

**SPECIAL COMMITTEE REPORTS****Spec. Com. Rep. No. 1**

Your Senate Committee on Human Services and Public Housing to which was referred S.R. No. 10, S.D. 1, entitled:

“SENATE RESOLUTION REQUESTING THE SENATE COMMITTEE ON HUMAN SERVICES AND PUBLIC HOUSING TO CONVENE A WORKING GROUP TO FURTHER STUDY RECOMMENDATIONS MADE BY THE SCR 52 TASK FORCE COMMITTEES,”

begs leave to report as follows:

**PART I. BACKGROUND**

During the Regular Session of 2006 of the Twenty-Third State Legislature, the Legislature adopted S.C.R. No. 52, S.D. 1, which requested the Senate and House of Representatives Committees on Human Services to continue addressing issues relating to the Hawaii Family Court, including the legal interventions available to the Family Court and to establish one or more task forces to facilitate their work, as recommended by an earlier task force established during a previous session. See S.R. No. 40, S.D. 2 (2004).

Pursuant to S.C.R. No. 52, S.D. 1 (2006), a task force was established (SCR 52 Task Force), which developed and submitted its findings and recommendations to the Legislature prior to the convening of the Regular Session of 2007 of the Twenty-Fourth State Legislature.

Subsequently, the Senate determined that unresolved issues and proposals required additional work and continuing attention.

Accordingly, the Senate adopted S.R. No. 10, S.D. 1, during the Regular Session of 2007 of the Twenty-Fourth State Legislature, requesting the Senate Committee on Human Services and Public Housing to convene a working group, to be known as the Family Court Legal Interventions Working Group, to further study the recommendations of the four committees convened pursuant to S.C.R. No. 52, S.D. 1, namely, the:

- (1) Best Interest of the Child Committee;
- (2) Family Court Models Committee;
- (3) Family Court Sunshine and Accountability Committee; and
- (4) Temporary Restraining Orders Committee.

Senate Resolution No. 10, S.D. 1 (2007), also requested the Family Court Legal Interventions Working Group to submit an interim report of its findings and recommendations to the Legislature, including any proposed legislation, prior to the convening of the Regular Session of 2008, and a final report prior to the convening of the Regular Session of 2009.

**PART II. FAMILY COURT LEGAL INTERVENTIONS WORKING****A. Year 1**

The Chair of the Senate Committee on Human Services and Public Housing, Senator Suzanne Chun Oakland, convened the Family Court Legal Interventions Working Group, comprised of representatives of the organizations recommended in S.R. 10, S.D. 1 (2007).

The Family Court Legal Interventions Working Group held public meetings on July 18, August 30, September 20, November 16, and December 14, 2007. The Working Group established committees to continue to address the four subject areas under S.C.R. No. 52, S.D. 1 (2006):

- (1) Best Interest of the Child;
- (2) Family Court Models;
- (3) Family Court Sunshine and Accountability; and
- (4) Temporary Restraining Orders.

The Working Group submitted its Interim Report and proposed legislation to the Legislature, as required by S.R. No. 10, S.D. 1, on January 2, 2008 (Special Committee Report No. 2). Subsequently, the proposed legislation was introduced as S.B. No. 2054, Relating to Family Court, and as S.B. No. 2055, Relating to Family Court. Both measures were passed by the 2008 Legislature and enacted into law.

S.B. No 2054, S.D. 2, H.D. 2, C.D. 1, (Act 114, Session Laws of Hawaii 2008), establishes criteria for the best interests of the child, to specify what factors the courts shall consider in making a custody or visitation determination concerning a minor child.

S.B. No 2055, S.D. 2, H.D. 2, C.D. 1, (Act 149, Session Laws of Hawaii 2008), requires the Judiciary to convene and obtain assistance from a child custody advisory task force to define the employment requirements, standards of practice, policies, procedures, and court-enforced oversight of investigators and professional personnel that assist with child custody evaluations.

**B. Year 2**

The Family Court Legal Interventions Working Group held public meetings on August 20, October 21, November 17, and December 15, 2008. The Working Group refocused the four committees from Year 1 under three categories:

- (1) Best Interest of the Child/Family Court Models;

- (2) Family Court Sunshine and Accountability; and
- (3) Temporary Restraining Orders.

At the November 17, 2008, meeting, a presentation was made to the Working Group on the Judiciary's Access to Justice Commission (Commission) by Jill Hasegawa, Vice Chair of the Commission.

In May 2008, the Hawai'i Supreme Court adopted Rule 21, which established an Access to Justice Commission. The purpose of the Commission is to increase access to justice in civil legal matters for low- and moderate-income residents, and implement the recommendations of the 2007 Access to Justice Hui report, *Achieving Access to Justice for Hawai'i's People*. The report, which was funded by the Hawaii Justice Foundation and the Hawaii State Bar Association, was prepared by the Access to Justice Hui, a group comprised of representatives from the Hawai'i Judiciary (Judiciary), the University of Hawai'i William S. Richardson School of Law, and several legal organizations, including the Hawaii State Bar Association, Legal Aid Society of Hawai'i, Hawaii Justice Foundation, and Volunteer Legal Services Hawai'i and several other nonprofits. According to the report, only one in five low- and moderate-income Hawai'i residents have their legal needs met and legal service providers are able to serve only one in three of those who contact them for assistance. In addition to the inability to afford an attorney, many also face language and cultural barriers, and have little knowledge of their legal rights and the legal services available.

Rule 21 specifically provides that the Commission endeavor to meet the needs of low- and moderate-income Hawai'i residents by, among other things:

- (1) Developing and publishing a strategic, integrated plan for statewide delivery of civil legal services;
- (2) Increasing and stabilizing long-term public and private funding and resources for delivery of civil legal services;
- (3) Increasing pro bono contributions by attorneys through such things as rule changes, recruitment campaigns, increased judicial involvement, and increased recognition for contributors; and
- (4) Reducing barriers to the civil justice system by developing resources to overcome language, cultural, and other barriers and by giving input on existing and proposed laws, court rules, regulations, procedures, and policies that may affect meaningful access to justice.

The twenty-two member Commission includes neighbor island members, lawyers, non-lawyers, and representatives from the various legal entities, as specified in Rule 21. The Commission has established three administrative committees and ten substantive committees to address the following subject matter areas:

- (1) Funding of civil services;
- (2) Increasing pro bono legal services;
- (3) Right to counsel when basic human needs are at stake;
- (4) Self-representation and unbundling of legal services;
- (5) Maximizing the use of legal services;
- (6) Overcoming barriers to access such as language and culture;
- (7) Initiatives to enhance civil legal services;
- (8) Education and communication/public awareness of legal rights and assistance;
- (9) Eliminating poverty; and
- (10) Law school liaison.

The Commission receives recommendations from the ten committees, which are the bodies that receive public input.

Additional information on the Commission is available through the following website: <http://www.hsba.org/accesstojustice.aspx>.

The Working Group learned that there is no public notice requirement for Commission meetings because the meetings fall under the Judiciary's exemption under the sunshine law. A ruling on this decision from the Office of Information Practices is pending. The Working Group also learned that the Commission does not have a Family Court Committee and has not posted a list of its members and committees.

The Access to Justice Commission is scheduled to release its first annual report in mid-2009.

At the December 15, 2008, meeting, a presentation was made to the Working Group by Robert Geffner, Ph.D., ABPP, ABPN, Founding President of the Family Violence and Sexual Assault Institute and Founding President of Alliant International University's Institute on Violence, Abuse and Trauma, both located in California. Dr. Geffner discussed California's approach to child custody evaluations, particularly in cases of allegations of child abuse, domestic violence, or substance abuse, and that state's efforts to ensure consistent and ongoing training requirements for child custody evaluators. He distributed information on child custody evaluation training and California Rules of Court related to child custody evaluations. See Exhibits A and B.

### PART III. WORKING GROUP FINDINGS

The following reflects the work and findings of each committee of the Working Group.

#### A. Best Interest of the Child/Family Court Models

The Best Interest of the Child/Family Court Models Committee held meetings on September 2, October 10, and October 28, 2008.

The Committee identified a number of items of interest and concern for further discussion and prioritization, including:

- (1) Monitoring the Family Court's custody evaluator standards and training;
- (2) Reviewing Volunteer Legal Services Hawai'i (VLSH) Parenting Plan Mediation Pilot Program;
- (3) Exploring more effective enforcement of parenting plans and other violations of Family Court orders;
- (4) Examining the shared parenting rebuttable presumption;
- (5) Reviewing grandparent visitation procedures;
- (6) Examining data on the impact of custody decisions on children's well-being outcomes; and
- (7) Reviewing Enchanted Lake Elementary School's program as a potential model for negotiation skill training.

Best Interest of the Child/Family Court Models Committee members attended meetings of the Child Custody Task Force established by the Judiciary pursuant to Act 149, Session Laws of Hawaii 2008, and will continue to monitor progress and implementation of certification standards. The Judiciary will submit a report to the Legislature prior to the 2009 Session, on the findings and any recommendations by the Task Force. A letter was transmitted from Senator Suzanne Chun Oakland to the Judiciary, regarding the Family Court rule on child custody evaluations and on the inclusion in the report of options and resource requirements as required under Act 149, SLH 2008.

The Best Interest of the Child/Family Court Models Committee has noted that while the Judiciary indicates it has limited resources, there are training programs available, including the Hawaii Association for Marriage and Family Therapy training, which is open to all professionals; and the Institute on Violence, Abuses and Trauma program on child evaluation. See: [www.childabusesolutions.com](http://www.childabusesolutions.com).

Family Court rules relating to child custody evaluation are available on the Judiciary's website. The rules are currently in comment period and are expected to be adopted in Spring 2009 in all circuits.

The University of Hawaii has developed a custody evaluator curriculum, and Dr. Laurette DeMandel-Schaller, a working group participant, has submitted recommendation for a custody evaluator curriculum. See Exhibit C.

The Best Interest of the Child/Family Court Models Committee is also reviewing Hawaii's grandparent visitation procedures and the California Rules of Court related to child custody evaluations. The Committee and the full Working Group voted to support the VLSH Parenting Plan Mediation Pilot Program request for grant-in-aid funding in the amount of \$85,000.

The Committee also examined more responsive enforcement when court orders are violated. Options discussed include: (1) meeting with the Board of Family Court Judges to clarify the concerns relating to the lack of enforcement for violations of court orders, and what information or evidence is needed to obtain speedier enforcement and sanctions for violations; (2) developing a list of problems and concerns with enforcement, particularly as they relate to children, to be shared with the Family Law Section of the Hawaii State Bar Association and the Judiciary; and (3) creating a checklist form to list all orders and status to facilitate review of the enforcement of orders.

#### **B. Family Court Sunshine and Accountability**

The Family Court Sunshine and Accountability Committee held meetings on September 4, September 22, and October 8, 2008.

The Committee identified the following issues for further discussion and prioritization:

- (1) Requiring that the Judiciary be subject to the sunshine law for administrative matters;
- (2) Determining what information should be available to the public, including issues of privacy, confidentiality, and sealing of court records;
- (3) Opening public access to custody hearings and trials;
- (4) Recommending that property division be codified in state law;
- (5) Defining abuse of process in Family Court cases and creating consequences for abuse, including a review of statutory procedure;
- (6) Requiring informed consent from all affected parties before off-the-record proceedings occur; and
- (7) Providing a defined option for binding arbitration to resolve Family Court cases at the time of filing for marriage, divorce, or custody.

The Family Court Sunshine and Accountability Committee reviewed draft legislation to amend section 92-6, Hawaii Revised Statutes, relating to applicability of the State's sunshine law to the non-adjudicatory functions of the Judiciary. After extensive discussion, the Working Group agreed that there is need for additional information on the possible impacts and successful application of the proposal. Senator Suzanne Chun Oakland will request further study of the issue, including recommendations for legislation, by the Legislative Reference Bureau.

The Family Court Sunshine and Accountability Committee also recommended a survey of other states to determine how states provide for citizen participation or how the public can provide feedback on court services; whether a state's sunshine law applies to its Judiciary, and, if so, a review of the applicable provisions; how states define "adjudicatory" functions of the court; whether the state legislature has the authority to legislate activities of the Judiciary, and, if so, the scope of the actions that can be legislated; and whether meetings of a state's judiciary commissions and committees are subjected to sunshine laws.

**C. Temporary Restraining Orders (TRO)**

The Temporary Restraining Orders Committee held meetings on September 4, September 22, and October 8, 2008.

The Committee identified the following issues for further discussion and prioritization:

- (1) Creating normal notice for the TRO process if an ex parte application is denied (chapter 586, Hawaii Revised Statutes);
- (2) Developing consequences for TROs issued based on false statements;
- (3) Evaluating the effectiveness of batterer intervention programs, including national data;
- (4) Following-up on a request for court data;
- (5) Reviewing TROs filed on behalf of children;
- (6) Assessing the applicability of Hawaii's Opportunity Probation with Enforcement (HOPE) program for TROs with domestic violence cases; and
- (7) Assessing the analysis of problems in relation to seeking solutions.

The Temporary Restraining Orders Committee discussed the issue of handling allegations when TROs are denied, examining chapters 580 and 586, Hawaii Revised Statutes, and agreed not to pursue legislation at this time.

Committee members met with the Honorable Steven Alm, First Circuit Judge, to discuss Project Hope and whether this program can be expanded to include TRO violators. As the program is judge-driven, Judge Alm indicated that it has the capacity to expand to cover TRO violations, and he will be submitting a budget for program expansion for this purpose. A national evaluation has been conducted, and an annual report of the program will be forthcoming.

The Committee is exploring an informational brochure on the TRO process that can be made available to both parties.

**PART IV. WORKING GROUP RECOMMENDATIONS**

The Working Group considered the work of each of its three committees and prepared proposed legislation, attached, for introduction during the Regular Session of 2009. Accordingly, the Working Group recommends the following:

- (1) Working Group support for the Volunteer Legal Services Hawai'i (VLSH) Parenting Plan Mediation Pilot Program grant-in-aid request in the amount of \$85,000; and
- (2) Legislative support for the adoption of a Resolution requesting that the Family Court Legal Interventions Working Group established in 2007 through S.R. No. 10, S.D. 1, continue its work for one additional year and cease to exist on January 1, 2010, as attached in Exhibit D.

Passage of this Resolution would enable the Working Group and committees to continue to explore the aforementioned issues, with final findings and recommendations to be submitted to the Twenty-Fifth State Legislature prior to the Regular Session of 2010.

**PART V. CONCLUSION**

After a majority vote of the members, the Working Group recommends that legislation as outlined and attached be introduced during the Regular Session of 2009 to implement the findings and recommendations of the Working Group contained herein. The convener of the Working Group, Senator Suzanne Chun Oakland, will sponsor introduction of the necessary legislation.

Signed by Senator Suzanne Chun Oakland, Chair, on behalf of the Committee.

**Spec. Com. Rep. No. 2**

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Twenty-Fifth Legislature of the State of Hawaii, Regular Session of 2009, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The newly elected Senators whose respective terms of office will expire on November 6, 2012, are:

First Senatorial District

Dwight Y. Takamine

Third Senatorial District

Josh Green, M.D.

Fifth Senatorial District

Rosalyn H. Baker

Sixth Senatorial District

J. Kalani English

Seventh Senatorial District

Gary L. Hooser

Twelfth Senatorial District

Brickwood Galuteria

Sixteenth Senatorial District

David Y. Ige

Seventeenth Senatorial District

Michelle N. Kidani

Eighteenth Senatorial District

Clarence K. Nishihara

Twenty-first Senatorial District

Colleen Hanabusa

Twenty-second Senatorial District

Robert Bunda

Twenty-third Senatorial District

Clayton Hee

Signed by Russell S. Kokubun, Norman Sakamoto and Fred Hemmings.

**INTERIM SPECIAL COMMITTEE REPORT****Spec. Com. Rep. No. 1**

The Joint Legislative Committee on Aging in Place (JLCAIP), created pursuant to Act 285, Session Laws of Hawaii (SLH) 2006, as the Joint Legislative Committee on Family Caregiving (JLFCF), and renamed pursuant to Act 220, SLH 2008, having been directed to report to the Legislature by Act 11, Special Session Laws of Hawaii (SSLH) 2008<sup>1</sup> entitled:

“A BILL FOR AN ACT RELATING TO CAREGIVING,”

begs leave to report as follows:

**PART I. INTRODUCTION**

The JLCAIP is mandated to develop a comprehensive public policy to strengthen support for family caregivers who provide unpaid, informal assistance to persons 60 years of age and older with physical or cognitive disabilities and for grandparents raising grandchildren. Since its first meeting in September 2006, the Committee has conducted three work programs during legislative interims. This is the third report the JLCAIP has submitted to the Legislature.

Part II of this report provides background information on the JLCAIP's concern for family caregivers. Part III provides updates on the ten issue areas the Committee examined which are described in Part III. Part IV contains findings and recommendations of the JLCAIP, and Part V is the conclusion.

The 2008 Interim work program of the JLCAIP focused on issue areas involved in family caregiving and aging in place. The issue areas discussed in this report include:

- (1) Kupuna Care;
- (2) Respite Care;
- (3) Cash and Counseling;
- (4) Paid Family Leave;
- (5) Grandparents Raising Grandchildren;
- (6) Aging and Disability Resource Center;
- (7) Home for Life Task Force;
- (8) Home Care Licensing;
- (9) Home Medical Equipment; and
- (10) Long Term Care Commission.

**PART II. BACKGROUND****Concern for Family Caregiving**

---

<sup>1</sup>. Act 11, SSLH 2008, reflects the Legislature's override of the Governor's item veto in Act 220, SLH 2008 (relating to appropriations for the Kupuna Care program). The Act will be referred to as Act 220 throughout this report.

Hawaii has a strong tradition of family caregiving. Family caregivers are family members, friends, and neighbors who provide unpaid assistance to those over the age of 60 (older adults) or grandparents raising their grandchildren. Recently, however, caregiving of family elders has become more than an act of love and familial responsibility. Due to a shortage of care providers for Hawaii's elderly, family caregiving has become a critical component of our health and long-term care system.

By 2020, more than one in four individuals in Hawaii is expected to be an older adult. As the State's population ages, many more families will be providing higher levels of long-term care to frail and disabled older adults at home. Family caregivers provide great economic value to our community, and it is the intent of the State of Hawaii to support and encourage them. Family caregiving delays institutionalization and allows our elders to remain in their homes.

Many family caregivers face added burdens in caring for their loved ones while fulfilling other family and workplace responsibilities. A continued effort to create comprehensive public policies to strengthen support for family caregivers is essential as the population ages. The State can build on and encourage the strong tradition of family caregiving in Hawaii by developing a plan for the future that includes research, development of best practices, and measurement of intended outcomes.

#### **Legislative Mandate**

Because of these concerns, Act 285, SLH 2006, created the JLCFC, and Act 220, SLH 2008, changed its name to the JLCAIP and extended its term to June 30, 2010.

The JLCAIP members are: Senator Les Ihara, Jr. and Representative Marilyn B. Lee, Co-Chairs; Senators Rosalyn Baker, Suzanne Chun Oakland, and Fred Hemmings; and Representatives Karen Awana, Joey Manahan, and Corinne Ching.

The purpose of Act 220 is to continue to strengthen support for family caregivers, in part, by continuing the JLCAIP's efforts to monitor the needs of family caregivers and support services currently available and study successful policies and initiatives of other states to determine what might be replicated in Hawaii.

#### **Approach of the JLCAIP**

The JLCAIP held six meetings and informational briefings during the 2008 Interim on: July 31, September 5, October 10, November 7, December 5, and December 30.

Most of the meetings of the JLCAIP were held jointly with the Legislature's Kupuna Caucus to solicit information on topics of mutual interest. The Co-Chairs also held several meetings on behalf of the Committee.

A number of agencies and organizations participated in the informational hearings and briefings, and provided input and testimony. These agencies and organizations included:

##### **Governmental Departments and Agencies:**

- (1) Executive Office on Aging;
- (2) Policy Advisory Board for Elder Affairs;
- (3) Aging and Disability Resource Center;
- (4) Long Term Care Ombudsman;
- (5) Family Leave Working Group;
- (6) Grandparents Raising Grandchildren Task Force;
- (7) Long Term Care Commission;
- (8) City and County of Honolulu, Elderly Affairs Division;
- (9) County of Hawaii, Office of Aging;
- (10) County of Kauai Agency on Elderly Affairs;
- (11) County of Maui, Office on Aging;
- (12) Department of Health;
- (13) Department of Human Services;
- (14) Department of Education;
- (15) Department of Labor and Industrial Relations;
- (16) Department of Taxation;
- (17) Disability and Communication Access Board;
- (18) Hawaii Health Systems Corporation;
- (19) State Council on Developmental Disabilities;
- (20) University of Hawaii Center on Aging;
- (21) University of Hawaii Public Policy Center;
- (22) University of Hawaii School of Social Work;

- (23) University of Hawaii College of Tropical Agriculture & Human Resources; and
- (24) Kapiolani Community College Kupuna Education Center.

**Other Organizations:**

- (1) AARP Hawaii;
- (2) Apria Healthcare;
- (3) Case Management Council;
- (4) Case Management Incorporated;
- (5) Case Management Professionals;
- (6) Catholic Charities Hawaii;
- (7) Chamber of Commerce Hawaii;
- (8) Chaminade University;
- (9) Child and Family Services;
- (10) Convalescent Center of Honolulu;
- (11) Graham Builders, Inc.;
- (12) Hawaii Alliance for Retired Americans;
- (13) Hawaii Teamsters Local 996;
- (14) Hawaiian Islands Medical Corporation;
- (15) Healthcare Association of Hawaii;
- (16) Hawaii Government Employees Association (HGEA) Retirees;
- (17) Honolulu Committee on Aging;
- (18) Kaiser Community Case Management;
- (19) Kapahulu Center;
- (20) Kokua Council;
- (21) Lanakila Multi-Purpose Senior Center;
- (22) Maunalani Nursing and Rehabilitation Center;
- (23) MB Case Management Inc.;
- (24) Moiliili Community Center;
- (25) Na Tutu;
- (26) National Association of Social Workers;
- (27) National Federation of Independent Businesses;
- (28) National Multiple Sclerosis Society;
- (29) Ohana Health Plan, Inc.;
- (30) Palolo Chinese Home;
- (31) PHOCUSED (Protecting Hawaii's Ohana, Children, Underserved, Elderly, and Disabled);
- (32) Project Dana;
- (33) Quality Case Management, Inc.;
- (34) Queen Liliuokalani Children's Center;
- (35) Queen's Community-Based Case Management;
- (36) Residential Choices;
- (37) Society for Human Resource Management – Hawaii;
- (38) Talavera Case Management Agency;
- (39) Waikiki Community Center; and
- (40) Wilson Homecare.

The JLCAIP also received input from interested individuals and caregivers, including grandparents who are primary caregivers to their grandchildren.

### PART III. REPORT ON ISSUE AREAS OF THE JLCAIP

The JLCAIP conducted its 2008 activities to advance family caregiver support and improve conditions for enabling our elders to age in place. The Committee focused its work on the ten issue areas described below.

#### **Kupuna Care**

The Executive Office on Aging (EOA) provided a comprehensive overview of the Kupuna Care program, which provides Hawaii's needy older adults with home- and community-based services which are client-centered and family-supported, and allows elders to live with independence and dignity. The four county aging agencies administer Kupuna Care services through contracts issued by the EOA.

To be eligible to receive Kupuna Care services, an individual must meet five criteria: (1) be a United States citizen or qualified alien; (2) be 60 years of age or older; (3) not be covered by comparable government or private home and community services; (4) not reside in an institution such as an intermediate care facility (ICF), skilled nursing facility (SNF), hospital, foster family or adult residential care home (ARCH); and (5) have an impairment of at least two activities of daily living (ADL), instrumental activities of daily living (IADL), or substantive cognitive impairment, and an unmet need of at least one or more ADL or IADL.

In state fiscal year 2007-2008, a total of \$5,153,108 was available for the Kupuna Care program statewide. Of the total expenditures, personal care accounted for 28 percent, home delivered meals for 22 percent, case management for 20 percent, transportation for 15 percent, homemaker services for six percent, adult day care for four percent, attendant care for three percent, and chore services for one percent.

Older adults receiving services are given the opportunity to voluntarily contribute to service costs, but are not required to do so. In state fiscal year 2007-2008, voluntary contributions totaled \$732,529, or 15.9 percent of total Kupuna Care service expenditures statewide.

A service recipient's suggested voluntarily contribution to Kupuna Care is based on his or her income level. In the past, it was believed that the cost to county aging agencies to collect these contributions exceeded the amount collected. To encourage an increase in voluntary contributions for services received and make collection efforts worthwhile, cost-efficient means of facilitating such contributions are needed.

As of June 30, 2008, 242 persons eligible to receive Kupuna Care services have been placed on a waiting list due to the limitation of available funds. Program funds currently available for state fiscal year 2008-2009 are insufficient to maintain the level of services provided statewide in fiscal year 2007-2008. Act 204, SLH 2007, appropriated \$525,000 to maintain the fiscal year 2007-2008 level of services for state fiscal year 2008-2009, and release of these funds would allow more eligible older adults and family caregivers to receive service. The additional appropriation of \$500,000 through Act 11, SSLH 2008<sup>2</sup>, would allow expansion of the Kupuna Care program. Funds appropriated by Act 204 and Act 11 have not been released by the Governor.

All four county aging agencies have reported an inability to provide adequate services to their needy elderly due to insufficient funding of their Kupuna Care programs. Hawaii County has consistently experienced shortfalls for several years and reallocated two employees to the Aging and Disability Resource Center in 2008. Although Maui County has apportioned additional county funds to supplement state funding of Kupuna Care, reductions of services will still be required. Kauai County expects some service providers to reduce staff, and the City and County of Honolulu plans to reduce the number of clients served and services provided.

#### **Respite Care**

The EOA contracted with the University of Hawaii (UH) to conduct studies on a family caregiver respite care inventory and on respite care for grandparents raising grandchildren. Draft reports for both studies have been submitted to the EOA for review, and final reports were not available when this JLCAIP report was submitted. The reports conclude that affordable, flexible respite care is in short supply in Hawaii.

##### *Family Caregiver Respite Care Inventory*

Pursuant to House Concurrent Resolution No. 187 (2007), the EOA contracted with the UH School of Social Work during the 2007 Interim to compile an inventory of respite care agencies located in the State and the services they provide. Respite agencies across the State were contacted by telephone and information was gathered on the types of respite care services provided, method of payment required, maintenance of waiting lists, and populations served.

Act 220, SLH 2008, mandated that the respite care inventory project be expanded to include: (1) a proposed definition of "respite care"; (2) more detailed descriptions of the types of respite services provided in the State; and (3) a review of the Legislative Reference Bureau's 2007 report on respite care policies in other states to identify potential approaches for Hawaii to support expanded respite services, including alternative types of respite care providers, respite care services provided, and financial support.

The key findings of UH's report include identification of 31 agencies that provide respite care services on Oahu, 13 in Hawaii County, nine in Maui County, and two in Kauai County. The types of respite programs include: overnight, weekend, emergency care, adult day care, assistive living, in-home care, companions, nursing, chore, meals, rehabilitation, Alzheimer's, mental illness, disabilities, healthcare, and transportation services. Out-of-home and in-home respite programs were approximately equal in number. Service gaps include transportation to and from respite sites; care for consumers suffering from moderate to severe Alzheimer's Disease; emergency, overnight, or weekend respite services; and affordable respite services for private pay clients. The respite care

<sup>2</sup> The \$500,000 appropriation for the Kupuna Care was the subject of the Governor's item veto of Act 220, SLH 2008. The Legislature overrode the Governor's veto and Act 220, SLH 2008, was filed in its final form as Act 11, SSLH 2008.

inventory did not include vacant care home beds, which could be used to provide respite for family caregivers – especially for overnight and emergency respite.

The draft report also found that statutory definitions of respite care varied widely. The definitions believed to be most workable were those that did not reference a specific disease or condition, and included populations with a combination of medical and financial needs. The report suggests that a respite care definition for Hawaii: (1) carefully define potential recipients and targeted populations; (2) describe the services covered; (3) define specific limits on services, such as dollars, hours, etc.; and (4) define expected outcomes.

#### ***Respite Care for Grandparents Raising Grandchildren***

The UH Department of Family and Consumer Science was contracted by the EOA to conduct a respite care study focusing on grandparents raising grandchildren (GRG). The draft report finds that approximately 14,000 grandparents are primary caregivers for over 33,000 grandchildren in the State.

Many GRG face a wide range of challenges, including their grandchildren's emotional and behavioral problems and their own health issues and financial difficulties. Existing respite services for GRG vary between counties. Most respite services for GRG are provided on Oahu and Maui. There are many gaps in the services provided, including gaps in transportation services, services for children between five and 15 years of age, and therapeutic needs for children with relatively mild mental health problems. Additionally, crisis care is limited.

The draft report suggests that respite care services for GRG must possess the following attributes: (1) be culturally appropriate; (2) be available to GRG of all legal statuses; (3) be offered as part of a package of services; (4) use a lifespan respite model; (5) give priority to GRG who are sole providers for their grandchildren; and (6) contain an evaluation component. Further, the Legislature should formulate a clear definition of respite care and the conditions for GRG respite care eligibility.

#### **Cash and Counseling**

Act 204, SLH 2007, mandated the EOA to research cash and counseling programs in other states. The EOA contracted with the UH School of Social Work to conduct the research and prepare a report to the Legislature. Act 220, SLH 2008, mandated the EOA to report on its effort to design a cash and counseling project for non-Medicaid participants that would allow clients to direct and manage their personal assistance services based on their own specific needs, while also providing family caregivers with a level of financial recognition and support.

The UH School of Social Work's draft report recommends a three-year cash and counseling demonstration project. The proposed project would provide 200 consumers with \$750 monthly to purchase necessary care and services as defined by their care plan, and allow consumers to hire family members as caregivers if they wish. The cash and counseling benefit should be flexible, allowing consumers to save their monthly payments to make a one-time purchase of a necessary item or receive a costly consultation. There should be three eligibility requirements for project participants. They must: (1) live with two or more ADL's, or a cognitive impairment; (2) be uninsured, underinsured, or ineligible for Medicaid; and (3) be ineligible for government assistance benefits under Medicare, Veterans Benefits, or other similar programs.

The report suggests that Aging and Disability Resource Center (ADRC) sites serve as enrollment sites for the cash and counseling demonstration project, and ADRC coordinators assist with outreach activities. Counselors at the sites should meet potential consumers to help determine program eligibility, develop flexible monthly budgets, establish individualized service plans, and monitor service delivery on a quarterly basis.

With respect to the fiscal component of the cash and counseling demonstration project, the counselors at ADRC sites should assist consumers with obtaining a representative payee and help service providers meet federal and state income tax reporting requirements. A project director would be hired to provide quality assurance and contract and fiscal oversight, and to assess the future of the program after the demonstration project ends. Prior to starting the demonstration project, an evaluation methodology must be established to determine the project's success.

#### **Paid Family Leave for Family Caregivers**

Act 243, SLH 2008, established a working group to explore the provision of wage replacement benefits to employees who need to take time off from work to care for a family member with a serious health condition. The working group was composed of departmental representatives, advocates and members of the business community and labor unions. Working group meetings were held in 2008 on: August 26, September 12, October 17, November 6, December 2, and December 17.

The working group explored funding mechanisms for a paid family leave program, including income tax credits, temporary disability insurance benefits, and unemployment benefits. Paid family leave legislation in California, Washington, and New Jersey was discussed, along with issues relating to medical privacy. The working group reviewed the *State of Hawaii Caregivers Needs Assessment (2007)* prepared by the EOA and an inventory of existing employer eldercare policies and practices.

The working group concluded without recommending any legislation, due in part to the State's weak economy and the group's lack of consensus regarding wage replacement benefits. The working group endorsed a continuum of short- and long-term concepts that the JLCAIP or other individuals or organizations might introduce for consideration in the 2009 Session. The continuum of wage replacement consists of three parts: (1) creation of a data collection system capable of analyzing and reporting family care data for both public and private employees, (2) establishment of an eldercare tax credit for employees, similar to tax credits for childcare, and (3) establishment of a state-sponsored long-term care insurance program through employee payroll deductions and a tax credit for employers who purchase long-term care insurance for their employees.

#### **Grandparents Raising Grandchildren**

Act 220, SLH 2008, established a GRG Task Force for a term ending on June 30, 2009, to focus on the needs and issues faced by grandparents raising grandchildren. The Task Force, composed of state and county departmental representatives, advocates, and stakeholders, met in 2008 on August 25, September 5, October 10, November 7, and December 5. The Task Force identified several

statewide problems faced by GRG, including: (1) barriers to finding adequate housing, (2) difficulties associated with the release of grandchildren's parents from incarceration, and (3) obstacles obtaining mental health services for grandchildren. The Task Force also discussed the variation between counties of services provided to GRG.

The Task Force recommends that each county aging agency address GRG in their respective Area Plans on Aging. The Task Force further recommends that the EOA include specific mention of GRG issues in the State's four-year Plan on Aging, due in 2011, as reflected in each county's Area Plan on Aging. GRG representatives are encouraged to participate in the public input processes of the EOA State Plan and each County Area Plan on Aging. Counties are urged to publicize GRG services in print and online for family caregivers. Senior housing providers are encouraged to make exceptions to house rules or policies to allow grandparents suddenly faced with raising their grandchildren enough time to find suitable housing. The Task Force identified the need for a program that would educate incarcerated parents on ways to reconnect with their children upon release.

#### **Aging and Disability Resource Center**

The ADRC is funded by federal and state funds and implemented by the EOA's coordinator through a contract with UH's Center on Aging. The ADRC is being developed as a one-stop shop for streamlined access to unbiased information on long-term care options and services through integrated or closely coordinated services, including: (1) intake, (2) assessment, (3) eligibility screening and determination, (4) information counseling, and (5) follow up.

Hawaii's ADRC pilot site, Kahi Malama, is located in Hilo and held its grand opening on November 14, 2008. This physical site houses a number of public and private aging and disability services, programs, and agencies under one roof. Hawaii County Office of Aging is the lead agency for the Hilo site.

The Honolulu ADRC program is being developed by the City and County of Honolulu, Elderly Affairs Division, as a virtual site. It will be a robust internet website with comprehensive information on aging and disability services and resources. The website is being designed in conjunction with the Kauai County Agency of Elderly Affairs Division and an information technology and website development team. The website template will be made available to all county agencies on aging. The Honolulu Elderly Affairs Division's senior telephone hotline is also being expanded to enable close coordination with ADRC. Honolulu and Kauai Counties plan to launch the website in late Spring 2009. The virtual ADRC program would not only provide online information, but also include a telephone helpline staffed by trained professionals to assist those who do not have internet access or require additional assistance.

Future expansion plans include establishing satellite physical sites on Oahu's North Shore and Leeward areas, in the Hamakua district on the Big Island, and in Kauai and Maui counties.

#### **Long Term Care Commission**

Act 224, SLH 2008, established the Long Term Care Commission, which is administratively attached to UH's Public Policy Center. The Commission is mandated to identify problems in the current long-term care system, including its capacity, programs, and services and to develop a comprehensive plan to ensure availability of a full continuum of long-term care services in alternative settings. The Commission is required to submit an interim report to the Legislature by February 28, 2010, and a final report by September 30, 2010. The commission's term will expire thirty days after submission of its final report.

Although the Long Term Care Commission has met, it has delayed the start of a work program until private funds are raised. Because the Governor declined to release a legislative appropriation for the Commission, private funds will be sought to conduct a one-year study of long-term care terminology, management, financing sources, and impacts on the workforce.

#### **Home Medical Equipment**

Durable medical equipment providers informed the JLCAIP about problems consumers face when acquiring durable home medical equipment, such as wheelchairs, walkers, and oxygen machines. The providers identified three areas of concern for the JLCAIP's consideration: (1) the lack of consumer education and information available regarding maintenance and repair of home medical equipment and the ramifications of purchasing equipment from online or out-of-state suppliers; (2) the difficulty consumers have in accessing services in the State, particularly on Kauai, in acquiring and maintaining home medical equipment; and (3) the concern that the competitive bidding program introduced by the Medicare Improvements for Patients and Providers Act of 2008 will drive smaller, local providers out of business, creating a shortage of readily available equipment repairpersons and suppliers in the State.

Reimbursement rates to home medical equipment providers from insurance providers and government programs continue to decrease, forcing many providers to cease operations and creating financial difficulties for those still operating. The financial burden to home medical equipment providers makes consumers vulnerable to providers attempting to save money by failing to fix faulty or damaged equipment, or charging exorbitant amounts to do so.

To address the concerns raised, the Department of Human Services has been meeting with home medical equipment providers to work on streamlining regulatory processes, improving reimbursements, and establishing new criteria for prior approval of services. Additionally, the ADRC plans to assist in providing accurate information to consumers.

#### **Home for Life Task Force**

At the request of the JLCAIP, volunteers formed a group to explore ways to assist disabled elderly who wish to remain at home. The group proposed establishing a Home for Life Task Force to work on reducing physical barriers in the home environment to enable people to remain in their own homes for as long as possible, encouraging adoption of universal design principles, and facilitating multigenerational living. The Task Force would analyze pertinent laws, codes, and regulations; identify ways to facilitate modification of existing residences; develop a program to train personnel to evaluate home modification needs; encourage use of universal design principles in new construction and home renovations; and educate professionals and the public regarding aging in place and multigenerational living issues.

A legislative resolution will be proposed to establish the Home for Life Task Force and request assistance in identifying possible sources of funding and other resources. The group also suggests that the task force: (1) organize a best practices exhibit for viewing throughout the State; (2) conceptualize a model house that illustrates the best practices for achieving the goals of universal design and aging in place; and (3) solicit ideas from frail elders and persons with disabilities on preferred design features that might facilitate comfortable living in their current homes.

#### **Home Care Licensing**

With support from the JLCAIP Co-Chairs and Kupuna Caucus leaders, a home care licensing work group has proposed that home care agencies be licensed to provide a level of protection for consumers who purchase medical and non-medical services in their homes. Home care services are expected to grow by 70 percent nationally by 2014. Currently, only a general excise tax license is required to provide home care services to elderly and disabled consumers. Licensing would provide minimum standards, such as criminal background checks, communicable disease checks, and competency requirements for staff.

State and county consumer resource publications currently provide listings of home care agencies, but in the absence of licensure, consumers do not have a way of assessing the quality or safety of the agencies. Both home care, an unlicensed consumer-directed service, and home health care, a physician-directed service, can include medical services in the delivery of care.

A bill will be offered for consideration by the 2009 Legislature that would require the licensing of home care agencies in Hawaii.

#### **PART IV. RECOMMENDATIONS**

The JLCAIP appreciates the opportunity to facilitate discussions to support family caregivers and enable Hawaii's elderly to age in place. Based on its work conducted during the 2008 Interim, the JLCAIP submits to the Legislature the recommendations described below. Due to budget constraints required by significant reductions in state revenues, the Committee has sought to limit recommendations requiring additional appropriations.

The Committee recommends funding support for the State's safety net for needy seniors and continued development of a coordinated information and referral system for services available to older adults. The Committee also recommends: the use of existing government resources to develop a website for respite care information; that the EOA conduct a cash and counseling pilot project; that employers be required to notify employees of the employers' eldercare benefits and policies; that senior housing facilities make exemptions in their house rules or policies to allow grandparents raising grandchildren adequate time to find suitable housing; the establishment of a Home for Life Task Force; and that licensing be required for home care agencies.

The JLCAIP believes its recommendations address the needs of family caregivers and help to build a comprehensive, community-based support system for them.

**Finding A:** The Kupuna Care program is intended to provide a safety net of services for Hawaii's needy elderly and family caregivers. Some older citizens do not have access to necessary services, often because of financial constraints. However, many older adults can remain in their homes with minimal assistance while maintaining their independence and dignity at relatively little cost. As the population eligible to receive Kupuna Care services increases, funding levels have become insufficient to adequately serve the population's most basic needs, and wait lists are expected to grow longer.

**Recommendation A:** The JLCAIP recommends that the EOA's base budget appropriation in the Executive Budget be increased to provide the level of Kupuna Care services available in fiscal year 2007-2008 to qualified care recipients and their family caregivers, including grandparents raising grandchildren. The EOA should also be requested to work with county aging agencies to develop a plan to increase voluntary contributions to help fund Kupuna Care, procedures for managing wait lists, and policies for using a cash and counseling approach to deliver qualified services.

**Finding B:** The completed caregiver respite care inventory contains valuable information for family caregivers, such as services available, geographic service areas, and a variety of restrictions and eligibility requirements for services. Making this information available to the public would benefit persons who need these services. The availability of respite care services is especially important to caregivers in emergency situations when they are unable to provide care to family members.

**Recommendation B:** The JLCAIP recommends that the EOA coordinate the availability of the caregiver respite care inventory in print publications and on the websites of the EOA, the four county aging agencies, and the ADRC when its website becomes available.

**Finding C:** The EOA plans to continue gathering feedback from other states that are beginning to provide consumer directed services to non-Medicaid populations. Specific points of discussion will include: (1) whether there should be limits on income and non-exempt assets, such as cars and homes; (2) methods to accommodate language barriers and a range of cultural values; (3) how best to work with area agencies and local community service providers, including those for the disability community; and (4) whether to consider a model in which caregivers are allotted a specified dollar amount annually for respite services.

**Recommendation C:** The JLCAIP recommends introduction of a concurrent resolution requesting the EOA and the UH School of Social Work to continue their efforts to develop a cash and counseling model and to conduct a pilot project using available State resources and federal and private funding.

**Finding D:** Many individuals who provide informal caregiving services to family members find that their careers suffer as a result of the additional burdens they face. While the benefits of a paid family leave program for caregivers can provide significant support for employees, its impact on work productivity and the financial costs still need to be addressed. Initial steps, such as educating employees about their family leave employment benefits and collecting data on family care for both public and private employees would assist in allowing further development of a paid family leave program in Hawaii.

**Recommendation D:** The JLCAIP recommends introduction of legislation to require employers to notify employees annually, by reasonable means, of the types of paid and unpaid eldercare benefits and policies provided by the employer, and the consequences of

early retirement as it pertains to these benefits. Additionally, a data collection system should be established to analyze family care data for both public and private employees.

**Finding E:** Grandparents living in senior housing facilities may find themselves suddenly responsible for the care of their grandchildren. However, many senior housing facilities issue eviction notices to grandparents who take in their grandchildren, leaving little or no time for the grandparents to locate affordable housing that allows children.

**Recommendation E:** The JLCAIP recommends introduction of a concurrent resolution to request that public and private agencies responsible for senior housing make appropriate allowances or exemptions in their policies and house rules to allow grandparents to remain in their units with the grandchild- or grandchildren-in-crisis until they are able to locate more suitable housing.

**Finding F:** The JLCAIP finds that the delivery of long-term care in Hawaii has been fragmented and uncoordinated, making it difficult for consumers to obtain information about their options and available services. In 2005, the United States Department of Health and Human Services awarded a grant to Hawaii to develop Aging and Disability Resource Center (ADRC) programs to inform consumers and assist them in accessing long-term support ranging from in-home services to nursing facility care.

In November 2008, the first physical ADRC site opened in Hilo. It houses nine public and private agencies providing services to seniors and people with disabilities in the County of Hawaii. In conjunction with the Kauai Agency on Elderly Affairs, the City and County of Honolulu is developing a comprehensive website that will provide a virtual one-stop shop for information and referral services to consumers. The website is scheduled for completion in May 2009.

The ADRC simplifies and provides fair and uniform access to the long-term care system. The overall goal is to establish ADRC sites in Kauai and Maui Counties and have statewide access for all consumers and caregivers.

**Recommendation F:** The JLCAIP recommends that an appropriation be made to the EOA to support the ADRC project. The funding would be used to provide start up funds for two new physical ADRC sites on Maui and Kauai and to ensure continued coordination between Hawaii and Honolulu Counties' ADRC programs. Specific ADRC expansion components include plans for additional satellite sites across the State, staff positions for pilot sites, management information system improvements, an expanded telephone information system, consumer education and outreach campaigns, and state level coordination and evaluation of the project.

**Finding G:** Many older adults live in homes that prevent them from aging in place. Government regulations and codes should be reviewed and amended to remove restrictions that prevent disabled individuals and older adults from remaining in their own homes and to allow for multigenerational housing. Consumers should be encouraged to plan for renovations necessary to age in place, and building, design, and architectural professionals should incorporate best practices for aging in place in their plans for clients.

**Recommendation G:** The JLCAIP recommends introduction of a concurrent resolution to establish a Home for Life Task Force to coordinate research and action to reduce barriers to aging in place and to facilitate multigenerational living

**Finding H:** To encourage and facilitate older adults to age in place, older adults must be confident that home care services they receive are appropriate and safe. However, there is little oversight of home care services. Standards of quality for the growing home care industry should also be ensured and providers should be adequately trained and ethically responsible.

**Recommendation H:** The JLCAIP recommends the introduction of legislation that will require home care agencies to be licensed, and will assess fees for issuing licenses. Fees collected for licensing should be earmarked to fund the licensing program. It is recommended that the program be self-funded to the extent possible.

## PART V. CONCLUSION

The Joint Legislative Committee on Aging in Place recommends that legislation be introduced in the 2009 Regular Session to implement the recommendations outlined in this report. Co-Chairs Senator Les Ihara, Jr. and Representative Marilyn B. Lee will draft legislation pursuant to these recommendations and offer co-sponsorship of the legislation to members of the JLCAIP and other legislators.

Signed by Senator Les Ihara, Jr. and Representative Marilyn B. Lee, Co-Chairs, on behalf of the Committees.

## CONFERENCE COMMITTEE REPORTS

**Conf. Com. Rep. 1 on H.B. No. 1741**

The purpose of this bill is to:

- (1) Increase the rate of the conveyance tax on all transfers or conveyances of properties with a value of \$2,000,000 or more and second house purchases; and
- (2) Reduce for a three-year period the distribution of amounts of the conveyance tax into the Land Conservation Fund, Rental Housing Trust Fund, and Natural Area Reserve Fund.

Your Committee on Conference has amended this bill by:

- (1) Retaining the current distribution of amounts of the conveyance tax for the Land Conservation Fund; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1741, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1741, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Galuteria, Kokubun.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 5. Ayes with Reservations, 1 (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 2 on H.B. No. 1747**

The purpose of this bill is to amend State tax law by:

- (1) Increasing State income tax rates for high income earners, applying to taxable years beginning after December 31, 2008;
- (2) Increasing the standard deduction amount and the allowable personal exemption amount, applying to taxable years beginning after December 31, 2010; and
- (3) Increasing the amount of the personal deduction by 10 percent.

All of the provisions in this bill will be repealed on December 31, 2015.

Your Committee has amended this bill by adjusting the taxable income and tax base amounts for the new tax rates of 9, 10, and 11 percent for:

- (1) Joint filers with incomes in excess of \$300,000;
- (2) Head of household filers with incomes in excess of \$225,000; and
- (3) Single filers with incomes in excess of \$150,000.

Technical, nonsubstantive amendments were also made for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1747, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1747, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Galuteria, Kokubun.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 5. Ayes with Reservations, 1 (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 3 on H.B. No. 1175**

The purpose of this bill is to:

- (1) Increase the per-cigarette tax from ten cents to 13 cents; and
- (2) Deposit an unspecified percentage of the remaining portion of the per-cigarette tax into the Hawaii Tobacco Prevention and Control Trust Fund (Trust Fund).

Your Committee on Conference has amended this bill by, among other things:

- (1) Increasing the per-cigarette tax as follows:

- (A) From 11 cents to 13 cents beginning on July 1, 2009;
- (B) From 12 cents to 14 cents beginning on July 1, 2010; and
- (C) From 13 cents to 15 cents beginning on July 1, 2011;
- (2) Removing provisions that would have deposited a percentage of the remaining portion of the per-cigarette tax into the Trust Fund;
- (3) Changing the effective date to June 30, 2009; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1175, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1175, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 5. Ayes with Reservations, 1 (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 4 on H.B. No. 895**

The purpose of this bill is to increase deterrents against the use of tobacco products other than cigarettes, including smokeless tobacco, snuff, cigars, and pipe tobacco and ensure funding for health care programs by:

- (1) Increasing the tobacco tax on the wholesale price of tobacco products other than cigarettes from 40 percent to 60 percent in 2009; 70 percent in 2010; and 90 percent in 2011; and
- (2) Depositing unspecified percentages of the taxes collected into the Community Health Centers Special Fund, the Health Systems Special Fund, and the Hawaii Tobacco Prevention and Control Trust Fund.

Your Committee on Conference has amended this bill by:

- (1) Providing a definition of the term "little cigar";
- (2) Establishing an excise tax of 11 cents for each little cigar sold, used, or possessed by a wholesaler or dealer on and after October 1, 2009; 12 cents on and after September 30, 2010; and 13 cents on and after September 30, 2011;
- (3) Establishing an increase of the tobacco tax on tobacco products other than certain sized cigars, little cigars, and cigarettes from 40 percent to 70 percent beginning on September 30, 2009;
- (4) Increasing the tobacco tax on cigars with a ring gauge of 30 or more (.467 inches in diameter or more), of any length, from 40 percent to 50 percent beginning on September 30, 2009;
- (5) Providing that 100 percent of the increase in funds collected will be deposited in the general fund;
- (6) Changing the effective date to upon its approval; and
- (7) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 895, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 895, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 6. Ayes with Reservations, 1 (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 5 on H.B. No. 1739**

The purpose of this bill is to deter tax fraud and promote uniformity in the state tax system by, among other things:

- (1) Stipulating circumstances under which a tax preparer may be required to pay a fine for understatement of liability based on unreasonable positions in a tax return or claim for a tax refund;
- (2) Stipulating the circumstances under which a person commits the offense of promoting an abusive tax shelter and the penalties for such a violation;

- (3) Establishing penalties for erroneous claims for refunds or credits;
- (4) Establishing penalties for underpayments of taxes attributable to any substantial understatement of any tax amounts in a taxable year;
- (5) Establishing statute of limitation provisions and extension provisions for substantial omissions on tax amount information;
- (6) Stipulating that the burden of proof for the issue of falsity or fraud and intent to evade tax shall be placed upon the government;
- (7) Providing for an expedited administrative appeals process;
- (8) Stipulating that the fact that an individual's name is signed on a return, statement, or other document shall be prima facie evidence for all purposes that the return, statement, or other document was actually signed by the individual;
- (9) Authorizing the Department of Taxation (DOTAX) to undertake temporary rulemaking;
- (10) Making documents submitted to a tax district board of review public information; and
- (11) Establishing penalties for the wilful failure to collect, account for, and pay over taxes.

Your Committee on Conference has amended this bill by:

- (1) Allowing the following taxes to be collected by levy or by a proceeding in court within 15 years after the assessment of the tax if the assessment of the tax was imposed within the three-year period of limitation established by law:
  - (A) Income Tax;
  - (B) General Excise Tax;
  - (C) Transient Accommodations Tax;
  - (D) Use Tax;
  - (E) Fuel Tax;
  - (F) Conveyance Tax;
  - (G) Rental Motor Vehicle and Tour Vehicle Surcharge Tax;
  - (H) Nursing Facility Tax; and
  - (I) Insurance Premium tax;
- (2) Requiring that the limitation on collection after the assessment of the abovementioned taxes be suspended for certain periods;
- (3) Authorizing DOTAX to implement an administrative appeals and dispute resolution program to expeditiously resolve all tax, penalty, interest, fine, assessment, and other disputes between DOTAX and taxpayers or return preparers;
- (4) Establishing certain procedures for the appeals and dispute resolution program process and requiring DOTAX to adopt other procedures necessary to implement the appeals and dispute resolution program;
- (5) Requiring DOTAX to implement rules providing examples and safe harbors to explain in clear and unambiguous terms the penalties and fines provided under Hawaii's tax laws that may be imposed against a return preparer or taxpayer for understatement of tax liabilities, promotion of abusive tax shelters, erroneous claims for refund or credit, or substantial understatements or misstatements of tax;
- (6) Stipulating that any and all advice given, or communications made by DOTAX, including but not limited to letter rulings, and determination letters, containing tax advice shall be disclosed to the public under standards and procedures under Section 6110 of the federal Internal Revenue Code of 1986, as amended;
- (7) Requiring that DOTAX provide a taxpayer with a closing audit letter at the conclusion of a tax audit that will confirm, in writing, the department's position on each issue considered in the audit and will provide guidance on how the taxpayer may report these issues for post audit years; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1739, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1739, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kokubun, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 6 on H.B. No. 1422**

The purpose of this bill is to allow counties to remove abandoned motor vehicles from private roads. Specifically, this measure:

- (1) Considers a vehicle on a private road to be unlawfully parked if:
  - (A) The vehicle is inoperable; and
  - (B) The owner of the private road requests in writing the removal of a vehicle;
- (2) Requires the owner of the private road who requests vehicle removal to pay for the removal; and
- (3) Deems the owner of the private road who requests vehicle removal to agree to indemnify and hold the county harmless for claims arising from the removal and disposal of the vehicle.

Some residents abutting private roads are currently experiencing problems with abandoned vehicles left on these roads. Although counties are already allowed to remove abandoned vehicles from public roadways, removing these vehicles from a private road is often more complex and generally requires the involvement of the owner of the road. Since abandoned vehicles often pose a health and safety hazard to the community, your Committee on Conference finds that removal of these vehicles is in the best interest of public health and safety.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to July 1, 2009;
- (2) Changing the sunset date to January 1, 2010; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1422, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1422, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, Karamatsu, Pine.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 7 on H.B. No. 1057**

The purpose of this bill is to support investment in a child's future by allowing third parties to make contributions directly into a State-established HI529 college savings account for a designated beneficiary.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1057, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1057, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Tsutsui, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Chang, C. Lee, Nakashima, Ching.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 8 on H.B. No. 876**

The purpose of this bill is to improve condominium operations by, among other things:

- (1) Increasing to \$3,600 the cap on special assessments that condominium associations may impose on foreclosure sale purchasers of a delinquent unit with unpaid common expense assessments; and
- (2) Expanding limitations on association liability for actions taken with regard to certain unit owners or residents requiring services for independent living where residents' actions or non-actions pose a risk to their own health or safety, or that of others.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to July 1, 2009; and

- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 876, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 876, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Baker, Taniguchi, Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Mizuno, Wakai, Luke, Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Luke).

**Conf. Com. Rep. 9 on H.B. No. 632**

The purpose of this bill is to ensure representation of women veterans' interests on the Policy Advisory Board on Veterans' Services (Board) by requiring three members of the Board to be women.

The Board advises the Director of the Office of Veterans' Services by identifying and developing positions on veterans' issues, and assisting in advocacy, legislative actions, and program development and operations. This bill will strengthen women's voice on the Board.

Your Committee on Conference has amended this bill by:

- (1) Requiring that "at least" three members of the Board to be women; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 632, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 632, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria, Hemmings.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Representatives McKelvey, Evans, Ward.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Evans).

**Conf. Com. Rep. 10 on H.B. No. 615**

The purpose of this bill is to clarify the offense of harassment and the offense of harassment by stalking by including any form of electronic communication within the scope of the offenses.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 615, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 615, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Bunda, Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Karamatsu, Tsuji, Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 11 on H.B. No. 590**

The purpose of this bill is to expedite the processing and approval or denial of any permit plan application for the siting, development, construction, and operation of a renewable energy facility by:

- (1) Requiring the permitting agency to provide to the energy resources coordinator its report identifying diligent measures being taken to complete permit processing within 30 days if a completed permit plan application has not been approved or denied within 12 months after approval of the application by the coordinator; and
- (2) Authorizing the energy resources coordinator to deem a permit approved if no further processing and action are reported by the permitting agency within five months following the end of the 30-day agency report period.

Your Committee on Conference has amended this bill by changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 590, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 590, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English, Taniguchi, Green, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Hemmings).

Representatives Ito, Morita, Coffman, Har, Ching.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ching).

**Conf. Com. Rep. 12 on H.B. No. 1071**

The purpose of this bill is to establish with the Commissioner of Financial Institutions, a system to license and regulate servicers of residential mortgage loans secured by real property located in Hawaii.

Your Committee on Conference has amended this bill by making technical, nonsubstantive changes for style, clarity, and conformity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1071, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1071, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kim, Hemmings.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Representatives Cabanilla, Herkes, Sagum, Chong, Souki, Marumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Chong, Souki).

**Conf. Com. Rep. 13 on H.B. No. 1351**

The purpose of this bill is to allow owners of neighboring agricultural lands to establish private agricultural parks, registered with the Department of Agriculture, to reduce shared costs. This bill also specifies permitted activities within the private agricultural park.

Your Committee on Conference has amended this measure by:

- (1) Requiring each private agricultural park to file an annual report with the Chairperson of the Board of Agriculture;
- (2) Requiring that each annual report include an affidavit that electricity generated and distributed within the private agricultural park was used solely for agricultural purposes within the park;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1351, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1351, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Bunda, Fukunaga, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Bunda).

Representatives Tsuji, Morita, Ito, Evans, Ching.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 14 on H.B. No. 589**

The purpose of this bill is to facilitate the financing and development of renewable energy projects by exempting from subdivision requirements, certain leases and easements for renewable energy projects, together with other security instruments for the financing of these projects. The provisions authorizing the exemption sunset on July 1, 2013.

Your Committee on Conference has amended this bill by:

- (1) Noting in the purpose section the possibility of facilitating projects to promote energy self-sufficiency, while protecting the integrity of state and county laws and their purposes;
- (2) Including within the exemption from the subdivision requirements, the appurtenances associated with the production and transmission of wind-generated energy, not just necessary appurtenances;

- (3) In applying for exemption from the subdivision requirements, requiring the developer of the project and the owner of the land on which the project lies, to submit to the appropriate agency:
  - (A) Either conceptual schematics or preliminary plans and specifications for the project; and
  - (B) A certification and agreement that all applicable and appropriate environmental reviews and permitting shall be completed prior to the commencement of the development of the project;
- (4) Making any material change after June 30, 2013, regarding the leased land or easement area subject to the subdivision requirements;
- (5) Defining "material change" as any material change affecting the location, size, boundaries, or configuration of the leased land or the easement area that would require approval under the subdivision requirements;
- (6) Changing the sunset date to July 1, 2013; and
- (7) Making technical, nonsubstantive changes for style, clarity, and conformity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 589, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 589, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English, Hee, Green, Kokubun, Hemmings.  
Managers on the part of the Senate.  
Ayes, 6. Noes, none. Excused, none.

Representatives Ito, Morita, Coffman, Har, Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

#### **Conf. Com. Rep. 15 on H.B. No. 1045**

The purpose of this bill is to make necessary housekeeping amendments to Chapter 201H, Hawaii Revised Statutes. Specifically, this bill:

- (1) Authorizes the Hawaii Housing Finance and Development Corporation (HHFDC) to modify terms, plans, specifications, and other matters relating to projects previously approved by HHFDC;
- (2) Authorizes HHFDC to establish and collect fees for certain administrative expenses incurred by HHFDC; and
- (3) Makes other technical, nonsubstantive changes to conform to the statutorily defined terms.

Your Committee on Conference has amended this bill by changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1045, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1045, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Tsutsui, Galuteria, Kidani, Hemmings.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Cabanilla, Sagum, Chong, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

#### **Conf. Com. Rep. 16 on H.B. No. 975**

The purpose of this bill is to allow the Agribusiness Development Corporation to acquire, or contract to acquire, by grant, purchase, or gift the real, personal, or mixed property comprising an agricultural water system to provide water for irrigation of agricultural lands.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 975, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 975, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kim, Kokubun, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

Representatives Tsuji, Ito, Wooley, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Marumoto).

**Conf. Com. Rep. 17 on H.B. No. 1152**

The purpose of this bill is to permit the Department of Public Safety (PSD) to:

- (1) Open more than one account with financial institutions per inmate, and maintain accounts within the PSD for inmate expenses during incarceration and upon release; and
- (2) Exempt payment of interest on the accounts maintained by PSD.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1152, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1152, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Hanohano, M. Lee, Aquino, Pine.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Aquino).

**Conf. Com. Rep. 18 on H.B. No. 618**

The purpose of this bill is to enact the Uniform Prudent Management of Institutional Funds Act to conform the law governing the spending of charitable endowment funds with modern investment and expenditure practices.

Your Committee on Conference finds that Hawaii law prohibits charities from expending endowment funds that fall below the principal of the endowment (historic dollar value). However, under current economic conditions, many endowments may be below their historic dollar value, preventing charities from funding their various programs.

Under this bill, allowable endowment fund expenditures are based upon the value of the fund's entire portfolio, rather than its historic dollar value. This improves the ability of charities to address fluctuations in the value of the endowment.

This bill also streamlines the process for releasing restrictions on the management, investment, or purpose of endowment funds that do not exceed certain value thresholds. Charities will be able to release these restrictions without court approval if the value of the fund is below \$250,000 and after obtaining the Attorney General's consent. For funds with a value of less than \$50,000, the charity may release restrictions without court approval after providing notice to the Attorney General.

Your Committee on Conference has amended this bill by:

- (1) Specifying that this bill applies to charitable funds existing on or established after July 1, 2009, the effective date of this bill; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 618, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 618, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Herkes, Karamatsu, Keith-Agaran, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 19 on H.B. No. 1479**

The purpose of this bill is to obtain better information and ensure payment of fringe benefits on public works projects by requiring that every contract for a public works project, to which a government contracting agency is a party, include in the contract a provision that a certified copy of a fringe benefit reporting form is to be submitted weekly to the governmental contracting agency for review.

Currently, proving that fringe benefit wages were not paid is difficult for an employee as there is no itemized listing of payments of fringe benefit wages on payroll records. At present, employers are only required to check a box indicating that they are in compliance with the payment of fringe benefit wages required under Chapter 104, Hawaii Revised Statutes. By requiring the itemization of these payments, compliance with rules regarding the payment of fringe benefits will be ensured.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that fringe benefits may be reported on any certified form that includes the required fringe benefit reporting information, in lieu of a form supplied by the Department of Labor and Industrial Relations;
- (2) Changing its effective date to October 1, 2009; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1479, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1479, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Taniguchi, Hee.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hee).

Representatives Rhoads, Yamashita, Nakashima, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 20 on H.B. No. 1676**

The purpose of this bill is to clarify Hawaii's prevailing wage law and ensure payment of prevailing wages on projects financed with special purpose revenue bonds (SPRBs) by requiring project parties to submit a collective bargaining agreement to the Director of the Department of Labor and Industrial Relations which will serve as the basis for compliance with all applicable prevailing wage requirements.

Currently, public works projects require the payment of prevailing wages. In 2007, the Legislature enacted Act 61 which specified that projects funded by SPRBs were considered public works and, therefore, subject to Hawaii's prevailing wage law. Since some companies that finance projects with SPRBs also use their own unionized employees on the particular project, allowing for the properly submitted collective bargaining agreement to serve as the basis for compliance with Hawaii's prevailing wage law appears reasonable.

Your Committee on Conference has amended this bill by changing its effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1676, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1676, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Tsutsui, Bunda.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Bunda).

Representatives Rhoads, Yamashita, B. Oshiro, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 21 on H.B. No. 1103**

The purpose of this bill is to facilitate conformance of state law to federal law to ensure eligibility for federal financial assistance for Independent Living Services and Centers by repealing the statute that establishes the Statewide Council on Independent Living as an entity within the Department of Human Services.

Your Committee on Conference has amended this bill by:

- (1) Amending language to more accurately reflect the bill's purpose; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1103, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1103, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Brower, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 22 on H.B. No. 1070**

The purpose of this bill is to improve the regulation of financial institutions by:

- (1) Allowing financial institutions to temporarily close or relocate branches or agencies for an emergency or other good cause;
- (2) Limiting how much a financial institution may invest in the obligations of any one issuer that is a United States government-sponsored agency originally established or chartered by the United States government to serve public purposes specified by Congress, but whose debt obligations are not explicitly guaranteed by the full faith and credit of the United States, except for investments by banks and savings banks in bonds, notes, mortgage-backed securities, and other debt obligations of the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and Federal Home Loan Banks; and
- (3) Allowing banks and savings banks to make limited investments in securities and obligations issued by a public-private investment fund established in connection with the Legacy Loans Program and Legacy Securities Program of the United States Treasury and Federal Deposit Insurance Corporation.

Your Committee on Conference finds that the limitations established by the original draft of this bill for investments by financial institutions in certain securities and obligations were prompted by the recent turmoil in global financial markets having a significant and negative impact on many large institutional investors. Given that the main purpose of this bill is to ensure that financial institutions engaging in such activities make prudent investments, this measure may not be the appropriate vehicle for provisions expanding the allowable investments by financial institutions to include securities and obligations that are part of a new federal program that has yet to be fully evaluated.

Your Committee on Conference further finds that the investment limitations imposed by this bill should be consistently applied to all of the financial institutions covered under this measure.

Accordingly, your Committee on Conference has amended this bill by:

- (1) Eliminating the provisions allowing banks and savings banks to invest in securities and obligations issued by a public-private investment fund established in connection with the Legacy Loans Program and Legacy Securities Program of the United States Treasury and Federal Deposit Insurance Corporation;
- (2) Clarifying that investments in securities and obligations of the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and Federal Home Loan Banks that are not bonds, notes, mortgage backed securities, or other debt obligations of those entities are subject to the investment limitations of this bill;
- (3) Uniformly applying the investment limitations imposed by this bill on banks, savings banks, savings and loan associations, trust companies, depository financial services loan companies, and credit unions;
- (4) Making this measure effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1070, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1070, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ige).

Representatives Herkes, Souki, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Wakai).

#### **Conf. Com. Rep. 23 on H.B. No. 814**

The purpose of this bill is to ensure the proficiency of health care providers by specifying:

- (1) The renewal period for recertification of nurse aides; and
- (2) The number of continuing education hours required for recertification.

Your Committee on Conference has amended this bill by:

- (1) Removing the per year specification for the number of continuing education hours required for recertification, so that no more than 24 hours are required in general; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 814, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 814, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Baker, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hemmings).

**Conf. Com. Rep. 24 on H.B. No. 28**

The purpose of this bill is to prevent commercial exploitation of human body remains by:

- (1) Prohibiting the sale or display of dead human bodies, including human bodies or remains that have been plastinated through the use of polymers; and
- (2) Increasing the monetary penalty for misuse of a dead human body from \$1,000 to \$5,000.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that the display of a dead human body for commercial purposes is prohibited; provided that the prohibition does not apply to a display of a dead human body that:
  - (A) Has been dead for more than 80 years;
  - (B) Consists solely of human teeth or hair;
  - (C) Is part of the ordinary display or viewing of the deceased at a funeral establishment or part of a similar funeral or memorial service;
  - (D) Is an object of religious veneration;
  - (E) Is an object of research or educational display in the possession of any federal, state, or county agency, any public or private institution of higher learning accredited under federal or state law, or any private entity in receipt of a federal, state, or county grant for health-related research; or
  - (F) Is in the possession of a museum facility;
- (2) Changing the definition of "dead human body" to mean an individual who has sustained either irreversible cessation of circulatory and respiratory functions or irreversible cessation of all functions of the entire brain, including the brain stem; provided that the determination of death be made in accordance with accepted medical standards;
- (3) Adding a definition of "museum facility";
- (4) Changing its effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 28, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 28, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Finnegan).

**Conf. Com. Rep. 25 on H.B. No. 358**

The purpose of this bill is to promote the rehabilitation of convicted drug offenders through alternatives to incarceration by authorizing the placement of certain drug offenders in secure drug treatment facilities.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 358, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 358, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Hanohano, Karamatsu, M. Lee, Aquino, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Karamatsu).

**Conf. Com. Rep. 26 on H.B. No. 262**

The purpose of this bill is to strengthen efforts to address insurance fraud by:

- (1) Replacing the Department of Commerce and Consumer Affairs' (DCCA) Insurance Fraud Investigations Unit with an Insurance Fraud Investigations Branch (Branch) with the expanded authority to prevent, investigate, and prosecute insurance fraud beyond motor vehicle insurance, to include all lines of insurance except workers' compensation;
- (2) Establishing criminal and administrative penalties, and a civil cause of action, for insurance fraud in all covered lines of insurance and for different types of insurance fraud, including fraudulent applications, claims, and sales; and
- (3) Directing the deposit of fines and settlements resulting from insurance fraud prosecutions into the Compliance Resolution Fund to help the Branch cover the cost of preventing, investigating, and prosecuting insurance fraud.

Current law provides DCCA with express jurisdiction over insurance fraud relating to motor vehicle insurance only. Your Committee on Conference finds that because insurance fraud occurs in every line of insurance, Hawaii's insurance fraud law should be expanded accordingly. By broadening DCCA's jurisdiction over insurance fraud, this bill provides a more comprehensive approach to combating this problem and will help reduce premiums and other costs for Hawaii's consumers and businesses.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that licensed attorneys are exempt from the insurance fraud provisions of this bill only in cases where they represent insurance claimants other than themselves;
- (2) Changing the effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 262, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 262, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Herkes, B. Oshiro, Keith-Agaran, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 27 on H.B. No. 1415**

The purpose of this bill is to require condominium associations, planned community associations, and cooperative housing corporations to implement a policy to provide entry for a process server to serve summonses, subpoenas, notices, or orders where entry to the property is inaccessible to the general public.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Requiring that the policy also:
  - (a) Set forth conditions of time and manner for the person serving civil process to enter and remain on the property; and
  - (b) Allow for immediate ejection from the building or community of a person serving civil process who has not complied with the conditions of access;
- (2) Exempting the association of apartment owners, cooperative housing corporation, or planned community association from liability resulting from the service of civil process being effected if access was granted and from liability to a person upon whom service of process is actually effected;
- (3) Requiring the board of directors of an association of apartment owners of a condominium to identify the individuals providing access to a person serving civil process in its biennial registration beginning January 1, 2010;
- (4) Requiring a cooperative housing corporation or planned community association to make available a printed copy of this policy at the principal point of entry to the building or community;
- (5) Repealing the provisions of this bill on July 1, 2012; and
- (6) Making technical, nonsubstantive amendments for consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1415, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1415, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Karamatsu, Wakai, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 28 on H.B. No. 541**

The purpose of this bill is to ensure that the civil service benefits of Department of Education (DOE) civil service employees are the same as those provided to civil service employees of other executive branch agencies by:

- (1) Extending from June 30, 2009, to June 30, 2010, the repeal date of the provision giving DOE civil service employees these same civil service benefits; and
- (2) Requiring DOE to submit a report to the Legislature on its progress on establishing an autonomous civil service system, if DOE has not established a separate civil service system by June 30, 2010.

Your Committee on Conference has amended this bill by:

- (1) Extending to June 30, 2011, the repeal date of the provision giving DOE civil service employees the same civil service benefits as those provided to civil service employees of other executive branch agencies;
- (2) Specifying that the report due, if DOE has not established a separate civil service system by June 30, 2010, must be submitted to the Legislature no later than 20 days prior to the convening of the 2011 regular session;
- (3) Clarifying that the report is on DOE's progress on establishing a separate human resources system; and
- (4) Changing its effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 541, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Sakamoto, Tsutsui.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Rhoads, C. Lee, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 29 on H.B. No. 1696**

The purpose of this bill is to improve the operations of the motor vehicle rental industry by:

- (1) Replacing statutory references to "collision damage waiver" with "damage waiver" to clarify that the waiver, under which the motor vehicle lessor agrees for a charge to waive any claim against the lessee for damages to the rental vehicle during the term of the rental agreement, is not restricted to damage from a collision;
- (2) Repealing the requirement that lessors submit information to the Department of Commerce and Consumer Affairs (DCCA) regarding their sale of damage waivers in a given year and amounts expended to repair damage to rental vehicles caused while the vehicles are subject to the damage waiver and instead requiring a lessor to collect and maintain data related to damage waivers and repairs and provide that information to DCCA upon request.
- (3) Allowing lessors to meet damage waiver option disclosure requirements by placing the information in wall holders;
- (4) Repealing the requirement that lessors place notices of vehicle laws in each rental vehicle;
- (5) Repealing the authority of DCCA to prescribe the form of notices and signs required of lessors;
- (6) Modifying the charges that may be assessed against a lessee for damage to a rental vehicle that is neither repaired nor declared a total loss, to allow the lessor to charge up to the costs of the parts and labor necessary to repair the vehicle and prohibiting the lessor from subsequently renting or leasing that vehicle; and
- (7) Prohibiting a lessor from recovering any amount for damages to a motor vehicle from a lessee that the lessor has also recovered from a third party.

Currently, the rental motor vehicle industry must meet certain requirements when notifying individuals renting motor vehicles about Hawaii's motor vehicle laws and collision damage waiver information. This measure simplifies the method by which this information is provided.

This measure also clarifies that a "collision damage waiver" applies to all types of damage a vehicle may sustain while it is being rented. This will avoid any misunderstanding by lessors that a "collision damage waiver" only applies to damages caused by impact with an object.

Finally, this bill attempts to resolve difficulties in determining the diminution in the value of a vehicle that is not repaired or declared a total loss by the lessor that may be considered a per se violation of unfair trade practices by the lessor. Using an estimated cost of repair of the damaged vehicle, as provided for in this measure, while prohibiting the lessor from subsequently renting or leasing that vehicle, would be a more equitable way to value the loss experienced by the lessor from the damaged vehicle.

Your Committee on Conference has amended this bill by:

- (1) Specifying that a lessor shall maintain the records reflecting the data collected by a lessor related to the sale of damage waivers and amounts expended to repair damage to rental vehicles caused while the vehicles are subject to the damage waiver for a period of three years;
- (2) Changing its effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1696, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1696, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 30 on H.B. No. 643**

The purpose of this bill is to protect worker rights by allowing the Contractors Licensing Board to revoke, suspend, or refuse to renew the license of a contractor who knowingly employs individuals who are ineligible for employment within the United States on public works contracts.

Although most businesses follow the laws and rules governing their industries with regard to employment of individuals who are ineligible for employment within the United States, some unscrupulous employers take advantage of these individuals since their employment can often reduce costs. However, the use of illegal workers cheats legal workers out of employment opportunities.

Recent events involving the construction industry resulted in the discovery of a number of these illegal workers. According to the Pacific Resource Partnership, between December 2007 and December 2008 at least 168 illegal undocumented workers were arrested in Hawaii with approximately 103 of these workers being employed by the construction industry.

While federal law regulates eligibility criteria for foreign workers in the United States, states retain a role in regulating state contracting and labor issues and the recent events involving the employment of illegal workers demonstrate the need for this measure.

Your Committee on Conference has amended this bill by changing its effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 643, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 643, H.D. 2, S.D. 2, C.D. 1.

Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 31 on H.B. No. 31**

The purpose of this bill is to protect individuals from discriminatory employment practices while protecting an employer's access to credit information under certain circumstances by:

- (1) Making it unlawful for an employer to refuse to hire or employ, or to bar or discharge from employment, or otherwise discriminate against any individual because of an individual's credit history or credit report;
- (2) Requiring any inquiry into and consideration of a prospective employee's credit history or credit report to take place only after the prospective employee has received a conditional offer of employment; and
- (3) Excluding the following from the prohibition against refusal to hire or employ, barring or terminating from employment, or otherwise discriminating on the basis of credit history:
  - (A) Employers who are expressly permitted or required to inquire into an individual's credit history for employment purposes pursuant to any federal or state law;
  - (B) Managerial or supervisory employees; and
  - (C) Employers that are financial institutions in which deposits are insured by a federal agency having jurisdiction over the financial institution.

While your Committee on Conference supports a worker's right to confidentiality of their credit history or record, it also recognizes that there may be limited instances where an employer may require the information in a credit report or history. This bill provides the balance between workers' rights and employers' needs by limiting the use of the information to situations that directly relate to an individual's bona fide occupational qualification, while continuing to allow access by employers to credit history information under certain circumstances.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 31, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 31, S.D. 1, C.D. 1.

**Conf. Com. Rep. 32 on H.B. No. 1611**

The purpose of this measure is to improve food safety by:

- (1) Requiring accurate labeling of meat and fish products that have been gas-treated to enhance product color or to approximate the appearance of freshness; and
- (2) Requiring the Department of Agriculture to post notice of this labeling requirement on its website.

Your Committee on Conference has amended this bill by:

- (1) Deleting provisions establishing a violation of labeling requirements as a misdemeanor punishable by a fine and imprisonment;
- (2) Establishing a fine for violation of labeling requirements of:
  - (A) \$1,000 for an initial violation; and
  - (B) \$2,000 for each subsequent violation;
 and
- (3) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1611, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1611, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 33 on H.B. No. 1776**

The purpose of this bill is to help prevent inmates from receiving public assistance to which they are not entitled by requiring:

- (1) The Department of Public Safety (PSD) to provide the Department of Human Services (DHS) with reports listing newly admitted inmates;
- (2) DHS to identify the status of each inmate on the lists with respect to the inmate's current receipt of public assistance;
- (3) The continuation of public assistance for the duration of the inmate's incarceration for inmates who are sentenced to incarceration in a public institution for not more than 30 days; and
- (4) That public assistance be terminated for inmates who are sentenced to incarceration in a public institution for more than 30 days.

Your Committee on Conference has amended this bill by:

- (1) Providing that DHS will identify the status of each inmate on the monthly lists as well as the initial list provided by PSD to determine the inmate's current receipt of public assistance;
- (2) Deleting provisions requiring:
  - (A) The continuation of public assistance for the duration of the inmate's incarceration for inmates who are sentenced to incarceration in a public institution for not more than 30 days; and
  - (B) That public assistance be terminated for inmates who are sentenced to incarceration in a public institution for more than 30 days;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1776, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1776, H.D. 1, S.D. 1, C.D. 1.

Representatives Hanohano, Mizuno, Aquino, Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 34 on H.B. No. 1316**

The purpose of this bill is to strengthen the availability of qualified consultants to highway projects, by limiting the liability of design professionals in certain tort claims relating to the maintenance and design of public highways.

Under this measure, liability for more than the design professional's pro rata share of negligence is restricted to the policy limits of the design professional's coverage for professional errors and omissions, if the design professional's degree of negligence is less than ten percent and the tort claim meets certain criteria regarding:

- (1) The contract amount for design professional services relating to the tort claim;
- (2) The amount of the design professional's gross revenue in the year or years preceding the date of the contract; and
- (3) The coverage amounts of professional errors and omissions liability insurance.

Design professionals include professional engineers, architects, surveyors, and landscape architects licensed under Chapter 464, Hawaii Revised Statutes. This bill seeks to limit the liability of design professionals in highway maintenance and design tort claims as a means of ensuring that these professionals, particularly smaller firms, can afford to work on highway projects.

Your Committee on Conference has amended this bill by:

- (1) Adding a preamble;
- (2) Providing that this measure applies:
  - (A) To tort claims involving the design, construction, and maintenance of all highways; and
  - (B) Where the design professional's degree of negligence is ten percent or less, including the vicarious liability for the negligent acts or omissions of the design professional's officers or employees;
- (3) Capping the design professional's liability under this measure at the available policy limits of professional liability coverage after reduction for prior claim payments made;
- (4) Increasing the thresholds for design professional service contract amounts covered under this bill to:
  - (A) Up to \$500,000 for design professionals with coverage for the tort claim of at least \$1,000,000 per occurrence and \$1,000,000 in the aggregate; and
  - (B) Up to \$1,000,000 for design professionals with coverage for the tort claim of at least \$1,000,000 per occurrence and \$2,000,000 in the aggregate;
- (5) Replacing the criteria for design professionals' gross revenue based on the contract amount with a provision limiting the application of this bill to design professionals with a gross annual revenue of at least \$10,000,000 during any of the three calendar years immediately preceding the effective date of the contract for design professional services;
- (6) Providing that information relating to a design professional's gross revenue produced pursuant to this bill is confidential and to be used only for purposes of this measure unless otherwise ordered by the court;
- (7) Adjusting the savings clause;
- (8) Making this measure effective upon its approval; and
- (9) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1316, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1316, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Ige, Sakamoto, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Herkes, Karamatsu, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Wakai).

**Conf. Com. Rep. 35 on H.B. No. 271**

The purpose of this bill is to allow the Registrar of the Bureau of Conveyances (Registrar) to:

- (1) Accept electronic documents for recording;
- (2) Furnish copies of documents and plans in electronic form; and
- (3) Convert into electronic form documents or information received before the authority to record electronic documents was granted to the Registrar.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and to conform to drafting style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 271, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 271, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ito, Karamatsu, Wakai, Har, Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 36 on H.B. No. 982**

The purpose of this bill is to gather information about and to assist employees who provide family caregiving services by establishing a web-based, family leave data collection system to gather and analyze family caregiving data for public and private-sector employees, which will be used for the future development and implementation of an efficient state family leave system.

With Hawaii's aging population, more and more adults need some kind of help in caring for themselves. Oftentimes, this caregiving need is met by younger family members who are currently employed and necessitates the use of family leave for these caregiving purposes.

Your Committee on Conference finds that the Legislature noted the difficult situation family caregivers faced when it enacted Act 243, Session Laws of Hawaii 2008 (Act 243). Act 243 established a family leave working group to explore the provision of wage replacement benefits to employees who needed to take time off from work to care for a family member with a serious health condition. Although the working group met a number of times to discuss this issue, they were unable to reach a consensus as to what to do about this problem, due in part to a lack of data with which to develop estimates of the number of participants in a paid leave program and the potential costs of such a program. The data-collection system proposed in this measure should provide needed information for policymakers to make an informed decision on this subject.

Your Committee on Conference has amended this bill by:

- (1) Authorizing the use of Disability Benefits Special Fund monies for the establishment of a family leave data collection system;
- (2) Inserting an appropriation of \$10,000;
- (3) Changing its effective date to July 1, 2009; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 982, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 982, H.D. 3, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Tsutsui, Hee.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hee).

Representatives Rhoads, Chang, Tokioka, M. Lee, Finnegan.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Finnegan).

**Conf. Com. Rep. 37 on H.B. No. 1040**

The purpose of this bill is to extend until June 30, 2013, the sunset date of:

- (1) The liability protections for lifeguards; and
- (2) The liability protections for the State and counties for incidents arising on improved public lands when certain warning requirements are met.

Your Committee on Conference has amended this bill by:

- (1) Extending the liability protections until June 30, 2014; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1040, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1040, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 38 on H.B. No. 366**

The purpose of this bill is to protect manta rays by establishing fines and penalties for knowingly killing or capturing manta rays within state waters.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 366, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 366, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Taniguchi, Fukunaga, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Ito, Karamatsu, Coffman, Ching.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 39 on H.B. No. 983**

The purpose of this bill is to enhance traffic safety, especially around Hawaii schools by requiring the Director of Transportation to:

- (1) Provide federal Safe Routes to School program funds for school-based and community-based workshops and infrastructure and non-infrastructure projects that will reduce vehicular traffic and congestion, encourage walking and bicycling, and promote health and safety around Hawaii's schools, in consultation with the Department of Education, Department of Health, and Hawaii Association of Independent Schools;
- (2) Consider certain conditions in implementing the Safe Routes to School program, including:
  - (A) Creating and filling a permanent, full-time Safe Routes to School coordinator position;
  - (B) Maximizing the participation of stakeholder groups;
  - (C) Training volunteer facilitators, potential grant requestors, and stakeholder groups; and
  - (D) Allocating at least ten percent and not more than 30 percent of federal Safe Routes to School program funds for non-infrastructure-related activities;

- (3) Develop a streamlined process for the federal Safe Routes to School grant program that meets federal and state requirements, simplifies the application process, and expedites release of funding; and
- (4) Submit a report of the status and progress of the program prior to the convening of the Regular Session of 2010.

Traffic congestion continues to increase around Hawaii's schools. This, in turn, causes parents, who worry about the safety of their children, to drive their children to school, causing even more congestion around schools and increasing safety risks for students. Providing Safe Routes to School Program funds for school-based and community-based workshops, infrastructure and non-infrastructure projects to promote alternative methods of transportation to school, and streamlining and simplifying the grant process for these funds, will not only alleviate traffic congestion but increase student safety.

Your Committee on Conference has amended this bill by changing its effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 983, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 983, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, English, Tsutsui, Galuteria, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

Representatives Souki, Berg, Awana, M. Lee, Ching.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 40 on H.B. No. 813**

The purpose of this bill is to designate September as "Language Access Month" to promote awareness of language access for government services and emphasize the importance of and need for language access in Hawaii's diverse society.

Your Committee on Conference notes that on August 11, 2000, President Clinton issued an executive order directing all federal agencies to publish written policies on how recipients can provide access to persons of limited English proficiency and improve language accessibility to its programs.

Accordingly, your Committee on Conference has amended this bill by:

- (1) Adding language recognizing the August 11, 2000, executive order; and
- (2) Changing "Language Access Month" from September to August.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 813, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 813, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ihara, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Manahan, Keith-Agaran, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 41 on H.B. No. 1141**

The purpose of this bill is to exempt certain users from the ban on the operation of thrill craft in undesignated waters of the state. Specifically, this bill:

- (1) Exempts from the ban, authorized film production permit holders and government personnel conducting operations approved by the Department of Land and Natural Resources (DLNR);
- (2) Repeals the exemption for film production permit holders on June 30, 2014; and
- (3) Requires DLNR and the Hawaii Film Office to submit annual reports to the Legislature on thrill craft use by authorized film production permit holders.

Your Committee on Conference has amended this bill by making technical, nonsubstantive changes for style, clarity, and conformity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1141, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1141, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Fukunaga, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ito, Manahan, McKelvey, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 42 on H.B. No. 1379**

The purpose of this bill is to ensure that a person's wishes regarding end-of-life care are followed by allowing the use of a standardized "physician orders for life sustaining treatment form" (Form), which states an individual's wishes regarding end-of-life treatment in all pre-hospital and health care settings.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that the person authorized to take action on behalf of an incapacitated patient is the patient's surrogate;
- (2) Deleting the requirement that a patient's surrogate be designated by the patient;
- (3) Allowing health care providers other than a patient's physician to explain to a patient the nature and content of the Form;
- (4) Allowing the surrogate of an incapacitated patient to revoke a Form;
- (5) Clarifying that a health care provider will not be deemed to be at fault for carrying out treatment orders in a Form in good faith;
- (6) Changing the effective date to upon its approval; and
- (7) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1379, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1379, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Taniguchi, Baker, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Karamatsu, Nishimoto, M. Lee, Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 43 on H.B. No. 1512**

The purpose of this bill is to allow a family court judge to issue an ex parte temporary restraining order (TRO) to:

- (1) Grant exclusive care of a pet animal or equine animal to a party; and
- (2) Restrain both parties from taking, concealing, removing, threatening, physically abusing, or otherwise disposing of any pet animal or equine animal whose exclusive care has been granted to a protected party.

Your Committee on Conference notes that this measure is intended to protect the well-being of animals and that its language should not be construed to impede a person from or penalize a person for taking or removing an animal requiring urgent veterinary care to an appropriate facility or person, or for allowing an animal to be euthanized by a veterinarian if the veterinarian deems the procedure appropriate under the circumstances.

Your Committee on Conference has amended this bill by:

- (1) Requiring both parties to be covered by the TRO to preclude the possibility that one party might misuse the TRO process with the intent of gaining control over and abusing an animal;
- (2) Requiring that a party seeking the TRO identify to the court the animals that are a part of a household and in need of protection;
- (3) Deleting references and definitions of "pet animal" and "equine animal" to allow the court greater discretion in granting protection to animals; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1512, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1512, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Nishihara, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Karamatsu, Tsuji, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 44 on H.B. No. 640**

The purpose of this bill is to eliminate undue delays for certain actions that involve the installation, improvement, renovation, construction, or development of infrastructure (including roadway improvements, waterlines, wastewater lines and facilities, drainage facilities, and electrical, communication, and cable utilities) within a public right-of-way or highway by clarifying that such projects are exempt from Chapter 343, Hawaii Revised Statutes, the environmental review law.

Your Committee on Conference has amended this bill by:

- (1) Inserting a preamble;
- (2) Clarifying that the exemption from the environmental review law under this bill applies to any primary action requiring a permit or approval that is not subject to a discretionary consent and involving a secondary action that is ancillary and limited to infrastructure development within a public right-of-way or highway;
- (3) Eliminating the provision disqualifying projects involving infrastructure that may have a significant effect on the environment from the exemption under this measure;
- (4) Inserting a definition for "discretionary consent";
- (5) Changing the effective date to July 1, 2009, with a sunset date of July 1, 2011; and
- (6) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 640, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 640, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English, Taniguchi, Kokubun, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Hemmings).

Representatives Morita, Ito, Souki, Ching.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 45 on H.B. No. 1470**

The purpose of this bill is to update the Hawaii Public Procurement Code (Code) to expedite Hawaii's ability to use and benefit from federal economic stimulus funds by, among other things:

- (1) Exempting federal General Services Administration-approved sole source vendors from the Code in procurements funded by state and federal matching funds;
- (2) Increasing the \$50,000 limit on procurements qualifying for certain small purchase procedures, to \$100,000 for goods or services, and \$250,000 for construction;
- (3) Strengthening the preference for Hawaii products by:
  - (A) Defining "Hawaii input";
  - (B) Increasing from 25 percent to more than 50 percent, the percentage of Hawaii input needed for a product to qualify as a Hawaii product;
  - (C) Establishing two classes of Hawaii products, class I where the Hawaii input exceeds 50 percent, and class II where an agricultural or similar product is raised grown, or harvested in the state;
  - (D) Providing a ten percent reduction in the bid price for class I products, and 15 percent for class II products;
  - (E) Allowing Hawaii product offerors to self-certify, subject to invalidation of the contract and the penalties of debarment or suspension;
- (4) Requiring dismissal of protests based on an inadvertent error in the competing bid amounting to not more than one percent of the bid amount;
- (5) Establishing a limit of 30 days for administrative review of procurement decisions, ten days to transmit the record of administrative proceedings to the Circuit Court, and 30 days for judicial review;
- (6) Limiting protests of bid and request for proposals contract awards under section 103D-302 or 103D-303, Hawaii Revised Statutes (HRS), to matters equal to not less than ten percent of the contract value; and
- (7) Requiring the initiating party to pay a cash or protest bond equal to one percent of contracts valued at \$1,000,000 or more, which must be forfeited to the State if the party does not prevail.

Your Committee on Conference has amended this bill by:

- (1) Restricting the performance bond requirement for small purchase construction procurements, to contracts of more than \$50,000;
- (2) Providing that no exemptions from the Code apply to fresh meats, produce, animals, and plants, other than those listed in section 103D-102(b), HRS;
- (3) Removing the definitions of "Hawaii component" and "Hawaii product";
- (4) Removing the provisions requiring dismissal of protests concerning inadvertent errors amounting to less than one percent of the bid amount;
- (5) Requiring the State Procurement Office to keep statistics of protests of the solicitation or award of a contract, including protests involving inadvertent errors, for the purpose of improving procurement procedures;
- (6) Making fact finding under section 91-10, HRS, of the Administrative Procedure law, applicable to the administrative review of a procurement decision, instead of the Hawaii Rules of Evidence;
- (7) Requiring administrative hearings officers to issue a written decision no later than 45 days after receiving a request for review;
- (8) Providing that persons protesting the solicitation or award of a contract under the bid or request for proposals procedures of section 103D-302 or 103D-303, HRS:
  - (A) May request an administrative review if:
    - (i) The contract has an estimated value of less than \$1,000,000 and the protest concerns a matter that is greater than \$10,000; or
    - (ii) The contract has an estimated value of \$1,000,000 or more, and the protest concerns a matter equal to no less than ten percent of the contract;
  - (B) Must post a cash or protest bond:
    - (i) In the amount of \$1,000 for a contract with an estimated value of less than \$500,000;
    - (ii) In the amount of \$2,000 for a contract with an estimated value of \$500,000 or more, but less than \$1,000,000;
    - (iii) In the amount of one-half percent of the total estimated value of the contract if the total estimated value of the contract is \$1,000,000 or more, and capping the bond at \$10,000; and
    - (iv) Which must be deposited into the general fund if the initiating party does not prevail;
- (9) Providing that if an application for judicial review is not resolved by the 30th day from filing, the court shall lose jurisdiction and the decision of the hearings officer shall not be disturbed;
- (10) Allowing the procurement protest and dispute provisions of the bill to be evaluated by providing that they will sunset on July 1, 2011; and
- (11) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1470, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1470, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Takamine, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Choy, B. Oshiro, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 46 on H.B. No. 128**

The purpose of this bill is to update, organize, and clarify, as well as make minor substantive amendments to, current campaign finance laws.

Your Committee on Conference notes that this measure does not revise current substantive law regarding contribution limits to candidate committees or noncandidate committees; the language in this measure is identical to that currently codified in HRS 11-204(a) and 11-204(b). Your Committee on Conference does not consider it prudent to address new or clarified limitations on such contributions at this time due to pending appellate judicial review of *Charmaine Tavares Campaign v. Barbara U. Wong* by the Intermediate Court of Appeals.

Your Committee on Conference has amended this bill by:

- (1) Amending certain definitions for clarity and consistency;
- (2) Restricting the limitation on contributions by contractors with the State to contributions by non-bid contractors only;
- (3) Allowing for pro-rata attribution of contributions by partnerships and limited liability companies considered as partnerships by the Internal Revenue Service among the partners or members;

- (4) Specifying the manner in which contributions by partnerships and limited liability companies will be treated;
- (5) Increasing the limit on contributions by non-residents from 20 percent to 30 percent of the total contribution received by a candidate or candidate committee for each election period;
- (6) Providing that campaign funds to be used for donations to public schools or public libraries are subject to limitations similar to those for donations to community service or educational organizations already allowed under current law;
- (7) Specifying that each candidate who qualified for the maximum amount of public funding in any primary election and who is a candidate for a subsequent general election must apply with the Campaign Spending Commission to be qualified to receive the maximum amount of public funds; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 128, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 128, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Takamine, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Takamine).

Representatives Karamatsu, B. Oshiro, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 47 on H.B. No. 1713**

The purpose of this bill is to alleviate hazardous situations on private property resulting from falling branches, unstable rock and soil conditions, and flooded streams and waterways. This bill allows state employees to mitigate the hazardous situation after giving notice to the landowner and occupier of the private property and providing them a reasonable opportunity to resolve the situation.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Clarifying that one of the applicable actions involves the need to cut, trim, or remove dangerous trees or branches that pose a hazard to one or more other properties;
- (2) Specifying that a ten days' notice also be provided to the occupier of the private property;
- (3) Changing the effective date to July 1, 2009; and
- (4) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1713, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1713, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Taniguchi, Tsutsui, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Karamatsu, Hanohano, Aquino, Nakashima, Wooley, Thielen.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 48 on H.B. No. 994**

The purpose of this bill is to establish space tourism in Hawaii and expand the technology sector of our economy by appropriating moneys out of the Airport Revenue and Tourism Special Funds to apply to the Federal Aviation Administration (FAA) for a spaceport license.

Space tourism could significantly increase state revenue sources, provide new aerospace jobs, and rejuvenate economic development in the Kalaeloa area. However, as only a few spaceport licenses are available from the FAA, timely passage of this measure is essential.

Your Committee on Conference has amended this bill by:

- (1) Making technical, nonsubstantive amendments to ensure that the funds appropriated from the Airport Revenue and Tourism Special Funds may be expended by the Department of Business, Economic Development, and Tourism for the spaceport license application;
- (2) Changing its effective date to July 1, 2009; and
- (3) Making other technical, nonsubstantive amendments for clarity consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 994, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 994, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Tsutsui, Nishihara, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Choy, Manahan, Wakai, Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**Conf. Com. Rep. 49 on H.B. No. 1174**

The purpose of this bill is to enable the University of Hawaii (UH) to better carry out its management obligations regarding activities and uses that take place on the Mauna Kea lands that it leases or over which it acquires control or jurisdiction. This bill clarifies and adds certainty to the law relating to UH's authority to manage and control public and commercial activities on the Mauna Kea lands by:

- (1) Authorizing the UH Board of Regents (BOR) to charge fees and enter into lease agreements for the Mauna Kea lands, adopt rules to regulate public and commercial activities on Mauna Kea lands, and establish and collect administrative fines for violations;
- (2) Establishing the Mauna Kea Lands Management Special Fund for UH to manage the Mauna Kea lands; and
- (3) Requiring annual reports to the Legislature.

Your Committee on Conference has amended this bill by:

- (1) Including any recreational activities, rather than only snow play activities, in the types of public and commercial activities that could be covered by administrative rules;
- (2) Requiring the BOR to hold at least one public hearing, in addition to the public hearing at which decision-making on the proposed rule is made, on the island of Hawaii;
- (3) Clarifying that the penalty for the third violation of a rule within five years of a prior violation and any subsequent violation, shall not exceed \$10,000;
- (4) Changing its effective date to July 1, 2009; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1174, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1174, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kokubun, Tsutsui, Takamine, Hemmings.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

Representatives Chang, Karamatsu, M. Oshiro, Nakashima, Tsuji, Ching.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 50 on H.B. No. 1471**

The purpose of this bill is to promote local agriculture by:

- (1) Establishing the Food Certification Pilot Program (Program) within the Department of Agriculture (DOA) to:
  - (A) Encourage farmers to form agricultural cooperatives;
  - (B) Coordinate purchasing agreements between the agricultural cooperatives and hotels, restaurants, and other buyers in the visitor and hospitality industries; and
  - (C) Develop and implement safe food certification for products under the Program for at least 100 farmers each year;
 and
- (2) Establishing the Food Certification Pilot Program Special Fund (Special Fund) and appropriating funds for the Program.

Your Committee on Conference has amended this bill by:

- (1) Adding a purpose and findings section describing the nexus between agriculture and the tourism industry;
- (2) Changing the name of the Program to the Safe Food Certification Pilot Program;
- (3) Removing the requirement that at least 100 farmers be certified under the Program each year;

- (4) Removing the establishment of the Special Fund;
- (5) Changing the source of funding from general revenues to the Tourism Special Fund (TSF);
- (6) Appropriating \$140,000 from the TSF to be transferred to DOA to administer the Program for the 2009-2010 fiscal year; and
- (7) Changing the effective date to July 1, 2009, and repealing the measure on June 30, 2010.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1471, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1471, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kim, Fukunaga, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fukunaga).

Representatives Manahan, Tsuji, Tokioka, Wooley, Marumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 51 on S.B. No. 199**

The purpose of this measure is to limit claims for a number of business tax credits for taxable years beginning January 1, 2009, and ending before January 1, 2011, to seventy-five per cent of the taxpayer's liability for the taxable year in which the credit is claimed.

The measure also:

- (1) Prohibits tax credit carryovers into subsequent taxable years of any business credit generated between January 1, 2009, and December 31, 2010;
- (2) Applies to tax credits under the income tax law, public service company tax law, taxation of banks and other financial corporations law, and the insurance code; and
- (3) Includes a list of tax credits that are exempt from the limitations provided for in this measure.

Upon further consideration, your Committee has amended S.B. No. 199, S.D. 1, H.D. 1, by:

- (1) Changing the amount of the tax credit claim limitation from seventy-five per cent to ninety per cent of a taxpayer's tax liability and removing references to "business tax credits" and replacing it with the high technology business investment tax credit and the technology infrastructure renovation tax credit;
- (2) Providing for the temporary treatment of pass-through entities for income tax credit allocation purposes;
- (3) Temporarily removing the partner distributive share tax incentive for the high technology business investment tax credit;
- (4) Temporarily suspending the capital goods excise tax credit for one year to coincide with the federal capital goods excise tax credit under section 179 of the Internal Revenue Code; and
- (5) Repealing the entire measure on January 1, 2012, instead of January 1, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 199, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 199, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.

Managers on the part of the House.

Ayes, 5. Ayes with Reservations, 1 (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 52 on S.B. No. 1111**

The purpose of this measure is to increase the transient accommodations tax to an unspecified amount beginning July 1, 2009, and require that the additional revenues collected be deposited into the general fund.

Your Committee upon further consideration has made the following amendments to S.B. No. 1111, S.D. 1, H.D. 1, by:

- (1) Providing for an additional increase on the gross rental or gross rental proceeds derived from furnishing transient accommodations, to be deposited into the general fund, of:
  - (A) One per cent for the period beginning July 1, 2009, to June 30, 2010; and
  - (B) Two per cent for the period beginning July 1, 2010, to June 30, 2015;
- (2) Providing that the measure shall be repealed on June 30, 2015;

- (3) Changing the effective date of the measure to July 1, 2009; and
- (4) Making technical changes for the purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1111, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1111, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kokubun, Nishihara.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 53 on S.B. No. 603**

The purpose of this measure is to promote competition in the telecommunications marketplace by requiring the Public Utilities Commission to treat local exchange intrastate services as fully competitive with regard to costs, rates, and pricing and to consider wireless, voice over internet protocol (VOIP), and other telecommunications technology providers when determining competition in the switched access telecommunications market.

Your Committee finds that advances in technology make wireless and VOIP telephone services a reasonable substitute for traditional land line, or switched access, service for many consumers. However, many other consumers, especially low income consumers and those in remote areas, remain dependent on switched access. It is the intent of your Committee that critical telecommunications services such as Lifeline phone rates remain undisturbed by this measure. Your Committee finds that this measure will update Hawaii's regulatory framework for telecommunications providers and create market parity among all phone service providers by regulating wireless and VOIP providers in the same manner as switched-access providers.

Your Committee has amended this measure by:

- (1) Clarifying that this measure applies notwithstanding section 269-16.9, Hawaii Revised Statutes; and
- (2) Deleting language that would have made the amendments made by this measure effective on July 1, 2009; and
- (3) Specifying that a telecommunications carrier shall not charge a higher rate for any retail telecommunications service than the rate included in the carrier's filed tariff without the approval of the public utilities commission.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 603, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 603, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ige).

Representatives Herkes, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 54 on S.B. No. 1065**

The purpose of this measure is to exempt, under certain conditions, sales of electricity generated by the Natural Energy Laboratory of Hawaii Authority (NELHA) from renewable energy sources from regulation by the Public Utilities Commission when those sales are made to users located on adjacent property that is leased from the State.

Your Committee finds that this measure will make NELHA more efficient and cost-effective and enable it to better serve its tenants and adjoining small businesses located on land leased from the State.

Your Committee upon further consideration has amended this measure by changing the effective date from "January 1, 2112" to "upon approval".

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1065, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1065, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Fukunaga, Baker, Green, Hemmings.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Hemmings).

Representatives Morita, McKelvey, Herkes, Evans, Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 55 on S.B. No. 281**

The purpose of this measure is to allow the counties to prohibit or regulate the use of electric personal assistive mobility devices on sidewalks and bicycle paths.

The intent of your Committee on Conference is to enhance the safety of pedestrian sidewalk and bicycle path traffic. Your Committee finds that electric personal assistive mobility devices, also known as Segways, present unique problems to sidewalk pedestrian and bicycle path use which depends on the character of each neighborhood. Each county is better able to judge for itself the permissible use of Segways on sidewalks and bicycle paths. Your Committee also believes that this matter is a home-rule issue that should be delegated to the counties.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 281, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 281, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Gabbard, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, Karamatsu, Awana, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 56 on S.B. No. 711**

The purpose of this measure is to clarify that the length of an articulated bus for public transit purposes must not exceed eighty-two feet in length, and shall not consist of more than three units.

The intent of your Committee on Conference is to provide greater efficiency in the movement of passengers through a public transit system by allowing larger articulated buses to operate on public roadways.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval, and making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 711, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 711, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Gabbard, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, Karamatsu, Awana, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 57 on S.B. No. 659**

The purpose of this measure is to amend the disclosure requirements for recipients of monetary awards by the State. More specifically, this measure:

- (1) Eliminates the requirement that the North American Industry Classification System code be part of the information that is posted on the website; and
- (2) Requires the Department of Accounting and General Services to collaborate with the Department of Budget and Finance to collect and post on the website information about awards issued by the State.

Your Committee has amended this bill by changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 659, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 659, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Representatives M. Oshiro, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (M. Lee).

**Conf. Com. Rep. 58 on S.B. No. 971**

The purpose of this measure is to conform state tax law to certain amendments to the Internal Revenue Code for calendar year 2008.

This measure also makes certain penalty provisions under the Internal Revenue Code operative under state tax law.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions making certain penalty provisions under the Internal Revenue Code operative for purposes of state tax law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 971, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 971, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Taniguchi, Hooser, Kidani, Tsutsui.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Choy).

**Conf. Com. Rep. 59 on S.B. No. 714**

The purpose of this measure is to allow all motor vehicles, regardless of number of persons on board, to use high occupancy vehicle lanes or zipper lanes when one or more lanes of traffic moving in the same direction have been shut down by law enforcement officers or emergency services personnel; provided that the Director of Transportation has declared an emergency and opened the high occupancy vehicle lanes or zipper lanes for this use.

The intent of your Committee on Conference is to alleviate traffic congestion due to lane closures stemming from traffic incidents or accidents. Your Committee finds that many traffic incidents cause closure of lanes, whether accidents, car crashes, stalled vehicles, or other issues. This reduction of available travel lanes slows traffic significantly. Allowing the use of the high occupancy vehicle lanes or zipper lanes to any motor vehicle, regardless of the number of passengers when an incident occurs would be the most effective use of lanes.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 714, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 714, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Gabbard, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, Karamatsu, Har, Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 60 on S.B. No. 564**

The purpose of this measure is to clarify fire inspection laws by:

- (1) Clarifying that the county fire chiefs or their designees are authorized to inspect all buildings and facilities, except state-owned airport facilities, and not only those that are state-owned or county-owned; and
- (2) Requiring fire safety inspections at least once every five years or as often as practicable or necessary instead of every two years for all buildings other than public schools.

Your Committee on Conference finds that requiring the County Fire Chief, or the Chief's designee, to inspect all buildings and facilities at least once every five years or as often as deemed practicable or necessary provides the County Fire Chief with much needed flexibility in carrying out inspection duties. Limited resources are available to the County Fire Chief and over the years the number of facilities to inspect has greatly increased. This measure ensures that resources are focused on buildings and facilities that are more in need of immediate inspection, thus ensuring that fire prevention and pre-fire planning issues are timely addressed.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the County Fire Chief is authorized to inspect all buildings and facilities; and

- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 564, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 564, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, English, Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Hanohano, M. Lee, Aquino, Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 61 on S.B. No. 1183**

The purpose of this measure is to statutorily authorize and require the Hawaii Civil Rights Commission to define in administrative rules certain definitions for purposes of discriminatory employment practices.

Specifically, this measure requires the Hawaii Civil Rights Commission to define:

- (1) "Major life activities";
- (2) "Being regarded as having such an impairment";
- (3) "Disability";
- (4) "Substantially limits"; and
- (5) Other operative terms,

to conform state law protections against disability discrimination in employment to the American with Disabilities Act Amendments Act of 2008, Pub. L. 110-325.

Your Committee upon further consideration has made the following amendments to this measure:

- (1) Placing the provisions that require the Hawaii Civil Rights Commission to adopt rules to define the foregoing terms in Session Laws rather than codifying these provisions in the Hawaii Revised Statutes;
- (2) Including a requirement that the Hawaii Civil Rights Commission complete the rulemaking process no later than December 31, 2010; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1183, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1183, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Takamine, Taniguchi.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Mizuno, Ito, Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 62 on S.B. No. 868**

The purpose of this measure is to update and clarify the duties of the Energy Resources Coordinator to oversee statewide energy resource planning to develop local, non-fossil fuel energy sources in order to decrease Hawaii's dependence on imported fossil fuels and realize the State's long-term goal of energy independence.

Your Committee on Conference finds that there is a need to coordinate the development of the State's energy resources to provide energy security by increasing the use of indigenous renewable energy and reducing the State's overdependence on oil.

Your Committee on Conference has amended this measure by changing its effective date from "July 1, 2020" to "July 1, 2009."

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 868, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 868, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Herkes, M. Oshiro, Coffman, Marumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 63 on S.B. No. 470**

The purpose of this measure is to amend certain provisions relating to liquor industry licensing, practices, and adjudication process. Among other things, this measure:

- (1) Allows liquor license issuances and renewals for applicants complying with an installment plan agreement for the payment of delinquent taxes;
- (2) Allows a certain amount of the fines collected from licensees each year to be used for public liquor-related educational or enforcement programs;
- (3) Amends the statute on liquor license transfers to more accurately reflect modern business enterprise organizations; and
- (4) Extends the time frame for liquor commissions to grant or refuse a liquor license application following a public hearing.

This measure is the result of a comprehensive review of chapter 281, Hawaii Revised Statutes, conducted by the four county liquor control departments, including their commissions and adjudication boards, and in cooperation with industry representatives. As such, it will provide clarity and consistency for both businesses and the entities charged with regulating liquor licensing in the State.

Your Committee has amended this measure by changing the effective date to upon its approval, and making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 470, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 470, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Baker, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Herkes, Karamatsu, Keith-Agaran, Yamashita, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Yamashita).

**Conf. Com. Rep. 64 on S.B. No. 203**

The purpose of this measure is to deter unlicensed contractor activity by increasing monetary sanctions for violations involving unlicensed contractor activity.

Your Committee finds that while unlicensed contractor activity can be disruptive of health, safety, and consumer protection standards, licensed contractors who make a sincere effort to remain in compliance with applicable laws and rules should not be subject to unduly harsh penalties for inadvertent or minor violations. Your Committee acknowledges that this measure is the result of a collaborative effort among the Department of Commerce and Consumer Affairs and various stakeholders to deter unlicensed contractors from avoiding licensing and oversight. Your Committee notes, however, that it is not the intent of this measure to impose an unintentionally severe penalty for a minor or inadvertent compliance violation. Your Committee further notes that the Department of Commerce and Consumer Affairs has communicated its intention to remain flexible and to use reasonable discretion in imposing financial penalties.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 203, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 203, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Herkes, B. Oshiro, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 65 on S.B. No. 35**

The purpose of this measure is to exempt certified public accountants and public accountants, who are already subject to regulation by the Board of Public Accountancy, from the definition of "distressed property consultant" under the Mortgage Rescue Fraud Prevention Act, chapter 480E, Hawaii Revised Statutes.

Under current law, a public accountant or certified public accountant is prevented from performing routine accounting services to assist with financial matters that may arise relating to the foreclosure process. Your Committee finds that, although protection of financially vulnerable homeowners is critical, public accountants and certified public accountants are already subject to regulation by

the Board of Public Accountancy, which supplies adequate protection to consumers of public accounting services through existing licensing standards and disciplinary procedures.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 35, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 35, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Herkes, B. Oshiro, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 66 on S.B. No. 34**

The purpose of this measure is to exempt licensed real estate brokers and salespersons acting within the scope of their licenses from the definition of “distressed property consultant” under the Mortgage Rescue Fraud Prevention Act, chapter 480E, Hawaii Revised Statutes. This measure also prohibits a real estate broker or salesperson from acquiring an ownership interest in distressed property within two years after a listing agreement for the distressed property has expired or is terminated.

Under current law, a real estate licensee is prohibited from participating in short sale transactions that allow a homeowner at risk of foreclosure to negotiate a reduced payment price with a lender in order to avoid the long-term consequences of foreclosure. Your Committee finds that protecting homeowners who are in a financially vulnerable position is of paramount importance. Your Committee is also aware that the potential for conflicts of interest or abuse does exist when real estate licensees are involved in short sale negotiations. However, your Committee finds that existing civil and criminal penalties in Hawaii’s real estate licensure and fraud-prevention statutes are adequate to protect consumers. Further, this measure adds additional protections to the current law by prohibiting a real estate licensee from acquiring an ownership interest in property for a period of time after the property is listed with the licensee for a short sale.

Your Committee has amended this measure by:

- (1) Changing the period during which a real estate licensee is prohibited from acquiring an ownership interest in distressed property from two years to three hundred sixty-five days;
- (2) Making it effective upon approval; and
- (3) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in its language.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 34, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 34, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ige).

Representatives Herkes, B. Oshiro, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Wakai).

**Conf. Com. Rep. 67 on S.B. No. 914**

The purpose of this measure is to conform certain provisions of the Hawaii Revised Statutes relating to the Temporary Assistance for Needy Families (TANF) program to recent changes in federal regulation by:

- (1) Adding definitions for “non-work eligible household”, “work eligible household”, and “other work eligible household”, and deleting the definition of “exempt household”; and
- (2) Amending section 346-53, Hawaii Revised Statutes, to incorporate the new definitions.

Your Committee finds that this is a housekeeping measure to bring Hawaii law in conformity with the terminology used in the Code of Federal Regulations relating to the TANF program.

Your Committee has amended this measure by:

- (1) Making technical, nonsubstantive amendments for consistency; and
- (2) Amending the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 914, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 914, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Representatives Mizuno, M. Oshiro, Brower, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 68 on S.B. No. 440**

The purpose of this measure is to require that infrastructure for affordable housing shall be deemed dedicated to the county if the county does not accept or reject the request for dedication of infrastructure within ninety days of the filing of the dedication request; provided that:

- (1) Meter, connection fees, and utility costs have been paid;
- (2) The infrastructure conforms to applicable county standards in effect at the time of construction; and
- (3) The county has approved completion of the improvements.

Your Committee on Conference has amended this measure by making the effective date of the Act upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 440, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 440, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 69 on S.B. No. 389**

The purpose of this measure is to require the Legislative Reference Bureau to review the memorandum of understanding between the Department of Education and the Department of Budget and Finance for the allotment of capital improvement projects, with the goal of replicating the processes of the memorandum of understanding for use by other state agencies with many capital improvement projects that are predominantly funded by general obligation bonds.

The measure requires the Legislative Reference Bureau to include concerns or recommendations of both departments regarding the current memorandum of understanding, required changes to adapt the memorandum of understanding for other state agencies, and a proposed timetable for adoption of the processes of the memorandum of understanding by other state agencies. The measure also requires analysis of certain pertinent issues. The Legislative Reference Bureau is required to consult with, at a minimum, the Departments of Education and Budget and Finance and other government agencies. Finally, this measure requires the Legislative Reference Bureau to report findings, recommendations, and any proposed legislation to the Legislature no later than twenty days prior to the convening of the Regular Session of 2010.

Upon further consideration, your Committee has amended this measure by changing the effective date from July 1, 2020, to "upon approval."

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 389, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 389, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 70 on S.B. No. 300**

The purpose of this measure is to require class 5 dispenser liquor licensees authorized to sell liquor for consumption on the premises to maintain a certain amount of liquor liability insurance coverage as a condition of obtaining, renewing, or transferring a license.

Your Committee on Conference finds that liquor licensees have a high exposure to potential lawsuits for personal injuries for the serving of liquor to patrons who may excessively imbibe and then cause an accident to a third party. The provision of general liability insurance would mitigate such exposure.

Your Committee on Conference has amended this measure by:

- (1) Requiring an applicant for a class 2, class 4, class 5, class 6, class 11, class 12, class 13, class 14, or class 15 license to maintain liquor liability insurance coverage in an amount of \$1,000,000;
- (2) Requiring for the foregoing classes, proof of liability insurance by the applicant as a prerequisite to issuance or renewal of a liquor license, and by the transferor and transferee for transfer of a liquor license, and allowing the suspension or termination of a license for failure to maintain the liability insurance;
- (3) Requiring proof of coverage to be kept on the premises and made available for inspection by the Liquor Commission at any time during the licensee's regular business hours; and
- (4) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 300, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 300, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Baker, Slom.  
Managers on the part of the Senate.

**Conf. Com. Rep. 71 on S.B. No. 605**

The purpose of this measure is to:

- (1) Require the Department of Health to add the dBC decibel weighting system to the current dBA decibel weighting system for purposes of community noise control;
- (2) Set permissible maximum sound levels for nighttime, and grant the Department of Health and the county liquor commissions the authority to enforce these limits; and
- (3) Direct the county liquor commissions, with the assistance from the Department of Health and the Department of Labor and Industrial Relations, to develop recommendations for a permanent maximum sound level, in decibels.

Your Committee on Conference finds that low-frequency noise that can emanate from nightclubs and other liquor establishments, particularly within urban areas, is problematic, and that the current noise control laws do not adequately address this type of noise. However, enforcing noise level restrictions meant to address these urban concerns within agricultural areas may have the unintentional effect of prohibiting agricultural activities.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Limiting its application to areas within the urban land use district, as designated pursuant to section 205-2, Hawaii Revised Statutes; and
- (2) Changing its effective date from "July 1, 2050" to "upon approval".

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 605, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 605, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Fukunaga, Hooser, Ihara, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hooser).

Representatives Morita, Herkes, B. Oshiro, Coffman, Marumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 72 on S.B. No. 1066**

The purpose of this measure is to increase the number of directors for the Natural Energy Laboratory of Hawaii Authority to thirteen, by adding two tenant representative directors.

Your Committee on Conference has amended this measure by changing its effective date from "July 1, 2112" to "July 1, 2009".

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1066, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1066, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Fukunaga, Kim, Green, Hemmings.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Representatives Morita, McKelvey, Coffman, Evans, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Evans, McKelvey).

**Conf. Com. Rep. 73 on S.B. No. 55**

The purpose of this measure is to suspend the requirement that firms obtain a permit to practice public accountancy until one hundred eighty days after the effective date of administrative rules prescribing the methods and requirements for firm permit applications.

Under current law, public accountancy firms are required to obtain a permit for the firm to practice public accountancy in addition to the individual permits required of members of the firm who practice accountancy. The current law empowers the Board of Accountancy to enact rules for issuing firm permits. However, your Committee finds that the Board of Public Accountancy has never enacted rules for awarding firm permits and, therefore, firm permits have never been issued. This exposes every public accounting firm in the State to liability under the law for operating without a permit and curtails out-of-state business opportunities for public accountancy firms because the Board's inaction forces all firms to remain out of compliance with the State's regulatory requirements.

Your Committee, upon further consideration, has amended this measure by:

- (1) Amending its purpose section to accurately reflect the contents of the measure;
- (2) Adding a provision to require the Director of Commerce and Consumer Affairs to report the progress and status of the rule-making process to the Legislature no later than twenty days before the convening of the Regular Session of 2010; and
- (3) Adding a provision to require the Director of Commerce and Consumer Affairs to notify the Legislature and to provide public notice of the adoption of administrative rules prescribing the methods and requirements for a firm to apply for and obtain a permit to practice public accountancy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 55, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 55, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Herkes, Wakai, Marumoto.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Wakai).

**Conf. Com. Rep. 74 on S.B. No. 50**

The purpose of this measure is to set terms and conditions for leases of public lands without public auction to renewable energy producers.

Specifically, this measure:

- (1) Authorizes the Board of Land and Natural Resources, after at least one public hearing, to lease public lands to renewable energy producers who provide certain indicators of the project's viability; and
- (2) Grants the renewable energy producer a right of first refusal upon the renewal of its lease.

Your Committee finds that recent events have led to the need for increased community involvement in the issuance of long-term leases for renewable energy producers. This measure provides for an open process that allows for the fair evaluation of multiple energy producers interested in the same public lands for energy projects and ensures that current leases will not be terminated if the lessee is in full compliance. Your Committee believes that current lessees and energy producers can come together with the shared vision of an increased local food supply and locally-produced energy.

Your Committee has amended this measure by:

- (1) Creating a new section of chapter 171, Hawaii Revised Statutes, instead of amending section 171-95, Hawaii Revised Statutes;
- (2) Deleting the authorization of involuntary withdrawal of property from the lease of public lands if the withdrawal is less than twenty-five per cent of the production attributable to the leased land;
- (3) Increasing the number of public hearings required to lease public land to a renewable energy producer from one to two;
- (4) Requiring that any action taken by the Board of Land and Natural Resources upon a proposal subject to this measure shall take place on the island where the public land to be leased for the proposed renewable energy project is located; and
- (5) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 50, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 50, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Gabbard, Fukunaga, Kokubun, Hemmings.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives Ito, Morita, Har, Nakashima, Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 75 on S.B. No. 892**

The purpose of this measure is to update the Insurance Code by:

- (1) Updating statutory references;
- (2) Clarifying allowable investments in common trust funds, mutual funds, and exchange traded funds;
- (3) Imposing a time limit for claiming the Retaliatory Tax Credit;
- (4) Allowing a limited adjuster license for crop insurance claims;
- (5) Updating continuing education requirements;
- (6) Clarifying rate filing requirements, including the acceptance of electronic filing; and
- (7) Authorizing the Insurance Commissioner to require insurance license applicants to provide fingerprints and conduct criminal history record checks.

Your Committee finds that this measure is necessary to bring Hawaii's insurance industry into conformity with best practices in insurance regulation and to respond to changes in the industry. Your Committee notes that the provisions relating to issuance of a surplus lines broker license and continuing education requirements for insurance licensees are based on recommendations by the National Association of Insurance Commissioners (NAIC) and reflect a policy of achieving greater uniformity in insurance regulation across states. Greater uniformity will make insurance regulation less burdensome and simpler for insurers, producers, regulators, and consumers. Further, the audit provisions in this measure are required by the NAIC as a condition of continuing accreditation.

Your Committee has amended this measure by:

- (1) Adding a provision to specify that the annual audits required of each domestic insurer in this State shall be prepared in accordance with the National Association of Insurance Commissioners accounting practices and procedures manual and rules adopted by the Insurance Commissioner;
- (2) Changing the effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive amendments for the purpose of accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 892, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 892, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Ige, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

Representatives Herkes, Ito, Keith-Agaran, Marumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 76 on S.B. No. 1069**

The purpose of this measure is to require the Hawaii Community Development Authority (HCDA) to collaborate with and consider the recommendations of the Kakaako Makai Community Planning Advisory Council (Council) in developing, accepting, and implementing any plans for the development of the Kakaako makai area within the Kakaako Community Development District (District).

This measure also specifies that any transfer of property in the Kakaako makai area of the District to any state or county agency shall be upon the condition that the agency shall be required to collaborate with the Council and consider the recommendations of the Council in the development, acceptance, and implementation of any plan for the transferred property.

Your Committee finds that the Council is a diverse group of stakeholders who have worked for two years to develop a vision and guiding principles for the development of the Kakaako makai area. Your Committee understands that the HCDA will include the Council in the next process, which is to develop a master plan and rules for the Kakaako makai area, and this measure will ensure the Council's role in that process.

Your Committee has amended this measure by:

- (1) Clarifying the boundaries of the Kakaako makai area to mean the area within the District that is from the east side of Kewalo basin at the ewa wall of Ala Moana Park, to Forrest Avenue, and from Ala Moana Boulevard to the ocean; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1069, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1069, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Bunda, Fukunaga, Hemmings.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Ito, Har, Brower, Ching.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 77 on S.B. No. 1107**

The purpose of this measure is to provide transparency, accountability, and efficiency in the Real Estate Commission's condominium education programs by merging the Condominium Management Education Fund into the Condominium Education Trust Fund.

Your Committee finds that this measure is intended to promote transparency for and accountability to the individual condominium owners who pay into the Condominium Education Trust Fund through payment of association fees. Accordingly, your Committee notes that the provision in section 514B-73(d)(1), Hawaii Revised Statutes, which requires a statement reflecting which educational programs were directed specifically at the education of condominium owners, is intended to ensure that education programs that benefit individual condominium owners, and not just condominium boards, are provided. This reporting requirement will help ensure that individual condominium owners receive education regarding their rights and responsibilities under condominium property regimes.

Your Committee has amended this measure by:

- (1) Clarifying that all payments that have previously been deposited into the Condominium Management Education Fund pursuant to sections 514A-40(c), 514A-131, 514A-132, and 514A-133, Hawaii Revised Statutes, shall be deposited into the Condominium Education Trust Fund as provided in sections 514B-71, 514B-72, and 514B-73, Hawaii Revised Statutes;
- (2) Specifying that the report to the Legislature required under section 514B-73(d), Hawaii Revised Statutes, shall include a statement of which educational programs were directed toward the education of condominium owners and a line item reflecting the total amount collected from condominium associations; and
- (3) Making technical, nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1107, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1107, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tsutsui, Espero, Hemmings.

Ayes, 3. Noes, none. Excused, 1 (Espero).

Representatives Wakai, Keith-Agaran, Marumoto.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Marumoto).

**Conf. Com. Rep. 78 on S.B. No. 1259**

The purpose of this measure is to amend chapter 128D, Hawaii Revised Statutes, in order to promote the cleanup and reuse of contaminated properties by:

- (1) Providing relief for bona fide prospective purchasers and innocent contiguous property owners from liability under chapter 128D, Hawaii Revised Statutes; and
- (2) Establishing consistency between state and federal laws after the passage of the federal Small Business Liability Relief and Brownfields Revitalization Act, P.L. 107-118.

Your Committee on Conference has amended this measure by:

- (1) Conforming statutory references and citations to more closely mirror the federal statute;
- (2) Changing its effective date from "January 1, 2046" to "upon its approval"; and
- (3) Making a technical, nonsubstantive amendment for style and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1259, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1259, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Morita, Ito, Karamatsu, Har, Thielen.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 79 on S.B. No. 1338**

The purpose of this measure is to prohibit real estate contracts, agreements, and rules from precluding or rendering ineffective the use of clotheslines on the premises of single-family dwellings or townhouses.

Your Committee on Conference finds that use of clotheslines decreases the amount of energy used by households by as much as ten per cent, which is not only beneficial for the environment, but can also substantially reduce such households' monthly electricity bill. Your Committee on Conference also finds that this measure strikes a good balance between the competing goals of allowing single-family dwelling and townhouse residents to use clotheslines and authorizing homeowners associations to set reasonable rules regarding the use of clotheslines.

Your Committee on Conference has amended this measure by changing its effective date from "July 1, 2020" to "upon approval".

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1338, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1338, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Cabanilla, Coffman, Chong, Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Chong).

**Conf. Com. Rep. 80 on S.B. No. 19**

The purpose of this measure is to provide a procurement preference to a contractor in a public works construction contract of not less than \$250,000 if the contractor is a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations at the time of general bidding.

Your Committee on Conference finds that the economic downturn currently being faced across the nation, including in Hawaii, has resulted in both state and federal governments looking to public works projects as a near term means of stimulating the economy. As public works are expected to play a large role in immediate, as well as longer term, economic recovery efforts, it will be essential for the state to have a well-trained workforce skilled in the various construction trades. As many of these individuals gain their best knowledge of a particular trade through apprenticeship programs, providing incentives for contractors to offer and maintain these programs will work toward developing the necessary skilled workforce to carry on public works projects for years to come.

Your Committee on Conference has amended this measure by correcting statutory cross-references to the appropriate section in chapter 103D, Hawaii Revised Statutes.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 19, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 19, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Takamine, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Yamashita, Pine.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 81 on S.B. No. 1**

The purpose of this measure is to rehabilitate the natural populations of all Hawaiian opihī species and establish a new direction for the management of the fishery.

Specifically, this measure:

- (1) Establishes a five-year moratorium on the harvesting of opihī on Oahu; and

- (2) Establishes a ban on taking or harvesting opihi statewide, subject to open and closed seasons and the traditional rights of certain ahupuaa tenants.

Your Committee finds that breeding adult opihi needs to be protected to ensure opihi populations will replenish themselves. Opihi have free swimming larvae which can disperse from the no take areas into areas where harvest is legal. Oahu requires more drastic actions to rehabilitate its opihi populations due to overharvesting.

Your Committee has amended this measure by:

- (1) Amending the closed seasons to be from February 1st through May 31st and September 1st through November 30th, to accurately reflect the opihi breeding cycles;
- (2) Including a bag limit for the open seasons of one quart of opihi with shells attached, or one half pint of opihi without shells attached, per day; and
- (3) Amending the effective date to upon approval while retaining the June 30, 2014, repeal date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Fukunaga, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ito, Karamatsu, Sagum, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Sagum).

#### **Conf. Com. Rep. 82 on S.B. No. 1268**

The purpose of this measure is to encourage the development of affordable housing by the Department of Hawaiian Home Lands (DHHL) by:

- (1) Authorizing the counties to issue affordable housing credits to DHHL, and to deny or approve a request for the transfer or assignment of those credits by DHHL; and
- (2) Providing that the credits are to be issued on a one-for-one basis and limiting the application of the credits to the same county in which the credits were earned to satisfy affordable housing obligations imposed by the county.

Your Committee finds that private-sector development of affordable homes for DHHL beneficiaries is a key element in helping to solve Hawaii's affordable housing shortfall. By increasing the supply of homes on DHHL properties, the overall supply of homes in the State is increased, thus making more homes available for the people of Hawaii. Allowing affordable housing credits to be applied to other projects located in the same county in which the credits are earned may serve as an incentive for the private sector to participate with the DHHL affordable housing program.

Your Committee has amended this measure by:

- (1) Creating a new subsection of 46-15.1, Hawaii Revised Statutes, to require that each county issue affordable housing credits to DHHL upon request;
- (2) Removing the county approval process of any transfer of the issued affordable housing credits; and
- (3) Changing the repeal date of the measure to June 30, 2015 and providing, upon such repeal, for the reenactment of section 46-15.1, Hawaii Revised Statutes, in the form in which it read on the day before the enactment of this measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1268, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1268, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Sakamoto, English, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (English).

Representatives Carroll, Cabanilla, Sagum, Chong, Shimabukuro, Ward.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

#### **Conf. Com. Rep. 83 on S.B. No. 91**

The purpose of this measure is to update and improve services provided by the Community-based Economic Development Technical and Financial Assistance Program by, among other things:

- (1) Allowing the Hawaii Community-based Economic Development Revolving Fund to receive funding from any source;

- (2) Deleting the prohibition against reallocating loan funds to the grant program that could cause an insufficient availability of funds to make loans;
- (3) Reducing the cap on the outstanding balance of loans issued to any one applicant under Community-based Economic Development from \$500,000 to \$250,000; and
- (4) Reducing the maximum interest rate for loans from ten to six percent.

Your Committee on Conference finds that it is fiscally responsible to authorize the Hawaii community-based economic development revolving fund to receive monies from sources other than the general fund. Your Committee also finds that this measure will allow community-based organizations in the State to keep pace with the changing economy. Your Committee further finds that it is the right time to revise chapter 210D, Hawaii Revised Statutes, in order to help community-based organizations meet the challenges of the most distressed communities in this State.

Your Committee on Conference has amended this measure by:

- (1) Clarifying its purposes;
- (2) Changing the effective date to July 1, 2009; and
- (3) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 91, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 91, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hemmings).

#### **Conf. Com. Rep. 84 on S.B. No. 536**

The purpose of this measure is to preserve the quality of Hawaii's night sky by reducing light pollution. Specifically, this bill requires the Department of Business, Economic Development, and Tourism, with assistance from a temporary advisory committee, to develop a statewide starlight reserve strategy and intelligent lighting and light pollution law.

Your Committee on Conference finds that the quality of the night sky in Hawaii is unique and is a valuable natural resource that needs to be protected. Your Committee also finds that specific practices and safeguards are necessary to preserve the quality of the night sky in Hawaii for continued astronomical observation that is superior to the rest of the United States. Your Committee further finds that the development and implementation of a starlight reserve strategy will help to prevent the night sky in Hawaii from light pollution.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the temporary advisory committee is an advisory "working" committee;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 536, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 536, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Baker, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Representatives Morita, Ito, Coffman, Evans, Yamashita, Thielen.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

#### **Conf. Com. Rep. 85 on S.B. No. 1222**

The purpose of this measure is to clarify the misdemeanor offense of cruelty to animals in the second degree by including intentionally, knowingly, or recklessly:

- (1) Confining or causing to be confined, in a kennel or cage, any pet animal in a cruel or inhumane manner;
- (2) Tethering, fastening, chaining, tying, or restraining a dog to a dog house, tree, fence, or any other stationary object by means of a choke collar, pinch collar, chain collar, or prong collar, or any restraint that would allow the dog to choke or become

entangled; provided that a person is not prohibited from using such restraints when walking a dog with a hand-held leash or while a dog is engaged in a supervised activity.

This measure also:

- (1) Clarifies the definition of “necessary sustenance” to include the requirement that an area of confinement for a cat or dog have adequate space for the cat or dog to stand up, turn around freely, and lie down;
- (2) Decreases from twenty to fifteen, the number of dog, cats, or combination of dogs and cats required to be possessed for the animal hoarding statute to apply; and
- (3) Extends the sunset date of Act 128, Session Laws of Hawaii 2008, relating to animal hoarding from July 1, 2011 to July 1, 2015.

Your Committee on Conference has amended this measure by:

- (1) Deleting amendments to the definition of “necessary sustenance”;
- (2) Clarifying the prohibition on dog tethering to delete references to chaining and chain collars; and
- (3) Changing the effective date from July 1, 2050 to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1222, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1222, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

#### **Conf. Com. Rep. 86 on S.B. No. 113**

The purpose of this measure is to protect dental patients by authorizing the Board of Dental Examiners to revoke or suspend the license of a dentist for false or misleading advertising.

Your Committee on Conference finds that this measure will strengthen the current statutes regarding sanctions for the false or misleading advertising of licensed dentists who advertise a specialty practice without possessing the appropriate credentials.

Your Committee on Conference has amended this measure by inserting an “upon approval” effective date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 113, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 113, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Baker, Green, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Wakai, Karamatsu, Finnegan.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Finnegan).

#### **Conf. Com. Rep. 87 on S.B. No. 931**

The purpose of this measure is to protect public health from the potential spread of disease by authorizing the Department of Health, when the Director of Health finds that reasonable cause exists, to demand entry onto any premises, public or private, for the purpose of securing or collecting any samples necessary to conduct epidemiologic investigations.

Your Committee on Conference finds that the interruption, containment, and prevention of outbreaks of dangerous diseases depend on timely epidemiological investigations that often include the collection of samples to determine the source and track the spread of the disease. One of the most common reasons for the Department of Health to conduct an epidemiologic investigation is the outbreak of food borne disease, such as *E. coli* or salmonella. However, such investigations have been impeded by individuals who fail to cooperate with the Department. This measure remedies the situation by ensuring timely access to samples needed for these investigations to ensure that the public health will not be compromised.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the purpose of entry onto a premises is for an administrative investigation;
- (2) Defining “administrative investigation” to mean any investigation, independent of a criminal investigation, that is conducted for the purpose of determining the existence of disease or series of injuries deemed by the Department to threaten the public health or safety. An administrative investigation may involve the examination of real or personal property, records,

equipment, buildings, products, by-products, wastes, processes, activities, environmental conditions (i.e., air, soil, and water quality), or other property or activities;

- (3) Replacing "natural resource, or hazardous material samples" with "environmental samples";
- (4) Changing the effective date to July 1, 2009; and
- (5) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 931, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 931, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Taniguchi, Baker.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Ito, Finnegan.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Finnegan).

**Conf. Com. Rep. 88 on S.B. No. 932**

The purpose of this measure is to improve the early diagnosis of human immunodeficiency virus infections by removing significant procedural barriers to human immunodeficiency virus testing.

Your Committee on Conference finds that this measure will enable early detection and treatment of the human immunodeficiency virus and lower the risk of transmitting the human immunodeficiency virus to others.

Your Committee on Conference has amended this measure by changing the effective date to "upon approval".

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 932, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 932, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Taniguchi, Baker, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Ito, Finnegan.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 89 on S.B. No. 1073**

The purpose of this measure is to provide a cleaner, healthier environment in state correctional facilities by authorizing smoking for employees and volunteers of a correctional facility only in areas designated by the warden of the facility that are outside a correctional facility and restricted from access by inmates or detainees.

Your Committee on Conference finds that most states across the nation have implemented smoke-free prison systems that have created a healthier environment for inmates and staff alike, reducing the risk of tobacco related diseases.

Your Committee on Conference further finds that the correctional facilities in Hawaii prohibit smoking by inmates. This measure provides the next positive step to establishing a healthier work environment for everyone at the facility.

Your Committee on Conference has amended this measure by inserting a July 1, 2009 effective date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1073, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1073, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Espero, Green, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

Representatives Yamane, Hanohano, Pine.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 90 on S.B. No. 1195**

The purpose of this measure is to enhance the ability of the State to plan and make decisions supporting the growth of science and technology industries in the State by:

- (1) Amending the reporting requirement under the Research and Statistics for Growth Industries Program, by requiring the Department of Business, Economic Development, and Tourism to annually report to the Legislature on the criteria used to measure the growth of Hawaii's emerging growth industries, instead of reporting on the impact of the Department of Business, Economic Development, and Tourism's efforts on those industries;
- (2) Amending the economic objectives and policies of the Hawaii State Planning Act to require planning to include developing and expanding businesses and activities in science, technology, and related emerging growth industries; and
- (3) Including, in section 226-6(b), Hawaii Revised Statutes, a new policy to achieve the State's general economic objectives, stimulating the development of economic activities such as defense, dual-use, and science and technology assets, rather than incorporating this as one of the general objectives.

Your Committee on Conference finds that it is essential to plan for science and technology initiatives that will play an instrumental role in developing Hawaii's economy to enable the State to capitalize on the financial opportunities that emerging industries involving science and technology often present. Your Committee on Conference also finds that requiring the Department of Business, Economic Development, and Tourism to revise the criteria they use in measuring the growth of emerging growth industries in Hawaii will provide the Legislature with a more complete perspective of the economic opportunities available to Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that in updating its reports on the growth of emerging growth industries, the Department shall collaborate with non-profit economic research "activities", rather than "groups";
- (2) Amending section 226-6(a), Hawaii Revised Statutes, to require that the objectives and policies for planning the State's economy shall include objectives aimed at stimulating the development and expansion of activities related to defense, dual-use, and science and technology assets, especially on the neighbor islands, rather than incorporating this as a new policy to achieve the State's general economic objectives in section 226-6(b), Hawaii Revised Statutes;
- (3) Clarifying that in achieving the federal expenditures objective, it shall be the policy of the State to promote Hawaii's supportive role in national defense "in a manner", rather than "while remaining", consistent with Hawaii's social, environmental, and cultural goals;
- (4) Referring to renewable energy development, creative media, and science and technology-based "sectors", rather than activities in describing the potential growth activity objective policy for the State; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1195, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1195, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Hee, Hemmings.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Representatives McKelvey, Ito, Wakai, Yamashita, Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

**Conf. Com. Rep. 91 on S.B. No. 764**

The purpose of this measure is to alleviate the economic burden on lessees of certain commercial, industrial, and agricultural properties by:

- (1) Requiring, for commercial and industrial leases that include a provision that rental amounts shall be based on a "fair and reasonable" annual rent, that the provision shall be construed to require that rent be fair and reasonable to both the lessor and the lessee, taking into account all relevant attendant circumstances;
- (2) Requiring, for leases of agricultural lands classified by the Land Study Bureau as Class A or B in counties with a population of over 500,000 where the lessee has made improvements or is seeking to make improvements to the land, that renegotiations of the lease shall include an extension of the lease for not less than seventy-five per cent of the original lease term; and
- (3) Prohibiting the amendment of a land use district boundary for Class A or B agricultural lands where:
  - (A) A farming operation as defined in section 165-2, Hawaii Revised Statutes, is being conducted on the land;
  - (B) The land is important for agriculture based on the stock of similarly situated lands in the area;
  - (C) The district boundary amendment would harm the productivity or viability of existing agricultural activity in the area; and
  - (D) The district boundary amendment would cause fragmentation of or intrusion of nonagricultural uses into largely intact areas of Class A and B agricultural lands.

Your Committee finds that small businesses are essential to the strength and diversity of Hawaii's economy. Your Committee further finds that despite their contribution to the State's economy, small businesses are at a disadvantage in terms of land ownership since the commercial and industrial properties that exist within the State's urban districts are primarily owned by a few landowners

who lease parcels of land to small businesses. Your Committee finds that the proximity of small businesses to urban communities is a stabilizing factor, in terms of both localized economy and neighborhood character, that is especially important during the current recessionary period.

Your Committee finds that this measure will help to stabilize Hawaii's economy by addressing some of the burdensome or vague provisions of existing commercial and industrial leases of certain lands within urban districts without substantial reduction in the economic benefit to landowners, without impairing existing lease contracts, and without the taking of any property rights without due process of law.

Your Committee has amended this measure by:

- (1) Deleting the portions of this measure that apply to agricultural lands;
- (2) Deleting provisions that specified that interpretation of "fair and reasonable" rental amount shall include consideration of:
  - (A) Past renegotiation practices and policies throughout the previously renegotiated lease rents; and
  - (B) The gross income generated by the lessee on the renegotiation date;
- (3) Specifying that the renegotiation of rent provisions shall apply to a lessee who is a master lessee only if:
  - (A) The master lessee agrees to limit any sublease rental amounts renegotiated or renewed to the lesser of the "fair and reasonable" amount or the rental amount as calculated under the renewal or renegotiation provisions of the sublease; or
  - (B) The master lessee agrees to make a good faith effort to require a sublessor who subleases to another person to limit any sublease rental amount renegotiated or renewed to the lesser of the "fair and reasonable" amount or the rental amount as calculated under the renewal or renegotiation provisions of the sublease;
- (4) Defining "sublease" to mean a conveyance subleasing privately owned land by a master lessee or sublessor to any person or entity in consideration of a return of rent or other remuneration;
- (5) Adding a savings clause;
- (6) Changing the effective date to July 1, 2009;
- (7) Adding a provision to repeal this Act on June 30, 2010 and specifying that this Act does not apply to any lease or sublease scheduled for renegotiation after June 30, 2010; and
- (8) Making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 764, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 764, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Tsuji, Karamatsu, B. Oshiro, Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (B. Oshiro).

**Conf. Com. Rep. 92 on S.B. No. 1005**

The purpose of this measure is to encourage and protect artists and other persons in Hawaii's performing arts and related industries for an unspecified number of years after death by:

- (1) Establishing a property right in the commercial use of a person's name, voice, signature, or likeness;
- (2) Providing remedies for infringements on the right;
- (3) Providing for an unspecified amount for a minimum damages award for infringement upon the right granted by this measure;
- (4) Requiring all transferees of publicity rights to register with the Department of Commerce and Consumer Affairs; and
- (5) Providing that common law rights or other statutory rights, whether derived from state or federal law.

Your Committee on Conference finds that protecting an individual or personality's publicity rights will be invaluable to writers, composers, and recording artists in Hawaii. These individuals deserve to have confidence that the laws of Hawaii protect the commercial value of their name, voice, signature, photograph, or likeness. Your Committee on Conference also finds that this measure tempers the exploitation of the names, voices, signatures, photographs, and likenesses of a deceased individual or personality without any compensation to their heirs.

This measure is based upon a law in the State of Washington that has sustained minimal challenges in its enforcement over the past decade. As such, as your Committee on Conference sought to address various concerns raised by representatives of the recording and motion picture industries, as well as those involved in online commerce, and your Committee on Conference believes that it has balanced the interests of performing artists and their heirs against the commercial needs of well-established music, film, digital media and other Internet-based industries.

Your Committee on Conference has amended this measure by:

- (1) Adding a definition for “characteristic”;
- (2) Amending the definition of “likeness” to include a photograph;
- (3) Adding a definition for “photograph”;
- (4) Adding a definition for “publicity rights trade name registration”, which exempts any potential liability or duty for the Department of Commerce and Consumer Affairs related to a trade name registration;
- (5) Adding that the individual’s rights protected in this measure are exclusive to the individual, or other entitled persons, for a period of seventy years after the death of the individual;
- (6) Clarifying that the statutory damages for the infringement of a right protected in this measure to be the greater of \$10,000 or the actual damages sustained from the infringement;
- (7) Providing that the search of an individual’s name on an internet search engine shall be exempt from statutory damages;
- (8) Providing that a court may order the impounding, destruction, or reasonable impounding of all materials used in violation of the injured party’s rights pursuant to Rule 65 of the Hawaii Rules of Civil Procedure;
- (9) Providing that the property of a common carrier, internet service provider, internet search engine provider, or other similarly situated entity shall be exempt from the destruction or reasonable disposition requirements, unless that entity receives written notice of the infringement, pursuant to 17 United States Code section 512(c), and fails to remove the material expeditiously after receipt of the written notice;
- (10) Adding that the use or authorization to use a display in a certain manner shall be exempt from the restrictions provided for in this measure;
- (11) Deleting the registration requirements with the Department of Commerce and Consumer Affairs for transferees to bring an action or recover damages from an infringement action;
- (12) Deleting the requirement for the Department of Commerce and Consumer Affairs to maintain a registry of all transferees;
- (13) Adding the requirement for a licensee to use the publicity rights trade name registration of another individual or personality, for the licensee to first inform the individual or personality in writing of the pending assignment or license to use their publicity rights trade name registration;
- (14) Providing a licensee with a complete defense to an infringement action if the licensee receives a bona-fide publicity rights trade name registration;
- (15) Deleting section -9, pertaining to common law rights or other statutory rights, whether derived from state or federal law;
- (16) Changing the effective date to upon approval; and
- (17) Making technical, nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1005, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1005, S.D. 2, H.D. 2, C.D. 1.

**Conf. Com. Rep. 93 on S.B. No. 1206**

The purpose of this measure is to specify that, in a county with a population of at least 500,000 people, a county board of water supply may issue revenue bonds in its own name if so authorized under the county charter.

The intent of your Committee on Conference is to enable the various county boards of water supply to issue revenue bonds, in counties with a population of at least five hundred thousand persons. Your Committee finds that current economic conditions make it necessary to develop additional sources of funds for the acquisition and distribution of potable water.

Your Committee on Conference has amended this measure by:

- (1) Restructuring the amending language to clarify that all boards in counties with a population of 500,000 persons or more are authorized to issue revenue bonds in the board’s own name, if authorized to do so by county charter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1206, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1206, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Har, Ward.  
Managers on the part of the House.

**Conf. Com. Rep. 94 on S.B. No. 1665**

The purpose of this Act is to enhance the workforce development capacity of Hawaii's community colleges by:

- (1) Establishing a skilled worker and business development center at each community college to provide workforce development to meet the rapidly evolving needs of both employers and employees;
- (2) Establishing an advisory board for the skilled worker and business development center;
- (3) Requiring a progress report to the 2010 Legislature; and
- (4) Appropriating unspecified moneys out of the unemployment trust fund from moneys deposited pursuant to section 383-123(b), Hawaii Revised Statutes, for the purpose of the Act.

Your Committee on Conference finds that skilled worker and business development centers that would be established by this measure are particularly critical in responding to the economic downturn that the State faces in the foreseeable future.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$2,400,000 for fiscal year 2009-2010 out of the unemployment trust fund, with \$200,000 to each community college of the University of Hawaii System; and
- (2) Making the effective date of this Act July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1665, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1665, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Takamine, Kim, Slom.

Ayes, 4. Noes, none. Excused, 2 (Rhoads, Pine).

**Conf. Com. Rep. 95 on S.B. No. 1223**

The purpose of this bill is to preserve the credibility of the "Made in Hawaii" label by:

- (1) Prohibiting the use of the phrase "Made in Hawaii" as an advertising or media tool for items unless the items meet specified criteria; and
- (2) Directing the Department of Agriculture (DOA) to convene a working group composed of interested stakeholders to identify labeling issues relating to the Hawaii-made Products Law and propose workable solutions, including solutions for enforcement.

Your Committee finds that the "Made in Hawaii" label is an important designation and should be a clear indication that a product was produced in Hawaii and is substantially composed of materials from Hawaii. Your Committee further finds that preserving the integrity of the "Made in Hawaii" label is important from an economic standpoint as well as to honor the local artisans who keep native traditions alive through art. A meaningful "Made in Hawaii" label benefits local artisans and craftspersons who are currently forced to compete at an unfair disadvantage in the marketplace against unethical producers who unfairly imply that mass-produced, imported, or counterfeit goods are made in Hawaii through labeling or other means. The "Made in Hawaii" label also benefits the tourism industry when high-quality unique goods are presented across the world as examples of Hawaii's culture.

Your Committee further finds that the "Made in Hawaii" label was never intended to function as a barrier to commerce for manufacturers of food and other perishable items that employ many Hawaii residents and use the largest possible amount of locally produced raw materials or ingredients. Accordingly, your Committee finds that it is appropriate to specify that perishable consumer commodities containing ingredients that originate both inside and outside of the State may be identified as Hawaii products as long as at least fifty-one per cent of the wholesale value of the perishable consumer commodity is added by manufacture, processing, or production within the State.

Finally, your Committee finds that the working group created by this measure is intended to serve as a means for the full spectrum of stakeholders to participate in the regulation of made in Hawaii products. Your Committee encourages the members of the working group to consult openly with each other and with other interested parties, including representatives from the counties.

Your Committee has amended this measure by:

- (1) Adding a definition of "craft item";
- (2) Adding a definition of "perishable consumer commodity";
- (3) Clarifying the prohibition on using the phrase "Made in Hawaii" as an advertising tool for craft items that are not manufactured, assembled, fabricated or produced within the State and that have not had at least fifty-one per cent of wholesale value added within the State;
- (4) Adding a provision to prohibit the use of the phrases "Made in Hawaii", "Produced in Hawaii", "Processed in Hawaii", or other misrepresentation of the local origin of perishable consumer commodities through the use of labels or advertising unless the perishable consumer commodity is wholly or partially manufactured, processed, or produced within the State and has had at least fifty-one per cent of its wholesale value added within the State;
- (5) Revising the composition of the working group created by this measure to remove representatives of the counties and to include representatives of Hawaii Farm Bureau Federation, Hawaii Food Manufacturers Association, and Hawaii Food Industry Association;
- (6) Adding a savings clause;
- (7) Changing the effective date to July 1, 2009; and
- (8) Making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1223, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1223, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ige).

**Conf. Com. Rep. 96 (Majority) on S.B. No. 539**

The purpose of this measure is to ensure that the reentry needs of persons committed to correctional facilities are being evaluated and met in an effective and appropriate manner by establishing a Reentry Intake Services Division within the Department of Public Safety under chapter 353C, Hawaii Revised Statutes.

This measure also requires the newly established Reentry Intake Services Division to:

- (1) Work closely and collaborate with county furlough programs managed by the Department's Institutions Division, the Department's Corrections Program Services Division, and the Hawaii Paroling Authority; and
- (2) Assume the programs and services of the Department's existing Intake Service Center Division.

Your Committee on Conference finds that expanding upon the services and programs that the existing Intake Service Center Division provides to include reentry services and programs is complementary to the initiatives and goals of the existing Intake Service Center Division. Your Committee on Conference also finds that requiring close collaboration with the furlough programs of each county, the Hawaii Paroling Authority, and the Corrections Program Services Division will ensure that the reentry needs of inmates will be met in a successful manner. However, your Committee on Conference believes that these statutory provisions are more appropriately placed in chapter 353, Hawaii Revised Statutes, relating to Corrections.

Your Committee on Conference has amended this measure by:

- (1) Establishing "Reentry Intake Service Centers", rather than a Reentry Intake Service Division, by renaming the Intake Service Centers currently established in section 353-10, Hawaii Revised Statutes;
- (2) Requiring the renamed Centers to assume the additional responsibility of providing for the successful reentry of inmates into the community by evaluating and addressing the present and future reentry needs of inmates and working closely and collaboratively with furlough programs in the counties, the Hawaii Paroling Authority, and the Corrections Program Services Division;
- (3) Sunsetting the Legislative Oversight Committee established by section 353H-21, Hawaii Revised Statutes;
- (4) Requiring the establishment of a Reentry Commission within the Department of Public Safety to work with the Department in monitoring and reviewing the comprehensive offender reentry program;
- (5) Changing the effective date to September 1, 2009; and
- (6) Making technical, nonsubstantive amendments for the purpose of consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 539, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 539, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Bunda, Kidani, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, 1 (Hemmings). Excused, none.

Representatives Hanohano, M. Lee, Aquino, Pine.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Pine).

**Conf. Com. Rep. 97 on S.B. No. 851**

The purpose of this measure is to bring Hawaii's child support enforcement laws into conformance with federal law.

Your Committee finds that the state child support enforcement law does not comply with Title IV-D of the Social Security Act in that it:

- (1) Provides for the unnecessary expenditure of funds in the disbursement of support moneys to custodial parents and requires original copies of certified mail receipts for proof of service;
- (2) Is ambiguous as to whether other state child support enforcement agencies may enforce child support liens of this State; and
- (3) Exposes obligors to identity theft by requiring an obligor's full social security number on the notice of child support lien.

Your Committee finds that this measure addresses the foregoing concerns by:

- (1) Clarifying the requirement that all income withholding payments be sent to the Child Support Enforcement Agency or to another state's child support agency acting under Title IV-D of the Social Security Act;
- (2) Requiring the custodial parent to elect to receive child support payments through an electronic benefits transfer system or direct deposit and if such election is not made, allowing the Child Support Enforcement Agency to determine a method that complies with Title IV-D of the Social Security Act;
- (3) Accepting an electronic copy or facsimile of a signature on certified mail receipts as sufficient proof of service in lieu of an actual signature, also saving postage costs;
- (4) Clarifying that the child support enforcement agencies in other states acting under Title IV-D of the Social Security Act may directly enforce a child support lien, acknowledging the federal law's provision of full faith and credit to child support liens arising in other states;
- (5) Clarifying that payments from a financial institution may be made directly to the entity seeking to enforce the lien without the involvement of the Child Support Enforcement Agency, provided that the financial institution complies with the State's procedural rules; and
- (6) Requiring that only the last four digits of the obligor's social security number be indicated on the notice of child support lien.

Your Committee has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 851, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 851, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Taniguchi, Slom.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Ito, Ward).

**Conf. Com. Rep. 98 on S.B. No. 464**

The purpose of this measure is to promote the use of, and investment in, renewable energy resources by amending the renewable energy technologies income tax credit to encourage the use of solar and wind energy systems, and permitting a portion of the excess of the credit over payments due to be refunded to the taxpayer under certain circumstances.

Your Committee on Conference finds that making this tax credit refundable at a reduced level will enable the solar industry in Hawaii to expand its role as an engine of economic stimulus and job creation in the current recessionary environment. Last year, the solar industry grew five hundred per cent and further room for growth remains. At present, the solar industry is responsible for approximately two thousand jobs in Hawaii, but the market is artificially capped by inconsistencies in the tax code that make it virtually impossible for most would-be investors to use the credit. Without access to this tax credit, solar projects in Hawaii are not financially viable.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date from "July 1, 2020" to "July 1, 2009";
- (2) Making it applicable to taxable years beginning after December 31, 2008; and

- (3) Making technical, nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 464, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 464, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, M. Oshiro, Coffman, Thielen.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 99 on S.B. No. 695**

The purpose of this measure is to require an employer to continue paying for medical services for an injured employee despite disputes over whether treatment should be continued, until the Director of Labor and Industrial Relations determines whether medical services should be continued.

Your Committee finds that continuing medical treatments for an injured employee, until a decision is rendered by the Director of Labor and Industrial Relations on the appropriateness of the treatment, provides appropriate protections for injured employees while also allowing employers and insurers to recover benefits paid past the deadline for allowed treatment.

Your Committee, upon further consideration, has amended this measure by changing the effective date from July 1, 2020, to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 695, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 695, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Hee, Taniguchi.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Hee).

Representatives Rhoads, M. Oshiro, Souki, Yamashita, Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Souki).

**Conf. Com. Rep. 100 on S.B. No. 1664**

The purpose of this measure is to clarify and temporarily codify the implementation of the Department of Labor and Industrial Relations' partial unemployment system.

Your Committee finds that clarification and codification of the partial unemployment system would help employers retain employees' loyalty and productivity during the current recession and help smooth transitions in hiring and training as businesses recover from the recession.

Your Committee upon further consideration has made the following amendments to S.B. No. 1664, S.D. 2, H.D. 2:

- (1) Amending the restrictions under which the Department of Labor and Industrial Relations may extend partial unemployment beyond eight consecutive weeks of total unemployment to include but not be limited to certain conditions;
- (2) Changing the effective date from July 1, 2020, to July 1, 2009; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1664, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1664, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Tsutsui, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Yamashita, Aquino, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 101 on S.B. No. 1250**

The purpose of this measure is to amend and make permanent those provisions related to emergency hires by clarifying that:

- (1) No individual may be employed on an emergency basis for more than three years in the aggregate; and

- (2) Unlicensed teachers employed on an emergency basis after June 30, 1997, but prior to July 1, 2008, may be employed on an emergency basis for no more than four years in the aggregate.

Your Committee on Conference finds that aligning Hawaii's teacher licensure requirements with the criteria for highly qualified teachers as prescribed by the No Child Left Behind Act is a critical component of meeting the federal requirements. Your Committee on Conference supports this intent, but believes some flexibility is necessary to address the State's continuing teacher shortage.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that no individual may be employed by the Department of Education on an emergency basis for more than four years in the aggregate, beginning July 1, 2009;
- (2) Deleting provisions related to unlicensed individuals employed on an emergency basis after June 30, 1997, but prior to July 1, 2008;
- (3) Deleting the amendment to Act 125, Session Laws of Hawaii 2008, which would have made permanent the amendments to section 302A-804, Hawaii Revised Statutes, by Act 125;
- (4) Making the Act effective July 1, 2009;
- (5) Amending the findings and purpose section to reflect the above changes; and
- (6) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1250, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1250, S.D. 1, H.D. 1, C.D. 1.

Senators Sakamoto, Takamine, Bunda, Kidani, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

Representatives Takumi, Rhoads, C. Lee, Nakashima, Ching.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

#### **Conf. Com. Rep. 102 on S.B. No. 1218**

The purpose of this measure is to bring Hawaii into compliance with federal law by implementing the Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (S.A.F.E. Mortgage Licensing Act of 2008).

Your Committee finds that this measure complies with the requirements of the federal S.A.F.E. Mortgage Licensing Act of 2008. Your Committee further finds that the purpose of the S.A.F.E. Mortgage Licensing Act of 2008 is to "to increase uniformity, reduce regulatory burden, enhance consumer protection, and reduce fraud" by encouraging the states to regulate the mortgage industry. Your Committee notes that this measure is based on a model act prepared by the Conference of State Bank Supervisors and American Association of Residential Mortgage Regulators that the United States Department of Housing and Urban Development has approved as compliant with the federal law.

Your Committee notes that, under the S.A.F.E. Mortgage Licensing Act of 2008, failure of the State to implement conforming legislation would result in abdication of the State's right to regulate the mortgage industry and assignment of that right to the federal Department of Housing and Urban Development. Your Committee finds that this result would be unacceptable as it is critical that the State retain its right to respond to unique local circumstances in regulating the mortgage industry.

Your Committee notes that this measure establishes the regulatory framework mandated by federal law, but recognizes that this new framework will remain subject to additional improvements as the Division of Financial Institutions (Division) implements the provisions of this measure. Your Committee notes that this measure calls on the Commissioner of Financial Institutions (Commissioner) to report to the Legislature on the Division's process of implementing this measure, including guidance from the Department of Housing and Urban Development, and to make recommendations for further legislation. It is the intent of your Committee that the Commissioner's report serve as the basis for cooperation between the Division and the Legislature to effectively implement this measure. Finally, your Committee finds that the fee structure contained in this measure will allow the mortgage originator regulatory system to be financially self-sufficient.

Your Committee has amended this measure by:

- (1) Adding a findings and purpose section;
- (2) Deleting the definitions of "agent", "borrower", and "mortgage loan origination agreement";
- (3) Specifying that "individual" means a natural person;
- (4) Clarifying that an individual required to be licensed as a mortgage loan originator shall obtain licensure by August 1, 2010, or such later date approved by the United States Department of Housing and Urban Development pursuant to authority granted under Public Law 110-289, section 1508(e);
- (5) Specifying that the requirements of federal or state law regarding privacy and confidentiality of information shall apply to information or material that has been disclosed to the Nationwide Mortgage Licensing System;

- (6) Specifying that the person who holds a privilege relating to information provided to the Nationwide Mortgage Licensing System has discretion to waive that privilege in whole or in part;
- (7) Adding a provision to grant the Commissioner the authority to control access to or take possession of the documents or records of a person under examination or investigation;
- (8) Adding provisions to grant the Commissioner the authority to retain personnel, cooperate with other government officials or regulatory agencies, procure analytical systems or software, rely on investigation reports by other government officials, and accept audit reports from independent certified public accountants in the conduct of investigations or examinations;
- (9) Adding a provision to specify that the Commissioner's authority to conduct examinations or investigations is effective regardless of whether the licensed mortgage loan originator, individual, or person subject to regulation under this measure purports to act pursuant to any licensing or registration law of this State;
- (10) Adding a provision to prohibit any licensed mortgage loan originator, individual, or person subject to investigation or examination from knowingly withholding, abstracting, removing, mutilating, destroying, or secreting any books, records, computer records, or other information;
- (11) Amending the definition of "creditor" to include mortgage solicitors;
- (12) Excluding the officers, directors, partners, members, managers, employees, and agents of an applicant for licensure as a mortgage loan originator from the Department of Commerce and Consumer Affairs' authority to conduct criminal background checks;
- (13) Adding a new provision to specify that as of August 1, 2010, no new license or renewal of a license shall be issued under chapter 454, Hawaii Revised Statutes;
- (14) Adding a new provision to specify that as of the date that an individual is required to be licensed under this measure, the remaining pro rata balance of the fees paid by that individual pursuant to chapter 454, Hawaii Revised Statutes, shall be applied to the individual's fees due under this measure;
- (15) Adding a new provision to specify that an individual shall not be subject to chapter 454, Hawaii Revised Statutes, as of the effective date of that individual's license under this measure;
- (16) Requiring the Commissioner to report to the Legislature regarding the implementation of this measure including budget recommendations, developments in federal law, guidance from the United States Department of Housing and Urban Development, and recommendations for further legislative action;
- (17) Specifying that the sum of \$159,400 is appropriated out of the Compliance Resolution Fund to carry out the purposes of this measure;
- (18) Changing the effective date of this measure to July 1, 2009; provided that sections 2, 3, 4, 6, and 7 shall take effect in July 1, 2010; and
- (19) Making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1218, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1218, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Marumoto).

**Conf. Com. Rep. 103 on S.B. No. 1164**

The purpose of this measure is to remove barriers to educational attainment faced by children of military families due to frequent moves and the deployment of their parents by enacting the Interstate Compact on Educational Opportunity for Military Children.

Your Committee on Conference finds that the Interstate Compact on Educational Opportunity for Military Children provides standards addressing issues such as enrollment, placement, and graduation of children whose parents are active duty service members or recent veterans of the military. Rather than suffering frustrations and delays, this Compact would allow military children to integrate quickly into and transition out of Hawaii's classrooms, and greatly improve their quality of life and access to education.

Your Committee on Conference and the Legislature appreciate the support of the Joint Venture Education Forum, which will be funding the membership dues and travel costs for at least the first year.

Your Committee on Conference has amended this measure to correct a citation of the United States Code with regard to active duty members of the uniformed services, to read: "...pursuant to 10 United States Code Section 101(d)(1) and Section 101(d)(6)(A)."

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1164, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1164, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Espero, Tsutsui, Kidani, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Kidani, Tsutsui).

Representatives Takumi, McKelvey, C. Lee, Evans, Finnegan.  
Managers on the part of the House.

**Conf. Com. Rep. 104 on S.B. No. 266**

The purpose of this measure is to establish a climate change task force within the Office of Planning to begin an investigation of the current and potential impacts of global warming and climate change on the people, natural resources, and economy of the State.

Your Committee on Conference finds that, although the Legislature has taken actions to address the reduction of greenhouse gas emissions through the passage of Act 234, Session Laws of Hawaii 2007, strategies to focus on adaptation still need to be investigated and implemented. This measure is intended to provide a method of developing such strategies.

Your Committee on Conference finds, however, that the task force could benefit from the input of members appointed by the Department of Transportation, the Board of Land and Natural Resources, the Office of Civil Defense, the counties, the Center for Island Climate Adaptation and Policy, and the Joint Institute for Marine and Atmospheric Research. Additionally, your Committee on Conference finds that the Department of Business, Economic Development, and Tourism is adequately represented by the participation of the Office of Planning on the task force and that the inclusion of a representative from the Department of Business, Economic Development, and Tourism is redundant.

Your Committee on Conference urges the task force to also solicit input from the military and the Building Industry Association.

Your Committee on Conference also finds that the requirement that the task force conduct an assessment of the conditions and impacts from global warming and climate change on various segments of the State may be too broad an undertaking for the task force. Your Committee on Conference understands that “scoping” is the first step in initiating a climate change study. This constitutes a broad investigation of the social, economic, cultural and environmental sectors that will be impacted by climate change, in a manner that will be location-specific. By contrast, in the realm of hazard mitigation, of which the effects of climate change lie, risk and vulnerability assessments use information gathered during the scoping to determine the risk to exposed populations and property and the extent of injury and damage that may result from a hazard event. An assessment, then, is much more time- and cost-intensive than the scoping step.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Adding to the task force, members representing the Department of Transportation, the Board of Land and Natural Resources, the Office of Civil Defense, the counties, the Center for Island Climate Adaptation and Policy, and the Joint Institute for Marine and Atmospheric Research;
- (2) To avoid redundancy, deleting from the task force a representative from the Department of Business, Economic Development, and Tourism, due to the inclusion of a representative of the Office of Planning on the task force;
- (3) Narrowing the breadth of the investigation to be conducted by the task force to “scoping”, rather than “assessing” the conditions and impacts described in the measure;
- (4) Changing the extent of support to be provided by the Office of Planning;
- (5) Revising the duties of the task force relating to recommendations to be made to the Legislature by including greater detail for items such as public utilities and infrastructure, and deleting the emphasis on maintaining native species, while increasing the emphasis on preserving different types of ecosystems;
- (6) Changing the appropriation amount from an unspecified amount to \$50,000 for each of the fiscal years 2009-2010 and 2010-2011;
- (7) Changing the effective date of the measure from “July 1, 2020” to “July 1, 2009”; and
- (8) Making technical, nonsubstantive amendments for style and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 266, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 266, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Nishihara, Tsutsui, Kokubun.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Morita, Coffman, Wooley, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Wooley).

**Conf. Com. Rep. 105 on S.B. No. 1224**

The purpose of this measure is to provide economic relief to airport concessionaires by giving the Governor, or Director of the Department of Transportation (DOT) if so directed by the Governor, the discretion and authority to:

- (1) Provide relief to airport concessionaires:
  - (A) Whose leases or contracts were entered into on or after November 1, 2006, and who spent capital improving their concession premises; or
  - (B) Who spent capital improving their concession premises as a result of any agreement entered into with DOT under Act 128, Session Laws of Hawaii 2006;
- (2) Reach a relief agreement with the concessionaire to extend the term of the lease or contract, grant or modify existing relief provisions, reduce or waive rent, and otherwise modify and amend any terms of the concession lease or contract;
- (3) Grant fair and reasonable relief to a concessionaire whose concession has suffered operating losses for any period starting on or after November 1, 2006;
- (4) Grant lease or contract provisions that:
  - (A) Provide for annual adjustments in the guaranteed rents of all airport concessionaires that are to be paid to the State; and
  - (B) For each airport concession lease or contract not having economic emergency relief provisions, modify and adjust these contracts to contain emergency relief provisions similar to those in other concession leases or contracts issued after September 11, 2001, and for any lease or contract, provide for optional additional relief during dire economic times; and
- (5) Take into account the concession's economic circumstances and whether the concession received relief by way of annual adjustment in guaranteed rents or other governmental relief to avoid duplicate economic relief benefits to a concessionaire.

Your Committee on Conference finds that airport concessions need continuing relief to that previously provided by Act 201, Session Laws of Hawaii 2004, and Act 128, Session Laws of Hawaii 2006, similar temporary enactments that have since sunset. However a few concessions are left that could not obtain rent relief in time of the sunset of those prior Acts. These Acts are necessary because the concession contracts are awarded pursuant to competitive sealed bids which cannot be amended without enabling legislation, in the interests of fairness to all bidders.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the purpose section to more accurately reflect the amended measure;
- (2) Removing the provisions that:
  - (A) Require a concession to be withdrawn by the Department of Transportation and rebid or negotiated within six months, if requested by the concessionaire, if negotiations granting relief to certain concessionaires fail within one hundred twenty days following the effective date of the measure or an agreed extension between the parties; and
  - (B) Prohibit a concessionaire from requesting a withdrawal and rebid or withdrawal and renegotiation if the concessionaire has refused to accept relief from the Department of Transportation under certain circumstances;
- (3) Requiring negotiations for relief for a concession to commence within ninety days or within any extension agreed to between the Governor or the Governor's designee and a concessionaire from the date of mailing of a written request for relief to the Governor;
- (4) Clarifying that the rent may be adjusted, rather than reduced or waived, and terms may be added to the concession lease or contract;
- (5) Granting the Governor or the Director of Transportation, if so directed by the Governor, similar and fair relief ("fair and reasonable relief" in H.D. 2) to concessionaires whose concessions have suffered operating losses, including concessionaires who have suffered reduced business or other losses;
- (6) Deleting the provision that considered granting certain lease or contract provisions to be within the Governor or Director of Transportation's discretion;
- (7) Including under the Governor or the Director of Transportation's discretion and authority to provide relief, a concession lease or contract that remains in effect on or after November 1, 2006;
- (8) Adding statutory cross-references for clarity; and
- (9) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1224, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1224, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, M. Oshiro, Awana, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 106 on S.B. No. 1352**

The purpose of this measure is to reduce the backlog in land court recording and registration by:

- (1) Transferring fee simple time share interest registration from the Land Court System to the Regular System, and authorizing the Registrar of the Bureau of Conveyances to accept, in the Regular System, electronic instruments in lieu of original instruments with original signatures;
- (2) Authorizing the Department of Land and Natural Resources to establish a \$5 transaction fee for services rendered relating to automation; and
- (3) Requiring the Bureau of Conveyances to implement a pilot program for an integrated electronic filing system for electronic recordation of fee time share interests.

Your Committee finds that, due to the nature of time share ownership, it is appropriate to exclude time shares from the Land Court system. The Land Court system was designed to process single, consecutive ownership interests and not multiple, simultaneous interests in a single parcel of land. Inclusion of time shares in the Land Court burdens the system and is one cause of the current backlog. Your Committee is sympathetic to concerns that removal of time share transaction will lead to a loss of revenue for the Land Court; however, it is not in the best interest of the Land Court or the State to preserve an inefficient process merely for the sake of a minor revenue stream that can be recovered in the form of transaction fees or otherwise. It is the intent of your Committee that the Department of Land and Natural Resources (DLNR) collect a transaction fee for each recording in the Bureau of Conveyances and in the Office of the Assistant Registrar of the Land Court as a short term solution and review its fee structure as a long term solution to ensure that there is no loss of revenue to the DLNR.

Your Committee is also sympathetic to the concerns raised by employees of the Bureau of Conveyances over the change to registration procedures. Your Committee is persuaded that modernization of the registration and recording process is essential to solve the problem of the current backlog and to prevent a similar recurrence in the future. Your Committee is confident that the employer-employee working group established by this measure to find solutions to implementation and revenue issues will address the concerns raised by employees of the Bureau of Conveyances.

Your Committee has amended this measure by:

- (1) Adding a provision to specify that deregistration of time share interests shall not be construed to relieve deregistered land or the owners of deregistered land from any rights or liabilities applicable to deregistered land that are not expressly provided;
- (2) Deleting the proposal that would increase the ceiling on the Bureau of Conveyances Special Fund to \$1,150,000, thereby leaving the special fund ceiling at \$500,000; provided that funds collected for transaction fees as authorized in this measure shall not lapse to the credit of the state general fund;
- (3) Directing rather than authorizing, the Department of Land and Natural Resources to assess the \$5 transaction fee to be charged for each recording in the Bureau of Conveyances and in the Office of the Assistant Registrar of the Land Court for services rendered by the Bureau of Conveyances pursuant to part II of chapter 501 and chapter 502, Hawaii Revised Statutes as of July 1, 2009;
- (4) Adding the Land Court Registrar or the Registrar's designee to the membership of the working group created by this measure;
- (5) Changing the effective date of this measure to July 1, 2009; provided that section 2 of shall take effect on July 1, 2011, and shall be repealed on December 31, 2014; provided further that section 16 shall take effect on July 1, 2009, and shall be repealed on the effective date of administrative rules adopted by the department of land and natural resources that address the establishment of transaction fees for each recording in the bureau of conveyances and in the office of the assistant registrar of the land court; provided further that section 17 shall take effect on January 1, 2012; and provided further that section 18 shall take effect upon its approval and shall be repealed on January 31, 2010; and
- (6) Making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1352, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1352, S.D. 2, H.D. 2, C.D. 1.

**Conf. Com. Rep. 107 on S.B. No. 1345**

The purpose of this measure is to provide fair compensation, including an automatic lease extension, for lessees when the Department of Land and Natural Resources withdraws, takes, or condemns any portion of the leased land that prevents a lessee from using the land for the purposes for which it was originally leased.

Specifically, this measure provides that in addition to any rent reduction or compensation for improvements on withdrawn, taken, or condemned land, the lessee shall be entitled to:

- (1) Compensation for costs attributable to the diminished use of the leased land, including reimbursement for insurance costs and loss of reasonably anticipated income minus operating expenses; and
- (2) An extension on the lease for not more than the number of years remaining in the original lease.

Your Committee finds that the Saddle Road widening project in the County of Hawaii is a good example of a taking of leased land with inadequate compensation for the lessee. In that project, the Department of Land and Natural Resources established conservation easements on leased land used for pasture or special livestock. As a result of the taking, the lessee ranchers suffered serious financial losses over an extended period of time. The intent of this measure is to prevent present and future lessees from experiencing similar situations in the future.

Your Committee has amended this measure by:

- (1) Removing the phrase "minus operating expenses," because your Committee expects the Department of Land and Natural Resources to define in rulemaking the parameters of "reasonably anticipated income";
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1345, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1345, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

#### **Conf. Com. Rep. 108 on S.B. No. 1160**

The purpose of this measure is to:

- (1) Authorize the Hawaii Public Housing Authority to assess all the units in a state public housing project a fee for the common area expenses of the housing project;
- (2) Eliminate most procedural requirements preliminary to hearings for evictions of tenants of public housing projects;
- (3) Require written notice to delinquent tenants in accordance with federal law;
- (4) Provide that hearings officers appointed by the public housing authority will conduct eviction hearings, rather than eviction boards; and
- (5) Require legislative approval prior to the sale or lease of any project by the Hawaii Public Housing Authority.

Your Committee on Conference finds that the purpose of this measure is to assist the Hawaii Public Housing Authority in administering public housing projects with greater efficiency, for the benefit of both the Authority and public housing tenants.

Your Committee on Conference has amended this measure by:

- (1) Retaining the eviction boards to conduct hearings for evictions from federal low-income housing;
- (2) Requiring hearings officers to conduct hearings for evictions from state low-income housing;
- (3) Requiring the eviction board or hearings officer, in hearings for a tenant who has custody of a school age child or children residing with the tenant, to consider information regarding the tenant's regular participation in school activities or meetings during the current and previous school year from the children's school or schools in making a determination;
- (4) Prohibiting the Hawaii Public Housing Authority from selling any land developed for public housing projects;
- (5) Amending the findings and purpose section to reflect the above changes;
- (6) Making the effective date of the Act July 1, 2009; and
- (7) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1160, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1160, S.D. 2, H.D. 2, C.D. 1.

**Conf. Com. Rep. 109 on S.B. No. 109**

The purpose of this measure is to adopt the new Interstate Compact for Juveniles.

The compacting states to the Interstate Compact for Juveniles recognize that each state is responsible for the proper supervision or return of juveniles, delinquents, and status offenders who are on probation or parole and who have absconded, escaped, or run away from supervision and control. Setting forth, among other things, the duties, responsibilities, and procedures applicable to the compacting states, the Interstate Commission, and the Hawaii State Council for Interstate Juvenile Supervision, the Interstate Compact ensures joint and cooperative action to promote public safety and the appropriate care and treatment of these juveniles.

With passage of this measure, Hawaii will join the thirty-five other states who have already adopted the new Interstate Compact for Juveniles.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation from general funds of an amount of \$12,000 for fiscal year 2009-2010 and an amount of \$12,480 for fiscal year 2010-2011; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 109, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 109, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Mizuno, Karamatsu, Brower, Ward.  
Managers on the part of the House.

**Conf. Com. Rep. 110 on S.B. No. 1461**

The purpose of this measure is to advance the filing and payment of monthly general excise taxes that are due to an earlier date in the month following accrual to generate a one-time windfall revenue for the State.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Extending the requirement for accelerated monthly filing and payment to quarterly and semi-annual filing and payment of general excise taxes;
- (2) Requiring any person who is required to electronically file a federal return or electronically remit any federal taxes to the federal government, to also electronically file a state return and electronically remit any state taxes under Title 14, Hawaii Revised Statutes, to the Department of Taxation; provided that the Director of Taxation may grant an exemption for good cause;
- (3) With regard to state income tax, requiring any employer who is required to remit any withheld taxes to the federal government on a semi-weekly schedule, to also remit the complete amount of tax withheld to the state Department of Taxation on a semi-weekly schedule; provided the Director of Taxation may grant an exemption for good cause;
- (4) Changing the effective date to upon approval and applying the measure to returns and payments due after May 31, 2009; and
- (5) Making technical conforming amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1461, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1461, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 111 on H.B. No. 381**

The purpose of this bill is to replace the June 30, 2009, lapse date for a \$4,000,000 appropriation to the State of Hawaii Endowment Fund, originally appropriated in Act 97, Session Laws of Hawaii 2006, with provisions stipulating that all pledges or portions of pledges not collected by February 28, 2013, will cause any unexpended balance from the appropriation to revert to the general fund.

Your Committee on Conference has amended this bill by changing the effective date to June 29, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 381, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 381, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Tsutsui, Hemmings.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Hemmings).

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 112 on H.B. No. 1536**

The purpose of this bill is to alleviate some of the effects of the current fiscal crisis the State is facing by:

- (1) Implementing a salary reduction of five per cent of what public executives and legislators were being paid on June 30, 2009, for a two-year period beginning July 1, 2009; and
- (2) Tying vacation and sick leave to that of collective bargaining unit (13) for a two-year period beginning July 1, 2009.

Along with the rest of the nation, Hawaii, is facing difficult economic times that, according to some, have not been seen since the 1980s or even the Great Depression. Hawaii is grappling with an enormous budget deficit that may increase in the near future. Although salary increases were approved by the Commission on Salaries for members of the executive, legislative, and judicial branches, these increases were approved at a time when Hawaii's economic future looked bright. Your Committee on Conference finds that the current economic downturn and the resulting decline in general fund revenues necessitate that the heads of all branches of state government share in the sacrifice of salary adjustments. While the reduction of these salaries only amounts to a small savings in relation to the entire deficit, your Committee on Conference finds that in recognition of Hawaii's current fiscal situation, this is a prudent step.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1536, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1536, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kim, Kokubun, Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, M. Oshiro, Aquino, Belatti, Pine.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 113 on H.B. No. 1016**

The purpose of this bill is to appropriate funds to satisfy claims against the State, its officers, or its employees.

Your Committee on Conference has amended this bill by:

- (1) Adding claims for judgments and settlements, as recommended by the Department of the Attorney General; and
- (2) Amending the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1016, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1016, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Kim, Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Karamatsu, M. Oshiro, Thielen.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 114 on H.B. No. 1550**

The purpose of this bill is to begin to address general fund revenue shortfalls by amending Hawaii's tax law to impose the state income tax on rollovers made by state and county employees from qualifying deferred-compensation plans and qualifying annuity plans to eligible retirement plans or individual retirement accounts.

Employees who roll over or transfer contributions from their deferred-compensation plans to purchase Employees' Retirement System membership service credits or to upgrade their noncontributory plan service to hybrid plan service in the future are not assessed an income tax on these funds. Since, under current law, pension distributions from the hybrid plan are not subject to income tax, these rollover or transferred funds completely escape Hawaii income tax.

Inasmuch as funds from deferred compensation plans would normally be taxed when an employee withdraws these funds, since these funds were withheld from an employee's pre-tax wages, taxing the rolled over or transferred funds at the time they are rolled over or transferred would appear to be equitable and fair.

Your Committee on Conference has amended this bill by:

- (1) Further clarifying language to ensure that the state income tax is imposed on distributions from qualified annuity plans and qualified deferred compensation plans by employees who effectively make the distributions to obtain retirement credits under the state employee retirement system;
- (2) Changing its effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1550, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1550, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Hooser, Kidani, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Hemmings).

Representatives Rhoads, M. Oshiro, Chong, Choy, Pine.  
Managers on the part of the House.  
Ayes, 5. Ayes with Reservations, 1 (Pine). Noes, none. Excused, none.

**Conf. Com. Rep. 115 on H.B. No. 952**

The purpose of this bill is to protect an employee's right to organize and allow employees easier access to union representation by:

- (1) Streamlining the process to certify union representation by requiring the Hawaii Labor Relations Board (HLRB) to certify an exclusive representative if a majority of the employees in a unit not currently represented have signed valid authorizations designating a bargaining representative, rather than holding an election to determine such representation;
- (2) Establishing a process that facilitates the initial collective bargaining agreements between an employer and a newly certified employee representative; and
- (3) Making it a violation for an employer to wilfully or repeatedly commit unfair or prohibited practices that interfere with an employee's statutory rights or that discriminate against an employee for exercising protected conduct, subject to a civil penalty of \$20,000 or less per violation.

Historically, the unionization of workers has resulted in increased wages, the lessening of racial and gender disparities in pay, decreased workplace discrimination, and increases in job safety standards. These changes benefit not only unionized workers but all employees.

Although many employees have been allowed to legally exercise their right to organize, some employers still attempt to deny workers the freedom to form a union. This measure attempts to provide workers seeking to organize a more level playing field by streamlining the union certification process and enabling workers to form unions when a majority of the workers sign union authorization cards. Furthermore, this bill provides protections for workers against actions that would hinder them from exercising this right.

After further consideration, your Committee on Conference finds that the fairness contained in this measure can be improved and made more equitable. Accordingly, your Committee on Conference has amended this bill by:

- (1) Requiring HLRB to adopt rules governing the certification of exclusive union representation;
- (2) Making the streamlined union certification process applicable to employers with an annual gross revenue of \$5 million or more;
- (3) Making the wilful or repeated commission of unfair or prohibited practices applicable to both employers and employees, and changing the civil penalty for such a violation to \$10,000 or less per violation;
- (4) Changing its effective date to July 1, 2009; and

- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 952, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 952, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 116 on H.B. No. 981**

The purpose of this bill is to continue to promote highway safety by statutorily establishing several recommendations of the Ignition Interlock Implementation Task Force (Task Force) established by Act 171, Session Laws of Hawaii 2008 (Act 171). Among other things, this bill:

- (1) Provides that indigent persons qualifying for state-funded ignition interlock devices must have incomes not greater than an unspecified percent of the official poverty line established by the Secretary of Health and Human Services under the Community Services Block Grant Act;
- (2) Requires the Director to select a single vendor to install and maintain ignition interlock devices under the statewide program relating to the certification and monitoring of ignition interlock devices;
- (3) Allows for the emergency override of the ignition interlock system when such override is necessary to promote highway safety;
- (4) Amends various periods of administrative revocation of license and privilege to operate a vehicle, based on the number of prior alcohol or drug enforcement contacts;
- (5) Provides penalties for failing to install an ignition interlock device during the revocation period;
- (6) Changes the “look back period” for determining whether a driver has had a prior law enforcement contact for an alcohol-related incident, from five years to ten years;
- (7) Specifies that persons committing the offense of operating a vehicle under the influence of an intoxicant (OVUII) shall be guilty of a petty misdemeanor and sentenced without the possibility of the suspension of sentence;
- (8) Amends various other sentencing provisions for persons committing the offense of OVUII;
- (9) Eliminates administrative revocation and criminal sentencing provisions for highly intoxicated drivers;
- (10) Establishes an absolute prohibition from driving during a period of probation if the person on probation does not own or have use of a vehicle in which an ignition interlock device can be installed or the person is otherwise unable to drive during the probation period;
- (11) Eliminates the provision limiting the admissibility of the refusal to submit to a test of a person’s breath or blood for legally arrested individuals under the age of 21;
- (12) Establishes mandatory terms of probation for repeat OVUII offenders;
- (13) Eliminates provisions requiring the installation of an ignition interlock device and issuance of an ignition interlock permit for defendants released on bail, recognizance, or supervised release;
- (14) Repeals statutory language regarding the issuance of conditional license permits; and
- (15) Extending the existence of the Task Force for an additional year.

Hawaii has experienced an alarmingly high number of alcohol-related traffic fatalities over the past several years. While enforcement of existing laws governing OVUII has had an impact on alcohol-related traffic fatalities, it appeared that more needed to be done to bring about substantial improvement.

In response to these alarming numbers, H.C.R. No. 28, H.D. 1, was passed during the 2007 legislative session, calling for a working group to be formed to study the issue of ignition interlocks and make recommendations leading to legislation. In 2008, legislation was recommended that established an ignition interlock device program in Hawaii and was enacted as Act 171. The program established under Act 171 would require the installation of ignition interlock devices, which prohibit a vehicle from being started until the driver of the vehicle passes a breathalyzer test that is connected to the ignition of the vehicle, on vehicles of those convicted of OVUII under certain conditions.

While Act 171 served as a framework from which to build the ignition interlock program, the complex nature of establishing the ignition interlock program in Hawaii necessitated the establishment of the Task Force to address numerous issues before the actual implementation of the program. Several of the initial recommendations of the Task Force are contained in this measure.

After further consideration, your Committee on Conference has amended this bill by:

- (1) Reinstating the below 125 percent of the official poverty line income criteria for indigent persons qualifying for state-funded ignition interlock devices;
- (2) Authorizing the Director to adopt rules pursuant to Chapter 91 to effectuate the provisions dealing with payment for the installation and maintenance of ignition interlock devices for indigent persons;
- (3) Eliminating the provision allowing for emergency override of the ignition interlock system;
- (4) Reestablishing the "look back period" at five, rather than ten, years;
- (5) Removing language specifying that OVUII offenders are guilty of a petty misdemeanor and shall be sentenced without the possibility of the suspension of sentence;
- (6) Reestablishing the maximum prison time for a first offense at five days rather than 30 days;
- (7) Establishing a period of imprisonment of not more than five days for a second offense committed within five years of a prior conviction;
- (8) Establishing a period of imprisonment of up to five days for an offense committed within five years of two prior convictions;
- (9) Changing its effective date to ensure that the intent and purpose of Act 171, Session Laws of Hawaii 2008, and this Act will be enacted and take effect at the appropriate times; and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 981, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 981, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 117 on H.B. No. 1166**

The purpose of this bill is to assist the Airports Division of the Department of Transportation (DOT) to construct capital improvement projects (CIPs) through the establishment of additional financing options for these projects by:

- (1) Clarifying that the passenger facility charge (PFC) is a charge for the use and services of an undertaking for the purposes and within the meaning of the law relating to the financing of revenue bonds;
- (2) Requiring moneys paid into the Passenger Facility Charge Special Fund (Special Fund) to be appropriated, applied, or expended by DOT for airport capital improvement program projects approved by the Legislature and as permitted by federal law;
- (3) Allowing for the establishment of separate accounts within the Special Fund; and
- (4) Allowing the transfer of PFC moneys into these accounts to pay debt service on bonds issued for the CIPs.

PFCs were authorized by federal law in the 1990s and provide DOT with an additional capital funding source to expand the airport system. PFCs are assessed on departing passengers on all international and domestic overseas flights, excluding interisland flights, and are overseen by the Federal Aviation Administration. Under Hawaii law, PFCs may only be used to directly pay costs related to airport projects approved by the Legislature. However, current law is unclear regarding the use of the PFC for the indirect financing of structures through the issuance of bonds. This measure will enable DOT to finance the cost of airport projects with the proceeds of bonds completely or partially backed by the PFC and supplies DOT with the appropriate flexibility needed to fund the expansion of the airport system.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to July 1, 2009, and deleting its repeal date; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1166, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1166, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 118 on H.B. No. 1552**

The purpose of this bill is to promote and protect living parks as unique cultural and historical assets of this State by:

- (1) Authorizing the Department of Land and Natural Resources to issue long-term residential leases to qualified persons; and
- (2) Establishing a Living Park Planning Council to develop a master plan for each state living park.

Your Committee on Conference has amended this bill by:

- (1) Including a two-year moratorium on evictions of long-term tenants residing in Kahana Valley State Park who meet certain conditions;
- (2) Changing the effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive changes for style, clarity, and conformity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1552, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1552, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 119 on H.B. No. 610**

The purpose of this bill is to focus State economic planning on the growth of science and technology industries by:

- (1) Requiring the Department of Business, Economic Development, and Tourism (DBEDT) to annually update and report to the Legislature on the criteria used to measure the growth of Hawaii's emerging growth industries, instead of reporting on the impact of DBEDT's efforts on those industries; and
- (2) Focusing the Hawaii State Planning Act's economic objectives and policies on the development and expansion of businesses and activities in science, technology, and related emerging growth industries.

Your Committee on Conference has amended this bill by removing its substance, which is contained in the Conference Draft of another bill, and inserting the House Draft 2 of this bill, in an amended form.

As amended, this bill requires Hawaii EPSCoR, the federally-funded Experimental Program to Stimulate Competitive Research, within the University of Hawaii, to develop the Hawaii State Science and Technology Plan (Plan) with the assistance of the High Technology Development Corporation.

A subcommittee of Hawaii EPSCoR has already begun preparing a plan. This measure requires Hawaii EPSCoR to incorporate its past planning efforts into the Plan, conduct further Plan development in consultation with a broad range of stakeholders, and submit the completed Plan to the Legislature in 2011.

This bill, as amended, becomes effective on July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 610, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 610, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 120 on H.B. No. 586**

The purpose of this bill is to:

- (1) Sunset the Kaneohe Bay Regional Council (Council); and
- (2) Designate the Department of Land and Natural Resources (DLNR) as the agency responsible for exercising the duties and functions of the Council.

Your Committee on Conference has amended this bill by:

- (1) Deleting the section setting forth the duties and functions of the Council to be carried out by DLNR; and
- (2) Changing the effective date to July 1, 2010.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 586, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 586, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 121 on H.B. No. 1525**

The purpose of this bill is to require the Department of Human Services (DHS) to award all future Medicaid health insurance procurement contracts solely to those nonprofit and for-profit entities that comply with specified annual reporting requirements.

Your Committee on Conference has amended this bill by:

- (1) Specifying that the annual reporting requirements apply only to contracts administered in the state;
- (2) Requiring DHS to include the annual reporting requirements in all Medicaid healthcare insurance plan contracts rather than requiring DHS to solicit proposals for the procurement of Medicaid healthcare insurance contracts from those entities that already comply with the specified reporting requirements;
- (3) Amending language to clarify the annual reporting requirements;
- (4) Changing the effective date to July 1, 2009; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1525, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1525, H.D. 1, S.D. 2, C.D. 1.

Ayes, 5. Ayes with Reservations, 1 (Finnegan). Noes, none. Excused, 1 (Karamatsu).

**Conf. Com. Rep. 122 on H.B. No. 111**

The purpose of this bill is to provide fairness in the process of collecting moneys owed to the State or county by a state officer, agent, or employee, by establishing a three-year statute of limitations for the recovery of overpayment of state salaries.

Collecting overpayments of a state employee's salary can be an arduous and often difficult task, especially when the overpayment is the result of miscalculations by the State. If this error goes undetected by either party for a number of years, it can make the process even more troublesome.

Under current law, the State is provided with an unlimited amount of time in which to collect overpayments it made to state employees. On the other hand, if an underpayment of a state employee's salary is made, the employee is allowed only a certain window of opportunity to file a claim. Limiting the time the State has to pursue reimbursement of a salary overpayment made to a state employee brings fairness to this process.

However, additional concerns were raised that in cases where an employee is compensated in an amount greater than or less than that to which the employee was entitled, the individual's average final compensation with regard to his or her retirement pension would be affected. Basing the average final compensation of an employee on what the employee should have been paid appears fair and reasonable.

After further consideration, your Committee on Conference has amended this bill by:

- (1) Decreasing the time limit for recovery of indebtedness from three years from the date of indebtedness to two years;
- (2) Clarifying that the two-year statute of limitations applies only to indebtedness as a result of salary or wage overpayment;
- (3) Stipulating that in cases where an officer, agent, employee, or other person in the service of a jurisdiction is compensated in an amount greater than or less than that to which the person is entitled, the determination of that particular individual's average final compensation shall be based on the compensation the individual should have been paid during that period;

- (4) Changing its effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 111, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 111, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Takamine, Kim, Bunda, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Bunda).

Representatives Rhoads, Yamashita, Ward.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 123 on H.B. No. 343**

The purpose of this bill is to meet the needs of rural and medically underserved areas and populations in Hawaii in a culturally sensitive and medically appropriate manner by appropriating funds to:

- (1) Support and expand the Family Medicine Residency Program (Program) of the University of Hawaii John A. Burns School of Medicine's Department of Family Medicine and Community Health to provide rural primary health care services; and
- (2) Develop a permanent statewide rural primary health care training program in the county of Hawaii to expand the rural health care training available for individuals in the Program.

Your Committee on Conference has amended this bill by:

- (1) Inserting an appropriation of \$70,000 for fiscal year (FY) 2009-2010, to support and expand the Family Medicine Residency Program at the University of Hawaii John A. Burns School of Medicine's Department of Family Medicine and Community Health to provide rural primary health care services;
- (2) Inserting an appropriation of \$70,000 for FY 2010-2011, to develop a statewide rural primary health care training program in each county, beginning in the county of Hawaii to provide family physicians to rural areas and improve health care access for the people of Hawaii;
- (3) Changing the effective date to July 1, 2009; and
- (4) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 343, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 343, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Tokuda, Tsutsui, Green, Kokubun, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 2 (Kokubun, Slom).

Representatives Yamane, Chang, Nishimoto, Nakashima, Finnegan.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Nakashima).

**Conf. Com. Rep. 124 on H.B. No. 1692**

The purpose of this bill is to:

- (1) Restrict to no more than five years, the length of tenancy for certain tenants in a percentage of units in state public housing projects; and
- (2) Require the Hawaii Public Housing Authority (HPHA) to review federal pilot programs intended to break the cycle of public housing and welfare.

Your Committee on Conference has amended this bill by:

- (1) Replacing the limitation on length of tenancies in all state public housing projects with a pilot project in a designated state low-income housing project in which tenancies:
  - (A) Are limited to five years for tenants in occupancy;
  - (B) Are limited to seven years for new tenants; and
  - (C) Are not limited for persons 55 years and older, persons with a mental or physical disability, persons retired for medical reasons, and family members and medically necessary attendants of exempt tenants;
- (2) Requiring HPHA to develop recommendations for a transition plan to assist tenants in meeting the occupancy time limits;

- (3) Requiring the Executive Director of HPHA to establish a working group to designate the site of the pilot project and assist HPHA in developing recommendations for a transition plan;
- (4) Requiring HPHA to report to the Legislature on the status of the pilot project prior to the regular sessions of 2010 and 2011;
- (5) Changing the effective date to July 1, 2009; and
- (6) Making technical, nonsubstantive changes for style, clarity, and conformity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1692, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1692, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Tsutsui, Chun Oakland, Galuteria, Hemmings.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Hemmings).

Representatives Cabanilla, Sagum, Chong, Ching.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 125 on H.B. No. 1809**

The purpose of this measure is to establish a television recycling program in the State.

Specifically, this measure:

- (1) Amends the title of chapter 339D, Hawaii Revised Statutes, from the "Electronic Waste Recycling Act" to the "Electronic Waste and Television Recycling and Recovery Act", establishes a new part entitled "Television Recovery System", and makes conforming amendments to existing provisions in chapter 339D;
- (2) Requires television manufacturers to submit a recycling plan to the Department of Health by June 1, 2010, and to begin recycling covered televisions sold in the State by January 1, 2011;
- (3) Requires television manufacturers to label covered televisions sold or offered for sale in the State with a brand, register with the Department of Health, pay registration fees, and file ongoing registration renewals;
- (4) Prohibits retailers from selling or offering for sale in the State covered televisions that are a brand of a manufacturer that is not registered with the Department of Health;
- (5) Provides a formula for the Department of Health to calculate each television manufacturer's recycling obligation;
- (6) Imposes penalties on manufacturers and retailers for noncompliance with recycling and reporting requirements of the chapter; and
- (7) Stipulates that implementation of this measure by January 1, 2011, shall satisfy the requirement for a separate plan for the collection, transportation, and recycling of televisions called for in Act 13, Special Session Laws of Hawaii 2008.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of "electronic device manufacturer" to delete the annual sales provision for "specialized computers";
- (2) Prohibiting television manufacturers and electronic device manufacturers from charging owners a fee to recycle televisions and electronic devices under certain circumstances;
- (3) Requiring electronic device manufacturers and their agents to be responsible for following applicable regulations and for adopting environmentally sound recycling programs;
- (4) Clarifying requirements for television manufacturers submitting plans to the Department of Health;
- (5) Allowing electronic device manufacturers to develop their own recycling program, provided it is implemented and fully operational by January 1, 2010;
- (6) Deleting redundant provisions with respect to television manufacturers developing recycling programs and their recycling obligations;
- (7) Specifying penalty amounts for the sale of unlabeled electronic devices and covered televisions or violations of section 339D-4 or 339D-C;
- (8) Correcting references to sections with respect to fees assured by the Department of Health;
- (9) Changing the effective date of the measure to upon approval; and
- (10) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1809, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1809, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Hemmings).

Representatives Morita, McKelvey, Karamatsu, Coffman, Belatti, Yamashita, Ward.  
Managers on the part of the House.  
Ayes, 7. Noes, none. Excused, none.

**Conf. Com. Rep. 126 on H.B. No. 1807**

The purpose of this bill is to ensure Hawaii's water quality by:

- (1) Authorizing the Director of Health to use federal moneys from the American Recovery and Reinvestment Act of 2009 (ARRA) and other applicable federal acts to fund drinking water and wastewater infrastructure programs; and
- (2) Establishing up to two exempt positions entitled, "total maximum daily load coordinators," to assist the Department of Health to meet federal requirements for establishing total maximum daily loads in Hawaii.

Your Committee on Conference has amended this bill by:

- (1) Deleting the appropriation out of federal funds received by the State from ARRA and any other applicable federal acts to fund drinking water and wastewater infrastructure projects;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1807, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1807, H.D. 1, S.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, 1 (Ito).

**Conf. Com. Rep. 127 on H.B. No. 371**

The purpose of this bill is to:

- (1) Increase the tax on naphtha sold for use in a power-generating facility from 1 cent per gallon to 2 cents per gallon; and
- (2) Repeal the sunset date of the tax.

Your Committee on Conference has amended this measure by:

- (1) In lieu of making the tax permanent, extending it for an additional three years to December 31, 2012;
- (2) Changing its effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 371, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 371, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 128 on H.B. No. 986**

The purpose of this bill is to require renovations of public school facilities to meet energy efficiency and environmental standards.

Specifically, this bill:

- (1) Adds energy efficiency and environmental standards to achieve high performance classrooms as a criterion that may be used to establish current repair and maintenance requirements for state school facilities;

- (2) Requires the Superintendent of Education to ensure that all repair and maintenance projects follow the required energy efficiency and environmental standards;
- (3) Requires the renovation of state buildings and facilities to meet the Leadership in Energy and Environmental Design silver or two green globes rating system or another nationally recognized and consensus-based guideline, standard, or system;
- (4) Adds energy efficiency and environmental standards as a basis of the Department of Education's six-year program and financial plan for school repair and maintenance; and
- (5) Requires that consideration be given to energy efficiency and environmental standards when prioritizing a school's repair and maintenance needs.

Your Committee on Conference has amended this bill by:

- (1) Amending the preamble to reflect this measure's additional purposes of improving education through technology and facility design and creating "green" jobs in the technology, construction, and general labor sectors;
- (2) Replacing the provision requiring the renovation of state buildings and facilities to meet certain energy and environmental standards, with a provision that requires:
  - (A) The design and construction of public school facilities, including certain renovation projects, to meet the Collaborative for High Performance Schools rating system, except when the guidelines conflict with the facility's use as an emergency shelter; and
  - (B) Prioritization of these public school facility projects based on certain criteria, including energy efficiency, prioritization of local and regional jobs, educational opportunities, and anticipated building life-cycle costs;
- (3) Changing the effective date to July 1, 2009; and
- (4) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 986, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 986, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 129 on H.B. No. 1378**

The purpose of this bill is to increase access to health care by:

- (1) Recognizing advanced practice registered nurses (APRN) as participating primary health care providers for insurance purposes;
- (2) Authorizing APRNs to sign documents relating to health care for their patients;
- (3) Clarifying educational and other requirements for APRNs; and
- (4) Clarifying APRNs' authority with regard to prescriptions for drugs, medical equipment, and therapeutic regimens.

Your Committee on Conference has amended this bill by:

- (1) Requiring the Insurance Commissioner to perform a review in two years and report any findings to the Legislature prior to the 2012 Regular Session on the effects of expanding the scope of APRNs' professional responsibilities; and
- (2) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1378, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1378, H.D. 2, S.D. 2, C.D. 1.

**Conf. Com. Rep. 130 on H.B. No. 1504**

The purpose of this bill is to establish the Hawaii Health Authority to develop a comprehensive plan to provide universal health care in Hawaii.

Your Committee has amended this bill by:

- (1) Appropriating from the state health planning and development special fund \$50,000 for fiscal year 2009-2010;
- (2) Changing the effective date to July 1, 2009; and
- (3) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1504, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1504, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Baker, Tsutsui.

**Conf. Com. Rep. 131 on S.B. No. 1058**

The purpose of this measure is to determine the effectiveness of current laws and procedures with respect to medical cannabis and *Salvia divinorum*.

Your Committee on Conference finds that the use of medically authorized or recommended cannabis does have a beneficial impact on certain patients. Your Committee on Conference also finds that *Salvia divinorum* is not regulated in Hawaii and that a task force should be established to investigate the potential benefits of regulating *Salvia divinorum*.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the patient advocate member of the medical cannabis task force be a medical cannabis advocate who is a patient that uses cannabis in a medically authorized manner and further specifying the member's appointment by the Governor;
- (2) Requiring the authorizing or recommending physician member on the task force to be nominated from a list jointly submitted by the Senate President and Speaker of the House of Representatives to be appointed by the Governor;
- (3) Requiring the Hawaii-licensed physician member on the task force to be nominated from a list jointly submitted by the Senate President and Speaker of the House of Representatives to be appointed by the Governor;
- (4) Deleting the President of the Hawaii State Bar Association from membership on the task force;
- (5) Adding the Chair of the Board of Agriculture, a representative of the American Civil Liberties Union, and one registered caregiver to the task force membership and specifying that the registered caregiver shall be appointed by the Governor;
- (6) Requiring the Legislative Reference Bureau to submit a report to the task force no later than August 30, 2009 on the policies and procedures for access, distribution, security, and other relevant issues related to the medical use of cannabis for all states that currently have a medical cannabis program;
- (7) Changing the effective date to upon approval; and
- (8) Making the technical, nonsubstantive changes necessary to incorporate the foregoing amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1058, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1058, S.D. 2, H.D. 2, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Yamane).

**Conf. Com. Rep. 132 (Majority) on S.B. No. 199**

As originally received, this measure limits claims for business tax credits for taxable years beginning January 1, 2009, and ending before January 1, 2011, to seventy-five per cent of the taxpayer's liability for the taxable year in which the credit is claimed. The measure also exempts certain tax credits from this limitation.

The measure in its amended form limits claims for the high technology business investment tax credit and the technology infrastructure renovation tax credit for taxable years beginning January 1, 2009, and ending before January 1, 2011, to ninety per cent of the taxpayer's liability for the taxable year in which the credit is claimed.

In addition, this measure:

- (1) Prohibits tax credit carryovers into subsequent taxable years of any high technology business investment tax credit and technology infrastructure renovation tax credit generated between January 1, 2009, and December 31, 2010;
- (2) Provides for the temporary treatment of pass-through entities for income tax credit allocation purposes;
- (3) Temporarily removes the partner distributive share tax incentive for the high technology business investment tax credit; and
- (4) Temporarily suspends the capital goods excise tax credit for one year to coincide with the federal capital goods excise tax credit under section 179 of the Internal Revenue Code.

Upon reconsideration, your Committee has further amended this measure by:

- (1) Changing the amount of the tax credit claim limitation from ninety per cent to eighty per cent of a taxpayer's tax liability;
- (2) Removing the provisions for the temporary treatment of pass-through entities for income tax credit allocation purposes;
- (3) Clarifying that the investment credit allocation ratio shall be 1 to 1 for any investment made on or after May 1, 2009;
- (4) Specifying that applicable sections of the measure apply to investments made, renovation costs incurred, or eligible tangible property placed in service on or after May 1, 2009;
- (5) Prohibiting tax credit carryover for any tax credits claimed for taxable years beginning on or after January 1, 2009 to December 31, 2010;
- (6) Removing the measure's sunset date; and
- (7) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 199, S.D. 1, H.D. 1, C.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 199, S.D. 1, H.D. 1, C.D. 2.

**Conf. Com. Rep. 133 on S.B. No. 917**

The purpose of this bill is to ensure compliance with the Deficit Reduction Act of 2005 by strengthening the State's ability to identify and obtain payments from first or third party payers that are legally responsible to pay for health care services received by Medicaid recipients, when these payers are primary to Medicaid.

Your Committee finds that statutory loopholes currently allow some third party payers to avoid paying primary to Medicaid. This measure is designed to enhance the Department of Human Services' ability to identify third party payers that are legally responsible to pay for health care services received by Medicaid recipients and obtain payments from such third party payers when appropriate.

Your Committee, upon further consideration, has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 917, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 917, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige, Baker, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Baker).

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Herkes, Ward).

**Conf. Com. Rep. 134 on S.B. No. 423**

The purpose of this measure is to appropriate state funds to match the federal disproportionate share hospital allowance secured by Hawaii's Congressional delegation.

Your Committee finds that a federal Medicaid disproportionate share hospital appropriation has been secured for Hawaii in the amount of \$2,500,000 for each quarter for the next two fiscal years. These funds cannot be expended without a matching state appropriation. Your Committee believes that by appropriating \$12,291,054 as the State's matching share, the State will enable health care providers to continue offering quality services to Hawaii's disadvantaged populations.

Accordingly, your Committee has amended this measure by:

- (1) Appropriating \$12,291,054 for fiscal year 2009-2010 to match the federal disproportionate share hospital allowance allocated to the State, and clarifying that the funds may be used to obtain prior fiscal year federal matching funds; and
- (2) Changing the effective date from July 1, 2020, to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 423, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 423, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige, Tsutsui, Green, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Hemmings).

Representatives Yamane, Mizuno, Nishimoto, Belatti, Finnegan.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Belatti).

#### **Conf. Com. Rep. 135 on S.B. No. 1677**

The purpose of this measure is to establish legislative oversight of sales or exchanges of land, other than remnant parcels, held by the State.

Specifically, this measure:

- (1) Requires an informational briefing in the community where the land to be sold or exchanged is located prior to finalizing a proposal for the sale or exchange; and
- (2) Makes proposed sales or exchanges of state-held lands subject to legislative disapproval by the adoption of a concurrent resolution passed by a simple majority vote of both Houses of the Legislature.

Your Committee finds that a comprehensive process for the sale of state-owned land and a larger oversight role for the Legislature needs to be established to assure that key information about certain sales or exchanges of land is shared with the Legislature.

Realizing that each sale, however reasonable or necessary, is final and permanent, and recognizing that the Legislature may exercise its power over the State's land by general laws only, this measure establishes a legislative prior-approval process that must be completed before most state-owned land may be sold, and maintains the current legislative disapproval process that must be completed for the exchange of certain state-owned land for private land to be final, except as amended with regard to notification.

Your Committee has amended this measure by:

- (1) Removing sections 1 through 3 of the measure;
- (2) Adding a new part to chapter 171, Hawaii Revised Statutes, titled "Sale or Gift of Lands", which:
  - (A) Requires prior legislative approval of any sale or gift of most state-owned land by concurrent resolution by each House by at least a two-thirds majority vote of the members;
  - (B) Exempts remnants, as defined in section 171-52, Hawaii Revised Statutes, and the issuance of licenses, permits, easements, and leases from legislative approval;
  - (C) Requires the concurrent resolution submitted to the Legislature by the state department or agency proposing the sale or gift to include specified information, and a copy to be submitted to the Office of Hawaiian Affairs;
  - (D) Requires that, prior to finalizing the proposal or submission to the Legislature, the proponents of the sale or gift hold an informational briefing on the proposed sale or gift in the community where the land to be sold or given is located; and
  - (E) Exempts sales or gifts of lands between state departments or agencies, and sales of available lands under the Hawaiian Homes Commission Act;
- (3) Amending section 171-50, Hawaii Revised Statutes, which requires that any exchange of public land for private land be subject to legislative disapproval, by inserting requirements that the submitted concurrent resolution for legislative disapproval include the purpose for the exchange and that a copy of the concurrent resolution be submitted to the Office of Hawaiian Affairs; and
- (4) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1677, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1677, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 1 (Carroll). Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 136 on S.B. No. 387**

The purpose of this measure is to require the Governor or the Director of Finance to report any budget restriction of any appropriation made by the Legislature not later than thirty days after the end of each quarterly allotment period.

Your Committee upon further consideration has amended the measure by changing the effective date to "upon approval."

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 387, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 387, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives M. Oshiro, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 137 on S.B. No. 427**

The purpose of this measure is to clarify that amounts received by a managed care support contractor for actual costs or advances to third party health care providers made pursuant to a contract for the administration of the federal TRICARE program are exempt from the general excise tax.

Your Committee on Conference finds that this measure will help to ensure that Hawaii Medical Service Association will be able to continue to provide medical insurance coverage to the approximately 150,000 current and former military personnel and their family members who reside in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2009;
- (2) Inserting language that repeals the measure as of December 31, 2013; provided that section 237-24, Hawaii Revised Statutes, shall be reenacted in the form in which it read on June 30, 2009; and
- (3) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 427, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 427, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Tsutsui, Baker, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, McKelvey, M. Oshiro, Choy, Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 138 on S.B. No. 1263**

The purpose of this measure is to protect public health and safety by updating the current statutes regarding permanent and temporary licensure for tattoo artists and permits for tattoo shops.

Specifically, this measure:

- (1) Requires a permit to be issued by the Department of Health for the operation of a tattoo shops and temporary locations where tattooing is performed;
- (2) Authorizes the Department of Health to issue temporary permits to tattoo artists not licensed in the State for educational, trade show, or product demonstration purposes;
- (3) Clarifies licensure and application requirements;
- (4) Amends enforcement and penalty provisions; and
- (5) Repeals provisions relating to facial tattoos.

Your Committee on Conference finds that tattooing has become increasingly popular in the past several years, particularly with the younger population. The statutes regulating tattoo artists and tattoo shops operating in the State have not been updated since 1981.

Your Committee on Conference has amended this measure by:

- (1) Inserting language clarifying that in addition to educational, trade show, or product demonstration purposes, the issuance of temporary licenses to tattoo artists who are not licensed in the State may be for the purpose of practicing the occupation of tattoo artist at a permitted tattoo location; and
- (2) Changing the effective date to "upon approval".

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1263, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1263, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Wakai, Ito, Nishimoto, Marumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**Conf. Com. Rep. 139 on S.B. No. 166**

The purpose of this measure is to ensure that oral chemotherapy treatments are covered by health insurance by requiring health insurance providers to provide parity of coverage for oral and intravenous chemotherapy.

Your Committee on Conference finds that the most effective methods for cancer treatment should be available to all people. This measure will ensure that individuals with limited economic means will be able to receive the most effective methods for cancer treatment that are available.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that reimbursement is for all chemotherapy that is considered medically necessary as defined in section 432E-1.4, Hawaii Revised Statutes;
- (2) Clarifying that reimbursement shall be at the same copayment percentage or relative coinsurance amount as is applied to intravenously administered chemotherapy;
- (3) Exempting from the requirements of the measure accident only, specified disease, hospital indemnity, long-term care, or other limited benefit health insurance policies;
- (4) Inserting conforming amendments to include not only individual and group accident and health or sickness policies in the reimbursement requirement, but also individual and group hospital and medical service plan contracts, mutual benefit societies, and health maintenance organizations;
- (5) Changing the effective date to January 1, 2010; and
- (6) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 166, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 166, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Baker, Green, Hemmings.  
Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 140 on S.B. No. 1202**

The purpose of this measure is to lay the foundation necessary to develop an electric vehicle infrastructure in Hawaii.

Specifically, this measure:

- (1) Makes fostering the research and development of nonfossil fuel and energy efficient modes of transportation one of the State's economic growth objectives;
- (2) Requires the designation of parking spaces for electric vehicles in public, private, and government parking lots;
- (3) Establishes penalties for parking a non-electric vehicle in parking spaces reserved for electric vehicles;

- (4) Requires State and county agencies that purchase new vehicles to seek vehicles with reduced dependence on petroleum-based fuels, in accordance with a priority list;
- (5) Establishes a transportation energy transformation grant fund to provide grants for the acquisition of electric vehicles, the installation of electric vehicle charging infrastructure, and innovative programs that diversify transportation energy sources in the State;
- (6) Establishes two full-time temporary positions in the Department of Business Economic Development, and Tourism to carry out the purposes of the transportation energy transformation grant fund;
- (7) Appropriates an unspecified sum for purposes of the transportation energy transformation grant fund; and
- (8) Directs the development of a battery and charging outlet plan to expedite permitting and installation of battery exchange stations and electric vehicle charging outlets throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Designating that by December 31, 2011, one per cent of the parking spaces in all public, private, and government parking facilities available to the public shall be for electric vehicle use; provided that this percentage shall increase to two per cent when at least 5,000 electric vehicles are registered in the State, and thereafter by one per cent for each additional 5,000 electric vehicles registered in the State, up to a maximum of ten per cent;
- (2) Clarifying with respect to the penalties established for parking a non-electric vehicle in an electric vehicle only parking space that beginning January 1, 2012, a warning shall be issued to violators, and beginning July 1, 2013, violators will be guilty of a traffic infraction;
- (3) Deleting provisions relating to the battery charging and outlet plan;
- (4) Appropriating for each year of the 2009-2011 fiscal biennium from available and appropriated federal funds, \$20,000,000 for the purposes of the transportation energy transformation grant fund; and
- (5) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1202, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1202, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Gabbard, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives Morita, Souki, McKelvey, M. Oshiro, Awana, Coffman, Thielen.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, 1 (M. Oshiro).

#### **Conf. Com. Rep. 141 on S.B. No. 912**

The purpose of this measure is to amend chapter 587, Hawaii Revised Statutes, relating to the Child Protective Act, to ensure compliance with federal Title IV-E permanency hearing requirements.

Chapter 587, Hawaii Revised Statutes, relating to the Child Protective Act, does not specifically address the federal requirement for permanency hearings at twelve month intervals to determine the permanency plan for a child in accordance with federal law. The Department of Human Services has been informed by the federal government that Hawaii's State Plan will not be approved and the State will be restricted from obtaining federal Title IV-E funds if the requisite statutory changes are not implemented. The Department of Human Services receives over fifty million dollars in Title IV-E federal funds for foster board, treatment, services, staffing, and administrative costs.

To ensure compliance with the federal requirements to receive Title IV-E funding, the Honorable Judge Francis Wong, Deputy Chief Judge and Senior Family Court Judge, convened a working group consisting of representatives of the Department of Human Services, the Department of the Attorney General, the William S. Richardson School of Law, the Court Improvement Project, guardians ad litem, parents' counsel, and the Family Court. The working group proposed amendments to S.B. No. 912, S.D. 2, H.D. 2 that would minimize the impact of the required hearings on Family Court and the Department of Human Services' operations while still meeting the federal Title IV-E requirements needed to ensure an approved Title IV-E state plan.

Your Committee has amended S.B. No. 912, S.D. 2, H.D. 2 by replacing its contents with the working group's proposed C.D. 1. The amendments are as follows:

- (1) Removing section 1, which created a new section of chapter 587, Hawaii Revised Statutes, for permanency hearings;
- (2) Adding a definition to section 587-2, Hawaii Revised Statutes, for "entry into foster care date";
- (3) Clarifying the amendments of sections 587-71 and 587-72, Hawaii Revised Statutes, and amending section 587-27, Hawaii Revised Statutes, to comply with federal law; and
- (4) Changing the effective date to July 1, 2010, because the Department of Human Services has applied for a one-year waiver.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 912, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 912, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Taniguchi, Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Ito, Brower, Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Brower).

**Conf. Com. Rep. 142 (Majority) on S.B. No. 292**

The purpose of this measure is to reallocate funds from the Hawaii tobacco settlement special fund to the Department of Health, University of Hawaii revenue-undertakings fund, emergency and budget reserve fund, and the Hawaii tobacco prevention and control trust fund for two years.

This measure also allocates additional money from the Hawaii tobacco settlement special fund to the general fund for two years.

Upon further consideration, your Committee has made the following amendments to S.B. No. 292, S.D. 1, H.D. 1:

- (1) Changing the amount appropriated into the emergency and budget reserve fund from twenty-four and one-half per cent to fifteen per cent;
- (2) Changing the proposed amount appropriated into the Hawaii tobacco prevention and control trust fund from two per cent to six and one-half per cent;
- (3) Restoring the amount appropriated into the University of Hawaii revenue-undertakings fund to twenty-eight per cent from the proposed twenty-three and one-half per cent;
- (4) Changing the amount deposited to the credit of the state general fund from twenty-five per cent to twenty-five and one-half per cent; and
- (5) Changing the repeal date to June 30, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 292, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 292, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Ige, Kokubun, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, 1 (Hemmings). Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 143 on S.B. No. 972**

The purpose of this measure is to establish a special enforcement section in the Department of Taxation to carry out civil enforcement efforts to collect tax payments primarily from those taxpayers engaged in high-risk, cash-based transactions.

Your Committee on Conference finds that cash-based businesses account for a substantial sum of money in the marketplace and capturing a small fraction of the tax liability due on these amounts would help to off-set the sharp downturn in state tax revenues during 2009. Your Committee on Conference also finds that this measure will identify cash-based industries and businesses in Hawaii that are susceptible to evading the payment of income, general excise, withholding, and employment taxes.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that personnel assigned to the Special Enforcement Section may not participate in any criminal investigation;
- (2) Clarifying that investigators and other personnel shall not render legal advice;
- (3) Deleting the authority of the Director of Taxation to appoint attorneys to provide legal services without regard to chapters 28, 76, and 103D, Hawaii Revised Statutes;
- (4) Deleting the authorization to pay criminal law enforcement agencies from the proceeds collected under this measure;
- (5) Clarifying that the monetary fine associated with a cease and desist citation is discretionary, rather than mandatory;
- (6) Deleting the cap on monetary fines;
- (7) Clarifying that a finding of jeopardy shall be made in writing and is subject to appeal by the taxpayer;
- (8) Clarifying that the Director of Taxation's decision regarding a cease and desist citation may be appealed to the circuit court;

- (9) Clarifying the definition of a cash-based business to include a business that may establish reasonable criteria for accepting personal checks and removing from the definition businesses that do not issue receipts for business transactions;
- (10) Excepting from the definition of a cash-based business those businesses that offer a price differential involving cash for a bona-fide business reason;
- (11) Clarifying that a cash-based business shall not be deemed to be a cash-based business from the factors identified in this measure while a genuine dispute to that factor is pending in a contested case before any administrative agency or court;
- (12) Clarifying that the Department of Taxation has the burden to establish that currency is possessed for tax avoidance purposes, rather than creating a presumption that a person with over \$5,000 in cash in their possession without a legitimate business purpose is engaging in a tax avoidance scheme;
- (13) Clarifying that it is unlawful for a person to intentionally interfere with the Department of Taxation's efforts to obtain information about a business in relation to the initiatives of this measure;
- (14) Adding a requirement for contractors who are awarded federal construction job contracts to provide the Department of Taxation with estimated gross receipts earned on the construction project within thirty days of being awarded the contract;
- (15) Adding a penalty of \$1,000 per month, or fraction thereof, for each month that a failure to report on the gross receipts from a federal construction job contract; provided that the maximum penalty shall not exceed \$6,000;
- (16) Clarifying that the fines associated with doing business without a license are discretionary and waived with a showing of good cause, rather than being mandatory;
- (17) Adding the requirement for the Department of Taxation to report to the Legislature no later than thirty days prior to the convening of each regular session on the amount of state resources that are committed to implementing this measure;
- (18) Adding that it shall be repealed on June 30, 2014, and section 235-20.5, Hawaii Revised Statutes, shall be reenacted in the form in which it read on the day prior to the effective date of section 8 of Act 206, Session Laws of Hawaii 2007, and that sections 231-1, 237-9, and 237-12(b), Hawaii Revised Statutes, shall be reenacted in the form in which it read on the day prior to the effective date of this Act; and
- (19) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 972, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 972, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Kim, Taniguchi, Baker, Slom.  
Managers on the part of the Senate.  
Ayes, 5. Noes, none. Excused, none.

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 144 on S.B. No. 1142**

The purpose of this measure is to improve patient access to medical care and ensure the public safety by clarifying the procedure and circumstances under which licensed physician assistants may provide services, including:

- (1) Signing documents, such as medical certifications, forms, orders, applications, and verifications;
- (2) Performing medical procedures or tests;
- (3) Administering immunizations;
- (4) Prescribing medications; and
- (5) Providing care in the event of public emergencies and local disasters.

This measure further improves access to medical care by limiting the liability of licensed physician assistants who render uncompensated emergency medical care to persons who are in immediate danger of loss of life, when that care is rendered in good faith and with the standard of care expected of similar physician assistants under similar circumstances.

Your Committee on Conference finds that this measure is intended to authorize the unsupervised medical care by physician assistants only in the event of a public emergency or a state or local disaster. In addition, this measure is intended to limit physician assistant liability only in specific situations pursuant to Good Samaritan laws.

Your Committee on Conference has amended this measure by changing the effective date to "upon approval" and by making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1142, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1142, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Baker, Taniguchi, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Herkes, Karamatsu, Nishimoto, Shimabukuro, Finnegan.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, 1 (Karamatsu).

**Conf. Com. Rep. 145 on S.B. No. 415**

The purpose of this measure is to protect consumers who purchase home care services by requiring home care agencies to be licensed by the Department of Health.

Specifically, this measure:

- (1) Requires home care agencies to be licensed by the Department of Health beginning July 1, 2010, and requires the Department of Health to adopt rules for licensure;
- (2) Defines "home care agency" and "home care services";
- (3) Exempts service provider agencies under contract with the City and County of Honolulu Elderly Affairs Division from the licensing requirement; and
- (4) Authorizes the Department of Health to conduct criminal history record checks.

Your Committee on Conference finds that home care agencies provide valuable home care services, such as personal care, homemaker assistance, and respite care, to an increasing segment of Hawaii's residents. The rising demand for home care services makes it necessary to license agencies that provide these services to ensure that minimum standards of quality, safety, and responsibility are met. Accordingly, your Committee on Conference finds that requiring the licensure of home care agencies in the State will help ensure the health, safety, and welfare of consumers.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Health to report to the Legislature, no later than twenty days prior to the convening of the Regular Session of 2010, any recommended proposals to ensure the prevention of financial exploitation of home care agency clients and to improve the home care licensing program;
- (2) Inserting an effective date of July 1, 2009; and
- (3) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 415, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 415, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 146 on S.B. No. 496**

The purpose of this bill is to help ensure the efficient and effective operation and administration of charter schools by:

- (1) Clarifying that charter schools shall comply with Board of Education (BOE) and Department of Education directives made in their role as the state education agency, pursuant to a memorandum of agreement;
- (2) Eliminating the per-pupil funding method, thus requiring charter schools to follow the same budgetary request process as other state agencies; and
- (3) Making clarifying amendments.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions related to directives and a memorandum of agreement;
- (2) Restoring and expanding the per-pupil funding method;
- (3) Requiring the charter school review panel to approve the charter schools budget;
- (4) Requiring the charter school review panel to survey all charter school facilities prior to determining recommendations to allocate non-per-pupil facilities funds to charter schools with facilities needs;
- (5) Specifying the duties of the Executive Director of the Charter School Administrative Office with regard to the preparation of the budget;
- (6) Deleting proposed language related to a charter school's probationary status;

- (7) Requiring the Charter School Review Panel to establish criteria and an approval process for the development and submission of a capital improvement projects budget for charter school facilities;
- (8) Changing the effective date to July 1, 2009;
- (9) Amending the findings and purpose section to reflect the above changes; and
- (10) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 496, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 496, S.D. 2, H.D. 2, C.D. 1.

**Conf. Com. Rep. 147 on S.B. No. 1248**

The purpose of this measure is to improve the State Enterprise Zone Program by, among other things:

- (1) Inserting limited liability companies under the definition of “qualified business” and “service business”;
- (2) Allowing the receipts, sales, and employees of a business’s establishments in all enterprise zones located within a single county to count toward qualification requirements; and
- (3) Extending Enterprise Zone Program tax incentives for seven additional years for qualified businesses engaged in manufacturing tangible personal property, or producing or processing agricultural products.

Your Committee on Conference finds that this measure will enable the agricultural industry to attract investment and help to revitalize distressed communities in agricultural areas of the State. Your Committee on Conference also finds that facilitating agricultural producers and manufacturers in qualifying for the enterprise zone program will enable that industry to grow in a tax efficient manner.

Your Committee on Conference has amended this measure by:

- (1) Adding the research, development, sale, or production of genetically-engineered medical, agricultural, or maritime biotechnology products to the definition of “eligible business activity”;
- (2) Amending section 209E-10(a), Hawaii Revised Statutes, by reducing the extension of tax credits and tax exemptions for qualified businesses engaged in the manufacturing of tangible personal property or in the producing or processing of agricultural products to three additional years, rather than seven additional years;
- (3) Amending section 209E-10(c), Hawaii Revised Statutes, by limiting the continuation of the tax credit for qualified businesses engaged in the manufacturing of tangible personal property or in the producing or processing of agricultural products to three additional years, rather than seven additional years;
- (4) Including the general excise tax exemption for qualified businesses engaged in the production of genetically-engineered agricultural products under section 209E-11, Hawaii Revised Statutes, and providing that the exemption shall not exceed a total of ten years, rather a total of fourteen years;
- (5) Changing the effective date to July 1, 2009; and
- (6) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1248, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1248, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 148 on S.B. No. 1674**

The purpose of this Act is to:

- (1) Increase the amount of the revenue bond proceeds authorized by Act 161, Session Laws of Hawaii 2007, from \$100,000,000 to \$250,000,000, to address the capital facility needs of the University of Hawaii;
- (2) Extend the lapse date of the appropriation of revenue bond proceeds authorized by Act 161 to June 30, 2013; and
- (3) Appropriate \$150,000,000 out of the revenue bond proceeds, to lapse on June 30, 2015.

Your Committee on Conference finds that, while the increase in revenue bond authority will assist the University in addressing its capital facility needs, the current economic climate dictates a less substantial increase.

Your Committee on Conference has amended this measure accordingly, by reducing the increased amount from \$150,000,000 to \$100,000,000

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1674, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1674, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Chang, M. Oshiro, Nakashima, Yamashita, Ching.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 149 on S.B. No. 43**

The purpose of this measure is to:

- (1) Establish the John A. Burns School of Medicine special fund to support physician workforce assessment and planning;
- (2) Assess a fee upon renewal of physician and osteopathic physician licenses, with proceeds to be deposited to the special fund;
- (3) Require the Director of Commerce and Consumer Affairs to disburse on a quarterly basis from the compliance resolution fund to the credit of the John A. Burns School of Medicine special fund all moneys collected from the fee;
- (4) Require recurring physician workforce assessments reports by the John A. Burns School of Medicine; and
- (5) Appropriate unspecified moneys from the general fund and the compliance resolution fund to the John A. Burns School of Medicine special fund.

Your Committee on Conference finds that assessing Hawaii's physician workforce on a continual basis will support proactive measures to prevent or ameliorate the impact of physician shortages in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Limiting expenditures from the John A. Burns School of Medicine special fund to no more than \$150,000 annually;
- (2) Assessing a \$60 fee upon renewal of physician and osteopathic physician licenses;
- (3) Deleting the general fund appropriation;
- (4) Appropriating \$5,000 from the compliance resolution fund to the John A. Burns School of Medicine special fund, to be reimbursed by June 30, 2010;
- (5) Making the effective date July 1, 2009; and
- (6) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 43, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 43, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige, Kim, Baker, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 2 (Kim, Hemmings).

Representatives Yamane, Chang, Herkes, Nishimoto, Nakashima, Finnegan.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, 1 (Finnegan).

**Conf. Com. Rep. 150 on S.B. No. 1329**

The purpose of this measure is to clarify provisions of the early learning system established by Act 14, Special Session Laws of Hawaii 2008, by:

- (1) Including a requirement that the Early Learning Council develop a plan to ensure that the needs of junior kindergartners are addressed;

- (2) Authorizing all Early Learning Council members to designate representatives for their role on the council; and
- (3) Renaming the Keiki First Steps Trust Fund as the Early Learning Trust Fund.

Your Committee finds that the work of the Early Learning Council, created by Act 14, is essential in that it involves development of a comprehensive early childhood education system for the State to coordinate and improve upon the fragmented services currently being offered. Your Committee further finds that it is important to provide the Council with the flexibility it requires to carry on this important mission. To this end, the measure allows the Governor's appointees to the Council to name designees.

Your Committee further finds that this measure can improve the early learning system by ensuring that the developmental and early learning needs of the State's young children are addressed by strengthening the two-tier junior kindergarten and kindergarten program and establishing stricter criteria for moving students between tiers.

Your Committee has amended this measure by:

- (1) Inserting a provision that requires the Department of Education, beginning with the 2010-2011 school year, to use successful assessment tools and protocols for determining a student's initial placement and for decision making about a student's movement between junior kindergarten, kindergarten, and into grade one;
- (2) Removing the requirement that the Early Learning Council develop a plan to phase out the junior kindergarten program; and
- (3) Making technical, nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1329, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1329, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Tsutsui, Sakamoto, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

Representatives Takumi, M. Oshiro, C. Lee, Ching.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

#### **Conf. Com. Rep. 151 on H.B. No. 427**

The purpose of this bill is to encourage the development of alternative energy and renewable fuel technologies by authorizing the issuance of special purpose revenue bonds in a total amount not to exceed \$40,000,000, to assist One Planet Pacific Energy, LLC, with the planning, designing, constructing, and equipping of, and the acquisition of lands for, a gasification facility.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 427, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 427, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Coffman, Ching.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Ching).

#### **Conf. Com. Rep. 152 on H.B. No. 1627**

The purpose of this bill is to support the development of alternative energy in the state by authorizing the issuance of up to \$40,000,000 in special purpose revenue bonds to assist Carbon Diversion Inc. with the establishment of cogeneration and related energy-production facilities at various locations in the state.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1627, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1627, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Coffman, Ching.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 153 on H.B. No. 1628**

The purpose of this bill is to support the development of alternative energy by authorizing the issuance of up to \$100,000,000 in special purpose revenue bonds to assist BioEnergy Hawaii, LLC, in establishing a cogeneration facility and related energy production facilities.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity and style

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1628, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1628, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Coffman, Ching.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 154 on H.B. No. 1483**

The purpose of this bill is to encourage responsible environmental stewardship by authorizing the issuance of special purpose revenue bonds in a total amount not to exceed \$45,000,000, to assist Better Place Hawaii, Inc., to plan, design, construct, and develop transportation infrastructure, equipment, and apparatus to support electric vehicles in Hawaii.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1483, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1483, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Coffman, Ching.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 155 on H.B. No. 1678**

The purpose of this bill is to help Hawaii meet its goals and mandates for energy efficiency and renewable energy use, as well as reduce Hawaii's burden of municipal solid waste disposal, by authorizing the issuance of up to \$80,000,000 in special purpose revenue bonds to assist LifeGrid Solutions, LLC, in the planning, design, and construction of a biofuel refinery and research facility on the island of Oahu.

Your Committee on Conference has amended this bill by:

- (1) Changing its effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1678, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1678, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Morita, Coffman, Ching.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 156 on H.B. No. 34**

The purpose of this bill is to authorize the issuance of general obligation bonds to finance projects for the executive branch and the judiciary.

Your Committee finds that the total amount of principal and interest estimated for the general obligation bonds authorized under this measure, and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit of the State to be exceeded at the time of issuance.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate amounts provided by the Department of Budget and Finance;
- (2) Inserting a specific reference to a guaranty amounting to \$2,500,000 authorized under Act 233, Session Laws of Hawaii 2008, relating to Important Agricultural Lands; and
- (3) Making technical, nonsubstantive amendments for style and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 34, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 34, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Hooser, Tsutsui, Hemmings.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives M. Oshiro, M. Lee, Yamashita, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 157 on H.B. No. 35**

The purpose of this bill is to provide an income tax credit to every resident individual taxpayer of the state to satisfy constitutionally-mandated requirements.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$1 for the tax credit; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 35, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 35, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Galuteria, Hooser, Tsutsui.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives M. Oshiro, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 3. Ayes with Reservations, 1 (Ward). Noes, none. Excused, 1 (Choy).

**Conf. Com. Rep. 158 on H.B. No. 1495**

The purpose of this bill is to generate additional general funds to ensure the delivery of critical services statewide by repealing the deduction of wagering losses for the purposes of the Hawaii state income tax.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Making the provisions of this bill applicable to taxable years beginning after December 31, 2008, instead of December 31, 2009;
- (2) Changing the effective date to upon approval; and

- (3) Making technical, nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1495, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1495, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Tsutsui, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives M. Oshiro, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Choy).

**Conf. Com. Rep. 159 on H.B. No. 1544**

The purpose of this bill is to conform the state income tax exemption to the personal exemption phase-out provision found in Section 151 of the Internal Revenue Code. This bill also adjusts the income level at which the phase-out begins by using the inflation-adjusted amounts as of July 1, 2008, and by further reducing those amounts by 25 percent.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1544, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1544, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Hooser, Tsutsui, Slom.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives M. Oshiro, Chong, Choy, Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 160 (Majority) on H.B. No. 754**

The purpose of this bill is to make various improvements to the Hawaii Tourism Authority (HTA) and tourism laws by:

- (1) Requiring the private contractor that operates the Convention Center and its concessions and concession spaces to be subject to the Hawaii Public Procurement Code and provisions relating to concessions on public property;
- (2) Transferring functions relating to tourism research and statistics from the Department of Business, Economic Development, and Tourism, to HTA;
- (3) Removing the ex-officio members from the HTA Board and placing them in an advisory group to HTA;
- (4) Renaming the "Executive Director" of HTA to the "President and Chief Executive Officer" and clarifying the position's duties;
- (5) Clarifying the laws relating to measures of effectiveness of the tourism marketing plan;
- (6) Expanding the scope of a "tourism emergency" to include a national or global economic crisis and requiring the Governor's approval for HTA to take action in response to a declaration of a tourism emergency;
- (7) Earmarking an unspecified percentage of funds allocated to the Tourism Special Fund (TSF) from the Transient Accommodations Tax (TAT) to be used for tourism product development and cultural programs; and
- (8) Removing the repeal date for provisions that allow HTA to retain private attorneys.

Your Committee on Conference finds that the difficult times currently being experienced by the State's major industry, tourism, presents an opportune time to implement some administrative changes to streamline the operations of HTA.

Changing the title of the Executive Director of HTA to President and Chief Executive Officer, while it may appear cosmetic, clarifies the duties and responsibilities of the position while instilling a more business-like atmosphere in the HTA boardroom. Eliminating the sunset provision on the ability of HTA to hire its own private attorneys should also result in streamlined operations.

With regard to tourism emergencies, recent national and global economic crises have led to the cancellation of conventions, corporate retreats, business travel, and family vacations to Hawaii. These cancellations have been reflected in an overall drop in statewide visitor arrivals that is predicted to decline further. The provisions in this measure will enable HTA to react in a timely manner to address a national or global economic crisis and will strengthen the State's efforts to eliminate or mitigate the effects of such a crisis.

Your Committee on Conference notes that timely and accurate tourism-related research, including compilation and analysis of data, is important for the development and implementation of an effective visitor industry program. Joining tourism research and statistical data with the market intelligence research of various major market areas under one agency will allow the State to efficiently address the volatility of the tourism market.

The provisions in this measure with regard to measures of effectiveness of HTA's marketing plan will help to address concerns raised in the Auditor's report released on January 14, 2009, regarding HTA and its long-term strategy for addressing tourism in Hawaii.

Your Committee on Conference has amended this bill by:

- (1) Clarifying the provisions relating to the Hawaii Public Procurement Code that apply to construction contracts for the maintenance of the Hawaii Convention Center;
- (2) Removing provisions that would have allocated funding for tourism product development and cultural programs;
- (3) Inserting provisions requiring 0.25 percent of remaining revenues from the TAT after distribution to other designated receivers to be deposited into the TSF for fiscal year 2010-2011, provided that S.B. No. 1111, S.D. 1, H.D. 1, C.D. 1, Regular Session of 2009, is enacted;
- (4) Changing the effective date to July 1, 2009; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 754, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 754, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kim, Galuteria.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Manahan, Tokioka, Evans, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, 1 (Ward). Excused, none.

#### **Conf. Com. Rep. 161 on H.B. No. 899**

The purpose of this bill is to clarify and strengthen the authority of the Office of Hawaiian Affairs (OHA) to issue revenue bonds to obtain funding for its projects by:

- (1) Authorizing the OHA Board of Trustees to:
  - (A) Issue revenue bonds without legislative authorization and approval; and
  - (B) Use OHA revenues, including general fund appropriations, to secure, and pay the interest and principal of revenue bonds;

and
- (2) Updating procedures and requirements for the issuance and sale of revenue bonds and investments in the bonds to reflect current government bond practices.

Your Committee on Conference finds that this measure is both timely and appropriate. Although OHA has never issued revenue bonds, the Hawaii and national economies are now creating a renewed impetus for OHA to seek alternative sources of funding for its projects. This bill will assist OHA in this endeavor.

Your Committee on Conference has amended this bill to address concerns of the State Attorney General under the Hawaii Constitution, by:

- (1) Including provisions that make the issuance of revenue bonds contingent on legislative authorization; and
- (2) Defining "revenues of the office," and making other clarifying amendments to ensure that general fund appropriations are not used to secure or pay the interest and principal on the revenue bonds.

The bill has also been amended to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 899, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 899, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kim, Fukunaga, Slom.  
Managers on the part of the Senate.

Ayes, 3. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Fukunaga).

Representatives Carroll, M. Oshiro, Ward.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 162 on H.B. No. 1364**

The purpose of this bill is to require the Governor or Director of Finance to submit a report to the Legislature for each restriction placed on an appropriation authorized by the Legislature.

This bill, among other things, also:

- (1) Appropriates federal funds to various programs that are expected to receive federal support under the American Recovery and Reinvestment Act (ARRA) of 2009;
- (2) Reduces general fund appropriations for programs receiving offsetting federal funds;
- (3) Appropriates general funds to the adult mental health outpatient program and the Hawaii Health Systems Corporation; and
- (4) Appropriates additional Temporary Assistance for Needy Families funds that the State recently qualified for under the Deficit Reduction Act of 2005.

Pursuant to the requirements set forth in Article VII, Section 9, of the Hawaii Constitution, the Governor, in her Governor's Message No. 298 to the Legislature, as amended in a subsequent message dated April 17, 2009, requested immediate consideration and passage of this bill by the Legislature citing a budget shortfall in FY 2008-2009 and the need to promote openness and transparency in the use of ARRA funds.

Upon further consideration, your Committee on Conference has amended this bill by, among other things:

- (1) Deleting the reporting requirements on restricted appropriations;
- (2) Changing the means of financing for appropriations relating to the Hawaii Health Systems Corporation (HTH 210) from the general fund to the Emergency and Budget Reserve Fund;
- (3) Changing the means of financing for appropriations relating to the adult mental health outpatient program (HTH 420) from the general fund to the Emergency and Budget Reserve Fund;
- (4) Inserting the sum of \$175,966 in federal funds for fiscal year 2008-2009 for the program to educate the homeless in the Department of Education's instructional support program (EDN 200);
- (5) Accounting for a \$25,000,000 general fund increase for the Medicaid program in fiscal year 2008-2009; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1364, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1364, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Galuteria, Kokubun, Tsutsui.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Kokubun).

Representatives Tokioka, M. Oshiro, Choy, Keith-Agaran, B. Oshiro, Pine.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 2 (Choy, B. Oshiro).

**Conf. Com. Rep. 163 on H.B. No. 183**

The purpose of this bill is to improve the administration and operations of the Hawaii Teacher Standards Board (HTSB) by:

- (1) Establishing an advisory committee to:
  - (A) Provide oversight of HTSB;
  - (B) Provide to the Governor lists of qualified candidates from which HTSB members shall be nominated and, by and with the consent of the Senate, appointed by the Governor;
  - (C) Present to the Board of Education (BOE) a list of qualified candidates from which an executive director of HTSB shall be appointed; and
  - (D) Submit an annual report to BOE and the Legislature on HTSB operations;
- (2) Allowing HTSB to:
  - (A) Determine the manner by which teacher licensing fees are collected; and
  - (B) Adopt, amend, repeal, or suspend HTSB policies and standards;
- (3) Making permanent HTSB's authority to temporarily suspend its rules in extenuating circumstances;

- (4) Making permanent HTSB's authority to amend licensing-related fees and set or amend other charges related to the performance of HTSB's duties; and
- (5) Authorizing and appropriating funds for HTSB to coordinate the creation of a data interface network consisting of public and private teacher education institutions and the Department of Education (DOE) to support the free interchange of information valuable to all of the participating organizations.

Your Committee on Conference has amended this bill by:

- (1) Deleting the provisions establishing an advisory committee for HTSB;
- (2) Changing HTSB membership as follows:
  - (A) Increasing membership from 13 to 15 members by adding two members of the public, who shall be appointed by the Governor from lists of qualified nominees submitted to the Governor by the Hawaii Business Roundtable, Hawaii P-20 Council, and Hawaii Workforce Development Council;
  - (B) Clarifying that HTSB shall consist of not less than six licensed teachers regularly engaged in teaching at the time of the appointment; and
  - (C) Clarifying that HTSB shall consist of three educational officers employed at the time of the appointment;
- (3) Continuing to require the Governor to appoint HTSB members from a list of qualified nominees submitted to the Governor by the departments, agencies, and organizations representative of the constituencies of HTSB, but also requiring current HTSB members to be involved in the submission of the list;
- (4) Repealing statutory provisions regarding the initial terms of the appointed members to allow for staggered appointments;
- (5) Allowing HTSB to employ an executive director for a term of up to four years, who shall be appointed by BOE, and also allowing HTSB to terminate the executive director's contract for cause;
- (6) Requiring HTSB to submit its annual report to BOE;
- (7) Authorizing HTSB, through June 30, 2010, to grant additional licensing extensions;
- (8) Deleting provisions relating to the authorization for HTSB to coordinate the creation of a data interface network to support the free interchange of information valuable to all of the participating organizations;
- (9) Adding provisions requiring HTSB, DOE, and the Charter School Administrative Office to, beginning on July 1, 2009, implement interim policies and procedures for the mutual sharing of data necessary for licensing and verifying the status of teachers;
- (10) Deleting the appropriation for HTSB to coordinate the creation of the data interface network;
- (11) Requiring the Legislative Reference Bureau to review the findings of the auditor's Report No. 09-05 and make recommendations, including proposed legislation, regarding:
  - (A) Whether there is a need for oversight of HTSB, and how oversight is provided for similar boards; and
  - (B) How to strengthen and clarify interagency roles, responsibilities, and relationships between HTSB, DOE, and the Teacher Education Coordinating Committee;
- (12) Requiring the dean of the University of Hawaii at Manoa College of Education to convene a working group to review and make recommendations to address various licensing and relicensing issues, teacher preparation program alignment with national standards and the role of national accreditation of teacher preparation programs in Hawaii, and the role of higher education institutions in assisting teachers in achieving National Board certification;
- (13) Requiring HTSB to review the findings of the auditor's Report No. 09-05, and make recommendations for policy and procedural changes necessary to refocus and support the purpose of HTSB;
- (14) Changing its effective date to July 1, 2009; provided that on July 1, 2010, the provisions authorizing HTSB to grant additional licensing extensions through June 30, 2010, shall be repealed and section 302A-805, Hawaii Revised Statutes, shall be reenacted in the form in which it read on June 30, 2009; and
- (15) Making technical, nonsubstantive amendments for clarity, consistency, and style, including adding to the purpose section to reflect the contents of the bill.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 183, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 183, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Tsutsui, Chun Oakland.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Chun Oakland).

Representatives Takumi, Rhoads, M. Lee, Nakashima, Finnegan.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Finnegan).

**Conf. Com. Rep. 164 on H.B. No. 1405**

The purpose of this measure is to conform the State's tax laws to the multi-state Streamlined Sales and Use Tax Agreement.

Your Committee has amended this measure by:

- (1) Deleting the contents of the measure and replacing it with the contents of H.B. No. 1405, H.D. 2.;
- (2) Adding a provision to create a nexus standard for taxing out-of-state businesses on their business activities in Hawaii; and
- (3) Adding a severability provision.

Your Committee on Conference notes that Part II of the measure adds a new section to chapter 231, Hawaii Revised Statutes, and further notes that this measure's title relates to general excise taxes. Your Committee on Conference finds that chapter 231, Hawaii Revised Statutes, relates to the administration of taxes, including general excise taxes. Therefore, your Committee on Conference finds that Part II of the bill falls within the measure's title and relates to the entire subject matter of the measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1405, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1405, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Tsutsui, Ige.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Ige).

Representatives M. Oshiro, Chong, Choy, M. Lee, Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 165 (Majority) on H.B. No. 900**

The purpose of this bill is to appropriate funds for the operating and capital improvement budget of the Office of Hawaiian Affairs to support programs that benefit Hawaiians and native Hawaiians for the fiscal biennium July 1, 2009, through June 30, 2011.

Realizing the sacrifices being made by all departments in light of the current economic situation, the Office of Hawaiian Affairs submitted testimony in support of a twenty per cent reduction to its general fund appropriation. Your Committee is in agreement with the Office of Hawaiian Affairs and reduced the general fund appropriation to the Office of Hawaiian Affairs by \$617,415.

The appropriation of general funds to the Office of Hawaiian Affairs is contingent upon the transfer from the Office of Hawaiian Affairs to the State, the State's share of the Hokulia settlement (Kelly v. Oceanside) legal fees plus interest. The Office of Hawaiian Affairs Board of Trustees has agreed to transfer fifty per cent of the legal fees plus interest, which amounts to \$1,241,615.

Your Committee recognizes the importance of the services and advocacy the Office of Hawaiian Affairs provides its beneficiaries and finds that this measure is necessary to continue support of the programs benefitting Hawaiians and native Hawaiians.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 900, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 900, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kim, Hemmings.  
Managers on the part of the Senate.  
Ayes, 2. Noes, 1 (Hemmings). Excused, none.

Representatives Carroll, M. Oshiro, Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 166 on H.B. No. 300**

The purpose of this measure is to appropriate funds for the operating budget of the Judiciary for fiscal years 2009-2010 and 2010-2011 and capital improvement budget for fiscal year 2009-2010.

Your Committee on Conference finds that the Governor's financial plan, as presented to the Legislature in December 2008, characterized the entire judicial branch of government as "discretionary" and proposed reducing its general fund operating budget by a full twenty per cent. The Judiciary did not agree with the Governor's plan and, in fact, presented the Legislature with a request for increases to their general fund budget of \$7,023,237 in fiscal year 2009-2010 and \$10,105,072 in fiscal year 2010-2011.

Your Committee on Conference is concerned by the damage to the court system's operations that would occur under the Governor's proposed budget for the Judiciary, but also recognizes that reductions are unavoidable under present fiscal conditions. Your Committee on Conference restored nearly \$20,000,000 of the Governor's proposed general fund reduction of \$40,000,000. This reduces the Judiciary's general fund appropriation request, as reflected in H.B. No. 300, H.D. 1, by twelve per cent in fiscal year 2009-2010 and fourteen per cent in fiscal year 2011.

The timely opening of the Juvenile Detention Center and Family Court in Kapolei is a priority for the Judiciary. As such, your Committee on Conference provided twenty-two positions and \$2,065,183 for additional costs related to the Kapolei Court Complex.

In an effort to remain cognizant and supportive of the need for capital improvements to all Judiciary facilities, statewide, your Committee on Conference has provided \$9,775,000 in general obligation bond funding for critically needed projects. Such funding has been provided only in the first year of the biennium, with the intention of enabling the Judiciary to immediately address these needs while also creating additional jobs and economic stimulus, which are immediate priorities for the State. Your Committee will continue to closely monitor economic conditions, but also believes it important to remain mindful of not only the Judiciary's future capital needs, but also their ability to undertake such projects, before making funding decisions for fiscal year 2010-2011.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 300, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 300, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kim, Tsutsui, Slom.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Karamatsu, M. Oshiro, Pine.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 167 (Majority) on H.B. No. 200**

The purpose of this measure is to appropriate funds for the operating and capital improvement costs of the Executive Branch for fiscal year 2009-2010 and fiscal year 2010-2011.

**INTRODUCTION**

This measure is by far the largest component of the State's expenditure plan and was crafted to tighten up general fund spending, while continuing to respond to our diverse community's needs and priorities. Contained in this measure is the spending authorization required for the operation of the public school, university, and public health systems; programs that make up the social safety net; programs that help to support various sectors of the economy; and other programs that support the governance of our society as required by our state constitution.

In response to the global economic downturn, many difficult choices had to be made in developing this budget. In some cases, your Committee on Conference was unable to restore the Governor's cuts to core programs and was forced to make additional cuts in less-core areas. Despite the difficulty of making these decisions, your Committee on Conference has approached this task as an opportunity to refocus and streamline state government where possible.

Your Committee on Conference appreciates the efforts of all those who have provided input regarding the budget, including the directors of executive departments who testified at the pre-session briefings, the state employees who fielded hundreds of questions from legislators and staff, and the thousands of engaged citizens who shared with us their thoughts and concerns.

**ECONOMIC OUTLOOK**

National Economic Outlook

The National Economic Outlook is uncertain. As of April, 2009, the United States unemployment rate had reached 8.5 per cent. Michigan, at 12.6 per cent, had the highest rate of unemployment in the nation.

Signs of the gravity of the current economic contraction had become clear more than a year ago, when investors began to question the value of real estate assets held by Bear Sterns Companies, Inc. The problem began when individuals who couldn't afford home ownership were awarded mortgage loans, known as subprime loans. Lenders who made these subprime loans resold them to other institutional players, such as Fannie Mae, the Federal National Mortgage Association.

The first indication of our current economic contraction was when investors determined that the credit default swaps that Bear Sterns Companies, Inc. was relying on to protect it from exposure to subprime loans were worthless. Investors began to inspect the balance sheets of banks and other financial intermediaries, and question the real value of mortgages on all commercial and residential property, that was stated as assets on the balance sheets of these financial institutions. When investors concluded that the book value of these assets exceeded the market value, the selling, and thus the economic contraction, began. Lehman Brothers Holdings, Inc. collapsed on September 15, 2008; and the American International Group, which sold the credit default swaps that pay off if the mortgages enter default, became the subject of an ongoing federal "bailout."

When the banking system was called into question, the banks, having nothing to lend, cut the supply of credit, jeopardizing all businesses, which generally run on credit for one accounting period.

Despite the pervasiveness of the calamity, welcome signs of a recovery are emerging. Some economists say that a number of indicators appear to have bottomed out in recent months. Consumer confidence is increasing. Home sales are starting to pick up. Stocks are enjoying a limited rally.

While there may be movement toward recovery, many economists believe that the current recession will not end until much later this year, and some believe it will last until 2010. However, many of these forecasts were made before the nearly \$800 billion federal stimulus package, enacted earlier this year, began to have an effect. Based on more recent forecasts, some economists argue that the stimulus plan could create stronger than expected growth, and much sooner than the consensus forecasts.

The Economic Outlook for Hawaii

The State's unemployment rate increased from 6.5 per cent to 7.1 per cent between February and March 2009. According to the state Department of Labor and Industrial Relations, February's unemployment rate was the highest since the 6.6 per cent rate recorded in 1978. The State's unemployment rate is not expected to peak until the fourth quarter of 2009.

Though Hawaii's unemployment rate is lower than the national rate, our islands have not been spared economic problems. In February 2009, the occupancy rate for Hawaii hotels was at its lowest rate since 1991. In March 2009, the number of visitors who arrived by air fell 17.2 per cent, and spending by these visitors fell 24.4 per cent, according to the Department of Business, Economic Development, and Tourism. Our island economy continues to be impacted by the loss of ATA and Aloha Airlines, two cruise ships, the Hawaii Superferry, and the closure of Molokai Ranch. Construction slowed dramatically in 2009, resulting in decreased revenue and additional job losses.

Oil prices, the housing market, and United States credit remain wild-card factors that could have long-lasting impacts on the Hawaii economy. As of April 2009, the economic outlook for Hawaii remains uncertain.

#### GENERAL FUND REVENUE OUTLOOK

By statute, the Council on Revenues reports its latest tax revenue forecast to the Governor and the Legislature on June 1, September 10, January 10, and March 15 of each year. The revenues come primarily from the general excise tax and the state income tax. Since the March 2008 forecast, the Council on Revenues has reduced each prediction of tax revenues for the coming fiscal years. From March 2008 to October 2008, the Council's general fund tax revenue projection through the upcoming biennium dropped by \$1.341 billion.

The Governor based the administration's original biennium budget request on the October 2008 Council on Revenue projection. In early January 2009, soon after the Governor's budget was finalized and submitted to the Legislature, the Council on Revenue revised its forecast downward; the projection was reduced by \$637 million through the coming biennium. Thus, from the Council's March 2008 projection to the January 2009 projection, general fund revenues have declined by nearly \$2 billion.

The House draft of the budget was balanced based upon the Council on Revenue's January forecast, in part by controlling expenditures through eliminating programs and filled and vacant state government positions, cutting into the base budget, and transferring general fund expenses to non-general funds. Then, on March 12, 2009, the Council's tax revenue outlook was again downgraded by \$262 million over the biennium (down \$92.8 million in the current year, \$115.8 million in FY2010 and \$53.4 million in FY2011), and the Senate took on the task of creating an even slimmer budget to balance with the new revenue projection.

#### BUDGET OVERVIEW

Never before has the State faced a declining revenue picture approaching the magnitude of that currently confronting the 25th Legislature. In fact, the \$2 billion shortfall through the biennium budget, projected at the start of this legislative session, left many individuals in various states of denial. While considerable budget reductions are a necessary component of a balanced financial plan, they are just one factor in aligning the State's expenditures and revenues.

In an effort to close the budget shortfall, the Governor requested each department to reduce the department's discretionary budget by twenty per cent. The factors that determined the amounts deemed discretionary are not entirely clear, and many departments did not meet the target reduction. Nonetheless, reductions resulting from this exercise and other adjustments made by the Governor resulted in a net decrease of state operating costs of \$209 million for FY2010 and \$186 million for FY2011. Previously authorized collective bargaining amounts and other fixed cost adjustments resulted in the Governor's fiscal biennium 2009-2011 executive budget request of \$5.361 billion for the first fiscal year, and \$5.464 billion the second fiscal year.

Subsequent to the introduction of the House draft of the state budget, the Governor adjusted the biennium budget request. These adjustments included reductions to account for the use of such funds as the Emergency and Budget Reserve Fund and the federal American Recovery and Reinvestment Act of 2009 (ARRA) stimulus funds. This, along with other adjustments, lowered the net executive budget request by \$190 million and \$69 million for FY2010 and FY2011, respectively.

In H.B. No. 200, S.D. 1, the Senate restored some of the cuts made by the Governor and the House through the appropriation of ARRA funds, but made new cuts in other areas. House Bill No. 200, S.D. 1, achieved a net reduction to the Governor's proposed budget as adjusted for Governor's Message items of \$58 million in FY2010 and \$83 million in FY2011. Reductions were generally attained by moving operating expenses from general funds to non-general funds where appropriate; reducing programs of limited value or great expense for the benefits derived; reducing positions that, with some exception, were vacant for one year or longer; and reducing a limited number of exempt positions not necessary to core government functions.

Aware of the harm that further reduction to the budget could cause to the State's ability to deliver vital services to the public and of the potential for long-term disarray within state agencies that could arise, your Committee on Conference set out to find common ground in order to reduce the Governor's proposed budget in areas it believes to be least detrimental to core and direct services. This was done primarily by compromising between the House of Representatives and Senate positions, making use of available ARRA funds, and reducing funds for deputy director positions in the second fiscal year.

#### DEPARTMENT HIGHLIGHTS

##### Human Services

Especially in these unfavorable economic times, your Committee on Conference recognizes the importance of supporting the Department of Human Services' efforts to provide services to those most in need. Because of the continuing economic contraction, the Governor's budget reduced Department of Human Services' discretionary expenditures by twenty-nine per cent in FY2010, and FY2011. These reductions would have resulted in the loss of important services to the State's most vulnerable citizens.

Your Committee on Conference appropriated \$714 million in FY2010 and \$780 million in FY2011 in general funds to allow the Department of Human Services to continue protecting and empowering the State's most vulnerable citizens. Highlights of general fund appropriations include \$459 million in FY2010 and \$525 million in FY2011 for the MedQuest Program; \$25.5 million each year

for Cash Support for Families-Self-Sufficiency; \$15.6 million each year for Case Management for Self-Sufficiency; \$19 million each year for Cash Support for Child Care, which in large part helps to maintain the State's claim to an annual federal TANF block grant.

With the help of federal ARRA funds, your Committee on Conference was able to appropriate \$2.6 million in FY2010 and \$3.1 million in FY2011 to restore the Adult Dental Program, which was cut by the Governor. In addition, your Committee on Conference partially restored funding for Immigrant Health Services, also cut by the Governor. In total, your Committee on Conference appropriated \$211 million in FY2010 and \$105 million in FY2011 in ARRA funds for Department of Human Services programs. In addition, your Committee on Conference appropriated \$25 million in FY2010 to address an existing ongoing shortfall in the Department.

In order to support the increasing number of Hawaii families who must turn to Temporary Assistance for Needy Families (TANF) as a result of the current economic situation, the federal government authorized additional funds for the TANF program. As a result, your Committee on Conference was able to increase TANF expenditures to help address this growing need. To continue providing services to those in need, and to meet increased demand for essential services due to the economic downturn, your Committee on Conference finds that it will be necessary to draw on TANF reserve funds for \$41.7 million in FY2010, and \$23.8 million in FY2011. Your Committee on Conference notes that the drain on TANF reserve funds would have been much more significant without the increased federal support received by the State.

Additionally, your Committee on Conference was able to appropriate ARRA money and other federal funds for the following TANF-related purposes: \$20 million in FY2010 and \$5 million in FY2011 of TANF contingency funds; \$25 million in FY2010 and \$6.25 million in FY2011 of TANF emergency funds; \$5.4 million each fiscal year, of TANF assistance for non-IV E foster children; and \$3.5 million in FY2010 and \$900,000 in FY2011 for other assistance to non-IV E children.

#### Hawaii Health Systems Corporation and Kahuku Hospital

Your Committee affirms its support and commitment to providing the resources necessary to help Hawaii Health Systems Corporation (HHSC) maintain its current level of services. HHSC facilities face tremendous challenges with, among other things, federal and private reimbursement rates failing to keep pace with rising medical costs. HHSC is an essential public safety net for many residents and visitors, especially on the neighbor islands. To help maintain the current level of essential health care services by those facilities, your Committee on Conference provided a general fund subsidy of \$14.3 million for FY2010, to be expended to the extent possible for Medicaid eligible services. In addition, your Committee on Conference increased HHSC's special fund ceiling by \$14.7 million for FY2010 and \$14.5 million for FY2011 for additional health care payments anticipated to be received from the Department of Human Services.

Your Committee on Conference is concerned with the management, both fiscally and operationally, of the HHSC regions. Thus, your Committee on Conference created a new program, HHSC Regions (HTH 212), to increase transparency and accountability. In addition, your Committee on Conference has earmarked \$500,000 in general funds for a comprehensive review and evaluation of the HHSC corporation and its regions.

#### Health

Your Committee on Conference is dedicated to protecting the health and well-being of people in Hawaii and ensuring basic health care to all. This is especially challenging given the growing need for health care in the face of economic hardship. It is vital that health care be available and accessible to everyone. To meet this need, your Committee on Conference increased funding to critical services that were either reduced or eliminated in the Governor's budget.

Community health care centers serve as a safety net for many individuals who otherwise would not receive vital health care. Health care centers are experiencing an increase in the number of individuals seeking services, and this demand is expected to grow. To ensure that all residents are able to receive medical care, your Committee on Conference increased funding to community health care centers throughout the State to a total of \$6,591,526 in each fiscal year.

Your Committee on Conference is also concerned that the downturn in the economy increases untold stress on individuals and families. To address this concern, your Committee on Conference restored funding for the following programs and services that were eliminated by the Governor. Funding for these services will come from special funds.

- Partnership in Community Living to provide last-resort support for families of developmentally disabled individuals who are not eligible for Medicaid: \$700,000.
- Healthy Start to prevent child abuse and promote positive parent-child relationships: \$3 million.
- Respite care to provide temporary relief to families that have ongoing care giving responsibilities for family members with developmental or mental disabilities: \$376,953.

The ARRA provides federal stimulus funds in the amount of \$90 million for FY2010 and \$19.6 million for FY2011. This infusion of funding will have a significant impact on the following programs and services:

- Enhanced federal Medical Assistance Percentage reimbursements will reduce the need for the following general fund expenditures:
  - ❖ Developmental Disabilities: \$16 million in FY2010 and \$8 million in FY2011;
  - ❖ Adult Mental Health: \$4 million in FY2010 and \$1.5 million in FY2011;
  - ❖ Child and Adolescent Mental Health: \$2.6 million in FY2010 and \$1.8 million in FY2011.
- Early Intervention for Children to ensure compliance with federal Individuals with Disabilities Education Act, Part C: \$2.6 million in FY2010 and \$197,343 in FY2011.

- Emergency Medical Services (EMS) to implement a statewide mobile electronic health record exchange system and a broadband telecommunication system to send critical patient information between EMS personnel and emergency department physicians: \$10.9 million in FY2010 and \$7.9 million in FY2011.
- Environmental Management to provide grants for drinking water and wastewater infrastructure improvements, reduce diesel emissions for school buses, oversee underground storage tanks, and contract technical expertise for water quality standards: \$53.9 million in FY2010.

Your Committee on Conference finds that the reorganization plan proposed by the Department of Health and the Governor does not deliver any cost savings or efficiencies for the program or services and, in fact, may have a negative impact on clients and staff, disrupt the delivery of services, and incur additional costs.

Your Committee on Conference diligently strove to work with the Department of Health. However, the Department chose not to assist in identifying less core services and possible areas for reduction. It must also be noted that your Committee on Conference has made its best effort in developing this budget without pertinent information from the Department, particularly the itemized operating biennium budget for fiscal biennium 2009-2011.

#### Public Education

Your Committee on Conference recognizes the importance of providing a quality education to our children to ensure that they are able to thrive in the global society now and in the future. Preserving school-level funding, particularly funds to be distributed via the weighted student formula, is a top priority of your Committee on Conference. Unfortunately, your Committee on Conference was not able to restore the \$40 million in non-weighted student formula program cuts that were included in the Governor's budget and accepted by the Board of Education.

Hawaii is fortunate to be receiving federal stimulus dollars to support education and other state programs in the upcoming biennium. Your Committee on Conference is pleased to have the ability to appropriate stimulus dollars for the following educational programs: \$19.8 million for Title I and Educational Technology in FY2010; and \$20 million for IDEA Part B & IDEA Part B Preschool funds in FY2010.

Your Committee on Conference respectfully disagrees with the Governor's initial plan regarding the timing of the use of a large portion of federal stimulus funds intended for education stabilization. In the interest of protecting the school system from much of the impact of the budget shortfall, your Committee on Conference has provided \$56.6 million in stimulus dollars for education each year of the biennium. These funds will be distributed between public schools and charter schools, based on the latest enrollment projection available to your Committee on Conference. By contrast, the Governor proposed to immediately use \$90 million of the \$113 million in the federal stimulus funds intended to go to lower education in an effort to balance the state budget in the current fiscal year.

The receipt of federal stimulus funds has provided your Committee on Conference with an opportunity to make adjustments to the charter schools' FY2010 and FY2011 budget allocations to accurately reflect the amounts prescribed by section 302B-12, Hawaii Revised Statutes. Charter schools will be able to make the \$5.3 million corrective reduction of general funds without substantial impact to delivery of services because the charter schools' budget will be largely offset by the addition of funds for collective bargaining and \$2.8 million in federal stabilization funds. The net reduction to the charter school budget will be less than \$1 million, which represents a year-to-year reduction of less than two per cent.

Your Committee on Conference has struggled this session to make informed and equitable decisions regarding charter school funding because of the limited information charter schools made available. Charter schools currently enjoy an extremely flexible operating environment, which was provided to enhance program creativity and resourcefulness with the goal of creating better outcomes for students. However, as a publicly-funded entity, charter schools must provide transparency and ensure that public funds are properly used. Your Committee on Conference requests that charter schools provide a budget that reflects all fiscal resources anticipated to be available to the charter schools for the next year; report on the consistency of procurement practices with the guidelines in Chapter 302B, Hawaii Revised Statutes; and account for all exemptions to normal employee compensation levels. Your Committee on Conference also requests that all charter schools work with the Charter Schools Administrative Office annually to provide the Legislature full and accurate financial information to enhance future decision making processes.

Your Committee on Conference made no further reductions to the budget of the Hawaii State Public Library System. Use of the library system has increased during the current recession and the library system would not be able to withstand additional cuts without decreasing security and closing branches.

Additionally, your Committee on Conference is transferring the fixed costs for debt service, health premiums, and retirement benefits from the Department of Education's budget to the Department of Budget and Finance and is transferring risk management costs to the Department of Accounting and General Services. The budgeting of these items within the Department of Education has no notable benefit and creates unneeded paperwork and confusion regarding the proportionate level of funding provided the Department.

#### Higher Education

The University of Hawaii system is the State's only public institution for higher learning and plays a critical role in building a strong foundation for Hawaii's future. While budget reductions for most state agencies are unavoidable, the University is fortunate to have significant non-general fund revenues and access to federal stimulus funds.

Your Committee on Conference accepted the twenty per cent discretionary target reduction scenario approved by the Board of Regents, which amounts to an additional reduction of \$17.1 million in general funds each fiscal year. Your Committee on Conference further reduced \$15.4 million each fiscal year, which will be offset by an anticipated \$25 million increase per year in tuition and fees revenue based on built-in annual tuition increases. The addition of ARRA education stabilization funds will also reduce the impact of these adjustments.

The University system is now experiencing record-high enrollment as people seek additional training to increase their job prospects. The greatest increase in enrollment is at the community college level, where enrollment has increased by 9.4 per cent. As such, your Committee on Conference sought to maintain support for the community colleges by providing enough ARRA education stabilization funds to offset nearly all of the \$8 million in general funds reduced from their budget. In total, the University of Hawaii will receive \$54 million in ARRA education stabilization funds over the course of the biennium.

#### Public Safety

Your Committee on Conference notes that Hawaii continues to struggle with the persistent growth of the inmate population. The traditional solution to prison overcrowding is to build additional facilities or expand existing ones. Since it is unlikely that any new facilities will be built in the near future, your Committee on Conference recognizes the need for interim measures.

The current administration's primary strategy for reducing overcrowding has been to transfer inmates out of the State. However, with a total of 2,298 inmates housed in out-of-state correctional facilities and the escalating costs associated with those inmates, your Committee on Conference finds it necessary to support programs that help reduce the number of inmates in Hawaii's corrections system. Your Committee on Conference provided \$309,516 for FY2010 and \$540,733 for FY2011 to establish a pilot program on Oahu that electronically monitors committed persons who are permitted to live and work in the community in lieu of continued incarceration.

Prior delays in transferring Hawaii inmates to out-of-state facilities have resulted in the accumulation of \$7.7 million that is in excess of the Department of Public Safety's need for contracted bed space. Your Committee on Conference has identified this amount as a one-time general fund savings in FY2010 that can be reduced with no impact to the Department's operations.

Your Committee on Conference reviewed operations of the Sheriff Division and made two significant adjustments. First, your Committee on Conference reduced five vacant positions and funds for the Airport Unit to bring the position count to the number required under the memorandum of understanding with the Department of Transportation Airports Division. Second, four general funded positions were reduced and resources reallocated to establish three additional warrant teams.

Your Committee on Conference continues to be concerned by excessive overtime expenditures and the reported abuse of sick leave benefits by Department of Public Safety employees. General funded overtime expenditures for FY2008 totaled \$9.8 million for the department, which is 31.7 per cent above the budgeted amount of \$7.5 million. Your Committee on Conference reduced funds for overtime by twenty per cent of FY2008 actual expenditures or \$2 million in general funds. Your Committee on Conference established a protocol fund that will be used to encourage employees to reduce sick leave abuse and, subsequently, the need for overtime.

#### Land and Natural Resources

Your Committee on Conference believes that protecting Hawaii's natural resources and preserving its unique endemic species should remain priorities, even in difficult financial times. Hawaii's resources are constantly being threatened by alien plant and animal pests and by public overuse. To prevent further degradation of these resources, your Committee on Conference has restored \$500,000 for invasive species support that was reduced in the Governor's budget. To protect the State's aquatic resources, your Committee on Conference has restored \$47,500 for coastal stock enhancement, \$45,620 for marine monitoring, \$379,480 for regional stream studies, and \$90,000 for Anuenue Fisheries Research Center.

The Department of Land and Natural Resources identified public safety and park operations as its top priorities and, accordingly, your Committee on Conference has restored, through the use of special funds, funding for lifeguard services at Kaena Point State Park and Keawaula Beach that were reduced in the Governor's proposed budget.

#### Agriculture

Your Committee on Conference recognizes the importance of agriculture to Hawaii's economy, both as an exportable commodity and as a means to allow the State to become less dependent on imported food products. As such, your Committee on Conference has taken steps to ensure that the Department of Agriculture continues to conserve, develop, and utilize the agricultural resources of the State. Your Committee on Conference has given high priority to preventing the introduction and establishment of pests in the State.

Act 9, Special Session Laws of Hawaii 2007, established a user fee for the inspection of sea and air containers bound for Hawaii that may be carrying pests. Your Committee on Conference has provided \$6 million in special funds to conduct harbor inspection programs and early detection and rapid response activities for invasive species. These funds will allow the Department to retain almost all plant quarantine inspector positions proposed for reduction by the Governor. In an effort to streamline the Department's operations, your Committee on Conference has eliminated the detector dog program, which has proven to be of limited value.

#### Business, Economic Development, and Tourism

Your Committee on Conference realizes the importance of Hawaii's existing businesses as drivers of Hawaii's economy. Your Committee on Conference has found that the Department of Business, Economic Development, and Tourism has lost sight of its core functions and is unable to effectively manage and carry out the Department's mission. With that in mind, your Committee on Conference created general fund savings, efficiencies, and transparency by transferring programs within the Department to more appropriate departments that share common missions and objectives. This will allow the Department of Business, Economic Development, and Tourism to focus on its core functions and responsibilities.

Your Committee has made the following transfers of Department of Business, Economic Development, and Tourism programs:

- The Small Business Regulatory Review Board to the Department of Commerce and Consumer Affairs;
- Natural Energy Laboratory of Hawaii Authority to the Department of Accounting and General Services;
- Creative Industries Arts and Culture Branch to the State Foundation on Culture and Arts; and

- Film Industry Branch to the Hawaii Tourism Authority. The Authority's expertise in marketing and existing relationships will allow the Film Industry Branch to flourish and become more of an economic driver and marketing tool for the State.

Your Committee understands that the modernization of our state harbors needs to be a priority. The Aloha Tower Development Corporation remains entangled in litigation and has not completed any projects related to the Harbors Modernization Plan. Your Committee on Conference finds that the Aloha Tower Development Corporation is unable to effectively lead the Harbors Modernization Plan and carry out the functions for which it was created; consequently your Committee restored the responsibility of improving harbors to the Department of Transportation, Harbors Division in fiscal year 2011.

Hawaii currently relies on imported oil for over ninety-three per cent of its energy needs. Over the years, the Legislature has provided substantial resources for the Clean Energy Initiative, under the guidance of the Department of Business, Economic Development, and Tourism, for the purpose of promoting energy independence for the State. With funding from the ARRA, the Department of Business, Economic Development, and Tourism will have the opportunity to help the State to become more energy independent. Your Committee on Conference created a general fund savings while retaining existing staff and creating new positions with the use of \$6.2 million in existing federal funds and \$30 million in new federal stimulus money. This will allow the Department to focus on creating clear objectives using specific performance measures and goals.

#### Labor and Industrial Relations

Your Committee on Conference has appropriated the following federal stimulus dollars to the United States Department of Labor programs: \$150.5 billion in additional funds for increased unemployment insurance payments to individuals in FY2010; \$5.3 million to provide services, jobs, education, and job training to low-income individuals; \$4 million to provide weatherization assistance for the installation of energy saving devices in low-income households; \$1.4 million to provide reemployment services for the unemployed in FY2010; and \$6.4 million to provide employment and training services to adults, dislocated workers, youth and older individuals in FY2010 while reducing minimal amounts above the twenty per cent reductions taken by the Department for the Governor's budget reductions.

#### Transportation

Your Committee on Conference has become increasingly concerned with the Department of Transportation's deficit spending of its special funds. Accordingly, your Committee on Conference reduced spending through a \$5 million prorated reduction across all programs within the Harbors Division and a \$10 million prorated reduction across all programs within the Highways Division. These reductions will allow the divisions' expenditures to better align with existing and future revenue projections.

Your Committee on Conference is also concerned with certain aspects of the Airports Division. Thus, your Committee on Conference requests that the State Auditor perform a financial audit of the Department of Transportation regarding its accounting procedures, procurement practices, controls over lease renewals and renegotiations, ability to monitor and collect outstanding receivables, and means of accurately charging fees. Your Committee on Conference is also requesting that a list of all fines from the Transportation Security Administration and other federal agencies be included in the audit.

#### Budget and Finance

Your Committee on Conference provides for the consolidation in the Department of Budget and Finance of fixed costs for debt service, pension accumulation, social security/Medicare, and health premium costs chargeable to the University of Hawaii and the Department of Education. This consolidation is achieved by cost accounting in new program areas. Every effort has been made to prevent the transfers of fixed costs from the University of Hawaii and the Department of Education from prejudicing the maintenance of effort calculations of appropriation levels made to satisfy the State Fiscal Stabilization Fund provisions of the ARRA legislation.

Your Committee on Conference recognizes the plight of the Bishop Museum in maintaining historic sites and artifacts. To allow the continuation of these efforts, your Committee restored a subsidy of \$418,000 to the Museum.

Your Committee on Conference finds that there are no vacant state facilities to accommodate a Public Utilities Commission move and reorganization at this time. Consequently, your Committee on Conference does not appropriate funds for any move of the Public Utilities Commission at this time.

#### Accounting and General Services

Your Committee on Conference transferred \$9.2 million earmarked for the State's insurance premiums from the University of Hawaii and the Department of Education to the Department of Accounting and General Services to reduce unnecessary delays. To generate general fund savings, your Committee on Conference changed the means of financing for \$3.5 million of insurance premiums from general funds to state risk management revolving funds.

Your Committee on Conference understands the State's fundamental obligation to conduct state and federal elections and recognizes the need for an effective voting system. For the Office of Elections, your Committee reduced general funds by \$184,020 for vacancy savings and other personal and current expenses and provided an additional \$1.5 million for the voting system contract and purchase of voting equipment for FY2010, a non-election year. Funding for FY2011 remains unchanged from the Governor's proposed budget.

#### Attorney General

Your Committee on Conference recognizes the importance of the Department of the Attorney General in its role as legal counsel for the State of Hawaii. Your Committee on Conference made an effort to reduce the Department's budget in areas that would have limited impact on services to State agencies and the general public. With this goal in mind, your Committee on Conference restored funds to the Child Support Enforcement Agency.

Your Committee on Conference provided the Department with \$6 million in federal funds over the biennium for the Crime Assistance Grant, Byrne Memorial Justice Assistance Grant, Violence Against Women Grant, and the Internet Crimes Against

Children Grant. Your Committee on Conference provided an additional \$4.5 million in federal stimulus funds over the biennium for the Child Support Enforcement Agency.

#### CAPITAL IMPROVEMENT PROGRAM

Mindful of the current economic conditions, your Committee on Conference has sought to compose a fiscally responsible budget that will also spur economic growth throughout the State. Through the continued investment in necessary infrastructure and other capital needs, we believe this budget will in turn provide badly needed job growth for our unemployed and underemployed residents. This philosophy also underscores the federal government's efforts to stimulate the economy through increased spending in the most expedient manner possible. However, your Committee on Conference believes that since it is unclear whether the bond market can withhold an increased bond issuance plan for state projects, general obligation bond- and general obligation reimbursable bond-funded projects must be carefully selected so as to effectively maximize the use of these funds. As a result, your Committee on Conference has endeavored to decrease the proposed debt service level, while also funding critical capital improvement projects that address health, safety, and code requirements; current repair and maintenance backlogs in various state executive departments; and the need to provide for growth and expansion of services, programs, and facilities.

Additionally, your Committee on Conference has provided increased funding in the first year of the biennium, FY2009-2010, to ensure funds are immediately available to state departments and agencies to be used for shovel-ready projects and to provide increased flexibility in ensuring the completion of ongoing projects. In conjunction with this effort, it is believed that front-loading funding will allow your Committee on Conference to properly monitor and assess future economic conditions and their impact on our State's ability to undertake such projects, before appropriating funds in the following fiscal year.

This year, the Administration requested a total of \$955,155,000 in general obligation and general obligation reimbursable bond-funded projects and \$2,952,862,000 for projects financed with all means of financing. Given such unique economic conditions, your Committee on Conference has attempted to address debt service obligations by reducing the amount of general obligation and general obligation reimbursable bonds appropriated, funding a total of \$864,009,000 over the biennium. In all means of financing, we have approved \$3,539,891,000 over the biennium. While this is an increase from what was requested in the Administration's budget, your Committee on Conference has dedicated much of these funds to crucial projects, where a large portion has been provided to certain departments allowing them the flexibility to seek alternative financing options, which may in turn reduce debt service obligations in the future.

Despite challenging economic times, your Committee on Conference has remained dedicated to our State's education system. We have sought to fund those projects that are necessary for health, safety, and compliance measures, as well as those most needed to address the repair and maintenance backlog. In addition, we have approved funding for large construction projects to ensure the future growth and prosperity of our schools. For the Department of Education, your Committee has appropriated a total of \$304,797,000 for various school projects, \$170,500,000 of which is dedicated to reducing the repair and maintenance backlog as well as Whole School Renovation programs.

Likewise, we have appropriated a total of \$203,772,000 in general obligation bond funded projects for the University of Hawaii System, including \$143,125,000 to address repair and maintenance, as well as health and safety needs. In total, we have funded \$565,956,000 for projects financed with all means of financing, including \$28,132,000 in revenue bonds and \$12,660,000 in general obligation bonds for a long overdue Information Technology Center to serve not only the entire University system, but potentially the State as well.

In addition to education, your Committee on Conference has also attempted to address the recent mortgage crisis and need for affordable housing. We have therefore provided \$30,000,000 for the Rental Housing Trust Fund and \$20,000,000 for the Dwelling Unit Revolving Fund. Your Committee on Conference has also made further efforts to improve the conditions of our affordable and public housing facilities and have approved \$12,413,000 for the Hawaii Public Housing Authority to help address their repair and maintenance backlog as well as Americans with Disabilities Act compliance needs.

During these desperate economic times, funding is needed most in the area of healthcare. Thus, your Committee on Conference has provided \$95,493,000 in all means of financing for health care facilities statewide. Of this total, nearly \$47,422,000 has been provided to the Hawaii Health Systems Corporation to assist in their efforts to improve our community hospitals and provide adequate health care to our entire state population.

#### CONCLUSION

Your Committee on Conference recognizes that sacrifices must be made by all in order to balance the state budget during this unprecedented economic downturn. Most importantly, your Committee on Conference has collaborated to create a budget that will allow the State to live within its means, while using its resources wisely in order to ensure Hawaii's ability to be a strong contender in the global community with regard to education, health care, renewable energy, business, tourism, natural resources, and overall quality of life.

Your Committee on Conference was able to balance the budget without the use of furloughs, and your Committee on Conference notes that it remains the responsibility of the Governor and the public worker unions to negotiate potential savings through decreasing the salaries or benefits of state employees. With the revenue picture at -6.3 per cent, your Committee on Conference is cautious as we look ahead. However, visitor arrivals to the State have begun to stabilize, and as we brave the rough waters of the current economic downturn, your Committee on Conference is optimistic that, through fiscal prudence and increased efficiency, the State will be able to continue serving its residents and visitors in a responsible manner.

In total, this budget amounts to \$5,144,178,085 in general funds and \$10,803,950,330 in all means of financing for FY2010 and \$5,267,648,691 in general funds and \$10,467,329,973 in all means of financing for FY2011.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 200, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 200, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 168 on S.B. No. 21**

The purpose of this measure is to provide, among other things, temporary exemptions from statutes relating to procurement, rulemaking, and employment in order to allow the State to expedite the implementation or expansion of programs, services, and benefits authorized by the American Recovery and Reinvestment Act of 2009 (ARRA).

The American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, envisioned by President Obama as money going “out the door immediately,” will require expedited procedures to allow the State to take full advantage of funding from the federal stimulus plan to expeditiously address the programs, services, and benefits needed by the people of Hawaii. With regards to construction moneys, a recent article in the *Pacific Business News* of April 24, 2009, entitled “Hawaii stimulus money hits the roads,” featured the importance of expediting the processing of “shovel ready” projects in getting jobs out to bid, evaluation, and award.

Your Committee on Conference finds that in these times of economic turmoil, this measure would be instrumental in bringing, as soon as possible, additional financial assistance and other social services to Hawaii residents who have been affected by the current economic circumstances as well as improving and expanding benefits to the neediest individuals and families in Hawaii.

The intent of your Committee on Conference is to ensure a fair, equitable, and transparent process of awarding contracts that facilitates expediency, economy, openness, and compliance with laws and rules. This measure is necessary because of the limited time frame in which the federal government has imposed on states to expend federal moneys in order to stimulate the economy in the shortest possible time.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the purpose section to include reference to accountability and transparency to prevent fraud, waste, abuse, and to ensure the use of competitive procedures;
- (2) Exempting an offeror who has been awarded a contract from section 103-53(a), Hawaii Revised Statutes, relating to tax clearances as a prerequisite to entering into the contract;
- (3) Amending section 3, relating to the process of procurement by including more specific bidding, qualification, selection, and protest procedures to ensure fairness in the award of ARRA funds;
- (4) Requiring the State Procurement Office to adopt interim rules, effective through December 31, 2010, to implement this Act;
- (5) Deleting reference to the expenditure ceiling placed on the use of temporary assistance to needy families program funds in the Supplemental Appropriations Act of 2009, and substituting an appropriation of \$15,000,000 out of the federal temporary assistance for needy families funds provided to the State under the American Recovery and Reinvestment Act of 2009 for fiscal year 2008-2009 to be used for the temporary assistance for needy families program; provided that these moneys are in addition to temporary assistance for needy family funds in the General Appropriations Act of 2009, and any other appropriations of temporary assistance for needy families funds for fiscal year 2008-2009; and
- (6) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 21, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 21, S.D. 1, H.D. 1, C.D. 1.

**Conf. Com. Rep. 169 on S.B. No. 1678**

The purpose of this measure is to improve the State’s ability to capture taxes owed by out-of-state businesses by specifying the business activities that would constitute a sufficient connection with Hawaii to enable the State to impose a general excise tax on these activities.

Specifically, this measure clarifies the definition of “engaging” in business under the general excise tax law by:

- (1) Including the sale of tangible personal property by a person soliciting business, through an independent contractor, with a resident in Hawaii who is paid to refer potential customers to the person;

- (2) Exempting sales so solicited if the cumulative gross receipts for a twelve-month period are less than \$10,000; and
- (3) Allowing a rebuttal of the presumption of engaging in business through such solicitation if the independent contractor did not engage in any solicitation in Hawaii on behalf of the person that would satisfy the nexus requirement of the United States Constitution.

Upon further consideration, your Committee on Conference finds that Act 173, Session Laws of Hawaii 2003, the Hawaii Simplified Sales and Use Tax Administration Act allowed the State to become a participating member of the National Streamlined Sales Tax Project. The Project was intended to prepare member states to participate in the Streamlined Sales and Use Tax Agreement (Agreement). Participation in the Agreement would allow the State to level the playing field with respect to assisting local businesses to better compete with mail order and internet sellers who may not necessarily be paying their fair share of state taxes. Your Committee finds that participation in the Agreement is of particular importance at this time, as it would assist the State in the collection of additional revenue to address a projected budgetary shortfall and reduced projected tax collections.

Your Committee on Conference also finds that as a final step to the State's participation in the Agreement, necessary legislation to conform certain state tax laws to the requirements of the Streamlined Sales and Use Tax Agreement is required.

Accordingly, your Committee on Conference has amended this measure by deleting sections 1 through 4 and inserting provisions that would enable the State to participate in the Streamlined Sales and Use Tax Agreement. As amended, this measure, among other things:

- (1) Moves the one-half of one per cent tax rate for wholesale transactions to a new chapter;
- (2) Adds a new chapter on the taxation of imports of property, services, and contracting;
- (3) Moves the 0.15 per cent tax on insurance producers to a new chapter;
- (4) Eliminates the tax on businesses owned by disabled persons;
- (5) Provides destination-based sourcing and amnesty;
- (6) Requires that all tax revenues generated by this measure are to be deposited into the state treasury rather than being directed towards specific purposes;
- (7) Deletes the Department of Taxation's exemption from chapter 103D, Hawaii Revised Statutes, when securing outside services to support this measure; and
- (8) Makes technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1678, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1678, S.D. 3, H.D. 1, C.D. 1.

#### **Conf. Com. Rep. 170 on S.B. No. 585**

The purpose of this measure is to expand the ability of individuals in remote areas of the State to gain access to prescription medications through the use of remote dispensing pharmacies.

Your Committee on Conference finds that this measure will allow individuals in remote areas to gain access to their prescription medications in their own communities. Through the use of advanced telecommunications technology, pharmacists are able to dispense medications to patients at a distance, saving patients both time and money for travel expenses. Your Committee finds that this measure will help expand access to quality health care to primarily rural and medically underserved areas, while providing appropriate safeguards for the dispensing of controlled substances.

Your Committee on Conference has amended this measure by;

- (1) Extending the repeal date of Act 212, Session Laws of Hawaii 2008, by one year to January 2, 2014;
- (2) Changing the effective date of the measure to "upon its approval"; and
- (3) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 585, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 585, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 171 on S.B. No. 884**

The purpose of this bill as received is to:

- (1) Specify the amounts of moneys determined to be in excess of the requirements of various non-general funds;
- (2) Authorize the Director of Finance to transfer on either June 1, 2009, or June 20, 2009, the excess moneys from the various non-general funds to the general fund for fiscal year 2008-2009;
- (3) Repeal the exemptions for various special funds from their pro rata shares of central service expenses and administrative overhead expenses;
- (4) Require the Director of Finance, from July 1, 2009 to June 30, 2015, and the Chief Justice, from July 1, 2009 to June 30, 2011, to transfer to the general fund the interest earned on short-term investments of moneys in various non-general funds; and
- (5) Redistribute temporarily the conveyance tax revenues.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Clarifying and updating facts in the purpose section of the bill;
- (2) Revising the amounts of moneys determined to be in excess of the requirements of several non-general funds;
- (3) Deleting several non-general funds from having excess moneys transferred to the general fund;
- (4) Adding other non-general funds and specifying the amounts of their excess moneys subject to transfer to the general fund;
- (5) Setting June 1, 2009, as the uniform date for the transfer to the general fund of excess moneys from the non-general funds;
- (6) Restoring the exemptions for several special funds from their pro rata shares of central service expenses and administrative overhead expenses;
- (7) Deleting extraneous sections from part II of the bill that do not directly relate to the exemption of certain special funds from assessments for central service and administrative overhead expenses;
- (8) Authorizing rather than requiring the Director of Finance and the Chief Justice to make the transfers to the general fund of interest earned on short-term investments of moneys in various non-general funds;
- (9) Extending the termination date of the period during which the Chief Justice is authorized to make transfers to the general fund of interest earned on short-term investments of moneys in non-general funds from June 30, 2011 to June 30, 2015;
- (10) Modifying the list of non-general funds, under the jurisdiction of Director of Finance, for which interest earned on short-term investments of moneys is subject to transfer to the general fund, through the deletion of several funds and the addition of others;
- (11) Deleting the sections of the bill that deal with the temporary redistribution of the conveyance tax revenues; and
- (12) Changing the effective date of part I of the bill from June 29, 2009 to June 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 884, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 884, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 172 (Majority) on S.B. No. 1350**

The purpose of this measure is to:

- (1) Increase reserved housing requirements for the development of large lots of three acres or greater in area within the Kakaako mauka area from twenty per cent to twenty-five per cent of the countable floor area provided in the development;
- (2) Allow smaller developments of less than three acres to continue meeting the existing requirement that reserved housing units comprise twenty per cent of the dwelling units developed; and
- (3) Provide safeguards to prevent a rush to development by developers trying to avoid these new requirements.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions related to increases in reserved housing requirements on lots of three acres or greater;
- (2) Establishing reserved housing requirements, based on a sliding scale of square footage for residential and commercial development, with provisions for a transit oriented development density bonus for residential development, and further increases;
- (3) Providing flexibility options for properties of 80,000 square feet or more to allow a developer to offset the reserved housing requirements through offsite development;
- (4) Clarifying that the for-sale reserved housing units shall remain reserved housing units for a period of ten years from the date of the original sale of the reserved housing unit;
- (5) Deleting provisions related to cash payments in lieu of developing reserved housing and the sale of credits to another developer;
- (6) Adding "industrial use" to the definition of "countable floor area", provided that the term "industrial use" shall be defined by rule;
- (7) Adding, in the district development guidance policies, the requirement that residential development shall provide parking stalls consistent with county requirements;
- (8) Replacing, in the sections related to the adoption of rules, all references to three acres with twenty thousand square feet;
- (9) Changing the date that the Hawaii Community Development Authority is required to report to the Legislature from 2017 to 2014;
- (10) Making the Act applicable to the unbuilt portion of a major development that was pending of the effective date of the Act, and clarifying that the developer shall have five years from the effective date of the Act to obtain all necessary permits, complete any required grading and infrastructure improvements for the major development, and commence construction of the unbuilt portion of the major development before the Act shall apply;
- (11) Amending the findings and purpose section to reflect the above changes;
- (12) Making the effective date upon its approval; and
- (13) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1350, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1350, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 173 on S.B. No. 1673**

The purpose of this measure is to ensure the strength of the State's health care safety net by addressing critical economic shortfalls currently faced by the Hawaii Health Systems Corporation (HHSC) by:

- (1) Temporarily transferring the management, operation, and maintenance of the community hospital system from HHSC to the Department of Health (DOH) from July 1, 2009 to June 30, 2012 by establishing a community hospital system within the DOH comprising all community hospitals of the state government;
- (2) Transferring to DOH on July 2, 2010, all certificates, licenses, permits, and other approvals required by state law for the community hospitals that are held on June 30, 2010, by HHSC or any of its regional systems or facilities;
- (3) Requiring, after June 30, 2009, the Director of Health to apply for the transfer, issuance, or renewal of all certificates, licenses, permits, and other approvals required by federal law for the operation of the community hospitals by DOH and eligibility of the community hospitals for Medicare and Medicaid funds;
- (4) Establishing a community hospitals transition committee to conduct a study of a permanent structure for the community hospital system and submit its findings and recommendations to the Legislature;
- (5) Establishing a transition committee to study and recommend a permanent structure for the community hospital system; and
- (6) Establishing a special fund to be known as the community hospital system special fund.

Your Committee finds that the HHSC is the fourth largest public hospital system in the nation and operates public health care facilities that provide essential safety-net hospital and long-term care services throughout the State. Your Committee further finds that the continued financial challenges faced by the HHSC and the State pose a risk to the public health care services provided by the HHSC. In addition, these factors hinder efforts to improve the quality of health care services provided to the public.

Your Committee finds that allowing the regional systems of the HHSC and their facilities to transition into a corporation or corporations and providing State support during the transition will improve the operations and efficiencies of the HHSC and benefit the health care of the people of Hawaii.

Your Committee further finds that it is essential that this transition be an option available to the various regional systems and facilities and that the transition be carefully evaluated by the community representatives that comprise the HHSC board.

Your Committee has amended this measure by substituting an amended version of the Senate Draft No. 2 of this measure, which amended statutes regarding the Hawaii Health Systems Corporation and regional boards by:

- (1) Allowing regional systems more autonomy;
- (2) Authorizing the transition of the regional systems into a corporation or corporations to provide central support services to the regional systems and facilities seeking to remain a part of the state agency;
- (3) Allowing the corporation to conduct criminal history record checks; and
- (4) Requiring commercial health plans to provide a minimum reimbursement level of the cost for all services provided to plan beneficiaries by critical access hospitals and federally qualified health centers.

This current iteration of this measure, as amended:

- (1) Deletes provisions relating to cost-based payments to critical access hospitals and federally qualified health centers;
- (2) Modifies part 5 by utilizing the language provided in H.B. No. 1137 providing for criminal history background checks;
- (3) Adds internal audit language for additional accountability;
- (4) Provides that real property of the HHSC shall not be sold, but may be leased, and that other assets shall be eligible for sale, transfer, or lease for the purposes of providing health care services;
- (5) Limits the current exemption from Chapter 37D (financing agreements), Hawaii Revised Statutes, in order to allow HHSC to execute such agreements if they are \$5,000,000 or less per agreement and less than \$25,000,000 in the aggregate in any fiscal year;
- (6) Reconstitutes the corporate board of the HHSC by:
  - (A) Providing for twelve, rather than fifteen, members;
  - (B) Providing for greater regional representation in the HHSC by including regional CEOs as voting members of the corporation and including two members from the County of Maui, two members from the County of Hawaii, one member from the island of Oahu, and one member from the island of Kauai; and
  - (C) Requiring the corporate board, in consultation with the regional boards, to effectuate the board's membership reduction by July 1, 2010, while ensuring appropriate regional representation;
- (7) Changes the effective date to July 1, 2009; and
- (8) Makes technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1673, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1673, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Tsutsui, Takamine, Baker, Green, Kokubun.

Managers on the part of the Senate.

Ayes, 6. Noes, none. Excused, none.

Representatives Yamane, M. Oshiro, Coffman, Keith-Agaran, Nishimoto, Sagum, Tsuji, Yamashita.

Managers on the part of the House.

Ayes, 8. Noes, none. Excused, none.

**Conf. Com. Rep. 174 on H.B. No. 36**

The purpose of this bill is to clarify the rational link between the benefits sought and charges made on the users and beneficiaries of the Environmental Health Education Fund by:

- (1) Changing the name of the Environmental Health Education Fund to the Environmental Health Special Fund;
- (2) Allowing the use of fund moneys for sanitation program activities, including permitting, inspections, other monitoring, and enforcement; and
- (3) Deleting requirements that inspectors of food establishments be registered.

Your Committee on Conference has amended this bill by:

- (1) Changing the name of the Environmental Health Education Fund to the Sanitation and Environmental Health Special Fund (Special Fund);
- (2) Maintaining requirements in statute that inspectors of food establishments be registered;

- (3) Deleting requirements that moneys deposited in the Special Fund be used to conduct program activities including permitting, investigations, other monitoring, and enforcement;
- (4) Requiring that moneys in the Special Fund in excess of \$2,445,000 on June 30 of each year shall be deposited into the general fund;
- (5) Changing the effective date to July 1, 2009; and
- (6) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 36, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 36, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Green.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Morita, Nishimoto, Coffman, Finnegan.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 175 on H.B. No. 690**

The purpose of this bill is to ensure health insurance coverage by:

- (1) Requiring insurers to offer continuation of health insurance coverage to employees who lose coverage due to termination or reduction of employment hours;
- (2) Requiring insurers that offer health care coverage to the regular employees of any group or association to offer the same coverage to part-time employees working at least 15 hours per week; and
- (3) Providing that the Insurance Commissioner report to the Legislature on the cost-benefit of such an action prior to the convening of the Regular Session of 2011.

Your Committee on Conference has amended this bill by:

- (1) Deleting provisions requiring insurers to offer continuation of health insurance coverage to employees who lose coverage due to termination or reduction of employment hours;
- (2) Deleting provisions requiring fraternal benefit societies in this state to offer the same coverage to part-time employees working at least 15 hours per week as the coverage offered to full-time employees;
- (3) Changing the effective date to July 1, 2009;
- (4) Extending the sunset date by three years, from July 1, 2011, to July 1, 2014; and
- (5) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 690, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 690, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Takamine, Baker.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Herkes, Nishimoto, Finnegan.  
Managers on the part of the House.  
Ayes, 4. Ayes with Reservations, 1 (Finnegan). Noes, none. Excused, none.

**Conf. Com. Rep. 176 on H.B. No. 1464**

The purpose of this bill is to add to or clarify a number of statutory provisions to encourage energy efficiency and the development of renewable energy resources.

This bill, among other things:

- (1) As of July 1, 2009, prohibits an electricity-generating public utility from adding a new, or increasing the capacity of an existing, covered source with a capacity of two megawatts or more using fossil fuel sources;
- (2) As of January 1, 2015, prohibits:
  - (A) The inclusion of electrical energy savings in determining conformance with renewable energy portfolio standards requirements; and
  - (B) Customer-sited grid-connected photovoltaic systems to qualify as electrical energy saving;

- (3) Accelerates and extends the renewable electrical energy portfolio standard by an additional five percentage points by December 31, 2020, to twenty-five per cent from twenty per cent, and increases the standard to forty per cent by December 31, 2030;
- (4) Expands the duties of the Energy Resources Coordinator (Coordinator) to include:
  - (A) Identifying geographic areas containing renewable energy resources and designating these areas as renewable energy zones;
  - (B) Developing incentive programs to encourage the development of renewable energy resource projects within the renewable energy zones; and
  - (C) Assisting public and private entities in identifying and developing through the use of special purpose revenue bonds, utility transmission projects to accommodate the development of renewable energy resources;
- (5) Expands the definition of a "qualified business" in a state enterprise zone to one that is engaged in the development and production of fuels and thermal or electrical energy using a number of renewable energy resources;
- (6) Clarifies that the duties of the Renewable Energy Facilitator in assisting the efficient permitting of renewable energy projects extends to the land on which the project is situated and any structures or equipment, including transmission facilities, required by the project;
- (7) Amends the definition of "renewable energy facility" as it relates to the renewable energy facility siting process law, to authorize the Coordinator to designate, as renewable energy facilities, biofuel production facilities and renewable energy facilities with smaller energy production capacities, for purposes of streamlined permit processing for new facilities;
- (8) Directs the Public Utilities Commission (PUC) to establish energy efficiency portfolio standards to maximize cost-effective energy efficiency programs and technologies to achieve a reduction of four thousand three hundred gigawatt hours of electricity use reductions statewide by 2030;
- (9) Replaces the Coordinator with the Public Benefits Fee Administrator (Administrator) as the authority to issue variances from the requirement that single-family dwelling include solar water heating systems, and requires the Administrator to:
  - (A) Conduct post-installation inspections of installed water heating technology; and
  - (B) Make public all applications and the dispositions of all applications for variances from the solar water heating system requirement;
- (10) Revises the Renewable Energy Technology System Tax Credit and:
  - (A) Disallows the tax credit on the installation of a solar water heating system that is required, pursuant to section 196-6.5, Hawaii Revised Statutes, on new single-family dwellings on or after January 1, 2010; and
  - (B) Limits the tax credit to eligible renewable energy technology systems installed on or after July 1, 2009;
- (11) Extends the deadline for PUC to adopt standards for solar water heating systems from July 1, 2009, to January 1, 2010, and permits the Commission to contract with the public benefits fee administrator for the development of the standards to be adopted by the Commission.

Your Committee on Conference finds that the provisions in this bill will significantly align Hawaii's energy policy laws with its energy goals. To transform the state's energy system, changes must encompass Hawaii's policy and regulatory framework, system-level technology development and integration, financing or capital investment, and institutional system planning.

Your Committee on Conference has amended this bill by, among other things;

- (1) Adding a purpose section setting forth the detrimental impacts of being reliant on fossil fuel and the benefits that can be derived from accelerating the use and development of energy efficiency and renewable energy technologies;
- (2) Deleting the provisions expanding the definition of state enterprise zone "qualified business" that would have included a business engaged in the development and production of fuels and thermal or electrical energy using renewable energy resources;
- (3) Deleting the prohibition against an electricity-generating public utility from adding a new, or increasing the capacity of an existing, covered source with a capacity of two megawatts or more using fossil fuel sources;
- (4) Clarifying the duties of the Coordinator by, among other things, requiring it to:
  - (A) Make recommendations generally, rather than specifically to the Governor and the Legislature;
  - (B) Additionally, assist public and private agencies in implementing efficiency programs and developing indigenous energy resources; and
  - (C) Develop and maintain a capacity to analyze the status of energy resources, systems, and markets; recommend, develop proposals for, and assess the effectiveness of policies and regulatory decisions; and conduct energy emergence planning;
- (5) With respect to the renewable energy facility siting process:
  - (A) Requiring the permitting agency to provide to the Coordinator its report identifying diligent measures being taken to complete permit processing within 30 days if a completed permit plan application has not been approved or denied within 12 months after approval of the application by the coordinator; and

- (B) Authorizing the Coordinator to deem a permit approved if no further processing and action are reported by the permitting agency within five months following the end of the 30-day agency report period;
- (6) Appropriating out of the Renewable Energy Facility Siting Special Fund, \$1,000,000 for each year of fiscal biennium 2009-2011 for the purposes of the Fund;
- (7) Requiring PUC to evaluate the energy efficiency portfolio standards every five years and revise the standards based on the best information available and report its findings to the Legislature;
- (8) Beginning in 2015, requiring electric energy saving by the use of renewable displacement or off-set technologies, to count towards the energy efficiency portfolio standards;
- (9) By December 31, 2010, requiring state buildings larger than 5,000 square feet or that use more than 8,000 kilo-watts of electricity annually to be benchmarked as a basis for determining the State's investment in improving the efficiency of its building stock;
- (10) Requiring public buildings to be retro-commissioned not less than every five years based on guidelines established by the Coordinator;
- (11) Authorizing departments to enter into energy savings performance contracts with a third party, in accordance with guidelines issues by the Comptroller, to cover the capital costs of energy-efficiency measures and distributed generation, if the contracts conform to the benchmark standard;
- (12) Requiring investments in efficiency for existing public building that undergo a major retrofit or renovation;
- (13) Requiring a residential property owner to make a good faith declaration of electricity cost based on the most recent three months of electric utility bills prior to the date that the seller's disclosure under chapter 508D, Hawaii Revised Statutes, is required to be made;
- (14) Establishing the Building Energy Efficiency Revolving Loan Fund to provide low or no interest loans or financial assistance to eligible public, private, and nonprofit borrowers for making energy efficiency improvements in buildings;
- (15) Clarifies the solar water heater system requirement in new homes by, among other things:
- (A) Reinstating the Coordinator, as opposed to the Public Benefits Fee Administrator, as the authority to issue variances from the requirement that single-family dwelling include solar water heating systems and publicize all applications and the disposition of the applications; and
- (B) Deleting post-installation inspections of installed water heating technology;
- (16) With respect to the Renewable Energy Technology System Tax Credit:
- (A) Disallowing only a portion, rather than 100 percent, of the on the installation of a solar water heating system that is required by section 196-6.5, Hawaii Revised Statutes, on new single-family dwellings on or after January 1, 2010; and
- (B) Deleting the provision that limits the tax credit to eligible renewable energy technology systems installed on or after July 1, 2009;
- (17) Providing the statutory authorization to transfer federal and private funds to the Public Benefits Fee Administrator;
- (18) Clarified the objectives and policies for facility system-energy of the Hawaii State Planning Act by including energy diversification, short- and long-term provision of energy, and the promotion of transportation energy efficiency;
- (19) Changing the effective date of this bill to July 1, 2009; and
- (20) Making technical, nonsubstantive amendments for style, consistency, and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1464, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1464, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, English, Green, Kokubun, Hemmings.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, 1 (Kokubun).

Representatives Morita, Cabanilla, Herkes, Coffman, Belatti, Yamashita, Thielen.

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

**Conf. Com. Rep. 177 on H.B. No. 1260**

The purpose of this bill is to allow the State to address some of the serious financial challenges ahead by reorganizing certain state executive branch departments to reflect the provisions of the General Appropriations Act of 2009. Specifically, this measure:

- (1) Abolishes the Research and Economic Analysis Division of the Department of Business, Economic Development, and Tourism and transfers the functions of four branches of the division to the Research Corporation of the University of Hawaii, and requires the Corporation to establish a self-sufficiency standard and cooperate with the United States Census Bureau;

- (2) Abolishes the Aloha Tower Development Corporation and transfers jurisdiction over and responsibility for the harbors modernization functions of the Aloha Tower Development Corporation to the harbors division of the Department of Transportation, and clarifies that the Department shall be the successor in interest to all assets and debts, liabilities, or other obligations incurred by the Corporation and that the Department is not exempt from the state procurement code with regard to projects concerning the harbors modernization plan;
- (3) Abolishes the Hawaii Occupational Safety and Health law, with the exception of the hoisting machine operators advisory board and the hoisting machine operators' certification revolving fund, effective on October 1, 2010;
- (4) Transfers the position of tourism liaison from the Department of Business, Economic Development, and Tourism to the Office of the Governor;
- (5) Transfers the Small Business Regulatory Review Board, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs;
- (6) Transfers the Land Use Commission, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources;
- (7) Transfers the High Technology Development Corporation and High Technology Innovation Corporation, with their statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the University of Hawaii;
- (8) Transfers the Office of Planning, with its statutory duties and powers, including jurisdiction over the coastal zone management program, from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources;
- (9) Transfers the Natural Energy Laboratory of Hawaii Authority, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the University of Hawaii;
- (10) Transfers the Measurement Standards Program, with its statutory authority, from the Department of Agriculture to the Department of Commerce and Consumer Affairs;
- (11) Transfers the Arts and Culture Development Branch within the Department of Business, Economic Development, and Tourism to the State Foundation on Culture and the Arts, which is placed within the Department of Accounting and General Services for administrative purposes;
- (12) Transfers the Film Industry Branch within the Department of Business, Economic Development, and Tourism to the Hawaii Tourism Authority;
- (13) Makes required conforming amendments to the Hawaii Revised Statutes;
- (14) Provides for the transition of various state agencies and programs that are transferred, including the transfer of rights, powers, functions, duties, officers, employees, records, equipment, and rules;
- (15) Clarifies that members of boards or other policy-making or advisory bodies transferred shall continue to serve the member's term without need for reappointment, except for members of the Board of the Aloha Tower Development Corporation and the High Technology Development Corporation; and
- (16) Requires the Legislative Reference Bureau to review this measure to recommend appropriate placement of parts or chapters of the Hawaii Revised Statutes affected.

After further consideration, your Committee on Conference has amended this bill by:

- (1) Removing language that would have:
  - (A) Abolished the Research and Economic Analysis Division of the Department of Business, Economic Development, and Tourism and transferred the functions of four branches of the division to the Research Corporation of the University of Hawaii, and required the Corporation to establish a self-sufficiency standard and cooperate with the United States Census Bureau;
  - (B) Abolished the Hawaii Occupational Safety and Health law, with the exception of the hoisting machine operators advisory board and the hoisting machine operators' certification revolving fund on October 1, 2010;
  - (C) Transferred the Land Use Commission, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources;
  - (D) Transferred the High Technology Development Corporation and High Technology Innovation Corporation, with their statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the University of Hawaii;
  - (E) Transferred the Office of Planning, with its statutory duties and powers, including jurisdiction over the coastal zone management program, from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources; and
  - (F) Transferred the Measurement Standards Program, with its statutory authority, from the Department of Agriculture to the Department of Commerce and Consumer Affairs;
- (2) Stipulating that the abolishment of the Aloha Tower Development Corporation and the transfer of jurisdiction over and responsibility for the harbors modernization functions of the Aloha Tower Development Corporation to the harbors division of the Department of Transportation shall take effect on July 1, 2010;

- (3) Transferring Natural Energy Laboratory of Hawaii Authority to the Department of Accounting and General Services instead of the University of Hawaii;
- (4) Changing its effective date to July 1, 2009; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1260, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1260, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 178 on H.B. No. 1404**

The purpose of this bill is to make the general excise tax exemption amendments for timeshare operators and condominium submanagers permanent.

Your Committee on Conference has amended this bill by:

- (1) Establishing a cap of \$400,000 on amounts not taxable for:
  - (A) Managers, submanagers, or board of directors of an association of apartment owners or of certain nonprofit homeowners or community associations pursuant to Section 237-24.3, Hawaii Revised Statutes (HRS); and
  - (B) Hotel operators pursuant to Section 237-24.7, HRS.
- (2) Extending the general excise tax exemption amendments for timeshare operators and condominium submanagers by one year to December 31, 2010;
- (3) Making this measure effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1404, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1404, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kim, Slom.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives M. Oshiro, Chong, Choy, Tokioka, Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 179 on H.B. No. 989**

The purpose of this bill is to ensure health insurance coverage for all of Hawaii's keiki by:

- (1) Amending Act 236, Session Laws of Hawaii 2007, which established the Hawaii Children's Health Care Program (Program), to extend the Program to June 30, 2012; and
- (2) Requiring the Department of Human Services to report various findings and recommendations to the Legislature prior to the 2010 and 2011 Regular Sessions.

Your Committee on Conference has amended this bill by:

- (1) Requiring that primary health care services for participants in the Program be provided by a federally qualified health centers;
- (2) Requiring the managed care plan partner in the Program to establish payment plans with the state's federally qualified health centers to cover the costs of the participants' primary health care services;
- (3) Appropriating \$200,000 for each year of fiscal biennium 2009-2011, as the State's share of funding for the Program;
- (4) Changing the effective date to July 1, 2009; and
- (5) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 989, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 989, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 180 on H.B. No. 1271**

The purpose of this bill is to promote development for local food and energy businesses and ensure Hawaii is energy and food self-sufficient and sustainable to the maximum extent feasible by:

- (1) Creating and appropriating funds for a Hawaii Economic Development Task Force (Task Force) to accelerate and support public and private efforts to make Hawaii energy and food self-sufficient, consistent with the Hawaii 2050 Sustainability Plan, the Hawaii Clean Energy Initiative, and other government and community planning efforts;
- (2) Revising the tax collected on each barrel of petroleum product sold by a distributor under the environmental response, energy, and food security tax, formerly known as the environmental response tax, and allocating portions of the taxes collected to various funds; and
- (3) Repealing the sunset date of the general excise tax exemption on gross income or proceeds from the sale of alcohol fuels.

Your Committee on Conference has amended this bill by, among other things:

- (1) Inserting purpose language regarding the need to plan for and implement measures to help Hawaii's natural resources and humankind adapt and be resilient to the inevitable challenges brought on by climate change caused by carbon dioxide and other greenhouse gas emissions from burning fossil fuels;
- (2) Amending the provisions of the Energy Security Special Fund as follows:
  - (A) Requiring expenditures from the fund to be subject to legislative appropriation;
  - (B) Allowing, rather than requiring, moneys from the fund to be expended by the Department of Business, Economic Development, and Tourism (DBEDT) and used only for certain purposes;
  - (C) Specifying that one of the purposes for expenditures from the fund shall be to support the Hawaii Clean Energy Initiative Program, including its energy division;
  - (D) Specifying that one of the purposes for expenditures from the fund shall be to fund, to the extent possible, the Greenhouse Gas Emissions Reduction Task Force, Climate Change Task Force, grants-in-aid to the economic development boards of each county, and grants-in-aid to economic development agencies of each county to meet the stated objectives of the Hawaii Clean Energy Initiative Program; and
  - (E) Making DBEDT responsible for the fund by requiring it to submit a report to the Legislature prior to the convening of each regular session;
- (3) Specifying a tax of \$1.05 on each barrel of petroleum product sold by a distributor under the environmental response, energy, and food security tax, and specifying that of this tax:
  - (A) 5 cents shall be deposited into the Environmental Response Revolving Fund;
  - (B) 55 cents shall be deposited into the Energy Security Special Fund;
  - (C) 10 cents shall be deposited into the Energy Systems Development Special Fund; and
  - (D) 35 cents shall be deposited into the Agricultural Development and Food Security Special Fund;
- (4) Amending the provisions of the Task Force as follows:
  - (A) Requiring the Task Force to carry out their duties with the assistance of DBEDT;
  - (B) Specifying that the Director of Business, Economic Development, and Tourism or the Director's designee shall chair the Task Force; and
  - (C) Clarifying that a representative from each private county economic development board shall sit on the Task Force;
- (5) Changing the appropriation to support the work of the Task Force to \$250,000 for fiscal year 2009-2010, to be appropriated from the portion of the environmental response, energy, and food security tax that is deposited into the Energy Security Special Fund, notwithstanding section 201-12.8(b), Hawaii Revised Statutes;
- (6) Establishing the Agricultural Development and Food Security Special Fund, into which shall be deposited among other things a portion of the environmental response, energy, and food security tax, making the Department of Agriculture responsible for the fund by requiring it to submit a report to the Legislature prior to the convening of each regular session, and appropriating \$10,500,000 out of the fund for various agriculture- and food-related projects;

- (7) Establishing the Hawaii Clean Energy Initiative Program to manage the State's transition to a clean energy economy, and appropriating \$393,518 in each year of the 2009-2011 fiscal biennium to provide for seven positions for and otherwise support the Hawaii clean energy initiative of DBEDT;
- (8) Deleting the repeal of the sunset date of the general excise tax exemption on gross income or proceeds from the sale of alcohol fuels;
- (9) Establishing a renewable energy branch within DBEDT to coordinate and promote renewable energy initiatives;
- (10) Making permanent and appropriating \$119,280 out of the Energy Security Special Fund for the renewable energy facilitator position in DBEDT;
- (11) Establishing, and appropriating \$130,000 out of the Energy Security Special Fund for, a permanent, full-time energy program administrator position in DBEDT;
- (12) Establishing, and appropriating funds out of the Energy Security Special Fund for each year of the 2009-2011 fiscal biennium, for seven full-time, temporary positions in DBEDT to support various planning and renewable energy statutory provisions;
- (13) Authorizing the Governor to, subject to the availability of federal funding for energy programs provided by grants, establish the positions necessary to accomplish the management of energy projects funded by federal grants;
- (14) Appropriating \$200,000 out of the Energy Security Special Fund for the Greenhouse Gas Emissions Reduction Task Force;
- (15) Changing the effective date to July 1, 2009; and
- (16) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1271, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1271, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kim, Gabbard, Fukunaga, Kokubun.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Morita, Tsuji, Choy, Chong, Coffman, Wooley, Thielen.

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

## STANDING COMMITTEE REPORTS

**SCRep. 1                    Judiciary and Government Operations on Gov. Msg. No. 167**

Recommending that the Senate consent to the nomination of the following:

CIRCUIT COURT OF THE FIRST CIRCUIT

ROM A. TRADER, for a term of ten years.

Your Committee received testimony in support of Rom A. Trader from the State Attorney General, Honolulu Prosecuting Attorney, County of Hawai'i Office of the Corporation Counsel, Hawaii State Bar Association, Office of the Public Defender, The Sex Abuse Treatment Center, Domestic Violence Action Center, one member of the House of Representatives, and 135 individuals.

The Hawaii State Bar Association found the nominee to be qualified for the position of Judge, Circuit Court of the First Circuit, based upon the criteria of integrity, legal knowledge and ability, professional experience, judicial temperament, diligence, financial responsibility, public service, collegiality, and writing ability.

Rom A. Trader received a Bachelor of Arts degree from the University of Hawaii at Manoa and a Juris Doctor degree from the William S. Richardson School of Law at the University of Hawaii at Manoa. He has been a Deputy Prosecuting Attorney in Honolulu since 1988, and prior thereto, served as a law clerk to Judge Ronald B. Greig. In 2006, Mr. Trader was an Adjunct Professor at the William S. Richardson School of Law. His area of specialty and expertise in the last five-year period has been in criminal law, prosecution, trials, and motions. The issues and areas he has handled, other than trials, include the admissibility or exclusion of evidence; application of court rules, statutes, and case law; constitutional principles and issues; prosecutorial ethics; charge/no-charge decisions; and plea agreements.

Mr. Trader participated in the Men's March Against Domestic Violence in 2008, and the Statewide Sexual Assault Training for Prosecutors in 2006. From 2006 to 2008, he was a committee member of the Diocesan Sexual Misconduct Committee.

Mr. Trader's prosecutorial experience with the Honolulu Prosecuting Attorney includes service as a Deputy Prosecutor in the Career Criminal Division, team captain of the Robbery and Burglary Branch and the Theft and Forgery Branch, Felony Trials Division chief, and chief of the Domestic Violence and Juvenile Offender Division.

Testimony in support of Mr. Trader indicates that he is highly qualified to serve as a judge. During his twenty years of service as a prosecutor, he has handled many of the most serious cases, including murder, sexual assault, domestic violence, and child abuse. Mr. Trader's extensive experience has given him a thorough understanding of courtroom and judicial process. He has an outstanding reputation for integrity and fairness, and has an excellent temperament. He consistently demonstrates sound judgment and common sense, and is known in the legal community for his intelligence, diligence, compassion, and high ethical standards.

Your Committee heard from several testifiers indicating that although Mr. Trader's experience focused on criminal prosecution, he would be able to serve well on civil matters because civil experience may not be as important at the trial level as it would be at the appellate level. Your Committee notes that it would like to take this information under advisement when considering appellate level judges in the future.

Your Committee finds that, based on the testimony submitted on his behalf, Rom A. Trader has the experience, temperament, judiciousness, and other competencies to be a Circuit Court judge, and has a good sense of where the equities, rights, and responsibilities lie in a case, which is essential for a Circuit Court judge.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 2                    Transportation, International and Intergovernmental Affairs on S.B. No. 277**

The purpose of this measure is to allow the Attorney General to contract with one or more counties for the purpose of processing and issuing state identification cards at satellite city halls or other locations.

Your Committee received testimony in support of this measure from the Honolulu Department of Customer Services (also representing concurrence from the Counties of Hawai'i, Kaua'i, and Maui), and the League of Women Voters of Hawai'i. Testimony in opposition was received from one individual.

Your Committee finds that state identification is vital for seniors, children, and other individuals who do not possess a driver's license or other picture identification. Currently, obtaining a state identification card (certificate of identification) is a lengthy process because processing and administration is conducted at a single location with limited hours of operation.

Honolulu's satellite city halls are convenient locations for state identification processing. Satellite city halls provide services with extended hours, weekend availability, and convenient locations. However, the islands of Moloka'i and Lana'i do not have county equivalents of a city hall as in Honolulu that can be used to issue state identification cards. Testimony of the counties indicates that they are willing to use driver licensing offices, which are equipped for a similar purpose.

Your Committee has amended this measure by deleting reference to city halls and authorizing the counties to use driver licensing offices or other suitable county facilities for state identification administration.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 277, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as S.B. No. 277, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 3                    Transportation, International and Intergovernmental Affairs on S.B. No. 97**

The purpose of this measure is to authorize the issuance of general obligation bonds and making an appropriation for Wailua emergency bypass road repair and resurfacing, and Waimea wastewater treatment plant upgrades for the County of Kaua'i.

Your Committee received testimony in support of this measure from the Kaua'i Department of Public Works; Laborers' International Union of North America Local 368; Hawai'i Building and Construction Trades Council, AFL-CIO, and one individual.

Your Committee finds that the appropriation for the Waimea wastewater treatment plant upgrades will be used to upgrade and expand the capacity of the plant, which treats wastewater from the community of Waimea.

Your Committee further finds that repairs and resurfacing to the Wailua emergency bypass road will allow traffic to keep flowing along Kuhio highway during emergencies. The appropriation is needed because the cost of the project has proven to be prohibitively expensive for the county.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 97 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 4                    Human Services on S.B. No. 1666**

The purpose of this measure is to continue supporting important social service programs with temporary assistance for needy families funds while concurrently maintaining an adequate reserve of funds for the future provision of monthly cash benefits.

Your Committee received testimony in support of this measure from the Department of Human Services, the Department of Defense, Hawaii County Economic Opportunity Council, Child & Family Service, Catholic Charities Hawaii, Hale Kipa Inc., Good Beginnings Alliance, National Association of Social Workers Hawaii, Hawaii Youth Services Network, Mutual Assistance Associations Center, Adult Friends for Youth, Seagull Schools, Sounding Joy Music Therapy, Inc., Hawaii State Coalition Against Domestic Violence, Blueprint for Change, Halau Lokahi, Ka Paalana Traveling Preschool and Homeless Outreach, and three individuals.

The Department of Human Services recommended that the measure include specific appropriation amounts, enumerate and expand the programs to be subsidized by temporary assistance for needy families funds, make appropriations for information systems and administration costs, and transfer portions of temporary assistance for needy families funds to block grant programs to give the State more flexibility in spending the funds.

During times of economic crisis, it is more important than ever that temporary assistance for needy families programs be kept intact to support individuals and families who become eligible for and require assistance from the program. Investing in programs that provide for direct payments, employment and training, prevention of teenage pregnancy, welfare services, and childcare support is especially critical given the current financial climate. Utilizing temporary assistance for needy families funds is essential to meet the basic needs of struggling families, and supports programs that effectively assist them in attaining self-sufficiency.

Your Committee intends this measure to direct valuable temporary assistance for needy families funding to meet the demand for direct cash benefits and necessary social service programs while maintaining an adequate level of cash reserves to ensure the continued provision of cash benefits into the future.

Your Committee has amended this measure by:

- (1) Providing specific amounts to be appropriated from temporary assistance for needy families program funds for various programs;
- (2) Clarifying the scope of the programs enumerated in the measure that should receive temporary assistance for needy families funding by:
  - (A) More narrowly defining the programs under the existing measure to include services relating to care for children in their own homes or in the homes of relatives, work program contracts and support services for program recipients, prevention and reduction of out-of-wedlock pregnancies and encouragement of two-parent families, and purchase of service contracts for child protective services;
  - (B) Adding appropriations for costs of program implementation, including costs for information systems and program administration; and
  - (C) Transferring funds to the child care development fund and the social services block grant to provide for greater flexibility in spending federal funds; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1666, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1666, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 5 (Majority) Education and Housing on S.B. No. 438**

The purpose of this measure is to authorize the Board of Education to file any notice that specifies legislation or legislation-related agenda items no fewer than two calendar days before a meeting during the period from the convening of the Legislature in regular session to adjournment sine die of each regular session, and during any special session of the Legislature.

Testimony in support of this measure was submitted by one state agency. A private organization submitted testimony in opposition. One state agency submitted comments.

Your Committee finds that the deadline-driven demands of the legislative session often require that the Board of Education take positions or other action on legislation and legislation-related matters in a timely manner. This measure will provide flexibility in the public notice requirements of chapter 92, Hawaii Revised Statutes, to enable Board of Education members to participate effectively in the legislative process.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 6 Education and Housing on S.B. No. 732**

The purpose of this measure is to increase the income tax check-offs in support of public education and public libraries.

Testimony in support of this measure was submitted by one state agency. One state agency submitted testimony in opposition. One private organization submitted comments.

Your Committee finds that this measure would provide taxpayers with additional options to support Hawaii's public schools and libraries. The Department of Taxation estimates that beginning in 2010, a check-off for the school-level minor repairs and maintenance special fund could generate about \$88,000 annually and the check-off for public libraries could generate about \$77,000 annually.

Your Committee has amended this measure to give the Department of Taxation additional time to make changes in the Department's computer system and tax forms by making the measure applicable to taxable years beginning after December 31, 2009.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 732, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 732, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 7 Education and Housing on S.B. No. 160**

The purpose of this measure is to:

- (1) Add a definition of "school meals" to include breakfast and lunch; and
- (2) Clarify that the Department of Education shall set prices for all school meals, based on the previous year's costs, to ensure that the cost to the students shall be not less than one-half of the cost of preparing the meals.

Testimony in support of this measure was submitted by one state agency.

Your Committee finds that this measure will enable the Department to adjust its meal prices annually in response to changes in costs, reducing the possibility that funds for food subsidies will need to be taken from other educational programs.

Your Committee has amended this measure by making technical amendments to correct drafting errors.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 160, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 8 Higher Education on S.B. No. 1674**

The purpose of this measure is to amend Act 161, Session Laws of Hawaii 2007, to:

- (1) Increase the revenue bonds authorized by Act 161 from \$100,000,000 to \$150,000,000; and
- (2) Extend the lapse dates of the appropriations from the revenue bonds to June 30, 2013, for the initial \$100,000,000 authorization, and to June 30, 2015, for the additional \$50,000,000 authorization.

Testimony in support of this measure was submitted by the University of Hawaii and the Pacific Resource Partnership.

Your Committee finds that the additional bond issuance authorization in this measure will enable the University to address its growing facility needs and major repair and maintenance requirements in a timelier manner. These include an estimated \$202,000,000 in projects that the Board of Regents has approved as projects for which the revenue bond proceeds may be used.

Your Committee has amended this measure by:

- (1) Deleting the specific listed projects to be financed through the revenue bonds to allow the University more flexibility in determining the final priority list; and
- (2) Requiring the University to include a detailed listing and description of all projects to be funded through the revenue bonds as part of its notification to the Legislature of the issuance of the additional revenue bonds.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1674, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1674, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 9 Education and Housing on S.B. No. 163**

The purpose of this measure is to repeal the district business and fiscal officer positions within the Department of Education.

Testimony in support of this measure was submitted by one state agency.

Your Committee finds that beginning with Act 213, Session Laws of Hawaii, 2007, the Legislature has provided through appropriations for one business manager position for each of the fifteen complex areas to support the schools and officers within each complex. As a result, the district business and fiscal officer positions in section 302A-604.5, Hawaii Revised Statutes, are unnecessary and their repeal will have no effect on the operations of the Department.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 10 Education and Housing on S.B. No. 164**

The purpose of this measure is to:

- (1) Change the name of the Department of Education's federal grants search, development, and application revolving fund to the federal grants revolving fund; and
- (2) Expand the uses of the fund to monitor grant execution, ensure compliance with grant requirements, and audit grant expenditures.

Your Committee finds that the current language is somewhat restrictive and the changes to both the name and the authorized uses of the fund will allow the Department of Education greater flexibility in securing and managing federal grant moneys.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 164 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 11 (Majority) Transportation, International and Intergovernmental Affairs on S.B. No. 529**

The purpose of this measure is to establish an Office of International Affairs special fund to deposit admission fees from seminars, workshops, trade shows and missions, private and government grants, and other contributions to pay for expenses incurred to organize, plan, and implement business development activities of the Office of International Affairs.

This measure also makes an appropriation for the Office of International Affairs special fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Testimony in opposition was received from the Department of Budget and Finance.

The Office of International Affairs was established by Act 172, Session Laws of Hawaii 2006, to coordinate and promote economic, social, cultural, and scientific relations with other countries. Act 172 did not establish a fund to deposit proceeds derived by the Office of International Affairs.

This measure specifies that all revenues, admission fees, and charges from workshops, seminars, conferences, trade shows, and trade missions collected by the Office of International Affairs, and private or governmental grants, donations, and contributions, are to be deposited into the Office of International Affairs special fund. Moneys in the special fund are to be used for the following purposes:

- (1) The planning, marketing, and implementation of domestic and overseas workshops, seminars, conferences, trade shows, and trade missions; and

- (2) The performance of other duties of the Office of International Affairs, including the promotion of Hawaii business, trade, education, and culture.

Your Committee finds that this measure would enhance the funding of international relations programs sponsored by the State. The status of Hawai'i as a prominent participant in international affairs would be elevated to a level deserving of serious international and national recognition.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 529 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 12 Human Services on S.B. No. 112**

The purpose of this measure is to make Children's Justice Program records confidential, subject to exceptions for coordinating agency staff, health professionals, and the courts.

Your Committee received testimony in support of this measure from the Judiciary. The Office of Information Practices submitted comments.

Your Committee finds that the Children's Justice Program promotes the sharing of information between different agencies that provide services to children and their families. Much of this information is personal in nature, and should not be subject to public release under chapter 92F, Hawaii Revised Statutes. This measure requires that all records used or developed by the Children's Justice Program shall remain confidential, subject to exceptions for program and coordinating agency staff, medical and mental health professionals, and the courts.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 13 Human Services on S.B. No. 186**

The purpose of this measure is to increase the monthly board rate for foster care services.

Your Committee received testimony in support of this measure from six individuals. The Department of Human Services submitted testimony opposing the measure.

Your Committee finds that the monthly board rate for foster care services has not been raised since 1990, and that the failure to increase the rate has made it difficult for foster families to provide food, housing, utilities, clothing, and other necessary items to their foster children.

Your Committee further finds that increasing the monthly board rates provided to foster care and adoptive parents by one hundred dollars per month would cost the State an additional \$9,600,000 per fiscal year. In recognition of the State's current financial condition, your Committee finds that this measure should be used as a vehicle to utilize a portion of the moneys included in the proposed federal economic stimulus package, if any, for the purposes of the measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 186 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 14 Human Services on S.B. No. 312**

The purpose of this measure is to promote awareness and emphasize the importance of language access for state services by designating the month of September as "language access month."

Your Committee finds that Hawaii is rich with cultural diversity. However, with this diversity comes language barriers for foreign-born residents who are not fluent in the English language. This measure serves to celebrate the efforts Hawaii has taken to ensure that all residents have equal access to state programs, activities, and services, regardless of their English proficiency. This measure designates the month of September as "language access month" to acknowledge and raise awareness of such efforts; encourage the continued provision of language access services; and honor Hawaii's diversity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 312 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 15 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 30**

The purpose of this measure is to improve public safety and animal welfare by restricting the practice of animal tethering.

Testimony in support of this measure was submitted by two organizations and thirteen public citizens. One organization supported the intent of the measure.

Under present law, dogs may be tethered for twenty-four hours a day, seven days a week to a stationary object as long as the tether is at least six feet long. Continuously tethered dogs become lonely, bored, territorial, and aggressive. Researchers have found that tethered dogs are nearly three times more likely to bite and over five times more likely to bite children.

Additionally, a tether can become tangled around or hooked on the dog's shelter structure or other objects, further restricting the dog's movement and potentially causing injury. Dogs are pack animals and are naturally social. Tethered dogs live an isolated existence that is contrary to their own instincts, and this lack of socialization is part of what makes tethered dogs more dangerous.

Your Committee has heard from one public citizen who witnessed neighbors who kept two dogs tethered by ropes tied to trees in their front yard. The neighbor had been burglarized, and the dogs were a security measure. When the public citizen called the Hawaiian Humane Society for assistance, the Hawaiian Humane Society informed the public citizen that Hawaii law did not prevent the neighbors from keeping the dogs tethered. The dogs could not interact with each other because the tether was too short, and in time they grew despondent and died. The public citizen supports this measure for the welfare of dogs, and for the helpless neighbors forced to watch the abuse of animals.

Your Committee, however, recognizes that there are enforcement challenges for the Hawaiian Humane Society and economic hardships imposed by this measure. In light of these issues, your Committee encourages the proponents of the measure to collaborate with other parties to resolve differences in crafting amendments for this measure.

Your Committee has amended this measure by:

- (1) Amending the effective date to July 1, 2050 for the purpose of furthering discussion;
- (2) Adding a sunset date of June 30, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 30, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 30, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 16 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 86**

The purpose of this measure is to establish the Makua Valley Reserve Commission to oversee preservation and restoration activities in Makua Valley on Oahu.

Testimony in support of this measure was submitted by two organizations and one public citizen. Two organizations supported the intent of this measure. Testimony in opposition of this measure was submitted by two state agencies, one organization, and three public citizens.

The intent of this measure is to establish the stakeholders in the Makua Valley preservation and restoration efforts, and provide the community with a coequal position from which to advocate.

Your Committee amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 86, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 17 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 167**

The purpose of this measure is to establish a two-year conservation corps pilot program for helping at-risk persons develop life and job skills and gain work experience on the island with the largest contiguous land area.

Oral testimony in support of this measure was presented by four public citizens, one organization submitted comments, and one state agency submitted testimony in opposition.

Your Committee supports the intent of this measure since participation in conservation corp programs can help at-risk persons develop a sense of stewardship and gain experience through community service, training, and education. Accordingly, your Committee believes the measure warrants further discussion.

Your Committee has amended this measure by:

- (1) Inserting language to require matching funds from federal sources;
- (2) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 167, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 18 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 37**

The purpose of this measure is to provide an alternate ferry route from Lana'i to Ma'alaea Harbor.

Specifically, this measure provides:

- (1) Priority assignment of mooring space for a ferry route from Ma'alaea Harbor to Lahaina;
- (2) An exemption from the imposition of the general excise tax for the proceeds from the sale of liquid fuels consumed in the operation of certain intra-county ferry services; and
- (3) An exemption from the fuel tax for fuel purchases for certain intra-county ferry services.

One state agency and one organization provided comments. Testimony in opposition was submitted by one state agency.

West Maui residents are served by only one two-lane highway and one small airport. The residents of the island of Lana'i have only one affordable and frequent means of transport to Maui, which is the intra-county ferry from Lana'i to Lahaina. A more convenient route for Lana'i travelers would be to dock in Ma'alaea.

Your Committees find that an alternative ferry route from Lana'i to Ma'alaea Harbor will also benefit West Maui residents by easing congestion in and around Lahaina and its small boat harbor. The alternate route to Ma'alaea will also facilitate emergency ferry operations out of Lahaina if the highway in West Maui is closed for some reason.

Your Committees understand that certain provisions of this measure were adopted in Act 57, Session Laws of Hawaii 2008, however, the exemption of the sale of liquid fuel from the general excise tax provides a critical element for the support of the intra-island ferry operations.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of consistency and style.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 37, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 37, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Nishihara, Tokuda, Hemmings).

**SCRep. 19 Transportation, International and Intergovernmental Affairs on S.B. No. 123**

The purpose of this measure is to allow the operation of antique motor vehicles on the highways for specified purposes.

Your Committee received testimony in support of this measure from one individual. Testimony in opposition was received from the Honolulu Division of Motor Vehicle & Licensing Division of Motor Vehicle. Comments were received from the Department of Taxation and the Department of Transportation.

This measure would allow the operation of antique motor vehicles on the highways of the State for the purpose of:

- (1) Participation in club activities, exhibits, tours, parades, and similar events including transportation to and from the events;
- (2) Testing operation or obtaining repairs or maintenance; or
- (3) Occasional pleasure driving not exceeding unspecified miles from the residence of the owner.

Your Committee finds that the operation of antique motor vehicles is increasingly popular. Your Committee further finds that antique motor vehicles should pay the same motor vehicle weight taxes as other vehicles.

Your Committee has amended this measure by:

- (1) Requiring antique motor vehicle owners to pay the same motor vehicle annual weight tax as other motor vehicles; and
- (2) To restrict the operation of antique motor vehicles to within twenty miles of the residence of the owner.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 123, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 20            Transportation, International and Intergovernmental Affairs on S.B. No. 281**

The purpose of this measure is to allow the counties to prohibit or to regulate the use of electric personal assistive mobility devices on sidewalks.

Your Committee received testimony in support of this measure from the Honolulu Department of Transportation Services, Segway Inc., and one individual. Comments were received from the Waikiki Improvement Association.

Your Committee finds that electric personal assistive mobility devices, also known as Segways, present unique problems to sidewalk pedestrian use which depends on the character of each neighborhood. Each county is better able to judge for itself the permissible use of Segways on sidewalks. Your Committee also believes that this matter is a home-rule issue that should be delegated to the counties.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 281 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 21            (Joint) Water, Land, Agriculture and Hawaiian Affairs and Energy and Environment on S.B. No. 412**

The purpose of this measure is to establish June 8 of every year as World Ocean Day.

Testimony in support of the measure was submitted by one state agency, six organizations, and five individuals.

Your Committees find that the concept of World Ocean Day was established in 1992 at the United Nations Earth Summit. It is now universally accepted that the world's oceans are critical to maintaining the planet's ecosystems and are essential to human health and well-being.

Your Committees further find that Hawaii's location in the middle of the Pacific Ocean and its unique distinction of being the group of islands farthest removed from any other body of land in the world make it not only appropriate but also advisable to participate in World Ocean Day.

Your Committees note that ocean environments around the world are collapsing for many different reasons, including uncontrolled uses, pollution, invasive species, species depletion, and unsustainable coastal development. Your Committees believe that establishing June 8 as World Ocean Day will provide an opportunity for Hawaii to contribute to the ongoing global effort to educate the world's population about conserving and protecting the world's oceans and fragile marine environments.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 412 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Fukunaga, Green, Hooser).

**SCRep. 22            Ways and Means on H.B. No. 302**

The purpose of this measure is to appropriate funds to provide for the expenses of the Legislature and its service agencies.

More specifically, this measure provides for the expenses of the Legislature, Office of the Auditor, Hawaii State Ethics Commission, Office of the Ombudsman, Legislative Reference Bureau, and the legislative broadcast program.

Your Committee received testimony in support of this measure from the Senate Clerk, the Office of the Auditor, the Legislative Reference Bureau, the Hawaii State Ethics Commission, the Ombudsman, and one concerned individual.

Your Committee finds that the reductions made in House Draft 1 by the House of Representatives to the operating budgets of the Senate, the House of Representatives, the Auditor, and the Legislative Reference Bureau were made with the full concurrence of the Senate and represent the Legislature's commitment to facing the State's dire economic outlook during the next fiscal biennium.

This measure, as amended, represents a reduction of \$2,238,268 in the 2009-2010 budget for the legislative branch as compared to 2008-2009, and includes a \$1,735,679 reduction in the Legislature's proposed budget. Your Committee is very cognizant of the necessity of such cuts and will continue in the next few months to make responsible and difficult budgetary decisions in order to balance the state budget.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 302, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hee).

**SCRep. 23            (Majority) Transportation, International and Intergovernmental Affairs on S.B. No. 697**

The purpose of this measure is to clarify that money collected by the Liquor Commission from fines imposed on licensees shall be used for substance abuse treatment and prevention programs provided by the applicable county, in addition to liquor educational programs.

Your Committee received testimony in support of this measure from Maui Economic Opportunity, Inc., and MADD. Testimony in opposition was received from the Retail Liquor Dealers Association of Hawaii.

Your Committee finds that this measure would be beneficial in assisting persons with substance abuse dependency problems to receive needed services. This measure also helps agencies providing substance abuse prevention services to fund those services.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 697 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 24                    Transportation, International and Intergovernmental Affairs on S.B. No. 715**

The purpose of this measure is to require the Statewide Transportation Council to comply with county transportation-related plans, county general plans, and all community, development, or community development plans adopted pursuant to the county general plan, to the extent that compliance does not affect the availability of federal funds.

Your Committee received testimony in support of this measure from the Hawai'i Association of Realtors. Testimony in opposition was received from the Department of Transportation.

Your Committee finds that this measure would improve coordination between the State and counties in transportation planning and funding.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, none.

**SCRep. 25                    Transportation, International and Intergovernmental Affairs on S.B. No. 711**

The purpose of this measure is to clarify that the length of an articulated bus for public transit purposes must not exceed eighty-two feet in length, and shall not consist of more than three units.

Your Committee received testimony in support of this measure from the Maui Department of Transportation, Hawai'i Hotel & Lodging Association, Hawai'i Transportation Association, and SODERHOLM. Testimony in opposition was received from the Honolulu Department of Transportation Services.

Your Committee finds that this measure is enabling legislation to allow the operation of the larger buses, known as articulated buses, to be operated by any county in the State for public transit. Your Committee, however, cautions the counties to exercise sound judgment in operating these buses. Testimony indicated that articulated buses may not be suitable in all locales due to street width and the width of sidewalks and curbs at intersections.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 711, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 26                    Transportation, International and Intergovernmental Affairs on S.B. No. 718**

The purpose of this measure is to direct the Department of Transportation to adopt a complete streets policy with regard to future transportation projects.

Your Committee received testimony in support of this measure from the Honolulu Department of Transportation Services, Sierra Club Hawai'i Chapter, Hawai'i Bicycling League, Peoples Advocacy for Trails Hawai'i, Na Kama Hele, One Voice, Hawai'i Public Health Association, Injury Prevention Advisory Committee, Hawai'i Nutrition and Physical Activity Coalition, AARP, and two individuals. Testimony in opposition was received from the Department of Transportation.

"Complete streets" means roadways that accommodate all travelers, particularly users of public transit, bicyclists, pedestrians, and motorists to enable all users to use the roadway safely and efficiently. Complete streets policies are designed to ensure that: all users of the transportation system, of all ages and physical ability, including pedestrians, bicyclists, and public transit users are adequately accommodated in all phases of project planning and development; and the safety and convenience of all users are considered in all phases of project planning and development.

Your Committee finds that the time is right to commence transportation planning for the State and counties to accommodate all users of streets, roads, and highways, particularly in view of the increased use by bicyclists and pedestrians. Your Committee believes that this measure is a start in that direction.

Your Committee has amended this measure by deleting its contents and inserting provisions to:

- (1) Require the State and counties to adopt a complete streets policy to seek to reasonably accommodate convenient access and mobility for all users of the public highways and trails system as established under current law, including pedestrians, bicyclists, transit users, motorists, and persons of all abilities;

- (2) Apply the complete streets policy to highways, roads, streets, ways, and lanes located within urban, suburban, and rural areas, where appropriate for the application of complete streets;
- (3) Exempt application of the complete streets policy under specified conditions;
- (4) Apply the complete streets policy to any development for which planning or design commences on or after January 1, 2010; and
- (5) Establish a temporary task force, on the recommendation of the Department of Transportation, to review existing state and county highway design standards and guidelines, with an interim report to the Legislature in 2010, and a final report in 2011, including proposed legislation, for the purpose of:
  - (A) Determining standards and guidelines that can be established to apply statewide and within each county in order to provide consistency for all highway users;
  - (B) Proposing changes to state and county design standards and guidelines; and
  - (C) Developing a comprehensive complete streets policy that can be feasibly implemented.

In the proceedings of the task force, your Committee requests the Department of Transportation to:

- (1) Be cognizant of and to abide by section 10 of article IX, of the Hawaii State Constitution, which is the law of the splintered paddle; and
- (2) Promote interchange and collaboration with the counties, in order to reach mutually agreeable results.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 718, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, none.

**SCRep. 27 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 153**

The purpose of this measure is to provide greater protection of the public's right to access coastal and inland recreational areas by requiring state and county agencies to ensure that a public right-of-way is available before the approval of any development project, subdivision, or zoning change.

Testimony in support of this measure was submitted by one state agency, one organization, and one public citizen. Testimony in opposition of this measure was submitted by one state agency, two county agencies, and two organizations.

Hawai'i offers some of the most stunning hiking trails and beaches in the world, attracting residents and visitors alike for their beauty and challenge. Access to Hawai'i's coast and mountain areas for recreational, cultural, or subsistence use is a core value that residents have respected for generations. Certain developers and gated communities restrict access to public lands, and they are growing in popularity. This measure will help ensure safe access along the coastline and to public inland areas to prevent abuses of Hawai'i's access laws.

Your Committees find that it is the intent of this measure to require state and county agencies to ensure that a public right-of-way is available for development projects that may affect public access. This measure will not affect most improvements to existing structures.

Your Committees adopted the recommendation of the Department of Land and Natural Resources and amended this measure by deleting references to dwelling unit and house. Your Committees understand that application of this measure to individual homes may be overly restrictive at this time, however, your Committees believe this measure is a necessary regulatory check to ensure the availability of public rights-of-way.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 153, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 153, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, 1 (Slom). Excused, 4 (Fukunaga, Nishihara, Tokuda, Hemmings).

**SCRep. 28 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 468**

The purpose of this measure is to revise coastal zone management statutes to implement a more comprehensive, science-based understanding of sea level rise and its inclement impacts.

Specifically, this measure, among other things:

- (1) Requires affected agencies to account for sea level rise and minimize risks from coastal hazards such as erosion, storm inundation, hurricanes, and tsunamis;
- (2) Preserves public access and public shoreline access; and

(3) Extends shoreline setback to not less than forty feet from shoreline and requires counties to account for annual erosion rates.

Testimony in support of this measure was submitted by one organization and one public citizen. Two state agencies supported the intent of this measure. Testimony in opposition was submitted by one state agency, two county agencies, and three organizations.

The coastal zone management program under section 205A-2, Hawaii Revised Statutes, was established to manage, promote, preserve, and protect the State's marine, coastal, and surrounding recreational areas. The program focuses on Hawai'i's ecosystem as a whole rather than on the individual species, resources, or uses, thus the objectives and policies of the program have broad implications. However, the initial drafting was prior to more comprehensive, science-based understandings of sea level rise and its impacts over the lifetime of coastal developments. Proper revision can enable the statute to accommodate dynamic coastlines, which migrate following a long-term trend, through the use of state-of-the-science data and tools, as well as, modern adaptation and hazard mitigation strategies.

Your Committees find that a significant shoreline setback is not without precedent. Kaua'i recently adopted an ordinance for shoreline setback that is the strongest in the State, requiring dwellings to be set back seventy times the annual erosion rate plus forty feet. Pushing buildings back from eroding waterlines is critical to the protection of life and property, the mitigation of coastal hazards, and the preservation of coastal resources.

Your Committees have amended this measure by requiring all counties, in addition to the forty-foot minimum setback, to adopt ordinances to establish a setback based on the annual erosion rate.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 468, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 468, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Ayes with Reservations, 1 (Kokubun). Noes, 1 (Slom). Excused, 4 (Fukunaga, Nishihara, Tokuda, Hemmings).

**SCRep. 29 Economic Development and Technology on S.B. No. 1525**

The purpose of this short form bill is to amend the law relating to economic development.

Your Committee has amended this measure by establishing a statewide Academy for Creative Media Program.

Specifically, as amended, this measure is aimed at developing a skilled workforce to support digital media production sound stages, post-production services, and related businesses in the West Oahu region and provide for creative career and business opportunities for students in this State by establishing the Academy for Creative Media Program at the University of Hawaii and specifying its management structure and also by amending Act 11, First Special Session of 2007, to delete provisions relating to leasing the Public Broadcasting System Hawaii facility.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1525, as amended herein, and recommends that it be recommitted to the Committee on Economic Development and Technology, in the form attached hereto as S.B. No. 1525, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 30 (Majority) Labor on S.B. No. 1568**

The purpose of this short form bill is to amend the law relating to unemployment insurance.

Your Committee has amended this measure by inserting language to allow the following persons to receive unemployment benefits:

- (1) An individual for whom a majority of the weeks of work in the individual's base period includes part-time work and who is seeking only part-time work. Under existing law, such an individual would be ineligible to receive unemployment benefits under requirements for availability for work, active search for work, or refusal to accept work; and
- (2) An individual who is separated from employment for a compelling family reason.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1568, as amended herein, and recommends that it be recommitted to the Committee on Labor, in the form attached hereto as S.B. No. 1568, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 31 Labor on S.B. No. 1571**

The purpose of this short form bill is to amend the law relating to workforce development.

Your Committee has amended this measure by inserting language to appropriate federal Reed Act funds for workforce development initiatives as follows:

- (1) As seed monies to the Department of Labor and Industrial Relations;
- (2) To provide funds to assist the State's four local workforce investment boards; and

- (3) To provide funds to Oahu's workforce investment board.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1571, as amended herein, and recommends that it be recommitted to the Committee on Labor, in the form attached hereto as S.B. No. 1571, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 32 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1**

The purpose of this measure is to rehabilitate the natural populations of all Hawaiian opihi species and establish a new direction for the management of the fishery.

Specifically, this measure:

- (1) Establishes a five-year moratorium on the harvesting of opihi on Oahu; and
- (2) Establishes a ban on taking or harvesting opihi statewide, subject to open and closed seasons and the traditional rights of certain ahupuaa tenants.

Testimony in support of the measure was presented by one state agency, five nongovernmental organizations, and one public citizen. One state agency submitted comments on the measure.

Your Committee finds that breeding adult opihi needs to be protected to ensure opihi populations will replenish themselves. Opihi have free swimming larvae which can disperse from the no take areas into areas where harvest is legal. Oahu requires more drastic actions to rehabilitate its opihi populations due to overharvesting.

The Department of Land and Natural Resources estimates that it would require two staff per island devoting roughly fifty per cent of their time to the task to meet the proposed opihi species monitoring requirement. The Department of Land and Natural Resources Division of Aquatic Resources recognizes the importance of monitoring opihi species, however, the Division is small and the monitoring requirement may affect the biennium budget.

Your Committee has amended this measure by:

- (1) Replacing the monitoring requirement, with the requirement that the Department of Land and Natural Resources report to the Legislature each year on the general effectiveness of the bans imposed by this measure, and the enforcement thereof;
- (2) Clarifying that native Hawaiian gathering rights do not affect the prohibition of taking opihi from below the waterline; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

Your Committee believes that the amendments made to this measure fulfill the intent of this measure, which is to rehabilitate the Hawaiian opihi populations.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 33 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 580**

The purpose of this measure is to clarify that the forfeiture laws apply to violations of conservation and resources statutes and rules and to the protection of caves, historic preservation, and the Kaho'olawe Island Reserve.

Testimony in support of this measure was submitted by two state agencies, one organization, and two public citizens. One county agency submitted testimony in opposition.

The Hawaii State Supreme Court in the case of *Carlisle v. One (1) Boat, et al.* (No. 26995, November 17, 2008), held that the State's forfeiture laws, and the Department of Land and Natural Resources administrative rules, as applied to natural resource violations do not provide the requisite specificity to authorize forfeiture claims by the State.

The Department of Land and Natural Resources Division of Conservation and Resources Enforcement, working closely with county prosecutors and the Department of the Attorney General, has judiciously used forfeiture to deter those considering violating state laws and to gain compliance from those actively violating conservation and resources statutes and administrative rules.

Your Committee finds that the issues addressed in *Carlisle v. One (1) Boat, et al.* can be remedied with a revision of the administrative rules governing conservation and resources violations.

In light of this finding, your Committee has amended this measure by:

- (1) Deleting the provisions of the measure that amend sections 187A-5, 188-70, 712A-4, and 712A-5, Hawaii Revised Statutes;
- (2) Adding a new section to clarify that forfeiture is a civil remedy for violations of chapter 6K, Hawaii Revised Statutes, relating to the Kaho'olawe Island Reserve; and

- (2) Requiring that the Department of Land and Natural Resources participate in the forfeiture program for the protection of caves, historic preservation, and the Kaho'olawe Island Reserve.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 580, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 580, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Kokubun, Takamine).

**SCRep. 34 (Joint) Higher Education and Health on S.B. No. 1046**

The purpose of this measure is to appropriate funds to support the Hawaii Quentin Burdick rural health interdisciplinary training program.

Testimony in support of this measure was submitted by the University of Hawai'i, Hawaii Medical Service Association, Hawaii Association for Justice, Na Pu'uwai Native Hawaiian Health Care System, and eleven individuals.

Your Committees find that the Hawaii Quentin Burdick program began with funding by a federal grant from the Department of Health and Human Services Bureau of Health Professions, Health Resources and Services Administration, and that since early 2006, the Legislature has provided funding that allows the program to continue. Your Committees have heard testimony from a number of practicing health care professionals who credit their career choices to participation in the program, and your Committees are strongly supportive of the benefits the program brings to rural areas of the State.

Your Committees support funding the Hawaii Quentin Burdick rural health interdisciplinary training program at \$400,000 in each year of the coming biennium. However, given the State's current economic constraints, your Committees also urge the program's administrators to seek alternative funding, including opportunities that may be available through the state and federal economic stimulus packages.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1046 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Espero, Taniguchi, Hemmings).

**SCRep. 35 Labor on S.B. No. 691**

The purpose of this measure is to permit Liquor Commission employees to support, advocate, or aid in the election or defeat of any candidate for public office.

Testimony in support of this measure was submitted by one organization.

Your Committee finds that like other State and county employees, Liquor Commission employees, when off-duty, should be permitted to participate in various lawful political activities, such as advocating or assisting in the election or defeat of a candidate for public office, without written notification to their respective Liquor Commission. Your Committee also notes that like other public employees, during work hours, the restrictions on political activities set forth in chapter 84, Hawaii Revised Statutes, the ethics law, continue to apply to Liquor Commission employees.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 691 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 36 Labor on S.B. No. 64**

The purpose of this measure is to authorize the Labor and Industrial Relations Appeals Board to use a hearings officer.

Testimony in support was submitted by one state agency and two organizations.

Your Committee finds that the hearings officer afforded by this measure would enable expedited resolution of time-sensitive matters on appeal from decisions of the Director of Labor and Industrial Relations and allow the use of current staff and resources more effectively, which is particularly important during these difficult fiscal times. On average, six hundred decisions and orders of the Director of Labor and Industrial Relations are appealed annually. This includes the appeal of treatment plan, vocational rehabilitation, and temporary total disability issues. With the authority granted by this measure, both hearings officer and the Board will hear appeals, which will enable the Board to make a bigger dent in its caseload and afford it the ability to fast-track the consideration of matters for which time is of the essence. As such, this measure will benefit both employers and employees in the consideration of workers' compensation issues.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 64 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 37      Judiciary and Government Operations on S.B. No. 110**

The purpose of this Act is to make an emergency appropriation to appropriate \$1,854,425 in general funds to pay for statewide increased electricity payments for fiscal year 2008-2009 for judiciary facilities.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that high world oil prices have contributed to the shortfall in the Judiciary's budgeted expenses. Without an emergency appropriation, the Judiciary will have to defer payment on its May and June 2009 electricity bills.

Your Committee has amended this measure on the recommendation of the Judiciary to reduce the appropriation to \$1,104,497 to reflect the recent drop in fuel prices. Your Committee notes that employees of the Judiciary are making attempts to reduce electricity costs by removing personal items from their offices and turning off lights and computers when they leave for the day.

Your Committee received information from the Judiciary that the Governor will not recommend passage of an emergency appropriation measure for the Judiciary. However, your Committee recommends passage of this measure so a vehicle will be available to provide the Judiciary relief, should circumstances warrant the Governor to change her mind.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 110, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 38      Judiciary and Government Operations on S.B. No. 194**

The purpose of this measure is to:

- (1) Require a tax refund to be direct deposited in the taxpayer's account if the taxpayer so desires;
- (2) Prohibit deposit of a taxpayer-client's refund into a paid tax preparer's account;
- (3) Require a paid tax preparer to sign a return prepared by the paid tax preparer; and
- (4) Establish penalties if a paid tax preparer violates provisions of the measure.

Your Committee received testimony in support of this measure from the Department of Taxation.

The intent of this measure is to prohibit a paid tax preparer from designating the preparer's own personal account or business account as the account into which a client's refund should be deposited.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate continuing discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 194, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 39      Transportation, International and Intergovernmental Affairs on S.B. No. 979**

The purpose of this measure is to prohibit a court from granting a restricted license to a commercial driver if the commercial driver is convicted of operating a vehicle under the influence of an intoxicant.

In addition, the measure specifically limits the court's authority to grant a restricted license to a person convicted of operating a vehicle under the influence of an intoxicant, to only category (1), (2), and (3) licenses.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure is required to conform to federal regulations relating to commercial driver licenses. Under current law, the court may order license restriction on a driver of any category of motor vehicle. This measure clarifies that only non-commercial driver licenses are subject to license restriction to allow the driver to continue to drive for limited purposes. Therefore, commercial drivers are not eligible for the issuance of a restricted license by a court.

The intent of this measure is to disallow an unsafe commercial driver to continue to pose a risk to motorists and other roadway users.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 979, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 979, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 40      Transportation, International and Intergovernmental Affairs on S.B. No. 1056**

The purpose of this measure is to:

- (1) Increase the penalty from \$11,000 to \$25,000 for employers who violate the commercial driver licensing law regarding permitting a licensed commercial driver to drive during the period in which the driver or the vehicle is subject to an out-of-service order;
- (2) Clarify that a person is prohibited from driving a commercial motor vehicle in violation of an out-of-service order;
- (3) Provide a penalty of not more than \$200 for any person convicted or found in violation of driving a commercial vehicle while having any alcohol in the person's body, and a penalty of not more than \$500 for any person convicted or found in violation of having 0.4 per cent blood alcohol; and
- (4) Replace the existing monetary penalty range of not less than \$1,100 nor more than \$2,750 for violating an out-of-service order with an enhanced staggered monetary penalty range of not less than \$1,100 nor more than \$4,000 for a first violation, and not less than \$5,000 nor more than \$7,500 for a second or subsequent violation.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure is necessary in order to comply with federal regulations regarding commercial driver licensing. According to the Department of Transportation, failure to enact this measure could result in the loss of federal funds to the State.

Your Committee has amended this measure by raising the minimum penalty amount for a first time violation of an out-of-service order from \$1,100 to \$2,500 and by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1056, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1056, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 41                    Transportation, International and Intergovernmental Affairs on S.B. No. 1087**

The purpose of this measure is to require the Director of Human Resources Development to expand the pretax transportation benefit pilot program in the City and County of Honolulu to all counties of the State and to make the pilot program permanent.

Your Committee received testimony in support of this measure from the HGEA. Testimony in opposition to this measure was received from the Department of Human Resources Development.

Your Committee finds that the basis of opposition of the Department of Human Resources Development is the expansion of the program to the Neighbor Islands and the consequent costs. Your Committee is cognizant of the costs, as well as the fact that not all islands may have a bus system.

Your Committee has amended this measure by restricting the program to islands that have a public transit system, and to employees of the Legislature residing in counties having a population of over 500,000 persons.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1087, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 42                    Higher Education on S.B. No. 504**

The purpose of this measure is to appropriate funds to establish a sustainability internship program at the University of Hawaii at Manoa as part of the Sustainable Saunders project.

Testimony in support of this measure was submitted by fourteen individuals. The University of Hawaii submitted testimony in opposition.

Your Committee finds that the appropriation in this measure will meet two critical needs at the University:

- (1) It will facilitate the employment of students each semester and provide them with professional experience and qualifications for employment in an industry with a solid growth potential; and
- (2) In turn, these interns will assist the University in applying no cost to low cost energy modification recommendations for application at the University of Hawaii at Manoa, other campuses, and the general community.

Your Committee understands the fiscal constraints that the University of Hawaii faces in funding the sustainability internship program in this measure. However, your Committee notes that the University saved approximately \$100,000 as a result of the Sustainable Saunders project energy efficient initiatives and expanding the project to Hamilton Library is projected to save \$700,000 annually. Given these significant reductions in costs, which would not have realized without the work of the interns, your Committee believes it would be beneficial for the University administration to consider alternatives to fund the program. At a minimum, the University is strongly urged to consider funding the program through cost savings realized by these energy efficiency projects. In addition, there are a number of capital improvement project initiatives, either before the Legislature or being considered as part of the

economic stimulus package, which offer opportunities for the University to realize additional energy savings that could in turn fund the sustainability internship program.

Your Committee has amended this measure to:

- (1) State clearly that the appropriation is to establish a sustainability internship program at the University of Hawaii at Manoa;
- (2) Authorize the University of Hawaii to fund the program through alternative means, such as cost savings realized as a result of the program or capital improvement projects that utilize energy efficiency initiatives; provided further that if alternative means of funding are used, any unexpended and unencumbered balance of the appropriation shall lapse into the general fund; and
- (3) Require the University to work with the Sustainable Saunders project to identify alternative methods of funding the sustainability internship program, such as through cost savings or other means, and to report to the 2010 Legislature on any additional system-wide savings generated as a result of energy efficiency initiatives and recommendations for funding the sustainability internship program through means other than general fund appropriations.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 504, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Sakamoto).

**SCRep. 43            Transportation, International and Intergovernmental Affairs on S.B. No. 1018**

The purpose of this measure is to make an appropriation of \$4,000,000 as a grant-in-aid to the County of Hawai'i, to assist in the purchase of six additional forty-foot buses and the construction of a transit baseyard including a maintenance and repair facility and fueling station.

Your Committee received testimony in support of this measure from the County of Hawai'i.

This measure is intended to expand public transportation in the County of Hawai'i. The residents of the county face difficult challenges in commuting for work, school, and health and recreational purposes due in part to the long distances they must travel to their destinations, fuel costs, and lack of transportation alternatives.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 44            Transportation, International and Intergovernmental Affairs on S.B. No. 1615**

The purpose of this measure is to add the Republic of Palau, Federated States of Micronesia, and the Republic of the Marshall Islands to the jurisdictions which the examiner of drivers may waive the knowledge test required for a driver license.

Your Committee received testimony in support of this measure from the Department of Transportation. Testimony in opposition was received from the Honolulu Driver Licensing Administrator.

Under current law, the knowledge test may be waived for any other state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, a province of the Dominion of Canada, or the Commonwealth of the Northern Mariana Islands. This measure would give parity in treatment to people of the Republic of Palau, Federated States of Micronesia, and the Republic of the Marshall Islands. This measure would also better enable them to find jobs and housing, which necessitate the use of a car.

Your Committee finds that citizens of the Republic of Palau, Federated States of Micronesia, and the Republic of the Marshall Islands can move freely between their nations and the United States, in accordance with the Compact of Free Association, as amended in 2003. This measure is a logical extension of that privilege.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1615 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 45            Transportation, International and Intergovernmental Affairs on S.B. No. 1630**

The purpose of this measure is to:

- (1) Require the wearing of safety glasses, goggles, or a face shield by a moped operator, and requiring the renter or lessor of a moped to provide the protective devices equipment;
- (2) Require the wearing of a safety helmet by persons intending to operate a moped or motor scooter;
- (3) Remove the requirement that minors wear helmets when operating or riding on motorcycles; and
- (4) Prohibit a three-wheeled moped from operating in a bicycle lane or bicycle lane.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Health, MADD, and State Farm. Testimony in opposition was received from one individual. Testimony in opposition was received from Street Bikers United.

Your Committee finds that operators of mopeds should be required to wear safety glasses, goggles, or a face shield, and other protective devices, as is currently required of operators of motorcycles and motor scooters that are not equipped with windscreens or windshields. Your Committee further finds it is necessary for operators of motorcycles, mopeds, and motor scooters wear a safety helmet. Your Committee believes that wearing a helmet for protection from cranial injuries, irrespective of the skill level of the operator, is a matter of public health. It is your Committee's obligation to protect the public health and safety.

Your Committee further finds that prohibiting three-wheeled mopeds from being driven on bicycle paths and lanes makes sound sense, given the narrowness of bicycle lanes and paths.

Your Committee has amended this measure by retaining the existing requirement that minors that operate or ride on a motorcycle wear helmets and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1630, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1630, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 46                    Transportation, International and Intergovernmental Affairs on S.B. No. 1645**

The purpose of this measure is to require the State Building Code Council to adopt standards to allow the use of bamboo as an accepted construction material under the state building code.

Your Committee received testimony in support of this measure from True Offsets, American Bamboo Society, Bamboo Village Hawai'i, Whispering Winds Bamboo, Land and Water Planning and Consulting, Friendly Aquaponics, Cassel Design Studio, Bamboo Nursery, and six individuals. Testimony in opposition was received from the Structural Engineers Association of Hawai'i.

Your Committee finds that bamboo forms a very hard wood which is both lightweight and exceptionally durable. In tropical climates it is used in elements of house construction, construction scaffolding, as a substitute for steel reinforcing rods in concrete construction, and other uses. Modern companies are also attempting to popularize flooring made of bamboo pieces steamed, flattened, glued together, finished, and cut. Bamboo is thought to be an ecologically friendly construction material. Bamboo houses can be constructed that are earthquake and hurricane resistant, that are certified by the Insurance Services Office (ISO).

Your Committee believes the State Building Council should also investigate and implement standards for a rural building code for the State that allows for agricultural, temporary, and experimental living structures utilizing bamboo.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1645 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 47                    Judiciary and Government Operations on S.B. No. 120**

The purpose of this measure is to adopt the Uniform Mediation Act.

Mediation is a process that allows parties to voluntarily resolve a dispute with the help of a third party. Communications made during the mediation process are currently covered by Rule 408 of the Hawaii Rules of Evidence. This bill increases protection for mediation communications. It establishes an evidentiary privilege for mediators and parties that participate in mediation. This bill covers most mediations except those involving collective bargaining, minors in a primary or secondary school peer review context, youth in correctional institutions, and mediations that are conducted by a judge who might issue a ruling on the case.

The Hawaii Commission to Promote Uniform Legislation submitted testimony in support of the bill.

Your Committee has amended this bill by making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 120, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 48                    Judiciary and Government Operations on S.B. No. 119**

The purpose of this measure is to update existing law regarding the recognition of foreign money judgments.

More specifically, this bill would adopt the Uniform Foreign-Country Money Judgments Recognition Act and repeal chapter 650C, Hawaii Revised Statutes, the Uniform Foreign Money-Judgments Recognition Act. The Uniform Foreign-Country Money Judgments Recognition Act updates current law by:

- (1) Allocating the burden of proof with respect to the applicability of the Act to the party seeking recognition of a foreign country money judgment;
- (2) Establishing procedures for obtaining recognition of foreign country money judgments;
- (3) Expanding the grounds for denying recognition of foreign country money judgments, while also allocating the burden of proof to the party against such recognition; and
- (4) Establishing a statute of limitations.

The Hawaii Commission to Promote Uniform Legislation testified in support of this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 119 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 49                    Judiciary and Government Operations on S.B. No. 92**

The purpose of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii pursuant to the statute revision program of the Legislative Reference Bureau under chapter 23G, Hawaii Revised Statutes.

All amendments are of a purely technical nature and correct errors, update references, clarify language, and delete obsolete or unnecessary language.

Sections 26 to 74 of this measure amend sections of the Hawaii Revised Statutes that refer to chapter 460, relating to osteopathy, which was repealed by Act 5, Session Laws of Hawaii 2008, which consolidated the regulation of physicians and osteopaths under chapter 453, Hawaii Revised Statutes, and repealed chapter 460. What Act 5 did not do, however, was make conforming amendments to sections outside of chapter 453 that contain references to the repealed chapter 460. This measure amends those Hawaii Revised Statute sections by deleting the references to repealed chapter 460 and adding references to osteopathy or osteopathic physician as necessary or appropriate.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 50                    Energy and Environment on S.B. No. 1338**

The purpose of this measure is to prohibit real estate contracts, agreements, and rules from precluding or rendering ineffective the use of clotheslines on the premises of single-family dwellings.

Testimony in support of this measure was submitted by two private organizations. Testimony in support of this measure, with comments, was submitted by two private organizations. One private organization submitted testimony supporting the intent of this measure. Testimony in opposition to this measure was submitted by two private organizations and two individuals. Comments were submitted by one private organization.

Your Committee finds that this measure is a fair and balanced means to allow local residents to save money and save energy by using a clothesline to dry their clothes. Further, this measure does not prevent all homeowner association rules on clothesline usage, only those that are unreasonable.

In response to the recommendation expressed by the Sierra Club, your Committee has amended this measure by clarifying that homeowner association rules cannot limit access to air or sunlight reasonably necessary for the use of clotheslines.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1338, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1338, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 51                    Education and Housing on S.B. No. 663**

The purpose of this measure is to amend the definition of “familial status” to specify that a non-parent individual cohabiting with any minor children must have evidence of legitimate consent of the child’s parent to qualify for “familial status” under the state real property transaction laws.

The measure replaces the term “domiciled” with “cohabiting” and the phrase “has written or unwritten permission” with “possesses evidence of legitimate permission”. The measure also defines the phrase “possesses evidence of legitimate permission” as “consent that is genuine and authentic, and not fabricated for purposes of subverting the law”.

Testimony in support of this measure was submitted by one private business and one individual. Two organizations submitted testimony in opposition. One state agency submitted comments.

Your Committee finds that, while the intent of this measure is to provide for greater certainty regarding the familial status of a child, the proposed language raised a number of concerns by those testifying.

Your Committee has amended this measure accordingly, by restoring the current definition and deleting only the phrase “or unwritten”.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 663, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 52                    Education and Housing on S.B. No. 187**

The purpose of this measure is to authorize the issuance of general obligation bonds for infrastructure to build affordable housing.

Testimony in support of this measure was submitted by one county agency and one private organization. One state agency submitted testimony in opposition.

Your Committee finds that one of the greatest obstacles to the development of affordable housing is the financing of required infrastructure and this measure will assist in providing an additional source of funding.

Your Committee has amended this measure to make a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 187, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 53                    Education and Housing on S.B. No. 863**

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance And Development Corporation to modify and amend development agreements with eligible developers;
- (2) Authorize the imposition and collection of reasonable fees for administrative expenses; and
- (3) Make housekeeping amendments to delete incorrect references to “public” housing.

Testimony in support of this measure was submitted by one state agency.

Your Committee finds that Act 198, Session Laws of Hawaii 2005, added a new section to chapter 201G, Hawaii Revised Statutes, to provide express authority for the Housing and Community Development Corporation of Hawaii to modify and amend development agreements with eligible developers that were entered into by its predecessor, the Housing Finance and Development Corporation. However, this section was omitted in Act 180, Session Laws of Hawaii 2006, which recodified Hawaii’s housing laws.

Your Committee further finds that this measure also clarifies the Corporation’s authority to establish and collect reasonable application or service fees for loans, grants, or other affordable housing financing and development assistance programs.

Your Committee has amended this measure to correct a drafting error.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 863, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 54                    (Majority) Education and Housing on S.B. No. 752**

The purpose of this measure is to establish a dedicated source of funding for self-help housing by establishing a self-help housing trust fund with moneys collected pursuant to the conveyance tax.

Testimony in support of this measure was submitted by two county agencies and two private organizations. Testimony in opposition was submitted by one state agency. Two private organizations submitted comments.

Your Committee finds that self-help homes are the most economically feasible option for low and very low income families to become homeowners in Hawaii. For example, the Hilo Habitat program produced three-bedroom, two-bath homes with solar hot water and a computer for \$85,000 last year. Self-help technical assistance would add \$20,000 per home, but even with this addition, a family’s monthly payments for a self-help home are often less than what many families must pay to rent in Hawaii.

Your Committee further finds that turning families from renters to owners creates hope, which is critical during these difficult economic times, and also contributes to more stable and sustainable communities.

Your Committee believes this measure will help to address the scarcity of loan financing and technical assistance funding necessary to expand opportunities for self-help housing in Hawaii.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 752, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 752, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Hemmings). Excused, none.

**SCRep. 55 Health on S.B. No. 51**

The purpose of this measure is to protect public health by including tooth whitening services in the definition of the practice of dentistry.

Your Committee received testimony in support of this measure from the Hawaii Dental Association and the Board of Dental Examiners. The Department of Commerce and Consumer Affairs submitted testimony in support of this measure with amendments.

Your Committee finds that teeth whitening services are being provided by businesses that are not licensed to practice dentistry. Including teeth whitening services in the definition of the practice of dentistry will enable the Department of Commerce and Consumer Affairs to facilitate effective enforcement of businesses engaged in the unlicensed practice of dentistry.

Your Committee has amended this measure by adopting the recommendations of the Department of Commerce and Consumer Affairs by clarifying that:

- (1) The practice of dentistry includes the offer to perform or the performance of any phase of any operation incident to teeth whitening, including the instruction or application of teeth whitening materials or procedures at any location; and
- (2) "Teeth whitening" means any process performed by one individual upon another individual to whiten or lighten the appearance of human teeth by the application of chemicals, whether or not in conjunction with a light source.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 51, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 51, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 56 Transportation, International and Intergovernmental Affairs on S.B. No. 716**

The purpose of this measure is to amend Act 171, Session Laws of Hawaii (SLH) 2008, relating to the implementation of use of an ignition interlock device, to reflect recommendations of the Hawaii Ignition Interlock Implementation Task Force.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Health, Office of the Public Defender, Honolulu Prosecuting Attorney, Honolulu Police Department, Hawaii Ignition Interlock Implementation Task Force, and MADD. Testimony in opposition was received from the Hawai'i Insurers Council. Comments were received from the Judiciary.

The Hawaii Ignition Interlock Implementation Task Force was created by Act 171, SLH 2008, to make recommendations to the Legislature to implement Act 171. The Task Force was broadly representative of the Legislature, the Judiciary, relevant executive departments of the State and counties, and concerned citizen groups. Recognizing the need to resolve a number of outstanding issues in the transition to use ignition interlock devices, the Legislature delayed the effective date of Act 171 to July 1, 2010.

Your Committee finds that the use of an ignition interlock device prevents drivers previously arrested for driving under the influence of intoxicants from starting or operating a motor vehicle with more than a minimal alcohol concentration while their case is pending or while their license is revoked.

Your Committee notes that numerous steps have been taken by the Legislature over the past twenty-five years to address the toll exacted from our community by those who operate a motor vehicle under the influence of alcohol or drugs, or both. These include providing increased criminal penalties, from larger fines and longer license suspensions and prison terms to forfeiture of the motor vehicle involved in the crime. New criminal offenses have been created, from causing death with a motor vehicle while under the influence of alcohol or drugs to habitually driving under the influence. Administrative license revocation has been enacted to quickly revoke the driver's license while the courts determine what penalties are appropriate. Special attention has been given to repeat offenders, offenders who are highly intoxicated, youthful offenders, and those who drive under the influence with a child in the vehicle. Your Committee believes that using interlock devices to deter intoxicated drivers from driving is a natural extension of these policies.

Your Committee has amended this measure by:

- (1) Extending the sunset date of the ignition interlock implementation task force to June 30, 2011; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 716, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 716, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 57 Tourism on S.B. No. 1226**

The purpose of this measure is to reduce the percentage of transient accommodations tax that is deposited into the tourism special fund.

Specifically, this measure reduces the percentage of transient accommodations tax that is deposited into the tourism special fund from 34.2 per cent to 32.6 per cent.

Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism, the Hawaii Tourism Authority, the Hawaii Hotel and Lodging Association, and the Outrigger Hotels. The Tax Foundation of Hawaii submitted comments on this measure.

Your Committee finds that concerns have been raised regarding the expenditure of monies in the tourism special fund by the Hawaii Tourism Authority.

In response to the opposition submitted, your Committee amended this measure by deleting the specific percentage allocation of transient accommodations tax that is deposited into the tourism special fund and left the amount unspecified to promote further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1226, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 58 Education and Housing on S.B. No. 1631**

The purpose of this measure is to repeal the requirement that the Hawaii Teacher Standards Board shall notify the court that the individual being tried by the court for a sexual offense is a teacher.

Testimony in support of this measure was submitted by one state agency.

Your Committee finds that during the rulemaking process, the Hawaii Teacher Standards Board determined it was not able to comply with the requirement to notify the court that the individual being tried by the court for a sexual offense is a teacher. The Board noted that as not all who teach are licensed by the Board, the Board would not have that information, which would be more appropriately supplied by the attorneys involved.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1631 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 59 (Majority) Education and Housing on S.B. No. 754**

The purpose of this measure is to direct the Legislative Reference Bureau to review the state and county laws related to affordable housing, to identify strategies to strengthen Hawaii's housing laws; and to require a report to the 2010 Legislature.

Testimony in support of this measure was submitted by one state agency. One private organization submitted testimony in opposition. One state agency submitted comments.

Your Committee finds that there have been numerous amendments to and the refocusing of Hawaii's housing laws in recent years. While these efforts have led to increased support for affordable housing, there may be greater efficiencies in providing services and additional housing initiatives that can be met through amended or new legislation. Your Committee believes that this review will assist the Legislature in identifying and enacting more efficient affordable housing development initiatives.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Hemmings). Excused, none.

**SCRep. 60 (Joint) Higher Education and Health on S.B. No. 39**

The purpose of this measure is to require the University of Hawaii, beginning January 1, 2010, to report semi-annually on the moneys in the Hawaii cancer research special fund, including deposits, expenditures, and other transactions.

Testimony in support of this measure was received from the University of Hawai'i Cancer Research Center of Hawai'i, the High Technology Development Corporation, and the American Cancer Society Hawaii Pacific, Inc.

Your Committees find that this measure will promote transparency in financial accounting of the moneys in the special fund, which will assist the Cancer Research Center of Hawai'i in providing better cancer care to improve the health and well being of the people of Hawaii. This will also provide the Legislature with the information it needs to ensure that progress is being made in the building and expansion of the Cancer Research Center of Hawai'i.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 39 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Kokubun, Nishihara, Sakamoto, Taniguchi, Hemmings).

**SCRep. 61                    Judiciary and Government Operations on S.B. No. 111**

The purpose of this measure is to establish the priority of the payment of DNA analysis fees in relation to the payment of other fees that a court may order a defendant who is convicted of a felony offense to pay.

Your Committee received testimony in support of this measure from the Judiciary-Adult Client Services Branch.

Current law is silent as to when the DNA analysis monetary assessment must be paid by a convicted felon into the DNA registry special fund under section 706-603, Hawaii Revised Statutes. This measure provides for the assessment to be paid as the third order of priority after restitution (first order of priority) and the crime victim compensation fee (second order of priority). The Judiciary stated that this measure clarifies any confusion on the priority of fees that may be assessed by the courts.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 111 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 62                    Judiciary and Government Operations on S.B. No. 109**

The purpose of this measure is to adopt the new Interstate Compact for Juveniles, and repeal the existing Interstate Compact for Juveniles codified as chapter 582, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Judiciary and Department of Human Services-Office of Youth Services.

Your Committee finds that this measure would enable Hawaii to participate in a new juvenile interstate compact that replaces the existing compact which expires on December 15, 2009. An interstate compact ensures the supervision of juveniles from state to state and ensures the return of juvenile runaways, escapees, and absconders to the supervising state. The compact also helps prevent juveniles from committing other crimes or becoming victims themselves.

According to testimony of the Judiciary, thirty-five states have adopted the new compact to date. Without adoption of the new compact, Hawaii will no longer have the procedural means to regulate the movement of juveniles across state lines or to return runaways, absconders, or escapees.

Your Committee has amended this measure on the recommendation of the Judiciary by changing the appropriation amount to \$12,000.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 109, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 63                    Tourism on S.B. No. 264**

The purpose of this measure is to clarify the duties of the Hawaii Tourism Authority (Authority) regarding the development of measures of effectiveness in assessing its marketing plan.

The measure attempts to accomplish this purpose by amending language in the existing statute to specify that the Authority shall develop measures of effectiveness to assess its marketing plan, as opposed to language that only requires the Authority to be responsible for developing measures of effectiveness to assess its marketing plan.

Your Committee received testimony in support of the intent of this measure from the Department of Business, Economic Development, and Tourism. The Authority submitted testimony in support of the measure with suggested amendments.

Your Committee finds that this measure will help address concerns raised in the State Auditor's report that was released on January 14, 2009, regarding the Authority and its long-term strategy for addressing tourism in Hawaii.

Your Committee finds that this measure will clarify the duties of the Authority regarding the development of measures of effectiveness in assessing its marketing plan.

Your Committee further finds that the Authority has recommended that the measure be amended to further require that the measures of effectiveness shall assess and document the effectiveness of the Authority's marketing plan in:

- (1) Creating the intention to travel to Hawaii;
- (2) Establishing positive impressions of the Hawaii brand relative to its competitors; and
- (3) Measuring the specific marketing attributes of Hawaii in major market areas.

Your Committee finds that the recommendations offered by the Authority have merit and the possible inclusion of these recommendations should be discussed as the measure progresses through the legislative process.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 264 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 64 Energy and Environment on S.B. No. 1381**

The purpose of this short form bill is to amend the law relating to the environment.

Your Committee has amended this measure by inserting language proposed by the Department of Health, which relates to drinking water, wastewater infrastructure, and the American Recovery and Reinvestment Act of 2009.

Your Committee has amended this measure to better utilize funds from the federal American Recovery and Reinvestment of 2009, should such funds become available, for drinking water and wastewater infrastructure improvements.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, as amended herein, and recommends that it be recommitted to the Committee on Energy and Environment, in the form attached hereto as S.B. No. 1381, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Kokubun).

**SCRep. 65 (Joint) Higher Education and Energy and Environment on S.B. No. 1280**

The purpose of this measure is to appropriate funds to the University of Hawai'i for a study relating to beach erosion at Kailua beach.

Comments on this measure were submitted by the University of Hawai'i at Manoa Environmental Center, University of Hawai'i Sea Grant Extension Service, Sierra Club Hawai'i Chapter, and one individual.

Your Committees find that there is an existing planning effort being conducted by the University of Hawai'i Sea Grant College Program for Kailua Beach, which is funded by the Department of Land and Natural Resources. The Kailua Beach and Dune Management Plan is designed to produce place-based beach and dune management recommendations for ensuring conservation of Kailua Beach during the twenty-first century. The planning effort will develop a site-specific plan to account for sea-level rise, erosion trends, and community development patterns along the beach, with the goal of identifying innovative beach management approaches for Kailua and to serve as a template for place-based management on other Hawaii beaches.

Your Committees support the approach in this amended measure, particularly as it builds on work already underway. However, your Committees would urge the Sea Grant College Program to explore alternative methods of funding, including any funds that may be available in the federal economic stimulus package.

Your Committees have amended this measure accordingly, to:

- (1) Reference the Kailua Beach and Dune Management Plan currently being conducted by the University of Hawai'i Sea Grant College Program and the Department of Land and Natural Resources;
- (2) Change the expending agency from the University of Hawai'i School of Ocean and Earth Sciences to the University of Hawai'i Sea Grant College Program; and
- (3) Clarify that the 2010 report to the Legislature is a progress report of the Kailua Beach and Dune Management Plan, and the 2011 report to the Legislature is a final report to include measures that may be adopted in order to manage coastal erosion, sea level rise, and land use development along the shoreline of Kailua.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1280, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1280, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 5 (English, Sakamoto, Takamine, Taniguchi, Hemmings).

**SCRep. 66 (Joint) Energy and Environment and Education and Housing on S.B. No. 241**

The purpose of this measure is to promote energy conservation, reduce the State's dependence on foreign oil, and decrease the heat island effect by establishing specific performance standards mandating the use of cool roofs in all new residential and commercial construction in Hawaii.

Testimony in support of the measure was submitted by a private organization and an individual. Testimony in opposition was submitted by a state department and a private organization. Comments were submitted by two private organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that this measure would not only result in reducing the heat island effect, thus lowering the overall need for cooling in urban areas, but would also reduce cooling costs of individual homes or structures.

Your Committees have amended this measure by:

- (1) Adding an exemption to the cool roof requirement for a building with on-site photovoltaic systems that provide power sufficient to cover the structure's daytime energy usage;
- (2) Adding a partial exemption to the cool roof requirement for portions of a roof that are or will be covered by a solar energy system;
- (3) Clarifying the definitions of "new construction" and "cool roof" to be consistent with the operative portions of the measure; and
- (4) Making technical corrections for typographical and grammatical errors and to make the measure consistent with the Hawaii Revised Statutes and other portions of the measure.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 241, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 241, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (English, Green, Hooser, Tsutsui).

**SCRep. 67 Energy and Environment on S.B. No. 606**

The purpose of this measure is to provide the boards of directors of a condominium association with the same authority that condominium unit owners now have to install or allow the installation of solar energy or wind energy devices on the common elements, under appropriate circumstances, to further reduce Hawaii's dependence on energy generated from fossil fuels.

Testimony in support of this measure was submitted by four private organizations. One of these organizations, the Hawaii Chapter of the Community Associations Institute, also submitted oral testimony expressing concern that the measure, as drafted, would authorize the board of directors of a condominium association to permit an owner to install solar energy or wind energy devices within the common elements that could block the views of other owners. The Community Associations Institute suggested alternative language to address this possibility.

Your Committee finds that this measure is a logical extension of Act 157, Session Laws of Hawaii 2005, which prohibited restrictions preventing individuals from installing solar energy devices on houses or townhomes that they own. The present condominium law requires high levels of unit owner approval, typically, 67% or 75%, to lease even unused areas of the project, such as roofs. This measure allows the board, alone, to install solar energy devices or lease roof space and other unused areas of the project.

Your Committee has amended this measure by:

- (1) Revising the definition of "wind energy device" for clarity and consistency within the definition; and
- (2) Adopting the recommendation of the Community Associations Institute regarding the board's ability to permit installations.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 606, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 68 (Majority) Tourism on S.B. No. 1167**

The purpose of this measure is to make housekeeping amendments to the contract reporting requirements and other laws relating to the Hawaii Tourism Authority.

Specifically, this measure renames the title of the executive director of the Hawaii Tourism Authority to president and chief executive officer, removes the dollar amount from the contract reporting requirement and requires the Hawaii Tourism Authority to report periodically on contracts that have been entered into, and repeals the sunset date in section 14 of Act 306, Session Laws of Hawaii 2006, which, in effect, makes permanent the Authority's ability to hire its own attorneys and to exercise a level of fiscal autonomy on par with the University of Hawaii and the Department of Education.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, and Outrigger Hotels. The Department of Business, Economic Development, and Tourism submitted comments on this measure.

Your Committee finds that this measure will enhance the Hawaii Tourism Authority's business practices by making amendments that conform to current practices of the Hawaii Tourism Authority. The Hawaii Tourism Authority submitted testimony stating that it currently reports all contracts and agreements that the Hawaii Tourism Authority enters into through its Executive Director's report to the Governor, Speaker of the House of Representatives, and the Senate President.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1167, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Tsutsui).

**SCRep. 69            Transportation, International and Intergovernmental Affairs on S.B. No. 1054**

The purpose of this measure is to prohibit provisional licensees under the age of eighteen and holders of a temporary instruction permit who are age fifteen years and six months or older but under the age of eighteen, from engaging in various tasks not associated with operating a motor vehicle while operating a motor vehicle.

Your Committee received testimony in support of this measure from the Department of Transportation, MADD – Hawaii, and State Farm Mutual Automobile Insurance Company. Testimony in opposition was received from the Office of the Public Defender. Copies of written testimony are available for review on the Legislature’s website.

Your Committee finds that certain common driver distractions contribute to inattention to driving, which may result in catastrophic consequences. The problem is exacerbated among young and inexperienced drivers who are the subject of this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1054, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 70            Transportation, International and Intergovernmental Affairs on S.B. No. 1614**

The purpose of this measure is to require moneys in the passenger facility charge special fund be expended for payment of debt service on revenue bonds issued for airport capital improvements, and for any purpose permitted by the Aviation Safety and Capital Expansion Act of 1990.

Your Committee received testimony in support of this measure from the Department of Transportation and Department of Budget and Finance. Copies of written testimony are available for review on the Legislature’s website.

Your Committee finds that this measure allows the Department of Transportation to create subaccounts within the passenger facility charge special fund to pay debt service on bonds issued to finance airport capital improvement projects, as permitted under the Aviation Safety and Capacity Expansion Act of 1990.

Your Committee has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1614, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1614, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 71            (Joint) Energy and Environment and Education and Housing on S.B. No. 178**

The purpose of this measure is to establish a three-year pilot project in one or more schools, to be selected by the Department of Education, in partnership with the Department of Health, for recycling food waste as part of the State’s integrated solid waste management plans.

Testimony in support of the measure was submitted by one state department, and testimony in opposition to the measure was submitted by one state department.

Your Committees find that it is important to promote the State’s policy of re-use and recycling of solid and liquid wastes through this food waste recycling pilot program.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 178 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (English, Green, Hooser, Tsutsui).

**SCRep. 72            Transportation, International and Intergovernmental Affairs on S.B. No. 1206**

The purpose of this measure is to confer upon a county with a population of at least 500,000 people, the power to issue revenue bonds in its own name if so authorized under the county charter.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply. Copies of written testimony are available for review on the Legislature’s website.

Your Committee finds that this measure enables the various county water supply boards to issue revenue bonds in conformity with county charters of counties with a population of at least 500,000 persons.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1206 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 73            Transportation, International and Intergovernmental Affairs on S.B. No. 15**

The purpose of this measure is to reflect the current names of agencies within the federal Department of Homeland Security with regard to warrantless arrests.

Your Committee received testimony in support of this measure from the State Attorney General. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that this measure updates state law regarding warrantless arrests to be consistent with references of agencies in federal law that confer similar authority.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 15 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 74            Transportation, International and Intergovernmental Affairs on S.B. No. 483**

The purpose of this measure is to make amendments to the statute regarding the trauma system surcharge for purposes of statutory consistency.

Your Committee did not receive any testimony on this measure.

Your Committee finds that this measure clarifies that the trauma system surcharge is deposited into the trauma system special fund, which is used by the Department of Health to support the continuing development and operation of a comprehensive state trauma system.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 483 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 75            Transportation, International and Intergovernmental Affairs on S.B. No. 470**

The purpose of this measure is to make various administrative and technical amendments to chapters 231 and 281, Hawaii Revised Statutes, as they relate to liquor licenses.

Your Committee received testimony in support of this measure from the Departments of Liquor Control of the Counties of Hawaii, Kauai, and Maui and the City and County of Honolulu Liquor Commission. Copies of written testimony are available for review on the Legislature's website.

Among other things, this measure:

- (1) Enables the liquor control departments to extend relief to licensees who cannot obtain a tax clearance prior to license renewal or transfer;
- (2) Expands the use of fine moneys to include public liquor-related educational or enforcement programs, subject to a quantified annual limit;
- (3) Clarifies procedures relating to liquor license transfers, to more accurately reflect modern business enterprise organization; and
- (4) Extends the time within which a liquor commission may grant or refuse a liquor license application following public hearing.

Your Committee finds that the statutory amendments pursuant to this measure provide clarity and consistency and enhance the enforcement powers of the various county liquor commissions.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 76            Education and Housing on S.B. No. 1308**

The purpose of this measure is to transfer functions and duties of the Hawai'i Teacher Standards Board to the Board of Education.

Testimony in support of this measure was submitted by one state agency. Testimony in opposition to this measure was submitted by four state agencies, two private organizations, and one individual. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that Senate Concurrent Resolution No. 83, S.D. 1, 2008, requested the Auditor to conduct a study of the Hawaii Teacher Standards Board, including:

- (1) Organizational placement of the Board as an administratively attached agency to the Department of Education;
- (2) The functions and operations of the Board and their similarity to other agencies;
- (3) The Board's long-range planning in relation to appropriate policy foundations, benchmarks, and accountability mechanisms;
- (4) The Board's appeals process; and
- (5) The capabilities of the Board's web-based system, implemented in 2006.

Your Committee understands that the Auditor expects to submit a final report to the Legislature by the middle of February 2009. Until the final report is available, your Committee believes this measure provides a vehicle to promote further discussion.

Your Committee has amended this measure by:

- (1) Clarifying that the Board of Education shall adopt policies in accordance with chapters 91 and 92, Hawaii Revised Statutes;
- (2) Deleting a reference to the Teacher Standards Board authorization to set and administer its own budget; and
- (3) Amending the effective date to July 1, 2040, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1308, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 77 (Majority) Higher Education on S.B. No. 505**

The purpose of this measure is to exempt the University of Hawai'i from public procurement code requirements through June 30, 2014.

Testimony in support of this measure was submitted by the University of Hawai'i System, the University of Hawaii Professional Assembly, and one individual. Testimony in opposition was submitted by the State Procurement Office, AIA Hawaii State Council, American Council of Engineering Companies of Hawaii, American Public Works Association Hawaii Chapter, Ironworkers Stabilization Fund Local 625, Plumbing & Mechanical Contractors Association of Hawaii, Subcontractors Association of Hawaii, and one individual. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure would give the University temporary flexibility in procurement, which was previously provided to the University from 1998 through 2004. Your Committee has heard that the capital improvement project budget request approved by the Board of Regents includes approximately \$350,000,000 for priority projects in health and safety, capital renewal and deferred maintenance, and equipment. These critical deferred maintenance and capital renewal projects are on all campuses, already identified, involve little in the way of permitting, and are ready to launch quickly.

Your Committee has heard a number of concerns raised, however, regarding a complete exemption from the procurement provisions. While your Committee is supportive of fast tracking projects that will benefit both the University and the local economy, members believe many of these concerns should be addressed.

Your Committee has amended this measure accordingly, by:

- (1) Requiring the Board of Regents to develop public procurement practices that are subject to section 103D-304 (procurement of professional services), part X of chapter 103D (preferences), and chapter 104 (wages and hours of employees on public works), Hawaii Revised Statutes; and
- (2) Amending the effective date to July 1, 2030 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 505, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 505, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, 1 (Slom). Excused, none.

**SCRep. 78 Labor on S.B. No. 201**

The purpose of this measure is to appropriate funds to the Hawaii County Economic Opportunity Council for the purchase of ten buses to provide transportation for disadvantaged and low-income people in the County of Hawaii.

Testimony in support of this measure was submitted by the Hawaii County Economic Opportunity Council. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that Hawaii County is geographically the largest of the State's counties. Your Committee also finds that twenty-four off-highway communities exist along a two-hundred-sixty-mile area where no transportation services are available other than that provided by the Hawaii County Economic Opportunity Council.

Your Committee further finds that the Hawaii County Economic Opportunity Council currently uses twenty-eight mini-buses to serve their clients and that ten of the buses are more than ten years old, each with over 250,000 recorded miles. These ten buses require frequent maintenance and repairs, encounter difficulties in meeting safety checks, and increase operational costs due to inefficient use of gas and oil.

Your Committee believes that the Hawaii County Economic Opportunity Council provides a unique and valuable service by providing transportation for low-income elderly, disabled, low-income preschool children, and other disadvantaged people in the County of Hawaii.

Your Committee acknowledges the Hawaii County Economic Opportunity Council's request for \$600,000 to purchase the ten buses but will currently leave the appropriation request unspecified to allow the Committee on Ways and Means to determine the appropriate amount.

Your Committee has amended this measure as follows:

- (1) By deleting the dollar amount and leaving it unspecified for determination by the Committee on Ways and Means; and
- (2) By making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 201, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 79                    Transportation, International and Intergovernmental Affairs on S.B. No. 1052**

The purpose of this measure is to:

- (1) Require the driver education assessment to be levied on persons required to attend an anger management or driver training course; and
- (2) Impose stricter penalties for reckless driving or riding of animals.

Your Committee received testimony in support of this measure from the Department of Transportation. Testimony in opposition was received from the Office of the Public Defender. Comments were received from the Judiciary. Copies of written testimony are available for review on the Legislature's website.

The current penalty for reckless driving is a fine of not more than \$1,000 or imprisonment of not more than thirty days, or both. This measure repeals the current penalty and adds a tiered system of penalties for the first and subsequent offenses, including a combination of fines, suspension or revocation of license for a specified number of days, community service, attendance in an anger management course or drivers training or both, and imprisonment.

The current fine for reckless driving has existed at least from 1955 (Revised Laws of Hawaii, section 311-1). The current penalty of imprisonment of was enacted by Act 287, Session Laws of Hawaii 1998, which lowered the length of imprisonment from one year to thirty days.

Your Committee finds that the tiered system of penalties in this measure reflects other penalties in the traffic code for repeat driving offenses of a serious nature. The intent is to provide progressively stricter penalties for repeat offenders as a matter of punishment and deterrence.

Your Committee has amended this measure by:

- (1) Clarifying the penalty for a first offense to apply if a court has not deferred proceedings on the plea, on recommendation of the Department of Transportation;
- (2) Exempting a first offense from the requirement of providing proof of financial responsibility, on recommendation of the Department of Transportation; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1052, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1052, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 80                    (Joint) Transportation, International and Intergovernmental Affairs and Commerce and Consumer Protection on S.B. No. 698**

The purpose of this measure is to increase the rental motor vehicle and tour vehicle surcharge tax by an unspecified amount.

This measure provides that:

- (1) Of the rental motor vehicle surcharge tax, \$3 (current amount) is deposited into the state highway fund, and any amount collected over \$3 is deposited into the general fund; and
- (2) Of the tour vehicle surcharge tax, the monthly amount collected of \$65 (current amount for the over twenty-five passenger seat category) is deposited into the state highway fund, and any amount over \$65 is deposited into the general fund; and of the monthly amount collected of \$15 (current amount for the eight to twenty-five passenger seat category) is deposited into the state highway fund, and any amount over \$15 is deposited into the general fund.

Your Committees received testimony in support of this measure from the Department of Transportation and Department of Taxation. Testimony in opposition was received from Polynesian Hospitality, Inc.; Royal Star Hawaii; Avis & Budget Rent A Car Hawaii; Alamo Rent A Car, Enterprise Rent-A-Car and National Car Rental; Catrala-Hawaii; Jack's Tours, Inc.; Robert's Hawaii; Hertz Rent A Car; Dollar Rent A Car; and Hawaii Transportation Association. Comments were received from the Tax Foundation of Hawaii. Copies of written testimony are available for review on the Legislature's website.

The \$3 rental motor vehicle surcharge tax was enacted by Act 223, Session Laws of Hawaii 1999. The \$65 and \$15 tour vehicle surcharge tax was part of the original enactment of the statute by Act 263, Session Laws of Hawaii 1991. Your Committees find that the current surcharges need to be adjusted upward to accommodate the growing cost of maintaining roads and highways in the State.

Your Committees are cognizant of the declining revenues in the general fund, as well as the need to increase revenues in the state highway fund. Your Committees find that the state highway fund is in immediate need of an infusion of revenue to cover anticipated expenses of the highway modernization program.

Your Committees have amended this measure by deleting the proposed language that would partially divert surcharge tax revenues to the state general fund.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 698, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 698, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Ige, Sakamoto, Hemmings, Slom).

**SCRep. 81 (Joint) Human Services and Health on S.B. No. 419**

The purpose of this measure is to allow for the seamless transfer of a Medicaid patient who is eligible for long-term care from an acute care facility to a long-term care bed and avoid the patient's loss of the hard-to-come-by long-term care bed by instituting a policy of presumptive Medicaid eligibility for waitlisted patients.

Testimony in support of this measure was received from the Chamber of Commerce of Hawaii, Hawaii Pacific Health, Hawaii Disability Rights Center, Kaiser Permanente, and the Healthcare Association of Hawaii. The Department of Human Services submitted testimony in opposition to the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that many individuals who are eligible for long-term care are waitlisted due to the shortage of available long-term care beds. Waitlisted patients do not receive services appropriate for their requisite level of care, and patients in need of acute care are denied beds that waitlisted patients continue to occupy. Additionally, hospitals that provide acute care services are financially depleted by waitlisted long-term care patients who occupy acute care beds because acute care hospitals are reimbursed according to the level of service required by patients, not the level of service actually provided.

Your Committees further find that many long-term care facilities require that long-term care patients receive Medicaid eligibility determinations prior to being admitted. Delays in processing applications for Medicaid eligibility further lengthen the amount of time a waitlisted patient must remain in an acute care bed. The implementation of a policy of presumptive eligibility for waitlisted patients would allow for more expedient transfers of waitlisted patients from acute care hospitals to long-term care facilities; make more acute care beds available for patients in need of acute levels of care; and ease the financial burden placed on acute care hospitals.

Your Committees have amended the measure as follows:

- (1) Changing the effective date from July 1, 2009, to July 1, 2010;
- (2) Providing that the measure shall be repealed on July 1, 2015;
- (3) Substituting the correct reference to federal law relating to state plans for federal grants for medical assistance under the Social Security Act; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 419, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 419, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 82 (Joint) Human Services and Health on S.B. No. 917**

The purpose of this measure is to ensure state compliance with section 6035 of the Deficit Reduction Act of 2005 (P.L. 109-171), by strengthening the State's ability to identify and obtain payments from third party payers that are legally responsible to pay for health care services received by Medicaid recipients to pay primary to Medicaid.

Testimony in support of this measure was received by the Department of Human Services. The Hawaii Association for Justice submitted testimony in opposition to the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that Medicaid is designed to be a payer of last resort. However, statutory loopholes allow some third party payers to avoid paying primary to Medicaid. This measure is designed to enhance the Department of Human Services' ability to identify third party payers that are legally responsible to pay for health care services received by Medicaid recipients and obtain payments from such third party payers when appropriate. In so doing, the measure will reduce unnecessary expenditures of state and federal Medicaid funds.

Your Committees have amended this measure as follows:

- (1) Replacing the definition of "third party" with a definition for "first party" in order to substitute the correct term of art, thus clarifying the intent of the measure and avoiding unintended ambiguity; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 917, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 917, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 83 Human Services on S.B. No. 1329**

The purpose of this measure is to clarify provisions of the early learning system established by Act 14, Special Session Laws of Hawaii 2008, by:

- (1) Authorizing the Hawaii Council of Mayors to name designees for their two representatives on the Early Learning Council;
- (2) Changing the name of the Keiki First Steps Trust Fund to the Early Learning Council Trust Fund; and
- (3) Specifying that moneys in the trust fund shall not lapse at the end of the fiscal year.

Testimony in support of the measure was submitted by the Department of Human Services; the Department of Education; Kamehameha Schools; the Hawaii Association of Independent Schools; and the Good Beginnings Alliance. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the work of the Early Learning Council, created by Act 14, is essential in that it involves development of a comprehensive early childhood education system for the State to coordinate and improve upon the fragmented services currently being offered. Your Committee further finds that it is important to provide the Council with the flexibility and funds it requires to carry on this important mission. To this end, in addition to the clarifications and flexibility offered by the measure as written, the measure should also allow the Governor's appointees to the Council to name designees and permit any unexpended funds from the current appropriation to lapse into the Keiki First Steps Trust Fund/Early Learning Council Trust Fund at the end of the fiscal year.

Your Committee has amended the measure by:

- (1) Allowing representatives on the Early Learning Council who are appointed by the Governor to appoint designees to the Council;
- (2) Changing the name of the fund from the Keiki First Steps Trust Fund to the Early Learning Trust Fund; and
- (3) Clarifying that any unexpended funds in the Early Learning Trust Fund at the end of each fiscal year shall not lapse to the credit of the general fund.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1329, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 84 Human Services on S.B. No. 782**

The purpose of this measure is to extend unemployment insurance benefits to workers who are separated from their employment as a result of domestic violence.

The Department of Labor and Industrial Relations submitted comments on the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that victims of domestic violence are frequently unable to maintain employment due to the harmful physical and emotional effects of being abused. Victims are frequently separated from their employment, either voluntarily or involuntarily. For example, a victim may choose to stop working in order to stay at home to protect the victim's minor children from abuse. Alternatively, a victim might be fired due to poor job performance resulting from abuse. In these situations, victims of domestic violence cannot achieve financial independence, and are often unable to escape from abuse.

Your Committee finds that it is important to extend unemployment insurance benefits to victims of domestic violence in order to financially empower them to escape from or minimize physical and emotional injuries. However, the Federal Unemployment Tax Act, which funds the administration of state unemployment insurance and the job services office, funds one-half of the cost of unemployment benefits during periods of high employment; and provides for a fund from which states may borrow to pay benefits, if necessary, requires states to comply with guidelines established by the United States Department of Labor.

Your Committee finds that two provisions of the measure may impair the State's certification to receive funding under the Federal Unemployment Tax Act. In order to avoid jeopardizing the receipt of funding, your Committee has amended the measure as follows:

- (1) Deleting the subsection in the measure that creates an exception for domestic violence victims by excusing them from registering for work and being able and available to work in order to receive unemployment insurance benefits;

- (2) Deleting the section of the measure that extends the non-charging of benefits against the account of any of the individual's base period employers paid in situations where employers discharge victims of domestic violence;
- (3) Inserting a clause to protect against the impairment of federal funds under the Federal Unemployment Tax Act; and
- (4) Making technical, nonsubstantive amendments for purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 782, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 782, S.D. 1, and be referred to the Committee on Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 85 (Majority) Human Services on S.B. No. 784**

The purpose of this measure is to require landlords to provide tenants with notice to tenants when foreclosure proceedings of the rental property begin and to further provide sixty days written notice to vacate prior to the rental property being sold in foreclosure.

Testimony in support of this measure was submitted by the Legal Aid Society of Hawaii and the Hawaii Financial Services Association. The Hawaii Board of Realtors submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the growing number of foreclosures in Hawaii is adversely impacting the portion of the State's residents who rent or lease their places of residence. In many cases, tenants do not receive warning that a foreclosure is taking place, denying them the opportunity to locate replacement housing.

Your Committee further finds that the measure's requisite sixty-day notice period is in excess of the notice currently required for landlords to terminate month-to-month rental agreements. Your Committee finds that the forty-five day notice required by chapter 521, Hawaii Revised Statutes, is reasonable, and should apply to this measure. However, if a landlord and tenant enter into a rental contract providing for a longer notice period with respect to foreclosure actions, then the contractual notice period shall be applicable.

Your Committee has amended the measure as follows:

- (1) Reducing the number of days of notice a landlord must provide to a tenant in possession of property that is the subject of a foreclosure proceeding from sixty to forty-five days, provided that if an enforceable rental agreement requires a longer notice period, then the contractually established notice period shall apply; and
- (2) Making technical amendments for purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 784, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Hemmings). Excused, none.

**SCRep. 86 (Majority) Human Services on S.B. No. 809**

The purpose of this measure is to minimize the adverse effects of homelessness on children by establishing a task force to coordinate resources available to homeless children; establishing and making appropriations to the kokua na keiki special fund; and creating an administrative grant program to allow the Department of Human Services to award grants for programs that benefit homeless children.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the Office of Youth Services, Hawaii Youth Services Network, and Malama O Kamali'i Makamae. The Department of Human Services, the Department of Budget and Finance, and the State Procurement Office submitted testimony in opposition to the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that homeless children are vulnerable to suffering from negative consequences of homelessness that can adversely impact them for the rest of their life, such as poor health, exposure to violence, poor academic performance, and lack of positive social interactions. A task force that consists of knowledgeable, experienced, and compassionate members can better coordinate and develop resources and services for the State's homeless children.

In light of the current financial crisis, your Committee has amended this measure to provide for appropriations from available federal funds. Additionally, your Committee has amended this measure to adopt recommendations provided by the Office of Hawaiian Affairs, the Office of Youth Services, and the Hawaii Youth Network.

Specifically, your Committee has amended this measure by:

- (1) Providing that an appropriation shall be made only if the Department of Human Services determines that federal funds that can be appropriately expended for the purposes of this measure are available;
- (2) Adopting the recommendations of testifiers to add to the membership of the task force the Office of Youth Services, a representative from the leeward Native Hawaiian community, and a representative from an organization that provides shelter, street outreach, or transitional living services to runaway and homeless youth; and
- (3) Adding the topic of supportive mental services for homeless youth to the task force's discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Hemmings). Excused, none.

**SCRep. 87 Human Services on S.B. No. 914**

The purpose of this measure is to amend the Hawaii Revised Statutes to conform to the Code of Federal Regulations, 45 Code of Federal Regulations section 261.2(n), relating to the temporary assistance to needy families program.

Testimony in support of this measure was submitted by the Department of Human Services. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this housekeeping measure brings the Hawaii Revised Statutes into conformity with the Code of Federal Regulations relating to the temporary assistance for needy families program by:

- (1) Adding the terms "other work eligible household," "non-work eligible household," and "work-eligible household" to the list of definitions contained in section 346-1, Hawaii Revised Statutes, and deleting from the same section the term "exempt household" to reflect the terminology used in federal regulations; and
- (2) Amending section 346-53, Hawaii Revised Statutes, to incorporate the newly defined terms.

Your Committee has amended the measure by making technical, nonsubstantive changes for purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 914, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 88 Human Services on S.B. No. 134**

The purpose of this measure is to ensure that the Department of Human Services is afforded the opportunity to select the best course of action for children held by the Department under temporary foster custody by extending the number of days the Department has to conduct an investigation and requiring the Department to conduct an ohana conference prior to deciding upon a course of action.

Testimony in support of this measure was received from the Department of Human Services and two individuals. The Legal Aid Society of Hawai'i submitted testimony in opposition to this measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that it is important to involve family members in formulating a plan to ensure a child's safety and guarantee adequate supports for the child's family. Ohana conferences will allow more children to remain safely in their homes, provide families with the opportunity to resolve risk and safety issues, and give family members the opportunity to offer input in creating a workable plan tailored to the specific needs of the child and the child's family.

Your Committee further finds that if the length of time the Department of Human Services has to investigate claims of harm to children is extended to five days, a parent would potentially be deprived of custody of his or her child for up to eleven days without an opportunity to be heard. Further, if an ohana conference is mandatory, a parent's right to due process may be violated because information relating to the alleged harm to a child would be provided to ohana conference parties without any court finding as to the harm and without the consent of the parent. Further, the child would be left in the custody of the instigator of the harm or threatened harm for the time it would take to schedule the ohana conference.

Your Committee has amended this measure by:

- (1) Giving legal custodians the option of convening an ohana conference within five days after the assumption of temporary custody of a child; and
  - (A) Ensuring visitation between the child and the legal custodian as soon as possible, but in any event prior to the ohana conference, and;
  - (B) Proceeding by relinquishing or continuing the assumption of custody based on the results of the ohana conference;
- (2) Maintaining the three-day time limit for the Department of Human Services to conduct an investigation of the harm or threatened harm leading to the Department's assumption of custody if the legal custodian does not wish to convene an ohana conference or if the legal custodian cannot be located; and
- (3) Permitting the Department of Human Services to refer child custody matters to other appropriate, authorized agencies which may then file a petition with the courts for custody of the child.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 134, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 89 Human Services on S.B. No. 851**

The purpose of this measure is to amend sections of the Hawaii Revised Statutes in order to bring the Child Support Enforcement Agency into compliance with federal law, implement cost-saving measures, reduce agency involvement in the enforcement of liens, and protect against the identity theft of obligors.

Your Committee received testimony in support of this measure from the Department of Human Services and the Attorney General. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the state child support enforcement law does not comply with title IV-D of the Social Security Act in that it:

- (1) Provides for the unnecessary expenditure of funds in the disbursement of support moneys to custodial parents and requires original copies of certified mail receipts for proof of service;
- (2) Is ambiguous as to whether other state child support enforcement agencies may enforce child support liens of this State; and
- (3) Exposes obligors to identity theft by requiring an obligor's full social security number on the notice of child support lien.

Your Committee finds that this measure addresses the foregoing concerns as follows:

- (1) Clarifying the requirement that all income withholding payments be sent to the Child Support Enforcement Agency or to another state's child support agency acting under title IV-D of the Social Security Act;
- (2) Allowing the Child Support Enforcement Agency to disburse funds to custodial parents by electronic deposit or debit card to reduce postage costs incurred by mailing support checks;
- (3) Accepting an electronic copy or facsimile of a signature on certified mail receipts as sufficient proof of service in lieu of an actual signature, also saving postage costs;
- (4) Clarifying that the child support enforcement agencies in other states acting under title IV-D of the Social Security Act may directly enforce a child support lien, acknowledging the federal law's provision of full faith and credit to child support liens arising in other states;
- (5) Clarifying that payments from a financial institution may be made directly to the entity seeking to enforce the lien without the involvement of the Child Support Enforcement Agency, provided that the financial institution complies with the State's procedural rules; and
- (6) Requiring that only the last four digits of the obligor's social security number be indicated on the notice of child support lien.

Your Committee has amended this measure by making technical amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 851, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 90 Tourism on S.B. No. 271**

The purpose of this measure is to ensure that tourism-related industries are able to appropriately respond to a national or global economic crisis that adversely impacts the tourism industry.

Specifically, this measure includes a national or global economic crisis to situations considered a tourism emergency. The measure further requires that, with regards to a national or global economic crisis only, and in addition to the Governor's declaration of the existence of a tourism emergency, no action may be taken by the Hawaii Tourism Authority without the Governor's express approval.

Your Committee received testimony in support of this measure from Department of Business, Economic Development, and Tourism, the Hawaii Tourism Authority, the Hawaii Hotel and Lodging Association, and Outrigger Hotels. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the current economic crisis is adversely affecting the State's tourism industry and economy, causing high rates of unemployment specifically within the tourism industry. Your Committee finds that authorizing access to the tourism emergency fund for this purpose will help attract visitors to the State and keep residents of Hawaii employed.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 271, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Slom).

**SCRep. 91 Economic Development and Technology on S.B. No. 523**

The purpose of this measure is to increase opportunities under the High Technology Research and Development Loan and Grant Program.

Specifically, this measure increases the level of the State's matching awards for small business innovative research and small business technology transfer research to fifty per cent of the federal awards and to clarify that the High Technology Research and Development Grant Program shall provide grants to any business in Hawaii that applies or receives a Federal Small Business Innovation Research award or grant or receives a Small Business Technology Transfer Program award. This measure also provides the High Technology Development Corporation with the discretion to transfer funds from the Hawaii Capital Loan Revolving Fund to the High Technology Development Corporation.

Testimony in support of this measure was submitted by one private organization. Comments on this measure were submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the level of the State's matching awards to small business innovative research and small business technology transfer research is only equal to twenty-five per cent of the federal awards. The original intent of the enactment of section 206M-15, Hawaii Revised Statutes, was to match fifty per cent of the federal awards. Your Committee further finds that increasing the State's matching funds will strengthen the innovation of small businesses in Hawaii and promote acceleration of the small businesses to successful commercialization.

Your Committee has amended this measure by:

- (1) Deleting the reference to the Hawaii Capital Loan Revolving Fund; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 523, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 523, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 92 (Joint) Education and Housing and Labor on S.B. No. 165**

The purpose of this measure is to clarify that public school cafeteria workers employed after July 1, 2009, will be compensated for a ten-month period and compensation will be prorated over a twelve-month period. Cafeteria workers employed prior to July 1, 2009, will continue to receive compensation over a twelve-month period.

Testimony in support of this measure was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committees have heard that the gradual conversion of cafeteria workers from 12-month positions to 10-month positions will slow the rate of increase of Department of Education food service costs without affecting current employees. The Department anticipates that the 10-month positions will reduce the need for substitutes, as 12-month cafeteria workers may take their vacation at any time, which necessitates the hiring of substitutes if the cafeteria is operating. Ten-month cafeteria workers, like teachers, will not take vacation while school is in session.

While your Committees understand the intent of the measure, members raised concerns regarding the 10- and 12-month designation. The school calendar has undergone a number of changes in recent years, and is likely to do so again. Specifying a 10-month period may require the Department to amend the law should the school calendar change significantly.

Your Committees have amended this measure to give the Department more flexibility by changing the references of a 10-month period to school-year period and of a 12-month period to calendar-year period.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 165, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 165, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Hee, Kidani, Hemmings, Slom).

**SCRep. 93 Commerce and Consumer Protection on S.B. No. 850**

The purpose of this measure is to help deter the fraudulent use of notary seals or stamps by requiring that a notary public's commission number be included on the notary public's official seal or stamp.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one private citizen. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that including a notary public's commission number on the notary public's official seal or stamp will help prevent fraud by making it easier to identify the individual who purportedly notarized particular documents and to track the activity of notaries public over time. Your Committee further finds that the cost to individual notaries public of replacing official stamps and seals is minimal.

Your Committee has amended this measure by making one technical, nonsubstantive change to reflect existing statutory language accurately.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 850, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 850, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 94 Commerce and Consumer Protection on S.B. No. 203**

The purpose of this measure is to require that the Regulated Industries Complaints Office (RICO) of the Department of Commerce and Consumer Affairs issue a citation and a cease and desist order when an investigator determines that a person is acting as a contractor without a valid license and to amend penalty amounts for violations.

Your Committee received testimony in support of this measure from Iron Workers Stabilization Fund and Hawaii Building Construction Trades Council, AFL-CIO; and Subcontractors Association of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Regulated Industries Complaints Office; General Contractors Association of Hawaii; and Building Industry Association-Hawaii.

Copies of written testimony are available for review on the Legislature's website.

Under current law, RICO investigators have discretion to issue a citation, which includes a cease and desist order, to persons acting as contractors without the appropriate license or to pursue a remedy through a criminal or civil action in the circuit court. According to testimony from RICO, a citation is not always an appropriate tool to enforce compliance. A citation is designed to put an immediate stop to observed, ongoing activity; however, some violations are discovered "off-scene" such as during a review of documents. Additionally, a citation, unlike a circuit court action, does not allow for additional remedies such as restitution to affected consumers. Finally, current law already provides for fines to enforce compliance with licensing requirements. The penalties contained in this measure are inconsistent with existing fines.

Your Committee has adopted the recommendations of RICO to amend section 1 of this measure to allow an investigator to retain discretion to issue a citation, to clarify the cease and desist provision in a citation, and to increase the statutory penalties for violation of the contractor licensing requirements. Your Committee has also amended the effective date of this measure to provide an opportunity for further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 203, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 95 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1316**

The purpose of this measure is to abolish the Aloha Tower Development Corporation and transfer its responsibilities and functions to the Department of Business, Economic Development, and Tourism.

Testimony providing comments was submitted by two state agencies. One organization submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of the state government is necessary to ensure that all available avenues have been explored to accomplish more with fewer resources.

Your Committee has amended this measure by amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1316, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Tokuda). Noes, none. Excused, 2 (Takamine, Hemmings).

**SCRep. 96 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1088**

The purpose of this measure is to further protect residents from obstruction of public access and to create a private right of action to enforce public access in the courts.

Testimony in support of this measure was submitted by two organizations and one hundred and twenty-four public citizens. One state agency submitted comments, and one state agency submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that, although public access is protected by state law, development pressure is making it difficult for residents to access beach and shoreline areas. On O'ahu, insufficient public access to the shore has prompted multiple studies by State agencies to address conflicts developing between beachfront property owners and the general public. Similarly on Maui, coastline development plans have raised the issue of adequate public access to the beach from Paia through Baldwin beaches. On Kaua'i, public access routes have not been claimed by either the State or the County and are obstructed, preventing public access to the shoreline.

Your Committee further finds that providing a private right of action to enforce public access will allow communities to enforce laws when the agencies responsible lack necessary resources or are unresponsive. This measure ensures needless litigation does not occur by requiring that notice and opportunity to cure the violation are given to the violator prior to the filing of a lawsuit.

Your Committee has amended this measure by making technical, nonsubstantive changes for clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1088, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1088, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Takamine, Hemmings).

**SCRep. 97 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 579**

The purpose of this measure is to ensure the constitutionally- and ethically-mandated preservation of the Native Hawaiian language and culture by requiring that all state and county documents, letterheads, symbols, and emblems, when newly created, replaced, or reprinted, contain the accurate, appropriate, and authentic Hawaiian names and language.

Testimony in support of this measure was submitted by one organization and four public citizens. One state agency supported the intent of the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the State reaffirmed Hawaiian as one of its official languages in 1978, and since that time the Legislature has backed efforts to incorporate the Hawaiian language into official state writings, emblems, and signs. This measure will ensure that these public inscriptions are mandatory, accurate, and spelled correctly, using the proper Hawaiian macrons and glottal stops.

Your Committee has adopted the recommendation of the Department of Accounting and General Services to amend the measure by changing the term "language" to the term "word" in section 1-13.5, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 579, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Takamine, Hemmings).

**SCRep. 98 (Majority) Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1141**

The purpose of this measure is to require the Department of Land and Natural Resources to offer for sale to leaseholders parcels of Sand Island.

Testimony in support of this measure was submitted by one organization. Two state agencies submitted comments. Testimony in opposition was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the Department of Land and Natural Resources entered into a fifty-five year lease with the Sand Island Business Association which covers approximately seventy-four acres and was divided into one hundred and twelve lots known as the Sand Island Industrial Park. The lease required the Sand Island Business Association to develop the infrastructure improvements, sublease the lots to existing lessees, and manage the Sand Island Industrial Park on behalf of the Department of Land and Natural Resources. In 1999, the Sand Island Business Association completed the infrastructure improvements at a cost of more than forty-one million dollars. The members of the Sand Island Business Association have invested more than twenty million dollars in leasehold improvements to the individual lots.

Recently, members of the Sand Island Business Association have expressed a strong interest in purchasing the fee interest of their leasehold lots to secure their substantial investment in the Sand Island Industrial Park. Additionally, as the lease period shortens, it becomes more difficult to rely upon the leasehold as an asset when attempting to secure bank loans for improvements.

According to the Department of Land and Natural Resources, Sand Island is not ceded land. According to the *Final Report on the Public Land Trust*, published by the Office of the Legislative Auditor in 1986, Sand Island was essentially built by filling the reefs within the Mokauea and Kaholoa fishing grounds. In 1959 many parties were vying for control of Sand Island, and on August 20, one day before statehood, title to the two hundred and two acres of Sand Island was transferred to the Territory by Presidential Executive Order No. 10833. Since the Presidential Executive Order returning the two hundred and two acres to Hawaii was signed before Hawaii became a state, the acreage is listed in the state inventory as having been received by Hawaii under section 5(a) of the Admission Act. As section 5(a) land, the two hundred and two acre site is not subject to the section 5(f) trust or to chapter 10, Hawaii Revised Statutes.

Your Committee understands that the Department of Land and Natural Resources relies upon the lease revenue from the Sand Island Industrial Park to support operations and management of public lands programs. Your Committee further understands that the lease revenue constitutes nearly one half of all lease revenues supporting the Special Land and Development Fund.

Your Committee has amended this measure by:

- (1) Requesting that an exchange of lands be considered to prevent the Department of Land and Natural Resources from losing the revenue stream required for operations;
- (2) Requiring that any offer of sale or exchange be made within one year of the effective date of the measure;
- (3) Requiring that any agreement of sale be subject to disapproval by the Legislature by two-thirds vote of either the Senate or the House of Representatives or by majority vote of both in any regular or special session following the date of the Board of Land and Natural Resources' approval in principle of the sale; and
- (4) Making technical, nonsubstantive changes for consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Kokubun). Noes, 1 (Tokuda). Excused, 1 (Hemmings).

**SCRep. 99 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 643**

The purpose of this measure is to transfer all authority to manage, administer, and exercise control over Kahana Valley State Park from the Department of Land and Natural Resources to the Department of Hawaiian Home Lands.

Testimony in support of the intent was submitted by four public citizens. Two state agencies submitted comments. Twenty-seven public citizens submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

In 1965, the State condemned the ahupua'a o Kahana for use as a state park, making it the only landowner in the State of Hawai'i, outside of the Robinson family on Ni'ihau, to own an intact ahupua'a. An ahupua'a, a triangular slice of land running from the mountains to the ocean, was the major land division used by pre-contact Hawaiians, as it included all of the elements necessary for their existence: the uplands, the lowlands, the shore, and the ocean.

While the families living in Kahana at the time of the condemnation were of varied ethnic backgrounds, many of them were Native Hawaiian, and the people of Kahana in general lived a simple, subsistence lifestyle in harmony with Native Hawaiian values and traditions. The people of Kahana lobbied the Legislature after the condemnation to allow them to stay in Kahana and preserve this rural Native Hawaiian-influenced lifestyle. In 1970, a Governor's task force proposed the concept of a living park that would allow the families to stay and in some way participate in the park. The Governor recommended the concept to the Department of Land and Natural Resources. The residents were allowed to stay on the land under revocable leases.

The State determined that, as a condition of their lease, each Kahana family would contribute twenty-five hours of interpretive services per month to the park, to preserve, restore, and share the history and rural lifestyle of the ahupua'a with the public.

Act 5, Session Laws of Hawaii 1987, authorized the Department of Land and Natural Resources to issue long-term residential leases to persons who had lived continuously in Kahana Valley or had permits allowing them to reside on certain parcels of land within Kahana Valley. As a condition of holding a lease, these qualified persons agreed to participate in interpretive programs in Kahana Valley State Park.

Thirty-one original families qualified for the long-term residential leases. However, descendants of six families that did not originally qualify for long-term residential leases remained in Kahana Valley State Park. The Department of Land and Natural Resources recently started eviction actions against these six families.

Your Committee finds that the residents of Kahana Valley should have a meaningful say in planning the future of Kahana Valley State Park. Your Committee urges the Department of Land and Natural Resources to engage in a dialogue with the residents and lineal descendants on the issues raised during testimony. Kahana Valley is a unique residential and cultural site, and it is understandable that those who are connected with Kahana Valley want to return as lessees. Your Committee notes that the six families who have eviction actions against them should have the opportunity to reconcile their issues.

Your Committee has amended this measure by:

- (1) Adopting a testifier's recommendation to increase the lease term length from sixty-five years to ninety-nine years to conform with the Department of Hawaiian Home Lands practice; and
- (2) Making technical, nonsubstantive changes for style and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 643, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 643, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Fukunaga).

**SCRep. 100 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 638**

The purpose of this measure is to establish a two year moratorium on evictions of residents from Kahana Valley State Park, and establish a master plan advisory committee to create a living park master plan for Kahana Valley State Park.

Testimony in support of this measure was submitted by one state agency and four public citizens. One public citizen supported the intent of the measure, and one state agency submitted comments. Twenty-five public citizens submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

In 1965, the State condemned the ahupua'a o Kahana for use as a state park, making it the only landowner in the State of Hawai'i, outside of the Robinson family on Ni'ihau, to own an intact ahupua'a. An ahupua'a, a triangular slice of land running from the mountains to the ocean, was the major land division used by pre-contact Hawaiians, as it included all of the elements necessary for their existence: the uplands, the lowlands, the shore, and the ocean.

While the families living in Kahana at the time of the condemnation were of varied ethnic backgrounds, many of them were Native Hawaiian, and the people of Kahana in general lived a simple, subsistence lifestyle in harmony with Native Hawaiian values and traditions. The people of Kahana lobbied the legislature after the condemnation to allow them to stay in Kahana and preserve this rural Native Hawaiian-influenced lifestyle. In 1970, a Governor's task force proposed the concept of a living park that would allow the families to stay and in some way participate in the park. The Governor recommended the concept to the Department of Land and Natural Resources. The residents were allowed to stay on the land under revocable leases.

The State determined that as a condition of their lease each Kahana family would contribute twenty-five hours of interpretive services per month to the park, to preserve, restore, and share the history and rural lifestyle of the ahupua'a with the public.

Act 5, Session Laws of Hawaii 1987, authorized the Department of Land and Natural Resources to issue long-term residential leases to persons who had lived continuously in Kahana Valley or had permits allowing them to reside on certain parcels of land within Kahana Valley. As a condition of holding a lease, these qualified persons agreed to participate in interpretive programs in Kahana Valley State Park.

Thirty-one original families qualified for the long-term residential leases. However, descendants of six families that did not originally qualify for long-term residential leases remained in Kahana Valley State Park. The Department of Land and Natural Resources recently started eviction actions against these six families.

Your Committee finds that Kahana Valley State Park serves the whole community. Interpretive programs designed and offered by lease holders, residents, and lineal descendants of Kahana Valley provide students of all ages, from the university level to elementary, the opportunity to experience the traditional Hawaiian lifestyle. The interpretive programs are a successful collaboration thanks to the tireless efforts of lease holders, residents, and lineal descendants.

Your Committee has heard from many lineal descendants of Kahana Valley families who want to return. One public citizen, whose family resided in Kahana Valley since the 1800's, served in the Army for twenty years before returning. Now, that public citizen travels daily to Kahana Valley to maintain his father's taro field and participate in interpretive programs. There is no opportunity for kupuna to return to Kahana Valley, which the public citizen notes is necessary to perpetuate the culture and teach younger generations.

Your Committee understands that many participants in interpretive programs are lineal descendants of Kahana Valley families who do not qualify for long-term leases under Act 5, Session Laws of Hawaii 1987, as amended, and that the criteria used to determine long-term lease eligibility needs to be addressed in a collaborate setting.

Your Committee further finds that the lease holders, residents, and lineal descendants of Kahana Valley should have a meaningful say in planning the future of Kahana Valley State Park. Your Committee urges the Department of Land and Natural Resources to engage in a dialogue with the residents and lineal descendants on the issues raised during testimony. Kahana Valley is a unique residential and cultural site, and it is understandable that those who are connected with Kahana Valley want to return as lessees. Your Committee notes that the six families who have eviction actions against them should have the opportunity to reconcile their issues.

Your Committee has amended this measure by:

- (1) Renaming the master plan advisory committee as the planning council;
- (2) Increasing the membership of the planning council;
- (3) Providing that the planning council consider lineal descendants of Kahana Valley for long-term leases in the development of the living park master plan; and
- (4) Making technical, nonsubstantive changes for clarity and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 638, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 638, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Fukunaga).

**SCRep. 101 (Majority) Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1317**

The purpose of this measure is to abolish the Agribusiness Development Corporation and transfer its responsibilities and functions to the Department of Agriculture.

Testimony in opposition of this measure was submitted by two state agencies and five organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of the state government is necessary to ensure that all available avenues have been explored to accomplish more with fewer resources.

Your Committee has amended this measure by amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1317, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Tokuda). Excused, 2 (Takamine, Hemmings).

**SCRep. 102 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 582**

The purpose of this measure is to prevent the disenfranchising of Native Hawaiians from their familial lands by having the title to any unclaimed kuleana lands held in trust in the Office of Hawaiian Affairs until rightful descendants can be found.

Specifically, the purpose of this measure is to:

- (1) Make the Office of Hawaiian Affairs the trustee of any unclaimed kuleana lands;

- (2) Provide a mechanism whereby descendants of native tenants may make a claim with the Office of Hawaiian Affairs for unclaimed kuleana lands; and
- (3) Prohibit quiet title actions or adverse possession claims for kuleana lands.

Testimony in support of this measure was submitted by one organization and one public citizen. One state agency and one organization supported the intent of this measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that there have been countless historical instances of persons using various means to disenfranchise Native Hawaiian families and longtime kama'aina from their family kuleana lands. This practice continues today through various legal practices. The system of traditional land and ocean resource management used in Hawai'i relied on natural contours of the land for geographical boundaries. These boundaries are often affected by adverse possession of kuleana lands.

Your Committee further finds that the Office of Hawaiian Affairs is the appropriate agency to serve as trustee because of their deep commitment to the protection of rights to kuleana lands.

Your Committee has amended this measure by:

- (1) Amending section 560:2-105.5, Hawaii Revised Statutes, to conform the probate code to the requirements of this measure; and
- (2) Making technical, nonsubstantive changes for style and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 582, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 582, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Kokubun, Takamine).

**SCRep. 103 (Joint/Majority) Human Services and Labor on S.B. No. 1183**

The purpose of this measure is to conform the State's laws to the Americans with Disabilities Act Amendments Act of 2008, P.L. 110-325, by broadening the types of disabilities that are protected against employment discrimination.

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities; the Disability and Communication Access Board; the Hawaii Civil Rights Commission; the Hawaii Disability Rights Center; and one individual. The Department of Human Services submitted comments on the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that the Americans with Disabilities Act Amendments Act expanded the definition of "disability," resulting in certain federal law protections that are stronger than corresponding protections currently provided under Hawaii law. In order to conform to federal law, Hawaii must broaden its relatively narrow definition of disability. The United States Supreme Court has found that such conformity is required of the states, holding in California Federal Sav. And Loan Ass'n v. Guerra, 479 U.S. 272, 107 S.Ct. 683 (1987), that federal law offers the minimum level of protection beneath which state law may not fall.

Your Committees note suggestions made by the Hawaii Civil Rights Commission, including:

- (1) Amending the definition of "disability" in the administrative rules rather than in the Hawaii Revised Statutes;
- (2) Waiting for the United States Equal Employment Opportunity Commission to develop regulations defining various terms contained within the Americans with Disabilities Act Amendments Act, and conforming the Hawaii Civil Rights Commission's rules to federal regulations;
- (3) Providing sufficient time for the Hawaii Civil Rights Commission to review and consider the Equal Employment Opportunity Commission regulations when amending its own rules; and
- (4) Obtaining public input during the rulemaking process, with the potential for creating stronger protections than those provided under federal law.

Your Committees have amended this measure by making technical amendments for purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1183, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1183, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, 1 (Hemmings). Excused, 2 (Ihara, Slom).

**SCRep. 104 (Joint) Transportation, International and Intergovernmental Affairs and Commerce and Consumer Protection on S.B. No. 101**

The purpose of this measure is to allow the county agencies responsible for taxicab regulation to conduct criminal history records checks on taxicab drivers and applicants for taxicab driver's certificate.

Your Committees received testimony in support of this measure from the Hawaii State Association of Counties, one Maui County Council Member, and Charley's Taxi. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that taxicab drivers interact on a personal basis with each customer. Your Committees are concerned that such interaction may pose a risk to the public if the taxicab driver has a criminal record, such as a conviction for a crime involving physical or sexual assault. This measure alleviates the problem by allowing the taxi company employer to access the applicant's or driver's criminal history.

Your Committees have amended this measure to change the effective date to July 1, 2050, to facilitate continuing discussions on this matter.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 101, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 101, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Ige, Sakamoto, Hemmings, Slom).

**SCRep. 105 Education and Housing on S.B. No. 1669**

The purpose of this measure is to authorize the issuance of general obligation bonds to fund Department of Education repair and maintenance projects.

Testimony in support of this measure was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the backlog of repair and maintenance at Department of Education schools and other facilities has not been adequately addressed and that, in many cases, this has a detrimental effect on student learning. Your Committee further finds that while the State's economic stimulus plan includes nearly \$318,000,000 for public school and library projects previously approved by the Legislature, much more is needed. Addressing the repair and maintenance backlog will require additional funding sources and greater flexibility in expending those funds.

Your Committee has amended this measure accordingly, by:

- (1) Designating the bond authorization sections of the measure as part I;
- (2) Extending the lapse date on the moneys appropriated in fiscal year 2011-2012 to June 30, 2014; and
- (3) Adding a new part II, to provide a temporary procurement exemption from chapters 103 and 103D, Hawaii Revised Statutes, to the Department of Education in order to expedite repair and maintenance capital improvement projects.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1669, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1669, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 106 Education and Housing on S.B. No. 139**

The purpose of this measure is to propose a constitutional amendment to authorize the State to issue special purpose revenue bonds and use the proceeds from the bonds to assist not-for-profit organizations that support charter schools.

Testimony in support of this measure was submitted by one state agency, four charter schools, and two private organizations. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure would address one of the major expenses of running a charter school – facilities costs. A related measure, S.B. No. 140, would authorize the issuance of special purpose revenue bonds to not-for-profit organizations that support charter schools. Your Committee notes that such bonds are already authorized for not-for-profit private schools and early childhood education and care facilities.

Your Committee has heard the concerns raised by the Department of Budget and Finance regarding federal tax implications and the ability of not-for-profit organizations to generate sufficient revenue for debt service repayment, and urges the parties to work together to resolve these issues.

Your Committee has amended this measure accordingly, by:

- (1) Amending the effective date to July 1, 2040, for the purpose of encouraging further discussion; and
- (2) Making technical amendments to reflect the preferred Ramseyer style.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 139, S.D. 1, and be referred to the Committees on Ways and Means and Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 107 Education and Housing on S.B. No. 140**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to not-for-profit organizations that support charter schools.

Testimony in support of this measure was submitted by one state agency, three charter schools, and two private organizations. Two state agencies submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure would address one of the major expenses of running a charter school – facilities costs. A related measure, S.B. No. 139, proposes a constitutional amendment to authorize the State to issue special purpose revenue bonds and use the proceeds from the bonds to assist not-for-profit organizations that support charter schools. Your Committee notes that such bonds are already authorized for not-for-profit private schools and early childhood education and care facilities.

Your Committee has heard the concerns raised by the Department of Budget and Finance regarding federal tax implications and the ability of not-for-profit organizations to generate sufficient revenue for debt service repayment, and urges the parties to work together to resolve these issues.

Your Committee has amended this measure by amending the effective date to July 1, 2040, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 140, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 108 (Majority) Education and Housing on S.B. No. 1278**

The purpose of this measure is to:

- (1) Prohibit movement of junior kindergarten and kindergarten students between tiers, except under certain circumstances;
- (2) Prohibit a junior kindergartener from directly graduating to the first grade;
- (3) Establish a separate curriculum for the junior kindergarten program;
- (4) Require the Department of Education to staff junior kindergartens with qualified preschool teachers and teacher aides; and
- (5) Appropriate funds for the implementation of a junior kindergarten program with a certain student-teacher ratio.

Testimony in support of this measure was submitted by one private organization and six individuals. Testimony in opposition was submitted by two state agencies, one private organization, and one school. Copies of written testimony are available for review on the Legislature's website.

Your Committee understands that the nature of the developmental learning sequence of young children is very dynamic. Young students who appear to be behind their peers at the beginning of the year may in fact catch up and be fully prepared for entrance into the first grade by the end of the school year. Your Committee has heard a number of concerns by the Department of Education regarding this measure, in particular the prohibition to advance a junior kindergartener to grade one in a year.

Your Committee notes that the Department is committed to developing appropriate assessment protocols that may be used to screen a child for areas of readiness, as well as areas of skill and knowledge development.

Your Committee has amended this measure accordingly, by:

- (1) Allowing a junior kindergarten student to graduate directly to the first grade under certain circumstances;
- (2) Removing references to preschool teacher aides, as these are not preschool programs;
- (3) Clarifying the minimum standards for teachers and teacher aides; and
- (4) Adding appropriations for teacher professional development to address curricular, instructional, and assessment practices in a two-tiered kindergarten, with a focus on junior kindergarten.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1278, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Galuteria).

**SCRep. 109 Education and Housing on S.B. No. 1118**

The purpose of this measure is to provide additional incentives for the development of affordable housing by increasing the low-income housing tax credit from a one-time credit of fifty per cent to a one hundred per cent credit taken over five years.

Testimony in support of this measure was submitted by three private organizations. Testimony in opposition was submitted by two state agencies. One private organization submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee further finds that while the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committee has heard and approved a wide range of proposed affordable housing initiatives and encourages further legislative discussions on the proposal in this measure.

Your Committee has amended this measure by deleting its content and replacing it with the language in S.B. No. 861. As amended this measure shortens the period over which the state low-income housing tax credit can be taken from ten years to five years, thus allowing taxpayers to claim larger tax credit amounts over a shorter period of time.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1118, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 110 Education and Housing on S.B. No. 1119**

The purpose of this measure is to provide incentives for the production of affordable housing by authorizing the Hawaii Housing Finance and Development Corporation and the Hawaii Community Development Authority to transfer development rights and credits pursuant to conditions to be established by rule.

Testimony in support of this measure was submitted by three state agencies and two private organizations. Comments were submitted by one state agency and one county agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents, and that all alternatives should be considered.

Your Committee has heard a number of concerns regarding the implementation of this measure, however, and agrees that there are a number of issues still to be resolved.

Your Committee has amended this measure accordingly, by:

- (1) Deleting the authorization for the Hawaii Housing Finance and Development Corporation and the Hawaii Community Development Authority to transfer development rights and credits, and extending that authorization to the Office of Planning;
- (2) Establishing a working group within the Office of Planning to develop a plan and recommendations to enhance and encourage the development of affordable housing, as defined in section 201H-57, Hawaii Revised Statutes, through the transfer of development rights and credits to transit-oriented development districts; and
- (3) Requiring the Office of Planning to report to the 2010 Legislature on the plan and recommendations.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1119, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 111 Education and Housing on S.B. No. 100**

The purpose of this measure is to allow a county legislative body ninety instead of forty-five days to approve, approve with modifications, or disapprove an affordable housing project.

Testimony in support of this measure was submitted by five county agencies. Testimony in opposition was submitted by two state agencies, two county agencies, and five private organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committee has heard that county legislative bodies have a difficult time meeting the forty-five day decision requirement. The counties have noted that the forty-five day limit does not provide time for responsible review, as much of the time that should be spent evaluating a project is consumed by the notice requirements under chapter 92, Hawaii Revised Statutes.

Your Committee understands that there may be extenuating circumstances that would preclude the counties from adequate consideration of affordable housing projects, but your Committee does not want to delay all projects in a time of such critical need for affordable housing. Your Committee urges the counties to work with the Hawaii Housing Finance and Development Corporation to determine what circumstances might allow the Corporation to extend the review period to sixty days.

Your Committee has amended this measure accordingly, by authorizing the legislative body to request that the corporation approve an extension to sixty days if the legislative body determines that circumstances require additional time for review.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 100, as amended herein, and recommends that it pass Second Reading

in the form attached hereto as S.B. No. 100, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 112 Education and Housing on S.B. No. 757**

The purpose of this measure is to authorize and appropriate funds for the Hawaii Housing Finance and Development Corporation to establish a shelter in place pilot program to provide a subsidy, including grants, loans, and no-interest loans, to low- and moderate-income homeowners and renters that are at risk of losing their home or rental due to a job loss or loss of work hours.

Testimony in support of this measure was submitted by one county agency, two private organizations, and one individual. Testimony in opposition was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee further finds that the federal economic stimulus legislation may provide some funding for initiatives such as those in the shelter in place program and encourages further legislative discussions on the proposal in this measure.

Your Committee has amended this measure by:

- (1) Placing the pilot program under the Hawaii Public Housing Authority; and
- (2) Authorizing the Hawaii Public Housing Authority to contract for services to implement the project, which will allow the Hawaii Public Housing Authority to respond in a more timely manner.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 757, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 113 Education and Housing on S.B. No. 862**

The purpose of this measure is to facilitate the collection of the shared appreciation equity lien, deferred sales price lien, and excess proceeds in lieu of any buyback, imposed by the State on the sale of affordable housing properties that received assistance from the Hawaii Housing Finance and Development Corporation ("Corporation"), which are undergoing foreclosure.

Testimony in support of this measure was submitted by one state and one county agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the sale of affordable housing properties sponsored or assisted by the Hawaii Housing Finance and Development Corporation is subject to a buyback restriction and a shared appreciation equity lien. The Corporation has also provided deferred sales price liens to assist low or moderate income homebuyers in purchasing a first home, and upon the sale or transfer of a Corporation-assisted home, the shared appreciation equity is collected and deposited into the dwelling unit revolving fund, and can be used to support the development of additional affordable housing projects.

Your Committee further finds that recently, the Corporation has not been receiving sufficient prior notice of foreclosure proceedings, and the lack of sufficient advance notice makes it difficult to prepare to bid at foreclosure sales. This measure would require notice of intent to foreclose forty-five days before commencement of the foreclosure and allow the Corporation sufficient time to conduct due diligence and, when appropriate, prepare to bid at the foreclosure sale.

In addition, passage of this bill will protect the Corporation's lien rights in the event of foreclosure, and enable recovery of funds to support the development of additional housing.

Your Committee has amended this measure by making technical amendments for the purpose of clarity and to conform to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 862, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 862, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 114 Education and Housing on S.B. No. 440**

The purpose of this measure is to require counties to accept or reject a public infrastructure dedication, under specified conditions, as part of an affordable housing project, or the infrastructure is deemed dedicated.

Testimony in support of this measure was submitted by two state agencies and four private organizations. Three county agencies submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee further finds that while the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committee has heard and approved a wide range of proposed affordable housing initiatives and encourages further legislative discussions on the proposal in this measure.

Your Committee has amended this measure to require that the dedicated infrastructure conform to county building codes in effect at the time of construction.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 440, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 115 Education and Housing on S.B. No. 755**

The purpose of this measure is to authorize the Hawaii Community Development Authority to process an application for subdivision and consolidation of land for a planned development project with at least twenty per cent of the total number of dwelling units in the project reserved for sale or rental to qualified persons as determined by the Authority.

Testimony in support of this measure was submitted by one state agency and two private organizations. Testimony in opposition was submitted by one county agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents, and that all alternatives should be considered.

Your Committee believes that the amendments made to this measure strengthen the State's commitment to increasing affordable housing development in Hawaii.

Your Committee has amended this measure to:

- (1) Authorize the Hawaii Community Development Authority to process an application for subdivision and consolidation of land for a planned development project:
  - (A) On a development lot between 20,000 and 80,000 square feet with at least twenty per cent of the total number of dwelling units in the project reserved for sale or rental to qualified persons as determined by the Authority; and
  - (B) On a development lot greater than 80,000 square feet with at least twenty-five per cent of the total number of dwelling units in the project reserved for sale or rental to qualified persons as determined by the Authority; and
- (2) Clarify that the measure does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 755, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 755, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 116 (Joint/Majority) Higher Education and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 502**

The purpose of this measure is to authorize the Board of Regents of the University of Hawai'i to:

- (1) Charge fees and enter into lease agreements for the Mauna Kea lands under its control;
- (2) Adopt rules to regulate public and commercial activities on Mauna Kea lands;
- (3) Establish and collect administrative fines for violations; and
- (4) Establish a Mauna Kea lands management special fund to assist the University of Hawai'i in its task of regulating the use of the Mauna Kea lands.

Testimony in support of this measure was submitted by the University of Hawai'i System; Department of Business, Economic Development, and Tourism; and Association of Hawaiian Civic Clubs. KAHEA, the Hawaiian-Environmental Alliance; Sierra Club Hawai'i Chapter; and four individuals submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that the issues surrounding the Mauna Kea lands are complex and varied, ranging from native Hawaiian rights and the use of ceded lands; the economic benefits of Mauna Kea lands activities; jurisdictional responsibilities; financial management; land and natural resource management; infrastructure requirements; and the balance of short-term needs and long-range planning.

Your Committees further find that there have been extensive efforts to address these issues, including the 1995 Revised Management Plan, adopted by the Board of Land and Natural Resources, for the University of Hawai'i Management Areas on Mauna Kea, which assigns management and enforcement responsibilities of public and commercial use and institutes commercial use and management controls; the University of Hawai'i Mauna Kea Science Reserve Master Plan 2000 Master Plan, adopted by the Board of Regents as the policy framework for the responsible stewardship and use of university-managed lands on Mauna Kea; and the Comprehensive Management Plan for Mauna Kea, which is currently in public review.

Your Committees fully understand that there will not be agreement by all the parties. As with any complex issue, compromise is not always possible. Your Committees commend those involved with developing the Comprehensive Management Plan for Mauna Kea for their good faith efforts to hear – if not resolve – problems and concerns. It is the hope of the Committees that all efforts to engage and address the concerns of stakeholders will continue.

Your Committees have heard representatives of the University of Hawai'i agree that past management of the Mauna Kea lands has been problematic. Your Committees believe that this acknowledgement is a significant step forward in resolving at least some of the concerns raised both in this measure and in the various planning efforts related to Mauna Kea lands.

Your Committees would term this measure a “work in progress”. In addition to the amendments below, your Committees believe that the area of jurisdiction should be further defined as this measure moves forward. Your Committees concur that the following amendments begin to focus and clarify the authority that would be granted to the Board of Regents, and ensure that the Board acts in consultation with other entities.

Your Committees have amended this measure accordingly, by:

- (1) Requiring the Board of Regents, in adopting rules, to:
  - (A) Strive for consistency with the provisions of the administrative rules of the Division of Forestry and Wildlife of the Department of Land and Natural Resources related to forest reserves and natural area reserves, as such designated lands currently exist on Mauna Kea lands; and
  - (B) Consult with the Office of Hawaiian Affairs to ensure that these rules shall not affect any right, customarily and traditionally exercised for subsistence, cultural, and religious purposes and possessed by ahupua'a tenants who are descendants of native Hawaiians who inhabited the Hawaiian Islands prior to 1778, subject to the right of the State to regulate such rights;
- (2) Requiring the Board of Regents to set and assess fines in consultation with the office of Hawaiian affairs;
- (3) Requiring the Board of Regents to report annually to the Legislature on the Mauna Kea lands activities, current and pending lease agreements and fees, the status of current and pending administrative rules, income and expenditures of the Mauna Kea lands special fund established in section 304A-F, Hawaii Revised Statutes, and any other issues that may impact the activities of the Mauna Kea lands;
- (4) Amending the purpose section to reflect these changes;
- (5) Amending the effective date to July 1, 2025, for the purpose of encouraging further discussion; and
- (6) Making technical amendments to correct drafting errors.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 502, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 502, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, 1 (Slom). Excused, 1 (Hemmings).

**SCRep. 117 (Joint) Higher Education and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1179**

The purpose of this measure is to require the University of Hawai'i, College of Tropical Agriculture and Human Resources, in cooperation with the Department of Agriculture and the Hawaii Farm Bureau Federation, to conduct a feasibility study on the potential for establishing a Farm to School program in Hawai'i's public schools.

Testimony in support of this measure was submitted by the University of Hawai'i System, Department of Education, Hawaii Farm Bureau, Maui County Farm Bureau, Kokua Hawai'i Foundation, and seven individuals. The Department of Agriculture submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that the Farm to School program is a well established national program. Kokua Hawai'i Foundation has piloted efforts to develop this program in the State. Currently, three schools participate in the Farm to School program: Aikahi Elementary, Moanalua Elementary, and Hakipuu Learning Center; in addition, Haiku Elementary buys produce from local farmers when it is available.

Your Committees further find that the Farm to School program provides dual benefits to the State: healthy eating options for students and economic opportunities for farmers and ranchers. Both are a good investment in Hawai'i's future, and creating a linkage between farms and schools will foster a greater appreciation of the sources of food as well as introducing students to opportunities in agricultural careers.

Your Committees have amended this measure by:

- (1) In part I, establishing a Farm to School policy in chapter 302A, Hawaii Revised Statutes;

- (2) In part II, clarifying that the University of Hawai'i College of Tropical Agriculture and Human Resources will convene a working group of stakeholders to consider the feasibility of establishing a Farm to School program in Hawai'i's public schools; and
- (3) Adding the Department of Education to the working group.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1179, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1179, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Taniguchi, Hemmings, Slom).

**SCRep. 118 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Higher Education on S.B. No. 1311**

The purpose of this measure is to protect Hawai'i's natural resources and to promote and expand collaboration among state agencies.

Specifically, the purpose of this measure is to:

- (1) Allow the University of Hawai'i use of Department of Land and Natural Resources staff for the purposes of the Hawai'i Marine Laboratory Refuge; and
- (2) Exempt the University of Hawai'i from any permitting or application requirements when carrying out any function or duty relating to the Hawai'i Marine Laboratory Refuge.

Testimony was submitted in support of the intent of this measure by one organization, and testimony in opposition was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

The University of Hawai'i employs twenty-four-hour security personnel at the Hawai'i Marine Laboratory Refuge, with an annual cost of approximately \$161,066. The security personnel do not have authority to patrol the refuge and stop persons from taking live coral, fish, or other invertebrates from the refuge. Your Committees find that allowing the University of Hawai'i use of Department of Land and Natural Resources staff for the purposes of enforcing security of the Hawai'i Marine Laboratory Refuge will help preserve the reef and its living resources.

Your Committees further find that exempting the University of Hawai'i from any permitting or application requirements when carrying out any function or duty relating to the Hawai'i Marine Laboratory Refuge is too broad. The permitting process requires all applicants to undergo necessary oversight to uphold high standards when conducting research or removing a regulated species.

Your Committees have amended this measure by:

- (1) Narrowing the exemption to allow the University of Hawai'i to carry out repair and maintenance of the Hawai'i Marine Laboratory Refuge without a permit or application; and
- (2) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1311, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1311, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 5 (Bunda, Fukunaga, Sakamoto, Taniguchi, Slom).

**SCRep. 119 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Education and Housing on S.B. No. 1268**

The purpose of this measure is to permit the Department of Hawaiian Home Lands to receive and subsequently assign, transfer, or exchange county affordable housing credits.

Testimony in support of this measure was submitted by one state agency, eleven organizations, and one public citizen. One state agency supported the intent of the measure, and comments were submitted by two organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that private-sector development of affordable homes for the Department of Hawaiian Home Lands beneficiaries is a key element in helping to solve Hawaii's affordable housing shortfall. By increasing the supply of homes on the Department of Hawaiian Home Lands properties, the overall supply of homes in the State is increased thus making more homes available for the people of Hawaii. Allowing affordable housing credits to be applied to other projects located in the same county in which the credits are earned is a great incentive for the private sector to get involved with the Department of Hawaiian Home Lands affordable housing program.

Your Committees have amended this measure by adopting the recommendations of the Department of Hawaiian Home Lands and:

- (1) Deleting section 1 of the measure, authorizing the Department of Hawaiian Home Lands to receive county affordable housing credits, because the Department of Hawaiian Home Lands already has such authority;
- (2) Authorizing the counties to issue affordable housing credits to the Department of Hawaiian Home Lands and allowing the Department to transfer and assign the credits; and
- (3) Specifying how the affordable housing credits may be issued and applied.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1268, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1268, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Bunda, Fukunaga, Tsutsui).

**SCRep. 120 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Public Safety and Military Affairs on S.B. No. 560**

The purpose of this measure is to require the Office of Hawaiian Affairs to conduct a study on the disparate treatment of Native Hawaiians and other ethnic groups in the State's criminal justice system.

Testimony in support of this measure was submitted by one state agency, six organizations, and two public citizens. One public citizen submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that the over-representation of Native Hawaiians in the criminal justice system is an issue that has not been adequately addressed.

Your Committees further find that any racial or ethnic disparity within the State's criminal justice system fosters public mistrust of the system and impedes the State's ability to promote public safety. A commitment to a fair criminal justice system and functioning democratic society requires addressing these existing racial and ethnic disparities.

According to recent studies, Native Hawaiians account for twenty per cent of the total population of the State but forty per cent of State's the prison population. Native Hawaiians average twenty-three per cent of all arrests in the State, and are twice as likely to be incarcerated as any other group. In 1999, it was reported that more than fifty per cent of the female population and more than sixty per cent of the male population, at the Hawaii Youth Correctional Facility were Native Hawaiian.

The high rates of incarceration have profound implications for Native Hawaiians. For example, almost sixty per cent of children placed in child protective services are Native Hawaiian. Of those children, eight per cent to thirty-three per cent have incarcerated parents. Studies suggest that adult children of incarcerated mothers are two and one-half times more likely to be incarcerated than adult children of incarcerated fathers. Ninety-five per cent of the one hundred twenty female Hawaii inmates incarcerated at a single mainland facility are mothers.

Incarceration has many long-term effects including negative impacts on health, family instability, diminished lifetime wages, social stigma, and educational limitations. These negative impacts result in higher rates of illness and death.

Your Committees have amended this measure by:

- (1) Establishing a task force to conduct the study on the disparate treatment of Native Hawaiians and other ethnic groups in the State's criminal justice system;
- (2) Including a provision directing the Department of Public Safety, the Judiciary, the Hawaii Criminal Justice Data Center, and other state agencies as requested to cooperate with the directive of the task force;
- (3) Deleting the appropriation, as the Office of Hawaiian Affairs informed your Committees that no appropriation was necessary to complete the report, and accordingly, changing the effective date of the measure to upon approval; and
- (4) Making technical, nonsubstantive changes for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 560, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 560, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 5 (English, Fukunaga, Kidani, Takamine, Hemmings).

**SCRep. 121 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Public Safety and Military Affairs on S.B. No. 218**

The purpose of this measure is to transfer law enforcement jurisdiction over the Iolani Palace from the Department of Land and Natural Resources to the Department of Public Safety.

Testimony providing comments on this measure was submitted by one state agency and one organization. Two state agencies submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that it is not the intent of this measure to transfer:

- (1) The management functions of the Department of Land and Natural Resources relating to historical preservation for Iolani Palace. Rather, this measure is limited to transferring the law enforcement functions over the grounds and the building of the Iolani Palace; or
- (2) The rulemaking authority of the Department of Land and Natural Resources.

Law enforcement jurisdiction over the grounds of the Iolani Palace currently resides with the Department of Land and Natural Resources as a public park. The Division of Conservation and Resources Enforcement (DOCARE), the law enforcement division of the Department of Land and Natural Resources, is stretched thin due to the vast array of public land over which it has enforcement

jurisdiction, including public parks, forests, beaches, and oceans. This measure will enable DOCARE officers to be available to attend to other necessary tasks of their Division. In this regard, your Committees find the specialization of DOCARE offices are better applied to the areas of forests, beaches, and oceans.

Furthermore, the Department of Public Safety, Sheriffs' Division, has jurisdiction over the State Capitol, which is adjacent to the Iolani Palace buildings and grounds. Due to the physical proximity of the State Capitol to Iolani Palace, the Department of Public Safety's participation in law enforcement at the Palace is logical.

Additionally, DOCARE presently has overlapping jurisdiction over Iolani Palace. The Department of Public Safety sheriffs and the Honolulu Police Department officers offer assistance to DOCARE officers when they are unable to respond to Iolani Palace disturbances with sufficient numbers. Thus, removing the Iolani Palace from DOCARE's jurisdiction permits the Department of Public Safety to have a greater role in the protection of the Iolani Palace. Your Committees note that the Honolulu Police Department has a station near the Iolani Palace, and thus may also be a more suitable enforcement agency for the Iolani Palace buildings and grounds.

Your Committees have amended this measure by:

- (1) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion; and
- (2) Making technical, nonsubstantive changes to add missing statutory language.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 218, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 218, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (English, Fukunaga, Kidani, Takamine, Hemmings).

**SCRep. 122 Labor on S.B. No. 1126**

The purpose of this measure is to authorize the executive departments, the University of Hawaii, the Judiciary, the Office of the Legislative Reference Bureau, the Office of the Auditor, and the Office of the Ombudsman to establish voluntary job-sharing programs for their permanent, full-time employees.

The Department of Human Resources Development submitted comments on the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that job-sharing provides flexible employment opportunities for certain state employees. Your Committee further finds that the State Auditor reviewed previously authorized job-sharing pilot projects and reported job-sharing to be a feasible, desirable, and cost-effective work arrangement that allowed job-sharers to care for their children, spend more time with their families, pursue additional education and training, and take care of other personal needs. The Auditor also recommended that job-sharing be made available to all state agencies to use at their discretion.

Your Committee has heard the concerns of the Department of Human Resources Development that this measure may increase costs by requiring the State to pay for the benefits of two full-time employees for the same position. Your Committee believes this merits further discussion by the Committee on Ways and Means.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1126, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 123 Labor on S.B. No. 876**

The purpose of this measure is to:

- (1) Clarify the retirement date for ordinary disability retirement;
- (2) Clarify that a challenge to an application for disability retirement or accidental death benefits is considered a petition for a contested case hearing and not an appeal of a medical board's decision;
- (3) Allow for the payment of approved attorney's fees and costs in disability retirement and accidental death cases;
- (4) Clarify the maximum retirement allowance for certain members; and
- (5) Clarify the restoration of service credits for certain reemployed noncontributory members.

Testimony in support of this measure was submitted by the Board of Trustees of the Employees' Retirement System. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure provides necessary clarifications to existing laws relating to the Employees' Retirement System. Your Committee further finds that this measure will streamline administration of the Employees' Retirement System.

Your Committee has amended this measure to correct typographical errors and to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 876, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 124 Commerce and Consumer Protection on S.B. No. 1128**

The purpose of this measure is to repeal the sunset date on the prohibition against stealing beer kegs.

Current law establishing a misdemeanor offense for the theft of beer kegs and imposing certain record-keeping requirements on scrap metal dealers includes a provision to repeal the Act creating the law on July 1, 2009. This measure repeals that expiration date to ensure that theft of a beer keg remains a misdemeanor offense and preserves the record-keeping requirement.

Your Committee received testimony in support of this measure from Anheuser Busch Companies. Copies of written testimony are available for review on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1128 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 125 Education and Housing on S.B. No. 360**

The purpose of this measure is to require the Department of Education to allow children who are home schooled to participate in extracurricular activities at the public school they would otherwise be required to attend.

Testimony in support of this measure was submitted by one state agency and seventeen home school students and parents. Copies of written testimony are available for review on the Legislature's website.

Your Committee has heard compelling testimony on the importance of extracurricular activities for home school students, from the students themselves. While younger students often have community programs available, particularly for sports, by the time the students are high school age, the options are much more limited. Many of the students who testified spoke of personal talents and skills that would be a valuable asset for any organized activity, and the frustration they face when they are not able to find a place to develop those talents and skills.

Your Committee believes that this measure would be a win-win for home school students as well as the public schools, and is in strong support of its passage.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 360 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 126 (Joint) Education and Housing and Labor on S.B. No. 161**

The purpose of this measure is to repeal salary ranges for teachers in the Department of Education.

Testimony in support of this measure was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that pursuant to section 89-9, Hawaii Revised Statutes, teacher salary schedules are negotiated. As a result, the salary range table contained in section 302A-622, Hawaii Revised Statutes, is outdated and does not reflect the current bargaining unit negotiated salary ranges.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 161 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Hee, Kidani, Hemmings, Slom).

**SCRep. 127 Education and Housing on S.B. No. 1120**

The purpose of this measure is to clarify civil service status of employees at two conversion charter schools, Waialae and Lanikai Elementary Schools.

Testimony in support of this measure was submitted by one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure will resolve a question of the employment status of Department of Education employees at these two schools.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1120 and recommends that it pass Second Reading and be referred to the Committee on Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 128 (Majority) Education and Housing on S.B. No. 748**

The purpose of this measure is to provide funding to the school complex areas for academic coaches and programs or initiatives for professional development or increased teacher retention.

Testimony in support of this measure was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the establishment of complex areas provides the opportunity for the more efficient and cost-effective management of schools and school complexes. The programs to be funded through this appropriation focus on increasing student learning and professional development opportunities for teachers, through cost efficiencies of complex funding.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 748 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 129 (Joint/Majority) Human Services and Health on S.B. No. 1344**

The purpose of this measure is to require the Department of Human Services to include in its requests for proposals for QUEST providers various provisions that will safeguard against the disruption of services that may be caused by positive enrollment.

Your Committees received testimony in support of this measure from Aloha Care and Hawaii Primary Care Association. Testimony in opposition was received from the Department of Human Services. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that it is important to give QUEST recipients the opportunity to select their health plans and primary care providers. Positive enrollment requires QUEST recipients to select a health plan and a primary care provider, even if they have done so previously. The requirement to reenroll in a health plan and primary care provider causes confusion among QUEST recipients, delays in needed health care procedures, disruption of case management services, and loss of contact between enrollees and their primary care providers.

Your Committees find that in order to guard against the adverse consequences of a positive enrollment program, the Department of Human Services must include protective provisions in its requests for proposals for QUEST providers. Specifically, requests for proposals for QUEST providers issued by the Department of Human Services must require that:

- (1) Existing QUEST recipients shall have sixty days to choose a health plan and primary care provider;
- (2) Five per cent of QUEST recipients who have not enrolled shall be selected at random and automatically assigned to a plan and provider; QUEST recipients who have not enrolled and are not randomly selected shall be reassigned to their former plan and provider;
- (3) QUEST recipients who have not enrolled are allowed time to opt out of the plans to which they were automatically assigned; and
- (4) QUEST recipients automatically assigned to a plan that is not their former plan who accidentally go to a provider under their former plan to receive medical services shall be permitted to receive medical services from that provider.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1344 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, 1 (Hemmings). Excused, 2 (Green, Nishihara).

**SCRep. 130 (Joint) Human Services and Health on S.B. No. 417**

The purpose of this measure is to:

- (1) Provide fair compensation to acute care hospitals for the services they provide to Medicaid patients who have been treated for acute illnesses and injuries, and who have recovered sufficiently so that they may be transferred to long-term care, but for whom long-term care is not available; and
- (2) Provide fair compensation to long-term care facilities for patients with medically complex conditions in acute care hospitals when the patients required levels of care change from acute to long-term,

by establishing reimbursement guidelines for Medicaid to acute care hospitals and facilities with long-term care beds.

The reimbursement guidelines established by the measure require that:

- (1) The Medicaid reimbursement rate to hospitals for patients occupying acute-licensed beds and waitlisted for long-term care shall be equal to the acute medical services payment rate; and
- (2) The Medicaid reimbursement rate to facilities with long-term care beds for patients with medically complex conditions who, prior to admission to the facility were receiving acute care services in an acute care hospital shall be equal to the state subacute care reimbursement rate.

Your Committees received testimony in support of this measure from the Chamber of Commerce of Hawaii, Hawaii Pacific Health, Hawaii Disability Rights Center, Hawaii Long Term Care Association, Kaiser Permanente, AARP Hawaii, and Healthcare Association of Hawaii. Testimony in opposition was received from the Department of Human Services. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that on any given day, there are approximately two hundred patients in acute care hospitals waiting to be transferred to long-term care facilities. Acute care facilities are unable to accept new patients in need of acute levels of care, and, despite the fact that their operational costs remain the same, the acute care facilities are reimbursed at a significantly lower rate for patients eligible for long-term care who occupy their beds. Additionally, long-term care facilities operate at a loss when they accept long-term care patients with medically complex conditions. This deters facilities from expanding their provision of long-term care, and is a contributing factor to the chronic shortage of long-term care beds.

Your Committees therefore find that the establishment of Medicaid reimbursement guidelines as provided by this measure is necessary to promote the movement of waitlisted patients from acute care to long-term care facilities, reduce operational losses that threaten the financial stability of Hawaii's hospitals, and increase the number of facilities providing long-term care for patients who suffer from medically complex conditions.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 417 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 131 (Joint) Human Services and Health on S.B. No. 423**

The purpose of this measure is to appropriate state funds to maximize the availability of the federal Medicaid disproportionate share hospital allowance.

Testimony in support of this measure was received from the Chamber of Commerce of Hawaii, Hawaii Pacific Health, Kaiser Permanente, AARP Hawaii, and the Healthcare Association of Hawaii. The Department of Human Services submitted testimony in opposition to this measure. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that it is imperative to provide quality healthcare for the State's most vulnerable populations. Through the efforts of Hawaii's congressional delegation, a one-time federal Medicaid disproportionate share hospital allowance has been secured for the State. The disproportionate share hospital allowance is intended to compensate hospitals for higher operating costs incurred as a result of treating a large share of low-income patients.

Your Committees further find that the disproportionate share hospital allowance funds cannot be expended without a matching state appropriation. By appropriating the state funds necessary to maximize the availability of the federal disproportionate share hospital allowance, the State will enable healthcare providers to continue offering services to Hawaii's needy population.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 423 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 132 Human Services on S.B. No. 789**

The purpose of this measure is to enhance the individual development accounts program by:

- (1) Clarifying the guidelines for the individual development accounts program;
- (2) Designating the Department of Human Services, or a contracted agency, as the administrator of the individual development accounts program; and
- (3) Appropriating funds to allow fiduciary organizations to operate individual development account programs.

Testimony in support of this measure was received from the Department of Human Services; Hawai'i Alliance for Community-Based Economic Development; and Aloha United Way. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that individual development accounts are special savings accounts that match the deposits of low- and moderate-income holders to save towards qualified financial goals, such as purchasing a home or paying tuition for higher education. The accounts provide incentives to save, and provide families a sense of empowerment when they reach their financial goals.

Your Committee finds that the individual development accounts program, established by chapter 257, Hawaii Revised Statutes, will be benefited by clarifying the program's guidelines and designating the Department of Human Services or a contracted agency to provide administrative support. Further, appropriating funds to cover the operating costs of fiduciary organizations offering individual

development accounts will allow these organizations to continue providing quality financial education, financial planning, and case management services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 789 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 133 Human Services on S.B. No. 197**

The purpose of this measure is to provide a refundable income tax credit to caregivers of qualified care recipients including persons with disabilities and persons sixty years of age and older.

The tax credit would be provided on a sliding scale ranging from ten to one hundred per cent of an unspecified maximum monetary amount, depending on the taxpayer's adjusted gross income.

Testimony in support of this measure was submitted by the Kokua Council, ILWU Local 142, and one individual. The Department of Taxation submitted testimony in opposition to the measure. The Tax Foundation of Hawaii submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that caregivers provide necessary services to family members and friends in need. In so doing, caregivers not only benefit their care recipients by allowing them to avoid or delay institutionalization, but also decrease the burden on Hawaii's chronically scarce long-term care beds, nursing care facilities, and residential care homes.

Your Committee further finds that the benefits derived by care recipients and the State come at a price to caregivers, who frequently make financial sacrifices in order to provide such care, working fewer hours and losing benefits in their attempt to balance their caregiving and employment responsibilities. Your Committee finds that providing a refundable tax credit for caregivers providing care to qualified care recipients will ease the financial burdens caregivers bear and recognize the statewide benefits provided by caregivers.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 197 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 134 Human Services on S.B. No. 1006**

The purpose of this measure is to use culturally sensitive, family strengthening diversion and other supportive services by clarifying that placement of a child in the care of relatives and friends is an alternative to the Department of Human Services' assumption of custody of the child.

Your Committee received testimony in support of this measure from the Department of Human Services; Catholic Charities Hawaii; Family Programs Hawaii; the Partners in Development Foundation; the Kokua Council; and five individuals. The Judiciary submitted comments on this measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the federal Child and Family Services Review of Hawaii's child welfare system recommended that the State implement culturally sensitive and family strengthening diversion practices as an alternative to the Department of Human Services' assumption of custody. It is a local custom for children to be cared for by relatives and friends. Your Committee finds that permitting children to be placed in the homes of relatives and friends will protect against the unnecessary placement of a child in the Department's custody and will preserve the child's relationships with his or her family, friends, and community.

Your Committee acknowledges the comments submitted by the Judiciary and urges the Department of Human Services to include in implementing this measure, the requirements that a caretaker provide notice to the Department of Human Services when they intend to return the child and the powers of attorney be in place.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 135 Human Services on S.B. No. 838**

The purpose of this measure is to provide greater protection to victims of domestic violence who the courts and police are attempting to keep safe through protective orders and police orders.

Specifically, the measure:

- (1) Amends the offense of murder in the first degree to include the killing of a protected person;
- (2) Amends the offense of murder in the second degree to include recklessly causing the death of a protected person;
- (3) Amends the offense of assault in the second degree to include the intentional, knowing, or reckless causing of bodily injury to a protected person; and
- (4) Amends the offense of terroristic threatening in the first degree to include the threatening of a protective person.

Testimony in support of this measure was submitted by the Attorney General; the Department of the Prosecuting Attorney, County of Maui; the Police Department, County of Maui; the Police Department, City and County of Honolulu; the Department of the Prosecuting Attorney, City and County of Honolulu; and the Hawaii State Coalition Against Domestic Violence. The State Office of the Public Defender submitted testimony in opposition to the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that domestic violence is widespread in Hawaii. The State has attempted to address the problem by offering protective orders to domestic violence victims. However, despite the issuance of such protective orders, some victims continue to be harassed, intimidated, and in some cases, killed, by their abusers. This measure seeks to provide greater protection and support to victims of domestic violence who have sought assistance from the courts and the police by, among other things, upgrading the respective grades of offenses applicable to these circumstances, as follows:

- (1) Upgrading manslaughter to murder in the second degree;
- (2) Upgrading terroristic threatening in the second degree, a misdemeanor, to the class C felony of terroristic threatening in the first degree; and
- (3) Upgrading assault in the third degree, a misdemeanor, to the class C felony of assault in the second degree,

when these crimes are committed against protected victims.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 838 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 136 Human Services on S.B. No. 839**

The purpose of this measure is to provide greater protection to children by amending the offense of promoting child abuse in the second degree to include the possession of certain violent and otherwise egregious child pornography and adding mandatory sentencing provisions for child abuse offenses involving dissemination of child pornography.

Your Committee received testimony in support of this measure from the Attorney General; the Department of the Prosecuting Attorney, County of Maui; and the Police Department, County of Maui. The Office of the Public Defender submitted testimony in opposition to the measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that child pornography is a visual record of the exploitation and sexual abuse of a child, and is easily shared with others around the world through electronic mediums. The minor victim portrayed in child pornography continues to be violated as long as the pornographic matter displaying the abuse is disseminated.

Your Committee finds that it is imperative to provide greater protection to children against this form of sexual predation. This bill does so by:

- (1) Amending the offense of promoting child abuse in the second degree by including in the offense the possession of violent or particularly egregious child pornography that involves a child under twelve, sadomasochistic abuse of a minor, sexual penetration of a minor, or bestiality involving a minor; and
- (2) Adding a mandatory sentence of imprisonment for five years, unless a greater mandatory minimum term is authorized by law.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 839 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 137 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1152**

The purpose of this measure is to impose a one-hundred-year moratorium on certain building or development projects on class A or B agricultural lands in senatorial districts twenty two and twenty three for which general planning has not commenced.

Testimony in support of this measure was submitted by one organization, and testimony in opposition to this measure was submitted by one state agency. Comments were submitted by the Department of Agriculture. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the State Constitution and previously enacted legislation such as Act 183, Session Laws of Hawaii 2005, have indicated the priority of agricultural lands to the State. Despite the environmental, financial, nutritional, and other benefits of agriculture to the State, your Committee finds that further action is necessary to prevent development from threatening our most productive agricultural lands, provide affordable water for agriculture, and promote the production and purchase of local produce.

Your Committee believes that this measure provides part of the necessary progress toward the State's food self-sufficiency goals, minimizing the approximately eight-five per cent of products consumed by residents that are imported. As the Governor noted in her State of the State address, replacing just ten per cent of Hawai'i's currently imported food with locally grown food could generate over \$300 million in economic activity, \$6 million in tax revenue, and 2,300 new jobs. Your Committee believes that protecting productive agricultural lands from development will encourage farmers to invest in their land without fear that the land will be sold before they realize returns on their investments, and will ultimately provide stability and diversity to the State's economy.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1152 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Takamine, Hemmings).

**SCRep. 138 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 1022**

The purpose of this measure is to make permanent, liability protections for certain state and county agencies relating to lifeguard services at state beach parks and warnings signs at public recreational areas.

Testimony in support of this measure was submitted by two state agencies, four county agencies, one organization, and three individuals. Testimony in opposition to this measure was submitted by one organization. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that certain public recreational areas have potentially dangerous natural conditions that require a balance of public responsibility to heed signs and warnings, and governmental action to provide for the safe use of those recreational areas.

Your Committees further find that Act 170, Session Laws of Hawaii 2002, as amended, and Act 82, Session Laws of Hawaii 2003, as amended, provided certain county and state agencies with liability protections that will sunset on June 30, 2010. These protections have allowed state and county governments to keep open certain recreational areas which might have otherwise been more dangerous for the public or closed to the public.

Your Committees note that a task force was created by Act 152, Session Laws of Hawaii 2007, to examine the effectiveness of Acts 170, Session Laws of Hawaii 2002, and 82, Session Laws of Hawaii 2003. The task force collected relevant data and, with the exception of one member, found that the liability protections in Acts 170 and 82 were effective. Your Committees agree with the task force's recommendation that the protections in both acts should be made permanent.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1022 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Bunda, Gabbard, Kokubun, Hemmings, Slom).

**SCRep. 139 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1085**

The purpose of this measure is to prohibit the Board of Land and Natural Resources from selling, exchanging, or otherwise alienating ceded lands in the public land trust.

Testimony in support of this measure was submitted by one state agency, fifteen organizations, and twenty-nine public citizens. One state agency submitted comments. Testimony in opposition was submitted by one state agency and two public citizens. Copies of written testimony are available for review on the Legislature's website.

In January 2008, the Hawaii State Supreme Court in *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, 117 Hawaii 174 (2008), enjoined the State from selling or otherwise transferring to third parties any ceded lands from the public lands trust until the claims of the Native Hawaiian people to the ceded lands have been resolved.

The Court stated, that "[b]ased on a plain reading of the . . . [Apology Resolution], we believe Congress has clearly recognized that the native Hawaiian people have unrelinquished claims over the ceded lands, which were taken without consent or compensation and which the native Hawaiian people are determined to preserve, develop, and transmit to future generations." The Court further held, ". . . we believe and, therefore, hold that the Apology Resolution and related state legislation . . . give rise to the State's fiduciary duty to preserve the corpus of the public lands trust, specifically, the ceded lands, until such time as the unrelinquished claims of the native Hawaiians have been resolved. Such duty is consistent with the State's 'obligation to use reasonable skill and care' in managing the public lands trust and Ahuna court's declaration that the State's conduct 'should . . . be judged by the most exacting fiduciary standards.'" 117 Haw. at 193.

In April 2008, the Governor directed the Attorney General to petition the United States Supreme Court for a writ of certiorari on whether the passage of Public Law 103-150, otherwise known as the Apology Resolution, strips the State of Hawaii of the authority to sell, exchange, or transfer ceded lands unless or until the State reaches a political settlement with the Native Hawaiian people about the status of these lands. In October 2008, the United States Supreme Court granted the State's petition for certiorari in the foregoing case.

In light of these developments, your Committee believes that it is necessary to reassert the Legislature's sole authority under the Constitution of the State of Hawaii to resolve this issue on behalf of the State and to dispose of lands under the control of the State.

Your Committee finds that the State possesses a fiduciary duty to preserve the corpus of the public land trust, specifically ceded lands, until the unrelinquished claims of the Native Hawaiian people are resolved. This measure preserves the public land trust to ensure a fair and just settlement leading to reconciliation with the Native Hawaiian people.

Your Committee believes this measure serves as a legislative vehicle not only to assert the Legislature's constitutional authority and fiduciary duty, but to implement the policy clearly set forth by the Hawaii State Supreme Court in its decision in *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, *supra*.

Your Committee has amended this measure by:

- (1) Clarifying that the prohibition on the sale or transfer of ceded lands shall not apply to remnants, as defined in section 171-52, Hawaii Revised Statutes, easements for public utilities or government agencies pursuant to section 171-95, Hawaii Revised Statutes, or the exchange of lands pursuant to sections 171-50 and 171-51, Hawaii Revised Statutes;
- (2) Prohibiting the sale or transfer of ceded lands until the unrelinquished claims of the Native Hawaiian people are resolved, or the Legislature finds by concurrent resolution adopted by a two-thirds majority vote of each House that the State no longer supports reconciliation between the State and the Native Hawaiian people, or until December 31, 2014, whichever may occur first;
- (3) Inserting provisions that establish a process with specific safeguards for the sale or transfer of ceded land, to be implemented only after the occurrence of one of the conditions set forth in (2), above; and
- (4) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1085, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Tokuda). Noes, none. Excused, 2 (Kokubun, Takamine).

**SCRep. 140 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Judiciary and Government Operations on S.B. No. 1677**

The purpose of this measure is to require the adoption of a concurrent resolution by two-thirds majority vote of each house of the Legislature when the State administration sells, transfers, or exchanges ceded lands.

Testimony in support of this measure was submitted by three organizations and one public citizen. Three state agencies submitted comments, and testimony in opposition was submitted by one public citizen. Copies of written testimony are available for review on the Legislature's website.

In January 2008, the Hawaii State Supreme Court in *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, 117 Hawaii 174 (2008), enjoined the State from selling or otherwise transferring to third parties any ceded lands from the public lands trust until the claims of the Native Hawaiian people to the ceded lands have been resolved.

The Court stated, that "[b]ased on a plain reading of the . . . [Apology Resolution], we believe Congress has clearly recognized that the native Hawaiian people have unrelinquished claims over the ceded lands, which were taken without consent or compensation and which the native Hawaiian people are determined to preserve, develop, and transmit to future generations." The Court further held, ". . . we believe and, therefore, hold that the Apology Resolution and related state legislation . . . give rise to the State's fiduciary duty to preserve the corpus of the public lands trust, specifically, the ceded lands, until such time as the unrelinquished claims of the native Hawaiians have been resolved. Such duty is consistent with the State's 'obligation to use reasonable skill and care' in managing the public lands trust and Ahuna court's declaration that the State's conduct 'should . . . be judged by the most exacting fiduciary standards.'" 117 Haw. at 193.

In April 2008, the Governor directed the Attorney General to petition the United States Supreme Court for a writ of certiorari on whether the passage of Public Law 103-150, otherwise known as the Apology Resolution, strips the State of Hawaii of the authority to sell, exchange, or transfer ceded lands unless or until the State reaches a political settlement with the Native Hawaiian people about the status of these lands. In October 2008, the United States Supreme Court granted the State's petition for certiorari in the foregoing case.

In light of these developments, your Committees believe that it is necessary to reassert the Legislature's constitutional authority that it has the sole authority to resolve the ceded lands issue on behalf of the State and to dispose of lands under the control of the State as it deems appropriate.

Your Committees find that this measure allows the Legislature to carry out its fiduciary responsibilities to all the people of Hawaii, and ensures the preservation of the public land trust corpus for the benefit of the Native Hawaiian people.

Your Committees have amended this measure by:

- (1) Adopting the recommendation of the Attorney General to allow for the sale or exchange of remnants, as defined in section 171-52, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for clarity, style, and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1677, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1677, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Takamine).

**SCRep. 141 Human Services on S.B. No. 774**

The purpose of this measure is to appropriate temporary assistance for needy families program funds for non-school-hour programs; appropriate funds for the Safe Haven demonstration program in Hawaii County; appropriate general funds for non-school-hour activities and to establish the new position of educational specialist II; and create a task force on non-school-hour programs.

Testimony in support of this measure was received from the Department of Education, County of Hawaii, the Office of Youth Services, and the Island of Hawaii YMCA. The Department of Human Services provided comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that it is vital to provide Hawaii's youth with meaningful, wholesome, non-school-hour activities. Non-school-hour programs provide school-aged children with positive opportunities and experiences, and deter problems of juvenile crime, drug use, and experimentation with tobacco, alcohol, and sexual activity.

Your Committee further finds that the Legislature has appropriated funds through Act 281, Session Laws of Hawaii 2006, for the provision of non-school-hour activities to over six thousand three hundred students across the State. Programs such as UPLINK and A+ provide positive experiences and opportunities for students, and foster healthy behaviors, beliefs, and lifestyles.

Your Committee is committed to continuing its efforts to provide students with valuable non-school-hour programs. However, due to current economic conditions, your Committee finds that it is inadvisable to require the counties to provide matching funds in order to receive federal temporary assistance for needy families program funds for non-school-hour activities; create a new position within the Department of Education; or establish a non-school-hour program task force.

Your Committee has amended the measure as follows:

- (1) Adding additional language in the measure's purpose section to provide a more comprehensive history of non-school-hour programs in the State;
- (2) Inserting specific appropriation amounts to be appropriated from federal temporary assistance for needy families program funds;
- (3) Removing the requirement that counties provide matching funds in order to receive federal temporary assistance for needy families monies;
- (4) Assigning a portion of the funds appropriated to the County of Hawaii for the Safe Haven demonstration program; and
- (5) Removing the section in the measure that establishes a non-school-hour program task force; and
- (6) Deleting the new educational specialist II position within the Department of Education.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 774, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 774, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, none.

**SCRep. 142 (Majority) Public Safety and Military Affairs on S.B. No. 478**

The purpose of this measure is to revise and clarify provisions relating to disaster relief laws and the Governor's powers in responding to disaster relief efforts during a civil defense emergency.

Testimony in support of this measure was submitted by five individuals. Testimony in opposition of this measure was submitted by five state agencies. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that clarifying and limiting the Governor's powers to provide disaster relief during times of natural or manmade disasters or civil defense emergencies will create a more accountable and transparent government. Specifically, requiring the Governor to obtain legislative authorization to continue to provide disaster relief beyond the adjournment sine die of the next occurring regular session will provide legislative oversight in the execution of the disaster relief laws in this State. Your Committee believes that this measure is necessary to ensure that emergency powers of the executive branch are not abused or used to circumvent legislative authority.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 478, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (English, Gabbard).

**SCRep. 143 Public Safety and Military Affairs on S.B. No. 358**

The purpose of this measure is to prohibit the seizure of firearms or ammunition from a person that has a permit to carry or possess the firearms or ammunition and who is using the firearms or ammunition in a lawful manner during an emergency or natural disaster.

Testimony in support of this measure was submitted by nineteen individuals. Testimony in opposition of this measure was submitted by one state agency and one individual. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that during times of emergencies, civil crisis, or natural disasters it is important for persons to have the privilege of exercising their constitutional rights in a lawful and appropriate manner. Specifically, allowing a person, that has obtained a valid permit to carry a firearm or ammunition, to use a firearm or ammunition in a lawful manner to protect themselves, their family, and property during an emergency, civil crisis, or natural disaster is sensible and appropriate.

Your Committee has amended this measure by:

- (1) Removing the Governor's civil defense powers to compel RHO blood typing on females of child bearing age or younger and other blood typing approved by competent medical authority;
- (2) Changing the effective date to July 1, 2050; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 358, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 358, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 144 (Majority) Public Safety and Military Affairs on S.B. No. 540**

The purpose of this measure is to establish and implement a Residential Drug Abuse Program to help nonviolent offenders transition and reintegrate back into the community.

This measure also increases the number of transition beds for male inmates in module nineteen at the Oahu Community Correctional Center and provides for a reduction of an offender's sentence upon successful completion of the Residential Drug Abuse Program.

Testimony in support of this measure was submitted by four private organizations and three individuals. Testimony in opposition of this measure was submitted by one state agency. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that establishing a community transitional program for nonviolent offenders will reduce the State's costs of incarceration and also provide nonviolent offenders with a program to treat substance abuse. Your Committee further finds that nonviolent offender participation in the Residential Drug Abuse Program will reduce the likelihood of recidivism upon their release. In addition, increasing the number of transitional beds in module nineteen at the Oahu Community Correctional Center will allow more nonviolent offenders to participate in the Residential Drug Abuse Program.

Your Committee has amended this measure by:

- (1) Requiring the Residential Drug Abuse Program to begin operations on July 1, 2010;
- (2) Changing the effective date to July 1, 2050; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 540, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 540, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (English, Gabbard).

**SCRep. 145 Public Safety and Military Affairs on S.B. No. 546**

The purpose of this measure is to appropriate funds to the Department of Public Safety to establish, develop, and administer an electronic monitoring pilot program for committed offenders that would allow eligible nonviolent offenders to live and work in the community while being electronically monitored.

Testimony in support of this measure was submitted by four private organizations and three individuals. Testimony in opposition of this measure was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that establishing and implementing an electronic monitoring pilot program for nonviolent offenders to participate in the community is a cost-effective approach for the State to make in administering the criminal justice system. Your Committee further finds that the pilot program will help to reintegrate the nonviolent offenders back into the community in a safe and secure manner and also help to reduce the offender's likelihood of recidivism by providing them with a job.

Your Committee has amended this measure by:

- (1) Clarifying the global positioning satellite tracking devices that are to be used in the pilot program shall be able to monitor and pinpoint an inmate's location whether they are located inside or outside any building;
- (2) Reducing the maximum number of participants in the pilot program from fifty inmates to thirty inmates;
- (3) Changing the effective date to July 1, 2050;
- (4) Revising internal references to the appropriate sections of the Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 546, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 546, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Gabbard).

**SCRep. 146 Public Safety and Military Affairs on S.B. No. 970**

The purpose of this measure is to authorize the Department of Public Safety to deposit a committed person's funds into one or more noninterest bearing accounts with one or more financial institutions, rather than requiring that the funds be deposited into an individual trust account.

Testimony in support of this measure was submitted by one state agency. Testimony in opposition to this measure was submitted by one private organization. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that allowing the Department of Public Safety to deposit a committed person's funds into one or more accounts gives the Department of Public Safety flexibility in allowing the committed person to use funds from one account for necessities or other amenities while incarcerated and another account that they can use to reintegrate themselves into the community upon their release.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 970, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Gabbard).

**SCRep. 147 Labor on S.B. No. 1664**

The purpose of this measure is to clarify and temporarily codify implementation of a partial unemployment insurance system and extend the duration of employees' eligibility for unemployment benefits under partial unemployment insurance from four weeks to eight weeks.

Testimony in support of the measure was submitted by two organizations.

The Department of Labor and Industrial Relations supported the intent of the measure.

Your Committee finds that the people currently claiming unemployment benefits from the State also include many who are employed but are working fewer hours than they had previously worked because their employers could not afford to retain them as full-time workers.

Your Committee also finds that, given the current economic situation, employers may benefit by cutting their employees' hours while continuing to provide certain benefits, rather than laying off employees completely. In doing so, employers may maintain their employees' loyalty and productivity when the economy recovers and employees are again needed on a full-time basis.

Your Committee further finds that the Department of Labor and Industrial Relations already implements a partial unemployment insurance system through its administrative rules and has assisted employees during work slowdowns for several businesses in the past.

Your Committee finds that although this measure differs from the Department of Labor and Industrial Relations' existing administrative rules by extending partial unemployment from four to eight weeks, the Department has extended the period of eligibility for partial unemployment in the past, as the extension is also permitted in its administrative rules. The Department recommended that the proposed section 383-B(c), Hawaii Revised Statutes, be eliminated, as the intent and application of that subsection is unclear.

Your Committee has accordingly amended this measure by:

- (1) Removing the proposed section 383-B(c), Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1664, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1664, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 148 (Majority) Public Safety and Military Affairs on S.B. No. 208**

The purpose of this measure is to repeal, effective January 1, 2011, the exemption from civil service for the positions of sheriff, first deputy sheriff, and second deputy sheriff within the Sheriff Division.

Testimony in support of this measure was submitted by one private organization and seven individuals. Testimony in opposition of this measure was submitted by one state agency. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that by repealing the exemption from civil service for the positions of sheriff, first deputy sheriff, and second deputy sheriff, the objectives of the Sheriff Division could be achieved under an environment of stable leadership and also allow the Department of Public Safety to operate in a more effective and efficient manner.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 208 and recommends that it pass Second Reading and be referred to the Committee on Labor.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, 1 (Hemmings). Excused, none.

**SCRep. 149      Public Safety and Military Affairs on S.B. No. 613**

The purpose of this measure is to make an appropriation to the Hawaii Civil Air Patrol to fund operational expenses.

Testimony in support of this measure was submitted by one state agency, five private organizations, and one individual.

Your Committee finds that the Hawaii Civil Air Patrol provides necessary disaster relief, search and rescue, homeland security, and medical emergency transport services to local and national organizations. An appropriation will assist the Hawaii Civil Air Patrol in financing any pre-disaster and post-disaster operations that may occur in Hawaii over the next fiscal year.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (English).

**SCRep. 150      (Joint/Majority) Energy and Environment and Judiciary and Government Operations on S.B. No. 559**

The purpose of this measure is to establish by January 1, 2011, a mandatory recycling program for all state buildings and facilities, public schools, and the University of Hawaii, to be administered by the Department of Accounting and General Services.

Testimony in opposition to the measure was submitted by two state departments. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that although this measure would be beneficial to reducing the amount of waste produced by the State, the Department of Accounting and General Services' lack of jurisdiction over the public schools and the University of Hawaii would make it difficult for the Department of Accounting and General Services to effectively establish such a recycling program over those facilities.

Your Committees have amended this measure by exempting those facilities from the recycling program over which the Department of Accounting and General Services do not have authority, specifically, the public schools and the University of Hawaii.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 559, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 559, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 11. Ayes with Reservations, 2 (Bunda, Slom). Noes, 1 (Hemmings). Excused, none.

**SCRep. 151      (Joint/Majority) Energy and Environment and Judiciary and Government Operations on S.B. No. 553**

The purpose of this measure is to require the use of compact fluorescent light bulbs, light-emitting diode lighting products, and advanced energy-efficient incandescent light bulbs in state buildings and to require the Department of Business, Economic Development, and Tourism to undertake a public education campaign to promote private use of compact fluorescent light bulbs and light-emitting diode lighting products.

Testimony in support of this measure was submitted by one state department and two private organizations. Testimony in support of the intent of this measure was submitted by two state departments. Testimony in opposition was submitted by one state department and one private individual. Written testimony presented to the Committees may be reviewed on the Legislature's website.

In particular, the Department of Public Safety submitted testimony expressing concern that the obligation to use energy efficient light bulbs could threaten the security at the Department's correctional facilities. The Department of Public Safety requested an exemption from this requirement based on these public safety concerns. Additionally, the Department of Business, Economic Development, and Tourism expressed concerns the public awareness campaign required under this measure, given its limited budget resources.

Your Committees find that switching to energy efficient lighting in public buildings could result in significant savings in electricity costs, in addition to being good for the environment.

Your Committees have amended this measure by:

- (1) Exempting the Department of Public Safety and other facilities that require non-qualifying light bulbs for public safety reasons from switching to energy efficient lighting; and
- (2) Deleting section 3 of the proposed measure, which would have required the Department of Business, Economic Development, and Tourism from conducting a public awareness campaign regarding energy efficient lighting due to budget concerns.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 553, as amended

herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 553, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 11. Noes, 1 (Slom). Excused, none.

**SCRep. 152 (Joint) Health and Human Services on S.B. No. 821**

The purpose of this measure is to effectuate the findings of the Joint Legislative Committee on Aging in Place and to maintain the levels of kupuna care service provided statewide in fiscal year 2007-2008.

The measure attempts to accomplish this goal by requiring the Executive Office on Aging to cooperate with the county offices of aging to develop:

- (1) A plan to increase voluntary contributions to support the cost of kupuna care programs;
- (2) Procedures for managing the waitlist for kupuna care service; and
- (3) Policies for applying a cash and counseling approach to service delivery.

In addition, this measure provides for an appropriation to the Department of Health to maintain levels of kupuna care service provided statewide in fiscal year 2007-2008.

Your Committees received testimony in support of this measure from Catholic Charities Hawaii, Hawaii Alliance for Retired Americans, Lanakila Meals on Wheels, Moilili Community Center, Project Dana, and one private individual.

Your Committees received testimony in opposition to this measure from the Executive Office on Aging.

The Department of Community Services, City and County of Honolulu, submitted comments on this measure.

Copies of written testimony are available for review on the Legislature's website.

Your Committees find that the kupuna care program has been one of the most cost effective programs delivering vital services to our elders. Your Committees further find that it is important to maintain critical elder services and programs in the State, like kupuna care.

Your Committees have amended this measure by removing the appropriation provision as the appropriation for this program has been included in another measure utilizing the emergency and budget reserve fund.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 821, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 821, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 153 (Joint/Majority) Health and Human Services on S.B. No. 818**

The purpose of this measure is to provide the public with greater access to information on the quality and conditions of care facilities in Hawaii.

This measure attempts to accomplish this goal by requiring the Department of Health and the Department of Human Services to make available to the public, free of charge, information collected from the departments' inspections of care facilities on each department's website. In addition, the measure provides for an appropriation to the Department of Health and the Department of Human Services for anticipated costs of the implementation of the notice requirement.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, the State Long Term Care Ombudsman, the Hawaii Alliance for Retired Americans, the Policy Advisory Board for Elder Affairs, the Kokua Council, and one private individual.

Your Committees received testimony in opposition to this measure from the Department of Health and the Department of Human Services.

Copies of written testimony are available for review on the Legislature's website.

Your Committees find that this measure will increase transparency of care facility operation in the State and enable individuals in need of the services of a care facility to know which facilities meet minimum established standards and which facilities exceed those standards.

Your Committees further find that inspection reports are currently required by the State and that posting the results of those reports on the departments' established website does not warrant an appropriation.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Department of Health and the Department of Human Services to begin to post the inspection reports of care facilities on their respective websites by January 1, 2011 in order to allow time for the departments to establish procedures;
- (2) Removing the appropriation provisions; and
- (3) Changing the effective date to "upon approval".

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 818, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 818, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, 1 (Hemmings). Excused, 2 (Green, Nishihara).

**SCRep. 154 Labor on S.B. No. 947**

The purpose of this measure is to conform Hawaii's unemployment insurance law to federal law to provide uniform application of unemployment insurance rate calculations for all experience rating transfers by employers.

This measure also amends an Internal Revenue Code reference to clarify the definition of "person" in section 383-66(b)(6)(C).

This measure relates generally to state unemployment tax avoidance (SUTA) dumping. Specifically, this measure amends the provisions in section 383-66(b), Hawaii Revised Statutes, relating to the effective date of unemployment insurance rate calculations following transfers of trade or business so that the effective date is uniformly applied. Currently, the rates are effective beginning with the calendar year immediately following the transfer according to section 383-66(a), Hawaii Revised Statutes, and the quarter immediately following the transfer according to section 383-66(b), Hawaii Revised Statutes. If enacted, this measure would apply retroactively to June 9, 2005, which is the date legislation was enacted to conform state laws to federal law (Act 114, Session Laws of Hawaii 2005).

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is necessary because the discrepancy in the effective date of rate calculations means that there could be multiple calculations of rates within a year. The Department of Labor and Industrial Relations estimates that modifying the unemployment insurance tax system to accommodate mid-year tax rate changes can cost the Department approximately \$23 million. In addition to saving costs to the Department, your Committee finds that this measure would also save employers accounting-related costs that would be incurred to accommodate mid-year rate changes.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 947, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 155 Tourism on S.B. No. 1272**

The purpose of this measure is to increase the amount of monies that may be allocated among certain special funds that benefit from the tourism special fund's allocation of transient accommodations tax revenues and to authorize the use of a portion of those monies for invasive species prevention.

Specifically, the measure:

- (1) Increases the amount of monies being allocated among special funds benefitting from the tourism special fund's allocation of transient accommodations tax revenues from the first \$1,000,000 in revenues deposited to the first \$2,000,000 in revenues deposited into the tourism special fund;
- (2) Changes the percentages of transient accommodations tax revenue that may be transferred from the tourism special fund to the state parks special fund and special land and development fund, respectively; and
- (3) Adds the pest inspection, quarantine, and eradication fund to the list of funds that may receive a percentage of transient accommodations tax revenue deposited in the tourism special fund.

Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism, the Department of Land and Natural Resources, Hawaii Tourism Authority, and the Hawaii Hotel and Lodging Association. Your Committee received comments on this measure from the Department of Agriculture, Outrigger Hotels, and the Tax Foundation of Hawaii.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that tourism in Hawaii depends on the beauty of the islands. This measure attempts to direct funds necessary to ensure that state parks and trails are properly maintained and to ensure that pests, such as those that have inhabited the beaches of Tahiti, do not deter tourists from choosing Hawaii as a return destination for their next vacation or convention. However, your Committee further finds that concerns have been raised regarding the \$2,000,000 aggregate limit on funds that may be transferred from the tourism special fund to the state parks special fund, the special land and development fund, and the pest inspection, quarantine, and eradication fund.

Accordingly, your Committee has amended this measure by removing the \$2,000,000 limit on fund transfers and leaving the limit amount unspecified.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1272, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Slom).

**SCRep. 156 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 1313**

The purpose of this measure is to abolish the Hawaii Community Development Authority.

This measure also transfers jurisdiction of public lands currently under the control and authority of the Hawaii Community Development Authority to the Department of Land and Natural Resources and transfers zoning authority over these lands to the City and County of Honolulu.

Testimony in support of this measure was submitted by two public citizens. One county agency supported the intent of the measure. Testimony in opposition was submitted by three state agencies and one organization. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that despite State Auditor reports that show an annual surplus of funds for Kewalo Basin, the facilities have been allowed to become run down and deteriorate. Additionally, recent decisions approving up to twenty commercial and residential high-rise towers fail to take account of the anticipated increase in traffic gridlock and congestion. Your Committees note that transferring jurisdiction from the Hawaii Community Development Authority to other agencies may improve the management of these public lands.

Your Committees further find that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of state government is necessary to ensure that all available avenues have been explored to accomplish more with fewer resources.

Your Committees have amended this measure by:

- (1) Transferring the portion of the Kakaako Community Development District that is makai of Ala Moana Boulevard to the Department of Land and Natural Resources;
- (2) Transferring the portion of the Kakaako Community Development District that is mauka of Ala Moana Boulevard to the City and County of Honolulu; and
- (3) Making technical, nonsubstantive changes for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1313, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1313, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 5 (Bunda, Gabbard, Kokubun, Hemmings, Slom).

**SCRep. 157 Education and Housing on S.B. No. 16**

The purpose of this measure is to authorize the Department of Education to conduct criminal history record checks on volunteers in positions that place them in close proximity to children, and to terminate or refuse the services of any volunteer.

Testimony in opposition to this measure was submitted by two state agencies. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that both the public schools and public libraries are committed to the safety of the children under their care, but expressed concern regarding the costs of extending criminal history checks to all of the thousands of volunteers who assist in schools and libraries statewide. Your Committee also heard an extensive discussion of criminal history information that could be shared between state agencies, in order to lower the costs, but finds that the concept may prove unworkable due the differing needs of the agencies.

Your Committee has taken these concerns into consideration and believes that developing an internal criminal history data base, with the scope to be determined by the Department of Education, is one alternative.

Your Committee has amended this measure accordingly, by:

- (1) Requiring the Department of Education to establish and maintain a criminal history data base available to all public schools and public libraries; and
- (2) Authorizing the Department to determine the scope of the criminal history information required for employees and volunteers, and if appropriate, to limit the scope of the criminal history check of volunteers to only those volunteers who may have regular contact with children.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 16, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 16, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 158 Education and Housing on S.B. No. 145**

The purpose of this measure is to clarify the transfer of responsibility for repair and maintenance of equipment and fixtures in school facilities from the Department of Accounting and General Services to the Department of Education.

Prior to a hearing on this measure, your Committee circulated a Proposed S.B. No. 145, S.D. 1, on February 11, 2009. The purpose of this amended measure is to:

- (1) In part I, clarify the transfer of responsibility for repair and maintenance of equipment and fixtures in school facilities from the Department of Accounting and General Services to the Department of Education;
- (2) In part II, provide a temporary exemption from chapter 103 and 103D, Hawaii Revised Statutes, to the Department of Education in order to expedite construction projects.

Testimony in opposition to the amended measure was submitted by two private organizations. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee has considered the request of the Department of Education to delete both provisions in part I, related to items donated to public schools. Your Committee believes it would be in the best interests of the Department to make it clear to donors that gifts of equipment and fixtures will be the responsibility of the Department, but acceptance is not mandatory.

Your Committee has amended part I of this measure accordingly, by:

- (1) Deleting the proposed amendments to section 302A-1501(b), Hawaii Revised Statutes, and repealing this subsection, regarding responsibility for the cost of electricity and maintenance for air conditioners not installed by the Department; and
- (2) Amending subsection 302A-1503(b), Hawaii Revised Statutes, to clarify that the Department of Education is responsible for the repair and maintenance of donated equipment or fixtures, unless the equipment or fixtures are deemed obsolete, as determined by the Department.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 145, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 159 Education and Housing on S.B. No. 439**

The purpose of this measure is to:

- (1) Authorize the Hawaii Public Housing Authority to develop public housing projects under a partnership or development agreement with a private party;
- (2) Provide exemptions from chapters 103 and 103D, Hawaii Revised Statutes; and
- (3) Require an annual report to the Legislature on the status on all public housing projects developed under partnership or development agreements.

Testimony in support of this measure was submitted by one state agency. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the Board of Directors of the Hawaii Public Housing Authority has authorized the agency to investigate the feasibility of such agreements and partnerships. Your Committee has heard, however, that the Authority does not have the necessary staff and expertise to engage in development partnerships. In addition, the Authority is prohibited from using federal funds to redevelop any state public housing project.

Your Committee understands the concerns raised regarding the need for additional staffing, and encourages further legislative discussion of funding availability.

Your Committee has amended this measure to:

- (1) Clarify that the exemptions from chapters 103 and 103D, Hawaii Revised Statutes, would not apply if restricted by federal law or regulation; and
- (2) Amend the effective date to July 1, 2045, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 439, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 439, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 160 Education and Housing on S.B. No. 445**

The purpose of this measure is to provide a temporary exemption from chapters 103 and 103D, Hawaii Revised Statutes, to the Hawaii Public Housing Authority in order to correct the health, safety, and other deficiencies at Kuhio Park Terrace and Kuhio Homes in Kalihi.

Testimony in support of this measure was submitted by one state agency and one private organization. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure would assist the Hawaii Public Housing Authority in correcting deficiencies at two housing projects in need of extensive rehabilitation. Your Committee notes, however, that the exemption provided in this measure would apply only to state funds, not the use of federal funds. Federal regulations require compliance with federal procurement rules when using federal funds.

Your Committee has amended this measure by:

- (1) Clarifying that the exemption would apply to all contracts for state funds related to correcting the health, safety, habitability, and accommodations for disabled resident deficiencies at Kuhio Park Terrace and Kuhio Homes in Kalihi;
- (2) Adding planning, design, and equipment to the list of permitted procurements; and
- (3) Making the Act effective upon approval.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 445, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 445, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 161 (Majority) Education and Housing on S.B. No. 497**

The purpose of this measure is to:

- (1) Establish an advisory committee to provide oversight of the Hawaii Teacher Standards Board and provide the Governor with lists of nominees for appointment to the Hawaii Teacher Standards Board;
- (2) Require an annual report of the advisory committee to the Board of Education and the Legislature; and
- (3) Authorize the Hawaii Teacher Standards Board to hire an executive director.

Testimony in opposition to this measure was submitted by three state agencies. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that Senate Concurrent Resolution No. 83, S.D. 1, 2008, requested the Auditor to conduct a study of the Hawaii Teacher Standards Board, including:

- (1) Organizational placement of the Board as an administratively attached agency to the Department of Education;
- (2) The functions and operations of the Board and its similarity to other agencies;
- (3) The Board's long-range planning in relation to appropriate policy foundations, benchmarks, and accountability mechanisms;
- (4) The Board's appeals process; and
- (5) The capabilities of the Board's web-based system, implemented in 2006.

Your Committee understands that the Auditor expects to submit a final report to the Legislature in February 2009. Until the final report is available, your Committee believes this measure provides a vehicle to promote further discussion.

Your Committee has amended this measure by:

- (1) Designating the majority of existing provisions contained in the measure as received by your Committee as part I;
- (2) Adding to part I, from S.B. No. 142, a provision that repeals the July 1, 2009 sunset date on the Hawaii Teacher Standards Board's authority to suspend its policies, rules, and standards when required by extenuating circumstances, and adding additional language that allows the board to determine how it collects license fees;
- (3) Establishing a part II, using language from S.B. No. 204, authorizing the Hawaii Teacher Standards Board to coordinate an effort that creates a data interface network to promote the free interchange of information among public and private Hawaii teacher education institutions and the Department of Education, and appropriating funds for the network;
- (4) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (5) Making technical amendments to correct drafting errors.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 497, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Galuteria).

**SCRep. 162 (Majority) Education and Housing on S.B. No. 753**

The purpose of this measure is to appropriate funds for security at public housing projects.

Testimony in support of this measure was submitted by on state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that adequate security remains one of the major concerns for both public housing tenants and the Hawaii Public Housing Authority. The Authority currently has a budget of approximately \$1,500,000 for security and estimates that it will need at least double that amount -- \$3,000,000 annually -- to provide adequate security at public housing projects statewide.

Your Committee is in strong support of additional funding for security at public housing projects, and urges the Authority to consider alternative means of providing security, including resident managers and cooperative ventures with the police departments and other law enforcement agencies.

Your Committee has amended this measure by clarifying that the funding is for addressing security in public housing projects, to give the Authority the flexibility to consider these and other alternatives.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 753, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Hemmings). Excused, none.

**SCRep. 163 Education and Housing on S.B. No. 758**

The purpose of this measure is to require new for-sale housing developments of the Hawaii Housing Finance and Development Corporation to designate thirty per cent of the units as affordable housing for residents in the low- or moderate-income ranges.

Testimony in support of this measure was submitted by one state agency and one private organization. Testimony in opposition was submitted by one county agency and two private organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee further finds that while the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committee has heard and approved a wide range of proposed affordable housing initiatives and encourages further legislative discussions on the proposal in this measure.

Your Committee has amended this measure to apply only to affordable housing in transit oriented developments by:

- (1) Amending the new section title to reflect this change and accordingly, to read as follows: "Housing development in transit oriented development; exemption from statutes, ordinances, charter provisions, and rules.";
- (2) Specifying that at least thirty per cent of the units shall be affordable housing;
- (3) Adding language related to exemptions from statutes, ordinances, charter provisions, and rules; and
- (4) Adding a definition of "transit oriented development".

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 758, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 758, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 164 Education and Housing on S.B. No. 1160**

The purpose of this measure is to authorize the Hawaii Public Housing Authority to assess all the units in a public housing project for common expenses.

Testimony in support was submitted by one state agency. Copies of the written testimony are available for review on the Legislature's website.

Your Committee finds that assessing a fee for common expenses will have a twofold benefit. It will:

- (1) Provide a dedicated source of funds for the Hawaii Public Housing Authority to expend on projects, including repair and maintenance, which will benefit all residents of a public housing project; and
- (2) Encourage "ownership" of the public housing project, and its common areas and services, by the residents.

Your Committee understands that the Hawaii Public Housing Authority is reviewing whether federal rules allow assessing the fee on residents of federal public housing projects.

Your Committee has amended this measure accordingly, by:

- (1) Limiting the assessment of a fee to state public housing projects;
- (2) Clarifying that the assessed fee is for common area expenses; and

- (3) Changing the unspecified percentage with respect to the fee to at least one per cent of common area expenses for the housing project.

In addition, your Committee urges the Hawaii Public Housing Authority to define "common area expenses" through rules to ensure that both the Authority and public housing residents are clear regarding the basis of the fee assessment.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1160, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 165 Education and Housing on S.B. No. 1221**

The purpose of this measure is to amend the offense of criminal trespass in the first degree to include a person who enters or remains unlawfully in or upon the premises of a public housing project after reasonable request or warning to leave by housing authorities or a police officer, and to exclude an invited guest.

Testimony in support of this measure was submitted by one state agency and one private citizen. Testimony in opposition was submitted by one county agency and one private organization.

Your Committee has heard that the proposed language in this measure would be very difficult, if not impossible, for the Honolulu Police Department to enforce. A majority of the public housing projects have no onsite housing authority or security present during all hours of the day. Therefore, a "warning or request to leave" could not be established. In addition, a time period where no warning is necessary is impractical, as the police have no access to resident listings to verify who may be a resident or guest.

Your Committee has amended this measure accordingly, by:

- (1) Deleting the reference to a police officer and the time limitations;
- (2) Adding references to sections 356D-41 and 356D-51, Hawaii Revised Statutes, relating to how a public housing project is defined; and
- (3) Adding a definition of "housing authorities".

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1221, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 166 (Joint) Education and Housing and Public Safety and Military Affairs on S.B. No. 1164**

The purpose of this measure is to enact the Interstate Compact on Educational Opportunity for Military Children to remove barriers to educational attainment faced by children of military families due to frequent moves and deployment of parents.

Testimony in support of this measure was submitted by five federal agencies, two state agencies, two private organizations, and nine individuals. Comments were submitted by two state agencies. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that the Interstate Compact on Educational Opportunity for Military Children provides standards addressing issues such as enrollment, placement, and graduation of children whose parents are active duty service members or recent veterans of the military. Rather than suffering frustrations and delays, this Compact would allow military children to integrate quickly into and transition out of Hawaii's classrooms, and greatly improve their quality of life and access to education.

Your Committees further find that the Department of Education already has some transition and integration measures in place for military children in Hawaii. Through the Department's initiatives with the Joint Venture Education Forum, military children have received some of the help they need. Adoption of the Compact will ensure that these initiatives continue and are expanded.

Your Committees understand that the Joint Venture Education Forum will pay for the Compact's membership fees, but that it is not necessary to include this provision in this measure.

Your Committees have amended this measure by:

- (1) Adding a representative of the United States Pacific Command to the State Council on Educational Opportunity for Military Children; and
- (2) Deleting section 2, which specifies that the Joint Venture Education Forum shall pay the membership fees for the State's participation.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1164, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1164, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 4 (English, Gabbard, Hemmings, Tsutsui).

**SCRep. 167 Education and Housing on S.B. No. 535**

The purpose of this measure is to prohibit possession of open liquor containers in public housing common areas and on streets and sidewalks.

Testimony in support of this measure was submitted by two government agencies.

Your Committee finds that Act 34, Session Laws of Hawaii, established the current provisions that no liquor shall be consumed in common areas of public housing projects. However, the police are unable to arrest someone holding a container of beer unless the police observe the person putting the container to their mouth, or unless a witness is willing to testify to that effect. This measure will clarify the prohibition and assist in deterring drinking in common areas of public housing projects, as well as on public highways and sidewalks.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 168 (Majority) Education and Housing on S.B. No. 734**

The purpose of this measure is to establish a special master and an advisory council to develop a comprehensive plan to assist the Hawaii Public Housing Authority in resolving the health and safety violations at public housing projects statewide, and to appropriate funds from the public housing revolving fund.

Testimony in support of this measure was submitted by one private organization. Testimony in opposition to this measure was submitted by two state agencies.

Your Committee has heard that this measure would seemingly create a dual line of authority over a broad range of issues, including health and safety violations, at public housing projects. In addition, testimony pointed to two actions that were recently filed against the Hawaii Public Housing Authority alleging various claims related to health and safety violations at Kuhio Park Terrace and Kuhio Homes against, among others, the Authority.

Your Committee believes that given past instances of state agencies that were not meeting their obligations under state and federal laws, there is a very real possibility that the courts may appoint a special master to assist in resolving the violations raised in the federal and state class action lawsuits. Rather than waiting for that possibility to occur, this measure takes a proactive approach to assisting the Authority in meeting its obligations.

Your Committee further notes that the Chair requested and was willing to consider amendments to address the concerns raised, but no amendments were presented. Your Committee believes this measure offers a timely alternative to a court-ordered special master and urges its continued discussion by all parties involved.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 734 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Hemmings). Excused, none.

**SCRep. 169 Education and Housing on S.B. No. 746**

The purpose of this measure is to establish a two-year pilot project within a designated complex area of the Department of Education to:

- (1) Authorize the complex area superintendent to reallocate resources within the schools in the complex area to achieve greater efficiency and cost-effectiveness; and
- (2) Exempt the designated complex area from any department budget reductions or restrictions during the two-year pilot project.

Testimony in opposition to this measure was submitted by one state agency. Comments were submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that current economic conditions require development of initiatives that take advantage of cost efficiencies already available, and expansion of these initiatives. This measure would offer additional opportunities to develop greater savings through the complex area allocations.

Your Committee has considered other options, including designating a percentage of the weighted student formula funds allocated to the schools of the complex to be budgeted by a complex community council made up of the chairs of the school community councils and the principals of the schools in the complex. The funds could be allocated to fix shortages in high priority areas, as identified by the complex community council, and for purchases of common goods and services to gain cost efficiencies. While your Committee understands the reluctance of the Department of Education to exempt the designated complex area from any department budget reductions or restrictions during the two-year pilot project, offering that option would serve as an incentive for the complex.

Your Committee believes these options will benefit from further legislative discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 746 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 170 Education and Housing on S.B. No. 797**

The purpose of this measure is to appropriate funds for advanced placement and International Baccalaureate courses in Hawaii public schools that currently limit or do not offer these courses.

Testimony in support of this measure was submitted by eleven students. Copies of written testimony are available for review on the Legislature's website.

Your Committee has heard of the value of these programs from a number of students enrolled at high schools that currently offer advanced placement and International Baccalaureate courses. These students stressed the academic advantages these programs offer, and several pointed out the economic benefits of taking college level courses while still in high school. Your Committee is in strong support of the expansion of these programs that this measure would provide.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 171 Education and Housing on S.B. No. 798**

The purpose of this measure is to codify the selection of the student member of the Board of Education in statute and clarify that the Board of Education may determine any restrictions on actions taken by the student member.

Testimony in support of this measure was submitted by one state agency and five individuals. Copies of written testimony are available for review on the Legislature's website.

Your Committee has also heard and adopted a related measure, S.B. No. 799, which proposes a constitutional amendment to clarify the selection of the student member of the Board of Education.

Your Committee finds that the student member of the Board of Education brings valuable perspective and insights regarding the day-to-day educational needs, experiences, and concerns of students in Board discussions. In addition, the Board has indicated that this input and perspective is critical in the development and implementation of sound educational policies.

Your Committee believes that approval of a voting student member of the Board of Education is long overdue, and would bring Hawaii in line with several states, such as California, Maryland, Massachusetts, and Vermont, which have granted voting rights to their student members.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 172 Education and Housing on S.B. No. 799**

The purpose of this measure is to propose a constitutional amendment to clarify the selection of the student member of the Board of Education.

Testimony in support of this measure was submitted by one state agency and two individuals/students. Copies of written testimony are available for review on the Legislature's website.

Your Committee has also heard and adopted a related measure, S.B. No. 798, which would codify the selection of the student member of the Board of Education in statute and clarify that the Board of Education may determine any restrictions on actions taken by the student member.

Your Committee finds that the student member of the Board of Education brings valuable perspective and insights regarding the day-to-day educational needs, experiences, and concerns of students in Board discussions. In addition, the Board has indicated that this input and perspective is critical in the development and implementation of sound educational policies.

Your Committee believes that approval of a voting student member of the Board of Education is long overdue, and would bring Hawaii in line with several states, such as California, Maryland, Massachusetts, and Vermont, which have granted voting rights to their student members.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 799 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 173 Education and Housing on S.B. No. 802**

The purpose of this measure is to require the Department of Education to include a shaded play area or areas of reasonable size on school grounds in its plans for all new elementary schools, and to implement an ongoing program to provide a shaded play area or areas of reasonable size on the grounds of existing elementary schools.

Testimony in support of this measure was submitted by two private organization and one individual. One state agency and two individuals submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

Your Committee supports the intent of this measure, but acknowledges the concerns raised by the Department of Education regarding the most appropriate means of providing protection from sun exposure for Hawaii's students. Your Committee believes that a continuing discussion of alternatives, such as tree planting, or other means should be pursued in addition to this measure.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 802 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 174 Education and Housing on S.B. No. 1294**

The purpose of this measure is to appropriate funds to the Hawaii Public Housing Authority to make necessary repairs, improvements, or upgrades to the public housing projects within its jurisdiction so that the projects will be in compliance with federal and state laws.

Testimony in support of this measure was submitted by two private organizations and one individual. Testimony in opposition was submitted by one state agency. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that this measure would begin to address serious violations at public housing projects. Federal laws require, for example, that a minimum of five per cent of total dwelling units be accessible to persons with mobility impairments, and an additional two per cent of the units must be accessible for persons with hearing or vision impairments. These accessible units would be required to be distributed throughout projects and sites and be available in a sufficient range of sizes and amenities.

Your Committee further finds that the Hawaii Public Housing Authority, by its own admission, is in violation of these accessibility requirements. Your Committee has also heard that the Authority has plans in place to address the deficiencies, and in regards to accessibility compliance, currently has a waiting list for thirty accessible units.

Your Committee further understands that the Authority would require \$4,500,000 to bring these thirty units into compliance with federal requirements, and urges the Committee on Ways and Means to consider a request for \$4,500,000 to improve disability access for thirty public housing units in their deliberations.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1294 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 175 Education and Housing on S.B. No. 1300**

The purpose of this measure is to appropriate funds for six instructor positions for Junior Reserve Officers' Training Corps programs at high schools in the State.

Testimony in support of this measure was submitted by one state agency and six individuals. Copies of written testimony are available for review on the Legislature's website.

Your Committee has heard that Lahainaluna, Kapolei, and Mililani High Schools are currently on waiting lists for establishment of a United States Navy or Army Junior Reserve Officers' Training Corps Program. These schools have completed the preliminary requirements to establish a program and will accept a program as soon as approved by either military service. Based on federal law, the school is required to employ two retired military personnel whose pay is cost shared between the school and military service. Your Committee finds that this measure will ensure that each school will be able to establish a Junior Reserve Officers' Training Corps program upon receiving an offer to host a program by either the United States Army or Navy.

Your Committee has also heard impressive and moving testimony from several young people who currently serve in Junior Reserve Officers' Training Corps programs in Hawaii. They spoke not only of the leadership opportunities that the program provided them, but also about the lifeline it offers for students who are struggling with the temptations of drugs and gang involvement. Your Committee is in strong support of the expansion of the Junior Reserve Officers' Training Corps program that this measure would provide.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1300 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 176 (Joint/Majority) Education and Housing and Energy and Environment on S.B. No. 807**

The purpose of this measure is to appropriate funds to establish a recycling program and provide recycling bins for every public school campus in the State.

Testimony in support of this measure was submitted by one state agency and thirteen students. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that many public schools currently recycle aluminum cans and plastic bottles through the State's HI-5 program by incorporating their collection into the school's fundraising programs. Schools on Oahu have also taken advantage of the City and County of Honolulu's Community Recycling Bin program. This measure would take recycling one step further by providing convenient recycling bins on public school campuses.

Your Committees understand the challenge of changing student and adult behavior to ensure that the recycling bins will be used. Many of the students who testified in support admitted that they throw away recyclable materials, usually because there is not a convenient way to recycle. Your Committees believe that the convenience of having recycling bins on campus will give students and their teachers and other adults one more reason to go "green."

As affirmed by the records of votes of the members of your Committees on Education and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 807 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 177 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Judiciary and Government Operations on S.C.R. No. 40**

The purpose of this measure is to urge the Governor and the Attorney General to withdraw the appeal to the United States Supreme Court of the Hawaii State Supreme Court decision, *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, 117 Hawaii 174 (2008).

Testimony in support of this measure was submitted by one state agency, three organizations, and twelve public citizens. Testimony in opposition was submitted by one state agency. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that pursuing the appeal to the United States Supreme Court is detrimental to the interests of all of the people of Hawaii and to the ongoing reconciliation process between the State and the Native Hawaiian people.

Your Committees note that oral argument in the United States Supreme Court for *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, Docket No. 07-1372, is scheduled for February 25, 2009.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Judiciary and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 40 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, 1 (Slom). Excused, 3 (Gabbard, Takamine, Hemmings).

**SCRep. 178 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Judiciary and Government Operations on S.R. No. 25**

The purpose of this measure is to urge the Governor and the Attorney General to withdraw the appeal to the United States Supreme Court of the Hawaii State Supreme Court decision, *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, 117 Hawaii 174 (2008).

Testimony in support of this measure was submitted by one state agency, three organizations, and twelve public citizens. Testimony in opposition was submitted by one state agency. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that pursuing the appeal to the United States Supreme Court is detrimental to the interests of all of the people of Hawaii and to the ongoing reconciliation process between the State and the Native Hawaiian people.

Your Committees note that oral argument in the United States Supreme Court for *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, Docket No. 07-1372, is scheduled for February 25, 2009.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Judiciary and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 25, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 25, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, 1 (Slom). Excused, 3 (Gabbard, Takamine, Hemmings).

**SCRep. 179 Commerce and Consumer Protection on S.B. No. 426**

The purpose of this measure is to modify dental licensing laws to allow dentists participating in an accredited, multi-year dental residency program to obtain temporary licensure for the duration of their training.

Your Committee received testimony in support of this measure from the Board of Dental Examiners, Hawaii Primary Care Association, Kookaa Kalihi Valley, Lanai Women's Center dba Lanai Community Health Center, and Lutheran Medical Center. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that there is both universal support and a critical need for this measure. The need for accessible dental services in Hawaii, especially for children who receive Medicaid, is enormous.

Hawaii has some of the worst dental statistics in the nation in terms of dental diseases and unmet treatment needs. On most neighbor islands, it is prohibitively difficult to access dental care at all. This measure would help address current problems by creating a well-trained dental workforce, supporting recruitment and retention of dentists to work in the community, and spurring development of facilities to address the State's dental health needs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 180 Commerce and Consumer Protection on S.B. No. 55**

The purpose of this measure is to repeal the requirement that public accounting firms obtain a firm permit to engage in the practice of public accountancy in addition to the individual permits required of individual practicing public accountants within the firm.

Your Committee received testimony in support of this measure from two representatives of Hawaii Association of Public Accountants and eight private citizens. Your Committee received testimony in opposition to this measure from the Board of Public Accountancy, Hawaii Society for Certified Public Accountants, and three private citizens. Copies of written testimony are available for review on the Legislature's website.

Under current law, public accounting firms are required to obtain a separate permit for the firm to practice public accountancy in addition to the individual permits required of the persons within the firm who practice public accountancy. The current law empowers the Board of Accountancy to enact rules for awarding firm permits. However, in the twenty years since the current requirements became law, the Board has never enacted those rules. This exposes every public accounting firm in the State to liability under the law for operating without a permit and curtails out-of-state business opportunities for public accounting firms who are forced to remain out of compliance with the State's regulatory framework.

Since the Board has for two decades failed to act pursuant to its designated authority to make rules for firm permits, your Committee finds that the permit requirement for public accounting firms does not serve any important public function and should be abolished. Your Committee finds further that because of the Board's failure to act, the firm permit requirement has become a burden on practitioners of public accounting by affecting their ability to practice and by exposing them to legal liability through no fault of their own.

Your Committee has amended this measure by amending the purpose section to accurately reflect the current state of the administrative rules that govern the practice of public accountancy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 55, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 55, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Espero). Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 181 Commerce and Consumer Protection on S.B. No. 34**

The purpose of this measure is to exempt licensed real estate brokers and salespersons acting within the scope of their licenses from the definition of distressed property consultant and prevent real estate brokers and salespersons from acquiring an ownership interest in distressed property within one year after terminating a listing agreement for the distressed property.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Office of Consumer Protection; Hawai'i Association of Realtors; and Realtors Association of Maui, Inc. Your Committee received testimony in opposition to this measure from Mortgage Assistance & Mitigation Group, Legal Aid Society of Hawai'i, and three private citizens. Copies of written testimony are available for review on the Legislature's website.

Under present law, a real estate licensee is prohibited from participating in short sale transactions that allow a homeowner at risk of foreclosure to negotiate a reduced payment price with a lender in order to avoid the long-term consequences of foreclosure. Since real estate licensees are professionally trained in lending and finance, they may have expertise in the area that enables them to assist homeowners in short sale negotiations.

Your Committee recognizes that protecting homeowners who are in a financially vulnerable position is of paramount importance. Your Committee is also aware that the potential for conflicts of interest or abuse does exist when real estate licensees are involved in short sale negotiations. However, your Committee finds that existing civil and criminal penalties in Hawai'i's real estate licensure and fraud-prevention statutes are adequate to protect consumers in real estate transactions, including short sales. This measure also adds additional protections to the current law by prohibiting a real estate licensee from acquiring an ownership interest in property for one year after the property is listed with the licensee for a short sale.

Your Committee has amended this measure by making one nonsubstantive technical change.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 34, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 34, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 182      Transportation, International and Intergovernmental Affairs on S.B. No. 714**

The purpose of this measure is to allow all motor vehicles, regardless of number of persons on board, to use high occupancy vehicle lanes or zipper lanes when one or more lanes of traffic have been shut down by law enforcement officers or emergency services personnel.

Your Committee received testimony in support of this measure from one individual. Testimony in opposition was received from the Department of Transportation. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that many traffic incidents cause closure of lanes, whether accidents, car crashes, stalled vehicles, or other issues. This reduction of available travel lanes slows traffic significantly. Allowing the use of the high occupancy vehicle lanes or zipper lanes to any motor vehicle, regardless of the number of passengers when an incident occurs would be the most effective use of lanes.

Your Committee has amended this measure by:

- (1) Inserting two miles from an accident or incident as the radius within which the shutdown of a laned roadway may give rise to the use of a high occupancy vehicle lane or zipper lane by a vehicle, regardless of the number of persons carried; and
- (2) Conferring authority upon the Director of Transportation to declare an emergency to allow the use of high occupancy vehicle lanes or zipper lanes by vehicles, regardless of the number of persons carried, during emergencies.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 714, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 714, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 183      Education and Housing on S.B. No. 645**

The purpose of this measure is to increase the reserved housing requirement for a planned development to twenty-five per cent of floor space in the Kakaako community development district, mauka area for lots three acres or more in size.

Testimony in support of this measure was submitted by two private organizations and two individuals. Testimony in opposition was submitted by two private organizations. Comments were submitted by one state agency and two private organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents, and that all alternatives should be considered.

Your Committee believes that the amendments made to this measure strengthen the State's commitment to increasing affordable housing development in Hawaii.

Your Committee has amended this measure to apply to the reserved housing requirement for a planned development in the Kakaako community development district, mauka area for lots 80,000 square feet or more in size, by:

- (1) Adding a definition of "area median income" and "residential floor area", and deleting the definition of "floor area", "master planned area", "median income", and "reserved housing";
- (2) Deleting references to lots of less than three acres;
- (3) Clarifying that for a planned development on a lot of between 20,000 and 80,000 square feet, at least twenty per cent of the units shall be reserved housing units;
- (4) Deleting specific provisions related to the cost and size of reserved housing units;
- (5) Deleting the rulemaking requirements before and after January 1, 2010; and
- (6) Amending the purpose section to reflect these changes.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 645, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 184 Education and Housing on S.B. No. 205**

The purpose of this measure is to:

- (1) Increase the period prohibiting sale or lease by an owner-builder from one to two years unless the sale is due to unforeseen circumstances; and
- (2) Require that an exemption from contractor licensing requirements is given no more than once in three years.

Testimony in support of this measure was submitted by two state agencies and one private organization. Testimony in opposition was submitted by one private organization. Comments were submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will enhance enforcement of laws against unlicensed contracting activity by increasing the restriction on post construction sale and requiring owner-builders to comply with certain contractor law requirements.

Your Committee has heard a number of concerns raised by this measure and thanks the interested parties for their efforts to strike a compromise on amendments.

Your Committee has amended this measure by:

- (1) With regard to the prohibition on the sale or lease by an owner-builder, requiring the Contractors License Board to determine what may constitute circumstances beyond the control of the owner or lessee; and
- (2) Adding a new subsection (e) to section 444-9.1, Hawaii Revised Statutes, stating that any person who obtains a permit under section 444-2(7), Hawaii Revised Statutes, shall comply with all of the requirements specified in the disclosure statement, and that failure to comply is a violation of that section.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 205, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 185 (Majority) Education and Housing on S.B. No. 1249**

The purpose of this measure is to provide incentives for the recruitment and retention of public school teachers.

Specifically, the measure:

- (1) Establishes a teacher housing allowance program to assist teachers willing to work at geographically isolated schools or schools with hard-to-fill vacancies;
- (2) Appropriates funds to repair and maintain teacher housing;
- (3) Establishes and provides funds for a teacher peer review program;
- (4) Adds a section that requires the Department of Education to provide incentives to experienced teachers to relocate to Hawaii;
- (5) Establishes and funds a Hawaii beginning teacher induction center pilot program; and
- (6) Requires the Dean of the University of Hawaii College of Education to develop a teacher shortage elimination plan.

Testimony in support of this measure was submitted by three state agencies and two individuals. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds the recruitment and retention of qualified teachers is a priority for Hawaii's public schools. This is particularly difficult for teaching positions in geographically isolated areas or schools with hard-to-fill vacancies within the State.

Your Committee further finds that addressing the problem successfully will require a variety of alternatives and urges continued legislative discussions on the components included in this measure.

Your Committee has amended this measure by:

- (1) Amending the Teacher Housing Allowance Program to provide a maximum of \$300 per month for the first three years of employment;
- (2) Establishing a Homeownership for Educators Program and a second mortgage revolving trust fund, originally contained in S.B. No. 730;
- (3) Amending the peer review program provisions of the measure to require the Department of Education to expand its existing induction and mentoring program to all schools, complex areas, and districts and include a peer review program for new teachers, and deleting references to the Hawaii State Teachers Association;
- (4) Deleting the Hawaii Beginning Teacher Induction Center pilot program, and requiring the Department of Education to report to the Legislature regarding its teacher induction and mentoring program;
- (5) Deleting development of a teacher shortage elimination plan by the College of Education at the University of Hawai'i at Manoa, and requiring the Department of Education to report to the Legislature on statewide efforts to reduce teacher shortages; and

- (6) Making a technical amendment to reflect the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1249, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Galuteria).

**SCRep. 186 (Joint) Education and Housing and Labor on S.B. No. 747**

The purpose of this measure is to implement several of the Educational Workforce Working Group's recommendations for addressing workforce development issues in the State by:

- (1) Developing a comprehensive tracking system for students grades kindergarten to twelve as they move into the workforce and appropriating funds to establish the system;
- (2) Establishing a community-business education exchange coordinator to nurture stronger partnerships between the community and the schools and appropriating funds for personnel and expenses;
- (3) Appropriating funds for enhancement of the Department of Education's volunteer website;
- (4) Extending the Educational Workforce Working Group established pursuant to Act 283, Session Laws of Hawaii 2007, for two additional years, adding a website, and providing funding for the Working Group; and
- (5) Appropriating funds for working adult scholarships.

Testimony in support of this measure was submitted by three state agencies. Testimony in opposition was submitted by one state agency. Two state agencies provided comments. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that developing a skilled workforce in a competitive global economy requires improved student achievement, and that the public high school dropout rate of 16.5 per cent must to be reduced quickly. In addition, additional opportunities are needed for working adults to upgrade skills through continuing education and training.

Your Committees further find that Act 283, Session Laws of Hawaii 2007, established the Educational Workforce Working Group. The Working Group's report to the Legislature included seven recommendations that will result in graduates who are ready and motivated to pursue additional training and education, or move seamlessly into the workforce. This measure incorporates a number of those recommendations.

Your Committees have amended this measure by:

- (1) Adding the Department of Business, Economic Development, and Tourism to the agencies assisting in developing a comprehensive tracking system and adding a requirement to report to the Legislature regarding the system;
- (2) Clarifying the role and duties of the community-business education exchange coordinator position;
- (3) Requiring the Educational Workforce Working Group to enhance the current Career and Technical Education Web site, rather than create a new one; and
- (4) Adding two members to the Working Group.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 747, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 747, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Hee, Kidani, Hemmings, Slom).

**SCRep. 187 (Joint) Education and Housing and Transportation, International and Intergovernmental Affairs on S.B. No. 737**

The purpose of this measure is to authorize mixed-use housing projects and infrastructure projects that are associated with a housing or mixed-use housing project to be eligible for the expedited review process currently offered by the Hawaii Housing Finance and Development Corporation to qualifying housing projects.

Testimony in support of this measure was submitted by two state agencies and one private organization. Testimony in opposition was submitted by one county agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committees are concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committees further find that while the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committees have heard and approved a wide range of proposed affordable housing initiatives and encourages further legislative discussions on the proposal in this measure.

Your Committees have amended this measure by:

- (1) Extending the time a county legislative body shall act on mixed-use housing projects, or infrastructure projects associated with a housing or mixed-use housing project, from forty-five to ninety days; and

- (2) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 737, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 737, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 1 (Slom).

**SCRep. 188 (Joint/Majority) Transportation, International and Intergovernmental Affairs and Education and Housing on S.B. No. 740**

The purpose of this measure is to:

- (1) Direct the Department of Land and Natural Resources and the Hawaii Housing Finance and Development Corporation to identify public lands within one-half mile of Honolulu's transit corridor and within a one-mile radius of any designated transit station suitable for affordable housing;
- (2) Require the Governor to set aside the identified public lands for housing development; and
- (3) Require the Hawaii Housing Finance and Development Corporation to report to Legislature.

Testimony in support of this measure was submitted by one state agency and one private organization. Testimony in opposition was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committees are concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committees further find that the City and County of Honolulu's mass transit project offers exceptional opportunities for the development of affordable housing. Your Committees have heard and approved a wide range of proposed affordable housing initiatives in transit oriented development and encourage further legislative discussions on the proposal in this measure.

Your Committees have amended this measure by:

- (1) Requiring consultation with the Commission on Transit Oriented Development, proposed to be established pursuant to section 6 of S.B. No. 442, in identifying public lands within one-half mile of Honolulu's transit corridor and within one mile of any transit station;
- (2) Adding a severability clause to ensure that the provisions of this measure will not be adversely affected if S.B. No. 442 is not enacted; and
- (3) Adding a provision for the Revisor of Statutes to reference the appropriate section of the Hawaii Revised Statutes that corresponds to the codified provisions of S.B. No. 442, if enacted.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 740, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 740, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, 1 (Slom). Excused, 2 (Galuteria, Nishihara).

**SCRep. 189 Energy and Environment on S.B. No. 584**

The purpose of this measure is to ban the use of non-biodegradable plastic shopping bags in Hawaii, on the basis that these bags are a hazard to the natural environment.

Testimony in support of this measure was submitted by four private organizations and four individuals. Testimony in opposition to this measure was submitted by two private organizations. Comments were submitted by a state department and one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that plastic bags contribute to Hawaii's solid waste problem and also pose a consistent threat to avian and marine life in Hawaii. Your Committee finds that, although plastic bags are being recycled, there is still more that we can do.

In response to comments from the Hawaii Food Industry Association, your Committee has amended this measure by:

- (1) Clarifying the measure by deleting the words "petroleum" and "fossil-fuel-based" throughout; and
- (2) Substituting more accurate language regarding the biodegrading process.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 584, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 584, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Kokubun).

**SCRep. 190 (Majority) Energy and Environment on S.B. No. 709**

The purpose of this measure is to impose a moratorium on genetically modifying any Hawaiian taro within the State of Hawaii and on testing, planting, or growing any Hawaiian taro within the State that has been genetically modified outside the State.

Testimony in support of this measure was submitted by one state agency, three private organizations, and three individuals. Testimony in support, with comments or suggested amendments, was submitted by one private organization and eight individuals. Testimony in opposition was submitted by two state departments, one private organization, and four individuals. In particular, several testifiers supported the intent of this measure, but stated a preference for H.B. No. 1663, as that measure includes all taro grown in Hawaii, instead of only specific varieties of Hawaiian taro, and specifically states that it is not a referendum on the merits of biotechnology nor is it applicable to any other crop.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that taro is a uniquely important plant that has genealogical, spiritual, and cultural links with Native Hawaiians and Hawaii. As described in the testimony submitted by several taro farmers, your Committee also finds that the methodology of growing taro makes unintentional mixing of non-genetically modified varieties of taro with genetically modified taro a real possibility.

Your Committee has amended this measure by replacing its contents with the contents of H.B. No. 1663, adopting the recommendations of several testifiers.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 709, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, 1 (Hemmings). Excused, none.

**SCRep. 191 Energy and Environment on S.B. No. 1675**

The purpose of this measure is to facilitate and encourage the development of renewable energy development in Hawaii by amending the net energy metering law.

Specifically, this measure:

- (1) Makes net energy metering available to customers leasing or purchasing renewable electricity;
- (2) Prohibits unreasonable denying, burdening, or delaying of net energy metering service requests;
- (3) Increases the maximum allowable capacity of customer generators;
- (4) Removes the calculation of the maximum customer generator total rated generating capacity from being dependent upon utility peak demand;
- (5) Removes the Public Utilities Commission's ability to set generating and maximum capacity, provide exemptions from generating capacity requirements to islands or utility grid systems, and amend rate structures, standard contracts, and tariffs;
- (6) Enables customer generators to be paid for excess kilowatt-hours without a power purchase contract;
- (7) Ensures validity of net energy metering contracts even if crediting or compensation mechanisms are changed;
- (8) Increases the kilowatts a customer generator may produce before additional requirements may be imposed;
- (9) Directs the adoption of rules to establish best practices interconnection standards for renewable energy generating facilities; and
- (10) Disallows utilities from turning away additional customer generators due to the combined total peak generating capacity of customer generators in the service area.

Testimony in support of this measure was submitted by six private organizations. Testimony in support of the intent, with comments or recommendations, was submitted by two state departments. Testimony in opposition was submitted by one private organization. Comments were submitted by one state department. In particular, there were comments from several testifiers questioning the necessity of compensating customer-generators for annual excess production of energy. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that, by raising the net metering system cap size, this measure allows commercial customers with larger energy bills to invest in renewable energy systems to reduce their electrical load in the same way smaller commercial customers are currently able to do. Your Committee also finds that, by eliminating the limit on the number of net metering systems, this measure will also provide some certainty to developers or builders who are contemplating installing systems, allowing them to take advantage of net metering.

Your Committee has amended this measure by deleting the requirement that customer-generators be compensated for annual excess production of energy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1675, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1675, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 192 Energy and Environment on S.B. No. 1185**

The purpose of this measure is to encourage the use of electric vehicles and reduce the State's dependence on petroleum-based sources of energy by establishing an electric vehicle income tax credit in an unspecified amount.

Testimony in support was submitted by four private organizations and two individuals. Testimony in support of the intent of the measure was submitted by two state departments and one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that, as automakers throughout the world begin to refine, develop, and produce electric vehicles for consumer use, it is imperative that Hawaii lead the efforts in transforming its transportation systems to support electric vehicles. This measure will help to make electric vehicles more affordable and spur more widespread adoption of the technology in the State.

Your Committee has amended this measure by revising it to include standard income tax credit eligibility, filing, and claiming language and by changing the effective date so that the tax credit applies to taxable years beginning after December 31, 2008.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1185, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 193 (Majority) Energy and Environment on S.B. No. 239**

The purpose of this measure is to require growers and testers of genetically engineered plants in the State to notify the Department of Agriculture regarding the existence of these plants, and to require the Department of Agriculture to make certain information about genetically modified plant projects accessible to the public.

Testimony in support of the measure was submitted by four private organizations and one individual. Testimony in support, with comments, was submitted by one individual. Testimony in opposition to the measure was submitted by two state departments, three private organizations, and three individuals. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is essentially a "good neighbor" policy that requires those who grow genetically engineered crops in Hawaii to make basic information about the planting accessible to farmers, gardeners, and the general public via a notice to the Department of Agriculture. Although there may be issues regarding proprietary information and vandalism concerns, your Committee feels that it is important for conventional and organic farmers in Hawaii to know whether or not they need to undertake measures to keep their crops free of genetically engineered content.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 239, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 2 (Kokubun, Hemmings). Excused, none.

**SCRep. 194 Judiciary and Government Operations on S.B. No. 118**

The purpose of this measure is to limit the time period in which the collection of a tax by levy or court proceeding may commence to ten years after assessment of the tax.

This measure applies to the following taxes: income, general excise, transient accommodations, use, fuel, conveyance, rental motor vehicle and tour vehicle surcharge, hospital and nursing facility, and insurance.

Your Committee received testimony in support of this measure from the Chamber of Commerce of Hawaii; Hawaii Society of Certified Public Accountants; Chun, Kerr, Dodd, Beaman & Wong; and three individuals. Testimony in opposition was received from the Department of Taxation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that taxpayers should have the benefit of ascertaining with certainty at a future time when their tax liability comes to an end. The federal government imposes a ten-year statute of limitations on the collection of delinquent taxes. According to testimony, Hawaii is one of only four states that presently does not have some form of statute of limitations on tax collections.

Your Committee finds that current law providing for a three year limitation on assessment may need to be changed if a ten year statute of limitation period is imposed. Your Committee believes that the three year assessment limitation period and the proposed ten year statute of limitation period may need to be amended as this measure progresses.

Your Committee has amended this measure by making conforming and clarifying amendments on the recommendation of the Department of Taxation, and changing the effective date to July 1, 2050, to continue the discussions in this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 118, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 195 (Majority) Judiciary and Government Operations on S.B. No. 1343**

The purpose of this measure is to establish fees in statute for various administrative transactions that were previously set by administrative rule.

Your Committee received testimony in support of the intent of this measure from the Department of Land and Natural Resources. Testimony in opposition was received from the Department of Commerce and Consumer Affairs; Hawaii Housing Finance and Development Corporation; and the Department of Education. Comments were received from the Hawaii Community Development Authority. Copies of written testimony are available for review on the Legislature's website.

Your Committee has amended this measure by:

- (1) Deleting the provision establishing the penalties relating to dam and reservoir violations;
- (2) Deleting the provisions relating to the A-plus program and after-school programs;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussions on this matter; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1343, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 196 (Majority) Judiciary and Government Operations on S.B. No. 1105**

The purpose of this measure is to enact procedures for the filing and consideration of reports, studies, and audits conducted by executive departments and agencies, the Auditor, and the Legislative Reference Bureau.

Testimony in support of the measure was submitted by two organizations. Two state agencies submitted comments.

Your Committee finds that reports submitted to the legislature presently may not receive any follow-up by the legislature. This measure establishes a procedure for public hearings or briefings on reports submitted to the legislature.

Your Committee has amended the measure by:

- (1) Expanding its applicability to reports submitted by the Judiciary and the Office of Hawaiian Affairs;
- (2) Requiring that copies of the reports also be filed with the Legislative Reference Bureau library to better enable the library to serve as a repository of studies and reports submitted to the Legislature;
- (3) Clarifying that the requirements of this measure are in addition to those in section 93-16, Hawaii Revised Statutes, which also requires posting on the Internet;
- (4) Deleting the purpose section; and
- (5) Changing the effective date of the measure to facilitate further discussion.

Copies of written testimony are available for review on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1105, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Bunda). Noes, 1 (Slom). Excused, none.

**SCRep. 197 Judiciary and Government Operations on S.B. No. 1103**

The purpose of this measure is to establish a system to conduct a systematic review of existing Hawaii laws to determine which of these laws should be repealed or amended.

Specifically, this measure creates a commission on effective legislation under the Ombudsman, to be chaired by the Ombudsman. The measure stipulates the Director of the Legislative Reference Bureau as the vice-chairperson and designates not less than five department heads representing the state executive departments, the Chief Justice, and the President of the University of Hawaii as members; provided that the Governor is required to appoint the department heads, upon the recommendation of the Senate President and the Speaker of the House of Representatives, and may add or substitute department heads not more frequently than every two years.

In addition, this measure:

- (1) Requires the commission to:
  - (A) Review all existing laws;
  - (B) Solicit public comment to facilitate its review;

- (2) Requires the Ombudsman to:
- (A) Provide notification and convene a commission meeting not less than every two years prior to the convening of the Regular Session of the first year of each legislative biennium;
  - (B) Submit a biennial report to the Legislature no later than twenty days prior to the convening of the Regular Session of the first year of each legislative biennium; and
  - (C) Include in its report on any determination by an executive department that an existing law is ineffective.

Testimony in support of this measure was submitted by two organizations. Three state agencies submitted comments.

Your Committee finds that the concept of this measure is meritorious, although, as written, may be difficult to implement operationally. It is clear that:

- (1) Hawaii's legislation should be effective;
- (2) This effectiveness can and should be maintained and promoted by the elimination of obsolete, redundant, conflicting, or ambiguous provisions; and
- (3) Some sort of mechanism should be established by which Hawaii legislation may be periodically reviewed.

Your Committee is concerned however, that the measure's directive to employ "effectiveness" as a criterion for review will create an incorrect perception that the commission is intended to function as a kind of mini Legislature--which is not the case. For the commission to determine that the State's Penal Code is "ineffective" and thus subject to repeal or a specific amendment because crime continues to occur would grossly exceed the commission's intended purview, yet such action could fall within the commission's stated function, as expressed in this measure. Considerations and determinations of this kind are inextricably intertwined with larger public policy issues. Whether any specific law is deemed "effective" or not requires policy determinations that should not be delegated to a body other than the Legislature.

Your Committee finds that an appropriate role for this commission would be to focus its review of Hawaii's laws to determine whether they are obsolete, redundant, conflicting, or ambiguous and thus in need of amendment or repeal. This function should be an ongoing effort to ensure that Hawaii's laws remain rational, clear, coherent, and sensible. Your Committee also finds it important to clarify that the scope of the commission's responsibility should be one of reviewing the Hawaii Revised Statutes. While this may seem obvious, your Committee believes that this matter should be clarified at the outset because a simple reference to the "law" of the State could also include all of the common law. Your Committee finds that an ongoing effort to review the Hawaii Revised Statutes will be a more than substantial undertaking for this commission.

Further, to ensure that the most efficient use is made of the staffs of the Office of the Ombudsman and the Legislative Reference Bureau, your Committee finds that the commission should be directed to take an approach that is more narrowly tailored to achieve the Legislature's objectives. Your Committee finds that the efforts of the commission can be used more efficiently and productively by responding to matters that are brought to its attention for review by legislators, state and county agencies, and the general public. Rather than placing an emphasis on an effort to review all fourteen volumes of the Hawaii Revised Statutes within a specific period, your Committee believes that priority should be given to matters raised by agencies and individuals who work with the statutes and encounter the problems of obsolescence, duplication, ambiguity, and "disconnects" on a regular basis. By following this approach, your Committee finds that it may be possible to redirect many of the "housekeeping" measures that are introduced to the Legislature each year to consideration by the commission and consolidation into its reports.

Finally, your Committee finds that the commission needs to have representation from the counties.

After careful consideration, and in light of the foregoing, your Committee has amended this measure by:

- (1) Requiring the Senate President and the Speaker of the House of Representatives, rather than the Governor, to each appoint three members of the commission who shall be state department heads;
- (2) Allowing the Senate President and the Speaker of the House of Representatives to jointly appoint additional department heads or substitute department heads of different executive departments not more frequently than every two years;
- (3) Removing the Chief Justice as a member of the commission. In testimony submitted to your Committee, the Judiciary expressed concerns about being placed into conflicts of interest if the Judiciary has participated in the commission's deliberations on modifying statutes that become the subject of litigation before the state courts;
- (4) Adding four representatives of the counties, one each to be appointed by the mayor of each of the respective counties;
- (5) Clarifying that the commission meets and operates on an ongoing basis, rather than convening once every two years;
- (6) Clarifying that the purpose of the commission is to promote and maintain the effectiveness of legislation codified within the Hawaii Revised Statutes and to ensure the statutes remain rational, clear, coherent, and sensible by reviewing existing statutes on an ongoing basis to determine whether a statute is obsolete, redundant, conflicting, ambiguous, and thereby in need of repeal or amendment;
- (7) Providing that the commission shall adopt a focused approach by reviewing problems concerning existing laws within the Hawaii Revised Statutes that are brought to its attention by legislators, state and county agencies, and members of the public;
- (8) Requiring the commission to make a determination in each case and incorporate its findings and recommendations in reports to the Legislature not less than once every other year;
- (9) Making the effective date July 1, 2070, to facilitate further discussion; and

(10) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

Copies of written testimony are available for review on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1103, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 2 (Bunda, Slom). Noes, none. Excused, none.

**SCRep. 198 Labor on S.B. No. 1181**

The purpose of this measure is to require the Department of Labor and Industrial Relations to use a standard reporting form to report the fringe benefit rate paid to laborers who perform work for the construction of public works projects.

Fringe benefits are a component of the prevailing wage, which is required to be paid to laborers on public works projects pursuant to chapter 104, Hawaii Revised Statutes. In making prevailing wage determinations, Act 229, Session Laws of Hawaii 2005, requires the Director of Labor and Industrial Relations to select the modal rate, or the rate of the greatest number of employees in the State, as the prevailing wage rate in a corresponding class of laborers. Since this requirement favors collective bargaining rates for certain classifications due to the large number of union workers in certain labor markets, the Department of Labor and Industrial Relations uses this method to calculate prevailing wage rates for union workers, and conducts surveys or uses average wages to determine prevailing wage rates for labor classifications that do not have corresponding union rates or modal rates.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current reporting of fringe benefits by employers is inadequate, and that there should be a reasonable way for laborers to determine the itemization of their fringe benefits through public records. Employers are currently only required to check a box indicating that they are in compliance with the payment of fringe benefit wages required under chapter 104, Hawaii Revised Statutes. Hourly wages, but not fringe benefits, are listed as itemized payments to prove compliance.

Your Committee finds that the Department of Labor and Industrial Relations already conducts annual surveys to determine prevailing wage rates for job classifications that are not updated according to prevailing wage rates from collective bargaining agreements, and that the provision in this measure to conduct biannual surveys is unnecessary. Your Committee also finds that the portion of the proposed section 104-2(b)(1)(C), Hawaii Revised Statutes, that lists the required itemizations for the fringe benefit reporting form would be more appropriately codified under section 104-3, Hawaii Revised Statutes, relating to payrolls and payroll records.

Your Committee notes the concern that requiring the reporting of certain fringe benefit information on certified payroll may reveal proprietary information. However, your Committee believes that fringe benefits are monies that belong to the laborers and that laborers, therefore, should be able to easily access the itemization of their fringe benefits.

Your Committee has accordingly amended this measure as follows:

- (1) By eliminating the portion of the proposed section 104-2(b)(1)(C), Hawaii Revised Statutes, that requires the Department of Labor and Industrial Relations to determine the prevailing cost of fringe benefits through a biannual survey;
- (2) By deleting the portion of the proposed section 104-2(b)(1)(C), Hawaii Revised Statutes, that lists the required itemizations of the fringe benefit reporting form, and reinserting it into section 104-3(a), Hawaii Revised Statutes;
- (3) By amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (4) By making technical, nonsubstantive amendments for the purposes of clarity and consistency and to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1181, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 199 (Joint/Majority) Labor and Human Services on S.B. No. 1203**

The purpose of this measure is to require the Office of Community Services to establish a mandatory community service program by January 1, 2012, for all Hawaii residents between the ages of sixteen and twenty.

Testimony in support of this measure was submitted by one organization and two individuals. Testimony in opposition to this measure was submitted by one individual. The Office of Community Services supported the intent of this measure. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees consider community service to be an honor, especially in Hawaii where residents have a strong sense of helping others and particularly during times of economic hardship.

Your Committees find that the mandatory community service program proposed in this measure would encourage active participation in communities, give youth a vested interest in the future of the State, offer economic incentives to Hawaii's students, and provide a benefit to Hawaii's youth that they might choose to otherwise forgo, not realizing until later the benefit of community service.

Your Committees note the concern of the Office of Community Services that a mandatory community service program for youth may not be an appropriate responsibility for the Office of Community Services, given its duties under current laws.

Your Committees also note the comment that a voluntary community service program with appropriate incentives might better effectuate the intent of this measure, and find that this measure is a work in progress that may serve as a framework to revive community service in Hawaii.

Your Committees find that further discussion, facilitated by the Office of Community Services, is necessary to determine additional information, appropriate resources, and recommended legislation to implement an effective community service program.

Your Committees have accordingly amended this measure as follows:

- (1) By amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (2) By making technical, nonsubstantive changes to correct typographical errors and for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1203, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1203, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, 2 (Hemmings, Slom). Excused, 1 (Hee).

**SCRep. 200 (Joint) Labor and Transportation, International and Intergovernmental Affairs on S.B. No. 690**

The purpose of this measure is to allow for the exchange or movement of civil service employees between the State and any county, between counties, between the federal government and the State, or between the federal government and any county; provided that certain conditions are met.

Testimony in support of the intent of the measure was submitted by one state agency, two county agencies, and one organization. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the provisions of this measure were previously codified by section 76-36, Hawaii Revised Statutes, which was repealed by Act 253, Session Laws of Hawaii 2000. Currently, temporary exchanges and movement of civil service employees between state, county, and federal government jurisdictions is authorized under section 78-27, Hawaii Revised Statutes.

Your Committees further find that allowing intergovernmental movement and exchanges would restore to permanent civil service employees certain rights, benefits, and privileges previously provided by the law.

Your Committees agree with the Department of Human Resources Development's proposed amendments and additional conditions governing intergovernmental exchanges and movement.

Accordingly, your Committees have amended the measure as follows:

- (1) Allowing only permanent civil service employees to participate, and requiring that participating employees be exchanged or moved to permanent civil service positions;
- (2) Requiring employees to meet public employment requirements in addition to the minimum qualification and other requirements of the class or position to which they are to be exchanged or moved;
- (3) Requiring that employees be selected through an open-competitive civil service recruitment process conducted by the gaining jurisdiction;
- (4) Requiring that employees serve an initial probation period with the gaining agency in a permanent civil service position, pursuant to section 76-27, Hawaii Revised Statutes; and
- (5) Adding definitions for the terms "sending jurisdiction" and "gaining jurisdiction".

As affirmed by the records of votes of the members of your Committees on Labor and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 690, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 690, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 2 (Nishihara, Slom).

**SCRep. 201 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Public Safety and Military Affairs on S.B. No. 1315**

The purpose of this measure is to transfer the Division of Conservation and Resources Enforcement from the Department of Land and Natural Resources to the Department of Public Safety.

Testimony in opposition of this measure was submitted by two state agencies, three organizations, and eleven public citizens. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of the state government is necessary to ensure that all available avenues have been explored to accomplish more with fewer resources.

Your Committees recommend that a financial analysis of the fiscal impact and savings for transferring the Division of Conservation and Resources Enforcement to the Department of Public Safety be conducted by the Committee on Ways and Means.

Your Committees have amended this measure by amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1315, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1315, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (English, Fukunaga, Kidani, Takamine, Hemmings).

**SCRep. 202 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1116**

The purpose of this measure is to establish an Organic Agriculture Task Force under the administration of the Department of Agriculture to develop a business plan for the Hawaii Organic Food Center, and to appropriate funds for the Task Force to carry out its purpose.

Testimony in support of this measure was submitted by one organization. Two organizations supported the intent of this measure, and one state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Organic farming practices are beneficial to human health and towards the preservation of environmental quality because these practices emphasize sustainability, enhance soil health, and promote the practice of growing agricultural products without the use of toxic substances. While organic farming is an important building block for maintaining and preserving the State's scenic and environmental resources, it is also an essential element in creating economic viability and preserving the quality of life in rural and agricultural communities.

According to a national study, approximately two per cent of the United States food supply is grown using organic methods and the nationwide retail sales of organic food and beverages in 2005 totaled approximately \$12,800,000,000. There are over ninety organic farms in Hawaii, which produce organic products such as coffee, macadamia nuts, bananas, pineapples, ginger, mangoes, citrus fruits, avocados, tomatoes, and salad greens. The Hawaii Organic Farmers Association, an accredited third party certification agency for the United States Department of Agriculture's National Organic Program, estimates that organic farming is a \$5,000,000 to \$10,000,000 per year industry in Hawaii.

Your Committee finds there is currently a high and increasing demand for organic produce that exceeds the State's locally produced organic food supply, and to meet this demand, local produce markets and large mainland chain stores must import organic produce from the mainland and other countries. The importation of organic produce can result in a higher number of invasive species that are inadvertently brought into the State upon arrival, and can adversely impact the State's agriculture sector, economy, and sustainable food supply.

Your Committee has amended this measure by amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1116, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 203 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1228**

The purpose of this measure is to clarify that commercial fishing operations can transfer ownership without losing necessary permits and without a transfer fee being imposed.

Testimony in support of this measure was submitted by fifteen public citizens. One state agency submitted comments, and testimony in opposition was submitted by one public citizen. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that section 200-10, Hawaii Revised Statutes, allows a corporation to transfer any or all stock or other interest to another person without terminating the right of the corporation or business entity to retain or renew its commercial use permit issued by the Department of Land and Natural Resources. The Attorney General, in a recent opinion, determined that permits issued to fishing corporations are not transferable. Thus, commercial fishing operators who purchased operations including mooring permits are prevented from transferring ownership of their business operations.

Your Committee has amended this measure by adopting the recommendation of a public citizen to delete the exemption from transfer fees for commercial fishing operation transfers.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1228, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 204 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 729**

The purpose of this measure is to increase the percentage of the conveyance tax paid into the rental housing trust fund from the current allocation of thirty per cent to sixty-five per cent.

Testimony in support of this measure was submitted by two state agencies, one county agency, six private organizations, and one individual. Two state agencies and one private organization submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committees are concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committees further find that while the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committees have heard and approved a wide range of proposed affordable housing initiatives and encourage further legislative discussions on the proposal in this measure.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 729 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Ayes with Reservations, 2 (Kokubun, Takamine). Noes, none. Excused, 4 (Bunda, Fukunaga, Tsutsui, Hemmings).

**SCRep. 205 Energy and Environment on S.B. No. 1260**

The purpose of this measure is to eliminate a disincentive to pollution reduction by removing the cap on fees for air pollutant emissions.

Testimony in support of this measure was submitted by two private organizations. Comments were submitted by one state department. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that as presently enacted Hawaii's Clean Air Act allows large sources of air pollution to pay less per ton of air emissions than smaller sources of air pollution. Your Committee finds that, while closing this loophole may result in increased costs that are passed onto consumers, the existing provision is inequitable for smaller sources of air pollution and a disincentive for very large sources of air pollution to reduce emissions.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1260 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Kokubun).

**SCRep. 206 Energy and Environment on S.B. No. 1671**

The purpose of this measure is to prohibit new or expanded fossil fuel power plants in order to align the State's energy policy with the State's preferred clean energy future.

Testimony in support of this measure was submitted by one state department and one private organization. Testimony in support of the intent, with comments, was submitted by a state department and a private organization. Comments were submitted by a private organization. Copies of written testimony are available for review on the Legislature's website.

This measure prohibits both the construction of new electricity generating facilities and the modification of existing facilities with a rated capacity of more than two megawatts if the construction or modification utilizes fossil fuel services to generate the electricity. The prohibition would commence on July 1, 2009.

Your Committee finds that it is critical that decisions be made to wean the State off of its dependence on foreign oil. Hawaii's economic, environmental, and energy security demand that the State reduce the amount of fossil fuel imported and consumed in Hawaii.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1671 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Kokubun).

**SCRep. 207 (Joint) Energy and Environment and Economic Development and Technology on S.B. No. 1066**

The purpose of this measure is to move the Natural Energy Laboratory of Hawaii Authority (NELHA) to the Department of Budget and Finance for administrative purposes, increase the number of directors for the NELHA from eleven to thirteen, modify the appointment process for directors, and remove the requirement that the chairperson and secretary of the Research Advisory Committee serve as directors.

Comments on this measure were submitted by one state department. Testimony in opposition was submitted one state department and one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that there are compelling reasons to retain NELHA under its current arrangement with the Department of Business, Economic Development, and Tourism. Further, your Committees find that it may not be in the best interests of NELHA to revamp the board of directors by excluding certain current represented interests. However, your Committees also find that NELHA tenants should be represented on the board.

Your Committees have amended this measure by:

- (1) Retaining NELHA within the Department of Business, Economic Development, and Tourism for administrative purposes; and
- (2) Retaining the existing structure, composition, and method of selection of the board of directors, with the addition of two tenant representatives to be elected by NELHA tenants.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1066, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1066, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Ige, Ihara).

**SCRep. 208 (Joint) Energy and Environment and Economic Development and Technology on S.B. No. 1303**

The purpose of this measure is to create an energy initiative that will establish Hawaii as one of the principal leaders in research, commercialization, and application of new ground-based and space-based energy technologies.

Testimony in support of this measure was submitted by one private organization and one individual. Testimony supporting the intent of the measure was submitted by one private organization. Testimony in opposition to the measure was submitted by one state agency and one private organization. Comments were submitted by one individual. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that this measure would complement the Hawaii Clean Energy Initiative by establishing a government-industry consortium that would seek federal and private industry research and development funds and other resources for renewable energy technology. Additionally, your Committees also find that this measure would encourage new investment in Hawaii, creating more jobs with better pay for our residents.

Your Committees have amended this measure by deleting the specific funding amounts in order to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1303, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1303, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Ige, Ihara).

**SCRep. 209 (Joint) Energy and Environment and Economic Development and Technology on S.B. No. 1065**

The purpose of this measure is to exempt the Natural Energy Laboratory of Hawaii Authority ("NELHA") from regulation by the Public Utilities Commission if sales of energy are made to users located on adjacent property that is leased from the State.

Testimony in support of this measure was submitted by NELHA. Comments were submitted by the Department of Commerce and Consumer Affairs, Division of Consumer Advocacy (the "Consumer Advocate"). Copies of written testimony are available for review on the Legislature's website.

The Consumer Advocate indicated that while it may be reasonable to exclude NELHA from rate setting, commitment of funds, and other sections applicable to regulating an investor-owned utility, NELHA should be required to meet performance and safety standards required for transmission and distribution of energy if NELHA intends to transmit energy using the utility's grid.

Your Committees find that this measure would make it possible for NELHA to transmit power to adjoining state agencies, reducing their cost of conducting the business of the State. Your Committees find that it would not be appropriate, however, for NELHA to be wholly excluded from regulation.

Your Committees have amended this measure to adopt the Consumer Advocate's recommendations, and by requiring NELHA to meet performance and safety standards required for transmission and distribution of energy if NELHA intends to transmit energy to adjacent users using the utility's grid.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1065, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1065, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Ige, Ihara).

**SCRep. 210 (Majority) Economic Development and Technology on S.B. No. 1678**

The purpose of this measure is to adopt changes to Hawaii's tax law that will allow Hawaii to participate in the Streamlined Sales and Use Tax Agreement.

Testimony in support of this measure was submitted by Hawaii Government Employees Association, Hawaii Association of Realtors, Retail Merchants of Hawaii, and the Democratic Party of Hawaii. Comments on this measure were submitted by the Department of Taxation. Written testimony presented to your Committee is available for review on the Legislature's website.

Your Committee finds that for Hawaii to participate in the Streamlined Sales and Use Tax Agreement, it is necessary for Hawaii to amend its tax law to be in conformance with the tax laws of the Streamlined Sales and Use Tax Agreement. The purpose of the Streamlined Sales and Use Tax project is to establish a streamlined sales and use tax collection system that is seamless for sellers in a global economy, while respecting the sovereignty of state borders. Hawaii's participation in the national Streamlined Sales and Use Tax Agreement will level the playing field between local, "bricks and mortar" retailers who pay their state general excise taxes and out-of-state retailers (primarily mail order and e-commerce merchants) who have not, up to this point, had to collect and remit the existing use tax on purchases by Hawaii residents.

Between 1967 and 1992, two Supreme Court cases (National Bella Hess case, 1967; and the Quill decision, 1992) prohibited states from requiring out-of-state sellers to collect sales taxes on purchases made by state residents, primarily because of the burdens on retailers of complying with forty-six different sales tax systems, and the monetary cost for retailers. However, in 2000, state officials, along with private sector/retail representatives, began developing a simpler, uniform, and fair system of sales and use taxation to accomplish four purposes:

- (1) Removing the burden on retailers;
- (2) Preserving state sovereignty;
- (3) Leveling the playing field for all retailers; and
- (4) Enhancing the ability of United States companies to compete in the global economy.

The urgency of state participation in the Streamlined Sales and Use Tax project has been heightened with the shift to a service-based economy, erosion of sales tax revenues due to e-commerce, and the current economic conditions. For example, an updated 2004 study entitled *Sales and Local Tax Revenue Losses from E-Commerce, Estimates as of July 2004*, conducted by Doctors Donald Bruce and William Fox of the Center for Business and Economic Research at the University of Tennessee estimated that, by 2008, the revenue loss for state and local governments would range between \$21,500,000,000 and \$33,700,000,000, with the greatest losses occurring in states that rely most heavily on the sales tax as a revenue source (emphasis added). Hawaii's estimated share of this loss ranged between \$86,000,000 and \$130,300,000 for 2008. However, Hawaii ranks seventh among all states in the United States, with its general excise tax (GET) collections accounting for 50.2% of all state tax collections. As a result, Hawaii is more vulnerable than most in terms of its heavy reliance on GET revenues for its tax base; its GET base is vulnerable to sharp fluctuations in visitor traffic to Hawaii – which can result in reduced retail, hospitality, restaurants, entertainment and related spending. This means that the proportional share of sales tax burdens borne by Hawaii's local retailers and businesses is that much greater when compared against the use taxes not being collected by their competitors.

In less than six years, states participating in the Streamlined Sales and Use Tax project have worked, with the assistance of the private sector, to develop a new sales tax system that is fairer, simpler, more uniform and technologically proficient. Today, nineteen states (Arkansas, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Nebraska, New Jersey, North Carolina, North Dakota, Oklahoma, Rhode Island, South Dakota, Vermont, Washington, West Virginia, and Wyoming) have already enacted legislation to become full members of the Streamlined Sales and Use Tax Agreement. Another three states (Ohio, Tennessee, and Utah) are currently associate members and are expected to be in full compliance with the Streamlined Sales and Use Tax Agreement by July 1, 2009. As of January 28, 2009, eleven states, including California, will consider conforming to the Streamlined Sales and Use Tax Agreement this year. Among the states in which 2009 compliance legislation has been introduced are Florida, Georgia, Hawaii, Illinois, Maryland, Massachusetts, Missouri, Texas, Virginia, and Wisconsin. In total, almost half of all the states with a sales tax have enacted legislation to comply with the changes required under the Streamlined Sales and Use Tax Agreement.

Since October 1, 2005, over 1,166 retailers have volunteered to begin collecting sales taxes for member states; and those states have collected over \$334,000,000 in previously-uncollected revenues for sales taxes on transactions involving out-of-state retailers. The voluntary collection process, however, is just the first step in providing Congress with the evidence that states working together have sufficiently streamlined their tax systems to require remote sellers to collect their sales taxes for them. In reviewing the listing of participating states and their experiences with voluntary collections, your Committee finds that Hawaii's reliance on its GET for over fifty per cent of annual tax collections would mean that the State's revenue losses would be more like those states with high percentages of sales tax collections for their revenue base, rather than population alone.

In 2008, the Streamlined Sales and Use Tax Governing Board and project supporters have made congressional action on the federal streamlined sales tax legislation a key strategic goal. United States Senator Daniel Inouye has joined as a co-sponsor of The Sales Tax Fairness and Simplification Act in the United States Senate, S. 34; and United States Representative Neil Abercrombie has joined as a co-sponsor of the Sales Tax Fairness and Simplification Act, H.R. 3396. Your Committee notes that, with Hawaii's congressional leadership joining in the national effort to approve the state-initiated streamlined sales/use tax system, it is critical for Hawaii's policymakers to take the necessary steps to fine-tune Hawaii's general excise and use tax laws so they will meet the national mandate. With the election of President Obama in 2008, the National Conference of State Legislatures (NCSL) and its project supporters are seeking congressional action on the federal streamlined sales tax legislation to close the gap between falling tax revenues and state budgets. Your Committee therefore endorses this year's state streamlined sales tax compliance legislation to assure that every effort to collect outstanding Hawaii sales and use taxes is made before reducing critically-needed government services.

Your Committee has examined and rejected the concern regarding implementation costs raised by the Department of Taxation. This issue would have substantially more merit if it were the first time the concern was being raised, and the Legislature had not dealt with the issue before. However, streamlined sale tax compliance legislation has been introduced during each of the past four legislative sessions, with the 2005 legislation establishing a working group comprised of representatives of the Department of Taxation, House of Representatives, State Senate, and other private sector stakeholders.

Between 2006-2008, the Legislature supported legislation to assist the Department of Taxation in upgrading its tax software system (Integrated Tax Information Management System, or "ITIMS") to provide an effective means of long-term implementation of streamlined sales tax compliance at minimal cost. The Department's system upgrade efforts would, for the most part, have been funded through increased tax collections resulting from various software enhancements and improved collection capabilities. Unfortunately, legislation to upgrade the Department of Taxation's tax software system failed to pass in 2006-2007 – and when it did finally pass in 2008, it was vetoed. For the Department of Taxation to now raise the issue of 'implementation costs' is completely unjustified. Your Committee notes that in 2006, the Department of Taxation estimated implementation costs of \$15,370,055; in 2008, the Department projected costs of between \$5,900,000 and \$9,600,000 for two alternative scenarios. In 2009, the Department of Taxation has estimated its costs would be about \$375,312 if it adopted a relatively simple, non-computer systems approach.

With respect to another concern raised by the Department of Taxation, specifically that the amount of voluntary collections would be minimal – or about \$1,000,000 to \$5,000,000 annually, your Committee believes that the Department's estimates are inaccurate. In the Auditor's 2006 study titled *Implications of the Streamlined Sales Tax Agreement for General Excise Tax Revenues* evaluated the benefits of the State of Hawaii's participation in the Streamlined Sales and Use Tax Agreement implementation, Dr. William Fox examined tax data for one year – 2005 – in concluding that Hawaii's participation in the national project was warranted. Dr. Fox further concluded that voluntary collections by out-of-state retailers would yield \$10,300,000 in additional tax revenues per year. More importantly, the Streamlined Sales Tax Governing Board is currently updating the study of Dr. Bruce and Dr. Fox, and anticipates receiving the updated analysis on lost tax revenues shortly. This means that, as the United States Congress and President Obama review the best means of assisting cash-strapped states, the Streamlined Sales Tax Project will have the most current data and analysis available for evaluation.

Your Committee has amended this measure by:

- (1) Switching the order of sections 8 and 9;
- (2) Amending the terms "charges for mobile telecommunications services" and "serving carrier" to have the same meanings as provided in section 239-22, Hawaii Revised Statutes;
- (3) Updating the purpose section; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1678, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1678, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Hee).

#### **SCRep. 211 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 639**

The purpose of this measure is to authorize the Department of Land and Natural Resources to issue residential leases in state parks, and establish an advisory committee to monitor compliance with the leases.

Testimony in support of this measure was submitted by five public citizens. One state agency submitted comments, and testimony in opposition was submitted by eight public citizens. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the Department of Land and Natural Resources requires more flexibility to negotiate and enter into long-term residential leases for state park land. Long-term lessees can provide valuable services for state parks. For example, the Kahana Valley State Park is a model for such endeavors.

In 1965, the State condemned the ahupua'a o Kahana for use as a state park, making it the only landowner in the State of Hawai'i, outside of the Robinson family on Ni'ihau, to own an intact ahupua'a. An ahupua'a, a triangular slice of land running from the mountains to the ocean, was the major land division used by pre-contact Hawaiians, as it included all of the elements necessary for their existence: the uplands, the lowlands, the shore, and the ocean.

While the families living in Kahana at the time of the condemnation were of varied ethnic backgrounds, many of them were Native Hawaiian, and the people of Kahana in general lived a simple, subsistence lifestyle in harmony with Native Hawaiian values and traditions. The people of Kahana lobbied the legislature after the condemnation to allow them to stay in Kahana and preserve this rural Native Hawaiian-influenced lifestyle. In 1970, a Governor's task force proposed the concept of a living park that would allow the families to stay and in some way participate in the park. The Governor recommended the concept to the Department of Land and Natural Resources. The residents were allowed to stay on the land under revocable leases.

The State determined that as a condition of their lease, each Kahana family would contribute twenty-five hours of interpretive services per month to the park, to preserve, restore, and share the history and rural lifestyle of the ahupua'a with the public.

Act 5, Session Laws of Hawaii 1987, authorized the Department of Land and Natural Resources to issue long-term residential leases to persons who had lived continuously in Kahana Valley or had permits allowing them to reside on certain parcels of land within Kahana Valley. As a condition of holding a lease, these qualified persons agreed to participate in interpretive programs in Kahana Valley State Park.

Thirty-one original families qualified for the long-term residential leases. However, descendants of six families that did not originally qualify for long-term residential leases remained in Kahana Valley State Park. The Department of Land and Natural Resources recently started eviction actions against these six families.

Your Committee understands that Kahana Valley State Park serves the whole community. Interpretive programs designed and offered by lease holders, residents, and lineal descendants of Kahana Valley provide students of all ages, from the university level to

elementary, the opportunity to experience the traditional Hawaiian lifestyle. The interpretive programs are a successful collaboration thanks to the tireless efforts of lease holders, residents, and lineal descendents.

Your Committee has heard from many lineal descendents of Kahana Valley families who want to return. One public citizen, whose family resided in Kahana Valley since the 1800's, served in the Army for twenty years before returning. Now, that public citizen travels daily to Kahana Valley to maintain his father's taro field and participate in interpretive programs. There is no opportunity for kupuna to return to Kahana Valley, which the public citizen notes is necessary to perpetuate the culture and teach younger generations.

Your Committee understands that many participants in interpretive programs are lineal descendents of Kahana Valley families who do not qualify for long-term leases under Act 5, Session Laws of Hawaii 1987, as amended, and that the criteria used to determine long-term lease eligibility needs to be addressed in a collaborate setting.

Your Committee notes that the lease holders, residents, and lineal descendents of Kahana Valley should have a meaningful say in planning the future of Kahana Valley State Park. Your Committee urges the Department of Land and Natural Resources to engage in a dialogue with the residents and lineal descendents on the issues raised during testimony. Kahana Valley is a unique residential and cultural site, and it is understandable that those who are connected with Kahana Valley want to return as lessees. Your Committee further notes that the six families who have eviction actions against them should have the opportunity to reconcile their issues.

Your Committee has amended this measure by:

- (1) Renaming the advisory committee as the planning council;
- (2) Removing the Office of Hawaiian Affairs from the planning council;
- (3) Deleting the sunset date of June 30, 2014; and
- (4) Making technical, nonsubstantive changes for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 639, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 639, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Fukunaga).

#### **SCRep. 212 Economic Development and Technology on S.B. No. 1299**

The purpose of this measure is to include businesses engaged in providing advanced flight simulator training for pilots, dispatchers, mechanics, or air traffic controllers as a qualified business for purposes of the enterprise zone laws.

Testimony in support of this measure was submitted by Former Governor George Ariyoshi, the Department of Business, Economic Development, and Tourism, the Hawaii Community College, Enterprise Honolulu, Global Aeronautics LLC, and the Boeing Company. Comments on this measure were submitted by the Department of Taxation. Written testimony presented to your Committee is available for review on the Legislature's website.

Your Committee finds that including businesses engaged in advanced flight simulator training as a qualified business for enterprise zone purposes will attract investment and promote growth of that industry in Hawaii. Your Committee also finds that requiring that the investment be made in a designated enterprise zone will help to revitalize some of the economically distressed communities in Hawaii.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in an annual revenue loss to the State of \$210,000. Their methodology is as follows:

The Department of Taxation estimates that there would be seven flight training schools located in Hawaii and that each training school would average an annual general excise tax liability of \$30,000, thus a total general excise tax loss to the State of \$210,000 each year.

Your Committee has asked the Department of Taxation to work jointly in producing an economic benefits analysis to reflect a more balanced evaluation of the economic activity to be generated through this measure. Ramsey R. Pedersen, the Special Assistant for Program Development at Honolulu Community College, estimates that an advanced flight simulator training center located at Honolulu International Airport would cost approximately \$3,500,000. The training center would employ approximately four technicians, five flight trainers, one manager, one business accountant, two maintenance staff, and two clerical staff, for a total of fifteen new jobs. Mr. Pedersen further estimates that a typical client for advanced flight simulator training would pay between \$85,000 and \$103,000, depending upon the client's training specifications. Mr. Pedersen states that Hawaii has an opportunity to become a leader in world-class technologically advanced and integrated flight-training for global clients.

Your Committee has amended this measure by changing the effective to July 1, 2050, to promote further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1299, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

#### **SCRep. 213 (Joint) Transportation, International and Intergovernmental Affairs and Commerce and Consumer Protection on S.B. No. 1611**

The purpose of this measure is to provide revenue for highway modernization projects.

Specifically, the measure:

- (1) Increases the state liquid fuel tax, state vehicle registration fee, state vehicle weight fee, and rental motor vehicle surcharge tax;
- (2) Creates the land transportation modernization special fund;
- (3) Provides funding for a six-year comprehensive modernization program;
- (4) Authorizes the implementation of one or more pilot programs to test alternatives to current state and county system of motor vehicle fuel taxes; and
- (5) Requires the Department of Transportation to implement the vehicle miles traveled pilot program.

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Taxation; Pacific Resource Partnership; and Hawaii Developers' Council. Testimony in opposition was received from Avis & Budget Rent A Car Hawaii; Alamo Rent A Car; Enterprise Rent-A-Car; National Car Rental; Catrala-Hawaii; Hertz Corp.; and Dollar Rental Car. Comments were received from the Honolulu Driver Licensing Administrator, Tax Foundation of Hawaii, and Hawaii Transportation Association. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that:

- (1) In order to meet the economic needs of the State and preserve the unique quality of life of its residents and visitors to these precious islands, the Department of Transportation must provide safe, efficient, and effective land transportation facilities and infrastructure for the movement of people and goods;
- (2) A modern and efficient land transportation infrastructure system is essential to a healthy and vibrant economic future;
- (3) Congestion on our highway systems has severe detrimental impacts on our economy and the quality of life of Hawaii's people; and
- (4) The condition of our highway system continues to deteriorate at alarming and unacceptable rates.

Your Committees further find that the Department of Transportation's ability to fulfill its critical infrastructure responsibilities with fixed resources is an extreme challenge that continues to intensify due to programmatic and project needs far exceeding the necessary resources available and needed to properly address them. The land transportation system will continue to deteriorate as demand for travel continues to increase, and as costs to manage, construct, and administer the system increase. Opportunities to expand the system come at too high a consequence.

Your Committees are cognizant of the greater challenges in expanding capacity through new or existing traffic corridors as adjoining lands become more urbanized. As open space diminishes, the potential impacts of new capacity enhancement projects become ever more deleterious. Since the easier, more cost effective routes have often already been used and improvements implemented, the remaining traffic corridor alternatives or options often come with greater geographic and construction challenges, and higher associated costs.

Your Committees also find that infrastructure deterioration continues to progress, with vehicle miles traveled increasing faster than the State's ability to construct additional lanes of travel, thereby resulting in greater congestion. The morning commute on H-1 Freeway from Kapolei into downtown Honolulu has risen to an average of sixty-five minutes and is expected to increase every year. There is a significant human cost to congestion, with ten minutes of time spent in traffic, equating to approximately \$600 per person, per year, and \$3,300 per commercial vehicle, per year.

The Department of Transportation has developed a \$4,000,000,000 comprehensive six-year work plan and financial plan to implement critical programs and projects. As a part of this effort, the Department of Transportation seeks a one-time, infusion of \$2,000,000,000 in capital to aid in rectifying critical deficiencies by pursuing those programs and projects that have the greatest potential to improve the performance categories relating to safety, congestion, system preservation, and other programs and initiatives.

The overall six-year work program is broken down by performance category, by county, and by transportation corridors to better manage, monitor, and inform the public on the progress being made in improving performance. By accelerating the implementation of the identified programs and projects, the Department of Transportation seeks major improvements in the identified performance categories.

Your Committees have amended this measure by:

- (1) Deleting the rental motor vehicle surcharge tax increase, which is included in a separate measure;
- (2) Deleting references to the economic conditions of the State as triggering the tax increases;
- (3) Making the entire measure effective on July 1, 2012, on the recommendation of the Department of Transportation; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1611, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1611, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Ige, Sakamoto, Hemmings, Slom).

**SCRep. 214 (Joint) Judiciary and Government Operations and Commerce and Consumer Protection on S.B. No. 522**

The purpose of this measure is to require the assistant registrar of land court to electronically transmit to the Honolulu real property assessment administrator an index of all deeds and other writs that have been filed or recorded each week relating to the registered land in all the counties.

Your Committees received testimony in support of this measure from the Honolulu Real Property Assessment Administrator, Hawaii County Finance Department, Maui Department of Finance, and one individual. Testimony in opposition was received from the Department of Land and Natural Resources. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure would enable the counties to promptly track property ownership, encumbrances, restrictions, uses, and sales prices of real property for the purposes of determining more accurate real property tax assessments.

Testimony on this measure indicated that the Department of Land and Natural Resources is presently working with the counties to resolve the problem addressed by this measure. Therefore, this measure codifies in statute the current procedural practice.

Your Committees note the concern of the Department of Land and Natural Resources relating to the ten day time limit for providing the image and index of instruments, which does not account for delays due to electronic malfunction. Therefore, your Committees have amended this measure to allow for a time limit as soon as possible after the ten days if unforeseen technical malfunctions occur.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 522, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 522, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 3 (Bunda, Gabbard, Hemmings).

**SCRep. 215 (Joint) Public Safety and Military Affairs and Tourism on S.B. No. 222**

The purpose of this measure is to appropriate funds for the application of a spaceport license from the Federal Aviation Administration to establish space tourism in Hawaii.

Testimony in support of this measure was submitted by one state agency, two private organizations, and two individuals. Testimony in opposition of this measure was submitted by one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that submitting an application for a spaceport license with the Federal Aviation Administration is a tremendous opportunity for the State to develop and take advantage of a financially prosperous industry. Your Committees also find that creating a new industry in Hawaii will provide benefits to existing industries, such as tourism, and also provide new jobs and educational opportunities for our communities. Your Committees further find that the geographic location of Hawaii is in an ideal location for the State and spaceport operators to be successful.

Your Committees have amended this measure by deleting the appropriation of \$500,000 for fiscal year 2009-2010 and leaving the appropriation amount unspecified.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 222, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 222, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Gabbard, Tsutsui, Slom).

**SCRep. 216 (Majority) Public Safety and Military Affairs on S.B. No. 83**

The purpose of this measure is to authorize the State Auditor to conduct a performance audit of three private correctional centers on the mainland that incarcerate Hawaii inmates.

Testimony in support of this measure was submitted by six private organizations and eight individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is fiscally responsible and sound public policy for the State Auditor to conduct a performance audit of correctional centers that incarcerate Hawaii inmates when those privately owned and operated facilities are operating pursuant to a contract with the State of Hawaii.

Your Committee has amended this measure by:

- (1) Correcting an internal reference; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 83, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 83, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (Gabbard, Galuteria).

**SCRep. 217 (Majority) Public Safety and Military Affairs on S.B. No. 537**

The purpose of this measure is to establish an aerospace advisory committee to assist the Legislature and state agencies in development of aerospace industry in the State.

Testimony in support of this measure was submitted by one state agency, two private organizations, and one individual. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the establishment of an aerospace advisory committee would help to facilitate and grow the development of the aerospace industry in Hawaii. Your Committee further finds that the aerospace advisory committee would work closely with various state agencies and the Legislature in providing written reviews, policy recommendations, and strategic objectives to continue to facilitate the growth of the industry throughout the State.

Your Committee has amended this measure by:

- (1) Correcting an erroneous statutory reference; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 537, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (Gabbard, Galuteria).

**SCRep. 218 Public Safety and Military Affairs on S.B. No. 621**

The purpose of this measure is to:

- (1) Establish the Hawaii reserve component military family relief special fund to be used for providing emergency economic relief to families of members in the Hawaii National Guard or federal military reserve that are deployed out of Hawaii; and
- (2) Create an income tax check-off to fund the Hawaii reserve component military family relief special fund.

Testimony in support of this measure was submitted by two state agencies and one private organization. Comments on this measure were provided by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that families in Hawaii who have a member of their family deployed out of Hawaii for service in the Hawaii National Guard or federal military reserve are sometimes in need of financial assistance. Your Committee further finds that creating a special fund designated to provide emergency economic relief to those families will help to alleviate the economic hardships they face while their family member is deployed out of Hawaii.

Your Committee has amended this measure by deleting the establishment of the income tax check-off to fund the Hawaii reserve component military family relief special fund.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 621, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 621, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 219 Public Safety and Military Affairs on S.B. No. 626**

The purpose of this measure is to require the Office of Veterans' Services to pay a mortuary for the services of a deceased veteran and to pay for the transport of that deceased veteran's remains to the Philippines.

Comments on this measure were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the payment of mortuary services for a deceased veteran and the costs for the remains to be transported back to the Philippines will enable the families of deceased New Filipino Scouts that served in World War II to obtain closure with the veteran's passing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 626, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 626, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 220 Public Safety and Military Affairs on S.B. No. 896**

The purpose of this measure is to clarify that positions in the Hawaii National Guard youth and adult education programs are not subject to civil service requirements.

Testimony in support of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that providing an exemption from civil service for positions in the Hawaii National Guard youth and adult education programs will assist the Department of Defense in recruiting, attracting, and retaining highly qualified instructors and managers since the positions will fall outside the civil service salary constraints.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 896, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 896, S.D. 1, and be referred to the Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 221 Public Safety and Military Affairs on S.B. No. 898**

The purpose of this measure is to exempt any care home, school, or hotel from civil liability that would result in the payment of compensation to persons injured when those facilities are used to shelter-in-place during an officially designated emergency.

Testimony in support of this measure was submitted by one state agency and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that providing this exemption from civil liability will promote an increase in the number of private entities that choose to be designated as a shelter-in-place facility during an officially designated emergency.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 898, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 222 Public Safety and Military Affairs on S.B. No. 1059**

The purpose of this measure is to establish an illegal fireworks task force to develop a plan and make recommendations to the Legislature to stop the importation of illegal fireworks and explosives into Hawaii.

Your Committee received testimony in support of this measure from the State Fire Council; Kauai Fire Department; Legislative Information Services of Hawaii; American Lung Association; and Pinky's 5 Eight. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will organize various agencies to work collaboratively on solutions to better enforce the growing distribution and use of illegal fireworks in our communities. Each year, the use of illegal fireworks, namely aerials by unlicensed, nonprofessional persons, continues to increase. These illegal fireworks pose a fire and life safety risk and danger to the public. Enhanced enforcement strategies among state, county, and federal agencies are essential to address the problem.

Your Committee has amended this measure by expanding the task force membership to include the following entities: Department of Agriculture; Consumer Product Safety Commission; Federal Aviation Administration; Federal Bureau of Alcohol, Tobacco and Firearms; and Federal Customs Service.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1059, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 223 Public Safety and Military Affairs on S.B. No. 1147**

The purpose of this measure is to clarify that the Governor has the authority to declare a disaster emergency.

This measure also requires State Civil Defense to report information on the disaster to the Governor, Legislature, and the mayor of each county after the Governor has declared a disaster emergency.

Testimony in support of this measure was submitted by one state agency and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that providing the Governor with the power to declare a disaster emergency will help to expedite necessary actions to mitigate any damages or losses. Your Committee further finds that requiring the Vice-Director of Civil Defense to provide certain governmental leaders with a preliminary report will assist those leaders in assessing any losses from the disaster and also help with preparations for any future disaster emergencies.

Your Committee has amended this measure by:

- (1) Increasing the number of days that the Vice-Director of Civil Defense has to issue a preliminary report from sixty days to ninety days;
- (2) Deleting the word natural in referencing disasters; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1147, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1147, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 224      Public Safety and Military Affairs on S.B. No. 1213**

The purpose of this measure is to prevent any court from commencing a proceeding to enforce a lien or foreclosure action against real property owned by a reservist of the United States Armed Forces or member of the Hawaii National Guard until that reservist or member is redeployed from active duty for a period of one year.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it can take a considerable amount of time for a reservist of the United States Armed Forces or member of the Hawaii National Guard who is deployed out of Hawaii to readjust themselves upon their return from deployment to attend to personal financial matters in a satisfactory manner.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1213, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 225      Health on S.B. No. 528**

The purpose of this measure is to continue the requirement that businesses engaged in the sale of cigarettes and other tobacco products at the retail level acquire a retail tobacco permit.

The measure accomplishes this purpose by repealing the sunset clause in Act 131, Session Laws of Hawaii 2005.

Your Committee received testimony in support of this measure from the Department of Taxation, Coalition for a Tobacco-Free Hawaii, Papa Ola Lokahi, the American Heart Association, Healthy Mothers Healthy Babies Coalition of Hawaii, and one individual. The Attorney General submitted testimony in support of the measure with amendments. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii, and one individual.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that it is necessary to continue the retail tobacco permit program which has successfully facilitated the compliance and collection of cigarette taxes in the State.

Your Committee has amended this measure by adopting the recommendations of the Attorney General by including a purpose section explaining why the sunset provision is being repealed and by changing the effective date to June 30, 2009, to avoid the possibility of this Act taking effect after the sunset date of July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 528, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 226      (Joint/Majority) Higher Education and Health on S.B. No. 43**

The purpose of this measure is to:

- (1) Create the John A. Burns School of Medicine special fund;
- (2) Assess a \$60 fee to obtain or renew physician and osteopathic physician licenses, and transfer those fees from the compliance resolution fund for deposit into the special fund for Hawaii physician workforce assessment and planning; and
- (3) Appropriate funds to support the assessment.

Testimony in support of this measure was submitted by the Hawaii State Rural Health Association and one individual. Testimony in opposition was submitted by the Department of Budget and Finance and the Hawaii Medical Association. Comments were submitted

by the Department of Commerce and Consumer Affairs. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees are supportive of the intent of this measure, but have heard a number of concerns raised regarding its provisions, including how information should be collected, the sharing of confidential data, and costs.

Your Committees concur that the information to be collected from the physician workforce assessment is vital, considering the ongoing shortage of physicians practicing in Hawaii. Your Committees understand that interested stakeholders have been working towards including questions as part of physician renewal, which would initiate data gathering efforts for the John A. Burns School of Medicine, without placing undue burden on the Department of Commerce and Consumer Affairs or the Hawaii Medical Board.

Your Committees commend the parties for their cooperation, and urge the Department of Commerce and Consumer Affairs and the Hawaii Medical Board to continue their collaborative work with the John A. Burns School of Medicine in their efforts to provide information related to physician workforce assessment. Your Committees suggest that these entities also consider consulting other stakeholders, such as the Hawaii Medical Association, and others they deem appropriate.

Your Committees have amended this measure by:

- (1) Clarifying that the uses of the John A. Burns School of Medicine special fund shall include maintaining accurate physician workforce assessment information in a secure data base, and providing or updating personal and professional information; and that the John A. Burns School of Medicine may disclose information specific to any physician only with the express written consent of that physician;
- (2) Deleting comparable language from the new section in chapter 453, Hawaii Revised Statutes, which establishes the physician workforce assessment fee;
- (3) Requiring the physician workforce assessment fee only for license renewal;
- (4) Replacing the amendment to section 26-9(o), Hawaii Revised Statutes, with a comparable provision in Session Laws regarding the transfer of physician workforce assessment fees from the compliance resolution fund to the John A. Burns School of Medicine special fund;
- (5) Adding the Hawaii Medical Board to the recipients of the annual and biennial reports, and requiring the report to the Hawaii Medical Board to include information on the expenditure of fees collected to produce a physician workforce plan for Hawaii;
- (6) Repealing the physician workforce assessment fee and the transfer of fees from the compliance resolution fund on June 30, 2012; and
- (7) Making a technical amendment for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 43, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 43, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Ayes with Reservations, 1 (Green). Noes, 1 (Slom). Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 227 Human Services on S.B. No. 918**

The purpose of this measure is to clarify existing law so that the notice of intent to place a lien on the real property of a Medicaid recipient will be valid if provided to the recipient or the recipient's legal representative, surviving spouse, child, or designated representative.

Testimony in support of this measure was submitted by the Department of Human Services and the Department of the Attorney General. Testimony in opposition to this measure was submitted by the Statewide Independent Living Council. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Department of Human Services is required to place a lien on the real property of Medicaid recipients in nursing homes under certain circumstances, to secure recovery of Medicaid payments from the recipient's estate. Section 346-29, Hawaii Revised Statutes, allows applications for public assistance to be made by the applicant or a person acting on the applicant's behalf.

Your Committee also finds that the Department of Human Services has frequently encountered problems placing liens and filing claims because people claim that a legal representative must receive the notice of intent to place a lien in order for the notice to be valid, and a legal representative is often difficult to locate.

Your Committee believes that this measure will provide greater flexibility in the law to allow recipients' designated representatives, spouses, and children to represent recipients in the lien process; thereby allowing the State to recover Medicaid payments from recipients' estates.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 918 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 228 Public Safety and Military Affairs on S.B. No. 231**

The purpose of this measure is to authorize the fee on a parolee or probationer's application for a transfer out of Hawaii to be deposited into the probation services special fund and not the general fund.

This measure also authorizes the full-time coordinator position to supervise interstate adult offender transfers to be funded from the probation services special fund and limits the Hawaii State Judiciary's expenditures from the probation services special fund to \$400,000 in any fiscal year.

Testimony in support of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is necessary to have a full-time coordinator supervise and oversee interstate adult offender transfers from Hawaii to a correctional facility or prison outside of Hawaii. Requiring the parolee or probationer to pay a fee with their transfer application will help to subsidize the costs associated with interstate adult offender transfers and alleviate the Judiciary's need to use more than \$400,000 of the probation services special fund to administer interstate adult offender transfers.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 231 and recommends that it pass Second Reading and be referred to the Committees on Ways and Means and Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 229 Public Safety and Military Affairs on S.B. No. 563**

The purpose of this measure is to prohibit counties from enacting fireworks ordinances that are less restrictive than state law.

Your Committee received testimony in support of this measure from the State Fire Council; Honolulu Fire Department; Kauai Fire Department; and American Lung Association. Comments were received from the Legislative Information Services of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Current law prohibits counties from enacting fireworks ordinances that are more restrictive than state law. The intent of this measure is to remove that prohibition, clarifying that counties may enact ordinances that are more restrictive than state law.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 563 and recommends that it pass Second Reading and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 230 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1345**

The purpose of this measure is to provide fair compensation, including an automatic lease extension, for lessees when the Department of Land and Natural Resources withdraws, takes, or condemns any portion of the land preventing the lessee from using the land for the purposes for which it was originally leased.

Testimony in support of this measure was submitted by one organization and two public citizens. Testimony in opposition was submitted by one state agency. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that in order to effectuate the widening of Saddle Road, in the County of Hawaii, the Department of Land and Natural Resources established conservation easements on all or a portion of the lands of ranchers holding public land leases for pasture or special livestock use. Consequently, the lessee ranchers suffered serious financial losses.

In this regard, the Department of Land and Natural Resources determined that a conservation easement should be established on approximately six thousand acres of leased lands, preventing the lessees from grazing cattle on the land and effectively depriving the lessees of their use of the land. The Department of Land and Natural Resources reduced the lease rent in proportion to the taking of the land; however, according to information received by your Committee, the lessees who lost use of the land received no other compensation. The final report on discussions with affected ranchers in connection with the Saddle Road realignment project prepared in response to Act 236, Session Laws of Hawaii 2001, states that the United States Department of Transportation Highways Division will provide compensation to the existing lessees, however, according to the lessees, the Department of Land and Natural Resources took the position that because Hawaii law did not provide for any compensation, none was required. Despite the lack of compensation, the lessees are required by their leases to maintain insurance on the land and pay taxes for the land. In addition, several lessees had to reduce their herd and suffered a financial loss as a result of the sale of the cattle. One of the long-term effects of a reduced herd is that lessees cannot mitigate the long-term, fixed costs associated with operating a ranch in the way they anticipated when the lease was negotiated. Thus, the lessees experience financial hardship for an extended period of time that is not sufficiently mitigated by a reduction in lease rent.

According to some lessees, the banking industry took notice of the conservation easements and reduced their valuation of the lease interest. As a result, when lessees approach lenders for much needed capital, the banks do not recognize the leasehold as an asset.

Your Committee believes that by providing an automatic lease extension when a withdrawal, taking, or condemnation occurs, the lessees will be provided with a greater likelihood of having their leases considered as assets by lenders. This will in turn assist the lessees with attaining much needed capital.

The intent of this measure is to prevent similar situations as the Saddle Road withdrawal in the future. This measure is also intended to better provide for the viability and survival of Hawaii's agricultural producers.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1345 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 231 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1265**

The purpose of this measure is to require truthful labeling of meat and fish that have been gas-treated.

Testimony in support of this measure was submitted by one organization. One state agency supported the intent of this measure. One state agency and one organization submitted comments, and one organization submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the United States Food and Drug Administration has determined that use of safe levels of carbon monoxide in treating meat is not harmful to human health. However, it is possible for the meat to appear fresh to the consumer due to the gas treatment but still have high bacteria levels, indicative of spoilage. It has been suggested that the "use, sell, or freeze by" date listed on the package is sometimes extended due solely to the color of the meat rather than the freshness.

The Department of Health checks for proper labeling requirements through routine food safety inspections. The Department of Health also ensures that products are not offered for sale beyond their expiration date. However, the Department of Health admits that it focuses most enforcement efforts on the accurate labeling of fish products. The Department of Health relies upon the United States Department of Agriculture to enforce regulations for meat labeling.

Your Committee notes that this measure is intended to focus primarily on the accurate labeling of meat products sold in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1265 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 232 Public Safety and Military Affairs on S.B. No. 614**

The purpose of this measure is to grant family leave to an employee to provide family care and support during the military deployment of the employee's child, spouse, reciprocal beneficiary, or parent.

Testimony in support of this measure was submitted by two state agencies and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that providing an employee with family leave during the military deployment of the employee's child, spouse, reciprocal beneficiary, or parent will enable the employee to care and support their family in a satisfactory manner. Your Committee also finds that this measure will help to alleviate many of the stresses that some employees face on a daily basis when their child, spouse, reciprocal beneficiary, or parent is deployed.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614 and recommends that it pass Second Reading and be referred to the Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 233 Energy and Environment on S.B. No. 243**

The purpose of this measure is to increase convenience for consumers and facilitate participation in the Deposit Beverage Container Program by requiring all retail dealers with more than seventy-five thousand square feet of retail space to operate redemption centers.

Testimony in support of this measure was submitted by one state agency and three organizations. Three public citizens submitted comments. Testimony in opposition was submitted by two organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that sustaining high container redemption levels in the Deposit Beverage Container Program depends on conveniently located redemption centers for customers. To date, there have been many challenges to locating independently operated redemption centers within a two-mile radius of retail dealers and providing more convenient locations in rural areas.

Your Committee further finds retail dealers in other states with similar redemption programs are also required to be redemption centers. However, in the past, the Legislature has recognized that many retail dealers in Hawaii have limited retail space in their establishments and that their floor space is extremely valuable. Therefore, the high cost of doing business in Hawaii may be prohibitive to establishing redemption areas within smaller retail establishments.

Since its inception in 2004, the Deposit Beverage Container Program has been successful in collecting over one hundred thousand tons of plastic, glass, and aluminum containers for recycling. The Program recycled over six hundred and eighty million containers in 2008 alone. The Department of Health reports that the redemption rate is seventy-two per cent, and the Program's goal is to achieve an eighty per cent redemption rate. Reaching that goal will not be easy because it will require more effort to turn the last few non-participants into recyclers. A telephone survey in 2008 reported that twenty-seven per cent of consumers who do not recycle say that recycling is too much of a hassle. By bringing the redemption centers to the consumers, and increasing the overall number of redemption centers, consumers can incorporate recycling into their normal routine rather than having to make special trips.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 243 and recommends that it pass Second Reading and be referred to the Committee on Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 234 Energy and Environment on S.B. No. 696**

The purpose of this measure is to appropriate funds for grants-in-aid to the counties for the eradication of coqui frogs.

Testimony in support of this measure was submitted by the Mayor of the County of Hawaii and three organizations. One organization supported the intent of the measure. Two state agencies and one organization submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that coqui frogs injure wildlife and are an invasive pest. Coqui frogs were introduced into Hawaii from Puerto Rico in 1988, and have become a major noise nuisance and pose a serious threat to Hawaii's island ecosystem. Coqui frogs have a voracious appetite that puts Hawaii's unique insects and spiders at risk. The coqui frogs compete with endemic birds and other native fauna that rely on insects for food. Your Committee believes that if eradication efforts are not financially supported in all counties, the coqui frogs will continue to expand and endanger endemic bird species and the State ecosystem.

Your Committee further finds that the coqui frogs have a limited distribution on Kauai, Maui, and Oahu. Significant progress at controlling the coqui frog populations has been made, and critical research continues on the island of Hawaii where the coqui frog population is well established and distributed. These accomplishments across the State are at risk of failing if continued funding is not available. Your Committee notes that without consistent control efforts, new coqui frog populations will become established and sites where they were almost eradicated will balloon to previous levels.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 235 (Joint) Human Services and Education and Housing on S.B. No. 910**

The purpose of this measure is to transfer the State's homeless programs branch of the Hawaii Public Housing Authority to the Benefit, Employment, and Support Services Division within the Department of Human Services. This transfer is intended to improve the Department of Human Services' coordination and delivery of homeless services to Hawaii's homeless population.

Testimony in support of this measure was received from the Department of Human Services; the Hawaii Public Housing Authority; Catholic Charities Hawaii; Waianae Community Outreach; and one individual. The State Procurement Office provided comments on the measure. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the State's homeless programs are currently housed within the Public Housing Authority. The Public Housing Authority's homeless services branch serve many of the same clients as the Benefit, Employment, and Support Services Division, creating overlap, duplication of efforts, and unnecessary expenditures and costs by both branches. Further, because services for the homeless population are provided by two different branches within the Department of Human Services, there are gaps in the provision of services and a failure to streamline and coordinate activities. Many individuals are unsure of all the benefits and programs for which they may be eligible because of this lack of coordination. Transferring the homeless services branch from the State's Public Housing Authority to the Benefit, Employment, and Support Services division of the Department of Human Services will improve client outcomes, provide for efficient allocation of funds, and enhance customer service.

As affirmed by the records of votes of the members of your Committees on Human Services and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 910 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Ihara, Tsutsui).

**SCRep. 236 Commerce and Consumer Protection on S.B. No. 1623**

The purpose of this measure is to avoid mortgage foreclosures when possible and to mitigate the effect of mortgage foreclosures on homeowners and tenants when avoidance is not possible by requiring early contact between mortgagees and mortgagors to explore options to modify or restructure loans when appropriate and to afford tenants a timely opportunity to secure new housing.

Your Committee received testimony in support of this measure from Legal Aid Society of Hawai'i and one private citizen. Testimony in opposition to this measure was received from the Hawaii Bankers Association and Hawaii Credit Union League. Hawaii Financial Services Association and Hawaii Association of Realtors submitted comments regarding this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that in this era of financial crisis, mortgage foreclosures can have a devastating effect on communities. Your Committee finds that this measure will help to ensure that homeowners in default of mortgage payments have ample time and opportunity to explore options that may be available to avoid foreclosure or to mitigate the effects of losing their home. Your Committee also finds that residential tenants of properties in foreclosure also merit protection in the form of adequate notice before removal from the property and protection of their security deposits.

Your Committee notes that while additional protections may become available to homeowners under future federal programs, the State still has an important role in formulating policy to respond to local economic conditions. Your Committee recognizes that some opposition exists to this measure, yet still finds this measure to be meritorious and necessary for the protection of Hawaii's homeowners and communities. Finally, your Committee notes that the notice provisions contained in this measure are intended to apply equally to judicial foreclosure, foreclosure by power of sale, and foreclosure by alternate power of sale.

Your Committee has amended this measure by:

- (1) Requiring notice of a homeowner's right to representation or assistance in foreclosure proceedings and the availability of alternate dispute resolution methods such as mediation and negotiation to attempt to avoid foreclosure;
- (2) Repealing the requirement that a mortgagor sign a conveyance document in a foreclosure by alternate power of sale;
- (3) Removing the provision that allowed a tenant of a foreclosed property to elect to maintain the rental agreement in full force and effect after receiving notice of foreclosure;
- (4) Providing one hundred twenty days notice of foreclosure to a tenant before termination of a month-to-month tenancy;
- (5) Providing that a tenant of a property in foreclosure may apply the tenant's security deposit to the last month's rent;
- (6) Making technical, nonsubstantive changes for the purposes of clarity and accuracy in the language of this measure; and
- (7) Deferring the effective date of this measure in order to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1623, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1623, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 237 Commerce and Consumer Protection on S.B. No. 1241**

The purpose of this measure is to prohibit a deed restriction or covenant that requires the payment of a transfer fee to a specified private party every time a property is sold or transferred.

Your Committee received testimony in support of this measure from Hawai'i Association of Realtors. Testimony in opposition to this measure was received from Mililani Town Association and one private citizen. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that some real estate developers charge transfer fees that require a payment to the developer every time a property is sold or transferred from one owner to the next. Some of these fees are unrelated to any legitimate purpose and serve only to enrich the developer. Your Committee finds that there is presently no regulation of these fees, no limitation on their application, and no accountability or oversight of the recipients. Your Committee recognizes the concerns voiced by testifiers that legitimate fees, such as those to cover the cost of association membership, be excluded from this measure.

Your Committee has amended this measure by:

- (1) Exempting fees paid by a borrower to a lender in connection with loan services, cooperative or owner's association fees, fees paid to a landlord for services rendered in connection with the execution of a lease, and fees paid for an option to purchase or right of first refusal;
- (2) Clarifying the definition of residential real property;
- (3) Adding a new section so that the prohibition of transfer fees applies equally to transactions registered with the bureau of conveyances and with the land court; and
- (4) Deferring the effective date of this measure to November 1, 2009, to allow affected parties time to amend forms and printed materials.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1241, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1241, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 238 (Majority) Commerce and Consumer Protection on S.B. No. 1091**

The purpose of this measure is to prohibit the placement of paid advertisements on vehicles and trailers.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Na Leo Pohai. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current law allows advertisers to place signs and advertisements on vehicles when these same signs and advertisements would be prohibited if they were posted anywhere else, such as on a building or along the roadside. These vehicles function as billboards when they are driven or parked on the side of the road. Your Committee notes that this measure does not apply to vehicles or trailers that display advertisements for the business for which the vehicle or trailer is actually used.

Your Committee has amended this measure by:

- (1) Clarifying that “economic benefit” does not include a benefit derived by the vehicle owner from advertising its own business; and
- (2) Making technical, nonsubstantive changes for clarity to section one.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1091, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 1 (Espero). Noes, 1 (Hemmings). Excused, none.

**SCRep. 239 Commerce and Consumer Protection on S.B. No. 456**

The purpose of this measure is to prohibit discrimination based on lawful source of income in housing transactions.

Your Committee received testimony in support of this measure from U. S. Representative Neil Abercrombie, four members of the Kauai County Council, Institute for Human Services, Legal Aid Society of Hawaii, Malama Kauai, Kauai Fair Housing Law Coalition, Kauai Food Bank, Agency on Elderly Affairs, and eighteen private citizens. Testimony in opposition to this measure was received from the Hawaii Public Housing Authority. Comments were received from the Hawaii Civil Rights Commission and B.Y. Realty Management and Sales. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that discrimination exists against persons who receive state or federal income assistance, such as Social Security benefits, Temporary Aid to Needy Families, or Section 8 housing vouchers. It is already very difficult for many families and individuals to find safe, affordable rental housing in many communities throughout the State. Discrimination makes an already difficult situation worse. Your Committee finds that this measure would prohibit discrimination based on lawful source of income in housing transactions but would still allow a landlord or property manager to consider relevant characteristics of a renter such as ability to pay rent and prior rental history.

Your Committee recognizes the concerns of the Hawaii Civil Rights Commission that the Commission currently may not have the staff capacity to timely enforce the provisions of this measure and that the Commission’s federal funding depends on complying with guidelines, such as claim processing time, established by the federal Department of Housing and Urban Development. Since it is not the intent of this measure to jeopardize the Commission’s federal funding, Your Committee on Commerce and Consumer Protection recommends that the Committee on Judiciary and Government Operations investigate the legal issue of whether it would be more appropriate to include the provisions of this measure in a ban on discriminatory advertising rather than in the Fair Housing Act.

Your Committee has amended this measure by deferring its effective date to 2015 in order to encourage further discussion and to allow persons who are responsible for real estate transactions to update their forms and other written materials.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 456, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 456, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 240 Commerce and Consumer Protection on S.B. No. 58**

The purpose of this measure is to allow automobile insurers to exclude specified household members from coverage under an automobile insurance policy.

Your Committee received testimony in support of this measure from American Insurance Association, Geico, Property Casualty Insurers Association of America, and State Farm Insurance. Testimony in opposition to this measure was received from the Hawaii Association for Justice and Hawaii Independent Insurance Agents Association. The State Insurance Commissioner submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that insurance policy in this State should have the goal of ensuring that drivers on Hawaii’s roads are adequately insured. Your Committee is concerned that there seems to be disagreement among insurers and consumer advocates as to whether this measure is likely to result in more or fewer uninsured drivers. Further discussion on this measure is warranted.

Your Committee has amended this measure by:

- (1) Adding the requirement that an excluded driver sign an acknowledgement of exclusion from the insurance policy;
- (2) Limiting the application of provisions that allow the exclusion of designated persons from coverage under an insurance policy to policies for personal, noncommercial vehicles;
- (3) Amending the effective date to July 1, 2015; and
- (4) Adding a sunset date of June 30, 2020.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 58, as amended herein, and recommends that it pass

Second Reading in the form attached hereto as S.B. No. 58, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 241 Commerce and Consumer Protection on S.B. No. 121**

The purpose of this measure is to enact the Uniform Prudential Management of Institutional Funds Act which updates existing law relating to the financial management of charitable organizations and allows grant-making organizations greater flexibility in responding to market fluctuations.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation and Hawaii Community Foundation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will assist charitable institutions respond effectively to market conditions which depress the value of endowment funds. In the current economic recession, it is especially important that grant-making organizations be able to continue funding nonprofit charities that provide a much-needed social safety net to Hawaii residents. Your Committee notes that this measure is a result of collaboration among local charitable organizations and the Department of the Attorney General.

Your Committee has amended this measure by making technical, nonsubstantive changes to conform the language of this measure to existing statutory conventions.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 121, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 242 Commerce and Consumer Protection on S.B. No. 301**

The purpose of this measure is to create the designation of commercial registered agent and to streamline the documentary requirements for individuals registered as commercial registered agents.

Your Committee received testimony in support of this measure from the Business Registration Division of the Department of Commerce and Consumer Affairs, the Commission to Promote Uniform Legislation, and CT Corporation. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the current law applying to registered agents includes documentary requirements that are burdensome for both registered agents and the Business Registration Division. This measure will update the State's agent registration process to take advantage of new information technology and bring Hawaii's registration policy into line with that of the eight other states that have already adopted the model act contained in this measure. Your Committee finds that this measure will help facilitate domestic and interstate commerce in Hawaii.

Your Committee has amended this measure by:

- (1) Standardizing internal statutory references to conform with the style used throughout Hawaii Revised Statutes; and
- (2) Inserting a provision to clarify the process of updating registered agent information filed with the Department of Commerce and Consumer Affairs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 301, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 243 Commerce and Consumer Protection on S.B. No. 877**

The purpose of this measure is to protect Hawaii's underground infrastructure by repealing the sunset date on the One Call Center pilot program.

Your Committee received testimony in support of this measure from the Public Utilities Commission, the One Call Advisory Committee, Hawaiian Electric Company, Hawaiian Telecom, Building Industry Association-Hawaii, General Contractors Association of Hawaii, and The Gas Company. Comments were received from the Hawaii Pest Control Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the One Call Center and its mandatory Call Before You Dig program is effective at regulating excavation activity, minimizing disruption of service to operator customers, and protecting the safety of excavators. Your Committee also finds that the One Call Center was always intended to be an on-going program persisting beyond the sunset date of the original legislation.

Your Committee has amended this measure by making technical, nonsubstantive changes to the language of section one.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 877, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 877, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 244 Commerce and Consumer Protection on S.B. No. 1107**

The purpose of this measure is to merge the duplicative educational trust funds inadvertently resulting from the recodification of the condominium laws into a single trust fund for the education of condominium owners, associations, developers, and managers.

Your Committee received testimony in support of this measure from the Real Estate Commission. Testimony in opposition to this measure was received from the Hawaii Independent Condominium & Cooperative Owners. Comments on this measure was received from the Hawaii Council of Associations of Apartment Owners. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the condominium management education fund and the condominium education trust fund that exist under current law already operate as a single fund for practical purposes and that the creation of two separate funds was an inadvertent effect of the recodification of the condominium law.

Your Committee heard concerns from Hawaii Independent Condominium & Cooperative Owners that moneys paid into the trust fund by individual homeowners should be used to finance education for owners and not for developers or associations. Therefore your Committee has amended this measure by:

- (1) Requiring that the Real Estate Commission include in its annual fund report to the Legislature a separate accounting for moneys paid into the fund by individual homeowners;
- (2) Requiring that the Real Estate Commission include in its annual fund report to the Legislature a separate accounting for expenditures on education directed at individual homeowners; and
- (3) Requiring that the Real Estate Commission make its educational publications about condominium owners' rights and responsibilities available to individual homeowners in both printed and electronic formats.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1107, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 245 (Majority) Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1318**

The purpose of this measure is to repeal the chapters of the Hawaii Revised Statutes that relate to coastal zone management and state planning, and transfer the authority and functions of the Office of Planning to the Department of Business, Economic Development, and Tourism.

Testimony in opposition to this measure was submitted by two state agencies. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of the state government is necessary to ensure that all available avenues have been explored to accomplish more with fewer resources.

Your Committee has amended this measure by amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1318, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Tokuda). Excused, 2 (Takamine, Hemmings).

**SCRep. 246 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1140**

The purpose of this measure is to ensure the viability of federally qualified health centers and critical access hospitals in the State by requiring commercial health plans to provide a minimum reimbursement level of no less than one hundred and one per cent of the costs for all services provided to plan beneficiaries by these facilities.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Health Systems Corporation, Hawaii Primary Care Association, Ka'u Hospital, and Kona Community Hospital. Your Committees received testimony in opposition to this measure from Hawaii Medical Service Association. The American Family Life Assurance Company of Columbus submitted comments on the measure.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committees find that federally qualified health centers and critical access hospitals provide necessary care to the communities they serve. Low reimbursement rates that do not cover the costs of services provided have put these facilities in a financial crisis.

Your Committees further find that this measure should not apply to limited benefit insurance policies. Requiring limited benefit insurance policies to pay on a cost basis will unnecessarily increase the cost of this type of insurance or cause it to become unavailable all together.

Accordingly, your Committees have amended this measure by including language that exempts limited benefit health insurance policies from the minimum reimbursement requirement.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1140, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1140, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 247 (Joint) Health and Commerce and Consumer Protection on S.B. No. 568**

The purpose of this measure is to improve quality and affordability of health care with the implementation of health information technology.

Specifically, this measure establishes the electronic prescription drug program task force within the Department of Health to develop a plan to establish and implement, by July 1, 2011, the mandatory use of an electronic prescription drug program by pharmacists, physicians, and others authorized to prescribe or dispense prescription drugs in the State.

Your Committees received testimony in support of this measure from the Department of Human Services, Kaiser Permanente, Hawaii Medical Service Association, and Walgreens. The Department of Health submitted testimony in support of the intent of this measure.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that an electronic prescription drug program will improve patient safety through the generation of legible prescriptions that have been checked for adverse reactions and drug-drug interactions. Your Committees further find that the federal stimulus package is expected to include funding for health information technology which the task force should pursue to fund the implementation of the program.

Your Committees have amended this measure by including a representative from a local health plan on the task force and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 568, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 568, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 248 (Joint) Health and Economic Development and Technology on S.B. No. 1266**

The purpose of this measure is to encourage the development and expansion of skilled nursing facilities by establishing an enterprise zone for skilled nursing facilities operating in the State.

Your Committees received testimony in support of this measure from Avalon Health Care, Inc. and one individual. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that this measure will help to provide the infrastructure needed for the continuum of care for the State's growing aging population by creating a tax incentive by exempting skilled nursing facilities operating within a designated enterprise zone from the state general excise tax.

As affirmed by the records of votes of the members of your Committees on Health and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1266 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 3 (Espero, Hee, Slom).

**SCRep. 249 (Joint) Economic Development and Technology and Tourism on S.B. No. 1334**

The purpose of this measure is to establish the Museum for Hawaiian Music and Dance.

The measure accomplishes this by directing the State Foundation on Culture and the Arts and the Department of Accounting and General Services to execute a contract with a nonprofit entity to develop, manage, and operate the museum. The contract would be exempt from the public procurement code.

The measure also appropriates \$2,000,000 to finance the design and environmental assessment relating to constructing the museum and authorizes the issuance of \$27,000,000 in general obligation bonds to fund the actual construction of the museum.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the Hawaiian Music Hall of Fame, INPEACE, Grubb and Ellis, Rubicon Consultants and Marketing, Tropical Music, C.F. Consulting, Island Film Group, the Hawaii Academy of the Recording Arts, and twenty-one individuals. Testimony in opposition of this measure was submitted by the State Procurement Office. Comments on this measure were submitted by the Department of Business, Economic Development, and

Tourism, and the Department of Accounting and General Services. Written testimony presented to the Committees is available for review on the Legislature's website.

Your Committees find that the people of Hawaii deserve to have music, dance, and art that is representative of their culture, background, and heritage be preserved for generations of people to observe and appreciate. Your Committees also find that the Museum for Hawaiian Music and Dance will help Hawaiian children connect to their ethnic roots and perhaps provide inspiration to their own pursuits in music, dance, or art.

Your Committees have amended this measure by:

- (1) Deleting the exemption from the state procurement code for the contract between the State Foundation on Culture and Arts and the Department of Accounting and General Services to build the Museum for Hawaiian Music and Dance;
- (2) Deleting the monetary appropriations to be expended by the State Foundation on Culture and Arts;
- (3) Deleting the sum of the general obligation bonds that are authorized to be issued by the Director of Finance; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1334, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1334, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 3 (Hee, Kidani, Tsutsui).

**SCRep. 250 (Majority) Economic Development and Technology on S.B. No. 830**

The purpose of this measure is to establish a shared services technology special fund that allows various departments and agencies to combine financial resources to purchase common technology systems, hardware, and software.

Testimony in support of this measure was submitted by the Department of Accounting and General Services, the Department of Education, and the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that allowing numerous departments and agencies to contribute to the shared services technology special fund and to collectively use the fund's resources to optimize their purchasing power through bulk purchases will decrease operating and administrative costs, as well as improve the amount of time spent on processing purchase orders. Departments and agencies will benefit under this special fund by receiving shared services technologies at a better price point than if the department or agency purchased the service technology separately, assuming that the budget for the department or agency would enable them to make the purchase to begin with.

Your Committee has amended this measure by:

- (1) Clarifying that the purposes for which any funds deposited into the shared services technology special fund may be used shall be within the appropriate duties and responsibilities assigned to the Department of Accounting and General Services for information and technology services and that the use of the funds shall be authorized by the Legislature prior to expenditure;
- (2) Requiring the Department of Accounting and General Services to include in its report to the Legislature, a financial plan for generating revenues for the shared services technology special fund; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 830, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Ayes with Reservations, 1 (Ige). Noes, 1 (Slom). Excused, 1 (Hee).

**SCRep. 251 Energy and Environment on S.B. No. 1381**

The purpose of this measure is to enable Hawaii to receive and use moneys under the federal American Recovery and Reinvestment Act of 2009 and any other applicable federal law for drinking water and wastewater infrastructure improvement projects.

Testimony in support of this measure was provided by one state department and one private organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that it is crucial that this measure be passed to allow Hawaii to benefit from the American Recovery and Reinvestment Act of 2009 for drinking water and wastewater infrastructure improvements projects. The anticipated federal funds for these projects will improve public health, protect the environment, and stimulate the economy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, S.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 252 Energy and Environment on S.B. No. 287**

The purpose of this measure is to require maximum use of geothermal energy on the island of Hawaii to achieve energy self-sufficiency and reduced reliance on imported fossil fuels; and to establish a pilot program and a tax credit to facilitate the development of infrastructure for the deployment of renewable energy resources, including geothermal resources.

Testimony in support of the intent of the measure, with comments, was submitted by three state agencies and one private organization. Testimony in opposition to the measure was submitted by one private organization. Copies of written testimony are available for review on the Legislature's website.

The Public Utilities Commission submitted comments regarding the language in the measure that would require the Public Utilities Commission to direct public utilities to arrange for the acquisition of and to acquire electricity generated from geothermal sources at the maximum capacity that is available from the producers of geothermal energy. The Public Utilities Commission expressed concern regarding the cost impact to ratepayers, as the measure as currently drafted would appear to require the acquisition of all available geothermal resources without regard to cost. The Public Utilities Commission suggested replacing the mandatory "shall" with the permissive "may".

Your Committee recognizes that it is important to maximize the use of geothermal energy on the island of Hawaii to reduce reliance on imported fossil fuels and to achieve energy self-sufficiency. As fossil fuel and petroleum prices become more volatile, Hawaii's ability to generate its own energy will make the State more secure and less reliant on outside sources.

Your Committee has amended this measure by:

- (1) Making technical, nonsubstantive stylistic changes; and
- (2) Adopting the recommendation of the Public Utilities Commission by substituting the word "shall" with "may" within the provision regarding the acquisition of geothermal energy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 287, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Ayes with Reservations, 3 (English, Ihara, Kokubun). Noes, none. Excused, none.

**SCRep. 253 Energy and Environment on S.B. No. 461**

The purpose of this measure is to remove the dependency of the price of electrical energy generated from nonfossil fuel sources from the avoided cost of energy generated by the electric public utility purchasing the nonfossil fuel generated electricity.

Testimony in support of this measure was submitted by six private organizations. Testimony in support, with comments, was submitted by two state departments and two private organizations. Comments were submitted by one state department. Copies of written testimony are available for review on the Legislature's website.

The measure de-links power purchasing rates payable by a utility for nonfossil fuel generated electricity from the price of fossil fuels. Specifically, the measure amends section 269-27.2, Hawaii Revised Statutes, by deleting the limitation on a utility's power purchasing rates to no more than one hundred per cent of the cost avoided by the utility when the utility purchases the electricity rather than producing it.

Your Committee finds that the amendments proposed in this measure will significantly reduce any linkages between the volatile prices of fossil fuels and the rate for nonfossil fuel generated electricity, potentially enabling utility customers to share in the benefits of price stability and fuel cost savings resulting from the use of nonfossil fuel generated electricity.

Your Committee has amended this measure by adopting the recommendations of several testifiers to revise the definition of "cost-effective" in section 269-91, Hawaii Revised Statutes, to be consistent with the amendments proposed in this measure.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 461, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 254 Energy and Environment on S.B. No. 464**

The purpose of this measure is to make amendments to the Hawaii Renewable Energy Tax Credit by:

- (1) Making it refundable;
- (2) Removing the restriction on the type of income that it can be used to offset;
- (3) Making it specially allocable; and
- (4) Making it available to Hawaii insurance companies.

Testimony in support of this measure was submitted by eight private organizations. The Department of Taxation submitted testimony in support of the intent of the measure, with comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that, as currently drafted, the Hawaii Renewable Energy Tax Credit has very limited appeal as a financial incentive. This measure expands the class of investors who can use the credit, thereby attracting much more investment capital to renewable energy in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive stylistic amendments to the proposed section 235-12.5(h)(2), Hawaii Revised Statutes, to conform that provision with other sections of this measure.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 464, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 255 Energy and Environment on S.B. No. 868**

The purpose of this measure is to amend chapter 196, Hawaii Revised Statutes, to:

- (1) Update certain definitions for clarity and to take into account the changes in the State's energy resources, markets, and systems;
- (2) Establish definitive policy guidance needed on the nature and relationship of energy data analyses to the State's energy program, and to clearly delineate distinctive analytic roles and responsibilities of state agencies conducting energy data functions; and
- (3) Provide the statutory basis for a systematic state energy analytic capacity and capability, which is essential to support the Energy Resources Coordinator's role.

Testimony in support of this measure was submitted by one state department and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that, given the increasing need to establish Hawaii's energy independence, it is important to clarify and further define the duties and responsibilities of the state energy office. Your Committee finds that this measure allows the Energy Resources Coordinator to better carry out its statutory role in governing energy resource planning, as well as preserving and ensuring Hawaii's energy security.

Your Committee has amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 868, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 256 Energy and Environment on S.B. No. 393**

The purpose of this measure is to issue special purpose revenue bonds in the amount of \$35,000,000 to assist One Planet Pacific Energy, LLC (One Planet), which proposes to construct a five-hundred-ton-per-day gasification facility to convert solid waste into synthetic gas to utilize material solid waste from the construction and demolition solid waste landfill in Nanakuli, Oahu, Hawaii.

Testimony in support of this measure was submitted by One Planet. Comments were submitted by one state department. Written testimony presented to the Committee may be reviewed on the Legislature's website.

One Planet requested that the amount of the bond be amended to \$40,000,000, to reflect an increase in the estimated cost of the project.

Your Committee finds that One Planet's proposed gasification project will bring significant benefits to Hawaii, by taking materials that are currently taking up valuable landfill space and converting them into a source of renewable energy through its synthetic gas production.

Your Committee has amended this measure by:

- (1) Revising the amount of the special purpose revenue bond to \$40,000,000; and
- (2) Changing the date of the authorization from June 30, 2015, to June 30, 2014, in order to be consistent with section 39A-117, Hawaii Revised Statutes, as recommended by the Department of Budget and Finance.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 393, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 257 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.B. No. 1635**

The purpose of this measure is to require that all landfills throughout the State charge commercial haulers with vehicles of 19,500 pounds or less a "pass through" tipping fee for disposal of solid waste based upon the actual weight of the disposed material, rather than a flat fee.

Testimony in support of this measure was submitted by one private individual. Testimony in opposition to this measure was submitted by one state department and one county department. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that currently, landfills may charge a minimum tonnage fee regardless of the amount of waste that is actually being disposed of. This measure is intended to provide a fair means of assessing a fee for solid waste disposal, while also providing some relief to our small businesses and homeowners.

Your Committees have amended this measure by clarifying that the calculation of tipping fees by pass through basis shall apply to waste operators that assess or charge tipping fees by weight.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1635, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1635, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 1 (Ihara).

**SCRep. 258 Energy and Environment on S.B. No. 486**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for BioEnergy Hawaii, LLC.

Testimony in support of this measure was submitted by one state agency, two organizations, and one individual. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that BioEnergy Hawaii, LLC proposes to build a waste-to-energy facility that will produce as much as ten megawatts of electricity without the use of fossil fuels.

Your Committee finds that the benefits of the proposed waste-to-energy facility include significantly reducing solid waste, which has created a problem with landfill space; reducing the State's dependence on imported fossil fuels; reducing the State's carbon footprint by recycling carbon dioxide through the gasification of waste into energy; and producing leftover biomass that may be used in animal feed.

Your Committee believes that the issuance of special purpose revenue bonds for the proposed waste-to-energy facility is in the public interest, as it could provide electricity for up to eight thousand typical homes in addition to the additional benefits described above.

Your Committee has amended this measure by making technical, nonsubstantive amendments to correct a typographical error.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 486, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 259 Energy and Environment on S.B. No. 512**

The purpose of this measure is to modify the current ethanol production facilities tax credit to provide a tax credit for biofuel production facilities.

Testimony in support of the measure was submitted by a county department and three private organizations. Testimony in support, with suggested amendments, was submitted by two private organizations. Testimony in support of the intent of the measure, with suggested amendments, was submitted by one state department. Testimony in opposition to the measure was submitted by one private organization. Comments were submitted by one state department. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the use of biofuels can reduce the State's dependence on imported oil and increase the amount of renewable energy from sustainable resources. Amending the as yet unused ethanol facility tax credit will encourage local companies to put this dormant credit to use.

Your Committee has amended this measure to make technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 512, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 260 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.B. No. 1053**

The purpose of this measure is to amend chapter 343, Hawaii Revised Statutes, in order to allow an agency to transfer the responsibility for preparing and funding environmental assessments and environmental impact statements to the private entity user who will actually be using the state or county land or when new improvements necessary to accommodate the private entity's operations are to be constructed with state or county funds.

Testimony in support of this measure was submitted by one state department. Testimony expressing concerns regarding this measure was submitted by three private organizations. Testimony in opposition was submitted by one private organization. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find this measure permits the State and county agencies to fairly shift the cost for the necessary environmental reviews required by law to the actual user of the state and county lands or funds.

Your Committees have amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1053, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1053, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Ihara, Kokubun, Hemmings).

**SCRep. 261 (Joint/Majority) Energy and Environment and Tourism on S.B. No. 266**

The purpose of this measure is to establish a task force to assess the current and potential impacts of climate warming trends on the citizens, natural resources, and the economy of the State.

Testimony in support of this measure was submitted by one state agency and four private organizations. Testimony in support, with suggested amendments, was submitted by one private organization. Testimony in opposition to the measure was submitted by one state department and one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that global climate change, encompassing both warming and cooling trends, threatens Hawaii with stronger hurricanes, shifting micro-climates, drought, shifting weather patterns, increased spread of invasive species, inundation of our shorelines, and saltwater intrusion into Hawaii's aquifers. The best approach in dealing with these adverse impacts is to be proactive rather than reactive. Further, your Committees also find that the task force created by this measure will be a good complement to the existing Greenhouse Gas Emission Reduction Task Force.

Your Committees have amended this measure by:

- (1) Making technical, nonsubstantive stylistic changes; and
- (2) Revising the measure, where appropriate, to emphasize that the task force should address global climate change, encompassing both warming and cooling trends, rather than just global warming.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 266, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 266, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, 2 (Hemmings, Slom). Excused, 2 (English, Tsutsui).

**SCRep. 262 Energy and Environment on S.B. No. 391**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to Honolulu Seawater Air Conditioning, LLC, for the purpose of design and construction of a seawater air conditioning district cooling system in downtown Honolulu.

Testimony in support of this measure was submitted by four organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that especially in light of Hawaii's geographic isolation, the development and utilization of renewable, sustainable, and efficient energy systems continues to be in the public interest.

Your Committee further finds that Honolulu Seawater Air Conditioning, LLC proposes to build seawater air conditioning district cooling systems on the island of Oahu. Honolulu Seawater Air Conditioning, LLC is engaged in the planning, design, and construction of a seawater air conditioning district cooling facility and chilled water distribution system in downtown Honolulu using cold, deep seawater as the primary cooling source.

Your Committee finds and declares that the issuance of special purpose revenue bonds under this measure is in the public interest and promotes the public health, safety, and general welfare. Your Committee further finds that the issuance of special purpose revenue bonds and refunding special purpose revenue bonds under this measure will make the development of a seawater air conditioning system more economically feasible and provide numerous benefits, including the following:

- (1) Providing customers with reduced and stable cooling costs;
- (2) Using an abundant, infinite, sustainable energy resource – cold, deep seawater – to provide more than ninety per cent of the cooling load;

- (3) Eliminating the need for cooling towers and, as a result, reducing potable water use, toxic chemical use, and the production of sewage;
- (4) Greatly reducing the use of harmful refrigerants used in conventional cooling systems;
- (5) Potentially providing energy savings of seventy per cent, or more, compared to conventional air conditioning systems;
- (6) Having lower operating and maintenance costs than individual building air conditioning systems;
- (7) Eliminating the need for up to 0.63 kilowatts of electricity generation capacity for each ton of cooling capacity;
- (8) Potentially generating millions of dollars in construction project spending. In addition to construction jobs, a significant number of long-term, well-paid jobs will also be created;
- (9) Reducing the export of Hawaii moneys for oil and retaining that money in the Hawaii economy. Other local economic development benefits will accrue from money that stays in Hawaii and is not used to purchase oil; and
- (10) Helping the State of Hawaii, the City and County of Honolulu, and the federal government to meet goals and mandates for energy efficiency and renewable energy use.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Ihara).

**SCRep. 263 (Majority) Commerce and Consumer Protection on S.B. No. 1165**

The purpose of this measure is to repeal the sunset date on the general excise tax exemption on monies paid by timeshare operators and condominium submanagers for employee wages, salaries, payroll taxes, insurance premiums, and employee benefits.

Your Committee received testimony in support of this measure from Wyndham Worldwide, American Resort Development Association, Marriott Vacation Club International, Inc., and Outrigger Hotels. Your Committee received testimony on this measure with comments from the Department of Taxation and Tax Foundation of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will result in no additional loss of revenue to the State, since it merely continues a tax exemption that is already in place. Your Committee also finds that this exemption levels the playing field with regard to tax treatment for similarly situated entities: operators of hotels, timeshares, and condotels. Therefore, the exemption for operators of timeshare and condotels should be made permanent.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1165 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (Ihara, Sakamoto).

**SCRep. 264 Commerce and Consumer Protection on S.B. No. 1218**

The purpose of this measure is to bring Hawaii into compliance with federal law by implementing the Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (SAFE Act).

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii Bankers Association, Hawaii Association of Mortgage Brokers, and Legal Aid Society of Hawaii. Testimony in opposition to this measure was received from the Department of Commerce and Consumer Affairs and Hawaii Financial Services Association. Testimony with comments on this measure was received from State Farm Insurance Companies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure complies with the requirements of the federal SAFE Act. Your Committee further finds that the purpose of the SAFE Act is to "to increase uniformity, reduce regulatory burden, enhance consumer protection, and reduce fraud" by encouraging the states to regulate the mortgage industry. Your Committee notes that this measure is based on a model act prepared by the Conference of State Bank Supervisors and American Association of Residential Mortgage Regulators that the Department of Housing and Urban Development has approved as compliant with the federal law.

Your Committee notes that, under the SAFE Act, failure of the State to implement conforming legislation would result in abdication of the State's right to regulate the mortgage industry and assignment of that right to the federal Department of Housing and Urban Development. Your Committee finds that this result would be unacceptable as it is critical that the State retain its right to respond to unique local circumstances in regulating the mortgage industry.

Your Committee has amended this measure by:

- (1) Adding provisions relating to mortgage call reports, unique identifiers for mortgage loan originators, and reports to the nationwide mortgage licensing system in order to fully comply with the SAFE Act;
- (2) Amending the prohibited practices section to conform to existing law regarding unfair and deceptive trade practices;
- (3) Making technical, nonsubstantive changes to ensure clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1218, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 265 Commerce and Consumer Protection on S.B. No. 154**

The purpose of this measure is to limit liability in tort actions relating to the maintenance and design of public highways to the actual percentage share of damages for design professionals whose degree of negligence is determined to be twenty-five per cent or less.

Your Committee received testimony in support of this measure from Austin, Tsutsumi & Associates; ECS, Inc.; Pacific Geotechnical Engineers, Inc.; Coalition of Hawaii Engineering and Architectural Professionals; American Institute of Architects; American Council of Engineering Companies; Fukunaga & Associates, Inc.; Engineering Solutions, Inc.; and Gray, Hong, Nojima & Associates, Inc. Testimony in opposition to this measure was received from Hawaii Association for Justice. Testimony with comments was received from Hawaiian Electric Company and Hawaiian Telecom. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee acknowledges the concerns voiced in testimony by members of the small business community that the potential for tort liability may influence the choice of some small businesses to not participate in contracts for the design and maintenance of public highways. However, your Committee disagrees with some testifiers' conflation of tort liability with contractual indemnification of the contracting government entity for damages. Your Committee also notes the concerns of the public utilities that this measure would shift liability from design professionals to public utilities even though public utilities are bound by state and local government laws as to the placement of utility poles along highways but do not participate in highway design, planning, or construction.

Your Committee has amended this measure by:

- (1) Adding a new section to exempt public utilities from liability in tort actions involving damages related to the design and maintenance of public highways unless the public utility's degree of negligence is determined to be twenty-five per cent or more; and
- (2) Deferring the effective date of this measure to July 1, 2030.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 154, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 154, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 266 Commerce and Consumer Protection on S.B. No. 1130**

The purpose of this measure is to allow a party seeking to record a judgment with the Bureau of Conveyances to redact the first five digits of any Social Security Numbers that may be included on the judgment.

Testimony in support of this measure was received from the Department of Land and Natural Resources and the Collection Law Section of the Hawaii State Bar Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the law pertaining to filings in the Bureau of Conveyances is incongruent with the documentary rules and practices of the Judiciary. Many judicial orders and judgments contain the parties' full Social Security numbers as a means of identification. However, the current law prohibits the Registrar of the Bureau of Conveyances from accepting a document that contains a full Social Security number. Your Committee finds that an unintended consequence of the Legislature's action to protect citizens' privacy by allowing only the last four digits of a person's Social Security number to be included in documents registered or recorded with the Bureau of Conveyances is to preclude the acceptance of some court orders by the Bureau of Conveyances.

Your Committee has amended this measure by adding a section to maintain consistent authority for documents filed in both the Land Court and the Regular System at the Bureau of Conveyances.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1130, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 267 Commerce and Consumer Protection on S.B. No. 764**

The purpose of this measure is to establish a fair and reasonable standard for lease provisions in long term industrial and commercial ground leases.

Specifically, the measure:

- (1) Establishes that whenever a lease condition requires a lessee to obtain approval to assign, transfer, or encumber the lease, the lessor may not unreasonably withhold approval;

- (2) States that any lease provision contained in a lease that has less than twenty years left on its term that requires the lessee to make major and substantial improvements shall be construed to only require the lessee to make reasonable repairs and maintenance;
- (3) Requires that all leases existing or entered into on after July 1, 2009, that includes a renegotiation clause that renegotiates rent on a "fair and reasonable annual rent" be construed to mean that a fair and reasonable rent is a requirement and that such a determination take into account the uses, intensity, subsurface and surface characteristics, and neighborhood of the leased site on the renegotiation date; and
- (4) Establishes that, unless not allowed under the lease, sublessees shall be charged their pro rata share of the renegotiated lease.

Your Committee received testimony in support of this measure from GP Roadway Solutions, Grace Pacific Corporation, Ace Hardware/Ben Franklin Crafts, Servco Pacific, Inc., Citizens for Fair Valuation, Sawdust, and three private citizens. Testimony in opposition to this measure was received from Building Industries Association Hawaii, Alexander & Baldwin, Inc., and Land Use Research Foundation of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the issue of fair and reasonable rent negotiations merits further consideration by the Legislature. Your Committee further finds that it is important to support local employers and small businesses in these difficult economic times.

Your Committee has amended this measure by:

- (1) Amending section one to accurately reflect the purpose and intent of this measure;
- (2) Removing the provision relating to the assignment, transfer, or encumbrance of leasehold property;
- (3) Removing the provision limiting the improvements to structures on leasehold property that may be required of lessees; and
- (4) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 764, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 268 (Joint) Commerce and Consumer Protection and Judiciary and Government Operations on S.B. No. 521**

The purpose of this measure is to require the registrar of the Bureau of Conveyances to provide an image and index of all instruments that contain real property transactions to the administrator of the City and County of Honolulu's real property assessment division so that the division may serve as a clearinghouse for real property information.

Your Committees received testimony in support of this measure from the County of Hawaii, the County of Maui, and the City and County of Honolulu, and one private citizen. Testimony in opposition to this measure was received from the Department of Land and Natural Resources. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committees find that this measure will help the counties to accurately assess real property taxes as well as to comply with their obligations to maintain accurate records and provide public notification of changes in land use and zoning. Your Committees note that the counties currently experience a good working relationship with the Department of Land and Natural Resources. This measure will allow the counties and the Department to maintain those relationships as they currently stand, regardless of changes in administration or personnel.

Your Committees have amended this measure by:

- (1) Clarifying that the time limit imposed on the Department of Land and Natural Resources may be waived in the event of unforeseen circumstances that create an unavoidable delay;
- (2) Clarifying that the Department is not obligated to provide information free of charge to private interests; and
- (3) Making technical, nonsubstantive changes to sections for the purpose of clarity in statutory language.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 521, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 521, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and the Vice Chair on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 3 (Bunda, Gabbard, Hemmings).

**SCRep. 269 (Joint) Commerce and Consumer Protection and Public Safety and Military Affairs on S.B. No. 1255**

The purpose of this measure is to create a special revolving fund to receive deposits of cigarette certification fees and delay the implementation of the reduced ignition propensity cigarettes law until September 30, 2010.

Your Committees received testimony in support of this measure from the State Fire Council, County of Kauai Fire Department, and Coalition for a Tobacco-Free Hawaii. Testimony with comments was received from the Department of Budget and Finance. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will allow the State Fire Council to enforce the reduced ignition propensity cigarette law by enabling it to hire staff and contractors to establish administrative rules, process certifications, and post program information on the State Fire Council's website. Your Committees find that the funding allocated to the State Fire Council in this measure is sufficient to sustain the enforcement program developed by the State Fire Council.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1255 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 2 (Gabbard, Sakamoto).

**SCRep. 270 Public Safety and Military Affairs on S.B. No. 1060**

The purpose of this measure is to increase the permit fee for purchase of fireworks and for license fees for fireworks.

Specifically, the measure increases the following fees:

- (1) For the use of consumer fireworks during religious, cultural, and authorized events or dates, from \$25 to \$35;
- (2) For the use of aerial devices, display fireworks, or articles pyrotechnic, from \$110 to \$250; and
- (3) For an importer license fee, from \$3,000 to \$4,000.

Your Committee received testimony in support of this measure from the State Fire Council; Honolulu Fire Department; Kauai Fire Department; and American Lung Association. Testimony in opposition was received from the Legislative Information Services of Hawaii and Pinky's 5 Eight. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Fireworks permit and import fees have not increased in nine years, even though the cost of services provided by fire, police, and emergency medical personnel continues to increase. In addition, the counties bear the cost of cleaning the streets and parks after a fireworks display.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1060 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 271 Public Safety and Military Affairs on S.B. No. 210**

The purpose of this measure is to clarify the circumstances under which inmates may be transferred between correctional facilities located in Hawaii as well as to correctional facilities located outside of Hawaii.

Testimony in support of this measure was submitted by four private organizations and five private individuals. Testimony in opposition of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that there are no applicable statutes that govern the transfer of inmates between facilities within the State or to facilities outside of Hawaii. Your Committee also finds that a uniform protocol or set of standards need to be established to guide the Department of Public Safety in complying with inmate transfers in a satisfactory and efficient manner. Your Committee further finds that providing the Director of Public Safety with the discretion or flexibility in proceeding with inmate transfers would be in the best interests of the State and the inmates being transferred.

Your Committee has amended this measure by:

- (1) Deleting the fourteen day notice requirement to a committed felon prior to their transfer;
- (2) Deleting the criteria relating to regularly participating in parent-teacher conferences;
- (3) Deleting the criteria relating to a minimum of six contacts by the committed felon with their child prior to the proposed transfer;
- (4) Amending the definition of "child" by deleting the reference to a hanai child;
- (5) Deleting the right of a committed felon to appeal their transfer decision; and
- (6) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 210, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (English). Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 272 (Majority) Public Safety and Military Affairs on S.B. No. 212**

The purpose of this measure is to require privately owned prisons or out-of-state detention facilities that incarcerate Hawaii inmates pursuant to a contract with the State of Hawaii to follow the state freedom of information laws pursuant to chapter 92F, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by one state agency, four private organizations, and three individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is important for privately owned prisons and out-of-state detention facilities operating under a contract with the State of Hawaii to maintain a standard of accountability and transparency. Your Committee also finds that information submitted to the Legislature by privately owned prisons and out-of-state detention facilities under the State's freedom of information laws will aid the Legislature in making sound fiscal and public policy decisions regarding the incarceration of Hawaii inmates.

Your Committee has amended this measure by:

- (1) Deleting an unnecessary provision clarifying that any available remedy received shall not provide a privilege to expose confidential information protected under sections 92F-13 and 482B-3, Hawaii Revised Statutes; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 212, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Hemmings). Excused, 2 (Gabbard, Galuteria).

**SCRep. 273 Public Safety and Military Affairs on S.B. No. 538**

The purpose of this measure is to provide the State Fire Council with two full-time equivalent positions for an administrator and an administrative assistant.

Testimony in support of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that establishing two full-time equivalent positions in the State Fire Council will enable the Council to accomplish their daily duties and responsibilities in a more efficient and effective manner.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 538, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 274 Public Safety and Military Affairs on S.B. No. 564**

The purpose of this measure is to allow, rather than require, the county fire chief to conduct an inspection of all buildings and premises to provide fire prevention and pre-fire planning.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, and Kauai Fire Department. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would allow fire inspections to be conducted in accordance with fire and life safety risks of the building. Thorough and complete fire inspections reduce the risk of fire but are time-consuming because repeated follow-up inspections are required until compliance is achieved. Fire departments can utilize their limited resources more efficiently and effectively by focusing on structures with high risk and occupancy, such as assembly buildings and high rises.

Your Committee has amended this measure by inserting an unspecified number of years for inspections of buildings and premises other than public schools which remain at least once a year.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 564, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 564, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 275 Public Safety and Military Affairs on S.B. No. 619**

The purpose of this measure is to allow an incarcerated person, who was a Hawaii resident at the time of the person's arrest, to vote by absentee ballot in Hawaii elections.

Testimony in support of this measure was submitted by five private organizations and ten individuals. Testimony in opposition of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that allowing an incarcerated person, who was a Hawaii resident at the time of the person's arrest, to vote by absentee ballot in Hawaii elections facilitates the person's awareness and knowledge of the social policies that are important to the

residents of Hawaii. This will help the person achieve a more successful reentry and be a participating member of the community upon release.

Your Committee has amended this measure by clarifying that the incarcerated person shall only be permitted to vote in Hawaii's elections by absentee ballot.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 619, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 619, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 276 Public Safety and Military Affairs on S.B. No. 1061**

The purpose of this measure is to prohibit the retail sale or distribution of novelty lighters.

Testimony in support of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that prohibiting the retail sale or distribution of novelty lighters will decrease the number of fire related calls or emergencies that result from minors inappropriately using novelty lighters.

Your Committee has amended this measure by:

- (1) Changing the reference to National Fire Protection Agency to National Fire Protection Association; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1061, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1061, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 277 (Majority) Education and Housing on S.B. No. 442**

The purpose of this measure is to authorize and appropriate funds for the Hawaii Housing Finance and Development Corporation to grant funds to affordable housing developers to contract for third-party review and certification to expedite the processing and issuance of building permits for an affordable housing project that is part of a transit oriented development.

Testimony in support of this measure was submitted by one state agency, two county agencies, and two private organizations. Testimony in opposition was submitted by one state agency. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee further finds that the City and County of Honolulu's mass transit project offers exceptional opportunities for the development of affordable housing. Your Committee has heard and approved a wide range of proposed affordable housing initiatives in transit oriented development and encourages further legislative discussions on the proposal in this measure.

Your Committee has amended this measure by:

- (1) Designating the majority of the existing provisions contained in the measure as received by your Committee as part I, and adding definitions for "code", "third-party certification", "third-party review", and "transit oriented development";
- (2) Designating a part II, which would add a new chapter in the Hawaii Revised Statutes, establishing a Commission on Transit Oriented Development and Commission membership and functions; and
- (3) Amending the purpose section to reflect the above changes.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 442, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 278 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1277**

The purpose of this measure is to increase incentives for the development of affordable housing in Hawaii.

Specifically, this measure:

- (1) Establishes a self-help housing trust fund to be funded through an allocation of the conveyance tax;

- (2) Increases the conveyance tax incrementally, starting with properties with a value of at least \$1,000,000;
- (3) Reduces the time period from ten to five years over which low income housing tax credits may be claimed;
- (4) Facilitates the Hawaii Housing Finance and Development Corporation's ability to collect excess proceeds in lieu of a buy back, on a shared appreciation equity lien, and on a deferred sales price lien; and
- (5) Establishes an income tax credit of up to twenty per cent of the annual mortgage interest payment amount for low and moderate income homeowners.

Testimony in support of this measure was submitted by one private organization. Testimony in opposition was submitted by one private organization. Comments were submitted by two state agencies and three private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committees find that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committees are concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committees have heard and approved a wide range of proposed initiatives related to the use of conveyance tax revenue, and encourage further legislative discussions on the proposals in this measure.

Your Committees have amended this measure by:

- (1) Increasing the amount of conveyance tax paid per \$100 of value for properties with a value greater than \$1,000,000, by a purchaser who is ineligible for a county homeowner's exemption;
- (2) Adding a new part V, to require the Hawaii Housing Finance and Development Corporation to report to the 2010 Legislature with recommendations regarding the use of tax incremental financing as an economic development tool to leverage private development investment, including any legislation that may be required to implement tax incremental financing in Hawaii;
- (3) Amending the effective date to July 1, 2035, for the purpose of encouraging further discussion; and
- (4) Making a technical amendment for the purpose of clarity and consistency.

Your Committees understand that the higher conveyance tax rates for a purchaser who is ineligible for a county homeowner's exemption may adversely affect a homeowner who is eligible for the county exemption on a primary residence, but not on an additional residence. Your Committees concur with this concern, as many residents may share ownership in an additional residence with family members. Your Committees encourage further discussion of this matter in an effort to develop a means of addressing the issue.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1277, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1277, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Bunda, Fukunaga, Tsutsui, Hemmings).

**SCRep. 279 Education and Housing on S.B. No. 1250**

The purpose of this measure is to clarify that unlicensed teachers employed as emergency hires prior to July 1, 2008, may be employed on an emergency basis for no more than four years.

Testimony in support of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will clarify ambiguities in Act 125, Session Laws of Hawaii 2008, regarding the Department of Education requirements for hiring in emergency situations.

Your Committee has amended this measure to make it clear that:

- (1) No individual may be employed on an emergency basis for more than three consecutive years; and
- (2) Unlicensed teachers employed on an emergency basis after June 30, 1997, but prior to July 1, 2008, may be employed on an emergency basis for no more than four consecutive years.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1250, S.D. 1, and be referred to the Committee on Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 280 Human Services on S.B. No. 921**

The purpose of this measure is to abolish the Statewide Council on Independent Living in order to conform to federal guidelines for states to receive federal financial assistance for independent living services under title 29 United States Code section 796d.

Testimony in support of this measure was received from the Department of Human Services; the State Council on Developmental Disabilities; the Statewide Independent Living Council; and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will bring the State into conformity with title 29 United States Code section 796d and provide for Hawaii's continued eligibility for receipt of federal financial assistance.

Federal law provides that to be eligible to receive financial assistance for services relating to individuals with significant disabilities, a state may not establish its statewide independent living council as an entity within a state agency. Section 348-9, Hawaii Revised Statutes, provides that Hawaii's Statewide Council on Independent Living is established within the Department of Human Services. This section is nonconforming with federal law because it establishes the State's independent living council within a state agency. Your Committee therefore finds that this measure serves to ensure continued receipt of federal financial aid for independent living services by repealing section 348-9, Hawaii Revised Statutes, and allowing for the preparation of a state plan as required by federal law.

Your Committee has made technical amendments to this measure for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 921, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 281 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Economic Development and Technology on S.B. No. 1314**

The purpose of this measure is to create the State Resources Protection and Development Agency to house functions currently under the Aloha Tower Development Corporation, the State Planning Office, and the Hawaii Community Development Corporation.

One state agency submitted comments. Testimony in opposition to this measure was submitted by two state agencies and one organization. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of the state government is necessary to ensure that all available avenues to accomplish more with less have been explored.

Your Committees have amended this measure by:

- (1) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1314, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1314, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, 2 (Hemmings, Slom). Excused, 4 (Baker, Bunda, Ige, Takamine).

**SCRep. 282 (Joint) Transportation, International and Intergovernmental Affairs and Energy and Environment on S.B. No. 1202**

The purpose of this measure is to:

- (1) Establish energy diversification, and research and development of nonfossil fuel and energy efficient modes of transportation as a state objective;
- (2) Provide income tax credit for the development of infrastructure for electric vehicle charging and for alternative fuel refueling infrastructure;
- (3) Require the designation of parking spaces for electric vehicles in public and government parking lots; and
- (4) Exempt persons or businesses that own, control, operate, or manage plants or facilities primarily used to charge or discharge vehicle batteries from public utility regulation.

Your Committees received testimony in support of this measure from Hawaiian Electric Company and its subsidiaries, Maui Electric Company, Ltd., and Hawaiian Electric Light Company, Inc.; International Brotherhood of Electrical Workers, Local Union No. 1186; Ralph S. Inouye Co Ltd.; Blue Planet Foundation; Sierra Club Hawai'i Chapter; and one individual. Testimony in support of this measure with offered amendments was submitted by Better Place Hawaii and High Technology Development Corporation. Testimony in support of the intent of this measure was submitted by the Department of Taxation and the Department of Business, Economic Development and Tourism. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that Hawai'i must take bold steps towards reducing its dependence on imported fossil fuels. Hawai'i imports ninety-five per cent of its energy, most of which comes from petroleum and coal. Specifically, eighty-nine per cent of Hawai'i's energy is derived from petroleum and six per cent is derived from coal. Of all energy consumed in the State, approximately forty per cent is used for transportation purposes, compared with residential use of eight per cent, commercial use of ten per cent, electric power generation at twenty-five per cent, and industrial uses at sixteen per cent.

Your Committees further find that it essential that the State aggressively promote and develop alternatives to fossil fuel modes of transportation. This measure promotes the State's goals of becoming fossil fuel independent. Investment needs to be made in renewable energy resources rather than spending billions of dollars overseas for foreign oil. The environment will be protected as Hawai'i makes its contribution to the global green effort to reduce global warming.

Your Committees have amended this measure by:

- (1) Clarifying that the income tax credit for alternative fuel refueling infrastructure applies to individual or corporate net income taxes;
- (2) Requiring designation of parking spaces for electric vehicles in public, private, and government parking facilities;
- (3) Inserting unspecified dates for the deadlines for the:
  - (A) Designation of parking spaces;
  - (B) Development and implementation of a plan to expedite permitting and installation of battery exchange stations and electric vehicle charging outlets; and
  - (C) Report to the Legislature by the Department of Transportation;
- (4) Deleting references to penalties; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1202, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1202, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Ayes with Reservations, 1 (Slom). Noes, none. Excused, none.

**SCRep. 283 (Joint) Higher Education and Labor on S.B. No. 1665**

The purpose of this measure is to enhance the training capacity of Hawai'i's community colleges by establishing a Skilled Worker and Business Development Center to provide workforce training to meet the rapidly evolving needs of both employers and employees, and to appropriate federal Reed Act funds to assist in creation of the Center and its programs.

Testimony in support of this measure was submitted by the University of Hawai'i System and the Department of Education. Testimony in opposition was submitted by the Department of Labor and Industrial Relations. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that Act 190, Session Laws of Hawaii 2006, allocated \$10,000,000 from Reed Act funds to the four counties and the State Workforce Development Council for various employment and employment-related services. The law was amended by Act 123, Session Laws of Hawaii 2007, to provide an allocation to the Department of Labor and Industrial Relations for reporting, contracting, and oversight of use of the funds and to reduce the allocations to counties by a pro-rata share to ensure the total appropriation remained at \$10,000,000. An additional \$5,600,000 was appropriated by Act 189, Session Laws of Hawaii 2008, which allocated Reed Act funds to the Counties of Hawaii and Maui and to the Department of Labor Industrial Relations for additional workforce services, including services for an increasing number of dislocated workers.

Your Committees believe these Acts have clearly established acceptable, alternative means of expending Reed Act funds. However, your Committees have heard concerns that federal regulations prohibit the Reed Act funds from being expended for training, and require the funds to be expended by the Department of Labor and Industrial Relations. As clearly stated in the appropriation section, the funds are to be used for creation of a program to meet the needs of unemployed workers, not the actual training component. Your Committees concur that this measure is too important for both workers and employers to jeopardize its passage by not meeting all federal requirements.

In addition to the following amendments, your Committees will seek to contact the United States Department of Labor to clarify how the measure might be further amended to satisfy federal requirements and shall advise the Committee on Ways and Means of the information received.

Your Committees have amended this measure by:

- (1) Designating the Department of Labor and Industrial Relations as the expending agency; provided that the funds shall be expended in conjunction with the University of Hawaii through the rapid response fund established under program ID (UOH 800), University of Hawaii community colleges;
- (2) Adding a representative of the Small Business Administration to the advisory council; and
- (3) Making a technical amendment to correct a drafting error.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1665, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1665, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 284 (Joint) Higher Education and Economic Development and Technology on S.B. No. 1351**

The purpose of this measure is to establish the Office of the Vice Chancellor for Research and Economic Development at the University of Hawai'i at Hilo.

Testimony in support of this measure was submitted by the Department of Business, Economic Development and Tourism; Kanoelehua Industrial Area Association; Hawaii Island Chamber of Commerce, and Japanese Chamber of Commerce & Industry of Hawai'i. The University of Hawai'i System submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committees have heard that the University of Hawai'i at Hilo has had remarkable growth in its research effort in the first seven years of this decade, including increases of 462.5 per cent in funding and 341 per cent in the number of awards. The Office of the Vice Chancellor for Research and Economic Development proposed in this measure would serve a vital coordinating function in ensuring the University of Hawai'i at Hilo continues to attract research funding, carry out quality research, and provide research training for both undergraduate and graduate students.

Your Committees are very supportive of the Interim Vice Chancellor and his efforts to bring the campus and community together for the benefit of both. Your Committees also understand the importance of maintaining the current momentum, particularly in a region that has one of the highest unemployment rates in the State.

However, your Committees are also concerned about the long-term costs of establishing and maintaining such an Office. Your Committees have heard that much of the funding for the Office would be through federal grants, private investment, and other "soft moneys", and your Committees commend the proponents of this measure for considering these alternatives. Your Committees believe that given the current economic uncertainties, this measure will benefit from further legislative discussion.

Your Committees have amended this measure to clarify that the Office of the Vice Chancellor for Research and Economic Development shall be under the direction of a Vice Chancellor, to more accurately reflect the language in other University statutes.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1351, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1351, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 4 (Hee, Kokubun, Takamine, Taniguchi).

**SCRep. 285 (Joint) Higher Education and Economic Development and Technology on S.B. No. 508**

The purpose of this measure is to support and appropriate funds for the applied archaeology graduate program at the University of Hawai'i at Manoa.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, Historic Hawai'i Foundation, Kamehameha Schools, and twelve individuals. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that in 2007, the University of Hawai'i at Manoa initiated the applied archaeology program to train students in understanding and meeting the unique challenges of historic preservation in Hawai'i. The program was designed to help students and working professionals throughout the State and in its second year, is receiving a sharply increased number of applications from local students. This measure would expand the program and assist in addressing what has become a critical shortage of archaeologists – both in government and the private sector – with an understanding of the complex cultural, historic, and practical aspects of historic preservation in Hawai'i.

Your Committees are strongly supportive of the initiatives in this measure, particular the increased emphasis on distance learning for those students on Neighbor Islands. In addition, your Committees believe that the community workshops in this measure are vital in building on and continuing past collaborative efforts of the State's historic preservation professionals.

Your Committees have amended this measure by making technical amendments to correct a drafting error.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 508, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 508, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 4 (Hee, Kokubun, Takamine, Taniguchi).

**SCRep. 286 Transportation, International and Intergovernmental Affairs on S.B. No. 1613**

The purpose of this measure is to allow the Department of Transportation to impose upon private parties using state harbors and airports the duty to defend, hold harmless, and indemnify.

Your Committee received testimony in support of this measure from the Department of Transportation. Comments were received from the Hawaii Harbors Users Group. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is in response to a Hawaii Supreme Court case (*Haole v. State of Hawaii*), in which the court held that the Department of Transportation lacked statutory authority to adopt a rule to impose a duty upon users to defend and indemnify the State.

Your Committee has amended this measure on the recommendation of the Department of Transportation to insert clarifying language into the indemnity provision covering commercial harbors.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1613, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 287 Human Services on S.B. No. 800**

The purpose of this measure is to assist the State Commission on Fatherhood in its mission by making appropriations for permanent staff and lengthening the terms of Commission membership to promote continuity.

Your Committee received testimony in support of this measure from the Department of Human Services, the Office of Youth Services, and the State Commission on Fatherhood. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State Commission on Fatherhood was established as a permanent entity within the State in 2007 in recognition of its value in promoting healthy family relationships between parents and children. Your Committee further finds that children are more likely to thrive with support, guidance, and nurturing from both parents. The presence of fathers has a positive impact on the lives of their children, as reflected in better academic performance, fewer high-risk behaviors, and higher self-esteem.

Your Committee further finds that it is necessary for the Commission on State Fatherhood to hire an executive director and the staff necessary to implement its strategic plan. The plan calls for a statewide inventory of services available to fathers, developing policy recommendations for best practices in providing services for fathers, and identifying and promoting new laws to improve father involvement, among other goals. The appropriations included in this measure are intended to fund the creation of permanent positions within the Commission.

Based on testimony received relating to the measure, your Committee finds that a longer term for voting membership on the State Commission on Fatherhood would permit continuity and reduce the difficulty the Commission has faced in timely replacing vacant membership seats. Further, each member shall serve for a maximum of two terms.

Your Committee has amended the measure as follows:

- (1) By inserting a specific amount for appropriation and making such appropriation for each year of the 2009-2011 fiscal biennium; and
- (2) By inserting language to amend subsection (c) of section 577E-3, Hawaii Revised Statutes, to extend the term of membership on the State Commission on Fatherhood to four years, and to limit members to serving no more than two terms on the Commission.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 800, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 800, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 288 Economic Development and Technology on S.B. No. 749**

The purpose of this measure is to establish a general excise tax exemption for all of the gross proceeds or income arising from providing flight instruction.

Testimony in opposition of this measure was submitted by the Department of Taxation. Written testimony presented to your Committee is available for review on the Legislature's website.

Your Committee finds that providing a general excise tax exemption for the services offered by flight training schools will provide a tax incentive that would increase the likelihood that flight training schools will be developed and located in Hawaii. Your Committee also finds that the Department of Taxation's projected annual loss in general excise tax revenues does not take into consideration the fact that no general excise tax revenues are presently being recouped by the State for services offered by flight training schools and that the Department's estimated revenue loss fails to consider increases in other tax revenues that will be received by the State from the flight training schools, such as income, withholding, and employment taxes. Those additional tax revenues would more than likely offset any losses of the State from general excise tax revenues.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in an annual revenue loss to the State of \$210,000. Their methodology is as follows:

The Department of Taxation estimates that there would be seven flight training schools located in Hawaii and that each training school would average an annual general excise tax liability of \$30,000, thus a total general excise tax loss to the State of \$210,000 each year.

Your Committee believes that the impact of this measure must be measured in conjunction with the benefits attributable to increased economic activity from the combination of this measure and S.B. No. 1299, which includes businesses engaged in flight simulator training as a qualified business for purposes of the enterprise zone laws.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 749 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 289 Health on S.B. No. 1178**

The purpose of this measure is to ensure the safety of dialysis patients in an emergency situation by requiring all dialysis centers in Hawaii to have backup emergency generators with the capacity to sustain dialysis treatments and the center's water treatment system.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in support of intent of this measure with comments from the National Kidney Foundation, Liberty Dialysis, and the Policy Advisory Board for Elder Affairs. Your Committee received testimony in opposition to this measure from the Department of Health.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that a more comprehensive approach is necessary to ensure the safety of dialysis patients in the event of an emergency. Federal regulations require every dialysis clinic to have an emergency plan and are required to conduct periodic drills. In the event of an area wide major emergency, all medical care institutions may be damaged. Currently, the Centers for Medicaid and Medicare Services are in the process of determining whether life safety measures should require backup generators in all dialysis facilities.

Your Committee further finds that the Department of Health is the appropriate agency to ensure that emergency plans are properly in place and implemented to ensure the safety of all dialysis patients.

Accordingly, your Committee has amended this measure by:

- (1) Removing the requirement that all dialysis centers in Hawaii have backup emergency generators;
- (2) Requiring the Department of Health to review emergency plans and develop guidelines of all dialysis centers in the State to ensure the safety of dialysis patients in the event of a public emergency; and
- (3) Requiring the Department to post on its website a list of all dialysis centers in Hawaii that have backup emergency generators with the capacity to sustain dialysis treatments and maintain their water treatment system.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1178, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 290 Health on S.B. No. 420**

The purpose of this measure is to expand the scope of practice for naturopathic physicians by authorizing naturopathic physicians to administer parenteral therapy, intravenous, subcutaneous, and intramuscular injections, and to obtain federal Drug Enforcement Administration registration and prescribe controlled substances.

Your Committee received testimony in support of this measure from the Hawaii Society of Naturopathic Physicians, Bastyr University, and twenty-eight individuals. The Board of Examiners in Naturopathy (Board) submitted testimony in support of the intent of the measure with amendments. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure significantly expands the scope of practice for naturopathic physicians. Your Committee further finds that, to ensure public safety and proper enforcement, clear standards of practice and guidelines need to be established and implemented by the Board.

Your Committee has amended this measure by:

- (1) Including language that states the Board may adopt, amend, or repeal rules provided that "all rules shall be approved by the governor and the director of commerce and consumer affairs, and when adopted pursuant to chapter 91 shall have the force and effect of law. The rules may forbid acts or practices deemed by the Board to be detrimental to the accomplishment of the purpose of this chapter, establish standards of practice, care and ethics, establish the medications that may be prescribed by licensees, require licensees to complete educational courses and training, and establish requirements for parenteral therapy. This enumeration of specific matters that may properly be made the subject of rules shall not be construed to limit the Board's broad general power to make rules necessary to fully effectuate the purpose of this chapter";
- (2) Including that prescribing medications not approved by the Board shall subject the licensee to disciplinary action;
- (3) Including "parenteral therapy" in the definition of "naturopathic medicine"; and
- (4) Changing the effective date to July 1, 2050, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 420, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 420, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 291 (Majority) Health on S.B. No. 1094**

The purpose of this measure is to reduce health care costs by directing the Department of Health to develop and implement a patient-centered health care homes pilot project to provide primary health care funding to federally qualified health centers.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association and the Waikiki Health Center. Your Committee received testimony in opposition to this measure from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that federally qualified health centers have consistently struggled financially due to low reimbursement rates for services provided. This measure proposes to study a patient-centered health care homes model for providing comprehensive health care that will be a substantial costs-savings to the health care system by early and accurate identification of health problems resulting in significantly less use of emergency room services, specialist referrals, duplicative testing, and fewer hospitalizations for ambulatory-sensitive conditions.

Your Committee has amended this measure by changing the appropriation to require the funding for the program to derive solely from the federal stimulus plan known as the American Recovery and Reinvestment Act of 2009.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1094, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Espero).

**SCRep. 292 Health on S.B. No. 517**

The purpose of this measure is to address issues resulting from health care provider shortages and ensure quality health care delivery by updating signature authority for certain medical professionals.

Specifically, this measure permits physician assistants, nurse practitioners, registered nurses, clinical nurse specialists, and certified nurse midwives, who provide the actual care, to sign certain medical certification forms for their patients applicable to the care provided within each practitioner's scope of practice.

Your Committee received testimony in support of this measure from Hawaii Primary Care Association, the School of Nursing and Dental Hygiene of the University of Hawaii at Manoa, the Occupational Therapy Association of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Board of Nursing, the Hawaii Association for Professional Nurses, and one individual. Comments on this measure were received from the Hawaii Medical Board and Kaiser Permanente.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that certified registered nurse anesthetists, clinical nurse specialists, and certified nurse midwives are recognized by state boards of nursing in all fifty states as advanced practice registered nurses. Further, providing registered nurses with signature authority was not the intent of the measure.

Accordingly, your Committee has amended this measure by adopting the recommendations of the Board of Nursing by:

- (1) Clarifying that all advanced practice registered nurses who provide the actual care, may sign certain medical certification forms for their patients applicable to the care provided within each practitioner's scope of practice;
- (2) Removing the authority of registered nurses to sign certain medical certification forms;
- (3) Clarifying that the documents that are authorized to be signed are those within each practitioner's scope of practice, and not limited to only those listed in the measure; and
- (4) Changing the effective date to July 1, 2050 to encourage further discussion on this matter.

Your Committee has further amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 517, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 293 Health on S.B. No. 585**

The purpose of this measure is to expand the ability of individuals in remote areas of the State to gain access to prescription medications, including controlled substances and individuals with health insurance, through the use of remote dispensing pharmacies.

Your Committee received testimony in support of this measure from the Department of Human Services and Hawaii Medical Service Association. Kaiser Permanente submitted testimony in support of the measure with amendments. Walgreens submitted

testimony in support of the intent of the measure. Comments on the measure were received from the Department of Public Safety and the Board of Pharmacy.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that certain areas of the State have limited or no access to prescription medications. This measure will improve patient compliance with drug therapies by authorizing the use of remote dispensing pharmacies for individuals with health insurance who prescriptions filled for controlled substances, and individuals living in remote areas and areas without a pharmacy.

Your Committee has amended this measure by adopting the recommendations of the Department of Public Safety and Kaiser Permanente by:

- (1) Clarifying that a remote dispensing pharmacy may provide medications to patients with health insurance coverage who reside on an island without a pharmacy or in remote areas where there are no pharmacies within a five mile radius of an existing pharmacy;
- (2) Clarifying that a remote dispensing pharmacy may continue to operate in the same location if a pharmacy is subsequently established on the same island as the remote dispensing pharmacy or in the remote area that is not within a five mile radius of an existing pharmacy; provided that the remote dispensing pharmacy shall no longer be authorized to dispense controlled substances;
- (3) Authorizing remote dispensing pharmacies located at facilities operated by a health maintenance organization regulated pursuant to chapter 432D, Hawaii Revised Statutes, to operate and provide medications to patients with health insurance coverage who are served; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 585, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 585, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 294 Health on S.B. No. 516**

The purpose of this measure is to clarify and standardize existing laws regarding end-of-life care and advanced directives to ensure that emergency services personnel and first responders can comply with the patient's wishes.

Specifically, this measure seeks to use a standardized form called the "physician orders for life-sustaining treatment" form, to transform a person's advance directive into a medical order that would be accepted by all health care settings.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Emergency Services, one organization, and four individuals. Your Committee received testimony in opposition to this measure from the Department of Health.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that emergency services personnel are mandated by law to attempt resuscitation unless the person has a state issued comfort care only, do not resuscitate bracelet or necklace. However, these bracelets are only issued to individuals who have a terminal condition. Many community members mistakenly believe that their advanced health care directive or living will is enough to prevent an unwanted attempt at resuscitation by emergency responders.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion on this matter.

Your Committee has further amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 516, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 516, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 295 Health on S.B. No. 779**

The purpose of this measure is to deter smoking by young women by prohibiting the sale or distribution of cigarette "purse packs" in Hawaii.

Your Committee received testimony in support of this measure from the American Lung Association, the Coalition for a Tobacco-Free Hawaii, Papa Ola Lokahi, and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that cigarette manufacturers continue to create new marketing strategies aimed at teenagers. Your Committee further finds that the federal Cigarette Labeling and Advertising Act prohibits states from imposing limitations on the advertising or promotion of cigarettes that are packaged and labeled in conformity with the Act.

Your Committee has amended this measure by deleting the language referring to the prohibition of the sale or distribution of “purse packs” and replaced it with language prohibiting the sale or distribution of cigarettes having a reduced circumference smaller than that of a standard cigarette circumference of twenty-five millimeters.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 779, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 779, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 296 Health on S.B. No. 1045**

The purpose of this measure is to improve access to quality health care by:

- (1) Requiring health insurers, mutual benefit societies, and fraternal benefit societies, and health maintenance organizations to recognize advanced practice registered nurses as primary care providers;
- (2) Granting global signature authority to advanced practice registered nurses;
- (3) Authorizing prescriptive authority to advanced practice registered nurses; and
- (4) Abolishing the Joint Formulary Advisory Committee.

Your Committee received testimony in support of this measure from Hawaii Primary Care Association, the School of Nursing and Dental Hygiene at the University of Hawaii at Manoa, Hawaii Government Employees Association, the Hawaii State Center for Nursing, Lanai Women’s Center, Walgreens, and ten individuals.

Your Committee received testimony in opposition to this measure from Kaiser Permanente, Hawaii Medical Association, and one individual. Comments on this measure were received from the Department of Human Services, the Board of Nursing, and Hawaii Medical Service Association,

Copies of written testimony are available for review on the Legislature’s website.

Your Committee finds that authorizing advanced practice registered nurses to be recognized as primary care providers with signature and prescriptive authority will help to alleviate the shortage of health care providers across the State by providing access to quality clinicians.

Your Committee has adopted the recommendations of the Board of Nursing and amended this measure by:

- (1) Clarifying the definition of advanced practice registered nurse to require either a Master of Science in Nursing degree or a passing score on a national certification examination;
- (2) Deleting the additional definition of “advanced practice registered nurse”;
- (3) Re-inserting the Board’s authority to designate the requirements for advanced practice registered nursing practice related to prescriptive authority;
- (4) Re-inserting the Board’s authority to establish nursing requirements for education, experience, and national certification pursuant to rules adopted in accordance with chapter 91, Hawaii Revised Statutes;
- (5) Clarifying that advanced practice registered nurses are authorized to diagnose, prescribe, and institute therapy or referrals of patients, within their practice specialty; and
- (6) Changing the effective date to July 1, 2050, to encourage further discussion on this matter.

Your Committee has further amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1045, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1045, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 297 Health on S.B. No. 967**

The purpose of this measure is to make Hawaii’s controlled substance laws consistent with that of federal law and clarify sections of chapter 329, Hawaii Revised Statutes, relating to controlled substances.

Specifically, this measure:

- (1) Adds new drugs to schedules II and III of Hawaii’s controlled substance laws sections 329-16(b), 329-16(e) and 329-18(g), Hawaii Revised Statutes, as required by section 329-11(d), Hawaii Revised Statutes, which states that if a substance is added, deleted, or rescheduled under federal law, the Department shall recommend to the Legislature that a corresponding change in Hawaii law be made;

- (2) Amends section 329-33 and 329-34, Hawaii Revised Statutes, to add language to provide that the surrender of an applicant's federal controlled substance registration shall be considered in determining whether the applicant's state registration is in the public interest and is a finding upon which a state registration may be suspended or revoked;
- (3) Amends section 329-38, Hawaii Revised Statutes, relating to controlled substances prescriptions to allow pharmacies to transfer refills of Schedule III through V controlled substance prescriptions between islands;
- (4) Allows pharmacies that are electronically sharing a real-time, online database to transfer controlled substance prescriptions between their pharmacies up to the maximum refills permitted by law and designates procedures for these transfers;
- (5) Amends section 329-41(a)(6), Hawaii Revised Statutes, that requires practitioners and pharmacists dispensing controlled substances to document in their log books the full name, signature, and identification number, and identification type of the customer obtaining the controlled substance prescription; and
- (6) Amends section 329-52, Hawaii Revised Statutes, relating to administrative inspections and warrants of controlled substance registrants to make this section consistent with inspection procedures utilized by the Department of Health.

Your Committee received testimony in support of this measure from the Department of Public Safety, the City and County of Honolulu Police Department, Kaiser Permanente, and Longs Drugs. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure will safeguard the public by ensuring consistency in the regulation and enforcement of controlled substances by updating Hawaii's laws to be consistent with the Federal Controlled Substances Act.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 967, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 298      Health on S.B. No. 932**

The purpose of this measure is to improve the early diagnosis of human immunodeficiency virus infections by removing significant procedural barriers to human immunodeficiency virus testing.

This measure accomplishes this purpose by replacing the requirement for pre-test human immunodeficiency virus counseling and for written informed consent with an opt-out requirement that requires a health care provider to inform a patient, either verbally or in writing, that they plan to perform a test to detect an human immunodeficiency virus infection and allows the patient to decline the test.

Your Committee received testimony in support of this measure from the Department of Health, Life Foundation, and one individual. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawaii.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that increasing access to human immunodeficiency virus testing will enable early detection and treatment for infected persons and lower the risk of human immunodeficiency virus transmission to their partners or others.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 932, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 932, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 299      Health on S.B. No. 1208**

The purpose of this measure is to safeguard the public health, safety, and welfare by establishing a licensure program for genetic counselors to be administered by the Department of Health.

Your Committee received testimony in support of this measure from the Kapiolani Medical Center for Women and Children and one hundred eighteen individuals. The Department of Health submitted testimony in opposition to this measure. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that genetic counselors are a vital part of the health care team that provides care to individuals throughout their lifespan. Your Committee further finds that licensure of genetic counselors is necessary to protect the public from persons who are unauthorized and untrained to perform these services. This measure will ensure that genetic counseling services are provided by highly trained professionals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1208, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 300 Health on S.B. No. 931**

The purpose of this measure is to protect public health from the potential spread of disease.

Specifically, this measure grants the Department of Health authority to demand entry onto any premises, public or private, for the purpose of conducting an administrative investigation, when the Director of Health finds that reasonable cause exists, to secure or collect any samples necessary for epidemiologic investigations.

Your Committee received testimony in support of this measure from the Department of Health. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is necessary to protect public health by allowing the Department of Health to conduct epidemiologic investigations and collect samples in a timely manner in order to prevent the further outbreak of disease.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 931, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 931, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 301 Health on S.B. No. 567**

The purpose of this measure is to increase the number of eligible blood donors, foster a commitment to blood donation, and enhance our ability to meet the growing demand for blood.

This measure accomplishes this purpose by lowering the minimum age requirement for blood donation to sixteen years of age, provided that parental consent is obtained.

Your Committee received testimony in support of this measure from two individuals.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that twenty-three states have passed legislation or adopted variances recognizing sixteen year olds as eligible voluntary blood donors with parental consent. Your Committee further finds that allowing sixteen year olds to donate blood will increase the donor pool and increase the availability of blood supply to help others in need.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 567 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 302 Health on S.B. No. 727**

The purpose of this measure is to protect public health by encouraging employers to provide automated external defibrillator programs.

Your Committee received testimony in support of this measure from the Department of Health. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure encourages employers to provide external defibrillator programs by specifying that any person, including an employer, who provides for an automated external defibrillator program shall not be vicariously liable for any civil damages resulting from good faith resuscitation of a person who is in immediate danger of loss of life.

Your Committee further finds that this measure will help to protect public health by removing liability concerns of employers for providing automated external defibrillator programs in hopes that employers will be encouraged to provide more of these programs.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 727 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 303 Health on S.B. No. 844**

The purpose of this measure is to allow for more timely investigation of crimes when public health statistics records are needed, while protecting the privacy of the records.

Specifically, this measure authorizes the Department of Health to permit law enforcement officers to inspect public health statistics records and for the Department of Health to issue a certified copy of any such record or part thereof to law enforcement.

Your Committee received testimony in support of this measure from the Attorney General, the Department of the Prosecuting Attorney, County of Maui, City and County of Honolulu Police Department, and one individual.

Copies of written testimony are available for review on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 304 Health on S.B. No. 937**

The purpose of this measure is to clarify statutory provisions that govern the process and standards of decision making on applications for conditional release and discharge of forensic patients at the Hawaii State Hospital.

Specifically, this measure repeals sections 704-411(5) and (6), Hawaii Revised Statutes, which established hearing and application procedures for persons committed to the Hawaii State Hospital due to an acquittal based on the ground of physical or mental disease, disorder, or defect excluding responsibility. In addition, the measure includes a time frame of sixty days for decisions on motions for conditional release or discharge.

Your Committee received testimony in support of this measure from the Department of Health.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure will clarify that the provisions of section 704-412, Hawaii Revised Statutes, govern the timing and standards of decision for applications for conditional release or discharge from the custody of the Director of Health. Thus, the measure removes the possibility of a two-step process to apply for conditional release or discharge and any confusion regarding the standard for conditional release or discharge.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 305 Health on S.B. No. 936**

The purpose of this measure is to repeal the requirement for a sanitation certificate to be issued for county business licenses for the operation of a lodging or tenement house, group home, group residence, group living arrangement, hotel, or boarding house.

Your Committee received testimony in support of this measure from the Department of Health.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the City and County of Honolulu no longer requires business licenses for these facilities because of Act 35, Session Laws of Hawaii 2001, so the sanitation certificate is unnecessary for Oahu. Your Committee further finds that the counties of Kauai, Maui, and Hawaii never required a sanitation certificate for these types of businesses.

According to testimony submitted by the Department of Health, the Department will continue to conduct inspections for licensed care homes and other domiciliary facilities that it regulates under different laws.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 936 and recommends that it pass Second Reading and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 306 Health on S.B. No. 1217**

The purpose of this measure is to allow an advanced practice registered nurse who provides care to a patient requesting medical certification forms, the authority to sign certifications applicable to the care provided within the advanced practice registered nurse's scope of practice.

Testimony in support of this measure was submitted by the Board of Nursing, University of Hawaii School of Nursing and Dental Hygiene, Kaiser Permanente, the Hawaii Primary Care Association, and the Hawaii Government Employees Association. Comments on this measure were submitted by the Hawaii Association of Professional Nurses. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that authorizing advanced practice registered nurses to sign certain forms which are appropriate and within the parameters of their practice will reduce costs and patient hardships due to delays in starts of services, and will help advanced practice registered nurses to provide timely care and support to their patients.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1217 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 307 Health on S.B. No. 427**

The purpose of this measure is to support the continued availability and strength of the TriCare program by exempting from the general excise tax, amounts received by managed care support coordinators as reimbursements from the Department of Defense for advances made for the TriCare program.

Your Committee received testimony in support of this measure from Hawaii Medical Service Association and TriWest Healthcare Alliance Inc. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will help to ensure that Hawaii Medical Service Association will be able to continue to provide medical insurance coverage to the approximately 150,000 current and former military personnel and their family members who reside in Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 308 (Majority) Health on S.B. No. 428**

The purpose of this measure is to ensure that individuals living in rural areas of the State have access to appropriate mental health care services.

The measure attempts to accomplish this purpose by authorizing appropriately trained and supervised licensed medical psychologists working in federally qualified health centers to prescribe psychotropic medications for the treatment of mental illness.

Your Committee received testimony in support of this measure from the American Psychological Association, Hawaii Medical Service Association, Hawaii Primary Care Association, Mental Health America of Hawaii, the National Association of Social Workers, Waianae Coast Comprehensive Health Center, Waimanalo Health Center, Kalihi-Palama Health Center, Na Pu'uwai Native Hawaiian Health Care System, Lanai Community Health Center, Molokai Community Health Center, Psychological Resources of Hawaii, and Koolauloa Community Health and Wellness Center.

Testimony in opposition to this measure was submitted by the American Psychiatric Association, Hawaii Medical Association, Hawaii Psychiatric Medical Association, and Psychologists Opposed to Prescription Privileges for Psychologists.

Comments on this measure were submitted by the Department of Human Services, Hawaii Medical Board, and Board of Psychology.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that allowing appropriately licensed and trained psychologists to prescribe psychotropic medications will address the urgent need for timely, appropriate, and cost-effective mental health and pharmacological services for an underserved population. Your Committee finds that the federally qualified health centers are most in need of psychologists with prescriptive authority and would achieve the largest impact for individuals in need of these services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Nishihara, Hemmings). Excused, 1 (Espero).

**SCRep. 309 Health on S.B. No. 930**

The purpose of this measure is to provide immunity from liability and coverage of medical expenses for licensed medical personnel providing volunteer services on behalf of the State or a county in non-emergency situations, such as school-based immunization clinics.

Your Committee received testimony in support of this measure from the Department of Health, the University of Hawaii John A. Burns School of Medicine, and two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will encourage valuable medical personnel to participate as volunteers on behalf of the State or a county. Your Committee further finds that this measure is consistent with Good Samaritan practices in other jurisdictions.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 930 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 310 (Majority) Health on S.B. No. 1076**

The purpose of this measure is to enable the residents of the County of Hawaii to have a greater say in developing a comprehensive health plan for the county by establishing a temporary Hawaii county health initiative task force that is to develop a comprehensive strategic health plan and expedite the approval of new acute care facilities and medical or emergency services for the county.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association and one individual. Your Committee received testimony in opposition to this measure from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to the viability of a successful health care delivery system in the County of Hawaii. Your Committee further finds that the temporary Hawaii county health initiative task force should consist of appointed individuals that are currently working on the development of a comprehensive health plan for the county.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Hemmings). Excused, none.

**SCRep. 311 (Majority) Energy and Environment on S.B. No. 242**

The purpose of this measure is to include within the definition of "qualified business" any business engaged in producing air conditioning from a seawater air conditioning district cooling system for purposes of the State enterprise zone tax incentives.

Testimony in support of this measure was submitted by four private organizations. Testimony in opposition to this measure was submitted by one state department and one private organization. Comments were submitted by one state department. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the proposed downtown Honolulu seawater air conditioning district cooling system will create a significant amount of long-term, gainful employment, as well as reduce electricity and potable water use in the downtown Honolulu area. Your Committee finds that this measure will help make the project more affordable for potential customers.

Your Committee has amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 242, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (English, Hemmings). Excused, 2 (Green, Ihara).

**SCRep. 312 Education and Housing on S.B. No. 188**

The purpose of this measure is to:

- (1) Require an unspecified percentage of general excise taxes collected on real property leases to be deposited into the rental housing trust fund; and
- (2) Increase from thirty to fifty per cent the amount of the conveyance tax to be deposited into the rental housing trust fund.

Testimony in support of this measure was submitted by two state agencies, one county agency, five private organizations and two individuals. Comments were submitted by one state agency and two private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee has heard and approved a wide range of proposed initiatives related to the use of conveyance tax revenue, and encourages further legislative discussions on the proposals in this measure.

Your Committee has amended this measure by requiring an unspecified percentage of the conveyance tax to be paid into the Hawaiian home lands trust fund established pursuant to section 213.6, Hawaiian Homes Commission Act of 1920, as amended.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 188, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 313 Education and Housing on S.B. No. 736**

The purpose of this measure is to provide incentives for the development of affordable housing.

Specifically, the measure amends section 46-14.5, Hawaii Revised Statutes, by requiring the counties to provide affordable housing incentives such as density bonuses, height waivers, cluster zoning, reduction of parking requirements, design and site flexibility, waiver of certain fees, and other county development requirements.

Testimony in support of this measure was submitted by two state agencies and four private organizations. Testimony in opposition was submitted by three private organizations. Comments were submitted by two county agencies and one private organization. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committee is concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committee further finds that the City and County of Honolulu's mass transit project offers exceptional opportunities for the development of affordable housing. Your Committee has heard and approved a wide range of proposed affordable housing initiatives in transit oriented developments and encourage further legislative discussions on the proposal in this measure.

Your Committee has amended this measure by:

- (1) Deleting both procurement exemptions and waiving state wage requirements from county incentives;
- (2) Restricting county incentives to affordable housing in transit oriented developments;
- (3) Adding a definition of "transit oriented development";
- (4) Authorizing the counties to consult with the Commission on Transit Oriented Development, proposed to be established pursuant to section 6 of S.B. No. 442, in the Commission's advisory capacity to the legislative bodies of the counties and county agencies for carrying out a continuing, comprehensive, transit oriented development planning process;
- (5) Adding a severability clause to ensure that the provisions of this measure will not be adversely affected if S.B. No. 442 is not enacted; and
- (6) Adding a provision for the Revisor of Statutes to reference the appropriate section of the Hawaii Revised Statutes that corresponds to the codified provisions of S.B. No. 442, if enacted.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 736, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 736, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Galuteria).

**SCRep. 314 (Joint) Education and Housing and Transportation, International and Intergovernmental Affairs on S.B. No. 735**

The purpose of this measure is to require the counties to identify and designate affordable housing receiving zones to facilitate the development of affordable housing.

Testimony in support of this measure was submitted by two state agencies and three private organizations. Testimony in opposition was submitted by one county agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committees are concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committees further find that the City and County of Honolulu's mass transit project offers exceptional opportunities for the development of affordable housing. Your Committees have heard and approved a wide range of proposed affordable housing initiatives in transit oriented development and encourage further legislative discussions on the proposal in this measure.

Your Committees have amended this measure by:

- (1) Adding references to transit oriented development throughout;
- (2) Added definitions for "commission on transit oriented development", proposed to be established pursuant to section 6 of S.B. No. 442, and "transit oriented development";
- (3) Requiring that in the designation of affordable housing receiving zones, priority shall be given to areas within proximity to new or existing transit facilities;
- (4) Deleting both procurement exemptions and waiver state wage requirement from local incentives, waivers, and regulatory flexibility;
- (5) Adding a provision for the Revisor of Statutes to reference the appropriate section of the Hawaii Revised Statutes that corresponds to the codified provisions of S.B. No. 442, if enacted; and
- (6) Making technical amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose

of S.B. No. 735, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 735, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Nishihara).

**SCRep. 315 (Majority) Education and Housing on S.B. No. 1346**

The purpose of this measure is to:

- (1) Increase the four per cent general excise tax to an unspecified amount, with a portion of the increased revenues allocated for public education;
- (2) Offset the effects of the tax increase by establishing a general excise tax exemption for food; medical expenses, including nonprescription medications, prescription eyewear, and physician and dental services; and a portion of rental income;
- (3) Establish a tax credit for individuals who volunteer their services at public schools and an earned income tax credit;
- (4) Increase the state standard deduction amounts; and
- (5) Establish an education funding commission to provide oversight for general excise tax revenues deposited into the newly created education special fund.

Testimony in support of this measure was submitted by two state agencies and one private organization. One state agency submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that difficult economic times demand consideration of a varied array of fiscal measures. While the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committee further finds that an increase of the general excise tax, partnered with tax relief for low- and middle-income families, offers a long-term alternative to cutting vital education funding that has already been declared inadequate by approximately \$2,000 per student in a study conducted by an independent consultant.

The Department of Taxation has reported to your Committee that raising the general excise tax by one per cent increases revenue by \$600,000,000. Your Committee believes that an increase in the general excise tax, when combined with the following tax relief, will address the regressive nature of the present tax structure:

- (1) Exempting all non-prepared food purchases: \$135,000,000 savings to taxpayers;
- (2) Exempting physician services, dental services, glasses, and non-prescription drugs: \$126,000,000 savings to taxpayers;
- (3) Exempting the first \$800 of monthly rent: \$83,600,000 savings to taxpayers; and
- (4) Doubling the standard deduction: \$37,500,000 savings to taxpayers.

Your Committee finds that these measures would provide over \$380,000,000 in tax relief to Hawaii's families, especially to those with less than \$100,000 in income per year:

- (1) A family of four with an adjusted gross income of \$40,000 per year would have \$1,482 in tax savings;
- (2) An individual with an adjusted gross income of \$80,000 per year would have \$524 in tax savings; and
- (3) A family of four with an adjusted gross income of \$250,000 per year would have an additional tax burden of \$621.

Based on this information, your Committee finds that this proposal would provide a much needed source of funding for education while simultaneously addressing Hawaii's regressive tax structure. Your Committee notes the Department of Taxation's support of general excise tax exemptions for food, and medical and dental services, in order to address the regressive nature of the general excise tax. Your Committee also notes the Department's strong support of increasing the standard deduction to reflect more accurately the cost of living in Hawaii. Your Committee has heard and approved a wide range of proposed education funding initiatives and encourages further legislative discussions on the proposals in this measure.

Your Committee has amended this measure by:

- (1) Deleting the earned income tax credit;
- (2) Amending the effective date to July 1, 2045, for the purpose of encouraging further discussion; and
- (3) Making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1346, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 316 Education and Housing on S.B. No. 496**

The purpose of this measure is to clarify the functions, duties, and roles of the Charter School Review Panel in the administration and operation of charter schools, and to improve fiscal and budgetary accountability.

Specifically, this measure:

- (1) Requires a charter school board to comply with Board of Education policies and Department of Education directives, and requires the Charter School Review Panel to determine the probation period for deficiencies related to compliance;
- (2) Clarifies that the Charter School Review Panel is subject to the requirements of the sunshine law;
- (3) Authorizes the Board of Education to remove a Charter School Review Panel member for cause;
- (4) Requires the Charter School Review Panel to:
  - (A) Approve the charter schools budget;
  - (B) Submit a capital improvement projects budget for charter school facilities to the department of budget and finance; and
  - (C) Approve recommendations to allocate non-per-pupil facilities funds to charter schools with facilities needs;
- (5) Requires the Board of Education member on the Charter School Review Panel to be recused from considering appeals of the Panel's decisions;
- (6) Specifies the duties of the Executive Director of the Charter School Administrative Office with regard to the preparation of the budget;
- (7) Requires the Charter School Administrative Office to be represented by an assigned deputy attorney general, separate from counsel for the Board of Education;
- (8) Changes the requirements for the per-pupil funding and excludes fringe benefits, debt service, and federal funding from the per-pupil appropriation to charter schools;
- (9) Changes the amount the Department of Education may retain from charter schools federal funds for administrative costs from up to 6.5 per cent to five per cent; and
- (10) Requires the Charter School Review Panel to evaluate a charter school on its fourth anniversary and every five years after.

Testimony in support of this measure was submitted by one private organization and one individual. Testimony in opposition was submitted by one state agency and one charter school. Comments were submitted by two state agencies, one private organization, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has heard a number of concerns regarding the provisions in this measure. Your Committee understands that for some members of the charter school community, any change is suspect and open to differing interpretations. Your Committee is very supportive of charter schools and what they accomplish – academically and otherwise – under often difficult circumstances.

Your Committee wishes to emphasize that this measure is very much a “work in progress” and urges the stakeholders to continue to work together to refine this measure as it moves through the legislative process.

Your Committee has amended this measure by:

- (1) Requiring a charter school board to comply with Board of Education policies and Department of Education directives regarding special education and federal programs;
- (2) Deleting the requirement that the Board of Education member on the Charter School Review Panel be recused from considering appeals of the Panel's decisions;
- (3) Requiring the charter schools budget to list current and projected enrollment figures separately and requiring the Department's debt service as a calculation of per pupil funding;
- (4) Requiring seventy per cent of the amount requested to be allocated to start-up charter schools on a per-pupil basis;
- (5) Deleting the requirement that the Charter School Administrative Office to be represented by an assigned deputy attorney general, separate from counsel for the Board of Education;
- (6) Deleting the requirement that the Charter School Review Panel determine the probation period for deficiencies related to compliance with Board of Education policies and Department of Education directives;
- (7) Amending the purpose section to reflect these changes; and
- (8) Amending the effective date to July 1, 2045, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 496, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 496, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 317 (Majority) Education and Housing on S.B. No. 733**

The purpose of this measure is to clarify the sections of law pertaining to school impact fees to facilitate the provision of land and collection of fees for public schools.

Specifically, this measure:

- (1) Inserts the formula that calculates the amount of land developers must provide to the State for new schools, as the current law does not contain a formula and as a result, it is unclear how the calculation is made;

- (2) Eliminates language that allowed the transfer of a housing developer's excess credit to any other location in the State, pursuant to the United States Supreme Court and similar laws in other states, that the legal test of a legitimate impact fee requires fees or credits be used in the location where they are collected;
- (3) Consolidates all requirements to update data used in the analysis and calculation of school impact fees, including actual school size and cost information, construction cost increases, and updated estimates of the amount of revenue generated by each new dwelling unit; and
- (4) Clarifies language and makes terms consistent throughout the measure, reorders procedures to reflect the order in which they occur in practice, and gathers all definitions of terms in one section.

Testimony in support of this measure was submitted by one state agency. Testimony in opposition was submitted by one state agency and four private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Act 245, Session Laws of 2007, which established school impact fees, was the result of a two-year School Impact Fee Working Group established by the 2005 Legislature. The initial draft of Act 245 was part of the Working Group's report entitled *Hawai'i School Impact Fee Working Group Report*, prepared by consultants Duncan and Associates and Group 70 International, Inc., in March 2007. The draft legislation was then amended during the 2007 session before it was approved.

Your Committee further finds that implementation of Act 245 has shown that amendments in this measure would lead to greater efficiency and clarity for both developers and the Department of Education in meeting the requirements of the law.

Your Committee has heard a number of concerns raised regarding the proposed amendments in this measure. Your Committee understands that the interested stakeholders have had a number of discussions regarding the measure, but that consensus has not been reached. Your Committee urges the stakeholders to continue their discussions as the measure advances through the legislative process.

To this end, your Committee has amended this measure by:

- (1) Making technical amendments for the purposes of clarity and consistency; and
- (2) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 733, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 733, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 318      Transportation, International and Intergovernmental Affairs on S.B. No. 150**

The purpose of this measure is to require the Department of Transportation to determine the need, projected costs; and possible economic and non-economic benefits, of constructing noise barriers along the H-1 freeway to mitigate the negative impact of highway noise in residential areas along the freeway and to abate longstanding noise problems for adjacent buildings and communities.

Your Committee received testimony in opposition of this measure from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has amended this measure by deleting its contents and inserting the highway capital improvement project appropriations from Senate Bill No. 1611, S.D. 1, and changing the effective date to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 150, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 319      (Majority) Transportation, International and Intergovernmental Affairs on S.B. No. 1064**

The purpose of this measure is to prohibit the sale of any new tire that was manufactured six years prior to the date of the sale of the tire.

This measure applies to sales by any:

- (1) Business selling tires, whether selling tires exclusively or with other merchandise;
- (2) New or used motor vehicle dealer; or
- (3) Gasoline dealer, dealer retail station, or independent retail station, as defined by law.

A fine of not more than \$1,000 for each tire sold in violation of this measure is provided.

Your Committee received testimony in support of this measure from two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

News reports indicate that tires from four to fourteen years old were being sold by retailers and tire stores, which prompted the National Highway Traffic Safety Administration to issue a consumer advisory warning in 2008 to warn motorists that out-of-date tires, seemingly new, can lead to catastrophic failure.

Your Committee finds that Hawaii's roads and highways, with frequent stop and go traffic and hot asphalt or concrete, are particularly harsh on tire wear and tear. The imposition of a tire expiration date will prevent the sale of out-of-date tires, thus promoting motor vehicle safety on Hawaii roads and highways statewide.

Your Committee has amended this measure by changing the penalty for a violation to \$100.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1064, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 320      Transportation, International and Intergovernmental Affairs on S.B. No. 300**

The purpose of this measure is to require:

- (1) The holder of a Class 5 liquor dispenser license to carry liability insurance as a condition of acquiring and renewing a license; and
- (2) Liquor liability insurers to notify the county liquor commissions upon a termination, rejection, or nonrenewal of a licensee's coverage.

Your Committee received testimony in support of this measure from TS Restaurants. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that liquor licensees have a high exposure to potential lawsuits for personal injuries for the serving of liquor to patrons who may excessively imbibe and then cause an accident to a third party. The provision of general liability insurance would mitigate such exposure.

Your Committee notes the testimony to the effect that the cost of liquor liability insurance may be prohibitive for many smaller establishments. Your Committee defers to the Committee on Commerce and Consumer Protection to address this issue.

Your Committee has amended this measure by changing the article and part of the Insurance Code in which the new law is to be situated and making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 300, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 321      Transportation, International and Intergovernmental Affairs on S.B. No. 1224**

The purpose of this measure is to require the Governor or the Director of Transportation, if directed by the Governor, to adjust and modify existing airport concession leases and contracts under specified conditions and terms.

Your Committee received testimony in support of this measure from the Airport Concessionaires Committee; Island Shoppers, Inc.; Human Services Host Corporation; Airlines Committee of Hawaii; and International Currency Exchange. Testimony in opposition was received from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that airport concessionaires have been suffering an economic downturn that began with the September 11, 2001 event. More recently, the State's economic straits are reflected in the profits of the concessionaires. Testimony indicated that one major concessionaire has invested \$3 million in capital improvements and suffered a twenty-five per cent drop off in business.

Your Committee notes that a measure with a similar purpose, Act 201, Session Laws of Hawaii 2004, was enacted in 2004. However, Act 121 was allowed to sunset a year later on July 1, 2005.

Your Committee has amended this measure by deleting its contents and inserting provisions to require the Department of Transportation, beginning July 1, 2009 and periodically thereafter, to review each concession contract for the possibility of adjusting the rent to a reasonable amount, affordable to the concession, taking into consideration specified factors. Your Committee has also inserted a sunset date of July 1, 2014.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1224, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 322 (Joint/Majority) Public Safety and Military Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 2**

The purpose of this measure is to ban consumer fireworks, except for religious and cultural purposes and also to require each county to adopt an ordinance to regulate the sale of consumer fireworks for religious or cultural purposes.

Testimony in support of this measure was submitted by three state agencies, one private organization, and thirty-one individuals. Testimony in opposition of this measure was submitted by two private organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that banning the sale and use of consumer fireworks for purposes other than religious or cultural in counties with a population over 600,000 will likely prevent health-related problems, injuries, property damage, air and noise pollution, and even deaths throughout each year. Your Committees also find that during holiday celebrations, such as the Fourth of July and New Year's Eve, the State's emergency services, such as the police and fire departments, and medical services will be relieved of calls to respond to and treat circumstances relating to the use of consumer fireworks. Your Committees further find that the ban on the sale and use of consumer fireworks may be limited so that it is not contrary to any other law, such as the First Amendment right to freedom of religion in the United States Constitution.

Your Committees have amended this measure by:

- (1) Clarifying for counties with a population over 600,000 that the use of consumer fireworks is banned, notwithstanding any law to contrary, except for use by permit for religious or cultural purposes during a specified time period;
- (2) Clarifying for counties with a population of 600,000 or less that consumer fireworks:
  - (A) May only be used during specified hours on New Year's Eve, Chinese New Year's Day, and the Fourth of July, and for religious or cultural purposes; and
  - (B) May not be sold after 12:01 a.m. on New Year's Day, 6:00 p.m. on Chinese New Year's Day, and 8:00 p.m. on the Fourth of July;
- (3) Clarifying for all counties that consumer fireworks may be lawfully purchased no more than five calendar days before the permitted time period of use; and
- (4) Changing the effective date to July 1, 2050, to promote further discussion on this measure.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Ayes with Reservations, 1 (English). Noes, 1 (Slom). Excused, 1 (Hemmings).

**SCRep. 323 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 495**

The purpose of this measure is to appropriate funds for capital improvement projects to repair and maintain irrigation systems within the State.

Testimony in support of this measure was submitted by two members of the Maui County Council, twelve organizations, and five public citizens. Three state agencies submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that a reliable irrigation system is the lifeblood of Hawai'i's agricultural industry. To ensure that Hawai'i's farmers receive a steady and dependable supply of water to grow their crops, sufficient funding is needed to maintain and improve Hawai'i's agricultural irrigation systems.

Your Committee further finds that this contribution to the State's agricultural infrastructure will:

- (1) Act as a needed economic stimulus for the State's economy;
- (2) Create a dynamic impact of water availability enabling increased agricultural production; and
- (3) Benefit the State through increased tax revenue.

The total amount for these capital improvement projects approximates \$16,000,000.

Your Committee has amended this measure by providing additional information for the purpose section.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 495, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 495, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 324 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs and Economic Development and Technology on S.B. No. 68**

The purpose of this measure is to add regulatory functions over the commercial use of state waters and marine resources to the Department of Land and Natural Resources.

Testimony in support of this measure was submitted by one state agency and five public citizens. Testimony in opposition was submitted by one state agency, two organizations, and two public citizens. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that a loophole exists in which a business that otherwise would be required to have a permit can now conduct its commercial activity in state waters without a permit simply by departing from a private marina. This measure will extend the Department of Land and Natural Resources authority to the regulation of currently unregulated commercial enterprises that originate from private marinas. Your Committees note that it is not the intent of this measure to provide for additional regulation of existing regulated commercial enterprises.

Your Committees have amended this measure by amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 68, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 68, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 2 (Hemmings, Slom). Excused, 2 (Bunda, Ige).

**SCRep. 325 Health on S.B. No. 1610**

The purpose of this measure is to clearly define the role of physician assistants regarding medical orders issued to a registered nurse by clarifying that:

- (1) Physician assistants may act as agents of a supervising physician when issuing a medical order; and
- (2) A medical order issued by a physician assistant to a registered nurse is a specific direction from the supervising physician.

Your Committee received testimony in support of this measure from Hawaii Medical Service Association, the Board of Nursing, Puna Community Medical Center, and five individuals. The Hawaii Academy of Physician Assistants submitted testimony in support of the measure with amendments. Comments on this measure were received from Kaiser Permanente and the Hawaii Medical Board.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that physician assistants serve a vital role in the health care community. Clearly authorizing physician assistants to issue medical orders to be executed by nursing personnel will help to clear any ambiguities in the current statutes and ensure safe patient care in the hospital setting. The measure does not relieve physician assistants or registered nurses from exercising due care in performing within their respective scope of practice.

Your Committee has amended this measure by adopting the recommendations of the Hawaii Academy of Physician Assistants by:

- (1) Removing the requirement that the supervising physician must affirmatively authorize the physician assistant to issue a medical order;
- (2) Removing the requirement that a supervising physician must personally review patient records within seven days of the issuance of a medical order by a physician assistant;
- (3) Requiring the supervising physician to conduct record review in compliance with section 16-85-49, Hawaii Administrative Rules; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1610, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1610, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 326 (Joint/Majority) Health and Transportation, International and Intergovernmental Affairs on S.B. No. 56**

The purpose of this measure is to encourage bars, businesses, nightclubs, and restaurants to comply with the smoking prohibition that was passed by the Legislature in 2006 by:

- (1) Increasing penalties for violations;
- (2) Making compliance a condition of liquor license renewal; and
- (3) Providing shared jurisdiction of enforcement to the Department of Health and the liquor commissions of each county.

Your Committees received testimony in support of this measure from the American Cancer Society, the American Lung Association, and the Coalition for a Tobacco-Free Hawaii. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Liquor Commission, the Hawaii Bar Owner's Association, and three individuals.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that slow enforcement of the smoking prohibition has resulted in continued employee exposure to second-hand smoke and an unequal impact on local businesses.

Your Committees further find that the increase in fines proposed in this measure is a valid source of revenue to pay for the costs of enforcement. In addition to the fee increase, your Committees would encourage the Department of Health to identify funds that will ensure that the Department and the respective liquor commissions are able to appropriately implement enforcement of the smoking prohibition.

Your Committees have amended this measure by changing the effective date to July 1, 2050 to encourage further discussion on this matter.

As affirmed by the records of votes of the members of your Committees on Health and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 56, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 56, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, 1 (Green). Excused, 3 (Gabbard, Hemmings, Slom).

**SCRep. 327 Health on S.B. No. 1040**

The purpose of this measure is to protect public health by prohibiting smoking on public beaches, parks, and certain recreational areas during certain community events.

Testimony in support of this measure was submitted by the American Lung Association and the Coalition for a Tobacco-Free Hawaii. Testimony in opposition of this measure was submitted by two individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that prohibiting smoking during certain public community events will promote a healthier environment and allow children, families, and tourists to enjoy community events free of dangerous second-hand smoke.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1040, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 328 Health on S.B. No. 38**

The purpose of this measure is to protect public health by reducing youth consumption of tobacco products other than cigarettes, such as smokeless tobacco, snuff, and pipe tobacco.

Specifically, this measure includes smokeless tobacco and pipe tobacco to the definition of "tobacco products" and increases the excise tax on the wholesale price of tobacco products from forty per cent to sixty per cent. The measure further allows for the taxes collected from tobacco products other than cigarettes to be deposited into the community health centers special fund.

Your Committee received testimony in support of this measure from the American Heart Association, American Cancer Society, American Lung Association, Coalition for Tobacco-Free Hawaii, Hawaii Primary Care Association, Tobacco-Free Big Island, Healthy Mothers Healthy Babies, and the Boys and Girls Club of the Big Island. Comments on this measure were submitted by the Department of Taxation and the Tax Foundation of Hawaii. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will protect public health by deterring youth consumption of tobacco products by increasing the tax on tobacco products, including smokeless tobacco and pipe tobacco, by twenty per cent.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 38, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 38, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 329 Health on S.B. No. 280**

The purpose of this measure is to help alleviate the nursing shortage in the State by removing the requirement that an unlicensed foreign nursing school graduate applying for a registered nurse license in Hawaii must have the nurses' educational credentials evaluated by a professional evaluator.

Testimony in support of this measure was submitted by Healthcare School of Hawaii, the Filipino American Citizens League, Oahu Filipino Community Council, Filipino Coalition for Solidarity, Congress of Visayan Organizations, and Nursing Advocates & Mentors, Inc. Testimony in opposition of this measure was submitted by the Board of Nursing, University of Hawaii System, University of Phoenix, and the Filipino Nurses Organization. Comments on this measure were submitted by the Philippine Nurses Association of Hawaii. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the State's requirement for uniform evaluation by the recognized authority on credential evaluations, the Commission on Graduates of Foreign Nursing Schools International, is connected to federal immigration laws that require all international health professionals, except physicians, to be certified by the Commission on Graduates of Foreign Nursing Schools International or another independent, government-certified organization qualified to issue credentials. Though your Committee is open to making the application process for foreign educated nurses less cumbersome, it believes that sufficient safeguards are necessary to ensure that foreign nursing school graduates are educationally qualified to apply for a registered nurse license in Hawaii.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 280, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 280, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 330 Health on S.B. No. 1262**

The purpose of this measure is to ensure that patients receive quality health care by requiring health care providers to notify patients or their representatives of any adverse events that result in serious harm or death to the patient within seventy-two hours of discovery of the adverse event, without the admission being admissible as evidence of liability.

Your Committee received testimony in support of this measure from the Hawaii Association of Justice. Your Committee received testimony in opposition to this measure from the Department of Health and The Queen's Medical Center.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that patients deserve full disclosure when mistakes are made in the course of receiving medical care. Ensuring full disclosure, with the disclosure notification excluded as evidence of liability, will improve patient safety procedures, reduce medical errors, and therefore reduce medical malpractice claims and insurance costs.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1262, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 331 (Joint) Health and Judiciary and Government Operations on S.B. No. 1137**

The purpose of this measure is to provide for public health and safety by enabling the Hawaii Health Systems Corporation to perform criminal history record checks on all persons employed or seeking employment, and current or prospective contractors, volunteers, and providers via the Hawaii Criminal Justice Data Center's Federal Bureau of Investigations checks.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation and one individual.

Copies of written testimony are available for review on the Legislature's website.

Your Committees find that, due to a shortage of health care workers, the Hawaii Health Systems Corporation has recruited heavily from out-of-state. Your Committees further find that in-state checks have been conducted since the creation of Hawaii Health Systems Corporation. This measure will enable in-state and out-of-state criminal record checks to be done in an efficient and effective manner by allowing access to the Federal Bureau of Investigations databank where criminal history records for all states can be retrieved.

Your Committees have amended this measure by deleting the appropriation provision and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1137, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1137, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Vice Chair on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 2 (Baker, Hemmings).

**SCRep. 332 Health on S.B. No. 843**

The purpose of this measure is to allow a court to order a mental or medical examination as needed in order to obtain sufficient information to render an appropriate sentencing provision for a defendant.

Your Committee received testimony in support of this measure from the Attorney General, the State Judiciary, the City and County of Honolulu Department of the Prosecuting Attorney, the County of Maui Department of the Prosecuting Attorney, and The Mestizo Association.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure restores a necessary statutory provision allowing for pre-sentence mental or medical examinations of defendants. Your Committee further finds that this measure will help to ensure that defendants are sentenced appropriately.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 843, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 843, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 333 Health on S.B. No. 941**

The purpose of this measure is to ensure the highest level of health care for patients of Hawaii Health Systems Corporation by authorizing the Hawaii Health Systems Corporation to conduct Federal Bureau of Investigations criminal history record checks through the Hawaii Criminal Justice Data Center on employees, applicants, current or prospective contractors, providers, or volunteers.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation Corporate Board of Directors, Hawaii Health Systems Corporation Oahu Region, West Kauai Medical Center, and one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that, due to a shortage of health care workers, the Hawaii Health Systems Corporation has recruited heavily from out-of-state. Your Committee further finds that in-state checks have been conducted since the creation of Hawaii Health Systems Corporation. This measure will enable in-state and out-of-state criminal record checks to be done in an efficient and effective manner by allowing access to the Federal Bureau of Investigations databank where criminal history records for all states can be retrieved.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 941, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 941, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 334 Health on S.B. No. 230**

The purpose of this measure is to enhance victim safety by notifying victims and surviving family members, who have submitted a written request, of specified information about a criminal defendant's fitness to proceed at trial, transfer to a state hospital or psychiatric facility, or unauthorized absence from a facility.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, the City and County of Honolulu Department of the Prosecuting Attorney, and the Hawaii State Coalition Against Domestic Violence. Your Committee received testimony in opposition to this measure from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that victims of crime have a legitimate interest in being notified of any proceeding regarding whether the offender may be released from custody. Your Committee further finds that the Department of Health has stated that expanding reporting requirements as required under this measure will implement significant policy changes in the area of forensic mental health and that a study should be conducted by legal and mental health stakeholders before policy changes are implemented.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 230, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 230, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 335 (Joint) Health and Economic Development and Technology on S.B. No. 436**

The purpose of this measure is to provide a tax incentive for life sciences companies to conduct clinical trials in Hawaii.

Your Committees received testimony in support of this measure from the American Cancer Society. Your Committees received comments on this measure from the Department of Taxation.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure provides an income tax credit of fifteen per cent of qualified clinical trial costs concluded in counties of the State with a population greater than 700,000 residents. If the clinical trial costs are incurred in a county of the State with a population equal to or less than 700,000, the percentage of the tax credit would be increased to twenty per cent.

Your Committees find that life sciences companies that conduct clinical trials often create more and higher paying jobs that will help to keep our local graduates employed in the State. Your Committees further find that clinical trials play an invaluable part in the battle against cancer.

Your Committees have amended this measure by adopting recommendations submitted by the Department of Taxation by:

- (1) Replacing the Department of Taxation with the Department of Business, Economic Development, and Tourism for the pre-qualification registration and administrative provisions; and
- (2) Including a waiver for the research and development tax credits for any qualified clinical trial cost that has been financed by investments for which a credit was claimed under section 235-110.91, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Health and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 436, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 436, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 3 (Espero, Hee, Slom).

**SCRep. 336 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1205**

The purpose of this measure is to provide a safety net for individuals who have lost their employer based health care coverage by establishing a temporary health insurance program.

Your Committees received testimony in support of this measure from Hawaii Medical Service Association, the International Longshore and Warehouse Union- Local 42, and one individual. The Department of Health submitted testimony in support of the intent of this measure.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that by assisting those in need through the maintenance of health insurance, the economic impact of having a large population of medically uninsured persons will be lessened.

Your Committees have amended this measure by changing the appropriation provision to require that only monies received by the State and deposited into the state general fund pursuant to the federal American Recovery and Reinvestment Act of 2009 may be expended for the temporary health insurance program.

Your Committees have further amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1205, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1205, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 337 Health on S.B. No. 604**

The purpose of this measure is to ensure that victims of sexual assault are fully informed regarding treatment and emergency contraception.

The measure accomplishes this goal by requiring all hospitals and public facilities to provide victims of sexual assault with information on emergency contraception and immediate access to emergency contraception when requested.

Your Committee received testimony in support of this measure from Healthy Mothers Healthy Babies, the National Association of Social Workers, Hawaii Women's Political Caucus, The Sex Abuse Treatment Center, the American Civil Liberties Union of Hawaii, Planned Parenthood of Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Health, Pro-Family Hawaii, Hawaii Family Forum and one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that information on emergency contraception is an important part of treatment and counseling for victims of sexual assault. Allowing these victims to be fully informed of all medical options and treatments available to them will provide a level of protection for women, help to prevent unintended pregnancies, and provide sexual assault survivors with information that may prevent a further trauma of pregnancy.

Your Committee finds that the use of emergency contraception is approved by the federal Food and Drug Administration and is a safe and effective means of treating victims of sexual assault.

In addition, your Committee finds that emergency contraception is consistent with the Ethical and Religious Directives published by the United States Conference of Catholic Bishops. More than thirty-four Catholic Hospitals in the United States are currently offering emergency contraception information and treatment to sexual assault victims.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 604, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 604, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Espero).

**SCRep. 338 Health on S.B. No. 1676**

The purpose of this measure is to increase access to health care for rural residents of the State by supporting the expanded use of technology for telemedicine services.

The measure accomplishes this purpose by clarifying:

- (1) That telemedicine is in a physician's scope of practice and is authorized in Hawaii when practiced by a licensed physician providing services to patients; and
- (2) Current laws regarding telehealth to ensure compliance with changes made to the law regulating the practice of medicine.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, The Chamber of Commerce of Hawaii, and one individual. Comments were received on this measure by the Hawaii Medical Board and the Hawaii Medical Association.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will enhance the Legislature's efforts to expand broadband capability as well as provide a cost-effective means to improve access to health care services, particularly in rural areas of the State.

Your Committee has amended this measure by clarifying that the applicable standards of medical practice when treatment recommendations are made via telemedicine, including issuing a prescription via electronic means, are the same standards of appropriate practice as those in traditional physician-patient settings that do not include a face to face visit but in which prescribing is appropriate, including on-call telephone encounters and encounters for which a follow-up visit is arranged.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1676, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Green). Noes, none. Excused, 1 (Nishihara).

**SCRep. 339 (Joint) Health and Public Safety and Military Affairs on S.B. No. 418**

The purpose of this measure is to protect the health and well being of individuals participating in the State's medical marijuana program by:

- (1) Transferring the administration of the State's program for the medical use of marijuana from the Department of Public Safety to the Department of Health;
- (2) Amending the medical use of marijuana law to replace the term, "marijuana" with "cannabis";
- (3) Authorizing a registration fee not to exceed \$50; and
- (4) Establishing the medical cannabis advisory board to identify requirements for the licensure of producers and cannabis production facilities and set forth procedures to obtain licenses and develop a distribution system for medical cannabis.

Testimony in support of this measure was submitted by the League of Women Voters of Hawaii, The Drug Policy Forum, and the Hope for a Cure Foundation of West Oahu. The Drug Policy Action Group submitted testimony to your Committees in support with amendments. Testimony in opposition of this measure was submitted by the Department of Health, the Department of Public Safety, the Department of the Prosecuting Attorney, County of Maui, the City and County of Honolulu Police Department, and the County of Maui Police Department. Comments on this measure were submitted by the American Civil Liberties Union of Hawaii. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the State's medical marijuana program, enacted into law in 2000, is a public health program conceived out of concern for the health and welfare of the seriously ill. Since its inception, concerns have been raised over the proper administration of the program. Patients have stated apprehension in registering with the Narcotics Enforcement Agency, particularly in light of a breach in security that occurred in 2008, releasing the database of 4,200 patient names and information to the Hawaii Tribune-Herald newspaper.

Your Committees further find that safe distribution of medical cannabis to patients participating in the program is crucial. Your Committees find that a task force should be established to develop a distribution plan and research laws in other states, such as New Mexico, that have implemented successful medical cannabis distribution programs.

Your Committees have amended this measure by:

- (1) Removing the advisory board;
- (2) Establishing a medical cannabis task force to develop a distribution plan and make recommendations to the Legislature on the implementation of the program; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 418, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 418, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 340 Public Safety and Military Affairs on S.B. No. 969**

The purpose of this measure is to permit a conditional search of any person or vehicle entering upon the grounds of a correctional or detention facility.

Testimony in support of this measure was submitted by one state agency. Testimony in opposition of this measure was submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is in the best interest of public safety that any person or vehicle entering upon the grounds of a correctional or detention facility be subject to a conditional search. Your Committee also finds that currently the correctional staff of the Department of Public Safety do not have the authority to search any person or vehicle for contraband. This measure provides the correctional staff with the authority to request a conditional search of a person or a vehicle when the correctional staff has reasonable suspicion of a person possessing or a vehicle containing a weapon or contraband.

Your Committee has amended this measure by:

- (1) Clarifying that the correctional staff shall give the person notice and an opportunity to decline a conditional search prior to searching a person or their vehicle;
- (2) Adding that the correctional staff shall have probable cause of contraband on a person prior to requiring a strip search of that person;
- (3) Changing the effective date to July 1, 2050 to provide further discussion on this measure; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 969, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 341 Public Safety and Military Affairs on S.B. No. 1058**

The purpose of this measure is to require the Attorney General, with the assistance of various public and private entities, to coordinate a review of the impact of diverting marijuana and low-level felony drug offenders to treatment centers rather than incarceration in the criminal justice system.

Testimony in support of this measure was submitted by one state agency, four private organizations, and three individuals. Testimony in opposition of this measure was submitted by one state agency. Comments on this measure were submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that diverting marijuana and low-level felony drug offenders to treatment centers rather than incarceration relieves the criminal justice system from overcrowding of inmates and reduces costs to the State for incarcerating those drug offenders. Your Committee also finds that an unbiased report on the costs and benefits of a low-level drug offender diversion program is warranted under the current economy in an effort to make fiscally-sound policy decisions.

Your Committee has amended this measure by adding the following list of representatives to the group that the Attorney General may call upon for assistance in conducting the required review:

- (1) A representative of the Office of the Public Defender;
- (2) A representative of the American Civil Liberties Union of Hawaii;
- (3) A representative of a community advocacy group with at least fifteen years of experience, research, and statistical data to provide to the Attorney General; and
- (4) A criminologist or researcher that can analyze the most current statistical data.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1058, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 342 (Majority) Labor on S.B. No. 687**

The purpose of this measure is to require contractors and subcontractors for certain public works construction contracts of \$100,000 or more and subcontracts of \$25,000 or more, to comply with certain requirements for the entire duration of their contracts, and to certify compliance with the requirements.

Testimony in support of this measure was submitted by six organizations and one individual. Testimony in opposition to this measure was submitted by one state agency, three organizations, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee anticipates an imminent boom of economic stimulus, construction projects. During this time, out-of-state contractors or contractors of unfamiliar backgrounds, experience, and performance may gain an unfair advantage by violating state laws to win bids.

Your Committee finds that this measure is necessary to encourage compliance and mandate contractors to show proof of and maintain compliance for the entire duration of their contracts.

Your Committee further finds that this measure imposes sanctions on contractors or subcontractors who fail to comply with the proposed requirements, as necessary deterrents to potential violators.

Your Committee notes the concern that this measure may significantly limit the number and types of contractors who could bid on public works contracts and has accordingly amended this measure as follows:

- (1) By increasing the general contract amount and the subcontract amount for which this measure applies from \$100,000 to \$250,000 and from \$25,000 to \$50,000, respectively;
- (2) By removing the provisions requiring medical and workers' compensation insurance as prerequisites for the award of contracts, as these requirements are already established under existing law;
- (3) By amending the effective date to July 1, 2050 for the purpose of encouraging further discussion; and
- (4) By making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 687, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 687, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 343 (Majority) Labor on S.B. No. 1125**

The purpose of this measure is to require an offeror for certain construction contracts subject to the state public procurement code, to be a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations at the time of general bidding.

Testimony in support of this measure was submitted by three organizations. Testimony in opposition to this measure was submitted by one state agency, one organization, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee anticipates an imminent rush of construction projects to take advantage of federal economic stimulus monies. Your Committee finds that during the construction boom, there will be a need for construction workers who have been thoroughly trained in job safety and in their respective trades.

Your Committee finds that apprenticeship programs:

- (1) May provide well-trained workers for the anticipated construction projects;
- (2) May help prevent industrial accidents, prevent injuries, and produce high-quality work products; and
- (3) Potentially lower labor costs for construction.

Your Committee notes the concern that this measure may significantly limit the number and types of contractors who could bid on public works contracts, and that this measure makes no exception for certain projects that do not require apprentices, such as sole source procurements. Your Committee also notes that this measure allows noncompliance by even one subcontractor to potentially stop work on an entire project.

Your Committee additionally notes the concern that the meaning of the term "bona fide, state-approved apprenticeship program" is unclear and may be inconsistent with the language used in chapter 372, Hawaii Revised Statutes.

Your Committee has accordingly amended this measure by:

- (1) Increasing the estimated total value of contracts for which this measure applies from \$100,000 to \$250,000;
- (2) Excluding sole source procurements under section 103D-306, Hawaii Revised Statutes, from the requirements of this measure;
- (3) Limiting the requirements of this measure to offerors for certain construction contracts and excluding references to subcontractors;
- (4) Eliminating the duration of previous participation in an apprenticeship program as a determining factor of whether an offeror conforms to the standards for apprenticeship agreements; and

- (5) Conforming references to apprenticeship programs to the language in chapter 372, Hawaii Revised Statutes, relating to apprenticeship.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1125, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1125, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 344            Tourism on S.B. No. 1227**

The purpose of this measure is to establish a Department of Tourism.

Specifically, this measure:

- (1) Abolishes the Hawaii Tourism Authority;
- (2) Transfers the convention center enterprise special fund, the tourism emergency trust fund, and the tourism special fund from the Hawaii Tourism Authority to the newly established Department of Tourism; and
- (3) Renames the Department of Business, Economic Development, and Tourism to the Department of Business and Economic Development.

Your Committee received testimony in support of this measure from the Mayor of the City and County of Honolulu. Testimony in opposition was received from the Hawai'i Tourism Authority; Outrigger Hotels; and Hawai'i Hotel & Lodging Association. Comments were received from the Tourism Liaison. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure provides the proposed Department of Tourism with the general charge, oversight, and care of tourism and related activities of the State. The Department would support, maintain, and expand the State's domestic and international travel market, endeavoring to generate increased expenditure, tax revenue, and employment derived from the tourism industry.

Your Committee finds that tourism is one of the primary economic engines of the State. As such, tourism is deserving of a dedicated executive department. Testimony indicates that the Conference of Mayors has lobbied the United States Congress to establish a cabinet-level Secretary of Tourism. Tourism is a leading industry in cities and states across the nation, and the country's mayors agree it merits the prominence of cabinet status.

Your Committee has amended this measure by:

- (1) Deleting section 9 which ceased all contractual obligations entered into by the Hawaii Tourism Authority;
- (2) Transferring contracts held by the Hawaii Tourism Authority to the Department of Tourism;
- (3) Establishing an interagency working group, to be convened by the Governor, to develop comprehensive plans to aid in the transfer of rights, powers, functions, duties, and resources from the Hawaii Tourism Authority to the Department of Tourism;
- (4) Providing that the interagency working group be comprised of three members appointed by the President of the Senate, three members appointed by the Speaker of the House of Representatives, three members appointed by the Governor, the Attorney General, and the Executive Director of the Hawaii Tourism Authority;
- (5) Providing that the working group shall cease to exist on June 30, 2012;
- (6) Retaining the effective date of July 1, 2009 to allow the interagency working group to start the transition; provided that the Department of Tourism is established as a fully functioning state department by January 1, 2011; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1227, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Kidani).

**SCRep. 345            (Majority) Transportation, International and Intergovernmental Affairs on S.B. No. 586**

The purpose of this measure is to regulate the use of medium-speed electric vehicles on roads.

Your Committee received testimony in support of this measure from twelve individuals. Testimony in opposition was received from the Department of Transportation and Honolulu Division of Motor Vehicle, Licensing and Permits Administration. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee believes that the highway modernization program as contained in Senate Bill No. 1611, S.D. 1, should be parsed into two separate measures, one for the provisions increasing tax and fees and the other for the appropriation for capital improvement projects.

Your Committee has amended this measure by deleting its contents and inserting the tax and fee increase provisions and the provisions establishing the land transportation modernization special fund from Senate Bill No. 1611, S.D.1, and changing the effective date to July 1, 2012.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 586, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 586, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Nishihara).

**SCRep. 346 Commerce and Consumer Protection on S.B. No. 1219**

The purpose of this measure is to clarify that a licensed real estate broker or real estate salesperson acting within the scope of the broker or salesperson's license does not violate the prohibition on the unauthorized practice of law.

Your Committee heard testimony in support of this measure from the Real Estate Commission and Hawai'i Association of Realtors. Your Committee heard testimony in opposition to this measure from the Department of the Attorney General and Hawaii State Bar Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that under current law, real estate brokers and salespersons are required to hold licenses and are regulated by the Real Estate Commission, which oversees the education, licensure, and discipline of licensees. This measure clarifies the existing law and allows real estate licensees who act in accordance with the terms of their license to avoid inadvertent criminal violations, especially in instances where licensed professional activities overlap with activities common to the practice of law. Your Committee believes that existing statutes and administrative rules pertaining to real estate licensees, in addition to existing criminal prohibitions against the unauthorized practice of law, are sufficient to protect consumers.

Your Committee has amended this measure by deferring its effective date to provide an opportunity for further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1219, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 347 Commerce and Consumer Protection on S.B. No. 661**

The purpose of this measure is to regulate the funeral industry by establishing a board of cemetery and funeral trusts within the Department of Commerce and Consumer Affairs and giving the board oversight authority over cemetery and funeral licensees.

Your Committee received testimony in support of this measure from the Funeral Consumers Alliance of Hawaii. Testimony in opposition to this measure was received from Dodo Mortuary, Inc, Hawaii Allied Memorial Council, Ballard Family Mortuary, Hawaiian Memorial Life Plan, and Dodo Mortuary Life Plan, Inc. Testimony with comments was received from the Regulated Industries Compliance Office, the Cemetery and Funeral Trusts Program of the Department of Commerce and Consumer Affairs, and the Department of Budget and Finance. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is important to protect funeral and cemetery consumers both because of the expense of funeral and cemetery products and services and because of the emotional nature of such purchases. Further, since cemetery and pre-need authorities often hold consumers' funds in trust, it is important to provide oversight of fund management.

Your Committee has amended this measure by:

- (1) Changing the composition of the board to five members, including three cemetery or pre-need funeral licensees and two members of the public nominated by consumer advocate groups;
- (2) Removing the provision that allows for reimbursement of board expenses;
- (3) Removing the board's authority to receive complaints and take disciplinary action;
- (4) Changing the name of the pre-need cemetery and funeral governance fund to the pre-need cemetery and funeral special fund;
- (5) Applying fees only to contracts accepted on or after July 1, 2009;
- (6) Assessing fees to cemetery authorities, pre-need funeral authorities, and other interests as determined by the Department of Commerce and Consumer Affairs;
- (7) Clarifying the authorized purposes of the pre-need cemetery and funeral special fund;
- (8) Requiring audited financial statements and actuarial reports containing specified information;
- (9) Authorizing the Department of Commerce and Consumer Affairs to grant an extension for required reports;
- (10) Requiring the Department of Commerce and Consumer Affairs to report annually to the Legislature on licensee financial and actuarial reports;
- (11) Granting greater disciplinary and enforcement authority to the Department of Commerce and Consumer Affairs;

- (12) Changing the effective date to July 1, 2050; and
- (13) Making technical, nonsubstantive changes to section one to accurately reflect the purpose of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 661, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 1 (Espero). Noes, none. Excused, 1 (Sakamoto).

**SCRep. 348 Commerce and Consumer Protection on S.B. No. 1106**

The purpose of this measure is to strengthen the Hawaii Real Property Tax Act withholding requirements by requiring that the buyer of real property provide a tax clearance certificate to be furnished to the Bureau of Conveyance as a condition of recording a transfer of title.

Your Committee received testimony in opposition to this measure from Hawaii Association of Realtors and Title Guaranty of Hawaii, Inc. Testimony with comments was received from the Department of Taxation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is especially important in these difficult economic times that the State be able to collect the full amount of revenue due to it under the law. Your Committee further finds that out-of-state interests, as sellers of real property, are sometimes able to circumvent their obligations under existing Hawaii tax laws. Your Committee finds that this measure will allow the State to collect the appropriate taxes due to it without placing the burden of enforcing the law on the real estate profession.

Your Committee notes that the Department of Taxation has expressed concerns with the effectiveness of the current law that places the entire burden of ensuring tax compliance on the buyer of real property. The Department of Taxation noted in its testimony that shifting the burden of obtaining a tax clearance certificate to the seller will assist the Department of Taxation in collecting all the revenue from the various state taxes that may be due to it. Your Committee further notes that this change in the current law will likely require procedural changes in the conduct of real property transactions, especially in the escrow process. Your Committee recommends that the Committee on Ways and Means investigate this issue further.

Your Committee has amended this measure by:

- (1) Shifting the responsibility of obtaining a tax clearance certificate from the transferee (buyer) in a real estate transaction to the transferor (seller) in order to conform to the requirements of the Hawaii Real Property Tax Act; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1106, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 349 Commerce and Consumer Protection on S.B. No. 1230**

The purpose of this measure is to establish a real property asset acquisition tax on all transfers of real property to ensure that the State receives the revenue due to it under the law.

Your Committee received testimony in support of this measure from Iolani Palace, Conservation Council for Hawaii, Bishop Museum, and Hawai'i Forest Industries Association. Testimony in opposition to the measure was received from Hawai'i Association of Realtors. Testimony with comments was received from the Department of Taxation, Housing Hawaii, Tax Foundation of Hawaii, and The Nature Conservancy. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon further consideration, your Committee has amended this measure by deleting its contents and inserting provisions that address the loss of tax revenue due to real property transactions involving nonresident sellers. As amended, this measure:

- (1) Provides for the application of the conveyance tax to real property holding company transfers attributable to real estate located in Hawaii;
- (2) Imposes the Hawaii Real Property Tax Act withholding requirement on transfers of interests in real property holding companies attributable to real estate located in Hawaii;
- (3) Ensures that withholding tax payments required by the Real Property Tax Act are timely received by requiring remittance of the tax within twenty days following the transfer date by electronic transfer directly to the Department of Taxation; and
- (4) Ensures that nonresident sellers of real property pay their proper share of general excise, transient accommodations, and income taxes by requiring foreign owners to provide a tax clearance certificate to the Bureau of Conveyances as a condition of recording.

Your Committee believes that the amended measure will ensure that nonresident taxpayers, including vacation rental owners, are tax compliant before they potentially end any connection to Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1230, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

**SCRep. 350 Economic Development and Technology on S.B. No. 91**

The purpose of this measure is to authorize the Hawaii community-based economic development revolving fund to receive funding from any source and reduces the maximum balance amount and interest rates for loans received under chapter 210D, Hawaii Revised Statutes.

This measure also amends the definition of "community of interest" in section 210D-2, Hawaii Revised Statutes, to allow for broader representation of persons who share a common economic interest who do not necessarily live in the same geographic region.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, the Office of Hawaiian Affairs, the Hawaii Alliance for Community Based Economic Development, the Hawaii Alliance of Nonprofit Organizations, the Malu'ohai Residents Association, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is fiscally responsible to authorize the Hawaii community-based economic development revolving fund to receive monies from sources other than the general fund. Your Committee also finds that this is the right time to revise chapter 210D, Hawaii Revised Statutes, in order for community-based organizations to keep pace with our changing economy in order to meet the challenges of the most distressed communities.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 91, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 351 Economic Development and Technology on S.B. No. 256**

The purpose of this measure is to establish a telework task force to develop a comprehensive plan that will encourage and expand telework opportunities in Hawaii.

Testimony in support of this measure was submitted by the Chamber of Commerce of Hawaii, the Land Use Research Foundation of Hawaii, the Leeward Oahu Transportation Management Association, ComTel Hawaii, and one concerned individual. Testimony in opposition of this measure was submitted by the Department of Business, Economic Development, and Tourism, and the Department of Human Resources Development. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that encouraging employers to develop a telework environment for their employees will encourage a better quality of life for people that would otherwise commute to work and it will also have a beneficial impact on Hawaii's environment, reduce traffic congestion, and reduce the State's dependence on fossil fuels. Your Committee also finds that establishing a telework task force to develop incentives and recommendations for businesses and government agencies to implement telework programs is the appropriate mechanism to foster growth for telework participation throughout the State.

Your Committee has amended this measure by:

- (1) Directing the telework task force to develop incentives and recommendations for businesses and government agencies to implement telework programs throughout the State;
- (2) Requiring the Legislative Reference Bureau to provide administrative and staffing support to the telework task force in drafting the report on its findings and recommendations to submit to the Legislature no later than August 1, 2010;
- (3) Deleting the designation of the Director of Business, Economic Development, and Tourism, and the Director of Human Resources Development as co-chairs of the telework task force;
- (4) Adding the requirement that the members of the telework task force shall collectively appoint a chairperson for the task force;
- (5) Deleting the provision that the members of the telework task force serve without compensation, but be reimbursed for travel expenses;
- (6) Requiring the telework task force to cease to exist on July 1, 2010;
- (7) Deleting the appropriation clause; and
- (8) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 256, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 256, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 352 Economic Development and Technology on S.B. No. 831**

The purpose of this measure is to establish two permanent exempt positions within the Department of Accounting and General Services for the purpose of acquiring and applying highly specialized technology skills and knowledge.

Testimony in support of this measure was submitted by the Department of Accounting and General Services. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the addition of two permanent exempt positions for persons with highly specialized technology skills and knowledge will improve the efficiency and productivity of the Department of Accounting and General Services in providing their services to other branches of the government and the public.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 831, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 831, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 353 (Joint) Economic Development and Technology and Commerce and Consumer Protection on S.B. No. 1680**

The purpose of this measure is to establish a Hawaii Communications Commission in the Department of Commerce and Consumer Affairs to implement the recommendations of the Hawaii Broadband Task Force.

This measure also transfers telecommunication functions from the Public Utilities Commission and cable services functions from the Department of Commerce and Consumer Affairs to the Hawaii Communications Commission. In addition, this measure establishes a work group to report to the Legislature and to develop procedures to streamline state and county broadband regulation, franchising, and permitting processes.

Testimony in support of this measure was submitted by the University of Hawaii, the Department of Commerce and Consumer Affairs, the Department of Business, Economic Development and Tourism, the Department of Budget and Finance, the High Technology Development Corporation, Hawaiian Telcom, Oceanic Time Warner Cable, Olelo, Akaku Maui Community Television, Hawaii Wildlife Fund, and one concerned individual. Testimony in opposition of this measure was submitted by Time Warner Telecom. Comments on this measure were submitted by Legislative Reference Bureau and Verizon. Written testimony presented to the Committees is available for review on the Legislature's website.

Your Committees find that this measure establishes the policy framework for the State of Hawaii to pursue high-speed broadband deployment as critical infrastructure for the State's economic recovery and future competitiveness. The goals and purposes set forth in this measure reflect the visionary perspective among Hawaii Broadband Task Force members, presenters, and participants to help Hawaii achieve broadband capability comparable to the world's leaders within a measurable time frame. Your Committees also find that consolidating regulatory, permitting, and advocacy functions into a single, one-stop agency will position Hawaii to take best advantage of federal broadband initiatives proposed by President Obama and those being debated within the United States Congress this year.

In response to testifiers who expressed concerns that specific language in this measure may be in areas preempted by federal telecommunications regulation, your Committees emphasize that the purpose of consolidating regulations over telecommunications and broadband deployment in Hawaii is to streamline or remove unwieldy regulatory requirements, while being mindful of the interplay between federal and state regulation and the competitive marketplace.

The measure before us represents a first step toward reconciling competing interests, stakeholders, and multiple layers of government requirements as Hawaii seeks to retool its regulatory structure to take advantage of the new federal emphasis on incorporating broadband infrastructure into our nation's economic recovery.

Given the unprecedented economic challenges facing Hawaii, we are heartened that the American Recovery and Reinvestment Act of 2009 offers several opportunities to help the State identify areas that may be underserved or unserved within its rural communities, and enhance broadband connectivity between Hawaii, the mainland and Asia-Pacific nations. As noted by United States Senator Daniel Inouye in a September, 2008 Congressional hearing, ". . . Broadband matters because broadband communications have become the great economic engine of our time. Broadband deployment drives opportunities for business, education, and healthcare. It provides widespread access to information that can change the way we communicate with one another and improve the quality of our lives . . . By some estimates, universal broadband adoption would add \$500 billion to the United States economy and create more than a million new jobs. . . . Add to this hundreds of millions of dollars in savings through e-government and telemedicine initiatives and untold riches we can reap by tapping the genius of web-based entrepreneurs in every corner of this country. The case for better broadband is clear."

Your Committees have amended this measure by:

- (1) Replacing the name Hawaii Communications Commissioner with Hawaii Broadband Commissioner;
- (2) Clarifying the goals of the new entity in promoting shared infrastructure to speed implementation and reduce underlying costs to providers through incentives as opposed to eminent domain procedures;
- (3) Establishing the Hawaii Broadband Commissioner as an independent agency that is attached to the Department of Commerce and Consumer Affairs for administrative purposes only;
- (4) Revising Part II, Telecommunications, section -38, of the new Hawaii Broadband Commissioner chapter, to not require the incumbent local telecommunications exchange carrier to obtain approval or provide any cost support or other information to establish or otherwise modify in any manner its rates, fares, and charges or to bundle any service offerings into a single or combined pricing package;

- (5) Providing for a six month transition period for incumbent local exchange carrier regulation by the Public Utilities Commission to assist the transfer to the Hawaii Broadband Commissioner;
- (6) Deleting subsections (b) through (h) of Part II, Telecommunications, section -38 of the new Hawaii Broadband Commissioner chapter;
- (7) Increasing the number of PEG channels that the cable operator shall designate for public, educational, or governmental use from three or more channels to five or more channels;
- (8) Establishing a contracting process between the Hawaii Broadband Commissioner and PEG access organizations that will protect First Amendment rights and provide for an orderly process for public input and review during contract renewals;
- (9) Exempting PEG access organizations from the State procurement laws;
- (10) Adding a new section 23 to the measure that includes an amendment to section 269-16, Hawaii Revised Statutes relating to the Public Utilities Commission's power to regulate utility rates, to reflect the transfer of authority and certain rate to the Broadband Commissioner;
- (11) Providing for the transfer of funds from the public utilities commission special fund and cable television subaccount to the Hawaii broadband commission special fund to provide appropriations for the new Broadband Commissioner;
- (12) Providing for the transfer of four existing positions in the Cable Television Division and ten positions in the Department of Commerce and Consumer Affairs to the new Broadband Commissioner for its operations, where those costs are to be paid out of existing cable television franchise fees and Public Utilities Commission fees for transfers;
- (13) Clarifying the function of the Broadband Commissioner's work group to streamline permitting functions applicable to development of broadband services or broadband technology;
- (14) Revising the members of the work group established by the Hawaii Communications Commission to include only state and county members;
- (15) Changing the effective date to July 1, 2050, to promote further discussions on various segments of this measure; and
- (16) Making technical, nonsubstantive amendments for the purpose of clarity.

Your Committees also thank members of the task force for an outstanding effort in bringing together many diverse interests, such as the telecommunication and cable television industries, the State's Executive Branch, business industry leaders, and numerous tech industry resource individuals. For additional information on broadband resources and best practices of other jurisdictions utilized by the Hawaii Broadband Task Force, please go to <http://www.hbtf.org>.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1680, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1680, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 4 (Green, Hee, Ihara, Hemmings).

**SCRep. 354 (Joint) Energy and Environment and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1057**

The purpose of this measure is to ensure the health, safety, and welfare of the citizens of the State by:

- (1) Adopting design and maintenance requirements for retention ponds, detention ponds, and catchment area ponds; and
- (2) Including retention pond, detention pond, and catchment area pond safety within the Department of Education's water safety curriculum.

Testimony in support of this measure was submitted by one private organization and fourteen individuals, including Allison Schaefer, whose daughter, Charlotte "Sharkey", drowned in 2004 while attempting to rescue a friend who had fallen into a retention pond. Testimony in support of the intent of this measure was submitted by one private organization. Testimony in opposition to the measure was submitted by one county department and four private organizations. Comments were submitted by two state departments and two private organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Various testifiers, including Allison Schaefer, expressed concerns that the design and maintenance requirements in this measure may be premature, and suggested first establishing a task force to collect data and examine the advisability and effectiveness of a detention/retention pond safety program before instituting specific design and maintenance requirements. Comments regarding the specifics of such a task force were submitted by the American Council of Engineering Companies of Hawaii.

Your Committees find that the unintended hazards that may be posed by detention and retention ponds must be thoroughly examined and appropriate safeguards instituted. The life of a child is a terrible and tragic price to pay in the name of design expedience or cost-effectiveness, when simple measures, such as warning signs, could have prevented this tragedy.

Your Committees have amended this measure by:

- (1) Deleting its contents and substituting the language regarding the water safety task force recommended by the American Council of Engineering Companies of Hawaii;
- (2) Inserting into the revised measure the following: "This Act shall be known as the "Charlotte 'Sharkey' Schaefer Act", in memory of the young girl who drowned in 2004 while attempting to rescue a friend who had fallen into a retention pond"; and

- (3) Modifying the revised measure by emphasizing that the task force shall determine the appropriate warning signs for retention ponds.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1057, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1057, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Bunda, Fukunaga, Takamine).

**SCRep. 355 (Joint) Energy and Environment, Water, Land, Agriculture and Hawaiian Affairs and Commerce and Consumer Protection on S.B. No. 1258**

The purpose of this measure is to do the following:

- (1) Clarify the renewable energy portfolio standards by providing that, beginning in 2015, electrical energy savings will not count towards renewable energy portfolio standards and revising the electric utility companies' renewable portfolio standard;
- (2) Prohibit the Public Utilities Commission from issuing permits to build additional fossil-based electric generation units with rated capacity greater than two megawatts;
- (3) Revise the requirements of the renewable portfolio standards study, in order to reevaluate the renewable energy portfolio standards;
- (4) Authorize the Public Utilities Commission to modify the maximum capacity of eligible customer-generators and to permit designated electrical utility companies to assign customer-generators to different rates, tariffs, or contracts;
- (5) Authorize the Public Utilities Commission to eliminate the limit on eligible customer-generators;
- (6) Assign to the Energy Resources Coordinator responsibilities relating to the development of programs and incentive plans for renewable energy resources;
- (7) Amend the definition of a "qualified business" for purposes of state enterprise zones to include an entity engaged in the development or production of certain alternative or renewable energy resources;
- (8) Clarify the duties of the Renewable Energy Facilitator;
- (9) Authorize the Energy Resources Coordinator to designate certain facilities as a "renewable energy facility", for purposes of certain permitting processing; and
- (10) Institute a "deemed approved" process for permitting of renewable energy facilities if the permitting agency do not act on the applicable permit.

Testimony in support of the measure was submitted by one private organization. Testimony in support of the measure, with suggested amendments, was submitted by one state department and two private organizations. Testimony in opposition was submitted by one private organization. Comments were submitted by one state agency and two private organizations. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is intended to provide a comprehensive framework for encouraging renewable energy in Hawaii and meeting the State's goals as set forth in the Hawaii Clean Energy Initiative. Your Committees also find that certain provisions of S.B. No. 870, proposed by the Department of Business, Economic Development, and Tourism are more closely aligned with the Hawaii Clean Energy Initiative.

Your Committees have amended this measure by deleting the contents of the measure and inserting a revised version of S.B. No. 870 provided by the Department of Business, Economic Development, and Tourism, which:

- (1) Clarifies the renewable energy portfolio standards by providing that, beginning in 2015, electrical energy savings will not count towards renewable energy portfolio standards and revising the electric utility companies' renewable portfolio standard;
- (2) Revises the requirements of the renewable portfolio standards study, in order to reevaluate the renewable energy portfolio standards;
- (3) Authorizes the Public Utilities Commission to eliminate the limit on eligible customer-generators;
- (4) Assigns to the Energy Resources Coordinator responsibilities relating to the development of programs and incentive plans for renewable energy resources;
- (5) Amends the definition of a "qualified business" for purposes of state enterprise zones to include an entity engaged in the development or production of certain alternative or renewable energy resources;
- (6) Clarifies the duties of the Renewable Energy Facilitator;
- (7) Allows certain biofuel facilities and electricity production facilities to apply to the Energy Resources Coordinator to be designated as a "renewable energy facility", for purposes of certain permitting processing; and
- (8) Institutes a "deemed approved" process for permitting of renewable energy facilities if the permitting agency do not act on the applicable permit.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, Agriculture, and Hawaiian Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1258, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1258, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 13. Noes, none. Excused, 3 (Espero, Ige, Sakamoto).

**SCRep. 356 (Joint) Energy and Environment and Economic Development and Technology on S.B. No. 467**

The purpose of this measure is to support the renewable energy industry in Hawaii by:

- (1) Establishing a Division of Renewable Energy in the Department of Business, Economic Development, and Tourism to coordinate and promote renewable energy initiatives; and
- (2) Establishing a renewable energy business investment earned income tax credit.

Testimony in support of the intent of this measure was submitted by one state department and one private organization. Comments were submitted by one state department and one private organization. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the Department of Business, Economic Development, and Tourism has established a Renewable Energy Program as part of the Hawaii State Energy Office, and intends that this program will grow into a branch within the next six months. Your Committees also find that it would be beneficial to support this reorganization that is already under way.

Your Committees have amended the measure by deleting the contents of the measure and inserting language provided by the Department of Business, Economic Development, and Tourism, which:

- (1) Establishes the Renewable Energy Branch of the Department of Business, Economic Development, and Tourism;
- (2) Revises section 226-18, Hawaii Revised Statutes, to strengthen energy diversification, a longer-term view of what is reasonable in energy planning, and utilization of energy technologies;
- (3) Revises section 196-4, Hawaii Revised Statutes, to strengthen the duties of the Energy Resources Coordinator in the renewable energy and project development areas;
- (4) Establishes within the Department of Business, Economic Development, and Tourism seven full-time, temporary positions exempt from chapters 76 and 89, Hawaii Revised Statutes, to support the planning and renewable energy functions of the Renewable Energy Branch; and
- (5) Adds an appropriation for energy analysts.

Your Committees note that the measure provides an exemption from chapter 89, Hawaii Revised Statutes, as well as an exemption from chapter 76, Hawaii Revised Statutes (civil service), and encourages the Senate Ways and Means Committee to examine the feasibility of both exemptions in conjunction with current budget realities.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 467, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 467, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 10. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 357 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.B. No. 701**

The purpose of this measure is to place a moratorium for any new landfills on the leeward coast, including Nanakuli, Waianae, Maili, Makaha, and Makua on or after August 1, 2009.

Testimony in support of this measure was submitted by one private organization and one individual. Testimony in opposition to the measure was submitted by one state department. Comments were submitted by one county department. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the residents of the Leeward Coast have justified concerns regarding the location of any future landfill sites and feel that they have been disproportionately carrying the burden of accepting much of Oahu's municipal solid waste.

Your Committees have amended this measure by:

- (1) Adopting the recommendation of the Ironworkers Stabilization Fund by expanding the moratorium to include private landfills and the expansion of existing private landfills; and
- (2) Making technical, nonsubstantive stylistic changes.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 701, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 701, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Ihara, Kokubun, Hemmings).

**SCRep. 358 Energy and Environment on S.B. No. 934**

The purpose of this measure is to establish exempt coordinator positions within the Department of Health to plan and oversee the preparation of total maximum daily loads in Hawaii for the United States Environmental Protection Agency.

Testimony in support of this measure was submitted by two state agencies. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that to meet the requirements of the Federal Clean Water Act, the Department of Health must prepare pollutant loading budgets, otherwise known as total maximum daily loads, for state waters that exceed water quality standards and are considered "impaired," according to 40 C.F.R. 130.7. Federal regulations also require a review of Hawaii water bodies every two years and an update of the Hawaii listing of Impaired Waters. There are approximately seven hundred total maximum daily loads which need to be completed and more are added every two years. The listing of Impaired Waters and the resultant State total maximum daily load decisions are submitted to the United States Environmental Protection Agency for review and approval after public review and comment.

Currently this work is done by an exempt project position under section 76-16(b)(12), Hawaii Revised Statutes, within the Department of Health Environmental Health Administration, and is funded through a grant from the United States Environmental Protection Agency. The responsibilities of this exempt position have increased due to an expanding list of Impaired Waters and related concerns at the federal, state, county, and community levels. The current project position coordinates, oversees, and writes technically-based plans which establish waste load allocations for pollutant-impaired State water bodies identified by the State's Clean Water Act 303(d) list and the corresponding federal enabling regulations. Historically, this position was renewed each year as a project position, but the Department of Health has decided the exemption will not be administratively renewed. Establishing this exempt position by statute will ensure that the Department of Health can employ persons who understand Hawaii's unique environmental and cultural needs to gather data and prepare decisions.

Your Committee further finds that it is in the public interest to maintain this position within the Department of Health. Otherwise the United States Environmental Protection Agency will be compelled to conduct the total maximum daily loads process, and the decisions rendered may not serve the best interests of the State of Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 934, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 934, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 359 (Joint) Energy and Environment and Commerce and Consumer Protection on S.B. No. 1173**

The purpose of this measure is to do the following:

- (1) Direct the Public Utilities Commission to establish energy efficiency portfolio standards;
- (2) Direct the Public Benefits Fee Administrator to review energy use patterns and develop an energy efficiency plan;
- (3) Direct the Energy Resources Coordinator to review energy efficiency in building construction and to recommend amendments to county building codes and the state building code;
- (4) Require the state building code to contain provisions of the International Energy Conservation Code and direct the counties to adopt those provisions;
- (5) Allow for the review of energy efficiency in existing state buildings and direct the Energy Resources Coordinator to establish energy efficiency guidelines for retro-commissioning and retrofits;
- (6) Require existing state buildings to be retro-commissioned no less than every five years;
- (7) Require the Energy Resources Coordinator to publish an annual energy efficiency report;
- (8) Require energy performance contracts for retro-commissioning to meet energy efficiency standards;
- (9) Expand the "Pay As You Save" pilot program to include photovoltaic energy systems and refrigerator exchanges;
- (10) Direct the Public Benefits Fee Administrator to develop and implement a program to encourage residential retail electricity customers to replace inefficient household appliances with ENERGY STAR appliances;
- (11) Provide a net-zero energy building tax credit to builders of residential or commercial buildings that produce enough energy that is equal to or greater than the energy consumed by the occupants of the building;
- (12) Direct the Public Utilities Commission to establish a consumer information program on energy efficient properties; and
- (13) Allow a taxpayer who claims the low-income household renter's tax credit to transfer the credit to the taxpayer's landlord.

Testimony in support of the measure was submitted by two private organizations. Testimony in support, with suggested amendments, was submitted by one private organization. Comments were submitted by three state departments and six private organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Given the scope and complexity of the issues addressed in this measure and in similar bills under consideration, including S.B. No. 871, your Committees assembled an informal working group consisting of various stakeholders to discuss the proposed measure and the issues raised therein, to try to reach a consensus on addressing concerns and comments expressed in the testimony. Your Committees invited representatives from the Public Utilities Commission, the Department of Taxation, the Department of Business, Economic Development, and Tourism, the Hawaii Solar Energy Association, The Gas Company, Hawaiian Electric Company, the Building Industry Association, Blue Planet Foundation, the Land Use Research Foundation, and the Sierra Club. After several meetings with these various stakeholders, a consensus was reached regarding the amendments discussed below.

Your Committees have amended the measure by deleting its contents and inserting a revised version of S.B. No. 871 provided by the Department of Business, Economic Development, and Tourism, which:

- (1) Establishes an energy efficiency portfolio standard and directs the Public Utilities Commission to create all necessary parameters to implement the energy efficiency portfolio standard;
- (2) Designates the Public Benefits Fee Administrator as responsible for achieving the energy efficiency portfolio standards;
- (3) Directs the Public Utilities Commission to evaluate the energy efficiency portfolio standards and to revise the standards if appropriate;
- (4) Requires each state department with responsibilities for design and construction of public buildings and facilities to benchmark existing buildings so that energy efficiency may be evaluated;
- (5) Allows state departments to enter into energy savings performance contracts with third parties and establishes the parameters and procedures for such contracts;
- (6) Requires that existing public buildings be retro-commissioned not less than every five years, pursuant to guidelines created by the Energy Resources Coordinator;
- (7) Requires that energy consumption information be disclosed by the seller or lessor in the sale or lease of real property;
- (8) Authorizes a tax credit for each taxpayer who owns a net-zero energy building;
- (9) Directs the Public Benefits Fee Administrator to conduct energy efficiency assessments to identify energy use patterns in the State and to identify and recommend energy efficiency programs to target;
- (10) Directs the Public Benefits Fee Administrator to establish on-electricity-bill financing programs to encourage consumer acquisition of efficient electrical appliances and energy producing systems;
- (11) Requires the Public Benefits Fee Administrator to examine building codes and to develop and implement recommendations for increasing energy efficiency for residential and commercial buildings; and
- (12) Revises the renewable energy technologies income tax credit to encourage commercial use of solar energy systems and to permit a portion of the excess of the credit over payments due to be refunded to the taxpayer in certain circumstances.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1173, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1173, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Espero, Ige, Sakamoto).

**SCRep. 360 Energy and Environment on S.B. No. 32**

The purpose of this measure is to repeal the sunset date of the general excise tax exemption on gross income or proceeds from the sale of alcohol fuels.

Comments were submitted by one private organization. Testimony in opposition to this measure was submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Hawaii drivers typically pay high fuel prices and a general excise tax upon alcohol fuels only serves to make those prices higher. However, while the added cost of the general excise tax would increase the cost of gasoline, it may also help the public to make the shift away from the consumption of fossil fuel to "greener" alternatives.

Your Committee finds that the competing concerns regarding this issue merit further consideration. Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050 to ensure ongoing discussions on this very important issue.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 32, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 361 (Majority) Energy and Environment on S.B. No. 405**

The purpose of this measure is to abolish the ten per cent ethanol by volume requirement for gasoline sold in Hawaii for use in motor vehicles.

Testimony in support of this measure was submitted by one organization and two public citizens. Testimony in opposition was submitted by one state agency and two organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the intent of the ten per cent ethanol volume requirement for gasoline was to provide energy independence from foreign oil, reduce statewide gasoline consumption, and establish industrial plants to produce ethanol locally.

To date, the State of Hawaii imports all of its ethanol from overseas, along with crude oil. Since enactment of the ethanol requirement in 2006, no ethanol plants have been built, despite several planned ethanol plants and an abundance of vacant sugar cane land. Accordingly, your Committee finds that the intent of the ten per cent ethanol volume requirement remains unfulfilled.

Your Committee has amended this measure by amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 405, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 405, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Ihara). Noes, 3 (English, Hooser, Kokubun). Excused, none.

**SCRep. 362 Energy and Environment on S.B. No. 555**

The purpose of this measure is to direct the Department of Business, Economic Development, and Tourism to adopt rules that establish appliance energy efficiency standards consistent with those in California.

Testimony in support of this measure was submitted by two organizations. Testimony in opposition was submitted by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Hawaii is dependent on imported fuel for the generation of the vast majority of electricity in the State. In addition to making Hawaii's energy supply vulnerable to external market forces, using fossil fuels to generate power creates pollution that damages Hawaii's natural environment and contributes to global warming and climate change. It is in Hawaii's best interest to conserve energy wherever possible, and the use of energy efficient appliances is one method that would produce savings in every household and business.

Your Committee further finds that California has become a pioneer in this area of conservation by adopting strict appliance efficiency regulations. Over the past decade, the energy savings resulting from California's regulations is believed to have saved that state from having to build twenty new power plants. Moreover, these efficiency standards are a significant reason why California is in the bottom fifth of all states for per capita electricity use. California's aggressive efforts to improve the efficiency of appliances like air conditioners and refrigerators have helped hold its electric demand per capita steady for three decades.

Your Committee believes that Hawaii would benefit from the development of efficiency standards for appliances sold in the State.

Your Committee has amended this measure by:

- (1) Providing the Department of Business, Economic Development, and Tourism an additional two years for the adoption and implementation of rules by extending the rule adoption deadline from January 1, 2010, to January 1, 2012; and
- (2) Making the prohibition on the sale of appliances that do not meet the Department's efficiency standards effective on January 1, 2013, rather than January 1, 2011.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 555, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 555, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 363 Energy and Environment on S.B. No. 466**

The purpose of this measure is to prohibit the use of leaf blowers with exhaust emissions greater than ten grams/kilowatt-hours during certain hours and days.

This measure also restricts the use of leaf blowers for certain durations of time and near operable doors, windows, and air ducts.

Testimony in support of the measure was submitted by nine individuals. Testimony in support of the measure, with proposed amendments, was submitted by three individuals. Testimony in opposition to the measure was submitted by one state department. Comments were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that use of leaf blowers poses health and noise pollution concerns for Hawaii citizens, particularly in urban areas where leaf blowers can be especially problematic. Your Committee finds that this measure addresses some of these concerns by placing certain restrictions on the use of leaf blowers.

Your Committee has amended this measure by:

- (1) Deleting the restriction on leaf blowers with exhaust emissions above a certain level, in response to concerns expressed by the Department of the Attorney General that such a restriction could conflict with federal law;

- (2) Clarifying the manner in which leaf blowers may be used, including restrictions on the permitted duration and location of their use; and
- (3) Making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 466, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Green). Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 364 Human Services on S.B. No. 1210**

The purpose of this measure is to establish a preference for bidders on government contracts who pledge to hire individuals with disabilities and certain temporary assistance for needy families recipients.

Testimony in support of this measure was submitted by the State Rehabilitation Council and the Hawaii Disability Rights Center. Testimony in opposition to this measure was submitted by the Statewide Independent Living Council. Comments were submitted by the Department of Human Services, the State Council on Developmental Disabilities, and Daintry Bartoldus. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that during this economic downturn, persons with disabilities are suffering from high unemployment rates. According to the State Rehabilitation Council, the unemployment rate for persons with disabilities is sixty-two per cent.

Your Committee also finds that persons with disabilities often encounter difficulties gaining employment that allows them to achieve personal and economic self-sufficiency, and that this measure provides some support in achieving self-sufficiency.

Your Committee notes the State Council on Developmental Disabilities' concerns over the definition of a pledge to hire and ensuring that a successful bidder actually hires persons with disabilities or recipients of temporary assistance for needy families for the duration of the contract after pledging to do so.

Your Committee also notes the Department of Human Services' concern that the required establishment of a registry of individuals with disabilities and recipients of temporary assistance for needy families would likely require an appropriation, which may have an adverse impact on the priorities of the executive biennium budget.

In light of these concerns, your Committee has amended this measure as follows:

- (1) By requiring preference to be given to bidders who actually hire, rather than pledge to hire, persons with disabilities or recipients of temporary assistance for needy families;
- (2) By eliminating the requirement to establish a registry of individuals with disabilities and recipients of temporary assistance for needy families;
- (3) By clarifying the definition of "individual with disability" to include the requirement that the individual be qualified to receive services from the Department of Human Services' Vocational Rehabilitation Services for the Blind Division, the Department of Health's Adult Mental Health or Developmental Disabilities Divisions, or the United States Department of Veterans Affairs;
- (4) By authorizing the State Procurement Policy Board to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to clarify and implement the requirements of this measure; and
- (5) By making technical, nonsubstantive amendments to correct typographical errors.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1210, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, none.

**SCRep. 365 Energy and Environment on S.B. No. 392**

The purpose of this measure is to extend the authorization to issue special purpose revenue bonds for Honolulu Seawater Air Conditioning, LLC for the design and construction of a seawater air conditioning/thermal energy storage district cooling system on Oahu.

Testimony in support of this measure was submitted by four organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Legislature authorized the issuance of \$32,000,000 in special purpose revenue bonds in 2004 and an additional \$68,000,000 in subsequent years for the project. Your Committee also finds that Honolulu Seawater Air Conditioning, LLC has made solid progress on the project, preparing and issuing a draft environmental impact statement in October 2008, marketing the system to potential customers, and securing financing for the project.

Your Committee further finds that Honolulu Seawater Air Conditioning, LLC's project is in the public interest, as it would supply approximately 25,000 tons of air conditioning capacity, which means decreased electricity use for air conditioning.

Your Committee finds that permitting, environmental impact assessment studies, detailed design, and other factors have taken longer than expected, and that an extension of the authorization for the issuance of special purpose revenue bonds is necessary to continue and complete this project.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Ihara).

**SCRep. 366 Energy and Environment on S.B. No. 295**

The purpose of this measure is to:

- (1) Allow hybrid vehicles and energy-efficient vehicles to use high occupancy vehicle lanes; and
- (2) Define “energy-efficient vehicle” and “hybrid vehicle” for purposes of the traffic code.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaiian Electric Company, Inc. and its subsidiary utilities; and Sierra Club Hawai'i Chapter. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would promote the increased use of fuel efficient hybrid vehicles. Increased consumer acceptance of energy-efficient vehicles, including hybrid vehicles, will aid in the reduction of greenhouse emissions and fossil fuel use. This measure also furthers the Hawaii Clean Energy Initiative's goal of seventy per cent clean, renewable energy by 2030.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 295 and recommends that it pass Second Reading and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Ayes with Reservations, 1 (English). Noes, none. Excused, 1 (Kokubun).

**SCRep. 367 Energy and Environment on S.B. No. 447**

The purpose of this measure is to repeal the sunset date on the provision of Act 103, Session Laws of Hawaii 2007, that clarified the taxation rate for naphtha, a liquid fuel sold for use in electric power generation.

The effect of this provision of Act 103 is to allow naphtha to continue to be taxed at the same rate of one cent per gallon as that applied to diesel oil, gasoline, and aviation fuel.

Testimony in support of the measure was submitted by two private organizations. Comments were submitted by two departments and one private organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that both Hamakua Energy Partners on the Big Island and the Kauai Island Utility Cooperative Kapaia generating station on Kauai have air pollution control permits that require the burning of naphtha, resulting in lower stack emissions. The passage of this measure would assure that naphtha remains a viable fuel for these power generating facilities.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 447 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 368 Energy and Environment on S.B. No. 552**

The purpose of this measure is to establish a procurement policy for all agencies when purchasing or leasing motor vehicles to obtain energy-efficient vehicles.

Under this measure, beginning January 1, 2010, all light-duty vehicles procured by or for any agency shall have an estimated fuel economy of at least eighteen miles per gallon under standards published by the United States Environmental Protection Agency. The measure also provides specific exceptions from these requirements for certain vehicular purchases.

Your Committee received testimony in support of this measure from one state department and one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it would be wise to reduce our reliance on gasoline as it will become more expensive and will diminish in supply over time. This measure sets an example for the public to reduce fuel consumption as well as carbon dioxide and pollutant emissions from road vehicles.

For example, hybrid cars are energy efficient, with small efficient gas engines that work in combination with an electric motor. The two work together, the electric motor recharges while the car is in motion. Efficiency is then maintained by aerodynamic styling, lightweight material, and intermittent engine shut off.

Your Committee believes that energy efficiency is an urgent necessity, given the price of oil and its detrimental environmental effects, particularly in Hawaii with its abundance of natural resources and renewable energy sources. This measure represents a small step for Hawaii to showcase itself as an energy independent state.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 552 and recommends that it pass Second Reading and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Kokubun).

**SCRep. 369 Energy and Environment on S.B. No. 1090**

The purpose of this measure is to require state agencies to implement inexpensive energy conservation practices and review existing conservation strategies.

Testimony in support of this measure was submitted by one organization and twelve public citizens. One state agency and two public citizens supported the intent of the measure. One public citizen submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that state agencies need to do more to implement simple, but important, energy conservation practices in the workplace.

During the last decade, the State has invested millions of dollars in technology to bring energy costs down. In addition, the State has established various operational procedures to lower electricity costs. At the State Capitol, for instance, air conditioning is turned off at 4:30 p.m. and left completely off in certain areas during the weekend.

Your Committee further finds that even with these measures in place, more can be done by department leadership and employees. At the Department of Education, for example, employees leave fluorescent lights on when no one is in the room, computers are left on over the weekend, and windows are propped open and space heaters are on even though the air conditioner is operating.

Your Committee believes that state employees should be encouraged to conserve energy. Simple, inexpensive conservation reminders, such as signs placed at each exit, announcements during meetings and training sessions, brief articles in department newsletters, emails to employees, and morning announcements, may be effective. Even the current practice of leaving a limited number of lights on at night to deter theft should also be reviewed to see if the benefits outweigh the costs. Although the savings per item may be minimal, your Committee believes the savings will be substantial when consolidated.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1090 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 370 (Majority) Energy and Environment on S.B. No. 1174**

The purpose of this measure is to require the Director of Health to adopt rules, no later than January 1, 2011, to establish and implement the motor vehicle emission program standards of California for passenger cars, light-duty trucks, and medium-duty passenger vehicles.

This measure also requires the Director of Health to convene an advisory group composed of industry and consumer group representatives to review and comment upon any proposed rule or rule changes prior to adoption of the rules.

Your Committee received testimony in support of this measure from four organizations and eighteen individuals. Testimony in opposition was received from four organizations. Comments were received from one state department. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that carbon dioxide and other greenhouse gas emissions, which result from the burning of fossil fuels and other activities, have been implicated in global climate change. Climate change, if it continues unabated, will likely have profound consequences on Hawaii's environment and quality of life. In worst case scenarios, the Pacific Ocean may inundate most of Waikiki, the business district in Honolulu, and coastal resort areas on other islands.

Your Committee further finds that by transitioning away from fossil fuel sources for electricity generation, Hawaii can play a pivotal role in demonstrating technologies that reduce humankind's contribution to global climate change.

According to testimony:

- (1) California and thirteen other states have adopted the California standards, most commonly by means of administrative rules;
- (2) California estimates that its California Clean Car Law would reduce overall greenhouse gas emissions from passenger cars by eighteen percent in 2020 and by twenty-seven percent in 2030; and
- (3) The greenhouse gasses that would be drastically reduced by this measure are carbon dioxide, methane, nitrous oxide, and hydrofluorocarbons.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1174 and recommends that it pass Second Reading and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, 1 (Hemmings). Excused, none.

**SCRep. 371 Human Services on S.B. No. 913**

The purpose of this measure is to amend section 560:5-113, Hawaii Revised Statutes, to provide that notice to parents shall not be required if the parents have been served in a proceeding under chapter 587, Hawaii Revised Statutes, and a permanent plan has been ordered by the Court.

Testimony in support of this measure was submitted by the Department of Human Services. Testimony in opposition was submitted by the State Judiciary and one public citizen. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Act 106, Session Laws of Hawaii 2007, amended chapter 587, Hawaii Revised Statutes, to allow the Family Court to order legal guardianship without the termination of parental rights. A corresponding revision to section 560:5-113, Hawaii Revised Statutes, is needed to clarify that notice is not required to be served on persons who are not, and will not, be parties to the guardianship proceedings. Your Committee notes that the Judiciary has submitted testimony in opposition, and encourages the proponents of the measure to collaborate with the Judiciary to resolve differences in crafting amendments for this measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 913 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, none.

**SCRep. 372 (Majority) Ways and Means on S.B. No. 1624**

The purpose of this measure is to afford the Legislature the flexibility to use any excess in the general fund balance to balance the state budget.

Specifically, this measure proposes an amendment to the state constitution to allow the Legislature the option of either providing a tax refund or tax credit under article VII, section 6, of the constitution or depositing the same amount into the emergency and budget reserve fund. The proposed amendment would take effect upon ratification of the proposed amendment by voters in the next general election in compliance with article XVII, section 3, of the Constitution of the State of Hawaii.

At present, article VII, section 6, of the Constitution of the State of Hawaii requires that whenever the state general fund balance at the close of each of two successive fiscal years exceeds five per cent of general fund revenues for each respective fiscal year, the Legislature in the next regular session shall provide for a tax refund or tax credit to the taxpayers of the State, as provided by law.

Your Committee finds that this constitutional requirement makes eminent sense during an economic up cycle -- a relatively continuous period of financial and economic strength when sufficient general revenues can be collected to balance the state budget. However, the State has now entered the beginning of an economic down cycle, one that is forecast to be a deep and protracted one, as the State is caught up in the current local, national, and global financial and economic crisis, which is placing enormous pressures on the state budget. This situation serves to highlight a weakness of the existing constitutional requirement because it requires the Legislature to pay out funds precisely at a time that fiscal shortages are anticipated.

By comparison, your Committee finds that granting the Legislature the option to use any excess in the general fund balance, especially during economic down cycles, to strengthen the state budget promotes better planning through the highs and lows of both up and down economic cycles.

Testimony in support of this measure was submitted by one organization while one state department supported the measure's intent. One state department and one organization submitted comments.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1624 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Hemmings). Excused, 5 (English, Fukunaga, Galuteria, Hee, Tokuda).

**SCRep. 373 Ways and Means on S.B. No. 973**

The purpose of this measure is to deter tax fraud and promote uniformity in the state tax system by conforming Hawaii tax law to the Internal Revenue Code with respect to regulating tax return preparers and adopting other accuracy-related federal provisions.

Your Committee finds tax preparers are not required to audit, examine, or review books, records, or other documents in order to independently verify information provided by taxpayers. If a tax preparer finds this information to be incorrect or incomplete, the tax preparer must make reasonable additional inquiries. This bill enables the Department of Taxation to hold tax preparers accountable for unreasonable positions on tax returns. This accountability is critical in the wake of recent corporate fraud scandals involving large corporations.

Your Committee also finds that greater scrutiny by the State is warranted with respect to regulating abusive tax schemes, erroneous tax refund claims, the understatement or misstatement of tax liability, and the collection and payment of withholding taxes. These tax violations result in not only substantial revenue losses for the State, but also mean a greater tax burden for the taxpaying public.

Finally, to enhance the enforcement capabilities of the Department of Taxation, your Committee supports the extension of the statute of limitation on assessments due to substantial omissions and providing the Department with "John Doe Summons" authority to

obtain documents from third parties to combat aggressive tax schemes. Your Committee also supports the federal policies that presume signatures on tax documents are authentic and allow the assessment and levy of taxes on fraudulent or non-filers.

Your Committee received testimony in support of this measure from one government agency and one organization. Testimony in opposition to the measure was submitted by two tax practitioners. One organization and a tax practitioner submitted comments on the measure. Based on discussion during the hearing it is the expectation of the Committee that the Department of Taxation will place greater emphasis on drafting and publishing its rules to enhance the clarity of its requirements.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 5 (English, Fukunaga, Galuteria, Hee, Tokuda).

**SCRep. 374 (Joint) Public Safety and Military Affairs and Transportation, International and Intergovernmental Affairs on S.B. No. 1254**

The purpose of this measure is to establish programs that encourage and reward the reporting of illegal fireworks activities.

Testimony in support of this measure was submitted by two private organizations and two individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that seeking the help of the public to report illegal fireworks activities enables the authorities to better prevent and prosecute offenders that use illegal fireworks. Your Committees also find that encouraging the public to report the use of illegal fireworks by providing a monetary reward is an innovative solution that addresses an illegal activity that has increased over the years.

Your Committees have amended this measure by:

- (1) Allowing the State Fire Council to work with local Crime Stoppers programs to encourage residents to anonymously report illegal fireworks activity;
- (2) Subjecting persons convicted of illegal fireworks activities to the forfeiture of certain personal property;
- (3) Deleting the requirement to maintain a minimum balance of \$25,000 in the illegal aerial devices fund; and
- (4) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1254, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1254, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Hemmings).

**SCRep. 375 Public Safety and Military Affairs on S.B. No. 1148**

The purpose of this measure is to clarify various provisions of the comprehensive offender reentry system, including the requirement of written reentry plans.

This measure also:

- (1) Continues the quarterly rotation system for Hawaii inmates in out-of-state prisons and establishes a limit on the maximum number of Hawaii inmates housed in out-of-state prisons, which shall be fulfilled by January 1, 2010;
- (2) Requires Department of Public Safety to promote research regarding children with incarcerated parents;
- (3) Establishes a Reentry Commission on January 1, 2010; and
- (4) Sunsets the Legislative Oversight Committee established to oversee the Department of Public Safety on January 1, 2010.

Testimony in support of this measure was submitted by one state agency, four private organizations, and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that a comprehensive offender reentry system lowers the State's cost of incarcerating an offender and decreases the offender's rate of recidivism upon their release. Your Committee also finds that requiring a comprehensive offender reentry plan be detailed in writing increases the likelihood of success for the offender to take a meaningful role in society upon release.

Your Committee has amended this measure by:

- (1) Requiring a comprehensive written reentry plan to be completed within ninety days of the offender's sentencing by the court, rather than from the offender's conviction;
- (2) Specifying that by December 31, 2010, the maximum number of Hawaii inmates who are housed in out-of-state prisons shall not exceed 2,000; and

(3) Amending the termination date for the Legislative Oversight Committee to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1148, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1148, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 376 (Joint) Public Safety and Military Affairs and Human Services on S.B. No. 859**

The purpose of this measure is to require certain state departments to furnish information, records, and documents to the Executive Director of the Office of Youth Services to provide treatment and care for a committed youth in the correctional facility.

Testimony in support of this measure was submitted by two state agencies and one individual. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that providing the Executive Director of the Office of Youth Services with information, records, and documents for purposes of treating or caring for a committed youth at the correctional facility is in the best interest of the correctional facility and the committed youth; provided that the information, records, and documents are kept confidential and only used for official purposes. Your Committees also find that the timely sharing of information, records, and documents with the Executive Director of the Office of Youth Services may facilitate the rehabilitation of the committed youth.

Your Committees have amended this measure by:

- (1) Requiring that confidential information, records, and documents in the possession of the Department of Education shall only be furnished to the Executive Director of the Office of Youth Services with a court order or consent of the youth's parent; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 859, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 859, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 4 (Bunda, Gabbard, Galuteria, Ihara).

**SCRep. 377 (Joint) Economic Development and Technology, Higher Education and Education and Housing on S.B. No. 1096**

The purpose of this measure is to reaffirm the Legislature's initial commitment to expand outstanding and new Science-, Technology-, Engineering-, and Math-Related (STEM) programs in Hawaii's public schools and public charter schools by providing additional funds to ensure that all schools desiring to join in providing STEM programs for their students will be able to participate between 2008-2012.

Testimony in support of this measure was submitted by the Department of Business, Economic Development and Tourism, the Department of Education, the University of Hawaii College of Engineering, the Hawaii Association of Independent Schools, the Hawaii Educational Networking Consortium, the Hawaii Agricultural Research Center, the American Public Works Association, the Hawaii Crop Improvement Association, 3D Innovations, and three concerned individuals. Comments on this measure were submitted by the Department of Human Services. Written testimony presented to your Committees is available for review on the Legislature's website.

The 2007 Legislature strongly endorsed initiatives related to STEM fields, and creative media education as the most practical, hands-on means of increasing students' interest in pursuing math/science and technology careers. All STEM proposals were evaluated against the backdrop of existing, successful math/science and related initiatives. Emphasizing the need to build upon solid performance outcomes, the Legislature enacted Act 111, Session Laws of Hawaii 2007 (Act 111), and Act 271, Session Laws of Hawaii 2007 (Act 271). Act 111 expanded existing STEM programs like robotics (including FIRST Lego League, Junior FIRST Lego League, botball, underwater ROV, VEX, Micro-Robot, and robotics camps) and Research Experiences for Teachers – Middle School. Act 271 expanded Project EAST, the Project Environmental and Spatial Technology program.

At the same time, Act 111 funded new programs (like the Hi-EST Academy, applied learning high school academies, business/education internships, and related STEM teacher development) in a pilot environment to provide the Department of Education, the University of Hawaii, individual schools, and their tech partners with an opportunity to work through initial set-up requirements and to produce a well-tested model for future expansion.

The initial Legislative targets for 2007-2008 were to double the existing forty-eight STEM, Research Experiences for Teachers – Middle School, Project Environmental and Spatial Technology, and robotics programs within public schools to achieve a level of eighty-four school initiatives. Based on strong demand from individual schools and stellar tournament results, the number of schools desiring to participate in STEM initiatives funded by Act 111 and Act 271 far exceeds the 2008 target.

At the highest level of robotics team competition, the number of For Inspiration and Recognition of Science and Technology (FIRST) robotics teams has grown from four participating high schools in 2007 to twenty-five Hawaii high school teams (including public and private schools) in 2008. The March 2008 FIRST Robotics Regional Tournament in Honolulu included thirty-eight schools competing for the National FIRST Championships (held in April 2008 in Georgia).

Your Committees find that in 1999 the total number of students involved in robotics programs was fifty, and in 2008 the number was one thousand seven hundred. These innovative educational programs help to ensure the success of Hawaii's students in the global economy, and prepare students for further education and future employment opportunities.

Your Committee has amended this measure by:

- (1) Removing the appropriation to the Department of Human Services to augment funding for STEM programs; and
- (2) Removing specific amounts in the appropriation sections.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Higher Education and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1096, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1096, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 5 (Hee, Kokubun, Takamine, Tsutsui, Hemmings).

**SCRep. 378 (Majority) Education and Housing on S.B. No. 773**

The purpose of this measure is to:

- (1) Allocate fifty per cent of conveyance taxes to the rental housing trust fund from June 30, 2008, through June 30, 2013;
- (2) Authorize the issuance of general obligation bonds for the planning, development, and construction of affordable housing;
- (3) Appropriate funds to assist developers in contracting for third party review and certification to expedite the processing and issuance of building permits for affordable housing projects; and
- (4) Appropriate funds for various homeless and housing programs and projects.

Testimony in support of this measure was submitted by two county agencies, eight private organizations, and one individual. Comments were submitted by three state agencies and two private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the American Recovery and Reinvestment Act of 2009 combines tax relief and government spending totaling \$787,000,000,000 to jump start the nation's economy. Hawaii will be eligible to receive a portion of this federal funding through formula grants and competitive applications. Your Committee further finds that the federal funds could supplement the State's continued efforts to assist the homeless, rehabilitate aging public housing stock, and preserve and build affordable housing. Upon further analysis of how the federal "stimulus" funds could be leveraged with state funds, your Committee believes this measure should be amended to incorporate such federal investment.

To the extent possible, it is the hope of this Committee that a process will be created for the Hawaii Housing Finance and Development Corporation, the Hawaii Public Housing Authority, and other agencies or entities at the state and county levels to expend expeditiously any federal funds appropriated through the American Recovery and Reinvestment Act of 2009. As this measure progresses, it is the intent of this Committee that existing rules, regulations, and statutory provisions be reviewed and, if necessary, amended to create a system that effectively and efficiently delivers these funds to the appropriate state or county agency. It is equally important that comparable systems be established to allow government agencies to award these funds to the private sector recipients.

Your Committee has amended this measure by:

- (1) Amending the findings and purpose section to discuss the American Recovery and Reinvestment Act of 2009 and the funding and benefits Hawaii is projected to receive;
- (2) Making permanent the fifty per cent allocation of conveyance taxes to the rental housing trust fund;
- (3) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (4) Making technical amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 773, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 773, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 379 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1350**

The purpose of this measure is to increase the reserved housing requirement for a planned development in the Kaka'ako Community Development District, Mauka Area.

Specifically, this measure:

- (1) Requires, for a planned development on a lot of at least one acre, at least fifty per cent of the floor area to be constructed and made available as reserved housing units for low- and moderate-income families;
- (2) Requires, for a planned development with multi-family dwelling units on a lot of at least 20,000 square feet, but less than 80,000 square feet, at least twenty per cent of the multi-family dwelling units to be constructed and made available as reserved housing, a requirement currently authorized by administrative rule;

- (3) Requires the Hawaii Community Development Authority to adopt implementing rules without regard to the notice and public hearing requirements of chapter 91, Hawaii Revised Statutes; and
- (4) Prohibits the Authority from accepting applications until the rules take effect.

Testimony in support of this measure was submitted by one state agency, one private business, one private organization, and one individual. Testimony in opposition was submitted by three private organizations. Comments were submitted by one state agency, one private organization, and three individuals. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that this measure is one of many under consideration by the Legislature in response to severe shortages of affordable housing in Hawaii. Your Committees are concerned that a long-term economic crisis will further worsen what is already a challenging housing market for Hawaii residents.

Your Committees further find that while the federal economic stimulus legislation will provide some relief, much more needs to be done at the state level. Your Committees have heard and approved a wide range of proposed affordable housing initiatives and encourage further legislative discussions on the proposal in this measure.

Your Committees have amended this measure by:

- (1) Raising the minimum lot size from one acre to 80,000 square feet for the increased reserved housing requirement for a planned development in the Kaka'ako Community Development District, Mauka Area;
- (2) Deleting industrial use from the calculations of "countable floor area";
- (3) Amending the purpose section to reflect the changes; and
- (4) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1350, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1350, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Majority Leader and Chair on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (Bunda, Fukunaga, Tsutsui, Hemmings).

**SCRep. 380 (Joint) Public Safety and Military Affairs and Higher Education on S.B. No. 623**

The purpose of this measure is to broaden the eligibility for tuition assistance provided to National Guard members by:

- (1) Enabling all officers, not just Second Lieutenants through Captains, to be eligible for tuition assistance; and
- (2) Allowing tuition assistance to be used for any degree, not just an undergraduate degree, offered by the University of Hawaii.

The measure also establishes that students who are members of the Hawaii National Guard and who are working toward an undergraduate degree must receive priority consideration for tuition assistance from the University of Hawaii.

Your Committees received testimony in support of this measure from the State Adjutant General. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure would broaden the scope of the tuition assistance to members of the Hawaii National Guard by including all commissioned officers rather than only officers in the grade 01 (Second Lieutenant) to grade 03 (Captain), and provide a more diverse post secondary education opportunity for National Guard members.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 623 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 4 (Gabbard, Kokubun, Takamine, Hemmings).

**SCRep. 381 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 581**

The purpose of this measure is to prohibit the use of the State's power of eminent domain to take and transfer private property to a private entity that had expressed interest in purchasing the same property for development purposes or other private use.

Testimony in support of this measure was submitted by two organizations and two public citizens. One organization supported the intent of the measure. Testimony in opposition was submitted by one county council member and one county agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that in the wake of the recent United States Supreme Court decision in *Kelo v. City of New London*, 125 S.Ct. 2655 (2005), there has been a growing concern that the need for urban renewal or economic development may be cited as justification for allowing government to condemn private property and transfer the property to the benefit of another private person or entity. In many cases the receiving private entity had expressed an earlier interest in the condemned property for development or other private use. Your Committee believes that this measure will support the protection of private property rights by imposing reasonable restrictions on the use of the State's power of eminent domain.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 581 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 382 (Joint) Economic Development and Technology and Commerce and Consumer Protection on S.B. No. 1276**

The purpose of this measure is to make various administrative and technical amendments to the Small Business Regulatory Flexibility Act and codify the Small Business Bill of Rights.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, the Small Business Regulatory Review Board, the Hawaii Business League, and the Chamber of Commerce of Hawaii. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the amendments made to the Small Business Regulatory Flexibility Act and Small Business Bill of Rights clarifies the rights of small businesses in Hawaii and provides guidance on the meaning of various terms that impact the operation of small businesses in Hawaii. Your Committees also find that increasing the number of members on the review board will alleviate quorum concerns in meeting their responsibilities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1276, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1276, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Espero, Hee, Sakamoto).

**SCRep. 383 (Joint) Economic Development and Technology and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1248**

The purpose of this measure is to authorize agricultural producers and manufacturers to renew their eligibility in the enterprise zone program and allow receipts, sales, and employees of a business establishment that are located within the same county to count toward qualification in the enterprise zone program. This measure also amends the definitions applicable to chapter 209E, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, the City and County of Honolulu Department Economic Development, the Hawaii Crop Improvement Association, the Hawaiian Electric Company, Hilo Coffee Mill, Honolulu Wood Treating, Madden Corporation, Island Princess, Tradewinds Forest Products, and Oils of Aloha. Comments on this measure were submitted by the Department of Taxation and the Department of Agriculture. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that facilitating agricultural producers and manufacturers in qualifying for the enterprise zone program will enable that industry to grow in a tax efficient manner. Renewing an existing license for an additional seven years will continue to attract investment and help to revitalize some of the distressed communities in Hawaii.

Your Committees received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in a revenue loss to the State of \$300,000. Their methodology is as follows:

Qualified companies in the State's enterprise zone program received approximately \$1,500,000 in tax credits in 2006. It is assumed that the number of firms and business activities will remain the same, and this proposal would expand enterprise zone activities by twenty per cent ( $\$1,500,000 \times 20\% = \$300,000$ ).

Your Committees note that the Department of Taxation's revenue loss methodology is based on the assumption that the number of firms and business activities will remain the same.

For example, the testimonies of the Department of Taxation, the Department of Business, Economic Development, and Tourism, and the Department of Agriculture fail to take into account any potential tax revenue gains that an extension of the enterprise zone credits might produce by helping long-established small businesses — who presently contribute their share of tax receipts to the State's economy — to expand. During a time when the State's visitor, retail, hospitality, and activities sectors of the economy are suffering from declining visitor counts, your Committees believe we should grow Hawaii's economy by stimulating the numbers of jobs that Hawaii small businesses are able to create, rather than preventing that growth from occurring.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1248 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Baker, Bunda, Takamine).

**SCRep. 384 Commerce and Consumer Protection on S.B. No. 1044**

The purpose of this measure is to amend the prohibition against the unauthorized practice of law under section 605-14, Hawaii Revised Statutes, to protect both licensed attorneys and other licensed professionals who are operating according to the terms of their professional licenses.

Your Committee received testimony in support of this measure from the Board of Public Accountancy; the Real Estate Commission; the Board of Professional Engineers, Architects, Surveyors and Landscape Architects; Hawaii Association of Realtors; Hawaii Insurers Council; Property Casualty Insurers Association of America; and Hawaii Association of Public Accountants. Testimony in opposition

to this measure was received from the Department of the Attorney General and Hawaii State Bar Association. Testimony with comments on this measure was received from Hawaii Medical Board, Aloha Association of Executives, and State Farm Insurance Companies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Legislature has a role to play in the regulation of the courts and the practice of law in the State. Your Committee has heard the testimony of the Hawaii State Bar Association that such matters are the exclusive purview of the Hawaii Supreme Court; however your Committee finds this position to be unpersuasive. Your Committee notes that the Legislature does, in fact, regulate the courts and the practice of law as evidenced by the existence of Title 32, Hawaii Revised Statutes, which contains chapters regulating (1) the state courts generally, (2) the state courts of appeals, (3) the circuit courts, (4) the district courts, (5) attorneys, (6) court personnel including clerks, reporters, and interpreters, (7) court costs and fees, (8) judicial expenses and salaries, (9) jurors, and (10) the Center for Alternative Dispute Resolution.

Your Committee heard the testimony of the Department of the Attorney General that the exceptions in this measure for licensees acting within the scope of their professional licenses is overly broad and may limit the application of this measure. Your Committee does not agree. Your Committee finds that other states that statutorily regulate the unauthorized practice of law have statutes that contain similar exceptions, and one state has twenty-one pages of exceptions. It is your Committee's view that the existence of exceptions and their number does not necessarily make for a faulty measure.

Your Committee has amended this measure by:

- (1) Replacing its contents with the language of the proposed Hawaii State Bar Association rule prohibiting the unlicensed practice of law; and
- (2) Repealing section 605-14, Hawaii Revised Statutes.

Your Committee believes that moving the amended measure forward in the legislative process will facilitate a free and full discussion in the Judiciary and Government Operations Committee on the merits of the proposed exceptions and ultimately assist in more clearly defining the scope of the practice of law.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1044, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 1 (Green). Noes, none. Excused, 1 (Sakamoto).

**SCRep. 385 (Joint) Commerce and Consumer Protection and Economic Development and Technology on S.B. No. 6**

The purpose of this measure is to permit the Registrar of the Bureau of Conveyances to accept electronic documents with electronic signatures for recording.

Your Committees received testimony in support of this measure from the Commission to Promote Uniform Legislation and Hawaii Association of Realtors. Testimony with comments on this measure was received from the Department of Land and Natural Resources and Hawaii Government Employees Association. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will allow the Bureau of Conveyances to become more efficient and up to date with its functions. Furthermore, this measure does not require that the Bureau of Conveyances make any changes to its procedures until it has the capability to do so. The Uniform Real Property Electronic Recording Act, upon which this measure is based, has been adopted in eighteen other states and the District of Columbia.

Additionally, your Committees note that privacy concerns related to making the information contained in Bureau of Conveyance filings more widely available have been addressed by the Committee on Commerce and Consumer Protection's recommendation to pass S.B. No. 1130, which allows the redaction of social security numbers on documents filed or registered with the Bureau of Conveyances.

Upon further consideration, your Committees have amended this measure by:

- (1) Allowing the Registrar of the Bureau of Conveyances and the Department of Accounting and General Services, upon authorization from the Registrar, to furnish maps or plans in photographic, electronic, or electrostatic form upon receiving a request for maps or plans;
- (2) Allowing the Registrar of the Bureau of Conveyances to furnish nonattested copies of instruments and documents in photographic, electronic, or electrostatic form upon receiving a request for instruments or documents;
- (3) Allowing the Registrar of the Bureau of Conveyances to convert existing information or documents into electronic form; and
- (4) Making nonsubstantive, technical changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 6, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 6, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hee, Ihara, Slom).

**SCRep. 386 (Joint/Majority) Health and Labor on S.B. No. 44**

The purpose of this measure is to ensure the long term financial and operational viability of the Hawaii Health Systems Corporation.

Specifically, the measure:

- (1) Requires the Department of Health, on July 1, 2009, to assume the total amount of all liabilities and debts or other obligations of the Hawaii Health Systems Corporation that had been accrued up to June 30, 1996, by the community hospitals while they were operating within the Division of Community Hospitals of the Department of Health;
- (2) Requires the Hawaii Health Systems Corporation to bear the sole responsibility for assuming all liabilities and debts or other obligations accrued beginning on July 1, 1996, and thereafter, by the community hospitals operating within the Hawaii Health Systems Corporation; and
- (3) Establishes that the Hawaii Health Systems Corporation shall bear sole responsibility for making all appropriate employer payments into funds of the Employees' Retirement System under chapter 88, Hawaii Revised Statutes beginning on July 1, 1996, and thereafter.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation; Kauai Region of the Hawaii Health Systems Corporation; and Kona Community Hospital. Comments were received from the Department of Health. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees note that this measure also requires the Department of Health to report to the Legislature on the details of the total amount of liabilities and debts or other obligations transferred from the Hawaii Health Systems Corporation and assumed by the Department of Health no later than December 1, 2009.

Your Committees find that since the formation of the Hawaii Health Systems Corporation on June 30, 1996, it has been unable to satisfy accrued liabilities of the community hospitals. The Hawaii Health Systems Corporation regions and their facilities are in severe financial crisis. According to testimony of the Hawaii Health Systems Corporation, the projection is for a continuing financial stress for years to come that will worsen over time. This situation presents a potential crisis that may seriously affect the delivery of health care to Hawaii's residents by community hospitals statewide, especially health facilities on the neighbor islands.

Your Committees have amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the records of votes of the members of your Committees on Health and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 44, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 44, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, 1 (Hemmings). Excused, 2 (Taniguchi, Slom).

**SCRep. 387 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1332**

The purpose of this measure is to protect public health by ensuring that respiratory care is practiced only by qualified professionals.

Specifically, this measure establishes a State Respiratory Care Board and licensure requirements to regulate the practice of respiratory care.

Your Committees received testimony in support of this measure from Kapiolani Medical Center, American Association for Respiratory Care, Hawaii Chronic Obstructive Pulmonary Disease Coalition, and the Hawaii Medical Association. Comments on this measure were submitted by the Department of Commerce and Consumer Affairs.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will protect public health and safety by providing for the licensure of respiratory therapists. Respiratory therapists serve a critical role in the health care delivery system. Your Committees further find that certain health professions need licensure to participate in federal programs.

Your Committees have amended this measure by:

- (1) Inserting a purpose section to clarify the Legislature's intent to regulate the practice of respiratory care; and
- (2) Amending section 26H-6, Hawaii Revised Statutes, to exempt certain health professions, from the required auditor's analysis for unregulated professions, that the Legislature deems is in the best interest to be licensed for participation in federal programs.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1332, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1332, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 388 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1263**

The purpose of this measure is to protect public health and safety by updating the current statutes regarding permanent and temporary licensure for tattoo artists and permits for tattoo shops.

Specifically, this measure:

- (1) Requires all tattoo shops to register with the Department of Health and establishes fees for initial permit application and annual renewal;
- (2) Authorizes temporary permits for trade shows or educational purposes and establishes fees and requirements therefor;
- (3) Authorizes temporary licenses for fourteen calendar days for tattoo artists not licensed in the State;
- (4) Sets forth additional requirements for non-temporary licenses; and
- (5) Establishes violations, including violations of consent requirements for tattooing persons under the age of eighteen as well as penalties and fines.

Testimony in support of this measure was submitted by the Hawaii Medical Association. Testimony in opposition of this measure was submitted by the Department of Health. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that tattooing has become increasingly popular in the past several years, particularly with the younger population. The statutes regulating tattoo artists and tattoo shops operating in the State have not been updated since 1981.

Your Committees further find that the Department of Health should coordinate the administrative rules regarding permits and licensure with the updated statutes.

Your Committees have amended this measure by adopting the recommendations of the Coalition for Safe Tattooing in Hawaii by:

- (1) Changing the permit renewal deadline from "January 10" to "on or before the first day of January";
- (2) Clarifying with respect to temporary licenses that:
  - (A) The licenses are valid for a maximum of fourteen consecutive days per calendar year; and
  - (B) The temporary licensing provisions apply to "professional tattooists" in jurisdictions outside Hawaii to ensure application to tattoo artists who meet Hawaii licensing requirements but come from states that do not require licensure;
- (3) Requiring non-temporary licensure applicants to pass an approved blood borne pathogen course or a state tattoo artist written examination within two years of applying;
- (4) Changing the effective date to July 1, 2050 to encourage further discussion on this matter; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1263, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1263, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 389 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1142**

The purpose of this measure is to:

- (1) Improve patient access to medical care by authorizing physician assistants to provide unsupervised care only in the event of public emergencies and local disasters;
- (2) Limit liability under Good Samaritan Laws;
- (3) Sign certain medical certifications and forms for their patients;
- (4) Administer immunizations; and
- (5) Prescribe medications for patients suffering from human immunodeficiency virus or acquired immune deficiency syndrome without preauthorization.

Your Committees received testimony in support of this measure from the American Academy of Physician Assistants, the Hawaii Academy of Physician Assistants, and the Hawai'i Primary Care Association. Testimony in opposition of this measure was submitted by the Disability and Communication Access Board. Comments on this measure were submitted by the Hawaii Medical Board.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will improve patient access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for Hawaii patients, especially in rural and underserved areas.

Your Committees further find that concerns have been raised by the Disability and Communication Access Board regarding the authority of physician assistants to sign applications for parking permits for persons with disabilities. Expanding this authority to physician assistants would make follow-up verification for fraud an additional burden for the Disability and Communication Access Board and counties that may further delay the issuance of permits to individuals in need.

Your Committees further find that this measure is intended to authorize the unsupervised medical care by physician assistants only in the event of a public emergency or a state or local disaster. In addition, this measure is intended to limit physician assistant liability only in specific situations pursuant to Good Samaritan laws.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that physician assistant liability is limited, only with regard to Good Samaritan Laws, in the specific situation where the physician assistant, in good faith, renders emergency medical care in a hospital to a person who is in immediate danger of loss of life;
- (2) Removing the authority of physician assistants to sign applications for parking permits for persons with disabilities; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1142, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1142, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 390 (Joint) Health and Human Services on S.B. No. 1310**

The purpose of this measure is to require the Department of Human Services to allow QUEST expanded access recipients the choice to opt out of the QUEST plan and receive services through AlohaCare from medical homes located in Waimanalo and Waianae.

Your Committees received testimony in support of this measure from the Waianae Coast Comprehensive Health Center and Waimanalo Health Center. Testimony in opposition of this measure was submitted by the Department of Human Services and the Attorney General.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committees find that community-based medical home models such as the Waianae Coast Comprehensive Health Center and the Waimanalo Health Center provide vital health care services to the communities they serve. Your Committees further find that establishing a federal demonstration project will be an effective way to receive federal funds for services provided through alternative providers.

Your Committees also find that this measure is needed to enable the necessary appropriation of federal stimulus funds.

Your Committees have amended this measure by:

- (1) Replacing its contents with language that establishes the region-specific, medical home health care federal demonstration project for the Waimanalo and Waianae area that provides culturally-sensitive, community-based services, including integrated behavioral services, which are vital to the populations they serve; and
- (2) Changing the appropriation to provide funds to the Waianae Coast Comprehensive Health Center, provided that only moneys received by the State and deposited into the state general fund pursuant to the federal American Recovery and Reinvestment Act of 2009 may be expended for the purposes of this Act.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1310, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1310, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 391 Labor on S.B. No. 642**

The purpose of this measure is to require that adjustments for excluded employees in the excluded managerial compensation plan be at least equal to across-the-board wage increases or reductions and changes in health and retirement benefits provided under collective bargaining to employees in the bargaining unit from which the employees in the excluded managerial compensation plan are excluded.

This measure seeks to clarify the application of:

- (1) Section 89C-2(5), Hawaii Revised Statutes, which states that adjustments for certain excluded employees shall "to the extent practicable, uniformly apply to every excluded employee within a homogeneous grouping, such as, cabinet members or managerial employees, to ensure fairness"; and
- (2) Section 89C-3(b)(2), Hawaii Revised Statutes, which states that the personnel director of each jurisdiction shall provide recommendations to the appropriate authority that shall "ensure that adjustments for excluded civil service employees result in compensation and benefit packages that are at least equal to the compensation and benefit packages provided under collective bargaining agreements for counterparts and subordinates within the employer's jurisdiction."

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency, one county agency, one organization, and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current application of section 89C-2(5), Hawaii Revised Statutes, and section 89C-3(b)(2), Hawaii Revised Statutes, allows excluded employees in the excluded managerial compensation plan to receive adjustments, including overtime compensation, equal to those provided to their non-excluded counterparts through collective bargaining agreements.

Your Committee believes that this measure is necessary to revise the current application of sections 89C-2 and 89C-3, Hawaii Revised Statutes, to an application that is fair for employees included in and excluded from bargaining units.

Your Committee has accordingly amended this measure as follows:

- (1) By deleting section 1 of the measure, which amended the definition of “adjustment”;
- (2) By adding a provision to section 89C-2, Hawaii Revised Statutes, and similar amendments to section 89C-3, Hawaii Revised Statutes, that require adjustments for excluded employees in the excluded managerial compensation plan to be at least equal to across-the-board wage increases or reductions and changes in health and retirement benefits provided under collective bargaining agreements to employees in the bargaining unit from which the employees are excluded;
- (3) By amending section 89C-3(b)(2), Hawaii Revised Statutes, to provide similar conforming adjustments to excluded civil service employees under the same classification systems as employees within collective bargaining units; and
- (4) By amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 642, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 642, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, none.

**SCRep. 392 Labor on S.B. No. 713**

The purpose of this measure is to appropriate funds to continue the Emergency Environmental Workforce Program and to provide for the continuation of the program during periods of warfare or significant economic hardship.

Comments were submitted by one organization. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that the Emergency Environmental Workforce program established by Act 4, Third Special Session Laws of Hawaii 2001, following the September 11, 2001 attacks, was successful in providing short-term employment to recently laid-off workers and significantly reducing the number of miconia and other invasive plant species, and coqui frog and fire ant populations.

Your Committee further finds that the current economic downturn and subsequent employment losses require cost-efficient, creative solutions such as the Emergency Environmental Workforce program.

Your Committee finds that the requirement to employ approximately four hundred to four hundred fifty individuals who were terminated from their jobs is restrictive. Your Committee further finds that this estimate should be determined as the Legislature further debates this matter with the intent of providing the Emergency Environmental Workforce with greater hiring flexibility.

Your Committee finds that the amount of the appropriation to continue Emergency Environmental Workforce services should also be determined as the Legislature further debates this matter.

Accordingly, your Committee has amended this measure as follows:

- (1) By leaving the estimated number of individuals required to be hired unspecified;
- (2) By amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (3) By making technical, nonsubstantive stylistic changes, and amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 713, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 713, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 393 Labor on S.B. No. 667**

The purpose of this measure is to provide additional protection to public employees who report violations of the law and other improper activities such as waste, gross misconduct, incompetence, or inefficiency; and to expand the State Ombudsman’s responsibilities regarding whistleblowers.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. One state agency and one county agency supported the intent of the measure. The Office of the Ombudsman submitted comments on the measure. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that public employees should feel protected from employers’ retaliation if they report government waste, gross misconduct, incompetence, or inefficiency. Your Committee notes the Hawaii Government Employees Association’s testimony that federal and other state legislation provide protections to public and private employees who report actions that are illegal or threaten public health and safety, and that Hawaii’s legislation should provide similarly strong protections.

Your Committee notes the State Ombudsman’s recommendation that prescribing the posting of notices, referenced in sections 3 and 4 of the measure, is a responsibility more appropriate for the Department of Labor and Industrial Relations.

Your Committee also notes the State Ombudsman’s concern that section 4 of the measure, which requires the Ombudsman to inform a complainant of the complainant’s rights under the law, is inconsistent with the Ombudsman’s role as an impartial third party that should neither side with the complainant or any governmental agency in an investigation nor provide legal advice.

Your Committee shares the concern expressed by the City and County of Honolulu's Department of Human Resources regarding the broad and vague categories of complaints for which public employees would be protected for reporting violations. These categories include "economically wasteful", "gross misconduct", "incompetence", and "inefficiency". Your Committee believes that these terms should be better defined as the Legislature further debates this matter.

Your Committee agrees with the State Ombudsman's recommendation to remove paragraph 7 in section 5 of the measure, as paragraph 1 already lists administrative acts that are contrary to law as an appropriate subject for investigation.

Your Committee has accordingly amended this measure as follows:

- (1) By replacing the references to the State Ombudsman with the Department of Labor and Industrial Relations in sections 3 and 4 of the measure, which relate to the posting of notices and informing the complainant of the complainant's rights under the law;
- (2) By deleting paragraph 7 in section 5 of the measure, which would have added a violation of the proposed new section as an appropriate subject for investigation by the Ombudsman;
- (3) By amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (4) By amending this measure to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 667, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 394 Economic Development and Technology on S.B. No. 772**

The purpose of this measure is to require the Legislative Reference Bureau to conduct diagnostic assessment of the State's economy.

Comments on this measure were submitted by the Department of Business, Economic Development, and Tourism and the Legislative Reference Bureau. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that due to the seriousness of the current economic conditions facing our State, a diagnostic assessment of the State's economy by outside experts will enable state government and business industry leaders to formulate a strategy for the State to respond in the most successful manner. Your Committee also finds that a diagnostic assessment of the state economy will not only help the State in overcoming the current economic challenges but will also provide insight into how the State of Hawaii can participate in new emerging industries and participate in the global economy.

Your Committee has amended this measure by:

- (1) Deleting the amount of the appropriation that was to be expended by the Legislative Reference Bureau in order to contract with outside experts to conduct the diagnostic assessment of the state economy; and
- (2) Changing the effective to July 1, 2050, to promote further discussion on the scope and feasibility of the economic diagnostic assessment.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 772, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 395 Economic Development and Technology on S.B. No. 1247**

The purpose of this measure is to require the Department of Taxation to evaluate certain tax credits and tax exemptions and to report their recommendations to the Legislature. This measure also requires the Legislature to implement the Department of Taxation's recommendations prior to the sunset date for each tax credit and tax exemption that is evaluated.

Testimony in support of this measure was submitted by Department of Taxation, Department of Business, Economic Development and Tourism, Hawaii Government Employees Association, Hawaii Science and Technology Council, Honolulu Film Office, Hawaii Film and Entertainment Board, IATSE, Local 665, and Screen Actors Guild Hawaii. Testimony in opposition of this measure was submitted by Hawaii Housing Finance and Development Corporation, Hawaiian Telcom, Chamber of Commerce of Hawaii, Hawaii Association of Realtors, Housing Hawaii, Hawaii Pacific Health, and EAH Housing. Comments on this measure were submitted by Hawaii Bioenergy. Copies of written testimony presented to your Committee are available for review on the Legislature's website.

Your Committee finds that the evaluation requirements in this measure for the Department of Taxation, with the assistance of the Department of Business, Economic Development, and Tourism, and the subsequent reporting of recommendations to the Legislature, comprise the first comprehensive review on the usage and fiscal impacts of various tax credits and tax exemptions since the 2001-2003 and 2005-2007 Tax Review Commissions encouraged the Legislature to undertake a thorough evaluation of the costs and benefits of various credits and exemptions to determine whether they were fulfilling the purpose for which they had been adopted.

In recent years, the Legislature has been troubled by the lack of comprehensive data on various tax credits and tax exemptions being compiled by the Department of Taxation and submitted to the Legislature. For example, the Department's last complete report on usage of tax credits was in 2005. During the seven years since the enactment of Act 221, Session Laws of Hawaii, 2001, Department of Taxation has made many complaints about Act 221, but has never adopted administrative rules to address the range of abuses that

the Department asserts are commonplace among users of the tax credit. Instead, it has relied on periodic Tax Information Releases (TIR) that provide only partial guidance to potential Act 221 investors and companies as to the behavior that is permitted and that which is not. Some taxpayers have noted that the Department's responses to inquiries about the appropriate interpretation of its TIR's are not always timely nor are they complete.

In 2007, the Legislature adopted Act 206 to require the Department of Taxation to compile data to evaluate the usage, costs and benefits of Act 221's High Technology Business Investment Tax Credit, so that a proper evaluation of the actual costs and benefits associated with the tax incentives could be undertaken. That evaluation would also ensure that the tax incentives met their intended objectives. Department of Taxation worked closely with representatives of tech industry, Act 221 businesses and Department of Business, Economic Development, and Tourism to develop a new form to report on the economic benefits (e.g., jobs created, investments made, etc.) under the new law.

The Department of Taxation published two recent reports on Act 221 credits, one dated September 2008 and the other dated December 2008. However, the two reports have not fulfilled the needs of the Legislature, which was to obtain a clear picture of whether the manner in which Act 221 credits are awarded, administered and reported on is done in a manner to establish a strong sense of trust that the public is getting "good value" for the loss of tax revenues. In particular, the December 2008 report contains analyses that do not provide a fair and accurate comparison of the costs and benefits of Act 221 since its date of enactment. Specifically, the December 2008 report compares one year of benefits reported by new applicants for the tax credit in 2007, but evaluates the reported benefits against costs attributable to all users of Act 221 credits for the past six years.

In the absence of sufficient data with which to make a thorough evaluation of the costs and benefits of credits and exemptions, your Committee proposes a framework in this measure to evaluate all existing credits and exemptions over an initial five-year period, coupled with automatic sunset dates that could be accepted or extended by the Legislature pursuant to a recommendation from the Department of Taxation, based on its review and compilation of relevant data. Those tax credits with statutory sunset dates would be evaluated and reported on during the year prior to the sunset of the credit.

During the hearing on the measure, several users of existing credits strongly objected to the automatic sunset dates in the measure, which would adversely impact their operations – e.g., affordable housing agencies and advocates, a health care provider, and a telecommunications provider. While sympathetic to the concerns raised by testifiers, particularly involving "social incentives" like affordable housing and hospitals, your Committee believes that the bill's framework for comprehensive evaluation of credits and exemptions should be advanced to give the Senate Committee on Ways and Means the opportunity to review the fiscal impact and economic benefits of all credits and exemptions in conjunction with specific sunset dates.

To relieve some of the concerns of industry testifiers, your Committee proposes to move those tax credits or exemptions whose sunsets were strongly opposed to the group of incentives with the last sunset date. Your Committee further offers the following overview on usage of these specific credits and exemptions:

- (1) Renewable energy technologies tax credit, Section 235-12.5, Hawaii Revised Statutes, in 2005, Department of Taxation reported revenue losses of \$2,615,387, whereas in 2006, the department reported revenue losses of \$6.18 million. The cost and benefits of this credit has also been carefully evaluated in the *Report of the Energy-Efficiency Policy Task Force, January 2002*. As such, your Committee believes that the level of data and analysis for this credit serves as a useful model of the type of fiscal and economic impacts review that is required for legislative oversight and review.
- (2) General excise tax exemption granted to qualifying hospitals, Section 237-23(6), Hawaii Revised Statutes, in response to the committee's inquiry, Department of Taxation reported that the amount of qualifying income that tax-exempt hospitals exclude from taxation is not captured by the Department. It referenced Appendix H of the *Report of the 2005-2007 Tax Review Commission*, which examined the impact of eliminating the tax-exempt status granted to a broader category of non-profit organizations.

The Tax Review Commission's report identified a revenue loss of \$225.2 million for 2005, and hypothesized that, since hospitals represented 31% of that total, approximately \$69.7 million would be attributable to elimination of the tax exemption granted to qualifying hospitals. In its testimony, Hawaii Pacific Health pointed to the adverse impact that repeal of the tax exemption granted to qualifying hospitals would have on its operations, citing a deficit of 20-21% on all Medicaid and QUEST reimbursements paid by the State of Hawaii to Hawaii hospitals, as well as the chilling effect that loss of the exemption would have on a hospital's credit rating and ability to obtain financing at reasonable cost.

- (3) Low-Income Housing Tax Credit, section 235-110.8, Hawaii Revised Statutes; general excise tax exemptions for certified housing projects, section 237-29, Hawaii Revised Statutes; and low-income housing tax credits used by banks and financial institutions, section 241-4.7, Hawaii Revised Statutes, Department of Taxation reported usage of low-income housing tax credit resulted in a \$5.4 million revenue loss in 2005, with claims by financial institutions using section 241-4.7, Hawaii Revised Statutes, were an additional \$2.4 million in revenue losses.

In response to your Committee's inquiry, Hawaii Housing Finance Development Corporation and Department of Taxation reported the following awards for low-income housing: projects with a total of 364 housing units obtained \$2,121,595 in credits in 2006, projects with a total of 961 units obtained \$3,750,430 in credits in 2007, and projects with a total of 595 units obtained \$4,311,789 in credits in 2008. Accordingly, among the projects awarded low-income housing tax credits from the state's annual volume cap, and those awarded low-income housing tax credits in addition to the state's annual volume cap yielded projects with a total of 1,456 units, with a revenue loss of \$6,268,851.

- (4) Capital goods excise tax credit, section 235-110.7, Hawaii Revised Statutes, as reported by Department of Taxation, the capital goods tax credit is a refundable credit for purchases of eligible depreciable tangible personal property used in a trade or business in Hawaii. In 2005, \$23.5 million was claimed, while a total of \$34,334,925 was claimed by businesses in 2006.
- (5) General excise tax exemption for services to related entities, section 237-23.5, Hawaii Revised Statutes,: Department of Taxation reported that this data is not available because the Department does not capture this information; the Department

referenced Appendix H of the *Report of the 2005-2007 Tax Review Commission* in reporting that usage of the exemption resulted in an \$11 million revenue loss for 2005.

- (6) Lifeline tax credit, section 239-6.5, Hawaii Revised Statutes, Department of Taxation reported that \$163,672 in credits was claimed for 2006; no data was furnished by the department for 2005.

As your Committee sought information on the economic impacts or benefits accruing from use of various tax credits and exemptions, it became obvious that Department of Taxation could not compile this information unless it relied upon the Department of Business, Economic Development and Tourism's Research Division for assistance in developing the appropriate economic models for an evaluation of the economic benefits. For example, Department of Business, Economic Development, and Tourism objected to the automatic sunset of the renewable energy technologies tax credit because the department had undertaken a specific cost-benefit analysis for the renewable energy technologies. See *Report of the Energy-Efficiency Policy Task Force, January 2002*. <http://www.state.hi.us/dbedt/ert/symposium/preface.html>. Similarly, your Committee acknowledges the State of New Mexico's January 2009 study entitled *Economic and Fiscal Impacts of the New Mexico Film Production Tax Credit* as a useful example of the type of concise economic impacts reports sought by the Legislature. <http://www.nmfilm.com/locals/downloads/nmfilmCreditImpactAnalysis.pdf>

Accordingly, your Committee proposes to establish parameters for Department of Taxation's reporting on fiscal impacts (e.g., costs) of tax credits or exemptions, and parameters for Department of Business, Economic Development and Tourism's reporting on economic impacts (e.g., benefits) of tax credits or exemptions for each of the credits and exemptions outlined within this measure to insure that the Legislature has data reflecting the dynamic impacts of each tax credit and tax exemption that is studied or evaluated

It is the intent of your Committee to require the Department of Taxation to evaluate and report recommendations to the Legislature for certain tax credits and tax exemptions under chapters 209E, 235, 237, 239, 241, and 244D, Hawaii Revised Statutes, and require the Legislature to implement those recommendations prior to the sunset date for each tax credit and tax exemption that is evaluated. To address the issue of lack of access to pertinent tax data that is timely, comprehensive, and accurate, the Legislature will require the Department of Taxation to post all usage data on tax credits and tax exemptions on the Department of Taxation's website with an explanation of the Department's methodology used to calculate revenue losses and other fiscal impacts.

Your Committee has amended this measure by:

- (1) Requiring the Department of Business, Economic Development, and Tourism to provide dynamic economic impact statements to the Department of Taxation for each tax credit and tax exemption identified in this measure;
- (2) Moving the potential repeal for certain tax credits and tax exemptions to a later date;
- (3) Clarifying that potential repeal of the tax credits under sections 235-110.8 and 241-4.7, Hawaii Revised Statutes, and the tax exemption under section 237-29, Hawaii Revised Statutes, shall not apply to those projects approved before January 1, 2014; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1247, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 396 Economic Development and Technology on S.B. No. 786**

The purpose of this measure is to create the criminal offense of criminal trespass on historic places and the criminal offense of criminal property damage to historic sites.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, the Office of Hawaiian Affairs, the Historic Hawaii Foundation, and two concerned individuals. Testimony in opposition of this measure was submitted by one concerned individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee appreciates that the Hawaii Register of Historic Places is the official listing of cultural resources that are recognized as significant to Hawaii's history, architecture, engineering, and culture. The list of buildings, sites, objects, districts, and structures give a sense of place and identity to those who live in the islands, as well as impart to visitors a tangible reminder of the State's complex and rich history that contributes to the collective heritage of residents.

Your Committee finds that, given the importance of the sites recognized on the Hawaii Register of Historic Places, it is appropriate that those places be treated with special care, dignity, and respect.

Upon further consideration, your Committee acknowledges that the criminal trespass provisions proposed by this measure should be classified as a misdemeanor, rather than a felony. Furthermore, rather than providing for the proposed crimes in new sections of the Hawaii Revised Statutes, these crimes may be appropriately incorporated in the existing crimes of criminal trespass in the first degree and criminal property damage in the first degree.

Accordingly, your Committee has amended this measure by deleting its contents and inserting provisions to:

- (1) Make the entering or remaining unlawfully on property listed in the Hawaii Register of Historic Places after warning or request to leave, an offense of criminal trespass in the first degree, a misdemeanor; and
- (2) Make the intentional or knowing damage to property on the Hawaii Register of Historic Places an offense of criminal property damage in the first degree, a class B felony.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 786, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 786, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 397 Economic Development and Technology on S.B. No. 1005**

The purpose of this measure is to establish a property right in the commercial use of a person's name, voice, signature, photograph, or likeness.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, Genoa Keawe Records, and Kanikapila Records. Testimony in opposition of this measure was submitted by Cord International and one concerned individual. Comments on this measure were submitted by Tantalus Records and one concerned individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that protecting an individual or personality's publicity rights is imperative for writers, composers, and recording artists in Hawaii. These persons deserve to have confidence that the laws of Hawaii protect the commercial value of their name, voice, signature, photograph, or likeness.

Your Committee also finds that this measure tempers the exploitation of the names, signatures, voices, and photographs of a deceased individual or personality without any compensation to their heirs.

This measure is based upon the well-regarded publicity rights statute for the State of Washington that reflects years of experience in fine tuning various rights, remedies, and exceptions.

Your Committee has amended this measure by:

- (1) Clarifying in the purpose section that this measure does not interfere with existing copyright laws for sound recordings;
- (2) Revising the purpose section of the measure to ensure that a property right is being protected;
- (3) Decreasing the period of protection of an individual's publicity rights after their death from 70 years to 20 years;
- (4) Changing the effective date to July 1, 2050, to promote further discussion on this measure; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1005, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1005, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 398 Economic Development and Technology on S.B. No. 1609**

The purpose of this measure is to establish the criminal offense of communication service fraud in the first and second degrees.

This measure also provides the aggrieved communication service provider with civil remedies, including but not limited to the offender forfeiting any unlawful communication or access device or materials to the aggrieved communication service provider.

Testimony in support of this measure was submitted by Hawaiian Telcom and Time Warner Cable. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the laws regarding communication service fraud have not kept pace with the changing technology in the field. Your Committee finds that establishing the offenses of communication service fraud in the first and second degrees will provide the authorities with statutes that will adequately protect the property rights of communication service providers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1609, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1609, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 399 Energy and Environment on S.B. No. 485**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for the purpose of assisting Carbon Diversion Inc., or a partnership in which Carbon Diversion Inc. is a general partner, for the establishment of a cogeneration facility and related energy production facilities.

Testimony in support of this measure was submitted by two state organizations and three private businesses. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Carbon Diversion Inc., is a local company that was incorporated in Hawaii in 2004. The company has developed a full-scale hybrid gasification carbonization process at Campbell Industrial Park in Kapolei which can reduce various organic feedstock and tires (non-fossil fuel) into carbon products and synthetic gas that complies with the Environmental Protection Agency's air emission standards.

Your Committee has amended this measure by incorporating the recommendations of Carbon Diversion Inc., to clarify the description of the process by which the company produces electric energy from nonfossil fuel feedstock.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 485, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 400 Energy and Environment on S.B. No. 1259**

The purpose of this measure is to exclude bona fide prospective purchasers and owners of contiguous properties who meet certain conditions from liability under the environmental response law.

Specifically, this measure shields certain persons from liability under section 128D-6, Hawaii Revised Statutes, for owning real property that is or may become contaminated, solely by reason of such contamination or threatened contamination, subject to certain conditions.

Testimony in opposition to this measure was submitted by the Department of Health and one private organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

The Department of Health submitted testimony expressing concern over the measure as drafted, preferring S.B. No. 935 as it is more closely aligned with federal law. The Department of Health specifically requested that the contents of this measure be replaced with the contents of S.B. No. 935, along with certain amendments to S.B. No. 935 for clarity and conformity to federal law.

Your Committee finds that, it is important to provide consistency between the state and federal law regarding the liability of bona fide prospective purchasers and contiguous property owners of contaminated land, and the contents of S.B. No. 935, as amended by the language suggested by the Department of Health, is perhaps the better vehicle to do so.

Your Committee has amended this measure by deleting its contents and inserting language from S.B. No. 935, as amended by the revisions suggested by the Department of Health. This measure, as amended, provides consistency between federal and state environmental liability laws in setting forth the conditions and circumstances under which an innocent contiguous property owner or a "bona fide prospective purchaser" shall not be held liable for damages and costs related to the contamination of real property not owned or operated by the property owner or purchaser.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1259, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Hooser, Kokubun).

**SCRep. 401 Energy and Environment on S.B. No. 390**

The purpose of this measure is to clarify provisions of Act 204, Session Laws of Hawaii 2008, which mandated the installation of solar water heater systems for single-family dwellings and limit to an absolute minimum the circumstances by which a fossil fuel fired water heater of any type may be substituted.

Specifically, this measure accomplishes the following:

- (1) Directs the Public Benefits Fee Administrator, rather than the Energy Resources Coordinator, to handle variance applications from the mandatory solar water heating system provisions;
- (2) Requires that the attestation in the mandatory solar water heating system variance application be submitted by a mechanical engineer;
- (3) Deletes the provision allowing substitution of gas-tankless appliances for solar water heating systems;
- (4) Requires the Public Benefits Fee Administrator to make public all applications for variances and the disposition of all applications for variances;
- (5) Reduces the amount of the tax credit for wind-powered energy systems or photovoltaic energy systems if such systems are used to fulfill the substitute renewable energy requirement for solar water heating systems;
- (6) Directs the Public Utilities Commission to harmonize its standards for solar water heating systems with those adopted by the Public Benefits Fee Administrator; and
- (7) Directs the Public Benefits Fee Administrator to use demand side management surcharges to conduct post-installation verification inspections.

Testimony in support of the measure was submitted by one private organization. Testimony in support of the intent of the measure, with comments or concerns, was submitted by two state departments and three private organizations. Testimony in opposition to the

measure was submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure clarifies and builds upon the accomplishments of Act 204, Session Laws of Hawaii 2008. The transfer of some of the responsibilities under the solar mandate to the Public Benefits Fee Administrator allows the State to take advantage of the Administrator's up-to-date understanding of solar technology and the basis for granting or denying waivers and for performing post-installation verification inspections. However, your Committee also finds that deleting the gas-tankless substitution option limits consumers' choices in seeking energy efficient alternative solutions. Further, your Committee finds that several provisions of this measure are better incorporated into other measures under consideration by the Legislature.

Your Committee has amended this measure by:

- (1) Deleting its purpose clause;
- (2) Deleting provisions that would have repealed the existing gas-tankless substitution option as an alternative to the solar water heater system requirement;
- (3) Specifically directing the Public Benefits Fee Administrator to perform post-installation verification inspections;
- (4) Deleting the provisions regarding tax credits, as these provisions have been incorporated into S.B. No. 1173;
- (5) Deleting the provisions directing the Public Utilities Commission to harmonize its standards for solar water heating systems with those adopted by the Public Benefits Fee Administrator, as the responsibilities for instituting standards are within the purview of the Public Benefits Fee Administrator;
- (6) Changing its effective date from January 1, 2009, to July 1, 2009; and
- (7) Making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 390, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 402 (Majority) Energy and Environment on S.B. No. 1633**

The purpose of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds in an amount not to exceed \$20,000,000 for the purpose of assisting EPOD, Inc. with the planning, design, construction, equipping, and operating of a solar farm power plant on the island of Oahu.

Your Committee received testimony in support of this measure from three private organizations. Your Committee received testimony with comments from the Department of Budget and Finance. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is in the best interest of the State to develop a greater generating capacity for solar-generated electricity, which is a clean energy technology from a renewable and abundant resource, the sun. Your Committee further finds that the incorporation of EPOD Solar Hawaii, Inc., a subsidiary of EPOD Solar, Inc., in the State will serve the best interests of the State by generating new tax revenue. Your Committee finds that the issuance of special purpose revenue bonds under this measure will help Hawaii achieve its clean energy goals and reduce dependence on foreign oil.

Your Committee has amended this measure by:

- (1) Providing that in addition to a solar power farm, EPOD Solar Hawaii, Inc. intends to use the funding provided to construct a solar panel manufacturing plant;
- (2) Providing that in addition to the island of Oahu, EPOD Solar Hawaii, Inc. may construct the proposed projects on various islands throughout the State of Hawaii;
- (3) Clarifying that EPOD Solar Hawaii, Inc. will incorporate in the State of Hawaii by February 27, 2009; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1633, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1633, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 3 (Green, Hooser, Kokubun). Noes, 1 (English). Excused, 1 (Ihara).

**SCRep. 403 (Joint/Majority) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.B. No. 1612**

The purpose of this measure is to establish a comprehensive approach to increasing the use of alternative fuel vehicles in the State, including state procurement of alternative fuel vehicles, tax incentives, and infrastructure requirements.

Testimony in support of the measure was submitted by one private organization. Testimony in support, with suggested amendments and comments, was submitted by one state department and four private organizations. Testimony supporting the intent of the measure, but with concerns, was submitted by two state departments. Testimony in opposition to the measure was submitted by one state

department and one private organization. Comments were submitted by three private organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

The Department of Transportation submitted testimony addressing the effect that the tax and fee exemptions and waivers in this measure would have on the State Highway Fund revenues. Given the Department of Transportation's current and projected financial situations, the Department of Transportation has been concerned about keeping up with the project schedules for critical roadway infrastructure improvements. To address these concerns, the Department of Transportation has offered an amendment to the measure, authorizing it to set up certain programs, which are contingent upon the economy improving.

Your Committees find that this measure contains a comprehensive framework to encourage the development of electric and alternative fuel cars in Hawaii. Nonetheless, your Committees find that this measure's impact on the already-strained budget of the Department of Transportation is problematic. Your Committees further find that, with the economic downturn affecting the state budget, it is incumbent upon the legislature to make tough choices.

Your Committees have amended this measure by deleting the contents of the measure and replacing it with language suggested by the Department of Transportation, establishing a Land Transportation Modernization Special Fund, to be administered by the Department of Transportation. Moneys deposited in the Land Transportation Modernization special Fund would be used for the purpose of rectifying critical deficiencies by pursuing programs and projects of the Department of Transportation that have the greatest potential to improve performance categories relating to safety, congestion, system preservation, and other programs and initiatives.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1612, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1612, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.

Ayes, 4. Noes, 2 (Hemmings, Slom). Excused, 4 (Hooser, Ihara, Kokubun, Nishihara).

**SCRep. 404 Human Services on S.B. No. 133**

The purpose of this measure is to require the Public Utilities Commission to implement a program to achieve lifeline electricity rates for qualified residential electricity customers.

Testimony in support of this measure was submitted by the Hawaii COPD Coalition and two public citizens. The Public Utilities Commission, the Department of Commerce and Consumer Affairs, and Hawaiian Electric Company, Inc., support the intent of the measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that several medical conditions require devices which require electricity to operate. Many of these conditions are progressive, and individuals may require the use of devices to help them breath while they sleep. One person testified that their electricity bill increased four hundred dollars for the first month of using an oxygen concentrator. Without lifeline electricity rates, many patients may find that required medical devices are cost-prohibitive to operate.

Your Committee has amended this measure by:

- (1) Deleting the specified qualifications for lifeline electricity rates;
- (2) Requiring the Public Utilities Commission to develop the qualifications for lifeline electricity rates; and
- (3) Making technical, nonsubstantive changes for style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 133, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, none.

**SCRep. 405 Human Services on S.B. No. 912**

The purpose of this measure is to amend chapter 587, Hawaii Revised Statutes, relating to the Child Protective Act, to ensure compliance with federal Title IV-E permanency hearing requirements.

Testimony in support of this measure was submitted by the Department of Human Services. Testimony in opposition was submitted by the State Judiciary. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that chapter 587, Hawaii Revised Statutes, relating to the Child Protective Act, does not specifically address the federal requirement for permanency hearings at twelve month intervals to determine the permanency plan for a child in accordance with federal law. The Department of Human Services has been informed by the federal government that Hawaii's State Plan will not be approved and the State will be restricted from obtaining federal Title IV-E funds if the requisite statutory changes are not implemented. The Department of Human Services receives over fifty million dollars in Title IV-E federal funds for foster board, treatment, services, staffing, and administrative costs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 912, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 406 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 572**

The purpose of this measure is to assist condominium associations by increasing the amount of unpaid common assessments that an association may collect against the subsequent owner of a foreclosed property and allowing an association to offer assistance to a handicapped or disabled tenant who is having difficulty living independently.

Your Committees received testimony in support of this measure from Hawaii Council of Associations of Apartment Owners and Hawaii Independent Condominium & Cooperative Owners. Testimony in opposition to this measure was received from Hawaii Bankers Association. Testimony with comments was received from Hawaii Financial Services Association and the Disability and Communications Access Board. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that mortgage foreclosures impact condominium and apartment owners associations when the owner of a foreclosed property fails to pay association maintenance fees. The association continues to be responsible for the upkeep and maintenance of the common areas and provision of common benefits such as water, electricity, and maintenance staff of the property regardless of whether it receives all of the fees that are due to it. Your Committees find that the maximum amount that an association can assess under the current law is insufficient to cover the actual maintenance costs incurred.

Your Committees further find that associations and their members should be supported in their good faith efforts to assist fellow residents who have difficulty living independently. The current law protects associations from liability for good faith efforts to assist elderly residents who may be in need of assessment or social services in order to maintain independent living and avoid harm to self or others. This measure allows associations to offer the same assistance to disabled residents.

Your Committees have amended this measure by:

- (1) Removing references to "handicapped" persons and adding a definition of "disabled" that conforms with the definition found in the Fair Housing Act;
- (2) Including elderly or disabled non-owner residents in the class of persons who may be assisted by an association and further defining the circumstances under which such assistance may be provided;
- (3) Allowing functional assessments and recommendations for elderly or disabled residents to be provided by appropriate state or county agencies upon request and as appropriate; and
- (4) Making nonsubstantive, technical changes for the purpose of clarity and accuracy of language.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 572, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 572, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Espero).

**SCRep. 407 (Joint) Labor and Human Services on S.B. No. 905**

The purpose of this measure is to transfer the Office of Community Services (OCS) from the Department of Labor and Industrial Relations to the Department of Human Services.

Testimony in support of this measure was submitted by three state agencies. Testimony in opposition to this measure was submitted by one organization. Comments were submitted by two organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the Office of Community Services was originally created to consolidate programs that promoted economic and personal self-sufficiency. Initially, the focus of OCS was on programs that trained and prepared people for employment, which made OCS appropriately attached to the Department of Labor and Industrial Relations.

Your Committees find that over time, OCS developed programs linked to the Employment Core Services, which programs serve low-income, immigrant, and refugee populations. According to OCS, the number of people served by the Employment Core Services in fiscal year 2008 was slightly over 1,900 individuals, while the number of people served by other programs in OCS was over 25,000.

Your Committees find that the transfer of OCS administratively to the Department of Human Services would be appropriate given OCS's current focus. Your Committees further find that the transfer would streamline governmental operations and better provide low-income people, disadvantaged people, refugees, immigrants, and homeless people with the tools to attain self-sufficiency, such as employment and job training, child care, and general assistance.

Your Committees note the following comments of Catholic Charities Hawaii and the Inter-Agency Council for Immigrant and Refugee Services and recommends that these concerns be addressed as the Legislature further debates this measure:

- (1) The transfer should not affect the ability of OCS to maintain efficient and timely payment to service providers;
- (2) The transfer should not result in any cuts to immigrant program funding or attempts to have services for immigrants consolidated into programs for low-income persons;
- (3) The concept of self-sufficiency should continue to include job creation as well as regular employment programs; and
- (4) OCS's milestone payment system should be operated according to realistic milestone objectives.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 905, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 905, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 3 (Ihara, Taniguchi, Slom).

**SCRep. 408 (Joint) Health and Commerce and Consumer Protection on S.B. No. 415**

The purpose of this measure is to protect consumers of home care services by:

- (1) Requiring home care agencies to be licensed by the Department of Health; and
- (2) Appropriating funds for a position in the Department of Health to assist with licensure and monitoring of home care agencies.

Your Committees received testimony in support of this measure from The Chamber of Commerce of Hawaii, the International Longshore and Warehouse Union Local 142, and AARP Hawaii. Testimony in opposition of this measure was submitted by the Department of Health and the Department of Human Services. Comments on this measure were submitted by the City and County of Honolulu.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that it is necessary to license home care agencies to ensure the public that minimum standards are being met by home care staff who provide personal care services in the homes of clients. Your Committees further find that an important part of licensure is the requirement that criminal background checks be conducted.

Your Committees have amended this measure by:

- (1) Providing time for the Department of Health to establish licensing procedures by requiring licensure of each home care agency by July 1, 2010;
- (2) Exempting service provider agencies that are under contract for services with the City and County of Honolulu Elderly Affairs Division from the licensure requirement; and
- (3) Removing the appropriation.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 415, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 415, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Nishihara, Sakamoto).

**SCRep. 409 Health on S.B. No. 192**

The purpose of this measure is to promote full inclusion, independence, equal access, and quality of life for persons with hearing disabilities by requiring private health insurers to cover the cost of hearing aids.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Kaiser Permanente, American Family Life Assurance Company of Columbus, and Hawaii Centers for Independent Living. Testimony in opposition to this measure was submitted by Hawaii Association of Health Plans. Comments on this measure were submitted by the Department of Commerce and Consumer Affairs and Hawaii Medical Service Association.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that hearing aid devices are necessary for the health and safety of individuals with hearing disabilities who require them for daily living. Your Committee further finds that the actual benefit provided for hearing aid devices should be particularized in insurance policies.

Your Committee has amended this measure by excluding limited benefit policies such as accident-only, specified disease, hospital indemnity, medicare supplement, long-term care, dental, vision, or other limited benefit health insurance policies from the requirement that private health insurers cover the cost of hearing aids.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 192, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 410 Commerce and Consumer Protection on S.B. No. 1606**

The purpose of this measure is to require all entities engaged in business in the State as a real estate appraisal management company to register with the Real Estate Commission and to abide by standards for management, quality control, ethical behavior, and fair employment practices.

Your Committee heard testimony in support of this measure from the Real Estate Commission and the Hawaii Chapter of the Appraisal Institute. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that appraisal management companies perform many important functions including appraisal review, quality control, market value dispute resolution, warranty administration, and record retention. Because of the importance of these functions and the rapid growth of the appraisal management industry in recent years, it is important that appraisal management companies be held to high standards of professionalism and ethical behavior.

Your Committee notes that, pursuant to section 26H-6, Hawaii Revised Statutes, new regulatory measures that "would subject unregulated professions and vocations to licensing or other regulatory controls shall be referred to the auditor for analysis" of the new regulatory scheme and potential alternatives. Your Committee recognizes the need to advance this measure to the Committee on Judiciary and Government Operations for further consideration before the drafting of the required resolution. Your Committee further recognizes that this issue should be considered as thoroughly as possible so that the Auditor may conduct the best possible sunrise study and make the most appropriate recommendations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, Your Committee is in accord with the intent and purpose of S.B. No. 1606 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 411 (Joint/Majority) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.B. No. 719**

The purpose of this measure is to establish a surcharge on vehicle net weight to be assessed on sales of passenger cars and pickup trucks, and to establish a clean fuel special fund into which the surcharge is deposited.

Your Committees received testimony in support of this measure from one state department and two organizations. Testimony in opposition was received from two organizations. Comments were received from one state department and one organization. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that paying less and avoiding having to pay any liquid fuel tax is often viewed as a factor that encourages motorists to purchase or use more fuel-efficient motor vehicles or motor vehicles that use alternative sustainable fuel sources. The liquid fuel tax, however, is the primary means of funding the infrastructure improvements needed to support motor vehicular travel, regardless of fuel type. As the use of fuel efficient and alternative energy vehicles becomes more prevalent, less gas will be consumed and liquid fuel tax collections will correspondingly diminish. The current method of assessing the motor vehicle liquid fuel tax on a per gallon basis will become increasingly ineffective at generating a stable revenue source to fund the land transportation infrastructure program. The number of miles each vehicle travels is a better gauge of its actual use and associated impact on the land transportation infrastructure.

Upon further consideration, your Committees have amended this measure by deleting its contents and inserting provisions to establish a vehicle miles traveled pilot program to explore the possibility of collecting user fees from users of highways.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 719, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 719, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.  
Ayes, 4. Noes, 2 (Hemmings, Slom). Excused, 4 (Hooser, Ihara, Kokubun, Nishihara).

**SCRep. 412 Economic Development and Technology on S.B. No. 294**

The purpose of this measure is to clarify that the Department of Business, Economic Development, and Tourism may make recommendations to the state departments rather than to agencies.

Specifically, the measure clarifies that the Department of Business, Economic Development, and Tourism may submit written recommendations to "state departments," rather than to "agencies."

Your Committee received comments from the Department of Business, Economic Development, and Tourism. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has amended this measure by:

- (1) Making the recommendations of the Department of Business, Economic Development, and Tourism, subject to legislative review; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 294, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 413 Economic Development and Technology on S.B. No. 972**

The purpose of this measure is to ensure that cash-based businesses operating in Hawaii are paying their proper share of taxes by providing the Department of Taxation with resources to seek enforcement against non-compliant businesses.

Testimony in support of this measure was submitted by the Department of Taxation, Subcontractors Association of Hawaii and the Hawaii Government Employee Association. Testimony in opposition to this measure was submitted by Peter Fritz and Ray Kamikawa. Copies of written testimony may be reviewed on the Legislature's website.

Your Committee finds that cash-based businesses account for a substantial sum of money in the marketplace and capturing a small fraction of these amounts would help to off-set the sharp downturn in state tax revenues during 2009.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in a revenue gains to the State of \$11,900,000 in fiscal year 2010, \$35,600,000 in fiscal year 2011, and \$47,400,000 in fiscal year 2012, and every year thereafter. Their methodology is as follows:

- (1) Applying the Hawaii's 0.5% to the IRS's estimate of the "tax gap" of \$345 billion in 2001;
- (2) Assume 50% of the "tax gap" is due to the "cash economy;"
- (3) Assume that the Department is able to collect 0.5% in direct revenue (direct cases being worked on) and 5% in indirect revenue (deterrence effect) from the "cash economy;"
- (4) Assume ability to collect 25% in year 1, 75% year 2, and 100% year 3;
- (5)  $0.5\% \times \$345 \text{ billion} \times 50\% \times 5.5\% = \$47,400,000$ ;
- (6) \$0.5 million goes to tax administration special fund; the remainder goes to general fund.

While your Committee is skeptical that the level of revenue gains projected by Department of Taxation is as high as the Department has estimated, it is unquestioned that this State's dire economic conditions require urgent steps to collect taxes that are due and are presently being avoided.

Your Committee questioned Department of Taxation representatives closely to determine whether less intrusive methods of collecting taxes could be utilized to achieve a fair amount of the outstanding taxes due that have been provided in the department's estimates. Upon further review, your Committee believes that the four immediate actions proposed in this measure will build upon other agencies' existing regulatory framework to help Department of Taxation obtain a much higher level of collections, at lower cost and manpower, than is possible through its overly-zealous approach against small businesses.

Your Committee believes that many of the recommendations offered by testifiers, and developed further with Department of Taxation staff and other interested stakeholders, will yield the desired compliance level of tax collections that the Department seeks.

Your Committee has amended this measure by:

- (1) Coordinating the Department of Commerce and Consumer Affairs on requiring tax clearances for regulated industries;
- (2) Coordinating with federal procurement officers to require tax clearances on federal construction jobs;
- (3) Coordinating with federal immigration and unions on leads to work site compliance with income tax withholding requirements; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 972, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 972, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 414 Economic Development and Technology on S.B. No. 1153**

The purpose of this measure is to amend the permitted uses of land within the agricultural district with soil classifications of A or B to include educational facilities and agricultural appurtenances.

Testimony in support of this measure was submitted by Kamehameha Schools. Testimony in opposition of this measure was submitted by the Department of Agriculture and Hawaii Thousand Friends. Comments on this measure were submitted by the Department of Business, Economic Development and Tourism and the City and County of Honolulu Department of Planning and Permitting. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that enabling a farming operation in an agricultural district with soil classifications of A or B to provide the community and children with an educational opportunity is a tremendous benefit for our society. Your Committee also finds that preserving Hawaii's farming tradition and culture through education in a manner that does not interfere with the surrounding environment is a win-win situation.

Your Committee has amended this measure by:

- (1) Deleting educational facilities as a permitted use of the agricultural land;
- (2) Allowing educational appurtenances of a farming operation to be a permitted use on the agricultural land; and

- (3) Adding agricultural education programs conducted on a farming operation as defined in section 165-2, Hawaii Revised Statutes, for the education and participation of the general public as a permitted use of the agricultural land.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1153, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 415 Human Services on S.B. No. 1668**

The purpose of this measure is to ease the eligibility requirements for benefits under the supplemental nutrition assistance program.

Testimony in support of this measure was submitted by two members of the Kauai County Council, fourteen private organizations, and ten individuals. Testimony in opposition was submitted by the Department of Human Services. Comments were submitted by Legal Aid Society of Hawai'i. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has heard both strong support for this measure and a number of concerns about the provisions of this measure. Your Committee understands that the interested stakeholders have met to discuss alternatives, and have come to some agreement regarding amended language, which your Committee has incorporated as outlined below.

Your Committee has amended this measure by deleting its contents and replacing the contents with language to:

- (1) Amend section 346-52, Hawaii Revised Statutes, to clarify the eligibility requirements for public assistance for aged, blind, disabled, and temporarily incapacitated persons;
- (2) Amend section 346-53, Hawaii Revised Statutes, to delete references to general assistance to households without minor dependents;
- (3) Amend section 346-72, Hawaii Revised Statutes, to clarify that applications for assistance apply to assistance for aged, blind, disabled, and temporarily incapacitated households;
- (4) Repeal section 346-71, Hawaii Revised Statutes, relating to general assistance;
- (5) Authorize the Director of Human Services, with the approval of the Governor, to expend funds for public assistance through the transfer of moneys from other programs under the purview of the Director of Human Services; and
- (6) Amend the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1668, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1668, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 416 (Joint) Health and Human Services on S.B. No. 1679**

The purpose of this measure is to maintain the levels of programs determined to be essential to education, public health, and public welfare during this time of emergency, economic downturn, and unforeseen reduction in revenue that the State currently faces.

The measure attempts to accomplish this goal by appropriating moneys from the emergency and budget reserve fund to the Department of Health, the Department of Human Services, and the Department of Education.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Department of Education, Special Education Advisory Council, Hawaii Primary Care Association, Child and Family Service, National Association of Social Workers, Catholic Charities and nineteen individuals. Testimony in opposition of this measure was submitted by the Department of Budget and Finance.

Written testimony that was provided to the Committees is available for review on the Legislature's website.

Your Committees find that the emergency and budget reserve fund is a temporary supplemental source of funding for the State in times of emergency, economic downturn, or unforeseen reduction in revenues. As set forth in section 328L-3, Hawaii Revised Statutes, specific purposes for the fund include the maintaining of levels of programs determined to be essential to public health, safety, welfare, and education. Your Committees find that various proposals have been made to cut funding for critical safety net programs that your Committee would like to maintain through the emergency budget and reserve fund.

Accordingly, your Committees have amended this measure by including appropriation provisions from the emergency budget and reserve fund for the following programs and services which your Committees find are all essential to public health, safety, welfare, and education, particularly in this time of economic downturn:

- (1) Respite services;
- (2) The Healthy Start program;
- (3) Ke Ola Pono, the Chronic Disease Self-Management program, EnhanceFitness, and for the development of the Aging and Disability Resource Center;

- (4) Kupuna care;
- (5) Catholic Charities, Inc., Kapahulu and Moiliili Senior Centers, and the Waikiki Community Center;
- (6) The Developmental Disabilities Medicaid Waiver Program;
- (7) Mental health services;
- (8) The Partnerships in Community Living program;
- (9) Direct health care to the uninsured, which may include primary medical, dental, and behavioral health care;
- (10) Substance abuse treatment; and
- (11) The Healthy Aging Partnership program.

Your Committees have further amended this measure by deleting specific appropriation amounts. For fiscal guidance purposes, program appropriation amount requests are listed below. However, your Committees find that these critical safety net programs and services are funded at base levels. Though your Committees would consider funding from the emergency budget to maintain these critical services, your Committees will be exploring federal and alternative funding sources to maintain these programs.

(1) Respite services	\$500,000
(2) The Healthy Start program	\$9,000,000
(3) Ke Ola Pono, the Chronic Disease Self-Management program, EnhanceFitness, and for the development of the Aging and Disability Resource Center	\$250,000
(4) Kupuna care	\$1,025,000
(5) Catholic Charities, Inc.	\$337,000
Kapahulu Senior Center	\$100,000
Moiliili Senior Center	\$125,000
Waikiki Community Center	\$120,000
(6) The Developmental Disabilities Medicaid Waiver Program	\$7,000,000
(7) Mental health services (short fall)	\$25,000,000
(8) The Partnerships in Community Living program	\$500,000
(9) Direct health care to the uninsured	\$3,500,000
(10) Substance abuse treatment	\$1,500,00
(11) The Healthy Aging Partnership program	\$250,000

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1679, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1679, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Green, Nishihara).

**SCRep. 417 Health on S.B. No. 933**

The purpose of this measure is to allow for the temporary licensure of dentists who are employed by or under contract to the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health and Board of Dental Examiners. Testimony in opposition was received from the Hawaii Dental Association and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the recruitment of dentists to work for the Department of Health is generally limited to individuals who maintain active licenses in Hawaii to practice dentistry. This measure allows for an expansion of the potential pool to include dentists who hold a temporary license.

Your Committee further finds that the employment of temporarily licensed dentists by the Department of Health is necessary to address the critical shortage of dentists in areas of the State largely remote and rural, particularly on the neighbor islands and other disadvantaged communities. This measure also serves to expand the number of dentists who serve persons with disabilities, with mental illness, and the aging population.

Your Committee has amended this measure on the recommendation of the Hawaii Dental Association to:

- (1) Clarify that the Board of Dental Examiners may issue a community service license to practice dentistry while the person is in the employment of the Department of Health;
- (2) Clarify that the Board of Dental Examiners may issue a temporary license to practice dentistry while the person is contracted by the Department of Health to conduct dental education and training; and

- (3) Deleting the provision in current law that provides for temporary dental licensure of dentists who serve Hansen's disease sufferers, as being unnecessary for purposes of the amended measure.

Your Committee notes that, for purposes of the title of this measure, the community service license is a different sort of dental license than the temporary dental license, however the community service license is essentially temporary in nature since it is renewable biennially and authorizes practice under restricted time limits.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 933, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 418 Health on S.B. No. 130**

The purpose of this measure is to encourage individuals to implement life-saving procedures during medical emergencies involving controlled substances.

Specifically, this measure provides limited immunity from criminal drug possession charges and asset forfeiture for persons experiencing a drug overdose or who summon assistance for another person experiencing a drug overdose, when a person calls for medical assistance during a drug overdose emergency. The measure further provides that the immunity shall not apply to the person who sold the drugs to the victim.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawaii. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of the Prosecuting Attorney.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is modeled after New Mexico's 911 Good Samaritan law and recognizes that many drug-related overdoses occur in the presence of close friends. Your Committee further finds that this measure will increase the chance that an individual will survive a drug overdose because the fear of criminal liability will be diminished.

Your Committee further finds that limitations and exclusions on the immunity granted defeats the intent of the measure.

Accordingly, your Committee has amended this measure by:

- (1) Removing the provision that states that the immunity shall not apply to the person who sold the drugs to the victim; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 130, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

**SCRep. 419 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 884**

The purpose of this measure is to address the budget shortfall by transferring a total of \$19,000,000 from the deposit beverage container deposit special fund and the wireless enhanced 911 fund to the general fund for fiscal year 2009-2010.

Your Committees received testimony in opposition to this measure from the City and County of Honolulu Police Department, the Kauai County Police Department, the National Emergency Numbering Association, The Wireless Association, the American Beverage Association, AT&T, and Reynolds Recycling. Comments on this measure were submitted by the Department of Budget and Finance, the Tax Foundation of Hawaii, and Intrado, Inc.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that, due to the recent Hawaii Supreme Court decision in *Hawaii Insurers Council v. Lingle* regarding the transfer of funds from the insurance regulation fund to the general fund, the Legislature may be limited to transferring funds that are considered general tax revenue and not fees.

Your Committees further find that the Attorney General issue a formal opinion as to whether or not the balances in the wireless enhanced 911 fund and the deposit beverage container deposit special fund are considered regulatory fees or general tax revenues, and whether monies from these funds may be transferred to the general fund.

In addition, your Committees find that, in light of the amount of excess funds in the deposit beverage container deposit special fund, authorizing the Governor to set reasonable deposit beverage container fees will provide an opportunity to save taxpayers money.

Your Committees have amended this measure by:

- (1) Deleting sections 2 and 5 pertaining to the wireless enhanced 911 fund; and
- (2) Amending section 324G-102(d), Hawaii Revised Statutes, by deleting the one cent and one and a half cent deposit beverage container fee and authorizing the governor to set reasonable deposit beverage container fees.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 884, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 884, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, 1 (Hemmings). Excused, 2 (Nishihara, Sakamoto).

**SCRep. 420 (Joint) Commerce and Consumer Protection and Economic Development and Technology on S.B. No. 1352**

The purpose of this measure is to ease the backlog in the recording and review process by removing time shares from Land Court registration and instituting electronic filing of time shares in the Bureau of Conveyances.

Your Committees received testimony in support of this measure from Hawaii Bankers Association, Hawaii Escrow Association, Hawaii Association of Realtors, American Resort Development Association, Marriot Vacation Club International, Inc., Hilton Grand Vacations, Wyndham Worldwide, PAHIO Development, Starwood Vacation Ownership, and one private citizen. Testimony in opposition to this measure was received from three private individuals and in the form of a petition signed by twenty-two individuals. Testimony with comments was received from the Department of Land and Natural Resources and Hawaii Government Employees Association. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that, due to the nature of time share ownership, it is appropriate to exclude time shares from the Land Court system. The Land Court system was designed to process single, consecutive ownership interests and not multiple, simultaneous interests in a single parcel of land. Inclusion of time shares in Land Court burdens the system and is one cause of the current backlog. Your Committees are sympathetic to concerns that removing time shares will lead to a loss of revenue for Land Court; however, it is not in the best interest of the Land Court or the State to preserve an inefficient process merely for the sake of a minor revenue stream that can be recovered in the form of transaction fees or otherwise. It is the intent of your Committees that the Department of Land and Natural Resources review its fee structure to ensure that there is no loss of revenue to the Department.

Your Committees are also sympathetic to the concerns over the change to existing registration procedures voiced by employees of the Bureau of Conveyances. Your Committees are persuaded that modernization of the registration and recording process is essential to solve the problem of the current backlog and to prevent a similar situation in the future. Your Committees are confident that the employer-employee working group established by this measure to find solutions to implementation and revenue issues will alleviate these concerns.

Your Committees have amended this measure by:

- (1) Establishing an employer-employee working group in the Bureau of Conveyances to facilitate the resolution of issues involved in the change in Land Court procedure and to make recommendations regarding the recovery of lost revenue to the Land Court contained in this measure;
- (2) Empowering the Department of Land and Natural Resources to charge a \$5 transaction fee for each recording of the Bureau of Conveyances and of the Assistant Registrar of the Land Court from July 1, 2009 through June 30, 2011;
- (3) Raising the ceiling of the Bureau of Conveyances Special Fund by \$650,000 to support the purchase of hardware, system design, and staff training with the goal of implementing full electronic filing;
- (4) Deferring the effective date of section 2 of this measure to July 1, 2010;
- (5) Deferring the effective date of the rest of the measure, with the exception of section 17 (which takes effect upon approval) to July 1, 2015, to provide for further discussion; and
- (6) Making technical, nonsubstantive changes to section one in order to accurately reflect the purpose of this Act.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1352, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1352, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Hee, Ihara, Slom).

**SCRep. 421 Commerce and Consumer Protection on S.B. No. 449**

The purpose of this measure is to protect patient prescription information confidentiality by prohibiting the sale of prescriber-specific prescription drug data.

Your Committee received testimony in support of this measure from Hawaii Insurers Council and one private citizen. Testimony in opposition to this measure was received from the Department of Health, the Department of Human Services, Pharmaceutical Research and Manufacturers of America, and Med-QUEST Division. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is essential to protect private patient medical information from sale to pharmaceutical companies motivated by profit rather than by the interests of patients. Your Committee notes that the cost of marketing by pharmaceutical companies is one of the main reasons why prescription drug prices are so much higher in the United States than in the rest of the developed world, which restricts such activity.

Your Committee heard the concerns of the pharmaceutical industry that restricting the purchase of patient information will negatively impact the industry's ability to disseminate drug safety information and finds those concerns to be without merit. Your Committee also heard concerns from the Med-QUEST Division that enactment of this measure would have a negative impact on the

Hawaii Rx Plus program. Your Committee notes that Hawaii RX Plus, a discounted drug program, was never contemplated to derive discounts from fees generated by selling prescription user information. Your Committee believes that providing prescriber and user information to pharmaceutical companies adds to the overall cost of prescription drugs and thus negatively impacts all of the residents in the State who struggle with the high cost of needed medications.

Your Committee has amended this measure by:

- (1) Narrowing the scope of the prohibition to apply only to pharmacies licensed in this State and to exclude mail order or internet pharmacies not subject to state licensure;
- (2) Applying the prohibition to medical doctors licensed to practice in this State;
- (3) Delegating enforcement authority to the Regulated Industries Complaints Office;
- (4) Deferring the effective date of this Act to July 1, 2015; and
- (5) Making nonsubstantive, technical changes for clarity and accuracy in section one.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 449, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 449, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 422 Health on S.B. No. 169**

The purpose of this measure is to establish the Hawaii Health Corps, a program that will provide stipends for physicians and dentists who agree to provide a minimum of three years of service in health professional shortage areas of the State.

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities, Hawaii Medical Services Association, Hawaii Primary Care Association, Healthy Mothers Healthy Babies, and the Hawaii Dental Hygienists' Association. Testimony in opposition of this measure was submitted by the Department of Health. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that changes in demographics, the delivery of health care services, and the escalating costs of education have resulted in severe shortages of health care professionals. A poor distribution of health care professionals has resulted in a surplus of these professionals in some areas of the State and a shortage in other parts of the State, particularly in the more rural areas. The rural shortage areas often require more services because the health care needs are greater due to socio-economic or geographic circumstances. The shortage of health care professionals is compounded as the salary potential for areas of shortage is often not as favorable when compared to non-shortage areas. This results in many health care practitioners being financially unable to serve in those shortage areas.

This measure is intended to alleviate the problem of health professional shortage areas by establishing a Hawaii Health Corps Program to encourage physicians and dentists to serve in areas of the State where there is a shortage of health care professionals.

Your Committee has amended this measure by substituting a similar measure, Senate Bill No. 416, relating to the Hawaii health corps program. Your Committee has retained the provisions of Senate Bill 169 (2009), relating to Hawaii Health Corps first responder service obligation; Hawaii health corps special fund; stipends; and an appropriation.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 169, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 423 (Majority) Health on S.B. No. 1673**

The purpose of this measure is to ensure the viability of the Hawaii Health Systems Corporation by:

- (1) Authorizing any of the regional systems or individual facilities of the Hawaii Health Systems Corporation to transition into a new legal entity;
- (2) Requiring each regional system board and each community hospital under the jurisdiction of the Corporation to collaborate with community health centers within their respective geographic jurisdictions to maximize funding from the State and federal governments;
- (3) Amending the notification provision to require that the Corporation and each regional system board notify the Speaker of the House of Representatives, the President of the Senate, and Chairperson of the respective subject matter committee for health in each house of the Legislature within thirty days of any substantial reduction or elimination of direct patient care services.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Corporate Board of Directors; the Hawaii Health Systems Corporation East Hawaii Region; the Hawaii Government Employees Association; the Hawaii Primary Care Association; Maui Memorial Medical Center; West Kauai Medical Center; and the Association for Improved Healthcare on Maui. Testimony in opposition of this measure was submitted by the State Procurement Office.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Health Systems Corporation provides critical health care safety net services to our communities across the State. Failure of the Hawaii Health Systems Corporation is not an option, as it would shut down access to emergency and other critical services.

Your Committee further finds that comprehensive restructuring of the Hawaii Health Systems Corporation is imperative to its success. Decisive action is required in many areas to ensure that the Hawaii Health Systems Corporation survives in the short-term, and can thrive and prosper over time.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that amended the notification requirement for substantial reductions in direct patient care services;
- (2) Inserting language from SB1139 (2009) that:
  - (A) Authorizes the regional system boards and the Hawaii Health Systems Corporation board to reduce or eliminate direct patient care services unless legislation is enacted that includes an appropriation of moneys sufficient to fund the mandated services; and
  - (B) Requires an initial determination to be made as to critical and emergency services which shall not be subject to reduction or elimination.
- (3) Inserting language from SB44 (2009) that:
  - (A) Requires the Department of Health, on July 1, 2009, to assume the total amount of all liabilities and debts or other obligations of the Hawaii Health Systems Corporation that had been accrued up to June 30, 1996, by the community hospitals while they were operating within the Division of Community Hospitals of the Department of Health;
  - (B) Requires the Hawaii Health Systems Corporation to bear the sole responsibility for assuming all liabilities and debts or other obligations accrued beginning on July 1, 1996, and thereafter, by the community hospitals operating within the Hawaii Health Systems Corporation; and
  - (C) Establishes that the Hawaii Health Systems Corporation shall bear sole responsibility for making all appropriate employer payments into funds of the Employees' Retirement System under chapter 88, Hawaii Revised Statutes beginning on July 1, 1996, and continuing thereafter.
- (4) Inserting language from SB1140 (2009) that requires commercial health plans to provide a minimum reimbursement level of no less than one hundred and one per cent of the costs for all services provided to plan beneficiaries by critical access hospitals;
- (5) Adding a new section to chapter 89, Hawaii Revised Statutes, regarding special negotiating authority of Hawaii Health Systems Corporation that states:
 

“Notwithstanding any law to the contrary, including section 89-6(d), the Hawaii health systems corporation or any of the regional boards, as a sole employer negotiator, may negotiate with the exclusive representative of any appropriate bargaining unit and execute memorandums of understanding for employees under its control to alter any existing or new collective bargaining agreement on any item or items subject to section 89-9”;
- (6) Inserting language from SB941 (2009) that authorizes the Hawaii Health Systems Corporation to conduct Federal Bureau of Investigations criminal history record checks through the Hawaii Criminal Justice Data Center on employees, applicants, current or prospective contractors, providers, or volunteers;
- (7) Changing the effective date to July 1, 2050 to encourage further discussion on the matter; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1673, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Hemmings). Excused, none.

**SCRep. 424 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 1204**

The purpose of this measure is to grant tax credits to small businesses in the amount equal to the lesser of fifty per cent of premiums or \$500 per employee for the purchase of long-term care insurance for its employees; where “small business” means a for-profit enterprise consisting of fewer than one hundred full-time or part-time employees.

Testimony in support of this measure was submitted by the Chamber of Commerce of Hawaii, the Association of Insurance and Financial Advisors, the Kokua Council, the Policy Advisory Board for Elder Affairs, and one individual. Testimony in opposition to this measure was submitted by the Department of Taxation. Comments were submitted by the American Council of Life Insurers and the Tax Foundation of Hawaii. Written testimony presented to the Committees may be reviewed on the Legislature’s website.

Your Committees find that persons sixty years of age and older presently account for nearly one-fifth of the State’s population, and nearly one-third of these people are expected to have functional disabilities. Given these facts, your Committees are concerned that long-term care needs and associated costs will increase.

Your Committees understand that as the cost of doing business in Hawaii continues to rise, small business employers must make prudent decisions regarding the benefits they provide to employees. Your Committees find that the tax credits proposed by this

measure offer an innovative solution to the problem of rising long-term care costs by providing an incentive to small businesses, which employ the bulk of all workers in Hawaii, to provide long-term care insurance to their employees.

Your Committees agree with the comment by the American Council of Life Insurers for clarification of the small businesses to which this measure applies.

Accordingly, your Committees have amended this measure as follows:

- (1) By revising the definition of "small business" to mean a for-profit enterprise that is a corporation, partnership, limited liability company, sole proprietorship, or other form of business entity having fewer than one hundred full-time or part-time employees, and making conforming amendments to the new section proposed by this measure; and
- (2) By making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1204, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1204, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 1 (Espero).

**SCRep. 425 (Joint) Human Services and Commerce and Consumer Protection on S.B. No. 1110**

The purpose of this measure is to implement the long-term care partnership program, allowing individuals who have exhausted their private long-term care insurance coverage to qualify for Medicaid coverage for continued long-term care prior to exhausting their financial resources.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Association of Insurance and Financial Advisors, and one public citizen. Testimony in support, with comments, was submitted by the American Council of Life Insurers. Testimony in opposition to the measure was submitted by the Department of Human Services. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is designed to encourage the purchase of private long-term care insurance, especially among individuals with moderate incomes. Your Committees further find that this measure is intended to incur savings both to Medicaid, by delaying or preventing spend-down to Medicaid eligibility, and to individuals, by having them rely on insurance policies to cover long-term care expenditures that would otherwise be paid by personal income and savings. Your Committees also find that both the Department of Human Services and the American Council of Life Insurers have submitted comments and suggested amendments. Your Committees would like to encourage both of these entities to work together to reach a consensus on proposed revisions to this important measure.

Your Committees have amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1110, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1110, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 1 (Espero).

**SCRep. 426 Economic Development and Technology on S.B. No. 367**

The purpose of this measure is to amend the thrill craft and parasailing activities law by:

- (1) Deleting the provision that imposes a maximum permit term of twenty years and provides for the permit to be offered at public auction thereafter; and
- (2) Deleting the requirement that all new commercial use and operator permits issued after June 18, 1996, be issued at public auction.

Testimony in support of this measure was submitted by the Ocean Tourism Coalition, the Winners Camp Hawaii Study Tours, Rent PWC's, Hawaiian Ocean Promotions, Aloha Jetski, Aloha Ocean Sports, Hawaiian Parasail, Jet Ski's Plus, Seabreeze Parasailing, and one hundred and twenty-two concerned individuals. Comments on this measure were submitted by the Department of Land and Natural Resources. Written testimony presented to your Committee is available for review on the Legislature's website.

Your Committee finds that the twenty-year limit and the requirement that permits be subject to public auction at the end of the twenty-year term, on permits for commercial operation of thrill craft and parasailing activities may be discriminatory and unreasonable to small business owners who have invested significant capitalization into the business to ensure safe operations. Thrill craft and parasailing are established tourism activities which require a level of expertise to be exercised by companies under permit.

Your Committee has also amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 367, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 427 Labor on S.B. No. 1271**

The purpose of this measure is to require State Executive Department and State Legislative Branch employees who are exempt from chapter 76, Hawaii Revised Statutes, relating to civil service laws, to use or donate accumulated and accrued vacation allowance prior to discharge, or to forfeit remaining vacation allowance and any compensation in lieu of retaining vacation allowance upon discharge. If enacted, this measure would sunset on December 31, 2010.

Testimony in opposition to this measure was submitted by the Governor's office, two state agencies, and one organization. One public citizen provided comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that with the economic downturn affecting the state budget, a comprehensive reexamination of the structure of state government is necessary to ensure that all available avenues have been explored to accomplish more with fewer resources.

Your Committee has amended this measure by:

- (1) Amending references to "exempt employees" of the executive department or the legislative branch to "exempt managerial employees"; and
- (2) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1271, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 428 (Majority) Labor on S.B. No. 63**

The purpose of this measure is to amend the temporary total disabilities law to, among other things:

- (1) Require an employer to pay and continue to pay temporary total disability benefits to an injured worker, regardless of whether the employer controverts the worker's right to the benefits, until certain conditions are met and until ordered by the Director of Labor and Industrial Relations or until the employee's treating physician determines that the employee is able to resume work;
- (2) Allow employers to request credits against future benefits payments for payments already made when the Director issues a decision that benefits should have been discontinued after a certain date;
- (3) Include attorney's fees and costs to the employee for the enforcement of the temporary total disabilities provisions of section 386-31, Hawaii Revised Statutes;
- (4) Allow an injured employee to receive benefits equal to seventy per cent of the employee's average weekly wage up to the maximum weekly benefit rate in the year of injury if payment of benefits do not begin with thirty days of the date of injury; and
- (5) Require the Director of Labor and Industrial Relations to convene a working group to submit recommendations and proposed legislation to the Legislature addressing concerns raised by this measure.

Testimony in support of this measure was submitted by three organizations. Testimony in opposition to this measure was submitted by two state agencies, one county agency, and eight organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that injured workers are unjustly burdened when they are injured at work and their employers terminate temporary total disability benefits without good cause, forcing workers to return to work prematurely or suffer physically and financially.

Your Committee further finds that the current system allowing insurers to stop payments while cases are pending creates an additionally unfavorable situation for injured workers when a backlog of cases increases at the Department of Labor and Industrial Relations. If insurers and employers are required to pay benefits even while cases are pending, they may be less motivated to maximize the number of cases they dispute.

Your Committee notes that employers have experienced an approximately sixty per cent net decrease in workers' compensation insurance premiums since 2005. Accordingly, your Committee believes that employees should also gain benefits and protections to minimize the physical and financial hardship incurred by an injured employee and the employee's family.

Your Committee acknowledges the concern over employers and insurers paying temporary total disability benefits beyond what is later deemed necessary. Your Committee notes that this measure allows employers to receive credits for any benefits paid but later found to be unnecessarily paid. Furthermore, in most workers' compensation cases, an injury that prevents an employee from returning to work is serious enough that the employee will also sustain some permanent partial disability, for which payments the employer or insurer would also be responsible. In those cases, any payments by the employer or insurer later deemed to be unnecessary temporary total disability payments would be applied as advanced permanent partial disability payments to the employee.

Your Committee is concerned with the timing of the working group's submission of recommendations to the Legislature and its impact on the effective date of the other provisions of this measure. Your Committee believes that the effective date should be clarified as the Legislature further debates this matter.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 63, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 63, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 429 Labor on S.B. No. 1622**

The purpose of this measure is to set minimum state standards to protect all employees, with the limited exception of executive, administrative, or professional employees, who otherwise would be displaced when their employer sells the business to a prospective employer.

The measure provides as follows:

- (1) Section 2 creates a ninety-day Transitional Employment Period to provide protection to employees in the event of a divestiture of a covered establishment and requires the acquiring employer, with some exceptions, to retain the incumbent employees;
- (2) Section 3 amends section 394B-1, Hawaii Revised Statutes, to include divestiture within the findings and purposes of the Act;
- (3) Section 4 amends section 394B-2, Hawaii Revised Statutes, to expand the definition of covered establishment to include businesses that employ twenty to fifty employees in the preceding twelve-month period and to amend the definition of employees, for purposes of the Transitional Employment Period, to include all but the limited group of executive, administrative, and professional employees; and
- (4) Section 5 amends section 394B-12, Hawaii Revised Statutes, to describe the penalties specific to violations related to the Transitional Employment Period.

Your Committee received testimony in support of this measure from The Hawaii State Democratic Women's Caucus; ILWU Local 142; International Brotherhood of Electrical Workers; Laborers' International Union of North America, Local 368; Pride at Work Hawaii; Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO; Hawaii State AFL-CIO; and Unite Here Local 5. Testimony in opposition was received from the Department of Labor and Industrial Relations; Hawaii Restaurant Association; National Federation of Independent Business in Hawaii; and The Chamber of Commerce of Hawaii.

The Transitional Employment Period recognizes the all too frequent sales of businesses in Hawaii that adversely impact the stability of our workforce and create an additional toll on our economy and unemployment system. These mass terminations due to a business divestiture create problems not only to the employees directly affected, but to the community at large because of increased unemployment and decreased state tax revenues. Where the purchaser of the business intends to provide a similar level of products and services, the new employer is required to retain from the existing workforce the number of employees needed for the new operation based on seniority for at least the first 90-days of business.

The measure addresses the situation where an employer intends to down size operations and by applying seniority within the classifications. If the business expands in that period the new employer will hire from the seniority list based on operational needs. The transition period provides the new employer with qualified and knowledgeable workers who have rapport and provide continuity with the prior customer base that the new business will seek to maintain. The employer is able to terminate employees for cause and release employees after the ninety-day period if the performance review shows unsatisfactory work. As noted in testimony in favor of the measure these amendments to Hawaii's Dislocated Workers Act are needed to revitalize our economy and increase confidence in the workforce and in the consumer market. Since the measure does not, as voiced by some, dictate that a buyer has to retain the same products or services, it would not have the adverse impact referenced in some of the testimony. The experience among those testifying is that transitions of this nature in the past done voluntarily have provided the benefits anticipated by this measure.

Your Committee does understand that the transition employment period may provide specific concerns to the smaller businesses in Hawaii. Accordingly, your Committee has amended this measure as follows:

- (1) By retaining the existing definition of covered establishment to businesses with fifty employees or more; and
- (2) By correcting references to the Code of Federal Regulations in defining persons employed in executive, administrative, and professional capacities.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1622, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1622, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 430 Labor on S.B. No. 1122**

The purpose of this measure is to amend various sections of Hawaii Revised Statutes to comply with Act 253, Session Laws of Hawaii 2000, which places restrictions on the creation of civil service exempt positions and requires an annual review of exempt positions to determine whether they should be converted to civil service positions.

Testimony in support of this measure was submitted by one organization and three individuals. Testimony in opposition to this measure was submitted by nine state agencies. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that despite the enactment of Act 253, Session Laws of Hawaii 2000, few exempt positions have been converted to civil service positions. According to the Hawaii Government Employees Association, a review submitted to the 2009 Legislature reported that only thirty-seven exempt positions under section 76-16(b)(17), Hawaii Revised Statutes, were converted to civil service between November 1, 2007 and October 31, 2008.

Your Committee notes the concern with this measure's amendment to section 76-16(b)(17), Hawaii Revised Statutes, regarding the repeal of exempt positions every three years. Your Committee believes that this issue merits further debate by the Legislature, as this measure is a work in progress intended to advance the timely conversion of exempt positions to civil service positions.

Your Committee has amended this measure:

- (1) By amending the effective date to July 1, 2050 for the purpose of encouraging further discussion; and
- (2) By making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1122, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Slom).

**SCRep. 431 (Majority) Labor on S.B. No. 1621**

The purpose of this measure is to implement and promote the right to organize for the purpose of collective bargaining as recognized in Article XIII of the Hawaii State Constitution, as noted in section 1 of the measure.

The proposed changes in chapters 377 and 380, Hawaii Revised Statutes, are intended to strengthen and expand the middle class work force in Hawaii through appropriate changes to our collective bargaining laws. Specifically, the measure provides as follows:

- (1) Sections 2, 4, and 5 are tailored to the 2008 "Employee Free Choice Act" before Congress. Section 2 provides for mediation and arbitration of initial agreements. Section 4 provides for card check recognitions. Section 5 provides for employee remedies, including back pay, interest, costs, attorney's fees and liquidated damages;
- (2) The first part of section 3, is intended to create a "union representation privilege" to protect the functions of the union as an exclusive bargaining representative necessary to allow the union to perform its appropriate role in negotiations and contract enforcement;
- (3) The second part of section 3, is intended to afford to the union the right to sue to collect unpaid union dues and agency fees for union representational activities in the circuit court. It provides the necessary legal authority to authorize such actions to collect union dues and agency fees uniformly;
- (4) The third part of section 3, is intended to protect union members and others participating or interested in a labor dispute who engage in lawful protected activities in the context of a labor dispute within the meaning of section 380-13(3), Hawaii Revised Statutes; and
- (5) Section 6 is intended to clarify that lawful concerted activities shall not result in civil torts against labor organizations or its members.

Your Committee received testimony in support of this measure from ILWU Local 142; Gordon Lafer; Hawaii State AFL-CIO; Laborers International Union of North America, Local 368; International Brotherhood of Electrical Workers; Pride at Work Hawai'i; Hawaii Building and Construction Trades Council, AFL-CIO; Ironworkers Stabilization Fund; Hawaii Government Employees Association; International Organization of Masters, Mates & Pilots; Marine Engineers' Beneficial Association, AFL-CIO; American Income Life Insurance Company.

Testimony in opposition was received from the Department of Labor and Industrial Relations; State of Hawaii Department of Human Resources Development; Building Industry Association - Hawaii; Judy Engkabo; Hawaii National Federation of Independent Business in Hawaii; Engineering Solutions, Inc.; Larry Jeffs; Society for Human Resource Management; Hawaii Crop Improvement Association; The Chamber of Commerce of Hawaii; Associated Builders and Contractors Hawaii; Roy Ogawa; General Contractors Association of Hawaii; Pioneer Hi-Bred International, Inc.; State of Hawaii Department of the Attorney General; State of Hawaii Department of Agriculture; Syngenta Hawaii.

Sections 2, 4, and 5 of the bill are modeled after the federal Employee Free Choice Act (H.R. 800 and S. 1040), presently pending in the United States Congress, that would amend the National Labor Relations Act to establish an efficient system to enable employees to form, join, or assist labor organizations. Your Committee is in agreement with the principles stated in Congressional Report No. 110-23 to the federal bill on the vital role of labor unions to the creation of the American middle class, the nature of the attacks on worker rights experienced in recent decades that has reduced the percentage of organized workers in the private sector to eight percent (8%), and the economic consequence which has resulted. The Hawaii experience is not substantially different than what is described in the Congressional report. As the opposition to these sections of the bill noted, the use of voluntary recognition of a labor organization with majority support from the workers is not unprecedented. This bill recognizes that a secret ballot alone is not always sufficient to assure fair union elections and the present system, which does not have the numerous protections and safeguards developed for political elections, does not always result in a union representation election that reflects the will of the employees. The will of the employees is protected because the Board is required to verify that in fact a majority of employees do support union representation. The additional remedies in section 5 is necessary in light of the recent Supreme Court ruling in Preble v. Board of Trustees of Employees' Retirement System of State of Hawaii, 111 Hawaii 498, 505-06, 143 P.3d 37, 44-45 (2006), which found similar or analogous statutory language i.e., "affirmative action" insufficient to allow for attorney's fees. The other concerns expressed by the opponents to the bill can be addressed through the procedures the Hawaii Labor Relations Board will establish through rule-making. With respect to mediation and

arbitration of first contracts, your Committee finds there are significant impediments in obtaining a first agreement. Providing for mediation and arbitration to obtain a first contract if the parties are unsuccessful in achieving an agreement in a timely manner advances the objective of the Act to promote labor stability.

The first part of section 3, adding a new section to chapter 380, Hawaii Revised Statutes, recognizes the unique role of the union and its duty of fair representation solely to its members. Your Committee found testimony in support of this section compelling and concludes that a privilege to protect confidential information and work product documents obtained by a union in the course of its duties as exclusive bargaining representative is warranted. While the current rules of the court provide some protection of a union's work product, your Committee finds that a specific, clear directive is needed to recognize the representational privilege. Opponents to the bill argue that a reciprocal privilege is not provided to employers, however, this ignores the unique status the union holds as the exclusive bargaining representative with a duty to fairly represent the employee. Without this protection a union is faced with disclosing confidential communications against the interest of the member to whom it holds a duty to represent. Claims that the bill usurps the power of the courts and other forums to decide evidentiary questions ignore the existence of several rules that establish privileges binding on these forums. The Department of Attorney General's concerns appear to be premature and are more appropriately addressed through the adjudicatory process which have in place adequate safeguards in the legal process.

The second part of section 3 adding a new section to chapter 380, Hawaii Revised Statutes, allows employee organizations a means of obtaining civil relief to collect dues from members and agency fee payers equally in the circuit court. No opposition was raised as to this section of the bill and your Committee agrees with the reasoning as contained in the testimony in favor of this section.

The last part of section 3 adding a new section to chapter 380, Hawaii Revised Statutes, provides needed protection for unions, their agents, and members who engage in lawful concerted activities in a labor dispute as defined in section 380-13(3), Hawaii Revised Statutes. The bill establishes an adequate balance of interest between private property rights and the exercise of the State's constitutional right to organize for the purpose of collective bargaining under Article XIII of the Hawaii Constitution.

Section 6 clarifies and protects lawful concerted activities in light of the developing civil tort law. The protections afforded by this bill are consistent with constitutionally protected activities of private and public employees under Article XIII.

Your Committee has amended this bill by amending the effective date to July 1, 2050, to allow for further discussion on this measure. Technical, nonsubstantive amendments were also made for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1621, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1621, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Bunda). Noes, 1 (Slom). Excused, none.

**SCRep. 432      Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 995**

The purpose of this measure is to allow the State to most effectively and responsibly make progress toward meeting part of its constitutional, statutory, and moral obligation to native Hawaiians by addressing the additional amount of income and proceeds that the Office of Hawaiian Affairs is to receive from the public trust pursuant to Article XII, sections 4 and 6, of the Hawaii Constitution, for the period from November 7, 1978 to July 1, 2008.

Specifically, this measure:

- (1) Conveys certain parcels of real property in fee simple to the Office of Hawaiian Affairs; and
- (2) Supports the conveyance with appropriate provisions, such as exempting all the conveyed lands from the definition of "public lands" in chapter 171, Hawaii Revised Statutes, and exempting the conveyed lands located in Kakaako from the authority of the Hawaii Community Development Authority under chapter 206E, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by one state agency, seven organizations, and twenty-seven public citizens. One state agency and one organization supported the intent of this measure. One state agency submitted comments, and testimony in opposition was submitted by three public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

In 1978, the State Constitution was amended to include article XII, sections 4 and 6 that, among other things, established the Office of Hawaiian Affairs and its Board of Trustees. Sections 4 and 6 of article XII of the State Constitution provide:

**"Section 4.** The lands granted to the State of Hawaii by Section 5(b) of the Admission Act and pursuant to Article XVI, Section 7, of the State Constitution, excluding therefrom lands defined as "available lands" by Section 203 of the Hawaiian Homes Commission Act, 1920, as amended, shall be held by the State as a public trust for native Hawaiians and the general public.

**Section 6.** The board of trustees of the Office of Hawaiian Affairs shall exercise power as provided by law: to manage and administer the proceeds from the sale or other disposition of the lands, natural resources, minerals and income derived from whatever sources for native Hawaiians and Hawaiians, including all income and proceeds from that pro rata portion of the trust referred to in section 4 of this article for native Hawaiians; to formulate policy relating to affairs of native Hawaiians and Hawaiians; and to exercise control over real and personal property set aside by state, federal or private sources and transferred to the board for native Hawaiians and Hawaiians. The board shall have the power to exercise control over the Office of Hawaiian Affairs through its executive officer, the administrator of the Office of Hawaiian Affairs, who shall be appointed by the board."

By Act 273, Session Laws of Hawaii 1980, the Legislature provided that "[t]wenty per cent of all funds derived from the public land trust, . . . shall be expended by the office of Hawaiian affairs . . . for the purposes of this chapter." This legislative directive has led to a series of lawsuits concerning the practical application of the twenty per cent apportionment the Legislature established to implement article XII, sections 4 and 6, of the Constitution of the State of Hawaii.

In *Trustees of the Office of Hawaiian Affairs v. Yamasaki*, 69 Haw. 154 (1987), the Hawaii State Supreme Court concluded that the issue of how the apportionment is formulated is a political question for the Legislature to determine.

In response to the *Yamasaki* decision, the Legislature enacted Act 304, Session Laws of Hawaii 1990, to clarify the extent and scope of the twenty per cent portion.

On September 12, 2001, the Hawaii State Supreme Court ruled in *Office of Hawaiian Affairs v. State of Hawaii*, 96 Haw. 388, that Act 304 was effectively repealed by its own terms, so that once again, it was necessary for the Legislature to specify the apportionment to be managed and administered by the Office of Hawaiian Affairs.

In its decision, the Hawaii State Supreme Court affirmed *Yamasaki*, observing:

[T]he State's obligation to native Hawaiians is firmly established in our constitution. *How* the State satisfies that constitutional obligation requires policy decisions that are primarily within the authority and expertise of the legislative branch. As such, it is incumbent upon the legislature to enact legislation that gives effect to the right of native Hawaiians to benefit from the ceded lands trust. See Haw. Const. art. XVI, §7. . . [W]e trust that the legislature will re-examine the State's constitutional obligation to native Hawaiians and the purpose of HRS § 10-13.5 and enact legislation that most effectively and responsibly meets those obligations." *Office of Hawaiian Affairs v. State of Hawaii*, 96 Haw. at 401.

In reviewing the entire history of the issue of the State's obligation to transmit to the Office of Hawaiian Affairs a part of the income and proceeds from the public land trust, your Committee finds that the issue has evolved into two principal aspects, one looking to the past, the other looking to the future.

With regard to the past, your Committee finds that in addition to the amounts of income and proceeds previously paid to the Office of Hawaiian Affairs, further resources should be provided to the Office of Hawaiian Affairs that represent a re-examination and final determination by the Legislature for the period between November 7, 1978 (the ratification date of article XII, sections 4 and 6 of the Constitution of the State of Hawaii), and July 1, 2009, with regard to income and proceeds from the lands in the public trust referred to in article XII, section 4, of the Hawaii Constitution.

Your Committee further finds that the parcels of real property conveyed to the Office of Hawaiian Affairs should provide a revenue stream for the Office of Hawaiian Affairs, but also should be culturally significant parcels. Parcels of real property such as Kahana Valley, Mauna Kea, and state-owned fish ponds have a minimum tax assessed value but are historically and culturally significant for native Hawaiians. Your Committee believes that stewardship of native Hawaiian-culturally significant areas appropriately belongs to the Office of Hawaiian Affairs.

Your Committee recommends that future discussions of the parcels included by your Committee involve the communities affected.

Your Committee notes that the inclusion of these parcels results from discussions with community members during the past year. In addition, according to the recollection of the Chair, a former Chairperson of the Board of Trustees of the Office of Hawaiian Affairs, several of the parcels that will provide a revenue stream were included in past negotiations between the Office of Hawaiian Affairs and the Attorney General. Thus, your Committee believes the included parcels represent a considered and fair compromise of the parties.

Your Committee recognizes that in Act 340, Session Laws of Hawaii 1993, the Legislature placed the island of Kahoolawe, a place of extraordinary cultural significance, into the public land trust under the condition that the State would eventually transfer the management and control of Kahoolawe to a future sovereign native Hawaiian entity upon its recognition by the United States and the State. Similarly, your Committee finds that Mauna Kea is an area of extraordinary cultural significance to native Hawaiians and requires special recognition, management, and control of its natural and cultural resources and should be held in trust for the recognized sovereign native Hawaiian entity.

In Hawaiian cosmology, Mauna Kea represents the *piko* of the island of Hawaii, which is the first-born island child of Wakea and Papahānaumoku, a product of the union of the sky and the earth. The relationship of this significant cultural sight to Hawaiians was evidenced by Queen Emma (the widow of Kamehameha IV) who in 1881 traveled to "the top of Mauna Kea to bathe in the waters of Waiau . . . to cleanse at the *piko* of the island." Kanahale and Kanahale 1997. Lake Waiau, the only high elevation lake in the State, is also considered a traditional cultural property and a source of sacred water used in healing and worship practices. The Mauna Kea Adze Quarry and Lake Waiau are important and unique cultural and geomorphic features found in the Mauna Kea Ice Age Natural Area Reserve and thus should be placed among those lands requiring native Hawaiian stewardship under the Office of Hawaiian Affairs.

Furthermore, your Committee understands both from the general public and from the Auditor that the State has failed to adequately protect Mauna Kea from cultural and environmental degradation and your Committee is mindful of the need for thoughtful and well-organized management. This measure will ensure that the recent decision of the Circuit Court of the Third Circuit in Civil No. 04-1-397, requiring the Board of Land and Natural Resources to take measures to protect and preserve the summit area of Mauna Kea through appropriate management plans to promote long-term sustainability, is enforced regardless of ownership.

Similar to the transfer of management and control of Kahoolawe to a future sovereign native Hawaiian entity upon its recognition by the United States and the State, your Committee finds that the same native Hawaiian sovereign entity should receive the lands transferred by this measure, including Mauna Kea.

Your Committee further finds that the Legislature acknowledged in Act 254, Session Laws of Hawaii 1993, that many native Hawaiians believe that lands taken without the consent of the native Hawaiian people should be returned and if not, then monetary compensation should be made. Therefore, this measure is a legislative response to the taking of the Hawaiian Kingdom without the consent or any compensation to the native Hawaiian people.

Your Committee has amended this measure by:

- (1) Deleting the dollar amount and leaving it unspecified for determination by the Committee on Ways and Means;

- (2) Amending the date of settlement to include the period between November 7, 1978 and July 1, 2009;
- (3) Deleting the conveyance of Hilo Banyan Drive, and parcels of Kakaako makai, as identified by the tax map keys 2-1-058:41 and 2-1-058:110;
- (4) Replacing the conveyances removed with the following parcels:
  - (A) Kahana Valley and Beach Park: (TMK: 5-2-01:1, 5-2-02: all, and 5-2-5:1 and 21 as described in Act 5, Sessions Laws of Hawaii 1987) and (TMK: 5-2-05:3);
  - (B) La Mariana and submerged lands: (TMK: 1-2-23:52);
  - (C) Accreted peninsula bordered by Kalihi Stream and Moanalua Stream: (TMK: 1-1-3:3);
  - (D) Heeia wetlands or fishpond: (TMK: 4-6-05:01);
  - (E) Mauna Kea: Mauna Kea Scientific Reserve: (TMK: 3-4-4-015: 9 and 12); Mauna Kea Ice Age Natural Area Reserve: a 143.5 acre square parcel around Puu Pohaku, located to the west of the summit area and a 3,750 acre triangular-shaped parcel extends from approximately 10,070 ft (3,069 m) up to 13,230 ft (4,033 m) at the upper tip of the parcel; and
  - (F) State-owned fishponds statewide: as identified in the Hawaiian Fishponds: Fishpond Database developed pursuant to a grant/cooperative agreement from the National Oceanic and Atmospheric Administration, Project No. R/AQ-60 (sponsored by the University of Hawaii Sea Grant College Program, SOEST, under Institutional Grant No. NA36RG0507 Year 31 from NOAA Office of Sea Grant, Department of Commerce); and
- (5) Providing that the transfer of Mauna Kea shall be subject to the Decision and Order of the Circuit Court of the Third Circuit, Civil No. 04-1-397 (January 7, 2007), requiring action by the Board of Land and Natural Resources for the proper management of the area;
- (6) Requiring that the Office of Hawaiian Affairs transfer management and control of all parcels in this measure to the sovereign native Hawaiian entity upon its recognition by the United States and the State; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 995, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 995, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 433 (Joint) Economic Development and Technology and Judiciary and Government Operations on S.B. No. 602**

The purpose of this measure is to amend the requirements relating to an artist that receives a fellowship.

This measure also dedicates an unspecified percentage of applicable state fund appropriations for capital improvements for the works of art special fund for performing arts and a permanent display.

Testimony in opposition of this measure was submitted by the Department of Accounting and General Services. Comments on this measure were submitted by the Department of Budget and Finance, and one concerned individual. Copies of written testimony may be reviewed on the Legislature's website.

Your Committee finds that the one per cent of state appropriations from capital improvement projects transferred to the works of art special fund enables the community to enjoy visual arts in public places. Through this vehicle, your Committees seek to take advantage of the increase in state bond funds that will be used to stimulate the economy through accelerated construction of transportation infrastructure and much-needed school repairs and renovations. At the same time, increased funding in the works of art special fund will help the legislature insure that Hawaii's multicultural arts community will survive during these difficult times.

Your Committee has amended this measure by:

- (1) Revising the purpose section of the measure;
- (2) Deleting the provision relating to an unspecified percentage of applicable state fund appropriations for capital improvements for the works of art special fund for performing arts;
- (3) Replacing the one per cent of all state fund appropriations for capital improvements to be transferred to the credit of the works of art special fund;
- (4) Adding that the works of art special fund shall be used solely for costs related to creation of an electronic, digital, or other permanent record of works of art;
- (5) Amending the definition of permanent display to include a live performance on film; and
- (6) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 602, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 602, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Vice Chair on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Gabbard, Hee, Nishihara).

**SCRep. 434 Commerce and Consumer Protection on S.B. No. 878**

The purpose of this measure is to reduce administrative costs by allowing the Public Utilities Commission to streamline and update its notice process for public hearings on rate changes and ratemaking procedures.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and the Public Utilities Commission. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that the current law's requirement that the Public Utilities Commission publish notice of rate hearings in newspapers statewide is duplicative and unnecessary in the context of concurrent requirements that the Commission also provide notice via direct mailings to affected consumers. Publishing hearing notices statewide is unnecessary for hearings that only affect utility consumers on certain islands.

Your Committee has amended this measure by making technical, nonsubstantive changes to clarify the language of the measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 878, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 878, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 435 Commerce and Consumer Protection on S.B. No. 35**

The purpose of this measure is to exempt certified public accountants, who are already subject to regulation by the Board of Public Accountancy, from the definition of distressed property consultant under the Mortgage Rescue Fraud Prevention Act.

A distressed property consultant assists homeowners at risk of foreclosure to negotiate with their lender in order to serve the best interest of the homeowner in the foreclosure process. Under current law, a public accountant or certified public accountant is prevented from performing routine accounting services to assist with financial matters that may arise relating to the foreclosure process.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Office of Consumer Protection; Hawaii Society of Public Accountants; Hawaii Association of Public Accountants; and one private citizen. Your Committee received testimony with comments from the Legal Aid Society of Hawaii.

Your Committee finds that, although protection of financially vulnerable homeowners is critical, public accountants and certified public accountants are already subject to regulation by the Board of Public Accountancy, which supplies adequate protection to consumers of public accounting services through existing licensing standards and disciplinary procedures.

Your Committee adopted the recommendation of the representative of the Hawaii Association of Public Accountants to amend section two of this measure. Your Committee has added language to clarify that the exemption from the definition of "distressed property consultant" applies:

- (1) To both public accountants and certified public accountants licensed and regulated pursuant to chapter 466, Hawaii Revised Statutes; and
- (2) To out-of-state public accountants and certified public accountants operating legally under a temporary permit issued by the board of accountancy pursuant to chapter 466, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 35, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 35, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 436 (Majority) Health on S.B. No. 777**

The purpose of this measure is to ensure that teenagers are equipped with accurate information and knowledge to enable them to make informed decisions regarding their sexual health.

This measure accomplishes this purpose by requiring all entities that receive state funding for sexual health education purposes to provide medically accurate, factual information that is age-appropriate and that includes education on both abstinence and contraception for the prevention of pregnancy and sexually transmitted diseases, including human immunodeficiency virus.

Your Committee received testimony in support of this measure from one state agency, nine organizations, and two individuals. Your Committee received testimony in opposition to this measure from one state agency, two organizations, and one individual.

Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that providing teenagers with medically accurate, factual information that is age-appropriate and that includes education on both abstinence and contraception for the prevention of pregnancy and sexually transmitted diseases, including HIV, will reduce the number of unintended teenage pregnancies in Hawaii. In addition, your Committee finds that empowering teenagers to make informed decisions is the most effective safeguard to the contraction of often life threatening sexually transmitted diseases.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 777, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Hemmings). Excused, 1 (Espero).

**SCRep. 437 (Majority) Labor on S.B. No. 62**

The purpose of this measure is to require independent medical examinations and permanent impairment rating examinations for workers' compensation claims to be performed by physicians mutually agreed upon by employers and employees or appointed by the Director of Labor and Industrial Relations.

Testimony in support of the measure was submitted by thirteen organizations.

Testimony in opposition of the measure was submitted by two state agencies, two county agencies, and seven organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current method of selection of physicians to perform independent medical examinations by employers has led to confrontation, distrust, and animosity between many injured workers and employers.

Your Committee further finds that since employers or insurers currently pay for and select examining physicians, these physicians may be biased toward employers and insurers, and that a more impartial process of selecting examining physicians would better protect the interests of both the injured worker and the employer.

Your Committee notes that while there is no consensus on whether this measure will increase or decrease workers' compensation costs, it may reduce distrust between injured workers and their examining physicians, thereby minimizing unnecessary hearings to dispute physicians' findings.

Your Committee has amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 62, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 62, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 438 (Majority) Labor on S.B. No. 695**

The purpose of this measure is to require an employer to continue paying for medical services for an injured employee despite disputes over whether treatment should be continued, until the Director of Labor and Industrial Relations determines whether medical services should be continued.

Testimony in support of this measure was submitted by two organizations. Testimony in opposition of this measure was submitted by two state agencies, one county agency, and seven organizations. Two organizations supported the intent of this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure addresses the disruption of medical care to injured employees which is a major impediment to their prompt return to work. Your Committee further finds that a quicker return to employment may ultimately lower costs, benefiting both employers and employees in an equitable way.

Your Committee acknowledges the concern that employees may seek unnecessary treatment as a result of this measure, resulting in higher costs to employers and insurers. However, your Committee believes that it is a priority for injured workers to receive the proper care and treatment they need to return to work. Furthermore, this measure addresses the expressed concern by providing that employers and insurers may recover benefits paid past the deadline for allowed treatment and that employees who obtain medical services unlawfully may be charged for those services.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 695, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 695, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Bunda). Noes, 1 (Slom). Excused, none.

**SCRep. 439 Labor on S.B. No. 823**

The purpose of this measure is to require employers to notify employees annually of their entitlement to family leave, as well as possible adverse impact of taking family leave.

Testimony in support of this measure was submitted by one organization and one public citizen. Testimony in opposition was submitted by one state agency and three organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds a discrepancy exists between the types of eldercare policies and benefits that employers offer and what working caregivers believe is offered. According to recent studies on elder care, eighty per cent of employers say that they offer paid

bereavement leave while only 4.7 per cent of employed caregivers know of this benefit. About seventy per cent of employers offer unpaid family leave while only eighteen per cent of working caregivers are aware of this benefit. Only five per cent of working caregivers know their employers offer leave without pay, but employers say that 66.3 per cent of them offer this benefit.

Your Committee finds an annual notice requirement is a costly burden on the employer. Your Committee adopts the recommendations of the Department of Labor and Industrial Relations to amend the measure to conform to posting requirements of chapters 387 and 388, Hawaii Revised Statutes. These laws require employers to keep information posted in a conspicuous place that all employees have access to, which provides a daily reminder to individuals and prevents a waste of resources.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 823, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 440 Human Services on S.B. No. 190**

The purpose of this measure is to allow married couples who are not reliant on state and federal aid for medical services to reside in the same community foster family care home if each spouse is eighty years of age or older and the couple has been married for forty years or more.

Your Committee received testimony in support of this measure from the Hawaii Coalition of Caregivers; Talavera Case Management Agency; Adult Foster Home Association, Big Island Chapter; Ohana Alternative Care Service; the Policy Advisory Board for Elder Affairs, Legislative Committee; Hilo Baptist Church; New Hope Hamakua; and over three hundred individuals. The Department of Human Services and the Attorney General submitted testimony in opposition to the measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that community care foster family homes accept both Medicaid and private pay clients in need of long-term care. Under section 346-331, Hawaii Revised Statutes, two adults are permitted to reside in a community care foster family facility, and at least one of these adults must be a Medicaid recipient. The Department of Human Services may, in its discretion, allow one additional resident; however, the third resident must also be a Medicaid recipient. These requirements prevent two private pay clients from residing together in a community care foster family home, even if they are married or share a similar close relationship.

Your Committee finds that the residential requirements for community care foster family homes have resulted in the separation of husbands and wives when both spouses are private pay clients. Spouses in the last phase of their life are deprived of the comfort and support of their long-time companions.

However, your Committee finds that the measure may unfairly deprive spouses who do not meet the conditions imposed by the measure or other closely related private pay couples of the benefits of living together. Further, your Committee has concerns that the measure is challengeable under the equal protection clause of the Constitution because it discriminates against private pay couples who wish to live together but who do not meet the age and marriage duration requirements.

Your Committee has amended the measure by:

- (1) Requiring the Department of Human Services to allow two private pay clients to live together in a community care foster family home, and further requiring the Department to define the relationship two private pay clients must share in order to benefit from this right within the confines of the equal protection clause;
- (2) Amending the effective date of the measure to make the measure effective upon approval;
- (3) Removing the sunset provision from the measure; and
- (4) Requiring the Department of Human Services to implement the measure within one month of its approval with interim rules, and thereafter establishing permanent rules by December 31, 2009, pursuant to chapter 91, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 190, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 441 Ways and Means on S.B. No. 971**

The purpose of this bill is to effectuate its title.

Senate Bill No. 971 was introduced as a short-form bill, which is sometimes referred to as a "vehicle" bill primarily used to introduce a bill containing only a general idea as to the purpose of the bill without specific details in the long form.

Upon consideration, your Committee has amended this bill by deleting its content and by replacing it with language conforming state tax law to the latest amendments to the Internal Revenue Code.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 971, S.D. 1, and be recommitted to the Committee on Ways and Means, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Fukunaga, Hee).

**SCRep. 442      Ways and Means on S.B. No. 1449**

The purpose of this measure is to effectuate its title.

S.B. No. 1449 was introduced as a short-form bill, which is sometimes referred to as a "vehicle bill" primarily used to introduce a bill containing only a general idea as to the purpose of the bill without specifying details in the long form.

Upon consideration, your Committee has amended this bill by deleting its content and by replacing it with language to require taxpayers to make estimated payments of general excise taxes.

Your Committee has amended the bill to provide the substantive contents of the bill in long form so that a public hearing may be properly held on its substantive contents.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1449, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1449, S.D. 1, and be recommitted to the Committee on Ways and Means, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Fukunaga, Hee).

**SCRep. 443      Ways and Means on S.B. No. 1461**

The purpose of this measure is to effectuate its title.

S.B. No. 1461 was introduced as a short-form bill, which is sometimes referred to as a "vehicle" bill primarily used to introduce a bill containing only a general idea as to the purpose of the bill without specific details in the long form.

Upon consideration, your Committee has amended this bill by deleting its content and by replacing it with language to require electronic filing and payment of state taxes and to accelerate the filing and payment of various state taxes.

Your Committee has amended the bill to provide the substantive contents of the bill in long form so that a public hearing may be properly held on its substantive contents.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1461, S.D. 1, and be recommitted to the Committee on Ways and Means, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Fukunaga, Hee).

**SCRep. 444      (Joint) Health and Commerce and Consumer Protection on S.B. No. 113**

The purpose of this measure is to authorize the Board of Dental Examiners to revoke or suspend the license of a dentist for false or misleading advertising.

Your Committees received testimony in support of this measure from the Hawaii Dental Association and one individual. Testimony in opposition to this measure was received from the Board of Dental Examiners. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will strengthen the current statutes regarding sanctions for the false or misleading advertising of licensed dentists who advertise a specialty practice without possessing the appropriate credentials. The Board of Dental Examiners has submitted testimony stating that they are currently working on rules to further clarify this matter. However, your Committees find that this measure will remedy the above stated concerns in a more efficient manner.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 113 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 3 (Ihara, Nishihara, Sakamoto).

**SCRep. 445      Transportation, International and Intergovernmental Affairs on S.B. No. 1055**

The purpose of this measure is to authorize the Department of Transportation to adopt rules relating to safety measures, security requirements, and activities in commercial harbors, land, and facilities belonging to or controlled by the State.

Your Committee received testimony in support of this measure from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State has encountered situations wherein an individual or a group has conducted activities in the waters of commercial harbors, independent of vessel traffic, that threaten the security of harbors and the safety of bona fide harbor users. This measure is intended to ensure the free, safe, and secure flow of commercial harbor traffic.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1055 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

**SCRep. 446 (Joint) Education and Housing and Transportation, International and Intergovernmental Affairs on S.B. No. 384**

The purpose of this measure is to require the Department of Education to ensure that all traffic safety measures are in place and operational prior to the opening of a newly constructed public, public charter, or private school.

Testimony in opposition to this measure was submitted by one state agency. One private organization submitted comments. Copies of written testimony are available for review on the Legislature's website.

Your Committees have heard that the Department of Education is currently required to meet state and county traffic safety regulations, and that during the design phase of a project, it is standard practice for the Department of Education to coordinate with the Department of Transportation and county transportation departments to ensure that their requirements are addressed.

Your Committees also understand, however, that in the case of at least one neighbor island school, these procedures were not adequate and that the school continues to lack sufficient traffic safety devices to protect its students, faculty, and visitors. Your Committees requested further information from the Department of Education regarding this specific instance and any other similar instances the Department may identify. Until the information is available the situation clearly shows this measure is necessary, your Committees urge further legislative deliberations on the measure.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 384 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 1 (Slom).

**SCRep. 447 (Joint) Transportation, International and Intergovernmental Affairs and Human Services on S.B. No. 673**

The purpose of this measure is to clarify county restrictions on group living facilities.

Your Committees received testimony in support of this measure from four individuals. Testimony in opposition was received from one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure adds temporal restrictions on commercial deliveries, and ambient noise and pollutant emission standards at lot boundaries to the county requirements that must be satisfied in order for group living facilities to operate.

Your Committees find that many residents, including the elderly, mentally ill, and disabled, for a variety of reasons and circumstances may benefit from residing in group living facilities that provide deinstitutionalized, residential settings that are more conducive to their care, health and autonomy, and quality of life. However, as the number of group living facilities increases in traditional residential areas, the potential negative impacts that they may unintentionally cause due to increases in care provider and visitor traffic, commercial deliveries, noise, and other impacts resulting from the facilities may affect their surrounding neighbors, thereby reducing the latter's quality of life and quiet, peaceful enjoyment of residential living.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 673 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 1 (Hemmings).

**SCRep. 448 Education and Housing on S.B. No. 288**

The purpose of this measure is to ban the sale of soft drinks in public school vending machines.

Testimony in support of this measure was submitted by one state agency and four individuals. Comments were submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that current Department of Education vending contracts stipulate only water and "healthy" juices are allowed, with "healthy" meaning at least fifty per cent real juice by volume. Your Committee understands that vending machines may still dispense soft drinks in teachers' lounges.

Your Committee has also considered Board of Education policy number 6810, Competitive Food Sales Policy, which states: "Beverage selections from school vending machines that are available to students shall contain only healthy beverages as deemed appropriate by the Department of Education."

Your Committee has amended this measure to conform to the Board of Education policy.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 288, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 449 Labor on S.B. No. 1568**

The purpose of this measure is to amend the law relating to unemployment insurance to allow the following to receive unemployment benefits:

- (1) An individual for whom a majority of the weeks of work in the individual's base period includes part-time work and who is seeking only part-time work; and
- (2) An individual who is separated from employment for a compelling family reason.

Testimony in support of this measure was submitted by one state agency and two organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that during this time of economic hardship, many people are limited in their employment options and sometimes need to accept offers of part-time employment that allow them to earn income and collect unemployment benefits while also meeting other needs. Under existing law, individuals seeking only part-time employment may be ineligible to receive unemployment benefits under requirements for availability for work, active search for work, or refusal to accept work.

Your Committee further finds that this measure allows for more flexibility in the unemployment insurance system and codifies current practices of the Department of Labor and Industrial Relations in accordance with the provisions of the American Recovery and Reinvestment Act of 2009.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1568, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1568, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 450 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 378**

The purpose of this measure is to require a bag limit for uhu and goatfish to no more than two each of kumu, moano ukali, munu, and uhu per person, per day, for recreational, subsistence, or commercial purposes on the island of Maui.

Testimony in support of this measure was submitted by four organizations and seventy-three public citizens. One public citizen supported the intent of the measure. Testimony in opposition was submitted by one organization and three public citizens. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that in recent years, the number of uhu and goatfish found on reefs surrounding the island of Maui has declined. The popularity of uhu and goatfish as food fish has led to over-harvesting on the island of Maui and has made harvesting these fish for food difficult.

There are eight species of uhu (family *Scaridae*) in Hawaii. Also known as parrotfish, once commonly found on reefs surrounding Maui, uhu is the most prolific contributor of sand production of all Hawaiian reef fishes. Although uhu can be harvested year-round, the regal uhu, palenose uhu, redlip uhu, bullethead uhu, and the spectacled uhu, require a minimum length of twelve inches by measure of fork length (the distance from the fish's mouth or snout to the fork of the tail) to be legally harvested in Hawaii. Although kumu can be harvested year-round, the white saddle goatfish must have a minimum length of ten inches by measure of fork length to be legally harvested in Hawaii. The moano ukali and munu are unregulated species and currently have no size restrictions.

Your Committee further finds that size restrictions are inadequate to protect the uhu and kumu. According to *Ecology of a Changing Planet*, there are two evolutionary predictions that arise when only larger fish are targeted. The first prediction is that by removing larger fish from a population, a strong selective pressure against growing larger is created, leaving only smaller fish to reproduce. The second prediction comes from leaving a population of smaller fish to survive. The small genes become favored and over time the reproductive size of the species becomes smaller. Fish maturing at a smaller size divert energy from growth to reproduction, the fish do not grow as large and grow more slowly. Thus, the tonnage of catchable fish declines as the size of the fish species decreases.

Your Committee believes that imposing bag limits in addition to size restrictions will protect the reef fish populations, and the production of sand for the island of Maui.

Your Committee has amended this measure by repealing it upon the effective date of comparable administrative rules adopted by the Department of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 378, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 378, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Takamine, Hemmings).

**SCRep. 451 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 411**

The purpose of this measure is to permit overnight camping at Kaena Point State Park, subject to rules adopted pursuant to chapter 91, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by one state agency and thirty-four public citizens. Two public citizens supported the intent of this measure. Testimony in opposition was submitted by one state agency, one organization, and one public citizen. Copies of written testimony are available for review on the Legislature's website.

The Department of Land and Natural Resources permits fishing at Kaena Point State Park at any time during the day or night. However, fishers have been cited and fined by the Division of Conservation and Resources Enforcement for possession of camping-related paraphernalia. Testifiers described the paraphernalia as folding chairs, coolers, and other items used while fishing.

Your Committee finds that Kaena Point State Park is a unique area, and urges the Department of Land and Natural Resources to cooperate with the community to develop administrative rules to allow fishers and other responsible stewards to camp overnight. Your Committee believes that by working together to develop administrative rules unique to the character of Kaena Point State Park and the community surrounding it, people can continue to use the park and minimize adverse environmental impacts of overnight camping and fishing.

Your Committee has amended this measure by:

- (1) Directing the Department of Land and Natural Resources to develop administrative rules to permit overnight camping at Kaena Point State Park by July 1, 2010;
- (2) Requiring the Department of Land and Natural Resources to submit a report to the Legislature within twenty days prior to the convening of the 2010 Regular Session on the progress of the Kaena Point State Park administrative rule adoption process; and
- (3) Making technical, nonsubstantive changes for consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 411, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Takamine, Hemmings).

**SCRep. 452 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Energy and Environment on S.B. No. 50**

The purpose of this measure is to require the Board and Land and Natural Resources to conduct public hearings prior to awarding a lease of public land to a renewable energy producer.

Testimony in support of this measure was submitted by four organizations and sixteen public citizens. Three state agencies, one organization, and ten public citizens supported the intent of the measure. One organization and one public citizen provided comments, and one public citizen submitted testimony in opposition. Copies of written testimony are available for review on the Legislature's website.

Your Committees find that recent events have led to the need for increased community involvement in the issuance of long-term leases for renewable energy producers. Several large pasture lessees of State owned lands recently woke up to read in the newspaper that the Department of Land and Natural Resources would be holding a hearing the following day for a bio-fuels project that could take away some or all of their leases. These affected lessees had not been contacted by the Department of Land and Natural Resources.

Your Committees further find this measure provides for an open process that allows for the fair evaluation of multiple energy producers interested in the same public lands for energy projects. Your Committees believe that encouraging renewable energy producers to seek private lands as well as public lands is preferable and that current lessees should not be terminated if they are in full compliance with their lease. Your Committees further believe that current lessees and energy producers can come together with the shared vision of an increased local food supply and locally-produced energy.

Your Committees have amended this measure by:

- (1) Deleting the requirement that the renewable energy producer project not be exclusively dependent upon acquiring state land;
- (2) Clarifying that the amendments to section 171-95, Hawaii Revised Statutes, do not prevent the Department of Land and Natural Resources from participating in direct negotiations with renewable energy producers;
- (3) Providing a right of first refusal for renewable energy producers when renewing a lease with the Department of Land and Natural Resources; and
- (4) Requiring the Department of Land and Natural Resources to conduct the public hearings in the vicinity of the public lands under discussion, by removing the term "county" and replacing it with the term, "island".

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 50, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 50, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (English, Fukunaga, Hooser).

**SCRep. 453 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 635**

The purpose of this measure is to amend the powers of the Department of Land and Natural Resources for state parks.

Prior to the hearing on this measure, your Committee circulated a proposed draft, the purpose of which is to transfer jurisdiction and management of Kahana Valley from the Department of Land and Natural Resources to the Office of Hawaiian Affairs and to direct the Office of Hawaiian Affairs to assist six families facing eviction with obtaining long-term residential leases if these six families qualify under the original requirements of Act 5, Session Laws of Hawaii 1987, as amended.

Testimony in support of the proposed draft was submitted by four public citizens, and one state agency supported the intent of the proposed draft. One agency submitted comments, and testimony in opposition was submitted by twenty-seven public citizens. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Act 5, Session Laws of Hawaii 1987, as amended, set aside a portion of public lands in Kahana Valley, O'ahu, tax map key: (1) 5-2-01: 1, 5-2-02: all parcels, and 5-2-05: 1 and 21, and authorized the Department of Land and Natural Resources to negotiate and enter into long-term residential leases with persons who:

- (1) On April 13, 1987, resided on the set aside lands and have occupied those lands since 1970; or
- (2) On April 13, 1987, had permits issued by the Department of Land and Natural Resources allowing them to reside on designated parcels on the set aside lands.

One provision of the long-term residential leases required all qualified lessees to agree to be an essential part of the interpretive programs in the Kahana Valley State Park, as directed by the Department of Land and Natural Resources.

Eventually, thirty-one original families qualified for the long-term residential leases. However, descendants of six families that did not originally qualify for long-term residential leases remained in the valley. The Department of Land and Natural Resources recently started eviction actions against these six families.

Your Committee finds that the residents of Kahana Valley should have a meaningful say in planning the future of Kahana Valley State Park. Your Committee urges the Department of Land and Natural Resources to engage in a dialogue with the residents and lineal descendants on the issues raised during testimony. Kahana Valley is a unique residential and cultural site, and it is understandable that those who are connected with Kahana Valley want to return as lessees. Your Committee notes that the six families who have eviction actions against them should have the opportunity to reconcile their issues.

Your Committee has amended this measure by replacing its contents with the contents of the proposed draft, which was circulated prior to this hearing. Your Committee has amended the proposed draft by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 635, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Fukunaga).

**SCRep. 454 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 382**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF AGRICULTURE**

G.M. No. 382 ALAN H. GOTTLIEB, for a term to expire 6-30-2013.

Your Committee received testimony in support of Alan H. Gottlieb from the Board of Agriculture, the Agribusiness Development Corporation, James Campbell Company LLC, the Hawaii Farm Bureau Federation, the Hawaii Agriculture Research Center, the Hawaii Cattlemen's Council, Inc., the Hawaii Cattle Producers Cooperative Association, and eight private citizens. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Gottlieb was born and raised in Montreal, Canada. He moved to Hawaii in 1978 and obtained a Bachelor's degree in Business Administration from the University of Hawaii at Manoa.

Mr. Gottlieb has had a variety of experiences in the agricultural industry. He is currently the Secretary/Treasurer and Business Manager of Ponoholo Ranch, Limited. He previously worked for Kahua Beef and Kahua Ranch Limited, where he was promoted to controller and later general manager. He also worked as a General Manager of Kahua Nurseries, Inc., Chief Operating Officer of Hawaiian Earth Products, Ltd., and held various positions with AG Management, Ltd., and Second City Property Management, Inc.

Mr. Gottlieb currently serves on several industry boards and associations, including the Board of Agriculture, the Oahu Resource Conversation and Development Council, the Agricultural Leadership Foundation of Hawaii, the Board of the Hawaii Cattlemen's Council, and the Hawaii Beef Industry Council.

Your Committee finds that Mr. Gottlieb is respected as a leader in the agricultural industry. Testimony in support indicates that Mr. Gottlieb exhibits professionalism and is knowledgeable about agribusiness issues in Hawaii, and that he is a strong advocate for agriculture. Your Committee finds that Mr. Gottlieb's active involvement in and extensive knowledge of the agricultural industry will be great assets as he continues to help the Board of Agriculture tackle the difficult issues facing the industry.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has

found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 455 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 393 and 394**

Recommending that the Senate advise and consent to the nomination of the following:

KOKE'E STATE PARK ADVISORY COUNCIL

G.M. No. 393 IVAN I. NITTA, for a term to expire 6-30-2009; and

G.M. No. 394 IVAN I. NITTA, for a term to expire 6-30-2012.

Your Committee received testimony in support of Ivan I. Nitta from the Department of Land and Natural Resources and Mayor Bernard P. Carvalho Jr. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ivan I. Nitta was born and raised in Kekaha, Kaua'i. He spent a considerable amount of time hunting in Koke'e and Waimea Canyon, fishing in Pu'u Lua Reservoir, and hiking trails throughout Koke'e State Park. Mr. Nitta graduated from Waimea High School in 1966. He attended the University of Hawaii for one year before joining the Hawaii Air National Guard in 1967, where he specialized in electrical power production at the Koke'e Air Force Station.

Mr. Nitta worked at the National Aeronautics and Space Administration Tracking Station at Koke'e State Park from 1968 to 1978, initially as a facilities maintenance person, then later as a power plant operator. In 1978, Mr. Nitta began work for the County of Kauai Public Works Wastewater Division as a wastewater maintenance mechanic. He retired from the County of Kauai in 2003 as a wastewater plant maintenance mechanic working supervisor.

Mr. Nitta's family has had a recreation residence in Pu'u ka Pele for over sixty years; in that time, Mr. Nitta has witnessed many changes in the park community and natural resources. Testimony in support of Mr. Nitta indicates that Mr. Nitta is environmentally sensitive and committed to the preservation of local resources and lifestyle. Your Committee finds that Mr. Nitta would bring significant experience and dedication to the Koke'e State Park Advisory Council, bringing valuable contributions to the table in meeting the challenge of sustainability with increased use of the park.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 456 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 390, 391 and 396**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAIIAN HOMES COMMISSION

G.M. No. 390 ALBERT P. NAHALE-A III, for a term to expire 6-30-2009;

G.M. No. 391 ALBERT P. NAHALE-A III, for a term to expire 6-30-2013; and

G.M. No. 396 HENRY K. TANCAYO SR., for a term to expire 6-30-2012.

Your Committee received testimony in support of Mr. Albert P. Nahale-a III from the Department of Hawaiian Home Lands and the Council for Native Hawaiian Advancement.

Mr. Nahale-a obtained a Bachelor's degree in Political Science from the University of Pennsylvania and is pursuing a Master's degree in Education Administration from Arizona State University. Mr. Nahale-a has worked at the Keaukaha Homestead Community for the past six years as Director of the Ka Umeke Kaeo Hawaiian Immersion Public Charter School. He has previously worked at Hawaii Community College and the Council for Native Hawaiian Advancement, and has served as Board President of the Hawaii Charter School Network and a member of various boards and organizations, including the Native Hawaiian Legal Corporation, Na Lei Naauao Native Hawaiian Charter School Alliance, Ka Umeke Kaeo Hawaiian Public Charter School, Kakoo Ka Umeke, Inc., The Strive Company, the Kellog Foundation, Lehua Jaycees, and the Boy Scouts of America-Troop 19, Hilo.

Your Committee finds that Mr. Nahale-a's experience with the Ka Umeke Kaeo Hawaiian Immersion Public Charter School and his background in education and community development offer invaluable knowledge and experience to the Hawaiian Homes Commission.

Your Committee received testimony in support of Mr. Henry K. Tancayo Sr. from the Department of Hawaiian Home Lands, Blessed Damien Catholic Parish, and one private citizen.

Mr. Tancayo was raised on Hawaiian home lands and currently resides on a forty-acre homestead lot in Hoolehua. As a homesteader, Mr. Tancayo has been involved with agriculture, raised livestock, owned a small business, and has been an active community member. In 1968, he began working for the Maui County Fire Department as a Fire Fighter-Engineer. He served as Fire Captain and Island Commander, and retired in 1993 as a Battalion Chief.

Residing throughout his life on Molokai, Mr. Tancayo has been president of Kualapuu School Parent Teacher Association, Molokai Jaycees, and the Kualapuu-Hoolehua Catholic Association. He was active in 4-H for about twenty years as a livestock leader and

council member. He helped create the Molokai Homestead Livestock Association and served as president of the Association. He also founded the Molokai Livestock Cooperative and served on the Molokai Planning Commission. Mr. Tancayo currently volunteers with Hospice Molokai, the Molokai Seniors Program, and the Molokai Catholic Community.

Your Committee finds that Mr. Tancayo would bring invaluable knowledge, experience as a homesteader, and experience as an active leader and community member, to the Hawaiian Homes Commission.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 457 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 377 and 399**

Recommending that the Senate advise and consent to the nominations of the following:

LEGACY LAND CONSERVATION COMMISSION

G.M. No. 377 CARL J. BERG JR., for a term to expire 6-30-2013; and

G.M. No. 399 KAREN GS YOUNG, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Carl J. Berg Jr. and Karen GS Young to have the requisite qualifications to be nominated to the Legacy Land Conservation Commission.

Testimony in support of the nomination of Mr. Berg was submitted by one state agency, the Kauai County Mayor, and three organizations.

Mr. Berg received his Bachelor's degree in Zoology from the University of Connecticut, Masters in Marine Science from the University of the Pacific, and Doctors of Philosophy in Zoology from the University of Hawaii at Manoa. Mr. Berg is presently employed as a Senior Scientist at Surfrider Foundation Kauai Chapter and is the owner and scientist for Hawaiian Wildlife Tours.

Testimony in support of the nomination of Ms. Young was submitted by the Representative of the 45th House district, one state agency, one organization, and three public citizens.

Ms. Young received her Bachelor's degree in Professional Nursing from the University of Hawaii at Manoa, her Master's in Public Health from the University of Hawaii at Manoa, and her Master's of Science in Nursing from Western University of Health Sciences. Ms. Young is presently employed as a Clinical Preceptor and Advanced Professional Registered Nurse at the Waianae Comprehensive Health Center.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 458 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 266**

Recommending that the Senate advise and consent to the nomination of the following:

ADVISORY COMMITTEE ON PESTICIDES

G.M. No. 266 JERRY A. NISHEK, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Jerry A. Nishek to have the requisite qualifications to be nominated to the Advisory Committee on Pesticides.

Testimony in support of the nomination of Mr. Nishek was submitted by one state agency and the Kauai County Mayor. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Mr. Nishek is a licensed Contractor, certified Arborist, and is certified for Commercial Applicators of Restricted Pesticides. He received his education at the North Dakota School of Science, the National Highway Institute, and the Contractor's License Center. Mr. Nishek is presently employed as the General Manager for Kauai Nursery and Landscaping, Inc., and the General Manager for Operations of KNL Maintenance, Inc.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 459 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 378**

Recommending that the Senate advise and consent to the nomination of the following:

COMMUNITY-BASED ECONOMIC DEVELOPMENT ADVISORY COUNCIL

G.M. No. 378 STEPHANIE S. H. CRIVELLO, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Stephanie S. H. Crivello to have the requisite qualifications to be nominated to the Community-Based Economic Development Advisory Council.

Testimony in support of the nomination of Ms. Crivello was submitted by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Crivello currently serves on the Board of Directors for Na Puuwai Native Hawaiian Health Care System, Molokai Land Trust, and the Hawaii Alliance for Community-Based Economic Development, as the Board President for Ke Aupuni Lokahi, Inc., and as Commissioner for the Maui County Fire and Public Safety Commission. Ms. Crivello is presently employed as the Interim Executive Director of the Molokai Enterprise Community.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 460 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 376, 381 and 383**

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF MAUI AND LANAI

G.M. No. 376 JAMES S. BALLAO M.ED., for a term to expire 6-30-2013;

G.M. No. 381 SCOTT G. FISHER, for a term to expire 6-30-2013; and

G.M. No. 383 EDWARD H. KAAHUI, for a term to expire 6-30-2013.

Your Committee reviewed the personal histories, resumes, and statements by the nominees, and finds James S. Ballao, M.Ed., Scott G. Fisher, and Edward H. Kaahui to have the requisite qualifications to be nominated to the Island Burial Council, islands of Maui and Lanai.

Testimony in support of the nomination of James S. Ballao, M.Ed. was submitted by one state agency.

Mr. Ballao received his Bachelor's degree in Sociology from the University of Hawaii at Hilo and his Master's degree in Education from Walden University. He currently serves as a member of the Island Burial Council for the islands of Maui and Lanai and satisfies the requirement of having a member representing the Wailuku District. Mr. Ballao is certified as a Middle School and Secondary Education Teacher in Hawaiian Studies, Social Studies, and Mathematics, and is presently employed as an At-Risk High School Educator with the Comprehensive Student Alienation Program at the Department of Education.

Testimony in support of the nomination of Scott G. Fisher was submitted by one state agency and two public citizens.

Mr. Fisher received his Bachelor's degree in Philosophy from Colorado State University, his Master's degree in Peace and Justice from the Earlham School of Religion, and his Doctor of Philosophy degree in Peace and Community Development Studies from the University of New England. He currently serves as a member of the Island Burial Council for the islands of Maui and Lanai and satisfies the requirement of having a member representing the landowners and developers. Mr. Fisher is presently employed as a Project Manager for the Maui Coastal Land Trust.

Testimony in support of the nomination of Edward H. Kaahui was submitted by one state agency.

Mr. Kaahui received his Associates degree from Maui Community College, and spent thirty years working for Maui County. He currently serves as a member of the Island Burial Council for the islands of Maui and Lanai and satisfies the requirement of having a member representing the Lahaina District. Mr. Kaahui is presently retired from Maui County, operates the Olowalu Juice Stand, and is a taro farmer at Ukumehame Valley.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 461 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 389**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY (HCDA)

G.M. No. 389 KAY M. MUKAIGAWA, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Kay M. Mukaigawa to have the requisite qualifications to be nominated to the Hawai'i Community Development Authority.

Testimony in support of the nomination of Ms. Mukaigawa was submitted by two state agencies, eight organizations, and three public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Mukaigawa has over twenty years experience in the real estate industry in Hawaii, and has served on the Honolulu Board of Realtors Professional Standards Arbitration Committee. Ms. Mukaigawa presently serves on the Board of Governors for the Japanese Cultural Center of Hawaii, and is a member of the Hawaii Developers' Council and the Building Industry Association. Ms. Mukaigawa is presently employed as the principal broker for Primary Properties, Inc.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 462 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 397**

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF KAUA'I AND NI'IHAU

G.M. No. 397 KEITH R. YAP, for a term to expire 6-30-2012.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee and finds Keith R. Yap to have the necessary qualifications to be nominated to the Island Burial Council, Islands of Kaua'i and Ni'ihau.

Testimony in support of the nomination of Keith R. Yap was submitted by one state agency, the Kaua'i County Mayor, the Vice Chair of the Kaua'i County Council, and two organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Mr. Yap received his Bachelor's degree in Business Administration from the University of Hawai'i at Manoa, and is a certified Public Accountant. Mr. Yap is a graduate of Leadership Kauai and serves as a Board member and Treasurer for the Kauai Hospice. Mr. Yap is presently employed as the Director of Finance for the Grove Farm Company, Inc.

Currently serving on the Island Burial Council for the islands of Kaua'i and Ni'ihau under an interim appointment, Mr. Yap brings to the Council a wealth of knowledge and experience in current best practices in finance, real estate, and other related fields. He recently received a vote of confidence from his fellow council members who elected him to be the Vice-Chair of the Council.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 463 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 380, 385 and 398**

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAII

G.M. No. 380 LENINGRAD ELARIONOFF, for a term to expire 6-30-2013;

G.M. No. 385 JAMES G. LEE JR., for a term to expire 6-30-2013; and

G.M. No. 398 CHARLES KUI HIN YOUNG, for a term to expire 6-30-2013.

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Leningrad Elarionoff, James G. Lee, Jr., and Charles Kui Hin Young to have the requisite qualifications to be nominated to the Island Burial Council, island of Hawai'i.

Testimony in support of the nomination of Leningrad Elarionoff was submitted by one state agency.

Mr. Elarionoff is a retired police officer for Hawai'i County, and has served three terms on the Hawaii County Council. Mr. Elarionoff currently serves as a member of the Island Burial Council for the island of Hawai'i and satisfies the requirement of having a member representing the Kohala District. Mr. Elarionoff also presently serves as a member of the Waimea Trails and Greenways Committee.

Testimony in support of the nomination of James G. Lee, Jr. was submitted by one state agency.

Mr. Lee received his Bachelor's degree in Business Administration from Chaminade University. Mr. Lee currently serves as a member of the Island Burial Council for the island of Hawai'i and satisfies the requirement of having a member representing landowners and developers. Mr. Lee is presently employed as the Director of Development at W.H. Shipman, Ltd.

Testimony in support of the nomination of Charles Kui Hin Young was submitted by one state agency.

Mr. Young received his Bachelor's degree in Mechanical Engineering from California Polytechnic State University. Mr. Young currently serves as a member of the Island Burial Council for the island of Hawai'i and satisfies the requirement of having a member representing landowners and developers. Mr. Young is presently employed as the Plant Manager for the Mauna Loa Macadamia Nut Corp.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 464 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 386 and 387**

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF OAHU

G.M. No. 386 AARON D. MAHI, for a term to expire 6-30-2013; and

G.M. No. 387 MARK KAWIKA MCKEAGUE, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Aaron D. Mahi and Mark Kawika McKeague to have the necessary qualifications to be nominated to the Island Burial Council, Island of Oahu.

Testimony in support of the nomination of Mr. Mahi was submitted by one state agency, one organization, and two public citizens.

Mr. Mahi received his Bachelor's degree in Music Education from the University of Hartford, and has served as Bandmaster for the Royal Hawaiian Band and Associate Conductor with the Honolulu Symphony. Mr. Mahi is presently employed as the Executive Director of the Waihona Mele No'eau of the Abigail Kinoiki Kekaulike Kawanakoa Foundation.

Currently serving a term on the Island Burial Council for the island of Oahu, Mr. Mahi has gained an understanding of ancient Hawaiian burial practices through mentorship received from kupuna resources and his own study and research. Mr. Mahi states that as a Hawaiian, it is his duty to repatriate Hawaiian people to their resting places to ensure that the source of their spirits resident in their Iwi will always be intact and safe, thus ensuring the life and breath of the kanaka spiritual realm.

Testimony in support of the nomination of Mr. McKeague was submitted by one state agency, two organizations, and five public citizens.

Mr. McKeague received his Bachelor's degree in Political Science and his Master's degree in Urban and Regional Planning from the University of Hawai'i at Manoa. He also has a graduate certificate in Historic Preservation from the University of Hawai'i at Manoa. Mr. McKeague is the Board President of the PAI Foundation, and is presently employed as a Senior Environmental Planner at Group 70 International, Inc.

As a current member of the Island Burial Council for the island of Oahu, and as a cultural resource planner and practitioner with the legal processes of federal and state historic preservation and burial law over several years, Mr. McKeague has a foundation of relevant experience upon which he hopes to build. Furthermore, he understands that the kupuna who have passed on before us are sources of knowledge, strength, inspiration, wisdom, and spiritual power, and their legacy must be sustained in perpetuity. He believes that positive and effective outcomes can be achieved if a purposeful consideration and respect of the legacy of Hawaii's lands is integrated early into the planning entitlement, conceptual land use design, and site planning processes.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 465 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 375**

Recommending that the Senate advise and consent to the nomination of the following:

NATURAL AREA RESERVE SYSTEM COMMISSION

G.M. No. 375 REBECCA R. ALAKAI, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Rebecca R. Alakai to have the necessary qualifications to be nominated to the Natural Area Reserve System Commission.

Testimony in support of the nomination of Rebecca R. Alakai was submitted by one state agency and two public citizens. Testimony in opposition was submitted by one public citizen. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Alakai received her Bachelor's degree in Zoology and her Master's degree in Geography from the University of Hawai'i at Manoa. Ms. Alakai has served as a member of the Forest Stewardship Advisory Committee and the Hawaii Forestry and Communities Initiative. During her ten years of employment as a Water Planner and Resource Management Specialist with the Department of Hawaiian Home Lands, she assisted in setting native Hawaiian water rights and worked on a breadth of projects including engineering and drainage plans, rate setting, residential and commercial property development, and forest and invasive species projects. Ms. Alakai is presently employed as the senior Planner for the Office of Environmental Quality Control with the Department of Health. She is currently serving her first term on the Natural Area Reserve System Commission.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 466 Commerce and Consumer Protection on S.B. No. 298**

The purpose of this measure is to increase the amount of unpaid maintenance fees that condominium associations may recover in the event of the foreclosure of a condominium apartment.

Your Committee received testimony in support of this measure from the Community Associations Institute and three individuals. Testimony in opposition to this measure was received from Hawaii Bankers Association, Hawaii Financial Services Association, Hawaii Independent Condominium & Cooperative Owners, and Hawaii Council of Associations of Apartment Owners. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the rising number of home mortgage foreclosures puts a burden on associations of apartment owners and on individual apartment owners when an association loses maintenance fees due to foreclosure. Your Committee finds that this measure will allow associations of apartment owners to continue regular upkeep and maintenance and to avoid unnecessarily increasing maintenance fees.

Your Committee has amended this measure by:

- (1) Increasing the maximum recoverable amount of unpaid maintenance fees from \$2,400 to \$3,600; and
- (2) Inserting a new section to include condominiums covered by chapter 514A, Hawaii Revised Statutes, so that this measure applies to all condominiums under Hawaii's parallel regulation structure.

Your Committee notes that the stakeholders who testified on this measure expressed that the maximum recoverable dollar amount contained in this amended measure has been agreed upon by all interested parties. Your Committee further notes that the \$3,600 maximum recoverable amount contained in this amended measure conforms with a similar provision in S.B. No. 572, which your Committee has previously recommended be placed on the calendar for Third Reading.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 298, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Ihara).

**SCRep. 467 Commerce and Consumer Protection on S.B. No. 520**

The purpose of this measure is to specify the types of documents and other evidence that are sufficient to provide a used car dealer with indicia of ownership or right to possession of a used motor vehicle.

Your Committee received testimony in support of this measure from Hawaii Automobile Dealers Association and First Hawaiian Bank. Testimony in opposition to this measure was received from the Honolulu Police Department, Hawaii Insurers Council, and one private citizen. Testimony with comments on this measure was received from the Motor Vehicle Industry Licensing Board, State Farm Insurance, and one private citizen. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that under the current law, it is sufficient that a motor vehicle dealer present proof of possession of a legal ownership certificate for a vehicle that is sold or offered for sale. The current law does not require actual possession of the ownership certificate, nor does it specify what proof of possession is sufficient.

Your Committee has amended this measure by:

- (1) Deleting language relating to "reasonable indicia of ownership or right of possession" and examples of indicia of ownership;
- (2) Adding provisions to distinguish between documentary requirements for new and used motor vehicles;
- (3) Adding a provision to specify that a dealer shall possess evidence that all liens on a used motor vehicle have been satisfied; and

- (4) Making technical, nonsubstantive changes for the purposes of clarity and accuracy.

Your Committee received testimony from the Motor Vehicle Industry Licensing Board and other parties that the stakeholders on this measure have agreed on amended language to clarify this measure and to provide more protection for consumers. Your Committee finds that this measure, as amended, balances consumers' interest in ensuring clear title to a motor vehicle and motor vehicle dealers' interest in efficiently selling their stock.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 520, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 520, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 468 Commerce and Consumer Protection on S.B. No. 549**

The purpose of this measure is to include motorcycles in the State's Lemon Law and thereby make statutory remedies under the State Certified Arbitration Program available to owners of defective motorcycles.

Your Committee received testimony in support of this measure from Street Bikers United and two private citizens. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the inclusion of motorcycles in the State's Lemon Law and the resultant access for owners of defective motorcycles to the State Certified Arbitration Program (SCAP) will not overly tax SCAP's existing resources. Your Committee further finds that in order to successfully implement this measure, the Department of Commerce and Consumer Affairs as well as motorcycle dealers and manufacturers should be given adequate time to establish compliance procedures and to update their informational materials.

Your Committee has amended this measure by clarifying that it applies to sales of motorcycles that take place on or after September 1, 2009, in order to allow all affected parties an opportunity to adequately prepare for the inclusion of motorcycles in the State's Lemon Law.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 549, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 549, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 469 Commerce and Consumer Protection on S.B. No. 574**

The purpose of this measure is to extend the Condominium Dispute Resolution Pilot Project by two years.

Your Committee received testimony in support of this measure from Hawaii Independent Condominium & Cooperative Owners and Hawaii Council of Associations of Apartment Owners. Testimony in opposition to this measure was received from the Community Associations Institute and two individuals. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that although there have not been a sufficient number of requests for hearings filed with the Condominium Dispute Resolution Pilot Project to warrant the establishment of a permanent condominium dispute resolution contested case process, there is a need to provide a limited extension of the pilot project until a satisfactory replacement process may be established. Your Committee notes that the stakeholders who presented testimony on this measure expressed that all interested parties to this issue have agreed to work together to establish an evaluative mediation process to resolve condominium disputes. Your Committee encourages the proponents of evaluative mediation to work with the Department of Commerce and Consumer Affairs to investigate evaluative mediation and make recommendations for instituting such a process by either administrative rule or legislation.

Your Committee has amended this measure by making a minor, nonsubstantive technical change.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 574, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 574, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Ihara).

**SCRep. 470 Commerce and Consumer Protection on S.B. No. 636**

The purpose of this measure is to make minor housekeeping amendments to section 502-33, Hawaii Revised Statutes, relating to the recording of documents with the Bureau of Conveyances.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will clarify the language of section 502-33 and bring it into conformity with standard legislative drafting conventions.

Your Committee also heard S.B. No. 637, relating to the Department of Land and Natural Resources and received testimony in support of that measure from the Department of Land and Natural Resources. Written testimony on S.B. No. 637 presented to the Committee may be reviewed on the Legislature's website.

Upon further consideration, your Committee has amended this measure by adding the contents of S.B. No. 637, which also makes housekeeping amendments relating to the recording of documents with the Bureau of Conveyances. Your Committee has incorporated the language of S.B. No. 637 into this measure for the purpose of legislative efficiency since both measures consist of housekeeping amendments needed to clarify existing language regarding the registration and recordation of documents with the Bureau of Conveyances.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 636, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 636, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Ihara).

**SCRep. 471      Judiciary and Government Operations on S.B. No. 506**

The purpose of this measure is amend the Hawaii public procurement code to:

- (1) Define "Hawaii input";
- (2) Clarify the definition of "Hawaii products" to include Hawaii input of more than fifty per cent of the total cost of the product;
- (3) Allow self-certification when submitting a response to a solicitation that seeks a preference for Hawaii products;
- (4) Require that for calculating the price or bid for a Hawaii product item, a fifteen per cent reduction in the price or bid be provided where the offer includes Class II Hawaii items;
- (5) Require any person desiring a preference, who is not on the Hawaii products list, to certify the Hawaii product when submitting a response to a solicitation;
- (6) Establish penalties for failing to adequately verify, deliver, or supply Hawaii products when a certification has been made; and
- (7) Amend the Hawaii Administrative Rules relating to procurement to reflect the statutory changes made by this measure.

Your Committee received testimony in support of this measure from the County of Hawaii Department of Research and Developments; Hawaii Farm Bureau Federation; Big Island Farm Bureau; and Kona County Farm Bureau. Testimony in opposition was received from the Department of Agriculture. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would provide Hawaii agricultural producers increased opportunities to access value-added produce markets in the State's institutional facilities that constitute bulk purchasers.

Based upon the testimony, your Committee finds that it is preferable to leave in place the administrative procurement exemptions for certain Hawaii products, most notably fresh meats and produce, animals and plants, and food and fodder for animals, which form the basis of Hawaii agriculture.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 506, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Gabbard).

**SCRep. 472      Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1069**

The purpose of this measure is to require the Hawaii Community Development Authority to collaborate with and consider the recommendations of the working group of interested stakeholders in developing, accepting, and implementing plans for the development of the Kakaako makai area of the Kakaako Community Development District.

Testimony in support of this measure was submitted by one organization and four public citizens. One state agency supported the intent of this measure, and offered comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Kakaako Makai Community Planning Advisory Council, a diverse group of stakeholders, has worked for two years to develop a vision and guiding principles for the development of the Kakaako makai area. Your Committee understands that the Hawaii Community Development Authority will include the Kakaako Makai Community Planning Advisory Council in the next process, to develop a master plan and rules for the Kakaako makai area, and this measure will ensure the Kakaako Makai Community Planning Advisory Council's role in that process.

Your Committee has amended this measure by:

- (1) Deleting the description of the boundaries of the Kakaako makai area, and replacing it with the recommended description of several members of the Kakaako Makai Community Planning Advisory Council; and
- (2) Making technical, nonsubstantive changes for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1069, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 473 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1083**

The purpose of this measure is to include additional native Hawaiian organizations for the Department of Land and Natural Resources to consult with to determine whether a burial site should be preserved in place or relocated and to develop a list of candidates for the burial councils.

Testimony in support of this measure was submitted by one state agency and two public citizens. One state agency and one public citizen supported the intent, and one public citizen provided comments. Testimony in opposition was submitted by one organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that determining the appropriate treatment for Hawaiian burials requires specific expertise and consideration of all applicable information. The intent of this measure is to be inclusive and seek a broad range of native Hawaiian organizations with expertise to provide information for the proper and respectful treatment of remains. Your Committee recognizes that the Department of Land and Natural Resources already consults with members of these groups, and this measure will ensure that the Department of Land and Natural Resources continues to consult with these groups in a consistent way.

Your Committee has amended this measure by:

- (1) Including the Kanaka Council in the list of native Hawaiian organizations for the Department of Land and Natural Resources to consult with; and
- (2) Making technical, nonsubstantive changes for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1083, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 474 Education and Housing on S.B. No. 162**

The purpose of this measure is to repeal the Performance Standards Review Commission.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that since the creation of the Performance Standards Commission in 1991, the Department of Education has assessed its standards to ensure that the standards reflect the needs of students as well as meet the educational goals adopted by the Board of Education. Your Committee further finds that since 1997, the Department has convened the Performance Standards Review Commissions every four years, as specified in section 302A-201, Hawaii Revised Statutes. The Commission's reports have consistently confirmed and reinforced the independent findings of the Department, and the efforts of the Performance Standards Review Commission have only duplicated the efforts of the Department of Education.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 475 Judiciary and Government Operations on S.B. No. 259**

The purpose of this measure is to allow persons seventy-five years of age or older to claim exemption from jury duty, beginning January 1, 2010.

Your Committee received testimony in support of this measure from the AARP. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Existing law allows persons eighty years old or older to claim an exemption from jury duty. Your Committee finds that seventy-five years of age is an appropriate threshold age to provide a person called for jury duty with the discretion to claim an exemption or to choose to serve on a jury.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 259 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 476 (Majority) Judiciary and Government Operations on S.B. No. 654**

The purpose of this measure is to allow for election-day voter registration.

Your Committee received testimony in support of this measure from The League of Women Voters of Hawaii, Common Cause Hawaii, and American Civil Liberties Union of Hawaii. Comments were received from the Office of Election. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that election-day voter registration permits eligible voters to register and vote on primary and general election days. This enhances the participatory democracy process and promotes increased voter turnout.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 654 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Gabbard).

**SCRep. 477 Judiciary and Government Operations on S.B. No. 848**

The purpose of this measure is to make permanent provisions of the law pertaining to copper theft and the purchase of copper by scrap dealers, as contained in Act 197, Session Laws of Hawaii 2007.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Honolulu Department of the Prosecuting Attorney, Honolulu Police Department, and one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that copper thefts have had a great impact on the residents of Hawaii. Copper thieves have dismantled street lights, caused power outages, and caused the closure of parks and other facilities. One attempted theft resulted in the death of an individual.

Act 197 took a two-pronged approach to the problem by:

- (1) Establishing theft of copper as a felony offense; and
- (2) Imposing additional requirements on scrap dealers and those that sell copper to scrap dealers to deter the sale of stolen copper. A two-year sunset date, of July 1, 2009, was placed on the Act 197 amendments to allow for an assessment of the Act's effectiveness.

Your Committee finds that during the two-year period in which the copper theft provisions have been in effect, Act 197 has had a positive impact and has greatly facilitated the investigation and prosecution of copper theft offenses. Therefore, your Committee believes that Act 197 should be made permanent.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 848 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 478 Judiciary and Government Operations on S.B. No. 856**

The purpose of this measure is to extend the expiration date of the Hawaii state identification card from six to eight years after the year of issuance, beginning after July 1, 2009.

Your Committee received testimony in support of this measure from Department of the Attorney General and The League of Women Voters of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the eight-year period of validity for the Hawaii state identification card is consistent with the period of validity applicable to Hawaii driver licenses. This measure would facilitate compliance with the federal Real ID Act, which requires that driver licenses and identification cards not exceed an eight-year period of validity for each issuance.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 479 Judiciary and Government Operations on S.B. No. 906**

The purpose of this measure is to allow interactive conference technology to replace videoconferencing as a permitted means of holding meetings of boards and commissions under the sunshine law.

Your Committee received testimony in support of this measure from the Governor's Office; Hawaii State Council on Developmental Disabilities; Disability & Communication Access Board; and The League of Women Voters of Hawaii. Comments were received from the Office of Information Practices. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure defines “interactive conference technology” as any form of audio or audio and visual conference technology, including teleconference, videoconference, and voice over internet protocol, that facilitates interaction between the public and board members.

The intent of this measure is to amend the current videoconference meeting requirements by allowing public agency meetings that only use audio communications, by requiring that the meetings by audio communication without the use of video technology meet specific requirements that would enable the members of the board or commission and the public to participate as fully as they may be able without being physically present at the meeting. The measure introduces a new definition entitled “interactive conference technology” to include different and more current technological means of communication, that allows meetings to take place even though one or more members of the board or commission is not meeting in the same location.

The measure retains all of the video conference requirements on quorum, voting requirements of the members on the board or commission, and notice of meetings and meeting location requirements.

Your Committee finds that this measure would facilitate the holding of public agency meetings without violating the spirit and intent of Hawaii’s sunshine law. Members of boards and commissions and the public who reside on neighbor islands and who find it difficult to travel because of economic, health, or other reasons, would still be able to participate in meetings that are usually held in Honolulu.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 906 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 480      Judiciary and Government Operations on S.B. No. 1215**

The purpose of this measure is to propose a constitutional amendment to require candidates for the state Senate or House of Representatives to be a resident of the legislative district from which the person is a candidate for a period of not less than twelve consecutive months prior to the next succeeding general election.

Your Committee received testimony in support of this measure from The League of Women Voters of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that a candidate for legislative office should possess adequate knowledge of the district the candidate seeks to represent. Your Committee believes that requiring that the candidate reside in the district the candidate seeks to represent for at least twelve months prior to the general election would help facilitate an understanding of the concerns and interests of the district’s constituency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1215 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Gabbard).

**SCRep. 481      Labor on S.B. No. 309**

The purpose of this measure is to allow sheriffs’ chaplains to be entitled to workers’ compensation if injured while performing services for the Department of Public Safety.

This measure defines a sheriffs’ chaplain as a member of an authorized chaplaincy program of the Department of Public Safety who performs functions similar to a police chaplain in a voluntary and unpaid capacity for the Sheriff Division.

Testimony in support of this measure was submitted by the Department of Public Safety. A copy of the written testimony is available for review on the Legislature’s website.

Your Committee finds that sheriffs’ chaplains should receive the same workers’ compensation benefits as other volunteers such as police chaplains, who currently receive workers’ compensation benefits, as sheriffs’ chaplains perform services similar to those provided by police chaplains.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 309 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 482      Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 721**

The purpose of this measure is to change the authority of the Hawaii Community Development Authority (HCDA) to assess the costs of providing public facilities against real property in the community development district from mandatory to discretionary.

Testimony in support of this measure was submitted by one private organization and five public citizens. Testimony in support of the intent of the measure, with comments, was provided by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature’s website.

Your Committee finds that currently, the HCDA is required to assess part of the cost of providing public facilities within improvement districts against real property specially benefiting from such improvements. However, there are concerns from affected small business landowners that these mandatory assessments could make it prohibitive to do business within the HCDA improvement districts. Further, landowners may also lose property to accommodate improvements, such as widening of rights-of-way. Your Committee finds that these hardships may be better addressed if the HCDA is given specific discretion regarding whether to assess these costs or not.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 721 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 483 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1108**

The purpose of this measure is to extend the sunset date of the 'Aha Kiole Advisory Committee to 2011.

Testimony in support of this measure was submitted by four private organizations and one public citizen. Testimony in support of the measure, with comments or suggestions, was submitted by one private organization. Testimony in opposition to the measure was submitted by one state agency and one private individual. Comments were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the 'Aha Kiole Advisory Committee (AKAC) was created in 2007 to create a system of best practices based upon the indigenous resource management practices of traditional moku (regional) boundaries that acknowledges the natural contours of land and the specific resources located within those areas. Even with limited resources, the AKAC has been working diligently with moku representatives and ahupua'a communities since that time, to restore the Aha Moku System state-wide. Your Committee finds that this restored system will provide valuable aid to the State in our goal of ecosystem sustainability in Hawaii. Your Committee further finds that more time is needed by the AKAC to continue and complete its important work, as outlined in the 2009 Legislative Report submitted to the Legislature by the AKAC. Accordingly, your Committee finds that extending the sunset date of the AKAC is in the public's best interests.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1108 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 484 Human Services on Gov. Msg. No. 297**

Recommending that the Senate advise and consent to the nomination of the following:

STATE REHABILITATION COUNCIL

G.M. No. 297 JONATHAN J. CHUN, for a term to expire 6-30-2012.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Jonathan J. Chun to have the necessary qualifications to be nominated to the State Rehabilitation Council.

Testimony in support of the nomination of Jonathan J. Chun was submitted by the Department of Human Services, the Mayor of Kauai, the Kauai County Office of the County Attorney, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Chun received his Juris Doctorate, Cum Laude, from Gonzaga School of Law and a Bachelor of Arts degree from the University of Hawaii. He is currently an Attorney with Belles Graham Proudfoot Wilson & Chun, LLP. Mr. Chun has served previously as a State Senator for the Seventh Senatorial District, in which capacity he held various leadership positions. He has also worked for the County of Kauai Office of the County Attorney as the First Deputy County Attorney, the City and County of Honolulu's Department of the Corporation Counsel as Deputy Corporation Counsel, and White & Tom as an Associate.

Mr. Chun has contributed to numerous community organizations on Kauai. He has served as a Board member or been active in organizations including King Kaumualii Elementary School, Hoike Public Access Television, and Lihue Missionary Church. Mr. Chun represents the Workforce Development Council on the State Rehabilitation Council and is the current Chair of the State Rehabilitation Council. According to testifiers, he has been actively involved in the work of the State Rehabilitation Council, and his knowledge, experience, and dedication to the Kauai community as a practicing attorney, former Senator, and community volunteer make him an excellent nominee for the State Rehabilitation Council.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 485 Human Services on Gov. Msg. Nos. 298, 300 and 301**

Recommending that the Senate advise and consent to the nominations of the following:

EARLY LEARNING COUNCIL

- G.M. No. 298 CHARLES E. LARSON, for a term to expire 6-30-2010;  
 G.M. No. 300 CRYSTAL RAY K. NAONE, for a term to expire 6-30-2010; and  
 G.M. No. 301 LORA A. PERRY, for a term to expire 6-30-2011.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Charles E. Larson, Crystal Ray K. Naone, and Lora A. Perry to have the necessary qualifications to be nominated to the Early Learning Council.

Testimony in support of the nomination of Charles E. Larson was submitted by one organization and two individuals.

Mr. Larson earned a Bachelor's degree in Education. He is currently the Director of Seagull Schools and has worked previously as a Kauai Head Start Trainer Consultant and Teacher at the Family Services Center in Kalihi. Mr. Larson was instrumental in the establishment of the Childcare Business Coalition in 1997. He has also served as President of the Hawaii Intergenerational Network and as a member of the Kokua Council.

According to testifiers, Mr. Larson would provide a wealth of knowledge on developing successful public-private partnerships to promote early education. Mr. Larson is known as an innovator and collaborator in the field of Early Education and was recognized for his creativity in 2006, when he received the Kapolei Outstanding Achievement Award for Entrepreneur of the Year.

Testimony in support of the nomination of Crystal Ray K. Naone was submitted by one organization.

Dr. Naone earned her Doctorate of Philosophy, Master of Arts, and Bachelor of Arts degrees in Political Science from the University of Hawaii at Manoa. She is the Chief Executive Officer of the Institute for Native Pacific Education and Culture, the former Community Relations and Development Director of the Keiki O Ka Aina Family Learning Centers, and the former Executive Director of the Pa Lehua Project. Dr. Naone has also previously handled business operations for Productions K2 Culture Seminars, danced hula professionally, and served as a Hawaiian Immersion Teacher at several schools.

According to testimony, Dr. Naone is very knowledgeable in improving learning environments and programs for Native Hawaiian children. She is experienced in elementary education and family child learning programs and would be a valuable member of the Early Learning Council.

Testimony in support of the nomination of Lora A. Perry was submitted by one organization and four individuals.

Ms. Perry earned a Master's degree in Elementary Education from the University of Hawaii, a Bachelor's degree in Organizational Management from Hawaii Loa College, and an Associate's degree in Early Education from Honolulu Community College. She also has a Child Development Associate credential.

Ms. Perry is currently the Co-Director of Na Pono No Na Ohana, a program of the Partners in Development Foundation. She also serves as an Equipped for the Future Cadre Member and a Consultant/Trainer for Education for Adults and Children Programs in the State of Hawaii. She has previously held numerous positions as a coordinator, trainer, or teacher for programs and schools such as Blanche Pope Elementary's Even Start Program, People Attentive to Children, Nuuanu Preschool, and Kamehameha Schools.

Ms. Perry is described by testifiers as a well-qualified trainer and mentor who is dedicated to providing families with high-quality education. She is an expert in the field of Early Childhood Education and currently directs an exemplary family education program. As an administrator, she is experienced in managing programs, collaborating with both state and federal governmental agencies, and advocating for early childhood and family education learning. Ms. Perry's passion, experience, and knowledge would make her a valuable member of the Early Learning Council.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
 Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 486 Human Services on Gov. Msg. Nos. 302, 424, 425 and 426**

Recommending that the Senate advise and consent to the nominations of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS (PABEA)

- G.M. No. 302 GARY SIMON, for a term to expire 6-30-2013;  
 G.M. No. 424 MARTIN E. ARTHUR II, for a term to expire 6-30-2013;  
 G.M. No. 425 PATRICK J. DUARTE, for a term to expire 6-30-2013; and  
 G.M. No. 426 GARY Y. FUJITANI, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Gary Simon, Martin E. Arthur II, Patrick J. Duarte, and Gary Y. Fujitani to have the necessary qualifications to be nominated to the Policy Advisory Board for Elder Affairs.

Testimony in support of the nomination of Mr. Simon was submitted by the Executive Office on Aging and six individuals.

Mr. Simon earned a Bachelor's degree in Chemistry from the University of Hawaii. He currently serves as the Administrative Director of St. Francis Hospice, Director of St. Francis Health Services for Senior Citizens, and Manager of the St. Francis Lifeline

Program. He has previously served as Business Manager and Office Manager of St. Francis Hospice, and as the Executive Assistant and Office Manager of Focus Technologies, Inc., in Washington, D.C.

Mr. Simon has been a member of the Policy Advisory Board for Elder Affairs (PABEA) since 2005. As a PABEA member, he has held several leadership positions, including First Vice Chair of PABEA, Chairman of the Plans and Projects Committee, and Chairman of the Legislative Committee. He has also been a member of the Executive, Rules and Bylaws, and Legislative Committees. Additionally, Mr. Simon has been a participant or representative in other organizations, such as the Aloha Council, Boy Scouts of America, Hawaii's Partnership for Appropriate and Compassionate Care, the Manoa Youth Baseball League, and the Hawaiian Islands Hospice Organization.

Mr. Simon has been described by testifiers as a tireless administrator who is committed, compassionate, hard-working, knowledgeable, and humble. He has proven to be a successful leader, encouraging his co-workers while making difficult business decisions that have led to growth of St. Francis Hospice and improved benefits for patients, families, and physicians.

Testimony in support of the nomination of Mr. Arthur was submitted by the Executive Office on Aging.

Mr. Arthur currently teaches adult education classes on basic computer skills and Microsoft applications at Kauai Community College. He has also worked as a radio broadcaster and manager of several radio stations, including KTOH, KNDI, KGU, KLEI, and KIVM. According to the Executive Office on Aging, Mr. Arthur is a caregiver who has worked with veterans and people with disabilities, and would bring valuable insights and a sincere regard for the needs of caregivers and the elderly, especially on the island of Kauai.

Testimony in support of the nomination of Mr. Duarte was submitted by the Executive Office on Aging.

Mr. Duarte earned a Master's in Business Administration from the University of California, Los Angeles, and a Bachelor's in Economics from the University of Hawaii. He is currently the President and Chief Executive Officer of Kahala Senior Living Community, Inc., the operator of a non-profit continuing care retirement community. His previous work experience includes Senior Vice President of the Bernice Pauahi Bishop Museum, Senior Vice President of the Hawaii Dental Service, President and Chief Executive Officer of Rehabilitation Hospital of the Pacific, and Management Analyst of Straub Clinic & Hospital, Inc.

Mr. Duarte has also been an active community member and volunteer. He has volunteered with Aloha United Way's Community Building Division for nearly twenty-five years. He has also been a Board member of the Health Care Association of Hawaii, the National Association of Rehabilitation Facilities, the State Health Planning and Development Agency, and Mental Health Kokua. Mr. Duarte's work and volunteer experience have given him a greater understanding of and insights into the issues of the elderly and their families.

Testimony in support of the nomination of Mr. Fujitani was submitted by the Executive Office on Aging.

Mr. Fujitani earned a Higher Accounting Degree with honors from Honolulu Business College. He is currently the Executive Director for the Hawaii Banking Association and is a retired Senior Vice President and Manager of the Business Services Division of First Hawaiian Bank. He was previously the Assistant Vice President of Investors Finance, Inc. and received recognition as one of the "Outstanding Young Men in America" in 1976.

In addition to providing leadership at work, Mr. Fujitani has served as Director, Officer, or President of organizations such as the Neighborhood Board No. 10, the Japanese Cultural Center of Hawaii, Physician's Exchange, Hawaii Jaycees, and the Waikiki School Parent Teacher Association. Testimony by the Executive Office on Aging indicates that Mr. Fujitani understands the issues facing Hawaii's aging population and would provide valuable insights and a sincere regard for the needs of Hawaii's elderly and caregivers.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 487 Human Services on Gov. Msg. Nos. 427 and 428**

Recommending that the Senate advise and consent to the nominations of the following:

COMMISSION ON FATHERHOOD

G.M. No. 427 MICHAEL R. DIAS, for a term to expire 6-30-2011; and

G.M. No. 428 MYRNA B. MURDOCH, for a term to expire 6-30-2011.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Michael R. Dias and Myrna B. Murdoch to have the necessary qualifications to be nominated to the Commission on Fatherhood.

Testimony in support of Mr. Dias was submitted by the Department of Human Services.

Mr. Dias earned a Bachelor of Arts in Social Science and English, with a Minor in Hawaiian Studies, from the University of Hawaii at Hilo. He is currently an Employment Specialist with Alu Like, Inc., Hawaii Island Center, and an instructor for the Na Pua Noeau-Hoomalamalama Program at the University of Hawaii at Hilo. His previous work experience at Alu Like, Inc. includes serving as the Father Involvement Specialist for Hookahua Early Childhood Development in Honolulu, Native Hawaiian Vocational Education Program Specialist for the Native Hawaiian Vocational Education Program in Honolulu, and the Hawaii Island Representative for the Multi Service Program in Hilo.

Mr. Dias has served on the Commission on Fatherhood since 2006. He has many years of experience in the field of Human Services and is familiar with data, research, programs, and developments concerning fathers and families. According to the Department of Human Services, Mr. Dias is a father himself and would be a strong advocate for fathers, children, and families.

Testimony in support of Ms. Murdoch was submitted by the Department of Human Services.

Ms. Murdoch earned a Master's degree with honors in European Languages from the University of Hawaii at Manoa and a Bachelor of Arts with honors from the University of Victoria in Canada. She has previously worked as a Legislative Assistant for Senator Suzanne Chun-Oakland, English Tutor for Hawaii Pacific University, Associate Vice President of Dean Witter Morgan Stanley, Chief Executive Officer and Founder of Folies Beargeres, stock broker for E.F. Hutton, and teacher's assistant.

Ms. Murdoch has also served on the Commission on Fatherhood since 2006. She has been an active volunteer, serving as a Board member for the Honolulu Theater for Youth, Junior League of Honolulu, and St. Francis School for Girls, as a Punahou School class parent, and as a member of the Punahou Parent Faculty Association, the Young Men's Christian Association, and other charitable organizations. Ms. Murdoch founded the Children's Rights Council of Hawaii in 2002 and served on the Board of Trustees of the national Children's Rights Council in 2004. Testimony submitted by the Department of Human Services indicates that Ms. Murdoch would contribute valuable knowledge and insight on parenting, children, and accessing community funds and support.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 488 Transportation, International and Intergovernmental Affairs on Gov. Msg. No. 369**

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON TRANSPORTATION

G.M. No. 369 OWEN MIYAMOTO, for a term to expire 6-30-2013.

Your Committee received testimony in support of Owen Miyamoto from the Department of Transportation; American Society of Civil Engineers; Consulting Structural Hawaii Incorporated; Hawaii Pacific Engineers, Incorporated; Airport Concessionaires Committee; Hawaii 3R's; and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Miyamoto received a B.S. degree in civil engineering from the University of Hawai'i and an M.S. degree in civil engineering from the University of Illinois. He is also a registered Professional Engineer in Hawai'i. Mr. Miyamoto has an outstanding record of government service, serving the State of Hawai'i in numerous capacities, including Airports Administrator for twenty-seven years. During his forty-four year career with the State Department of Transportation, he assumed many duties, accumulated an exemplary performance record, and gained a keen understanding of the workings and challenges of our state airport and highway system.

Your Committee notes that the nominee has served as Administrator for the Airports Division of the Department of Transportation, in which he was responsible for the management of the statewide airports system from small general aviation airports to the Honolulu International Airport. Mr. Miyamoto's expertise and experience as a current member of the Commission on Transportation will allow him to contribute significantly to the work of the Commission.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Espero, Nishihara).

**SCRep. 489 Transportation, International and Intergovernmental Affairs on Gov. Msg. No. 370**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAI'I SISTER STATE COMMITTEE

G.M. No. 370 ANITA MAE K. NAONE, for a term to expire 6-30-2013.

Your Committee received testimony in support of Anita Mae K. Naone from the Department of Business, Economic Development, and Tourism; Association of Hawaiian Civic Clubs; and Hawaiian Civic Club of Honolulu. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Anita Mae K. Naone attended Windward Community College. She is currently the Forward Equal Employment Opportunity Manager for the United States Army Corps of Engineers, Pacific Division, Fort Shafter Hawaii. Ms. Naone has full authority to plan, organize, direct, staff, implement, and evaluate a management-oriented affirmative employment program designed to assist management in accomplishing the assigned mission, as well as resolving complaints and solving day-to-day issues. From 1985 to 1994, the nominee served as the Equal Employment Opportunity Officer for Pacific Ocean Division/Honolulu Engineer District for the Department of the Army. Your Committee notes that Ms. Naone has completed a number of management-related training and education workshops.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Espero, Nishihara).

**SCRep. 490      Transportation, International and Intergovernmental Affairs on Gov. Msg. Nos. 368 and 371**

Recommending that the Senate advise and consent to the nominations of the following:

HARBORS MODERNIZATION GROUP

G.M. No. 368    EDWARD W. ENOS JR., for a term to expire 6-30-2010; and  
G.M. No. 371    GARY J. NORTH, for a term to expire 6-30-2012.

Your Committee received testimony in support of Edward W. Enos, Jr., from the Department of Transportation; Department of Business, Economic Development, and Tourism; Aloha Tower Development Corporation; Matson Navigation Company; Amergent Techs; Hawaii Superferry; and Rosehill and Associates.

Edward W. Enos, Jr., received a Bachelor of Science degree in Nautical Industrial Technology from the California Maritime Academy. He is currently a Hawaii State Harbor Pilot and Vice-President of the Hawaii Pilots Association. Mr. Enos has served in the United States Navy and the United States Merchant Marines Reserve. The nominee holds a First Class Pilot License, Deep-Draft Commercial Harbors, State of Hawaii. Mr. Enos has been a member of the Hawaii Pilots Association since 1994.

Your Committee received testimony in support of Gary J. North from the Department of Transportation; Department of Business, Economic Development, and Tourism; Aloha Tower Development Corporation; International Longshore and Warehouse Union; Hawaii Superferry; Matson Navigation Company; Tesoro Hawaii Corporation; Ameron Hawaii; Aloha Cargo Transport; Maui County Farm Bureau; Hawaii Farm Bureau; Hawaiian Cement; and Young Brothers, Limited.

Gary J. North received a Bachelor of Science degree in Business from Brigham Young University Hawaii. He is also a graduate of the Massachusetts Institute of Technology's Program for Senior Executives. Mr. North is retired from being the Vice President, Pacific, of Matson Navigation Company, Inc., and President of Matson Terminals, Inc., where he was employed since 1967, with a break in service for a period with United States Lines from 1977 to 1987. The nominee is an original member of the Hawaii Harbor Users Group (HHUG).

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Espero, Nishihara).

**SCRep. 491      Transportation, International and Intergovernmental Affairs on Gov. Msg. Nos. 367, 431, 432, 433 and 434**

Recommending that the Senate advise and consent to the nominations of the following:

STATE HIGHWAY SAFETY COUNCIL

G.M. No. 367    ANITA DIMAURO, for a term to expire 6-30-2013;  
G.M. No. 431    EVAN K. CHING, for a term to expire 6-30-2013;  
G.M. No. 432    CHARLES M. HIRATA, for a term to expire 6-30-2013;  
G.M. No. 433    GEORGE L. KEKUNA, for a term to expire 6-30-2013; and  
G.M. No. 434    MITCHELL S. NAKAGAWA, for a term to expire 6-30-2013.

Your Committee received testimony in support of Anita Di Mauro from the Department of Transportation; and Mothers Against Drunk Driving Hawaii.

Anita Di Mauro received a Bachelor of Arts degree from Elmira College in Elmira, New York. She has been a member of Mothers Against Drunk Driving in Hawaii since 1984, and was on the MADD National Board from 2001-2002. From 1987-1989, Ms. Di Mauro was the Chair of Drug Addiction Services of Hawaii (DASH).

Your Committee received testimony in support of Evan K. Ching from the Department of Transportation.

Evan K. Ching received a Bachelor of Arts degree in Psychology from the University of Hawaii. He has been with the Honolulu Police Department since 1978, most recently as Captain since 2003. Captain Ching has been the Executive Officer of the Traffic Division since 2006. The nominee is also active in a variety of community organizations and activities, receiving the Governor's Kilohana Award for Outstanding Volunteerism in 2001.

Your Committee notes that Evan K. Ching has received the following relevant training in traffic safety: Basic Traffic Accident Investigation, Institute of Police Management and Technology (IPTM); Advanced Traffic Accident Investigation and Reconstruction,

IPTM; Speed Management Workshop; Forum on Traffic Records and Highway Safety Information Systems; New Approaches to Highway Safety Analysis; and Developing a Pedestrian Safety Action Plan.

Your Committee received testimony in support of Charles M. Hirata from the Department of Transportation.

Charles M. Hirata has been with the Maui Police Department since 1977, where he is currently a Captain and Commander of the Lahaina Police District. As a Traffic Commander, Captain Hirata supervises the DUI Task Force and Vehicle Homicide Unit, and is an ex-officio member of the Maui Traffic Safety Council and Maui Street Lighting Committee. Captain Hirata is also a member of the Keiki Injury Prevention Coalition – Safe Kids Hawaii.

Your Committee notes that the nominee introduced the use of laser transit and electronic data collection for traffic crash investigation, and in 2002 administered the Maui County Innovative Seatbelt Demonstration grant. Captain Hirata is the recipient of numerous community service recognition awards, including two awards from MADD for Law Enforcement, a Keiki Injury Prevention Certificate of Recognition in Child Passenger Safety, a Governor's Highway Safety Council Alaka'i Award for Leadership in Traffic Safety in Hawaii, and a 2001 Hawaii State Senate Certificate in Recognition for Contributions to Improve Traffic Safety.

Your Committee received testimony in support of George L. Kekuna from the Department of Transportation.

George L. Kekuna received a Bachelor of General Studies degree from Chaminade University and a Master of Arts degree from Central Michigan University. He retired from the United States Air Force in 1981 as a Lieutenant Colonel. He has since served as the Deputy Director-Designate with the Oahu Civil Defense Agency; Executive Assistant to the Mayor of Honolulu; and Deputy Director of the Honolulu Department of Auditoriums.

Your Committee received testimony in support of Mitchell S. Nakagawa from the Department of Transportation; Peoples Advocacy for Trails Hawaii; and three individuals.

Mitchell S. Nakagawa received a Bachelor of Arts degree from the University of Washington. He is currently the Executive Director of the Hawaii Bicycling League. Your Committee notes that since 2007 he has been a member of the Oahu Metropolitan Planning Organization, and of the Honolulu Mayor's Advisory Committee on Bicycling.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Espero, Nishihara).

**SCRep. 492 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 254**

Recommending that the Senate advise and consent to the nomination of the following:

ADVISORY COMMITTEE ON PESTICIDES

G.M. No. 254 ROBERT D. HAUFF, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Robert D. Hauff to have the requisite qualifications to be nominated to the Advisory Committee on Pesticides.

Testimony in support of the nomination of Mr. Hauff was submitted by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Mr. Hauff received his Bachelor's degree from the University of Washington and his Master's degree in Forestry from Yale University. Mr. Hauff is currently a member of the Advisory Committee on Pesticides and satisfies the requirement that a member represent the Department of Land and Natural Resources. Mr. Hauff is presently employed as a Forest Health Coordinator with the Department of Land and Natural Resources, Division of Forestry and Wildlife. He has also worked as an Ecologist with the United States Department of Agriculture Forest Service Institute of Pacific Islands Forestry. Mr. Hauff's background includes familiarity with pesticide labels, use of herbicides in wildland settings, risk assessment methodology, and an understanding of fundamental plant biology and his specific graduate coursework includes soil science, forest hydrology, and statistical analysis. Mr. Hauff uses this background to ensure that conservation pesticide issues are accurately characterized in committee meetings.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Hemmings).

**SCRep. 493 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 435**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE AGRIBUSINESS DEVELOPMENT CORPORATION

G.M. No. 435 PAULA J. HEGELE, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Paula J. Hegele to have the requisite qualifications to be nominated to the Board of Directors of the Agribusiness Development Corporation.

Testimony in support of the nomination was submitted by one state agency, two organizations, and two public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Hegele was nominated to serve as the Maui representative on the Board of Directors. She is presently the President and General Manager of Tedeschi Vineyards, Ltd., the only commercial winery on Maui. Ms. Hegele oversees the winery operations including a twenty-three acre vineyard, the manufacture of value added wine products, marketing, and a retail visitor center. Tedeschi Vineyards, Ltd. was recognized by the United States Small Business Administration as the 2000 Small Business Exporter of the Year.

Ms. Hegele was the founder and organizer of the Maui Agricultural Trade Show, also known as the Ulupalakua Thing, which for thirteen years featured local agriculture and introduced Maui buyers to Maui farmers. She is a Board member and past President of the Made in Maui Trade Council and a member and past President of the Maui Island Chapter of the Hawaii Food Manufacturers Association. Ms. Hegele has nearly two decades experience with diversified agriculture and extensive knowledge of the agriculture business from farming to marketing.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Hemmings).

**SCRep. 494 (Majority) Labor on S.B. No. 688**

The purpose of this measure is to establish worker retention requirements upon the divestiture of a covered establishment.

Testimony in support of the measure was submitted by seven organizations. Testimony in opposition to the measure was submitted by one state agency and three organizations. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that this measure would address the problem of layoffs of employees due to the sale or ownership change of a business and provides for some stability during the transition.

Your Committee further finds that this measure provides for employees to be treated as valued stakeholders in a business and promotes the fair and respectful treatment of existing employees during the sale or ownership change of a business.

Your Committee acknowledges the concern that this measure may impact the value of a business and the ability of owners to operate the business. However, your Committee believes that this measure also provides sufficient protections to successor employers by allowing successor employers to conduct legal, pre-hire screening to ensure a standard of quality among incumbent employees, to retain fewer than the total number of incumbent employees in certain situations, and to retain the right to manage all employees.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 688 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 495 Energy and Environment on S.B. No. 942**

The purpose of this measure is to amend the State's underground storage tank laws to ensure compliance with the federal Energy Policy Act of 2005, P.L. 109-58, to ensure that the Department of Health is eligible for federal grants.

Testimony in support of this measure was submitted by the Department of Health. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that, without the amendments in this measure, the Department of Health may lose approximately \$450,000 of annual federal funds that it now receives from the United States Environmental Protection Agency for the Department of Health's Underground Storage Tank and Leaking Underground Storage Tank programs. The amendments to the State's underground storage tank law contained in this measure allow the Department of Health, before holding a contested hearing, to prohibit the delivery of petroleum products to underground storage tanks that violate the law. Your Committee finds that these amendments are intended to deal specifically with ineligible tanks and are not meant to close the facilities where the ineligible tanks are located.

Your Committee has amended this measure by:

- (1) Specifying in the purpose clause that conformance with federal law is being achieved by appropriate amendments to the State's underground storage tank laws; and
- (2) Making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 942, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 942, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Kokubun).

**SCRep. 496      Judiciary and Government Operations on S.B. No. 105**

The purpose of this measure is to clarify the conservatorship law by requiring:

- (1) The court, in appointing a conservator or in making a protective order, to make a determination that there is clear and convincing evidence that the individual is unable to manage property and business affairs effectively because of an impairment in ability to receive and evaluate and communicate decisions, because of another physical, mental, or health impairment or because the individual is missing, detained, or unable to return to the United States; and
- (2) A petition to appoint a conservator or for a protective order that alleges a physical, mental, or health impairment to state or contain a brief description of the nature and extent of the respondent's alleged impairment.

Your Committee received testimony in support of this measure from the Judiciary-Uniform Probate Code and Probate Court Practices Committee. Copies of written testimony on this measure are available for review on the Legislature's website.

Your Committee finds that this measure restores flexibility in the criteria applied by the court in deciding whether the appointment of a conservator is appropriate, without impairing the rights of respondents in protective proceedings.

The testimony of the Uniform Probate Code and Probate Court Practices Committee indicated that the current statutory language has had unintended consequences: the court cannot appoint a conservator for an individual with physical challenges who might welcome and benefit from a protective arrangement if the individual can receive and evaluate information and can make and communicate decisions. As a remedy, this measure partially restores criteria applicable prior to January 1, 2005 (when Act 161, Session Laws of Hawaii 2004, the Uniform Guardianship and Protective Proceedings Act took effect). This measure will improve conditions for those seeking protection without detriment to those who do not.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 105, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 497      (Majority) Judiciary and Government Operations on S.B. No. 474**

The purpose of this measure is to propose a constitutional amendment to clarify the appointment process for department heads and members of boards and commissions by requiring the Governor to nominate successors within the time limits required by law.

Your Committee received testimony in opposition to this measure from the Governor. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Article V, section 6, of the Hawaii Constitution provides for the nomination and appointment of executive officers without specifying a time period during which a vacancy in office must be filled. Constitutional provisions, such as section 6, assume, without specifying, that proper and timely nominations and appointments will be made by the Governor and that the time period during which the nominations are submitted to the Legislature will be consistent with the specific time periods during which the Legislature is in session and the Senate is able to properly act on the Governor's nominees. While the custom and practice of the executive branch has generally been to submit timely and proper nominations during legislative sessions, with few exceptions, there is no specific requirement in the Constitution for the Governor to submit nominations to executive offices in a timely manner.

This measure proposes a constitutional amendment that will enable the Legislature to establish a time limit for the Governor to nominate a successor to fill a vacancy in office in an appropriate and timely manner.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 474, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 1 (Gabbard).

**SCRep. 498      Judiciary and Government Operations on S.B. No. 1184**

The purpose of this measure is to define "confidential witness" to clarify the distinction between the parties to a complaint filed with the Civil Rights Commission and the witnesses that may have provided information to the Commission during its intake and investigation of the complaint.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Committee finds that chapter 368, Hawaii Revised Statutes (HRS) makes references to the "complainant" and "respondent", and collectively refers to them as the "parties" to the complaint. In addition, the chapter makes references to "witnesses" without a clear indication that the references to a witness statement, either confidential or not confidential in section 368-4, Hawaii Revised Statutes, is not intended to include the statements of either of the parties to the complaint. Factual information from witnesses who do not request confidentiality and statements of the parties to the complaint acquired by the Commission may be disclosed, and used by the Commission as evidence in its investigation, conciliation and litigation.

While all statements made by the complainant or respondent may be disclosed under certain conditions, statements by witnesses that request confidentiality may not be disclosed or used as evidence by the Commission, unless otherwise allowed by law. The intent of this measure is to clarify the distinction between statements made by the complainant and the respondent, the parties to the complaint, from statements made by witnesses that are not parties to the complaint.

Your Committee has amended this measure by:

- (1) Clarifying the definition of “confidential witness”, and authorizing the use of factual matters obtained in the course of an investigation by the Commission as evidence, on the recommendation of the Hawaii Civil Rights Commission;
- (2) Changing the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (3) Making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1184, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1184, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 499      Judiciary and Government Operations on S.B. No. 1194**

The purpose of this measure is to provide that it is unlawful for any person to manufacture, buy, sell, barter, exchange, or have in the person’s possession any of the implements commonly known as gaffs or slashers, or any other sharp instrument designed to be attached in place of or to the natural spur of a gamecock or other fighting fowl.

This measure also provides for a tiered system of progressively more serious penalties for repeat offenders.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney; Honolulu Police Department; Humane Society of the United States; Hawaiian Humane Society; Kauai Humane Society; Animal Rights Hawai’i; West Hawaii Humane Society; Maui Humane Society; and five individuals. Testimony in opposition was received from the Office of the Public Defender and four individuals. Copies of written testimony are available for review on the Legislature’s website.

Your Committee finds that this measure is in furtherance of existing law prohibiting cock fighting as cruelty to animals. Testimony indicated that gaffs and slashers have no other use than for infliction of severe injury upon a cockfighting chicken. A similar federal law, the Animal Welfare Act, applies to the sale, purchase, transport, or delivery of gaffs in interstate and foreign commerce. However, the federal law does not apply when the interstate and foreign commerce element cannot be established.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue discussions in this matter, and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1194, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 2 (Nishihara, Takamine). Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 500      Public Safety and Military Affairs on S.B. No. 207**

The purpose of this measure is to require the Department of Public Safety to report the death of an inmate or correctional facility employee, to the Legislature, within twenty-four hours.

Testimony in support of this measure was submitted by four private organizations and five individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that prompt notification of a death at a correctional facility or center and the causes thereof enables the Legislature to ensure the accountability of correctional facilities or centers for actions and events taking place on their premises. Your Committee also finds that reporting of a death within twenty-four hours assists the Legislature in establishing policies and practices for implementation by the Department of Public Safety to prevent similar deaths from occurring. Your Committee further finds that this measure assists in the investigation of the death and timely reporting to family members or next of kin.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 207, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 207, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 501      Judiciary and Government Operations on S.B. No. 466**

The purpose of this measure is to make it unlawful for any person to operate a leaf blower within a residential zone or within one hundred feet of a residential zone in the State, except between the hours of 8:00 A.M. and 8:00 P.M. on any day except Sunday or a federal holiday, and between the hours of 9:00 A.M. and 6:00 P.M. on Sunday or a federal holiday, under certain specified conditions of operation.

This measure also prohibits:

- (1) Any person to use or operate a leaf blower in such a manner as to blow, dispel, or make airborne, dust, leaves, grass cuttings, paper, trash, or any other type of unattached debris or material, beyond the boundaries of the parcel of property being cleaned, unless the consent of the adjoining owner or person in possession of the adjoining property is obtained; and
- (2) Any person to use or operate a leaf blower within the State in such a way as to blow leaves, dirt, and other debris onto the public rights-of-way or onto private property not owned, leased, or controlled by the leaf blower operator or the employer or contractor of the leaf blower operator and to allow the debris to remain there in excess of thirty minutes.

Your Committee finds that use of leaf blowers poses health and noise pollution concerns for Hawaii citizens, particularly in urban areas. This measure addresses some of these concerns by placing certain restrictions on the use of leaf blowers.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions, and making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 466, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 502 (Majority) Judiciary and Government Operations on S.B. No. 1040**

The purpose of this measure is to prohibit smoking during community events that occur:

- (1) On public beaches and beach parks;
- (2) In public parks and recreational areas;
- (3) In other recreational areas designated as recreational by the state or county agency organizing or funding the community event; and
- (4) In areas within twenty feet of a nonsmoking area, if the nonsmoking area is within the site of the community event.

This measure defines "community event" as any function of over twenty-five people organized by a state or county agency or fully or partially funded by a state or county agency, for the benefit of the community, including tourists and visitors.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1040, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 503 Judiciary and Government Operations on S.B. No. 1352**

The purpose of this measure is to ease the backlog in land court recording and registration by:

- (1) Transferring fee simple time share interest from the land court system (Torrens) to the regular system; and
- (2) Establishing a pilot program to implement electronic recording of fee simple time share interest.

This measure is recommended by the joint legislative investigative committee established pursuant to Senate Concurrent Resolution No. 226, adopted during the 2007 regular legislative session, which identified serious shortcomings relating to the Bureau of Conveyances' operational mismanagement, potential loss of revenue, and potential areas of vulnerability. The joint legislative investigative committee recognized that automation of certain functions in the Bureau of Conveyances may address one of the major underlying problems, work backlog. Modernizing through electronic recordation will improve efficiency, however, a gradual approach will prevent the existing work backlog from increasing due to a shift in procedures.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1352, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1352, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 504 (Majority) Judiciary and Government Operations on S.B. No. 1181**

The purpose of this measure is to require that every contract for a public works project, to which a government contracting agency is a party, include in the contract a provision that a certified copy of a fringe benefit reporting form is to be submitted weekly to the governmental contracting agency for review.

The fringe benefit reporting form under this measure, requires the itemization of the cost of fringe benefits paid by the general contractor or subcontractor for:

- (1) Health and welfare benefits;
- (2) Pension and annuity benefits;
- (3) Vacation benefits;
- (4) Continuing education and training benefits; and
- (5) Other fringe benefit costs paid by the general contractor or subcontractor.

Your Committee finds that the current reporting of fringe benefits by employers is inadequate, and that there should be a reasonable way for laborers to determine the itemization of their fringe benefits through public records. Employers are currently only required to check a box indicating that they are in compliance with the payment of fringe benefit wages required under chapter 104, Hawaii Revised Statutes. Hourly wages, but not fringe benefits, are listed as itemized payments to prove compliance.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1181, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1181, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 505      Transportation, International and Intergovernmental Affairs on S.B. No. 1268**

The purpose of this measure is to allow counties, with regard to housing, to issue affordable housing credits to the Department of Hawaiian Home Lands, and to allow the Department of Hawaiian Home Lands to transfer or assign credits.

This measure further allows the credits to be applied to satisfy the affordable housing obligations imposed by the county.

Your Committee received testimony in support of this measure from the Department of Hawaiian Homelands; Sovereign Councils of the Hawaiian Homelands Assembly; Hawaii Developers' Council; Gentry Homes, Limited; Building Industry Association of Hawaii; the Chamber of Commerce of Hawaii; Kamehameha Schools; and Maluohai Residents' Association. Comments were received by the City and County of Honolulu. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that private-sector development of affordable homes for the Department of Hawaiian Home Lands beneficiaries is a key element in helping to solve Hawaii's affordable housing shortfall. By increasing the supply of homes on the Department of Hawaiian Home Lands properties, the overall supply of homes in the State is increased, thus making more homes available for the people of Hawaii. Allowing affordable housing credits to be applied to other projects located in the same county in which the credits are earned may serve as an incentive for the private sector to participate with the Department of Hawaiian Home Lands affordable housing program.

Your Committee has amended this measure to require county approval within sixty days after transfer or assignment of credits by the Department of Hawaiian Home Lands.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1268, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 506      Transportation, International and Intergovernmental Affairs on S.B. No. 564**

The purpose of this measure is to permit, rather than require, the county fire chief to conduct an inspection of all buildings and premises to provide fire prevention and pre-fire planning at an interval of an unspecified number of years.

Your Committee received testimony in support of this measure from the State Fire Council and the Honolulu Fire Department. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would allow fire inspections to be conducted in accordance with fire and life safety risks of the building rather than on a schedule based solely on time. Thorough and complete fire inspections reduce the risk of fire but are time-consuming because repeated follow-up inspections are required until compliance is achieved. Fire departments can utilize their limited resources more efficiently and effectively by focusing on structures with high risk and occupancy, such as assembly buildings and high rises.

Your Committee has amended this measure by maintaining the requirement for inspection and reducing the frequency of inspection by inserting an inspection period of at least once every five years for buildings and premises other than public schools which remain at least once each year.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 564, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 564, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 507      Transportation, International and Intergovernmental Affairs on S.B. No. 440**

The purpose of this measure is to require counties to accept or reject a public infrastructure dedication that is part of an affordable housing project within sixty days of the filing of a dedication request.

Your Committee received testimony in support of this measure from the Affordable Housing Regulatory Barriers Task Force and Hawaii Housing Finance and Development Corporation. Testimony in opposition was received from the City and County of Honolulu. Comments were received from one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure coincides with recommendations of the Affordable Housing Regulatory Barriers Task Force. The Task Force worked over a period of eighteen months to identify barriers to affordable housing development and to formulate appropriate remedies. The intent of this measure is to incentivize the development and construction of affordable housing projects by removing an inadvertent delay attributable to acceptance by the counties of infrastructure dedication of housing projects.

Your Committee has amended this measure by:

- (1) Allowing a maximum period of ninety days for the county to accept a dedication request;
- (2) Clarifying that the dedicated infrastructure conform to applicable county standards;
- (3) Requiring as a proviso that completion of the improvements comprising the infrastructure be granted approval by the counties;
- (4) Deleting reference to building codes and building inspectors; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 440, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 508      Transportation, International and Intergovernmental Affairs on S.B. No. 295**

The purpose of this measure is to:

- (1) Allow hybrid vehicles and energy-efficient vehicles to use high occupancy vehicle lanes; and
- (2) Define "energy-efficient vehicle" and "hybrid vehicle" for purposes of the traffic code.

Your Committee received testimony in support of this measure from the Department of Transportation; the Hawaiian Electric Company, Incorporated and its subsidiary utilities, Maui Electric Company, and Hawaii Electric Light Company; and the Sierra Club. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would promote the increased use of fuel efficient hybrid vehicles. Increased consumer acceptance of energy-efficient vehicles, including hybrid vehicles, will aid in the reduction of greenhouse emissions and fossil fuel use. This measure also furthers the Hawaii Clean Energy Initiative's goal of utilizing seventy per cent clean, renewable energy by 2030.

Your Committee has amended this measure by:

- (1) Adding plug-in hybrid electric vehicles as vehicles allowed to use HOV lanes; and
- (2) Clarifying the definition of "high occupancy vehicle lane" to include hybrid vehicles and energy-efficient vehicle without regard to the number of occupants, which is the intent of this measure.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 295, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 295, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 509      Commerce and Consumer Protection on S.B. No. 606**

The purpose of this measure is to allow the board of directors of a condominium association to install or allow the installation, where appropriate, of solar energy or wind energy devices on common elements.

Your Committee received testimony in support of this measure from the Sierra Club Hawai'i Chapter and Blue Planet Foundation. Testimony with comments on this measure was received from the Department of Business, Economic Development, and Tourism. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that allowing the installation of solar energy and wind energy devices on the common areas of condominiums may provide a significant source of clean, renewable electrical energy consistent with goals of the Hawaii Clean Energy Initiative. Your Committee further finds that these installations are likely to benefit condominium associations and owners economically through reduced energy costs and, in some cases, collection of fees for the use of common areas such as rooftops paid by commercial solar and wind energy interests.

Your Committee has amended this measure by:

- (1) Adding a new provision to make this measure applicable to condominiums governed by chapter 514A, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 606, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 510 Commerce and Consumer Protection on S.B. No. 133**

The purpose of this measure is to require the public utilities commission to institute a lifeline electricity rate for qualified residential energy customers.

Your Committee received testimony in support of this measure from Hawaiian Electric Company. Testimony providing comments was received from the Public Utilities Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the high cost of electricity can create financial difficulties for certain residential energy customers. Your Committee further finds that some medical conditions require treatment, management, or monitoring with electrical devices. This measure will help ensure that the cost of electricity is not a barrier to needed medical treatment for elderly and disabled residents. Your Committee notes that Hawaiian Electric Company and the Division of Consumer Advocacy are currently working together to study schedules and other issues surrounding implementation of lifeline electricity rates.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "lifeline eligible" to be consistent with the eligibility criteria for lifeline telephone service; and
- (2) Deferring the effective date of this measure to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 133, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 133, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 511 Judiciary and Government Operations on S.B. No. 15**

The purpose of this measure is to update references to federal agencies that have warrantless search powers.

Your Committee notes that there are three federal agencies that could potentially be invested with possible warrantless search powers; United States Customs and Border Protection; United States Citizenship and Immigration Services; and United States Immigration and Customs Enforcement.

According to official websites, the United States Immigration and Customs Enforcement has jurisdiction over a range of federal criminal offenses. The United States Citizenship and Immigration Services oversees lawful immigration to the United States while ensuring no one is admitted who is a threat to public safety. The United States Customs and Border Protection deals with terrorists, enforces immigration and drug laws, and protects trade and travel.

Your Committee has amended this measure by:

- (1) Allowing only officers of the United States Customs and Border Protection Service agency to make arrests without a warrant and removing references to the Citizenship and Immigration Services agency;
- (2) Correcting the reference to the United States Customs and Border Protection agency; and
- (3) Changing the effective date to July 1, 2050 to continue discussions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 15, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 512 Commerce and Consumer Protection on S.B. No. 603**

The purpose of this measure is to allow the Public Utilities Commission to consider wireless, voice over internet protocol (VOIP), and other telecommunications technology providers when determining competition in the switched access telecommunications market.

Your Committee received testimony in support of this measure from The Chamber of Commerce of Hawaii. Testimony in opposition to this measure was received from TW Telecom. Testimony with comments on this measure was received from the Public Utilities Commission, AT&T, Hawaiian Telcom, and Oceanic Time Warner Cable. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that advances in technology make wireless and VOIP telephone services a reasonable substitute for traditional land line, or switched access, service for many consumers. Your Committee finds that this measure will help to create a level playing field for telecommunications service providers, including wireless and VOIP providers who are not currently regulated by the Public Utilities Commission. However, many consumers, especially low income consumers and those in remote areas, remain dependent on switched access. Your Committee further finds that important services, such as lifeline telephone rates, carrier of last resort services, and service quality standards remain essential to the operation of switched access providers.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the Public Utilities Commission consider the existence of competition in the telecommunications market with a requirement that the Public Utilities Commission classify the State's local exchange intrastate telecommunications services market as fully competitive with respect to costs, rates, and pricing;
- (2) Requiring telecommunications carriers to file rates, fares, charges, and bundled service offerings with the Public Utilities Commission for information purposes only;
- (3) Clarifying that this measure applies only to retail rates and not to wholesale rates;
- (4) Establishing a maximum retail rate ceiling based on current retail rates;
- (5) Clarifying that switched access providers remain responsible for providing lifeline and carrier of last resort telephone services and for maintaining service quality standards; and
- (6) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 603, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 603, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 513 Education and Housing on S.B. No. 455**

The purpose of this measure is to prohibit smoking in and around public housing projects under the jurisdiction of the Hawaii Public Housing Authority.

Testimony in support of this measure was submitted by one state agency, one private organization, and twenty-four individuals. Testimony in opposition was submitted by six individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the health costs of smoking and secondhand smoke are well known and some commercial and residential buildings are responding by either banning smoking entirely or designating "no smoking" areas.

Your Committee supports the public health benefits of this measure. However, your Committee understands the concerns of the Hawaii Public Housing Authority regarding the number of violations and allegations of violations that may result from a complete prohibition on smoking in public housing projects. With 6,195 units statewide, the Authority is concerned that this measure would require the Authority to modify its current focus on increasing rent collections, reducing vacancy rates, and providing repair and maintenance.

Your Committee has reviewed a number of alternatives for the current measure, including the requirement that the Authority offer smoking cessation services. However, your Committee understands that many of these programs have been affected by budget cuts, and expanding services to all public housing projects may not be achievable.

Your Committee urges the Hawaii Public Housing Authority to work with the tenants in determining the most effective way to accommodate nonsmokers and smokers, and to make recommendations for further amendments to this measure as it moves through the legislative process.

Your Committee has amended this measure by:

- (1) Deleting the complete prohibition against smoking;
- (2) Requiring the Hawaii Public Housing Authority to designate no more than fifty per cent of the units in public housing projects as smoking units;
- (3) Requiring all smoking units on the same floor to be contiguous and prohibiting smoke from these rooms from infiltrating into areas where smoking is prohibited;
- (4) Prohibiting the status of units as smoking or nonsmoking from being changed, except to add additional nonsmoking units;
- (5) Establishing a fine of not more than of \$50 for a first violation and a fine of not more than \$100 for a second violation; and
- (6) Making technical amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 455, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 455, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Kidani). Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 514      Judiciary and Government Operations on S.B. No. 1086**

The purpose of this measure is to allow a family court judge to issue an ex parte temporary restraining order without notice to:

- (1) Grant exclusive care of a pet animal to a party; and
- (2) Restrain the noncustodial party of a pet animal from visiting, taking, concealing, threatening, physically abusing, or disposing of the pet animal.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney; Humane Society of the United States; Hawaiian Humane Society; Kauai Humane Society; American Humane Association; Animal Rights Hawai'i; Women Helping Women-West Maui; Maui Family Support Services; Rainbow Friends Animal Sanctuary; American Bouvier Rescue League; West Hawaii Humane Society; Hawaii Cat Foundation; Hawaii Dog Foundation; Maui Humane Society; and seventeen individuals. Copies of written testimony are available for review on the Legislature's website.

Your Committee finds that pet animals have become an object of contention between parties in family court proceedings for annulment, divorce, or separation. The intent of this measure is to allow a restraining order to grant custody of the pet animal to one party and to restrain the other party from taking, hurting, or disposing of the animal.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050 to continue the discussion on this matter;
- (2) Moving the definition of "pet animal" to the definitions section of chapter 586, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1086, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1086, S.D. I, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 515      Judiciary and Government Operations on S.B. No. 93**

The purpose of this measure is to:

- (1) Clarify that if the candidate or candidate's committee returns or refunds a contribution or contributions that exceed twenty per cent of the total contributions received during a reporting period within seven days of the last day of the reporting period, the candidate and candidate committee is not in violation of the limit on contributions from nonresidents law;
- (2) Clarify the definition of "electioneering communication" to also mean advertising that is susceptible of no reasonable interpretation other than as an appeal to vote for or against a specific candidate;
- (3) Require that a noncandidate committee file a preliminary report on July 31 prior to each primary election; and
- (4) Repeal the provision allowing the filing of a short form report for expenditures totaling \$2,000 or less.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and League of Women Voters of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the twenty per cent limit on contributions from nonresident persons, first enacted by Act 2003, Session Laws of Hawaii 2005, may need to be revisited with regards to the percentage amount and the limitation of receiving such contributions in each reporting period. It has been brought to your Committee's attention that the prohibition on receiving such contributions within a reporting period may subvert the intended result of applying the rule to the total of such contributions within any election cycle.

Your Committee has amended this measure by:

- (1) Deleting the amendment to the definition of "electioneering communication", on the recommendation of the Campaign Spending Commission;
- (2) Deleting the requirement of an additional preliminary report on July 31 of each primary election;
- (3) Changing the twenty per cent threshold to an unspecified amount; and
- (4) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 93, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 93, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 516      Judiciary and Government Operations on S.B. No. 65**

The purpose of this measure is to amend the Hawaii Rules of Evidence to provide, with regard to character evidence, that evidence of an accused person's trait of character for aggressiveness is admissible when offered by the prosecution against the accused, if the alleged victim's trait of character for aggressiveness is offered by the accused and admitted into evidence.

Your Committee received testimony in support of this measure from Judiciary-Hawaii Supreme Court Standing Committee on the Rules of Evidence; Department of the Prosecuting Attorney-Honolulu; Office of the Prosecuting Attorney-Hawaii; and the Department of the Prosecuting Attorney-Maui. Testimony in opposition was received from the Office of the Public Defender. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure conforms a specific provision in the Hawaii Rules of Evidence to its counterpart in the Federal Rules of Evidence. However, your Committee is not entirely convinced that the rule will not result in inherent procedural unfairness to the defendant in a jury trial. Your Committee believes that more study and analysis is necessary.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to ensure continued discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 65, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 65, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 517 Commerce and Consumer Protection on S.B. No. 53**

The purpose of this measure is to amend the Life Settlements Act by repealing the requirement that the Insurance Commissioner report annually to the Legislature and making the Act permanent.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the American Council of Life Insurers and the National Association of Insurance and Financial Advisors. Testimony with comments on this measure was received from Coventry. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Hawaii is one of seven states that have enacted the National Conference of Insurance Legislators' Life Settlements Model Act and is one of thirteen states that regulate Stranger Oriented Life Insurance, a predatory practice by investors who purchase insurance policies on the lives of elderly persons for profit. Your Committee finds that the need to regulate Stranger Oriented Life Insurance transactions persists beyond the Life Settlements Act's original sunset date.

Your Committee further finds that the Insurance Commissioner's reporting requirement was originally enacted to assist with the initial implementation of the Life Settlements Act. Now that the Act has been successfully implemented, there is no longer a need for the Insurance Commissioner to make annual reports to the Legislature. Your Committee notes that future amendments to the Life Settlements Act may be made through the normal legislative process.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 53 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 518 Commerce and Consumer Protection on S.B. No. 880**

The purpose of this measure is to repeal the Public Utilities Commission's responsibility for gas pipeline safety since that responsibility has been transferred to the federal Office of Pipeline Safety under superseding federal law.

Your Committee received testimony in support of this measure from the Public Utilities Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current law requiring the Public Utilities Commission to establish and enforce safety standards for gas pipelines in the State has been preempted by a 1993 federal order transferring that responsibility to the Department of Transportation, Office of Pipeline Safety. Your Committee finds that the federal Natural Gas Pipeline Safety Act of 1968 supersedes state law on this matter and thus renders chapter 269, part IV, Hawaii Revised Statutes, obsolete.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 880 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 519 (Joint) Higher Education and Education and Housing on S.B. No. 501**

The purpose of this measure is to clarify membership requirements of the Teacher Education Coordinating Committee.

Specifically, this measure provides that the Coordinating Committee include a representative from each accredited Hawaii state-approved teacher education unit and clarifies that the Superintendent of Education and the Dean of the College of Education may each appoint additional members to the Coordinating Committee, as needed.

Testimony in support of this measure was submitted by the Department of Education. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will allow the Teacher Education Coordinating Committee to broaden its membership, and will not require the replacement of any current members.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 501 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Kidani, Kokubun, Takamine, Tsutsui, Slom).

**SCRep. 520      Judiciary and Government Operations on S.B. No. 108**

The purpose of this measure is to clarify the Uniform Probate Code provisions on guardianship by increasing the time in which a court may appoint a temporary guardian from six to twelve months.

Your Committee received testimony in support of this measure from the Judiciary and Legal Aid Society of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure addresses the problem wherein temporary caretakers who are in the military and who initiate guardianship actions are currently unable to obtain any medical benefits for the children in their care because federal law requires that the guardian have a custody order for at least twelve consecutive months.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 108 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 521      Commerce and Consumer Protection on S.B. No. 205**

The purpose of this measure is to clarify the exemption from licensure by the contractors licensing board for owner-builders by increasing the period prohibiting sale, limiting the number of exemptions granted to an owner-builder, and clarifying violation provisions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Subcontractors Association of Hawaii. Testimony in opposition to this measure was received from Hawaii Association of Realtors. Testimony with comments on this measure was received from the Contractors Licensing Board. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will enhance enforcement of laws prohibiting unlicensed construction and contracting activity. Your Committee finds that property owners should be allowed to perform work on their own property. However, your Committee believes that this measure is necessary to deter owner-builders or subcontractors from avoiding safety, payroll, and tax responsibilities by abusing the owner-builder permit process.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 205, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 522      Commerce and Consumer Protection on S.B. No. 461**

The purpose of this measure is to de-link from the price of fossil fuels the rate paid by a public utility for nonfossil fuel generated electricity.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development and Tourism, Hawaii Energy Policy Forum, Hawaiian Electric Company, Sierra Club, Blue Planet Foundation, and Alexander & Baldwin. Testimony with comments on this measure was received from the Public Utilities Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that de-linking the rate paid by a public utility for nonfossil fuel generated electricity from the price of fossil fuels provides the Public Utilities Commission with greater flexibility in determining fair and reasonable consumer electricity rates and will promote the development of renewable energy resources. Your Committee further finds that increased use of renewable, nonfossil fuel electricity sources will strengthen Hawaii's economy and protect its environment.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 461, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 523      Judiciary and Government Operations on S.B. No. 112**

The purpose of this measure is to make Children's Justice Program records confidential, subject to exceptions for coordinating agency staff, health professionals, and the courts.

The Children's Justice Program promotes the sharing of information among different agencies that provide services to children and their families. Much of this information is personal in nature and should not be subject to public release under chapter 92F, Hawaii Revised Statutes. This measure requires all records used or developed by the Children's Justice Program to remain confidential, subject to exceptions for program and coordinating agency staff, medical and mental health professionals, and the courts.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 524      Judiciary and Government Operations on S.B. No. 121**

The purpose of this measure is to enact the Uniform Prudent Management of Institutional Funds Act to provide statutory guidelines for the management, investment, and expenditures of endowment funds held by charitable institutions.

This measure also repeals the existing chapter 517D, Hawaii Revised Statutes. This measure is a product of the Uniform Law Commissioners. The new Act expressly provides for diversification of assets, pooling of assets, and total return investment, to implement portfolio management and to bring the law in line with modern investment and expenditure practice.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 121, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 525      Judiciary and Government Operations on S.B. No. 230**

The purpose of this measure is to enhance the safety of victims and their family members, and witnesses by:

- (1) Requiring the Director of Health to notify victims, witnesses, and surviving immediate family members, who have submitted a written request, of specified information about a criminal defendant's fitness to proceed at trial, transfer to a state hospital or psychiatric facility, or unauthorized absence from a facility; and
- (2) Specifying the following among the major developments that a victim or surviving family member shall be informed:
  - (A) That the offender is found unfit to proceed or has been acquitted on the grounds of physical or mental disease, disorder, or defect; and
  - (B) That an offender previously found to be unfit or acquitted has been released or discharged from custody, has been committed to the custody of the Director of Health, or has regained fitness to proceed and accordingly, the date on which penal proceedings will resume.

Your Committee finds that victims of crime have a legitimate interest in being notified of any proceeding regarding whether the offender may be released from custody. Your Committee further finds that the Department of Health has stated that expanding reporting requirements as required under this measure will implement significant policy changes in the area of forensic mental health and that a study should be conducted by legal and mental health stakeholders before policy changes are implemented.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 230, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 526      Judiciary and Government Operations on S.B. No. 438**

The purpose of this measure is to authorize the Board of Education to file any notice that specifies legislation or legislation-related agenda items no fewer than two calendar days before a meeting during the period from the convening of the Legislature in regular session to adjournment sine die of each regular session, and during any special session of the Legislature.

Your Committee finds that the deadline-driven demands of the legislative session often require that the Board of Education take positions or other action on legislation and legislation-related matters in an expedited manner. This measure will provide flexibility in the public notice requirements of chapter 92, Hawaii Revised Statutes, to enable Board of Education members to participate effectively in the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 527      Judiciary and Government Operations on S.B. No. 535**

The purpose of this measure is to prohibit possession of open liquor containers in public housing common areas and on streets and sidewalks.

Act 34, Session Laws of Hawaii 2008, established the current provisions that no liquor shall be consumed in common areas of public housing projects. However, the police are unable to arrest individuals holding an open liquor container unless the police

observe the person putting the container to their mouth, or unless a witness is willing to testify to that effect. This measure will clarify the prohibition and assist in deterring drinking in common areas of public housing projects, as well as on public highways and sidewalks.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 528      Judiciary and Government Operations on S.B. No. 786**

The purpose of this measure is to:

- (1) Make the entering or remaining unlawfully on property listed in the Hawaii Register of Historic Places after warning or request to leave, an offense of criminal trespass in the first degree, a misdemeanor; and
- (2) Make the intentional or knowing damage to property on the Hawaii Register of Historic Places an offense of criminal property damage in the first degree, a class B felony.

The Hawaii Register of Historic Places is the official listing of cultural resources that are recognized as significant to Hawaii's history, architecture, engineering, and culture. The list of buildings, sites, objects, districts, and structures give a sense of place and identity to those who live in the islands, as well as impart to visitors a tangible reminder of the State's complex and rich history that contributes to the collective heritage of its residents.

Your Committee finds that, given the importance of the sites recognized on the Hawaii Register of Historic Places, it is appropriate that those places be treated with special care, dignity, and respect, and that sufficient penalties are established to protect these sites.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 786, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 529      Judiciary and Government Operations on S.B. No. 799**

The purpose of this measure is to propose a constitutional amendment to clarify the selection of the student member of the Board of Education.

Your Committee finds that the student member of the Board of Education brings valuable perspective and insights regarding the day-to-day educational needs, experiences, and concerns of students in Board discussions. In addition, the Board has indicated that this input and perspective is critical in the development and implementation of sound educational policies.

Current law requires the student member to be selected by the Hawaii State Student Council. This measure would change the selection of the student member since that member will be a voting member.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 799 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 530      Judiciary and Government Operations on S.B. No. 843**

The purpose of this measure is to allow a court, before imposing sentence, to order a defendant who has been convicted of a felony or misdemeanor to submit to mental or other medical observation and examination for a period the court determines to be necessary for the purpose, but not to exceed the length of permissible imprisonment.

This measure allows the court to appoint one or more qualified psychiatrists, physicians, or licensed psychologists to conduct the examination from a list of certified examiners as determined by the state department of health. The report of the examination is to be submitted to the court.

According to the State Attorney General, this measure corrects an inadvertent repeal of the statutory revisions enacted by Act 112, Session Laws of Hawaii 2005, which added a DNA analysis provision but repealed the existing statute on presentence mental and medical examination.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 843, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 531      Judiciary and Government Operations on S.B. No. 851**

The purpose of this measure is to bring Hawaii's child support laws into conformance with federal law.

Specifically, this measure:

- (1) Clarifies the requirement that all income withholding payments for child support pursuant to a court order be sent to the Child Support Enforcement Agency or to another state's child support agency acting under title IV-D of the Social Security Act;
- (2) Allows the Child Support Enforcement Agency to disburse funds to custodial parents by electronic deposit or debit card;
- (3) Allows as valid proof of service by certified mail the receipt of an electronic copy or facsimile of a signature on certified mail receipts in lieu of an actual signature;
- (4) Clarifies that the child support enforcement agencies in other states acting under title IV-D of the Social Security Act may directly enforce a child support lien, acknowledging the federal law's provision of full faith and credit to child support liens arising in other states;
- (5) Clarifies that payments from a financial institution may be made directly to the entity seeking to enforce a child support lien without the involvement of the Child Support Enforcement Agency, if that financial institution complies with the State's procedural rules; and
- (6) Requires that only the last four digits of the obligor's social security number be indicated on the notice of child support lien.

Your Committee finds that this measure conforms Hawaii law to with Title VI-D of the Social Security Act.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 532      Judiciary and Government Operations on S.B. No. 930**

The purpose of this measure is to provide voluntary medical assistance personnel immunity from liability due to the death of or injury to persons, or for damage to property, as a result of any act or omission in the course of rendering volunteer medical assistance services.

The immunity does not apply if the death, injury, or damage arises as a result of wilful, criminal, or reckless misconduct, or gross negligence.

Your Committee finds that it is in the public's interest to provide immunity from liability for licensed medical professionals who provide volunteer services in non-emergency situations on behalf of the State or counties, such as school-based immunization clinics.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 930 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 533      Judiciary and Government Operations on S.B. No. 937**

The purpose of this measure is to clarify statutory provisions that govern the process and standards of decision making on applications for conditional release and discharge of forensic patients at the Hawaii State Hospital.

This measure repeals subsections 704-411(5), (6), and (7), Hawaii Revised Statutes (HRS). These provisions have been interpreted as having established an additional hearing and application procedure for persons committed to the Hawaii State Hospital due to an acquittal based on the ground of physical or mental disease, disorder, or defect excluding responsibility. The repeal of these provisions clarifies that section 704-412, HRS, governs the timing and standards for conditional release or discharge from the custody of the director of health.

In addition, the measure includes a sixty days requirement for judicial decisions on motions for conditional release or discharge.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 534      Judiciary and Government Operations on S.B. No. 1142**

The purpose of this measure is to clarify that a physician assistant who holds a current, valid, and permanent license to practice medicine, and who is under the supervision of a licensed physician or osteopathic physician, may sign certain specified documents, and administer specified medical care under certain conditions.

This measure also allows State licensed physician assistants to provide medical care in a public emergency or state or local disaster, without physician supervision.

Your Committee finds that this measure will improve patient access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for Hawaii patients, especially in rural and underserved areas.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1142, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 535 (Majority) Judiciary and Government Operations on S.B. No. 1622**

The purpose of this measure is to provide employment security to persons who might otherwise be displaced from employment due to the divestiture and transfer of a business to another employer.

Specifically, this measure, among other things:

- (1) Requires an existing employer to make available to the prospective employer certain employee information;
- (2) Requires the prospective employer to retain, for a 90-day transition period, all employees who were employed by the existing employer at the time of the divestiture; and
- (3) Requires the new employer, to thereafter offer an employee retained from the existing employer continued employment under the terms and conditions established by the new employer.

This measure recognizes the all too frequent sales of businesses in Hawaii that adversely impact the stability of our workforce and create an additional toll on our economy and unemployment system. These mass terminations due to a business divestiture create problems not only to the employees directly affected, but to the community at large because of increased unemployment and decreased state tax revenues. Where the purchaser of the business intends to provide a similar level of products and services, the new employer is required for the first 90-days of the business to retain from the existing workforce the number of employees needed for the new operation, based on seniority. The employer is able to terminate employees for cause and release employees after the 90-day period if a performance review shows unsatisfactory work. The transition period will provide the new employer with qualified and knowledgeable workers who have rapport and provide continuity with the prior customer base that the new business will seek to maintain.

The measure also requires the new employer to maintain a preferential hiring list of eligible employees not retained by the new employer. If the business expands in that period the new employer is to hire from the preferential hiring list based on operational needs.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1622, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 536 Labor on S.B. No. 896**

The purpose of this measure is to clarify that the civil service exemption for the Hawaii National Guard youth education program positions also applies to the National Guard adult education program positions.

Your Committee finds that this measure makes it clear that the civil service law will not be a limitation in addition to the federal government's Master Cooperative Agreement in the Department of Defense's ability to recruit and retain highly qualified instructors and managers for National Guard youth and adult education programs. Your Committee further finds that exempting these positions from civil service requirements would provide greater continuity to National Guard-sponsored youth and adult education programs, ultimately benefiting the participants of these programs.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 896, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 537 Labor on S.B. No. 208**

The purpose of this measure is to repeal on January 1, 2011, the exemption from civil service for the positions of sheriff, first deputy sheriff, and second deputy sheriff within the Sheriff Division of the Department of Public Safety.

Your Committee finds that the current positions of sheriff, first deputy sheriff, and second deputy sheriff in the Sheriff Division should be subject to the civil service law and its merit principles.

Your Committee believes that repealing the civil service exemption for these positions would benefit the Sheriff Division in the following ways:

- (1) Provide greater stability in leadership;
- (2) Maintain and ensure continuity of institutional knowledge;
- (3) Improve employee morale and create opportunities for career advancement within the Sheriff Division; and
- (4) Improve administrative efficiency and effectiveness.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 208 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 538 Labor on S.B. No. 614**

The purpose of this measure is:

- (1) To authorize as a use of family leave, the time taken off from work by an employee to address family care, legal, and financial issues directly related to or resulting from the impending military deployment or active military deployment of the employee's child, spouse, reciprocal beneficiary, or parent; and
- (2) To require that the employee provide the employee's employer with documentation verifying the military deployment.

This measure defines "military deployment" as the deployment of, by order of a branch of the United States military, an employee serving in the military to a region where hostile and hazardous combat or peacekeeping activities are being conducted.

Your Committee finds that many members of the United States military and their families face unique stresses and challenges that require strong family support. Your Committee further finds that this measure provides an appropriate amount of family leave to employees to address those issues if those employees provide sufficient certification or documentation proving military deployment.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 539 Labor on S.B. No. 1120**

The purpose of this measure is to clarify the civil service status of employees of Waiialae and Lanikai Elementary Schools upon the schools' conversion to charter schools.

Your Committee finds that this measure is necessary to specify in existing statutes that civil service employees at Waiialae and Lanikai Elementary Schools shall retain their civil service status upon the schools' conversion to charter schools.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1120 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

**SCRep. 540 (Majority) Labor on S.B. No. 782**

The purpose of this measure is to:

- (1) Provide unemployment insurance to individuals who are voluntarily or involuntarily separated from their employment as a result of domestic or sexual violence against those individuals or those individuals' minor children; and
- (2) Deem as good cause to refuse work, certain situations that create an unreasonable risk of violence.

Your Committee finds that it is important to extend unemployment insurance benefits to individuals who are separated from employment as a result of domestic or sexual violence against those individuals or those individuals' minor children, as financial independence will help these individuals to escape or mitigate the physical and emotional injuries of abuse.

Your Committee further finds that this measure will conform state laws to federal laws, enabling the State to receive funding under the Federal Unemployment Tax Act.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 782, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Taniguchi).

**SCRep. 541 Transportation, International and Intergovernmental Affairs on S.B. No. 936**

The purpose of this measure is to repeal the requirement for a sanitation certificate to be issued for county business licenses for the operation of a lodging or tenement house, group home, group residence, group living arrangement, hotel, or boarding house.

Your Committee received testimony in support of this measure from the Department of Health. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the City and County of Honolulu no longer requires business licenses for these facilities because of Act 35, Session Laws of Hawaii 2001, so the sanitation certificate is unnecessary for Oahu. Your Committee further finds that the counties of Kauai, Maui, and Hawaii never required a sanitation certificate for these types of businesses.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 936 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 542 Judiciary and Government Operations on S.B. No. 567**

The purpose of this measure is to:

- (1) Makes clear that any person eighteen years of age or older to donate blood in any voluntary and noncompensatory blood program without the necessity of obtaining parental permission or authorization; and
- (2) Allow any person who is sixteen years of age or older but who has not attained the age of eighteen to donate blood in a voluntary and noncompensatory blood program if the person obtains written permission from the person's parent or guardian.

Your Committee finds that twenty-three states have passed legislation or adopted variances recognizing sixteen year olds as eligible voluntary blood donors with parental consent. Your Committee further finds that allowing sixteen year olds to donate blood will increase the donor pool and increase the availability of blood supply to help others in need.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 567 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 543 (Majority) Judiciary and Government Operations on S.B. No. 477**

The purpose of this measure is to clarify that the Speaker of the House of Representatives or the President of the Senate, separately on behalf of their respective houses as well as jointly, may request the State Attorney General to employ a private attorney paid for by the State to represent a legislative office where the Attorney General has declined to provide representation based on a conflict of interest.

Your Committee finds that the statute needs clarification to ensure that both houses of the Legislature individually and jointly are provided with appropriate legal representation as the Legislature or either house thereof deems necessary.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 477 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 544 Judiciary and Government Operations on S.B. No. 107**

The purpose of this measure is to clarify the law on administrative revocation of driver licenses by allowing the Administrative Director of the Courts to authorize a hearing to review a revocation decision, provided that the hearing be held:

- (1) With the consent of the respondent, in a county other than the county in which the notice of administrative revocation was held; or
- (2) By telephonic, video, or other electronic means.

Your Committee received testimony in support of this measure from the Judiciary. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Administrative Driver's License Revocation Office operations currently require almost daily travel between islands in order to allow statewide administrative hearings to be conducted in the county of arrest. The cost is up to \$1,000 of travel per week, constituting the bulk of Administrative Driver's License Revocation Office operational expenditures.

Your Committee finds that this measure would enable the Administrative Driver's License Revocation Office to conduct hearings in a more cost efficient manner.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 545 Ways and Means on S.B. No. 497**

The purpose of this measure is to establish an advisory committee to oversee the Hawaii Teacher Standards Board.

More specifically, this measure:

- (1) Establishes an advisory committee to provide oversight for the Hawaii Teacher Standards Board that shall:
  - (A) Review and evaluate the progress of the Hawaii Teacher Standards Board;
  - (B) Provide the Governor with lists of nominees for appointment to the Hawaii Teacher Standards Board;
  - (C) Present to the Board of Education a list of candidates for the Executive Director of the Hawaii Teacher Standards Board; and
  - (D) Submit an annual report to the Board of Education and the Legislature;
- (2) Authorize the Hawaii Teacher Standards Board to:
  - (A) Determine the manner by which fees are collected;

- (B) Adopt, amend, repeal, or suspend the policies and standards of the Board; and
  - (C) Coordinate the creation of a data interface network; and
- (3) Appropriate funds for the establishment of a data interface network.

Your Committee finds that this measure will contribute to the efficiency and effectiveness of the Hawaii Teacher Standards Board.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 546 Energy and Environment on Gov. Msg. No. 295**

Recommending that the Senate advise and consent to the nomination of the following:

ENVIRONMENTAL COUNCIL

G.M. No. 295 PETER H. COOPER, for a term to expire 6-30-2010.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Peter H. Cooper to have the necessary qualifications to be appointed to the Environmental Council.

Testimony in support of Mr. Cooper's nomination was submitted by four private organizations and five individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Mr. Cooper holds a Bachelor of Business Arts degree, with dual majors in Real Estate and Finance, from the University of Hawaii School of Business. He is the Chief Operating Officer of Sun Power Hawaii LLC, which designs, installs, and finances photovoltaic systems within the State of Hawaii. He is also the President of Cooper & Cooper, LLC, which develops personal portfolio properties, as well as partners with investors throughout the State. In this capacity, Mr. Cooper provides development management and project management through all phases of real estate projects. Through his sixteen years of experience with the development-construction industry, Mr. Cooper has gained experience in all aspects of project management and development, including due diligence, plan review, contract negotiation, permit processing, master scheduling, and project management. His insight into the real estate development process will provide the Council with a unique perspective in how the environmental disclosure process can be improved and objectively applied in a balanced and comprehensive manner.

Mr. Cooper is also a strong advocate for sustainability. He is a member of the Sustainability Committee and is a past president of the Hawaii Developers' Council. He and other members of the Hawaii Developers' Council helped to establish the HDC Green Awards, which recognize the achievements in energy efficient design for commercial and residential real estate development projects in Hawaii. Mr. Cooper is also on the Board of Directors of the National Association of Industrial and Office Properties – Hawaii Chapter. He is also working with the Malama Learning Center, an organization committed to bringing students, teachers, residents, and businesses together where they can learn about sustainable environments via art, science, conservation, and culture.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Kokubun).

**SCRep. 547 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 44**

The purpose of this measure is:

- (1) To express support of the Legislature for the United States Geological Survey Report, "The Coral Reef of South Moloka'i, Hawaii: Portrait of a Sediment Threatened Fringing Reef";
- (2) To encourage federal and state agencies to recognize and support the conclusions of the report; and
- (3) To express support of the Legislature for the community-based efforts to steward the South Moloka'i Reef fishery and for the use of the scientific findings presented in the report and traditional Hawaiian conservation practices, to preserve the health of the South Moloka'i Reef.

Testimony in support of this measure was submitted by one state agency, one organization, and two individuals. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the South Moloka'i Reef is the longest, most continuous, and densest coral reef in the main Hawaiian Islands, and that it is a unique area that should be studied and protected. Your Committee also finds that the United States Geological Report entitled "The Coral Reef of South Moloka'i, Hawaii: Portrait of a Sediment Threatened Fringing Reef" is a product of successful collaboration among federal and state agencies that presents new, technical data on the South Moloka'i Reef and recognizes the native Hawaiian concept of ahupua'a management.

Your Committee agrees with the conclusion of the report that the condition of the South Moloka'i Reef can improve with enough will and local support, and appreciates the efforts of federal and state agencies and communities to study and steward the South Moloka'i Reef and fishery.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 44 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Tokuda).

**SCRep. 548 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 26**

The purpose of this measure is:

- (1) To express support of the Senate for the United States Geological Survey Report, "The Coral Reef of South Moloka'i, Hawaii: Portrait of a Sediment Threatened Fringing Reef";
- (2) To encourage federal and state agencies to recognize and support the conclusions of the report; and
- (3) To express support of the Senate for the community-based efforts to steward the South Moloka'i Reef fishery and for the use of the scientific findings presented in the report and traditional Hawaiian conservation practices, to preserve the health of the South Moloka'i Reef.

Testimony in support of this measure was submitted by one state agency, one organization, and two individuals. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the South Moloka'i Reef is the longest, most continuous, and densest coral reef in the main Hawaiian Islands, and that it is a unique area that should be studied and protected. Your Committee also finds that the United States Geological Report entitled "The Coral Reef of South Moloka'i, Hawaii: Portrait of a Sediment Threatened Fringing Reef" is a product of successful collaboration among federal and state agencies that presents new, technical data on the South Moloka'i Reef and recognizes the native Hawaiian concept of ahupua'a management.

Your Committee agrees with the conclusion of the report that the condition of the South Moloka'i Reef can improve with enough will and local support, and appreciates the efforts of federal and state agencies and communities to study and steward the South Moloka'i Reef and fishery.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 26, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 26, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Tokuda).

**SCRep. 549 Commerce and Consumer Protection on S.B. No. 886**

The purpose of this measure is to make housekeeping amendments to clarify and streamline business registration laws.

Specifically:

- (1) Regarding corporate existence, this measure provides consistency with model law and other statutory provisions by deleting the word "may" in the corporation, nonprofit corporation, and professional corporation provisions that deal with the continuation of corporate existence after dissolution;
- (2) Regarding references to involuntary dissolutions and cancellations, this measure changes references to "involuntary" dissolution or cancellation to "administrative" dissolution or cancellation in the corporation, nonprofit corporation, and general partnership statutes;
- (3) Regarding procedures for converting to Hawaii (domestic) entity vs. foreign (non-Hawaii) entity, this measure clarifies the technical administrative filing procedures;
- (4) Regarding reinstatement of general partnerships, this measure clarifies procedures for reinstatement; and
- (5) Regarding electronic transmission of notice to members of nonprofit corporations, this measure conforms nonprofit corporation law with profit corporation law.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will provide both businesses and consumers with increased clarity and consistency in the State's business registration laws.

Your Committee has amended this measure by making technical amendments to conform to the preferred drafting style and for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 886, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 886, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Sakamoto).

**SCRep. 550 Economic Development and Technology on S.B. No. 382**

The purpose of this measure is to revise the appointment process of members who serve on the Stadium Authority and to increase its membership from nine members to eleven members.

Specifically, the measure:

- (1) Increases the membership of the Stadium Authority from nine to eleven members;
- (2) Clarifies that the University of Hawaii President and the Superintendent of Education are nonvoting members; and
- (3) Splits the authority to appoint the remaining nine members equally among the Governor, the Senate President, and the Speaker of the House of Representatives.

Testimony in support of this measure was submitted by Aloha Stadium Vendors' Corp. and one individual. Testimony in opposition to this measure was submitted by the Department of Accounting and General Services and Aloha Stadium Authority. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that revising the Stadium Authority's appointment process and increasing its membership to eleven will help the Stadium Authority further achieve its objectives of promoting business events and securing contracts for various engagements at Aloha Stadium. It is your Committee's understanding that the changes to the Stadium Authority will not be incorporated in a manner that will inhibit the Stadium Authority's working relationship with its tenants or vendors.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to promote further discussion on the issues in this measure.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 382, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

**SCRep. 551 Economic Development and Technology on S.B. No. 536**

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism to develop, with the assistance of a temporary advisory committee, a statewide starlight reserve strategy to preserve the quality of the night sky for astronomical observation.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, University of Hawaii at Manoa Institute for Astronomy, Hawaiian Astronomical Society, Haleakala Amateur Astronomers, Maui Astronomy Club, Windward Ahupua'a Alliance, and four concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the quality of the night sky in Hawaii is unique and is a valuable natural resource that needs to be protected. Your Committee also finds that specific practices and safeguards are necessary to preserve the quality of the night sky in Hawaii for continued astronomical observation that is superior to the rest of the United States. Your Committee further finds that the development and implementation of a starlight reserve strategy will help to prevent the night sky in Hawaii from light pollution.

Your Committee has amended this measure by:

- (1) Deleting section 5(b) of this measure relating to the establishment of a statewide intelligent lighting law;
- (2) Adding a representative of the Hawaiian Astronomical Society as a member of the temporary advisory committee;
- (3) Adding a lighting engineer as a member of the temporary advisory committee; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 536, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, none.

**SCRep. 552 (Joint) Economic Development and Technology and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1143**

The purpose of this measure is to require the State Historic Preservation Officer to possess professional qualifications in specific fields of study and to have professional experience with historic preservation in Hawaii.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the Hawaii Government Employees Association, the Historic Hawaii Foundation, and the Society of Hawaiian Archaeology. Testimony in opposition of this measure was submitted by the Department of Land and Natural Resources. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that establishing uniform standards and practices in appointing the State Historic Preservation Officer that are consistent with the guidelines established by the United States Secretary of the Interior ensures that individuals appointed to the position carry out the objectives of the position in a successful manner. Your Committees also find that requiring the State Historic

Preservation Officer to meet the standards and qualifications set forth by the United States Secretary of the Interior will facilitate the officer in overcoming and addressing the many challenges and obstacles faced on a daily basis.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to promote further discussion on this measure; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1143, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1143, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 2 (Bunda, Ige).

**SCRep. 553 (Majority) Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1199**

The purpose of this measure is to create and amend fishing provisions that affect the community on the island of Molokai.

Specifically, this measure establishes a community-based subsistence fishing area around the island of Molokai to protect the fish stocks and coral reef habitats.

Testimony in support of this measure was submitted by one organization and fifteen public citizens. One organization supported the intent of the measure. Testimony in opposition was submitted by one state agency and two public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the people of Molokai maintained a sustainable and self-sufficient food supply for over a thousand years, and modernization and abandonment of traditional resource management have led to the severe decline of Molokai's fishery. Today, thirty-five per cent of Molokai residents rely on some form of subsistence for their food supply. Your Committee finds that this measure will protect fish stocks and coral reef habitats around the island of Molokai to ensure that Molokai residents may continue subsistence practices, and that traditional resource management practices may be utilized to restore the Molokai fisheries.

Your Committee has amended this measure by:

- (1) Establishing the boundaries of the subsistence fishing area as one mile offshore parallel to the contours of the shoreline of the island of Molokai;
- (2) Removing the subsection requiring the Department of Land and Natural Resources to consult with Molokai community members for rule development; and
- (3) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1199, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1199, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Hemmings). Excused, 3 (Bunda, Takamine, Tokuda).

**SCRep. 554 Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 633**

The purpose of this measure is to require that at least four members of the Moloka'i Irrigation System Water Users Advisory Board be Hawaiian homestead farmers.

Testimony in support of this measure was submitted by five organizations and seven public citizens. One state agency and three organizations provided comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that under section 168-4, Hawaii Revised Statutes, the Moloka'i homesteaders have a two-thirds water preference for the Moloka'i Irrigation System. In the State Auditor's Report, No. 08-03, Financial and Management Audit of the Moloka'i Irrigation System, it was recognized that the preference accorded to homesteaders is not reflected in any planning and that non-homestead farmers consume approximately eighty per cent of the system's available water. Your Committee believes that additional representation of homestead farmers on the Moloka'i Irrigation System Water Users Advisory Board is needed to better represent the homestead farmers and to ensure that the homestead farmers receive their statutorily guaranteed water preference.

Your Committee has amended this measure by:

- (1) Adopting the recommendations of the Department of Agriculture and adding definitions for "homestead farmer user" and "kupuna homestead farmer user";
- (2) Requiring that at least two members be homestead farmers, including one being a kupuna homestead farmer user;
- (3) Deleting the designated member from the Department of Hawaiian Home Lands, and replacing it with the supervisor of the Moloka'i District Office of the Department of Hawaiian Home Lands as an ex-officio member;
- (4) Deleting the requirement that at least four members be Hawaiian homestead farmers;
- (5) Defining a quorum, and prohibiting members from acting on matters with which they may have a conflict of interest;
- (6) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and

(7) Making technical, nonsubstantive changes for clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 633, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 633, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Tokuda).

**SCRep. 555 (Majority) Ways and Means on S.B. No. 389**

The purpose of this measure is to improve the efficiency of the allotment process for state capital improvement projects.

Specifically, this measure directs the Legislative Reference Bureau to review the memorandum of understanding between the Department of Education and the Department of Budget and Finance for the allotment of capital improvement projects. The purpose of the review is to provide analysis and recommendations so that the allotment processes may be replicated for use by other state agencies.

Three state agencies offered comments on the measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the allotment process for state capital improvement projects is generally governed by Part II of Chapter 37, Hawaii Revised Statutes. However, the Department of Education and the Department of Budget and Finance currently conduct an allotment process in a manner consistent with a memorandum of understanding that establishes procedures to improve the flow of information and operations between the departments. Your Committee believes that the capital improvement allotment process benefits from improving transparency, understanding, and knowledge of fiscal operations among departments. Accordingly, your Committee finds that a review of the memorandum of understanding would be appropriate to improve fiscal responsibility and increase the efficiencies of other agencies.

Upon further consideration, your Committee has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 389, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Hemmings). Excused, 3 (English, Fukunaga, Hee).

**SCRep. 556 (Majority) Ways and Means on S.B. No. 387**

The purpose of this measure is to affirm the Legislature's intent that appropriation transfers or changes between programs or agencies shall not be made without prior legislative authorization.

Specifically, this measure adds clarifying language to expressly require that appropriation transfers or changes between programs and agencies, when proposed, shall not take effect until approved by the chairpersons of the Ways and Means and Finance committees of the Legislature.

The Office of the Governor and four state departments submitted testimony in opposition to this measure.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that section 13(d) of Act 185, Session Laws of Hawaii 1970, provided the original basis for the law relating to appropriation transfers or changes between programs or agencies that is now codified in section 37-74(d), Hawaii Revised Statutes. Act 185 specifically stated that "[n]o appropriation transfers or changes between programs or agencies shall be made without legislative authorization. Authorized transfers or changes, when made, shall be reported to the legislature." The intent of the law is clearly stated and is a policy that has been practiced for almost forty years.

Upon further consideration, however, your Committee has amended this measure by deleting paragraph (1) of section 37-74(d), Hawaii Revised Statutes, that requires:

- (1) Approval by the chairs of the money committees of both houses of the Legislature; and
- (2) Reporting to the Legislature, and

by renumbering the remaining paragraphs (2) and (3) as paragraphs (1) and (2) of section 37-74(d), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 387, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Hemmings). Excused, 4 (English, Fukunaga, Hee, Kidani).

**SCRep. 557 (Majority) Ways and Means on S.B. No. 646**

The purpose of this measure is to require the Governor to explain, in writing, to the Legislature all policy decisions that reduce or limit appropriations previously approved by the Legislature.

Two private individuals submitted testimony in support of this measure. The Office of the Governor and one state department submitted testimony opposed to this measure.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee notes that, particularly in these austere financial times, the Governor, on many occasions, has reduced, withheld, or otherwise limited previously approved legislative appropriations. Your Committee feels that it is critical to the integrity of the budgetary process, that the Governor provide an explanation to the Legislature for the reduction, withholding, or otherwise limiting of any previously approved appropriation by the Legislature. Furthermore, your Committee finds that an explanation of the Governor's policy decisions that affect appropriations and programs previously approved by the Legislature would encourage cooperative problem solving to help our State move forward.

Your Committee has amended this bill to:

- (1) Clarify that an explanation from the Governor is also required when appropriations are withheld or otherwise limited; and
- (2) Make a technical amendment to replace a missing word.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 646, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Hemmings). Excused, 3 (English, Fukunaga, Hee).

**SCRep. 558      Ways and Means on S.B. No. 1197**

The purpose of this measure is to ensure the effectiveness and accountability of tax expenditures by requiring them to be reviewed every other year.

Specifically, this measure requires the Department of Taxation to submit in each odd-numbered year a report to the Legislature on all tax expenditures in effect. The report shall include information on:

- (1) The purpose and intent of each tax expenditure;
- (2) Any revenue loss resulting from the expenditure; and
- (3) An evaluation of whether the tax expenditure is achieving its intended policy goals, the cost effectiveness of the expenditure, alternatives to the expenditure, and the feasibility of continuing each tax expenditure.

Further, this measure requires all legislation that creates new or expands existing tax expenditures to contain provisions that require:

- (1) A sunset provision;
- (2) An evaluation or study;
- (3) Recapture provisions for taxpayers that fail to meet the requirements under the tax expenditure; and
- (4) Measureable goals and objectives.

For the purposes of this measure, "tax expenditures" includes tax credits, deductions, exclusions, exemptions, and any other tax benefits.

Testimony in support of this measure was submitted by one organization. One state agency and one organization submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that periodic evaluations of tax expenditures by the State will enable the State to make fiscally-sound and effective spending decisions. Tax expenditures are a less visible use of public resources than public spending, and as such, they deserve careful scrutiny to determine their effectiveness. Your Committee believes that responsible fiscal planning should include an evaluation of the true costs of tax expenditures and result in funding of only those programs that provide an effective and efficient use of tax revenue, especially in a time when revenue is limited.

Accordingly, your Committee finds that the reporting of the costs and uses of tax expenditures will help policy-makers evaluate the effectiveness of tax benefit programs and determine whether those programs are succeeding in meeting their objectives.

Upon further review, your Committee has amended this bill by placing the language of subsection (d) of the new section being added to the Hawaii Revised Statutes into a separate new statutory section, entitled "Tax expenditures; required elements" for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1197, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Fukunaga, Hee).

**SCRep. 559      Ways and Means on S.B. No. 1327**

The purpose of this measure is to reduce the interest rate payable on refunds for an overpayment of taxes from two-thirds of one per cent to one-third of one per cent.

One organization provided comments on the measure.

As noted in comments submitted to the Committee, the rate of interest paid on overpayments and underpayments has not been adjusted in the State since 1967. Your Committee finds that as a reflection of the current state of the economy, as well as an attempt by the State to manage expenses during a projected budget shortfall, reducing the interest rate of refunds for tax overpayment to one-third of one per cent on the overpayment of tax is fiscally prudent. While not a substantial saving of state revenue by itself, this measure, when combined with other expense reducing measures under consideration by your Committee, should have an impact on the budget deficit.

Your Committee has amended the measure to: (1) Clarify that it applies only to taxable years beginning after December 31, 2008; and (2) Make technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1327, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1327, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Fukunaga, Hee).

**SCRep. 560 Commerce and Consumer Protection on S.B. No. 771**

The purpose of this measure is to require a real estate appraiser who is acting as an arbitrator in a process to determine the fair market value of real estate to comply with the Uniform Standards of Professional Appraisal Practice.

Your Committee received testimony in support of this measure from Hawaii Council of Associations of Apartment Owners and two private citizens. Testimony in opposition to this measure was received from the Department of Commerce and Consumer Affairs and the Hawaii Chapter of the Appraisal Institute. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that under the current law, appraisers are required to adhere to the Uniform Standards of Professional Appraisal Practice in determining the value of real estate. Your Committee further finds that it is appropriate for an appraiser who is acting as an arbitrator to rely on the same standard to guide the appraiser's decision in an arbitration process. Your Committee encourages the next legislative body that considers this measure to investigate the benefits and drawbacks of requiring an appraiser acting as an arbitrator to comply with the Uniform Standards of Professional Appraisal Practice in determining the amount of an arbitration award.

Your Committee has amended this measure by:

- (1) Clarifying the requirement that an appraiser acting as an arbitrator shall rely on the Uniform Standards of Professional Appraisal Practice to guide the appraiser's decision determining an arbitration award;
- (2) Adding a provision to require that an appraiser acting as an arbitrator include findings of fact, the rationale for the appraiser's decision, and information on the evidence upon which the award is based in the record of an award;
- (3) Deferring the effective date of this measure to encourage further discussion; and
- (4) Making technical, nonsubstantive changes to the language of this bill for the purpose of conformity with the existing law.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 771, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 771, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 561 Commerce and Consumer Protection on S.B. No. 891**

The purpose of this measure is to amend the unfair or deceptive insurance practices statutes by prohibiting certain unfair or deceptive practices by health insurers.

Specifically, the measure:

- (1) Prohibits cancellation or nonrenewal of enrollment because of a medical condition;
- (2) Prohibits withdrawal of authorization for a procedure by the health plan after the provider has provided health care services;
- (3) Prohibits health insurance contract modifications during the term of the contract, unless such modifications are agreed to under a preliminary agreement;
- (4) Prohibits post claims underwriting, i.e., terminating an individual's health plan coverage because the insurer discovers a medical condition that was unknown at the time of underwriting; and
- (5) Provides that eligible charges for nonparticipating providers should be the same as for participating providers.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs. Testimony in support with proposed amendments was submitted by the Hawaii Medical Association. Testimony with comments was submitted by the Hawaii Medical Service Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will ensure clarity for both consumers and health insurers regarding prohibited practices by health insurers. Establishing these provisions in state law will provide clear guidelines and requirements and will help avoid potentially lengthy administrative and court rulings regarding violations.

Your Committee further finds that this measure is based in part on federal law, and the California Knox-Keene Act, which regulates managed care plans.

Your Committee has amended this measure by:

- (1) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (2) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 891, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 562 Commerce and Consumer Protection on S.B. No. 1129**

The purpose of this measure is to require licensure and registration of athletic trainers.

Your Committee received testimony in support of this measure from the Department of Education and Hawaii Athletic Trainers Association. Testimony in opposition to this measure was received from the Occupational Therapy Association of Hawaii. Testimony with comments on this measure was received from the Physical Therapists Association. The Department of Commerce and Consumer Affairs submitted testimony supporting the completion of a sunrise study prior to regulating athletic trainers. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that athletic trainers certified by the Board of Certification of the National Athletic Trainers Association are healthcare professionals who specialize in the prevention, assessment, treatment, and rehabilitation of injuries and illnesses of athletes and others engaged in physical exercise. Athletic trainers are employed in medical settings, public and private secondary schools, institutes of higher education, and fitness centers. Your Committee finds that, due to the nature of the work performed by athletic trainers, some oversight of the profession is necessary to protect the public health, safety, and welfare. Your Committee further finds that although a resolution requesting that the State Auditor conduct a sunrise analysis was passed by the Legislature in 2005, that analysis has not yet been conducted. Finally, your Committee notes that athletic trainers themselves are perhaps the strongest proponents of regulation and oversight of this profession since there is currently nothing in Hawaii law that prohibits an unskilled, unqualified, or unethical individual from practicing athletic training in such a way that could harm individual clients and tarnish the reputation of the profession as a whole.

Your Committee notes that it is moving this measure forward for the purpose of further discussion and feedback toward a concurrent resolution requesting that the Auditor study the registration scheme proposed in this measure. Your Committee further notes that the testimony received from athletic trainers, physical therapists, and occupational therapists reveals that members of these professions often work closely together and perform interrelated functions when caring for patients. Your Committee encourages members of all of these professions to continue to work together to achieve consensus on this measure or other means of regulating the athletic trainer profession.

Your Committee has amended this measure by:

- (1) Removing provisions related to licensure of athletic trainers;
- (2) Removing provisions that defined the scope of practice of athletic trainers;
- (3) Removing the prohibition on unprofessional conduct by an athletic trainer;
- (4) Adding new provisions providing for the registration of athletic trainers with the Department of Commerce and Consumer Affairs; and
- (5) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 563 (Majority) Commerce and Consumer Protection on S.B. No. 1113**

The purpose of this measure is to repeal the requirement that a hotel located in a county with a population in excess of five hundred thousand residents that is converted to a time share must consist of at least sixty units, forty per cent of which are sold or rented as residential apartments.

Your Committee received testimony in support of this measure from Wyndham Worldwide, American Resort Development Association, and Starwood Resorts. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is important to preserve an adequate supply of affordable housing stock for rental or purchase by Hawaii residents. However, time shares also serve an important function in maintaining consistent tourism levels and rehabilitating older hotel properties. Your Committee further finds that the current law places the burden of compliance on the developer of a time share property even though the developer does not have the ability to control the use of independently owned units within the development.

Your Committee has amended this measure by:

- (1) Preserving the provision of the current law that allows timeshares in a county with a population in excess of five hundred thousand, in an existing hotel that has been converted to time share units, thus repealing only the existing language requiring that hotels with more than sixty units have at least forty per cent of the units available as residential apartments for sale or rent; and
- (2) Making a minor, nonsubstantive, technical change for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1113, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Sakamoto). Noes, 1 (Hemmings). Excused, 1 (Ihara).

**SCRep. 564 Energy and Environment on S.B. No. 605**

The purpose of this measure is to require the Department of Health to change its decibel weighting system from the A-weighted system (dBA) system to the C-weighted system (dBC) for purposes of community noise control.

Testimony in support of this measure was submitted by one private organization and three individuals. Testimony in support, with comments or amendments, was submitted by the Honolulu Liquor Commission and one private organization. Testimony in opposition to this measure was submitted by the State Department of Health. Written testimony presented to your Committee may be reviewed on the Legislature's website.

The Department of Health submitted testimony conveying concerns regarding the funding that would be required to adopt administrative rules for the use of the dBC weighting system and to obtain sound level meters that utilize the dBC system. The Department of Health also expressed opposition to substituting the dBA system with the dBC system.

The Honolulu Liquor Commission testified that the county liquor commissions have the authority to investigate violations of the applicable Department of Health's allowable noise levels.

Although its investigators have responded to and attempted to enforce complaints regarding low-frequency noise, the Commission is required to follow the Department of Health's standards, which do not adequately address low-frequency noise. Additionally, the Commission expressed concerns that the current maximum noise level, 70 decibels, may be too loud when measuring low-frequency sound using the dBC system. However, the Commission indicated that it did not have the expertise to recommend an appropriate decibel level to your Committee. The Commission also recommended adding the dBC scale to the existing dBA scale.

Subsequent to the hearing on this measure, the Commission and the Department of Health developed recommendations to address these concerns.

Your Committee finds that the current decibel weighting system, the dBA system, measures high-frequency sound (i.e., treble) but does not take into account the low-frequency sound (i.e., heavy bass sounds) that are particularly troublesome to the public. These sounds apparently penetrate buildings and get into the building structures (walls, floors, furniture), which disturbs residents who are trying to sleep. As more late-night liquor establishments are opening in or near mixed-use or residential areas, late-night low-frequency noise is becoming an increasing problem. Although enforcement of sound restrictions using the dBC weighting system would alleviate these particular concerns, your Committee finds that replacing the dBA system would not be beneficial because high-frequency noise should still be regulated.

Adopting the recommendations from the Liquor Commission and the Department of Health, your Committee has amended this measure by:

- (1) Defining "dBA", "dBC", and "decibels" for purposes of chapter 342F, Hawaii Revised Statutes;
- (2) Requiring the Department of Health to add the dBC decibel weighting system to the current dBA decibel weighting system for purposes of community noise control;
- (3) Deeming 60 decibels for bass sound (using the dBC weighting system) as the maximum sound level permissible at nighttime, and, where a complainant's site is located in close proximity to an area zoned mixed-use or residential, then the maximum permissible sound at nighttime shall be 50 decibels dBC;
- (4) Granting to the Department of Health and the county liquor commissions the discretion to enforce nighttime noise levels between 50 and 60 decibels dBC; and
- (5) Directing the county liquor commissions, with the assistance of the Department of Health and the Department of Labor and Industrial Relations, to develop recommendations for a permanent maximum sound level, in decibels.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 605, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 605, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 565      Judiciary and Government Operations on S.B. No. 260**

The purpose of this measure is to:

- (1) Amend the definition of “gambling” to clarify that the purchase of a sweepstakes entry that also provides nominal non-gambling value constitutes gambling even if the sweepstakes entry can be obtained without payment of consideration; and
- (2) Eliminate free play as a defense under certain circumstances.

Your Committee received testimony in support of this measure from the Honolulu Police Department; Honolulu Liquor Commission; The League of Women Voters of Hawaii; Hawaii Coalition Against Legalized Gambling; Maryknoll Sisters; and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that there is a proliferation of vending machines that dispense “sweepstakes” game cards that can also be used to make brief, long distance telephone calls. These cards typically cost \$1 each and, while vendors make it possible to obtain a card by mail at no cost, these cards are from a separate pool of possible winners, rather than the pool of cards placed in a vending machine. Your Committee believes that the chance element of this scheme should constitute gambling.

Your Committee notes that the Honolulu Liquor Commission does not issue licenses, permits, or approvals for those machines. Your Committee further notes that the liquor commissions are lacking in current resources to enforce this measure.

Your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Making the criminal provision effective January 1, 2011; and
- (3) Changing the effective date of the entire measure to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 260, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 566      Judiciary and Government Operations on S.B. No. 1192**

The purpose of this measure is to increase the jurisdictional limits of small claims court, as follows:

- (1) For cases for the recovery of money, from \$3,500 to \$7,000, exclusive of interest and costs; and
- (2) For cases for the return of leased or rented personal property, from \$3,500 to \$7,000, exclusive of interest and costs.

Your Committee received testimony in support of this measure from the Legal Aid Society of Hawai‘i, Access to Justice Commission, The Mediation Center of the Pacific, Inc., and four individuals. Comments were received from the Judiciary. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that this measure would allow a person with a claim of \$7,000 or less to use the small claims court. Increasing the jurisdictional limit of the small claims court to \$7,000 will enable more people to pursue their claims in an easier, less expensive and more expeditious manner than is the usual case in the Regular Claims Division of the District Court or the Circuit Court.

Your Committee is aware that raising the limit to \$7,000 would enable a litigant to demand a jury trial under the Hawaii State Constitution’s right to a jury trial in matters over \$5,000. Your Committee understands the potential increase in costs and time involved in a jury trial. Nevertheless, your Committee believes that this measure has merits that deserve further consideration and discussion.

Your Committee has amended this measure by changing the effective date to July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1192, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 567      Judiciary and Government Operations on S.B. No. 1349**

The purpose of this measure is to:

- (1) Clarify which types of authorized changes to notarized documents shall not constitute misrepresentation of a notarized document in the first or second degrees;
- (2) Clarify that it shall not be considered misrepresentation of a notarized document if alternations made to the document after notarization have been approved by all parties who signed it; and

- (3) Provide that for the purpose of the offense of failure to authenticate with a certification statement, if the number of pages of the document being notarized cannot be readily ascertained, the notary public is required to state that the number of pages is unknown.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Title Guaranty of Hawaii.

Your Committee finds that the processing of real estate transactions involves documentation that often requires the participation of many parties, some of whom may be located in other states or countries. It also involves satisfying the requirements of lenders, and ultimately the documents must be acceptable to the Bureau of Conveyances and the Office of the Assistant Registrar of the Land Court. This measure would facilitate the processing and acceptance of such documents.

Your Committee has amended this measure by:

- (1) Deleting section 2, relating to the elements of failure to authenticate with a certification statement;
- (2) Adding Senate Bill No. 850, SD1, relating to notary seals, which require a notary public's commission number to be included on the notary public's official seal or stamp; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1349, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 568 Public Safety and Military Affairs on S.B. No. 213**

The purpose of this measure is to require the Department of Public Safety to establish performance indicators that provide data on the success and failures of rehabilitative programs and to provide the Legislature with a report on the performance indicators each month beginning on July 31, 2009.

Testimony in support of this measure was submitted by three private organizations and five individuals. Testimony in opposition of this measure was submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that establishing key performance indicators that can be used to analyze comprehensive reentry and other rehabilitative programs is necessary to track the progress of those programs. Your Committee also finds that requiring the Department of Public Safety to submit a report on the performance indicators to the Legislature is vital for the Legislature to assess the Department of Public Safety's effectiveness in implementing those programs.

Your Committee has amended this measure by:

- (1) Amending the list of key performance indicators to include information relating to inmates and parolees; and
- (2) Amending the Department of Public Safety's reporting requirement to the Legislature from monthly to only requiring a report within thirty days of the last working day of April, August, and December, beginning with the period ending on August 31, 2009.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 213, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 569 Public Safety and Military Affairs on S.B. No. 539**

The purpose of this measure is to reorganize and rename the Corrections Program Services Division of the Department of Public Safety to the Reentry Services Division.

This measure also requires the Reentry Services Division to work closely with the prison furlough programs in each county.

Testimony in support of this measure was submitted by two private organizations. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that renaming the Intake Service Center Division is complementary to the initiatives of the division to provide programs and services to successfully integrate the present and future reentry needs of inmates. Your Committee also finds that authorizing the Reentry Intake Services Division to work closely and collaborate with the furlough programs of each county, the Hawaii Paroling Authority, and the Corrections Program Services Division ensures that the reentry needs of inmates will be met.

Your Committee has amended this measure by:

- (1) Renaming the Intake Service Center Division to the Reentry Intake Services Division;
- (2) Changing all references to the Intake Service Center Division to the Reentry Intake Services Division;

- (3) Changing the date of the transition of the programs and services from the Intake Service Center Division to the Reentry Intake Services Division from June 30, 2009, to July 1, 2009;
- (4) Adding to the duties and responsibilities of the Reentry Intake Services Division by requiring the Division to work closely and collaborate with the Hawaii Paroling Authority and Corrections Program Services Division;
- (5) Changing all references to the Corrections Program Services Division, other than the reference to the Corrections Program Services Division in section 353C- (b)(5), Hawaii Revised Statutes, to the Intake Service Center Division; and
- (6) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 539, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 539, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Gabbard, Galuteria).

**SCRep. 570 (Joint) Health and Commerce and Consumer Protection on S.B. No. 114**

The purpose of this measure is to ensure that families who have overlapping or dual dental insurance coverage are able to obtain the full benefits of these insurance coverages.

Specifically, this measure requires insurers that provide dental insurance coverage to:

- (1) Declare its coordination of dental benefits policy prominently in its evidence of coverage or contract with the insured;
- (2) When acting as a primary dental benefits plan, pay the maximum amount required by its contract with the insured; and
- (3) When acting as a secondary dental benefits plan, pay the lesser of either the amount that it would have paid in the absence of any other dental benefits coverage, or the insured or beneficiary's total out-of-pocket cost payable under the primary dental benefits plan for benefits covered under the secondary plan.

Your Committees received testimony in support of this measure from the Hawaii Dental Association. Your Committees received testimony in opposition to this measure from the Hawaii Medical Service Association.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that dental insurance coverage is an important component to the overall health and wellbeing of families in Hawaii. Families that are fortunate to have dual insurance policies covering dental care are finding that they are not getting the full benefit of the two policies they or their employers are paying for. Your Committees find that dental benefits need to be coordinated and insurers need to make available the coordination of dental benefits policy to their members.

Your Committees have amended this measure by:

- (1) Clarifying that the coordination of benefits rules shall apply to each person that is covered by two or more of the following that cover dental services:
  - (A) Policies, contracts, plans, and agreements with a dental service corporation as authorized by chapter 423, Hawaii Revised Statutes;
  - (B) Blanket disability insurance policies or blanket disability insurance policies regulated under chapter 431, Hawaii Revised Statutes;
  - (C) Individual or group hospital or medical service plans regulated under chapter 432, Hawaii Revised Statutes; and
  - (D) Policies, contracts, plans and agreements regulated under chapter 432D, Hawaii Revised Statutes;
- (2) Requiring that the coordination of benefits rules shall be consistent with the National Association of Insurance Commissioners Coordination of Benefits Model Regulation relating to order of benefit determinations; and
- (3) Requiring each employer offering policies, contracts, plans, or agreements covering dental services to inform its employees of any coordination of dental benefits policy.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 114, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 114, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 3 (Ihara, Nishihara, Sakamoto).

**SCRep. 571 Commerce and Consumer Protection on S.B. No. 595**

The purpose of this measure is to grant boards of directors of associations of apartment owners the authority to permit the installation of antennas for amateur radios in apartments and limited common areas.

Your Committee received testimony in opposition to this measure from the Community Associations Institute, Hawaii Council of Associations of Apartment Owners, and Mililani Town Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that because amateur radio operators are part of the emergency preparedness network, they should be allowed to operate without unreasonable barriers. Your Committee notes that the testifiers' objections to this measure are based largely on objections to intrusion into private property rights. However, your Committee finds, in light of the important public purpose served by the emergency preparedness network and the amendments made to this measure by your Committee, this measure is sufficiently protective of private property rights.

Your Committee has amended this measure by:

- (1) Removing language that would have allowed a board of directors of an association to override the wishes of nonconsenting property owners;
- (2) Deferring the effective date of this measure to encourage further discussion of the issue; and
- (3) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 595, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Ihara).

**SCRep. 572 Commerce and Consumer Protection on S.B. No. 887**

The purpose of this measure is to update and clarify the existing law governing licensure and regulation of escrow depositories to reflect the growth and the changing practices of the industry over the more than three decades that have passed since the law was enacted.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current law governing the licensure and registration of escrow depositories has not been updated in thirty-six years. In that time, the transactions routinely handled by Hawaii's escrow depositories have grown in both number and size so that many escrow depositories may currently be undercapitalized although they are compliant with the current law. The current law does not provide adequate protections to consumers and does not provide consumers or escrow depositories with a contemporary framework for the conduct of escrow transactions.

Your Committee notes that the issue of statutorily requiring arbitration to resolve disputes involving escrow depositories was raised at the hearing on this measure. Your Committee finds that an arbitration mandate is more appropriately addressed in an individual escrow contract than in statute. Therefore, your Committee has excluded an arbitration requirement from this measure and recommends that such a requirement not be inserted at a later stage in the legislative process.

Your Committee has amended this measure by:

- (1) Specifying that an emergency situation that may compel closure of an escrow depository includes a flood;
- (2) Adding a new section to direct associations of escrow companies to provide their members with updated educational materials on a regular basis;
- (3) Adding a definition of "tangible net capital";
- (4) Clarifying that the tangible net capital requirements of this measure apply equally to all escrow depositories regardless of their status as a corporation, partnership, limited liability corporation, limited liability partnership, or other corporate status;
- (5) Deferring the effective date of this measure to encourage further discussion; and
- (6) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 887, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 573 (Joint) Health and Commerce and Consumer Protection on S.B. No. 166**

The purpose of this measure is to ensure that oral chemotherapy treatments are covered by health insurance by requiring health insurance providers to provide parity of coverage for oral and intravenous chemotherapy.

Your Committees received testimony in support of this measure from the Department of Human Services and the American Cancer Society. Testimony in opposition of this measure was submitted by the Hawaii Association of Health Plans and Hawaii Medical Service Association. Comments on this measure were submitted by the Department of Commerce and Consumer Affairs and the American Family Life Assurance Company of Columbus.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that most insurers provide coverage for chemotherapy treatments. Therefore, the need for an Auditor's impact assessment report is unnecessary.

Your Committees further find that this measure is intended to cover all chemotherapy drugs and treatments regardless of how the drugs or treatments are administered and regardless of whether the treatment is considered pharmaceutical or not.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that all cancer treatments, including oral and intravenous treatments, shall be covered by health insurance providers regardless of how the treatments are administered;
- (2) Excluding the provisions of this Act from section 23-51 which requires an Auditor's impact assessment report;
- (3) Changing the effective date to July 1, 2050 to encourage further discussion on the matter; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 166, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 166, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Ihara, Nishihara).

**SCRep. 574 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 588**

The purpose of this measure is to enhance the federal Medicare Rural Hospital Flexibility Program and federally qualified health centers by requiring health plans other than government payers licensed to do business in Hawaii to reimburse critical access hospitals at one hundred and one per cent of costs, consistent with Medicare, and to reimburse federally qualified health centers at prospective payment system rates.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Health Systems Corporation, and the Hawaii Primary Care Association. The Hawaii Medical Association supports the measure with amendments. Your Committees received testimony supporting the intent of the measure from Hawaii Medical Service Association. Testimony in opposition to this measure was submitted by Summerlin Life & Health Insurance Company.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that rural hospitals and federally qualified health centers in Hawaii have been losing money at alarming rates over the past several years. These facilities provide necessary care to the community. Your Committees find that ensuring the viability of these facilities is crucial and requires that payment for services is adequate, at a minimum.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 588, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 588, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, 1 (Hemmings). Excused, 2 (Ihara, Nishihara).

**SCRep. 575 (Joint) Health and Commerce and Consumer Protection on S.B. No. 940**

The purpose of this measure is to require insurers, mutual benefit societies, and health maintenance organizations to make direct payments to the State that funds the provision of pre-hospital ambulance treatment and transport services.

Your Committees received testimony in support of this measure from the Department of Health and the Department of Commerce and Consumer Affairs. Testimony was submitted by American Family Life Assurance Company of Columbus in support of this measure with amendments. Testimony in opposition of this measure was submitted by Hawaii Medical Service Association.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that, prior to 2008, direct payment for pre-hospital ambulance treatment and transport services has historically been a contract negotiation between the State and insurance providers. Therefore, your Committees are hesitant to become involved with the practice of requiring direct payment services and would encourage the State and insurance companies to come to a mutual agreement regarding a process for the payment for these services.

Your Committees have amended this measure by:

- (1) Clarifying that "pre-hospital ambulance treatment and transport services" means ambulance treatment and transport services generated through requests to the State's 911 system;
- (2) Clarifying that insurers that offer coverage for pre-hospital ambulance treatment and transport services, shall provide for direct payment for the provision of pre-hospital ambulance treatment and transport services;
- (3) Exempting any transaction between the provider of pre-hospital ambulance treatment and transport services and the insurer if the parties have entered into a contract providing for direct payment;
- (4) Changing the effective date to July 1, 2050 to encourage further discussion on the matter; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 940, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 940, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Ihara, Nishihara).

**SCRep. 576 (Joint) Health and Energy and Environment on S.B. No. 1008**

The purpose of this measure is to revise the State's water quality standards for bacteria in marine recreational waters and for two toxic pollutants, chlordane and dieldrin, to conform to federal standards consistent with the recommendations of the Department of Health and the United States Environmental Protection Agency.

Specifically, this measure updates the water quality standards for chlordane and dieldrin to conform to current national criteria recommended by the United States Environmental Protection Agency. This measure further sets limits for enterococcus content in samples taken in coastal recreation waters.

Your Committees received testimony in support of this measure from the Mayor of the City and County of Honolulu, and the Deputy Director of the Department of Environmental Services of the City and County of Honolulu. The Department of Health submitted testimony in support of the measure with amendments. Testimony in opposition to this measure was submitted by Hawaii's Thousand Friends and the Sierra Club, Hawaii Chapter. Comments on this measure were submitted by Surfing Medicine International.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the United States Environmental Protection Agency recently denied the City and County of Honolulu's applications to renew permits under section 301(h) of the Federal Clean Water Act for both wastewater treatment plants located in Honolulu. According to testimony submitted by the Mayor of the City and County of Honolulu, the denials were a result of out-dated or incorrect state water quality standards which are subject to a mandatory triennial review, which is overdue.

Your Committees further find that the Department of Health submitted testimony supporting the concept of changing the state water quality standards for most toxic pollutants by tying them to the national criteria currently recommended by the United States Environmental Protection Agency. Your Committees note that the Department of Health submitted several recommendations for amendments to this measure including the recommendation that a broader approach for setting water quality standards be adopted that covers more than chlordane and dieldrin.

Accordingly, your Committees have amended this measure by:

- (1) Adding clarifying language to the purpose section and the effective date section concerning the effect of state review and adoption of state water quality standards and federal approval;
- (2) Deleting the chlordane and dieldrin standards and replacing them with criteria for all priority and non-priority pollutants and providing that, when there is no nationally recommended criterion promulgated for a priority or non-priority pollutant, relevant provisions in chapter 11-54, Hawaii Administrative Rules, relating to that pollutant shall not be repealed or deemed inconsistent and shall remain in effect;
- (3) Adding a provision that, at locations where samples are taken less frequently than five samples for each twenty-five to thirty days, no single sample shall exceed the single sample maximum nor shall the geometric mean of these samples taken during the twenty-five to thirty-day period exceed thirty-five colony forming units per one hundred milliliters;
- (4) Changing the effective date to July 1, 2050, to encourage further discussion on this matter; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1008, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1008, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 3 (Ihara, Kokubun, Nishihara).

**SCRep. 577 Judiciary and Government Operations on S.B. No. 705**

The purpose of this measure is to provide a procurement exemption for General Services Administration approved sole source vendors involving matching federal funds, if the sole source vendor was responsible for obtaining the federal funding for the project.

Your Committee finds that this measure is narrowly drafted to address procurements that may be useful to the State, such as homeland security projects that may benefit the protection of Hawaii harbors.

Your Committee has amended this measure by:

- (1) Raising the small purchases limit from \$50,000 to \$100,000 for procurements of goods and services, pursuant to chapter 103D, Hawaii Revised Statutes;
- (2) Requiring that construction contracts of less than \$250,000 be treated as small purchases and be subject to specified bonding requirements; and
- (3) Changing the effective date to July 1, 2050 and repealing the measure on July 1, 2011, to encourage continued discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 705, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 578      Judiciary and Government Operations on S.B. No. 1661**

The purpose of this measure is to clarify the permissible attendance by board members at other meetings, for purposes of the public agency meetings law.

Your Committee received comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee notes that section 92-2.5, Hawaii Revised Statutes, currently governs discussions and other communications among board members outside of a meeting of the board. Permitted interactions of neighborhood board members at attendance at informational meetings and presentations is governed by section 92-82, Hawaii Revised Statutes.

Your Committee finds that board members need guidance regarding when they may attend meetings of other boards and the extent of their permissible interaction at those meetings. This measure clarifies the existing law by enabling board members to attend another agency's meeting if a topic that pertains to the board member's future board agenda may be discussed; provided that the board member does not participate in the discussions. Furthermore, the measure allows board members to attend meetings not under their board's purview. In addition, the board member would be required to disclose the board member's attendance and the disclosure would be recorded in the minutes of the board member's board meeting. The measure also allows a board to continue to meet even though a quorum is not present; provided that no actions are taken.

- (1) Your Committee has amended this measure by distinguishing official meetings to which this measure applies and other types of interactions to which existing laws apply;
- (2) Deleting subsections (b) and (c) from the new section in section 1 of this measure, as the Office of Information Practices indicated these subsections are unnecessary;
- (3) Changing the effective date to July 1, 2050 to continue the discussions in this matter; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1661, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 579      Commerce and Consumer Protection on S.B. No. 892**

The purpose of this measure is to update the Insurance Code by making housekeeping amendments and updating continuing education requirements for insurance licensees.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Hawaii Captive Insurance Council. Testimony in opposition to this measure was received from Hawaii Association for Justice and Hawaii Medical Service Association. Testimony with comments on this measure was received from the National Association of Insurance and Financial Advisors. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to bring Hawaii's insurance industry into uniformity with best practices in insurance regulation and to respond to changes in the industry. Your Committee notes that the provisions relating to issuance of a surplus lines broker license and continuing education requirements for insurance licensees are based on recommendations by the National Association of Insurance Commissioners (NAIC) and reflect a policy of achieving greater uniformity in insurance regulation across states. Greater uniformity will make insurance regulation less burdensome and simpler for insurers, producers, and regulators. Further, the audit provisions in this measure are required by the NAIC as a condition of continuing accreditation.

Your Committee has amended this measure by:

- (1) Repealing the current requirement that insurers submit printed copies of rate filings to the Insurance Commissioner and replacing it with an option to submit either electronic or paper filings consistent with Hawaii's March 1, 2009 adoption of the NAIC's System for Electronic Rate and Form Filing;
- (2) Increasing the required number of continuing education credits relating to an insurance licensee's line of authority from eighteen to twenty-one;
- (3) Removing the provision that amended section 431:10C-408, Hawaii Revised Statutes;
- (4) Clarifying that the three hours of continuing education ethics training required of insurance licensees shall include instruction on Hawaii's laws and rules specific to the licensee's line of authority; and
- (5) Making technical, nonsubstantive changes for the purpose of clarity and accuracy of the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 892, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 892, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 580 Commerce and Consumer Protection on S.B. No. 1223**

The purpose of this measure is to preserve the integrity of the “Made in Hawaii” brand in order to protect Hawaii’s local artisans from unfair trade practices that flood the handcrafted market with counterfeit, imported, and mass produced goods.

Your Committee received testimony in support of this measure from Moanalua Gardens Foundation, Creations of Hawaii, and four private citizens. Testimony in opposition to this measure was received from Hawaii Food Industry Association, Retail Merchants of Hawaii, Hawaiian Host, Inc., Hawaii Coffee Association, and Hawaii Coffee Company. Testimony with comments on this measure was received from the Department of Agriculture. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that the “Made in Hawaii” label is an important designation and should be a clear indication that a product was produced in Hawaii and is substantially composed of materials from Hawaii. Your Committee further finds that preserving the integrity of the “Made in Hawaii” label is important from an economic standpoint as well as to honor the local artisans who keep native traditions alive through art. A meaningful “Made in Hawaii” label benefits local artisans and craftspersons who are currently forced to compete at an unfair disadvantage in the marketplace against unethical producers who unfairly imply that mass-produced, imported, or counterfeit goods are made in Hawaii through labeling or other means. The “Made in Hawaii” label also benefits the tourism industry when high-quality unique goods are presented across the world as examples of Hawaii’s culture.

Your Committee has amended this measure by:

- (1) Restoring the portion of wholesale value added required to qualify as “Made in Hawaii” to the current law’s requirement of fifty one per cent;
- (2) Directing the Department of Agriculture to convene a working group of stakeholders including artisans, merchants, government agencies, and others to collaborate to resolve any remaining issues, especially those relating to enforcement, surrounding this matter;
- (3) Deferring the effective date of this measure to encourage further discussion; and
- (4) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1223, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 581 Economic Development and Technology on S.B. No. 1672**

The purpose of this measure is to amend the archival photograph requirements that are necessary to obtain a permit for the demolition, construction, or other alteration of a historic building that is eligible for listing on the Hawaii or National Register of Historic Places.

Specifically, this measure allows the required photographs for a permit to be in any format, including electronic, rather than requiring archival quality black and white photographs.

Testimony in support of this measure was submitted by the City and County of Honolulu Department of Planning and Permitting, the Hawaiian Electric Company, the Hawaii Association of Realtors, and the Land Use Research Foundation of Hawaii. Testimony in opposition of this measure was submitted by the Department of Land and Natural Resources, the Hawaii Historic Foundation, the American Public Works Association Hawaii Chapter, the Chamber of Commerce of Hawaii, the Hawaii Developers Council, and the Building Industry Association Hawaii. Comments on this measure were submitted by the American Institute of Architects Hawaii Chapter, and the Society for Hawaiian Archeology. Written testimony presented to your Committee may be reviewed on the Legislature’s website.

Your Committee finds that Act 228, Session Laws of Hawaii 2008, requires state, county, or private property owners to submit archival quality photographs to the Department of Land and Natural Resources State Historic Preservation Division prior to issuance of a permit or the commencement of an undertaking that will alter, impact, or demolish a building over fifty years old.

While the original intent of Act 228 was to produce a lasting record of Hawaii’s historic buildings at risk of imminent destruction (for example, the historic Walker Estate in Nuuanu or Varsity Theater in Moiliili), its provisions were not sufficiently precise to narrow the scope of structures subject to the archival photograph requirement.

During 2008, implementation of Act 228 substantially impacted the timely processing of building permits in Honolulu. For example, the Department of Planning and Permitting reported approving 13,221 additions, alterations, and repairs to private structures and issuing 1,019 building permits for alterations and repairs of single-family and two-family dwellings. Given the magnitude of private structures subject to Act 228’s archival photograph requirement, your Committee convened a working group in Fall 2008 to identify practical solutions to the unintended consequences of Act 228. The original draft of this measure was based on recommendations from a range of stakeholders, including the Department of Land and Natural Resources, the City and County of Honolulu’s Department of Planning and Permitting, and several architect, engineer, and contractor organizations whose work was heavily impacted by the new Act 228 archival photograph requirements.

Your Committee acknowledges the comments and thoughtful examination of this issue by interested stakeholders who have worked to clarify both the categories of activity (e.g., demolition, construction, and alterations) as well as types of structures (e.g., those

eligible for listing on the Hawaii or National Register of Historic Places versus those that have already been identified as being eligible for listing through publicly-reviewed environmental assessments and environmental impact statements) for which photographs should be required.

In light of today's difficult economic climate, your Committee believes that correcting the unintended consequences of Act 228 should be done immediately. Developing an inventory of historically significant structures subject to the requirement for photographs should be phased separately to provide county planning agencies and the Department of Land and Natural Resources with a specific list of structures subject to the broader eligibility requirements for listing on the Hawaii or National Historic Register of Historic Places.

Your Committee has amended this measure by deleting its contents, with the exception of section 5, and replacing it with the contents of S.B. No. 954. As amended, this measure:

- (1) Amends section 6E-8(a), Hawaii Revised Statutes, to delete the requirement that archival quality black and white photographs be submitted with a permit application;
- (2) Amends section 6E-10(b), Hawaii Revised Statutes, to include, for purposes of the photograph requirements, any buildings over fifty years old that are nominated for listing or listed on the Hawaii or National Register of Historic Places;
- (3) Requires the Department of Land and Natural Resources to certify receipt of the photographs submitted by an owner of a privately-owned structure within twenty days of the Department's receipt of the photographs;
- (4) Amends section 46-3.5, Hawaii Revised Statutes, to include, for purposes of the photograph requirement, a building that is nominated for listing or listed on the Hawaii or National Register of Historic Places;
- (5) Revises the definition of "photographs" to mean dated pictures, taken within one month of applying for any building permit; and
- (6) Requires the Legislative Reference Bureau, the Office of Environmental Quality Control, and the University of Hawaii Environmental Center to assist the task force in inventorying structures previously recognized for their historic value through publically-reviewed environmental assessments or environmental impact statements.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1672, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1672, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

**SCRep. 582 (Joint) Economic Development and Technology and Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 1195**

The purpose of this measure is to amend the Hawaii State Planning Act to include references to science and technology initiatives to help Hawaii achieve various economic objectives.

This measure also amends the Department of Business, Economic Development, and Tourism's reporting requirement to the Legislature on the growth of emerging growth industries in Hawaii.

Testimony in support of this measure was submitted by Hawaii Science & Technology Council. Testimony in opposition of this measure was submitted by the Department of Business, Economic Development, and Tourism Office of Planning. Comments on this measure were submitted by the Department of Business, Economic Development, and Tourism. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that it is essential to plan for science and technology initiatives that will play an instrumental role in developing Hawaii's economy to enable the State to capitalize on the financial opportunities that emerging industries involving science and technology often present. Your Committees also find that requiring the Department of Business, Economic Development, and Tourism to revise the criteria they use in measuring the growth of emerging growth industries in Hawaii will provide the Legislature with a more complete perspective of the economic opportunities available to Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1195, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1195, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 5 (Bunda, Ige, Kokubun, Takamine, Slom).

**SCRep. 583 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1077**

The purpose of this measure is to encourage health insurance providers to offer preventative health care plans to its members, enrollees, or new applicants that cover preventative health care services by establishing a temporary Preventative Health Care Task Force.

Your Committees received testimony in support of this measure from the Hawaii Employees Government Association. Testimony was received by the Department of Commerce and Consumer Affairs supporting the intent of the measure. Testimony in opposition to this measure was submitted by Hawaii Medical Service Association. Comments and suggestions on this measure were submitted by the Department of Health and the Hawaii Nutrition and Physical Activity Coalition.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the provision of preventative health care will reduce overall health care costs, particularly addressing diseases, such as heart disease and diabetes, that are either preventable or reversible. Your Committees further find that the Hawaii Nutrition and Physical Activity Coalition Healthcare Task Force has been working on goals to "increase the engagement of health providers in health promotion" and that a representative from this task force would be a beneficial component to the membership of the task force established in this Act.

Accordingly, your Committees have amended this measure by:

- (1) Including in the task force membership a representative from a local health insurance provider and a representative from the Hawaii Nutrition and Physical Activity Coalition Healthcare Task Force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1077, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1077, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Ihara, Nishihara).

**SCRep. 584 (Joint) Health and Commerce and Consumer Protection on S.B. No. 430**

The purpose of this measure is to provide for the early detection of colorectal cancer by requiring health insurers to cover colorectal cancer screening by colonoscopy every ten years, beginning at age fifty.

Your Committees received testimony in support of this measure from the American Cancer Society. Testimony in opposition to this measure was submitted by Kaiser Permanente and Hawaii Medical Service Association. Comments on this measure were submitted by the Department of Commerce and Consumer Protection.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the section 23-51, Hawaii Revised Statutes, requires the Auditor to conduct an impact assessment report, assessing the social and financial effects of measures that mandate health insurance coverage for specific diseases. However, your Committees find that this is a money-saving, cost-effective measure. The cost of mandating health insurance coverage for colorectal cancer screening by colonoscopy every ten years, beginning at age fifty, is negligible compared to the cost of treatment for colorectal cancer.

Your Committees find that extensive studies have been conducted by the American Cancer Society regarding the cost of treating colorectal cancer. When detected early, the average cost is between \$30,000 and \$35,000. If detected late, the average cost is in excess of \$100,000. The cost for providing colorectal cancer screening is extremely low when compared to the cost of treatment. The per member, per month cost of colonoscopy every ten years is 55 cents.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that this mandate is exempt from section 23-51, Hawaii Revised Statutes, that requires an Auditor's impact assessment report; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 430, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 430, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Ihara, Nishihara).

**SCRep. 585 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 794**

The purpose of this measure is to require health insurance providers to include in their policies coverage for weight management and obesity prevention, evaluation, and guidance services for children covered under the policy.

Your Committees received testimony in support of this measure from Kapi'olani Medical Center, Hawaii Primary Care Association, Waikiki Health Center, the Hawaii Association for Health, the American Academy of Pediatrics, the American Cancer Society, and the Hawaii Dietetic Association. Testimony was received by the American Heart Association and the American Family Life Assurance Company of Columbus in support this measure with amendments. Kaiser Permanente and Hilopa'a submitted testimony in support of the intent of this measure.

Your Committees received testimony in opposition to this measure from the Department of Human Services, Hawaii Medical Service Association, and the Healthcare Association of Hawaii. Comments on this measure were submitted by the Department of Commerce and Consumer Affairs.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that childhood obesity is a chronic disease which has been associated with the increasing incidence of type II diabetes, metabolic diseases, and poor self-esteem. This measure is intended to enhance the pediatric health care providers' ability to intervene in this chronic disease and begin the process of avoiding greater medical consequences as adults.

Your Committees further find that this measure mandates health insurance coverage which requires an Auditor's impact assessment report pursuant to section 23-51, Hawaii Revised Statutes. Your Committees find that further study would be constructive to ensure the success of the mandate.

Your Committees have amended this measure by:

- (1) Excluding accident-only, specified disease, hospital indemnity, medicare supplement, long-term care, or other limited benefit health insurance policies from the mandate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 794, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 794, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, 1 (Hemmings). Excused, 2 (Ihara, Nishihara).

**SCRep. 586 (Joint) Health and Commerce and Consumer Protection on S.B. No. 591**

The purpose of this measure is to reduce the number of uninsured individuals in the State by requiring insurers that offer health care coverage to the regular employees of any group or association to offer the same coverage to part-time employees working at least 15 hours per week. It further requires the Insurance Commissioner to report to the Legislature on the costs and benefits of this measure.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Testimony in support of the intent of this measure was submitted by Kaiser Permanente. Comments on this measure were submitted by Hawaii Medical Service Association.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that a significant number of uninsured people in Hawaii are part-time workers. This measure will fill a void in the Prepaid Health Care Act by requiring health plans to offer group coverage to employers for part-time employees who work at least 15 hours per week.

Your Committees have amended this measure by:

- (1) Changing the effective date to January 1, 2050, to encourage further discussion on this matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 591, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 591, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Ihara, Nishihara).

**SCRep. 587 (Joint) Health and Public Safety and Military Affairs on S.B. No. 1073**

The purpose of this measure is to ensure a healthy work environment for correctional facility employees by repealing the exemption that permits smoking in correctional facilities.

Your Committees received testimony in support of this measure from the Department of Health, the Department of Public Safety, the Coalition for a Tobacco-Free Hawaii, and the American Lung Association. Your Committees received comments on this measure from the Community Alliance on Prisons.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that most states across the nation have already implemented smoke-free prison systems that have created a healthier environment for inmates and staff alike, reducing the risk of tobacco related diseases.

Your Committees further find that the correctional facilities in Hawaii already prohibit smoking by inmates. This measure provides the next positive step by creating a healthier work environment for everyone at the facility.

Your Committees have amended this measure by changing the effective date to July 1, 2050 to encourage further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1073, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1073, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Bunda, Green, Kidani).

**SCRep. 588 Judiciary and Government Operations on S.B. No. 19**

The purpose of this measure is to clarify that the Administrative Director of the Courts has the power to serve as Chief Procurement Officer for the Judiciary.

Your Committee received comments on this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee believes that this measure is unnecessary, since section 103D-203(a)(1), Hawaii Revised Statutes, already designates the Administrative Director of the Courts as the Chief Procurement Officer for the Judiciary.

Accordingly, upon further consideration, your Committee has amended this measure by deleting its contents and inserting provisions to provide a procurement preference to a contractor in a public works construction contract of not less than \$250,000 if the contractor is a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations at the time of general bidding.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 19, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 19, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 589            Judiciary and Government Operations on S.B. No. 532**

The purpose of this measure is to limit the liability of a property owner for the injury or death of a perpetrator that occurs on the owner's property during or after the commission of certain felonies by the perpetrator.

Your Committee finds that this measure addresses claims for monetary or other civil relief by the perpetrator of the most serious felony crimes, typically occurring on a homeowner's property when the homeowner is present on the premises. Your Committee notes that this measure is civil in nature and does not increase criminal penalties or otherwise affect criminal law provisions. Under this measure, the owner is afforded protection from civil claims by the perpetrator of the felony or the representative of the perpetrator for damages caused by the owner in the defense of himself or his property.

Your Committee has amended this measure by:

- (1) Limiting the applicable class B felonies to those involving violence or physical harm;
- (2) Clarifying that the limitation on liability arises from the moment the owner, or agent of the owner lawfully on the premises by consent of the owner, believes that a commission of a felony is imminent;
- (3) Clarifying that the limitation of liability shall not be affected by the failure of the owner to warn the perpetrator of the felony that the owner is armed and ready to cause bodily harm or death, except as otherwise provided in the measure;
- (4) Clarifying that liability is not limited for injury or death caused to individuals other than the perpetrator of the felony;
- (5) Clarifying the definition of "owner" to include tenant, employee, and agent of the owner lawfully on the premises;
- (6) Changing the effective date to July 1, 2050, to continue the discussions on this matter; and
- (7) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 532, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 532, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 590            Judiciary and Government Operations on S.B. No. 1222**

The purpose of this measure is to create the misdemeanor offense of confinement of a pet animal on public property, and to decrease from twenty to ten the number of dogs or cats deprived of necessary sustenance in the offense of animal hoarding.

Your Committee received testimony in support of, in opposition to, and commenting on this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Under this measure, a person commits the offense of confinement of a pet animal on public property if the person intentionally, knowingly, or recklessly confines a pet animal in a cage on public property for more than four hours, with some excepted circumstances. It is an affirmative defense that the pet animal's confinement was beneficial to the animal.

The Hawaiian Humane Society testified in opposition to this measure that current laws in place address "issues as they relate to animals being kept in inhumane confinements, such as the animal cruelty law, where the basics of 'necessary sustenance' are clearly and distinctly defined."

Section 711-1100, Hawaii Revised Statutes, defines "necessary sustenance" as follows:

"Necessary sustenance" means care sufficient to preserve the health and well-being of a pet animal, except for emergencies or circumstances beyond the reasonable control of the owner or caretaker of the pet animal, and includes but is not limited to the following requirements:

- (1) Food of sufficient quantity and quality to allow for normal growth or maintenance of body weight;
- (2) Open or adequate access to water in sufficient quantity and quality to satisfy the animal's needs;
- (3) Access to protection from wind, rain, or sun; and

- (4) An area of confinement that has adequate space necessary for the health of the animal and is kept reasonably clean and free from excess waste or other contaminants that could affect the animal's health."

Section 711-1100, Hawaii Revised Statutes, defines "pet animal" as follows:

"Pet animal" means a dog, cat, domesticated rabbit, guinea pig, domesticated pig, or caged birds (passeriformes, piciformes, and psittaciformes only) so long as not bred for consumption."

The definition of "necessary sustenance" is silent as to *how long*--whether four hours or ten years--a pet animal may be confined in a cage; how the type of pet animal--whether dog, cat, rabbit, guinea pig, pig, or bird--bears on the acceptable manner and duration of confinement in a cage; or how the duration of confinement affects the adequacy of "space necessary for the health of the animal."

Testimony in support of this measure described an individual who has been "hoarding animals in an inhumane manner on a City sidewalk/grassy area" for years, confining cats, kittens and other animals in small carriers, traps, shopping carts and cages 24 hours a day, 7 days a week, never letting them out. This bill was introduced to address gaps in the law because, according to supporters, the response of the humane society to which complaints about this individual's treatment of animals were directed was, in effect, that "they are unable to take action on the confinement of the cats because there is no law on the books"; they "will not act if an animal appears to be healthy"; and they "[do] not believe the existing statute allows them to confiscate the abused animals."

Testimony in opposition cited unintended consequences were this measure enacted in its present form: the prohibition against confinement of a "pet animal" on "public property" for "more than four hours" would apply to the Honolulu Zoo, the State Quarantine Facility, the Hawaiian, Maui, and Kona Humane Societies, and others, including caretakers who trap, neuter and return feral cats; enforcement by "an organization formed for the prevention of cruelty to animals" could result in a "botched arrest"; confiscation of animals without due process is unconstitutional; and prosecution might be fruitless because of mental health issues.

Several testifiers proposed that a task force be convened to define and discuss "minimum standards of pet keeping" that would not only meet the needs of the community, but would consider the unique differences among the counties with regard to enforcement capabilities. Your Committee endorses this approach.

Your Committee notes that the Supplemental Commentary on section 711-1109 to 1110, Hawaii Revised Statutes, provides, in part:

"Act 173, Session Laws 1998, amended §711-1109 to provide that depriving pet animals of necessary sustenance constitutes the crime of cruelty to animals. The legislature noted that the statute identified only those acts which were the most heinous and extreme, such as beating, mutilation, poisoning, starvation, and torture. However, on a daily basis, other less overt acts such as daily neglect also resulted in the inhumane treatment of animals. Thus, the legislature agreed that pet animals deserved a minimum level of care including adequate food, water, and shelter. Senate Standing Committee Report No. 87."

Your Committee finds it timely and appropriate to revisit our law's treatment of these "less overt acts" of animal cruelty.

At the time of public decision-making on this measure, S.B. No. 1222, Relating to the Humane Treatment of Pet Animals, your Committee deferred three other measures that proposed penalties for inhumane forms of restraint and confinement of animals: S.B. No. 30, S.D. 1 (2009) Relating to Animals, S.B. No. 488 (2009), Relating to Animal Cruelty, and S.B. No. 1188 (2009), Relating to Animals. Each proposed new misdemeanor offenses prohibiting, with exceptions, various forms of restraint or confinement, including tethering, fastening, chaining, tying, kenneling or caging.

S.B. No. 30, S.D. 1 proposed a new misdemeanor offense of dog tethering applicable, with exceptions, to a person who tethers, fastens, chains, ties or otherwise restrains a dog to a dog house, tree, fence or other stationary object.

S.B. No. 488 proposed a new subsection in section 711-1109, Hawaii Revised Statutes, animal cruelty in the second degree, applicable, with exceptions, to a person who tethers, fastens, chains, ties or otherwise restrains a companion animal for longer than a reasonable period of time to complete a temporary task, or, for any amount of time in which the tether, fastener, chain, tie or other restraint causes actual harm; or in a manner that endangers the animal's health, safety or well-being or inflicts emotional distress upon the animal.

S.B. No. 1188 proposed three new subsections in section 711-1109, Hawaii Revised Statutes, applicable, with exceptions, to a person who: tethers, fastens, chains, ties or otherwise restrains a dog or cat for an unreasonable period of time or in a manner that unreasonably limits movement; tethers, fastens, chains, ties, restrains, kennels or cages a dog or cat in any manner that exposes the animal to unsafe conditions; or tethers, fastens, chains, ties, restrains, kennels or cages a dog or cat in any manner that causes exposure without shelter during periods of hazardous weather.

With regard to dog tethering, your Committee concurs with the position of the Committee on Water, Land, Agriculture, and Hawaiian Affairs set forth in Stand. Com. Rep. No. 15 on S.B. No. 30, S.D. 1 (2009):

"Under present law, dogs may be tethered for twenty-four hours a day, seven days a week to a stationary object as long as the tether is at least six feet long. Continuously tethered dogs become lonely, bored, territorial, and aggressive. Researchers have found that tethered dogs are nearly three times more likely to bite and over five times more likely to bite children.

Additionally, a tether can become tangled around or hooked on the dog's shelter structure or other objects, further restricting the dog's movement and potentially causing injury. Dogs are pack animals and are naturally social. Tethered dogs live an isolated existence that is contrary to their own instincts, and this lack of socialization is part of what makes tethered dogs more dangerous.

Your Committee has heard from one public citizen who witnessed neighbors who kept two dogs tethered by ropes tied to trees in their front yard. The neighbor had been burglarized, and the dogs were a security measure. When the public citizen called the Hawaiian Humane Society for assistance, the Hawaiian Humane Society informed the public citizen that Hawaii law did not prevent the neighbors from keeping the dogs tethered. The dogs could not interact with each other because the tether was too short, and in

time they grew despondent and died. The public citizen supports this measure for the welfare of dogs, and for the helpless neighbors forced to watch the abuse of animals.

Your Committee, however, recognizes that there are enforcement challenges for the Hawaiian Humane Society and economic hardships imposed by this measure. In light of these issues, your Committee encourages the proponents of the measure to collaborate with other parties to resolve differences in crafting amendments for this measure.”

It is your Committee’s expectation that stakeholders will collaborate to refine and revise the language in this bill during the remainder of the 2009 legislative session. In addition, your Committee notes that an ad hoc Task Force on Humane Restraint and Confinement of Pet Animals will be convened to further discuss these issues in the 2009 interim and requests the ad hoc Task Force to develop comprehensive legislation for the 2010 Regular Session relating to restraint standards for dogs and confinement standards for of pet animals generally, including the definition of “necessary sustenance” under section 711-1100, Hawaii Revised Statutes, as it relates to “area of confinement” as used in paragraph (4) of that definition.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the provision creating the offense of confinement of a pet animal on public property;
- (2) Adding amendments to section 711-1109, cruelty to animals in the second degree, to:
  - (a) Separate prohibitions in section 711-1109(a), Hawaii Revised Statutes, to distinguish between conduct in directed at “any” animal (“[o]verdrives, overloads, tortures, torments, beats, or starves any animal, or causes the overdriving, overloading, torture, torment, beating, or starving of any animal”) and conduct directed at a “pet” animal (“deprives a pet animal of necessary sustenance or causes such deprivation.”);
  - (b) Add a new subsection that prohibits confinement of a pet animal in a cruel or inhumane manner or for an unreasonable period of time; and
  - (c) Add a new subsection that prohibits, with exceptions, tethering a dog to a stationary object, or restraint with chain or a chain-, choke- or pinch- collar;
- (3) Changing the quantity of dogs and cats deprived of necessary sustenance in the animal hoarding statute to “more than fifteen”;
- (4) Making technical nonsubstantive revisions; and
- (5) Changing the effective date to July 1, 2050 to continue discussions on these matters.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1222, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

#### **SCRep. 591      Judiciary and Government Operations on S.B. No. 763**

The purpose of this measure is to establish a criminal offense of dog fighting, a class C felony, applicable if a person causes, sponsors, arranges, holds, or encourages a fight between dogs for the purpose of financial gain or entertainment.

This measure also repeals the existing law on dogfighting.

Your Committee received several testimonies in support of this measure and one in opposition. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

According to testimony of The Humane Society of the United States, in a national ranking of dogfighting laws in the states and the District of Columbia, Hawaii ranked fiftieth in part because it is only one of two states having no penalties for attending or wagering on an organized dogfight.

Your Committee finds that under current law, an offender would need to be literally caught in the act of conducting a dogfight, which is extremely rare due to the clandestine nature of such activity. Thus, even persons attending a dogfight as spectators face no penalties. Additionally, dogfighting is a fertile forum for illegal gambling.

Your Committee further finds that the injuries inflicted and sustained by dogs participating in dogfights are severe and mortal in many instances, resulting from blood loss, shock, dehydration, exhaustion, or infection from wounds.

Your Committee has amended this measure by:

- (1) Deleting the new statutory enactment relating to the offense of dogfighting;
- (2) Defining “dogfight” as a gathering or exhibition for the purpose of having a fight between one dog and another dog, or having one dog injure another dog; and
- (3) Amending the current law on cruelty to animals by dogfighting to provide for cruelty to animals by fighting dogs. As amended, this measure prohibits a person from:
  - (A) Causing, sponsoring, arranging, or holding a fight between dogs;
  - (B) Wagering on or paying admission to a dogfight, which constitutes a misdemeanor offense;
  - (C) Owning, training, transporting, possessing, breeding, selling, transferring, or equipping any dog for a dogfight;

- (D) Allowing a dogfight to occur on property owned or controlled by the person;
- (E) Allowing any dog intended by the person to be used for a dogfight to be kept, boarded, housed, trained, or transported, on any property owned or controlled by the person;
- (F) Using any means of communication for the promotion of a dogfight; or
- (G) Possessing any device intended to enhance the dog's fighting ability with the intent that the device be used to train or prepare the dog to fight.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 763, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 592            Judiciary and Government Operations on S.B. No. 968**

The purpose of this measure is to add an element to the offense of escape in the second degree to provide for knowingly failing to present oneself to a correctional facility or detention center to serve a term of custody or confinement as ordered by the court.

Your Committee received one testimony in support of and one in opposition to this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure addresses the situation wherein a person is sentenced to incarceration and is allowed a period of time after sentencing to attend to personal matters before appearing at the correctional facility. Currently, in the event the person does not show up to serve the sentence, the only offense for not appearing is a contempt of court.

Your Committee notes the concerns of the Office of the Public Defender that this measure is not necessary since current law covers the situation in the offense of bail jumping in the first degree.

Your Committee has amended this measure by:

- (1) Applying the offense to only a scheduled confinement for felony conviction;
- (2) Changing the effective date to July 1, 2050 to continue the discussions on this matter; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 968, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 593            Judiciary and Government Operations on S.B. No. 350**

The purpose of this measure is justify the use of deadly force in a person's dwelling against an intruder if the intruder uses force against the person.

Your Committee received several testimonies in support of this measure and one in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the use of deadly force by a person while in a dwelling in which the person has a lawful right to be, against an intruder who has no lawful right to be in the dwelling is sometimes necessary. For example, recent incidents have been reported involving death of property owners in home invasions, which may have been avoided if the owner used deadly force to deter the intruder.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050 to continue discussions on this matter; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 350, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Taniguchi). Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 594            Ways and Means on S.B. No. 76**

The purpose of this measure is to change the allocation of an amount received by the Department of Taxation in partial payment of an assessment of taxes.

More specifically, this measure changes the allocation by applying the partial payment to interest, penalties, and principal in equal amounts, rather than to the three categories in order of priority.

Your Committee received written testimony in opposition to this measure from one state agency. One private organization submitted comments on this measure.

Your Committee finds that the application of a partial payment to interest, penalties, and principal, in equal amounts, will alleviate the burden on taxpayers who are making these payments. Your Committee believes that the benefit to taxpayers is of particular importance during this economic crisis.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 76, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 595            Ways and Means on S.B. No. 199**

The purpose of this measure is to sunset and repeal various tax credits for taxable years beginning after December 31, 2010.

Testimony in support of this measure was submitted by one government agency and one individual. Testimony opposed to this measure was submitted by three government agencies, eighteen private organizations, and seven individuals. Comments on this measure were submitted by one government agency and three private organizations. The written testimony and comments may be reviewed on the Legislature's website.

Your Committee finds that this measure implements the consistent recommendations of the Tax Review Commission to minimize or eliminate all tax credits. Your Committee believes that the current conditions of the economy make the Tax Review Commission's recommendations particularly attractive.

Your Committee has revised this measure substantially without changing its substance. Your Committee has revised the contents of this measure by:

- (1) Setting out the full text of each of the tax credit laws listed in the bill, and applying the Ramseyer format to those sections to indicate that they are being repealed;
- (2) Recasting the language relating to carryovers under a repealed tax credit and legislative enactments of a tax credit, respectively, as new sections being added to chapter 235, Hawaii Revised Statutes, the state income tax law;
- (3) Changing the provisions relating to conflicts in repeal dates, to an uncodified section in the measure;
- (4) Making the language relating to the repeal date of the tax credits the effective date section of the measure; and
- (5) Changing the effective date of this measure to July 1, 2090, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 199, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 199, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Ayes with Reservations, 2 (Chun Oakland, Fukunaga). Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 596            Ways and Means on S.B. No. 292**

The purpose of this measure is to correct a typographical error in the title of section 37-46, Hawaii Revised Statutes, relating to transfers of non-general funds to the general fund.

Your Committee finds that the current downturn in the State's economy has resulted in reduced tax revenues and a budget shortfall. Accordingly, Your Committee finds that it is important to identify sources of funds that may be used to alleviate the current budget crisis.

Your Committee has amended this measure by:

- (1) Replacing the substantive contents with provisions that lapse excess balances from identified special and revolving funds to the general fund; and
- (2) Changing the effective date to July 1, 2050, to facilitate discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 292, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 292, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 597 Ways and Means on S.B. No. 404**

The purpose of this measure is to appropriate funds from the emergency and budget reserve fund for various programs, as grants for fiscal year 2009-2010.

Your Committee received comments on this measure from one state department. The comments submitted may be reviewed on the Legislature's website.

Your Committee finds that expenditures from the emergency and budget reserve fund are needed to meet the present economic emergencies in the State. Your Committee believes the moneys are urgently needed to:

- (1) Maintain levels of programs determined to be essential to public health, safety, welfare, and education;
- (2) Provide for counter cyclical economic and employment programs in periods of economic downturn;
- (3) Restore facilities destroyed or damaged or services disrupted by disaster; and
- (4) Meet other emergencies when declared by the governor or determined as urgent by the Legislature.

Your Committee has amended this measure by changing the effective date to July 1, 2070, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 404, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 598 Ways and Means on S.B. No. 1111**

The purpose of this measure is to increase the transient accommodations tax beginning July 1, 2009, and require any additional revenues collected from the increase to be deposited into the general fund.

Your Committee received testimony in opposition to this measure from two state agencies, two organizations, and eighteen private businesses and individuals. One state agency and one nongovernmental organization offered their comments. Copies of written testimonies and comments are available for review on the Legislature's website.

Your Committee finds that the State is exploring different avenues for increasing revenues to replace record shortfalls in the State budget. The Legislature is considering many different measures toward this end.

Your Committee also finds that while everyone in Hawaii is feeling the impact of the sluggish economy, the State needs to make tough decisions to increase revenues. Your Committee believes that, while this measure imposes a tax increase, it will help the State maintain services with only a minimal direct impact on Hawaii residents.

Your Committee has amended this measure by changing the effective date to July 1, 2059, to facilitate further discussion on this issue and technical and nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1111, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 599 Ways and Means on S.B. No. 881**

The purpose of this measure is to change the repeal date of the law on voluntary employees' beneficiary association trusts from July 1, 2010 to July 1, 2009.

This measure also repeals the requirement that the Hawaii Employer-Union Health Benefits Trust Fund conduct a certified independent financial audit concerning retirees, employees, and employee-beneficiaries who have remained with the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee received testimony from four government agencies (including two testifiers from one agency), and one individual in support. Testimony in opposition was submitted by one organization and six individuals.

Copies of the testimony may be reviewed on the Legislature's website.

Your Committee finds that the intent of a voluntary employees' beneficiary association trust is to provide a cost effective alternative to participation in the Hawaii Employer-Union Health Benefits Trust Fund for employees of a particular bargaining unit. Your Committee believes that the voluntary employees' beneficiary association trusts can provide an effective means of containing healthcare costs for its members, but must also stand on their own as independent entities.

Your Committee has amended this measure by restoring the sunset date of the voluntary employees' beneficiary association back to July 1, 2010, and include a new provision that requires, upon the insolvency of a voluntary employees' beneficiary association trust, the trust and the employee organization that established the trust to assume all liabilities and indemnify the State.

Your Committee also made a technical amendment for consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 881, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 881, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 600 Ways and Means on S.B. No. 1626**

The purpose of this measure is to defer for one fiscal year the State's payment to the counties of the county surcharge on the state general excise tax and state use tax.

This measure also extends for one calendar year the repeal date of county ordinances that levy the county surcharge on the state general excise tax and state use tax.

Your Committee finds that the State has transferred to the City and County of Honolulu the county's balance of the revenues derived from the county surcharge on the state general excise tax and the state use tax. Your Committee also finds that the funds transferred to the City and County of Honolulu are largely unencumbered and will not be needed by the City and County of Honolulu in the immediately foreseeable future. Your Committee believes that these moneys will be better utilized if applied to the immediate and critical financial needs of the State, of which the City and County of Honolulu is a part. It is not the intent of your Committee to jeopardize in any way federal funding for the rail project.

Your Committee received written testimony from five private organizations, and two concerned citizens in opposition to this bill. One governmental official and one private organization submitted comments.

The written testimonies may be reviewed on the Legislature's website.

Your Committee has amended this measure as follows:

- (1) Deleting the provisions that defer for one fiscal year the State's payment to the counties of the county surcharge on the state general excise tax and state use tax;
- (2) Extending for two calendar years the repeal date of county ordinances that levy the county surcharge on the state general excise tax and the state use tax;
- (3) By providing for the State, in coordination with the City and County of Honolulu, to transfer to the State the \$150,000,000 in county surcharge tax revenues, but only transferring these funds when the State places into escrow the proceeds from the issuance of general obligation bonds to be issued for the purpose of repaying the City and County of Honolulu;
- (4) Authorizing the Director of Finance to issue \$250,000,000 in general obligation bonds for the purpose of replacing the \$150,000,000 to the City and County of Honolulu for returning the county surcharge tax revenues to the State, but conditioning the bond issuance upon receiving affirmative advice from the State's bond counsel on the suitability of issuing bonds for that purpose.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1626, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1626, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Ayes with Reservations, 9 (English, Fukunaga, Galuteria, Hee, Hooser, Kidani, Kim, Tokuda, Tsutsui). Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 601 (Joint) Judiciary and Government Operations, Labor and Ways and Means on S.B. No. 21**

The purpose of this measure is to clarify the law with respect to jury service.

Upon further consideration, your Committees have amended this measure by deleting its contents and inserting provisions of a proposed Senate Draft 1 which was posted on the Legislature's website. As amended, this measure provides temporary exemptions from statutes relating to procurement, rulemaking, and employment in order to allow the State to expedite the implementation or expansion of programs, services, and benefits authorized by the American Recovery and Reinvestment Act of 2009.

Your Committees received testimony in support of the amended measure from the Governor's Office, State Attorney General, State Procurement Office, Department of Taxation, Department of Budget and Finance, Department of Transportation, Department of Labor and Industrial Relations, Department of Commerce and Consumer Affairs, Department of Health, Department of Human Resources Development, Department of Human Services, Laborers' International Union of North America, Subcontractors Association of Hawaii, Hawaii Disability Rights Center, and one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

The American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, envisioned by President Obama as money going "out the door immediately," will require expedited procedures to allow the State to take full advantage of funding from the federal stimulus plan to address, at the earliest practicable time, the programs, services, and benefits needed by the people of Hawaii.

Your Committees find that in these times of economic turmoil, this measure would be instrumental in bringing, as soon as possible, additional financial assistance and other social services to Hawaii residents who have been affected by the current economic circumstances as well as improving and expanding benefits to the neediest individuals and families in Hawaii.

Your Committees are concerned about the history of procurement problems in the executive departments and agencies. Time and time again, information has come to the attention of the Legislature about varying degrees and types of noncompliance with the Hawaii Public Procurement Code.

Your Committees have amended the proposed measure by:

- (1) Deleting, with respect to procurements under this measure, the exemption from section 103-55.5, Hawaii Revised Statutes, relating to wages and hours of employees on public works contracts and the exemption from civil service requirements;
- (2) Adding language for administrative sanctions for fraud, misrepresentation, or abuse in the expenditure of public moneys, and defining those terms; and providing that criminal penalties, if any, still apply;
- (3) Repealing the measure on June 30, 2009; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 21, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 21, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 14. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 4 (Bunda, Hee, Kokubun, Hemmings).

**SCRep. 602            Judiciary and Government Operations on S.B. No. 846**

The purpose of this measure is to establish a statute of limitations of five years for the filing of habeas corpus actions challenging a judgment or other matters related to custody of a defendant, and establishes limitations on the basis for successive claims.

Your Committee received testimony in support of this measure from two government entities. Testimony in opposition was received from two organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

In addition to a direct appeal to the Intermediate Court of Appeals and the Hawaii Supreme Court, and the filing of a writ of habeas corpus with the United States District Court, individuals convicted of crimes in state courts may also challenge their convictions, sentences, or other matters related to their custody by filing petitions in state courts for post-conviction relief pursuant to Rule 40 of the Hawaii Rules of Penal Procedure. Currently, there is no statute of limitations applicable to petitions for post-conviction relief.

Under this measure, a petition for post-conviction relief must be filed within five years of the latest of the date on which: (1) the judgment became final by conclusion of direct review or expiration of time for seeking review; (2) an impediment to filing a complaint created by government action in violation of the U.S. or Hawai'i constitution was removed; (3) a newly created constitutional rule was recognized and made retroactively applicable to cases on collateral review by the U.S. or Hawai'i Supreme Court; or (4) the factual predicate of the claims presented could have been discovered through due diligence, but only if the newly discovered evidence would be sufficient to establish that no reasonable fact finder would have found the applicant guilty of the offense.

This measure also requires dismissal of a claim in a second or successive complaint unless the claim relies on a previously unavailable new rule of constitutional law or on newly discovered evidence that could not previously have been discovered.

Because a petition for post-conviction relief is the only method of challenging judgment and custody that does not have a statute of limitation, some defendants repeatedly use this method to challenge convictions and custody long after the events at issue. Your Committee finds that establishment of a time limit promotes the finality of judgments and sentences while permitting a defendant a reasonable period of time to discover, prepare, and file an action to challenge a conviction and custody.

Some time ago, the Judiciary's Permanent Committee on Rules of Penal Procedure and Circuit Court Criminal Rules proposed a five year limitation on a petition for post-conviction relief under Rule 40 of the Hawaii Rules of Penal Procedure. The Hawaii Supreme Court rejected the proposal because of a conflict with the Legislature's authority with regard to habeas corpus. On reflection and on consideration of testimony submitted in opposition to the proposed five-year limitation period, your Committee finds that a fifteen-year limitation should be adopted.

Your Committee has amended this measure by:

- (1) Changing the five year limit to fifteen years in which to file a complaint;
- (2) Changing the effective date to July 1, 2050, to continue the discussions on this matter; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 846, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 846, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Gabbard, Takamine).

**SCRep. 603            Public Safety and Military Affairs on S.B. No. 571**

The purpose of this measure is to establish a memorial to pay tribute the veterans of the Persian Gulf War and Operation Desert Storm.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the memorial will pay tribute to and recognize and honor those veterans who sacrificed their lives to fight for our freedom. This measure requires the Department of Accounting and General Services and the Department of Defense to

work together in submitting a report to the Legislature by January 1, 2010, that details their recommendations on the plans for the memorial and its placement within the Capitol District.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 571 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Galuteria).

**SCRep. 604            Ways and Means on S.B. No. 659**

The purpose of this measure is to amend the disclosure requirements for recipients of monetary awards by the State.

More specifically, this measure requires the Department of Budget and Finance, in collaboration with the Department of Accounting and General Services, to establish, implement, and maintain a website that includes the following information for each award by the State:

- (1) The name of the entity receiving the award;
- (2) The amount of the award;
- (3) Information on the award, including transaction type, funding agency, program source, and an award title that describes the purpose for each funding action;
- (4) The full address of the entity receiving the award and the primary location of performance under the award;
- (5) A unique identifier of the entity receiving the award and the parent entity of the recipient, if the entity is owned by another entity; and
- (6) Any other relevant information specified by the Department of Budget and Finance.

Your Committee received comments on this measure from two government agencies and two individuals. The written comments may be reviewed on the Legislature's website.

Your Committee finds that it is in the public interest for taxpayers to have access to information on how state funds are spent. Your Committee believes that this measure will provide greater accessibility to information about monetary awards from the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 659 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 605            Judiciary and Government Operations on S.B. No. 1152**

The purpose of this measure is to impose a 100-year moratorium on certain building or development projects that are on class A or B agricultural lands and agricultural district lands in senatorial districts 22 and 23, which comprise agricultural lands located in the area bounded by Wahiawa, Kaena Point, Kahuku, and Kaneohe on the north shore and windward coast of Oahu.

This measure applies only to projects for which general planning has not already commenced.

Your Committee finds that between 1969 and 2006, the amount of land zoned for agriculture declined by over 25,000 acres statewide. On Oahu alone, land under cultivation decreased by 56 per cent between 1982 and 2005. The moratorium imposed by this measure will prevent development from depleting Oahu's most productive agricultural lands, while also ensuring the availability of water for agriculture and the continued and increased production of local produce. These protections and benefits are critical to the viability of agriculture in the State, as well as the State's economy and sustainability.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1152 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 606            Judiciary and Government Operations on S.B. No. 1147**

The purpose of this measure is to clarify that the Governor has the authority to declare a disaster emergency.

This measure also requires State Civil Defense to report information on the disaster to the Governor, Legislature, and the mayor of each county after the Governor has declared a disaster emergency.

Your Committee finds that clarifying the Governor's power to declare a disaster emergency will help to expedite necessary actions to mitigate any damages or losses. Your Committee further finds that requiring the Vice-Director of Civil Defense to provide certain governmental leaders with preliminary and follow-up reports on the disaster and the effectiveness of the State's response thereto will assist those leaders in assessing any losses from the disaster and also help with preparations for any future disaster emergencies.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1147, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 607      Ways and Means on S.B. No. 32**

The purpose of this measure is to make permanent the general excise tax exemption on gross income or proceeds from the sale of alcohol fuels.

Your Committee received one written comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that section 2 of Act 209, Session Laws of Hawaii 2007 exempted gross income or proceeds from the sales of alcohol fuels from the general excise tax. The Act also required producers, wholesalers, and retailers of alcohol fuels to pass on their savings from the tax exemption to consumers. Since all motor vehicle fuel sold in the State is required to have a ten per cent ethanol content, the tax exemption amounted to a small reduction in the price of transportation fuels at a time when consumers were facing record fuel prices. Section 2 of Act 209 will sunset on July 1, 2009, at which time, the gross income or proceeds from the sales of alcohol fuels will no longer be exempt from the general excise tax.

Your Committee recognizes that the repeal of the general excise tax exemption on alcohol fuels evokes two compelling points of view. On one hand, repealing the exemption will prevent additional revenue loss for the State at a time when overall tax revenues are decreasing. It has also been suggested that a higher price for motor vehicle fuels will help steer residents toward more energy efficient choices, such as alternative energy vehicles and fuel conservation. On the other hand, despite recent declines in fuel prices from 2008 record peaks, Hawaii residents still pay some of the highest transportation fuel prices in the nation, and repealing the tax exemption would only add to those already high prices. Your Committee believes that both positions have merit and that this issue deserves further serious discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 608      Ways and Means on S.B. No. 39**

The purpose of this measure is to require the University of Hawaii, beginning January 1, 2010, to report to the Legislature on a semi-annual basis regarding the moneys in the Hawaii Cancer Research Special Fund.

The measure also require the report to contain information on deposits, expenditures, and other transactions.

Your Committee received two written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that this measure will promote transparency in the financial accounting relating to the special fund and will assist the Cancer Research Center in providing better cancer care to improve the health and well-being of the people of Hawaii. The information that this measure would provide would help the Legislature to ensure that the Cancer Research Center is making progress in meeting its recruitment and expansion goals. Your Committee believes these reports will assure the commitment of funds in the Hawaii Cancer Research Special Fund and prevent the use of moneys in this special fund for other purposes. Upon completion, the Cancer Research Center of Hawaii will not only save lives, but will also be an economic driver of technology-based research and development projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 39 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 609      Ways and Means on S.B. No. 111**

The purpose of this measure is to establish the payment priority of DNA analysis fees in relation to the payment of other fees or fines that a court may assess against a defendant.

Your Committee received one written comment on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that current law requires certain defendants convicted of a felony offense to pay \$500 or the actual cost of a DNA analysis, whichever is less. However, the law is unclear as to the payment priority of DNA analysis fees in relation to other fees and fines assessed by the courts. This measure would reduce confusion and clarify the issue by establishing that DNA analysis fees are to be third in priority of payment, after restitution and crime victim compensation fees.

Your Committee finds that DNA testing holds tremendous potential to promote both the speed and accuracy by which the judicial system can handle the high volume of criminal cases awaiting disposition. As such, your Committee agrees that providing this level of priority for fees for DNA analysis is both reasonable and appropriate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 111 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 610 Ways and Means on S.B. No. 161**

The purpose of this measure is to clarify the law with respect to salary ranges for teachers in the Department of Education.

Your Committee received one comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that, under current law, teacher salary schedules are negotiated pursuant to section 89-9, Hawaii Revised Statutes. Teacher salary ranges, however, were established in section 302A-622, Hawaii Revised Statutes, in direct conflict with section 89-9, Hawaii Revised Statutes. This measure repeals section 302A-622, Hawaii Revised Statutes, to remove any ambiguity with respect to teacher salary schedules.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 161 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 611 Ways and Means on S.B. No. 163**

The purpose of this measure is to repeal the district business and fiscal officer positions within the Department of Education.

Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that beginning in 2007, the Legislature has provided for one complex area business manager position for each of the Department's fifteen complex areas. The business managers provide fiscal services and support to each complex area, including the schools and the complex area superintendent. The complex area business managers, administrative services assistants, and personnel in the school facilities and support services branch of the Department provide all the services in the statute that this measure repeals. As a result, the business and fiscal officer positions established in section 302A-604.5, Hawaii Revised Statutes, are no longer necessary and their repeal would not affect the Department's operations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 612 Ways and Means on S.B. No. 164**

The purpose of this measure is to expand the uses of the Department of Education's federal grants search, development, and application revolving fund to include the monitoring and auditing of federal grants.

The measure also changes the name of the fund to the federal grants revolving fund to reflect the broader usage of the fund.

Your Committee received two comments on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that the name of the federal grants search, development, and application revolving fund restricts the uses of the fund. By changing the name and expanding the uses of the fund, this measure allows the Department of Education to monitor and audit the federal grant application process to ultimately qualify for additional federal grants. Your Committee believes that this measure will assist the Department to comply with federal grant requirements and provide greater oversight on grant implementation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 164 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 613 Ways and Means on S.B. No. 546**

The purpose of this measure is to establish and administer an electronic monitoring pilot program for committed offenders.

Your Committee received three written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that electronic monitoring allows eligible nonviolent offenders to live and work in the community as they approach the end of their incarceration. Electronic monitoring is a cost-effective way to monitor offenders. It is less expensive than incarceration, may reduce the likelihood of recidivism and the costs attendant thereto, and affords a means to protect the public during the reintegration of offenders back into the community.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 546, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 614      Ways and Means on S.B. No. 947**

The purpose of this measure is to change from calendar quarter to calendar year the effective date at which two related employers must recalculate their unemployment insurance contribution rates whenever one employer transfers its organization, trade, or business to the other, and both employers are under substantially common ownership, management, or control.

This measure also corrects a cross reference to the Internal Revenue Code.

Your Committee believes that this measure will conform Hawaii's unemployment insurance law to federal law to provide uniform application of unemployment insurance rate calculations. Your Committee finds that under the present law, the discrepancy in the effective date for rate re-calculations causes multiple calculations of rates within a year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 615      Ways and Means on S.B. No. 1299**

The purpose of this measure is to include businesses engaged in advanced flight simulator training for pilots, dispatchers, mechanics, or air traffic controllers as qualified businesses under the state enterprise zone law.

Your Committee received two written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that designating advanced flight simulator training as a qualified business for the state enterprise zone program will not only attract investment and generate revenues for these start-up businesses, but will also support economically distressed communities, especially during the current economic recession.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1299, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Tsutsui).

**SCRep. 616      Ways and Means on S.B. No. 1308**

The purpose of this measure is to transfer the functions and duties of the Hawaii Teacher Standards Board to the Board of Education.

Your Committee received six written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that complaints that the Hawaii Teacher Standards Board acts autonomously and has no oversight by, nor is accountable to, the Department of Education, led the Legislature to request the Auditor to conduct a "Study on the Appropriate Accountability Structure of the Hawaii Teacher Standards Board". The Auditor's preliminary report found that the creation of an independent body composed of teachers employed by the Department of Education with a mission to provide qualified teachers, promote professionalism and teaching excellence, to build public confidence in teachers and provide more accountability to the public, has not yielded sufficient benefits to the teachers and students it was meant to serve to warrant its continuation. In anticipation of the Auditor's final report, your Committee has retained the measure's June 30, 2040 effective date to facilitate further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1308, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Ayes with Reservations, 4 (Fukunaga, Hee, Kidani, Tokuda). Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 617      Commerce and Consumer Protection on S.B. No. 555**

The purpose of this measure is to direct the Department of Business, Economic Development, and Tourism to develop rules for the energy efficiency of new appliances sold or offered for sale in Hawaii.

Your Committee received testimony in support of this measure from the Sierra Club Hawai'i Chapter and Blue Planet Foundation. Testimony in opposition to this measure was received from the Department of Business and Economic Development. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that California, a leader in national energy policy, has realized substantial savings in terms of dollars and energy use since implementing strict appliance energy efficiency standards. Your Committee further finds that Hawaii would realize similar benefits from similar standards. Your Committee notes that membership in the existing national collaborative organizations, the Multi-State Compliance Standards Collaborative and The Appliance Standards Awareness Project, will assist the State in adopting energy efficiency standards by providing resources, standard-setting guidelines, and model legislation.

Your Committee finds that this measure requires the Department of Business, Economic Development, and Tourism to expend resources that are not currently available to it. Further, your Committee finds that, pursuant to Act 162, Session Laws of Hawaii 2006, the Public Utilities Commission has already established a Public Benefits Fund and appointed a fund administrator to carry out functions substantially similar to those contained in this measure, including the establishment of appliance efficiency standards. Your

Committee finds that the State's interest in government efficiency is served by allowing the Public Benefits Fund Administrator to carry out its existing function. Your Committee notes that the Department of Business, Economic Development, and Tourism nevertheless has a separate administrative role in ensuring that products sold in the State comply with standards established by the Public Benefits Fund Administrator.

Your Committee has amended this measure by:

- (1) Requiring the Department of Business, Economic Development, and Tourism to investigate the advantages and disadvantages of joining the Multi-State Appliance Standard Collaborative, the Appliance Standards Awareness Project, or both, for the purpose of gathering information and receiving assistance with implementing the provisions of this measure;
- (2) Requiring the Department of Business, Economic Development, and Tourism to report the results of its investigation and the status of its collaborative outreach efforts to the Legislature no later than twenty days prior to the convening of the 2011 Regular Session;
- (3) Delaying the date by which the Department of Business, Economic Development, and Tourism is required to enact administrative rules to implement this measure to January 1, 2013 in order to allow the Public Benefits Fund Administrator to develop a full program for consumer efficiency that includes appliance initiative and programs;
- (4) Delaying the date after which the sale or offer for sale of noncompliant appliances is prohibited to January 1, 2015;
- (5) Delaying the effective date of this measure to encourage further discussion; and
- (6) Making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 555, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 555, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 618      Transportation, International and Intergovernmental Affairs on S.B. No. 241**

The purpose of this measure is to require "cool roofs" on buildings as a prerequisite to obtain a building permit for the construction of a new residential or commercial structure, after January 1, 2011.

Your Committee received testimony in support of this measure from Roofing Contractors Association of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism; Hawaii Developers' Council; Building Industry Association of Hawaii; the Hawaii Association of REALTORS; and The Chamber of Commerce of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Under this measure, "cool roof" includes a roof that uses any variety of roofing material that has a high solar reflectance and high thermal emittance, carries the United States Environmental Protection Agency's ENERGY STAR label, and meets the standards of the United States Environmental Protection Agency's ENERGY STAR system for low sloped roofs or steep sloped roofs, as applicable.

Your Committee finds that the need to promote energy conservation necessitates that the heat absorption effect from roofs be reduced in order to reduce the cost of cooling homes.

Your Committee has amended this measure by:

- (1) Expanding the definition of "cool roof";
- (2) Allowing a radiant barrier to be installed in lieu of a cool roof if a cool roof version is unavailable in a specific roofing material;
- (3) Deleting the exemption from cool roof requirements for photovoltaic energy systems;
- (4) Clarifying that solar energy systems do not require a variance or an exemption from the cool roof requirements;
- (5) Providing that this measure does not apply to new residential structures that do not utilize heating or cooling systems that require additional energy generation; and
- (6) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 241, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 241, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 619      Transportation, International and Intergovernmental Affairs on S.B. No. 552**

The purpose of this measure is to establish the procurement policy for all agencies purchasing or leasing motor vehicles to obtain energy-efficient vehicles.

Your Committee received testimony in support from the Sierra Club. Comments were received from the Department of Business, Economic Development, and Tourism. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure provides that, beginning January 1, 2010, all light-duty vehicles procured by or for any agency shall have an estimated fuel economy of at least eighteen miles per gallon under standards published by the United States Environmental Protection Agency, except under specified circumstances of usage of the vehicle such as law enforcement and emergency vehicles.

Your Committee has amended this measure on the recommendation of the Department of Business, Economic Development, and Tourism to replace the contents with a statutory amendment to establish a procurement policy for all agencies to obtain light duty motor vehicles that reduce dependency on petroleum-based fuels, including electric or plug-in hybrid electric vehicles, hydrogen or fuel cell vehicles, other alternative fuel vehicles, and vehicles identified by the United State Environmental Protection Agency as being top performance for fuel economy by class.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 552, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 552, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 620 (Majority) Judiciary and Government Operations on S.B. No. 604**

The purpose of this measure is to require all hospitals and public facilities to provide victims of sexual assault with information on emergency contraception and immediate access to emergency contraception when requested.

Your Committee finds that information on emergency contraception is an important part of treatment and counseling for victims of sexual assault. Access to information regarding all of the available medical options and treatments will allow sexual assault survivors to make an informed decision regarding their immediate treatment and may prevent further trauma from an unintended pregnancy.

Your Committee further finds that the use of emergency contraception is approved by the federal Food and Drug Administration and is a safe and effective means of treating victims of sexual assault.

Some members of your Committee requested a religious exemption for some hospitals and would like to continue the discussion on this issue.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 604, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 604, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Gabbard, Slom). Excused, 1 (Bunda).

**SCRep. 621 Judiciary and Government Operations on S.B. No. 1183**

The purpose of this measure is to conform the State's laws to the Americans with Disabilities Act Amendments Act of 2008, P.L. 110-325, by broadening the types of disabilities that are protected against employment discrimination.

On September 25, 2008, President George W. Bush signed into law the ADA Amendments Act of 2008, P.L. 110-325 ("ADAAA"). In the ADAAA, Congress found that several United States Supreme Court decisions interpreted the definition of disability inconsistently with legislative intent. The ADAAA clarified laws relating to employment disability, broadened the definition of "disability" and resulted in certain federal law protections being stronger than corresponding protections currently provided under Hawaii state law.

Your Committee has amended this measure on the recommendation of the Hawaii Civil Rights Commission to require the Hawaii Civil Rights Commission to define certain terms contained in this measure, in lieu of doing so by statutory amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1183, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 622 Judiciary and Government Operations on S.B. No. 449**

The purpose of this measure is prohibit records relating to prescription information containing patient-identifiable and prescriber-identifiable data from being licensed, transferred, used, or sold by any pharmacy benefits manager, insurance company, electronic transmission intermediary, state licensed pharmacy, state licensed physician or osteopathic physician, or other similar entity, for commercial purposes, except as specifically provided.

Your Committee finds that it is essential to protect private patient medical information from sale, which is usually a commercial profit-making activity, to pharmaceutical companies.

Your Committee has amended this measure by:

- (1) Allowing third party insurance providers to access prescription information records;
- (2) Deleting references to the Regulated Industries Complaints Office which leaves references to the Department of Commerce and Consumer Affairs; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 449, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 449, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 623 (Majority) Judiciary and Government Operations on S.B. No. 1621**

The purpose of this measure is to facilitate the right to organize for the purpose of collective bargaining as recognized in Section 1 of Article XIII of the Hawaii State Constitution by:

- (1) Setting the procedures for establishing an initial agreement for collective bargaining following certification or recognition of a labor organization as a representative;
- (2) Allowing for the use of signed valid authorizations designating an individual or labor organization designated in the petition for representation, so that no election is to be directed by the Hawaii Labor Relations Board;
- (3) Clarifying that a duly certified labor organization that represents employees for the purpose of collective bargaining has a privilege to refuse to disclose and to prevent any other person from disclosing confidential information and communications made for the purpose of facilitating the rendition of union representational services to employees through the collective bargaining process;
- (4) Allowing a labor organization that provides representational services related to collective bargaining to bring a civil action in circuit court for nonpayment of union dues by members and agency fees by persons covered by a collective bargaining agreement;
- (5) Establishing that it is a complete defense to prosecution for trespass and offenses against public order, where a person or persons are engaged in a labor dispute to publicize the existence of the dispute on the pathways, sidewalks, and areas adjacent to the entry ways or exits used by customers or employees, or both, to gain access to the establishment gained in the dispute; and
- (6) Making it a violation for an employer to wilfully or repeatedly commit unfair or prohibited practices interfering with an employee's statutory rights or discriminating against an employee for exercising protected conduct.

Your Committee finds that this measure is consistent with and in furtherance of the right to organize for the purpose of collective bargaining as established under Article XIII of the Hawaii State Constitution.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1621, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1621, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Ayes with Reservations, 1 (Gabbard). Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 624 Judiciary and Government Operations on S.B. No. 969**

The purpose of this measure is to permit a conditional search of any person or vehicle entering upon the grounds of a correctional or detention facility.

Under this measure, the entry of any person or vehicle onto state correctional or detention facility grounds may be conditioned upon a search for weapons or contraband, if the correctional staff gives the person notice and an opportunity to decline a conditional search prior to conducting the search. This measure also requires correctional staff to have probable cause of contraband on a person prior to requiring a strip search of that person.

Your Committee finds that it is in the best interest of public safety that any person or vehicle entering upon the grounds of a correctional or detention facility be subject to a conditional search.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 969, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 625 (Majority) Judiciary and Government Operations on S.B. No. 478**

The purpose of this measure is to revise and clarify provisions relating to disaster relief laws and the Governor's powers in responding to disaster relief efforts during a civil defense emergency.

Your Committee finds that clarifying and limiting the Governor's powers to provide disaster relief during times of natural or manmade disasters or civil defense emergencies will create a more accountable and transparent government. Specifically, requiring the Governor to obtain legislative authorization to continue to provide disaster relief beyond the adjournment sine die of the next occurring regular session will provide legislative oversight in the execution of the disaster relief laws in this State. Your Committee

believes that this measure is necessary to ensure that emergency powers of the executive branch are not abused or used to circumvent legislative authority.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 478, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 626      Judiciary and Government Operations on S.B. No. 898**

The purpose of this measure is to exempt any care home, school, or hotel from civil liability that would result in the payment of compensation to persons injured when those facilities are used to shelter-in-place during an officially designated emergency.

Your Committee finds that providing this exemption from civil liability will promote an increase in the number of private entities that choose to be designated as a shelter-in-place facility during an officially designated emergency.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 898, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 627      Judiciary and Government Operations on S.B. No. 1148**

The purpose of this measure is to clarify various provisions of the comprehensive offender reentry system, including the requirement of written reentry plans.

This measure also:

- (1) Continues the quarterly rotation system for Hawaii inmates in out-of-state prisons and establishes a limit on the maximum number of Hawaii inmates housed in out-of-state prisons, which shall be fulfilled by January 1, 2010;
- (2) Requires Department of Public Safety to promote research regarding children with incarcerated parents;
- (3) Establishes a Reentry Commission under the Department of Public Safety, effective on January 1, 2010;
- (4) Sunsets the Legislative Oversight Committee established to oversee the Department of Public Safety on July 1, 2009; and
- (5) Specifies that by December 31, 2010, the maximum number of Hawaii inmates who are housed in out-of-state prisons shall not exceed 2,000.

Your Committee finds that a comprehensive offender reentry system lowers the State's cost of incarcerating an offender and decreases the offender's rate of recidivism upon their release. Your Committee also finds that requiring a comprehensive offender reentry plan be detailed in writing increases the likelihood of success for the offender to take a meaningful role in society upon release.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1148, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1148, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 628      (Majority) Judiciary and Government Operations on S.B. No. 1054**

The purpose of this measure is to prohibit provisional licensees under the age of eighteen and holders of a temporary instruction permit who are age fifteen years and six months or older but under the age of eighteen, from engaging in various tasks not associated with operating a motor vehicle while operating a motor vehicle.

This measure applies to using a wireless telephone, including a wireless telephone equipped with a hands-free device, or any other electronic device including, but not limited to, portable video games, portable DVD players, text messengers, Palms, Treos, or Blackberries; consuming food or beverages; engaging in personal grooming that requires the use of a comb, brush, or other personal grooming device; or attempting to reach for any other object or device not related to or necessary for driving.

Your Committee finds that certain common driver distractions contribute to inattention to driving, which may result in catastrophic consequences. The problem is exacerbated among young and inexperienced drivers who are the subject of this measure.

A *Honolulu Advertiser* article of February 26, 2009, stated that a recent report of the National Highway Traffic Safety Administration and the Virginia Tech Transportation Institute said that nearly eighty per cent of crashes and sixty-five per cent of near-crashes involved some form of driver inattention within three seconds before the event. The primary causes of driver inattention were distracting activities, such as cell phone use. The article also reported a separate 2005 study by the Insurance Institute for Highway Safety that found drivers using phones are four times as likely to get into crashes serious enough to injure themselves.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1054, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 629      Judiciary and Government Operations on S.B. No. 1056**

The purpose of this measure is to:

- (1) Increase the penalty from \$11,000 to \$25,000 for employers who violate the commercial driver licensing law regarding permitting a licensed commercial driver to drive during the period in which the driver or the vehicle is subject to an out-of-service order;
- (2) Clarify that a person is prohibited from driving a commercial motor vehicle in violation of an out-of-service order;
- (3) Provide a penalty of not more than \$200 for any person convicted or found in violation of driving a commercial vehicle while having any alcohol in the person's body, and a penalty of not more than \$500 for any person convicted or found in violation of having 0.4 per cent blood alcohol; and
- (4) Replace the existing monetary penalty range of not less than \$1,100 nor more than \$2,750 for violating an out-of-service order with \$4,000 for a first conviction and not less than \$5,000 nor more than \$7,500 for a second or subsequent conviction.

Your Committee finds that this measure is necessary in order to comply with federal regulations regarding commercial driver licensing. According to the Department of Transportation, failure to enact this measure could result in the loss of federal funds to the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050 to continue the discussions; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1056, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1056, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 630      Judiciary and Government Operations on S.B. No. 212**

The purpose of this measure is to require privately owned prisons or out-of-state detention facilities that incarcerate Hawaii inmates pursuant to a contract with the State of Hawaii to follow the state freedom of information laws pursuant to chapter 92F, Hawaii Revised Statutes.

Your Committee finds that it is important for privately owned prisons and out-of-state detention facilities operating under a contract with the State of Hawaii to maintain a standard of accountability and transparency. Your Committee also finds that information submitted to the Legislature by privately owned prisons and out-of-state detention facilities under the State's freedom of information laws will aid the Legislature in making sound fiscal and public policy decisions regarding the incarceration of Hawaii inmates.

Your Committee has amended this measure by deleting section 1, the purpose section.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 212, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 631      Judiciary and Government Operations on S.B. No. 932**

The purpose of this measure is to allow a health care provider to subject a person's body fluids or tissue to a test for the presence of human immunodeficiency virus (HIV) infection after the patient has been given the opportunity to decline the test.

This measure also provides that specific written informed consent for human immunodeficiency virus testing ordered by a health care provider is not required. When a human immunodeficiency virus test ordered by a health care provider has a reactive, indeterminate, or confirmed positive result, the health care provider is required to provide the test results to the patient and offer human immunodeficiency virus post-test counseling.

Your Committee finds that increasing the access to human immunodeficiency virus testing will enable early detection and treatment for infected persons, and consequently, lower the risk of HIV transmission.

Your Committee notes the comments of the American Civil Liberties Union of Hawai'i, concerning the requirement of specific written informed consent for HIV testing on the basis of compromising patient autonomy in medical decision-making and the constitutional protection of privacy.

In light of the concerns raised, your Committee has amended this measure by changing the effective date to July 1, 2050 to continue discussions in this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 932, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 932, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 632            Judiciary and Government Operations on S.B. No. 1259**

The purpose of this measure is to provide consistency between federal and state environmental liability laws in setting forth the conditions and circumstances under which an innocent contiguous property owner or a "bona fide prospective purchaser" shall not be held liable for damages and costs related to the contamination of real property not owned or operated by the property owner or purchaser.

This measure would promote the development and reuse of contaminated properties by providing relief to bona fide purchasers and innocent contiguous property owners from liability for hazardous substance pollution or contamination.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1259, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1259, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 633            Judiciary and Government Operations on S.B. No. 967**

The purpose of this measure is to make Hawaii's controlled substance laws consistent with that of federal law and clarify sections of chapter 329, Hawaii Revised Statutes, relating to controlled substances.

Specifically, this measure:

- (1) Adds new drugs to Hawaii's controlled substance laws to conform to changes made in the federal law;
- (2) Requires the surrender of a registrant's federal controlled substance registration to be considered in determining whether the registrant's state registration is in the public interest and should be suspended or revoked;
- (3) Allows and sets forth procedures for pharmacies that electronically share a real-time, online database to transfer controlled substance prescriptions between their pharmacies;
- (4) Specifies what information practitioners and pharmacists who dispense controlled substances are required to record in their log books; and
- (5) Provides for administrative inspections consistent with Department of Health inspection procedures.

Your Committee finds that this measure protects the public by updating Hawaii's controlled substances schedules, as well as by assisting pharmacists and physicians to better serve their patients by streamlining the requirements for dispensing controlled substances.

Your Committee has amended this measure by:

- (1) Deleting section 5 regarding the grounds for determining whether a state registration to manufacture, distribute, or dispense a controlled substance should be suspended or revoked;
- (2) Deleting section 8, which relates to administrative inspections; and
- (3) Changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 967, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 634            Judiciary and Government Operations on S.B. No. 1058**

The purpose of this measure is to require the Attorney General, with the assistance of various public and private entities, to coordinate a review of the impact of diverting marijuana and low-level felony drug offenders to treatment centers rather than incarceration in the criminal justice system.

Your Committee finds that diverting marijuana and low-level felony drug offenders to treatment centers rather than incarceration relieves the criminal justice system from overcrowding of inmates and reduces costs to the State for incarcerating those drug offenders. Due to the current economic conditions, your Committee also finds that an unbiased report on the costs and benefits of a low-level drug offender diversion program is warranted to make fiscally-sound policy decisions.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050 to continue discussions; and
- (2) Making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1058, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 635      Judiciary and Government Operations on S.B. No. 1059**

The purpose of this measure is to establish an illegal fireworks task force to develop a plan and make recommendations to the Legislature to stop the importation of illegal fireworks and explosives into Hawaii.

Your Committee finds that this measure will organize various agencies to work collaboratively on solutions to better enforce the growing distribution and use of illegal fireworks in our communities. Each year, the use of illegal fireworks, namely aerials by unlicensed, nonprofessional persons, continues to increase. These illegal fireworks pose a fire and life safety risk and danger to the public. Enhanced enforcement strategies among state, county, and federal agencies are essential to address the problem.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to continue the discussions; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1059, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1059, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 636      Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 645**

The purpose of this measure is to increase the reserved housing requirement for a planned development to twenty-five per cent of floor space in the Kakaako community development district, mauka area for lots 80,000 square feet or more in size.

Testimony in support of this measure was submitted by three organizations and one public citizen. One public citizen supported the intent of the measure, and one state agency and three organizations provided comments. Testimony in opposition was submitted by four organizations and one public citizen. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the State has invested more than \$500 million in infrastructure improvements to accommodate housing developments in the Kakaako community development district, mauka area. In 1982, the Kakaako community development district redevelopment plan called for a mixture of industrial, commercial, and residential land uses because of its strategic location in the primary urban core. The plan envisioned approximately 19,000 housing units of which three-fourths were expected to be affordable housing units. Your Committee believes that during the economic downturn, the Legislature has an opportunity to make a lasting contribution to the State's economy by providing a substantial number of affordable housing units and fulfilling the goals of the Kakaako community development district.

Your Committee has amended this measure by:

- (1) Increasing the square footage threshold to which the twenty-five per cent reserved housing requirement applies from 80,000 square feet to lots of three acres or more and requiring twenty per cent reserved housing for lots of at least 20,000 square feet and less than three acres;
- (2) Expanding the application of the reserved housing requirement to include residential, commercial, industrial, and resort uses;
- (3) Adding public utility facility to the definition of "community service use";
- (4) Adding a definition of "floor area";
- (5) Requiring that unbuilt portions of pending master plans comply with this measure;
- (6) Amending the purpose section to reflect these changes; and
- (7) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 645, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Hemmings).

**SCRep. 637 (Majority) Ways and Means on S.B. No. 560**

The purpose of this measure is to establish a task force, within the Office of Hawaiian Affairs, to study the disparate treatment of native Hawaiians and other ethnic groups in the State's criminal justice system.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that all citizens are entitled to a fair and just judicial system. Disparities in the criminal justice system foster mistrust by the public and impede the promotion of public safety. A study conducted by the task force under this bill would be a first step toward reducing disparities in the system because it will assist in determining where disparities occur and identifying the causes. Appropriate intervention and action can be taken thereafter to reduce the disparities.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 560, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (Hee, Tsutsui).

**SCRep. 638 (Majority) Ways and Means on S.B. No. 1343**

The purpose of this measure is to replace various administrative agency fees that had been established by administrative rule with statutory fees.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure addresses concerns raised in the Hawaii Supreme Court's opinion in *Hawaii Insurers Council v. Lingle*. Establishing these fees by statute rather than by administrative rule avoids conflict with the separation of powers doctrine, while also making administrative fee more uniform.

Your Committee amended the bill by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1343, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (Hee, Tsutsui).

**SCRep. 639 Ways and Means on S.B. No. 754**

The purpose of this measure is to direct the Legislative Reference Bureau to review the state and county laws related to affordable housing to identify strategies to strengthen Hawaii's housing laws.

Specifically, this measure requires the Legislative Reference Bureau, in particular, to review the following statutes to recommend strategies to strengthen Hawaii's housing laws:

- (1) Chapter 201H, Hawaii Revised Statutes, relating to the Hawaii Housing Finance and Development Corporation;
- (2) Chapter 356D, Hawaii Revised Statutes, relating to the Hawaii Public Housing Authority; and
- (3) Chapter 46, Hawaii Revised Statutes, relating to county organization and administration.

Your Committee received three written comments on this measure.

Copies of written comments submitted to the Committee are available for review on the Legislature's website.

In the review, the Legislative Reference Bureau is directed to:

- (1) Identify duplicative or overlapping provisions in current law that may hamper the increased development of affordable housing;
- (2) Review concerns raised regarding proposed amendments to Hawaii's housing laws that were intended to increase the development of affordable housing, which were introduced in the 2008 and 2009 legislative sessions;
- (3) Review any recommendations made by any legislative task force, financial or management audit, or affordable housing study conducted within the last three years regarding proposed amendments to Hawaii's housing laws that were intended to increase the development of affordable housing; and
- (4) Determine any other information that may be relevant during the course of the review.

The Legislative Reference Bureau is also directed to seek input from a variety of stakeholders and to submit a report of its findings, recommendations, and any proposed legislation to the Legislature no later than twenty days prior to the convening of the regular session of 2010.

Your Committee finds that the study required in this measure will help to identify strategies to increase the supply of affordable housing in the State.

Your Committee has amended this measure by:

- (1) Updating data from the Urban Land Institute Hawaii in the purpose section of the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 754, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 640      Ways and Means on S.B. No. 301**

The purpose of this measure is to standardize requirements relating to registered agents of business entities by adopting the Model Registered Agents Act.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that every domestic or foreign entity registered to do business in the State is required to have a registered agent who is located in the State to accept service of process. In many cases, the agent is a company that acts as the registered agent for many other entities in the State. This measure will create a registry of commercial agents, so that if there are any changes in the name, address, or other information of the commercial agent, the change need only be noted in the registration for the commercial agent and not in the registration for each of the entities whom the commercial agent represents. Your Committee finds that eight other states have adopted this model act and believes that this measure will save both the registrants and the Business Registration Division of the Department of Commerce and Consumer Affairs significant amounts of time and cost when a business changes its commercial agents.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 301, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 301, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 5 (Fukunaga, Galuteria, Hee, Kidani, Hemmings).

**SCRep. 641      Ways and Means on S.B. No. 1165**

The purpose of this measure is to repeal the sunset date of the general excise tax exemption on payments by timeshare operators and condominium submanagers for employee wages, salaries, benefits, insurance premiums, and payroll taxes.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that making this general excise tax exemption permanent will level the playing field for timeshare operators. Prior to the exemption for timeshare operators, the exemption only extended to hotel operators. Similarly, condominium submanagers were also not covered under the exemption while managers were covered. Your Committee also finds that there is no loss of tax revenue to the State. Rather, an existing exemption will become permanent. Your Committee believes that tax exemptions for these groups will encourage growth in the timeshare industry and provide a uniform exemption for all hospitality related businesses.

Your Committee has amended the effective date to January 1, 2051, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1165, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1165, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 642      Ways and Means on S.B. No. 38**
