The purpose of this measure is to protect public health by increasing the tax on tobacco products other than cigarettes, such as smokeless tobacco, snuff, and pipe tobacco, as a deterrent to their use.

Specifically, this measure:

- (1) Amends the definition of "tobacco products" to include smokeless tobacco and pipe tobacco;
- (2) Increases the excise tax on the wholesale price of tobacco products from forty per cent to sixty per cent; and
- (3) Requires taxes collected from tobacco products other than cigarettes to be deposited into the community health centers special fund.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the tax increase proposed by this measure will protect public health by deterring youth consumption of tobacco products, including smokeless tobacco and pipe tobacco. Your Committee believes that this tax increase is a reasonable

deterrent to tobacco consumption and will generate approximately \$5,250,000 in annual revenues, one-third of which will go directly to health care funding.

Your Committee has amended the measure by:

- (1) Replacing the community health centers special fund with the health systems special fund;
- (2) Changing the effective date to January 1, 2050, to facilitate further discussion; and
- (3) Making a technical amendment to the effective date to ensure that the amendments made by this measure to the definition of "tobacco products" is not inadvertently repealed when a previously amended version of section 245-1, Hawaii Revised Statutes, is reenacted on July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 38, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 38, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 643      Ways and Means on S.B. No. 266**

The purpose of this measure is to establish a global warming task force to assess the impacts of global warming and climate change trends in the State.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that global climate changes are a threat to the health of the residents of the State and Hawaii's prosperity. Your Committee further finds that these climate changes lead to the threat of stronger hurricanes, prolonged drought, shifting weather patterns, warmer temperatures, shifting micro-climates, increased spread of invasive species, and saltwater intrusion into Hawaii's aquifers.

Your Committee has amended this measure by:

- (1) Changing the source of financing from the state general fund to the tourism special fund;
- (2) Appropriating \$100,000 from the tourism special fund for fiscal year 2009-2010 and a like amount for fiscal year 2010-2011; and
- (3) Changing the effective date of this measure to July 1, 2070, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 266, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 266, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 644      Ways and Means on S.B. No. 746**

The purpose of this measure is to establish a two-year pilot project within a designated complex area in the Department of Education to demonstrate cost efficiencies and savings of complex-wide allocations of funds received by the complex area through the weighted student formula.

To accomplish the purpose of the pilot project, this measure authorizes the complex area superintendent to reallocate resources within the schools in the complex area to achieve greater efficiency and cost-effectiveness and exempts the designated complex area from any department-wide budget reductions or restrictions during the two-year pilot program.

Your Committee finds that the reallocation of resources within a complex area could prove to be highly cost-effective and provide more autonomy in the management of complex areas. The results of the reallocation could be beneficial for students, staff, and administrators.

Your Committee amended this measure by:

- (1) Adding the requirement that the Department of Education report on any deficits in the pilot project;
- (2) Changing the effective date to July 1, 2070 to facilitate continued discussion on this issue; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 746, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 746, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 645 (Majority) Ways and Means on S.B. No. 821**

The purpose of this measure is to effectuate the findings of the Joint Legislative Committee on Aging in Place and to maintain the levels of Kupuna Care service that were provided statewide in the 2007-2008 fiscal year.

More specifically, this measure requires the Executive Office on Aging to cooperate with the county Offices of Aging to develop:

- (1) A plan to increase voluntary contributions to support the cost of Kupuna Care programs;
- (2) Procedures for managing the waitlist for Kupuna Care service; and
- (3) Policies for applying a cash and counseling approach to service delivery.

Your Committee received three written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the Kupuna Care program has been one of the most cost effective programs delivering vital services to elders in Hawaii. As of June 30, 2008, the waitlist for Kupuna Care services contained two hundred forty-two people. Since the need for government funded elder services is likely to increase with the downturn in the economy, your Committee believes that it is important to maintain critical care services and programs like Kupuna Care.

Your Committee amended this measure by changing the effective date to July 1, 2070, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 821, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Hemmings). Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 646 (Majority) Ways and Means on S.B. No. 1140**

The purpose of this measure is to require health plans, other than government payors and limited benefit health insurance policy insurers, to reimburse critical access hospitals and federally qualified health centers at rates consistent with medicare and medicaid reimbursement rates.

Your Committee received two comments on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that critical access hospitals and federally qualified health centers that serve the economically disadvantaged play a critical role in the State's health care system. Low reimbursement health care rates, however, have caused financial problems for all health care systems, especially those that serve the poor.

Currently, government is subsidizing the costs of healthcare services for the disadvantaged because health insurance plans in Hawaii are not paying for the full costs of health care provided to plan beneficiaries. Unless the State continues to provide special subsidies to cover the operating costs of critical access hospitals and federally qualified health centers, these health care providers will cease to exist.

This measure requires commercial health care providers to pay not less than one hundred and one per cent of costs, consistent with medicare and medicaid reimbursement rates, for all services rendered to applicable health plan beneficiaries.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on this issue and by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1140, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Hemmings). Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 647 Ways and Means on S.B. No. 1300**

The purpose of this measure is to appropriate funds for six instructor positions for Junior Reserve Officers' Training Corps programs at public high schools in the State.

Your Committee finds that Junior Reserve Officers' Training Corps program builds character, discipline, and positive self images in young men and women. Your Committee also finds that the funds appropriated by this measure will ensure that Lahainaluna, Kapolei, and Mililani High Schools will be able to establish Junior Reserve Officers' Training Corps programs upon invitations from either the United States Army or the United States Navy to continue the proud heritage of Junior Reserve Officers' Training Corps programs in Hawaii schools.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2090 to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1300, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1300, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 648      Ways and Means on S.B. No. 1332**

The purpose of this measure is to require board licensure for respiratory care practitioners.

Your Committee received eleven written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the practice of respiratory care requires expertise and proficiency in many areas of medicine and advance technologies including life-support systems and sophisticated patient monitoring devices. The development and implementation of minimum standards in cardiopulmonary health under this measure to ensure that only qualified persons are licensed as respiratory care practitioners will help to protect patients and maintain the public's health, safety, and welfare.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2090, for purposes of continued discussion of the matter; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1332, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1332, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 649      Ways and Means on S.B. No. 1206**

The purpose of this measure is to confer upon a county board, in a county with a population of at least five hundred thousand people, the power to issue revenue bonds in its own name, if so authorized under the county charter.

Your Committee finds that this measure will enable the various county boards of water supply to issue revenue bonds, in counties with a population of at least five hundred thousand persons. Your committee believes that current economic conditions make it necessary to develop additional sources of funds for the acquisition and distribution of potable water.

Your Committee has amended this measure by:

- (1) Clarifying that only a county board of water supply, as opposed to any county board, would be able to issue revenue bonds in its own name;
- (2) Changing the effective date to January 1, 2090, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1206, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1206, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 650      Ways and Means on S.B. No. 1313**

The purpose of this measure is to abolish the Hawaii Community Development Authority (Authority) and transfer the authority, duties, responsibilities, and jurisdiction of the Authority to:

- (1) The Department of Land and Natural Resources with respect to the Kalaeloa Community Development District and the portion of the Kakaako Community Development District that is makai of Ala Moana Boulevard, along with the submerged lands and contiguous fast lands necessary for the management, maintenance, and operation of Kewalo basin; and
- (2) The City and County of Honolulu, with respect to the portion of the Kakaako Community Development District that is mauka of Ala Moana Boulevard,

provided that zoning authority over all real property in the Kalaeloa Community Development District and the Kakaako Community Development District, both mauka and makai of Ala Moana Boulevard, is transferred to the City and County of Honolulu.

Your Committee has received three comments on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that following its establishment by the Legislature in 1973, the Authority has made vast improvements within the Kakaako Community Development District, an area at the heart of urban Honolulu that, at the time, was being underutilized and in need of renewal, renovation, and improvement. However, your Committee finds that the Authority has accomplished the majority of the tasks that were set forth for it in Kakaako. Your Committee further finds that the Authority has made major strides in preparing and adopting the development guidelines for the Kalaeloa Community Development District.

Accordingly, your Committee believes that it is time to transfer the continuing zoning oversight of the Kakaako Community Development District and the Kalaeloa Community Development district over to the City and County of Honolulu, while retaining the ownership of the Kalaeloa Community Development District and the portion of the Kakaako Community Development District makai of Ala Moana Boulevard, along with Kewalo Basin, in the Department of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Making technical nonsubstantive changes for clarity and consistency; and
- (2) Changing its effective date to allow for further discussion of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1313, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1313, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 651      Ways and Means on S.B. No. 830**

The purpose of this measure is to establish the shared services technology fund to allow state departments and agencies to pool resources for common technology systems, hardware, and software.

Your Committee received one written comment on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that pooling department and agency resources is an efficient method of reducing operating and administrative costs, optimizing purchasing power through bulk contracts and sales, and reducing the time spent on processing purchase orders. Your Committee believes during this time of fiscal restraint that the shared services technology fund, through streamlined purchasing and bulk purchases, will assist the State in minimizing budgetary costs and maximize limited resources.

Your Committee has amended the measure by making technical, nonsubstantive amendments for purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 830, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Hee, Tsutsui).

**SCRep. 652      Ways and Means on S.B. No. 1277**

The purpose of this measure is to increase incentives for the development of affordable housing in Hawaii.

Specifically, this measure:

- (1) Establishes a self-help housing trust fund;
- (2) Increases the conveyance tax on transfers or conveyances of real property valued in excess of \$1,000,000, dedicates five per cent of the conveyance tax to the self-help housing trust fund, and increases the conveyance tax contribution to the rental housing trust fund;
- (3) Increases the value of the low-income housing tax credit provided in chapter 235, Hawaii Revised Statutes, by shortening the period over which the credits can be taken from ten years to five years;
- (4) Facilitates the collection of any shared appreciation equity lien, deferred sale price lien, and any excess proceeds in lieu of any buyback provision in the event of a foreclosure of any property that received assistance from the Hawaii Housing Finance and Development Corporation; and
- (5) Establishes a mortgage credit certificate program to assist qualified low and moderate-income persons purchasing a principal residence with a state income tax credit of up to, or equal to, twenty per cent of the annual mortgage interest payments.

Your Committee received eight comments on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that in spite of past efforts made by the State to ease the housing crisis, particularly for the homeless and low- and moderate-income residents, more assistance is needed. Your Committee finds that the multi-pronged approach contained in this measure may make a significant difference in resolving this situation.

Your Committee has made technical nonsubstantive changes to this measure for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1277, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 653      Ways and Means on S.B. No. 568**

The purpose of this measure is to establish the electronic prescription task force to develop a plan to implement a mandatory electronic prescription drug program not later than July 1, 2011.

This measure establishes the task force within the Department of Health to develop a plan to implement the mandatory use of an electronic prescription drug program by pharmacists, physicians, and others authorized to prescribe or dispense prescription drugs in the State. The task force is also required to report its findings, recommendations, and any necessary proposed legislation to the Legislature prior to the regular session of 2010.

Your Committee finds that, in light of the billions of dollars the federal government is expected to allocate under the federal stimulus package, known as the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, for health information technology programs, it is imperative that the State lay the groundwork provided in part, by the measure, to be in position to qualify for the federal funds. It is also important for the Administration to recognize the opportunities under the federal stimulus package to work with the Legislature to maximize the State's share of federal stimulus proceeds.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 568, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 568, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 654      Ways and Means on S.B. No. 995**

The purpose of this measure is to address the additional income and proceeds that the Office of Hawaiian Affairs is to receive from the public land trust pursuant to article XII, sections 4 and 6, of the Hawaii Constitution, for the period November 7, 1978 to July 1, 2009.

Specifically, this measure:

- (1) Conveys certain parcels of real property in fee simple to the Office of Hawaiian Affairs; and
- (2) Supports the conveyance with appropriate provisions, such as exempting all the conveyed lands from the definition of "public lands" in chapter 171, Hawaii Revised Statutes, and exempting the conveyed lands located in Kakaako from the authority of the Hawaii community development authority under chapter 206E, Hawaii Revised Statutes.

Your Committee received one written comment on this measure. A copy of the written comment submitted is available for review on the Legislature's website.

Your Committee finds that this measure allows the State to effectively and responsibly meet part of its constitutional obligation to native Hawaiians by addressing the additional amount of income and proceeds that the Office of Hawaiian Affairs is to receive from the public trust for the period November 7, 1978, to July 1, 2009.

Your Committee amended this measure by making technical, nonsubstantive amendments and changing the effective date to July 1, 2070, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 995, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 995, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 655      (Majority) Ways and Means on S.B. No. 1096**

The purpose of this measure is to appropriate funds for the science-, technology-, engineering-, and math-related (STEM) programs in Hawaii's public schools and charter schools.

More specifically, the purpose of this measure is to provide additional funds to ensure that all interested schools will be able to provide STEM programs in 2009-2012. In addition, the measure provides funding for the K-12 after-school creative media education initiatives.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that STEM and creative media programs are important to prepare Hawaii's students for further education and employment and ensure their success in the global economy.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2070, to facilitate further discussion; and
- (2) Making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1096, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1096, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (Hee, Kokubun).

**SCRep. 656      Ways and Means on S.B. No. 579**

The purpose of this measure is to require all state and county documents, letterheads, symbols, and items, when newly created, replaced, or reprinted to contain accurate, appropriate, and authentic Hawaiian names and language.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee recognizes that the Hawaiian language is one of two official languages of the State. The Hawaiian language, however, is underutilized by the State and counties in official documents and publications. Your Committee finds that this underrepresentation has a detrimental effect on the Hawaiian culture, and over time, erodes the significance of the culture and the language. Your Committee believes that increasing, and requiring the proposed use of Hawaiian names and language in government documents, letterhead, symbols, and items will help to preserve the Hawaiian language and culture.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 579, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 657      Ways and Means on S.B. No. 747**

The purpose of this measure is to implement several recommendations of the educational workforce working group regarding workforce development issues.

Specifically, this measure:

- (1) Establishes and appropriates funds for a comprehensive database for tracking students from grades kindergarten to twelve and beyond as they move into the workforce;
- (2) Establishes and appropriates funds for a community-business exchange coordinator position in the Department of Education but housed by contract within a nonprofit organization;
- (3) Extends the Educational Workforce Working Group for two more years; and
- (4) Appropriates funds for other workforce initiatives.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure increases cooperation among different executive branch departments in strengthening the connection between educational reform and a skilled workforce.

Your Committee has amended this measure by changing the effective date to July 1, 2090, to facilitate continued discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 747, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 747, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 658      Ways and Means on S.B. No. 423**

The purpose of this measure is to appropriate state funds to match the federal Medicaid disproportionate share hospital allowance.

Your Committee received four written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that this measure would provide the matching appropriation, enabling Hawaii to receive disproportionate share hospital funding from the federal government in the amount of \$12,500,000. Since 1993, as part of the agreement when Med-Quest was established, Hawaii did not qualify for disproportionate share hospital funding. Your Committee believes that by appropriating \$10,181,909 as the State's matching share, the State will enable health care providers to continue offering quality services to Hawaii's disadvantaged populations.

Your Committee has amended the measure by:

- (1) Changing the effective date to July 1, 2050 to facilitate further discussion; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 423, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 423, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 659 Ways and Means on S.B. No. 415**

The purpose of this measure is to require the licensure of home care agencies.

Specifically, this measure:

- (1) Requires home care agencies to be licensed by the Department of Health beginning July 1, 2010, and requires the Department of Health to adopt rules for licensure;
- (2) Defines "home care agency" and "home care services"; and
- (3) Exempts service provider agencies under contract with the City and County of Honolulu Elderly Affairs Division from the licensing requirement.

Your Committee received four written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that home care agencies provide valuable home care services, such as personal care, homemaker assistance, and respite care, to an increasing segment of Hawaii's residents. Your Committee believes that the rising demand for home care services makes it necessary to license agencies that provide these services to ensure that minimum standards of quality, safety, and responsibility are met. Accordingly, your Committee finds that requiring the licensure of home care agencies in the State will help ensure the health, safety, and welfare of consumers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 415, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 415, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 660 Ways and Means on S.B. No. 1160**

The purpose of this measure is to authorize the Hawaii Public Housing Authority to assess all the units in a state public housing project at least one per cent of common area expenses.

Your Committee finds that assessing common area expenses will encourage residents to take responsibility over the common area elements. The assessment will also assist the Hawaii Public Housing Authority to make necessary repairs, perform maintenance, and undertake safety measures. Your Committee believes that the assessment will allow the Authority to direct funds earmarked for common area expenses to housing project developments and programs.

Your Committee has amended the effective date of the measure to January 1, 2110 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1160, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1160, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 661 Ways and Means on S.B. No. 1060**

The purpose of this measure is to increase the permit and license fees associated with using and importing fireworks.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that fireworks permit and import license fees have not increased in the last nine years. Meanwhile, the cost of services provided by police, fire, and emergency personnel that respond to fireworks related incidences continues to increase. In addition, the counties bear the cost and responsibility of cleaning streets and parks that are littered with fireworks and debris. Your Committee also finds that the administrative costs have increased due to the rising number of fireworks display permits and the need to properly account for pyrotechnic inventory items. Your Committee believes that an increase in fireworks related fees will help cover the costs associated with protecting the public's safety and administering fireworks laws.

Your Committee has amended the measure to make a technical nonsubstantive correction.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1060, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1060, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 662 Ways and Means on S.B. No. 186**

The purpose of this measure is to increase the monthly board rate paid by the Department of Human Services for foster care services.

The term "board rate" refers to the compensation paid by the State to foster care parents to pay for certain expenses of foster care children.

Your Committee finds that the monthly board rate for foster care services has not been raised since 1990. Failure to increase the rate has made it difficult for foster families to provide food, housing, utilities, clothing, and other necessary items for their foster children.

Your Committee amended this bill by changing the effective date to July 1, 2090, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 186, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 186, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 663 Ways and Means on S.B. No. 774**

The purpose of this measure is to improve before- and after-school care for school-aged children in the State.

More specifically, this measure appropriates temporary assistance for needy families program funds for non-school hour programs and allocates funds for the implementation of a Safe Haven demonstration program in the county of Hawaii.

Your Committee received two written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that non-school hour programs provide school-aged children with positive opportunities and experiences. Your Committee further finds that involvement in these programs deters problems of juvenile crime, drug use, and experimentation with tobacco, alcohol, and sexual activity.

Your Committee amended this measure by:

- (1) Changing the effective date of the appropriations to July 1, 2090, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 774, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 774, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 664 Ways and Means on S.B. No. 1674**

The purpose of this measure is to increase the amount of a previously authorized revenue bond issuance to the University of Hawaii.

This measure also extends the use of the proceeds from the previously authorized bond issuance to 2013. The additional \$50,000,000 in revenue bonds issued by the measure are subject to use through June 30, 2015.

Your Committee received one comment on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that the University of Hawaii needs more time to encumber the bonds that were previously authorized for issuance under Act 161, Session Laws of Hawaii. The increased bond issuance under this measure is necessary for the university to more quickly address its growing facility needs and address major repair and maintenance demands.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2090, for the purposes of continued discussion of the matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1674, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1674, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 665      Ways and Means on S.B. No. 862**

The purpose of this measure is to enhance the ability of the Hawaii Housing and Finance and Development Corporation to protect its lien rights on foreclosed property.

Specifically, this measure facilitates the Corporation's collection of shared appreciation equity liens, deferred sales price liens, and excess proceeds in lieu of a buyback provision. The measure also requires adequate notice to the Corporation to allow it to prepare and act at foreclosure proceedings.

The Committee received two comments on this measure.

Copies of written comments submitted to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the sale of affordable housing properties sponsored or assisted by the Hawaii Housing Finance and Development Corporation is subject to a buyback restriction and a shared appreciation equity lien. The Corporation also provides deferred sales price liens to assist low- or moderate-income homebuyers in purchasing a first home. Upon the sale or transfer of a Corporation-assisted home, the shared appreciation equity is deposited into the dwelling unit revolving fund, which can be used to support the development of additional affordable housing projects. Your Committee also finds that this measure will not only protect the Corporation's lien rights in the event of foreclosure, but also enable recovery of funds to support the purpose of the Corporation.

Your Committee has made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 862, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 862, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 666      Ways and Means on S.B. No. 638**

The purpose of this measure is to establish a temporary moratorium on evictions of Kahana Valley residents and establish a planning council to draft a master plan.

More specifically, this measure:

- (1) Establishes a two year moratorium on evictions of persons who at the time of the enactment of this measure have:
  - (A) Participated in the interpretive programs for Kahana Valley State Park; and
  - (B) Either continuously lived in the valley since before 1987, or hold, or have held, a long-term lease or permit to reside there; and
- (2) Establishes a planning council in the Department of Land Natural Resources, for administrative purposes, to develop a living park master plan for Kahana Valley State Park.

Your Committee received one written comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the establishment of a planning council, comprised of three of seven members who are residents of Kahana Valley, further the State's intent to make the Kahana Valley State Park a living interpretive state park that demonstrates a modern living native Hawaiian community. Further, your Committee believes that the development of a living park master plan would be hampered with the continuation of the eviction of valley residents claiming a right to live in Kahana Valley.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to allow for further discussion of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 638, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 638, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 667      (Majority) Ways and Means on S.B. No. 1678**

The purpose of this measure is to allow Hawaii to participate in the Streamlined Sales and Use Tax Agreement.

Specifically, this measure:

- (1) Moves the one-half of one per cent tax rate for wholesale transactions to a new chapter;
- (2) Adds a new chapter on the taxation of imports of property, services, and contracting;
- (3) Moves the 0.15 per cent tax on insurance producers to a new chapter; and
- (4) Eliminates the tax on businesses owned by disabled persons.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that Act 173, Session Laws of Hawaii 2003, the Hawaii Simplified Sales and Use Tax Administration Act allowed the State to become a participating member of the National Streamlined Sales Tax Project. The Project was intended to prepare member states to participate in the Streamlined Sales and Use Tax Agreement. Participation in the Agreement would allow the State to level the playing field with respect to assisting local businesses to better compete with mail order and internet sellers who may not necessarily be paying their fair share of state taxes. Participation in the Agreement would also assist the State in the collection of additional revenue to address a projected budgetary shortfall and reduced projected tax collections.

Your Committee finds that as a final step to the State's participation in the Agreement, this Act provides the necessary legislation to conform certain state tax laws to the requirements of the Streamlined Sales and Use Tax Agreement.

Your Committee has amended the measure by:

- (1) Correcting drafting errors with respect to the text of the Hawaii Revised Statutes; and
- (2) Making technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1678, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1678, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (Hee, Tsutsui).

**SCRep. 668      Ways and Means on S.B. No. 294**

The purpose of this measure is to clarify that the Department of Business, Economic Development, and Tourism may make recommendations to the state departments rather than to agencies.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 294, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 294, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Tsutsui).

**SCRep. 669      Ways and Means on S.B. No. 287**

The purpose of this measure is to establish a geothermal energy pilot program in a specified county to develop and expand the energy infrastructure needed to maximize the production of electricity from geothermal energy sources.

This measure also:

- (1) Establishes a geothermal energy pilot program tax credit to taxpayers for some of the costs of a geothermal energy infrastructure project;
- (2) Authorizes the Public Utilities Commission to direct public utilities in the pilot program county to acquire electricity from the geothermal energy producers and supply it to the public at maximum capacity; and
- (3) Requires the Public Utilities Commission to develop reasonable guidelines and timetables for creating and implementing power purchase agreements.

Your Committee received two written comments on the measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the pilot program established in this measure will yield valuable insights and strategies to use in reducing the State's reliance on imported fossil fuels and increase the State's level of energy self-sustainability.

Your Committee has amended this measure as follows:

- (1) Deleting the tax credit for the geothermal energy pilot program;
- (2) Changing the effective date to July 1, 2090, for the purposes of continued discussion of the matter; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 287, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Ayes with Reservations, 3 (Chun Oakland, English, Galuteria). Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 670 Ways and Means on S.B. No. 271**

The purpose of this measure is to allow the Hawaii Tourism Authority to respond to national or global economic crises that adversely affect the tourism industry.

More specifically, this measure includes a national or global economic crisis as a situation that may be declared a tourism emergency. The measure also requires the governor's express approval before action can be taken by the Hawaii Tourism Authority.

Your Committee received sixteen written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that tourism-related industries are an important part of the State's economy that has been severely affected by the airline crisis early last year and the subsequent economic decline across the country. Your Committee further finds that including national or global economic crises as a situation that may be declared a tourism emergency will allow the Tourism Emergency Trust Fund to be used for that purpose. Your Committee also finds that allowing access to these moneys during an economic emergency is an appropriate use of the fund, as it enables the Hawaii Tourism Authority to assist tourism-related industries to promote Hawaii as a travel destination. With other resort destinations pouring millions of dollars into their marketing campaigns, it is important that this State maintain a presence in the global tourism market.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (2) Making a technical, clarifying amendment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 271, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 271, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 671 (Majority) Ways and Means on S.B. No. 44**

The purpose of this measure is to assist the financial operations of the Hawaii Health Systems Corporation.

Specifically, this measure:

- (1) Transfers back to the Department of Health the amount of the liabilities that the community hospitals had accrued while operating within the Division of Community Hospitals of the Department of Health prior to the establishment of the Hawaii Health Systems Corporation on July 1, 1996;
- (2) Requires the Hawaii Health Systems Corporation to assume all liabilities or debts or other obligations accrued by the community hospitals beginning on July 1, 1996, and thereafter; and
- (3) Clarifies the Hawaii Health Systems Corporation's responsibility for making payments into the Employees' Retirement System funds for its employees.

Your Committee received one comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee supports the remedial steps provided under this measure to ensure the financial integrity of the State's community hospitals and their ability to provide essential healthcare services to Hawaii's residents.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 44, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 44, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Hemmings). Excused, 5 (Galuteria, Hee, Kidani, Kokubun, Tsutsui).

**SCRep. 672 Ways and Means on S.B. No. 201**

The purpose of this measure is to appropriate funds to the Hawaii County Economic Opportunity Council to purchase ten buses to transport the elderly, the disabled, and pre-school children to and from public and private service facilities.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that according to United States Census Bureau statistics, Hawaii county represents more than sixty per cent of the entire land area of the State. Because of the county's large geographic size, adequate and reliable transportation is vital to the county's residents, especially the elderly, disabled, and children

Your Committee also finds that twenty-four off-highway communities in Hawaii county exist along a two hundred sixty-mile area where no transportation service is provided except for the Hawaii County Economic Opportunity Council. Many of the Council's buses are over ten years old and require constant maintenance to keep them operational. Your Committee believes that new buses will provide safer, more efficient and reliable transportation for the Council's clients.

Your Committee has amended the measure by:

- (1) Stipulating that the appropriation not be expended if federal funding under the American Recovery and Reinvestment Act of 2009 can be used in lieu of the appropriation in this measure;
- (2) Changing the effective date to July 1, 2009, to encourage further discussion on this matter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 201, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 201, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 673 (Majority) Ways and Means on S.B. No. 63**

The purpose of this measure is to require an employer to pay temporary total disability benefits to an injured employee regardless of whether the employer denies the employee's claim.

Furthermore, this measure penalizes an employer who delays payment by increasing the amount of temporary total disability benefits that are payable to the employee. This measure also authorizes the Director of Labor and Industrial Relations to issue a credit to an employer for any overpayment of benefits.

Seven written comments were submitted to your Committee. The written comments may be reviewed on the Legislature's website.

Your Committee believes that this measure will discourage employers from routinely denying claims pending an investigation and instead encourage employers to ensure that workers return to work only when they are able.

Your Committee has amended this measure by changing the effective date to July 1, 2090, and July 1, 2100, respectively, for the purposes of continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 63, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 63, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, 2 (Kidani, Hemmings). Excused, 1 (Kokubun).

**SCRep. 674 Ways and Means on S.B. No. 86**

The purpose of this measure is to establish the Makua Valley Reserve Commission to oversee the preservation and restoration activities in Makua Valley on the island of Oahu.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the intent of the measure is to involve stakeholders in the Makua Valley preservation and restoration efforts, and provide the community with an ability to advocate through the Makua Valley Reserve Commission. Your Committee believes that Makua Valley is rich in cultural resources and that the creation of this commission provides a sensitive approach to appropriately managing the valley and its fragile resources.

Your Committee has amended the measure by:

- (1) Changing the effective date to January 1, 2020, to facilitate further discussion on this issue; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 86, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 675 Ways and Means on S.B. No. 91**

The purpose of this measure is to authorize the Hawaii community-based economic development revolving fund to receive funding from any source.

This measure also reduces the maximum outstanding balance amount and interest rates for loans received from \$500,000 to \$250,000 and amends the definition of "community of interest" to allow for broader representation of persons who share a common economic interest, but do not necessarily live in the same geographic region.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will allow community-based organizations in the State to keep pace with the changing economy to meet the challenges of the most distressed communities, by authorizing the Hawaii community-based economic development revolving fund to receive moneys from sources other than the general fund.

Your Committee has amended this measure by:

- (1) Adding a new section 5 to the measure to make a conforming amendment to section 210D-9, Hawaii Revised Statutes, to reflect the change in maximum loan amount, and by appropriately renumbering the remaining sections of the measure;
- (2) Changing the maximum amount of a loan and outstanding loan balance to unspecified amounts;
- (3) Changing the effective date of the measure to July 1, 2050, to facilitate further discussion; and
- (4) Making technical nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 91, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 676 (Majority) Ways and Means on S.B. No. 436**

The purpose of this measure is to provide a tax incentive for life sciences companies to conduct clinical trials in Hawaii.

Your Committee received one written comment on this measure. Copies of written comment submitted are available for review on the Legislature's website.

Your Committee finds that life sciences companies that conduct clinical trials in Hawaii often create more and higher paying jobs in the State. In addition, the conduct of clinical trials contributes to the diversification and sustainability of the State economy. Your Committee believes that conducting these trials in Hawaii will put the State on the cutting edge of drug development and attract research funding from Asia and North America.

Your Committee has amended this measure by:

- (1) Changing the dollar amounts for the tax credit cap and qualified clinical trial costs to unspecified amounts;
- (2) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 436, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 436, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Hemmings). Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 677 (Majority) Ways and Means on S.B. No. 642**

The purpose of this measure is to provide fairness in health and retirement benefits for excluded employees in the excluded managerial compensation plan.

Specifically, this measure requires adjustments for excluded employees in the excluded managerial compensation plan to be at least equal to across-the-board wage increases or reductions and changes in health and retirement benefits provided under collective bargaining agreements to employees in the bargaining unit from which the employees are excluded. This measure also requires similar adjustments for excluded civil service employees under the same classification systems as employees within collective bargaining units.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee believes that this measure is necessary to ensure fairness for the public employees excluded from bargaining units.

Your Committee has amended the measure by making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 642, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 642, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Kokubun).

**SCRep. 678 Ways and Means on S.B. No. 876**

The purpose of this measure is to clarify various provisions relating to the Employees' Retirement System.

Specifically, this measure clarifies the retirement date for ordinary disability retirement, payment of attorney's fees and costs in disability retirement and accidental death benefit cases, the forfeiture date for noncontributory service credit, and calculation benefits for certain reemployed retirees.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the clarifications made in this measure will help to streamline the administration of the Employees' Retirement System to provide more accurate and efficient service to Employees' Retirement System members.

Your Committee has amended the measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 876, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 876, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 679      Ways and Means on S.B. No. 914**

The purpose of this measure is to conform Hawaii public assistance law to the federal code of regulations regarding the Temporary Assistance for Needy Families program.

Specifically, this housekeeping measure adds the definitions of "non-work eligible household," "other work eligible household," and "work eligible household," repeals the definition of "exempt household" and makes conforming amendments to the new terms with the repealed term, as appropriate.

Your Committee received one comment on this measure. The written comment is available for review on the Legislature's website.

Your Committee finds that this housekeeping measure is necessary to bring the Hawaii's public assistance law into conformance with federal regulations relating to the Temporary Assistance for Needy Families program.

Your Committee has amended the measure by making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 914, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 680      Ways and Means on S.B. No. 1248**

The purpose of this measure is to authorize agricultural producers and manufacturers to renew their eligibility in the enterprise zone program for an additional seven years.

This measure also allows receipts, sales, and employees of a business establishment that are located within the same county to count toward qualification in the enterprise zone program. Furthermore, this measure adds a new definition of "qualified business activity" to include manufacture of tangible personal property, production of agricultural products, research, development, sale, or production of genetically-engineered products, and production of electric power from wind energy.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee believes that this measure will enable the agricultural industry to attract investment and help to revitalize distressed communities in agricultural areas of the State.

Your Committee has amended this measure by:

- (1) Inserting the inadvertently omitted phrase "enterprise zone located with the same county" in section 209E-9(b)(3) for consistency with other amendments made in the measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1248, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1248, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Ayes with Reservations, 1 (English). Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 681      (Majority) Ways and Means on S.B. No. 1278**

The purpose of this measure is to clarify the law regarding the establishment and maintenance of the two-tier junior kindergarten and kindergarten program.

More specifically, the purpose of this measure is to:

- (1) Prohibit the movement of junior kindergarten and kindergarten students between tiers, except under certain circumstances;
- (2) Prohibit a junior kindergartener from directly graduating to the first grade, except under certain circumstances;
- (3) Ensure that the curriculum established for the junior kindergarten and kindergarten students is appropriate for students in each tier;

- (4) Require the Department of Education to staff junior kindergartens with qualified teachers with early childhood education backgrounds and experience and teacher aides;
- (5) Require the incorporation of the Hawaii preschool content standards for four-year-olds and content and performance standards for kindergarten students;
- (6) Appropriate funds for the implementation of a junior kindergarten program that achieves a student to teacher ratio of ten-to-one and not greater than fifteen-to-one;
- (7) Appropriate funds for teacher professional development; and
- (8) Appropriate funds for a permanent educational specialist to focus on early childhood education issues.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the two-tier junior kindergarten and kindergarten program was established with the requirement that a developmentally appropriate curriculum be implemented for each tier to address the differing skills and needs of four- and five-year-olds. Further, your Committee finds that the two-tier program has not been clearly established for the junior kindergarten tier. Your Committee also finds that it is important to provide junior kindergarten students with a curriculum that specifically addresses their needs, including qualified teachers with early childhood education background and experience.

Your Committee amended this measure by:

- (1) Deleting the appropriation for and references to the implementation of a junior kindergarten program that endeavors to achieve a certain student to teacher ratio;
- (2) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1278, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1278, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Kokubun).

**SCRep. 682            Ways and Means on S.B. No. 1329**

The purpose of this measure is to clarify provisions of the early learning system.

More specifically, this measure:

- (1) Allows members of the Early Learning Council who are appointed by the Governor to appoint designees to the council;
- (2) Changes the name of the Keiki First Steps Trust Fund to the Early Learning Trust Fund; and
- (3) Clarifies that any unexpended funds in the Early Learning Trust Fund at the end of each fiscal year shall not lapse to the credit of the general fund, but will remain in the trust fund.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to provide the Early Learning Council with flexibility and funds to carry out its mission. Your Committee believes this measure helps Hawaii's youngest residents have access to quality early education, which will have a positive impact on the future success of our children and produce beneficial dividends for all of the State.

Your Committee amended this measure by making technical, nonsubstantive amendments and by changing the effective date to July 1, 2070, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1329, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1329, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 683            (Majority) Ways and Means on S.B. No. 1669**

The purpose of this measure is to authorize the issuance of general obligation bonds to fund and reduce the backlog of Department of Education repair and maintenance projects.

This measure also temporarily exempts the Department of Education from the procurement and competitive bidding provisions of chapters 103 and 103D, Hawaii Revised Statutes, in order to expedite the repair and maintenance capital improvement projects.

Your Committee finds that the growing backlog of Department of Education's repair and maintenance projects has a detrimental effect on student learning. School facilities in disrepair diminish school pride and foster a lack of respect for school property by students. Additionally, the failure to repair relatively small projects now, may lead to larger more expensive repairs in the future. The general obligation bonds authorized under this measure will address these problems and provide the necessary funds to repair and maintain the facilities of the Department of Education.

Your Committee has amended this measure by:

- (1) Deleting the provision authorizing the issuance of general obligation bonds and appropriation of funds for fiscal year 2011-2012;
- (2) Clarifying that the Department of Education is required to develop internal policies and procedures for the procurement of goods and services relating to construction projects;
- (3) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (4) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1669, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1669, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, 1 (Hemmings). Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 684      Ways and Means on S.B. No. 863**

The purpose of this measure is to authorize the Hawaii Housing and Finance Development Corporation to modify and amend development agreements with eligible developers.

The measure also authorizes the collection of fees to cover administrative expenses and makes housekeeping amendments to delete incorrect references to "public" housing.

Your Committee finds that the corresponding provision relating to the authority to modify and amend development agreements in chapter 201G, Hawaii Revised Statutes, under the Housing and Community Development Corporation of Hawaii, was not included in chapter 201H, Hawaii Revised Statutes, under the Hawaii Housing Finance and Development Corporation, when chapter 201G was replaced by chapter 201H in 2006. This bill rectifies that omission.

Your Committee further finds that this bill also clarifies the Hawaii Housing and Finance Development Corporation's authority to establish and collect reasonable application or service fees for loans, grants, or other affordable housing financing and development assistance programs, by amending the Corporation's general powers accordingly. Your Committee believes that the service fees will allow the Corporation to recover its administrative costs of running its programs to preserve its financial assets for developing and preserving affordable housing statewide.

Your Committee has amended the measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 863, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 863, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 685      Ways and Means on S.B. No. 553**

The purpose of this measure is to require the use of energy-efficient lighting in state buildings.

More specifically, this measure requires all state agencies, except the Department of Public Safety and other facilities that require non-qualifying light bulbs for public safety reasons, to use compact fluorescent light bulbs, light-emitting diode lighting products, and advanced energy-efficient incandescent light bulbs.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that requiring the use of energy-efficient lighting in state buildings will not only reduce electricity costs for the State, but will also help to achieve the State's objective of reducing foreign oil consumption and supporting a greener Hawaii.

Your Committee has amended this measure by making technical amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 553, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 553, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 686      Ways and Means on S.B. No. 559**

The purpose of this measure is to establish the Hawaii Recycling Program to encourage recycling in all state buildings and facilities that are subject to the jurisdiction of the Department of Accounting and General Services.

Specifically, this measure:

- (1) Directs the Department of Accounting and General Services, by January 1, 2011, to establish, at all state buildings and facilities, a mandatory recycling program that includes paper products, electronic devices, plastics, furniture, and all other recyclable items;

- (2) Authorizes use of the deposit beverage container deposit special fund moneys to fund the Hawaii Recycling Program;
- (3) Directs the Department of Accounting and General Services to submit a preliminary and final report to the Legislature on the program in 2009 and 2010, respectively; and
- (4) Appropriates \$12,500 from the deposit beverage container deposit special fund for planning and development of the Hawaii recycling program.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that a recycling program for state facilities and buildings would encourage conservation and reduce the amount of solid waste entering the State's landfills. Your Committee believes that Hawaii's environmental concerns need to be addressed by all state residents through increased recycling and conservation and that the State should lead this effort through its example.

Your Committee has amended this measure by:

- (1) Clarifying that section 3 will take effect on June 29, 2009, in order to avoid possible repeal of the amendments made by this measure to section 342G-104(b) on June 30, 2009;
- (2) Changing the amount of the appropriation to an unspecified amount;
- (3) Changing the effective date to January 1, 2050, to facilitate further discussion; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 559, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 559, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 687      Ways and Means on S.B. No. 773**

The purpose of this measure is to appropriate funds for various housing and homeless projects in recognition of the possible federal funding under the American Recovery and Reinvestment Act of 2009.

The measure also expedites the processing and issuance of building permits for affordable housing projects to assist developers contracting for third party review and certification.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the American Recovery and Reinvestment Act of 2009, Pub.L. 111-5, combines tax relief and government spending totaling \$787,000,000,000 to jump start the nation's economy. Hawaii will be eligible to receive a portion of the federal funding through formula grants and competitive applications. Your Committee further finds that the federal funds could supplement the State's continued efforts to assist the homeless, rehabilitate aging public housing stock, and build and maintain affordable housing. Your Committee believes this measure will address critical housing and homeless issues that affect the State and, to the extent possible, permit the use of federal funds to accomplish these goals.

Your Committee has amended the measure by:

- (1) Deleting the provisions Part II and Part III of the measure relating to the rental housing trust fund and the dwelling unit revolving fund;
- (2) Retaining in the law the thirty per cent earmarked for the rental housing trust fund from conveyance tax proceeds;
- (3) Deleting all authorizations for general obligation bonds; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 773, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 773, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 688      Ways and Means on S.B. No. 905**

The purpose of this measure is to transfer the Office of Community Services from the Department of Labor and Industrial Relations to the Department of Human Services.

Your Committee received four comments on the measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the primary functions of the Office of Community Services more readily correspond to the mission, objectives, and responsibilities of the Department of Human Services than to those of the Department of Labor and Industrial Relations. Your Committee believes that this measure will improve the Department of Human Services' coordination and delivery of

services for programs to assist the disadvantaged, poor, refugees, immigrants, and homeless persons. The Department of Human Services will also be able to assist with employment and job-training, child care, and general assistance.

Your Committee has amended this measure by:

- (1) Clarifying that the Office of Community Services will be attached to the Department of Human Services for administrative purposes only;
- (2) Adding standard transition language to accommodate the agency transfer of rights, powers, functions, and duties; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 905, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 905, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 689 (Majority) Ways and Means on S.B. No. 1679**

The purpose of this measure is to appropriate funds from the emergency and budget reserve fund to maintain levels of programs for education, public health, and public welfare.

More specifically, this measure appropriates funds from the emergency and budget reserve fund to the Department of Health, the Department of Human Services, the Department of Education, and the Executive Office on Aging to provide funding for the following:

- (1) Respite services;
- (2) The Healthy Start program;
- (3) Ke Ola Pono, the Chronic Disease Self-Management program, EnhancedFitness, and for the development of the Aging and Disability Resource Center;
- (4) Kupuna care services;
- (5) Catholic Charities, Inc., Kapahulu and Moiliili Senior Centers, and the Waikiki Community Center;
- (6) The Developmental Disabilities Medicaid Waiver Program;
- (7) Mental health services;
- (8) The Partnerships in Community Living program;
- (9) Direct health care to the uninsured, that may include primary medical, dental, and behavioral health care;
- (10) Substance abuse treatment; and
- (11) The Healthy Aging Partnership program.

Your Committee received two hundred written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that difficult economic times and declining tax revenues have resulted in budget cuts for all state services, jeopardizing the safety net of basic human services, health, and education needs for Hawaii's residents and families. Your Committee also finds that expenditures from the emergency and budget reserve fund are necessary to meet the conditions of emergency, economic downturn, and unforeseen reduction in revenues that the State currently faces. Your Committee believes that this measure will provide much needed support in maintaining the levels of programs determined to be essential to education, public health, and welfare, especially for some of Hawaii's most vulnerable population.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated out of the emergency and budget reserve fund to provide funding for grants pursuant to chapter 42F, Hawaii Revised Statutes, from \$682,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1679, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1679, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Kokubun).

**SCRep. 690 Ways and Means on S.B. No. 1666**

The purpose of this measure is to continue supporting social service programs with Temporary Assistance for Needy Families funds while maintaining an adequate reserve of funds for future expenditures.

Your Committee received ten written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds Temporary Assistance for Needy Families funds are a critical part of the safety net for families in Hawaii. Your Committee further finds that in these difficult economic times, it is important to continue supporting essential health, education, employment, and economic assistance to families in need.

Your Committee amended this measure by:

- (1) Adding Public Law references to the new federal stimulus package, the American Recovery and Reinvestment Act of 2009;
- (2) Changing the effective date to July 1, 2010, to encourage further discussion; and
- (3) Making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1666, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1666, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 691      Ways and Means on S.B. No. 1345**

The purpose of this measure is to provide fair compensation and an automatic lease extension to protect a lessee's interest in state land that is withdrawn, taken, or condemned and prevents the lessee from using the land as originally intended.

Your Committee received eight written comments on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the Saddle Road widening project in the county of Hawaii, is a good example of a taking of leased land with inadequate compensation for the lessee. In that project, the Department of Land and Natural Resources established conservation easements on leased land used for pasture or special livestock. As a result of the taking, the lessee ranchers suffered serious financial losses over an extended period of time. The intent of this measure is to prevent similar situations as the Saddle Road project from occurring in the future and to properly compensate affected lessees.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2010, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1345, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1345, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 692      Ways and Means on S.B. No. 1665**

The purpose of this measure is to enhance the training capacity of the State's community colleges so that they can meet the rapidly evolving needs of employers and employees.

More specifically, this measure:

- (1) Establishes a skilled worker and business development center at each community college; and
- (2) Appropriates federal Reed Act funds to the Department of Labor and Industrial Relations, to be expended in conjunction with the University of Hawaii, to establish each skilled worker and business development center.

Your Committee believes that the State's community colleges can play a critical role in the economic recovery and revitalization of the State. Your Committee finds that community colleges are at the forefront of workforce training and are poised to help employees and employers prepare for changes in the workplace.

Your Committee has amended this measure by:

- (1) Clarifying that its focus is "workforce development" rather than merely "workforce training";
- (2) Specifying what programs, at a minimum, shall be offered at each workforce development center;
- (3) Clarifying that the University of Hawaii is authorized to expend other appropriated funds and generated revenues to the extent that federal law limits the expenditure of Reed Act funds for the purpose set forth in this measure;
- (4) Specifying the contents of the first annual report to the Legislature to be submitted by the skilled worker and business development center in 2010, regarding establishment of the center, center development plans, funding options, and recommendation for center programs;
- (5) Changing the amount appropriated to an unspecified amount;
- (6) Changing the date to July 1, 2010, to facilitate further discussion of the matter;

(7) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1665, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1665, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 693 Ways and Means on S.B. No. 1118**

The purpose of this measure is to reduce the period over which state low-income housing tax credits are taken from ten years to five years.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the low-income housing tax credit program promotes the development and rehabilitation of low-income rental housing through the use of federal and state low-income housing tax credits. Currently, there is a shortage of affordable housing in the State.

Your Committee believes that because of the limited market for state credits and the current financial climate, owner developers are having difficulty selling their state low-income housing tax credits. Amending the period over which state low-income housing tax credits are taken from ten years to five years would increase the present value of the credits when sold to investors, provide a more attractive financing incentive to potential developers of affordable rental housing, and help ease the affordable housing shortage.

Your Committee has amended the measure's effective date to January 1, 2110, to facilitate further discussion. In addition, technical nonsubstantive changes were made for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1118, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1118, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 694 Ways and Means on S.B. No. 1126**

The purpose of this measure is to authorize the executive, judicial, and legislative branches to establish a voluntary job-sharing program.

More specifically, this measure authorizes the executive branch, the judicial branch, the legislative reference bureau, the office of the auditor, and the office of the ombudsman to establish voluntary job-sharing programs for their permanent, full-time employees.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that flexible employment opportunities are needed to meet changing social and economic conditions in Hawaii. Your Committee also finds that job-sharing is a feasible, desirable, and cost-effective work arrangement that provides employees with flexibility, decreases worker turnover and absenteeism, increases worker productivity, and improves worker morale. Your Committee believes that this measure will encourage state agencies to examine appropriate uses of job-sharing as a means of improving government operations and retaining qualified employees.

Your Committee has amended this measure by:

- (1) Amending the definition of the term "job-sharing" by removing all instances of the phrase "one-half" and replacing it with an unspecified portion of the total number of monthly work hours required and the salary and benefits received;
- (2) Changing the effective date to January 1, 2090, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1126, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1126, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 695 Ways and Means on S.B. No. 1633**

The purpose of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds, in an amount not to exceed \$20,000,000, for the purpose of assisting EPOD, Inc. with the planning, design, construction, equipping, and operating of a solar panel manufacturing plant and solar farm power plant on the island of Oahu and other islands throughout the State.

Your Committee finds that the development of solar energy technology represents a clean, renewable source of electricity. Your Committee believes that the issuance of special purpose revenue bonds to assist EPOD, Inc. in the development of renewable energy projects on Oahu will support the renewable energy goals of the State.

Your Committee has amended this measure by:

- (1) Changing the amount of special purpose revenue bonds being issued from \$20,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1633, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1633, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Kokubun).

**SCRep. 696            Ways and Means on S.B. No. 1094**

The purpose of this measure is to establish a pilot program to create and fund patient-centered health care homes.

Specifically, this measure:

- (1) Directs the Department of Health to establish the patient-centered health care homes pilot project in fiscal years 2009-2010 and 2010-2011 to provide primary health care funding to federally qualified health centers;
- (2) Establishes a three-tiered fee-for-service system for providing uninsured services and establishes health data reporting requirements appropriate to each level of service;
- (3) Requires the Department of Health to submit to the Legislature an interim report and a final report on the outcome of the pilot projects, and along with a recommendation of whether to continue the project; and
- (4) Appropriates moneys for the pilot program, provided that only moneys received by the State pursuant to the federal American Recovery and Reinvestment Act of 2009 may be expended for purpose of this measure.

Your Committee finds that patient-centered health care homes have been found to provide improved health care outcomes by taking a holistic approach to health care. Instead of providing episodic treatment, these centers focus on comprehensive health care that emphasizes preventative medicine, integration and coordination of patient care, continuous data collection and reporting, and timely access to care that overcomes economic and cultural barriers. Your Committee finds that these centers provide a variety of "enabling" services that include transportation, counseling outreach, health education, and case management, that, when taken as a whole, form a comprehensive approach to patient wellness. Your Committee further finds that federally-qualified community health centers in medically underserved areas or which serve medically underserved populations have adopted an appropriate model for a patient-centered health care home that provides the services described.

Your Committee believes that this approach to providing health care may prove effective in providing quality public health care services to underserved communities in Hawaii. Accordingly, your Committee finds that providing funding to federally qualified community health centers to establish the patient-centered health care homes pilot project may yield positive results in improving the overall health of Hawaii's residents.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1094, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 697            Ways and Means on S.B. No. 972**

The purpose of this measure is to ensure that cash-based businesses operating in Hawaii are paying their proper share of taxes by providing the Department of Taxation with an additional tool to seek compliance from non-compliant businesses.

Specifically, the measure empowers the Department of Taxation to:

- (1) Coordinate with the Department of Commerce and Consumer Affairs on requiring a general excise tax clearance prior to license issuance or renewal for certain regulated industries;
- (2) Coordinate with federal agencies and procurement officers to require general excise tax clearances on federal construction jobs; and
- (3) Coordinate with unions and federal agencies on database and intelligence sharing, along with cooperative auditing of construction work sites for compliance with general excise tax reporting and income tax withholding requirements.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that this measure will identify cash-based industries and businesses in Hawaii that are susceptible to evading the payment of income, general excise, withholding, and employment taxes. Your Committee believes that this will allow the Department of Taxation to focus its audit resources on those industries and recapture tax revenues that previously went uncollected.

Your Committee amended this measure by:

- (1) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 972, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 972, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 698      Ways and Means on S.B. No. 698**

The purpose of this measure is to increase the rental motor vehicle surcharge tax and the tour vehicle surcharge tax by an unspecified amount.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the rental motor vehicle surcharge tax and the tour vehicle surcharge tax need to be increased to accommodate the growing cost of maintaining roads and highways in the State. While your Committee is reluctant to raise these surcharge taxes, your Committee is also cognizant of the current fiscal crisis and believes that these increases are necessary.

Your Committee has amended this measure by changing the effective date to July 1, 2070, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 698, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 699      Ways and Means on S.B. No. 690**

The purpose of this measure is to allow the movement of permanent civil service employees between the state, county, and federal governments under certain conditions.

Your Committee received one written comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the provisions of this measure were previously codified in section 76-36, Hawaii Revised Statutes, but were later repealed. Currently, intergovernmental temporary exchanges and movements are allowed for public service employees. Your Committee believes that this measure is consistent with that policy and will facilitate the movement of civil service employees among government agencies and restore the rights, benefits, and privileges that were previously provided to them.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 690, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 690, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 700      Ways and Means on S.B. No. 512**

The purpose of this measure is to change the ethanol facility tax credit to the biofuel facility tax credit.

Biofuel refers to ethanol or biodiesel produced from renewable, organic feedstock, or waste materials, including fats, oils, grease, and municipal solid waste.

This measure also changes the amount of the biofuel facility tax credit from thirty per cent of the qualified biofuel facility's nameplate capacity to 40 cents per gallon if the nameplate capacity is greater than 500,000 gallons but less than 15,000,000 gallons. This measure further requires that the nameplate capacity be determined by the facility owner and not exceed the amount of production actually recorded during a consecutive seven-day period multiplied by fifty-two.

Your Committee finds that the ethanol facility tax credit has not yet been used and believes that the expansion of the tax credit to biofuels will encourage local companies to utilize this dormant credit to reduce the State's dependence on imported oil and increase the amount of renewable energy in the State.

Your Committee has amended this measure by:

- (1) Adding a requirement that the qualifying biofuel production facility be located within the State and utilize locally grown feedstock for at least seventy-five per cent of its production output; and
- (2) Changing the effective date to July 1, 2090, and the application of the tax credit to taxable years beginning after December 31, 2089, to facilitate further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 512, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 701            Ways and Means on S.B. No. 393**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in the amount of \$40,000,000 to assist One Planet Pacific Energy, LLC.

One Planet Pacific Energy, LLC, proposes to construct a five hundred ton per day gasification facility to convert solid waste into synthetic gas utilizing material solid waste from the construction and demolition solid waste landfill in Nanakuli on Oahu.

Your Committee believes that One Planet's proposed gasification project will bring significant benefits to Hawaii by using materials that are currently taking up valuable landfill space and converting them into a source of renewable energy through its synthetic gas production.

Your Committee has amended this measure by;

- (1) Changing the authorized amount of special purpose revenue bonds to be issued to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 393, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 702            Ways and Means on S.B. No. 391**

The purpose of this measure is to authorize issuance of special purpose revenue bonds for Honolulu Seawater Air Conditioning, LLC, for the design and construction of a seawater air conditioning district cooling project in downtown Honolulu.

Your Committee finds that Honolulu Seawater Air Conditioning, LLC, proposes to build a seawater air conditioning district cooling system on Oahu that uses cold, deep seawater as its primary cooling source. The issuance of special purpose revenue bonds will make the development of the seawater air conditioning system more economically feasible. Your Committee also finds that the project will provide numerous benefits, including:

- (1) Providing customers with reduced and stable cooling costs;
- (2) Using an abundant, infinite, sustainable energy resource - cold, deep seawater - to provide more than ninety per cent of the cooling load;
- (3) Eliminating the need for cooling towers and, as a result, reducing potable water use, toxic chemical use, and the production of sewage;
- (4) Greatly reducing the use of harmful chemicals (refrigerants) used in conventional cooling systems;
- (5) Potentially providing energy savings of seventy per cent, or more, compared to conventional air conditioning systems;
- (6) Having lower operating and maintenance costs than individual building air conditioning systems;
- (7) Eliminating the need for up to 0.63 kilowatts of electricity generation capacity for each ton of cooling capacity;
- (8) Potentially generating millions of dollars in construction project spending and creating construction jobs and a significant number of long-term, well-paid jobs;
- (9) Reducing the export of money from Hawaii's economy for oil and retaining that money in the local economy to support local economic development; and
- (10) Helping the State, City and County of Honolulu, and federal government to meet goals and mandates for energy efficiency and renewable energy use.

Your Committee amended this measure by:

- (1) Changing the authorized amount of special purpose revenue bonds to be issued to an unspecified amount;
- (2) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (3) Making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 391, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 703      Ways and Means on S.B. No. 37**

The purpose of this measure is to provide a general excise tax exemption for the sale of liquid fuels for certain intra-county ferry services.

Specifically, this measure exempts from the general excise tax the value or gross proceeds arising from the sale of liquid fuel consumed in the operation of an intra-county ferry service that serves a county with a population of less than 500,000 and that includes at least three islands inhabited by permanent residents.

Your Committee finds that the recent introduction of inter-island ferries has fostered competition commercially between transportation companies and provided the traveling public with reasonable fares and the ability to spread economic activity across the island chain. Although not as glamorous and publicized as inter-island ferries, intra-county ferries have also served a distinct function in rural communities, such as West Maui and Lanai. Intra-island ferries have provided service for passengers who are faced with limited modes of transportation. This measure provides a modest tax exemption to support intra-island ferries that provide needed transportation services in underserved areas of the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion and by making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 37, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 37, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, 5 (Galuteria, Hee, Kidani, Kokubun, Tsutsui).

**SCRep. 704      Ways and Means on S.B. No. 537**

The purpose of this measure is to establish an Aerospace Advisory Committee to assist the Legislature and state agencies in development of the aerospace industry in the State.

This measure establishes the Aerospace Advisory Committee within the Office of Aerospace Development of the Department of Business, Economic Development, and Tourism for administrative purposes and specifies the committee's membership. The Committee's purpose is to advise and assist in the aerospace development by:

- (1) Tracking state, national, and global trends and priorities in aerospace development;
- (2) Assisting in identifying and promoting opportunities to expand and diversify aerospace development and aerospace-related industries in this State;
- (3) Supporting the Office of Aerospace Development's effort in networking with national and international aerospace agencies, institutions, and organizations to develop public-private partnerships;
- (4) Recommending innovative scientific, educational, and economic strategies and government and education policies; and
- (5) Appointing temporary working groups to assist the office of aerospace development in research and analysis activities.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the establishment of an aerospace advisory committee will help to facilitate the growth and development of the aerospace industry in Hawaii.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion and by making technical nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 537, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 705      Ways and Means on S.B. No. 392**

The purpose of this measure is to extend the authorization to issue special purpose revenue bonds for Honolulu Seawater Air Conditioning, LLC, for the design and construction of a seawater air conditioning/thermal energy storage district cooling systems on Oahu.

Your Committee finds that the seawater air conditioning district cooling system project will serve more than fourteen million square feet of buildings in the downtown Honolulu area. This large project involves many lengthy steps, including obtaining an environmental impact assessment, permitting, system design, system engineering, and customer design, and has led to the need for the extension of the authorization to issue these special purpose revenue bonds. Your Committee further finds that Honolulu Seawater Air Conditioning, LLC, is committed to completing this renewable energy project.

Your Committee amended this measure by changing the effective date to July 1, 2070, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 392, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 706            Ways and Means on S.B. No. 360**

The purpose of this measure is to allow home schooled children to participate in extracurricular activities at the public school that they would otherwise be required to attend.

Your Committee received one written comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that this measure would provide home schooling families the option of allowing their children to participate in sports and other activities offered to students enrolled in public schools. Your Committee believes that this opportunity could be of benefit to both participating home schooled children and the public school programs, as well.

Your Committee amended this bill by:

- (1) Changing the effective date to January 1, 2090 to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 360, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 360, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 707            Ways and Means on S.B. No. 521**

The purpose of this measure is to enable the counties to track real property transactions in the Bureau of Conveyances to more accurately determine real property tax assessments.

Specifically, this measure requires the registrar of the Bureau of Conveyances to provide, on a weekly basis, to the administrator of the Real Property Assessment Division of the City and County of Honolulu, an image and index of all instruments and documents relating to land in all counties that were recorded in the registrar's office during the previous week. The administrator of the Real Property Assessment Division of the City and County of Honolulu is required to provide the relevant images and indexes, free of charge, to the other counties as appropriate.

Your Committee finds that the Bureau of Conveyances has access to information on all real property transactions statewide, and as such, has the ability to provide timely and accurate real property information.

Your Committee further finds that requiring the State to provide up-to-date reports of real property recordations to the counties will enable the counties to provide more accurate and timely real property tax assessments. Your Committee also believes that the weekly reports required by this measure will assist the counties in maintaining accurate records of ownership and encumbrances and in providing prompt public notice of zoning and land use changes.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 521, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 521, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 708            Ways and Means on S.B. No. 623**

The purpose of this measure is to expand the Adjutant General's authority to award tuition assistance to Hawaii National Guard members at the University of Hawaii.

Specifically, this measure removes the restriction that tuition assistance to commissioned officers may only be given to those officers that fall in grades 01 (second lieutenant) through 03 (captain) and prioritizes assistance to undergraduate students.

This measure also appropriates funds to the Department of Defense to provide tuition assistance to National Guard members enrolled in degree programs within the University of Hawaii system.

Your Committee finds that this measure will provide the Hawaii National Guard with a very valuable incentive for recruiting and retaining highly trained soldiers and airmen capable of performing their federal and state missions.

Your Committee has amended this measure by changing the effective date to July 1, 2090, for purposes of continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 623, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 623, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 709            Ways and Means on S.B. No. 1315**

The purpose of this measure is to transfer the Division of Conservation and Resources Enforcement from the Department of Land and Natural Resources to the Department of Public Safety.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that transferring the duties of the Division of Conservation and Resources Enforcement from the Department of Land and Natural Resources to the Department of Public Safety consolidates various law enforcement functions within the Department of Public Safety. Your Committee believes that this consolidation will contribute to economic savings for the State and more effective enforcement of Hawaii's natural resources laws and conservation programs.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1315, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1315, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 710            Ways and Means on S.B. No. 1614**

The purpose of this measure is to allow moneys in the passenger facility charge special fund to be used for paying debt service on bonds issued to finance airport capital improvement projects and for any purpose permitted by the Aviation Safety and Capital Expansion Act of 1990.

Specifically, this measure requires moneys in the passenger facility charge special fund to be used to:

- (1) Make the required payments of the principal of and interest on all revenue bonds issued for the undertaking or loan program, including the payment of all revenue bonds and interest that are payable from the revenue or user taxes; and
- (2) Carry out the covenants authorizing the issuance of the revenue bonds as to the minimum amounts of revenue to be produced by the undertaking or loan program for which the revenue bonds are issued.

Your Committee finds that this measure allows the Department of Transportation to create subaccounts within the passenger facility charge special fund to pay debt service on bonds issued to finance airport capital improvement projects.

Your Committee has amended this measure to change the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1614, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1614, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 711            Ways and Means on S.B. No. 1334**

The purpose of this measure is to establish the Museum for Hawaiian Music and Dance.

Specifically, the measure:

- (1) Authorizes the State Foundation on Culture and the Arts, in coordination with the Department of Accounting and General Services, to contract with a nonprofit entity to develop, operate, and manage the museum;
- (2) Appropriates funds from the State's general revenues to finance the design and environmental assessment of the museum; and
- (3) Authorizes the issuance of general obligation bonds to finance the construction of the museum and ancillary facilities.

Your Committee finds that the music, dance, and art representative of Hawaiian culture and heritage should be preserved for the benefit of the people of Hawaii, as well as the people of the world who visit Hawaii. Your Committee believes that investment in this project will benefit the State for generations to come. Your Committee also recognizes that concerns have been raised that the troubled economic conditions that Hawaii currently faces make this a difficult time to consider large expenditures of general funds.

Your Committee has amended this measure by:

- (1) Removing the authorization to issue general obligation bonds;
- (2) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1334, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1334, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 712 Ways and Means on S.B. No. 1276**

The purpose of this measure is to make various administrative and technical amendments to the Small Business Regulatory Flexibility Act, chapter 201M, Hawaii Revised Statutes.

Specifically, the measure amends the Small Business Regulatory Flexibility Act by:

- (1) Clarifying the role of the Small Business Regulatory Review Board in determining the impact of actions by state and county agencies on small businesses;
- (2) Adding definitions of “county” and “State”;
- (3) Amending the definitions of “affected small businesses” and “agency”;
- (4) Increasing the number of Board members from eleven to thirteen;
- (5) Removing the restriction that the chairperson shall serve a term of not more than one year;
- (6) Codifying the small business bill of rights from Act 230, Session Laws of Hawaii 2008, section 2; and
- (7) Making other non-substantive changes.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature’s website.

Your Committee finds that this measure will clarify the rights of small businesses in Hawaii and will provide guidance on the meaning of various terms that impact the operation of small businesses in Hawaii. In addition, codifying the small business bill of rights will make it more readily accessible.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2090, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1276, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1276, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 713 Ways and Means on S.B. No. 1258**

The purpose of this measure is to facilitate the growth of renewable energy in the State.

Specifically, this measure:

- (1) Clarifies the renewable energy portfolio standards by providing that, beginning in 2015, electrical energy savings shall not count towards renewable energy portfolio standards;
- (2) Revises the requirements of the renewable portfolio standards for electric utilities by increasing the 2020 standard to twenty-five per cent and establishing a forty per cent standard to be met by 2030;
- (3) Revises the requirements of the renewable portfolio standards study in order to reevaluate the renewable energy portfolio standards;
- (4) Authorizes the Public Utilities Commission to eliminate the limit on the percentage of system electricity produced by eligible customer-generators;
- (5) Directs the energy resources coordinator to develop programs and incentive plans for renewable energy resources;
- (6) Amends the definition of a “qualified business” for purposes of state enterprise zones to include an entity engaged in the development or production of specific alternative or renewable energy resources;
- (7) Clarifies the permitting duties of the renewable energy facilitator;
- (8) Allows qualifying biofuel facilities and electricity production facilities to apply to the energy resources coordinator to be designated as a renewable energy facility;
- (9) Allows renewable energy facility permits to be deemed approved if a permitting agency does not act on the applicable permit; and
- (10) Appropriates \$1,000,000 out of the renewable energy facility siting special fund in each of fiscal years 2009-2010 and 2010-2011 for the purposes of the renewable energy facility siting special fund.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that developing renewable energy resources for the generation of electricity will help to reduce Hawaii's dependence on imported fossil fuel sources. Your Committee further finds that this measure combines a variety of strategies to encourage renewable energy development and facilitate the transition from fossil fuels to alternative energies. Your Committee believes that this measure is a first step toward enabling Hawaii to achieve the goal of using renewable energy resources to meet seventy per cent of its energy demand by 2030.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1258, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 714      Ways and Means on S.B. No. 1680**

The purpose of this measure is to establish the Hawaii Broadband Commissioner to implement recommendations of the Hawaii Broadband Task Force.

Specifically, this measure:

- (1) Establishes the Hawaii Broadband Commissioner within the Department of Commerce and Consumer Affairs;
- (2) Transfers regulatory functions relating to telecommunications providers and telecommunications services from the Public Utilities Commission to the Hawaii Broadband Commissioner;
- (3) Transfers regulatory functions relating to cable operators from the Department of Commerce and Consumer Affairs to the Hawaii Broadband Commissioner;
- (4) Requires a cable operator to designate five or more channels for public, educational, or governmental use;
- (5) Authorizes the Hawaii Broadband Commissioner to adopt rules relating to the designation of public, educational, or governmental (PEG) access organizations;
- (6) Clarifies the status of ownership of PEG access organization assets;
- (7) Establishes the commissioner special fund to be administered by the Hawaii Broadband Commissioner, to fund the operations and programs of the Hawaii Broadband Commissioner;
- (8) Requires the transfer of four existing positions from the Cable Television Division of the Department of Commerce and Consumer Affairs and ten positions from the Department of Commerce and Consumer Affairs to be transferred to the Hawaii Broadband Commissioner;
- (9) Requires the Hawaii Broadband Commissioner to convene a work group to develop procedures for streamlined regulatory, franchising, and permitting for broadband service and technology and requires the work group to report its findings to the Legislature;
- (10) Requires the Legislative Reference Bureau to review Hawaii laws relating to broadband and related subjects and recommend amendments of these laws to conform to the new Hawaii Broadband Commissioner law or to facilitate implementation of that law; and
- (11) Takes effect on January 1, 2050.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that communications technologies of telecommunications, cable, and broadband have become increasingly intertwined, such that advances in any one technology have important ramifications for the others. Your Committee further finds that a unified approach to regulating providers of these services is required. Your Committee finds that this measure will enable the consolidated regulation of cable and telecommunications while promoting the growth and development of broadband infrastructure throughout the State. Your Committee believes that expanded access to affordable broadband will facilitate greater economic and educational opportunities for individuals and businesses in the State.

Your Committee has amended this measure by:

- (1) Specifying that expenditures of cable franchise fee revenues by PEG access organizations shall not be subject to chapter 103D and revenues derived from cable franchise fees are not appropriations or funds of the State;
- (2) Authorizing the Hawaii Broadband Commissioner to apply for and receive federal moneys under the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, and other applicable federal acts, for the purposes of developing broadband projects;

- (3) Designating the Hawaii Broadband Commissioner as the entity responsible for preparing broadband inventory maps as described in the American Recovery and Reinvestment Act of 2009 and the Broadband Data Improvement Act;
- (4) Appropriating an unspecified amount from the federal funds subaccount of the commissioner special fund to be used for broadband projects; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1680, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1680, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 715            Ways and Means on S.B. No. 540**

The purpose of this measure is to establish a residential drug abuse program for the treatment and reintegration of nonviolent inmates based upon the community transitional phase of the Bureau of Prisons residential drug abuse program.

This measure would also:

- (1) Increase the number of transition beds in module nineteen at the Oahu Community Correctional Center; and
- (2) Provide for a reduction of an inmate's minimum term upon successful completion of the residential drug abuse program.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the establishment of a community transitional program for nonviolent offenders will reduce the cost of incarceration. Your Committee believes that participation in an in-facility residential drug abuse program will decrease the likelihood of recidivism and drug abuse relapses.

Your Committee has amended this measure by:

- (1) Deleting provisions that would increase the number of transition beds at module nineteen at the Oahu community correctional center; and
- (2) Making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 540, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 540, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 716            Ways and Means on S.B. No. 1107**

The purpose of this measure is to merge the Condominium Management Education Fund and the Condominium Education Trust Fund.

Your Committee finds that the Condominium Management Education Fund and the Condominium Education Trust Fund require the Real Estate Commission to administer two separate education funds causing a duplication of effort and a waste of time, money, and resources. This measure resolves the inadvertent retention of both funds by repealing the Condominium Management Education Fund and retaining the Condominium Education Trust Fund.

Your Committee has amended the measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1107, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1107, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 717            Ways and Means on S.B. No. 1226**

The purpose of this measure is to change the percentage of the transient accommodations tax that is deposited into the tourism special fund.

More specifically, this measure changes the percentage of the transient accommodations tax that is deposited into the tourism special fund from 34.2 per cent to an unspecified percentage.

Your Committee received fifteen written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that, in these difficult economic times, many concerns have been raised regarding the availability of funds to support the visitor industry. In light of these concerns, your Committee has amended this measure by changing the effective date to July 1, 2090, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1226, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1226, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Tsutsui).

**SCRep. 718 Ways and Means on S.B. No. 877**

The purpose of this measure is to protect the State's underground utility infrastructure by repealing the sunset date of the One Call Center pilot program.

Your Committee received five written comments on the measure. Written comments are available for review on the Legislature's website.

Your Committee finds that the One Call Center program provides advanced warning to excavators of the location of underground utility lines before they begin excavation. This mandatory "Call Before You Dig" program provides excavators with a single telephone number to locate and mark underground lines, including but not limited to electricity, gas, telecommunications, cable, water, and sewer facilities. Your Committee believes that repealing the sunset date will allow the program to reduce or eliminate interruptions in the provision of underground utility service in the State.

Your Committee has amended this measure by changing the effective date to June 29, 2009, to ensure that the measure becomes effective before the One Call Center program is repealed on June 30, 2009.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 877, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 877, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 719 Ways and Means on S.B. No. 1310**

The purpose of this measure is to establish a region-specific federal, medical home health care demonstration project for the Waimanalo and Waianae areas on the island of Oahu.

More specifically, this measure will provide culturally-sensitive and community-based services, including integrated behavioral services, which are vital to the populations they serve. The Waianae Coast Comprehensive Health Center portion is funded solely by funds deposited into the general fund pursuant to the American Recovery and Reinvestment Act of 2009.

Your Committee received four written comments on the measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that this federal demonstration project will allow patients in Waimanalo and Waianae, two areas on the island of Oahu with underserved populations, to receive culturally-sensitive, community-based, and patient-centered services through the medical home health care project. Your Committee believes that the demonstration project is both an effective way to use federal funds for services provided through alternative providers and a safety net for the State's most vulnerable populations, such as the elderly, blind, and disabled.

Your Committee has amended the measure by changing the effective date to July 1, 2049, to facilitate further discussion and by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1310, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1310, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 720 Ways and Means on S.B. No. 1611**

The purpose of this measure is to provide revenue for highway modernization projects.

Specifically, the measure:

- (1) Increases the state liquid fuel tax, state vehicle registration fee, state vehicle weight fee, and rental motor vehicle surcharge tax;
- (2) Creates the land transportation modernization special fund;
- (3) Provides funding for a six-year comprehensive modernization program;
- (4) Authorizes the implementation of one or more pilot programs to test alternatives to current state and county system of motor vehicle fuel taxes; and
- (5) Requires the Department of Transportation to implement the vehicle miles traveled pilot program.

Your Committee received eight written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will allow the Department of Transportation to fulfill its critical infrastructure responsibilities by providing it with the necessary resources to meet its increasingly challenging program needs.

Your Committee has amended this measure by:

- (1) Changing all amounts of increases in fees and taxes and all appropriation amounts to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1611, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1611, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 721            Ways and Means on S.B. No. 1218**

The purpose of this measure is to repeal the present licensing law on mortgage brokers and solicitors and replace it with a licensing law on mortgage brokers and loan originators.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure is based upon a model Act prepared by the Conference of State Bank Supervisors and The American Association of Residential Mortgage Regulators. Your Committee finds that unless this model Act is enacted, the State's right to regulate the mortgage industry may be forfeited to the federal government pursuant to the federal Secure and Fair Enforcement for Mortgage Licensing Act of 2008. Your Committee believes that it is in the State's best interests to maintain its rights to regulate the mortgage industry.

Your Committee has amended this measure by making technical amendments for the purposes of clarity and style and by changing the effective date to July 1, 2090 to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1218, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1218, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Hemmings).

**SCRep. 722            Ways and Means on S.B. No. 160**

The purpose of this measure is to provide the Department of Education with the flexibility to adjust school meal prices to account for rising costs of providing school meals.

Specifically, this measure:

- (1) Authorizes the Department of Education to set school meal prices at a rate of not less than one-half of the cost of preparing the meals, based upon the previous year's costs; and
- (2) Adds a definition of "school meals" to include both breakfast and lunch.

Your Committee finds that the cost of preparing school meals is affected by the rising costs of fuel, food, and labor. Your Committee further finds that as these costs rise, the Department of Education will require the flexibility to adjust the prices of school lunches accordingly. Your Committee believes that this measure will afford the department the flexibility to compensate for rising costs and avoid the possibility of having to divert funds from other educational programs to pay for school meals.

Upon further consideration, your Committee has amended this measure to clarify its intent.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 160, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 160, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 723            Ways and Means on S.B. No. 1137**

The purpose of this measure is to authorize the Hawaii Health Systems Corporation to conduct criminal history record checks through the Hawaii Criminal Justice Data Center and the Federal Bureau of Investigation on all persons employed or seeking employment with the corporation, current and prospective contactors, volunteers, and providers.

Your Committee received one written comment on the measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that due to a shortage of health care workers, the Hawaii Health Systems Corporation has recruited more out-of-state candidates for public health positions and services. Currently, only in-state criminal record checks are being conducted. Your

Committee believes that this measure will enable both in-state and out-of-state criminal record checks to be conducted in an efficient and effective manner for the protection and safety of individuals treated and cared for within the Corporation's facilities.

Your Committee has amended the measure by changing the effective date to January 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1137, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1137, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 724 (Majority) Commerce and Consumer Protection on S.B. No. 1344**

The purpose of this measure is to require the Department of Human Services to include in its request for proposals for QUEST providers various provisions to safeguard against disruption of services that may be caused by positive enrollment.

Testimony in support of this measure was submitted by AlohaCare, Hawaii Primary Care Association, Waikiki Health Center, and Waimanalo Health Center. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Department of Human Services' positive enrollment policy requires a QUEST recipient to reenroll in the recipient's health plan within ten days of its expiration, or the Department automatically assigns the individual to a health plan, which may or may not be the recipient's existing plan.

Your Committee has heard that these positive enrollment requirements cause confusion and delays in needed health care procedures, disrupt case management, and result in the loss of contact between QUEST recipients and their current primary care providers. Advocates of the policy, however, cite positive enrollment as a means of increasing competition among service providers, lowering the cost of healthcare overall, allowing for new plans to enter into the market, and expanding the scope of services provided to QUEST recipients.

Your Committee finds that this measure strikes a balance between the benefits of positive enrollment and the potential adverse consequences of the policy by allowing the Department of Human Services to implement the policy with limitations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Hemmings). Excused, 1 (Green).

**SCRep. 725 Health on S.B. No. 243**

The purpose of this measure is to encourage the recycling of bottles and cans by requiring retailers of a certain size to take back the bottles and cans that they sell.

Specifically, this measure requires retail dealers with more than seventy-five thousand square feet of retail space to operate redemption centers.

Your Committee received testimony in support of this measure from the Sierra Club, Hawaii Chapter. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Deposit Beverage Container Program in Hawaii, though it has been very successful, could be improved by making it more convenient for consumers to recycle their bottles and cans. Your Committee further finds that several states, including California, New York, Oregon, Massachusetts, Connecticut, Michigan, Iowa, and Delaware all have similar "take back" requirements in their bottle laws.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 243 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 726 (Majority) Judiciary and Government Operations on S.B. No. 56**

The purpose of this measure is to encourage establishments to comply with the smoking prohibition that was established by the Legislature in 2006 by:

- (1) Requiring county liquor commissions, within their respective counties, to condition the granting, renewal, refusal, suspension, or revocation of liquor license upon:
  - (A) A showing of satisfactory proof of compliance with the no smoking signage requirements; and
  - (B) An absence of a verified complaint filed against the licensee for violation of the smoking law.
- (2) Conferring authority upon the liquor commissions to issue summons or citations for violation of the smoking law; and
- (3) Increasing penalties for violations.

Your Committee finds that this measure would enhance the enforcement of the smoking law since bars, nightclubs, restaurants, and other business establishments are common places for smoking. However, your Committee is concerned that the liquor commissions lack sufficient resources for adequate enforcement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 56, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Bunda).

**SCRep. 727      Judiciary and Government Operations on S.B. No. 101**

The purpose of this measure is to allow the county agencies responsible for taxicab regulation to conduct criminal history records checks on taxicab drivers and applicants for taxicab driver's certificates.

Your Committee finds that taxicab drivers interact on a personal basis with each customer. Your Committee is concerned that such interaction may pose a risk to the public if the taxicab driver has a criminal record, such as a conviction for a crime involving physical or sexual assault. This measure addresses the problem by allowing the county agency responsible for taxicab regulation to access the criminal history of taxicab drivers and applicants for taxicabs driver certificates.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 101, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 728      Judiciary and Government Operations on S.B. No. 358**

The purpose of this measure is to prohibit the use of civil defense, emergency, or disaster relief powers during any civil defense emergency period or time of national emergency or crisis to:

- (1) Seize or confiscate firearms or ammunition from a person who has a lawful permit and is lawfully carrying, possessing, or using the firearm or ammunition; or
- (2) Suspend, revoke, or limit any lawfully acquired and maintained firearm permit or license.

This measure would allow a person, that has obtained a valid permit to carry a firearm or ammunition, to use a firearm or ammunition in a lawful manner to protect themselves, their family, and property during an emergency, civil crisis, or natural disaster.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 358, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 729      Judiciary and Government Operations on S.B. No. 931**

The purpose of this measure is to grant the Department of Health authority to demand entry onto any premises, public or private, when the Director of Health finds that reasonable cause exists to secure or collect samples necessary for an epidemiologic investigation, based on a threat to the public health and safety.

Additionally, this measure:

- (1) Defines and limits the scope of such administrative investigations;
- (2) Addresses the liability of authorized representatives of the Department of Health and police officers in conducting the administrative investigations;
- (3) Provides for the obtaining of consent from the affected property owner and procedures for obtaining an administrative investigation warrant if consent is denied; and
- (4) Authorizes the Director of Health to adopt rules to, among other things, establish administrative remedies, notice requirements, and penalties.

The interruption, containment, and prevention of outbreaks of dangerous diseases depend on timely epidemiological investigations that often include the collection of samples to determine the source and track the spread of the disease. One of the most common reasons for the Department of Health to conduct an epidemiologic investigation is the outbreak of food borne disease, such as *E. coli* or salmonella. However, such investigations have been impeded by individuals who fail to cooperate with the Department. This measure remedies the situation by ensuring timely access to samples needed for these investigations to ensure that the public health will not be compromised.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 931, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Bunda).

**SCRep. 730      Judiciary and Government Operations on S.B. No. 1128**

The purpose of this measure is to repeal the sunset date on the prohibition against stealing beer kegs.

Current law establishing a misdemeanor offense for the theft of beer kegs and imposing certain record-keeping requirements on scrap metal dealers includes a provision to repeal the Act creating the law on July 1, 2009. This measure repeals that expiration date to ensure that theft of a beer keg remains a misdemeanor offense and preserves the record-keeping requirement.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1128 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 731      Judiciary and Government Operations on S.B. No. 1311**

The purpose of this measure is to exempt the University of Hawaii from any law that requires a permit or application to carry out repair and maintenance of the Hawaii Marine Laboratory Refuge.

This measure also allows the University of Hawaii to use Department of Land and Natural Resources staff for purposes of enforcing security at the Hawaii Marine Laboratory Refuge.

The Hawaii Institute of Marine Biology manages the Hawaii Marine Laboratory Refuge, located on Coconut Island in Kaneohe Bay. Your Committee finds that the Institute should be exempted from some of the costs associated with permits and applications to do repairs and maintenance to maintain the health of its employees and the safety of the facilities.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1311, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 732      Ways and Means on S.B. No. 970**

The purpose of this measure is to authorize the Department of Public Safety to deposit the funds of committed persons into one or more noninterest bearing accounts with one or more financial institutions.

This measure would also allow the Department to maintain separate noninterest bearing accounts for each committed person, one for approved expenses and purchases during incarceration and one for funds that will be held to assist the person upon release from custody.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that recent litigation suggests that the Department of Public Safety may be required to maintain only one account for each committed person and to pay interest on that account. While thousands of hours are spent maintaining the accounts, committed persons are not charged for this service. The Department lacks the resources -- funds, personnel, and software -- that would be needed to compute and track interest payments. It is your Committee's intent to permit the Department to continue maintaining separate, noninterest bearing accounts for each committed person.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 733      Ways and Means on S.B. No. 1224**

The purpose of this measure is to allow periodic adjustment of airport concession rents to a reasonable and affordable level for each concession.

Specifically, this measure requires the Department of Transportation to periodically review each individual airport concession, beginning July 1, 2009, in order to adjust to a reasonable and affordable level the concession rental amounts due for the remainder of the lease contract, taking into consideration the ability of each individual concession to pay current rents, the concession's profit and loss, and the concession's capital improvement investment. This measure would be repealed on July 1, 2014.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that, as the local, national, and global economic downturn deepens, airport concessions in the State have suffered large losses because business volume has decreased due to fewer visitor arrivals in the State. Your Committee finds that this measure will help to alleviate some of the airport concessions' losses by periodically reviewing and adjusting the rents of each individual concession, taking into consideration specific factors.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1224, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Ayes with Reservations, 1 (Hooser). Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 734 (Majority) Ways and Means on S.B. No. 1346**

The purpose of this measure is to provide a sustained source of funding for public education in the State.

Specifically, this measure:

- (1) Increases the four per cent general excise tax, allocating a portion of the increased revenues for public education;
- (2) Offsets the effects of the general excise tax increase by establishing a general excise tax exemption for purchases of:
  - (A) Food;
  - (B) Medical expenses, including nonprescription medications, prescription eyewear, and physician and dental services; and
  - (C) A portion of rental expenses;
- (3) Exempts from the general excise tax an unspecified amount of the gross proceeds or income from the payment of rent;
- (4) Establishes a tax credit for individuals who volunteer their services at public schools;
- (5) Increases the state income tax standard deduction amounts; and
- (6) Establishes an education funding commission to provide oversight for general excise tax revenues deposited into the education special fund established in this measure.

Your Committee received seven written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee believes that during the current economic recession, this measure offers a long-term alternative to cutting vital funding for public education by providing a dedicated source of funding for public education while simultaneously addressing Hawaii's regressive tax structure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1346, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Ayes with Reservations, 4 (English, Galuteria, Kim, Tokuda). Noes, 2 (Fukunaga, Hemmings). Excused, 2 (Hee, Tsutsui).

**SCRep. 735 (Majority) Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 701**

The purpose of this measure is to place a moratorium for any new landfills or the expansion of any existing private solid waste landfill unit on the Leeward Coast including Nanakuli, Waianae, Maili, Makaha, and Makua on or after August 1, 2009.

Testimony in support of this measure was submitted by two organizations and one public citizen. Three public citizens provided comments. Testimony in opposition was submitted by one state agency, one county agency, seven organizations, and fourteen public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Waimanalo Gulch Landfill, located on the Leeward Coast, is the only existing landfill on Oahu capable of receiving the total daily output of non-reusable municipal solid waste.

Your Committee further finds that prior to the establishment of the municipal solid waste landfill at Waimanalo Gulch eighteen years ago, there were other municipal solid waste landfills that operated on the Leeward Coast. The residents of the Leeward Coast had the burden of all of Oahu's construction and demolition waste, including asbestos, being deposited into a privately-owned landfill that is adjacent to and mauka of Nanakuli town. Additionally, there may be other privately-owned landfills planned or proposed.

Besides the obvious health risks the Leeward Coast residents may suffer as a result of these landfills, they are also impacted by certain other environmental concerns: the H-power plant, the abandoned military ordnance, the disproportionately large number of homeless, and horrendous daily traffic conditions. Every day, approximately four hundred trucks, many in the semi-tractor trailer category, travel to and from privately-owned landfills or other business establishments adding significantly to the traffic. Accordingly, your Committee finds that there would be significant gridlock for Leeward Coast residents if another landfill were opened.

Your Committee has amended this measure by:

- (1) Replacing its contents with the contents of the proposed draft of S.B. No. 701, S.D. 2, which was circulated prior to this hearing;
- (2) Deleting references to specific cities on the Leeward Coast and replacing them with a description of the entire area from Kaena point to Waimanalo Gulch;
- (3) Deleting references to "landfill units" and inserting "landfills" instead;
- (4) Clarifying that the moratorium on the construction or operation of new landfills includes municipal solid waste landfills, green waste landfills, and other types of landfills;
- (5) Amending the effective date to July 1, 2050, for the purpose of encouraging further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 701, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 701, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Hemmings). Excused, 3 (Bunda, Takamine, Tokuda).

**SCRep. 736 (Majority) Water, Land, Agriculture and Hawaiian Affairs on S.B. No. 709**

The purpose of this measure is to prohibit the development, testing, propagation, release, importation, planting, or growing of genetically modified taro in the State of Hawaii.

Testimony in support of this measure was submitted by one state agency, six organizations, and nearly one thousand public citizens. Testimony in opposition was submitted by three state agencies, seven organizations, and eleven public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that taro, or kalo, is integral to the identity of native Hawaiians, and the State of Hawaii as a whole. The traditional mo'olelo of Wakea and Papahānaumoku explains that the first kalo plant, Haloanakalaukapalili, is the elder brother of native Hawaiians. As the elder sibling, Haloa provides sustenance to native Hawaiians, and in return, the younger siblings care for him and ensure that he flourishes. The bond that connects native Hawaiians to kalo remains a sacred one, and kuleana dictates that bond is preserved and protected.

Your Committee understands that taro faces many challenges including disease, invasive species, and environmental changes. However, your Committee believes that there are natural alternatives to genetic modification or engineering, such as following lo'i, restoring stream flows, and improving the overall health of the environment. Scientists should work with taro farmers and the native Hawaiian community to conduct a comprehensive examination of traditional and natural methods which are neither intrusive nor offensive to native Hawaiian culture. Research and development of non-Hawaiian taro varieties can be conducted outside of the State, which will ensure that these varieties will not be released into the environment of Hawaii.

Your Committee has amended this measure by:

- (1) Adopting the recommendation of the University of Hawaii and amending the definition of "genetically modified" to read "genetically engineered" to be more scientifically accurate;
- (2) Amending the purpose section to reflect these changes;
- (3) Amending the purpose clause to clarify that this measure is not intended to prevent the University of Hawaii from conducting field testing and commercial propagation of successful new varieties of taro outside of the State; and
- (4) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 709, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Hemmings). Excused, 3 (Bunda, Takamine, Tokuda).

**SCRep. 737 Commerce and Consumer Protection on S.B. No. 1178**

The purpose of this measure is to:

- (1) Require the Department of Health to review the emergency plans of all dialysis centers in the State; and
- (2) Post a list on the Department's website of all dialysis centers in Hawaii that have backup emergency generators with the capacity to sustain dialysis treatments and maintain their water treatment system in the event of a power outage.

Testimony in support of this measure was submitted by one private citizen. Comments were submitted by the Department of Health. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee acknowledges that the Department of Health currently conducts Medicare certification surveys on all dialysis providers in the State, based on federal requirements of Medicare certified facilities that include emergency preparedness and affiliation arrangements. Your Committee, however, finds that power outages can place dialysis patients in a perilous health situation. It is critical that dialysis centers are adequately prepared for such events and that dialysis patients have readily available information regarding which dialysis centers will be equipped to handle dialysis treatments during a power outage.

Your Committee has amended this measure to make technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1178, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 738 Commerce and Consumer Protection on S.B. No. 585**

The purpose of this measure is to:

- (1) Authorize remote dispensing pharmacies located at facilities operated by a health maintenance organization to operate and provide medications to patients served at the facility;
- (2) Clarify that a remote dispensing pharmacy may provide medications to patients with health insurance coverage who reside on an island without a pharmacy or in remote areas where there are no pharmacies within a five mile radius of an existing pharmacy; and
- (3) Clarify that a remote dispensing pharmacy may continue to operate in the same location if a pharmacy is subsequently established on the same island as the remote dispensing pharmacy or in the remote area that is not within a five mile radius of an existing pharmacy; provided that the remote dispensing pharmacy shall no longer be authorized to dispense controlled substances.

Testimony in support of this measure was submitted by the Board of Pharmacy, HMSA, Kaiser Permanente, Straub Clinic and Hospital, Walgreens, Hawaii Alliance of Retired Americans, and one hundred eighteen private citizens. Comments were submitted by the Department of Human Services. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would allow individuals in remote areas to gain access to their prescription medications in their own communities. Through the use of advanced telecommunications technology, pharmacists are able to dispense medications to patients at a distance, saving patients both time and money for travel expenses. Your Committee finds that this measure will help expand access to quality health care to primarily rural and medically underserved areas, while providing appropriate safeguards for the dispensing of controlled substances.

Your Committee has amended this measure by making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 585, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 585, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 739 Commerce and Consumer Protection on S.B. No. 1671**

The purpose of this measure is to further the State's goal of energy independence by prohibiting new or expanded fossil fuel power plants in this State.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, the Sierra Club Hawaii Chapter, Blue Planet Foundation, and one private citizen. Testimony in opposition to this measure was received from Kauai Island Utility Cooperative and one private citizen. Testimony with comments on this measure was received from the Department of Health and Alexander & Baldwin. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to fulfill the objectives of the Hawaii Clean Energy Initiative to transition Hawaii's energy sector to seventy per cent nonfossil fuel based sources by 2030. Your Committee finds that the transition to a clean energy economy, along with increased use and development of renewable energy sources, will benefit Hawaii's economy, environment, and energy security.

Your Committee recognizes the concerns of a biofuel provider that fossil fuel consumption is sometimes necessary to maintain consistent energy production levels or to recover quickly from a generator disruption. Your Committee is sympathetic to these concerns, but emphasizes that this measure applies only to new or expanded facilities and not existing facilities. Your Committee further notes that this measure is a step along the path to achieving the Hawaii Clean Energy Initiative's goal of achieving a clean energy based economy.

Your Committee has amended this measure by:

- (1) Clarifying that this measure applies to electricity-generating public utilities as defined in section 269-1, Hawaii Revised Statutes;
- (2) Exempting utility cooperative associations from the prohibitions contained in this measure until July 1, 2015; and
- (3) Adding a definition of "electric utility cooperative association".

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1671, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1671, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 740 Commerce and Consumer Protection on S.B. No. 933**

The purpose of this measure is to:

- (1) Clarify that the Board of Dental Examiners may issue a community service license to practice dentistry while in the employment of the Department of Health; and
- (2) Clarify that the Board of Dental Examiners may issue a temporary license to practice dentistry to a person who is contracted by the Department of Health to conduct dental education and training.

Testimony in support of this measure was submitted by the Department of Health and the Board of Dental Examiners. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that there is limited access to basic dental care, particularly among persons with disabilities. Your Committee also finds that this measure will allow the Department of Health to recruit additional dental care providers licensed in other states who are willing to work in Hawaii in response to the needs of Hawaii's disabled communities, and to create additional training opportunities to enhance access to dental care for disabled persons.

Your Committee has amended this measure to make technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 933, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 933, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 741 (Majority) Commerce and Consumer Protection on S.B. No. 428**

The purpose of this measure is to allow a licensed, doctoral-level psychologist who has completed a master's degree in psychopharmacology, achieved sufficient expertise, obtained a federal Drug Enforcement Agency registration number, and met other requirements to prescribe certain psychotropic medications when working under the supervision of, or in collaboration with, a licensed physician.

Your Committee received testimony in support of this measure from the American Psychological Association, the National Association of Social Workers, Hawaii Medical Service Association, Hawaii Primary Care Association, Kalihi-Palama Health Center, Ho'ola Lahui Hawaii, Kokua Kalihi Valley, Lanai Women's Center, Community Clinic of Maui, Na Pu'uwai Native Hawaiian Health Care System, and various private citizens. Your Committee received testimony in opposition to this measure from the Board of Psychology, Psychologists Opposed to Prescription Privileges for Psychologists, Hawaii Psychiatric Medical Association, and various private citizens. Testimony with comments on this measure was received from the Department of Human Services and the Hawaii Medical Board. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure expresses a policy that has been considered by the Legislature in the past and continues to have merit. Your Committee finds that the unavailability of adequate mental health care has reached crisis proportions in this State, especially in remote and rural areas that are underserved by the State's public and private resources.

Your Committee also finds that this measure reflects a growing trend across the country to increase access to mental health care by allowing licensed, doctoral-level psychologists to prescribe psychotropic medications. Your Committee notes that, as of March 2, 2009, the federal Department of Defense (DOD) has instructed all branches of the armed services to reinstate their own psychologist prescription programs to serve the needs of active duty personnel and veterans. Your Committee further notes that this measure is even more protective than the DOD programs in that it requires some level of physician supervision for both a temporary and a permanent prescriptive license.

Your Committee has amended this measure by:

- (1) Specifying that only a master's degree in psychopharmacology, as opposed to an equivalent degree, will suffice to meet the degree qualification for a prescriptive license; and
- (2) Making nonsubstantive, technical changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 428, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Espero). Noes, 2 (Sakamoto, Hemmings). Excused, 1 (Green).

**SCRep. 742 Commerce and Consumer Protection on S.B. No. 1645**

The purpose of this measure is to require the State Building Code Council to adopt standards to allow the use of bamboo as an accepted construction material under the State Building Code.

Testimony in support of this measure was submitted by Bamboo Village Hawaii, True Offsets, and six private citizens. Testimony in opposition to this measure was submitted by the Department of Accounting and General Services. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that it is advisable to develop criteria and standards for the use of bamboo as a construction material in Hawaii in order to expedite its use for sustainable building in Hawaii, encourage diversified agriculture in the islands, and strategically position the State for regional, national, or international greenhouse gas offsetting and the carbon credit trading markets.

Your Committee further finds that there is one species of bamboo that has gone through the rigorous process of testing and review to obtain International Code Council certification. However, certain other species of locally-grown bamboo could be utilized as construction materials without requiring or waiting for private individuals or organizations to pay for the expensive testing process.

Your Committee has amended this measure by:

- (1) Adding a purpose section;

- (2) Replacing the provision directing the State Building Code Council to establish standards and criteria with a provision directing the State Building Code Council to review studies and structural tests regarding bamboo use and to recommend standards and criteria for use of bamboo as a construction material; and
- (3) Directing the State Building Code Council to report its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2011.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1645, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1645, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 743 Commerce and Consumer Protection on S.B. No. 300**

The purpose of this measure is to require:

- (1) The holder of a Class 5 liquor dispenser license to carry liability insurance as a condition of acquiring and renewing a license; and
- (2) Liquor liability insurers to notify the county liquor commissions upon a termination, rejection, or nonrenewal of a licensee's coverage.

Testimony in support of the measure was submitted by TS Restaurants and one private citizen. Testimony in opposition to this measure was submitted by Outrigger Hotels. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is intended to protect the citizens who are involved in an accident with an intoxicated person when there is a connection under the State Dram Shop Law, chapter 663, Hawaii Revised Statutes, to the establishment that served the individual. The Dram Shop Laws establish joint and several responsibility for all establishments that fall into a chain of serving and responsibility. Your Committee finds that in order for this measure to guarantee that funds would be available for settlement proportionately from the responsible parties, the liability insurance requirements should apply to all licensees who serve liquor for the customers' consumption on-site.

Your Committee has amended this measure by applying the liability insurance requirements to restaurants, retail dealers, dispensers, clubs, cabarets, hotels, caterers, and condominium hotels licensed under Class 2, Class 4, Class 5, Class 6, Class 11, Class 12, Class 13, and Class 14 liquor licenses.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 300, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 300, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 744 Commerce and Consumer Protection on S.B. No. 1338**

The purpose of this measure is to prohibit real estate contracts, real estate agreements, and association rules from precluding the use of clotheslines on the premises of single family dwellings and townhouses or from imposing conditions on the use of clotheslines that are so onerous as to render the clotheslines ineffective.

Your Committee received testimony in support of this measure from Mililani Town Association, the Sierra Club, and Blue Planet Foundation. Testimony with comments on this measure was received from Hawaii Association of Realtors. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that clotheslines are one of the simplest ways for most households to reduce their energy consumption and, therefore, reduce their monthly utility costs. Your Committee further finds that a widespread reduction of household energy consumption will help Hawaii achieve its goal of increasing energy independence and decreasing dependence on imported fossil fuels. Your Committee notes that this measure respects the right of homeowners associations to impose reasonable restrictions on the use of clotheslines in response to concerns about community aesthetics.

Your Committee has amended this measure by making minor, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1338, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1338, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 745 Commerce and Consumer Protection on S.B. No. 868**

The purpose of this measure is to update and clarify the duties of the Energy Resources Coordinator to oversee statewide energy resource planning to develop local, nonfossil fuel energy sources in order to decrease Hawaii's dependence on imported fossil fuels and realize the State's long-term goal of energy independence.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Blue Planet Foundation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure makes explicit the expectations that the Legislature, the Executive branch, and the people of Hawaii have that the Energy Resources Coordinator oversee energy planning in order to ensure Hawaii's long term goals of energy independence and environmental stewardship. Your Committee further finds that this measure provides the Energy Resources Coordinator with greater direction in examining the systemic changes necessary to realize a clean energy future for Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 868, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 746 Commerce and Consumer Protection on S.B. No. 1675**

The purpose of this measure is to facilitate and encourage renewable energy development by increasing or eliminating the capacity limits on net energy metering and permitting existing net-metered customers to continue with the net metering program after alternative tariff structures are implemented.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, Hawaii Photovoltaic Coalition, the Hawaii Chapter of the Sierra Club, and Blue Planet Foundation. Testimony in opposition to this measure was received from Kauai Island Utility Cooperative. Testimony with comments on this measure was received from the Public Utilities Commission and Hawaiian Electric Company. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that net energy metering has been an effective tool in promoting customer-sited renewable energy resources as evidenced by the increase of net energy metered customers across all islands since net energy metering became the law in 2001. Your Committee further finds that rapid changes in energy technology will soon result in new methods of generating and distributing renewable energy.

Your Committee notes that the Public Utilities Commission (PUC) is empowered under the current law to make changes, including changes to capacity limits, to the net metering program. Pursuant to this authority, the PUC currently has administrative dockets open that address the issues of capacity limits for individual customer-generators, total rated generating capacity produced by customer-generators, utility interconnection standards, and feed-in tariffs and other methodologies for a utility to acquire renewable energy. Since the PUC has appropriately exercised its rulemaking powers to address these issues, your Committee finds that the Legislature has no need to act upon these matters. Therefore, your Committee has narrowed the scope of this measure to pertain only to those issues that have not been addressed in any other context so as to assure that current customer-generators may continue to receive proper credit for producing renewable energy.

Your Committee finds that this measure, as amended, will allow the PUC to retain flexibility in setting rates and compensating or crediting customer-generators of renewable energy as it responds to innovations in energy development. This measure will also allow existing net energy monitoring customers to retain their net monitoring credits in the event that the PUC responds to innovations in renewable energy generation by instituting a new or different system of renewable energy credits.

Your Committee has amended this measure by:

- (1) Removing provisions that would have increased the specified maximum capacity of an eligible customer-generator of renewable energy;
- (2) Removing provisions amending rate structure, calculation, and billing for net energy metering customers;
- (3) Removing provisions making housekeeping amendments to sections 269-107 and 269-108, Hawaii Revised Statutes.
- (4) Removing the provision amending safety and performance standards for customer-generators;
- (5) Deleting the provision that repealed the total peak capacity limit for customer-generators in a service area; and
- (6) Making nonsubstantive technical changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1675, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1675, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 747 Commerce and Consumer Protection on S.B. No. 1610**

The purpose of this measure is to clarify that:

- (1) A physician assistant acts as agent of the supervising physician when issuing a medical order and the order is deemed to be issued by the supervising physician;

- (2) When following a medical order issued by a physician assistant, a registered nurse follows a medical order issued by the supervising physician for whom the physician assistant acts as an agent; and
- (3) The law does not relieve physician assistants or registered nurses from exercising due care in performing duties and responsibilities within their respective scope of practice.

Testimony in support of this measure was submitted by the Board of Nursing, Hawaii Medical Board, American Academy of Physicians Assistants, Puna Community Medical Center, Hawaii Academy of Physicians Assistants, and fourteen private citizens. Testimony in opposition was submitted by Kaiser Permanente. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that licensing and regulating the scope of practice of physician assistants and registered nurses has developed independently for the two healthcare disciplines. As a result, regulatory language pertaining to their respective responsibilities to follow a physician's orders is neither compatible nor clear. Your Committee understands that this inconsistency has led to problematic situations when registered nurses decline to accept orders from physician assistants.

Your Committee further finds that this measure provides clarity for both physician assistants and registered nurses, which will ensure access to more effective health care for patients of both professions.

Your Committee has amended this measure by making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1610, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1610, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 748 Commerce and Consumer Protection on S.B. No. 420**

The purpose of this measure is to expand the allowable scope of practice of naturopathic physicians by allowing naturopathic physicians who have proper training to administer parenteral therapy, give injections, obtain federal Drug Enforcement Agency registration, and prescribe formulary medications.

Your Committee received testimony in support of this measure from the Hawaii Society of Naturopathic Physicians and 145 private citizens. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs and the Board of Examiners in Naturopathy. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that naturopathic physicians are important providers of preventative and primary health care for many Hawaii residents. Your Committee further finds that the allowable practices contained in this measure are consistent with the education and training received by a naturopathic physician who meets the State's licensing requirements for the provision of these services.

Your Committee has amended this measure by:

- (1) Removing the provisions relating to parenteral therapy to allow the Board of Examiners in Naturopathy to make rules regulating the practice of parenteral therapy by a naturopathic physician;
- (2) Clarifying the definition of "radiography";
- (3) Deferring the effective date of sections 1, 2, and 3 to allow the Board of Examiners in Naturopathy an opportunity to enact the administrative rules required to implement this measure; and
- (4) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 420, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 420, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 749 Commerce and Consumer Protection on S.B. No. 1265**

The purpose of this measure is to improve food safety by requiring the accurate labeling of meat and fish products that have been gas-treated to enhance the product color or to approximate the appearance of freshness.

Your Committee received testimony in support of this measure from Hawaii Teamsters and Allied Workers, Local 996. Testimony in opposition to this measure was received from the Grocery Manufacturers Association. Testimony with comments on this measure was received from the Department of Agriculture. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that gas treatment, while not itself harmful, may alter the color of packaged meat or fish in such a way that makes it difficult for a consumer to tell whether the product is actually fresh or merely appears to be so. Your Committee notes that packaged meat or fish may contain high bacteria levels indicative of spoilage even though it has not passed the "use, sell, or freeze by" date stamped on the package.

Your Committee has amended this measure by:

- (1) Requiring the Department of Agriculture to post notice of the labeling requirement contained in this measure on its website;

- (2) Deferring the implementation of this measure to allow producers, retailers, and the Department of Agriculture sufficient time for compliance; and
- (3) Making minor, nonsubstantive technical changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1265, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1265, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 750 Commerce and Consumer Protection on S.B. No. 1065**

The purpose of this measure is to exempt the Natural Energy Laboratory of Hawaii Authority (NELHA) from regulation by the Public Utilities Commission for the sale or provision of electricity generated from renewable resources by NELHA to users located on lands leased from the State adjacent to the NELHA research and technology park.

Your Committee received testimony with comments on this measure from the Public Utilities Commission and Natural Energy Laboratory of Hawaii Authority. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will promote the development of nonfossil fuel generated electricity and result in considerable savings to the State by allowing NELHA to provide renewably generated energy to State facilities. NELHA currently operates four alternative energy projects developing solar thermal, solar concentrating, wind, and algae biofuel generating capacities. Your Committee finds that allowing energy generated by the alternative energy development projects at NELHA to be used by adjacent State facilities will result in lowered energy costs for the receiving facilities and will help move Hawaii toward its long term goal of energy independence.

Your Committee has amended this measure by:

- (1) Clarifying that NELHA is exempt from all regulation by the Public Utilities Commission only if the sale or provision of electricity by NELHA does not require connection to the electrical grid; and
- (2) Clarifying that if NELHA does connect to the electrical grid to provide any electricity to any user, it shall be subject to regulation as an energy provider by the Public Utilities Commission and shall be subject to interconnection agreement requirements.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1065, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1065, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 751 Commerce and Consumer Protection on S.B. No. 917**

The purpose of this measure is to ensure State compliance with section 6035 of the Deficit Reduction Act of 2005 (P.L. 109-171), by strengthening the State's ability to identify and obtain payments from first or third party payers that are legally responsible to pay for health services received by Medicaid recipients, when such payers are primary to Medicaid.

Testimony in support of this measure was submitted by the Department of Human Services. Comments regarding this measure were submitted by the Hawaii Medical Services Association. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Medicaid is designed to be the insurance provider of last resort. However, there are some statutory loopholes through which third parties have been able to avoid paying before Medicaid. Your Committee finds that this measure amends the current statutes to enhance the Department of Human Services' efforts to successfully obtain third party payments for Medicaid recipients, thus reducing unnecessary State expenditures.

Your Committee has amended this measure by:

- (1) Clarifying the time period within which an insurer must accept a claim submitted by the State, in order to conform the language of this measure to federal law;
- (2) Relocating the definition of "first party" to section 431L-2, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive, stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 917, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 752 Commerce and Consumer Protection on S.B. No. 1045**

The purpose of this measure is to improve access to primary health care services by:

- (1) Requiring providers of accident and health or sickness insurance to recognize advanced practice registered nurses practicing within the scope of their licenses as primary health care providers;
- (2) Granting global signatory authority to advanced practice registered nurses;
- (3) Amending the definition of advanced practice registered nurse to include educational, training, and qualification requirements; and
- (4) Updating prescriptive authority of advanced practice registered nurses.

Your Committee received testimony in support of this measure from the University of Hawaii, Hawaii State Center for Nursing, Healthcare Association of Hawaii, Hawaii Primary Care Association, Hawaii Medical Service Association, Kaiser Permanente, Hawaii Association of Professional Nurses, Lanai Women's Center, Walgreens, AARP, and 10 private citizens. Testimony with comments on this measure was received from the Department of Human Services, the Board of Nursing, and the Disability and Communication Access Board. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will improve access to health care, especially in rural areas where there is a shortage of doctors. Your Committee further finds that advanced practice registered nurses are important members of the primary health care team and have expertise in both the science of medicine and the art of patient care.

Your Committee notes that it has worked in conjunction with insurers, health plans, the nursing school, the Center for Nursing, and the Board of Nursing to address the concerns raised by stakeholders regarding this measure. Accordingly, your Committee has amended this measure by:

- (1) Adding a section of legislative findings to accurately describe the purpose of this measure;
- (2) Clarifying the definition of "participating advanced practice nurse";
- (3) Clarifying that an insurer retains the right to determine contract criteria for its participating providers;
- (4) Clarifying that an advanced practice registered nurse's signatory authority applies to health care provided within the scope of the advanced practice registered nurse's practice;
- (5) Deferring the date by which the Board of Nursing shall grant recognition as an advanced practice registered nurse to allow sufficient time to develop appropriate procedures;
- (6) Clarifying the qualifications for recognition as an advanced practice registered nurse;
- (7) Authorizing the Board of Nursing to determine an exclusionary formulary for qualified advanced practice registered nurses granted prescriptive authority and specifying the means of determining the formulary and the qualifications required for prescriptive authority; and
- (8) Making this measure effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1045, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1045, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 753 Commerce and Consumer Protection on S.B. No. 1676**

The purpose of this measure is to:

- (1) Clarify that telemedicine is within a physician's scope of practice and is authorized in Hawaii when practiced by a licensed physician providing services to patients; and
- (2) Clarify existing laws regarding telehealth to ensure compliance with changes to the law regulating the practice of medicine.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Primary Care Association, The Hawaii Chamber of Commerce, Hawaii Medical Services Association, MDX Hawaii, Hawaii Telehealth Collaborative, and one private citizen. Your Committee received testimony with comments on this measure from Hawaii Medical Board and eight private citizens. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds it necessary to reiterate the public policy first articulated by the Legislature in Act 278, Session Laws of Hawaii 1998, and later confirmed through Act 219, Session Laws of Hawaii 2006, that the use of technology to deliver effective and prompt health care is extremely important to Hawaii, particularly to residents in rural communities. Accordingly, this measure defines the practice of telemedicine and emphasizes that the need for telehealth services requires that those services be included in insurance coverage.

Your Committee finds that insurance coverage for telehealth was first mandated by the Legislature over a decade ago through Act 278. Your Committee further finds that the Legislature expressed its strong support of the use of technology to improve access to health care services by the people of the State, especially those living in rural areas who have historically been faced with insufficient access to health care services, in Act 219. Specifically, the Legislature clarified that a provider-patient relationship may be established through telehealth services. Your Committee emphasizes that telehealth services are an appropriate tool to assist physicians in the State with providing the best possible access to medical treatment for patients. The beneficiaries of telehealth services often have no

other access to medical services and treatment. Due to the shortage of specialists in the State, it is essential that both patients and providers have the ability to consult with other licensed medical providers, including specialists, who are located elsewhere.

Your Committee recognizes Hawaii Medical Board's reticence to embrace telemedicine. However, your Committee reiterates that the ability to form a provider-patient relationship through telehealth was established as law in 2006 through Act 219. Further, that public policy, whether contained in the Insurance Code or elsewhere in Hawaii Revised Statutes, is the current and prevailing law on the matter. Your Committee notes that boards and similar entities are required to act in compliance with the law, regardless of whether they agree with it or not.

Your Committee has amended this measure by:

- (1) Clarifying that, although establishing the provider-patient relationship through telehealth requires the participation of a medical professional licensed in this State, consultation or other services may be provided by a medical professional licensed elsewhere; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1676, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1676, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 754 Commerce and Consumer Protection on S.B. No. 51**

The purpose of this measure is to protect public health by including teeth whitening services, including the offer to perform or the performance of any phase of any operation incident to teeth whitening, in the definition of dentistry.

Testimony in support of the measure was submitted by the Hawaii Dental Association and one private citizen. Comments on the measure were submitted by the Department of Commerce and Consumer Affairs and the Board of Dental Examiners. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure addresses concerns regarding teeth whitening performed by non-dentists, such as potential harm to a patient's gums and teeth if a tooth whitening procedure is not done correctly. However, this measure will not affect the purchase of over-the-counter products that are intended for the sole use of and application by the consumer.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 51, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 755 Commerce and Consumer Protection on S.B. No. 470**

The purpose of this measure is to make various administrative and technical amendments to the liquor license and liquor tax laws.

Specifically, it:

- (1) Adds personal delivery to the service options for a notification of hearing;
- (2) Enables the liquor control departments to extend relief to licensees who cannot obtain a tax clearance prior to license renewal or transfer;
- (3) Expands the use of fine moneys to include public liquor-related educational or enforcement programs, subject to a quantified annual limit;
- (4) Clarifies procedures relating to liquor license transfers, to more accurately reflect modern business enterprise organization;
- (5) Extends the time within which a liquor commission may grant or refuse a liquor license application following public hearing; and
- (6) Amends other provisions for the purposes of clarity and consistency.

Testimony in support of this measure was submitted by Hard Rock Cafe, REI Food Service, Sergio's LLC, and Tiki's Bar and Grill. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is the result of a comprehensive review of chapter 281, Hawaii Revised Statutes, conducted by the four county liquor control departments, including their commissions and adjudication boards, and in cooperation with industry representatives. As such, it will provide clarity and consistency for both businesses and the entities charged with regulating liquor licensing in the State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Green).

**SCRep. 756 Labor on S.B. No. 1250**

The purpose of this measure is to clarify laws relating to the Department of Education's emergency hiring and teacher licensure requirements.

Specifically, this measure requires that the maximum consecutive length of time during which an individual may be employed by the Department of Education on an emergency basis shall be three years; provided that unlicensed individuals who have been hired on an emergency basis after June 30, 1997, but prior to July 1, 2008, may be employed on an emergency basis for no more than four consecutive years.

Your Committee finds that this measure provides necessary clarifications to further align Hawaii's teacher licensure requirements with the criteria for highly qualified teachers, as prescribed by the No Child Left Behind Act.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1250, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 757 Judiciary and Government Operations on S.B. No. 516**

The purpose of this measure is to clarify and standardize existing laws regarding end-of-life care and advanced directives to ensure that emergency services personnel and first responders can comply with the patient's wishes.

This measure would use a standardized form called the "physician orders for life-sustaining treatment" form, to transform a person's advance directive into a medical order that would be accepted by all health care settings.

Your Committee finds that emergency services personnel are mandated by law to attempt resuscitation unless the person has a state issued comfort care only, do not resuscitate bracelet or necklace. However, these bracelets are only issued to individuals who have a terminal condition. Many community members mistakenly believe that their advanced health care directive or living will is enough to prevent an unwanted attempt at resuscitation by emergency responders. Your Committee believes that this measure will help ensure that a person's end-of-life wishes are followed.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 516, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 758 Judiciary and Government Operations on S.B. No. 1221**

The purpose of this measure is to amend the offense of criminal trespass in the first degree to include a person who enters or remains unlawfully in or upon the premises of a public housing project after reasonable request or warning to leave by housing authorities, provided that the person is not an invited guest.

Your Committee finds that this measure will significantly improve the ability of the Hawaii Public Housing Authority to ensure a livable community for their residents.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 759 Ways and Means on S.B. No. 427**

The purpose of this measure is to exempt from the general excise tax, amounts received by a managed care contractor from the TRICARE program to pay third-party health care providers.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that TRICARE is the managed care program that provides health care to active duty, reserve component, and retired members of the United States uniformed services and their dependents, including approximately 150,000 persons in Hawaii. The TRICARE program contracts with managed care support contractors to maintain networks of authorized civilian third-party health care providers in different regions of the country. The managed care support contractors make advances to third party health care providers for services provided to TRICARE beneficiaries. The United States Department of Defense then reimburses the managed care support contractors for those payments.

Your Committee finds that there exists some ambiguity as to whether a managed care support contractor is subject to the State's general excise tax for the amounts that it receives for actual costs or advances paid to third party-health care providers. Accordingly, your Committee finds that exempting these amounts from the general excise tax will avoid cost increases for health care services delivered through the TRICARE program and will avoid adverse consequences to uniformed service personnel and their dependents served by the program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 760      Ways and Means on S.B. No. 528**

The purpose of this measure is to make permanent the requirement that businesses engaged in the sale of cigarettes and other tobacco products at the retail level acquire a retail tobacco permit from the Department of Taxation to do so.

Your Committee received six written comments. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

This measure deletes the language in Act 131, Session Laws of Hawaii 2005, that would repeal the requirement for an entity engaged in the retail sale of cigarettes or other tobacco products to obtain a retail tobacco permit, effective July 1, 2009, thus making the requirement permanent. Your Committee finds that retail tobacco permits facilitate the enforcement of the cigarette tax and tobacco tax law by providing a known and measurable list of entities engaged in the retail sale of cigarettes and other tobacco products. More than 1,500 entities in Hawaii, all engaged in the retail sale of cigarettes and other tobacco products, have applied for and received a retail tobacco permit.

Your Committee also finds that, in testimony submitted to the Legislature in 2009, the Department of Taxation projected that reduced enforcement efforts in the monitoring of tobacco retailers could result in a revenue loss of approximately \$5,300,000 per year. Your Committee believes that permanently establishing the requirement to obtain a retail tobacco permit will allow the Department to maintain an effective level of tax revenue collection.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 761      Ways and Means on S.B. No. 1103**

The purpose of this measure is to establish a commission on effective legislation to conduct an ongoing review of the Hawaii Revised Statutes to determine which of these statutes should be repealed or amended.

Your Committee finds that the ongoing review carried out by the commission established in this measure will improve the effectiveness of the State's codified legislation by identifying legislation that is duplicative, obsolete, or otherwise in need of fixing "disconnects". This in turn will help to reduce the number of "housekeeping" measures that take up a great deal of the Legislature's time.

Your Committee received two written comments on this measure. The written comments submitted may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 762      Ways and Means on S.B. No. 1271**

The purpose of this measure is to require exempt civil service managerial employees in the legislative and executive branches of government to use, donate, or forfeit vacation leave upon their termination from public employment.

This measure also prohibits these employees from being reemployed by the same department that employed the employee immediately prior to the discharge.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that under the current law, these exempt civil service managerial employees, like other public employees, are entitled to be paid compensation in lieu of receiving a vacation allowance when terminating from public employment. Your Committee believes that this measure serves as an important vehicle in exploring all available avenues to sustain the current level of government services with fewer resources during this economic downturn.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 763      Ways and Means on S.B. No. 1272**

The purpose of this measure is to revise the formula for distribution of transient accommodations tax moneys deposited into the tourism special fund and to authorize a portion of those moneys to be used for invasive species prevention.

Specifically, this measure:

- (1) Changes the base aggregate amount available for distribution from the tourism special fund to special funds to an unspecified amount;

- (2) Changes the percentages of the base aggregate amount to be deposited into the state parks special fund and the special land and development fund to unspecified amounts; and
- (3) Adds the pest inspection, quarantine, and eradication fund to the list of funds to receive moneys from the tourism special fund in an unspecified percentage.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that Hawaii's economy is heavily dependent on tourism and, therefore, it is important to maintain the state parks and trails enjoyed by many of Hawaii's visitors. In addition, the stability of Hawaii's ecosystems depends on the State's ability to guard against invasive species and eradicate destructive pests. Your Committee believes that these programs, which help to maintain Hawaii's natural environment, are also crucial to the health of the tourist industry because they help maintain the natural beauty and unique ecology that makes Hawaii a popular destination for tourists, particularly in the burgeoning ecotourism market.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 764 (Majority) Ways and Means on S.B. No. 1318**

The purpose of this measure is to reorganize the functions of state government in the long-range planning for the State.

Specifically, this measure:

- (1) Repeals chapter 205A, Hawaii Revised Statutes, the coastal zone management law, including the special management areas program, shoreline setbacks program, and marine and coastal affairs program;
- (2) Abolishes the Office of Planning by repealing chapter 225M, Hawaii Revised Statutes; and
- (3) Transfers all rights, powers, functions, and duties of the Office of Planning to the Department of Business, Economic Development, and Tourism.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

In these austere, belt-tightening times, your Committee feels that a major overhaul of the long-range planning process on the state level is required. Since the Department of Business, Economic Development, and Tourism was previously responsible for all planning functions of the State and the Office of Planning is placed within the Department, your Committee finds that the obvious choice of executive department to assume the authority and functions of the Office of Planning is the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1318, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Ayes with Reservations, 1 (Hooser). Noes, 1 (Tokuda). Excused, 1 (Kokubun).

**SCRep. 765 Judiciary and Government Operations on S.B. No. 1130**

The purpose of this measure is to allow a party seeking to record a judgment with the Bureau of Conveyances or Land Court to redact the first five digits of any Social Security Numbers that may be included on the judgment.

Your Committee finds that an unintended consequence of the Legislature's action to protect citizens' privacy by allowing only the last four digits of a person's Social Security number to be included in documents registered or recorded with the Bureau of Conveyances is to preclude the acceptance of some court orders by the Bureau of Conveyances.

Many judicial orders and judgments contain the parties' full Social Security numbers as a means of identification. Court clerks are not authorized to redact Social Security numbers in copies of documents to be certified as true and correct copies of documents on file in the court. However, the current law prohibits the Registrar of the Bureau of Conveyances and the Assistant Registrar of the Land Court from accepting a document that contains a full Social Security number.

Your Committee has amended this measure by requiring, instead of allowing, a party seeking registration or recordation of a judgment that contains a Social Security number to block out the first five numbers of the Social Security number on the copy presented for registration or recordation with the Bureau of Conveyances.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1130, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 766 Judiciary and Government Operations on S.B. No. 1263**

The purpose of this measure is to prohibit a person, partnership, firm, corporation, or other legal entity from operating a tattoo shop without registering the shop with the Department of Health and obtaining a permit.

This measure also:

- (1) Allows the Department of Health to issue temporary licenses for educational, trade show, or product demonstration purposes to tattoo artists not licensed in the State. A temporary license is valid for a maximum of fourteen consecutive calendar days in any given calendar year;
- (2) Sets forth additional requirements for non-temporary licenses; and
- (3) Clarifies and establishes violations and penalties relating to tattoo artists and tattoo shops.

Your Committee finds that this measure affords added protections for the public health and updates statutory provisions relating to tattoo artists and tattoo shops that have not been updated since 1981.

Your Committee has amended this measure by:

- (1) Deleting reference to Occupational Safety and Health Administration regulations since the Department of Health does not enforce OSHA regulations;
- (2) Clarifying that a positive test result for tuberculosis, hepatitis B, HIV, or any communicable disease would not disqualify an applicant for a tattoo license if the applicant presents a medical certificate stating that the applicant is not a risk to customers or employees of the tattoo shop;
- (3) Deleting the prohibition on practicing tattooing while having a communicable disease, since it may conflict with the privacy requirements of The Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule;
- (4) Changing the date of expiration of permits to December 31 of each year;
- (5) Authorizing the Department of Health to issue temporary permits for a maximum period of seven days to locations other than a permitted tattoo shop for the purpose of a trade show, product demonstration, or educational demonstration, in accordance with standards specified by the Director of Health and Chapter 321, Hawaii Revised Statutes;
- (6) Allowing on-site inspections of temporary permit premises;
- (7) Deleting reference to a \$50 participation fee and substituting a \$50 nonrefundable permit fee for any event featuring less than three participating tattoo artists demonstrating for educational purposes only; and
- (8) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1263, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1263, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 767            Judiciary and Government Operations on S.B. No. 844**

The purpose of this measure is to allow for more timely investigation of crimes when public health vital statistics records are needed, while protecting the privacy of the records.

This measure authorizes the Department of Health to permit law enforcement officers, upon request, to inspect public health vital statistics records and for the Department of Health to issue a certified copy of any such record or part thereof to law enforcement, when the records are needed as evidence in a criminal investigation.

Your Committee has amended this measure by:

- (1) Limiting the scope of inspections and records that may be obtained to birth and death certificates;
- (2) Redefining "law enforcement officer" to only include law enforcement officers of the State or county, or subdivisions thereof; and
- (3) Changing the effective date to July 1, 2050, to continue the discussions in this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 844, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 768            (Majority) Judiciary and Government Operations on S.B. No. 973**

The purpose of this measure is to deter tax fraud and promote uniformity in the state tax system by conforming Hawaii tax law to the Internal Revenue Code with respect to regulating tax return preparers and adopting other accuracy-related federal provisions.

Your Committee finds tax preparers are not required to audit, examine, or review books, records, or other documents in order to independently verify information provided by taxpayers. If a tax preparer finds this information to be incorrect or incomplete, the tax preparer must make reasonable additional inquiries. This bill enables the Department of Taxation to hold tax preparers accountable for unreasonable positions on tax returns. This accountability is critical in the wake of recent corporate fraud scandals involving large corporations.

Your Committee also finds that greater scrutiny by the State is warranted with respect to regulating abusive tax schemes, erroneous tax refund claims, the understatement or misstatement of tax liability, and the collection and payment of withholding taxes. These tax violations result in not only substantial revenue losses for the State, but also mean a greater tax burden for the taxpaying public.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 973, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 769      Judiciary and Government Operations on S.B. No. 687**

The purpose of this measure is to enact the responsible construction contractor law for public works contracts and for the procurement of construction.

Your Committee has amended this measure by deleting its contents and inserting Senate Bill No. 1036 (2009), relating to elections procurement, which your Committee deferred at a public decision making meeting on March 2, 2009, in favor of insertion into this measure, leaving the defective effective date intact.

As amended, this measure pertains to all procurements, rather than only elections procurement, and clarifies the Hawaii Public Procurement Code to:

- (1) Require a final decision to be issued within thirty days of the receipt of the request for hearing;
- (2) Require a judicial decision within thirty days of the filing of the application for judicial review; and
- (3) Impose, in either an administrative hearing or a judicial review, a thirty-day limit for resolution, which if not met will result in the loss of jurisdiction and the award not being disturbed.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 687, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 687, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 770      Judiciary and Government Operations on S.B. No. 1005**

The purpose of this measure is to establish a property right in the commercial use of a person's name, voice, signature, photograph, or likeness.

Your Committee finds that protecting an individual or personality's publicity rights is imperative for writers, composers, and recording artists in Hawaii. These persons deserve to have confidence that the laws of Hawaii protect the commercial value of their name, voice, signature, photograph, or likeness.

Your Committee also finds that this measure tempers the exploitation of the names, signatures, voices, and photographs of a deceased individual or personality without any compensation to their heirs.

Your Committee has amended this measure by making the application of the chapter prospective to August 1, 2009, in the interests of avoiding ambiguity over the time of accrual of any property right.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1005, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1005, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 771      Judiciary and Government Operations on S.B. No. 912**

The purpose of this measure is to amend chapter 587, Hawaii Revised Statutes, relating to the Child Protective Act, to ensure compliance with federal Title IV-E permanency hearing requirements.

Chapter 587, Hawaii Revised Statutes, relating to the Child Protective Act, does not specifically address the federal requirement for permanency hearings at twelve month intervals to determine the permanency plan for a child in accordance with federal law. The Department of Human Services has been informed by the federal government that Hawaii's State Plan will not be approved and the State will be restricted from obtaining federal Title IV-E funds if the requisite statutory changes are not implemented. The Department of Human Services receives over fifty million dollars in Title IV-E federal funds for foster board, treatment, services, staffing, and administrative costs.

Your Committee notes that the Judiciary has convened a planning group to work collaboratively towards a solution. The first of several meetings was held on February 25, 2009, and other meetings are scheduled on March 2, March 5, and March 11. The group includes representatives of the Department of Human Services, Department of the Attorney General, University of Hawaii William S.

Richardson School of Law, guardians ad litem, parents' counsel, and the family court. This group has been working closely with representatives of the Federal Regional Office, Region IX, United States Department of Health and Human Services, Administration for Children and Families.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 912, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 772      Judiciary and Government Operations on S.B. No. 6**

The purpose of this measure is to permit the Registrar of the Bureau of Conveyances to accept electronic documents with electronic signatures for recording.

Your Committee finds that this measure will allow the Bureau of Conveyances to become more efficient and up to date with its functions. Furthermore, this measure does not require that the Bureau of Conveyances make any changes to its procedures until it has the capability to do so. The Uniform Real Property Electronic Recording Act, upon which this measure is based, has been adopted in eighteen other states and the District of Columbia.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions in this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 6, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 6, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 773      Judiciary and Government Operations on S.B. No. 1203**

The purpose of this measure is to:

- (1) Require the Department of Labor and Industrial Relations' Office of Community Services to establish by no later than January 1, 2012, a mandatory program to require all state residents between the ages of sixteen and twenty to serve a minimum of five-hundred hours of community service; and
- (2) Credit participants \$3 per hour in scholarship funds that shall be used to finance any educational program chosen by participants until the age of thirty, with all funds earned by participants to be placed in a trust fund.

Your Committee believes that this measure encourages active participation in community service, gives youth a vested interest in the future of the State, offers economic incentives to participants, and provides an educational opportunity to Hawaii's youth that they might otherwise choose to forgo.

Your Committee finds that a voluntary community service program with appropriate incentives might better effectuate the intent of this measure rather than a mandatory program.

Your Committee has amended this measure by providing for voluntary participation in the new program and making it available to residents between the ages of fifteen and eighteen years.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1203, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 774      Judiciary and Government Operations on S.B. No. 979**

The purpose of this measure is to prohibit a court from granting a restricted license to a commercial driver if the commercial driver is convicted of operating a vehicle under the influence of an intoxicant.

In addition, the measure specifically limits the court's authority to grant a restricted license to a person convicted of operating a vehicle under the influence of an intoxicant, to only category (1), (2), and (3) licenses.

Your Committee finds that this measure is required to conform to federal regulations relating to commercial driver licenses. Under current law, the court may order license restriction on a driver of any category of motor vehicle. This measure clarifies that only non-commercial driver licenses are subject to license restriction to allow the driver to continue to drive for limited purposes. Therefore, commercial drivers are not eligible for the issuance of a restricted license by a court.

The intent of this measure is to disallow an unsafe commercial driver to continue to pose a risk to motorists and other roadway users.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 979, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 979, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 775            Judiciary and Government Operations on S.B. No. 1088**

The purpose of this measure is to create a private right of action to enforce public access to public property in the courts.

This measure also amends the offense of obstructing access to public property to include installing visual and other impediments to intentionally prevent a member of the public from accessing the sea, the shoreline, or an inland public recreational area.

Your Committee finds that, although public access is protected by state law, development pressure is making it difficult for residents to access beach and shoreline areas. On Oahu, insufficient public access to the shore has prompted multiple studies by State agencies to address conflicts between beachfront property owners and the general public. Similarly on Maui, coastline development plans have raised the issue of adequate public access to the beach from Paia through Baldwin beaches. On Kauai, public access routes have not been claimed by either the State or the County and are obstructed, preventing public access to the shoreline.

Your Committee further finds that providing a private right of action to enforce public access will allow communities to enforce laws when the agencies responsible for enforcing public access lack necessary resources or are unresponsive. This measure also ensures that needless litigation will not occur by requiring that notice an opportunity to cure the violation are given to the violator prior to the filing of a lawsuit.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1088, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1088, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Nishihara)

**SCRep. 776            (Majority) Judiciary and Government Operations on S.B. No. 619**

The purpose of this measure is to allow an incarcerated person, who was a Hawaii resident at the time of the person's arrest, to vote by absentee ballot in Hawaii elections.

Your Committee finds that allowing an incarcerated person, who was a Hawaii resident at the time of the person's arrest, to vote by absentee ballot in Hawaii elections will help the incarcerated person achieve a more successful reentry into society and become a participating member of the community upon release.

Your Committee has amended this measure by:

- (1) Removing Section 1 in its entirety;
- (2) Allowing incarcerated persons to vote only within two years prior to their discharge from confinement;
- (3) Changing the effective date to July 1, 2050, to continue the discussions on this matter; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 619, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 619, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Gabbard, Takamine).

**SCRep. 777            Judiciary and Government Operations on S.B. No. 1241**

The purpose of this measure is to prohibit a deed restriction or covenant that requires the payment of a transfer fee to a specified private party every time a property is sold or transferred.

Your Committee finds that some real estate developers charge transfer fees that require a payment to the developer every time a property is sold or transferred from one owner to the next. Some of these fees are unrelated to any legitimate purpose and serve only to enrich the developer. Your Committee finds that there is presently no regulation of these fees, no limitation on their application, and no accountability or oversight of the recipients.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1241, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1241, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Gabbard).

**SCRep. 778 (Majority) Judiciary and Government Operations on S.B. No. 1125**

The purpose of this measure is to require an offeror for a construction contract subject to chapter 103D, Hawaii Revised Statutes, to:

- (1) Be a party to an apprenticeship agreement that is registered with the Department of Labor and Industrial Relations at the time of general bidding; and
- (2) Subject a contractor to sanctions for failure to comply with apprenticeship agreement.

This measure provides that, at the time of general bidding, an offeror for a construction contract with a total estimated contract value of \$250,000 or more shall be a party to the apprenticeship agreement.

Your Committee finds that a well-trained, construction-trades work force is critical to state and county public works, which are conducted on a regular basis. The safe, efficient, and economical construction of public works will be threatened if there is a lack of well-trained construction workers. By providing for the use of apprentices on public works projects, state and county government can create opportunities, in partnership with private industries, for training that will help ensure a well-trained work force for future public works construction.

Your Committee has amended this measure by:

- (1) Deleting references to an apprenticeship since this provision is contained in S.B. No. 687, S.D. 2;
- (2) Adding the provisions of S.B. No. 687, S.D. 1, relating to responsible construction contractor law, without reference to apprenticeship;
- (3) Adding a bid preference for a contractor on public works project who is a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations;
- (4) Requiring a contractor or subcontractor on public works projects to classify all workers as employees; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1125, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1125, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 779 Judiciary and Government Operations on S.B. No. 203**

The purpose of this measure is to require that the Regulated Industries Complaints Office (RICO) of the Department of Commerce and Consumer Affairs issue a citation and a cease and desist order when an investigator determines that a person is acting as a contractor without a valid license and to amend penalty amounts for violations.

This measure increases the fines for violation of chapter 444, Hawaii Revised Statutes, regarding unlicensed persons performing contracting activities that require a license. Your Committee finds that unlicensed contractor activity would be deterred by increasing the financial penalty for violations. Unlicensed contracting activity is an ongoing and serious concern and fines must be sufficient to deter and punish violators.

Your Committee has amended this measure by:

- (1) Deleting section 1, relating to issuance of a citation, upon mutual agreement of the Regulated Industries Complaints Office, representatives of the contractors, and organized laborers; and
- (2) Changing the effective date from January 1, 2015 to upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 203, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 203, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Gabbard).

**SCRep. 780 Judiciary and Government Operations on S.B. No. 572**

The purpose of this measure is to:

- (1) Allow condominium associations to increase the amount of unpaid common assessments that an association may collect against the subsequent owner of a foreclosed property; and
- (2) Allow an association to offer assistance to a disabled, elderly, or disabled non-owner resident who is having difficulty living independently.

Your Committee finds that mortgage foreclosures impact condominium and apartment owners associations when the owner of a foreclosed property fails to pay association maintenance fees. The association continues to be responsible for the upkeep and maintenance of the common areas and provision of common benefits such as water, electricity, and maintenance staff of the property regardless of whether it receives all of the fees that are due to it. Your Committee believes that the maximum amount that an association can assess under the current law is insufficient to cover the actual maintenance costs incurred.

Your Committee further finds that an association and its members should be supported in their good faith efforts to assist fellow residents who have difficulty living independently. The current law protects an association from liability for good faith efforts to assist elderly residents who may be in need of assessment or social services in order to maintain independent living and avoid harm to self or others. This measure expands an association's ability to offer the same assistance to disabled owner residents and disabled non-owner residents.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to continue the discussions in this matter; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 572, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 781 (Majority) Judiciary and Government Operations on S.B. No. 1624**

The purpose of this measure is to afford the Legislature the flexibility to use any excess in the general fund balance to balance the state budget.

At present, article VII, section 6, of the Constitution of the State of Hawaii requires that whenever the state general fund balance at the close of each of two successive fiscal years has a surplus that exceeds five per cent of general fund revenues for each respective fiscal year, the Legislature in the next regular session shall provide for a tax refund or tax credit to the taxpayers of the State, as provided by law.

While this provision may make eminent sense during times of an economic up cycle, it may not be appropriate during an economic downturn, as it requires the Legislature to pay out the surplus in the form of a tax credit or refund precisely at a time when fiscal shortages are anticipated.

This measure will correct this deficiency by authorizing the Legislature to provide either a tax refund or credit with the surplus or depositing it into the emergency and budget reserve fund, which was established by the Legislature to provide a supplemental source of funding for the State during times of emergency, economic downturn, or unforeseen reduction of revenues. Through the emergency budget and reserve fund, the State will be able to use the funds to:

- (1) Maintain programs essential to the public health, safety, welfare, and education;
- (2) Provide for counter cyclical economic and employment programs in periods of economic downturn;
- (3) Restore facilities destroyed or damaged or service disrupted by disaster; and
- (4) Meet other emergencies when declared by the Governor or determined to be urgent by the Legislature.

Your Committee finds that with this flexibility to respond appropriately in times of an economic up cycle, as well as times of economic downturn, the Legislature will be better able to apply surplus revenues to address the current circumstances and ensure that the needs of the State and its people are met. This flexibility is clearly important, especially in light of the present local, national, and global economic situation, which threatens the State's ability to maintain essential services.

Your Committee has amended this measure by clarifying the language in the ballot question to accurately reflect the substance of the constitutional amendment.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1624, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1624, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Bunda, Nishihara).

**SCRep. 782 Judiciary and Government Operations on S.B. No. 764**

The purpose of this measure is to ensure that residents of Hawaii remain employed, that businesses continue to operate and pay wages and taxes, and that financial failures be reduced by establishing a fair and reasonable standard for lease provisions in long term industrial and commercial property leases.

Specifically, this measure:

- (1) Requires, for leases existing on July 1, 2009 or entered into thereafter, that include provisions for rent renegotiation during the term of the lease and renegotiated rents based on fair and reasonable annual rent as of the commencement of the term, that those provisions:
  - (A) Be construed to require that the rent shall be fair and reasonable to both the lessor and the lessee to the lease; and
  - (B) Take into account the uses and intensity of use approved by the lessor, and the surface and subsurface characteristics of the site and the neighborhood on the renegotiation date; and

- (2) Requires, unless otherwise specified in the lease, that subtenants with subleases that provide for recovery by the lessee of ground lease rent be charged their pro-rata share of the fair and reasonable annual rent as renegotiated.

Your Committee finds it necessary to alleviate the economic consequences of allowing unfair and unreasonable rent increases for commercial and industrial properties until the local economy improves. However, your Committee has concerns regarding the definition of "reasonable rent".

Accordingly, your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 764, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 783      Judiciary and Government Operations on S.B. No. 580**

The purpose of this measure is to subject to forfeiture proceedings persons who violate statutes and rules relating to conservation and resources, the protection of caves, historic preservation, and the Kaho'olawe Island Reserve.

The Hawaii Supreme Court in the case of *Carlisle v. One (1) Boat, et al.* (No. 26995, November 17, 2008), held that the State's forfeiture laws, and the Department of Land and Natural Resources administrative rules, as applied to natural resource violations do not provide the requisite specificity to authorize forfeiture claims by the State.

This measure provides the Kaho'olawe Island Reserve Commission with statutory authority to participate in the State's forfeiture program as an additional civil remedy to address violations of statutes and rules relating to the Commission. Additionally, this measure reaffirms the Department of Land and Natural Resources' authority regarding the forfeiture program and directs the Department to adopt necessary rules.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue the discussions on the issue.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 580, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 580, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 784      Judiciary and Government Operations on S.B. No. 667**

The purpose of this measure is to prohibit a public employer from discharging, threatening, or otherwise discriminating against a public employee regarding the public employee's compensation, terms, conditions, location, or privileges of employment because the public employee, or a person acting on behalf of the public employee, reports or is about to report to the public employer or a public body, verbally or in writing:

- (1) Any violation of a federal, state, or local law, rule, ordinance, or regulation;
- (2) Any specified action by a public employer or a public employee that relates to performance of official duties, is economically wasteful, or involves gross misconduct, incompetence, or inefficiency; or
- (3) Any condition that may significantly threaten the health or safety of the public or the public employee; provided that the disclosure is made for the purpose of remedying the condition.

Your Committee finds that public employees should feel protected from employers' retaliation if they report government waste, gross misconduct, incompetence, or inefficiency.

Your Committee has amended this measure by:

- (1) Clarifying that the public employee may report fraudulent activity, a gross waste of funds, gross misconduct, abuse of authority, or violation of a well-established, articulated, clear, and compelling public policy; and
- (2) Deleting the section of the measure relating to the Ombudsman.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 667, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Nishihara).

**SCRep. 785      Judiciary and Government Operations on S.B. No. 58**

The purpose of this measure is to allow automobile insurers to exclude specified household members from coverage under an automobile insurance policy.

Your Committee finds that broad motor vehicle insurance coverage is generally consistent with public policy. The Hawaii Supreme Court has construed Hawaii law to the effect that a relative of a named insured, even if temporarily absent and living elsewhere, is nevertheless a resident of the named insured's household and therefore is covered under the named insured's policy. See *Mikelson v.*

*United Services Automobile Ass'n*, 107 Hawai'i 192, 111 P.3d 601 (2005). This broad interpretation of coverage may from time to time result in severe hardship to certain consumers. Under this broad interpretation of coverage, it is possible that an insured with a good driving record may be unable to find affordable insurance coverage, if the insured resides with a relative who has an extensive history of serious moving violations or costly insurance claims.

Your Committee has amended this measure by:

- (1) Adding to the prescribed endorsement language, a section to require the signed acknowledgement of the excluded driver;
- (2) Making the excluded driver eligible for an assigned claim in the event of an accident;
- (3) Prohibiting an excluded person from operating a motor vehicle and providing penalties;
- (4) Prohibiting the insured driver from permitting an excluded person to drive the insured vehicle and providing penalties;
- (5) Excluding from assigned claims a named insured who has rejected in writing the offer of uninsured motorist coverage;
- (6) Deleting reference to non-applicability to commercial vehicles; and
- (7) Changing the effective date to July 1, 2050 to continue discussions in this matter and repealing this measure on an unspecified future date.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 58, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 58, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 786      Judiciary and Government Operations on S.B. No. 1350**

The purpose of this measure is to increase the affordable housing stock in the urban core of Honolulu by establishing reserved housing requirements for certain planned developments of the Hawaii Community Development Authority (Authority).

Specifically, this measure, among other things:

- (1) Establishes reserved housing requirements for planned developments in the Kakaako mauka area on lots of at least 80,000 square feet and lots between 20,000 and 43,559 square feet;
- (2) Allows in lieu cash payments to the Authority as an alternative to fulfilling the reserved housing requirements;
- (3) Redefines "reserved housing" to reassert the 140 per cent of median income requirement for eligible families; and
- (4) Provides for the adoption of applicable rules by means of an expedited process and indicates for what planned developments applications may or may not be accepted or processed by the Authority, pending adoption of such rules.

Your Committee finds that the highest cost item for families in Hawaii is housing. More needs to be done to address the affordable housing issue, or families will continue to move down the economic social ladder.

This measure addresses the shortage of reserved housing units in the urban core of Honolulu. This focus makes sense because demand for affordable housing in Kakaako is high and the urban core is where most of the jobs are. Furthermore, the fast-tracking afforded by this measure creates the potential for faster development of affordable housing and construction activity, both of which are urgently needed.

Your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Increasing the reserved housing requirement to at least sixty per cent of the countable floor area for planned developments of at least 80,000 square feet, effective five years from the effective date of the measure;
- (3) Deleting the 20 per cent reserved housing requirement for planned developments with multi-family dwelling units between 20,000 and 43,559 square feet, and completely exempting the reserved housing units for properties of one acre or less;
- (4) Requiring that reserved housing units be built prior to or concurrent with a planned development;
- (5) Deleting the provision regarding when reserved housing floor area or units need not be developed on the same lot as the planned development;
- (6) Improving the economic feasibility of the reserve housing program by providing for the transfer or sale of excess housing credits between Kakaako planned developments, and requiring the Authority to review, among other things, the amount and price for the transfer of excess credits and make adjustments, if necessary;
- (7) Allowing the Authority to accept in lieu cash payments as an alternative to requiring the fulfillment of reserved housing requirements for properties less than 80,000 square feet;
- (8) Deleting the section amending section 206E-4, Hawaii Revised Statutes, and revising section 206E-31.5, Hawaii Revised Statutes, instead, to prohibit the construction of "substitute housing" in areas where residential development is prohibited under section 206E-31.5; and
- (9) Exempting any major development for which a building permit is pending from being subject to the rules adopted pursuant to this measure, and clarifying that such developments are subject to the statutes and rules in effect on the date of the building

permit application for a period of five years from the effective date of the Act, after which time the provisions of this Act are applicable to any unbuilt portions of the development.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1350, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1350, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Gabbard).

**SCRep. 787 (Majority) Judiciary and Government Operations on S.B. No. 1085**

The purpose of this measure is to prohibit the Board of Land and Natural Resources from selling, exchanging, or otherwise alienating ceded lands in the public land trust.

Your Committee believes that it is necessary to reaffirm the Legislature's sole authority under the Constitution of the State of Hawaii to address and oversee the management of the ceded land trust.

Your Committee also finds that a moratorium on the sale or transfer of ceded lands until the issues and claims between Native Hawaiians and the State regarding these lands are resolved is essential to fulfill the Legislature's fiduciary duty to preserve the corpus of the public land trust. This measure preserves the public land trust to ensure the availability of those lands for a fair and just settlement leading to reconciliation with the Native Hawaiian people.

Your Committee has amended this measure by:

- (1) Making technical, nonsubstantive stylistic changes; and
- (2) Inserting an effective date of July 1, 2050, to ensure ongoing discussions and further consideration on this very important issue.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1085, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1085, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 1 (Gabbard).

**SCRep. 788 (Joint) Ways and Means and Judiciary and Government Operations on S.B. No. 231**

The purpose of this measure is to require that all fees collected by the Judiciary for all applications made by parolees and probationers for transfer to out-of-state supervision be deposited into the probation services special fund instead of the general fund.

This measure also authorizes funds from the probation services special fund to be used to fund a full-time coordinator to supervise interstate transfers of adult offenders. The Judiciary's expenditures from the fund would also be limited to \$400,000 in any fiscal year.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that a full-time coordinator is necessary to oversee the transfers of parolees and probationers from Hawaii to out-of-state jurisdictions. Your Committee also finds that the interstate transfer program should be self-sufficient, generating sources of revenue to offset administrative costs. The fees paid by parolees or probationers will defray some of the costs of administering the interstate transfer program.

Your Committee believes that by using the fees to fund the interstate transfer program, the Judiciary should be able to keep expenditures from the probation services special fund under \$400,000 each fiscal year.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on this issue.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 231, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 231, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 15. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 789 Ways and Means on S.B. No. 1230**

The purpose of this measure is to address the loss of tax revenue from real property transactions involving non-resident sellers and from transactions involving the transfer of ownership of legal entities that hold real property interests.

Your Committee finds that the economic recession dictates that the State improve and fully maximize the collection of taxes in all areas of economic activity. This includes complex transactions involving the purchase, transfer, or exchange of real property located in Hawaii through the sale or exchange of ownership interests in legal entities. Under present law, many of these complex transactions involving the transfer of real property occur tax free and some even escape the payment of conveyance taxes.

Accordingly, your Committee has replaced the contents of the measure with provisions to create a new tax that is separate from the conveyance tax and is imposed on an individual or entity engaged in the sale of any ownership interest or partial ownership interest of an entity that holds real property located in Hawaii. The newly created tax would assess a fair tax on transactions designed to avoid liability under the conveyance tax.

Your Committee also finds that in testimony presented in the previous subject matter committee, this new tax was suggested as a good dedicated source of funding for culturally significant places and programs such as Mauna Ala, Iolani Palace, and the Bishop Museum.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1230, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 790      Ways and Means on S.B. No. 1260**

The purpose of this measure is to eliminate a disincentive to air pollution reduction by removing the cap on fees for air pollution emissions.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that covered source permit holders must pay fees per ton of regulated air pollutant emitted annually. These fees fund the Clean Air Branch of the Department of Health and other programs. Covered source permit holders, however, are not assessed fees for emissions in excess of four thousand tons per year. Your Committee believes that this is inequitable for covered source permit holders that emit fewer than four thousand tons per year, while allowing polluters who exceed the cap no additional fines or penalties.

Your Committee has amended the measure by changing the effective date to January 1, 2099, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1260, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1260, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 791      Ways and Means on S.B. No. 1228**

The purpose of this measure is to clarify that commercial fishing operations operating for at least one year, in addition to other vessel owners, may transfer ownership without terminating the right to moor or operate the vessel under the necessary permits.

Your Committee received twelve written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1228, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1228, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 792      Ways and Means on S.B. No. 1164**

The purpose of this measure is to enact the Interstate Compact on Educational Opportunity for Military Children.

More specifically, the purpose of the Interstate Compact on Educational Opportunity for Military Children is to remove barriers to educational success imposed on children of military families because of frequent moves and deployment of their parents by:

- (1) Facilitating the timely enrollment of children of military families and ensuring that they are not placed at a disadvantage due to difficulty in the transfer of education records from the previous school district or variations in entrance and age requirements;
- (2) Facilitating the student placement process through which children of military families are not disadvantaged by variations in attendance requirements, scheduling, sequencing, grading, course content, or assessment;
- (3) Facilitating the qualification and eligibility for enrollment, educational programs, and participation in extracurricular academic, athletic, and social activities;
- (4) Facilitating the on-time graduation of children of military families;
- (5) Providing for the adoption and enforcement of administrative rules implementing the provisions of this compact;
- (6) Providing for the uniform collection and sharing of information between and among member states, schools, and military families under this compact;
- (7) Promoting coordination between this compact and other compacts affecting military children; and
- (8) Promoting flexibility and cooperation between the educational system, parents, and the student in order to achieve educational success for the student.

This measure also addresses issues that are specific to Hawaii, including Hawaii's tuberculosis clearance requirement, and allows children of deployed service members to finish the school year at the school where they are currently enrolled while in the custody of a guardian.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that children of military families face inordinate stresses due to relocations between states or overseas. On average, most military children move at least twice during their high school years. The lack of consistency between states creates difficulty for military families and results in some educational obstacles. Your Committee further finds that participation in the compact will help minimize the effects of these stresses and ease transition for children of military families. Your Committee believes that aiding the often stressful school transitions of military children benefits both the military families and the schools that educate these children.

Your Committee amended this measure by:

- (1) Clarifying that rules adopted under this compact shall have the force and effect of law;
- (2) Adding language to repeal this measure on July 1, 2011, to allow the Legislature to revisit the issue in two years;
- (3) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (4) Making technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1164, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1164, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 793 (Majority) Ways and Means on S.B. No. 1122**

The purpose of this measure is to convert certain exempt state positions to civil service status.

Your Committee received eight written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure is a follow up to Act 253, Session Laws of Hawaii 2000, which expressly intended to implement two constitutional mandates--that there be a civil service based on merit and that public employees have the right to bargain collectively. Specifically, this measure is, in large part, a section-by-section amendment of Act 300, Session Laws of Hawaii 2006, which authorized, but did not require, that several exempt civil service positions be subject to the civil service laws. This measure requires that those same positions now be subject to the civil service laws.

Your Committee has amended this measure by:

- (1) Correcting text that is inconsistent with the Hawaii Revised Statutes;
- (2) Clarifying that certain exempt positions shall be repealed three years "after it is established" rather than every three years; and
- (3) Conforming certain proposed language to the existing style in the Hawaii Revised Statutes with respect to establishing positions pursuant to civil service laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1122, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Ayes with Reservations, 1 (Kidani). Noes, 1 (Hemmings). Excused, 1 (Kokubun).

**SCRep. 794 Ways and Means on S.B. No. 1066**

The purpose of this measure is to increase the number of Directors for the Natural Energy Laboratory of Hawaii Authority from eleven to thirteen.

Specifically, this measure adds two tenant members to the Board of Directors. These tenant member positions shall be filled by tenants of the Natural Energy Laboratory of Hawaii Authority who have been elected by the tenants of the Natural Energy Laboratory of Hawaii Authority.

Your Committee finds that it is in the best interest of the Natural Energy Laboratory of Hawaii Authority to have its tenants be represented on the Board of Directors. The inclusion of two tenants on the governing board of the Natural Energy Laboratory of Hawaii Authority gives the board the benefit of input from its tenants while ensuring that the tenant members are recused from voting on matters in their self-interest, such as setting lease rents, water rates, and utility rates.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1066, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 795      Ways and Means on S.B. No. 1057**

The purpose of this measure is to improve water safety in the State.

Specifically, this measure establishes a temporary water safety task force to investigate and examine the dangers of retention ponds and to recommend appropriate safety measures.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that unregulated and poorly maintained rainwater detention and retention ponds can pose a potential health and safety risk, especially to children who might mistake these ponds for recreational bodies of water. Your Committee believes that the safety measures recommended by the water safety task force will help to protect children from drowning.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1057, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 796      Ways and Means on S.B. No. 1053**

The purpose of this measure is to amend chapter 343, Hawaii Revised Statutes, relating to environmental impact statements, to allow a state or county agency that is proposing an action involving the use of state or county lands to designate the person who is the actual proposed user of the lands to prepare and fund the environmental assessment and, if necessary, an environmental impact statement.

Your Committee has received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

The process of preparing, reviewing, and amending environmental assessments and environmental impact statements is very time-consuming and costly. In many instances where a state or county agency is proposing the use of state or county lands, the actual proposed end-user of the state or county lands is an entity other than a state or county agency. Your Committee believes that, in these cases, it is only fair and equitable that the ultimate beneficiary of the use of the state or county lands bear that costs of preparing, reviewing, and amending any environmental assessment or environmental impact statement required by the proposed action.

Your Committee has amended this measure by:

- (1) Making technical nonsubstantive for the purposes of clarity and consistency; and
- (2) Amending the effective date to July 1, 2050, to allow further discussion of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1053, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 797      Ways and Means on S.B. No. 1046**

The purpose of this measure is to appropriate funds to the University of Hawaii for the Hawaii Quentin Burdick rural health interdisciplinary training program.

Your Committee received one comment on this measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the Hawaii Quentin Burdick rural health interdisciplinary training program is sponsored by the University of Hawaii school of nursing and dental hygiene. The Program provides opportunities for health science and education students from the University of Hawaii at Manoa to participate on interdisciplinary teams at rural sites with faculty and community members. Your Committee believes that continued support of the Program will not only improve the education of many students in health care curriculums, but also assist the State in alleviating the shortage of health professionals in underserved rural communities.

Your Committee has amended this measure by changing the effective date to July 1, 2090 for the purposes of continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1046, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 798      Ways and Means on S.B. No. 921**

The purpose of this measure is to abolish the Statewide Council on Independent Living in order to conform to federal guidelines for states to receive federal financial assistance for independent living services under title 29 United States Code section 796d.

Your Committee received two comments on this measure.

Copies of written comments are available for review on the Legislature's website

Your Committee finds that, in order to be eligible to receive relevant federal funds, a state is prohibited from establishing its statewide independent living council as an entity within a state agency. Your Committee believes that this measure will bring the State into compliance with federal law to enable Hawaii to remain eligible to receive relevant federal funds.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 921, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 799      Ways and Means on S.B. No. 713**

The purpose of this measure is to provide for the continuation of the Emergency Environmental Workforce program during the current period of national military crisis and economic recession.

This measure also appropriates unspecified amounts for fiscal years 2009-2010 and 2010-2011, to be administered by the Research Corporation of the University of Hawaii, to continue the services under the Emergency Environmental Workforce program.

Your Committee finds that the Emergency Environmental Workforce program established by Act 4, Third Special Session Laws of Hawaii 2001, following the September 11, 2001 attacks, was successful in providing short-term employment to recently laid-off workers. Your Committee believes that appropriating funds to continue the Emergency Environmental Workforce program during the current local, national, and global economic downturn will provide needed employment to struggling families and serve as a safety net to mitigate the effects of the national recession.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 713, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 713, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 800      Ways and Means on S.B. No. 523**

The purpose of this measure is to increase opportunities under the high technology research and development loan and grant program.

The measure requires the High Technology Development Corporation to make grants to any business in Hawaii that:

- (1) Receives a federal small business innovation research phase I award or contract or federal small business technology transfer program award or contract, of up to fifty per cent of the amount of the federal award or contract;
- (2) Applies for a small business innovation research or small business technology transfer program federal grant.

Your Committee finds that state matching grants from the High Technology Development Corporation to Hawaii companies that receive small business innovation research phase I awards and small business technology transfer awards greatly enhance the local company's project development, thereby helping the company to develop stronger proposals for the more lucrative federal phase II awards and, ultimately, to commercializing their innovations successfully and profitably.

Your Committee has amended this measure by:

- (1) Authorizing, rather than requires the High Technology Development Corporation to provide the matching grants;
- (2) Requiring that, in making matching grants, the High Technology Development Corporation give priority to Hawaii businesses that receive a federal small business innovation research award or apply for an award or small business technology transfer for the first time; and
- (3) Changing the effective date of this measure to July 1, 2050, to allow for further discussion of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 523, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 523, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 801      Ways and Means on S.B. No. 485**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Carbon Diversion, Inc., or a partnership in which Carbon Diversion, Inc. is a general partner, for the development of cogeneration and energy production facilities.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that non-fossil fuel production is important to the State. Currently, the State relies upon imported petroleum for about ninety per cent of its energy production. Your Committee also finds that Carbon Diversion, Inc.'s cogeneration and energy production facilities have the capability of converting organic feedstock and other sources of non-fossil fuel into energy. Your Committee believes that alternative energy sources are vital to reducing the State's dependence on imported oil.

Your Committee has amended the measure by changing the bond authorization amount to an unspecified amount and changing the effective date to January 1, 2045, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 485, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 802      Ways and Means on S.B. No. 178**

The purpose of this measure is to establish a food waste recycling pilot project in one or more public schools.

More specifically, this measure requires the Department of Education, in partnership with the Department of Health, to develop and implement a three-year food waste recycling pilot project in one or more public schools. This measure also appropriates funds for the pilot project.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that waste disposal is an issue of critical importance in Hawaii. Landfills on all islands are approaching or have already reached their maximum capacities. In addition, efforts to expand or relocate landfills are met with widespread opposition. Your Committee also finds that public schools are among the largest institutional sources of food waste. Your Committee further finds that current recycling efforts reduce only a fraction of the solid and liquid waste generated by schools.

Your Committee amended this measure by changing the effective date to July 1, 2070, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 178, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 178, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 803      Ways and Means on S.B. No. 109**

The purpose of this measure is to adopt the new Interstate Compact for Juveniles, which will enable Hawaii to participate in the new interstate compact. The existing Interstate Compact on Juveniles, codified as chapter 582, Hawaii Revised Statutes, will expire on December 15, 2009.

Specifically, this measure:

- (1) Adopts the new Interstate Compact for Juveniles;
- (2) Repeals the existing compact; and
- (3) Appropriates funds for administrative expenses of the compact.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the adoption of an interstate compact ensures supervision of juveniles from state to state and ensures the return of juvenile runaways, escapees, and absconders to the supervising state, thus preventing juveniles from committing other crimes or becoming victims themselves.

Your Committee further finds that the existing compact will expire on December 15, 2009, and that thirty-five states have already adopted the new interstate compact. If the new compact is not adopted by December 15, 2009, the State will no longer have the procedural means to regulate the movement across state lines or the return of juveniles, who are under court supervision, or the return of runaways, absconders, or escapees with the states that have already adopted the new compact. Your Committee believes that adopting the new Interstate Compact for Juveniles will ensure that juvenile runaways, escapees, and absconders, regardless of state residence, receive the best possible services to avoid future civil or criminal offenses, both as juveniles and as adults. Hawaii's participation in the new compact is important for the proper accountability and care of juveniles transferred across state lines to promote public safety, as well as the appropriate care and treatment of juveniles.

Your Committee has amended the measure by:

- (1) Changing the amount appropriated to an unspecified amount;
- (2) Changing the effective date to July 1, 2009 to facilitate further discussion; and
- (3) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 109, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 109, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 804            Ways and Means on S.B. No. 442**

The purpose of this measure is to encourage the delivery of new and preservation of existing mixed-use affordable housing as part of transit oriented development.

Specifically, this measure provides incentives to facilitate the development of affordable housing in well-designed transit oriented development and improve the coordination of housing and transportation planning at all levels of government by:

- (1) Authorizing the Hawaii housing finance and development corporation to:
  - (A) Grant funds to affordable housing developers to contract for third-party review and certification to facilitate compliance with the various building codes, ordinances, rules, and other requirements of a county; and
  - (B) Expedite the process and issuance of building permits for an affordable housing project that is part of a transit oriented development;
- (2) Appropriating \$500,000 in fiscal year 2009-2010 and \$500,000 in fiscal year 2010-2011 for the grants; and
- (3) Establishing a commission on transit oriented development and appropriating an unspecified amount for the commission.

Your Committee received one comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that a shortage of affordable housing remains a critical concern for the State and that the City and County of Honolulu's mass transit project offers exceptional opportunities for the development of affordable housing.

Your Committee has amended this measure by changing its effective date to July 1, 2050, for the purpose of facilitating further discussion. Your Committee also made technical nonsubstantive amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 442, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 805            Ways and Means on S.B. No. 486**

The purpose of this measure is to authorize the issuance of special revenue bonds for BioEnergy Hawaii, LLC.

Your Committee finds BioEnergy Hawaii, LLC, processes nonfossil fuel feedstock to produce electricity and uses the process exhaust in related bio-energy production facilities to convert micro-algae. Your Committee also finds that BioEnergy Hawaii, LLC, is engaged in the development of a cogeneration facility project that will sell the electricity it produces to an electric facility that serves the public. Your Committee further finds that it is in the public interest to encourage the development of facilities that reduces the State's reliance on fossil fuels.

Your Committee has amended this measure by:

- (1) Changing the amount of special purpose revenue bonds authorized to an unspecified amount; and
- (2) Changing the effective date to July 1, 2070, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 486, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 486, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 806            Ways and Means on S.B. No. 602**

The purpose of this measure is to authorize the use of bond proceeds deposited into the State's works of art special fund to support a broader range of art acquisition and creation during the period between 2009 through December 12, 2011.

The measure also defines two new terms: "works of art," which include live performances and permanent displays of art and "permanent display," which includes preservation of live performances on film by visual and audio recording from digital or electronic media.

Your Committee received two written comments on the measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will provide much needed support for culture and the arts in Hawaii by taking advantage of the increase in the state bond funds that will be used to stimulate the economy through construction of transportation infrastructure and school facility renovations and repair, one per cent of which will be deposited into the works of art special fund.

Your Committee finds that art includes live performances such as ballet, opera, theater, modern dance, and vocal performances. By adopting a broad definition of the term "works of art," the special fund can be used to support the preservation of live performances as well as inanimate art pieces. Your Committee believes that the Bernice Pauahi Bishop Museum and Iolani Palace possess rare and significant works of art that should be supported by the works of art special fund. The art in public places and relocatable works of arts programs express the State's cultural, creative, and traditional art of our various ethnic groups, and enrich the lives of residents and visitors.

Your Committee has amended the measure by mandating the works of art special fund to support the by Bernice Bishop Museum and Iolani Palace with costs associated with acquisition, site modifications, display, upkeep services, including maintenance and repair, restoration, and interpretive services to exhibit works of art.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 602, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 807      Ways and Means on S.B. No. 800**

The purpose of this measure is to assist the State Commission on Fatherhood by providing a strategic plan, increasing a member's term to four years with a limit of two terms, and appropriating funds for administrative expenses.

Your Committee finds that the mission of the State Commission on Fatherhood, established in 2007, is to promote healthy family relationships, create nurturing relationships between children and both of their parents, and provide families with guidance and support. Your Committee also finds that the Commission requires an Executive Director and staff to carry out its strategic plan. Also, in order to retain membership, the length of members' terms should be increased to provide continuity to allow the commission to carry out its plans.

Your Committee has amended the measure by:

- (1) Deleting the appropriation section and renumbering the remaining sections;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on this issue; and
- (3) Making technical, nonsubstantive changes and conforming amendments to the purpose section for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 800, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 800, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 808      Ways and Means on S.B. No. 1141**

The purpose of this measure is to require the Department of Land and Natural Resources to offer for sale parcels of Sand Island Industrial Park to current leaseholders of the parcels. The measure also allows for an exchange of like property in lieu of a fee sale.

Your Committee received three written comments on the measure. The written comments are available for review on the Legislature's website.

Your Committee finds that the Sand Island Business Association, a nonprofit organization comprised of subtenant members, entered into a fifty-five-year lease with the Department of Land and Natural Resources on July 1, 1992. The lease required the Sand Island Business Association to construct all of the infrastructure improvements; sublease one hundred eleven lots to existing month to month lessees; and manage the Sand Island Industrial Park, which includes the collection of rent from its sublessees on behalf of the Department. In 1999, the Sand Island Business Association completed the infrastructure improvements at a cost of more than \$41,000,000, and individual members of the Association have invested more than \$20,000,000 dollars in leasehold improvements to their individual lots.

Over the last few years, Sand Island Business Association members have expressed a strong desire to purchase the fee interest of their leasehold lots to secure the substantial investment they have made in Sand Island Industrial Park. Your Committee further finds that as the lease period shortens, it will become more difficult for the Sand Island Business Association members to rely upon their leasehold property as an asset when attempting to secure bank loans for further improvements.

Your Committee believes that offering the fee interest to the members of the Sand Island Business Association will allow the members to more easily secure capital loans to expand their businesses and increase the overall economic activity in the area. Fee interest ownership will also remove any fear by members of losing their capital investments at the end of their lease and instill greater confidence in them to invest more in their businesses than they would have otherwise. Finally, greater economic activity, especially

during the current recession, will generate more employment and create more small businesses to support the economic activity produced by a rejuvenated Sand Island Business Association.

Your Committee has amended the bill to:

- (1) Change the requirement of disapproval by two-thirds of either house of the Legislature or majority of both to approval of a concurrent resolution by two-thirds majority of both houses;
- (2) Changing the effective date of the measure to January 1, 2045, to facilitate further discussion; and
- (3) Make technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1141, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 809            Ways and Means on S.B. No. 1173**

The purpose of this measure is to establish energy-efficiency initiatives necessary for and contributing to the transition of Hawaii's energy sector to non-petroleum sources.

More specifically, this measure:

- (1) Establishes an energy-efficiency portfolio standard and directs the Public Utilities Commission to create all necessary parameters to implement the energy-efficiency portfolio standard;
- (2) Designates the Public Benefits Fee Administrator as responsible for achieving the energy-efficiency portfolio standards;
- (3) Directs the Public Utilities Commission to evaluate the energy-efficiency portfolio standards and to revise the standards if appropriate;
- (4) Requires each state department with responsibilities for design and construction of public buildings and facilities to benchmark existing buildings so that energy-efficiency may be evaluated;
- (5) Allows state departments to enter into energy savings performance contracts with third parties and establishes the parameters and procedures for such contracts;
- (6) Requires that existing public buildings be retro-commissioned not less than every five years, pursuant to guidelines created by the Energy Resources Coordinator;
- (7) Requires that energy consumption information be disclosed by the seller or lessor in the sale or lease of real property;
- (8) Authorizes a tax credit for each taxpayer who owns a net-zero energy building;
- (9) Directs the Public Benefits Fee Administrator to conduct energy-efficiency assessments to identify energy use patterns in the State and to identify and recommend energy-efficiency programs to target;
- (10) Directs the Public Benefits Fee Administrator to establish on-bill financing programs to encourage consumer acquisition of efficient electrical appliances and energy producing systems;
- (11) Requires the Public Benefits Fee Administrator to examine building codes and to develop and implement recommendations for increasing energy-efficiency for residential and commercial buildings; and
- (12) Revises the renewable energy technologies income tax credit to encourage use of solar energy systems and to permit a portion of the excess of the credit over payments due to be refunded to the taxpayer in certain circumstances.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will provide a necessary first step in aligning Hawaii's energy policy laws in order to achieve the State's energy goals.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2090, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1173, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1173, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Ayes with Reservations, 1 (Kidani). Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 810            Ways and Means on S.B. No. 1664**

The purpose of this measure is to temporarily codify a modified version of the Department of Labor and Industrial Relation's partial unemployment benefits program.

This measure authorizes eight weeks of benefits rather than the four weeks of partial unemployment benefits under current administrative practices.

Your Committee finds that a partial unemployment benefits program under the current economic situation will allow employers to reduce their full-time employees' hours instead of terminating them, while allowing the employees to collect certain benefits from their employer, as well as some partial unemployment benefits for a temporary period of time.

Your Committee has amended this measure by:

- (1) Clarifying the defined terms "full-time hours" or "full-time work" and "partial unemployment" or "partially unemployed" to reflect terminology used in the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1664, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1664, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 811 Ways and Means on S.B. No. 145**

The purpose of this measure is to clarify the transfer of responsibility for the repair and maintenance of equipment and fixtures in school facilities from the Department of Accounting and General Services to the Department of Education.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that this measure clarifies the intended responsibility of the Department of Education to maintain its own facilities, pursuant to Act 51, Session Laws of Hawaii 2004. Your Committee believes that this housekeeping measure will remove legal ambiguities with respect to the repair and maintenance of school facilities.

Your Committee believes, however, that providing an exemption to the Department of Education from the procurement code increases the likelihood of both fraud and waste.

Accordingly, your Committee has amended the measure by:

- (1) Deleting the exemption for the Department of Education from the procurement code requirements in chapters 103 and 103D, Hawaii Revised Statutes;
- (2) Changing the effective date of the measure to January 1, 2045, to facilitate further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 145, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 812 Ways and Means on S.B. No. 210**

The purpose of this measure is to specify certain factors the Department of Public Safety must consider prior to transferring an inmate between Hawaii correctional facilities or to an out-of-state correctional facility.

More specifically, the measure would require that the Department of Public Safety consider factors including whether:

- (1) The inmate is participating in family visitation and the location of the family;
- (2) The inmate is involved in a rehabilitation or other program that would be disrupted by a transfer; and
- (3) If another inmate has volunteered to be transferred.

Your Committee received two written comments on the measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that, currently, there are no statutes that govern the transfer of inmates between facilities within the State or to out-of-state facilities. This measure fills this void by establishing criteria that the Director of Public Safety must consider prior to any inmate transfer decision.

Your Committee believes that family support is a positive and motivating factor in the process of transitioning inmates back into society. The family creates a support group, separate from the correctional facility, that can motivate lawful obedience, alleviate stress, anger, and depression, and provide financial and emotional support. Your Committee believes that by requiring consideration of the family relationship in making transfer decisions, inmates will be given the best opportunity to succeed in the transition process.

Your Committee has amended the measure by:

- (1) Deleting the requirement that the director consider the location of the committed felon's family and whether the transfer would significantly disrupt family contact;

- (2) Changing the requirement that the Director of Public Safety not transfer an inmate with frequent extended visitations with a child to making it a factor for the Director to consider;
- (3) Changing the effective date to July 1, 2099, to facilitate further discussion on this issue; and
- (4) Making technical, nonsubstantive changes for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 210, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 210, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 813            Ways and Means on S.B. No. 242**

The purpose of this measure is to exempt businesses in a state enterprise zone that produce air conditioning from seawater from the general excise tax.

Specifically, this measure:

- (1) Includes companies that produce air conditioning from a seawater air conditioning district cooling system as a "qualified business" in a state enterprise zone; and
- (2) Pursuant to the enterprise zone law, exempts qualified businesses that produce air conditioning from a seawater air conditioning district cooling system from the payment of general excise taxes.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the construction and operation of the proposed downtown Honolulu seawater air conditioning district cooling system project has the potential to create many jobs and result in increased spending in the local economy. In addition to these economic benefits, this project is expected to reduce the amount of electricity used for air conditioning by downtown businesses and residents and reduce the quantity of fuel imported into the State to generate electricity. This is predicted to create significant cost savings for Hawaii's economy. This measure will assist the downtown Honolulu seawater air conditioning project to achieve these objectives and to acquire tax incentives in a state enterprise zone.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 242, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 242, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 814            Ways and Means on S.B. No. 417**

The purpose of this measure is to establish reimbursement guidelines for medicaid to hospitals and facilities with long-term care beds.

Specifically, this measure:

- (1) Requires that medicaid reimbursements to facilities with long-term care beds for patients with medically complex conditions who, prior to admission to the facility were receiving acute care services in an acute care hospital, shall be equal to the state reimbursement rate for subacute care;
- (2) Requires that the medicaid reimbursement rate to hospitals for patients occupying acute-licensed beds and waitlisted for long-term care shall be equal to the acute medical services payment rate; and
- (3) Appropriates \$6,200,000 out of the general revenues to fund increased medicaid reimbursements.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee believes that this measure will provide fair compensation to acute care hospitals and to long-term care facilities.

Your Committee has amended this measure by:

- (1) Changing the appropriated amount to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 417, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 815      Ways and Means on S.B. No. 809**

The purpose of this measure is to minimize the adverse effects homelessness on children by establishing a task force to coordinate resources available to homeless children.

The measure also specifies membership in the task force and requires the task force to establish findings and develop recommendations to coordinate private resources and submit interim and final reports to the Legislature. This measure further establishes and makes an appropriation to the kokua na keiki special fund and grant program under the Department of Human Services. The appropriation of general funds into the special fund as well as the appropriation out of the special fund for the task force are conditioned upon a determination by the Department of Human Services that federal funds may be appropriately expended by the Department of Human Services.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that homelessness can cause extreme physical and emotional stress in children. Consequently, homeless children are more likely to suffer from threats to their well-being such as poor physical and mental health, hygiene, weak academic performance, poor social interactions, and exposure to violence. Your Committee believes that a task force, with members having expertise in social services and homelessness, can coordinate and develop resources to help the State's homeless children.

Your Committee also finds that during this time of economic hardship, financial support from the State is limited. The measure reflects this economic reality by conditioning the appropriations on the availability of federal funds.

Your Committee has amended the measure by:

- (1) Specifying that the kokua na keiki special fund can only be established if the Department of Human Services determines that federal funds are available;
- (2) Changing the effective date to January 1, 2045, to facilitate further discussion; and
- (3) Making a technical nonsubstantive change.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 809, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 816      Ways and Means on S.B. No. 1179**

The purpose of this measure is to promote the establishment of a farm to school program in Hawaii's public schools.

Specifically, this measure:

- (1) Establishes a state farm to school policy in state law;
- (2) Directs the University of Hawaii to convene a working group to conduct a feasibility study on the potential of establishing a farm to school program in Hawaii's public schools; and
- (3) Appropriates funds to conduct the feasibility study.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the farm to school program is a well established national program and that the Kokua Hawaii Foundation has piloted efforts to develop this program in the State. Your Committee further finds that the intent of this measure is to give students the choice to eat healthier, to expand the market for local produce, and to relieve the State's dependence on imported foods.

Your Committee has amended this measure by:

- (1) Establishing a farm to school program and setting out its functions in the Department of Education;
- (2) Removing the provisions calling for the creation of a working group to conduct the feasibility study on establishing a farm to school program in state public schools;
- (3) Removing the appropriation of funds to conduct the feasibility study;
- (4) Changing the effective date to January 1, 2090, to facilitate further discussion on the measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1179, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1179, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 817      Ways and Means on S.B. No. 1205**

The purpose of this measure is to appropriate funds to the Department of Human Services for the establishment of a temporary health insurance program for unemployed persons.

This measure limits eligibility to unemployed persons without health insurance coverage who are willing to pay for the costs of coverage under the program. The program established under this measure is funded solely through funds received by the State from the federal American Recovery and Reinvestment Act of 2009.

Your Committee received one comment on the measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that the basic benefits package offered through the program established under this measure is similar to those provided by the Department of Human Services' QUEST-Net plan. This measure is intended to serve as a safety net to ensure medical coverage is provided to workers who, through no fault of their own, are unemployed and have lost their medical insurance coverage.

Your Committee has amended this measure by changing the effective date to July 1, 2090, to promote continued discussion of the matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1205, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1205, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 818      Ways and Means on S.B. No. 1247**

The purpose of this measure is to require the Department of Taxation to evaluate certain tax credits and tax exemptions and compile the information necessary to enable the Legislature to evaluate whether to sunset any of those credits or exemptions.

More specifically, the purposes of this measure are to:

- (1) Implement an ongoing program of evaluation of those tax credits and tax exemptions that have no sunset dates;
- (2) Require the Department of Taxation and Department of Business, Economic Development, and Tourism to compile the necessary information to enable the Legislature to evaluate tax credits and exemptions with consistent standards; and
- (3) Sunset those credits and exemptions that the Department of Taxation and Legislature do not believe should be extended.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that tax credits and tax exemptions are important to the State's economic diversification. Your Committee further finds that as economic conditions change over time, the credits and exemptions may need to be extended or repealed to promote certain types of business activity. Without a regular evaluation of tax credits and exemptions, the Legislature will not be able to make effective adjustments to the State's tax credits and exemptions.

Your Committee amended this measure by:

- (1) Requiring the Department of Taxation, in evaluating the tax credits and exemptions, to post all data used to calculate revenue losses and other fiscal impacts, to ensure that information is timely and accurate;
- (2) Changing the effective date to July 1, 2070, to encourage further discussion; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1247, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1247, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 819      Ways and Means on S.B. No. 1249**

The purpose of this measure is to provide incentives to attract, train, and retain public school teachers.

More specifically, the purpose of this measure is to:

- (1) Establish a teacher housing allowance program to provide housing allowances to public school teachers;
- (2) Establish a home ownership for educators program that offers deferred-interest second mortgages to qualified educators to be used to purchase residential dwelling units;
- (3) Establish the home ownership for educators second mortgage revolving trust fund;
- (4) Appropriate funds for the teacher housing allowance program;
- (5) Appropriate funds for the home ownership for educators second mortgage programs;

- (6) Appropriate funds for the management of the teacher housing program, including the renovation, repair, and maintenance of existing units;
- (7) Establish a peer review program for new teachers;
- (8) Provide incentive for experienced teachers to relocate to Hawaii; and
- (9) Require the Department of Education to submit reports to the Legislature on various issues in this measure relating to recruiting, training, and retaining teachers.

Your Committee finds that retaining qualified teachers in the public schools is critical to achieving the State's educational goals. Although their efforts have improved of late, the Department of Education has consistently struggled to hire the requisite number of teachers at the commencement of every school year. The incentives provided in this measure will assist the Department to not only recruit, but retain qualified teachers to provide a quality education for all students in the public school system.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2070, to encourage further discussion of this matter; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1249, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1249, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 820      Ways and Means on S.B. No. 1381**

The purpose of this measure is to authorize the Department of Health to use economic stimulus funds received by the State from the American Recovery and Reinvestment Act of 2009 to fund drinking water infrastructure projects and wastewater infrastructure projects.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that federal economic stimulus moneys received by the State should be used to repair and construct crucial drinking water and wastewater infrastructure throughout the State. Your Committee believes that this would be an appropriate use of these moneys as it would improve the State's public works infrastructure, provide jobs, and help stimulate Hawaii's economy.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1381, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 821      Ways and Means on S.B. No. 1668**

The purpose of this measure is to clarify public assistance eligibility requirements for the aged, blind, temporarily incapacitated, and disabled persons.

Specifically, this measure:

- (1) Clarifies:
  - (A) Public assistance eligibility requirements for aged, blind, disabled, and temporarily incapacitated persons; and
  - (B) That the aged, blind, disabled, and temporarily incapacitated households are required to apply for assistance on forms prescribed by the Department of Human Services;
- (2) Repeals the statute providing general assistance to households without minor dependents; and
- (3) Deletes references in other statutes to general assistance to households without minor dependents;
- (4) Authorizes the Director of Human Services, with the approval of the Governor, to expend funds for public assistance through the transfer of moneys from other programs under the purview of the Director of Human Services.

Your Committee received one written comment on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee believes that creating a single disability benefits program for those on disability assistance will ensure that these individuals receive the same level of assistance regardless of the type of disability. This will ensure that there are no disparities in benefits or obstacles to transferring funds between programs serving these populations.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1668, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1668, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 822      Ways and Means on S.B. No. 390**

The purpose of this measure is to clarify provisions of Act 204, Session Laws of Hawaii 2008, which requires the installation of a solar water heater on a single-family dwelling for which a building permit is issued after January 1, 2010.

Specifically, this measure:

- (1) Clarifies that the solar water heater mandate applies only to new single family dwellings;
- (2) Authorizes the public benefits fee administrator, instead of the energy resources coordinator, to approve a variance to the solar water heater requirement and requires the public benefits fee administrator to make the variance applications and determinations public; and
- (3) Directs the public benefits fee administrator to conduct a "post-installation verification inspection of the water heating technology".

Your Committee finds that this measure clarifies the provisions of Act 204, Session Laws of Hawaii 2008. Your Committee also finds that delegating the responsibility for approving variances and conducting compliance inspections to the public benefits fee administrator will take advantage of the administrator's advanced knowledge of solar energy technologies and water heating technologies as it applies to determining variance applications.

Your Committee recognizes that opinions differ on whether or not to allow gas-tankless water heaters to remain an allowable alternative to solar water heaters. Accordingly, your Committee finds that this issue merits further discussion and urges subsequent committees that may consider this bill to continue to explore this issue.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 390, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Galuteria, Hee, Hemmings).

**SCRep. 823      Ways and Means on S.B. No. 169**

The purpose of this measure is to establish the Hawaii health corps program to address physician shortages in rural areas of the State. The Hawaii health corps program consists of the loan repayment program and the recruitment program.

Specifically, this measure establishes a loan repayment program to be administered by the Department of Business, Economic Development, and Tourism, to attract repayment health care professionals to serve a minimum of two years and up to a maximum of five years in a health professional shortage area as designated by the Department of Health in return for repayment of qualifying educational loans for eligible expenses of education. A repayment health care professional is defined as a physician, family care practitioner, internist, pediatrician, obstetrician, general psychologist, or general practice dentist.

The measure establishes a companion health professional recruitment and retention program to recruit health professionals or public or private nonprofit entities or communities that employ a recruitment health professional to work in a recruitment health professional shortage area to be designated by the Department of Health. Eligibility and terms of services are the same as for the loan repayment program. Recruitment health professionals are defined as allopathic and osteopathic physicians (family practitioners, internists, pediatricians, obstetricians and gynecologists, and general psychiatrists), nurse practitioners, certified nurse-midwives, physician assistants, dentists, registered clinical dental hygienists, clinical or counseling psychologists, clinical social workers, psychiatric nurse specialists, mental health counselors, licensed professional counselors, marriage and family therapists, and health care specialists.

This measure further:

- (1) Provides for cancellation or suspension of the service obligation for certain reasons;
- (2) Payment of penalties for defaulting on the service contract;
- (3) Requires repayment health care professionals and recruitment health professionals to serve as first responders when a civil defense or other emergency is proclaimed;
- (4) Creates the Hawaii health corps special fund to be administered by the Department of Business, Economic Development, and Tourism to fund the loan repayment and recruitment programs;

- (5) Sets preferences for the two programs and gives priority to certain applicants including native Hawaiians and graduates of the University of Hawaii John A. Burns school of medicine, among others;
- (6) Limits the amount of the incentive for recruitment recipients to \$17,500 per year;
- (7) Limits the amount of the award for loan repayments to an amount not to exceed the maximum amounts permitted under 42 United States Code 254q-1;
- (8) Requires the Department of Business, Economic Development, and Tourism to:
  - (A) Award a minimum of thirty stipends of \$30,000 per recipient in the first year of the program, an additional thirty stipends of \$30,000 per recipient in the second year of the program, and an additional thirty stipends of \$30,000 per recipient in the third year of the program, and a maximum one hundred stipends annually thereafter; and
  - (B) Report annually to the Legislature on the status of the Hawaii health corps program; and
- (9) Appropriates unspecified sums for fiscal years 2009-2010 and 2010-2011 to fund the Hawaii health corps program.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee believes that the Hawaii health corps program is essential in attracting various health professionals to serve in various health professional shortage areas in the State.

Your Committee has amended this measure by:

- (1) Deleting references to the trauma system and the community health centers special funds;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) By making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 169, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 169, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 824 Ways and Means on S.B. No. 910**

The purpose of this measure is to transfer the functions and duties of the Homeless Programs Branch of the Hawaii Public Housing Authority to the Benefit, Employment, and Support Services Division within the Department of Human Services.

Your Committee received two written comments on this measure. Copies of written comments are available for review on the Legislature's website.

Your Committee finds that the Homeless Programs Branch of the Hawaii Public Housing Authority provides similar services and serves many of the same persons as the Benefit, Employment, and Support Services Division. Both agencies are housed within the Department of Human Services. This division of labor results in an overlap of efforts, failure to coordinate activities, and unnecessary expenditures by both agencies. Your Committee believes that consolidating homeless services within one agency will increase efficiency and streamline the provision of services to Hawaii's homeless population, both individuals and families.

Accordingly, your Committee finds that the Benefit, Employment, and Support Services Division is the more appropriate agency in which to consolidate homeless services, as it is currently equipped to offer programs such as job training, child care, and general assistance to the homeless.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 910, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 910, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 825 Ways and Means on S.B. No. 884**

The purpose of this measure is to address the State's budget shortfall by transferring the excess balance from the deposit beverage container deposit special fund to the general fund.

Specifically, this measure:

- (1) Transfers an unspecified amount, determined to be in excess by the Legislature, from the deposit beverage container deposit special fund to the general fund;
- (2) Deletes the existing one cent and 1.5 cent deposit beverage container fees, and instead, directs the governor to set the deposit beverage container fee at a "reasonable" rate.

Your Committee received written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the current state budget deficit requires the State to identify sources of funds that may be used to alleviate the shortfall in revenues that the State is experiencing during the current state, national, and global economic downturn. Your Committee finds that the excess balance in the deposit beverage container deposit special fund is an appropriate source of moneys to help meet the cost of state obligations. In addition, your Committee finds that the excess balance in the wireless enhanced 911 fund would provide an additional source of funds to help alleviate the State's deficit. Finally, your Committee believes that the method of determining the deposit beverage container fee should continue to be a formulaic calculation based on the previous year's redemption rates, rather than leaving the amount of the fee at the Governor's discretion.

Accordingly, your Committee has amended this measure by:

- (1) Including the transfer of an unspecified amount, determined to be in excess by the Legislature, from the wireless enhanced 911 fund to the general fund;
- (2) Deleting the requirement for the Governor to establish the deposit beverage container fee at a "reasonable" rate, and restoring the previous amounts of the fee, one cent or 1.5 cents, based on the previous year's redemption rate;
- (3) Changing the effective date to January 1, 2050, to encourage further discussion; and
- (4) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 884, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 884, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Ayes with Reservations, 3 (Chun Oakland, Fukunaga, Tokuda). Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 826      Ways and Means on S.B. No. 807**

The purpose of this measure is to establish a recycling program in public schools and provide recycling bins on every public school campus in the State. This measure appropriates an unspecified amount of funds to be expended by the Department of Education to develop the program and provide recycling bins.

Your Committee finds that Hawaii's public schools produce tons of recyclable waste each year. The State's existing HI-5 recycling program encourages residents statewide to recycle aluminum, glass, and plastic beverage containers. Your Committee believes that providing recycling bins on public school campuses throughout the State will encourage greater numbers of students to participate in the State's beverage deposit recycling efforts.

Your Committee further finds that Hawaii's public schools also produce large amounts of food waste each year. Despite statewide policies, recycling efforts reduce only a fraction of the solid waste that is created. As landfills on all islands approach or have already reached their maximum capacity, it becomes imperative for the State to increase its efforts to divert solid waste from the waste stream. Your Committee finds that food waste recycling falls within the State policy to promote re-use and recycling to reduce solid and liquid wastes and employ a conservation ethic. Accordingly, your Committee believes that a three-year food waste recycling pilot project in one or more public schools may prove effective in establishing the benefits of food waste recycling as a part of the State's recycling efforts.

Your Committee has amended this measure by:

- (1) Inserting provisions of S.B. No. 178 that require the Department of Education to collaborate with the Department of Health to establish a three-year food waste recycling pilot project in one or more selected public schools;
- (2) Making an unspecified appropriation to develop and implement the food waste recycling pilot project;
- (3) Requiring the Department of Education and the Department of Health to submit preliminary reports to the legislature in 2010 and 2011 and a final report in 2012 on the food waste recycling pilot project;
- (4) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 807, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 807, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 827      Ways and Means on S.B. No. 696**

The purpose of this measure is to appropriate grants-in-aid to the counties to eradicate coqui frogs statewide.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the coqui frog is an injurious and invasive species. The loud shrill that is emitted by the frogs has wreaked havoc in many communities across the State. The control and eradication of coqui frogs is an ongoing effort that requires continued support to prevent coqui populations from reestablishing or spreading to new areas in the State.

Your Committee has amended this measure by:

- (1) Deleting the provisions that appropriated general fund revenues for grants-in-aid to eradicate coqui frogs;
- (2) Authorizing each of the counties to use a portion of its share of the transient accommodations tax to eradicate coqui frogs;
- (3) Requiring the counties that elect to use a portion of their share of the transient accommodations tax to do so by ordinance adopted before December 31, 2010; and
- (4) Changing the effective date to July 1, 2070, to encourage further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 696, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 828      Ways and Means on S.B. No. 661**

The purpose of this measure is to establish a licensing board of cemetery and funeral trusts to assist the Director of Commerce and Consumer Affairs in the licensing of cemetery and pre-need funeral authorities.

This measure also:

- (1) Establishes a special fund for enforcement purposes;
- (2) Adds other prohibited practices under state regulation;
- (3) Requires an actuarial report in addition to the audited financial statement; and
- (4) Requires and specifies sanctions for late submissions of the required audited financial statement.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that a licensing board, a special fund, and reporting requirements are crucial components in the effective regulation of professions and occupations. First, a licensing board will hold specialized subject matter expertise in the regulated area. Second, a special fund or dedicated fund ensures the self-sustainability of regulatory activity. Third, licensee reporting requirements promote accountability to the public.

Under present law, the licensing of cemetery and pre-need funeral authorities is delegated to the Director of Commerce and Consumer Affairs. Also, no dedicated fund exists specifically for the licensing of cemetery and pre-need funeral authorities. Rather, licensing activities are funded by the compliance resolution fund, a special fund that finances the operations of the Department of Commerce and Consumer Affairs as a whole. Finally, the present requirements regarding audited financial statements are silent as to the contents of the statements.

As a result, Hawaii's laws governing cemetery and pre-need funeral authorities are among the most lax in the nation, and offer consumers inadequate protection. In particular, pre-need plans sold in this State do not meet the standards recommended by the national industry organization.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the licensing board with an advisory committee;
- (2) Clarifying rather than adding prohibited practices that result in a fine, revocation, or suspension of authority licenses;
- (3) Deleting specifications for the contents of the audited financial statement and actuarial report; and
- (4) Deleting certain sanctions for untimely submission of the audited financial statement.

In deleting the provisions relating to the required contents of the audited financial statement, your Committee intends that the advisory committee created under this measure will propose or suggest any additional necessary requirements for the audited financial statement with regard to licensee and trust financial information.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 661, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Hemmings).

**SCRep. 829      Ways and Means on S.B. No. 504**

The purpose of this measure is to appropriate funds to establish a sustainability internship program at the University of Hawaii at Manoa as part of the Sustainable Saunders project.

Specifically, this measure appropriates \$207,000 in fiscal years 2009-2010 and 2010-2011 to facilitate the employment of students each semester with the goal of applying no cost to low cost energy modification recommendations at the University of Hawaii at Manoa, other campuses, and the general community.

Your Committee received twenty written comments on this measure.

Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that the Sustainable Saunders project played a valuable role in reducing energy use and could significantly reduce energy costs at the University of Hawaii at Manoa. Your Committee believes the establishment of a sustainability internship project would produce benefits that would be experienced throughout the community through outreach training to other University of Hawaii campuses and other educational facilities.

Your Committee has amended this measure by changing the appropriation to an unspecified amount and by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 504, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 830            Ways and Means on S.B. No. 256**

The purpose of this measure is to establish the telework task force within the Department of Business, Economic Development, and Tourism, and in coordination with the Department of Human Resources Development, to develop incentives and recommendations that will encourage and expand telework opportunities in Hawaii.

This measure also requires the task force to develop a public awareness campaign plan and to address any other matters the task force deems relevant to reduce traffic congestion, harmful statewide environmental impacts, and the State's continued dependence on fossil fuels.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee believes that this measure to encourage telecommuting will result in a better quality of life for Hawaii residents who commute to work, reduce harmful statewide environmental impacts, and reduce the State's continued dependence on imported fossil fuels.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion and by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 256, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 256, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Kokubun).

**SCRep. 831            Ways and Means on S.B. No. 68**

The purpose of this measure is to authorize the Department of Land and Natural Resources to regulate commercial enterprises that originate from private marinas and utilize state waters or marine resources.

Your Committee received eleven written comments on this measure. Copies of written comments submitted to the Committee are available for review on the Legislature's website.

Your Committee finds that the State's waters and marine resources would suffer harm and depletion from disruptive uses and overuse by commercial enterprises. Your Committee further finds that this measure would extend the regulatory authority of the Department of Land and Natural Resources to include commercial enterprises that originate from private marinas and use state waters. Your Committee believes that this measure addresses a potential situation whereby commercial enterprises may avoid regulation by originating their business from a private marina instead of a public boat harbor or marina. Your Committee further finds that this measure is not intended to require additional regulation or new permits for commercial activities that are regulated under any other chapter of the Hawaii Revised Statutes.

Your Committee recognizes that commercial enterprises and activities that use state waters play an important part in the State's visitor economy. Your Committee also believes, however, that it is important to balance economic enrichment and protecting the State's ocean resources. Accordingly, your Committee believes that the regulations provided under this measure will promote economic activity and still protect state waters and marine resources.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 68, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 68, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 832 Ways and Means on S.B. No. 43**

The purpose of this measure is to implement statewide physician workforce assessment and planning.

More specifically, this measure:

- (1) Creates the John A. Burns School of Medicine special fund;
- (2) Directs moneys in the John A. Burns School of Medicine special fund to be used to support the medical school's activities related to physician workforce assessment and planning;
- (3) Establishes the physician workforce assessment fee of \$60 for license renewal, to be deposited into the John A. Burns School of Medicine special fund;
- (4) Appropriates general funds to implement statewide physician workforce assessment and planning;
- (5) Appropriates out of the compliance resolution fund moneys to be deposited into the John A. Burns School of Medicine special fund; and
- (6) Requires the John A. Burns School of Medicine to submit a report to the Legislature, State Health Planning and Development Agency, and the Hawaii Medical Board no later than twenty days prior to the convening of the regular session of 2011 and each odd-numbered year thereafter.

Your Committee received written comments on this measure. The comments may be reviewed on the Legislature's website.

Your Committee finds that it is prudent to assess Hawaii's physician workforce on a continuous basis. More than a third of Hawaii's physicians are at least fifty-five years old and can be expected to retire shortly. Because Hawaii has the longest life expectancy in the nation, the State will soon be faced with increased demands for health care and a reduced population of physicians. Your Committee believes that on-going assessments based on reliable physician workforce data will support proactive measures to prevent or improve the impact of physician shortages in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the appropriations to an unspecified amount;
- (2) Changing the effective date to July 1, 2070, to encourage further discussion of this matter; and
- (3) Making technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 43, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 43, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 833 (Majority) Ways and Means on S.B. No. 1227**

The purpose of this measure is to establish the Department of Tourism.

Specifically, this measure:

- (1) Establishes the Department of Tourism as an executive department and changes the name of the Department of Business, Economic Development, and Tourism to the Department of Business and Economic Development;
- (2) Dissolves the Hawaii Tourism Authority;
- (3) Transfers the Convention Center enterprise special fund, the tourism special fund, and the tourism emergency trust fund to the Department of Tourism; and
- (4) Establishes an interagency working group to facilitate the transition of rights, powers, functions, and duties from the Hawaii Tourism Authority to the Department of Tourism.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that establishing a new executive agency that is charged with the focused oversight of Hawaii's tourism industry would maintain and expand Hawaii's domestic and international tourism market. Your Committee recognizes that tourism is one of the primary industries in the State and that the State's economic health depends heavily on the success of the visitor industry. Your Committee believes that an agency dedicated to tourism oversight would help increase visitor expenditures, tax revenue, and employment in the tourism industry.

Your Committee has amended this measure by:

- (1) Specifying that the tourism emergency trust fund may be used to provide emergency assistance to tourists during a declared tourism emergency;
- (2) Clarifying that a remaining balance in the tourism special fund that is not appropriated by the Legislature shall be transferred to the general fund in any given fiscal year;

- (3) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1227, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Kokubun).

**SCRep. 834            Ways and Means on S.B. No. 1167**

The purpose of this measure is to make certain administrative changes to the Hawaii Tourism Authority to streamline its operations. Specifically, this measure:

- (1) Clarifies the duties and changes the title of the Executive Director of the Authority to President and Chief Executive Officer;
- (2) Changes the requirement that the Authority provide notice to the Governor, President of the Senate, and Speaker of the House of Representatives on any contract or agreement valued at \$25,000 or more to require periodic reports on contracts and agreements;
- (3) Eliminates certain "sunset" provisions in Act 58, Session Laws of Hawaii 2004, making permanent the Authority's ability to retain its own private attorneys and to exercise its current level of fiscal autonomy.

Your Committee has received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the difficult times currently being experienced by the State's major industry, tourism, may present an opportune time to undertake some administrative changes to streamline the operations of the Hawaii Tourism Authority. Changing the title of the Executive Director of the Authority to President and Chief Executive Officer, while cosmetic on its face, should instill a more business-like atmosphere in the boardroom of the Authority. Further, eliminating the "sunset" provision on the ability of the Authority to hire its own private attorneys should result in streamlining operations.

Your Committee has amended this measure by:

- (1) Requiring that the private contractor operating the Hawaii Convention Center be subject to the Hawaii Procurement Code;
- (2) Reinstating the "sunset" provisions in Act 58, Session Laws of Hawaii 2004, relating to the fiscal autonomy of the Hawaii Tourism Authority;
- (3) Changing the effective date to July 1, 2050, to allow further discussion of this measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1167, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1167, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 835            Ways and Means on S.B. No. 971**

The purpose of this measure is to conform state tax law to the latest amendments to the Internal Revenue Code for calendar year 2008.

The following sections of the Internal Revenue Code are employed in this conformance measure:

- (1) 42, increases the low-income housing tax credit by providing a minimum yield of nine per cent in computing the amount of the credit;
- (2) 62(a)(2)(D), extends the above-the-line deduction for out-of-pocket classroom-related expenses to eligible educators up to \$250 for two years to include tax years beginning before January 1, 2010;
- (3) 63(c), allows an additional standard deduction for net losses from disasters for both regular and alternative minimum tax purposes, with respect to federally declared disasters and extends the additional standard deduction for real property taxes for one year;
- (4) 63(c)(1)(C), (c)(7), provides an additional standard deduction for real property taxes (excluding real property taxes accounted for as a section 62 trade or business expense) of up to \$500 (\$1,000 for joint filers) for 2008 only;
- (5) 108(a)(1)(E), extends the "mortgage forgiveness exclusion";
- (6) 121(b)(4), taxes homeowners upon the sale of a principal residence for periods of nonqualified use, such as rental use;
- (7) 164(b)(5)(I), extends the itemized deduction for state and local general sales taxes for two years;
- (8) 165(h), increases the per casualty floor applied to determine the net deductible casualty loss per occurrence from \$100 to \$500 for 2009;

- (9) 168(b), 168(e), 168(i), allows "smart" electric meters and distribution grid systems to be depreciated over ten years;
- (10) 168(e) and (g), allows farming machinery and equipment placed in service to be depreciated over five years;
- (11) 168(e)(3)(E)(iv), extends the fifteen year straight line cost recovery period allowed for qualified leasehold improvements and qualified restaurant improvements for two years;
- (12) 168(m), provides fifty per cent bonus depreciation and alternative minimum tax relief for "qualifying reuse and recycling property";
- (13) 168(n), provides fifty per cent bonus depreciation and alternative minimum tax depreciation relief for qualified disaster assistance property;
- (14) 170(b)(1)(E)(vi) and (b)(2)(B)(iii), allows individuals to deduct qualified conservation contributions up to fifty per cent of the contribution base;
- (15) 170(b)(3) and (e)(3)(C)(iv), applies special higher charitable contribution limitations that are already available for qualified conservation contributions by farmers to contributions of "apparently wholesome food inventory";
- (16) 170(e)(3)(D), extends the enhanced deduction for book inventory contributions to elementary and secondary schools for two years;
- (17) 170(e)(6)(G), extends the enhanced deduction for qualified computer contributions for two years;
- (18) 172, allows qualified disaster losses to be carried back five years and used against alternative minimum taxable income;
- (19) 175, allows a deduction for expenses incurred for endangered species recovery expenditures;
- (20) 179D, extends the deduction for the cost of energy efficient building property placed in service for five years to include property placed in service before January 1, 2014;
- (21) 198(h), extends the election to expense qualified environmental remediation expenditures that are otherwise capitalizable for two years;
- (22) 198A, allows taxpayers to elect to expense qualified disaster expenses that are otherwise capitalizable;
- (23) 401(a)(9)(H), 402(c)(4), waives the required minimum distribution from qualified retirement plans that would otherwise be imposed;
- (24) 408(d)(8)(F), extends the provision allowing tax-free treatment of IRA distributions donated to charity;
- (25) 430(c)(5)(B), provides relief in satisfying pension funding requirements by extending a transition rule that allows a plan to fund less than one hundred per cent of the funding shortfall;
- (26) 432, allows multi-employer plan sponsors to elect to retain prior plan year's status;
- (27) 451, extends the election to defer gain for qualifying electric transmission transactions for two years to include any sale or disposition of qualifying property by a qualified electric utility before January 1, 2010;
- (28) 461(j), disallows deductions for excess farm losses for tax years beginning after December 31, 2009, subject to carryforward provisions;
- (29) 856(c) and (d), 857(b), relaxes rules regarding foreign investments, health care facilities, and prohibited transactions;
- (30) 1221, allows financial institutions to treat resulting gains and losses from the sale of Fannie Mae and Freddie Mac preferred stock as ordinary gains and losses; and
- (31) 1367(a)(2), extends rule that an S-corporation's charitable contribution of property reduces the shareholder's basis only by the contributed property's basis.

Your Committee received comments on the measure from one private agency. The written comments may be reviewed on the Legislature's website.

Your Committee has amended the measure by:

- (1) Imposing the state income tax on employer paid pension income, except for the first \$50,000 each year; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 971, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 836      Ways and Means on S.B. No. 165**

The purpose of this measure is to clarify that public school cafeteria workers employed after July 1, 2009, will be compensated for a school-year period and compensation will be prorated over a calendar-year period.

Furthermore, this measure clarifies that cafeteria workers employed prior to July 1, 2009, will continue to receive compensation over a calendar-year period.

Your Committee finds that public schools cafeteria workers are currently employed for a twelve-month period, whereas cafeteria managers are employed for a ten-month period, and school meals are only provided over a ten-month period.

Your Committee recognizes that the Department of Education needs to be given administrative flexibility in developing the appropriate position and compensation structure for cafeteria workers.

Your Committee has amended this measure by:

- (1) Deleting the clarifying provisions;
- (2) Deleting the reference to twelve-months; and
- (3) Changing the effective date to July 1, 2090, to facilitate continued discussion of this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 165, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 165, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Ayes with Reservations, 2 (Hooser, Tokuda). Noes, none. Excused, 3 (Galuteria, Hee, Hemmings).

**SCRep. 837      Ways and Means on S.B. No. 1316**

The purpose of this measure is to abolish the Aloha Tower Development Corporation and transfer all of its functions and powers to the Department of Business, Economic Development, and Tourism.

Your Committee finds that the transfer of functions from the Aloha Tower Development Corporation to the Hawaii Community Development Authority, except for the harbors modernization project, is more advantageous to the State. Currently, the Hawaii Community Development Authority has jurisdiction over the development of Kakaako. Extending the authority's jurisdiction over the Aloha Tower commercial area will allow consistency with planning and development.

Your Committee further finds that the Department of Transportation, Harbors Division, in consultation with the federal Maritime Administration, is better equipped to oversee the harbors modernization project. Exemption from the procurement code will also expedite the development and construction of the harbors modernization project. Your Committee believes that the exemption is necessary, but only for a limited amount of time to jumpstart development activities.

Upon further consideration, your Committee has amended the measure by:

- (1) Transferring the functions of the Aloha Tower Development Corporation to the Hawaii Community Development Authority except for the harbors modernization project;
- (2) Transferring the functions of the harbors modernization project to the Department of Transportation, Harbors Division, in partnership with the United States Department of Transportation, Maritime Administration;
- (3) Authorizing the Hawaii Community Development Corporation, with the approval of the Governor, to issue bonds;
- (4) Establishing the Aloha Tower fund in the Hawaii Community Development Authority for the purposes of collecting all moneys, rentals, charges, or other revenues from the Aloha Tower harbor district;
- (5) Establishing the harbors modernization group that shall have jurisdiction over the commercial harbors modernization plan; and
- (6) Exempting all procurements for the harbors modernization project from chapter 103D, Hawaii Revised Statutes, until June 30, 2016.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1316, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1316, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Ayes with Reservations, 2 (Chun Oakland, Fukunaga). Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 838      Ways and Means on S.B. No. 1202**

The purpose of this measure is to lay the foundation necessary to develop an electric vehicle infrastructure in Hawaii.

Specifically, this measure:

- (1) Makes fostering the research and development of nonfossil fuel and energy efficient modes of transportation one of the State's economic growth objectives;
- (2) Requires the designation of parking spaces for electric vehicles in public, private, and government parking lots;
- (3) Requires State and county agencies that purchase new vehicles to seek vehicles with reduced dependence on petroleum-based fuels, in accordance with a priority list; and
- (4) Provides income tax credits for installation of code-compliant electric vehicle charging infrastructure and for installation of alternative fuel refueling infrastructure.

Your Committee received four written comments on this measure. The written comments may be viewed on the Legislature's website.

Your Committee finds that it is essential for the State to aggressively promote and develop alternatives to modes of transportation that are dependent on fossil fuels. Your Committee further finds that the development of an electric vehicle infrastructure is a first and essential step toward transforming transportation in this State.

Your Committee amended this measure by:

- (1) Deleting provisions related to the income tax credits for electric vehicle charging infrastructure and alternative refueling infrastructure;
- (2) Amending the effective date to July 1, 2070, to encourage further discussion; and
- (3) Making technical amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1202, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 839      Ways and Means on S.B. No. 1106**

The purpose of this measure is to require a seller of real property in the State to furnish a tax clearance certificate to the Bureau of Conveyances upon the sale of the real property.

The tax clearance certificate certifies that the Hawaii Real Property Tax Act withholding requirements were satisfied as a condition to recording a transfer of title on the real property.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that state tax revenues have declined due to a weakening state economy. In addition, the under reporting of taxes has contributed to a greater loss in the collection of state tax revenues. This measure will assist the State in collecting the full amount of tax revenue owed to the State in real estate transactions by requiring certifications from both the buyer and seller.

Your Committee also finds that an out-of-state buyer, not the seller, should have the responsibility of submitting a verification form to the Bureau of Conveyances in accordance with the Hawaii Real Property Tax Act. An out-of-state seller, however, should be required to submit a certified tax clearance certificate issued by the Department of Taxation to ensure the full and proper payment of all state taxes. Your Committee believes that these provisions will ensure that the State receives all tax revenues that have been under reported and uncollected in the past, with respect to transfers of real estate.

Your Committee has amended this measure by:

- (1) Requiring an out-of-state buyer to submit a certified Hawaii real property tax act payment verification form to the Bureau of Conveyances as a precondition to recording the transfer of title to real property;
- (2) Clarifying that an out-of-state seller shall obtain a certified tax clearance certificate from the Department of Taxation, verifying that the seller has paid all required taxes due to the State, and requiring the seller to apply for the clearance no later than fifteen days after the transfer date of the real property; and
- (3) Making technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1106, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 840      Ways and Means on S.B. No. 1105**

The purpose of this measure is to require reports of studies or audits by an executive department or agency, and by the Legislative Reference Bureau, Auditor, Judiciary, or Office of Hawaiian Affairs to be the subject of a public hearing or informational briefing.

This measure further requires that these reports be submitted to the Clerk and Presiding Officer of each house of the Legislature, chairs of the applicable subject matter committee of each chamber, and the Legislative Reference Bureau library. The public hearing or informational briefing may be waived by the Senate President or Speaker of the House of Representatives.

Your Committee believes that establishing a procedure to require certain reports to be subject to a public hearing or informational briefing will assist the Legislature in following up on various issues dealt with in those reports.

Your Committee has amended this measure by:

- (1) Adding language to narrow the scope of the requirement to conduct a public hearing or informational briefing on reports of those studies or audits that are specifically requested by the Legislature by concurrent resolution of the Legislature or required by law, including budget measures;

- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1105, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1105, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 841 (Majority) Ways and Means on S.B. No. 818**

The purpose of this measure is to require the Department of Health and the Department of Human Services to make available to the public, free of charge, information collected from the departments' inspections of care facilities.

Specifically, this measure requires, by January 1, 2011, electronic posting on the departments' respective websites of all inspection reports, including dates, descriptions of violations, planned corrective actions, and other information within an unspecified period of time after completion of the reports.

Your Committee received four comments. Written comments are available for review on the Legislature's website.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 818, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, 1 (Hemmings). Excused, 4 (Galuteria, Kidani, Kokubun, Tsutsui).

**SCRep. 842 Ways and Means on S.B. No. 733**

The purpose of this measure is to clarify the application of school impact fees to ensure its legality and fairness.

Specifically, this measure:

- (1) Requires the Department of Education to update certain figures it uses to calculate impact fees, including:
  - (A) School site area averages;
  - (B) Facility construction costs per student in elementary, middle, and high schools; and
  - (C) The revenue credit for each residential unit developed;
- (2) Ensures that new residential developments are charged for a level of service (permanent versus portable facilities) that is equal to and not higher than the current standards of the district in which the development is situated;
- (3) Clearly sets forth the distinction between a land component impact fee and a construction cost impact fee;
- (4) Requires the Department of Education to engage in an analysis on a district basis that includes the student generation rates for single-family and multi-family developments, considering the potential for making more efficient use of existing and underutilized assets in a school district, and potential changes to statewide school site areas and design enrollment standards;
- (5) Establishes school land area averages per student for elementary, middle, and high schools;
- (6) Clarifies the formula for calculating the school construction cost per unit for single-family and multi-family developments;
- (7) Requires that the impact fees collected within a school district be used only on schools serving the same school district; and
- (8) Requires the Department of Education to return lands dedicated for school facilities or construction cost component impact fee that are not used for school facilities within twenty years of the land dedication or fee payment.

Your Committee finds that this measure will ensure the equitable administration of school impact fees. The measure will also provide that school impact fees collected for land and facility construction, whether through fees paid or in lieu contributions of land dedicated or facilities developed and dedicated, are fairly assessed and used only within the school districts that the residential developments that are assessed are situated. Your Committee believes that this will ensure that the school impact fees program will meet all legal and equitable concerns and challenges.

Your Committee has made technical nonsubstantive changes to this measure for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 733, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 733, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Kidani, Hemmings).

**SCRep. 843 Ways and Means on S.B. No. 643**

The purpose of this measure is to transfer the management of Kahana Valley state park from the Department of Land and Natural Resources to the Department of Hawaiian Home Lands.

Your Committee received one written comment on the measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that after the condemnation of the valley, the people of Kahana, many of them native Hawaiian, lobbied the Legislature to allow them to stay in the valley and preserve their rural native Hawaiian lifestyle. In 1970, a Governor's task force proposed the concept of a living park that would allow the families to stay, and in some way participate, in the care and maintenance of the park. The Governor recommended the concept to the Department of Land and Natural Resources and the residents were allowed to stay on the land under revocable leases. As a condition of their lease, each Kahana Valley family was required to contribute twenty-five hours of interpretive services per month to the park to preserve, restore, and share the history and rural lifestyle of the ahupua'a of Kahana with the public.

Your Committee further finds that thirty-one original families qualified for the long-term residential leases. However, descendants of six families that did not originally qualify for long-term residential leases remained in Kahana Valley State Park. The Department of Land and Natural Resources recently started eviction actions against these six families. Your Committee believes that transferring management of Kahana Valley to the Department of Hawaiian Home Lands will allow the State, with input from the Native Hawaiian community, and current residents of the valley to resolve any lease and land use issues amicably instead of through the eviction process.

Your Committee has amended the measure by:

- (1) Changing the effective date to July 1, 2050, to promote further discussion on this issue; and
- (2) Making technical nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 643, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 643, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Kokubun, Tsutsui, Hemmings).

**SCRep. 844      Ways and Means on S.B. No. 522**

The purpose of this measure is to assist the counties to more accurately determine real property tax assessments.

Specifically, this measure requires the Assistant Registrar of the Land Court to provide within ten days, an image and index of all instruments that contain real property transactions relating to registered land in all the counties each week to the administrator of the City and County of Honolulu's Real Property Assessment Division. The administrator shall then provide copies of the images, without charge, to the real property assessment administrators of the other counties. The measure also provides for unforeseen, technical malfunctions that may delay the transfer beyond ten days.

Your Committee received one written comment on the measure. Copies of written comments submitted are available for review on the Legislature's website.

Your Committee finds that this measure will allow the counties to better track property ownership, encumbrances, restrictions, uses, and sales prices of real property. Your Committee believes that expediting and sharing this information will increase the efficiencies and provide more timely and accurate real property tax assessments.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 522, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 522, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 845      Ways and Means on S.B. No. 1673**

The purpose of this measure is to ensure the viability of the Hawaii Health Systems Corporation, the fourth largest public hospital system in the nation.

Specifically, this measure:

- (1) Authorizes any of the regional systems or individual facilities of the Hawaii Health Systems Corporation (Corporation) to transition into a new legal entity;
- (2) Requires each regional system board and each community hospital under the jurisdiction of the Corporation to collaborate with community health centers within their respective geographic jurisdictions to maximize funding from the State and federal governments;
- (3) Requires the Corporation and each regional system board to notify the President of the Senate, the Speaker of the House of Representatives, and Chairperson of the respective subject matter committee for health in each house of the Legislature within thirty days of any substantial reduction or elimination of direct patient care services;
- (4) Requires the Department of Health, on July 1, 2009, to assume the total amount of all liabilities and debts or other obligations of the Hawaii Health Systems Corporation that had been accrued up to June 30, 1996, by the community hospitals while they were operating within the Division of Community Hospitals of the Department of Health;

- (5) Requires the Hawaii Health Systems Corporation to bear the sole responsibility for assuming all liabilities and debts or other obligations accrued beginning on July 1, 1996, and thereafter, by the community hospitals operating within the Hawaii Health Systems Corporation; and
- (6) Establishes that the Hawaii Health Systems Corporation shall bear sole responsibility for making all appropriate employer payments into funds of the Employees' Retirement System under chapter 88, Hawaii Revised Statutes, beginning on July 1, 1996, and continuing thereafter; and
- (7) Requires commercial health plans to provide a minimum reimbursement level of no less than one hundred and one per cent of the costs for all services provided to plan beneficiaries by critical access hospitals.

Your Committee finds that the management and operation of the State's public health facilities under the custody and supervision of the Hawaii Health Systems Corporation since the creation of the Corporation in 1996 has been unsuccessful. Your Committee believes that the basic structure for operating the public health facilities, which are critical for the health and well being of all residents of the State, needs to be radically altered to authorize any regional system or individual facility to transition to a nonprofit corporation, for-profit corporation, a municipal facility, a public benefit corporation, or other combination of these entities.

Your Committee has amended this measure:

- (1) With regard to any plan of a facility to substantially reduce or eliminate any direct patient care services, by reversing the order in which the plan is to proceed by first presenting the plan to the regional system board for approval, followed by presenting the plan to the community at an informational hearing for community input; and
- (2) With regard to an internal inconsistency in the measure that grants an exemption to the Hawaii Health Systems Corporation from the Hawaii Public Procurement Code (in section 17 of the measure amending section 103D-102(c), Hawaii Revised Statutes) in contravention to the explicit provision to affirmatively subject the Hawaii Health Systems Corporation to the Hawaii Public Procurement Code (in section 18 of the measure amending section 323F-7(c)(30)(C), Hawaii Revised Statutes), by deleting section 17 of the bill that adds the exemption for the Hawaii Health Systems Corporation, and renumbering the remaining sections of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1673, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1673, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Tsutsui).

**SCRep. 846            Ways and Means on S.B. No. 1449**

The purpose of this measure is to amend the general excise tax return filing and payment procedures to require accelerated periodic estimated payments and one annual return.

Your Committee received comments from one organization and one individual. The written comments may be reviewed on the Legislature's website.

Your Committee received comments from one organization and one individual. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the current law requires large taxpayers to file monthly general excise tax returns and to remit taxes. In addition, it requires large taxpayers to file annual reconciliation returns that include any adjustments and make final payments for the year. Your Committee finds that by accelerating simple voucher estimated payments and the final reconciliation, the State will be able to achieve a one-time windfall gain in collection of general excise tax revenues.

Your Committee has amended this measure by:

- (1) Changing multiple references to the "fifteenth" to the "twentieth" day;
- (2) Changing multiple references to April 15, July 15, October 15, and January 15, to April 20, July 20, October 20, and January 20, respectively; and
- (3) Making technical amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1449, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1449, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 847            Ways and Means on S.B. No. 1461**

The purpose of this measure is to allow the State to realize revenues on an accelerated basis with regard to the collection of certain taxes.

Specifically, this measure advances from the last day of the month to the fifteenth day of the month the following:

- (1) Monthly, quarterly, or semiannual filing and payment of the general excise tax;
- (2) Monthly, quarterly, semiannual, and annual filing and payment of the transient accommodations tax;

- (3) Filing of the annual reconciliation for the transient accommodations tax;
- (4) Monthly filing of information on which the fuel tax is based and the date of delinquency for payment of fuel tax;
- (5) Monthly filing of returns with regard to the cigarette tax and tobacco tax;
- (6) Monthly payment, on the deferred-payment basis, of the purchase of cigarette tax stamps;
- (7) Monthly report on distributions of cigarettes and tobacco products and purchases of stamps; and
- (8) Monthly, quarterly, semiannual, and annual filing and payment of the rental motor vehicle and tour vehicle surcharge.

The measure also requires the electronic filing of a state tax return and payment of state taxes by electronic funds transfer by any person required to electronically file a federal tax return and electronically remit taxes to the federal government.

Your Committee believes that this measure will generate a one-time windfall gain by accelerating the payment and receipt of certain taxes. Your Committee finds that Act 355, Session Laws of Hawaii 1997, authorized the Governor to convert the State of Hawaii payroll payment basis from predicted payroll to after-the-fact payroll commencing with the June 30, 1998, pay day in fiscal year 1997-1998, which was delayed to July 6, 1998, in fiscal year 1998-1999. That "payroll lag" measure delayed state expenditures to generate a one-time windfall savings.

This measure achieves a similar effect by advancing the filing and payment of various taxes due, from the last calendar day of the month to an earlier date in the month and will generate a one-time savings.

Your Committee received one comment on this measure from one organization. The written comment may be reviewed on the Legislature's website.

Your Committee has amended this measure by amending all proposed filing and payment due dates from the fifteenth day to the twentieth day of the month. Accordingly, your Committee has deleted sections 4, 5, and 11, relating to the annual return and the annual reconciliation filed for the transient accommodations tax and the annual filing and payment of the rental motor vehicle and tour vehicle surcharge tax because those sections currently require filing and payment by the twentieth day of the month. The remaining sections of the measure have been renumbered accordingly.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1461, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1461, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 848      Ways and Means on S.B. No. 496**

The purpose of this measure is to clarify the functions, duties, and roles of the Charter School Review Panel and the Board of Education in the administration and operation of charter schools.

Specifically, this measure:

- (1) Requires a charter school board to comply with Board of Education policies and Department of Education directives regarding special education and federal programs;
- (2) Clarifies that the Charter School Review Panel is subject to the requirements of the sunshine law;
- (3) Authorizes the Board of Education to remove a Charter School Review Panel member for cause;
- (4) Requires the Charter School Review Panel to approve the charter schools budget, capital improvement projects, and recommendations to allocate non-per-pupil facilities funds to charter schools with facilities needs;
- (5) Specifies the duties of the Executive Director of the Charter School Administrative Office with regard to the preparation of the budget;
- (6) Changes the requirements for the per-pupil funding, and reduces the amount the Department of Education may retain for administrative costs from charter schools federal funds; and
- (7) Requires the Charter School Review Panel to evaluate a charter school on its fourth anniversary and every five years after.

Your Committee finds that additional reform is necessary to allow charter schools to continue to strive for excellence through effective and efficient operations.

Your Committee has amended this measure by:

- (1) Clarifying that the budget request submitted by the charter schools shall include all anticipated means of financing;
- (2) Deleting the requirement that the charter schools' budget request for facilities funding include funding for actual enrollment figures in the current school year for each charter school;
- (3) Clarifying that the budget request shall include funding for the projected enrollment for each charter school is for the next school year;
- (4) Clarifying that the salary of the executive director and staff shall not exceed two per cent of the total annual general fund allocation, at an amount to be determined by the panel;

- (5) Clarifying the meaning of the phrase “per-pupil amount”;
- (6) Deleting the requirement that fringe benefit costs paid directly by a charter school to a payroll system provider be reimbursed by the Department of Budget and Finance; and
- (7) Changing the effective date from July 1, 2045, to July 1, 2050, to promote continuing discussion; and
- (8) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 496, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 496, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 849            Ways and Means on S.B. No. 194**

The purpose of this measure is to protect taxpayers from unscrupulous income tax return preparers.

Specifically, this measure:

- (1) Requires tax refunds to be directly deposited into a taxpayer’s own account, instead of a paid income tax return preparer’s account;
- (2) Requires a paid income tax return preparer to sign any tax return or claim for refund prepared on behalf of a client taxpayer; and
- (3) Establishes penalties if a paid income tax return preparer violates the provisions of this measure.

Your Committee finds that concerns have been raised that this measure applies only to paid income tax return preparers, and would not provide protection against violations committed by unpaid income tax return preparers. In light of these concerns, your Committee has amended this measure by:

- (1) Adding a definition of the term “income tax return preparer” that is similar to the definition in the federal Internal Revenue Code; and
- (2) Making the provisions of the measure applicable to unpaid income tax return preparers as well as paid income tax return preparers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 194, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Kokubun).

**SCRep. 850            Ways and Means on S.B. No. 464**

The purpose of this measure is to change the renewable energy technologies income tax credit to a refundable tax credit for certain taxpayers.

The measure removes the restriction on the type of income the tax credit can be used to offset and allows special allocations of the tax credit in certain cases. The measure also excludes a depreciation deduction from passive activity losses.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature’s website.

Your Committee finds that the renewable energy technologies income tax credit provides little financial incentive for investors. Your Committee believes that this measure would make capital investment in renewable energy technologies more attractive to a wider range of investors who would be able to make use of the tax credit.

Your Committee has amended this measure by:

- (1) Removing the provisions that would have made the renewable energy technologies income tax credit refundable;
- (2) Adding a provision that prohibits a taxpayer who claims the renewable energy technologies income tax credit from claiming any other income tax credit using the same actual costs or from qualifying as a qualified high technology business;
- (3) Changing the effective date to January 1, 2090, to facilitate further discussion on the measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 464, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 464, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 851            Energy and Environment on Gov. Msg. No. 423**

Recommending that the Senate advise and consent to the nomination of the following:

KAUA'I AQUATIC LIFE AND WILDLIFE ADVISORY COMMITTEE

G.M. No. 423 SEAN D. IGNE, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Sean D. Igne to have the necessary qualifications to be appointed to the Kaua'i Aquatic Life and Wildlife Advisory Committee.

Testimony in support of Mr. Igne's nomination was submitted by one state department and four individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Mr. Igne received a Certificate of Achievement, Carpentry, from the University of Hawaii/Kauai Community College. He is currently employed with ITT Federal Services as a PW5 Journeyman Painter-Lead, working at the Pacific Missile Range Facility at Barking Sands. Mr. Igne has worked at the Missile Range for the past twenty-one years, in all aspects of facility building maintenance. Mr. Igne's work experiences have involved supervision of other employees, prioritizing different projects, and demonstrating hard work and diligence.

Mr. Igne's involvement with the Kauai community will also make him an asset to the Aquatic Life and Wildlife Advisory Committee. Mr. Igne also has been an avid hunter and fisherman for many years. He has been a member of the Kauai Hunting Club since its inception and has volunteered in numerous State Department of Land and Natural Resources wildlife projects. He has also mentored others, teaching them not only the skills required for hunting, but also the rules and values of hunting. Mr. Igne is a believer in the benefits of conserving natural resources, and he will be able to represent the voice of Kauai residents regarding the use, management, and preservation of Kauai's wildlife areas for generations to come.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Kokubun).

**SCRep. 852 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 43**

The purpose of this measure is to request the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources to apply for accreditation with the Commission on Accreditation for Law Enforcement Agencies, Inc.

Testimony in support of this measure was submitted by one state agency and three organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Commission on Accreditation for Law Enforcement Agencies, Inc. is an internationally recognized professional law enforcement accrediting agency. The Commission's standards are approved by the International Association of Chiefs of Police, the National Organization of Black Law Enforcement Executives, the National Sheriffs' Association, and the Police Executive Research Forum. The standards address nearly every aspect of a law enforcement operation, and assist agencies to develop sound policies that can withstand judicial scrutiny.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 43 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 853 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 23**

The purpose of this measure is to request the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources to apply for accreditation with the Commission on Accreditation for Law Enforcement Agencies, Inc.

Testimony in support of this measure was submitted by one state agency and three organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Commission on Accreditation for Law Enforcement Agencies, Inc. is an internationally recognized professional law enforcement accrediting agency. The Commission's standards are approved by the International Association of Chiefs of Police, the National Organization of Black Law Enforcement Executives, the National Sheriffs' Association, and the Police Executive Research Forum. The standards address nearly every aspect of a law enforcement operation, and assist agencies to develop sound policies that can withstand judicial scrutiny.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 23 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 854 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 384**

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF MAUI AND LANA'I

G.M. No. 384 JONAH KE'EAUMOKU KAPU, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Jonah Ke'eaumoku Kapu to have the necessary qualifications to be nominated to the Island Burial Council for the islands of Maui and Lana'i.

Testimony in support of the nomination of Jonah Ke'eaumoku Kapu was submitted by one state agency and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

According to testimony, Mr. Kapu is an active community leader and Hawaiian cultural practitioner, who brings traditional cultural diversity to the Island Burial Council for the islands of Maui and Lana'i. In addition to currently serving on the Island Burial Council for the islands of Maui and Lana'i, Mr. Kapu is an Advisor/Chief Counsel to the Na Papa Kanaka O Pu'ukohola Heiau; a member of the National Association for Interpretation; Director of Hui O Wa'a Kaulua; Director and Founder of Kuleana Ku'ikahi, LLC, which protects historic sites, properties, and environment; and Cultural Consultant and Founder of Hawaiian Outreach Economic Association Inc., which revitalizes ancient fishponds, sites, and reconstruction of traditional waterways. Mr. Kapu has also previously served a five-year term on the Maui County Cultural Resources Commission, including one year as Vice Chairperson on the West Pacific Fisheries Management Council; and as a Cultural Consultant for the Friends of Moku'ula. He has also completed various seminars and trainings relating to cultural affairs.

Your Committee finds that Mr. Kapu's extensive community involvement and activities as a cultural practitioner make him an excellent candidate to continue serving on the Island Burial Council for the islands of Maui and Lana'i.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Takamine).

**SCRep. 855 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 392**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF AGRICULTURE

G.M. No. 392 DERRICK F. NISHIMURA, for a term to expire 6-30-2010.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Derrick F. Nishimura to have the necessary qualifications to be nominated to the Board of Agriculture.

Testimony in support of the nomination of Derrick F. Nishimura was submitted by two state agencies, one organization, and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Nishimura is a graduate of the Agricultural Leadership Foundation of Hawaii at the University of Hawaii at Manoa's College of Tropical Agriculture and Human Resources, and of the University of Hawaii at Hilo, earning a Bachelor of Science degree in General Agriculture. He is currently the General Manager for Agro Resources, Inc. and has previously held supervisory, support, and technical positions for several businesses in the agriculture and agribusiness industries.

Mr. Nishimura has thirty years of experience in various Hawaii agriculture-related businesses, spanning four islands; a broad range of industries, including papaya, guava, cattle, sugar, macadamia nuts, and coffee; and various job functions, including field operations in guava and coffee production, developing application rates for weed control, recruiting and managing seasonal workers, and maximizing crop yields.

Mr. Nishimura currently serves on the Board of Agriculture and has also served as a former Board member and past Vice President of the Kauai County Farm Bureau, and former Board member and Secretary of the Hawaii Coffee Growers Association. Mr. Nishimura's commitment to help agriculture thrive in Hawaii and his extensive background in agriculture make him a valuable asset to the Board of Agriculture.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Takamine).

**SCRep. 856 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 395**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE AGRIBUSINESS DEVELOPMENT CORPORATION

G.M. No. 395 BRIAN H. SUZUKI, for a term to expire 6-30-2011.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Brian H. Suzuki to have the necessary qualifications to be nominated to the Board of Directors of the Agribusiness Development Corporation.

Testimony in support of the nomination of Brian H. Suzuki was submitted by one state agency and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Suzuki earned a Bachelor of Arts degree in Asian Studies and Japanese Language from the University of Hawaii. He is currently the President and Chief Executive Officer of Hawaii Air Cargo. Mr. Suzuki previously served in the United States Naval Reserve for twelve years, and worked as a Passenger Service Agent and Cargo Service Supervisor for Pan American World Airways and as the Hawaii District Manager for Transpacific Air Cargo.

Mr. Suzuki has been an active member of cultural and air cargo-related associations. He is currently a member of the Board of Governors of the Japanese Cultural Center of Hawaii, the Honolulu Japanese Chamber of Commerce, the Chamber of Commerce of Hawaii, the Hong Kong Business Association of Hawaii, and the Hawaii Export Nursery Association. He is the founder of the national AirForwarders Association and has served in leadership roles for the National Defense Transportation Association, Air Cargo Association of Hawaii, and the Honolulu Japanese Chamber of Commerce.

Mr. Suzuki has served on the Board of Directors of the Agribusiness Development Corporation since July 2008. According to testimony, Mr. Suzuki brings necessary agricultural transportation experience and industry contacts to the Corporation, and is familiar with various farming operations and the uniqueness of each island's transportation issues. This combination of experience and knowledge makes Mr. Suzuki a fine candidate for the Board of the Directors of the Agribusiness Development Corporation.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Takamine).

**SCRep. 857 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 438**

Recommending that the Senate advise and consent to the nomination of the following:

ADVISORY COMMITTEE ON PESTICIDES

G.M. No. 438 WESLEY F. OTANI, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Wesley F. Otani to have the necessary qualifications to be nominated to the Advisory Committee on Pesticides.

Testimony in support of the nomination of Wesley F. Otani was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Otani earned a Bachelor of Science degree in Horticulture from the University of Hawaii at Manoa. He then worked for Kama'aina Farms and HGP Inc., both on Maui, and Brewer Environmental in Honolulu. He is currently the Regional Sales Manager of Terminix International in Honolulu.

Mr. Otani has served on the Advisory Committee on Pesticides under an interim appointment since February 2004, as a representative of the structural pest control industry. According to testimony, Mr. Otani has considerable experience in pesticide sales and use issues and has been an active participant in the Advisory Committee's meetings by providing information on pesticide concerns of the commercial pest control industry. Mr. Otani is an excellent candidate for the Advisory Committee on Pesticides, who would continue to contribute ideas on more effective methods of pest control and better stewardship of pesticides through education, research, and policy making.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Takamine).

**SCRep. 858 Judiciary and Government Operations on Gov. Msg. No. 439**

Recommending that the Senate consent to the nomination of the following:

SUPREME COURT JUSTICE

MARK E. RECKTENWALD, for a term of ten years.

Your Committee received testimony in support of Mark E. Recktenwald from the United States Attorney, District of Hawaii, United States Department of Justice; the State Attorney General; Director of Labor and Industrial Relations; Honolulu Prosecuting Attorney; Hawaii Government Employees Association; Hawaii Financial Services Association; Kailua Neighborhood Board; and numerous individuals. Chief Judge Helen Gillmor, United States District Court; Judge Susan Oki Mollway, United States District Court; Judge J. Michael Seabright, United States District Court; Judge Alan Kay, United States District Court; Judge Leslie Kobayashi, United States District Court submitted favorable comments in response to your Committee's request for comments. Comments were also received from the Board of Directors of the Hawaii State Bar Association. Testimony in opposition was received from two individuals.

The Board of Directors of the Hawaii State Bar Association found the nominee to be qualified for the position of Supreme Court Justice, based upon the criteria of integrity, legal knowledge and ability, professional experience, judicial temperament, diligence, financial responsibility, public service, collegiality, and writing ability.

Mark E. Recktenwald received an AB degree, magna cum laude with the highest honors in anthropology from Harvard University and a JD degree from the University of Chicago Law School. He was admitted to the Hawaii Bar in 1986 and clerked for Chief United

States District Judge Harold M. Fong for one year. In 1988-1991, the nominee worked at the law firm of Goodwill Anderson Quinn and Stifel as a litigation associate. The nominee then went to work at the United States Attorney's Office in Honolulu as a prosecutor in the criminal division from 1991-1997. In 1997, the nominee became a partner in the law firm of Marr Hipp Jones and Wang and specialized in labor and employment litigation. In 1999, the nominee went back to the United States Attorney's Office in Honolulu as an Assistant U.S. Attorney and served in both the civil and criminal divisions of that office until 2003. The nominee prosecuted wildlife crimes, fraud on financial institutions, tax fraud, investment scams, and other fraud cases. In the civil division, the nominee handled cases in which the government sought and negotiated settlements a number of health care fraud cases. The nominee became the Director of the Department of Commerce and Consumer Affairs in 2003.

Judge Recktenwald was appointed in 2007 to the Intermediate Court of Appeals in which he currently serves as Chief Judge. Judge Recktenwald has written ten published opinions, and participated in the decision on the merits of more than two hundred cases. He has also considered hundreds of procedural and substantive motions as part of a three-judge motions panel.

Judge Recktenwald decides appeals involving civil, criminal, family court, and administrative agency matters. The issues on appeal include the suppression or sufficiency of evidence in criminal cases, evidentiary rulings, insurance coverage disputes, statutory interpretation, child custody disputes, and termination of parental rights. In particular, Judge Recktenwald authored three published opinions in which certiorari was subsequently denied: *Inoue v. Inoue*, 118 Hawaii 86 (App. 2008); *State v. Yamada*, 116 Hawaii 422 (App. 2007); and *State v. Mars*, 116 Hawaii 125 (App. 2007).

Your Committee notes that as Chief Judge of the Intermediate Court of Appeals, Judge Recktenwald worked with his colleagues to move forward with the restructuring of the appellate system which began in 2006, under which appeals now come first to the Intermediate Court of Appeals. He has emphasized deciding cases more promptly, without sacrificing the quality of the decisions. He has also emphasized making the court more open and accessible. Judge Recktenwald has also sought opportunities to meet with the legal community, including neighbor island bar associations, to get input on how the Intermediate Court of Appeals is doing.

In particular, your Committee notes the testimony of Judge Recktenwald that his goal as an appellate judge has been to decide cases fairly and promptly, respect the parties who come before the court, and write opinions that are clear, well-reasoned, and fairly apply the law. He wants every litigant, whatever the outcome of their case, to feel that they were treated fairly.

Your Committee finds that, based on the testimony submitted on his behalf, Mark E. Recktenwald has the experience, temperament, judiciousness, and other competencies to be a Supreme Court Justice, and has a good sense of where the equities, rights, and responsibilities lie in a case which is essential for a Supreme Court Justice.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

#### **SCRep. 859      Energy and Environment on Gov. Msg. Nos. 293 and 294**

Recommending that the Senate advise and consent to the nomination of the following:

#### **ENDANGERED SPECIES RECOVERY COMMITTEE**

G.M. No. 293    JOHN T. HARRISON III, for a term to expire 6-30-2009; and

G.M. No. 294    JOHN T. HARRISON III, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds John T. Harrison III to have the necessary qualifications to be appointed to the Endangered Species Recovery Committee.

Your Committee received testimony in support of John T. Harrison III from the State Department of Land and Natural Resources and three individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Dr. Harrison holds a Bachelor of Science degree in Biological Sciences from Stanford University, and a Ph.D. in Zoology, with an emphasis on Marine Ecology, from the University of Hawaii. His professional experience includes positions as the Environmental Coordinator of the University of Hawaii Environmental Center, Special Assistant to the Senior Vice President for Research of the University of Hawaii, and President of Pacific Environmental Consulting, Inc. As the Environmental Coordinator for the University of Hawaii's Environmental Center, Dr. Harrison coordinated environmental services provided by the University, including formal reviews of environmental impact statements and other assessments, and developed the curriculum for upper division courses in environmental law, policy, and management.

As head of the University of Hawaii Environmental Center, Dr. Harrison served as an ex officio member of the Endangered Species Recovery Committee from its inception in 1998 until his full retirement at the end of 2007. Dr. Harrison was appointed to the Endangered Species Recovery Committee on an interim basis in October 2008. His training and experience in ecology and ecosystem dynamics has included extensive work on ecosystem responses to human-induced perturbations, and these experiences have been helpful in Committee deliberations.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Kokubun).

**SCRep. 860 Human Services on S.R. No. 10**

The purpose of this measure is to request the Senate President, the Speaker of the House of Representatives, and the Governor to form the Home for Life Task Force to coordinate research and actions to reduce barriers to aging in place and to facilitate multigenerational living.

Testimony in support of this measure was submitted by the Disability and Communication Access Board, the State Council on Developmental Disabilities, two organizations, and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the population of older adults in Hawaii is expected to increase, and that consequently the demand for services and housing for older adults will increase. In accordance with the United States Administration on Aging's goal of enabling older adults to age in place, your Committee further finds that multigenerational housing may allow the provision of support services to older adults by family caregivers while also providing housing for families who may find it difficult to secure affordable housing.

Your Committee recognizes the need for creative and flexible housing options to satisfy the anticipated increase in demand for suitable housing options for older adults. Your Committee therefore requests that the Senate President, Speaker of the House of Representatives, and the Governor assemble and convene a Home for Life task force to examine:

- (1) Building and zoning codes that present barriers to the conversion of single-family dwellings to multigenerational homes;
- (2) Modifications to existing homes that may allow older adults to age in place;
- (3) Training of personnel to recommend structural modifications to existing structures to allow older adults to age in place;
- (4) The use of universal design principles in renovation and new construction projects; and
- (5) Incorporation of universal design principles into existing building and zoning codes.

Your Committee has amended this measure by:

- (1) Amending all references to "multigenerational" housing or living to "multigenerational or accessible" housing or living, respectively, as some individuals with disabilities are only seeking accessibility features in homes;
- (2) Adding the Disability and Communication Access Board as a recipient of a copy of the measure; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 10, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 10, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 861 Human Services on S.C.R. No. 7**

The purpose of this measure is to request the Senate President, the Speaker of the House of Representatives, and the Governor to form the Home for Life Task Force to coordinate research and actions to reduce barriers to aging in place and to facilitate multigenerational living.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 7, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 7, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 862 Human Services on S.R. No. 12**

The purpose of this measure is to designate the first week in February 2010 as "Hawaii Teen Dating Violence and Prevention Week".

Testimony in support of this measure was submitted by two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that data on the incidence of teen dating violence warrants greater efforts to promote dating violence awareness and prevention education in Hawaii.

Your Committee supports the designation of the first week of February 2010 as "Hawaii Teen Dating Violence Awareness and Prevention Week" and encourages the people of Hawaii, high schools, law enforcement personnel, state and local officials, and interested groups to observe Hawaii Teen Dating Violence Awareness and Prevention Week.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 12, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 12, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 863 Human Services on S.C.R. No. 15**

The purpose of this measure is to designate the first week in February 2010 as "Hawaii Teen Dating Violence and Prevention Week".

Testimony in support of this measure was submitted by two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that data on the incidence of teen dating violence warrants greater efforts to promote dating violence awareness and prevention education in Hawaii.

Your Committee supports the designation of the first week of February 2010 as "Hawaii Teen Dating Violence Awareness and Prevention Week" and encourages the people of Hawaii, high schools, law enforcement personnel, state and local officials, and interested groups to observe Hawaii Teen Dating Violence Awareness and Prevention Week.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 15, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 864 Human Services on S.R. No. 11**

The purpose of this measure is to encourage participation in the White Ribbon Campaign to end domestic violence against women.

Testimony in support of this measure was submitted by two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that domestic violence is a significant problem nationally and locally, with 8,013 reported cases of domestic violence in Hawaii in 1999. Your Committee recognizes the devastating physical and emotional impacts of domestic violence on women, children, and families; the \$8-10 billion in economic losses due to absenteeism, medical costs, employee turnover, lost productivity, and other costs; and the need for strong male role models who are willing to express their commitment to ending violence against women.

Your Committee supports the White Ribbon Campaign's goal of ending all forms of violence against women and encourages the people of Hawaii to join individuals in over fifty-five countries by wearing white ribbons as a symbol of men's opposition to violence against women and as a pledge to never commit, condone, or remain silent about violence against women.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 11, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 11, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 866 Human Services on S.R. No. 8**

The purpose of this measure is to request the Executive Office on Aging and the Center on Aging at the University of Hawaii at Manoa to continue research and analyses to:

- (1) Develop a cash and counseling model and to apply for related grants;
- (2) Determine how best to compensate caregivers for necessary personal services;
- (3) Determine best practices for state agencies to collaborate and coordinate with area agencies on aging and local community service providers (including those for the disabled community);
- (4) Enhance funding from all sources for Medicaid and Medicare services, including but not limited to, removing or adjusting income limits and non-exempt asset limitations;
- (5) Determine how best to accommodate language barriers;
- (6) Determine how best to overcome access to long-term care services barriers; and
- (7) Identify more funding sources for long-term care services.

Testimony in support of this measure was submitted by the Office of Language Access and the Executive Office on Aging. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that several states currently implement cash and counseling programs, which allow participants to use their Medicare-provided personal assistance monies to hire their own personal care aides and to purchase items or services. Your Committee finds that these cash and counseling programs allow people to "age in place" and to hire their friends or relatives as caregivers. However, despite some financial support through cash and counseling programs, family caregivers are usually paid lower-than-average wages for a small fraction of the hours of service they actually provide.

Accordingly, your Committee encourages the Executive Office on Aging and the Center on Aging at the University of Hawaii at Manoa to continue research and analysis on cash and counseling programs, caregiver compensation, overcoming language barriers for over forty-five thousand elderly people of limited English proficiency, and best practices to allow the elderly and disabled to access long-term care services.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 8, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 8, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 867 Human Services on S.C.R. No. 5**

The purpose of this measure is to request the Executive Office on Aging and the Center on Aging at the University of Hawaii at Manoa to continue research and analyses to:

- (1) Develop a cash and counseling model and to apply for related grants;
- (2) Determine how best to compensate caregivers for necessary personal services;
- (3) Determine best practices for state agencies to collaborate and coordinate with area agencies on aging and local community service providers (including those for the disabled community);
- (4) Enhance funding from all sources for Medicaid and Medicare services, including but not limited to, removing or adjusting income limits and non-exempt asset limitations;
- (5) Determine how best to accommodate language barriers;

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 868 Human Services on S.R. No. 15**

The purpose of this measure is to encourage faith-based organizations in the State to network and cooperate to support foster families in Hawaii, such as by forming foster family ministries.

Testimony in support of this measure was submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that despite the development of innovative programs to protect and serve children and families, there is still a great need for foster homes.

Your Committee recognizes that Kokua Ohana, a foster care program that is the product of collaboration between the Partners in Development Foundation and the Department of Human Services, has successfully worked with churches and Native Hawaiian community organizations to recruit, train, and support Hawaii's foster families as a community effort. Your Committee encourages other faith-based organizations to network and collaborate similarly to effect positive changes for Hawaii's keiki and families.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 869 Human Services on S.C.R. No. 19**

The purpose of this measure is to encourage faith-based organizations in the State to network and cooperate to support foster families in Hawaii, such as by forming foster family ministries.

Testimony in support of this measure was submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that despite the development of innovative programs to protect and serve children and families, there is still a great need for foster homes.

Your Committee recognizes that Kokua Ohana, a foster care program that is the product of collaboration between the Partners in Development Foundation and the Department of Human Services, has successfully worked with churches and Native Hawaiian community organizations to recruit, train, and support Hawaii's foster families as a community effort. Your Committee encourages other faith-based organizations to network and collaborate similarly to effect positive changes for Hawaii's keiki and families.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 19, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 870 (Joint) Economic Development and Technology and Public Safety and Military Affairs on S.C.R. No. 24**

The purpose of this measure is to urge full preservation of United States Marine Corps Air Station Ewa as a national monument, museum, and restored park for the State of Hawaii.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, State of Hawaii Office of Veterans Services, Save Ewa Field, Kailua Neighborhood Board, and three concerned individuals. Comments on this measure were submitted by Historic Hawaii Foundation. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the historical significance of United States Marine Corps Air Station Ewa is extensive and deserves to be protected. Specifically, your Committees find that it is important to preserve the land, buildings, and structures at United States Marine Corps Air Station Ewa that played a role during World War II and the attack on Pearl Harbor so that those pieces of Hawaii's history can be studied by future generations and historians.

Your Committees have amended this measure by:

- (1) Urging that the Legislature support the preservation of the Marine Corps Air Station Ewa rather than the President of the United States, the United States Secretary of Defense, and the United States Secretary of the Interior;
- (2) Requesting Hawaii's congressional delegation to support the efforts to preserve and memorialize Marine Corps Air Station Ewa;
- (3) Transmitting certified copies of this measure to the Commander of the United States Pacific Fleet and the Hunt Development Group rather than to the President of the United States, the United States Secretary of Defense, and the United States Secretary of the Interior; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 24, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 24, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (Bunda, English, Gabbard, Hee).

**SCRep. 871 Public Safety and Military Affairs on S.R. No. 28**

The purpose of this measure is to urge the Governor to proclaim 2009 as the Year of the Army Noncommissioned Officer Corps of the United States Army.

Testimony in support of this measure was submitted by one federal agency, one state agency, and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the noncommissioned officers of the United States Army have served our country for over two hundred years and have played a vital role in protecting our safety and preserving our freedom over that length of time. Your Committee also finds that the noncommissioned officers of the United States Army have been recognized by many other countries around the world as a model for military professionalism, competence, and efficiency.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity, including making a nonsubstantive change to the measure's title to eliminate redundancy.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 28, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 28, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Kidani).

**SCRep. 872 Public Safety and Military Affairs on S.C.R. No. 47**

The purpose of this measure is to urge the Governor to proclaim 2009 as the Year of the Army Noncommissioned Officer Corps of the United States Army.

Testimony in support of this measure was submitted by one federal agency, one state agency, and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the noncommissioned officers of the United States Army have served our country for over two hundred years and have played a vital role in protecting our safety and preserving our freedom over that length of time. Your Committee also finds that the noncommissioned officers of the United States Army have been recognized by many other countries around the world as a model for military professionalism, competence, and efficiency.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity, including making a nonsubstantive change to the measure's title to eliminate redundancy.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Kidani).

**SCRep. 873 Commerce and Consumer Protection on Gov. Msg. No. 416**

Recommending that the Senate advise and consent to the nomination of the following:

MOTOR VEHICLE REPAIR INDUSTRY BOARD

G.M. No. 416 ROY M. SASUGA, for a term to expire 6-30-2010.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs, Island Insurance Companies, Matsukawa Insurance Agency, and two private citizens. A written statement and resume was also received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee for appointment to the Motor Vehicle Repair Industry Board possesses the qualifications, background, and experience to contribute in a positive and constructive manner on matters that will come before the Board. Your Committee notes that the nominee's professional experience includes approximately thirty years as a claims adjuster and claims manager which involved working as a liaison between insurance consumers and auto repair shops. Your Committee finds that the nominee demonstrates knowledge and perspective, as well as experience participating in professional organizations, which will be valuable to the Board. Your Committee further finds that this nominee was appointed based on experience, integrity, and a commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 874 Commerce and Consumer Protection on Gov. Msg. No. 277**

Recommending that the Senate advise and consent to the nomination of the following:

MOTOR VEHICLE INDUSTRY LICENSING BOARD

G.M. No. 277 WERNER UMBHAU, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs and JN Group, Inc. A resume and written statement were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee for reappointment to the Motor Vehicle Industry Licensing Board is uniquely qualified to continue service on the Board. Your Committee notes that the nominee has extensive professional experience in the financial sector, including almost thirty years in financing auto dealerships and managing a bank retail car loan portfolio. Your Committee finds that the nominee is widely respected by his colleagues and contributes to the Board through critical assessment of issues and balancing the need to protect consumers with the need to promote commerce. Your Committee further finds that this nominee has been reappointed based on his knowledge, integrity, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 875 Commerce and Consumer Protection on Gov. Msg. No. 251**

Recommending that the Senate advise and consent to the nomination of the following:

CABLE ADVISORY COMMITTEE

G.M. No. 251 JOHN K. GIBO, for a term to expire 6-30-2010.

Your Committee received a written statement and resume from the nominee. The Department of Commerce and Consumer Affairs presented testimony in support of the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee currently serves as an interim appointee on the Cable Advisory Committee and is learning about the issues that face the Cable Advisory Committee. Your Committee notes that the nominee understands the function and responsibilities of the Cable Advisory Committee and expresses a commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 876 Commerce and Consumer Protection on Gov. Msg. No. 248**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 248 WARREN J. FERREIRA, for a term to expire 6-30-2013.

Testimony in support of the nomination of Mr. Ferreira was submitted by the Department of Commerce and Consumer Affairs, ASIS Hawaii Chapter 134, and one private citizen. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee for reappointment to the Board of Private Detectives and Guards is highly qualified for reappointment to the Board. Your Committee finds that the nominee is a diligent and contributing member of the Board and an effective and efficient facilitator of discussions. Your Committee notes that the nominee has twenty-nine years of experience in public policing, including six years as Deputy Chief of Police, and seventeen years experience in the private security field as well as experience as a university-level lecturer, expert witness, and active participant in professional organizations. Your Committee further finds that this nominee was reappointed based on his knowledge, broad experience, integrity, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 877 Commerce and Consumer Protection on Gov. Msg. Nos. 253 and 279**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF ACUPUNCTURE

G.M. No. 253 RANDALL M. HASHIMOTO, for a term to expire 6-30-2012; and

G.M. No. 279 ULRIKE WEISS, for a term to expire 6-30-2013.

Your Committee received testimony in support of Ms. Weiss from the Department of Commerce and Consumer Affairs and one private citizen. Your Committee received testimony in support of Mr. Hashimoto from the Department of Commerce and Consumer Affairs. Curricula vitae and personal statements were received from both nominees. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the reappointment of Ulrike Weiss and the appointment of Randall M. Hashimoto to the Board of Acupuncture will enhance the effectiveness of the Board. Your Committee finds that Ms. Weiss, the longest-standing member of the Board, possesses broad institutional knowledge and has earned the respect and confidence of her fellow members. Your Committee finds that Mr. Hashimoto, who currently serves as an interim appointee to the Board, has successfully drawn on his past experience serving on the Board of Professional Engineers, Surveyors, and Landscape Architects to share valuable insights that have assisted the Board in its discussion and decision-making. Your Committee further finds that both nominees have been appointed based on their credentials, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 878 Commerce and Consumer Protection on Gov. Msg. No. 273**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF EXAMINERS IN OPTOMETRY

G.M. No. 273 JOY BERNADETTE YUKIKO SHIMABUKU, for a term to expire 6-30-2013,

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs and one private citizen. A personal statement and resume was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee for reappointment to the Board of Examiners in Optometry is very familiar with her duties and responsibilities, is professional, impartial, and asks difficult questions. Your Committee notes that the nominee has previously served as a licensee-member on the Board of Barbering and Cosmetology and gained insight into the decision-making process and the impact of regulatory boards on their respective industries and the public. Your Committee further finds that the nominee has been reappointed based on her integrity, character, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 879 Commerce and Consumer Protection on Gov. Msg. No. 276**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHYSICAL THERAPY

G.M. No. 276 MICHAEL D. TURNER, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs and the Hawaii Chapter of the American Physical Therapy Association. A personal statement and curriculum vitae was also received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, Your Committee finds that the nominee for reappointment to the Board of Physical Therapy is an informative and active participant in discussions and has volunteered additional hours in a working group to develop administrative rules. Your Committee notes that the nominee is a practitioner of physical therapy with experience in diverse work environments and is active in teaching and clinical research in the field. Your Committee finds that this nominee has been reappointed based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 880 Commerce and Consumer Protection on Gov. Msg. No. 271**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF VETERINARY EXAMINERS

G.M. No. 271 REBECCA H. RHOADES DVM, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A personal statement and curriculum vitae were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee for reappointment to the Board of Veterinary Examiners actively participates in discussions, is consistently well-prepared, and makes significant contributions to the Board. Your Committee notes that the nominee is the only large-animal veterinarian currently serving on the Board and that the nominee's professional background includes a wide range of experience in the private, public, and nonprofit sectors. Your Committee further finds that this nominee has been reappointed based on her integrity, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 881 Commerce and Consumer Protection on Gov. Msg. No. 275**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF ELECTRICIANS AND PLUMBERS

G.M. No. 275 MAURICE F. TORIGOE, for a term to expire 6-30-2013.

Your Committee received testimony from the Department of Commerce and Consumer Affairs and Associated Builders and Contractors of Hawaii. A written statement was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee for reappointment to the Board of Electricians and Plumbers is a diligent and contributing member who devotes additional time outside of Board meetings to review applications. Your Committee notes that the nominee is both a licensed plumber and an employer, doing business as a plumbing contractor. Your Committee finds that the nominee has dedicated himself to the advancement of the profession, including by serving as a teacher in an apprenticeship program, participating in a continuing competency program for licensees, and actively participating in professional organizations. Your Committee finds that this nominee was reappointed based on his knowledge, integrity, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 882 Commerce and Consumer Protection on Gov. Msg. Nos. 252 and 264**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DENTAL EXAMINERS

G.M. No. 252 MARIAN J. GREY, for a term to expire 6-30-2013; and

G.M. No. 264 CHERYL M. NAKAGAWA RDH, for a term to expire 6-30-2013.

Your Committee received testimony in support of the reappointment of both nominees from the Department of Commerce and Consumer Affairs. Personal statements and curricula vitae were received from the nominees. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee notes that Marian J. Grey's background as a former dental assistant gives her knowledge and perspective that is valuable to the Board. Ms. Grey has also contributed to the Board through serving as a member of the Rules/Legislative Committee and has devoted many additional hours in the Committee's deliberations on amending the Board's administrative rules.

Your Committee notes that Cheryl M. Nakagawa is always prepared for meetings and shares valuable insights based on her many years of experience as a licensed dental hygienist. Ms. Nakagawa has contributed her time as chair of the Rules/Legislative Committee and as the Board's representative at legislative hearings.

Your Committee finds that the nominees have each made valuable contributions to the Board of Dental Examiners during their current terms and that the reappointment of both nominees will enhance the effectiveness of the Board. Your Committee further finds that the nominees have been reappointed to the Board of Dental Examiners based on their credentials, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 883 Commerce and Consumer Protection on Gov. Msg. No. 265**

Recommending that the Senate advise and consent to the nomination of the following:

ELEVATOR MECHANICS LICENSING BOARD

G.M. No. 265 RONALD H. NAKAMINE, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A statement and resume was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee for reappointment to the Elevator Mechanics Licensing Board is able to objectively evaluate the issues facing the Board and to balance the interests of consumers and licensees. Your Committee notes that this nominee has thirty-eight years of experience as a journeyman elevator mechanic, serves on the executive board of Elevator Union Local 126, serves on the joint elevator apprenticeship committee, and is an instructor for the elevator trade apprenticeship program at Honolulu Community College. Your Committee finds that this nominee has been reappointed based on his experience, knowledge and commitment to public safety and service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 884 Commerce and Consumer Protection on Gov. Msg. Nos. 267 and 270**

BOARD OF PSYCHOLOGY

G.M. No. 267 CAROL L. NOWAK, for a term to expire 6-30-2012; and

G.M. No. 270 MARGO I. PETER, for a term to expire 6-30-2012.

Testimony in support of the nomination of Ms. Nowak was submitted by the Department of Commerce and Consumer Affairs, the North Hawaii Outcomes Project, the Sex Abuse Treatment Center, the Waianae Coast Comprehensive Health Center, and one private citizen. Testimony in support of the nomination of Ms. Peter was submitted by the Department of Commerce and Consumer Affairs, the University of Hawaii Center for Cognitive Behavior Therapy, and three private citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominees for appointment to the Board of Psychology possess the requisite qualifications to serve on the Board. Your Committee finds that Dr. Nowak currently serves as an interim appointee to the Board and has proven to be an extremely reliable member who stimulates thoughtful discussion and provides sound recommendations. Your Committee notes that Dr. Nowak has a diverse background in private practice, teaching, and supervision in both the private and non-profit sectors. Your Committee finds that Dr. Peter currently serves as an interim appointee to the Board and has proven to be an exceptional member who exemplifies all the qualities of a diligent professional. Your Committee notes that Dr. Peter has an extensive background that includes academia, clinical practice, and social service provision in the public, private, and non-profit sectors. Your Committee further finds that the nominees were appointed based on their knowledge, integrity, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 885 Commerce and Consumer Protection on Gov. Msg. Nos. 263 and 415**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF MASSAGE THERAPY

G.M. No. 263 OLIVIA B. NAGASHIMA, for a term to expire 6-30-2010; and

G.M. No. 415 WENDEE J. WILSON, for a term to expire 6-30-2013.

Testimony in support of the nomination of Olivia B. Nagashima was submitted by the Department of Commerce and Consumer Affairs, the Massage Therapists Association of Hawaii, the Hawaiian Islands School of Massage, and two private citizens. Testimony in support of the nomination of Wendee J. Wilson was submitted by the Department of Commerce and Consumer Affairs and one private citizen. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominees to the Board of Massage Therapy possess the requisite qualifications to serve on the Board. Your Committee finds that Ms. Nagashima currently serves as an interim appointee to the Board and has demonstrated dedication to serving her professional community through preparedness and participation in discussions. Your Committee notes that Ms. Nagashima's experience with the Board includes attending and observing meetings in her capacity as President of the Massage Therapists Association of Hawaii, a professional organization, prior to her interim appointment. Your Committee finds that Ms. Wilson is currently a member of the Board of Massage Therapy and has demonstrated a willingness to learn and understand the profession and practice of massage therapy. Your Committee notes that Ms. Wilson's preparedness and participation in meetings has earned the respect of her Board colleagues, who unanimously elected her to serve as Chair. Your Committee finds that Ms. Wilson possesses an ability to focus on the issues and conduct Board meetings in an orderly and effective manner. Your Committee further finds that both nominees were appointed based on their knowledge, integrity, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 886 Commerce and Consumer Protection on Gov. Msg. No. 258**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF ACUPUNCTURE

G.M. No. 258 LAN K. KAO, for a term to expire 6-30-2012.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs, the Institute of Clinical Acupuncture and Oriental Medicine, and two private citizens. Your Committee also received a personal statement and curriculum vitae from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee is uniquely qualified to serve on the Board of Acupuncture. Your Committee finds that the nominee's outstanding educational background and professional experience practicing acupuncture and sitting on other regulatory boards make her highly qualified for the present appointment. Your Committee notes that the nominee's professional experience includes both the practice of Chinese medicine, including acupuncture, as its own discipline and the integration of Chinese medicine with Western medicine as complementary practices. Your Committee further finds that this nominee has been appointed based on her credentials, excellent professional reputation, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 887 Commerce and Consumer Protection on Gov. Msg. No. 256**

Recommending that the Senate advise and consent to the nomination of the following:

ELEVATOR MECHANICS LICENSING BOARD

G.M. No. 256 JUDITH A. JORDAN, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee will work diligently as a public member of the Elevator Mechanics Licensing Board. Your Committee notes that the nominee recognizes the concerns of the public, especially elderly persons, who depend on safe, reliable elevators to maintain their independence as well as the concerns of elevator inspectors and mechanics who perform an important job in difficult or dangerous conditions. Your Committee finds that the nominee has been reappointed to serve a second term on the Elevator Mechanics Licensing Board based on her enthusiastic commitment to public service and public safety and ability to evaluate the issues facing the Board objectively, balancing the interests of consumers and licensees.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 888 Commerce and Consumer Protection on Gov. Msg. No. 255**

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF NURSING

G.M. No. 255 JAMES S. HOBAN JR., for a term to expire 6-30-2012.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs and the Healthcare Association of Hawaii. Your Committee also received a personal statement and curriculum vitae from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee has served diligently and unselfishly as an interim appointee to the Board of Nursing since July 1, 2008. Your Committee notes that the nominee is a co-owner and Chief Financial Officer of a Medicare-certified home health agency which gives him insight into both the financial and service-provision aspects of nursing and health care. Your Committee further finds that this nominee has been appointed based on his qualifications, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 889 Commerce and Consumer Protection on Gov. Msg. Nos. 250 and 261**

Recommending that the Senate advise and consent to the nominations of the following:

PEST CONTROL BOARD

G.M. No. 250 ALVIN F. FUKUYAMA, for a term to expire 6-30-2013.; and

G.M. No. 261 ROBERT H. KOIDE, for a term to expire 6-30-2013.

Your Committee received testimony in support of Alvin F. Fukuyama's nomination from the Department of Commerce and Consumer Affairs, Hawaii Pest Control Association, and one private citizen. Your Committee received testimony in support of Robert H. Koide's nomination from the Department of Commerce and Consumer Affairs and Hawaii Pest Control Association. Personal statements and curricula vitae were received from both nominees. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that both nominees are qualified for reappointment to the Pest Control Board. Your Committee finds that, as part of the Pest Control Board's applications review committee, Mr. Fukuyama has worked diligently outside of regularly scheduled meetings. Your Committee finds that Mr. Koide has been recognized for his good business practices by the Better Business Bureau and has done important work to reduce the amount of toxins required for pest control. Your Committee further finds that both nominees have been reappointed to the Pest Control Board based on their experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 890 Commerce and Consumer Protection on Gov. Msg. No. 249**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DENTAL EXAMINERS

G.M. No. 249 DAN F. FUJII DDS, MPH, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs, Hawaii Primary Care Association, Waianae Coast Comprehensive Health Center, Kokua Kalihi Valley, and two private citizens. A personal statement and curricula vitae were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee's experience in the profession of dentistry, commitment to public service, and proven leadership on the Board of Dental Examiners qualify him for reappointment to the Board of Dental Examiners. Your Committee notes that the nominee practices dentistry at a community health clinic where he serves a traditionally underserved population and oversees a dental residency program which allows the nominee to contribute practical knowledge to matters before the Board of Dental Examiners. Your Committee further finds that this nominee has been reappointed to the Board of Dental Examiners based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 891 Commerce and Consumer Protection on Gov. Msg. No. 247**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAI'I HURRICANE RELIEF FUND

G.M. No. 247 HAROLD R. DE COSTA, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs, the Department of Human Resources Development, the Department of Education, the Iron Workers Stabilization Fund, and three private citizens. A personal statement and curriculum vitae was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, you Committee finds that the nominee has an excellent fund management background and is highly qualified for a position on the Board of Directors of the Hawai'i Hurricane Relief Fund (HHRF Board). Your Committee notes that the nominee's background in labor management and collective bargaining is in accord with the HHRF Board's traditional practice of including a member with a labor background. Your Committee further finds that the nominee has been reappointed to the HHRF Board based on his credentials, integrity, fairness, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 892 Commerce and Consumer Protection on Gov. Msg. No. 246**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII MEDICAL BOARD

G.M. No. 246 BRIAN E. CODY, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A personal statement and curricula vitae was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee for reappointment to the Hawaii Medical Board has contributed greatly to Board discussions and is very good at discussing issues without taking sides. Your Committee notes that this nominee offers a unique perspective to the Board because of his background and experience as an administrator at Kaiser Permanente. Your Committee further finds that this nominee has been reappointed to the Hawaii Medical Board based on his extensive administrative experience, understanding of the purpose of the Board, meaningful participation at Board meetings, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 893 Commerce and Consumer Protection on Gov. Msg. No. 245**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHARMACY

G.M. No. 245 MARK E. BROWN, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A personal statement and curriculum vitae was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee's continued service on the Board of Pharmacy will enhance the effectiveness of the Board. Your Committee notes that the nominee has been a licensed pharmacist since 1996 and due to his knowledge of pharmacy practice laws and rules, has been selected by his colleagues on the Board to represent Hawaii to the National Association of Boards of Pharmacy. Your Committee finds that the nominee was reappointed to the Board of Pharmacy based on his credentials, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

**SCRep. 894 Commerce and Consumer Protection on Gov. Msg. No. 244**

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 244 LEE ANN M. APAO, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs and five private citizens. A personal statement and curriculum vitae was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the reappointment of this nominee to the Board of Barbering and Cosmetology will continue to enhance the effectiveness of the Board. Your Committee notes that this nominee contributes a valuable perspective to the Board as a small business owner providing cosmetology services on a neighbor island. Your Committee further finds that this nominee has been reappointed based on her integrity, responsibility, and professionalism in the field of cosmetology.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 895 Commerce and Consumer Protection on Gov. Msg. No. 243**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHYSICAL THERAPY

G.M. No. 243 CHARLES A. AKI, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs. A personal statement and curriculum vitae was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of testimony submitted, your Committee finds that the nominee's continued service on the Board of Physical Therapy will contribute to the Board's effectiveness. Your Committee notes that the nominee, as a public member of the Board of Physical Therapy for the past seven years, has been chosen by his fellow Board members to represent the Board at national meetings and conferences. Your Committee further finds that the nominee's reappointment as a public member of the Board of Physical Therapy is based on his commitment to health and wellness, thoughtful preparation, and meaningful participation at meetings.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 896 (Joint) Public Safety and Military Affairs and Judiciary and Government Operations on S.R. No. 20**

The purpose of this measure is to:

- (1) Urge the Postmaster General to approve the issuance of a commemorative stamp that honors the significant contributions of the Nisei soldiers for the United States Army during World War II;
- (2) Urge the Postmaster General to approve the issuance of a commemorative stamp that honors other distinguished United States military units that have served throughout history; and
- (3) Urge the Postmaster General to approve the issuance of a commemorative stamp that honors individuals and organizations who made significant contributions to enhancing race relations and who worked toward ending discrimination based on race or national origin in the United States.

Testimony in support of this measure was submitted by two private organizations and one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that honoring the Nisei soldiers by issuing a commemorative stamp will provide much deserved public notoriety to the efforts, bravery, and sacrifices made by the soldiers during World War II. Your Committees also find that honoring other distinguished United States military units as well as those individuals and organizations that worked toward ending discrimination based on race or national origin in the United States with a commemorative stamp is well-deserving and long overdue.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Judiciary and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 20, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 20, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 1 (Hemmings).

**SCRep. 897 (Joint) Public Safety and Military Affairs and Judiciary and Government Operations on S.C.R. No. 33**

The purpose of this measure is to:

- (1) Urge the Postmaster General to approve the issuance of a commemorative stamp that honors the significant contributions of the Nisei soldiers for the United States Army during World War II;
- (2) Urge the Postmaster General to approve the issuance of a commemorative stamp that honors other distinguished United States military units that have served throughout history; and
- (3) Urge the Postmaster General to approve the issuance of a commemorative stamp that honors individuals and organizations who made significant contributions to enhancing race relations and who worked toward ending discrimination based on race or national origin in the United States.

Testimony in support of this measure was submitted by two private organizations and one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that honoring the Nisei soldiers by issuing a commemorative stamp will provide much deserved public notoriety to the efforts, bravery, and sacrifices made by the soldiers during World War II. Your Committees also find that honoring other distinguished United States military units as well as those individuals and organizations that worked toward ending discrimination based on race or national origin in the United States with a commemorative stamp is well-deserving and long overdue.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Judiciary and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 33, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 33, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 10. Noes, none. Excused, 1 (Hemmings).

**SCRep. 898 Economic Development and Technology on S.C.R. No. 42**

The purpose of this measure is to urge the United States Congress to designate the ahupuaa area in Honolulu that is located between Kalihi Street and Punahou Street, and the Pali Lookout and the Pacific Ocean as a National Heritage Area.

Testimony in support of this measure was submitted by the Hawaii State Foundation on Culture and the Arts, University of Hawaii at Manoa, Historic Hawaii Foundation, Downtown Neighborhood Board No. 13, Hawaii Capital Cultural Coalition, Hard Rock Cafe, Belt Collins Hawaii Ltd., and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the designated area in this measure presents a magnificent concentration of natural, cultural, historic, and scenic resources that should be preserved and recognized as a National Heritage Area. According to the National Park Service of the United States Department of the Interior, the location identified in this measure is an area "designated by the United States Congress where natural, cultural, historic and recreational resources combine to form a cohesive, nationally-distinctive landscape arising from patterns of human activity shaped by geography." This area also tells important stories about the people who occupied this area.

Designating the area as a National Heritage Area allows for use of federal funds to maintain, preserve, and protect its physical character and cultural legacy. The designation of a National Heritage Area provides businesses, government, residents, and non-profit organizations the opportunity to collaborate their efforts to promote conservation, community revitalization, and economic development projects. National Heritage Areas also offer an innovative means by which citizens, in partnership with local, state and federal government agencies, and non-profit and private sector interests, can shape the long-term future of their communities. National Heritage Areas work across cultural boundaries by identifying important cultural landscapes that are linked thematically, historically, or geographically.

Your Committee acknowledges with appreciation the pivotal work undertaken by the Honolulu Capital Cultural Coalition and its supporters to bring this project to the point of seeking National Heritage Area designation. Your Committee recognizes that state policymakers must also play a role in helping to develop additional resources for this National Heritage Area through alternatives, such as state and county tax incentives for cultural districts, the establishment of heritage funds, making available revolving loan funds to promote small business development within the National Heritage Area, using bond financing, and public or private development agreements. As the State of Hawaii embarks on achieving its fiftieth anniversary of statehood, it is especially appropriate to pursue this visionary initiative to maintain, preserve, and protect the first nominee in Hawaii for National Heritage Area designation.

Finally, your Committee notes that this initiative provides an opportunity to showcase the breadth and diversity of Hawaii's multicultural heritage and help strengthen the role of the Bishop Museum in protecting Hawaii's unique cultural and historical assets. The Bishop Museum anchors the Kapalama end of the area identified in this measure, and it is your Committee's hope that the Bishop Museum will be a strong leader in identifying additional cultural landscapes with thematic, historical, and geographical linkages.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 42 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 899 Education and Housing on Gov. Msg. Nos. 281 and 419**

Recommending that the Senate advise and consent to the nominations of the following:

**BOARD OF DIRECTORS OF THE HAWAII PUBLIC HOUSING AUTHORITY (HPHA)**

G.M. No. 281 SAM AIONA, for a term to expire 6-30-2011; and

G.M. No. 419 KAULANA H.R. PARK, for a term to expire 6-30-2013.

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Sam Aiona and Kaulana H.R. Park to have the necessary qualifications to be appointed to the Hawaii Public Housing Authority.

Testimony in support of Sam Aiona was submitted by four state agencies and seven individuals.

Sam Aiona has served as Executive Director of the Office of Community Services, Department of Labor and Industrial Relations since 2003, and as a Loan Officer with American Pacific Mortgage since 1999. At the Office of Community Services, he is responsible for a budget of over \$10,000,000, serving nonprofit organizations throughout the State. In addition to extensive sales and marketing experience in the tourism industry, Mr. Aiona served as a Representative in the House of Representatives from 1996-1998. He holds a Bachelor of Arts in Political Science from the University of Hawaii and was a 1999 Pacific Century Fellow. Mr. Aiona is active in a wide range of community activities, including Founding President of the Waikiki Jaycees, Kuhio Lions Club, and as a volunteer for Habitat for Humanity, Special Olympics, and many other nonprofit organizations. He is a reappointment to the Hawaii Public Housing Authority.

Testimony in support of Kaulana H.R. Park was submitted by three state agencies, one private organization, and five individuals.

Kaulana H.R. Park has served as Deputy Director to the Chairman and Director of the Department of Hawaiian Home Lands since 2003, where he is responsible for management oversight of the Department's managers and administrators and for special projects, including affordable housing, homeless programs, and community development. From 1997-2003, he was a Business Loan Manager and Officer at the Office of Hawaiian Affairs, and he has extensive experience in the banking industry in Hawaii and California. Mr. Park holds a Bachelor of Science in Petroleum Engineering from Stanford University, California, and was a Pacific Century Fellow in 2003. He is active in numerous professional and community organizations, including the Native Hawaiian Chamber of Commerce, United States Commission on Civil Rights Hawaii Advisory Committee, and served as an officer of the Hotel Travel Federal Credit Union. He is a reappointment to the Hawaii Public Housing Authority.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Education and Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 900 Education and Housing on Gov. Msg. Nos. 282 and 283**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF DIRECTORS OF THE HAWAII HOUSING FINANCE AND DEVELOPMENT CORPORATION (HFD)**

G.M. No. 282 FRANCIS L. JUNG, for a term to expire 6-30-2009; and

G.M. No. 283 FRANCIS L. JUNG, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Francis L. Jung to have the necessary qualifications to be appointed to the Hawaii Housing Finance and Development Corporation.

Testimony in support of Francis L. Jung was submitted by two state agencies, one county agency, and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Francis L. Jung has, since 1985, served as a Senior Member of Jung & Vassar, P.C., a law corporation with offices in Kailua-Kona, Hawaii, and Washington, D.C., specializing in real estate, corporate, commercial, and international law. He is also the Director and President of TKJ, Inc., a Hawaii nonprofit established in 2006 to render free legal counseling services to the public. Mr. Jung's extensive legal career includes employment at law firms in Washington, D.C., and the Office of the Massachusetts Attorney General. He is a graduate of the University of Dayton, and holds a J.D. from the New England School of Law and an LL.M. from Harvard Law School. Mr. Jung is a member of the Hawaii State Bar Association and West Hawaii Bar Association, and he served on the Kona Community Hospital Advisory Committee and the West Hawaii Hospital Management Advisory Committee. He also served as a Director of the Housing and Community Development Corporation of Hawaii, a predecessor to the Hawaii Housing Finance and Development Corporation, from 2003 to 2006.

As affirmed by the records of votes of the members of your Committee on Education and Housing that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 901 Education and Housing on Gov. Msg. No. 284**

Recommending that the Senate advise and consent to the nomination of the following:

EDUCATION COMMISSION OF THE STATES

G.M. No. 284 DALE C. WEBSTER, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Dale C. Webster to have the necessary qualifications to be appointed to the Education Commission of the States.

Testimony in support of Dale C. Webster was submitted by one private organization and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Dale C. Webster has extensive education and management experience, including six years as Business Manager of Haleakala Waldorf School, four years as a lecturer in Entrepreneurship, Management, and Personal Finance at Maui Community College, five years as a small business owner, and three years managing a small business incubator in Kihei, Hawaii. Mr. Webster also held numerous sales and management positions at AT&T in New York and New Jersey from 1965-1989, and was a Captain, United States Army, from 1968-1970. He holds a Bachelor of Science Degree in Business Administration from Bowling Green State University, Ohio. Mr. Webster is active in numerous community organizations, including the Junior Chamber of Commerce, United Way, Volunteer Service Bureau, and is a Little League Coach, and SCORE volunteer, among many other community activities. He is a reappointment to the Education Commission of the States.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 902 Education and Housing on Gov. Msg. No. 418**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAII PUBLIC HOUSING AUTHORITY (HPHA)

G.M. No. 418 CLARISSA P. HOSINO, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Clarissa P. Hosino to have the necessary qualifications to be appointed to Board of Directors of the Hawaii Public Housing Authority.

Testimony in support of Clarissa P. Hosino was submitted by three government agencies and five individuals. One individual submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Clarissa P. Hosino currently serves on the Board of Directors as a beneficiary of Hawaii Public Housing Authority services and she is a Resident Manager as well. Ms. Hosino is an active member of both the Board of Directors and her community, including serving as a Member of the District Council of Honolulu Community Action Program and as President of the Kalanihuiua Elderly and Disabled Association. She was a Foster Parent from 1992 to 1999, and participates in the Weed and Seed Program to help control illegal activities in and around her neighborhood. As a parent, grandparent, and great-grandparent, Ms. Hosino is committed to improving safety and living conditions for public housing tenants and in fostering pride in her community.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 903 Education and Housing on S.C.R. No. 30**

The purpose of this measure is to request the Department of Education to:

- (1) Conduct a feasibility study on converting hard cover text books to e-books for use in public schools, including considerations of cost and computer accessibility; and
- (2) Report its findings and recommendations, including cost estimates, to the 2010 Legislature.

Testimony in support of this measure was submitted by two state agencies and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that e-books offer many advantages for students. E-books may be easily updated and documents can be stored and read utilizing multiple technologies such as laptops, pocket computers, and e-book reading devices. In addition, e-books will support the implementation efforts of the Hawaii Virtual Learning Network (HVLN), a statewide online learning program for students, by providing students in remote areas access to high quality content.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 30 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 904 (Joint) Education and Housing and Human Services on S.C.R. No. 11**

The purpose of this measure is to urge the Department of Education to:

- (1) Encourage the public elementary schools to establish on-campus resource centers that provide information on, and referral to, existing resources that can combat homelessness; and
- (2) Foster the development of these resource centers as sources of information on the extent, nature, patterns, and circumstances of homelessness in their communities.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that there are over 2,000 children who receive sheltered services statewide and 1,300 children who receive outreach homeless services. There are still more undocumented homeless individuals that are not captured in data sets, and these individuals or family members may be experiencing eviction, or living with other friends or family.

Your Committees further find that this measure would assist in providing support for children who are homeless by gathering information, identifying trends, and serving as a catalyst to develop programs that produce healthy outcomes, educational success, and strengthen communities.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 11 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 905 Education and Housing on S.C.R. No. 18**

The purpose of this measure is to request that the Department of Education provide further support for public schools that limit or do not offer advanced placement and International Baccalaureate courses so that these schools may establish such programs or expand their existing programs.

Testimony in support of this measure was submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that numerous studies and educational organizations report a positive correlation between students who complete advanced placement and International Baccalaureate courses, and the students' subsequent success in college and university programs.

Your Committee further finds that advanced placement and International Baccalaureate courses offer additional opportunities for Hawaii's public school students to gain the skills necessary to thrive in increasingly competitive educational and workforce settings.

Your Committee has amended this measure by:

- (1) Amending the title for the purposes of clarity and consistency; and
- (2) Requesting the Department of Education to report its findings and recommendations to the 2010 Legislature.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 18, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 18, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 906 Education and Housing on S.C.R. No. 52**

The purpose of this measure is to request that the Hookakoo Corporation:

- (1) Submit reports of its expanded learning time initiative and models that are or will be piloted by the Corporation's partner conversion charter schools;
- (2) Collaborate with the Department of Education on the development of plans to pilot expanded learning time models and a framework for providing technical assistance to schools; and
- (3) Submit progress reports to the 2010 and 2011 Legislature.

Testimony in support of this measure was submitted by five government agencies, one private organization, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the expanded learning time models detailed in this measure provide safe and structured learning environments for school age children during nonschool hours. In addition, these programs engage students in experiential, hands on learning projects, challenge students to delve deeply into core subjects, and allow students to participate in enrichment and remedial opportunities that can enhance their academic, personal, and social development.

Your Committee further finds that the Department of Education currently provides extended learning opportunities and that the preliminary impact data derived from the models for expanded learning time report will help the Department's efforts in further developing expanded learning time programs. The evaluation and technical assistance outlined in this measure can benefit both conversion charter schools and the Department's public schools.

Your Committee has amended this measure by:

- (1) Adding the Executive Director of the Charter School Administrative Office to those receiving certified copies of the measure; and
- (2) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 52, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 52, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 907 Economic Development and Technology on H.B. No. 520**

The purpose of this measure is to repeal the amendments made by Act 228, Session Laws of Hawaii 2008, that require the submission of archival photographs before conducting any demolition, construction, or alteration of any building over fifty years old or any building listed, or eligible for listing, on the Hawaii or National Register of Historic Places.

Testimony in support of this measure was submitted by American Public Works Association Hawaii Chapter, Building Industry Association Hawaii, Hawaii Developers' Council, General Contractors Association of Hawaii, Hawaii Association of Realtors, Chamber of Commerce of Hawaii, American Institute of Architects Hawaii State Council, and Pacific Resource Partnership. Testimony in opposition of this measure was submitted by Hawaiian Electric Company, Minatoishi Architects, Inc., and one concerned individual. Comments on this measure were submitted by the Department of Land and Natural Resources, City and County of Honolulu Department of Planning and Permitting, Historic Hawaii Foundation, and Land Use Research Foundation of Hawaii. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee has amended this measure by:

- (1) Revising the purpose section;
- (2) Deleting section 5 of the measure; and
- (3) Changing the effective date of the measure from July 1, 2020, to upon approval.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 520, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 520, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 908 Transportation, International and Intergovernmental Affairs on H.B. No. 1696**

The purpose of this measure is to clarify the use of collision damage waivers by motor vehicle rental companies.

Specifically, this measure:

- (1) Re-names "collision damage waiver" to "damage waiver";

- (2) Requires damage waiver disclosures, as an alternative, to be placed in a wall holder where the disclosure pamphlet can be easily seen and reached by lessees and potential lessees;
- (3) Allows rental car companies to fulfill the requirement of providing rental car lessees with notice of certain motor vehicle laws, such as the seat belt and child passenger restraint system laws, by posting the notice in a conspicuous place in the main rental area of all rental locations; and
- (4) Repeals the requirement that the rental car company submit data or information to the Director of Commerce and Consumer Affairs about specified information relevant to collision damage waivers and costs of repairs.

Your Committee received testimony in support of this measure from Catrala-Hawaii; Avis Rent A Car; Budget Rent A Car; Enterprise Rent A Car; Alamo Rent A Car; and National Car Rental. Comments were received from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that under current law a "collision damage waiver" may encompass *any* damages to a rental motor vehicle during the term of the rental agreement. By renaming "collision damage waiver" to "damage waiver", this measure clarifies the existing law by removing any inference that a rental car damage waiver may only apply to "collision" damages.

Your Committee further finds that in those instances in which a vehicle is not repaired, current law mandates that the true value of damages is the diminution in value of the vehicle. Calculating diminution in value is ordinarily not complicated. It is the difference between the value of the property before the harm and value after the harm.

Your Committee notes that the Department of Commerce and Consumer Affairs is not opposed to removing the current statutory requirement that collision damage waiver statistics be automatically submitted to the Department for review if the lessors continue to maintain the information and make it available to the Department upon request. Your Committee thus requests the lessors to keep appropriate records to facilitate the work of the Department.

Your Committee also notes that the testimony indicates that the Office of Consumer Protection and the interested rental car companies are currently working toward reaching an agreement on expedited processing of traffic infraction citations and summonses. Your Committee urges all parties to expedite their efforts to reach an agreement before the end of this Regular Session, as this may obviate the need for legislative solutions.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1696, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 909      Transportation, International and Intergovernmental Affairs on H.B. No. 142**

The purpose of this measure is to exempt aviation fuel from the general excise and use taxes when it is purchased from within a foreign-trade zone by a common carrier for use in intra-state transportation.

Your Committee received testimony in support of this measure from the Airlines Committee of Hawaii; and Island Air. Comments were received from the Department of Business, Economic Development and Tourism; Department of Taxation; and the Tax Foundation of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that a healthy interisland airline industry is vital to the State's economy. Hawaii's interisland airlines continue to face severe financial challenges. Sales of fuel sold from a foreign-trade zone for use by airlines traveling out of the State are exempt from general excise and use taxes. However, interisland flights are not exempt.

Your Committee further finds that exempting common carriers from the general excise and use taxes for sales of fuel from a foreign-trade zone for interisland flights would level the playing field and create a fairer market for all airlines.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 142, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 910      Energy and Environment on H.B. No. 425**

The purpose of this measure is to extend the authorization, from June 30, 2009, to June 30, 2014, to issue special purpose revenue bonds to Honolulu Seawater Air Conditioning, LLC, for the design and construction of a seawater air conditioning/thermal energy storage district cooling system on Oahu.

Testimony in support of this measure was submitted by two private organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Act 111, Session Laws of Hawaii 2004, authorized the Department of Budget and Finance to issue special purpose revenue bonds in an amount up to \$32,000,000 and an additional \$68,000,000 in subsequent years, to Honolulu Seawater Air Conditioning, LLC, for the design and construction of a seawater air conditioning/thermal energy storage district cooling system. Your Committee finds that this measure is intended to extend the 2004 authorization to issue the initial \$32,000,000 in bonds to 2014. Your Committee also finds that, although progress has been made in moving the project ahead, certain permitting, environmental impact assessment studies, detailed design, and other factors have taken more time than originally contemplated. Construction on the project is scheduled to begin during the fourth quarter of 2009.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 425, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 911 Energy and Environment on H.B. No. 1483**

The purpose of this measure is to authorize the issuance of up to \$45,000,000 in special purpose revenue bonds to assist Better Place Hawaii, Inc. (Better Place), in the planning, designing, constructing, and developing of transportation infrastructure, equipment, and apparatus to support electric vehicles in Hawaii.

Testimony in support of this measure was submitted by two private organizations. Comments on this measure were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Better Place plans to develop an electric vehicle charging network on Oahu, Maui, and Hawaii, supporting approximately ten thousand electric vehicles in Hawaii by the year 2014. Funds raised from the special purpose revenue bonds will be used by Better Place to install electric vehicle charging stations in homes, public and private parking lots, government facilities, and shopping malls throughout the State.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1483, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 912 Commerce and Consumer Protection on H.B. No. 271**

The purpose of this measure is to permit the Registrar of the Bureau of Conveyances to accept electronic documents with electronic signatures for recording.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, the Commission to Promote Uniform Legislation, Hawaii Association of Realtors, and Hawaii Land Title Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will allow the Bureau of Conveyances to become more efficient and up to date in its operations. Your Committee further finds that this measure does not require the Bureau of Conveyances to make any changes to its procedures until it has developed the capacity to do so. Your Committee further notes that this measure is based on the Uniform Real Property Electronic Recording Act, which has been adopted by eighteen other states and the District of Columbia. Your Committee finds that this measure addresses the Department of Land and Natural Resources' request that it be allowed to produce digital archives without also being required to produce microfilm records.

Your Committee has amended this measure by:

- (1) Allowing the Registrar of the Bureau of Conveyances and the Department of Accounting and General Services, upon authorization of the Registrar, to furnish maps or plans in photographic, electronic, or electrostatic form upon receiving a request for maps or plans;
- (2) Allowing the Registrar of the Bureau of Conveyances to furnish nonattested copies of instruments and documents in photographic, electronic, or electrostatic form upon receiving a request for instruments or documents;
- (3) Allowing the Registrar of the Bureau of Conveyances to convert existing information or documents into electronic form; and
- (4) Making nonsubstantive, technical changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 271, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 913 Commerce and Consumer Protection on H.B. No. 1414**

The purpose of this measure is to make permanent the prohibition against stealing beer kegs and the documentation requirements for scrap metal dealers contained in Act 53, Session Laws of Hawaii 2008.

Your Committee received testimony in support of this measure from the Department of the Attorney General, the Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaiian Electric Company, and Anheuser Busch Companies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Current law establishing a misdemeanor offense for the theft of beer kegs and imposing certain record-keeping requirements on scrap metal dealers includes a provision to repeal the Act creating the law on July 1, 2009. Your Committee finds that the prohibitions and record-keeping requirements contained in the current law have proven effective at deterring theft of beer kegs and merit permanence.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 914 Commerce and Consumer Protection on H.B. No. 1031**

The purpose of this measure is to improve Hawaii's antitrust laws by specifying that the State and its political subdivisions or agencies may bring a civil action to enforce antitrust laws and clarifying the allowable amount of recovery and venue for such actions.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will allow the State to recover damages incurred due to unfair and deceptive trade practices and unfair methods of competition among manufacturers or vendors. Your Committee finds that this measure is necessary in light of recent Ninth Circuit rulings that limit recovery under antitrust laws to direct purchasers in the absence of specific legislation otherwise. Your Committee finds that since Hawaii has virtually no domestic manufacturing economy, government procurement is heavily dependent on outside manufacturers and vendors. This measure will allow the State to enforce its antitrust laws and recover damages due to violations of those laws regardless of whether purchases are made directly from the manufacturer or through a third party such as a vendor or distributor.

Your Committee has amended this measure by making nonsubstantive technical changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1031, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 915 Commerce and Consumer Protection on H.B. No. 812**

The purpose of this measure is to protect the safety of victims of domestic violence by allowing them to terminate a rental agreement without penalty after proper notification to the landlord.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawaii State Coalition Against Domestic Violence, Legal Aid Society of Hawaii, and one private citizen. Testimony with comments on this measure was received from Hawaii Association of Realtors and National Association of Residential Property Managers. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that in 2008, the number of domestic violence fatalities in this State reached an all-time high. Your Committee finds that this measure will provide protection to victims of domestic violence, abuse, and stalking by allowing a victim to quickly relocate without being unnecessarily burdened by a rental agreement. Survivors of domestic abuse often have difficulty finding housing after leaving an abusive situation due, in part, to negative rental histories as a result of past abuse. Your Committee finds that this measure removes at least one barrier to fleeing an abusive situation by removing the negative impact on a victim's rental history of ending a lease because of the need to quickly leave a dangerous housing situation.

Your Committee has amended this measure by:

- (1) Clarifying the procedure for terminating a lease after notice of a tenant's intention to vacate a rental property due to domestic violence;
- (2) Clarifying the status of any remaining tenants in a rental unit after one or more tenants has vacated the property due to domestic violence; and
- (3) Making nonsubstantive technical changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 812, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 812, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 916 Commerce and Consumer Protection on H.B. No. 618**

The purpose of this measure is to enact the Uniform Prudent Management of Institutional Funds Act to accommodate contemporary investment and expenditure practices in the management of funds intended to finance charitable purposes.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation and Hawaii Alliance of Nonprofit Organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure allows public and private sector entities to respond to changing market conditions and industry practices in the management of funds designated for charitable purposes. Your Committee finds that this measure will

facilitate efficient management and allow fund managers to maximize the return on their investments while protecting the interests of fund donors and beneficiaries.

Your Committee has amended this measure by making technical, nonsubstantive changes to conform the language of this measure to existing statutory conventions.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 618, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 618, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 917      Transportation, International and Intergovernmental Affairs on H.B. No. 267**

The purpose of this measure is to exempt a lessee of a rental motor vehicle from the proof of ownership requirement applicable to the interisland shipping of vehicles.

Your Committee received testimony in support of this measure from Catrala-Hawaii; Avis Rent A Car; Budget Rent A Car; The Hertz Corporation; Enterprise Rent A Car; Alamo Rent A Car; Young Brothers, Limited; and National Car Rental. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure provides that a lessee is exempt if:

- (1) The rental motor vehicle is transported by any water carrier authorized by the Public Utilities Commission to transport vehicles interisland;
- (2) The water carrier has a written agreement with the owner of the rental motor vehicle; and
- (3) The water carrier records and retains certain required information.

Your Committee finds that this measure would make it easier for tourists and rental car companies to transport rental cars on interisland water carriers. Your Committee further finds that each rental car company will have the flexibility to streamline and work out the paper requirements with such carriers. This measure should assist in avoiding potential problems and unnecessary delays.

Your Committee has amended this measure by:

- (1) Clarifying the language for specificity; and
- (2) Changing "interisland ferry" to "water carrier" to extend the exemption from the requirements of section 286-271, Hawaii Revised Statutes, relating to vehicle ownership and other information required from a shipper for the interisland shipping of vehicles, to the shipping of rental motor vehicles by all water carriers regulated by the Public Utilities Commission.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 267, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 267, H.D. 2, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 918      Transportation, International and Intergovernmental Affairs on H.B. No. 1168**

The purpose of this measure is to clarify the authority of the Director of Transportation to adopt rules to require users or occupiers of airport land, buildings, or facilities for business or commercial purposes to defend, indemnify, and hold harmless the State against all claims, suits, and demands arising out of or resulting from the use or occupation.

Your Committee received testimony in support of this measure from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Department of Transportation, to the extent possible, has required a duty on tenants and permittees to defend, indemnify, and hold harmless the State through lease agreements or revocable permits. However, there are other permittees who conduct commercial activities at airports facilities who do not have a lease agreement or a revocable permit. Although the Department of Transportation has adopted an administrative rule to impose on such permittees the duty to defend, indemnify, and hold harmless the State, the Hawaii, 111 Haw. 144 (2006), Supreme court has held in the case of *Haole v. State of Hawaii* that the Department did not have statutory to adopt such an administrative rule. This measure remedies the situation by granting the Department express statutory authority to adopt such rules, thus providing appropriate protections to the State.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1168, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 919      Transportation, International and Intergovernmental Affairs on H.B. No. 869**

The purpose of this measure is to clarify the responsibility of an owner of a rental motor vehicle for a summons or citation issued to a lessee of the vehicle.

Under current law, if a default judgment on a summons or citation is entered against a lessee of a rental motor vehicle, the owner/lessor of the rental motor vehicle will be responsible for the summons or citation if the owner/lessor does not provide the court with the lessee's name and address within 45 days of the lessor's receipt of notification. This measure extends the time period for the lessor's provision of the lessee's name and address to the court from 45 to 60 days and clarifies the court's responsibility to mail a copy of the summons or citation to the lessor within 60 days of its issuance.

Your Committee received testimony in support of this measure from Catrala-Hawaii; Dollar Thrifty Automotive Group, Incorporated; Avis Rent A Car; Budget Rent A Car; Enterprise Rent A Car; Alamo Rent A Car; National Rent A Car; and The Hertz Corporation. Comments were received from the Judiciary. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary because it is difficult for rental car companies, whose renters incur traffic violations, to find and locate records and respond in time to avoid payment of penalties and to meet deadlines. However, your Committee is aware that the Judiciary and local rental car industry personnel are currently working to address the concerns presented by this measure and that such efforts may obviate the need for this legislation. Your Committee encourages these efforts and urges the parties to take the opportunity to develop workable solutions now, before this measure is enacted by the Legislature.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 869, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 920      Transportation, International and Intergovernmental Affairs on H.B. No. 1163**

The purpose of this measure is to allow the Department of Transportation to impose upon private parties using state harbors the duty to defend, hold harmless, and indemnify the State.

This measure also defines "state harbor property" as the commercial harbors, ports, roadsteads, harbor buildings, and other harbor facilities of the State, including docks, wharves, piers, quays, bulkheads, or landings therein.

Your Committee received testimony in support of this measure from the Department of Transportation.

Section 19-41-7, Hawaii Administrative Rules, imposes a duty upon users of harbor facilities to defend and indemnify the State against all claims arising from their operations on Department of Transportation property and their use of the Department's facilities, except where the Department was proven to be solely and legally negligent. However, the Hawaii Supreme Court, in *Haole v. State of Hawaii*, 111 Haw. 144 (2006), held that the Department lacked the statutory authority to adopt a rule imposing such a duty. This measure provides the Department of Transportation with the express authority to impose the duty by rule, thus protecting the State from financial exposure in lawsuits filed against the State for injury caused to plaintiffs by the negligent acts of harbor facility users.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1163, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 921      Transportation, International and Intergovernmental Affairs on H.B. No. 1422**

The purpose of this measure is to allow the counties to remove abandoned motor vehicles from private roads, if the vehicle is inoperable and the owner or co-owner of a private road requests in writing to the appropriate county authority for the removal of the vehicle.

This measure also requires the owner of the private road to pay the county for the costs of removal of the vehicle and to agree to indemnify and hold harmless the county for the removal and disposal of the vehicle.

Your Committee received testimony in support of this measure from one individual. Testimony in opposition was received from the Honolulu Police Department. Comments were received from the City and County of Honolulu and the Counties of Hawai'i, Kaua'i and Mau'i. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that abandoned vehicles are littering the private roads and need to be removed. Current law does not provide for removal of abandoned vehicles on private roads. Some of these abandoned vehicles pose a public health hazard with leeching battery acids and transmission fluids. This measure provides a workable solution for both private road owners and the counties, while promoting the public health, safety, and welfare.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1422, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 922      Transportation, International and Intergovernmental Affairs on H.B. No. 623**

The purpose of this measure is to allow the Attorney General to contract with one or more counties for the purpose of processing and issuing state identification cards at satellite city halls or other locations.

Your Committee received testimony in support of this measure from the Waipahu Neighborhood Board. Comments were received from the City and County of Honolulu, and the Counties of Hawai'i, Kaua'i and Maui. Testimony in opposition was received from the Attorney General. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that state identification is vital for seniors, children, and other individuals who do not possess a driver's license or other picture identification. Currently, obtaining a state identification card (certificate of identification) is a lengthy process because processing and administration is conducted at a single location with limited hours of operation.

Honolulu's satellite city halls are convenient locations for state identification processing. Satellite city halls provide services with extended hours, weekend availability, and convenient locations. However, the islands of Moloka'i and Lana'i do not have county equivalents of a city hall as in Honolulu that can be used to issue state identification cards. Testimony of the counties indicates that they are willing to use driver licensing offices, which are equipped for a similar purpose.

Your Committee has amended this measure by deleting its contents and inserting the provisions of Senate Bill No. 277, S.D. 1, a similar measure that allows the use of any suitable county facility as an alternative and has an effective date of upon approval.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 623, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 623, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 923      Transportation, International and Intergovernmental Affairs on H.B. No. 1040**

The purpose of this measure is to make permanent Act 170, Session Laws of Hawaii 2002 (Act 170), relating to county liability for lifeguard services, and Act 82, Session Laws of Hawaii 2003 (Act 82), relating to public land liability.

Your Committee received testimony in support of this measure from the Attorney General; the Department of Land and Natural Resources; Hawaii Council of Mayors; City and County of Honolulu, Departments of the Corporation Counsel and Emergency Services; County of Hawai'i; Kaua'i County Fire Department; Hawaiian Lifeguard Association; Hawaii Government Employees Association; Hawaii Association for Justice; two Maui County Councilmembers; one Kaua'i County Councilmember; and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Act 170 created a climate in which lifeguard services could be provided by the counties without fear of liability, and, therefore, is a life-saving measure that should be made permanent.

Your Committee further finds that Act 82, providing limited liability protections for the State and counties for incidents arising on improved public lands if certain signage requirements are met, should also be made permanent.

According to testimony of the State Attorney General, following the enactment of Act 170 there have been:

- (1) A total of 131 lifeguard rescues on Oahu's previously unguarded beaches;
- (2) 48 rescues since July 1, 2008 when lifeguard services commenced at Ke'e Beach on Kaua'i; and
- (3) Approximately 267 rescues at Hapuna Beach Park on Hawai'i.

Testimony of an emergency room physician at Wilcox Hospital who is also Co-Chair of the Kauai Water Safety Task Force, indicated that since July 1, 2008 at Ke'e Beach, out of a total estimated 71,428 beachgoers, there have been:

- (1) 49 rescues;
- (2) 333 first aid assistance;
- (3) 7,548 prevention incidences; and
- (4) 18,882 public contacts.

Your Committee finds that these numbers more than justify passage of this measure, notwithstanding that the number of cases actually culminating in a lawsuit is probably relatively small. This measure encourages the State and counties to provide lifeguard services and to keep recreational areas and public beach parks open to the public, by limiting exposure to liability.

Your Committee has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1040, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1040, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 924      Transportation, International and Intergovernmental Affairs on H.B. No. 214**

The purpose of this measure is to authorize the issuance of general obligation bonds and make an appropriation for Wailua emergency bypass road repair and resurfacing, as well as Waimea wastewater treatment plant upgrades for the County of Kaua'i.

Your Committee received testimony in support of this measure from the County of Kaua'i and The Laborers' Union. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would enable:

- (1) The provision of continuous and reliable service to public and private users in the Waimea service area;
- (2) The lifting of present capacity restrictions, by allowing new connections, including connections for the development of affordable housing and business expansion;
- (3) The upgrading of effluent water quality to meet standards for irrigation reuse;
- (4) The improvement of water quality on the coastal plain between Waimea and Kekaha; and
- (5) The provision of solar electric capacity in order to offset the energy requirements associated with the Waimea wastewater treatment plant expansion.

Your Committee notes from the testimony that \$6,950,000 is requested by the Department of Public Works of the County of Kaua'i for the following projects. This figure includes:

- (1) \$6,000,000 for improvements to the Waimea wastewater treatment plant; and
- (2) \$950,000 for the emergency bypass road.

Your Committee leaves consideration of the amount of the appropriation to the Committee on Ways and Means.

Your Committee has amended this measure by inserting the expending agency as the Department of Public Works, County of Kauai, and inserting a lapse date.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 214, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 214, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 925      Transportation, International and Intergovernmental Affairs on H.B. No. 1166**

The purpose of this measure is to:

- (1) Clarify that the passenger facility charge is a charge for the use and services of an undertaking for the purposes and within the meaning of the law relating to the financing of revenue bonds;
- (2) Allow moneys paid into the passenger facility charge special fund to be appropriated, applied, or expended by the Department of Transportation for airport capital improvement program projects approved by the Legislature and as permitted by federal law; and
- (3) Allow the establishment of other accounts within the passenger facility charge special fund; and require the transfer of the passenger facility charge into the other accounts to pay debt service on the related bonds.

Your Committee received testimony in support of this measure from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the passenger facility charge provides the Department of Transportation with an additional capital funding source to provide for the expansion of the airport system. Current law is unclear regarding the use of the passenger facility charge for the indirect financing of structures through the issuance of bonds. This measure, among other things, enables the Department to finance the cost of airport projects with the proceeds of bonds completely or partially backed by the passenger facility charge. Accordingly, this measure supplies the Department with the appropriate flexibility needed to fund the expansion of the airport system.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1166, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1166, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 926      (Joint/Majority) Transportation, International and Intergovernmental Affairs and Education and Housing on H.B. No. 863**

The purpose of this measure is to create a county infrastructure development revolving loan fund, to provide no-interest loans to the counties for infrastructure improvement projects that support transit-oriented development.

Your Committees received testimony in support of this measure from the City and County of Honolulu, Department of Planning and Permitting; the Office of Hawaiian Affairs; Building Industry Association of Hawaii; The Chamber of Commerce of Hawaii; Hawaii Developers' Council; the Land Use Research Foundation of Hawaii; Hawaii Pacific Engineers, Incorporated; and Hawaii Building &

Construction Trades Council, AFL-CIO. Testimony in opposition was received from the Department of Budget and Finance. Written testimony presented to your Committees may be reviewed on the Legislature's website.

The county infrastructure development revolving loan fund will be used to provide no-interest loans to the counties for the development, pre-development, or construction of infrastructure projects to expedite the building of transit-oriented development, particularly projects involving affordable housing. Permitted uses of the funds may include planning, design, land acquisition, costs of options, agreements of sale, or other infrastructure-related services or activities that may be provided in rules.

The projects are expected to spur transit-oriented development all along the mass transit corridor. To accommodate the expected future growth in these areas, upgrades and improvements to increase capacity to infrastructure in these areas will be necessary. Making these upgrades and replacements will result in more compact, dense, and coordinated development along this transportation corridor with an added benefit of reducing urban sprawl.

Your Committees have amended this measure by changing the effective date to July 1, 2020.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 863, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 863, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, 2 (Hemmings, Slom). Excused, 4 (Chun Oakland, English, Gabbard, Tsutsui).

**SCRep. 927 Commerce and Consumer Protection on H.B. No. 1071**

The purpose of this measure is to establish a system of licensure and regulation of mortgage servicers of residential mortgage loans secured by real property located in Hawaii.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Office of Hawaiian Affairs, Hawaii Financial Services Association, and Legal Aid Society of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that mortgage servicers are frequently a borrower's only contact for information regarding the borrower's mortgage loan and are the only party to which a borrower has access to address and resolve matters that can arise in the course of making payments on that loan. Your Committee further finds that many servicers are unable or unwilling to assist borrowers in distress to negotiate a modification or workout of a delinquent loan because of financial disincentives that are inherent in the foreclosure process. Your Committee finds that licensure and regulation is necessary to protect Hawaii homeowners, especially as the rate of home mortgage foreclosures rises due to the current economic recession.

Your Committee has amended this measure by:

- (1) Assigning regulatory responsibility and oversight of mortgage servicers to the Commissioner of Financial Institutions;
- (2) Specifying that the fee for license application shall be \$500 and the fee for license renewals shall be \$250;
- (3) Clarifying that the licensure and regulatory provisions in this measure apply to any person engaged in the business of mortgage servicing in this State, regardless of actual physical presence in the State;
- (4) Specifying the activities that are prohibited pursuant to this measure;
- (5) Changing the effective date to January 1, 2010; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1071, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1071, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 928 Commerce and Consumer Protection on H.B. No. 1074**

The purpose of this measure is to update the Insurance Code by:

- (1) Adding missing statutory references to clarify the deposit and lapsing requirements for funds generated from the drivers education fund underwriters fee for motorcycle and motor scooter insurance policies;
- (2) Clarifying the standards applicable to the preparation of annual audited financial statements presently required of domestic insurers;
- (3) Clarifying allowable insurer investments to meet capital and reserve requirements;
- (4) Setting a time limit for insurers to claim the Retaliatory Tax Credit;
- (5) Limiting the issuance of surplus lines broker licenses;
- (6) Allowing a limited adjuster license for crop insurance claims;
- (7) Amending continuing education requirements for licensees; and

- (8) Amending rate filing requirements to accommodate Hawaii's March 1, 2009 adoption of the National Association of Insurance Commissioners System for Electronic Rate and Form Filing.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, The American Council of Life Insurers, National Council of Insurance and Financial Advisors, and Hawaii Independent Insurance Agents Association. Testimony with comments was received from Hawaii Medical Service Association and Char Hamilton Campbell & Yoshida. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to ensure that the Insurance Code is both current and in conformity with the best practices in insurance regulation. Your Committee further finds that the amendments to continuing education requirements allow Hawaii to remain in compliance with the requirements of the National Association of Insurance Commissioners. Your Committee notes that testimony in support of this measure was received from representatives from the insurance industry as well as from the Department of Commerce and Consumer Affairs, the regulator body that oversees the industry.

Your Committee has amended this measure by:

- (1) Clarifying that both workers' compensation and crop insurance limited adjuster's licenses require renewal by examination;
- (2) Changing its effective date to July 1, 2009; and
- (3) Making nonsubstantive technical amendments for the purposes of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1074, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1074, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 929 Economic Development and Technology on H.B. No. 610**

The purpose of this measure is to allow the State to further develop the high technology sector of the economy by establishing a Hawaii State Science and Technology Task Force within the High Technology Development Corporation.

This measure also appropriates an unspecified amount of funds to be expended by the High Technology Development Corporation to support the operations of the Hawaii State Science and Technology Task Force.

Testimony in support of this measure was submitted by the Department of Education. Testimony in opposition of this measure was submitted by the Hawaii Science and Technology Council. Comments on this measure were submitted by EPSCoR Hawaii and the High Technology Development Corporation. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that it is vital to amend the Hawaii State Planning Act to include references to science and technology initiatives to help Hawaii achieve various economic objectives. Your Committee also finds that it is essential to plan for science and technology initiatives that will play an instrumental role in developing Hawaii's economy to enable the State to capitalize on the financial opportunities that emerging industries involving science and technology often present.

Accordingly, your Committee has amended this measure by replacing its contents with the contents of S.B. No. 1195, S.D. 1, which:

- (1) Amends the Hawaii State Planning Act to, among other things:
  - (A) Encourage economic activities capitalizing on defense, dual-use, and science and technology assets, particularly on the neighbor islands;
  - (B) Stimulate emerging industries in science and technology;
  - (C) Strengthen economic productivity in agriculture and enhance the development of new agricultural products and by-products;
  - (D) Use Hawaii's strengths in science and technology to improve the quality of existing visitor destination areas;
  - (E) Build upon dual-use and defense applications to develop thriving ocean engineering, aerospace research and development, and related dual-use technology sectors in Hawaii's economy;
  - (F) Expand and diversify renewable energy development, creative media, and science and technology-based sectors; and
  - (G) Position Hawaii as a leader in broadband communications and applications in the Pacific Region; and
- (2) Requires the Department of Business, Economic Development, and Tourism to annually update and report on the criteria used to measure growth in emerging growth industries.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 610, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 610, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 930 Education and Housing on H.B. No. 1221**

The purpose of this measure is to authorize general obligation bond funds for affordable housing projects and allow the funds to be used to match federal funds that may be appropriated under any federal fiscal stimulus legislation.

Testimony in support of this measure was submitted by two state agencies and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would provide additional support for the development, reconstruction, renovation, or rehabilitation of affordable housing projects and related infrastructure. Your Committee is supportive of these efforts to address Hawaii's affordable housing shortage.

Your Committee has amended this measure by extending the lapse date for the appropriation by one year, to June 30, 2012.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1221, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1221, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Tsutsui). Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 931 Education and Housing on H.B. No. 1376**

The purpose of this measure is to:

- (1) Establish a Facilities Alignment Commission to establish criteria for the selection of public schools to be constructed, expanded, consolidated, or closed and to recommend, based upon these criteria, a list of areas for new school construction, and of schools for expansion, consolidation, or closure, subject to the review of the Legislature; and
- (2) Direct the Board of Education to proceed with the process of constructing, expanding, consolidating, or closing schools according to the recommendations of the Facilities Alignment Commission, if the Legislature does not disapprove of the recommendations in their entirety.

Testimony in support of this measure was submitted by four private organizations. One state agency submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee understands that the Department of Education and the Board of Education have already begun a process to identify clusters of schools where school consolidation should be reviewed as provided in chapter 8-38, Hawaii Administrative Rules. To date, a task force to study the possible consolidation of Wailupe Valley and Aina Haina Elementary Schools has been organized, has met three times, has submitted a report to the Complex Area Superintendent, and the Complex Area Superintendent has instructed the task force to hold a public hearing. Following the public hearing, the task force will make its recommendation to the Complex Area Superintendent, who in turn will make a recommendation to the Superintendent, who in turn will make a recommendation to the Board of Education. Your Committee has heard that the Superintendent's recommendation will be delivered to the Board in April.

In addition, your Committee understands that three more task forces, one to study the consolidation of Keanae and Hana Schools, another to study the consolidation of the elementary schools on Molokai, and a third to study the consolidation of Waiahole, Kaaawa, and Hauula elementary schools have been appointed. The Department also has identified sixteen additional clusters of schools where consolidation studies should be undertaken, and the Department intends to initiate the studies of all sixteen areas within the next twenty-four months.

Your Committee commends the Department and the Board of Education for their proactive response on this matter, and anticipates their initial recommendations in a few weeks. However, your Committee believes additional alternatives should not be dismissed as unnecessary, and will advance this measure as one means of continuing alternatives.

Your Committee has amended this measure by amending the effective date to July 1, 2040, for the purposes of continuing discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1376, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1376, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 932 Education and Housing on H.B. No. 1692**

The purpose of this measure is to restrict state low-income housing leases, in certain cases, to no more than five years.

Testimony in support of this measure was submitted by two government agencies and nine individuals. Five private organizations submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the inventory of public housing has not been able to keep up with demand, and that this measure would provide one means of ensuring greater turnover in public housing dwelling units. Your Committee also recognizes that simply restricting the amount of time that any person may rent or lease a public housing dwelling unit will not resolve the cycle of poverty unless the tenants have access to programs of homeownership counseling, financial literacy, and employment training.

Your Committee further understands that the federal government has initiated pilot programs to address the cycle of public housing and poverty.

Your Committee has amended this measure accordingly, by:

- (1) Restricting an unspecified percentage of state low-income housing leases, in certain cases, to no more than five years;
- (2) Requiring the Hawaii Public Housing Authority to review federal pilot programs intended to break the cycle of public housing and welfare, including related support programs, and to report to the 2010 Legislature; and
- (3) Amending the purpose section to reflect these changes.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1692, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1692, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 933 Economic Development and Technology on H.B. No. 1207**

The purpose of this measure is to update and improve services provided by the Hawaii Community-Based Economic Development Program.

Specifically, this measure achieves the following:

- (1) Clarifies the definition of "community of interest" to mean a group of people who may not live in the same geographic area, but who are bound together through a common economic interest;
- (2) Deletes the requirement for royalties to be deposited into the Hawaii Community-Based Economic Development Revolving Fund, but requiring all other moneys received by the Fund to be deposited into the Fund;
- (3) Deletes the restriction against reallocating funds from the loan program to the grant program; and
- (4) Lowers the maximum loan amount and interest rate on loans to a qualified applicant.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism, Office of Hawaiian Affairs, Hawaii Alliance of Nonprofit Organizations, and Maluohai Residents Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Community-Based Economic Development Program must adjust and evolve to the constant changing needs of non-profit community-based organizations. Your Committee also finds that decreasing the principal loan amounts and interest rates, as well as allowing the Hawaii community-based economic development revolving fund to receive moneys from any source rather than just the general fund, will allow the Hawaii Community-Based Economic Development Program to provide more funding and grants to qualified applicants.

Your Committee has amended this measure by:

- (1) Adding the definition of "community-based organization" to remove the restriction for a community-based organization to be membership-based; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1207, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1207, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 934 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1471**

The purpose of this measure is to establish a pilot program within the Department of Agriculture to encourage farmers to form agricultural cooperatives, coordinate purchasing agreements between the agricultural cooperatives and hotels, restaurants, and other buyers in the visitor and hospitality industries, and develop and implement safe food certification for products under the program.

The measure also establishes the Food Certification Pilot Program Special Fund and appropriates funds for the program.

Testimony in support of this measure was submitted by seven organizations. Comments were submitted by one public citizen. Testimony in opposition was submitted by two state agencies. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the hotel industry in Hawaii buys an estimated 28-32 per cent of locally grown agricultural products, of which pineapple and papaya are the major purchases. The importation of agricultural products to service the hotel industry is 68 per cent, and if pineapple and papaya were removed, the imported products are estimated to be approximately 82 per cent. Your Committee believes that the hotel industry in Hawaii can increase the amount of locally grown agricultural products purchased annually from local farms. The hotel industry requires, however, that the farms have, or be in the process of obtaining their third party food safety certifications and audits. A key factor in increasing the amount of local produce sold to hotels is increased coordination and communication among farmers with desired specialty crops, packers and processors, qualified distributors, and buyers. An on-farm food safety education program provides the "coaching" for farmers in applying best food safety practices and disciplines in preparing the land, growing, harvesting, and processing the crops. This measure will further the development of the infrastructure needed for the hotel industry and related industries to use the agricultural products which are produced locally.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1471, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Hemmings).

**SCRep. 935 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1665**

The purpose of this measure is to prohibit the sale of public lands on which government-owned Hawaiian fishponds are located.

Testimony in support of this measure was submitted by one state agency, six organizations, and six public citizens. One state agency submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that fishponds were and continue to be important cultural resources for native Hawaiians. Fishponds today serve as a source of sustenance for communities, and they offer a wide range of educational opportunities. Fishponds can be used to teach students mathematics, science, and native Hawaiian culture. Fishpond restoration is a major part of the native Hawaiian cultural revival movement, with a number of groups across Hawaii taking on the kuleana of bringing once-forgotten fishponds back to life.

Your Committee further finds that one of the most important steps the State could take to restore nearshore fisheries would be to rehabilitate the nearshore estuarine habitat, and an important component would be reviving fresh spring water. Habitat loss, fresh water diversion, siltation, and pollution are key components affecting the condition of the reef. Fishponds provide a habitat for the recruitment (where infant fish survive) of nearshore reef fisheries, and rehabilitating the fishponds will provide the nursery grounds necessary to ensure the protection of nearshore fisheries.

Your Committee has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1665, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1665, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 936 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 899**

The purpose of this measure is to clarify and strengthen the Office of Hawaiian Affairs' (OHA) bond authority.

Specifically, this measure clarifies that:

- (1) If OHA adheres to part II of chapter 10, Hawaii Revised Statutes, no other law need be enacted to authorize the principal amounts of an OHA revenue bonds issuance;
- (2) OHA's Board of Trustees can issue revenue bonds without further authorization or approval; and
- (3) OHA can meet the requirement that a project financed by revenue bonds is self-supporting not only by imposing and collecting rates, rents, fees, and charges for the use or enjoyment and services, but also by using other OHA revenues.

Testimony in support of this measure was submitted by one organization, one state agency supported the measure with amendments, and one state agency submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure makes a number of technical changes in OHA's existing bond statutes to make it consistent, where appropriate, with other State bond statutes and government bond practice. The changes are designed to put OHA in the best position to enter the bond market on solid footing at a time when the State and national economies are creating a new impetus for OHA to seek alternative sources of funding for its projects.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of style and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 899, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 899, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Hemmings).

**SCRep. 937 Commerce and Consumer Protection on H.B. No. 1316**

The purpose of this measure is to abolish joint and several liability for design professionals and public utilities in tort claims relating to the design and maintenance of public highways, except where the design professional or public utility's degree of negligence is twenty-five per cent or greater.

Your Committee received testimony in support of this measure from American Public Works Association, American Council of Engineering Companies of Hawaii, American Society of Civil Engineers, Coalition of Hawaii Engineering and Architectural Professionals, Hawaiian Electric Company, Hawaiian Telcom, Arcadia Architecture, Belt Collins Hawaii, Bills Engineering, Brown and Caldwell, Engineering Solutions, Finance Insurance, Ltd., Kelso Architects, Shigemura, Lau, Sakanashi, Higuchi and Associates, Inc., Fukunaga & Associates, The Limtiaco Consulting Group, Kai Hawaii, Sarwar Structural Engineering, Hawaii Pacific Engineers,

and fifty private citizens. Testimony in opposition to this measure was received from Hawaii Association for Justice. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that there is widespread support for this measure among engineering and structural design interests. Your Committee further finds that this measure will not eliminate the liability of design professionals and public utilities, but will rather limit liability to the percentage of damages actually attributable to the professional or to the utility where those parties are found to be less than twenty-five per cent at fault. If the design professional or public utility is more than twenty-five per cent at fault, joint and several liability will still apply.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1316, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 938 Commerce and Consumer Protection on H.B. No. 1415**

The purpose of this measure is to require condominium associations, planned community associations, and cooperative housing corporations to implement a policy to provide entry for a process server.

Your Committee received testimony in support of this measure from Hawaii Council of Apartment Owners, the Collection Law Section of the Hawaii State Bar Association, Alston Hunt Floyd & Ing, and one private citizen. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs and the Real Estate Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that fair and efficient service of process is an important component of a fair and efficient civil legal system. Your Committee further finds that under the current law, an individual living in a condominium, cooperative housing project, or gated community may be able to delay or avoid service of process by denying the process server entry to the property. Your Committee finds that this measure strikes a reasonable balance between respect for private property rights and the need to promote efficiency in the judicial process by requiring access for a process server but allowing an association or housing corporation to determine its own access policy.

Your Committee notes that it is the intent of this measure to require that the responsibility of the various entities within the Department of Commerce and Consumer Affairs (DCCA) for implementing this measure is limited to adopting or amending forms only for the housing entities under their respective jurisdiction. Your Committee anticipates that the extent of each DCCA entity's duty under this measure is to provide a means for a housing entity to indicate on its already mandated filings that the housing entity has an access policy in place.

Your Committee has amended this measure by:

- (1) Making this measure effective upon approval;
- (2) Deferring the date by which condominium associations, planned community associations, and cooperative housing corporations are required to report their respective access policies to January 1, 2010 in order to allow all affected parties time to implement the requirements of this measure; and
- (3) Making nonsubstantive technical changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1415, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1415, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 939 Commerce and Consumer Protection on H.B. No. 1417**

The purpose of this measure is to prohibit the placement of paid, third-party advertisements on vehicles and trailers.

Your Committee received testimony in support of this measure from The Outdoor Circle and Na Leo Pohai. Testimony with comments was received from the Department of the Attorney General. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current law allows advertisers to place signs and advertisements on vehicles when these same signs and advertisements would be prohibited if they were posted anywhere else, such as on a building or along the roadside. These vehicles function as billboards when they are driven or parked on the side of the road. Your Committee notes that this measure does not apply to vehicles or trailers that display advertisements for the business for which the vehicle or trailer is actually used.

Your Committee notes the concerns related to First Amendment rights as applied to commercial speech raised by the Department of the Attorney General. Your Committee respectfully requests that the Committee on Judiciary and Government Operations apply its expertise to further investigate this issue, which is properly within that Committee's jurisdiction.

Your Committee has amended this measure by:

- (1) Revising the purpose section of this measure to accurately reflect the contents of the measure;

- (2) Clarifying that "economic benefit" does not include benefits that may be derived by the vehicle owner from advertising its own business; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1417, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1417, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 940 (Joint) Economic Development and Technology and Commerce and Consumer Protection on H.B. No. 988**

The purpose of this measure is to further the State's efforts toward self-sufficiency by amending the Hawaii Procurement Code to make it more likely that agricultural products procured by government agencies are products grown in the State.

Testimony in support of this measure was submitted by the Department of Agriculture, Hawaii Farm Bureau Federation, and Hawaii Food Industry Association. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that providing local agricultural producers and farmers with a purchasing preference on sales to government agencies will enable those small agricultural producers and farmers to receive an economic boost in their business. Your Committees also find that local agricultural producers and farmers will benefit from this measure because with the additional protections for small businesses under the procurement code, those local agricultural producers and farmers will have more market opportunities to sell their Hawaii agricultural products to government agencies.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 988, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 988, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Hee, Ihara, Hemmings).

**SCRep. 941 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Energy and Environment on H.B. No. 591**

The purpose of this measure is to authorize and encourage the establishment of preferential rates for renewable energy produced in conjunction with agricultural activities.

Testimony in support of this measure was submitted by four organizations. Comments were submitted by one state commission. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this is a critical juncture for agriculture in Hawaii, and that prolonged drought and the rapidly deteriorating economy are having a significant negative impact upon the agricultural industry. This measure will help support the continuation and growth of the agricultural industry.

The Hawaiian Commercial and Sugar Company (HC & S) produces electricity for its sugar milling, irrigation pumping, and other internal operations and provides electricity to the Maui Electric Company (MECO). The biomass electricity is primarily produced by burning bagasse, the residual fiber of the sugar cane plant, as a fuel to generate steam for the production of power. In addition to providing approximately seven per cent of MECO's electricity, HC & S also serves as a firm power source for MECO, and has played a significant role in the restoration of MECO's electrical service during power outages. The preferential renewable energy rates will enhance the prospects of attracting new agricultural related renewable energy producers as well as retain those presently in production. The result will be a reduction in Hawaii's dependence on fossil fuel imports, a step towards Hawaii's future energy security, and a method to sustain the agricultural industry.

Your Committees have amended this measure by changing the effective date to upon approval.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 591, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 591, H.D. 1, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Ihara, Bunda, Hemmings).

**SCRep. 942 Education and Housing on H.B. No. 363**

The purpose of this measure is to require the counties to:

- (1) Offer incentives for the development of affordable housing, including density bonuses, height waivers, cluster zoning, greater design flexibility, waiving water and sewer connection fees, priority infrastructure financing, and site flexibility; and
- (2) Provide flexibility in public facility requirements for rental housing projects with units for tenants at or below one hundred per cent of median income levels, and raising from twenty to forty per cent, the units set aside for tenants with incomes eighty per cent or below the area median family income.

Testimony in support of this measure was submitted by four government agencies and three private organizations. Comments were submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is one of many alternatives being considered that would provide additional incentives for the development of affordable housing.

Your Committee further finds that the City and County of Honolulu's mass transit project offers exceptional opportunities for the development of affordable housing. To that end, your Committee previously heard and approved S.B. No. 442, S.D. 1, which in part established a Commission on Transit Oriented Development, to facilitate the development of affordable housing.

Your Committee has amended this measure accordingly, by:

- (1) Establishing a Commission on Transit Oriented Development to facilitate affordable housing in transit oriented developments by better coordinating transportation and housing planning and programs;
- (2) Authorizing the counties, through their incentives for affordable housing, to establish priorities for the development of affordable housing in transit oriented developments; and
- (3) Amending the purpose section to reflect these changes.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 363, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 363, H.D. 2, S.D. 1, and be referred to the Committee on Transportation, International and Intergovernmental Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Tsutsui). Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 943 Education and Housing on H.B. No. 1436**

The purpose of this measure is to amend the permitted uses of land within the agricultural district with soil classifications of A or B to include educational facilities and agricultural appurtenances.

Testimony in support of this measure was submitted by two private organizations. Two government agencies, one county agency, and one individual submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that under current law, a special permit is required for schools in the state agricultural district. The special permit process allows consideration of "unusual and reasonable" uses proposed in either the state agricultural or rural district, and is the appropriate mechanism to ensure that a proposed use does not conflict with existing or potential agricultural activity.

Your Committee understands, however, that the Department of Agriculture and the Office of Planning have developed alternative language to accommodate educational pursuits in agricultural district class A or B lands.

Your Committee has amended this measure accordingly, by:

- (1) Deleting the proposed amendment to add educational facilities to subsection 205-4.5(1)(5), Hawaii Revised Statutes; and
- (2) Adding agricultural education programs conducted on a farming operation as a permitted use; provided that the agricultural education programs are accessory and secondary to the principal agricultural use and do not interfere with surrounding farm operations, and adding a definition of "agricultural education programs".

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1436, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1436, H.D. 1, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 944 Energy and Environment on H.B. No. 427**

The purpose of this measure is to encourage the development of alternative energy and renewable fuel technologies by authorizing the issuance of up to \$40,000,000 in special purpose revenue bonds for One Planet Pacific Energy, LLC (One Planet), to build a gasification facility adjoining the construction and demolition material solid waste landfill located in Nanakuli on the island of Oahu.

Testimony in support of this measure was submitted by one private organization. Comments were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that One Planet's proposed 500-ton per day gasification facility will use construction and demolition waste and produce an environmentally friendly renewable fuel. One Planet's proposed process produces minimal emissions and no harmful or toxic byproducts. Additionally, the project will also create a substantial number of jobs for the local market both during construction and once construction is completed to operate and maintain the plant.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 427, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 945 Energy and Environment on H.B. No. 426**

The purpose of this measure is to promote renewable energy development in Hawaii by authorizing the issuance of up to \$30,000,000 in special purpose revenue bonds to assist Honolulu Seawater Air Conditioning, LLC, in designing and constructing a district cooling project.

Testimony in support of this measure was submitted by two private organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Legislature previously authorized a total of \$100,000,000 in special purpose revenue bonds for this project. This measure authorizes an additional sum, due to cost increases for various systems' components, findings made during the final design, and general inflation since 2003. Notwithstanding these cost increases, your Committee finds that assisting this project continues to be worthwhile both economically and environmentally.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 426, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 946 Energy and Environment on H.B. No. 370**

The purpose of this measure is to revert the license tax on liquid fuels back to one cent per gallon for diesel oil used in electric power generation by a power-generating facility regulated by the Public Utilities Commission.

Testimony in support of this measure was submitted by one private organization. Testimony in opposition to this measure was submitted by two state departments. Comments were on this measure were submitted by one private organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Act 209, Session Laws of Hawaii 2007 (Act 209), increased the tax on diesel fuel from one cent to two cents per gallon, regardless of use. Your Committee believes that the Legislature, in passing Act 209, did not intend to impact electrical power generating facilities with this tax increase. Therefore, the reversion to the one cent rate is appropriate.

Your Committee also finds that, while the measure will have an impact on the State Highway Fund, it is important that the State move forward to provide fairness to electricity customers across the State. For example, Kauai Island Utility Cooperative (KIUC) currently generates approximately one-half of its annual production of electricity using diesel oil. The additional one cent tax annually adds about \$150,000 to its costs, which are passed to KIUC ratepayers.

Your Committee has amended this measure by:

- (1) Changing the effective date of the measure from July 1, 2020, to July 1, 2009; and
- (2) Making nonsubstantive, technical changes for consistency and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 370, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 370, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 947 Energy and Environment on H.B. No. 371**

The purpose of this measure is to repeal the sunset provision on the law imposing a one cent per gallon tax on naphtha when sold for use in a power-generating facility.

Testimony in support of this measure was submitted by one state department and two private organizations. Testimony in opposition to the revenue loss resulting from this measure was submitted by one state department. Comments were submitted by one private organization. One state department submitted a statement of no position regarding this measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure removes the sunset provision of Act 103, Session Laws of Hawaii 2007. This measure will allow naphtha to continue to be taxed at the same rate of one cent per gallon as applies to diesel oil, gasoline, and aviation fuel. Your Committee also finds that use of naphtha for power generation should be encouraged, as it has a lower sulfur content than other liquid fossil fuels typically used in power generation. In addition, the burning of naphtha emits lower levels of carbon dioxide as compared to distillate or residual fuel oil.

Your Committee has amended this measure by changing the effective date of the measure from July 1, 2020, to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 371, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 371, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 948 (Joint) Energy and Environment and Economic Development and Technology on H.B. No. 279**

The purpose of this measure is to support renewable energy development in Hawaii by:

- (1) Establishing a Renewable Energy Branch in the Department of Business, Economic Development, and Tourism (DBEDT) to coordinate and promote renewable energy initiatives;
- (2) Strengthening laws supporting energy diversification, long-term provision of dependable energy services, and use of diverse energy technologies; and
- (3) Providing adequate resources for the support of the renewable energy industry, and for comprehensive energy planning, by DBEDT.

Testimony in support of this measure was submitted by one private organization. Testimony in support of the intent of this measure, with suggested amendments, was submitted by DBEDT. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the Hawaii State Energy Office, within DBEDT, has been focusing on renewable energy, and seeking and encouraging the use of federal funding for energy projects that use Hawaii's abundant renewable energy resources to meet a significant portion of its energy needs. DBEDT has received feedback from federal sources that the framework established in the Hawaii Clean Energy Initiative places the State in a good position for competitive funding for energy projects. However, DBEDT asserts that without additional staff, it has limited capacity to pursue and act on these opportunities.

Your Committees have amended this measure by:

- (1) Replacing the term "energy analysts" with "positions" to clarify that DBEDT has the authority to identify and hire person with the necessary mix of knowledge, skills, and abilities to successfully carry out the duties of the Renewal Energy Branch;
- (2) Adding a provision to address oversight of projects funded by federal grants, as suggested by DBEDT;
- (3) Changing its effective date from July 1, 2020, to July 1, 2009; and
- (4) Making technical, nonsubstantive changes for style and clarity.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 279, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 279, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 949 Energy and Environment on H.B. No. 1491**

The purpose of this measure is to reduce the aggregate annual amount of ethanol facility tax credit from \$12,000,000 to \$8,000,000 from July 1, 2011, through December 31, 2012.

Comments were submitted by one private organization. Testimony in opposition to the measure was submitted by one state department. Testimony suggesting an amendment to the measure was submitted by one private organization. One state department submitted a statement of no position. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure temporarily reduces the total amount of ethanol facility tax credits that may be issued and helps to perpetuate the tax incentives for the construction and development of an ethanol production facility in the State. Your Committee finds that, during these difficult economic times, it is important to balance budget realities with the imperatives of developing a renewable fuel industry in Hawaii. This measure represents a good compromise of these competing interests, while preserving the tax credit for the future, when ethanol production facilities are in place to take advantage of the credit.

Your Committee has amended this measure by changing its effective date from July 1, 2020 to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1491, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1491, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 1 (Hooser). Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 950 Energy and Environment on H.B. No. 1627**

The purpose of this measure is to encourage development of cogeneration facilities by authorizing the issuance of up to \$40,000,000 in special purpose revenue bonds for Carbon Diversion Inc., or a partnership in which Carbon Diversion Inc. is a general partner, to establish cogeneration and related energy production facilities at various locations in the State.

Testimony in support of this measure was submitted by three private organizations. Comments were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Carbon Diversion Inc. has developed a full-scale hybrid gasification carbonization process at Campbell Industrial park in Kapolei, which can reduce various organic feedstock and tires (non-fossil fuels) into carbon products and synthetic gas. Carbon Diversion Inc. anticipates expanding into other sites, including to the Big Island, allowing it to process, among other things, a range of organic streams from biomass green-wastes, including the invasive species "gorse", which will help to clear thousands of acres of infested pasture lands in Humuula on Mauna Kea. Your Committee finds that Carbon Diversion Inc.'s proposed facilities will result in a decrease in dependency on fossil fuels, landfills, transportation, and disposal costs, and can indirectly provide lower priced electrical energy, among other environmental and economic benefits.

Your Committee has amended this measure by making nonsubstantive, technical amendments for the purpose of accuracy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1627, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1627, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 951 Energy and Environment on H.B. No. 1628**

The purpose of this measure is to authorize the issuance of up to \$100,000,000 in special purpose revenue bonds to assist BioEnergy Hawaii, LLC, or a partnership in which BioEnergy Hawaii, LLC, is a general partner, with the establishment of cogeneration and related energy production facilities.

Testimony in support of this measure was submitted by one state agency and one individual. Comments on the measure were submitted by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that BioEnergy Hawaii, LLC, proposes to build a renewable, waste-to-energy facility at the Natural Energy Laboratory of Hawaii, in Kailua-Kona. The facility aims to, among other things, produce six to eight megawatts of electricity (enough to supply six to eight thousand typical Big Island homes per year) and recycle carbon dioxide from the gasification of the waste into energy by selling the carbon dioxide to farmers and by using it in the production of biofuels from algae. This proposed facility will make a significant positive impact on the environmental and economic well-being of the Big Island and our State.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1628, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1628, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 952 Energy and Environment on H.B. No. 1678**

The purpose of this measure is to protect Hawaii's environment and work towards decreasing its dependence on imported fossil fuels by authorizing the issuance of special purpose revenue bonds of up to \$80,000,000 to assist LifeGrid Solutions, LLC (LifeGrid), with the planning, design, and construction of a biofuel refinery and research facility on Oahu.

Testimony in support of this measure was submitted by one private organization. Comments on this measure were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that LifeGrid's proposed facilities will be a major asset in solving the unique environmental and sustainability issues currently challenging our State. For example, the locally owned and operated ethanol/biodiesel production facility will allow LifeGrid to meet the local demand for ethanol, all of which is currently imported. Additionally, the proposed facility can use a variety of feedstock available for biodiesel and ethanol production, including municipal solid waste and sludge generated by wastewater treatment plants, addressing solid waste and landfill concerns.

Your Committee has amended this measure by making technical, nonsubstantive changes for style and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1678, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1678, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 953 Energy and Environment on H.B. No. 1273**

The purpose of this measure is to allow the use of clotheslines on any privately owned single-family residential dwelling or townhouse.

Testimony in support of this measure was submitted by one private organization. Testimony in support of this measure, with suggested amendments, was submitted by two private organizations. Testimony in support of the intent of the measure was submitted by one private organization. Testimony in opposition to this measure was submitted by one private organization and one individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will allow members of planned communities and townhouses to use clotheslines for drying clothes, while at the same time allowing the associations of planned communities and townhouses the ability to provide reasonable restrictions on such use. However, under this measure, as currently drafted, residents could be denied the ordinary use of clotheslines by limiting access to air or sunlight, such as requiring homeowners to hang clotheslines in carports, for example.

Your Committee has amended this measure by:

- (1) Adding language that prohibits association restrictions that deny access to air or sunlight reasonably necessary for the effective use of clotheslines, consistent with a similar Senate Bill, S.B. No. 1338, S.D. 1;
- (2) Adding language to address use of clotheslines in areas owned by or reserved for the exclusive use of a homeowner; and
- (3) Making nonsubstantive, stylistic changes for consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1273, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1273, H.D. 1, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 954 Energy and Environment on H.B. No. 1270**

The purpose of this measure is to:

- (1) Remove the avoided cost limit on the rate for the purchase of electricity by a public utility and substitute a methodology that is just and reasonable;
- (2) Significantly reduce any linkages between volatile prices of fossil fuels and the rate for nonfossil fuel generated electricity; and
- (3) Potentially enable utility customers to share in the benefits of price stability and fuel cost savings resulting from the use of nonfossil fuel generated electricity.

Testimony in support of this measure was submitted by one state department and six private organizations. The Department of Business, Economic Development, and Tourism also submitted a statement of no objection to the measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this is an important measure to move renewable energy forward in our State by delinking the price of renewable energy from the price of energy produced from fossil fuels. Removing the limit on purchase power rates based on the utility's avoided cost provides the Public Utilities Commission with greater flexibility in determining just and reasonable purchased power rates.

Your Committee has amended this measure by making a technical, nonsubstantive change for consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1270, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1270, H.D. 1, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 955 Commerce and Consumer Protection on H.B. No. 262**

The purpose of this measure is to change the name of the Insurance Fraud Investigations Unit to the Insurance Fraud Investigations Branch and to expand its authority to include jurisdiction over all lines of insurance except workers' compensation.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the American Council of Life Insurance, the National Association of Insurance and Financial Advisors, Hawaii Association of Health Plans, State Farm Insurance, and Hawaii Medical Service Association. Testimony with comments was received from the Department of the Attorney General and Hawaii Association for Justice. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that under current law, the Insurance Fraud Investigations Unit is empowered to investigate and prosecute only motor vehicle insurance fraud. Your Committee finds that at the time the Insurance Fraud Investigations Unit was created, it was the intent to expand the Unit's jurisdiction to include all lines of insurance at a later date. Your Committee notes that the Insurance Commissioner has testified that the Fraud Investigations Unit is not currently seeking additional funding or staff to implement this measure. Your Committee further finds that insurance fraud is a serious problem that increases costs of insurance premiums for consumers and that this measure is an effective means of combating insurance fraud.

Your Committee has amended this measure by:

- (1) Adding a provision that revises the penal code to clarify that criminal fines and forfeitures for insurance fraud shall be deposited to the Compliance Resolution Fund;
- (2) Clarifying the mandatory reporting requirements for licensees to facilitate communication with the Insurance Fraud Investigations Branch;
- (3) Making it effective upon approval; and
- (4) Making nonsubstantive technical changes for the purposes of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 262, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 262, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 956 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on H.B. No. 590**

The purpose of this measure is to expedite the processing and approval or denial of any permit plan application for the siting, development, construction and operation of a renewable energy facility, by:

- (1) Requiring the permitting agency to provide the energy resources coordinator, within thirteen months after the permit application is complete, a report identifying diligent measures that are being taken by the agency to complete permit processing and requiring the agency to take action as soon as practicable; and
- (2) Giving the energy resources coordinator the authority, subject to certain time requirements, to deem a completed permit application approved if the permitting agency either (A) does not report any further processing or action after it submits its report to the energy resources coordinator, or (B) fails to provide the energy resources coordinator with its report and has not approved or denied the application.

Testimony in support of this measure was submitted by one state department. Testimony in support of the measure, with suggested amendments, was submitted by two private organizations. Testimony in opposition to the measure was submitted by one private organization. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that fostering predictability and certainty in the permitting process for renewable energy projects will reduce Hawaii's reliance on fossil fuels and will assist the State in meeting its 2030 renewable energy mandates for the health and welfare of the residents of Hawaii.

Your Committees have amended this measure by:

- (1) Requiring that the energy resources coordinator give notice that a permit plan application is subject to 201N-4, Hawaii Revised Statutes, before the agency reporting and deemed approved provisions of 201N-4(g), Hawaii Revised Statutes, apply;
- (2) Clarifying the calculation of the time period preceding the date on which the energy resources coordinator may deem the permit approved;
- (3) Changing its effective date from January 1, 2020 to July 1, 2009; and
- (4) Making a technical, nonsubstantive change for style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 590, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 590, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 4 (Espero, Ihara, Nishihara, Hemmings).

**SCRep. 957 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on H.B. No. 589**

The purpose of this measure is to facilitate the financing and development of renewable energy projects by allowing leases and easements pertaining to renewable energy projects, together with mortgages and other conveyances as security for finance, to be created, enforceable, and recordable without requiring the landowner to obtain formal subdivision approval from the applicable county or other approving agency.

Testimony in support of this measure was submitted by one state department and two private organizations. Testimony in support of the measure, with suggested amendments, was submitted by Castle & Cooke Hawaii (Castle & Cooke). Testimony in opposition to the measure as drafted was submitted by the Department of Planning and Permitting of the City and County of Honolulu (DPP). Written testimony presented to your Committees may be reviewed on the Legislature's website.

Castle & Cooke submitted a proposed amendment to the measure, making suggested revisions to narrow the measure and to clarify certain aspects of the proposed exemption and its applicability. The DPP submitted testimony in support of Castle & Cooke's proposed amendment.

Your Committees find that this measure is intended to streamline the permitting process by helping to expedite the financing and development of renewable energy facilities by allowing leases and easements pertaining only to renewable energy facilities to be created for mortgages and other conveyances without requiring the landowner to obtain formal subdivision approval from the applicable county or other approving agency. However, your Committees find that the measure as received may potentially create confusion and complications for the community and governmental agencies due to unintended consequences.

Accordingly, your Committees have amended this measure by:

- (1) Indicating that the subdivision exemption applies only to leases and easements for renewable energy projects;
- (2) Clarifying that the subdivision and conveyance of land without compliance with subdivision laws is not authorized by this measure;
- (3) Limiting the scope of the exemption by indicating that there is no exemption from permits, approvals, restrictions, or requirements for the actual use, development, construction, or operation of the project;
- (4) Making the exemption only available where the principal use is for a renewable energy project;
- (5) Requiring that the term of the lease (where applicable) is for at least twenty years;

- (6) Terminating the exemption when the project is abandoned or terminated or when the applicable lease terminates or expires;
- (7) Changing the effective date from January 1, 2020, to upon approval; and
- (8) Making nonsubstantive, technical changes for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 589, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 589, H.D. 1, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Ayes with Reservations, 1 (Kokubun). Noes, none. Excused, 4 (Espero, Ihara, Nishihara, Hemmings).

**SCRep. 958 (Joint/Majority) Commerce and Consumer Protection and Transportation, International and Intergovernmental Affairs on H.B. No. 269**

The purpose of this measure is to require the Registrar of the Bureau of Conveyances to provide an image and index of all instruments that contain real property transactions to the administrator of the City and County of Honolulu's Real Property Assessment Division so that the Division may serve as a clearinghouse for real property information.

Your Committees received testimony in support of this measure from the County of Hawaii, the City and County of Honolulu, the County of Kauai, and the County of Maui. Testimony in opposition to this measure was received from the Department of Land and Natural Resources. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will help the counties to accurately assess real property taxes as well as to comply with their obligations to maintain accurate records and provide public notification of changes in land use and zoning. Your Committees note that the counties currently experience a good working relationship with the Department of Land and Natural Resources. This measure will allow the counties and the Department to continue those relationships as they currently stand, regardless of changes in administration or personnel.

Your Committees further note the opinion of the City and County of Honolulu that a legislative directive to a specific county is an erosion of the counties' home rule powers. Without taking a position on this issue, your Committees recognize the authority of the counties to exercise self-governance, to the extent authorized by the Legislature.

Your Committees have amended this measure by:

- (1) Clarifying that the counties may agree to delegate information-gathering and distribution responsibilities to a single county pursuant to a memorandum of understanding among the several counties;
- (2) Clarifying that the time limit imposed on the Department of Land and Natural Resources for mailing or forwarding the records may be waived in the event of extraordinary circumstances that create an unforeseen delay;
- (3) Specifying that the Department and the county acting as a clearinghouse for collection and distribution of the records are not obligated to provide information free of charge to private interests; and
- (4) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 269, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 269, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Hemmings). Excused, 4 (Green, Ihara, Sakamoto, Slom).

**SCRep. 959 (Joint/Majority) Energy and Environment and Transportation, International and Intergovernmental Affairs on H.B. No. 574**

The purpose of this measure is to:

- (1) Extend the repeal date of the Reverse Vending Machine Rebate Program from June 30, 2009 to June 30, 2014, and revise the deadline by which a reverse vending machine (RVM) must be installed and operational to receive the rebate from December 31, 2007 to June 30, 2012;
- (2) Revise from fifty per cent to an unspecified percentage the rebate provided for the actual cost of each RVM, and establishing a new rebate of an unspecified percentage of the operating cost of each RVM during the first two years of operation; and
- (3) Appropriating an unspecified amount for fiscal year 2009-2010 for grants-in-aid to the counties to plan and operate county recycling programs.

Testimony in support of the measure was submitted by two county departments and two private organizations. Testimony in support of the measure, with suggested amendments, was submitted by one private organization. Testimony in opposition to this measure was submitted by one state department. Comments were submitted by three private individuals. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the Deposit Beverage Container program has proven to be extremely successful, with a statewide diversion rate of beverage containers of seventy-two per cent for the fiscal year 2008. Nonetheless, beverage container redemption

rates could be improved by increasing the public's access to RVMs and redemption centers by extending and improving the RVM grant program.

Your Committees have heard concerns about the amounts appropriated for grants-in-aid to the counties and percentages for RVM rebates and believe that the dialogue on these matters should be continued by the Committee on Ways and Means, where fiscal matters are more appropriately addressed. Nonetheless, while your Committees have left unspecified the percentages for the rebates provided for the actual cost of each RVM and the rebate of the operating cost of each RVM in this measure, your Committees suggest that the rebate for the actual cost of each RVM be fifty per cent (the figure in the current version of section 342G-102.5, Hawaii Revised Statutes) and seventy-five per cent for the operating cost of each RVM during the first two years of operation (the figure proposed in H.B. No. 574, H.D. 1). Your Committees have also left unspecified the appropriation amounts for grants-in-aid to the counties, but would recommend the restoration of the appropriation of \$1,750,000 from the deposit beverage container deposit special fund as grants-in-aid to the counties of \$1,000,000 to the City and County of Honolulu and \$250,000 to each of the other three counties, as originally proposed in H.B. No. 574, H.D. 1.

Your Committees also find that another method of increasing the beverage container redemption rate is by requiring large retailers operate redemption centers, as proposed in S.B. No. 243, S.D. 1. Your Committees find that retail dealers in other states with similar redemption programs are also required to be redemption centers.

Your Committees have amended this measure by:

- (1) Adding a new part to this measure that amends section 342G-113, Hawaii Revised Statutes, to require retail dealers with more than seventy-five thousand square feet of retail space to operate redemption centers, as contained in section 2 of S.B. No. 243, S.D. 1;
- (2) Changing the effective date of the measure to July 1, 2009, except for the provisions of the measure containing the retail dealer redemption center requirements, which shall be effective as of October 1, 2009;
- (3) Including an expenditure clause in the measure, allowing the counties to expend sums appropriated for the grants-in-aid; and
- (4) Making a nonsubstantive, technical change for formatting.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 574, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 574, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, 1 (Slom). Excused, 5 (Espero, Green, Ihara, Nishihara, Hemmings).

**SCRep. 960 Commerce and Consumer Protection on H.B. No. 1059**

The purpose of this measure is to protect Hawaii's underground infrastructure by repealing the sunset date on the One Call Center pilot program.

Your Committee received testimony in support of this measure from the Public Utilities Commission, the One Call Advisory Committee, Hawaiian Telcom, The Gas Company, Building Industry Association Hawaii, Hawaii Pest Control Association, and General Contractors Association of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the One Call Center and its mandatory Call Before You Dig program is effective at regulating excavation activity, minimizing disruption of service to operator customers, and protecting the safety of excavators. Your Committee also finds that the One Call Center was always intended to be an on-going program persisting beyond the sunset date of the original legislation. Your Committee further finds that in other states where pest control procedures are performed similarly to those performed in Hawaii, shallow trenches or holes necessary for those procedures have proven to be nondisruptive of underground infrastructure and have merited exemption from excavation limitations.

Your Committee has amended this measure by

- (1) Adding a three-year sunset provision to the exemption for pest control operators in order for the Public Utilities Commission to determine whether this exemption should be made permanent; and
- (2) Making nonsubstantive technical amendments for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1059, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1059, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 961 Health on H.B. No. 896**

The purpose of this measure is to continue the requirement that businesses engaged in the sale of cigarettes and other tobacco products at the retail level acquire a retail tobacco permit from the Department of Taxation by removing the sunset provision in Act 131, Session Laws of Hawaii 2005.

Your Committee received testimony in support of this measure from the Department of Taxation, the Attorney General, the Hawaii Food Industry Association, the American Cancer Society, the Coalition for a Tobacco-Free Hawaii, the American Lung Association, and the American Heart Association

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will continue the Retail Tobacco Permit Program that facilitates the collection of cigarette taxes by making it clear that no retailer or cigarette vending machine operator shall purchase any pack of cigarettes without the appropriate tax stamp affixed to the bottom of each pack of cigarettes. For fiscal year 2007-2008, the Department of Taxation reported cigarette tax revenue of \$101,560,051.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 896, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 962 Health on H.B. No. 1537**

The purpose of this measure is to encourage the education and use of automated external defibrillators by exempting persons or employers who provide automated external defibrillator training programs from vicarious liability for civil damages.

Your Committee received testimony in support of this measure from the Department of Health, the Automated External Defibrillators Institute, and the American Heart Association.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will increase the implementation of automated external defibrillators and lead to greater survival rates from cardiac arrest in Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1537, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 963 Economic Development and Technology on H.B. No. 615**

The purpose of this measure is to prevent individuals from being harassed by those using innovative forms of technology by extending the offense of harassment to include any form of digital communication.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and Law Offices of Marvin S.C. Dang, LLC. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that harassing or insulting electronic communications are a form of harassment that can be just as severe or punishing as other verbal communications or offensive contacts. Your Committee also finds that including nonconsensual or harassing electronic communications, including email communications, in the criminal offense of harassment by stalking will provide a means for those victims that are targeted to seek justice.

Your Committee has amended this measure by adding an amendment to section 711-1106.5(3), Hawaii Revised Statutes, to include the ability to make a nonconsensual contact through any form of electronic communication in the offense of harassment by stalking.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 615, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 615, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 964 Health on H.B. No. 808**

The purpose of this measure is to:

- (1) Clarify that telemedicine is within a physician's scope of practice and is authorized in Hawaii when practiced by a licensed physician providing services to patients; and
- (2) Clarify existing laws regarding telehealth to ensure compliance with changes to the law regulating the practice of medicine.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, The Hawaii Chamber of Commerce, and the Hawaii Medical Services Association. Your Committee received testimony with in support of this measure with amendments from the Regulated Industries Complaint Office of the Department of Commerce and Consumer Affairs and the Hawaii Medical Board.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will enhance the Legislature's efforts to expand broadband capability as well as provide a cost-effective means to improve access to health care services, particularly in rural areas of the State.

Your Committee further finds that, in order to promote consistency in related statutes and more effective enforcement, the definition of telemedicine should specify what does not constitute telecommunication services.

Accordingly, your Committee has amended this measure by amending the definition of "telemedicine" to clarify that:

- (1) Telemedicine may be used to establish a physician-patient relationship, to evaluate a patient, or to treat a patient, and "telehealth" as used in chapters 431, 432, and 432D, Hawaii Revised Statutes, includes "telemedicine"; and
- (2) Standard telephone contacts, facsimile transmissions, or email text, in combination or by itself, do not constitute a telemedicine service.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 808, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 808, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 965 Health on H.B. No. 811**

The purpose of this measure is to ease Hawaii's registered nurse licensure requirements for graduates of foreign nursing schools by requiring the Board of Nursing to adopt rules that require applicants who are foreign graduates applying for licensure in Hawaii to arrange for the applicant's school to send to the Board of Nursing:

- (1) The "Breakdown of Educational Program for International Nursing Programs" form; and
- (2) A certified school transcript for the applicant, translated to English, if necessary.

In addition, this measure removes the requirement that a foreign graduate's transcripts be evaluated by professional evaluators designated by the Board of Nursing.

Your Committee received testimony in support of this measure from Nursing Advocates & Mentors, Inc., The Philippine Nurses Association Hawaii, the United Filipino Council of Hawaii, the Filipino American Citizens League, the Filipino Coalition for Solidarity, The National Federation of Filipino American Associations Region XII, the Oahu Filipino Community Council, and two individuals. Your Committee received testimony in opposition to this measure from the Board of Nursing and five individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State's requirement for uniform evaluation by the recognized authority on credential evaluations, the Commission on Graduates of Foreign Nursing Schools, is connected to federal immigration laws that require all international health professionals, except physicians, to be certified by the Commission on Graduates of Foreign Nursing Schools or another independent, government-certified organization qualified to issue credentials. Though your Committee is open to making the application process for foreign educated nurses less cumbersome, it believes that sufficient safeguards are necessary to ensure that foreign nursing school graduates are educationally qualified to apply for a registered nurse license in Hawaii.

Your Committee has amended this measure by:

- (1) Removing the provision requiring the Board of Nursing to adopt rules requiring the applicant to arrange for the applicant's school to send the Board of Nursing a completed "Breakdown of Educational Programs for International Nursing Programs" form along with certified school transcripts;
- (2) Clarifying the requirements for foreign nursing school graduates applying for a license to practice as a registered nurse by examination to apply for licensure through a credentials evaluation service or a certification program;
- (3) Changing the effective date to July 1, 2009; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 811, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 811, H.D. 2, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 966 Health on H.B. No. 814**

The purpose of this measure is to clarify the requirements for recertification of nurse aides by:

- (1) Requiring recertification not less than every two years; and
- (2) Limiting continuing education hours to twenty-four hours per year, except as specified by federal law.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Hawaii Coalition of Caregivers, The Primary Care Providers, Nursing Advocates and Mentors, Inc., United Filipino Council of Hawaii, Oahu Filipino Community Council, the National Federation of Filipino American Associations, the Filipino Coalition for Solidarity, the Filipino American Citizens League, and one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will further support the integrity and quality of certified nurse aides programs in the State. Specifying continuing education requirements will ensure that licensees are proficient and have the opportunity to improve and update their skills throughout their careers.

Your Committee has amended this measure by changing the effective date to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 814, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 814, H.D. 2, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 967 (Joint) Health and Higher Education on H.B. No. 343**

The purpose of this measure is to increase access to primary health care services provided by family physicians or residents in the Family Medicine Residency Program at the University of Hawaii John A. Burns school of medicine to medically underserved residents in rural areas of the State by appropriating funds to:

- (1) Support and expand the Family Medicine Residency Program to provide rural primary health care services; and
- (2) Develop a permanent statewide rural primary health care training program in each county, beginning in the county of Hawaii, to expand the rural health care training available for individuals in the Family Medicine Residency Program.

Your Committees received testimony in support of this measure from the County of Hawaii, Hawaii Medical Service Association, Hawaii Primary Care Association, Hawaii Medical Association, University of Hawaii at Manoa, AARP, and the Hawaii Association for Justice.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will address the increasing shortages of physicians in rural areas of Hawaii. These training programs will provide rural communities with greater access to physicians and quality health care services.

Your Committees further find that in order to effectively support these training programs, appropriations in the amount of \$1,500,000 in fiscal year 2010 and \$2,500,000 in fiscal year 2011 would be needed.

Your Committees have amended this measure by changing the effective date to July 1, 2050.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 343, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 343, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Kokubun, Hemmings, Slom).

**SCRep. 968 (Joint) Health and Higher Education on H.B. No. 991**

The purpose of this measure is to ensure adequate access to medical care in rural, medically underserved areas of the State by establishing and appropriating funds for the Hawaii Medical Doctor Loan Program to provide financial assistance for:

- (1) Students who complete a state-approved medical school program at the University of Hawaii and agree to practice in rural areas of the State; or
- (2) Graduates of a medical school who have received medical training from a Hawaii-based medical program and agree to practice in rural areas of the State.

Your Committees received testimony in support of this measure from the Hawaii Medical Service Association, the Hawaii Primary Care Association, the Hawaii Medical Association, AARP, and the Hawaii Association for Justice. Testimony in opposition to this measure was submitted by the Department of Budget and Finance.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the Hawaii Medical Doctor Loan Program is a loan repayment program that will be an essential tool for recruiting and retaining health care professionals in medically underserved and rural areas of the State.

Your Committees have amended this measure by:

- (1) Reconciling the six year loan term with a minimum commitment of six consecutive years to practice medicine in a rural area of the State, as opposed to a ten year commitment; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 991, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 991, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Kokubun, Hemmings, Slom).

**SCRep. 969 (Joint) Health and Public Safety and Military Affairs on H.B. No. 317**

The purpose of this measure is to appropriate funds to provide the people of the southern portion of the island of Hawaii with increased access to suitable emergency and clinical medical care.

Specifically, this measure provides funding from the federal Homeland Security Grant Program to purchase a mobile medical van based at Kona Community Hospital to provide medical care services in South Kona, Ka'u, and upper Puna.

Your Committees received testimony in support of this measure from the Hawaii Medical Service Association and the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Department of Health and the Department of Land and Natural Resources.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that significant barriers exist in accessing medical services in rural areas of the State, particularly the southern area of Hawaii County. However, your Committees find that the Department of Land and Natural Resources is not the appropriate state department suited for the purchase of mobile medical vans and medical care services.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the Department of Land and Natural Resources with the Department of Health as the expending agency for the appropriation; and
- (2) Changing the effective date to July 1, 2050, to encourage further discussion on this matter.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 317, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 317, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Ayes with Reservations, 1 (Green). Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 970 (Majority) Labor on H.B. No. 1676**

The purpose of this measure is to require that for projects financed by special purposes revenue bonds, when a project party that has entered into a collective bargaining agreement with a labor union for the project party's workforce submits that collective bargaining agreement to the Director of Labor and Industrial Relations, the terms of that collective bargaining agreement shall determine the prevailing wages and terms for work on the project performed by the project party's workforce.

Testimony in support of this measure was submitted by one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure provides important clarifications to the means of determining compliance with Hawaii's prevailing wage law for certain projects.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1676, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1676, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

**SCRep. 971 Labor on H.B. No. 1479**

The purpose of this measure is to require contractors and subcontractors to submit to the Department of Labor and Industrial Relations a fringe benefit reporting form, which shall be included in payroll records and itemize fringe benefit rates paid to laborers who perform work for the construction of public works projects.

Testimony in support of this measure was submitted by four organizations. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current practice of reporting only total fringe benefits on prevailing wage compliance forms is inadequate, and that workers should have access to their itemized fringe benefit information through payroll records.

Your Committee finds that the companion to this measure, S.B. No. 1181, S.D. 2, was heard and approved by your Committee and more clearly supports the intent of the measure. Accordingly, your Committee has amended this measure by replacing its contents with the contents of S.B. No. 1181, S.D. 2, and correcting a typographical error.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1479, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1479, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 972 Labor on H.B. No. 442**

The purpose of this measure is to authorize the Labor and Industrial Relations Appeals Board to use a hearings officer to expedite hearings on certain workers' compensation matters.

Testimony in support of this measure was submitted by two state agencies and one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the hearings officer afforded by this measure would enable expedited resolution of time-sensitive matters on appeal from decisions of the Director of Labor and Industrial Relations and allow the use of current staff and resources more effectively.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 442, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 973 Labor on H.B. No. 319**

The purpose of this measure is to require employers to post notices informing employees of their rights under the family leave law and of the potential adverse impacts of taking family leave on other employee rights, entitlements, or benefits.

Testimony in support of this measure was submitted by one state agency and one organization. Testimony in opposition to this measure was submitted by one state agency and one organization. Comments were submitted by one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure imposes a requirement that will significantly improve employees' awareness of their rights under the family leave law.

Your Committee acknowledges the comment that requiring employers to provide information on the potential adverse effects of taking family leave is unnecessary. Accordingly, your Committee has amended this measure by replacing its contents with the contents of S.B. No. 832, S.D. 1, which requires that employers post notices merely informing employees of their rights under the family leave law and more clearly supports the intent of the measure.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 319, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 319, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 974 Education and Housing on S.C.R. No. 39**

The purpose of this measure is to urge the Governor to include Kukui Gardens in the State's list of shovel-ready projects submitted for inclusion in the President's proposed economic stimulus plan.

Testimony in support of this measure was submitted by nine individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Kukui Gardens Resident's Association has waged an intense three-year campaign to preserve the eight hundred fifty-seven affordable rental housing units in Kukui Gardens as affordable rental units, which would save an estimated 2,500 people from potential homelessness. Your Committee understands that while an agreement to do so was reached in December 2007, the economic problems of late 2008 threaten that agreement. Funds have been included in the federal economic stimulus legislation to help save projects like Kukui Gardens, but projects must be included on the State's priority list in order to qualify for receiving the funds.

Your Committee is in strong support of this measure and has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 39, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 39, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 975 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 66**

The purpose of this measure is to request that the United States Postal Service issue a commemorative stamp honoring Prince Jonah Kuhio Kalaniana'ole.

Testimony in support of this measure was submitted by one organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Prince Jonah Kuhio Kalaniana'ole, as the last designated heir to the Hawaiian throne, was a great representative and supporter of the native Hawaiian people. Prince Kuhio was imprisoned for attempting to return Queen Liliuokalani to the throne, later elected to represent Hawaii to the United States Congress, and instrumental in securing the Kalaupapa Leper Settlement as a territorial institution, establishing county governments, developing Pearl Harbor, and advocating for the passage of the

Hawaiian Rehabilitation Act and the Hawaiian Homes Commission Act. Prince Kuhio re-organized the Royal Order of Kamehameha I and organized the Hawaiian Civic Club. Prince Kuhio's accomplishments on behalf of the people of Hawaii are many and, your Committee believes his legacy should be recognized nationally by the issuance of a commemorative stamp.

Your Committee has amended this measure by:

- (1) Clarifying that Prince Kuhio re-organized the Royal Order of Kamehameha I, which was established and organized by Kamehameha V in 1865; and
- (2) Making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 66, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 66, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 976 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 40**

The purpose of this measure is to request that the United States Postal Service issue a commemorative stamp honoring Prince Jonah Kuhio Kalaniana'ole.

Testimony in support of this measure was submitted by one organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Prince Jonah Kuhio Kalaniana'ole, as the last designated heir to the Hawaiian throne, was a great representative and supporter of the native Hawaiian people. Prince Kuhio was imprisoned for attempting to return Queen Liliuokalani to the throne, later elected to represent Hawaii to the United States Congress, and instrumental in securing the Kalaupapa Leper Settlement as a territorial institution, establishing county governments, developing Pearl Harbor, and advocating for the passage of the Hawaiian Rehabilitation Act and the Hawaiian Homes Commission Act. Prince Kuhio re-organized the Royal Order of Kamehameha I and organized the Hawaiian Civic Club. Prince Kuhio's accomplishments on behalf of the people of Hawaii are many and, your Committee believes his legacy should be recognized nationally by the issuance of a commemorative stamp.

Your Committee has amended this measure by:

- (1) Clarifying that Prince Kuhio re-organized the Royal Order of Kamehameha I, which was established and organized by Kamehameha V in 1865; and
- (2) Making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 40, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 40, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 977 Commerce and Consumer Protection on H.B. No. 1404**

The purpose of this measure is to repeal the sunset date on the general excise tax exemption on monies paid by timeshare operators and condominium managers for employee wages, salaries, payroll taxes, insurance premiums, and employee benefits.

Your Committee received testimony in support of this measure from American Resort Development Association, Marriot Vacation Club International, Starwood Vacation Ownership, Wyndham Worldwide, and Outrigger Hotels. Testimony with comments was received from the Department of Taxation and Tax Foundation of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will result in no additional loss of revenue to the State, since it merely continues a tax exemption that is already in place. Your Committee also finds that this exemption levels the playing field with regard to tax treatment for similarly situated entities: operators of hotels, timeshares, and condotels. Therefore, this exemption for operators of timeshares and condotels should be made permanent.

Your Committee has amended this measure by deferring its effective date to July 1, 2050 to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1404, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1404, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 978 (Joint) Commerce and Consumer Protection and Public Safety and Military Affairs on H.B. No. 686**

The purpose of this measure is to create a special revolving fund to receive deposits of cigarette certification fees and to delay the implementation of the reduced ignition propensity cigarette law until September 30, 2010.

Testimony in support of this measure was received from the State Fire Council and Honolulu Fire Department, the County of Hawaii Fire Department, County of Maui Department of Fire and Public Safety, and Coalition for a Tobacco-Free Hawaii. Testimony

with comments on this measure was received from the Department of Budget and Finance. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will allow the State Fire Council to enforce the reduced ignition propensity cigarette law by enabling it to hire staff and contractors to establish administrative rules, process certifications, and post program information on the State Fire Council's website. Your Committees find that the funding allocated to the State Fire Council in this measure is sufficient to sustain the enforcement program developed by the State Fire Council.

Your Committees have amended this measure by deferring its effective date to July 1, 2050 to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 686, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 686, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Bunda, English, Gabbard, Ihara, Sakamoto).

**SCRep. 979 Human Services on H.B. No. 333**

The purpose of this measure is to:

- (1) Allow certain Hawaii residents to claim a refundable earned income tax credit equal to a certain percentage of the federal earned income tax credit;
- (2) Limit the interest charged on any tax preparation service provided for clients who are recipients of the state earned income tax credit; and
- (3) Appropriate monies from the Temporary Assistance for Needy Families fund and the general fund to finance the earned income tax credit and public service announcements to educate taxpayers about the tax credit.

Testimony in support of this measure was provided by the Hawaii Alliance for Community-Based Economic Development and one individual. Testimony in opposition to this measure was provided by the Department of Taxation, H & R Block, and Tax Foundation of Hawaii. The Department of Human Services provided comments on this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that an earned income tax credit offers needed relief to Hawaii's low and middle income families and keeps money circulating within the local economy.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 333, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 333, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 980 (Joint) Human Services and Health on H.B. No. 989**

The purpose of this measure is to extend the Hawaii Children's Health Care Program until 2012 and require that participants receive primary health care services at Federally Qualified Health Centers.

Testimony in support of this measure was submitted by Good Beginnings Alliance, Hawaii Primary Care Association, and Hawaii Medical Service Association. Testimony in opposition to this measure was submitted by the Hawaii Medical Association. The Department of Human Services submitted comments and suggested amendments. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the number of uninsured children in the State varies, however, it is generally acknowledged that there is a gap group that is ineligible for any state or federal health care coverage. The majority of children in this gap group are those whose family income is at or just over three hundred per cent of the federal poverty level. Others in this group may include infants born to uninsured mothers, immigrants with temporary visas, and undocumented immigrants who have been in Hawaii for less than six months. In Hawaii, the total number of those who fall into the gap group could be as high as 3,500 children. The Hawaii Children's Health Care Program insures children and youth in this gap group so they can participate in school and other activities, and alleviates the stress on parents who experience hardship when an uninsured child is sick.

Your Committees note that this measure limits the participants in the Hawaii Children's Health Care Program to using Federally Qualified Health Centers, which may not be available to children in certain geographic locations. Federally Qualified Health Centers report increased strain on the health care safety-net, and limiting participants' choice of providers may disrupt the continuity of care the children receive.

Your Committees have amended this measure by deleting the requirement that participants receive primary health care services at Federally Qualified Health Centers.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 989, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 989, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Espero, Hemmings).

**SCRep. 981 Human Services on H.B. No. 1098**

The purpose of this measure is to:

- (1) Apply assistance allowance calculations based on standard of need to General Assistance payments for households without minor dependents;
- (2) Place a twenty-four-month limit on General Assistance to persons between eighteen and sixty-five years of age with a disability;
- (3) Provide that any month in which a person receives assistance pending an eligibility determination for the federal Supplemental Security Income Program or successor program shall not be counted toward the twenty-four-month limit;
- (4) Require the Department of Human Services to refer General Assistance recipients to the Aid to the Aged, Blind, and Disabled program after twelve months or upon the recipient turning sixty-five years old; and
- (5) Convert the funding mechanism for General Assistance from a block grant to an entitlement.

Testimony in support of this measure was provided by the National Association of Social Workers - Hawaii Chapter, Waianae Community Outreach, and four individuals. Testimony in opposition to this measure was provided by the American Civil Liberties Union of Hawaii. The Department of Human Services and Legal Aid Society of Hawaii provided comments on this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the caseload for the General Assistance program has been growing due to an increase in the number of individuals receiving assistance, those currently in the program receiving assistance for longer periods of time, and an increase in monthly assistance payments. Your Committee further finds that the increased financial burden on the General Assistance program and the current funding of General Assistance as a block grant have led to borrowing from Aid to the Aged, Blind, and Disabled program monies to fund General Assistance payments and reduced monthly General Assistance payments from \$469 to \$235.

Your Committee finds that the General Assistance program is a critical safety net that should provide dependable financial assistance to certain disabled persons who lack other means of financial support. Your Committee believes that converting the General Assistance program to an entitlement program would ensure a steady stream of support to those who need temporary assistance.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1098, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1098, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 982 (Joint) Human Services and Commerce and Consumer Protection on H.B. No. 876**

The purpose of this measure is to assist condominium associations by increasing the amount of unpaid common assessments that an association may collect against the subsequent owner of a foreclosed property and allowing an association to offer assistance to a disabled tenant who is having difficulty living independently.

Testimony in support of this measure was submitted by the Hawaii Council of Associations of Apartment Owners, Hawaii Bankers Association, and Hawaii Independent Condominium and Cooperative Owners. Comments on this measure were provided by Hawaii Financial Services Association and the Community Associations Institute, Hawaii Chapter. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that mortgage foreclosures impact condominium associations when the owner of a foreclosed property fails to pay association maintenance fees. The association continues to be responsible for maintaining the common areas and providing the common benefits such as water, electricity, and maintenance staff of the property, regardless of whether the association receives all of the fees due. Your Committees find that the maximum amount that an association can assess under the current law is insufficient to cover the actual maintenance costs incurred.

Your Committees further find that associations and their members should be supported in their good faith efforts to assist fellow residents who have difficulty living independently. The current law protects associations from liability for good faith efforts to assist elderly residents who may be in need of assessment or social services in order to maintain independent living and avoid harm to self or others. This measure allows associations to also offer assistance to disabled residents.

Your Committees have amended this measure by:

- (1) Replacing the blank dollar amount in Part I with \$3,600;
- (2) Incorporating amendments from the companion to this measure, S.B. No. 572 S.D. 2, which was heard and approved by your Committees;
- (3) Including non-profit and for-profit mental health service entities as possible providers of functional assessments; and
- (4) Making technical, nonsubstantive changes for the purposes of style.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 876, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 876, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 983 Human Services on H.B. No. 1101**

The purpose of this measure is to ensure that investigators appointed by the Director of Human Services under section 346-4.5, Hawaii Revised Statutes, to investigate incidents at the Hawaii Youth Correctional Facilities have access to the information and records needed to conduct such investigations.

Testimony in support of this measure was provided by the State Attorney General and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State is required through a Memorandum of Agreement with the United States Department of Justice to investigate certain incidents involving youth and violence or abuse. Your Committee further finds that some investigations require access to the records of providers of services to youth at the Hawaii Youth Correctional Facilities, which access is currently prohibited or hindered by certain state confidentiality laws. Your Committee therefore finds that this measure is necessary to authorize investigators appointed by the Director of Human Services to obtain necessary information for investigations in satisfaction of the Memorandum of Agreement requirements.

Your Committee has amended this measure as follows:

- (1) By amending the effective date from January 1, 2050, to July 1, 2009; and
- (2) By making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1101, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1101, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 984 Commerce and Consumer Protection on H.B. No. 1032**

The purpose of this measure is to help deter the fraudulent use of notary seals or stamps by requiring that a notary public's commission number be included on the notary public's official seal or stamp.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that including a notary public's commission number on the notary public's official seal or stamp will help prevent fraud by making it easier to identify the individual who purportedly notarized particular documents and to track the activity of notaries public over time. Your Committee further finds that the cost to individual notaries public of replacing official stamps and seals is minimal.

Your Committee has amended this measure by making one technical, nonsubstantive change to reflect existing statutory language accurately.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1032, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1032, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 985 (Joint/Majority) Commerce and Consumer Protection and Labor on H.B. No. 643**

The purpose of this measure is to allow the Contractors Licensing Board to revoke, suspend, or refuse to renew the license of a contractor who knowingly employs individuals who are ineligible for employment in the United States on public works contracts.

Your Committees received testimony in support of this measure from Pacific Resource Partnership, Hawaii Carpenters Union, Laborers International Union of North America Local 368, and Hawaii Building and Construction and Trades Council, AFL-CIO. Testimony in opposition to this measure was received from the Hawaii Civil Rights Commission and one private citizen. Testimony with comments on this measure was received from the Contractors Licensing Board and the Building Industry Association Hawaii. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that while federal law regulates eligibility criteria for foreign workers in the United States, the states retain a role in regulating state contracting and labor issues. Your Committees further find that the concerns expressed in the testimony of the Hawaii Civil Rights Commission regarding the application of federal standards and the potential for increased unlawful discrimination complaints have merit and, therefore, respectfully request that the Committee on Judiciary and Government Operations consider these issues, which lie properly within that Committee's jurisdiction.

Your Committees have amended this measure by making technical, nonsubstantive changes to the language of this measure for the purposes of clarity and accuracy.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 643, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 643, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, 1 (Slom). Excused, 2 (Bunda, Hee).

**SCRep. 986 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on H.B. No. 640**

The purpose of this measure is to amend chapter 343, Hawaii Revised Statutes (chapter 343), to clarify that any primary action that requires a permit or approval not subject to the discretionary consent of the approving agency and that involves a secondary action within an existing public right-of-way or highway is exempt from chapter 343.

Testimony in support of this measure was submitted by one county department and six private organizations. Testimony in support of the measure, with suggested amendments, was submitted by one state department and four private organizations. Testimony supporting the intent of the measure was submitted by one state department and one private organization. Testimony in opposition to the measure was submitted by three individuals. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees understand that recent court rulings and agency interpretations have suggested that private applications that use or "touch" state or county roadways or rights-of-way, such as easements, drainage facilities, connections to waterlines and sewer lines, private driveways and access improvements, and utility rights of way for overhead or underground connections, would require preparation of an environmental assessment document due to the "use of state or county lands", pursuant to section 343-5(a)(1), Hawaii Revised Statutes. As a result, private applicant proposals for minor work within the state or county right-of-way now triggers the preparation of an environmental assessment by the applicant. Your Committees find that the unintended results of these court decisions and agency interpretations have caused the Department of Transportation (DOT) and the Office of Environmental Quality Control (OEQC) to be deluged with hundreds of minor work project reviews, significantly increasing the time required for the DOT to review and process applications affecting the state highway right-of-way. This interpretation has also created unnecessary expense and delay for private applicants.

Your Committees also find that requiring an environmental assessment for minor work within the state or county right-of-way was not the intention of the Legislature when enacting chapter 343 and that this measure is necessary to clarify that certain secondary actions involving the installation, improvement, renovation, construction, and development of infrastructure within a public right-of-way or highway shall not be deemed to be the "use of state or county lands" for purposes of chapter 343.

Your Committees also acknowledge that the Legislative Reference Bureau (LRB) has contracted with the University of Hawaii to conduct a study of the State's environmental review process. The research for this study is currently being conducted, and the results of this study are to be presented to the Legislature before the next legislative session. Notwithstanding that this measure may be a temporary fix, obviated by the LRB's comprehensive study, your Committees find that this matter must be clarified now and cannot wait until the LRB's study is completed and its recommendations implemented through the legislative process.

Your Committees have amended this measure by:

- (1) Adding definitions for "primary action" and "secondary action", which were the result of a collaboration among the OEQC and other stakeholders;
- (2) Changing the effective date from July 1, 2050, to July 1, 2009; and
- (3) Making a technical, nonsubstantive change for clarity.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 640, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 640, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair and Majority Leader on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 5 (Espero, Green, Ihara, Nishihara, Hemmings).

**SCRep. 987 Education and Housing on H.B. No. 179**

The purpose of this measure is to amend two sections of the Hawaii Revised Statutes to reflect the transfer of responsibility for school facilities repair and maintenance from the Department of Accounting and General Services to the Department of Education, pursuant to Act 51, Session Laws of Hawaii 2004.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the responsibility for construction and the repair and maintenance of facilities was transferred from the Department of Accounting and General Services to the Department of Education, effective July 1, 2005, pursuant to the requirements of Act 51, Session Laws of Hawaii 2004, and that the two sections in this measure were missed in the transfer.

Your Committee has heard from the Department of Education that, upon further consideration, both sections are unnecessary and should be repealed rather than amended. Repeal will not affect the Department of Education's current practices or prevent the

Department from charging schools for electricity and maintenance of school-installed air conditioning, or requiring schools to maintain donated equipment and fixtures.

Your Committee has amended this measure accordingly, by:

- (1) Repealing subsections 302A-1501(b) and 302A-1503(b), Hawaii Revised Statutes; and
- (2) Making technical amendments to reflect these changes.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 179, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

**SCRep. 988 Education and Housing on H.B. No. 1043**

The purpose of this measure is to address state low-income housing tax credits by:

- (1) Reducing the period over which credits may be claimed from ten years to five years; and
- (2) Addressing the election of a federal grant in lieu of a portion of the state tax credit allocation for 2009, as authorized by the American Recovery and Reinvestment Act of 2009.

Testimony in support of this measure was submitted by two state agencies and five private organizations. Comments were submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that section 235-110.8, Hawaii Revised Statutes, allows an eligible taxpayer to claim fifty per cent of the federal low income housing credit over a period of ten years. This measure would reduce that period to five years, making the credit far more attractive to investors.

With regard to Part II of this measure, the American Recovery and Reinvestment Act of 2009 (the "Federal Stimulus Bill") allows states to elect to receive grants instead of tax credits to finance low-income housing for 2009. Your Committee understands that the Department of Taxation is currently reviewing how the Federal Stimulus Bill might affect this measure and whether additional amendments may be necessary.

In addition, your Committee has considered an amendment requested by the Department of Taxation to clarify that taxpayers may claim the Hawaii low-income housing tax credit in an amount equal to the federal low-income housing tax credit that may be claimed for the first five years of the ten-year federal credit period (not to be confused with the adjusted five year credit period defined in section 235-110.8(f), Hawaii Revised Statutes, as amended by this measure). Your Committee notes that the Department is concerned that without this clarification, taxpayers may mistakenly believe that the federal low-income housing tax credit is first recomputed over a five-year credit period, and then the provisions of section 235-110.8(b), Hawaii Revised Statutes, are applied, which would effectively result in doubling the cost of the credit to Hawaii.

Your Committee is strongly supportive of efforts to increase the development of low-income housing in Hawaii and believes this measure offers a practical means of doing so.

Your Committee has amended this measure by:

- (1) Further clarifying how the low-income housing tax credit is computed;
- (2) Amending the effective date to July 1, 2030, for the purposes of continued discussion; and
- (3) Making technical, nonsubstantive amendments for the purpose of style.

Your Committee regards this measure as a work in progress, and requests that the Department of Taxation keep both this Committee and the Committee on Ways and Means informed of any additional changes that may be needed, particularly those that may be necessary to meet federal requirements.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1043, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1043, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

**SCRep. 989 (Majority) Economic Development and Technology on H.B. No. 1503**

The purpose of this measure is to allow the goals of job creation, labor rights, and environmental protection to be supported by the State's business laws through the establishment of a special class of limited liability companies called "public purpose companies" that would use patent rights to:

- (1) Create and retain desirable jobs within Hawaii and the United States;
- (2) Strengthen labor rights nationally and internationally; and
- (3) Enhance environmental protection nationally and internationally.

Testimony in support of this measure was submitted by one concerned individual. Testimony in opposition of this measure was submitted by the Department of Commerce and Consumer Affairs and Char Sakamoto Ishii Lum & Ching. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the creation of a public purpose company under the protections afforded to limited liability companies in the State of Hawaii will provide a mechanism for individuals and entities to provide benefits to the public and society at large through various activities desired by prospective public purpose companies. Your Committee also finds that the creation of a public purpose company entity in the State of Hawaii will provide a springboard to other jurisdictions to adopt a similar legal entity to support specific public purpose endeavors.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to promote further discussions; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1503, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1503, H.D. 1, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Hee).

**SCRep. 990 (Joint) Health and Human Services on H.B. No. 1642**

The purpose of this measure is to help ensure the delivery of quality health and human services by requiring that all proposals for health and human services purchases be submitted by duly licensed providers of the proposed service and be for the exact amount to be expended by the State.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association, Aloha Care, Community Clinic of Maui, Waikiki Health Center, and the Faith Action for Community Equity. Testimony in opposition to this measure was submitted by the Department of Human Services, the Procurement Office, the Office of Youth Services of the Department of Human Services, Family Support Services of West Hawaii, Waianae Community Outreach, Paia Youth & Cultural Center, and the Paia Youth Council, Inc.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is not intended to create new licensure requirements in the request for proposal procedures. The Legislature's intent is to ensure that those businesses that are submitting bids for contracts on services that are required by statute to be licensed, are licensed at the time of bidding.

Your Committees have amended this measure by:

- (1) Inserting a purpose section to clarify the Legislature's intent of the measure;
- (2) Inserting language that clarifies that bidder licensing requirements are applicable only if the applicant is required by statute to be licensed in order to conduct the business that is being bid on;
- (3) Changing the effective date to July 1, 2009; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1642, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1642, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 991 Transportation, International and Intergovernmental Affairs on H.B. No. 981**

The purpose of this measure is to amend Act 171, Session Laws of Hawaii (SLH) 2008, relating to the implementation of use of an ignition interlock device, to reflect recommendations of the Hawaii Ignition Interlock Implementation Task Force, and to extend the life of the Task Force to January 1, 2011.

Your Committee received testimony in support of this measure from the Department of Health; the Department of Transportation; the Department of the Prosecuting Attorney; the Hawaii Ignition Interlock Implementation Task Force; and Mothers Against Drunk Driving HAWAII. Testimony in opposition was received from Hawaii Insurers Council. Comments were received from the Judiciary, the Public Defender, and The Century Council. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Hawaii Ignition Interlock Implementation Task Force was created by Act 171, SLH 2008, to make recommendations to the Legislature to implement Act 171. The Task Force was broadly representative of the Legislature, the Judiciary, relevant executive departments of the State and counties, and concerned citizen groups. Recognizing the need to resolve a number of outstanding issues in the transition to use ignition interlock devices, the Legislature delayed the effective date of Act 171 to July 1, 2010.

Your Committee finds that the use of an ignition interlock device prevents drivers previously arrested for driving under the influence of intoxicants from starting or operating a motor vehicle with more than a minimal alcohol concentration while their case is pending or while their license is revoked.

Your Committee notes that numerous steps have been taken by the Legislature over the past twenty-five years to address the toll exacted from our community by those who operate motor vehicles under the influence of alcohol or drugs, or both. These include providing increased criminal penalties, from larger fines and longer license suspensions and prison terms to forfeiture of the motor vehicle involved in the crime. New criminal offenses have been created to address causing death with a motor vehicle while under the influence of alcohol or drugs to habitually driving under the influence. Administrative license revocation has been enacted to quickly revoke a driver's license while the courts determine what penalties are appropriate. Special attention has been given to repeat offenders, offenders who are highly intoxicated, youthful offenders, and those who drive under the influence with a child in the vehicle. Your Committee believes that using interlock devices to deter intoxicated drivers from driving is a natural extension of these policies.

Your Committee has amended this measure by deleting its contents and inserting the provisions of Senate Bill No. 716, S.D. 1, a similar measure, along with conforming technical amendments thereto.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 981, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 981, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Majority Leader on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 992 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 366**

The purpose of this measure is to establish fines and penalties for knowingly killing or capturing manta rays within state waters.

Testimony in support of this measure was submitted by one state agency, thirteen organizations, and seventy-eight public citizens. One state agency supported the intent of the measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will ensure the protection of Hawaii's manta ray populations. Manta ray populations reproduce slowly, a female manta ray will take close to ten years before she has her first pup, and will contribute a single new pup only every two to three years. Around the world manta ray populations have been decimated, they are targeted for shark fin soup and controversial medicines. Due to the slow reproduction process, any taking of manta rays can affect the population for many years. Currently, there are no state laws or rules to protect Hawaii's manta ray population.

Your Committee has amended this measure by:

- (1) Requiring that special activity permits not be issued for any take that would exceed the potential biological removal level;
- (2) Defining "potential biological removal level"; and
- (3) Amending the effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 366, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 366, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 993 Energy and Environment on H.B. No. 245**

The purpose of this measure is to support renewable energy facility development in Hawaii by:

- (1) Providing that the siting, development, construction, and operation of a renewable energy facility may be allowed within a conservation or agricultural district or special management area, subject to permit and approval processes under applicable statutory provisions and to the discretionary authority of permitting agencies or authorities to impose conditions;
- (2) Requiring all agencies and authorities that issue permits or approvals to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to develop criteria for, identify mitigation measures applicable to, and otherwise regulate renewable energy facilities within conservation or agricultural districts or special management areas; and
- (3) Limiting renewable energy facilities to wind energy facilities, biofuel processing facilities, agricultural-energy facilities, and solar energy facilities, as those terms are defined within specific sections of chapter 205, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by two state departments and one private organization. Testimony in support of the measure, with amendments, was submitted by one private organization. Testimony in support of the intent of the measure, with suggested amendments, was submitted by one state department. Testimony in opposition to the measure was submitted by one private organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that it is the intent of this measure to balance the competing goals of energy self-sufficiency and the reduction of Hawaii's reliance on petroleum-based energy, with the protection of conservation, agricultural, and special management area lands. However, your Committee also finds that it is important that agencies tasked with permitting renewable energy facilities are able to use their discretion to craft appropriate mitigation measures when reviewing such projects. Further, requiring agencies to

adopt additional rules could unnecessarily burden the agencies and may not be necessary if such approvals are already within the agencies' discretion or the agencies can adopt procedures to the same effect.

Your Committee has amended this measure by:

- (1) Clarifying that agencies and authorities may impose reasonable restrictions or require mitigation measures to protect natural resources and cultural resources and activities, in addition to agricultural resources and activities, the environment, or the health, safety, and welfare of the residents of the State;
- (2) Giving agencies and authorities that issue permits or approvals for renewable energy facilities the discretion to adopt rules or procedures for renewable energy facilities, rather than mandating that such entities adopt rules pursuant to chapter 91, Hawaii Revised Statutes;
- (3) Clarifying that the types of renewable energy facilities allowed pursuant to sections 205-2(d)(4) through (7) and 205-4.5(a)(14) through (16), Hawaii Revised Statutes, applies to the types of facilities that are permitted within the state agricultural district and not to facilities in the conservation district or special management area;
- (4) Reiterating that the proposed amendments in the measure are not intended to diminish the discretion of any agency or any authority under existing laws to approve or disapprove any permit application; and
- (5) Changing its effective date from July 1, 2020, to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 245, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 245, H.D. 1, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 2 (Hooser, Kokubun). Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 994 Commerce and Consumer Protection on H.B. No. 874**

The purpose of this measure is to prohibit a deed restriction or covenant that requires the payment of a transfer fee to a specified private party every time a property is sold or transferred.

Your Committee received testimony in support of this measure from Hawai'i Association of Realtors. Testimony in opposition to this measure was received from 1250 Oceansides Partners. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that some real estate developers charge transfer fees that require a payment to the developer every time a property is sold or transferred from one owner to the next. Some of these fees are unrelated to any legitimate purpose and serve only to enrich the developer. Your Committee finds that there is presently no regulation of these fees, no limitation on their application, and no accountability or oversight of the recipients.

Your Committee notes the concerns expressed by testifiers that the exemptions from the prohibition on transfer fees contained in this measure do not account for currently existing, judicially mandated or sanctioned transfer fees. It is not the intent of your Committee to place any individual in the untenable position of being forced to choose between complying with a court order and a legislative mandate. However, as a public policy, it is troublesome to allow a developer to settle private disputes by burdening future purchasers who were not party to the original dispute. Accordingly, your Committee has included an amendment that ameliorates this concern, but respectfully requests that the Committee on Judiciary and Government Operations further consider this issue, which lies properly in that Committee's jurisdiction.

Your Committee has amended this measure by:

- (1) Clarifying that the prohibition on transfer fees is prospective, and does not affect deed restrictions or other covenants running with the land made prior to July 1, 2009; and
- (2) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in its language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 874, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 874, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

**SCRep. 995 (Joint/Majority) Education and Housing and Human Services on H.B. No. 395**

The purpose of this measure is to require that any unexpended or unencumbered general fund appropriations designated for the State's early learning system for fiscal year 2008-2009 shall lapse into the keiki first steps trust fund.

Testimony in support of this measure was submitted by two government agencies, seven private organizations, and one individual. Testimony in opposition was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the provision in this measure is similar to one contained in S.B. No. 1329, S.D.1, previously adopted after a public hearing by your Committee on Human Services, which also made clarifying amendments to the Early Learning Council and the keiki first steps trust fund.

In addition, your Committee on Education and Housing previously heard and approved a measure related to junior kindergarten and kindergarten assessment, further amended as S.B. No. 1278, S.D.2.

Your Committees have amended this measure by replacing its contents with provisions from the measures discussed above, to:

- (1) Require the Department of Education, beginning with the 2010-2011 school year, to use successful assessment tools and protocols for determining a student's initial placement and for decision making about a student's movement between junior kindergarten, kindergarten, and into grade one; and
- (2) Clarify provisions of the Early Learning System, established by Act 14, Special Session Laws of Hawaii 2008, including authorizing designees for all members of the Early Learning Council, changing the name of the keiki first steps trust fund to the early learning trust fund, and specifying that moneys in the early learning trust fund shall not lapse to the credit of the general fund at the end of each fiscal year.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 395, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 395, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, 1 (Hemmings). Excused, 1 (Tsutsui).

**SCRep. 996 (Joint/Majority) Education and Housing and Energy and Environment on H.B. No. 986**

The purpose of this measure is to address concerns regarding public school facilities by:

- (1) Requiring construction and renovation of public school facilities to meet the Collaborative for High Performance Schools standards;
- (2) Requiring replacement of old portable buildings with high performance classrooms; and
- (3) Requiring prioritization of public school facilities projects in accordance with certain criteria.

Testimony in support of this measure was submitted by one private organization. Two state agencies submitted comments. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees have heard a number of concerns regarding the amendments in this measure. The measure would require all public school facilities, including renovations and projects less than 5,000 square feet, to meet the Collaborative for High Performance Schools. The Department of Education has noted that the new language is unnecessary, given that section 196-9(b)(1), Hawaii Revised Statutes, refers to energy guidelines, and that the Department is currently incorporating the Collaborative for High Performance Schools criteria and referencing its Best Practices Guidelines for both new construction and renovation projects.

Regarding the proposed requirement to replace portable classrooms older than twenty years, your Committees also note that the Department recommends replacing portables when their condition warrants replacement and that the Department currently has pilot projects underway to retrofit and reduce energy use in existing portables, as well as to develop an energy neutral prototype high performance classroom.

Your Committees are supportive of increasing energy efficiency in public school facilities, both as a means of decreasing dependence on outside sources of energy and as a way of achieving cost savings for the schools.

Your Committees have amended this measure accordingly, by:

- (1) Deleting the proposed new language in section 196-9(c), Hawaii Revised Statutes;
- (2) Amending section 196-9(b)(1), Hawaii Revised Statutes, to include renovation in the energy guidelines;
- (3) Amending statute references throughout to reflect these changes;
- (4) Amending the effective date to July 1, 2030, for the purposes of further discussion; and
- (5) Making technical amendments.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 986, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 986, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, 1 (Hemmings). Excused, 4 (Chun Oakland, English, Hooser, Tsutsui).

**SCRep. 997 Education and Housing on H.B. No. 1045**

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance And Development Corporation to modify and amend development agreements with eligible developers;
- (2) Authorize the imposition and collection of reasonable fees for administrative expenses, as set by the Legislature; and
- (3) Make housekeeping amendments to delete incorrect references to "public" housing.

Testimony in support of this measure was submitted by one state agency.

Your Committee finds that Act 198, Session Laws of Hawaii 2005, added a new section to chapter 201G, Hawaii Revised Statutes, to provide express authority for the Housing and Community Development Corporation of Hawaii to modify and amend development agreements with eligible developers that were entered into by its predecessor, the Housing Finance and Development Corporation. However, this section was omitted in Act 180, Session Laws of Hawaii 2006, which recodified Hawaii's housing laws.

Your Committee further finds that this measure also clarifies the Corporation's authority to collect reasonable application or service fees for loans, grants, or other affordable housing financing and development assistance programs; provided that the fees are established by the Legislature.

Your Committee has amended this measure to authorize the Authority, not the Legislature, to establish the application and service fees.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1045, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1045, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

#### **SCRep. 998 Economic Development and Technology on H.B. No. 1451**

The purpose of this measure is to continue providing financial support for Hawaii's high tech industry while also mitigating revenue losses to the State.

Specifically, this measure is intended to achieve the following:

- (1) Extend the availability of the Technology Infrastructure Renovation Tax Credit, High Technology Business Investment Tax Credit, and Tax Credit for Research Activities to December 31, 2015; and
- (2) Establish a limit of \$10,000,000 on the aggregate of High Technology Business Investment Tax Credits that may be claimed by taxpayers in a taxable year for investments in a single qualified high technology business and a limit of \$50,000,000 on the aggregate of High Technology Business Investment Tax Credits claimed in a taxable year by all taxpayers for investments in qualified high technology businesses.

Testimony in support of this measure was submitted by the Office of the Governor, the Department of Taxation, County of Hawaii Department of Research and Development, and Hawaii Government Employees Association. Testimony in opposition of this measure was submitted by the Maui Economic Development Board, Hawaii Crop Improvement Association, PacifiCap Group LLC, Hawaii Venture Capital Association, Hawaii Angels, Goodwill Anderson Quinn & Stifel LLLP, Cardax Pharmaceuticals Inc., Gay & Robinson Inc., Carbon Diversion Inc., Oceanit, Ocean Engineering and Energy Systems, Oceantronics, Atco Software Inc., e-telligents LLC, Deep Seawater International Inc., Ventura Technology Ltd., Archinoetics LLC, Marine Minerals Technology Center Associates, Kona Blue Water Farms, Datahouse Consulting Inc., People Bridge, Cellular Bioengineering Inc., OmniGreen Renewables LLC, Honolulu Seawater Air Conditioning LLC, Innovasc LLC, Decision Research Corporation, Akamai Initiative, Peletex, Inc., Pacific LightNet Communications, Pacific Biodiesel, Mauna Kea Infrared, LLC, Pacific Light and Power, Production Partners, Inc., Makai Motion Pictures, Island Film Group, Hawaii Movie Studios LLC, Hyperspective Studios, Edutainment Resources Inc., Production Assistance Unlimited of Hawaii, Event Group Hawaii Inc., IATSE Local 665, BAE Systems, Grant Thornton LLP, and Noni Biotech International, and five concerned individuals. Comments on this measure were submitted by Central Pacific Bank and Accuity LLP. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that various high technology and research activity tax credits serve as economic incentives to the private sector that are vital to the development of emerging industries in Hawaii. Your Committee also finds that taking into consideration the State's current economic condition and budget crisis that certain safeguards should be put in place to preserve or even bolster the State's general fund through the receipt of more tax revenues.

Your Committee has adopted in this measure a \$100,000,000 limit on the aggregate amount of tax credits that can be claimed by all taxpayers for the High Technology Business Investment Tax Credit in a single year. The purpose of the aggregate limit is to provide the State savings of over \$85,000,000 in fiscal years 2010 and 2011 combined. The tax savings generated from the aggregate limit are derived from projections adopted by the Council on Revenues, which estimates taxpayer claims for the High Technology Business Investment Tax Credits to be in excess of \$140,000,000 in each of the fiscal years 2010 and 2011.

Furthermore, your Committee has incorporated several of the recommendations suggested by technology industry representatives to develop a framework for the State to realize additional tax savings from the credits provided by Act 221. Your Committee has adopted recommendations from technology industry representatives that serve to tighten up on abuses that have been alleged regarding Act 221 credits in the past, such as through the creation of "drop-down subsidiaries."

Your Committee has amended this measure by:

- (1) Deleting sections 1 through 5;
- (2) Reducing the extension of time to claim a Technology Infrastructure Renovation Tax Credit from December 31, 2015, to December 31, 2012;
- (3) Increasing the aggregate limit for High Technology Business Investment Tax Credits claimed by all taxpayers for investments made in qualified high technology businesses from \$50,000,000 to \$100,000,000 for each of the following periods:
  - (A) From July 1, 2009, through December 31, 2009;

- (B) From January 1, 2010, through December 31, 2010;
- (C) From January 1, 2011, through December 31, 2011; and
- (D) From January 1, 2012, through December 31, 2012;
- (4) Changing the aggregate limitation period for purposes of the High Technology Business Investment Tax Credit from taxable years beginning after December 31, 2009, to investments made after June 30, 2009;
- (5) Clarifying that the application of the five-year tax credit period for the High Technology Business Investment Tax Credit is for new investments made in qualified high technology businesses on or before December 31, 2012;
- (6) Clarifying that the term "taxpayer" as used for the High Technology Business Investment Tax Credit means the respective partners, members, or other beneficial owners of a pass-through entity and not the actual partnership, limited liability company, or other pass-through entity;
- (7) Reducing the High Technology Business Investment Tax Credit recapture percentage from fifty per cent to ten per cent;
- (8) Clarifying that if a recapture event occurs during the five-year period applicable to the High Technology Business Investment Tax Credit, then one hundred per cent of the tax credit is disallowed in the year of the recapture event and each year thereafter during the five-year period;
- (9) Deleting the application of sections 6676, 6694, 6700, and 7404 of the Internal Revenue Code to the High Technology Business Investment Tax Credit;
- (10) Increasing the time to claim a High Technology Business Investment Tax Credit from December 31, 2011, to December 31, 2012;
- (11) Adding the requirement for qualified high technology businesses to file a claim for a High Technology Business Investment Tax Credit allotment on a form prescribed by the Department of Taxation;
- (12) Adding the requirement for each qualified high technology business to provide evidence or proof of the investment amount received to the Department of Taxation before a credit allotment amount is provided to the qualified high technology business;
- (13) Requiring a qualified high technology business that constitutes a "drop-down subsidiary" to obtain a comfort letter ruling from the Department of Taxation prior to qualifying for the High Technology Business Investment Tax Credit;
- (14) Defining the meaning of a "drop-down subsidiary" for purposes of the High Technology Business Investment Tax Credit;
- (15) Reducing the time period for the application of section 41 of the Internal Revenue Code to the Tax Credit for Research Activities from January 1, 2015, to January 1, 2012, if section 41 of the Internal Revenue Code is repealed or terminated before January 1, 2012;
- (16) Increasing the time to claim the Tax Credit for Research Activities from December 31, 2011, to December 31, 2012;
- (17) Extending the date of the repeal and reenactment of Act 206, Session Laws of Hawaii 2007, from January 1, 2011, to January 1, 2013; and
- (18) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1451, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1451, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 999 (Joint) Economic Development and Technology and Health on H.B. No. 1567**

The purpose of this measure is to encourage the establishment of health care facilities in underserved areas of the State by adding skilled nursing facilities to the businesses that may qualify for benefits under the State Enterprise Zones law.

Testimony in support of this measure was submitted by Avalon Health Care, Inc. Testimony in opposition of this measure was submitted by the Department of Taxation and the Department of Business, Economic Development, and Tourism. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will help to provide the infrastructure needed for the continuum of care for the State's growing aging population by providing a general excise tax exemption for skilled nursing facilities operating within, or deemed to be operating within, a designated enterprise zone.

Your Committees received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in annual revenue losses to the State as follows:

- (1) \$120,000 in fiscal year 2010;
- (2) \$320,000 in fiscal year 2011;
- (3) \$400,000 in fiscal year 2012;
- (4) \$480,000 in fiscal year 2013;

- (5) \$331,800 in fiscal year 2014; and
- (6) \$51,800 in fiscal year 2015.

The Department of Taxation's methodology is as follows:

The revenue estimate is based on construction of a new skilled nursing facility with 100 beds. Construction costs are estimated to be \$20,000,000, incurred over 4 years beginning in fiscal year 2010 (15 per cent the first year, 25 per cent in years 2 and 3, and 35 per cent in year 4). The estimates are based on payroll of \$35,000 per bed. Gross receipts are estimated at \$60,200 per bed, beginning in 2014. Unemployment insurance payments are assumed to be 2.5 per cent of salaries. Taxable income is assumed to equal 10 per cent of the gross income and to be subject to tax at a rate of 6.25 per cent. It is assumed two facilities will be built in the first and second year after this bill passes.

- (1) Fiscal year 2010, \$120,000 (1 st fac.);
- (2) Fiscal year 2011, \$200,000 (1 st fac.) + \$120,000 (2nd fac.) = \$320,000;
- (3) Fiscal year 2012, \$200,000 (1 st fac.) + \$200,000 (2nd fac.) = \$400,000;
- (4) Fiscal year 2013, \$280,000 (1st fac.) + \$200,000 (2nd fac.) = \$480,000;
- (5) Fiscal year 2014, \$51,800 (1 st fac.) + \$280,000 (2nd fac.) = \$331,800; and
- (6) Fiscal year 2015, \$51,800 (2nd fac.)

Your Committees have amended this measure by deleting its contents and replacing it with the contents of S.B. No. 1266, which, beginning on January 1, 2010, will treat each skilled nursing facility located outside an enterprise zone as a qualified business operating within an enterprise zone if the skilled nursing facility begins operations as a new facility or expands existing operations.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1567, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1567, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 1000 (Joint) Economic Development and Technology and Health on H.B. No. 553**

The purpose of this measure is to encourage the establishment of modern medical and research facilities within the State by establishing a Medical Enterprise Zone Program to initially consist of a pilot medical enterprise zone in West Maui.

Testimony in support of this measure was submitted by Hawaii Association for Justice and West Maui Improvement Foundation Inc. Testimony in opposition of this measure was submitted by the Department of Taxation and the Department of Business, Economic Development, and Tourism. Comments on this measure were submitted by the City and County of Honolulu Department of Planning and Permitting. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that our State, especially in rural areas similar to West Maui, would benefit greatly from the establishment of modern medical facilities for health care and research that would attract highly skilled medical professionals to work in Hawaii. Your Committees also find that limiting the potential investment and subsequent tax credits and tax exemptions to a medical enterprise zone pilot project in West Maui will minimize any potential negative financial impact on the State, while at the same time allowing the State to evaluate the medical enterprise zone's performance and attractiveness.

Your Committees have amended this measure by:

- (1) Designating the Director of Business, Economic Development, and Tourism, rather than the Director of Health, as the entity to which the governing body of the County of Maui shall transmit a description of the proposed location of the pilot program in West Maui;
- (2) Directing the Director of Business, Economic Development, and Tourism, rather than the Director of Health, to designate the proposed area in West Maui as a medical enterprise zone for a period of seven years;
- (3) Changing the effective date to December 31, 2050, and applying it to taxable years beginning after December 31, 2050, to promote further discussion;
- (4) Changing the repeal date to January 1, 2017; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 553, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 553, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 1001 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on H.B. No. 1807**

The purpose of this measure is to enable Hawaii to receive and use moneys under the federal American Recovery and Reinvestment Act of 2009 and any later federal laws for drinking water or wastewater infrastructure.

Testimony in support of the measure was submitted by six county departments or boards and four private organizations. Testimony in support of the measure, with suggested amendments, was submitted by the Department of Health. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that there are two revolving fund programs, the Drinking Water Fund, established under chapter 340E, Hawaii Revised Statutes, and the Revolving Fund, established in chapter 342D, Hawaii Revised Statutes, that currently loan funds to counties for the construction of publicly owned drinking water and wastewater infrastructure projects. These two revolving funds were established pursuant to federal law, and function like environmental infrastructure banks by distributing low interest rate loans for water quality projects. Loan repayments are recycled back into individual fund programs. Because Congress had intended for these funds to revolve in perpetuity, neither program allows for loan subsidies and grants to be made to the counties.

The American Recovery and Reinvestment Act of 2009, P.L. 111-5 (American Recovery and Reinvestment Act) will provide significant funding for wastewater and drinking water system improvements, totaling approximately \$49,800,000. The amendments in this measure are required to allow for loans to the counties with forgiveness of principal, zero or negative interest, and grants in order to permit these revolving fund programs to make grants and loan subsidies of funds from the American Recovery and Reinvestment Act funds.

The Department of Health has also raised a related issue in testimony. According to the Department of Health, an additional Total Maximum Daily Load Coordinator is required so that the Department of Health can properly and fully comply with federal water pollution control requirements in section 303 of the Clean Water Act of 1072 (P.L. 92-500), as amended. According to the Department of Health, the State needs highly qualified and experienced Total Maximum Daily Load Coordinators to protect the State from water pollution and to carefully repair the damages incurred to minimize impacts on Hawaii residents and the State's economic environment. This position is to be federally funded.

Your Committees have amended this measure by:

- (1) Adding the phrase "and other applicable federal acts" to the end of Section 2(c) and Section 3(c) of the measure, for consistency and to ensure that the State can take advantage of similar federal laws in the future;
- (2) Inserting as a new part Section 1 of S.B. No. 934, S.D. 1, authorizing the Department of Health to establish not more than two exempt positions for Total Maximum Daily Loan Coordinators; and
- (3) Making technical, nonsubstantive changes for style and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1807, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1807, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Vice President on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 5 (Espero, Green, Ihara, Nishihara, Hemmings).

**SCRep. 1002 Commerce and Consumer Protection on H.B. No. 1438**

The purpose of this measure is to bring Hawaii into compliance with federal law by implementing the Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (SAFE Act).

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii Association of Mortgage Brokers, Mortgage Bankers Association of Hawaii, Hawaii Bankers Association, Hawaii Credit Union League, and Legal Aid Society of Hawaii. Testimony in opposition to this measure was received from the Department of Commerce and Consumer Affairs and Hawaii Financial Services Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure complies with the requirements of the federal SAFE Act. Your Committee further finds that the purpose of the SAFE Act is "to increase uniformity, reduce regulatory burden, enhance consumer protection, and reduce fraud" by encouraging the states to regulate the mortgage industry. Your Committee notes that this measure is based on a model act prepared by the Conference of State Bank Supervisors and American Association of Residential Mortgage Regulators that the federal Department of Housing and Urban Development has approved as compliant with the federal law.

Your Committee notes that, under the SAFE Act, failure of the State to implement conforming legislation would result in abdication of the State's right to regulate the mortgage industry and assignment of that right to the federal Department of Housing and Urban Development. Your Committee finds that this result would be unacceptable as it is critical that the State retain its right to respond to unique local circumstances in regulating the mortgage industry.

Your Committee has amended this measure by:

- (1) Adding provisions relating to mortgage call reports, unique identifiers for mortgage loan originators, and reports to the Nationwide Mortgage Licensing System in order to fully comply with the SAFE Act;
- (2) Amending the prohibited practices section to conform to existing law regarding unfair and deceptive trade practices;
- (3) Specifying the fees for application, licensure, and renewal of a license;

- (4) Providing that chapter 454, Hawaii Revised Statutes, shall be repealed effective December 31, 2010, and clarifying the process for transitioning industry regulation under chapter 454 to regulation under this measure;
- (5) Specifying the appropriation from the Compliance Resolution Fund for implementation of this measure; and
- (6) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1438, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1438, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 7. Noes, none. Excused, none.

**SCRep. 1003 (Joint) Commerce and Consumer Protection and Judiciary and Government Operations on H.B. No. 268**

The purpose of this measure is to require the Assistant Registrar of the Land Court to provide an image and index of all instruments that contain real property transactions to the Administrator of the City and County of Honolulu's Real Property Assessment Division so that the Division may serve as a clearinghouse for real property information.

Your Committees received testimony in support of this measure from the County of Hawaii, the City and County of Honolulu, the County of Kauai, and the County of Maui. Testimony in opposition of this measure was received from the Department of Land and Natural Resources. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will help the counties to accurately assess real property taxes as well as to comply with their obligations to maintain accurate records and provide public notification of changes in land use and zoning. Your Committees note that the counties currently experience a productive, if informal, working relationship with the Office of the Assistant Registrar of the Land Court. This measure will allow the counties and the Office of the Assistant Registrar to continue those relationships as they currently stand, regardless of changes in administration or personnel.

Your Committees further note the opinion of the City and County of Honolulu that a legislative directive to a specific county is an erosion of the counties' home rule powers. Without taking a position on this issue, your Committees recognize the authority of the counties to exercise self-governance, to the extent authorized by the Legislature.

Your Committees have amended this measure by:

- (1) Clarifying that the counties may agree to delegate information-gathering and distribution responsibilities to a single county pursuant to memorandum of understanding among the several counties;
- (2) Clarifying that the time limit imposed on the Land Court to deliver or forward the records may be waived in the event of technical computer malfunction that creates an unforeseen delay;
- (3) Specifying that neither the Land Court nor the Real Property Assessment Administrator is obligated to provide information free of charge to a requestor other than a county;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive changes for the purpose of clarity and accuracy in the language of this measure.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 268, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 268, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 4 (Gabbard, Green, Sakamoto, Hemmings).

**SCRep. 1004 (Joint) Energy and Environment and Higher Education on H.B. No. 281**

The purpose of this measure is to prioritize the expenditure of federal funds received by the State through the American Recovery and Reinvestment Act of 2009 to develop the highly skilled and well-trained green collar workforce needed by Hawaii's emerging green economic sector and to implement the Emergency Environmental Workforce Program.

Testimony in support of the measure was submitted by one individual. Testimony in support of the measure, with suggested amendments, was submitted by the Research Corporation of the University of Hawaii (RCUH) and the Nature Conservancy. Testimony in support of the intent of the measure, with a suggested amendment, was submitted by the University of Hawaii. Testimony in opposition to this measure was submitted by two state departments. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that in 2001, the Legislature established the Emergency Environmental Workforce, pursuant to Act 4, Third Special Session Laws of Hawaii 2001, in order to provide funding to the RCUH to employ Hawaii residents who were economically displaced after the terrorist attacks of 2001. The 225 RCUH employees who were part of this program augmented existing programs by combating the State's serious environmental problems relating to invasive species. Many of these program participants have continued their careers in environmental and conservation areas.

In Hawaii's current economic crisis, the same type of program may be beneficial to the State by providing jobs and training to economically displaced residents, while at the same time addressing the State's pressing environmental concerns. Through funding from the American Recovery and Reinvestment Act of 2009 and other appropriate federal funding, these dual goals can be met. The

RCUH estimates that a green-collar workforce consisting of 200 employees employed for twelve months with benefits would cost up to \$14,800,000 to be paid from any appropriate federal stimulus funds.

Your Committees have amended this measure by:

- (1) Deleting the word “contract” in Section 3(1) and (2) and Section 4(4) of the measure, as recommended by the RCUH, because the workforce employees will not be contract employees;
- (2) Deleting Section 4(5), as recommended by the University of Hawaii and the RCUH, because the RCUH utilizes the services of the Attorney General’s Office as its legal counsel;
- (3) Adding a provision addressing procurement and employment matters for the workforce employees, as recommended by the RCUH;
- (4) Providing that the Emergency Environmental Workforce program will also supply support and prevent layoffs in existing environmental programs, as recommended by the Nature Conservancy;
- (5) Narrowing the reference to federal funds to those federal sources that are appropriate, as recommended by the Department of Labor and Industrial Relations; and
- (6) Changing its effective date from July 1, 2020, to July 1, 2009.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 281, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 281, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 5 (Baker, Ihara, Takamine, Hemmings, Slom).

**SCRep. 1005 Higher Education on H.B. No. 1057**

The purpose of this measure is to encourage additional contributions to a college savings account by allowing any person or entity, regardless of whether the person or entity is the account owner, to make contributions to the account after the account is opened.

Testimony in support of this measure was submitted by the Department of Budget and Finance. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that under current law, only the college savings account owner – usually a parent – is allowed to make contributions into his or her account. This measure would allow others to contribute directly into an account, and make it much easier for grandparents, other relatives, friends, or employers to make contributions to benefit a particular individual.

Your Committee further finds that allowing these additional contributions would not require any funding from the State in these fiscally challenging times, but would provide an immediate positive impact on the program.

Your Committee has amended this measure by making the Act effective on July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1057, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1057, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Sakamoto, Taniguchi).

**SCRep. 1006 (Joint) Health and Commerce and Consumer Protection on H.B. No. 704**

The purpose of this measure is to protect consumers of home care services by:

- (1) Requiring home care agencies to be licensed by the Department of Health; and
- (2) Appropriating funds for a position in the Department of Health to assist with licensure and monitoring of home care agencies.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii, the Chamber of Commerce of Hawaii, and International Longshore and Warehouse Union- Local 42. Testimony in support of this measure with amendments was submitted by the Department of Human Services. Comments on this measure were submitted by the Department of Health.

Written testimony presented to your Committees may be reviewed on the Legislature’s website.

Your Committees find that home care is a rapidly increasing sector of the health care continuum. The intent of mandating home care agencies to be licensed is to ensure that individuals are receiving quality services. Your Committees further find that the licensure program may be better situated within the Department of Human Services rather than the Department of Health.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to encourage further discussion on the matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 704, H.D. 1, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as H.B. No. 704, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 3 (Ihara, Nishihara, Hemmings).

**SCRep. 1007 (Joint) Health and Commerce and Consumer Protection on H.B. No. 1504**

The purpose of this measure is to establish the Hawaii Health Authority to develop a comprehensive plan to provide universal health care in Hawaii.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association, the Hawaii Government Employees Association, International Longshore and Warehouse Union - Local 42, and Kokua Kalihi Valley. Testimony in opposition to this measure was submitted by the Department of Budget and Finance. Comments on this measure were submitted by the Hawaii Medical Association, Kaiser Permanente, and Hawaii Medical Service Association.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that all residents of Hawaii should have access to affordable health care. Your Committees further find that the current administration is considering action on the federal level to provide universal access to health care and that this should be taken into consideration before further action is taken on the state level.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to encourage further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1504, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1504, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 3 (Ihara, Nishihara, Hemmings).

**SCRep. 1008 (Joint) Health and Human Services on H.B. No. 1373**

The purpose of this measure is to ensure health care access for all residents by appropriating funds for nonprofit, community-based health care providers to provide direct health care services to uninsured residents.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association, the Kupuna Caucus of the Democratic Party of Hawaii, Community Clinic of Maui, Waikiki Health Center, Molokai Community Health Center, Bay Clinic Inc., Kokua Kalihi Valley, Kalihi-Palama Health Center, Kiuchi & Nakamoto Attorneys at Law, Ho'ola Lahui Hawaii, Waimanalo Health Center, Lanai Women's Center, Lanai Community Health Center and the Ko'olauloa Community Health and Wellness Center, Inc. Testimony in opposition of this measure was submitted by the Department of Health.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that support throughout the fiscal biennium is necessary to provide cost-effective care for uninsured Hawaii residents and ensure that the community health center system remains financially viable and stable as the number of uninsured persons grows. Your Committees further find that current funding levels for community health centers providing direct health care services to the uninsured is \$6,000,000.

Your Committees have amended this measure by:

- (1) Amending the appropriation provision to allow for a two-year appropriation; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1373, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1373, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1009 Tourism on H.B. No. 1204**

The purpose of this measure is to clarify the disposition and distribution of revenues of the transient accommodations tax by:

- (1) Deleting the requirement to deposit excess transient accommodations tax revenues into the general fund;
- (2) Depositing the remaining revenues of an unspecified amount, after deposits and distributions under current law, into the tourism special fund in fiscal years 2009-2010 and 2010-2011, with any remaining revenues to be deposited into the general fund, and entirely into the general fund beginning fiscal year 2011-2012 and each fiscal year thereafter.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority; Grand Hyatt Kauai Resort & Spa; Maui Hotel & Lodging Association; The Chamber of Commerce of Hawaii; Hawai'i Hotel & Lodging Association; Retail Merchants of Hawaii; Outrigger Hotels; Hilton Hawaii; and Destination Resorts Hawaii. Testimony in opposition was received from the Department of Taxation; Department of Budget and Finance; and one individual. Comments were received from the State Tourism Liaison and Tax Foundation of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that an increase in revenue for the tourism special fund will better enable the Hawaii Tourism Authority to carry out its basic function to increase tourism to the State. Ultimately, the additional distribution of funds will enable the visitor industry to remain viable through the investment of much needed marketing and funding of programs to stimulate travel to Hawaii.

Your Committee has amended this measure to change the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1204, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1204, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Kidani).

**SCRep. 1010 Labor on H.B. No. 987**

The purpose of this measure is to:

- (1) Establish a State Comprehensive Employment and Training Program to provide unemployed persons who have exhausted all available unemployment insurance benefits with opportunities for employment in public service jobs, related training, and assistance in finding temporary full-time or part-time employment; and
- (2) Provide subsidies to certain private employers for participating in employment programs to train and permanently hire unemployed persons.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that immediate action is necessary to alleviate the high unemployment situation in the State. Your Committee further finds that establishing a statewide employment and training program and providing subsidies to private employers to provide training and hire unemployed workers would effectively equip workers with the skills and opportunities they need to gain permanent employment.

Your Committee has amended this measure by:

- (1) Changing the effective date to the latter of July 1, 2050 (rather than July 1, 2020), or the date upon which the Governor publishes a notice that the seasonally-adjusted unemployment rate has exceeded seven per cent; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 987, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 987, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1011 Labor on H.B. No. 111**

The purpose of this measure is to establish a two-year statute of limitations for recovering indebtedness to the State through the withholding of state salaries.

Testimony in support of this measure was submitted by two organizations and one individual. Comments were submitted by one state agency and two organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State is currently allowed an unlimited amount of time to collect overpayments made to state employees, even when the overpayments were made in error by the State. Your Committee further finds that this measure provides employees with an equal protection against the State collecting portions of their salaries after more than two years, as in many cases repayment is an unexpected, additional financial burden on those employees.

In addition to addressing the statute of limitations for the State's recovery of debt through the withholding of state salaries, your Committee also finds necessary an amendment to the salary of the recently vacated state Captive Insurance Administrator position. In order to attract the best candidates for this position, your Committee has amended this measure by increasing the maximum salary of the Captive Insurance Administrator to an amount equal to the maximum salary of the First Deputy to the Director of Commerce and Consumer Affairs.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 111, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1012 (Majority) Tourism on H.B. No. 1763**

The purpose of this measure is to replace the Hawaii Tourism Authority with a new Department of Tourism.

Your Committee received testimony in support of this measure from the Mayor of Honolulu. Testimony in opposition was received from the Department of Budget and Finance; Hawai'i Tourism Authority; State Tourism Liaison; Hawai'i Hotel & Lodging Association; Outrigger Hotels; The Chamber of Commerce of Hawaii; Grand Hyatt Kaua'i Resort & Spa; Maui Hotel & Lodging

Association; Destination Resorts Hawaii; and Hilton Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Under this measure, the Department of Tourism would have general charge, oversight, and care of tourism and related activities in the State. The objective of the Department is to promote activities that support, maintain, and expand the State's domestic and international travel market, endeavoring to generate increased visitor expenditures, tax revenue, and employment.

Your Committee finds that the Hawaii tourism industry merits the status of an executive department, to reflect the priority the State places on tourism as an economic engine. A Department of Tourism would be able to maneuver through difficult times such as the current recession and past economic downturns by its ability to react quickly to problems and its flexibility to create programs that address the needs of the industry and the market.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to continue the discussions on this matter; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1763, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1763, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Slom). Excused, 1 (Kidani).

**SCRep. 1013 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 900**

The purpose of this measure is to appropriate funds for the operating budget of the Office of Hawaiian Affairs for fiscal years 2009-2010 and 2010-2011.

Testimony in support of this measure was submitted by one state agency and one organization. Testimony in opposition to this measure was submitted by one individual. Comments were submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to continue support of the programs benefitting Hawaiians and native Hawaiians.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 900, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1014 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 586**

The purpose of this measure is to repeal the Kaneohe Bay Regional Council and transfer responsibilities over all plans, programs, and policies adopted by the Council to the Department of Land and Natural Resources.

Testimony in support of this measure was submitted by two state agencies. Testimony in opposition to this measure was submitted by one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Kaneohe Bay Regional Council has played a significant role in developing the Kaneohe Bay Master Plan, stewarding resources, and addressing controversial issues in the Kaneohe Bay area. However, your Committee also recognizes that the current economic situation calls for the Department of Land and Natural Resources to focus its efforts on core functions, and that absorbing the functions performed by the Council into current operations of the Department of Land and Natural Resources is a prudent decision at this time.

Your Committee appreciates the valuable contributions of the Kaneohe Bay Regional Council and encourages the Department of Land and Natural Resources to build upon the successes and experiences of the Council as the Department carries out the Council's duties moving forward.

Your Committee has amended this measure as follows:

- (1) Beginning on the effective date of the measure, requiring the Department of Land and Natural Resources to carry out all of the duties and functions of the Kaneohe Bay Regional Council established by chapter 200D, Hawaii Revised Statutes, prior to the effective date of the measure; and
- (2) Changing the effective date from January 1, 2020, to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 586, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 586, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1015 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 975**

The purpose of this measure is to allow the Agribusiness Development Corporation to acquire or contract to acquire real, personal, or mixed property comprising an agricultural water system by grant, purchase, or gift exempt from county subdivision requirements for the purpose of providing water for irrigation of agricultural lands.

Your Committee received testimony in support of this measure from one state agency and three organizations. Testimony in opposition to this measure was received from one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will benefit the development of diversified agriculture in Hawaii by making it easier for the Agribusiness Development Corporation to acquire and manage large-scale agricultural water systems from former plantation land for the benefit of local farmers and agribusinesses. Your Committee further finds that exempting transferred real property from county subdivision requirements eliminates unnecessary cost and administrative burdens that do not provide a public benefit and have the potential to derail necessary conveyances of land. Your Committee finds that this measure will assist the State in fulfilling its obligation under Article XI, Section 3 of the Hawaii State Constitution to "conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency and assure the availability of agriculturally suitable lands."

Your Committee has amended this measure by clarifying that the exemption from county subdivision requirements applies only where no new lots are created by the acquisition of an agricultural water system by the Agribusiness Development Corporation.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 975, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 975, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 1016 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Education and Housing on H.B. No. 1015**

The purpose of this measure is to allow the Department of Hawaiian Home Lands (DHHL) to incur obligations in excess of the amount standing to the credit of a DHHL trust fund, subject to conditions that the Director of Finance deems reasonably necessary and when the Director of Finance determines that:

- (1) Monies to pay the obligation made in excess of the amount standing to the credit of the DHHL trust fund are expected to be received by the trust fund within a reasonable time period; and
- (2) With the approval of the Governor, allowing the exception is in the best interests of the State and will not impede the financial obligations of the State.

Testimony in support of this measure was submitted by two state agencies and two organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure would expedite the construction of affordable homes and allow the Department of Hawaiian Home Lands to operate similarly to private sector developers, who maximize revenues through cash flow management and may proceed with construction projects with only the funds necessary for a particular phase of a project.

Your Committees further find that granting an exception to the Department of Hawaiian Home Lands would ultimately benefit individuals on DHHL's waiting lists to purchase and occupy affordable homes, and would also increase construction employment opportunities in the State.

Your Committees have amended this measure by changing the effective date from July 1, 2020, to July 1, 2009.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1015, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1015, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Takamine, Tsutsui, Hemmings).

**SCRep. 1017 Public Safety and Military Affairs on H.B. No. 358**

The purpose of this measure is to promote the rehabilitation of convicted drug offenders through alternatives to incarceration by authorizing the placement of certain drug offenders in secure drug treatment facilities.

Testimony in support of this measure was submitted by one private organization and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that providing convicted drug offenders with drug rehabilitation programs in a secure drug treatment facility will reduce the convicted drug offender's rate of recidivism upon release and also help convicted drug offenders develop an important and meaningful role in society. Your Committee also finds that a secure drug treatment facility will create an inspirational environment that is more conducive to successful drug rehabilitation than is currently provided in the environments of many other traditional drug rehabilitation programs.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 358, H.D. 1, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1018 Public Safety and Military Affairs on H.B. No. 1713**

The purpose of this measure is to authorize the Governor to enter private property to mitigate situations deemed hazardous to the health and safety of the public, following appropriate notice procedures to the owner and occupier.

Testimony in support of this measure was submitted by one private organization and five individuals. Comments on this measure were submitted by one state agency and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will allow the State to prevent hazardous situations on private property, such as falling trees or branches, unstable rock and soil, and clogged streams and waterways, that may pose a significant risk of harm to adjoining landowners and the general public when property owners fail to properly maintain their properties. Your Committee also finds that preserving previously appropriated funds to reduce or minimize the hazardous situations identified in this measure is vital to provide the appropriate state agencies with the moneys to mitigate hazardous situations.

Your Committee has amended this measure by:

- (1) Increasing the Governor's five day notice requirement to the landowner and occupier of private property before entering on the private property to a ten day notice requirement;
- (2) Extending the lapsing date for the remaining unexpended appropriations granted under Act 78, Session Laws of Hawaii 2007, from June 30, 2009, to June 30, 2010. Act 78 appropriated funds in response to the Kiholo Bay earthquake disaster that occurred on October 15, 2006;
- (3) Adding dangerous trees or branches that pose a falling hazard to the list of situations that are hazardous to the health and safety of the public and that the Governor is authorized to mitigate; and
- (4) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1713, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1713, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1019 (Majority) Public Safety and Military Affairs on H.B. No. 556**

The purpose of this measure is to provide payment of up to an unspecified monetary amount per veteran, under the Veterans' Burial Grant Program, directly to a mortuary or crematory to:

- (1) Provide funeral and burial services at the request of a qualifying deceased Filipino veteran's survivor or an interested party; and
- (2) Transport the veteran's remains to the Philippines, upon the submission of a contract for services.

Your Committee received testimony in support of this measure from Office of Veterans Services. Written testimony presented to the Committee may be reviewed on the Legislature's website.

A Filipino veteran of the New Filipino Scouts who enlisted between October 6, 1945, and June 30, 1947, who died after June 30, 2004, and who was, at the time of the veteran's death, a United States citizen and a resident of the State of Hawaii, is presently entitled to receive a burial grant from the Office of Veterans Services. To qualify for this burial grant, however, the Filipino veteran's survivor or an interested party must produce an itemized paid invoice showing that the specific services were rendered. However, because of the tremendous upfront costs associated with funeral and burial services as well as transportation to the Philippines, some World War II Filipino veterans, and their families and friends, cannot afford to pay for these activities in advance. Consequently, they will not be able to qualify for these burial grants from the Office of Veterans Services. This measure provides burial grant funds to pay for funeral and burial services and to transport the remains of the person to the Philippines, and establishes procedures for the disbursement of these funds.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 556, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Hemmings). Excused, 3 (Bunda, English, Gabbard).

**SCRep. 1020 Public Safety and Military Affairs on H.B. No. 685**

The purpose of this measure is to:

- (1) Allow the State Fire Council to employ an administrator and administrative assistant with specified responsibilities; and
- (2) Clarify that the budget of the State Fire Council is included in the budget of the Department of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from several government entities and one community group. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The State Fire Council, comprised of the four county Fire Chiefs, was created in 1979 to replace the State Fire Marshal's Office, which was a fully-funded state agency. Under the present organization, the Council primarily uses county fire department personnel to accomplish council duties. These duties include, among other things, amending and adopting the state fire code, pursuing and administering federal grants, and implementing and administering a statewide Reduced Ignition Propensity Cigarette Program. Presently, the Council's staff consists of only one part-time person funded by the State Department of Labor and Industrial Relations, to which the Council is administratively attached.

In addition, the State Fire Council is a member of the State Building Code Council and participates in the state building code adoption process; coordinates statewide fire training and data collection; and corresponds with national organizations on statewide fire issues. This measure would greatly increase the Council's productivity and benefit communities and fire departments statewide.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 685, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, English, Gabbard).

**SCRep. 1021 Public Safety and Military Affairs on H.B. No. 954**

The purpose of this measure is to ensure that federal fund reimbursements for eligible disaster repair projects and disaster management costs received by the State of Hawaii Department of Defense are not subject to lapsing.

Specifically, this measure requires the Director of Finance to establish a major disaster reserve trust fund, which may include subaccounts and any other trust funds or accounts, to be administered by the Director of Civil Defense and whereby any federal fund reimbursements to the State may be held for later use.

Testimony in opposition of this measure was submitted by one state agency. Comments on this measure were submitted by two state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the establishment of a major disaster reserve trust fund outside of the state treasury will provide the Director of Civil Defense with the discretion to expend moneys in the fund to cope with the effects of a natural disaster or other unforeseen emergencies that the Director considers significant or necessary to protect the people of Hawaii. The fund also provides the Director of Civil Defense with the discretion to invest the principal in an interest bearing account, as determined by the Director to be appropriate and suitable.

Your Committee has amended this measure by changing the effective date from July 1, 2020, to July 1, 2010.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 954, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 954, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1022 Public Safety and Military Affairs on H.B. No. 413**

The purpose of this measure is to promote the rehabilitation of nonviolent individuals with drug-related convictions through alternatives to incarceration and to help the drug-related offenders return to society by establishing and expanding drug treatment and reintegration programs.

Testimony in support of this measure was submitted by seven private organizations and five individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the establishment of a community transitional program for nonviolent offenders will reduce the cost of incarceration. Your Committee believes that participation in an in-facility residential drug abuse program will decrease the likelihood of recidivism and drug abuse relapses.

Your Committee has amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 540, S.D. 2, which is the Senate version of this program; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 413, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 413, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1023 Public Safety and Military Affairs on H.B. No. 1152**

The purpose of this measure is to:

- (1) Require the Department of Public Safety to establish one or more non-interest-bearing accounts with one or more financial institutions to maintain the funds of inmates during incarceration;
- (2) Allow inmates to use their own funds for approved expenses and purchases during incarceration; and
- (3) Authorize the Director of Public Safety to designate a percentage of all funds earned by the inmate to be deposited and held in a non-spendable account to provide funds to the inmate upon release from custody.

Testimony in support of this measure was submitted by one state agency. Testimony in opposition of this measure was submitted by three individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Department of Public Safety needs authorization to provide inmates with one or more non-interest-bearing accounts during the inmate's incarceration to appropriately transfer and safeguard the correct amount of money in an inmate's spendable and non-spendable accounts. Your Committee also finds that clarification is needed to ensure that any funds held by the Department of Public Safety for the benefit of an incarcerated inmate are not to receive interest of any kind at any time during the inmate's incarceration.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2030; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1152, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1152, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1024 Public Safety and Military Affairs on H.B. No. 1568**

The purpose of this measure is to assist the Hawaii Chapter of the American Red Cross in its disaster preparedness efforts by appropriating funds that are to be expended by the Department of Defense for various capital improvements to the Oahu headquarters and four neighbor island offices of the American Red Cross.

Testimony in support of this measure was submitted by two private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Chapter of the American Red Cross renders various forms of aid to victims of natural disasters in Hawaii solely through the efforts of volunteers and charitable contributions. The Hawaii Chapter also teaches approximately thirty-five thousand people each year on disaster preparedness. Your Committee also finds that having the State of Hawaii assist the Hawaii Chapter of the American Red Cross with funding for much needed capital improvement projects on Oahu and four neighbor islands will improve the quality of the relief efforts that are provided by the Hawaii Chapter and also ensure the safety of the services they give to the people of Hawaii each year.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1568, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1568, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1025 (Joint) Public Safety and Military Affairs and Tourism on H.B. No. 994**

The purpose of this measure is to appropriate funds for the State to apply for a spaceport license from the Federal Aviation Administration for the purposes of increasing tourism and stimulating technology development.

Your Committees received testimony in support of this measure from three private organizations and one former Governor of the State. Testimony in opposition to this measure was received from one individual. Testimony with comments on this measure was received from one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that market studies have shown that space tourism has the potential to become a billion-dollar industry over the next ten years. Your Committees further find that additional applications for rocket technologies, including the launch of satellites and scientific payloads into sub-earth and low-earth orbits, research and educational functions, and long distance suborbital transport have great commercial potential. Your Committees note that Hawaii's geographic position makes this State especially well-suited for both commercial and tourism applications of rocket technology. Your Committees find that development of a spaceport will enrich Hawaii's tourism offerings while also contributing to the development of a diversified economy that includes scientific, commercial, and educational sectors.

Your Committees have amended this measure by revising its funding structure to appropriate \$250,000 out of the Airport Revenue Fund and \$250,000 out of the Tourism Special Fund so that no general revenue funds are required for the implementation of this measure.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 994, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 994, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 5 (Bunda, English, Gabbard, Tsutsui, Slom).

**SCRep. 1026 (Joint) Economic Development and Technology and Commerce and Consumer Protection on H.B. No. 984**

The purpose of this measure is to implement recommendations of the Hawaii Broadband Task Force to develop the State's broadband access and infrastructure.

Specifically, this measure:

- (1) Establishes the Hawaii Communications Commission and the Hawaii Communications Commissioner within the Department of Commerce and Consumer Affairs;
- (2) Transfers regulatory functions relating to telecommunications providers from the Public Utilities Commission to the Hawaii Broadband Commissioner while authorizing the Public Utilities Commission to continue exercising its authority until July 1, 2010;
- (3) Transfers regulatory functions relating to cable operators from Department of Commerce and Consumer Affairs to the Hawaii Communications Commission;
- (4) Establishes the Hawaii communications commission special fund into which will be deposited penalties collected by the Hawaii Communications Commission to fund the operations of the Hawaii Communications Commission;
- (5) Requires Department of Commerce and Consumer Affairs to transfer four positions to service the Hawaii Communications Commission and requires up to ten additional general funded positions to be transferred to the Hawaii Communications Commission and funded from the Hawaii communications commission special fund;
- (6) Requires the Hawaii Communications Commission to convene a working group to develop procedures for streamlined regulatory, franchising, and permitting for broadband service and technology and to report its findings to the Legislature by January 1, 2010;
- (7) Requires the Hawaii Communications Commission to begin implementing the recommendations of the working group by July 1, 2010;
- (8) Requires the Hawaii Communications Commission to review Hawaii's laws relating to broadband and related subjects, and recommend amendments of these laws to conform to the new Hawaii Communications Commission requirements, or to facilitate implementation of those requirements;
- (9) Extends by one year, to July 1, 2011, the time by which the Hawaii Communications Commission must investigate the extent to which telecommunications services provided to residential and business customers are available from multiple providers in Hawaii and whether to reclassify those services as "fully competitive" communications services;
- (10) Exempts telecommunication carrier rates, fares, and charges, and the classifications, rules, and practices implementing such rates, fares, and charges from regulation by the Hawaii Communications Commission;
- (11) Extends the time period for which a cable franchise may be held without requiring renewal from fifteen to twenty years;
- (12) Provides that the regulation of telecommunications carriers and telecommunications common carriers contained in section 2 of this measure will take effect on July 1, 2010; and
- (13) Ensures that the Public Utilities Commission will continue its regulation of telecommunications until the Hawaii Communications Commission takes over.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Department of Business, Economic Development, and Tourism, the High Technology Development Corporation, Hawaiian Telecom, Akaku Maui Community Television, Permaculture Maui, and five hundred ninety-three concerned individuals. Testimony in opposition of this measure was submitted by Time Warner Telecom. Comments on this measure were submitted by the Broadband Taskforce, AT&T, Verizon Communications, Oceanic Time Warner Cable, Community Media Producers Association, Connected Nation, and two concerned individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that communications technologies of telecommunications, cable, and broadband have become increasingly intertwined, such that advances in any one technology have important ramifications for the others. Your Committees also find that a unified approach to regulating providers of these services is required. Your Committees further find that this measure will enable the consolidated regulation of cable and telecommunications while promoting the growth and development of broadband infrastructure throughout the State. Your Committees believe that expanded access to affordable broadband will facilitate greater economic and educational opportunities for individuals and businesses in the State.

Your Committees have amended this measure by:

- (1) Deleting its contents and replacing it with the contents of S.B. No. 1680, S.D. 2;

- (2) Adding the phrase “as permitted by federal law” in section -7(b), relating to the general powers of the commissioner to ease the concerns raised by various industry representatives regarding the sharing of infrastructure, which is generally prohibited by federally law;
- (3) Amending section -13 regarding the notice requirements for investigations by the Hawaii Broadband Commissioner and public hearings;
- (4) Amending subsection (a) in section -20 to require a portion of the funds in the commissioner special fund to develop and construct broadband infrastructure and services available to low-income and disadvantaged persons;
- (5) Adding subsection (d) to section-20 to authorize the transfer of unexpended franchise fees to the commissioner special fund;
- (6) Deleting the number of members of the Communications Advisory Committee as discussed in section-22, as well as the requirement for certain entities to submit a list of names to the Governor for appointment to the Communications Advisory Committee;
- (7) Amending section -38 regarding the regulation of telecommunication carrier rates and ratemaking procedures;
- (8) Changing the fund that the Hawaii Broadband Commissioner may use to purchase broadband facilities and services from the compliance resolution fund to the commissioner special fund;
- (9) Amending the type of personnel positions that the Hawaii Broadband Commissioner may appoint and employ;
- (10) Adding a section -54 to clarify the State’s local exchange intrastate services as being classified as “fully competitive”;
- (11) Amending section -67(f) regarding public, educational, or governmental use (PEG) channels to decrease the number of channels that the cable operator shall designate and activate for public, educational, or governmental use from five channels to three channels;
- (12) Amending subsection (j) in section-67 to exempt PEG access service contracts from the requirements of chapter 103D, Hawaii Revised Statutes;
- (13) Adding in section -67 that the Hawaii Broadband Commissioner is subject to the conditions and procedures contained in chapter 91, Hawaii Revised Statutes, in designating and selecting PEG access organizations;
- (14) Adding a section -76 that provides the Hawaii Broadband Commissioner with the authority to contract with service providers to develop broadband inventory maps, as permitted by federal law;
- (15) Amending section 58 to address the concerns of the Department of Budget and Finance, the Department of Human Resources Development, and the Department of the Attorney General, regarding the transfer of employee positions to the Hawaii Broadband Commissioner;
- (16) Changing the effective date from July 1, 2020, to July 1, 2050; and
- (17) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 984, H.D. 4, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 984, H.D. 4, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Hee).

**SCRep. 1027 Labor on H.B. No. 982**

The purpose of this measure is to establish a web-based, family leave data collection system to gather and analyze family caregiving data for public and private-sector employees, which will be used for the future development and implementation of an efficient state family leave system.

Testimony in support of this measure was submitted by one state agency and three organizations. Testimony in opposition to this measure was submitted by two state agencies, one organization, and one individual. Comments were submitted by one organization. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that there is a growing need for family caregivers as the population of elderly with physical, mental, and other needs increases. Your Committee further finds that family caregivers often incur significant reductions in work hours and make many other work-related sacrifices to serve as caregivers.

Your Committee believes that more research is necessary to determine the number of people who might participate in a family leave system and the feasibility, operational details, and benefits of the system.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 982, H.D. 3, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1028 (Joint/Majority) Labor and Education and Housing on H.B. No. 541**

The purpose of this measure is to ensure that civil service benefits for Department of Education civil service employees are the same as those provided to civil service employees of other executive branch agencies.

Testimony in support of this measure was submitted by one state agency and one organization. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure provides Department of Education civil service employees and other state executive branch civil service employees the opportunity to transfer across jurisdictions while retaining certain benefits and rights.

Your Committees recognize that this measure raises several concerns. Accordingly, your Committees have retained the July 1, 2020 effective date and will continue discussions to adequately address those concerns before examination of the fiscal implications of the measure.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 541, H.D. 1, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Ayes with Reservations, 1 (Slom). Noes, 1 (Hemmings). Excused, 4 (Bunda, Chun Oakland, Hee, Tsutsui).

**SCRep. 1029 (Joint) Health and Labor on H.B. No. 690**

The purpose of this measure is to expand access to health insurance by requiring insurers to offer certain part-time employees the same group health care coverage offered to their co-workers who are regular employees, without the employer having to pay any portion of the premium.

Your Committees received testimony in support of this measure with amendments from the Hawaii Medical Service Association. Testimony in support of this measure with reservations was submitted by the Department of Commerce and Consumer Affairs and Kaiser Permanente. Comments on this measure were submitted by the Health Association of Health Plans and The Chamber of Commerce of Hawaii.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that it is important to reduce the number of uninsured workers in Hawaii while minimizing the impact on employers. However, there are concerns that allowing part-time employees the option of purchasing coverage will produce adverse selection in which the covered group of voluntary participants will mostly include those who use more health care. This is because many voluntary participants may choose not to purchase health coverage unless they actually need health care services. The premiums for this pool of voluntary participants are therefore likely to be higher than for mandatory pools with a more balanced mix of both healthy participants who use fewer health services and the less healthy who use more services.

Your Committees have amended this measure by:

- (1) Authorizing group health insurers to limit periods of enrollment for part-time employees to a minimum of thirty calendar days; provided that:
  - (A) Part-time employees who experience a qualifying event shall enroll with a group health insurer within thirty days of the qualifying event; and
  - (B) Group health insurers shall be allowed to impose a one-year waiting period against part-time employees who terminate coverage for any reason. If a part-time employee terminates coverage and a one-year waiting period is imposed against the employee, a group health insurer need not reenroll the employee until the period of enrollment following the one-year waiting period; and
- (2) Inserting the definition of "qualifying event" to mean the date on which the part-time employee has been continuously employed by a single employer for a period of eighteen months.

As affirmed by the records of votes of the members of your Committees on Health and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 690, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 690, H.D. 2, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 3 (Bunda, Hee, Hemmings).

**SCRep. 1030 Health on H.B. No. 1362**

The purpose of this measure is to establish a licensure program for genetic counselors within the Department of Commerce and Consumer Affairs to ensure that individuals seeking genetic counseling receive the highest degree of quality services and professional conduct from licensed genetic counselors. The measure also provides penalties for non-compliance.

Your Committee received testimony in support of this measure from Kapiolani Medical Center and the Kapiolani Neonatal Intensive Care Unit Team. Testimony in opposition to this measure was submitted by the Department of Commerce and Consumer Affairs.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that genetic counselors are a vital part of the health care team that provides care to individuals throughout their lifespan. Although, a sunrise review was conducted by the Auditor, your Committee finds that the market for genetic counseling is increasing and this measure should move forward in order to protect the public from persons who are unauthorized and untrained to perform these services and to ensure that genetic counseling services are provided by highly trained professionals.

Your Committee further finds that the Department of Health is in the best position to license genetic counselors. The operating costs would be less for the Department of Health than for the Department of Commerce and Consumer Affairs because the Department of Health has an existing genetics program which has been in effect for fifteen years. In addition, the Department of Health currently licenses other health professionals, such as radiology technicians, dietitians, clinical laboratory directors, medical technologists, clinical laboratory specialists, cytotechnologists, and medical laboratory technicians, because of its specialized expertise.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the Department of Commerce and Consumer Affairs with the Department of Health; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1362, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1362, H.D. 1, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1031 Health on H.B. No. 1378**

The purpose of this measure is to increase access to health care by:

- (1) Allowing insurers, mutual and fraternal benefit societies, and health maintenance organizations to recognize advanced practice registered nurses as primary care providers;
- (2) Requiring participating providers to recognize advanced practice registered nurses as primary care providers;
- (3) Increasing advanced practice registered nurses' signature and prescriptive authorities; and
- (4) Making the Board of Nursing, rather than the Hawaii Medical Board and the Joint Formulary Advisory Committee, responsible for the oversight of the prescriptive authority of advanced practice registered nurses.

Your Committee received testimony in support of this measure from Kaiser Permanente, Hawaii Primary Care Association, Healthcare Association of Hawaii, Hawaii State Center for Nursing, Hawaii Government Employees Association, the University of Hawaii System, Occupational Therapy Association of Hawaii, AARP, and the Lanai Women's Center. Testimony in support of this measure with amendments was submitted by the Hawaii Association for Professional Nurses, Walgreens, and Hawaii Medical Service Association. The Board of Nursing supports this measure with reservations. Testimony in opposition to this measure was submitted by the Hawaii Medical Association. Comments on this measure were submitted by the Department of Public Safety, Department of Human Services, the Hawaii Medical Board, and the Hawaii Association of Health Plans. The Disability and Communication Access Board provided comments and amendments to this measure.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that authorizing advanced practice registered nurses to be recognized as primary care providers with signature and prescriptive authority will help to alleviate the shortage of health care providers across the State by providing access to quality clinicians.

Your Committee notes that it has worked in conjunction with insurers, health plans, the nursing school, the Center for Nursing, and the Board of Nursing to address the concerns raised by stakeholders regarding this measure. Accordingly, your Committee has amended this measure by:

- (1) Removing its contents and replacing it with language from S.B. No. 1045, S.D. 2; and
- (2) Inserting language that provides for advanced practice registered nurse recognition by endorsement provided that:
  - (A) The person applying is licensed as a registered nurse in this State; and
  - (B) All nurse licenses, recognitions and prescriptive authorities or similar designations held by the person under the laws of this State, another state, or United States territory are unencumbered and if the originating state's requirements were equal to or greater than the Board of Nursing's advanced practice registered nurse requirements which were in effect prior to October 1, 2009. The advanced practice registered nurse shall be eligible to renew that recognition as an advanced practice registered nurse; provided that all nurse licenses, recognitions and prescriptive authorities or similar designations held by the person in this State, another state or United States territory are unencumbered; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1378, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1378, H.D. 2, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Green). Noes, none. Excused, 1 (Hemmings).

**SCRep. 1032 Health on H.B. No. 1379**

The purpose of this measure is to ensure a person's wishes regarding end-of-life care are followed by allowing for the use of a standardized physician orders for life sustaining treatment form that states an individual's wishes regarding end-of-life treatment in all pre-hospital and health care settings.

Your Committee received testimony in support of this measure from the Department of Health, the City and County of Honolulu Emergency Services Department, the Healthcare Association, and Kokua Kalihi Valley. Testimony in opposition to this measure was submitted by the Hawaii Health Systems Corporation.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that emergency services personnel are mandated by law to attempt resuscitation unless the person has a state issued comfort care only, do not resuscitate bracelet or necklace. However, these bracelets are only issued to individuals who have a terminal condition. Many community members mistakenly believe that their advanced health care directive or living will is enough to prevent an unwanted attempt at resuscitation by emergency responders.

Your Committee further finds that this measure is not intended to impose mandates on hospitals to accept the "physicians orders for life sustaining treatment" form. Acceptance of the form is discretionary and reports have shown that even without mandates, eighty-five per cent of facilities honor the "physicians orders for life sustaining treatment" form.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2009; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1379, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1379, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1033 Health on H.B. No. 28**

The purpose of this measure is to prohibit the sale of dead human bodies, including human bodies or remains that have been plastinated through the use of polymers, and to raise the monetary penalty for the sale of a dead human body or the giving, offering, or promising of consideration for a dead human body from \$1,000 to \$5,000.

Your Committee received testimony in support of this measure from several individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the phrase "death recently occurred" in the proposed definition of "dead human body" may be too vague to allow clear understanding and proper enforcement of the prohibition.

Your Committee further finds that this measure may conflict with the current provisions of section 327-16, Hawaii Revised Statutes.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to encourage further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 28, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 28, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1034 Health on H.B. No. 694**

The purpose of this measure is to authorize the Hawaii Health Systems Corporation and the Maui Regional System Board to remove the Maui Regional Health Care System and its facilities from Hawaii Health Systems Corporation by transferring regional assets to a legal entity that will finance and continue to provide health care services to Maui provided that:

- (1) The transfer is to a legally constituted entity that is financially capable, independent of Hawaii Health Systems Corporation, of continuing to provide the same level of health care services currently provided by the System; and
- (2) The transfer relieves Hawaii Health Systems Corporation of all debts, obligations, and liabilities of the System.

Your Committee received testimony in support of this measure from the Maui Memorial Medical Center. Testimony in opposition to this measure was submitted by the Hawaii Government Employees Association and United Public Workers. Comments on this measure were submitted by the Hawaii Health Systems Corporation.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the management and operation of the State's public health facilities under the custody and supervision of the Hawaii Health Systems Corporation since the creation of the Corporation in 1996 has been unsuccessful. Your Committee believes that the basic structure for operating the public health facilities, which are critical for the health and well being of all residents of the

State, needs to be altered to authorize any regional system or individual facility to transition to a nonprofit corporation, for-profit corporation, a municipal facility, a public benefit corporation, or other combination of these entities.

Your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Authorizes any of the regional systems or individual facilities of the Hawaii Health Systems Corporation to transition into a new legal entity;
- (2) Requires each regional system board and each community hospital under the jurisdiction of the Corporation to collaborate with community health centers within their respective geographic jurisdictions to maximize funding from the State and federal governments;
- (3) Requires that any plan to substantially reduce or eliminate any direct patient care services at a facility first be presented to the regional system board for approval, and then presented to the community at an informational hearing for community input;
- (4) Requires the Corporation and each regional system board to notify the President of the Senate, the Speaker of the House of Representatives, and Chairperson of the respective subject matter committee for health in each house of the Legislature within thirty days of any substantial reduction or elimination of direct patient care services;
- (5) Requires the Department of Health, on July 1, 2009, to assume the total amount of all liabilities and debts or other obligations of the Hawaii Health Systems Corporation that had been accrued up to June 30, 1996, by the community hospitals while they were operating within the Division of Community Hospitals of the Department of Health;
- (6) Requires the Hawaii Health Systems Corporation to bear the sole responsibility for assuming all liabilities and debts or other obligations accrued beginning on July 1, 1996, and thereafter, by the community hospitals operating within the Hawaii Health Systems Corporation;
- (7) Establishes that the Hawaii Health Systems Corporation shall bear sole responsibility for making all appropriate employer payments into funds of the Employees' Retirement System under chapter 88, Hawaii Revised Statutes, beginning on July 1, 1996, and continuing thereafter;
- (8) Requires commercial health plans to provide a minimum reimbursement level of no less than one hundred and one per cent of the costs for all services provided to plan beneficiaries by critical access hospitals; and
- (9) Makes the measure take effect on July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 694, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 694, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1035      Health on H.B. No. 895**

The purpose of this measure is to deter the use of tobacco products other than cigarettes, including smokeless tobacco, snuff, cigars, and pipe tobacco, by:

- (1) Increasing the tobacco tax on such products from forty per cent to eighty per cent of the wholesale price; and
- (2) Requiring that a percentage of the proceeds collected be deposited into the community health centers special fund.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association, the Coalition for a Tobacco-Free Hawaii, the American Lung Association, the United Filipino Council of Hawaii, the Asian America Network of Cancer Awareness Research, the Filipino American Citizens League, Filipino Coalition for Solidarity, the Filipinos for Affirmative Action, Nursing Advocates & Mentors Inc., and the Oahu Filipino Community Council. Testimony in opposition to this measure was submitted by the Department of Taxation and the Cigar Association of Hawaii. Comments and amendments on this measure were offered by the Tax Foundation of Hawaii. The American Heart Association and the American Cancer Society support this measure with amendments. Comments on this measure were submitted by the Department of Budget and Finance.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that tax increases on tobacco products have proven to be an effective means of reducing youth consumption of tobacco. To ensure that tobacco products are taxed at rates comparable to cigarette taxes, the tax on tobacco products should gradually increase.

Your Committee further finds that a portion of the tax revenues generated from tobacco products should be used for tobacco prevention programs.

Accordingly, your Committee has amended this measure by:

- (1) Increasing the excise tax on tobacco products to eighty-five per cent on September 30, 2009, ninety-five per cent on September 30, 2010, and one hundred five per cent on September 30, 2011;
- (2) Requiring that a percentage of the amount of tax collected on tobacco products be deposited to the credit of the Hawaii tobacco prevention and control trust fund established pursuant to section 328L-5, Hawaii Revised Statutes, and the health systems special fund pursuant to section 323F-21, Hawaii Revised Statutes, in addition to the community health centers special fund;
- (3) Changing the effective date to July 1, 2050, to encourage further discussion on this matter; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 895, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 895, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1036 Health on H.B. No. 1175**

The purpose of this measure is to generate general fund revenues by increasing the cigarette tax from 10 cents to 20 cents per cigarette, beginning July 1, 2009.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association, the American Heart Association, the American Lung Association and the Coalition for a Tobacco-Free Hawaii. Testimony in support of this measure with amendments was submitted by the American Cancer Society. Testimony in opposition to this measure was submitted by the Department of Taxation. Comments on this measure were submitted by the Tax Foundation of Hawaii.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is a one-time tax increase that replaces the current yearly tax increase which puts the per-cigarette tax at 13 cents by September 30, 2011.

Your Committee further finds that a portion of the revenues collected from the cigarette tax should be used for tobacco prevention programs.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that provides for a percentage of the remaining amount of tax collected pursuant to section 245-3(a)(8), Hawaii Revised Statutes, to be deposited to the credit of the Hawaii tobacco prevention and control trust fund established pursuant to section 328L-5, Hawaii Revised Statutes; and
- (2) Changing the effective date to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1175, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1175, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Espero). Noes, none. Excused, 1 (Hemmings).

**SCRep. 1037 Economic Development and Technology on H.B. No. 254**

The purpose of this measure is to promote competition in the telecommunications marketplace by requiring the Public Utilities Commission to treat land-line phone services as "fully competitive" with regard to costs, rates, and pricing, in essence deregulating these phone services to bolster competition with other forms of telecommunications.

Testimony in support of this measure was submitted by Hawaiian Telcom and The Chamber of Commerce of Hawaii. Testimony in opposition of this measure was submitted by Time Warner Telecom. Comments on this measure were submitted by the Public Utilities Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that advances in technology make wireless and Voice over Internet Protocol (VIP) telephone services a reasonable substitute for traditional land line, or switched access, service for many consumers. Your Committee also finds that this measure will help to create a level playing field for telecommunications service providers, including wireless and VIP providers who are not currently regulated by the Public Utilities Commission. However, many consumers, especially low-income consumers and those in remote areas, remain dependent on switched access. Your Committee further finds that important services, such as lifeline telephone rates, carrier of last resort services, and service quality standards remain essential to the operation of switched access providers.

Your Committee has amended this measure by:

- (1) Adding that a telecommunications carrier shall not be required to obtain approval to establish or modify its rates, fares, and charges, or to bundle any service offerings into a single price package;
- (2) Adding that the local incumbent exchange carrier, except upon obtaining commission approval, shall not charge any rate for a service above the rate in the carrier's filed tariff;
- (3) Exempting the application of this measure to retail or wholesale rates for services to end users or other telecommunication providers; and
- (4) Clarifying that this measure shall not modify any requirements of telecommunication carriers to provide lifeline telephone service, comply with carrier of last resort obligations, or comply with service quality standards.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 254, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 254, H.D. 1, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1038 Health on H.B. No. 1636**

The purpose of this measure is to provide immunity from any civil liability to all physicians who render emergency medical care in a hospital.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Healthcare Association of Hawaii, the Queen's Medical Center, Hawaii Emergency Physicians Associated, Inc., and the Hawaii Medical Association. Testimony in opposition of this measure was submitted by the Hawaii Association for Justice.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that proponents of this measure have argued that providing immunity to physicians from any civil liability will address Hawaii's shortage of emergency room physicians. However, your Committee finds that, according to The American College of Emergency Physicians report, *The National Report Card on the State of Emergency Medicine 2009*, Hawaii ranks number one in the nation in the number of board certified emergency medical doctors. A national shortage of emergency on-call specialists exists. The Hawaii specific data does not support the contention that these specialists are leaving Hawaii to work in one of the few states that have implemented a version of tort reform.

Your Committee is concerned that on-call physicians who provide emergency medical care are consistently over-worked because of the shortage. However, the measure does not include a provision that would provide protection for patients who are cared for in this precarious situation.

Your Committee further finds that the measure is overly broad as written in that it allows for complete immunity from civil liability for negligent acts or omissions of any physician who provides emergency medical care to a person with a "serious bodily injury". "Serious bodily injury" could include the majority of patients admitted to a hospital; therefore, expanding immunity beyond that which addresses the specific issue of on-call emergency medical care shortages.

Your Committee finds that physicians in private practice who volunteer to serve on-call, with or without compensation, to assist hospital staff physicians provide critical medical services to the public. A more effective way of addressing the shortage of these physicians is to ensure that they are not penalized for their voluntary participation by finding it more difficult or expensive to obtain and maintain professional errors and omissions liability insurance coverage solely because they voluntarily participate on hospital on-call panels.

Accordingly, your Committee has amended this measure by replacing its contents with language that:

- (1) Prohibits the use of a physician's on-call status from being considered for any purpose, including the solicitation, application, underwriting, and issuance of insurance coverage, and the setting of premium rates, discounts, rebates, and the renewal or cancellation of insurance coverage; and
- (2) Changes the effective date to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1636, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1636, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Ayes with Reservations, 2 (Espero, Nishihara). Noes, none. Excused, none.

**SCRep. 1039 Human Services on H.B. No. 819**

The purpose of this measure is to mandate that minors 15 to 17 years of age be tried as adults in cases of first and second degree murder, and provides for discretionary remand of the minor in specified cases.

Testimony in support of this measure was submitted by the Office of the Governor, the Honolulu Police Department, the Hawaii Rifle Association and sixty-five individuals. Testimony in opposition was submitted by the Office of the Public Defender and the American Civil Liberties Union. Written testimony presented to your Committee may be reviewed on the Legislature's website.

This measure is in response to the prosecution of Karen Ertell's murderer. In 2007, Karen Ertell was robbed, brutally raped, and murdered, and a fifteen year old boy later confessed to the crime. It took fifteen months for the family court to determine that the accused murderer should be tried as an adult. Your Committee finds that providing an accelerated judicial process for prosecuting accused murderers will bring closure more quickly for the victims' families. This measure provides mechanisms for remand from circuit court to family court in situations where the minor's rehabilitation would be impaired by circuit court jurisdiction or where the minor is to be committed. Your Committee believes that, under circumstances where a fifteen to seventeen year old commits the heinous act of first or second degree murder, the laws that protect children from the full force and penalties applicable to adults should not be available to be utilized as shields.

Your Committee has amended this measure by:

- (1) Changing the measure to be effective on January 1, 2010; and
- (2) Making technical, nonsubstantive changes for the purposes of style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 819, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 819, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1040 (Majority) Economic Development and Technology on H.B. No. 1405**

The purpose of this measure is to maximize the State's ability to capture taxes owed by out-of-state taxpayers by adopting statutory changes that will allow Hawaii to participate in the Streamlined Sales and Use Tax Agreement.

Specifically, this measure clarifies that the term "engaging," as used in reference to practicing a business, includes the sale of tangible personal property by a person soliciting business through an independent contractor or other representative, provided that the cumulative gross receipts from sales by the person to customers in the State of Hawaii who are referred to the person is at least \$10,000 in the 12-month period ending on the last day of the most recent calendar quarter before the calendar quarter in which the sale is made.

Testimony in support of this measure was submitted by the Department of Taxation and one concerned individual. Testimony in opposition of this measure was submitted by Legislative Information Services of Hawaii, Internet Alliance, Amazon.com, Direct Marketing Association, and Synertech Media LLC. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that in the State's current economic crisis it is imperative that legislators attempt to seek out as many new sources of revenues as is possible. Your Committee also finds that the enactment of legislation to adopt the Streamlined Sales and Use Tax Agreement will provide the State with a tremendous amount of new tax revenues over the next ten years that would erase the State's current fiscal deficit and help to resolve the State's current economic crisis.

Your Committee has amended this measure by:

- (1) Deleting the contents of this measure and replacing it with the contents of S.B. No. 1680, S.D. 3, which implements legislation for the State to adopt the Streamlined Sales and Use Tax Agreement; and
- (2) Requiring all tax revenues collected under the streamlined sales and use tax revenues to be deposited in the state treasury to the credit of the University of Hawaii.

Your Committee notes that the title of this measure may be too narrow to incorporate the contents of the legislation for the adoption of the Streamlined Sales and Use Tax Agreement, however, your Committee finds that passing this measure to the Committee on Ways and Means will provide the Committee on Ways and Means with the opportunity to find a more appropriate and suitable measure for the legislation to adopt the Streamlined Sales and Use Tax Agreement.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1405, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1405, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Hee).

**SCRep. 1041 Education and Housing on H.B. No. 183**

The purpose of this measure is to:

- (1) Authorize the Hawaii Teacher Standards Board to determine how it collects license fees; and
- (2) Authorize the Board to adopt, amend, repeal, or suspend its policies and standards.

Testimony in support of this measure was submitted by two government organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has replaced the contents of this measure with S.B. No. 497, S.D. 1, previously heard and approved by this Committee.

As amended, this measure:

- (1) Establishes an Advisory Committee to provide oversight of the Hawaii Teacher Standards Board and provide the Governor with lists of nominees for appointment to the Hawaii Teacher Standards Board, and requires an annual report of the Advisory Committee to the Board of Education and the Legislature;
- (2) Authorizes the Board to determine how it collects license fees; to adopt, amend, repeal, or suspend its policies and standards; and to hire an Executive Director;
- (3) Authorizes the Board to coordinate an effort that creates a data interface network to promote the free interchange of information among public and private Hawaii teacher education institutions and the Department of Education, and appropriates funds for the data network; and
- (4) Has an effective date of July 1, 2050, for the purposes of further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 183, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 183, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 1042 Education and Housing on H.B. No. 1686**

The purpose of this measure is to clarify aspects of the charter schools law by:

- (1) Eliminating the per-pupil method of funding for charter schools and requiring the charter schools to follow the same budgetary request process as other state agencies; and
- (2) Requiring the Charter School Administrative Office to submit a report of all means of financing with its budgetary request to the Director of Finance.

Testimony in support of this measure was submitted by one state agency. Seven state agencies, including schools, and seventeen individuals submitted testimony in opposition. Comments were submitted by three state agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has replaced the contents of this measure with S.B. No. 496, S.D. 2, a charter school measure previously heard in this Committee. Your Committee has also made additional amendments to S.B. No. 496, S.D. 2. While there are many comparable provisions in both measures, your Committee believes S.B. No. 496, S.D. 2, presents a more comprehensive approach.

As amended, this measure:

- (1) Requires a Charter School Board to comply with Board of Education policies and Department of Education directives regarding special education and federal programs;
- (2) Clarifies that the Charter School Review Panel is subject to the requirements of the sunshine law;
- (3) Authorizes the Board of Education to remove a Charter School Review Panel member for cause;
- (4) Requires the Charter School Review Panel to approve the charter schools budget, capital improvement projects, and recommendations to allocate non-per-pupil facilities funds to charter schools with facilities needs;
- (5) Clarifies that the budget request submitted by the charter schools shall include all anticipated means of financing;
- (6) Clarifies that the budget request shall include funding for the projected enrollment for each charter school for the next school year;
- (7) Specifies the duties of the Executive Director of the Charter School Administrative Office with regard to the preparation of the budget;
- (8) Clarifies that the salary of the Executive Director and staff shall not exceed two per cent of the total annual general fund allocation, at an amount to be determined by the panel;
- (9) Changes the requirements for the per-pupil funding, and leaving unspecified the amount the Department of Education may retain for administrative costs from charter schools federal funds;
- (10) Requires the Charter School Review Panel to evaluate a charter school on its fourth anniversary and every five years after; and
- (11) Makes the Act effective July 1, 2050, for the purposes of continuing discussion.

Your Committee also acknowledges the work of the Board of Education and the Charter Schools Review Panel in developing a Memorandum of Agreement to identify applicable policies and directives and federal and state laws.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1686, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1686, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 1043 Education and Housing on H.B. No. 1694**

The purpose of this measure is to ensure equitable public housing policies by:

- (1) Requiring the Hawaii Public Housing Authority to establish a minimum rent schedule and annually adjust the minimum rent, based on the Consumer Price Index;
- (2) Requiring the Authority to seek reimbursement from a tenant for the full cost incurred in repairing damages to the tenant's unit; and
- (3) Prohibiting preferences for tenant selection.

Testimony in support of this measure was submitted by one government agency and two individuals. Two private organizations and one individual submitted testimony in opposition. Comments were submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Public Housing Authority has not raised the minimum rents since 2001 for state family units and since 2005 for state elderly units. Your Committee has heard that the Authority is in support of the requirement that the minimum rents be based on number of bedrooms, and the annual process to raise the rents to meet expenses, based on the Consumer Price Index.

Your Committee further finds that the Authority currently seeks reimbursement for tenant-caused damages, and expects to increase the labor rate from \$11 per hour to \$35 per hour.

Previously, your Committee heard S.B. No. 1160, S.D. 1, which established assessments for common area expenses in state public housing projects, and has incorporated that concept in this measure as well.

Your Committee has amended this measure accordingly, by:

- (1) Authorizing the Hawaii Public Housing Authority to assess all units in a state public housing project for common area expenses; and
- (2) Deleting the prohibition on preferences for tenant selection.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1694, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1694, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 1044 (Joint) Health and Human Services on H.B. No. 1371**

The purpose of this measure is to allocate a portion of federal funds received from the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, or other federal stimulus acts to finance increased Medicaid reimbursements, disproportionate share hospital payments, and the Hawaii Children's Health Care Program.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii, Hawaii Primary Care Association, Hawaii Government Employees Association, Catholic Charities of Hawaii, Faith Action for Community Equity, Hawaii Alliance for Retired Americans, AARP, and the Kupuna Caucus of the Democratic Party of Hawaii. Ho'ola Lahui Hawaii supports this measure with amendments. Testimony in opposition to this measure was submitted by the Department of Human Services. Comments on this measure were submitted by the Department of Health and the State Attorney General.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that current economic conditions are placing extreme financial burdens on many of the State's health and human services programs. This measure ensures that these essential programs receive the necessary funding to remain viable in order to protect the health and welfare of Hawaii residents.

Your Committees have amended this measure by:

- (1) Replacing the Department of Health with the Department of Human Services as the expending agency for appropriations for increased Medicaid reimbursements, disproportionate share hospital payments, and the Hawaii Children's Health Care Program;
- (2) Including appropriations for the following programs, services, and purposes:
  - (A) Community health centers for the uninsured;
  - (B) Respite services;
  - (C) Substance abuse treatment;
  - (D) Early intervention services;
  - (E) Domestic violence services;
  - (F) Healthy Start services;
  - (G) Hawaii Health Systems Corporation;
  - (H) Adult dental services;
  - (I) Aging and Disability Resource Center;
  - (J) Kupuna care;
  - (K) Immigrant Health Initiative program;
  - (L) Healthy Aging Partnership;
  - (M) Out-stationed eligibility workers;
  - (N) Developmental disabilities Medicaid waiver services;
  - (O) Mental health services; and
  - (P) Medicaid budget to cover the expected increase; and
- (3) Making a stylistic change for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1371, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1371, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1045 Human Services on H.B. No. 1354**

The purpose of this measure is to appropriate general revenue funds and Temporary Assistance for Needy Families funds to the Department of Human Services and the Department of Health for the Healthy Start and Enhanced Healthy Start programs to hire a child development or clinical specialist, fund provider training, address budgetary shortfalls, and implement recommended improvements.

Testimony in support of this measure was provided by Child and Family Service, Parents and Children Together, Catholic Charities Hawaii, Hawaii Family Forum, Good Beginnings Alliance, Hawaii Family Support Institute, and fifteen individuals. Testimony in opposition to this measure was provided by the Department of Human Services. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that in 2008, over ninety-nine per cent of families that were enrolled for twelve months or more in Healthy Start and Enhanced Healthy Start programs had no report of child abuse. Healthy Start works with families in which at least one parent is at substantial risk of abusing or neglecting a child. A stress checklist, developed using scientific data, determines the parental risk of child abuse and only those families with a high score are referred to Healthy Start. In 2008, Healthy Start served 4,000 families, with an estimated 520 children who were not abused because of the Healthy Start services. Healthy Start is a successful program, which has been replicated in thirty other states. In addition to home visits to prevent child abuse, Healthy Start ensures the family has a medical home, provides prenatal care for subsequent pregnancies, and performs developmental screenings for a high percentage of one and two year olds. Healthy Start and Enhanced Healthy Start address the problem of child abuse with effective and comprehensive programs, and work to break the cycle of abuse.

Your Committee has amended this measure by:

- (1) Including appropriation amounts for the maintenance of current Healthy Start support services;
- (2) Including an appropriation amount for the Enhanced Healthy Start program; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1354, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1354, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1046 Human Services on H.B. No. 1103**

The purpose of this measure is to conform State law to the federal Rehabilitation Act of 1978 in order to meet eligibility criteria for federal funding.

Testimony in support of this measure was provided by the Statewide Independent Living Council, Hawaii Centers for Independent Living, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to meet the requirements of the federal Rehabilitation Act of 1978, which conditions eligibility for federal funding of certain programs to the establishment of a statewide independent living council unattached to any governmental agency. Under current State law, the Statewide Independent Living Council of Hawaii exists within the Department of Human Services. Your Committee finds that this measure will effect the appropriate administrative adjustment to remove the Statewide Independent Living Council from the purview of a State agency in order to preserve State eligibility for federal funding.

Your Committee has amended this measure by making technical, nonsubstantive amendments to its language for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1103, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1047 Human Services on H.B. No. 1187**

The purpose of this measure is to establish a return-to-home program for the homeless, which would assist certain homeless in returning to their families in their home states.

Testimony in support of this measure was provided by one individual. Testimony in opposition to this measure was provided by Waianae Community Outreach. The Department of Human Services – Hawaii Public Housing Authority provided comments on this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure could help the homeless who have been stranded in Hawaii return to their families and homes and also potentially save the State money that it would otherwise spend on medical care, shelter, food, and other support for the homeless.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2046, to July 1, 2050; and
- (2) Making technical, nonsubstantive changes for purposes of style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1187, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1187, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1048 Economic Development and Technology on H.B. No. 1751**

The purpose of this measure is to help protect communication service providers by:

- (1) Establishing the offenses of communication service fraud in the first and second degrees; and
- (2) Providing civil remedies for communication service fraud.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs and Oceanic Time Warner Cable. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that enacting civil remedies against perpetrators of communications service fraud will enable those communication service providers that are victimized to have a civil course of action against those perpetrators. Your Committee also finds that the establishment of the offense of communications service fraud in the first and second degrees will likely reduce the illegal use of the services provided by the communication service providers.

Your Committee has amended this measure by:

- (1) Placing the new civil remedies available to communication service providers against perpetrators of communication service fraud in a new chapter in title 36, Hawaii Revised Statutes, rather than as a new part in chapter 440G, Hawaii Revised Statutes, so that civil remedies available to the victims of communication service fraud are more far reaching to various types of communications; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1751, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1751, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1049 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1712**

The purpose of this measure is to require the Department of Land and Natural Resources (DLNR), in addition to the input the DLNR receives from the public at informational meetings, to consider and incorporate relevant data for rules adopted to regulate the taking of uhu, weke/moana kali, and ulua/papio.

This measure also directs DLNR to provide an appropriate monitoring and evaluation component to determine the effectiveness of rules adopted regarding the uhu, weke/moana kali, and ulua/papio fish stocks, and the effect that runoff, sedimentation, and other factors have on these fish population.

Testimony in support of this measure was submitted by three organizations and four public citizens. One public citizen provided comments. Testimony in opposition was submitted by one state agency, two organizations, and eleven public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that many in the fishing community have become disenchanted with DLNR's management of Hawaii's marine resources. Informational meetings conducted by DLNR for fishing rules have relied upon anecdotal evidence that has little justification to the fishing community, however, very little data is available about the status of Hawaii's fish stocks and how much fishing pressure they are able to sustain. This measure will ensure that DLNR uses public input from informational meetings, in addition to any available and relevant data on the fish stock. Your Committee believes that this measure will ensure that fishing rules adopted by DLNR address both the general public and the fishing community's concerns, and establishes monitoring programs to assist DLNR with future rulemaking.

Your Committee has amended this measure by:

- (1) Adopting the recommendations of the Nature Conservancy to require DLNR to include overharvesting in the monitoring and evaluation programs of the fish stocks;
- (2) Inserting the contents of S.B. No. 1, S.D. 1, relating to opihi, which was heard and adopted by your Committee, with amendments;
- (3) Inserting the contents of S.B. No. 378, S.D. 1, which establishes a fishing bag limit and size restrictions for Maui for uhu and goatfish, which was heard and adopted by your Committee; and
- (4) Making technical, nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1712, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1712, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Hemmings).

**SCRep. 1050 (Majority) Higher Education on H.B. No. 347**

The purpose of this measure is to exempt the University of Hawaii and the Board of Regents from the requirements of the Hawaii Public Procurement Code, with certain exceptions.

Testimony in support was submitted by the University of Hawaii System, University of Hawaii at Manoa Athletics Department, and Hawaii Business Roundtable. The State Procurement Office; Sheet Metal Contractors Association; Air Central, Inc.; Subcontractors Association of Hawaii; and one individual submitted testimony in opposition. The American Council of Engineering Companies of Hawaii and American Public Works Association provided comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would give the University of Hawaii a temporary exemption from specified provisions of the Procurement Code. The University was previously provided with procurement exemptions from 1998 through 2004, and has requested similar provisions to expedite critical deferred maintenance and capital renewal projects on all its campuses.

Your Committee has heard a number of concerns raised regarding the exemptions, particularly when other state agencies must comply with procurement requirements. Your Committee had requested that the University and the State Procurement Office work to resolve their differences and focus on the very specific concerns that might be addressed in this measure. While these discussions are ongoing, your Committee finds there is some agreement regarding protested solicitations and awards and the related administrative proceedings for review.

Your Committee has amended this measure accordingly, by:

- (1) Deleting the exemption for the University Hawaii and the Board of Regents for all but part X of chapter 103D, section 103D-304, and chapter 104, Hawaii Revised Statutes;
- (2) Exempting the University and the Board from small purchase requirements of less than \$250,000;
- (3) Requiring the University and the Board to implement an electronic procurement system for procurements in excess of \$25,000; and
- (4) Exempting the University and the Board from the bid protest and hearings provisions of sections 103D-701(f) and 103D-709(e), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 347, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 347, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 3 (Baker, Sakamoto, Taniguchi).

**SCRep. 1051 (Joint) Public Safety and Military Affairs and Energy and Environment on H.B. No. 1051**

The purpose of this measure is to ensure the Department of Business, Economic Development, and Tourism is equipped with the necessary tools to satisfactorily perform its energy emergency preparedness functions by:

- (1) Statutorily establishing the state energy emergency preparedness program's coverage of all forms of energy emergencies;
- (2) Detailing the types of information energy companies must submit to the State for energy emergency preparedness purposes;
- (3) Authorizing the Department of Business, Economic Development, and Tourism to compile and analyze information, including confidential information, to effectuate the State's role and responsibilities in energy emergency planning and preparedness, mitigation, response, and recovery; and
- (4) Requiring the Department of Business, Economic Development, and Tourism to comply with confidentiality requirements for information obtained for energy emergency preparedness purposes.

Testimony in support of this measure was submitted by one state agency and one private organization. Testimony in opposition of this measure was submitted by two private organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that when the Governor declares an emergency for this State it is vital to the protection of the people and safeguarding of property that the Department of Business, Economic Development, and Tourism receive, process, and analyze certain confidential information of private entities that is not normally available to the public. Your Committees also find that the information requested by the Department of Business, Economic Development, and Tourism shall have a reasonable nexus or connection to mitigating the declared emergency or the potential damages that may result from the declared emergency.

Your Committees have amended this measure by:

- (1) Clarifying that the sharing of information between private entities and the Department of Business, Economic Development, and Tourism surrounding the circumstances of a declared emergency from the Governor shall be limited to that information that has a reasonable nexus to mitigating the declared emergency or any potential injuries, damages, losses, or hardships arising therefrom that may detrimentally affect people or property located in Hawaii;
- (2) Requiring the Department of Business, Economic Development, and Tourism to provide a report to the Legislature within sixty days after a declared emergency is issued by the Governor that details, among other things, the specific information requested, the purpose of the request, the reasonable nexus between the information requested and mitigating the declared emergency or the potential injuries, damages, losses, or hardships arising therefrom, and the resulting damages from the emergency;
- (3) Changing the effective date to July 1, 2050, to promote further discussion; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1051, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1051, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Ayes with Reservations, 1 (Galuteria). Noes, none. Excused, 3 (Bunda, English, Hooser).

**SCRep. 1052 (Joint/Majority) Human Services and Judiciary and Government Operations on H.B. No. 1525**

The purpose of this measure is to require the Department of Human Services to award medicaid contracts to nonprofit insurance entities only.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and the Hawaii Primary Care Association. The State Council on Developmental Disabilities and the Waianae Coast Comprehensive Health Center supported the intent, and Evercare Hawaii provided comments. Testimony in opposition of this measure was submitted by the Department of Human Services, the Hawaii Medical Service Association, and Goodwill Industries of Hawaii, Inc. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that recent events in other states have led to a growing concern that for-profit medicaid health care insurance entities may not be the most suitable providers for Hawaii's medicaid recipients. The fear is that for-profit entities may cease operations in the State of Hawaii unexpectedly if the profit margin is too low. However, your Committees note that whether the entity is nonprofit or for-profit, there is a great need for transparency for these providers. The disclosure of information in the health care marketplace will help improve access and the delivery of affordable, quality health care services for consumers.

Your Committees have amended this measure by replacing its contents with the contents of the proposed draft of H.B. 1525, H.D. 1, S.D. 1, which was circulated prior to this hearing. Due to concerns raised during the hearing, your Committees have amended the measure. The proposed draft, as amended, requires all future medicaid health care insurance contracts to be awarded only to qualified nonprofit and for-profit entities that comply with annual reporting requirements, as follows:

- (1) Submit certified audit reports for the contracted services; and
- (2) Provide the medical loss ratio, administrative costs, profit margin, return to investors, number of employees in the State with category of work, description of any on-going proceedings or investigations to the extent as may be allowed by law, total compensation for highest paid employees in the State and nationwide, and a list of all management and administrative service contracts.

In addition, the amended measure includes an effective date of January 1, 2016.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1525, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1525, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Slom). Excused, 3 (Gabbard, Takamine, Hemmings).

**SCRep. 1053 (Majority) Energy and Environment on H.B. No. 1464**

The purpose of this measure is to, among other things:

- (1) Prohibit any state or county agency from issuing a permit and the Public Utilities Commission from issuing a certificate for the construction or operation of a new electrical generating facility that produces electrical energy solely from the combustion of any type of fossil fuel, except under extraordinary circumstances, as determined by the Public Utilities Commission;
- (2) Provide that, beginning January 1, 2015, electrical energy savings shall not count towards renewable energy portfolio standards and shall not include customer-sited grid-connected photovoltaic systems;
- (3) Amend the renewable energy portfolio standards, and the Public Utility Commission's obligations to review and implement such standards and to encourage development of renewable energy resources;
- (4) Amend the definition of "renewable energy facility" to include biofuel production facilities and renewable energy facilities with smaller energy production capacities, for purposes of streamlined permit processing for new facilities;

- (5) Revise the streamlined new construction permitting process for renewable energy facilities;
- (6) Direct the Public Utilities Commission to establish energy efficiency portfolio standards;
- (7) Clarify the application of the law requiring solar water heating systems for new single-family residential construction and the procedures for obtaining variances from the requirement;
- (8) Revise the tax credit for renewable technology systems; and
- (9) Revise the Public Utilities Commission's obligations for solar water heater system standards.

Testimony in support of the measure, with amendments and/or comments, was submitted by two private organizations. Testimony in support of the intent of the measure, with amendments and/or comments, was submitted by two state departments and one private organization. Testimony in support of the intent of the measure was submitted by one private organization. Testimony in opposition to the measure was submitted by one private organization. Comments were submitted by one state department and two private organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee believes that it is important to increase the production and use of renewable energy in the State, particularly in the current economic climate. This measure is an omnibus House energy bill. Your Committee finds that this measure is intended to address a range of energy issues and includes elements similar to a number of Senate bills. Your Committee also acknowledges the extent of the amendments suggested in testimony regarding the measure as received, and the preference expressed by several testifiers for the provisions in similar Senate bills.

Accordingly, your Committee has amended this measure by:

- (1) Deleting Section 1 of the measure, regarding new electrical generation facilities, and replacing it with similar language in S.B. No. 1671, S.D. 1, relating to fossil fuel electricity generating facilities;
- (2) Deleting Section 2 of the measure, regarding certificates of public convenience and necessity, and replacing it with Sections 3 and 4 of S.B. No. 1671, S.D. 1, pertaining to applications from public utilities for new generation facilities and adding a definition of "electric utility cooperative association";
- (3) Deleting Section 9 of the measure, which amends the definition of "renewable energy facility" for purposes of streamlined new construction permit processing, and replacing it with similar language from S.B. No. 1258, S.D. 2;
- (4) Deleting Section 10 of the measure, relating to streamlined permit processing for renewable energy facilities, because a similar measure already addresses the amendment proposed in Section 10;
- (5) Deleting Section 14, relating to the requirement that solar water heating devices be installed on new single-family dwellings, and replacing it with similar language from S.B. No. 390, S.D. 2, with a revision regarding demand water heaters and formatting changes;
- (6) Requiring the Public Utilities Commission to adopt standards for solar water heating systems by January 1, 2010, rather than July 1, 2009; and
- (7) Making technical, nonsubstantive changes for style, formatting, and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1464, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1464, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 4 (English, Gabbard, Green, Kokubun). Noes, 1 (Hooser). Excused, 2 (Ihara, Hemmings).

**SCRep. 1054 (Joint/Majority) Higher Education and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1174**

The purpose of this measure is to:

- (1) Establish the Mauna Kea management special fund; authorize the Board of Regents of the University of Hawaii to establish rents, fees, and charges for deposit into the fund; and establish uses of the moneys in the fund;
- (2) Authorize the Board of Regents to adopt administrative rules to regulate public and commercial activities at and within the Mauna Kea lands, or the lands the University leases from the Board of Land and Natural Resources;
- (3) Require the Board of Regents to establish procedures to enforce these rules; and
- (4) Establish administrative fines for violations of these rules and authorize the Board to assess and collect administrative fines.

Testimony in support of this measure was submitted by the University of Hawaii System; Department of Land and Natural Resources; Office of Hawaiian Affairs; Big Island Land Company; Hawaii Building and Construction Trades Council; Hawaii Island Chamber of Commerce; Ginoza Realty, Inc.; Engineering Partners, Inc.; Pacific Resource Partnership; Laborers International Union of North America, Local 368; Hawaii Island Economic Development Board; Japanese Chamber of Commerce & Industry of Hawaii; T & T Electric, Inc.; Kaiulani 4, LLC; Hawaii Science & Technology Council; International Longshore and Warehouse Union, Local 42; Hawaiian Mamaki Tea Plantation, Inc.; International Brotherhood of Electrical Workers, Local 1186; HPM Building Supply; Ku'iwalu; Hamakua Springs Country Farm; Hawaii Teamsters and Allied Workers, Local 996; and fifty-two individuals. KAHEA, the Hawaiian-Environmental Alliance; Life of the Land; and one hundred thirty-five individuals submitted testimony in opposition. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the issues surrounding the Mauna Kea lands are complex and varied, ranging from native Hawaiian rights and the use of ceded lands; the economic benefits of Mauna Kea lands activities; jurisdictional responsibilities; financial

management; land and natural resource management; infrastructure requirements; and the balance of short-term needs and long-range planning.

Your Committees further find that there have been extensive efforts to address these issues, including the 1995 Revised Management Plan, adopted by the Board of Land and Natural Resources, for the University of Hawaii Management Areas on Mauna Kea, which assigns management and enforcement responsibilities of public and commercial use and institutes commercial use and management controls; the University of Hawai'i Mauna Kea Science Reserve Master Plan 2000 Master Plan, adopted by the Board of Regents as the policy framework for the responsible stewardship and use of university-managed lands on Mauna Kea; and the Comprehensive Management Plan for Mauna Kea, which is currently in public review.

Your Committees fully understand that there will not be agreement by all the parties. As with any complex issue, compromise is not always possible. Your Committees commend those involved with developing the Comprehensive Management Plan for Mauna Kea for their good faith efforts to hear – if not resolve – problems and concerns. It is the hope of the Committees that all efforts to engage and address the concerns of stakeholders will continue.

After due consideration of this measure, your Committees have replaced the contents of this measure with S.B. No. 502, S.D. 1, previously heard and approved by your Committees. While both measures include many of the same concepts, your Committees find the Senate measure proposes a more comprehensive approach.

As amended, this measure:

- (1) Authorizes the Board of Regents to charge fees and enter into lease agreements for the Mauna Kea lands;
- (2) Authorizes the Board to adopt rules to regulate public and commercial activities on Mauna Kea lands;
- (3) Authorizes the Board, in consultation with the Office of Hawaiian Affairs, to establish and collect administrative fines for violations;
- (4) Requires annual reports to the Legislature;
- (5) Establishes a Mauna Kea Lands Management Special Fund for the University of Hawaii to manage Mauna Kea Lands; and
- (6) Has an effective date of July 1, 2025, for the purposes of further discussion.

In addition, your Committees strongly urge the University of Hawaii and the Board of Regents to consult with the plaintiffs of Civil No. 04-1-397, Mauna Kea Anaina Hou, et al v. Board of Land and Natural Resources, et al: Mauna Kea Ainana Hou; Royal Order of Kamehameha I; Sierra Club, Hawaii Chapter; and Clarence Ching. In many ways, this case illustrates the issues and concerns that continue to confront all parties involved with the future of the Mauna Kea lands, and it provides a sobering example that your Committees hope would not be repeated.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1174, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1174, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Ayes with Reservations, 1 (Hee). Noes, 1 (Slom). Excused, 5 (Baker, Bunda, Sakamoto, Taniguchi, Hemmings).

**SCRep. 1055 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1552**

The purpose of this measure is to provide the structure necessary for the management of state living parks.

Specifically, this measure:

- (1) Authorizes the Department of Land and Natural Resources to issue long-term residential leases to qualified persons; and
- (2) Establishes a living park planning council to develop a master plan for each state living park that will provide the framework, proposed rules, measurements for success, and planning process to ensure that the living park achieves its purpose and goals.

Testimony in support of this measure was submitted by two organizations and thirteen public citizens. One state agency and one public citizen provided comments. Testimony in opposition was submitted by eight public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee notes that this measure is in response to the Kahana Valley State Park attempted evictions in October 2008. The Kahana Valley State Park residents have demonstrated the success of interpretive programs in living parks for the enjoyment of visitors and school groups. The Kahana Valley residents provide an invaluable resource to the community by maintaining the Kahana ahupuaa, the basic ancient Hawaiian land division which includes all of the resources: mountain, upland, shoreline, and ocean. However, the Kahana Valley State Park experience has also demonstrated the need for a clear master plan based on the input of the park residents for long-term management solutions. Your Committee finds that the Kahana Valley State Park model can be used to provide interpretive services and maintenance for state parks. This measure provides the structure needed for successful living parks in the State, using the experiences of Kahana Valley State Park as an example.

This measure is modeled after the findings and recommendations of "Kahana: What Was, What Is, What Can Be," Report No. 5, Legislative Reference Bureau 2001, which emphasizes the strong role of the living park residents in determining what criteria should govern eligibility for a lease, designation of lands to be leased, monitoring and enforcement of leases, assignment and renewal of leases, and the development of a master plan. Your Committee believes that the living park structure benefits the State and visitors because the lessees whose ancestors have lived on the land and who have served as the stewards of the land, are the best interpreters of the living park's culture.

Your Committee has amended this measure by making technical, nonsubstantive changes for consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1552, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1552, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 1056 Energy and Environment on H.B. No. 36**

The purpose of this measure is to clarify the nexus between the benefits sought and charges made on users and beneficiaries of the Environmental Health Education Fund (Fund) by:

- (1) Changing the name of the Fund to the "Sanitation and Environmental Health Special Fund"; and
- (2) Allowing the use of the Sanitation and Environmental Health Special Fund for sanitation program activities.

Testimony in support of this measure, with suggested amendments, was submitted by one individual. Testimony in opposition to the measure was submitted by one state department. Testimony with concerns regarding the measure, with suggested amendments, was submitted by the Department of Health (DOH). Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure seeks to increase resources for the DOH Sanitation Branch's program operations, in part by increasing the amount of money the Fund may retain, and by amending the purposes for which the Fund may be used. The premise of the measure is that the majority of fees for the Fund are collected by the DOH's sanitation program and, therefore, these fees should be spent on sanitation measures and programs.

Your Committee finds, however, that some clarification in the measure is required, as the overall purpose of the Fund is to enhance and improve programs within the Environmental Health Services Division, which includes not only the Sanitation Branch, but three other branches. To properly improve these programs, the authorized uses of the Fund should be expanded to include operating costs of program activities and functions, such as permitting, monitoring, investigations, and enforcement, rather than being limited to education, training, and outreach activities. The DOH also recommended an additional amendment to the measure in order to clarify that inspectors of food establishments do not need to be "registered", because section 321-13, Hawaii Revised Statutes, no longer requires sanitarians to be licensed by the DOH.

Accordingly, your Committee has amended this measure by:

- (1) Changing the name of the Fund to the "Environmental Health Special Fund", in order to reach the other branches within the Environmental Health Services Division;
- (2) Expanding the type of activities for which Fund moneys may be expended to include permitting, inspections, other monitoring, and enforcement;
- (3) Restoring the \$300,000 cap on the Fund;
- (4) Deleting the registration requirement for food establishment inspectors;
- (5) Changing its effective date from July 1, 2020, to July 1, 2009; and
- (6) Making nonsubstantive, technical changes for style and clarity, and to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 36, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 36, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (English, Hooser).

**SCRep. 1057 (Majority) Labor on H.B. No. 952**

The purpose of this measure is to:

- (1) Streamline the process to certify union representation by requiring the Hawaii Labor Relations Board to certify an exclusive representative if a majority of the employees in a unit not currently represented have signed valid authorizations designating a bargaining representative, rather than holding an election; and
- (2) Establishing a process that facilitates initial collective bargaining agreements between employers and newly certified employee representatives.

Testimony in support of this measure was submitted by several organizations. Testimony in opposition to this measure was submitted by three state agencies and several organizations and individuals. Comments were submitted by one state agency and one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure supports workers' right to organize for the purpose of collective bargaining under Article XIII of the Hawaii Constitution and provides protections for workers against actions that would hinder them from exercising this constitutional right.

Your Committee has amended this measure as follows:

- (1) Making it a violation for an employer to wilfully or repeatedly commit unfair or prohibited practices interfering with an employee's statutory rights or discriminating against an employee for exercising protected conduct, subject to a civil penalty of \$20,000 or less per violation;
- (2) Eliminating the restriction on the application of this measure to employees of employers with one hundred or more employees; and
- (3) Making technical, nonsubstantive changes for the purposes of style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 952, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 952, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 2. Noes, 1 (Slom). Excused, 2 (Bunda, Hee).

**SCRep. 1058 Education and Housing on H.B. No. 1232**

The purpose of this measure is to require that a portion of housing units in residential developments constructed with state assistance, on land purchased or leased from the State and on land located in a community development district, be sold pursuant to restrictions that ensure continued affordability over time.

Testimony in support of this measure was submitted by one government agency and one private organization. Testimony in opposition was submitted by one government agency and one private organization. One government agency and one private organization submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the lack of affordable housing is one of the most critical issues faced by our communities. Your Committee has heard a number of measures to address this issue, and finds that the provisions of this measure offer alternatives for further discussion.

Your Committee has amended this measure by:

- (1) Adding a provision to increase the allowable maximum sale price on a sale after ten years and for subsequent periods to be determined; and
- (2) Making technical amendments for the purposes of clarity and consistency.

Your Committee has also considered provisions related to the development of affordable housing in the Kakaako area, but has not included them in this measure.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1232, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1232, H.D. 1, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 1059 (Majority) Energy and Environment on H.B. No. 1663**

The purpose of this measure is to protect:

- (1) The cultural integrity of taro as part of the heritage of the Hawaiian people and the State;
- (2) The genetic biodiversity and integrity of Hawaiian taro varieties in the State as part of the sacred trust between the State and the indigenous peoples of Hawaii; and
- (3) Hawaii taro farmers' raw taro, poi, luau, and value-added markets,

by establishing a ban on developing, testing, propagating, releasing, importing, planting, and growing of genetically modified Hawaiian taro in the State of Hawaii.

Testimony in support of this measure was submitted by two state departments or agencies, nine private organizations, and sixteen individuals. Testimony in support of the measure, with amendments, was submitted by one state department, four private organizations, and thirty-five individuals. Testimony in support of the intent of the measure, with comments or amendments, was submitted by one state department and one individual, in addition to a petition in support, with requested amendments, signed by 1,230 individuals. Testimony in opposition to the measure was submitted by two state departments and one private organization. Comments were submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the taro plant holds great cultural significance within the Native Hawaiian culture and to our State. While this measure protects Hawaiian varieties of taro from genetic modification by restricting genetic modification of non-Hawaiian taro only to enclosed laboratories where access is denied to the general public and prohibits outdoor field testing or release of genetically modified taro within the State, your Committee nevertheless has concerns regarding all genetically modified varieties of taro.

Accordingly, your Committee has amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 709, S.D. 2, which prohibits genetic testing all varieties of taro in Hawaii;
- (2) Adding language clarifying that the University of Hawaii is not prohibited from conducting field testing and commercial propagation of successful new varieties of taro outside of the State, excluding Hawaiian taro; and
- (3) Changing its effective date from July 1, 2050, to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1663, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1663, H.D. 1, S.D. 1, and be referred to the Committee on Water, Land, Agriculture, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Kokubun). Noes, 1 (Hemmings). Excused, 2 (English, Hooser).

**SCRep. 1060 Economic Development and Technology on H.B. No. 381**

The purpose of this measure is to replace the June 30, 2009, lapse date for a \$4,000,000 appropriation to the State of Hawaii Endowment Fund, originally appropriated in Act 97, Session Laws of Hawaii 2006, with provisions stipulating that all portions of pledges not matched by an actual payment of the pledge by February 28, 2013, revert to the general fund.

Testimony in support of this measure was submitted by the Department of Accounting and General Services, Honolulu Symphony Society, and one concerned individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is a sound fiscal policy to replace the June 30, 2009, lapsing date with a provision that provides that all uncollected pledges to the State of Hawaii Endowment Fund as of February 28, 2013, shall cause any unexpended balance of the \$4,000,000 appropriation to revert back to the general fund. This is especially true in consideration of the State's current economic crisis.

Your Committee has amended this measure by changing the effective date from June 29, 2009, to July 1, 2050, to promote further discussion pending the receipt of additional information requested by your Committee.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 381, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 381, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hee, Ige).

**SCRep. 1061 (Joint) Education and Housing and Transportation, International and Intergovernmental Affairs on H.B. No. 983**

The purpose of this measure is to:

- (1) Require the Director of Transportation to conduct a statewide pupil travel evaluation to study how students get to school and use the information obtained from the evaluation to provide Safe Routes to School program funds for school-based workshops and community-based planning projects that will reduce vehicular travel and congestion, encourage walking and bicycling, and promote health and safety; and
- (2) Require the Director to develop a streamlined process for the federal Safe Routes to School grant program.

Testimony in support of this measure was submitted by two private organizations and one individual. Testimony in opposition was submitted by one state agency. One state agency submitted comments. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees have heard that the Department of Transportation supports the measure's objective to improve bicycle and pedestrian safety for Hawaii's school children and that the Department is already working towards this end through existing and new initiatives. However, the Department also noted that this measure directly conflicts with the provisions of the federal Safe Routes to School (SRTS) program under the current federal authorization, and use of these SRTS funds for Hawaii is contingent on following the federal regulations and national criteria for this program.

Your Committees wish to thank the Department of Transportation for working with supporters of this measure to amend the language to ensure that it does not conflict with federal requirements.

Your Committees have amended this measure accordingly, by:

- (1) Removing all references to a pupil evaluation planning study and planning activities;
- (2) Adding infrastructure and non-infrastructure projects for use of the SRTS program funds;
- (3) Ensuring consideration of the establishment of a permanent, full-time position of Safe Routes to School Coordinator within the Department of Transportation to provide a central point of contact for the program;
- (4) Ensuring consideration of the provision of training to potential grant requestors and stakeholder groups;
- (5) Requiring the Director of Transportation to report on the status and progress of the SRTS programs;
- (6) Making the effective date, upon approval; and

- (7) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 983, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 983, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Vice President on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Chun Oakland, English, Gabbard, Tsutsui).

**SCRep. 1062 Health on H.B. No. 1782**

The purpose of this measure is to establish the Office of State Coordinator of Health Information Exchange within the Department of Accounting and General Services to coordinate local efforts, identify funding sources, integrate state health programs, and eventually participate in the national health information technology network.

In addition, this measure:

- (1) Establishes the Health Information Exchange Special Fund for costs and expenses incurred in administering health information exchange initiatives contained in this measure;
- (2) Allows the Department of Accounting and General Services to contract out some or all of its duties to administer the components of the Office in accordance with the Hawaii State Procurement Code, and establishing requirements, restrictions, and conditions for any such contract;
- (3) Broadens the scope of the required health information exchange network to include all residents of the State, not just for medicaid recipients and other low-income uninsured residents;
- (4) Establishes the temporary Health Information Technology Task Force within the Department of Accounting and General Services to develop the ten-year strategic plan for the Office and the network;
- (5) Requires the task force to submit annual reports to the Legislature, including the finalized strategic plan prior to the 2010 Regular Session, and repealing the Task Force on June 30, 2014;
- (6) Requires the Department of Accounting and General Services to conduct a separate assessment of the Office, Network, and the task force;
- (7) Requires the Department of Health and the Department of Accounting and General Services to submit joint reports with their assessments to the Legislature, and establish a schedule for submittal of these reports in future years; and
- (8) Requires the Department of Budget and Finance to submit a financial report to the Legislature regarding the State's health information technology efforts, and establishing a schedule for submittal of these reports in future years.

Your Committee received testimony in support of this measure from the Hawaii Medical Association. Testimony in support of this measure with amendments was submitted by the Hawaii Primary Care Association and Hawaii Pacific Health. Ho'okele Personal Health Planners and Hawaii Health Information Exchange support the intent of the measure with reservations. Testimony in opposition to this measure was submitted by the Department of Budget and Finance, the Department of Accounting and General Services, and the Department of Human Services. Comments on this measure were submitted by the Department of Health and the Hawaii Medical Service Association.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that health information technology and the health information exchange is an essential tool in significantly increasing health and safety in the State's health system as well as improving financial efficiency. Your Committee further finds health information is not state-owned information. Therefore, the primary focus of health information technology and the health information exchange should be placed on public-private partnerships.

Your Committee has amended this measure by:

- (1) Replacing the Department of Accounting and General Services with the Department of Health in all aspects of the measure;
- (2) Renaming the Office of the State Coordinator of Health Information Exchange to the Office of the State Coordinator of Health Information Technology;
- (3) Requiring the administrator of the Office of the State Coordinator of Health Information Technology to be appointed through the advise and consent provisions of section 26-34, Hawaii Revised Statutes;
- (4) Deleting the definition of "network";
- (5) Amending the definition of "qualified state-designated entity";
- (6) Amending the duties and responsibilities of the Office of the State Coordinator of Health Information Technology;
- (7) Deleting the health information exchange special fund;
- (8) Renaming the Health Information Technology Task Force to the Health Information Exchange Task Force;
- (9) Removing all provisions relating to assessments by the Departments of Accounting and General Services, Health, and Budget and Finance;

- (10) Directing the Health Information Exchange Task Force to develop a five, rather than ten, year strategic plan and further clarifying what the plan shall include;
- (11) Amending the appropriation to delete reference to the health information exchange special fund;
- (12) Changing the effective date to July 1, 2050, to encourage further discussion on this matter; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1782, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1782, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1063      Judiciary and Government Operations on H.B. No. 300**

The purpose of this measure is to appropriate funds for the operating and capital improvement costs of the Judiciary for fiscal biennium from July 1, 2009, through June 30, 2011.

Your Committee received testimony in support of this measure from the Judiciary and private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee notes the Judiciary's testimony regarding the claimed severe cutbacks in its budget as originally submitted. Your Committee has endeavored to restore some of the items which your Committee feels are imperative for the activities and services of the Judiciary that address social ills arising from the economic downturn. Your Committee recognizes that the Judiciary is a separate branch of government that provides its own safety net services to persons under its jurisdiction. If the Judiciary could not afford to adequately provide those services, the onus would likely shift eventually to the Departments of Health or Human Services. In this regard, the Judiciary is oftentimes the first contact for persons requiring help in addressing problems arising from drug or alcohol abuse who come to the attention of the Judiciary via the court system.

Your Committee finds that state general fund revenues are declining and are projected to continue to decline for at least another year. Your Committee recognizes that financial sacrifices in these lean economic times are the norm rather than the exception. However, your Committee is concerned about the reductions to the Judiciary budget of almost \$40 million and the deletion of 114 permanent positions constituting an estimated payroll cost of about \$4.5 million. The services provided by the Judiciary by way of court and social service programs typically rise in times of economic downturn as the result of a corresponding rise in crime, domestic violence, and illicit drug use. These in turn result in an increased demand for criminal court proceedings, drug court proceedings, mental health court proceedings, domestic violence services and proceedings, and the purchase of services contracts, as well as grants in aid.

Your Committee has amended this measure by:

- (1) Restoring the reductions in funding of programs and expenses and positions;
- (2) Reducing the amount for program I.D. JUD 601 (administration) by \$8,408,626, which along with item (1) amounts to an increase of approximately \$20 million; and
- (3) Restoring the capital improvement project requests for Kapolei and Ka'ahumanu Hale, and lump sum CIP requests in the amount of \$5 million to \$5.9 million for fiscal year 2009-2010, and in the amount of \$10 million to \$20 million for fiscal year 2010-2011.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 300, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 300, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1064      Judiciary and Government Operations on H.B. No. 1016**

The purpose of this measure is to appropriate funds to satisfy claims against the State for judgments, settlements, and miscellaneous payments.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has amended this measure by:

- (1) Adding claims for judgments and settlements, as recommended by the Department of the Attorney General; and
- (2) Changing the effective date to July 1, 2050 to ensure this measure remains available to accommodate additional claims if necessary in this legislative session.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1016, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1016, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Takamine).

**SCRep. 1065      Judiciary and Government Operations on H.B. No. 1728**

The purpose of this measure is to increase government agency fiscal options during this economic downturn by giving administrative agencies more flexibility to increase fees and other nontax revenues from July 1, 2009, until July 1, 2015.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that during these difficult times and considering the grave fiscal condition the State is facing, all options must be kept open. The intent of this measure is to allow the administrative agencies more discretionary authority to set fees pursuant to statutory authority.

Your Committee has amended this measure by deleting its contents and inserting the provisions of Senate Bill No. 1343, S.D. 2 (2009), a measure that statutorily establishes certain governmental fees and having a sunset date of July 1, 2050 to continue the discussions.

Your Committee finds that this amended measure addresses concerns raised in the Hawaii Supreme Court's opinion in *Hawaii Insurers Council v. Lingle*. Establishing these fees by statute rather than by administrative rule would help avoid a conflict with the separation of powers doctrine, while also making administrative fees more uniform.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1728, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1728, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Takamine).

**SCRep. 1066      (Joint) Public Safety and Military Affairs and Human Services on H.B. No. 1776**

The purpose of this measure is to:

- (1) Require the Department of Public Safety, beginning January 31, 2010, to provide the Department of Human Services with monthly reports listing newly admitted inmates; and
- (2) Require the Department of Human Services to identify each inmate's current status regarding the receipt of public assistance.

Testimony in support of this measure was provided by one state agency. Comments were provided by one state agency and one private organization. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure would help the Department of Human Services comply with public assistance laws by identifying individuals who are ineligible to receive public assistance.

Your Committees have amended this measure by:

- (1) Requiring the continuation of public assistance for the duration of the inmate's incarceration for inmates who are sentenced to incarceration in a public institution for not more than thirty days;
- (2) Requiring that public assistance be terminated for inmates who are sentenced to incarceration in a public institution for more than thirty days; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1776, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1776, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Bunda, English, Kidani).

**SCRep. 1067      Public Safety and Military Affairs on H.B. No. 1831**

The purpose of this measure is to establish the military affairs liaison special fund to support a qualified nonprofit entity into which shall be deposited general fund appropriations.

Your Committee received testimony in support of this measure from one private organization. Testimony in opposition was received from one government entity. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the presence of the United States military in Hawaii contributes to maintaining the peace and stability of the Asia-Pacific region. Further, Hawaii's economy benefits from this presence in that the military expends approximately \$5,600,000,000 annually in Hawaii and provides employment opportunities to approximately one hundred twenty-five thousand residents. Next to tourism, military expenditures are currently the largest source of revenues to Hawaii's economy.

Your Committee has amended this measure by renaming the military liaison special fund to military liaison trust fund, and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1831, H.D. 2, as amended herein, and recommends that it

pass Second Reading in the form attached hereto as H.B. No. 1831, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, English, Gabbard).

**SCRep. 1068 (Joint) Public Safety and Military Affairs and Transportation, International and Intergovernmental Affairs on H.B. No. 990**

The purpose of this measure is to establish in the Department of Transportation:

- (1) An Office of Disaster Preparedness and having the Director of Disaster Preparedness develop a comprehensive disaster preparedness plan for the State; and
- (2) A Disaster Preparedness Commission to advise and assist the Director of the Office of Disaster Preparedness.

This measure also makes an appropriation to the Department of Transportation for the Office of the Director of Disaster Preparedness and the Disaster Preparedness Commission, including the hiring of necessary staff.

Your Committees received testimony in support of and in opposition to this measure, as well as a comment. Written testimony presented to the Committees may be reviewed on the Legislature's website.

The disaster preparedness plan would include:

- (1) The identification of natural hazards;
- (2) The designation of natural hazard impact zones;
- (3) Priorities for natural hazard mitigation;
- (4) Policies, requirements, and incentives to mitigate the problems caused by natural hazards, to be incorporated into rules such as county building codes, land use policies, and retrofitting incentives such as tax credits; and
- (5) Plans for best responses to disasters to minimize costs and protect the interests of residents, their possessions, and pets, and visitors to the state, including plans ensuring the reliability of communication networks and power supplies for major state airports, health care facilities, disaster shelters, and other essential services.

The Disaster Preparedness Commission duties would include:

- (1) Gathering information about disasters that have occurred in the past; and
- (2) Establishing advisory committees to provide technical and other support to the Director of the Office of Disaster Preparedness.

The State has experienced threats from natural disasters, such as, earthquakes, tsunami, and storms. Your Committees find that proper planning is critical to the safety and welfare of the public and their property in times of disaster. The establishment of the Office of Disaster Preparedness could be a productive means to coordinate the safety and protection of life and property. This measure would assist homeowners and businesses to be prepared in the event of natural disasters and will prevent wide spread catastrophes or destruction that was experienced in the Gulf of Mexico.

Your Committees have amended this measure by:

- (1) Deleting references to the Department of Transportation and leaving unspecified the name of the department in which the Office of Disaster Preparedness shall be placed for administrative purposes;
- (2) Placing a representative of the Judiciary on the Disaster Preparedness Commission;
- (3) Changing the effective date to July 1, 2050, to continue the discussions on this matter; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 990, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 990, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Vice President on behalf of the Committees.  
Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 4 (Bunda, English, Kidani, Nishihara).

**SCRep. 1069 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Higher Education on H.B. No. 242**

The purpose of this measure is to support value-added agricultural operations in Hawaii by authorizing the issuance of general obligation bonds and appropriating funds to be matched by private sector contributions for the planning, repair, and modification of agricultural facilities on Oahu and Maui.

Your Committee received testimony from five organizations, and one public citizen. Testimony in opposition to this measure was received from one state board. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that diversified agriculture contributes to the State's economy by providing employment opportunities, products for export, and promoting tourism. Additionally, diversified agriculture contributes to quality of life for all Hawaii residents by helping to perpetuate a rural lifestyle that promotes stewardship of Hawaii's land and water. Your Committee finds that assigning

more resources to the development and production of value-added agricultural products is necessary to transition Hawaii's agricultural economy from plantations to diversified agriculture and to ensure the long-term economic success of Hawaii's farmers and ranchers.

Your Committee has amended this measure by:

- (1) Adding a section to amend the definition of "agricultural commodities" to include livestock, so as to treat all producers of diversified agriculture equally; and
- (2) Making a minor, nonsubstantive change for the purpose of clarity of language.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 242, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 242, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Baker, Sakamoto, Taniguchi, Hemmings).

**SCRep. 1070 Economic Development and Technology on H.B. No. 611**

The purpose of this measure is to ensure the State's fiscal integrity and provide good state fiscal policy by establishing a sunrise and sunset review of certain tax exemptions, deductions, and credits to require legislative review of these programs.

Your Committee has substituted the contents of this measure with the contents of a Proposed H.B. No. 611, H.D. 1, S.D. 1, that was circulated amongst various stakeholders to gain a consensus of approval. The Proposed H.B. No. 611, H.D. 1, S.D. 1, accomplished the following:

- (1) Deleted the contents of this measure and replaced it with the contents of S.B. No. 1247, S.D. 2, which is the Senate's version of the measure to study and evaluate several tax credits and tax exemptions;
- (2) Added a new part to chapter 235, Hawaii Revised Statutes, to clarify the application of the Capital Goods Excise Tax Credit in section 235-110.7, Hawaii Revised Statutes, and placing it in Part I;
- (3) Suspended the Capital Goods Excise Tax Credit in section 235-110.7, Hawaii Revised Statutes, for property placed in service in taxable years beginning on or after January 1, 2010, and ending on or before December 31, 2011;
- (4) Placed the legislation pertaining to the study and evaluation of several tax credits and tax exemptions in chapters 209E, 235, 237, 239, and 241, 244D, Hawaii Revised Statutes, into Part II; and
- (5) Added an additional general excise tax exemption under section 237-24.3, Hawaii Revised Statutes, for amounts related to the transportation of agricultural products between the islands of this State.

Testimony in support of the Proposed H.B. No. 611, H.D. 1, S.D. 1, was submitted by the Department of Business, Economic Development, and Tourism, Hawaii Farm Bureau Federation, Inter-Island Solar Supply, Maui County Farm Bureau, Hawaii Cattlemen's Council Inc., Maui Cattlemen's Association, Diamond B Ranch, and three concerned individuals. Testimony in opposition of this measure was submitted by the National Association of Insurance and Financial Advisors, The Chamber of Commerce of Hawaii, Queen's Medical Center, Kaiser Permanente, Ship Repair Association of Hawaii, Hawaii State Bar Association, American Council of Life Insurers, Covanta Energy Group, and Hoola Lahui Hawaii. Comments on this measure were submitted by the Department of Taxation, the Department of Agriculture, Hawaii Housing Finance and Development Corporation, Hawaii Association of Realtors, Hawaii Bioenergy, Hawaii Solar Energy Association, and Hawaii Alliance of Nonprofit Organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Proposed H.B. No. 611, H.D. 1, S.D. 1, tax credits and tax exemptions are important to the State's economic diversification. Your Committee further finds that as economic conditions change over time, the tax credits and tax exemptions may need to be extended, repealed, or sunset to promote certain types of business activity. Without a regular evaluation of tax credits and exemptions, the Legislature will not be able to make effective adjustments to the State's tax credits and exemptions.

Your Committee has deleted section 237-28.1, Hawaii Revised Statutes, from the listing of tax exemptions scheduled for automatic sunset on December 31, 2011, as a result of strong concerns raised by The Chamber of Commerce of Hawaii and Ship Repair Association of Hawaii.

When the original listing of tax credits and tax exemptions scheduled for sunset, review, and evaluation in S.B. No. 1247, S.D. 2, was compiled, your Committee relied upon the following tax revenues foregone under section 237-28.1, Hawaii Revised Statutes, as based upon 2006 estimates of the 2005-2007 Tax Review Commission:

- (1) \$550,854 in fiscal year 2012;
- (2) \$1,134,760 in fiscal year 2013;
- (3) \$1,168,802 in fiscal year 2014; and
- (4) \$1,203,866 in fiscal year 2015.

These estimates are considerably below today's estimates of the level of general excise tax savings that result from \$90,000,000 to \$100,000,000 in annual expenditures for government-contracted ship and repair facility installations and maintenance in and around Pearl Harbor. Given the importance of Pearl Harbor's ship building and repair industry to the State's economy, and the United States Navy's goal of reducing ship repair costs for work performed in Hawaii, your Committee therefore seeks only to evaluate the costs and benefits of section 237-2.1, Hawaii Revised Statutes, in conjunction with those tax credits and tax exemptions scheduled to sunset at the end of 2011.

In regard to the deletion of section 237-24, Hawaii Revised Statutes, your Committee believes that many of the general excise tax exemptions in that section are fundamentally based upon not being subject to general excise tax, such as exemptions for employee wages, alimony, and insurance proceeds. Thus, your Committee does not believe that section 237-24, Hawaii Revised Statutes, should be subjected to a automatic sunset, however, your Committee still believes that section 237-24, Hawaii Revised Statutes, should be jointly evaluated by the Department of Taxation and the Department of Business, Economic Development, and Tourism.

Your Committee has amended the Proposed H.B. No. 611, H.D. 1, S.D. 1, by:

- (1) Deleting from the definition of "eligible property" the inclusion of computer software;
- (2) Clarifying that the application of the Capital Goods Excise Tax Credit in section 235-110.7, Hawaii Revised Statutes, applies to property purchased pursuant to a binding contract;
- (3) Revising the suspension of the Capital Goods Excise Tax Credit in section 235-110.7, Hawaii Revised Statutes, to also apply to property purchased pursuant to a binding contract;
- (4) Amending the period of the suspension of the Capital Goods Excise Tax Credit in section 235-110.7, Hawaii Revised Statutes, to only comprise of taxable years beginning on or after July 1, 2009, and ending on or before December 31, 2011, rather than taxable years beginning on or after January 1, 2010, and ending on or before December 31, 2011;
- (5) Deleting the automatic sunset of the exemptions in section 237-24, Hawaii Revised Statutes, relating to general excise amounts not taxable;
- (6) Deleting the automatic sunset of the exemptions in section 237-28.1, Hawaii Revised Statutes, relating to general excise taxes on sales of shipbuilding and ship repair businesses;
- (7) Revising the paragraph references to the tax credits and tax exemptions applicable to low-income housing projects in subsection (d) of section 8;
- (8) Adding representatives of Hawaii's non-profit sector to the Technical Advisory Group that is going to be established to help identify and develop the data elements needed for the analysis of the tax credits and tax exemptions;
- (9) Changing the effective date from July 1, 2009, to July 1, 2050, to promote further discussion on additional information pending from the Department of Business, Economic Development, and Tourism, and the Department of Taxation regarding the appropriate means of data aggregation and dissemination between those departments in facilitating the production of comprehensive fiscal and economic impact statements; and
- (10) Making technical, nonsubstantive amendments for the purpose of clarity.

Your Committee received a fiscal impact statement from the Department of Taxation that this measure, as introduced, would result in the following annual revenue losses to the State:

- (1) Fiscal year 2010, \$17.2 million;
- (2) Fiscal year 2011, \$425.4 million;
- (3) Fiscal year 2012, \$925.2 million;
- (4) Fiscal year 2013, \$1.1 billion;
- (5) Fiscal year 2014, \$1.3 billion;
- (6) Fiscal year 2015, \$1.6 billion.

The Department of Taxation's methodology is as follows:

In addition, the study required by the bill may result in an additional revenue gain of from \$1,000,000 to \$3,000,000, because data and analysis developed for the study will help make the Department's compliance efforts more efficient. Revenue gains from eliminating the income tax credits are taken from the Department's study of income tax credits for 2006. Revenue gains from eliminating the GET exemptions are from the report of the 2005-2007 Tax Review Commission.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 611, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 611, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 2 (Hee, Ige).

**SCRep. 1071 Human Services on H.B. No. 1064**

The purpose of this measure is to provide emergency appropriations to the Department of Human Services to address its budget shortfalls.

Testimony in opposition was submitted by the American Association of Retired Persons to the original content of H.B. No. 1064, H.D. 1.

Testimony in support of a proposed Senate draft of this measure was submitted by the National Association of Social Workers, the Legal Aid Society of Hawaii, Hawaii Women Work, and two individuals. The Department of Budget and Finance provided comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that without the emergency appropriations in this measure, temporarily disabled individuals currently on general assistance will have monthly benefits reduced from \$469 per month to \$234 per month. This drastic cut in benefits will prevent recipients from paying rent, buying food, or paying for other basic needs.

Additionally, this measure will provide the necessary emergency appropriations for mental health services. Your Committee notes that people with mental illnesses who lose access to a necessary therapist or other treatment may become unstable, suffering personal loss, and it may be years before they can be helped back to services. Expending Federal Medical Assistance Percentage dollars on medicaid-eligible services, like those provided by the Hawaii Health Systems Corporation and the Department of Health for community-based care management and other services, and directing the Department of Human Services to use a portion of the funds to pay for these services would not only fund safety net health services immediately from now until June 30, 2009, but allow the State to draw down additional federal medicaid dollars.

Your Committee has amended this measure by:

- (1) Replacing its contents with the contents of H.B. No. 1064, H.D. 1, proposed S.D. 1, which was circulated prior to the hearing;
- (2) Inserting the contents of H.B. No. 1065, H.D. 1, proposed S.D. 1, which was circulated prior to the hearing, with amendments to include identifying the agencies and amounts for the appropriations; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1064, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1064, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1072 Human Services on H.B. No. 739**

The purpose of this measure is to direct the Department of Human Services to expend federal Temporary Assistance to Needy Families (TANF) funds with an emphasis on providing child care services, work programs and related support services, prevention of teenage pregnancy, child protective services, maintenance of information systems, and administrative costs and to transfer portions of TANF funds to the social services block grant and child care development fund.

Testimony in support of this measure was provided by the Department of Human Services, the Office of Youth Services, the Office of Hawaiian Affairs, the National Association of Social Workers, the University of Hawaii-Manoa, Hawaii Women Work, Hawaii Family Support Institute, Good Beginnings Alliance, Child and Family Services, Hawaii Democratic Party, Maui Family Support Services, and twelve private individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that in the current economic climate, the social safety net provided by TANF-funded programs is especially important. It is essential that the State assist vulnerable individuals and families to meet basic human needs such as shelter, food, and health care. It is equally as important that the State assist as many Hawaii residents as possible to enter or reenter the workforce and to maintain productive employment. Because of the current economic recession, many working-class and middle-class individuals are losing jobs, thereby becoming at-risk for housing loss and economic dislocation. Your Committee finds that TANF-funded programs and services will help prevent many of these individuals from falling into poverty.

Your Committee intends this measure to direct valuable TANF funding to meet the demand for direct cash benefits and necessary social service programs while maintaining an adequate level of cash reserves to ensure the continued provision of cash benefits into the future.

Your Committee has amended this measure by:

- (1) Providing specific amounts to be appropriated from TANF program funds for various programs;
- (2) Clarifying the scope of the programs enumerated in the measure that should receive TANF funding by:
  - (A) More narrowly defining the programs under the existing measure to include services relating to care for children in their own homes or in the homes of relatives, work program contracts and support services for program recipients, prevention and reduction of out-of-wedlock pregnancies and encouragement of two-parent families, and purchase of service contracts for child protective services;
  - (B) Adding appropriations for costs of program implementation, including costs for information systems and program administration; and
  - (C) Transferring funds to the child care development fund and the social services block grant to provide for greater flexibility in spending federal funds; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 739, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 739, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1073 (Joint) Human Services and Health on H.B. No. 1284**

The purpose of this measure is to appropriate funds to increase payments for physician services to medicaid-eligible persons, including fee-for-service and QUEST provider services up to a blank per cent of the current medicare rate.

Testimony in support of this measure was provided by the Chamber of Commerce of Hawaii, the Occupational Therapy Association of Hawaii, Faith Action for Community Equity, American Association of Retired Persons, and Hawaii Pacific Health. Testimony in opposition of this measure was submitted by the Department of Human Services. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that although Hawaii medicaid reimbursement rates are comparable to rates nationally, medicaid rates are typically among the lowest compared to private insurers and medicare. The funding for the physicians in the medicaid fee-for-service, medicaid QUEST, and medicaid QUEST Expanded Access managed care health plans to provide 79.5 per cent of the 2006 medicare rates will expire July 1, 2009. Inadequate reimbursement levels represent the primary threat to the ability of low-income pediatric and elderly patients in Hawaii to access quality health care. Your Committees believe the State should increase reimbursement levels to 100 per cent of the 2006 medicare rates.

Your Committees have amended this measure by:

- (1) Clarifying that the measure includes the QUEST Expanded Access program;
- (2) Making technical, nonsubstantive changes for the purposes of style, clarity, and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1284, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1284, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1074 (Joint) Human Services and Public Safety and Military Affairs on H.B. No. 1429**

The purpose of this measure is to appropriate Temporary Assistance for Needy Families funds to the Hawaii National Guard's About Face family of programs to continue serving at-risk youth.

Testimony in support of this measure was submitted by the Department of Human Services and the Office of Youth Services. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the Hawaii National Guard's About Face family of programs have made significant contributions to Hawaii's at-risk youth, such as strengthening families, reducing child abuse and neglect, providing role models and mentors, and improving academic achievement. Your Committees support the continuation of the About Face family of programs.

Your Committees have amended this measure by:

- (1) Changing the effective date from July 1, 2020, to July 1, 2060, for the purpose of encouraging further discussion; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1429, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1429, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Bunda, English, Kidani).

**SCRep. 1075 Tourism on H.B. No. 960**

The purpose of this measure is to expand the description of a tourism emergency to include a regional or worldwide economic crisis.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, the Department of Business, Economic Development, and Tourism, Destinations Resorts Hawaii, the Grand Hyatt Kauai Resort and Spa, Hawaii Hotel and Lodging Association, the Chamber of Commerce of Hawaii, Retail Merchants of Hawaii, Outrigger Hotels, and Hilton Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that tourism is one of the primary economic engines of the State. Transferring the research and statistics duties from the Department of Business, Economic Development, and Tourism to the Hawaii Tourism Authority will provide cohesiveness in the administration of tourism expansion.

Your Committee has amended this measure by:

- (1) Replacing "regional or worldwide economic crisis" with "national or global" economic crisis;
- (2) Transferring the research and statistics duties from the Department of Business, Economic Development, and Tourism to the Hawaii Tourism Authority; and
- (3) Changing the effective date to "upon approval".

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 960, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 960, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 1076 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1611**

The purpose of this measure is to require truthful labeling of meat and fish that have been gas-treated.

Your Committee received testimony in support of this measure from one organization and one private citizen. Testimony in opposition to this measure was received from one state agency and one organization. Testimony with comments on this measure was received from one state agency and one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the United States Food and Drug Administration has determined that the use of safe levels of carbon monoxide in treating meat is not harmful to human health. However, it is possible for treated meat to appear fresh to the consumer but still contain high bacteria levels indicative of spoilage. It has been suggested that the "use, sell, or freeze by" date listed on packaged meat or fish may sometimes be extended due solely to the color of the contents rather than the actual freshness.

The Department of Health checks for adherence to proper labeling requirements and ensures that products are not offered for sale past their expiration dates through routine food safety inspections and other enforcement mechanisms. However, the Department of Health testified that it focuses most enforcement efforts on the accurate labeling of fish products, relying on the United States Department of Agriculture to enforce regulations for meat labeling. Your Committee notes that this measure is intended to focus primarily on the accurate labeling of meat products sold in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that a violation of the labeling requirements contained therein constitutes a misdemeanor offense;
- (2) Making it effective upon approval; and
- (3) Making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1611, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1611, H.D. 2, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Tokuda, Hemmings).

**SCRep. 1077 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 951**

The purpose of this measure is to relieve landowners of liability for any damage, injury, or harm to persons or property outside the boundaries of the landowner's land caused by naturally occurring land failure originating on unimproved land, except for harm arising from negligent or wanton acts by the owner of the unimproved land.

Testimony in support of this measure was submitted by two state agencies, one county agency, one private organization, and three individuals. Testimony in opposition was submitted by four private organizations and two individuals. Comments were submitted by one state agency, one county agency, one private organization, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State of Hawaii owns and manages millions of acres of public lands, much of which is unimproved conservation or forest reserve land. This measure would allow the State to serve the public interest to keep these lands in their natural state without fear of liability for damages occurring outside the boundaries of its lands caused by unpredictable and naturally occurring land failures, such as landslides and rockfalls.

Your Committee has amended this measure by:

- (1) Clarifying that with regard to liability, if a dangerous condition is known, or by the exercise of ordinary care, could have been known by the landowner, the landowner has a duty to exercise reasonable care in the maintenance of the property to prevent any damage, injury, or harm to property on or outside of the landowner's property; and
- (2) Adding a new section to chapter 46, Hawaii Revised Statutes, as part of the county approval process, to require a study to determine rockfall risks, a risk assessment to determine the extent of risk, and creation of a hazard buffer zone or other mitigation if a hazard exists, for any plan not approved prior to July 1, 2009.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 951, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 951, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Ayes with Reservations, 3 (Fukunaga, Kokubun, Takamine). Noes, none. Excused, 1 (Bunda).

**SCRep. 1078 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 948**

The purpose of this measure is to:

- (1) Increase the reserved housing requirement for a development in the Kakaako Community Development District, Mauka Area, for lots three acres or more in area to twenty-five per cent of the countable floor area of the development; and
- (2) Direct the Hawaii Community Development Authority to submit a report prior to the convening of the 2017 Regular Session on its reserved housing program in the Kakaako Community Development District.

Testimony in support of this measure was submitted by three private organizations and one individual. Testimony in opposition was submitted by six private organizations. Comments were submitted by one state agency, two private organizations, and one individual. Written testimony presented to the Committees may be reviewed on the Legislature’s website.

Your Committees have replaced the contents of this measure with S.B. No. 1350, S.D. 2, previously heard and approved by your Committees.

As amended, this measure:

- (1) Establishes reserved housing requirements of at least fifty per cent of the countable floor area for planned developments of at least 80,000 square feet, increasing to sixty per cent five years from the effective date of the measure;
- (2) Excludes community service use, including a public utility; special facility use; and industrial use from the countable floor area;
- (3) Excludes properties of one acre or less from the reserved housing requirement;
- (4) Allows in lieu cash payments to the Authority as an alternative to fulfilling the reserved housing requirements;
- (5) Requires that reserved housing units be built prior to or concurrent with a planned development;
- (6) Requires the Authority to adopt rules;
- (7) Provides for the adoption of applicable rules by means of an expedited process and indicates for what planned developments applications may or may not be accepted or processed by the Authority, pending adoption of such rules;
- (8) Exempts any major development for which a building permit is pending from being subject to the rules adopted pursuant to this measure, and clarifying that such developments are subject to the statutes and rules in effect on the date of the building permit application for a period of five years from the effective date of the Act, after which time the provisions of this Act are applicable to any unbuilt portions of the development; and
- (9) Makes the measure effective July 1, 2050, for the purposes of continuing discussion.

Your Committees have also considered a tiered “countable floor area” as follows:

<u>Reserved Housing</u>	<u>Land Area</u>
0 per cent	under 19,999 square feet
20 per cent	20,000 — 39,999 square feet
25 per cent	40,000 — 79,999 square feet
30 per cent	80,000 — 99,999 square feet
35 per cent	100,000 — 119,999 square feet
40 per cent	120,000 square feet and over

Your Committees find that the tiered approach is an alternative that merits consideration and urges further legislative discussion of this proposal, and its impacts on the development of reserved housing.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 948, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 948, H.D. 1, S.D. 1, and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chairs on behalf of the Committees.  
 Ayes, 9. Noes, none. Excused, 3 (Takamine, Tsutsui, Hemmings).

**SCRep. 1079 (Joint/Majority) Water, Land, Agriculture and Hawaiian Affairs, Energy and Environment and Economic Development and Technology on H.B. No. 1271**

The purpose of this measure is to:

- (1) Establish a task force to review and investigate a broad range of energy and food security issues and develop an integrated energy and food policy;
- (2) Rename the Environmental Response Tax as the “Environmental Response, Energy, and Food Security Tax”;
- (3) Revise the Environmental Response, Energy, and Food Security Tax from five cents to an unspecified amount per barrel or fractional part of a barrel of petroleum product, and specify other funds into which portions of this tax will be deposited;
- (4) Establish a new Food Security Special Fund under the Department of Agriculture to serve as a depository of a portion of the Environmental Response, Energy, and Food Security Tax; and

- (5) Repeal for thirty-six months the mandate that all gasoline sold in the State for use in motor vehicles contain ten per cent of ethanol by volume.

Testimony in support of the measure was submitted by ten private organizations and twenty-eight individuals. Testimony in support of the measure, with suggested amendments or comments, was submitted by four private organizations. Testimony in support of the intent of the measure, with comments, was submitted by one private organization. Testimony in opposition to the measure was submitted by four state departments and one private organization. Comments were submitted by three private organizations. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the intent of this measure is to create a stable funding source to provide for long-term energy and food security in the State. With this funding and the establishment of the Hawaii Economic Development Task Force, Hawaii will have the capacity, scope, and funding to complete renewable energy projects, repair local food production infrastructure, and move projects forward that can accelerate Hawaii's transition to greater good and energy security. Your Committees find, however, that suspending the ethanol requirement for gasoline would counter the energy security goal of this measure and would negatively impact five proposed ethanol production projects that are currently in process.

Additionally, your Committees find that Act 209, Session Laws of Hawaii 2007, exempts from the general excise tax the gross proceeds arising from the sale of alcohol fuels for consumption or use by the purchaser and not for resale. Act 209 also provided that this exemption will be repealed on June 30, 2009. Your Committees feel that consumers should not be faced with increased gasoline prices from the proposed barrel fee increase and the increase in general excise tax on gasoline that will occur if the sunset clause on the exemption is not repealed.

Your Committees have left unspecified the amount of the barrel fee and the sums allocated between the various funds from the barrel fee, believing that the discussion regarding these specific matters should be continued by the Committee on Ways and Means, where fiscal matters are more appropriately addressed. Further, your Committees also recommend that the Committee on Ways and Means include in the measure that a portion of the barrel fee be used to plan for and help natural systems and communities cope with and mitigate the results of climate change caused by carbon dioxide (CO<sub>2</sub>) emissions from burning fossil fuels, as suggested by The Nature Conservancy.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the suspension of the ethanol requirement for gasoline;
- (2) Deleting the language comparing the costs of ethanol and oil;
- (3) Repealing the sunset clause for the general excise tax exemption on the sale of alcohol fuels in Act 209, Session Laws of Hawaii 2007; and
- (4) Making nonsubstantive, technical changes for style and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1271, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1271, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, 1 (Hemmings). Excused, 4 (Bunda, English, Ige, Slom).

**SCRep. 1080 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 921**

The purpose of this measure is to expand the potential assignees of a homestead lease to include trustees of land trusts created for the purposes of managing and holding a homestead for the benefit of the lessee and the lessee's family member.

Testimony in support of this measure was submitted by two organizations. Testimony in opposition was submitted by one state agency and one public citizen. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Although your Committee recognizes the problems addressed by this measure, serious concerns have been raised regarding the legal issues involved with assigning the homestead lease to land trusts.

Your Committee finds that asserting the Legislature's management authority over ceded lands is an immediate concern that needs to be addressed in light of the recent United States Supreme Court oral arguments for *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, 117 Hawaii 174 (2008).

Your Committee has amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 1085, S.D. 1, which was earlier passed by the Senate, with amendments and which prohibits the sale or transfer of ceded lands, with certain specified exceptions, until the claims of the native Hawaiian people have been resolved or until the Legislature finds by concurrent resolution that the State no longer supports reconciliation between the State and the native Hawaiian people; and
- (2) Inserting language to permit the Department of Hawaiian Home Lands to negotiate lease terms beyond sixty-five years, and provide a right of first refusal to previous lessees.

Your Committee notes that the recent United States Supreme Court oral argument referenced the ongoing legislative session. Justice Alito asked the Attorney General, "would there be anything to prevent the Hawaiian legislature from passing a law that says . . . we are going to impose a five-year moratorium on any transfer of these lands because we want to promote a reconciliation process?" Transcript of Oral Argument at 11, *Office of Hawaiian Affairs v. Housing and Community Development Corporation of Hawaii*, 117 Hawaii 174 (2008) (No. 07-1372). This line of inquiry was later iterated by Justice Breyer, indicating that the Justices are clearly

contemplating action by this Legislature. Transcript of Oral Argument at 16, *supra*. Justice Souter summed up the discussion by saying, “the Supreme Court of Hawaii, in effect, has said the land is tied up until these people who are currently negotiating, the State, the Native Hawaiians . . . all come to a . . . resolution and a reconciliation. . . They are just saying, no more land transfers until these people sit down and make up their differences.” Transcript of Oral Argument at 24-25. Thus, your Committee believes in light of the Hawaii State Supreme Court decision and the pending United States Supreme Court decision, action by this Legislature is the most efficient and widely accepted method of addressing the immediate problem of disposing of ceded lands. The United States Supreme Court clearly recognizes the political nature of the ceded lands claims, and the Hawaii State Supreme Court stated as much in their opinion.

In sum, all of the aforementioned pronouncements indicate that the issue of native Hawaiian title to the ceded lands will be addressed through the political process. In this case, Congress, the Hawaii state legislature, the parties, and the trial court all recognize (1) the cultural importance of the land to native Hawaiians, (2) that the ceded lands were illegally taken from the native Hawaiian monarchy, (3) that future reconciliation between the state and the native Hawaiian people is contemplated, and, (4) once any ceded lands are alienated from the public lands trust, they will be gone forever. For present purposes, this court need not speculate as to what a future settlement might entail- i.e., whether such settlement would involve monetary payment, transfer of lands, ceded or otherwise, a combination of money and land, or the creation of a sovereign Hawaiian nation; it is enough that Congress, the legislature, and the governor have all expressed their desire to reach such a settlement. In other words, . . . the State has a fiduciary duty as trustee to protect the ceded lands pending a resolution of native Hawaiian claims. 117 Hawaii at 213 (2008).

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 921, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 921, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Bunda).

**SCRep. 1081 (Majority) Public Safety and Military Affairs on H.B. No. 519**

The purpose of this measure is to facilitate eventual community reentry of inmates by requiring the return of all out-of-state inmates by December 31, 2015, and to require the Department of Public Safety to plan, design, and construct facilities sufficient to house all inmates by this date.

Testimony in support of this measure was submitted by two private organizations and two individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that the rehabilitation of criminal offenders is more effective and reduces the rate of recidivism if the offender’s incarceration is as close as possible to their home. Your Committee also finds that the return of Hawaii inmates incarcerated out-of-state to Hawaii will eliminate the State’s obligation to pay another jurisdiction substantial sums of money to detain Hawaii inmates.

Your Committee has amended this measure by:

- (1) Requiring the Director of Public Safety to return to Hawaii all women inmates that are detained or incarcerated in out-of-state prison or correctional facilities by December 31, 2011;
- (2) Requiring the Director of Public Safety to permit no more than a total of five hundred inmates from Hawaii to be incarcerated in out-of-state prison or correctional facilities by December 31, 2015;
- (3) Requiring the Department of Public Safety to pursue the viability of developing alternative programs or forms of incarceration, such as electronic monitoring, to detain or house the Hawaii inmates returning to Hawaii from a mainland prison or correctional facility; and
- (4) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 519, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 519, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Hemmings). Excused, 3 (Bunda, English, Gabbard).

**SCRep. 1082 (Majority) Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1766**

The purpose of this measure is to:

- (1) Allow the limited issuance of commercial use permits for vessels with assigned moorings in Ala Wai and Keehi Harbors;
- (2) Provide for future mooring fees to be established by appraisal by a state-licensed appraiser and assigned a schedule B rate, while existing mooring holders remain in a schedule A class that shall equal schedule B rates by July 1, 2014; and
- (3) Direct the Department of Land and Natural Resources to use the request for proposals process to enter into a public-private partnership for the development of portions of Ala Wai Harbor facilities that are presently under-used to maximize the revenue potential from its facilities.

Testimony in support of this measure was submitted by three organizations and four public citizens. Four organizations and five public citizens provided comments. Testimony in opposition was submitted by one state agency, six organizations, and thirty-three public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Ala Wai Harbor is badly in need of repair and replacement of floating docks, but its repair remains unfulfilled. In spite of this need, the Ala Wai Harbor includes assets within its facilities that are underused, which, if properly developed, can potentially generate revenues that could benefit not only its continued improvement and maintenance, but also benefit the rest of the facilities now operated by the Division of Boating and Recreation. Despite these difficult economic times, the State cannot afford to ignore the maintenance and repair needs of the State's small boat harbors.

Your Committee has amended this measure by:

- (1) Eliminating the authorization for the Board of Land and Natural Resources to lease submerged lands within an existing state boating facility;
- (2) Eliminating the list of designated areas within Ala Wai Harbor where the Department of Land and Natural Resources is authorized to lease fast lands using the request for proposals process for public-private development, management, and operation of the harbor;
- (3) Removing the provision that made it unnecessary for the Legislature to adopt a concurrent resolution in order to allow the lease of submerged lands;
- (4) Changing the effective date from July 1, 2020, to July 1, 2009; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1766, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1766, H.D. 2, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Hemmings). Excused, 1 (Bunda).

**SCRep. 1083 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 901**

The purpose of this measure is to allow the State to most effectively and responsibly make progress toward meeting part of its constitutional, statutory, and moral obligation to native Hawaiians by addressing the additional amount of income and proceeds that the Office of Hawaiian Affairs is to receive from the public trust pursuant to Article XII, sections 4 and 6, of the Hawaii Constitution, for the period from November 7, 1978, to July 1, 2008.

Testimony in support of the measure was received from one state agency and two private organizations. One private organization testified in opposition to the measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the issue of the State's obligation to transmit to the Office of Hawaiian Affairs a part of the income and proceeds of the public land trust has been an unresolved topic of discussion since 1978 when the State Constitution was amended to recognize the State's obligation to native Hawaiians. The inability to find a resolution of this issue is not because of a lack of effort or will. Since 1978, this issue has had the benefit of the effort and insight of four different governors and thirty legislative sessions.

Two state laws were enacted during this thirty year period: Act 273 in 1980, and Act 304 in 1990. Both Act 273 and Act 304 provided that twenty per cent of the funds derived from the public land trust was to be expended by the Office of Hawaiian Affairs to benefit native Hawaiians; however, both Acts faced legal challenges in Hawaii courts concerning the practical application of the twenty per cent apportionment established by the Legislature, with the last challenge resulting in Act 304 being effectively repealed so that once again, it became necessary for the Legislature to enact a new law.

Your Committee recognizes two new and significant events that make urgent legislative action on this issue this year:

- (1) The election of President Barack Obama, a native son of this State who grew up in the midst of these issues and has personal experience of this State's attempt to satisfy its obligation to the native Hawaiian people. President Obama has publicly stated his support for the reconciliation effort and the passage of the Akaka Bill which, upon passage, establishes the federal government's recognition of the legality and legitimacy of a sovereign native Hawaiian entity; and
- (2) The political situation in Congress this year has improved the chances for the passage of the Akaka Bill. The members of Hawaii's congressional delegation presently enjoy powerful and influential positions, and all four of Hawaii's congressional members have placed passage of the Akaka Bill as a high priority on their legislative agendas.

It is possible, if not probable, that the federal government will soon take action to pass the Akaka Bill, which will lead to recognition of the reorganized single native Hawaiian governing entity and the reaffirmation of the special political and legal relationship between the United States and the native Hawaiian governing entity for the purposes of continuing a government-to-government relationship. The income and proceeds that the Office of Hawaiian Affairs is to receive from the public land trust shall be transferred at the time of federal and state recognition to the sovereign native Hawaiian entity. It is important and only proper that the State, in light of the federal government's progress on the issue of federal recognition of the sovereign native Hawaiian entity, fulfill its obligation which has remained unfulfilled for more than thirty years.

Equally important is the recognition that the question of *how* the State satisfies its obligation to native Hawaiians is to be determined by the Legislature, and not the executive or judicial branches of state government.

On this point, the Hawaii Supreme Court has stated in *Office of Hawaiian Affairs v. State of Hawaii*, 96 Hawaii 388, at 401 (2001), that:

. . . the State's obligation to native Hawaiians is firmly established in our constitution. How the State satisfies that constitutional obligation requires policy decisions that are primarily within the authority and expertise of the legislative branch. As such, it is incumbent upon the legislature to enact legislation that gives effect to the right of native Hawaiians to benefit from the ceded lands trust. *See* Haw. Const. Art. XVI, Section 7. . . . [W]e trust that the legislature will re-examine the State's constitutional obligation to native Hawaiians . . . and enact legislation that most effectively and responsibly meets those obligations. (emphasis added)

Also, agreeing on this point are the statements and positions of General Bennett in the recent oral arguments before the United States Supreme Court in *Hawaii vs. Office of Hawaiian Affairs*, No. 07-1372. See the following excerpts of the transcript of the oral arguments:

- (1) Questioning by Justice Breyer, beginning on page 16, line 13:

JUSTICE BREYER: **Could the Hawaiian Legislature pass a law** saying that the Native Hawaiians have claims? Those claims, because of the Federal 1950 – whatever it is – are not valid any more. But that was pretty unfair to them. And, therefore, what we think we should do is the following. And then they pass a whole lot of things that they think would be appropriate to do in light of what I just said. What stops that?

MR. BENNETT: Your Honor, the – **legislature has wide discretion in managing and disposing of the assets.** (emphasis added)

- (2) Questioning by Justice Ginsburg, beginning on page 16, line 25:

JUSTICE GINSBURG: And the legislature, if they wanted to – as I understand the Admission Act, it lists five purposes to any one purpose. And the **legislature, if it so chose, could say**, we want this property – the proceeds from this property to be for the exclusive betterment of the conditions of the Native Hawaiians. They could. **It would be up to the legislature** to give it all to the Native Hawaiians.

MR. BENNETT: **That would not violate the Admission Act, your Honor.** (emphasis added)

- (3) Questioning by Justice Scalia, beginning at page 17, line 12:

JUSTICE SCALIA: Would it violate the Admission Act if the **legislature** had not said – said we are giving it to them because we want to, because we think it's a good idea. No, we are giving it to them because we think they have a right to it.

MR. BENNETT: Your Honor-

JUSTICE SCALIA: And we feel that we must give it to them because it's theirs.

MR. BENNETT: Your Honor, the –

JUSTICE SCALIA: Would that violate the Admission Act?

MR. BENNETT: **The legislature believed that it bettered the condition of Native Hawaiians to provide proceeds from land to the Native Hawaiians. The Admissions Act gives them that ability to do it.** (emphasis added)

Furthermore, Governor Lingle stated at the end of the 2008 Legislative Session that her staff will not return to the negotiating table with Office of Hawaiian Affairs leaders. (*See*, “*Ceded-Land Deal at Impasse*,” written by Gordon Y.K. Pang, The Honolulu Advertiser, May 6, 2008.) Quoted also in this news article was Mr. Lenny Klompus, Governor Lingle's Senior Advisor – Communications: “[s]he (Governor Lingle) would not resume negotiations with OHA or offer any new proposals to the Legislature regarding the settlement.” The news article goes on to state that Mr. Klompus said that the administration was seeking to help the Legislature with its responsibility. Clearly, Governor Lingle and her staff views the legislative body as having primary if not total responsibility to address and negotiate the issue of *how* the State satisfies its obligation to native Hawaiians.

Thus, it is clear that both Hawaii's judicial and executive branches of government are looking to the Legislature to take the lead to answer the question of *how* the State satisfies its obligation to native Hawaiians. This recognition, coupled with the urgency of the State's need to act expeditiously in light of the favorable political situation in Washington D.C. on the native Hawaiian sovereignty issue, requires this Legislature to enact legislation this year.

Furthermore, your Committee is aware of concerns that the continuation of the \$15.1 million in annual payments beyond the current fiscal year from the State to the Office of Hawaiian Affairs is not guaranteed. Your Committee understands and acknowledge the concern that future legislative actions may diminish or eliminate this arbitrary payment and that this leaves the Office of Hawaiian Affairs in an untenable situation having to rely on such a large and uncertain source of funds.

Your Committee is also aware of the negotiations between the Office of Hawaiian Affairs and past governors and the present governor toward meeting the State's obligation to native Hawaiians as set forth in the State Constitution. Your Committee finds that the issue has evolved into two principal aspects, one regarding a resolution of the past obligations (i.e., from November 7, 1978 to the present), and the other regarding a resolution of the future obligations (i.e. from the present to the final reconciliation of the claims of the native Hawaiian people).

Your Committee believes that the appropriate approach to a resolution of these issues is to either:

- (1) Provide the framework for the State to reach a “global settlement” which shall include the past and future obligations of the State to the native Hawaiian people; or

- (2) Make progress toward meeting a part of the State's past obligations to native Hawaiians by addressing the additional amount of income and proceeds that the Office of Hawaiian Affairs is to receive from the public land trust pursuant to article XII, sections 4 and 6 of the Hawaii Constitution, for the period from November 7, 1978 to July 1, 2008.

Your Committee has amended this measure to accomplish the above as follows:

- (1) Part I of the amended measure sets forth this Legislature's attempt to reach a "global settlement" of the past and future obligations of the State to the native Hawaiian people. Your Committee finds that the proposal previously made by Governor Ben Cayetano in March 31, 1999, is a sensible and appropriate approach toward a "global settlement" and that it should be re-offered to the Office of Hawaiian Affairs.

The "global settlement" offer includes:

- (A) Monetary payment to the Office of Hawaiian Affairs of \$251 million;
- (B) Conveyance of public lands from the State to the Office of Hawaiian Affairs equal to twenty per cent of the 1.8 million acres of ceded lands already inventoried; and
- (C) The suspension of the \$15.1 million in annual payments to the Office of Hawaiian Affairs effective upon a date to be agreed upon in good faith between the State and the Office of Hawaiian Affairs.

The Office of Hawaiian Affairs shall make a decision to accept or reject the "global settlement" and notify the Governor, the President of the Senate and the Speaker of the House of Representatives of its decision in writing on or before January 1, 2010. Any failure to properly and timely respond to the "global settlement" offer shall be deemed to be a rejection of the "global settlement."

The Legislature may structure the payment of the \$251 million over time provided that the payment plan shall include the following:

- (A) Interest on the principal balance at the rate provided by law under section 478-2, Hawaii Revised Statutes; and
- (B) Equal annual payments commencing on a date to be agreed to in good faith by and between the State and the Office of Hawaiian Affairs. The State may fund the \$251 million through the issuance of general obligation bonds.

The conveyance of public lands equal to twenty per cent shall be on an "acre for acre" basis (i.e., twenty per cent of 1.8 million acres as opposed to twenty per cent of the combined value of the 1.8 million acres); however, the Office of Hawaiian Affairs and the State may agree to a different method of calculation, provided that the different method of calculation must be determined prior to July 1, 2010.

- (2) If a "global settlement" cannot be reached, Part II of the measure sets forth the Legislature's approach to alternatively address the issue regarding past obligations only. The dollar value of \$200 million represents the amount agreed to between the Office of Hawaiian Affairs and Governor Lingle regarding the resources that should be provided for the period between November 7, 1978, and July 1, 2008. Your Committee finds that \$200 million for the past obligations is a fair and reasonable payment.

At the discretion of the Office of Hawaiian Affairs, payment of the \$200 million may be accomplished by either:

- (A) A \$200 million monetary payment;
- (B) Conveyance of properties in the public land trust with a combined tax assessed value of \$200 million; or
- (C) A combination of cash payments and conveyance of properties totaling \$200 million.

If the Office of Hawaiian Affairs chooses to accept a \$200 million monetary payment, it must notify the Governor, the President of the Senate and the Speaker of the House of its decision in writing by January 1, 2010. Failure of the Office of Hawaiian Affairs to respond to the Governor, the President of the Senate and the Speaker of the House by January 1, 2010, shall be deemed to be a rejection of the Office of Hawaiian Affairs' right to accept the \$200 million monetary payment option.

If the Office of Hawaiian Affairs chooses the \$200 million monetary payment option, the Legislature may structure the payment of \$200 million over time provided that the payment plan shall include the following:

- (A) Interest on the principal balance at the rate provided by law under section 478-2, Hawaii Revised Statutes; and
- (B) Equal annual payments commencing on a date to be agreed to in good faith by and between the State and the Office of Hawaiian Affairs. The State may fund the \$200 million through the issuance of general obligations bonds.

If the Office of Hawaiian Affairs rejects the \$200 million monetary payment option, it shall select and receive from the State certain public lands, provided that the combined value of the properties selected by the Office of Hawaiian Affairs shall not exceed \$200 million. The public lands to be offered to the Office of Hawaiian Affairs are the following:

- (A) From Governor Lingle's 2008 proposal, the Kakaako and Kalaeloa properties.
- (B) From former Governor Waihee's prior proposal, Waikiki Yacht Club, Army and Air Force Exchange Services ("AAFES") Building in Kakaako, Pier 60 at Sand Island, the accreted peninsula at Keehi Lagoon.
- (C) The Senate's Proposal: Mauna Kea, La Mariana and submerged lands (Pier 60 Area), State-owned fishponds, Kahana Valley and Beach Park, and the Heeia meadowlands.

The Office of Hawaiian Affairs shall select the properties on the later of July 1, 2010, or six months after all of the property information is provided from the State. The value of the property shall be its most recent tax assessed value, adjusted by the twenty per cent offset of all ceded lands conveyed to the Office of Hawaiian Affairs.

To the extent the combined value of the properties received by the Office of Hawaiian Affairs is less than \$200 million, the difference shall be paid to the Office of Hawaiian Affairs by the State pursuant to a payment plan with the following terms:

- (A) Interest on the principal balance at the rate provided by law under section 478-2, Hawaii Revised Statutes; and
- (B) Equal annual payments commencing on January 1, 2011 and ending on January 1, 2015.

The current \$15.1 million in annual payments from the State to the Office of Hawaiian Affairs shall remain uninterrupted for FYs 2009-10 and 2010-11. Your Committee again notes and recognizes the possibility of the reduction or elimination of the prospective \$15.1 million payments and that this information is provided to the Office of Hawaiian Affairs so that it may be taken into consideration when analyzing the options contained in Part II of the amended measure;

- (3) In either settlement option, the specific public lands that are to be conveyed by the State to the Office of Hawaiian Affairs is to be determined by negotiation between the Governor and the Office of Hawaiian Affairs with reasonable diligence, in good faith, and shall be completed on or before January 1, 2015, unless mutually extended by the State and the Office of Hawaiian Affairs;
- (4) Upon executing a settlement agreement, the Governor shall include in the Governor's financial plan for the years following the executed settlement agreement, the payments to be made and any revenue impact experienced from the conveyance of any land to the Office of Hawaiian Affairs; and
- (5) The Office of Hawaiian Affairs and the Governor's Office are required to submit a report on the status of the negotiations to the Legislature no later than twenty days prior to the convening of the 2010 Regular Session.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 901, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 901, H.D. 2, S.D. 1, and be referred to the Committees on Judiciary and Government Operations and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Takamine, Hemmings).

**SCRep. 1084 Ways and Means on H.B. No. 993**

The purpose of this measure is to propose a constitutional amendment concerning the disposition of projected excess state revenues.

Specifically, the measure requires that in any regular session of the Legislature during which the Council on Revenues estimates that for a second consecutive year, the general fund revenues in the current fiscal year will exceed the general fund revenues collected in the prior fiscal year by at least seven per cent, the Legislature shall set aside:

- (1) One per cent of general fund revenues collected in the prior fiscal year as a tax credit or tax refund for state taxpayers; and
- (2) Moneys in excess of the seven per cent of the amount by which the current fiscal year revenues are estimated to exceed revenues from the prior fiscal year, and deposit the revenues into the emergency and budget reserve fund, subject to certain conditions.

Your Committee received testimony from one organization that supported the purpose and intent of the measure. One state department opposed the measure, and one state department and one organization submitted comments. The testimony may be reviewed on the Legislature's website.

Your Committee finds that the current state and national economy illustrates the wisdom of establishing a financial reserve during a strong economy. While your Committee agrees that an increase in general revenues should be shared with taxpayers, your Committee also believes it is prudent to set aside a portion of the estimated increase to meet state obligations when the State's financial situation is not as prosperous.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 993, H.D. 2, and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Government Operations.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 1085 (Joint) Human Services and Education and Housing on S.C.R. No. 6**

The purpose of this measure is to request that:

- (1) All public and private senior housing agencies identify all residents who are sole or primary caretakers for a grandchild; and
- (2) Each agency make appropriate exemptions in policies, procedures, and house rules to allow seniors who provide sole or primary care for one or more grandchildren to remain in their rental unit until more suitable housing is obtained.

Testimony in support of this measure was submitted by the Ko'olaupoko Hawaiian Civic Club and two individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committee finds that The 2007 Needs Assessment of Grandparents Raising Grandchildren reports that over 14,000 grandparents in Hawaii are primary caregivers for over 33,000 grandchildren, and it is estimated that they save the State approximately

\$17,000,000 per month by caring for their grandchildren outside the foster care system. In addition to direct care, these grandparents play an important part in ensuring the wellbeing of the grandchildren.

Your Committees further find that it would benefit both managers and all residents of senior housing to clarify procedures that allow grandparents to remain in senior housing while caring for a grandchild or grandchildren.

Your Committees have amended this measure by making technical amendments for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Education and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 6, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 6, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1086 Human Services on H.C.R. No. 44**

The purpose of this measure is to declare the month of April as "Child Abuse Prevention Month".

Testimony in support of this measure was submitted by two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that child abuse and neglect pose a serious threat to Hawaii's children. Your Committee supports the designation of the month of April as "Child Abuse Prevention Month" and encourages the people of Hawaii to engage in child abuse-prevention activities especially during the month of April.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 44, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 44, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1087 Human Services on H.C.R. No. 38**

The purpose of this measure is to recognize October 2009 as "Domestic Violence Awareness Month" in the State of Hawaii.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that domestic violence is a social problem that affects a large number of women, yet many people are unaware of the severity and high incidence of domestic violence. Your Committee further finds that designating the month of October as "Domestic Violence Awareness Month" would promote awareness of the high prevalence and incidence, and devastating effects of domestic violence, and that greater awareness is a step of progress toward ending domestic violence.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 38, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 38, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1088 Transportation, International and Intergovernmental Affairs on Gov. Msg. No. 278**

Recommending that the Senate advise and consent to the nomination of the following:

MEDICAL ADVISORY BOARD

G.M. No. 278 CARLOS WARTER MD, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Carlos Warter MD is a psychiatrist in private practice. From 2005 to 2007, he was Clinical Assistant Professor in the Department of Complimentary and Alternative Medicine at the University of Hawaii John A. Burns School of Medicine. From 2001 to 2004, he was Clinical Associate Professor of Psychiatry at the University of Miami School of Medicine. Dr. Warter is a graduate of the University of Chile School of Medicine. He received post-graduate training at Children's Hospital, Harvard Medical School, and the University of Chile Department of Psychiatry. The nominee currently serves on the Medical Advisory Board.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the

nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1089 Commerce and Consumer Protection on H.B. No. 1075**

The purpose of this measure is to update various provisions of article 10H of the Insurance Code in order to reflect changes made by Act 233, Session Laws of Hawaii 2007.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and American Council of Life Insurers. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that with the aging of Hawaii's population and attendant increase in demand for long-term care, it is very important that the laws governing long-term care insurance are effective and up-to-date. Your Committee finds that this measure accomplishes that goal by updating references within the Insurance Code to ensure that the law in this area is clear and unambiguous.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1075, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1075, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Ige, Sakamoto, Hemmings).

**SCRep. 1090 (Joint) Commerce and Consumer Protection and Transportation, International and Intergovernmental Affairs on H.B. No. 1061**

The purpose of this measure is to guarantee the continued operation of water and sewer services by allowing the Public Utilities Commission to take necessary action and appoint a receiver when a regulated public utility fails to provide adequate and reasonable service.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Public Utilities Commission. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the reliable provision of basic services such as water and sewer services is essential for the health, safety, and welfare of Hawaii's residents. Your Committees further find that the current law does not contain express authority for the Public Utilities Commission to act on behalf of a regulated water or sewer utility's customers if a utility experiences an urgent, serious, and imminent threat to its ability to provide adequate services. Your Committees find that this measure will allow the Public Utilities Commission to appoint a receiver to operate a failed or failing regulated water or sewer utility in the event that it ceases to operate, or operates on a substandard or unacceptable level.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purpose of clarity and accuracy in its language.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1061, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1061, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1091 (Majority) Public Safety and Military Affairs on H.B. No. 632**

The purpose of this measure is to ensure that the membership of the Policy Advisory Board on Veterans' Services represents the full range of veterans' interests by requiring the Governor, in appointing members, to ensure that all minority viewpoints are represented, including issues of concern to women veterans.

Testimony in support of this measure was submitted by two individuals. Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that a Board comprising members from a variety of backgrounds will be better suited to equitably resolve issues that are of concern to veterans. Your Committee also finds that requiring membership on the Board to include women members will help to specifically address the concerns of women veterans.

Your Committee has amended this measure by:

- (1) Deleting the Governor's requirement to appoint members that represent the viewpoints of all minorities, including those concerns of women; and
- (2) Adding the requirement that three members of the Policy Advisory Board on Veterans' Services shall be women.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 632, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 632, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Hemmings). Excused, 3 (Bunda, English, Gabbard).

**SCRep. 1092 Tourism on Gov. Msg. No. 477**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAII TOURISM AUTHORITY

G.M. No. 477 RONALD K. WILLIAMS, for a term to expire 6-30-2010.

Upon review of the statement submitted by the nominee, your Committee finds that Ronald K. Williams will work with compassion and commitment to assist in administering the functions related to tourism for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Directors of the Hawaii Tourism Authority to which he has been nominated.

Your Committee received testimony supporting the nomination of Ronald K. Williams from McNeil Wilson Communications, the Polynesian Cultural Center, Leadership Works, LLC, Atlantis Submarines Hawaii, LLC, the Activities and Attractions Association of Hawaii, the Tourism Liaison of the Department of Business, Economic Development, and Tourism, the Ocean Tourism Coalition, MCA, Inc., Maui Visitors Bureau, Pleasant Holidays-Hawaii, Cades Schutte, LLP, E Noa Corporation, and three individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 1093 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 420**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE ALOHA TOWER DEVELOPMENT CORPORATION

G.M. No. 420 JASON T. OKUHAMA, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Jason T. Okuhama to have the necessary qualifications to be nominated to the Board of Directors of the Aloha Tower Development Corporation.

Testimony in support of the nomination of Mr. Okuhama was submitted by two state agencies and seventeen individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Okuhama is a Managing Partner of Hawaii Lending Specialists, LLC, dba Commercial and Business Lending. Mr. Okuhama's previous positions include Senior Vice President of B&I Lending, LLC, Vice President/Business Loan Officer for Bank of America, and Business Loan Officer for the Financial Assistance Branch of the Hawaii Department of Business, Economic Development, and Tourism (DBEDT).

Mr. Okuhama is the current Board President of the Hawaii Alliance for Community Based Economic Development and founding member of Lokahi Pacific Rural Development, Inc. He has served on numerous committees, including planning or steering committees for the Hawaii Community Loan Fund, DBEDT Small Business Advisory Group, Hawaii Congress on Small Business, and Community Based Economic Development Conference. Mr. Okuhama has also held various leadership positions with organizations such as the Waimea Jaycees and the Exchange Club of Waimea.

Mr. Okuhama has served on the Board of Directors of the Aloha Tower Development Corporation (ATDC) since May of 2006 as an at-large member. His background in private financing, commercial lending, and business has made Mr. Okuhama a valuable asset to the ATDC. Testifiers describe Mr. Okuhama as a hard worker of high integrity and dedication, good reputation within the finance community, strong commitment to economic development and rural community concerns, and outstanding leadership and character who would continue to contribute a wealth of experience and knowledge to the ATDC.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Bunda, Hemmings).

**SCRep. 1094 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 458**

Recommending that the Senate advise and consent to the nomination of the following:

MOLOKAI IRRIGATION SYSTEM WATER USERS ADVISORY BOARD

G.M. No. 458 STEVEN L. ARCE, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Steven L. Arce to have the necessary qualifications to be nominated to the Molokai Irrigation System Water Users Advisory Board.

Testimony in support of the nomination of Mr. Arce was submitted by one state agency, one organization, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Arce is currently a Farm Tractor Operator for Mycogen Seeds. He is a member of the Hikiola Agricultural Cooperative and previously managed the operations of Molokai Hay, a farm business that harvests and sells grass to owners of horses, cattle, and goats, for twelve years.

Mr. Arce has voluntarily served on the Molokai Irrigation System Water Users Advisory Board since July 2007 as the representative of the Molokai Farm Bureau. According to testimony, he has attended every scheduled meeting of the Board and has participated in all Roadmap to Improvement Meetings. Mr. Arce's extensive farming experience, knowledge of the Molokai Irrigation System, understanding of the challenges farmers face, and commitment to sustainable agriculture on Molokai make him an excellent candidate to serve another term on the Board.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Hemmings).

**SCRep. 1095 Education and Housing on S.C.R. No. 84**

The purpose of this measure is to request the State Auditor to:

- (1) Conduct an immediate financial statement audit of the Waters of Life Public Charter School for fiscal year 2006-2007 and fiscal year 2007-2008; and
- (2) Report the findings and recommendations to the Superintendent of Education, Executive Director of the Charter School Administrative Office, Chair of the Charter School Review Panel, and Director of the Waters of Life Public Charter School, immediately upon completion of the audit; and to the Legislature no later than twenty days prior to the convening of the Regular Session of 2010.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to ensure that state funds are being used responsibly and are being accounted for in a fiscally sound manner.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 84 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

**SCRep. 1096 Education and Housing on S.C.R. No. 34**

The purpose of this measure is to request the Department of Education to conduct a feasibility study to examine the fiscal, curriculum, and other impacts of a longer school day for elementary school students, and report the findings and recommendations to the 2010 Legislature.

Testimony in opposition to this measure was submitted by one state agency. One private organization submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has heard that extending the elementary school day would have far reaching implications, and that all aspects would warrant consideration in a feasibility study. An extended school day would affect transportation and food service schedules, contracts with a multitude of vendors providing direct services to the schools, as well as collective bargaining agreements. In addition, any extension would affect the entire system as many of the services provided to schools are coordinated across different levels.

Your Committee understands, for example, that reducing the number of school days per year for elementary schools in isolation would still require the Department of Education to operate facilities and support services for the middle and high schools that would remain in session. The high school students who are often caregivers to their younger siblings would not be available to provide that service. In addition, multi-level schools would be forced to remain open to accommodate the middle and high school schedules, thus reducing the efficiency of their daily operations.

Your Committee agrees that these concerns have merit. However, your Committee believes that, given the immediate and longer-term economic constraints facing the State, educational alternatives should be considered.

Your Committee has amended this measure to focus the study on a four-day week for all students, by:

- (1) Amending the title to read: REQUESTING THE DEPARTMENT OF EDUCATION TO CONDUCT A FEASIBILITY STUDY TO EXAMINE THE FISCAL, CURRICULUM, AND OTHER IMPACTS OF A FOUR-DAY SCHOOL WEEK FOR SCHOOL COMPLEXES; and
- (2) Amending the body of the Concurrent Resolution to reflect this change in focus.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 34, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 34, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hemmings).

**SCRep. 1097 Education and Housing on S.C.R. No. 31**

The purpose of this measure is to request the Auditor to conduct a management and financial audit of the Hawaii Public Housing Authority's maintenance contracts and to investigate reports of disrepair, noncompliance with the Americans with Disabilities Act, and other concerns of residents; and report the findings and recommendations to the 2010 Legislature.

Testimony in support of this measure was submitted by two private organizations. One state agency submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that while the Hawaii Public Housing Authority has made improvements to its management in recent years, considerably more work remains to correct past deficiencies. Your Committee has heard from the Authority that the year 2008 inspections by the Department of Housing and Urban Development revealed that four asset management projects failed to meet federal requirements for physical condition of the projects, including two managed by private contractors and two managed by Hawaii Public Housing Authority staff, and that it may be more prudent to focus the audit on specific projects that require the most immediate attention.

Your Committee has amended this measure by:

- (1) Amending the title to read: REQUESTING THE AUDITOR TO CONDUCT A REVIEW OF THE PERFORMANCE OF THE MANAGEMENT OF THE PUUWAI MOMI AND WEST OAHU ASSET MANAGEMENT PROJECTS (KNOWN AS AMP 30 AND AMP 44) TO COMPARE THE PERFORMANCE OF STATE OPERATED AND PRIVATELY OPERATED PUBLIC HOUSING PROPERTIES; AND TO DETERMINE THE RELATIVE CONTRIBUTIONS OF FUNDING LEVELS, MISMANAGEMENT, AND TENANT AND VISITOR ACTIONS TO THE FAILURE TO MEET STANDARDS;
- (2) Adding Whereas clause language referencing current management procedures, the results of year 2008 inspections by the Department of Housing and Urban Development, and the status of maintenance at Palolo Housing and Kuhio Park Terrace;
- (3) Amending the scope of the audit as reflected in the title of the measure; and
- (4) Adding to the scope of the audit, a request to the Auditor to undertake a broader review of the process by which the Authority currently evaluates management and maintenance contracts.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

**SCRep. 1098 Higher Education on S.C.R. No. 123**

The purpose of this measure is to:

- (1) Request the Auditor to conduct a study of the Community Colleges of the University of Hawaii System to determine if it would be beneficial to establish a separate statewide system for the Community Colleges; and
- (2) Report the findings and recommendations to the 2010 Legislature.

Comments on this measure were provided by the University of Hawaii System. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has heard that a task force created pursuant to Act 188, Session Laws of Hawaii 2008, is in the process of developing an approach to formula funding for the University of Hawaii, including the community colleges. The University has stated that while still in development, the proposed formula accounts for the differential costs of providing education at the community colleges, the baccalaureate institutions, and the University of Hawaii at Manoa, and that many of the concerns raised in this measure would be addressed through that effort.

While your Committee understands that there may be some duplication in the information to be gathered, this measure focuses on issues beyond funding formulas. In addition, your Committee believes that the information to be included in the Auditor's report may prove beneficial to the University and to the new President as the President is engaged in reviewing all aspects of the University of Hawaii System.

Your Committee has amended this measure by:

- (1) Deleting the Whereas clause related to numbers of students, entry level requirements, and per capita funding;
- (2) Adding Whereas clause language to clarify the differences between the baccalaureate campuses and the community colleges regarding staffing ratios and staff support, missions, and administrative requirements;
- (3) Adding an additional Whereas clause regarding the advantages of establishing a governance system just for community colleges; and

- (4) Requiring the Auditor to include in the report the academic advantages and disadvantages, including an assessment of the various means currently employed to effect articulation for community college students that would either no longer be necessary or improved upon by the separation of governance.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 123, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 123, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1099 (Joint) Human Services and Commerce and Consumer Protection on S.C.R. No. 17**

The purpose of this measure is to request the Auditor to conduct an impact assessment report of the social and financial impacts of mandating health insurance coverage for medically necessary early intervention services for infants and toddlers from birth to age three.

Testimony in support of this measure was provided by the State Council on Developmental Disabilities, Hawaii Early Intervention Coordinating Council, and Kaiser Permanente. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that early intervention services have a positive impact on the quality of life for children with special health care needs and their families. Your Committees further find that passage of this measure is a necessary condition under section 23-51, Hawaii Revised Statutes, to considering S.B. No. 795, which mandates health insurers to provide coverage for medically necessary early intervention services for certain infants and toddlers.

Your Committees have amended this measure as follows:

- (1) By requesting the Auditor to review and report findings on the benefits and services mandated by relevant state and federal laws, services currently provided by the State, and funding the State receives from the federal government to provide these services; and
- (2) By making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 17, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 17, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1100 (Joint) Human Services and Transportation, International and Intergovernmental Affairs on S.C.R. No. 13**

The purpose of this measure is to encourage:

- (1) The State and the counties take action to stimulate individual savings and development of credit and to formulate an inventory of banking services available to low-income persons and those with no credit history in the State;
- (2) The State and the counties to take steps to accurately identify the unbanked and the underbanked populations in Hawaii; and
- (3) The State and the counties to collaborate with local financial institutions to integrate the unbanked and underbanked populations into the financial mainstream and to encourage local financial institutions to redouble their efforts to recognize and pursue the potentially huge and previously untapped unbanked and underbanked markets.

Testimony in support of this measure was provided by the Department of Commerce and Consumer Affairs, the Hawaii Bankers Association, the Hawaii Credit Union League, VISA, the Hawaii Alliance for Community Based Economic Development (HACBED), and two individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that in the United States, forty million households are financially underserved, comprising about twenty-eight million unbanked individuals and almost forty-five million underbanked individuals. The unbanked consist of diverse groups of people who do not have checking or savings accounts and who remain outside the banking mainstream for many reasons. The underbanked consist of people or businesses that have poor access to mainstream financial services such as banks and so rely upon alternative financial services targeted for the less advantaged, such as check cashers, loan sharks, and pawnbrokers.

Your Committees also find that handling payments through a bank account provides a gateway for households to enter the financial mainstream and become owners of financial assets. Those who own bank accounts are more likely to own other assets, including accounts related to savings, credit, and insurance, while those without financial accounts are less likely to own a home and a car. Consumers without a relationship with a mainstream financial institution also pay high transaction fees for services, such as check cashing, and pay interest rates to purchase items through rent-to-own companies.

As affirmed by the records of votes of the members of your Committees on Human Services and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 13 and recommend that it be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Slom).

**SCRep. 1101 Education and Housing on S.C.R. No. 86**

The purpose of this measure is to request the Department of Education to develop an inventory of all textbooks currently in use in all public schools, and to report the findings and recommendations to the 2010 Legislature.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Department of Education is in support of this measure and that the Department will explore existing informational databases regarding modifications that can be made to include information about the publication date of all textbooks currently in use, classification of textbooks in elementary, middle, and high school grade levels, adequacy of the inventory of books in relation to the number of students, and a list of recommended textbooks.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 86 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

**SCRep. 1102 Education and Housing on S.C.R. No. 150**

The purpose of this measure is to urge the Superintendent of Education to establish and facilitate a Special Education Private School Task Force to:

- (1) Advise the Department of Education on policies or procedures for oversight and monitoring of private school or facility placements;
- (2) Review data collected by the Department regarding oversight and monitoring;
- (3) Advise the Department on efforts to improve and streamline oversight and monitoring; and
- (4) Report its findings and recommendations to the 2011 Legislature.

Testimony in support of this measure was submitted by two government agencies, five private organizations, and twenty individuals. Two individuals testified in opposition. One individual submitted comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that students with disabilities are placed in private schools or facilities as a result of an Individualized Education Program team decision, a due process hearing decision, or a settlement agreement. Pursuant to the Individuals with Disabilities Education Improvement Act of 2004 (IDEA), the Department of Education is required to provide a free appropriate public education to all students with disabilities, including students placed in a private school or facility at public expense, and to monitor every student's progress.

Your Committee has heard that in the past, the Department has sometimes been denied timely access to monitor these students and their educational records because they were not educated on a public school campus. Your Committee believes that through the task force to be convened by this measure, the Department will be able to study the barriers and strengths of the current monitoring system and determine how best to correct any deficiencies.

Your Committee has also considered concerns regarding the inclusion of the Senior Hearings Officer from the Department of Commerce and Consumer Affairs, Office of Administrative Hearings, or a designee, as a member of the Task Force, since placement may be determined through the hearings process. Your Committee has heard extensive discussion, and finds the Senior Hearings Officer should remain a member.

First, your Committee notes that the role of the Special Education Private School Task Force is advisory in nature. Second, your Committee believes that the information and professional experience that the Senior Hearings Officer brings to the Task Force far outweigh any possible conflict of interest that may occur. Third, should a potential conflict arise, the Senior Hearings Officer or designee may be excused from participation in that instance.

Your Committee has amended this measure to sunset the Special Education Private School Task Force on June 30, 2011.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 150, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 150, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1103 Education and Housing on S.C.R. No. 149**

The purpose of this measure is to request the Board of Education to:

- (1) Modify public high school graduation requirements by requiring fifty hours of community service from all students as part of the Department of Education's Civic Responsibility requirement; and
- (2) Report its findings and recommendations to the 2010 Legislature.

Testimony in support of this measure was submitted by one private organization and one individual. One state agency submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that community service programs not only present students with the chance to participate in unique, real-world learning experiences, but also teach them the value and importance of civic responsibility and engagement. In addition, these programs bring schools together with local nonprofit organizations and state departments for the benefit all parties involved, providing the community with much-needed volunteer support and the students with the opportunity to connect with and give back to their communities.

Your Committee has amended this measure to clarify that, if appropriate, this requirement may be modified, based on the student's Individualized Education Program or Personalized Educational Plan.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 149, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 149, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1104 (Joint) Education and Housing and Higher Education on S.C.R. No. 146**

The purpose of this measure is to request the Hawaii P-20 Partnerships for Education to:

- (1) Convene the appropriate agencies to examine current and emerging programs seeking to track student progress and develop a longitudinal data system for students beginning in early childhood programs to grade twelve, and beyond to higher education and the workforce;
- (2) Establish a data sharing agreement to support a longitudinal data system and to meet requirements of the American Recovery and Reinvestment Act of 2009; and
- (3) Report its findings and recommendations to the 2011 Legislature, including the status of a state longitudinal data system, and a timeline and resources needed to develop, implement, maintain, and use a state longitudinal data system.

Testimony in support of this measure was submitted by four state agencies. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that Hawaii P-20, a statewide partnership of the Good Beginnings Alliance, Department of Education, and the University of Hawaii to improve educational outcomes for Hawaii, has been coordinating a Department of Education and University of Hawaii effort to link student data from public secondary to postsecondary education. Additionally, your Committees understand that Hawaii P-20 is leading an effort of the University of Hawaii, the Department of Education, the Department of Business, Economic Development and Tourism, and the Department of Labor and Industrial Relations to plan for a longitudinal data system that spans from early childhood education to the workforce. Your Committees find that this measure will assist in the effort to gather this vital information.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 146 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 5 (Baker, Taniguchi, Tsutsui, Hemmings, Slom).

**SCRep. 1105 (Joint) Education and Housing and Transportation, International and Intergovernmental Affairs on S.C.R. No. 88**

The purpose of this measure is to urge the Hawaii Housing Finance and Development Corporation to:

- (1) Establish a Transit Oriented Development Task Force to facilitate mixed-income and affordable housing in transit oriented developments by better coordinating transportation and housing planning and programs;
- (2) Report its findings and recommendations, including any proposed state or county legislation, to the 2010, 2011, and 2012 Legislatures; and
- (3) Sunset the Transit Oriented Development Task Force on December 31, 2011.

Testimony in support of this measure was submitted by one state agency, one county agency, and one private organization. Comments were submitted by one private organization. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure provides a means of building better communities by supporting quality growth, seeking sustainable economies and housing opportunities, embracing the cultural and environmental qualities we cherish, and protecting the rights of property owners.

Your Committees have heard the concerns of the Hawaii Housing Finance and Development Corporation regarding the expertise required to address the identification of tax incentives for the development or rehabilitation of community health care facilities within mixed-use transit oriented development projects. However, your Committees believe that this component can be addressed through consultation with other state and county agencies, as well as private organizations.

Your Committees have amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 88, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 88, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 3 (Tsutsui, Hemmings, Slom).

**SCRep. 1106 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 81**

The purpose of this measure is to request the Hawaii Housing Finance and Development Corporation to:

- (1) Review the feasibility of developing single room occupancy dwellings in transit oriented development projects; and
- (2) Report findings and recommendations to the 2010 Legislature, including the impact on transit oriented development projects, costs, target beneficiaries, short-term and long-term effects, and sustainability.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that single room occupancy dwellings offer an affordable housing alternative for low-income individuals, students, single tenants, seasonal or other traveling workers, or others who do not require large dwellings or private domestic appliances. Your Committees further find that the information to be gathered as a result of this measure will assist the Legislature in determining how single room occupancy dwellings may fit among the many other proposed alternatives.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 81 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Bunda, Fukunaga, Tsutsui).

**SCRep. 1107 (Joint) Human Services and Health on S.C.R. No. 29**

The purpose of this measure is to request the United States Congress to:

- (1) Recognize that the Medicare and Medicaid physician fee reimbursement amounts for Hawaii are insufficient; and
- (2) Enact legislation to increase the geographic practice cost indices for Hawaii.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Department of Human Services, Hawaii Medical Association, Hawaii Pacific Health, and Hawaii Association for Justice. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that Hawaii's geographic practice cost indices, which partially determine Medicare and Medicaid reimbursement rates, are unreasonably low. Your Committees further find that inadequate reimbursements to physicians limit Medicare and Medicaid recipients' access to quality health care.

Your Committees have amended the body and title of this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 29, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 29, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1108 (Joint) Human Services and Health on S.C.R. No. 27**

The purpose of this measure is to request the Centers for Medicare and Medicaid Services to consider raising the Medicare fee schedule payment amounts for physicians rendering services in Hawaii.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Department of Human Services, Hawaii Medical Association, Hawaii Pacific Health, and Hawaii Association for Justice. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that Hawaii has relatively low Medicare and Medicaid reimbursement rates due to lower private sector wages upon which the Geographic Practice Cost Index, that partially determines the Medicare fee schedule, is based. Your Committees further find that inadequate reimbursements to physicians limit Medicare and Medicaid recipients' access to quality health care and threaten physicians' ability to continue practicing amid increasingly high costs in Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 27, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 27, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Espero, Hemmings).

**SCRep. 1109      Transportation, International and Intergovernmental Affairs on S.C.R. No. 50**

The purpose of this measure is to express legislative support for the Ane Keohokalole highway extension, mid-level road, in the County of Hawai'i.

Your Committee received testimony in support of this measure from the Department of Transportation; the Department of Hawaiian Home Lands; Hawai'i Housing Finance and Development Corporation; County of Hawai'i; The Pacific Resource Partnership; Hawaii Operating Engineers Industry Stabilization Fund; and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Department of Transportation has identified the Ane Keohokalole Highway extension, mid-level road as a priority project. The Ane Keohokalole Highway extension project is being coordinated with the County of Hawai'i, Department of Hawaiian Home Lands, and Hawai'i Housing Finance and Development Corporation.

The Ane Keohokalole Highway extension is a mid-level road project that will help reduce traffic congestion in the Kealahou region by providing an alternative to the presently existing routes. The Ane Keohokalole Highway extension will provide direct access to two major affordable housing projects, which would allow residents to purchase affordable homes being developed by the Department of Hawaiian Home Lands (Villages of La'i 'Opua, more than 700 homes) and Hawai'i Housing Finance and Development Corporation (Keahuolu project, 2,200 homes). Together, the two housing projects will help meet the need for affordable housing in the North Kona area, and simultaneously provide construction jobs to stimulate the Big Island economy.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 50 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1110      Transportation, International and Intergovernmental Affairs on S.R. No. 30**

The purpose of this measure is to express legislative support for the Ane Keohokalole highway extension, mid-level road, in the County of Hawai'i.

Your Committee received testimony in support of this measure from the Department of Transportation; the Department of Hawaiian Home Lands; Hawai'i Housing Finance and Development Corporation; County of Hawai'i; The Pacific Resource Partnership; Hawaii Operating Engineers Industry Stabilization Fund; and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Department of Transportation has identified the Ane Keohokalole Highway extension, mid-level road as a priority project. The Ane Keohokalole Highway extension project is being coordinated with the County of Hawai'i, Department of Hawaiian Home Lands, and Hawai'i Housing Finance and Development Corporation.

The Ane Keohokalole Highway extension is a mid-level road project that will help reduce traffic congestion in the Kealahou region by providing an alternative to the presently existing routes. The Ane Keohokalole Highway extension will provide direct access to two major affordable housing projects, which would allow residents to purchase affordable homes being developed by the Department of Hawaiian Home Lands (Villages of La'i 'Opua, more than 700 homes) and Hawai'i Housing Finance and Development Corporation (Keahuolu project, 2,200 homes). Together, the two housing projects will help meet the need for affordable housing in the North Kona area, and simultaneously provide construction jobs to stimulate the Big Island economy.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 30 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1111      Transportation, International and Intergovernmental Affairs on S.C.R. No. 119**

The purpose of this measure is to:

- (1) Encourage Hawaii residents to ride bicycles for transportation as well as recreation; and
- (2) Urge the Department of Transportation to embrace "Complete Street" policies that acknowledge the contributions of bicycles as a means to reduce vehicle miles by integrating bicycle use into standard street design.

Your Committee received testimony in support of this resolution from the Department of Transportation; Hawaii Bicycling League; and four individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Bicycling can provide multiple and cross-cutting benefits in policy initiatives that seek to address transportation needs, limit climate change and energy consumption, and improve public health. Bicycle commuters help reduce traffic by leaving automobiles at home, thus also saving on fuel costs, vehicle maintenance, and parking expenses.

Your Committee finds that results from polls and initiatives have shown that the people of Hawaii support riding bicycles, indicating an awareness and appreciation for bicyclists, and the importance of sharing the streets with the automobile's two-wheeled counterpart.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 119 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1112 Transportation, International and Intergovernmental Affairs on S.R. No. 78**

The purpose of this measure is to:

- (1) Encourage Hawaii residents to ride bicycles for transportation as well as recreation; and
- (2) Urge the Department of Transportation to embrace "Complete Street" policies that acknowledge the contributions of bicycles as a means to reduce vehicle miles by integrating bicycle use into standard street design.

Your Committee received testimony in support of this resolution from the Department of Transportation; Hawaii Bicycling League; and four individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Bicycling can provide multiple and cross-cutting benefits in policy initiatives that seek to address transportation needs, limit climate change and energy consumption, and improve public health. Bicycle commuters help reduce traffic by leaving automobiles at home, thus also saving on fuel costs, vehicle maintenance, and parking expenses.

Your Committee finds that results from polls and initiatives have shown that the people of Hawaii support riding bicycles, indicating an awareness and appreciation for bicyclists, and the importance of sharing the streets with the automobile's two-wheeled counterpart.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 78 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1113 Transportation, International and Intergovernmental Affairs on S.C.R. No. 80**

The purpose of this measure is to:

- (1) Urge all nonprofit organizations and community groups involved in roadside activities to establish safety procedures for volunteers who solicit and collect donations on the roadside;
- (2) Urge the nonprofit organizations and community groups to include in their safety procedures provisions that require children under the age of eighteen to be closely supervised when participating in roadside activities;
- (3) Request the county police departments to offer recommendations to nonprofit organizations and community groups in the establishment of these safety procedures; and
- (4) Request the nonprofit organizations and community groups involved in roadside activities to conduct a self-assessment as to whether the solicitation of funds and other donations on the sides of roads and highways sends a positive message to the community.

Your Committee received testimony in support of this resolution from two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Many nonprofit organizations and community groups in the State conduct fundraisers and other activities on or near roads and highways. These fundraising activities often involve volunteers who stand on the roadside, soliciting and collecting funds or other donated goods. There are often children under the age of eighteen participating in these fundraising activities. The close proximity of the participants of these activities to moving vehicles creates a potential safety hazard, placing both pedestrians and motorists at risk.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 80 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1114 Transportation, International and Intergovernmental Affairs on S.R. No. 48**

The purpose of this measure is to:

- (1) Urge all nonprofit organizations and community groups involved in roadside activities to establish safety procedures for volunteers who solicit and collect donations on the roadside;
- (2) Urge the nonprofit organizations and community groups to include in their safety procedures provisions that require children under the age of eighteen to be closely supervised when participating in roadside activities;
- (3) Request the county police departments to offer recommendations to nonprofit organizations and community groups in the establishment of these safety procedures; and
- (4) Request the nonprofit organizations and community groups involved in roadside activities to conduct a self-assessment as to whether the solicitation of funds and other donations on the sides of roads and highways sends a positive message to the community.

Your Committee received testimony in support of this resolution from two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 48 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1115      Transportation, International and Intergovernmental Affairs on S.C.R. No. 127**

The purpose of this measure is to urge the President of the United States and the United States Congress to adopt the Declaration on the Rights of Indigenous Peoples (Declaration).

Your Committee received testimony in support of this resolution from the State Representative of the Fourth House District. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Declaration is a non-binding text that sets out the individual and collective rights of indigenous peoples, as well as their rights to culture, identity, language, employment, health, education, and other rights. On September 13, 2007, the United Nations General Assembly approved the Declaration with eleven members abstaining and four members voting no. The United States was among those four members voting against the Declaration.

The 2005 Legislature recognized the significance of indigenous peoples' rights by passing House Concurrent Resolution No. 195, H.D. 1, entitled "Adopting the United Nations Declaration on the Rights of Indigenous Peoples." The Legislature acknowledges the continued need to preserve and maintain the Hawaiian culture, to protect and promote the human rights of the *kanaka maoli*, the indigenous people of Hawaii, and to support the efforts of the *kanaka maoli* to pursue environmentally sustainable economic, social, and educational activities to ensure the survival of their culture.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 127 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1116      Transportation, International and Intergovernmental Affairs on S.R. No. 83**

The purpose of this measure is to urge the President of the United States and the United States Congress to adopt the Declaration on the Rights of Indigenous Peoples (Declaration).

Your Committee received testimony in support of this resolution from the State Representative of the Fourth House District. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Declaration is a non-binding text that sets out the individual and collective rights of indigenous peoples, as well as their rights to culture, identity, language, employment, health, education, and other rights. On September 13, 2007, the United Nations General Assembly approved the Declaration with eleven members abstaining and four members voting no. The United States was among those four members voting against the Declaration.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 83 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1117      Transportation, International and Intergovernmental Affairs on S.C.R. No. 109**

The purpose of this measure is to encourage the Department of Transportation to engage in and facilitate discussions with the City and County of Honolulu Department of Transportation Services, private developers, and other stakeholders to explore the possibility of establishing a ferry operation from the Hoakalei Resort and Marina to downtown Honolulu.

This measure also encourages the respective parties to request assistance from Hawaii's congressional delegation to identify possible funding sources for this ferry system.

Your Committee received testimony in support of this resolution from Gentry Homes, Limited and nine individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

In the 1970s, the vision of the City and County of Honolulu was the creation of a second city in Kapolei as a second urban core on Oahu to relieve congestion in east Oahu by distributing population growth westward. The growth of Kapolei and Ewa is expected to provide more than sixty-five thousand jobs by 2025, making this area a regional commercial center and attracting customers from all parts of Oahu.

In addition to the increasing number of jobs and homes, other new developments will also contribute to the traffic congestion experienced in the Ewa region, including the new University of Hawaii at West Oahu campus, a major super regional park, the Ko Olina Resort and Marina, Kalaeloa, a major deep draft harbor and industrial center at Campbell Industrial Park and Barber's Point, the Hoakalei Resort and Marina, the Salvation Army Kroc Center, and a planned film studio and supporting industrial complex. All of these new developments are anticipated to result in increased vehicular flow between the Ewa region and Honolulu.

Current and planned transportation improvements enhance the flow of vehicles within the Ewa-Kapolei-Makakilo-Kalaeloa corridor, but not the commute between the area and the primary urban center in downtown Honolulu. Common experience demonstrates that congested conditions exist for the Ewa region because of insufficient capacity on the corridors leading from the Ewa marina, up Fort Weaver Road to the H-1 interchange, and from the H-1 interchange to downtown Honolulu.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 109 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1118      Transportation, International and Intergovernmental Affairs on S.R. No. 68**

The purpose of this measure is to encourage the Department of Transportation to engage in and facilitate discussions with the City and County of Honolulu Department of Transportation Services, private developers, and other stakeholders to explore the possibility of establishing a ferry operation from the Hoakalei Resort and Marina to downtown Honolulu.

This measure also encourages the respective parties to request assistance from Hawaii's congressional delegation to identify possible funding sources for this ferry system.

Your Committee received testimony in support of this resolution from Gentry Homes, Limited and nine individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

In the 1970s, the vision of the City and County of Honolulu was the creation of a second city in Kapolei as a second urban core on Oahu to relieve congestion in east Oahu by distributing population growth westward. The growth of Kapolei and Ewa is expected to provide more than sixty-five thousand jobs by 2025, making this area a regional commercial center and attracting customers from all parts of Oahu.

In addition to the increasing number of jobs and homes, other new developments will also contribute to the traffic congestion experienced in the Ewa region, including the new University of Hawaii at West Oahu campus, a major super regional park, the Ko Olina Resort and Marina, Kalaeloa, a major deep draft harbor and industrial center at Campbell Industrial Park and Barber's Point, the Hoakalei Resort and Marina, the Salvation Army Kroc Center, and a planned film studio and supporting industrial complex. All of these new developments are anticipated to result in increased vehicular flow between the Ewa region and Honolulu.

Common experience demonstrates that congested conditions exist for the Ewa region because of insufficient capacity on the corridors leading from the Ewa marina, up Fort Weaver Road to the H-1 interchange, and from the H-1 interchange to downtown Honolulu.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 68 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Slom).

**SCRep. 1119      Transportation, International and Intergovernmental Affairs on S.C.R. No. 62**

The purpose of this measure is to make clear that vehicle owners with audible motor vehicle alarms consider disabling the audible feature or resetting the sensitivity of their alarms so that the wind and the vibrations of passing vehicles do not activate the alarms.

No testimony was submitted.

Your Committee has amended this measure by deleting its title and contents and inserting amended provisions of House Concurrent Resolution No. 158, which addresses the need for federal assistance in meeting costs incurred by the State as a result of the Compact of Free Association.

As amended, this measure:

- (1) Strongly urges the United States Department of the Interior to:
  - (A) Review the funding of the Compact Impact Assistance grant and to make every effort to increase the amount of direct assistance available to Hawai'i to offset costs incurred by the State due to the Compact of Free Association; and
  - (B) Identify and secure other forms of direct assistance to the State and the Compact of Free Association population in the United States, including grants from other sources and federal programs; and
- (2) Strongly urges the United States Congress to support federal legislation to amend the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 to allow Compact of Free Association migrants to once again receive federally funded financial and medical assistance.

Your Committee finds that migrants from Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau, are allowed to enter the State of Hawai'i under the Compact of Free Association. Many state agencies provide a broad range of

health and social services to migrants from the Compact of Free Association who have moved to Hawai'i. The cost to the State of providing these services continues to increase each year.

The federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 prevents needy persons from the Compact of Free Association nations from receiving federally funded financial and medical assistance. When that law went into effect in 1997, Hawai'i continued to provide equivalent services for the Compact of Free Association migrants using state funds.

The federal government must address the issue of additional federal support for the State to continue providing state services arising from the unique federally-created relationship the United States has with the Compact of Free Association nations.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 62, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 62, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1120      Transportation, International and Intergovernmental Affairs on S.R. No. 36**

The purpose of this measure is to make clear that vehicle owners with audible motor vehicle alarms consider disabling the audible feature or resetting the sensitivity of their alarms so that the wind and the vibrations of passing vehicles do not activate the alarms.

No testimony was submitted.

Your Committee has amended this measure by deleting its title and contents and inserting amended provisions of House Concurrent Resolution No. 158, which addresses the need for federal assistance in meeting costs incurred by the State as a result of the Compact of Free Association.

As amended, this measure:

- (1) Strongly urges the United States Department of the Interior to:
  - (A) Review the funding of the Compact Impact Assistance grant and to make every effort to increase the amount of direct assistance available to Hawai'i to offset costs incurred by the State due to the Compact of Free Association; and
  - (B) Identify and secure other forms of direct assistance to the State and the Compact of Free Association population in the United States, including grants from other sources and federal programs; and
- (2) Strongly urges the United States Congress to support federal legislation to amend the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 to allow Compact of Free Association migrants to once again receive federally funded financial and medical assistance.

Your Committee finds that migrants from Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau, are allowed to enter the State of Hawai'i under the Compact of Free Association. Many state agencies provide a broad range of health and social services to migrants from the Compact of Free Association who have moved to Hawai'i. The cost to the State of providing these services continues to increase each year.

The federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 prevents needy persons from the Compact of Free Association nations from receiving federally funded financial and medical assistance. When that law went into effect in 1997, Hawai'i continued to provide equivalent services for the Compact of Free Association migrants using state funds.

The federal government must address the issue of additional federal support for the State to continue providing state services arising from the unique federally-created relationship the United States has with the Compact of Free Association nations.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 36, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 36, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1121      Human Services on H.C.R. No. 5**

The purpose of this measure is to urge faith-based organizations to cooperate with each other to support foster families in Hawaii.

Testimony in support of this measure was submitted by three individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that foster families serve an important need in this State by providing children who have experienced family disruption or other difficult circumstances with stable and healthy homes. Your Committee finds that foster families should receive support and encouragement from all sectors of the community, including faith-based organizations.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 5, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1122 Human Services on H.C.R. No. 39**

The purpose of this measure is to recognize the month of May as “Foster Care Awareness Month” to educate the public about the various components of foster care, including foster parents, children, and families.

Testimony in support of this measure was submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee recognizes the significant impact of foster care on the physical, mental, and emotional development of foster children, and supports the designation of the month of May as “Foster Care Awareness Month” to promote greater public awareness of the foster care program.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 39, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 39, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1123 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1186**

The purpose of this measure is to eliminate the Hawaii Community Development Authority’s cash-in-lieu option for meeting reserved housing requirements, while retaining the option in cases of a fractional unit resulting from the percentage requirement calculation.

Testimony in support of this measure was submitted by eight individuals. Two state agencies and one private organization submitted testimony in opposition. Written testimony presented to the Committees may be reviewed on the Legislature’s website.

Your Committees support the implementation of policies that will result in the construction of new affordable housing units, or the retention of the existing supply throughout the State. This measure provides one means of doing so, and your Committees believe it should be viewed collectively with other incentives and alternatives being considered.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1186, H.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Takamine, Tsutsui, Hemmings).

**SCRep. 1124 Commerce and Consumer Protection on S.C.R. No. 35**

The purpose of this measure is to request that the Auditor perform a sunrise review of the regulation of athletic trainers.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the University of Hawaii, Hawaii Athletic Trainers Association, Hawaii Chapter of the American Physical Therapy Association, and the Occupational Therapy Association of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that athletic trainers are employed in medical settings, public and private secondary schools, institutes of higher education, and fitness centers. Your Committee finds that, due to the nature of the work performed by athletic trainers, some oversight of the profession is necessary to protect the public health, safety, and welfare. Your Committee further finds that although a resolution requesting that the State Auditor conduct a sunrise analysis was passed by the Legislature in 2005, that analysis has not yet been conducted. Finally, your Committee notes that athletic trainers themselves are perhaps the strongest proponents of regulation and oversight of this profession since there is currently nothing in Hawaii law to prohibit an unskilled, unqualified, or unethical individual from practicing athletic training in such a way that could harm individual clients and tarnish the reputation of the profession as a whole.

Your Committee has amended this measure by inserting the number of the Senate Bill to which this measure refers.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 35, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 35, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1125 (Joint) Commerce and Consumer Protection and Health on S.C.R. No. 26**

The purpose of this measure is to request that the Auditor assess the social and financial effects of requiring health insurance coverage for colonoscopy colorectal cancer screening.

Your Committees received testimony in support of this measure from the American Cancer Society and Kaiser Permanente. Written testimony presented to the Committees may be reviewed on the Legislature’s website.

Your Committees find that although colorectal cancer is the second leading cause of cancer deaths in the United States, it is also one of the most treatable forms of cancer when diagnosed early through available diagnostic techniques such as colonoscopy. Your

Committees find that colonoscopy is considered a safe and highly effective diagnostic technique that studies have shown to be more accurate and less invasive than other forms of screening. Your Committees further find that the cost of colonoscopy is far lower than the cost of treatment for colorectal cancer. Your Committees note that while section 23-51, Hawaii Revised Statutes, requires an assessment by the Auditor of the social and financial effects of proposed coverage before insurance coverage of specific diseases or health services may be mandated, the Legislature retains the right to enact laws to protect the general health, safety, and welfare of the State and its residents.

Your Committees have amended this measure by substituting the language of House Concurrent Resolution No. 109, a similar measure which has been previously approved by the Committee on Health.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 26, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 26, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 4 (Ihara, Nishihara, Sakamoto, Hemmings).

**SCRep. 1126 Commerce and Consumer Protection on S.C.R. No. 45**

The purpose of this measure is to request that the Auditor perform a sunrise analysis on professional employer organizations.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that professional employer organizations act as an outsourced human resource department for employers by providing personnel and payroll services and overseeing an employer's compliance with state and federal law, including benefits and workers' compensation issues. Your Committee finds that regulation of this industry will help to ensure that Hawaii's business community can continue to rely on professional employer organizations to provide high quality services. Hawaii is one of only fourteen states that does not currently regulate this industry. Your Committee notes that regulation and oversight of the professional employer organization industry has been requested by the industry itself, in order to maintain high standards and preserve the good business reputation of professional employment organizations that meet their ethical and legal obligations to their clients.

Your Committee has amended this measure by inserting the number of the Senate Bill to which this measure refers.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 45, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 45, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1127 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.C.R. No. 126**

The purpose of this measure is to express support for the electrification of energy efficient transportation systems in Hawaii by recognizing the necessity of developing an electric vehicle charging infrastructure and urging relevant stakeholders to collaborate on ways to expedite the adoption of electric vehicles in Hawaii.

Testimony in support of the measure was submitted by two private organizations. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that it is only a matter of time before electric vehicles become an important and integral component of Hawaii's transportation system. The State must be ready for this new form of ground transportation by developing an electric vehicle charging infrastructure.

Your Committees have amended this measure by:

- (1) Correcting the figure estimating the number of gallons of gasoline annually used by Hawaii drivers; and
- (2) Making technical, nonsubstantive amendments for style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 126, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 126, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Slom).

**SCRep. 1128 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.R. No. 82**

The purpose of this measure is to express support for the electrification of energy efficient transportation systems in Hawaii by recognizing the necessity of developing an electric vehicle charging infrastructure and urging relevant stakeholders to collaborate on ways to expedite the adoption of electric vehicles in Hawaii.

Testimony in support of the measure was submitted by two private organizations. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that it is only a matter of time before electric vehicles become an important and integral component of Hawaii's transportation system. The State must be ready for this new form of ground transportation by developing an electric vehicle charging infrastructure.

Your Committees have amended this measure by:

- (1) Correcting the figure estimating the number of gallons of gasoline annually used by Hawaii drivers; and
- (2) Making technical, nonsubstantive amendments for style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 82, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 82, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Slom).

**SCRep. 1129 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.C.R. No. 74**

The purpose of this measure is to request the President of the United States to propose and encourage the United Nations to hold a United Nations Climate Change Conference (UNCC Conference) in Hawaii in 2010.

Testimony in support of this measure was submitted by one private organization. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that over a decade ago, most countries joined an international treaty--the United Nations Framework Convention on Climate Change (Convention)--to begin to consider what can be done to reduce global warming and to cope with whatever temperature increases are inevitable. Smaller conferences are held throughout the year, culminating in a UNCC Conference in the last quarter of each year, such as the recent conference held in Poznan, Poland in December 2008. During these UNCC Conferences, the parties to the Convention meet to address Convention issues regarding climate change, such as adaptation, finance, technology, reducing emissions from deforestation and forest degradation, and disaster management. More of these Convention conferences are contemplated.

Your Committees find that Hawaii is a logical place to hold such a conference in 2012. Hawaii has the conference and visitor facilities necessary to easily accommodate an international conference of this size and magnitude. Additionally, a UNCC Conference would provide economic stimulus to Hawaii.

Your Committees have amended this measure by:

- (1) Updating the references to the UNCC Conference locations; and
- (2) Making technical, nonsubstantive changes for style and consistency purposes.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 74, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Slom).

**SCRep. 1130 (Joint) Energy and Environment and Transportation, International and Intergovernmental Affairs on S.R. No. 45**

The purpose of this measure is to request the President of the United States to propose and encourage the United Nations to hold a United Nations Climate Change Conference (UNCC Conference) in Hawaii in 2010.

Testimony in support of this measure was submitted by one private organization. Testimony in opposition to the measure was submitted by one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that over a decade ago, most countries joined an international treaty--the United Nations Framework Convention on Climate Change (Convention)--to begin to consider what can be done to reduce global warming and to cope with whatever temperature increases are inevitable. Smaller conferences are held throughout the year, culminating in a UNCC Conference in the last quarter of each year, such as the recent conference held in Poznan, Poland in December 2008. During these UNCC Conferences, the parties to the Convention meet to address Convention issues regarding climate change, such as adaptation, finance, technology, reducing emissions from deforestation and forest degradation, and disaster management. More of these Convention conferences are contemplated.

Your Committees find that Hawaii is a logical place to hold such a conference in 2012. Hawaii has the conference and visitor facilities necessary to easily accommodate an international conference of this size and magnitude. Additionally, a UNCC Conference would provide economic stimulus to Hawaii.

Your Committees have amended this measure by:

- (1) Updating the references to the UNCC Conference locations; and
- (2) Making technical, nonsubstantive changes for style and consistency purposes.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 45, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 45, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Slom).

**SCRep. 1131 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Public Safety and Military Affairs on S.C.R. No. 72**

The purpose of this measure is to urge the United States Department of Agriculture and the United States Department of Homeland Security to coordinate with the Department of Agriculture to prevent invasive species from entering the State of Hawaii.

Testimony in support of this measure was submitted by two state agencies and two organizations. Two public citizens supported the intent of this measure. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the United States Department of Agriculture and the United States Department of Homeland Security are responsible for inspecting international passenger and cargo arrivals. However, the federal quarantine laws are primarily designed to protect mainland agriculture and do not take into account the potential risks to Hawaii's crops or native habitat. It is essential that the federal inspection agencies collaborate and share information with Department of Agriculture officials to ensure the highest possible level of protection and the smooth movement of cargo into and around the State.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 72 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (English, Gabbard, Kokubun, Takamine).

**SCRep. 1132 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Public Safety and Military Affairs on S.R. No. 43**

The purpose of this measure is to urge the United States Department of Agriculture and the United States Department of Homeland Security to coordinate with the Department of Agriculture to prevent invasive species from entering the State of Hawaii.

Testimony in support of this measure was submitted by two state agencies and two organizations. Two public citizens supported the intent of this measure. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the United States Department of Agriculture and the United States Department of Homeland Security are responsible for inspecting international passenger and cargo arrivals. However, the federal quarantine laws are primarily designed to protect mainland agriculture and do not take into account the potential risks to Hawaii's crops or native habitat. It is essential that the federal inspection agencies collaborate and share information with Department of Agriculture officials to ensure the highest possible level of protection and the smooth movement of cargo into and around the State.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 43, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 43, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (English, Gabbard, Kokubun, Takamine).

**SCRep. 1133 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Higher Education on S.C.R. No. 73**

The purpose of this measure is to urge the Department of Land and Natural Resources and the University of Hawaii to convene meetings with stakeholders to address stewardship issues and affirm the State's commitment to a cooperative relationship with the varied members of the community interested in Mauna Kea and its unique spiritual, cultural, historical, and natural resources.

Testimony in support of this measure was submitted by one organization. One state agency and one organization provided comments. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the University of Hawaii and the Department of Land and Natural Resources have made some positive changes to protect Mauna Kea and the Mauna Kea Science Reserve, however, your Committees believe that much more remains to be done. The Follow-Up Audit of the Management of Mauna Kea and the Mauna Kea Science Reserve, Report No. 05-13, created pursuant to the 2005 Regular Session, Senate Concurrent Resolution No. 68, S.D. 1, H.D. 1, recommended among other things, that the University of Hawaii should revise and update planning documents, including the master plan and leases and subleases, to clearly assign roles and responsibilities for managing Mauna Kea and reflect stewardship matters resolved with the Department of Land and Natural Resources. Your Committees believe the recommendations of the Auditor have not been fully implemented by either the University of Hawaii or the Department of Land and Natural Resources.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 73 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 4 (Baker, Sakamoto, Taniguchi, Hemmings).

**SCRep. 1134 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Higher Education on S.R. No. 44**

The purpose of this measure is to urge the Department of Land and Natural Resources and the University of Hawaii to convene meetings with stakeholders to address stewardship issues and affirm the State's commitment to a cooperative relationship with the varied members of the community interested in Mauna Kea and its unique spiritual, cultural, historical, and natural resources.

Testimony in support of this measure was submitted by one organization. One state agency and one organization provided comments. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the University of Hawaii and the Department of Land and Natural Resources have made some positive changes to protect Mauna Kea and the Mauna Kea Science Reserve, however, your Committees believe that much more remains to be done. The Follow-Up Audit of the Management of Mauna Kea and the Mauna Kea Science Reserve, Report No. 05-13, created pursuant to the 2005 Regular Session, Senate Concurrent Resolution No. 68, S.D. 1, H.D. 1, recommended among other things, that the University of Hawaii should revise and update planning documents, including the master plan and leases and subleases, to clearly assign roles and responsibilities for managing Mauna Kea and reflect stewardship matters resolved with the Department of Land and Natural Resources. Your Committees believe the recommendations of the Auditor have not been fully implemented by either the University of Hawaii or the Department of Land and Natural Resources.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 44, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 44, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Baker, Sakamoto, Taniguchi, Hemmings).

**SCRep. 1135 Commerce and Consumer Protection on S.C.R. No. 53**

The purpose of this measure is to request that the Auditor conduct a sunrise review of real estate appraisal management companies.

Your Committee received testimony in support of this measure from the Hawai'i Association of Realtors. Testimony with comments on this measure was submitted by the Real Estate Commission and Hawaii Financial Services Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that appraisal management companies perform many important functions including appraisal review, quality control, market value dispute resolution, warranty administration, and record retention. Because of the importance of these functions and the rapid growth of the appraisal management industry in recent years, it is important that appraisal management companies be held to high standards of professionalism and ethical behavior. Your Committee further finds that the appraisal industry itself has been the strongest proponent of regulation, both in Hawaii and across the United States.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1136 Commerce and Consumer Protection on S.C.R. No. 61**

The purpose of this measure is to request that the Auditor perform a financial and management analysis on the State Boxing Commission.

Your Committee received testimony in support of this measure from two private citizens. Testimony in opposition to this measure was submitted by the State Boxing Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that serious allegations have been made concerning the Boxing Commission's alleged disregard for state law, state administrative rules, and the safety of both professional and amateur boxers. Although it is important to note that no formal proceedings or charges are currently pending against the Commission, because of the severity of the allegations against the Commission and the nature of the Commission's function as a regulatory body charged with providing safeguards to an inherently dangerous activity, an Auditor's analysis of the Commission's operations is prudent at this time. Your Committee notes that the Commission regulates amateur boxing, a sport in which many participants are children, teenagers, and young adults. Your Committee finds that an Auditor's financial and management analysis of the Boxing Commission is necessary to determine whether the Commission is acting in compliance with State law and in the best interests of professional and amateur boxers.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 61 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1137 (Joint) Commerce and Consumer Protection and Health on S.C.R. No. 25**

The purpose of this measure is to request that the Auditor assess the social and financial effects of requiring health insurers to provide parity of coverage for oral and intravenous chemotherapy.

Your Committees received testimony in support of this measure from the American Cancer Society, Hawaii Prostate Cancer Coalition, Nursing Advocates & Mentors, Inc., Asian American Network for Cancer Awareness Research and Training, Filipino American Citizens League, United Filipino Council of Hawaii, and Oahu Filipino Community Council. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that parity in coverage for oral and intravenous chemotherapy will give cancer patients and their doctors the option to tailor chemotherapy treatments to the needs of the individual patient. Your Committees find that this measure will reduce both the monetary and the nonmonetary costs for patients, many of whom spend up to one week of every month either in the hospital or traveling to and from the hospital to receive intravenous chemotherapy treatment. Finally, your Committees find that this measure will be especially beneficial to cancer patients who live in rural or underserved areas, who presently must travel to Honolulu in order to receive chemotherapy treatment.

Your Committees note that while section 23-51, Hawaii Revised Statutes, requires an assessment by the Auditor of the social and financial effects of proposed coverage before insurance coverage of specific diseases or health services may be mandated, the Legislature retains the right to enact laws to protect the general health, safety, and welfare of the State and its residents.

Your Committees further note that this measure is being advanced out of an abundance of caution because of the critical nature of this issue. Although your Committees have previously advanced a similar measure, S.B. No. 166, which the House of Representatives has scheduled for hearing, your Committees find that parity in chemotherapy coverage is so important that it is appropriate for this measure to move forward even though it may be duplicative.

Your Committees have amended this measure by inserting the correct number of the Senate Bill to which this measure refers.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 25, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 25, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 4 (Ihara, Nishihara, Sakamoto, Hemmings).

**SCRep. 1138 Human Services on H.C.R. No. 32**

The purpose of this measure is to support international White Ribbon Campaigns to end men's violence against women and to encourage the establishment of a White Ribbon Campaign organization in Hawaii.

Your Committee received testimony in support of this measure from the Hawaii State Coalition Against Domestic Violence and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that violence against women is epidemic in our society. Your Committee further finds that domestic violence will never be eradicated by placing the responsibility for avoiding violence on its victims alone. Rather, the responsibility for ending domestic violence should be placed on the perpetrators and potential perpetrators of violence. To this end, your Committee finds that it is essential to educate men and boys about violence against women and to encourage men and boys to make a personal commitment to never commit, condone, or remain silent about violence against women and girls. Your Committee finds that the White Ribbon Campaign is one way of making men and boys aware of their responsibilities to help end systemic violence against women and girls.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 32, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 32, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1139 Human Services on H.C.R. No. 46**

The purpose of this measure is to urge Congress to preserve funding and maintain programs, laws, regulations, and policies that assist victims of domestic violence.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and three individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that domestic violence continues to be a major problem in Hawaii and that funding should be preserved to maintain programs and develop and enforce laws and policies that assist victims of domestic violence.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 46, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 46, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1140 (Joint) Education and Housing and Higher Education on S.C.R. No. 188**

The purpose of this measure is to request the Governor to:

- (1) Accept the recommendations of the working group formed by Hawaii's Congressional Delegation to determine the most appropriate uses of State Fiscal Stabilization Fund moneys; and
- (2) Authorize the expenditure of State Fiscal Stabilization Fund moneys in accordance with the recommendations of the working group.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the recent Administration proposal regarding the use of the State Fiscal Stabilization Fund moneys that are intended for public education has generated considerable controversy and further added to the climate of fiscal uncertainty. Your Committees appreciate the difficulties the State is facing in resolving additional budget shortfalls for the current fiscal year. However, your Committees firmly believe that using State Fiscal Stabilization Fund education moneys to offset the deficit is not only shortsighted, it appears to be in direct conflict with the requirements of the federal legislation.

Your Committees understand that the Department of Education and the University of Hawaii have reached agreement on the use of the State Fiscal Stabilization Fund moneys and have specific recommendations regarding the appropriate use of these funds to support public education and Hawaii's students statewide.

Your Committees have amended this measure accordingly, by:

- (1) Adding the specific recommendations, as of March 31, 2009, by the State of Hawaii Department of Education and the University of Hawaii regarding the agreement on a two-part Proposal for State Fiscal Stabilization Funds (SFSF) American Recovery and Reinvestment Act of 2009 (ARRA); and
- (2) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 188, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 188, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Baker, Taniguchi, Tsutsui, Hemmings, Slom).

**SCRep. 1141 Health on S.C.R. No. 106**

The purpose of this measure is to request the Auditor to assess the social and financial effects of requiring health insurers to provide coverage for weight management and obesity prevention for children.

Your Committee received testimony in support of this measure from Kaiser Permanente, the American Cancer Society, the American Physical Therapy Association Hawaii Chapter, and the American Academy of Pediatrics.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that childhood obesity is one of Hawaii's most pressing health problems today. Mandating health insurance coverage for weight management and obesity prevention programs may substantially assist in reducing the number of children and adolescents whose health is compromised by obesity.

Your Committee further finds that section 23-51, Hawaii Revised Statutes, requires an Auditor's assessment as requested in this measure, before any legislative measure may be considered that mandates health insurance coverage for specific health services or specific diseases.

Your Committee has amended this measure by including language recommended by its proponents that clarifies the importance of providing health insurance coverage for preventive services for overweight children.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 106, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 106, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1142 Health on S.C.R. No. 163**

The purpose of this measure is to request the Legislative Reference Bureau to review the available literature on the health effects of long-term exposure to hazardous waste and submit a report of its findings to the Legislature.

Testimony in support of this measure was submitted by United Public Workers, AFSCME, Local 646, AFL-CIO and one concerned individual. The Legislative Reference Bureau commented on this measure.

Your Committee finds that refuse and wastewater workers that collect and treat hazardous waste over long periods of time are at risk for life-threatening health problems. On a daily basis, these workers handle various types of chemical and biological wastes that carry risks of serious long-term illness. Your Committee finds that measures should be taken to protect refuse and wastewater workers from the adverse health effects of long term exposure to hazardous waste. Accordingly, your Committee believes that a review of best practices for protecting workers from the biological, chemical, and accidental hazards of long-term exposure to hazardous wastes will provide a starting point for improving safety and working conditions.

Your Committee has amended this measure to focus the scope of the study on determining the best practices for protecting these workers from the health effects of long-term exposure to these wastes.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 163, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 163, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1143 Health on S.C.R. No. 170**

The purpose of this measure is to request the Hawaii State Legislature to convene a Hawaii Health Care Summit to develop a strategic and comprehensive plan for health care in Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Association of Health Plans, Hawaii Health Systems Corporation, Hawaii Health Information Exchange, Hawaii Primary Care Association, Kaiser Permanente, American Cancer Society, Hawaii Medical Association and the National Association of Social Workers. The Hawaii Medical Service Association submitted testimony supporting the measure with amendments.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is important to begin the process of developing an effective and comprehensive plan for sustainable health care in Hawaii.

Your Committee further finds that in moving forward, committee members who would like to contribute to the task force should be included in its membership, and pre-summit partitions should be established to ensure that the Hawaii Health Care Summit will be as productive as possible.

Your Committee has amended this measure by clarifying that a component of the financial crisis in the medical community is that reimbursements to hospitals and physicians from private insurers are under severe economic pressure to compensate for costs shifted from government health programs such as Medicare and Medicaid.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 170, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 170, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1144 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 78**

The purpose of this measure is to seek the Legislature's approval as required by section 171-53, Hawaii Revised Statutes, to issue a non-exclusive easement for submerged lands at Kaanapali, Maui for concrete block remnant purposes.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Napili Kai, Ltd. is planning to enlarge and improve its existing swimming pool, which requires a permit from the county. The County of Maui requires a shoreline certification as part of the Special Management Area Use Permit process. As a result of a land survey done for the shoreline certification, several encroachments to the adjacent state submerged lands were discovered, including a walkway, stairs, a shower station, and concrete pier block remnants, all of which were constructed in the 1950s. In a letter dated October 16, 2007, the Department of Land and Natural Resources noted that the removal of these nonconforming structures would not affect the beach resource. However, Napili Kai, Ltd. prefers to keep the area in its existing state. On September 26, 2008, the Board of Land and Natural Resources approved the direct issuance of a term, non-exclusive easement to Napili Kai, Ltd. for the use and maintenance of the existing improvements constructed, subject to certain terms and conditions.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution for the Board of Land and Natural Resources to lease state submerged lands.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 78 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1145 Human Services on S.C.R. No. 135**

The purpose of this measure is to request the Legislative Reference Bureau to conduct a study to determine what barriers exist to securing more community interpreting hours.

Two government agencies and a private individual provided testimony in support of this measure. A legislative agency offered comments. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that deaf and hard of hearing persons need sign language interpreters to meet their special communication needs that impact all areas of their lives. Their unique communication needs affect their language development, understanding of social situations, and their daily lives, including their budgeting, housing, and transportation needs. Your Committee further finds that the needs of deaf and hard of hearing people for sign language interpreters are not being met. The study requested by the measure will assist the State in determining whether there are barriers to ameliorating the shortage of interpreters, and identify possible solutions to address those barriers, if any.

Your Committee has amended this measure by:

- (1) Correcting references to the Kapiolani Community College Interpreter Education Program;
- (2) Amending the measure to reflect the opportunities provided by video relay services; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 135, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 135, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1146 Commerce and Consumer Protection on S.C.R. No. 168**

The purpose of this measure is to request that the Auditor assess the social and financial effects of requiring health insurers to offer coverage for hearing aids.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Disability and Communication Access Board, Hawaii Centers for Independent Living, Kaiser Permanente, and one private citizen. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the ability to use one's hearing to the greatest extent possible is essential to the daily lives of most individuals. Your Committee finds that a hearing aid enhances a person's ability to interact independently in the community but is cost-prohibitive to many individuals. At present, insurance coverage for hearing aids ranges from minimal to nonexistent. The State's second largest insurer does not provide any coverage at all for hearing aids and other insurers cover only a small portion of the actual cost. Your Committee finds that this is especially damaging to children with deafness or hearing loss, who periodically outgrow hearing aids and who miss vital early educational and linguistic development opportunities when they are not able to use their hearing to the fullest extent possible. Your Committee finds that requiring insurance coverage for hearing aids is essential to allow Hawaii residents with hearing-related disabilities to fully realize the potential of their abilities.

Your Committee notes that while section 23-51, Hawaii Revised Statutes, requires an assessment by the Auditor of the social and financial effects of proposed coverage before insurance coverage of specific diseases or health services may be mandated, the Legislature retains the right to enact laws to protect the general health, safety, and welfare of the State and its residents.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 168 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Hemmings).

**SCRep. 1147 Judiciary and Government Operations on S.C.R. No. 108**

The purpose of this measure is to request the Legislature to form a joint legislative procurement working group to evaluate the state procurement code and recommend improvements.

The joint legislative procurement working group is also requested to report any findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2010.

Your Committee received testimony in support of this measure from government entities and private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Hawaii Public Procurement Code, enacted by Act 8, Special Session Laws of 1993 and codified as chapter 103D, Hawaii Revised Statutes, and its accompanying administrative rules encompass a complex process for soliciting and awarding public contracts. Many of the complexities of the Hawaii Public Procurement Code result in needless delays in the awarding of contracts that often result in the failure to provide needed services and facilities to Hawaii's residents in a timely manner.

The Hawaii Public Procurement Code should be streamlined, where possible, to adapt to economic emergency situations, such as the current recession, that may require the speedy awarding of contracts financed by federal stimulus funds. At minimum, the Hawaii Public Procurement Code is in need of review to find efficiencies and improve the overall effectiveness of the procurement process.

Your Committee has amended this measure by:

- (1) Adding a Whereas and a Resolved clause to refer to the review by the joint legislative procurement working group of legislation proposed by the State Procurement Office for consideration in the 2010 Regular Session;
- (2) Adding to the joint legislative procurement working group a representative from each of the General Contractors Association of Hawaii and Subcontractors Association of Hawaii; and
- (3) Making a technical amendment to clarify the nature of participation by a representative of the Hawaii Procurement Institute.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 108, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 108, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Gabbard).

**SCRep. 1148      Judiciary and Government Operations on S.R. No. 66**

The purpose of this measure is to request the Legislature to form a joint legislative procurement working group to evaluate the state procurement code and recommend improvements.

The joint legislative procurement working group is also requested to report any findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2010.

Your Committee received testimony in support of this measure from government entities and private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Hawaii Public Procurement Code, enacted by Act 8, Special Session Laws of 1993 and codified as chapter 103D, Hawaii Revised Statutes, and its accompanying administrative rules encompass a complex process for soliciting and awarding public contracts. Many of the complexities of the Hawaii Public Procurement Code result in needless delays in the awarding of contracts that often result in the failure to provide needed services and facilities to Hawaii's residents in a timely manner.

The Hawaii Public Procurement Code should be streamlined, where possible, to adapt to economic emergency situations, such as the current recession, that may require the speedy awarding of contracts financed by federal stimulus funds. At minimum, the Hawaii Public Procurement Code is in need of review to find efficiencies and improve the overall effectiveness of the procurement process.

Your Committee has amended this measure by:

- (1) Adding a Whereas and a Resolved clause to refer to the review by the joint legislative procurement working group of legislation proposed by the State Procurement Office for consideration in the 2010 Regular Session;
- (2) Adding to the joint legislative procurement working group a representative from each of the General Contractors Association of Hawaii and Subcontractors Association of Hawaii; and

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 66, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 66, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Gabbard).

**SCRep. 1149      Labor on S.C.R. No. 131**

The purpose of this measure is to request a joint agency study on the impact of illegal immigration in Hawaii and a task force to determine investigation and enforcement actions to reduce the practice of hiring illegal or undocumented workers.

Testimony in support of this measure was submitted by three organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State's current economic situation calls for more prudent state spending and improved enforcement of existing laws. Your Committee recognizes this measure as a step toward preventing the hiring of undocumented workers, recovering funds owed to the State by companies that are found to hire undocumented workers, and preventing companies found to employ undocumented workers from doing business in the State.

Your Committee has amended this measure as follows:

- (1) By requesting the Department of Agriculture to participate in the joint study and the task force;
- (2) By requesting the Department of Labor and Industrial Relations (DLIR) to serve as the lead agency for both the joint study and the task force, and requesting that DLIR will be responsible for submitting a report of the findings and recommendations of the joint study and of the task force to the Legislature; and
- (3) By making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 131, as amended herein, and recommends that it be referred to the Committee on Judiciary and Government Operations, in the form attached hereto as S.C.R. No. 131, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1150      Labor on S.R. No. 86**

The purpose of this measure is to request a joint agency study on the impact of illegal immigration in Hawaii and a task force to determine investigation and enforcement actions to reduce the practice of hiring illegal or undocumented workers.

Testimony in support of this measure was submitted by three organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State's current economic situation calls for more prudent state spending and improved enforcement of existing laws. Your Committee recognizes this measure as a step toward preventing the hiring of undocumented workers,

recovering funds owed to the State by companies that are found to hire undocumented workers, and preventing companies found to employ undocumented workers from doing business in the State.

Your Committee has amended this measure as follows:

- (1) By requesting the Department of Agriculture to participate in the joint study and the task force;
- (2) By requesting the Department of Labor and Industrial Relations (DLIR) to serve as the lead agency for both the joint study and the task force, and requesting that DLIR will be responsible for submitting a report of the findings and recommendations of the joint study and of the task force to the Legislature; and
- (3) By making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 86, as amended herein, and recommends that it be referred to the Committee on Judiciary and Government Operations, in the form attached hereto as S.R. No. 86, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1151 Labor on S.C.R. No. 68**

The purpose of this measure is to request the State Auditor to conduct a management and performance audit of the Board of Trustees of the state Deferred Compensation Plan and plan administrators contracted by the Board.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current recession and instability in financial markets make it crucial for participants of the state Deferred Compensation Plan to be able to easily access information and assistance regarding their investment options, and finds that this measure takes appropriate actions in furtherance of these aims.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 68, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 68, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1152 Energy and Environment on S.C.R. No. 166**

The purpose of this measure is to request the Auditor to conduct a management audit of the administration and collection of the environmental response tax by the Department of Taxation.

Testimony in opposition to this measure was submitted by the Department of Taxation. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the tax bases for the environmental response tax and the liquid fuel license tax are not necessarily analogous—there are differences between events that “trigger” each tax, exemptions that may apply to only one tax, and differing timing of payments. Nonetheless, your Committee finds that the data signals that there is a possibility the environmental response tax has been over-reported or the liquid fuel license tax has been under-reported. In these difficult economic times, it is important to get a clear and accurate picture of tax revenues due and payable to the State.

Your Committee understands that a management audit of the Department of Taxation's administration and collection of the environmental response tax, as proposed in the measure as received, is unlikely to provide definitive answers to explain all of the discrepancies. A management audit would provide information regarding how collections are conducted, but not how liquid fuel producers are reporting information to the Department of Taxation, which is the crux of a majority of the discrepancies. This information may only be available from the liquid fuel producers themselves, rather than from the Department of Taxation.

Your Committee has amended this measure by:

- (1) Deleting the request that the Auditor conduct a management audit of the administration and collection of the environmental response tax, and substituting a request that the Department of Taxation conduct audits of those taxpayers that are required to voluntarily report information regarding the environmental response tax and the liquid fuel tax to determine their compliance in reporting such information;
- (2) Amending the title to reflect the measure's amended intent; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and accuracy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 166, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 1153 Energy and Environment on S.R. No. 115**

The purpose of this measure is to request the Auditor to conduct a management audit of the administration and collection of the environmental response tax by the Department of Taxation.

Testimony in opposition to this measure was submitted by the Department of Taxation. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the tax bases for the environmental response tax and the liquid fuel license tax are not necessarily analogous—there are differences between events that “trigger” each tax, exemptions that may apply to only one tax, and differing timing of payments. Nonetheless, your Committee finds that the data signals that there is a possibility the environmental response tax has been over-reported or the liquid fuel license tax has been under-reported. In these difficult economic times, it is important to get a clear and accurate picture of tax revenues due and payable to the State.

Your Committee understands that a management audit of the Department of Taxation's administration and collection of the environmental response tax, as proposed in the measure as received, is unlikely to provide definitive answers to explain all of the discrepancies. A management audit would provide information regarding how collections are conducted, but not how liquid fuel producers are reporting information to the Department of Taxation, which is the crux of a majority of the discrepancies. This information may only be available from the liquid fuel producers themselves, rather than from the Department of Taxation.

Your Committee has amended this measure by:

- (1) Deleting the request that the Auditor conduct a management audit of the administration and collection of the environmental response tax, and substituting a request that the Department of Taxation conduct audits of those taxpayers that are required to voluntarily report information regarding the environmental response tax and the liquid fuel tax to determine their compliance in reporting such information;
- (2) Amending the title to reflect the measure's amended intent; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and accuracy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 115, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 115, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 1154 Public Safety and Military Affairs on S.C.R. No. 185**

The purpose of this measure is to request the State Auditor to examine the rationale and management of the Hawaii Paroling Authority.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Paroling Authority has never had the State Auditor conduct a comprehensive audit on its operations and procedures. Your Committee also finds that an audit report from the State Auditor may provide recommendations that the Hawaii Paroling Authority can utilize and implement to may make their operations and procedures more cost efficient and effective.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 185, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 185, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1155 Public Safety and Military Affairs on S.R. No. 130**

The purpose of this measure is to request the State Auditor to examine the rationale and management of the Hawaii Paroling Authority.

Testimony in support of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Paroling Authority has never had the State Auditor conduct a comprehensive audit on its operations and procedures. Your Committee also finds that an audit report from the State Auditor may provide recommendations that the Hawaii Paroling Authority can utilize and implement to may make their operations and procedures more cost efficient and effective.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 130, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 130, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1156 (Joint) Higher Education, Water, Land, Agriculture and Hawaiian Affairs and Education and Housing on S.C.R. No. 121**

The purpose of this measure is to request the University of Hawaii, College of Tropical Agriculture and Human Resources to:

- (1) Convene a working group of stakeholders, in cooperation with the Department of Agriculture, Department of Education, and the Hawaii Farm Bureau Federation, to consider the feasibility of establishing a Farm to School program in Hawaii's public schools statewide; and
- (2) Report the findings and recommendations to the 2010 Legislature.

Testimony in support of this measure was submitted by the Department of Agriculture, Department of Education, Hawaii Farm Bureau Federation, Maui Farm Bureau, Hawaii Association of Independent Schools, and four individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the farm to school program promotes locally grown food in schools, educates students about food cultivation and healthy eating habits, and supports the local agricultural industry. In addition, your Committees find that this measure is in keeping with the State's initiatives to increase Hawaii's food self-sufficiency and decrease the import of foods from the current level of eighty-five per cent of all food consumed, to diversify the economy, to ensure a sustainable environment, and to strengthen communities.

Your Committees have amended this measure to add development of an appropriate farm to school policy statement to the tasks of the working group.

Your Committees also urge the College of Tropical Agriculture and Human Resources to include representatives from the Hawaii State Student Council, the Hawaii Secondary Student Conference, and the Hawaii Association of Independent Schools in the working group of stakeholders.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water, Land, Agriculture, and Hawaiian Affairs and Education and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 121, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 121, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 6 (Baker, Bunda, Fukunaga, Taniguchi, Tsutsui, Slom).

**SCRep. 1157 (Joint) Education and Housing and Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 87**

The purpose of this measure is to urge the Hawaii Housing Finance and Development Corporation to:

- (1) Convene a task force to review state and county affordable housing approval requirements and procedures;
- (2) Identify, in consultation with other state agencies, private developers, and nonprofit housing organizations, a core, standardized affordable housing approval procedure that each county can adopt; and
- (3) Report its findings and recommendations, including any proposed county or state legislation, to the 2010 Legislature.

Testimony in support of this measure was submitted by one individual. One state agency and one private organization submitted comments. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the information and recommendations that would be provided through this measure would assist in the development of affordable housing. Your Committees agree with concerns raised, however, that the development of a standardized approval procedure for the counties may not be feasible, given the vast differences in the four counties.

Your Committees have amended this measure by:

- (1) Deleting the second Whereas clause's language regarding the Demographia surveys;
- (2) Clarifying that the Corporation, with the assistance of the four counties, is requested to identify core affordable housing approval procedures that each county can adopt;
- (3) Including county agencies and county councils in the list of entities to be consulted; and
- (4) Adding the directors of the county housing agencies and chairs of the county councils to those receiving certified copies of the Concurrent Resolution.

As affirmed by the records of votes of the members of your Committees on Education and Housing and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 87, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 87, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 9. Noes, none. Excused, 3 (Bunda, Fukunaga, Tsutsui).

**SCRep. 1158 Commerce and Consumer Protection on S.C.R. No. 69**

The purpose of this measure is to request that the Auditor perform a sunrise analysis of the licensing of athletic trainers.

Prior to a hearing on this measure, your Committee circulated a proposed draft that deleted the title and contents of the measure as received by your Committee and inserted therefor provisions that encourage the United States Congress to enact legislation regulating

the sale and marketing of tobacco products. Although the original measure requesting a sunrise analysis of regulating the athletic trainer industry did have merit, that measure was duplicative of another measure, S.C.R. No. 35, which your Committee has advanced.

Your Committee received testimony in support of the proposed S.D. 1 of this measure from the American Cancer Society, the American Heart Association, the American Lung Association, and Coalition for a Tobacco-Free Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that as tobacco companies attempt to hold market share in the face of declining tobacco sales, some tobacco companies are targeting young people, especially young women, through marketing. Your Committee finds that some of the marketing initiatives, especially "purse packs" of ultra-slim cigarettes in a pastel-colored, lipstick-shaped package, show contempt for young women and their health by putting a pink gloss on a product that causes heart disease and lung cancer which are two of the leading causes of death for women in this country. Your Committee further finds that the Federal Cigarette Labeling and Advertising Act, 15 United States Code section 1334, preempts state action in regulating the marketing and packaging of tobacco products. Your Committee finds that this measure expresses both the intent of the Legislature that cigarette marketing must be regulated and deference to the federal government's role in regulating commerce and setting national health policy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 69, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 69, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1159 Health on S.C.R. No. 56**

The purpose of this measure is to prevent and eradicate cervical cancer by requesting the Department of Health to increase educational efforts regarding cervical cancer screening and awareness by both men and all women.

Your Committee received testimony in support of this measure from the American Cancer Society. The Department of Health submitted testimony supporting the intent of this measure.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that all women should be educated on the importance of regular examinations that screen for early detection of cervical cancer. Though the federal Food and Drug Administration has approved the first vaccine that prevents cervical cancer and other diseases in females with an efficacy rate of ninety-five to one-hundred per cent, early detection remains the best prevention of cervical cancer for women who have not had the vaccine.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1160 Health on S.C.R. No. 102**

The purpose of this measure is to ensure that any legislative effort to repair the healthcare system in Hawaii incorporates sustainable wellness programs that address the underlying causal factors associated with chronic disease.

Your Committee received testimony in support of this measure from the Department of Health, the Hawaii Primary Care Association, the Hawaii Government Employees Association, and Catholic Charities of Hawaii.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that continuing support to protect funding for primary prevention is important to ensuring the viability of sustainable wellness programs. These programs will reduce future health care costs by addressing the prevention of chronic disease and educating the public on the importance of healthy lifestyle changes.

Your Committee has amended this measure by making technical, nonsubstantive changes to the title and body for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 102, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 102, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1161 Health on S.C.R. No. 57**

The purpose of this measure is to educate the public on the proper cleaning of produce to mitigate the occurrence of rat lungworm disease.

Your Committee received testimony from the Department of Health supporting the intent of this measure with suggested amendments.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that is important to educate the public on the necessity of proper cleaning of raw produce. In addition, public education should be expanded to include all emerging and known pathogens and contaminants that may affect raw produce consumption.

Accordingly, your Committee has amended this measure by broadening the scope of the measure to include public education on the proper cleaning of produce regarding all emerging and known pathogens and contaminants that may affect raw produce consumption.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 57, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 57, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1162 Health on S.C.R. No. 77**

The purpose of this measure is to rename Maui Memorial Medical Center in honor of the late Representative Robert H. "Bob" Nakasone.

Your Committee received testimony in support of this measure from Senator Josh Green M.D., 3rd District.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Representative Nakasone championed the improvement of health care for the island of Maui and that without his work and persistence much health care advancement for the island of Maui would not have been realized. As such, your Committee finds that it is important to pay tribute to Representative Nakasone and his legacy by naming one of the Maui medical facilities in his honor.

Your Committee has amended this measure to allow for the exploration of other appropriate honors for Representative Nakasone, such as naming the new Heart, Brain, and Spine Center or the Maui Memorial Emergency Department in his honor.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 77, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 77, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1163 Health on S.C.R. No. 63**

The purpose of this measure is to assure that victims of rape and sexual assault receive the fullest and best care available by urging all hospital emergency rooms in the State to adhere to the accepted standard of care for victims of rape and sexual assault, including the administration of emergency contraception without delay and without adding insult to injury by requiring patient transfer to another institution.

This measure further provides that a private nonprofit institution would meet the standard for a religious employer exemption under Hawaii law regarding contraceptives only if:

- (1) The inculcation of religious values is the purpose of the entity;
- (2) The organization primarily employs persons who share its religious beliefs;
- (3) It is not staffed by public employees; and
- (4) The entity qualifies as a nonprofit organization under section 501(c)(3) of the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center, Planned Parenthood of Hawaii, Healthy Mothers Healthy Babies, Community Alliance on Prisons, and the Democratic Party of Hawaii. Testimony in opposition to this measure was submitted by the Hawaii Family Forum.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that, according to the American College of Obstetricians and Gynecologists, the American Medical Association, and the American College of Emergency Physicians, the accepted standard of care for victims of sexual assault includes the provision of emergency contraception.

Your Committee further finds that requiring all emergency rooms to provide victims of sexual assault with emergency contraception, if desired, is solely a health care issue. Providing for a religious exemption would indicate the State's endorsement of providing some victims of sexual assault with less than standard health care. All victims of sexual assault, regardless of which emergency room they receive care from, should be provided with the same accepted standards of care that include complete and accurate medical information and the option to receive emergency contraception.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the provision of emergency contraception is the accepted standard of care and is accepted as Catholic health care policy as published in *Ethical and Religious Directives for Catholic Health Care Services, Fourth Edition*; and
- (2) Removing the religious exemption.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 63, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 63, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1164 Health on S.R. No. 37**

The purpose of this measure is to assure that victims of rape and sexual assault receive the fullest and best care available by urging all hospital emergency rooms in the State to adhere to the accepted standard of care for victims of rape and sexual assault, including the administration of emergency contraception without delay and without adding insult to injury by requiring patient transfer to another institution.

This measure further provides that a private nonprofit institution would meet the standard for a religious employer exemption under Hawaii law regarding contraceptives only if:

- (1) The inculcation of religious values is the purpose of the entity;
- (2) The organization primarily employs persons who share its religious beliefs;
- (3) It is not staffed by public employees; and
- (4) The entity qualifies as a nonprofit organization under section 501(c)(3) of the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center, Planned Parenthood of Hawaii, Healthy Mothers Healthy Babies, Community Alliance on Prisons, and the Democratic Party of Hawaii. Testimony in opposition to this measure was submitted by the Hawaii Family Forum.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that, according to the American College of Obstetricians and Gynecologists, the American Medical Association, and the American College of Emergency Physicians, the accepted standard of care for victims of sexual assault includes the provision of emergency contraception.

Your Committee further finds that requiring all emergency rooms to provide victims of sexual assault with emergency contraception, if desired, is solely a health care issue. All victims of sexual assault, regardless of which emergency room they receive care from, should be provided with the same accepted standards of care that include complete and accurate medical information and the option to receive emergency contraception.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the provision of emergency contraception is the accepted standard of care and is accepted as Catholic health care policy as published in *Ethical and Religious Directives for Catholic Health Care Services, Fourth Edition*; and
- (2) Removing the religious exemption.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 37, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1165 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 38**

The purpose of this measure is to urge the Department of Agriculture to develop a plan to increase aid and assistance to organic farmers.

Testimony in support of this measure was submitted by one organization and four public citizens. One state agency, two organizations, and three public citizens supported the intent of this measure. Testimony in opposition was submitted by one organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

In the past, researchers developing solutions for agricultural problems in Hawaii, did so to the exclusion of organic farmers. For example, the Papaya Ringspot Virus problem was solved by developing a genetically engineered variety, which is not permitted under organic certification standards. Recently, this trend has started to change with the development of the Hawaii Organic Seed Program and the Hawaii Area-wide Fruit Fly control program, which is a solution compatible with organic certification. Your Committee finds that there are still many issues that need to be addressed for Hawaii's organic farmers and the Food, Conservation, and Energy Act of 2008, Public Law No. 110-246, commonly referred to as the 2008 Farm Bill, specifically set aside funds for organic farming issues. Your Committee believes that this measure will ensure that the Department of Agriculture commits sufficient attention to organic farming issues in Hawaii and employs all resources available in the 2008 Farm Bill.

Your Committee has amended this measure by:

- (1) Including the College of Tropical Agriculture and Human Resources of the University of Hawaii at Manoa as a stakeholder for organic farming; and
- (2) Making technical, nonsubstantive changes for style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 38, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 38, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1166 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 22**

The purpose of this measure is to urge the Department of Agriculture to develop a plan to increase aid and assistance to organic farmers.

Testimony in support of this measure was submitted by one organization and four public citizens. One state agency, two organizations, and three public citizens supported the intent of this measure. Testimony in opposition was submitted by one organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

In the past, researchers developing solutions for agricultural problems in Hawaii, did so to the exclusion of organic farmers. For example, the Papaya Ringspot Virus problem was solved by developing a genetically engineered variety, which is not permitted under organic certification standards. Recently, this trend has started to change with the development of the Hawaii Organic Seed Program and the Hawaii Area-wide Fruit Fly control program, which is a solution compatible with organic certification. Your Committee finds that there are still many issues that need to be addressed for Hawaii's organic farmers and the Food, Conservation, and Energy Act of 2008, Public Law No. 110-246, commonly referred to as the 2008 Farm Bill, specifically set aside funds for organic farming issues. - (2) Making technical, nonsubstantive changes for style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 22, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 22, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1167 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 37**

The purpose of this measure is to request the Department of Agriculture to develop a plan for a State Organic Program to unify the State's organic certification practices and programs.

Specifically, this measure requests that the State Organic Program:

- (1) Provide consistent interpretation and application of National Organic Program rules;
- (2) Actively collect and disseminate information on organic farms in the State;
- (3) Educate the general public about what organic certification means;
- (4) Become a primary point of contact for the public reporting and investigation of violations of the National Organic Program;
- (5) Provide local guidelines for and administer the National Organic Program; and
- (6) Establish an Office for Organic Advocacy that would be committed to building a reliable, safe, and responsive organic farming industry, including coordinating other state agencies for organic farming research and marketing.

Testimony in support of this measure was submitted by one organization and one public citizen. One state agency supported the intent of this measure. Testimony in opposition was submitted by two organizations and three public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Hawaii needs to increase and diversify its agricultural output. Importing produce, especially organic produce, increases the State's risk of importing invasive species. Additionally, organic farmers are the most regulated farmers, strict standards and inspection regulations established by the United States Department of Agriculture (USDA) National Organic Program are implemented by third-party certifiers, and if a dispute arises the only recourse is to the USDA. Fifteen other states have established state organic programs to provide local administration of the USDA National Organic Program. This measure will provide the necessary planning to ensure an effective and efficient State Organic Program may be established.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 37 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1168 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 21**

The purpose of this measure is to request the Department of Agriculture to develop a plan for a State Organic Program to unify the State's organic certification practices and programs.

Specifically, this measure requests that the State Organic Program:

- (1) Provide consistent interpretation and application of National Organic Program rules;
- (2) Actively collect and disseminate information on organic farms in the State;
- (3) Educate the general public about what organic certification means;
- (4) Become a primary point of contact for the public reporting and investigation of violations of the National Organic Program;
- (5) Provide local guidelines for and administer the National Organic Program; and
- (6) Establish an Office for Organic Advocacy that would be committed to building a reliable, safe, and responsive organic farming industry, including coordinating other state agencies for organic farming research and marketing.

Testimony in support of this measure was submitted by one organization and one public citizen. One state agency supported the intent of this measure. As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1169 Commerce and Consumer Protection on Gov. Msg. No. 492**

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF PUBLIC ACCOUNTANCY

G.M. No. 492 STEVEN R. OBERG CPA, for a term to expire 6-30-2010.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs, Hawaii Society of Certified Public Accountants, and one private citizen. Your Committee received a written statement and resume from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee has worked in the field of public accounting for thirty years, has been licensed as a certified public accountant for twenty-three years, and is currently the owner of a small accounting firm. Your Committee finds that, in addition to his professional experience, this nominee also has demonstrated a commitment to public service through active participation on the Kauai Community College Business Education Advisory Board. Your Committee notes that the Board of Public Accountancy has not had a representative from Kauai for at least the past decade. Your Committee finds that it is important that the Board's membership include representatives from neighbor islands and small businesses in order to fairly represent the profession of public accountancy in this State. Finally, your Committee finds that this nominee has been appointed based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1170 Commerce and Consumer Protection on Gov. Msg. No. 461**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF EXAMINERS IN NATUROPATHY

G.M. No. 461 KEVIN R. GIBSON, for a term to expire 6-30-2012.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A written statement and resume was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee to the Board of Examiners in Naturopathy has served as an interim member of the Board since May 2008. In that time, the nominee has been a reliable member who regularly attends Board meetings and uses his experience practicing naturopathic medicine to contribute to discussions. Your Committee notes that the nominee has expressed a strong interest in advancing the health and safety of the public by enforcing high standards in his profession. Your Committee further notes that the nominee has demonstrated a long-standing commitment to advancing public health and safety both as a licensed Naturopathic Physician and in his prior career in the field of environmental health and engineering science. Your

Committee finds that the nominee has been appointed based on his professional experience, knowledge, and commitment to public health and service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1171 Commerce and Consumer Protection on Gov. Msg. No. 462**

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF NURSING

G.M. No. 462 JAEDA R. ELVENIA, for a term to expire 6-30-2012.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs and one private citizen. A written statement and resume was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that this nominee to the Board of Nursing has twenty-five years of experience in the field of nursing, including experience in both clinical and management roles in clinical, home health, and academic settings. Your Committee finds that the nominee has a good understanding of the functions and responsibilities of the Board of Nursing and has demonstrated a commitment to maintaining high standards in the nursing profession. Your Committee notes that the nominee presently works as a clinical manager of a medical-surgical unit and labor and delivery department. In this position, the nominee has become familiar with state and federal regulations and regulatory agencies. Your Committee finds that the nominee has been appointed based on her professional experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1172 Commerce and Consumer Protection on Gov. Msg. Nos. 463 and 464**

Recommending that the Senate advise and consent to the nominations of the following:

REAL ESTATE COMMISSION

G.M. No. 463 WALTER L. HARVEY III, for a term to expire 6-30-2013; and

G.M. No. 464 STANLEY M. KURIYAMA, for a term to expire 6-30-2013.

Your Committee received testimony in support of the appointment of Walter L. Harvey, III from the Department of Commerce and Consumer Affairs and four private citizens. Your Committee received testimony in support of the reappointment of Stanley M. Kuriyama from the Department of Commerce and Consumer Affairs, the Real Estate Commission, and six private citizens. Written statements and resumes were received from Mr. Harvey and Mr. Kuriyama. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that Walter L. Harvey has twenty-seven years of experience in the real estate industry, both as a salesperson and a broker. This nominee has been active in professional organizations and served for seventeen years on the San Jose, California Board of Realtors. Your Committee finds that this nominee has a good understanding of the role of the Real Estate Commission in protecting consumers. In addition, this nominee holds several professional designations which reflect expertise and education in specialized areas such as resort and second property, senior real estate issues, diversity issues, and internet technology. Your Committee finds that this nominee has been appointed based on his experience, knowledge, and commitment to public service.

Your Committee further finds that Stanley M. Kuriyama has served on the Real Estate Commission for a total of twelve years, currently holds the position of Vice-Chair, and has previously held the position of Chair of the Condominium Review Committee. Your Committee finds that this nominee is always well-prepared for meetings and has demonstrated keen knowledge of the laws and rules affecting the Commission's work as well as of the Commission's regulatory function. Your Committee finds that this nominee is well respected by his colleagues on the Commission for his ability to articulate solutions to complex matters. Finally, your Committee finds that this nominee has been reappointed based on his experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1173 Commerce and Consumer Protection on Gov. Msg. No. 518**

Recommending that the Senate advise and consent to the nomination of the following:

ELEVATOR MECHANICS LICENSING BOARD

G.M. No. 518 RICHARD J.Y. LOUIS, for a term to expire 6-30-2012.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. Your Committee also received a written statement and resume from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Upon review of the testimony, your Committee finds that the nominee has an extensive background in engineering, including several aspects of construction and civil engineering. Your Committee finds that his professional experience gives the nominee a good understanding of the general issues that are involved in the field of elevator mechanics, and an appreciation of the importance of safety for both elevator workers and the general public. Your Committee notes that the nominee has demonstrated a commitment to public service through volunteer work with youth for more than fifteen years. Your Committee further finds that the nominee has been appointed based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Ihara, Sakamoto).

**SCRep. 1174 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 593**

The purpose of this measure is to authorize the Department of Land and Natural Resources (DLNR) to establish a temporary coastal construction moratorium along Kailua Beach to preserve the beach for the use and enjoyment of future generations.

Testimony in support of this measure was submitted by one state agency, two organizations, and three public citizens. One state agency supported the intent, and three public citizens provided comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the potential impacts of future coastal erosion and sea-level rise necessitate planning beyond current environmental parameters. Your Committee affirms the importance of proactively working toward a stewardship plan that helps to protect development from coastal hazards, conserves and protects the beaches, preserves recreational uses of coastal resources, and minimizes future impacts to the coastal ecosystem. Your Committee believes that coastal construction moratoriums can be an effective tool to stop seaward expansion on threatened beaches and that DLNR should conduct a statewide survey of beaches to determine where a moratorium is needed, subject to the availability of funding.

Your Committee further finds that an interim coastal construction moratorium for Kailua Beach, which is one of the few beaches that is fully urban, accreting, and entirely unarmored will minimize current and future impacts of shoreline erosion.

Your Committee has amended this measure by:

- (1) Expanding the scope of DLNR's authorization to establish coastal construction moratoriums from only Kailua Beach to include any beach in the State which meets the specified conditions;
- (2) Requiring DLNR to establish an interim coastal construction moratorium for Kailua Beach upon the Board of Land and Natural Resources finding specified conditions;
- (3) Amending the purpose section to reflect these changes;
- (4) Removing the sunset date, and changing the effective date to July 1, 2009;
- (5) Inserting a severability clause; and
- (6) Making technical, nonsubstantive changes for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 593, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 593, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Hemmings).

**SCRep. 1175 (Joint) Water, Land, Agriculture and Hawaiian Affairs and Economic Development and Technology on H.B. No. 1141**

The purpose of this measure is to authorize government personnel conducting operations approved by the Department of Land and Natural Resources (DLNR) and film permit holders involved in film production conducting operations approved by DLNR to operate thrill crafts in non-designated areas, and require thrill craft involved in film production to be assessed the same fees as boats and vessels.

Testimony in support of this measure was submitted by two state agencies, one county agency, four organizations, and seven public citizens. Testimony in opposition was submitted by one neighborhood board and four public citizens. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that thrill craft are only permitted in designated areas. However, thrill craft have proven to be an effective tool for monitoring natural resources and providing public safety. Jet skis, for example, are able to access areas that boats are unable to

operate in, due to jet ski's minimal draft and jet drive systems. This measure will permit government personnel conducting operations approved by DLNR to operate thrill craft in non-designated areas, thus allowing DLNR staff to access shallow nearshore areas to monitor the effect of the newly implemented ban on the use of lay gill nets around Maui, conduct shallow water fish and habitat surveys, assess and survey opihī populations, and map water quality using Geographic Information System linked instruments.

Your Committees further find that the use of thrill craft for film production operations is limited to water safety usage in designated areas. This measure would permit the use of thrill craft in non-designated areas approved by DLNR for water safety, transport of cast and crew members, and camera positioning. Hawaii has a global reputation for pristine waters and world class surf, which attracts film productions. Many of the top water safety experts in the film industry are from Hawaii. Film productions are temporary, and stimulate the economy by providing well paying jobs and positive exposure for the State.

Your Committees have amended this measure by:

- (1) Removing the fee assessment, which can be assessed through the film permit process authorized by the Memorandum of Agreement between DLNR and the Department of Business, Economic Development, and Tourism;
- (2) Inserting a sunset date of June 30, 2014 for the authorization of film permit holders involved in film production to operate thrill craft; and
- (3) Requiring that DLNR and the Hawaii Film Office report to the Legislature annually on the implementation and use by film permit holders of thrill craft pursuant to this measure.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1141, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1141, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Bunda, Kokubun, Hemmings).

**SCRep. 1176 Ways and Means on Gov. Msg. No. 372**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 4TH TAXATION DISTRICT (KAUA'I)

G.M. No. 372 JOSE R. DIOGO, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statements submitted by the nominee and finds that Jose R. Diogo possesses the requisite qualifications to be nominated to the Board of Taxation Review for the 4th Taxation District.

The Department of Taxation, Mayor of the County of Kauai, and three individuals submitted written testimony supporting the nomination of Jose R. Diogo. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Diogo is a real estate appraiser who has been licensed by the State for more than fifteen years. He currently owns his own real estate appraisal business. Mr. Diogo has served three terms on the Board of Taxation Review for the 4th Taxation District and continues to contribute to, and actively participate in, Board deliberations. Mr. Diogo's knowledge in state tax law and his commitment to the Board of Taxation will ensure that tax issues presented to the Board are properly and expeditiously handled.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Hee, Kokubun, Hemmings).

**SCRep. 1177 Ways and Means on Gov. Msg. No. 373**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 2ND TAXATION DISTRICT (MAUI)

G.M. No. 373 RONALD A. KAWAHARA, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee and finds Ronald A. Kawahara to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 2nd Taxation District.

Testimony in support of the nomination of Ronald A. Kawahara was received from the Department of Taxation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ronald A. Kawahara is a Certified Public Accountant, licensed in Hawaii in 1974, and has served as President of the public accounting firm of Ronald A. Kawahara & Co., CPA's, Inc. for nearly forty years. Mr. Kawahara is also a licensed Certified Valuation Analyst, Certified Property Manager, Professional Community Association Manager, and Real Estate Broker. Mr. Kawahara possesses a Bachelor of Business Administration degree from the University of Hawaii at Manoa. He is active in the tax community, having been a member of the American Institute of Certified Public Accountants, the Hawaii Society of Certified Public Accountants, and the Hawaii Association of Public Accountants. Mr. Kawahara's nomination is for a reappointment to the Board of Taxation Review, and he currently serves as the Chairperson of the Board.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Hee, Kokubun, Hemmings).

**SCRep. 1178 Ways and Means on Gov. Msg. No. 374**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 1ST TAXATION DISTRICT (OAHU)

G.M. No. 374 MARIA J. LOWDER, for a term to expire 6-30-2013.

Your Committee reviewed the personal statement, resume, and application submitted by the nominee and finds Maria J. Lowder to possess the requisite qualifications to be nominated to the Board of Taxation Review for the 1st Taxation District.

Testimony in support of the nomination of Maria J. Lowder was submitted by the Department of Taxation and three individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Maria J. Lowder holds a Bachelor of Arts degree from the University of California at Los Angeles and a Master's degree in Business Administration from Pepperdine University. Ms. Lowder is a Certified Public Accountant licensed in Hawaii. She has had her own firm for over twenty nine years and specializes in taxation issues. Ms. Lowder has been a member of the Board of Taxation Review since 2002 and is the current chair of the Board. She is knowledgeable in Hawaii tax law and Board of Taxation Review procedures. Furthermore, Ms. Lowder is an effective leader who conducts Board of Taxation Review hearings and renders rulings and decisions in a fair and impartial manner.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (Galuteria, Hee, Kokubun, Hemmings).

**SCRep. 1179 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 515**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF AGRICULTURE

G.M. No. 515 CLARK S. HASHIMOTO, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Clark S. Hashimoto to have the necessary qualifications to be nominated to the Board of Agriculture.

Testimony in support of the nomination of Clark S. Hashimoto was submitted by one state agency, one county agency, two organizations, and nine individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Hashimoto earned a Bachelor of Science in Agriculture Business Management from California Polytechnic State University, San Luis Obispo. He is currently an Agriculture Specialist for the County of Maui's Office of Economic Development. Prior to his current position, Mr. Hashimoto worked for twenty-eight years as a County Extension Agent and County Administrator for the University of Hawaii's College of Tropical Agriculture and Human Resources, three years as a full-time persimmon farmer, and two years as an Agriculturalist with the Hawaiian Sugar Planters Association.

In addition to building extensive work experience in agriculture, Mr. Hashimoto has also served as a Board member of the Maui County Farm Bureau and Board of Water Supply. He is a current member of the Makawao Hongwanji Mission and has been a youth baseball coach for over twenty years. He has worked hard to build his family's persimmon business, increasing production, expanding the marketing of products to Oahu, and selling a broader range of products. Mr. Hashimoto is committed to educating the youth on agriculture and food, which is just one of the reasons he is well-respected, especially within the Maui agricultural community.

Mr. Hashimoto offers a unique perspective with significant experience in the private and public sectors, depth of knowledge and experience in agriculture, and solid character, all of which make him an excellent candidate for the Board of Agriculture.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Fukunaga, Hemmings).

**SCRep. 1180 Labor on S.C.R. No. 64**

The purpose of this measure is to request each jurisdiction within the State to review the assignment of classes to pay ranges at least once every five years, pursuant to chapter 89, Hawaii Revised Statutes, to ensure competitive and equitable compensation for civil service employees.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by three state agencies and three county agencies. Comments were submitted by one county agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure supports the merit principle of equal pay for equal work between classes within the same bargaining unit, pursuant to section 76-1, Hawaii Revised Statutes, thereby promoting fair, competitive, and equitable compensation for civil service employees.

Your Committee has amended this measure by requiring that a copy of each repricing review be:

- (1) Submitted to the appropriate bargaining units to which the repricing reviews pertain; and
- (2) Made available online.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 64, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 64, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1181 Labor on S.R. No. 38**

The purpose of this measure is to request each jurisdiction within the State to review the assignment of classes to pay ranges at least once every five years, pursuant to chapter 89, Hawaii Revised Statutes, to ensure competitive and equitable compensation for civil service employees.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by three state agencies and three county agencies. Comments were submitted by one county agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure supports the merit principle of equal pay for equal work between classes within the same bargaining unit, pursuant to section 76-1, Hawaii Revised Statutes, thereby promoting fair, competitive, and equitable compensation for civil service employees.

Your Committee has amended this measure by requiring that a copy of each repricing review be:

- (1) Submitted to the appropriate bargaining units to which the repricing reviews pertain; and
- (2) Made available online.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 38, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 38, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1182 Labor on S.C.R. No. 67**

The purpose of this measure is to request the House and Senate Committees on Labor to conduct joint hearings to assess the performance of the Board of Trustees of the state Deferred Compensation Plan and plan administrators, and to recommend appropriate means to resolve complaints by Plan members.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current recession and instability in financial markets make it crucial for participants of the state Deferred Compensation Plan to be able to easily access information and assistance regarding their investment options.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 67, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 67, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1183 Labor on S.R. No. 41**

The purpose of this measure is to request the House and Senate Committees on Labor to conduct joint hearings to assess the performance of the Board of Trustees of the state Deferred Compensation Plan and plan administrators, and to recommend appropriate means to resolve complaints by Plan members.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the current recession and instability in financial markets make it crucial for participants of the state Deferred Compensation Plan to be able to easily access information and assistance regarding their investment options.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 41, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 41, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1184 Commerce and Consumer Protection on H.B. No. 591**

The purpose of this measure is to authorize and encourage the establishment of preferential rates for renewable energy produced in conjunction with agricultural activities.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation, Hawaii Crop Improvement Association, and Alexander & Baldwin, Inc. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs. Testimony in opposition to this measure was received from the Public Utilities Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will assist the State in achieving its goals of increased energy self-sufficiency and increased agricultural sustainability. Your Committee further finds that preferential rates for electrical energy produced in conjunction with agricultural activities will support the long-term viability of both renewable energy production and sustainable agriculture.

Your Committee has amended this measure by:

- (1) Amending section one to clarify the definition of renewable energy produced in conjunction with agricultural activities; and
- (2) Making technical, substantive changes for the purpose of clarity and accuracy in its language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 591, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 591, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1185 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1436**

The purpose of this measure is to amend the permitted uses of land within the agricultural district with soil classifications of A or B to include agricultural education programs conducted on a farming operation.

Testimony in support of this measure was submitted by two state agencies, two organizations, and two public citizens. One county agency and one organization submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the law presently does not clearly authorize a farmer to provide educational programs within state agricultural districts, and the only option is to pursue a special use permit at either the county or state level. Farm educational programs encourage career paths in agriculture, raise public awareness, and increase demand for locally produced agricultural products. On-farm educational programs connect consumers to farming and farmers. Clarifying that educational programs are permitted in state agricultural districts will eliminate the need for the costly and time consuming process of applying for a special use permit and ensure that farmers can include planned educational facilities as part of their agricultural lease terms.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1436, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Hemmings).

**SCRep. 1186 Energy and Environment on S.C.R. No. 89**

The purpose of this measure is to request that the Department of Health's Clean Water Branch and Solid and Hazardous Waste Branch, the Honolulu Police Department, and the City and County of Honolulu's Departments of Environmental Services and Planning and Permitting investigate illegal dumping and illegal structures along Laumaile Street in Kalihi and to coordinate the cleanup, pollution prevention, and the enforcement of pollution, anti-dumping, and other applicable laws in that area.

Testimony in support of this measure was submitted by one state department and two individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that there are ongoing challenges in this area, due to actions by residents and others. These challenges are compounded by the limited resources of state and county agencies that are needed to monitor this area to ensure compliance with federal and state laws and county ordinances. While it appears that community groups and government agencies have separately attempted to address the problems in this area, a more effective strategy may be to remedy these issues and other associated problems through a combined effort among the Department of Health's Clean Water Branch and Solid and Hazardous Waste Branch, the

Honolulu Police Department, and the City and County of Honolulu's Departments of Environmental Services and Planning and Permitting.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 89, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 89, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 1187 Energy and Environment on S.R. No. 55**

The purpose of this measure is to request that the Department of Health's Clean Water Branch and Solid and Hazardous Waste Branch, the Honolulu Police Department, and the City and County of Honolulu's Departments of Environmental Services and Planning and Permitting investigate illegal dumping and illegal structures along Laumaile Street in Kalihi and to coordinate the cleanup, pollution prevention, and the enforcement of pollution, anti-dumping, and other applicable laws in that area.

Testimony in support of this measure was submitted by one state department. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that there are ongoing challenges in this area, due to actions by residents and others. These challenges are compounded by the limited resources of state and county agencies that are needed to monitor this area to ensure compliance with federal and state laws and county ordinances. While it appears that community groups and government agencies have separately attempted to address the problems in this area, a more effective strategy may be to remedy these issues and other associated problems through a combined effort among the Department of Health's Clean Water Branch and Solid and Hazardous Waste Branch, the Honolulu Police Department, and the City and County of Honolulu's Departments of Environmental Services and Planning and Permitting.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 55, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 55, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 1188 Commerce and Consumer Protection on H.B. No. 1070**

The purpose of this measure is to update the Code of Financial Institutions to address temporary office relocations and to place prudent limits on certain kinds of investments by financial institutions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Testimony with comments was received from Hawaii Bankers Association and Hawaii Financial Services Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that it is essential for the Code of Financial Institutions to remain up to date, especially in the current economic environment. The current recession and the federal government's economic stimulus policy will affect the operations of financial institutions. Hawaii's administrative and regulatory structure must remain responsive to changing market conditions and federal regulations.

Your Committee has amended this measure by:

- (1) Providing that written notice to the Commissioner of Financial Institutions of a temporary branch closure or relocation is not required if the financial institution reopens the branch within two business days;
- (2) Providing that a bank or savings bank may invest in certain debt obligations of the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and the Federal Home Loan Banks without limits;
- (3) Providing that a bank or savings bank may invest in securities such as preferred stock of the Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association that are not debt obligations, subject to a limit of twenty per cent of the bank or savings bank's capital and surplus;
- (4) Providing that a bank or savings bank may invest in certain securities issued by a public-private investment fund established in connection with the Legacy Loans Program and Legacy Securities Program of the United States Treasury and Federal Deposit Insurance Corporation subject to a limit of five per cent of the bank or saving bank's capital and surplus; and
- (5) Deferring its effective date.

Your Committee is aware that the amended investment provisions are subject to continued discussion among the stakeholders to provide for avenues of safe and prudent investments consistent with the desirable goal of achieving reasonable returns to financial institutions. Your Committee has included these provisions at this time in order to address these issues in conference committee. Your Committee notes that the amended provision relating to public-private investment funds is a response to a program announced by the United States Treasury and Federal Deposit Insurance Corporation on March 23, 2009 to unfreeze the credit market by structuring a market for the sale of certain loans to private investors with the assistance of the federal government. While stakeholders are currently seeking more information on this program, your Committee finds that it is prudent at this time to provide potential enabling

authorization for banks and savings banks to participate as investors in the program and to address this issue more concretely in conference committee.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1070, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1189 (Joint) Health and Education and Housing on H.B. No. 1538**

The purpose of this measure is to ensure the health and safety of public schools by requiring the Department of Health to establish guidelines and specifications for environmentally-sensitive cleaning and maintenance products for use in all public school facilities.

Your Committees received testimony in support of this measure from the Department of Education and the Sierra Club. Your Committees received testimony in opposition to this measure from the Department of Health and The Consumer Specialty Products Association. The American Chemistry Council submitted comments on this measure.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that children are vulnerable to and may be severely affected by exposure to chemicals, hazardous waste, and other environmental hazards. Children, teachers, janitors, and other staff members spend a significant amount of time inside school buildings and are continuously exposed to chemicals from cleaners, waxes, deodorizers, and other maintenance products.

Your Committees further find that Green Seal is an independent, internationally recognized, non-profit organization that evaluates and promotes the use of environmentally responsible products and services. Several states, including New York, Maine, and Illinois, have implemented the Green Seal program in the purchase of environmentally-safe products in public schools.

Your Committees have amended this measure by:

- (1) Requiring the Department of Education to require that all public school facilities give first preference, where feasible, to the purchase and use of environmentally-sensitive cleaning and maintenance products that have been approved by the Green Seal program for use in public school facilities; and
- (2) Requiring the Department of Health to maintain a list of products that have been approved by the Green Seal program for public school facilities to use as a first preference guideline when purchasing and using environmentally-sensitive cleaning and maintenance products; provided that the department may add or remove any product from the list as deemed necessary by the director.

As affirmed by the records of votes of the members of your Committees on Health and Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1538, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1538, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1190 (Joint/Majority) Health and Energy and Environment on H.B. No. 834**

The purpose of this measure is to revise certain state water quality standards for inland and marine waters on an interim basis to conform to levels recommended by the State of Hawaii and United States Environmental Protection Agency, until the state Department of Health proposes, and the United States Environmental Protection Agency approves, standards for the pollutants and indicator organism identified in this measure, pursuant to the review of state water quality standards mandated under Section 303(c) of the Federal Water Pollution Control Act of 1972, as amended.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of Environmental Services, the American Public Workers Association, and the Hawaii Water Environment Association. The Department of Health submitted testimony supporting the measure with amendments. Testimony in opposition to this measure was submitted by the Sierra Club, the Dowling Company, Inc., Hawaii's Thousand Friends, and nineteen individuals.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the United States Environmental Protection Agency recently denied the City and County of Honolulu's applications to renew permits under Section 301(h) of the Federal Clean Water Act for both wastewater treatment plants located in Honolulu.

Therefore, your Committees find that it is necessary to conform the State's water quality standards for toxic pollutants to the national criteria currently recommended by the Environmental Protection Agency. In addition, the bacteria indicators for recreational waters should be consistent with Environmental Protection Agency standards. The adoption of these standards is important to the State's economic and social development and necessary to protect our natural resources.

Your Committees have adopted the Department of Health's recommendations and amended this measure by:

- (1) Replacing "chromium IV" with "chromium VI" in section 2 (a)(1) of the measure;
- (2) Inserting a table of numeric standards for toxic pollutants applicable to all waters that fully incorporates the water quality standards adopted by the State pursuant to subsections (a) and (b) and the relevant provisions of chapter 11-54, Hawaii Administrative Rules, that are not repealed or deemed inconsistent with this Act so that these standards remain in effect; and

- (3) Clarifying that the freshwater standards shall apply where the dissolved inorganic ion concentration is less than 0.5 parts per thousand and the saltwater standards shall apply above 0.5 parts per thousand, values for metals refer to the dissolved fraction, and that all values are expressed in micrograms per liter.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 834, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 834, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Ayes with Reservations, 1 (Hooser). Noes, 1 (Green). Excused, 3 (Espero, Ihara, Hemmings).

**SCRep. 1191      Judiciary and Government Operations on H.B. No. 1212**

The purpose of this measure is to protect from public disclosure certain information compiled as part of an inquiry into an individual's fitness to be granted or to retain a professional or vocational license.

Under this measure, records of complaints and their dispositions would not be disclosed.

Your Committee received testimony in support of and in opposition to this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Section 92F-12, Hawaii Revised Statutes, generally requires government records to be made available for public inspection. Section 92F-13(1), Hawaii Revised Statutes, provides an exception for "government records which, if disclosed, would constitute a clearly unwarranted invasion of personal privacy." Where "the public interest in disclosure outweighs the privacy interest of the individual," section 92F-14(a), Hawaii Revised Statutes, holds that disclosure is not a "clearly unwarranted invasion of personal privacy."

According to section 92F-14(b), Hawaii Revised Statutes, "examples of information in which the individual has a significant privacy interest," include "information compiled as part of an inquiry into an individual's fitness to be granted or to retain a license," except for, among other things, "the record of any proceeding resulting in discipline of a licensee and the grounds for discipline" and "the record of complaints including all dispositions." This measure deletes the latter exception.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Inserting a sunset of July 1, 2014, in the interests of reviewing the measure again to evaluate its implementation.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1212, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1212, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Bunda, Takamine).

**SCRep. 1192      (Joint) Labor and Human Services on H.B. No. 332**

The purpose of this measure is to establish eligibility for unemployment insurance for persons separated from employment as a result of domestic or sexual violence.

While the original purpose of this measure is important, your Committees find that as a result of the current economic recession, businesses in Hawaii are facing unprecedented challenges that will likely result in some companies being sold. To minimize detrimental effects to the State's economy and its citizens, steps must be taken now to promote seamless transfers with minimum disruption to business productivity and employment security. Accordingly, your Committees replaced the contents of this measure with new language establishing job security and other requirements upon the divestiture of a covered business establishment.

Testimony in support of the proposed draft was submitted by two organizations. Testimony in opposition to the proposed the proposed draft was submitted by one state agency and six organizations. Written testimony presented to the Committees may be reviewed on the Legislature's website.

As amended by your Committees, this measure:

- (1) Establishes worker retention requirements and consequences for violations of these requirements;
- (2) Clarifies when a successor employer may retain less than one hundred per cent of the former employer's incumbent employees;
- (3) Clarifies that the measure shall not be construed to abrogate an employer's right to manage the employer's employees; and
- (4) Has an effective date of July 1, 2050, to promote further discussion of this measure.

In response to express concern regarding potential unintended consequences of the proposed draft, your Committees note that the proposed draft does not amend the definition of "covered establishment" in section 394B-2, Hawaii Revised Statutes, thereby limiting the industrial, commercial, and other business entities subject to the requirements of this proposed draft to entities with fifty or more employees.

As affirmed by the records of votes of the members of your Committees on Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 332, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 332, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Ayes with Reservations, 1 (Ihara). Noes, none. Excused, 3 (Bunda, Hemmings, Slom).

**SCRep. 1193      Ways and Means on H.B. No. 34**

The purpose of this measure is to place an overall limit on the total amount of general obligation bonds that may be issued for the capital improvement projects in the executive and judiciary budget acts.

This bill also provides a declaration of findings with respect to those authorizations as mandated by the Hawaii State Constitution.

Testimony in support of the measure was submitted by one government agency. The written testimony may be reviewed on the Legislature's website.

Your Committee finds that the declaration of findings and the bond authorization in this bill are necessary to ensure that the total amount of general obligation bonds authorized or outstanding will not cause the State's constitutionally-imposed debt limit to be exceeded.

Your Committee has amended this measure to facilitate further discussion of the measure by:

- (1) Setting a total \$1 limit on the issuance of general obligation bonds;
- (2) Inserting the bill numbers for the General Appropriations Act of 2009 and the Judiciary Appropriations Act of 2009; and
- (3) Changing the effective date to July 1, 2090.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 34, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 34, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Hemmings).

**SCRep. 1194      Ways and Means on H.B. No. 35**

The purpose of this measure is to provide the general income tax credit under Article VII, section 6 of the Hawaii Constitution.

Specifically, this measure fulfills the requirement of Article VII, section 6, of the Hawaii Constitution that the Legislature provides a tax credit or tax refund when the state general fund balance, at the close of each of two successive fiscal years, exceeds five per cent of the general fund revenues for each of the two fiscal years.

One state agency provided testimony that supported the intent of this measure one private organization provided comments. Written testimony may be reviewed on the Legislature's website.

Your Committee finds that the conditions of Article VII, section 6, of the Hawaii Constitution have been satisfied because of the surplus in general fund revenues realized over the past two fiscal years. Your Committee feels that despite the economic constraints placed on the budgetary consideration of late, the Legislature is obligated to comply with the State Constitution and provide a tax credit or tax refund to the taxpayers of the State.

Your Committee has amended the measure by:

- (1) Making the general income tax credit unspecified; and
- (2) Making the effective date July 1, 2050, for purposes of facilitating further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 35, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 35, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Hemmings).

**SCRep. 1195      Ways and Means on H.B. No. 573**

The purpose of this measure is to strengthen the State's financial reserves.

Specifically, this measure requires an unspecified percentage of any carryover cash surplus in the state general fund balance at the close of a fiscal year to be deposited into the emergency and budget reserve fund.

Testimony in support of this measure was submitted by one government agency and one private organization. Comments on this measure were submitted by one private organization. The written testimony and comments may be reviewed on the Legislature's website.

Your Committee finds that this measure is essential to ensure that the State has sufficient financial reserves to address the purposes of the emergency and budget reserve fund. Upon further consideration, however, your Committee believes that a ceiling should be imposed on the amount of any carryover cash surplus to be deposited from the general fund to the emergency and budget reserve fund, to ensure that the State has sufficient resources to meet outstanding obligations.

Accordingly, your Committee has amended this measure to set a ceiling equal to an unspecified percentage of the sum of all general fund revenues received in the prior three fiscal years for deposit from the general fund into the emergency and budget reserve fund in any fiscal year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 573, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 573, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Hemmings).

**SCRep. 1196 Ways and Means on H.B. No. 1495**

The purpose of this measure is to repeal the income tax deduction for wagering losses.

One private organization submitted comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that the current economic difficulties faced by the State make it untenable to continue to allow the deduction of wagering losses against wagering income for the purposes of state income taxation. Your Committee believes that this deduction deprives the State of revenue that could otherwise go to fund the delivery of essential state services. Your Committee further finds that a repeal of the deduction will help the State's financial plan by reducing the current budget deficit.

Your Committee has amended this measure by further changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1495, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1495, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 1197 Ways and Means on H.B. No. 1544**

The purpose of this measure is to conform the state tax exemption to the personal exemption phase-out provision found in section 151 of the Internal Revenue Code.

Additionally, this measure adjusts the income level at which the phase-out begins by using the inflation-adjusted amounts as of July 1, 2008, and by further reducing those amounts by twenty-five per cent. This measure will be repealed on June 30, 2015.

One state agency submitted testimony in opposition to this measure. One organization submitted comments on this measure. Written testimony and comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will result in a phase-out of the personal exemption (which is \$1,040) for higher income earners. Your Committee further finds that reducing the phase-out threshold for the state personal income tax exemption will create savings for the State that are necessary to the State's financial plan for closing the current budget deficit.

Your Committee has amended this measure by changing the effective date to January 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1544, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1544, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 1198 (Majority) Ways and Means on H.B. No. 1550**

The purpose of this measure is to impose the state income tax on rollovers made by employees of state and county agencies and tax-exempt organizations from qualifying annuity plans and qualifying deferred compensation plans, to eligible retirement plans or individual retirement accounts.

Comments on this measure were submitted by one private organization. The written comments may be reviewed on the Legislature's website.

Your Committee finds that employees who roll over or transfer contributions from their deferred-compensation plans to purchase Employees' Retirement System membership service credits or to upgrade their noncontributory plan service to hybrid plan service in the future are not assessed an income tax on these funds. Since, under current law, pension distributions from the hybrid plan are not subject to income tax, these rollover or transferred funds completely escape Hawaii income tax. Your Committee further finds that, since deferred compensation plans would normally be taxed when an employee withdraws these funds at a later date, taxing the rolled over or transferred funds at the time they are rolled over or transferred would appear to be equitable and fair.

Your Committee has amended this measure by changing the effective date to July 1, 2090, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1550, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1550, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (English).

**SCRep. 1199      Ways and Means on H.B. No. 1744**

The purpose of this measure is to temporarily suspend the distribution of transient accommodation tax revenues to the counties from July 1, 2009, until June 30, 2015.

Testimony in support of this measure was submitted by three individuals. Testimony opposed to this measure was submitted by one state agency, twenty-one county agencies and public officials, sixteen private organizations, and thirty individuals. Comments on this measure were submitted by one private organization and sixteen individuals. The written testimony and comments may be reviewed on the Legislature's website.

Your Committee notes the enormous deficit the State is facing in the coming years due to expected revenue shortfalls. With the present fiscal crisis, the State must explore all available avenues to meet the constitutional mandate of a balanced budget.

Accordingly, your Committee has amended this measure by permanently repealing any distribution of the transient accommodation tax, imposed pursuant to section 237D-2, Hawaii Revised Statutes, to the various counties effective July 1, 2010. However, your Committee realizes that the counties are dependent upon their portions of the transient accommodation tax and, therefore, has further amended this measure by authorizing each county to impose, by ordinance, starting on January 1, 2010, a surcharge on the transient accommodation tax, not to exceed five per cent. Finally, your Committee has changed the effective date to July 1, 2046, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1744, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1744, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Ayes with Reservations, 7 (Chun Oakland, English, Fukunaga, Galuteria, Hooser, Kokubun, Tsutsui). Noes, none. Excused, none.

**SCRep. 1200      (Majority) Ways and Means on H.B. No. 1747**

The purpose of this measure is to increase the Hawaii state income tax rates for high income earners.

This measure also increases the amount of the standard deduction and the personal exemption allowable in taxable years beginning after December 31, 2010.

One organization and one concerned individual submitted testimony in support of this measure. One government agency, one organization, and one concerned individual submitted testimony in opposition to this measure. One organization submitted comments on this measure. Written testimony and comments presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would increase the standard deduction and personal exemption amounts to provide tax relief to lower income earners. Your Committee also finds that creating additional tax brackets and higher income tax rates for high income earners is a progressive tax policy that would spread the tax burden more equitably among Hawaii's taxpayers. Your Committee also believes that this measure raises badly needed tax revenue for the State during the current economic crisis.

Your Committee has amended this measure by:

- (1) Raising the tax bracket amounts at which the higher tax rates begin for:
  - (A) Joint filers: \$350,000;
  - (B) Head of household filers: \$250,000; and
  - (C) Single filers: \$200,000;
- (2) Changing the effective date to January 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1747, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1747, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1201      Human Services on H.B. No. 813**

The purpose of this measure is to designate an unspecified month as "Language Access Month" to promote awareness of language access for government services and emphasize the importance of and need for language access in Hawaii's diverse society.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations Office of Language Access, the Hawaii Civil Rights Commission, the Congress of Visayan Organizations, the United Filipino Council of Hawaii, the Filipino American Citizens League, the Filipino Coalition for Solidarity, Filipinos for Affirmative Action, Nursing Advocates and Mentors, Inc., Oahu Filipino Community Council, Hawaii Immigrant Justice Center, Hawaii Interpreter Action Network, and one individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that Hawaii ranks fourth in the nation for largest foreign born population, with 17.9 per cent, and is at the forefront of language access issues. In 2006, the Legislature adopted Act 290 to ensure equal access to state programs, services, and

activities for persons with limited English proficiency. The Act requires state agencies to take reasonable steps to provide meaningful language services either through the oral language services of an interpreter or written language services using translated documents.

The celebration of Language Access Month will serve to foster and promote these language access activities in Hawaii and inform the public of their existence, so that language access will be viewed as a vital component of the State's provision of basic government services. Language Access Month is a celebration of Hawaii's diversity. September is a month when the community's focus and awareness returns to education, as the new school year begins. Language Access Month can be celebrated along with other international days like September 21, the United Nations International Day of Peace.

Your Committee has amended this measure by:

- (1) Designating the month of September as "Language Access Month";
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive changes for the purposes of style and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 813, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 813, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

#### **SCRep. 1202      Judiciary and Government Operations on H.B. No. 349**

The purpose of this measure is to allow the admission of character evidence showing the aggressiveness of the defendant if the court allows the admission of character evidence, offered by the defendant, showing the aggressiveness of the alleged victim.

Your Committee received testimony in support of this measure from several entities. Testimony in opposition was received from one organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure is recommended for adoption by the Hawaii Supreme Court's Standing Committee on the Rules of Evidence. This measure would conform the Hawaii Rule of Evidence 404(a) to its federal counterpart, Federal Rule of Evidence 404(a), which received a similar amendment in 2000.

This measure makes clear that the accused cannot attack the alleged victim's character and yet remain shielded from the disclosure of equally relevant evidence concerning the same character trait of the accused. Commonly, in a homicide or assault case the defense asserts self defense. The question typically presented is whether the accused or the victim was the first aggressor. If the accused seizes the initiative under Rule 404(a)(2) and offers evidence of the violent character of the victim, then this amendment will allow the prosecution to offer similar evidence of the same character trait of the accused.

According to testimony of the State Attorney General, under this measure, judges still retain their discretion to determine whether particular evidence or testimony is admissible at trial. This measure does not open the doors to all evidence of aggressiveness. Nonetheless, your Committee has concerns about this measure as raised by the Office of the Public Defender concerning possible distraction of the jury away from the facts of the case and the chilling effect on the defendant's right to present evidence in his or her own defense.

Accordingly, your Committee has amended this measure by changing the effective date to July 1, 2075 to continue the discussions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 349, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 349, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Gabbard).

#### **SCRep. 1203      Ways and Means on H.B. No. 39**

The purpose of this measure is to add a \$5 surcharge to the fee charged by a state agency for certain services and require the deposit of the surcharge into the general fund.

Your Committee has amended the measure by replacing the contents of the measure with the provisions of a proposed Senate Draft 1 that was circulated. As amended, this measure addresses the budgetary shortfall by:

- (1) Repealing provisions that exclude certain special funds from assessments for central service and departmental administrative expenses, except the Hawaii hurricane relief fund, the convention center enterprise special fund, the tourism special fund, the state educational facilities improvement special fund, the health systems special fund, funds of the employees' retirement system, and the special funds of the University of Hawaii;
- (2) Providing for the temporary transfer into the general fund of interest earned on short-term investment or deposit of moneys of certain special funds, revolving funds, and special accounts; and
- (3) Transferring excess funds from various special and revolving funds to the general fund.

Testimony in support of the proposed draft was submitted by one state agency. Testimony in opposition was submitted by one state agency. One state agency and one organization submitted comments on the measure. Written testimony and comments may be reviewed on the Legislature's website.

Your Committee finds that the preparation of this measure is necessary before final deliberations begin with respect to balancing the state budget. The provisions contained in this measure warrant careful consideration for use to the extent necessary to provide efficient and effective state government during the next biennium.

Your Committee has further amended the measure by:

- (1) Allowing the disability and communication access board to set and charge a reasonable fee for its review of state and county building and facility plans and allowing the board to use the proceeds for board program expenses;
- (2) Appropriating \$1 from the Hawaii election campaign fund to the general fund; and
- (3) Providing an effective date for the measure of July 1, 2090.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 39, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 39, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1204 (Majority) Ways and Means on H.B. No. 1605**

The purpose of this measure is to establish the Hawaii tax review initiative to review the State's tax laws and determine whether the State's existing tax policies are relevant and effective in reaching the State's economic and social goals and objectives.

Your Committee has amended the measure by replacing its contents with a proposed senate draft, which was circulated prior to the public hearing that authorizes each county to implement a retail sales tax of up to an unspecified percentage on the sale of tangible personal property.

Testimony in support of the senate draft was submitted by one private organization, two private companies, and fifteen individuals. Testimony opposed to this measure was submitted by one government entity, one government organization, and two private organizations. Comments on this measure were submitted by one private organization. The written testimony and comments may be reviewed on the Legislature's website.

Your Committee finds that it is appropriate, as a matter of home rule, to allow the counties to establish an additional revenue source that applies broadly to all individuals. Accordingly, this measure provides the counties the taxing authority necessary to exercise greater self-sufficiency and to generate the revenue needed to provide vital programs and services.

Upon further consideration, your Committee has refined its amendments to this measure by:

- (1) Setting the maximum rate of the retail sales tax that may be implemented at one per cent on the sale of tangible personal property;
- (2) Providing an effective date of July 1, 2077, to encourage further discussion on the measure; and
- (3) Making technical amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1605, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1605, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1205 (Joint) Energy and Environment and Economic Development and Technology on H.B. No. 1272**

The purpose of this measure is to expand the exclusion to the term "manufacturer" under the Electronic Waste Recycling Act, chapter 339D, Hawaii Revised Statutes (chapter 339D), for certain computer manufacturers by deleting the requirement that the person manufacture specialized computers and be located in the State.

Comments to this measure were submitted by one individual. Testimony in opposition to the measure was submitted by one state department. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the intent of this measure is to make clarifying amendments to chapter 339D. However, even with the amendments to chapter 339D proposed in the measure as received, chapter 339D still contains deficiencies and makes enforcement challenging. For example, the measure as received will require the Department of Health to determine whether a manufacturer actually sells fewer than one hundred computers annually in the State. Your Committees find that further amendments are necessary to clarify chapter 339D's exemptions and applicability.

Additionally, your Committees note that certain other deficiencies in chapter 339D exist. For example, it is unclear whether consumers may be charged a fee for recycling. Your Committees find that a fee may discourage consumers from participating in recycling, leading them to dispose of covered electronic devices in our landfills. Another example is the lack of a deadline by which a manufacturer's recycling program must be implemented.

Accordingly, your Committees have amended this measure by:

- (1) Amending the definition of "manufacturer" under chapter 339D to delete the annual sales provision, so as to exempt manufacturers who manufacture no more than one hundred computers per year;

- (2) Prohibiting manufacturers from charging consumers a fee at the point of recycling to recycle electronic devices, unless the manufacturer or manufacturer's agent picks up the covered electronic device from the consumer's premises at the consumer's request and if the pick-up is not in conjunction with the delivery of a new electronic device to the consumer;
- (3) Requiring recycling programs to be fully implemented and operational by January 1, 2010;
- (4) Requiring manufacturers to be responsible for ensuring that they and their agents be responsible for following regulations when collecting, transporting, and recycling electronic devices and for adopting environmentally sound recycling programs; and
- (5) Changing the effective date from July 1, 2112 to July 1, 2009.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1272, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1272, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (English, Hee, Hooser, Ige).

**SCRep. 1206 (Joint) Energy and Environment, Commerce and Consumer Protection and Judiciary and Government Operations on H.B. No. 1809**

The purpose of this measure is to establish a television recycling program.

Testimony in support of the measure was submitted by one private organization and two individuals. Testimony in support, with suggested amendments, was submitted by one private organization. Testimony supporting the intent of the measure, with suggested amendments, was submitted by one private organization. Testimony in opposition to the measure was submitted by one state department. Comments were submitted by one private organization. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that in 2008, the Legislature passed Act 13, Special Session Laws of Hawaii 2008 (Act 13), which created the Electronic Waste Recycling Program (chapter 339D, Hawaii Revised Statutes (chapter 339D)). Act 13 also established a working group within the Department of Health. The working group was tasked with developing a plan to establish a program for the collection, transportation, and recycling of televisions sold in the State. This measure is the product of this working group.

Your Committees find that the Legislature's commitment to recycling televisions has not wavered from 2008. This measure accomplishes needed recycling goals with a workable solution for the television manufacturing industry and the State.

Your Committees note that this measure is based upon chapter 339D and contains many similar or identical provisions. Additionally, this measure and chapter 339D cover similar recycling objects and both deposit funds into the electronic device recycling fund. As such, your Committees find that it is reasonable to amend this measure to make it a new part under chapter 339D.

Accordingly, your Committees have amended this measure by:

- (1) Amending the title of chapter 339D from the "Electronic Waste Recycling Act" to the "Electronic Waste and Television Recycling and Recovery Act";
- (2) Integrating the provisions of the measure into chapter 339D, including placing duplicative sections under separate parts common to both electronic devices and televisions;
- (3) Directing the Department of Health to deposit not only funds collected for penalties into the electronic device recycling fund, but also other television manufacturer registration fees, and allowing the Department of Health to use moneys in the fund for implementation and enforcement of the television recycling provisions;
- (4) Extending the enforcement provisions under this measure to electronic device manufacturers, retailers, and other persons, and leaving the applicable penalty amounts for violations unspecified;
- (5) Adding a section stipulating that implementation of this measure by January 1, 2011, shall satisfy the requirement for a separate plan for the collection, transportation, and recycling of televisions called for in Act 13;
- (6) Changing the effective date of the measure from July 1, 2020, to July 1, 2009; and
- (7) Making technical, nonsubstantive amendments for style and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1809, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1809, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 5 (Bunda, Green, Kokubun, Hemmings, Slom).

**SCRep. 1207 Judiciary and Government Operations on H.B. No. 1470**

The purpose of this measure is to exempt from the Hawaii Public Procurement Code procurements of goods, services, and construction from a source approved as the sole source by the federal government under a grant from the federal government in any procurement funded by state and federal matching funds or by federal funds alone.

Your Committee received testimony in support of and comments about this measure from government entities. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has reviewed and heard several of the procurement measures and has consolidated them into this measure, as amended. Your Committee finds that the Hawaii Public Procurement Code needs to be updated. This amended measure is particularly important in anticipation of the State receiving federal economic stimulus grants that will be applied in large part to procurements. The State needs to move expediently in this regard.

Your Committee has amended this measure by:

- (1) Enacting a procurement exemption for GSA-approved sole source vendors;
- (2) Increasing the small purchases limit from \$50,000 to \$100,000 for goods and services and to \$250,000 for construction contracts;
- (3) Defining "Hawaii input" to clarify how products with materials derived from Hawaii may qualify for procurement preferences;
- (4) Defining "Hawaii component";
- (5) Clarifying the definition of "Hawaii products" and "products" qualifying for preferences;
- (6) Allowing for the self-certification for Hawaii products listings;
- (7) Amending the percentage by which a price or bid shall be decreased for Hawaii products;
- (8) Providing that a contract shall be voidable and subject to debarment or suspension for failure to adequately verify, deliver, or supply Hawaii products;
- (9) Establishing time limits on rendering decisions on applications for administrative and judicial review;
- (10) Requiring a dismissal of protests for inadvertent errors of less than a specified amount of the bid amount of competing bidder;
- (11) Clarifying procedures for administrative review;
- (12) Amending the notice requirements applicable to subcontract provisions permitting the withholding of a subcontractor's payment without incurring obligation to pay interest or a late payment penalty; and
- (13) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1470, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1470, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

#### **SCRep. 1208      Judiciary and Government Operations on H.B. No. 1512**

The purpose of this measure is to allow a family court judge to issue an ex parte temporary restraining order without notice to:

- (1) Grant exclusive care of a pet animal or equine animal to a party; and
- (2) Restrain the noncustodial party or person to be restrained from visiting, taking, concealing, threatening, physically abusing, or otherwise disposing of any pet animal or equine animal whose exclusive care has been granted to a protected party.

Your Committee received testimony in support of this measure from several entities and individuals. The Family Law Section of the Hawaii State Bar Association submitted testimony in opposition. Testimony submitted to the Committee may be viewed on the Legislature's website.

Your Committee finds that pet animals have become an object of contention between parties in situations involving domestic abuse. The intent of this measure is to ensure the safety of animals. The Hawaii State Bar Association's Family Law Section, however, testified that this measure as received could create problems that could actually hurt victims of domestic violence, and could be misused by the parties in contentious divorce cases.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the court may restrain both parties from taking, concealing, removing, threatening, physically abusing, or otherwise disposing of any pet animal or equine animal that is part of the family or in the household;
- (2) Changing the effective date to July 1, 2050 to continue consideration of the objections of the Hawaii State Bar Association's Family Law Section; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and style, and to correct an erroneous statutory cross-reference.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1512, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1512, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1209 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 1351**

The purpose of this measure is to encourage owners of neighboring agricultural lands to enter into cooperative private agreements to reduce the shared costs of generating and transmitting electrical energy, cold water for refrigeration and cooling, and nonpotable water for irrigation.

Testimony in support of this measure was submitted by one county agency and two organizations. Testimony in opposition was submitted by one state agency and one organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that providing agricultural producers an opportunity to reduce the cost of production will support the sustainability of Hawaii's agricultural industry. The cost of electrical power would be reduced for pumping water for agricultural purposes, or for crop production and processing operations within an agricultural park, if electrical power generated within an agricultural park by independent power producers of renewable energy, like a windmill, could be transmitted across property boundaries within an agricultural park, without connecting to the general utility grid.

Your Committee has amended this measure by making changes to streamline the process of establishing a private agricultural park.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1351, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1351, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1210 (Joint) Tourism and Ways and Means on H.B. No. 754**

The purpose of this measure is to improve the governance of the Hawaii Tourism Authority by removing ex-officio members from the Hawaii Tourism Authority Board and placing them in an advisory group to the Hawaii Tourism Authority.

Prior to decision making on this measure, your Committees circulated a proposed draft that, in addition to the removal of ex-officio members from the Hawaii Tourism Authority Board, does the following:

- (1) Expands the scope of a tourism emergency to include a regional or global economic crisis;
- (2) Transfers tourism-related functions from the Department of Business, Economic Development, and Tourism to the Hawaii Tourism Authority; and
- (3) Earmarks an unspecified percentage of moneys allocated to the Tourism Special Fund from the Transient Accommodations Tax to be used for tourism product development and cultural programs.

Your Committees received testimony commenting on the proposed draft of this measure from the Hawaii Tourism Authority. Your Committees received testimony in opposition to the proposed draft of this measure from the Department of Business, Economic Development, and Tourism, the Tourism Liaison of the Department of Business, Economic Development, and Tourism, and the Department of Transportation. The Hawaii State Foundation on Culture and Arts submitted testimony in opposition to the measure as received by your Committees. The Hawaii Hotel and Lodging Association, Outrigger Enterprises Group, and Starwood Hotels and Resorts Worldwide, Inc. submitted testimony supporting the intent of the proposed measure but with concerns.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the difficult times currently being experienced by the State's major industry, tourism, may present an opportune time to undertake some administrative changes to streamline the operations of the Hawaii Tourism Authority. Changing the title of the Executive Director of the Authority to President and Chief Executive Officer, while cosmetic on its face, should instill a more business-like atmosphere in the boardroom of the Authority. Further, eliminating the "sunset" provision on the ability of the Authority to hire its own private attorneys should result in streamlining operations.

Your Committees have amended the proposed draft of the measure by:

- (1) Changing the definition of tourism emergency to include a "national or global economic crisis" rather than a "regional or global economic crisis";
- (2) Removing the phrase "regardless of when or where it occurs" from the definition of tourism emergency;
- (3) Making the establishment of an advisory group discretionary rather than mandatory, and authorizing the Authority to hold advisory group meetings on a monthly basis, or as deemed necessary by the Authority, that may be advised on suggested measures and programs by state agencies or departments that are members of the advisory group;
- (4) Inserting provisions that require the private contractor that operates the Convention Center, concessions, and concession spaces at the Convention Center to be subject to the Hawaii Public Procurement Code, chapter 103D, Hawaii Revised Statutes;
- (5) Renaming the "executive director" of the Hawaii Tourism Authority to the "president and chief executive officer", and clarifying the duties of the position;
- (6) Removing the sunset date from certain provisions of Act 58, Session Laws of Hawaii 2004;
- (7) Changing the effective date to July 1, 2020; and

- (8) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the records of votes of the members of your Committees on Tourism and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 754, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 754, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 1211 Ways and Means on H.B. No. 1364**

The purpose of this measure is to require the Governor or Director of Finance to submit a report to the Legislature for each restriction placed on any appropriation authorized by the Legislature.

Your Committee received one written comment from a state agency on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that many unprecedented events have converged to create an economic, financial, and fiscal environment that threatens the very foundation of our national economy. For state governments, the financial crisis and economic downturn have adversely affected tax revenues and operating budgets. The impact on Hawaii has been a severe reduction in projected general fund revenues for fiscal year 2008-2009 through fiscal biennium 2009-2011 by \$2.1 billion over the period of one year. Based on the Council on Revenues' March 2009 projections, the State is faced with a general fund revenue shortfall of \$430,500,000 in fiscal year 2008-2009 if corrective action is not taken.

Your Committee further finds that the federal American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, was enacted to help the states by providing federal funds to replace state general revenues for education and Medicaid. In addition, Title V, State Fiscal Relief, of the Recovery Act temporarily increases the federal medical assistance percentage that permits states to reduce their share of Medicaid costs.

The Recovery Act also temporarily increases federal support to states for energy initiatives, water systems development, unemployment insurance, vocational rehabilitation, transportation, social services, public housing, Native Hawaiian homesteads, support for elders, and education.

The federal Deficit Reduction Act of 2005 authorizes an enhanced level of federal Temporary Aid for Needy Families funding if a state qualifies, as Hawaii does, as a "needy state" in terms of high food stamp case loads. However, federal regulations require that the State appropriate the Temporary Aid for Needy Families funds before the federal funding can be used. The increased federal medical assistance percentage funding for Medicaid correspondingly reduces general fund costs thereby freeing some general funds in fiscal year 2008-2009 for use to address increased program requirements in the adult mental health - outpatient program and the Hawaii health systems corporation program.

Accordingly, your Committee has amended this measure by:

- (1) Funding various programs that are expected to receive funding during fiscal year 2008-2009 under the American Recovery and Reinvestment Act of 2009;
- (2) Reducing general fund appropriations for certain programs that receive offsetting federal funding;
- (3) Providing additional federal Temporary Assistance for Needy Families funds for fiscal year 2008-2009 under the federal Deficit Reduction Act of 2005;
- (4) Providing additional general funds for fiscal year 2008-2009 to the adult mental health outpatient program; and
- (5) Providing additional general funds for fiscal year 2008-2009 to the Hawaii Health Systems Corporation.

Your Committee finds that this measure is necessary to:

- (1) Promote openness and transparency in the use of federal Recovery Act funds for fiscal year 2008-2009;
- (2) Address the general fund revenue shortfall for fiscal year 2008-2009;
- (3) Authorize Temporary Aid for Needy Families funds for fiscal year 2008-2009 as required by federal regulations; and
- (4) Meet fiscal year 2008-2009 program requirements of the adult mental health - outpatient program and the Hawaii health systems corporation program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1364, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1364, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1212 Ways and Means on H.B. No. 1739**

The purpose of this measure is to prohibit taxpayers from claiming an income tax credit on grants received from the federal government.

Prior to hearing this measure, your Committee circulated a proposed Senate Draft No. 1 that replaced the substantive provisions of this measure with those of S.B. No. 973, S.D. 1 that was previously heard by your Committee.

The purpose of the proposed draft is to deter tax fraud and promote uniformity in the state tax system by conforming Hawaii tax law to the Internal Revenue Code with respect to regulating tax return preparers and adopting other accuracy-related federal provisions.

In addition, the proposed draft:

- (1) Defines the term "tax return preparer";
- (2) Provides for an expedited administrative appeals program;
- (3) Authorizes the Department of Taxation to undertake temporary rulemaking;
- (4) Makes documents submitted to a tax review board public information; and
- (5) Clarifies the burden of proof with respect to issues relating to false or fraudulent tax returns.

Your Committee received written testimony in support of the proposed draft of this measure from one government agency. Written testimony in opposition was received from forty-three private organizations and forty-two individuals. Your Committee also received written comments from one government agency and two private organizations. Written testimony and comments presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that tax preparers are not required to audit, examine, or review books, records, or other documents in order to independently verify information provided by taxpayers. However, if a tax preparer finds information provided by the taxpayer to be incorrect or incomplete, the tax preparer must make reasonable additional inquiries. This measure enables the Department of Taxation to hold a tax preparer accountable for understatements of liability based on an unreasonable position on a tax return. This accountability is critical in the wake of recent corporate fraud scandals.

Your Committee also finds that greater accountability is necessary with respect to abusive tax schemes, erroneous tax refund claims, and the collection and payment of withholding taxes. These tax violations result not only in substantial revenue losses for the State but in a greater tax burden for the law abiding, taxpaying public.

On further consideration, your Committee has amended the proposed draft by:

- (1) Clarifying the circumstances under which a tax preparer may be required to pay a fine for understatement of liability based on unreasonable positions in a tax return or claim for tax refund;
- (2) Clarifying that the penalty for underpayment due to substantial understatement of tax liability applies to the taxable year in which the understatement was made;
- (3) Changing the effective date to July 1, 2090, to facilitate further discussion; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1739, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1739, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1213 (Majority) Ways and Means on H.B. No. 1741**

The purpose of this measure is to temporarily suspend the distribution of a portion of the conveyance tax to the land conservation fund and reduce the portions transferred to the rental housing trust fund and natural area reserve fund.

Specifically, this measure changes the distribution of conveyance tax revenue beginning July 1, 2009, to June 30, 2015, by:

- (1) Suspending the allocation of conveyance tax paid into the land conservation fund;
- (2) Reducing the amount of conveyance tax distributions paid into the rental housing trust fund from thirty to fifteen per cent from; and
- (3) Reducing the amount of conveyance tax distributions paid into the natural area reserve fund from twenty-five to ten per cent.

Your Committee finds that during these tough economic times, allocating a greater share of conveyance tax resources to the general fund is necessary and fiscally prudent. Your Committee believes, however, that a temporary reduction in certain dispositions, rather than a permanent suspension, will ease the burden of programs that rely on conveyance tax revenue.

To determine the amount of the reduction, your Committee consulted with the Department of Land and Natural Resources which administers the Land Conservation Fund and the Natural Area Reserve Fund. Both funds receive proceeds from the conveyance tax. Based on the Department's recommendations, your Committee reduced the Funds' share of the conveyance tax proceeds to levels that will adequately provide for state conservation programs.

Your Committee also finds that the conveyance tax should be adjusted to reflect the rise in property values in the State by increasing rates accordingly. Increasing the conveyance tax on properties and second homes valued at over \$1,000,000 will provide the State with additional revenue on these high-value real property transactions. Your Committee believes that individuals who own high-value properties or second homes can manage these new rates.

Accordingly, your Committee has amended this measure by:

- (1) Temporarily reducing the distribution of conveyance tax revenue to each of the land conservation fund, rental housing trust fund, and natural area reserve fund by five percentage points, respectively, until June 30, 2012;

- (2) Increasing the conveyance tax on sales of property over \$1,000,000, to be imposed at rates of:
  - (A) Thirty cents per \$100 for properties valued between \$1,000,000 but less than \$2,000,000;
  - (B) Fifty cents per \$100 for properties valued between \$2,000,000 but less than \$4,000,000;
  - (C) Seventy cents per \$100 for properties valued between \$4,000,000 but less than \$6,000,000;
  - (D) Ninety cents per \$100 for properties valued between \$6,000,000 but less than \$10,000,000; and
  - (E) One hundred cents per \$100 for properties valued at or greater than \$10,000,000; and
- (3) Increasing the conveyance tax on sales of condominium or single family residences over \$1,000,000 that are ineligible for a county homeowner's exemption, such as second homes, to be imposed at rates of:
  - (A) Forty cents per \$100 for properties valued between \$1,000,000 but less than \$2,000,000;
  - (B) Sixty cents per \$100 for properties valued between \$2,000,000 but less than \$4,000,000;
  - (C) Eighty-five cents per \$100 for properties valued between \$4,000,000 but less than \$6,000,000;
  - (D) One hundred ten cents per \$100 for properties valued between \$6,000,000 but less than \$10,000,000; and
  - (E) One hundred twenty-five cents per \$100 for properties valued at or greater than \$10,000,000; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1741, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1741, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 3 (Tokuda, Tsutsui, Hemmings). Excused, none.

**SCRep. 1214      Judiciary and Government Operations on H.B. No. 730**

The purpose of this measure is to enact new elements to the offense of cruelty to animals by fighting dogs.

This measure repeals current provisions and enacts new provisions to address enforcement problems posed by current law. This measure would:

- (1) Establish that the offense occurs for entertainment or financial gain;
- (2) Specify elements of the offense and provide for a misdemeanor penalty; and
- (3) Define "dogfight" and "device".

Your Committee finds that under current law, an offender would need to be literally caught in the act of conducting a dogfight in order to be convicted, which is extremely rare due to the clandestine nature of the activity. Thus, even persons attending a dogfight as spectators face no penalties.

Your Committee further finds that the injuries inflicted and sustained by dogs participating in dogfights are severe and in many instances fatal.

Your Committee has amended this measure by:

- (1) Amending section 711-1109.3, Hawaii Revised Statutes, to provide for the offense of cruelty to animals by fighting dogs in the first degree;
- (2) Adding a new statutory section to provide for the offense of cruelty to animals by fighting dogs in the second degree to address dog fighting events;
- (3) Making conforming statutory amendments to sections 711-1109.1, 711-1109.2, and 711-1110.5, Hawaii Revised Statutes; and
- (4) Changing the effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 730, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 730, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1215      Economic Development and Technology on H.B. No. 135**

The purpose of this measure is to designate the pulelehua, also known as the Kamehameha butterfly, as the official insect of the State.

Testimony in support of this measure was submitted by five students from Pearl Ridge Elementary School and one concerned individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Kamehameha butterfly is an insect that is native to the State and there is concern that the insect may become an endangered species. Your Committee also finds that naming the Kamehameha butterfly as the official insect of the State would be a fitting representation of the history, traditions, and culture of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 135, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1216 Economic Development and Technology on H.B. No. 274**

The purpose of this measure is to honor those individuals who perished during the attacks on the World Trade Center in New York City, the Pentagon, and United Airlines Flight 93 on September 11, 2001, by designating September 11<sup>th</sup> as "Patriot Day" in Hawaii.

This measure also acknowledges the bravery and heroism of those individuals who assisted in rescue efforts following the September 11th attacks.

Testimony in support of this measure was submitted by five concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the terrorist attacks on September 11, 2001, were one the deadliest and most damaging in the history of the United States. Your Committee also finds that designating September 11th as "Patriot Day" will help to provide a reminder of the sacrifices made by those who perished on September 11, 2001, and also the vigilance that is needed to combat terrorism.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 274, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Ige).

**SCRep. 1217 Judiciary and Government Operations on H.B. No. 293**

The purpose of this measure is to clarify the circumstances under which the appointment of a conservator is appropriate.

Specifically, this measure allows a court to appoint a conservator or make any other protective order in relation to the estate and affairs of an individual if the petition for a protective arrangement establishes, among other things that the individual is unable to manage property and business affairs effectively because of:

- (1) An impairment in the individual's ability to receive and evaluate information and make and communicate decisions; or
- (2) Another physical, mental, or health impairment.

Your Committee received testimony in support of this measure from the Judiciary-Uniform Probate Code and Probate Court Practices Committee.

This measure enables the court to provide a protective arrangement to a physically challenged individual who may be able to receive and evaluate information and make and communicate decisions but who, because of other impairments, would welcome and benefit from a protective arrangement.

Your Committee finds that this measure adds flexibility to the criteria for establishing the need for a protective arrangement, thus enhancing the court's ability to improve the conditions of those seeking and requiring protection, without impairing the rights of these individuals.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 293, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1218 Judiciary and Government Operations on H.B. No. 294**

The purpose of this measure is to clarify the liability of the trust estate and the trustee when a third party brings an action against them.

This measure:

- (1) Provides that a trustee is not personally liable on contracts entered into in the trustee's fiduciary capacity unless the trustee fails to disclose the trustee's fiduciary status and identify the trust estate in the contract; and
- (2) Provides that a trustee is personally liable for all obligations arising out of the ownership or control of property under the trust estate or for torts committed in the course of administration of the trust estate only if the trustee is personally at fault.

Your Committee received testimony in support of this measure from two organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

This measure is a product of the Standing Committee on the Uniform Probate Code and Probate Court Practices of the Judiciary of the State of Hawaii (Probate Committee). The intent of this measure is to make the statute governing personal liability of a trustee to third parties more consistent with the Uniform Probate Code and the Hawaii law governing personal representatives of probate estates, as the role of a personal representative and a trustee in relation to third parties is functionally the same.

Current law provides that a trustee is personally liable on contracts entered into in the trustee's fiduciary capacity unless the contract provides otherwise. Consistent with the Uniform Probate Code and Hawaii law governing personal representatives of probate estates, this measure provides that a trustee is not personally liable on contracts unless the trustee fails to disclose the fiduciary status and identify the trust estate in the contract.

Additionally, current law provides that a trustee is personally liable for obligations arising from ownership or control of property of the trust estate. Consistent with the Uniform Probate Code and the Hawaii law governing personal representatives of probate estates, this measure provides that a trustee is personally liable to third parties only if the trustee is personally at fault.

Your Committee notes that this measure is not intended to affect a beneficiary's ability to pursue claims against a trustee for breach of fiduciary duty for damage arising during the administration of the trust.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 294, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1219      Judiciary and Government Operations on H.B. No. 1148**

The purpose of this measure is to amend the public agency meetings law by:

- (1) Adding a definition of "State calendar" for purposes of posting public notice;
- (2) Adding emergency meeting to the types of meetings for which the giving of written public notice is required;
- (3) Requiring that public notice of meetings be posted electronically on the State calendar, and requiring a county board to file the notice in the appropriate county clerk's office, and if notice cannot be posted on the State calendar because of an interruption in service that prevents its access, then filing the notice in the Office of Information Practices for posting on the State calendar as soon as service is restored; and
- (4) Clarifying the requirements for posting of an emergency agenda and findings for holding the emergency meeting.

Your Committee received testimony in support of this measure from government entities. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that by having board meeting notices made available on the Internet, the public would have greater accessibility to the information. This is especially important for our neighbor island residents who do not have physical access to meeting notices posted only on Oahu. This measure modernizes State functions in this area consistent with the intent and purpose of establishing the State's Internet Portal.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1148, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1220      (Joint/Majority) Ways and Means and Judiciary and Government Operations on H.B. No. 1260**

The purpose of this measure is to establish a state securitization account within the Department of Budget and Finance to receive excess non-general funds, meet the qualifications imposed on the State with respect to the issuance of general obligation bonds, and authorize its use to temporarily finance capital improvement projects.

Your Committees find that the current state, national, and global economic crises have necessitated major changes in the State's biennial budget. Because of these changes, your Committees find that a reorganization of certain parts of the executive branch of state government is necessary to reflect the provisions of the General Appropriations Act of 2009.

Accordingly, your Committees have amended this measure by deleting its contents and replacing it with provisions detailing a reorganization of certain parts of the executive branch of state government, as contained in a proposed senate draft that was circulated for consideration.

Testimony in support of the proposed senate draft was submitted by two state agencies and two public citizens. Testimony in opposition was submitted by seven state agencies, one county agency, and two organizations. Four representatives from one state agency, three state agencies, and three organizations submitted comments.

Specifically, this measure, as further amended:

- (1) Abolishes the Research and Economic Analysis Division of the Department of Business, Economic Development, and Tourism and transfers the functions of four branches of the division to the Research Corporation of the University of Hawaii, and requires the Corporation to establish a self-sufficiency standard and cooperate with the United States Census Bureau;

- (2) Abolishes the Aloha Tower Development Corporation and transfers jurisdiction over and responsibility for the harbors modernization functions of the Aloha Tower Development Corporation to the harbors division of the Department of Transportation, and clarifies that the Department shall be the successor in interest to all assets and debts, liabilities, or other obligations incurred by the Corporation and that the Department is not exempt from the state procurement code with regard to projects concerning the harbors modernization plan;
- (3) Abolishes the Hawaii Occupational Safety and Health law, with the exception of the hoisting machine operators advisory board and the hoisting machine operators' certification revolving fund, effective on October 1, 2010;
- (4) Transfers the position of tourism liaison from the Department of Business, Economic Development, and Tourism to the Office of the Governor;
- (5) Transfers the Small Business Regulatory Review Board, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs;
- (6) Transfers the Land Use Commission, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources;
- (7) Transfers the High Technology Development Corporation and High Technology Innovation Corporation, with their statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the University of Hawaii;
- (8) Transfers the Office of Planning, with its statutory duties and powers, including jurisdiction over the coastal zone management program, from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources;
- (9) Transfers the Natural Energy Laboratory of Hawaii Authority, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the University of Hawaii;
- (10) Transfers the Measurement Standards Program, with its statutory authority, from the Department of Agriculture to the Department of Commerce and Consumer Affairs;
- (11) Transfers the Arts and Culture Development Branch within the Department of Business, Economic Development, and Tourism to the State Foundation on Culture and the Arts, which is placed within the Department of Accounting and General Services for administrative purposes;
- (12) Transfers the Film Industry Branch within the Department of Business, Economic Development, and Tourism to the Hawaii Tourism Authority;
- (13) Makes required conforming amendments to the Hawaii Revised Statutes;
- (14) Provides for the transition of various state agencies and programs that are transferred, including the transfer of rights, powers, functions, duties, officers, employees, records, equipment, and rules;
- (15) Clarifies that members of boards or other policy-making or advisory bodies transferred shall continue to serve the member's term without need for reappointment, except for members of the Board of the Aloha Tower Development Corporation and the High Technology Development Corporation;
- (16) Requires the Legislative Reference Bureau to review this measure to recommend appropriate placement of parts or chapters of the Hawaii Revised Statutes affected; and
- (17) Changes the effective date to July 1, 2090, to facilitate further discussion of the measure.

Your Committee finds that this measure, as amended, is necessary to allow the State to address the serious financial challenges ahead.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1260, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1260, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 12. Ayes with Reservations, 3 (Chun Oakland, Fukunaga, Tokuda). Noes, 2 (Hemmings, Sлом). Excused, 4 (Bunda, English, Hee, Kokubun).

**SCRep. 1221 (Joint/Majority) Judiciary and Government Operations and Ways and Means on H.B. No. 1536**

The purpose of this measure is to freeze the annual salaries of the Governor, the Lieutenant Governor, the justices and judges of all state courts, the administrative director of the State or an equivalent position, and the department heads or executive officers and the deputies or assistants to the department heads or executive officers of the executive departments.

Your Committees received testimony in support of this measure from the Governor, one executive department, state house minority members, and one individual. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the current economic downturn and the resultant decline in general fund revenue necessitate that the heads of all branches of state government share in the sacrifice of salary adjustments.

The affected executive departments are the Department of Accounting and General Services; Agriculture; Budget and Finance; Business, Economic Development, and Tourism; Commerce and Consumer Affairs; Defense; Hawaiian Home Lands; Health; Human Resources Development; Human Services; Labor and Industrial Relations; Land and Natural Resources; Public Safety; Taxation;

Transportation; and the Attorney General. The salaries would be frozen beginning January 1, 2009 until June 30, 2011. On July 1, 2011, the salaries for the positions would be increased to the level they would have been on July 1, 2009, under the recommendations of the Commission on Salaries and in the absence of further salary freezes under this measure. The recommendations of the Commission on Salaries for salary increases for these positions effective on July 1, 2012, shall become effective on that date.

For the Legislature, until December 31, 2011, the annual salaries of members of the Legislature would remain the same as they were on January 1, 2009. On January 1, 2012, the salaries of the members of the Legislature would be increased to the level they would have been on January 1, 2012, under the recommendations of the Commission on Salaries and in the absence of the salary freeze under this Act. The recommendations of the Commission on Salaries for salary increases for the members of the Legislature effective January 1, 2013, and January 1, 2014, will become effective on those dates.

Your Committees have amended this measure by:

- (1) Changing a salary freeze to a salary reduction of five per cent off of what public executives and legislators were being paid on June 30, 2009, for a two-year period beginning July 1, 2009;
- (2) Tying vacation and sick leave to that which is negotiated and executed by the executive representative for collective bargaining unit (13) for that unit for a two-year period beginning July 1, 2009; and
- (3) Changing the effective date to June 30, 2050 to continue the discussions.

It is not the intent of your Committees that the amended measure affect the retirement benefits of those persons covered by this measure. Accrued retirement benefits should proceed without regard to the temporary salary adjustment under this measure.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1536, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1536, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Ayes, 16. Noes, 1 (Hemmings). Excused, 1 (Bunda).

**SCRep. 1222      Judiciary and Government Operations on H.B. No. 128**

The purpose of this measure is to require the Office of Elections to develop a standard withdrawal and declaration of candidacy form to be used by candidates to withdraw as a candidate.

Your Committee deleted the contents of this measure and replaced it with a proposed Senate Draft 1 which would enact a new campaign finance and spending law to replace existing law. Your Committee finds that campaign spending laws are an integral part of the election process, and further finds that the subject matter falls within the title of this measure.

Your Committee received testimony on this measure from government entities, private organizations, and individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Chapter 11, Hawaii Revised Statutes, part XII, was enacted by Act 185, Session Laws of Hawaii 1973. Over the past thirty-five years, numerous amendments have been made to the campaign finance laws in a piecemeal fashion and, apparently, with little regard to the laws as a whole. The result is laws that are unorganized, difficult to read, and inconsistent in some areas. The current laws are codified in part XII, subpart B of chapter 11, Hawaii Revised Statutes.

The proposed measure is based on the work of the Campaign Spending Commission's blue ribbon recodification committee. The committee completed its work in 2008 after meeting regularly for nine months. The committee was comprised of the commission's staff and seventeen attorneys experienced in campaign finance law who represented various interests.

Your Committee has amended the proposed draft by:

- (1) Deleting the sections relating to declaration of policy and construction of laws;
- (2) Clarifying the definition of campaign funds to mean contributions, interest, rebates, refunds, loans, or advances;
- (3) Adding that certification as a candidate may be made by the chief election officer or county clerk;
- (4) Amending the definition of noncandidate committee with reference to production and dissemination of informational or educational communications to clarify that the dissemination is not made to influence the outcome of an election or question on a ballot;
- (5) Clarifying that campaign funds may be used to make donations to public libraries;
- (6) Requiring that loans from persons other than immediate family members that are not repaid within one year of the date of the loan shall be repaid in full from contributions subsequently received;
- (7) Requiring the electronic filing of all reports required to be filed with the Campaign Spending Commission;
- (8) Clarifying the certification requirements of filed reports by deleting references to a true and accurate statement of the committee's activity;
- (9) Requiring that a vacancy on the Campaign Spending Commission be filled by the appointment of one of two persons nominated by the Judicial Council;
- (10) Allowing the Campaign Spending Commission to assess fines, rather than requiring fines to be assessed;

- (11) Making various clarifying amendments to the public funding of campaigns law and committee reporting requirements; and
- (12) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 128, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 128, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Ayes with Reservations, 1 (Slom). Noes, none. Excused, none.

**SCRep. 1223 (Majority) Labor on H.B. No. 31**

The purpose of this measure is to designate as an unlawful discriminatory practice any employers' refusal to hire, barring or discharging from employment, or discrimination against any individual due to the individual's credit information; provided that the individual's credit information does not directly relate to an occupational qualification.

Testimony in support of this measure was submitted by four organizations and two individuals. Testimony in opposition to this measure was submitted by one state agency and three organizations. Comments were submitted by one federal agency and four organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure provides necessary protections for individuals against unlawful discriminatory hiring and employment practices. Your Committee further finds that this measure provides an exception to the protections in situations where an individual's credit information directly relates to an occupational qualification, and therefore balances discretion in hiring and management decisions for employers with protection for employees against unlawful discrimination. It is your Committee's intent not to shift the burden of proof of bona fide occupational qualification to the employee but to retain it with the employer. It is not the intent of the Committee to include lead employees, working foremen, and line supervisors in the scope of the supervisory exception.

Your Committee finds that additional provisions are necessary to specify conditions under which employers may inquire into or consider and under which employers shall not inquire into or consider credit information in making certain hiring or managerial decisions. Accordingly, your Committee has amended this measure by:

- (1) Requiring any inquiry into and consideration of a prospective employee's credit history or credit report to take place only after the prospective employee has received a conditional offer of employment;
- (2) Excluding the following from the prohibition against refusal to hire or employ, barring or terminating from employment, or otherwise discriminating on the basis of credit history:
  - (A) Employers who are expressly permitted or required to inquire into an individual's credit history for employment purposes pursuant to any federal or state law;
  - (B) Managerial or supervisory employees; and
  - (C) Employers that are financial institutions in which deposits are insured by a federal agency having jurisdiction over the financial institution; and
- (3) Amending the effective date to July 1, 2050 for the purpose of encouraging further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 31, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 31, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 2 (Bunda, Hee).

**SCRep. 1224 (Majority) Ways and Means on H.B. No. 200**

The purpose of this measure is to appropriate funds for the operating and capital improvements budget of the Executive Branch for FY2010 and FY2011.

One government agency submitted testimony in support of the measure. Three government agencies, one organization, and three individuals from government agencies submitted testimony in opposition. Four government agencies, six organizations, and two individuals from government agencies and a third individual submitted comments. Written testimony and comments presented to the Committee may be reviewed on the Legislature's website.

### INTRODUCTION

This measure represents another major step in the process to refine the State's response to the global economic downturn. This measure is by far the largest component of the State's expenditure plan and was crafted to tighten up general fund spending while continuing to respond to our diverse community's needs and priorities. Contained herein is the spending authorization required for the operation of the public school, university, and public health systems; programs that make up the social safety net; programs that help to support various sectors of the economy; and other programs that support the governance of our society as required by our State Constitution. Regrettably, given the current economic condition, many difficult choices were made in developing this budget. In many cases, your Committee was unable to restore cuts made by the Governor to core programs or was forced to make additional cuts in less-core areas. Despite the difficulty of making these decisions, your Committee has approached this task as an opportunity to refocus and streamline state government where possible.

Your Committee appreciates the efforts of all those who have provided input regarding the budget, including the Department Directors who testified at the pre-session briefings, the state employees who fielded hundreds of questions from legislators and staff, and the thousands of engaged citizens who shared with us their thoughts and concerns.

### ECONOMIC OUTLOOK

#### National Economic Outlook

As of April 2009, the National Economic Outlook remains uncertain.

Signs of the gravity of the current economic contraction became clear more than a year ago, when investors began to question the value of real estate assets held by Bear Sterns Companies, Inc. The problem began as individuals who could not afford home ownership were awarded mortgage loans known as subprime loans. Lenders who made such loans resold them to other institutional players, such as Fannie Mae, the Federal National Mortgage Association.

Specifically, the first landmark of our current economic contraction was the moment when investors determined that the credit default swaps that Bear Sterns was relying on to protect it from exposure to subprime loans were, in fact, worthless. Investors began to inspect the balance sheets of banks and other financial intermediaries and question the real value of mortgages on all commercial and residential property, which were stated as assets on the balance sheets. When investors concluded that the book value of these assets exceeded the market value, the selling, and thus the economic contraction, began. Lehman Brothers Holdings, Inc. collapsed on September 15, 2008; and American International Group (AIG), which sold the credit default swaps that pay off if the mortgages enter default, became the subject of an ongoing "bailout."

When the banking system was called into question, the banks, having nothing to lend, cut the supply of credit, thus jeopardizing all businesses, which generally run on credit for one accounting period.

The selling of bank stocks became a general sell-off which sent the Dow Jones Industrial Average to 7450 in late November of 2008. The story continues to unfold even to this day in April 2009. Bank of America, JPMorgan Chase, Wells Fargo, and all financial institutions are among the companies with "underperform" ratings.

Despite the pervasiveness of the calamity, welcome signs of a recovery are emerging. Some economists say that a number of indicators appear to have bottomed out in recent months. Job losses may have peaked in January. Home sales are starting to pick up. Stocks are enjoying a limited rally. And because the economy has experienced such a steep decline in the current downturn, some economists are hopeful the recovery ahead will be much stronger than the modest gains that came about after the end of the previous two recessions.

While there may be movement towards recovery, many economists still think that the current recession will not end until much later this year, if not 2010. However, many of these forecasts were made before the nearly \$800 billion stimulus package that was enacted earlier this year began to have an effect. Some economists argue, based on more recent forecasts, that the stimulus plan could create stronger than expected growth, and much sooner than the consensus forecasts.

#### The Economic Outlook for Hawaii

The economic contraction has found its way to our islands. In February of 2009, the occupancy rate for Hawaii hotels was at its lowest rate since 1991, and total visitor expenditures fell 15.9 per cent, according to the Department of Business, Economic Development, and Tourism. Oahu experienced the smallest part of the occupancy rate decline, and the island of Hawaii experienced the largest.

Our island economy continues to be impacted by the loss of ATA and Aloha Airlines, two cruise ships, Hawaii Superferry, and the closure of Molokai Ranch. As of April of 2009, Hilo Hattie, a local clothing favorite, lost \$4.6 million in its first five months in a Chapter 11 bankruptcy reorganization filed on October 2, 2008. Construction slowed dramatically in 2009, which resulted in additional job losses. The State's unemployment rate is not expected to peak until the fourth quarter of 2009.

Oil prices, the housing market, and U.S. credit remain wild-card factors that could have long-lasting impacts on the Hawaii economy. Your Committee finds that, as of April of 2009, the Economic Outlook for Hawaii is uncertain.

### GENERAL FUND REVENUE OUTLOOK

By statute, the Council on Revenues (COR) reports its latest tax revenue forecast to the Governor and the Legislature on June 1, September 10, January 10, and March 15 of each year. The revenues come primarily from the general excise tax and the state income tax. Since the March 2008 forecast, the COR has each time reduced its prediction of tax revenues for the coming fiscal years. From March 2008 to October 2008, the COR general fund tax revenue projection through the upcoming biennium dropped by \$1.341 billion.

The Governor based her original Biennium Budget Request on the October 2008 COR projection. In early January 2009, soon after the Governor's budget was finalized and submitted to the Legislature, the COR revised its forecast downward; the projection was reduced by \$637 million through the coming biennium. Thus, from the COR March 2008 projection to the January 2009 projection, general fund revenues had declined by nearly \$2 billion.

The House of Representatives then had the unenviable task of crafting its draft of the budget, which needed to balance to the COR's January forecast. The House accomplished this, in part, by controlling expenditures through eliminating programs and filled and vacant positions, cutting into the base budget, and transferring general fund expenses to non-general funds.

On March 12, 2009, the COR tax revenue outlook was again downgraded by \$262 million over the biennium (down \$92.8 million in the current year, \$115.8 million in FY2010 and \$53.4 million in FY2011). Then in mid-March, the Senate Committee on Ways and Means began in earnest the equally, if not more, unenviable task of crafting an even slimmer budget to balance with the new revenue projection.

### BUDGET OVERVIEW

Never before has the State of Hawaii faced a declining revenue picture approaching the magnitude of that currently confronting the 25th Legislature. In fact, the \$2 billion shortfall through the biennium budget as projected at the start of this legislative session seemed to have left many in various states of denial. While considerable budget reductions are a necessary component of a balanced financial plan, they are just one factor in aligning the State's expenditures and revenues.

In an effort to close the budget shortfall, the Governor attempted to reduce each department's discretionary budget by 20 per cent. The factors that determined the amounts deemed discretionary are still not entirely clear, and many departments did not meet the target reduction. Nonetheless, reductions resulting from this exercise and other adjustments made by the Governor resulted in a net decrease of operating costs of \$209 million for FY2010 and \$186 million for FY2011. Accounting for previously authorized collective bargaining amounts and other fixed cost adjustments resulted in the Governor's Fiscal Biennium 2009-2011 executive budget request of \$5.361 billion for the first fiscal year, and \$5.464 billion the second.

The State House of Representatives, setting forth to further close the budget gap, reduced the Governor's proposed budget by \$236 million for FY2010 and \$171 million for FY2011. These additional reductions came with a high price; the House draft of the executive budget would result in the elimination of 374 positions, currently filled by state workers, and the abolishment of a number of state programs.

Subsequent to the introduction of the House draft, the Governor adjusted the biennium budget request. These adjustments included reductions to account for the use of such funds as the Emergency and Budget Reserve Fund and American Recovery and Reinvestment Act of 2009 (ARRA) stimulus funds. This, along with other adjustments, lowered the net executive budget request by \$190 million and \$69 million for FY2010 and FY2011, respectively.

Aware of the harm further reduction to the budget could cause to the State's ability to deliver vital services to the public, and of the potential for long-term disarray within State agencies that could arise, your Committee set out to reduce the Governor's proposed budget in areas it believes to be least detrimental to core and direct services. Your Committee achieved a net reduction to the Governor's proposed budget as adjusted for Governor's Message items of \$58 million in FY2010 and \$83 million in FY2011. Reductions were generally attained by:

- Moving operating expenses from general funds to non-general funds where appropriate;
- Reducing programs that are currently of limited value or are of great expense for the benefits derived;
- Reducing positions that, with some exception, were vacant for one year or longer; and
- Reducing a limited number of exempt positions that are not needed for the State to carry out its necessary functions.

**DEPARTMENT HIGHLIGHTS**

Human Services

Especially in these times, your Committee finds it important to support the Department of Human Services in its effort to provide services to those most in need. The Governor imposed a number of adjustments on this department's budget that would result in the loss of important services to the State's most vulnerable citizens.

Of particular note is the Governor's elimination of Adult Dental Services for Medicaid eligible adults. The program provides for those that could not otherwise afford services such as exams, cleanings, and benefits for dentures. An enhanced Federal Medical Assistance Percentage (FMAP) made available through the ARRA allows your Committee to restore the entire program with the provision of \$2.6 million for FY2010 and \$3.1 million for FY2011.

The enhanced FMAP rate under ARRA also allows your Committee to provide the same level of support for Medicaid eligible services while providing for significant general fund savings. While the Governor proposes removing \$182 million in general funds over the biennium from the program as a result of the enhanced rate, your Committee reduces just \$154 million in general funds to assist the program with a shortfall that would result in untimely payments to service providers.

Highlights of your Committee's biennium appropriations from the State general fund include \$433 million and \$541 million for FY2010 and, respectively, in the MedQuest Program; \$25.5 million in both fiscal years for Cash Support for Families-Self-Sufficiency; \$15 million in both fiscal years for Case Management for Self-Sufficiency, and \$19 million in both fiscal years for Cash Support for Child Care, which help to maintain the State's claim to an annual federal TANF block grant.

Your Committee reduced job acquisition training expenses in the Office of Community Services (OCS). These reductions have yielded a savings of \$1.8 million in each year of the fiscal biennium. Your Committee believes the existing supply of trained labor may exceed the demands of employers in the State through the upcoming biennium and that the training component of the OCS is not a core function of the department.

Your Committee remains concerned with the structure under which federal Temporary Assistance for Needy Families (TANF) funds are spent. Your Committee has allocated these funds as follows:

• Cash Assistance-TANF Purpose 1	\$44,000,000
• Work Training and Support Services-TANF Purpose 2	\$23,000,000
• Child Welfare Services Purchases of Services	\$ 3,000,000
• ENHANCED Healthy Start	\$ 4,000,000
• "UPLINK" after school Program	\$ 3,000,000
• TANF transfer to Child Care Development Fund	\$19,800,000

• TANF transfer to Social	\$ 9,890,000
• Services Block Grant Information Systems Development and Enhancements	\$ 5,000,000
• Administration	\$ 9,500,000

Your Committee's TANF spending plan allows nearly \$10 million more dollars than the Governor's plan to be carried forward at the close of each fiscal year as part of the TANF Reserve Account, remaining available to the State should the current economic contraction persist.

#### Hawaii Health Systems Corporation and Kahuku Hospital

Your Committee affirms its support and commitment to providing the resources necessary to help Hawaii Health Systems Corporation (HHSC) maintain its current level of services. HHSC is essential, as it serves as a public safety net to many residents and visitors of our island communities and counties, especially those of the neighbor islands. To assist HHSC regions in meeting their cash flow needs, your Committee provided an additional general fund subsidy of \$30 million for each year of the fiscal biennium, to be expended to the extent possible for Medicaid eligible services.

Your Committee is concerned with the management, both fiscally and operationally, of the HHSC regions. Thus, your Committee created a new program, HHSC Regions (Health 212), to increase transparency and accountability. In addition, your Committee provided \$500,000 of general funds to allow for a comprehensive review and evaluation of HHSC corporate and its regions.

#### Health

Your Committee is dedicated to protecting the health and well-being of people in Hawaii and ensuring basic health care to all. This is especially challenging, given the growing need for health care in the face of economic hardship. It is vital that health care be available and accessible to everyone. To meet this need, your Committee increased funding to critical services that were either reduced or eliminated in the Governor's budget.

Community health care centers serve as the safety net for individuals who otherwise could not receive vital health care. Health care centers are already experiencing an increase in the number of individuals seeking services; this demand is expected to grow. To ensure that all residents are able to receive medical care, your Committee increased funding to community health care centers throughout the State to a total of \$6,591,526 in each fiscal year.

Your Committee is also concerned that the downturn in the economy imposes untold stress on individuals and families. To address this concern, your Committee restored funding for the following program and services that were eliminated by the Governor. Funding for these services will come from special funds.

- Partnership in Community Living to provide last-resort support for families of developmentally disabled individuals who are not eligible for Medicaid: \$700,000.
- Healthy Start to prevent child abuse and promote positive parent-child relationships: \$3 million.
- Respite care to provide temporary relief to families that have ongoing caregiving responsibilities for family members with developmental or mental disabilities: \$412,024.

The ARRA provides stimulus funds in the amount of \$87,759,247 for FY2010 and \$15,240,740 for FY2011. This infusion of funding will have a significant impact on the following programs and services:

- Enhanced FMAP reimbursements will reduce the need of the following general fund expenditures:
  - ❖ Developmental Disabilities: \$14,473,221 in FY2010 and \$4,975,266 in FY2011;
  - ❖ Adult Mental Health: \$2,531,764 in FY2010 and \$870,310 in FY2011;
  - ❖ Child and Adolescent Mental Health: \$3,042,537 in FY2010 and \$1,045,893 in FY2011.
- Early Intervention to ensure compliance with the federal Individuals with Disabilities Education Act, Part C: \$2,139,843 in FY2011.
- Emergency Medical Services to improve communication between ambulances and hospitals; and to implement a statewide telecommunication system for critical patient information: \$11 million in FY2010 and \$7,865,000 in FY2011.
- Environmental Management to provide grants for drinking water and wastewater infrastructure improvements, diesel emissions reductions for school buses, regulatory oversight of underground storage tanks, and technical expertise for water quality standards: \$53,505,883 in FY2010.

Your Committee finds that the reorganization plan proposed by the Department of Health does not deliver any cost savings or efficiencies for the program or services. The reorganization may have a negative impact on clients and staff, disrupt the delivery of services, and incur additional costs.

Your Committee diligently strove to work with the department; however, it is unfortunate that the department chose not to assist in identifying less core services and possible areas for reduction. It must also be noted that your Committee has made its best effort in developing this budget without pertinent information from the department, particularly the itemized operating biennium budget for FB2009-2011.

#### Public Education

Your Committee recognizes the importance of providing a quality education to our children, to ensure their ability to thrive in the global society of today and tomorrow. Preserving school-level funding, particularly funds to be distributed via the Weighted Student Formula, is a top priority of your Committee. Unfortunately, your Committee was not able to restore the \$40 million in non-Weighted Student Formula program cuts that were included in the Governor's budget and accepted by the Board of Education.

Hawaii is fortunate to be receiving federal stimulus dollars to support education and other state programs in the upcoming biennium. Your Committee is pleased to have the ability to appropriate stimulus dollars for the following educational programs: \$19.8 million for Title I and Educational Technology in FY2010; \$20 million for IDEA Part B & IDEA Part B Preschool funds in FY2010; and \$116,000 for the McKinney Vento Homeless Assistance Program in FY2010.

However, your Committee respectfully disagrees with the Governor's initial plan regarding the timing of the use of a large portion of federal stimulus funds intended for education stabilization. In the interest of insulating the school system from much of the impact of the budget shortfall, your Committee has provided \$56.6 million in stimulus dollars for education in each year of the biennium. These funds will be distributed between public schools and charter schools based on the latest enrollment projection available to your Committee. By contrast, the Governor has proposed to immediately use \$90 million of the \$113 million in the federal stabilization funds intended to go to lower education, in an effort to balance the state budget in the current fiscal year.

The receipt of federal stimulus dollars has provided your Committee with an opportunity to make adjustments to the charter schools' FY2010 and FY2011 budget allocations in order to accurately reflect the amounts prescribed by section 302B-12, Hawaii Revised Statutes. Charters will be able to make the \$5.3 million corrective reduction of general funds without substantial impact to delivery of services because their budget will be largely offset with the addition of funds for collective bargaining and \$2.8 million in federal stabilization funds. The net reduction to the charter school budget will be less than \$1 million, which represents a year-to-year reduction of less than two per cent.

Your Committee has struggled this session to make informed and equitable decisions regarding charter school funding because of the limited information charter schools made available. Charters currently enjoy an extremely flexible operating environment, which was provided to enhance program creativity and resourcefulness, with the goal of creating better outcomes for students. However, as a publicly-funded entity, charter schools must provide transparency and ensure that public funds are properly used. Your Committee requests that charter schools provide a budget that reflects all fiscal resources anticipated to be available to the schools for the next year; report on the consistency of procurement practices with the guidelines in Chapter 302B, Hawaii Revised Statutes; and account for all exemptions to normal employee compensation levels. Your Committee also requests that all charter schools work with the Charter Schools Administrative Office annually to provide the Legislature full and accurate financial information to enhance future decision making processes.

Your Committee made no further reductions to the budget of the Hawaii State Public Library System. Use of the library system has increased during the current recession and the system would not be able to withstand additional cuts without decreasing security or closing branches.

Additionally, your Committee is transferring the fixed costs of debt service, health premiums, and retirement benefits from the department's budget to the Department of Budget and Finance and is transferring risk management costs to the Department of Accounting and General Services. The budgeting of these items with the department has no perceivable benefit and creates unneeded bureaucracy and confusion regarding the proportionate level of funding provided the department.

#### Higher Education

The University of Hawaii System is the State's only public institution for higher learning and plays a critical role in building a strong foundation for Hawaii's future. While budget reductions for most state agencies are unavoidable, the University is fortunate to have significant non-general fund revenues and access to federal stimulus funds.

Your Committee accepted the 20 per cent discretionary target reduction scenario approved by the Board of Regents, which amounts to an additional reduction of \$17.1 million in general funds each fiscal year. Your Committee further reduced \$15.4 million each fiscal year, which will be offset by an anticipated \$25 million increase per year in tuition and fees revenue based on built-in annual tuition increases. The addition of ARRA education stabilization funds will also reduce the impact of these adjustments.

The university system is now experiencing record-high enrollment as people seek additional training to increase their job prospects. The greatest increase is at the community college level, where enrollment has increased by 9.4 per cent. As such, your Committee sought to maintain support for the Community Colleges by providing enough ARRA education stabilization funds to offset nearly all of the \$8 million in general funds reduced from their budget. In total, the University of Hawaii will receive \$54 million in ARRA education stabilization funds over the course of the biennium.

#### Public Safety

Your Committee notes that Hawaii continues to struggle with the persistent growth of the inmate population. The traditional solution to prison overcrowding is to build additional facilities or expand existing ones. Since it is unlikely that any new facilities will be built in the near future, your Committee recognizes the need for interim measures.

The current administration's primary strategy for reducing overcrowding has been to transfer inmates out of the State. However, with a total of 2,298 inmates (2,093 male and 205 female) housed in out-of-state facilities, and the escalating costs associated with those inmates, your Committee finds it necessary to support programs that help reduce the number of inmates in Hawaii's corrections system. Your Committee provided \$565,677 for FY2010 and \$540,733 for FY2011 to establish a pilot program on Oahu that electronically monitors committed persons who are permitted to live and work in the community in lieu of continued incarceration.

Prior delays in transferring inmates to out-of-state facilities have resulted in the accumulation of \$7.7 million that is in excess of the department's need for contracted bed space. Your Committee has identified this amount as a one-time general fund savings in FY2010 that can be reduced with no impact to the department's operations.

Your Committee reviewed operations of the Sheriff Division and made the following adjustments:

- Reduced five vacant positions and funds for the Airport Unit to bring position count to the number required under the memorandum of understanding with the Department of Transportation Airports Division.
- Reduced four general funded positions and re-allocated resources to establish three additional warrant teams.

Your Committee continues to be concerned by excessive overtime expenditures and the reported abuse of sick leave benefits by employees. Overtime expenditures for FY2008 totaled \$9.8 million, which is 31.7 per cent above the budgeted amount of \$7.5 million. Your Committee reduced funds for overtime by 25 per cent of FY2008 actual expenditures or \$2.5 in general funds. Your Committee established a protocol fund that will be used to encourage employees to reduce sick leave abuse and the need for overtime.

#### Land and Natural Resources

Your Committee believes that protecting Hawaii's natural resources and preserving its unique endemic species should remain priorities, even in difficult financial times. Hawaii's resources are constantly being threatened by alien plant and animal pests and by public overuse. To prevent further degradation of these resources, your Committee has restored \$100,000 for invasive species support that was reduced in the Governor's budget. To protect the State's aquatic resources, your Committee has restored \$47,500 for coastal stock enhancement and \$90,000 for Anuenue Fisheries Research Center.

The department identified public safety and park operations as its top priorities, and accordingly, your Committee has restored, through the use of special funds, funding for lifeguard services at Kaena Point State Park and Keawaula beach that were reduced in the Governor's proposed budget.

#### Agriculture

Your Committee recognizes the importance of agriculture to Hawaii's economy, both as an exportable commodity and as a means to allow the State to become less dependent on imported food products. As such, your Committee has taken steps to ensure that the department continues to conserve, develop, and utilize the agricultural resources of the State. Your Committee has given high priority to preventing the introduction and establishment of pests in the State.

Act 9, Special Session Laws of Hawaii 2007, established a user fee for the inspection of sea and air containers bound for Hawaii that may be carrying pests. Your Committee has provided \$6 million in special funds to conduct harbor inspection programs and early detection and rapid response activities for invasive species. These funds will allow the department to retain almost all plant quarantine inspector positions proposed for reduction by the Governor.

Your Committee has eliminated the detector dog program that has proven to be of limited value and has transferred the Measurements Standards Branch to the Department of Commerce and Consumer Affairs. The transfer of Measurements Standards will ease the administrative burden on the Department of Agriculture, create a general fund savings, and place the branch in a department with more appropriately aligned functions.

#### Business, Economic Development, and Tourism

Your Committee realizes the importance of Hawaii's existing businesses as drivers of Hawaii's economy. Your Committee has found that the Department of Business, Economic Development, and Tourism (DBEDT) has lost sight of its core functions and is unable to effectively manage the department's mission. With that in mind, your Committee created general fund savings, efficiencies, and transparency by transferring programs within DBEDT to more appropriate departments that share common missions and objectives. This will allow DBEDT to focus on its core functions and responsibilities.

Your Committee has made the following transfers of DBEDT programs:

- The Small Business Regulatory Review Board to the Department of Commerce and Consumer Affairs (DCCA);
- The Statewide Land Use Commission and Office of Statewide Planning and Coordination to the Department of Land and Natural Resources;
- Natural Energy Laboratory of Hawaii Authority, High Technology Development Corporation, and Research and Economic Analysis to the University of Hawaii;
- Creative Industries Arts and Culture Branch to the State Foundation on Culture and Arts; and
- Film Industry Branch to the Hawaii Tourism Authority (HTA). HTA's expertise in marketing and existing relationships will allow the Film Industry Branch to flourish and become more of an economic driver and marketing tool for the State.

Your Committee understands that the modernization of our state harbors needs to be a priority. Aloha Tower Development Corporation (ATDC) remains entangled in litigation and has not completed any projects related to the Harbors Modernization Plan. Your Committee finds ATDC unable to effectively lead the Harbors Modernization Plan and carry out the functions for which it was created; consequently, your Committee restored the responsibility of improving harbors to the Department of Transportation, Harbors Division.

Hawaii currently relies on imported oil for over 93 per cent of its energy needs. Over the years, the Legislature has provided substantial resources for the Clean Energy Initiative, under the guidance of DBEDT, for the purpose of promoting energy independence for the State. With funding from the ARRA, DBEDT will have the opportunity to become more energy independent. Your Committee created a general fund savings of \$875,283 while retaining existing staff and creating new positions with the use of \$6.2 million in existing federal funds and \$30 million in new stimulus money. This will allow the department to focus on creating clear objectives with specific performance measures and goals.

#### Labor and Industrial Relations

With the exception of the elevators and boiler safety section, your Committee has reduced funding for the Hawaii Occupational Safety and Health Division (HIOSH) starting in FY2011. Your Committee made the proposal so the return to federal OSHA jurisdiction could be further discussed. Relinquishing jurisdiction of the program would result in releasing the State from the burden of administering the program and possibly returning the program to a higher level of effectiveness seen when the program was under past federal jurisdiction.

#### Transportation

Your Committee has become increasingly concerned with the department's financial plan with respect to deficit spending of its special funds. Accordingly, your Committee reduced spending through a \$5 million prorated reduction across all programs within the Harbors division and a \$10 million prorated reduction across all programs within the Highways division. These reductions will allow the divisions' expenditures to better align with existing and future revenue projections.

Your Committee is also concerned with certain aspects of the Airports Division. Thus, your Committee requests that the State Auditor perform a financial audit of the Department of Transportation regarding its accounting procedures, procurement practices, controls over lease renewals and renegotiations, ability to monitor and collect outstanding receivables, and means of accurately charging fees.

#### Budget and Finance

Your Committee provides for the consolidation in the department of fixed costs for debt service, retirement benefits, and health premium costs chargeable to the University of Hawaii and the Department of Education. This consolidation is achieved by cost accounting in three of the department's existing program areas. Your Committee has ensured by proviso that the costs separately chargeable to the University of Hawaii and the Department of Education are clearly stated.

The Administration proposed to execute Act 177, Session Laws of Hawaii 2007, providing for the Public Utility Commission (PUC) reorganization by increasing staff and appropriating a large amount of funds for the relocation to new office space on Oahu. However, your Committee finds that there are no suitable facilities available to house the PUC at this time. Consequently, your Committee does not appropriate funds for any PUC reorganization at this time.

#### Accounting and General Services

Your Committee improves efficiencies by transferring \$9.2 million of funds earmarked for the State's insurance premiums from the University of Hawaii and the Department of Education to the department to reduce unnecessary delays. To generate general fund savings, your Committee changed the means of financing for \$3.5 million of insurance premiums from general funds to state risk management revolving funds.

Your Committee understands the State's fundamental obligation to conduct state and federal elections and recognizes the need for new voting equipment. For the Office of Elections, your Committee reduced general funds by \$229,248 and provides \$925,000 for the voting system contract and purchase of voting equipment for FY2010, a non-election year. Funding for FY2011 remains unchanged from the Governor's proposed budget.

Your Committee recognizes the plight of maintaining historic sites and museums. Based on the passage of S.B. No. 602 relating to the Arts, your Committee restored a subsidy of \$418,000 to the Bishop Museum and provided \$250,000 for the Iolani Palace, both through non-general funding.

#### Attorney General

Your Committee recognizes the importance of the department in its role as legal counsel for the State of Hawaii. Your Committee made an effort to reduce the department's budget in areas that would have limited impact on services to state agencies and the general public.

Your Committee provided the department with \$6 million in federal funds over the biennium for the Crime Assistance Grant, the Byrne Memorial Justice Assistance Grant, the Violence Against Women Grant, and the Internet Crimes Against Children Grant. Your Committee also provided \$4.5 million in federal stimulus funds over the biennium for the Child Support Enforcement Agency.

### **CAPITAL IMPROVEMENT PROGRAM**

Your Committee finds that well-maintained physical infrastructure and state facilities are essential to maintaining a positive business climate and a strong economic foundation, which will ultimately help to support the State's ability to navigate through the current, and any future, precarious economic conditions. Your Committee further finds that to combat the effects of the current recession and experience positive growth, the continued investment in our economy, by various means, is necessary. Investment in infrastructure and facilities is crucial for short-term economic growth and job creation. However, additional and increased investment in education, technology, communications, health care facilities, energy and environment, and other needs must also be examined to ensure sustained long-term economic recovery and growth for our State and its residents.

Your Committee finds that the need to invest in local infrastructure to help stimulate direct and indirect job creation is highly critical at this time when the State is experiencing its highest unemployment rate in thirty years. Fortunately, this type of investment is also a high priority of the federal government. Expediency in the creation and maintenance of local construction jobs, as well jobs for architects, engineers, and other consultants associated with capital projects, will generate more disposable income, which will in turn circulate throughout our economy.

Accordingly, the Administration's capital improvement program biennium budget, as amended pursuant to Governor's Messages, provided a total of \$955,155,000 for projects funded by general obligation (G.O.) bonds and general obligation reimbursable (G.O.R.) bonds and \$3,192,112,000 for all projects funded by all means of financing. Similarly, your Committee, after carefully considering the current economy along with the proposals, needs, and priorities of the Administration and the departments, has provided a total of \$939,787,000 for projects funded by G.O. and G.O.R. bonds and \$3,453,431,000 for projects funded by all means of financing.

However, your Committee, mindful of the Administration's proposed debt service level and the volatile bond market conditions that at present continue to curtail bond issuance plans, has followed a different approach than that of the Administration in formulating its capital improvement program biennium budget. First, your Committee has reevaluated the funding for prior appropriated Executive Budget projects and, as a result, has lapsed funding for several projects in the amount of \$45,553,719. These lapses represent unrequired balances for completed projects, funds for which the Administration has denied allotment for various reasons, funds that the departments have indicated are otherwise unnecessary, insufficient, or for projects that are unlikely to be undertaken within the necessary timeframe to avoid standard lapsing, and funds that do not demonstrate the current priorities of the State.

Next, your Committee crafted a biennium budget that includes projects that are essential to assist in achieving short-term economic stimulation, as well as projects that will help to stabilize the infrastructure to accommodate for long-term growth. This budget aggressively focuses on funding both crucial and significant capital projects that can be undertaken immediately in FY2010. This approach not only concentrates on the merits of the proposed FY2010 funded projects, but, more importantly, also provides increased funding for several projects. Your Committee believes that front-loading funding for the biennium in FY2010 will provide an immediate infusion of funds for shovel-ready projects. This approach will empower departments and agencies with the ability and greater flexibility, as such funds will not lapse for three years, to address their current needs and requirements expeditiously. Although also providing for certain fixed capital improvement projects and costs for FY2011, your Committee's decision to primarily concentrate on FY2010 funding mirrors the federal government's initiative in demonstrating its commitment to stimulating the economy and funneling money to departments and programs throughout the State as quickly as possible.

Accordingly, your Committee believes that increased funding in the first year of the biennium will allow the State to:

- (1) Address many critical health, safety, and code requirements;
- (2) Reduce current repair and maintenance backlogs throughout several departments;
- (3) Provide jobs for unemployed and underemployed residents; and
- (4) Provide the framework for growth and expansion of services, programs, and facilities.

Additionally, prior to fully funding the capital investment needs of the State for FY2011, the Legislature will have had the opportunity to monitor and reassess the economic conditions; the needs and priorities of the State, Administration, and departments; the ability of the departments to utilize the funds previously appropriated; and the adequacy and capacity of the workforce to deliver necessary services. Your Committee believes that this approach will aid the Legislature in formulating a more comprehensive and responsive capital improvements program budget for FY2011.

A continuing concern for the State is to ensure that our keiki are properly educated and employable, which will contribute to the State's long-term economic viability. Investment in our public schools, at all levels, is necessary to help improve, expand, and grow new programs and facilities. However, the continuing need to address the existing and growing backlog of repair and maintenance projects within the Department of Education and the University of Hawaii System is critical. Your Committee has demonstrated its ongoing commitment to reducing and ultimately eliminating these repair and maintenance backlogs over the next three to seven years by appropriating, for FY2010, \$155,000,000 for repair and maintenance projects of the Department of Education and \$107,000,000 for capital renewal and deferred maintenance projects of the University of Hawaii System. These commitments represent increases of \$110,800,000 and \$45,575,000 above the Administration's budget proposals for FY2010 for repair and maintenance projects of the Department of Education and the University of Hawaii System, respectively.

In the past, despite efforts to provide increased funding to the Department of Education to address the repair and maintenance backlog, the Administration has limited the Department's ability to utilize funds by failing to release the necessary funds to demonstrate progress. However, in light of the depressed economy and the Administration's commitment to stimulating the local economy through its Five-Point Plan, which highlights "investing in improvements to our infrastructure and state facilities" and the creation of jobs, as evinced through the Administration's \$1.8 billion capital improvement plan, your Committee is confident that the funds will be released and projects completed. At any rate, under your Committee's proposal, the Legislature will be able to revisit the issue and adjust funding levels accordingly for FY2010 and FY2011 during the next regular session. Additionally, as previously mentioned, because the funds will not lapse for three years, the potential remains for all FY2010 projects to move forward.

Another area of great import to the State is the goal of developing sustainable and renewable energy strategies and initiatives to increase energy efficiency and reduce energy consumption. Your Committee is supportive of energy efficiency improvements, which will ultimately lead to costs savings and reducing the State's carbon footprint. Consequently, the budget provides \$19,049,000 for conservation and energy efficiency measures of the Department of Accounting and General Services for FY2010, to be delivered through the use of Energy Savings Performance Contracting; \$5,340,000 for FY2010 and FY2011 for energy savings improvements and renewable energy projects of the Department of Defense; \$3,088,000 for FY2010 for energy efficiency improvements projects at Department of Health facilities; and \$2,000,000 for FY2010 and FY2011 for energy efficiency and conservation improvements at state parks facilities under the Department of Land and Natural Resources.

Additionally, your Committee has provided critical funding for the following:

- (1) Hawaii Health Systems Corporation:
  - (A) \$20,222,000 in FY2010 for repair and maintenance projects of the Hawaii Health Systems Corporation, an amount that represents more than twice the amount proposed by the Administration; and
  - (B) \$35,031,000 for FY2010 and FY2011 for renovation and expansion projects at hospitals within the Hawaii Health Systems Corporation;
- (2) \$70,597,000 for FY2010 and FY2011 for repairs and improvements to Aloha Stadium to ensure safe conditions for spectators, players, participants, and workers and to allow the facility to maintain and attract sports and other entertainment events;

- (3) \$7,913,000 for FY2010 for nonroutine repair and maintenance projects of the Hawaii Public Housing Authority to repair and improve affordable public housing facilities throughout the State;
- (4) \$16,526,000 for FY2010 for grants-in-aid to nonprofit organizations for facilities improvements and expansion. Such assistance is vital, as these nonprofit organizations continue to provide additional services to our residents, in light of the fact that the State may be forced to reduce services due to the current economic climate; and
- (5) Various projects within the Department of Transportation, Department of Defense, Department of Agriculture, Department of Health, and the University of Hawaii, among others, to ensure that matching federal, private, and other funds contributions may be maximized and not lost or forfeited.

Finally, the biennium budget provides funding for various other capital projects that your Committee believes should be included at this time, but that may warrant further discussion as the budget is further refined during the remainder of session to meet the evolving needs and priorities of the State.

#### **LARGER FISCAL CONTEXT OF THE BUDGET**

Clearly, a budget is made up of both planned expenditures and planned revenues. While this measure represents the vast majority of planned state expenditures, the funding levels contained in this measure are contingent on other measures that have been passed by your Committee. These measures look to spread the cost of public services to segments of the community that may be in a better position to absorb the impact of the adjustment.

##### Increases to Income Taxes for High Wage Earners

Your Committee finds that Hawaii's current tax structure is regressive, with lower and middle income taxpayers shouldering the major portion of the tax burden. Generally, those who are more able to pay have a disproportionately greater interest in maintaining societal goods typically supported by taxation such as security of property rights and maintenance of infrastructure, since they have much more to lose if these fail than do the poor.

Also, economic demand can be stimulated by reducing the tax burden on lower income individuals, which encourages greater consumption, and raising the burden on higher income individuals, which encourages greater productivity.

While there have been many studies and proposals suggesting ways to shift the burden to those who can afford to pay more, little has been accomplished. Therefore, your Committee has passed House Bill No. 1747, H.D. 1, S.D. 1, Relating to Taxation, which increases the number of tax brackets and raises the tax rates on the high-income brackets.

##### State Retention of Transient Accommodations Tax (TAT) Collections

During these tough economic times, the legislature needs to balance the needs of the counties against the State's programs and expenses that are supported by the general fund. It must be remembered that this direct tax allocation to the counties is really a windfall, given the counties' plea for complete control of the real property tax at the 1978 Constitutional Convention. At that time, the counties contended that if they could have complete control over the real property tax, they would be able to raise the revenues they needed. However, even after getting the real property tax, the counties continued to seek state financial support in the early 1980s, requesting grants-in-aid or other taxing powers. In the late 1980s, the Legislature did take some of the TAT funds to make a one-time grant to the counties, and later, when the TAT was earmarked for the convention center, lawmakers earmarked a fixed percentage of TAT collections for each county. In these difficult times, your Committee recognizes that county governments have not experienced the tremendous decline in revenues experienced by state government. Therefore, your Committee passed H.B. No. 1744, H.D. 1, S.D. 1, Relating to the Transient Accommodations Tax, to suspend the TAT distributions to the counties while providing counties, the authority to implement a TAT surcharge up to five per cent.

The funding provided to the State by this measure allowed your Committee to reallocate resources to programs that benefit and serve residents and visitors alike. As an example, the \$30 million general fund subsidy to the HHSC regional systems allows its facilities to continue serving its communities, a majority being rural communities on the neighbor islands, at the same levels of service and to work on important initiatives to expand needed services.

Over the years, the counties shifted more and more of the real property tax burden onto nonresidential classes of property. This created the illusion for residential owners that more programs could be provided without raising property taxes on residential property. Now that the nonresidential properties have been tapped out, counties have the option to go back to homeowners and ask for increases in their property taxes if they want to keep receiving the same level of county services. Therefore, your Committee has passed H.B. No. 1605, H.D. 1, S.D. 1, Relating to Taxation, to empower the counties to implement a one per cent sales tax on retail purchases.

##### Tightening up on Tax Credits

Hawaii's tax laws contain special tax credits and exemptions that were enacted to promote various social or economic goals. In general, basic principles of public finance dictate that tax rates should be as uniform as possible to minimize the distortions that taxes create in the economy. It is therefore prudent to evaluate credits and exemptions from time to time and to tighten up these vehicles to ensure that they are working as intended. Therefore, your Committee passed H.B. No. 611, H.D. 1, S.D. 1, Relating to Taxation, to temporarily suspend the capital goods excise tax credit and H.B. No. 1451, H.D. 1, S.D. 2, Relating to Taxation, to reexamine the high technology tax credits.

##### Increased Taxes on Tobacco Products

Increasing the tax on tobacco products other than cigarettes is timely. The current tax of 40 per cent of the wholesale price was established in 1965 and has never been increased. Other states have much higher rates ranging from 65 per cent (Oregon) to as high as 90 per cent (Massachusetts).

Increasing the tax on such products will also provide funding to address increasing health care costs and, given the current economic downturn, ensure the sustainability of community health centers and tobacco control programs.

As experienced in other states that have implemented similar increases, the increased tax will also deter the use of such products, especially by Hawaii's youth, and provide revenues to support tobacco prevention programs. Therefore, your Committee passed H.B. No. 895, Relating to Tax on Tobacco Products Other Than Cigarettes, to increase the tax in three steps, from 40 per cent to 90 per cent by 2011.

#### Transfer of Excess Balances to the General Fund

Another tool available to help balance the budget is a transfer of non-required cash balances to the general fund. This is an option that the Governor exercised with the proposed transfer from the Beverage Container Deposit and the Wireless 911 special funds. Your Committee agrees with the reasonableness of redirecting non-required cash balances to help meet needs. Your Committee has passed H.B. No. 39, H.D. 2, S.D. 1, Relating to State Revenues, to draw an additional \$40 million in the Governor's financial plan in the current fiscal year (FY2009) and \$40 million in FY2010.

### CONCLUSION

As your Committee looks to the upcoming conference phase of the session, we remain cognizant that, despite the differences in perspective held by the House of Representative and the Governor, only a truly collaborative effort will move the State through these difficult times while minimizing detrimental short- and long-term impact to the lives of Hawaii citizens. Your Committee on Ways and Means looks forward to working with both our legislative counterparts and the Executive Branch to find the most responsible and honest resolution to address the economic reality and produce a balanced State biennium budget.

In total, this budget amounts to \$5,113,810,721 in general funds and \$10,702,431,958 in all means of financing for FY2010 and \$5,311,995,243 in general funds and \$10,472,422,383 in all means of financing for FY2011. These figures represent an adjustment to the Governor's requested budget of \$57,506,986 in general funds and \$928,429,227 in all means of financing in FY2010 and \$82,737,865 in general funds and \$978,334,127 in all means of financing for FY2011.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 200, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 200, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

#### **SCRep. 1225      Ways and Means on H.B. No. 1600**

The purpose of this measure is to exempt from the general excise tax, amounts received by a common paymaster to pay employees of two or more related businesses, on behalf of the related businesses, where the applicable relationship is defined under Section 267(b) of the Internal Revenue Code.

Testimony in support of this measure was submitted by one private company and three individuals. One state agency and two organizations submitted comments.

Your Committee finds that many family and closely held businesses are made up of several companies, with one company handling the staffing and overhead expenses for the other related income producing companies. Your Committee also finds that, although these businesses are related, the amendments to section 237-24.7, Hawaii Revised Statutes, would still result in these staffing and overhead expenses being subject to the general excise tax.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that amounts received by one related person from another related person also include "other administrative and overhead expenses";
- (2) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure; and
- (3) Making a technical amendment to correct a statutory cross reference.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1600, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1600, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

#### **SCRep. 1226      Ways and Means on H.B. No. 1404**

The purpose of this measure is to repeal the sunset date on the general excise tax exemption on moneys paid by a timeshare association to a hotel operator for employee wages, salaries, payroll taxes, insurance premiums, and benefits.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Act 239, Session Laws of Hawaii 2007, provided timeshare associations, as defined in section 514E-1, Hawaii Revised Statutes, an exemption from the general excise tax imposed by chapter 237, Hawaii Revised Statutes, the same as extended to other hotel owners, on the payment of moneys to a hotel operator for employee wages, salaries, payroll taxes, insurance premiums, and benefits, including retirement, vacation, sick pay, and health benefits. However, this exemption for timeshare associations was to sunset on December 31,

2009. Your Committee finds that, in all fairness, timeshare associations should be afforded the same exemption that is provided for other hotel owners for moneys paid to a hotel operator for various employee expenses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1404, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1227 Commerce and Consumer Protection on H.B. No. 267**

The purpose of this measure is to exempt a lessee of a rental motor vehicle from the proof of ownership and other requirements applicable to the interisland shipping of vehicles.

Your Committee received testimony in support of this measure from Catrala-Hawaii and Young Brothers. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will ease the documentation requirements for transport of rental vehicles among the islands by regulated water carriers. Your Committee notes that this measure eases the burden on rental car companies by allowing them to streamline documentation requirements through negotiation with carriers. Your Committee finds that this measure will ease the interisland shipment of rental vehicles while still maintaining safeguards against the shipment of stolen vehicles.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 267, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1228 Commerce and Consumer Protection on H.B. No. 1362**

The purpose of this measure is to require licensure for individuals offering genetic counseling services in order to protect the public health, safety, and welfare, to protect consumers of genetic counseling, and to assure the availability of high quality genetic counseling services.

Your Committee received testimony in support of this measure from Kapiolani Medical Center and four private citizens. Testimony in opposition to this measure was received from the Department of Health. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that genetic counselors are uniquely trained allied health professionals who provide services including assessment for risk of genetic disease and psychosocial support for patients who are at-risk of or carriers of genetic disease. The use of genetic information in applied medicine is very recent, and the field has expanded rapidly since the completion of the Human Genome Project in 2003. The rapid advances in both scientific understanding of human genetics and biomedical techniques often present a challenge to practicing health care providers in maintaining up-to-date knowledge. Your Committee finds that licensure of genetic counselors will allow the State to enforce high standards for training, ethics, and continuing education among practitioners.

Your Committee further finds that the Department of Health's Genetics Program is an established entity with years of experience in clinical genetics service provision, genetics policy development, and public health genetics. Especially considering the small number of genetic counselors currently practicing in Hawaii, the licensing and oversight of genetic counselors fits seamlessly into the Department of Health Genetics Program's current responsibilities.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2011; provided that section -3(2) and section -16 of the new chapter established by section 2 of the measure shall take effect upon approval; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1362, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1362, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1229 Commerce and Consumer Protection on H.B. No. 814**

The purpose of this measure is to clarify the renewal requirements for a license as a nurse aide by:

- (1) Specifying the renewal period; and
- (2) Specifying the number of continuing education hours required annually.

Your Committee received testimony in support of this measure from the Department of Human Services, the Filipino Nurses' Organization of Hawaii, the Adult Foster Home Association of the Big Island, Hawaii Coalition of CareGivers, United Group of Care Home Operators, and eighty-eight private citizens. Testimony with comments was received from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that nurse aides are an important part of a health care team in both acute and long-term care settings. Your Committee further finds that this measure will help to improve the quality of health care that is available in this State. By requiring

recertification and continuing education for nurse aides, this measure will encourage high standards and help assure effective patient care.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 814, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 814, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1230 Commerce and Consumer Protection on H.B. No. 1270**

The purpose of this measure is to de-link the rate for non-fossil fuel generated energy from the price of fossil fuels.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Energy Policy Forum, Hawaiian Electric Company, Sun Power Systems Corporation, Alexander & Baldwin, Dowling Company, Inc., Blue Planet Foundation, and the Sierra Club, Hawaii Chapter. Testimony with comments on this measure was received from the Public Utilities Commission and the Department of Business, Economic Development, and Tourism. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will encourage renewable energy development in this State by stimulating demand for renewable energy through lowering its cost. Your Committee further finds that this measure will assist the State in achieving its goal of increased energy self-sufficiency.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purpose of clarity and accuracy in its language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1270, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1270, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1231 Commerce and Consumer Protection on H.B. No. 1378**

The purpose of this measure is to increase access to health care by:

- (1) Recognizing advanced practice registered nurses as participating primary health care providers for insurance purposes;
- (2) Authorizing advanced practice registered nurses to sign documents relating to health care for their patients;
- (3) Clarifying educational and other requirements for advanced practice registered nurses; and
- (4) Clarifying advanced practice registered nurses' authority with regard to prescriptions for drugs, medical equipment, and therapeutic regimes.

Your Committee received testimony in support of this measure from the Department of Human Services, University of Hawaii, the Board of Nursing, the American Academy of Nurse Practitioners, Hawaii Association of Professional Nurses, Hawai'i Primary Care Association, Healthcare Association of Hawaii, Kaiser Permanente, Ka'u Hospital, Lanai Women's Center, Hawaii Government Employees Association, Occupational Therapy Association of Hawaii, AARP Hawaii, Walgreens, and twenty-four private citizens. Testimony with comments on this measure was received from the Department of Public Safety, Hawaii Medical Board, and the Disability and Communication Access Board. Testimony in opposition to this measure was received from Hawaii Medical Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure will improve access to health care, especially in rural areas where there is a shortage of doctors. Your Committee further finds that advanced practice registered nurses are important members of the primary health care team and have expertise in both the science of medicine and the art of patient care.

Your Committee notes that it has worked in conjunction with insurers, health plans, the nursing school, the Center for Nursing, and the Board of Nursing to address the concerns raised by stakeholders regarding this measure. Further, your Committee has endeavored to advance this measure in a form that does not require any further technical changes in order to allow the House of Representatives to agree, if it is so inclined, to this measure in its current form and to avoid the need to appoint a conference committee.

Your Committee has amended this measure by:

- (1) Clarifying that prescriptive authority does not include the authority to request, receive, or sign for professional controlled substance samples;
- (2) Adding a definition of "advanced practice registered nurse with prescriptive authority" to section 329-1, Hawaii Revised Statutes;
- (3) Amending the definition of "practitioner" in section 329-1, Hawaii Revised Statutes, to include an advanced practice registered nurse with prescriptive authority licensed and registered under section 329-32, Hawaii Revised Statutes;
- (4) Clarifying in section 329-121, Hawaii Revised Statutes, that "physician" excludes an advanced practice registered nurse with prescriptive authority under section 457-8.6, Hawaii Revised Statutes; and

- (5) Making technical, nonsubstantive amendments for the purpose of clarity and accuracy in its language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1378, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1378, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1232 Commerce and Consumer Protection on H.B. No. 1696**

The purpose of this measure is to improve the operations of the motor vehicle rental industry by:

- (1) Replacing statutory references to “collision damage waiver” with “damage waiver”;
- (2) Amending damage waiver and motor vehicle law notice requirements;
- (3) Amending the allowable procedure for calculating damages assessed against a lessee of a motor vehicle;
- (4) Repealing data collection and reporting requirements for lessors of motor vehicles.

Your Committee received testimony in support of this measure from Catrala-Hawaii, Enterprise Rent-A-Car Company of Hawaii, and Vanguard Car Rental USA, dba National Car Rental and Alamo Rent A Car. Testimony with comments on this measure was received from the Department of Commerce and Consumer Affairs. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee notes the concern voiced in testimony by the Department of Commerce and Consumer Affairs that this measure will increase the amount paid by a consumer for damage to a rental vehicle that is subject to a damage waiver. However, your Committee also notes that, in accordance with past legislative practice, only provisions included in a measure as finally passed by a chamber of the Legislature may be considered in conference committee. To that end, your Committee encourages the interested parties to continue to work together in order to reach an agreeable solution for the final version of this measure.

Your Committee has amended this measure by:

- (1) Prohibiting a lessor from charging a lessee more than the cost of parts and labor for repairing a motor vehicle that is determined to no longer be in rentable condition and prohibiting the lessor from subsequently renting or leasing that vehicle;
- (2) Prohibiting a lessor from recovering any amount for damages to a motor vehicle from a lessee that the lessor has also recovered from a third party;
- (3) Reinstating a lessor’s obligation to collect and maintain data related to damage waivers and repairs and adding a requirement to provide that information to the Department of Commerce and Consumer affairs upon request; and
- (4) Deferring its effective date to July 1, 2050 to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1696, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1696, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1233 Judiciary and Government Operations on H.B. No. 618**

The purpose of this measure is to enact the Uniform Prudent Management of Institutional Funds Act to accommodate contemporary investment and expenditure practices in the management of funds intended to finance charitable purposes.

This measure allows public and private sector entities to respond to changing market conditions and industry practices in the management of funds designated for charitable purposes. This measure will facilitate efficient management and allow fund managers to maximize the return on their investments while protecting the interests of fund donors and beneficiaries.

Your Committee has amended this measure by:

- (1) Deleting the definition of “activity and use limitations”, as this term is not used in the measure, and inserting a definition of “charitable purpose” on the recommendation of the Attorney General; and
- (2) Correcting references to federal statutes, on the recommendation of the Commission to Promote Uniform Legislation.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 618, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 618, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1234 Judiciary and Government Operations on H.B. No. 869**

The purpose of this measure is to clarify the responsibility of an owner of a rental motor vehicle for a summons or citation issued to a lessee of the vehicle.

Under current law, if a default judgment on a summons or citation is entered against a lessee of a rental motor vehicle, the owner or lessor of the rental motor vehicle will be responsible for the summons or citation if the owner or lessor does not either provide the court with the lessee's name and address or have the court waive the requirement to provide this information, within forty-five days.

This measure amends the current law to:

- (1) Clarify the court's responsibility to mail a copy of the summons or citation to the lessor or owner of the rental motor vehicle within sixty days of its issuance; and
- (2) Afford the lessor or owner of the rental motor vehicle 60 days, rather than forty-five days, to provide the lessee's name and address to the court or to have the court waive the requirement to provide that information.

On the one hand, your Committee understands that the Judiciary is currently clearing a backlog of unresolved summons and citations and as a consequence U-drive companies have been receiving citations for which their lessees are responsible, dating back to 2006 and 2007. These companies have found it difficult to provide the courts with a timely response to these summons and citations since finding the names and addresses for responsible lessees is often difficult, given the passage of time. Furthermore, U-drive companies have reported that in some cases they have been contacted about summons and citations for which they have not received any notice from the court.

On the other hand, your Committee also understands that extending the time for the lessor or owner to respond on the summons or citation to the court, as proposed in this measure, may give rise to other problems, including delays in the processing of these cases, a negative impact on the collections process, and additional manual work processes and paperwork for the Judiciary staff.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2075, to continue discussions of this matter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 869, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 869, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1235      Judiciary and Government Operations on H.B. No. 1040**

The purpose of this measure is to make permanent Act 170, Session Laws of Hawaii 2002 (Act 170), relating to county liability for lifeguard services, and Act 82, Session Laws of Hawaii 2003 (Act 82), relating to public land liability.

Your Committee acknowledges the importance of the liability protections afforded by Act 170 and Act 82. However, your Committee finds that caution dictates that the sunset date of Act 170 and Act 82 should be extended rather than made permanent at this time.

Your Committee has amended this measure by:

- (1) Extending the sunset date of Act 170 and Act 82 for three years, i.e., until June 30, 2013; and
- (2) Changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1040, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1040, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1236      Judiciary and Government Operations on H.B. No. 1417**

The purpose of this measure is to prohibit the placement of paid, third-party advertisements on vehicles and trailers.

Your Committee finds that the current law allows advertisers to place signs and advertisements on vehicles when these same signs and advertisements would be prohibited if they were posted anywhere else, such as on a building or along the roadside. These vehicles function as billboards when they are driven or parked on the side of the road. Your Committee notes that this measure does not apply to vehicles or trailers that display advertisements for the business for which the vehicle or trailer is actually used.

Your Committee has amended this measure by:

- (1) Clarifying that it does not apply to vehicles, including trolley vehicles, that are used in the day-to-day operations of a business if the advertising on the vehicle:
  - (A) Relates only to that business; and
  - (B) Is directly limited to and directly related to an engaged passenger vehicle service route or contracted customer service business, including scheduled special events and parades;
- (2) Changing the effective date to July 1, 2075, to continue the discussions in this matter; and
- (3) Making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1417, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1417, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1237 (Majority) Judiciary and Government Operations on H.B. No. 1642**

The purpose of this measure is to clarify that any organization that is awarded a contract through state procurement laws and the request for proposal process is not entitled to receive more money, in any form, than the amount of the bid.

This measure also requires bidders to be properly licensed in the State to conduct the business being sought by the request for proposals, unless the business being sought is not required by the State to be licensed.

Your Committee finds that procurement laws regarding request for proposal procedures for the purchase of health and human services need to be clarified in order to make the process more equitable amongst all bidders for health and human services contracts.

Your Committee has amended this measure by:

- (1) Clarifying that the amount of the proposal shall not exceed the amount to be expended by the State, which addresses the situation where the provider may not meet the requirements under the contract and a lesser amount is warranted; and
- (2) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1642, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1642, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, none.

**SCRep. 1238 (Majority) Judiciary and Government Operations on H.B. No. 643**

The purpose of this measure is to allow the Contractors Licensing Board to revoke, suspend, or refuse to renew the license of a contractor who knowingly employs individuals who are ineligible for employment in the United States on public works contracts.

Your Committee finds that while federal law regulates eligibility criteria for foreign workers in the United States, the states retain a role in regulating state contracting and labor issues.

Your Committee believes that companies who are hiring illegal workers in this State to do public works projects are taking gainful employment away from our local workers who are struggling to keep food on their families' tables, pay their bills, and keep their homes. The March 6, 2009 report of the University of Hawaii Economic Research Organization states, in relevant part:

The global credit crisis and deepening recession have materially worsened prospects for the Hawai'i construction industry. Commercial and resort building are in retreat, hampered by a bleak national outlook and financing constraints. The residential construction downturn will continue as income and wealth losses undermine housing demand. We now expect a deeper adjustment in the local real estate market, although somewhat milder than past Hawai'i experience and much less severe than the steep contractions in some mainland regions. Government spending initiatives may provide substantial support for the industry in the medium term, but they will provide very little stimulus over the next two years.

Your Committee has amended this measure by changing the effective date to July 1, 2075 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 643, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 643, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, none.

**SCRep. 1239 Judiciary and Government Operations on H.B. No. 1422**

The purpose of this measure is to allow the counties to remove abandoned motor vehicles from private roads, if the vehicle is inoperable and the owner or co-owner of a private road requests in writing to the appropriate county authority for the removal of the vehicle.

This measure also requires the owner of the private road to pay the county for the costs of removal of the vehicle and to agree to indemnify and hold harmless the county for the removal and disposal of the vehicle.

Your Committee finds that abandoned vehicles are littering the private roads and need to be removed. Current law does not provide for removal of abandoned vehicles on private roads. Some of these abandoned vehicles pose a public health hazard with leeching battery acids and transmission fluids. This measure provides a workable solution for both private road owners and the counties, while promoting the public health, safety, and welfare.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue the discussions on this matter, and repealing the measure on June 30, 2052.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1422, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1422, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1240      Judiciary and Government Operations on H.B. No. 1414**

The purpose of this measure is to make permanent the prohibition against stealing beer kegs and the documentation requirements for scrap metal dealers contained in Act 53, Session Laws of Hawaii 2008.

This measure also makes permanent the offense of theft of copper, the documentation requirements for the sale of copper to scrap metal dealers, and related penalties contained in Act 197, Session Laws of Hawaii 2007.

Pursuant to Acts 53 and 197, the statutory provisions relating to the theft of beer kegs and copper will sunset on July 1, 2009. Your Committee finds that the prohibitions, record-keeping requirements, and penalties contained in the current law have proven effective at deterring the theft of beer kegs and copper, and accordingly, these provisions should be made permanent.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1414, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1241      Judiciary and Government Operations on H.B. No. 1031**

The purpose of this measure is to improve Hawaii's antitrust laws by specifying that the State and its political subdivisions or agencies may directly bring a civil action to enforce laws on unfair methods of competition and unfair or deceptive practices, and to clarify the venue for such actions.

In 2007, a claim asserted on behalf of state agencies as indirect purchasers was dismissed with prejudice by a federal district court in California because section 480-14(b), Hawaii Revised Statutes, did not expressly authorize suits on behalf of indirect purchasers who were state government entities. This measure addresses that deficiency.

Your Committee has amended this measure on the recommendation of the Attorney General by inserting commas in place of parentheses in a parenthetical reference to federal law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1031, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1031, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1242      Judiciary and Government Operations on H.B. No. 615**

The purpose of this measure is to:

- (1) Amend the offense of harassment to include the repeated making of any form of electronic communication as defined by existing law; and
- (2) Clarify the definition of "nonconsensual contact" under the offense of harassment by stalking to include contact by means of any form of electronic communication as defined by existing law.

The intent of your Committee is to prevent individuals from being harassed by those using innovative forms of technology by extending the chapter 711, Hawaii Revised Statutes, harassment offenses to include any form of digital communication, including the ability to make a nonconsensual contact through any form of electronic communication in the offense of harassment by stalking.

Your Committee finds that harassing or insulting electronic communications are a form of harassment that can be just as severe or punishing as other verbal communications or offensive contacts. Your Committee also finds that including contact by electronic communication in the criminal offense of harassment by stalking will provide a means for those victims that are targeted to seek justice.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 615, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 615, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1243      Judiciary and Government Operations on H.B. No. 271**

The purpose of this measure is to enact the Uniform Real Property Electronic Recording Act that would permit the Registrar of the Bureau of Conveyances to accept electronic documents with electronic signatures for recording.

This measure would also:

- (1) Allow the registrar of the Bureau of Conveyances and the Department of Accounting and General Services, upon authorization of the Registrar, to furnish maps or plans in photographic, electronic, or electrostatic form upon receiving a request for maps or plans;
- (2) Allow the registrar of the Bureau of Conveyances to furnish nonattested copies of instruments and documents in photographic, electronic, or electrostatic form upon receiving a request for instruments or documents; and
- (3) Allow the registrar of the Bureau of Conveyances to convert existing information or documents into electronic form.

Your Committee notes that this measure is based on the Uniform Real Property Electronic Recording Act, which has been adopted by eighteen other states and the District of Columbia. This measure will allow the Bureau of Conveyances to become more efficient and up to date in its operations. This measure does not require the Bureau of Conveyances to make any changes to its procedures until it has developed the capacity to do so. This measure allows the Department of Land and Natural Resources to produce digital archives without also being required to produce microfilm records.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to continue the discussions in this matter, since the Bureau of Conveyances has indicated that further amendments may be requested; and
- (2) Making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 271, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 271, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1244 Ways and Means on H.B. No. 1152**

The purpose of this measure is to clarify certain aspects of accounts maintained by the Department of Public Safety for inmates.

Specifically, this measure clarifies that:

- (1) The Department of Public Safety may maintain more than one account per committed person;
- (2) The funds held in financial institutions will be placed in non-interest bearing accounts; and
- (3) No interest will be paid to the committed person from the funds held by the Department.

This measure also:

- (1) Allows the Director of Public Safety to designate a percentage of all funds earned by the committed person while in custody to be deposited and held in a nonspendable account to ensure that the committed person will have funds upon release; and
- (2) Requires the Department to:
  - (A) Provide quarterly accounting statements to all committed persons held in custody for over one quarter of the year; and
  - (B) Conduct annual audits on all committed persons' accounts.

This measure takes effect on July 1, 2030.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that it is important to clarify the State's obligations with regard to accounts opened by the Department of Public Safety for the purpose of maintaining committed persons' funds.

Your Committee further finds that this measure will benefit from further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1152, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1245 Ways and Means on H.B. No. 1763**

The purpose of this measure is to replace the Hawaii Tourism Authority with a newly established Department of Tourism.

Specifically, this measure:

- (1) Establishes the new Department of Tourism;
- (2) Transfers all of the functions of the Hawaii Tourism Authority to the Department of Tourism;
- (3) Transfers the tourism functions of the Department of Business, Economic Development, and Tourism to the Department of Tourism and renames the former agency the "Department of Business and Economic Development";
- (4) Transfers the moneys in the convention center enterprise fund, tourism emergency trust fund, and tourism special fund into corresponding funds administered by the Department of Tourism; and

- (5) Repeals the Hawaii Tourism Authority.

Your Committee received five written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that tourism is the primary economic engine that drives the State's economy. The influx of tourism related moneys that flow into the State not only sustains the industry, but also supports a significant percentage of all employment in Hawaii. However, the role of tourism in state government has been less than focused and, on occasion -- neglected, by the two state agencies charged with its administration. The inability of this bifurcated relationship to provide the necessary leadership to manage the State's greatest fiscal asset has resulted in lamentable outcomes that have threatened the very core of the tourism industry.

To rectify this problem, this measure proposes to establish tourism as a separate administrative department that is equal to all other state departments. A state cabinet level designation will provide tourism the recognition it requires to command the authority needed to effectively sustain and maintain a healthy tourism industry.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1763, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1246      Ways and Means on H.B. No. 586**

The purpose of this measure is to sunset the Kaneohe Bay Regional Council (Council) and designate the Department of Land and Natural Resources (Department) as the agency responsible for exercising the duties and functions of the Council, including:

- (1) Facilitating discussions between users of Kaneohe bay and the public;
- (2) Advising the State and the county on the use of Kaneohe bay;
- (3) Educating the public and users of the problems and needs of the bay; and
- (4) Implementing and periodically amending the Kaneohe Bay Master Plan as it relates to ocean activities.

Your Committee received one written comment on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee acknowledges and appreciates the contributions of the Kaneohe Bay Regional Council and its instrumental role in developing the Kaneohe Bay Master Plan and in addressing issues of concern for both the State and public. Your Committee feels, however, that current economic conditions make it essential that the Department of Land and Natural Resources focus on its core function of protecting and preserving the State's natural resources and that transferring the Council's duties and functions to the Department is a prudent decision.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 586, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 1247      Ways and Means on H.B. No. 899**

The purpose of this measure is to clarify and strengthen the authority of the Office of Hawaiian Affairs to issue revenue bonds to obtain funding for its projects by amending the bond provisions of Chapter 10, Hawaii Revised Statutes, to reflect current government bond practices and provide increased autonomy for the Office of Hawaiian Affairs in issuing bonds.

Specifically, this measure:

- (1) Allows the Board of Trustees of the Office of Hawaiian Affairs to contract, with certain restrictions, for support facilities and remarketing arrangements to market revenue bonds;
- (2) Authorizes the Office of Hawaiian Affairs to issue and authorize revenue bonds without further authorization from the Legislature;
- (3) Clarifies that the Board of Trustees of the Office of Hawaiian Affairs may acquire insurance policies to reduce the costs of borrowing;
- (4) Allows the Board of Trustees of the Office of Hawaiian Affairs to negotiate the sales price of the revenue bonds and set varying rates of the bonds;
- (5) Requires that bonds issued by the Office of Hawaiian Affairs be competitively sold in a manner consistent with all other state agencies;
- (6) Allows any person or entity regulated by law as to the character of their investment to invest in bonds issued by the Office of Hawaiian Affairs;
- (7) Requires that revenue bonds issued by the Office of Hawaiian Affairs bear a manual signature of the chairperson of the board and the administrator or, if provided by resolution, by a designated officer or registrar; and
- (8) Broadens the sources of revenue by which the Office of Hawaiian Affairs may meet the requirement that its projects be self-supporting.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the Office of Hawaiian Affairs has the authority to issue revenue bonds under current law. Your Committee feels that this measure will offer the Office of Hawaiian Affairs greater flexibility and autonomy when issuing revenue bonds and creates consistency with the State's bond practices.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 899, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 1248      Ways and Means on H.B. No. 1175**

The purpose of this measure is to increase the cigarette tax and to generate general fund revenues.

Specifically, this measure increases the per-cigarette tax to 20 cents beginning on July 1, 2009, and thereafter. Furthermore, this measure requires the deposit of unspecified percentages of the tax on cigarettes to the credit of the Hawaii tobacco prevention and control trust fund beginning on July 1, 2009.

Your Committee received ninety-one written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds this measure is a one-time tax increase that replaces the current yearly tax increases and ensures that the State has sufficient resources for tobacco prevention and control programs, by statutorily designating part of the cigarette tax to be deposited into the Hawaii tobacco prevention and control trust fund.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the amount of the tax per cigarette beginning on July 1, 2009, to 13 cents; and
- (2) Changing the effective date of the measure to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1175, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1175, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1249      Ways and Means on H.B. No. 1371**

The purpose of this measure is to allocate a portion of federal funds received from the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, or other federal stimulus acts to finance certain health and human services programs.

Specifically, this measure appropriates and allocates unspecified amounts for increased Medicaid reimbursements, disproportionate share hospital payments, the Hawaii Children's Health Care Program, and a variety of other health and human services programs. The amounts appropriated are subject to the proviso that the level of general funds appropriated in fiscal year 2008-2009, for the programs identified, in fiscal years 2009-2010 and 2010-2011, are not:

- (1) Replaced by the federal funds appropriated by this measure; or
- (2) Decreased because of the availability of the federal funds appropriated by this measure.

Furthermore, the Governor may approve the expenditure of federal funds in excess of levels authorized by the Legislature only if the expenditure is made for the benefit of the public.

Your Committee received eighty-three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing all appropriated amounts to \$1; and
- (2) Changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1371, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1371, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1250      Ways and Means on H.B. No. 1807**

The purpose of this measure is to enable Hawaii to receive and use moneys under the federal American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, and any other federal laws for safe drinking water and wastewater infrastructure.

Specifically, this measure allows the Director of Health to provide assistance for:

- (1) The construction of necessary drinking water infrastructure projects; and

(2) Publicly owned wastewater treatment works for the construction of necessary wastewater infrastructure projects,

using moneys appropriated under the American Recovery and Reinvestment Act of 2009 and other federal laws. The measure also allows the Department of Health to establish not more than two exempt positions each entitled "total maximum daily load coordinator" to help the Department meet federal requirements for establishing total maximum daily loads relating to water pollution and water quality in the State. Finally, this measure appropriates an unspecified amount from the American Recovery and Reinvestment Act of 2009 and any other federal laws for safe drinking water and wastewater infrastructure projects.

Your Committee received eight written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the American Recovery and Reinvestment Act of 2009 will provide significant funding for wastewater and drinking water system improvements in the State.

Upon further consideration, your Committee has amended this measure to change the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1807, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1807, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1251      Ways and Means on H.B. No. 111**

The purpose of this measure is to establish a two-year statute of limitations for recovering indebtedness to the State from a public officer, agent, or employee.

In addition, this measure increases the salary range of the state captive insurance administrator to an amount that is not more than the maximum salary of the first deputy to the Director of Commerce and Consumer Affairs.

Your Committee received seven written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will ensure a fair process for collecting moneys owed to the State or county by a public officer, agent, or employee.

Upon further consideration, your Committee has amended this measure by:

- (1) Increasing the time limit for recovery of indebtedness from two years from the date of indebtedness to three years;
- (2) Deleting the provision to increase the salary of the captive insurance administrator; and
- (3) Changing the effective date of the measure to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 111, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 111, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1252      Ways and Means on H.B. No. 179**

The purpose of this measure is to address future costs for electricity, repair, and maintenance of air conditioning and other equipment and fixtures donated to public schools.

Specifically, this measure repeals provisions that:

- (1) Allow the Department of Education to require the approximate cost of electricity and maintenance for air conditioners not installed by the Department of Accounting and General Services to be paid by a private entity;
- (2) Make the costs of repair and maintenance of donated fixtures in existing and new school facilities be the responsibility of the Department of Accounting and General Services; and
- (3) Under specified circumstances, make the cost of repair and maintenance of donated equipment the responsibility of the Department of Education.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that with the enactment of Act 51, Session Laws of Hawaii 2004, responsibility for the construction, repair, and maintenance of public school facilities, including all equipment and fixtures was transferred from the Department of Accounting and General Services to the Department of Education effective July 1, 2005. This measure is in accordance with the transfer of those responsibilities.

Your Committee amended this measure by making a nonsubstantive change for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 179, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 179, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1253 Ways and Means on H.B. No. 242**

The purpose of this measure is to appropriate funds for the planning and repairing of agricultural facilities at the former Del Monte operation on Oahu and at Maui Community College.

This measure also authorizes the issuance of an unspecified amount of general obligation bonds to modify the facilities at the former Del Monte operation and Maui Community College, to improve the value-added agricultural industry.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that diversified agriculture contributes to the State's economy by providing employment opportunities and products for export, and by promoting tourism. Your Committee also finds that successful agricultural ventures would not only result in significant contributions to the State's economy, but also help to stabilize and sustain Hawaii's food supply. Your Committee further finds that the investment of resources to support value-added agricultural operations is a necessary step to foster a successful transition from plantation agriculture to diversified agriculture.

Your Committee has amended this measure by replacing the unspecified bond issuance amount with an amount of \$1 of general obligation bonds to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 242, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 242, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Hemmings).

**SCRep. 1254 Ways and Means on H.B. No. 895**

The purpose of this measure is to deter the use of tobacco products other than cigarettes by increasing the tax on these products.

Specifically, this measure:

- (1) Amends the definition of tobacco products to include smokeless and pipe tobacco;
- (2) Increases the tax on tobacco products to:
  - (A) Eighty-five per cent of the wholesale price of the tobacco products sold on or after September 30, 2009;
  - (B) Ninety-five per cent of the wholesale price of the tobacco products sold on or after September 30, 2010; and
  - (C) One hundred five per cent of the wholesale price of the tobacco products sold on or after September 30, 2011; and
- (3) Requires a percentage of the tax collected from the tobacco products to be deposited into the community health centers special fund, health systems special fund, and Hawaii tobacco prevention and control trust fund, respectively.

Your Committee received one hundred twenty-three written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that tobacco use, whether in the form of cigarettes or tobacco products, is detrimental to the health of the people of the State, especially our youth. Tobacco products are even more harmful due to the absence of a filter that is commonly found in cigarettes. Your Committee feels that increasing the tax on these products will discourage young people from starting a bad habit, encourage those who already use such products to stop, and promote a healthier lifestyle.

Your Committee discussed the need for the conference committee to consider the possibility of providing an exemption for locally grown and produced cigars.

You Committee has amended this measure by:

- (1) Changing the tax on tobacco products to:
  - (A) Sixty per cent of the wholesale price of the tobacco products sold on or after September 30, 2009;
  - (B) Seventy per cent of the wholesale price of the tobacco products sold on or after September 30, 2010; and
  - (C) Ninety per cent of the wholesale price of the tobacco products sold on or after September 30, 2011; and
- (2) Adding a proviso to the effective date to ensure that the amendment to the definition of "tobacco products" survives the repeal and reenactment of the provision when Act 131, Session Laws of Hawaii 205, is repealed by operation of law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 895, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 895, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1255 Ways and Means on H.B. No. 1204**

The purpose of this measure is to require an additional distribution of the transient accommodations tax revenues to the tourism special fund.

Specifically, this measure:

- (1) For fiscal years 2009-2010 and 2010-2011 only and after distributions under current law, requires an unspecified portion of the remaining transient accommodations tax revenues to be deposited into the tourism special fund with any residue to be deposited into the general fund; and
- (2) Beginning in fiscal year 2011-2012 and each fiscal year thereafter requires all remaining revenues to be deposited into the general fund.

Your Committee received five written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that increasing tourism marketing and outreach is a part of the State's five-point economic sustainability plan. Your Committee feels that tourism marketing is an important investment and a proven method of reviving a stagnant economy.

Your Committee also finds that additional revenues will enable the Hawaii Tourism Authority to invest in programs under the marketing, access, research, and planning initiatives that will help to stimulate travel to the State, thus supporting the State's economy, sustaining jobs, and increasing tax revenues.

Your Committee has amended this measure by changing the effective date to July 1, 2150, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1204, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1204, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1256 Ways and Means on H.B. No. 1627**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Carbon Diversion, Incorporated for the development of cogeneration facilities.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the hybrid gasification carbonization process developed by Carbon Diversion, Incorporated converts non-fossil fuel feedstock into carbon products and synthetic gas and will help reduce the State's dependence on fossil fuels. The special purpose revenue bonds authorized by this measure will encourage the development of this renewable energy source.

Your Committee amended this measure by changing the effective date to July 1, 2077, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1627, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1627, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Hemmings).

**SCRep. 1257 Ways and Means on H.B. No. 1665**

The purpose of this measure is to prohibit the sale of public lands on which government-owned Hawaiian fishponds are located.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that Hawaiian fishponds have important historical and cultural significance to the Native Hawaiian community and serves a valuable role in the conservation of marine resources and the mitigation of climate change in coming years. Your Committee further finds that this measure will help to preserve and protect Hawaiian fishponds by prohibiting the sale of public lands on which government-owned Hawaiian fishponds are located.

Your Committee has amended this measure by changing the effective date to January 1, 2090 to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1665, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1665, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1258 Ways and Means on H.B. No. 1676**

The purpose of this measure is to make the terms of a collective bargaining agreement governing a project party's workforce the prevailing wage for a project funded by special purpose revenue bonds when the collective bargaining agreement has been properly filed with the Director of Labor and Industrial Relations.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure clarifies the means for determining a project party's compliance with the prevailing wage for projects financed by special purpose revenue bonds.

Your Committee has amended this measure by changing the effective date to July 1, 2077, to encourage further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1676, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1676, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1259 Ways and Means on H.B. No. 574**

The purpose of this measure is to encourage recycling of beverage containers.

Specifically, this measure:

- (1) Extends the reverse vending machine rebate program to June 30, 2014;
- (2) Increases the financial incentives offered by the reverse vending machine rebate program;
- (3) Appropriates an unspecified amount for fiscal year 2009-2010 for grants-in-aid to the counties to plan and operate county recycling programs; and
- (4) Requires dealers that have more than seventy-five thousand square feet of interior space to operate redemption centers.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that requiring large retailers to operate redemption centers will make it more convenient for consumers to recycle glass, plastic, and aluminum beverage containers. Your Committee further finds that an extension of the reverse vending machine rebate program may encourage the development of more recycling facilities and increase the amount of containers that are recycled. However, during these difficult economic times, your Committee believes that it is not fiscally prudent to appropriate funds for grants-in-aid to the counties for recycling programs.

Accordingly, your Committee amended this measure by:

- (1) Deleting the appropriation for fiscal year 2009-2010 for grants-in-aid to the counties to plan and operate county recycling programs; and
- (2) Changing the effective date to July 1, 2077, to encourage further discussion of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 574, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 574, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1260 Ways and Means on H.B. No. 960**

The purpose of this measure is to broaden the use of the tourism emergency trust fund to include incidents related to a national or global economic crisis.

The measure also transfers tourism research and statistics duties presently performed by the Department of Business, Economic Development, and Tourism to the Hawaii Tourism Authority.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that tourism is the primary economic engine that drives the State's economy. Recently, the national and global economic crisis has led to the cancellation of business conventions, corporate retreats, business travel, and family vacations to the State. These cancellations are evidenced by an overall drop in statewide visitor arrivals that is predicted to get worse before it gets better.

Your Committee finds that this measure will enable the Hawaii Tourism Authority to react in a timely manner to address a national or global economic crisis and will strengthen the State's efforts to eliminate or mitigate the effects of such a crisis.

Your Committee also finds that timely and accurate tourism related research, including compilation and analysis of data, is important for the development and implementation of an effective visitor industry program. Your Committee believes that joining

tourism research and statistical data with the market intelligence research of various major market areas under one agency will allow the State to efficiently address the volatility in the tourism market.

Your Committee has amended the measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 960, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 960, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1261 Ways and Means on H.B. No. 991**

The purpose of this measure is to ensure adequate access to medical care in rural, medically underserved areas of the State by establishing and appropriating funds for the Hawaii medical doctor loan program.

Specifically, this measure provides financial assistance for:

- (1) Students who complete a state-approved medical school program at the University of Hawaii and agree to practice in rural areas of the State; or
- (2) Graduates of a medical school who have received medical training from a Hawaii-based medical program and agree to practice in rural areas of the State.

The maximum aggregate amount of loans, at five per cent simple interest, that a student may receive under this program is equal to tuition payments and costs of textbooks and other necessary instructional and laboratory materials. Repayment of a recipient's loan may be waived if the recipient practices in a rural area of the State, as designated by the university, for a minimum of six consecutive years. This measure establishes the Hawaii medical doctor loan program revolving fund within the University of Hawaii and provides that all interest and payments received with regard to the loan program be credited to the revolving fund. Finally, this measure appropriates an unspecified amount from general funds for deposit into the Hawaii medical doctor loan program revolving fund and appropriates an unspecified amount from the Hawaii medical doctor loan program revolving fund for the loan program.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will provide an essential tool for recruiting and retaining health care professionals in medically underserved and rural areas of the State.

Upon further consideration, your Committee has amended this measure by:

- (1) Moving the provision creating the Hawaii medical doctor loan program revolving fund from the new subpart in part II of chapter 304A, Hawaii Revised Statutes, to part V of the same chapter because special, revolving, and other funds are typically established in part V;
- (2) Changing the unspecified appropriated amounts to \$1; and
- (3) Changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 991, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 991, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1262 Ways and Means on H.B. No. 1045**

The purpose of this measure is to authorize the Hawaii Housing Finance and Development Corporation to modify and amend development agreements that were entered into between its predecessor agency and eligible developers.

This measure also authorizes the corporation to impose and collect reasonable fees for various administrative expenses and makes several housekeeping amendments.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that clarifying the Hawaii Housing Finance and Development Corporation's authority to modify and amend development agreements with eligible developers is a housekeeping amendment that corrects an omission made when Hawaii's housing laws were recodified by Act 180, Session Laws of Hawaii 2006. Your Committee further finds that this measure also clarifies the Corporation's authority to set and collect fees for various administrative expenses that it incurs.

Your Committee has amended this measure by changing the effective date to July 1, 2099, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1045, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1045, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (English, Galuteria, Hee, Hemmings).

**SCRep. 1263 Ways and Means on H.B. No. 1628**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist BioEnergy Hawaii, LLC in establishing a cogeneration facility and related energy production facilities.

Your Committee received three written comments on the measure. Written comments presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that cogeneration facilities will produce the following benefits for the State:

- (1) Reduce greenhouse gas emissions;
- (2) Reduce landfill waste steams;
- (3) Reduce transportation and disposal costs;
- (4) Create local technical and semi-technical job opportunities; and
- (5) Promote renewable energy for local communities through distributed generations.

Your Committee has amended this measure by changing the effective date to July 1, 2090, in order to facilitate continued discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1628, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1628, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Hemmings).

**SCRep. 1264 Ways and Means on H.B. No. 1678**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist LifeGrid Solutions, LLC, in constructing a biofuel refinery and research facility on Oahu.

Your Committee received two written comments on the measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will promote the development of renewable, non-fossil fuel energy sources for the benefit of the State.

Your Committee has amended this measure by changing the effective date to July 1, 2090 to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1678, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1678, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Hemmings).

**SCRep. 1265 Ways and Means on H.B. No. 1692**

The purpose of this measure is to restrict an unspecified percentage of low-income housing leases to no more than five years, except for persons who are age fifty-five or older, persons with a physical or mental disability, or persons retired for medical reasons.

This measure also requires the Hawaii Public Housing Authority to review federal pilot programs on breaking the cycle of public housing and welfare and to report its findings to the Legislature prior to the 2010 regular session.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the lease restriction in this measure will not only reduce multigenerational low-income housing tenancy, but will also increase the supply of low income housing in the State. Your Committee further finds that by breaking the cycle of public housing and welfare, this measure will encourage upward social mobility and promote economic independence by low-income housing tenants.

Your Committee has amended this measure by:

- (1) Changing the five year restriction on the length of a lease to an unspecified period; and
- (2) Changing the effective date of the measure to July 1, 2050, to facilitate further discussion of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1692, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1692, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (English, Galuteria, Hee, Hemmings).

**SCRep. 1266 Ways and Means on H.B. No. 36**

The purpose of this measure is to clarify the permitted user of the environmental health education fund.

Specifically, this measure:

- (1) Changes the name of the environmental health education fund to the environmental health special fund; and
- (2) Expands the type of activities for which moneys in the special fund may be expended to include permitting, inspections, other monitoring, and enforcement.

Your Committee received nine written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the majority of the fees deposited into the environmental health education fund are collected by the sanitation branch of the department of health's environmental health services division. This division administers programs and collects fees for food safety, the regulation of various professions, and enforcing sanitation requirements at hospital and medical facilities. The fees deposited into the environmental health education fund, however, do not appear to serve an educational purpose and appear to be contrary to the "nexus" requirement for special and revolving funds.

To clarify the nexus between the purpose of the fund and the users who pay fees into the fund, this measure changes the name of the environmental health education fund to the environmental health special fund. Your Committee believes that this measure will ensure that the fees collected more directly benefit the fee payers and thus will satisfy the nexus requirement for special and revolving funds.

Upon further consideration, your Committee has amended this measure to change the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 36, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 36, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (English, Hee, Hemmings).

**SCRep. 1267 (Majority) Ways and Means on H.B. No. 1166**

The purpose of this measure is to provide the Airports Division of the Department of Transportation with additional financing options to construct airports capital improvement projects.

Specifically, this measure:

- (1) Clarifies that the passenger facility charge may be used for an undertaking relating to the financing of revenue bonds;
- (2) Allows moneys paid into the passenger facility charge special fund to be appropriated, applied, or expended by the Department of Transportation for airport capital improvement program projects approved by the Legislature and as permitted by federal law; and
- (3) Allows the establishment of other accounts within the passenger facility charge special fund and requires transfer of passenger facility charge revenues into these other accounts to pay debt service on the related bonds.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that authorizing certain uses of the passenger facility charge provides the Department of Transportation with an additional capital funding source to provide for the expansion of the airport system.

Upon further consideration, your Committee has amended this measure to change the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1166, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1166, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1268 Ways and Means on H.B. No. 541**

The purpose of this measure is to temporarily extend civil service benefits and rights to Department of Education employees until the Department establishes a permanent civil service system.

Your Committee received three written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that the Department of Education has not established the separate civil service system that was authorized under Act 51, Session Laws of Hawaii 2004, the Reinventing Education Act of 2004. Act 51 was intended to provide the Department of Education with autonomy in several areas including civil service and employment.

This measure allows Department of Education employees to remain civil service employees until a permanent civil service system is established by the Department of Education.

Your Committee believes that the Department of Education should be able to complete this project by June 30, 2010, but that if the project cannot be completed within the prescribed timetable, the Department of Education should be held to account for the delay.

Accordingly, your Committee has amended this measure by:

- (1) Temporarily extending the sunset date to June 30, 2010, for civil service benefits and rights for Department of Education employees;
- (2) Requiring a report by the Department of Education to the Legislature if the civil service system project is not completed by June 30, 2010; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 541, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1269      Ways and Means on H.B. No. 1483**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Better Place Hawaii, Inc., in developing transportation infrastructure to support electric vehicles.

Your Committee received two written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that the development of alternatives to fossil fuel-based modes of transportation is essential to Hawaii's long-term energy goals. Specifically, the development of renewable energy transportation will support the State's renewable energy goals.

Your Committee has amended this measure by changing the effective date to July 1, 2090, to facilitate continued discussion of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1483, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1483, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Hemmings).

**SCRep. 1270      Ways and Means on H.B. No. 317**

The purpose of this measure is to authorize the use of federal Homeland Security Grant funds to purchase, equip, and staff a mobile medical van for residents in remote areas on the island of Hawaii.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that there is a lack of hospitals and health care centers on the southern portion of the island of Hawaii. Your Committee finds that this is a remote area of the State where residents are relatively isolated from the nearest hospitals and health care centers located some distance away. This isolation and distance from health facilities limits residents' access to emergency medical care and basic clinical health services. The problem has become magnified in recent months with the increase in vog from Halema'uma'a Crater that is concentrated in southern Hawaii and has the greatest health impact on residents in that area. Accordingly, your Committee finds that these residents' access to medical care would be greatly improved by a mobile medical service that is staffed and equipped to visit these areas and provide clinical health care and emergency care.

Your Committee has amended this measure by changing the amount of the appropriation to \$1 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 317, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 317, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Hemmings).

**SCRep. 1271      Ways and Means on H.B. No. 183**

The purpose of this measure is to respond to recommendations made by the Auditor pursuant to a study on the appropriate accountability structure for the Hawaii Teacher Standards Board.

More specifically, this measure:

- (1) Establishes an advisory committee to:
  - (A) Provide oversight of the Hawaii Teacher Standards Board;
  - (B) Provide to the Governor lists of qualified candidates for appointment to the Board; and

- (C) Provide to the Board of Education a list of qualified candidates for appointment as Executive Director of the Hawaii Teacher Standards Board;
- (2) Authorizes the Hawaii Teacher Standards Board to:
  - (A) Determine the manner by which teacher licensing fees are collected;
  - (B) Adopt, amend, repeal, or suspend the policies and standards of the Board; and
  - (C) Coordinate the creation of a data interface network, consisting of teacher education institutions and the Department of Education, to support the free interchange of valuable information; and
- (3) Appropriates funds for the establishment of a data interface network.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

In studying the appropriate accountability structure for the Hawaii Teacher Standards Board, the Auditor recommended the establishment of an advisory committee to provide oversight of the Board. Your Committee finds that this measure fulfills that recommendation, which will contribute to the efficiency and effectiveness of the Hawaii Teacher Standards Board. In addition, the data interface network will promote a data-sharing effort that will benefit public and private school teachers and enhance the education of all students in the State.

Your Committee has amended this measure by specifying that the amount of the appropriation is \$1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 183, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 183, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1272      Ways and Means on H.B. No. 371**

The purpose of this measure is to repeal the provision sunsetting the one cent per gallon tax on naphtha fuel sold for use in a power-generating facility.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that Act 103, Session Laws of Hawaii 2007, taxed naphtha fuel sold for use in a power-generating facility at the same one cent per gallon license tax rate as diesel oil and aviation fuel, rather than at the higher county fuel tax rates. Your Committee also finds that Act 209, Session Laws of Hawaii 2007, increased the tax rate imposed on diesel oil and aviation fuel to two cents per gallon. Accordingly, your Committee finds that it would be consistent with the intent of Act 209 to also tax naphtha fuel sold for use in a power-generating facility at the rate of two cents per gallon.

Therefore your Committee has amended this measure by:

- (1) Increasing the naphtha fuel tax from one cent per gallon to two cents per gallon; and
- (2) Changing the effective date to July 1, 2090, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 371, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 371, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1273      Ways and Means on H.B. No. 427**

The purpose of this measure is to encourage the development of alternative energy and renewable fuel technologies by authorizing the issuance of special purpose revenue bonds for One Planet Pacific Energy, LLC, to construct a gasification facility to convert solid waste into synthetic gas.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that One Planet Pacific Energy, LLC, proposes to use a proprietary gasification technology to convert solid waste from the construction and demolition material landfill located in Nanakuli on the island of Oahu into synthetic gas. Your Committee further finds that by using the materials that would otherwise sit in the landfill to generate a source of renewable energy will dramatically extend the life of the landfill.

Your Committee amended this measure by changing the effective date to July 1, 2077, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 427, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 427, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Galuteria, Kokubun, Hemmings).

**SCRep. 1274 Ways and Means on H.B. No. 519**

The purpose of this measure is to:

- (1) Expand the capacity of correctional facilities and prisons in Hawaii;
- (2) Return all women inmates from Hawaii that are housed in out-of-state correctional facilities to Hawaii correctional facilities by December 31, 2011;
- (3) Limit the future number of inmates from Hawaii that may be incarcerated in out-of-state prisons or correctional facilities; and
- (4) Require the Department of Public Safety to develop alternative programs or forms of incarceration for Hawaii inmates returning from mainland facilities.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that Hawaii currently lacks the capacity in its prisons and correctional facilities to accommodate all its inmates. Accordingly, a significant number of Hawaii inmates are housed in prisons and correctional facilities located in other states. Your Committee believes that rehabilitation is more effective and recidivism is reduced if inmates are incarcerated closer to home. Your Committee also finds incarcerating inmates in Hawaii instead of in other states will eliminate the expense of paying other jurisdictions to detain Hawaii's inmates. Your Committee, however, recognizes that the return of Hawaii inmates from other states should not take place until Hawaii's prisons and correctional facilities have the capacity to accommodate these additional inmates.

Your Committee has amended this measure by:

- (1) By requiring all women inmates to be returned to Hawaii by December 31, 2011, only if the capacity and bed space exist in Hawaii's prisons and correctional facilities to accommodate the additional inmates; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 519, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 519, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1275 Ways and Means on H.B. No. 982**

The purpose of this measure is to establish a data collection system to collect and analyze data on the uses of family leave benefits by public and private sector employees.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that as Hawaii's population ages, there will be a greater need for employees to use family leave benefits to care for older family members that have special needs. Your Committee believes that creating a data collection tool to capture existing data on the use of family leave benefits will be helpful in developing an efficient family leave system for employees in Hawaii.

Your Committee has amended this measure by changing the:

- (1) Amount of the appropriation to \$1; and
- (2) Effective date to July 1, 2050,

to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 982, H.D. 3, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 982, H.D. 3, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1276 Ways and Means on H.B. No. 983**

The purpose of this measure is to enhance traffic safety and enable and encourage children to walk and bicycle to school by making it safer and more appealing.

Specifically, this measure requires the Director of Transportation to provide federal Safe Routes to School program funds for school-based and community-based workshops and infrastructure and non-infrastructure projects that will reduce vehicular travel and congestion, encourage walking and bicycling, and promote health and safety around Hawaii's schools. In implementing the Safe Routes to School program, the Director of Transportation is required to consider certain conditions, including:

- (1) Creating and filling a permanent, full-time position of Safe Routes to School coordinator;
- (2) Maximizing the participation of stakeholder groups;

- (3) Training volunteer facilitators and potential grant requestors and stakeholder groups; and
- (4) Allocating at least ten per cent and not more than thirty per cent of federal Safe Routes to School program funds for non-infrastructure-related activities.

The bill further requires the Director of Transportation to develop a streamlined process for the federal Safe Routes to School grant program that meets federal and state requirements, simplifies the application process, and expedites release of funding. Finally, the Director is required to submit a report of the status and progress of the program prior to the convening of the Regular Session of 2010.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure, through the use of the federal Safe Routes to School grant program funds, will help to ensure the safety of students when traveling to and from school as well as reduce traffic congestion.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that the Director of Transportation is to submit the required report to the Legislature; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 983, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 983, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1277      Ways and Means on H.B. No. 994**

The purpose of this measure is to promote tourism and to stimulate technology development in Hawaii.

Specifically, this measure appropriates funds for the State to apply for a spaceport license from the Federal Aviation Administration.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that space tourism based in Hawaii has commercial, technological, and educational potential that could stimulate the visitor industry in the State, as well as provide a significant contribution to the diversification of our economy.

Upon further consideration, your Committee has amended this measure to change the effective date to July 1, 2113, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 994, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 994, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1278      (Majority) Ways and Means on H.B. No. 1405**

The purpose of this measure is to conform the State's tax laws to the multi-state Streamlined Sales and Use Tax Agreement.

Your Committee received two written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that the Streamlined Sales and Use Tax Agreement is a method developed by states and businesses to have internet and catalogue sellers collect the sales and use tax from consumers on behalf of the states for those sellers who do not have a nexus within that state.

Your Committee believes that a voluntary mechanism for internet and catalog sellers to collect taxes from their consumers is necessary, in part because people buying from these merchants fail to pay the use tax on their purchases. Thus, adopting the Streamlined Sales and Use Tax Agreement will result in the collection of unrealized revenue for the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on this measure; and
- (2) Making a technical, nonsubstantive amendment to correct a drafting error.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1405, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1405, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1279      Ways and Means on H.B. No. 1016**

The purpose of this measure is to appropriate funds to satisfy claims against the State, its officers, and employees for settlements, judgments, and other liabilities.

Your Committee received two written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to satisfy all claims against the State, its officers, or its employees.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1016, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1280 Commerce and Consumer Protection on H.B. No. 1611**

The purpose of this measure is to improve food safety by requiring the accurate labeling of meat and fish products that have been gas-treated to enhance product color or to approximate the appearance of freshness.

Your Committee received testimony in support of this measure from Hawaii Teamsters and Allied Workers, Local 996 and one private citizen. Testimony with comments on this measure was received from the Department of Agriculture, the Department of the Attorney General, and Wal-Mart Stores, Inc. Testimony in opposition to this measure was received from the Department of Health and the Grocery Manufacturers Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that gas treatment, while not itself harmful, may alter the color of packaged meat or fish in such a way that makes it difficult for a consumer to tell whether the product is actually fresh or merely appears to be so. Your Committee notes that packaged meat or fish may contain high bacteria levels indicative of spoilage even though it has not passed the "use, sell, or freeze by" date stamped on the package. Your Committee notes the testimony of the Department of Agriculture and the Department of the Attorney General that meat inspection is the responsibility of the United States Department of Agriculture and that no state meat inspection program currently exists. However, your Committee further finds that there is merit to enforcing quality controls of the food supply at the state level.

Your Committee has amended this measure by:

- (1) Requiring the Department of Agriculture to post notice of the labeling requirement contained in this measure on its website;
- (2) Adding a severability clause;
- (3) Deferring the implementation of this measure to August 1, 2009 to allow producers, retailers, the Department of Health, and the Department of Agriculture sufficient time for compliance; and
- (4) Making nonsubstantive technical changes for the purpose of clarity and accuracy in its language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1611, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1611, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1281 Commerce and Consumer Protection on H.B. No. 1273**

The purpose of this measure is to prohibit real estate contracts, real estate agreements, association rules, and bylaws from precluding the use of clotheslines on the premises of single family dwellings and townhouses or from imposing conditions on the use of clotheslines that are so onerous as to render the clotheslines ineffective.

Your Committee received testimony in support of this measure from The Gas Company, Blue Planet Foundation, the Sierra Club: Hawaii Chapter, and one private citizen. Testimony with comments on this measure was received from Mililani Town Association. Testimony in opposition to this measure was received from the Land Use Research Foundation of Hawaii. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that clotheslines are one of the simplest ways for most households to reduce their energy consumption and, therefore, reduce their monthly utility costs. Your Committee further finds that a widespread reduction of household energy consumption will help Hawaii achieve its goal of increasing energy independence and decreasing dependence on imported fossil fuels. Your Committee notes that this measure respects the right of homeowners associations to impose reasonable restrictions on the use of clotheslines in response to concerns about community aesthetics.

Your Committee has amended this measure by substituting the contents of S.B. No. 1338, S.D. 2, which your Committee has previously advanced with the recommendation that it pass Third Reading. As amended, this measure:

- (1) Amends section 196-7, Hawaii Revised Statutes, to:
  - (A) Prohibit any covenant, declaration, bylaws, restriction, deed, lease, term, provision, condition, codicil, contract, or similar binding agreement from preventing a person from erecting a clothesline on a single family residence or townhouse that the person owns; provided that reasonable restrictions may apply; and
  - (B) Include clotheslines in the category of "solar energy device", which shall not be prohibited for single family residences or townhouses; and
- (2) Amends section 235-12.5, Hawaii Revised Statutes, to clarify that clotheslines are not included in the definitions of "renewable energy technology system" or "solar or wind energy system".

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1273, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1273, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Sakamoto, Hemmings).

**SCRep. 1282      Judiciary and Government Operations on H.B. No. 28**

The purpose of this measure is to:

- (1) Prohibit the sale of dead human bodies, including human bodies or remains that have been plastinated through the use of polymers; and
- (2) Raise the monetary penalty for the sale of a dead human body or the giving, offering, or promising of consideration for a dead human body from \$1,000 to \$5,000.

This measure is intended to address the display of dead human bodies for commercial purposes.

Your Committee notes ongoing concerns raised by prior committees about whether this measure may conflict with existing law in section 327-16, Hawaii Revised Statutes, relating to the sale or purchase of body parts, and whether the term “recently occurred” in the proposed definition of “dead human body” may be too vague to allow proper enforcement of the prohibition.

Your Committee has amended this measure by:

- (1) Clarifying that the display of dead human bodies for commercial purposes is prohibited; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 28, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 28, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1283      Judiciary and Government Operations on H.B. No. 876**

The purpose of this measure is to:

- (1) Increase the amount of unpaid common assessments that an association of apartment owners may collect against the subsequent owner of a foreclosed property;
- (2) Clarify the legal responsibility of a unit owners’ association in a condominium to elderly or disabled unit owners or residents, having a physical or mental handicap or disabling condition, who may require services and assistance to maintain independent living in the unit in which the unit owner or resident resides; and
- (3) Allow the board of a unit owners’ association in a condominium, pursuant to a report, observation, or complaint relating to an elderly or disabled unit owner or resident living independently with a physical or mental handicap or disabling condition, to request a functional assessment regarding the condition of the elderly or disabled unit owner or resident and recommendations for services from mental health or medical practitioners, governmental agencies responsible for adult protective services, or non-profit service entities. The person receiving the functional assessment is deemed to be the client of the person or entity conducting the functional assessment.

Your Committee finds that mortgage foreclosures impact condominium associations when the owner of a foreclosed property fails to pay association maintenance fees. The association continues to be responsible for maintaining the common areas and providing the common benefits such as water, electricity, and maintenance staff of the property, regardless of whether the association receives all of the fees due.

Your Committee further finds that associations and their members should be supported in their good faith efforts to assist fellow residents who have difficulty living independently. Current law protects associations from liability for good faith efforts to assist elderly residents who may be in need of assessment or social services in order to maintain independent living and avoid harm to self or others. This measure allows associations to also offer assistance to disabled residents.

Your Committee has amended this measure on the recommendation of the Disability and Communication Access Board by replacing the phrase “physical or mental handicap or disabling condition” with the phrase “physical or mental disability.”

Your Committee has also changed the effective date to July 1, 2075 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 876, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 876, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1284      Judiciary and Government Operations on H.B. No. 1379**

The purpose of this measure is to allow for the use of a standardized physician orders for life sustaining treatment (POLST) form that states an individual’s wishes regarding end-of-life treatment in all pre-hospital and health care settings.

Your Committee finds that it is important for people to make their preferences known regarding end-of-life treatment. Health care planning is a process, rather than a single decision, that helps individuals think about the kind of care they would want if they become seriously ill or incapacitated and encourages them to talk with their loved ones and physicians to ensure that their choices are honored.

Your Committee understands that while an advance health care directive allows an individual to provide specific and advanced instructions on whether to prolong or not prolong life, to provide or not provide food and water or relief from pain near the individual's end-of-life, it does not provide real-time, actionable instructions required by first-responders, emergency room personnel, and other health care providers. Your Committee also understands that the effectiveness of the current comfort care only/do not resuscitate bracelet is limited because the bracelet only instructs health care providers to provide comfort and to resuscitate or not resuscitate.

Written as physician's orders, POLST documents can be made to clearly articulate an individual's choices, providing health care providers with the absolute clarity needed to quickly and unambiguously honor these choices. Furthermore, POLST documents can be more comprehensive, allowing individuals to tailor their instructions with the advice and assistance of their physicians. Thus, a POLST document can designate comfort measures only, full aggressive measures, or allow individuals to choose which interventions they would accept and which they would refuse.

As a complementary part of the continuum of end-of-life care, your Committee believes that POLST documents will improve the delivery of health care in Hawaii.

Your Committee has amended this measure by:

- (1) Deleting section 1, the purpose section;
- (2) Defining "surrogate" as defined under current law and clarifying that for purposes of POLST documents only the patient may designate a surrogate;
- (3) Clarifying that only physicians may explain the nature and content of the POLST form since physicians have the medical expertise to provide such advice; and
- (4) Changing the effective date to July 1, 2050, to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1379, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1379, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

#### **SCRep. 1285      Judiciary and Government Operations on H.B. No. 358**

The purpose of this measure is to promote the rehabilitation of convicted drug offenders through alternatives to incarceration by authorizing the placement of certain drug offenders in secure drug treatment facilities.

Testimony in support of this measure was submitted by one organization and one individual. Testimony providing comments was submitted by one individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that providing convicted drug offenders with drug rehabilitation programs in a secure drug treatment facility will reduce the convicted drug offender's rate of recidivism upon release and also help convicted drug offenders develop an important and meaningful role in society. Your Committee also finds that this measure provides another alternative for rehabilitating drug offenders, and received information from proponents that no additional moneys would be needed.

Your Committee notes the testimony expressing reservations whether a secure drug treatment facility will use the proper drug treatment modalities that are approved by the Department of Health and that separates out inmates in the program from the general prison population where a drug abuse environment still may exist. Testimony referenced a model based on the nationally recognized program, "Second Chance", in New Mexico. That program drew much criticism for its lack of effectiveness.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to continue discussions on this issue.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 358, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 358, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Ayes with Reservations, 2 (Gabbard, Slom). Noes, none. Excused, none.

#### **SCRep. 1286      Judiciary and Government Operations on H.B. No. 366**

The purpose of this measure is to establish fines and penalties for knowingly killing or capturing manta rays within state waters.

This measure also:

- (1) Requires that special activity permits not be issued for any take that would exceed the potential biological removal level; and
- (2) Defines "potential biological removal level".

Your Committee finds that this measure will ensure the protection of Hawaii's manta ray populations. Manta ray populations reproduce slowly, a female manta ray will take close to ten years before she has her first pup, and will contribute a single new pup only every two to three years. Around the world manta ray populations have been decimated and manta rays are targeted for shark fin soup

and controversial medicines. Due to the slow reproduction process, any taking of manta rays can affect the population for many years. Currently, there are no state laws or rules to protect Hawaii's manta ray population.

Your Committee has amended this measure by:

- (1) Requiring the Department of Land and Natural Resources to define a "take" in rules; and
- (2) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 366, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 366, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1287      Judiciary and Government Operations on H.B. No. 1537**

The purpose of this measure is to include an automated external defibrillator training program among the entities that are excluded from vicarious liability for civil damages resulting when an automated external defibrillator is administered in good faith by a Good Samaritan.

The liability exclusion provided by this measure is afforded only when the person administering the defibrillator does so in good faith, with no expectation of remuneration, and for the purpose of resuscitating a person in immediate danger of loss of life. An exception to the liability exclusion is provided when the damages result from the gross negligence or wanton acts or omissions of the person administering the automated external defibrillator.

This measure encourages the provision of education about automated external defibrillators. Your Committee finds that this measure will also increase the implementation of automated external defibrillators and lead to greater survival rates from cardiac arrest in Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1537, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1288      Ways and Means on H.B. No. 1059**

The purpose of this measure is to make the one call center pilot program permanent in order to provide excavators advance warning of any existing underground facilities.

The measure also exempts pest control operators from the program requirements for three years.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the one call center's mandatory "Call Before You Dig" program provides excavators with a single phone number to call for locating and marking underground lines, including but not limited to lines for electric, gas, telecommunications, cable, water, and sewer facilities.

Your Committee further finds the one call center program is effective in reducing damage to underground utility lines and facilities. Your Committee believes that by making the one call center program permanent, the program will continue to prevent disruptions of service to customers, reduce the costs of damage to underground facilities, and enhance the safety of excavators.

Your Committee also finds that pest control operators are required to participate in the program. Pest control operators, however, do not dig to the extent that construction and excavation companies do when treating the ground for pests. Allowing for a temporary exemption for pest control operators will serve as an appropriate test period to see whether a permanent exemption is appropriate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1059, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1289      Ways and Means on H.B. No. 1074**

The purpose of this measure is to clarify and update various provisions of the State's Insurance Code.

Specifically, this measure:

- (1) Clarifies allowable insurer investments to meeting capital and reserve requirements;
- (2) Establishes a time limit for insurers to claim the retaliatory tax credit;
- (3) Limits the issuance of surplus lines broker licenses;
- (4) Clarifies the deposit and lapsing requirements for funds generated from the drivers education fund underwriters fee;
- (5) Clarifies that both workers' compensation and crop insurance limited adjusters' licenses require renewal by examination;

- (6) Amends continuing education requirements for licenses; and
- (7) Amends rate filings requirements to conform to the National Association of Insurance Commissioners system for electronic rate and form filing.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will ensure that Hawaii's insurance code is updated and in conformity with best practices in insurance regulation. Your Committee further finds that the amendments to the continuing education requirements will enable Hawaii to comply with the requirements of the National Association of Insurance Commissioners.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1074, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1290 (Majority) Ways and Means on H.B. No. 395**

The purpose of this measure is to improve the early learning system.

More specifically, this measure:

- (1) Prohibits public schools from moving students between junior kindergarten and kindergarten, except under certain circumstances;
- (2) Allows certain members of the Early Learning Council to be represented by a designee;
- (3) Changes the name of the keiki first steps trust fund to the early learning trust fund; and
- (4) Provides that unexpended moneys in the early learning trust fund shall not lapse to the credit of the general fund at the end of each fiscal year.

Your Committee finds that this measure improves the early learning system by ensuring that the developmental and early learning needs of the State's young children are addressed and strengthens the two-tier junior kindergarten and kindergarten program by establishing stricter criteria for moving students between tiers.

Your Committee amended this measure by:

- (1) Deleting the provision that required moneys unexpended at the end of each fiscal year to remain in the early learning trust fund, rather than lapsing to the general fund; and
- (2) Changing the effective date of the measure to June 29, 2077, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 395, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 395, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1291 Ways and Means on H.B. No. 426**

The purpose of this measure is to authorize the issuance of up to \$30,000,000 in special purpose revenue bonds for Honolulu Seawater Air Conditioning, LLC.

Your Committee finds that this measure will promote the development of renewable energy and efficient energy systems in Hawaii by assisting Honolulu Seawater Air Conditioning, LCC, in the design and construction of an economically feasible seawater air conditioning district cooling system in downtown Honolulu.

Your Committee notes that House Bill No. 425, H.D. 1, extends the current authorization to issue special purpose revenue bonds to assist Honolulu Seawater Air Conditioning projects on Oahu to June 30, 2014. Your Committee believes that extension of the bond authorization period by House Bill No. 425, H.D. 1, and the increase in the amount of special purpose revenue bonds that may be issued, as authorized by this measure, should be combined into one measure for consistency and to avoid unnecessary confusion.

Accordingly, your Committee has amended this measure by increasing the special purpose revenue bond authorization amount to \$77,000,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 426, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 426, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1292 Ways and Means on H.B. No. 610**

The purpose of this measure is to amend the Hawaii State Planning Act to include references to defense, dual-use, and science and technology assets to help Hawaii grow and develop these sectors of its economy.

This measure also requires the Department of Business, Economic Development, and Tourism to report annually to the Legislature on the growth of emerging growth industries in Hawaii and to develop updated measurements and analyses.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the growth of the science and technology industry in Hawaii is crucial to the State's successful development of ocean engineering, aerospace research and development, and related dual-use technologies. Your Committee believes that the State should make the expansion of these industries a priority in its planning.

Your Committee has amended this measure by changing the effective date to July 1, 2009, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 610, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 610, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1293 (Majority) Ways and Means on H.B. No. 739**

The purpose of this measure is to appropriate federal temporary assistance for needy families funds for various child care services, cash benefits, work training programs, teenage pregnancy prevention education programs, child protective services, and other social services programs.

The measure also transfers temporary assistance for needy families program funds to the social services block grant and the child development fund to fund programs tailored to Hawaii's neediest families.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the neediest families and individuals in our society are the most severely impacted by the current economic downturn. Your Committee believes that it is imperative to continue to expend federal temporary assistance for needy families funds to supply essential health, education, employment, and economic assistance in the most efficient and effective manner for these persons.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriations to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical non-substantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 739, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 739, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1294 (Majority) Ways and Means on H.B. No. 863**

The purpose of this measure is to create a no-interest loan revolving fund to provide loans to the counties for infrastructure improvements that support transit-oriented development.

Specifically, this measure establishes the county infrastructure development revolving loan fund to be administered by the Director of Finance. The fund will provide no-interest loans to the counties for the development, pre-development, or construction of infrastructure projects to expedite the building of transit-oriented development, particularly those involving affordable housing and requires that the Director give first priority to projects that increase infrastructure capacity on a regional or collector system level, as opposed to those that only support capacities for a specific, limited number of properties.

The measure also allows an amount from the fund to be used for administrative expenses incurred by the Department of Finance other than day-to-day administrative expenses of projects. This measure also defines the term "infrastructure" and requires the Department of Finance to submit annual reports to the Legislature.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the creation of this revolving fund will help to spur transit-oriented development along the mass transit corridor. However, upon further consideration, your Committee has amended this measure to limit the use of the revolving fund for affordable housing infrastructure only. Accordingly, your Committee has:

- (1) Inserted language throughout the measure to specify this limited use of the revolving fund only for affordable housing infrastructure; and
- (2) Deleted language regarding giving first priority to projects that increase infrastructure capacity on a regional or collector system level, as opposed to those that only support capacities for a specific, limited number of properties.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 863, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 863, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1295      Ways and Means on H.B. No. 989**

The purpose of this measure is to extend the Hawaii Children's Health Care Program to June 30, 2012.

The measure also requires that the Department of Human Services and any participating managed care plan report to the Legislature prior to the 2010 and 2011 Regular Sessions on the program, and also including any proposals for funding sources other than the State.

Your Committee received two written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that the purpose of Act 236, Session Laws of Hawaii 2007, was to offer health insurance to children who fall into a gap group of the uninsured. Your Committee further finds that the Department of Human Services ended its participation in the program in October 2008. Your Committee believes that this program protects the health of uninsured children by providing vital coverage for medical expenses and doctor visits. In order to sustain the program, your Committee finds that further discussion on this measure is necessary.

Accordingly, your Committee has amended this measure by:

- (1) Adding the reference to Act 239, Session Laws of Hawaii 2008, in section 1 of the bill;
- (2) Changing the amount of the appropriation to \$1; and
- (3) Changing the effective date to July 1, 2050 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 989, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 989, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1296      Ways and Means on H.B. No. 1057**

The purpose of this measure is to allow third parties to contribute directly to a college savings account for a designated beneficiary.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the TuitionEDGE program is a college savings program established by the State of Hawaii to assist students and parents in saving money for a college education. Your Committee finds that, currently, only the account owner is permitted to make contributions to TuitionEDGE accounts. Your Committee believes that, by allowing third parties, such as grandparents, friends, and other family members, to contribute directly to a college savings account, the TuitionEDGE program will grow and assist more families in reaching their educational goals.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1057, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1057, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1297      Ways and Means on H.B. No. 1064**

The purpose of this measure is to make an emergency appropriation for the Department of Human Services, the Adult Mental Health Division of the Department of Health, and the Hawaii Health Systems Corporation to address the budget shortfall.

More specifically, this measure:

- (1) Makes an emergency appropriation of an unspecified amount to the Department of Human Services for the purpose of meeting the general fund shortfall to be used for general assistance payments for the months of April, May, and June of 2009;
- (2) Makes an emergency appropriation of an unspecified amount to the Department of Health, Adult Mental Health Division to be expended by the Department of Human Services to be used to continue the provision of services to certain adults with severe mental illness; and
- (3) Makes an emergency appropriation of \$34,600,000 to the Hawaii Health Systems Corporation to ensure that it can pay for its operations and continue to provide the current level of services.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that an emergency appropriation to the Department of Human Services is necessary to ensure that recipients of general assistance payments will not experience a decrease in benefits, which could put the recipients at risk of becoming homeless.

However, your Committee also finds that it is necessary to amend this measure to delete the appropriations to the Department of Health, Adult Mental Health Division and the Hawaii Health Systems Corporation, because they appear to exceed the scope of the title of the bill.

Your Committee has amended this measure by:

- (1) Specifying the amount of \$1 as the emergency appropriation to the Department of Human Services for the purpose of meeting the general fund shortfall;
- (2) Deleting the appropriation for the Department of Health, Adult Mental Health Division to be expended by the Department of Human Services;
- (3) Deleting the appropriation to the Hawaii Health Systems Corporation;
- (4) Changing the effective date to July 1, 2077 to promote continuing discussion on the matter; and
- (5) Making technical amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1064, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1064, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1298 (Majority) Ways and Means on H.B. No. 333**

The purpose of this measure is to:

- (1) Establish a refundable earned income tax credit equal to an unspecified percentage of the federal earned income tax credit for certain Hawaii residents;
- (2) Limit the interest that may be charged by a tax preparer for providing tax preparation services to clients who receive the state earned income tax credit;
- (3) Appropriate an unspecified amount from Temporary Assistance for Needy Families funds to fund the earned income tax credit; and
- (4) Appropriate an unspecified amount from general revenues to fund public service announcements to alert eligible taxpayers about the earned income tax credit.

Your Committee finds that an earned income tax credit will provide relief to low and middle income families. In addition, your Committee believes that imposing limits on the amount of interest that may be charged to prepare tax returns for taxpayers that receive the credit will protect these persons from excessive charges and ensure that they receive the maximum benefit from the state tax credit.

Your Committee has amended this measure by:

- (1) Appropriating funds from the federal funds allocated by the American Recovery and Reinvestment Act of 2009 or other federal stimulus acts, instead of from general revenues, to fund public service announcements related to the earned income tax credit;
- (2) Changing the amount of the appropriations to \$1; and
- (3) Changing the effective date to July 1, 2090, to facilitate further discussion; and
- (4) Repealing this measure on July 1, 2011.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 333, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 333, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1299 Ways and Means on H.B. No. 694**

The purpose of this measure is to authorize any of the regional systems or individual facilities of the Hawaii Health Systems Corporation (Corporation) to transition into a new legal entity.

This measure further requires:

- (1) Each regional system board and each community hospital under the jurisdiction of the Corporation to collaborate with community health centers within their respective geographic jurisdictions to maximize funding from the State and federal governments;
- (2) Any plan to substantially reduce or eliminate any direct patient care services at a facility to be presented first to the regional system board for approval and then to the community at an informational hearing to gather input;
- (4) The Corporation and each regional system board to notify the President of the Senate, the Speaker of the House of Representatives, and Chairperson of the respective subject matter committee for health in each chamber of the Legislature within thirty days of any substantial reduction or elimination of direct patient care services;

- (5) The Department of Health, on July 1, 2009, to assume the total amount of all liabilities and debts or other obligations of the Hawaii Health Systems Corporation that had been accrued up to June 30, 1996, by the community hospitals while they were operating within the Division of Community Hospitals of the Department of Health;
- (6) The Hawaii Health Systems Corporation to bear the sole responsibility for assuming all liabilities and debts or other obligations accrued beginning on July 1, 1996, and thereafter, by the community hospitals operating within the Hawaii Health Systems Corporation; and
- (7) Commercial health plans to provide a minimum reimbursement level of no less than one hundred and one per cent of the costs for all services provided to plan beneficiaries by critical access hospitals.

This measure also requires the Hawaii Health Systems Corporation to bear sole responsibility for making all appropriate employer payments into funds of the Employees' Retirement System beginning on July 1, 1996. Finally, the measure authorizes the Corporation to conduct criminal history record checks for its employees, contractors, providers, and volunteers.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure is necessary to rectify flaws in the basic operating structure of public health facilities that are critical for the continued health and well being of all residents of the State.

Your Committee has made technical amendments for the purposes of accuracy, consistency, and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 694, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 694, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1300 (Majority) Ways and Means on H.B. No. 1098**

The purpose of this measure is to:

- (1) Apply assistance allowance calculations based on standard of need to general assistance payments for households without minor dependents;
- (2) Place a twenty-four-month limit on general assistance to persons between eighteen and sixty-five years of age with a disability;
- (3) Provide that any month in which a person receives assistance pending an eligibility determination for the federal Supplemental Security Income Program or successor program shall not be counted toward the twenty-four-month limit;
- (4) Require the Department of Human Services to refer general assistance recipients to the aid to the aged, blind, and disabled program after twelve months or upon the recipient turning sixty-five years old; and
- (5) Convert the funding mechanism for general assistance from a block grant to an entitlement.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the general assistance program represents a critical safety net that should provide dependable financial assistance to certain disabled persons who lack other means of financial support.

Upon further consideration, your Committee has amended this measure by making technical and conforming amendments and by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1098, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1098, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1301 (Majority) Ways and Means on H.B. No. 1284**

The purpose of this measure is to appropriate funds to increase payments to physicians for medicaid-eligible persons.

More specifically, this measure:

- (1) Appropriates an unspecified amount to increase payments for physician services for the care of medicaid-eligible persons, including fee-for-service, QUEST physician services, and the QUEST expanded care program, and specifies how the funds appropriated shall be distributed by the Department of Human Services;
- (2) Requires the Department of Human Services to include in its supplemental budget request for fiscal year 2010-2011 a sum at least equal to the amount appropriated in this measure; and
- (3) Requires the Department of Human Services to submit a report to the Legislature no later than twenty days prior to the convening of the regular session of 2010.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will help improve the State's health care system by increasing the amounts paid the providers of essential health care services.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to \$1; and
- (2) Changing the effective date to July 1, 2077,

to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1284, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1284, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1302      Ways and Means on H.B. No. 1354**

The purpose of this measure is to appropriate funds for the healthy start and the enhanced healthy start programs.

More specifically, this measure:

- (1) Appropriates general funds in the amount of \$7,740,000 for fiscal years 2009-2010 and 2010-2011, to maintain the current support services provided by the healthy start program;
- (2) Appropriates temporary assistance for needy families funds in the amount of \$1,660,000 for fiscal years 2009-2010 and 2010-2011 to maintain current support services provided by the healthy start program; and
- (3) Appropriates temporary assistance for needy families funds in the amount of \$3,800,000 for fiscal years 2009-2010 and 2010-2011, for the enhanced healthy start program to hire a child development specialist or clinical specialist and to train healthy start and enhanced healthy start providers to continue delivering services that are currently provided.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the healthy start and enhanced healthy start programs provide important services to at-risk families. Your Committee believes that the current economic crisis is likely to increase stress on families and that parents and children will need the support provided by the healthy start and enhanced healthy start programs. Your Committee further finds that these programs play an important role in preventing child abuse and neglect.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 2077, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1354, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1354, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, none.

**SCRep. 1303      Ways and Means on H.B. No. 1471**

The purpose of this measure is to establish a food certification pilot program to benefit farmers throughout the State.

Specifically, this measure:

- (1) Establishes the food certification pilot program to be managed by the Department of Agriculture, with the assistance by the Department of Health;
- (2) Establishes the food certification pilot program special fund within the state treasury to support the program;
- (3) Requires the pilot program to:
  - (A) Encourage farmers to form agricultural cooperatives;
  - (B) Coordinate purchasing agreements between the cooperatives and hotels, restaurants, and other hospitality related businesses; and
  - (C) Develop and implement a "safe" food certification for products to promote fresh, high-quality, and locally grown produce; and
- (4) Appropriates funds for the pilot program.

Your Committee received three written comments on this measure. Written comments may be reviewed on the Legislature's website.

News reports over the past couple of years have highlighted the need for the agricultural industry to improve food safety practices due to increasing incidence of bacteria, such as salmonella, found in agricultural products. Your Committee finds that food safety is critical to the State's food supply and world renowned reputation as a high-quality producer of agricultural products and that this measure will provide protection to the agriculture, tourism, restaurant, and retail industries. Furthermore, although the Department of Agriculture has a long history of supporting the purchase of local fresh foods, your Committee believes this measure will increase the growth and sale of safe locally-grown produce by developing a safe food certification process.

Your Committee has amended the measure by:

- (1) Requiring the Department of Agriculture to certify the produce of at least one hundred farmers each year;
- (2) Appropriating \$1 for the food certification pilot program to promote continuing discussion on the matter; and
- (3) Requiring that the pilot program sunsets in two years.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1471, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1471, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1304 (Majority) Ways and Means on H.B. No. 1525**

The purpose of this measure is to require all Medicaid health care insurance contracts to be awarded only to nonprofit and for-profit entities that comply with annual reporting requirements.

Specifically, this measure requires potential nonprofit and for-profit bidders for contracts to propose certified audit reports that must be submitted to the Department, the Insurance Commissioner, and the Legislature and be accessible to public. The report must include items such as percentages of revenue paid for medical services and administrative costs, held in reserves, and paid to shareholders. The report must also include the number of employees and their pay, contracts outside the State, and a description of any civil or criminal proceedings brought against the bidder.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the disclosures required by this measure will help improve access to and the delivery of affordable, quality health care services to consumers.

Upon further consideration, your Committee has amended this measure by making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1525, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1525, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1305 Ways and Means on H.B. No. 1831**

The purpose of this measure is to establish a military liaison trust fund to support a nonprofit entity to serve as liaison with the military in Hawaii.

Your Committee finds that the presence of the military in Hawaii contributes to the maintenance of peace and stability in the Asia-Pacific region. The military is also one of the largest sources of revenue for the State. Your Committee believes that it is important to provide support to a nonprofit entity that will serve as liaison in matters relating to the military. However, your Committee emphasizes that it is the intent of the Committee that the liaison serve the business community only and not be seen as a gatekeeper. Further, your Committee intends that the moneys used to fund the military liaison trust fund be from federal and private sources only, and not the State.

Your Committee has amended this measure by:

- (1) Deleting the appropriation provision; and
- (2) Amending the effective date to July 1, 2077, to encourage further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1831, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1831, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1306 Ways and Means on H.B. No. 975**

The purpose of this measure is to allow the Agribusiness Development Corporation to acquire agricultural water systems.

Specifically, this measure:

- (1) Allows the Agribusiness Development Corporation to acquire by grant, purchase, or gift the real, personal, or mixed property comprising an agricultural water system;
- (2) Requires the owner of the agricultural water system acquired by the corporation to describe the system in a manner that meets recording requirements, including a map containing a metes and bounds description; and
- (3) Exempts the conveyance of agricultural water systems to the corporation from county subdivision requirements.

Your Committee received three written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that this specific authorization to the Agribusiness Development Corporation to acquire agricultural water systems, including by gift, will assist it in providing much needed irrigation to agricultural lands. The further exemption of these assignments from county subdivision requirements will greatly expedite this process and result in the savings of time and money.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 975, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1307      Ways and Means on H.B. No. 142**

The purpose of this measure is to exempt the general excise tax and use tax on fuel sold from a foreign-trade zone by a common carrier for use in inter-island air transportation.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that inter-island air transportation is vital for businesses and residents of the State. As the only island state in the nation, transportation within the State is limited to air and sea. With the absence of a commuter ferry system, passenger travel, unlike cargo and freight, is exclusively by air.

Your Committee also finds that air transportation costs have a direct effect on tourism and the economy. The high cost of inter-island travel creates a barrier for visitors and residents to visit neighbor islands, reducing the amount of commerce for businesses, services, and accommodations. Your Committee believes that exempting the general excise tax and use tax on inter-island jet fuel will benefit consumers and the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 142, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 142, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1308      (Majority) Ways and Means on H.B. No. 343**

The purpose of this measure is to appropriate funds to support rural primary health care services by expanding the Family Medicine Residency program at the John A. Burns School of Medicine and developing a permanent statewide rural primary health care program in each county, beginning in Hawaii County.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that there is a shortage of basic health care services and preventive care services available to residents in rural areas of the State. Your Committee believes that it is important to develop programs that will increase access to primary care and family physicians in underserved areas of the State.

Your Committee has amended this measure by changing the amount of the appropriation to \$1 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 343, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 343, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Hemmings). Excused, 1 (Fukunaga).

**SCRep. 1309      Ways and Means on H.B. No. 1504**

The purpose of this measure is to establish the Hawaii Health Authority to develop a comprehensive health plan for delivering universal health care in Hawaii.

Your Committee received ten written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the rising costs of health care in Hawaii are rapidly outpacing the ability of individuals and employers to pay for health insurance and health care services. This has resulted in an increasing number of individuals in Hawaii that do not have health insurance and cannot afford medical care. Your Committee further finds that all residents of Hawaii should have access to affordable health care and the development of a comprehensive universal health care plan is the first step toward accomplishing this goal.

Your Committee has amended this measure by changing the amount of the appropriation to \$1 to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1504, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1504, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1310      Ways and Means on H.B. No. 1491**

The purpose of this measure is to reduce the aggregate annual cap on the ethanol facility tax credit from \$12,000,000 to \$8,000,000 from July 1, 2011 through December 31, 2012.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that while the ethanol facility tax credit provides an incentive for the construction and development of ethanol facilities in the State, a temporary reduction in the aggregate annual cap of the tax credit may help to ensure fiscal stability during the current economic recession. Your Committee does not believe that this temporary reduction will curtail ethanol production in the State.

Your Committee has amended this measure by changing the effective date to July 1, 2090, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1491, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1491, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1311      Ways and Means on H.B. No. 1015**

The purpose of this measure is to enable the Department of Hawaiian Home Lands to begin housing projects without having the full cost of the project on hand, by amending the law controlling trust fund expenditures to allow the Department of Hawaiian Home Lands to incur obligations exceeding the amount in the Department's trust fund, subject to conditions that the Director of Finance deems necessary when:

- (1) The Director of Finance determines that trust fund will be receiving moneys enabling payment of the entire obligation within a reasonable time; and
- (2) The expenditure is approved by the Governor.

Two government agencies submitted comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure would allow the Department of Hawaiian Home Lands to reduce project costs and maximize revenues. It would also bring the development of the Department's projects more in-line with private industry standards that allow contractors to be bonded and to proceed with construction projects in phases. However, your Committee believes that it is reasonable and advisable to initiate a two-year pilot project to allow for a determination of the effectiveness and economic impact of enabling the Department of Hawaiian Home Lands to commence with the construction of housing projects without having the full cost of the project on hand at the start of the projects.

Your Committee has amended this measure by:

- (1) Making the provisions of the measure temporary, for a two-year period, by repealing the measure on June 30, 2011; and
- (2) Requiring the Department of Hawaiian Home Lands to submit an interim and final report to the Legislature prior to the 2010 Regular Session and 2011 Regular Session.

Your Committee recognizes that while the text of this measure contains no specific mention of affordable housing, your Committee intends that the procedures authorized by this measure be used solely to expedite affordable housing projects, as represented in the comments submitted in support of the measure. Your Committee intends to follow-up on this issue during Conference.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1015, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1015, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1312 Ways and Means on H.B. No. 1451**

The purpose of this measure is to extend the technology infrastructure renovation tax credit, high technology business investment tax credit, and tax credit for research activities to December 31, 2012.

The measure also:

- (1) Establishes a limit of \$10,000,000 on the aggregate of high technology business investment tax credits that may be claimed by taxpayers in a taxable year for investments in a single qualified high technology business;
- (2) Establishes a limit of \$100,000,000 on the aggregate of high technology business investment tax credits claimed in a taxable year by all taxpayers for investments in qualified high technology businesses for each of the following periods:
  - (A) From July 1, 2009, through December 31, 2009;
  - (B) From January 1, 2010, through December 31, 2010;
  - (C) From January 1, 2011, through December 31, 2011; and
  - (D) From January 1, 2012, through December 31, 2012
- (3) Clarifies that if a recapture event occurs during the five-year period applicable to the high technology business investment tax credit, then one hundred per cent of the tax credit is disallowed in the year of the recapture event and each year thereafter during the five-year period;
- (4) Requires a qualified high technology business that constitutes a "drop-down subsidiary" to obtain a comfort letter ruling from the Department of Taxation prior to qualifying for the high technology business investment tax credit; and
- (5) Extends the date of the repeal and reenactment of Act 206, Session Laws of Hawaii 2007, relating to evaluating the high technology business investment tax credit from January 1, 2011, to January 1, 2013.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the technology infrastructure renovation tax credit has gone virtually unused and should be repealed. Your Committee also finds that the high technology business investment tax credit and the tax credit for research activities have proven very costly to the State in terms of tax revenue. However, these tax credits have also generated investment in Hawaii's economy. Therefore, your Committee believes that it is advisable to neither repeal nor extend these tax credits at this time. Your Committee also believes it is reasonable to require high technology businesses to increase their workforce, thereby aiding the State's economy by creating jobs, in order to continue claiming the high technology business investment tax credit.

Your Committee has amended this measure by:

- (1) Requiring a high technology business to increase its workforce to continue claiming the tax credit for research activities;
- (2) Deleting the extensions of time to claim the high technology business investment, research activities, and technology infrastructure renovation tax credits;
- (3) Deleting the extension of the date of repeal and reenactment of Act 206, Session Laws of Hawaii 2007;
- (4) Repealing the technology infrastructure renovation tax credit;
- (5) Changing the effective date of this measure to July 1, 2090, to facilitate further discussion on the measure; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1451, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1451, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1313 Ways and Means on H.B. No. 1782**

The purpose of this measure is to establish the Office of the State Coordinator of Health Information Technology.

The office would:

- (1) Leverage federal stimulus funds to improve health care delivery systems;
- (2) Assist applicants with grant proposals to the Office of the National Coordinator of Health Information Technology and for medical information and health care information technology training;
- (3) Develop a plan for integrated electronic health information infrastructure between public and private stakeholders in the State;
- (4) Work with certain state agencies and health care providers to ensure compliance with patient privacy laws; and
- (5) Assist patients in using health information technology.

In addition, this measure establishes the Health Information Exchange Task Force to advise the State Coordinator of Health Information Technology in developing a five-year strategic plan for the office to accelerate the planning of the State's health information exchange system. The measure also appropriates an unspecified amount for the office.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the exchange of health information technology is a cost-efficient tool that increases the effective delivery of health care. Your Committee finds that because both public and private entities are the custodians of health care information, an effective health information exchange will require partnerships between public and private stakeholders in the health care industry. Your Committee believes that the availability of federal stimulus funds for developing health information technology will be a key component in the development of an improved health information exchange system.

Your Committee has amended this measure by:

- (1) Removing the appropriation; and
- (2) Making a technical amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1782, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1782, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1314 (Majority) Ways and Means on H.B. No. 984**

The purpose of this measure is to establish the Hawaii Broadband Commissioner to implement recommendations of the Hawaii Broadband Task Force.

Specifically, this measure:

- (1) Establishes the Hawaii Broadband Commissioner within the Department of Commerce and Consumer Affairs;
- (2) Establishes the Communications Advisory Committee with an unspecified number of members, to be appointed by the Governor and which shall advise the Commissioner, telecommunications carriers, and cable operators;
- (3) Transfers regulatory functions relating to telecommunications providers' services from the Public Utilities Commission to the Hawaii Broadband Commissioner;
- (4) Transfers regulatory functions relating to cable operators from the Cable Television Division of the Department of Commerce and Consumer Affairs to the Hawaii Broadband Commissioner;
- (5) Requires a cable operator to designate three or more channels for public, educational, or governmental use;
- (6) Authorizes the Hawaii Broadband Commissioner to adopt rules, pursuant to chapter 91, Hawaii Revised Statutes, relating to the designation of public, educational, or governmental access organizations;
- (7) Exempts contracts between the Commissioner and PEG access organizations for PEG access services from the Hawaii State Procurement Code;
- (8) Establishes the commissioner special fund to be administered by the Hawaii Broadband Commissioner, to fund the operations and programs of the Hawaii Broadband Commissioner;
- (9) Requires the Hawaii Broadband Commissioner to designate an entity to develop and maintain broadband inventory maps, consistent with federal law;
- (10) Authorizes the Hawaii Broadband Commissioner to apply for and expend federal economic stimulus funds for broadband-related projects;
- (11) Transfers four existing positions from the Cable Television Division of the Department of Commerce and Consumer Affairs and establishes up to ten new temporary exempt positions in the Hawaii Broadband Commissioner;
- (12) Requires the Hawaii Broadband Commissioner to convene a work group to develop procedures for streamlined permitting functions for broadband service and technology and requires the work group to report its findings to the Legislature;
- (13) Requires the Legislative Reference Bureau to review Hawaii laws relating to broadband and related subjects and recommend amendments of these laws to conform to the new Hawaii Broadband Commissioner law or to facilitate implementation of that law; and
- (14) Takes effect on July 1, 2050.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee further finds that the inextricably linked nature of telecommunications, cable, and broadband technologies necessitates a unified approach to regulating these services. Your Committee finds that this measure will enable the consolidated regulation of cable and telecommunications while also promoting the development of broadband infrastructure throughout the State. Your Committee believes that widespread access throughout Hawaii to affordable and reliable high-speed broadband will create

greater economic and educational opportunities for individuals and businesses in the State and will make Hawaii a technological leader in the Pacific Rim.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to \$1 to facilitate further discussion; and
- (2) Making technical non-substantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 984, H.D. 4, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 984, H.D. 4, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1315 Ways and Means on H.B. No. 300**

The purpose of this bill is to appropriate funds for the operating and capital improvement costs of the Judiciary for the fiscal biennium from July 1, 2009, through June 30, 2011.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the Governor's financial plan, as presented to the Legislature in December 2008, characterized the entire judicial branch of government as "discretionary" and proposed reducing its general fund operating budget by a full twenty per cent. The Judiciary did not agree with the Governor's plan and, in fact, presented the Legislature with a request for increases to their general fund budget of \$7,023,237 in fiscal year 2009-2010 and \$10,105,072 in fiscal year 2010-2011.

In an attempt to meet the Governor's target reduction amount of twenty per cent, the House of Representatives reduced the Judiciary's general fund appropriation request by nearly \$40,000,000, as reflected in H.B. No. 300, H.D. 1.

Concerned with the significant reduction to the Judiciary's budget proposed by the Governor and endorsed by the House, the Committee on Judiciary and Government Operations restored \$20,000,000 of the proposed general fund reduction of \$40,000,000, as well as the total requested budget for capital improvement projects.

Your Committee likewise recognizes the damage to the operations of the court system that would occur under the Governor's proposed budget for the Judiciary. Therefore, your Committee believes that the operating portion of this measure should be adopted unamended.

Your Committee further finds that it is crucial for the State to continue to be supportive of the provision of necessary funding for repair, maintenance, and improvements for Judiciary facilities. Additionally, your Committee is mindful that the provision of such funding will help to ensure the infusion of funds and the creation of new jobs, which are immediate priorities for the State. However, your Committee believes that it is important to closely monitor the economy in conjunction with the needs and abilities of the Judiciary to undertake capital projects in fiscal year 2009-2010 prior to making funding decisions for fiscal year 2010-2011. Therefore, your Committee has amended the measure by removing appropriations for capital projects for fiscal year 2010-2011, with the intention of revisiting the matter during the next regular session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 300, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 300, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Hee, Hooser).

**SCRep. 1316 Ways and Means on H.B. No. 900**

The purpose of this bill is to appropriate funds for the operating and capital improvement budget of the Office of Hawaiian Affairs for the fiscal biennium July 1, 2009, through June 30, 2011.

Your Committee received two comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee has provided full funding for all of the Office of Hawaiian Affairs's operating-budget initiatives through the appropriation of trust funds. In total, the Office of Hawaiian Affairs's budget is \$38,587,075 in trust fund moneys for the first fiscal year, and \$38,169,075 in trust fund moneys for the second fiscal year of the upcoming biennium.

The budget for the Office of Hawaiian Affairs has remained relatively stable over the past several years. Realizing the sacrifice being made by all departments in light of the current economic situation, the Office of Hawaiian Affairs has submitted testimony in support of a twenty per cent reduction to its operating budget.

The Office of Hawaiian Affairs has over \$300,000,000 in trust funds for its use, and receives annual payments from the State of no less than \$15,100,000. In addition, the Office of Hawaiian Affairs received a sum of \$2,030,000 in the *Hokuli'a* lawsuit for legal fees (*Kelly v. Oceanside*). The State has allowed the Office of Hawaiian Affairs to retain the entire settlement and to collect interest on the principal amount awarded. Rather than requiring the State to claim its share of the settlement money, your Committee recommends that the money be retained by the Office of Hawaiian Affairs as a one-time infusion of funds to support the continuation of the Office of Hawaiian Affairs's programs in fiscal year 2010.

There exists for the Office of Hawaiian Affairs a fiscal reserve account for one-time or emergency expenses. Your Committee finds that if the Office of Hawaiian Affairs is temporarily unable to maintain its current level of services with the maximum number of

dollars that may be spent from its trust fund, the Office of Hawaiian Affairs could use the account until the return on its trust fund improves.

Your Committee recognizes the importance of the services and advocacy the Office of Hawaiian Affairs provides its beneficiaries, the need to ensure that the Office of Hawaiian Affairs has the resources to continue providing these services, and the need for the Office of Hawaiian Affairs to be financially prudent and to use all available financial resources wisely. Accordingly, your Committee finds that the Office of Hawaiian Affairs is able to support its activities and contracts through the use of its trust fund. Your Committee has appropriated trust fund moneys to completely fund the budgeted expenditures of the Office of Hawaiian Affairs for the upcoming biennium.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 900, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 900, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Hee).

**SCRep. 1317 Ways and Means on H.B. No. 1728**

The purpose of this measure is to remove administrative agencies' authority to establish fees and to replace that authority with statutory fees.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure addresses concerns raised in the Hawaii Supreme Court's decision in *Hawaii Insurers Council v. Lingle* that found certain administrative fees to be a form of taxation, thus violating the separation of powers clause of the Hawaii Constitution. Establishing these fees legislatively by statute rather than by administrative rule avoids conflict with the separation of powers doctrine, while also making administrative fees uniform.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1728, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1318 Ways and Means on H.B. No. 1686**

The purpose of this measure is to clarify the functions, duties, and roles of the Charter School Review Panel and the Board of Education in the administration and operation of charter schools.

Specifically, this measure:

- (1) Requires charter school boards to comply with Board of Education policies and Department of Education directives regarding special education and federal programs;
- (2) Clarifies that the Charter School Review Panel is subject to the requirements of the sunshine law;
- (3) Authorizes the Board of Education to remove a Charter School Review Panel member for cause;
- (4) Requires the Charter School Review Panel to approve the charter schools' all means of finance budget, capital improvement projects budget, and recommendations to allocate non-per-pupil facilities funds to charter schools with facilities needs;
- (5) Specifies the duties of the Executive Director of the Charter School Administrative Office with regard to the preparation of the budget and a separate capital improvement projects budget;
- (6) Changes the requirements for per-pupil funding;
- (7) Changes the percentage amount that the Department of Education may retain for administrative costs for federal funds received by charter schools to an unspecified percentage; and
- (8) Requires the Charter School Review Panel to evaluate a charter school on its fourth anniversary and every five years thereafter.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure provides the additional reform necessary to allow charter schools to continue to strive for excellence through the effective and efficient administration of school operations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1686, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Ayes with Reservations, 1 (Kidani). Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1319 Ways and Means on H.B. No. 1776**

The purpose of this measure is to improve the efficiency of enforcing the public assistance law with respect to inmates who are no longer eligible to receive public assistance.

More specifically, this measure requires:

- (1) The Department of Public Safety, beginning January 31, 2010, to provide the Department of Human Services with monthly reports listing newly admitted inmates;
- (2) The Department of Human Services to identify each inmate's current status regarding the receipt of public assistance;
- (3) The continuation of public assistance for the duration of the inmate's incarceration for inmates who are sentenced to incarceration in a public institution for not more than thirty days; and
- (4) That public assistance be terminated for inmates who are sentenced to incarceration in a public institution for more than thirty days.

Your Committee received one written comment on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that this measure will aid in preventing inmates from receiving public assistance that they are not entitled to and that reducing the time that an incarcerated inmate can receive public assistance is fiscally prudent and good public policy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1776, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1320 Ways and Means on H.B. No. 1103**

The purpose of this measure is to conform state law to the federal Rehabilitation Act of 1978 by repealing the statute establishing the Statewide Council on Independent Living.

Your Committee received four written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that federal law requires the State to establish a Statewide Independent Living Council for it to be eligible to receive federal financial assistance. The established entity, however, cannot be established within a state agency.

Your Committee also finds that section 348-9, Hawaii Revised Statutes, establishes a Statewide Council on Independent Living within the Department of Human Services. While the current law was well-intended, it is unnecessary and has called the State's eligibility for federal funds into question. The Statewide Independent Living Council can instead be established as part of the Title VII State Plan that each state must have in place to receive federal funds. Your Committee believes that conforming state law to meet federal requirements will ensure that the State continues to receive federal funds for these vital assistance programs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1103, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1321 Ways and Means on H.B. No. 381**

The purpose of this measure is to amend the date on which a \$4,000,000 appropriation to the State of Hawaii endowment fund is to lapse and add a stipulation regarding pledges that are not collected by February 28, 2013.

More specifically, Act 97, Session Laws of Hawaii 2006, section 2, as amended by Act 156, Session Laws of Hawaii 2007, section 1, appropriated out of the general revenues of the State of Hawaii the sum of \$4,000,000 to the State of Hawaii endowment fund, and required any unexpended or unencumbered balances to lapse on June 30, 2009. This measure deletes the lapse date of June 30, 2009, and imposes a stipulation that all pledges or portions of pledges not collected by February 28, 2013, will cause any unexpended balance from the appropriation to revert to the general fund.

Your Committee finds that in consideration of the State's current fiscal crisis, it is prudent to replace the June 30, 2009, lapsing date with a provision that stipulates that the uncollected pledges shall cause any unexpended balance of the appropriation to revert to the general fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 381, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1322 (Majority) Ways and Means on H.B. No. 611**

The purpose of this measure is to require the Department of Taxation and the Department of Business, Economic Development, and Tourism to compile necessary information to enable the Legislature to evaluate the numerous tax credits and exemptions provided under existing state law to determine whether each tax credit or exemption is meeting the purpose for which it was established and whether each should be amended, repealed, or allowed to be extended with a sunset date.

Specifically, this measure:

- (1) Adds a new part to chapter 235, Hawaii Revised Statutes, to clarify the application of the capital goods excise tax credit on property eligible for the capital goods excise tax credit that is placed in service in taxable years beginning after December 31, 2011;
- (2) Suspends the capital goods excise tax credit to any taxpayer for taxable years beginning on or after July 1, 2009, and ending on or before December 31, 2011;
- (3) Amends section 235-20, Hawaii Revised Statutes, allowing moneys in the tax administration special fund to be used for compiling usage and other relevant data to analyze the costs and benefits of state tax laws;
- (4) Adds to amounts not taxable under section 237-24, Hawaii Revised Statutes, amounts received from the loading, transportation, and unloading of agricultural products shipped for a producer on one island in the State to another person on another island in the State; and
- (5) Requires the Department of Taxation and Department of Business, Economic Development, and Tourism, in each of the next four years, to perform an evaluation of certain specified tax credits and tax exemptions for each year and submit to the Legislature, twenty days prior to the convening of each regular session of 2010 through 2013, a report on the tax credits and tax exemptions subject to review for that year, that shall provide usage and revenue data, economic analysis, and other information sufficient for the Legislature to determine whether the tax credits and tax exemptions evaluated have or are achieving their intended objectives and whether they should be continued, modified, or repealed. If, in any year the Department of Taxation, with the assistance of the Department of Business, Economic Development, and Tourism, does not submit to the Legislature a complete and accurate evaluation on a particular tax credit or tax exemption by no later than the twenty days prior to the next regular session when first originally due, that particular tax credit or tax exemption shall not be available to be claimed after the end of the tax year when the report was first due.

Your Committee received six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that in these troubled economic times with projected reductions in revenues, it is incumbent upon the Legislature to thoroughly evaluate existing tax credits and tax exemptions to ensure that they are fulfilling the intended particular purposes for which the tax credits or exemptions were adopted-for the benefit for Hawaii's economy. This measure institutes an ongoing program of evaluation of tax credits and tax exemptions by the Legislature that will determine whether a tax credit or tax exemption should be modified, repealed, or allowed to continue, with or without an appropriate sunset provision.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 611, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, 1 (Hemmings). Excused, none.

**SCRep. 1323      Ways and Means on H.B. No. 986**

The purpose of this measure is to require renovations of public school buildings to meet energy efficiency and environmental standards.

More specifically, this measure:

- (1) Adds energy efficiency and environmental standards to achieve high performance classrooms as a criterion that may be used to establish current repair and maintenance requirements for state educational facilities;
- (2) Requires the Superintendent of Education to ensure that all repair and maintenance projects follow the required energy efficiency and environmental standards;
- (3) Requires the renovation of state buildings and facilities to meet the Leadership in Energy and Environmental Design silver or two green globes rating or similar guideline, standard, or system;
- (4) Adds energy efficiency and environmental standards as a basis of the Department of Education's six-year program and financial plan for school repair and maintenance; and
- (5) Requires that consideration be given to energy efficiency and environmental standards when prioritizing a school's repair and maintenance needs.

Your Committee received two written comments on this measure. Written comments may be reviewed on the Legislature's website.

Your Committee finds that energy efficiency is critical to protecting the environment and reducing the energy costs incurred by public school facilities. Electrical and energy savings from efficient public school buildings would decrease energy costs, promote new technology, and set an example for other public and private entities to implement energy efficiency and high performance buildings and reduce energy consumption. Your Committee also finds that proper maintenance of public school buildings is critical to the health and well-being of Hawaii's students.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 986, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1324 (Majority) Ways and Means on H.B. No. 1766**

The purpose of this measure is to support the continued development and maintenance of ocean recreation activities provided by state small boat harbors.

Specifically, this measure:

- (1) Extends the maximum term of any lease disposition of public lands in state boating facilities to sixty-five years;
- (2) Allows up to fifteen per cent of moorings in Ala Wai boat harbor and thirty-five per cent of moorings in Keehi boat harbor to be issued for commercial use permits;
- (3) Requires future moorage fees to be based upon appraisal by a state-licensed appraiser, with present moorage fees in schedule A and new moorage fees established in schedule B; and provided further, that the schedule A moorage fees shall be increased by the same amount each year so schedule A moorage fees shall equal schedule B moorage fees by July 1, 2014;
- (4) Allows the Department of Land and Natural Resources to assess and collect utility fees and common area maintenance fees in small boat harbors; and
- (5) Directs the Department of Land and Natural Resources to lease certain fast lands at Ala Wai harbor using the request for proposals process for a public-private development, management, and operation of areas of Ala Wai harbor.

Your Committee received thirty-one written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that small boat harbors throughout the State are a valuable resource that makes ocean recreational opportunities available to all residents. However, the harbors have been neglected in the recent past and, with the looming budget deficits projected for the near future, this neglect could continue and increase. Your Committee finds that many of the provisions of this measure, particularly those providing commercial permits at Ala Wai and Keehi boat harbors, increasing future mooring fees by appraisal, and the proposed public-private development of certain areas in the Ala Wai harbor, should ease budget constraints on small boat harbors throughout the State.

Your Committee has amended this measure by changing its effective date to July 1, 2046, to allow further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1766, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1766, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Fukunaga).

**SCRep. 1325 Ways and Means on H.B. No. 1712**

The purpose of this measure is to prevent the depletion of certain species of aquatic resources that are popular sources of recreational taking and consumption.

Specifically, this measure:

- (1) Requires the Department of Land and Natural Resources to consider and incorporate, in addition to information it receives at on-going public informational meetings, available and relevant data in the adoption of new rules regulating the taking of uhu, weke/moana kali, and ulua/papio;
- (2) Requires the Department of Land and Natural Resources to adopt appropriate monitoring and evaluation criteria to determine the effects of the rules it adopts regulating uhu, weke/moana kali, and ulua/papio;
- (3) Makes it unlawful to take or harvest any of the four species of opihi that inhabit the Hawaiian Islands:
  - (A) At any time from any coastal area or nearshore waters of off-shore islets in the State;
  - (B) At any time from below the waterline of any coastal area or nearshore waters of the islands of the State;
  - (C) From above the waterline of any coastal area or nearshore waters of the State during the closed season from February 1 through May 31, and September 1 through November 30;
  - (D) In an amount greater than one quart of opihi with shells attached or one half pint of opihi without shells attached, per day during the open seasons; and
  - (E) At any time from the coastal areas or nearshore waters of the island of Oahu;

provided that restrictions on the taking or harvesting of opihi shall not affect any right customarily and traditionally exercised for subsistence, cultural, and religious purposes by native Hawaiian ahupua'a tenants;
- (4) Provides that the taking and harvesting of opihi within the Kahoolawe Island Reserve shall be governed by the Kahoolawe Island Reserve Commission;
- (5) Imposes a limit of a minimum size of ten inches and a daily bag limit on the taking of not more than two kumu, two moano ukali, and two munu on the island of Maui; and
- (6) Imposes a limit of a minimum size of twelve inches and a daily bag limit of two uhu on the island of Maui.

Your Committee received thirty-four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that for a variety of reasons, including but not limited to runoff, sedimentation, pollution, the lack or profusion of fresh water intrusion into the marine ecosystem, overharvesting, and the introduction of invasive species, many vital marine species are threatened with irreversible damage. These species are vital for cultural, traditional, and religious practices of native Hawaiians and are also vital for recreational taking practices and for consumption, in some cases for subsistence purposes. The protection and preservation of these marine species is necessary for the benefit of today's residents and future generations of the State.

Your Committee has amended this measure by:

- (1) Providing that restrictions on opihi in section 4 shall take effect on June 1, 2014, and be repealed on August 31, 2014; and
- (2) Changing its effective date to July 1, 2046, to allow for further discussion of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1712, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1712, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1326 (Majority) Ways and Means on H.B. No. 1552**

The purpose of this measure is to encourage the development of living parks within state parks.

Specifically, this measure:

- (1) Authorizes the Department of Land and Natural Resources to issue long-term residential leases to qualified persons residing within a state living park; and
- (2) Establishes, within the Department of Land and Natural Resources, a living park planning council for each state living park.

Your Committee received two written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that living parks within state parks allow individuals to reside within the state park as an essential part of the purpose of the living park, to nurture and foster native Hawaiian culture and spread knowledge of its values and ways.

However, to ensure the success of a state living park, it is essential not only that qualified residents be issued long-term residential leases to reside within the state living park, but also that the development of each living park be based upon a master plan that establishes goals and objectives and identifies and develops programs to enhance educational opportunities and cultural awareness in the living park. Such a master plan would require the participation and input from representative of families residing with the state park and also persons possessing expertise in land use laws, land use and community-based planning, the environment, and native Hawaiian culture. Establishing a living park planning council comprised of such persons for each state living park will fulfill this requirement.

Your Committee has amended this measure by changing its effective date to allow further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1552, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1552, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Hemmings). Excused, 2 (English, Fukunaga).

**SCRep. 1327 Ways and Means on H.B. No. 1464**

The purpose of this measure is to add to or clarify a number of provisions in the Hawaii Revised Statutes to encourage energy efficiency and the development of renewable energy resources.

Specifically, this measure:

- (1) As of July 1, 2009, prohibits an electricity-generating public utility from adding a new, or increasing the capacity of an existing, covered source with a capacity of two megawatts or more using fossil fuel sources;
- (2) As of January 1, 2015, prohibits the inclusion of electrical energy savings in determining conformance with renewable energy portfolio standards required by section 269-92, Hawaii Revised Statutes;
- (3) Accelerates and extends the renewable electrical energy portfolio standard by an additional five percentage points by December 31, 2020, to twenty-five per cent from twenty per cent, and increases the standard to forty per cent by December 31, 2030;
- (4) Expands the duties of the energy resources coordinator to include:
  - (A) Identifying geographic areas containing renewable energy resources and designate these areas as renewable energy zones;
  - (B) Developing incentive programs to encourage the development of renewable energy resource projects within the renewable energy zones; and

- (C) Assisting public and private entities in identifying and developing, through the use of special purpose revenue bonds, utility transmission projects to accommodate the development of renewable energy resources;
- (5) Expands the definition of a “qualified business” in a state enterprise zone to one that is engaged in the development and production of fuels and thermal or electrical energy using a number of renewable energy resources;
- (6) Clarifies that the duties of the renewable energy facilitator in assisting the efficient permitting of renewable energy projects extends to the land on which the project is situated and any structures or equipment, including transmission facilities, required by the project;
- (7) Amends the definition of “renewable energy facility” in section 201N-1, Hawaii Revised Statutes (renewable energy facility siting process), to authorize the energy resources coordinator to designate, as renewable energy facilities, biofuel production facilities and renewable energy facilities with smaller energy production capacities, for purposes of streamlined permit processing for new facilities;
- (8) Directs the Public Utilities Commission to establish energy efficiency portfolio standards to maximize cost-effective energy efficiency programs and technologies to achieve a reduction of four thousand three hundred gigawatt hours of electricity use reductions statewide by 2030;
- (9) Replaces the energy resources coordinator with the public benefits fee administrator as the authority to issue variances from the requirement that single-family dwelling include solar water heating systems, and requires the administrator to:
- (A) Conduct post-installation inspections of installed water heating technology; and
- (B) Make public all applications and the dispositions of all applications for variances from the solar water heating system requirement;
- (10) Revises the tax credit on renewable energy technology systems provided by section 235-12.5, Hawaii Revised Statutes, and:
- (A) Disallows the tax credit on the installation of a solar water heating system that is required, pursuant to section 196-6.5, Hawaii Revised Statutes, on new single-family dwellings on or after January 1, 2010; and
- (B) Limits the tax credit to eligible renewable energy technology systems installed on or after July 1, 2009; and
- (11) Extends the deadline for the Public Utilities Commission to adopt standards for solar water heating systems from July 1, 2009, to January 1, 2010, and permits the Commission to contract with the public benefits fee administrator for the development of the standards to be adopted by the Commission.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature’s website.

Your Committee finds that numerous provisions contained in this measure either clarify or tighten existing provisions within the Hawaii Revised Statutes that encourage energy efficiencies and the development of renewable energy resources in the State. Further, a number of provisions expand certain statutory provisions to further encourage that development.

Your Committee has amended this measure by:

- (1) Deleting the requirement that gas-fired demand water heaters meet the impracticable or cost-prohibitive criteria for a variance from the solar water heating requirement, to ensure that natural gas remains a viable option for residential household water heating; and
- (2) Changing the effective date to July 1, 2046, to allow further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1464, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1464, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Ayes with Reservations, 2 (Hooser, Kokubun). Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1328 Ways and Means on H.B. No. 1271**

The purpose of this measure is to establish the Hawaii economic development task force to address the long-term energy and food security concerns of the State.

This measure also:

- (1) Establishes the food security special fund to support increased agriculture production in the State to reduce Hawaii’s dependence on imported food sources;
- (2) Removes the cap amount on the environmental response revolving fund that triggers the discontinuation of collection of the environmental response tax;
- (3) Deletes the authorization for funds from the environmental response revolving fund to be deposited into the energy security special fund;
- (4) Renames the “environmental response tax” the “environmental response, energy, and food security tax”;

- (5) Changes the per barrel amount of the environmental response, energy, and food security tax to an unspecified amount, and provides for unspecified amounts to be distributed to the environmental response revolving fund, energy security special fund, energy systems development special fund, food security special fund, and the general fund;
- (6) Establishes the Hawaii economic development task force to facilitate accelerated adoption and completion of renewable energy projects, energy efficiency programs, agricultural infrastructure and development, and related issues;
- (7) Appropriates an unspecified amount to support the work of the Hawaii economic development task force; and
- (8) Preserves the general excise tax exemption for the sale of alcohol fuels by repealing the sunset provision for section 2 of Act 209, Session Laws of Hawaii 2007.

Your Committee received twenty-six written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that reducing the State's dependence on imported energy resources is crucial to the economic security of the State. An adjustment to the per barrel amount of the environmental response tax can serve not only to reach this objective, but also to provide a dedicated and reliable source of funding for energy and food security projects. Additionally, your Committee finds that the tax could also provide much-needed deposits to the general fund to help alleviate budgetary shortfalls. Finally, your Committee finds that Hawaii's consumers will continue to benefit during these difficult economic times by continuing the exemption from the general excise tax for sales of alcohol fuels.

Despite the merits of this measure, your Committee finds that it may be inappropriate to create a food security special fund that will be funded by a per barrel tax on petroleum imports. Your Committee has concerns with respect to the tenuous nexus between the benefits sought by the fund (food security) and the charges to the users or beneficiaries of the fund.

Therefore, your Committee has amended this measure by:

- (1) Deleting the establishment of the food security special fund and allocations from the per barrel amount of the environmental response, energy, and food security tax to the special fund; and
- (2) Changing the amount of the appropriation for the Hawaii economic development task force to \$1 to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1271, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1271, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 2 (Kokubun, Hemmings).

**SCRep. 1329      Ways and Means on H.B. No. 1071**

The purpose of this measure is to establish within the Department of Commerce and Consumer Affairs a system to license and regulate servicers of residential mortgage loans secured by real property located in Hawaii.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that mortgage servicers are frequently a borrower's only contact for information regarding the borrower's mortgage loan or to address and resolve matters that can arise in the course of making payments on that loan. However, many mortgage servicers are unable or unwilling to assist borrowers in distress who want to negotiate a modification or workout of a delinquent loan. Your Committee further finds that licensure and regulation of mortgage servicers is necessary to protect Hawaii homeowners, especially given the rising rate of home mortgage foreclosures caused by the current economic recession.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1071, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1071, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, none.

**SCRep. 1330      Ways and Means on H.B. No. 686**

The purpose of this measure is to delay the implementation of the reduced ignition propensity cigarette law and provide the State Fire Council with the means to cover the cost of enforcing it.

Specifically, this measure:

- (1) Establishes a special revolving fund to be administered by the State Fire Council;
- (2) Requires that the cigarette manufacturer certification fees be deposited into the special revolving fund;
- (3) Allows the State Fire Council to use moneys from the fund to pay for any costs associated with administering the reduced ignition propensity cigarette program, including hiring personnel; and
- (4) Delays the implementation of the reduced ignition propensity cigarette program until September 30, 2010.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the State Fire Council consists of only one part-time employee funded by the State Department of Labor and Industrial Relations. Your Committee believes that due to this staffing shortage, the State Fire Council would benefit from delaying the implementation of the reduced ignition propensity cigarette program.

Your Committee is concerned that the revolving fund established by this measure may not meet the clear nexus criteria for a revolving fund under section 37-52.4, Hawaii Revised Statutes. Furthermore, your Committee acknowledges the concern that the cigarette manufacturer certification fees may not provide sufficient funding to support the State Fire Council's duties and responsibilities.

Accordingly, your Committee has amended this measure by deleting the revolving fund and making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 686, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 686, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1331 (Majority) Ways and Means on H.B. No. 1174**

The purpose of this measure is to provide the Board of Regents of the University of Hawaii with greater authority over the management of the Mauna Kea lands.

Specifically, this measure:

- (1) Authorizes the Board of Regents to charge fees and enter into lease agreements for the Mauna Kea lands;
- (2) Authorizes the Board of Regents, in consultation with the Office of Hawaiian Affairs, to adopt rules to regulate public and commercial activities on Mauna Kea lands;
- (3) Authorizes the Board of Regents, in consultation with the Office of Hawaiian Affairs, to establish and collect administrative fines for violations of rules;
- (4) Requires annual reports to the Legislature; and
- (5) Establishes the Mauna Kea lands management special fund to be managed by the University of Hawaii.

Your Committee received one hundred forty-five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the Department of Land and Natural Resources has adopted administrative rules governing the use of lands within the conservation district lands of Mauna Kea consisting of the forest reserve, the natural area reserves system, and the Mauna Kea Science Reserve. The Mauna Kea Science Reserve is currently under lease to the University of Hawaii. While the Department's conservation district rules apply to the Mauna Kea Science Reserve, there have not been any administrative rules adopted to specifically cover activities within the reserve area.

Your Committee believes that it is necessary to clarify the authority of the University of Hawaii to manage and adopt rules for the Mauna Kea lands under lease from the Department of Land and Natural Resources to remove any ambiguity regarding the University's rulemaking authority. This measure will also promote better management of public uses and activities and protect Mauna Kea's unique cultural and natural resources.

Your Committee has amended this measure by making a technical amendment to clarify a statutory cross reference.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1174, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1174, H.D. 3, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Ayes with Reservations, 3 (English, Hooser, Kidani). Noes, 3 (Chun Oakland, Galuteria, Hee). Excused, none.

**SCRep. 1332 Commerce and Consumer Protection on H.B. No. 690**

The purpose of this measure is to expand the availability of health insurance by requiring insurers to offer the same health insurance coverage to employees who work at least fifteen hours per week as is offered to employees who work at least twenty hours per week.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Testimony with comments on this measure was received from Hawaii Association of Health Plans, Hawaii Medical Service Association, and Kaiser Permanente. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that part-time workers constitute a significant portion of Hawaii's uninsured population. Your Committee further finds that because of the prevalence of tourism-related and service sector employment in Hawaii's job market, many Hawaii workers hold part-time jobs that do not provide health insurance. Additionally, many workers have experienced a reduction in working hours that makes them ineligible for insurance benefits under the Prepaid Health Care Act. Your Committee finds that in difficult economic times, it is important to ensure that adequate health care remains within reach of Hawaii's workers.

Your Committee further finds that small businesses and their employees often bear the brunt of an economic downturn. Employees of businesses with between two and nineteen employees are not entitled to continuation of health insurance coverage under federal Consolidated Omnibus Budget Reconciliation Act (COBRA) provisions. Your Committee finds that the loss of health insurance due to unemployment or a reduction in working hours can be devastating to small business employees who often have no other means of obtaining health insurance outside of employer-provided group plans.

Your Committee notes that federal stimulus funds are currently available to assist individuals with paying the higher monthly premiums associated with continuation of coverage. However, these funds are, at present, only available through December 2009. Your Committee notes that although the effective date of this measure is currently deferred to January 1, 2020 for the purpose of encouraging further discussion, it is the intention of your Committee that this measure be implemented in time for Hawaii residents to benefit from federal continuation of coverage assistance. It is also the intention of your Committee that the article added by section 1 of this measure expire after two years, at which time it shall be subject to review by the Legislature.

Your Committee has amended this measure by:

- (1) Adding a new section to extend continuation of health insurance benefits to small business employees who are ineligible for continuation of coverage under federal law;
- (2) Defining the eligibility, notice, and enrollment requirements for continuation of coverage for small business employees;
- (3) Clarifying that the health insurance coverage provided to part-time employees shall include family coverage if the health insurance provided to regular employees also includes family coverage;
- (4) Clarifying that an employer is responsible for the administrative duties necessary to provide health insurance to part-time employees;
- (5) Clarifying that "part-time employee" means a person employed by a single employer for at least fifteen but less than twenty hours per week;
- (6) Deleting the requirement that a certain percentage of part-time employees elect to receive coverage before health insurance may be extended to part-time employees;
- (7) Clarifying that a part-time employee shall have been employed for at least eighteen months with a single employer in order to be eligible for health insurance coverage;
- (8) Adding a new section to apply the requirements for coverage of part-time employees to fraternal benefit societies;
- (9) Adding two new sections to update existing statutes governing mutual benefit societies and health maintenance organizations in order to include the article added by section 1 of this measure;
- (10) Specifying that part I of this measure shall take effect upon the approval of this measure and shall be repealed on July 1, 2011;
- (11) Deferring the effective date of part II of this measure to encourage further discussion and specifying that Part II shall be repealed five years after its enactment; and
- (12) Making technical, nonsubstantive changes, including the division of this measure into two parts, for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 690, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 690, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Hemmings).

**SCRep. 1333 Commerce and Consumer Protection on H.B. No. 1503**

The purpose of this measure is to require limited liability companies that opt to be designated as a public purpose company to exercise the right to exclude conferred by a patent for a public purpose.

Your Committee received testimony in support of this measure from three private citizens. Testimony in opposition to this measure was received from the Department of Commerce and Consumer Affairs and three private citizens. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that some for-profit business enterprises that pursue social entrepreneurship do not conform exactly to existing corporate structures which distinguish between corporations formed for the purpose of making a profit and those formed for the purpose of performing a social function. Your Committee notes the concerns of the Department of Commerce and Consumer Affairs and other testifiers that this measure undermines clarity and uniformity in State law, may conflict with federal law, and may create difficulties in administration and enforcement. However, your Committee finds that this measure merits advancement for the purpose of further discussion.

Your Committee has amended this measure by:

- (1) Clarifying the definition and function of a public purpose company;
- (2) Removing the automatic designation as a public purpose company of any company that exercises the right to exclude; and
- (3) Requiring the Department of Commerce and Consumer Affairs to list all public purpose companies in the State on its website.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1503, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1503, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Hemmings).

**SCRep. 1334 (Joint) Judiciary and Government Operations and Ways and Means on H.B. No. 1713**

The purpose of this measure is to authorize the Governor to enter private property to mitigate situations deemed hazardous to the health and safety of the public, following appropriate notice procedures to the owner and occupier.

This measure also:

- (1) Clarifies that:
  - (A) Dangerous trees or branches that pose a falling hazard;
  - (B) Stabilizing or removing unstable rock and soil hazards; and
  - (C) Cleaning streams and waterways to mitigate or prevent flooding or other disasters;

constitute situations that are hazardous situations to the health and safety of the public that the Governor is authorized to mitigate;

- (2) Requires the Governor to provide a ten day notice to the landowner and occupier of private property before entering on the private property; and
- (3) Extends the lapsing date for the remaining unexpended appropriations granted under Act 78, Session Laws of Hawaii 2007, from June 30, 2009, to June 30, 2010. Act 78 appropriated funds in response to the Kiholo Bay earthquake disaster that occurred on October 15, 2006.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will allow the State to prevent hazardous situations on private property, such as falling trees or branches, unstable rock and soil, and clogged streams and waterways that may pose a significant risk of harm to adjoining landowners and the general public when property owners fail to properly maintain their properties.

It is your Committees' understanding that while Hawaii State Civil Defense has performed ably to oversee the expenditure of Act 78 funds, important work remains to be done. Another year is needed to complete repairs to earthquake-damaged facilities, including agricultural irrigation systems and hazard mitigation projects on the islands of Hawaii, Maui, and Oahu. One of the most destructive consequences of the earthquake was the severe damage sustained by the Kohala Ditch. Suspension of the flow of water in the Kohala Ditch has resulted in severe losses to agricultural and livestock operations in North Kohala, including one of the last two remaining dairies in Hawaii. Extending the lapsing date of the appropriations provided by Act 78 will enable the completion of recovery efforts.

Your Committees have amended this measure by:

- (1) Clarifying that designated state employees may enter a private landowner's property pursuant to the requirements of this measure;
- (2) Clarifying that the authority to enter a private landowner's property is limited to mitigation of the three hazardous situations identified in this measure;
- (3) Requiring the Governor to first provide the landowner or occupier with a reasonable opportunity to mitigate the hazardous situation without assistance of the State; and
- (4) Changing the effective date to July 1, 2050, to promote further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1713, H.D. 2, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 1713, H.D. 2, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
Ayes, 17. Noes, none. Excused, 1 (Bunda).

**SCRep. 1335 Judiciary and Government Operations on H.B. No. 640**

The purpose of this measure is to amend chapter 343, Hawaii Revised Statutes (chapter 343), to clarify that any primary action that requires a permit or approval not subject to the discretionary consent of the approving agency and that involves a secondary action within an existing public right-of-way or highway is exempt from chapter 343.

Your Committee understands that recent court rulings and agency interpretations have suggested that private applications that use or "touch" state or county roadways or rights-of-way, such as easements, drainage facilities, connections to waterlines and sewer lines, private driveways and access improvements, and utility rights of way for overhead or underground connections, would require preparation of an environmental assessment document due to the "use of state or county lands", pursuant to section 343-5(a)(1), Hawaii Revised Statutes. As a result, private applicant proposals for minor work within the state or county right-of-way now triggers the preparation of an environmental assessment by the applicant. Your Committee finds that the unintended results of these court decisions and agency interpretations have caused the Department of Transportation (DOT) and the Office of Environmental Quality Control (OEQC) to be deluged with hundreds of minor work project reviews, significantly increasing the time required for the DOT to review and process applications affecting the state highway right-of-way. This interpretation has also created unnecessary expense and delay for private applicants.

Your Committee notes that the exemption provided by this measure will not apply if the infrastructure is not within an existing public right-of-way or highway, or if the infrastructure may have a significant effect on the environment.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2075, to continue the discussions on this matter; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 640, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 640, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1336      Judiciary and Government Operations on H.B. No. 819**

The purpose of this measure is to require the Family Court to waive jurisdiction and order a minor to be held in a youth correctional facility for criminal proceedings if, after a full investigation and hearing, the Family Court finds that:

- (1) The minor is alleged to have committed an act that would constitute murder in the first degree or second degree if committed by an adult; and
- (2) The minor is at least fifteen years of age, but less than eighteen years of age.

This measure also provides that subsequent to a waiver by the Family Court, upon motion by the defendant, the Circuit Court may remand the minor back to the jurisdiction of the Family Court if the Circuit Court finds that the rehabilitation of the minor would be seriously impaired if the minor remained under the jurisdiction of the Circuit Court, or that the minor is committable to an institution for the mentally defective or retarded or the mentally ill.

Your Committee notes the testimony of the Judiciary to the effect that nearly all of the petitions for waiver of Family Court jurisdiction of minors charged with murder have been granted, and that the existing statutory schemes have not resulted in inconsistent outcomes or in outcomes that would be to the detriment of public safety. According to the Judiciary, the case that gave rise to this measure does not reflect the normal timetable for waiver cases because it involved complexities that required more time for the parties to resolve.

Your Committee has amended this measure by:

- (1) Limiting its applicability to murder in the first degree and to cases where the minor has not been charged with any other criminal offenses arising from the same incident; and
- (2) Changing the effective date to July 1, 2050 to continue the discussions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 819, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 819, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1337      Judiciary and Government Operations on H.B. No. 1415**

The purpose of this measure is to require condominium associations, planned community associations, and cooperative housing corporations to implement a policy to provide entry for a process server.

Your Committee finds that service of process is an important component of a fair and efficient civil legal system. Your Committee further finds that under the current law, an individual living in a condominium, cooperative housing project, or gated community may be able to delay or avoid service of process if entry to the property is restricted. Your Committee has concerns as to whether this measure strikes a reasonable balance between respect for private property rights and the need to promote efficiency in the judicial process.

Your Committee has amended this measure by:

- (1) Requiring cooperative housing corporations and planned community associations to identify in their governing by-laws, rather than in their annual corporate filings, the persons designated to respond to a request for access;
- (2) Changing the term "process server" to "person authorized to serve civil process" to be consistent with the requirements of section 634-21, Hawaii Revised Statutes, and court rules;
- (3) Restricting the requirement of establishing an access policy to properties having entries inaccessible to the general public; and
- (4) Changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1415, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1415, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1338      Judiciary and Government Operations on H.B. No. 262**

The purpose of this measure is to:

- (1) Establish an insurance fraud investigations branch to replace the existing insurance fraud investigations unit, and to empower the branch to investigate and prosecute insurance fraud in all lines of insurance except workers' compensation;
- (2) Impose administrative, civil, and criminal penalties for offenses of insurance fraud in all covered lines of insurance and for different types of insurance fraud, including fraudulent applications and sales; and
- (3) Direct the deposit of fines and settlements resulting from successful insurance fraud prosecutions into the compliance resolution fund to help the insurance fraud investigations branch cover the cost of preventing, investigating, and prosecuting insurance fraud.

Your Committee finds that insurance fraud reportedly costs every household in the United States an average of \$500 per year. In Hawaii, the cost of motor vehicle insurance fraud alone was estimated in 1997 to be over \$164 annually per household. In Hawaii, based on the conservative estimate that insurance fraud amounts to three per cent of annual Hawaii health care costs, health insurance fraud causes losses that exceed \$60,000,000 annually.

Your Committee also finds that no line of insurance is free of insurance fraud. Rather than limit administrative, civil, and criminal penalties for insurance fraud to only motor vehicle insurance, Hawaii's insurance fraud law should be expanded to include all lines of insurance.

Your Committee has amended this measure by:

- (1) Making clarifying amendments for consistency, on the recommendation of the State Insurance Commissioner;
- (2) Exempting licensed attorneys acting in their capacity as attorneys for claimants, from the definition of "person";
- (3) Changing the effective date to July 1, 2050 to continue the discussions on this issue; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 262, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 262, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1339      Judiciary and Government Operations on H.B. No. 590**

The purpose of this measure is to expedite the processing and approval or denial of any permit plan application for the siting, development, construction and operation of a renewable energy facility, by:

- (1) Requiring the permitting agency to provide the energy resources coordinator, within thirteen months after the permit application is complete, a report identifying diligent measures that are being taken by the agency to complete permit processing and requiring the agency to take action as soon as practicable; and
- (2) Giving the energy resources coordinator the authority, subject to certain time requirements, to deem a completed permit application approved if the permitting agency either (A) does not report any further processing or action after it submits its report to the energy resources coordinator, or (B) fails to provide the energy resources coordinator with its report and has not approved or denied the application.

Your Committee finds that fostering predictability and certainty in the permitting process for renewable energy projects will reduce Hawaii's reliance on fossil fuels and will assist the State in meeting its 2030 renewable energy mandates for the health and welfare of the residents of Hawaii.

Your Committee has amended this measure by changing the effective date to July 1, 2050 to continue the discussions on this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 590, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 590, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1340      (Majority) Judiciary and Government Operations on H.B. No. 952**

The purpose of this measure, known in pending federal legislation as the "Employee Free Choice Act," is to enact a new labor law to:

- (1) Authorize streamlined certification of a labor organization to represent employees pursuant to signed valid authorizations by a majority of employees where no other representatives are certified as the exclusive bargaining representatives; and
- (2) Establish a mandatory procedure for facilitating initial collective bargaining agreements.

This measure also establishes a violation and civil penalty applicable to employers who wilfully or repeatedly commit unfair or prohibited practices that interfere with statutory rights of employees or discriminate against employees for the exercise of protected conduct.

Your Committee finds that this measure supports workers' right to organize for the purpose of collective bargaining under Article XIII of the Hawaii Constitution and provides protections for workers against actions that would hinder them from exercising this constitutional right.

Your Committee has amended this measure by changing the effective date to upon its approval, and making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 952, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 952, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Gabbard). Noes, 2 (Nishihara, Slom). Excused, none.

**SCRep. 1341      Judiciary and Government Operations on H.B. No. 981**

The purpose of this measure is to amend Act 171, Session Laws of Hawaii (SLH) 2008, relating to the implementation of use of an ignition interlock device, to reflect recommendations of the Hawaii Ignition Interlock Implementation Task Force, and to extend the life of the Task Force to January 1, 2011.

The Hawaii Ignition Interlock Implementation Task Force was created by Act 171, SLH 2008, to make recommendations to the Legislature to implement Act 171. The Task Force was broadly representative of the Legislature, the Judiciary, relevant executive departments of the State and counties, and concerned citizen groups. Recognizing the need to resolve a number of outstanding issues in the transition to use ignition interlock devices, the Legislature delayed the effective date of Act 171 to July 1, 2010.

Your Committee believes that using interlock devices to deter intoxicated drivers from driving is a natural extension of existing law providing penalties for drunk driving.

Your Committee has amended this measure by:

- (1) Deleting the administrative penalty of a petty misdemeanor for an implied consent violation, which is a criminal offense and outside the realm of an administrative license revocation;
- (2) Adding an effective date of July 1, 2050, to continue the discussions on this matter; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 981, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 981, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1342      Judiciary and Government Operations on H.B. No. 1316**

The purpose of this measure is to abolish joint and several liability for design professionals and public utilities in tort claims relating to the design and maintenance of public highways, except where the design professional or public utility's degree of negligence is twenty-five per cent or greater.

Your Committee believes that this measure provides a degree of fairness in the judicial system for design professionals, since most design firms that work on public highway projects are small and the professional liability risk may outweigh their financial reward from the project. However, your Committee remains cognizant of maintaining a sufficient deterrent from negligent or substandard design work. In addition, your Committee believes that public utilities are not in the risk/reward situation as design professionals.

Your Committee has amended this measure by:

- (1) Deleting public utilities from coverage under this measure;
- (2) Reducing the cap on the design professional's qualifying negligence from twenty-five to ten per cent, in order to be eligible under the terms of this measure;
- (3) Requiring the design professional to meet the criteria under either of two situations, based upon the contract amount relating to the tort claim, the amount of gross revenue received by the design professional in the preceding year or years, and the coverage amounts of professional errors and omissions liability insurance, in order to be eligible under the terms of this measure;
- (4) Defining "contract amount" for purposes of the amended measure; and
- (5) Changing the effective date to July 1, 2050 to continue the discussions in this matter.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1316, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1316, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1343 (Majority) Judiciary and Government Operations on H.B. No. 1479**

The purpose of this measure is to require that every contract for a public works project, to which a government contracting agency is a party, include in the contract a provision that a certified copy of a fringe benefit reporting form is to be submitted weekly to the governmental contracting agency for review.

Your Committee finds that the current reporting of fringe benefits by public works project employers is inadequate, and that there should be a reasonable way for laborers to determine the itemization of their fringe benefits through public records. Employers are currently only required to check a box indicating that they are in compliance with the payment of fringe benefit wages required under chapter 104, Hawaii Revised Statutes. Hourly wages, but not fringe benefits, are listed as itemized payments to prove compliance.

This measure remedies the situation by requiring the itemized listing of payments of fringe benefits on payroll records, thus ensuring compliance with rules regarding the payment of fringe benefits.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1479, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, 1 (Slom). Excused, none.

**SCRep. 1344 Judiciary and Government Operations on H.B. No. 1101**

The purpose of this measure is to ensure that investigators appointed and commissioned by the Director of Human Services have access to all information necessary to investigate incidents at the Hawaii Youth Correctional Facilities.

Your Committee finds that for the State to comply with the Memorandum of Agreement between the State and the United States Department of Justice concerning conditions at the Hawaii Youth Correctional Facilities, the State must initiate investigation of incidents of use of force, staff-on-youth violence, serious youth-on-youth violence, inappropriate staff relationships with youth, sexual misconduct between youth, and abusive institutional practices at the Hawaii Youth Correctional Facilities. Although the Director of Human Services has broad authority to appoint and commission investigators who are authorized to access information maintained by any state or county entity, the existing statute does not state specifically that Department-appointed investigators have the authority to access information necessary to investigate incidents at the Hawaii Youth Correctional Facilities.

This measure clarifies the situation and accordingly, will assist the State in meeting its commitments under the Memorandum of Agreement to improve conditions at the Hawaii Youth Correctional Facilities.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1101, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1345 Water, Land, Agriculture and Hawaiian Affairs on H.B. No. 589**

The purpose of this measure is to facilitate the financing and development of renewable energy projects by allowing leases and easements pertaining to renewable energy projects, together with mortgages and other conveyances as security for finance, to be created, enforceable, and recordable, without requiring the landowner to obtain formal subdivision approval from the applicable county or other approving agency.

Testimony in support of this measure was submitted by one state agency and three organizations. Written testimony presented to your Committee may be reviewed on the Legislature's website.

In order to develop and finance renewable energy facilities, a site for the facilities and access to the site must often be leased or granted as an easement, and then mortgaged to provide financing for the project. Renewable energy projects may require site acreage or configurations that do not coincide with existing subdivided lot boundaries. For example, if a renewable energy developer wants to develop a solar farm on five acres of a thirty acre lot, the present subdivision laws require the developer to encumber the entire lot with a mortgage. If the developer wanted to transfer interest in the five acre solar farm, the entire lot would have to be subdivided and approved by the county.

Landowners can create leases for less than the entire legal lot, but they may not be enforceable under current Hawaii law, and for this reason, a lessee will have difficulty obtaining title insurance and financing on its leasehold interest and project. Lenders and investors require valid leases and easements which may entail the recordation of maps, leases, licenses, grants of easements, or other instruments securing interests. However, in *Whitlow v. Jennings*, 40 Haw. 523 (1954), the Hawaii State Supreme Court asserted that a subdivision permit must be obtained prior to the recording of these instruments. This type of legal restriction prevents renewable energy producers from obtaining interim financing. This measure will ensure renewable energy developers may obtain necessary interim financing for feasibility and statutory studies, such as environmental assessments.

The American Recovery and Reinvestment Act of 2009, Public Law No. 111-5, also known as the Federal Stimulus package, signed into law by President Obama provides \$62 billion in grant funding, loan guarantees, and tax incentives for renewable energy and energy efficiency programs, including \$6 billion for loan guarantees for wind or solar projects. Your Committee finds that this measure will facilitate the financing and development of renewable energy projects and assist these projects in obtaining funding under the Federal Stimulus package.

However, your Committee understands that this measure may be construed as interfering with county home rule, which allows each county to make the best decisions for its residents. Therefore, your Committee is amending the measure in order to proceed cautiously by limiting the type of renewable energy project and the length of time for the issuance of subdivision exemptions.

Your Committee has amended this measure by:

- (1) Restricting the applicability of the exemption from subdivision approval to agricultural or conservation state land use districts;
- (2) Clarifying that the use of the leased land or easement area shall be restricted in the lease or easement agreement to only renewable energy projects, subject to the requirements of section 205-4.6, Hawaii Revised Statutes, prohibiting the restriction of agricultural uses;
- (3) Limiting the subdivision exemption to renewable energy projects that are:
  - (A) Solar energy facilities on agricultural state land permitted under section 205-2(d)(6), Hawaii Revised Statutes, which consists of land with soil classified by the Land Study Bureau's detailed land classification as overall (master) productivity rating class D or E; or
  - (B) Wind energy facilities on conservation state land, including any necessary appurtenances;
- (4) Removing the automatic termination provision;
- (5) Providing a ninety day approval period for the county agency or Department of Land and Natural Resources to act upon an application for subdivision exemption, and providing that on the ninety-first day any application which has not been approved shall be deemed disapproved;
- (6) Clarifying that this measure shall not exempt renewable energy projects from any permit or approval process under chapters 183C Conservation District, 205 Land Use Commission, 205A Coastal Zone Management, or 343 Environmental Impact Statement, Hawaii Revised Statutes;
- (7) Permitting any agency or authority that issues permits or approvals for renewable energy projects to impose reasonable rules on the siting, development, construction, and operation of a renewable energy facility to protect agricultural resources and activities, the environment, natural resources, cultural resources and activities, health, safety, or welfare of the State;
- (8) Specifying the categories of rules that may be adopted by the agencies and authorities that issue permits or approvals for renewable energy projects including the type of project, criteria for appropriate siting, and identifying mitigation measures to protect agricultural resources and activities, the environment, natural resources, cultural resources and activities, or the health, safety, and welfare of the State;
- (9) Establishing a sunset date of June 30, 2013;
- (10) Providing that any lease or easement approved for a subdivision exemption prior to June 30, 2013 that continues to comply with the restricted use requirements shall remain valid after the sunset of the statutory provisions, clarifying that the interest may be transferred or foreclosed upon, and may be extended; and
- (11) Making technical, nonsubstantive changes for style.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 589, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 589, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1346 Health on Gov. Msg. Nos. 323, 324, 330 and 333**

Recommending that the Senate advise and consent to the nominations of the following:

DISABILITY AND COMMUNICATION ACCESS BOARD

- G.M. No. 323 PETER L. FRITZ, for a term to expire 6-30-2013;  
 G.M. No. 324 MALCOLM "MARK" M. GIBLIN, for a term to expire 6-30-2013;  
 G.M. No. 330 LUCY MILLER PHD, for a term to expire 6-30-2010; and  
 G.M. No. 333 GLENN M. MORGAN, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to disability and communication access for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Disability and Communication Access Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Disability and Communication Access Board. Additional testimony was submitted supporting the nomination of Peter Fritz by two individuals, Malcolm "Mark" Giblin by one individual, and Lucy Miller by one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1347 Health on S.R. No. 33**

The purpose of this measure is to educate the public on the proper cleaning of produce to mitigate the occurrence of rat lungworm disease.

Your Committee received testimony from the Department of Health supporting the intent of this measure with suggested amendments.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that is important to educate the public on the necessity of proper cleaning of raw produce. In addition, public education should be expanded to include all emerging and known pathogens and contaminants that may affect raw produce consumption.

Accordingly, your Committee has amended this measure by broadening the scope of the measure to include public education on the proper cleaning of produce regarding all emerging and known pathogens and contaminants that may affect raw produce consumption.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 33, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 33, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1348 (Joint/Majority) Human Services and Labor on S.C.R. No. 32**

The purpose of this measure is to encourage stakeholders and interested parties to work together to establish paid family leave or similar wage replacement programs to assist family caregivers.

Testimony in support of this measure was provided by the Policy Advisory Board for Elder Affairs, the Hawaii Teamsters and Allied Workers, Local 996, the National Multiple Sclerosis Society, and the International Longshore and Warehouse Union Local 142. Testimony in opposition to this measure was submitted by the Society for Human Resource Management Hawaii and the National Federation of Independent Business. Comments were submitted by The Chamber of Commerce of Hawaii. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that support in the form of wage replacement and family leave programs would provide financial assistance to caregivers who take time off from work, reduce hours, or forgo promotions or benefits in order to perform their caregiver duties.

Your Committees have amended this measure as follows:

- (1) By adding all business and non-profit organizations that testified on this measure as recipients of copies of this measure; and
- (2) By making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 32, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 32, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, 1 (Slom). Excused, 1 (Hemmings).

**SCRep. 1349 Judiciary and Government Operations on S.C.R. No. 165**

The purpose of this measure is to request the Governor to establish a Task Force on Humane Restraint and Confinement of Pet Animals, to examine the issues raised during the Regular Session of 2009 by Senate Bill No. 1222, S.D. 1, relating to the Humane Treatment of Pet Animals, Senate Bill No. 30, S.D. 1, relating to Animals, Senate Bill No. 488, relating to Animal Cruelty, and Senate Bill No. 1188, relating to Animals.

Your Committee received testimony in support of this measure from five private organizations and three individuals. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The above-referenced measures demonstrate the need for comprehensive legislation regarding the restraint and confinement of pet animals that would not only meet the needs of the community but would consider the unique differences among the counties with regard to enforcement capabilities.

It is the intent of your Committee that the Task Force on Humane Restraint and Confinement of Pet Animals bring together the stakeholders and experts in the field of animal protection and anti-cruelty in order to report to the 2010 Regular Session on recommendations for comprehensive legislation relating to restraint and confinement standards for pet animals, including issues with and solutions for the enforcement of the recommended legislation; suggested amendments to the definition of "necessary sustenance" as it relates to "area of confinement" or any additional definitions, as appropriate, in section 711-1100, Hawaii Revised Statutes; and any dissenting opinions among task force members to the recommended legislation.

Your Committee has amended this measure by:

- (1) Adding to the membership of the task force the West Hawaii Humane Society; Oahu Society for the Prevention of Cruelty to Animals; and Animal Rights Hawaii; and
- (2) Substituting the Judiciary for the Center for Alternative Dispute Resolution as the agency to provide administrative support.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 165, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 165, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1350      Judiciary and Government Operations on S.R. No. 114**

The purpose of this measure is to request the Governor to establish a Task Force on Humane Restraint and Confinement of Pet Animals, to examine the issues raised during the Regular Session of 2009 by Senate Bill No. 1222, S.D. 1, relating to the Humane Treatment of Pet Animals, Senate Bill No. 30, S.D. 1, relating to Animals, Senate Bill No. 488, relating to Animal Cruelty, and Senate Bill No. 1188, relating to Animals.

Your Committee received testimony in support of this measure from five private organizations and three individuals. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The above-referenced measures demonstrate the need for comprehensive legislation regarding the restraint and confinement of pet animals that would not only meet the needs of the community but would consider the unique differences among the counties with regard to enforcement capabilities.

It is the intent of your Committee that the Task Force on Humane Restraint and Confinement of Pet Animals bring together the stakeholders and experts in the field of animal protection and anti-cruelty in order to report to the 2010 Regular Session on recommendations for comprehensive legislation relating to restraint and confinement standards for pet animals, including issues with and solutions for the enforcement of the recommended legislation; suggested amendments to the definition of "necessary sustenance" as it relates to "area of confinement" or any additional definitions, as appropriate, in section 711-1100, Hawaii Revised Statutes; and any dissenting opinions among task force members to the recommended legislation.

Your Committee has amended this measure by:

- (1) Adding to the membership of the task force the West Hawaii Humane Society; Oahu Society for the Prevention of Cruelty to Animals; and Animal Rights Hawaii; and

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 114, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 114, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, none.

**SCRep. 1351      Energy and Environment on S.C.R. No. 171**

The purpose of this measure is to urge the State to recognize the third Sunday of every April as "Hawaiian Monk Seal Day" and to coordinate the implementation of the recovery plan for the Hawaiian monk seal with the federal and county governments.

Testimony in support of this measure was submitted by one state department, one private organization, and ten individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaiian monk seal is critically endangered—over the past fifty years, the Hawaiian monk seal population has declined by more than sixty per cent. Through the efforts of many government and non-governmental agencies, the population of Hawaiian monk seals seems to be slightly increasing in the Main Hawaiian Islands; however, overall, the seal population in our Hawaiian archipelago is still declining by approximately four per cent a year.

Your Committee finds that the National Oceanic and Atmospheric Administration (NOAA) conducts a semi-annual Hawaiian Monk Seal Count in April, with the assistance of many dedicated volunteer residents throughout Hawaii. In addition to keeping track of the number of seals in the Main Hawaiian Islands, this project helps to educate the public of the appropriate actions to be taken when encountering a critically endangered monk seal. Because one of the challenges facing monk seals that live on populated islands is human disturbance, this public information is critical to protect these animals and help their population recover from endangerment.

Your Committee has amended this measure by making technical, nonsubstantive changes for style, consistency, and accuracy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 171, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 171, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 1352      Energy and Environment on S.R. No. 117**

The purpose of this measure is to urge the State to recognize the third Sunday of every April as "Hawaiian Monk Seal Day" and to coordinate the implementation of the recovery plan for the Hawaiian monk seal with the federal and county governments.

Testimony in support of this measure was submitted by one state department, two private organizations, and eight individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Hawaiian monk seal is critically endangered—over the past fifty years, the Hawaiian monk seal population has declined by more than sixty per cent. Through the efforts of many government and non-governmental agencies, the population of Hawaiian monk seals seems to be slightly increasing in the Main Hawaiian Islands; however, overall, the seal population in our Hawaiian archipelago is still declining by approximately four per cent a year.

Your Committee has amended this measure by making technical, nonsubstantive changes for style, consistency, and accuracy.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 117, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 117, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Kokubun, Hemmings).

**SCRep. 1353 Labor on Gov. Msg. Nos. 357, 358, 359, 360 and 362**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII WORKFORCE DEVELOPMENT COUNCIL

G.M. No. 357 JONATHAN J. CHUN, for a term to expire 6-30-2013;

G.M. No. 358 ALLEN M.F. CHUNG, for a term to expire 6-30-2012;

G.M. No. 359 LILI HALLETT, for a term to expire 6-30-2009;

G.M. No. 360 LILI HALLETT, for a term to expire 6-30-2013; and

G.M. No. 362 MARCIA M. TAIRA, for a term to expire 6-30-2012.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Jonathan J. Chun, Allen M.F. Chung, Lili Hallett, and Marcia M. Taira to have the necessary qualifications to be nominated to the Hawaii Workforce Development Council.

Testimony in support of the nomination of Jonathan J. Chun was submitted by one state agency and the Mayor of Kauai.

Mr. Chun received his Juris Doctorate, Cum Laude, from Gonzaga School of Law and a Bachelor of Arts degree from the University of Hawaii. He is currently an Attorney with Belles Graham Proudfoot Wilson & Chun, LLP. Mr. Chun has served previously as a State Senator for the Seventh Senatorial District, in which capacity he held various leadership positions. He has also worked for the County of Kauai Office of the County Attorney as the First Deputy County Attorney, the City and County of Honolulu's Department of the Corporation Counsel as Deputy Corporation Counsel, and White & Tom as an Associate.

Mr. Chun has contributed to numerous community organizations on Kauai. He has served as a Board member or been active in organizations including King Kaumualii Elementary School, Hoike Public Access Television, and Lihue Missionary Church. Mr. Chun is a current member of the Hawaii Workforce Development Council and represents the Hawaii Workforce Development Council on the State Rehabilitation Council, of which he is the current Chair. According to testifiers, his knowledge, experience, and dedication to the Kauai community as a practicing attorney, former Senator, and community volunteer make him an excellent nominee for the Hawaii Workforce Development Council.

Testimony in support of the nomination of Allen M.F. Chung was submitted by one state agency.

Mr. Chung earned a Bachelor of Business Administration degree in Personnel and Industrial Relations from the University of Hawaii at Manoa. He is currently the President of C Three Consulting LLC. Mr. Chung's previous employment positions include Director of Human Resources at St. Francis Healthcare System of Hawaii and an employee of the Del Monte Corporation's Personnel Department.

Mr. Chung served as a Board member of the Society for Human Resource Management, Hawaii Chapter, for six years, including one year as President; and has been a member of the national and Hawaii chapters of the Society for Human Resource Management since 2000 and 1981, respectively. He is also a Board member of Goodwill Industries of Hawaii and was previously involved with the Aloha United Way.

Mr. Chung is experienced in supporting individuals with work-related transitions. He would contribute to the Hawaii Workforce Development Council a commitment to help individuals recognize their transferable skills and knowledge, smooth transitions in work reentry, and increase their marketability to potential employers.

Testimony in support of the nomination of Lili Hallett was submitted by one state agency and six individuals.

Ms. Hallett earned Master of Arts and Bachelor of Arts degrees in Communication from the University of Hawaii at Manoa. She worked in various human resources-related roles for Outrigger Hotels and Resorts, East Oahu Chinese School, and the Outrigger Enterprises Group before serving in her current position as Human Resources Corporate Director of the Outrigger Enterprises Group.

Ms. Hallett previously served for four years on the Oahu Workforce Investment Board as an appointee of the Mayor of the City and County of Honolulu. She has held leadership positions with the Oahu Workforce Investment Board, the Pacific Gateway Center, the East Oahu Chinese School, Hawaii Literacy, Inc., the Hawaii Chinese Association, Goodwill Industries of Hawaii, and Friends of the Boys and Girls Club of Honolulu.

Ms. Hallett contributes valuable experience through her years of service on the Oahu Workforce Investment Board and her professional experience in human resources; and her commitment to service, professionalism, and encouragement would make her a valuable asset to the Hawaii Workforce Development Council.

Testimony in support of the nomination of Marcia M. Taira was submitted by one state agency and four individuals.

Ms. Taira earned a Bachelor of Business Administration degree in Personnel and Industrial Relations from the University of Hawaii at Manoa. She is also certified by the Society for Human Resource Management as a Professional in Human Resources.

Ms. Taira is currently the Director of Human Resources at Oceanic Time Warner Cable. Previously, she was an Independent Consultant to small companies in human resources program development, and Manager of Employee Relations at Ameron International. Ms. Taira presently serves in various professional and community organizations, including the Hawaii State Apprenticeship Council, the Society for Human Resource Management, and the Nuuanu YMCA. In the past, she has been active in the Teamsters Health and Welfare Trust Fund, the Society for Human Resource Management's Oahu Educational Foundation Program, and the Coalition for Reforming Obsolete Worker's Compensation Design.

Ms. Taira would contribute to the Hawaii Workforce Development Council experience in the private sector and is committed to increased collaboration with community colleges and the University of Hawaii to train and prepare Hawaii's students to enter into the work force, succeed, and remain relevant to the needs of employers.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1354 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 531**

Recommending that the Senate advise and consent to the nomination of the following:

KAHO'OLAWE ISLAND RESERVE COMMISSION

G.M. No. 531 NOA EMMETT ALULI, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Noa Emmett Aluli to have the necessary qualifications to be nominated to the Kahoolawe Island Reserve Commission.

Testimony in support of the nomination of Dr. Aluli was submitted by three state agencies, one organization, and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Dr. Aluli earned a Doctor of Medicine degree from the University of Hawaii John A. Burns School of Medicine and did residency in Integrated Family Medicine at the University of Hawaii. Prior to medical school, Dr. Aluli earned a Bachelor of Science degree in Biology/Chemistry from Marquette University.

Dr. Aluli practices family and general medicine at the Molokai Family Health Center and is on the medical staff for Molokai General Hospital. He is also an Assistant Clinical Professor at the John A. Burns School of Medicine's Departments of Native Hawaiian Health and Family Practice & Community Health. Dr. Aluli is a published author and serves on several boards and organizations, such as the Maui County Mayor's Council on Health, the Maui Health Care Initiative Task Force, and the American Liver Foundation, Hawaii Chapter's Medical Advisory Committee. However, it is Dr. Aluli's activism and passion for the island of Kahoolawe and native Hawaiian culture that makes him exceptionally qualified to serve on the Kahoolawe Island Reserve Commission.

Dr. Aluli was one of the Kahoolawe Nine who protested the United States Navy's use of the island for military training and target practice. He has been instrumental in initiating the restoration of Kahoolawe and was one of the original members of the Kahoolawe Island Reserve Commission. He is a leading expert on Kahoolawe and is one of the founding members of the Protect Kahoolawe Ohana organization, working to ensure the safe use of and access to the island for traditional and cultural native Hawaiian practices. He has also been a member or founder of organizations such as the Molokai Advisory Council on Burials, Na Puuwai, Pele Defense Fund, Ka Ohana O Kalae, Protect Kahoolawe Fund, Hui Ala Loa, Kahoolawe Island Conveyance Commission, and Molokai Planning Commission.

Dr. Aluli's tremendous dedication and efforts to further the restoration of Kahoolawe, better the lives of native Hawaiians, promote native Hawaiian culture and practices, and serve the community as a physician, leader, and activist make him one of the most highly qualified and best suited nominees to serve on the Kahoolawe Island Reserve Commission.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Fukunaga, Hemmings).

**SCRep. 1355 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 533, 534 and 535**

Recommending that the Senate advise and consent to the nominations of the following:

NATURAL AREA RESERVE SYSTEM COMMISSION

G.M. No. 533 ARLENE BUCHHOLZ, for a term to expire 6-30-2013;

G.M. No. 534 RONALD RAPANOT, for a term to expire 6-30-2013; and

G.M. No. 535 JOHN SINTON, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Arlene Buchholz, Ronald Rapanot, and John Sinton to have the necessary qualifications to be nominated to the Natural Area Reserve System Commission.

Testimony in support of the nomination of Arlene Buchholz was submitted by one state agency, one organization, and five public citizens.

Dr. Buchholz received her Bachelor's degree in Chemistry from the New Mexico Institute of Mining and Technology, her Doctor of Veterinary Medicine degree from Oregon State University, and her Master's of Public Health from the University of Hawaii at Manoa. She is currently employed as a Veterinary Medical Officer III for the Hawaii State Department of Health, Disease Outbreak Control Division. Dr. Buchholz is a Board member for the Hawaii Audubon Society, an outings leader for the Sierra Club Hawaii Chapter, and a member of the Hawaiian Trail and Mountain Club. Dr. Buchholz satisfies the requirement that a member of the Natural Area Reserve System Commission be a member of a hiking organization organized in the State.

Dr. Buchholz has been a hike and service trip leader for sixteen years with the Sierra Club Hawaii Chapter, and a volunteer program and Christmas bird count coordinator with the Hawaii Audubon Society for ten years. She has visited many Natural Area Reserves, Wildlife Refuges, and State and National Parks in Hawaii as a service project participant or a hiker. Dr. Buchholz has been witness to the restoration of Kaena Point with native coastal plants and increasing populations of nesting Laysan Albatross, Wedge-Tailed Shearwaters, and Monk Seals. Her interests include native birds, the Hawaiian Hoary Bat, wildlife disease, and invasive species prevention and control.

Testimony in support of the nomination of Ronald Rapanot was submitted by one state agency.

Mr. Rapanot is a graduate of Molokai High School, and retired after thirty-five years from the Maui Electric Company. He is President of the Molokai Hunters Association, a representative on the Molokai Hunters Advisory Council, and a representative of hunters on the Molokai Hunting Working Group working with The Nature Conservancy of Hawaii. Mr. Rapanot satisfies the requirement that a member of the Natural Area Reserve System Commission be a member of a hunting organization organized in the State.

Mr. Rapanot has worked with The Nature Conservancy of Hawaii to seek a balance between resource protection and the interests of hunters, and finding ways to integrate the diverse viewpoints. He will be the first person to serve on the Natural Area Reserve System Commission from Molokai, and he has a great familiarity with the Puu Alii and Olokui Natural Area Reserves, and the Pelekunu and Kamakou Preserves, which are part of the Natural Area Partnership Program.

Testimony in support of the nomination of John Sinton was submitted by one state agency and three public citizens.

Dr. Sinton received his Bachelor's degree in Geology from the University of California at Santa Barbara, his Master's degree in Geology from the University of Oregon, and his Doctor of Philosophy in Geology from the University of Otago in New Zealand. He is presently employed as a Professor in the Department of Geology and Geophysics at the University of Hawaii at Manoa. Dr. Sinton satisfies the requirement that a member of the Natural Area Reserve System Commission be a person possessing scientific qualifications as evidenced by an academic degree in geology.

Dr. Sinton's experiences as a professor and lecturer have provided him the ability to explain geological concepts to diverse listeners. During his thirty-one years in Hawaii, he has developed a deep appreciation for Hawaii's native flora and fauna, and is an amateur botanist. Dr. Sinton previously served on the Hawaii State Earthquake Advisory Board, the Department of Land and Natural Resources Geothermal Geotechnical Advisory Committee, and as Chair of the Department of Geology and Geophysics at the University of Hawaii at Manoa. Additionally, he has advised the former State Geologist and previous Natural Area Reserve System commissioners. Dr. Sinton has a demonstrated understanding of the scientific principles necessary to inform the Commission, and a strong desire to contribute to the State's administration of its natural resources.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Bunda, Fukunaga, Hemmings).

**SCRep. 1356 Health on S.C.R. No. 136**

The purpose of this measure is to encourage the creation of a chronic obstructive pulmonary disease module within the Centers for Disease Control and Prevention that will enable information on the potentially debilitating disease to be centralized and coordinated, leading to better sharing of key information and more research and funding for better and effective treatments.

Your Committee received testimony in support of this measure from the Hawaii Chronic Obstructive Pulmonary Disease Coalition.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that appropriate funding for the establishment of a national chronic obstructive pulmonary disease program will enable information on the potentially debilitating disease to be centralized and coordinated, leading to better sharing of key information and more research and funding for better and effective treatments.

Your Committee has amended this measure by:

- (1) Changing the title to request the establishment of a Chronic Obstructive Pulmonary Disease program instead of a module, and other conforming amendments; and
- (2) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 136, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 136, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1357 Health on S.C.R. No. 158**

The purpose of this measure is to establish a legislative interim task force to identify and develop a Hawaii island model for a primary health care training and recruiting plan for rural and medically underserved areas of the State.

Your Committee receives testimony in support of this measure from the Hawaii Medical Association and the Hawaii Primary Care Association. Hawaii Medical Services Association supports this measure with amendments. Comments on this measure were submitted by the University of Hawaii System.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure is an important component to the rural health initiative and will assist in understanding the numerous problems that rural areas across the nation are facing in trying to recruit and retain physicians in underserved areas.

Your Committee has amended this measure by including, as ex-officio members of the task force:

- (1) The Director of the Bay Clinic, Inc., the federally qualified health center that serves the Hilo area;
- (2) A representative of the Hawaii Medical Association;
- (3) A representative of Hawaii Medical Services Association;
- (4) A representative of the Hawaii Chapter of the American Academy of Pediatrics;
- (5) A representative of The American College of Obstetricians and Gynecologists; and
- (6) A representative of the Hawaii Academy of Family Physicians.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 158, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 158, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1358 (Joint) Water, Land, Agriculture and Hawaiian Affairs, Economic Development and Technology and Higher Education on S.C.R. No. 154**

The purpose of this measure is to request the State Historic Preservation Division to:

- (1) Revive the 2006 Archaeological Working Group and complete the Working Group's report of recommendations;
- (2) Expand the 2006 Archaeological Working Group to include a broader range of the State's historic preservation groups;
- (3) Work in conjunction with the University of Hawaii at Manoa's Applied Archaeology graduate program to develop internship programs and hiring requirements for the State Historic Preservation Division; and
- (4) Identify training and educational opportunities for Burial Council members.

Testimony in support of this measure was submitted by one organization. Testimony in opposition to this measure was submitted by one state agency. Comments were submitted by one organization. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the work of the members of the 2006 Archeological Working Group is a valuable step toward addressing the State's historic preservation issues, and that the Working Group's report could be improved by incorporating additional perspectives. Your Committees also recognize the need to combine the contributions of the Working Group with other measures, such as preparing future archaeologists and current staff, as a more holistic and effective approach to addressing Hawaii's historic preservation issues.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, Agriculture, and Hawaiian Affairs and Economic Development and Technology and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 154, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 154, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (Ige, Takamine, Taniguchi, Hemmings).

**SCRep. 1359 Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 173**

The purpose of this measure is to request the Department of Land and Natural Resources, the Department of Hawaiian Home Lands, and the Kauai Police Department to enter into a memorandum of understanding regarding the enforcement of state laws and county ordinances at Anahola and Aliomanu Beach area.

Testimony in support of this measure was submitted by five public citizens. Two state agencies supported the intent of this measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Anahola and Aliomanu Beach area is the site of frequent nuisance activities including noisy gatherings, illegal bonfires, suspected illegal drug activity, and vehicular traffic on the beach. The Department of Land and Natural Resources has jurisdiction of the submerged areas, the Department of Hawaiian Home Lands has jurisdiction over the remaining portions but no law enforcement personnel on Kauai, and the Kauai Police Department does not have the proper equipment to perform law enforcement activities on the sand portion of the beach area. The residents of the Anahola-Aliomanu Community have raised their concerns to the involved departments, however, the jurisdictional problems remain. This measure will ensure that the departments work together to develop a memorandum of understanding to compromise for the enforcement of state laws and county ordinances.

Your Committee has amended this measure by adopting the recommendation of the Department of Land and Natural Resources, and requesting the Department of Hawaiian Home Lands to submit a copy of the memorandum of understanding and findings and recommendations to the Legislature.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 173, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 173, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1360 Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 120**

The purpose of this measure is to request the Department of Land and Natural Resources, the Department of Hawaiian Home Lands, and the Kauai Police Department to enter into a memorandum of understanding regarding the enforcement of state laws and county ordinances at Anahola and Aliomanu Beach area.

Testimony in support of this measure was submitted by five public citizens. Two state agencies supported the intent of this measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Anahola and Aliomanu Beach area is the site of frequent nuisance activities including noisy gatherings, illegal bonfires, suspected illegal drug activity, and vehicular traffic on the beach. The Department of Land and Natural Resources has jurisdiction of the submerged areas, the Department of Hawaiian Home Lands has jurisdiction over the remaining portions but no law enforcement personnel on Kauai, and the Kauai Police Department does not have the proper equipment to perform law enforcement activities on the sand portion of the beach area. The residents of the Anahola-Aliomanu Community have raised their concerns to the involved departments, however, the jurisdictional problems remain. This measure will ensure that the departments work together to develop a memorandum of understanding to compromise for the enforcement of state laws and county ordinances.

Your Committee has amended this measure by adopting the recommendation of the Department of Land and Natural Resources, and requesting the Department of Hawaiian Home Lands to submit a copy of the memorandum of understanding and findings and recommendations to the Legislature.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 120, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 120, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1361 Commerce and Consumer Protection on S.C.R. No. 96**

The purpose of this measure is to encourage the Real Estate Commission to allow developers and attorneys to submit condominium registration filings in electronic format.

Your Committee received testimony in support of this measure from the Real Property and Financial Services Section of the Hawaii State Bar Association, Case Lombardi & Pettit, and four private citizens. Testimony in opposition to this measure was received from the Real Estate Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Following hearing and discussion on this measure, your Committee is even more convinced of its necessity. Your Committee finds that the Condominium Education Trust Fund, the primary source of funding for the implementation of this measure, contains a more than adequate surplus to purchase and utilize any new technology that may be necessary. Your Committee further finds that electronic filing is a necessity in the current business environment and it is unreasonable of the Real Estate Commission to continue to delay the implementation of an electronic filing process. Your Committee finds that the perceived barriers to instituting electronic filing are easily surmountable with common and widely-available consumer hardware and software solutions.

Your Committee notes that under section 467-4, Hawaii Revised Statutes, the Real Estate Commission is required to annually report to the Governor and the Legislature "relevant information" including a summary of programs. However, your Committee finds that the implementation of electronic filing merits a separate and more detailed report.

Your Committee has amended this measure by:

- (1) Requesting that the Real Estate Commission adopt a strategic plan to implement electronic filing; and
- (2) Requesting that the Real Estate Commission report its strategic plan and a status report on the plan's implementation to the Legislature.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 96, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 96, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Hemmings).

**SCRep. 1362 Commerce and Consumer Protection on S.R. No. 113**

The purpose of this measure is to encourage the Real Estate Commission to allow developers and attorneys to submit condominium registration filings in electronic format.

Your Committee received testimony in support of this measure from Case Lombardi & Pettit. Testimony in opposition to this was received from the Real Estate Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Following hearing and discussion on this measure, your Committee is even more convinced of its necessity. Your Committee finds that the Condominium Education Trust Fund, the primary source of funding for the implementation of this measure, contains a more than adequate surplus to purchase and utilize any new technology that may be necessary. Your Committee further finds that electronic filing is a necessity in the current business environment and it is unreasonable for the Real Estate Commission to continue to delay the implementation of an electronic filing process. Your Committee finds that the perceived barriers to instituting electronic filing are easily surmountable with common and widely-available consumer hardware and software solutions.

Your Committee notes that under section 467-4, Hawaii Revised Statutes, the Real Estate Commission is required to annually report to the Governor and the Legislature "relevant information" including a summary of programs. However, your Committee finds that the implementation of electronic filing merits a separate and more detailed report.

Your Committee has amended this measure by:

- (1) Requesting that the Real Estate Commission adopt a strategic plan to implement electronic filing; and
- (2) Requesting that the Real Estate Commission report its strategic plan and a status report on the plan's implementation to the Legislature prior to the 2010 Regular Session.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 113, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 113, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (Green, Hemmings).

**SCRep. 1363 Ways and Means on S.C.R. No. 84**

The purpose of this measure is to request the State Auditor to conduct an immediate financial statement audit of the Waters of Life Public Charter School for fiscal years 2006-2007 and 2007-2008.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that it is of utmost importance to ensure that state funds are used responsibly. The State Auditor conducted an audit of the Waters of Life Public Charter School in 2005 and found that the school's disregard for sound governance and business practices has placed its continued viability at risk. Subsequently, the Waters of Life Public Charter School was unable to provide an independent auditor the supporting documents it needed to conduct an audit of fiscal year 2005-2006. The deficiency caused the independent auditor to issue a disclaimed opinion and withdraw from undertaking the audits of fiscal years 2006-2007 and 2007-2008. As a result, the Charter School Review Panel has been unable to find another independent auditor willing to immediately conduct the audits. For these reasons, your Committee finds that an immediate financial statement audit of the Waters of Life Public Charter School should be conducted by the State Auditor for fiscal years 2006-2007 and 2007-2008.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 84 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1364      Ways and Means on S.C.R. No. 39**

The purpose of this measure is to urge the Governor to include Kukui Gardens in the State's list of projects submitted for inclusion in the President's proposed economic stimulus plan.

Your Committee received three written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that it is necessary to preserve the Kukui Gardens affordable housing project due to the State's diminishing supply of affordable housing. Currently, the company that owns Kukui Gardens has plans to convert half of the affordable housing units into market-rate housing and to sell the other half to the nonprofit Ecumenical Association for Housing, an organization that intends to preserve its portion as affordable housing. With the recent sluggish economy, however, investors, developers, and funding sources are hesitant to assist the Ecumenical Association for Housing. Your Committee believes that the President's economic stimulus plan is the ideal source of funding to assist the Ecumenical Association for Housing to preserve Kukui Gardens as affordable housing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 39, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1365      Ways and Means on S.C.R. No. 31**

The purpose of this measure is to request the Auditor to conduct a review of the performance of the management of the Puuwai Momi and West Oahu asset management projects.

More specifically, the purpose of the review is to compare the performance of state operated and privately operated public housing properties, and to determine the relative contributions of funding levels, mismanagement, and tenant and visitor actions to the failure to meet performance standards for these properties.

Your Committee finds that there have been long-standing problems relating to the management and maintenance of many of the public housing projects managed by the Hawaii Public Housing Authority. These problems have culminated in federal and state class action lawsuits in December 2008, on behalf of residents at two of the largest and oldest housing projects managed by the Hawaii Public Housing Authority. Your Committee further notes that the Hawaii Public Housing Authority is extensively monitored and audited by the federal Department of Housing and Urban Development, which found in 2008 that four asset management projects failed to meet federal requirements for physical conditions of the projects. Of these four projects, two were directly managed and operated by the Hawaii Public Housing Authority, while the other two were managed and operated by privately contracted property managers.

Your Committee believes that a review by the Auditor of the performance of the management of two asset management projects, one directly operated by the Hawaii Public Housing Authority and one operated by a private property management company, to compare the performance of state operated and privately operated projects will be useful in identifying the underlying problems relating to the management of public housing projects. Further, a review and determination of the relative contributions of funding levels, mismanagement, and tenant and visitor actions to the failure of these properties to meet performance standards will assist in formulating solutions to the problems.

Your Committee has amended this measure by making technical changes for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 31, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Tokuda).

**SCRep. 1366      Ways and Means on S.C.R. No. 34**

The purpose of this measure is to request the Department of Education to examine the fiscal, curriculum, and other impacts of a four-day school week for school complexes.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the implementation of a four-day school week has been adopted in select districts in seventeen other states, and legislatures in six other states have introduced similar proposals. Experience at Maili Elementary School on Oahu, as well as at schools in other states, has shown that the shorter work week resulted in:

- (1) Improved teacher recruitment and retention;
- (2) Savings on bus transportation, food service, and utilities;

- (3) Improvements in campus maintenance;
- (4) No adverse impact on student achievement; and
- (5) A positive impact on student attendance.

Accordingly, your Committee believes that a feasibility study is warranted to examine the fiscal, curriculum, and other impacts of a four-day school week for school complexes in the State.

Your Committee amended this measure by making technical amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 34, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 34, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 8. Noes, none. Excused, 4 (English, Hee, Kokubun, Tokuda).

**SCRep. 1367      Ways and Means on S.C.R. No. 35**

The purpose of this measure is to request the Auditor to perform a sunrise review regarding the licensure of athletic trainers.

Your Committee received four written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that athletic trainers are health care professionals who specialize in the prevention, assessment, treatment, referral, and rehabilitation of injuries sustained by athletes of all ages and others engaged in physical activity. Your Committee believes that licensure of athletic trainers would require athletic trainers to demonstrate a minimum competency in their profession. Your Committee finds that this would protect the health and safety of the public by ensuring that only qualified persons are providing athletic training services.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 35, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 35, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1368      Ways and Means on S.R. No. 66**

The purpose of this measure is to form a joint legislative procurement working group to evaluate the state procurement code, recommend improvements, and report its findings to the Legislature.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Procurement Code and its accompanying administrative rules result in a complex process that often results in needless delays in the awarding of public contracts. Your Committee further finds that the procurement process should be streamlined and serve as a vehicle for providing an economic advantage to local businesses. The procurement code is in need of review by a joint legislative procurement working group to find efficiencies and to improve its effectiveness.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 66, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 66, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1369      Ways and Means on S.C.R. No. 53**

The purpose of this measure is to request the State Auditor to conduct a sunrise review of the regulation of real estate appraisal management companies.

Your Committee received five written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that during the national rise in housing prices from 2002 to 2007, some real estate and financial companies used deceptive tactics to sell mortgages to people who could not afford home ownership. These activities contributed to the subprime mortgage disaster that has crippled the national and state economies and caused many people to lose their homes to foreclosure. In some cases, real estate appraisals were prepared in such a way as to meet lender requirements rather than reflect the actual value of the property being financed.

Your Committee further finds that unlike regulated real estate appraisers, real estate appraisal companies are not subject to regulation. Your Committee believes that a sunrise review conducted by the State Auditor would be beneficial to determine whether

real estate appraisal companies require the same level of regulation as other real estate and financial professionals and institutions in order to protect consumers from deceptive practices.

Your Committee has amended this measure by making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 53, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1370 Ways and Means on S.C.R. No. 68**

The purpose of this measure is to request the State Auditor to conduct a management and performance audit of the Board of Trustees of the state deferred compensation plan.

Your Committee received sixty-eight comments on the measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that public employees depend upon the state deferred compensation program to achieve a secure retirement, especially those who remain in the non-contributory retirement plan. Therefore, it is of critical importance that the Board of Trustees and its plan administrator provide timely, accurate, and easily accessible information to employees about their individual accounts. The audit requested by this measure will provide answers to questions about how their employees' deferred compensation funds are managed. The audit will also yield recommendations that will help employees keep abreast of these issues in the future.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 68, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 68, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1371 Ways and Means on S.C.R. No. 78**

The purpose of this measure is to authorize the issuance of a non-exclusive easement over state submerged lands near 5900 lower Honoapiilani Road in Lahaina, Maui, to allow Napili Kai, Ltd., to make repairs to its condominium.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the prior authorization of the Legislature by concurrent resolution for the Board of Land and Natural Resources to lease state submerged lands. This measure will allow the issuance of a non-exclusive easement as recommended by the Department of Land and Natural Resources, enabling Napili Kai, Ltd. to enlarge and improve the condominium's existing swimming pool.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 78, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 78, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1372 Ways and Means on S.C.R. No. 108**

The purpose of this measure is to form a joint legislative procurement working group to evaluate the state procurement code, recommend improvements, and report its findings to the Legislature.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the Hawaii Procurement Code and its accompanying administrative rules result in a complex process that often results in needless delays in the awarding of public contracts. Your Committee further finds that the procurement process should be streamlined and serve as a vehicle for providing an economic advantage to local businesses. The procurement code is in need of review by a joint legislative procurement working group to find efficiencies and to improve its effectiveness.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 108, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 108, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1373 Ways and Means on S.C.R. No. 170**

The purpose of this measure is to convene a Hawaii Health Care Summit to develop a strategic and comprehensive plan for health care in Hawaii.

Specifically, this measure:

- (1) Expresses the intent to include all stakeholders;
- (2) Specifies membership on the Hawaii Health Care Summit totaling twenty-five members;
- (3) Expresses the intent to reimburse members for necessary expenses, including travel expenses;
- (4) Specifies the minimum contents of the strategic and comprehensive plan to include:
  - (A) A plan for an improved emergency and trauma system;
  - (B) A plan for fair reimbursements from government and private payers to health care providers;
  - (C) A plan for strengthening the financial performance of hospitals and long-term care facilities;
  - (D) A workforce development plan for physicians, particularly addressing rural communities and medical specialties, that includes the establishment of a process for the comprehensive assessment and projection of workforce needs;
  - (E) A workforce development plan for other health care professionals; and
  - (F) A health information technology plan that is consistent with federal efforts to accelerate the use of electronic health records;
- (5) Directs the Summit to report to the Legislature and the Auditor twenty days prior to the convening of the Regular Session of 2010;
- (6) Directs the Auditor, after receipt of the Summit report, to:
  - (A) Prepare the Hawaii Health Care Summit plan, incorporating all or a portion of the recommendations reported by the Hawaii Health Care Summit;
  - (B) Seek input from all state departments and solicit public views and concerns in preparation of the plan;
  - (C) Submit the Hawaii Health Care Summit plan to the Legislature no later than twenty days before the convening of the Regular Session of 2011; and
  - (D) Update the plan every ten years and report to the Legislature; and
- (7) Terminates the Hawaii Health Care Summit after the adjournment sine die of the 2010 Regular Session of the Legislature.

Your Committee received eight written comments on this measure. The written comments may be reviewed on the Legislature's website.

Your Committee finds that the strategic and comprehensive plan for health care in Hawaii required by this measure is necessary to develop an effective solution for health care in the State.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Health Summit has twenty-six members, rather than twenty-five;
- (2) Adding the Chief Executive Officer of the Healthcare Association of Hawaii as a member of the Hawaii Healthcare Summit and to the list of those who are to receive a copy of this concurrent resolution; and
- (3) Making other technical amendments for the purpose of clarity and accuracy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 170, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 170, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1374      Ways and Means on S.C.R. No. 188**

The purpose of this measure is to request the Governor to accept the recommendations of the working group formed by Hawaii's congressional delegation to determine the most appropriate uses of State Fiscal Stabilization Fund moneys and to authorize the expenditure of State Fiscal Stabilization Fund moneys in accordance with the recommendations of the working group.

The measure also discusses specific recommendations made by the state Department of Education and the University of Hawaii, as of March 31, 2009, regarding their agreement on the use of federal funds in a two-part proposal for State Fiscal Stabilization Fund moneys under the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5.

Your Committee received one written comment on this measure. The written comment may be reviewed on the Legislature's website.

Your Committee finds that the recent proposal by the Governor regarding the use of the State Fiscal Stabilization Fund moneys to offset the current budget deficit, rather than the intended use to advance educational reforms, has generated considerable controversy. Your Committee recognizes the looming budget shortfalls facing the State but believes that using the State Fiscal Stabilization Fund moneys to offset the deficit would be in direct conflict with the requirements of the American Recovery and Reinvestment Act. Therefore your Committee concurs with the subject matter Committee in full support of this Concurrent Resolution.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 188, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 188, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 3 (Hee, Kokubun, Tokuda).

**SCRep. 1375 Commerce and Consumer Protection on S.C.R. No. 95**

The purpose of this measure is to encourage the Real Estate Commission to modify and adopt administrative rules to reflect changes to the condominium law under chapter 514B, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Real Property and Financial Services Section of the Hawaii State Bar Association, Case Lombardi & Pettit, and four private citizens. Testimony in opposition to this measure was received from the Real Estate Commission. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the administrative rules relating to condominiums, chapter 107 Hawaii Administrative Rules, have not been substantially updated since 1981. Your Committee finds that although the Legislature instituted sweeping changes to the condominium property regime law by enacting and implementing chapter 514B, Hawaii Revised Statutes, in its 2004, 2005, and 2006 Regular Sessions, the Real Estate Commission has not begun to address any of these changes in its administrative rules, despite the passage of almost three years since the last major statutory changes. Your Committee further finds that in the absence of sufficient and proper administrative rules, the Real Estate Commission currently relies on the practice of issuing nonbinding opinions and grants precedential value to those opinions in interpreting questions, processing applications, and determining effective dates for public reports. Your Committee finds that this practice, especially in the context of the Real Estate Commission's failure to begin the rule-adoption process, is a violation of chapter 91, Hawaii Revised Statutes.

Your Committee notes the testimony of the Real Estate Commission that the Commission is engaged in some activities such as community outreach that may be viewed as preliminary steps in the rulemaking process. However, given the Real Estate Commission's record of lengthy delays and the fact that almost three years have passed since the enactment of chapter 514B, Hawaii Revised Statutes, your Committee respectfully disagrees that the Real Estate Commission is likely to adopt rules in a timely manner without outside intervention. Further, your Committee finds that where the Real Estate Commission is unable or unwilling to timely enact administrative rules necessary to effectuate the purpose of validly enacted statutes, it becomes the role of the Legislature to intervene.

Your Committee has amended this measure by:

- (1) Clarifying that the Real Estate Commission shall move expeditiously toward enacting rules to effectuate the condominium property regime laws; and
- (2) Replacing the target date of December 31, 2009 for the enactment of rules with a target date of the beginning of the Real Estate Commission's next fiscal year for public hearings on proposed rules.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 95, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 95, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Green, Hemmings).

**SCRep. 1376 Economic Development and Technology on S.C.R. No. 183**

The purpose of this measure is to urge full preservation of the World War II Honouliuli internment camp as a national monument, museum, and memorial park for the State of Hawaii.

Testimony in support of this measure was submitted by Japanese Cultural Center of Hawaii, Japanese American Citizens League Honolulu Chapter, and two concerned individuals. Comments on this measure were submitted by the Department of Land and Natural Resources. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that recognition and preservation of the Honouliuli internment camp as a national monument, museum, and memorial park will assist the site in serving as an educational tool for the residents and visitors of Hawaii. Your Committee also finds that legislation which complements this measure is currently before the United States Congress and it provides encouragement and support for the State to designate Honouliuli internment camp as a national monument, museum, and memorial park.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 183, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 183, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1377 Economic Development and Technology on S.R. No. 91**

The purpose of this measure is to honor the historical importance of the Falls of Clyde in Hawaii's maritime history by requesting the State to recognize it as a sailing symbol of Hawaii.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the ocean and the maritime history surrounding the State have played a pivotal role in many of the cultures, traditions, and history that encompass the State. Your Committee also finds that the role of the Falls of Clyde was vital in shaping maritime history in the State and thus the Falls of Clyde should be recognized as a sailing symbol of Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 91, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 91, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1378 Economic Development and Technology on S.C.R. No. 138**

The purpose of this measure is to honor the historical importance of the Falls of Clyde in Hawaii's maritime history by requesting the State to recognize it as a sailing symbol of Hawaii.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the ocean and the maritime history surrounding the State have played a pivotal role in many of the cultures, traditions, and history that encompass the State. Your Committee also finds that the role of the Falls of Clyde was vital in shaping maritime history in the State and thus the Falls of Clyde should be recognized as a sailing symbol of Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 138, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 138, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1379 Economic Development and Technology on S.C.R. No. 152**

The purpose of this measure is to urge the United States Department of the Interior to place Iolani Palace on the nomination list to the United Nations Educational, Scientific, and Cultural Organizations for World Heritage Site designation.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources and Iolani Palace. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Iolani Palace is truly a historic landmark and symbol of Hawaii that is recognized throughout the world. Your Committee also finds that the nomination and subsequent recognition of Iolani Palace as a World Heritage Site will greatly enhance the visibility and further worldwide recognition of Iolani Palace. Your Committee further finds that the designation of Iolani Palace as a World Heritage Site may help to secure new funding sources that can be used to preserve or restore Iolani Palace.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of the Interior is urged to assist the Friends of Iolani Palace in preparing a nomination to the United States World Heritage Tentative List and to give that nomination its full consideration when selecting sites to include on the current United States World Heritage Tentative List;
- (2) Adding Princess Abigail Kinoiki Kekaulike Kawananakoa on the list of recipients to be transmitted a certified copy of this measure; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 152, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 152, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1380 Economic Development and Technology on S.R. No. 104**

The purpose of this measure is to urge the United States Department of the Interior to place Iolani Palace on the nomination list to the United Nations Educational, Scientific, and Cultural Organizations for World Heritage Site designation.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources and Iolani Palace. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Iolani Palace is truly a historic landmark and symbol of Hawaii that is recognized throughout the world. Your Committee also finds that the nomination and subsequent recognition of Iolani Palace as a World Heritage Site will greatly

enhance the visibility and further worldwide recognition of Iolani Palace. Your Committee further finds that the designation of Iolani Palace as a World Heritage Site may help to secure new funding sources that can be used to preserve or restore Iolani Palace.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of the Interior is urged to assist the Friends of Iolani Palace in preparing a nomination to the United States World Heritage Tentative List and to give that nomination its full consideration when selecting sites to include on the current United States World Heritage Tentative List;
- (2) Adding Princess Abigail Kinoiki Kekaulike Kawananakoa on the list of recipients to be transmitted a certified copy of this measure; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 104, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 104, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1381 Public Safety and Military Affairs on S.C.R. No. 91**

The purpose of this measure is to request the Department of Public Safety to identify a plan to collect unadjudicated fines and to consolidate its backlog of warrants.

Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the extensive backlog of warrants that currently exists within the State's criminal justice system has led to a severe administrative burden and untimely operation of serving warrants. Your Committee also finds that requiring the Department of Public Safety to consolidate their efforts to reduce the backlog of warrants with other public and private agencies or stakeholders will alleviate the administrative burden and allow the criminal justice system to operate in a more swift, timely, and just manner.

Your Committee has amended this measure by:

- (1) Deleting the request for the Department of Public Safety to identify a plan to collect unadjudicated fines; and
- (2) Requesting the Department of Public Safety to work with other public and private agencies or stakeholders in providing recommendations to the Legislature on how to resolve the backlog of warrants.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 91, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 91, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1382 Public Safety and Military Affairs on S.R. No. 56**

The purpose of this measure is to request the Department of Public Safety to identify a plan to collect unadjudicated fines and to consolidate its backlog of warrants.

Testimony in opposition of this measure was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the extensive backlog of warrants that currently exists within the State's criminal justice system has led to a severe administrative burden and untimely operation of serving warrants. Your Committee also finds that requiring the Department of Public Safety to consolidate their efforts to reduce the backlog of warrants with other public and private agencies or stakeholders will alleviate the administrative burden and allow the criminal justice system to operate in a more swift, timely, and just manner.

Your Committee has amended this measure by:

- (1) Deleting the request for the Department of Public Safety to identify a plan to collect unadjudicated fines; and
- (2) Requesting the Department of Public Safety to work with other public and private agencies or stakeholders in providing recommendations to the Legislature on how to resolve the backlog of warrants.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1383 Public Safety and Military Affairs on S.C.R. No. 55**

The purpose of this measure is to request state and local law enforcement officers to abide by state laws relating to the medical use of marijuana.

Testimony in support of this measure was submitted by two private organizations and one individual. Testimony in opposition of this measure was submitted by one state agency and three county agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the benefits from the prescribed medical use of marijuana outweigh the legal concerns of state and local law enforcement officers of their duty to confiscate and criminalize the use of marijuana. Your Committee also finds that the medical use of cannabis is permitted under the existing laws of the State of Hawaii. Your Committee further finds that the prescribed medical use of marijuana has helped many severely-ill people in Hawaii in a safe and cost-effective manner in comparison to other alternative treatment measures that those patients would have to endure to receive adequate treatment or care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 55, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 55, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1384 Public Safety and Military Affairs on S.R. No. 32**

The purpose of this measure is to request state and local law enforcement officers to abide by state laws relating to the medical use of marijuana.

Testimony in support of this measure was submitted by two private organizations and one individual. Testimony in opposition of this measure was submitted by one state agency and three county agencies. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the benefits from the prescribed medical use of marijuana outweigh the legal concerns of state and local law enforcement officers of their duty to confiscate and criminalize the use of marijuana. Your Committee also finds that the medical use of cannabis is permitted under the existing laws of the State of Hawaii. Your Committee further finds that the prescribed medical use of marijuana has helped many severely-ill people in Hawaii in a safe and cost-effective manner in comparison to other alternative treatment measures that those patients would have to endure to receive adequate treatment or care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 32, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 32, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1385 Human Services on S.C.R. No. 105**

The purpose of this measure is to urge public and private agencies to encourage their parent clients to turn on closed captioning when their children watch television.

Testimony in support of this measure was submitted by one individual. Testimony in opposition was submitted by the Department of Education. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that closed captioning has the ability to enhance vocabulary, reading speed, word association, and spelling. Your Committee understands that closed captioning is not accurate one hundred per cent of the time and certain style preferences used in closed captioning are different than those used in school writing classes, however, your Committee believes the merits outweigh these concerns. Adults can benefit from reading the closed captioning on television, as it helps a reader develop English skills and identify errors in spelling, which is a rapid brain problem solving skill. Television is becoming a large part of the family dynamic, and by using closed captioning the television can become a tool to help both adults and children improve their reading skills.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 105, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 105, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1386 Higher Education on S.C.R. No. 155**

The purpose of this measure is to:

- (1) Support Hawaii's continued participation in the Western Interstate Commission for Higher Education (WICHE) and the educational and other benefits provided through forty years of Hawaii's membership in WICHE; and

- (2) Encourage the University of Hawaii System to find additional ways to participate in WICHE activities and collaborate with the other members of WICHE.

Testimony in support of this measure was submitted by the Western Interstate Commission for Higher Education. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that participation in WICHE provides access to educational alternatives that would otherwise be difficult or impossible for Hawaii students to pursue. In addition to a successful professional student exchange program that assists Hawaii students in obtaining professional degrees in programs unavailable in Hawaii, WICHE has developed and supported both undergraduate and graduate exchange programs with little cost to the State other than its membership dues.

Your Committee also understands that last year the Community Colleges agreed to participate in the exchange programs, which will add educational opportunities for many more students. This is particularly important given the difficult economic situation, and your Committee commends WICHE and its dedicated staff of professionals in their efforts to improve access to higher education and to develop a successful, educated workforce.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 155 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1387 Higher Education on S.R. No. 106**

The purpose of this measure is to:

- (1) Support Hawaii's continued participation in the Western Interstate Commission for Higher Education (WICHE) and the educational and other benefits provided through forty years of Hawaii's membership in WICHE; and
- (2) Encourage the University of Hawaii System to find additional ways to participate in WICHE activities and collaborate with the other members of WICHE.

Testimony in support of this measure was submitted by the Western Interstate Commission for Higher Education. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that participation in WICHE provides access to educational alternatives that would otherwise be difficult or impossible for Hawaii students to pursue. In addition to a successful professional student exchange program that assists Hawaii students in obtaining professional degrees in programs unavailable in Hawaii, WICHE has developed and supported both undergraduate and graduate exchange programs with little cost to the State other than its membership dues.

Your Committee also understands that last year the Community Colleges agreed to participate in the exchange programs, which will add educational opportunities for many more students. This is particularly important given the difficult economic situation, and your Committee commends WICHE and its dedicated staff of professionals in their efforts to improve access to higher education and to develop a successful, educated workforce.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 106 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1388 Higher Education on S.C.R. No. 153**

The purpose of this measure is to request the University of Hawaii System to:

- (1) In consultation with the Council of Chief Academic Officers, develop a comprehensive approach to the teaching of engineering at University campuses statewide; and
- (2) Submit its findings and recommendations, including any budgetary requests and proposed legislation, to the 2010 Legislature.

Testimony in support of this measure was submitted by the University of Hawaii System and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the University of Hawaii System Vice President for Academic Planning and Policy has convened a system wide engineering group for a comprehensive review of the teaching of engineering statewide to address the workforce needs of the State and the efficient and effective use of University resources. Your Committee understands that the University of Hawaii Board of Regents policies require Board approval for the establishment of all instructional and research programs, after review at the campus and system levels and upon recommendation of the President.

Your Committee further finds that the review process will consider many of the questions posed in this measure, including State workforce and education needs; cost of new program development and implementation; ongoing costs; and the institution's ability to sustain the program financially and with appropriate academic quality.

Your Committee has amended this measure to incorporate recommendations by the parties involved, by:

- (1) Amending the title to read: REQUESTING THE UNIVERSITY OF HAWAII SYSTEM TO DEVELOP A COMPREHENSIVE APPROACH TO THE TEACHING AND TRAINING OF ENGINEERING AT UNIVERSITY CAMPUSES STATEWIDE;

- (2) Adding a Whereas clause regarding support for science, technology, engineering, and mathematics (STEM) research, educational, and training programs on Neighbor Islands;
- (3) Adding to the entities to be consulted, and to those receiving certified copies of the Concurrent Resolution, the University of Hawaii System Vice President for Research, University of Hawaii System Vice President for Academic Planning and Policy, University of Hawaii at Manoa Vice Chancellor for Research, and University of Hawaii at Hilo Vice Chancellor for Research; and
- (4) Adding to the list of considerations, the provision of adequate and accessible engineering education and facilities designed to meet the opportunities and needs of Neighbor Island communities; and an evaluation of the current proposals by the University of Hawaii at Hilo to establish an applied-oriented undergraduate Bachelor of Science degree engineering program.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 153, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 153, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1389 Higher Education on S.R. No. 105**

The purpose of this measure is to request the University of Hawaii System to:

- (1) In consultation with the Council of Chief Academic Officers, develop a comprehensive approach to the teaching of engineering at University campuses statewide; and
- (2) Submit its findings and recommendations, including any budgetary requests and proposed legislation, to the 2010 Legislature.

Testimony in support of this measure was submitted by the University of Hawaii System and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the University of Hawaii System Vice President for Academic Planning and Policy has convened a system wide engineering group for a comprehensive review of the teaching of engineering statewide to address the workforce needs of the State and the efficient and effective use of University resources. Your Committee understands that the University of Hawaii Board of Regents policies require Board approval for the establishment of all instructional and research programs, after review at the campus and system levels and upon recommendation of the President.

Your Committee further finds that the review process will consider many of the questions posed in this measure, including State workforce and education needs; cost of new program development and implementation; ongoing costs; and the institution's ability to sustain the program financially and with appropriate academic quality.

Your Committee has amended this measure to incorporate recommendations by the parties involved, by:

- (1) Amending the title to read: REQUESTING THE UNIVERSITY OF HAWAII SYSTEM TO DEVELOP A COMPREHENSIVE APPROACH TO THE TEACHING AND TRAINING OF ENGINEERING AT UNIVERSITY CAMPUSES STATEWIDE;
- (2) Adding a Whereas clause regarding support for science, technology, engineering, and mathematics (STEM) research, educational, and training programs on Neighbor Islands;
- (3) Adding to the entities to be consulted, and to those receiving certified copies of the Concurrent Resolution, the University of Hawaii System Vice President for Research, University of Hawaii System Vice President for Academic Planning and Policy, University of Hawaii at Manoa Vice Chancellor for Research, and University of Hawaii at Hilo Vice Chancellor for Research; and
- (4) Adding to the list of considerations, the provision of adequate and accessible engineering education and facilities designed to meet the opportunities and needs of Neighbor Island communities; and an evaluation of the current proposals by the University of Hawaii at Hilo to establish an applied-oriented undergraduate Bachelor of Science degree engineering program.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 105, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 105, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1390 Higher Education on S.C.R. No. 97**

The purpose of this measure is to encourage the College of Engineering of the University of Hawaii to:

- (1) Create an undergraduate certificate program for robotics and exploration; and
- (2) Ensure that the certification program is in compliance with the University's academic standards and accreditation policies; and
- (3) Submit a report on the development of the robotics and exploration certificate program to the 2010 Legislature.

Testimony in support of this measure was submitted by one individual. One individual provided testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that, while there is support for the intent of this measure, the University has expressed concerns regarding the creation of a new program when the University faces severe budget reductions over the next two years, if not longer.

Your Committee understands these concerns, but believes that the concept of an undergraduate certificate program for robotics and exploration has merit and would benefit from further review.

Your Committee has amended this measure accordingly, by:

- (1) Amending the title to read: ENCOURAGING THE UNIVERSITY OF HAWAII COLLEGE OF ENGINEERING TO CONSIDER THE FEASIBILITY OF ESTABLISHING AN UNDERGRADUATE CERTIFICATE OF ROBOTICS AND EXPLORATION PROGRAM;
- (2) Amending the BE IT RESOLVED clauses to reflect this change;
- (3) Requesting an interim report to the 2010 Legislature and a final report to the 2011 Legislature; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 97, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 97, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1391 Higher Education on S.R. No. 59**

The purpose of this measure is to encourage the College of Engineering of the University of Hawaii to:

- (1) Create an undergraduate certificate program for robotics and exploration; and
- (2) Ensure that the certification program is in compliance with the University's academic standards and accreditation policies; and
- (3) Submit a report on the development of the robotics and exploration certificate program to the 2010 Legislature.

Testimony in support of this measure was submitted by one individual. One individual provided testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that, while there is support for the intent of this measure, the University has expressed concerns regarding the creation of a new program when the University faces severe budget reductions over the next two years, if not longer.

Your Committee understands these concerns, but believes that the concept of an undergraduate certificate program for robotics and exploration has merit and would benefit from further review.

Your Committee has amended this measure accordingly, by:

- (1) Amending the title to read: ENCOURAGING THE UNIVERSITY OF HAWAII COLLEGE OF ENGINEERING TO CONSIDER THE FEASIBILITY OF ESTABLISHING AN UNDERGRADUATE CERTIFICATE OF ROBOTICS AND EXPLORATION PROGRAM;
- (2) Amending the BE IT RESOLVED clauses to reflect this change;
- (3) Requesting an interim report to the 2010 Legislature and a final report to the 2011 Legislature; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 59, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 59, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1392 (Joint) Higher Education and Economic Development and Technology on S.C.R. No. 122**

The purpose of this measure is to urge the University of Hawaii at Hilo to:

- (1) Consider the feasibility of establishing an Office of the Vice Chancellor for Research and Economic Development at the University of Hawaii at Hilo; and
- (2) Report its findings and recommendations, including any budget requests and proposed legislation, to the 2010 Legislature.

Testimony in support of this measure was submitted by the University of Hawaii System, University of Hawaii at Hilo, and the High Technology Development Corporation. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that this measure will assist the University of Hawaii at Hilo in supporting the development and implementation of high impact research and undergraduate degree program initiatives that address State priorities, as well as providing essential research experiences for University of Hawaii at Hilo STEM (science, technology, engineering, and mathematics) students. Your Committees further find that these initiatives contribute to the State's efforts to provide education and training necessary to develop a highly qualified and globally competitive science and technology workforce.

Your Committees have amended this measure by:

- (1) Amending the title to read: URGING THE UNIVERSITY OF HAWAII AT HILO, IN CONSULTATION WITH THE UNIVERSITY OF HAWAII SYSTEM VICE PRESIDENT FOR RESEARCH, TO CONSIDER THE FEASIBILITY OF ESTABLISHING AN OFFICE OF THE VICE CHANCELLOR FOR RESEARCH AND ECONOMIC DEVELOPMENT AT THE UNIVERSITY OF HAWAII AT HILO;
- (2) Adding “in consultation with the University of Hawaii System Vice President for Research” to the first Be It Resolved clause;
- (3) Adding to the issues to be considered: cost effective use of indirect and overhead funds generated by research grants; and the responsibility of the Office in oversight of compliance with federal and state policies, including post-award monitoring, effort reporting, and audits, regarding research grants at the University of Hawaii at Hilo; and
- (4) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 122, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 122, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 5 (Hee, Ige, Kokubun, Sakamoto, Taniguchi).

**SCRep. 1393 (Joint) Higher Education and Economic Development and Technology on S.R. No. 80**

The purpose of this measure is to urge the University of Hawaii at Hilo to:

- (1) Consider the feasibility of establishing an Office of the Vice Chancellor for Research and Economic Development at the University of Hawaii at Hilo; and
- (2) Report its findings and recommendations, including any budget requests and proposed legislation, to the 2010 Legislature.

Testimony in support of this measure was submitted by the University of Hawaii System, University of Hawaii at Hilo, and the High Technology Development Corporation. Written testimony presented to the Committees may be reviewed on the Legislature’s website.

Your Committees find that this measure will assist the University of Hawaii at Hilo in supporting the development and implementation of high impact research and undergraduate degree program initiatives that address State priorities, as well as providing essential research experiences for University of Hawaii at Hilo STEM (science, technology, engineering, and mathematics) students. Your Committees further find that these initiatives contribute to the State’s efforts to provide education and training necessary to develop a highly qualified and globally competitive science and technology workforce.

Your Committees have amended this measure by:

- (1) Amending the title to read: URGING THE UNIVERSITY OF HAWAII AT HILO, IN CONSULTATION WITH THE UNIVERSITY OF HAWAII SYSTEM VICE PRESIDENT FOR RESEARCH, TO CONSIDER THE FEASIBILITY OF ESTABLISHING AN OFFICE OF THE VICE CHANCELLOR FOR RESEARCH AND ECONOMIC DEVELOPMENT AT THE UNIVERSITY OF HAWAII AT HILO;
- (2) Adding “in consultation with the University of Hawaii System Vice President for Research” to the first Be It Resolved clause;
- (3) Adding to the issues to be considered: cost effective use of indirect and overhead funds generated by research grants; and the responsibility of the Office in oversight of compliance with federal and state policies, including post-award monitoring, effort reporting, and audits, regarding research grants at the University of Hawaii at Hilo; and
- (4) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development and Technology that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 80, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 80, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 5 (Hee, Ige, Kokubun, Sakamoto, Taniguchi).

**SCRep. 1394 Labor on S.C.R. No. 132**

The purpose of this measure is to request the Senate President and the Speaker of the House of Representatives to establish a task force to determine the economic value of construction in Hawaii.

Testimony in support of this measure was submitted by three organizations. Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that the health of Hawaii’s construction, housing, and tourism industries anchors the local economy. Your Committee further finds that the current economic situation calls for state support of construction projects that would stimulate tourism and encourage the recovery of other local industries.

Furthermore, your Committee finds that due to the magnitude and anticipated duration of the current recession, the task force proposed by this measure should include within the scope of its duties recommendations on proposed state actions to preserve and create new jobs in the local construction industry and recommendations on the implementation of the proposed state actions, including a timeline for implementation.

Accordingly, your Committee has amended this measure as follows:

- (1) By clarifying who, between the Senate President and Speaker of the House of Representatives, appoints the landowner representatives;
- (2) By requesting the task force to develop and propose state actions for the purpose of preserving and creating new jobs in the local construction industry and to determine the anticipated impact of those actions on the State's economy;
- (3) By requesting the task force to make recommendations on the implementation of any proposed state actions developed by the task force, as well as a timeline for the implementation of those state actions; and
- (4) By making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 132, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 132, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1395 Labor on S.R. No. 87**

The purpose of this measure is to request the Senate President to establish a task force to determine the economic value of construction in Hawaii.

Testimony in support of this measure was submitted by three organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the health of Hawaii's construction, housing, and tourism industries anchors the local economy. Your Committee further finds that the current economic situation calls for state support of construction projects that would stimulate tourism and encourage the recovery of other local industries.

Furthermore, your Committee finds that due to the magnitude and anticipated duration of the current recession, the task force proposed by this measure should include within the scope of its duties recommendations on proposed state actions to preserve and create new jobs in the local construction industry and recommendations on the implementation of the proposed state actions, including a timeline for implementation.

Accordingly, your Committee has amended this measure as follows:

- (1) By clarifying that the Senate President appoints all task force members;
- (2) By requesting the task force to develop and propose state actions for the purpose of preserving and creating new jobs in the local construction industry and to determine the anticipated impact of those actions on the State's economy;
- (3) By requesting the task force to make recommendations on the implementation of any proposed state actions developed by the task force, as well as a timeline for the implementation of those state actions; and
- (4) By making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 87, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 87, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1396 (Joint) Transportation, International and Intergovernmental Affairs and Water, Land, Agriculture and Hawaiian Affairs on S.C.R. No. 71**

The purpose of this measure is to request the Office of the Governor to convene a Scenic Byways Working Group to select possible sites statewide, including the Pi'ilani Trail on Maui, for proposed federal designation as scenic byways and to develop the federally required corridor management plan, as defined in the National Scenic Byways Program Interim Policy.

Your Committees received testimony in support of this measure from the Department of Transportation; one Maui County Council Member; and two individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

This measure also requests the Office of the Governor to:

- (1) Include in the Scenic Byways Working Group representatives from the Departments of Transportation, Land and Natural Resources, and Business, Economic Development, and Tourism, relevant county agencies, and representatives from community groups residing in areas where proposed scenic byways are located;
- (2) Consult with and invite representatives from the Federal Highway Administration and any other relevant federal agency to participate in the deliberations of the Scenic Byways Working Group; and
- (3) Act upon the findings and recommendations of the Scenic Byways Working Group by submitting (A) nominations of roads selected by the Working Group for designation as scenic byways, and (B) applications for federal funding to support the promotion, maintenance, and repair of these roads, to the Federal Highway Administration of the United States Department of Transportation.

The Governor is also requested to submit a report to the 2010 Legislature on the progress of the Scenic Byways Working Group and the status of the application to the Federal Highways Administration for the funding and to designate selected areas of the State as scenic byways.

Congress established the National Scenic Byways Program in 1991 under the Intermodal Transportation Efficiency Act and the Transportation Equity Act for the 21st Century. The National Scenic Byways Program is a voluntary program designed to help states protect and promote their scenic roads by which states apply for funding from the Federal Highway Administration of the United States Department of Transportation and submit nominations of certain roads for designation as scenic byways by the Federal Highway Administration.

There is great interest from the community to designate as a scenic byway the Pi'ilani Trail, the eighteen-mile Heritage Corridor from Honokowai to Kahakuloa featuring the six sacred bays of Pi'ilani, to preserve the area and to provide access for the public.

Your Committees have amended this measure by:

- (1) Deleting reference to the working group;
- (2) Requesting the Department of Transportation to conduct statewide community scenic byways educational workshops for proposed federal designations of scenic byways including the Pi'ilani Trail on Maui; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 71, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 71, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Bunda, English, Fukunaga, Nishihara, Hemmings).

**SCRep. 1397 (Joint) Transportation, International and Intergovernmental Affairs and Water, Land, Agriculture and Hawaiian Affairs on S.R. No. 42**

The purpose of this measure is to request the Office of the Governor to convene a Scenic Byways Working Group to select possible sites statewide, including the Pi'ilani Trail on Maui, for proposed federal designation as scenic byways and to develop the federally required corridor management plan, as defined in the National Scenic Byways Program Interim Policy.

Your Committees received testimony in support of this measure from the Department of Transportation; one Maui County Council Member; and two individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

This measure also requests the Office of the Governor to:

- (1) Include in the Scenic Byways Working Group representatives from the Departments of Transportation, Land and Natural Resources, and Business, Economic Development, and Tourism, relevant county agencies, and representatives from community groups residing in areas where proposed scenic byways are located;
- (2) Consult with and invite representatives from the Federal Highway Administration and any other relevant federal agency to participate in the deliberations of the Scenic Byways Working Group; and
- (3) Act upon the findings and recommendations of the Scenic Byways Working Group by submitting (A) nominations of roads selected by the Working Group for designation as scenic byways, and (B) applications for federal funding to support the promotion, maintenance, and repair of these roads, to the Federal Highway Administration of the United States Department of Transportation.

The Governor is also requested to submit a report to the 2010 Legislature on the progress of the Scenic Byways Working Group and the status of the application to the Federal Highways Administration for the funding and to designate selected areas of the State as scenic byways.

Congress established the National Scenic Byways Program in 1991 under the Intermodal Transportation Efficiency Act and the Transportation Equity Act for the 21st Century. The National Scenic Byways Program is a voluntary program designed to help states protect and promote their scenic roads by which states apply for funding from the Federal Highway Administration of the United States Department of Transportation and submit nominations of certain roads for designation as scenic byways by the Federal Highway Administration.

There is great interest from the community to designate as a scenic byway the Pi'ilani Trail, the eighteen-mile Heritage Corridor from Honokowai to Kahakuloa featuring the six sacred bays of Pi'ilani, to preserve the area and to provide access for the public.

Your Committees have amended this measure by:

- (1) Deleting reference to the working group;
- (2) Requesting the Department of Transportation to conduct statewide community scenic byways educational workshops for proposed federal designations of scenic byways including the Pi'ilani Trail on Maui; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Transportation, International and Intergovernmental Affairs and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 42, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 42, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Bunda, English, Fukunaga, Nishihara, Hemmings).

**SCRep. 1398 (Majority) Education and Housing on S.C.R. No. 177**

The purpose of this measure is to request the Superintendent of Education to:

- (1) Appoint a task force, chaired by the Superintendent of the Kauai Complex Area, to report on the feasibility of implementing a pilot program that uses private sector resources for a financial and economic education and literacy program for public school students on Kauai at no cost to the Department of Education; and
- (2) Submit a report on the task force's findings and recommendations to the 2010 Legislature.

Testimony in support of this measure was submitted by three private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that financial education and literacy among school age children is of great importance. Their importance is especially great during the current period of economic instability. Your Committee commends the financial institutions involved with this effort to develop a pilot program for possible replication statewide.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 177 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 2 (Tsutsui, Hemmings). Excused, none.

**SCRep. 1399 Education and Housing on S.C.R. No. 174**

The purpose of this measure, as received, is to support building modular and factory manufactured homes in Hawaii, not including trailer homes.

Prior to the hearing, your Committee circulated S.C.R. No. 174, Proposed S.D. 1.

As amended, this proposed measure requests that federal programs Fannie Mae and Freddie Mac allow special reconsideration for a pricing and policies exception to the Hawaii real estate market and for first-time homebuyers with regard to loans delivered on Hawaii condominiums.

Testimony in support of the proposed measure was submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that when financing condominiums, lenders who sell mortgages to Fannie Mae and Freddie Mac must conform to high price adjustment schedules, higher insurance requirements, and exclusionary private mortgage insurance policies such as the requirement of unattainable owner-occupancy percentages of seventy per cent, which have been developed based on national data and circumstances. Your Committee understands that in Hawaii, this results in more restrictive underwriting standards and higher borrowing costs, which low and moderate income borrowers cannot qualify for, nor afford, due to the higher cost of housing.

Your Committee supports efforts to encourage Fannie Mae and Freddie Mac to reconsider their policies with regard to Hawaii condominiums.

Your Committee has made a number of clarifying amendments in the Whereas clauses to provide additional information regarding the issues facing Hawaii-based lenders.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 174, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 174, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1400 Education and Housing on S.C.R. No. 186**

The purpose of this measure is to request the Department of Education to:

- (1) Facilitate discussion within the community on the funding inadequacies of the Weighted Student Formula, particularly for smaller rural schools, and to explore alternative models or formulas to the Weighted Student Formula in the interest of maximizing funding equity to public schools; and
- (2) Submit its findings and recommendations to address the concerns regarding the Weighted Student Formula to the 2010 Legislature.

Testimony in support of this measure was submitted by one private organization and nine individuals. One state agency submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the Weighted Student Formula has raised concerns since its implementation, and that it has not been fully implemented due, in part, to its adverse impact on small and rural schools.

Your Committee agrees that further information on the impact is critical to achieving the intent of the Weighted Student Formula, which was established by Act 51, Session Laws of Hawaii 2004, to more accurately assess the relative cost of educating students and achieve greater transparency in the budget process.

Your Committee has amended this measure by:

- (1) Changing “smaller rural schools” to “smaller and rural schools” in both the title and the body of the measure;
- (2) Replacing the request of the Department of Education to hold community meetings with a request to conduct an analysis of the implementation of the Weighted Student Formula, including the impact on small and rural schools on student achievement, safety and well-being, and civic responsibility; and
- (3) Clarifying that the information to be gathered on the Weighted Student Formula include funding models used by other education agencies to address resourcing small and rural schools, and the most effective means by which schools within a school complex, complex area, or district might share resources to achieve greater fiscal and instructional efficiencies.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 186, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 186, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1401 (Joint) Health and Economic Development and Technology on S.C.R. No. 167**

The purpose of this measure is to encourage a public-private partnership to support the health care community’s efforts to obtain federal funding for health information technology grants.

Your Committees received testimony in support of this measure from the Hawaii Health Information Exchange, Hawaii Health Systems Corporation, Kaiser Permanente, Hawaii Medical Association, and the Hawaii Primary Care Association.

Written testimony presented to your Committees may be reviewed on the Legislature’s website.

Your Committees find that obtaining federal funding for health care technology that includes the health information exchange is vital to the improvement of Hawaii’s medical technology infrastructure. Hawaii’s unique geographical location necessitates that cutting edge ideas and technologies are fostered to help overcome issues regarding access to medical care, especially for disadvantaged and disabled populations and those residing in rural areas.

Your Committees have amended this measure by requesting the Senate and the House of Representatives to convene a task force to develop and implement a partnership plan that includes the Legislature, interested stakeholders, and the appropriate state agency responsible for designating an entity to be considered a “state designated entity” in order to qualify to receive funding under the federal American Recovery and Reinvestment Act of 2009.

As affirmed by the records of votes of the members of your Committees on Health and Economic Development and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 167, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 167, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 2 (Hee, Hemmings).

**SCRep. 1402 (Joint) Health and Human Services on S.C.R. No. 120**

The purpose of this measure is to request the Hawaii Health Systems Corporation East and West regional boards to establish the Big Island Long-Term Care Coalition to develop a plan for long-term care solutions on the Big Island of Hawaii.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association.

Written testimony presented to your Committees may be reviewed on the Legislature’s website.

Your Committees find that the lack of long-term care facilities, particularly on the island of Hawaii, is one of the most critical health care issues facing the senior and adult disabled population. The Hawaii Health Systems Corporation is most affected by the availability of and support for long-term care. Therefore, leadership from the Corporation’s Big Island regional boards is appropriate for the important task of pulling a coalition together to develop solutions.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 120 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Espero, Hemmings).

**SCRep. 1403 Health on S.C.R. No. 145**

The purpose of this measure is to request the Department of Health to review and assess the policies and procedures implemented by hospitals to reduce elective cesarean sections and induction of labor.

Your Committee received testimony in support of this measure from the March of Dimes. Testimony in opposition to this measure was submitted by the Department of Health. Comments on this measure were submitted by Healthy Mothers, Healthy Babies.

Written testimony presented to the Committee may be reviewed on the Legislature’s website.

Your Committee finds that there has been a sharp increase in the number of induction and elective surgical births in the past ten years that have increased the rate of pre-term births.

Your Committee further finds that the Healthcare Association of Hawaii is a non-profit organization that represents Hawaii's health care providers and would serve as a valuable asset to the review and assessment process conducted by the Department of Health.

Your Committee has amended this measure by requesting the Department of Health to conduct the review and assessment in consultation with the Healthcare Association of Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 145, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 145, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1404 Health on S.C.R. No. 172**

The purpose of this measure is to urge Congress to approve the United States National Health Care Act.

Your Committee received testimony in support of this measure from two individuals.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that single-payer health insurance that provides coverage to everyone is important to the long-term health and well being of Hawaii residents. H.R. 676, the United States National Health Care Act, would be an effective solution to the health insurance crisis by providing a universal, comprehensive, single payer system of high quality national health insurance for everyone, provided that improvements are made that focus less on placing the burden on employees and more on mandating businesses to provide insurance for all of their employees.

Your Committee has amended this measure by inserting language that highlights the success of the Hawaii Prepaid Health Care Act and the rising rate of uninsured persons in recent years, despite that success.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 172, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 172, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1405 Higher Education on S.C.R. No. 79**

The purpose of this measure is request the University of Hawaii Board of Regents to:

- (1) Develop policies and procedures to auction the naming rights for buildings and facilities on the University of Hawaii – West Oahu campus; and
- (2) Submit a report of its findings and recommendations to the 2010 Legislature.

The University of Hawaii Professional Assembly and one individual submitted testimony in opposition to the measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that while the proposal in this measure would benefit from consideration, it may be somewhat premature to develop policies and procedures to auction naming rights for campus buildings and facilities. Your Committee believes it would be more appropriate to consider the auction of naming rights as part of a larger fundraising strategy, which would explore a range of options to support the University of Hawaii – West Oahu campus.

Your Committee has amended this measure accordingly, by:

- (1) Amending the title to read: URGING THE UNIVERSITY OF HAWAII BOARD OF REGENTS TO CONSIDER A STRATEGIC DEVELOPMENT PLAN TO EXPLORE FUNDRAISING OPPORTUNITIES FOR THE UNIVERSITY OF HAWAII – WEST OAHU CAMPUS;
- (2) Deleting and replacing the first two BE IT RESOLVED clauses with a strategic development plan to include near- and long-term capital resources necessary for development and maintenance of planned West Oahu campus buildings and facilities; identified sources of public and private funding; and alternative sources of funds, such as through the auction of naming rights, the development of affordable workforce housing in concert with development of the West Oahu campus, and other fundraising options as deemed appropriate; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 79, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 79, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1406 Higher Education on S.R. No. 47**

The purpose of this measure is request the University of Hawaii Board of Regents to:

- (1) Develop policies and procedures to auction the naming rights for buildings and facilities on the University of Hawaii – West Oahu campus; and
- (2) Submit a report of its findings and recommendations to the 2010 Legislature.

The University of Hawaii Professional Assembly and one individual submitted testimony in opposition to the measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that while the proposal in this measure would benefit from consideration, it may be somewhat premature to develop policies and procedures to auction naming rights for campus buildings and facilities. Your Committee believes it would be more appropriate to consider the auction of naming rights as part of a larger fundraising strategy, which would explore a range of options to support the University of Hawaii – West Oahu campus.

Your Committee has amended this measure accordingly, by:

- (1) Amending the title to read: URGING THE UNIVERSITY OF HAWAII BOARD OF REGENTS TO CONSIDER A STRATEGIC DEVELOPMENT PLAN TO EXPLORE FUNDRAISING OPPORTUNITIES FOR THE UNIVERSITY OF HAWAII – WEST OAHU CAMPUS;
- (2) Deleting and replacing the first two BE IT RESOLVED clauses with a strategic development plan to include near- and long-term capital resources necessary for development and maintenance of planned West Oahu campus buildings and facilities; identified sources of public and private funding; and alternative sources of funds, such as through the auction of naming rights, the development of affordable workforce housing in concert with development of the West Oahu campus, and other fundraising options as deemed appropriate; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 47, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1407 (Joint) Ways and Means and Transportation, International and Intergovernmental Affairs on S.C.R. No. 98**

The purpose of this measure is to request the Auditor to conduct a management audit of the Department of Transportation.

The management audit would determine whether:

- (1) Legislative appropriations are efficiently administered by the Department for its intended purposes;
- (2) State contracts are properly awarded by the Department and include adequate safeguards; and
- (3) Fees and other charges assessed by the Department are collected and accounted for accurately.

Your Committees find that serious concerns have arisen regarding the Department of Transportation's management of state funds. Your Committees also find that financial audits of the Airports Division and Harbors Division of the Department of Transportation have revealed significant deficiencies in procurement processes and compliance with laws and regulations regarding accounting practices and internal controls. Following the Department of Transportation's failure to adequately prepare for and address the concerns raised in this measure at a public hearing on April 8, 2009, the Chair of your Committee on Ways and Means sent a letter to the Director of Transportation requesting that the Department provide detailed information to address these issues. Until these concerns are adequately addressed, your Committees believe that a management audit of the Department of Transportation is appropriate and necessary.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Transportation, International and Intergovernmental Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 98 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Ayes, 13. Noes, none. Excused, 3 (Espero, Gabbard, Hemmings).

**SCRep. 1408 Transportation, International and Intergovernmental Affairs on H.C.R. No. 162**

The purpose of this measure is to encourage Hawai'i residents to ride bicycles for transportation as well as recreation, and to urge the Department of Transportation to embrace "Complete Street" policies that acknowledge the contributions of bicycles as a means to reduce vehicle miles by integrating bicycle use into standard street design.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Association of Independent Schools, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Bicycling can provide multiple and cross-cutting benefits in policy initiatives that seek to address transportation needs, limit climate change and energy consumption, and improve public health. Bicycle commuters help reduce traffic by leaving automobiles at home, thus also saving on fuel costs, vehicle maintenance, and parking expenses. Your Committee notes that bicycling is an integral part of the Complete Street policy as endorsed by the Department of Transportation.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 162, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1409 (Joint) Human Services and Health on S.C.R. No. 169**

The purpose of this measure is to request the Long Term Care Commission to conduct a study of increasing Medicaid reimbursements to hospitals for patients who are waitlisted for long-term care and to long-term care facilities to accept waitlisted patients.

Testimony in support of this measure was submitted by the Long Term Care Commission, the Healthcare Association of Hawaii, and the Hawaii Disability Rights Center. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that on any given day there is an average of 200 patients in hospitals who have been treated, and are well enough to be transferred to long-term care, but are waitlisted because long-term care is not available. Patients may be waitlisted for several days, or even a year, and this creates a serious financial drain on hospitals. The average number of long-term beds available in the nation is 47 per 1000 people over the age of 65, however, Hawaii averages only 23 per 1000 people. The shortage of long-term care beds in Hawaii is due to the high costs of construction and operation mismatched with low payments for services. A study on increasing Medicaid reimbursements will provide insight into the steps that need to be taken to alleviate this problem.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purpose of consistency and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 169, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 169, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1410 (Joint) Human Services and Health on S.R. No. 116**

The purpose of this measure is to request the Long Term Care Commission to conduct a study of increasing Medicaid reimbursements to hospitals for patients who are waitlisted for long-term care and to long-term care facilities to accept waitlisted patients.

Testimony in support of this measure was submitted by the Long Term Care Commission, the Healthcare Association of Hawaii, and the Hawaii Disability Rights Center. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that on any given day there is an average of 200 patients in hospitals who have been treated, and are well enough to be transferred to long-term care, but are waitlisted because long-term care is not available. As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 116, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 116, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1411 (Joint) Human Services and Health on S.C.R. No. 141**

The purpose of this measure is to request the Department of Human Services to convene a statewide task force to advise the Legislature on methods to improve Hawaii's mental health services.

Testimony in support of this measure was submitted by the National Alliance on Mental Illness - Hawaii, Hawaii Disability Rights Center, Hawaii Primary Care Association, Mental Health America of Hawaii, Kahi Mohala Behavioral Health, and two individuals. Testimony in opposition was submitted by the Department of Human Services. Written testimony presented to your Committees may be reviewed on the Legislature's website.

The National Alliance on Mental Illness issued "A Report on America's Health Care System for Adults with Serious Mental Illness" which uses measurable criteria and comprehensively examines each state's responses to mental illnesses. Your Committees find that convening a task force to analyze the effectiveness and efficiency of other state's programs, as reported, will ensure that strategies implemented in Hawaii have the benefit of other state's experiences. Additionally, in light of the current economic crisis, careful attention must be given to Hawaii's mental health delivery system to ensure its continued effectiveness.

Your Committees have amended this measure by:

- (1) Addressing the concerns of the Department of Human Services and changing in the title and text of the measure the convening agency to the Department of Health, which administers mental health services for Hawaii; and

- (2) Making technical, nonsubstantive changes for the purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 141, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 141, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1412 (Joint) Human Services and Health on S.R. No. 93**

The purpose of this measure is to request the Department of Human Services to convene a statewide task force to advise the Legislature on methods to improve Hawaii's mental health services.

Testimony in support of this measure was submitted by the National Alliance on Mental Illness - Hawaii, Hawaii Disability Rights Center, Hawaii Primary Care Association, Mental Health America of Hawaii, Kahi Mohala Behavioral Health, and two individuals. Testimony in opposition was submitted by the Department of Human Services. Written testimony presented to your Committees may be reviewed on the Legislature's website.

- (2) Making technical, nonsubstantive changes for the purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No 93, as amended herein, and recommend its adoption in the form attached hereto as S.R. No 93, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 7. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1413 (Joint) Human Services and Public Safety and Military Affairs on S.C.R. No. 143**

The purpose of this measure is to affirm support for the concept of establishing a Big Island Juvenile Intake and Assessment Center.

Testimony in support of this measure was submitted by the Department of Human Services Office of Youth Services, the Mayor of the County of Hawaii, the Prosecuting Attorney and the First Deputy Prosecuting Attorney for the County of Hawaii, and one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that law enforcement officers on the island of Hawaii are in need of a facility to house and hold juvenile offenders in a safe and secure manner that consequently allows the law enforcement officers to proceed with their patrol duties. In 2006 over 2,350 juveniles were arrested, and a survey of law enforcement officers found that officers have no good options when dealing with arrested juveniles who cannot be returned to their homes because of drug, alcohol, or mental health problems, or family issues. Existing programs are fragmented and may not accept disruptive juveniles or those who are under the influence of alcohol or drugs. The Big Island Juvenile Intake and Assessment Center would help law enforcement officers by providing a safe holding place for these juveniles. Various stakeholders and supporters of a Big Island Juvenile Intake and Assessment Center have already completed a thorough business plan that identifies the necessary startup and annual operating costs for the Center and are ready to move forward with a pilot program at a facility in Pahoia that can be implemented at less than a third of the cost of the comprehensive Big Island Juvenile Intake and Assessment Center initiative. Your Committees affirm their support of the initiative and actions taken by the stakeholders, and pledge future support of continued efforts to establish and develop a Big Island Juvenile Intake and Assessment Center.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 143, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 143, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1414 (Joint) Human Services and Public Safety and Military Affairs on S.R. No. 95**

The purpose of this measure is to affirm support for the concept of establishing a Big Island Juvenile Intake and Assessment Center.

Testimony in support of this measure was submitted by the Department of Human Services Office of Youth Services, the Mayor of the County of Hawaii, the Prosecuting Attorney and the First Deputy Prosecuting Attorney for the County of Hawaii, and one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that law enforcement officers on the island of Hawaii are in need of a facility to house and hold juvenile offenders in a safe and secure manner that consequently allows the law enforcement officers to proceed with their patrol duties. Your Committees affirm their support of the initiative and actions taken by the stakeholders, and pledge future support of continued efforts to establish and develop a Big Island Juvenile Intake and Assessment Center.

Your Committees have amended this measure by making technical, nonsubstantive changes for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 95, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 95, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1415      Judiciary and Government Operations on S.C.R. No. 76**

The purpose of this measure is to recommend that the Kapolei Court Complex be renamed the Ronald T.Y. Moon Judicial Complex in recognition of Chief Justice Moon's outstanding contributions to the State of Hawaii.

Your Committee received testimony in support of this measure. Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Honorable Ronald T.Y. Moon has devoted more than four decades to serving Hawaii's judiciary, as Circuit Court Judge, and as a distinguished Chief Justice of the Hawaii Supreme Court. Under Chief Justice Moon's leadership, Hawaii's judicial system has responded to the challenges of a rapidly growing state through innovative programs such as the Judicial Performance Project, the Committee on Jury Innovations for the Twenty-first Century, the Appellate Mediation Program, and the Access to Justice Committee.

Chief Justice Moon has been a strong advocate for the American principle of "Justice for All" by working to ensure equal access to the courts through his service as Chair of the Conference of Chief Justices' Access to and Fairness in the Courts Committee and Chair of the Americans with Disabilities Act Resource Center Advisory Committee, and vocal support of lawyers' pro bono service. Chief Justice Moon has been honored by the National Center for State Courts with that organization's Distinguished Service Award for longstanding contributions to the improvement of the justice system and support of the National Center's mission of leadership, service, and education.

Chief Justice Moon's unwavering support and tireless advocacy was instrumental in increasing access to the judicial system, especially for traditionally underserved communities on the Leeward Coast, by building the Kapolei Court Complex in West Oahu. The Kapolei Court Complex will increase access to the judicial system by relieving overcrowding, increasing public safety within the courthouse, providing a more convenient forum for the residents of West Oahu, and providing a location for services to the community.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 76 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 1 (Gabbard).

**SCRep. 1416      Judiciary and Government Operations on S.C.R. No. 131**

The purpose of this measure is to request the following agencies to prepare and conduct a joint study to assess the impact of illegal immigration on Hawaii's economy and public resources: Department of Labor and Industrial Relations, including the Hawaii Occupational Safety and Health Division and the Disability Compensation Division; Department of Taxation; Insurance Division of the Department of Commerce and Consumer Affairs; Department of Health; Department of Education; Corrections Division of the Department of Public Safety; Hawaii Public Housing Authority; Department of Human Services; and Department of Agriculture.

Your Committee finds that the State's current economic situation calls for more prudent state spending and improved enforcement of existing laws. Your Committee recognizes this measure as a step toward ensuring immediate investigation and enforcement actions to prevent the hiring of undocumented workers, recovering funds owed to the State by companies that are found to hire undocumented workers, and preventing companies found to employ undocumented workers from doing business in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 131, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1417      Judiciary and Government Operations on S.R. No. 86**

The purpose of this measure is to request the following agencies to prepare and conduct a joint study to assess the impact of illegal immigration on Hawaii's economy and public resources: Department of Labor and Industrial Relations, including the Hawaii

Occupational Safety and Health Division and the Disability Compensation Division; Department of Taxation; Insurance Division of the Department of Commerce and Consumer Affairs; Department of Health; Department of Education; Corrections Division of the Department of Public Safety; Hawaii Public Housing Authority; Department of Human Services; and Department of Agriculture.

Your Committee finds that the State's current economic situation calls for more prudent state spending and improved enforcement of existing laws. Your Committee recognizes this measure as a step toward ensuring immediate investigation and enforcement actions to prevent the hiring of undocumented workers, recovering funds owed to the State by companies that are found to hire undocumented workers, and preventing companies found to employ undocumented workers from doing business in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 86, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1418 Higher Education on S.C.R. No. 51**

The purpose of this measure is to urge the University of Hawaii System to identify its most important foundational courses to ensure that foundational courses are not adversely impacted by the current budget reductions during a period of increased enrollment.

Prior to the hearing, your Committee circulated a Proposed S.D. 1, which urged the Candidate Advisory Council for the Board of Regents to:

- (1) Convene a working group of students to develop and implement a modified process for the selection of the candidates for the student member of the University of Hawaii Board of Regents;
- (2) Establish a process to ensure student involvement in the recruitment and evaluation of candidates for the student member of the Board of Regents prior to submission of the candidate pool to the Governor;
- (3) Include in the working group representatives from each campus, the University of Hawaii Student Caucus, the Associated Students of the University of Hawaii, and other student organizations as may be appropriate; and
- (4) Report its findings and recommendations to the 2010 Legislature.

Testimony in support of this proposed measure was submitted by the University of Hawaii Student Caucus; Associated Students of the University of Hawaii, Honolulu Community College; Associated Students of Kapiolani Community College Student Congress; and three individuals. The University of Hawaii Regents Candidate Advisory Council and two individuals submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has amended this proposed measure by:

- (1) Amending the title to read: URGING THE REGENTS CANDIDATE ADVISORY COUNCIL FOR THE BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII TO CONVENE A WORKING GROUP OF STUDENTS AND OTHER APPROPRIATE PARTIES TO DEVELOP AND IMPLEMENT A MODIFIED PROCESS FOR THE SELECTION OF THE CANDIDATES FOR THE STUDENT MEMBER OF THE UNIVERSITY OF HAWAII BOARD OF REGENTS;
- (2) Deleting two WHEREAS clauses related to the length of the student member's term and diversity of the constituency;
- (3) Amending the participants in the working group to include the University of Hawaii Student Caucus, the Associate Vice President of Student Affairs for the University of Hawaii System, student life staff advisors from the various campuses, and other appropriate parties; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 51, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 51, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1419 Human Services on S.C.R. No. 90**

The purpose of this measure is to urge the United States Congress to oppose the proposed rule amendments published on April 10, 2008 in the Federal Register (73 Fed. Reg. 19708) that implement the Developmental Disabilities Assistance and Bill of Rights Act of 2000, and to support new sections in the upcoming reauthorization.

Testimony in support of this measure was submitted by two individuals. Testimony in opposition was submitted by the State Council on Developmental Disabilities and the Hawaii Disability Rights Center. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the proposed rule amendments aim to expand the powers of protection and advocacy agencies, which could have a negative impact on the environment in which people with disabilities and their families receive services and exercise their rights. Although the proposed rules are currently on hold due to technicalities and the administration change at the federal level, there is a concern that these rules may be revived as the Developmental Disabilities Assistance and Bill of Rights Act of 2000 is considered for reauthorization by the United States Congress in 2009.

Your Committee has amended this measure by:

- (1) Specifying the amendments to the Code of Federal Regulations opposed by this measure, including pinpoint citations; and

- (2) Making technical, nonsubstantive changes for clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 90, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 90, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1420 Human Services on S.R. No. 67**

The purpose of this measure is to urge the United States Congress to oppose the proposed rule amendments published on April 10, 2008 in the Federal Register (73 Fed. Reg. 19708) that implement the Developmental Disabilities Assistance and Bill of Rights Act of 2000, and to support new sections in the upcoming reauthorization.

Testimony in support of this measure was submitted by two individuals. Testimony in opposition was submitted by the State Council on Developmental Disabilities and the Hawaii Disability Rights Center. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the proposed rule amendments aim to expand the powers of protection and advocacy agencies, which could have a negative impact on the environment in which people with disabilities and their families receive services and exercise their rights. Although the proposed rules are currently on hold due to technicalities and the administration change at the federal level, there is a concern that these rules may be revived as the Developmental Disabilities Assistance and Bill of Rights Act of 2000 is considered for reauthorization by the United States Congress in 2009.

Your Committee has amended this measure by:

- (1) Specifying the amendments to the Code of Federal Regulations opposed by this measure, including pinpoint citations; and
- (2) Making technical, nonsubstantive changes for clarity.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 67, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 67, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1421 (Joint) Energy and Environment and Commerce and Consumer Protection on S.C.R. No. 23**

The purpose of this measure as received is to request the Department of Health to implement a statewide rainwater detention and retention pond safety program.

Prior to the hearing, your Committees circulated a proposed amended draft of S.C.R. No. 23, S.D. 1, which does the following:

- (1) Expresses support for promoting and accelerating the increased use and development of renewable power generation through feed-in tariffs;
- (2) Requests the Public Utilities Commission to adopt and implement true feed-in tariffs for clean energy systems up to twenty megawatts in size; and
- (3) Expresses support for the continuation of net energy metering in tandem with feed-in tariffs.

Testimony in support of this measure was submitted by three private organizations. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that feed-in tariffs will encourage the development of renewable energy by providing predictability and certainty with respect to the future rates to be paid for renewable energy. By ensuring predictability in renewable energy reimbursement rates, the prospects of attracting renewable energy producers as well as retaining those presently in production will be significantly enhanced.

Your Committees have amended this measure as received by replacing its title and contents with the contents of the proposed draft of S.C.R. No. 23, S.D. 1, which was circulated prior to this hearing.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 23, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 23, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 1422 Energy and Environment on Gov. Msg. No. 576**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF DIRECTORS OF THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY**

G.M. No. 576 MAKANI MAEVA, for a term to expire 6-30-2012.

Your Committee has reviewed the personal history and statement submitted by the nominee, and finds Makani Maeva to have the necessary qualifications to be nominated to the Board of Directors of the Natural Energy Laboratory of Hawai'i Authority (NELHA).

Testimony in support of the nomination of Ms. Maeva was submitted by the Senior Policy Advisor to the Governor, the Department of Land and Natural Resources, the Department of Business, Economic Development, and Tourism, and six individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Maeva received her Bachelor of Arts Degree in Humanities, with a minor in Business, from Pepperdine University in California. She is currently a Director with Pacific Housing Advisors, a company that provides independent financial consulting to developers of affordable housing projects throughout the United States, including Hawaii. Ms. Maeva runs the Honolulu office of Pacific Housing Advisors, and is also responsible for project development at Allied Pacific Development, Inc., which is active in a wide range of real estate development activities, including the development and management of projects in all real estate sectors. Ms. Maeva specializes in the acquisition, construction, and renovation of affordable housing projects using federal and state low income housing credits. In her development endeavors, she has been a strong advocate for using renewable energy systems to address energy issues with her projects. Significantly, her most recent project is located on the Kona Coast. Prior to her current position, Ms. Maeva was a Project Manager with Coastal Rim Properties.

Ms. Maeva is also actively involved in the community. She is a member of Housing Hawaii, which is a broad coalition of public, private, and nonprofit organizations dedicated to creating, preserving and supporting affordable housing through education and development. She has also been involved in the community through Windward Boys and Girls Club, the Kailua Hawaiian Civic Club, Kawaihao Church, and the Outrigger Canoe Club.

Ms. Maeva's impressive background in finance and business development, together with her knowledge of and experience with renewable energy technologies, will be a great asset to the NELHA Board of Directors.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 1423 Education and Housing on Gov. Msg. No. 417**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAI'I HOUSING FINANCE AND DEVELOPMENT CORPORATION (HFD)

G.M. No. 417 BETTY LOU LARSON, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Betty Lou Larson to have the necessary qualifications to be appointed to the Board of Directors of the Hawaii Housing Finance and Development Corporation.

Testimony in support of the nominee was submitted by three state agencies, one county agency, four private organizations, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Betty Lou Larson currently serves as Housing Assistance Program Director at Catholic Charities Hawaii, where she is responsible for elderly services and supervises two transitional housing projects. She has over twenty-seven years of experience in housing and homeless programs in Hawaii and is a strong advocate for those in need of affordable housing. Ms. Larson is a graduate of the University of Hawaii at Manoa, and holds two Masters Degrees, including a Masters of Social Work from the University. She is active in a number of community organizations, including Partners in Care, the Hawaii Pacific Gerontological Society, the Affordable Housing and Homeless Alliance, and Neighborhood Board No. 8 (McCully-Moillili), where she is currently Chair of the Housing and Homelessness Committee. Ms. Larson previously served on the Boards of the Housing and Community Development Corporation of Hawaii and the Hawaii Housing Finance and Development Corporation.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1424 Judiciary and Government Operations on Gov. Msg. No. 355**

Recommending that the Senate advise and consent to the nomination of the following:

CIVIL RIGHTS COMMISSION

G.M. No. 355 MARK G. VALENCIA, for a term to expire 6-30-2013.

Your Committee received testimony in support of Mark G. Valencia from the Senior Policy Advisor to the Governor and Hawai'i Civil Rights Commission. Testimony in opposition and comments were received from organizations and individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mark G. Valencia is an attorney with Case Lombardi Pettit. Previously he worked as a Policy Analyst with the Office of the Governor, and with the law firm of Damon Key Leong Kupchak Hastert. He specializes in advising large and small businesses in employment law matters involving hiring, termination, and discrimination issues. Mr. Valencia served as Law Clerk to the Honorable Walter S. Kirimitsu, Intermediate Court of Appeals, where he researched and drafted appellate opinions on a myriad of legal issues,

including medical malpractice, criminal law, wills and trusts, torts, contracts, real property, and statutory construction. The nominee also has experience as a law clerk for the Federal Public Defender, Northern District of Texas, where he researched and drafted memorandums involving federal constitutional law and criminal law. He received a Doctor of Jurisprudence degree from the Southern Methodist University School of Law, and a Bachelor of Arts degree in History from the University of Hawaii – West Oahu. The nominee has authored one law journal article about church-state development and American religious liberty.

Your Committee notes that in responding to questions regarding whether he will be fair and objective in making decisions in cases to be decided by the Civil Rights Commission, Mr. Valencia stated that he is determined to separate his personal beliefs from his adjudicatory functions, and will be sensitive to the difference.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

**SCRep. 1425 Judiciary and Government Operations on Gov. Msg. No. 346**

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION TO PROMOTE UNIFORM LEGISLATION

G.M. No. 346 LANI L. EWART, for a term to expire 6-30-2013.

Your Committee received testimony in support of the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Lani L. Ewart has been an attorney with the law firm of Goodwill Anderson Quinn & Stifel LLP, since 1977. She received a B.A. degree from the University of Hawaii at Manoa and a J.D. degree from the University of California at Berkeley. Ms. Ewart is licensed to practice law in both Hawaii and California. The nominee currently serves as a member of the Commission to Promote Uniform Legislation, where she serves as Chair and Executive Committee Member.

Your Committee notes the testimony of the nominee that her work on the Commission to Promote Uniform Legislation provides her with the opportunity to serve the people of Hawaii and best use her legal training and expertise. Ms. Ewart would like to continue with the good work of the Commission and address new problems that have arisen, and that will continue to arise in the future.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1426 Judiciary and Government Operations on Gov. Msg. No. 347**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLANDS OF KAUA'I AND NI'HAU

G.M. No. 347 RANDALL J. FRANCISCO, for a term to expire 6-30-2012.

Your Committee received testimony in support of Randall J. Francisco. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Randall J. Francisco is currently employed by the Kauai Chamber of Commerce. Mr. Francisco was previously employed by the State House of Representatives and the University of Hawaii Kapiolani and Leeward Community Colleges. Mr. Francisco received a Bachelor of Business Administration degree from the University of Hawaii at Hilo and a Masters in Education degree from the University of Hawaii at Manoa. He is currently a member of the Kauai Workforce Investment Board.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1427 Judiciary and Government Operations on Gov. Msg. Nos. 348 and 356**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF REGISTRATION OF THE ISLANDS OF MAUI, MOLOKAI, LANAI, AND KAHO'OLAWA

G.M. No. 348 JOHN F. HENRY, for a term to expire 6-30-2012; and

G.M. No. 356 GENE ZARRO JR., for a term to expire 6-30-2012.

Your Committee received testimony in support of each of the nominees. Written testimony presented to the Committee may be reviewed on the Legislature's website.

John F. Henry is self-employed as a photographer with John Henry Photography, Inc., which he has owned since 1984. Mr. Henry is certified by the Professional Photographers of America. He also holds a Master of Photography degree and Photographic Craftsman degree from the Professional Photographers of America and is an Approved Photographic/Imaging Instructor. The nominee is a member of several community and professional organizations and has received numerous photography awards.

Gene Zarro Jr. is a Mortgage Consultant with Maui Capital Group. He received a Bachelor's degree in Economics from Rutgers University with a minor in business. The nominee is a member of several community organizations.

Your Committee believes that the nominees have the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the records of votes of the members of your Committee on Judiciary and Government Operations that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1428 Judiciary and Government Operations on Gov. Msg. Nos. 344, 345, 353 and 354**

Recommending that the Senate advise and consent to the nominations of the following:

LANGUAGE ACCESS ADVISORY COUNCIL

G.M. No. 344 LITO M. ASUNCION, for a term to expire 6-30-2012;

G.M. No. 345 MARCELLA ALOHALANI BOIDO, for a term to expire 6-30-2013;

G.M. No. 353 MAUREEN N. RAWLINS, for a term to expire 6-30-2013; and

G.M. No. 354 MARY F. SANTA MARIA MS, MPH, for a term to expire 6-30-2012.

Your Committee received testimony in support of each of the nominees. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Lito M. Asuncion is currently a Program Planner with the Hawaii County Office of Aging. Previously, he was an Immigration Information Specialist with the Hawaii County Office of Management, and a Program Evaluator/Trainer with the Hawaii/American Samoa Bilingual Education Support Center. The nominee received Bachelor and Master of Arts degrees in Sociology, and a Master of Public Health in Gerontology from the University of Hawaii at Manoa. Mr. Asuncion is a member of several cultural community service and professional organizations. He is currently a member of the Language Access Advisory Council.

Mr. Asuncion is an active and well-known leader in the Filipino community on the Big Island. He has extensive experience and expertise in dealing with people of varied languages and cultures.

Marcella Alohalani Boido is currently a court-appointed interpreter for federal and state court, and has also worked for several federal agencies. Ms. Boido has also worked as a legal translator for the Office of the United States Attorney. The nominee received Masters and Bachelors of Arts degrees in political science from the University of Hawaii at Manoa, and was a doctoral student at the University of Hawaii at Manoa from 1985 to 1992. Ms. Boido has passed the Administrative Office of the United States Courts (AOUSC) Spanish/English interpreter certification examination, and the California Spanish/English court interpreter certification examination, as well as completed the Hawaii State Judiciary Court Interpreter Orientation Workshop. She also has experience teaching English as a second language and modern Hawaiian history. Ms. Boido is a member of several cultural community service and professional organizations, and has served on the Hawaii Supreme Court Committee on Certification of Court Interpreters.

Ms. Boido currently serves on the Language Access Advisory Council. She is the incoming president of the Hawaii Interpreter Action Network which has recommended her to represent them on the Council. The nominee has long been recognized among interpreters, both in Hawaii and nationally, for her expertise on interpreter issues.

Maureen N. Rawlins is currently the Director of 'Aha Punana Leo, a Hawaiian Language College Adjunct Assistant Professor and Chairperson of the Native Hawaiian Education Council. The nominee received a Bachelor's degree in Hawaiian Studies and is a candidate for a Masters' degree. She served as the Chairperson of the Native Hawaiian Education Council in 2007. Ms. Rawlins currently serves on the Language Access Advisory Council.

'Aha Punana Leo, of which Ms. Rawlins serves as Director, is a non-profit organization devoted to the preservation and propagation of the Hawaiian language and culture. This is the oldest statewide native organization in the United States that provides education through the Language Nests and Language Survival School model. Ms. Rawlins has been actively involved in the promotion and preservation of the Hawaiian language for over twenty years.

Mary F. Santa Maria MS, MPH, is currently a Public Health Educator IV with the Department of Health. She received a Bachelor's degree from the University of Texas at Austin, a Master's degree from Texas A&I University, and Master's in Public Health degree

from the University of Hawaii at Manoa. The nominee has experience in conducting trainings, workshops, and presentations on health issues, including training Department of Health employees on the use of interpreting services.

Ms. Santa Maria is involved with language access, medical interpreting training, and health services access for Limited English Proficiency persons at various community and state agencies.

Your Committee believes that the nominees have the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the records of votes of the members of your Committee on Judiciary and Government Operations that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1429      Judiciary and Government Operations on Gov. Msg. No. 351**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLAND OF HAWAII

G.M. No. 351    DELENE K. OSORIO, for a term to expire 6-30-2012.

Your Committee received testimony in support of Delene K. Osorio. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Delene K. Osorio is currently the Executive Director of the Big Island Housing Foundation. Previously, she served as Executive Officer of the Hawaii Island Board of Realtors, Hilo. She has been employed as a real estate broker by various companies. The nominee is a member of several community and professional organizations.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1430      Judiciary and Government Operations on Gov. Msg. No. 352**

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON THE STATUS OF WOMEN

G.M. No. 352    CAROL A. PHILIPS, for a term to expire 6-30-2013.

Your Committee received testimony in support of Carol A. Philips. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Carol A. Philips is the owner of North Shore Surf Girls and a surf instructor. She has experience as a substitute teacher for the Department of Education, and as a legislative aide in the Hawaii State Legislature. The nominee was also an Information Specialist in the Governor's Office and Executive Director of Empower North Shore Oahu. She currently serves on the Commission on the Status of Women and has served on the North Shore Neighborhood Board Number 27. Ms. Philips has a Bachelor's degree in Business Administration, Management and Operations from the University of Hawaii.

Your Committee notes from the testimony that Ms. Phillips has earned the trust and respect of fellow members of the Commission on the Status of Women for her sensitivity to the rights of all marginalized groups.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1431      Labor on Gov. Msg. No. 460**

Recommending that the Senate advise and consent to the nomination of the following:

HOISTING MACHINE OPERATORS ADVISORY BOARD

G.M. No. 460    JOAQUIN M. DIAZ, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Joaquin M. Diaz to have the necessary qualifications to be nominated to the Hoisting Machine Operators Advisory Board.

Testimony in support of the nomination of Mr. Diaz was submitted by one state agency and seven individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Diaz earned a Bachelor of Science degree in Occupational Safety and Health from Columbia Southern University. He is currently a Safety Director at Hawaiian Dredging Construction Company. His previous positions include Regional Safety Manager at Dick Pacific Construction Co., Ltd., and Safety Manager at M. Shiroma Construction Company. Mr. Diaz is a Certified Safety Professional, certified by the Board of Certified Safety Professionals, and a professional member of the American Society of Safety Engineers.

Mr. Diaz is an American Red Cross volunteer and served in the United States Marine Corps for nearly three years before being honorably discharged. He is highly experienced as a manager in the occupational safety and health fields. In addition to holding numerous credentials relating to occupational safety, he has also served as an OSHA Training Institute Instructor for the University of California – San Diego and Director of the Executive Committee for the local chapter of the American Industrial Hygiene Association, and has served as a member of several occupational safety-related committees.

Mr. Diaz is extremely well-qualified and possesses extensive experience in and a depth of knowledge of occupational safety and health issues. He is familiar with the issues facing both the Hoisting Machine Operators Advisory Board and the State in terms of occupational safety. Mr. Diaz would contribute valuable insights based on experience, and specific suggestions on ways to address those issues, which would make him an extraordinary asset to the Advisory Board.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1432 Labor on Gov. Msg. No. 361**

Recommending that the Senate advise and consent to the nomination of the following:

LABOR AND INDUSTRIAL RELATIONS APPEALS BOARD

G.M. No. 361 MELANIE S. MATSUI, for a term to expire 6-30-2018.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Melanie S. Matsui to have the necessary qualifications to be nominated to the Labor and Industrial Relations Appeals Board.

Testimony in support of the nomination of Melanie S. Matsui was submitted by one organization and thirty-one individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ms. Matsui earned Juris Doctorate and Bachelor of Science degrees from Willamette University. She is currently an Associate with Matsui Chung, representing employers in workers' compensation cases before the Department of Labor and Industrial Relations' Disability Compensation Division and Labor and Industrial Relations Appeals Board. She is a former Associate of Kessner Duca Umabayashi Bain & Matsunaga and Leroy T. Kuwasaki, Jr., AAL, ALC.

Ms. Matsui is a current member of the Labor and Industrial Relations Appeals Board. She is also active in the Haleiwa Jodo Mission and Haleiwa Jodo Mission Young Buddhist Association, and has previously served as a member of the Board of the Friends of the Cancer Research Center of Hawaii.

Ms. Matsui is highly esteemed as a hard-working and extremely capable attorney whose expertise, intelligence, and energy would continue to be valuable assets to the Labor and Industrial Relations Appeals Board.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1433 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 436 and 437**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF LAND AND NATURAL RESOURCES

G.M. No. 436 JERRY EDLAO, for a term to expire 6-30-2013; and

G.M. No. 437 SAMUEL M. GON III, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Jerry Edlao and Samuel M. Gon III to have the requisite qualifications to be nominated to the Board of Land and Natural Resources.

Testimony in support of the nomination of Jerry Edlao was submitted by one state agency, the Mayor of Maui County, seven organizations, and twenty-five public citizens.

Mr. Edlao owns Accu-Pest and Termite Control Services and has worked in the pest control industry since 1974. He is a member and Director of the Maui Contractors Association, Vice-President and Board member of the Hawaii Pest Control Association, Trustee and Chairman of the Kahului Union Church, and past Vice-President and training coordinator for the Valley Isle Kennel Club of Maui.

Mr. Edlao presently serves on the Board of Land and Natural Resources and satisfies the requirement that one member represent Maui County.

Mr. Edlao has a strong commitment to public service and has demonstrated effectiveness in dealing with the myriad of issues that come before the Board of Land and Natural Resources. He has been instrumental in initiating meetings with the public and acting as a liaison for the Division of Boating and Ocean Recreation. According to the Department of Land and Natural Resources Chairperson, Mr. Edlao's involvement ensured productive meetings to address controversial issues in a constructive manner on numerous occasions. Mr. Edlao stresses the importance of including the public in the process to provide an opportunity to ask questions before draft rules are promulgated. He also recognizes the difficult issues the Board of Land and Natural Resources faces, and focuses on an inclusive approach to consider public concerns in his decision-making.

Testimony in support of the nomination of Samuel M. Gon III was submitted by one state agency, two organizations, and thirty public citizens.

Dr. Gon received his Bachelor's degree in Zoology from the University of Hawaii at Manoa, and his Master's degree in Zoology and a Doctor of Philosophy degree in Animal Behavior from the University of California, Davis. He is presently employed as the Senior Scientist and Cultural Advisor at The Nature Conservancy of Hawaii and is an affiliate faculty member at the University of Hawaii at Manoa's Department of Urban and Regional Planning. Dr. Gon currently serves on the Board of Land and Natural Resources and satisfies the requirement that one member have a background in conservation and natural resources and represent Oahu.

Dr. Gon has over twenty-eight years of experience in research and conservation in Hawaii and has worked with private, state, and federal entities on a variety of conservation and land management projects. He brings a dual perspective to the Board of Land and Natural Resources as a western trained biologist and as a traditionally trained Hawaiian practitioner of oli and protocol. Dr. Gon supports sustainable use of Hawaii's resources, including protecting the native plants and animals, and keeping Hawaii's people on their ancestral lands. He stresses the need for immediate action to protect Hawaii's fragile ecosystem, asserting that rights to resources come with responsibilities.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Fukunaga, Hemmings).

**SCRep. 1434 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 516 and 517**

Recommending that the Senate advise and consent to the nominations of the following:

COMMISSION ON WATER RESOURCE MANAGEMENT

G.M. No. 516 SUMNER P. ERDMAN, for a term to expire 6-30-2013; and

G.M. No. 517 NEAL S. FUJIWARA, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Sumner P. Erdman and Neal S. Fujiwara to have the necessary qualifications to be nominated to the Commission on Water Resource Management.

Testimony in support of the nomination of Sumner P. Erdman was submitted by one state agency, four organizations, and eleven individuals.

Mr. Erdman earned a Bachelor of Arts degree from the University of Puget Sound. He also participated in the University of Hawaii's Agricultural Leadership Program and Stanford University's Executive Business Leadership Program. Since 1995, Mr. Erdman has served as the President of Ulupalakua Ranch, Inc., a cattle and elk operation on Maui.

Mr. Erdman has actively served on several boards and commissions. He is the Founding Director of the North American Elk Breeders Association, both Vice President and President of the Maui Cattlemen's Association and the Hawaii Cattlemen's Council, and Director of the Central Maui Soil and Water Conservation District. He has also served as a member of the state Board of Agriculture. Through his involvement with Ulupalakua Ranch and these boards and commissions, he has garnered extensive knowledge and experience with local water issues and finding resourceful means of conserving and managing water. Additionally, Mr. Erdman's commitment to and leadership on the stewardship of resources make him an excellent candidate for the Commission on Water Resource Management.

Testimony in support of the nomination of Neal S. Fujiwara was submitted by one state agency, two organizations, and thirteen individuals.

Mr. Fujiwara earned a Bachelor of Science degree in Agronomy/Plant Science from Utah State University. He worked for the United States Department of Agriculture Natural Resources Conservation Service (NRCS) for thirty-two years, serving as a Maui District Conservationist and managing programs on the islands of Maui, Molokai, Lanai, and Kahoolawe. In his capacity as a District Conservationist, Mr. Fujiwara administered programs to enhance and conserve water supplies, improve water quality, and reduce damage from floods and other natural disasters. Mr. Fujiwara performed his duties in partnership with other federal, state, and local government agencies, and he contributes this experience of building strong teams and community ties to the Commission on Water Resource Management.

Mr. Fujiwara has served as a member of the Commission on Water Resource Management since 2005. As a member of the Commission and through experiences with the NRCS, Mr. Fujiwara has been involved in the designation of Na Wai Eha on Maui, the first surface water management area in the State; the establishment of interim instream flow standards for East Maui; the adoption of the 2008 Water Resource Protection Plan; obtaining funding for the construction of Kahakapao Reservoirs in upcountry Maui; and other water use-related activities. Mr. Fujiwara's experience and technical knowledge make him an excellent nominee for a second term on the Commission.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Fukunaga, Hemmings).

**SCRep. 1435 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 532**

Recommending that the Senate advise and consent to the nomination of the following:

**MOLOKAI IRRIGATION SYSTEM WATER USERS ADVISORY BOARD**

G.M. No. 532 LYNN P. DECOITE, for a term to expire 6-30-2012.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Lynn P. DeCoite to have the necessary qualifications to be nominated to the Molokai Irrigation System Water Users Advisory Board.

Testimony in support of the nomination of Lynn P. DeCoite was submitted by one state agency, two organizations, and six individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mrs. DeCoite is the Owner/Manager of L & R Farm Ent. LLC, a sweet potato farm on Molokai. She has worked previously as a Ranch Handler for V-8 Ranch and Supervisor of George Mokuau Farms.

As an active farmer and user of the Molokai Irrigation System, Mrs. DeCoite is familiar with the needs and concerns of both users and the system. She is a volunteer Director of the Hikiola Cooperative and President of the Molokai Homestead Farmers Alliance. Mrs. DeCoite has also served the Molokai community in other capacities, including Chairperson of the Molokai Chamber Youth Entrepreneur Golf Tournament and Chair of the Molokai Christmas Light Parade. Mrs. DeCoite's dedication to the Molokai community, experience as a farmer and user of the Molokai Irrigation System, and involvement with the farming community make her an excellent candidate for the Molokai Irrigation System Water Users Advisory Board.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Fukunaga, Hemmings).

**SCRep. 1436 Health on Gov. Msg. No. 318**

Recommending that the Senate advise and consent to the nomination of the following:

**STATE COUNCIL ON DEVELOPMENTAL DISABILITIES**

G.M. No. 318 BEN S. DALAUIDAO II, for a term to expire 6-30-2012.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to developmental disabilities for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the State Council on Developmental Disabilities to which he has been nominated.

Your Committee received testimony supporting the nomination of Ben S. Dalauidao from the State Council on Developmental Disabilities and two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Dalauidao has been serving on the State Council on Developmental Disabilities since July 2008, and is an active member of the Council's Employment and Education Committee, who has diligently worked to increase employment options and promote individualized school transitions to post-secondary options for individuals with developmental disabilities. A motivated member of the East Hawaii Developmental Disabilities Committee and an aspiring leader who has contributed to the establishment of a statewide self-advocacy network, Mr. Dalauidao has provided valuable insight and support to individuals with developmental disabilities who are striving to become their own advocates and leaders in the community. He is a graduate of the Partners and Policy Making Academy 24 and is an individual with a developmental disability, who helps to fulfill the requirement that sixty per cent of the membership of the Council comprise individuals with developmental disabilities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1437 Health on Gov. Msg. No. 326**

Recommending that the Senate advise and consent to the nomination of the following:

STATE COUNCIL ON MENTAL HEALTH

G.M. No. 326 ALVA K.O. KANEAIKALA, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to mental for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on her credentials, integrity, and a desire to make Hawaii better through her participation on the State Council on Mental Health to which she has been nominated.

Your Committee received testimony supporting the nomination of Alva K.O. Kaneaikala from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Currently, serving in her first term as a member of the State Council on Mental Health, Alva K.O. Kaneaikala fulfills the requirement for a family representative on the Council. As a retired Registered Nurse previously employed in hospitals in Hawaii and on the mainland, and the mother of two sons with severe and persistent mental illness, Ms. Kaneaikala brings a wealth of knowledge and experience to the Council. She is a valued member who has actively represented the mental health concerns of the West Hawaii locale in which she resides.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1438 Health on Gov. Msg. No. 334**

Recommending that the Senate advise and consent to the nomination of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, KAUA'I SERVICE AREA BOARD

G.M. No. 334 DAVID MOYLES, for a term to expire 6-30-2010.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to mental health and substance abuse for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Mental Health and Substance Abuse, Kaua'i Service Area Board to which he has been nominated.

Your Committee received testimony supporting the nomination of David Moyles from the Department of Health

Written testimony presented to the Committee may be reviewed on the Legislature's website.

David Moyles is President of the Board of Directors of Friendship House, a Clubhouse Model psychiatric rehabilitation program for people who have experienced severe or enduring mental illness. The members of Friendship House work in partnership with staff in a "work-ordered" day to make the decisions and undertake the work necessary to operate the Clubhouse. In addition, Friendship House offers various employment programs for members to obtain jobs in the community, a supported education program to assist members with their educational goals, and an active social program. Mr. Moyles has also worked on Kauai as the Coordinator for Kauai WalkAmerica and a Mathematics and Reading Tutor at Kapaa Elementary and Middle schools, among other things. He also has expertise in a variety of computer hardware and software, including PC-based Compass Learning Programs. Mr. Moyles fulfills the requirement for a consumer representative on the Kauai Service Area Board.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1439 Health on Gov. Msg. Nos. 317, 325 and 337**

Recommending that the Senate advise and consent to the nominations of the following:

RADIOLOGIC TECHNOLOGY BOARD

G.M. No. 317 LARRY A. CARNES, for a term to expire 6-30-2012;

G.M. No. 325 LORI H. O. KAMIKAWA RT, for a term to expire 6-30-2013; and

G.M. No. 337 STEIN E. RAFTO MD, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to radiologic technology for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Radiologic Technology Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination Larry A. Carnes from the Department of the Army - Tripler Army Medical Center and two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Carnes will be an excellent resource for the Radiologic Technology Board. He has worked in the radiologic technology field since 1990 and is currently employed at Tripler Army Medical Center where he is responsible for the diagnostic quality of routine and special radiographic images, as well as fluoroscopic studies. Mr. Carnes brings a wealth of experience in radiography to the board and his knowledge in the field of radiologic technology will be an asset to the board in the future.

Ms. Kamikawa continues to be a positive influence for the Radiologic Technology Board on which she has served since July 2003. She has been working in the radiologic technology field since 1982 and is currently employed at Castle Medical Center where she performs general radiology, mammography, portable radiography and fluoroscopy. Ms. Kamikawa has made significant contributions in the past, and her extensive experience in radiography and mammography has been advantageous. Her re-appointment will make a positive impact to the board.

Dr. Rafto has provided valuable direction for the Radiologic Technology Board on which he has served since July 2003. He has been a licensed physician since 1983 and is presently working as a staff radiologist for Kaiser Permanente Hawaii. His extensive knowledge of radiology has been very useful to the board on many occasions in the past particularly involving the expectations of radiologists with respect to the technical competency of radiologic technologists, new modalities and its effect on radiologic technology training, and the importance of licensing according to national credentials. Dr. Rafto's re-appointment will be a positive benefit to the board's effectiveness.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1440 Health on Gov. Msg. Nos. 338 and 430**

Recommending that the Senate advise and consent to the nominations of the following:

**DRUG PRODUCT SELECTION BOARD**

G.M. No. 338 ANGEL B. RAMOS, for a term to expire 6-30-2013.; and

G.M. No. 430 VENKATARAMAN BALARAMAN, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to drug product selection for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Drug Product Selection Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Dr. Venkataraman Balaraman by Kapi'olani Medical Specialists and two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Ramos has been capably serving the Board as the representative for the Department of Health since April 2006. He is currently an inspector for the Food and Drug Branch, conducting food safety inspections. Previous duties with the Branch included being temporarily assigned to the Prescription Drug Safety Specialist position. In that capacity, Mr. Ramos attended and supported the Board in carrying out their duties.

Dr. Balaraman has represented the University of Hawaii, John A. Burns School of Medicine as member of the Board since April 2005. As an Associate Professor in the Department of Pediatrics and his experience as a practicing physician in pediatric medicine, he brings a unique and valued perspective to the Board.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1441 Health on Gov. Msg. No. 332**

Recommending that the Senate advise and consent to the nomination of the following:

**EMERGENCY MEDICAL SERVICES ADVISORY COMMITTEE**

G.M. No. 332 DAVID F. MOORE MD, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to emergency medical services for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Emergency Medical Services Advisory Committee to which he has been nominated.

Your Committee received testimony supporting the nomination of Dr. David F. Moore from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

David Moore, M.D., is an emergency physician who is currently the medical director for American Medical Response. He previously worked at Wilcox Memorial Hospital on Kauai and was formally the EMS District Medical Director for the State's EMS program for the County of Kauai.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1442 Health on Gov. Msg. No. 269**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF CERTIFICATION OF PUBLIC WATER SYSTEM OPERATORS**

G.M. No. 269 JEFFREY T. PEARSON, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to the certification of public water system operators for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Certification of Public Water System Operators to which he has been nominated.

Your Committee received testimony supporting the nomination of Jeffrey T. Pearson from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Pearson has fifteen years of professional engineering experience in both the public and private sectors. His various positions have provided him with experience in the design and operation of both water and wastewater facilities. Prior to his current position, Mr. Pearson served as Deputy Director of the Maui Department of Water Supply where he was responsible for the work of both the water treatment plant operators and the distribution system operators.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1443 Health on Gov. Msg. No. 321**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF DIRECTORS OF THE HAWAII HEALTH SYSTEMS CORPORATION**

G.M. No. 321 ANDREW DON MD, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to the Hawaii Health Systems Corporation for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Directors of the Hawaii Health Systems Corporation to which he has been nominated.

Your Committee received testimony supporting the nomination of Dr. Andrew Don from the Hawaii Health Systems Corporation Oahu Region, Hawaii Health Systems Corporation, and two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Dr. Don has a record of achievement in his medical profession and as a community advocate for access to quality health care to neighbor islands and rural communities. He is currently Chair of the HHSC Board of Directors and serves with leadership skills that encourage discussion, understanding and decision-making on complex issues that must be addressed to assure more efficiency in system and regional operations and structure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Ayes with Reservations, 1 (Baker). Noes, none. Excused, 1 (Hemmings).

**SCRep. 1444 Health on Gov. Msg. No. 272**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF CERTIFICATION OF OPERATING PERSONNEL IN WASTEWATER TREATMENT PLANTS

G.M. No. 272 DANA P. RIDDLE, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to the certification of operating personnel in wastewater treatment plants for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Certification of Operating Personnel in Wastewater Treatment Plants to which he has been nominated.

Your Committee received testimony supporting the nomination of Dana P. Riddle from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Dana P. Riddle is a Grade-4 certified wastewater treatment plant operator with the County of Hawaii and is currently working at the Kealakehe Wastewater Treatment Plant in Kona, Hawaii. He has over thirty years of operation and maintenance experience having worked at both water and wastewater facilities in Hawaii as well as in Georgia. He has been a member of the Board for the past year and represents operators from the Big Island.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1445 Health on Gov. Msg. No. 342**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF HEALTH

G.M. No. 342 DICK E. SMITH REHS, MPH, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to health care for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Health to which he has been nominated.

Your Committee received testimony supporting the nomination of Dick E. Smith from five individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Mr. Smith retired in 1996 as a state of California Registered Environmental Health Specialist, after a 32 year career working for three different local health departments in the State of California. This included traditional environmental health programs such as food, water, sewage, solid waste and land development. The last ten years were managing hazardous materials, hazardous waste, and biohazardous waste enforcement programs.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1446 Health on Gov. Msg. No. 341**

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, TRI-ISLE SUBAREA

G.M. No. 341 VALERIE L. SIMONSEN ND, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to health planning for the people of Maui county. Your Committee further finds that the nominee has been appointed based on her credentials, integrity, and a desire to make Hawaii better through her participation on the Health Planning Council, Maui County Subarea, to which she has been nominated.

Your Committee received testimony supporting the nomination of Dr. Valerie L. Simonsen from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Dr. Simonsen is a licensed naturopathic physician and received her doctorate in naturopathic medicine from the National College of Naturopathic Medicine in Portland, Oregon. For many years she has served the Maui community with complementary medicine and has been an active and contributing member of the Tri-Isle Subarea Health Planning Council for four years.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1447 Health on Gov. Msg. No. 315**

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, HONOLULU SUBAREA

G.M. No. 315 WILLIAM B. BAILEY, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to health planning for the people of Honolulu subarea. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Health Planning Council, Honolulu Subarea, to which he has been nominated.

Your Committee received testimony supporting the nomination of William B. Bailey from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Bailey is the General Manager of American Medical Response Hawaii (AMRH) and oversees its ambulance service operations. He holds a Bachelor's degree in biology and psychology from Occidental College. He is an active volunteer and serves on various organizations relating to his professional and community interests. In addition to his AMRH responsibilities, Mr. Bailer is an active member of the Hawaii emergency medical community and is President of the Keiki Injury Prevention Committee (KIPC). Mr. Bailey served eight years on the Statewide Health Coordinating Council and he is seeking reappointment to the Honolulu Subarea Health Planning Council.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1448 Health on Gov. Msg. Nos. 314, 328 and 343**

Recommending that the Senate advise and consent to the nominations of the following:

STATEWIDE HEALTH COORDINATING COUNCIL

G.M. No. 314 ANDREW P. ANCHETA MPH, for a term to expire 6-30-2013;

G.M. No. 328 CREIGHTON K.K. LIU, for a term to expire 6-30-2013; and

G.M. No. 343 PATRICIA U. WONG, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to health care for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Statewide Health Coordinating Council to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Patricia U. Wong by Goodwill Industries of Hawaii, Inc., Hawaiian Telcom, Hawaii Electric Light Company, Inc., Maui Electric Company, Ltd., Hawaii Central Credit Union, Benefit Plan Solutions, Inc., Shidler College of Business at the University of Hawaii at Manoa, and six individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Ancheta is the Operations Manager for the American Medical Response Ambulance for Oahu and has over twenty years of experience in the Emergency Medical Services industry. He holds a Master of Public Health degree and Bachelor of Arts degree from the University of Hawaii at Manoa. He has been an active member of the Statewide Health Coordinating Council over the past few years.

Mr. Liu is a member of the health care community and is currently employed by HMSA as a Business Relationship Manager. Previously, Mr. Liu served as Director of Strategic Planning at Kaiser Permanente in Hawaii and Planning Manager at Kapiolani Health Care System. He has been a contributing member to the West Oahu Subarea Health Planning Council and currently serves as member of the Statewide Health Coordinating Council. Mr. Liu has a Bachelor's of Arts and Master's of Arts degree in Business Administration.

Ms. Wong serves as Hawaiian Electric Industries, Inc.'s Vice President-Administration and Corporate Secretary. Prior to this, she was a Litigation Associate with Cades Schutte Fleming and Wright. Ms. Wong is engaged in a number of community service programs and currently serves on the Executive Committee of the Goodwill Industries and the Honolulu Symphony Campaign Cabinet.

She has previously served on the Hawaii Employers Council Board of Governors; the YWCA Leader Luncheon; and the Mayor's Review Team. She is currently the Vice Chair of the Statewide Health Coordinating Council.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1449 Health on Gov. Msg. Nos. 322 and 339**

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, WEST OAHU SUBAREA

G.M. No. 322 NANCY A. FRAZIER, for a term to expire 6-30-2012; and

G.M. No. 339 FREDERICK SHAW, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to health planning for the people of the West Oahu subarea. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Health Planning Council, West Oahu Subarea, to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination Nancy A. Frazier from St. Francis Residential Care Community and Community Health Services, Aloha Medical Mission, and one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ms. Frazier is a Parish Nurse with the St. Francis Healthcare System and conducts outreach in the community. Prior to this position, Ms. Frazier was employed by Pacificare and Kaiser Permanente. She is a graduate of the Kapiolani Community College's nursing program and has been a registered nurse for over thirty years. Ms. Frazier worked as a volunteer with the Aloha Medical Mission for eight years with special concerns for the needs of children living in rural areas and the economically disadvantaged.

Mr. Shaw is a Senior Analyst with Kaiser Permanente. He has also served as a database analyst for Aloha Care and Information Center Manager and Finance Manager for Waianae Coast Comprehensive Health Center. Mr. Shaw has been an active volunteer in the community serving as Vice President of Waianae Coast Community Mental Health Center; member of the Finance Committee of the Native Hawaiian Health Care Act Oahu Planning Committee; and board member of the Waianae Coast Coalition for Human Services. As a resident of West Oahu, a professional in the health care management and a community volunteer, Mr. Shaw is well aware of the critical healthcare issues faced by residents.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1450 Higher Education on Gov. Msg. Nos. 310 and 468**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 310 ERIC K. MARTINSON, for a term to expire 6-30-2009; and

G.M. No. 468 ERIC K. MARTINSON, for a term to expire 6-30-2014.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Eric K. Martinson to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the Office of Hawaiian Affairs; Hawaiian Host; Central Pacific Bank, Island Insurance; Sopogy, Inc.; Grant Thornton, LLP; Japanese Cultural Center of Hawaii; Kobayashi, Sugita & Goda; and five individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Eric K. Martinson is Managing Director and Vice President of Tradewind Capital Group, Inc., an investment subsidiary of Island Holding, Inc., engaged in real estate and private equity investment and asset management. Prior to this position, Mr. Martinson was Co-Founder and Managing Director of MN Capital Partners, LLC, from 1997-2006. He also served as Director of the Financial Asset Division of Kamehameha Schools Bernice Pauahi Bishop Estate from 1984-1997, and as a financial and investment analyst. Mr. Martinson is a graduate of the University of Hawaii at Manoa with a Bachelor of Business Administration in Finance, and holds a Master of Business Administration from the Duke University Fuqua School of Business. In addition to his extensive career in finance, Mr. Martinson is active in many business and community organizations, including serving as a member of the Boards of Directors of Hoike Holdings LLC, Sopogy, Inc., and Enterprise Honolulu; as a Mentor for the Hawaii Business Entrepreneur and Acceleration Mentors (HiBEAM); and as Administrator of several commemorative scholarship funds. His past leadership activities include, but are not limited to, Chairman of the Steering Committee for the Hokulea Voyage to Micronesia and Japan, member of the Committee to Save the Japanese Cultural Center of Hawaii, and Business Mentor for the Native Hawaiian Chamber of Commerce.

Your Committee discussed a number of critical issues with Mr. Martinson, including the challenges of balancing a declining budget with commitments to University areas of excellence, increasing alumni financial support, and opportunities for the University as a result of federal economic stimulus packages. Your Committee has also reviewed Mr. Martinson's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Takamine).

**SCRep. 1451 Higher Education on Gov. Msg. No. 309**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 309 CHUCK YIM GEE, for a term to expire 6-30-2010.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Chuck Yim Gee to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the City and County of Honolulu's Office of the Mayor; Hong Kong China Hawaii Chamber of Commerce; Kuakini Health System; Kingdom Hotel Investments; Wailana Coffee House; V2 Leadership Group, Inc.; Global Education Trust; Coldwell Banker Pacific Properties; and six individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Chuck Yim Gee is currently a Consultant and Advisor in the areas of international tourism, hotel investment, and human resources. Prior to his current work, Mr. Gee served as the Dean of the School of Travel Industry Management at the University of Hawaii Manoa from 1976-2000, and as Associate Dean and Professor from 1968-1975, and was honored with the title of Dean Emeritus upon his retirement. Mr. Gee has also provided his expertise as Interim Dean, College of Business, University of Hawaii at Manoa from 1998-2000 and served for many years as Advisor to the East-West Center Institute of Technical Exchange Tourism Training Program. Mr. Gee is a graduate of the University of Denver, and holds a Master's Degree from Michigan State University. As a result of his extensive experience, he has been appointed three times to the fifteen-member Travel and Tourism Advisory Board of the United States Department of Commerce, and was a delegate representing the State of Hawaii at the first White House Conference on Travel and Tourism in 1995. Mr. Gee has played an active role in many professional and community organizations, including but not limited to the Pacific Asia Travel Association, Board of Directors of Kuakini Health System, and the Mayor's Advisory Committee for the Oahu Strategic Tourism Plan.

Your Committee discussed several critical issues with Mr. Gee from his perspective based on his many years as Dean, including the challenges facing the next President of the University of Hawaii, projected tuition increases, and how the system can better respond to current and future challenges. Your Committee has also reviewed Mr. Gee's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Takamine).

**SCRep. 1452 Higher Education on Gov. Msg. No. 308**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 308 MARK H. FUKUNAGA, for a term to expire 6-30-2011.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Mark Fukunaga to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the City and County of Honolulu's Office of the Mayor; First Hawaiian Bank; Central Pacific Bank; Punahou School; Outrigger Enterprises Group; Hawaii Children's Discovery Center; Dgm Group; Hawaii National Bank; Honolulu Japanese Chamber of Commerce; KCAA Preschools of Hawaii; Chun, Kerr, Dodd, Beaman & Wong; and four individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mark Fukunaga is Chairman and Chief Executive Officer of Servco Pacific, Inc., a company he has been associated with in various corporate officer positions since 1988. At Servco Pacific, Inc., Mr. Fukunaga is responsible for approximately 1,100 employees in Hawaii and Australia, and management of revenues of \$650,000,000. Prior to that, he was a Corporate Attorney with a law firm in New York. Mr. Fukunaga is a graduate of Pomona College in California and holds a law degree from the University of Chicago Law School. In addition to his professional expertise, he is active in a wide range of professional and community organizations. Mr.

Fukunaga is a member of several corporate boards, including Outrigger Enterprises, Inc., Nippon Golden Network, and Hoku Scientific, among others. He is also actively involved in community organizations ranging from the Children's Discovery Center, Hawaii Business Roundtable, Honolulu Academy of Arts, Salvation Army, and University of Hawaii Foundation. In addition, he serves as a Trustee of Pomona College as a member of an investment committee that oversees a \$1,300,000,000 endowment, and a Trustee of Punahou School, where he is Chair of the Finance Committee.

Your Committee discussed a wide range of issues with Mr. Fukunaga, including his experiences in bringing business education to high school students, his fundraising expertise, his views on the role of sports at the University and whether sports might be expanded system wide, and how to bring about increased involvement of the community in the life of the University. Your Committee has also reviewed Mr. Fukunaga's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Takamine).

**SCRep. 1453 Higher Education on Gov. Msg. No. 307**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 307 RAMON S. DE LA PENA PHD, for a term to expire 6-30-2012.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Ramon S. de la Pena to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the Kauai County Office of the Mayor; Kauai Filipino Chamber of Commerce; National Federation of Filipino American Associations, Region 12; Filipino Coalition for Solidarity; Oahu Filipino Community Council; Filipino American Citizens League; A&B Properties, Inc.; Northrup Grumman; Pecson & Associates; and three individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ramon S. de la Pena, Ph.D., is an Emeritus Agronomist and Professor, University of Hawaii. Dr. de la Pena has an extensive and distinguished career as an agronomist, and has been associated with the University of Hawaii since the 1960s. He holds a Bachelor of Science in Agriculture from the University of the Philippines, and master's and doctorate degrees from the University of Hawaii at Manoa. Dr. de la Pena worked as a Research Agronomist at the Kauai Experiment Station from 1967 until his retirement in 2001, where he conducted research on tropical crop production with an emphasis on taro production and improvement. He has published over eighty-five scientific papers in tropical agriculture, and throughout his career, has served as a mentor to high school students on Kauai. Dr. de la Pena is also active in numerous community organizations, including the Kauai Filipino Chamber of Commerce, and the Kauai Pangasinan Association, and has served on the County of Kauai Charter Review Commission, County of Kauai Planning Commission, and County of Kauai Office of Elderly Affairs Policy Board. He is a reappointment to the Board of Regents, where he has served since 2004.

Your Committee discussed several critical issues with Dr. de la Pena, including the importance of research and research funding for the University of Hawaii System, the cultural considerations that may be arise during the research process, and the opportunities for the University related to federal funding in energy and renewable energy projects and research. Your Committee has also reviewed Dr. de la Pena's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Takamine).

**SCRep. 1454 Transportation, International and Intergovernmental Affairs on Gov. Msg. No. 567**

Recommending that the Senate advise and consent to the nomination of the following:

MEDICAL ADVISORY BOARD

G.M. No. 567 DAVID M. SAITO MD, for a term to expire 6-30-2011.

Your Committee received testimony in support of David M. Saito, M.D. from the Department of Transportation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Dr. Saito is in private practice. He is currently serving on the Medical Advisory Board. Dr. Saito received a Doctor of Medicine degree from the University of Hawaii John A. Burns School of Medicine, and a Bachelor of Science degree in Biomedical Engineering from the Case Western Reserve University. He is a member of several professional medical associations and has hospital affiliations at all the major hospitals on Oahu.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1455 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 593**

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLAND OF OAHU

G.M. No. 593 CAROLYN KEHAUNANI ABAD, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Carolyn Kehaunani Abad to have the requisite qualifications to be nominated to the Island Burial Council, Island of Oahu.

Testimony in support of the nomination was submitted by one state agency and two public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Dr. Abad received her Bachelor's degree in Secondary Education and Anthropology, her Master's degree in Anthropology, and her Doctor of Philosophy in Hawaiian Archaeology from the University of Hawaii at Manoa. She is presently employed as the Director for Kamehameha Publishing and the Hawaiian Cultural Specialist for Hookahua (Hawaiian Cultural Development Office) with Kamehameha Schools, and is an affiliate Graduate Faculty member for the University of Hawaii at Manoa Anthropology Department. Dr. Abad currently serves on the Island Burial Council, Island of Oahu and satisfies the requirement that a member represent a large landowner and developer.

Dr. Abad will represent Kamehameha Schools on the Island Burial Council, Island of Oahu. She has a strong personal commitment to ensuring that human remains and burial goods are treated with the utmost respect and, in the cases of Hawaiian individuals, in accordance with Hawaiian cultural values. Dr. Abad has extensive experience in Hawaiian cultural matters, including burials, from her personal upbringing, community involvement, academic training, and professional roles.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1456 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 594 and 595**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF LAND AND NATURAL RESOURCES

G.M. No. 594 DAVID C. GOODE, for a term to expire 6-30-2010; and

G.M. No. 595 JOHN MORGAN, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds David C. Goode and John Morgan to have the requisite qualifications to be nominated to the Board of Land and Natural Resources.

Testimony in support of the nomination of David C. Goode was submitted by one state agency, one Maui County Council member, five organizations, and seven public citizens.

Mr. Goode received his Bachelor's degree in Electrical Engineering from the University of California, Santa Barbara. He is presently employed as President of KSD Hawaii, and he serves as President of the Board for the Maui Contractors Association, is Vice President of the Board of the Carden Academy of Maui, and is a coach and referee for the American Youth Soccer Organization. Mr. Goode was a member of the Hawaii 2050 Sustainability Task Force, member of the Board for the Maui Symphony Orchestra, Chair of the Architecture Review Committee for the Kulamanu Community Association, and President of the Tri-Isle Resource Conservation and Development District.

As the former Director and Deputy Director of the Maui County Department of Public Works and Waste Management, Mr. Goode worked closely with the county council, the public, and the employees to implement actions focused on delivering better public services while improving the environment. He has a demonstrated commitment to the community and brings a unique understanding of land and natural resource management issues from his experience in both the private and public sectors.

Testimony in support of the nomination of John Morgan was submitted by two state agencies, twelve organizations, and three public citizens.

Mr. Morgan attended the University of Hawaii and the University of Oregon, majoring in Economics. He is presently employed as the President of Kualoa Ranch Hawaii, Inc. Mr. Morgan satisfies the requirement that a member represent Oahu. He volunteers with the Hawaii Visitor and Convention Bureau, the Hawaiian Mission Children's Society, and the Oahu Cemetery, and he is a member of

the Hawaii Cattlemen's Council, Inc. and the Activities and Attractions Association of Hawaii. Mr. Morgan has served on the Trust for Public Land Hawaiian Islands Advisory Board, the Board of Directors of the Bishop Museum, the Board of Directors of the Hawaii Nature Center, and as a member and Chairperson of the Kaneohe Bay Regional Council.

Mr. Morgan began his career with Kualoa Ranch in 1973 as a part-time laborer, and in 1981 he was promoted to manager. In 1985, he started a diversified recreation operation at Kualoa Ranch including tours and activities in agriculture, outdoor recreation, education, and Hawaiian culture. Kualoa Ranch, which is designated on the National Register of Historic Places, demonstrates how thoughtful planning and vision can balance preservation, heritage tourism, economic development, and land stewardship. Mr. Morgan's broad experience with land and resource management, excellent reputation in the livestock industry, and personal judgment make him an invaluable asset for the Board of Land and Natural Resources.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1457 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. No. 560**

Recommending that the Senate advise and consent to the nomination of the following:

KAHO'OLAWE ISLAND RESERVE COMMISSION

G.M. No. 560 COLETTE Y. P. MACHADO, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Colette Y.P. Machado to have the requisite qualifications to be nominated to the Kahoolawe Island Reserve Commission.

Testimony in support of the nomination was submitted by two state agencies, one state commission, and two public citizens. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Machado received her Bachelor's degree in Education from the University of Hawaii at Manoa. She is presently employed as the President and Executive Director of Ke Kuaaina Hanauna Hou and a Trustee for the Office of Hawaiian Affairs representing Molokai and Lanai. Ms. Machado satisfies the requirement that a member represent the Office of Hawaiian Affairs.

Ms. Machado serves on the Molokai Action Team, is President of the Molokai Hawaiian Academy of Knowledge, and is a member of Hui Alaloha Inc. and Phi Lambda Theta-Beta Zeta Chapter, Honor Sorority for Professional Women in Education.

Her involvement with the preservation of Kahoolawe is extensive. Ms. Machado has been a member of Protect Kahoolawe Ohana since 1980 and is a Board Director and Treasurer for the Protect Kahoolawe Fund. She served as a member and Chair of the Kahoolawe Island Reserve Commission from 1994 to 2005. Ms. Machado possesses the institutional knowledge of the negotiated agreements between the United States Navy and the State, experience with the fiscal and administrative history, and the qualifications to return to the Kahoolawe Island Reserve Commission.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1458 Water, Land, Agriculture and Hawaiian Affairs on Gov. Msg. Nos. 596 and 597**

Recommending that the Senate advise and consent to the nominations of the following:

LAND USE COMMISSION

G.M. No. 596 THOMAS P. CONTRADES, for a term to expire 6-30-2013; and

G.M. No. 597 NICHOLAS W. TEVES JR., for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Thomas P. Contrades and Nicholas W. Teves Jr. to have the requisite qualifications to be nominated to the Land Use Commission.

Testimony in support of the nomination of Thomas P. Contrades was submitted by one Hawaii State House Representative, one state agency, one state commission, and the Kauai County Mayor.

Rev. Contrades attended Chaminade University. He is retired after twenty-two years as a Business Agent with the International Longshore and Warehouse Union Local 142, Kauai Division. Rev. Contrades is President of the Board for Na Kupaa O Kuhio, Vice President of the Aloha Council – Boy Scouts of America, an Advisory Board Member of Hale Opio Kauai, Inc., and a Lector and ordained Deacon of the Diocese of Hawaii for the Immaculate Conception Catholic Church. He currently serves on the Land Use Commission and satisfies the requirement that a member represent Kauai.

Rev. Contrades received the Silver Beaver Award in 1994 from the Aloha Council – Boy Scouts of America, the George Meany Award in 1992 from the Boy Scouts of America National Council, the First Lady's Outstanding Volunteer Award for Hawaii in 1992,

and the District Award of Merit – Kauai District from the Boy Scouts of America. He has had extensive community involvement including as a member of the Hawaiian Homes Commission, as a Board member for Kauai Economic Opportunity, Inc., as a Board member for United Way of Kauai, and as Chair of the County of Kauai Planning Commission. Rev. Contrades' strong professional and community background is of tremendous benefit to the Land Use Commission.

Testimony in support of the nomination of Nicholas W. Teves Jr. was submitted by one state agency and one state commission. Testimony in opposition was submitted by one public citizen.

Mr. Teves is presently employed as President and Electrical Contractor for Commercial Electric, Inc. Mr. Teves is President of the Pacific Electrical Contractors Association and a Board member for the Sand Island Business Association. He currently serves on the Land Use Commission and satisfies the requirement that a member represent Oahu.

Mr. Teves is a lifelong resident of Hawaii and is aware of the unique natural and cultural resources of Hawaii. He is also a successful small businessman, who has operated through several full economic cycles. Mr. Teves brings this important perspective to the Land Use Commission, and has demonstrated patience, competence, and an ability to balance efficiency and process. He focuses on balancing protecting natural and cultural resources and promoting appropriate economic development.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Fukunaga, Takamine, Hemmings).

**SCRep. 1459 Labor on Gov. Msg. No. 586**

Recommending that the Senate advise and consent to the nomination of the following:

HOISTING MACHINE OPERATORS ADVISORY BOARD

G.M. No. 586 EDWARD G. SANCHEZ, for a term to expire 6-30-2012.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Edward G. Sanchez to have the necessary qualifications to be appointed to the Hoisting Machine Operators Advisory Board.

Testimony in support of the nomination of Edward G. Sanchez was submitted by one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Sanchez worked for eight years as a Crane Operator Supervisor, operating portal, floating, truck, hydraulic, and bridge cranes. Prior to that position, Mr. Sanchez worked as a Crane Load Test Director, working with Category 1, 2, and 3 cranes; a Training Leader/License Examiner; and a Crane Operator Supervisor/License Examiner. He served in the United States Army in Vietnam operating heavy equipment and mobile truck cranes loading explosive ammunition.

Mr. Sanchez has served his community through his contributions on a special project for the neighborhood board to close a park entrance easement that was a high-crime area and return the property back to its owners. Although Mr. Sanchez is retired, he maintains an interest in crane operations and a concern for the proper operation of cranes. Mr. Sanchez believes in the importance of tracking crane operators' qualifications and certifications and would contribute to the Hoisting Machine Operators Advisory Board important ideas on improving the operation of cranes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1460 Labor on Gov. Msg. Nos. 513 and 514**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF TRUSTEES OF THE DEFERRED COMPENSATION PLAN

G.M. No. 513 SCOTT A. KAMI, for a term to expire 6-30-2013; and

G.M. No. 514 WESLEY MACHIDA, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Scott A. Kami and Wesley Machida to have the necessary qualifications to be nominated to the Board of Trustees of the Deferred Compensation Plan.

Testimony in support of the nomination of Scott A. Kami was submitted by two state agencies and seven individuals. Comments were submitted by one organization.

Mr. Kami has served as an Administrator for the Financial Administration Division of the Hawaii State Department of Budget and Finance for the past eight years. His previous experience includes work as a Finance Branch Manager of the Housing and Community Development Corporation of Hawaii and Loan Officer for First Interstate Bank of Hawaii.

Mr. Kami is extremely knowledgeable in public finance with significant experience in state investments, bond issues, and housing financing. He is highly regarded as a dedicated, dependable, and responsible worker and administrator who will be a valued asset to the Board of Trustees of the Deferred Compensation Plan.

Testimony in support of the nomination of Wesley Machida was submitted by two state agencies and four individuals. Comments were submitted by one organization.

Mr. Machida earned a Master of Business Administration in Finance and a Bachelor of Economics from the University of Hawaii at Manoa, and a Bachelor of Business Administration in Accounting from Chaminade University. He is currently an Assistant Administrator for the state Employees' Retirement System, which has an \$8,700,000,000 investment portfolio and over 108,000 members, retirees, and beneficiaries. Previously, Mr. Machida worked as an Assistant Auditor for the state Office of the Auditor, Senior Audit Manager for Grant Thornton LLP, and Assistant Administrator for the Hawaii Child Support Enforcement Agency. He is a Certified Public Accountant and has been a member of the Government Finance Officers Association since 2001.

Mr. Machida is highly regarded as a man of integrity who is extremely responsible and has a deep understanding of financial and investment markets. He is reliable, responsible, hard-working, and committed to helping Plan members achieve their long-term financial goals. Mr. Machida also has the ability to build consensus among various groups and people to reach important decisions. All of these qualities make him an excellent candidate for the Board of Trustees of the Deferred Compensation Plan.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1461 Labor on Gov. Msg. No. 587**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII WORKFORCE DEVELOPMENT COUNCIL

G.M. No. 587 CHRISTOPHER D. TATUM, for a term to expire 6-30-2011.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Christopher D. Tatum to have the necessary qualifications to be appointed to the Hawaii Workforce Development Council.

Testimony in support of the nomination of Christopher D. Tatum was submitted by two state agencies and two organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Tatum earned a Bachelor of Arts degree from Michigan State University. He is currently the General Manager of Waikiki Beach Marriott Resort & Spa, and he has eight years of prior experience as a General Manager of JW Marriott Ihilani Resort & Spa at Ko Olina, Renaissance Wailea Beach Resort, and Brisbane Marriott Hotel, in Australia.

In addition to his work experience, Mr. Tatum is active in several tourism-related organizations. He is the Chairperson of the Oahu Visitors Bureau and a Board member of the Hawaii Visitors and Convention Bureau, the Waikiki Improvement Association, the Waikiki Community Center, and the Hawaii Hotel Association.

Mr. Tatum is keenly aware of the issues relating to Hawaii's workforce, especially in the tourism industry, and their impact on the local economy. Mr. Tatum's commitment to educating students on the job opportunities, skills development, and managerial opportunities in the tourism industry, together with his industry experience and knowledge, make him an excellent candidate for the Hawaii Workforce Development Council.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Bunda, Hee).

**SCRep. 1462 (Joint) Energy and Environment and Commerce and Consumer Protection on S.R. No. 18**

The purpose of this measure is to request the Department of Health to implement a statewide rainwater detention and retention pond safety program to:

- (1) Encourage and assist developers or persons responsible for constructing or maintaining a retention pond, detention pond, or catchment area pond to adopt a maintenance and inspection plan to ensure adequate safety;
- (2) Encourage installation of chain link or see-through fencing and signage to deter children from playing and congregating around or near these ponds or drainage areas; and
- (3) Develop retention pond, detention pond, and catchment area pond safety components in the Department of Health's curriculum.

Testimony in support of the measure was submitted by twelve individuals. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that, although retention and detention ponds can be effective for stormwater management and flood control, they can also pose risks to public health, safety, and welfare. It is critical that the Department of Health help to protect the health and safety of Hawaii's citizens, especially children, by implementing a statewide rainwater detention and retention pond safety program. This program will encourage and assist developers or other persons responsible for the construction and maintenance of a rainwater drainage system to adopt a maintenance and inspection plan and to consider adequate safety provisions, such as the installation of fencing and signage to deter children from playing or congregating around or near those ponds. A program like this could have prevented the tragic and heartbreaking death of Charlotte "Sharkey" Schaefer.

Your Committees have amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 18, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 18, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 1463 Energy and Environment on H.C.R. No. 56**

The purpose of this measure is to urge the United States Congress to oppose oil and gas exploration and development in the Arctic National Wildlife Refuge and on the Outer Continental Shelf and to support clean, renewable energy alternatives.

Testimony in support of the measure was submitted by two individuals. Comments were submitted by one private organization. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that the Arctic National Wildlife Refuge (Refuge) is home to some of the most diverse and spectacular wildlife in the arctic and is the most important onshore denning habitat for America's vanishing polar bears. Drilling in the Refuge will cause irreparable harm to these areas. Even with safety protocols in place, each year United States drilling operations send an average of 880,000 gallons of oil into the ocean. These harms are not outweighed by potential benefits. The United States Energy Information Administration has concluded that at its peak in 2030, oil from the Refuge would only lower gas prices by a few pennies per gallon and produce between approximately one and three per cent of Americans' daily consumption. Your Committee finds that the better course of action is to move toward a new energy efficient and renewable economy.

Your Committee has amended this measure by making technical, nonsubstantive changes to its title and body for style and clarity purposes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 1464 Energy and Environment on H.C.R. No. 65**

The purpose of this measure is to:

- (1) Request the Hawaii-American Water Company to implement an odor mitigation plan for its facility;
- (2) Request the Hawaii-American Water Company to present the completed plan to interested government and community stakeholders; and
- (3) Request the Department of Health to monitor the implementation of these odor mitigation measures and to report any progress to the Hawaii Kai Neighborhood Board.

Testimony in support of this measure was submitted by the Hawaii Kai Neighborhood Board and nine individuals. Testimony in opposition to the measure was submitted by the Hawaii-American Water Company (HAWC). Comments were submitted by the Department of Health. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that, notwithstanding any mitigation efforts made by HAWC, the odor problems from the East Honolulu Wastewater Treatment Plan continue to plague area residents and has been an ongoing issue. As pointed out by the Department of Health in testimony, part of the problem may be that while Hawaii has an ambient air quality standard for hydrogen sulfide (the compound causing the offensive odor) of 25 parts per billion (ppb), the hydrogen sulfide level that each person can detect varies and may be as low as five ppb. Thus, even if HAWC may be in compliance with state law, the offensive odors may nonetheless be detectable and affecting the quality of life for surrounding residents and tourists.

Your Committee finds that these quality of life concerns should be addressed. HAWC, as a good neighbor, should develop and implement a transparent and accountable odor mitigation plan that deals with these concerns. However, the Department of Health testified that it does not have the authority to compel HAWC to develop and comply with this plan and its implementation. Accordingly, HAWC should self-monitor its implementation of the plan and provide a written status and progress report on a monthly basis to all applicable agencies and interested parties, including the Hawaii Kai Neighborhood Board.

Accordingly, your Committee has amended this measure by:

- (1) Requesting that HAWC submit its plan to the Legislature, the Honolulu City Council, the Public Utilities Commission, the Department of Health, and the Hawaii Kai Neighborhood Board, rather than to individual area legislators or councilmembers;
- (2) Requesting HAWC to self-monitor its progress in implementation of its plan and to make monthly progress reports to the Honolulu City Council, the Public Utilities Commission, the Department of Health, and the Hawaii Kai Neighborhood Board,

rather than request the Department of Health to monitor the implementation of odor mitigation measures and to report progress to the Hawaii Kai Neighborhood Board;

- (3) Sending certified copies of the measure to the Honolulu City Council, the Public Utilities Commission, the Department of Health, the Hawaii Kai Neighborhood Board, and HAWC, and not to individual area councilmembers; and
- (4) Making technical, nonsubstantive amendments for accuracy, clarity, and style, including a nonsubstantive technical amendment to its title.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 65, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 65, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Kokubun, Hemmings).

**SCRep. 1465 (Joint) Public Safety and Military Affairs and Health on H.C.R. No. 42**

The purpose of this measure is to request the Department of Defense to allow available surplus helicopters to be used for medical evacuation services.

Testimony in support of this measure was submitted by one private organization and one individual. Comments on this measure were submitted by one state agency. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that health care for seriously injured or sick persons in rural areas throughout the State has been hampered by a delayed or deliberate system of operations to reach those persons. Your Committees also find that the use of helicopters to reach those seriously injured or sick persons in rural areas would provide a tremendous advantage for effectively treating and caring for those persons. Your Committees further find that the helicopters owned by the Department of Defense are not always in use and are available for other critical uses.

Your Committees have amended this measure by:

- (1) Requesting the Department of Defense to allow any "available" helicopters, rather than "available surplus" helicopters, to be used for medical evacuation services; and
- (2) Making a conforming amendment to the title of the measure in light of the foregoing amendment; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Public Safety and Military Affairs and Health that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 42, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 42, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Baker, English, Hemmings).

**SCRep. 1466 Public Safety and Military Affairs on H.C.R. No. 19**

The purpose of this measure is to strongly urge the Secretary of Defense and the President of the United States to award the Congressional Medal of Honor to Sergeant Rafael Peralta.

Your Committee did not receive testimony on this measure.

Your Committee finds that the story behind the ultimate sacrifice made by Sergeant Rafael Peralta has gained national attention and notoriety. Your Committee also finds that in considering the award of the Medal of Honor, the Secretary of Defense should consider all the facts and circumstances surrounding the sacrifice made by Sergeant Rafael Peralta, including giving substantial weight to the statements of the Marines who personally witnessed the incident, rather than the conclusions of a pathologist who did not witness the incident.

Your Committee further finds that the current Presidential Administration has not had an opportunity to examine the facts and circumstances of Sergeant Rafael Peralta's sacrifice or the opportunity to comment on the issue of awarding the Medal of Honor to Sergeant Rafael Peralta.

Your Committee has amended this measure by:

- (1) Requesting the Secretary of Defense to consider all the facts and circumstances surrounding the sacrifice made by Sergeant Rafael Peralta, including giving substantial weight to the statements of the Marines who personally witnessed the incident, rather than basing the decision on the conclusions of a pathologist who did not witness the incident, especially when those conclusions have been disputed by at least four other experts, including Sergeant Peralta's battalion surgeon, two neurosurgeons, and a neurologist who examined the autopsy reports.
- (2) Adding the requirement for the current President of the United States to have an opportunity to examine all the facts and circumstances surrounding the sacrifice made by Sergeant Rafael Peralta for his fellow soldiers and for the current President to have an opportunity to comment on the issue of whether or not to award the medal of honor to Sergeant Rafael Peralta; and
- (3) Adding Sergeant Peralta's mother to the list of persons to whom this Concurrent Resolution be transmitted; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 19, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 19, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1467 Public Safety and Military Affairs on H.C.R. No. 24**

The purpose of this measure is to urge the United States Postal Service to issue commemorative postal stamps honoring the following individuals or organizations:

- (1) World War II Japanese-American Nisei soldiers;
- (2) Other distinguished military units that have served during the history of the United States military; and
- (3) Those who were instrumental in enhancing race relations in the United States and who worked toward ending discrimination based on race or national origin.

Testimony in support of this measure was submitted by three private organizations and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that from time-to-time the United States Postal Service has issued commemorative stamps that honor select individuals or groups that have made a significant contribution to our country or have made a significant impact on the people of the United States. Your Committee also finds that paying tribute to the Nisei soldiers that served in World War II and other distinguished military units, as well as to those individuals and organizations who were instrumental in enhancing race relations and worked toward ending discrimination based on race or national origin in the United States, through the issuance of postal stamps that commemorate their efforts would be a fitting legacy for those individuals and groups.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 24, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 24, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 2 (English, Hemmings).

**SCRep. 1468 Commerce and Consumer Protection on Gov. Msg. No. 568**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII MEDICAL BOARD

G.M. No. 568 NIRAJ S. DESAI, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A written statement and curriculum vitae were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee is a nephrologist with extensive experience in clinical practice, research, and teaching. Your Committee notes that, in addition to overseeing a solo clinical practice, this nominee also serves as Associate Medical Director of Liberty Dialysis of Hawaii and formerly held the position of Medical Director, Patient Safety & Quality Services at Kauai Medical Center. Your Committee finds that this nominee gained experience with issues of electronic medical records, online care, and access to care through his position at Kauai Medical Center where he served on the Credentials Committee and on a project to investigate the use of electronic medical records. Your Committee finds that this nominee's knowledge of emerging service delivery protocols and his awareness of access issues, especially for patients in rural areas and on the neighbor islands, will be especially helpful to the Board. Your Committee finds that this nominee has been appointed based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1469 Commerce and Consumer Protection on Gov. Msg. Nos. 570 and 571**

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOARD OF PUBLIC ACCOUNTANCY

G.M. No. 570 MICHAEL CHING, for a term to expire 6-30-2013; and

G.M. No. 571 KENT K. TSUKAMOTO, for a term to expire 6-30-2013.

Your Committee received testimony in support of the nomination of Michael Ching from the Department of Commerce and Consumer Affairs, the Hawaii Society of Certified Public Accountants, and three private citizens.

Your Committee received testimony in support of the nomination of Kent K. Tsukamoto from the Department of Commerce and Consumer Affairs, the Hawaii Society of Certified Public Accountants, and six private citizens.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Mr. Ching has over fifteen years of experience in the accounting field, working with companies in a range of industries including airlines, financial services, telecommunications, technology, real estate, hospitality, and non-profit organizations, and also ranging from large, publicly held companies to smaller non-profit organizations and privately owned companies. Your Committee also notes that this nominee has demonstrated a commitment to the accounting profession as a member of the Hawaii Society of Certified Public Accountants and of the American Institute of Certified Public Accountants (AICPA), and to community service as a member of the Executive Board of the Aloha Council of the Boy Scouts of America and his involvement with the American Diabetes Association and the Friends of the Cancer Research Center of Hawaii. Your Committee finds that Mr. Ching's youthful outlook, together with his experience in the accounting profession and the community, will bring a different perspective to the State Board of Public Accountancy.

Your Committee finds that Mr. Tsukamoto has over thirty years of experience in the accounting field, including serving as an appointed member of the governing Council of AICPA, representing the State of Hawaii; as an appointed member of the Tax Practice and Procedures Committee of the Tax Division of AICPA; as an adjunct professor in the Masters of Accounting program at the University of Hawaii; and as an expert witness in federal and state court proceedings, as well as arbitration and mediation settlement proceedings in Hawaii. Your Committee also notes that the nominee is very involved in the community, with, among other organizations, the Aloha United Way and the Blood Bank of Hawaii. Your Committee finds that this extensive professional experience and commitment to the accounting profession and the community have made this nominee a well-respected member of the accounting industry. This nominee has a thorough understanding of the accounting practices in Hawaii and nationally, and your Committee finds that he will make an excellent addition to the State Board of Public Accountancy.

Your Committee finds that these two nominees have been appointed based on their knowledge, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1470 Commerce and Consumer Protection on Gov. Msg. No. 572**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF VETERINARY EXAMINERS**

G.M. No. 572 WENDY L. MAH, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs and one private citizen. Your Committee also received a resume from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that, although the nominee is seeking to serve as one of the Board's public members and is therefore not a licensed veterinarian, she does have extensive professional experience with animals. For over twenty years, Ms. Mah has operated a puppy training company that provides group and private consultation for puppies and dogs of all ages, covering obedience, behavior, and temperament training. She has also demonstrated commitment to community service through her affiliations with the Animal Behavior Society and the Association of Pet Dog Trainers. Your Committee finds that, with her education in animal experimental psychology and her professional and community experience, Ms. Mah will bring a different and valuable perspective to the Board and will be able to bridge the perspectives of the clinician and the community. Your Committee finds that this nominee was nominated to the Board of Veterinary Examiners based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1471 Commerce and Consumer Protection on Gov. Msg. No. 566**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF PROFESSIONAL ENGINEERS, ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS**

G.M. No. 566 RAYMOND B. SKELTON, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs, Maui Contractors Association, and six private citizens. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee has twenty years of experience in the heavy construction industry, including experience in project management and supervision of large-scale development projects. Your Committee finds that this nominee's experience has given him first-hand knowledge of the issues facing the Board, such as the deterioration of the State's infrastructure and the need for

engineers, architects, surveyors, and landscape architects to maintain current knowledge and skills in order to use new and developing technology to meet the demands of a changing industry. Your Committee notes that this nominee has demonstrated a commitment to public service through active participation in both community and professional volunteer organizations. Your Committee finds that this nominee has been appointed based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1472 Commerce and Consumer Protection on Gov. Msg. No. 550**

Recommending that the Senate advise and consent to the nomination of the following:

**BOARD OF DIRECTORS OF THE HAWAII HURRICANE RELIEF FUND**

G.M. No. 550 MICHAEL P. HAMNETT, for a term to expire 6-30-2013.

Your Committee received testimony in support of this reappointment from the Department of Commerce and Consumer Affairs, State of Hawaii Department of Defense, and one private citizen. A written statement and curriculum vitae were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee for reappointment to the Board of Directors of the Hawaii Hurricane Relief Fund has served with distinction on the Board since 2007 by diligently attending meetings and actively participating in discussion. Your Committee finds that this nominee has an extensive background in disaster management and hazard mitigation which includes practical, policy-making, research, and academic activities. This nominee has worked with the Hawaii Hurricane Relief Fund since 1994, serving on the Technical Advisory Committee before becoming a member of the Board. Your Committee finds that this nominee's background in Pacific-focused disaster preparedness, climate issues, and coastal management make him uniquely qualified to serve on the Board. Your Committee further finds that this nominee has been reappointed to the Board based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1473 Commerce and Consumer Protection on Gov. Msg. Nos. 548 and 549**

Recommending that the Senate advise and consent to the nominations of the following:

**BOARD OF DENTAL EXAMINERS**

G.M. No. 548 WAYNE S. ATEBARA, for a term to expire 6-30-2012; and

G.M. No. 549 ROBERT G. SHERMAN, for a term to expire 6-30-2013.

Your Committee received testimony in support of the nomination of Wayne S. Atebara from the Department of Commerce and Consumer Protection. A written statement and curriculum vitae were received from the nominee.

Your Committee received testimony in support of the nomination of Robert G. Sherman from the Department of Commerce and Consumer Affairs and six private citizens. A written statement and curriculum vitae were received from the nominee.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Dr. Wayne S. Atebara has been in private practice as an oral and maxillofacial surgeon for fifteen years. In addition to his clinical practice, Dr. Atebara also actively participates in professional organizations, including serving as a Director of the American Board of Oral and Maxillofacial Surgery (ABOMS) and serving on ABOMS committees dealing with education, training, and professional qualifications. Your Committee finds that this experience makes this nominee a uniquely qualified candidate for the Board. Your Committee further finds that this nominee has demonstrated an interest in professional and community service through volunteer activities including service on several committees of Hilo Medical Center and St. John's Mercy Medical Center.

Your Committee finds that Dr. Robert G. Sherman has extensive experience in both clinical and academic dentistry, including the supervision and management of United States Navy dental clinics and innovative programs to provide mobile dental care. This nominee has served on the faculty of both military and civilian dental schools, conducted continuing education seminars for practitioners, and published extensively, with a focus on clinical practice and patient care. Your Committee notes that this nominee has served successfully in several management positions where he has been responsible for supervising clinicians, creating service delivery protocols, and developing policy. Your Committee further notes that, in addition to his military service, this nominee also has experience in civilian dentistry through his work as a consultant with Hawaii Dental Services.

Your Committee finds that these nominees have been appointed to the Board of Dental Examiners based on their experience, qualifications, and commitment to public service

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1474 Commerce and Consumer Protection on Gov. Msg. Nos. 547, 563, 564 and 565**

Recommending that the Senate advise and consent to the nominations of the following:

CONTRACTORS LICENSE BOARD

- G.M. No. 547 HAROLD MARTIN, for a term to expire 6-30-2013;
- G.M. No. 563 JOHN E.K. DILL, for a term to expire 6-30-2013;
- G.M. No. 564 WILLIAM A. KAMAI, for a term to expire 6-30-2013; and
- G.M. No. 565 ALDON K. MOCHIDA, for a term to expire 6-30-2013.

Your Committee received testimony in support of the nomination of Harold Martin from the Department of Commerce and Consumer Affairs, SHIOI Construction, Inc., and one private citizen. A written statement and resume were received from Mr. Martin.

Your Committee received testimony in support of the nomination of John E.K. Dill from the Department of Commerce and Consumer Affairs, County of Hawai'i Office of the Corporation Counsel, the Building Industry Association of Hawaii, and two private citizens. A written statement and resume were received from Mr. Dill.

Your Committee received testimony in support of the nomination of William A. Kamai from the Department of Commerce and Consumer Affairs, Maui Contractors Association, The Pacific Resource Partnership, Kealoha Construction, Inc., and six private citizens. A written statement and resume were received from Mr. Kamai.

Your Committee received testimony in support of the nomination of Aldon K. Mochida from The Pacific Resource Partnership and one private citizen. A written statement and resume were received from Mr. Mochida.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Harold Martin has a total of fifty years experience in the steelwork and construction industries, including experience as a craftsperson, manager, and business owner. Mr. Martin's education and training includes Steelworkers School in the United States Navy and the University of Hawaii's Small Business Program. Your Committee finds that this nominee's experience and training in different aspects of the construction industry give him a broad perspective that will be valuable to the Board. Your Committee notes that this nominee has experience in regulatory and other issues that face the Board through his service as past President and a member of the Board of the Contractors Association of Kauai. Your Committee further notes that this nominee has demonstrated a commitment to community service through his participation in the Rotary Club of West Kauai and service as an Election Day Official for the last sixteen elections.

Your Committee finds that John E.K. Dill has almost ten years of experience in the construction industry, including work experience as an equipment operator as well as in management and supervisory roles. Your Committee notes that this nominee has worked closely with government and regulatory bodies in his work with the Hawaii Marine Recreational Fishing Survey and as project manager on several large public works projects such as Phases I, II, and III of the Mamalahoa Highway Improvements. Your Committee further notes that this nominee currently serves as Chair of the County of Hawaii Board of Ethics. Your Committee finds that, in this position, the nominee has managed the Board of Ethics, public, and media in a way that promotes governmental transparency while respecting the privacy rights of individuals. Your Committee finds that this experience upholding the public trust makes Mr. Dill uniquely qualified for a position on the Contractors License Board.

Your Committee finds that William A. Kamai has extensive experience in the construction industry, including twenty-two years as a journeyman carpenter and foreman on large construction projects and five years as an instructor in the Carpenter Apprenticeship Program at Maui Community College. Your Committee notes that this nominee also has experience in the management and regulatory aspects of the construction industry through his work as a Senior Service Representative for the Hawaii Carpenters Union and through his service on the Maui County Board of Variances and Appeals, Maui Coastal Land Trust, and Maui Island Labor Alliance, and other local government and community bodies. Your Committee further finds that this nominee demonstrates strong leadership, integrity, good judgment, and an ability to work well with people of diverse backgrounds and points of view.

Your Committee finds that Aldon K. Mochida has over thirty years of experience in the construction industry, including experience as a business owner as well as in project management and engineering. Your Committee finds that this nominee has developed an understanding of the Contractors License Board's licensing and regulatory functions through working in management roles for large commercial construction products and in his role as a construction company owner. Your Committee notes that this nominee has demonstrated a commitment to community service through his service in the United States Naval Reserves, his past work as a water safety instructor, CPR and first aid trainer, and lifeguard, and volunteer work with the Wailuku Hongwanji Mission.

Your Committee finds that these four nominees have been appointed based on their knowledge, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1475 Commerce and Consumer Protection on Gov. Msg. No. 546**

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF CHIROPRACTIC EXAMINERS

G.M. No. 546 RICHARD L. WILCOX, for a term to expire 6-30-2010.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs, the Hawaii State Chiropractic Association, and four private citizens. Your Committee also received a written statement and curriculum vitae from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee has over twenty years of experience as a chiropractor in the Maui community. Your Committee finds that this nominee has earned the respect of his colleagues in the chiropractic and medical communities for his ethical practice, clinical knowledge, and understanding of the laws and rules governing chiropractic practice. Your Committee notes that this nominee is a business owner as well as a clinician and, as such, has broad knowledge of the chiropractic field, which will be an asset to the Board. This nominee has a good understanding of the ethical and regulatory issues surrounding chiropractic practice, gained through active participation in professional organizations and conscientious pursuit of continuing education. Your Committee finds that this nominee was nominated to the Board of Chiropractic Examiners based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1476 Higher Education on Gov. Msg. Nos. 465, 466, 467 and 581**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII MEDICAL EDUCATION COUNCIL

G.M. No. 465 CHRISTI L. KELIPIO, for a term to expire 6-30-2013;

G.M. No. 466 SUSAN R. MURRAY, for a term to expire 6-30-2013;

G.M. No. 467 MARY E. WORRALL, for a term to expire 6-30-2013; and

G.M. No. 581 DARRYL S. SALVADOR PSY.D., for a term to expire 6-30-2011.

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the Hawaii Medical Education Council.

Christi L. Keliipio is Director of Clinical Services and Perioperative Services at Kapiolani Medical Center at Pali Momi, where she has held administrative and management positions since 2003. Ms. Keliipio is a former Executive Director of the Hawaii Nurses Association, and has over twenty years of nursing experience, including ten years as a Registered Professional Nurse with the Department of Public Safety. She is a member of the nursing faculty at the University of Phoenix and has served on the nursing faculty at Hawaii Pacific University, as well. Ms. Keliipio holds a Bachelor of Science in Nursing from the University of Phoenix, a Master's of Science in Nursing from the University of Hawaii, and is a candidate for a Doctorate in Health Administration from the University of Phoenix. She is active in the American Organization of Nurse Executives, Sigma Theta Tau International, and Friends of the University of Hawaii School of Nursing. Ms. Keliipio is a reappointment to the Hawaii Medical Education Council.

Your Committee received testimony in support of Ms. Keliipio's nomination from the Healthcare Association of Hawaii.

Susan R. Murray is Regional Hospital Administrator and Vice President, Quality/Service at Kaiser Foundation Hospital, a position she has held since 2002. Ms. Murray has also served in senior administrative and management positions at Kapiolani Medical Center and Straub Clinic and Hospital in Honolulu; HCA Healthcare in Nashville, Tennessee; Woman's Hospital in Baton Rouge, Louisiana; and the University of Texas Southwestern Medical Center in Dallas, Texas. Ms. Murray is a graduate of the University of Hawaii, with a Bachelor of Arts in Psychology, holds a Master's of Business Administration from the University of Dallas, and is a graduate of the Advanced Leadership Program at the University of North Carolina Keenan Flager Business School. She is active in a wide range of professional and community organizations including the Healthcare Association of Hawaii; the American College of Healthcare Executives, Diplomate; the March of Dimes Hawaii Chapter; and has served on the Regents Advisory Council. Ms. Murray is a reappointment to the Hawaii Medical Education Council.

Your Committee received testimony in support of Ms. Murray's nomination from the Healthcare Association of Hawaii and Goodwill, Anderson, Quinn & Stifel.

Mary E. Worrall is a Licensed Realtor and Broker with extensive experience in Hawaii's real estate market. Her firm, Mary Worrall Associates Sotheby's International Realty, is among the top ten grossing real estate firms and she has been honored in Pacific Business News "Women in Business" for her many contributions in the field. She is an active member of the Honolulu Board of Realtors, where she has served on various committees, including the Ethics Committee. Ms. Worrall is a member of both the Hawaii and National Associations of Realtors, a Sustaining Member of the Junior League of Honolulu, and a Board Member of the Friends of the Children's Justice Center (Children's Alliance of Hawaii). She is also active in many health related community organizations, including the Women's Health Advisory Board, Kapiolani Hospital Auxiliary, Friends of the University of Hawaii School of Nursing, and Friends of the Cancer Research Center of Hawaii. Ms. Worrall is a reappointment to the Hawaii Medical Education Council.

Your Committee received testimony in support of Ms. Worrall's nomination from one individual.

Darryl S. Salvador, Psy.D., is Director of Behavioral Health Services at Molokai Community Health Care, Inc., a position he has held since 2006. Dr. Salvador has extensive experience in health psychology and behavioral medicine as a Staff Psychologist at the Waikiki Health Center, Tripler Army Medical Center, and Portland Veterans Administration Medical Center in Portland, Oregon, among others. He holds a Bachelor of Education and Master's of Education in Counseling and Guidance from the University of Hawaii at Manoa, and a Doctorate in Clinical Psychology from Argosy University in Honolulu. Dr. Salvador is the author of numerous publications, manuscripts, and scholarly presentations, with a focus on Asian American populations and multicultural counseling and therapy. He is active in many professional and community organizations, including the American Psychological Association, Hawaii Counseling Association, Hawaii Psychological Association, I Ola Lāhui Psychology Training Program Board of Directors/Clinical Faculty Supervisor, and University of Hawaii Alumni Association. Dr. Salvador is a new appointment to the Hawaii Medical Education Council.

Your Committee received testimony in support of Dr. Salvador's nomination from Tripler Army Medical Center; Hawaii Primary Care Association; Na Pu'uwai Native Hawaiian Healthcare System; Moloka'i Community Health Center; I Ola Lāhui Rural Hawaii Behavioral Health Program; Area Health Education Center, Maui County; and one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Higher Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Record of votes for Darryl S. Salvador Psy.D.:

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

Signed by the Chair on behalf of the Committee.

Record of votes for all other nominees:

Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

**SCRep. 1477 Higher Education on Gov. Msg. No. 580**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 580 JAMES H.Q. LEE, for a term to expire 6-30-2014.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds James H.Q. Lee to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from Big Brothers Big Sisters of Honolulu; 'Iolani School; Devens, Nakano, Saito, Lee, Wong & Ching; and four individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

James H.Q. Lee is a Partner in the law firm Devens, Lo, Youth Nakano, Saito, Lee & Wong, a position he has held since 1990, and has practiced law in Hawaii since 1981 with a concentration in tax matters and real estate transactions. Mr. Lee is also a Director of the K.B. Lee Corporation, a family holding company, and from 1997-2008, was Managing Director of Let's Eat Hawaii, a partnership which owns and operates Sam Choy's restaurants in Hawaii, Guam, and Japan. He is a graduate of the University of Hawaii, with a Bachelors of Business Administration and a Juris Doctorate from the William S. Richardson School of Law. Mr. Lee is a member of the Hawaii State Bar, and is a licensed Certified Public Accountant. He is active in community organizations, including serving as Chair of the Board of Directors of Big Brothers Big Sisters of Hawaii Foundation, as 'Iolani School Family Fair Division Chair, and has received several awards for his philanthropic work.

Your Committee discussed issues of concern to the University with Mr. Lee, including his suggestions for dealing with the unprecedented budget crisis. Your Committee has also reviewed Mr. Lee's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, and his views on the current ten-campus University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1478 Higher Education on Gov. Msg. No. 579**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 579 JOHN C. HOLZMAN, for a term to expire 6-30-2014.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds John C. Holzman to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the Asia-Pacific Center for Security Studies; Mediation Center of the Pacific, Inc.; Good Beginnings Alliance; La Pietra; and nine individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

John C. Holzman (Ret), most recently served as Foreign Policy Advisor with the United States Central Command in Tampa, Florida from 2004-2005 and as a Senior Civilian Advisor with the Coalition Provisional Authority in Iraq in 2004. He previously served as Foreign Policy Advisor with the United States Pacific Command in Honolulu from 2001-2003, as American Ambassador in Dhaka, Bangladesh, from 1997-2000, and has over thirty years of diplomatic experience in embassies and United States Department of State facilities throughout the world. He is a graduate of Georgetown University School of Foreign Service and holds a Master's degree from John Hopkins School of Advanced International Studies, and is the author of several publications on international relations topics. Mr. Holzman is active as a Senior Mediator with the Mediation Center of the Pacific and previously served as a board member of the Pacific and Asian Affairs Council.

Your Committee discussed a number of issues facing the University with Mr. Holzman, including his views on the University's role in an increasingly competitive global society. Your Committee has also reviewed Mr. Holzman's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1479 Higher Education on Gov. Msg. No. 306**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 306 MICHAEL A. DAHILIG, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Michael A. Dahilig to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the University of Hawaii at Manoa Office of Student Life and Development; National Federation of Filipino Americans Associations, Region 12; Oahu Filipino Community Council; Filipino Americans Citizens League; Filipino Coalition for Solidarity; Central Pacific Bank; Goodwill, Anderson, Quinn & Stifel; International Union of Painters and Allied Trades, District Council 50; and ten individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Michael A. Dahilig is a Land Use and Environmental Planner with PBR Hawaii and Associates, a position he has held since July 2007. He has also worked as a Housing Advisor to Representative Maile S.L. Shimabukuro and as a Summer Associate with Dawn S. Chang, Esq./Kuiwalu Consulting. Mr. Dahilig is a graduate of the University of Hawaii, with a Bachelor of Science in Geology and Geophysics, and a Juris Doctor, Environmental Law Certificate from the William S. Richardson School of Law. He is currently a Candidate for a Master of Urban and Regional Planning degree at the University. While attending the University, Mr. Dahilig served as Student Body President of the Associated Students of the University of Hawaii at Manoa from 2002-2003, and as a member of the Board of Regents since September 2005. He is active in numerous community organizations, including serving as Vice-Chairman of the National Federation of Filipino-American Associations Region 12 and as Legal Counsel to the Honolulu Filipino Junior Chamber of Commerce, among others. Mr. Dahilig is a reappointment to the Board of Regents, where he previously served as the student member.

Your Committee discussed critical issues facing the University with Mr. Dahilig, and in particular how he perceived the role of the student member of the Board in responding to these issues. He acknowledged that the expectations for the student member are high, given the diverse student population represented, and that balancing expectations can be challenging. Your Committee has also reviewed Mr. Dahilig's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

Following up on Mr. Dahilig's response to the questions of real or perceived conflicts, your Committee requested that he seek the opinion of University of Hawaii counsel as to whether or not he may participate in Board of Regents matters related to University of Hawaii – West Oahu, or any or all professional contracts, given his current employment.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Takamine).

**SCRep. 1480 Higher Education on Gov. Msg. No. 313**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 313 GRANT TUCK SUN TEICHMAN, for a term to expire 6-30-2010.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Grant Tuck Sun Teichman to have the necessary qualifications to be appointed to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this nomination from the University of Hawaii at Manoa Outreach College, University of Hawaii at Manoa Co-curricular Activities, Programs and Services; University of Hawaii at Manoa Office of Student Life and Development; Atherton YMCA; Englekirk Partners Consulting Structural Engineers, LLC; Associated Students of the University of Hawaii at Manoa; and twelve individuals. The Associated Students of the University of Hawaii-Honolulu Community College; and three individuals provided testimony in opposition. The University of Hawaii Student Caucus expressed concerns. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Grant Tuck Sun Teichman is the third generation of his family to graduate from the University of Hawaii and he holds a Bachelor's degree in History, with Honors, and in Political Science. During his tenure at the University of Hawaii, Mr. Teichman served twice as the President of the Associated Students of the University of Hawaii, and most recently as the President-Elect for the University of Hawaii Student Union Campus Center Board. He was also a Staff Writer and Associate News Editor at Ka Leo O Hawaii and a Member of the Honolulu Mayor's High-Capacity Transit Advisory Committee. Currently, he is active as a Leadership Advisor for the YMCA Youth Legislative Program and is a Beta Tester for Paramount Pictures, Sony Entertainment Activision. Mr. Teichman is the recipient of numerous scholarships and awards, was a University of Hawaii Rhodes Scholar Nominee, and a member of the University of Hawaii Deans List for four semesters.

Your Committee discussed a range of issues with Mr. Teichman, including the challenges of serving as the student member of the Board, given the diverse student population of the University of Hawaii System. Your Committee has also reviewed Mr. Teichman's responses to questions regarding his motivation as a member of the Board of Regents, his goals and priorities for the University, his views on the University presidential selection process, his suggestions for dealing with the unprecedented budget crisis, and his views on the current ten-campus University of Hawaii System.

Your Committee has also discussed with Mr. Teichman the concerns raised by several students and student organizations regarding what the students perceive as serious lapses in communication and accessibility by Mr. Teichman. Your Committee would point out that the miscommunication appears to be in part due to misunderstandings and misinformation by both the students and the nominee. However, your Committee has requested that Mr. Teichman and the student caucus meet as quickly as possible to resolve these issues and to identify how they will work together and communicate more effectively in the future. As your Committee has noted before, the student member of the Board has a challenging role, and a very limited term of service. For these reasons, it is imperative that the student member and the students represented work in an atmosphere of mutual transparency and communication to ensure that the student voice is heard at the Board of Regents.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Takamine).

**SCRep. 1481 Commerce and Consumer Protection on Gov. Msg. No. 562**

Recommending that the Senate advise and consent to the nomination of the following:

CABLE ADVISORY COMMITTEE

G.M. No. 562 CYNTHIA M. MARTIN, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from the Department of Commerce and Consumer Affairs. A written statement and resume were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee for appointment to the Cable Advisory Committee has an extensive record of public service and communications experience. In addition to professional experience in the communications and public relations field, this nominee has also served in both professional and volunteer positions with cultural and social service organizations. Your Committee further notes that this nominee's position on the Board of Directors of Akaku Community Television gives her a unique perspective on the function of community-based cable television and knowledge of the regulatory issues facing cable television providers. Your Committee finds that this nominee's professional experience in the public, private, and non-profit sectors make her highly qualified for a position on the Cable Advisory Board and to consider the interests of all of its constituents. Your Committee finds that this nominee was appointed based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1482 Commerce and Consumer Protection on Gov. Msg. No. 569**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHARMACY

G.M. No. 569 GARRETT A. LAU, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs, Ho'ola Lahui Hawaii, and one private citizen. A written statement and curriculum vitae were received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee has fourteen years of experience as a pharmacist, including twelve years in supervisory and management roles. Your Committee notes that this nominee's professional experience includes experience in ensuring regulatory compliance in public, private, and military settings. Your Committee further notes that as Director of Pharmacy at Ho'ola Lahui Hawai'i - Kaua'i Community Health Center, this nominee has experienced providing care to Native Hawaiian and uninsured or underinsured patients. Your Committee finds that this nominee's experience providing access to medical care to historically underserved populations will be an asset to the Board. Your Committee finds that this nominee has been appointed based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 6. Noes, none. Excused, 1 (Ihara).

**SCRep. 1483 Education and Housing on H.C.R. No. 63**

The purpose of this measure is to urge the Governor to include Kukui Gardens in the State's list of shovel-ready projects submitted for inclusion in the President of the United States' proposed economic stimulus plan.

Testimony in support of this measure was submitted by one private organization and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that a number of concerned organizations have been working for three years to preserve the eight hundred fifty-seven affordable rental housing units in Kukui Gardens as affordable rental units, which would save an estimated 2,500 people from potential homelessness. Your Committee understands that a compromise was reached whereby the State of Hawaii purchased the land under forty-five per cent of the property and sold the improvements to the EAH, Devine & Gong Partnership, preserving three hundred eighty-nine of the units, referred to as Kukui Gardens Makai. The sale of the Makai improvements included a requirement to rehabilitate the property at an estimated cost of \$17,000,000, which was to be financed in part by the sale of state and federal low income housing tax credits. This work was to have commenced in the summer of 2008, but has been delayed due to the evaporation of the low income housing tax credit market.

Your Committee further finds that the building permits are in place and that work can begin as soon as funding is provided, meeting the "shovel-ready" definition for qualification of stimulus package funds.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 63, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1484 Education and Housing on H.C.R. No. 89**

The purpose of this measure is to request that the Hookakoo Corporation:

- (1) Submit reports of its expanded learning time initiative and models that are or will be piloted by the Corporation's partner conversion charter schools;
- (2) Collaborate with the Department of Education on the development of plans to pilot expanded learning time models and a framework for providing technical assistance to schools; and
- (3) Submit progress reports to the 2010 and 2011 Legislature.

Testimony in support of this measure was submitted by five government agencies and two private organizations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the expanded learning time models detailed in this measure provide safe and structured learning environments for school age children during nonschool hours. In addition, these programs engage students in experiential, hands on learning projects, challenge students to delve deeply into core subjects, and allow students to participate in enrichment and remedial opportunities that can enhance their academic, personal, and social development.

Your Committee further finds that the Department of Education currently provides extended learning opportunities and that the preliminary impact data derived from the models for expanded learning time report will help the Department's efforts in further developing expanded learning time programs. The evaluation and technical assistance outlined in this measure can benefit both conversion charter schools and the Department's public schools.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 89, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1485 Education and Housing on H.C.R. No. 94**

The purpose of this measure is to request the Auditor to:

- (1) Conduct a management and financial audit of the Hawaii Public Housing Authority's maintenance contracts and the management of those contracts and to investigate reports of disrepair, noncompliance with the Americans with Disabilities Act, and other concerns of residents, taking into account the newly implemented HUD Deficiency Report Checklist when reviewing the Hawaii Public Housing Authority;
- (2) Prioritize the audit efforts, focusing first on those contracts and facilities representing such characteristics as high contract dollar value, large volume of complaints, contract terms not strong enough to protect the State's interests, serious lack of internal controls, and any other screening approaches deemed appropriate by the Auditor; and
- (3) Report the findings and recommendations to the 2010 Legislature.

Testimony in support of this measure was submitted by one individual. One government agency testified in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee has deleted a substantive portion of this measure and replaced the deleted provisions with language from S.C.R. 31, S.D. 2, previously heard and approved by your Committee as S.C.R. No. 31, S.D. 1, and further amended by the Committee on Ways and Means as S.C.R. 31, S.D. 2.

As amended, this measure:

- (1) Amends the title to read: REQUESTING THE AUDITOR TO CONDUCT A REVIEW OF THE PERFORMANCE OF THE MANAGEMENT OF THE PUUWAI MOMI AND WEST OAHU ASSET MANAGEMENT PROJECTS (KNOWN AS AMP 30 AND AMP 44) TO COMPARE THE PERFORMANCE OF STATE OPERATED AND PRIVATELY OPERATED PUBLIC HOUSING PROPERTIES; AND TO DETERMINE THE RELATIVE CONTRIBUTIONS OF FUNDING LEVELS, MISMANAGEMENT, AND TENANT AND VISITOR ACTIONS TO THE FAILURE TO MEET PERFORMANCE STANDARDS FOR THESE PROPERTIES;
- (2) Adds Whereas clause language referencing current management procedures, the results of year 2008 inspections by the Department of Housing and Urban Development, and the status of maintenance at Palolo Housing and Kuhio Park Terrace;
- (3) Amends the scope of the audit as reflected in the amended title of the measure;
- (4) Adds to the scope of the audit, a request to the Auditor to undertake a broader review of the process by which the Authority currently evaluates management and maintenance contracts; and
- (5) Adds a request that the Auditor remain cognizant of the status of the federal and state class action law suits filed in December 2008.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 94, H.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as H.C.R. No. 94, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1486 Education and Housing on H.C.R. No. 282**

The purpose of this measure is to request the Hawaii Public Housing Authority to increase minimum monthly rents for state public housing to no less than \$250 with a yearly increase equal to the increases of the cost of living index.

Testimony in support of this measure was submitted by one government agency and one individual. One private organization submitted testimony in opposition. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this measure would provide incentives to the Hawaii Public Housing Authority to raise minimum monthly rents, while allowing the Authority to determine the timing for these increases in order to lessen the impact on current tenants, particularly those on fixed incomes.

As affirmed by the record of votes of the members of your Committee on Education and Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 282, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Tsutsui, Hemmings).

**SCRep. 1487 (Joint) Higher Education and Water, Land, Agriculture and Hawaiian Affairs on H.C.R. No. 60**

The purpose of this measure is to request the University of Hawaii at Manoa, College of Social Sciences, Public Policy Center and Spark M. Matsunaga Institute for Peace and Conflict Resolution to convene a working group to explore the safe use of hunting dogs on public hiking trails.

Testimony in support of this measure was submitted by The Humane Society of the United States, Hawaii Kai Neighborhood Board, Kailua Neighborhood Board No. 31, Oahu Society for the Prevention of Cruelty to Animals, Hawaii Dog Foundation, Citizens for Safe Hiking, Animal Rights Hawai'i, Ho'olaka Canine Specialists, and fourteen individuals. Testimony in opposition was submitted by the Department of Land and Natural Resources, University of Hawaii at Manoa College of Social Sciences Public Policy Center, University of Hawaii Spark M. Matsunaga Institute for Peace, Oahu Pig Hunters Association, and thirteen individuals. Two individuals submitted comments. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees have heard considerable testimony both in support and opposition to this measure. While the perceptions of the problem are vastly different, your Committees agree that there are conflicts that require resolution.

Your Committees understand that the Department of Land and Natural Resources manages approximately two hundred seventy miles of public trails through Na Ala Hele and other programs, with guidance through island-wide trail advisory councils that conduct regular public meetings. Members of the advisory councils represent interested constituencies, including hikers, hunters, bicycle riders, equestrian riders, off-road motorized vehicle users, Hawaiian cultural representatives or practitioners, fishers, environmentalists, affected landowners, and other trail and access advocates. Your Committees are in agreement with the recommendation of the Department that the Na Ala Hele Advisory Council is the appropriate forum for the discussion of safe use of hunting dogs on trails that cross public hunting areas.

Your Committees have amended this measure accordingly, by:

- (1) Amending its title to read: REQUESTING THE NA ALA HELE ADVISORY COUNCIL TO CONVENE A SERIES OF DISCUSSIONS ON THE SAFE USE OF HUNTING DOGS ON TRAILS THAT CROSS PUBLIC HUNTING AREAS;
- (2) Deleting WHEREAS clause language related to aggressive hunting dogs, lost or injured hunting dogs, trail check-ins, and the need for and failure to address concerns;
- (3) Adding WHEREAS clause language related to the benefits provided by hunters and hunting dogs;
- (4) Amending the first BE IT RESOLVED clause to reflect the amended title;
- (5) Reducing in the working group the number of specific organizations to be included, and adding the Hawaii Rifle Association and other interested stakeholder groups;
- (6) Adding a report to the 2010 Legislature; and
- (7) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water, Land, Agriculture, and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 60, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 60, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Ayes with Reservations, 1 (Slom). Noes, none. Excused, 3 (Bunda, Takamine, Taniguchi).

**SCRep. 1488 (Joint) Health and Commerce and Consumer Protection on H.C.R. No. 97**

The purpose of this measure is to request that the Auditor, pursuant to section 26H-6, Hawaii Revised Statutes, perform an analysis of the proposed regulation of respiratory care practitioners, including the establishment of a board of respiratory care, as proposed in Senate Bill No. 1332, S.D. 2 (2009).

Your Committees received testimony in support of this measure from the Hawaii Society for Respiratory Care.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that this measure is necessary in order to enact legislation to regulate respiratory therapy. The licensure of respiratory therapists is important to the protection of public health and safety. Respiratory therapists serve a critical role in the health care delivery system. Your Committees further find that certain health professions need licensure to participate in federal programs.

Your Committees have amended this measure and its title by making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 97, H.D. 1, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 97, H.D. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 4 (Ihara, Nishihara, Sakamoto, Hemmings).

**SCRep. 1489 (Joint) Human Services and Education and Housing on H.C.R. No. 246**

The purpose of this measure is to request the Department of Human Services to establish a task force to develop a policy against teen dating violence and abuse.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and two individuals. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that patterns of dating violence behavior often start early and carry through into adult relationships. Additionally, violent relationships in adolescence can have serious ramifications for victims; many will continue to be abused in their adult relationships and are at a higher risk for substance abuse, eating disorders, risky sexual behavior, and suicide. A comparison of Intimate Partner Violence rates between adolescents and adults reveals that adolescents are at a higher risk of intimate partner abuse. Approximately one in five female high school students reports being physically or sexually abused by a dating partner. A majority of parents admit that they have not spoken to their child about dating violence. This measure will ensure that a model policy is adopted regarding teen dating violence and provide needed assistance to the Board of Education.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Education and Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 246, H.D. 1, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 246, H.D. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Ihara, Tsutsui).

**SCRep. 1490 Human Services on H.C.R. No. 157**

The purpose of this measure is to urge public and private agencies to encourage their parent clients to turn on closed captioning when their children watch television.

Testimony in support of this measure was submitted by one individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that closed captioning has the ability to enhance vocabulary, reading speed, word association, and spelling. Your Committee understands that closed captioning is not accurate one hundred per cent of the time and certain style preferences used in closed captioning are different than those used in school writing classes, however, your Committee believes the merits outweigh these concerns. Adults can benefit from reading the closed captioning on television, as it helps a reader develop English skills and identify errors in spelling, which is a rapid brain problem solving skill. Television is becoming a large part of the family dynamic, and by using closed captioning the television can become a tool to help both adults and children improve their reading skills.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 157, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 157, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1491 (Joint) Human Services and Public Safety and Military Affairs on H.C.R. No. 135**

The purpose of this measure is to strongly support the concept of establishing a system of juvenile intake and assessment centers, as embodied by the proposed pilot Big Island Juvenile Intake and Assessment Center, throughout the State.

Testimony in support of this measure was submitted by the Department of Human Services Office of Youth Services, the Hawaii County Mayor, the Hawaii County Prosecuting Attorney and the Office of the Prosecuting Attorney, and one individual. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that law enforcement officers on the island of Hawaii are in need of a facility to house and hold juvenile offenders in a safe and secure manner that consequently allows the law enforcement officers to proceed with their patrol duties. In 2006 over 2,350 juveniles were arrested, and a survey of law enforcement officers found that officers have no good options when dealing with arrested juveniles who cannot be returned to their homes because of drug, alcohol, or mental health problems, or family issues. Existing programs are fragmented and may not accept disruptive juveniles or those who are under the influence of alcohol or drugs. The Big Island Juvenile Intake and Assessment Center would help law enforcement officers by providing a safe holding place for these juveniles. Various stakeholders and supporters of a Big Island Juvenile Intake and Assessment Center have already completed a thorough business plan that identifies the necessary startup and annual operating costs for the Center and are ready to move forward with a pilot program at a facility in Pahoehoe that can be implemented at less than a third of the cost of the comprehensive Big Island Juvenile Intake and Assessment Center initiative. Your Committees affirm their support of the initiative and actions taken by the stakeholders, and pledge future support of continued efforts to establish and develop a Big Island Juvenile Intake and Assessment Center and to consider implementation of similar projects statewide.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 135, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 135, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 4 (Bunda, English, Gabbard, Ihara).

**SCRep. 1492 Public Safety and Military Affairs on H.C.R. No. 298**

The purpose of this measure is to urge the United States President and Congress to enact legislation to expedite immigrant visas to reunite World War II Filipino veterans with their children.

Testimony in support of this measure was submitted by one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the World War II Filipino veterans who are currently residing in this State are aging and in need of the care and protection that can be afforded to them from their family members residing outside the United States. Your Committee also finds that the sacrifices made by the Filipino soldiers during World War II to protect and fight with the United States were heroic and that the passage of this measure will, to a certain extent, serve as a tribute and memorialize their efforts.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 298, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 298, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Galuteria, Hemmings).

**SCRep. 1493      Ways and Means on H.C.R. No. 76**

The purpose of this measure is to request the Governor not to address the 2009 fiscal year budget shortfall by reducing or restricting the Department of Education and the University of Hawaii's current appropriations.

Prior to the hearing, your Committee circulated a proposed draft of H.C.R. No. 76, H.D. 1, S.D. 1, which requests the Senate President and the Speaker of the House of Representatives to establish a task force on reinventing government to examine the current operations and organization of state government and to make recommendations to the Legislature prior to the Regular Session of 2010 on making state government more efficient.

Testimony in support of the proposed measure was submitted by the Chair of the Finance Committee of the House of Representatives and two private organizations. Testimony in support of the proposed measure, with comments or suggested amendments, was submitted by one state department and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that our State is in an economic crisis, as a result of the global financial and economic crisis. Although the Legislature has made efforts over the past two years to provide sustainable, responsible levels of funding and to anticipate and plan for such times as these, the State is nonetheless facing a \$1,760,000,000 budget shortfall for the balance of fiscal year 2008-2009 and the biennium budget period if corrective action is not taken.

Your Committee finds that, in these challenging times, a thorough and comprehensive review of the operations and organization of state government is in order and is in the best interest of the State, not only to address the present economic crisis, but also for the future.

Your Committee has amended this measure as received by replacing its contents with the contents of the proposed draft of H.C.R. 76, H.D. 1, S.D. 1, which was circulated prior to this hearing and amending its title to read:

“HOUSE CONCURRENT RESOLUTION REQUESTING THE GOVERNOR NOT TO ADDRESS THE 2009 FISCAL YEAR BUDGET SHORTFALL BY REDUCING OR RESTRICTING THE DEPARTMENT OF EDUCATION'S AND UNIVERSITY OF HAWAII'S CURRENT APPROPRIATIONS,”

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 76, H.D. 1, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 76, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 5 (Chun Oakland, Fukunaga, Hee, Kokubun, Hemmings).

**SCRep. 1494      Commerce and Consumer Protection on H.C.R. No. 171**

The purpose of this measure is to request that the Auditor study the feasibility of removing amateur boxing from the jurisdiction of the State Boxing Commission.

Your Committee received testimony in support of this measure from two private citizens. Testimony in opposition to this measure was received from the State Boxing Commission and one private citizen. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that serious allegations have been made concerning the State Boxing Commission's alleged disregard for state law, state administrative rules, and the safety of both professional and amateur boxers. Although it is important to note that no formal proceedings or charges are currently pending against the Commission, because of the severity of the allegations against the Commission and the nature of the Commission's function as a regulatory body charged with providing safeguards to an inherently dangerous activity, an Auditor's investigation of the feasibility and desirability of removing amateur boxing from the Commission's jurisdiction is prudent. Your Committee notes that amateur boxing is a sport in which many participants are children, teenagers, and young adults. Your Committee finds that this measure should move forward in the interest of settling the numerous issues that have been raised regarding the oversight of amateur boxing in this State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 171, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Ayes with Reservations, 1 (Espero). Noes, none. Excused, 3 (Ihara, Sakamoto, Hemmings).

**SCRep. 1495      (Joint) Human Services and Health on H.C.R. No. 55**

The purpose of this measure is to request the Centers for Medicare & Medicaid Services to increase reimbursement to Hawaii providers.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs and the Hawaii Medical Service Association. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Medicare and Medicaid reimbursements are established according to fee schedules, which are adjusted according to a set of geographic practice cost indices. However, the geographic practices cost indices for the State of Hawaii are determined based upon the

locality of Hawaii and Guam. By including Hawaii and Guam as a single locality, the indices may not accurately reflect the costs incurred by Hawaii doctors. Your Committees find that the Centers for Medicare & Medicaid Services, upon its next periodic review of the geographic cost indices, should consider establishing Hawaii as a locality separate from Guam.

Your Committees have amended this measure and its title by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 55, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 55, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 3 (Baker, Ihara, Nishihara).

**SCRep. 1496 Human Services on H.C.R. No. 37**

The purpose of this measure is to request religious and faith-based organizations to serve as safe havens for victims of domestic violence.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and the Hawaii Family Forum and Hawaii Catholic Conference. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that victims of domestic violence often turn to their religious community for assistance, counseling, and referral services. The Hawaii State Coalition Against Domestic Violence is a private, not-for-profit statewide organization which coordinates domestic violence prevention and intervention services. Religious and faith-based organizations need to develop consistent and appropriate methods of addressing the prevention of domestic violence and providing "safe havens" for those trying to escape abusive relationships. In developing these methods, safety and the strengthening of families should be a priority.

Your Committee has amended this measure by expanding the purpose of the measure to include a working group of specified, interested stakeholders to develop appropriate ways to respond to the needs of victims of domestic violence, including providing safe havens.

Specifically, your Committee has amended the measure by:

- (1) Amending the title of the concurrent resolution to reflect the expansion of the purpose of the measure;
- (2) Including additional explanation paragraphs;
- (3) Specifying interested stakeholders including religious and faith-based organizations for the working group; and
- (4) Identifying additional stakeholders for the transmission of copies of the measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 37, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 1497 Energy and Environment on H.C.R. No. 266**

The purpose of this measure is to request the Department of Health, in consultation with the State Building Code Council and the counties, to develop a plan by which:

- (1) Section 342D-70, Hawaii Revised Statutes, and title 11, chapter 62, Hawaii Administrative Rules, may be given effect for residential premises not served by county wastewater systems, including review and approval by the Department of Health of plans for proposed gray water recycling systems;
- (2) The gray water provisions of the Uniform Plumbing Code may be made applicable to residential premises served by county wastewater systems; and
- (3) Designs proposing inclusion of gray water recycling systems in residential premises not served by county wastewater systems shall be routed by the appropriate county to the Department of Health for review as part of the process by which building permits are reviewed and approved.

Testimony in support of this measure was submitted by one private individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that, in certain areas of the State, there is a water shortage that could be alleviated by allowing gray water, such as water from sinks and showers, to be used for irrigation of gardens and lawns. Additionally, for areas not served by county wastewater systems, gray water use can greatly extend the useful life and capacity of septic systems. By reusing this resource, there are not only large energy and water savings, but also a reduction in the amount of wastewater that flows into our wastewater systems.

Your Committee notes, however, that the State Building Code Council has not yet adopted the State Building Code or the Uniform Plumbing Code, which incorporates gray water provisions. As such, the counties will not be required to adopt these provisions for at least two years, making it difficult for homeowners who wish to install gray water recycling systems for their homes.

Accordingly, your Committee has amended this measure by:

- (1) Reflecting the current status of the State Building Code adoption and resulting deadline for county implementation;
- (2) Clarifying the description of the process by which the State Building Code is adopted by the State Building Code Council and the counties;
- (3) Deleting the references to preemption and the request that the Department of Health develop a plan to institute the Uniform Plumbing Code, as such provisions may be premature at this time;
- (4) Urging the counties to consider adopting the Uniform Plumbing Code in the interim period until the counties are required to adopt the State Building Code;
- (5) Restructuring the measure to reflect an emphasis on developing a gray water recycling plan and on the county adoption of the gray water provisions of the Uniform Plumbing Code during the interim period; and
- (6) Making technical, nonsubstantive amendments for consistency, style, and accuracy purposes.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 266, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 266, S.D. 1.

Signed by the Majority Leader on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Green, Kokubun).

**SCRep. 1498 Health on H.C.R. No. 35**

The purpose of this measure is to request the Auditor to analyze a proposed measure calling for the regulation of home care agencies by the Department of Health.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that home care is a crucial component of the health care continuum. The need for home care is increasing along with Hawaii's aged and disabled population. Currently, home care agencies are not regulated or licensed in the State. Therefore, it is essential that home care case workers are adequately trained and ethically responsible to ensure the best quality care for the residents of Hawaii.

Your Committee has amended this measure by inserting the citation for the proposed House Bill No. 704, H.D. 1, S.D. 1 (2009), which calls for the regulation of home care agencies.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 35, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 35, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Baker, Hemmings).

**SCRep. 1499 Health on H.C.R. No. 51**

The purpose of this measure is to prevent and eradicate cervical cancer by requesting the Department of Health to increase educational efforts regarding cervical cancer screening and awareness by both men and all women.

Your Committee received testimony in support of the intent of this measure from the Department of Health. Testimony in support of this measure was received by Hawaii Medical Services Association and the American Cancer Society.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that all women should be educated on the importance of regular examinations that screen for early detection of cervical cancer. Though the federal Food and Drug Administration has approved the first vaccine that prevents cervical cancer and other diseases in females with an efficacy rate of ninety-five to one-hundred per cent, early detection remains the best prevention of cervical cancer for women who have not had the vaccine.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 51, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 51, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Baker, Hemmings).

**SCRep. 1500 Health on H.C.R. No. 215**

The purpose of this measure is to promote best practices in child birth by requesting the Department of Health to review and assess:

- (1) The criteria used by hospitals and physicians for indications for elective inductions or cesarean sections; and
- (2) The policies and procedures implemented by hospitals to reduce elective cesarean sections and induction of labor.

Your Committee received testimony in support of this measure from the March for Dimes and Healthy Mothers, Healthy Babies. Testimony in opposition to this measure was received by the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that there has been a sharp increase in the number of induction and elective surgical births in the past ten years that have increased the rate of pre-term births.

Your Committee further finds that the Healthcare Association of Hawaii is a non-profit organization that represents Hawaii's health care providers and would serve as a valuable asset to the review and assessment process conducted by the Department of Health.

Your Committee has amended this measure by requesting the Department of Health to conduct the review and assessment in consultation with the Healthcare Association of Hawaii and accordingly requiring a certified copy of this measure to be transmitted to the Chief Executive Officer of the Healthcare Association of Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 215, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 215, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Hemmings).

**SCRep. 1501 (Joint) Health and Economic Development and Technology on H.C.R. No. 148**

The purpose of this measure is to urge a state-led coordinated effort by the health care and technology communities to ensure that Hawaii is able to rapidly respond to and qualify for grant money offered in the American Recovery and Reinvestment Act of 2009 for Health Care Information Exchange technology.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, and the Healthcare Association of Hawaii.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that obtaining federal funding for health care technology that includes the health information exchange is vital to the improvement of Hawaii's medical technology infrastructure. Hawaii's unique geographical location necessitates that cutting edge ideas and technologies are fostered to help overcome issues regarding access to medical care, especially for disadvantaged and disabled populations and those residing in rural areas.

Your Committees have amended this measure by:

- (1) Amending the title to read:

"URGING THE GOVERNOR TO DESIGNATE, AND ASSERTING THE LEGISLATURE'S ENDORSEMENT OF, THE HAWAII HEALTH INFORMATION EXCHANGE, INC. TO SERVE AS THE STATE'S QUALIFIED STATE-DESIGNATED ENTITY TO EFFECTIVELY COORDINATE HEALTH INFORMATION EXCHANGE TECHNOLOGY INITIATIVES TO ENSURE THAT HAWAII IS ABLE TO RAPIDLY RESPOND TO AND QUALIFY FOR FUNDING THROUGH THE AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 FOR HEALTH CARE INFORMATION EXCHANGE TECHNOLOGY";

- (2) Clarifying that the Hawaii Health Information Exchange, Inc., is a 501(c) non-profit organization recently formed by key stakeholders in the Hawaii health care community including representatives from various hospitals, health insurers, physician organizations, federal community health centers, and other health care providers;
- (3) Inserting language that states "the Hawaii Health Information Exchange, Inc. is dedicated to the formation and operation of a health information exchange system in the State of Hawaii, which would allow a secure and rapid exchange of medical information";
- (4) Inserting language that states "the Hawaii Health Information Exchange, Inc. is dedicated to making any changes necessary to ensure that federal requirements are met to qualify Hawaii for funding through the American Recovery and Reinvestment Act of 2009";
- (5) Inserting language that states "the Hawaii Health Information Exchange, Inc. has pledged to raise private funds that will match state funds for health information technology initiatives";
- (6) Clarifying that "the Legislature fully supports and endorses the designation of the Hawaii Health Information Exchange, Inc. as the qualified state-designated entity to effectively coordinate health information exchange technology initiatives in Hawaii";
- (7) Adding the Chief Executive Officer of Hawaii Pacific Health; the Chief Executive Officer of The Queen's Health Services; the Chief Executive Officer of Waianae Coast Comprehensive Family Services; and the President of Clinical Laboratories of Hawaii to the list of individuals to receive certified copies of this Concurrent Resolution; and
- (8) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the records of votes of the members of your Committees on Health and Economic Development and Technology that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 148, as amended herein, and recommend its adoption in the form attached hereto as H.C.R. No. 148, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 4 (Fukunaga, Green, Hee, Hemmings).

**SCRep. 1502 Higher Education on Gov. Msg. Nos. 257, 259, 274, 526 and 527**

Recommending that the Senate advise and consent to the nominations of the following:

**CENTER FOR NURSING ADVISORY BOARD**

G.M. No. 257 JANE K. KADOHIRO DRPH, APRN, CDE, for a term to expire 6-30-2013;

G.M. No. 259 GARY R. KIENBAUM RN, for a term to expire 6-30-2013;

G.M. No. 274 ANA M. SILVA RN, CNA, BC, for a term to expire 6-30-2013;

G.M. No. 526 ALVIN GOO, for a term to expire 6-30-2013; and

G.M. No. 527 DENISE HOPKINS-CHADWICK, for a term to expire 6-30-2013.

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the Center for Nursing Advisory Board.

Jane K. Kadohiro is an Assistant Professor at the University of Hawaii School of Nursing and Dental Hygiene, where she has been a faculty member since 1991, and has served in numerous capacities at the Department of Health in her thirty years as a nursing professional. Ms. Kadohiro holds Bachelor of Science and Master of Science degrees in Nursing and Master's and Doctorate degrees in Public Health from the University of Hawaii. She is a Registered Nurse, Advance Practice Registered Nurse, and Certified Diabetes Educator. Ms. Kadohiro is the recipient of many academic and professional honors, with an extensive list of publications and scholarly work. She is active in numerous and diverse professional and community organizations and is a reappointment to the Center for Nursing Advisory Board.

Your Committee received testimony in support of this nomination from one individual.

Gary R. Kienbaum is a Nurse Manager at Kaiser Foundation Hospital, where he has held nursing management and hospital operations positions since 2002. Prior to that, he was a Director and Clinical Information Specialist at Castle Medical Center from 1995-2002, and has been an independent consultant to the Hawaii Health Systems Corporation since 1999. Mr. Kienbaum is a graduate of the University of Alaska with a Bachelor of Science Nursing Major and holds a Master of Science in Nursing from the University of Phoenix, where he is also a faculty member. He is also a guest lecturer at the University of Hawaii at Manoa and Hawaii Pacific University. Mr. Kienbaum is active in numerous professional organizations and is a reappointment to the Center for Nursing Advisory Board.

Your Committee received testimony in support of this nomination from the Hawaii State Center for Nursing and Healthcare Association of Hawaii.

Ana M. Silva is Director of Education at Kona Community Hospital, where she has been employed since 1986. She has over thirty-five years experience in nursing and is licensed in both Hawaii and California. Ms. Silva holds a Bachelor of Science in Nursing with honors from the University of Hawaii at Manoa and an American Nurses Credentialing Center Certification in Nursing Administration. She is active in numerous professional and community organizations, including the American Nurses Association, Hawaii Nurses Association, Sigma Theta Tau, and served on the University of Hawaii at Hilo Baccalaureate Nursing Program Advisory Committee. Ms. Silva is fluent in Spanish and serves as an interpreter for Kona Community Hospital and the community at large. She is a reappointment to the Center for Nursing Advisory Board.

Your Committee received testimony in support of this nomination from the University of Hawaii at Hilo's Department of Nursing, Hawaii State Center for Nursing, Kona Community Hospital and two individuals.

Alvin Goo is Assistant Vice President and Manager at First Hawaiian Bank, a position he has held since 1983, where he is responsible for a branch bank with thirteen employees and assets of \$165,000,000. He is a graduate of the University of Hawaii, holds a Master's Degree in Chinese Language from the University of Hawaii/Taiwan Normal University, a Master's in Business Administration from Chaminda University, and Graduate Studies in Finance from the Pacific Coast Banking School. Mr. Goo is active in a wide range of professional and community activities, including the Chinese Chamber of Commerce, Rotary Club of Waikiki, and Koko Marina Advisory Board. He has also served as a board member of the Waipahu Business Association, the American Cancer Society, and the Hawaii Community Development Authority.

Your Committee received testimony in support of this nomination from the Oahu Region Hawaii Health Systems Corporation and Hawaii State Center for Nursing.

Denise Hopkins-Chadwick is Chief, Nursing Research Service, Pacific Medical Region, Tripler Army Medical Center, and has over twenty years of nursing, research, and medical management experience with the United States Army. She is a graduate of Indiana University of Pennsylvania with a Bachelor of Science in Nursing and holds a Master's of Nursing from the University of Washington and a Doctorate from Ohio State University, with numerous additional courses in military education. Ms. Hopkins-Chadwick is the recipient of many United States military awards and honors and is the author of an extensive list of publications and professional presentations. She is a Certified Instructor in ABLS, TNCC, PHTLS, and an AMEDD Center and School Faculty Identifier, and a member of Sigma Theta Tau and the Emergency Nurses Association.

Your Committee received testimony in support of this nomination from Tripler Army Medical Center.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Higher Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Record of votes for Ana M. Silva RN, CNA, BC and Alvin Goo:  
Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

Signed by the Chair on behalf of the Committee.

Record of votes for all other nominees:

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1503 Higher Education on Gov. Msg. Nos. 311 and 525**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE RESEARCH CORPORATION OF THE UNIVERSITY OF HAWAII

G.M. No. 311 GUY P. ONTAL, for a term to expire 6-30-2013; and

G.M. No. 525 ROBERT D. DEWITZ, for a term to expire 6-30-2013.

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Guy P. Ontai and Robert D. Dewitz to have the necessary qualifications to be appointed to the Board of Directors of the Research Corporation of the University of Hawaii.

Guy P. Ontai is Co-founder, Chairman and Chief Executive Officer of Alaka'i Consulting and Engineering, Inc., which assists clients in research development, product employment, and marketing. Prior to founding his business, Mr. Ontai was Chief Military Technology Integration Officer for Homeland Security with the State of Hawaii Department of Defense, and has held executive positions with Pacific American Foundation and Pacific American Research Center, and taught physics at both the high school and college level for eleven years. He is a Retired United States Army Major, Corps of Engineers, and a former member of the State of Hawaii House of Representatives. Mr. Ontai is a graduate of the United States Naval Academy and holds a Masters of Physics degree from the Massachusetts Institute of Technology. He is active in numerous professional and community associations, including serving as Director of the Arizona Memorial Museum Association, as a member of the Native Hawaiian Chamber of Commerce, Central Oahu Lions Club, Small Business Hawaii, and Life Member of the United States Chess Federation. Mr. Ontai is a reappointment to the Board of Directors of the Research Corporation of the University of Hawaii.

Your Committee received testimony in support of this nomination from the Research Corporation of the University of Hawaii; Akimeka Technologies, LLC; and one individual.

Robert D. Dewitz is Chief Executive Officer and sole shareholder of Hawaii Select Investments, Inc., and wholly owned subsidiaries American Electric Co., LLC and CranePro Services, with investments in several Hawaii based advanced technology and medical research firms. He has also been a Managing Partner with Seattle Industrial Motor & Machine Company and with Pacific Defense Systems in San Diego, California, and has over thirty years of executive level experience in Hawaii and elsewhere. Mr. Dewitz is a former Director of the Hawaii Strategic Development Corporation and served as an Engineering Officer in the United States Navy. He is a graduate of the University of New Hampshire, holds a Masters of Business Administration from the University of Hawaii, and is currently enrolled in the Harvard Business School Executive Education Program. Mr. Dewitz serves as Director and Executive Committee Member of the USS Missouri Memorial Association, as a member and former Director of the Navy League of the United States, and a member and former Director of Outrigger Canoe Club. Mr. Dewitz is a new appointment to the Board of Directors of the Research Corporation of the University of Hawaii.

Your Committee received testimony in support of this nomination from the Research Corporation of the University of Hawaii; BAE Systems Ship Repair; the Estate of James Campbell; and four individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Higher Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1504 Higher Education on Gov. Msg. No. 312**

Recommending that the Senate advise and consent to the nomination of the following:

WESTERN INTERSTATE COMMISSION FOR HIGHER EDUCATION (WICHE)

G.M. No. 312 ROBERTA M. RICHARDS, for a term to expire 6-30-2013.

Your Committee reviewed the personal history, resume, and statement submitted by the nominee, and finds Roberta M. Richards to have the necessary qualifications to be appointed to the Western Interstate Commission for Higher Education.

Your Committee received testimony in support of this nomination from the Western Interstate Commission on Higher Education. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Roberta M. Richards is currently in her third year as the Principal at Pauoa School and has been an educator in Hawaii for over forty years, including many teaching and administration positions with the Department of Education. Ms. Richards is a graduate of the University of Hawaii, with a Bachelor of Arts in Sociology and a Masters of Education in Educational Foundation. She holds professional certificates in Counseling and in Teaching the Disadvantaged. Ms. Richards is also active in community organizations and currently serves as a member of the Susannah Wesley Foundation, Reid Richards Foundation, and is a past member of the Manoa Boys Baseball Commission. She is a reappointment to the Western Interstate Commission for Higher Education.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1505 Human Services on Gov. Msg. No. 583**

Recommending that the Senate advise and consent to the nomination of the following:

EARLY LEARNING COUNCIL

G.M. No. 583 DEBORA ANN KAIKALA, for a term to expire 6-30-2011.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Debora Ann Kaikala to have the requisite qualifications to be nominated to the Early Learning Council.

Testimony in support of the nomination was submitted by the Department of Human Services. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Kaikala has received her Child Development Associate credentials, and worked as a family child care provider for more than ten years. She is presently employed as a family group child care home provider. Ms. Kaikala satisfies the requirement that a member represent family child care home providers. She serves on the Advisory Committee for the Department of Human Services, is the President of the Oahu Family Child Care Business Association, and has been a PATCH mentor.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, none.

**SCRep. 1506 Human Services on Gov. Msg. Nos. 523 and 524**

Recommending that the Senate advise and consent to the nominations of the following:

STATE REHABILITATION COUNCIL

G.M. No. 523 NORITA DE LIMA, for a term to expire 6-30-2012; and

G.M. No. 524 GRETCHEN LAWSON, for a term to expire 6-30-2012.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Norita De Lima and Gretchen Lawson to have the necessary qualifications to be nominated to the State Rehabilitation Council.

Testimony in support of the nomination of Norita De Lima was submitted by the Department of Human Services.

Ms. De Lima received her Clerical Certificate from Hawaii Community College and her Office Training Certification from Maui Community College. She presently serves as Chairperson for the Maui County Commission on Persons with Disabilities. Ms. De Lima satisfies the requirements that one member be a current or former recipient of vocational rehabilitation services and a representative of the County of Maui.

Ms. De Lima is an active volunteer in Maui County and participates in many of the community's rehabilitation programs that aid in the employment of persons with disabilities. She will provide both a community and personal perspective for the State Rehabilitation Council. Ms. De Lima is a Disability Advocate for Christ the King Church, Disability Awareness and Safety Officer for Robert's Transportation, Senior Volunteer at Hale Mahaolu, Volunteer Greeter at Maui County Information Center, and a Volunteer Clerk for Kaunoa Senior Center.

Testimony in support of the nomination of Gretchen Lawson was submitted by the Department of Labor and Industrial Relations and the Department of Human Services.

Ms. Lawson received her Bachelor's degree in Literature and Drama from the University of Washington, her Bachelor's degree in Speech and Communications with a teaching certificate from Western Washington University, and has completed graduate coursework in Education at Central Washington University. She is presently employed as the President and Chief Executive Officer of Arc of Kona/Kona Krafts. Ms. Lawson satisfies the requirements that one member be a representative of community rehabilitation program service providers and a representative of the County of Hawaii.

Ms. Lawson is a tireless educator for employers and the larger community on the virtues of hiring and retaining persons with disabilities, and an advocate for self-sufficiency. She has extensive experience writing proposals to fund education and vocational rehabilitation programs, including proposals involving the United States Department of Housing and Urban Development Section 8 Housing, Community Service Block Grants, the Job Training and Partnership Act, and Vocational Rehabilitation. Ms. Lawson has experience in management, budget analysis, and compliance standards for federal and state contracts. She is an experienced public speaker, and accomplished group facilitator. Her technical knowledge and ability to work with key stakeholders will make her an asset for the State Rehabilitation Council.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1507 Judiciary and Government Operations on Gov. Msg. Nos. 510, 511 and 512**

Recommending that the Senate advise and consent to the nominations of the following:

LANGUAGE ACCESS ADVISORY COUNCIL

- G.M. No. 510 ANH BROW, for a term to expire 6-30-2013;  
G.M. No. 511 JENNIFER LANI LI, for a term to expire 6-30-2011; and  
G.M. No. 512 AZI TURTURICI, for a term to expire 6-30-2013.

Your Committee received testimony in support of Anh Brow from the Office of Language Access and two private entities.

Anh Brow received a Master of Business Administration degree in Financial Administration from the University of Maryland at College Park, Maryland, where she also earned a Bachelor of Science degree in Business Administration. She has been the Executive Vice President and Head of International Banking at the Bank of Hawaii since 2007. Prior thereto, the nominee held executive and management positions at American Savings Bank, International Bank of Asia, and Bankers Trust Company in Hong Kong. Ms. Brow has been a board member for several commerce trade organizations in Hawaii, as well as the Pacific and Asian Affairs Council.

Your Committee notes from the statement of the nominee that she has extensive international experience working for the U.S. State Department in Moscow, Beijing, and Hong Kong, prior to moving to Hawaii.

Your Committee received testimony in support of Jennifer L. Li from the Office of Language Access, two State Representatives, and several individuals.

Jennifer L. Li received a Master of Science degree from the London School of Economics and a Bachelor of Science degree from Georgetown University. She is currently employed by the Muscular Dystrophy Association. Ms. Li is active in community organizations. She also serves as an English as a Second Language reading tutor for Hawaii Literacy.

Your Committee received testimony in support of Azi Turturici from the Office of Language Access, Kauai County Mayor, one Kauai county agency, and one individual.

Azi Turturici was educated at the Universidad Nacional Autonoma de Nicaragua School of Economics. Since 1995, the nominee has been employed by the County of Kauai Agency on Elderly Affairs. Ms. Turturici is a member of several Kauai community organizations.

Your Committee believes that the nominees have the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Judiciary and Government Operations that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1508 Judiciary and Government Operations on Gov. Msg. No. 529**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLANDS OF MAUI, MOLOKAI, LANAI, AND KAHO'OLAWA

- G.M. No. 529 SUSAN PIRSCH, for a term to expire 6-30-2013.

Your Committee received testimony in support of Susan Pirsch from the Office of Elections and two individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Susan Pirsch has been a school guidance counselor at Seabury Hall College Preparatory Academy since August, 2000. She was also the Associate Director of Development at Seabury Hall from October, 1999 to August, 2000. Prior thereto, Ms. Pirsch has held positions with UpCountry Youth Center, Inc., as Executive Director; Maui Community Mental Health Center; Maui Association for Retarded Citizens; Maui Youth and Family Services; Boston English Academy; and Sea Grant Extension Services. The nominee received a Bachelor of Art degree in Journalism with a minor in Japanese culture and language from the University of Hawaii, where she also received a Graduate Certificate in Public Health. She also received a Masters of Counseling in Marriage and Family Therapy from the University of Phoenix in Wailuku, Maui. Ms. Pirsch is a member of several community organizations on Maui, and served on the Hawaii State Commission on the Status of Women from 2003 to 2007.

Your Committee believes that the nominee has the appropriate attitude, commitment, sincerity, and dedication that is necessary for public service.

As affirmed by the record of votes of the members of your Committee on Judiciary and Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1509      Judiciary and Government Operations on Gov. Msg. Nos. 584 and 585**

Recommending that the Senate advise and consent to the nominations of the following:

COMMISSION ON THE STATUS OF WOMEN

G.M. No. 584    ADRIENNE S. KING, for a term to expire 6-30-2013; and

G.M. No. 585    CHERIE A. MOOY, for a term to expire 6-30-2010.

Your Committee received testimony in support of Adrienne S. King from the Hawaii State Commission on the Status of Women and several individuals.

Adrienne S. King received a Bachelor of Science degree from the University of Detroit Mercy, and a Juris Doctor degree from the University of Detroit Mercy Law School. She is a partner in the law firm of King & King, Attorneys at Law, focusing primarily on divorce, paternity, child custody, child support, temporary restraining orders, criminal defense, and personal injury cases. Ms. King has extensive experience as a trial lawyer in civil and criminal cases. Her resume reflects extensive membership in numerous community and professional organizations, as well as community volunteer work.

Your Committee received testimony in support of Cherie A. Mooy from the Hawaii State Commission on the Status of Women, Kauai Mayor, one Kauai government entity, and two individuals.

Cherie A. Mooy works for Kauai Community College as a Faculty Nursing Instructor, ADN Program, in clinical med-surgery, geriatrics, oncology, genetics, nutrition, and psychosocial nursing. Prior thereto, she held similar positions in California at San Jose State University and Cabrillo College, as well as several nursing positions at various California hospitals. Ms. Mooy received a Master of Science in Nursing degree from San Jose State University, a Bachelor of Science in Nursing degree from the University of the State of New York, and an Associate of Science in Nursing degree from Cabrillo College in California. She also received a Bachelor of Arts degree in Sociology from the University of California at Santa Cruz. Ms. Mooy belongs to numerous professional and community organizations, and is the Chair of the Kauai County Committee on the Status of Women.

Your Committee believes that the nominees have the appropriate attitude, commitment, sincerity, and dedication that are necessary for public service.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Judiciary and Government Operations that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Bunda).

**SCRep. 1510      Commerce and Consumer Protection on Gov. Msg. No. 262**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PROFESSIONAL ENGINEERS, ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS

G.M. No. 262    SHELLI A. MCCELVEY, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nominee from the Department of Commerce and Consumer Affairs. A written statement and resume was received from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee for reappointment to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects is one of two landscape architects on the Board and, as such, represents a valuable perspective on the Board. Your Committee finds that this nominee frequently attends national meetings of landscape architects and brings that information back to the Board. However, your Committee also notes that this nominee has a sporadic attendance record at Board meetings and, despite living on Oahu, did not attend either of the hearings that your Committee scheduled to hear this nomination. Your Committee finds that this nominee's professional background and experience are valuable to the Board, but also finds that members' commitment and active participation is critical for the successful fulfillment of the Board's advisory and regulatory functions.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Ayes with Reservations, 4 (Baker, Espero, Green, Ige). Noes, none. Excused, 3 (Ihara, Sakamoto, Hemmings).

**SCRep. 1511      Economic Development and Technology on Gov. Msg. No. 288**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII HISTORIC PLACES REVIEW BOARD

G.M. No. 288 JAMES S. GUEQUIERRE, for a term to expire 6-30-2013.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds James S. Guequierre to possess the requisite qualifications to be nominated to the Hawaii Historic Places Review Board.

Testimony in support of this nominee was submitted by the Department of Land and Natural Resources. Written testimony presented to the Committee may be reviewed on the Legislature's website.

James S. Guequierre has obtained over thirty years of experience primarily working as a principal interior designer, space planner, and managing director for some of the country's leading architectural firms. Some of the specific projects that Mr. Guequierre has worked on include corporate offices, financial institutions, legal offices, restaurants, clubs, dining establishments, and extreme environments.

Your Committee finds that the wide range of professional and personal experiences of James S. Guequierre will be an asset to the Hawaii Historic Places Review Board in the Board meeting its objectives and goals over the next few years.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1512 Economic Development and Technology on Gov. Msg. Nos. 292 and 421**

Recommending that the Senate advise and consent to the nominations of the following:

KING KAMEHAMEHA CELEBRATION COMMISSION

G.M. No. 292 ALBERTA L. SANDERS, for a term to expire 6-30-2012.; and

G.M. No. 421 JACQUELINE L. ROSSETTI, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Alberta L. Sanders and Jacqueline L. Rossetti to possess the requisite qualifications to be nominated to the King Kamehameha Celebration Commission.

Testimony in support of the nomination of Alberta L. Sanders was submitted by the Department of Accounting and General Services and three concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Alberta L. Sanders was born and raised in Hawaii and has immersed herself into the Hawaiian culture and heritage throughout her life. She has extensive experience working with the people of various communities and has helped to coordinate many community events and celebrations. Alberta L. Sanders' experiences while serving as the Vice President of the Ahahui Kaahumanu has sharpened her public speaking, project planning, and communication skills.

Your Committee finds that confirmation of Alberta L. Sanders to the King Kamehameha Celebration Commission will bring an enthusiastic individual who will perpetuate the Hawaiian culture and legacy of King Kamehameha.

Testimony in support of the nomination of Jacqueline L. Rossetti was submitted by the Department of Accounting and General Services and three concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Jacqueline L. Rossetti has an extensive background in the study and promotion of the Hawaiian culture and music. She has spent time working as a Hawaiiana consultant and educator, as well as promoting and coordinating various Hawaiian celebrations, recognition events, and music awards. Jacqueline L. Rossetti has made a career in the local broadcasting industry and co-founded the Na Hoku Hanohano Awards. Her willingness to work with people in the community on all matters pertaining to Hawaiian culture, heritage, and music has been unsurpassed.

Your Committee finds that Jacqueline L. Rossetti will be a tremendous asset to the King Kamehameha Celebration Commission in helping them achieve their goals by successfully carrying out each of the Commission's celebrations.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1513 Public Safety and Military Affairs on Gov. Msg. Nos. 363, 365 and 588**

Recommending that the Senate advise and consent to the nominations of the following:

WIRELESS ENHANCED 911 BOARD

G.M. No. 363 GOLDIE K. CROSS, for a term to expire 6-30-2010;

G.M. No. 365 JAMES D. LACLAIR, for a term to expire 6-30-2010; and

G.M. No. 588 ERIC KNUTZEN, for a term to expire 6-30-2012.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Goldie K. Cross, James D. LaClair, and Eric Knutzen to possess the requisite qualifications to be nominated to the Wireless Enhanced 911 Board.

Testimony in support of the nomination of Goldie K. Cross was submitted by one state agency, two private organizations, and five individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Goldie K. Cross has obtained over twenty-two years of experience working at various levels in the telecommunications industry. During that period she has obtained an extensive background on the emerging technologies that have shaped the telecommunications industry. During the past three years Goldie K. Cross has obtained detailed knowledge surrounding the needs of emergency 911 wireless calls in her position as E911 Sustainment and Network Sales Support Manager for AT&T Mobility.

Your Committee finds that Goldie K. Cross would be a valuable addition to the Wireless Enhanced 911 Board in assisting the Board with evaluating and recommending new equipment that would be needed to deliver emergency 911 calls to the Public Safety Answering Points in this State.

Testimony in support of the nomination of James D. LaClair was submitted by one state agency, one county agency, and one private organization. Written testimony presented to the Committee may be reviewed on the Legislature's website.

James D. LaClair has obtained over thirty years of experience in the telecommunications industry, including twenty years operating 911 networks in Hawaii, Oregon, and Washington. Most recently James D. LaClair has served as Vice President of Network Operations for Hawaiian Telcom. One of his primary duties in that position has been to provide direct responsibility over the operation and maintenance of Hawaii's emergency 911 infrastructure.

Your Committee finds that the prior knowledge and experiences gained by James D. LaClair while operating and managing 911 networks will serve as an invaluable source of information for the Wireless Enhanced 911 Board.

Testimony in support of the nomination of Eric Knutzen was submitted by one state agency, two county agencies, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

For the past six years Eric Knutzen has led IT/Communication projects for the County of Kauai. During that period Mr. Knutzen has also held the position of Deputy Director of Finance for the County of Kauai. Mr. Knutzen's efforts in reorganizing the IT Division and insourcing the work of the Division have resulted in a savings of over \$2,200,000 for the IT Division.

Your Committee finds that the broad-based IT/Communication experiences that Mr. Knutzen has gained while working in the telecommunications industry throughout the world will help to lead the Wireless Enhanced 911 Board as it proceeds toward implementing and operating emergency 911 services throughout the State.

As affirmed by the records of votes of the members of your Committee on Public Safety and Military Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Record of votes for Eric Knutzen:

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

Signed by the Chair on behalf of the Committee.

Record of votes for all other nominees:

Ayes, 4. Noes, none. Excused, 3 (Bunda, English, Hemmings).

**SCRep. 1514 Public Safety and Military Affairs on Gov. Msg. Nos. 364 and 366**

Recommending that the Senate advise and consent to the nominations of the following:

**CIVIL DEFENSE ADVISORY COUNCIL**

G.M. No. 364 CREIGHTON W. GOLDSMITH, for a term to expire 6-30-2013; and

G.M. No. 366 RANDY L. PROTHERO, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Creighton W. Goldsmith and Randy L. Prothero to possess the requisite qualifications to be nominated to the Civil Defense Advisory Council.

Testimony in support of the nomination of Creighton W. Goldsmith was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Creighton W. Goldsmith has obtained over thirty-eight years of experience as an inspector for United States Customs and Border Protection. During his years of service he has been responsible for both the seaports and airports in Honolulu. Mr. Goldsmith has also worked as an International Operations Officer in Laos, Thailand, Korea, the Philippines, Cyprus, Malaysia, Slovenia, Paraguay, and Russia. He has also worked closely in assisting President Clinton's administration as a Press Delegation Customs Officer and as an advisor to the military in support of Operation Enduring Freedom.

Your Committee finds that the reappointment of Creighton W. Goldsmith to the Civil Defense Advisory Council will continue to pay dividends for the Council as they work toward anticipating, preventing, and resolving all external threats to the State, whether created by nature or by man.

Testimony in support of the nomination of Randy L. Prothero was submitted by one state agency, one state representative, and six individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Randy L. Prothero has resided in Hawaii for almost thirty years and has been very active in the communities where he has lived and worked. Mr. Prothero currently serves on the Civil Defense Advisory Council and he is a tremendous asset to the Council by serving as the eyes and ears of the public. Mr. Prothero has also benefited the Council by relaying the Council's safety procedures and other critical information to the public when an emergency or other disaster has occurred in the State. Specifically, Mr. Prothero has often served as a voice for the communities where he lives and works in raising the various concerns of the public to the Council during an emergency or natural disaster.

Your Committee finds that Mr. Prothero's work as a Realtor throughout the State and his extensive volunteer and community service has enabled him to put a pulse on the public's concerns about potential catastrophic disasters or manmade attacks on our State.

As affirmed by the records of votes of the members of your Committee on Public Safety and Military Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, English, Hemmings).

**SCRep. 1515      Transportation, International and Intergovernmental Affairs on H.C.R. No. 303**

The purpose of this measure is to support the Peace Corps Expansion Act of 2009.

Your Committee received testimony in support of this measure from ten individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee notes that since President John F. Kennedy established the Peace Corps, it has served in over 139 countries with more than 195,000 volunteers. Since that time, 1,274 volunteers from Hawaii have served in the Peace Corps. It is important to note that the majority of returned Peace Corps volunteers continue to provide services and play important roles as leaders in communities across the nation. Because of these volunteers' great dedication and hard work, over twenty countries have recently requested a Peace Corps program. Those countries with existing programs have expressed a welcome invitation to additional volunteers.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 303, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1516      Transportation, International and Intergovernmental Affairs on H.C.R. No. 309**

The purpose of this measure is to denounce the violation of human rights in Tibet.

Your Committee received testimony in support of this measure from one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that Tibetans are regularly subjected to human rights abuses. These human rights abuses take many forms including disappearance, arbitrary arrest, torture, beatings, and solitary confinement. Tibetan women and children are also subject to mistreatment. They reportedly suffer from sexual abuse, violation of their reproductive rights, and discrimination in education by the Chinese government.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 309, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1517      Health on Gov. Msg. Nos. 335 and 336**

Recommending that the Senate advise and consent to the nominations of the following:

**MENTAL HEALTH AND SUBSTANCE ABUSE, MAUI SERVICE AREA BOARD**

G.M. No. 335    KARIN E. PHANEUF, for a term to expire 6-30-2012; and

G.M. No. 336    SHERRY L. POPPE, for a term to expire 6-30-2012.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to mental health and substance abuse for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Mental Health and Substance Abuse, Maui Service Area Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ms. Karin E. Phaneuf has over 20 years of experience in work-related vocational and life skills counseling, of which sixteen years were spent with employers located on the island of Maui. She has a Master's Degree in Technical Management. Currently, Ms. Phaneuf works with Arbor Education and Training assisting persons with mental or physical disabilities who receive welfare services, to obtain employment. Her community service includes membership in the Maui Homeless Alliance. Ms. Karin E. Phaneuf fulfills a provider representative position on the Board.

Ms. Sherry L. Poppe received her Bachelor's Degree from the Oregon Institute of Applied Technology in Applied Psychology and her Master's Degree from Cappella University in Human Services with a specialty in mental health. She worked with the Maui Assertive Community Treatment Team as a recovery manager. While living in Oregon, Ms. Poppe was employed by Klamath City Juvenile Detention Center and by Lutheran Community Services. Ms. Sherry L. Poppe fulfills a provider representative position on the Board.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1518 Health on Gov. Msg. Nos. 329 and 340**

Recommending that the Senate advise and consent to the nominations of the following:

**MENTAL HEALTH AND SUBSTANCE ABUSE, OAHU SERVICE AREA BOARD**

G.M. No. 329 THOMAS J. MCCORMACK, for a term to expire 6-30-2013; and

G.M. No. 340 LINDA H. SHEA, for a term to expire 6-30-2011.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to mental health and substance abuse for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Mental Health and Substance Abuse, Oahu Service Area Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Thomas J. McCormack from two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Thomas McCormack has been a mental health advocate for many years. He served on the Oahu Service Area Board on Mental Health from 2000 to 2004, and is being recommended for a second term. Mr. McCormack's constituency relates to his active, ongoing membership in the Honolulu Clubhouse. Mr. McCormack received his Bachelor's degree from Boston University and the University of Massachusetts in 1977. He completed one year of graduate school at Brown University where he was nominated for the prestigious Untermyer Fellowship in Poetry. Mr. McCormack volunteered as a legislative advocate with the National Alliance for the Mentally Ill. Mr. Thomas McCormack fulfills a consumer representative position on the Board.

Ms. Linda H. Shea has been employed as a Mental Health Peer Specialist with Community Empowerment Services for the last two years. She has worked with the Department of Education's Parent -Community Networking Centers as a State and District Facilitator and Trainer and as a preschool teacher for Kama'aina Kids. Ms. Shea was mentioned in Governor Waihee's 1990 State of the Union address due to her work with latch-key children and the need to fund the "A Plus" program. She was also the first woman to hold the Office of President of Oxford Houses, Inc. for the Windward District in 1996. Ms. Linda H. Shea fulfills a consumer representative position on the Board.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1519 Health on Gov. Msg. No. 508**

Recommending that the Senate advise and consent to the nomination of the following:

**MENTAL HEALTH AND SUBSTANCE ABUSE, KAUA'I SERVICE AREA BOARD**

G.M. No. 508 SHEILA L. CALCAGNO, for a term to expire 6-30-2011.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to mental health and substance abuse for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on her credentials, integrity, and a desire to make Hawaii better through her participation on the Mental Health and Substance Abuse, Kaua'i Service Area Board to which she has been nominated.

Your Committee received testimony supporting the nomination of Sheila L. Calcagno from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ms. Calcagno, a family representative, has lived in Hawaii for thirty-four years and has been a member of the Kauai community for the past fourteen years. She has been employed for the last eight years by the Community Health Outreach Work to Prevent AIDS Project (CHOW Project) as the sole project outreach worker on Kauai. In this role, she provides the community, particularly the homeless, with harm reduction philosophies and strategies to improve their health including the prevention of Human Immunodeficiency Virus, Acquired Immune Deficiency Syndrome, Hepatitis C and other blood borne pathogens among high risk drug users. Ms. Calcagno's life experiences are most relevant to the issues and concerns of the Kauai Service Area Board on Mental Health and Substance Abuse including membership in the National Alliance for the Mentally Ill (NAMI). She also has a certificate in Human Services from the University of Hawaii, Hilo, has a certificate for HAZMAT transportation, and has completed a four-year term on the Community Planning Board for HIV on Oahu.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1520 Health on Gov. Msg. No. 509**

Recommending that the Senate advise and consent to the nomination of the following:

STATE COUNCIL ON MENTAL HEALTH

G.M. No. 509 JONATHAN T. HARRIS, for a term to expire 6-30-2011.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to mental health for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the State Council on Mental Health to which he has been nominated.

Your Committee received testimony supporting the nomination of Jonathan T. Harris from the Department of Health and the Department of Human Services.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Harris, a state agency representative, is being recommended by the Department of Human Services to serve as the federally-mandated Medicaid representative on the State Council on Mental Health. For the past year, Mr. Harris has been employed by the State of Hawaii, MedQUEST Division, Health Care Services Branch as a registered nurse consultant. Prior to this, Mr. Harris was employed by Kahi Mohala Behavioral Health Hospital. From 1996 to 2006, he worked in the Department of Health's Office of Health Care Assurance, participating in the licensure and assuring the quality of care of the State's Adult Residential Care Homes. Mr. Harris also served with the United States Naval Reserve from 1991-1999, completing his work with an Honorable Discharge. He has also served as a volunteer for the Hawaiian Humane Society.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1521 Health on Gov. Msg. Nos. 577 and 578**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF CERTIFICATION OF OPERATING PERSONNEL IN WASTEWATER TREATMENT PLANTS

G.M. No. 577 WESLEY L.K.M. LIM, for a term to expire 6-30-2012; and

G.M. No. 578 BRADLEY M. PIERCE, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to the certification of operating personnel for wastewater treatment plants for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Board of Certification of Operating Personnel in Wastewater Treatment Plants to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Board of Certification of Operating Personnel in Wastewater Treatment Plants and the Department of Health. Additional testimony was submitted supporting the nomination of Wesley L.K.M. Lim by one individual. Additional testimony was submitted supporting the nomination of Bradley M. Pierce by the County of Maui Department of Environmental Management, the County of Maui Department of Environmental Management Wastewater Reclamation Division Operations and Maintenance, and one individual.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. Lim is currently employed by the City and County of Honolulu as a Wastewater Treatment Plant Supervisor IV at the Kailua Wastewater Treatment Plant. He is also a certified Grade IV operator in good standing with the Board, and will be a welcomed addition to the fill the vacant Oahu position on the Board.

Mr. Pierce has been employed by the County of Maui as a Wastewater Treatment Plant Operator at the Kihei Wastewater Reclamation Facility since October 1997. Mr. Pierce has a Grade IV (highest level) Wastewater Treatment Plant Operator Certificate and is in good standing with the Board. He will be a welcomed addition to fill the Maui representative's position on the Board effective, July 1, 2009.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1522 Health on Gov. Msg. No. 582**

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF HEALTH

G.M. No. 582 ROGER B. MCKEAGUE, for a term to expire 6-30-2013.

Upon review of the statement submitted by the nominee, your Committee finds that the aforementioned nominee will work with compassion and commitment to assist in administering the functions related to health for the people of Hawaii. Your Committee further finds that the nominee has been appointed based on his credentials, integrity, and a desire to make Hawaii better through his participation on the Board of Health to which he has been nominated.

Your Committee received testimony supporting the nomination of Roger B. McKeague from the Department of Health.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Mr. McKeague currently serves as the Chair of the Board of Health. He has extensive experience in both public administration and private business operations. He has been a member of the Hawaii State Bar Association since 1994. He currently works with the Hawaii Charter School Administrative Office. Mr. McKeague has been an active member of the Board since 2004 and brings issues relating to student health and education to the attention of the Department of Health.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1523 Health on Gov. Msg. Nos. 473 and 474**

Recommending that the Senate advise and consent to the nominations of the following:

HEALTH PLANNING COUNCIL, HONOLULU SUBAREA

G.M. No. 473 TRACY H. OKUBO, for a term to expire 6-30-2013; and

G.M. No. 474 SUSAN STALDER, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to health care planning for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Health Planning Council, Honolulu Subarea, to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted by the Hawaii Medical Association and six individuals supporting the nomination of Tracy H. Okubo, and by three individuals supporting the nomination of Susan Stalder.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Tracy H. Okubo currently works as a Researcher for the House Judiciary Committee. She has over ten years of experience in government, working in various capacities with the Legislature. She has worked closely with the Chair of the House Judiciary Committee this session on crafting public health policy regarding health information technology and exchange. Ms. Okubo is also a consumer, having been diagnosed with systemic lupus erythematosis and rheumatoid arthritis nearly fifteen years ago.

Susan Stalder is President of Stalder Communications. She has an excellent background in health care, serving as Director of Development at the D.C. Primary Care Association in Washington, D.C., Executive Director of Community HealthCare Center in Savannah, Georgia, and Director of Development at Parrish Medical Center in Titusville, Florida. She is active in our community and serves as a volunteer to the Marine Corps.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1524 Health on Gov. Msg. Nos. 503, 504, 506 and 507**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII ADVISORY COMMISSION ON DRUG ABUSE AND CONTROLLED SUBSTANCES

- G.M. No. 503 BILLIE GABRIEL, for a term to expire 6-30-2013;  
 G.M. No. 504 LOUIS M. KEALOHA, for a term to expire 6-30-2013;  
 G.M. No. 506 MICHELE S. SCOFIELD, for a term to expire 6-30-2013; and  
 G.M. No. 507 STEVEN M. SHIRAKI, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to drug abuse and controlled substances for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Hawaii Advisory Commission on Drug Abuse and Controlled Substances to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted by eight individuals supporting the nomination of Billie Gabriel and two individuals supporting the nomination of Steven M. Shiraki.

Billie Gabriel is a self-employed consultant who is engaged in public relations, marketing, advertising, event planning, and fundraising. Her thirty-year career has also involved managing comprehensive development, media relations, brand imaging, sponsor recruitment, donor relations, and legislative lobbying. As Vice-President of Development with Easter Seals Hawaii between 1993 and 2007, she developed a comprehensive strategy, marketing, and media plan to create greater awareness of the organization and its programs and services. Between 1979 and 1992, Ms. Gabriel served as Director of Community Relations for Kapiolani Medical Center with responsibilities for managing fundraising events such as the Children's Miracle Network Telethon.

Louis M. Kealoha is a Captain with the Honolulu Police Department (HPD), Juvenile Services Division. He is currently on special assignment to the Narcotics Vice Division. Prior to his current assignment, Captain Kealoha's service with HPD has included: Patrol Officer, Field Training Officer, Patrol Sergeant, Training Sergeant, Recruit Class Supervisor, Training and Administrative Lieutenant, and Captain within the Criminal Investigation Division. In addition to his work with the Honolulu Police Department, Captain Kealoha is an Adjunct Professor and Lecturer in courses on criminal law, criminology and the criminal justice system at Chaminade University of Honolulu. He holds dual baccalaureate degrees (in human services and occupational education), a Master's of Science in Criminal Justice Administration, and a Doctor of Education degree.

Michele S. Scofield is a Practicum Instructor/Project Junior Specialist with the University of Hawaii at Manoa, School of Social Work, Pulama I Ke ala Social Work Master's Program Training Project. In addition to academic credentials in the field of social work, she is a licensed social worker and certified substance abuse counselor. Ms. Scofield's experiences in programs that address behavioral health include: classroom experience with special education students at Wheeler Elementary School, Nimitz Elementary School, Pearl Harbor Kai Elementary School, and Hickam Elementary School; public and consumer education with the Department of Health, Adult Mental Health Division and Mental Health Association; and clinical experience in the field of substance abuse at Hina Mauka.

Dr. Steven M. Shiraki is the Administrator/Educational Specialist with the Department of Education Student Support Section of the Office of Curriculum, Instruction and Student Support, Student Support Services Branch. He has an extensive academic and professional background in the field of education. His areas of specialization are special education and legal issues for administrators, supervision and teacher development, and curriculum/instructional leadership. He began his professional work with the Department of Education in 1993 as a Special Education Teacher at Kawanakoa Intermediate School and served as Vice Principal at various elementary schools before serving as a District and State Educational Specialist. Dr. Shiraki has taught college courses and has given numerous scholarly and professional presentations. Dr. Shiraki is jointly appointed (pursuant to Sections 329-2 and 334-10, Hawaii Revised Statutes) to the State Council on Mental Health, due to his extensive knowledge of the community and the relationships between mental health, mental illness and substance abuse.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1525 Health on Gov. Msg. Nos. 469, 470, 472 and 528**

Recommending that the Senate advise and consent to the nominations of the following:

STATEWIDE HEALTH COORDINATING COUNCIL

- G.M. No. 469 JOHN J. BARNETT PHD, for a term to expire 6-30-2013;  
 G.M. No. 470 JILL B. MIYAMURA, for a term to expire 6-30-2012;  
 G.M. No. 472 REBECCA S. WARD, for a term to expire 6-30-2013; and  
 G.M. No. 528 ARTHUR Y. NISHIDA, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to health care for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Statewide Health Coordinating Council to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted by one individual supporting the nomination of John J. Barnett, by the Crime Victim Compensation Commission and one individual supporting the nomination of Rebecca S. Ward, and by four individuals supporting the nomination of Arthur Y. Nishida.

John J. Barnett, of Barnett Consulting Group, LLC, is a management consultant for organization and business change. His specialty is strategy development, implementation and restructuring of organizations. He recently worked with former Mayor of Hawaii County, Harry Kim, as a catalyst in convening the Hawaii Health Care Task Force to address county health issues and forward strategies. He is a Board Member of the Kona-Kohala Chamber of Commerce.

Jill B. Miyamura is Vice President of Hawaii Health Information Corporation which is responsible for the development of a statewide healthcare reporting system. She is a current member of the Program Planning Committee of the National Association of Health Data Organizations and continues to serve on various work groups with the Healthcare Cost and Utilization Project, Agency Healthcare Research and Quality, and the United States Department of Health and Human Services.

Rebecca S. Ward is President of Ward Research, Inc., a market research firm. Ward Research was recognized by the Pacific Business News as one of the Top 25 Women-Owned Businesses from 1999 to 2005. Ms. Ward currently serves on the Board of Directors of the Girl Scout Council of Hawaii as well as the Board of Directors of the Aloha Council of Boy Scouts. In addition, she is on the Board of Directors of the Chamber of Commerce of Hawaii, and she is a member of the American Association of Public Opinion Research.

Arthur Y. Nishida is a business agent with the State of Hawaii Organization of Police Officers since 2004. He has served as a Metropolitan Police Officer with the Honolulu Police Department. He started his career in the Police Department as a uniformed patrol officer, later worked in plainclothes capacity, and served as an investigator in the Department of the Prosecuting Attorney.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1526 Health on Gov. Msg. Nos. 493, 494, 495, 496, 497, 498 and 499**

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

- G.M. No. 493 SARAH K. AHINA, for a term to expire 6-30-2012;
- G.M. No. 494 JOLAINE L. HAO, for a term to expire 6-30-2011;
- G.M. No. 495 LOUISE K. IWAISHI, for a term to expire 6-30-2012;
- G.M. No. 496 ANNIE L. KALAMA, for a term to expire 6-30-2010;
- G.M. No. 497 ANASTASIA L. KELLER-COLLINS, for a term to expire 6-30-2013;
- G.M. No. 498 JENNIFER V. PATRICIO ESQ., for a term to expire 6-30-2013; and
- G.M. No. 499 JOSEPHINE C. WOLL, for a term to expire 6-30-2011.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to developmental disabilities for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the State Council on Developmental Disabilities to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the State Council on Development Disabilities. Additional testimony was submitted by two individuals supporting the nomination of Sarah K. Ahina, by the Department of Human Services, Hilopa'a, and twelve individuals supporting the nomination of Jolaine L. Hao, by four individuals supporting the nomination of Louise K. Iwaishi, by four individuals supporting the nomination of Annie L. Kalama, by Hawaii Waiver Providers Association and four individuals supporting the nomination of Anastasia L. Keller-Collins, by the Hawaii Disabilities Rights Center and two individuals supporting the nomination of Jennifer V. Patricio, and by three individuals supporting the nomination of Josephine C. Woll.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

The Council's Federal mandate (P.L. 106-402) is clear in determining the composition of this body to ensure that all the players involved in the development, implementation, and use of developmental disability supports are represented. The law specifically requires that sixty per cent of the membership of the Council be comprised of individuals with a developmental disability, their parents, or family members. Additionally, the following agencies are required to be on the Council: Department of Health; the agencies that

administer funds provided under the Rehabilitation Act of 1973, the Individuals with Disabilities Education Act, the Older Americans Act of 1965, Titles V and XIX of the Social Security Act; the Protection and Advocacy Agency; the Centers for Excellence in Developmental Disability Education, Research, and Service; and agencies and private non-profit organizations concerned with services to individuals with developmental disability.

Sarah K. Ahina meets all the federal requirements for Council membership. She is an individual with a developmental disability who resides in Waianae. She participated in the Council-sponsored Partners in Policymaking (PIP) Leadership Academy. The PIP Academy is an innovative program for individuals with developmental disabilities and family members of individuals with developmental disabilities. The program is designed to provide information, training, resources and skills, which will develop productive partnerships between people who need and use services and those in the position to make policy and law.

Jolaine L. Hao meets all the federal requirements for Council membership. Ms. Hao is the acting Quality Assurance Section Administrator for the Department of Human Services, Med-QUEST Division (MQD). Her appointment to the Council would fulfill the federal requirement for a representative of Title XIX of the Social Security Act. Her present position with MQD and her involvement with the implementation of the Quest Expanded Access program (QExA) would provide a direct link to the Council's advocacy in assuring access to medical and dental care for individuals with developmental disabilities. Her background and experience in working with individuals with disabilities in a variety of settings, such as hospital, critical care, geriatric, and intermediate care facility/skilled nursing facilities would assist the Council in achieving its State Plan objectives to: (1) work to reduce health disparities among persons in Hawaii with developmental disabilities, and (2) provide people with developmental disabilities with the information necessary to make an informed choice of a Medicaid managed care health plan and have access to needed medical services through the QExA program.

Dr. Louise K. Iwashii is the part-time Medical Director of the Department of Health, Family Health Services Division (FHSD). Her appointment to the Council would fulfill the federal requirement for a representative of Title V of the Social Security Act. Dr. Iwashii's current position with FHSD and extensive background in pediatrics would assist the Council in its State Plan goal to provide family-centered, community-based, culturally-appropriate services and supports to all children with special needs. Her contributions to the Council's Health and Early Childhood area of emphasis committee would help the Council to achieve its objectives for the provision of appropriate early intervention services to infants and toddlers with special needs, and increase options for children with developmental disabilities who are medically fragile to live in a natural home environment rather than a medical facility.

Annie L. Kalama is an Educational Specialist with the Special Education Section of the Department of Education. Her appointment to the Council would fulfill the federal requirement for a representative of the Individuals with Disabilities Education Act (IDEA). Her experience in various positions in the special education field would provide the Council with valuable insight on how best to proceed to achieve quality education outcomes and school transitions that are meaningful and individualized consistent with the principles of self-determination. Her participation on the Council's Employment and Education area of emphasis committee would assist the committee to address resources and services to meet the requirements of IDEA.

Anastasia L. Keller-Collins is the Vice President of Program Development for Easter Seals Hawaii (ESH), a non-profit organization providing services to individuals with disabilities. Her appointment to the Council would fulfill the federal requirement for a representative of agencies and private non-profit organizations. Ms. Keller-Collins' experience in overseeing the Home and Community-Based Services Medicaid Waiver program for ESH would assist the Council in its activities to maximize federal funds and resources, and to assure that adequate and appropriate services and supports are provided through the waiver program. She will represent the private provider sector well on the Council through her active involvement with the Hawaii Waiver Providers Association. Her role on the Council would increase its efforts to collaborate with service providers to address the Council's community supports goal that "people with developmental disability will have a comprehensive system of supports and services that promote self-determination, independence, productivity, integration, and inclusion in all facets of community life, and have the opportunity to live the life they desire."

Jennifer V. Patricio is a staff attorney at the Hawaii Disability Rights Center. Her appointment to the Council would fulfill the federal requirement for a representative of the State protection and advocacy system. As a representative of the protection and advocacy system, Ms. Patricio would provide the Council with a legal perspective in its activities to promote and advocate for accessible services for individuals with developmental disabilities. She has been attending Council meetings and the Council's Health and Early Childhood area of emphasis committee meetings. Her participation on the Committee would greatly assist the Council in its initiatives to reduce health disparities among people with developmental disabilities, and to increase the number of individuals to access preventive and restorative dental care services.

Josephine C. Woll is a parent of a young woman with a disability. Her appointment to the Council would fulfill the federal requirement of a parent serving on the Council. Mrs. Woll's professional background as a Registered Nurse and extensive work experience in early intervention services as past Director of Sultan Easter Seal School would be a great asset for the Council in the area of early childhood. She would be able to help the Council advocate for increasing access and utilization of early periodic screening, diagnosis and treatment of children with special needs. As a parent, she was instrumental in starting a national organization called Family Voices that became the voice for health care reform for children with special health care needs. With her past involvement and leadership with Family Voices, the Council would benefit through Mrs. Woll's participation on its Health and Early Childhood area of emphasis committee in assisting with activities to advocate for appropriate early intervention services to all infants and toddlers with developmental disabilities or at risk for a developmental disability.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1527 Health on Gov. Msg. Nos. 500, 501 and 502**

Recommending that the Senate advise and consent to the nominations of the following:

DISABILITY AND COMMUNICATION ACCESS BOARD

G.M. No. 500 BARBARA P. FISCHLOWITZ-LEONG, for a term to expire 6-30-2013;

G.M. No. 501 LYNN K. MURAKAMI-AKATSUKA, for a term to expire 6-30-2010; and

G.M. No. 502 ANTHONY A. RIECKE-GONZALES, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to disability and communication access for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Disability and Communication Access Board to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Disability and Communication Access Board. Additional testimony in support of the confirmation of Barbara P. Fischlowitz-Leong was submitted by one individual and in support of the nomination of Anthony A. Riecke-Gonzales by one individual. Additional testimony was submitted by the Department of Health, the Community Children's Council of Hawaii, and three individuals supporting the nomination of Lynn K. Murakami-Akatsuka.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Barbara P. Fischlowitz-Leong is being appointed in the capacity of a professional, who is also a person with a disability. She is presently the Executive Director of the Assistive Technology Resource Centers of Hawaii, an organization which assists individuals with disabilities in obtaining assistive technology, a position she has held for fifteen years. Ms. Fischlowitz-Leong also has experience as a planner in the field of developmental disabilities and as the former Executive Director of the Epilepsy Foundation to bring to the Board. Ms. Fischlowitz-Leong brings to the Board a tremendous amount of professional expertise to complement her personal perspective.

Lynn K. Murakami-Akatsuka is being appointed in her capacity as a family member of a sibling with an intellectual disability. She has extensive knowledge of the health issues facing individuals with disabilities and has a long career in the health care field. She presently is with the Department of Health's Developmental Disabilities Division. She has also worked with the Board as a member of the Interagency Working Group on Emergency Preparedness, which updates and amends existing goals and objectives in the "Interagency Action Plan for the Emergency Preparedness of People with Disabilities and Special Needs."

Anthony A. Riecke-Gonzales is being appointed as a representative from the County of Maui and in his capacity as a professional architect in the State of Hawaii with a private architectural firm. The Board has responsibility, under section 103-50, Hawaii Revised Statutes, to review all plans and specifications for the construction of state and county buildings, facilities, and sites to ensure physical access for persons with disabilities. Mr. Riecke-Gonzales' architectural expertise will be valuable in setting policies, guidelines, and interpretive opinions.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Nishihara, Hemmings).

**SCRep. 1528 Health on Gov. Msg. Nos. 316 and 327**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I ADVISORY COMMISSION ON DRUG ABUSE AND CONTROLLED SUBSTANCES

G.M. No. 316 STEPHEN KALANI BRADY, for a term to expire 6-30-2013; and

G.M. No. 327 DARIN H. KAWAZOE, for a term to expire 6-30-2013.

Upon review of the statements submitted by the nominees, your Committee finds that the aforementioned nominees will work with compassion and commitment to assist in administering the functions related to drug abuse and controlled substances for the people of Hawaii. Your Committee further finds that the nominees have been appointed based on their credentials, integrity, and a desire to make Hawaii better through their participation on the Hawai'i Advisory Commission on Drug Abuse and Controlled Substances to which they have been nominated.

Your Committee received testimony supporting the nomination of each of these individuals from the Department of Health. Additional testimony was submitted supporting the nomination of Dr. Stephen Kalani Brady from Representative from the 19th House District.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Dr. Stephen Kalani Brady was first appointed to the Hawai'i Advisory Commission on Drug Abuse and Controlled Substances on July 1, 2007. He is board certified in internal medicine and is a fellow of the American College of Physicians. In 2003, he was appointed vice chairman of the Department of Native Hawaiian Health at the University of Hawaii, John A. Burns School of Medicine, where he serves as associate professor. Dr. Brady represents the medical segment of the community.

Darin H. Kawazoe was first appointed to the Hawai'i Advisory Commission on Drug Abuse and Controlled Substances on July 1, 2007. He heads a consultant firm which designs and develops community-based programs for organizations. His work focuses on education, health, prevention, culturally-relevant and criminal justice-appropriate treatment services. Mr. Kawazoe is a Certified Substance Abuse Counselor who has extensive experience in the field of substance abuse treatment. He served as the Program Director for the State's first Drug Court and as the coordinator for the Hawaii Drug Control Strategy Summit convened in 2003. Mr. Kawazoe represents the community and business affairs segment of the community.

As affirmed by the records of votes of the members of your Committee on Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1529 Human Services on Gov. Msg. No. 303**

Recommending that the Senate advise and consent to the nomination of the following:

STATEWIDE COUNCIL ON INDEPENDENT LIVING

G.M. No. 303 LAURA L. TOBOSA, for a term to expire 6-30-2011.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds Laura L. Tobosa to have the requisite qualifications to be nominated to the Statewide Council on Independent Living.

Testimony in support of the nomination of Laura L. Tobosa was submitted by the Department of Human Services. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Ms. Tobosa has worked with the Hawaii Centers for Independent Living for seventeen years. She is a member of the Hawaii County Mayor's Committee on People with Disabilities, Disability Rights Hawaii, and the Partners in Community Living Advisory Committee. Ms. Tobosa satisfies the requirement that a member represent Hawaii County.

Ms. Tobosa is an advocate for disability issues, and a mentor for people with disabilities. She is aware of the issues from the national to the individual level. Ms. Tobosa's extensive experience with grant writing, budgets, program implementation, and monitoring and compliance of contracts is an asset. Ms. Tobosa founded the Youth Support Group which provides opportunities for young adults with disabilities to participate in after-school activities. She has led several local organizations focused on disability issues and has demonstrated her ability to work well with diverse groups.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1530 Human Services on Gov. Msg. No. 552**

Recommending that the Senate advise and consent to the nomination of the following:

COMMISSION ON FATHERHOOD

G.M. No. 552 CLAUD ROBERT SUTCLIFFE, for a term to expire 6-30-2011.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee, and finds Claud Robert Sutcliffe to have the requisite qualifications to be nominated to the Commission on Fatherhood.

Testimony in support of the nomination was submitted by the Department of Human Services, the State Commission on Fatherhood, and four individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Mr. Sutcliffe received his Bachelor's degree in International Relations from Pomona College and his Master's degree and Doctor of Philosophy in Politics and Near Eastern Studies from Princeton University. He is presently employed as the Executive Director of the Mediation Center of Molokai. Mr. Sutcliffe satisfies the requirement that a member represent Maui County.

The Mediation Center of Molokai has developed the most comprehensive program of domestic violence prevention education in the State, and Mr. Sutcliffe teaches several classes and workshops for children and adults. As the coordinator of the Molokai Fathering Initiative, he has worked with high-risk fathers both in support groups and one-on-one mentoring. Mr. Sutcliffe is a father of four adult children and is committed to being the best father he can be. He is a skilled mediator, who can quickly find solutions to issues and defuse tense situations with humor. He is actively involved in the community, as Secretary of Molokai Habitat for Humanity, a leader of Molokai Occupational Center, Secretary of Molokai Affordable Homes, and a member of Hui Hoopakele Aina. Mr. Sutcliffe's experience as a mediator, teacher, and grant writer will be an asset to the Commission on Fatherhood.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1531 (Joint) Human Services and Commerce and Consumer Protection on H.C.R. No. 16**

The purpose of this measure is to encourage state and county action to stimulate individual savings and development of credit and to formulate an inventory of banking services available to low-income persons and those with no credit history in the State.

Testimony in support of this measure was submitted by the Hawaii Credit Union League and Visa, Inc. The Hawaii Bankers Association supported the intent of the measure. Written testimony presented to your Committees may be reviewed on the Legislature's website.

In the United States, forty million households are financially underserved, comprising about twenty-eight million unbanked individuals and almost forty-five million underbanked individuals. Underbanked individuals refers to persons who have limited access to banking services and rely upon alternative financial services, which are generally targeted at low-income persons such as check cashing or payday advance services, pawnbrokers, and even loan sharks. Unbanked persons are those who do not have a bank account, and have no access to banking services. Underbanked and unbanked persons are generally low-income individuals or families, female-headed households, young adults, senior citizens and the elderly, those who live in rural communities, and immigrants. Your Committees find that banked persons have the tools to save money, build assets, and make significant financial decisions regarding education, homeownership, health care, self-employment, and retirement. The State and the counties are encouraged to take action to increase the banked population of Hawaii.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 16, H.D. 1, and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Ihara, Sakamoto).

**SCRep. 1532 (Joint) Human Services and Health on H.C.R. No. 34**

The purpose of this measure is to request Congress to raise the Medicare fee schedule payment amounts for physicians rendering services in Hawaii.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs and the Hawaii Medical Service Association. Written testimony presented to your Committees may be reviewed on the Legislature's website.

Medicare and Medicaid reimbursements are established according to fee schedules, which are adjusted according to a set of geographic practice cost indices. The geographic practice cost indices are set administratively by the Centers for Medicare & Medicaid Services. However, in 2004 and 2005, Congress intervened and enacted legislation that set the geographic practice cost indices for Alaska at a higher rate. Your Committees find that the reimbursement amounts that Hawaii physicians receive do not accurately reflect the costs, and Congress is requested to enact legislation to increase the geographic practice cost indices for Hawaii.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 34, and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 5. Noes, none. Excused, 3 (Baker, Ihara, Nishihara).

**SCRep. 1533 Human Services on H.C.R. No. 4**

The purpose of this measure is to designate the first week in February as Hawaii Teen Dating Violence Awareness and Prevention Week.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence and one individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that one in three teenagers report knowing a friend or peer who has been hit, punched, kicked, slapped, choked, or physically hurt by their intimate partner. Your Committee further finds that women between the ages of sixteen and twenty-four experience the highest per capita rates of domestic violence. Becoming a teenager should be an exciting time of intellectual and emotional growth, and yet instead teenagers may experience violence at the hands of their partner. Through education and community discussion, our youth may have the opportunity to break the silence surrounding this issue.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 4, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, none.

**SCRep. 1534 (Joint) Health and Commerce and Consumer Protection on H.C.R. No. 109**

The purpose of this measure is to request the Auditor to assess the social and financial effects of requiring health insurance coverage for colonoscopy colorectal cancer screening.

Your Committees received testimony in support of this measure from the American Physical Therapy Association Hawaii Chapter and the American Cancer Society.

Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that although colorectal cancer is the second leading cause of cancer deaths in the United States, it is also one of the most treatable forms of cancer when diagnosed early through available diagnostic techniques such as colonoscopy. Your Committees find that colonoscopy is considered a safe and highly effective diagnostic technique that studies have shown to be more

accurate and less invasive than other forms of screening. Your Committees further find that the cost of colonoscopy is far lower than the cost of treatment for colorectal cancer.

Your Committees note that while section 23-51, Hawaii Revised Statutes, requires an assessment by the Auditor of the social and financial effects of proposed coverage before insurance coverage of specific diseases or health services may be mandated, the Legislature retains the right to enact laws to protect the general health, safety, and welfare of the State and its residents.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 109, and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 4 (Ihara, Nishihara, Sakamoto, Hemmings).

**SCRep. 1535 Health on H.C.R. No. 214**

The purpose of this measure is to request that federal funding be provided to the Centers for Disease Control and Prevention to establish a Chronic Obstructive Pulmonary Disease program.

Your Committee received testimony in support of this measure from the Hawaii Chronic Obstructive Pulmonary Disease Coalition.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that appropriate funding for the establishment of a national chronic obstructive pulmonary disease program will enable information on the potentially debilitating disease to be centralized and coordinated, leading to better sharing of key information and more research and funding for better and effective treatments.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 214, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Hemmings).

**SCRep. 1536 Higher Education on H.C.R. No. 217**

The purpose of this measure is to request the University of Hawaii Board of Regents to:

- (1) Develop plans for a scholarship program for Hawaii residents to study abroad; and
- (2) Submit a report on its progress to the 2010 Legislature.

Testimony in support of this measure was submitted by twenty individuals. Comments were provided by the University of Hawaii System. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that study abroad programs give students the opportunity to gain both academically and culturally, bringing an additional dimension to learning. The costs, however, are often prohibitive for students and their families, particularly those students who depend on financial aid for college expenses.

Your Committee has heard the concerns raised by the University, but believes that the request to develop plans for a scholarship program for Hawaii residents to study abroad is encompassing enough that the issues may be included, if not addressed completely, during the planning process. Should the Board of Regents determine that the plans would require additional funds or other legislation in order to implement, these requests may be included in the report to the 2010 Legislature.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 217, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Takamine).

**SCRep. 1537 Transportation, International and Intergovernmental Affairs on H.C.R. No. 158**

The purpose of this measure is to strongly urge:

- (1) The United States Department of the Interior and the Congress of the United States to provide additional federal aid to the State of Hawai'i for the provision of various state services to migrants resulting from the Compacts of Free Association;
- (2) The United States Department of the Interior, Office of Insular Affairs, to review the funding of the Compacts Impact Assistance grant and to make every effort to increase the amount of direct assistance available to the State of Hawai'i to offset costs incurred by the State;
- (3) The United States Congress to support federal legislation to amend the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 to allow the Compacts of Free Association migrants to once again receive federally funded financial and medical assistance; and
- (4) The United States Department of the Interior to identify and secure other forms of direct assistance to the State and the Compacts of Free Association population in the United States, including grants from other sources and federal programs.

Your Committee received testimony in support of this measure from the Superintendent of Education and the Hawaii Government Employees Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that migrants from the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau, are allowed to enter the State of Hawai'i under the Compacts of Free Association. Many state agencies provide a broad range

of health and social services to migrants from the Compact of Free Association nations who have moved to Hawai'i. The cost to the State of providing these services continues to increase each year.

The federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 prevents needy persons from the Compact of Free Association nations from receiving federally funded financial and medical assistance. When that law went into effect in 1997, Hawai'i continued to provide equivalent services for the Compacts of Free Association migrants using state funds.

The federal government must address the issue of additional federal support for the State to continue providing state services arising from the unique federally-created relationship the United States has with the Compact of Free Association nations.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 158, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1538 Water, Land, Agriculture and Hawaiian Affairs on H.C.R. No. 96**

The purpose of this measure is to request the Department of Land and Natural Resources, Division of Conservation and Resources Enforcement (DOCARE), to provide limited enforcement services at night on a regular basis and to continue providing enforcement services on weekends and holidays at Kaneohe Bay.

Testimony in support of this measure was submitted by one organization. One state agency submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Kaneohe Bay is enjoyed by many island residents and visitors, scores of boaters launch from Heeia Kea pier to fish or party on Ahu o Laka during the holidays and weekends. In the past, partying by boaters on Ahu o Laka has resulted in confrontations between boaters due to intoxication, an abundance of debris left behind, and other incidents involving snorkelers and scuba divers. Your Committee finds that DOCARE may be planning to suspend enforcement services on the weekends and holidays as a cost-cutting measure during the present economic conditions. However, continued enforcement services are requested to ensure the safety of bay users and proper enforcement of natural resource laws and rules.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 96, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Tokuda).

**SCRep. 1539 Water, Land, Agriculture and Hawaiian Affairs on H.C.R. No. 250**

The purpose of this measure is to request the Department of Land and Natural Resources (DLNR) to review all boards, commissions, councils, committees, working groups, and task forces to determine which of these can be eliminated.

One state agency submitted comments on this measure. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that DLNR is responsible for managing one hundred fifty-eight boards, commissions, councils, committees, working groups, and task forces, of which sixty-five are mandated by statute, fourteen are mandated by federal regulations, and seventy-nine are mandated by DLNR. The staff of the various divisions responsible for one-third of DLNR's boards, commissions, councils, committees, working groups, and task forces with the lowest priorities expends approximately 2,800 man-hours annually preparing for meetings, attending meetings, and otherwise providing assistance. During this time of economic uncertainty, when DLNR is eliminating programs and positions to cut costs, it is important to systematically review the functionality and effectiveness of the boards, commissions, councils, committees, working groups, and task forces under DLNR's purview.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 250, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Tokuda).

**SCRep. 1540 Water, Land, Agriculture and Hawaiian Affairs on H.C.R. No. 251**

The purpose of this measure is to urge the Department of Land and Natural Resources, Division of Aquatic Resources, to consult and confer with licensed specialized fishing practitioners prior to implementing revised or new regulations affecting styles of nearshore commercial fishing and to seek advice from and work collaboratively with them on any and all future regulations relating to commercial fishing.

Testimony in support of this measure was submitted by one organization and one public citizen. Testimony in opposition was submitted by one state agency. Written testimony presented to your Committee may be reviewed on the Legislature's website.

The residents of Hawaii rely upon the ocean for sustenance, health, and cultural practices. Specialized cultural practitioners with intrinsic and learned knowledge passed down through numerous techniques of fishing, including surround bag or gill net fishing, fish trapping, and aqua lung and free dive spear fishing, continue to demonstrate responsible use of and caring for the bounties of the ocean by studying, nurturing, cultivating, and managing these resources on a daily basis for perpetual use. Your Committee finds that these cultural practitioners are a consistent source of data to record, interpret and analyze, and use as the best-available science in determining the condition of Hawaii's ocean resources. Cultural practitioners are experts of their trade and providers to our

communities, and depend on fair management of ocean resources for their livelihood and perpetuation, thus they should be consulted when adopting new fishing rules.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 251, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Tokuda).

**SCRep. 1541 Water, Land, Agriculture and Hawaiian Affairs on H.C.R. No. 113**

The purpose of this measure is to request the Department of Agriculture to consult with other public and private entities to develop a plan to optimize the use of the Kamuela Vacuum Cooling Plant.

Testimony in support of the measure was submitted by two public citizens. One state agency submitted comments. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Hawaii imports eighty-five per cent of its food, at an estimated cost of \$4,500,000,000 annually, however, Hawaii farmers face formidable challenges in competing with mainland and foreign farmers. Agricultural facilities such as vacuum cooling plants, slaughterhouses, processing facilities, experimental stations, marshalling yards, and agricultural research laboratories are critical to ensuring the viability of Hawaii's agricultural industry. The Kamuela Vacuum Cooling Plant on the island of Hawaii is operated by the Kamuela Farmers Cooperative, which consists of sixty members, and processes approximately seven million pounds of produce annually, while also providing storage and limited processing services. However, the Kamuela Vacuum Cooling Plant is nearly thirty years old and has sustained severe wind damage that led to its roof being repaired in 2008 and the Plant's maintenance program is crippled by energy costs. Your Committee finds that a comprehensive plan is needed to ensure that the Kamuela Vacuum Cooling Plant is used in the most efficient and effective manner possible to support Hawaii's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Water, Land, Agriculture, and Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 113, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Tokuda).

**SCRep. 1542 Economic Development and Technology on Gov. Msg. Nos. 287, 519, 520 and 521**

Recommending that the Senate advise and consent to the nominations of the following:

STATE FOUNDATION ON CULTURE AND THE ARTS COMMISSION

- G.M. No. 287 TERILYNNE F. GORMAN, for a term to expire 6-30-2012;
- G.M. No. 519 LEONARD K. CHOW, for a term to expire 6-30-2013;
- G.M. No. 520 JAMES C. JENNINGS, for a term to expire 6-30-2013; and
- G.M. No. 521 SHERYL B. SEAMAN AIA, ASID, LEED AP, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Terilynne F. Gorman, Leonard K. Chow, James C. Jennings, and Sheryl B. Seaman to possess the requisite qualifications to be nominated to the State Foundation on Culture and the Arts Commission.

With the unprecedented tax revenue decreases in fiscal years 2009, 2010, and 2011, your Committee has questioned each of the nominees carefully to ensure each nominee's awareness of the conditions that currently face the State Foundation on Culture and the Arts. At a time when grants to performing arts, literary, and visual arts organizations are almost down to zero, each of the Commissioners will need to play a vital role in structuring a plan of action to develop new revenue sources, international alliances, and new public and private partnerships that will help Hawaii's culture and arts community weather the economic downturn projected over this biennium. Fortunately, a number of the Commission nominees possess considerable experience in developing multinational business, arts and culture, and education initiatives. Your Committee looks forward to examining the 2010 agenda for the State Foundation on Culture and the Arts as the new Commissioners begin their service on the State Foundation on Culture and the Arts Commission.

Testimony in support of the nomination of Terilynne F. Gorman was submitted by the Mayor of Maui County, the Hawaii Association of Independent Schools, Maui Arts and Cultural Center, Broward Center for the Performing Arts, Brazil Ministry of Culture, and one concerned individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Terilynne F. Gorman has obtained an extensive array of experiences in the area of culture and the arts. Specifically, she has served as the Director of Marketing for performing art complexes in Maui and New Zealand for six years and as the Vice President of External Affairs for the Broward Center for the Performing Arts in Fort Lauderdale, Florida, for another six years. She currently serves as the Vice President of Corporate Communications for Maui Land & Pineapple Company, Inc., in Maui.

Your Committee finds that the experiences of Terilynne F. Gorman will help to bring more accountability to arts education programs in Hawaii and help to perpetuate the Hawaiian culture.

Testimony in support of the nomination of Leonard K. Chow was submitted by the State Foundation on Culture and the Arts, Merrill Lynch, and Tommy Toma Contractor, Inc. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Leonard K. Chow has served as a Board Member and Vice President of the Honolulu Academy of Arts Guild and the Hawaii Opera Theatre. Mr. Chow has obtained valuable experiences in the area of fundraising for various culture and arts events. In addition, Mr.

Chow has accumulated numerous technical abilities and project management skills in successfully completing a plethora of projects during his career as an engineer.

Your Committee finds that the experiences of Leonard K. Chow will help the State Foundation on Culture and the Arts Commission successfully achieve their goals and implement new projects.

Testimony in support of the nomination of James C. Jennings was submitted by the State Foundation on Culture and the Arts, WPP, the Law Office of Karen S. Baldwin, and five concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

James C. Jennings has obtained over thirty years of broad-based public communications experiences primarily as an international public relations consultant and executive for a national program and a worldwide foundation. Mr. Jennings has successfully held leadership positions that required expertise in strategic planning, media counseling, and developing public affairs campaigns.

Your Committee finds that the professional experiences of James C. Jennings will help the State Foundation on Culture and the Arts Commission to maximize its progress toward achieving their strategic plan and ensure that all programs of the Commission have an impact on each of the islands in the State.

Testimony in support of the nomination of Sheryl B. Seaman was submitted by the State Foundation on Culture and the Arts, American Institute of Architects Hawaii State Council, Group 70 International, Hawaii Theatre Center, Halekulani Corporation, and Thompson Matheny Corporation. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Sheryl B. Seaman has more than thirty-six years of experience in architecture and interior design in Hawaii and Asia. Ms. Seaman's work has earned her various professional accolades and awards in the area of designing resorts, commercial structures, and educational facilities.

Your Committee finds that the professional experiences of Sheryl B. Seaman will help the State Foundation on Culture and the Arts Commission raise awareness of and appreciation from the rest of the world for the culture and arts in Hawaii. Ms. Seaman will also make significant contributions to the advancement of the Commission's strategic goals and mission.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Record of votes for Terilynn F. Gorman:

Ayes, 4. Noes, none. Excused, 1 (Hee).

Signed by the Chair on behalf of the Committee.

Record of votes for all other nominees:

Ayes, 3. Noes, none. Excused, 2 (Hee, Ige).

**SCRep. 1543      Public Safety and Military Affairs on H.C.R. No. 199**

The purpose of this measure is to request the State Auditor to conduct a performance audit of the Saguaro Correctional Center in Eloy, Arizona, which includes information on the treatment and services provided to Hawaii inmates and the facilitation of family and community connections.

Testimony in support of this measure was submitted by two private organizations and six individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that an audit of the Saguaro Correctional Center is an important step in ensuring that Hawaii inmates at the Center are receiving appropriate services, given the State's contract with Corrections Corporation of America (CCA) to operate the Arizona facility, and amidst allegations of mismanagement and mistreatment of prisoners by CCA and two deaths in the Center since August 2008.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 199, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1544      Public Safety and Military Affairs on H.C.R. No. 92**

The purpose of this measure is to request the State Auditor to conduct a financial and management audit of the Department of Public Safety's Sheriff Division in order to determine alternatives to the continual operation of the Sheriff Division within the Department of Public Safety.

Testimony in support of this measure was submitted by one private organization and three individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that an audit of the Sheriff Division is a necessary step in determining alternatives to the current organizational placement of two operationally different divisions, corrections and law enforcement, within the Department of Public Safety.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 92, H.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1545 Public Safety and Military Affairs on H.C.R. No. 10**

The purpose of this measure is to request the Adjutant General to identify the location of every public safe room in the County of Hawaii providing suitable shelter from vog, and develop plans to establish safe rooms in additional areas that need them.

No testimony was presented to the Committee.

Your Committee finds that providing the people of the County of Hawaii with a safe place that is protected from the harmful conditions associated with vog will encourage those people to take the necessary precautions to avoid the risks and detrimental side effects associated with exposure to vog. Your Committee also finds that the development of safe rooms throughout the County of Hawaii may also be beneficial to the people of the County of Hawaii if they are confronted with other public dangers or concerns.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 10, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1546 Human Services on H.C.R. No. 13**

The purpose of this measure is to request a study of various unresolved issues relating to aging.

Testimony in support of this measure was submitted by the Executive Office on Aging. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that further efforts are needed to assist caregivers and adequately meet the needs of the State's aging population. The Executive Office on Aging and the Center on Aging at the University of Hawaii at Manoa need to continue their examination of these issues by continuing their research and analyses to:

- (1) Develop a cash and counseling model, which allows participants to use their Medicaid-provided personal assistance budgets to hire their own personal care aides, and to apply for related grants;
- (2) Determine how best to compensate caregivers for respite services;
- (3) Determine best practices for state agencies to collaborate and coordinate with area agencies on aging and local community service providers (including those for the disabled community);
- (4) Enhance funding from all sources for Medicaid and Medicare services, including but not limited to, removing or adjusting income limits and non-exempt asset limitations;
- (5) Determine how best to accommodate language barriers;
- (6) Determine how best to overcome access to long-term care services barriers; and
- (7) Identify more funding sources for long-term care services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 13, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 1 (Ihara).

**SCRep. 1547 Higher Education on Gov. Msg. Nos. 429, 554, 555, 556, 557 and 558**

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMISSION FOR NATIONAL AND COMMUNITY SERVICE

- G.M. No. 429 JUNE S. LEE, for a term to expire 6-30-2012;
- G.M. No. 554 MARIAN A. CRISLIP, for a term to expire 6-30-2012;
- G.M. No. 555 SALLY A. HARPER, for a term to expire 6-30-2012;
- G.M. No. 556 ALBERT D. KIM, for a term to expire 6-30-2012;
- G.M. No. 557 NADINE N. NISHIOKA, for a term to expire 6-30-2012; and
- G.M. No. 558 CHRISTOPHER J. WONG, for a term to expire 6-30-2012.

Your Committee reviewed the personal histories, resumes, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the Hawaii Commission for National and Community Service.

June S. Lee is Director of Business Development for Harbor Wing Technologies, Inc., and has been with the company since 2003. Prior to this, she held several positions with Hilton Hawaiian Village from 1972-2001. Ms. Lee is a graduate of Cannons Business

School. She is an active community volunteer, working with senior citizens at Maunalani Nursing and Rehabilitation Center and as a member of the Korean War Veterans Aloha Chapter Organization. Ms. Lee is a reappointment to the Hawaii Commission for National and Community Service.

Your Committee received testimony in support of June S. Lee from Tripler Army Medical Center; Hawaii Commission for National and Community Service; Korean War Veterans Association; Harbor Wing Technologies, Inc.; and Korean-American Medical Association of Hawaii; and United States Senator Daniel K. Akaka.

Marian A. Crislip is a retired educator, with thirty-five years as a teacher, school administrator, and educational specialist with the Department of Education. She is a graduate of the University of Hawaii at Manoa, and holds Master's and Doctorate degrees in Educational Administration. Ms. Crislip is the recipient of many professional honors and has an extensive list of publications and presentations. She is active in community organizations and is a thirty-year Hawaii Blood Bank donor, where she is nearing her goal as a Century Donor.

Your Committee received testimony in support of Marian A. Crislip from one individual.

Sally A. Harper is a retired educator, with over twenty-seven years as a kindergarten and first grade teacher at Punahou School. Since her retirement, she has worked in various positions in the Office of the Governor and as a Senior Educational Officer at the Department of Commerce and Consumer Affairs. Ms. Harper is a graduate of the University of California at Santa Barbara and holds a Master's of Education from the University of Hawaii. She has been an active community volunteer for over forty years.

Your Committee received testimony in support of Sally A. Harper from the Friends of the Library of Hawaii and the Representative from the Twenty-Eighth House District.

Albert D. Kim is Chief Executive Officer of Orient Travel Inc., and Orient Travel Bureau Inc, and has been in the travel business for over twenty years. He attended both Honolulu and Kapiolani Community Colleges and the University of Hawaii at Manoa, and is a graduate of the University of Phoenix with a Bachelor of Science in Business Administration. Mr. Kim is active in numerous professional and community organizations, including the Korean Tourism Association of Hawaii, the Korean Seniors Cultural Center, and Honolulu Hibiscus Lions Club.

Your Committee received testimony in support of Albert D. Kim from the United Korean Association of Hawaii; Hawaii Korean Cultural Center; CGS International, Hawaii Chapter; and one individual.

Nadine N. Nishioka is a Research Analyst for the House of Representatives Minority Research Office and has an extensive career in communications and business management. She is a graduate of the University of Hawaii at Manoa with a Bachelor of Arts in Communication and International Business Communication. Ms. Nishioka has been an active volunteer for over twenty-five years with many organizations, including the Boys and Girls Club of Hawaii, Mo'ili'ili Community Center, and the Manoa Neighborhood Board, as well as coaching volleyball, basketball, and softball.

Your Committee received testimony in support of Nadine N. Nishioka from the Mo'ili'ili Community Center; Representatives from the Nineteenth, Thirty-Second, and Forty-Fourth House Districts; a Councilmember from the City and County of Honolulu's Second District; and thirteen individuals.

Christopher J. Wong is a Special Events Coordinator with JDRF International, with a focus in management, marketing, and fundraising events. He is a graduate of Hawaii Pacific University with a Bachelor of Science in Business Administration and is currently a candidate for a Master's of Business Administration at Hawaii Pacific University. Mr. Wong is active in a diverse range of community and professional organizations, including the Hawaii Special Olympics, Junior Chamber of Commerce, Unity House, Inc., Pearl City Community Association, and USS Missouri Memorial Association.

Your Committee received testimony in support of Christopher J. Wong from the USS Missouri Memorial Association, Inc.; BB-63 USS Missouri Memorial's Visitor Operations Department; Boy Scouts of America, Aloha Council; Unity House, Inc.; Juvenile Diabetes Research Foundation; and two individuals.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Higher Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Record of votes for June S. Lee:

Ayes, 4. Noes, none. Excused, 3 (Baker, Takamine, Taniguchi).

Signed by the Chair on behalf of the Committee.

Record of votes for all other nominees:

Ayes, 4. Noes, none. Excused, 3 (Kokubun, Takamine, Taniguchi).

**SCRep. 1548 Economic Development and Technology on Gov. Msg. Nos. 573 and 574**

Recommending that the Senate not advise and consent to the nominations of the following:

**BOARD OF DIRECTORS OF THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION**

G.M. No. 573 SONG K. CHOI, for a term to expire 6-30-2013; and

G.M. No. 574 JEFFREY W. PIONTEK, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees Song K. Choi and Jeffrey W. Piontek for service on the Board of Directors of the High Technology Development Corporation.

Testimony in support of the nomination of Song K. Choi was submitted by the Department of Business, Economic Development and Tourism, Department of Transportation, High Technology Development Corporation, and two concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Song K. Choi has obtained extensive experience in the area of mechanical engineering and other variations of systems engineering. Mr. Choi has also been extensively involved with various professional and community organizations and has been awarded several Office of Naval Research grants over the past five years.

However, your Committee finds that there are concerns with confirming and recommending Song K. Choi to the High Technology Development Corporation. Although Dr. Choi has extensive professional experience in robotics education/workforce development, your Committee believes that the mission of the High Technology Development Corporation is more appropriately served by individuals with more direct business development experience relevant to high technology start-ups.

Testimony in support of the nomination of Jeffrey W. Piontek was submitted by the Department of Business, Economic Development and Tourism, the New York City Department of Education, High Technology Development Corporation, Isis Hawaii, Hawaii Technology Academy, Creativity Academy, Hawaii Technology Charter School Board, Hawaii Families for Educational Choice, November Learning, and three concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Jeffrey W. Piontek has demonstrated a passion throughout his career for issues related to science, technology, education, and engineering. Mr. Piontek has engaged in promoting matters related to developing education for Hawaii's young students in those areas over the past five years. Specifically, Mr. Piontek has started a charter school in Hawaii named Hawaii Technology Academy.

However, your Committee finds that there are concerns with confirming and recommending Jeffrey W. Piontek to the High Technology Development Corporation. Specifically, your Committee believes that the business experience that Mr. Piontek would bring to the High Technology Development Corporation is more appropriately aligned with an agency with an educational focus rather than one whose focus is on accelerating growth of Hawaii's technology industry.

As affirmed by the records of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees not to be qualified for the position to which nominated and recommends that the Senate not advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

**SCRep. 1549 Economic Development and Technology on Gov. Msg. Nos. 268, 280 and 422**

Recommending that the Senate advise and consent to the nominations of the following:

**SMALL BUSINESS REGULATORY REVIEW BOARD**

- G.M. No. 268 SHARON O.L. PANG, for a term to expire 6-30-2013;
- G.M. No. 280 PETER YUKIMURA, for a term to expire 6-30-2013; and
- G.M. No. 422 CHARLES K. H. AU, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Sharon O.L. Pang, Peter Yukimura, and Charles K. H. Au to possess the requisite qualifications to be nominated to the Small Business Regulatory Review Board.

Testimony in support of the nomination of Sharon O.L. Pang was submitted by the Department of Business, Economic Development and Tourism, Small Business Regulatory Review Board, Hibiscus Aloha Corporation, Manoa Cottage Care Homes, and six concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Sharon O.L. Pang has owned a care management and consulting business for the past thirteen years. During that period of time she has obtained a wealth of knowledge and experience on the most critical matters affecting the small business arena.

Your Committee finds that Sharon O.L. Pang would be a tremendous asset to the Small Business Regulatory Review Board in overseeing the objectives of the Board and helping to achieve each of their goals in regulating the small business community in Hawaii.

Testimony in support of the nomination of Peter Yukimura was submitted by the Department of Business, Economic Development and Tourism, Small Business Regulatory Review Board, Kauai County Mayor Bernard Carvalho Jr., and the Hawaii Food Industry Association. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Peter Yukimura has been an executive officer and owner of several small businesses over the past four decades. Mr. Yukimura currently holds the position of President for three different small businesses, Yukimura's Inc., Koa Trading Company, and M & K Distributors.

Your Committee finds that Mr. Yukimura brings a vast professional background that includes an extensive amount of time doing business on the Island of Kauai. Your Committee also finds that the reappointment of Mr. Yukimura will continue to allow the Board to utilize his strengths and commitment to providing the communities on Kauai with much needed expertise and guidance in regulating the small businesses on that island.

Testimony in support of the nomination of Charles K. H. Au was submitted by the Department of Business, Economic Development and Tourism, Department of Taxation, Small Business Regulatory Review Board, and Hawaii Society of Certified Public Accountants. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Charles K. H. Au has devoted his professional career to the area of public accounting. Over the past twenty years Mr. Au has been committed to helping small business clients in Hawaii with their accounting, tax, and consulting matters.

Your Committee finds that the technical expertise of Mr. Au in the areas of accounting, tax, and business consulting will assist the Board in overseeing the operations of small business in this State. Mr. Au has been a member of the Small Business Regulatory Review Board since 2005 and he is actively involved in a variety of community organizations which will help him to reach out and provide guidance to various small businesses in this State.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1550 Economic Development and Technology on Gov. Msg. Nos. 551 and 575**

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DIRECTORS OF THE HAWAII STRATEGIC DEVELOPMENT CORPORATION

G.M. No. 551 DANTON S. WONG, for a term to expire 6-30-2013; and

G.M. No. 575 H. BRIAN MOORE, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements of the nominees and finds Danton S. Wong and H. Brian Moore to have the requisite qualifications to be nominated to the Board of Directors of the Hawaii Strategic Development Corporation.

Testimony in support of the nomination of Danton S. Wong was submitted by the Department of Business, Economic Development, and Tourism, the Hawaii Strategic Development Corporation, the Iolani Palace, the American Red Cross, the Outrigger Enterprises Group, and three concerned individuals.

Mr. Wong received his Bachelor's degree in Economics from Stanford University and his Juris Doctor from the University of California Hastings College of the Law. He is a Partner at Chun, Kerr, Dodd, Beaman, and Wong. Mr. Wong is a Director of the Hawaii Heritage Center, a Director of the Friends of Iolani Palace, and a Trustee of the Island Pacific Academy. He also serves as an arbitrator in the Court Annexed Arbitration Program. Mr. Wong currently serves on the Board of Directors of the Hawaii Strategic Development Corporation.

Mr. Wong's experience in the areas of real estate transactions and commercial lending provide needed business perspectives to the Board to assist with the Hawaii Strategic Development Corporation's venture capital investment program and entrepreneurial development activities.

Testimony in support of the nomination of H. Brian Moore was submitted by the Department of Business, Economic Development, and Tourism, the Hawaii Strategic Development Corporation, The Gas Company, and Pacific Guardian Life Insurance Company, Ltd.

Mr. Moore received his Bachelor's degree in Government from the University of Notre Dame, completed coursework at the American Institute of Real Estate Appraisers, was a Fellow at the Life Management Institute, completed the Hawaii Management Program at the University of Hawaii at Manoa, and completed the Executive Program for Small Companies at Stanford University. He is presently employed as the Senior Vice President at Pacific Guardian Life Insurance Company, Ltd.

Mr. Moore has worked for many years supporting the diversification of Hawaii's economic base and his active participation on business boards, including the Mortgage Bankers Association of Hawaii and the Better Business Bureau, reflect his strong support of Hawaii's business community.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1551 Economic Development and Technology on Gov. Msg. Nos. 589, 590, 591 and 592**

Recommending that the Senate advise and consent to the nominations of the following:

COMMUNITY-BASED ECONOMIC DEVELOPMENT ADVISORY COUNCIL

G.M. No. 589 HANS H. CHUN, for a term to expire 6-30-2013;

G.M. No. 590 CAROL M. JUNG, for a term to expire 6-30-2013;

G.M. No. 591 MICHAEL J. MURAKOSHI, for a term to expire 6-30-2010; and

G.M. No. 592 JENNIFER L. ZELKO, for a term to expire 6-30-2010.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds Hans H. Chun, Carol M. Jung, Michael J. Murakoshi, and Jennifer L. Zelko to have the requisite qualifications to be nominated to the Community-Based Economic Development Advisory Council.

Testimony in support of the nomination of Hans H. Chun was submitted by the Department of Business, Economic Development, and Tourism and three concerned individuals.

Dr. Chun received his Bachelor's degree in Sport Management and Business Management, Master's degree in Communication with an emphasis in Public Relations, and his Doctor of Education in Educational Administration and Leadership with a specialty in Public Relations from the University of the Pacific. Dr. Chun is presently a Public Affairs Officer with the United States Navy Reserve, a Director of the Navy League of the United States, and a Faculty Instructor at the Axia College of the University of Phoenix.

Dr. Chun's education and professional experience providing support for public relations and marketing, community relations, and event coordination will serve the Council well in their mission to assist and empower Hawaii's communities.

Testimony in support of the nomination of Carol M. Jung was submitted by the Department of Business, Economic Development, and Tourism and three concerned individuals.

Ms. Jung received her Bachelor's degree in Political Science from the University of Hawaii at Hilo and her Juris Doctor from the Pennsylvania State University Dickinson School of Law. She is presently of Counsel and a Member of Jung & Vassar, P.C. and a Director for Family Support Services. Ms. Jung has extensive management and coordination experience, including as Executive Assistant to the Chairman of the National Democratic Committee in Washington D.C. She satisfies the requirement that a member represent West Hawaii.

Ms. Jung has demonstrated strong ethical standards, diligence, a creative ability, and a high level of volunteerism. She has represented many Hawaii-based business clients and has an informed understanding of the community's needs.

Testimony in support of the nomination of Michael J. Murakoshi was submitted by a member of the House of Representatives, the Department of Business, Economic Development, and Tourism, the Kauai County Mayor, Big Save Inc., Pahio Resorts, the Koa Trading Company, and one concerned individual.

Mr. Murakoshi has worked for First Hawaiian Bank for more than forty years, and presently serves as the Senior Vice President and Kauai Region Manager. He is a Director for Big Brothers Big Sisters of Honolulu and Chairperson of the Kauai Advisory Council, a Governor for the Japanese Cultural Center of Hawaii, the Treasurer of the Kauai Housing Development Corporation, and a member of many other organizations. Mr. Murakoshi satisfies the requirement that a member represent Kauai.

Mr. Murakoshi has extensive experience evaluating the financial needs for large and small businesses, non-profit organizations, and other entities. He can offer a balanced perspective regarding the socio-economic potential that a project may bring to the community it proposes to serve.

Testimony in support of the nomination of Jennifer L. Zelko was submitted by the Department of Business, Economic Development, and Tourism and one concerned individual.

Ms. Zelko received her Bachelor's degree in Psychology from the University of Hawaii at Hilo and her Juris Doctor from the Gonzaga University School of Law. She is presently an attorney with Torkildson, Katz, Moore, Hetherington, and Harris, Vice President of the YWCA of Hawaii Island, a Board member of the University of Hawaii at Hilo Alumni, and Chairperson of the East Hawaii Council of Advisors. Ms. Zelko satisfies the requirement that a member represent East Hawaii.

Ms. Zelko's extensive professional experience as an attorney working with local developers and government agencies to provide affordable housing and community-based development will bring valuable insight to the Community-Based Economic Development Advisory Council.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1552 Public Safety and Military Affairs on Gov. Msg. No. 475**

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII PAROLING AUTHORITY

G.M. No. 475 ALBERT TUFONO, for a term to expire 6-30-2012.

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Albert Tufono to possess the requisite qualifications to be nominated to the Hawaii Paroling Authority.

Testimony in support of the nomination of Albert Tufono was submitted by three state agencies, two private organizations, and twenty private individuals. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Albert Tufono has obtained over seventeen years of social service experience working with high-risk youths in various capacities, and with the Hawaii Paroling Authority, first as a member of the Authority and then as Chairman of the Authority. During his years of service working with at risk youths in Seattle, Washington and in Hawaii, he was responsible for developing, coordinating, and implementing programs targeting teens involved in gangs, homeless youths, runaways, pregnant teen mothers, and youths in correctional facilities. More recently, while working at the Hawaii Youth Correctional Facility, he implemented cognitive behavior modification programs for juvenile offenders. This depth and breadth of experience has been invaluable in his current role on the Hawaii Paroling Authority Board. Mr. Tufono's objective is to be fair, firm, and consistent, which is borne out in the great respect he has earned among his colleagues and the staff and attorneys who work with him and appear in front of the Board. This mindset has also helped to significantly reduce the parole recidivism rate during his tenure.

Your Committee finds that the reappointment of Albert Tufono to the Hawaii Paroling Authority Board will continue to have a positive impact on reducing the number of parolees who return to prison and on improving the parole process for all concerned.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1553 Public Safety and Military Affairs on Gov. Msg. Nos. 476 and 530**

Recommending that the Senate advise and consent to the nominations of the following:

ADVISORY BOARD ON VETERANS' SERVICES

G.M. No. 476 PATRICIA ANN WIELAND, for a term to expire 6-30-2013; and

G.M. No. 530 NORMAN S. STAHL, for a term to expire 6-30-2013.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Patricia Ann Wieland and Norman S. Stahl to possess the requisite qualifications to be nominated to the Advisory Board on Veterans' Services.

Testimony in support of the nomination of Patricia Ann Wieland was submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Ms. Wieland currently works as the Hawaii Voluntary Service Program Manager for the Veterans Administration at the Spark Matsunaga Veterans Affairs Medical Clinic at Tripler Hospital. Prior to her current position, Ms. Wieland obtained extensive experience in various capacities within the federal government for more than twenty years. She has also been a member of the Navy Reserves for twenty-one years. Additionally, Ms. Wieland's extensive involvement in the Disabled American Veterans Auxiliary and the American Legion adds to her knowledge and experience with veterans' issues. Ms. Wieland has been a member of the Advisory Board on Veterans' Services since 2007, providing invaluable insight and input concerning veterans' issue.

Your Committee finds that the reappointment of Ms. Wieland to the Advisory Board on Veterans' Services representing Oahu will continue to provide the Board with a unique insight and breadth of experience in veterans' issues.

Testimony in support of the nomination of Norman S. Stahl was submitted by one state agency, one private organization, and one private individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Dr. Stahl received a Bachelor of Arts Degree in Social Science from the California State University, Fresno, a Master of Arts Degree in Psychology, Counseling and Guidance from the University of Northern Colorado, a Master of Arts Degree, Higher Education and Organizational Change from the University of California, Los Angeles, and a Doctor of Philosophy Degree in Education (Research Emphasis in Career Development) from the University of California, Los Angeles. He is currently the Director of Career Services at the University of Hawaii at Hilo. Dr. Stahl is very involved in veterans' affairs, with the Hawaii County Veterans Advisory Board and the Big Island Retired Military Association. Additionally, as a Marine, Dr. Stahl rose from enlisted ranks to commissioned officer, with service in Vietnam. Thereafter, he continued to serve his country as a Marine on active duty for twenty-two years and retired as a Lieutenant Colonel.

Your Committee finds that Dr. Stahl's experiences in education, counseling, and psychology will truly benefit the Board objectives. Moreover, as a veteran, Dr. Stahl brings much understanding and concern for issues of all Hawaii's veterans.

As affirmed by the records of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1554 Public Safety and Military Affairs on Gov. Msg. No. 559**

Recommending that the Senate advise and consent to the nomination of the following:

CRIME VICTIM COMPENSATION COMMISSION

G.M. No. 559 L. DEW KANESHIRO, for a term to expire 6-30-2013.

Your Committee received testimony in support of this nomination from two state agencies, one private agency, and five individuals. Your Committee also received a written statement and biographical information from the nominee. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that this nominee has a strong background in the judicial system, with twenty years of experience as an attorney, court administrator, and consultant. Your Committee finds that this nominee possesses a good understanding of the functions of the Crime Victim Compensation Commission and will bring a valuable perspective to the Commission. This nominee's experience working with non-English-speaking populations and other groups that are traditionally underserved by the judicial system give her a deep understanding of access issues and diverse points of view. Further, your Committee finds that this nominee's work with government agencies, victim service organizations, court interpreters, prosecutors, police, and community organizations has allowed her to view the entire criminal justice system and to gain an understanding of crime victims' experience interacting with the various institutions and processes.

Your Committee finds that this nominee will be able to make clear and consistent decisions as a member of the Crime Victim Compensation Commission. Further, your Committee finds that this nominee is knowledgeable about the impact of violent crime on individuals and will be sensitive and compassionate in dealing with these individuals. Finally, your Committee finds that this nominee was nominated based on her experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (English, Gabbard, Hemmings).

**SCRep. 1555 Economic Development and Technology on Gov. Msg. Nos. 285, 286 and 289**

Recommending that the Senate advise and consent to the nominations of the following:

STADIUM AUTHORITY

G.M. No. 285 KATHLEEN O. AHINA, for a term to expire 6-30-2013;

G.M. No. 286 KEVIN H. M. CHONG KEE, for a term to expire 6-30-2012; and

G.M. No. 289 ALEXANDER C. KANE JR., for a term to expire 6-30-2012.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Kathleen O. Ahina, Kevin H. M. Chong Kee, and Alexander C. Kane Jr. to possess the requisite qualifications to be nominated to the Stadium Authority.

Testimony in support of the nomination of Kathleen O. Ahina was submitted by the Department of Accounting and General Services, Aloha Stadium, and six concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Kathleen O. Ahina has been a life-long resident of Hawaii that has enjoyed her experiences at Aloha Stadium from its very beginning after construction to today. Kathleen O. Ahina also has served as a member of the Stadium Authority since 2005 and has provided considerable insight into the user needs and safety matters currently affecting Aloha Stadium.

Your Committee finds that reappointing Kathleen O. Ahina for another term will help the Stadium Authority when they seek bids for a contract with the swap meet within the next year. Your Committee also finds that Kathleen O. Ahina can assist the Stadium Authority in resolving the issues and concerns that currently face the Swap Meet Vendors Association in their current contract with Centerplate.

Testimony in support of the nomination of Kevin H. M. Chong Kee, was submitted by Representative Barbara Marumoto, Representative Lynn Finnegan, the Department of Accounting and General Services, the Department of Hawaiian Home Lands, Aloha Stadium, and one individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Kevin H. M. Chong Kee currently serves as the Chair of the Stadium Authority and has laid a foundation for working toward resolving the current issues facing the Stadium Authority, such as hiring a new Stadium Manager, eliminating rent charges to the University of Hawaii, and addressing the challenges of a major repair and renovation project.

Your Committee finds that, while Chair Chong Kee has made some progress in working with the Swap Meet Vendors Association and Centerplate management to resolve differences between those two entities, much more work must be done to address your Committee's concerns regarding the need for improved access to information on Stadium Authority operations, better communications with all Aloha Stadium users, and increased accountability to the Legislature.

Specifically, your Committee is concerned about the present system in which its swap meet management contractor is also the contractor for food and beverage concessions, and the new Request for Proposal for swap meet management appears to relax the level of performance criteria for contractors to meet.

Testimony in support of the nomination of Alexander C. Kane Jr. was submitted by the Department of Accounting and General Services and Aloha Stadium. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Alexander C. Kane Jr. has almost thirty years of experience as an interscholastic athletic director in Hawaii.

Your Committee finds that Alexander C. Kane Jr. has represented the sports community's perspective well during his current term on the Stadium Authority and that his commitment has been focused on what is in the best interest of Aloha Stadium. Your Committee also finds that Mr. Kane is aware and knowledgeable about the fiscal and safety concerns of Aloha Stadium and will advocate for prudent measures to resolve those concerns.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Record of votes for Kevin H. M. Chong Kee:

Ayes, 4. Ayes with Reservations, 3 (Baker, Fukunaga, Ige). Noes, none. Excused, 1 (Hee).

Signed by the Chair on behalf of the Committee.

Record of votes for all other nominees:

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1556 Economic Development and Technology on Gov. Msg. Nos. 290, 291 and 522**

Recommending that the Senate advise and consent to the nominations of the following:

**STADIUM AUTHORITY**

G.M. No. 290 MARCIA J. KLOMPUS, for a term to expire 6-30-2013;

G.M. No. 291 NELSON G. OYADOMARI, for a term to expire 6-30-2013; and

G.M. No. 522 LAWRENCE K. W. TSEU, for a term to expire 6-30-2012.

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Marcia J. Klompus, Nelson G. Oyadomari, and Lawrence K. W. Tseu to possess the requisite qualifications to be nominated to the Stadium Authority.

Testimony in support of the nomination of Marcia J. Klompus was submitted by Representative Barbara Marumoto, the Department of Accounting and General Services, and the Department of Labor and Industrial Relations. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Marcia J. Klompus has been a resident of Hawaii for over twenty-three years and has over thirty years of experience working with marketing or managing sporting events. Marcia J. Klompus also is an Executive Director of Sanctioned Bowl Games and Events for the National Collegiate Athletic Association.

Your Committee finds that reappointing Marcia J. Klompus to the Stadium Authority for another term will assist in strengthening the marketing of Aloha Stadium events and building a stronger brand for swap meet events. Your Committee also believes she can help the Stadium Authority improve relations between the Swap Meet Vendors Association and Centerplate management.

Testimony in support of the nomination of Nelson G. Oyadomari was submitted by the Department of Accounting and General Services, Central Pacific Bank, Hidano Construction, Muscular Dystrophy Association, Hawaii Performance Warehouse, and one concerned individual. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Nelson G. Oyadomari has an extensive professional background in finance and the mortgage industry. Mr. Oyadomari has used the experiences he has gained in his career to assist the Stadium Authority in all financial matters during his current appointment to the Stadium Authority.

Your Committee finds that Nelson G. Oyadomari has helped guide the Stadium Authority on financial issues facing the Stadium Authority and Aloha Stadium during the past four years.

Testimony in support of the nomination of Lawrence K. W. Tseu was submitted by Former Governor George Ariyoshi, Chaminade University of Honolulu, Saint Louis School, Market City Shopping Center, and two concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Lawrence K. W. Tseu has served and been a member of many boards and advisory panels over the past thirty years and accordingly has substantial experience in developing and implementing the fiscal and management solutions that would be useful to the Stadium Authority.

As a new member of the Stadium Authority, your Committee finds that Lawrence K. W. Tseu is aware of the important role that Aloha Stadium plays in our State's economy. Your Committee also finds that Mr. Tseu's lengthy record of community service and leadership and strong work ethic makes him well-equipped to assist the Stadium Authority as it explores the best means of tackling infrastructural needs in conjunction with limited public funding resources and a fiscally-constrained private sector partners.

As affirmed by the records of votes of the members of your Committee on Economic Development and Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Hee).

**SCRep. 1557 (Majority) Economic Development and Technology on H.C.R. No. 100**

The purpose of this measure is to proclaim September 24, 2009, as "Islam Day" in recognition of the rich religious, scientific, cultural, and artistic contributions Islam and the Islamic world have made since their founding.

Testimony in support of this measure was submitted by the Muslim Association of Hawaii and thirty-five concerned individuals. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that recognition of the Islamic culture and beliefs only adds to the wealth of the diverse makeup of the people in Hawaii. Your Committee also finds that designating one day in 2009 as "Islam Day" is an appropriate mechanism for the people of the Islamic world to be noticed and acknowledged in Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 100, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Hee).

**SCRep. 1558 (Joint) Economic Development and Technology and Public Safety and Military Affairs on H.C.R. No. 49**

The purpose of this measure is to:

- (1) Urge the President of the United States, Secretary of Defense, Secretary of the Interior, and the United States Navy to preserve a portion of United States Marine Corps Air Station Ewa as a National Monument; and
- (2) Request the United States Navy and its private, public, and nonprofit partners to proceed with and the Department of Land and Natural Resources to report on the research, battlefield analysis, and other activities necessary to designate an appropriate boundary within Ewa Field for nomination to the Hawaii State and National Registers of Historic Places.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, Kailua Neighborhood Board, and two concerned individuals. Written testimony presented to the Committees may be reviewed on the Legislature's website.

Your Committees find that the historical significance of United States Marine Corps Air Station Ewa is extensive and deserves to be protected. Specifically, your Committees also find that it is important to preserve the land, buildings, and structures at United States Marine Corps Air Station Ewa that played a role during World War II and the attack on Pearl Harbor so that those pieces of Hawaii's history can be studied by future generations and historians.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Public Safety and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 49, H.D. 1, and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 8. Noes, none. Excused, 4 (Bunda, Hee, Kidani, Hemmings).

**SCRep. 1559 Labor on H.C.R. No. 207**

The purpose of this measure is to:

- (1) Request the Department of Labor and Industrial Relations (lead agency), Department of Taxation, Insurance Division of the Department of Commerce and Consumer Affairs, Department of Health, Department of Education, Corrections Division of the Department of Public Safety, Hawaii Public Housing Authority, Department of Human Services, and Department of Agriculture to conduct a joint study on the impact of illegal immigration in Hawaii; and
- (2) Request the Department of Labor and Industrial Relations to lead a task force to determine investigatory and enforcement actions to reduce the practice of hiring illegal or undocumented workers.

Testimony in support of this measure was submitted by one state agency and one organization. Comments were submitted by one state agency. Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that the State's current economic situation calls for more prudent state spending and improved enforcement of existing laws. Your Committee recognizes this measure as a step toward preventing the hiring of undocumented workers, recovering funds owed to the State by companies that are found to hire undocumented workers, and preventing companies found to employ undocumented workers from doing business in the State.

Your Committee also recognizes the merits of the Department of Commerce and Consumer Affairs' comments, which name the Regulated Industries Complaints Office as the agency with the appropriate authority to represent the Department's licensing boards on the task force.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 207, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Bunda, Slom).

**SCRep. 1560 Public Safety and Military Affairs on H.C.R. No. 27**

The purpose of this measure is to request a study of disparate treatment of Native Hawaiians in Hawaii's criminal justice system.

Testimony in support of this measure was submitted by one state agency, three organizations, and one individual. Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds there is compelling evidence that Native Hawaiians have received disparate treatment in the Hawaii criminal justice system. According to recent studies, Native Hawaiians account for twenty per cent of the total population of the State but around forty per cent of the State's prison population. Native Hawaiians average twenty-three per cent of all arrests in the State, and are twice as likely to be incarcerated as any other group. Native Hawaiian males and females make up forty-five per cent of all

parolees statewide, and scholars have concluded that Native Hawaiians are at the greatest risk of being re-arrested and returning to prison.

The high rates of incarceration have profound implications for Native Hawaiians. For example, almost sixty per cent of children placed in child protective services are Native Hawaiian. Of those children, eight per cent to thirty-three per cent have incarcerated parents. Studies suggest that adult children of incarcerated mothers are two and one-half times more likely to be incarcerated than adult children of incarcerated fathers. Ninety-five per cent of the one hundred twenty female Hawaii inmates incarcerated at a single mainland facility are mothers.

Thirty-nine per cent of the 1,844 inmates from the State who are residing in mainland facilities are Native Hawaiian, and there is a growing concern that if Native Hawaiian inmates continue to be transferred to mainland facilities, further removed and disconnected from their families, it may lead to a higher recidivism rate and adversely contribute to their children's behavior.

A careful study with a multi-method approach which includes quantitative and qualitative analysis has the potential to produce favorable policy reforms which address the disparate treatment of Native Hawaiians.

As affirmed by the record of votes of the members of your Committee on Public Safety and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 27, H.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Kidani, Hemmings).

**SCRep. 1561      Transportation, International and Intergovernmental Affairs on H.C.R. No. 304**

The purpose of this measure is to urge the Governments of Uganda and Democratic Republic of the Congo to abolish child soldiering in their armed forces in conjunction with the United States' Child Soldiers Accountability Act signed into law by President Bush on October 3, 2008.

This measure also urges the Hawai'i Congressional Delegation to support legislation allocating sufficient funds for continued humanitarian aid to the people of Uganda and the people of the Democratic Republic of the Congo, as well as legislation urging the Lord's Resistance Army to engage in good faith negotiations to pursue a political solution to this conflict.

Your Committee received testimony in support of this measure from the Hawaii Family Forum; Hawaii Catholic Church in Hawai'i; and one hundred sixteen individual petitions. Written testimony presented to the Committee may be reviewed on the Legislature's website.

After twenty-three years of civil war, the Lord's Resistance Army, led by Joseph Kony, has engaged in an armed conflict with the Government of Uganda, resulting in thousands of murders, at least twice that number of children abducted, and nearly two-million people displaced. The continuing violence and instability obstruct the delivery of humanitarian assistance to the people of northern Uganda and the Democratic Republic of the Congo and impede national and regional trade, development and democratization efforts, and counter-terrorism efforts.

As affirmed by the record of votes of the members of your Committee on Transportation, International and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 304, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1562      Health on S.R. No. 61**

The purpose of this measure is to ensure that any legislative effort to repair the healthcare system in Hawaii incorporates sustainable wellness programs that address the underlying causal factors associated with chronic disease.

Your Committee received testimony in support of this measure from the Department of Health, the Hawaii Primary Care Association, the Hawaii Government Employees Association, and Catholic Charities of Hawaii.

Written testimony presented to your Committee may be reviewed on the Legislature's website.

Your Committee finds that continuing support to protect funding for primary prevention is important to ensuring the viability of sustainable wellness programs. These programs will reduce future health care costs by addressing the prevention of chronic disease and educating the public on the importance of healthy lifestyle changes.

Your Committee has amended this measure by making technical, nonsubstantive changes to the title and body for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 61, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 61, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1563      Health on S.R. No. 97**

The purpose of this measure is to request the Department of Health to review and assess the policies and procedures implemented by hospitals to reduce elective cesarean sections and induction of labor.

Your Committee received testimony in support of this measure from the March of Dimes. Testimony in opposition to this measure was submitted by the Department of Health. Comments on this measure were submitted by Healthy Mothers, Healthy Babies.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that there has been a sharp increase in the number of induction and elective surgical births in the past ten years that have increased the rate of pre-term births.

Your Committee further finds that the Healthcare Association of Hawaii is a non-profit organization that represents Hawaii's health care providers and would serve as a valuable asset to the review and assessment process conducted by the Department of Health.

Your Committee has amended this measure by requesting the Department of Health to conduct the review and assessment in consultation with the Healthcare Association of Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 97, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 97, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1564      Health on S.R. No. 89**

The purpose of this measure is to encourage the creation of a chronic obstructive pulmonary disease module within the Centers for Disease Control and Prevention that will enable information on the potentially debilitating disease to be centralized and coordinated, leading to better sharing of key information and more research and funding for better and effective treatments.

Your Committee received testimony in support of this measure from the Hawaii Chronic Obstructive Pulmonary Disease Coalition.

Written testimony presented to the Committee may be reviewed on the Legislature's website.

Your Committee finds that appropriate funding for the establishment of a national chronic obstructive pulmonary disease program will enable information on the potentially debilitating disease to be centralized and coordinated, leading to better sharing of key information and more research and funding for better and effective treatments.

Your Committee has amended this measure by:

- (1) Changing the title to request the establishment of a Chronic Obstructive Pulmonary Disease program instead of a module, and other conforming amendments; and
- (2) Making technical, nonsubstantive changes for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 89, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 89, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, 1 (Hemmings).

**SCRep. 1565      (Joint) Health and Human Services on S.R. No. 79**

The purpose of this measure is to request the Hawaii Health Systems Corporation East and West regional boards to establish the Big Island Long-Term Care Coalition to develop a plan for long-term care solutions on the Big Island of Hawaii.

Your Committees received testimony in support of this measure from the Hawaii Primary Care Association.

Written testimony presented to your Committees may be reviewed on the Legislature's website.

Your Committees find that the lack of long-term care facilities, particularly on the island of Hawaii, is one of the most critical health care issues facing the senior and adult disabled population. The Hawaii Health Systems Corporation is most affected by the availability of and support for long-term care. Therefore, leadership from the Corporation's Big Island regional boards is appropriate for the important task of pulling a coalition together to develop solutions.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 79 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.  
Ayes, 6. Noes, none. Excused, 2 (Espero, Hemmings).
