau.

Your Committee finds that parole policies aim to protect our communities while relieving the correctional system from overcrowding. An independent review and examination of the parole policies in Hawaii and other jurisdictions by the Legislative Reference Bureau would benefit the correctional system in Hawaii.

Your Committee also finds that the Hawaii Paroling Authority has adjusted many of its policies in recent years such that the parole policies identified in a 2005 Urban Institute study as having an adverse impact on prison populations are not relevant in Hawaii. In addition, it is not clear that the effect of parole policies can clearly be quantified in cause and effect terms. However, objective information will assist the Legislature and the Hawaii Paroling Authority in determining to what extent Hawaii's parole policies contribute to the prison population and whether Hawaii's policies need to be further adjusted.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the reference to the 2005 Urban Institute study;
- (2) Requesting the Legislative Reference Bureau to focus its efforts on reviewing parole policies in Hawaii and other jurisdictions using specific criteria and examining parolee recidivism rates under those policies in terms of various specified demographics; and
- (3) Changing the title of the measure to reflect the change in its focus.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 160, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 160, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3528 Ways and Means on S.C.R. No. 96

The purpose of this measure is to request the Auditor to conduct a program, performance, and financial audit of the Natural Energy Laboratory of Hawaii Authority and to submit a report of findings and recommendations to the Legislature.

Comments in support of this measure were submitted by the Hawaii Aquaculture Association.

Your Committee finds that this measure would help to resolve questions about the public accountability of the Natural Energy Laboratory of Hawaii Authority. In addition, your Committee is hopeful that the findings and recommendations of the Auditor will help the Natural Energy Laboratory of Hawaii Authority identify ways to improve their fiscal viability.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 96, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3529 Ways and Means on S.C.R. No. 232

The purpose of this measure is to assist in addressing personnel, operational and fiscal management issues at the Bureau of Conveyances.

Specifically, this measure requests the Legislative Reference Bureau to investigate and develop feasibility and implementation models regarding the:

- (1) Legal and technical obstacles to combining the Land Court and regular system functions of the Bureau of Conveyances into a unified recordation system;
- (2) Advisability of reassigning the Bureau of Conveyances from the Department of Land and Natural Resources to another department within the executive branch or the Judiciary; and
- (3) Considerations attendant to privatizing the functions of the Bureau of Conveyances, including the nature and qualifications of a non-governmental entity suitable to accept the current functions of the Bureau of Conveyances.

The Department of Land and Natural Resources submitted testimony in opposition to this measure. The Legislative Reference Bureau and the Hawaii Government Employees Association submitted comments.

Your Committee finds that in light of the findings and recommendations of the Joint Senate-House Investigative Committee, which was established pursuant to Senate Concurrent Resolution No. 226 (2007), there is a further need to investigate the personnel, operational, and fiscal management of the Bureau of Conveyances. In addition, your Committee finds that studying options, like those identified in this measure, will help ensure that the Bureau of Conveyances is able to perform its duties efficiently and provide a high level of customer service to the public.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 232 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 2 (English, Menor).

SCRep. 3530 Water and Land on Gov. Msg. No. 486

Recommending that the Senate advise and consent to the nomination of the following:

LAND USE COMMISSION

G.M. No. 486 LISA M. JUDGE, for a term to expire 6-30-2012

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Lisa M. Judge to have the necessary qualifications to be nominated to the Land Use Commission.

Testimony in support of the nomination of Lisa M. Judge was submitted by the Land Use Commission, Department of Business, Economic Development and Tourism, and an individual commissioner of the Land Use Commission.

Ms. Judge is the Maui commissioner and current chairperson of the Land Use Commission. She is presently employed as a real estate sales consultant with Makena Bay Properties. Previously, she was the owner and broker of Paliku Realty, LLC and the director of marketing of Kaanapali Beach Resort Association. Prior to that, Ms. Judge served as the County of Maui Director of Planning. Ms. Judge received her Bachelor's degree in mathematical sciences from Stanford University.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3531 (Joint) Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs on S.R. No. 137

The purpose of this measure is to request that Hawaii's congressional delegation introduce and support federal legislation to improve the viability of Hawaii's geographically disadvantaged farmers and ranchers.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation; Maui County Farm Bureau; Kahua Ranch; Mikilua Poultry Farm, Inc.; and one individual. The Department of Agriculture submitted testimony in support of the intent of this measure.

Your Committees find that Hawaii and Alaska are the only two states that are not contiguous to the United States mainland and, thus are placed at an economic disadvantage to the contiguous states. The major disadvantages faced by Hawaii's farmers and ranchers are the costs of transportation and of importing material such as feed and stock. Your Committees further find that it is necessary to seek subsidies through federal legislation to improve the viability of the State's farmers and ranchers to avoid the continuation of business closures as recently seen in Hawaii's dairy industry.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 137 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3532 (Joint) Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs on S.C.R. No. 234

The purpose of this measure is to request that Hawaii's congressional delegation introduce and support federal legislation to improve the viability of Hawaii's geographically disadvantaged farmers and ranchers.

Testimony in support of this measure was submitted by the Hawaii Farm Bureau Federation; Maui County Farm Bureau; Kahua Ranch; Mikilua Poultry Farm, Inc.; and one individual. The Department of Agriculture submitted testimony in support of the intent of this measure.

Your Committees find that Hawaii and Alaska are the only two states that are not contiguous to the United States mainland and, thus are placed at an economic disadvantage to the contiguous states. The major disadvantages faced by Hawaii's farmers and ranchers are the costs of transportation and of importing material such as feed and stock. Your Committees further find that it is necessary to seek subsidies through federal legislation to improve the viability of the State's farmers and ranchers to avoid the continuation of business closures as recently seen in Hawaii's dairy industry.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 234 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3533 Water and Land on S.C.R. No. 4

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of State submerged lands fronting the property identified as Tax Map Key No.: (2) 4-5-1:5 at Lahaina, Maui, for maintenance and repair of existing concrete pillars and improvements purposes.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, Lahaina Yacht Club, and by an individual on behalf of the membership of the Lahaina Yacht Club.

Your Committee notes that the area above the submerged lands in question is partially used for a restaurant. Leases of the submerged lands in question are made on a case-by-case basis which is why there is a difference in the lease term between the original lease and the current lease for the submerged lands. Your Committee further notes that the submerged lands in question are ceded lands and that proceeds from the pro rata portion of the income derived from the usage of these lands is required to be transferred to the Office of Hawaiian Affairs pursuant to Article XII of the Hawaii Constitution.

Pursuant to section 171-53(c), Hawaii Revised Statutes, the Board of Land and Natural Resources is authorized to lease the described lands to any private entity upon the prior approval of the Governor and prior authorization of the Legislature by concurrent resolution. Accordingly, this measure authorizes the Board of Land and Natural Resources to lease the lands fronting the property identified as Tax Map Key No.: (2) 4-5-1:5 at Lahaina, Maui, for maintenance and repair of existing concrete pillars and improvements purposes.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 4 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hee, Whalen).

SCRep. 3534 (Joint) Human Services and Public Housing and Health on S.C.R. No. 35

The purpose of this measure is to facilitate the implementation of the recommendations of the Maui Health Initiative Task Force by requesting the Executive Office on Aging and the Departments of Human Services and Health to conduct a collaborative study of infrastructure deficiencies in the accessibility and availability of care services and facilities for seniors, veterans, and persons with disabilities.

Testimony in support of this measure was submitted by the Disability and Communication Access Board and the Hawaii Disability Rights Center. Testimony in opposition to this measure was submitted by the Department of Human Services and the Executive Office on Aging.

Your Committees find that this measure is necessary to address issues of capacity in the community for housing and long-term care services which will, over time, become even more critical.

Your Committees have amended this measure and its title by replacing the collaborative needs assessment study to be conducted by the Executive Office on Aging and the Departments of Health and Human Services with a request that the Maui Health Initiative Task Force and Maui Long Term Care Partnership submit to the Long Term Care Commission by November 1, 2008, the findings and recommendations of their comprehensive needs assessment.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Housing and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 35, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 35, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Ihara, Menor, Hemmings, Whalen).

SCRep. 3535 (Joint) Intergovernmental and Military Affairs and Education on S.R. No. 119

The purpose of this measure is to request the Department of Urban and Regional Planning of the University of Hawai'i at Manoa to provide a written report or provide a briefing to the Legislature on the proposed National Disaster Preparedness Training Center.

Your Committees held a public hearing on a proposed S.D. 1, which requests the State Department of Defense to extend the time for eligibility to receive educational benefits for active duty guard servicemembers.

Your Committees find that military service offers many benefits, one of which includes educational benefits through the Montgomery GI Bill – Selected Reserve (MGIB – SR) which is an education assistance program that was enacted by Congress to benefit the high-quality men and woman enrolled in the Selected Reserve of the Army, Navy, Air Force, Marine Corps, Coast Guard, and Air National Guard.

Your Committees also find that state educational benefits are also available to members of the Hawaii National Guard; however, servicemembers that are called to active duty or were on active duty but no longer enlisted may not be able to take the full state educational benefits that they were eligible for when they joined military service.

Accordingly, your Committees have amended this measure by deleting its contents and replacing it with language that requests the State Department of Defense to extend the time for eligibility to receive educational benefits for active duty guard service members, including changing the measure's title, and providing supporting facts therefor.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 119, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 119, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hee, Taniguchi, Hemmings).

SCRep. 3536 (Joint) Intergovernmental and Military Affairs and Education on S.C.R. No. 205

The purpose of this measure is to request the Department of Urban and Regional Planning of the University of Hawai'i at Manoa to provide a written report or provide a briefing to the Legislature on the proposed National Disaster Preparedness Training Center.

Your Committees held a public hearing on a proposed S.D. 1, which requests the State Department of Defense to extend the time for eligibility to receive educational benefits for active duty guard servicemembers.

Your Committees find that military service offers many benefits, one of which includes educational benefits through the Montgomery GI Bill – Selected Reserve (MGIB – SR) which is an education assistance program that was enacted by Congress to benefit the high-quality men and woman enrolled in the Selected Reserve of the Army, Navy, Air Force, Marine Corps, Coast Guard, and Air National Guard.

Your Committees also find that state educational benefits are also available to members of the Hawaii National Guard; however, servicemembers that are called to active duty or were on active duty but no longer enlisted may not be able to take the full state educational benefits that they were eligible for when they joined military service.

Accordingly, your Committees have amended this measure by deleting its contents and replacing it with language that requests the State Department of Defense to extend the time for eligibility to receive educational benefits for active duty guard service members, including changing the measure's title, and providing supporting facts therefor.

As affirmed by the records of votes of the members of your Committees on Intergovernmental and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 205, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 205, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, Hee, Taniguchi, Hemmings).

SCRep. 3537 (Joint/Majority) Agriculture and Hawaiian Affairs and Tourism and Government Operations on S.R. No. 121

The purpose of this measure is to request that the Department of Accounting and General Services develop a plan, with anticipated costs and proposed legislation, to have all signs at the State Capitol printed in English and Hawaiian.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs. The Department of Accounting and General Services submitted questions regarding this measure.

Your Committees find that the presence of signage throughout the State Capitol printed in both the English and Hawaiian languages would reflect the State's allegiance to preserving and promoting Hawaiian culture and would also help to revitalize and encourage the usage of the Hawaiian language.

Your Committees note that they anticipate that the questions raised by the Department of Accounting and General Services will be addressed in the requested plan. Your Committees further note that they do not expect any excessive financial impacts as a result of the replacement or repair of existing signage with signs printed in both English and Hawaiian.

Your Committees have amended this measure by clarifying this measure to reflect that the signage printed in both English and Hawaiian is only meant to apply to replacement signage in the course of their regularly scheduled repair or replacement.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Tourism and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 121, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 121, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hee, Kokubun, Tsutsui).

SCRep. 3538 (Joint/Majority) Agriculture and Hawaiian Affairs and Tourism and Government Operations on S.C.R. No. 207

The purpose of this measure is to request that the Department of Accounting and General Services develop a plan, with anticipated costs and proposed legislation, to have all signs at the State Capitol printed in English and Hawaiian.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs. The Department of Accounting and General Services submitted questions regarding this measure.

Your Committees find that the presence of signage throughout the State Capitol printed in both the English and Hawaiian languages would reflect the State's allegiance to preserving and promoting Hawaiian culture and would also help to revitalize and encourage the usage of the Hawaiian language.

Your Committees note that they anticipate that the questions raised by the Department of Accounting and General Services will be addressed in the requested plan. Your Committees further note that they do not expect any excessive financial impacts as a result of the replacement or repair of existing signage with signs printed in both English and Hawaiian.

Your Committees have amended this measure by clarifying this measure to reflect that the signage printed in both English and Hawaiian is only meant to apply to replacement signage in the course of their regularly scheduled repair or replacement.

As affirmed by the records of votes of the members of your Committees on Agriculture and Hawaiian Affairs and Tourism and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 207, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 207, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hee, Kokubun, Tsutsui).

SCRep. 3539 Human Services and Public Housing on S.R. No. 52

The purpose of this measure is to urge the Department of Education to inform the parents of children who have been referred for special education services of certain rights, and to ensure recognition thereof.

Testimony in opposition to this measure was submitted by the Department of Education. Written comments on the measure were submitted by the Special Education Advisory Council, which stated, among other things, that the measure was unnecessary.

Your Committee finds that, in light of the testimony submitted, this measure was not necessary in its original form, and could be used as a vehicle to promote asset-building in the State. In this regard, S.B. No. 2839 was introduced this legislative session to establish a Public Financial Education and Asset-Building task force to develop policy recommendations to help Hawaii's families achieve financial goals. However, S.B. No. 2839 was not returned to the Senate by the House of Representatives.

Your Committee proposed a new draft of the measure that reflected the contents of S.B. No. 2839, and held a public hearing thereupon. Testimony in support of the proposed draft was submitted by the Department of Education, Aloha United Way, the Hawaii Alliance for Community-Based Economic Development, the Hawai'i Council on Economic Education, the Legal Aid Society of Hawai'i, and the National Association of Social Workers Hawaii.

Your Committee finds that the cost of purchasing a home, pursuing post-secondary education, and starting a business in Hawaii is becoming prohibitively expensive for many residents. Additionally, community education and policies geared toward asset-building would help lower- and middle-income families achieve greater financial independence that would, in turn, help to promote stability throughout various sectors of the state economy.

Accordingly, your Committee has amended this measure by replacing its contents with language from S.B. No. 2839 that establishes a Public Financial Education and Asset-Building task force to be convened by the Chairs of the Senate Committee on Human Services and Public Housing and the House Committee on Human Services and Housing. The purpose of the task force is to develop policy recommendations regarding universal, matched savings accounts for newborns, statewide standards for financial and economic education for public- and private-sector employees, and the elimination of asset limits as a bar to eligibility for public benefit programs.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 52, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 52, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3540 Human Services and Public Housing on S.C.R. No. 92

The purpose of this measure is to urge the Department of Education to inform the parents of children who have been referred for special education services of certain rights, and to ensure recognition thereof.

Testimony in opposition to this measure was submitted by the Department of Education. Written comments on the measure were submitted by the Special Education Advisory Council, which stated, among other things, that the measure was unnecessary.

Your Committee finds that, in light of the testimony submitted, this measure was not necessary in its original form, and could be used as a vehicle to promote asset-building in the State. In this regard, S.B. No. 2839 was introduced this legislative session to establish a Public Financial Education and Asset-Building task force to develop policy recommendations to help Hawaii's families achieve financial goals. However, S.B. No. 2839 was not returned to the Senate by the House of Representatives.

Your Committee proposed a new draft of the measure that reflected the contents of S.B. No. 2839, and held a public hearing thereupon. Testimony in support of the proposed draft was submitted by the Department of Education, Aloha United Way, the Hawaii Alliance for Community-Based Economic Development, the Hawai'i Council on Economic Education, the Legal Aid Society of Hawai'i, and the National Association of Social Workers Hawaii.

Your Committee finds that the cost of purchasing a home, pursuing post-secondary education, and starting a business in Hawaii is becoming prohibitively expensive for many residents. Additionally, community education and policies geared toward asset-building would help lower- and middle-income families achieve greater financial independence that would, in turn, help to promote stability throughout various sectors of the state economy.

Accordingly, your Committee has amended this measure by replacing its contents with language from S.B. No. 2839 that establishes a Public Financial Education and Asset-Building task force to be convened by the Chairs of the Senate Committee on Human Services and Public Housing and the House Committee on Human Services and Housing. The purpose of the task force is to develop policy recommendations regarding universal, matched savings accounts for newborns, statewide standards for financial and economic education for public- and private-sector employees, and the elimination of asset limits as a bar to eligibility for public benefit programs.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 92, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 92, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3541 (Joint) Judiciary and Labor and Tourism and Government Operations on S.R. No. 40

The purpose of this measure is designate September 2008 as Language Access Month to raise awareness of the language access laws and the provision of equal access to state and state-funded government services.

Your Committees received testimony in support of this measure from the Office of Language Access, Filipino American Citizens League, Filipino-American Historical Society of Hawaii, Filipino Coalition for Solidarity, Hawaii Interpreter Action Network, National Federation of Filipino American Associations, Nursing Advocates & Mentors, Inc., Oahu Filipino Community Council, Philippine Nurses Association-Hawaii, and United Filipino Council of Hawaii.

According to the 2000 Census, 290,000 of Hawaii's 1,200,000 people, or approximately twenty-four per cent of the population, speak a language other than English at home, including over 250,000 persons who speak an Asian or Pacific Island language. For this portion of Hawaii's population for whom English is not their primary language and who have identified themselves as having limited English proficiency ("LEP"), language is a barrier that often prohibits them from fully participating in the community and undermines their efforts to become self-sufficient and productive.

In 2006, the Legislature recognized and acknowledged that language is a barrier for LEP individuals living in Hawaii and enacted Hawaii's language access law. As a result of Hawaii's language access law, the Office of Language Access was established to promote equal access and full participation for persons with limited English proficiency through oversight, coordination, and technical assistance to state and state-funded entities and by reviewing and monitoring language access plans. The Office of Language Access indicated in testimony that the feasibility study can be funded from existing resources.

Your Committees have amended this measure on the recommendation of the Office of Language Access to request a feasibility study by the Office on establishing a statewide centralized language access resource center and a report to the 2009 Legislature. Accordingly, the title of this measure was also amended.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Tourism and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 40, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 40, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Hee, Kokubun, Tsutsui).

SCRep. 3542 (Joint) Judiciary and Labor and Tourism and Government Operations on S.C.R. No. 67

The purpose of this measure is designate September 2008 as Language Access Month to raise awareness of the language access laws and the provision of equal access to state and state-funded government services.

Your Committees received testimony in support of this measure from the Office of Language Access, Filipino American Citizens League, Filipino-American Historical Society of Hawaii, Filipino Coalition for Solidarity, Hawaii Interpreter Action Network, National Federation of Filipino American Associations, Nursing Advocates & Mentors, Inc., Oahu Filipino Community Council, Philippine Nurses Association-Hawaii, and United Filipino Council of Hawaii.

According to the 2000 Census, 290,000 of Hawaii's 1,200,000 people, or approximately twenty-four per cent of the population, speak a language other than English at home, including over 250,000 persons who speak an Asian or Pacific Island language. For this portion of Hawaii's population for whom English is not their primary language and who have identified themselves as having limited English proficiency ("LEP"), language is a barrier that often prohibits them from fully participating in the community and undermines their efforts to become self-sufficient and productive.

In 2006, the Legislature recognized and acknowledged that language is a barrier for LEP individuals living in Hawaii and enacted Hawaii's language access law. As a result of Hawaii's language access law, the Office of Language Access was established to promote equal access and full participation for persons with limited English proficiency through oversight, coordination, and technical assistance to state and state-funded entities and by reviewing and monitoring language access plans. The Office of Language Access indicated in testimony that the feasibility study can be funded from existing resources.

Your Committees have amended this measure on the recommendation of the Office of Language Access to request a feasibility study by the Office on establishing a statewide centralized language access resource center and a report to the 2009 Legislature. Accordingly, the title of this measure was also amended.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Tourism and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 67, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 67, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 3 (Hee, Kokubun, Tsutsui).

SCRep. 3543 Judiciary and Labor on S.C.R. No. 58

The purpose of this measure is to establish a task force to review the retirement age for state court justices and judges; the terms of and possible term limits for state court justices and judges; the possibility of establishing a senior judge system for state court justices and judges; judicial accountability and fitness in the State of Hawaii; and related matters.

Your Committee has deleted the contents of this measure and inserted provisions that call for the convening of a task force to review the Sunshine Law, part I of chapter 92, Hawaii Revised Statutes, for the purpose of considering the necessity of possible exceptions to remove unnecessarily cumbersome obstacles to efficient board operations while maintaining public trust and open government principles.

Your Committee received testimony in support of this measure, as amended, from the Honolulu Department of the Corporation Counsel, Maui Council Chair, and Society of Professional Journalists Hawaii Chapter. Comments were received from the Legislative Reference Bureau.

The intent of the Sunshine Law is to provide as much transparency as practical to allow public scrutiny and participation by providing requirements imposed on boards in the conduct of board business. While Hawaii's Sunshine Law provides a maximum of openness for public scrutiny and participation in public boards, a number of boards have encountered barriers to efficient operations which appear to them as unreasonable and unnecessary to ensure public accountability, for example, three board members are currently prohibited from attending informational meetings sponsored by other organizations, including legislative hearings where board business may be discussed.

A comprehensive review of the Sunshine Law is necessary in order to consider reasonable exceptions to the law that may be necessary to facilitate board business without undermining public trust and principles of open government.

Your Committee has amended the proposed S.D. 1 of this measure by:

- (1) Requesting the Office of Informational Practices to assist the working group, inasmuch as the Office has the requisite expertise in this area;
- (2) Requesting the Legislative Reference Bureau to draft any proposed recommended legislation of the working group;
- (3) Adding a representative from each of the county councils to the working group, to represent county councils and county boards and commissions; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 58, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 58, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3544 Tourism and Government Operations on S.R. No. 91

The purpose of this measure is to request the Hawaii Tourism Authority, in cooperation and conjunction with the Department of Health and appropriate water safety organizations, to furnish and distribute aboard all incoming mainland and international flights a multi-lingual visitor water safety information handout to provide education on water recreational hazards.

This measure also requests the State Department of Transportation to work with the airlines to ensure the onboard distribution of the handout to all incoming passengers on flights to Hawaii.

Your Committee received testimony in support of this measure from the Department of Health, Kauai Fire Department, Honolulu Emergency Services Department, The Hawaiian Lifeguard Association, and one individual. Comments were received from the Hawai'i Tourism Authority.

Visitors to Hawaii often learn about an area from a guidebook or the Internet, which directs visitors, who are often inexperienced swimmers, to remote beaches, cliffs, and dive spots that may not have lifeguards. These visitors may be unaware of ocean hazards and the basic principles of water safety.

It was reported in *The Honolulu Advertiser* on January 30, 2007, that a key feature of a water safety warning program to protect visitors is information, and for years, lifeguards have been fighting a difficult battle to educate people about ocean hazards, with many of them launching their own initiatives to warn visitors through their individual efforts and often at their own expense.

There are several means by which information may be disseminated to educate visitors of water safety and ocean hazards. In this regard, your Committee finds that the hotels, airlines, cruise industry, and the Hawaii Superferry are among the entities that should serve as points of information dissemination. Further consideration, however, is required to determine the most appropriate and effective means of dissemination, as well as the scope and content of the information provided. In this respect, your Committee finds that the Hawaii Tourism Authority would benefit from input from the Department of Health, the Honolulu Emergency Services Department, the University of Hawaii School of Ocean and Earth Science and Technology, and appropriate water safety organizations.

Your Committee has amended this measure by:

- (1) Clarifying that information for visitors on water safety and recreational hazards be incorporated into a visitor multi-lingual information and education program;
- (2) Adding the University of Hawaii School of Ocean and Earth Science and Technology, and the Honolulu Emergency Services Department to the organizations requested to cooperate with the Hawaii Tourism Authority;
- (3) Changing the title to accurately reflect the changes in (1) and (2) herein;
- (4) Deleting reference to the dissemination of an onboard handout on incoming flights, because this is not necessarily the best or most effective means of dissemination;
- (5) Adding the Hawaii Superferry as an entity that is requested to disseminate information for visitors on water safety and recreational hazards;
- (6) Adding that the Hawaii Tourism Authority be responsible for the dissemination of information for visitors on water safety and recreational hazards to all Hawaii hotels and to every cruise ship company operating in Hawaii;
- (7) Adding the cruise industry to the entities that are requested to disseminate information for visitors on water safety and recreational hazards; and
- (8) Deleting transmittal of this Senate Concurrent Resolution to Aloha Airlines and ATA, as they are no longer in business.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 91, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 91, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3545 Tourism and Government Operations on S.C.R. No. 166

The purpose of this measure is to request the Hawaii Tourism Authority, in cooperation and conjunction with the Department of Health and appropriate water safety organizations, to furnish and distribute aboard all incoming mainland and international flights a multi-lingual visitor water safety information handout to provide education on water recreational hazards.

This measure also requests the State Department of Transportation to work with the airlines to ensure the onboard distribution of the handout to all incoming passengers on flights to Hawaii.

Your Committee received testimony in support of this measure from the Department of Health, Kauai Fire Department, Honolulu Emergency Services Department, The Hawaiian Lifeguard Association, and one individual. Comments were received from the Hawai'i Tourism Authority.

Visitors to Hawaii often learn about an area from a guidebook or the Internet, which directs visitors, who are often inexperienced swimmers, to remote beaches, cliffs, and dive spots that may not have lifeguards. These visitors may be unaware of ocean hazards and the basic principles of water safety.

It was reported in *The Honolulu Advertiser* on January 30, 2007, that a key feature of a water safety warning program to protect visitors is information, and for years, lifeguards have been fighting a difficult battle to educate people about ocean hazards, with many of them launching their own initiatives to warn visitors through their individual efforts and often at their own expense.

There are several means by which information may be disseminated to educate visitors of water safety and ocean hazards. In this regard, your Committee finds that the hotels, airlines, cruise industry, and the Hawaii Superferry are among the entities that should serve as points of information dissemination. As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 166, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

SCRep. 3546 Water and Land on S.R. No. 108

The purpose of this measure is to address the interests of the Kaka'ako business community by requesting the Hawaii Community Development Authority to defer decisions on any applications for zoning changes until the completion of the supplemental environmental impact statement process and the subsequent adoption of the Draft Mauka Area Plan and the Mauka Area Rules.

Testimony in support of this measure was received from the Kakaako Business and Land Owners Association, a member of the Kaka'ako Makai Community Planning Advisory Council, and two individuals, including a small business owner in the central Kaka'ako district. The Hawaii Community Development Authority (HCDA) presented oral testimony explaining the timetable for completion of its Mauka Area Plan and for review of the master plan applications in conjunction with the Mauka Area Plan. General Growth Properties, Inc. (GGP), submitted comments.

Your Committee finds that business owners in Kaka'ako have been working together with the HCDA for several years to develop a Mauka Area Plan, which is currently in its supplemental environmental impact statement stage. Many of these business owners have expressed strong reservations that any decisions for zoning or other changes that are approved before the Mauka Area Plan is completed may undermine the planning process, and disrupt the participation from stakeholders and residents.

Your Committee further finds that as the planning and rulemaking process is reaching the critical phase of public review, it would be prudent to delay any decisions for zoning or other changes until that process is completed. If not, there is at minimum a strong perception that the HCDA is undermining its Mauka Area Plan development process if pending master plan applications that will have a significant long-term effect on businesses and residents of Kaka'ako are acted upon prior to adoption of the final Mauka Area Plan.

Your Committee has amended this measure by:

- (1) Clarifying and correcting the WHEREAS clause related to the process and anticipated timeframes for the approval of the GGP Master Plan;
- (2) Clarifying and correcting the WHEREAS clauses related to the process and anticipated timeframes for the adoption of the Mauka Area Plan and the Mauka Area Rules; and
- (3) Adding an alternative option in the BE IT RESOLVED clause to request the HCDA to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2009 on the steps the HCDA has taken to provide the fullest extent of public review and scrutiny of its actions on the GGP Master Plan application and the considerations for its decision on the application.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 108, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 108, S.D. 1.

Signed by the Vice Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3547 Water and Land on S.C.R. No. 189

The purpose of this measure is to address the interests of the Kaka'ako business community by requesting the Hawaii Community Development Authority to defer decisions on any applications for zoning changes until the completion of the supplemental environmental impact statement process and the subsequent adoption of the Draft Mauka Area Plan and the Mauka Area Rules.

Testimony in support of this measure was received from the Kakaako Business and Land Owners Association, a member of the Kaka'ako Makai Community Planning Advisory Council, and two individuals, including a small business owner in the central Kaka'ako district. The Hawaii Community Development Authority (HCDA) presented oral testimony explaining the timetable for completion of its Mauka Area Plan and for review of the master plan applications in conjunction with the Mauka Area Plan. General Growth Properties, Inc. (GGP), submitted comments.

Your Committee finds that business owners in Kaka'ako have been working together with the HCDA for several years to develop a Mauka Area Plan, which is currently in its supplemental environmental impact statement stage. Many of these business owners have expressed strong reservations that any decisions for zoning or other changes that are approved before the Mauka Area Plan is completed may undermine the planning process, and disrupt the participation from stakeholders and residents.

Your Committee further finds that as the planning and rulemaking process is reaching the critical phase of public review, it would be prudent to delay any decisions for zoning or other changes until that process is completed. If not, there is at minimum a strong perception that the HCDA is undermining its Mauka Area Plan development process if pending master plan applications that will have a significant long-term effect on businesses and residents of Kaka'ako are acted upon prior to adoption of the final Mauka Area Plan.

Your Committee has amended this measure by:

- (1) Clarifying and correcting the WHEREAS clause related to the process and anticipated timeframes for the approval of the GGP Master Plan;
- (2) Clarifying and correcting the WHEREAS clauses related to the process and anticipated timeframes for the adoption of the Mauka Area Plan and the Mauka Area Rules; and
- (3) Adding an alternative option in the BE IT RESOLVED clause to request the HCDA to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2009 on the steps the HCDA has taken to provide the fullest

extent of public review and scrutiny of its actions on the GGP Master Plan application and the considerations for its decision on the application.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 189, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 189, S.D. 1.

Signed by the Vice Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3548 (Joint) Energy and Environment and Water and Land on S.C.R. No. 50

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism and the Department of Land and Natural Resources to study the feasibility of creating a renewable energy sub-district classification of lands as permissible locations for renewable energy generation.

Specifically, this measure requests that the study:

- (1) Refer to the December 2006 report to the Department of Land and Natural Resources and the Department of Business, Economic Development, and Tourism, *A Catalog of Potential Sites for Renewable Energy in Hawaii*, that identifies potential sites in the State for the location of renewable energy generation; and
- (2) Include a cost analysis of providing a non-refundable income tax credit to residents of lands in renewable energy sub-districts.

The Department of Taxation is requested to assist with the income tax credit portions of the study.

Testimony in support of this measure was submitted by Zero Emissions Leasing LLC. Comments were submitted by the Department of Land and Natural Resources; and the Department of Business, Economic Development, and Tourism.

Your Committees have amended this measure by adding clauses to:

- (1) Explain that a similar effort was previously made when geothermal resource subzones were designated through sections 205-5.1 and 205-5.2, Hawaii Revised Statutes (HRS), but without financial incentives for community residents to accept geothermal development activities in their community; and
- (2) Request that the Department of Business, Economic Development, and Tourism consider the repeal of sections 205-5.1 and 205-5.2, HRS, and incorporation of geothermal resource subzones within the renewable energy sub-district classification being designated pursuant to chapter 91, Hawaii Revised Statutes.

Your Committees find that providing financial incentives for community residents to accept renewable energy generators in their community would assist in the development of renewable energy generators, such as wind turbines and photovoltaic panels.

Your Committees further find that the creation of a renewable energy sub-district land classification may serve the public interest by promoting the use of renewable energy; which will ultimately, by decreasing the use of fossil fuels, reduce the State's production of greenhouse gases and increase the State's energy self-sufficiency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 50, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 50, S.D. 1.

Signed by the Vice Chairs on behalf of the Committees. Ayes, 5. Noes, none. Excused, 4 (Hee, Hooser, Ihara, Whalen).

SCRep. 3549 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 291, 292 and 454

Recommending that the Senate advise and consent to the nominations of the following:

MOLOKAI IRRIGATION SYSTEM WATER USERS ADVISORY BOARD

G.M. No. 291 JAMES A. BOSWELL, for a term to expire 6-30-2012;

G.M. No. 292 RICHARD K. WHEELER, for a term to expire 6-30-2012; and

G.M. No. 454 AUDWIN A. CALAIRO, for a term to expire 6-30-2011

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds James A. Boswell, Richard K. Wheeler, and Audwin A. Calairo to have the necessary qualifications to be nominated to the Molokai Irrigation System Water Users Advisory Board ("MISWUAB").

Testimony in support of the nomination of James A. Boswell was submitted by the Department of Agriculture, MISWUAB, and Hikiola Cooperative.

Mr. Boswell received his Bachelor's degree in Ornamental Horticulture from Brigham Young University (Provo, Utah). He has been a director of MISWUAB for one term and serves as its secretary. Mr. Boswell has over twenty years experience relating to agriculture and has served twenty-one years as a college instructor teaching agricultural classes and managing the Maui Community College's twenty-eight acre farm on Molokai. He also currently serves as the vice-chair of the Molokai-Lanai Soil and Water Conservation District.

Testimony in support of the nomination of Richard K. Wheeler was submitted by the Department of Agriculture and MISWUAB. Testimony in opposition to his nomination was submitted by one individual.

Mr. Wheeler has spent almost forty years working in agriculture as a primary producer. He is the previous owner of Molokai Honey Company and the present owner of Molokai Plumerias. He is a member of the Hawaii Farm Bureau and is the vice-president of Hikiola, a local agricultural cooperative.

Testimony in support of the nomination of Audwin A. Calairo was submitted by the Department of Agriculture, MISWUAB, and three interested individuals. Testimony in opposition to his nomination was submitted by six individuals.

Mr. Calairo is filling a non-homestead position on MISWUAB. He was born and raised on Molokai and graduated from Molokai High School. He is presently employed by Monsanto Molokai, and previously, from 1992 to 2007, Mr. Calairo was employed by Molokai Ranch, Ltd. Monsanto Molokai is one of the largest non-homestead customers of the Molokai Irrigation System. Mr. Calairo is also active in community services and has coached high school volleyball and little league baseball.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 3550 Agriculture and Hawaiian Affairs on Gov. Msg. No. 269

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF AGRICULTURE

G.M. No. 269 LEE DOUGLAS MACCLUER, for a term to expire 6-30-2012

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Lee Douglas MacCluer to have the necessary qualifications to be nominated to the Board of Agriculture.

Testimony in support of the nomination of Lee Douglas MacCluer was submitted by the Department of Agriculture, Hawaii Farm Bureau, Hawaii Agriculture Research Center, Maui County Farm Bureau, Tropical Hawaiian Products, and one interested individual.

Mr. MacCluer received his Bachelor's degree in General Agriculture from California State University, Fresno. Prior to his retirement in 2003, Mr. MacCluer was employed by Maui Land and Pineapple Company, Inc. as the Vice President of Agricultural Development and Plantation Manager. He is currently active in numerous community service activities including serving as the Chairperson of the Maui Drought Mitigation Commission.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 3551 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 267 and 268

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE AGRIBUSINESS DEVELOPMENT CORPORATION

G.M. No. 267 ROBERT EARL COOPER, for a term to expire 6-30-2012; and

G.M. No. 268 ROBERT V. OSGOOD, for a term to expire 6-30-2012

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Robert Earl Cooper and Robert V. Osgood to have the requisite qualifications to be nominated to the Board of Directors of the Agribusiness Development Corporation.

Testimony in support of the nomination of Robert Earl Cooper was submitted by the Department of Agriculture and the Agribusiness Development Corporation.

Mr. Cooper has served on the Board of Directors of the Agribusiness Development Corporation since 2005. He is the former President and Chief Executive Officer of W.H. Shipman, Ltd., where he managed 17,000 acres of land in Puna, which included leasing land to farmers, industrial and commercial development, and fiscal management. Mr. Cooper received his Bachelor's degree in Business Administration from San Jose State College.

Testimony in support of the nomination of Dr. Robert V. Osgood was submitted by the Department of Agriculture, Agribusiness Development Corporation, Hawaii Farm Bureau, Hawaii Agriculture Research Center, Maui County Farm Bureau, Hawaii Forest Industry Association, and one interested individual.

Currently an agricultural consultant, Dr. Osgood was previously the Vice President and Assistant Director of the Hawaii Agriculture Research Center. He received his Bachelor's degree in Biology from the University of Miami and his Master's degree and Doctoral degree in Horticulture from the University of Hawaii. Dr. Osgood is the past president of the Growth Regulator Society of America and the Hawaii Crop Improvement Association. Having extensive experience in agronomy, horticulture, entomology, field engineering, and weed science, Dr. Osgood has managed several agricultural research projects and is experienced with a multitude of crop types. He is familiar with the land and irrigation systems in present and future project areas statewide, as well as the agricultural practices, economics, and geopolitical environments of many counties.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 3552 Agriculture and Hawaiian Affairs on Gov. Msg. No. 290

Recommending that the Senate advise and consent to the nomination of the following:

KAHO'OLAWE ISLAND RESERVE COMMISSION

G.M. No. 290 CHARLES P.M.K. BURROWS EDD, for a term to expire 6-30-2012

Testimony in support of the nomination Charles P.M.K. Burrows to the Kaho'olawe Island Reserve Commission was submitted by the Executive Director of the Kaho'olawe Island Reserve Commission, 'Ahahui Malama i ka Lokahi, Association of Hawaiian Civic Clubs, and one individual.

Dr. Burrows is a graduate of the Kamehameha Schools, he received a Bachelor's degree from Linfield College, Master's degrees in education and science from Oregon State University and a Doctorate degree in education from Indiana University. He is presently a member of the Kaho'olawe Island Reserve Commission and is also a member of various community organizations, notably Kawai Nui Heritage Foundation, 'Ahahui Malama i ka Lokahi, and the Kailua Civic Club which are concerned with the protection and conservation of Kawaiinui marsh.

Your Committee notes the previous service of Dr. Burrows on the Kaho'olawe Island Reserve Commission and that, by law, he will only be able to serve until January 10, 2010. However, your Committee believes that Dr. Burrows' experience and background will continue to be an asset to the Commission up to that time.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 3553 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 293, 294 and 535

Recommending that the Senate advise and consent to the nominations of the following:

ADVISORY COMMITTEE ON PESTICIDES

G.M. No. 293 DON R. GERBIG, for a term to expire 6-30-2012;

G.M. No. 294 SEAN O'KEEFE, for a term to expire 6-30-2012; and

G.M. No. 535 DARREN J. STRAND, for a term to expire 6-30-2012

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Don R. Gerbig, Sean O'Keefe, and Darren J. Strand to have the necessary qualifications to be nominated to the Advisory Committee on Pesticides.

Testimony in support of the nomination of Don R. Gerbig was submitted by the Department of Agriculture, Hawaii Farm Bureau Federation, Hawaii Agriculture Research Center, Maui County Farm Bureau, Tropical Hawaiian Products, BEI Hawaii, Maui Land and Pineapple Company, Inc., Kauai Commercial Company, Inc., Twin Bridge Farms, Inc., and one interested individual.

Mr. Gerbig is currently retired doing consulting work in safety and environmental regulatory programs. He was previously employed by Gay and Robinson, Inc. as a Diversified Crop Coordinator, Brewer Environmental Industries as a Branch Manager, by Amfac/JMB, Hawaii, Inc. as a Director of Environmental Affairs and Safety, and by two other sugarcane producers prior to that. Mr. Gerbig received his Bachelor's degree in Agronomy with a minor in Chemistry from California State Polytechnic College.

Testimony in support of the nomination of Sean O'Keefe was submitted by the Department of Agriculture, Hawaii Farm Bureau Federation, Maui County Farm Bureau, Hawaii Agriculture Research Center, Hawaiian Commercial and Sugar Company, and Gay and Robinson, Inc.

Mr. O'Keefe satisfies the requirement of having a representative of the sugar industry on the Advisory Committee on Pesticides. He received his Bachelor's degree in Chemical Engineering from the University of Notre Dame. He is currently employed by Alexander and Baldwin, Inc. as its Director of Environmental Affairs. He was previously employed by Hawaiian Commercial and Sugar Company as a Environment Affairs Specialist.

Testimony in support of the nomination of Darren Strand was submitted by the Department of Agriculture, Hawaii Farm Bureau Federation, Maui County Farm Bureau, Maui Land and Pineapple Company, Inc., and one interested individual.

Mr. Strand satisfies the requirement of having a representative of the pineapple industry on the Advisory Committee on Pesticides. He received his Bachelor's degree in Biology and Chemistry from Western Oregon University. He is presently employed by Maui Pineapple Co. as its Director of Farm Operations. Mr. Strand is also a Director of the Maui County Farm Bureau.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 3554 Public Safety on Gov. Msg. No. 412

Recommending that the Senate advise and consent to the nomination of the following:

CORRECTIONAL INDUSTRIES ADVISORY COMMITTEE

G.M. No. 412 THOMAS K. SING, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Thomas K. Sing to have the necessary qualifications to be nominated to the Correctional Industries Advisory Committee.

Your Committee received testimony in support of Mr. Sing's nomination from the Department of Public Safety.

Mr. Sing has served on various boards and commissions, including but not limited to the Civil Service Commission for the City and County of Honolulu, the Civil Service Commission for the State of Hawaii, Hawaii Dental Service, Hawaii Public Television, and Aloha United Way. Mr. Sing's experience as President of Graphic Communications International Union, Local 501-M has enabled him to successfully resolve many issues relating to employment, promotions, and disciplinary actions.

Your Committee finds that Mr. Sing's experiences as an organizer and negotiator with various employers for improved working conditions, benefits, wages, and gender equality would be a tremendous benefit to the Correctional Industries Advisory Committee as the Correctional Industries enters into agreements to provide labor services and training.

As affirmed by the record of votes of the members of your Committee on Public Safety that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 3555 Public Safety on Gov. Msg. Nos. 413, 414 and 415

Recommending that the Senate advise and consent to the nominations of the following:

WIRELESS ENHANCED 911 BOARD

G.M. No. 413 CEDRIC K. APAKA, for a term to expire 12-31-2010;

G.M. No. 414 PAUL K. FERREIRA, for a term to expire 6-30-2012; and

G.M. No. 415 RUSSELL D. LUNDBERG, for a term to expire 12-31-2010

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Cedric K. Apaka, Paul K. Ferreira, and Russell D. Lundberg to have the necessary qualifications to be nominated to the Wireless Enhanced 911 Board.

Your Committee received testimony in support of Cedric K. Apaka from the Department of Accounting and General Services and Verizon Wireless.

Cedric K. Apaka holds a State of Hawaii C-15 Electronic Equipment Maintenance license. Mr. Apaka currently serves as an Operations Manager for Verizon Wireless, whereby he is responsible for all the switch and cell maintenance for the State of Hawaii. His responsibilities for Verizon Wireless also include monitoring capital improvement projects and their expense budget. Mr. Apaka has accumulated over thirty years of experience working in the wireless and telecommunication industries, which will enable Mr. Apaka to assist the Wireless Enhanced 911 Board with the technical and administrative knowledge that is necessary to create and implement emergency services throughout Hawaii.

Your Committee received testimony in support of Paul K. Ferreira from the Department of Accounting and General Services, the Office of the Corporation Counsel for the County of Hawaii, the Hawai'i Fire Department, and one private individual.

Paul K. Ferreira currently serves as the Assistant Police Chief for the County of Hawaii Police Department. Mr. Ferreira has over twenty-five years of experience as a police officer and is committed to ensuring that the community receives the highest quality of emergency services that are possible. His specific experiences in various positions within the County of Hawaii Police Department will enable Mr. Ferreira to provide tremendous insight into the objective of providing enhanced 911 services throughout the State of Hawaii.

Your Committee received testimony in support of Russell D. Lundberg from the Department of Accounting and General Services, Verizon Wireless, Hawaii Pacific Health, and Mobi PCS.

Russell D. Lundberg currently serves as the Director of Network Engineering for Mobi PCS in Honolulu. His responsibilities include operating and extending the switched network and VAS, including all switch translations, cell site backhaul, PSTN interconnection, LD, and mobile data. Mr. Lundberg previously started his own company, Siam WiFi, which built commercial WiFi hotspots. Mr. Lundberg's previous experience in working with wireless emergency 911 telecommunications will assist the Wireless Enhanced 911 Board in achieving its goal of expanding the coverage for emergency services to various underserved areas throughout Hawaii. Mr. Lundberg has a Bachelor's degree in Physics from California State University, Long Beach.

As affirmed by the records of votes of the members of your Committee on Public Safety that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 3556 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 271 and 528

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAI'I

G.M. No. 271 KU H. KAHAKALAU, PHD, for a term to expire 6-30-2012; and

G.M. No. 528 GENE KALEOLANI LESLIE, for a term to expire 6-30-2012

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Ku H. Kahakalau and Gene Kaleolani Leslie to have the requisite qualifications to be nominated to the Island Burial Council, Island of Hawai'i.

Testimony in support of the nomination of Dr. Kahakalau was submitted by the Department of Land and Natural Resources, Hui Malama I Na Kupuna O Hawai'i Nei, Association of Hawaiian Civic Clubs, and three interested individuals.

Dr. Kahakalau is currently a member of the Island Burial Council for the Island of Hawai'i. She received her Associate's degree in Liberal Arts from Kapi'olani Community College, her Bachelor's degree in Education and Professional Development degree in Secondary Education Hawaiian Language, and her Master's degree in European Language and Literature from the University of Hawaii at Manoa, and her Doctoral degree in Indigenous Education from The Union Institute and University.

Dr. Kahakalau is the founder and president of Kanu O Ka Aina Charter School. She has an exemplary background in Hawaiian Culture and is a Native Hawaiian practitioner, educator, researcher, songwriter, and expert in Hawaiian language.

Testimony in support of the nomination of Gene Kaleolani Leslie was submitted by the Department of Land and Natural Resources, Senator of the First Senate District of the State of Hawaii, Hawaiian Civic Club of Honolulu, Hawaii Island Economic Development Board, and seven interested individuals.

Mr. Leslie received a Bachelor's degree in Psychology from Brigham Young University. He is a member of the American Institute of Design and the owner and floral designer of Flowers for Mama. Mr. Leslie is a member of numerous Hawaiian Civic Clubs and a board member of Leahi Hospital, Habitat for Humanity West Hawaii, and Hawaii Community Foundation.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3557 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 272 and 453

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF MAUI AND LANAI

G.M. No. 272 JAMES BALLAO, for a term to expire 6-30-2009; and

G.M. No. 453 JOHN B. NAEOLE, for a term to expire 6-30-2012

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds James Ballao and John B. Naeole to possess the requisite qualifications to be nominated to the Island Burial Council, Islands of Maui and Lanai.

Testimony in support of the nomination of Mr. Ballao was submitted by the Department of Land and Natural Resources.

Mr. Ballao is nominated as the Wailuku District representative for the Island Burial Council for the islands of Maui and Lanai. He is employed by the Department of Education as a Special Education Teacher in Hawaiian Studies. Mr. Ballao received a Bachelor's degree in Sociology from the University of Hawaii at Hilo, a Master's degree in Education from Walden University, and is a candidate for a Doctoral degree in Educational Leadership from NorthCentral University. He has an extensive background in Hawaiian culture.

Testimony in support of the nomination of John B. Naeole was submitted by the Department of Land and Natural Resources, Royal Order of Kamehameha, and two interested individuals.

Mr. Naeole is nominated as the Makawao District representative for the Island Burial Council for the islands of Maui and Lanai. He is employed by Maui Land and Pineapple Company, Inc. as a maintenance supervisor and is currently serving as the Pukaua Iki of Heiau O Na Ali'i and is a member of The Royal Order of Kamehameha I, Kahekili Chapter IV. Mr. Naeole is a graduate of Saint Anthony High School in Wailuku, Maui.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3558 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 286, 287 and 288

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF KAUA'I AND NI'IIHAU

G.M. No. 286 MARK S. HUBBARD SPHR, for a term to expire 6-30-2012;

G.M. No. 287 MICHAEL Y.M. LOO, for a term to expire 6-30-2012; and

G.M. No. 288 SANDRA P. QUINSAAT, for a term to expire 6-30-2012

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Mark S. Hubbard, Michael Y.M. Loo, and Sandra P. Quinsaas to possess the requisite qualifications to be nominated to the Island Burial Council, Islands of Kaua'i and Ni'ihau (Council).

Testimony in support of the nomination of Mark S. Hubbard, SPHR, was submitted by the Department of Land and Natural Resources and the Mayor of the County of Kaua'i.

Mr. Hubbard was nominated to serve as landowner representative on the Council. He is currently self-employed and provides human resource management services to Grove Farm Company, Inc. and other clients. Having previously worked as a property manager for Grove Farm Company, Inc. and Lihue Plantation Company, Mr. Hubbard has over fifteen years of experience in property management and real estate sales and leasing. He received his Bachelor's degree in Biology from Stanford University and his teacher's certificate and Master's degree in Business Administration from the University of Hawaii.

Testimony in support of the nomination of Michael Y.M. Loo was submitted by the Department of Land and Natural Resources, Mayor of the County of Kaua'i, Princeville Associates, LLC, and two interested individuals.

Mr. Loo also was nominated to serve as a landowner representative of the Council. He has an extensive background in real estate development and is currently a self-employed real estate manager working with Princeville Associates, LLC and its affiliates through his business, Building Solutions LLC. He received his Bachelor's degree in Speech from the University of Hawaii at Manoa and currently serves on the Council for the islands of Kaua'i and Ni'ihau fulfilling the unexpired term of his predecessor.

Testimony in support of the nomination of Sandra P. Quinsaas was submitted by the Department of Land and Natural Resources and one interested individual.

Ms. Quinsaas was nominated to serve as the Koloa District representative on the Council. She is currently employed as the Engineering Division Project Manager for the Grand Hyatt Kaua'i Resort and Spa. She graduated from Kaua'i Community College and has an extensive background relating to Hawaiian culture. Ms. Quinsaas has served on the Council for the past three years.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3559 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 282, 284, 285 and 529

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF OAHU

G.M. No. 282 ANGELA LISA LEIMAILE EHIA-QUITEVIS, for a term to expire 6-30-2012

G.M. No. 284 HINALEIMOANA K.K. WONG, for a term to expire 6-30-2008;

G.M. No. 285 HINALEIMOANA K.K. WONG, for a term to expire 6-30-2012; and

G.M. No. 529 SHAD S. KANE, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Angela Lisa Leimaile Ehia-Quitevis, Hinalaimoana K.K. Wong, and Shad S. Kane to have the requisite qualifications to be nominated to the Island Burial Council, Island of Oahu.

Testimony in support of the nomination of Angela Lisa Leimaile Ehia-Quitevis was submitted by the Department of Land and Natural Resources, Hui Malama I Na Kupuna O Hawai'i Nei, and two private individuals. Testimony in opposition was submitted by three individuals.

Ms. Ehia-Quitevis currently works with Alaka'i O Kahunana. She currently serves as an interim member of the Island Burial Council for the island of Oahu and satisfies the requirement of having a member representing the Waialua district. Ms. Ehia-Quitevis has an extensive background in Hawaiian culture and language. Testimony indicates that she has a working knowledge of historic preservation laws and policies and that her past work as a cultural monitor at Schofield Barracks was instrumental in expanding the military's recognition of important and irreplaceable Hawaiian cultural sites and burials.

Testimony in support of the nomination of Hinalaimoana K.K. Wong was submitted by the Department of Land and Natural Resources, Hui Malama I Na Kupuna O Hawai'i Nei, and three private individuals.

Ms. Wong is currently the Kumu Hula/Oli to Kula Aupuni Ni'ihau and is the Cultural Coordinator for Halau Lokahi Public Charter School. She currently serves as a member of the Island Burial Council for the island of Oahu and satisfies the requirement of having a member representing the Kona district. Ms. Wong received Bachelor's degrees in Education and Hawaiian Studies from the University of Hawaii at Manoa. She has an extensive background in the Hawaiian culture.

Testimony in support of the nomination of Shad S. Kane was submitted by the Department of Land and Natural Resources, Hawaiian Civic Club of Honolulu, Association of Hawaiian Civic Clubs, and eleven private individuals.

Mr. Kane is a retired Honolulu Police Department Lieutenant. He would satisfy the requirement of having a representative of the Ewa District on the Island Burial Council for the island of Oahu. Mr. Kane has a Bachelor's degree in Business Management from the University of Hawaii and Master's degree in Public Administration from Central Michigan University. He has an extensive background in the cultural history of Ewa and in the proper treatment of Iwi Kupuna.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3560 Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 273, 274, 275, 276, 277, 278, 279, 280 and 281

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF MOLOKAI

- G.M. No. 273 MALIA K.H. AKUTAGAWA ESQ., for a term to expire 6-30-2012;
- G.M. No. 274 FRANCES COBB-ADAMS, for a term to expire 6-30-2011;
- G.M. No. 275 SUE ANN M.M. HASEGAWA, for a term to expire 6-30-2010;
- G.M. No. 276 KEKAMAIIKAMAIIKALANI HELM, for a term to expire 6-30-2010;
- G.M. No. 277 ELROY K.M. MALO, for a term to expire 6-30-2008;
- G.M. No. 278 ELROY K.M. MALO, for a term to expire 6-30-2012;
- G.M. No. 279 JERSULA L. MANABA, for a term to expire 6-30-2008;
- G.M. No. 280 JERSULA L. MANABA, for a term to expire 6-30-2012; and
- G.M. No. 281 MICHELLE KANANIONAPUA AYAU PESCAIA, for a term to expire 6-30-2011

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Malia K.H. Akutagawa, Frances Cobb-Adams, Sue Ann M.M. Hasegawa, Kekamaikaikamaikalani Helm, Elroy K.M. Malo, Jersula L. Manaba, and Michelle Kananionapua Ayau Pescaia to have the requisite qualifications to be nominated to the Island Burial Council, Island of Molokai.

Testimony in support of the nomination of Ms. Akutagawa was submitted by the Department of Land and Natural Resources, Hui Malama I Na Kupuna O Hawai'i Nei, and three interested individuals.

Ms. Akutagawa received her Bachelor's degree in Biology and Philosophy from Whitworth College and her Juris Doctor degree with an environmental law certificate from the William S. Richardson School of Law, University of Hawaii at Manoa. Ms. Akutagawa is presently employed as the Director of the Molokai Rural Development Project.

Testimony in support of the nomination of Ms. Cobb-Adams was submitted by the Department of Land and Natural Resources and Hui Malama I Na Kupuna O Hawai'i Nei.

Ms. Cobb-Adams currently serves as an interim member of the Island Burial Council for the Island of Molokai and as the Molokai Pathways/Ho'omau Site Coordinator for Na Pua No'eau Center for Gifted and Talented Native Hawaiian Children. She received her Bachelor's degree in Hawaiian Studies from the University of Hawaii at Manoa.

Testimony in support of the nomination of Ms. Hasegawa was submitted by the Department of Land and Natural Resources and Hui Malama I Na Kupuna O Hawai'i Nei.

Ms. Hasegawa currently serves as an interim member of the Island Burial Council for the Island of Molokai and is a distance education and technology instructor at the Molokai Education Center. Ms. Hasegawa received her Bachelor's degree in Education and her Master's degree in Library Information and Science from the University of Hawaii at Manoa.

Testimony in support of the nomination of Mr. Helm was submitted by the Department of Land and Natural Resources, Hui Malama I Na Kupuna O Hawai'i Nei, and one interested individual.

Mr. Helm currently serves as an interim member of the Island Burial Council for the Island of Molokai and is a Community Building Facilitator with the Queen Lili'uokalani Children's Center. He has received his Certificate in Turf Grass Management from Maui Community College and has an exemplary background in Hawaiian cultural practices.

Testimony in support of the nomination of Mr. Malo was submitted by the Department of Land and Natural Resources, Hui Malama I Na Kupuna O Hawai'i Nei, and one interested individual.

Mr. Malo currently serves as an interim member of the Island Burial Council for the Island of Molokai and if confirmed, will serve out the completion of the present term and an additional term through June 30, 2012. He is currently a storyteller with Pacific Resources for Education and Learning, City and County of Honolulu, Artists in the Schools. Mr. Malo has an extensive background in Hawaiian studies.

Testimony in support of the nomination of Ms. Manaba was submitted by the Department of Land and Natural Resources and Hui Malama I Na Kupuna O Hawai'i Nei.

Ms. Manaba currently serves as an interim member of the Island Burial Council for the Island of Molokai and if confirmed, will serve out the completion of the present term and an additional term through June 30, 2012. She is currently the Housing Manager at Hale Mahaolu Home. She is a board member of the Molokai Occupational Center and Molokai Economic Opportunity Program.

Testimony in support of the nomination of Ms. Pescaia was submitted by the Department of Land and Natural Resources and Hui Malama I Na Kupuna O Hawai'i Nei.

Ms. Pescaia currently serves as an interim member of the Island Burial Council for the Island of Molokai. She is currently the Molokai Site Coordinator for Na Pua No'eau, Center for Gifted and Talented Native Hawaiian Children. Ms. Pescaia has an extensive background in Hawaiian language and is known as a master storyteller.

As affirmed by the records of votes of the members of your Committee on Agriculture and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3561 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 297

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOXING COMMISSION OF HAWAII

G.M. No. 297 HERBERT B. MINN, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Herbert B. Minn to have the necessary qualifications to be nominated to the State Boxing Commission of Hawaii.

Testimony in support of Mr. Minn's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Minn has made a lifelong commitment to the sport of boxing and its development in the State, which is evidenced by his long and varied career that spans six decades. He began as a competitor on the Honolulu amateur circuit, and later shifted roles by coaching the United States Army Pacific Area Team in competitions in Japan and the Philippines, and at the University of Hawaii. Building on this initial coaching experience, Mr. Minn went on to lead the Territory of Hawaii to a pair of national competitions. Of particular note, in 1975, he guided the United States boxing team to a first place finish in the King's Cup Tournament held in Bangkok, Thailand. In addition to competing and coaching, Mr. Minn has taken on official capacities in Honolulu and oversees as a referee and judge for the State Boxing Commission of Hawaii, the World Boxing Association, the International Boxing Federation, and the World Boxing Council.

Mr. Minn is nominated to serve a second term on the State Boxing Commission of Hawaii where he brings to the table his vast experience as an internationally known boxing official. He is diligent in responding to requests for input on amending Administrative Rules and other related matters, and has always made meaningful contributions during Commission discussions. Mr. Minn's demonstrated commitment, motivation, and experience will greatly assist the State Boxing Commission of Hawaii for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3562 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 315

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF EXAMINERS IN OPTOMETRY

G.M. No. 315 TIMOTHY H. MOON OD, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Timothy H. Moon, O.D. to have the necessary qualifications to be nominated to the Board of Examiners in Optometry.

Testimony in support of Dr. Moon's nomination was submitted by the Department of Commerce and Consumer Affairs, and three private individuals.

Dr. Moon received his Bachelor of Science degree from Georgia State University and his Doctor of Optometry from the Southern College of Optometry in Tennessee. He is currently the owner of Timothy H. Moon, O.D., Inc. where he serves as a therapeutic optometrist certified by the American Optometric Association. In this capacity, Dr. Moon has served the local and Korean community for the past eleven years. He is also a member of the Hawaii Optometric Association and the American Optometric Association.

Dr. Moon is the Chairperson of the Board of the United Korean Association, a Medical Volunteer for the United Methodist Volunteers in Mission, and a Presidential Advisory Councilmember of the Democratic and Peaceful Unification of Korea. His passion for helping people is evidenced by his commitment to going overseas on numerous occasions to improve the quality of eye health of persons living in countries, such as Tibet, China, and Korea, who are unable to afford or have access to quality eye care. Furthermore, he has frequently participated in the United Methodist Church's Vision Project 20/20 by providing eye care services for individuals in need of glasses.

Dr. Moon has been licensed as an optometrist in Hawaii since 1996 and has been nominated to serve a second term on the Board of Examiners in Optometry. His participation during discussions at Board meetings on issues affecting the practice of optometry, both locally and nationally, is proof that he is a member who is prepared, able, and willing to contribute his valuable time and efforts to the Board. Dr. Moon's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Examiners in Optometry for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the

nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3563 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 318

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHARMACY

G.M. No. 318 PATRICK LEE ADAMS, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Patrick Lee Adams to have the necessary qualifications to be nominated to the Board of Pharmacy.

Testimony in support of Mr. Adams' nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Adams received a degree in Business from the University of New Mexico and a Bachelor of Science in Pharmacy from the University of Louisiana. He is currently the Director of Pharmacy at Foodland grocery stores where he is responsible for overseeing four Foodland pharmacies and pharmacy development.

Mr. Adams has been licensed pharmacist in Hawaii since 2002. His commitment to the Board of Pharmacy is evidenced by his attendance to Board meetings as a member of the public prior to his initial appointment in May 2007 to become familiar with local and national issues that the Board addresses. He has participated in task forces that relate to the practice of pharmacy. As a member of the Board, his participation during meeting discussions is meaningful, and the Board has often called upon him to assess an issue, articulate the finer points, make recommendations, and testify on behalf of the Board in front of the Legislature. Mr. Adams' demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Pharmacy.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3564 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 322

Recommending that the Senate advise and consent to the nomination of the following:

PUBLIC UTILITIES COMMISSION (PUC)

G.M. No. 322 LESLIE HARUO KONDO, for a term to expire 6-30-2014

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Leslie Haruo Kondo to have the necessary qualifications to be nominated to serve as a Commissioner on the Public Utilities Commission.

Testimony in support of Mr. Kondo's nomination was submitted by the Public Utilities Commission; the Legal Counsel of the Public Utilities Commission; the Office of the Corporation Counsel, County of Hawai'i; and nine private individuals.

Mr. Kondo received his Bachelor of Science degree in Industrial Engineering from Northwestern University and received his Doctor of Jurisprudence from the William S. Richardson School of Law at the University of Hawaii at Manoa. Upon graduation from law school, he served as a Law Clerk for Chief Justice Herman T.F. Lum at the Hawaii Supreme Court, and then served as an Associate Attorney at the private law firms of McCorrison Miho Miller Mukai and Tom & Petrus, and finally as Partner at Chun & Nagatani. In February 2003, he left private practice to serve as the Director of the Office of Information Practices where he administered the State's public records and open meetings laws. Mr. Kondo is a member of the Hawaii State Bar Association and currently serves as a Director for the Make-A-Wish Foundation of Hawaii.

Mr. Kondo has been serving as Commissioner for the Public Utilities Commission since July 2007. Since his appointment, he has demonstrated a strong desire to learn about the issues presented to the Public Utilities Commission, and he has the education, experience, and commitment to assist the Commission in regulating franchised or certificated public service companies operating in the State. He has worked tirelessly to understand and analyze the regulatory issues that currently face the Commission, closely reviewing docket records, clarifying issues with staff and parties, and attending training programs, meetings, and briefings. Mr. Kondo's demonstrated commitment to and professional experience in law will prove to be a valuable asset for the Public Utilities Commission.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3565 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 456

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 456 DOUGLAS HIROSHI INOUE, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Douglas Hiroshi Inouye to have the necessary qualifications to be nominated to the Board of Private Detectives and Guards.

Testimony in support of Mr. Inouye's nomination was submitted by the Department of Commerce and Consumer Affairs; Yamamoto & Settle, LLLC; and six private individuals.

Mr. Inouye received an equivalent associate degree in Japanese from Tenri University in Nara, Japan and a Bachelor of Arts in Journalism from the University of Hawaii. He later received his Doctorate of Jurisprudence from Boston College of Law and his Master of Business Administration from the University of Hawaii. He currently serves as Corporate Counsel for The Queen's Health Systems/Queen Emma Land Company where he provides in house counsel on all legal matters for the State's largest nonprofit hospital and healthcare system. Prior to his current position, he served as a Deputy Attorney General for the Employment Law Division, Department of the Attorney General where he provided advice and counsel to all state departments and the Judiciary regarding employment related matters.

Mr. Inouye is a Board Member of the University of Hawaii Alumni Association, a member of the Hawaii State Bar Association, and a member of the American Bar Association. He has also participated in KHON-TV's Ask-A-Lawyer program, Drug Free Kids, and the Tenrikyo Young Men's Association.

During his tenure as a Deputy Attorney General, Mr. Inouye appeared before a number of boards and commissions, thus, he has a good working knowledge of the mechanics, processes, and procedures of how boards and commission operate. He has good perspective and insight on the guard industry in Hawaii as his capstone project for his Master in Business Administration at the University of Hawaii was a comparative analysis of the guard industry in Hawaii and on the mainland. Additionally, while employed by Outrigger Hotels Hawaii, he oversaw that entity's guard service. Mr. Inouye's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Private Detectives and Guards.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3566 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 457

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 457 JOSEPH C. SNIEZEK MD, FACS, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Joseph C. Sniezek, M.D., F.A.C.S., to have the necessary qualifications to be nominated to the Board of Speech Pathology and Audiology.

Testimony in support of Dr. Sniezek's nomination was submitted by the Department of Commerce and Consumer Affairs.

Dr. Sniezek received his Bachelor in Science in Chemistry from the United States Military Academy at West Point, and his Doctor of Medicine from Vanderbilt University School of Medicine. He currently serves as Chief of Head and Neck Surgery and as a Residency Program Director in Otolaryngology and Head and Neck Surgery at Veterans Affairs Medical Center at Tripler Army Medical Center. He also serves as an Associate Clinical Professor for the Department of Surgery at the John A. Burns School of Medicine at the University of Hawaii.

Dr. Sniezek is a member of and has served leadership roles on several professional societies, including the Triological Society, the American Head and Neck Society, the Society of Otolaryngologists, the American College of Surgeons, and the Hawaii Society of Otolaryngology, to name a few. He has received several grants and awards for his work in neck and head surgery and has authored numerous publications.

Dr. Sniezek is a licensed doctor in Hawaii and possesses the qualifications, background, and experience to contribute to the Board of Speech Pathology and Audiology in a positive and constructive manner. As an otolaryngologist, he is familiar with the role that speech pathologists play in treating patients as he works closely with them and considers them a vital complement to this work. Dr. Sniezek's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Speech Pathology and Audiology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ige, Ihara, Taniguchi).

SCRep. 3567 Water and Land on Gov. Msg. No. 616

Recommending that the Senate advise and consent to the nomination of the following:

HAWAI'I COMMUNITY DEVELOPMENT AUTHORITY (HCDA)

G.M. No. 616 JONATHAN WAI YUN LAI, for a term to expire 6-30-2012

Your Committee has reviewed the personal history, resume, and statement issued by the nominee, and finds Jonathan Wai Yun Lai to have the necessary qualifications to be nominated to the Hawai'i Community Development Authority.

Testimony in support of Mr. Lai's nomination was submitted by the Department of Business, Economic Development and Tourism, Hawaii Community Development Authority, Councilmember from District IV of the Honolulu City Council, Goodwill Industries of Hawaii, Inc., Hawaii Central Credit Union, Department of Planning and Permitting of the City and County of Honolulu, First Hawaiian Bank, Hawaii USA Federal Credit Union, Island Title Corporation, and six interested individuals.

Mr. Lai is currently a member and the Chairperson of the Hawaii Community Development Authority. He is a partner at the law firm of Watanabe, Ing & Komeiji. Mr. Lai received a Bachelor's degree in Economics and Government from Claremont McKenna College, a Master's degree in Business Administration from the Marshall School of Business at the University of Southern California, and a Juris Doctorate degree from the University of Southern California.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3568 Economic Development and Taxation on Gov. Msg. Nos. 329, 463, 464, 465 and 466

Recommending that the Senate advise and consent to the nominations of the following:

KING KAMEHAMEHA CELEBRATION COMMISSION

- G.M. No. 329 TREVOR H. KAINOA DAINES, for a term to expire 6-30-2010;
- G.M. No. 463 CECILIA K. AKIM, for a term to expire 6-30-2012;
- G.M. No. 464 PONI ELLIOT KAMAUU, for a term to expire 6-30-2012;
- G.M. No. 465 JACQUELINE LEILANI ROSSETTI, for a term to expire 6-30-2009; and
- G.M. No. 466 MAXEEN LAUAHI SHEA, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Trevor H. Kainoa Daines, Cecilia K. Akim, Poni Elliot Kamau'u, Jacqueline Leilani Rossetti, and Maxeen Lauahi Shea to have the necessary qualifications to be nominated to the King Kamehameha Celebration Commission.

Your Committee received testimony in support of Trevor H. Kainoa Daines from the Department of Accounting and General Services, the Chairperson of the King Kamehameha Celebration Commission, and a member of the House of Representatives.

Trevor H. Kainoa Daines is Sales Manager at the Miramar At Waikiki, where he is responsible for wholesale sales, with an emphasis on Australia and New Zealand. Mr. Daines has extensive experience in the hospitality industry in Hawaii and Las Vegas, and is a member of numerous professional and civic organizations, including the Native Hawaiian Hospitality Association, Hawai'i Hospitality Sales & Marketing Association, and the Royal Order of Kamehameha, Moku o Hawai'i Chapter. Mr. Daines represents the Royal Order of Kamehameha as a new appointment to the Commission.

Your Committee received testimony in support of Cecilia K. Akim from the Department of Accounting and General Services, the Chairperson of the King Kamehameha Celebration Commission, and one individual.

Cecilia K. Akim is a retiree, and is active in community and civic organizations, including the community associations of Punaluu and Laie, and is a member of Ahahui Ka'ahumanu. Ms. Akim danced hula for many years with renowned kumu hula Hoakalei Kamau'u, and served as a kumu hula for the Honolulu Model Cities Program. She continues to teach hula, cultural studies, and oli, influencing the lives of her many students for the better. Ms. Akim is an active member of the Commission, where she represents the 'Ahahui Ka'ahumanu.

Your Committee received testimony in support of Poni Elliot Kamau'u from the Department of Accounting and General Services, the Chairperson of the King Kamehameha Celebration Commission, and one individual.

Poni Elliot Kamau'u is active with the Hawaiian Studies program of the Department of Education, and has been involved with the program for over twenty years. He is also involved with the Papakolea After-School Program, and is a member of the Papakolea Community Association. Mr. Kamau'u has a lifelong interest in perpetuating and preserving the many aspects of Hawaiian culture and brings this commitment to his work with the Commission. He represents the Papakolea Community Association and is a reappointment to the Commission.

Your Committee received testimony in support of Jacqueline Leilani Rossetti from the Department of Accounting and General Services, the Chairperson of the King Kamehameha Celebration Commission, and two individuals.

Jacqueline Leilani Rossetti is a Senior Program Manager and Grant Writer for the Hawaii Island Economic Development Board. Well known to Hawaii radio listeners as "Skylark", Ms. Rossetti is a co-founder of the Na Hoku Hanohano Awards, a member of the Board of Governors of the Hawaii Academy of Recording Arts, and the owner of Honolulu Skylark Productions. She has directed shows and events for Aloha Festivals, Inc., as well as for many halau and nonprofit organizations. Ms. Rossetti represents the Island of Hawaii as a new appointment to the Commission.

Your Committee received testimony in support of Maxeen Lauahi Shea from the Department of Accounting and General Services, the Chairperson of the King Kamehameha Celebration Commission, the Association of Hawaiian Civic Clubs, the Hawaiian Civic Club of Honolulu, and three individuals.

Maxeen Lauahi Shea served with the Department of Parks and Recreation, City and County of Honolulu, for thirty-eight years before her retirement in 2005. She brings to the Commission her organizational experience as a recreation director and supervisor, and

her skill in Hawaiian crafts. Ms. Shea is an active volunteer in many community and civic organizations, including the Friends of Parks and Recreation and the Hawaiian Civic Club. She represents the Hawaiian Civic Club as a new appointment to the Commission.

As affirmed by the records of votes of the members of your Committee on Economic Development and Taxation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Record of Votes for Trevor H. Kainoa Daines: Ayes, 5. Noes, none. Excused, 1 (English).

Signed by the Chair on behalf of the Committee. Record of Votes for all other nominees: Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3569 Economic Development and Taxation on Gov. Msg. No. 337

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 1ST TAXATION DISTRICT (OAHU)

G.M. No. 337 MICHAEL JOSEPH CHOI, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Michael Joseph Choi to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 1st Taxation District.

Testimony in support of the nomination of Michael Joseph Choi was submitted by the Department of Taxation.

Michael Joseph Choi holds a Bachelor's degree in Business Administration from Bernard M. Baruch College, City University of New York, and is a Certified Public Accountant licensed in Hawaii as well as an Enrolled Agent with the United States Treasury Department. Mr. Choi's experience includes working in the banking and public accounting industries as well as being a principal in his own public accounting firm. In addition, Mr. Choi has learned a myriad of valuable lessons while being a member of the United States Marine Corps. In serving a second term on the Board of Taxation Review for the 1st Taxation District, Mr. Choi will continue to utilize his professional and personal experiences to fairly and equitably resolve the issues facing the Board.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3570 Human Services and Public Housing on Gov. Msg. Nos. 537 and 582

STATE REHABILITATION COUNCIL

G.M. No. 537 GWEN L. KELIHOOMALU, for a term to expire 6-30-2010; and

G.M. No. 582 CHRISTIAN E. YATES, for a term to expire 6-30-2011

Your Committee received written testimony in support of both nominees from the Department of Human Services and the State Rehabilitation Council.

Nominee Kelihoomaluu is a nationally-recognized Certified Rehabilitation Counselor, state-registered Vocational Rehabilitation Specialist, and Licensed Mental Health Counselor. She has thirty-two years of experience working in the private rehabilitation sector with individuals with disabilities. She has gained extensive experience working with individuals and evaluating cases in the college setting, and in cases involving the Social Security Administration, where she has been considered an "expert witness" for twenty-one years, state and federal worker's compensation, the Veterans Administration, and personal injury. She would bring representation to the Council from the County of Hawaii and the private rehabilitation counseling sector.

Nominee Yates currently serves as a member of the Advisory Board of Ho'oponoho Hawaii State Department of Vocational Rehabilitation, and as the President of SHAER, the State of Hawaii Association for the Education and Rehabilitation of the Blind and Visually Impaired. He has a Master's degree in Special Education and is currently the Education Specialist for the Hearing/Visually Impaired at the state level for the Department of Education. Prior to his current position, he worked for thirteen years as a Department of Education Special Education teacher at various schools on Kauai and Oahu. Mr. Yates would provide representation to the Council from the Special Education sector.

Upon review of the testimony, personal history, and statements submitted by the nominees, your Committee finds that the nominees have the necessary qualifications to serve on the State Rehabilitation Council.

As affirmed by the records of votes of the members of your Committee on Human Services and Public Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3571 Intergovernmental and Military Affairs on H.C.R. No. 194

The purpose of this measure is to request the U.S. Navy to clear the coastline of lower Waipahu from invasive plant-life, excessive foliage and large bulky debris.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the shoreline of lower Waipahu adjacent to the West Loch Estates, which is under the jurisdiction of the U.S. Navy is overgrown with invasive plant species and excessive foliage, and marred with abandoned vehicles, bulky items, and other discarded debris.

Your Committee also finds that this situation not only creates a safety hazard, but gives rise to illicit activities and is an eyesore to the shoreline area, thus affecting the enjoyment of its users and visitors.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 194, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 194, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 3572 Water and Land on H.C.R. No. 117

The purpose of this measure is to request that the Department of Land and Natural Resources, Land Division, assemble various State, County, and Community agencies to meet and develop a Hanapepe Salt Pond Resource Management Plan.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, three interested individuals, and five individuals from Ke Kula Ni'ihau O Kekaha Learning Center. The Department of Land and Natural Resources testified in support of the intent of this measure.

Your Committee finds that the Hanapepe Salt Ponds are authentic ancient Hawaiian salt ponds located on the southwestern coast of Kauai at the mouth of Hanapepe Valley. They are listed on the State Historic Preservation Register and are an extremely important cultural resource to the Hawaiian community.

Your Committee recognizes that the Department of Land and Natural Resources, State Historic Preservation Division ("SHPD"), would have a role in the preparation of the Hanapepe Salt Pond Resource Management Plan and that SHPD is presently in a state of transition. In being mindful of the present state of SHPD and in order to be reasonable in its expectations regarding SHPD, your Committee recommends that there be a phasing in of the work contemplated by this measure. Specifically, your Committee recommends that, for the first year period from 2008-2009, the working group concentrate its efforts on addressing items (1) - (3) listed in the measure and that the preliminary report address those items. Thereafter, it is recommended that in the second year period from 2009-2010, the working group concentrate its efforts on addressing items (4) - (8) listed in the measure and in preparing the final report.

Your Committee has amended this measure by:

- (1) Changing the description of the "draft report" to "preliminary report" to reflect that the report to be submitted to the Legislature prior to the 2009 Regular Session is intended to be limited to addressing items (1) - (3) of the enumerated items in the measure; and
- (2) Adding the Office of Planning to the working group to ensure that issues relating to Coastal Management Zones will be addressed.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 117, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 117, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hee, Whalen).

SCRep. 3573 Health on S.B. No. 2532

The purpose of this measure is to require all health insurers, mutual benefit societies, and health maintenance organizations to provide mandatory coverage for all policyholders, members, subscribers, and individuals under age twenty-one for the diagnosis and treatment of autism spectrum disorders beginning December 1, 2009.

Your Committee received testimony in support of this measure from Cure Autism Now, the Autism Society of Hawaii, Autism Speaks, and eleven individuals. Your Committee received testimony in opposition to this measure from the Healthcare Association of Hawaii and the Hawaii Association of Health Plans. The Department of Commerce and Consumer Affairs, the State Council on Developmental Disabilities, and the Hawaii Medical Service Association submitted comments on this measure.

Your Committee finds that a Concurrent Resolution requesting the Auditor's review is required, pursuant to sections 23-51 and 23-52, Hawaii Revised Statutes, when proposing a new mandate for health insurance coverage. Your Committee further finds that S.C.R. No. 196, S.D. 1 (2008) requests the Auditor to conduct an impact assessment report, pursuant to sections 23-51 and 23-52, Hawaii Revised Statutes, of the social and financial impacts of mandating coverage of the diagnosis and treatment of autism spectrum disorders for all policies and contracts, hospital and medical service plan contracts, medical service corporation contracts, and health maintenance organization plans and contracts issued after December 31, 2008, as provided in S.B. No. 2532, S.D. 1 (2008).

Your Committee has amended this measure by deleting the definition of "medically necessary".

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2532, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 2532, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 3574 Health on Gov. Msg. Nos. 365, 366, 367 and 368

Recommending that the Senate advise and consent to the nominations of the following:

EMERGENCY MEDICAL SERVICES ADVISORY COMMITTEE

G.M. No. 365 DIANE M. IRONS, for a term to expire 6-30-2012;

G.M. No. 366 IAN T. T. SANTEE, for a term to expire 6-30-2012;

G.M. No. 367 DANIEL E. SCHAAL, for a term to expire 6-30-2012; and

G.M. No. 368 WILLIAM T. WATKINS JR., for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to state emergency medical services. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Emergency Medical Services Advisory Committee for which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3575 Health on Gov. Msg. No. 381

Recommending that the Senate advise and consent to the nomination of the following:

MEDICAL ADVISORY BOARD

G.M. No. 381 CARLOS WARTER, for a term to expire 6-30-2009

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the government functions related to medical advisories of drivers of motor vehicles. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Medical Advisory Board to which he has been nominated.

Your Committee received testimony supporting the nomination of Dr. Warter from Exercise Your Eyes; Direct Health Networks; Urban Self Storage, Inc.; Wailea Capital Group; Temple Bethel; and three individuals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3576 Health on Gov. Msg. Nos. 382, 383 and 384

Recommending that the Senate advise and consent to the nominations of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, KAUA'I SERVICE AREA BOARD

G.M. No. 382 THOMAS E. DORSEY PHD, for a term to expire 6-30-2010;

G.M. No. 383 MARDI L. MAIONE, for a term to expire 6-30-2012; and

G.M. No. 384 CANDACE M. SANDAL, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to mental health and substance abuse services. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Mental Health and Substance Abuse, Kaua'i Service Area Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3577 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 455

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOXING COMMISSION OF HAWAII

G.M. No. 455 ROLAND CABALO CASAMINA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Roland Cabalo Casamina to have the necessary qualifications to be nominated to the State Boxing Commission of Hawai'i.

Testimony in support of Mr. Casamina's nomination was submitted by the Department of Commerce and Consumer Affairs and the USA Boxing Hawaii Chapter.

Mr. Casamina graduated from Farrington High School and received his Bachelor of Business Administration from the University of Hawaii. He is currently the President, Chief Executive Officer, and owner of House of Finance, Inc., and was formerly employed as a Vice President at International Savings and Loan. From 2002 to 2004, he served as President for the Hawaii Financial Services Association.

Mr. Casamina is the recipient of several awards, including the Presidential Award in which the President of the Philippines honored him as an individual who has made significant contributions for the betterment of Filipinos in the Philippines and throughout the world. He received this award for uniting the Filipino community in building the Filipino Community Center in Waipahu. Furthermore, he is the recipient of the Kalayaan International Business and Finance of the Year Award in 2006, the Kalayaan International Leadership Award in 2003, the United Filipino Council of Hawaii Business/Investment & Finance of the Year Award in 1997, and the United States Jaycees Outstanding Young Man of America Award in 1986.

From 1992 to 2002, Mr. Casamina served as the President of the Filipino Community Center, and is currently the President Emeritus, which is a title given for life as the founder of the organization, and has a ballroom named after him, the "Casamina Ballroom" at the Community Center. He also co-hosts a Filipino program with Larry Ordonez on Radio KNDI, and serves as a coach, judge, and referee for USA Amateur Boxing. He has also participated in the Filipino Chamber of Commerce, the Mortgage Bankers of Hawaii, the Hawaii Financial Services Association, and the Oahu Filipino Jaycees.

Mr. Casamina has been involved in boxing for a good portion of his life and has been an avid fan and supporter of the sport since he was a teenager. His extensive knowledge of boxing and his commitment to and deep respect of the sport will help the State Boxing Commission of Hawai'i to deal effectively with the matters that will come before it. Mr. Casamina's demonstrated commitment, motivation, and experience in boxing will greatly assist the State Boxing Commission of Hawai'i.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3578 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 458

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF VETERINARY EXAMINERS

G.M. No. 458 JOHN K. KAYA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds John K. Kaya, D.V.M. to have the necessary qualifications to be nominated to the Board of Veterinary Examiners.

Testimony in support of Dr. Kaya's nomination was submitted by the Department of Commerce and Consumer Affairs.

Dr. Kaya received his Bachelor of Education in Elementary Education from the University of Hawaii and his Doctor of Veterinary Medicine from the University of Minnesota. He currently serves as an Associate Veterinarian for the VCA University Animal Hospital after serving in the same capacity at the VCA Kaneohe Animal Hospital. He focuses on companion and exotic animal medicine and his professional experience includes surgery, chemotherapy, and dentistry. Before pursuing his graduate studies in veterinary medicine, Dr. Kaya was employed by the Department of Education as an elementary school teacher and executed a gifted and talented program for students in grades 2 through 6.

Dr. Kaya's professional memberships include the American Veterinary Medical Association, the Hawaii Veterinary Medical Association, the Honolulu Veterinary Society where he serves as its Acting President, and the Association of Avian Veterinarians. He also currently participates and contributes to news segments highlighting various health concerns relating to pets in the "Love Your Pet" segment for the KHON Morning News.

Dr. Kaya is highly trained to provide medical care for animals and demonstrates involvement with the community by volunteering his time to go to schools to talk with students regarding animal care as well as making appearances on television to educate the public on animal issues. His desire to serve on the Board is simply an extension of his current volunteer activities and a way for him to give back to the community. Dr. Kaya's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Veterinary Examiners.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3579 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. Nos. 506 and 507

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOARD OF PUBLIC ACCOUNTANCY

G.M. No. 506 KEITH ALLEN REGAN, for a term to expire 6-30-2011; and

G.M. No. 507 EMERITO C. SANIATAN, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Keith Allen Regan and Emerito C. Saniatan to have the necessary qualifications to be nominated to the State Board of Public Accountancy.

Testimony in support of Mr. Regan's nomination was submitted by the Department of Commerce and Consumer Affairs, the Hawaii Society of Certified Public Accountants (HSCPA) Board of Directors, and one private individual.

Mr. Regan currently serves as the President and Chief Executive Officer of a collection agency and is seeking to serve as a public member of the State Board of Public Accountancy. He has been a small business owner for most of his life and has relied on the advice of certified public accountants to help make wise business decisions. Due to this valued professional relationship, he has developed a great respect for the accounting profession.

Mr. Regan is an active participant in community activities, including the American Heart Association, CalendarMaui.com, Haleakala Waldorf School, Hawaiian Collectors Association, the Japanese Cultural Society of Maui, the Kiwanis Club of Kahului, and the Maui Young Business Roundtable, to name a few. He is also the recipient of the 2002-2004 American Heart Association Maui – Outstanding Chairman Award, the 2003 KIWINS State of Hawaii Advisor of the Year, the 2001 Pacific Business News Young Business Person of the Year, the 2001 Pacific Business News 40 Under 40 Award, and the 2001 Bank of Hawaii Community Leaders of the Year.

Mr. Regan has extensive experience in the financial area, working with accounting professionals in both the public and private sectors, and operating his own businesses. His enthusiasm for and dedication to the goals and objectives of the Board and the public will allow him to make the right decisions that place the public interest and the certified public accountant profession's responsibilities first while bringing a unique neighbor island perspective to the process. Mr. Regan's demonstrated commitment, motivation, business background, education, and professional experiences will greatly assist the State Board of Public Accountancy.

Testimony in support of Mr. Saniatan's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Saniatan is a graduate of Waianae High School and received his Bachelor of Business Administration in Management with a minor in Accounting from the University of Hawaii at Manoa. He also attended the American Institute of Banking in Executive Development and the Hawaii Institute of Banking. He currently serves as the Vice President of City Mortgage where he manages the daily operations of the branch office, as a Realtor Associate for 1001 Realty where he serves as a licensed realtor in sales and property management, and as an Insurance Broker for Pyramid Insurance where he specializes in property, auto, commercial, life, and security investment insurance.

Mr. Saniatan participates and serves in a leadership capacity in various community activities, including as Treasurer and Board Member of the Waipahu Neighborhood Board #22, the Treasurer of Toastmasters – Leeward Region, and a member of the Filipino Chamber of Commerce. He has also been involved with the Oahu Filipino Jaycees, the Hawaii State Jaycees, and the Cabugao Sons and Daughters of Hawaii.

Mr. Saniatan is nominated to serve as a public member on the Board. He has fifteen years of experience in the financial services industry and is a licensed insurance producer and securities broker. He is also a licensed real estate salesperson and mortgage solicitor as well as a notary public. Mr. Saniatan's demonstrated commitment, motivation, business background, education, and professional experiences will greatly assist the State Board of Public Accountancy.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3580 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 533

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF NURSING

G.M. No. 533 MATTHEW J. BISHOP, for a term to expire 6-30-2010

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Matthew J. Bishop to have the necessary qualifications to be nominated to the State Board of Nursing.

Testimony in support of Mr. Bishop's nomination was submitted by the Department of Commerce and Consumer Protection and one private individual.

Mr. Bishop received his Bachelor of Science in Nursing from the Deaconess College of Nursing in St. Louis, Missouri where he graduated cum laude. He later received his Master of Science in Nurse Anesthesia from Webster University where he submitted his thesis titled, "Comparing Ketorolac and Acetaminophen in the Treatment of Post Operative Pain Control in Children Following Myringotomy Surgery". He currently serves as a Certified Registered Nurse Anesthetist at Tripler Army Medical Center where he plans, organizes, administers, monitors, and assesses general and regional anesthesia for elective and emergency surgical and obstetrical procedures for patients of all ages and states of health.

Mr. Bishop is a licensed Advance Practice Registered Nurse (APRN) who is currently serving as the President of the Hawaii Association of Nurse Anesthetists and has served in the past as a Federal Political Director of the Association. As a military nurse, he

has served the United States with numerous deployments and is a veteran of Operation Iraqi Freedom. Among his military awards and decorations, he has received the Global War on Terrorism Service Medal, the Iraqi Campaign Medal, and Army Commendation medals.

Mr. Bishop has embodied the Army values of honor, integrity, duty, loyalty, respect, and selfless service. He is a quick and intelligent clinician who is articulate and well versed in all aspects of anesthesia nursing practice in both the clinical and political realm. Mr. Bishop's demonstrated commitment, motivation, nursing background, education, and professional experiences will greatly assist the State Board of Nursing.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3581 Economic Development and Taxation on Gov. Msg. No. 338

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 2ND TAXATION DISTRICT (MAUI)

G.M. No. 338 PATRICK L. ING, CPA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Patrick L. Ing to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 2nd Taxation District.

Testimony in support of the nomination of Patrick L. Ing was submitted by the Department of Taxation.

Patrick L. Ing holds a Bachelor's degree in Business Administration and a Master's degree in Accounting both from the University of Hawaii at Manoa. Mr. Ing is also a Certified Public Accountant licensed in Hawaii. He has over seventeen years of experience working in the public accounting industry, including over twelve years in his own tax and accounting practice. Previously, Mr. Ing played an instrumental role in resolving conflicts between the Board of Taxation Review for the 2nd Taxation District and the taxpayers within its jurisdiction. Upon serving a second term on the Board of Taxation Review for the 2nd Taxation District, Mr. Ing will continue to utilize his professional and personal experiences to fairly and equitably resolve the issues facing the Board.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3582 Economic Development and Taxation on Gov. Msg. No. 339

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 3RD TAXATION DISTRICT (HAWAII)

G.M. No. 339 IOANA D. AGASA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Ioana D. Agasa to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 3rd Taxation District.

Testimony in support of the nomination of Ioana D. Agasa was submitted by the Department of Taxation.

Ioana D. Agasa holds a Bachelor's of Science degree in Accounting from the University of Denver and is a Certified Public Accountant licensed in Hawaii. She has over thirty years of experience working in the public accounting industry, including the last ten years in her private practice. Previously, Ms. Agasa played an instrumental role in resolving conflicts between the Board of Taxation Review for the 3rd Taxation District and the taxpayers in that jurisdiction. Upon serving a second term on the Board of Taxation Review for the 3rd Taxation District, Ms. Agasa will continue to utilize her professional and personal experiences to fairly and equitably resolve the issues facing the Board.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (English).

SCRep. 3583 Economic Development and Taxation on Gov. Msg. No. 469

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 1ST TAXATION DISTRICT (OAHU)

G.M. No. 469 TRACY T. CHIANG, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Tracy T. Chiang to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 1st Taxation District.

Testimony in support of the nomination of Tracy T. Chiang was submitted by the Department of Taxation.

Tracy T. Chiang earned a Bachelor of Science degree in Chemistry from Providence College and a Master's degree in Business Administration from the University of Hawaii at Manoa. Mrs. Chiang also is a Certified Public Accountant licensed in Hawaii and she holds a Real Estate and Series 6, 26, 63, and 65 licenses. Mrs. Chiang has specialized in tax preparation, tax planning, and compilations, including the last fifteen years in her private practice. In addition, she currently is the Office of Supervisory Jurisdiction manager for World Financial Group & World Group Securities, Inc. Mrs. Chiang's background, education, and professional experience will be a tremendous benefit to the Board of Taxation Review for the 1st Taxation District to assist them in resolving the tax issues that come to the Board in a fair, efficient, and equitable manner.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Slom).

SCRep. 3584 Education on Gov. Msg. No. 530

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII MEDICAL EDUCATION COUNCIL

G.M. No. 530 GARY K. KAJIWARA, for a term to expire 6-30-2011

Upon review of the background information submitted by the nominee, your Committee finds that Gary K. Kajiwara holds a Bachelor's degree, a Master's degree in business administration, and a Master's degree in public health from the University of Hawaii and currently serves as the President and Chief Executive Officer of Kuakini Health Systems and its subsidiaries. Mr. Kajiwara is being nominated to service as his first term of membership on the Hawaii Medical Education Council as a representative of a hospital at which an accredited graduate medical education program is conducted. He has served in various capacities within the Kuakini Health System throughout his career as well as service as a member or officer of various professional and community organizations. Mr. Kajiwara has been recognized and honored for his endeavors and achievements, in both the professional and community arenas.

Testimony in support of the nominee was submitted by the Hawaii Healthcare Association of Hawaii and one individual.

Your Committee questioned the nominee regarding his knowledge of the Council, members' duties and responsibilities, and his understanding of the problems associated with and his vision for ensuring adequate physicians practicing within the State. The nominee demonstrated a working knowledge of the issues facing the Council as well as a commitment to improving and growing graduate medical education in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3585 (Joint) Education and Health on H.C.R. No. 294

The purpose of this measure is to urge the University of Hawaii and supporting members of the community to move forward as expeditiously as possible in implementing plans for the development of the Cancer Research Center of Hawaii in Kakaako.

Comments on the measure were submitted by the University of Hawaii System.

Your Committees find that the Cancer Research Center of Hawaii is a research unit of the University of Hawaii that was established by the Board of Regents as a freestanding independent institute in 1981. The Center works to reduce the burden of cancer through research, education, and service with an emphasis on the unique ethnic, cultural, and environmental characteristics of Hawaii and the Pacific. Your Committees further find that the Center is one of only sixty-one National Cancer Institute-designated cancer centers in the country, which translates into increased cancer research funding and receipt of research grants and contracts. The Board of Regents approved the construction of new facilities for the Center in Kakaako and additional funding has been directed by the Legislature to the Hawaii Cancer Research Special Fund for the Center's research and operations.

This measure urges the University of Hawaii and supporting community members to proceed expeditiously toward the development of the new Cancer Research Center of Hawaii in Kakaako. Your Committees believe that the expansion and improvement of the Center's facilities to include a state-of-the-art cancer care facility will enhance the Center's ability to provide necessary cancer research and care to our residents and individuals throughout the Pacific.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 294, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3586 (Joint) Education and Health on H.C.R. No. 126

The purpose of this measure is to urge the Department of Education to establish an anger management and rehabilitation program to provide students who commit acts of violence or harassment at their schools with the rehabilitation that they need to change their behavior.

Testimony in support of the measure was submitted by the Department of Education, the Office of Hawaiian Affairs, and fifteen individuals.

Your Committees find that incidents of violence and killing are becoming increasingly more prevalent in the current global climate. Throughout the past decade, we have witnessed the likes of the tragic events of September 11, 2001, the war in Iraq, and violence in our schools and neighborhoods, including the more recent tragedies on the campuses of Northern Illinois University and Virginia Polytechnic Institute and State University. Your Committees further find that, although Hawaii promotes the spirit of aloha, incidents of violence have infiltrated our own communities, including our schools. In order to foster peaceful school environments and communities, especially for our keiki, the State must actively address and assist students who possess anger issues.

This measure urges the Board of Education to establish an anger management and rehabilitation program to provide students who commit acts of violence or harassment at their schools with the rehabilitation that they need to change their behavior. Your Committees determine that it is more appropriate to request the Department of Education and the Department of Health to jointly study the feasibility of establishing an anger management program modeled after substance abuse programs to provide students who commit acts of violence or harassment at their school with the tools they need to change their behavior. Your Committees believe that such assistance will help students to learn appropriate coping skills to reduce incidents of violence in our schools and communities.

Accordingly, your Committees have amended this measure by:

- (1) Requesting the Department of Education and the Department of Health to jointly study the feasibility of integrating rehabilitation programs for students with anger problems, including changing the title to reflect the same;
- (2) Requesting the Department of Education and the Department of Health to submit a report to the Legislature, no later than twenty days prior to convening of the Regular Session of 2009, on the progress of the study, including:
 - (A) Proposals for Department of Education anger management programs; and
 - (B) Projected costs of the proposed programs; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 126, H.D. 1, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 126, H.D. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3587 (Joint) Education and Health on H.C.R. No. 226

The purpose of this measure is to request the University of Hawaii, John A. Burns School of Medicine, to provide admission preference to students that mirrors the demographics of rural health professional shortage areas of the State to address the shortage of physicians on our neighbor islands.

Testimony in support of the measure was submitted by the Hawaii Medical Association and the Consumer Lawyers of Hawaii. Comments on the measure were submitted by the University of Hawaii System.

Your Committees find that we continue to experience a shortage of primary care physicians in rural areas within the State, which compromises the health care, health, and well-being of our residents. Your Committees further find that we are also fortunate to maintain an outstanding medical school within the University of Hawaii, the John A. Burns School of Medicine, whose mission is to teach and train high quality physicians and other health professionals to practice in Hawaii and the Pacific, some of whom may help to fill the void in rural areas. Often physicians in rural areas are individuals who either grew up or were trained in or near such areas.

This measure requests the John A. Burns School of Medicine to provide admission preference to students that mirrors the demographics of rural health professional shortage areas of the State. Your Committees determine that it is unclear as to the best possible means for addressing the shortage and instead, the issue must be further examined to determine the most appropriate means to ensure the existence of adequate health care providers in rural areas, including on the neighbor islands, and, thus, improve the health care provided and the health of the residents in the State.

Accordingly, your Committees have amended this measure by requesting the John A. Burns School of Medicine to conduct a survey of current and prospective students to examine and develop a plan to address rural health professional shortage areas in the State, and changing the title to reflect such change.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 226, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 226, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3588 Intergovernmental and Military Affairs on H.C.R. No. 114

The purpose of this measure is to request the Civil Defense Division of the State Department of Defense to perform a feasibility study of the U.S. Navy Magazine facilities at Lualualei to determine whether these facilities can be used as a public emergency shelter.

Your Committee received testimony in opposition to this measure from the State Department of Defense.

Your Committee recognizes the increase in number and severity of natural disasters occurring in the State and the need to have a comprehensive emergency preparedness program which includes emergency shelters for the evacuation of its residents, tourists, and special needs population.

Your Committee finds that there is a shortage of emergency shelters statewide and that communities such as Waianae, Makaha, Makua, Honokai Hale, Nanakuli, and Lualualei, are especially vulnerable during times of emergency since the main access roadway to these communities may be shut down or be limited in use. Your Committee also finds that the Lualualei Naval Magazine facilities are located in close proximity to the communities on the west side of Oahu and would serve these areas well by providing immediate response and recovery evacuation facilities.

Your Committee has amended this measure by removing the State Civil Defense Director from the list of persons to whom this measure will be transmitted, and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 114, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 114, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 3589 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 317

Recommending that the Senate advise and consent to the nomination of the following:

PEST CONTROL BOARD

G.M. No. 317 MICHAEL H. MCINERNY, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Michael H. McInerny to have the necessary qualifications to be nominated to the Pest Control Board for a second term.

Testimony in support of Mr. McInerny's nomination was submitted by the Department of Commerce and Consumer Affairs and three private individuals.

Mr. McInerny received his Bachelor of Arts in Journalism from California State University at Northridge. He currently serves as an Industrial Relations Manager for Hawaiian Electric Company, Inc. Prior to his current position, Mr. McInerny worked for the Hawaii Teamsters Union, Local 996.

Mr. McInerny is being nominated to serve a second term on the Board as a public member where he provides a good perspective from the consumer's point of view. He is a contributing member who understands the purpose of the Board and his role as a public member. Mr. McInerny's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Pest Control Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Taniguchi, Trimble).

SCRep. 3590 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 298

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOXING COMMISSION OF HAWAII

G.M. No. 298 HENRY SASAKI, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Henry Sasaki to have the necessary qualifications to be nominated to the State Boxing Commission of Hawai'i for a second term.

Testimony in support of Mr. Sasaki's nomination was submitted by the Department of Commerce and Consumer Affairs, three members of the House of Representatives, and two private individuals.

Mr. Sasaki is a graduate of Farrington High School and is a retired federal civil service employee after serving over forty-five years in the printing and publication industry, including over thirty years of service at United States Navy Publication & Printing Service Office at Pearl Harbor where he attained the position of General Foreman.

Mr. Sasaki has been associated with amateur and professional boxing for forty-four years in Hawaii, and has served as an amateur boxing coach and trainer. He is the past President of the Amateur Boxing Association and has held various positions within amateur boxing in Hawaii.

Mr. Sasaki is an active and enthusiastic participant in Commission discussions and has been able to objectively evaluate the issues facing the Commission while balancing the interests of consumers and licensees. Mr. Sasaki's demonstrated commitment, motivation, and depth and wealth of experience in boxing will greatly assist the State Boxing Commission of Hawai'i.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Taniguchi, Trimble).

SCRep. 3591 (Joint) Education and Economic Development and Taxation on H.C.R. No. 312

The purpose of this measure is to urge the University of Hawai'i to extend its current land lease agreement with the High Technology Development Corporation, located on 2800 Woodlawn Drive, Manoa, Honolulu, Hawaii, for a period of time necessary to find and replace or develop and construct a new facility in Manoa to continue the High Technology Development Corporation's current operations at the Manoa Innovation Center.

Testimony in support of this measure was received from the High Technology Development Corporation (HTDC) and its Board of Directors; H2 Technologies, Inc.; Ikeyzo, Inc.; Technical Research Associates, Inc.; and 3D Innovations, LLC. The University of Hawai'i System submitted testimony in opposition.

Your Committees appreciate the concerns raised by the University of Hawai'i, particularly the need for additional space close to the campus to support the University's extramural research and training enterprise that has grown significantly in recent years. While the seven years remaining on the lease might be enough time for HTDC to locate and develop a new facility, current economic conditions may not warrant such an undertaking in the near future. Your Committees urge HTDC, however, to continue to pursue any partnerships with the University as are appropriate, such as the West Oahu Campus, the John A. Burns School of Medicine, or private-sector partners.

Your Committees have amended this measure by amending the first BE IT RESOLVED clause to change the unspecified period for an extension of the current lease to an extension of five years.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development and Taxation that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 312, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 312, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (English, Espero, Hee, Nishihara, Taniguchi).

SCRep. 3592 Water and Land on H.C.R. No. 347

The purpose of this measure is to urge the Department of Land and Natural Resources (DLNR) to proceed immediately with the adoption of rules to regulate the ornamental reef fish industry in South Maui and Kaneohe Bay.

Testimony in support of this measure was submitted by four individuals. The Office of Hawaiian Affairs submitted testimony in support of the measure with amendments. DLNR submitted testimony expressing appreciation of the intent of the measure and offering comments. Two individuals submitted testimony commenting on the measure.

Your Committee recommends that DLNR look to the Fishing Replenishment Area established in West Hawaii as a model if it is appropriate to do so in this case.

Your Committee has amended this measure by amending the word "immediately" to "expeditiously" in both the title and in the body of the measure with regard to the request being made to DLNR to adopt rules to regulate the ornamental reef fishery industry in South Maui and Kaneohe Bay.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 347, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 347, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hee, Whalen).

SCRep. 3593 Intergovernmental and Military Affairs on H.C.R. No. 147

The purpose of this measure is to support the installation and maintenance of smoke detectors in every home in Hawaii by 2010.

Your Committee received testimony in support of this measure from the Honolulu Fire Department and the Kauai Fire Department.

Your Committee finds that smoke detectors are important devices when properly installed and maintained in reducing deaths and injuries in home fires. Since the 1970s, research has shown a fifty percent decrease in fire deaths and injuries due to the increase in the use of smoke detectors in homes.

Your Committee also finds that senior citizens, young children, and persons with disabilities are groups that are at greater risk for fire-related injuries and deaths.

Your Committee has amended this measure by:

- (1) Adding language requesting the Hawaii Fire Chiefs Association and State Fire Council to provide free smoke detectors to senior citizens and low income families when funds become available;
- (2) Providing that a copy of this measure be transmitted to the Mayor of each county, the Chair of each county council, and the President of the Hawaii Fire Chiefs Association;
- (3) Deleting the language, "free on-site", as it relates to fire safety inspections; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 147, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 147, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, none. Excused, 1 (Hemmings).

SCRep. 3594 (Joint) Education and Agriculture and Hawaiian Affairs on H.C.R. No. 116

The purpose of this measure is to request the University of Hawaii Agricultural Diagnostic Service Center, in consultation with other public and private entities, to carry out a survey of the information needs of Hawaii's agricultural industry, and assess whether the Hawaii Agriculture Information Center can meet such needs.

Testimony in support of the measure was submitted by the University of Hawaii Agricultural Diagnostic Service Center, MobileSoft International LLP, and one individual.

Your Committees find that the agriculture industry in Hawaii has changed dramatically over the past several decades, including changes to the market, technology, and the environment. The need for increased access to information is vital to sustaining a healthy agriculture industry that is mindful of economic and environmental factors. The Hawaii Agriculture Information Center is developing a computer system that utilizes a comprehensive data warehouse and decision-aid online applications to provide site-specific real time information to aid decision making on agriculture activities to multiple users in the State.

This measure requests the University of Hawaii Agricultural Diagnostic Service Center, in consultation with other organizations, to survey the information needs of Hawaii's agricultural industry and assess whether the Hawaii Agriculture Information Center can meet the information needs of the industry. Your Committees determine that this survey will help to ensure the economic viability, growth, and expansion of agricultural operations in the State while also providing for environmental protections within the industry. Your Committees also determine that the Hawaii Agricultural Diagnostic Service Center should utilize all available public and private resources in conducting its study and believes that broader language is necessary to effectuate this purpose.

Accordingly, your Committees have amended this measure by:

- (1) Replacing references to utilizing the assistance of MobileSoft International LLP with broader references to any appropriate public or private entity to assist the University of Hawaii Agricultural Diagnostic Service Center in conducting its survey; and
- (2) Making technical, nonsubstantive changes to the measure and its title for purposes of clarity and to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 116, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 116, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (English, Hee, Nishihara, Taniguchi).

SCRep. 3595 (Joint) Education and Human Services and Public Housing on H.C.R. No. 276

The purpose of this measure is to request that the University of Hawaii School of Social Work dedicate its school in honor of Myron "Pinky" Thompson, by changing its name to the "Myron Thompson School of Social Work".

Testimony in support of the measure was submitted by the Hawaii United States Senators, the National Association of Social Workers, the Hawaii Association of Independent Schools, and one individual. Testimony in opposition to the measure was submitted by the University of Hawaii.

Your Committees find that Myron "Pinky" Thompson was a social worker and community leader in Hawaii who made significant contributions to the Native Hawaiian community. He was a graduate of Punahou School, who earned a Bachelor's degree in Sociology from Colby College and a Master's degree in Social Work from the University of Hawaii. Mr. Thompson served as Executive Director of the Department of Social Services and Housing, Executive Director of the Queen Liliuokalani Children's Center, State Administrator under Governor John A. Burns, and as a member of the Board of Trustees of Bishop Estate where he was instrumental in developing early childhood education programs through Kamehameha Schools. This measure requests the University of Hawaii to honor and recognize Myron "Pinky" Thompson through the dedication and name change of the School of Social Work in his honor. Your Committees support the recognition of Myron Thompson and believe that such dedication is befitting of his accomplishments and contributions to the people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Education and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 276, H.D. 1, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Hee, Hemmings, Nishihara, Taniguchi).

SCRep. 3596 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 527

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAI'I HOUSING FINANCE AND DEVELOPMENT CORPORATION (HHFDC)

G.M. No. 527 DAVID A. LAWRENCE, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds David A. Lawrence to have the necessary qualifications to be nominated to the Board of Directors of the Hawai'i Housing Finance and Development Corporation.

Testimony in support of Mr. Lawrence's nomination was submitted by the Hawai'i Housing Finance and Development Corporation.

Mr. Lawrence received his Bachelor of Arts and Master of Fine Arts degrees from the University of California at Santa Barbara, and his Master in Business Administration in the Executive Masters in Business Administration program from the University of Hawaii at Manoa. He is currently employed at Wells Fargo Home Mortgage of Hawaii where he serves as a Mortgage Broker. He has ten years of commercial lending experience, including small business and real estate transactions; twenty years of business management

experience, including sole proprietorships and corporations; ten years of management experience with non-profit corporations, including federal, state, and county contract and fund administration; and twenty years of fundraising experience for non-profit organizations, including events, board campaigns, capital campaigns, and venture development.

Mr. Lawrence has been a board member of the IMUA Rehab for the past twenty years, has served as its President for ten years, and currently serves as its Treasurer. He has served as a board member of Montessori of Maui for the past ten years and is currently involved with a \$7,000,000 capital campaign for construction of phase two of Montessori of Maui's nine acre campus. He is also a founding member of the Statewide Microenterprise Development Initiative.

Mr. Lawrence has served on the Board of Directors of the HHFDC since the agency's inception in 2006, and currently serves as the Board's Vice Chairperson. As a home mortgage consultant with Wells Fargo Mortgage of Hawaii, he is able to help hardworking families to become first-time homebuyers, and is deeply committed to increasing, strengthening, and maintaining affordable housing opportunities in the State. Mr. Lawrence's demonstrated commitment, motivation, business background, education, and professional experiences will greatly assist the Board of Directors of the Hawai'i Housing Finance and Development Corporation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Taniguchi, Trimble).

SCRep. 3597 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 534

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF NURSING

G.M. No. 534 AMY STONE MURAI, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Amy Stone Murai to have the necessary qualifications to be nominated to the State Board of Nursing.

Testimony in support of Ms. Murai's nomination was submitted by the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawaii, and three private individuals.

Ms. Murai received her Bachelor of Science in Nursing from Boston University where she graduated magna cum laude, and received her Master of Science in Nursing from the University of Hawaii. She currently serves as a Clinical Research Nurse Coordinator for Kaiser Permanente Center for Health Research, and as a Nurse Practitioner for the Waianae Coast Comprehensive Health Center where she focuses on comprehensive women's health care issues. She has also served as a Clinical Coordinator in the areas of law, regulation, and reimbursement for the Department of Ambulatory Nursing Practice for Kaiser Permanente Hawaii.

Ms. Murai is a member of the American Nurses' Association, the Hawaii Nurses' Association, Sigma Theta Tau – International Honor Society of Nursing, the National Association of Nurse Practitioners in Women's Health, and the Hawaii Association of Professional Nurses. She is a licensed Registered Nurse (RN) and an Advanced Practice Registered Nurse (ARPN). She has volunteered her time to the community as a member of the Department of Education's Graduation Requirements Task Force, the Hawaii State Goals 2000 Task Force, and on several committees of the State and the National Parent, Student, Teacher Associations.

Ms. Murai is familiar with the Board as she has regularly attended its meetings for a number of years, and was requested by the Board to assist in drafting Administrative Rules relating to practical nurse, registered nurse, and advanced practice scopes of practice as well as advanced practice registered nurse prescriptive authority for non-controlled and controlled substances. Ms. Murai's demonstrated commitment, motivation, education, and professional experiences will greatly assist the State Board of Nursing.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Taniguchi, Trimble).

SCRep. 3598 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 536

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 536 LAWRENCE K. MAHUNA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Lawrence K. Mahuna to have the necessary qualifications to be nominated to the Board of Private Detectives and Guards for a second term.

Testimony in support of Chief Mahuna's nomination was submitted by the Department of Commerce and Consumer Affairs.

Chief Mahuna is a graduate of Kamehameha School and received his Bachelor of Science degree in Psychology from Washington State University. He has had an exemplary career in the Hawaii County Police Department since 1973 and served as its Assistant Chief from 1998 until 2002 when he was appointed Hawaii County's Chief of Police, which is the position he currently holds.

Chief Mahuna currently serves as one of two county police chief members for the Board, which is required under section 463-2, Hawaii Revised Statutes. He is a conscientious member of the Board who contributes technical expertise and meaningfully

participates in the Board's discussions and decisions. Chief Mahuna's demonstrated commitment, motivation, education, and life experiences will greatly assist the Board of Private Detectives and Guards for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Taniguchi, Trimble).

SCRep. 3599 Health on Gov. Msg. Nos. 584, 585 and 586

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

G.M. No. 584 APRIL M. MIRA, for a term to expire 6-30-2012;

G.M. No. 585 THERESA M. OCTAVIO, for a term to expire 6-30-2012; and

G.M. No. 586 PAMELA LOUISE RICE, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to services for individuals with developmental disabilities. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the State Council on Developmental Disabilities to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the State Council on Developmental Disabilities.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3600 Health on Gov. Msg. No. 587

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII ADVISORY COMMISSION ON DRUG ABUSE AND CONTROLLED SUBSTANCES

G.M. No. 587 DALLEN K. PALEKA, for a term to expire 6-30-2012

Upon review of the statement submitted by the nominee, your Committee finds that Dallen K. Paleka will work with compassion and commitment to assist in administering the government functions related to solutions for abuse of controlled substances. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Hawaii Advisory Commission on Drug Abuse and Controlled Substances to which he has been nominated.

Your Committee received testimony supporting the nomination of Dallen K. Paleka from the Department of Health; Department of Hawaiian Home Lands; Department of Public Safety; Ikaika, Inc.; Hope Chapel Olomana; and twenty-one individuals.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3601 Health on Gov. Msg. Nos. 588, 589, 590 and 591

Recommending that the Senate advise and consent to the nominations of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS

G.M. No. 588 HYUNG K. CHA, for a term to expire 6-30-2012;

G.M. No. 589 PETER T. DYER, for a term to expire 6-30-2012;

G.M. No. 590 PAUL KIM, for a term to expire 6-30-2009; and

G.M. No. 591 SARA A. TOMPKISON, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to elder affairs services. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Policy Advisory Board for Elder Affairs to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Executive Office on Aging. Your Committee received additional testimony supporting the nomination of Hyung K. Cha from Ohana Pacific Bank, and one private individual. Additional testimony supporting the nomination of Paul Kim was received from six private individuals. Additional

testimony supporting the nomination of Sara A. Tompkison was received from the Hawaii Parkinson Disease Center of Excellence, Pacific Speech and Voice Consultants, and one private individual.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3602 Health on Gov. Msg. No. 592

Recommending that the Senate advise and consent to the nomination of the following:

STATEWIDE HEALTH COORDINATING COUNCIL

G.M. No. 592 FREDERICK WILLIAM ROHLFING, for a term to expire 6-30-2012

Upon review of the statement submitted by the nominee, your Committee finds that Frederick William Rohlfing will work with compassion and commitment to assist in administering the government functions related to health care services. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through their participation on the Statewide Health Coordinating Council to which he has been nominated.

Your Committee received testimony supporting the nomination of Frederick William Rohlfing from the Department of Health, Kula Hospital, the State Representative from the Nineteenth District, and three private individuals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3603 Health on Gov. Msg. Nos. 596, 597 and 598

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON MENTAL HEALTH

G.M. No. 596 MAILE M. DAGUIO, for a term to expire 6-30-2012;

G.M. No. 597 GORDON M. DURANT, for a term to expire 6-30-2010; and

G.M. No. 598 CAROL ANN YOUNG, for a term to expire 6-30-2011

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to mental health services. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the State Council on Mental Health to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Your Committee received additional testimony supporting the nomination of Gordon M. Durant from NAMI Hawaii. Additional testimony supporting the nomination of Carol Ann Young was received from the Department of Human Services Vocational Rehabilitation Services for the Blind Division, the Disability and Communication Access Board, the Pacific Basin Rehabilitation Research and Training Center of the University of Hawaii John A. Burns School of Medicine, and one individual.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3604 Public Safety on Gov. Msg. Nos. 416, 417, 418 and 419

Recommending that the Senate advise and consent to the nominations of the following:

WIRELESS ENHANCED 911 BOARD

G.M. No. 416 JOEL K. MATSUNAGA, for a term to expire 6-30-2012;

G.M. No. 417 DEXTER J. TAKASHIMA, for a term to expire 6-30-2012;

G.M. No. 418 CLAYTON N.Y.W. TOM, for a term to expire 6-30-2008; and

G.M. No. 419 CLAYTON N.Y.W. TOM, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Joel K. Matsunaga, Dexter J. Takashima, and Clayton N.Y.W. Tom to have the necessary qualifications to be nominated to the Wireless Enhanced 911 Board.

Your Committee received testimony in support of Joel K. Matsunaga from the Department of Accounting and General Services.

Joel K. Matsunaga earned a Bachelor's and Master's degree in Business Administration from the University of Hawaii at Manoa and is a Certified Public Accountant licensed in Hawaii. Mr. Matsunaga has over twenty-nine years of work experience in the

telecommunications industry. He currently holds the position of Vice President External Affairs for Hawaiian Telcom. Mr. Matsunaga is responsible for all regulatory, governmental, and community programs or activities that may impact Hawaiian Telcom at the federal, state, or county levels. Mr. Matsunaga believes that his previous experience with policies and practices surrounding the use of emergency calling services will be a benefit to the Wireless Enhanced 911 Board.

Your Committee received testimony in support of Dexter J. Takashima from the Department of Accounting and General Services.

Dexter J. Takashima earned a Bachelor of Science degree in Business and Economics from Pacific University and currently is employed in the position of Public Safety Telecommunications Administrator for the Kauai Police Department. He has over thirty-five years of work experience in the telecommunications and defense electronics industries. Mr. Takashima has also acquired numerous management and technical skills through military, corporate, and civil service training programs. His prior projects working on the Kauai Public Safety Answering Point GIS Power Map system, the Kauai Police Department's Public Safety Answering Point Wireless E911 FCC Phase I and II, and the public safety full simulcast 800 MHz trunk radio and wireless siren command and control warning system will all be a tremendous asset to the Wireless Enhanced 911 Board.

Your Committee received testimony in support of Clayton N.Y.W. Tom from the Department of Accounting and General Services, Maui Police Department, Department of the Prosecuting Attorney for the County of Maui, Diamond Hawaii Resort & Spa, and thirteen individual citizens.

Clayton N.Y.W. Tom currently holds the position of Assistant Chief of the Support Services Bureau for the Maui Police Department. Mr. Tom has accumulated over twenty-five years of work experience at various positions within the Maui Police Department. Mr. Tom's most recent job duties and responsibilities have evolved around internal control functions, technical services, providing supervision over other detectives and investigators, planning and developing various programs within the Criminal Investigation Division and other special projects for the Office of the Chief, and as Commander of the Wailuku Patrol District. Mr. Tom's work experiences have enabled him to be in a position to help provide the Wireless Enhanced 911 Board with bringing a superior level of emergency response to the County of Maui and the State of Hawaii.

As affirmed by the records of votes of the members of your Committee on Public Safety that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, none.

SCRep. 3605 Public Safety on Gov. Msg. Nos. 512 and 599

Recommending that the Senate advise and consent to the nominations of the following:

CORRECTIONAL INDUSTRIES ADVISORY COMMITTEE

G.M. No. 512 THEODORE G. M. JUNG, for a term to expire 6-30-2011; and

G.M. No. 599 DAVID MAKIJI MATSUURA, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Theodore G. M. Jung and David Makiji Matsuura to have the necessary qualifications to be nominated to the Correctional Industries Advisory Committee.

Your Committee received testimony in support of Theodore G. M. Jung from the Office of the Mayor for the City and County of Honolulu, Department of Public Safety, State of Hawaii Organization of Police Officers, and the State Representative from the Nineteenth House District.

Theodore G. M. Jung was formally educated at Fairleigh Dickinson University in Teaneck, New Jersey, and he has gained an invaluable amount of professional work experience in various business and financial management positions for over forty-five years. Mr. Jung currently serves as Senior Vice President of Citigroup Smith Barney and he previously held the position of Director of Finance for the City and County of Honolulu. The knowledge and experiences that Mr. Jung has gained over the years would be a tremendous asset in guiding the Correctional Industries Advisory Committee on any financial matters. In addition, Mr. Jung's commitment and dedication to his profession and the communities that surround him, along with his high ethical standards, will enable him to work effectively with the Correctional Industries Advisory Committee by providing financial stability and growth for the Committee.

Your Committee received testimony in support of David Makiji Matsuura from the Department of Public Safety and a private citizen.

David Makiji Matsuura earned two Bachelor of Science degrees from the University of California at Davis, one in Agricultural Economics and the other in Managerial Economics. Mr. Matsuura has spent the majority of his professional working career in the fields of agriculture, land management, land development, and politics. He concurrently serves as the President and Owner of Orchid Isle Nursery and as Project Manager for Onipa'a LLC. His job responsibilities include the planting of crops, construction of nursery structures, negotiating contracts, overseeing land development, and managing financial affairs. Mr. Matsuura previously served as a Managing Steward for Umikoa Ranch, a Government Affairs Lobbyist for Hoffman - La Roche Inc., and Senator of the 2nd Senatorial District for the State of Hawaii. Mr. Matsuura's confirmation to the Correctional Industries Advisory Committee will provide value and insight into the contract negotiations and regulatory requirements that regularly face the Committee.

As affirmed by the records of votes of the members of your Committee on Public Safety that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Sakamoto).

SCRep. 3606 Tourism and Government Operations on H.C.R. No. 245

The purpose of this measure is to urge all entities, both public and private, who are involved in the "Hawaii Cruise Ship Industry Study," to work together in good faith toward the completion of the study. The "Hawaii Cruise Industry Study" is intended to assess the current and potential impacts of the cruise industry on each island and the State until the year 2018.

Your Committee deleted the contents of this measure and inserted a proposed Senate Draft 1, to request the Auditor to conduct an audit of the Aloha Tower Development Corporation, which is substantially similar to S.C.R. No. 54 (2008).

Your Committee received comments on the proposed Senate Draft 1 from the Aloha Tower Development Corporation.

The Aloha Tower Development Corporation has been involved in lawsuits concerning its development agreements since its establishment by Act 236, Session Laws of Hawaii 1981. All of these lawsuits have raised troublesome issues that have hampered development.

The Aloha Tower Development Corporation was last the subject of a state audit in 1987 by the Auditor, whose Report No. 87-13, found in pertinent part: "The Aloha Tower redevelopment project is a concept that is flawed, and it should be shelved," citing a litany of systemic problems and erroneous assumptions. Therefore, your Committee believes a management, performance, and financial audit of the Aloha Tower Development Corporation is appropriate at this time.

Your Committee has amended the proposed Senate Draft 1 by:

- (1) Deleting some references to lawsuits and litigation, as well as reference to the original mission of the Aloha Tower Development Corporation;
- (2) Correcting factual inaccuracies, on the recommendation of the Aloha Tower Development Corporation; and
- (3) Changing the title of this measure to reflect all of the amendments.

As affirmed by the record of votes of the members of your Committee on Tourism and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 245, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 245, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 1 (Kim).

SCRep. 3607 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. Nos. 544 and 545

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF CERTIFICATION OF PUBLIC WATER SYSTEM OPERATORS

G.M. No. 544 ROBERT S. SPETICH PE, for a term to expire 6-30-2012; and

G.M. No. 545 JODI M. YAMAMI, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Robert S. Spetich, P.E. and Jodi M. Yamami to have the necessary qualifications to be nominated to the Board of Certification of Public Water System Operators.

Testimony in support of Mr. Spetich's nomination was submitted by the Department of Health and five private individuals.

Mr. Spetich received his Bachelor of Engineering Science degree in Bioengineering and his Master of Science degree in Chemical Engineering from Cleveland State University. His thesis was titled, "Investigation of ATP Pools in Escherichia Coli Grown in a Continuous System". He currently serves as a General Manager for West Hawaii Water Company in Waikoloa after serving as a Project Manager for Aqua Engineers, Inc. in Lawai and Brown and Caldwell Consultants in Wailuku. He has nine years of experience in the management of water and wastewater facilities, including rate making, and has more than twenty years of experience in design, planning, operation, and start-up of water and wastewater facilities.

Mr. Spetich is a registered Chemical Engineer and is licensed as a Grade 4 Wastewater Plant Operator in Hawaii. As a registered Wastewater Plant Operator, he understands what it takes to successfully operate a public water system, including the broad technical elements of water supply, treatment, and distribution. Mr. Spetich's demonstrated commitment, motivation, chemical engineering background, education, and professional experiences will greatly assist the Board of Certification of Public Water System Operators.

Testimony in support of Ms. Yamami's nomination was submitted by the Department of Health.

Ms. Yamami is a graduate of Punahou School and received her Bachelor of Science degree in Mechanical Engineering from the University of California at Los Angeles. She currently serves as an Engineer for the Safe Water Drinking Branch, Environmental Management Division, Department of Health where she administers the drinking treatment plant operator certification program; recommends to the Board of Certification of Public Water System Operators the certification or rescinding of certification of operators, the approval of continuing education units, and any regulation or procedure changes; and provides technical assistance in response to operator's requests. She has over twelve years of engineering experience with Kaiser Electronics, which is a California company that designs and manufactures cockpit displays for military aircraft, and where she managed the major mechanical and optical subcontractors that manufactured the piece parts of the cockpit displays from product design to end item shipment.

Ms. Yamami is nominated to serve as the member on the Board representing the state agency responsible for the State's safe drinking water program. Ms. Yamami's demonstrated commitment, motivation, engineering background, education, and professional experiences will greatly assist the Board of Certification of Public Water System Operators.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of

the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Taniguchi, Trimble).

SCRep. 3608 Economic Development and Taxation on Gov. Msg. No. 605

Recommending that the Senate advise and consent to the nomination of the following:

SMALL BUSINESS REGULATORY REVIEW BOARD

G.M. No. 605 DAVID STANLEY DE LUZ JR., for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds David Stanley De Luz, Jr., to have the necessary qualifications to be nominated to the Small Business Regulatory Review Board.

Your Committee received testimony in support of David Stanley De Luz, Jr., from the Department of Business, Economic Development, and Tourism, the Chairperson of the Small Business Regulatory Review Board, the State Senator from the 1st District, the CEO of the Economic Development Alliance of Hawaii, the President of the Hawaii Island Chamber of Commerce, and eleven individuals.

David Stanley De Luz, Jr., is Vice President, Special Projects, with David S. De Luz, Sr., Big Island Toyota/Suzuki/Scion, a position he has held since 1986. He is a graduate of Creighton University, Omaha, Nebraska, and the National Automobile Dealer's Academy in McLean, Virginia. Mr. De Luz is active in a broad range of professional and community organizations, including the Hawaii Island Chamber of Commerce, the Hawaii Leeward Planning Conference, the Hawaii Automobile Dealers Association, the Rotary Club of Hilo Bay, Boy Scouts of America, Lyman Museum, among others. He is the third generation to be involved in his family's business enterprises, which currently operate eight entities. Mr. De Luz brings twenty-five years of small business experience to the Board and will serve as a representative from the County of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3609 Economic Development and Taxation on Gov. Msg. No. 327

Recommending that the Senate advise and consent to the nomination of the following:

STATE FOUNDATION ON CULTURE AND THE ARTS COMMISSION

G.M. No. 327 SANDRA ALBANO, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Sandra Albano to have the necessary qualifications to be nominated to the State Foundation on Culture and the Arts Commission.

Your Committee received testimony in support of Sandra Albano from the Executive Director and the Chairperson of the State Foundation on Culture and the Arts Commission, the President of Pacific Marketing Corporation, the Director of Sales and Marketing of the Ala Moana Hotel, the President of Kevin's Electric, Inc., and five individuals.

Sandra Albano is currently Vice President of Sales and Marketing for Travel Planners, Inc (TPI). Prior to joining TPI in 1996, Ms. Albano was employed by ITT Sheraton Hotels in Hawaii for thirty-four years, where she served in various capacities, including sales and marketing, rooms manager, and convention and incentive sales. She is actively involved in Hawaii's travel industry and for the last ten years has taught at the University of Hawai'i HIHI summer program. Ms. Albano is also active in planning and coordinating numerous nonprofit fundraising events, and serves as a Hawaii Theater Center board member. She is a reappointment to the Commission.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3610 Economic Development and Taxation on Gov. Msg. No. 467

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION

G.M. No. 467 CHARLES DAVID BOOTH, for a term to expire 6-30-2009

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Charles David Booth to have the necessary qualifications to be nominated to the Board of Directors of the High Technology Development Corporation.

Your Committee received testimony in support of Charles David Booth from the Department of Business, Economic Development, and Tourism and the High Technology Development Corporation.

Charles David Booth is a Professor of Law at the William S. Richardson School of Law, University of Hawai'i at Manoa, where he specializes in Asian and corporate law. Mr. Booth has an extensive teaching career in the legal field, including the University of Hong Kong and Duke University School of Law, and has practiced in the fields of bankruptcy and corporate law. He is a *summa cum laude*

graduate of Yale University with a B.A. in History, and holds a J.D., *cum laude*, from Harvard Law School. Mr. Booth has published and lectured widely and has been awarded numerous grants in the pursuit of his legal research. He is active in an impressive and extensive range of state, national, and international professional organizations. Mr. Booth's financial credentials and his expertise in the practicalities of entrepreneurship will be of great assistance to the Board in meeting its obligations to provide services to Hawaii's technology businesses.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3611 Human Services and Public Housing on Gov. Msg. No. 583

Recommending that the Senate advise and consent to the nomination of the following:

STATE REHABILITATION COUNCIL

G.M. No. 583 CYNTHIA CLINE, for a term to expire 6-30-2011

Your Committee received written testimony in support of the nominee from a member of the House of Representatives, the Department of Human Services and the State Rehabilitation Council.

The nominee currently serves as the Deputy Director of Women Helping Women, an organization that operates an emergency shelter for victims of domestic violence. Prior to her current position, the nominee gained extensive professional experience in employment-related programs for individuals, including those with disabilities, in both the public and private sector while working with the Department of Labor Workforce Development Division, Insights to Success, and Network Enterprises, Inc. She has worked as an employment coordinator, developed volunteer opportunities, provided employment counseling, and conducted community presentations and training. In addition, the nominee would provide the Council with representation from Maui, which has been lacking for at least the past five years.

Upon review of the testimony and personal history of the nominee, your Committee finds that the nominee has the necessary qualifications to serve on the State Rehabilitation Council.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3612 Human Services and Public Housing on Gov. Msg. No. 354

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAII PUBLIC HOUSING AUTHORITY (PHA)

G.M. No. 354 TRAVIS O. THOMPSON, for a term to expire 6-30-2012

Your Committee received written testimony in support of the nominee from the Office of the Governor, the Department of Human Services, the Hawaii Public Housing Authority, a member of the Hawaii Public Housing Authority Board of Directors, Habitat for Humanity Maui, and one private citizen. Testimony in opposition to the nominee was received from ten private citizens.

The nominee has over forty-five years of management and executive experience in both the public and private sector. He currently serves as Chair of the Hawaii Public Housing Authority, President of the Wailea Community Association, and Secretary of the Maui Arts and Cultural Center. His professional background includes experience as the Director of Finance for the County of Maui, a Senior Program Manager for Boeing Commercial Airplane Company, and a First Lieutenant in the U.S. Air Force, working as an Auditor. Additionally, he has served as the former Chair of Big Brothers Big Sisters, and of Maui United Way.

Upon review of the testimony, personal history, and statement submitted by the nominee, your Committee finds that the nominee has the necessary qualifications for reappointment to the Board of Directors of the Hawaii Public Housing Authority.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3613 Health on Gov. Msg. Nos. 356, 357, 358, 359, 360, 361, 477 and 514

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

G.M. No. 356 DAVID F. FRAY, for a term to expire 6-30-2012;

G.M. No. 357 PATRICIA L. HEU, MD, for a term to expire 6-30-2012;

G.M. No. 358 EVAN A.R. MURAKAMI, for a term to expire 6-30-2012;

G.M. No. 359 PATRICIA A. NISHIMOTO, for a term to expire 6-30-2012;

- G.M. No. 360 LIZ ANN K. SALVADOR, for a term to expire 6-30-2012;
 G.M. No. 361 MICHAEL D. TADA, for a term to expire 6-30-2012;
 G.M. No. 477 MARK F. ROMOSER, for a term to expire 6-30-2012; and
 G.M. No. 514 SHERYL A. NELSON, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to the development and delivery of services to all individuals with developmental disabilities. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the State Council on Developmental Disabilities to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the State Council on Developmental Disabilities and Family Voices of Hawaii. Your Committee received additional testimony from the Department of Health, University of Hawaii John A. Burns School of Medicine, and Easter Seals Hawaii supporting the nomination of David Fray; additional testimony from the University of Hawaii John A. Burns School of Medicine supporting the nomination of Patricia Heu, M.D.; and additional testimony from The Arc of Kauai and Responsive Caregivers supporting the nomination of Patricia Nishimoto.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3614 Health on Gov. Msg. Nos. 385 and 386

Recommending that the Senate advise and consent to the nominations of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, OAHU SERVICE AREA BOARD

- G.M. No. 385 SHIRLEY JEAN DAVENPORT, for a term to expire 6-30-2011; and
 G.M. No. 386 GORDON MICHAEL DURANT, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to mental health and substance abuse services. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Mental Health and Substance Abuse, Oahu Service Area Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Your Committee additionally received testimony supporting Mr. Durant's nomination from NAMI Hawai'i.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3615 Health on Gov. Msg. Nos. 362, 363, 364 and 478

Recommending that the Senate advise and consent to the nominations of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS

- G.M. No. 362 SANDRA S. RONGITSCH, for a term to expire 6-30-2012;
 G.M. No. 363 RUTH H. STEPULIS RN, for a term to expire 6-30-2012;
 G.M. No. 364 DIANE M. STOWELL, for a term to expire 6-30-2012; and
 G.M. No. 478 ROSEMARIE M. PROTACIO, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to elder affairs services. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Policy Advisory Board for Elder Affairs to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Executive Office on Aging. Your Committee received additional testimony supporting the nomination of Sandra Rongitsch from Hale Makua, the National Association of Social Workers, and one private individual. Additional testimony supporting the nomination of Ruth Stepulis was received from the Chair of the Policy Advisory Board for Elder Affairs.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3616 Health on Gov. Msg. Nos. 387, 388, 389, 390, 391, 392, 393, 394 and 395

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON MENTAL HEALTH

- G.M. No. 387 BELINDA A. ANDERSON, for a term to expire 6-30-2012;
- G.M. No. 388 ALAN BUFFENSTEIN MD, for a term to expire 6-30-2012;
- G.M. No. 389 ARTHUR THOMAS CABATBAT, for a term to expire 6-30-2010;
- G.M. No. 390 LIESJE CATTANEO, for a term to expire 6-30-2012;
- G.M. No. 391 RANDOLPH C. HACK, for a term to expire 6-30-2012;
- G.M. No. 392 DONNA DARLENE HANSEN, for a term to expire 6-30-2012;
- G.M. No. 393 KUULEI A. KILIONA, for a term to expire 6-30-2012;
- G.M. No. 394 CANDACE M. SANDAL, for a term to expire 6-30-2012; and
- G.M. No. 395 G. NOELANI WILCOX, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to services for individuals with mental illness or emotional problems. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the State Council on Mental Health to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Your Committee received additional testimony from two individuals supporting the nomination of Liesje Cattaneo, from NAMI Hawaii and one individual supporting the nomination of Randolph Hack, from four individuals supporting the nomination of Donna Hansen, and from one individual supporting the nomination of Kuulei Kiliono.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3617 Health on Gov. Msg. Nos. 515, 516, 517 and 518

Recommending that the Senate advise and consent to the nominations of the following:

DISABILITY AND COMMUNICATION ACCESS BOARD

- G.M. No. 515 ED CHEVY, for a term to expire 6-30-2011;
- G.M. No. 516 PETER L. FRITZ, for a term to expire 6-30-2009;
- G.M. No. 517 ANN CHINEN ITO, for a term to expire 6-30-2010; and
- G.M. No. 518 LANCE KANESHIRO, for a term to expire 6-30-2011

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to services for individuals with disabilities. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Disability and Communication Access Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Disability and Communication Access Board. Your Committee received additional testimony supporting the nomination of Peter Fritz from Chun, Kerr, Dodd, Beaman and Wong; Clear Fuels Technology, Inc.; and six individuals. Your Committee received additional testimony supporting the nomination of Ann Ito from the University of Hawaii at Manoa KOKUA program and two individuals. Your Committee received additional testimony supporting the nomination of Lance Kaneshiro from Yamasato, Fujiwara, Higa and Associates and two individuals.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3618 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on H.C.R. No. 62

The purpose of this measure is to request the Auditor to assess the social and financial effects of requiring health insurers to provide coverage for the diagnosis and treatment of autism spectrum disorders.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Kaiser Permanente, Autism Speaks, the Disability and Communication Access Board, Hawaii Disability Rights Center, the Autism Society of Hawaii, and one private individual.

Your Committees find that a similar measure to this is making its way through the Legislature. Therefore, your Committees have amended this measure by deleting its contents and inserting language that requests the Auditor to conduct an impact assessment report, pursuant to sections 23-51 and 23-52, Hawaii Revised Statutes, of the social and financial impacts of mandating coverage of medical surveillance systems for all policies and contracts, hospital and medical service plan contracts, medical service corporation contracts, and health maintenance organization plans and contracts, as provided in S.B. No. 409, S.D. 2, H.D. 1 (2008).

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 62, H.D. 1, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as H.C.R. No. 62, H.D. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Menor, Taniguchi, Whalen).

SCRep. 3619 (Joint) Health and Education on H.C.R. No. 138

The purpose of this measure is to request the University of Hawaii John A. Burns School of Medicine Telehealth Research Institute (TRI) to form a task force to explore the feasibility of expanding the State's telemedicine system.

Your Committees received testimony in support of this measure from Hawaii Primary Care Association, Kaiser Permanente, the University of Hawaii System, Hawaii Pacific Health, Hawaii Health Systems Corporation, and four individuals.

Your Committees have amended this measure by adding the Chief Executive Officer of Kaiser Permanente or the Chief Executive Officer's designee to the task force membership.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 138, H.D. 2, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 138, H.D. 2, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3620 (Joint) Health and Human Services and Public Housing on H.C.R. No. 21

The purpose of this measure is to urge the Departments of Health and Human Services to work together to develop a standardized, workable policy to protect the elderly without compromising resident care, and that encourages more people to become adult residential care home or community care foster family home operators.

Your Committees received testimony in support of this measure from the Department of Health. Your Committees received testimony in opposition to this measure from the Department of Human Services.

Your Committees have adopted the recommendation of the Department of Health and amended this measure by deleting the provision that states that "an ARCH or CCFH that cares for chronically ill residents needing skilled nursing care will be subject to DOH's medical-based guidelines as well as DHS's policies based on a social services point of view" because community care foster family home's are not subject to the Department of Health's guidelines.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 21, H.D. 1, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 21, H.D. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Hemmings, Whalen).

SCRep. 3621 Human Services and Public Housing on H.C.R. No. 93

The purpose of this measure is to encourage participation in the statewide blank ribbon and black arm band campaign to show support for ending all forms of domestic violence.

Oral testimony in support of this measure was given by a member of the House of Representatives and the Hawaii State Coalition Against Domestic Violence.

Your Committee finds that domestic violence continues to be a grave problem that can create unfortunate ripple effects throughout many sectors of the community. Your Committee further finds that this measure calls for a campaign against domestic violence that will raise community awareness of issues associated with domestic violence, through the visibility of ribbons and arm bands and community workshops, and can lead to personal and collective action to stop all forms of domestic violence where they may occur.

Your Committee has amended this measure and its title by incorporating the comments of the Hawaii State Coalition Against Domestic Violence to change the color of the ribbons and arm bands from black to purple, to coincide with a national campaign against domestic violence.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 93, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 93, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Sakamoto).

SCRep. 3622 Water and Land on H.C.R. No. 346

The purpose of this measure is to request the Department of Land and Natural Resources, Division of Aquatic Resources, to conduct a study on Parts I, II, IV, and V of Title 13, Subtitle 4 of the Hawaii Administrative Rules.

Prior to conducting a hearing on this matter, a proposed Senate Draft of this measure was distributed which replaced its title and substance with a new title and substance, the purposes of which are to urge the Administration to complete the purchase of Turtle Bay Resort and the surrounding undeveloped lands and to urge the commitment of the Legislature to assist with the purchase.

Testimony in support of the proposed amended version of this measure was submitted by the Senior Policy Advisor to the Governor, Keep the North Shore Country, The Trust for Public Land, and four individuals. The Department of Business Economic Development and Tourism, Office of Planning, submitted testimony in support of the intent and purpose of this measure.

Your Committee finds that the Ko'olauloa-North Shore region known as Turtle Bay, located in the ahupua'a of Hana Kae in Kahuku on the island of Oahu, represents one of the last remaining partially developed shoreline areas on the most populated island within our State. The Turtle Bay area encompasses a total of 1,429 acres on the makai and mauka sides of Kamehameha Highway in Kahuku that includes unique and irreplaceable natural and cultural features, including Punahoolapa Marsh, Kawela Bay, and alluvial sand dunes. Your Committee further finds that since 1969, the majority of the property has been classified for urban land use and the Council of the City and County of Honolulu approved the Kuilima Expansion Project by issuing a special management area use permit to Kuilima Development Company in 1986. These actions may potentially allow for the construction of up to three thousand hotel rooms plus development of residential units and commercial structures on the Turtle Bay property. Your Committee recognizes that there have been significant changes in the surrounding communities along the North Shore, as well as the rest of Oahu over the past twenty years, such as increased traffic congestion and additional demands on remaining beaches, recreational areas, and undeveloped land, making it no longer practical or of community benefit to consider the type of development previously approved by the City and County of Honolulu.

Your Committee further finds that Oaktree Capital Management, LLC, the current owner of the Turtle Bay Hotel and Resort, has failed to make payment and, as a result, has been subject to a foreclosure action by the creditors for an estimated eight hundred eighty acres of the property on the makai side of Kamehameha Highway and Oaktree Capital Management, LLC has actively solicited bids for the sale of this property for resort development. Your Committee believes the makai and mauka portions of the Oaktree Capital Management, LLC holdings are interrelated and should be purchased as a unit to protect the long-term viability of the area, including the existing hotel and residential units. However, your Committee recognizes that the State does not intend to own and operate the Turtle Bay Resort. Your Committee further understands that it is important to the economic well-being of the community to ensure that the existing hotel and resort remain viable, that the jobs of the employees of this facility are protected, and that the proceeds from the sale of the developed parcels, to the extent possible, cover the State's costs to acquire and preserve a majority of the undeveloped area of the Turtle Bay property. Your Committee believes that the State currently has a unique and distinct opportunity to enter into the negotiations for the purchase of the Turtle Bay property with the intended result of having a net zero outlay of state monies.

Your Committee has amended this measure by replacing the title and substance of this measure in their entirety, with language that:

- (1) Reflects that the purpose of this measure is to urge the Administration to complete the purchase of Turtle Bay Resort and the surrounding undeveloped lands and to urge the commitment of the Legislature to assist with the purchase;
- (2) Provides a historical background and present status of the circumstances regarding the Turtle Bay property which have lead to the present situation of the State being interested in acquiring the Turtle Bay Resort and surrounding undeveloped land;
- (3) Urges the Administration to complete negotiations for the purchase of the Turtle Bay Resort and surrounding undeveloped lands; and
- (4) Expresses the Legislature's commitment to do a good faith review of the terms of the acquisition upon completion of negotiations by the Administration.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 346, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 346, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Tokuda).

SCRep. 3623 Water and Land on S.R. No. 95

The purpose of this measure is to request the Aquatic Resources Division of the Department of Land and Natural Resources to begin a rulemaking process, pursuant to section 187A-5, Hawaii Revised Statutes, to amend the administrative rules, as necessary, to resolve the user conflicts between commercial akule fishermen and recreational pole fishing in various harbors on Kauai.

Prior to conducting a hearing on this matter, a proposed Senate Draft of this measure was distributed which replaced its title and substance with a new title and substance, the purposes of which are to urge the Administration to complete the purchase of Turtle Bay Resort and the surrounding undeveloped lands and to urge the commitment of the Legislature to assist with the purchase.

Testimony in support of the proposed amended version of this measure was submitted by the Senior Policy Advisor to the Governor, Keep the North Shore Country, and four individuals.

Your Committee finds that the Ko'olauloa-North Shore region known as Turtle Bay, located in the ahupua'a of Hana Kae in Kahuku on the island of Oahu, represents one of the last remaining partially developed shoreline areas on the most populated island within our State. The Turtle Bay area encompasses a total of 1,429 acres on the makai and mauka sides of Kamehameha Highway in Kahuku that includes unique and irreplaceable natural and cultural features, including Punahoolapa Marsh, Kawela Bay, and alluvial sand dunes. Your Committee further finds that since 1969, the majority of the property has been classified for urban land use and the Council of the City and County of Honolulu approved the Kuilima Expansion Project by issuing a special management area use permit to Kuilima Development Company in 1986. These actions may potentially allow for the construction of up to three thousand hotel rooms plus development of residential units and commercial structures on the Turtle Bay property. Your Committee recognizes that there have been significant changes in the surrounding communities along the North Shore, as well as the rest of Oahu over the past twenty years, such as increased traffic congestion and additional demands on remaining beaches, recreational areas, and undeveloped

land, making it no longer practical or of community benefit to consider the type of development previously approved by the City and County of Honolulu.

Your Committee further finds that Oaktree Capital Management, LLC, the current owner of the Turtle Bay Hotel and Resort, has failed to make payment and, as a result, has been subject to a foreclosure action by the creditors for an estimated eight hundred eighty acres of the property on the makai side of Kamehameha Highway and Oaktree Capital Management, LLC has actively solicited bids for the sale of this property for resort development. Your Committee believes the makai and mauka portions of the Oaktree Capital Management, LLC holdings are interrelated and should be purchased as a unit to protect the long-term viability of the area, including the existing hotel and residential units. However, your Committee recognizes that the State does not intend to own and operate the Turtle Bay Resort. Your Committee further understands that it is important to the economic well-being of the community to ensure that the existing hotel and resort remain viable, that the jobs of the employees of this facility are protected, and that the proceeds from the sale of the developed parcels, to the extent possible, cover the State's costs to acquire and preserve a majority of the undeveloped area of the Turtle Bay property. Your Committee believes that the State currently has a unique and distinct opportunity to enter into the negotiations for the purchase of the Turtle Bay property with the intended result of having a net zero outlay of state monies.

Your Committee has amended this measure by replacing the title and substance of this measure in their entirety, with language that:

- (1) Reflects that the purpose of this measure is to urge the Administration to complete the purchase of Turtle Bay Resort and the surrounding undeveloped lands and to urge the commitment of the Legislature to assist with the purchase;
- (2) Provides a historical background and present status of the circumstances regarding the Turtle Bay property which have lead to the present situation of the State being interested in acquiring the Turtle Bay Resort and surrounding undeveloped land;
- (3) Urges the Administration to complete negotiations for the purchase of the Turtle Bay Resort and surrounding undeveloped lands; and
- (4) Expresses the Legislatures commitment to do a good faith review of the terms of the acquisition upon completion of negotiations by the Administration.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 95, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 95, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kokubun, Tokuda).

SCRep. 3624 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 307

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PROFESSIONAL ENGINEERS, ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS

G.M. No. 307 MARC EDWIN VENTURA AIA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Marc Edwin Ventura, A.I.A. to have the necessary qualifications to be nominated to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects for a second term.

Testimony in support of Mr. Ventura's nomination was submitted by the Department of Commerce and Consumer Protection.

Mr. Ventura received his Bachelor of Architecture from the University of Notre Dame. He currently serves as Firm Founder and Principal of Marc Ventura, AIA, LLC in Lihue where he oversees and manages feasibility studies, design conceptualization and development, construction documentation, permitting, bidding, negotiation assistance, and construction administration for residential and commercial projects. His firm's design philosophy focuses on the implementation of "Tropical Style" architecture to suit clients' needs, climate, and style.

Mr. Ventura is a licensed architect in Hawaii and in California. He currently serves as the Board's Chairperson and provides valuable leadership. He actively facilitates and participates in discussions and meaningfully contributes due to his many years of experience as an licensed architect. Furthermore, he serves on the Board's Rules Committee and has represented the Board at national and regional meetings. Mr. Ventura's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects for a second term.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3625 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 312

Recommending that the Senate advise and consent to the nomination of the following:

MOTOR VEHICLE REPAIR INDUSTRY BOARD

G.M. No. 312 BENJAMIN K. WAIOLAMA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Benjamin K. Waiolama to have the necessary qualifications to be nominated to the Motor Vehicle Repair Industry Board for a second term.

Testimony in support of Mr. Waiolama's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Waiolama is a graduate of McKinley High School and a retired Command Sergeant Major in the United States Army after thirty-five years of service. After his retirement in 1987, he was employed at Lockheed Martin and now works at Hanauma Bay. He has been a Board Member of the Ft. Shafter Federal Credit Union for the past seventeen years and a member of the United States Army Race Relation Council. In 2004, he received the President's Volunteer Service Award and an award for Volunteer Service at Hanauma Bay Nature Preserve.

Mr. Waiolama is being reappointed to the Board as a public member and has served on the Board since 2005. In July 2006, he was nominated to be the Chairperson of the Board, and he continues to serve in that capacity presently. He is a dependable member who provides the effective leadership and guidance that is needed to effectuate the matters before the Board. He encourages open discussion while maintaining focus on the immediate matter at hand. Mr. Waiolama's demonstrated commitment, motivation, and professional and life experiences will greatly assist the Motor Vehicle Repair Industry Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3626 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 321

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 321 PATRICK W. SOUZA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Patrick W. Souza to have the necessary qualifications to be nominated to the Board of Private Detectives and Guards for a second term.

Testimony in support of Mr. Souza's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Souza is certified and licensed as a Mortician in Hawaii and currently serves as a Funeral Director and Mortician for Mililani Group, Inc. As a Funeral Director, he works with the bereaved by providing sensitive and effective intervention during a time of emotional stress and loss of a family member. He also provides information regarding memorial estate planning, addresses issues regarding pre-need planning and at-need planning, and manages the "Awareness" program. Prior to his employment at Mililani Group, Inc., he served as a Night Watchman and Embalming Apprentice for Borthwick Mortuary.

Mr. Souza is being nominated to the Board as a public member and he has served on the Board since 2004. He has demonstrated extensive administrative experience that has enabled him to quickly understand the purpose of the Board and his role as a public member. He possesses the ability to focus on the issues and actively participate in discussions. Mr. Souza's demonstrated commitment, motivation, security background, and professional experiences will greatly assist the Board of Private Detectives and Guards.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3627 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 511

Recommending that the Senate advise and consent to the nomination of the following:

CONTRACTORS LICENSE BOARD

G.M. No. 511 GUY M. AKASAKI, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Guy M. Akasaki to have the necessary qualifications to be nominated to the Contractors License Board.

Testimony in support of Mr. Akasaki's nomination was submitted by the Department of Commerce and Consumer Affairs, the Roofing Contractors Association of Hawaii, and thirteen private individuals.

Mr. Akasaki is a licensed contractor who specializes in commercial roofing and waterproofing. He currently serves as the President, Chief Executive Officer, and Chairperson of Commercial Roofing and Waterproofing HI, Inc., which was ranked fourth in the 2000 Pacific Business News' "50 Fastest Growing Small Businesses in Hawaii" and ranked second in Building Industry Hawaii's "Top 10 Roofing Contractors" in 2004, 2003, and 2002. He also serves as Chairperson for Commercial Roofing Waterproofing Phils; General Partner for DCJ; Chairperson for Allied Pacific Builders; President, Chief Executive Officer, and Chairperson for Honolulu Roofing Company; and Chairperson for Pacific Properties Group, Inc.

Mr. Akasaki has served on the Board of Directors of various entities, including the Roofing Contractors of Hawaii, the Hawaii Society of Corporate Planners, and the Building Owners Managers Association, to name a few. He has also participated in the Hawaii Hotel Association, the Building Industry Association, the Institute of Real Estate Management, and the National Roofing Contractors Association, to name a few. He is also an active member of Grace Bible Honolulu.

Although Mr. Akasaki is an experienced contractor, he is also well-positioned to view the proceedings of the Board through the lens of a consumer. He has demonstrated a strong entrepreneurial spirit by starting a number of businesses and is well-versed in issues

relevant to discussions pertaining to sustainability, energy conservation, and renewable energy resources. Mr. Akasaki's demonstrated commitment, motivation, and professional experiences will greatly assist the Contractors License Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3628 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 562

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF PUBLIC ACCOUNTANCY

G.M. No. 562 THOMAS T. UENO, CPA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Thomas T. Ueno, C.P.A. to have the necessary qualifications to be nominated to the State Board of Public Accountancy.

Testimony in support of Mr. Ueno's nomination was submitted by the Department of Commerce and Consumer Affairs and three private individuals.

Mr. Ueno received his Bachelor of Business Administration in Accounting and his Master of Business Administration from the University of Hawaii. He currently works in his own office, Thomas T. Ueno, CPA, where he specializes in forensic accounting. He was formerly the partner-in-charge of Grant Thornton's management consulting department.

Mr. Ueno has been a member in good standing with the Hawaii Society of Certified Public Accountants where he served as its President in 1993-1994, and the American Institute of Certified Public Accountants where he served on its governing council. He has demonstrated a community-minded spirit through his service as a member of the board of directors of organizations, including the Japanese Cultural Center of Hawaii, Child and Family Services; and Catholic Charities to the Elderly. He has also served as a member of the Hawaii National Guard.

Mr. Ueno is a Certified Public Accountant (CPA) who has demonstrated through his participation and leadership with the Hawaii Society of Certified Public Accountants his commitment to preserving the integrity of and promoting the high professional standards of CPAs, and protecting the interest of the public. Mr. Ueno's demonstrated commitment, motivation, education, and professional experiences will greatly assist the State Board of Public Accountancy.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3629 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 546

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF CERTIFICATION OF PUBLIC WATER SYSTEM OPERATORS

G.M. No. 546 LAN REISO YONEDA, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Lan Reiso Yoneda to have the necessary qualifications to be nominated to the Board of Certification of Public Water System Operators.

Testimony in support of Mr. Yoneda's nomination was submitted by the Department of Health.

Mr. Yoneda received his Bachelor of Science in Civil Engineering from the University of Hawaii and his Master of Science from the University of Southern California. He currently serves as the Superintendent of Field Operations for the Honolulu Board of Water Supply where he supervises a 143-person work force that is responsible for all of the distribution pipes in the metropolitan Honolulu city district. He is also responsible for managing the facility maintenance of reservoirs, booster stations, grounds maintenance, and custodial services in support of water distribution on Oahu. He also serves as a part-time instructor for Honolulu Community College teaching Trades Apprentice Plumbing Mathematics, Science, and Blueprint Reading.

Mr. Yoneda is the recipient of several awards for his service in the United States Air Force and is a veteran of the Persian Gulf War. He is a member of the American Water Works Association and the National Council of Examiners for Engineers and Surveyors. He also writes and evaluates water and wastewater related problems for the National Civil Engineers and the Fundamentals of Engineering Exams.

Mr. Yoneda is a registered professional engineer in Hawaii and Nebraska and has held a Class IV Distribution System Operator Certification since 2001. Mr. Yoneda's demonstrated commitment, motivation, engineering background, education, and professional experiences will greatly assist the Board of Certification of Public Water System Operators.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3630 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 539

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 539 EMI ISAKI, PHD, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Emi Isaki, Ph.D. to have the necessary qualifications to be nominated to the Board of Speech Pathology and Audiology.

Testimony in support of Dr. Isaki's nomination was submitted by the Department of Commerce and Consumer Affairs.

Dr. Isaki received her Bachelor of Science in Communication Disorders and her Master of Science in Speech-Language Pathology from the University of Utah. She subsequently received her Doctorate in Speech-Language Pathology from the University of Arizona. She currently serves as a tenure track Assistant Professor and as the Adult Neurogenic Clinic Director at the University of Hawaii at Manoa. Prior to her joining the faculty at the University of Hawaii, she served as a per diem Speech-Language Pathologist at several medical centers in Tucson, Arizona.

Dr. Isaki is the recipient of several honors and awards for her work in speech pathology and is professionally affiliated with the Association of Neurogenic Communication Disorders, the Brain Injury Association of Hawaii, the National Aphasia Association, the Hawaii Speech-Language-Hearing Association, and the American Speech-Language-Hearing Association. She also has participated in an extensive list of professional activities as well as authored several published works.

Dr. Isaki is focused on consumers and patients, and how Board decisions affect them. She demonstrates familiarity with the current issues in the profession and facing the Board. Her skills and expertise include evaluating important clinical issues, participating in group decision making, interacting with other professionals, evaluating and treating clients with communication disorders, providing an academic perspective to issues, working with other organizations in the community, and professional writing. Dr. Isaki's demonstrated commitment, motivation, teaching background, education, and professional experiences will greatly assist the Board of Speech Pathology and Audiology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3631 Agriculture and Hawaiian Affairs on Gov. Msg. No. 270

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAI'I

G.M. No. 270 ROY S. HELBUSH, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Roy S. Helbush to possess the requisite qualifications to be nominated to the Island Burial Council, Island of Hawai'i.

Testimony in support of this nomination was submitted by the Department of Land and Natural Resources and one individual.

Mr. Helbush presently serves on the Island Burial Council, Island of Hawai'i as the landowner representative. He ranches and farms land in Ka'u which has been owned by his family since the 1890s. Mr. Helbush is knowledgeable of historic sites and Hawaiian burial practices.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Hee).

SCRep. 3632 Agriculture and Hawaiian Affairs on Gov. Msg. No. 560

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF MAUI AND LANAI

G.M. No. 560 WILLIAM C. FRAMPTON, for a term to expire 6-30-2012

Your Committee has reviewed the history, resume, and statement submitted by the nominee, and finds William C. Frampton to possess the requisite qualifications to be nominated to the Island Burial Council, Islands of Maui and Lanai.

Testimony in support of this nomination was submitted by the Department of Land and Natural Resources.

Mr. Frampton has served on the Island Burial Council, Islands of Maui and Lanai since 2002 as the land owner representative. He received a Bachelor's degree in Geography with an emphasis on Natural Resource Planning from Humboldt State University. He is the owner and managing member of Frampton and Ward, LLC, doing work in real estate consulting, development, and project management. Mr. Frampton previously served as the remediation coordinator for the Kaho'olawe Island Reserve Commission

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Hee).

SCRep. 3633 Agriculture and Hawaiian Affairs on Gov. Msg. No. 561

Recommending that the Senate advise and consent to the nomination of the following:

KAHO'OLAWA ISLAND RESERVE COMMISSION

G.M. No. 561 AMBER NAMAKA WHITEHEAD, for a term to expire 6-30-2012

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Amber Namaka Whitehead to possess the requisite qualifications to be nominated to the Kaho'olawe Island Reserve Commission.

Testimony in support of Ms. Whitehead's nomination was submitted by Kaho'olawe Island Reserve Commission, Kohe Malamalama O Kanaloa Protect Kaho'olawe Fund, and three individuals.

Ms. Whitehead is a graduate of Kamehameha Schools. She received her Bachelor's degrees in Hawaiian Studies and Botany from the University of Hawai'i at Manoa and is presently enrolled in the Department of Botany in a Doctorate program specializing in Ecology, Evolution, and Conservation Biology.

Ms. Whitehead is employed by the Kamehameha Schools as an ecologist for lands on Hawai'i, O'ahu, Moloka'i, Kaua'i, and Maui. In that position she manages the natural resources, stewardship activities and partnerships for over 360,000 acres of land and oversees and is responsible for a budget of over two million dollars annually. She has been a member of the Protect Kaho'olawe 'Ohana for the past fourteen years and has the responsibility of being an access guide to the island.

As affirmed by the record of votes of the members of your Committee on Agriculture and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (English, Hee).

SCRep. 3634 (Joint) Education and Agriculture and Hawaiian Affairs and Public Safety on H.C.R. No. 260

The purpose of this measure is to request the College of Agriculture, Forestry, and Natural Resource Management at the University of Hawaii at Hilo, in collaboration with the Department of Agriculture and Hawaii Community College, to conduct a study on the programs developed by the Kulani Correctional Facility that would aid in the revitalization of state agriculture.

Testimony in support of the measure was submitted by the Department of Agriculture and the College of Agriculture, Forestry and Natural Resource Management of the University of Hawaii at Manoa. Comments on the measure were also submitted by the Department of Public Safety

Your Committees find that the agriculture industry in Hawaii has undergone massive changes over the past few decades. Currently there is a movement toward the revitalization and reformation of the industry, which requires the support of the State in developing innovative and alternative programs and initiatives. Your Committees further find that the Kulani Correctional Facility, in collaboration with Hawaii Community College, has established a greenhouse program wherein inmates build and maintain the facilities and learn other relevant agricultural skills. Hawaii Community College also offers a non-credit certificate to Kulani Correctional Facility inmates for participation in the program.

This measure requests the College of Agriculture, Forestry, and Natural Resource Management at the University of Hawaii at Hilo, in collaboration with the Department of Agriculture and Hawaii Community College, to conduct a study on the agriculture-related programs developed by the Kulani Correctional Facility. Your Committees believe that this study will help to rehabilitate and facilitate reentry into the workforce for inmates while also helping to revitalize the agriculture industry in Hawaii. Your Committees recognize the Department of Public Safety's concerns regarding the scope of the study; however, your Committees maintain that the purpose of the measure is for a study to be conducted on programs the Kulani Correctional Facility has developed to ascertain their efficacy and not to dictate, at this time, what programs should be established.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Hawaiian Affairs and Public Safety that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 260, H.D. 1, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (English, Hee, Nishihara, Taniguchi, Whalen).

SCRep. 3635 (Joint) Education and Human Services and Public Housing on H.C.R. No. 314

The purpose of this measure is to urge the University of Hawaii to establish and administer a rehabilitative and related services graduate school loan program within its Center on Disability Studies.

Testimony in support of the measure was submitted by the Hawaii Chapter, American Physical Therapy Association, the Occupational Therapy Association of Hawaii, Easter Seals Hawaii, and twenty-four individuals. Testimony in opposition to the measure was submitted by the University of Hawaii System.

Your Committees find that the current workforce cannot support the growing need for licensed and qualified rehabilitative and related services professionals in the State. Unfortunately, accredited programs for all of these fields are not available in the State; therefore, we must look to qualified individuals from outside of the State or local residents who have been educated and trained outside

of the State to return to Hawaii to provide necessary services. Your Committees find that the provision of assistance to individuals enrolled in graduate programs in physical therapy, occupational therapy, speech language pathology, and school psychology is a viable option for growing the required workforce.

This measure urges the University of Hawaii to establish a rehabilitative and related services graduate school loan program to support the local workforce. Similarly, the Hawaii Educator Loan Program, administered by the University of Hawaii, has been successful in attempting to recruit teacher candidates to teach in critical needs areas in the Department of Education. Your Committees believe that the establishment of a similar program for rehabilitative and related services professionals may also prove successful. Representations were also made that there has been positive feedback from financial institutions that would be willing to administer such a program, if established. Additionally, testimony provided further emphasized the gravity of this situation, and your Committees recognize that further action may be warranted, including the possibility of convening a task force to address the workforce shortage.

As affirmed by the records of votes of the members of your Committees on Education and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 314, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Hee, Hooser, Taniguchi, Hemmings).

SCRep. 3636 (Joint/Majority) Transportation and International Affairs and Commerce, Consumer Protection and Affordable Housing on H.B. No. 2250

The purpose of this measure is to establish a statutory scheme for state regulation of interisland air carriers, to the extent permissible under the Constitution and laws of the United States.

Testimony in support of this measure was received from the State Representative from the 8th District. The Department of Transportation and Hawaiian Airlines submitted testimony in opposition.

Your Committees find that the recent shutting down of two major airlines serving Hawaii has already had a profound effect on the State, and the long-term economic impacts are still undetermined. Your Committees believe that all alternative solutions must be considered in order to rebuild and strengthen Hawaii's air transportation industry, and this measure provides one such solution.

Your Committees understand the concern raised by the Department of Transportation that the federal Airline Deregulation Act of 1978 prohibits states from regulating the routes, rates, or services of airlines operating in interstate commerce. Under this Act, Hawaii is prohibited from regulating its interisland carriers. However, your Committees further note that the State of Alaska received an exemption for some portions of its interstate air transportation, and it may be prudent for the State of Hawaii to initiate discussions with Hawaii's congressional delegation regarding an exemption for Hawaii.

Your Committees also note that this measure specifically addresses the federal issue by providing that the new chapter established in section 2 "shall take effect upon the enactment of federal legislation permitting implementation of that section."

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2250, H.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Ayes with Reservations, 1 (Espero). Noes, 2 (Inouye, Trimble). Excused, 3 (English, Hooser, Ige).

SCRep. 3637 Economic Development and Taxation on Gov. Msg. No. 570

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII HISTORIC PLACES REVIEW BOARD

G.M. No. 570 JULIE M.E. TAOMIA, for a term to expire 6-30-2010

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Julie M.E. Taomia to have the necessary qualifications to be nominated to the Hawaii's Historic Places Review Board.

Your Committee received testimony in support of Julie M.E. Taomia from the Department of Land and Natural Resources and the President of the Society for Hawaiian Archaeology.

Julie M.E. Taomia is a Senior Cultural Resource Specialist based at the United States Army Pohakuloa Training Area, on the Island of Hawaii, a position she has held since 2006. Ms. Taomia also worked for several years in Pago Pago, American Samoa, as the Owner and Principal Investigator of South Pacific Archaeological Consulting Services, as Senior Archaeologist in the American Samoa Historic Preservation Office, and as a science teacher. She holds a Ph.D. and M.A. in Anthropology from the University of California at Berkeley, and a B.A. from the University of Michigan. Ms. Taomia is a member of the Society for Hawaiian Archaeology and is active in community service projects that introduce children to archaeology and history.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3638 Energy and Environment on Gov. Msg. No. 434

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR FOR THE OFFICE OF ENVIRONMENTAL QUALITY CONTROL

G.M. No. 434 KATHERINE PUANA KEALOHA, for a term to expire 6-30-2011

Your Committee reviewed the personal statement and resume submitted by the nominee, and finds Katherine Puana Kealoha to have the necessary qualifications to be nominated as the Director for the Office of Environmental Quality Control.

Your Committee received testimony in support of the nomination of Ms. Kealoha from the Director of Health, Department of the Prosecuting Attorney of the City and County of Honolulu, one Hawaii State Representative, Carmelite Monastery, and seventy-eight private citizens.

Your Committee finds that Ms. Kealoha holds a Juris Doctorate from the William S. Richardson School of Law, University of Hawaii at Manoa; and a Master's of Science in Criminal Justice Administration and a Bachelor of Science in Political Science from Chaminade University of Honolulu.

In the 1991-1992 legislative session, Ms. Kealoha served as a program budget analyst with the Senate Committee on Ways and Means in the Legislature. In this capacity she evaluated the operating budgets for the Office of Hawaiian Affairs, Department of Hawaiian Home Lands, the University of Hawaii Community College System, and the Waikiki Aquarium. Her duties included analyzing state budget trends and exploring alternative funding methods for each of the departmental program areas.

Your Committee finds that Ms. Kealoha's professional experience includes more than twelve years of litigation experience as an attorney practicing in the areas of environmental, family, real estate, business, criminal, and civil law.

From 1995 through 2001, she was a Deputy Prosecuting Attorney at the City and County of Honolulu's Prosecutor's Office. During her tenure, with the support of such agencies as the Department of Land and Natural Resources, U.S. Fish and Wildlife, and the Department of Agriculture, and various environmental groups throughout the State, Ms. Kealoha was able to initiate the Office's first environmental crimes unit.

Between 2001 and 2006, Ms. Kealoha was the primary supervising attorney in her private practice, The Law Office of Katherine Puana Kealoha & Associates.

In 2006, Ms. Kealoha rejoined the Honolulu City and County Prosecutor's Office, and is currently a Deputy Prosecuting Attorney in the Career Criminal Division.

Since 1996, Ms. Kealoha has also served as an adjunct professor at Chaminade University's Department of Criminology and Criminal Justice Administration.

Ms. Kealoha has also been the President of the Kahala Community Association, a board member of the Star of the Sea Elementary School, and a member of Alpha Phi Sigma, National Criminal Justice Honor Society. She is also an American Jurisprudence & Corpus Juris Secundum National Award Recipient.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Trimble).

SCRep. 3639 Energy and Environment on Gov. Msg. Nos. 579, 580, 581 and 612

Recommending that the Senate advise and consent to the nominations of the following:

ENVIRONMENTAL COUNCIL

G.M. No. 579 ALVIN L. CHAR, for a term to expire 6-30-2012;

G.M. No. 580 SUSAN T. MATSUSHIMA, for a term to expire 6-30-2012;

G.M. No. 581 JOHN A. RICHARDS, for a term to expire 6-30-2012; and

G.M. No. 612 GILL GILLIES BERGER, for a term to expire 6-30-2011

Your Committee reviewed the personal statements and information submitted by the nominees, and finds them to have the necessary qualifications to be nominated to the Environmental Council.

Your Committee received testimony in support of the nomination of Alvin L. Char from the Office of Environmental Quality Control; Hawaiian Islands Program Director, Trust for Public Land; and one private citizen.

Your Committee finds that Mr. Char holds a Bachelor of Science in Biology and a Master of Science in Public Health from the University of Hawaii at Manoa. As part of his Master's studies he has completed course work in biological oceanography and written a thesis on heavy metals and estimation of sediment yields.

Mr. Char is currently the Acting Deputy Director of the Directorate of Public Works at the United States Army Garrison at Schofield Barracks. His previous United States Army-related experience includes positions as the Chief of the Environmental Division, Supervisory Environmental Protection Specialist, Environmental Protection Specialist, and Environmental Laboratory Technician.

Mr. Char has also served the community as an Assistant Scoutmaster of Troop 201.

Your Committee received testimony in support of the nomination of Susan T. Matsushima from the Office of Environmental Quality Control; Chairperson, Board of Agriculture; Hawaii Farm Bureau Federation; Maui County Farm Bureau; and two private citizens.

Your Committee finds that Ms. Matsushima holds a Bachelor of Education and Fifth Year Professional Teaching Certification from the University of Hawaii. She also has a Professional Certification from the University of Washington.

Ms. Matsushima is currently a Program Manager at the Pacific Tropical Ornamental Fish Program, which is a recipient of a United States Environmental Protection Agency grant regarding the lower use of pesticides. Her prior professional experience includes positions as a Vice President of agricultural projects for the Pacific International Center for High Technology Research; and extensive involvement in the wholesale nursery industry, including positions as the owner and President of Alluvion, Inc., Vice President and General Manager of Aloha Pacific Farms, Inc., and Vice President, General Manager, Director of Marketing, Sales Manager, and Sales Coordinator for Amfac Garden Hawaii, Inc. Additionally, she also has past experience as an elementary and preschool teacher.

Ms. Matsushima is also involved in many environmental, agricultural, and community service-related organizations, including the Lead 21 National Board, Food Alliance National Board, Hawaii Rural Development Council, Hawaii USA Members Financial Resources Advisory Board, North Shore Chamber of Commerce, Advisory Council of the College of Tropical Agriculture, and the Hawaii State Board of Agriculture, among numerous others.

Your Committee received testimony in support of the nomination of John A. Richards from the Office of Environmental Quality Control.

Your Committee finds that Mr. Richards holds a Bachelor of Science in Animal Science from Washington State University and has received various infantry related training from the United States Army.

Mr. Richards is currently the Operations Manager at Kahua Ranch Limited. His previous experience includes five years of service in the United States Army, which has included experience as a Platoon Leader and Operations Officer. He is also an ATV Safety Institute Instructor and a National Rifle Association Certified Instructor in rifle, pistol, and shotgun use.

Mr. Richards is a volunteer Conservation Enforcement Officer (State Law Enforcement) and a participant in Kohala Mountain Watershed Management.

Your Committee received testimony in support of the nomination of Gill Gillies Berger from the Office of Environmental Quality Control; Hawaii Family Forum and Hawaii Catholic Conference; and five private citizens.

Your Committee finds that Mr. Berger holds a degree in Economics from Willamette University, a degree in Economics and Business from Golden Gate University, and training in Retail Executive Strategic Planning from William and Mary University.

Mr. Berger's professional experience includes a position as a Vice President, Chief Merchandise Officer for Na Hoku Jeweler; and regional and corporate managerial positions, including General Manager, for Sears at various store locations.

Your Committee finds that Mr. Berger is a member of the Fuller Theological Seminary Advisory Board, the Board of Directors for the Hawaiian Island Ministries, the Steering Committee for the State Prayer Breakfast, and the Board of Directors of the Hawaii Family Forum.

As affirmed by the records of votes of the members of your Committee on Energy and Environment that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 3640 Commerce, Consumer Protection and Affordable Housing on H.C.R. No. 125

The purpose of this measure is to assist in addressing the lack of affordable housing in the State by requesting the Auditor to examine the issue of the upcoming condominium and cooperative housing project lease expirations, and its potential impact on the availability of replacement and affordable housing for Hawaii residents.

Testimony in support of this measure was submitted by Monarch Properties, Inc.; Kamehameha Schools; and fourteen private individuals.

Leasehold condominium and cooperative housing units are a relatively affordable housing option for thousands of Hawaii residents, but opportunities to use this housing option are declining as the expiration of existing leases for over 8,000 leasehold condominium and cooperative housing units approaches and these leasehold interests are set to revert to the fee owners within the next thirty years. The lease to fee conversion of these units will have a detrimental impact on thousands of individuals who occupy these units, many of whom are elderly, and do not have the funds to purchase the fee simple interest in their units.

Your Committee finds that the displacement of hundreds of lessees each year due to leasehold conversion could have a dramatic impact on the existing affordable housing crisis in the State, and potentially leave many lessees homeless. Requesting the Auditor to examine the issues of the upcoming condominium and cooperative housing project lease expirations and their potential impact on the availability of replacement and affordable housing for displaced residents will allow the State to anticipate the short- and long-term impact of leasehold conversion of condominium and cooperative housing units on the State's available affordable housing stock.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 125, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Taniguchi).

SCRep. 3641 (Joint) Education and Agriculture and Hawaiian Affairs on H.C.R. No. 357

The purpose of this measure is to request the University of Hawaii College of Tropical Agriculture and Human Resources to study the feasibility of constructing a multipurpose, multi-user processing facility on the land in the Ewa, central Oahu area being offered to the Hawaii Agriculture Research Center, for the production of value-added products that make use of locally-grown agricultural products.

Testimony in support of the measure was submitted by the Hawaii Agriculture Research Center and one individual.

Your Committees find that the State must explore and support alternative initiatives to increase and grow the agriculture industry in Hawaii. Focus on local agricultural products can result in not only local, but national and even international exposure and sales. Your Committees further find that Campbell Estate has indicated a willingness to donate in excess of one hundred acres of farmland in Ewa for agricultural offices and agribusinesses. This measure requests the University of Hawaii College of Tropical Agriculture and Human Resources to study the feasibility of constructing a multi-purpose, multi-user processing facility on the aforementioned land for the production of value-added products that utilize locally-grown agricultural products. Your Committees believe that the study is necessary to determine the feasibility and value of such construction and undertaking by the State, which will ultimately help to improve and grow the agriculture industry in Hawaii. Your Committees also recognize the concerns raised by the Hawaii Agriculture Research Center and the College of Tropical Agriculture and Human Resources of the University of Hawaii at Manoa regarding the cost associated with conducting a study of this magnitude. Although funding cannot be provided pursuant to this measure, your Committees are hopeful that the University can provide funding or make other appropriate efforts to address this important matter.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 357, H.D. 1, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 3 (English, Hee, Taniguchi).

SCRep. 3642 Human Services and Public Housing on H.C.R. No. 150

The purpose of this measure is to request that the Legislative Reference Bureau conduct a study and report to the 2009 Legislature regarding the establishment of a comprehensive vocational rehabilitation center serving deaf and hard of hearing individuals.

Testimony in support of this measure was submitted by the Department of Human Services, the Disability and Communication Access Board, the Deaf and Hard of Hearing Advisory Board, and one private citizen.

Your Committee finds that deaf and hard of hearing individuals have special communication needs that can have an affect on their language development, level of social adjustment, and all aspects of achieving personal independence. The proposed study would begin the process of providing quality services tailored to meeting these special needs in order to, among other things, broaden employment options and support successful employment retention for individuals in this community.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 150, H.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Sakamoto).

SCRep. 3643 Human Services and Public Housing on H.C.R. No. 172

The purpose of this measure is to request that the Auditor conduct a management and financial audit of the Hawaii Public Housing Authority's Punchbowl Homes facility to address reports of disrepair, noncompliance with the Americans with Disabilities Act, and other concerns, and submit its findings and recommendations to the 2009 Legislature.

Testimony in support of this measure was submitted by seventeen private citizens. Written comments on the measure were submitted by the Hawaii Public Housing Authority.

Your Committee finds that in light of numerous reports of resident concerns at the Punchbowl Homes facility, a financial and management audit may be necessary to ensure that the facility is being properly maintained.

As affirmed by the record of votes of the members of your Committee on Human Services and Public Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 172, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Hooser, Sakamoto).

SCRep. 3644 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 320

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 320 RANDALL W. MACK, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Randall W. Mack to have the necessary qualifications to be nominated to the Board of Private Detectives and Guards for a second term.

Testimony in support of Mr. Mack's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Mack currently has more than thirty years of experience in his professional career that spans the areas of business management, design and engineering, emergency planning, safety, and security and law enforcement. Since his retirement in 1995 from government service, he has provided consulting services to hotels, public utilities, international airports, and other businesses.

Mr. Mack is certified by the American Society for Industrial Security as a Certified Protection Professional, by the Association of Certified Fraud Examiners as a Certified Fraud Examiner, and by the American College of Forensic Examiners Institute as a Certified Homeland Security Level – III. He is currently licensed in the State as a Principal for a Guard Company.

Mr. Mack has served on the Board from July 2004, and his active participation during meeting discussions demonstrates that he is prepared for the matters that are on the Board's agendas. In addition, by sharing valuable insights that he has gained over his years of experience as a licensed principal guard, he continues to contribute to the items on the Board's agendas. Mr. Mack's demonstrated

commitment, motivation, security and guard background, education, and professional experiences will greatly assist the Board of Private Detectives and Guards.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3645 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 513

Recommending that the Senate advise and consent to the nomination of the following:

CREDIT UNION ADVISORY BOARD

G.M. No. 513 GWEN S. LAU, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Gwen S. Lau to have the necessary qualifications to be nominated to the Credit Union Advisory Board.

Testimony in support of Ms. Lau's nomination was submitted by the Department of Commerce and Consumer Affairs, a member of the House of Representatives, the Hawaii Central Credit Union, the Hawaii Credit Union League, and two private individuals.

Ms. Lau received her Bachelor of Business Administration degree in Accounting from the University of Hawaii at Manoa, and her three-year Banking School degree (graduated with honors) from the Graduate School of Banking at the University of Wisconsin at Madison. She currently serves as the President and General Manager of Hawaii Central Credit Union where she is responsible for providing strategy, vision, and direction for the credit union, and plans, organizes, directs, and coordinates staff, programs, initiatives, and activities of the credit union while insuring that objectives are attained, plans are fulfilled, and member needs are met. Previously, she served as a Senior Vice President and West Oahu Regional Manager for Central Pacific Bank (formerly City Bank) where she was responsible for the administration and oversight of nine branches and a commercial banking team on Oahu. Her responsibilities also included meeting and exceeding deposit, loan, and fee income growth goals, service scores, referral goals, passing operational audits, and controlling expenses.

Ms. Lau is an active participant and leader with Goodwill Industries of Hawaii, Inc. where she has served as the Co-Chairperson of its Annual Silent Auction Fundraiser, a member of its Finance Committee, and a board member of its Board Development Committee. She is also actively involved with the YWCA's Leadership Task Force, and part of its LeaderLuncheon Event Management Committee and Women Leading Change Alumni.

Ms. Lau's background and experience will enable her to make a valuable contribution to the credit union movement in working to realize the credit union mission within the community. She is likely to be a strong advocate for state-chartered credit unions and well qualified to fulfill the duties of a member of the Board. Ms. Lau's demonstrated commitment, motivation, financial background, education, and professional experiences will greatly assist the Credit Union Advisory Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3646 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 531

Recommending that the Senate advise and consent to the nomination of the following:

MOTOR VEHICLE REPAIR INDUSTRY BOARD

G.M. No. 531 JAMES K. HIRAKAWA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds James K. Hirakawa to have the necessary qualifications to be nominated to the Motor Vehicle Repair Industry Board.

Testimony in support of Mr. Hirakawa's nomination was submitted by the Department of Commerce and Consumer Affairs, and two private individuals.

Mr. Hirakawa currently serves as the President of Palolo Auto Service, Inc., and has extensive experience in the motor vehicle repair industry after serving as a licensed automobile mechanic since 1950. Testimony submitted from his customers indicate their full support to his nomination as they can always count on him and his staff at Palolo Auto Service to give honest answers and advice, and provide the highest quality of service in repairing their cars.

Mr. Hirakawa has been an active member in his community who has volunteered every week for the past four years at The Queen's Medical Center, and received the Volunteer of the Year Award in 2006. He is also the recipient of the Historic Business Award in 1994 from the City Council of Honolulu. In 2004, he received the City Council of Honolulu's Lifetime Achievement Award.

Mr. Hirakawa's demonstrated commitment, motivation, and professional experiences will greatly assist the Motor Vehicle Repair Industry Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the

nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3647 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 538

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 538 ANNE MARIE HORNER, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Anne Marie Horner to have the necessary qualifications to be nominated to the Board of Speech Pathology and Audiology.

Testimony in support of Ms. Horner's nomination was submitted by the Department of Commerce and Consumer Affairs, and three private individuals.

Ms. Horner is a graduate of Maryknoll High School and received her Bachelor of Arts degree in Speech and her Master of Science degree in Speech Pathology from the University of Hawaii at Manoa. She currently serves a Speech Pathologist for the Department of Education where she provides speech and language therapy and diagnostic evaluations to students of preschool age through high school age, and serves as a consultant to parents, teachers, student service coordinators, and school administrators.

Ms. Horner is a member and currently serves as President of the Hawaii Speech-Language-Hearing Association, and is a member of the Aliamanu Elementary School Community Council. Furthermore, she actively volunteers her time by serving as a Youth Coach for Manoa Park and Recreation Youth Leagues where she has coached volleyball, basketball, softball, and baseball. She is also a Sunday School teacher at Sacred Hearts Academy.

Ms. Horner is a licensed Speech Pathologist in the State. She understands that the primary focus of boards and commissions is to protect the consumer and this primary focus serves as her primary reason to serve on the Board – to ensure that licensees are highly qualified. Ms. Horner's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Speech Pathology and Audiology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3648 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 563

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 563 JUNE J. TAKANO, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds June J. Takano to have the necessary qualifications to be nominated to the State Board of Barbering and Cosmetology.

Testimony in support of Ms. Takano's nomination was submitted by the Department of Commerce and Consumer Affairs and two private individuals.

Ms. Takano is a graduate of McKinley High School and received her Bachelor of Arts degree in Speech Pathology from the University of Hawaii. She retired in 1992 after twenty-two years of service with the Department of Education where she served on the Honolulu District Special Services Diagnostic Team. She has also been actively involved in fundraising drives for the Heart Association and the Lung Association.

Ms. Takano is not a stranger to boards and commissions as she is currently serving the end of her term on the Elevators Mechanics Licensing Board where she serves as a public member. Her interest in serving on the Board of Barbering and Cosmetology stems from her concern that all applicants in the field are fully trained, and have sufficient and adequate knowledge in their field of expertise toward the fulfillment of their requirements for licensure. Ms. Takano's demonstrated commitment, motivation, and professional experiences will greatly assist the State Board of Barbering and Cosmetology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3649 Economic Development and Taxation on Gov. Msg. No. 571

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 4TH TAXATION DISTRICT (KAUA'I)

G.M. No. 571 ERIC NORIO YAMA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Eric Norio Yama to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 4th Taxation District.

Testimony in support of the nomination of Eric Norio Yama was submitted by the Department of Taxation, Anuenue Associates, and Lihue Missionary Church.

Eric Norio Yama holds a Bachelor of Arts degree in Psychology from the University of Hawaii at Manoa and is a licensed Real Estate Broker. In addition, Mr. Yama is a Certified Residential Specialist and Certified Residential Broker. For the past thirty years, Mr. Yama has worked for Kauai Realty, Inc., where he currently serves as Managing Partner. His primary responsibilities are to resolve any disputes or conflicts, manage the employees and thirty-nine agents, and to remain knowledgeable in the areas of business and finance that may impact his company or profession. Mr. Yama is also frequently involved with community organizations and activities and is highly regarded in the business community throughout the 4th Taxation District.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3650 Economic Development and Taxation on Gov. Msg. No. 606

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 3RD TAXATION DISTRICT (HAWAI'I)

G.M. No. 606 PETER M. TADAKI, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Peter M. Tadaki to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 3rd Taxation District.

Testimony in support of the nomination of Peter M. Tadaki was submitted by the Department of Taxation.

Peter M. Tadaki holds a Bachelor's of Science degree from Willamette University and is a Certified Public Accountant licensed in Hawaii. Mr. Tadaki has practiced in public accounting for over twenty-one years and currently has an emerging accounting practice in Hilo, Hawaii. Over the years, Mr. Tadaki has worked with clientele ranging from the successful businessman to elderly retirees who collect a pension. That experience is just one example of how Mr. Tadaki could contribute to resolving issues on the Board of Taxation Review for the 3rd Taxation District. Mr. Tadaki is also frequently involved with community organizations and activities and is well-respected for his professionalism throughout the 3rd Taxation District.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3651 Education on Gov. Msg. Nos. 577 and 578

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I TEACHER STANDARDS BOARD

G.M. No. 577 TERRY L. HOLCK, for a term to expire 6-30-2011; and

G.M. No. 578 JANICE Y. SHISHIDO, for a term to expire 6-30-2011

Upon review of the background information provided, your Committee finds that Terry L. Holck holds a Bachelor's degree in Education from the University of Hawaii at Manoa and is a teacher at Voyager Charter School. Ms. Holck is being nominated for her first term of service on the Hawaii Teacher Standards Board representing licensed teachers regularly engaged in teaching on the island of Oahu. She has taught in elementary schools throughout her career, as well as served as a teacher trainer and computer learning center teacher. Ms. Holck is also actively involved in various community and professional organizations and activities.

Testimony in support of Ms. Holck was submitted by the Hawaii State Teachers Association and five individuals.

Upon review of the background information provided, your Committee finds that Janice Y. Shishido holds a Bachelor's degree from the University of Hawaii at Manoa, as well as a fifth year certificate in education, and is currently a teacher at Lihikai Elementary School. Ms. Shishido is being nominated for her first term of service on the Hawaii Teacher Standards Board representing licensed teachers regularly engaged in teaching on the island of Maui. She has taught in elementary schools throughout her career, as well as served as a licensed optician. Ms. Shishido is also actively involved in various community organizations and activities.

Testimony in support of Ms. Shishido was submitted by the Hawaii State Teachers Association and two individuals.

Your Committee questioned each nominee and received responses regarding the nominees' desire to serve, perception of the role and responsibilities of membership, qualifications for membership, and goals for the nominees' terms of service on the Hawaii Teacher Standards Board. Your Committee believes that the nominees adequately responded to the Committee's inquiries and demonstrated appropriate knowledge of and a commitment to work towards the goals of the Board, including addressing the teacher shortage problem in Hawaii, specifically the need for licensing and re-licensing more highly qualified teachers.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 2 (Hee, Taniguchi).

SCRep. 3652 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 564

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF CHIROPRACTIC EXAMINERS

G.M. No. 564 DONNA LEE CHING, for a term to expire 6-30-2009

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Donna Lee Ching to have the necessary qualifications to be nominated to the State Board of Chiropractic Examiners.

Testimony in support of Ms. Ching's nomination was submitted by the Department of Commerce and Consumer Affairs, and three private individuals.

Ms. Ching received her Bachelor of Arts from Williams College and her Master of Business Administration from Yale University School of Management. She currently serves as the Director of Development for the Honolulu office of Leo A. Daly, the nation's ninth largest architecture, engineering, planning, and interior design firm where she is responsible for business development, market analysis, and brand management in the Pacific.

Ms. Ching has served as a publicly elected member of the Manoa Neighborhood Board and on the Advisory Board for the Hawaii Family Support Center (Healthy Start). She currently serves as a board member of the Honolulu Community Action Program, which operates Oahu's largest Head Start program and other safety net social services, and has been a participant in the Friends of the Natatorium and the Kapiolani Park Preservation Society, to name a few.

Ms. Ching's demonstrated commitment, motivation, education, and professional experiences will greatly assist the State Board of Chiropractic Examiners.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3653 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 565

Recommending that the Senate advise and consent to the nomination of the following:

CONTRACTORS LICENSE BOARD

G.M. No. 565 DARYL S. SUEHIRO, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Daryl S. Suehiro to have the necessary qualifications to be nominated to the Contractors License Board.

Testimony in support of Mr. Suehiro's nomination was submitted by the Department of Commerce and Consumer Affairs, the Electrical Contractor's Association of Hawaii, and one private individual.

Mr. Suehiro currently operates and owns an electrical contracting business, D. Suehiro, Inc., which he started with his family in 1988. He and his family strive to provide the best service and highest quality to their clients. He currently serves as the President-Elect of the Board of Directors of the Electrical Contractor's Association of Hawaii for 2008, and previously served as its Vice President in 2006 and 2007. He has also served as a Trustee for the three Hawaii Electricians Trust Funds for over four years.

Mr. Suehiro wishes to give back to the community and share the expertise that he has developed working in the industry. He believes that a contractors license is the forefront of consumer protection and understands the importance and priorities of the Board. He is also focused on what will be beneficial for the construction industry as a whole, rather than being driven by the needs of only the electrical contracting industry. Mr. Suehiro's demonstrated commitment, motivation, electrical contracting background, and professional experiences will greatly assist the Contractors License Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3654 Economic Development and Taxation on Gov. Msg. No. 540

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 2ND TAXATION DISTRICT (MAUI)

G.M. No. 540 RANDAL TANIGUCHI, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Randal Taniguchi to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 2nd Taxation District.

Testimony in support of the nomination of Randal Taniguchi was submitted by the Department of Taxation and five private citizens.

Randal Taniguchi earned a Bachelor of Business Administration degree in Accounting from the University of Hawaii at Manoa and is a Certified Public Accountant licensed in Hawaii. Mr. Taniguchi has accumulated over twenty years of professional working experience in the areas of tax law and accounting. Specifically, he has worked for global companies in the public accounting industry and private sector on the island of Maui. Mr. Taniguchi's background is well-suited to resolve tax issues facing the Board of Taxation Review for the 2nd Taxation District in a fair, objective, and professional manner.

As affirmed by the record of votes of the members of your Committee on Economic Development and Taxation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Baker, English).

SCRep. 3655 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 566

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PROFESSIONAL ENGINEERS, ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS

G.M. No. 566 DAN HIROYOSHI HIROTA, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Dan Hiroyoshi Hirota to have the necessary qualifications to be nominated to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Testimony in support of Mr. Hirota's nomination was submitted by the Department of Commerce and Consumer Affairs and one private individual.

Mr. Hirota received his Bachelor of Arts degree in Japanese Studies from Indiana University, and received his Bachelor of Science and Master of Science degrees in Civil Engineering from Purdue University. He is currently an Engineer and Surveyor at Sam O. Hirota, Inc. where he is a third generation licensed Civil Engineer, Land Surveyor, and Land Court Surveyor. He is a member of the Hawaii Association of Land Surveyors and the National Society of Professional Surveyors.

Mr. Hirota currently serves on the Board of Directors of The Pointe Community Association at Hawaii Loa Ridge where he also has previously served as its President for three years. He also currently serves as a Director for the Hawaii Loa Ridge Community Association and a member of its Architectural Review Committee, and as a Director for the Dr. Arthur & Bonnie Ennis Foundation.

Mr. Hirota understands that the primary focus of boards and commissions of this type is to protect the consumer, which is the reason for his desire to serve on the Board so that he can ensure that licensees are highly qualified. His grandfather and father have always stressed to him the importance of professional registration in the practice of civil engineering and land surveying, and he wishes to continue to support the professional process in Hawaii through the efforts of the Board. Mr. Hirota's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3656 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 567

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF MEDICAL EXAMINERS

G.M. No. 567 THOMAS S. KOSASA, MD, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Thomas S. Kosasa, M.D. to have the necessary qualifications to be nominated to the Board of Medical Examiners.

Testimony in support of Dr. Kosasa's nomination was submitted by the Department of Commerce and Consumer Affairs and two private individuals.

Dr. Kosasa received his Bachelor of Arts degree in Architecture from Dartmouth College, and his Doctor of Medicine from McGill University Medical School in Montreal, Canada. He later completed his residency and fellowship at Harvard Medical School. He currently serves as a Professor in the Department of Obstetrics and Gynecology at the John A. Burns School of Medicine at the University of Hawaii where he also serves as Chief of its Reproductive Endocrinology Division. He also serves as a Co-Director for the Pacific In Vitro Fertilization Institute and serves as an Obstetric Consultant for Hawaii Air Ambulance.

Dr. Kosasa is a member of the American College of Obstetricians and Gynecologists, the American Fertility Society, the Hawaii Medical Association, the Pacific Coast Obstetrical and Gynecological Society, and the Pan Pacific Surgical Association where he serves on the Board of Trustees. He also serves on the Board of Trustees for the Boy Scouts, Maryknoll School, and the Pacific Aviation Museum, and is a Trustee of the Kosasa Foundation. He has also authored several chapters and articles in a variety of published textbooks.

Dr. Kosasa is licensed to practice medicine in Hawaii and Massachusetts. As a former member of the Board, he understands the mission and priorities of the Board and believes that everyone in Hawaii should be cared for by a qualified and competent physician. He emphasizes that members of the Board have the responsibility to ensure that every physician who cares for patients in Hawaii has

not only the knowledge and skills to be a good physician, but has also been evaluated for their ethics and integrity. As a Professor at the John A. Burns School of Medicine, he has the opportunity to evaluate students and physicians on a daily basis, which has provided him the understanding of the qualities that are necessary to be a qualified physician and will help in his decision making ability as a member of the Board. Dr. Kosasa's demonstrated commitment, motivation, teaching background, education, and professional experiences will greatly assist the Board of Medical Examiners.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3657 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 568

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF NURSING

G.M. No. 568 DENISE L. COHEN, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Denise L. Cohen to have the necessary qualifications to be nominated to the State Board of Nursing.

Testimony in support of Ms. Cohen's nomination was submitted by the Department of Commerce and Consumer Affairs and two private individuals.

Ms. Cohen received her Bachelor of Science and Master of Science degrees in Nursing from the University of Hawaii at Manoa. She currently serves as a full-time tenured track Nurse Practitioner and Instructor at Maui Community College (MCC) where she teaches nursing theory and performs clinical supervision of MCC student nurses. In addition to her teaching responsibilities, she serves as the clinician in charge of the Campus Health Center, the success of which is attributed to her instrumental role in the operations of the Center. She is a member of the American Nurses' Association, the Hawaii Nurses' Association, Sigma Theta Tau, the American Academy of Nurse Practitioners, and the Aloha Association for the Deaf.

Ms. Cohen is a board certified Family Nurse Practitioner who is concerned about both the nursing and nursing faculty shortages in the State and hopes to bring her academic and clinical experience to bear on the Board's efforts to address those issues. Ms. Cohen's demonstrated commitment, motivation, teaching background, education, and professional experiences will greatly assist the State Board of Nursing.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3658 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 569

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 569 KRISTINE M. TAKEKAWA, for a term to expire 6-30-2011

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Kristine M. Takekawa to have the necessary qualifications to be nominated to the Board of Speech Pathology and Audiology.

Testimony in support of Ms. Takekawa's nomination was submitted by the Department of Commerce and Consumer Affairs and two private individuals.

Ms. Takekawa received her Bachelor of Arts degree in Psychology from Whitman College and her Master of Science degree in Speech Pathology and Audiology from the University of Hawaii where she later received her Certificate in Public Administration. She currently is working on and expects to receive in May 2008, her Doctorate in Audiology from Central Michigan University through the University's distance learning program. She currently serves as an Educational Audiologist for the Department of Education's Hawaii Center for the Deaf and Blind where her primary responsibility is to provide audiologic evaluations of students with hearing loss in the Department of Education, and to identify services and make these students eligible for these services. She also provides consultation services for schools regarding accommodations for students with hearing loss, and in-service training to teachers, speech language pathologists, and other professionals who work with students with hearing loss.

Ms. Takekawa holds a Certificate of Clinical Competence from the American Speech-Language-Hearing Association, and is a member of the Educational Audiology Association and the Hawaii Speech-Language-Hearing Association. She is licensed as an Audiologist in the State and holds a license for the fitting and dispensing of hearing aids.

Ms. Takekawa is cognizant of the recent changes to the educational requirements of the profession and would be of value to the Board as it meets the challenges posed by those changes. She will provide thoughtful and disciplined leadership as an experienced audiologist, and her experiences have prepared her to understand complex issues and provide well-informed recommendations. Ms. Takekawa's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Speech Pathology and Audiology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3659 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 604

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAI'I HOUSING FINANCE AND DEVELOPMENT CORPORATION (HHFDC)

G.M. No. 604 RALPH MAXWELL MESICK, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Ralph Maxwell Mesick to have the necessary qualifications to be nominated to the Board of Directors of the Hawai'i Housing Finance and Development Corporation.

Testimony in support of Mr. Mesick's nomination was submitted by the Hawaii Housing Finance and Development Corporation and three private individuals.

Mr. Mesick received his Bachelor of Business Administration degree in Finance from the University of Hawaii and his Master of Business Administration from the University of Wisconsin. He currently serves as an Executive Vice President at Bank of Hawaii where he is the manager of the credit administration division with the primary responsibility for the credit management of the bank's commercial loan portfolio. He also oversees appraisal and environmental risk management, commercial credit underwriting and analysis, and wholesale credit departments, and sits on the bank's credit policy committee.

Mr. Mesick is affiliated with numerous professional and community associations, including the Urban Land Institute Hawaii District Council, Hawaii Housing, the Pacific Educational Foundation (Job Corp of Hawaii), and the Kakaako Community Redevelopment Association, to name a few.

As the Executive Vice President in charge of commercial lending, Mr. Mesick has direct experience with the construction financing of affordable housing projects. He has over the years gained a wealth of knowledge regarding financing structure, development, operations, and occupancy of affordable housing projects, and has become adept in assessing the feasibility of affordable housing projects in the State. Mr. Mesick's demonstrated commitment, motivation, education, and professional experiences will greatly assist the Board of Directors of the Hawai'i Housing Finance and Development Corporation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 3660 Education on Gov. Msg. Nos. 573, 574, 575 and 576

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I COMMISSION FOR NATIONAL AND COMMUNITY SERVICE

G.M. No. 573 DONOVAN M. DELA CRUZ, for a term to expire 6-30-2011;

G.M. No. 574 ROBERT J. NANIOLE, for a term to expire 6-30-2011;

G.M. No. 575 LORI A.Y. TAKAO, for a term to expire 6-30-2011; and

G.M. No. 576 ELIZA V. TALBOT, for a term to expire 6-30-2011

Your Committee finds that each nominee is being nominated for their first terms of membership on the Hawaii Commission for National and Community Service. Your Committee received testimony in support of each of the nominees. Testimony in support of Councilmember Dela Cruz was submitted by the KEY Project, a City Councilmember, and ten individuals. Testimony in support of Mr. Naniole was submitted by Windward School for Adults and one individual. Testimony in support of Ms. Takao was submitted by the Director of Public Safety and three individuals. Testimony in support of Ms. Talbot was submitted by a State Representative and eight individuals.

Your Committee questioned the nominees regarding, among other things, their understanding of the role and responsibilities as members of the Commission and what they hope to accomplish during their terms of service. The nominees demonstrated an understanding and commitment to growing and improving community service efforts and programs within the State. Your Committee believes the nominees will suitably serve and represent the best interests of the State, including seeking to increase volunteers, companies, and organizations, especially with regard to assisting the public schools and engaging students in volunteer activities.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Record of Votes for Donovan M. Dela Cruz and Eliza V. Talbot: Ayes, 7. Noes, none. Excused, 1 (Taniguchi).

Signed by the Chair on behalf of the Committee. Record of Votes for Robert J. Naniolo and Lori A.Y. Takao: Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Hee).

SCRep. 3661 Education on Gov. Msg. Nos. 608, 610 and 611

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 608 CARL A. CARLSON JR., for a term to expire 6-30-2011;

G.M. No. 610 TEENA M. RASMUSSEN, for a term to expire 6-30-2012; and

G.M. No. 611 HARVEY S. TAJIRI, for a term to expire 6-30-2013

Upon review of the background information provided by the nominee, your Committee finds that Carl A. Carlson, Jr. holds a Bachelor of Science degree from California Polytechnic State University, San Luis Obispo and is currently employed as a professional consultant. Mr. Carlson is being nominated for his first term of service on the University of Hawaii Board of Regents representing West Hawaii. He has served in varying capacities for several companies in the private sector, including service as an advisor, president, trustee, general manager, and senior project manager. Mr. Carlson has also served as a member or officer of various professional and community organizations, including formerly serving as a member of the Board of Regents.

Testimony in support of Mr. Carlson was submitted by the Chairperson of the Board of Agriculture, Kona-Kohala Chamber of Commerce, and nineteen individuals.

Upon review of the background information provided, your Committee finds that Teena M. Rasmussen is the vice president and co-owner of Paradise Flower Farms, Inc. Ms. Rasmussen is being nominated for her first term of service on the University of Hawaii Board of Regents representing the community-at-large. While growing her own business over the past several years, Ms. Rasmussen has also served as the Vice Chair of the Maui County Salary Commission, Chair of the Small Business Administration Regional Advisory Board, a member of the Farm Service Agency, Chair of the Agribusiness Development Corporation, and President of the Maui Chamber of Commerce, among other service and positions. She has been recognized and honored for her professional and community service and commitment.

Testimony in support of Ms. Rasmussen was submitted by the Chair of the Board of Agriculture, the Hawaii Farm Bureau Federation, Maui County Farm Bureau, Green Point Nurseries, Inc., and thirty-two individuals.

Upon review of the background information provided, your Committee finds that Harvey S. Tajiri is a retired businessman who holds a Bachelor's degree from the University of Hawaii at Manoa. Mr. Tajiri is being nominated for his first term of service on the University of Hawaii Board of Regents representing East Hawaii. Mr. Tajiri is a veteran of the United States Army, a former businessman, a former County Councilmember, a former Hawaii State Representative, as well as a Hawaii County Legislative Lobbyist. He has been an active member in the community, serving as an officer or member of numerous organizations and participating in various community activities in the Hilo community.

Testimony in support of Mr. Tajiri was submitted by thirty-four individuals.

Your Committee questioned the nominees regarding their backgrounds, potential contributions to the Board, and ideas and vision for improving the University of Hawaii System. The nominees expressed a strong commitment to several aspects relating to the Board's purview, including seeking personalized achievement for individuals within the System and recognition for the need to provide expanded online or other traditional classroom alternatives, particularly for those from the neighbor islands; a strong commitment to growing and expanding the community college system to ensure adequate programs, services, and funding throughout all campuses, particularly on the neighbor islands; the increased transparency in the operations of the Board; and methods for addressing the funding needs of the University of Hawaii System. Your Committee believes that the nominees have displayed the necessary dedication and commitment to addressing the needs of the University of Hawaii System.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Record of Votes for Carl A. Carlson Jr.: Ayes, 6. Noes, none. Excused, 2 (Nishihara, Taniguchi).

Signed by the Chair on behalf of the Committee. Record of Votes for all other nominees: Ayes, 7. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3662 Water and Land on H.C.R. No. 112

The purpose of this measure is to urge the Department of Land and Natural Resources and the County of Hawaii to prepare a coordinated, comprehensive plan to address the needs and concerns of the lessees facing eviction upon the expiration of the leases at Kanoelehua Industrial Park.

Testimony in support of this measure was submitted by Hilo Fish Company, Inc. and Kanoelehua Industrial Area Association, Inc. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the Kanoelehua Industrial Park in Hilo is comprised of approximately three hundred forty acres of public land. The Department of Hawaiian Home Lands oversees eighty leases related to the three hundred acres of the industrial park that are under its jurisdiction and the Department of Land and Natural Resources oversees fifty-two leases related to the forty acres of the industrial park that are under its jurisdiction. Your Committee further finds that most of the leases have term limits of fifty-five years that will expire in 2016, although some of the leases will expire even earlier. As many as four hundred lessees may be displaced when

these leases expire. It is not known whether the Department of Land and Natural Resources will offer lessees an opportunity to bid for their parcels when their leases expire or if the land will be restricted to commercial purposes instead.

Your Committee further finds that Senate Concurrent Resolution No. 68, S.D. 1, Regular Session 2002, authorized the Department of Land and Natural Resources to designate approximately one hundred fifty acres of contiguous public land in South Hilo for use as a new industrial park. However, it is unlikely that the new industrial park will be ready or available to accommodate lessees before the first leases in Kanoelehua Industrial Park expire. Your Committee recognizes that the uncertainty of the status of these public lands makes it difficult for lessees to plan for their future.

Your Committee urges the Department of Land and Natural Resources and the County of Hawaii to prepare a coordinated, comprehensive plan to address the needs and concerns of the lessees facing eviction upon the expiration of the leases at the Kanoelehua Industrial Park. Specifically, your Committee recommends that the Department of Land and Natural Resources and the County of Hawaii meet with interested stakeholders in developing the plan and that the plan be finalized prior to January 1, 2010. Your Committee further recommends that the Department of Land and Natural Resources provide copies of the final plan to each lessee at the Kanoelehua Industrial Park and the Legislature prior to the convening of the Regular Session of 2010.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 112, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Tokuda, Whalen).

SCRep. 3663 Water and Land on H.C.R. No. 258

The purpose of this measure is to request that the Office of State Planning coordinate agencies of the State and the City and County of Honolulu in addressing the overgrowth of vegetation on Kahala Beach.

Testimony in support of this measure was submitted by the Office of Planning, Office of Hawaiian Affairs, and one individual.

Your Committee finds that in November 2007, an inspection of Kahala Beach was conducted by city and state agencies and community members. The inspection revealed extensive vegetative growth of hau, naupaka, and other plant species that are growing on the beach corridor blocking the beach at high tide. As observed at the inspection, as a result of induced growth the vegetation does not demarcate the legal shoreline as it often does at other beaches.

Your Committee further finds that the property jurisdiction along this corridor is shared by the State and the City and County of Honolulu. In response to the induced growth of vegetation along the corridor, community members such as the Kahala Community Association and the Neighborhood Board No. 3 intend to communicate with private property owners along Kahala Beach to request their voluntary cooperation and to discuss alternatives, as a first step rather than having government agencies issuing citations and taking other official actions.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 258, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Tokuda, Whalen).

SCRep. 3664 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. Nos. 508 and 509

Recommending that the Senate advise and consent to the nominations of the following:

CABLE ADVISORY COMMITTEE

G.M. No. 508 JENNY J. FUJITA, for a term to expire 6-30-2012; and

G.M. No. 509 KEITH R. ROLLMAN, for a term to expire 6-30-2012

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Jenny J. Fujita and Keith R. Rollman to have the necessary qualifications to be nominated to the Cable Advisory Board.

Testimony in support of Ms. Fujita's nomination was submitted by the Department of Commerce and Consumer Affairs, the Mayor of the County of Kauai, the Kaua'i Chamber of Commerce, and three private individuals.

Ms. Fujita received her Bachelor of Arts degree in Psychology with minors in Studio Art and Asian Religions from Bucknell University. She currently is a partner with Fujita & Miura Public Relations, which is a full-service public relations firm in Kauai that provides consulting services to clients in a variety of sectors, including education, government, not-for-profit, community service, and small business. She has previously served as the Public Information Officer for the County of Kauai under Mayor Kusaka, and was the Public Relations & Communications Specialist at Kauai Electric for more than seven years.

Ms. Fujita is a member of the Public Relations Society of America and the Association of Fundraising Professionals. She serves as a volunteer for the Kauai Chamber of Commerce's Small Business Committee and the Culinary Institute of the Pacific at Kauai Community College's Spring Gourmet Gala Planning Committee.

Ms. Fujita welcomes the opportunity to provide the Department of Commerce and Consumer Affairs with input on its public education and government programming policies and other issues related to cable television programming. She has a strong appreciation for the importance of high quality, accessible cable television and public access programming in the State. Ms. Fujita's demonstrated commitment, motivation, communications background, education, and professional experiences will greatly assist the Cable Advisory Committee.

Testimony in support of Mr. Rollman's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Rollman received his Bachelor of Fine Arts degree in Environmental Design from the University of Hawaii. He currently serves as a Senior Advisor for the Department of Information Technology of the City and County of Honolulu where he also serves on the Mayor's senior staff and media team and is a member of the Mayor's Energy and Sustainability Task Force. He is also the President of R Strategic Communications where he served as the primary Media Consultant and Creative Director for Mayor Hannemann's mayoral campaign, and has developed the marketing plan, website, and collateral for Sunset Beach Colony.

Mr. Rollman has been affiliated with several organizations, including the American Association of Political Consultants, the American Institute of Graphic Arts, the American Marketing Association, and the Public Relations Society of America, to name a few.

Mr. Rollman understands the primary mission of the Committee, which is to advise the Department of Commerce and Consumer Affairs and its Cable Television Division from the perspective of and for the benefit of the public. He believes in the Public, Education, and Government (PEG) concept, and that the allocation of resources should be equitable and balanced amongst public access, education, and government interests. Mr. Rollman's demonstrated commitment, motivation, communications background, education, and professional experiences will greatly assist the Cable Advisory Committee.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3665 Commerce, Consumer Protection and Affordable Housing on Gov. Msg. No. 603

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 603 LANCE M. MARUGAME, for a term to expire 6-30-2012

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Lance M. Marugame to have the necessary qualifications to be nominated to the State Board of Barbering and Cosmetology.

Testimony in support of Mr. Marugame's nomination was submitted by the Department of Commerce and Consumer Affairs.

Mr. Marugame is a graduate of Kauai High School and a graduate of Hawaii Institute of Hair Design. He opened his own shop, Lancers, in 1975, which he currently still owns and operates.

As a previous member of the Board, Mr. Marugame understands the mission and priorities of the Board, which is to protect the consumer and ensure that students are properly trained. He believes in and abides to a high standard of ethics, especially within the barber and cosmetology industries. His breadth and depth of experience and knowledge in a variety of different areas within the profession, gained over the span of his professional career, have been advantageous to the Board, especially in working to update the Board's Administrative Rules for the barbering profession. Mr. Marugame's demonstrated commitment, motivation, education, and professional experiences will greatly assist the State Board of Barbering and Cosmetology.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Affordable Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Taniguchi).

SCRep. 3666 Health on Gov. Msg. Nos. 369, 370, 479, 519, 520 and 521

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF HEALTH

G.M. No. 369 JASON E. MADDOCK, PHD, for a term to expire 6-30-2012;

G.M. No. 370 JEFFREY J. SOL, MD, for a term to expire 6-30-2012;

G.M. No. 479 ANN M. KWOCK, for a term to expire 6-30-2012;

G.M. No. 519 KEVIN D. CASSEL, for a term to expire 6-30-2010;

G.M. No. 520 CLARYSSE KAMI NUNOKAWA, for a term to expire 6-30-2012; and

G.M. No. 521 DRAKE W. WILL, MD, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to public health. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Board of Health to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Dr. Jeffrey Sol from Windward United Church of Christ, and three individuals. Additional testimony was also received supporting the nomination of Ann Kwock from one individual. Your Committee received additional testimony supporting the nomination of Kevin Cassel from the Hawaii Medical Service Association, the University of Hawaii Cancer Research Center, Papa Ola Lokahi, and two individuals. Additional testimony supporting the nomination of

Clarysse Nunokawa was submitted by the Office of the Prosecuting Attorney, and three individuals. The Queen's Medical Center and one individual submitted additional testimony supporting the nomination of Dr. Drake Will.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3667 Health on Gov. Msg. Nos. 375, 480 and 524

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, HONOLULU SUBAREA

G.M. No. 375 JOAN C. DOBBS, PHD, CNS, for a term to expire 6-30-2012;

G.M. No. 480 LLOYD LIM, for a term to expire 6-30-2012; and

G.M. No. 524 JONAGUSTINE LIM, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to health planning. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Health Planning Council, Honolulu Subarea to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Dr. Joan Dobbs from seven individuals. Your Committee received additional testimony supporting the nomination of Lloyd Lim from Noguchi and Associates, Inc.; Zephyr Insurance Company, Inc.; and four individuals. Additional testimony supporting the nomination of Jonagustine Lim was submitted from three individuals.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3668 Health on Gov. Msg. Nos. 376, 377, 525 and 526

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, KAUA'I SUBAREA

G.M. No. 376 ALAN R. KIMURA, for a term to expire 6-30-2012;

G.M. No. 377 ZACHARY J. OCTAVIO, for a term to expire 6-30-2012;

G.M. No. 525 BETTY J. MOORE, for a term to expire 6-30-2012; and

G.M. No. 526 KEN M. SHIMONISHI, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to health planning for Kaua'i County. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Health Planning Council, Kaua'i Subarea to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nominations of Alan Kimura and Zachary Octavio from three individuals. Your Committee received additional testimony supporting the nomination of Ken Shimonishi from the Office of the County Clerk, Princeville at Hanalei, and one individual.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3669 Health on Gov. Msg. Nos. 481 and 482

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, TRI-ISLE SUBAREA

G.M. No. 481 KATHLEEN K. SUZUKI, for a term to expire 6-30-2012; and

G.M. No. 482 WILLIAM L. THOMAS JR. MD, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to health planning. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Health Planning Council, Tri-isle Subarea to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3670 Health on Gov. Msg. No. 593

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, WEST OAHU SUBAREA

G.M. No. 593 LESLIE K. TANOUE, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominee, your Committee finds that Leslie K. Tanoue will work with compassion and commitment to assist in administering the government functions related to health planning for West Oahu. Your Committee further finds that the nominee has been appointed based upon her credentials, integrity, and a desire to make Hawaii better through her participation on the Health Planning Council, West Oahu Subarea to which she has been nominated.

Your Committee received testimony supporting the nomination of Leslie K. Tanoue from the Department of Health; Kuakini Health System; Alu Like, Inc.; and three individuals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3671 Health on Gov. Msg. No. 594

Recommending that the Senate advise and consent to the nomination of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, HAWAI'I SERVICE AREA BOARD

G.M. No. 594 INEZ SCHULTZ, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominee, your Committee finds that Inez Schultz will work with compassion and commitment to assist in administering the government functions related to mental health and substance abuse services in Hawaii county. Your Committee further finds that the nominee has been appointed based upon her credentials, integrity, and a desire to make Hawaii better through her participation on the Mental Health and Substance Abuse, Hawai'i Service Area Board to which she has been nominated.

Your Committee received testimony supporting the nomination of Inez Schultz from the Department of Health, Waikoloa Elementary School, and two individuals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3672 Health on Gov. Msg. No. 595

Recommending that the Senate advise and consent to the nomination of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, OAHU SERVICE AREA BOARD

G.M. No. 595 CHARLES E. DIONNE III, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominee, your Committee finds that Charles E. Dionne III will work with compassion and commitment to assist in administering the government functions related to mental health and substance abuse services in Oahu. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Mental Health and Substance Abuse, Oahu Service Area Board to which he has been nominated.

Your Committee received testimony supporting the nomination of Charles E. Dionne III from the Department of Health.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3673 Health on Gov. Msg. No. 613

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, HAWAI'I COUNTY SUBAREA

G.M. No. 613 CHRISTOPHER P. SCHLUETER, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominee, your Committee finds that Christopher P. Schlueter will work with compassion and commitment to assist in administering the government functions related to health planning for Hawaii county. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Health Planning Council, Hawaii County Subarea to which he has been nominated.

Your Committee received testimony supporting the nomination of Christopher P. Schlueter from the Department of Health and two individuals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 3674 Health on Gov. Msg. Nos. 373 and 374

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, HAWAI'I COUNTY SUBAREA

G.M. No. 373 WAYNE SACHIO HIGAKI, for a term to expire 6-30-2012; and

G.M. No. 374 GAIL M. WALKER, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to health planning for Hawaii County. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Health Planning Council, Hawai'i County Subarea to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Gail Walker from Kaiser Permanente, the International Longshore and Warehouse Union, and two individuals.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3675 Health on H.C.R. No. 239

The purpose of this measure is to study the financial and economic impact of chronic kidney disease in Hawaii.

Specifically, this measure requests the Legislative Reference Bureau and the Department of Business, Economic Development, and Tourism to conduct studies on the potential financial and economic impact of all five stages of chronic kidney disease to the State and the State's healthcare system. In addition, the John A. Burns School of Medicine at the University of Hawaii, the Hawaii chapter of the National Kidney Foundation, and St. Francis Healthcare System of Hawaii are requested to assist with this study.

Your Committee received comments on this measure from the Department of Business, Economic Development and Tourism, and the Legislative Reference Bureau.

Your Committee finds that ten percent of Hawaii's population has some form of chronic kidney disease and two percent of these patients have end stage renal disease which require dialysis or kidney transplantation. The percentage of Hawaii's population with end stage renal disease is higher than the rest of the country and the number of these patients is also increasing at a higher rate than the rest of the country.

Your Committee further finds that the current costs for caring for end stage renal disease patients in Hawaii is \$125,000,000 and that cost is projected to reach \$144,000,000 by 2011.

Your Committee believes that this study will help to assess the financial and economic impact of chronic kidney disease to the State's economy and State's healthcare system and provide solutions toward preventing and treating this disease in Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 239, H.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3676 Health on H.C.R. No. 240

The purpose of this measure is to urge the Governor to designate the month of September as "Brain Aneurysm Awareness Month".

Your Committee received testimony in support of this measure from the Hawaii Brain Aneurysm Foundation.

Your Committee finds that in the United States between two and five per cent of the population, or approximately fifteen million people, have or will have a brain aneurysm. However, less than thirty thousand of these brain aneurysms will rupture resulting in death or debilitating damage to the individuals.

Your Committee also finds that certain factors contribute to the formation of brain aneurysms including smoking, alcohol use, family history, and other inherited disorders.

Your Committee recognizes that the scanning technology such as magnetic resonance imaging (“MRI”) or computed tomography (“CAT SCAN”) can detect brain aneurysms, and if detected before the brain aneurysm ruptures, the patient can often be treated successfully with microsurgery.

Your Committee therefore finds that awareness programs, education, and early detection procedures are important tools in the treatment and prevention of brain aneurysm ruptures. These tools not only save lives but can minimize the debilitating effects this condition can have on the individuals and their families.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 240, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3677 Health on H.C.R. No. 51

The purpose of this measure is to request the Department of Health to assess whether to require cervical cancer vaccinations for young women before they enter the seventh grade.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that, in 2007, over eleven thousand women in the United States contracted cervical cancer and approximately four thousand women died from this disease.

Your Committee further finds that to be most effective, the Federal Drug Administration approved human papillomavirus (“HPV”) vaccine should be given before a person becomes sexually active and the federal Advisory Committee on Immunization Practices recommends that the HPV vaccine be given routinely to females ages eleven to twelve and as early as nine years old, and that women ages thirteen to twenty six should be vaccinated.

Your Committee recognizes the studies that show the HPV vaccine to be one hundred per cent effective at preventing disease from high-risk types of HPV that account for ninety per cent of genital warts and seventy per cent of all cervical cancers. Given the supporting scientific data it would be in the best interest of young females to have the Department of Health determine whether the HPV vaccine should be required for all young women before they enter the seventh grade.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 51, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3678 (Joint) Health and Education on H.C.R. No. 277

The purpose of this measure is to request the Hawaii State Center for Nursing to work together with the relevant parties to increase the supply of nursing professionals in Hawaii.

Your Committees received testimony in support of this measure from the University of Hawaii System, Hawaii Government Employees Association, The Queen’s Medical Center, Hawaii State Center for Nursing, Hawaii Pacific University, University of Hawaii Manoa School of Nursing and Dental Hygiene, Hawaii Statewide Nursing Consortium, and thirty five registered nurses from Kona, Hilo, Kauai, and Oahu, and Leahi Hospital.

Your Committees find that from the years 2006-2020, the demand for registered nurses in Hawaii is expected to grow by twenty-eight per cent, while the supply of registered nurses is expected to grow by only nine per cent, resulting in a relative shortfall of nineteen per cent.

Your Committees further find that the main factor in the widening gap between the supply and demand of Hawaii’s registered nurses over the next fifteen years will be the retirement of nurses over fifty years of age.

Your Committees therefore recognize the importance of bringing the relevant parties and stakeholders together to address the future critical shortage of Hawaii’s nursing professionals.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 277, H.D. 2, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 5 (Hee, Menor, Nishihara, Taniguchi, Whalen).

SCRep. 3679 (Joint) Health and Human Services and Public Housing on H.C.R. No. 20

The purpose of this measure is to urge the Departments of Health and Human Services to provide adult residential care home (“ARCH”) operators with services to assist them in providing care for adults.

Your Committees received testimony in support of the intent of this measure from the Department of Health. Testimony in opposition to this measure was received by the Department of Human Services.

Your Committees find that ARCH operators provide an invaluable service to the State and the community by caring for elderly and disabled persons that may otherwise become wards of the State.

Your Committees also find that ARCH operators are facing many challenges including the high cost of liability insurance and other rising costs related to operating the ARCH. In addition many assisted living facilities are not within the financial reach of Hawaii’s families.

Your Committees recognize the many economic benefits and services these ARCH operators provide to our State and our aging and disabled populations. It makes sense to encourage the Departments of Health and Human Services to work together with ARCH operators to provide the services they need for the successful and continued ARCH operation in the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 20, H.D. 1, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Hemmings, Whalen).

SCRep. 3680 (Joint) Health and Commerce, Consumer Protection and Affordable Housing on H.C.R. No. 164

The purpose of this measure is to request the Auditor to conduct a study on the impact of Act 226, Session Laws of Hawaii 2007 (Act 226), on nurse aides who are employed in state-certified or state-licensed health care settings to provide a basis for the Legislature to decide whether to amend Act 226.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Healthcare Association of Hawaii and the Hawaii Long Term Care Association.

Your Committees find that Act 226 was enacted to provide for the certification and recertification of nurse aides who work in nursing facilities participating in Medicare and Medicaid programs and in other state-licensed and state-certified health care settings. Your Committees also find that Act 226 does not address the costs associated with the certification, recertification, and competency evaluation of the nurse aides in the State. This measure will provide the Legislature with needed information on the impact of Act 226 on nurses aides, as well as information on funding sources that may be used to cover the costs of services required by Act 226, including the costs of recertification and competency evaluation.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Affordable Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 164, and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Ayes, 8. Noes, none. Excused, 3 (Menor, Taniguchi, Whalen).

SCRep. 3681 (Joint) Health and Human Services and Public Housing on H.C.R. No. 25

The purpose of this measure is to encourage all hospitals that provide medical care to newborns to provide parents of the newborns with written educational information concerning the dangerous effects of Shaken Baby Syndrome and the methods of preventing Shaken Baby Syndrome.

Your Committees received testimony in support of this measure from Kaiser Permanente. Testimony that this measure was not necessary was received from the Department of Health.

Your Committees find that one in four victims of Shaken Baby Syndrome ("SBS") die as a result of their injuries and more than fifty percent of the infants and young children who survive SBS suffer from residual disabilities, including brain damage, mental retardation, paralysis, hearing loss, blindness and seizures.

Your Committees further find that SBS generally occurs when the caregiver loses control of him or herself while caring for an inconsolable crying baby. However, evidence suggests that SBS is preventable when parents of the newborns are educated and are in control of the symptoms that may cause them to respond to their young children in a violent manner.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 25, and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Ayes, 6. Noes, none. Excused, 4 (Hooser, Menor, Hemmings, Whalen).

SCRep. 3682 Ways and Means on H.B. No. 2168

The purpose of this measure is to encourage efforts to reduce Hawaii's dependence on conventional petroleum fuel for its energy needs.

This measure accomplishes this goal by authorizing the issuance of special purpose revenue bonds and refunding of special purpose revenue bonds in a total amount not to exceed \$50,000,000 to H2 Technologies Incorporated for the planning, design, and construction of a hydrogen generator production facility on the island of Hawaii to supply a clean source of electricity and transportation fuel.

Your Committee received testimony in support of this measure from the High Technology Development Corporation, Natural Energy Laboratory of Hawaii Authority, Kona-Kohala Chamber of Commerce, Kona Brewing Company, H2 Technologies, Aurora Research LLC, Lotus Cafe, Sacred Fire Candle Company, and six individuals.

Your Committee finds that this measure will help reduce Hawaii's dependence on imported fossil fuels, meet the renewable energy goals of the State, the county of Hawaii, and the federal government, reduce greenhouse gas emissions, provide significant reductions of hydrocarbon, sulfur, toxic compounds, and particulate matter emissions, encourage local high technology hydrogen energy research and development, provide competitively priced transportation and generation fuel, and reduce the cost of doing business in Hawaii. In addition, the hydrogen generated by this project will also be used with fuel cell technology for electrical generation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2168, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 3 (English, Menor, Hemmings).

SCRep. 3683 (Joint) Energy and Environment and Economic Development and Taxation on S.R. No. 78

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism (DBEDT) to:

- (1) Create a voluntary compliance program to encourage communities and businesses to convert to alternative products, other than expanded polystyrene foam products and to submit a report containing the contents, actions, and results of the voluntary compliance program to the Legislature; and
- (2) Create a list of alternative products to replace polystyrene foam products, which list shall be made available to the public.

Testimony was not submitted in regard to this measure.

Your Committees have amended this measure by requesting DBEDT to:

- (1) Calculate and provide the cost difference between polystyrene foam products and the products on the list of alternative products;
- (2) Make the foregoing cost difference information available to the public; and
- (3) Conduct a comparison study of the recyclability, compostability, and biodegradability of the expanded polystyrene foam alternative products, along with the availability of disposal methods for each product, and submit the results of the study to the Legislature.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Taxation that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 78, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 78, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ayes, 7. Noes, none. Excused, 4 (Baker, English, Kokubun, Trimble).

SCRep. 3684 Health on H.C.R. No. 33

The purpose of this measure is to raise awareness about the symptoms of ovarian cancer by acknowledging the month of September as National Ovarian Cancer Month and Gynecological Cancer Awareness Month. This measure also urges health care providers to develop and implement educational strategies for the early detection and cure of ovarian cancer.

Your Committee received testimony in support of this measure from the American Cancer Society.

Your Committee finds that the American Cancer Society estimates that there will be approximately twenty-two thousand new cases of ovarian cancer in 2007 in the United States and an estimated fifteen thousand deaths from this disease.

Your Committee further finds that a joint statement released in June 2007 by the American Cancer Society, the Gynecologic Cancer Foundation, and the Society of Gynecologic Oncologists, states that recent medical studies show identifiable symptoms exist for ovarian cancer including pelvic or abdominal pain, bloating, difficulty eating or feeling full quickly, or urinary symptoms.

Your Committee recognizes the importance of educating and informing women of the symptoms of ovarian cancer. Studies have shown that early detection increases a woman's chance of being cured of ovarian cancer.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 33, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 3685 Judiciary and Labor on H.C.R. No. 230

The purpose of this measure is to:

- (1) Recognize the week of September 1 – September 7 as “Hawaii Labor History Week” in conjunction with the annual Labor Day holiday and activities;
- (2) Encourage Hawaii's workforce to develop ways to celebrate and honor the work of labor groups and the progress they have brought about for the working people; and
- (3) Encourage teachers across the State to provide labor education learning experiences for students appropriate to their grade level and consistent with state educational history and social science content standards.

Your Committee recognizes the importance of educating Hawaii students about the history and accomplishments of working people and the labor movement in Hawaii. Knowledge and understanding of the history of labor in Hawaii are important for young people who will soon enter the workforce so they are provided the tools to make informed decisions about their lives and futures and work.

Your Committee notes the testimony of the Department of Education that the Department will work with labor groups to plan and distribute a memorandum to all schools encouraging teachers to recognize the history of labor in Hawaii and suggest ways this might be accomplished. In addition, the Department will provide a list of resources that teachers may use in the classroom. The Department recognizes the important role labor has played in the State's history and will support and encourage teachers to provide educational learning experiences consistent with the Hawaii Content Performance Standards III.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 230, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 3686 Judiciary and Labor on H.C.R. No. 231

The purpose of this measure is to request the Legislative Reference Bureau to study the costs of convening a Constitutional Convention and provide an estimate of the projected total cost, as well as to consider other specified logistics in the study.

Pursuant to article XVII, section 2, of the Constitution of the State of Hawaii, at least once every ten years, the electorate at any general or special election must vote to determine whether to convene a constitutional convention to propose a revision of or amendments to the State Constitution. The electorate will vote at the November 4, 2008, general election on whether to convene a constitutional convention to propose a revision of or amendments to the State Constitution.

Article XVII, section 2 also requires the Legislature to provide for the necessary facilities and equipment for the Constitutional Convention. The Legislature is also responsible for providing for the payment of staff. This measure enables the Legislature to ascertain an appropriation amount.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 231, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 3687 Health on Gov. Msg. Nos. 371, 372, 522 and 523

Recommending that the Senate advise and consent to the nominations of the following:

STATEWIDE HEALTH COORDINATING COUNCIL

G.M. No. 371 TERRI FUJII, for a term to expire 6-30-2012;

G.M. No. 372 KEITH ALAN LEE, for a term to expire 6-30-2012;

G.M. No. 522 S. PETER KIM, MD, PHD, MBA, for a term to expire 6-30-2012; and

G.M. No. 523 KEN M. SHIMONISHI, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to health planning for the State. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Statewide Health Coordinating Council to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Terri Fujii from the Healthcare Association of Hawaii. Your Committee also received additional testimony supporting the nomination of Dr. Peter Kim from Ann Kobayashi, Councilmember, District V, KBF-D-TV, The Korea Times Hawaii, and one individual.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3688 Health on Gov. Msg. No. 379

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, WEST OAHU SUBAREA

G.M. No. 379 DAVID J.W. CHANG, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominee, your Committee finds that David J.W. Chang will work with compassion and commitment to assist in administering the government functions related to health planning for West Oahu. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Health Planning Council, West Oahu Subarea to which he has been nominated.

Your Committee received testimony supporting the nomination of David J.W. Chang from the Department of Health and Hawaii Medical Service Association.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3689 Health on Gov. Msg. No. 451

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII HEALTH SYSTEMS CORPORATION WEST HAWAII REGIONAL BOARD

G.M. No. 451 DANIEL E. RICK, RPT, for a term to expire 6-30-2009

Upon review of the statements submitted by the nominee, your Committee finds that Daniel E. Rick will work with compassion and commitment to assist in administering the government functions related to health planning for West Hawaii. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Hawaii Health Systems Corporation West Hawaii Regional Board to which he has been nominated.

Your Committee received testimony supporting the nomination of Daniel E. Rick from Hawaii Health Systems Corporation, Kona Community Hospital, and two individuals.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3690 Health on Gov. Msg. No. 380

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, WINDWARD OAHU SUBAREA

G.M. No. 380 CHRISTOPHER P. SIBLEY, for a term to expire 6-30-2012

Upon review of the statements submitted by the nominee, your Committee finds that Christopher P. Sibley will work with compassion and commitment to assist in administering the government functions related to health planning for Windward Oahu. Your Committee further finds that the nominee has been appointed based upon his credentials, integrity, and a desire to make Hawaii better through his participation on the Health Planning Council, Windward Oahu Subarea to which he has been nominated.

Your Committee received testimony supporting the nomination of Christopher P. Sibley from the Department of Health and Hawaii Medical Service Association.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3691 Health on Gov. Msg. Nos. 396, 397 and 450

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII HEALTH SYSTEMS CORPORATION EAST HAWAII REGIONAL BOARD

G.M. No. 396 SUSAN B. HUNT, for a term to expire 6-30-2010;

G.M. No. 397 CAROL ANN VANCAMP, for a term to expire 6-30-2010; and

G.M. No. 450 GENEVIEVE A. KINNEY, PHD, for a term to expire 6-30-2009

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the government functions related to health care for East Hawaii. Your Committee further finds that the nominees have been appointed based upon their credentials, integrity, and a desire to make Hawaii better through their participation on the Hawaii Health Systems Corporation East Hawaii Regional Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Hawaii Health Systems Corporation and Hilo Medical Center. Additional testimony was submitted supporting the nomination of Carol VanCamp from the Economic Development Alliance of Hawaii, Nakamoto Okamoto and Yamamoto, and two individuals. Your Committee received additional testimony supporting the nomination of Dr. Genevieve Kinney from the University of Hawaii at Hilo.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Menor).

SCRep. 3692 Judiciary and Labor on Gov. Msg. No. 402

Recommending that the Senate advise and consent to the nomination of the following:

CIVIL RIGHTS COMMISSION

G.M. No. 402 LESLIE ALAN UEOKA, for a term to expire 6-30-2012

Your Committee received testimony in support of Leslie Alan Ueoka from the Department of Labor and Industrial Relations, Hawaii Civil Rights Commission, Hawaiian Telcom, American Stroke Association, American Heart Association, Gregory House Programs, 442nd RCT Foundation, and three individuals. Testimony in opposition was received from four individuals.

Mr. Ueoka is being reappointed to a second term. He is a graduate of Iolani School, who received a Bachelor's degree from Northwestern University and a Juris Doctor degree from Washington University. He is currently employed by Hawaiian Telcom, Inc. as Assistant General Counsel, a position which he has held since 2005. He started as Corporate Counsel in 1992.

Your Committee notes the written statement of Mr. Ueoka that:

The issues that we face can be contentious and are often very difficult, with no clear-cut "right" or "wrong" answers. Accordingly, I approach each issue that we address on the HCRC impartially and listen carefully to all sides. In all matters, including deliberations, I try to work in a collaborative style with my fellow commissioners and with staff and believe that I have a good working relationship with each. Only when we have thoroughly examined and fully discussed an issue do I reach a conclusion. Recognizing that the issues that we face can have multiple resolutions, I respect the opinions of those who may disagree with me on any particular issue.

Your Committee notes the concerns of those opposed to this nomination, mainly that the nominee works for a large employer and as such, his orientation may lean towards employers in deciding employment cases and making rules. Your Committee emphasizes its expectation that the nominee be fair and objective, and give equitable treatment and fair consideration to the rights of employees, as a member of the Civil Rights Commission. Your Committee feels that the nominee needs to separate his work for a large employer as an advocate in employment law issues, from his work on the Civil Rights Commission which protects employees as well.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 2 (Hee, Kokubun).

SCRep. 3693 (Majority) Judiciary and Labor on Gov. Msg. No. 614

Recommending that the Senate advise and consent to the nomination of the following:

CIVIL RIGHTS COMMISSION

G.M. No. 614 FRANK ALBERT LAVOIE, for a term to expire 6-30-2011

Your Committee received testimony in support of Frank Albert Lavoie from the Department of Labor and Industrial Relations and seven individuals. Testimony in opposition was received from the Hawai'i Women's Political Caucus and six individuals.

The nominee is a self-employed owner of Kafe Europa in Honolulu. He is currently serving as a legislative analyst in the Hawaii State Senate in 2008. Previously, he was employed by the Department of Taxation and Department of Labor and Industrial Relations. He was with the United States Peace Corps as an English Teacher, serving in Armenia from 1995-1997. Mr. Lavoie is currently the Vice-Chairman of the Downtown/Chinatown Neighborhood Board.

The nominee received a Bachelor's degree in Political Science, magna cum laude, from Gettysburg College. While in Armenia, he helped with democratization.

Your Committee is concerned that the nominee does not meet the statutory qualifications of section 368-2, Hawaii Revised Statutes, for appointment to the Commission. Section 368-2 requires that:

The members appointed to the commission shall be selected on the basis of their knowledge and experience in civil rights matters and on the basis of a demonstrated commitment to the preservation of the civil rights of all individuals.

The nominee has no demonstrable knowledge and no actual experience in civil rights matters. Nothing in his background indicates any involvement in civil rights. The nominee's service in the United States Peace Corps in Armenia bodes well for the nominee's interest in human rights. However, the matter before the Committee concerns civil rights, and to this end the work of the Civil Rights Commission involves administrative adjudication of cases as well as rule-making that further the protection of civil rights. However, your Committee wants the entire Senate to review Mr. Lavoie's qualifications and is recommending that this nominee be considered on the floor.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Ayes with Reservations, 2 (Gabbard, Nishihara). Noes, 1 (Taniguchi). Excused, 2 (Hee, Kokubun).

SCRep. 3694 Judiciary and Labor on Gov. Msg. No. 615

Recommending that the Senate advise and consent to the nomination of the following:

CIVIL RIGHTS COMMISSION

G.M. No. 615 JONATHAN LUIS ORTIZ, for a term to expire 6-30-2012

Your Committee received testimony in opposition to Jonathan Luis Ortiz from the Hawai'i Women's Political Caucus and five individuals.

Jonathan Luis Ortiz received a B.A. degree in political science from the University of Hawaii, and a J.D. degree from the George Washington University Law School. He is a graduate of Castle High School. Mr. Ortiz served as a Deputy Public Defender from 1978 to 1980 and has been in private practice since then, most recently as a partner in Ortiz Katano, A Law Corporation. He is past President of the United Puerto Rican Association. While in law school, Mr. Ortiz was a clerk with the Equal Employment Opportunity Commission.

Your Committee notes the written statement of Mr. Ortiz that the Civil Rights Commission has the basic and simple mission of assuring that all of the citizens of Hawaii, regardless of race, gender, or sexual orientation, are treated fairly. The Commission gives a voice to those who have been discriminated against, and also provides a forum for developing a clear understanding of the issues by all members of the community. He comes to this position with no preconceived bias, or preconceived notion of how a dispute should be resolved. He firmly believes that cases should be decided on their own merit in light of the statutory purpose, the existing precedent, and the facts of the case.

Your Committee notes further that Mr. Ortiz served as a Deputy Public Defender, which is a position oriented to defending the rights of the accused. This indicates an appreciation and awareness of analogous civil rights. Moreover, the nominee clerked with the Equal Employment Opportunities Commission, which has a similarity in function with the Civil Rights Commission and testified that he has a demonstrated commitment to equal opportunity.

However, notwithstanding the foregoing, your Committee has concerns whether Mr. Ortiz meets the statutory requirements under section 368-2, Hawaii Revised Statutes, in particular the lack of professional experience and substantive knowledge in civil rights and employment issues. Accordingly, your Committee has reservations but will pass the nomination onto a full Senate vote to make the determination.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 5 (Gabbard, Kokubun, Nishihara, Taniguchi, Slom). Noes, none. Excused, 1 (Hee).

SCRep. 3695 Judiciary and Labor on Jud. Com. No. 1

Recommending that the Senate consent to the nomination of the following:

DISTRICT COURT OF THE THIRD CIRCUIT

Anthony K. Bartholomew

Your Committee received testimony in support of Anthony K. Bartholomew from the State Public Defender, Federal Public Defender, and eight individuals. The Hawaii State Bar Association submitted testimony rating the nominee as "qualified."

Anthony K. Bartholomew is with the Office of the Public Defender in Hilo, Hawaii. He is licensed to practice law in Hawaii, the United States District Court for the District of Hawaii, and the Ninth Circuit Court of Appeals. He received an A.B. degree from the University of California at Santa Cruz, an M.Ed. degree from the University of Utah, and a J.D. degree from the William S. Richardson School of Law.

The nominee served as a volunteer with the Volunteers in Service to America 1971 to 1973, and has experience as an Associate Attorney in the private practice of law with a law firm. He has been a Deputy Public Defender since 1997.

Your Committee notes the testimony of the State Public Defender to the effect that Mr. Bartholomew is a very skillful and efficient attorney and has always handled his cases with dignity and compassion. In particular, he has developed an expertise in the area of juvenile defense and has handled some of the most difficult family court cases over the years on the Big Island. He is a very caring individual who is truly a champion for the rights of the underprivileged. Other testimony emphasized the nominee's appropriate judicial temperament and unquestionable professional integrity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 3696 Education on Gov. Msg. Nos. 607, 657 and 658

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 607 ARTEMIO C. BAXA, for a term to expire 6-30-2013;

G.M. No. 657 HOWARD H. KARR, for a term to expire 6-30-2011; and

G.M. No. 658 DENNIS I. HIROTA PHD, PE, LPLS, for a term to expire 6-30-2012

Upon review of the background information provided, Artemio C. Baxa is a retired Judge of the Second Circuit Court who is being nominated for membership on the University of Hawaii Board of Regents for his first term as a representative of the County of Maui. Judge Baxa was born and raised in the Philippines where he earned a law degree from the Ateneo de Manila University School of Law. Upon immigrating to Hawaii, he gained experience working in the business community, while also continuing to pursue his education in the field of urban and regional planning. Judge Baxa served as the Planner and then Community Improvement and Development Coordinator for Maui Economic Opportunity before earning his law degree from the William S. Richardson School of Law at the University of Hawaii at Manoa. Subsequently, he also served as the Deputy Director of the Department of Human Concerns of the County of Maui, as a deputy prosecutor, and as an attorney in private practice before being appointed as a Circuit Court Judge. Judge Baxa has been involved in numerous community organizations and activities, has been recognized for his outstanding professional and community achievements, and has received recognition for his role as a pioneer within the local Filipino community.

Testimony was submitted in support of Judge Baxa by three individuals.

Upon review of the background information provided, your Committee finds that Howard H. Karr is a retired Bank Executive who is being nominated for membership on the University of Hawaii Board of Regents for his first term as a representative of the City and County of Honolulu. Mr. Karr holds a Bachelor's degree from the University of Hawaii, is a certified public accountant, and has served in numerous positions as the vice president, vice chairman, treasurer, director, and chief financial officer for various banks and financial institutions. He was also a member of the United States Army Reserve with the 100th Battalion 442nd Infantry. Mr. Karr has been involved in and recognized for his outstanding service and achievements by numerous professional and community organizations and activities.

Testimony in support of Mr. Karr was submitted by a United States Senator; Kobayashi, Sugita & Goda, Attorneys at Law; the Hawaii Bankers Association; and twenty-two individuals.

Upon review of the background information provided, your Committee finds that Dennis Hirota holds a Bachelor's degree in civil engineering, Master's degree in sanitary engineering, and doctorate in civil engineering from the University of Michigan. Mr. Hirota is a civil engineer and land surveyor and is being nominated for membership on the University of Hawaii Board of Regents for his first term as a representative of the City and County of Honolulu. He has served in numerous executive positions for various businesses, as well as service as a lecturer, adjunct professor, and a Captain in the United States Air Force. Mr. Hirota has also been involved in numerous professional and community organizations and activities.

Testimony in support of Mr. Hirota was submitted by Bays Deaver Lung Rose & Holma, Attorneys at Law, and six individuals.

Your Committee questioned the nominees regarding their backgrounds, potential contributions to the Board, and ideas and vision for improving the University of Hawaii System. The nominees expressed a strong commitment to several aspects of relating to the Board's purview, including growing and expanding the community college system to ensure adequate programs, services, and funding throughout all campuses, particularly on the neighbor islands; ensuring the development of qualified teachers and administrators for the public schools, as well as developing improved programs to grow the workforce in other labor shortage areas; and methods for addressing the funding needs of the University of Hawaii System. Your Committee believes that the nominees have displayed the necessary dedication and commitment to addressing the needs of the University of Hawaii System.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, 1 (Hee).

SCRep. 3697 (Majority) Education on Gov. Msg. No. 609

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 609 CATHERINE Y. LAGARETA, for a term to expire 6-30-2013

Upon review of the background information provided, your Committee finds that Catherine Y. Lagareta is the Chair and Chief Executive Officer of Communications Pacific who holds a Bachelor's degree in English literature from the University of Hawaii at Manoa. Ms. Lagareta is being nominated for her first term of service on the Board of Regents for the University of Hawaii as a representative of the community-at-large, although she is currently serving on the Board as a representative of the City and County of Honolulu. She has served in varying capacities for several companies in the private sector, including service as an executive director and a vice president. She has been an active member in the community, serving as an officer or member of numerous organizations and participating in various community activities in the community. She has also been recognized and honored for her professional and community service and commitment.

Testimony in support of the nominee was submitted by eighteen individuals. Testimony in opposition of the nominee was submitted by five individuals.

Your Committee received testimony from many parties, which included testimony criticizing the nominee and her prior service and decision making as a member of the Board of Regents. Your Committee questioned the nominee regarding her prior service on the Board, contributions to the Board, accountability for prior actions and positions of the Board, and any ideas or vision for improving the University of Hawaii System. The nominee adequately answered the questions of the Committee; however, your Committee continues to have reservations in light of the nominee's role and prior decisions and actions as a member of the Board of Regents, given questionable decisions, actions, and omissions in overseeing the University of Hawaii System.

Existing concerns with the nominee, based on the nominee's personal actions, as well as the nominee's role as a member of the Board of Regents, include but are not limited to the following:

- (1) The proper handling of the firing of former President Evan Dobbelle, publicly documented in the media—*Firing shakes UH*, 6/17/04 Star-Bulletin; *Dobbelle and Regents settle*, 7/30/04 Star-Bulletin; *The Dobbelle Debacle*, 7/25/04 Star-Bulletin; *Regents' minutes reveal concerns about Dobbelle*, 8/13/04 Honolulu Advertiser;
- (2) Audit- issues relating to the effective oversight of the Board of Regents that were reflected in University audits—*Audit Slams UH Budget*, 12/31/05 Star-Bulletin; *UH condemns audit findings: Report cites contract problems, overruns, lack of accountability*, 12/28/07 Honolulu Advertiser;
- (3) Open records violations- criticisms regarding a lack of openness with records and other information—*UH Regents cited for secrecy*, 3/26/06 Star-Bulletin; *UH Regents conceal budget papers*, 8/25/07 Star-Bulletin; *Regents violated open-records law by concealing documents*, 8/29/07 Star-Bulletin;
- (4) Facilities- issues with the University of Hawaii facilities, including the repair and maintenance backlog—*UH Regents want to trim repair backlog*, 9/29/07 Honolulu Advertiser; *Fire highlights need for fixes at UH*, 10/23/07 Star-Bulletin; *UH official says neglect is leaving library all wet*, 11/8/07 Star-Bulletin; *Faculty, students to vacate UH Edmondson Hall for safety precautions*, 12/10/07 Honolulu Advertiser; *Neglect of UH campus appalls senators*, 1/11/08 Star-Bulletin; *UH repairs need both private, public funds*, 1/17/08 Honolulu Advertiser; *UH sites crumble as funds fall short*, 4/27/08 Star-Bulletin;

Includes the national attention created by Colt Brennan—*Brennan criticizes conditions at Hawaii athletic facilities*, 5/4/07 AP article on ESPN.com; *Brennan fires away at UH facilities*, 5/4/07 Honolulu Advertiser; *Facilities fight continues with Brennan in the ranks*, 5/15/07 Star-Bulletin;

Led to the resignation of June Jones—*Jones heads for Dallas, likely for good*, 1/6/08 Star-Bulletin; *Jones close to leaving Hawaii before*, 1/6/08 Star-Bulletin; *Poor facilities a reason June Jones left Hawaii*, 1/8/08 Honolulu Advertiser;

- (5) Salaries- issues relating to questions regarding which salary negotiations are delegated and which remain under the oversight of the Board of Regents—*Warriors' Million Dollar Man*, 1/16/08 KHON2.com; *Lingle is at best No. 474 in salary*, 2/4/08 Star-Bulletin;
- (6) Constitutional Amendment/Candidate Advisory Council- when the nominee was questioned as to her advocacy against the proposed constitutional amendment, she stated that the Board of Regents was fully behind it. However, the Board of Regents minutes do not demonstrate that such a vote occurred. Subsequently, the nominee presented the minutes of the October 19-20, 2006 meetings, where the Board of Regents voted to submit proposed enabling legislation should the constitutional amendment pass. This did not support her previous statement. She then stated that there were other reasons for her advocacy. Inconsistencies such as this raise concerns; and
- (7) Shared governance/transparency - The nominee speaks of “shared governance” and says the Board of Regents has an ultimate responsibility to provide strong oversight of all that making sure everything is operating as it should. In a written response to a question regarding working with the Legislature, the nominee stated that “there is a lot of room for improving relationships between the leadership of the University and the Legislature.” However, as a board member, she subsequently led efforts of the Board of Regents to officially rebuke the Legislature as well as efforts to rebuke a particular senator.

Other concerns raised included issues relating to the process for conducting a search for a new president, which did not include a nationwide search; issues relating to the selection, oversight, retention or failure to retain, and release of certain personnel, including Athletic Director Herman Frazier and Head Football Coach June Jones; a lack of effort in utilizing private partnerships to ensure facilities and other programs did not unnecessarily or untimely deteriorate; issues relating to campus security; and problems with low graduation rates. These issues, as well as the personnel issues, audit concerns, open record and open meeting concerns, facility concerns, and apparent reduced transparency and oversight by the full Board of Regents, have led this Committee to recommend not to confirm the nominee.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be not qualified for the position to which nominated and recommends that the Senate not advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Ayes with Reservations, 4 (Gabbard, Hee, Nishihara, Taniguchi). Noes, 2 (Chun Oakland, Slom). Excused, 1 (Tokuda).
