

SPECIAL COMMITTEE REPORTS

Spec. Com. Rep. No. 1

The Special Committee on Accountability - 01, to which was referred S.C.R. No. 34 entitled:

“SENATE CONCURRENT RESOLUTION REQUESTING THE AUDITOR TO CONDUCT AN AUDIT OF STATE DEPARTMENTS WITH HIGH RATES OF ADDITIONAL COMPENSATION PAID TO EMPLOYEES,”

begs leave to report as follows:

The purpose and intent of this measure is to request the Auditor to conduct an audit of state departments with high rates of additional compensation paid to employees, including:

- (1) A review of the use of overtime pay, and any excessive use of sick leave and other forms of compensation such as compensatory time, which may directly or indirectly contribute to increased overtime for employees, and the impact of the use of additional compensation on pension payments;
- (2) A description of any specific instances of “pension spiking”;
- (3) An identification of any patterns of abuse of additional compensation by either employees or their supervisors; and
- (4) Recommendations for addressing the issues raised in the audit.

Your Committee received testimony in support of this measure from the Auditor and Department of Human Resources Development. Your Committee received comments on this measure from the Employees’ Retirement System, Department of Budget and Finance, Department of Health, Hawaii Health Systems Corporation, Department of Public Safety, and Department of Transportation.

Your Committee has also heard S.C.R. No. 37, “SENATE CONCURRENT RESOLUTION REQUESTING THE AUDITOR TO CONDUCT A FINANCIAL AND MANAGEMENT AUDIT OF THOSE STATE AGENCIES WITH SALARY AND WAGE OVERPAYMENTS,” which requested the Auditor to conduct a financial and management audit of those state agencies with salary and wage overpayments; including:

- (1) The full extent of the overpayments, the total amount repaid, amounts still eligible for repayment, and amounts deemed uncollectable, by department;
- (2) Efforts by the State to resolve the overpayments; and
- (3) Any recommendations for legislation to address or prevent the issue of salary and wage overpayment and improve the collection of overpayments.

Your Committee received testimony in support of this measure from the Auditor, Department of Accounting and General Services, and Koa Hills Consulting. Your Committee received comments on this measure from the Department of the Attorney General, Department of Education, Department of Health, Department of Public Safety, and Department of Transportation.

Your Committee held three hearings on S.C.R. No. 34, and two hearings on S.C.R. No. 37. During the conduct of these hearings, your Committee found a number of common themes, concerns, and recurring problems within specific state agencies that were relevant for both measures. After careful consideration, your Committee has combined many of the provisions from both measures, as well as recommendations from the Auditor, in S.C.R. No. 34, S.D. 1. The specific amendments are discussed in greater detail at the end of this standing committee report.

Your Committee is troubled chiefly by the lack of accountability demonstrated in the testimony and through questioning of the representatives of those agencies present at the hearings. Whether the issue was related to “pension spiking” or the overpayment of compensation, your Committee found a pattern of misinformation, lack of information, and conflicting information that has resulted in several state agencies’ inability to resolve their employee compensation problems – often for many years.

Your Committee has heard that the State’s use of a manual, decentralized timekeeping system keeps the agencies from accurately tracking and addressing patterns of abuse, and that the situation will be difficult to resolve until the State embraces an automated system. Yet, your Committee has also heard from other state agencies that have implemented an electronic form of record keeping, with excellent results.

Your Committee has heard from several state agencies that their collective bargaining agreements hamper their efforts to address employee abuse of overtime, sick leave, and leave without pay. On questioning, however, your Committee found that agency directors and managers were not always clear about what was contained in their collective bargaining agreements.

In questioning one state agency regarding why they have not pursued repayment of overpayments to the full extent allowed, your Committee found that the official responsible had misinterpreted the law. While your Committee understands that such misinterpretations may occur, your Committee is greatly concerned that the official neither requested nor was offered information on the correct interpretation of the law as he implemented it.

Your Committee has heard that there is no statewide manual to address overpayments, and also heard that there is such a manual. One agency indicated they are following an overpayment Executive Memorandum issued by former Governor Cayetano on October 1, 1996 (Memo No. 96-16), which established policies and procedures based on section 78-12(c) and (e), Hawaii Revised Statutes. Other agencies appeared not to be aware of that or any directives on the subject. On April 28, 2003, the Comptroller issued a memorandum to supplement the salary overpayment write-off procedures in former Governor Cayetano’s 1996 memo (Comptroller’s Memorandum No. 2003-13). On October 1, 2003, the Comptroller at that time issued a memorandum on monthly reporting requirement of Salary Overpayment Amounts (Comptroller’s Memorandum No. 2003-24, which was updated on April 28, 2004 (Comptroller’s

Memorandum No. 2004-11). It is unclear to your Committee what, if anything, is done with the required monthly reports to the Comptroller.

Your Committee further finds that on September 14, 2006, Governor Lingle issued Executive Memorandum No. 06-03, which revised the policies and procedures for salary and wage overpayment and superseded the 1996 Executive Memorandum issued by former Governor Cayetano. Governor Lingle's Executive Memorandum appears to have interpreted section 78-12, Hawaii Revised Statutes, far more leniently, which has had a detrimental effect on the State's efforts to collect for overpayments.

Section 78-12(f), Hawaii Revised Statutes, reads:

“(f) Regardless of whether a contested determination of indebtedness is pending, the disbursing officer shall commence immediate recovery of the indebtedness as provided in this subsection. If the indebtedness is equal to or less than \$1,000, the disbursing officer shall immediately deduct from any subsequent periodic payment normally due the employee any amount up to the total amount of indebtedness and for indebtedness greater than \$1,000, the disbursing officer shall deduct:

- (1) An amount agreed to by the employee and the appointing authority, but not less than \$100 per pay period; or
- (2) One-quarter of the salary, wages, or compensation due the employee until the indebtedness is repaid in full.

In addition to paragraph (1), an employee and the appointing authority may agree to offset any remaining amount of indebtedness by applying the current value of appropriate leave or compensatory time credits posted in the employee's respective accounts as balances that would otherwise be payable in cash upon separation from service; provided that credits shall not be applied to any extent that would require a refund of any moneys already deducted or repaid or that would require the payment of any moneys to the employee equivalent to a cashing out of leave or compensatory time credits.”

The 1996 Executive Memorandum stipulated that in the case of an overpayment (OP) greater than \$1,000, a department was “to deduct one-quarter of the employee's salary, wages or compensation per pay period, until the OP is repaid in full.” The 2006 Executive Memorandum, however, stipulated that for an OP greater than \$1,000, a department “deduct the amount agreed upon by the employer and employee until the OP is repaid in full. The minimum amount to be initially deducted is established by law at \$100 per pay period.”

Your Committee is astounded not only that the previous administration would choose to collect money legitimately owed to the State at the lesser level authorized by the statute, but that many in the current administration were not aware of this 2006 Executive Memorandum and that no attempt had been made to supersede it with a collection policy based on the full authorization of the law.

Throughout these hearings your Committee has questioned several state agencies regarding which department has the ultimate responsibility to ensure that compensation abuses do not continue and are addressed in a timely manner. Prior to the final hearing, your Committee had not received a satisfactory answer to the question. It was clear to your Committee that the absence of oversight by the administration as a whole has contributed to the continuation of these compensation abuses on the part of those employees who are adept at “gaming the system”. Your Committee was further troubled that there appeared to be limited – and inconsistent – initiatives by the various state agencies to “fix” the system. While your Committee fully understands that a state agency does not have the flexibility of a private sector business, there are means available to the administration, including legislation, that have not been fully explored to address these problems.

Your Committee was encouraged at the last hearing on these measures to find that the issue of accountability was finally being seriously addressed. The Department of the Attorney General will be reviewing the past and current Executive Memoranda on the policies and procedures for salary and wage overpayment recovery for possible revisions; working with the departments to ensure they are correctly interpreting and implementing section 78-12, Hawaii Revised Statutes; working with the departments to reconcile the status of collections; reviewing the State's overpayment policies and procedures; and considering legislation for introduction during the 2013 Regular Session.

In addition, the Department of Accounting and General Services will be preparing two overpayment reports to be distributed to the Governor's monthly cabinet meetings for discussion and resolution; issuing an updated Comptroller's Memorandum by the end of March 2012, reminding the departments of the State's overpayment collection procedures, policies, and laws; reviewing, with the Department of the Attorney General, relevant statutes that may require amendments; and reviewing, with the assistance of the Employees' Retirement System, the effects of overpayments on the retirement system. Your Committee understands that the Comptroller may issue additional memoranda to address these issues.

Your Committee has also heard a commitment by the agencies testifying in these hearings to work in a more collaborative manner to address the problems and issues uncovered by your Committee. Your Committee certainly hopes this will be the case, as many of the most troubling problems are years old.

Your Committee has amassed a considerable amount of data, documentation, and anecdotal accounts of compensation abuses that have a detrimental impact on the State's financial plan and the Employees' Retirement System. As noted by the State's Director of Finance, many of these issues—particularly overtime calculations by state agencies—lend a certain level of unpredictability to the budget process. For the Employees' Retirement System, the fiscal impact is not only significant, but it also presents a long-term problem for the agency and thousands of public worker retirees.

During the course of these hearings, your Committee has encountered problems that go far deeper than the members may have anticipated. As a result, it is difficult to assess the true cost to the State. Your Committee is in strong agreement that the audits in the two measures before your Committee are necessary and, in some cases, long overdue. Given the overlapping issues, and recurring problems in specific state departments, your Committee believes the Auditor should be given the flexibility to determine how many audits may be necessary, the most appropriate agencies to audit, and the scope of these audits.

Your Committee has amended this measure accordingly, by:

- (1) Amending the title to read: "SENATE CONCURRENT RESOLUTION REQUESTING THE AUDITOR TO CONDUCT AUDITS OF STATE DEPARTMENT OPERATIONS THAT RESULT IN HIGH NON-BASE COMPENSATION OF STATE AND COUNTY EMPLOYEES, PAY FOR NOT WORKING, AND SALARY OVERPAYMENTS";
- (2) Replacing several findings with language to clarify the specifics of compensation issues relating to the impacts for the Employees' Retirement System;
- (3) Adding findings from S.C.R. No. 37, regarding the extent and impact of wage and salary overpayment;
- (4) Expanding the scope of the audit to include:
 - (A) An identification of such practices as failure to report to work nevertheless resulting in current compensation and leave credits and in future favorable impact on pensions;
 - (B) The full extent of overpayments to state employees, the total amount repaid, amounts still eligible for repayment, and amounts deemed uncollectable, by department;
 - (C) Efforts by the State to resolve the overpayments through timely and aggressive collections;
 - (D) A review of state agencies' personnel policies regarding overtime, sick leave, leave without pay, and other forms of compensation; and
 - (E) A review of collective bargaining agreements that address pay for not working;
- (5) Allowing the Auditor, in conducting the audits, to focus initial efforts additionally on departments that have:
 - (A) Employees in bargaining units with collective bargaining contracts that enable substantial non base compensation payments to occur; or
 - (B) Demonstrated contract management practices resulting in a pattern of overpayment of employees; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

It is the intent of your Committee to share the information presented at these hearings with the Auditor. While a considerable amount of data has been collected for the Auditor's review, additional records will be required. Given the scope of the task before the Auditor, your Committee would urge the departments to cooperate fully and expeditiously when requests for further information are made.

In addition, your Committee has requested that the Committee be kept apprised of further initiatives by Governor Abercrombie and the Administration to address the many problems uncovered during these hearings.

As affirmed by the record of votes of the members of your Special Committee on Accountability - 01 that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 34, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 34, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1-12 on H.B. No. 608

The purpose of this bill is to appropriate moneys, subject to dollar-for-dollar private matching funds, to support ongoing services provided by a qualified provider with Centers for Medicare and Medicaid Services certification to perform kidney and liver transplants in Hawaii and to support a federally-recognized chronic kidney disease management program.

Your Committee on Conference finds that an emergency appropriation is necessary to preserve and save the lives of individuals combating organ failure by providing them with essential access to organ transplantation in the State and giving these individuals quality care and treatment throughout operation and recovery.

Pursuant to the requirements set forth in Article VII, Section 9, of the Hawaii State Constitution, the Governor, in Governor's Message No. 181 to the Legislature, requests immediate consideration and passage of this bill by the Legislature, citing the necessity of prompt attention to this matter to appropriate funds to support kidney and liver transplants in Hawaii.

It is your Committee on Conference's intent that of the \$1,800,000 appropriated for fiscal year 2011-2012:

- (1) \$1,500,000 shall be for supporting ongoing services by a qualified provider with United Network for Organ Sharing certification to perform kidney and liver transplants in Hawaii; and
- (2) \$300,000 shall be for supporting a federally-recognized chronic kidney disease management program.

Accordingly, your Committee on Conference has amended this bill by:

- (1) Making an emergency appropriation, subject to dollar-for-dollar private matching funds, to support ongoing services by a qualified provider with United Network for Organ Sharing certification to perform kidney and liver transplants in Hawaii, and to support a federally-recognized chronic kidney disease management program;
- (2) Specifying an appropriation amount of \$1,800,000 for fiscal year 2011-2012;
- (3) Specifying that the funds appropriated in the bill shall be exempt from Chapter 42F, Hawaii Revised Statutes;
- (4) Changing the effective date of the bill to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 608, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 608, H.D. 3, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Morikawa, Jordan, Mizuno, Wooley and Ching.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Wooley).

Conf. Com. Rep. 2-12 on S.B. No. 239

The purpose of this measure is to:

- (1) Extend the authorization that allows the John A. Burns School of Medicine (JABSOM) to receive a portion of Hawaii tobacco settlement special fund monies for annual operating expenses until 2015 while reducing that portion of fund monies each fiscal year until the fiscal year ending on June 30, 2015;
- (2) Establish a University of Hawaii school of public health special fund, using a portion of Hawaii tobacco settlement special fund monies, to finance the establishment of a school of public health in JABSOM;
- (3) Establish the Hawaii medical doctors loan program and a special fund to support the program;
- (4) Establish the Hilo medical center rural interdisciplinary residency program special fund to implement and sustain the program; and
- (5) Direct a portion of JABSOM's share of the Hawaii tobacco settlement fund monies into the University of Hawaii school of public health special fund, Hilo medical center rural interdisciplinary residency program special fund, and Hawaii medical doctor loan program special fund from fiscal year 2012-2013.

Your Committee on Conference finds that JABSOM's authorization to use a portion of Hawaii tobacco settlement special fund monies to support the school's operations and train and graduate new physicians expired on June 30, 2011. Your Committee on Conference recognizes the tough financial situation the University of Hawaii is facing and through this measure will reinstate the use of Hawaii tobacco settlement special fund monies by JABSOM until June 30, 2015. It is the intent of your Committee on Conference that, in passing this measure and reinstating the use of Hawaii tobacco settlement special fund monies, JABSOM not encounter any delay in accessing and using these funds, operating as though the authorization allowing JABSOM to receive a portion of Hawaii tobacco settlement special fund monies had not expired.

Your Committee on Conference further finds that the University of Hawaii must develop and implement revenue generating practices that will allow JABSOM to become self sufficient and less reliant on Hawaii tobacco settlement special fund monies for its annual operating costs. As such, your Committee on conference believes that the University of Hawaii should prepare a financial plan detailing how it will fund JABSOM's operating expenses beginning July 1, 2015, when it is no longer authorized to use Hawaii tobacco settlement special fund monies. The financial plan should include an itemized list of all sources of funding for JABSOM, including monies from the general fund, trust funds, or the federal government.

Accordingly, your Committee on Conference has amended this measure by deleting its contents and inserting the contents of S.B. No. 239, S.D. 2 (2011), which extends the authorization allowing JABSOM to receive an unspecified portion of Hawaii tobacco settlement special fund monies and requires the University of Hawaii to account for revenues and expenditures relating to monies appropriated into the university revenue-undertakings fund and monies used for JABSOM's operating costs, and further amending this measure by:

- (1) Specifying that the portion of Hawaii tobacco settlement special fund monies to which the University of Hawaii is entitled shall be reduced to:
 - (A) Twenty-seven percent starting with fiscal year 2013-2014; and
 - (B) Twenty-six percent starting with fiscal year 2014-2015;
- (2) Specifying that the reductions in the University of Hawaii's portion of Hawaii tobacco settlement special fund monies shall be deposited to the credit of the general fund in addition to the:
 - (A) Twenty-five and one-half percent of monies deposited to the credit of the general fund for fiscal year 2013-2014; and
 - (B) Twenty-six and one-half percent of monies deposited to the credit of the general fund for fiscal year 2014-2015;
- (3) Specifying that any amounts in excess of the amounts required by JABSOM for its operating expenses shall be transferred in the succeeding fiscal year to the general fund;
- (4) Requiring the University of Hawaii to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Sessions of 2013 through 2015 detailing its financial plan to fund JABSOM's operating expenses beginning July 1, 2015, when it is no longer authorized to use a portion of the Hawaii tobacco settlement special fund monies; and
- (5) Making this measure effective upon approval and repealing this measure on June 30, 2015.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 239, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 239, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Green and Ige.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Nishimoto, Oshiro, M. Lee, Nakashima and Ward.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 3-12 on S.B. No. 809

The purpose of this measure is to increase the University of Hawaii's authorization to issue revenue bonds for the purpose of financing the construction and maintenance of qualifying projects.

Your Committee on Conference finds that increasing the University of Hawaii's authorization to issue revenue bonds by \$100,000,000 will allow the University of Hawaii to continue to address its growing capital facilities needs and complete as many of its priority capital facility construction, renovation, and repair projects as possible.

Your Committee on Conference further finds that this measure will provide the University of Hawaii with the financial flexibility it needs to improve and maintain its facilities for the successful accomplishment of its core education and research mission.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Specifying that the measure is recommended by the Governor for immediate passage pursuant to Article VII, Section 9, of the Constitution of the State of Hawaii;
- (2) Inserting \$300,000,000 as the maximum total principal amount of the revenue bonds authorized by this measure;
- (3) Inserting an appropriation amount of \$100,000,000 out of the revenue bond proceeds;
- (4) Making this measure effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 809, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 809, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Yamashita, Nakashima, Saiki, Tokioka and Johanson.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Saiki, Tokioka).

Conf. Com. Rep. 4-12 on H.B. No. 905

The purpose of this measure is to increase efficiencies in the delivery of health and human services and to eliminate gaps in services by requiring the Director of Health and the Director of Human Services to collaborate with contracted health and human services providers to develop and update annually a health and human services delivery plan. This measure also furthers health and wellness initiatives in the State by requiring the Department of Health to create a workplace wellness pilot program.

Recognizing the time considerations involved in agency and provider collaboration in developing a sound health and human services delivery plan, your Committee on Conference has amended this measure by deleting its substance, and inserting therefor, provisions that amend section 103F-203, Hawaii Revised Statutes (relating to the collaboration of providers in an agency's effort to plan or purchase health and human services), to:

- (1) Require, prior to a state agency's release of a Request for Proposal for the competitive purchase of services, at the request of the agency, provider participation in the agency's development of a delivery plan for health and human services, including:
 - (a) Evaluating efficiencies in delivering existing services and recommending strategies for eliminating gaps in service delivery; and
 - (b) Recommending cost-efficient and effective service alternatives; and
- (2) Authorize a state agency to include a provision in a contract awarded under the State's Purchase of Health and Human Services law, a requirement that the provider participate in planning in the agency's development of a delivery plan for health and human services, provided that:
 - (a) Notice of the requirement is provided in the Request for Proposals; and
 - (b) Provider participation in the agency's development of a delivery plan does not disqualify the provider from submitting responses to Requests for Proposals.

This measure was also amended by changing its effective date to July 1, 2012. One technical, nonsubstantive amendment was also made for accuracy.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 905, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 905, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 5-12 on S.B. No. 824

The purpose of this measure is to deem void and unenforceable any portion of a motor carrier transportation services contract or agreement that requires the carrier to indemnify, defend, or hold harmless the other party from any claim or liability for that party's negligence or intentional acts or omissions.

Your Committee on Conference finds that motor carriers, including trucking and tour bus companies, are often required to sign transportation service contracts or agreements requiring them to indemnify the other party to the motor carrier transportation services contract for acts of negligence or intentional acts or omissions, regardless of who is actually at fault.

Your Committee on Conference finds that a motor carrier should be held responsible for liability to the extent that the carrier is at fault. However, motor carriers often agree to indemnify the other party to secure work, so these indemnification provisions can become unreasonable conditions of a transportation services agreement that carriers are often unable to refuse.

Your Committee on Conference has amended this measure by inserting language to clarify that the provisions that shall be deemed void and unenforceable include provisions that purport to indemnify, defend, or hold harmless, whether in whole or in part, the indemnitee and that the provisions shall be deemed void and unenforceable to the extent that they seek to indemnify, defend, or hold harmless the indemnitee.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 824, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 824, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 6-12 on S.B. No. 2419

The purpose of this measure is to protect personal information while providing reasonable access in certain circumstances by allowing the scanning of personal information contained in a Hawaii identification card or driver's license for limited purposes only.

Your Committee on Conference finds that information contained on an individual's identification card or driver's license can be a source of identity theft. Because identity theft can have lasting negative repercussions on the life of the person whose identity is stolen, it is important to minimize the widespread use of this personal information. Your Committee on Conference further finds that a balance must be obtained between permitting responsible entities to lawfully use an individual's personal information while also protecting the privacy interests of individuals.

This measure addresses this issue by prohibiting the random scanning of a Hawaii identification card or driver's license by Hawaii businesses, prohibiting retention of any personal information obtained through scanning except in specific circumstances, and prohibiting businesses from selling or otherwise disseminating information obtained by scanning an individual's Hawaii identification card or driver's license to a third party.

Your Committee on Conference has amended this measure by:

- (1) Changing references to an "identity card" to "identification card", in order to clarify the forms of identification subject to this measure and conform to the definition of "personal information" in section 487N-1, Hawaii Revised Statutes; and
- (2) Inserting an effective date of upon approval.

Your Committee on Conference notes that this amended measure is the result of a compromise by various interested stakeholders affected by this measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2419, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2419, S.D. 2, H.D. 3, C.D. 1.

Conf. Com. Rep. 7-12 on S.B. No. 2748

The purpose of this measure is to:

- (1) Require holders of unclaimed property not held in a safekeeping depository to pay or deliver all property to the Director of Finance upon filing their report to the Director of Finance;
- (2) Specify a maximum fee that professional unclaimed property locators may charge;
- (3) Allow an owner the right to assert that an agreement is invalid on grounds other than excessive or unjust compensation and allow the court to award reasonable attorney's fees to an owner who prevails in such an action; and
- (4) Correct a reference to the unclaimed property trust fund.

Your Committee on Conference finds that this measure makes Hawaii's law consistent with other states' laws by requiring the reporting and remittance of all unclaimed property at the same time. This measure also establishes a maximum ten percent fee for professional unclaimed property locators, allows the court to award reasonable attorney's fees to an owner who prevails in an action to contest fees charged by a professional locator, and clarifies a reference to the unclaimed property trust fund.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that an agreement that provides for compensation that exceeds ten percent of the total value of the property is unenforceable except by the owner;
- (2) Permitting the court to award reasonable attorney's fees to an owner who prevails in an action to reduce compensation to an amount not to exceed ten percent of the total value of the property; and
- (3) Inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2748, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2748, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 8-12 on S.B. No. 2640

The purpose of this bill is to allow the use of individual wastewater systems as an on-site means of wastewater disposal in lieu of county-operated wastewater treatment works, under certain circumstances.

Your Committee on Conference finds that with growing pressures on Hawaii's limited freshwater aquifers and aging and expensive wastewater collection and treatment facilities on each island, this measure facilitates Hawaii's sustainability efforts. Gray water recycling systems conserve water and reduce the burden on the environment and wastewater treatment facilities. Gray water is simply wastewater generated from domestic processes such as washing dishes, laundry, and bathing. The intent of your Committee on Conference is to lessen wastewater loading to county wastewater treatment plants. Your Committee on Conference notes that this measure requires the counties to adopt ordinances or administrative rules to effectuate this measure.

Your Committee on Conference has amended this measure by:

- (1) Changing the deadline for county rulemaking to December 31, 2014;
- (2) Excluding cesspools in special management areas, rather than in coastal areas, from the individual wastewater treatment systems for which counties may permit use; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2640, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2640, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Gabbard, Kouchi and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Coffman, Chang, Kawakami and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Chang).

Conf. Com. Rep. 9-12 on S.B. No. 2767

The purpose of this measure is to update the Insurance Code in conformity with the National Association of Insurance Commissioners' model acts relating to guaranty associations.

Your Committee on Conference finds that this measure will improve the operations of insurance guaranty associations by providing for greater uniformity among states and facilitating greater coordination among Hawaii's various guaranty associations. Among other things, this measure clarifies increased limits on covered claims and allows the Hawaii Life and Disability Insurance Guaranty Association the option of assuming an insolvent insurer's reinsurance contracts.

Your Committee on Conference further finds that this measure will provide additional benefits to the State's insurance consumers and will allow the State's insurance guaranty associations to fulfill their statutory purpose of protecting Hawaii policyholders and consumers.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the rights of subrogation and other equitable or legal remedies available to an association by removing language relating to structured settlement annuities;
- (2) Inserting an effective date of July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2767, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2767, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Galuteria, Taniguchi and Slom.
Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Herkes, Choy, Tsuji and Marumoto.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 10-12 on S.B. No. 2632

The purpose of this measure is to reduce the Land Court recording and registration backlog by:

- (1) Requiring all fee time share interests to be recorded in the Bureau of Conveyances system instead of the Land Court system; and
- (2) Streamlining the procedure for deregistering all remaining fee time share interests.

Your Committee on Conference finds that Act 120, Session Laws of Hawaii 2009, was intended to alleviate some of the backlog in Land Court recordings and registration by transferring fee simple time share interests from the Land Court system to the Bureau of Conveyances (regular) system. However, updating and recording the certificates of title for all fee time share interests, as required by Act 120, has exceeded the capacity of the Land Court. This measure is intended to ease the continuing backlog by requiring all fee time share interests to be recorded in the Bureau of Conveyances system instead of the Land Court system, and streamlining the procedure for deregistration of all remaining fee time share interests.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Assistant Registrar must note on the certificate of title for each fee time share interest all documents and instruments that were or are registered as of a date and time prior to deregistration and not yet noted on the certificate of title of the fee time share interest as of the date and time of deregistration;
- (2) Clarifying that the process for a new chain of record title for deregistered property applies to time share and non-time share property;
- (3) Inserting an effective date of July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee on Conference notes that this measure represents a collaborative effort among the Judiciary, the Office of the Assistant Registrar, the Bureau of Conveyances, and interested stakeholders from the time share and title industries, and is intended as an efficient and workable solution for the benefit of government agencies and the public.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2632, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2632, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Brower, Chang, Yamane, Rhoads, Tokioka and Marumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Yamane).

Conf. Com. Rep. 11-12 on S.B. No. 2745

The purpose of this measure is to add priority guidelines to the Hawaii State Planning Act, chapter 226, Hawaii Revised Statutes, to address the expected impacts of climate change.

Your Committee on Conference finds that the expected climate change effects for Hawaii include warmer temperatures and sea-level rise with resultant flooding, beach erosion, and damage to coastal property. Hawaii's existing climate change policy focuses primarily on mitigation or the reduction of greenhouse gases; however, it does not sufficiently address climate change impacts to Hawaii's natural and built resources. This measure will fortify planning for the effects of climate change. It provides a foundation for climate change considerations in all state and county planning and a statewide framework to guide state and county agencies and other stakeholders.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2745, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2745, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Dela Cruz, Ihara, Nishihara and Solomon.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Nishihara).

Representatives Coffman, Chang, Kawakami, Ito and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ito).

Conf. Com. Rep. 12-12 on S.B. No. 2769

The purpose of this measure is to:

- (1) Require all homeowners and motor vehicle insurers to provide, upon the Insurance Commissioner's request, insurance premium information to the Insurance Commissioner within thirty days of the request;
- (2) Require the Insurance Commissioner to publish a list of all homeowners and motor vehicle insurers with representative annual premiums for their insurance;
- (3) Authorize the Insurance Commissioner to adjust the rates for any class of insurance for any insurer if the Insurance Commissioner finds that the rates are excessive, inadequate, or unfairly discriminatory; and
- (4) Include advisory organizations in the rate filings and regulation process under article 14, chapter 431, Hawaii Revised Statutes, relating to rate regulation.

Your Committee on Conference finds that publication of premium information enables consumers to compare insurance rates. Your Committee further finds that making homeowners and motor vehicle insurance information more accessible will help Hawaii consumers make more informed decisions when purchasing insurance. Additionally, authorizing the electronic publication of this information provides the Insurance Commissioner with an alternative to address cost concerns associated with publication in a newspaper of general circulation.

This measure also protects Hawaii consumers by enhancing existing law that allows the Insurance Commissioner to require insurers to submit new rate filings when the current rates may be excessive, inadequate, or unfairly discriminatory.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the Insurance Commissioner's authority pursuant to section 431:14-103.3, Hawaii Revised Statutes, to mandate insurers to submit new filings for any type of insurance listed under section 431:14-102, Hawaii Revised Statutes;
- (2) Repealing section 431:10C-209.5, Hawaii Revised Statutes, relating to the Insurance Commissioner's authority to intervene to adjust motor vehicle insurance rates, in order to avoid conflict and overlap with the Insurance Commissioner's authority to adjust rates for any type of insurance listed under section 431:14-102, Hawaii Revised Statutes, which includes motor vehicle insurance;
- (3) Inserting an effective date of July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2769, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2769, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Galuteria, Taniguchi and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Slom).

Representatives Cabanilla, Herkes, Kawakami and Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. 13-12 on S.B. No. 2871

The purpose of this measure is to prohibit a person from using a mobile electronic device, including using the device for texting, while operating a commercial motor vehicle and to provide exemptions for certain persons.

Your Committee on Conference finds that this measure substantially conforms state law with federal regulations regarding the physical possession of commercial driving licenses and the prohibition of texting while operating a commercial motor vehicle.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2871, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2871, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Espero and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 14-12 on S.B. No. 2402

The purpose of this measure is to require state agencies to use new and replacement outdoor light fixtures, in counties with a population of at least 100,000, that are fully shielded and have a correlated color temperature of four thousand Kelvin or less beginning July 1, 2014, with certain exemptions.

Your Committee on Conference finds that the Starlight Reserve Committee was established by Act 161, Session Laws of Hawaii 2009. The Starlight Reserve Committee held its first meeting in July 2010, and met on a regular basis throughout 2011. One of the tasks of the Starlight Reserve Committee was to develop proposed legislation for statewide intelligent lighting laws that reduce light pollution through proper shielding of outdoor lights in Hawaii. Your Committee on Conference further finds that this measure provides exemptions to reduce or eliminate additional costs related to the use of properly shielded lights, where appropriate.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2402, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2402, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard and Espero.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Souki, Coffman, McKelvey, Ichiyama, Kawakami and Fontaine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 15-12 on S.B. No. 2765

The purpose of this measure is to update and streamline Hawaii's captive insurance company law to ensure that risk retention captive insurance companies comply with the accreditation standards of the National Association of Insurance Commissioners.

Your Committee on Conference finds that Hawaii is a leading captive insurance domicile, nationally and worldwide. Captive insurance companies domiciled in Hawaii provide significant business and economic advantages for the State. It is therefore important for Hawaii to maintain a regulatory structure for this industry that ensures Hawaii's continued position as a major captive insurance domicile.

This measure provides greater flexibility in the coverage of captive risks, enables the Insurance Commissioner to better regulate the captive insurance industry, ensures that risk retention captive insurance companies comply with the accreditation standards of the National Association of Insurance Commissioners, and promotes clarity and consistency throughout the captive insurance company law.

Your Committee on Conference notes that the Insurance Division of the Department of Commerce and Consumer Affairs and interested stakeholders affected by this measure have agreed that, rather than authorize the Insurance Commissioner to adopt rules to govern the coverage of controlled unaffiliated business for pure captive insurance companies, it is preferable to specify that no pure captive insurance company may insure or reinsure any risks other than those of its parent, affiliated entities, and controlled unaffiliated businesses, which shall be approved on a case by case basis.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting the provision that would have permitted the Insurance Commissioner to adopt rules to govern the coverage of controlled unaffiliated business for pure captive insurance companies;
- (2) Specifying that the new section regarding applicability of other laws to captive insurance companies writing direct workers' compensation insurance policies be designated as section 431:19-115.7, Hawaii Revised Statutes;
- (3) Amending the definition of "controlled unaffiliated business" to clarify that all three conditions must apply to a controlled unaffiliated business;
- (4) Specifying that no pure captive insurance company may insure or reinsure any risks other than those of its parent, affiliated entities, and controlled unaffiliated businesses, which shall be approved on a case by case basis; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2765, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2765, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 16-12 on S.B. No. 1276

The purpose of this measure is to:

- (1) Prohibit any state entity from establishing a basic health program, pursuant to the federal Patient Protection and Affordable Care Act, without the enactment of state legislation that explicitly authorizes or directs the establishment and operation of such a program; and
- (2) Authorize the Insurance Division of the Department of Commerce and Consumer Affairs to prepare a comprehensive study on the feasibility of establishing a basic health program in Hawaii.

Your Committee on Conference finds that a basic health program under the federal Patient Protection and Affordable Care Act is intended to provide health benefits to certain low-income individuals who do not qualify for Medicaid and who would otherwise be eligible to purchase health insurance through a state's health insurance exchange. Your Committee on Conference further finds that the federal government has not yet issued final rules to the states regarding the operation or financing of many aspects of the basic health program and as a result, many unknown factors involved in operating such a program remain.

Your Committee on Conference concludes that the creation of a basic health program in Hawaii is a significant policy decision that first deserves careful analysis of several important public health considerations. Legislative authorization for the establishment of a basic health program and a feasibility study are therefore necessary.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that any state entity seeking to establish a basic health program pursuant to the federal Patient Protection and Affordable Care Act shall submit proposed legislation to the Speaker of the House of Representatives and the President of the Senate for introduction and consideration by the Legislature and requiring a report on the feasibility, plan for sustainability, and benefits of establishing a basic health plan to accompany the requested legislation;
- (2) Specifying that the Insurance Division of the Department of Commerce and Consumer Affairs is required to undertake a feasibility study of establishing a basic health program in Hawaii and clarifying the items to be analyzed in the feasibility study;
- (3) Specifying that the Insurance Division of the Department of Commerce and Consumer Affairs is required to submit a report of its findings and recommendations to the Speaker of the House of Representatives and the President of the Senate no later than twenty days prior to the convening of the Regular Session of 2013; and
- (4) Updating the purpose section of this measure to reflect its amended purpose.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1276, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1276, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Jordan, Mizuno).

Conf. Com. Rep. 17-12 on S.B. No. 3062

The purpose of this measure is to enact the Life Settlements Model Act, which establishes consumer protections in life settlement transactions in which the owner of a life insurance policy transfers the death benefit to another person or entity in return for compensation that is more than the policy's cash surrender value but less than its expected death benefit.

Your Committee on Conference finds that thirty-nine states currently regulate life settlements. Until its sunset in 2010, Act 177, Session Laws of Hawaii 2008, determined Hawaii's insurance regulation of life settlement contracts. Act 177 implemented the Life Settlements Model Act as adopted by the National Conference on Insurance Legislators and was intended to protect individuals, particularly senior citizens and those suffering from chronic or terminal illness, from fraudulent activity relating to the selling and buying of life insurance policies.

Your Committee on Conference further finds that life insurance policyholders could be open to victimization by unscrupulous persons or entities unless life settlements are once again regulated in the State. This measure will offer Hawaii's consumers and the elderly effective and comprehensive protection against stranger-originated life insurance transactions and other fraudulent life settlement practices.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a person is prohibited from entering into a premium finance agreement, rather than a premium finance loan, with any person or agency under certain conditions and specifying other prohibitions relating to premium finance agreements;
- (2) Inserting an effective date of July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3062, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3062, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Conf. Com. Rep. 18-12 on S.B. No. 3002

The purpose of this measure is to establish that real estate brokers and salespersons cannot be held liable:

- (1) For misrepresentations based upon a good faith reliance on certain information; and
- (2) For failure to ascertain and disclose all material facts concerning a property if there was a good faith reliance on a prepared disclosure statement.

Your Committee on Conference finds that this measure provides that real estate brokers and salespersons are not liable, in several circumstances, for misrepresentations or for failure to ascertain and disclose all material facts. However, your Committee on Conference further finds that the amendments proposed by this measure are inconsistent with the national professional standards that govern real estate brokers and salespersons, which state that realtors must avoid misrepresentation without qualification. Your Committee on Conference therefore concludes that amendments to this measure are necessary to preserve the current standard of practice for Hawaii real estate licensees and protect a consumer's ability to seek redress.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting language stating that real estate brokers and salespersons shall not be held liable for misrepresentations based upon a good faith reliance on specific information;
- (2) Deleting language stating that real estate brokers and salespersons shall not be held liable for failure to ascertain and disclose all material facts concerning a property if there was a good faith reliance on a prepared disclosure statement; and
- (3) Clarifying that the Real Estate Commission shall consider whether a real estate licensee relied in good faith on information provided by other persons or third parties.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3002, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3002, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee and Slom.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 19-12 on S.B. No. 2375

The purpose of this measure is to, among other things:

- (1) Permit producer owned and operated agricultural-based commercial operations in agricultural districts;
- (2) Include as permissible agricultural-based commercial operations:
 - (A) The preparation and sale of certain food grown on the premises or in the State by a producer owned and operated retail food establishment; and
 - (B) The sale of logo items related to a producer's agricultural operation; and
- (3) Include agricultural-based commercial operations under the definition of "farming operation" in the Hawaii Right to Farm Act, codified in chapter 165, Hawaii Revised Statutes.

Your Committee on Conference finds that this measure will provide agricultural producers with an additional outlet to sell their products. This measure will allow agricultural producers to explore creative ways to market their products to the community, while connecting the general public with locally grown agricultural products.

Your Committee on Conference has amended this measure by:

- (1) Amending what constitutes a permissible agricultural-based operation in an agricultural district by:
 - (A) Removing the requirement that agricultural products sold or displayed must be fresh and grown on the premises;

- (B) Clarifying that value-added products sold or displayed must have been produced using agricultural products grown in Hawaii rather than requiring these products to have been produced using raw Hawaii agricultural materials; and
- (C) Removing the requirement that retail activities that are offered for the sale and display of certain agricultural products be offered for sale directly to consumers;
- (2) Making this measure effective upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2375, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2375, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 20-12 on S.B. No. 1500

The purpose of this measure is to amend the Revised Uniform Anatomical Gift Act by requiring a recipient to accept or reject an anatomical gift if that gift is medically suitable for transplantation, therapy, research, or education and regardless of whether another person, including family members of the donor, has made an anatomical gift.

Your Committee on Conference finds that this measure is intended to improve the quality of medical education in Hawaii by ensuring that the proper individuals and entities fulfill their obligation to effectuate anatomical gifts.

Accordingly, your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1500, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1500, H.D. 1, C.D. 1.

Conf. Com. Rep. 21-12 on S.B. No. 2508

The purpose of this measure is to amend filing deadlines for preliminary and supplemental campaign spending reports to align with existing law or present practice.

Your Committee on Conference finds that the date of the primary election was advanced from the last Saturday in September to the second Saturday in August. This measure changes the existing statutory deadline for filing a candidate's first preliminary campaign spending report from July 31 of an election year to thirty calendar days prior to a primary election to avoid back-to-back filing deadlines of July 31 and August 1 for the first and second preliminary primary campaign spending reports, respectively, and to align accordingly with the August primary election date.

Your Committee on Conference further finds that this measure requires candidates to file a supplemental campaign spending report on January 31 of every year; not only after an election year, as stated under existing law. As present practice is to file a supplemental campaign spending report every year, your Committee on Conference believes that amending existing law is not necessary.

Accordingly, your Committee on Conference has amended this measure by changing the filing date for supplemental reports back to January 31 after an election year.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2508, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2508, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Ito, Tsuji and Thielen.
Managers on the part of the House.

Conf. Com. Rep. 22-12 on S.B. No. 2486

The purpose of this measure is to include threats to cause harm to the property of another person under the offense of terroristic threatening.

Your Committee on Conference finds that the original intent of this measure was to include pets and livestock as property that, if threatened to be damaged or harmed, may constitute the offense of terroristic threatening.

Accordingly, your Committee on Conference has amended this measure by inserting in section 707-715, Hawaii Revised Statutes, specific references to pets and livestock as property of another.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2486, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2486, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Keith-Agaran, Ito and Fontaine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 23-12 on S.B. No. 2873

The purpose of this measure is to:

- (1) Exempt ancillary secondary actions, limited to the installation, improvement, renovation, construction, or development of infrastructure within an existing public right-of-way or highway, from the environmental impact statements law if certain conditions are met;
- (2) Require applicants, rather than affected agencies, to prepare environmental assessments for certain proposed actions; and
- (3) Mandate that the Office of Environmental Quality Control determine whether the preparation of the environmental assessment is required by an applicant when there is a question as to which of two or more state or county agencies has the responsibility of determining whether an environmental assessment is required.

Your Committee on Conference finds that if environmental assessments and environmental impact statements are no longer required for certain actions, as proposed by this measure, the State will be able to realize administrative efficiencies. This measure contains provisions that overlap with Act 87, Session Laws of Hawaii 2009 (Act 87), as amended by Act 45, Session Laws of 2011 (Act 45), which enacted an exemption from the environmental impact statements law for projects that meet certain criteria. Due to the potential for conflicts between this measure and Act 87, as amended by Act 45, your Committee on Conference finds that Acts 87 and 45 should be repealed.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the definition of "secondary action";
- (2) Specifying that, in situations involving secondary actions that are exempt from chapter 343, Hawaii Revised Statutes, pursuant to this measure, where there is a question as to which agency is responsible for determining whether an environmental assessment is required, the Office of Environmental Quality Control is not required to determine whether preparation of an environmental assessment by an applicant is required;
- (3) Repealing Act 87, Session Laws of Hawaii 2009; and
- (4) Repealing Act 45, Session Laws of Hawaii 2011.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2873, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2873, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Ihara and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, Coffman, Keith-Agaran, Ito and Fontaine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 24-12 on S.B. No. 2221

The purpose of this measure is to provide greater protection for children by addressing instances of possession of particularly violent or egregious child pornography. Specifically, this measure amends the offense of promoting child abuse in the second degree to include possession of thirty or more images of child pornography where the content of at least one image contains a minor younger than the age of twelve, sadomasochistic abuse of a minor, or bestiality involving a minor.

Your Committee on Conference finds that child pornography is a permanent record of the actual sexual abuse, exploitation, and assault of innocent and helpless children. Your Committee on Conference further finds that Hawaii's child pornography laws should be strengthened and should distinguish between the various forms of child pornography. Currently, possession of any form of child pornography is covered under the offense of promoting child abuse in the third degree, but a violation is only a class C felony. This measure will amend the offense of promoting child abuse in the second degree, a class B felony, to include particularly violent or egregious child pornography.

Your Committee on Conference has amended this measure by changing the effective date from January 7, 2059, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2221, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2221, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Shimabukuro, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Mizuno, Keith-Agaran, Cabanilla, Jordan and Pine.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Cabanilla, Pine).

Conf. Com. Rep. 25-12 on S.B. No. 2222

The purpose of this measure is to address the problem of "sexting", which involves minors taking nude pictures and videos of themselves or other minors, and transmitting the nude images to others by use of a cell phone or other form of electronic communication, by prohibiting:

- (1) Adults from soliciting minors to electronically transmit nude images of minors;
- (2) Minors from electronically transmitting nude images of themselves or other minors, or soliciting other minors to do so; and
- (3) A person from possessing a nude image transmitted by a minor, but making it an affirmative defense that the recipient made reasonable efforts to destroy the transmitted nude image.

Your Committee on Conference finds that the electronic transmission of youth-produced sexual pictures and videos, frequently referred to as "sexting", is a growing problem, particularly because the images can be shared with many people almost instantaneously. Once transmitted, the original transmitter has very limited ability to control or prevent further dissemination. Your Committee on Conference further finds that the images may be used as a commodity for exchange, and the threatened dissemination of these images may be used as leverage against the subject to force the subject to engage in behaviors that may cause embarrassment, at minimum, and possible mental or emotional harm.

Your Committee on Conference also notes concerns regarding the severity of the penalties under this measure and has amended this measure accordingly by:

- (1) Reducing the offense of promoting minor-produced sexual images in the first degree to a misdemeanor;
- (2) Reducing the offense of promoting minor-produced sexual images in the second degree to a petty misdemeanor; and
- (3) Inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2222, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2222, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Hee and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Mizuno, Keith-Agaran, Cabanilla, Jordan and Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Cabanilla).

Conf. Com. Rep. 26-12 on H.B. No. 2594

The purpose of this measure is to propose an amendment to the Hawaii State Constitution authorizing the State to issue special purpose revenue bonds to assist dam and reservoir owners.

Your Committee on Conference has amended this measure by:

- (1) Changing the constitutional question to be printed on the ballot to specify that the proceeds from the special purpose revenue bonds are to be used to assist dam and reservoir owners to make their facilities compliant with current safety standards; and
- (2) Making technical amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2594, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2594, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Solomon, Hee, Kidani, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, 1 (Kidani). Excused, 1 (Hee).

Representatives Chang, Keith-Agaran, Har, Kawakami, Nakashima, Tsuji and Riviere.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, 1 (Riviere).

Conf. Com. Rep. 27-12 on H.B. No. 2595

The purpose of this measure is to authorize the State to issue special purpose revenue bonds and use the proceeds from the bonds to assist dam and reservoir owners upon the ratification of a corresponding constitutional amendment.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date of the measure to July 1, 2012; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2595, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2595, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Solomon, Kidani, Kouchi and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, 1 (Kidani). Excused, none.

Representatives Chang, Har, Kawakami, Nakashima, Tsuji and Riviere.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Riviere).

Conf. Com. Rep. 28-12 on H.B. No. 1957

The purpose of this measure is to ensure that persons and entities governed by the federal Health Insurance Portability and Accountability Act of 1966 (HIPAA), who use or disclose individually identifiable health information in a manner that is consistent with HIPAA rules, shall be deemed to be in compliance with Hawaii's privacy laws and rules.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1957, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1957, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Hee and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Herkes, Keith-Agaran and Ching.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ching).

Conf. Com. Rep. 29-12 on H.B. No. 1925

The purpose of this measure is to allow holders of class 1 manufacturer liquor licenses to sell beer, wine, or other specified liquor manufactured or distilled on the licensee's premises from fruits or other products grown in the State, in any quantity to wholesalers in original packages or for private use and consumption.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1925, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1925, H.D. 1, S.D. 1, C.D. 1.

Senators Nishihara, Espero, Wakai and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Yamane, Awana and Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. 30-12 on H.B. No. 2686

The purpose of this measure is to shield the owner of private property from liability for any injury or damage suffered by a person resulting from the owner providing emergency access to land, shelter, or subsistence to the person during a disaster in good faith and without remuneration, or expectation of remuneration, unless the injury or damage was caused by the gross negligence or intentional or wanton acts or omissions of the owner.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2686, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2686, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 31-12 on H.B. No. 2593

The purpose of this measure is to provide emergency rulemaking authority for agencies to address issues of imminent peril to natural resources or the health of the environment.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2012; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2593, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2593, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Coffman, Riviere).

Conf. Com. Rep. 32-12 on H.B. No. 1984

The purpose of this measure is to:

- (1) Designate the month of February as “‘Ōlelo Hawai‘i Month” to celebrate and encourage the use of Hawaiian language;
- (2) Require that all newly created, replaced, or reprinted state and county documents, letterheads, symbols, and emblems contain accurate, appropriate, and authentic Hawaiian names and language, effective January 1, 2013; and
- (3) Specify that Hawaiian names and words be deemed accurate, appropriate, and authentic when printed in conformance with “Hawaiian Dictionary: Hawaiian-English, English-Hawaiian”, by Mary Kawena Pukui and Samuel H. Elbert, University of Hawai‘i Press, copyright 1986, or “Māmakā Kaiao: A Modern Hawaiian Vocabulary”, developed by Kōmike Hua‘ōlelo, the Hawaiian Lexicon Committee.

Your Committee on Conference has amended this measure by:

- (1) Adding “Place Names of Hawaii”, by Mary Kawena Pukui, Samuel H. Elbert, and Esther T. Mookini, University of Hawai‘i Press, copyright 1974 as an acceptable reference for determining the accuracy, appropriateness, and authenticity of Hawaiian names and words; and
- (2) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1984, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1984, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Fukunaga, English and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Hanohano, McKelvey, Awana and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 33-12 on H.B. No. 1666

The purpose of this measure is to promote highway safety by amending the offenses of negligent homicide in the first degree, negligent homicide in the second degree, and negligent injury in the first degree to include provisions for incidents involving a vulnerable highway user.

Hawaii's roadways have often been called dangerous for pedestrians, cyclists, and others who legally use the public right of way without being in a motor vehicle. Unfortunately, when collisions occur between motor vehicles and these individuals, the outcome is often catastrophic. Amending the offenses of negligent homicide in the first degree, negligent homicide in the second degree, and negligent injury in the first degree to include provisions for incidents in which these vulnerable highway users are involved may, at the very least, increase driver awareness of these individuals.

Your Committee on Conference has amended this measure by clarifying that the term of "simple negligence" when used under the offense of negligent homicide in the second degree as applicable to the operation of a vehicle when it involves the death of a vulnerable user shall have the same meaning as that used for "simple negligence" under the offense of negligent homicide in the third degree under the Penal Code.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1666, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1666, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Gabbard.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Souki, Rhoads, Har and Fontaine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 34-12 on H.B. No. 1543

The purpose of this bill is to prohibit a manufacturer or distributor of motor vehicles from recovering, or attempting to recover, from dealers its cost for reimbursing a dealer for warranty work as required by applicable law.

Your Committee on Conference has amended this bill by:

- (1) Requiring the Director of Commerce and Consumer Affairs to:
 - (A) Conduct a review of the costs of the repairs of motor vehicles, including the prices charged by dealers for warranty and non-warranty repairs; and
 - (B) Compare such costs to repairs performed by non-dealers; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1543, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1543, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Nishihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Tokioka and Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 35-12 on H.B. No. 2623

The purpose of this measure is to, among other things:

- (1) Extend the same immunity that property held by spouses or reciprocal beneficiaries as tenants by the entirety would have from their separate creditors to conveyances of real property by spouses or reciprocal beneficiaries to joint or separate revocable trusts amendable by both parties, or each individual grantor, respectively, under specified conditions;

- (2) Ensure that the protection of a tenancy by the entirety to real property in the spouses' or reciprocal beneficiaries' trust continues after the death of one of the spouses or reciprocal beneficiaries;
- (3) Establish that if the property transfer is held invalid, or if the trust is revoked or dissolved, all real property held in trust is automatically deemed to be held by both spouses of reciprocal beneficiaries in tenancy by the entirety;
- (4) Establish that upon the divorce or annulment of spouses or the termination of a reciprocal beneficiary relationship the immunity of real property from claims of separate creditors shall immediately terminate and the property will be treated as tenancy in common;
- (5) Allow spouses or reciprocal beneficiaries to waive the tenancy by the entirety protection as to any creditor or any specifically described trust property;
- (6) Place the burden of proving immunity of the trust property from a separate creditor's claims on the spouses or reciprocal beneficiaries in the event of a dispute; and
- (7) Establish that the real property conveyed by the spouses or reciprocal beneficiaries is governed by the terms of the trust and is considered as a tenancy by the entirety property only for protection purposes.

Your Committee on Conference has amended this measure by:

- (1) Adding the requirement that the first and last name of the spouse or reciprocal beneficiary for their respective trusts, or the first and last names of both spouses or reciprocal beneficiaries for their joint trust, are included in the name of the trust as one of the specified conditions for real property conveyed by spouses or reciprocal beneficiaries to a revocable trust to receive the same immunity as spouses or reciprocal beneficiaries would have from their separate creditors as tenants by the entirety;
- (2) Changing the effective date to July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2623, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2623, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 36-12 on H.B. No. 1788

The purpose of this bill is to update Hawaii's computer crime statutes by adding language mirroring Hawaii's identity theft statutes to better address the realities of modern cybercrime by, among other things:

- (1) Establishing a new offense of computer fraud in the third degree as a class C felony;
- (2) Adding new definitions related to computer crime, and incorporating the elements of phishing and spyware into all computer fraud offenses and unauthorized computer access offenses;
- (3) Changing the offenses of computer fraud in the first degree and unauthorized computer access in the first degree from class B to class A felonies;
- (4) Changing the offenses of computer fraud in the second degree and unauthorized computer access in the second degree from class C to class B felonies;
- (5) Changing the offense of unauthorized computer access in the third degree from a misdemeanor to a class C felony; and
- (6) Increasing the minimum value of identifying information obtained that constitutes unauthorized computer access in the first degree from \$5,000 to \$20,000.

Your Committee on Conference, upon further consideration and based upon the recommendations of the Department of the Attorney General, has amended this measure by:

- (1) Removing references to the use of phishing or spyware to obtain identifying information, from all computer fraud offenses;
- (2) Removing references to the use of phishing or spyware, from all unauthorized computer access offenses;
- (3) Removing references to "identifying information", from the offenses of computer fraud in the first, second, and third degree, and unauthorized computer access in the first and second degree;
- (4) Deleting the element of intent to facilitate the commission of a variety of offenses, from the offense of computer fraud in the first degree;
- (5) Deleting the addition of six new definitions related to computer crime;
- (6) Changing the effective date to upon its approval; and

- (7) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1788, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1788, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 37-12 on H.B. No. 2232

The purpose of this measure is to require informed consent in certain circumstances before performing pelvic examinations on female patients.

Specifically, this measure prohibits a physician, osteopathic physician, surgeon, or student participating in a course of instruction, residency program, or clinical training program from performing a pelvic examination on an anesthetized or unconscious female patient unless:

- (1) The patient gives prior verbal or written informed consent to the pelvic examination;
- (2) The performance of a pelvic examination is within the scope of care for the surgical procedure or diagnostic examination scheduled to be performed on the patient; or
- (3) The patient is unconscious and the pelvic examination is required for diagnostic purposes.

It is the intent of this measure that pelvic examinations be conducted on an anesthetized female patient with the informed consent of the patient or on an unconscious female patient if the pelvic examination is required for diagnostic purposes.

Your Committee on Conference has amended this measure by clarifying the preamble to specify that:

- (1) The requirement of informed consent applies to pelvic examinations for medical, as well as training purposes; and
- (2) Informed consent ensures that the patient understands the procedure and its attendant risks and benefits and agrees to the procedure being performed.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2232, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2232, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 38-12 on H.B. No. 2568

The purpose of this measure is to allow the Department of Health to designate an entity to perform services on its behalf relating to background checks for employment, volunteer, contracting, licensure, or certification purposes.

Your Committee on Conference has amended this measure by:

- (1) Removing redundant references to the Department of Health's designee in the provisions relating to a presumption of good faith for purposes of immunity from civil liability for actions based on criminal history record information;
- (2) Changing its effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2568, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2568, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Nishihara and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 39-12 on H.B. No. 2776

The purpose of this measure is to require operators of adult foster homes, adult residential care homes, assisted living facilities, and expanded adult residential care homes to obtain and maintain liability insurance. The measure also exempts operators of such homes and facilities that are operating under a contract with the Department of Human Services or the Department of Health and are in compliance with the liability insurance coverage requirements of the contract.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2776, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2776, H.D. 2, S.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 40-12 on H.B. No. 2244

The purpose of this measure is to strengthen the State's ability to monitor the import and export of plant commodities.

Specifically, the measure authorizes the Department of Agriculture to make rules to:

- (1) Establish, maintain, and enforce compliance agreements with federal or state departments of agriculture as to the inspection of imported and exported plant commodities; and
- (2) Assess fees for conducting inspections required under the compliance agreements.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2244, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2244, H.D. 1, S.D. 2, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 41-12 on H.B. No. 679

The purpose of this measure is to exempt National Rifle Association certified instructors from absolute liability for personal injury or property damage during the course of providing firearms training or safety courses or classes at a firing range to persons seeking to acquire a permit for the acquisition of a pistol or revolver in accordance with section 134-2(g)(4), Hawaii Revised Statutes (HRS). Additionally, this measure specifies that the exemption shall not be construed to relieve a National Rifle Association certified firearms instructor from any other applicable tort liability.

Your Committee on Conference notes that "firing range" is not defined in this measure; however, existing statutes contain reference to the term "firing range". Section 134-2, HRS, requires, as one alternative toward obtaining a permit, completion of a firearms training or safety course or class conducted by a state certified or National Rifle Association certified firearms instructor or a certified military firearms instructor that includes firing training at a firing range. Section 134-3, HRS, requires written notification from a firing range or target shooting business for nonresident aliens who wish to meet firearm registration requirements.

Your Committee on Conference has amended this measure by changing its effective date to take effect upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 679, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 679, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Keith-Agaran, Cullen, Ito and Fontaine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 42-12 on H.B. No. 1398

The purpose of this measure is to encourage joint ventures with private parties for the development of public housing by authorizing Hawaii Public Housing Authority to enter into partnership agreements or development agreements with private parties for the development of public housing projects.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1398, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1398, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Dela Cruz, Espero, Ige and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Representatives Cabanilla, Chang, Kawakami, Ito and Pine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 43-12 on H.B. No. 2589

The purpose of this measure is to clarify responsibility for the disposition of vessels abandoned on public property within the State.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2012; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2589, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2589, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Solomon, Hee, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Solomon, Slom).

Representatives Chang, Rhoads, Har, McKelvey and Riviere.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 44-12 on H.B. No. 1791

The purpose of this measure is to exempt a person convicted of manslaughter from a mandatory indeterminate term of 20 years imprisonment without the possibility of suspension of sentence or probation, but allows that person to be sentenced to an indeterminate maximum and minimum term of imprisonment to be determined by the court and paroling authority respectively.

According to law enforcement officials, current law is not clear about whether a sentence of probation is possible for a manslaughter conviction and if probation is imposed, the amount of jail time a court may impose as a condition of probation. This lack of clarity has led to courts and prosecutors throughout the State interpreting the law differently. This measure attempts to clarify this confusion.

Your Committee on Conference notes that traffic related fatalities are a serious issue and that persons convicted of certain offenses involving traffic fatalities should be dealt with accordingly. Presently, when a driver is convicted of manslaughter resulting from the operation of a motor vehicle, a court is required to revoke the driver's license to operate a motor vehicle. However, the length of time of the revocation remains unclear. Furthermore, there is no such license revocation provision for drivers convicted of negligent homicide in the first or second degree. Allowing the courts the discretion to impose license revocation periods as well as terms of imprisonment for certain violations up to a maximum period would help to ensure the safety of Hawaii's roadways.

Your Committee on Conference has amended this measure by:

- (1) Requiring the revocation of a license for a driver convicted of negligent homicide in the first or second degrees resulting from the operation of a motor vehicle;
- (2) Providing the court with discretion to determine the period of license revocation;
- (3) Specifying that a person whose license was revoked may not apply for, and the examiner of drivers may not grant, a new driver's license until the expiration of the period of revocation as determined by the court;
- (4) Providing the courts with discretion when determining terms of imprisonment for various offenses and stipulating maximum terms of imprisonment for these offenses;

- (5) Changing its effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1791, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1791, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Hee and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Souki, Keith-Agaran, Har and Fontaine.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 45-12 on H.B. No. 2685

The purpose of this measure is to require the Department of Human Services to conduct a study to evaluate current asset limits for public assistance programs, including the Temporary Assistance for Needy Families program, and assess the effects of changing the asset limits for those programs.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2685, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2685, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige, Ihara and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Mizuno, Jordan, M. Lee and Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. 46-12 on H.B. No. 2175

The purpose of this measure is to exempt members of task forces convened by statute or resolution; executive order or proclamation; or invitation of the Legislature, Governor, or other state officer, to study a specific subject or issue for a specified period of time and to report to, offer a recommendation to, or advise the Legislature, Governor, or a state officer, from the requirements of the state ethics code.

Your Committee on Conference has amended this bill by changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2175, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2175, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 47-12 on H.B. No. 2004

The purpose of this measure is to protect consumers and legitimate businesses from unauthorized transportation services rendered for compensation by establishing a new criminal offense for these activities. Specifically, this measure, among other things:

- (1) Creates the misdemeanor offense of deception of a consumer in transportation services for hire if the person for a charge or other compensation transports a consumer other than by a bona fide transportation service;
- (2) Defines a bona fide transportation service to include a licensed taxi cab or a transportation service that meets certain specific requirements, including licensure and identification requirements; and
- (3) Requires the vehicle used in the commission of the offense of deception of a consumer in transportation services for hire to be:
 - (A) Impounded, with the vehicle owner being held liable for the costs of storage, towing, and other charges incident to seizure of the vehicle or any other cost involved; or

- (B) Subject to forfeiture if the vehicle used in the instant offense was used in the commission of a previous offense of deception of a consumer in transportation services for hire within the thirty-six months immediately preceding the instant offense.

According to tourism transportation industry representatives, complaints about illegal commercial transportation services that arrive ahead of scheduled pickups by legitimate businesses to collect customers and fares meant for the legitimate business have been mounting. Tourists have complained about being deceived into paying higher-than-quoted fares and additional payments and being driven to destinations without subsequent return transportation. This measure seeks to halt the activities of illegal transportation services that fail to comply with industry requirements, deceive customers, and steal the business of legitimate transportation operators.

Your Committee on Conference has amended this measure by deleting its contents and replacing it with language that continues to protect consumers and legitimate businesses from unauthorized transportation services rendered for compensation by modifying the relevant state of mind regarding the unlawful operation of motor carriers from “knowingly and wilfully” to “intentionally, knowingly, or recklessly”.

Your Committee on Conference has also amended this measure by:

- (1) Changing its effective date to July 1, 2012; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2004, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2004, H.D. 2, S.D. 2, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 48-12 on H.B. No. 2513

The purpose of this measure is to provide the Department of Education with greater flexibility to administer and implement the statewide school health services program by repealing or modifying specified operational requirements established for a 1970 pilot project for health services.

Your Committee on Conference has amended this measure by:

- (1) Reverting back to established statutory language that:
 - (A) Requires that the administration of medication be done with the approval of the Department of Health rather than be based on a nursing assessment and consultation with the Department of Health; and
 - (B) Requires that the medication be necessary for the student’s attendance at school, rather than the student’s readiness to learn, in order for the medications to be administered by a school health aide;
- (2) Repealing, rather than modifying, the requirement that the Superintendent of Education adopt rules governing the statewide school health services program;
- (3) Deleting the savings clause; and
- (4) Making technical, nonsubstantive amendments for consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2513, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2513, H.D. 1, S.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 50-12 on H.B. No. 2099

The purpose of this measure is to improve the efficiency of the workers' compensation system by allowing attorney's fees to be included in costs that may be assessed against a party who brings, prosecutes, or defends a workers' compensation claim without reasonable ground.

Hawaii's workers' compensation law was established as a "no fault" type of system where injured workers were provided with medical insurance and wage loss coverage for work-related injuries while employers were protected from civil liability resulting from these injuries. Unfortunately, due to the, at times, contentious nature of workers' compensation cases, claims and appeals proceedings are begun without reasonable grounds. Under current law, if the Director of Labor and Industrial Relations, the Labor and Industrial Relations Appeals Board, or any court finds that the proceedings have been brought without reasonable grounds, the whole costs of the proceedings can be assessed against the party that initiated the proceedings. However, a recent Hawaii Intermediate Court of Appeals ruling found that whole costs did not include attorney's fees. Your Committee on Conference finds that allowing reasonable attorney's fees to be assessed against a party who initiates baseless proceedings will help deter frivolous claims and appeals from being filed under Hawaii's workers' compensation system.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2099, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2099, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 52-12 on H.B. No. 2502

The purpose of this bill is to help protect Hawaii homeowners by, among other things:

- (1) Allowing the Commissioner of Financial Institutions (Commissioner) to require all mortgage servicers to register with the Nationwide Mortgage Licensing System (NMLS);

- (2) Prohibiting any person licensed as a mortgage servicer from providing mortgage-loan modifications or any other services that would require licensing under chapter 454F, Hawaii Revised Statutes (HRS), without first complying with the licensure requirements of chapter 454F, HRS;
- (3) Allowing the Commissioner to establish relationships or contracts with the NMLS or other entities designated by the NMLS to collect and maintain records and process transaction fees or other fees related to licensees or other applicable persons;
- (4) To the extent reasonably necessary to participate in the NMLS, allowing the Commissioner to waive or modify, in whole or in part, by rule or order, any or all of the requirements of chapter 454M, HRS, and establish new requirements;
- (5) Allowing the Commissioner to use the NMLS as an agent for requesting information from and distributing information to the United States Department of Justice, any governmental agency, or any other source, as directed by the Commissioner; and
- (6) Providing that any person who violates chapter 454M, HRS, may be subject to an administrative fine of not more than \$7,000 for each violation; provided that \$1,000 of the aggregate fine amount per order must be deposited into the Mortgage Foreclosure Dispute Resolution Special Fund.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that, to the extent reasonably necessary to participate in the NMLS, the Commissioner may modify any or all of the requirements of sections 454M-4(e) and 454M-4(f), HRS; and
- (2) Retaining existing statutory provisions pertaining to violations of chapter 454M, HRS, and the related administrative fines.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2502, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2502, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 53-12 on H.B. No. 2871

The purpose of this measure is to require the Department of Land and Natural Resources to establish a West Maui Ocean Recreation Management Area Advisory Committee comprised of users of the ocean to work with the Department on issues arising relating to the area, particularly the waters adjacent to Kaanapali.

Your Committee on Conference has amended this measure by:

- (1) Requiring that the Department of Land and Natural Resources establish the advisory committee no later than September 1, 2012;
- (2) Specifying that the advisory committee is temporary and shall expire on June 30, 2015;
- (3) Changing the composition of the temporary advisory committee to include one commercial boating enthusiast and one fishing enthusiast;
- (4) Exempting the temporary advisory committee members from the provisions of chapter 84, Hawaii Revised Statutes, with regard to participation on the temporary advisory committee;
- (5) Requiring the Department of Land and Natural Resources to submit an annual report to the Legislature no later than twenty days prior to the convening of each regular session until the expiration of the temporary advisory committee;
- (6) Changing the effective date to July 1, 2012; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2871, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2871, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 54-12 on H.B. No. 2328

The purpose of this bill is to provide for the more efficient collection of estate and transfer taxes by establishing a new chapter in the Hawaii Revised Statutes governing estate and generation-skipping transfer taxes.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the definition of a "decedent";
- (2) Specifying that the provisions established in this measure apply to decedents dying or taxable transfers occurring after January 25, 2012, and making the provisions of Chapter 236D, Hawaii Revised Statutes, Estate and Transfer Tax, inoperative after that date; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2328, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2328, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 55-12 on H.B. No. 2290

The purpose of this measure is to require Children and Youth Day celebrations and public events to be held in the State Capitol area at specified times.

Your Committee on Conference has amended this measure by:

- (1) Removing the reference to the Children and Youth Day planning committee;
- (2) Authorizing, rather than requiring, the celebrations and public events to be held; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2290, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2290, H.D. 1, S.D. 2, C.D. 1.

Ayes, 2. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. 56-12 on H.B. No. 2320

The purpose of this measure is to implement the recommended amendments of the Ignition Interlock Implementation Task Force to the ignition interlock law. Specifically, this measure, among other things:

- (1) Allows a person whose driver's license was revoked after December 31, 2010, to apply for a driver's license renewal, subject to the requirements of the ignition interlock law;
- (2) Enables a repeat intoxicated driver who is arrested after December 31, 2010, and is otherwise eligible to operate a motor vehicle with an ignition interlock system to obtain a motor vehicle registration and number plates, by requiring the Director of Transportation to remove any stopper imposed on the motor vehicle registration files;
- (3) Allows a person whose driver's license was revoked for life for multiple convictions for operating a vehicle under the influence of an intoxicant, among other persons, to petition for an ignition interlock instruction permit and establishes procedures to do so;
- (4) Repeals the requirement that the law enforcement officer making an arrest for operating a vehicle under the influence of an intoxicant take possession of the motor vehicle registration of a repeat intoxicated driver, remove the number plates, and issue a temporary motor vehicle registration and temporary license plates;
- (5) Repeals the requirement that notice of administration revocation of a license shall include a statement that the Director of Transportation may grant a special motor vehicle registration to a qualified household member or to a co-owner of any motor vehicle owned by the respondent under certain circumstances;

- (6) Repeals the requirement that the Director of Transportation administratively revoke the registration of any vehicle owned or registered to the respondent, and take custody of any number plates issued to the respondent, if the Director determines that the respondent is a repeat intoxicated driver;
- (7) Requires proof that the respondent has installed an ignition interlock device in any vehicle the respondent operates and has obtained motor vehicle insurance or self-insurance, before the Director of Transportation issues an ignition interlock permit during the license revocation period; and
- (8) Prohibits the issuance of an ignition interlock permit to a respondent who holds a license that is a learner's permit or instruction permit.

Over the past several years, Hawaii has had a high incidence of alcohol-related traffic fatalities. While enforcement of existing laws governing the operation of a vehicle under the influence of an intoxicant has had an impact on alcohol-related traffic fatalities, the Legislature determined that more needed to be done to substantially reduce the number of fatalities.

In response to alarming numbers, H.C.R. No. 28, H.D. 1, was passed during the 2007 legislative session, calling for a working group to be formed to study the issue of ignition interlock devices and make recommendations leading to legislation. As a result, the Ignition Interlock Implementation Task Force (Task Force) was formed in 2008, and presented its initial recommendations to the Legislature during the Regular Session of 2009 and made additional recommendations to the Legislature during the Regular Session of 2010. The culmination of the Task Force recommendations was the enactment of the Ignition Interlock Law in January of 2011.

The installation of ignition interlock devices, which prohibit a vehicle from being started until the driver of the vehicle passes a breathalyzer test that is connected to the ignition of the vehicle, has been shown to be an effective method of stopping alcohol-impaired drivers from getting behind the wheel of their vehicles. With an annual average of 5,500 arrests for operating a vehicle under the influence of an intoxicant in Hawaii each year, enactment of the Ignition Interlock Law was viewed as another step toward stopping the senseless tragedies of alcohol-related traffic fatalities. However, since the implementation of the Ignition Interlock Law in January of 2011, there remain several unresolved issues regarding this law, particularly with regard to repeat offenders and those with lifetime license revocations. This measure attempts to address these issues.

Your Committee on Conference has amended this measure by:

- (1) Changing the minimum period of time a person subject to a lifetime license revocation for operating a motor vehicle under the influence of an intoxicant needs to maintain an ignition interlock permit before filing a petition in district court to reinstate the person's license and privilege to operate a vehicle without an ignition interlock device from seven years to five years;
- (2) Conforming the requirements for the contents of a petition to reinstate eligibility for a license and privilege to operate a motor vehicle without an interlock device to reflect the five-year minimum period required between issuance of the device and petition to remove the device;
- (3) Requiring the district court to consider whether certain requirements are met in determining whether the petitioner may be granted an ignition interlock instruction permit;
- (4) Allowing the district court to consider any other factors, including but not limited to the petitioner's criminal and traffic record after receiving a lifetime license revocation, in determining whether the petitioner may be granted an ignition interlock instruction permit;
- (5) Requiring the district court to determine whether an order allowing the petitioner to apply for an ignition interlock instruction permit and requiring the removal of any stopper placed on the petitioner's motor vehicle registration files shall be issued;
- (6) Requiring a copy of the petition for reinstatement of a person's eligibility for license and privilege to operate a vehicle without an ignition interlock device to be served on the prosecuting attorney in the county in which the petition is filed;
- (7) Establishing additional information required to be included in the petition for reinstatement of a person's eligibility for license and privilege to operate a vehicle without an ignition interlock device including things such as:
 - (A) A certificate of service demonstrating the place, time, and manner of service of the petition on the prosecuting attorney;
 - (B) A certified record from the Hawaii Criminal Justice Information System that shows the petitioner's current criminal history record;
 - (C) A statement from the petitioner establishing where the petitioner has resided since the ignition interlock permit was issued; and
 - (D) A statement from the petitioner as to whether the petitioner has undergone substance abuse assessment and treatment and the outcome of this assessment and treatment;
- (8) Inserting language allowing the prosecuting attorney to submit a written request for a hearing on the petition for reinstatement of a person's eligibility for license and privilege to operate a vehicle without an ignition interlock device;
- (9) Inserting language regarding the conduct and disposition of hearings on the request for a petition under (8) above if the prosecuting attorney requests a hearing on the petition;
- (10) Stipulating that provisions allowing a petition to be filed for reinstatement of a driver's license and removal of the ignition interlock requirement shall not be interpreted to allow repeat intoxicated driving to be treated as a first time offense for purposes of relicensing;
- (11) Ensuring that the authority of the Child Support Enforcement Agency to request a license suspension for individuals not paying child support is not undermined;

- (12) Changing its effective date to July 1, 2012; and
- (13) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2320, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2320, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 57-12 on H.B. No. 2740

The purpose of this measure is to maintain the reduced cost of electricity generation fueled by naphtha by extending the sunset date of the reduced fuel license tax on naphtha used in a power-generating facility to December 31, 2017.

Your Committee on Conference has amended this measure by:

- (1) Changing the repeal date of the reduced fuel license tax on naphtha used in a power-generating facility to December 31, 2015; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2740, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2740, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kouchi and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Coffman, Kawakami, Morikawa, Nakashima, Tokioka and Thielen.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Morikawa).

Conf. Com. Rep. 58-12 on H.B. No. 1705

The purpose of this measure is to exempt from the state income and general excise taxes, privately-owned nonprofit public water systems that are federally tax-exempt under section 501(c)(12) of the Internal Revenue Code and supply potable water to communities that lack any access to public utility water services.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1705, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1705, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Oshiro, Choy, Evans and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 59-12 on H.B. No. 1295

The purpose of this measure is to deter unlicensed contracting activity.

Specifically, the measure:

- (1) Adds a new part to Chapter 708, Hawaii Revised Statutes, that establishes:
 - (A) Misdemeanor and felony offenses relating to unlicensed contracting activity;
 - (B) Felony offenses relating to unlicensed contractor fraud; and
 - (C) A method for valuation of property in unlicensed contractor fraud cases; and
- (2) Amends the Uniform Professional and Vocational Licensing Act, Chapter 436B, Hawaii Revised Statutes, to clarify a provision relating to penalties for unlicensed contracting activity.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Clarifying that the offense of unlicensed contracting activity does not apply when the person is unlicensed only because of an inadvertent failure to renew a previously existing license;
- (2) Separating the offense of unlicensed contractor fraud into first and second degree offenses based upon the total value of the property obtained by commission of the fraud;
- (3) Changing the effective date to July 1, 2012; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1295, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1295, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani, Baker and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives McKelvey, Keith-Agaran, Herkes, Choy and Pine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 60-12 on H.B. No. 2644

The purpose of this bill is to:

- (1) Require the Public Utilities Commission (PUC) to:
 - (A) Integrate and implement utility and regulatory best practices; and
 - (B) Establish a system to gather, assess, and update utility and regulatory best practices, and implement appropriate best practices; and
- (2) Allow the PUC to authorize preferential water carrier service rates by tariff for ratepayers that engage in agricultural activities.

Your Committee on Conference has amended this bill by removing the provisions requiring the PUC to:

- (1) Integrate and implement utility and regulatory best practices; and
- (2) Establish a system to gather, assess, and update utility and regulatory best practices, and implement appropriate best practices.

Technical, nonsubstantive amendments were also made for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2644, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2644, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Green, Solomon and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Solomon).

Representatives Herkes, Oshiro, Hashem, Souki and Marumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Souki).

Conf. Com. Rep. 61-12 on H.B. No. 1892

The purpose of this measure is to ensure that the Reapportionment Commission has adequate funding to effectively carry out its mission by:

- (1) Placing the Reapportionment Commission within the Office of Elections for administrative purposes only; and
- (2) Requiring the Chief Election Officer, during each regular legislative session that immediately precedes an apportionment year, to request an appropriation for the Reapportionment Commission.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1892, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1892, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, M. Lee and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 62-12 on H.B. No. 2265

The purpose of this measure is to make the purchase of goods, services, and construction more efficient for state agencies.

Specifically, the measure:

- (1) Provides that procurements for construction greater than \$50,000 shall be secured by a payment bond, in addition to the performance bond that is already required;
- (2) Increases the maximum amount of a procurement for which small purchase procedures may be used from less than \$100,000 to less than \$250,000;
- (3) Makes permanent the amendments to section 103D-305, Hawaii Revised Statutes, made by Act 175, Session Laws of Hawaii 2009; and
- (4) Makes clarifying amendments and repeals outdated language.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Reenacting the sunsetted amendments made by Act 175, Session Laws of Hawaii 2009, to sections 103D-709, 103D-710(c), and 103D-710(e), Hawaii Revised Statutes, and the provision requiring the State Procurement Office to keep statistics on solicitations and awards protested;
- (2) Changing the effective date to June 30, 2012; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2265, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2265, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kidani and Kouchi.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Choy, Tsuji and Marumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 63-12 on H.B. No. 1875

The purpose of this measure is to implement the final recommendations of the Mortgage Foreclosure Task Force, which were submitted to the Legislature for the Regular Session of 2012, and other best practices to improve the mortgage foreclosures law and address related issues affecting homeowner association liens and the collection of unpaid assessments.

Specifically, this measure, among other things:

- (1) Amends section 667-60, Hawaii Revised Statutes, which makes any violation of the mortgage foreclosure law under Chapter 667, Hawaii Revised Statutes, an unfair or deceptive act or practice subject to enhanced penalties under Chapter 480, Hawaii Revised Statutes, to:
 - (A) Specify the types of violations under Chapter 667 that constitute unfair or deceptive acts or practices;
 - (B) Limit the types of violations that may void a title transfer of foreclosed property; and
 - (C) Establish a time limit for filing actions to void title transfers of foreclosed property;
- (2) Repeals the nonjudicial foreclosure process under Part I of Chapter 667, Hawaii Revised Statutes, to provide for a single nonjudicial foreclosure process under Part II of that chapter;
- (3) Makes permanent the process under Act 48, Session Laws of Hawaii 2011, for converting nonjudicial foreclosures of residential property to judicial foreclosures;
- (4) With regard to the temporary mortgage foreclosure dispute resolution program under Part V of Chapter 667, Hawaii Revised Statutes, for owner-occupants of residential property facing nonjudicial foreclosure:
 - (A) Makes the program permanent by repealing its sunset date;
 - (B) Repeals the prohibition against participants of the program converting their nonjudicial foreclosure proceedings to judicial actions; and

- (C) Streamlines the dispute resolution process;
- (5) With regard to condominium and planned community associations:
 - (A) Establishes an alternate power of sale process for the collection of unpaid assessments, modeled after the process set forth in Part II of Chapter 667, Hawaii Revised Statutes, as amended by the task force's recommendations;
 - (B) Places a time limit on recorded liens for unpaid assessments, excluding liens that automatically arise pursuant to law or the governing documents of the association, and provides that the recorded lien will not expire if proceedings to enforce the lien are instituted prior to the end of the time limit;
 - (C) Prohibits nonjudicial foreclosures of association liens arising solely from fines, penalties, legal fees, or late fees;
 - (D) Provides associations with notice of an owner-occupant's decision to participate in the mortgage foreclosure dispute resolution program; and
 - (E) Allows associations to proceed with a nonjudicial foreclosure, notwithstanding a stay of foreclosure proceedings arising from a dispute resolution case opening, if the association has not been notified of the foreclosure action by the foreclosing mortgagee or of the dispute resolution case opening;
- (6) With regard to planned community associations organized under Chapter 421J, Hawaii Revised Statutes:
 - (A) Provides these associations with the same options and protections as condominium associations with regard to association liens for assessments and the collection of unpaid assessments from tenants or rental agents; and
 - (B) Exempts these associations from the requirements of the mortgage foreclosure dispute resolution program and the process allowing owner-occupants to convert nonjudicial foreclosures to judicial foreclosures, to parallel the existing exemptions for condominium associations; and
- (7) Clarifies, improves, and corrects provisions of Act 48, Session Laws of Hawaii 2011, relating to mortgage foreclosures.

Your Committee on Conference finds that Act 162, Session Laws of Hawaii 2010, established the Mortgage Foreclosure Task Force to recommend policies and procedures to improve the way mortgage foreclosures are conducted in the State. Act 162 required the task force to submit its findings and recommendations, including any proposed legislation, to the Legislature for the regular sessions of 2011 and 2012.

Some of the task force's initial recommendations in its report to the Legislature for the Regular Session of 2011 were included in Act 48, Session Laws of Hawaii 2011, a far-reaching mortgage foreclosure reform measure. This measure implements the recommendations in the task force's final report to the Legislature for the Regular Session of 2012, along with other best practices, to further improve the mortgage foreclosures law and address related issues affecting homeowner association liens for unpaid assessments.

Your Committee on Conference finds that section 667-60, Hawaii Revised Statutes, currently provides that any violation of the mortgage foreclosures law under Chapter 667, Hawaii Revised Statutes, is an unfair or deceptive act or practice (UDAP) under section 480-2, Hawaii Revised Statutes. While this measure amends section 667-60 to enumerate specific UDAP violations under Chapter 667, this list of violations is not intended to be exhaustive. It should be noted that the federal Ninth Circuit Court of Appeals recently affirmed a federal bankruptcy court decision rendered before the enactment of section 667-60 and holding that a nonjudicial foreclosure violation for failure to publicly announce the postponement of a foreclosure sale constituted a deceptive practice under section 480-2 (*Kekauoha-Alisa v. Ameriquist Mortgage Company, et al.*, No. 09-60019 (9th Cir. March 26, 2012)). It is the intent of your Committee on Conference to uphold the ability of courts, in appropriate circumstances, to determine UDAP liability for violations of the mortgage foreclosures law that are not specifically listed in section 667-60.

In addition, your Committee on Conference finds merit in the provision from the S.D. 1 of this measure requiring that attorneys filing a judicial foreclosure action relating to a mortgage on residential property sign and submit an affirmation that the attorney has verified the accuracy of the documents submitted in the filing, under penalty of perjury and subject to applicable rules of professional conduct. This provision is modeled after a requirement established by the New York Judiciary to maintain the integrity of the foreclosure process. Your Committee on Conference notes a recent news report concerning an audit by San Francisco county officials of approximately four hundred foreclosures in the county from January 2009 to November 2011 that found about eighty-four percent of foreclosure sale files contained clear violations of the law and two-thirds had at least four violations or irregularities ("Audit Uncovers Extensive Flaws in Foreclosures, *The New York Times*, February 15, 2012). Such reports suggest how pervasive foreclosure abuses and irregularities may be across the nation. An attorney affirmation requirement will promote diligence and accountability in judicial foreclosure filings and help ensure that Hawaii's courts are not used as instruments of fraud in foreclosure actions.

Your Committee on Conference has amended this measure by:

- (1) With regard to attorney affirmations for judicial foreclosure filings relating to mortgages on residential property:
 - (A) Restoring the attorney affirmation provision from the S.D. 1 of this measure;
 - (B) Clarifying that the affirmation provision applies to attorneys filing on behalf of a mortgagee;
 - (C) Providing that the attorney affirmation provision applies to all pending judicial foreclosure actions filed by mortgagees for residential property prior to, as well as on and after, the effective date of this measure; and
 - (D) On July 1, 2017:
 - (i) Repealing the attorney affirmation provision described in subparagraph (A); and

- (ii) Putting into effect an alternate provision requiring an attorney who files a mortgage foreclosure action to affirm in writing, under penalty of perjury, that to the best of the attorney's knowledge, information, and belief the allegations in the complaint are warranted by existing law and have evidentiary support;
- (2) Restoring the provisions in current law prohibiting participants of the mortgage foreclosure dispute resolution program under Part V of Chapter 667, Hawaii Revised Statutes, from converting their nonjudicial foreclosure proceedings to judicial actions;
- (3) With regard to the time limit on filing actions to void the transfer of title to the purchaser in a foreclosure sale:
 - (A) Reducing the time limit from one hundred eighty days after recordation of the affidavit after public sale, to sixty days after recordation; and
 - (B) Applying the time limit only to nonjudicial foreclosures under Part II of Chapter 667, Hawaii Revised Statutes;
- (4) With regard to deficiency judgments to collect on any insufficiency of foreclosure sale proceeds to satisfy the debt:
 - (A) Deleting the new provision that would prohibit deficiency judgments against owner-occupants of residential properties sold in judicial foreclosures; and
 - (B) For nonjudicial foreclosures of mortgages conducted under Part II of Chapter 667, Hawaii Revised Statutes, prohibiting deficiency judgments only with respect to owner-occupant residential properties, unless the debt is secured by other collateral;
- (5) With regard to the new publication requirements for public notices of public sale for judicial foreclosures, nonjudicial foreclosures under Part II of Chapter 667, Hawaii Revised Statutes, and association nonjudicial foreclosures for the collection of unpaid assessments under the new part established in Chapter 667:
 - (A) Adding associations to the types of foreclosing entities subject to the new publication requirements for judicial foreclosures;
 - (B) For newspaper publications:
 - (i) Requiring that the newspaper be distributed within the geographic area of the property for at least one year, rather than six months, and to at least three percent of the residents of that geographic area, rather than at least one percent of those residents;
 - (ii) Defining "geographic area" to mean the real property tax zone of the property if located in the County of Hawaii, or otherwise the county in which the property is located; and
 - (iii) Repealing the newspaper criteria two years after the effective date of this measure, and thereafter requiring that the public notice appear in a newspaper that is published at least weekly and has a general circulation in the county in which the property is located;
 - (C) For website publications:
 - (i) Requiring the public notice to be published at least once by newspaper at least fourteen days prior to the public sale;
 - (ii) Authorizing publication on a state website at the discretion of the agency that maintains the website, but requiring that for owner-occupant mortgaged properties facing nonjudicial foreclosure under Part II of Chapter 667, Hawaii Revised Statutes, the public notice shall be published on a website maintained by the Department of Commerce and Consumer Affairs;
 - (iii) Specifying a filing fee of \$300 for publishing the public notice of public sale for owner-occupant mortgaged properties on the Department of Commerce and Consumer Affairs' website; and
 - (iv) Requiring the Department of Commerce and Consumer Affairs to make its website available for posting public notices of public sale for nonjudicial foreclosures of owner-occupant mortgaged properties under Part II of Chapter 667, Hawaii Revised Statutes, by August 30, 2012; and
 - (D) For nonjudicial foreclosures under Part II of Chapter 667, Hawaii Revised Statutes, and association nonjudicial foreclosures under the new part established in Chapter 667, changing the required foreclosure notice statement concerning publication of public notice of the public sale to specifically include the option to publish by newspaper, as well as on the Department of Commerce and Consumer Affairs' website;
- (6) Deleting the amendments to section 667-56, Hawaii Revised Statutes, to allow foreclosing mortgagees to complete nonjudicial foreclosure proceedings while the mortgagor is seeking a loan modification from the mortgagee or applying for a federal loan modification program, if the mortgagor is applying to the same entity for more than the third time;
- (7) Amending the title of Chapter 667, Hawaii Revised Statutes, from "Mortgage Foreclosures" to "Foreclosures", to accommodate the new provisions added by this measure that do not directly relate to mortgages;
- (8) Adding a severability clause;
- (9) Adding a savings clause;
- (10) Making this measure effective upon its approval; and
- (11) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1875, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1875, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hee, Ihara, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Kidani).

Conf. Com. Rep. 64-12 on H.B. No. 2078

The purpose of this bill is to foster consumer protection in the transient accommodation industry and enforce transient accommodations tax compliance by requiring:

- (1) Owners who reside outside of the State or on another island from the location of the transient accommodation to designate an agent residing on the same island as the transient accommodation; and
- (2) All advertisements and solicitations for transient accommodations to display the registration identification number and name of designated agent for the transient accommodations.

Your Committee has amended this bill by:

- (1) Requiring the designation of a “local contact” for transient accommodations rather than the employment of a “designated agent” for purposes of complying with this measure;
- (2) Deleting certain references and duties pertaining to a “designated agent”;
- (3) Deleting references to single owners that differentiated such owners from condominiums or other cooperative associations;
- (4) Changing the term “owner” to “operator” throughout for purposes of consistency with existing relevant statutes;
- (5) Requiring all operators of transient accommodations to designate a local contact;
- (6) Clarifying that a non-governmental entity with covenants, bylaws, and administrative provisions must provide the Department of Taxation with relevant information related to all owners of transient accommodations maintained in its records to avoid penalties;
- (7) Clarifying that only the registration identification numbers for all transient accommodations shall be displayed on web-based advertisements and solicitations;
- (8) Removing the requirement for the Department of Taxation to provide relevant information in relation to operators of transient accommodations on its website for the public;
- (9) Adding a sunset date of December 31, 2015; and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

It is not the intent of your Committee on Conference that the term “transient accommodations” include resort time share vacation units and resort time share vacation interests subject to chapter 514E, Hawaii Revised Statutes, relating to time share plans.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2078, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2078, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kouchi, Baker and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Brower, Herkes, Tokioka, Nishimoto, Tsuji and Ching.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Ching).

Conf. Com. Rep. 65-12 on H.B. No. 1054

The purpose of this measure is to assist communities to more effectively support their local libraries by, among other things:

- (1) Authorizing the Board of Education to enter into arrangements or contracts approved by the Governor with any specified tax-exempt nonprofit corporation whose primary purpose is the support of a library within the Hawaii State Public Library System to obtain the use of the books, property, and income of the tax-exempt nonprofit;
- (2) Authorizing the deposit of private donations into the Libraries Special Fund and requiring that moneys specified by a donor to be for the benefit of a specific library be disbursed to that library for its sole use;

- (3) Authorizing the State Librarian to create subaccounts within the Libraries Special Fund to itemize designated private donations;
- (4) Authorizing the head librarian of each library branch, with the approval of the State Librarian in consultation with the Board of Education, to allow the use of public library system facilities and grounds;
- (5) Requiring the net income or proceeds derived from the operation of concessions, vending machines, or other for-profit business enterprises operated within or on the grounds of State library facilities to be deposited into the Libraries Special Fund, with the Board of Education determining the amount;
- (6) Clarifying that a public library is not required to permit the use of its facilities and grounds in order for any entity to establish a tax-exempt nonprofit corporation; and
- (7) Repealing all reference to the Friends of the Library of Hawaii in specified sections of the Hawaii Revised Statutes.

The role the State's public library system plays in enhancing the lives of people in Hawaii's communities has continued to grow and so too does the importance of the organizations that support these vital public institutions. A strong public library system contributes to the economic, educational, and cultural vitality of both the State and the individual communities it serves. Your Committee on Conference hopes that passage of this measure will provide the opportunity for, and encourage, additional public-private partnerships to continue to benefit the state library system at the community level.

Your Committee on Conference also wishes to acknowledge the passion and dedication of those individuals who have given so enthusiastically and selflessly of their time and energy to support the libraries in their communities. Advocates tirelessly contributed to the development and evolution of this measure, which represents the legislative process at its finest.

Your Committee on Conference has amended this measure by:

- (1) Reinstating reference to the Friends of the Library of Hawaii;
- (2) Clarifying that the Board of Education may enter into arrangements and contracts approved by the Governor with affiliates of the Friends of the Library of Hawaii to obtain the use of the affiliate's books, property, and income;
- (3) Removing provisions permitting the deposit of private donations into the Libraries Special Fund;
- (4) Authorizing the head librarian of each library branch, under the specified conditions, to allow affiliates of the Friends of the Library of Hawaii, through and with the approval of the Friends of the Library of Hawaii, use of state library system facilities and grounds;
- (5) Deleting the requirement that the net income or proceeds derived from the operation of concessions, vending machines, or other for-profit business enterprises be deposited into the Libraries Special Fund, with the Board of Education determining the amount;
- (6) Deleting language clarifying that a public library is not required to permit the use of its facilities and grounds in order for any entity to establish a tax-exempt nonprofit corporation;
- (7) Deleting language specifying that book sales held within or on the grounds of any state library facility will not constitute concessions;
- (8) Requiring that all net proceeds received by the Friends of the Library of Hawaii from the operation of any concession, vending machine, or other activity through a state-wide contract within or on the grounds of any state library facility be deposited in the Friends of the Library of Hawaii Trust Fund;
- (9) Requiring the Friends of the Library of Hawaii, its affiliates, and any nonprofit organization that has used state library facilities for fundraising activities to:
 - (A) Deposit the net proceeds of those fundraising activities into individual accounts in a federally insured financial institution with specified conditions for the use of such funds;
 - (B) Prepare and submit to the State Librarian an annual financial statement including specified criteria, with the statement of the Friends of the Library of Hawaii to include the annual financial statements of its affiliates; and
 - (C) Keep true and accurate records of their fundraising activities, subject upon demand to inspection by the State Librarian, for not less than five years;
- (10) Requiring the State Librarian, after giving ten days notice, to revoke any license, permit, concession, or right of entry issued to any organization that fails to comply with the specified requirements;
- (11) Including definitions for "affiliate of the Friends of the Library of Hawaii" and "net proceeds";
- (12) Authorizing, rather than requiring the Board of Education to adopt rules; and
- (13) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1054, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1054, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 66-12 on S.B. No. 2103

The purpose of this measure is to:

- (1) Require registered nurses using reasonable judgment to carry out the orders of a licensed physician assistant practicing with physician supervision and acting as an agent of the supervising physician; and
- (2) Specify that if the nurse completes an accredited graduate-level education program to be recognized as an advanced practice registered nurse, the program must prepare the nurse for one of the four recognized advanced practice registered nurse roles instead of leading to a master's degree as a certified registered nurse anesthetist, nurse midwife, clinical nurse specialist, or nurse practitioner.

Your Committee on Conference finds that clarifying the scope of authority for physician assistants will relieve misunderstandings between hospital administrators, nurses, and other staff and facilitate the provision of better health care services.

Your Committee on Conference has amended this measure by:

- (1) Reverting back to the S.D. 2 version of this measure, which differs substantively by:
 - (A) Not amending the formal education requirements for recognition as an advanced practice registered nurse; and
 - (B) Changing the effective date to upon approval; and
- (2) Inserting a repeal date of July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2103, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2103, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 67-12 on S.B. No. 2341

The purpose of this measure is to authorize agricultural tourism activities in agricultural districts, including overnight accommodations of twenty-one days or less, within a county with a population greater than one hundred thousand people, but less than one hundred fifty thousand people; provided that the activities coexist with a bona fide agricultural activity and the county has adopted ordinances regulating agricultural tourism.

Your Committee on Conference finds that agricultural tourism has been successful in other areas of the United States, such as Napa Valley in California. The creation of more opportunities for farmers and ranchers to raise capital must be considered when looking at ways to make Hawaii more self-sufficient in food production.

Your Committee on Conference has amended this measure by:

- (1) Adding language to the purpose section to highlight potential agricultural tourism opportunities in the State, while recognizing the Legislature's intent to enable the counties to make their own determinations regarding the allowance of certain activities on, or uses of, land in agricultural districts;
- (2) Amending sections 205-2 and 205-4.5, Hawaii Revised Statutes, to:
 - (A) Clarify that the agricultural tourism activities are permitted for any one stay within a county that includes three or more islands and has adopted ordinances regulating agricultural tourism under section 205-5, Hawaii Revised Statutes; and
 - (B) Broaden the definition of "bona fide agricultural activity";
- (3) Repealing language in section 205-5(b), Hawaii Revised Statutes, which prohibits agricultural tourism activities within agricultural districts in the absence of a bona fide farming operation; and
- (4) Making this measure effective upon approval.

Your Committee on Conference further finds that this measure, as amended, will still require that agricultural tourism activities coexist with a bona fide agricultural activity in order for the agricultural tourism activities to be permissible within agricultural districts.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2341, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2341, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Dela Cruz, Kim and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Tsuji, McKelvey, Chang, Brower, Tokioka and Riviere.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Brower).

Conf. Com. Rep. 68-12 on S.B. No. 2646

The purpose of this measure is to encourage and support diversified agriculture and agricultural self-sufficiency in the State by providing an exemption from building permit requirements for nonresidential agricultural and aquacultural buildings or structures on commercial farms and ranches located outside of the urban district under certain conditions.

Your Committee on Conference finds that nonresidential agricultural and aquacultural buildings are often required to meet the same county permitting requirements as commercial buildings and buildings used for human habitation.

Your Committee on Conference further finds that several other jurisdictions in the United States have either state statutes or county codes or ordinances that exempt agricultural buildings from zoning, building code, and building permit requirements. For example, Iowa, Illinois, and Arizona have exempted agricultural buildings from such requirements under the concept of "the right to farm." In adopting this measure and removing burdensome obstacles for Hawaii's agricultural and aquacultural communities, the State will be supporting the language and intent of article XI, section 3, of the Hawaii State Constitution, which requires the State to "promote diversified agriculture" and "increase agricultural self-sufficiency".

In addition, your Committee on Conference finds that this measure addresses the needs of Hawaii's agricultural and aquaculture community while being mindful of health and safety concerns.

Your Committee on Conference has amended this measure by:

- (1) Adding language to require that no later than January 1, 2013, each county shall establish a list of agricultural buildings and structures that are exempt from existing county building permit requirements and to establish requirements for agricultural buildings, structures, or appurtenances thereto that may be exempt;
- (2) Adding the requirement that upon completion or installation of the agricultural building, structure, or appurtenance thereto, the owner or occupier seeking a county permitting exemption shall provide the required written notice to the appropriate fire department and county building permitting agency within thirty days of the completion or installation;
- (3) Adding language to clarify that no electrical power and no plumbing systems shall be connected to the building or structure without first obtaining the appropriate county electrical or plumbing permit, and all such installations shall be installed under the supervision of a licensed electrician or plumber, as appropriate, and inspected and approved by an appropriate county or licensed inspector;
- (4) Adding language to require that disposal of wastewater from any building or structure constructed or installed pursuant to this measure shall comply with chapter 342D, Hawaii Revised Statutes;
- (5) Adding language to specify the types, dimensions, and specifications of buildings, structures, and appurtenances thereto that shall be included in each county's agricultural buildings and structures exemption list;
- (6) Specifying that if a county fails to establish an agricultural buildings and structures exemption list by January 1, 2013, the exemptions provided for in this measure shall constitute the county's exemption list;
- (7) Adding definitions for the terms "appurtenance" and "manufactured pre-engineered commercial building or structure";
- (8) Requiring the Department of the Attorney General to establish a task force to examine conflicts between state statutes, including this measure, county codes, and the interests of Hawaii's agriculture and aquaculture industries;
- (9) Requiring the task force to provide recommendations for potential solutions to any conflicts to the Governor no later than December 15, 2012;
- (10) Making this measure effective on July 1, 2012; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2646, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2646, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Representatives Tsuji, Chang, Hashem, Tokioka and Riviere.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 69-12 on S.B. No. 2746

The purpose of this measure is to replace Act 290, Session Laws of Hawaii 1997, relating to electric vehicles, with updated provisions to address the present state of the development and use of electric vehicles.

Your Committee on Conference finds that electric vehicle deployment is in its infancy. By many reports, the total number of electric vehicles in use has doubled over the past year. However, this growth is infinitesimal in relation to what is truly needed to wean Hawaii off of imported oil. The ownership and use of electric vehicles needs to be expanded multifold in the future. Act 290 was likely ahead of its time but continues to be effective in incentivizing the use of electric vehicles.

Your Committee has amended this measure by:

- (1) Changing the sunset date to June 30, 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2746, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2746, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Gabbard and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Souki, Coffman, Ichiyama, Kawakami and Fontaine.

Conf. Com. Rep. 70-12 on S.B. No. 155

The purpose of this measure is to regulate the profession of athletic training by requiring persons engaged in the practice of athletic training in this State to meet certain requirements and to register with the Department of Commerce and Consumer Affairs.

Your Committee on Conference finds that, as one of only three states that currently does not regulate the practice of athletic training, Hawaii is at risk of attracting individuals who are disqualified from practicing athletic training elsewhere due to misconduct or lack of qualifications. With no system in place to verify an individual's professional qualifications, background, and complaint history, unqualified or unscrupulous persons may be allowed to practice athletic training in this State without any meaningful oversight. This would be an especially troubling outcome in light of the fact that athletic trainers often work with elementary and secondary school-aged children in public and private school-sponsored sports programs. The continued absence of regulation over the practice of athletic trainers puts the safety of consumers at risk and degrades the profession as a whole.

Your Committee on Conference has amended this measure by:

- (1) Adding a provision to specify that the registration system for athletic trainers established by this measure shall be repealed on June 30, 2018;
- (2) Authorizing the Department of Commerce and Consumer Affairs to employ necessary personnel without regard to chapter 76, Hawaii Revised Statutes, to assist with the implementation and continuing functions of the registration system established by this measure;
- (3) Establishing a license and renewal surcharge of \$100 to account for the initial cost of establishing and maintaining the registration system established by this measure;
- (4) Specifying an appropriation amount of \$40,000 from the compliance resolution fund;
- (5) Inserting an effective date of July 1, 2012; provided that the registration requirements created by this measure shall become effective on January 1, 2013; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 155, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 155, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 71-12 on S.B. No. 2787

The purpose of this measure is to support the stability and reliability of the Hawaii electric system by authorizing the Public Utilities Commission to:

- (1) Develop, adopt, monitor, and enforce electric reliability standards and interconnection requirements;
- (2) Contract for the services of a Hawaii Electricity Reliability Administrator to monitor and enforce standards, and perform other technical interconnection-related support functions; and
- (3) Establish procedures for interconnection on the Hawaii electric system and a surcharge to ensure the reliable operation of the Hawaii electricity system and overseeing of grid access on the system.

Your Committee on Conference finds that the reliability of Hawaii's electric system is a central issue the State must address to achieve the maximum penetration of renewable energy generation on its grid. Although Hawaii's electric utilities currently assume responsibility for maintaining system reliability, the rise in requests to connect to the grid with intermittent energy sources demands a more formalized and transparent interconnection process.

Your Committee on Conference further finds that the Public Utilities Commission is best positioned to undertake the responsibility of administering critical formal reliability standards to govern all segments of the electric power system. This measure provides the Public Utilities Commission with the necessary means to ensure that reliability standards and interconnection requirements are properly monitored, enforced, and funded.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2787, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2787, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Taniguchi.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Coffman, Herkes, Kawakami, Tsuji and Thielen.

Conf. Com. Rep. 72-12 on S.B. No. 2825

The purpose of this measure is to:

- (1) Authorize the Department of Health to allow limited health insurer access to the Hawaii Immunization Registry; and
- (2) Authorize the Hawaii Immunization Registry to store minimal demographic information for individuals who have elected to refuse inclusion in the Registry.

Your Committee on Conference finds that the Hawaii Immunization Registry provides a current, centralized immunization-related medical history. Allowing controlled health insurer access to the Registry's immunization reports will aid in monitoring and improving the health of the insurer's member population and may assist in the formulation of strategies to improve immunization rates and thus decrease the incidence of vaccine-preventable disease in the State. Further potential benefits include the generation of improvements in public health and state-provided vaccine programs.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2825, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2825, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Hee and Baker.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Hee).

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 73-12 on S.B. No. 2056

The purpose of this measure is to require a defendant's probation officer to provide the court information regarding the defendant's compliance or non-compliance with probation prior to the court determining whether to grant an early discharge from probation.

Your Committee on Conference finds that under existing law, the court may grant early discharge from probation without input from a defendant's probation officer regarding that defendant's compliance with probation terms. This measure serves as an additional tool for the courts to use in their assessment and determination of whether a defendant should be discharged from probation early.

Your Conference on Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2012; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2056, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2056, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Har, Luke, Mizuno and Thielen.
Managers on the part of the House.

Conf. Com. Rep. 74-12 on S.B. No. 2001

The purpose of this measure is to amend the Hawaii State Planning Act to include, as a policy of the State, promoting the development of indigenous renewable energy resources located on public trust land as an affordable and reliable source of firm power for Hawaii and to require consultation and public input from the Native Hawaiian community and general public when developing projects with public land trust lands.

Your Committee on Conference finds that renewable energy resources are assets of the public trust but have not been adequately recognized or developed by the State as such. Trust law requires the State, as trustee of these renewable energy assets, to ensure that there is a direct benefit for the beneficiaries of the public trust land who are Native Hawaiians and the public. Specifically, geothermal resources have been developed to generate electricity on the island of Hawaii for more than seventeen years. However, the development of geothermal resources has yet to create a real or direct benefit to the residents of the land from which the resources are sourced.

Your Committee on Conference has amended this measure by:

- (1) Substituting the reference to "indigenous renewable energy" with "indigenous geothermal energy"; and
- (2) Inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2001, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2001, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Gabbard, Solomon and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Coffman, Chang, Hanohano, Kawakami, Nakashima, Yamashita and Thielen.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 75-12 on S.B. No. 2763

The purpose of this measure is to amend the Secure and Fair Enforcement for Mortgage Licensing Act, chapter 454F, Hawaii Revised Statutes, to reflect recent changes in federal law and adjust fees in consideration of new regulatory requirements.

Your Committee on Conference finds that mortgage loan originators offer or negotiate the terms of residential mortgage loans or accept applications for these loans. These professionals are licensed under the Secure and Fair Enforcement for Mortgage Licensing Act, which this measure amends to incorporate new federal requirements designed to strengthen consumer protections relating to mortgage loan origination.

Your Committee on Conference further finds that this measure establishes a one-time application fee for mortgage loan originators who are sole proprietors and exempts these individuals from annual license renewal fees. Although the Nationwide Mortgage Licensing System is not able to easily program special fees for states to charge for specialized licensees, such as sole proprietors, a fee adjustment may be possible if sole proprietors paid all required fees through the Nationwide Mortgage Licensing System then requested the State to reimburse any fees the Division of Financial Institutions chose to waive.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established a one-time application fee for mortgage loan originators who are sole proprietorships and would have exempted these individuals from annual license renewal fees; and instead adding language to require the Division of Financial Institutions to reimburse every mortgage loan originator company that consists of a non-exempt single individual who is engaged in the business of a mortgage loan originator as a sole proprietorship for fees paid for the mortgage loan originator initial application and annual license renewal fees;
- (2) Clarifying the application of the new definition of "housing finance agency" to nonprofit organizations;

- (3) Adding a definition of “Nationwide Mortgage Licensing System” to reflect that this entity is alternatively known as the “Nationwide Mortgage Licensing System and Registry”;
- (4) Making conforming amendments to effectuate the reduction of the time limit, from six months to thirty days, for an applicant for licensure to demonstrate continued efforts to complete the licensing application;
- (5) Deleting language that would have increased the initial application fee by \$100 and the annual license renewal fee by \$50, with respect to the fees that a mortgage loan originator must pay to obtain and maintain a valid mortgage loan originator license;
- (6) Deleting language that would have increased by \$50 the fees a licensee must pay to the Insurance Commissioner for certain amendments to information provided to the Nationwide Mortgage Licensing System;
- (7) Inserting an effective date of July 1, 2012; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2763, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2763, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Taniguchi.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Herkes, Choy, Tsuji and Riviere.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 76-12 on S.B. No. 2540

The purpose of this measure is to amend or repeal various sections of chapter 302A, Hawaii Revised Statutes (“HRS”), that:

- (1) Have already been accomplished and are no longer necessary to be codified in statute;
- (2) Impede rather than assist the Department of Education in meeting its core mission;
- (3) Fall under the purview of the Board of Education, such as policy and programmatic decisions;
- (4) Are already mandated by federal law and do not require codification in state statute; and
- (5) Are covered by another section of the HRS, Hawaii Administrative Rules, or Board of Education policy.

Your Committee on Conference finds that as a result of the constitutional amendment adopted in the 2010 general election, the Board of Education was required to transform from an elected board to an appointed board, with the appointments made by the Governor. This change presents a unique opportunity to review numerous sections of the HRS to determine if amending or reducing statutory restraints and requirements would assist the Board of Education and Department of Education in creating a more effective educational delivery system. This measure is consistent with S.C.R. No. 79 (2011), which requested that the Board of Education and Department of Education review applicable statutes to, in part, assist the Department of Education in meeting its core mission.

Your Committee on Conference further finds that the statutory revisions proposed by this measure do not diminish the role of the Legislature in overseeing the Department of Education and holding it accountable for the educational success of students, but rather place certain decision making authority in the best place possible.

In addition, your Committee on Conference notes that deleting outdated or duplicative sections of chapter 302A, HRS, does not in any way suggest that the Department of Education does not have proper legal authority to implement those programs or activities covered by those deleted sections. Rather, the Legislature is placing decision making authority over those certain programs and activities at the proper level, whether at the policy making level or the administrative level. Furthermore, your Committee on Conference urges the Department of Education to ensure that it has rules and policies in place to address the sections of chapter 302A, HRS, that are repealed by this measure.

Your Committee on Conference has amended this measure by:

- (1) Specifying that students may attend a school outside their service area, as determined by the Department of Education, when a geographic exception is requested and granted at the discretion of the Department or out-of-service-area attendance is mandated by the Department or federal law;
- (2) Inserting language to amend section 302A-1151.1, HRS, to:
 - (A) Specify that when the Department of Education considers closing a public school, it shall give reasonable consideration to making all or portions of the facilities of the public school available to charter schools, to pre-plus programs, or for any other purpose the Board of Education deems appropriate, rather than limit such use to charter schools;
 - (B) Repeal the language establishing a procedure for the selection of charter schools to use vacant school facilities; and
 - (C) Require the Department of Education to identify unused public school facilities that may be appropriate for charter schools, early learning programs, such as pre-plus programs, or any other purpose the Board of Education deems appropriate;

- (3) Inserting language to repeal various requirements under section 302A-1502.4, HRS, relating to the Hawaii 3R's school repair and maintenance fund;
- (4) Repealing section 302A-401.5, HRS, relating to the Hawaii teacher cadet program;
- (5) Repealing section 302A-1506.5, HRS, which requires the Department of Education to identify sites for early education;
- (6) Repealing section 302B-3.6, HRS, which sets forth the process by which charter schools may use vacant public school facilities;
- (7) Deleting language that requires any existing rule, ordinance, executive order, directive, or provision in a collective bargaining agreement in existence on the effective date of this measure that is inconsistent with this measure to be amended to conform with this measure;
- (8) Inserting a savings clause to clarify that nothing in this measure shall affect any rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date;
- (9) Making this measure effective upon approval; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2540, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2540, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, M. Lee, Belatti, Saiki and Johanson.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Saiki).

Conf. Com. Rep. 77-12 on S.B. No. 2800

The purpose of this measure is to add exemptions from child care licensing by the Department of Human Services for any kindergarten, school, or child care program licensed by the Charter School Review Panel, the Hawaii Council of Private Schools, or any federal agency and for child care programs conducted by counties.

Your Committee on Conference finds that as kindergartens, schools, or child care programs are already licensed by the Charter School Review Panel, the Hawaii Council of Private Schools, federal agencies, or counties that administer them, there is no sufficient justification for the Department of Human Services to also license these kindergartens, schools, and child care programs.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to July 1, 2013.

Your Committee on Conference notes the Hawaii Association for the Education of Young Children's opposition to the measure, as amended, to the extent that it includes licensing exemptions for child care programs conducted by counties for children from birth through age five who receive child care subsidies. Your Committee on Conference requests the Department of Human Services to confer with the Hawaii Association for the Education of Young Children to address and make recommendations to allay the concerns regarding children who receive child care subsidies. Your Committee on Conference also requests the Department to work with the Hawaii Association of Independent Schools and Hawaii Council of Private Schools, who already license private child care programs, to ensure that the program the Association and the Council develops meets the Department's licensing standards and that the Association and the Council have the capacity to take over the Department's responsibilities should they become responsible for licensing these programs.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2800, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2800, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Tokuda and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Jordan, Belatti and Pine.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. 78-12 on S.B. No. 2655

The purpose of this measure is to:

- (1) Establish provisions for the sale of portable electronics insurance;
- (2) Require vendors to hold a limited lines license to sell or offer coverage under a policy;

- (3) Establish sanctions for violations;
- (4) Establish requirements for termination of insurance; and
- (5) Establish initial and renewal licensing fees in unspecified amounts.

Your Committee on Conference finds that there is currently no statutory regulation of the provision of portable electronics insurance. This measure establishes a regulatory framework that provides important consumer protections and meaningful disclosures.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that an insurer have the consent of the vendor and enrolled customer to terminate or otherwise change the terms and conditions of a policy of portable electronics insurance;
- (2) Deleting the requirement that if an insurer terminates or otherwise changes the terms and conditions of a policy of portable electronics insurance, the insurer shall pay to the enrolled customer at least ten percent of the monthly insurance policy premium paid by the enrolled customer;
- (3) Establishing fees of \$150 for an initial license and \$150 per year for the initial or renewal term;
- (4) Inserting an effective date of January 1, 2013; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2655, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2655, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Baker and Wakai.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Herkes, Choy and Marumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 79-12 on S.B. No. 2277

The purpose of this measure is to make permanent the Department of Land and Natural Resources' authority to enter into safe harbor agreements and habitat conservation plans and issue incidental take licenses pursuant to chapter 195D, Hawaii Revised Statutes.

Your Committee on Conference finds that the Department of Land and Natural Resources has issued eight habitat conservation plans and six safe harbor agreements, which have helped restore certain populations of nene, montane-nesting seabirds, and Hawaiian hoary bats. Because the plans and agreements have proven effective, the department is seeking to finalize ten new habitat conservation plans and three new safe harbor agreements. However, your Committee on Conference also finds that the existing procedure for enforcing rules, habitat conservation plans, and safe harbor agreements and accompanying licenses is problematic. Unforeseen emergencies inevitably arise, and when they do, effective remedies must be available. Because enforcement of these mechanisms has proven problematic, your Committee on Conference finds that section 195D-27, Hawaii Revised Statutes, which establishes provisions for the administrative enforcement of rules, habitat conservation plans, and safe harbor agreements and accompanying licenses, should be repealed.

Your Committee on Conference has amended this measure by:

- (1) Repealing section 195D-27, Hawaii Revised Statutes;
- (2) Extending the Department of Land and Natural Resources' authority to issue safe harbor agreements, habitat conservation plans, and incidental take licenses through June 29, 2017, rather than permanently authorizing the department to issue safe harbor agreements, habitat conservation plans, and incidental take licenses; and
- (3) Inserting an effective date of upon approval; provided that section 2 of the measure shall take effect on June 30, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2277, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2277, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Dela Cruz, Hee, Ihara and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Hee, Slom).

Representatives Chang, Keith-Agaran, Har, Ito, Nakashima and Riviere.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 80-12 on S.B. No. 2810

The purpose of this measure is to amend the definition of “employment” under the workers’ compensation law, temporary disability insurance law, and the Prepaid Health Care Act by excluding from the definition certain domestic and day care services authorized by the Department of Human Services or provided through state-funded medical assistance to Medicaid-ineligible individuals by an individual in the employ of a recipient of social service payments.

Your Committee on Conference finds that this measure will provide valuable exemptions to the Department of Human Services, aged and disabled recipients of home- and community-based services, and recipients of state-funded home- and community-based services from having to provide workers’ compensation, temporary disability insurance, and prepaid health care due to their receipt of these services.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2810, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2810, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hee, Ihara, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Representatives Mizuno, Rhoads, Jordan, Yamashita and Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Yamashita, Pine).

Conf. Com. Rep. 81-12 on S.B. No. 1382

The purpose of this measure is to establish the Federal Higher Education Compliance and Educational Personnel Licensure and Certification Task Force (Task Force) to make recommendations to the Legislature regarding:

- (1) The State’s compliance with pertinent federal laws to ensure that state post-secondary educational programs qualify for federal student loan programs and other federal funding; and
- (2) Whether the licensing or authorization of educational institutions and their administrators and instructors should be consolidated and tasked to a single state agency.

Your Committee on Conference finds that in October 2010, the United States Department of Education issued new regulations for programs authorized under Title IV of the Higher Education Act of 1965, as amended, to hold programs accountable for preparing students for gainful employment, protect students from misleading recruiting practices, ensure that only eligible students receive financial aid, and strengthen federal student aid programs at for-profit, non-profit, and public institutions. The regulations also include requirements for state authorization of institutions that offer educational programs beyond secondary education for purposes of federal program eligibility.

Your Committee on Conference further finds that the State was unable to satisfy all of the requirements relating to state authorization by the July 1, 2011, deadline. However, the United States Department of Education provided the opportunity for states and institutions to receive an extension to July 1, 2013, for certain regulations. In the meantime, it is the intent of your Committee on Conference that the State proactively seek solutions by determining what actions and changes are required for the State to come into compliance with the new regulations.

Your Committee on Conference has amended this measure by:

- (1) Amending the purpose section to more accurately reflect the intent of the Legislature;
- (2) Deleting all language in this measure relating to the Task Force;
- (3) Inserting language to require the Auditor, among other things, to examine the Higher Education Act of 1965, as amended, and regulations pursuant to that Act, and recommend the best available options to the State, including a regulatory framework, to ensure the State’s compliance with provisions relating to the authorization of institutions that offer educational programs beyond secondary education;
- (4) Inserting language to require the Auditor to submit a report of the analyses performed pursuant to this measure to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013; and
- (5) Making this measure effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1382, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1382, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Takumi, Yamashita, Tokioka, Belatti, Nakashima and Johanson.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 82-12 on S.B. No. 3008

The purpose of this measure is to allow impoverished family court litigants an alternative to serving notice by publication, by allowing the posting of pleadings at the courthouse. Specifically, this measure allows family court plaintiffs or petitioners who are unable to afford to serve notice by publication to serve notice to a defendant or respondent by, after a due and diligent search for the defendant or respondent, mailing pleadings and process to the defendant or respondent and to the defendant's or respondent's closest known relative, and posting pleadings and process at the courthouse with the permission of the family court.

Your Committee on Conference finds that the rates to serve notice by publication in a daily newspaper of general circulation have increased dramatically over the past several years. This rate increase has made it difficult for impoverished litigants to find the funds necessary to cover the publication costs for legal notices. This measure will alleviate this financial burden on impoverished litigants and increase access to family court processes.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to September 1, 2012; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3008, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3008, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Keith-Agaran, Jordan, Ito and Pine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 83-12 on S.B. No. 243

The purpose of this measure is to:

- (1) Establish the Hawaii Western Interstate Commission for Higher Education (Hawaii WICHE);
- (2) Allow Hawaii WICHE to establish a repayment policy for students who receive financial support from certain funds appropriated for the Hawaii WICHE professional student exchange program; and
- (3) Establish a professional student exchange program special fund.

Your Committee on Conference finds that chapter 304A, part VII, subpart D, Hawaii Revised Statutes, currently provides for the appointment of state commissioners to the Western Interstate Commission for Higher Education (WICHE) but does not allow the Hawaii commissioners to independently set conditions on students who participate in the professional student exchange program (PSEP). This measure will establish and define the Hawaii WICHE and give it the necessary authority to develop a repayment policy for PSEP students who receive financial support from PSEP.

Currently five WICHE states have return requirements for students who benefit from participation in the PSEP. Studies find that states with these requirements have an average rate of return of seventy-four percent and states without return requirements have an average rate of return of thirty-nine percent. Your Committee on Conference believes that this measure will increase the likelihood of PSEP students returning to Hawaii.

In 2010, the State spent \$1,064,465 to subsidize the cost of professional education for Hawaii students in fields of study unavailable at local universities but in high demand in the State. The Hawaii WICHE commissioners should have the option of establishing return requirements to best meet the needs of the students and the State.

Your Committee on Conference has amended this measure by making it effective on July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 243, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 243, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Tokioka, Nakashima, Saiki and Johanson.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Saiki).

Conf. Com. Rep. 84-12 on S.B. No. 2773

The purpose of this measure is to update chapter 312, Hawaii Revised Statutes, to more accurately reflect the duties and responsibilities of the Board of Education, Hawaii State Public Library System, and State Librarian with respect to the Hawaii State Public Library System.

Your Committee on Conference finds that despite long-standing Board of Education and Hawaii State Public Library System practices, the Board of Education should play a more active role in overseeing the Hawaii State Public Library System.

As such, your Committee on Conference has amended this measure by:

- (1) Deleting the purpose section; and
- (2) Deleting the language in this measure that would have given the State Librarian certain responsibilities, duties, and powers currently held by the Board of Education pursuant to sections 312-1, 312-2, 312-4.6, 312-5, and 312-21, Hawaii Revised Statutes, but retaining language that authorizes the State Librarian to appoint one secretary and codifying that language under section 312-2.1, Hawaii Revised Statutes.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2773, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2773, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige, Kidani and Ryan.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Takumi, M. Lee, Belatti, Takai and Johanson.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 85-12 on S.B. No. 240

The purpose of this measure is to:

- (1) Require one hundred percent of the physician workforce assessment fees in the John A. Burns school of medicine special fund to be used to address communication and implementation of federal health care reform and law, support and develop the medical home model, and support increases in physician reimbursements;
- (2) Extend the physician workforce assessment fee to July 1, 2015; and
- (3) Require the John A. Burns School of Medicine to prepare an annual, rather than biennial, report to the Legislature assessing the physician workforce.

Your Committee on Conference finds that the physician workforce assessment established by Act 18, Special Session Laws of Hawaii 2009, reports a current shortage of 600 physicians in the State and an impending shortage of 1,200 physicians by 2020. The shortage of physicians is compounded by the fact that Hawaii's physician workforce is the fifth oldest of all the states and many physicians will soon retire. In addition, Hawaii fails to attract young physicians to practice in the State.

Your Committee on Conference further finds that the recruitment and retention of physicians to serve the rural and medically underserved areas of the State are critical. The continuation of the physician workforce assessment project and the formation and execution of tangible solutions are essential if the State is to adequately address the ongoing need for a strong physician workforce.

Your Committee on Conference has amended this measure by:

- (1) Extending the physician workforce assessment fee until June 30, 2017;
- (2) Requiring that no less than fifty percent of the total amount of assessment fees deposited into the John A. Burns school of medicine special fund be used for purposes identified by the Hawaii Medical Education Council to support physician workforce assessment and planning, including the recruitment and retention of physicians, for rural and medically underserved areas of the State;
- (3) Increasing the amount from the John A. Burns school of medicine special fund that may be expended annually from \$150,000 to \$245,000; and
- (4) Making this measure effective on June 29, 2012; provided that the requirements described in paragraphs (2) and (3) above shall be repealed on June 30, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 240, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 240, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Green and Ige.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, M. Lee, Morikawa and Pine.
 Managers on the part of the House.
 Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 86-12 on S.B. No. 2115

The purpose of this measure is to adopt the recommendations of the Charter School Governance, Accountability, and Authority Task Force (Task Force) by repealing chapter 302B, Hawaii Revised Statutes, and establishing a new charter school law that creates a solid governance structure for Hawaii's charter school system with clear lines of authority and accountability that will foster improved student outcomes.

Your Committee on Conference finds that the Task Force was established pursuant to Act 130, Session Laws of Hawaii 2011, in response to questions and concerns raised by policy makers and advocates alike about the integrity of Hawaii's charter school governance structure and the overall strength of Hawaii's laws in establishing clear lines of authority that ensure accountability of the charter school system.

Specifically, the goal of the Task Force was to provide clarity to the relationships, responsibilities, and lines of accountability and authority among stakeholders of Hawaii's charter school system, including the Board of Education, Department of Education, Charter School Administrative Office, Charter School Review Panel, and local school boards.

In conducting its work, the Task Force looked at various sections of the Charter School Model Law put forth by the National Alliance for Public Charter Schools and used the model law as a guide in compiling its recommendations to the Legislature. The Task Force was also fortunate to have the assistance and input of the National Association of Charter School Authorizers and the National Governors Association.

After in-depth examination and discussion, the Task Force concluded its work and issued its report and recommendations to the Legislature. This measure encapsulates the Task Force's recommendations.

Your Committee on Conference notes that Hawaii's charter schools are ranked each year by the National Alliance for Public Charter Schools (NAPCS). Last year, Hawaii's ranking fell from thirty-fourth place to thirty-fifth place, out of a total of forty-two states. NAPCS reviewed this measure and testified that if this measure passes the Legislature, Hawaii's rank would move up fourteen spots to be the state ranked twenty-first.

Your Committee on Conference further finds that this measure is a major departure from the current charter school law and believes that this measure will strengthen Hawaii's charter school system and will move Hawaii's charter schools toward greater student outcomes.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of "authorizer" to clarify that "authorizer" means an entity established under this measure with chartering authority;
- (2) Inserting a definition for the term "charter" to mean a charter application as approved by an authorizer;
- (3) Renaming the term "application" as "charter application" for purposes of clarity and consistency;
- (4) Clarifying that the Board of Education (Board) shall not approve any application for chartering authority until July 1, 2014, or until the Board adopts administrative rules, whichever is later;
- (5) Inserting language requiring the Board to execute an authorizing contract with an eligible authorizing entity within sixty days of deciding to grant chartering authority to the entity;
- (6) Clarifying that an authorizer shall not provide technical support to a charter school it authorizes in cases where the technical support will directly and substantially impact an authorizer's decision related to the authorization, renewal, revocation, or nonrenewal of the charter school; provided that this prohibition shall not apply to technical support that an authorizer is required to provide to a charter school pursuant to federal law;
- (7) Removing the requirement that an authorizer provide charter schools with an itemized accounting of the actual cost of services purchased from the authorizer by the charter school;
- (8) Removing language specifying the procedures for authorizers and charter schools to follow when a dispute arises as to charges for services purchased from an authorizer by a charter school;
- (9) Removing language specifying the deadline by which the Board must communicate to authorizers the requirements for the format, content, and submission of an annual report;
- (10) Clarifying that in selecting members of charter school governing boards, consideration shall be given to persons possessing strong financial and academic management and oversight abilities and human resource and fundraising experience;
- (11) Clarifying that all charter school employees and members of governing boards shall be subject to the Ethics Code, chapter 84, Hawaii Revised Statutes;
- (12) Inserting, as a requirement for certain funding eligibility for conversion charter schools managed and operated by nonprofit organizations, a minimum annual contribution of \$1 per pupil for every \$4 per pupil allocated by the Department of Budget and Finance for the operation of the conversion charter school;
- (13) Inserting figures to specify that the maximum total required per pupil contribution that a nonprofit organization that manages a conversion charter school shall be required to pay is \$1,650 for school years 2012-2013 through 2015-2016, and \$1,815 for school years 2016-2017 through 2020-2021;

- (14) Clarifying that an authorizer shall be responsible for managing, rather than collecting, analyzing, and reporting, all data from each charter school it oversees;
- (15) Clarifying that an authorizer shall require each charter school it oversees to submit an annual report, which shall include the status of the charter school's compliance with annual performance targets, as determined by its charter contract;
- (16) Inserting a deadline of September 1 by which an authorizer shall issue a charter school performance report and charter contract renewal application guidance to any charter school whose charter will expire the following year;
- (17) Specifying that charter schools have thirty days to respond to the authorizer's performance report;
- (18) Inserting a deadline of March 1 by which the governing board of a charter school shall be required to submit a charter renewal application to its authorizer;
- (19) Specifying that an authorizer must decide whether or not to renew a charter within forty-five days of the filing of a renewal application;
- (20) Adding language to clarify that the charter revocation and non-renewal process shall allow charter holders access to representation by counsel, subject to the requirements of section 28-8.3, Hawaii Revised Statutes;
- (21) Specifying that an authorizer shall report its action taken to renew, not renew, or revoke a charter to the Board within fifteen days of taking action;
- (22) Adding language to require that in the event of a public charter school closure for any reason, if the public charter school received an appropriation for capital improvements to its facilities, the charter school or its authorizer shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amounts appropriated, and requiring amounts received from the repayment to be deposited into the general fund;
- (23) Clarifying that in the event of a charter school's closure, other charter schools shall have the right of first refusal for the closed charter school's facilities if the facilities are owned by the State;
- (24) Adding language to authorize the Board to adopt administrative rules to govern charter transfers among authorizers;
- (25) Inserting a deadline of twenty days prior to the convening of each regular session of the Legislature by which the Board's annual report to the Governor, Legislature, and public shall be submitted;
- (26) Adding language to require that the Board's annual report shall include a discussion of all Board policies adopted in the previous year, including a detailed explanation as to whether each policy is or is not applicable to charter schools;
- (27) Changing the title of section 25 of the new charter school law to more accurately reflect the contents of the section;
- (28) Clarifying that charter schools and their employees, the State Public Charter School Commission (Commission) and its employees, and governing boards and their members shall be subject to the Ethics Code, chapter 84, Hawaii Revised Statutes;
- (29) Requiring charter schools to reimburse the Department of Education for the actual costs of administrative services rendered by the Department related to federal grants, subsidies, and supplemental grants in an amount not to exceed six percent of the charter school's federal grants, subsidies, or supplemental grants, whichever is appropriate;
- (30) Clarifying that no charter school may assess tuition;
- (31) Specifying that the maximum amount the Charter School Administrative Office may withhold for operational expenses is two percent of the annual charter school general fund allocation;
- (32) Clarifying that the salaries of the Charter School Administrative Office's Executive Director and staff shall be set by the Commission in accordance with chapter 89C, Hawaii Revised Statutes, rather than upon the recommendations of charter schools within the State, and with applicable law;
- (33) Adding language to clarify that the Charter School Administrative Office shall serve as the designated staff of the Commission;
- (34) Inserting language to make conforming amendments to section 302A-1302, Hawaii Revised Statutes, to require that beginning with fiscal year 2012-2013, and every year thereafter, each authorizer shall distribute the allocations due to each school it authorizes directly to the charter school;
- (35) Adding language to require that all rules, policies, procedures, guidelines, and other material adopted or developed by the Board to implement provisions of the Hawaii Revised Statutes that are made applicable to public charter schools prior to the effective date of this measure, remain in full force and effect until amended or repealed by the Board pursuant to chapter 91, Hawaii Revised Statutes;
- (36) Making this measure effective upon its approval; and
- (37) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2115, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2115, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 87-12 on S.B. No. 2766

The purpose of this measure is to update provisions in the Insurance Code relating to the regulation and administrative oversight of mutual benefit societies, fraternal benefit societies, and health maintenance organizations.

Your Committee on Conference finds that this measure clarifies the licensing and regulation process for mutual benefit societies, fraternal benefit societies, and health maintenance organizations by removing or revising certain provisions in the Insurance Code. This measure also establishes new fees to be paid by mutual benefit societies for the issuance, application, and renewal of a certificate of authority and the issuance of a certificate of registration. Presently, mutual benefit societies in the State pay no fees. Establishing these fees will promote parity between mutual benefit societies and the laws governing traditional insurance companies.

Although this measure also proposes to increase other existing fees associated with health maintenance organizations and fraternal benefit societies, your Committee on Conference notes that this measure's primary intent is to update the laws governing mutual benefit societies, fraternal benefit societies, and health maintenance organizations. Therefore, amendments to this measure are necessary.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Specifying the following fees to be paid by mutual benefit societies and collected by the Insurance Commissioner:
 - (A) \$150 for issuance of a certificate of authority;
 - (B) \$150 for filing of an application and documents required for issuance of a certificate of registration;
 - (C) \$150 for issuance of a certificate of registration; and
 - (D) \$150 for renewal of a certificate of authority;
- (2) Specifying a penalty of fifty percent of the fee for the renewal of a certificate of authority if the fee is not paid by a mutual benefit society before or on the renewal date;
- (3) Reverting to the existing statutory fee of \$7.50 for the filing of fraternal benefit societies' annual financial statements, rather than amending the fee;
- (4) Reverting to the existing statutory fee of \$7.50 for the annual licensing or renewal fee for a fraternal benefit society, rather than amending the fee;
- (5) Reverting to the following existing statutory fees to be paid by health maintenance organizations, rather than amending the fees:
 - (A) \$600 for filing an application for a certificate of authority or an amendment to a certificate of authority; and
 - (B) \$400 per year for renewal of a certificate of authority;
- (6) Inserting an effective date of July 1, 2012; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2766, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2766, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 88-12 on S.B. No. 2742

The purpose of this measure is to change the composition of the Hawaii Community Development Authority (HCDA), decrease the membership of HCDA to nine voting members for each established district, and allow HCDA to lease all or a portion of the real or personal property constituting a project in the Kakaako Community Development District, without recourse to public auction or public notice for sealed bids.

Your Committee on Conference finds that the HCDA has had difficulty achieving quorum. This measure amends the membership to ensure a timely decision making process. Furthermore, your Committee on Conference finds that the HCDA is tasked to implement long lasting change in the Kakaako Community Development District. However, the definition for a "redevelopment project" states

that the commercial use of a redevelopment project may only be incidental in nature. Accordingly, your Committee on Conference finds it necessary to provide greater flexibility to the HCDA.

Your Committee on Conference has amended this measure by:

- (1) Prohibiting the small business representatives on HCDA from voting on matters concerning Heeia Community Development District;
- (2) Permitting county members on HCDA to vote on and be considered in determining quorum and majority only on issues not relating to the Heeia Community Development District;
- (3) Requiring the Governor to appoint three additional voting members to the HCDA to represent the Heeia Community Development District; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2742, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2742, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Fukunaga, Galuteria, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 89-12 on S.B. No. 2238

The purpose of this measure is to:

- (1) Establish monetary awards for whistleblowers for certain actions that may result in a Department of Taxation action for violations of tax laws;
- (2) Prohibit penalties from being added to tax underpayments of misstatements and erroneous claims for refund or credit of amounts on which certain other penalties are already imposed;
- (3) Require that nonprofit organizations receive notice before denial of a general excise tax benefit; and
- (4) Limit liability of persons having control of certain amounts held in trust for nonprofit organizations.

Your Committee on Conference finds that the prohibitions on additional penalties in this measure have been incorporated in another measure, and your Committee on Conference has several concerns regarding the proposed whistleblower language. Your Committee on Conference further finds that nonprofit organization provisions in this measure address problems that arose following the enactment of Act 155, Session Laws of Hawaii 2010.

Your Committee on Conference has amended this measure accordingly, by:

- (1) Deleting the proposed language on monetary awards for whistleblowers;
- (2) Deleting the proposed language regarding the prohibitions on additional penalties for tax underpayments of misstatements and erroneous claims for refund or credit of amounts on which certain other penalties are already imposed;
- (3) Amending to the definition of “nonprofit organization” in section 237-41.5, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2012; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2238, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2238, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Ige and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Choy, Tsuji and Marumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Marumoto).

Conf. Com. Rep. 90-12 on S.B. No. 2383

The purpose of this measure is to support health care services by extending the authorization to issue special purpose revenue bonds to assist The Queen’s Health Systems with the renovation and expansion of its health care facilities to June 30, 2018.

Your Committee on Conference finds that this measure will enable The Queen's Health Systems to renovate or construct new health care facilities, acquire new equipment and assets, and install new technology in order to provide an improved level of vital health care services to the State.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2013, to comply with section 39A-37, Hawaii Revised Statutes, which establishes a five-year bond authorization limit.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2383, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2383, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Morikawa and Ching.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 91-12 on S.B. No. 2797

The purpose of this measure is to make permanent the provisions of Act 205, Session Laws of Hawaii 2010, that require an individual insured under QUEST, QUEST Expanded Access, or a fee-for-service program administered by the Department of Human Services to make two unsuccessful attempts at treatment with generic psychotropic medications before the Department of Human Services may cover a brand-name medication for a new prescription.

Your Committee on Conference finds that increasing numbers of people require treatment for mental health issues and that the cost of prescription psychotropic medications has increased substantially. Your Committee on Conference also finds that the use or attempt to use comparatively effective generic medications allows for cost-saving measures while preserving access to necessary treatment.

Your Committee on Conference has amended this measure by changing the effective date to June 29, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2797, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2797, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland, Ryan and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Mizuno, Yamane, Jordan, Morikawa and Pine.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Jordan).

Conf. Com. Rep. 92-12 on S.B. No. 2816

The purpose of this measure is to permit the Director of Health to adopt rules to provide that full accreditation by the Joint Commission on Accreditation of Healthcare Organizations demonstrates a hospital's compliance with all state-mandated licensing inspections for the duration of the accreditation.

Your Committee on Conference finds that accreditation and certification by the Joint Commission on Accreditation of Healthcare Organizations is a nationally recognized symbol of quality that reflects an organization's commitment to meeting advanced performance standards. This organization's accreditation survey is generally regarded as more thorough than a state's licensing survey, as the Joint Commission on Accreditation of Healthcare Organizations' standards are more regularly revised and updated to reflect the most current information, knowledge, and best practices regarding safe, effective, and quality care. Your Committee on Conference also finds that recognizing the Joint Commission on Accreditation of Healthcare Organizations' accreditation will allow staff and resources to be redeployed to attend to hospitals and health care facilities that do not have national accreditation.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2816, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2816, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Espero and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Espero).

Representatives Yamane, Morikawa, M. Lee and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 93-12 on S.B. No. 2821

The purpose of this measure is to reduce the incidence of preventable deaths to persons with developmental or intellectual disabilities by allowing the Department of Health to conduct multidisciplinary and multiagency mortality reviews of the death of such persons and authorizing the disclosure of information relevant to the review while mandating confidentiality for certain information obtained.

Your Committee on Conference finds that efforts to identify and address issues of care that are related to the death of an individual with a developmental or intellectual disability are critical to reducing preventable deaths.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2821, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2821, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Chun Oakland, Nishihara and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Yamane, Rhoads, Morikawa, Mizuno and Ching.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 94-12 on S.B. No. 2833

The purpose of this measure is to exempt domestic in-home and community-based services provided through state-funded medical assistance to Medicaid-ineligible individuals with developmental and intellectual disabilities from the Hawaii Prepaid Health Care Act and laws relating to unemployment insurance, workers' compensation, and temporary disability insurance.

Your Committee on Conference finds that this measure will allow individuals with developmental or intellectual disabilities greater access to needed services and increased flexibility in obtaining such services.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2833, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2833, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Hee, Chun Oakland and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Mizuno, Rhoads, Jordan, Yamashita and Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Jordan).

Conf. Com. Rep. 95-12 on S.B. No. 3006

The purpose of this measure is to establish a task force to study ways to prevent or control the problem of abandoned tires that litter the State.

Your Committee on Conference finds that the problem of illegal tire dumping is particularly evident in rural or isolated areas. Although organized cleanups may effectively clear the land, the results are often temporary, and refuse tires simply pile up once more. Consequently, your Committee on Conference finds that the generation of new and innovative ideas to address this problem is of critical importance.

Your Committee on Conference has amended this measure by:

- (1) Adding representatives from the Naval Facilities Engineering Command and Ka Wai Ola O Waianae to the membership of the task force; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3006, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3006, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Gabbard, Chun Oakland, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Slom).

Representatives Coffman, Kawakami, Awana, Jordan and Thielen.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 96-12 on S.B. No. 2737

The purpose of this measure is to:

- (1) Authorize the use of interactive conference technology to increase the ability of members of state and county boards and commissions and the public to participate in or attend board meetings; and
- (2) Clarify the requirements regarding the availability of visual aids where audio-only interactive conference technology is being used.

Your Committee on Conference finds that this measure will reduce the instances in which a board is unable to conduct business and the public is foreclosed from participating in government for lack of a quorum. As volunteers, most members of state and county boards and commissions have obligations that from time to time prevent them from attending a board meeting. More often, however, travel time to and from a board meeting is what keeps them from attending a meeting. Your Committee on Conference finds that this measure will allow board members to participate in their boards' meetings from locations closer to their homes, offices, or other locations.

Your Committee on Conference has amended this measure by:

- (1) Authorizing a board member with a disability that limits or impairs the member's ability to physically attend the meeting to participate in a board meeting from a location not accessible to the public; provided that the member with a disability is connected to other members of the board and the public by both visual and audio means, and the member identifies where the member is located and who, if anyone, is present at that location with the member;
- (2) Inserting an effective date of July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2737, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2737, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Hee and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Tokioka, Tsuji and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 97-12 on S.B. No. 2335

The purpose of this measure is to require the counties to concurrently process subdivision and special management area use permits under certain conditions to ensure that a special management area use permit is processed before final subdivision approval.

Your Committee on Conference finds that work on projects has been delayed or stalled due to special management area permitting requirements. There is a growing backlog on projects as a result of increasing amounts of minor construction projects and a shortage of county personnel in planning offices. This measure would expedite the process for the issuance of a special management area use permit and ensure the permit before final subdivision approval.

Your Committee on Conference has amended this measure by inserting an effective date of upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2335, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2335, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Solomon, Espero and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Chang, Coffman, Har, Kawakami and Riviere.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 98-12 on S.B. No. 2318

The purpose of this measure is to:

- (1) Adopt the Uniform Adult Guardianship and Protective Proceedings Jurisdiction Act to ensure that only one state has jurisdiction in a guardianship and protective proceeding at any one time;
- (2) Adopt guidelines to specify which court has jurisdiction to appoint a guardian or conservator for an incapacitated adult; and

- (3) Prioritize which state may proceed with a petition in an adult guardianship or protective proceeding in the case of simultaneous proceedings in more than one state.

Your Committee on Conference finds that due to increasing population mobility, cases involving simultaneous and conflicting jurisdiction over guardianship are increasing. Even when all parties are in agreement, steps such as transferring a guardianship to another state can require that the parties re-initiate the process of establishing guardianship in the second state.

Your Committee on Conference also finds this measure provides uniformity and reduces conflict among the states and that to date, thirty jurisdictions including the District of Columbia have adopted the Uniform Adult Guardianship and Protective Proceedings Jurisdiction Act, and eight others including Hawaii are considering adopting it this year.

Your Committee on Conference has amended this measure by changing the effective date to September 1, 2014.

Your Committee on Conference notes the Judiciary's general concern with regard to the potential unintended consequences of this measure, such as families and guardians being subjected to increased complexity and procedure and possible conflicting definitions between federal and state law. Therefore, your Committee on Conference urges the Chief Justice to establish, if deemed appropriate by the Chief Justice, a working group within the Judiciary to facilitate the implementation of this measure. If the working group is established, your Committee on Conference respectfully requests the Chief Justice to share a report of the working group's activities with the Legislature.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2318, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2318, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hee, Ihara and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Mizuno, Rhoads, Jordan, Cabanilla and Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. 99-12 on S.B. No. 2813

The purpose of this measure is to authorize the use of monies in the disability and communication access board special fund to defray, rather than cover, costs of administering chapter 348F, Hawaii Revised Statutes, and directing all monies collected as application fees or fees for continuing education units for the credentialing of interpreters to be deposited into the special fund.

Your Committee on Conference finds that with the decline of available general funds, the Disability and Communication Access Board is exploring other forms of revenue generation. This measure will broaden the funding sources for the disability and communication access board special fund, giving the Board additional means to defray costs of administering chapter 348F, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by changing the effective date from July 1, 2030, to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2813, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2813, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Yamane, M. Lee, Morikawa, Tokioka and Ching.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tokioka).

Conf. Com. Rep. 100-12 on S.B. No. 596

The purpose of this measure is to increase access by medically underserved resident populations to culturally appropriate primary health care services by appropriating funds to implement and sustain the rural interdisciplinary residency program at Hilo Medical Center.

Your Committee on Conference finds that Hawaii faces a primary health care provider shortage. The increasing costs of a medical education require physicians, physician assistants, and nurse practitioners to seek out high-salary jobs in order to repay their student loans. Unfortunately, rural areas are often unable to provide a competitive salary for such health care providers, resulting in the critical provider shortage that this measure seeks to address.

Your Committee on Conference has amended this measure by:

- (1) Amending the purpose section;
- (2) Inserting language to:

- (A) Establish the Hawaii health corps program, Hawaii rural health care provider loan repayment program, and the Hawaii health corps revolving fund;
- (B) Require the University of Hawaii at Manoa John A. Burns School of Medicine and University of Hawaii at Manoa School of Nursing and Dental Hygiene to report to the Legislature on the status of the Hawaii health corps program; and
- (C) Require the implementation of the Hawaii health corps program by June 30, 2013;
- (3) Deleting the appropriation that would have been used to implement and sustain the rural interdisciplinary residency program at Hilo Medical Center; and
- (4) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 596, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 596, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Tokuda and Ige.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Tokuda).

Representatives Yamane, Nishimoto, Morikawa, Nakashima, Saiki and Pine.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Nakashima, Saiki).

Conf. Com. Rep. 101-12 on S.B. No. 1083

The purpose of this measure is to appropriate funds for collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative for collective bargaining unit 7 and state officers and employees excluded from collective bargaining but belonging to the same compensation plans as those officers and employees within bargaining unit 7.

Your Committee on Conference finds that the University of Hawaii Professional Assembly and the University of Hawaii have reached an understanding relating to the "favored nations" provision on Hawaii employer-union health benefits trust fund contributions in the agreement concerning bargaining unit 7.

Accordingly, your Committee on Conference has amended this measure by adopting the language submitted by the Governor in Governor's Message No. 243 to:

- (1) Appropriate funds to the Hawaii employer-union healthy benefits trust fund (EUTF) necessary for fiscal biennium 2012-2013 to fund the EUTF costs contained in the supplemental agreement negotiated between the University of Hawaii and the exclusive bargaining representative of collective bargaining unit 7 as well as state officers and employees excluded from collective bargaining who belong to the same compensation plans as those officers and employees of collective bargaining unit 7;
- (2) Delete language that appropriates unspecified funds necessary for fiscal biennium 2011-2013 to satisfy salary increases and other cost adjustments in the agreement negotiated between the University of Hawaii and the exclusive bargaining representative of collective bargaining unit 7 for state officers and employees in bargaining unit 7 and their excluded counterparts;
- (3) Delete the severability clause;
- (4) Change the effective date to upon approval; and
- (5) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1083, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1083, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Representatives Rhoads, Oshiro and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 102-12 on S.B. No. 2158

The purpose of this measure is to authorize law enforcement agencies to accept cash bail, certified copies of pre-filed bail bonds, and original bail bonds when the court is closed, including nights, weekends, and holidays, to facilitate the prompt release of the detainee after bail is accepted.

Your Committee finds that if a person is taken into custody during non-regular business hours, such as during the night, weekend, or holiday, that person is not able to post bail because the courts are closed, even if the person possesses the bail amount at that time. Individuals are required to pay their bail amount at the courts only during regular business hours. Thus, even if a person who is

detained Friday night possesses the bail amount on Friday, that person will remain detained until Monday morning, when the court opens. This measure ensures the right to bail at all hours, not just during normal business hours.

Your Committee on Conference has amended this measure by:

- (1) Requiring rather than authorizing law enforcement agencies to accept cash bail, certified copies of pre-filed bail bonds, and original bail bonds when the court is closed; and
- (2) Changing the effective date to January 1, 2013, and adding a sunset date of January 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2158, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2158, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Har, Ito, Tokioka and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Ito, Tokioka).

Conf. Com. Rep. 103-12 on S.B. No. 2323

The purpose of this measure is to appropriate funds for collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative for registered professional nurses under bargaining unit 9 and state officers and employees excluded from collective bargaining but belonging to the same compensation plans as those officers and employees within bargaining unit 9.

Your Committee on Conference finds that the Hawaii Government Employees Association and the Department of Education have reached an understanding relating to “favored nations” provisions in agreements concerning bargaining units 2, 3, 4, 6, and 13.

Accordingly, your Committee on Conference has amended this measure by deleting its contents and adopting the language submitted by the Governor in Governor’s Message No. 240 to:

- (1) Appropriate funds necessary for fiscal biennium 2011-2013 to satisfy the salary increases and other cost adjustments relating to the “favored nations” provisions in the supplemental agreements negotiated between the Department of Education and the exclusive bargaining representative of collective bargaining units 2, 3, 4, 6, and 13 for employees of the Department of Education, including the Hawaii State Public Library System, and their excluded counterparts;
- (2) Appropriate funds to the Hawaii employer-union health benefits trust fund (EUTF) necessary for fiscal biennium 2012-2013 to fund the EUTF costs contained in the supplemental agreements negotiated between the Department of Education and the exclusive bargaining representative of collective bargaining unit 6 as well as state officers and employees excluded from collective bargaining who belong to the same compensation plans as those officers and employees of collective bargaining unit 6; and
- (3) Make this measure apply retroactively to July 1, 2011.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2323, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2323, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani and Shimabukuro.

Managers on the part of the Senate.

Conf. Com. Rep. 104-12 on S.B. No. 2324

The purpose of this measure is to provide a vehicle to fund all collective bargaining cost items in the agreements negotiated with the exclusive bargaining representative of public employees in bargaining units 2, 3, 4, 6, 8, and 13 and their excluded counterparts for fiscal year 2012-2013.

Your Committee on Conference finds that the Hawaii Government Employees Association and the state executive branch have reached an understanding relating to “favored nations” provisions in agreements concerning bargaining units 2, 3, 4, and 13.

Accordingly, your Committee on Conference has amended this measure by deleting its contents and adopting the language submitted by the Governor in Governor’s Message No. 241 to:

- (1) Appropriate funds necessary for fiscal biennium 2011-2013 to satisfy the salary increases and other cost adjustments relating to the “favored nations” provisions in the supplemental agreements negotiated between the state executive branch and the

exclusive bargaining representative of collective bargaining units 2, 3, 4, and 13 for state officers and employees in bargaining units 2, 3, 4, and 13 and their excluded counterparts in the state executive branch;

- (2) Appropriate funds to the Hawaii employer-union health benefits trust fund (EUTF) necessary for fiscal biennium 2012-2013 to fund the EUTF costs contained in the supplemental agreements negotiated between the state executive branch, Department of Education, and University of Hawaii and the exclusive bargaining representative of collective bargaining units 2, 3, 4, and 13 for state officers and employees in the state executive branch, Department of Education, and University of Hawaii in bargaining units 2, 3, 4, and 13 and their excluded counterparts; and
- (3) Appropriate funds necessary for fiscal biennium 2011-2013 to satisfy salary increases and other cost adjustments relating to the supplemental agreement negotiated between the state executive branch and the exclusive bargaining representative of collective bargaining units 2, 3, 4, and 13 for state officers and employees in bargaining units 2, 3, 4, and 13 and their excluded counterparts in the state executive branch; and
- (4) Make this measure apply retroactively to July 1, 2011.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2324, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2324, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani and Shimabukuro.
Managers on the part of the Senate.

Conf. Com. Rep. 105-12 on S.B. No. 2858

The purpose of this measure is to:

- (1) Establish a process for a state or county agency to seek judicial review by a circuit court of a decision rendered by the Office of Information Practices that directs the agency to disclose a requested record under the Uniform Information Practices Act or prohibits disclosure under the Sunshine Law;
- (2) Require a circuit court to consider the opinions and rulings of the Office of Information Practices as precedent unless found to be palpably erroneous; and
- (3) Specify that the opinion or ruling upholding the agency's denial of access to the requestor shall be reviewed de novo unless the action to compel disclosure was brought because an agency failed to make a record available as required under section 92F-15.5(b), Hawaii Revised Statutes, after the Office of Information Practices rendered a decision for disclosure and the agency did not appeal within thirty days of that decision.

Your Committee on Conference finds that the Uniform Information Practices Act allows members of the public whose record requests are denied by a government agency to have the Office of Information Practices review the agency's denial. However, the Uniform Information Practices Act does not provide a similar process for a government agency to file an action in circuit court to appeal an adverse decision rendered by the Office of Information Practices. Accordingly, this measure establishes a uniform process for a state or county agency to seek judicial review of a decision rendered by the Office of Information Practices that directs the agency to disclose a requested record.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a government agency may file a complaint to seek judicial review of the final decision rendered by the Office of Information Practices in the circuit court where the request for access to a record was made, the prohibited act occurred, or the agency's principal place of business is located;
- (2) Clarifying that a government agency may not appeal a decision made by the Office of Information Practices unless the agency follows the established appeals process established by this measure;
- (3) Changing the effective date to January 1, 2013; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2858, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2858, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Har, Tokioka and Riviere.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tokioka).

Conf. Com. Rep. 106-12 on S.B. No. 3001

The purpose of this measure is to:

- (1) Prohibit the intentional, knowing, or reckless transfer, transport, and release after interisland transport of any wild or feral deer;
- (2) Allow specimens of wild or feral deer required for scientific or educational purposes to be transported only when authorized under a permit issued by the Department of Land and Natural Resources or other state department;
- (3) Exclude non-feral domestic animals as referenced in section 142-68, Hawaii Revised Statutes, from the prohibition;
- (4) Clarify that a deer that has been captured is no longer considered feral;
- (5) Provide definitions for “feral” and “release”; and
- (6) Establish mandatory fines for violations.

Your Committee on Conference finds that the introduction of non-native species to the State has a negative effect on Hawaii’s environment and indigenous species in a variety of ways. While many introductions of non-native species are accidental, others may be purposeful. Axis Deer are causing great damage to native habitats and agricultural crops on Maui and are a danger to vehicular traffic on roadways. This measure provides a deterrent to the purposeful spread of wild or feral deer within the State and establishes penalties for the interisland transportation of wild or feral deer.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the prohibitions apply to live wild or feral deer;
- (2) Expanding the scope of the offense and its associated penalties to possession of a live wild or feral deer;
- (3) Allowing the interisland transportation and possession of live wild or feral deer only if permitted by the Department of Land and Natural Resources or other department of the State;
- (4) Deleting language that:
 - (A) Allows specimens of wild or feral deer required for scientific or educational purposes to be transported only when authorized under a permit issued by the Department of Land and Natural Resources or other state department;
 - (B) Exempts non-feral domestic animals as referenced in section 142-68, Hawaii Revised Statutes, from the offense; and
 - (C) Establishes that once a deer has been captured that deer is no longer considered feral;
- (5) Adding a definition for “possess”;
- (6) Changing the effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3001, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3001, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani, Kahele and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Chang, Keith-Agaran, Har and Riviere.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 107-12 on S.B. No. 1269

The purpose of this measure is to revise the method of computing the Employees’ Retirement System pension benefits for employees hired after June 30, 2011, and keeping the existing computation method for employees hired before July 1, 2011. Specifically, this measure defines “compensation” for employees hired after June 30, 2011, as:

- (1) The normal periodic payments of money for service, shortage differentials, elective salary reduction contributions, and twelve-month differentials for Department of Education employees; and
- (2) Excluding additional or extra payments, including overtime, bonuses, supplementary payments, lump sum salary supplements, allowances, or differentials, not expressly authorized in statute.

Your Committee on Conference finds that this measure addresses the unfunded liability of the Employees’ Retirement System and is an important step in improving its long-term viability.

Your Committee on Conference has amended this measure by:

- (1) Updating year references throughout the measure to 2012, so that the provisions apply to employees hired before July 1, 2012, and employees hired after June 30, 2012;

- (2) Replacing references to “employee” with “member” to align with existing statutory language;
- (3) Changing the effective date to June 30, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1269, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1269, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Shimabukuro, Ige and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Rhoads, Oshiro, Yamashita and Fontaine.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 108-12 on S.B. No. 2214

The purpose of this measure is to:

- (1) Clarify that a public employer and an exclusive representative shall negotiate the state and county contribution amounts to the Hawaii employer-union health benefits trust fund for health benefit plans and group life insurance benefits for active employees;
- (2) Remove the prohibition against applying the arbitration procedures of section 89-11, Hawaii Revised Statutes, to resolve impasses or disputes relating to contributions to the Hawaii employer-union health benefits trust fund;
- (3) Establish that a decision of an arbitration panel is final and binding when the parties cannot reach an agreement with respect to the amounts of contributions paid by the State to the Hawaii employer-union health benefits trust fund;
- (4) Repeal the legislative relief option to determine public sector health benefits contributions when an impasse exists regarding the negotiation of state cost issues; and
- (5) Repeal the prohibition against striking over the issue of public sector health benefits contributions.

Your Committee on Conference finds that the existing collective bargaining laws lack an efficient dispute resolution procedure to resolve disagreements over contributions to the Hawaii employer-union health benefits trust fund. Existing law requires that the Legislature determine the pro rata share of each party if the employer and exclusive representative cannot agree on the amount of contributions. This measure will allow disputes over contributions to be resolved through impasse procedures, similar to other negotiable items, including a public employee’s right to strike.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2214, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2214, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Rhoads, Oshiro, Yamashita and Johanson.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 109-12 on S.B. No. 2576

The purpose of this measure is to:

- (1) Authorize a person convicted of committing the offense of prostitution to file a motion to vacate the conviction under certain circumstances;
- (2) Establish procedures for the motion to vacate judgment; and
- (3) Increase the mandatory fines for the offense of prostitution.

Your Committee on Conference finds that human trafficking, consisting of the subjugation, recruitment, harboring, or transportation of people for the purpose of forced labor or services, or commercial sexual exploitation, is one of the fastest growing criminal industries. This measure assists in combating human trafficking by allowing trafficking victims who were forced into prostitution to file a motion to have their prostitution convictions vacated from their records.

Your Committee on Conference has amended this measure by:

- (1) Changing references from motion to vacate judgment to motion to vacate conviction;

- (2) Adding language to require that the filed motion to vacate a prostitution conviction shall be subject to the review and written approval of the state agency or county prosecutor responsible for prosecuting the offense that is the subject of the motion to vacate conviction;
- (3) Deleting language that requires official documentation of the defendant's status as a victim of trafficking or severe form of trafficking to create a presumption that the defendant's participation in prostitution was a result of being a victim of trafficking;
- (4) Deleting the definition for "official documentation";
- (5) Amending the language in section 712-1200(4), Hawaii Revised Statutes, that established a mandatory fine of \$1,000 for the commission of the first and any subsequent offense of prostitution to establish instead a minimum fine of \$500 for the commission of the first and any subsequent offense of prostitution;
- (6) Changing the effective date to July 1, 2012; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2576, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2576, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 110-12 on S.B. No. 2378

The purpose of this measure is to:

- (1) Require nonprofit land conservation organizations to provide, in addition to a conservation easement, a deed restriction or covenant that shall run with the land to ensure the long-term protection of the land and preserve the interests of the State, as a condition to the receipt of land conservation funds;
- (2) Require the Board of Land and Natural Resources to be made a full or partial owner of any conservation easement provided as a condition for receipt of land conservation funds but allow the Board to exempt any easement required pursuant to this measure; and
- (3) Require applications for land conservation funds to include the project's public benefit and the results of the consultations with specified state departments and agencies regarding the maximization of public benefits of the project, if practical.

Your Committee on Conference finds that the legacy land program has funded a variety of positive environmental, cultural, historical, and agricultural land protection projects supported by state agencies, counties, and nonprofits. This measure establishes safeguards to ensure that legacy lands are preserved for their intended purposes.

Your Committee on Conference has amended this measure by:

- (1) Requiring nonprofit land conservation organizations to provide an agricultural easement deed restriction or covenant, or a conservation easement, rather than both, as a condition to the receipt of land conservation funds;
- (2) Adding the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, and Public Land Development Corporation to the entities that may be granted easements by state or county agencies and nonprofit land conservation organizations receiving land conservation funds;
- (3) Allowing land conservation organizations or county, state, or federal agencies required to be provided easements as a condition of the receipt of land conservation funds to also exempt any easement required pursuant to this measure;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2378, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2378, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 111-12 on H.B. No. 1879

The purpose of this bill is to:

- (1) Extend until June 30, 2014, the sunset provision in section 5 of Act 72, Session Laws of Hawaii (SLH) 2009, that exempts pest control operators' activities from the definition of "excavation";
- (2) Amend the definition of "excavation" to exclude any pest control activity regulated under chapter 460J, Hawaii Revised Statutes (HRS), that is not performed under contract with any county or state agency;
- (3) Direct the Public Utilities Commission (PUC) to require any operator exempt from the requirements of the One Call Center (Center) to participate in training seminars provided by the Center for education on excavation requirements and best practices; and
- (4) Require the PUC to:
 - (A) Conduct an investigation assessing the risk of residential pest control application; and
 - (B) Submit to the Legislature a report of its findings and recommendations prior to the Regular Session of 2014.

Your Committee on Conference has amended this bill by:

- (1) Amending the definition of "excavation" to exclude any pest control activity involving excavation regulated under chapter 460J, HRS, that is not performed under contract with any county or state agency;
- (2) Specifying that the training seminars in which the PUC must require exempt operators to participate be either provided or approved by the Center;
- (3) Extending until June 30, 2015, the sunset provision in section 5 of Act 72, SLH 2009;
- (4) Changing the effective date to June 29, 2012; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1879, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1879, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 112-12 on H.B. No. 1617

The purpose of this measure is to:

- (1) Provide fair compensation to lessees of public lands when a withdrawal or taking of leased land renders the land unusable for the lessees' original intended purposes; and
- (2) Transfer the parcels of land identified by tax map key numbers (1) 9-4-012:001, (1) 9-4-012:002, and (1) 9-4-012:003 to the Agribusiness Development Corporation no later than January 1, 2013.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Board of Land and Natural Resources to authorize the extension of commercial, hotel, resort, and industrial leases for lessees' substantial improvement to the leased premises;
- (2) Deleting the provisions relating to the transfer of specified parcels to the Agribusiness Development Corporation;
- (3) Changing the effective date to July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1617, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1617, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 113-12 on H.B. No. 1972

The purpose of this measure is to clarify the basis for, and limit the amount of, fees charged for services rendered by the State Historic Preservation Division of the Department of Land and Natural Resources. Specifically, this measure:

- (1) Limits the fees charged by the comprehensive historic preservation program to those that are proportional to the complexity of the services being provided and that do not exceed the annual operating costs of the program; and
- (2) Directs the State Historic Preservation Division to develop signage for the State's cultural and historic resources.

Your Committee on Conference amended this measure by changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1972, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1972, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 114-12 on H.B. No. 280

The purpose of this measure is to address economic challenges facing the state coffee certification program while preserving the integrity of Hawaii's coffee industry.

Specifically, the measure effectuates this purpose by:

- (1) Repealing the requirement that all Hawaii-grown green coffee beans be inspected and certified by the Department of Agriculture (DOA) for grade and origin unless otherwise provided by department rules, and instead authorizing DOA to adopt administrative rules relating to the inspection and certification of the geographic origin of Hawaii-grown green coffee beans;
- (2) Prohibiting the shipment of Hawaii-grown coffee beans outside the area of their geographic origin unless the packaging has been marked with or contains documentation of geographic origin approved by DOA; and
- (3) Making the offense of false labeling of Hawaii-grown coffee with regard to the geographic origin of the coffee a class C felony.

Your Committee on Conference has amended this measure by:

- (1) Adding cherry and parchment coffee to the offense of false labeling, in addition to Hawaii-grown green coffee;
- (2) Adding two new definitions for "cherry coffee" and "parchment coffee";
- (3) Specifying that the penalties, remedies, procedures, and actions relating to the State's agricultural commodities grades and standards law shall not prohibit the county police departments and county prosecutors or state law enforcement agencies from investigating and enforcing criminal violations of Chapter 147, Hawaii Revised Statutes, relating to grades and standards for agricultural commodities and animals; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 280, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 280, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 115-12 on H.B. No. 2487

The purpose of this measure is to clarify and adjust pension benefit calculations of the Employees' Retirement System. More specifically, this measure, among other things:

- (1) Harmonizes ordinary disability and ordinary death benefits for new members of the Employees' Retirement System with their service retirement benefits by:

- (A) Deleting water safety officers from the list of individuals who join the Employees' Retirement System as contributory members after June 30, 2012, because officers becoming members after June 30, 2012, are hybrid plan members;
 - (B) Applying the same benefit multiplier for service retirement benefits and ordinary disability benefits for hybrid plan members who become members of the Employees' Retirement System after June 30, 2012; and
 - (C) Making the service requirement for payment of the hybrid plan hypothetical account balance as an ordinary death benefit for an individual who becomes a member after June 30, 2012, the same as the service requirement for an inter vivos withdrawal by the member after the member has terminated service; and
- (2) Prevents unexpected increases in pension benefits and in the unfunded actuarial accrued liability of the Employees' Retirement System by:
- (A) Limiting the amount of compensation included in "average final compensation"; and
 - (B) Requiring employers to pay the additional costs resulting from spiking.

Your Committee on Conference has amended this measure by, among other things:

- (1) Changing the term "spiking" to "significant non-base pay increases";
- (2) Stipulating that the additional contributions paid by the employers shall be payable through an established method;
- (3) Establishing the method for additional contributions required to be paid by employers for costs associated with significant non-base pay increases;
- (4) Deleting certain criteria that limited the amount of compensation included in the average final compensation of Employees' Retirement System members by excluding from the calculation of average final compensation late career spikes in an employee's compensation attributable to non-base pay compensation, such as overtime;
- (5) Changing its effective date to July 1, 2012; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2487, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2487, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 116-12 on H.B. No. 609

The purpose of this measure is to provide for the health care needs of the community by:

- (1) Authorizing Hawaii Health Systems Corporation to bring the Hawaii Medical Center-East facility under its governance through formal affiliation or acquisition; and
- (2) Appropriating funds to carry out the purpose of the measure, including the hiring or contracting of staff.

Your Committee on Conference has amended this measure by:

- (1) Codifying the provisions in the measure into the Hawaii Revised Statutes, rather than as uncodified session law material;
- (2) Deleting the appropriation;
- (3) Changing the effective date to take effect upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 609, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 609, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 117-12 on H.B. No. 2248

The purpose of this measure is to support higher education in the State by authorizing the issuance of up to \$120,000,000 in special purpose revenue bonds to assist Hawaii Pacific University and one or more of its not-for-profit affiliates to finance, refinance, and reimburse costs related to the planning, acquisition, and construction of various capital projects.

Your Committee on Conference has amended this measure by:

- (1) Removing language specifying that the Department of Budget and Finance, in determining whether to issue special purpose revenue bonds authorized by this measure, shall comply with federal law relating to the exemption from federal income taxation of the interest on such bonds only to the extent practicable;
- (2) Removing language specifying that interest on bonds issued under this measure may be excluded from or included in gross income for federal income tax purposes; and
- (3) Making technical, nonsubstantive amendments for consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2248, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2248, H.D. 2, S.D. 2, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Saiki).

Conf. Com. Rep. 118-12 on H.B. No. 2626

The purpose of this measure is to enhance traffic safety around Hawaii's schools and enable and encourage children to walk and bicycle to school by statutorily establishing the Safe Routes to School Program introduced under Act 100, Session Laws of Hawaii 2009. This measure also establishes:

- (1) The Safe Routes to School Program Special Fund; and
- (2) A Safe Routes to School Program surcharge of:
 - (A) \$10 on all moving violations; and
 - (B) \$25 on violations involving speeding in a school zone.

Traffic congestion continues to increase around Hawaii's schools. This in turn causes parents, who worry about the safety of their children, to drive their children to school, causing even more congestion around schools and increasing safety risks for students. Evaluating the modes of transportation students currently use to get to school and conducting various workshops and community-based meetings to promote alternative methods of transportation to school will not only alleviate traffic congestion but also increase student safety.

Your Committee on Conference finds that 38 schools in the State have safe routes to school programs that are extremely successful in increasing the number of children walking and biking to school. This measure will make the Safe Routes to School Program permanent and available to children throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language appropriating \$250,000 out of the Safe Routes to School Program Special Fund for use by the Department of Transportation for the Safe Routes to School Program;
- (2) Changing its effective date to September 1, 2012; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2626, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2626, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Kidani.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Souki, Ichiyama, Kawakami and Fontaine.
Managers on the part of the House.

Conf. Com. Rep. 119-12 on H.B. No. 2495

The purpose of this measure is to provide for employer contribution amounts for the Hawaii Employer-Union Health Benefits Trust Fund health benefit plan premiums for plan years 2011-2012 and 2012-2013 for employees of Collective Bargaining Unit (11) and for state officers and employees excluded from Collective Bargaining Unit (11).

According to the Office of the Governor, a settlement has been reached for salary increases and other cost adjustments related to "favored nations" provisions in a supplemental agreement negotiated between the University of Hawaii and the exclusive bargaining representative of collective bargaining units (2), (3), (4), and (8) for employees of the University of Hawaii. Accordingly, your Committee on Conference has amended this measure by deleting its contents and replacing it with language that appropriates or authorizes funds to be used for:

- (1) Salary increases and other cost adjustments related to "favored nation" provisions in the supplemental agreement negotiated between the University of Hawaii and the exclusive bargaining representative of collective bargaining units (2), (3), (4), and (8) for employees of the University of Hawaii, and their excluded counterparts, for fiscal biennium 2011-2013; and
- (2) Hawaii employer-union health benefits trust fund costs related to "favored nation" provisions contained in the supplemental agreement negotiated between the University of Hawaii and the exclusive bargaining representative of collective bargaining unit (8), and their excluded counterparts, for fiscal biennium 2011-2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2495, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2495, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 120-12 on H.B. No. 2569

The purpose of this measure is to reconfirm and clarify the original intent of the Hawaii civil union laws enacted by Act 1, Session Laws of Hawaii 2011, by, among other things:

- (1) Clarifying that two individuals who are married, partners to a civil union, or reciprocal beneficiaries and hold property as tenants by the entirety will maintain continuous ownership as tenants by the entirety when they change their legal relationship status under specified conditions;
- (2) Establishing that if two reciprocal beneficiaries enter into a civil union with one another, their rights, benefits, protections, or responsibilities as reciprocal beneficiaries will be continuous through the time they enter into the civil union and be deemed to have accrued from the first date those rights and responsibilities existed under the reciprocal beneficiary relationship if the couple terminates their reciprocal beneficiary relationship simultaneously with their entry into their civil union or terminates within ninety days prior to their entry into a civil union;
- (3) Clarifying that the rights, benefits, protections, or responsibilities created by the solemnization of a civil union that were not included within a reciprocal beneficiary relationship are to be recognized as of the date the civil union was solemnized;
- (4) Clarifying the statutory requirements for a valid marriage contract and to enter into a valid civil union;
- (5) Clarifying the statutory requirements for the solemnization of a civil union, including which persons are authorized to solemnize a civil union and the reporting requirements of a civil union solemnization;
- (6) Clarifying that legal unions validly performed in other state jurisdictions that are substantially that are equivalent to a civil union in this State will be treated the same as civil unions entered into in this State;
- (7) Clarifying that a person may not enter into a reciprocal beneficiary relationship if the person is already in a civil union, and that a reciprocal beneficiary relationship will automatically terminate when either party enters into a marriage, civil union, or an out-of-state union recognized by law as a marriage or civil union in the State;
- (8) Authorizing a change of name upon entering into a civil union;
- (9) Confirming that the Family Court has jurisdiction over the divorce, annulment, and separation of a union that is recognized as a civil union in this State;
- (10) Allowing couples who terminated their reciprocal beneficiary relationships after October 3, 2011, but before the effective date of this Act, and subsequently entered into civil unions no later than ninety days after their reciprocal beneficiary relationships terminated to have their rights held in the reciprocal beneficiary relationships carry over, uninterrupted into their civil unions; and
- (11) Allowing certain reciprocal beneficiaries who, prior to the effective date of section 17, enter into a legal union in another jurisdiction that is not marriage as recognized in Hawaii but is equivalent to a civil union under Hawaii law, to have their legal union recognized as a civil union.

Your Committee on Conference has amended this measure by:

- (1) Simplifying Section 1 of this measure to emphasize the legislature's intent to reconfirm and clarify the provisions of chapter 572B, Hawaii Revised Statutes, as enacted by Act 1, Session Laws of Hawaii 2011;
- (2) Including a provision relating to a liability exemption under certain circumstances for religious organizations and religious facilities; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2569, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2569, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 121-12 on H.B. No. 2476

The purpose of this measure is to appropriate funds to satisfy various claims against the State, its officers, or its employees for overpayment of taxes, refunds, reimbursements, payments of judgments or settlements, and other claims.

Your Committee on Conference has amended this measure by:

- (1) Adding two additional claims against the State of Hawaii, as follows:
 - (A) *Matsumura v. Board of Trustees of the Employees' Retirement System of the State of Hawaii*, CAAP-11-0000106, a settlement in the amount of \$120,000.00; and
 - (B) *Tagaca v. State of Hawaii*, Civil No. 09-1-2098-09, First Circuit, a settlement in the amount of \$35,000; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2476, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2476, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 122-12 on H.B. No. 2848

The purpose of this measure is to reduce recidivism for criminal offenders by employing native Hawaiian cultural practices and other innovations to effectuate this objective.

Specifically, the measure:

- (1) Requires the Department of Public Safety to prepare a plan to create a pu'uhonua, or wellness center, that incorporates native Hawaiian cultural practices; and
- (2) Creates a pilot program to allow certain incarcerated individuals on Hawaii Island to work in the community on projects that benefit the local community and the State.

Your Committee on Conference has amended this measure by:

- (1) Making this measure effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2848, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2848, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, 1 (Kidani).

Representatives Aquino, Hanohano, Chang, Cullen, Nakashima, Tsuji and Fontaine.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Fontaine).

Conf. Com. Rep. 123-12 on H.B. No. 1974

The purpose of this measure is to temporarily remove the residency requirements for the burial of members of the armed services and certain members of their family. This measure also establishes criteria consistent with the United States Department of Veterans Affairs eligibility requirements for burial in a national or state cemetery.

Your Committee on Conference has amended this measure by:

- (1) Repealing established statutory language allowing for the burial of nonresident servicemen and dependents at the discretion of the legislative bodies of the respective counties;
- (2) Changing the effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1974, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1974, H.D. 2, S.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 124-12 on H.B. No. 2664

The purpose of this measure is to establish a public-private partnership to research, develop, and implement a model and system of collaborative health care delivery in counties with a certain population range that addresses the coordination of care across the spectrum of care, from acute, to skilled nursing facility, to home.

Your Committee on Conference has amended this measure by:

- (1) Referring to the county in which the public-private partnership will be established as a county that encompasses at least three islands inhabited by permanent residents, rather than a county with a population between 100,000 and 170,000;
- (2) Deleting the appropriation from the measure; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2664, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2664, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker, Chun Oakland and Slom.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 125-12 on H.B. No. 2275

The purpose of this measure is to ensure access to health care for Medicaid recipients by establishing:

- (1) A hospital sustainability fee to be assessed on inpatient services provided by hospitals; and
- (2) A hospital sustainability program special fund to receive moneys from the hospital sustainability fee,

which will make Hawaii eligible to receive federal matching funds to preserve access to health care for the State's Medicaid population and sustain its health care system.

Your Committee on Conference notes that this measure will help stabilize Medicaid payments to facilities and help financially sustain Hawaii's hospitals for care delivered to Medicaid recipients.

Your Committee on Conference has amended this measure by, among other things:

- (1) Specifying that state hospitals will not be covered by the hospital sustainability fee, but will benefit from the use of their certified expenditures and intergovernmental transfers to generate federal funds to cover their operating expenses;

- (2) Clarifying that the hospital sustainability fee will be assessed on health care items or services provided by private hospitals;
- (3) Specifying that the Department of Human Services (DHS) will administer the hospital sustainability program, including the hospital sustainability fee and the hospital sustainability program special fund;
- (4) Defining "outpatient care";
- (5) Specifying that federal Medicaid funds received as matching funds for state expenditures shall be deposited into the hospital sustainability program special fund;
- (6) Specifying the exclusive allowable uses of the hospital sustainability program special fund moneys, including the allocation of:
 - (A) At least 93 percent of the moneys for direct payments to private hospitals for allowable uncompensated care costs;
 - (B) Two percent of the moneys for Medicaid covered services for the benefit of hospitals; and
 - (C) Five percent of the moneys to DHS for other departmental purposes;
- (7) Specifying allowable uses of federal funds derived from the state hospital certified expenditures and intergovernmental transfers;
- (8) Establishing a ceiling appropriation for the hospital sustainability program special fund;
- (9) Providing that the hospital sustainability fee will be assessed on outpatient care, as well as inpatient care services provided by private hospitals;
- (10) Setting forth parameters of the hospital sustainability fee for inpatient and outpatient care services;
- (11) Exempting hospitals with net outpatient revenue of less than \$45,000,000 per year based on fiscal year 2010 reports from the hospital sustainability fee on outpatient care services;
- (12) Clarifying how the sustainability fee assessments will be collected;
- (13) Establishing a penalty equal to prime plus two percent of the hospital sustainability fee to be assessed upon nonpayment of the fee when due;
- (14) Setting forth how private hospital payments will be made, which includes specifying that payments shall not be due until at least 15 days after receipt of the fees required under the fee assessment provisions and that a penalty shall be assessed for DHS's failure to pay the full amount when due;
- (15) Specifying that moneys in the hospital sustainability program special fund shall be used exclusively for purposes enumerated in this measure;
- (16) Specifying that the hospital sustainability program special fund shall not be responsible for its pro rata share of the administrative expenses incurred by DHS for operations of the special fund;
- (17) Preserving the effectiveness of the section of the measure relating to exclusive use of the hospital sustainability program special fund beyond the effective date of this measure to accommodate the final distribution of moneys in the special fund after the expiration of the hospital sustainability program; and
- (18) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2275, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2275, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Jordan).

Conf. Com. Rep. 126-12 on S.B. No. 2739

The purpose of this measure is to authorize the Small Business Regulatory Review Board to require an agency to conduct another public hearing on a rule change when the rulemaking agency declines to make changes requested at the first hearing and the agency's small business statement, submitted after the hearing, indicates inconsistency with the agency's earlier determination or does not address the public's concerns.

Your Committee on Conference finds that this measure would address concerns raised by the Small Business Regulatory Review Board regarding the lack of cooperation the Board sometimes encounters regarding an agency's response to the requirements of chapter 201M, Hawaii Revised Statutes. However, your Committee on Conference is also concerned that this measure could delay the adoption of rules that are critical to an agency's ability to perform its duties according to law.

Your Committee on Conference further finds that the size and lack of specific membership requirements for the Small Business Regulatory Review Board hampers the Board's ability to meet its statutory obligations.

Your Committee on Conference has amended this measure accordingly, by:

- (1) Deleting the authorization for the Small Business Regulatory Review Board to require another public hearing on a rule change;
- (2) Authorizing the Small Business Regulatory Review Board with good cause to request a written response from the agency explaining the rationale used to deny the public concerns within ten working days of receipt of the small business statement after public hearing, and requiring the agency to respond in writing to the board's concerns within ten working days;
- (3) Requiring an agency's written response to specifically address each issue and concern raised in the board's request for a written response, and affirmatively state that the agency has considered all written and oral testimony received at the agency's public hearing and had addressed all issues or concerns raised in the written and oral testimony;
- (4) Reducing the size of the board from eleven to nine members, with three members appointed from a list of nominees submitted by the President of the Senate, and three members appointed from a list of nominees submitted by the Speaker of the House of Representatives, from nominations solicited from small business organizations, state and county chambers of commerce, and other interested business organizations; and two members appointed by the Governor; with the Director of Business, Economic Development, and Tourism, or the Director's designated representative, to serve as an ex officio voting member of the board; and requiring at least one representative from each county;
- (5) Requiring each agency to notify the board on an annual basis of any rules that should be amended or repealed based on any new, amended, or repealed statute;
- (6) Inserting an effective date of July 1, 2012; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2739, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2739, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Baker, Espero, Wakai and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Espero, Slom).

Conf. Com. Rep. 127-12 on S.B. No. 2239

The purpose of this measure is to:

- (1) Establish a venture accelerator funding program under the Hawaii Strategic Development Corporation to assist the State's technology businesses to compete for investment capital; and
- (2) Appropriate unspecified funds for fiscal year 2012-2013 as a grant pursuant to chapter 42F, Hawaii Revised Statutes, for a venture accelerator funding program; provided that up to \$250,000 shall be expended for project oversight of program awardees.

Your Committee on Conference finds that the venture accelerator funding program in this measure is also contained in a separate measure, and has therefore amended this measure by deleting its contents and replacing them with the language in S.B. No. 2239, S.D. 1, which:

- (1) Exempts grants made under the community-based economic development program from the Hawaii public procurement code;
- (2) Clarifies that monies in the hydrogen investment capital special fund shall be expended by the Hawaii Strategic Development Corporation; and
- (3) Repeals the High Technology Innovation Corporation; and
- (4) Inserts an effective date of upon approval.

Your Committee on Conference has further amended this measure by delaying the repeal of the High Technology Innovation Corporation to June 30, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2239, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2239, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Espero and Ryan.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ryan).

Representatives McKelvey, Coffman, Choy, Yamashita and Marumoto.

Conf. Com. Rep. 128-12 on S.B. No. 2927

The purpose of this measure is to prevent urban sprawl and facilitate development in appropriate areas by:

- (1) Establishing planning districts and creating a process for developers to apply for residential and commercial exceptional planning projects;
- (2) Establishing the transit-oriented or main-street redevelopment program;
- (3) Authorizing state and county incentives for exceptional planning projects; and
- (4) Establishing a discretionary review process for the transfer of floor area within the planning district.

Your Committee on Conference finds it necessary for the State to streamline its efforts and implement ideas that would result in reasonable, rational, and equitable land use planning. Existing laws contain unnecessary and oftentimes burdensome requirements that lengthen the process of worthy development projects. This measure would provide for a more timely and efficient process for the development of Hawaii's lands within appropriate locations and prevent urban sprawl.

Your Committee on Conference has amended this measure by:

- (1) Adding a purpose section;
- (2) Renaming the term "exceptional planning project" as "qualified project" and making conforming amendments;
- (3) Adding a definition of "qualified project" or "project";
- (4) Restricting the establishment of planning districts that consist of a transit-oriented development to counties with a population of five hundred thousand or more;
- (5) Restricting the establishment of planning districts that consist of a transit-oriented development near bus transit stations or centers to locations within the county development or sustainable counties plans for Ewa, Central Oahu, and the Primary Urban Center;
- (6) Adding Pearl Highlands to the list of rail transit stations near which a transit-oriented development exists that authorizes the establishment of a planning district;
- (7) Renaming the "transit-oriented or main-street redevelopment program" as the "transit-oriented or main-street redevelopment district program" and making conforming amendments;
- (8) Deleting the indemnity provision;
- (9) Requiring contractors or subcontractors to be pre-qualified by demonstrating at least three years of experience in Hawaii on similar projects;
- (10) Deleting the legislative approval requirement for qualified projects to receive state incentives;
- (11) Authorizing state incentives for qualified projects established in planning districts, subject to rules;
- (12) Inserting language to require the transit ridership study to be included in a qualified project application to demonstrate the need for development by determining factors that will achieve overall land use density that is consistent with existing county general plans and state plans;
- (13) Restricting receiving sites of floor area ratio transfers to sites only within planning districts that consist of a transit-oriented development within a radius of a rail transit station located at east Kapolei, the University of Hawaii West Oahu, West Loch, Waipahu, Leeward Community College, or Pearl Highlands;
- (14) Authorizing the Office of Planning to hire two temporary positions under certain conditions;
- (15) Appropriating \$250,000 provided by the Honolulu Authority for Rapid Transportation for two temporary positions in the Office of Planning;
- (16) Adding a severability clause;
- (17) Inserting an effective date of July 1, 2012; and
- (18) Making technical, nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2927, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2927, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Solomon, Ige, Fukunaga and Kouchi.

Conf. Com. Rep. 129-12 on S.B. No. 2466

The purpose of this measure is to ensure access to health care for Medicaid recipients by establishing a nursing facility sustainability fee and a special fund to receive monies from the nursing facility sustainability fee in order to receive federal Medicaid matching funds under the QUEST Expanded Medicaid Section 1115 Demonstration Waiver.

Your Committee on Conference finds that provider assessments are commonly used to generate revenue for a state by leveraging federal funds through Medicaid. The revenue generated by this measure will ensure long-term facilities will be fully compensated for their uncompensated or under compensated services to Medicaid patients and the uninsured, and assist the State and the Department of Human Services (DHS) in maintaining and providing medical assistance to those who require assistance.

Your Committee on Conference notes the Department of Human Services' request that state long-term care facilities be exempt from the nursing facility sustainability fee program. Your Committee on Conference also notes that although DHS and the nursing facilities agree on the concept of the nursing facility sustainability fee program, this measure, as currently drafted, does not address all stakeholders' concerns.

Your Committee on Conference has therefore amended this measure by:

- (1) Adding language to explain that state long-term care facilities shall not be covered by the nursing facility sustainability fee although state facilities will benefit from other provisions of this measure;
- (2) Adding language that allows monies in the special fund to include all federal Medicaid funds received by DHS as a result of matching expenditures made with the nursing facility sustainability fee;
- (3) Amending the requirements for the use of the revenue from the nursing facility sustainability fee, including the percentage of the revenue to be used for specific purposes;
- (4) Authorizing DHS to utilize other resources to make supplemental payments or support increased capitation rates to health plans to benefit long-term care facilities;
- (5) Prohibits the use of certified expenditures of state long-term care facilities to make or support direct payments to private nursing facilities during any period in which the nursing facility sustainability fee is in effect;
- (6) Establishes a nursing facility sustainability program special fund ceiling appropriation of \$12,000,000 for fiscal year 2012-2013 and \$10,000,000 in federal funds for HMS 401 fiscal year 2012-2013;
- (7) Increasing the percent of net patient service revenue that the nursing facility fee shall not exceed from three percent to four percent;
- (8) Clarifying that the per resident daily fee shall be the same amount for each affected facility;
- (9) Amending the exemption from the nursing facility sustainability fee for nursing facilities with twenty-eight or fewer medicaid-licensed beds to an exemption for nursing facilities with twenty-eight or fewer licensed beds;
- (10) Changing the deadline for initial payment of the nursing facility sustainability fee to the later of July 31, 2012, or forty-five days after certain required federal approvals;
- (11) Deleting the language that required the Department to use revenues from the nursing facility sustainability fee and federal matching funds to enhance the capitated rates paid to the QUEST plans;
- (12) Clarifying that the nursing facility sustainability fee revenues and federal matching funds shall be used to enhance the capitated rates paid to QUEST Expanded Access Plans and amending the objectives for the use of those monies;
- (13) Adding language to emphasize that the monies in the nursing facility sustainability program special fund shall not be used for purposes other than the exclusive uses set forth in the section establishing the special fund;
- (14) Adding language that amends section 36-30, Hawaii Revised Statutes, to exempt the nursing sustainability program special fund from paying its pro rata share of the administrative expenses incurred by DHS in operating the fund;
- (15) Changing the effective date to July 1, 2012;
- (16) Adding a repeal date of June 30, 2013; provided that the language establishing exclusive uses for revenue from the nursing facility sustainability fee shall be repealed on December 31, 2013; and
- (17) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2466, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2466, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ige and Green.
Managers on the part of the Senate.

Conf. Com. Rep. 130-12 on H.B. No. 2515

The purpose of this measure is to:

- (1) Allow for the sentence of probation for certain second-time drug offense convictions;
- (2) Clarify that a person sentenced to probation shall be eligible for only one expungement as a first time drug offender;
- (3) Allow for probation for a period of four years for certain class B or class C felonies; and
- (4) Require the defendant's probation officer to report to the court concerning the defendant's compliance with conditions of probation for early discharge.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a person sentenced to probation as a first time drug offender who has not been previously sentenced to probation as a drug offender shall be eligible for one time only for expungement;
- (2) Clarifying that prior to granting early discharge, the defendant's probation officer must report to the court concerning the defendant's non-compliance, in addition to the defendant's compliance with the conditions of the defendant's probation; and
- (3) Specifying that the five year probation period for specified classes of class B or C felonies and the four year probation period for all other classes of class B and C felonies apply only to felonies committed on or after January 1, 2013.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2515, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2515, H.D. 3, S.D. 2, C.D. 1.

Signed by the Majority Leaders and Chairs on behalf of the Committee.

Senators Espero, Hee, Kidani and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Hee).

Representatives Aquino, Keith-Agaran, Oshiro, Cullen, Ito and Fontaine.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 131-12 on H.B. No. 2012

I. INTRODUCTION

The State has now addressed considerable budget shortfalls in three consecutive years. This includes \$2.1 billion in 2009, \$1.2 billion in 2010, and \$1.3 billion in 2011. Currently, projected general fund balances over the next several years are very modest. For the first time in four years, your Committee is not faced with a revenue shortfall in excess of a billion dollars.

General fund revenues peaked in fiscal year 2007–2008 at about \$5.2 billion. If the fiscal year 2011–2012 revenue projection of the Council on Revenues (COR) is accurate, on June 30, 2012, the fiscal year will close with revenues finally surpassing this level. It has taken years for general fund revenues to recover from the effects of the recent recession. However, fiscal challenges remain. Departments are struggling to provide acceptable levels of services under increasingly challenging conditions. At the same time, Medicaid and other fixed costs have continued to rise exponentially.

Your Committee on Conference continues to support the administration in its efforts to right the ship of state. This has proven to be no small task, considering the notable absence of effective state executive leadership over the course of the great recession and the significant impact state spending reductions have had on state programs and personnel. Your Committee on Conference appreciates the administration's improved efforts to communicate and work with the Legislature on strategic fiscal and policy matters.

Your Committee on Conference commends the current administration's commitment to prudent fiscal policies in providing critical structural stability to the State's financial plan by restructuring debt service payments on outstanding general obligation bonds. While the prior administration refinanced debt for immediate savings without regard for future costs, the current administration has retired future debt earlier, which will save the State \$59,000,000 in debt service. The current administration has also made every effort to end the practice of payment delays to providers and taxpayers.

Your Committee on Conference's guiding principles for the supplemental budget were to:

- Support the State's core functions, including programs that provide services for those most in need;
- Make strategic investments in people and programs that encourage economic growth and lower future costs; and
- Support long-term planning and accountability efforts to fundamentally change the character and delivery of government services.

II. ECONOMIC OUTLOOK

National Economic Outlook

Positive economic data has filled the news thus far in 2012. The unemployment rate has declined significantly, household spending and confidence have increased steadily, and financial markets have rallied to near four-year highs. Although the data indicates that

economic recovery is underway, the Congressional Budget Office (CBO), which produces ten-year economic forecasts for the congressional budget committees, expects the economy will grow at a sluggish pace over the next two years. CBO projects that real gross domestic product will grow by 2.0 per cent this year (as measured by the change from the fourth quarter of 2011) and by 1.1 per cent next year due to prolonged effects of the recession and current fiscal restraint.

The CBO also forecasts that the national unemployment rate will remain above 8.0 per cent for the next two years and that it will take five years until the unemployment rate drops to 5.5 per cent (close to the economy's natural rate of unemployment of 5.2 per cent).

In addition, strains in the global financial markets pose significant downside risks to the economic outlook:

- A worsening of the banking and fiscal problems in Europe could spill over to the United States and international financial markets;
- The recent increases in oil and gas prices, if the trend continues, will heighten inflation and threaten the economic recovery; and
- Upcoming congressional budget and policy decisions have the potential to not only stymie the national recovery, but also leave states uncertain of what federal funds to expect.

The Federal Reserve, which is tasked with setting the United States' monetary policy, has stated that it expects to keep interest rates at exceptionally low levels at least through late 2014. This is in line with CBO's forecast for economic recovery and reinforces a policy of cautious optimism, that while the economy is improving, it is still years away from normal levels.

The Economic Outlook for Hawaii

Hawaii's economy has likewise seen a recovery driven primarily by a surge in the visitor industry at the end of 2011. The University of Hawaii Economic Research Organization (UHERO) states that the Hawaii visitor industry experienced a 3.5 per cent growth in arrivals and a 15.6 per cent increase in nominal visitor spending in 2011 compared to 2010. UHERO partially credits this to the opening of Disney's Aulani Resort and the APEC Conference in November.

However, UHERO and the Department of Business, Economic Development, and Tourism note the following as risks to Hawaii's economy:

- "Hawaii's economy depends significantly on conditions in the economy and key international economies, especially Japan." Slowing global growth has been a recent concern as the forecasts for China and Japan's economic growth have been lowered in 2012 and the risks of spill over from a European crisis remains possible.
- "Oil has been hovering over \$100 per barrel and high oil prices restrain visitor growth." However, UHERO is optimistic on news that airlines continue to expand routes to Hawaii and that the Obama Administration has been pushing for eased visa requirements for visitors from Brazil and China.
- "Labor market data confirms earlier fears that Hawaii's job recovery has retreated." While Hawaii's February unemployment rate of 6.4 per cent is much lower than the national average of 8.3 per cent, it is nowhere near the average unemployment rate of 2.5 per cent in 2006.
- The construction sector has been improving on Oahu, but neighbor island construction employment was nearly 13.0 per cent lower than a year earlier. Furthermore, the future of the Honolulu Rail Transit project remains uncertain.

III. GENERAL FUND REVENUE OUTLOOK

By law, the Council on Revenues (COR) reports its latest tax revenue forecast to the Governor and the Legislature on June 1, September 10, January 10, and March 15 of each year. State revenues come primarily from the general excise tax and the state income tax. Similar to last year, the COR has made significant forecast changes.

In the September 6, 2011, meeting, the COR raised their forecast for fiscal year 2011-2012 tax revenue growth from 11.0 per cent to 14.5 per cent, citing the effect of the delay in income tax refunds, economic growth, and new tax laws as the basis for the increase. The COR subsequently lowered their forecast in the January 5, 2012, meeting from 14.5 per cent to 11.5 per cent, mainly citing a shortfall in tax collections in the first half of the fiscal year. This forecast reduced expected general fund revenues over the fiscal biennium by about \$267.2 million.

In the most recent March 7, 2012, meeting, the COR raised their fiscal year 2011-2012 forecast slightly from 11.5 per cent to 12.0 per cent, in addition to raising their forecasts for fiscal years 2013 to 2016. The COR based the revisions on their outlook of the economy, including the improving visitor industry, an overall economic expansion, an improving job market, and higher consumer confidence. This increased expected general fund revenue over the 2011-2013 fiscal biennium by about \$93.2 million. However, the COR also expressed "concerns about the uncertainty in European economies, the possibility of a war with Iran and rising oil and gas prices."

Given the volatility of the economy and the large swings in financial markets over the past nine months, it should be noted that significant downside risks exist for revenue growth assumptions over the budget planning period.

IV. BUDGET OVERVIEW

The supplemental budget request submitted by the Governor prior to the 2012 Regular Session was premised on the COR general fund revenue growth projection of 14.5 per cent for fiscal year 2011-2012. The general fund balance at the end of the fiscal biennium was then projected to be about \$234.9 million. On January 5, 2012, the COR significantly lowered the general fund revenue projection, essentially eliminating this balance and leaving a projected deficit of about \$20 million at the end of the fiscal biennium. While the COR did increase the general fund growth projection by 0.5 per cent on March 7, 2012, this has resulted in only a small projected general fund balance at the end of the fiscal biennium.

The Governor's initial supplemental budget request resulted in a net request to add \$34,003,992 in general funds to the total budget for fiscal year 2012-2013. This amount included:

- (1) \$46,425,979 for various programs to restore the health and human services safety net;
- (2) \$46,057,502 for the Department of Education and University of Hawaii;
- (3) \$8,229,427 to maintain essential services across the State;
- (4) \$19,242,141 for various New Day initiatives; and
- (5) A reduction of \$85,861,396 based upon budget savings, including debt service savings, retirement system/FICA payment savings, and employee and retiree health premium payment savings, to offset the additions.

The Governor's New Day requests largely center on chief information officer initiatives, including technology triage, information technology integration pilot projects, business process and information technology, and information rights management reengineering. New Day requests also include funding for the protection of important watersheds, the aging and disability resource center, broadband initiatives, obesity and diabetes prevention programs, and early learning initiatives.

Other notable adjustments contained in the Governor's supplemental budget request include the distribution of \$88,200,000 in general fund reductions and corresponding reductions of non-general funds for expected labor savings and the distribution of \$50,000,000 in general fund reductions under the administration program review, whereby the Governor reprioritized state spending. In addition, the Governor has submitted six Governor's Messages adjusting the supplemental budget request over the course of this Regular Session. These message items have adjusted the Governor's requested general fund appropriations by reducing \$492,356 for fiscal year 2011-2012 and adding \$7,149,840 for fiscal year 2012-2013. As adjusted for message items, the total requested general fund supplemental budget is \$5,443,441,659 for fiscal year 2011-2012 and \$5,597,335,456 for fiscal year 2012-2013.

The House of Representatives (House) adopted a draft of the budget measure that considered the Governor's initial supplemental budget request, but not most of the subsequent Governor's Message items. Significantly, the House funded much of the Governor's information technology initiatives through the use of special funds. In addition, the House included \$50,000,000 to begin addressing the annual required contribution of the Employer-Union Health Benefits Trust Fund's (EUTF) unfunded liability.

The Senate was able to consider each of the Governor's requests, including those transmitted via Governor's Message. A majority of the Governor's requested budget adjustments were adopted by the Senate, as they pertain to maintaining the health and human services safety net, strengthening primary and secondary education, investing in the State's information technology infrastructure, and restoring the ability of government to perform other necessary functions.

Your Committee on Conference resolved the differences in the drafts of this measure proposed by the House of Representatives and the Senate. This measure is the result of collaborative efforts whereby the House of Representatives moved to adopt many of the budget adjustments requested via Governor's Message that it had not previously been able to consider. In addition, collaborative efforts resulted in a number of other adjustments contained in previous drafts.

Your Committee on Conference has adjusted the supplemental budget request submitted by the Governor, as modified by Governor's Message items, by adding \$20,000 in general funds for fiscal year 2011-2012 and adding \$1,433,323 in general funds for fiscal year 2012-2013. Across all means of financing, your Committee on Conference has added \$20,000 for fiscal year 2011-2012 and added \$12,094,823 for fiscal year 2012-2013.

V. DEPARTMENT HIGHLIGHTS

Human Services

The need for assistance continues to grow among Hawaii's residents. Over the past several years, continued job loss and significant wage and benefit reductions have forced many families to survive at or below poverty levels. The State has witnessed unprecedented growth in the number of residents enrolled in MedQUEST and temporary assistance for needy families (TANF) programs and struggles to maintain services at the levels provided in prior years. Your Committee on Conference is mindful of the importance of providing core services to individuals and families in need and supports the Department of Human Services' efforts to assist Hawaii's vulnerable populations.

At a time when all state agencies were being asked to do more with less, the Department of Human Services was tasked with reducing costs and expenditures without compromising critical core services. Your Committee on Conference recognizes this difficult task and commends the Department in its efforts to reform operations to sustainable levels while providing services where they are most needed.

In the MedQUEST Division, the Department managed a \$75,000,000 general fund reduction over the 2011-2013 fiscal biennium while working to maintain important services to replace the prior administration's short-sighted delayed payments strategy with proactive, sustainable, cost-saving strategies. MedQUEST successfully initiated a reduction in capitation payments to both QUEST and QUEST expanded access health plans by three per cent and generated approximately \$22,000,000 in general fund savings. The Division received approval from the Centers for Medicare and Medicaid Services to allow the State to claim additional federal funds for Compact of Free Association recipients related to inpatient hospital stays, generating another \$3,000,000 in general fund savings. In fiscal year 2012-2013, the Department will implement a program integrity review that will reduce inactive cases, including those of non-residents, and has projected recapturing \$16,600,000 in general funds. The Department has also been informed that the federal medical assistance percentage (FMAP) for Hawaii will increase by 1.38 per cent, which will bring an additional \$15,000,000 in federal funds to the State.

Your Committee on Conference appreciates the Department's prudent approach at reforming the MedQUEST Division's budget, but remains cognizant of the increased demand for services and national rise in health care costs. As such, your Committee on

Conference has provided \$8,135,700 in general funds and \$14,745,086 in federal matching funds for fiscal year 2012-2013 towards Medicaid capitation payments.

Similarly, the Benefit, Employment and Support Services Division reviewed TANF programs' prior year operations and identified cost-saving strategies through the consolidation of service contracts, reduction in non-mandated cash assistance and services, and revised employer wage subsidy payments. Through these measures, the Department was able to immediately reduce contract expenditures by over \$4,000,000 in general funds. Changes in service delivery effectuated an additional \$5,200,000 in general fund savings due to reduced administration costs and revised contract reimbursements.

Your Committee on Conference recognizes that the Department's efforts have significantly helped to bring TANF expenditures down to more manageable levels. In support of the Department's reforms, your Committee on Conference has provided \$18,191,515 in general funds to maintain TANF services for Hawaii's residents. Further, your Committee on Conference has approved the Department's request to redistribute the savings internally for information technology improvements. As such, the sum of \$3,628,266 in general funds has been provided for software licensing, business process reengineering, and document imaging, which will ultimately help to improve the delivery and accessibility of critical services provided by the Benefit, Employment and Support Services Division.

The Child Protective Services (CPS) program was also recently subjected to extensive program review. Under the prior administration, contracts within child welfare services were permitted to overextend themselves in excess of \$12,000,000 in general funds. The imprudent use of loopholes and unregulated transfers brought CPS to contract levels well beyond budgeted amounts, which placed other programs within the Department at risk of insolvency. In recognition of these issues, the Department has consolidated duplicative services and requested remaining service providers to solicit alternative funding sources to supplant general funds.

Federal reductions to TANF and the loss of ARRA and emergency assistance funds have resulted in the Department's inability to reduce CPS' expenditures to the originally budgeted amounts, and funding for domestic violence services was reduced. Given the importance of these services to Hawaii's vulnerable populations and the Department's thoughtful review and consolidation of existing contracts, your Committee on Conference has provided funding for the remaining shortfalls to ensure the continuity of remaining contracts. To this end, general funds in the amount of \$6,880,719 for child welfare service contracts and \$1,530,000 for domestic violence contracts, as well as \$390,000 in special funds for spouse and child abuse support programs, have been provided by your Committee on Conference to CPS.

The prior administration's mismanagement of the Department's budget records and untenable contract expenditures continue to impact the Department's operations. In fiscal year 2011-2012, the Department resorted to transferring money out of health care payments to fund salary shortages that resulted from uncategorized fund transfers out of various programs. Consequently, a number of emergency appropriations were made necessary at the start of this calendar year to fund these shortfalls. In an effort to mitigate such operational inefficiencies, the Department has come forward with a supplemental budget request that asserts improved transparency and sustainable service levels by means of a fully funded budget.

Your Committee on Conference hopes that the Department has accurately assessed its budgetary needs and that the supplemental request for funds to cover payroll shortages is what is truly necessary to make the Department whole. On this basis, your Committee on Conference has provided a net sum of \$5,470,669 in general funds directly to programs identified by the Department as being under- and over-budgeted with the intent of establishing fully funded positions in the divisions left impaired by prior year reductions.

Your Committee on Conference is supportive of the Department's efforts to plan ahead and begin fiscal biennium 2013-2015 with a level of resources and staff that can ensure the availability of core services for Hawaii's needy families. However, your Committee on Conference remains aware of the lingering operational deficiencies from prior years and the limitations that have left many programs short-staffed and over-extended in several service areas. These deficiencies have ultimately led to limited accessibility for those eligible to receive assistance and operational inefficiencies that hamper the State's ability to maintain service levels. To address these concerns, your Committee on Conference has restored critical positions throughout the Department to help accommodate the growing demand for services and restore program operations to levels that are both sustainable and capable of maintaining essential coverage for those most in need. To this end, your Committee on Conference has established ten positions and provided \$577,723 for vocational and rehabilitation services, two positions and \$89,280 to reestablish a Kona office in the Supplemental Nutrition Assistance Program, fifteen positions and \$434,108 for eligibility positions in the MedQUEST Division, nineteen positions and \$1,375,190 for the rental housing services, and \$685,500 in supplemental payments for the aged, blind, and disabled.

Health

Your Committee on Conference understands the importance of health care and the services that protect the well-being of people in Hawaii. The Department of Health absorbed significant budget cuts in prior years and has assisted in identifying savings with minimal impact to core health services. Your Committee on Conference is supportive of the Department's proposal to realign resources where necessary; however, your Committee on Conference is also mindful of the large number of transfers of resources requested each year by the Department. Your Committee on Conference advocates for a sustainable structure that limits the number of transfers made by the Department each year.

Your Committee on Conference is conscious of the childhood obesity problem on our islands. Hawaii's childhood obesity rate has continued to increase over the past decade, with higher prevalence and severity in underserved communities. Obesity is linked to many chronic health conditions as well as increased health care costs. Consequently, your Committee on Conference understands that this is an issue that requires a well-planned and sustainable approach. Thus, your Committee on Conference has provided \$250,000 in tobacco settlement special funds to support the establishment of a childhood obesity and diabetes program. This program will increase the level of obesity and diabetes-related services, promote awareness, enhance research and data collection, and create a task force to develop long-term solutions to this growing problem.

The Department's State Planning and Development Agency (SHPDA) promotes access to high quality health care at reasonable costs. To this end, it investigates health care costs, promotes cost-saving techniques, and coordinates health planning for the State. The program administers and utilizes certificate-of-need applications and fees to accomplish these goals. Given the uncertain nature of

SHPDA's program revenue from current applications and fees, your Committee on Conference maintained SHPDA positions with general funds until the program is able to sustain itself through revenue collection.

Hawaii Health Systems Corporation

Your Committee on Conference recognizes the Hawaii Health Systems Corporation's (HHSC) role as a principal health care provider to Hawaii's most vulnerable citizens and visitors, especially those on the neighbor islands. HHSC is under increasing pressure as health care costs continue to rise while federal and private reimbursement rates decline.

The administration's budget request included a \$10,100,664 general fund reduction to account for HHSC's projected labor savings. However, since HHSC is a twenty-four-hour a day operation, this projected savings amount cannot be met. As such, your Committee on Conference fully restored this labor savings reduction to enable HHSC facilities to sustain operations.

HHSC's Electronic Medical Records project is set to go live in February 2013. This federally-mandated change will help hospitals, physicians, insurance companies, and other health care providers to easily retrieve information with patient files kept electronically and safely stored. HHSC set an ambitious implementation plan in order to receive \$10,000,000 in Medicare incentive payments over a four-year period. In addition, HHSC projected costs of \$57,000,000 over the next five years for this priority.

The Department of Human Services currently utilizes HHSC's certified losses from Medicaid, QUEST, and uninsured patients as the basis for drawing down additional federal dollars from the Medicaid program. A portion of these amounts are then distributed to the private hospitals to mitigate their uncompensated care losses and to provide them with Medicaid disproportionate share hospital payments.

Your Committee on Conference recognizes the importance of state and private hospitals in providing access to health services for Medicaid beneficiaries. Moreover, your Committee on Conference encourages further discussion between HHSC, the Department of Human Services, and private hospitals to develop methods to maximize the amount of federal dollars received for uncompensated care, perhaps enabling HHSC to retain part of the amount currently used to support private hospitals.

Education

Your Committee on Conference remains concerned with the Department of Education's management of state funds in relation to its ability to achieve general learner outcomes for all public school students and adequately prepare Hawaii's youth for post-secondary education and careers. Your Committee on Conference finds it contrary to the Department's mission to regularly use funds intended for the classroom and student achievement to fund administrative and support services shortfalls.

To be clear, your Committee on Conference believes funds provided for public education are generally best directed for expenditure by schools. During the Department's January 19, 2012, briefing on its supplemental budget request, discussion centered on the Department's goal for the proportion of appropriations that should be expended at the school level. Through its reaction during the briefing and subsequent written response, the Department made clear that it has no such goal.

Your Committee on Conference finds that the concept of school directed expenditures is the preferred method for administering state resources. This concept is ingrained in state law as section 302A-1301(b), Hawaii Revised Statutes, which requires that:

Not less than seventy per cent of appropriations for the total budget of the department, excluding debt service and capital improvement programs, shall be expended by principals.

Your Committee on Conference understands that several aspects pertaining to how funds are budgeted for the Department have changed over the years. Nonetheless, your Committee on Conference is confounded by the Department's apparent disregard or ignorance of laws that govern it. Your Committee on Conference firmly believes that it is the responsibility of the Department to review laws that govern it and adhere to them.

The administration's request to increase the weighted-student formula (WSF) general fund appropriation by \$13,557,502 for enrollment growth comes on the heels of a large reduction the Department, itself, imposed on the program. The Department reduced WSF by \$7,780,000 through its allocation of a \$16,400,000 budget reduction. While the Department requested that the initial reduction be placed entirely in school based budgeting (EDN100), purportedly for flexibility to manage the amount administratively, your Committee on Conference expected that schools would be prioritized. Unfortunately, your Committee on Conference finds that WSF shouldered a substantial portion of the reduction. Your Committee on Conference has significant concerns regarding the amount of the reduction apportioned to the classrooms and the logic of then requesting additional funds for the same purpose. Your Committee on Conference further finds that the Department has historically transferred money out of WSF to cover shortfalls in other programs and has used general fund savings generated from federal dollars designated for WSF to finance the distended and highly-criticized student transportation contract costs.

Your Committee on Conference has expressed concerns about the Department's transfer of funds in the past and expects that the Department will follow through with its assurances that funds added to WSF in this supplemental budget will be allotted directly to the schools. To ensure that this pledge is upheld, your Committee on Conference has inserted a proviso into this measure that explicitly prohibits the Department from transferring funds out of the school-based budget program identifier (EDN 100). Your Committee on Conference believes that this proviso, in conjunction with legislative measures that compel the Department to expend funds as the Legislature intended, will finally result in WSF appropriations being wisely used to invest in Hawaii's future.

In accordance with the concept that state funds are best spent at the school level under the direction of principals, your Committee on Conference provided \$14,000,000 for the WSF. This funding will increase the amount provided to schools from between \$74.39 and \$86.44 per student, depending upon weighting factors. This translates into tens of thousands and, in some cases, hundreds of thousands of dollars for each school, based largely on student enrollment.

This appropriation for the WSF is not based on projected enrollment or prior funding levels for the Department. It is an additional amount, surpassing that which was requested by the Board of Education and the Governor, that your Committee on Conference is able

to provide for student education. It is your Committee on Conference's intent that the entire amount of this appropriation be spent by principals in the classrooms.

Distinct from your Committee on Conference's dedication to providing the resources necessary to achieve quality education in the classroom, is your Committee on Conference's unwillingness to fund unfettered bus contract price costs in the amount of \$42,000,000 in general funds, as requested by the Department. During the 2011 Regular Session, the Legislature adamantly rejected the Department's request for \$19,582,270 for student transportation contract costs for fiscal year 2012-2013. Further, the Legislature reduced an additional \$20,000,000 for non-mandated student transportation costs, effectively eliminating its budget for these services. The Legislature then required the Department to complete a comprehensive analysis to assess alternatives and various options and to evaluate needed service levels in all districts in order to provide sufficient justification for transportation services. Unfortunately, despite the Legislature's efforts to promote prudent spending practices and fiscal accountability, the Department has produced scant viable options to significantly reduce contract costs and initiate change in their operations.

Under the terms of the current bus contracts, as negotiated between the Department and bus companies, the cost to transport students to and from school is \$79,000,000 per year, which translates to about \$1,251 per child annually, or \$7.00 per child per day. Taxpayers are responsible for over ninety-six per cent of these costs. Further, because families pay only 50 cents per day for their child to ride the bus, the State is thereby subsidizing each student an average of \$6.50 per day for student transportation services. Clearly, operating school buses under such terms is neither sustainable nor prudent.

Your Committee on Conference is troubled by the Department's lack of action and disturbed by its recent pontifications that it will cease services to communities throughout the State if it is not provided additional funds. Not only were the Department's statements premature and speculative, but they failed to convey alternatives available to the Department to reduce costs and demonstrate the Department's failure to appreciably control such expenses. It is the Department that has allowed student transportation costs to spiral out of control under the misguided notion that the State would simply provide it with more money to pay for these costs. Your Committee on Conference finds that the Department has inefficiently spent millions of dollars on student transportation services. These misspent funds could have been used to fund other worthy programs.

However, your Committee on Conference is aware that student transportation services generally provide a safe and convenient option for getting students to school and are heavily relied upon in several areas of the State. Thus, your Committee on Conference has fully funded the Governor's requested amount of \$25,000,000 in general funds to provide student transportation services. The availability of this funding is conditioned upon a needs-based assessment of routes and the Board of Education's determination of which routes to fund. Your Committee on Conference notes that the \$25,000,000 provided for fiscal year 2012-2013 is twenty per cent more than the funding provided for the current fiscal year for non-mandated student transportation costs.

Adult education plays an integral role in improving the quality of life for many of Hawaii's residents. Services offered through the adult education program work to increase literacy rates statewide and help to provide individuals with degrees, career path opportunities, and workplace development. Unfortunately, fiscal conditions from the recent recession eventually led to an elimination of the Department's allotment to the adult education program for fiscal year 2012-2013. Without state support, adult education is at risk of losing its federal dollars as well.

Your Committee on Conference appreciates the valuable services adult education provides and recognizes the considerable amount of effort the program's project managers have made to reduce operation costs without compromising service levels and course offerings. As such, your Committee on Conference has provided \$2,500,000 in general funds to support the community school for adults program operations and maintenance of effort requirements.

In 2010, the federal government enacted the Healthy Hunger-Free Kids Act, initiating significant improvements to school meal and child nutrition programs. These programs provide low-income children with increased access to healthy food. The Act mandates states to increase student meal prices to correspond with the rates subsidized by the United States Department of Agriculture (USDA) to encourage program integrity and discourage the use of subsidized meal prices for students outside the low-income eligibility rates. While your Committee on Conference agrees with the USDA's goal to better regulate federal subsidies, it cannot be ignored that the slow recovery of our nation's economy has placed many families just beyond eligibility for a free or reduced-price meal for their children.

During the 2011 program review, the Department indicated that by increasing student meal prices from \$1.00 (elementary) and \$1.10 (secondary) to \$1.70 (elementary) and \$1.85 (secondary) for breakfast, and from \$2.25 (elementary) and \$2.50 (secondary) to \$3.10 (elementary) and \$3.35 (secondary) for lunch, Hawaii will have made the total required increase for the Healthy Hunger-Free Kids Act and will generate an additional \$6,100,000 in special fund revenues. Your Committee on Conference recognizes the Department's efforts to comply with the USDA requirements and state program review initiatives, but is concerned with the impact such a substantial increase will have on families just outside income eligibility requirements for free and reduced meals. Accordingly, your Committee on Conference has implemented just half of the requested \$6,100,000 general fund reduction to allow for a transition to the higher student meal prices. The additional \$3,050,000 in general funds provided to the Governor's requested budget will mitigate the need to fully raise student meal prices and the financial pressure higher meal prices will place on families.

Your Committee on Conference is concerned with the levels of student achievement in the State's public schools. In December of last year, the State was admonished by Race to the Top officials for its significant lack of progress in the first year of the \$75,000,000 four-year federal grant. Federal officials put the State on "high-risk" status and cited "unsatisfactory delays" and a lack of urgency in the implementation of the education reforms Hawaii had committed to upon receipt of the grant. Other federal education dollars will soon be scrutinized for sequestration in Congress' Budget Control Act and comparable deficit reduction strategies. It would be most unfortunate to lose federal funds that have already been awarded. As such, your Committee on Conference cautions the Department against any future delays that may result in the retraction of the remaining award and encourages the Department to accelerate progress on its commitments to the Race to the Top grant program.

Finally, your Committee on Conference cautions the Department that the appropriations made by this Legislature are all the resources it will have for fiscal year 2012-2013 and thus expects the Department to plan accordingly. The Department's inaccurate

enrollment projections or failure to take appropriate action to reduce student transportation costs are not compelling reasons for the Legislature to grant the Department an emergency appropriation.

Charter Schools

Prior to the start of this Regular Session, Hawaii's public charter school system underwent a performance audit and governance overhaul by two separate state entities. The Auditor rebuked charter schools as misinterpreting state law, misusing funds, and having "autonomy without accountability." Around the same time, the charter school governance, accountability, and authority task force conducted a comprehensive review of the relationships, responsibilities, and lines of accountability and authority among stakeholders of Hawaii's public charter school system, pursuant to Act 130, Session Laws of Hawaii 2011. Both entities determined that in order to improve the charter school program's integrity and ability to meet performance objectives, significant changes would have to take place.

Funding for charter schools is premised on the concept of providing operating funds in an amount equal to that provided by the Department of Education for regular education students on a per pupil basis. Your Committee on Conference finds the Department of Budget and Finance's calculation for this funding amount for fiscal year 2012-2013 to be in error, double counting certain facility related costs within the Department of Education budget. The Department of Budget and Finance also used a reduced projected enrollment of 9,973 for charter schools in its calculations.

Your Committee on Conference has provided \$1,032,152,385 for all regular education cost categories to the Department of Education. This amount does not include funding for special education services and adult education. The Department of Education has a projected enrollment of 174,332 students for fiscal year 2012-2013. This equates to a funding amount of \$5,920.61 per student.

Your Committee on Conference used the charter schools' projected student enrollment of 10,431 in its calculation of an appropriate funding level. Using this enrollment figure, the charter schools' appropriation must be \$61,757,919 to achieve a per pupil funding amount equal to regular education students. Thus, your Committee on Conference has denied an executive request to reduce the charter schools' budget by \$76,008 and has instead provided an additional \$432,302 in general funds to achieve this end.

In developing the budget for charter schools, your Committee on Conference finds that projected student enrollment and comparable funding for charter school and regular education students has been an ongoing point of contention for many interested parties. Your Committee on Conference believes that the validity of using the charter schools' projected enrollment figure to calculate charter school funding should be reassessed during the next regular session of the Legislature. To ensure that funding amounts provided for regular education and charter school students on a per pupil basis are equal, your Committee on Conference has required the Director of Finance to make an appropriate adjustment based upon actual student enrollment that will account for any errors in student enrollment projections.

University of Hawaii

The University of Hawaii system is the State's premier institution for higher education, a nationally recognized research university, and a local economic driver. While the University system is experiencing unprecedented increases in enrollment across all campuses, your Committee on Conference recognizes its ability to accommodate its growing student population through tuition revenue.

The University of Hawaii West Oahu (UHWO) will open the new Kapolei campus this fall. The campus will serve as a convenient, alternate campus to university students living on the west side of the island, with similar general education courses and future specialized concentrations such as allied health services, health care administration, and media. Your Committee on Conference supports the campus' goal of raising the educational and economic attainment levels in the West Oahu region.

Your Committee on Conference understands the importance of increasing the enrollment and graduation rates of native Hawaiian students throughout the University system. In accordance with this goal, your Committee on Conference commends the success of the Na Pua Noeau program, an educational enrichment and college preparatory program for native Hawaiians in grades K-12. Through site visits, leadership programs, and other learning activities, this program has maintained a long-standing history of successfully increasing the native Hawaiian admission and graduation rates within the University system. Thus, your Committee on Conference has provided eighteen positions and \$700,000 in funds to expand and institutionalize Na Pua Noeau statewide. This will allow the program to provide outreach to more students, enhance science, technology, engineering and math (STEM) activities, and provide better coordination among all the University of Hawaii campuses.

Your Committee on Conference is concerned with the University's growing maintenance backlog and reliance on general funds and general obligation bond funds for capital renewal needs. To address immediate capital renewal needs, your Committee on Conference has provided eleven positions and \$600,000 in special funds for the University to recruit additional personnel to implement repairs more efficiently. In addition, your Committee on Conference has required the University to submit a report detailing a long-term expenditure plan on funding its capital renewal needs through the use of its own revenues.

Your Committee on Conference is aware of the overcompensation of funds for furlough restoration that the University received last year. For fiscal years 2011-2012 and 2012-2013, this restoration amount equates to nearly \$12,000,000 more than the preceding year's furlough reduction amount. In addition, the University of Hawaii Professional Assembly (UHPA) fringe related costs due to UHPA's salary snapbacks and paybacks will cost the State an additional \$3,096,600 for fiscal year 2012-2013. Rather than reduce these amounts from the University budget, your Committee on Conference has allowed the University to retain these funds, at this time, in order to fund its strategic goals and priorities.

Budget and Finance

Fixed costs such as debt service, retirement system, and health benefit payments comprise one-third of the State's total general fund budget. These components require annual adjustments based upon assumptions for interest rates, payroll growth, and membership growth, which are beyond your Committee on Conference's ability to modify on a near term basis.

The Department of Budget and Finance continues to confront fiscal challenges and operational deficiencies wrought by the previous administration. Tasked with the broad scope of managing the state budget and effectively allocating state resources, the Department has spent the last year reprioritizing operational functions and fostering sustainable levels of service delivery. This has proven to be a significant undertaking, and the Department has struggled to meet national reporting requirements due to the absence of prior year financial statements and loss of staff. In the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) program, a delay in the fund's audit contributed to the delayed issuance of the State's comprehensive annual financial report upon which bond issuances and credit ratings are based.

As of July 1, 2009, the EUTF had a total unfunded actuarially accrued liability (UAAL) of \$14,546,500,000, the State's portion of which was \$11,523,300,000. In order to amortize the UAAL, the State would have had to dedicate \$441,400,000 for the annual required contribution, beginning fiscal year 2008-2009. Unfortunately, the State did not have the ability to fund a corpus of that magnitude then or at any time since. The reality of today's fiscal limitations and the need to maintain core services across numerous state agencies have necessitated that state funds be committed elsewhere.

However, your Committee on Conference recognizes the potential foresight and advantages of setting aside money towards the annual required contribution for the EUTF. It is critical to the long-term viability of the EUTF and the State to implement reforms that moderate the public employer health benefits contributions for active and retired members while maintaining sufficient benefits coverage. To this end, your Committee on Conference has provided \$100,000 to commission a study on improving the financial health of the EUTF. This study will address the UAAL and explore the possible implementation of reforms to develop a solvent and sustainable funding source for the EUTF.

The treasury branch experienced considerable delays in processing temporary deposit receipts (TDR) following the reduction-in-force in fiscal year 2009-2010. Processing time for TDRs increased from one or two days to forty-two days and resulted in restricted access to state funds for several agencies. Your Committee on Conference finds that the Department's current staffing level is not operationally sustainable and, thus, has restored the needed position and funding.

Most funds available under the American Reinvestment and Recovery Act (ARRA) will be used by the close of fiscal year 2012-2013. In an effort to ensure the proper closure of remaining ARRA grants, your Committee on Conference has reestablished positions and provided funds for the Office of Economic Reinvestment and Recovery. Your Committee on Conference understands that these positions will help the State to meet ARRA expenditure reporting requirements in a timely manner and avoid unnecessary penalties from the federal government.

The retirement benefit changes established pursuant to Act 163, Session Laws of Hawaii 2011, necessitated major changes in the State's existing Employees' Retirement System (ERS) software. The State's pension administration system contract requires that all programming changes be contracted through the vendor, otherwise voiding the system's warranty. Your Committee on Conference has been assured that the quoted sum of \$6,033,000 in other funds is a realistic estimate, after having monitored cost of service in the private sector and reviewed the extensive services necessary to implement the change. As such, your Committee on Conference has fully funded the request for the ERS' system reprogramming needs.

The Hawaii EUTF has also been tasked with significant changes in benefits plans and has had to expand the scope of the EUTF software to not only include civil unions but also transition in Hawaii State Teachers Association members formerly covered under a voluntary employee beneficiary association. The Department has reported that the need to make these changes in a timely manner has overextended staff and created challenges in retaining employees. As such, your Committee on Conference has established thirteen positions and provided \$300,000 to address the operational deficiencies in the EUTF program.

In accordance with the Governor's initiative to right-size government, the 2011 Legislature required the Department to identify \$50,000,000 in program review savings for fiscal year 2011-2012 and fiscal year 2012-2013 and approximately \$88,200,000 in labor savings, across all departments. The Department managed the program review reduction by requesting proposals that met targeted savings amounts from each of the departments and submitted the statewide program review to this Legislature. Labor savings transferred into state retirement benefits program were reported as:

\$69,500,000 for fiscal year 2011-2012 and \$69,560,000 for fiscal year 2012-2013 in direct labor savings reductions from state departments; and indirect labor savings of \$18,700,000 for fiscal year 2011-2012 and \$18,640,000 for fiscal year 2012-2013 in indirect labor savings [based] upon revised projections for pension accumulation contributions and Social Security/Medicare costs resulting from lower gross direct labor costs for fiscal years 2012 and 2013.

However, the delayed implementation of the 2011 legislative adjustment to the state contribution amount from a 60/40 per cent (employer/employee) split to 50/50 for health benefit premiums resulted in additional EUTF costs for the first five months of fiscal year 2011-2012. As such, your Committee on Conference has provided \$1,738,963 in general funds for fiscal year 2011-2012 to adjust for these costs. Concurrently, the decrease from fourteen days of directed pay without leave in fiscal year 2011-2012 to thirteen days for fiscal year 2012-2013, in accordance with bargaining unit (1)'s revised contract, necessitated further adjustments to the departmental administration program. As such, your Committee on Conference has provided approximately \$2,500,000 in all means of financing for fiscal year 2011-2012 and approximately \$3,600,000 in all means of financing for fiscal year 2012-2013 to adjust for this change.

Public Safety

Hawaii's dependence on out-of-state prisons has been a cause for concern for the last several years. As of 2011, approximately one-third of the State's adult prison population is incarcerated outside of Hawaii. As a result, approximately \$50,000,000 is expended in mainland municipalities each year rather than in the local economy. To date, State efforts to reduce the use of out-of-state prisons have been limited.

In June 2011, efforts began pertaining to the Justice Reinvestment Initiative (JRI), a multi-state plan to reduce incarceration and recidivism rates through strategic data-driven policy development and public safety system investments. The goal is to bring incarcerated inmates back to Hawaii and appropriately prepare inmates for release.

From a financial perspective, your Committee on Conference supports the JRI and believes the strategic programs detailed in the Department of Public Safety's supplemental budget request will help the State achieve its JRI objectives. However, your Committee on Conference has concerns regarding the Department's ability to achieve its savings targets. Your Committee on Conference has reduced the proposed scope of the initial investment in the initiative and approved a transfer of \$3,362,759 in general funds from Non-State Facilities funding to various Public Safety programs as well as to the Judiciary and counties in order to expand and establish programs corresponding to JRI.

Your Committee on Conference is aware that cooking equipment at various detention facilities is outdated and parts are no longer available for repairs and maintenance. Your Committee on Conference has provided \$291,000 in general funds for the replacement of the outdated equipment. It is your Committee on Conference's intent that these funds will ensure that inmates receive higher quality meals that will, in turn, improve their health.

In 2011, a new community standard for the Hepatitis C treatment was established with a markedly higher effectiveness rate than other available treatments. Your Committee on Conference believes that the Department should adhere to this new community standard to improve the health of those infected and reduce transmission rates in prisons. To this end, your Committee on Conference has provided \$1,216,000 in general funds for Hepatitis C treatment for incarcerated inmates. This funding will provide for a new higher standard for the prison population and provide hope to those that have not responded well to previously available treatments.

Land and Natural Resources

Despite previous budget reductions, the Department of Land and Natural Resources has remained committed to protecting, conserving, and managing Hawaii's unique and limited natural, cultural, and historic resources.

The Department is planning to merge the Division of Aquatic Resources and the Division of Forestry and Wildlife into a single land management system based on the traditional Hawaiian Ahupuaa approach, where one division would administer the entire region and its resources running from the mountains to the ocean. No organizational changes appear in the current supplemental budget, as the Department plans on formalizing the merger in the next fiscal biennium. Your Committee on Conference is concerned about the merger's impact on Hawaii's local farmers and fishermen as well as on its water supply, including its irrigation systems, reservoirs, dams, and watersheds. Therefore, your Committee on Conference looks forward to receiving more information and a comprehensive implementation plan from the Department on these important proposals prior to actualizing any changes.

Your Committee on Conference understands the Department's role in maintaining Hawaii's most valuable assets. Hawaii's fresh water supply is not inexhaustible and is susceptible to local and global environmental changes. As such, it requires prudent management and protection. Only ten per cent of priority watersheds in the Hawaiian islands are currently protected. Through its watershed partnership program, the Department has identified high priority areas that remain unprotected. Since fence construction is the largest cost in protecting watersheds, your Committee on Conference has provided \$3,000,000 in general obligation bond funds, in addition to \$2,500,000 in special funds, to help administer the program and increase the protection of priority watersheds throughout the State.

While your Committee on Conference recognizes the goal of the ten-year watershed initiative plan in safeguarding water resources for future generations, your Committee on Conference is also cognizant of the fact that this will be the first year of the watershed initiative plan. As such, your Committee on Conference has required the Department to submit a detailed status report outlining implementation, funding, and any complications in advancing the initiative.

Your Committee on Conference is aware of the damage to state lands during the March 2012 storms. After considering the amount of damage assessed by the Department, your Committee on Conference has provided \$1,000,000 in special funds to address rock fall abatement and other needs.

In response to the Governor's emergency proclamation of April 14, 2011, the Department has been working on relocating over four hundred Nene geese near Lihue Airport on Kauai due to aviation safety issues. In light of their need for more resources, your Committee on Conference has provided eleven positions and \$800,000 in interdepartmental transfer funds from the Department of Transportation. The Department's Nene relocation plan covers a five-year period and requires \$800,000 per year for the remaining four years in order to safely capture, relocate, and ensure the survival of this endangered species.

Your Committee on Conference is cognizant of the Federal Communications Commission mandate that requires the narrow banding of all state agencies' very-high frequency radio systems. Your Committee on Conference commends the Department for assessing their remaining wideband radio inventory and determining the level of support needed to adhere to this mandate. Thus, your Committee on Conference has provided \$750,000 in general funds for the Department to finish updating their green net radio system by January 1, 2013, in order to avoid federal penalties.

Your Committee on Conference also understands the importance of integrating information technology into existing statewide systems to increase access, transparency, and cost savings in the future. To this end, your Committee on Conference has provided \$400,000 to digitize land documents, of which \$200,000 will be transferred to the Department of Accounting and General Services for a two- to three-year initiative for digital archiving.

Your Committee on Conference acknowledges the Public Land Development Corporation's need for additional resources in order to serve as a liaison for public-private land partnerships. Thus, your Committee on Conference has provided three positions and \$350,000. In addition, due to increasing demand for geothermal energy resources, your Committee on Conference has provided two positions and \$287,935 for geothermal management functions in Water and Land Development.

Agriculture

Agriculture is an integral part of Hawaii's history and goal to achieve a more diversified economy. Your Committee on Conference is dedicated to promoting agricultural self-sufficiency, conserving farmland resources, and preventing the establishment of invasive species statewide.

Your Committee on Conference recognizes the importance of keeping water available and affordable to all classes of consumers across the State. The State's irrigation systems, some having existed for over a century, require continual repair, maintenance, and upkeep. The irrigation systems program is short-staffed, delaying repairs and maintenance that will only increase future costs. As such, your Committee on Conference has provided five irrigation positions and changed the means of financing from revolving funds to special funds for six positions serving the systems on the islands of Oahu, Molokai, and Hawaii. In addition, your Committee on Conference has converted two positions from temporary to permanent for the creation of the Agricultural Infrastructure Branch to help manage irrigation systems and other infrastructure resources statewide.

Your Committee on Conference is aware that prior year reductions have negatively impacted the management of invasive species in Hawaii. Your Committee on Conference is also aware that certain federal aviation grants and fee deposits are terminating. To mitigate these effects, your Committee on Conference has provided nine positions and \$215,568 in general funds for Plant Quarantine inspectors located at Kahului Airport, and has changed the amount and means of financing for twenty positions from \$1,562,938 in special funds to \$1,116,384 in general funds, in accordance with the United States Department of Transportation's ruling which terminated the deposit of cargo fees by air carriers into the pest inspection, quarantine, and eradication fund.

Your Committee on Conference realizes the significance to quality and price assurance of inspecting and evaluating food commodities. Due to an increase in food safety issues, your Committee on Conference has provided two positions and \$169,859 to inspect and audit food for proper safety standards.

Your Committee on Conference has also provided two positions and \$139,322 for the creation of the Agricultural Land Branch in the Agricultural Resource Management Division of the Department of Agriculture, which will manage the Department's land resources, including agricultural park and non-agricultural park lands.

Your Committee on Conference acknowledges the personnel challenges faced by the Department's Measurement Standards Branch and recognizes the importance of inspecting the accuracy of scales, gas pumps, and taxi meters. Due to severe budget cuts and attrition resulting from retirement, the Measurement Standards Branch is currently left with only one active inspector and one worker on extended leave. As such, your Committee on Conference has provided four positions and \$420,000 to include regular inspections statewide and to effectively implement quality assurance in the State.

Business, Economic Development, and Tourism

Last year, your Committee on Conference expressed concerns regarding the Department of Business, Economic Development, and Tourism's habit of reorganizing through the budget without consulting the unions. Commensurate with these concerns, the Legislature denied transfers that would affirm the reorganization in the budget and urged the Department to postpone implementation until a formal reorganization process was initiated. The Department responded by working with the appropriate union officials and the Department of Budget and Finance to develop an implementation plan that incorporated input from all affected parties and, pursuant to Act 164, section 122, Session Laws of Hawaii 2011, submitted a report to the Legislature detailing the reorganization process. By the Department's efforts, your Committee on Conference finds that last year's concerns have been addressed. Therefore, your Committee on Conference has approved the transfers of positions and funds that reflect the Department's reorganization plan for fiscal year 2012-2013.

The presence of unexpended grant funds in the United States Department of Energy has permitted states, including Hawaii, to modify energy grant awards and extend federal funding to the end of this calendar year. Your Committee on Conference continues to support the Department's strategic involvement in this growing industry and has authorized the expenditure of \$1,423,814 in federal stimulus funds for state energy projects in accordance with the State's successful grant extension.

Commerce and Consumer Affairs

Your Committee on Conference recognizes the Department of Commerce and Consumer Affairs' need to be current and compliant as it pertains to licensing and information technology in order to offer secure and uninterrupted services. The Department's computer operating software has not been updated in ten years. The State has been informed that if updates are not administered by April 2014, the Professional and Vocational Licensing Division's computer operating system will become outdated and unable to support future upgrades from the system's vendor.

Your Committee on Conference is concerned about the repercussions this may cause to the applicant licensee integrated automated system (ALIAS), which is dependent on the computers in the Professional and Vocational Licensing Division. An interruption in ALIAS operations would severely affect state functions and could adversely impact the over three hundred thirty thousand licensees, from over forty-seven different professions that the system serves. To address this concern, your Committee on Conference has provided \$400,000 from the compliance resolution fund for the purchase of services and software related to ALIAS updates. Your Committee on Conference has approved an additional \$205,000 from the compliance resolution fund for information technology improvements, including the replacement of seven-year-old servers that have exceeded their warranty, and for subscription to a disaster recovery service.

In compliance with Act 208, Session Laws of Hawaii 2010, your Committee on Conference has provided two positions and \$114,532 to support and process the new registration requirements placed upon individual security guards. Initial funding provided from the compliance resolution fund will be reimbursed using fees collected from individual guards.

Your Committee on Conference has authorized expenditure increases to accommodate increased incidental costs of the Department. To address maintenance fee increases from the Department of Accounting and General Services, your Committee on Conference provided \$117,341 in compliance resolution funds. Your Committee on Conference has also provided \$350,000 in compliance resolution funds to cover management and financial audits required by Act 19, Session Laws of Hawaii 2011, which requires the operation, supervision, and management of programs of public, educational, and government access facilities.

Attorney General

To support the Department of the Attorney General's operations, your Committee on Conference has provided \$115,000 for the maintenance and operating costs of the automated fingerprint identification system and the juvenile justice information system. Both systems allow various government officials to identify criminal offenders and spread information about missing children. In addition, your Committee on Conference has provided \$72,000 to ensure the prompt handling and recording of child support payments.

Your Committee on Conference is concerned that funding shortages could result in the loss of needed services for sex assault victims. As such, your Committee on Conference has provided \$466,140, which will support an expiring grant-in-aid for sex assault services available through Kapiolani Medical Center.

Your Committee on Conference understands that prior reductions have inhibited the Department's ability to fill positions. The Department must hold a significant portion of its positions vacant in order to meet savings targets. Accordingly, your Committee on Conference has provided \$100,000 to enable the Department to fill critical positions in its legal services division. An additional \$140,000, matched on a two-to-one basis from federal sources, is provided to child support enforcement services for similar purposes. Your Committee on Conference notes that it has directed the Director of Finance to require that all executive agencies provide more accurate budget information that clearly delineates how funds are projected to be used so that legislators can make informed budgetary decisions.

Accounting and General Services

The Department of Accounting and General Services is responsible for producing the State's comprehensive annual financial report (CAFR). The CAFR is generally expected to be produced six months after the end of the fiscal year. However, Hawaii's CAFR was subject to delays of fourteen months for fiscal year 2009-2010 and eight months for fiscal year 2010-2011. Timely submission of the CAFR is important to numerous state agencies and is used in determining state bond ratings. Thus, your Committee on Conference has provided \$80,000 in general funds to hire an accounting firm for consultant services to ensure timely production of the CAFR.

Your Committee on Conference recognizes the important role information technology has in state government operations. Strategic implementation of information technology initiatives can facilitate faster service delivery, increase transparency, and generate savings by reducing operational inefficiencies. The State's new chief information officer is in the process of developing the State's information technology strategic plan to transform Hawaii's information technology infrastructure.

The administration's highest priority initiative concerns repairs and updates to state systems in need of immediate attention for security or audit reasons. In furtherance of this project and others, your Committee on Conference has provided four positions, and \$10,300,000 in general funds to the Information and Communication Services Division for Office of Information Management and Technology projects (OIMT). The OIMT projects fall into three categories: triage, pilots, and business process and information technology reengineering. This level of funding will provide the chief information officer with the flexibility to implement projects with continued input from stakeholders, including legislators and state departments.

Your Committee on Conference understands that economic conditions have caused a significant rise in energy costs. Despite state efforts to reduce energy usage, increases in electricity and utility rates have driven state utility costs beyond the Department's authorized budget. Thus, to accommodate cost increases, your Committee on Conference has provided \$4,769,000 in general funds to Central Services for rising energy and sewer costs and carry-over costs from fiscal year 2011-2012 shortfalls.

On March 8, 2012, the State's Reapportionment Plan was challenged in the United States District Court for the District of Hawaii. Your Committee on Conference has provided \$1,090,612 in general funds to support the Office of Elections and the Reapportionment Commission in the event that additional consulting services are needed to redraw the district lines.

Transportation

Your Committee on Conference supports the Department of Transportation in its oversight and maintenance of the State's airports, harbors, and highways. Your Committee on Conference provided funds for debt service payments for both the airports and highways to support modernization and refurbishment projects.

Your Committee on Conference is aware that rising energy costs have created a shortfall in the Department's ability to meet airport utility needs. The lack of funds has caused various projects to be canceled or postponed. As such, your Committee on Conference has authorized \$17,160,000 in special funds to cover the deficit in utility costs, thereby eliminating the need to shift funds to manage shortfalls and to enable queued projects to resume.

Oahu highways are currently maintained by landscapers and general laborers. However, due to the varying skill-sets required for different services, the Department is limited in its ability to efficiently dispatch staff. The multi-skilled worker program allows a team of workers to be cross-trained in various skills, thereby improving the ability of existing staff to respond to multiple types of maintenance calls and improve overall response times. Your Committee on Conference commends the Department's efforts to increase efficiency through the multi-skilled worker program and has provided \$1,646,708 in special funds for this purpose.

Recognizing the extensive damages that recent heavy rains and flooding have caused throughout the State, and the urgency in which emergency response services must be developed and implemented, it is critical to designate funding in fiscal year 2012-2013 for essential clean-up and amelioration services needed across the islands. Although the full extent of damages cannot be assessed at this time, your Committee on Conference believes it prudent to provide \$2,000,000 in special funds to the Department to aid public highways.

Defense

The Department of Defense is uniquely situated to draw down significant sums of federal funds. As such, your Committee on Conference has provided \$167,500 in general funds that will draw down \$502,500 in matching federal funds to assist with modernization projects, including a twenty-five-meter zero range at Keaukaha on Hawaii Island and electrical system infrastructure developments at Kalaeloa on Oahu.

Your Committee on Conference recognizes the importance of supporting postsecondary education for the members of the Hawaii Army and Air National Guard. As such, your Committee on Conference has provided \$150,000 in general funds to reestablish the State of Hawaii National Guard tuition assistance program with the goal of boosting recruitment, which had experienced significant declines following the loss of tuition assistance funding.

Labor

Your Committee on Conference is concerned with the operations of the Department of Labor and Industrial Relations Hawaii Occupational Safety and Health Division, which faces a large outstanding backlog with limited staff. Thus, your Committee on Conference has provided for the addition of ten positions and the transfer of twelve positions from general funds to special funds to address the pressing issue of elevator and boiler safety.

Your Committee on Conference is aware that the loss of positions has made the Department's daily operations more difficult. Among these were investigator positions for the Civil Rights Commission, which were abolished in the reduction-in-force in fiscal year 2008-2009. Accordingly, your Committee on Conference has provided funding to establish two half-time investigator positions. These investigators will process housing and equal employment opportunity complaints, thus reducing current caseloads.

Hawaiian Home Lands

Your Committee on Conference recognizes the need to assess the modernization and digitization of the Department of Hawaiian Home Lands' database and records. Digitization can potentially generate cost savings for the Department, provide easy access to useful information for other state agencies, and expedite the placement of qualified applicants into homesteads. Your Committee on Conference encourages the Department to work with the chief information officer to further this goal.

Your Committee on Conference recognizes that Act 14, Special Session Laws of Hawaii 1995, settled all claims made on behalf of the Hawaiian Home Lands Trust against the State between August 21, 1959, and July 1, 1988. The final \$30,000,000 annual settlement deposit will be received in 2014. The ability of the Department to carry out its mission in the absence of these funds has been a continued concern of the Legislature. Your Committee on Conference finds that the Department has yet to provide a financial report outlining its proposal to fund operations following the discontinuation of settlement funds, as provisioned in prior years. Your Committee on Conference strongly recommends that a report be produced for the benefit of both the State and the Department of Hawaiian Home Lands, as most recently required by Act 164, Session Laws of Hawaii 2011.

Human Resources Development

Your Committee on Conference acknowledges the Department of Human Resources Development's requested reduction of \$510,000 for unemployment insurance benefits. This request was a result of the administration's program review that sought to achieve state savings. Your Committee on Conference finds that the requested adjustment simply shifts costs to other state agencies and that no efficiencies or savings would be achieved. Accordingly, your Committee on Conference has restored this amount to the Department's budget so that it will continue to provide for the unemployment insurance benefits costs for affected state agencies.

VI. CAPITAL IMPROVEMENTS PROGRAM

In preparing the capital improvement program (CIP) budget contained in this measure your Committee on Conference has remained mindful that in spite of signs that the State's economy is improving, the effects of the recession continue to be felt across the State, especially in the construction industry, which is still experiencing unacceptably high levels of unemployment. While investment in infrastructure and facilities is crucial for short-term economic growth and job creation, the need for a sustained program for economic growth is vital for a robust and growing economy.

As such, after carefully considering current economic conditions, along with the proposals, needs, and priorities of the administration and the departments, your Committee on Conference, has provided \$827,425,000 in general obligation and general obligation reimbursable bond-funded projects and \$3,229,619,000 in all means of financing for capital projects in FY 2012-2013.

While developing the capital improvement project budget, your Committee on Conference scrutinized each request, aware of the imminent need for "shovel ready" projects that will address the repair and maintenance and health and safety project backlogs which continue to fester within the State's agencies and departments. These projects:

- (1) Address many critical health, safety, and code requirements;
- (2) Reduce current repair and maintenance backlogs throughout several departments; and
- (3) Provide jobs for unemployed and underemployed residents.

Your Committee on Conference believes that this capital improvement program budget will not only help spur economic recovery, but will also address the most basic necessities expected of state facilities.

Your Committee on Conference has demonstrated its ongoing commitment to invest in the education of our keiki by including \$296,472,000 for the Department of Education for fiscal year 2012-2013. Of this amount \$116,500,000 has been appropriated for classroom renovations and school building improvements to address the departments' repair and maintenance backlog. Additionally, \$10,000,000 has been provided for electrical upgrades to support the rapidly evolving technology that is imperative to keep students competitive in the global economy. Your Committee on Conference has also approved \$30,000,000 in various lump sum appropriations for schools throughout the State to address Americans with Disabilities Act compliance, health and safety and special education needs.

For the University of Hawaii, your Committee on Conference has approved over \$80,000,000 for capital renewal and deferred maintenance as well as health, safety, and building code requirements, System wide. Your Committee on Conference has also taken note of the significant growth in student enrollment at the community colleges and has therefore provided an additional \$27,500,000, including \$10,000,000 to address capital renewal and deferred maintenance needs at all community college campuses. Also included is

\$10,000,000 for Kapiolani Community College to begin construction of the Culinary Institute of Pacific; and \$7,500,000 for Hawaii Community College, allowing them to leverage more than \$9,000,000 from private funds to complete Phase I and II of the new campus.

Your Committee on Conference has also addressed the needs of health and human services facilities throughout the State. Over \$60,000,000 has been provided for fiscal year 2012-2013 to allow the Hawaii Public Housing Authority to continue to upgrade its units and help achieve its mission to better provide adequate shelter and housing to low-income families. Furthermore, a total of \$35,000,000 has been appropriated in fiscal year 2012-2013 for the Hawaii Health Systems Corporation to help tackle the repair and maintenance needs at community hospitals statewide.

Lastly, your Committee on Conference remains keenly aware of Hawaii's need, as an island-state, to preserve its long-term sustainability. Nearly \$26,000,000 has been provided to the Department of Agriculture and Department of Land and Natural Resources to allow them to continue their efforts to maintain the State's irrigation systems, as well as rivers, reservoirs and dams statewide, including \$1,100,000 to upgrade, repair and reinforce the Hanalei River breach which was made worse by the recent heavy rains.

Your Committee on Conference also recognizes that because of Hawaii's slow economy, many community programs run by non-profit organizations have had to reduce their level of services. Subsequently, your Committee on Conference realizes the benefits of funding some of these programs and has therefore provided over \$20,000,000 for CIP grant in aids for the 2012-2013 fiscal year.

Your Committee on Conference believes that the implementation of the numerous projects within this capital improvement project budget will result in the expansion of Hawaii's economy. In addition, your Committee on Conference aimed to address those structural needs most critical to maintaining the long-term viability of the State's facilities. It is only through the ongoing maintenance of these facilities that the State can continue to provide the programs and services essential to those who need them the most.

VII. CONCLUSION

The combined efforts of the House of Representatives, the Senate, the administration, and countless interested parties have contributed greatly to the programs advanced by this measure. Your Committee on Conference acknowledges all those that have worked toward the development of this responsible expenditure plan.

Your Committee on Conference has adjusted the Governor's operating supplemental budget request by appropriating through this measure \$5,443,461,659 in general funds and \$11,027,264,452 in all means of financing for fiscal year 2011-2012, and \$5,598,768,779 in general funds and \$11,182,733,938 in all means of financing for fiscal year 2012-2013.

Your Committee on Conference has also made numerous technical nonsubstantive amendments for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2012, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2012, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani, Chun Oakland, Dela Cruz, English, Espero, Fukunaga, Kahele, Kouchi, Ryan, Tokuda, and Wakai.
Managers on the part of the Senate.

Ayes, 10. Noes, none. Excused, 2 (Kahele, Wakai).

Representatives Oshiro, Choy, Cullen, Giugni, Har, Hashem, Ichiyama, Jordan, Kawakami, C. Lee, M. Lee, Morikawa, Tokioka, Yamashita, Marumoto, Riviere, and Ward.

Managers on the part of the House.

Ayes, 17. Noes, none. Excused, none.

Conf. Com. Rep. 132-12 on H.B. No. 1800

Your Committee on Conference finds that the Ronald T.Y. Moon Judiciary Complex, which opened in Kapolei in phases during early 2010, has maintenance and warranty contracts that are expiring, just two years later. Accordingly, your Committee on Conference has provided \$696,446 for maintenance and building security contracts required to keep the facility operating efficiently.

In addition, your Committee on Conference finds staffing of the Kapolei detention facility inadequate, which has resulted in considerable overtime use of staff. To address this issue, your Committee has authorized 4 juvenile detention worker positions and appropriated \$154,416 for this purpose. Your Committee expects the Judiciary to work toward significantly reducing use of overtime at the facility.

The on-call nurse's contract must be sustained in order for nurses to be present at the detention facility on off hours and holidays where day staff is not present. The nurses will provide care when necessary at the contract rate instead of a regular rate. Accordingly, your Committee on Conference has appropriated \$100,000 in order to provide for the on-call nurse contract.

Your Committee on Conference is mindful that the Department of Public Safety has or will soon stop providing adult community service sentencing services in the second, third, and fifth circuits. The loss of these services would make it difficult for indigent members of the community to pay fines owed to the State. If this occurs, the only other alternative available to judges would be to order incarceration. To maintain adult community service sentencing as a viable option, your Committee on Conference has authorized eight positions and provided \$271,380 to enable the Judiciary to provide adult community service sentencing on the islands of Maui, Hawaii, and Kauai.

Your Committee on Conference further finds that court interpreter services offered for various court cases for community members needing assistance is currently limited. To expand these services, your Committee on Conference has provided \$234,728. The funds will be used to make additional languages available for court interpreter services. This will allow greater public access to the courts.

Your Committee on Conference is aware that district family court judges have recently experienced significant increases in caseloads. In 2007, the Legislature authorized positions for this purpose, though funding was not available to fill the positions. Your Committee on Conference has provided \$267,684 to fund a previously established judge and three support positions. This funding will assist with the caseloads and promote the efficient delivery of judicial services to the public.

Your Committee on Conference notes that work began on the Justice Reinvestment Initiative (JRI) in June 2011. The ultimate goal of the JRI is to bring inmates home from non-state facilities and prepare inmates for reintegration into society. This is anticipated to result in significant cost savings over time. In order to achieve this goal, various programs must be expanded, and the Judiciary will play an important role in the process. Your Committee on Conference is supportive of the JRI and has authorized two positions and provided \$125,000 for probationary services.

Your Committee also notes that the Judiciary requested an appropriation of \$200,000 to pay for projected costs of unemployment insurance benefits for its employees. This resulted from an executive branch proposal to shift payment of this cost from the Department of Human Resources Development to the Judiciary. Your Committee finds that efficiency is not gained under this proposal and will continue to provide for the Judiciary's unemployment insurance benefits expenses through executive branch appropriations.

Lastly, your Committee has appropriated \$21,382,000 in general obligation bond funding for capital improvement projects for the FY 2012-2013 supplemental budget. The amount includes funding for various internal maintenance and upgrade projects to resolve issues with air handling systems on Maui and Oahu, as well as exterior building improvements at various sites across Oahu.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1800, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1800, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Tokuda, and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Keith-Agaran, Oshiro, M. Lee, and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 133-12 on H.B. No. 1838

The purpose of this bill is to authorize the issuance of general obligation bonds to finance projects for the executive branch and the judiciary.

Your Committee finds that the total amount of principal and interest estimated for the general obligation bonds authorized under this measure, and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit of the State to be exceeded at the time of issuance.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this bill by:

- (1) Inserting the appropriate amounts provided by the Department of Budget and Finance;
- (2) Updating dates cited in the measure;
- (3) Changing the effective date to "upon its approval;" and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1838, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1838, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Oshiro, Choy, M. Lee, Yamashita and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 134-12 on H.B. No. 2684

The purpose of this measure is to work towards alleviating traffic congestion on the island of Oahu by requiring the Department of Transportation to conduct a study on the feasibility of extending the zipper lane westward from Waipahu toward Kapolei, west of the Kunia on-ramp on the island of Oahu.

This measure also appropriates an unspecified amount of funds to the Department of Transportation to conduct the study.

Motor vehicle transportation has been and continues to be both a critical necessity for, and the bane of, Hawaii's drivers. Increased time spent on the road in travel decreases time spent with family or at work, work efficiency, and quality of life. As the population grows, especially on the west side of Oahu, the need for travel lanes will increase.

High occupancy vehicle lanes, such as zipper lanes on Oahu, provide an incentive to carpool, effectively reducing the number of cars on the road. However, your Committee on Conference finds that a zipper lane providing access to west Oahu could be more effective in reducing traffic if it extended westward from Waipahu toward Kapolei, west of the Kunia on-ramp.

Your Committee on Conference has amended this measure by inserting an appropriation of \$200,000 for the Department of Transportation to conduct the study.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2684, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2684, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Representatives Souki, Ichiyama, Awana, Cabanilla, Har, Jordan and Johanson.
Managers on the part of the House.
Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 135-12 on H.B. No. 283

The purpose of this measure is to protect Hawaii's coffee industry and coffee agricultural assets from invasive species by providing State funds for a program to control and eradicate the coffee berry borer, which would include the destruction of feral coffee trees.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Director of Finance is authorized to transfer \$196,000 from the Agricultural Loan Revolving Fund to the Pest Inspection, Quarantine, and Eradication Fund;
- (2) Inserting an appropriation of \$196,000 from the Pest Inspection, Quarantine, and Eradication Fund for a program to control and eradicate the coffee berry borer;
- (3) Changing its effective date to July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 283, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 283, H.D. 1, S.D. 2, C.D. 1.

Senators Nishihara, Ige, Kidani, Wakai and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Tsuji, Hashem, Coffman, Evans and Riviere.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 136-12 on H.B. No. 1942

The purpose of this measure is to help make the State's import system more efficient, increase available data on imported commodities, measure food self-sufficiency and sustainability, and promote compliance with existing state law by authorizing the use of funds in the Pest Inspection, Quarantine, and Eradication Fund for the Electronic Importer Manifest Program.

This measure also appropriates an unspecified amount from the Pest Inspection, Quarantine, and Eradication Fund to implement the Program.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$200,000 to implement the Electronic Importer Manifest Program; and
- (2) Changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1942, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1942, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 137-12 on H.B. No. 1943

The purpose of this measure is to provide funding for detector-dog inspector positions under the Department of Agriculture.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$162,540 to fund the plant quarantine detector-dog program, including one inspector/detector-dog trainer and three inspectors/dog handlers; and
- (2) Changing the effective date of this measure to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1943, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1943, H.D. 2, S.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 138-12 on H.B. No. 2100

The purpose of this measure is to promote agricultural production by appropriating general funds to the University of Hawaii system for bee hive research.

Your Committee on Conference has amended this measure by:

- (1) Changing the allocations to the several islands to allocations to the several counties instead;
- (2) Inserting an appropriation amount of \$30,000 and specifying an allocation in the amounts of \$5,000 to each of the counties and \$10,000 to the College of Agriculture, Forestry, and Natural Resource Management at the University of Hawaii at Hilo; and
- (3) Changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2100, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2100, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Ige, Nishihara, Kidani, Kahele and Slom.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, 1 (Ige).

Representatives Tsuji, Nishimoto, Hashem, Nakashima and Riviere.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 139-12 on H.B. No. 1953

The purpose of this measure is to improve access to emergency medical care for residents of Oahu by appropriating funds to:

- (1) Expand emergency medical services and ambulance services in communities in Leeward Oahu; and
- (2) Assist Wahiawa General Hospital in providing additional emergency room services that are required due to the closing of Hawaii Medical Center's two hospitals.

Your Committee on Conference notes that the appropriation of moneys in this measure is essential to address critical emergency medical service needs in the State.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provision appropriating funds as a grant to Wahiawa General Hospital to provide additional emergency room services;
- (2) Inserting the amount of \$1,000,000 into the appropriation to increase the on-call availability of emergency medical services and ambulance services;
- (3) Changing the effective date to July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1953, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1953, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 140-12 on H.B. No. 246

The purpose of this measure is to support the Department of the Prosecuting Attorney of the City and County of Honolulu by appropriating unspecified amounts as grants-in-aid for the Career Criminal Prosecution Unit, prosecution in Drug Court, Hawaii's Opportunity Probation with Enforcement Program, and Victim Witness Assistance Program, including the hiring of necessary staff.

Your Committee on Conference has amended this measure by:

- (1) Inserting the following appropriation amounts:
 - (A) \$734,973 for the Career Criminal Prosecution Unit;
 - (B) \$121,057 for prosecution in Drug Court;
 - (C) \$86,888 for the Hawaii's Opportunity Probation with Enforcement Program; and
 - (D) \$502,965 for the Victim Witness Assistance Program; and
- (2) Changing its effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 246, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 246, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Espero, Kidani and Slom.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 141-12 on H.B. No. 1755

The purpose and intent of this measure is to modify voter registration and related procedures by, among other things:

- (1) Authorizing the county clerk to accept voter registration applications electronically and establishing that the applicant's use of the electronic application to register will constitute consent for election officials to obtain confirmatory information;
- (2) Amending record keeping requirements affecting the maintenance of voters' names, affidavits of registration, and the use of tabulating cards, computer tapes, the register, and voter lists;
- (3) Deleting requirements that:
 - (A) The county clerk maintain segregated records for the Office of Hawaiian Affairs registered voters; and
 - (B) A person voting for the Board of Trustees of the Office of Hawaiian Affairs affirm that the person is Hawaiian;
- (4) Repealing the requirement that a list of registered voters in each precinct be posted at precinct polling places; and
- (5) Making an unspecified appropriation for fiscal year 2012-2013 from the general fund for the purpose of planning, designing, and implementing an online voter registration system.

Your Committee on Conference has amended this measure by appropriating \$500,000 from the general fund for fiscal year 2012-2013 for the planning, design, and implementation of an online voter registration system.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1755, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1755, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Keith-Agaran, Oshiro, Tsuji and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 142-12 on H.B. No. 2251

The purpose of this measure is to ensure the efficiency and cost effectiveness of the elections process by requiring the county clerk of any county with a population of less than 160,000 to mail an absentee ballot for each primary, special primary, special, general, and special general election to all registered voters of any island of the county that is not the county seat of government.

Your Committee on Conference has amended this measure by:

- (1) Changing its application to counties with populations of less than 180,000; and
- (2) Making the use of mail-only elections discretionary.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2251, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2251, S.D. 1, C.D. 1.

Conf. Com. Rep. 143-12 on H.B. No. 2883

The purpose of this measure is to require the Department of Land and Natural Resources to conduct a flood study for Makaha Valley and investigate all potential funding sources to finance the flood study and any improvements or repairs as recommended by the flood study. The measure also appropriates out of the general revenues of the State an unspecified amount for the flood study.

Your Committee on Conference has amended this measure by:

- (1) Changing the source of the appropriation for the flood study to the Special Land and Development Fund;
- (2) Appropriating \$500,000 for the study;
- (3) Changing the effective date to July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2883, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2883, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 144-12 on H.B. No. 2806

The purpose of this measure is to facilitate the preservation and protection of Hawaiian culture, native Hawaiian burial sites, and the State's environment. Specifically, the measure:

- (1) Establishes the Aha Moku Advisory Committee within the Department of Land and Natural Resources to advise the Chairperson of the Board of Land and Natural Resources;
- (2) Appropriates an unspecified sum for fiscal year 2012-2013 for the administrative costs related to carrying out the duties of the Aha Moku Advisory Committee; and
- (3) Establishes a reduced quorum requirement for island burial council meetings.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions relating to the reduced quorum requirement for island burial council meetings;
- (2) Authorizing the Aha Moku Advisory Committee executive director to hire an administrative or executive assistant to assist the executive director in accomplishing the purposes of the Aha Moku Advisory Committee;
- (3) Inserting a figure of \$76,500 as the appropriation for administrative costs related to carrying out the duties of the Aha Moku Advisory Committee; and

- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2806, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2806, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Galuteria, Ige, Dela Cruz, Kidani, Hee, Kahele, Ryan and Slom.

Managers on the part of the Senate.

Ayes, 7. Noes, none. Excused, 1 (Ige).

Representatives Hanohano, Chang, Oshiro, Awana, Carroll, Har and Ward.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, 1 (Carroll).

Conf. Com. Rep. 145-12 on H.B. No. 2319

The purpose and intent of this measure is to streamline governmental operations relating to high technology and economic development.

Specifically, this measure:

- (1) Exempts grants made under the community based economic development program from the state procurement code;
- (2) Clarifies that moneys in the hydrogen investment capital special fund shall be expended by the Hawaii Strategic Development Corporation; and
- (3) Repeals the High Technology Innovation Corporation.

Upon further consideration, your Committee on Conference has amended this measure by deleting its content and replacing it with the general substance of H.B. No. 2319, H.D. 2.

As amended, this measure:

- (1) Establishes a venture accelerator funding program under the Hawaii Strategic Development Corporation to:
 - (A) Assist the development of technology businesses in the State, such as information technology, aerospace, science, renewable energy, engineering, and film and digital media production; and
 - (B) Integrate entrepreneurial support and capital investment to develop technology industries in Hawaii;
- (2) Appropriates \$2,000,000, as a grant pursuant to Chapter 42F, Hawaii Revised Statutes, for fiscal year 2012-2013 for the Hawaii Strategic Development Corporation to establish the venture accelerator funding program; and
- (3) Takes effect on July 1, 2012.

Your Committee on Conference finds that the State has a strong interest in diversifying its economy and promoting the growth of innovative technology industries in the State. The creation of a venture accelerator funding program under the Hawaii Strategic Development Corporation will provide a means to support emerging high technology businesses by providing advisors, mentors, and resources that will assist the commercial development of those businesses. The venture accelerator funding program will also assist businesses in attracting venture capital investment to promote commercial success and sustained growth. Your Committee on Conference finds that this measure will promote economic growth and job creation in Hawaii's high technology sectors and provide opportunities for Hawaii's talented entrepreneurs, scientists, and engineers.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2319, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2319, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Kidani and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Choy, Hashem, Kawakami, Nakashima and Marumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 146-12 on H.B. No. 2873

The purpose and intent of this measure is to keep Hawaii competitive and attractive to space industry partners by improving the Pacific International Space Center for Exploration Systems' ("PISCES") ability to make timely and autonomous decisions and actions in the rapidly evolving aerospace sector.

Specifically, this measure:

- (1) Transfers PISCES from the University of Hawaii to the Department of Business, Economic Development, and Tourism; and

- (2) Authorizes the issuance of general obligation bonds and appropriates funds to construct the PISCES aerospace technology research and development park project.

Your Committee on Conference finds that PISCES drives economic growth in the State and promotes new, sustainable green industries along with associated jobs, workforce development, internships, and education programs in science, technology, engineering, and math. This measure will allow PISCES to maintain adequate flexibility to operate effectively within the fast-paced aerospace sector while continuing to work closely with the University of Hawaii. Finally, this measure will allow this State to boldly go where no other state has gone before.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Deleting all provisions relating to the issuance of general obligation bonds and the appropriation of revenues derived therefrom to construct the PISCES aerospace technology research and development park project because the general obligation bond issuance and appropriation for this project is contained in the executive branch's supplemental appropriations measure for fiscal year 2012-2013; and
- (2) Changing the amount of general revenues appropriated to operate the PISCES aerospace technology research and development park project from an unspecified amount to \$500,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2873, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2873, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Ige, Tokuda, Fukunaga, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, 1 (Ige).

Representatives McKelvey, Nishimoto, Oshiro, Choy, Nakashima, Tsuji and Marumoto.
Managers on the part of the House.
Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 147-12 on H.B. No. 1726

The purpose of this measure is to align the repeal dates of the Energy Systems Development Special Fund and the environmental response, energy, and food security tax by extending the repeal date of the Special Fund to 2015, along with the periodic evaluation and plan of action requirements for the Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting the preamble;
- (2) Changing the sunset date of Act 253, Session Laws of Hawaii 2007, to June 30, 2013; and
- (3) Changing the effective date to June 29, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1726, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1726, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kidani and Ihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Coffman, Kawakami and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 148-12 on H.B. No. 2302

The purpose of this measure is to improve the public housing inventory in the State by:

- (1) Authorizing the issuance of general obligation bonds for fiscal year 2012-2013 to fund the renovation of uninhabitable public housing units; and
- (2) Exempting capital improvement projects under this measure from the contest provisions of the Hawaii Public Procurement Code.

Upon consideration, your Committee on Conference has amended this measure by deleting its contents and inserting provisions that expedite the construction and improvement of public housing units and public infrastructure and address economic revitalization, by temporarily exempting from the state civil service, persons hired or contracted to perform repair, maintenance, or capital improvement projects work on vacant housing units under the jurisdiction of the Hawaii Public Housing Authority.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2302, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2302, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 149-12 on H.B. No. 2540

The purpose of this measure is to authorize the Department of Human Services to charge reasonable fees for the issuance and renewal of child care licenses and certificates of registration. This measure also establishes the child care licensing and registration special fund to pay for the costs incurred by the Department of Human Services in administering child care licensing and registration and to further the provision of quality child care services.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2540, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2540, H.D. 2, S.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, 1 (C. Lee).

Conf. Com. Rep. 150-12 on H.B. No. 2448

The purpose of this measure is to establish a formula for calculating the amount to be contributed by the State towards a Medicaid recipient's attorney's fees and costs incurred in obtaining a judgment, settlement, or award, in lieu of recovering the full amount. Among other things, this measure:

- (1) Clarifies that a notice of lien sent by the Department of Human Services for reimbursement of Medicaid benefits shall be accompanied by an itemized list of payments made by the Department;
- (2) Caps the amount of the department's lien at one-third of the settlement, judgment, or award, after its contribution for attorney's fees and expenses;
- (3) Defines the term "medical institution"; and
- (4) Requires the Department of Human Services to provide a written notice of lien to the court when restitution is sought from a third person in a criminal proceeding.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Department of Human Services to develop fair and equitable reimbursement levels for nursing facility residents who are Medicaid recipients;
- (2) Authorizing the Department of Human Services to develop an equitable referral system for Medicaid clients transferring from hospitals to community-based care homes;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2448, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2448, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 151-12 on H.B. No. 2415

The purpose of this measure is to develop a strategy to provide working individuals with disabilities with access to affordable health care.

Specifically, the measure:

- (1) Establishes a joint legislative task force to assist the Department of Human Services in developing and implementing a medicaid buy-in program for working individuals with disabilities; and
- (2) Requires the Department of Human Services to implement a medicaid buy-in program based upon the recommendations of the task force by July 1, 2014.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that the Department of Human Services implement a medicaid buy-in program based upon the recommendations of the task force by July 1, 2014;
- (2) Clarifying that the joint legislative task force shall explore the development and possible implementation of a medicaid buy-in program for working individuals with disabilities;
- (3) Specifying that the members of the joint legislative task force shall serve without compensation and shall receive no reimbursement for expenses; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2415, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2415, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 152-12 on H.B. No. 2404

The purpose of this measure is to ensure public access to government while reducing government spending by authorizing State and county government agencies to post required public notices electronically or online, and requiring State and county boards to post public notices and related material for public agency meetings online. Among other things, this measure also does as follows:

- (1) Eliminates the requirement for boards to post hard-copy notices of public meetings with the Office of the Lieutenant Governor;
- (2) Requires boards in situations involving technical difficulties to post hard-copy notices with the Office of the Lieutenant Governor or the appropriate county clerk's office;
- (3) Allows boards to notify by mail or electronic mail those who specifically request notice of meetings; and
- (4) Appropriates unspecified amounts of monies for both the Office of Information Management and Technology to create and maintain a centralized website for the State and the Hawaii State Public Library System to provide public access to and print public information from the centralized website.

Your Committee on Conference has amended this measure by among other things:

- (1) Providing a two-year window before requiring government agencies to post public notices only through electronic or online publication;
- (2) Requiring the State and counties to make reasonable efforts within the resources available to them to make their websites accessible to the disabled, elderly, and other individuals who require assistance;
- (3) Clarifying that meetings do not need to be canceled if the electronic notice that had been rejected by the electronic calendar was posted with the Office of the Lieutenant Governor or the respective county clerk;
- (4) Clarifying that where written materials were distributed in a state board meeting that requires disclosure under the State's freedom of information laws, those materials must be posted on the website of the board or, if none, on the website of the department within which the board is established;
- (5) Deleting language appropriating an unspecified amount to the Office of Information Management and Technology;
- (6) Appropriating \$284,200 for the Hawaii State Public Library System, and appropriating \$60,000 for fiscal year 2012-2013 to be expended by the Office of Information Practices to assist boards and commissions in meeting the new electronic posting requirements established under this measure;
- (7) Removing language establishing January 1, 2014, as the date the electronic or online publication of notices will be implemented and fully operational; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2404, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2404, H.D. 1, S.D. 2, C.D. 1.

Signed by the Senate Majority Leader and Chairs on behalf of the Committee.

Senators Fukunaga, Hee, Ige, Baker, English and Slom.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 3. Noes, 1 (Thielen). Excused, none.

Conf. Com. Rep. 153-12 on H.B. No. 304

The purpose of this bill is to appropriate funds for fiscal year 2012-2013 to various programs and organizations that provide essential education, public health, and public welfare services in the State.

Your Committee on Conference has amended this bill by:

- (1) Inserting monetary amounts as follows:
 - (A) \$325,000 as a grant to Catholic Charities Hawaii;
 - (B) \$50,000 as a grant to the Moiliili Community Center;
 - (C) \$60,000 as a grant to the Waikiki Community Center;
 - (D) \$151,391 as a grant to Child and Family Service - Kauai;
 - (E) \$160,389 as a grant to Child and Family Service - Oahu;
 - (F) \$137,000 as a grant to Child and Family Service - Maui;
 - (G) \$450,000 as a grant to Susannah Wesley Community Center;
 - (H) \$274,111 as a grant to Adult Friends for Youth;
 - (I) \$110,000 as a grant to Partners in Development Foundation;
 - (J) \$150,000 as a grant to The Children's Alliance of Hawaii, Inc.;
 - (K) \$204,628 as a grant to Domestic Violence Action Center;
 - (L) \$1,392,000 to provide grants to Volunteer Legal Services Hawaii, the Legal Aid Society of Hawaii, and the Hawaii Family Law Clinic;
 - (M) \$450,293 as a grant to Read Aloud America, Inc.; and
 - (N) \$169,592 as a grant to Read To Me International Foundation for reading programs for children of incarcerated parents;
- (2) Inserting additional appropriations as follows:
 - (A) \$50,000 as a grant to the Alzheimer's Association – Aloha Chapter;
 - (B) \$225,000 as a grant to Ballet Hawaii;
 - (C) \$125,000 as a grant to Best Buddies International;
 - (D) \$166,175 as a grant to The Chamber of Commerce of Hawaii;
 - (E) \$140,000 as a grant to the Coalition for a Drug-Free Hawaii;
 - (F) \$52,800 as a grant to Family Promise of Hawaii;
 - (G) \$50,000 as a grant to Gregory House Programs;
 - (H) \$400,000 as a grant to Hawaii 3R's;
 - (I) \$500,000 as a grant to Hawaii Meth Project;
 - (J) \$400,000 as a grant to Hawaii United Okinawa Association;
 - (K) \$468,000 as a grant to the Hawaii Theater Center;
 - (L) \$750,000 as a grant to Kalihi-Palama Health Center;
 - (M) \$400,000 as a grant to La'i Opua 2020;
 - (N) \$400,000 as a grant to Malama Learning Center;
 - (O) \$100,000 as a grant to Moanalua Gardens Foundation;

- (P) \$288,060 as a grant to ORI Anuenue Hale, Inc.;
 - (Q) \$500,000 as a grant to Pacific Renal Care Foundation;
 - (R) \$68,940 as a grant to Palama Settlement;
 - (S) \$200,000 as a grant to Parents And Children Together;
 - (T) \$150,000 as a grant to Surfing the Nations;
 - (U) \$1,750,000 a grant to Wahiawa General Hospital; and
 - (V) \$375,000 as a grant to Waiohuli Hawaiian Center, Inc.;
- (3) Deleting all other appropriations; and
 - (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 304, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 304, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 154-12 on S.B. No. 2116

The purpose of this measure is to facilitate the implementation of the recommendations of the Charter School Governance, Accountability, and Authority Task Force by:

- (1) Requiring the Board of Education to contract for an Implementation and Transition Coordinator (Coordinator) to assist with the implementation of S.B. No. 2115, Regular Session of 2012, which reorganizes the charter school governance structure; and
- (2) Making an unspecified appropriation to support the Coordinator position.

Your Committee on Conference finds that the Charter School Governance, Accountability, and Authority Task Force ("Task Force") was established pursuant to Act 130, Session Laws of Hawaii 2011, in response to questions and concerns raised by policy makers and advocates alike about the integrity of Hawaii's charter school governance structure and the overall strength of Hawaii's laws in establishing clear lines of authority to ensure accountability of the charter school system.

The Task Force concluded its work and issued its report and recommendations to the Legislature, which are included in S.B. No. 2115 (2012). This measure will provide the Department of Education and charter school stakeholders with the means to create a comprehensive transition framework to implement the recommendations of the Task Force to move Hawaii's charter schools toward greater student outcomes.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 to fund the Coordinator position;
- (2) Making this measure effective on July 1, 2012; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2116, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2116, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Yamashita, Takumi and Johanson.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 155-12 on S.B. No. 2778

The purpose of this measure is to:

- (1) Establish a childhood obesity prevention task force to develop and recommend legislation related to the prevention of childhood obesity; and
- (2) Appropriate funds to study Hawaii-specific data and promote awareness and best practices relating to childhood obesity.

Your Committee on Conference finds that the period of early childhood is critical to an individual's health, educational success, and wellbeing throughout their lifespan.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1;
- (2) Changing the appropriation source from the general fund to the Hawaii tobacco settlement special fund; and
- (3) Changing the effective date to July 1, 2012;

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2778, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2778, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige, Chun Oakland, Ryan and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Yamane, Morikawa, M. Lee, Mizuno and Ching.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 156-12 on S.B. No. 2424

The purpose of this measure is to facilitate the implementation of the professional employer organization law established by Act 129, Session Laws of Hawaii 2010. Among other things, this measure:

- (1) Establishes the professional employer organization special fund;
- (2) Gives additional powers and duties to the Director of Labor and Industrial Relations regarding the registration and regulation of professional employer organizations;
- (3) Amends bond level requirements for professional employer organizations;
- (4) Repeals chapter 373K, Hawaii Revised Statutes, but incorporates the general excise tax exemption into chapter 373L, Hawaii Revised Statutes; and
- (5) Appropriates funds to the Department of Labor and Industrial Relations.

Your Committee on Conference finds that Act 225, Session Laws of Hawaii 2007, established a new chapter in the Hawaii Revised Statutes on professional employment organizations. The main purpose of Act 225 was to provide a general excise tax exemption for these organizations. Your Committee on Conference further finds that Act 129, Session Laws of Hawaii 2010, established registration requirements for professional employer organizations in Hawaii. Although the registration requirements went into effect July 1, 2011, amendments to the existing statute are needed before the Department of Labor and Industrial Relations can fully implement the law.

Your Committee on Conference additionally finds that this measure eliminates duplicative provisions relating to professional employer organizations and facilitates the implementation of the professional employer organization law, as established by Act 129, Session Laws of Hawaii 2010.

Your Committee on Conference has amended this measure by:

- (1) Specifying an application fee of \$100;
- (2) Specifying the following biennial renewal fees based on the average annual count of covered employees:
 - (A) \$2,500 for 0 – 100 covered employees;
 - (B) \$3,000 for 101 – 250 covered employees;
 - (C) \$5,000 for 251 – 499 covered employees; and
 - (D) \$10,000 for 500 or more covered employees;
- (3) Specifying a restoration fee of \$500;
- (4) Clarifying that during the term of the agreement between a professional employer organization and its client company, the professional employer organization shall be deemed the employer for purposes of unemployment insurance, workers' compensation, temporary disability insurance, and prepaid health care coverage;
- (5) Clarifying when written notice of the relationship between the professional employer organization and the client company must be provided to each covered employee of the client company;
- (6) Requiring a professional employer organization to provide written notice to the Department of Labor and Industrial Relations of the relationship between the professional employer organization and the client company within five business days of both the initiation and termination of the relationship, and requiring the Department to keep the notice confidential;
- (7) Deleting the definition of "assurance organization" and corresponding provisions relating to assurance organizations acting on a professional employer organization's behalf for registration and bonding purposes;

- (8) Deleting the definition of “co-employment” and making corresponding clarifying amendments to the terms “covered employee” and “professional employer agreement”;
- (9) Clarifying the financial statements required as part of the registration information for professional employer organizations;
- (10) Clarifying that any bond posted shall name the Director of Labor and Industrial Relations as the obligee and may be cancelled by either the professional employer organization or the surety in specific circumstances;
- (11) Clarifying the purpose of the bond, including fulfilling the obligations of the professional employer organization to the State, client companies, and covered employees who may suffer loss in specific circumstances;
- (12) Clarifying that the Department of Labor and Industrial Relations may immediately apply to the court to enjoin a professional employer organization that fails to have a current bond in effect and does not cease doing business;
- (13) Clarifying that an action on the bond may be brought for claims of loss resulting from noncompliance and failure to make payments by a professional employer organization;
- (14) Retaining the authorization for the Director of Labor and Industrial Relations to establish .5 full-time equivalent permanent additional positions, including a disability compensation enforcement specialist IV and office assistant IV, but deleting authorization for the establishment of an auditor IV position;
- (15) Inserting an appropriation of \$177,500 out of the general fund, to be deposited to the credit of the professional employer organization special fund;
- (16) Specifying an appropriation of \$177,500 out of the professional employer organization special fund, and itemizing the purposes of the appropriation;
- (17) Inserting an effective date of upon approval; provided that the appropriation sections of this measure shall take effect on July 1, 2012; and
- (18) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2424, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2424, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Hee and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Rhoads, McKelvey, Herkes, Ito, Yamashita and Johanson.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 157-12 on S.B. No. 2780

The purpose of this measure is to:

- (1) Identify and transfer money from designated sources into the shared services technology special fund for the State’s information technology transformation initiative; and
- (2) Require state departments to offer to sell or donate office equipment to schools, nonprofits, or salvage businesses before disposal.

Your Committee on Conference finds that the initiative to modernize and transform the State’s technology infrastructure, systems, processes, and procedures is well underway, and the first phase of the modernization initiative was completed with the publishing of the “Baseline of Information Management and Technology and Comprehensive View of State Services” report in September 2011. The findings and recommendations in this report provide the basis for the strategic direction that the State needs to take going forward, and the development of the statewide information technology strategic plan, which will include a business transformation strategy, is anticipated to be delivered by the Chief Information Officer in July 2012.

Your Committee on Conference has amended this measure by deleting its contents and replacing them with the language in the S.D. 1 version, which:

- (1) Contains an extensive findings and purpose section regarding the business and technology transformation initiative to prepare the State for the larger transformation activities that will be defined in the forthcoming information technology strategic plan;
- (2) Appropriates monies for the information technology transformation initiative in fiscal year 2012-2013, and authorizes issuance of general obligation bonds for planning, design, and requirements necessary to develop and implement an integrated financial and human resource management system for the State; and
- (3) Inserts an effective date of July 1, 2012.

Your Committee on Conference has further amended this measure by:

- (1) Deleting the appropriation and general obligation bond authorization;

- (2) Beginning July 30, 2012, requiring the State Procurement Office and the Office of Information Management and Technology to submit monthly reports to the Legislature on the status of information technology procurements for authorized projects undertaken by the Office of Information Management and Technology to implement the State's information technology strategic plan;
- (3) Authorizing, where appropriate, the State Procurement Officer to approve exemptions for individual procurements that facilitate the immediate deployment of demonstration technology projects authorized in the Supplemental Appropriations Act of 2012 under information and communication services (AGS 131) that will be completed by June 30, 2013; and
- (4) Requiring the Office of Information Management and Technology to submit a report on the number of information technology procurements completed on an expedited basis, the results achieved in each technology project, as well as recommendations on the feasibility of establishing a new category for information technology procurements within the State's procurement laws.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2780, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2780, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Oshiro, Choy, Yamashita and Marumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 158-12 on S.B. No. 2939

The purpose of this measure is to authorize the issuance of special purpose revenue bonds in an amount not to exceed \$80,000,000 to St. Francis Healthcare System of Hawaii to finance the construction, improvement, and equipment of its healthcare facilities.

Your Committee on Conference finds that aiding the efforts of St. Francis Healthcare System of Hawaii to improve its facilities and services is in the interest of the health, safety, and wellbeing of the residents of the State.

Your Committee on Conference has amended this measure by:

- (1) Restricting the uses for which the issuance of special purpose revenue bonds is authorized to financing the construction, improvement, and equipment of the facilities formerly known as Hawaii Medical Center East that are devoted solely to assisted living services, hospice care, adult day care, or other outpatient services, and not to improving or constructing facilities for long-term care or skilled nursing facilities; and
- (2) Inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2939, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2939, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige, Chun Oakland and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Yamane, Morikawa, Aquino, Cabanilla, Cullen, Har and Ching.
Managers on the part of the House.
Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 159-12 on S.B. No. 2827

The purpose of this measure is to add to the uses of the monies in the trauma system special fund the costs to staff, operate, and continue the services of the injury prevention program.

Your Committee on Conference finds that the injury prevention program is an essential facet of the State's comprehensive trauma system and that the prevention program is the most cost-effective method to reduce the costs associated with injury care. Your Committee on Conference also finds that the injury prevention program is largely funded through federal monies that have been considerably reduced. With more state funding, the injury prevention program will be allowed increased security and be better able to fulfill its purposes to benefit all residents of the State.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2827, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2827, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige, Chun Oakland and Slom.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Yamane, Morikawa, M. Lee and Ching.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 160-12 on S.B. No. 2536

The purpose of this measure is to:

- (1) Establish a clean and sober home and halfway house task force; and
- (2) Appropriate funds to meet costs and expenditures for the clean and sober home and halfway house task force and related reports and activities required by the Legislature.

Your Committee on Conference finds that the needs and concerns of the communities in which clean and sober homes and halfway homes are established need to be tempered with the needs of individuals requiring the support of such facilities.

Your Committee on Conference has amended this measure by:

- (1) Adding the establishment of a pilot clean and sober home and halfway house in a county with a population over 900,000 to the task force's responsibilities;
- (2) Deleting the appropriation; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2536, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2536, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige, Espero, Chun Oakland and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 161-12 on S.B. No. 2435

The purpose of this measure is to:

- (1) Require the Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services to develop a program that charges and collects a reasonable fee to enable individuals who are not blind, visually-impaired, or print-disabled to access newspapers, magazines, and television listings twenty-four hours a day, seven days a week, by means of a touch-tone telephone, the Internet, or by downloading the electronic information to a digital talking book player on MP3 playing device; and
- (2) Appropriate funds for the Vocational Rehabilitation and Services for the Blind Division to maintain a telephone-based audible information access service.

Your Committee on Conference finds that it is essential to provide access to the Newslines service to print-disabled clients, including those who are blind, visually impaired, dyslexic, or have learning disabilities.

Your Committee on Conference also finds that access to the Newslines service is already available for persons on Oahu. This measure provides funds to the Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services to maintain a telephone-based audible information access service on the neighbor islands.

Your Committee on Conference has amended this measure by:

- (1) Deleting the language that required the Vocational Rehabilitation and Services for the Blind Division to develop a program for access to newspapers, or print-disabled to access newspapers, magazines, and television listings by certain individuals;
- (2) Adding a proviso to the appropriation that the Vocational Rehabilitation and Services for the Blind Division's contract for services be with a Hawaii affiliate of a national organization that meets certain requirements;
- (3) Inserting an appropriation amount of \$80,000; and
- (4) Changing the effective date from July 1, 2030, to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2435, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2435, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green and Slom.
Managers on the part of the Senate.

Representatives Mizuno, Yamane, Jordan, Morikawa and Pine.
Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 162-12 on S.B. No. 2779

The purpose of this measure is to:

- (1) Authorize the establishment of a statewide aging and disability resource center with sites in each county to streamline access to long-term supports and services for older adults, persons with disabilities, and family caregivers; and
- (2) Make an appropriation to the Executive Office on Aging to administer and establish a statewide aging and disability resource center with sites in each county.

Your Committee on Conference finds that the Older Americans Act was amended to include the establishment of aging and disability resource centers under the direction of each state agency on aging. To meet this requirement, the Executive Office on Aging, the four county Area Agencies on Aging, and the Home and Community-based Strategies, Inc., engaged in a two-year planning process to develop a five-year systems change to implement the plan. This measure authorizes the establishment of and appropriates funds for aging and disability resource center sites in each county to streamline access to long-term supports and services for older adults, persons with disabilities, and family caregivers.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,400,000; and
- (2) Changing the effective date from July 1, 2030, to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2779, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2779, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Ihara, Ryan and Slom.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

Representatives Mizuno, Yamane, Jordan, M. Lee, Morikawa and Pine.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 163-12 on S.B. No. 2261

The purpose of this bill is to:

- (1) Establish a permanent weed and seed program within the Department of Labor and Industrial Relations to continue the program's success; and
- (2) Appropriate funds to maintain current operations of the weed and seed program and expand the weed and seed program into other areas of the State.

Your Committee on Conference finds that the weed and seed program works with local law enforcement to prevent, control, and reduce violent crime, drug abuse, and gang activity in targeted neighborhoods by "weeding" out the criminal element in the community. Community policing involves police officers working closely with community residents to develop solutions to violent and drug-related crimes. "Seeding" the community involves collaboration among various human services organizations to implement prevention, intervention treatment, and neighborhood revitalization projects, programs, and activities. Your Committee on Conference further finds that the weed and seed program's success warrants the continued operation of weed and seed and envisions the expansion of the program to other communities in the future.

Your Committee on Conference has amended this measure by:

- (1) Deleting the establishment of the weed and seed program in statute;
- (2) Clarifying that the appropriation for the weed and seed program is to maintain the program in areas currently designated for the program;
- (3) Inserting an appropriation amount of \$336,000 for the weed and seed program;
- (4) Changing the effective date to July 1, 2012; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2261, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2261, H.D. 1, C.D. 1.

Conf. Com. Rep. 164-12 on S.B. No. 112

The purpose of this measure is to appropriate funds for the application for a spaceport license from the Federal Aviation Administration.

Your Committee on Conference finds that expanding the State's tourism product by developing new niche products, such as space tourism, can enhance Hawaii's appeal as a tourist destination. Space tourism is a potential billion dollar global industry that could significantly increase state revenues, provide new aerospace jobs, and rejuvenate economic development in the Kalaheo area. The Federal Aviation Administration is expected to issue a limited number of spaceport licenses, your Committee on Conference finds that this measure is crucial to position Hawaii for that economic opportunity.

Funding under this measure will enable the Department of Business, Economic Development, and Tourism to conduct the environmental and safety assessment studies required for this license to certify that space plane operations can be conducted safely in Hawaii. Similar studies at airports nationwide have universally resulted in findings of no significant impact.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000; provided that no funds shall be made available unless the federal government provides a dollar-for-dollar match of funds for the purpose for which this sum is appropriated;
- (2) Changing the deadline for the report from the Department of Business, Economic Development, and Tourism on the status of the application to twenty days prior to the convening of the Regular Session of 2013; and
- (3) Changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 112, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 112, S.D. 1, H.D. 1, C.D. 1.

Signed by the House Majority Leader and Chairs on behalf of the Committee.

Senators Espero, Ige, Fukunaga, Kim, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, 1 (Ige).

Representatives McKelvey, Brower, Choy, Evans and Marumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 165-12 on S.B. No. 2776

The purpose of this measure is to implement the recommendations of the justice reinvestment working group. This measure is a recommendation of the Council of State Governments Justice Center, which provided intensive technical assistance to Hawaii to conduct a comprehensive analysis of the State's criminal justice system and to help state leaders develop policy options that could increase public safety while saving taxpayer dollars. The Justice Center utilized a data-driven approach to identify inefficiencies, develop cost-effective policy options, and develop a plan for a reinvestment of savings that reduces recidivism and increases public safety.

Your Committee on Conference finds that this measure would contribute to increasing public safety by, among other things:

- (1) Addressing the inefficiencies that tie up resources in ways that do not reduce crime and reinvesting in ways that do;
- (2) Focusing resources on supervision, incarceration, and treatment of those individuals who are most likely to benefit from those investments in terms of reducing their likelihood of committing another crime;
- (3) Increasing accountability in Hawaii's criminal justice system by mandating a period of supervision and increasing the amount of victim restitution collected; and
- (4) Increasing the effectiveness and efficiency of the Hawaii Paroling Authority.

The intent of your Committee on Conference is to realize cost savings and reinvest those savings back into the corrections system to reduce recidivism, decrease the prison population, and strengthen public safety.

Your Committee on Conference has amended this measure by:

- (1) Requiring that the minimum term of imprisonment shall be as determined by the court or the paroling authority, as the case may be;
- (2) Requiring the Department of Public Safety to select a research-based risk assessment tool and validate the accuracy of the risk assessment tool at least every five years in consultation with the Hawaii Paroling Authority;
- (3) Specifying that parole shall be granted upon completion of the minimum term to a person who is assessed as low risk for reoffending unless the person, among other things, is found to have:

- (A) Committed misconduct while in prison that is equivalent to a misdemeanor or felony crime within thirty-six months of the expiration of the minimum term of imprisonment; or
- (B) An extensive criminal history record that is indicative of a likelihood of future criminal behavior in spite of the finding by the risk assessment;
- (4) Deleting the requirement that a person successfully complete a sex offender treatment program if the person is incarcerated for a sexual offense or child abuse, in order to be granted parole upon completion of the minimum term or imprisonment;
- (5) Deleting the language that required supervised release on parole prior to the maximum term of imprisonment;
- (6) Deleting part V, which appropriated funds for various positions;
- (7) Changing the effective date to July 1, 2012; provided that:
 - (A) The amendments made to section 353-10, Hawaii Revised Statutes, shall take effect on January 1, 2013, and shall be repealed on July 1, 2018;
 - (B) The amendments made to section 353-66(e), Hawaii Revised Statutes, shall take effect on July 1, 2012, for any individual on parole supervision on or after July 1, 2012, and shall be repealed on July 1, 2018;
 - (C) The amendments made to section 706-670(1), Hawaii Revised Statutes, shall take effect on July 1, 2012, and shall be applicable to individuals committing an offense on or after that date; and shall be repealed on July 1, 2018; and
 - (D) The amendments made to sections 353-22.6 and 353-69, Hawaii Revised Statutes, shall be repealed on July 1, 2018; and
- (8) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

Your Committee on Conference notes that it considered changing the period of confinement for retaken paroled prisoners for violating certain conditions of parole to the shorter of the remaining unserved term or no more than twelve months, rather than six months, but decided against it in the best interest of the rehabilitation of the person.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2776, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2776, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Ige, Hee, Kidani, Ryan and Slom.

Managers on the part of the Senate.

Ayes, 5, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ige).

Representatives Aquino, Keith-Agaran, Oshiro, Cullen, Ito and Fontaine.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 166-12 on S.B. No. 2320

The purpose of this measure is to build a statewide system of support for Hawaii's older adults and their family caregivers by:

- (1) Codifying the authorization for the establishment of the kupuna care program;
- (2) Appropriating funds to the health aging partnership program of the Department of Health's Executive Office on Aging;
- (3) Appropriating funds for grants to Catholic Charities Hawaii, Moiliili Community Center, and the Waikiki Community Center to support senior centers; and
- (4) Appropriating funds for a grant to the Alzheimer's Association, Aloha Chapter, to, among other things, establish a wanderer's registration service.

Your Committee on Conference finds that the growing elderly population in Hawaii requires a significant amount of assistance, which the elderly receive through programs and services such as kupuna care, the healthy aging program, and senior centers. These programs and facilities assist older persons in leading independent, meaningful, and dignified lives in their own homes and communities for as long as possible. Your Committee on Conference also finds that the elder registration services will allow direct access to wanderer and caregiver information and emergency contact information. This measure will provide Hawaii's kupuna with the services and supports they need, including services that are person-centered and consumer-directed, to age with independence and grace.

Your Committee on Conference has therefore amended this measure by:

- (1) Deleting language that requires kupuna care program services be person-centered and consumer-directed;
- (2) Inserting an appropriation amount of \$4,200,000 for the kupuna care program;
- (3) Inserting an appropriation amount of \$426,772 for the healthy aging partnership program;
- (4) Inserting an appropriation amount of \$285,000 for senior centers, to be allocated as follows:
 - (A) \$175,000 for Catholic Charities Hawaii for the Lanakila Multi-Purpose Senior Center;
 - (B) \$50,000 for the Moiliili Community Center for the Moiliili Senior Center; and

- (C) \$60,000 for the Waikiki Community Center;
- (5) Inserting an appropriation amount of \$50,000 for the Alzheimer's Association, Aloha Chapter, to, among other things, establish the wanderer's registration service;
 - (6) Deleting language that directed the Alzheimer's Association, Aloha Chapter, to use appropriated funds to issue customized updates and information through social media to provide alerts to the community and assist with search and rescue efforts; and
 - (7) Changing the effective date from July 1, 2030, to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2320, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2320, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Green, Ihara and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

Managers on the part of the House.
Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 167-12 on S.B. No. 490

The purpose of this measure is to:

- (1) Increase the maximum allocation of transient accommodations tax revenue to the tourism special fund from \$69,000,000 to an unspecified amount until June 30, 2015; and
- (2) Require an unspecified amount of monies in the tourism special fund to be expended for initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii.

Your Committee on Conference finds that the federal government's initiatives to make it easier for international travelers to visit the United States through improved visa processing and visa waivers will be highly beneficial to Hawaii's tourism economy and this measure will allow further development and implementation of programs to take advantage of the expanded visa programs and international travel opportunities, particularly from Asia.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$71,000,000 as the maximum allocation of transient accommodations tax revenue to the tourism special fund until June 30, 2015;
- (2) Inserting an amount of \$2,000,000 of tourism special fund monies to be expended for initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii until June 30, 2015; and
- (3) Inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 490, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 490, S.D. 3, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kouchi and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 168-12 on S.B. No. 2220

The purpose of this measure is to improve public safety by providing a mechanism for self-sufficiency for the Boiler and Elevator Inspection Branch of the Department of Labor and Industrial Relations. Specifically, this measure:

- (1) Establishes fee schedules for inspections, permits, and examinations of boiler and pressure systems, elevator and kindred equipment, and amusement rides;
- (2) Establishes the boiler and elevator special fund into which will be deposited fees from inspections, permits, and examinations of boiler and pressure systems, elevator and kindred equipment, and amusement rides;
- (3) Authorizes the Director of Labor and Industrial Relations to establish ten additional permanent positions in the Boiler and Elevator Inspection Branch;
- (4) Requires the Department of Labor and Industrial Relations to submit an annual report to the Legislature prior to each regular session, starting with the 2013 Regular Session, on:

- (A) The status of the elevator and boiler inspection backlog;
 - (B) The number of inspections completed for the year; and
 - (C) The effect that the increase in fees and the establishment of the boiler and elevator special fund have had on the elevator and boiler inspection backlog;
- (5) Appropriates an unspecified amount from the general fund for start up funds to be deposited into the boiler and elevator special fund; provided that the general fund is reimbursed within five years of the effective date of this measure; and
- (6) Appropriates an unspecified amount out of the boiler and elevator special fund for the purposes specified in this measure.

Your Committee on Conference finds that the Boiler and Elevator Inspection Branch operates entirely on general funds, and permit and inspection fees have not changed since 1998. Despite process improvements, seventy-five percent of elevators and fifty percent of boilers are operating without a current permit. Furthermore, the branch has a backlog in performing critical load tests on elevators, internal inspections of escalators, and inspections of amusement rides. This measure provides a mechanism for self-sufficiency to enable the branch to hire and retain qualified personnel and carry out inspection and permitting functions related to public safety.

Your Committee on Conference has amended this measure by:

- (1) Allowing any appropriations from the Legislature to be deposited into the boiler and elevator special fund;
- (2) Allowing the expenditure of monies in the boiler and elevator special fund to reimburse the general fund for start-up funds;
- (3) Requiring the Director of Labor and Industrial Relations to reimburse the general fund, no later than five years from the date the special fund was established, for any initial general revenue appropriations deposited into the special fund;
- (4) Clarifying that all fees received by the Department of Labor and Industrial Relations pursuant to the fee schedules established in this measure shall be paid into the boiler and elevator special fund;
- (5) Clarifying language to specify that the inspection fee for a power boiler with manholes with exactly 10,000 square feet of heating surface shall be \$260;
- (6) Clarifying that any civil penalties owed under chapter 397, Hawaii Revised Statutes, shall be paid to the Department of Labor and Industrial Relations and deposited into the general fund;
- (7) Deleting language that authorized the Director of Labor and Industrial Relations to establish ten additional permanent positions in the Boiler and Elevator Inspection Branch;
- (8) Deleting language that required the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the status of the elevator and boiler inspection backlog, the number of inspections completed for the year, and the effect that the increase in fees and the establishment of the boiler and elevator special fund have had on the elevator and boiler inspection backlog;
- (9) Inserting the sum of \$1,000,000 to be appropriated out of the general fund for fiscal year 2012-2013, for start up funds to be deposited to the credit of the boiler and elevator special fund;
- (10) Deleting language that appropriates an unspecified amount out of the boiler and elevator special fund for fiscal year 2012-2013, to be used for the purposes of this measure;
- (11) Changing the effective date to July 1, 2012; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2220, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2220, S.D. 1, H.D. 2, C.D. 1.

Signed by the House Majority Leader and Chairs on behalf of the Committee.

Senators Hee, Kidani and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 169-12 on S.B. No. 2695

The purpose of this measure is to:

- (1) Require the Department of Agriculture to collaborate with other institutions to implement a livestock feed feasibility pilot project; and
- (2) Make an appropriation in an unspecified amount out of the general fund to the Department of Agriculture for the livestock feed feasibility pilot project.

Your Committee on Conference finds that the rising cost of livestock feed has a significant impact on production costs for local protein producers. This measure would establish a livestock feed feasibility pilot project to help address the rising cost of feed and explore ways to increase the sustainability of our local protein sources. In addition, a portion of the funds appropriated in this measure

shall be used to serve as matching funds for a federal construction grant awarded to build a pilot-scale feed mill to assess the operational feasibility of a feed mill in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 from the general fund for the livestock feed feasibility pilot project;
- (2) Removing the requirement that the appropriation from the general fund be matched dollar-for-dollar by an appropriation from the agricultural development and food security special fund;
- (3) Making an additional appropriation in the amount of \$250,000 from the general fund to reimburse qualified producers of milk, pork, eggs, poultry, and beef, for the cost of feed for beef cattle, dairy cows or goats, hogs, and poultry up to the lesser of \$200,000 or ten percent of feed costs;
- (4) Making this measure effective on July 1, 2012; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2695, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2695, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Ige, Kidani and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Tsuji, Hashem, Nakashima and Riviere.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 170-12 on H.B. No. 1968

The purpose of this bill is to protect public safety by appropriating an unspecified sum out of the Reduced Ignition Propensity Cigarette Program Special Fund for a full-time administrator, a full-time assistant, and other costs to implement the reduced ignition propensity cigarette certification program.

Your Committee on Conference has amended this bill by appropriating \$400,000 for the purpose of funding one full-time administrator, one full-time assistant, and other costs.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1968, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1968, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ige, Espero, Green and Taniguchi.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Aquino, Cullen, Yamane and Fontaine.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 171-12 on H.B. No. 2226

The purpose of this measure is codify the operations of and establish a permanent source of funding for the Statewide Automated Victim Information and Notification System, which provides victims of crime and concerned individuals with current and accurate information on the status of specific offenders and criminal proceedings.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of "offender" to include all adult offenders in the custody of the Department of Public Safety or the Hawaii Paroling Authority;
- (2) Adding an expenditure ceiling of \$600,000 per fiscal year to the Automated Victim Information and Notification System Special Fund;
- (3) Specifying that no federal funds shall be transferred or deposited into the Automated Victim Information and Notification System Special Fund;
- (4) Specifying that the members of the Automated Victim Information and Notification System Governance Committee:
 - (A) Shall be appointed by the Director of Public Safety from a list submitted by the Governance Committee; provided that the list for appointment of initial members shall be provided by the body currently serving as the Governance Committee under a federal grant establishing the victim notification system;
 - (B) Shall serve no more than two consecutive four-year terms subject to specified conditions for length of term, filling vacancies, and removal or suspension; and

- (C) Shall be exempt from civil or criminal liability for good-faith actions undertaken within the scope of their official duty and without gross negligence or misconduct;
- (5) Specifying that the operations of the Automated Victim Information and Notification System shall continue to operate under its current funding structure, including certain federal funds, until the Automated Victim Information and Notification System Special Fund contains sufficient moneys to support its operations;
- (6) Specifying an appropriation amount of \$250,000 from the Automated Victim Information and Notification System Special Fund, which shall be made available upon the accumulation of sufficient funds to carry out operations of the Automated Victim Information and Notification System; and
- (7) Inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2226, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2226, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Ige, Kidani and Ryan.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Aquino, Keith-Agaran, Cullen, M. Lee and Fontaine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 172-12 on H.B. No. 2599

The purpose of this measure is to:

- (1) Require each reentry intake service center for adults to provide:
 - (A) Pretrial assessment on adult offenders that are consented to by the defendant or that are ordered by the court, instead of preparing presentence assessments; and
 - (B) Continuing supervision and control of persons placed on pretrial supervision by the court and persons ordered by the Director of Public Safety;
- (2) Amend Act 24, Special Session Laws of Hawaii (SSLH) 2009, to include:
 - (A) Requiring the Reentry Commission to ensure that the Comprehensive Offender Reentry System under Chapter 353H, Hawaii Revised Statutes, is implemented as soon as practicable to provide programs and services resulting in the release of inmates onto parole when the maximum terms of the inmates have been served;
 - (B) Changing the composition of the Reentry Commission; and
 - (C) Repealing the Reentry Commission on December 1, 2016; and
- (3) Specify that the Reentry Commission members appointed pursuant to Act 24, SSLH 2009, shall cease to be members of the Commission on June 30, 2012, and beginning July 1, 2012, new members to the Commission shall be selected as set forth under this measure.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions in this measure with respect to the amendments to Act 24, SSLH 2009;
- (2) Deleting the provision regarding the repeal of the existing Reentry Commission members, and the selection of the new Commission members specified under this measure;
- (3) Changing its effective date to July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2599, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2599, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Ige, Hee, Ihara, Ryan and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 2 (Ige, Ihara).

Representatives Aquino, Oshiro, Cullen, Ichiyama and Fontaine.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 173-12 on S.B. No. 2545

The purpose of this measure is, among other things, to:

- (1) Establish the Executive Office on Early Learning;
- (2) Establish the Early Learning Advisory Board and repeal the Early Learning Council;
- (3) Establish the Pre-Plus Program within the Executive Office on Early Learning;
- (4) Require students to be at least five years old by July 31 of the school year, beginning with the 2014-2015 school year, in order to attend a public school kindergarten;
- (5) Require the Executive Office on Early Learning to report to the Legislature prior to the Regular Session of 2013 on the status of an implementation plan for the development of the Keiki First Steps program; and
- (6) Appropriate an unspecified amount to establish the Executive Office on Early Learning.

Your Committee on Conference finds that early experiences lay the groundwork for a child's lifelong learning and behavior. Your Committee on Conference further finds that high quality early learning programs that are affordable and accessible for all children are critically important to ensure the success of Hawaii's children. Establishing an Executive Office on Early Learning will help the State meet its goal of providing a viable early learning system for the keiki of Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Temporarily placing the Executive Office on Early Learning within the Office of the Governor until June 30, 2015, after which the Executive Office on Early Learning shall be permanently established within the Department of Education;
- (2) Removing the requirement that the Director of the Executive Office on Early Learning be subject to the advice and consent of the Senate;
- (3) Removing the requirement that the staff of the Executive Office on Early Learning be hired pursuant to chapter 76, Hawaii Revised Statutes;
- (4) Inserting language from the S.D. 2 version of this measure to require that the members serving on the Early Learning Council on the effective date of this measure shall serve as the initial members of the Early Learning Advisory Board and shall continue to serve as members of the Early Learning Advisory Board until their terms expire;
- (5) Inserting an appropriation amount of \$300,000 to establish the Executive Office on Early Learning; and
- (6) Making this measure effective on July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2545, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2545, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Kidani and Nishihara.
Managers on the part of the Senate.

Representatives Takumi, Mizuno, Jordan, Belatti and Johanson.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 174-12 on S.B. No. 2933

The purpose of this measure is to improve ocean safety by:

- (1) Requiring the Department of Land and Natural Resources (DLNR) to adopt rules imposing stricter regulations for the safety of ocean users and report to the Legislature on the status of rulemaking and other safety measures;
- (2) Appropriating funds for swim zone buoys at Kamaole beach; and
- (3) Establishing the West Maui Ocean Recreation Management Area Advisory Committee (Advisory Committee) comprised of users of the ocean to work with DLNR on issues relating to the area, particularly the waters of Kaanapali.

Your Committee on Conference finds that the increased recreational and commercial activities in Hawaii's nearshore waters have led to safety concerns, especially on the island of Maui. In 2011 there were at least four reported accidents involving swimmers and divers being struck by boats. This measure will ensure greater ocean safety in highly populated areas of the State.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that DLNR is required to install the eight swim zone buoys at the coordinates indicated in this measure;
- (2) Inserting an appropriation amount of \$20,000 for the installation of swim zone buoys;
- (3) Shortening the deadline by which DLNR shall establish the Advisory Committee to September 1, 2012;
- (4) Specifying that the boating enthusiast member of the Advisory Committee be a commercial boating enthusiast;
- (5) Replacing the canoeing enthusiast member of the Advisory Committee with a fishing enthusiast;
- (6) Exempting the members of the Advisory Committee from the state code of conduct, chapter 84, Hawaii Revised Statutes;

- (7) Terminating the Advisory Committee on June 30, 2015;
- (8) Changing the effective date to July 1, 2012; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2933, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2933, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 175-12 on S.B. No. 2344

The purpose of this measure is to appropriate funds for operational expenses relating to the Hawaii Health Authority.

Your Committee on Conference finds that it is the goal of the Hawaii Health Authority to institute a universal health care system in the State, and consequently, the lack of funding that significantly hampers the Authority's efforts needs to be swiftly addressed.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000; and
- (2) Changing the effective date to July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2344, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2344, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige, Chun Oakland, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Yamane, Morikawa, M. Lee and Ching.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 176-12 on S.B. No. 2947

The purpose of this measure is to:

- (1) Establish monetary awards for whistleblowers for certain actions that may result in a Department of Taxation administrative or judicial action;
- (2) Authorize the Director of Taxation to appoint an administrative appeals officer;
- (3) Prohibit certain penalties from being added to tax underpayments on which certain other penalties are already imposed; and
- (4) Require all advertisements and solicitations for transient accommodations to display the registration identification number or the website address containing the registration identification number of the operator or plan manager.

Your Committee on Conference finds that several of the provisions in this measure have been incorporated in other measures. Your Committee on Conference has amended this measure accordingly, by deleting the provisions that:

- (1) Establish monetary awards for whistleblowers;
- (2) Prohibit certain penalties from being added to tax underpayments on which certain other penalties are already imposed; and
- (3) Require all advertisements and solicitations for transient accommodations to display the registration identification number or the website address containing the registration identification number of the operator or plan manager.

Your Committee on Conference has further amended this measure by:

- (1) Inserting language to amend section 231-3.4, Hawaii Revised Statutes, to require the Department of Taxation to submit the reports listed in section 231-3.4(a)(3), Hawaii Revised Statutes, to the Legislature annually and to submit by December 31, 2012, a report to the Legislature on the resources and information needed to complete the reports, identification of the best means of providing information in an electronic format; and recommendations for additional information that may be required for inclusion in the reports as the Department upgrades its tax computer systems and associated enterprise resource planning implementation;
- (2) Making the exploration and implementation by the Department of Taxation of all reasonable methods of covering the costs of distribution of the reports required in section 231-3.4, Hawaii Revised Statutes, discretionary rather than mandatory;

- (3) Appropriating \$104,505 for additional resources and staffing support for the Department of Taxation to complete the reports required under section 231-3.4, Hawaii Revised Statutes; and
- (4) Inserting an effective date of July 1, 2012.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2947, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2947, S.D. 2, H.D. 2, C.D. 1.

Signed by the House Majority Leader and Chairs on behalf of the Committee.

Senators Fukunaga, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Keith-Agaran, Choy and Marumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 177-12 on S.B. No. 2678

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to establish a seven-member Honouliuli park site project advisory group to develop recommendations to leverage funding for an educational resource center at the Honouliuli site;
- (2) Require the advisory group to submit a report to the Legislature prior to the Regular Session of 2013 on its progress and the status of designating the site as part of the U.S. National Park Service; and
- (3) Appropriate funds from the Hawaii historic preservation special fund for fiscal year 2012-2013 to fund the advisory group established pursuant to this Act.

Your Committee on Conference finds that the proposed measure would add state funding to leverage federal funds and local efforts that have been underway for several years to evaluate and preserve the historic sites and stories of Japanese-Americans who were interned during World War II. These efforts include a feasibility study by the National Park Service to evaluate alternatives and preferred actions for preserving Honouliuli and related sites across the State. Your Committee on Conference further finds that in 2009, United States Senators Daniel K. Inouye and Daniel K. Akaka introduced a bill to determine if World War II internment campsites in Hawaii may be eligible for listing as "units of the National Park System."

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 and changing the source of funding to the general fund for the activities of the advisory group; provided that no funds shall be expended unless matched on a dollar-for-dollar basis by federal, private, or other external funds;
- (2) Inserting an effective date of July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2678, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2678, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Ige, Dela Cruz, Espero and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Chang, Har, Cabanilla and Riviere.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 178-12 on S.B. No. 2236

The purpose of this measure is to:

- (1) Amend chapter 39A, part VI, Hawaii Revised Statutes, to authorize the issuance of special purpose revenue bonds to assist utilities serving the general public in providing telecommunications (part I); and
- (2) Authorize the issuance of up to \$100,000,000 in special purpose revenue bonds to assist Clearcom, Inc., or a partnership headed by Clearcom, Inc., with planning, permitting, designing, constructing, equipping, and operating broadband infrastructure throughout the State; and lapse the authorization to issue special purpose revenue bonds on June 30, 2017 (part II).

Your Committee on Conference finds that this measure will assist in the development of critical broadband infrastructure and is well aligned with the Hawaii broadband initiative's goals of providing affordable high speed communication through the State by 2018.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2012; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2236, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2236, H.D. 2, C.D. 1.

Signed by the House Majority Leader and Chairs on behalf of the Committee.

Senators Fukunaga, Kidani and Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Yamashita, Choy, Har and Marumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 179-12 on S.B. No. 2958

The purpose of this measure is to appropriate funds as a grant, pursuant to chapter 42F, Hawaii Revised Statutes, for Kapiolani Medical Center for Women and Children to implement a peripheral blood stem cell/apheresis program.

Your Committee on Conference finds that the closure of the Hawaii Medical Center facilities has terminated the State's ability to provide bone marrow transplantation services, which are used to treat patients with leukemia, aplastic anemia, lymphomas, some solid tumors, and various other medical conditions. Given the critically important nature of the transplantation services that are now missing in Hawaii, efforts to implement a program are immediately necessary.

Your Committee on Conference has amended this measure by:

- (1) Replacing references to the peripheral blood stem cell/apheresis program with references to an apheresis stem cell collection program to support pediatric bone marrow transplantation to serve all young children to adulthood;
- (2) Inserting an appropriation amount of \$500,000;
- (3) Changing the effective date to July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2958, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2958, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ige, Baker, Chun Oakland and Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Yamane, Morikawa, M. Lee, Mizuno and Ching.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 180-12 on S.B. No. 2804

The purpose of this measure is to:

- (1) Establish the Hawaii Interagency Council on Homelessness, to be administratively attached to the Department of Human Services; and
- (2) Require the Department of Human Services to conduct a study on the feasibility of establishing safe havens in Hawaii and to submit a report to the Legislature prior to the convening of the 2013 Regular Session.

Your Committee on Conference finds that homelessness requires greater collaboration and coordination among diverse government entities, businesses, nonprofits, and faith-based organizations. This measure allows the Hawaii Interagency Council on Homelessness to continue identifying critical strategic goals and initiatives that would mitigate homelessness as well as ensure that homeless persons obtain permanent housing and become reintegrated into the community.

Your Committee on Conference also finds that there will always be a segment of the homeless population that does not reside in Hawaii's current homeless shelter system for reasons including lack of space, eligibility, or personal choice. For this population, a permissible temporary encampment may be highly preferable. In order to determine whether or not designating safe facilities for the homeless is feasible in Hawaii, your Committee on Conference finds that a study is the best course of action at this time.

Your Committee on Conference has amended this measure by:

- (1) Amending the findings language;
- (2) Establishing the Hawaii Interagency Council on Homelessness as a new part in chapter 346, Hawaii Revised Statutes, rather than in session laws;

- (3) Designating the Governor's Coordinator on Homelessness as the Chair of the council rather than designating the Director of Human Services as the ad hoc Coordinator of the Council;
- (4) Amending the objectives of the Hawaii Interagency Council on Homelessness, including specifying that the statewide plan to be formulated by the Council shall be a ten-year plan and that the Council shall advise the Governor on the implementation of the plan;
- (5) Amending the issues that the ten-year, statewide plan must address to include activating, coordinating, and maintaining responsive action among the public, business, and faith-based communities to become part of the homelessness solutions strategy;
- (6) Amending the membership of the Hawaii Interagency Council on Homelessness;
- (7) Specifying that only the non-governmental members of the Council shall serve without compensation but be reimbursed for certain expenses;
- (8) Deleting language that allowed the Council to prioritize, modify, or refrain from exercising any of the duties of the Council;
- (9) Deleting language that required the Council to endeavor to coordinate the duties, responsibilities, and functions of all the members of the Council;
- (10) Adding language that exempts members of the Hawaii Interagency Council on Homelessness from chapter 84, Hawaii Revised Statutes;
- (11) Inserting an appropriation amount of \$25,000 to the Department of Human Services for administrative expenses of the Hawaii Interagency Council on Homelessness;
- (12) Amending the language that requires the Department of Human Services to conduct a study on establishing safe havens in Hawaii to instead require the Department, with the assistance and advisement of the Hawaii Interagency Council on Homelessness, to conduct a study on designating safe facilities that meet certain requirements;
- (13) Amending the considerations and components required of the study;
- (14) Amending the reporting requirement to require the Department of Human Services, in conjunction with and with the advisement of the Hawaii Interagency Council on Homelessness, to report on the progress of the establishment of designated safe facilities;
- (15) Changing the effective date from July 1, 2030, to July 1, 2012; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2804, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2804, S.D. 2, H.D. 2, C.D. 1.

Signed by the Speaker of the House and Chairs on behalf of the Committee.

Senators Chun Oakland, Espero, Ryan and Slom.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Cabanilla, Kawakami, Ito, Jordan, Mizuno and Pine.

Managers on the part of the House.

STANDING COMMITTEE REPORTS

SCRep. 2001 Judiciary and Labor on Jud. Com. No. 1

Recommending that the Senate consent to the nomination of the following:

DISTRICT COURT OF THE SECOND CIRCUIT, STATE OF HAWAII

J.C. No. 1 MIMI DESJARDINS, for a term to expire in six years.

Your Committee has reviewed the resume submitted by the appointee and finds Mimi DesJardins to possess the requisite qualifications to be appointed to the District Court of the Second Circuit, State of Hawaii.

Testimony in support of the appointment of Ms. DesJardins was submitted by the Prosecuting Attorney of the County of Maui; the Executive Director of Women Helping Women; Araki-Regan & Associates, LLC; and twenty-one private individuals. Testimony in opposition was received from two private individuals. Comments were submitted by the Board of Directors of the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of District Court Judge, Second Circuit, based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence; legal knowledge and ability; professional experience; judicial temperament; financial responsibility; public service; health; and responsibilities and duties required of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified."

Ms. DesJardins received her Bachelor of Arts degree in Liberal Arts at St. John's College in Annapolis, Maryland, and her Doctorate of Jurisprudence from the University of Puget Sound School of Law. She is currently a solo practitioner concentrating in family law, including the areas of paternity, guardianship, divorce, custody, and visitation; child protective proceedings; custody evaluations and guardian ad litem appointments; and juvenile proceedings. She also has extensive practice experience in the area of criminal defense, including felony and misdemeanor jury trials; and family and district court bench trials. Prior to entering private practice, Ms. DesJardins served as a Deputy Prosecuting Attorney, Deputy Public Defender, and Deputy Corporation Counsel, all in the County of Maui. Since 2006, she has served as a Per Diem Judge for the District Court of the Second Circuit.

Ms. DesJardins is licensed to practice law in Washington and Hawaii. She has previously served on the Board of Directors of the Montessori School of Maui and the Board of Directors of the Maui County Bar Association.

Testimony in support of Ms. DesJardins' appointment commended her broad legal background as an asset that will help her preside effectively over criminal and civil matters as well as her judicial temperament of patience and consistency. Testimony in support noted that as a Per Diem Judge, she possesses the keen mind and good knowledge of the law, and communicates well with all parties that come before her in court where she treats parties with respect and makes quick and consistent decisions. She is known among her peers in the legal community as intelligent, thoughtful, conscientious, and hard working while possessing the highest level of integrity.

Your Committee notes the testimony submitted in opposition relates to a single custody case in which Ms. DesJardins represented the father. The opposing testimony claims that she disregarded certain criteria used to determine the award of child custody in order to obtain a favorable ruling for her client. Ms. DesJardins disclosed to your Committee that the case is currently on appeal.

While your Committee recognizes the sensitive and emotional nature of custody cases, it also understands that the issue currently on appeal involves the presiding judge's ruling that awarded custody to her client; not Ms. DesJardins' conduct. Since this case is considered ongoing litigation and noting that none of the individuals in opposition to Ms. DesJardins' appointment appeared during her confirmation hearing, your Committee is satisfied that she is fully qualified to serve as a District Court Judge.

As such, your Committee finds that, based on testimony submitted on her behalf, Mimi DesJardins has the experience, temperament, judiciousness, and other competencies to be a District Court Judge. She has a good sense of where the equities, rights, and responsibilities lie in a case, which is essential for a District Court Judge.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2002 (Majority) Public Safety, Government Operations, and Military Affairs on S.B. No. 2245

The purpose and intent of this measure is to allow for appropriations by the Legislature to the reduced ignition propensity cigarette program special fund, and to appropriate \$400,000 from the general fund to the special fund to implement the reduced ignition propensity cigarette program and hire necessary staff.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, County of Hawaii Fire Department, County of Maui Department of Fire and Public Safety, and Kauai Fire Department.

According to the State Fire Council, the appropriation will be used to hire two full-time personnel to accomplish the following:

- (1) Adopt administrative rules for program implementation, establish compliance inspections, and approve forms and enforcement procedures and guidelines;
- (2) Receive, verify, and approve certifications at three-year intervals for approximately six hundred different brands of cigarettes from various manufacturers;

- (3) Compile a list of approved brands, verify the list with the Department of the Attorney General for state tax stamp compliance, and post the list on a state website;
- (4) Review and approve, as needed, alternative test methods or fire standard compliance markings submitted by a manufacturer; and
- (5) Submit compliance tests to an accredited laboratory to verify that performance standards are met.

Your Committee finds that this measure will reduce the number of fires caused by cigarettes.

Your Committee has amended this measure by changing the expending fund from the general fund to the temporary deposits account in the trust fund of the Department of Labor and Industrial Relations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2245, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 2003 Public Safety, Government Operations, and Military Affairs on S.B. No. 2359

The purpose and intent of this measure is to add distilled spirits to the types of intoxicating liquors that the holder of a class 1 liquor license may sell for private use and consumption.

Your Committee received comments on this measure from the Honolulu Liquor Commission.

According to testimony of the Honolulu Liquor Commission, there is no compelling reason to exclude “distilled spirits” from direct consumer sales to individuals for private use and consumption. However, the Honolulu Liquor Commission recommended that the measure be amended to add other specified liquor manufactured from fruits or other products grown in the State. The change would include alcoholic beverages made from products such as locally grown sugar cane.

Your Committee finds that expanding class 1 manufacturer license sales to include liquor produced from fruits and products grown in the State supports current efforts to produce more of the liquor manufactured in the State from locally grown crops which would promote the growing of more crops in the State. Also, producing more local liquors from locally grown crops helps liquor sales of small businesses.

Your Committee has amended this measure by specifying that other specified liquor or distilled spirits manufactured from fruits or other products that are grown in the State are liquors or distilled spirits that class 1 manufacturer licensees are also authorized to sell for private use or consumption.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2359, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2359, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2004 Education on S.B. No. 2545

The purpose and intent of this measure is, among other things, to:

- (1) Establish the Executive Office on Early Learning;
- (2) Establish the Early Learning Advisory Board to replace the Early Learning Council;
- (3) Repeal junior kindergarten programs at the end of the 2013-2014 school year;
- (4) Require students to be at least five years of age on July 31 of the school year in order to attend kindergarten starting with the 2014-2015 school year; and
- (5) Make an appropriation in an unspecified amount to the Executive Office on Early Learning.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Education, Department of Human Services, Department of Health, University of Hawai‘i System, Early Learning Council, Childcare Business Coalition, Hawaii Association for the Education of Young Children, Child and Family Service, Special Education Advisory Council, Be My Voice Hawai‘i, ‘Aha Punana Leo, Community Children’s Council of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Office of Information Practices and Good Beginnings Alliance.

Your Committee finds that early experiences lay the groundwork for a child’s lifelong learning and behavior. Your Committee further finds that high quality early learning programs that are affordable and accessible for all children are critically important to ensure the success of Hawai‘i’s children.

Establishing an Executive Office on Early Learning will help the State meet its goal of providing a viable early learning system for the keiki of Hawaii. In addition, your Committee urges the Executive Office on Early Learning to engage in outreach and collaborate with early education stakeholders, including early learning educators.

Your Committee also notes that the Office of the Governor has requested \$500,000 in its budget request to support early learning.

As such, your Committee has amended this measure by:

- (1) Inserting an appropriation of \$500,000 to provide the Executive Office on Early Learning with appropriate start up capital; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2545, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2545, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Slom, Taniguchi).

SCRep. 2005 Public Safety, Government Operations, and Military Affairs on S.B. No. 2247

The purpose and intent of this measure is to require communications service providers to provide call location information upon request by public safety agencies responding to emergencies.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of the Attorney General, Hawaii County Police Department, Honolulu Prosecuting Attorney, Honolulu Police Department, Oceanic Time Warner Cable, and four individuals. Testimony in opposition was received from the Maui Police Department. Comments were received from Hawaiian Telcom.

Your Committee finds that this measure enables public safety agencies to determine the source of call location information, which can be particularly helpful in situations where a quick determination of the call location may reduce or eliminate the risk of death or serious bodily injury. One instance in which a timely call location determination would have been helpful was the case of Kelsey Smith, who was reported missing on June 2, 2007, and whose body was recovered four days later. In that case, Kelsey could have been found in time if her cell phone signal had been used to locate her sooner; however, the information was not provided to investigators until a few days after Kelsey was reported missing. In the wake of this incident, several states have passed legislation similar to this measure.

Your Committee has amended this measure by:

- (1) Substituting references to “communications service provider” with “commercial mobile radio service provider”;
- (2) Substituting the reference to “serious physical harm” with “serious bodily injury”; and
- (3) Adding public safety answering points to the limitation of liability provision.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2247, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2006 Judiciary and Labor on S.B. No. 2213

The purpose and intent of this measure is to require a public employer to consider another position within the same department for which the employee is qualified prior to discharging an employee due to failing to meet performance requirements.

Your Committee received testimony in support of this measure from the Department of Human Resources Development; and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Testimony in opposition to this measure was submitted by one private individual. The Department of Human Resources of the City and County of Honolulu submitted comments.

Your Committee finds that a public employer is required to consider the feasibility of transferring an employee to another position for which the employee was considered prior to discharge. However, the scope of the current statutory language fails to define the scope of the job search. As a result, state departments, counties, and other jurisdictions each have their own interpretation of the job search scope. Your Committee believes that this measure will provide further uniformity and consistency in the application of the law.

Your Committee has amended this measure by:

- (1) Adding clarifying language that the appointing authority is required to consider another position within the department of the appointing authority; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2213, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 2007 (Majority) Judiciary and Labor on S.B. No. 2220

The purpose and intent of this measure is to establish a boiler and elevator special fund to provide a mechanism for self-sufficiency for the Boiler and Elevator Inspection Branch of the Department of Labor and Industrial Relations by increasing permit and inspection fees and authorizing ten additional positions.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; the Department of Human Resources Development; the Hawaii Government Employees Association (HGEA), AFSCME Local 152, AFL-CIO; the Hawaii State AFL-CIO; the International Longshore Warehouse Union (ILWU), Local 142; the National Elevator Industry, Inc.; the Hawaii Operations Manager of the Elevator/Escalator Division of Mitsubishi Electric & Electronics USA, Inc.; and two private individuals. Testimony in opposition to this measure was submitted by two private individuals.

Your Committee finds that the Boiler and Elevator Inspection Branch operates entirely on general funds, and permit and inspection fees have not changed since 1998. Despite process improvements, seventy-five percent of elevators and fifty percent of boilers are operating without a current permit. Furthermore, the branch has a backlog in performing critical load tests on elevators, internal inspections of escalators, and inspections of amusement rides. This measure provides a mechanism for self-sufficiency to enable the branch to hire and retain qualified personnel and carry out inspection and permitting functions related to public safety.

Your Committee recognizes concerns that this measure does not address the need for the State to bring its elevator inspection codes up to date or take into account the time needed to train existing state elevator inspectors to conduct inspections in accordance with 2010 elevator codes. Your Committee believes that updating the elevator code will further ensure public health and safety, and merits further discussion.

Furthermore, testimony notes that in 2009, South Carolina allowed third party inspectors to conduct elevator inspections. As a result, that state increased its capacity for inspecting elevators, and increased revenues and job opportunities, which an increase in fees alone may not have been sufficient to accomplish. As such, your Committee finds that discussion regarding the sufficiency of the funding provided by this measure and the possibility of hiring third party inspectors merits further discussion by the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2220 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2008 (Majority) Judiciary and Labor on S.B. No. 2203

The purpose and intent of this measure is to increase the State's minimum wage to \$7.75 from July 1, 2012, to June 30, 2013, and to \$8.25 from July 1, 2013, and thereafter, to increase the economic security, well-being, and productivity of Hawaii's workers.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; the Hawaii State AFL-CIO; the Hawaii Government Employees Association (HGEA), AFSCME Local 152, AFL-CIO; Pride At Work Hawaii; the International Longshore and Warehouse Union (ILWU) Local 142; the Hawaii Professional Assembly; and two private individuals. Testimony in opposition to this measure was submitted by the Chamber of Commerce of Hawaii; the Hawaii Business League; the National Federation of Independent Business (NFIB) Hawaii; the Retail Merchants of Hawaii; the Hawaii Food Industry Association; the Libertarian Party of Hawaii; the Okimoto Corp.; Ken's House of Pancakes of Hawaii, Inc.; Times Super Market; Bubbies Homemade Ice Cream & Desserts, Inc.; Tamura Enterprises, Inc.; the Hawaii Restaurant Association; KYD, Inc.; and three private individuals.

Your Committee finds that Hawaii's cost of living is the highest in the nation; however, the state minimum wage is still equal to the federal minimum wage of \$7.25 per hour. The proposed increase for the first year will place approximately \$1,000 into the pockets of low-wage workers who will most likely spend those additional earnings on goods and services, thereby contributing to the economic recovery of the State.

Your Committee has amended this measure as suggested by the Department of Labor and Industrial Relations by changing the effective date to October 1, 2012, to take into account planning considerations.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2203, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2009 Transportation and International Affairs on S.B. No. 61

The purpose and intent of this measure is to require a driver to take certain safety precautions when approaching an emergency vehicle that is stopped ahead of the driver.

Your Committee received testimony in support of this measure from the State Department of Transportation, Honolulu Prosecuting Attorney, Honolulu Police Department, Maui Police Department, Hawaii Transportation Association, Mothers Against Drunk Driving Hawaii, Hawaii Government Employees Association, and four individuals. Testimony in opposition was submitted by the State Public Defender.

Your Committee finds that traffic accident fatalities involving police officers responding to emergency situations are tragic and largely avoidable with certain traffic safety precautions. On September 13, 2011, a police officer was killed along Farrington highway while assisting another officer during a traffic stop which also resulted in severe injuries to the officer being assisted. On January 21,

2012, another police officer was killed while the officer's vehicle was stopped behind a stalled vehicle to render assistance on the H-1 freeway.

Your Committee further finds that existing law does not address the specific situation of taking precautions when approaching a police vehicle, or any other emergency vehicle, that is stopped to render assistance to a motorist or another emergency responder.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2663 (2012), a substantially similar measure that:
 - (A) Protects against double jeopardy, since criminal penalties exist for motor vehicular homicide and bodily injury;
 - (B) Excludes language deeming a collision with an emergency vehicle as prima facie evidence of a violation; and
 - (C) In cases of death or injury attributable to the driver of the vehicle, directs that the driver be charged with existing criminal offenses for negligent homicide or negligent injury specifically involving motor vehicles;
- (2) Clarifying that an approaching driver must slow down to a reasonable and prudent speed that is safe under the circumstances of an emergency road situation ahead, where reasonableness and prudence shall take into account weather conditions, road conditions, and vehicular and pedestrian traffic in the immediate area; and
- (3) Making the penalty a petty misdemeanor if no death or injury occurs that is attributable to the driver of the vehicle.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 61, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 61, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2010 Transportation and International Affairs on S.B. No. 2333

The purpose and intent of this measure is to prohibit personally identifiable information obtained from driver's licenses and state certificates of identification from being scanned and retained without the express permission of the holder of the driver's license or certificate of identification.

Your Committee received testimony in support of this measure from the State Department of Transportation, Honolulu Licensing Administrator, and the American Civil Liberties Union of Hawaii. Comments on this measure were received from Consumer Data Industry Association and one individual.

Your Committee believes that driver's licenses and identification cards containing personally identifiable information must be protected by government agencies and their agents with the utmost care.

Your Committee finds that many private businesses have adopted a practice of scanning bar codes on customer's driver's licenses for all manner of purchases. For example, bar code scanning may be required by company policy for purchases of alcohol and other age-related transactions. This bar code scanning practice raises serious privacy concerns inasmuch as Hawaii driver's license bar codes contain significant personal information, including name, address, date of birth, hair, eye color, height, weight, gender, license expiration date, organ donor status, driver's license number, and fingerprint.

Your Committee further finds that the Department of Homeland Security urges states to adopt a law regulating electronically scanning and retaining personally identifiable information stored in the machine readable zone of driver's licenses.

Your Committee has amended this measure by:

- (1) Substituting its contents with S.B. No. 2419 (2012), a substantially similar measure that amends chapter 487R, Hawaii Revised Statutes, to:
 - (A) Go further in protecting the right of privacy by prohibiting the scanning of the machine-readable zone of an individual's certificate of identification or driver's license, with certain exceptions, making no allowance for consent of the holder of the certificate or license; and
 - (B) Make a violation of the prohibition a misdemeanor, punishable by a fine of up to \$2,000 or imprisonment of up to one year, or both, where each violation is a separate offense; and
- (2) Changing the title of chapter 487R, Hawaii Revised Statutes, "Destruction of personal information records", to reflect the provisions relating to unlawful use of personal information records added to that chapter by this measure.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2333, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2011 Transportation and International Affairs on S.B. No. 2968

The purpose and intent of this measure is to allow motor vehicle insurance companies to offer discounts on premiums if the insured completes a state-approved driver safety course.

Your Committee received testimony in support of this measure from the Hawaii Transportation Association. Comments on this measure were received from the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that many states allow insurers to offer motor vehicle insurance discounts to drivers who complete a driver safety course in the classroom or online. However, existing law in Hawaii on discriminatory practices in underwriting is silent on allowing motor vehicle insurance companies to offer discounts of any kind.

Your Committee has amended this measure by:

- (1) Deleting the requirement that a driver safety course be state-approved and removing the involvement of the Insurance Commissioner and the Department of Transportation in any approval process as your Committee believes that each insurer should determine the type and content of the course that would suffice for their purposes;
- (2) Referencing both of the terms "driver safety course" and "driver improvement course" throughout the measure, in the interests of making the measure more comprehensive to accommodate the nomenclature of these types of courses in various insurance policies; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2968, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2012 Agriculture on S.B. No. 2691

The purpose and intent of this measure is to allow ex officio members of the Board of Agriculture to designate a representative to attend board meetings when the ex officio member is unable to attend.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, and Hawaii Farm Bureau Federation.

Your Committee finds that the Board of Agriculture is made up of ten members, three of which are ex officio voting members: the Chairperson of the Board of Land and Natural Resources; Director of Business, Economic Development, and Tourism; and Dean of the University of Hawaii College of Tropical Agriculture and Human Resources. Often times, the busy schedules of these voting ex officio members make it extremely difficult for them to attend board meetings. This measure will allow these ex officio members to designate representatives to attend board meetings in their place which will increase the productivity and efficiency of the Board of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2691 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Dela Cruz, Slom, Tokuda).

SCRep. 2013 Transportation and International Affairs on S.B. No. 2517

The purpose and intent of this measure is to require the removal from certain certified traffic abstracts records of all alleged moving violations for which the disposition of the case was "dismissed with prejudice" or "not guilty", or that occurred more than ten years prior to the date of the request for the abstract, with exceptions.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments from the Judiciary.

Your Committee finds that moving violations resulting in a dismissal with prejudice or a not guilty judgment which occurred more than ten years prior to the date of a request for a certified traffic abstract, should not be included in the traffic abstract, except for commercial driver licensing traffic records. The lapsing of a period of ten years in which the accused driver for all practical intents and purposes has been exonerated should be wiped off the driving records.

Your Committee defers to the discretion of the Committee on Judiciary and Labor to address the Judiciary's objections to section 2 of this measure since it involves the administrative practices of the courts. Further, your Committee notes that perhaps sections 2 and 3 of this measure should be codified into section 287-3, Hawaii Revised Statutes, if the Committee on Judiciary and Labor decides to pass this measure.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2517, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2014 (Majority) Human Services on S.B. No. 2808

The purpose and intent of this measure is to make an emergency appropriation for fiscal year 2011-2012 for health care payments (HMS 401) to address a funding shortfall in the Medicaid program.

Your Committee received testimony in support of this measure from the Department of Human Services, the Hawaii Medical Association, and the Hawai'i Primary Care Association.

Your Committee finds that this measure will provide the Department of Human Services with the funds the department requires to continue their core services. Specifically, the funding in this measure will help to ensure that the department can continue making timely payments to contracted health plan providers.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2015 Judiciary and Labor on S.B. No. 2205

The purpose and intent of this measure is to propose a constitutional amendment to lower the number of nominees presented by the Judicial Selection Commission to fill state court judicial vacancies.

Your Committee did not receive any written testimony regarding this measure.

Your Committee finds that the Judicial Selection Commission is mandated by the state constitution to present to the Governor a list of not less than four and not more than six nominees to fill a vacancy in the Office of the Chief Justice, Supreme Court, Intermediate Court of Appeals, and Circuit Courts. The Judicial Selection Commission also presents to the Chief Justice a list of not less than six nominees to fill a vacancy in the District Courts. Lowering the number of nominees for consideration to fill a state court judicial vacancy to three nominees enhances the level of review the Judicial Selection Commission engages in when selecting nominees from the pool of judicial applicants. A higher level of review by the commission thereby better enables the Governor and Chief Justice to appoint the most qualified nominee to serve on the bench.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2205 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2016 Judiciary and Labor on S.B. No. 2206

The purpose and intent of this measure is to propose a constitutional amendment to raise the mandatory retirement age for state judges and justices from seventy to eighty years of age.

Your Committee received testimony in support of this measure from the International Longshore and Warehouse Union Local 142 and the League of Women Voters of Hawaii. The Office of the Public Defender and one private individual submitted comments.

Your Committee finds that there are a number of judges and justices who are willing and able to serve on the bench past the mandatory retirement age of seventy. While your Committee recognizes that a mandatory retirement age ensures continued opportunities to serve on the bench, it believes that judges and justices who are willing and able to serve should be allowed to do so until the age of eighty.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2206 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2017 Energy and Environment on S.B. No. 2291

The purpose and intent of this measure is to allow owners of condominium units in condominium structures no more than three stories in height to place a solar energy device on the roof of the condominium structure.

Your Committee received testimony in support of this measure from the Sierra Club, Blue Planet Foundation, Hawaii Solar Energy Association, and four individuals. Your Committee received testimony in opposition to this measure from the Community Associations Institute.

Your Committee finds that allowing low-rise condominium owners to install solar energy devices on the roofs of condominium structures will help achieve the State's clean energy goals. Expanding access to solar power to low-rise condominium owners will benefit the local economy by helping to create clean "green collar" jobs locally and reducing the amount of money that is exported from the State to buy fossil fuels. This measure creates parity between owners of low-rise condominium units and owners of other types of residential dwellings and townhouses, who are already authorized to install solar energy devices.

Your Committee further finds that owners of low-rise condominium units should be able to install a solar device on the rooftop of the condominium structure, regardless of whether their unit is on the first, second, or third floor of the structure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying language that specified the placement of a solar energy device on the roof directly above the owner's condominium unit, which many have implied that only owners of units on the top floor of the condominium could install a solar energy device; and
- (2) Requiring that the insurer for the repair, maintenance, removal and replacement of a solar energy device, including any damages to or caused by the device, notify the private entity responsible for the common elements of a residential dwelling, townhouse, or condominium unit if the insurance policy lapses.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2291, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Slom).

SCRep. 2018 Energy and Environment on S.B. No. 2966

The purpose and intent of this measure is to increase the maximum allowable customer-generator capacity for net energy metering systems to two megawatts if the generating facility is sited on property owned or controlled by the State of Hawaii, or one megawatt for all other systems.

Your Committee received testimony in support of this measure from Hawaii Solar Energy Association, Blue Planet Foundation, and the Sierra Club's Hawaii Chapter. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company, Maui Electric Company, and Hawaii Electric Light Company. Your Committee received comments on this measure from the Public Utilities Commission and Division of Consumer Advocacy.

Your Committee finds that under existing law, the vast majority of customer-generators may generate no more than one hundred kilowatts of energy, limiting the ability of customer-generators to save in electricity costs. At current energy prices, the maximum customer-generator capacity is roughly the equivalent of a monthly power bill of \$4,000 to \$5,000, depending on the location of the building. Many businesses have power bills that are much higher than \$5,000 per month but cannot, without a rule or order by the Public Utilities Commission, match their electrical output needs by generating more than one hundred kilowatts of energy.

At the public hearing on this measure, various testifiers disputed whether the net energy metering program inflated the cost of electricity for non-net energy metered utility customers, and if so, by how much. It appears that no comprehensive study of this issue has been conducted in Hawaii. The Public Utilities Commission is currently working together with docketed parties to address issues of electric grid reliability and the development of transparent standards for interconnection to the electrical grid.

Your Committee has amended this measure by:

- (1) Changing the effective date from upon approval to July 1, 2050, to ensure further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2966, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2966, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Slom).

SCRep. 2019 Energy and Environment on S.B. No. 2287

The purpose and intent of this measure is to ensure that existing net energy metering contracts may be maintained even if the Public Utilities Commission establishes alternative mechanisms for crediting or otherwise compensating eligible customer-generators for exported power.

Your Committee received testimony in support of this measure from Hawaii Solar Energy Association, Blue Planet Foundation, Hawaii Renewable Energy Alliance, and one individual. Your Committee received comments on this measure from the Public Utilities Commission and the Division of Consumer Advocacy.

Your Committee finds that net energy metering makes it possible for Hawaii's homeowners and business owners to invest in renewable energy systems that offset their own energy consumption, thereby reducing costs for those homeowners and business owners. According to testimony, net energy metering, in conjunction with Hawaii's renewable income tax credit, has helped Hawaii achieve the second highest rate of per capita solar photovoltaic energy system installation among the fifty states. Your Committee finds that this measure allows for the continuation of a practice that encourages individuals and businesses to take advantage of renewable energy and advances the State's progress toward greater renewable energy use.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2287 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Slom).

SCRep. 2020 Agriculture on S.B. No. 2695

The purpose and intent of this measure is to create a livestock feed feasibility pilot project within the Department of Agriculture to investigate the viability of a livestock feed program on Department of Agriculture land.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; Monsanto Co.; West County Farm Bureau; Hawaii Farm Bureau Federation; and Environmental Caucus of the Democratic Party of Hawaii.

Your Committee finds that the rising cost of livestock feed has a significant impact on production costs for local protein producers. Since 2007, two dairies and four egg farms have gone out of business primarily due to the rising costs of feed. Without these local agricultural businesses, all beef, milk, chicken, and eggs will have to be imported into the State. This measure would establish a livestock feed feasibility pilot project to help address the rising cost of feed and explore ways to increase the sustainability of our local protein sources.

Your Committee further finds that the Oceanic Institute, an affiliate of Hawaii Pacific University, is actively exploring ways that feedstock can be sourced and produced locally. As such, your Committee urges the Department of Agriculture to work collaboratively with the Oceanic Institute to further develop locally grown livestock feed as a step toward lessening Hawaii's dependency on imports.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2695, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2695, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Dela Cruz, Slom, Tokuda).

SCRep. 2021 Agriculture on S.B. No. 2692

The purpose and intent of this measure is to establish the agricultural development and food security program to encompass all aspects of agriculture from farm to market.

Your Committee received testimony in support of this measure from the Department of Agriculture, Pacific Resource Partnership, Hawaii Crop Improvement Association, Hawaii Farm Bureau Federation, Kona Coffee Farmers Association, Environmental Caucus of the Democratic Party of Hawaii, and two individuals.

Your Committee finds that in order to move Hawaii's agricultural industry forward and meet the sustainability needs of the State, it is necessary to establish a coordinated effort among state and federal agencies; agricultural, transportation, and research organizations; and the private sector. This measure authorizes the Department of Agriculture to develop, coordinate, fund, and integrate new and existing programs, facilities, and projects in order to promote the development of agriculture and food security within the State.

Your Committee notes from the testimony of the Kona Coffee Farmers Association ("KCFA") that consideration should be given to help protect "Point of Origin" agricultural products. The Committee also recognizes KCFA's concern that industry groups affected by decisions made by the Department of Agriculture as part of the agricultural development and food security program be given adequate notice of the proposed changes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

While your Committee recognizes the importance of KCFA's testimony, it notes that the amendments suggested by KCFA's are not a part of the technical, nonsubstantive amendments agreed to by your Committee.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2692, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2692, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Dela Cruz, Slom, Tokuda).

SCRep. 2022 Human Services on S.B. No. 2308

The purpose and intent of this measure is to request and appropriate funds for the Executive Office on Aging of the Department of Health to conduct an education and awareness campaign on long-term care and have the campaign evaluated.

Your Committee received testimony in support of this measure from the Executive Office on Aging of the Department of Health; AARP; Child and Family Service; Healthcare Association of Hawaii; the ILWU Local 142; the National Association of Insurance and Financial Advisors; the Policy Advisory Board for Elder Affairs; and three individuals.

Your Committee finds that this proposal is based on a recommendation of the Hawaii Long-Term Care Commission. The Commission recommends an education and awareness campaign on long-term care based on its research indicating that the public misunderstands much of the available information regarding the financing of long-term care.

Your Committee has amended this measure by:

- (1) Delaying the date by which the Executive Office on Aging shall submit its report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2308, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2023 Public Safety, Government Operations, and Military Affairs on S.B. No. 2777

The purpose and intent of this measure is to:

- (1) Amend eligibility for probation to include second time offenders for certain drug offenses;
- (2) Allow a one-time expungement of a drug conviction record for a person sentenced to probation without a previous sentence to probation for a drug offense;
- (3) Reduce the time of probation from five to three years for class B and class C felonies, except sexual offenses and child abuse;
- (4) Establish an incentive time credit for probationers to reduce time on probation; and
- (5) Increase from \$300 to \$750 the minimum threshold value of property or services stolen that constitutes theft in the second degree.

Your Committee received testimony in support of this measure from the Governor, Department of Public Safety, State Public Defender, The Judiciary, The Council of State Governments Justice Center, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, Drug Policy Forum of Hawai'i, Child & Family Service, American Civil Liberties Union of Hawai'i, Crime Victim Compensation Commission, and three individuals. Comments were received from the Honolulu Prosecuting Attorney.

This measure is a recommendation of the Council of State Governments Justice Center, which provided intensive technical assistance to Hawaii to conduct a comprehensive analysis of the State's criminal justice system and help state leaders develop policy options that could increase public safety while saving taxpayer dollars. The Justice Center utilized a data-driven approach to identify inefficiencies, develop cost-effective policy options, and plan for a reinvestment of savings that reduces recidivism and increases public safety. The intent of your Committee is to address inefficiencies in the correctional system, reinvest millions of dollars in savings to ease overcrowding in the State's prisons, and eventually stop the practice of sending inmates to the mainland.

Your Committee finds that while crime rates have declined, the population under probation supervision and incarceration has not declined, and in some cases has increased. From July 1, 1999, to June 30, 2011, the State's prison and jail population grew eighteen percent, from 5,118 to 6,043. During the same period, expenditures for the Corrections Division of the Department of Public Safety increased seventy percent, from \$112,000,000 to \$190,000,000. Approximately one-third of Hawaii's prison population is housed in out-of-state facilities on the mainland. The cost of housing these offenders out-of-state was \$45,000,000 from July 1, 2010, to June 30, 2011.

Your Committee further finds that key areas of the criminal justice system are not operating cost effectively to reduce crime and increase public safety. Probation terms in Hawaii are longer than the national average. Nationally, felony offenders are typically supervised for no more than three years. In Hawaii, the statute calls for five years of probation for Class B and C felons. Individuals convicted of a second drug possession offense must be sentenced to imprisonment. Most states allow greater flexibility for judges to determine whether a second time drug possession offender should be sentenced to imprisonment or probation depending on the circumstances of the case.

Hawaii's felony theft level has remained unchanged since at least 1986. Currently, theft of more than \$300 constitutes a felony. Nationally, many states have recently raised their thresholds to adjust for inflation. The national average threshold is more than \$700.

Your Committee wants to stop the practice of sending our prisoners out of state because it sends public dollars out of Hawaii. Your Committee finds that the best way to reduce crime is to support the establishment of strong, nurturing families and improve economic and social conditions. By returning prisoners to Hawaii, not only are the opportunities for rehabilitation and family reunification improved, dollars spent out-of-state will be reinvested in creating jobs and community service opportunities here at home.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2777, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2024 Public Safety, Government Operations, and Military Affairs on S.B. No. 2581

The purpose and intent of this measure is to codify the statewide automated victim information and notification system and to establish an automated victim notification system special fund.

Your Committee received testimony in support of this measure from the Department of Public Safety, State Attorney General, Hawaii Paroling Authority, Crime Victim Compensation Commission, Honolulu Prosecuting Attorney, Kaua'i Prosecuting Attorney, Maui Prosecuting Attorney, Hawaii State Commission on the Status of Women, The Sex Abuse Treatment Center, Mothers Against Drunk Driving HAWAII, Hawaii State Coalition Against Domestic Violence, and three individuals. Comments were received from the Department of Budget and Finance.

Your Committee finds that chapter 801D, Hawaii Revised Statutes, provides crime victims and witnesses with the right, upon request, to be notified of changes in the custody status of the offender. However, due to a lack of timely notice, numerous crime victims have been unable to exercise their right to speak at the offender's parole hearing and have been further traumatized psychologically and emotionally. Many of these victims have been in danger of being further victimized when the defendant was paroled or had escaped.

This measure enables the statewide automated victim identification and notification system to become permanent and establishes a special fund as a source of dedicated funding from a percentage of revenue from inmate commissary purchases, as well as inmate phone usage revenues.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2581, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2581, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2025 Public Safety, Government Operations, and Military Affairs on S.B. No. 2396

The purpose and intent of this measure is to make the two part-time members of the Hawaii Paroling Authority full-time members and to give the Governor the authority to set the salaries of the paroling authority members.

Your Committee received testimony in support of this measure from the Department of Public Safety and Hawaii Paroling Authority.

Your Committee finds that the Hawaii Paroling Authority plays a vital role in the State's criminal justice system. It determines minimum terms of incarceration for almost all inmates sentenced to prison, grants parole when it determines that an inmate is ready for release into the community, establishes terms and conditions of parole for each offender granted parole, oversees parole officers who monitor and supervise parolees, grants discharges from parole, and makes recommendations for pardons and commutations of sentences.

Because the Hawaii Paroling Authority is essentially a part-time body, the members find proper deliberation very difficult when reviewing cases and making decisions that are vital to public safety. Further, the Authority is experiencing severe difficulties in carrying out its responsibility in assuring that the terms and conditions of parole are properly enforced with its existing staff.

Your Committee has amended this measure by:

- (1) Adding two more part-time Hawaii Paroling Authority members to the current two part-time members to make a total of four part-time members, rather than making the two part-time members full-time members, and making conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee intends for the Hawaii Paroling Authority to substantially increase its work capacity with the addition of two part-time members.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2396, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2026 Public Safety, Government Operations, and Military Affairs on S.B. No. 2250

The purpose and intent of this measure is to authorize the Hawaii Paroling Authority to utilize a continuum of administrative sanctions for violations of terms and conditions of parole, in lieu of revocation of parole.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, American Civil Liberties Union of Hawai'i, and one individual.

Your Committee finds that the purpose of a continuum of administrative sanctions is to encourage the Hawaii Paroling Authority to work with offenders in the community rather than revoking parole for violations of terms and conditions of parole. Currently the Hawaii Paroling Authority lacks alternatives to reimprisonment for parole violators. Your Committee finds that reimprisonment is one alternative among several potential sanctions, some of which go further to give the parole violator another chance to reintegrate and become a productive member of society.

Your Committee has amended this measure by changing the effective date to January 1, 2025, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2250, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2027 Education on S.B. No. 2540

The purpose and intent of this measure is to amend or repeal various sections of chapter 302A, Hawaii Revised Statutes (“HRS”), that:

- (1) Have already been accomplished and are no longer necessary to be codified in statute;
- (2) Impede rather than assist the Department of Education in meeting its core mission;
- (3) Fall under the purview of the Board of Education, such as policy and programmatic decisions;
- (4) Are already mandated by federal law and do not require codification in state statute; and
- (5) Are covered by another section of the HRS, Hawaii Administrative Rules, or Board of Education policy.

Your Committee received testimony in support of this measure from the Office of the Governor, Board of Education, and Department of Education. Your Committee received comments on this measure from the Hawaii Government Employees Association, HGEA/AFSCME, Local 152, AFL-CIO; and one individual.

Your Committee finds that as a result of the constitutional amendment adopted in the 2010 general election, the Board of Education was required to transform from an elected board to an appointed board, with the appointments being made by the Governor. This change presents a unique opportunity to review sections of the HRS to determine if amending or reducing statutory restraints and requirements might assist the Board of Education and Department of Education in creating a more effective educational delivery system. This measure is consistent with S.C.R. No. 79 (2011), which requested that the Board of Education and Department of Education review applicable statutes to, in part, assist the Department of Education in meeting its core mission.

Your Committee further finds that the statutory revisions proposed by this measure do not diminish the role of the Legislature in overseeing the Department of Education and holding it accountable for the educational success of students but rather place certain decision making authority in the best place possible.

In addition, your Committee notes that deleting outdated or duplicative sections of chapter 302A, HRS, does not in any way suggest that the Department of Education does not have proper legal authority to implement those programs or activities covered by those deleted sections. Rather, the Legislature is placing decision making authority over those certain programs and activities at the proper level, whether at the policy making level or the administrative level.

Furthermore, your Committee urges the Department of Education to ensure that it has rules and policies in place to address the sections of chapter 302A, HRS, repealed by this measure.

Your Committee has amended this measure by:

- (1) Adding definitions of the terms “district”, “complex”, and “complex area”;
- (2) Amending the definition of “complex area superintendent”;
- (3) Repealing the definitions of “regional administrative unit” and “school complex”;
- (4) Amending section 4-1, HRS, to remove the establishment of educational districts to further clarify that the State is one unified school district;
- (5) Amending section 302A-604, HRS, to clarify that complex area superintendents are responsible for special education programs and special schools within their complex areas;
- (6) Amending 302A-1102, HRS, to repeal the authority to establish regional administrative units within the Department of Education;
- (7) Amending section 302A-1130.6, HRS, to clarify that all fees and charges collected from students or their parents or guardians for the loss, destruction, breakage, or damage of school textbooks, instructional materials, library books, equipment, or supplies shall be deposited into the textbook and instructional materials fee special account;
- (8) Amending section 302A-1143, HRS, and repealing section 302A-1142, HRS, to clarify that the complex of attendance, as defined and determined by the Department of Education, rather than school districts, shall be the region within which a person of school age is required to attend school, with certain exceptions;
- (9) Amending section 302A-1303.6, HRS, to clarify that charter schools may elect to receive funding based on the procedures and methodology used to calculate the weighted student formula allocation;
- (10) Retaining certain language in section 302A-1404, HRS, regarding the retention and expenditure of federal indirect overhead reimbursements;
- (11) Retaining sections 302A-1311 and 302A-1403, HRS, relating to appropriations for trust funds of the Department of Education and authority to secure federal funds, respectively;
- (12) Adding language to clarify that any existing rule, ordinance, executive order, directive, or provision in a collective bargaining agreement in existence on the effective date of this measure that is not consistent with this Act shall be amended to ensure that it includes language repealed by this measure; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2540, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2540, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Nishihara). Noes, none. Excused, 2 (Slom, Taniguchi).

SCRep. 2028 Education on S.B. No. 2542

The purpose and intent of this measure is to clarify when a student may attend a school outside of the student's district.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the American Civil Liberties Union of Hawai'i.

Your Committee finds that there are several instances when a student may wish or need to attend school outside of the student's designated district. This measure will clarify when a student may do so.

Your Committee notes that this measure is one of several measures that make various housekeeping amendments to chapter 302A, Hawaii Revised Statutes. As this measure proceeds, your Committee notes that S.B. No. 2540, S.D. 1, proposes to eliminate certain references to the term "district" in chapter 302A, Hawaii Revised Statutes, in order to clarify that that State is one unified school district. As such, your Committee encourages further discussion on this issue as both measures go through the legislative process.

Your Committee has amended this measure by:

- (1) Removing the requirement that a geographic exception be requested by a parent; and
- (2) Adding language to clarify that a student may attend a school outside of the student's district if required by federal law.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2542, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2542, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2029 Education on S.B. No. 2543

The purpose and intent of this measure is to:

- (1) Amend section 302A-1502.4, Hawaii Revised Statutes, relating to the Hawaii 3R's school repair and maintenance fund, for housekeeping and other purposes; and
- (2) Repeal section 302A-401.5, Hawaii Revised Statutes, relating to the Hawaii teacher cadet program fund.

Your Committee received testimony in support of this measure from the Office of the Governor and Hawaii 3R's. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that this measure will streamline section 302A-1502.4, Hawaii Revised Statutes, while still supporting the important work of Hawaii 3R's in repairing, remodeling, and restoring our public schools.

Your Committee further finds that the Hawaii teacher cadet program is no longer a viable entity and it requested that the Legislature repeal the Hawaii teacher cadet program fund.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2543 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2030 Human Services on S.B. No. 2317

The purpose and intent of this measure is to establish three new tax credits for caregivers:

- (1) A small business caregiver leave tax credit for a percentage of the payroll cost to a small business employer providing an employee with leave to serve as a caregiver;
- (2) A caregiver tax credit for the cost of providing care to a qualified care recipient; and
- (3) A caregiver educational cost tax credit for qualified educational costs of caregiver courses or programs.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii; ILWU Local 142; and the Policy Advisory Board of Elder Affairs. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that studies have shown that family caregivers incur significant financial costs, affecting their standard of living and future financial security. Tax credits would help mitigate the financial burden - the small business caregiver leave tax credit would reduce the financial burden on small business employers, making it viable for small business owners to allow their employees to provide needed care; the caregiver tax credits ease the financial burden of people who provide care for others, including relatives and people with certain disabilities; and the caregiver educational cost tax credit would make it possible for more caregivers to take advantage of the caregiving training courses or programs available in our community.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2317 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2031 Judiciary and Labor on S.B. No. 2204

The purpose and intent of this measure is to increase the workers' compensation fee schedule for medical care, services, and supplies from one hundred ten to one hundred thirty percent of fees prescribed in the Medicare Resources Based Relative Value Scale applicable to Hawaii.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; the Hawaii Medical Association; the Hawaii Association for Justice; the Partners of the Orthopedic Associates of Hawaii, LLP; the International Longshore and Warehouse Union (ILWU) Local 142; the Hawaii Chapter of the American Physical Therapy Association; and nine private individuals. Testimony in opposition to this measure was submitted by the Department of Human Resources of the City and County of Honolulu; the Hawaiian Electric Co. Inc. and its subsidiaries, Maui Electric Company, Ltd., and Hawaii Electric Light Company, Inc.; the Hawaii Insurers Council; the American Insurance Association; and one private individual. The Department of Commerce and Consumer Affairs and the Department of Human Resources Development submitted comments.

Your Committee finds that it has become increasingly difficult to find doctors willing to accept patients covered by the workers' compensation fee schedule because of the resulting low reimbursement rates and increased paperwork associated with processing workers' compensation claims. Testimony indicates that many doctors do not have sufficient billing staff and are unable to hire additional staff to handle workers' compensation billing given the current level of reimbursement. A survey conducted by the Hawaii Medical Association found that over sixty-five percent of doctors, who previously accepted workers' compensation cases, now refuse to care for these injuries, even for their established patients.

Furthermore, low reimbursement rates restrict or delay an injured worker's access to immediate comprehensive medical care and management, which is a critical element in handling workers' compensation cases. Your Committee notes the number of testimony in support of this measure submitted by practicing physicians in Hawaii. As such, your Committee believes that increasing the workers' compensation fee schedule for medical treatment and services rendered to injured workers will increase the number of physicians willing to accept cases and thereby increase injured workers' access to care.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2204 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2032 (Majority) Judiciary and Labor on S.B. No. 2323

The purpose and intent of this measure is to provide a vehicle to implement pending collective bargaining agreements from a potential arbitration for bargaining unit 9.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the registered professional nurses under bargaining unit 9 are currently under talks to ratify their collective bargaining agreements. If an impasse occurs and an arbitration panel decides in favor of the nurses, funds will need to be made available for their new contracts. This measure serves as a vehicle for funds to be appropriated.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2323 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 2033 (Majority) Judiciary and Labor on S.B. No. 2324

The purpose and intent of this measure is to provide a vehicle to implement pending collective bargaining agreements for bargaining units 2, 3, 4, 6, 8, and 13 as a result of the "favored nation" clause in the current collective bargaining agreements for those bargaining units.

Your Committee received testimony in support of this measure from Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that a "favored nation" clause in a collective bargaining agreement allows the union to renegotiate the terms of the agreement should another public union settle on terms that are more favorable. As a result, the Hawaii Government Employees Association is anticipating a need for funds pending the results of the Hawaii State Teachers Association and the United Public Workers Union collective bargaining agreement ratifications. If the terms of those agreements are more favorable, this measure will serve as vehicle for funds to be appropriated.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2324 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 2034 Judiciary and Labor on S.B. No. 2209

The purpose and intent of this measure is to propose a constitutional amendment to require the Judicial Selection Commission to disclose the names of and certain information regarding active nominees and applicants to fill justice and judge vacancies.

Your Committee did not receive any written testimony regarding this measure.

Your Committee finds that the Judicial Selection Commission recently amended its rules to share statistical information about its processes, including general information about the total number of applicants, the breakdown of applicants and nominees by gender, experience, or other attributes that may be of interest to the public, or information about trends, such as increases or decreases in the number of applicants. This measure adopts these rule changes by amending the state constitution to explicitly require the disclosure of the names of and certain statistical information regarding active nominees and applicants, thereby increasing the transparency of the Commission's activities to the extent permitted by law.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2209 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2035 (Majority) Judiciary and Labor on S.B. No. 2216

The purpose and intent of this measure is to:

- (1) Specify that property held by spouses in tenancy by the entirety shall continue to be treated as such after the transfer to a trust unless otherwise specifically provided by the trust instrument;
- (2) Limit the remedies available to creditors against transferred property; and
- (3) Define "spouse" to include partners in a civil union.

Your Committee received testimony in support of this measure from Honolulu Pride and two private individuals. Testimony in opposition to this measure was submitted by the Hawaii Bankers Association. The Department of the Attorney General; and the Gay, Lesbian, Bisexual and Transgender Caucus of the Democratic Party of Hawaii submitted comments.

Your Committee finds that a debt of one spouse or reciprocal beneficiary may not be enforced against property titled as tenancy in the entirety. From an estate planning standpoint, it is often advisable to create revocable trusts for spouses or reciprocal beneficiaries in order to avoid probate and minimize estate taxes. However, under existing law, spouses or reciprocal beneficiaries are forced to choose between the creditor protections offered by a tenancy in the entirety arrangement or foregoing those protections in favor of setting up and properly funding estate planning trusts. This measure amends the law to prevent couples from having to make this sometimes difficult choice.

Your Committee recognizes that the language of this measure needs further streamlining and encourages the attorneys from the Judiciary's Committee on the Uniform Probate Code and Probate Court Practices, the Department of the Attorney General, and the Hawaii Bankers Association to work on language, especially with respect to when spouses divorce after the transfer of property to a specified trust, as the measure moves through the legislative process.

Your Committee has amended this measure by deleting the definition for "spouse" to avoid any unintended consequences of affecting the interpretation of other statutes, and to ensure that partners in a civil union are included in the interpretation as originally intended.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2216, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2216, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3, Ayes with Reservations (Ihara). Noes, 2 (Gabbard, Slom). Excused, none.

SCRep. 2036 Commerce and Consumer Protection on S.B. No. 2766

The purpose and intent of this measure is to update the Insurance Code as it relates to entities regulated by the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from Hawaii Medical Service Association.

Your Committee finds that this measure provides clarity to the licensing and regulation process by removing or revising certain provisions in the Insurance Code that relate to the licensing and regulation of mutual benefit societies and health maintenance organizations. Your Committee further finds that this measure also updates fees and financial regulations in the Insurance Code, thus promoting consistency with the laws governing traditional insurance companies.

Your Committee has amended this measure by:

- (1) Specifying that the Insurance Commissioner, prior to revoking a certificate of authority, shall provide a mutual benefit society with written notice of a delinquency of certificate renewal and imposition of a penalty;
- (2) Authorizing the Insurance Commissioner to revoke a certificate of authority if the renewal fee and penalty are not paid within the thirty days immediately following the provision of written notice of a delinquent renewal, rather than within thirty days of the renewal date;
- (3) Deleting the provisions in the measure relating to service contracts; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2766, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2766, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2037 Commerce and Consumer Protection on S.B. No. 2770

The purpose and intent of this measure is to clarify and strengthen enforcement provisions for exempt out-of-state collection agencies and increase penalties for violations by all collection agencies governed under chapter 443B, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the number of exempt out-of-state collection agencies operating in Hawaii has doubled since 2004, while the number of registered collection agencies has remained relatively stable. Exempt out-of-state collection agencies may operate in a limited capacity, without registration and bonding, and without maintaining a local address. Your Committee further finds that the exemption from collection agency law was originally enacted to afford Hawaii-registered collection agencies reciprocity with other participating states.

Your Committee notes that the amendments proposed by this measure will allow the Department of Commerce and Consumer Affairs to adequately oversee the growing number of exempt out-of-state collection agencies in a manner that protects Hawaii's consumers and preserves the reciprocal benefits of exempt agencies.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Galuteria).

SCRep. 2038 (Majority) Commerce and Consumer Protection on S.B. No. 2752

The purpose and intent of this measure is to authorize the Public Utilities Commission to allow electric utility companies to recover all non-energy power purchase costs that have been approved by the Commission.

Your Committee received testimony in support of this measure from the Public Utilities Commission; Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; Hawaii Electric Light Company, Inc.; Blue Planet Foundation; and Hawaii Renewable Energy Alliance. Your Committee received testimony in opposition to this measure from Friends of Lana'i and one individual.

Your Committee finds that credit agencies impute debt associated with power purchase contracts when establishing a utility's credit rating. Credit ratings measure credit risk and can have an impact on the cost of capital to an electric utility company and the cost of power purchase contracts. Your Committee further finds that these costs ultimately impact the cost of electricity to customers, as the costs of financing and purchased power are recoverable in customers' rates.

Your Committee additionally finds that this measure will reduce the imputed debt levels of local electric utility companies, thus enhancing the financial strength and credit ratings of the companies. Fiscally strong electric utility companies can ultimately benefit electric utility customers in the form of cheaper rates from lower costs of capital.

Your Committee has amended this measure by:

- (1) Clarifying the effects of independent power purchase contracts from a credit rating agency perspective and a credit rating agency's reason for imputing debt;
- (2) Clarifying which power purchase costs arising out of power purchase agreements are allowed to be recovered by an electric utility company and how they may be recovered; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2752, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2752, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6, Ayes with Reservations (Solomon). Noes, 1 (Slom). Excused, none.

SCRep. 2039 Commerce and Consumer Protection on S.B. No. 2184

The purpose and intent of this measure is to permanently prohibit private transfer fees by eliminating the repeal date of Act 169, Session Laws of Hawaii 2010.

Your Committee received testimony in support of this measure from the Hawaii Association of Realtors and one individual.

Your Committee finds that private transfer fees are fees imposed by private parties, through deed restrictions or covenants, on transferees of real property in connection with future conveyances of the property. Private transfer fees may be imposed as part of a new housing development on the initial and subsequent purchasers of a property.

Your Committee further finds that private transfer fees may create significant barriers to homeownership. The Legislature passed Act 169, Session Laws of Hawaii 2010, in response to concerns over private transfer fees and their potential negative impacts on homeownership and property values. Your Committee additionally finds that as of October 2011, thirty-three states have either banned or placed conditions on the use of private transfer fees. Accordingly, your Committee concludes that a permanent prohibition on the use of private transfer fees in the State is justified and appropriate.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2184 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2040 Commerce and Consumer Protection on S.B. No. 2444

The purpose and intent of this measure is to implement amendments to article 9 of the Uniform Commercial Code, as set forth by the Commission to Promote Uniform Legislation.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation. Your Committee received comments on this measure from the Hawaii Bankers Association.

Your Committee finds that article 9 of the Uniform Commercial Code was substantially revised in 1998. In 2010, amendments were proposed that modified the existing article 9 to respond to filing issues and other matters that arose after a decade of experience with the revised article 9.

Your Committee further finds that the amendments contained in this measure provide greater clarity regarding the name of an individual debtor to be provided on a financing statement, improve the filing system for financing statements, and provide greater protection for an existing secured party with a security interest in after-acquired property upon a relocation or merger of its debtor.

Your Committee notes that this measure will allow Hawaii's version of article 9 of the Uniform Commercial Code to be consistent with article 9 as it has been adopted in other jurisdictions. This consistency is necessary to avoid conflicts and confusion with respect to interstate transactions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2444, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2041 Commerce and Consumer Protection on S.B. No. 2758

The purpose and intent of this measure is to correct errors, ambiguities, and inconsistencies in the business registration chapters of the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Community Foundation, Hawaii Alliance of Nonprofit Organizations, and University of Hawaii Professional Assembly.

Your Committee finds that the technical amendments proposed by this measure will bring the Hawaii Revised Statutes into compliance with Act 55, Session Laws of Hawaii 2009. The amendments proposed by this measure clarify acceptable written confirmations for reinstatement of a business entity by the Department of Commerce and Consumer Affairs; address other issues in the business registration chapters of the Hawaii Revised Statutes; make technical corrections to the Hawaii Nonprofit Corporations Act, including when a nonprofit corporation's articles of incorporation may be submitted; and clarify when foreign limited liability companies can file in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2758 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2042 Commerce and Consumer Protection on S.B. No. 2767

The purpose and intent of this measure is to update the Insurance Code in conformity with the National Association of Insurance Commissioners' model acts relating to guaranty associations.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, American Council of Life Insurers, Hawaii Life and Disability Insurance Guaranty Association, and Hawaii Insurance Guaranty Association.

Your Committee finds that the amendments proposed by this measure will improve the operations of insurance guaranty associations by providing for greater uniformity among states and facilitating greater coordination among Hawaii's various guaranty associations. Your Committee further finds that this measure will provide additional benefits to the State's insurance consumers and will allow the Hawaii Guaranty Association system to fulfill its statutory mandate of protecting Hawaii policyholders and consumers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2767, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2767, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2043 Tourism on S.B. No. 2089

The purpose and intent of this measure is to require:

- (1) Any nonresident owner who operates a transient accommodation located in the nonresident owner's private residence, including an apartment, unit, or townhouse, to employ a property manager approved by the Real Estate Commission;
- (2) The nonresident owner to furnish the name, address, and contact information of the property manager to any association of homeowners, community association, condominium association, cooperative, or any other nongovernmental entity with covenants, bylaws, and administrative provisions with which the owner's compliance is required; and
- (3) Any property manager authorized under an agreement by the nonresident owner to collect rent on behalf of the nonresident owner to comply with general excise tax and transient accommodations tax requirements.

Your Committee received testimony in support of this measure from the Department of Taxation; Department of Planning and Permitting, County of Honolulu; Exclusive Gateways; Whalers Realty Management Company, Inc.; Kauai Exclusive Management; Resortica Hawaii; Save Oahu's Neighborhoods; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS, Hawaii Vacation Rental Owners Association, and eleven individuals. Your Committee received comments on this measure from the Hawaii Tourism Authority and the Real Estate Commission.

Your Committee finds that with the advent of the Internet, there has been a significant increase of rental-by-owner activities occurring outside the State through internet bookings. These nonresident owners may or may not charge general excise and transient accommodations taxes on their reservations, and even if they do, they may not remit the taxes to the State. Since the transactions take place outside of Hawaii, it is difficult to determine how many violations occur and the resulting revenue loss to the State.

Your Committee understands that the lack of information hampers compliance efforts by the Department of Taxation, but points out that the problem is not a new one, and greater efforts must be made by the Department. Your Committee notes that the Hawaii Tourism Authority published a study in 2005 on the scope of the problem – estimating 9,000 units in noncompliance at the time – and that this information was shared with the Department.

Your Committee also finds that in addition to the tax ramifications addressed in this measure, nonresident owners who do not employ a Hawaii-based property manager leave their guests vulnerable in the case of emergencies or natural disasters, such as the tsunami alert in 2011, when absent owners do not provide appropriate and easily accessible emergency information. While this concern is not addressed in this measure, it further stresses the need for a Hawaii-based property manager.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2089 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2044 Tourism on S.B. No. 2114

The purpose and intent of this measure is to make the annual \$33,000,000 limit on the allocation of transient accommodations tax revenues to the convention center enterprise special fund apply on a fiscal year, rather than a calendar year, basis.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Department of Taxation, and Hawaii Tourism Authority.

Your Committee finds that the amount of the transient accommodations tax revenue allocated for the convention center enterprise special fund is limited to \$33,000,000 per calendar year. A problem arises as a result of the limits on the deposits into the special fund because the limit is applied on a calendar year basis, but expenditures from the fund are made on a fiscal year basis. In some years, the \$33,000,000 limit is achieved in the third month of the fiscal year, October, and no further revenues are deposited into the fund until the new calendar year. This results in a short-fall in the fund's ability to pay the debt service for the convention center.

This measure will address the problem by providing for the receipt of transient accommodations tax revenues in each month during 2012 and the early months of 2013.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2114 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2045 (Majority) Tourism on S.B. No. 3017

The purpose and intent of this measure is to clarify that the daily \$10 tax on a transient accommodation furnished on a complimentary or gratuitous basis includes transient accommodations furnished without tangible industry development or promotional purposes, but does not include transient accommodations furnished as part of a tourism industry promotional or marketing activity.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority and the Hawaii Lodging & Tourism Association. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the intent of this measure is to provide greater certainty regarding the specific types of transient accommodations that are considered complimentary or gratuitous, and subject to the daily \$10 tax. Your Committee understands that there has been some uncertainty in the tourism industry since the law to tax complimentary or gratuitous transient accommodations was enacted in 2011, and the Department of Taxation responded with Tax Information Release No. 2011-05, to clarify the issue.

After reviewing the Tax Information Release, your Committee believes that further discussion may be necessary to ensure that the terminology is clear. The Department of Taxation, the Hawaii Tourism Authority, and representatives of the tourism industry have indicated they are willing to work on refining the language in this measure, and your Committee believes that a consensus can be reached as this measure moves through the legislative process.

Your Committee has amended this measure by deleting rewards programs from those transient accommodations considered complimentary or gratuitous, as those rewards programs are taxed under existing law.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3017, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3017, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 2046 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2340

The purpose and intent of this measure is to require the Department of Transportation to report to the Legislature on providing the best and most modern security technology at Hawaii's harbors and airports to detect and prevent terrorist activity.

Your Committees received testimony in support of this measure from one individual. Testimony in opposition was submitted by the State Department of Transportation.

Your Committees find that the department of transportation will realize cost savings with greater security by implementing the best and most modern security technology, including video surveillance, access control systems, sensors, motion detectors, radar, sonar, and other systems and technologies. Security is particularly important to protect the tourism industry from the impacts of terroristic activity.

Your Committees are mindful that sensitive information should not be put out for public viewing for fear of alerting would-be saboteurs. Testimony indicated that the Department of Transportation has up-to-date information on the state of security at harbors and airports and would be willing to share this information in private with lawmakers. However, your Committees believe that this issue is important enough to warrant a public report. Your Committees trust that the Department of Transportation can protect sensitive information in that reporting process.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2340 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 2047 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2447

The purpose and intent of this measure is to extend the period in which an owner of a new car is exempted from obtaining a certificate of inspection, from two years to three years from the date of purchase.

Your Committees received testimony in support of this measure from Enterprise-Rent-A-Car, Alamo-Rent-A-Car, National Car Rental and Hawaii Automobile Dealers' Association. Testimony in opposition was submitted by the State Department of Transportation and the Honolulu Department of Customer Services.

Your Committees find that new cars sold within the State of Hawaii are typically covered under warranties lasting a minimum of three years or thirty-six thousand miles. As Hawaii drivers do not typically exceed thirty-six thousand miles within three years of

purchasing a new car, requiring drivers to obtain a certificate of inspection within two years of purchasing a new car imposes an unnecessary burden on drivers of new cars.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2447 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7, Ayes with Reservations (Ryan). Noes, none. Excused, 3 (Dela Cruz, Kidani, Kouchi).

SCRep. 2048 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2518

The purpose and intent of this measure is to:

- (1) Extend the validity of the driver's license of an accompanying dependent of an active duty member of the United States Armed Forces that expires while the member is deployed overseas; and
- (2) Authorize any active duty member of the United States Armed Forces or accompanying dependent to use a valid Status of Forces Agreement driver's license until receipt of a valid state-issued driver's license, if the member or dependent's driver's license expired while the member was deployed overseas.

Your Committees received testimony in support of this measure from the Honolulu Department of Customer Services and three individuals. Testimony in opposition was submitted by one individual.

Your Committees find that the Status of Forces Agreement is valid only during the period that a state-issued driver's license is valid and only while the servicemember or servicemember's dependent is stationed in a foreign country. It is not the intent of your Committees to impose hardship on deployed servicemembers or their dependents, but federal law supersedes state law.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the reference to "in-country" in the title of section 286-106.5, Hawaii Revised Statutes; and
- (2) Deleting the provision that allows the use of a Status of Forces Agreement after the expiration of a driver's license.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2518, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2518, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 2049 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2625

The purpose and intent of this measure is to abolish the requirement that certain vehicles obtain an annual certificate of inspection.

Your Committees received testimony in support of this measure from two individuals. Testimony in opposition was submitted by the State Department of Transportation, Honolulu Police Department, and Honolulu Customer Services Department.

Your Committees find that annual vehicle certificates of inspection may not be necessary. Recently, some jurisdictions throughout the nation have cut or proposed to cut vehicle safety inspection programs or have exempted certain vehicles from safety inspections. Advocates for the repeal of safety inspection programs or the exemption of new motor vehicles from inspection requirements cite a lack of evidence that safety inspections save lives and question whether inspections of new vehicles is cost efficient.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2625 and recommend that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Ayes, 8, Ayes with Reservations (Baker, Espero, Gabbard, Ryan). Noes, none. Excused, 2 (Dela Cruz, Kidani).

SCRep. 2050 (Joint/Majority) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2959

The purpose and intent of this measure is to authorize a county with a population greater than five hundred thousand that adopts a county surcharge on state tax ordinance to use at least one percent of the surcharge to fund transit enhancements.

Your Committees received testimony in support of this measure from the Honolulu Department of Planning and Permitting and one individual. Comments were received from Honolulu Authority for Rapid Transportation and Tax Foundation of Hawaii.

Your Committees find that transit enhancement projects are designed to foster more livable communities, preserve and protect environmental and cultural resources, and promote alternative modes of transportation. A successful rapid transit system requires several supportive policies and programs. In addition to timely and dependable service, it must also connect people to where they want to go. As part of this connectivity, there needs to be adequate walkways, bikeways, and connections to and from transit stations. This multi-modal system needs to be not only safe and convenient, but it must also be part of the strategy of upgrading and enhancing the

neighborhoods it serves. The transit enhancement elements under this measure would help integrate the transit system into the communities it services.

Your Committees have amended this measure on the recommendation of the Honolulu Authority for Rapid Transportation by:

- (1) Clarifying the purpose section to indicate the mandatory for expenditure of funds on certain enhancements under this measure;
- (2) Deleting references to the use of the surcharge revenue for preservation of certain historic structures and for bus shelters, since these uses may conflict with section 46-16.8, Hawaii Revised Statutes, prohibiting the use of the surcharge to support public transportation systems already in existence prior to July 12, 2005; and
- (3) Clarifying that the use of surcharge revenue for enhancements to accessibility for persons with disabilities does not require more access than is required by the Americans with Disabilities Act.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2959, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2959, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, 1 (Slom). Excused, 2 (Dela Cruz, Kidani).

SCRep. 2051 Hawaiian Affairs on S.B. No. 2268

The purpose and intent of this measure is to modify the memorial statue of Queen Liliuokalani on the grounds of the State Capitol to bear the years of her coronation and death, rather than the years of her coronation and the overthrow of the Government of Hawaii, as the inscription currently reads.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, the State Foundation on Culture and the Arts, and the Association of Hawaiian Civic Clubs. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Queen Liliuokalani's kingdom was overthrown with the aid of the United States military, and she was imprisoned in her own palace. Despite the political turmoil and personal distress that marked the Queen's reign, Queen Liliuokalani never relinquished her sovereignty and remained the monarch of the Hawaiian Kingdom until her death.

Your Committee notes that testimony from the Executive Director of the State Foundation on Culture and the Arts indicates that the Department of Accounting and General Services has a sufficient sum of money and the necessary expertise to modify the statue according to this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2268 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Hee).

SCRep. 2052 (Majority) Hawaiian Affairs on S.B. No. 2386

The purpose and intent of this measure is to establish that verification documents submitted by individuals seeking to be included on the roll of qualified Native Hawaiians shall not be disclosed and shall constitute information in which an individual has a significant privacy interest.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; the Executive Director of the Native Hawaiian Roll Commission, Clyde Namu'o; the Chairperson of the Native Hawaiian Roll Commission, John Waihe'e; the Association of Hawaiian Civic Clubs; and the Aha Moku Advisory Committee. Your Committee received testimony in opposition to this measure from Aupuni O Hawaii. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee recognizes the privacy concerns of individuals registering with the Native Hawaiian Roll Commission. Those individuals must submit verification documents that may include names of persons from whom lineal descent can be verified; birth, marriage, or death certificates; statements of kamaaina witnesses; contact information; and birth dates and other personal identification numbers. Unless the confidentiality of those verification documents and information is established by law, any person could obtain access to those sensitive verification documents and information through a records request.

Your Committee finds that prospective registrants should not have to choose between maintaining their family and personal privacy and exercising their civic right to participate in reconstituting a Native Hawaiian government.

Your Committee further finds that the measure as drafted may not prevent the disclosure of verification documents and information. The Office of Information Practices testified that specifying that verification documents and information are documents in which an individual has a significant privacy interest could create an ambiguity as to whether the Legislature intended the information to be disclosed if the public interest in disclosure outweighs the privacy interest. Your Committee firmly believes that the verification documents and information should not be subject to disclosure on the basis of a balancing test, and further finds that there is no public interest in disclosing this information.

Your Committee has therefore adopted the amendments recommended by the Office of Information Practices, to ensure the confidentiality of verification documents and information as follows:

- (1) In section 1 of the measure, deleting the language stating that the verification documents shall be subject to section 92F-14, Hawaii Revised Statutes; and

- (2) Deleting section 3 of the measure, which listed the verification information and documents as an example of information in which an individual has a significant privacy interest.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2386, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2386, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, 1 (Hee).

SCRep. 2053 Public Safety, Government Operations, and Military Affairs on S.B. No. 2249

The purpose and intent of this measure is to require the Department of Public Safety to permit committed persons, at the Director of Public Safety's discretion, to create products and crafts for sale including photographs, paintings, drawings, sewn items, crocheted items, woodwork, and other items deemed sellable by the Director.

Your Committee received testimony in support of this measure from Tahirih Association, Fishnet Ministries International, and three individuals. Comments were received from the Department of Public Safety.

Your Committee finds that allowing the sale of prison arts and crafts would create an incentive to engage in these activities, which are a valuable rehabilitation tool. Under this measure, a person making arts or crafts can generate proceeds from the sale of those arts and crafts, twenty-five percent of which shall be deposited into the fund of the person's facility for re-entry or rehabilitation services or programs.

Your Committee has amended this measure by:

- (1) Deleting the prohibition on the creation of items that relate to the person's crime;
- (2) Requiring that twenty-five percent of the proceeds be deposited into the crime victim compensation special fund;
- (3) Requiring the Department of Public Safety to conduct a study to ascertain the practices of correctional facilities in other states with regard to the making and sale of arts and crafts by inmates, including the means by which the items are sold, the price of the articles, and the allocation of proceeds from sales, and report its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013; and
- (4) Making a conforming statutory amendment.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2249, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2054 Public Safety, Government Operations, and Military Affairs on S.B. No. 2394

The purpose and intent of this measure is to authorize the Director of Commerce and Consumer Affairs to enforce certain federal laws that protect military members and their families from abusive lending practices.

Your Committee received testimony in support of this measure from the Office of Consumer Protection; United States Department of Defense; Military Officers Association of America, Hawaii Chapter; Oahu Veterans Center; and The Chamber of Commerce of Hawaii.

Your Committee finds that members of our armed forces and their dependents have enough to worry about, including multiple overseas deployments, coping with a spouse's prolonged absence from home, and the lack of an adequate support system while residing on military bases throughout the country. This can lead to a great deal of emotional and financial stress.

Your Committee believes that service members and their families may be particularly vulnerable to unscrupulous lenders who may charge excessive fees and interest rates, make loans without regard to the borrower's ability to repay, refinance a borrower's loans repeatedly over a short period of time without any gain for the borrower, and commit outright fraud or deception.

This measure allows the Office of Consumer Protection to enforce certain federal laws that protect military members from predatory and unscrupulous lending practices that appear to target military personnel.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2394, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2394, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2055 Public Safety, Government Operations, and Military Affairs on S.B. No. 2397

The purpose and intent of this measure is to prohibit counties from requiring installation or retrofitting of automatic fire sprinklers in new or existing one- or two-family dwelling units used only for residential purposes.

Your Committee received testimony in support of this measure from the Building Industry Association; Complete Construction Services Corp.; The Pacific Resource Partnership; Alan Shintani Inc.; Hawaii Farm Bureau Federation; The Gentry Companies; RMA Sales; Hawaii Aquaculture & Aquaponics Association; and one individual. Testimony in opposition was received from the State Fire Council, Honolulu Fire Department, Maui Fire Department, Kaua'i Fire Department, National Fire Protection Association, Plumbing & Mechanical Contractors Association of Hawaii, and The Plumbers and Fitters Union, Local 675.

Your Committee finds that the mandatory installation of automatic fire sprinklers is unnecessary at this time because new homes are built with better fire safety measures; fire sprinklers are not cost-effective; targeted fire safety education programs work; fire sprinklers have not been proven to enhance the safety of occupants; and if a homeowner wants to install a fire sprinkler, that option should be left to the homeowner.

Your Committee has amended this measure by changing the effective date to January 1, 2025, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2397, S.D. 1, and be referred to the Committee on Water, Land, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ryan).

SCRep. 2056 Public Safety, Government Operations, and Military Affairs on S.B. No. 2489

The purpose and intent of this measure is to:

- (1) Establish an employer income tax credit for taxpayers who maintain employee insurance coverage for National Guard members for the duration of the call to active duty;
- (2) Expand the reasons for which the Governor or the Governor's designated representative may call the National Guard into active service;
- (3) Authorize the Adjutant General to order the National Guard or other component of the militia into active service for certain nonemergency purposes; and
- (4) Incorporate certain rights granted to the National Guard under certain federal laws into statute.

Your Committee received testimony in support of this measure from the Oahu Veterans Center. Comments were received from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that members of the National Guard who are called into active service should enjoy continued employee insurance coverage while deployed on active duty. This is particularly critical to dependents of the members of the National Guard with regard to health insurance. Your Committee further finds that the Governor and Adjutant General should have greater authority to utilize the National Guard for assistance in various circumstances, including cases of public disaster or danger from flood, fire, storm, earthquake, civil disturbances, or terrorist events.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2489, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2489, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2057 Public Safety, Government Operations, and Military Affairs on S.B. No. 2583

The purpose and intent of this measure is to require a person to possess certain prior military experience in Hawaii to be eligible for appointment as the Adjutant General.

Your Committee received testimony in support of this measure from the Adjutant General and one individual.

Your Committee finds that Hawaii's close association with the Pacific Command and the subordinate component headquarters, as well as relationships developed among state, local, and federal law enforcement officers and first responders, make prior experience with the Hawaii National Guard essential to the effectiveness of the Adjutant General.

Your Committee has amended this measure by clarifying that the requisite experiential qualification, among the other experience requirements for appointment, is a commission of a grade O5 or above, rather than of a federally recognized field officer.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2583, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2583, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2058 (Joint) Public Safety, Government Operations, and Military Affairs and Education on S.B. No. 2584

The purpose and intent of this measure is to:

- (1) Expand the existing tuition assistance program to qualified Hawaii National Guard members to include students working toward any degree at the University of Hawaii, with priority given to students working toward their undergraduate degrees; and
- (2) Appropriate funds to provide tuition assistance to students who are members of the Hawaii National Guard.

Your Committees received testimony in support of this measure from the Adjutant General and University of Hawai'i System.

Your Committees find that all states offer some form of tuition assistance to members of the National Guard who pursue a college degree. Of the fifty states, approximately half of the states offer up to one hundred percent tuition assistance at in-state or state-supported colleges or universities.

Your Committees are intent on providing National Guard members with the opportunity to improve themselves and their community, as National Guard members have provided outstanding service to the State and country. Your Committees note that this measure serves as a valuable recruiting tool and an incentive for highly trained members to remain in the National Guard.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2584 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Ryan).

SCRep. 2059 (Joint/Majority) Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2225

The purpose and intent of this measure is to impose certain limitations and conditions on in forma pauperis prisoner lawsuits.

Your Committees received testimony in support of this measure from the Department of Public Safety and State Attorney General. Testimony in opposition was received from the Community Alliance on Prisons and American Civil Liberties Union of Hawai'i.

This measure is patterned after the federal Prison Litigation Reform Act, which was enacted in 1996. This measure requires a prisoner who is seeking to file a lawsuit in forma pauperis to submit financial documents certified by the detaining facility indicating the prisoner's inability to pay the filing fees for the lawsuit or appeal. The proposed procedure, among other things, requires inmates seeking in forma pauperis status to pay a portion of the filing fee when funds are available in the inmate's trust account.

Your Committees find that this measure balances a prisoner's right to file complaints or litigation with the need to eliminate frivolous and unnecessary litigation, and reduces the costs associated with the litigation of prisoner lawsuits. However, your Committees caution the courts to protect basic constitutional rights to counsel in deciding whether to authorize an inmate to proceed in forma pauperis, depending on the nature of the proposed action.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2225 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, 1 (Ryan). Excused, 1 (Gabbard).

SCRep. 2060 (Joint) Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2253

The purpose and intent of this measure is to establish the Hawaii's opportunity parole with enforcement pilot program.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons, American Civil Liberties Union of Hawai'i, and one individual. Comments were received from the Hawaii Paroling Authority and one state judge.

Your Committees find that the Hawaii's opportunity probation with enforcement program, better known as HOPE, has been a proven success for probationers as evidenced by declining recidivism rates and parole revocations. This measure creates a pilot project for parolees that is modeled after the HOPE program.

Under conventional probation systems, violations by probationers, such as failing to appear for scheduled appointments with their probation officers, typically go unpunished for months or years until the violations accumulate to the point that the probationer faces severe consequences, including revocation of probation and being sentenced to a long prison term. Under the HOPE program, however, sanctions are imposed for each probation violation, and although the sanctions may be relatively minor, they are imposed immediately after each violation, rather than months or years after a violation.

Your Committees find that HOPE participants, as compared to non-participants, are fifty-five percent less likely to be arrested for a new crime, seventy-two percent less likely to use drugs, sixty-one percent less likely to miss appointments with their supervisory officer, fifty-three percent less likely to have their probation revoked, and sentenced to on average, forty-eight percent fewer days of incarceration.

Your Committees believe that the success of the HOPE program warrants replication and expansion into opportunities for parole enforcement.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2253 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 1 (Gabbard).

SCRep. 2061 (Joint) Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2261

The purpose and intent of this measure is to:

- (1) Establish a permanent weed and seed program within the Department of Labor and Industrial Relations to continue the program's success; and
- (2) Appropriate funds to maintain current operations of the weed and seed program and expand the weed and seed program into other areas of the State.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; State Department of Education; Hawaii Public Housing Authority; Office of Community Services; Honolulu Police Department; Meridian Pacific, Ltd.; The Gentry Companies; Haseko Development, Inc.; Hawaii's Most Wanted Magazine; Kalihi Baptist Church; and thirty-one individuals.

Your Committees find that the weed and seed program works with local law enforcement to prevent, control, and reduce violent crime, drug abuse, and gang activity in targeted neighborhoods by "weeding" out the criminal element in the community. Community policing involves police officers working closely with community residents to develop solutions to violent and drug-related crimes. "Seeding" the community involves collaboration among various human services organizations to implement prevention, intervention treatment, and neighborhood revitalization projects, programs, and activities.

Your Committees also find that the State has benefited greatly from the weed and seed program, most notably at sites on Oahu that encompass Kalihi-Palama, Chinatown, Downtown Honolulu, Ala Moana, Sheridan, McCully, Waipahu, and Ewa Beach. Since the implementation of the program, crime in those areas has decreased significantly. Your Committees find that the weed and seed program's success warrants the continued operation of weed and seed and envision the expansion of the program to other communities in the future.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2261 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8, Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Gabbard).

SCRep. 2062 Judiciary and Labor on H.B. No. 245

The purpose and intent of this measure is to increase the per diem payments of out-of-state witnesses in criminal cases to support and encourage out-of-state witnesses to return to Hawaii to participate in the prosecution of those cases.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; and Department of the Prosecuting Attorney of the County of Maui. The Department of Budget and Finance submitted comments.

Your Committee finds that the last time the Legislature increased the per diem payment for out-of-state witnesses was in 1989. This amount is no longer sufficient for out-of-state witnesses to pay for their personal expenses, such as for food and lodging, and discourages or prevents out-of-state witnesses from returning to the State to testify against offenders. Furthermore, the per diem amount for witnesses who are required to travel to and stay overnight on another island to attend a state court is also insufficient. Increasing the per diem payment for out-of-state witnesses from \$110 to \$145 per day and providing an additional \$90 per day for witnesses who are required to travel and stay overnight on another island will support and encourage out-of-state witnesses to testify and enable the prosecution of important cases.

Your Committee believes that the sufficiency of the increased per diem payments for out-of-state witnesses is an issue that merits further discussion by the Committee on Ways and Means.

Your Committee has amended this measure by changing the effective date from January 7, 2050, to July 1, 2012.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 245, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 245, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2063 Judiciary and Labor on H.B. No. 238

The purpose and intent of this measure is to create special sentencing provisions for a first time temporary restraining order offender who has a prior conviction for a specified felony offense committed against a family or household member.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Testimony in opposition to this measure was submitted by the Office of the Public Defender. The Department of the Attorney General submitted comments.

Your Committee finds that existing law requires a person who has a first conviction for a violation of a temporary restraining order to serve a minimum jail sentence of forty-eight hours and be fined no less than \$150 and no more than \$500. Adding a minimum jail sentence of fifteen days and a fine of no less than \$150 and no more than \$600 for a first time violation of a temporary restraining order offender with a prior conviction for certain felony offenses against a family or household member will aid in the reduction of domestic violence cases.

Your Committee has amended this measure by:

- (1) Changing the effective date from January 7, 2059, to July 1, 2012; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 238, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 238, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2064 Judiciary and Labor on S.B. No. 2062

The purpose and intent of this measure is to place limitations on the parental discipline defense while maintaining a parent's general right to safeguard and promote the welfare of the child.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, and one private individual. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds the parental discipline defense is intended to limit the amount of force that parents and guardians can legally use in disciplining their children to the extent the force is reasonable or moderate. However, the courts have held that the plain language of the law specifically ties the defense to the nature of the force used as opposed to the result of the force used. As such, the courts have upheld the parental discipline defense as justifiable in cases where the parent or guardian acted with the purpose of deterring or punishing the minor's misconduct without the intent or knowledge that their actions would cause substantial bodily injury, or extreme pain or mental distress. The Department of the Prosecuting Attorney of the City and County of Honolulu testified that as a result, the courts have set the bar for unjustifiable discipline so high that many cases have applied the parental discipline defense to permit disciplinary action that would be considered unacceptable by the public. Thus, this measure aims to establish reasonable limitations to the parental discipline defense while maintaining a parent's general right to safeguard and promote the welfare of the child.

Your Committee notes the testimony submitted by the Office of the Public Defender indicating concerns regarding the vagueness in applying the limitations to the parental discipline defense and thereby potentially causing confusion among litigants in court. Your Committee recognizes that this measure deals with child abuse issues that merit further discussion as this measure proceeds through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2062, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2062, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ihara).

SCRep. 2065 Judiciary and Labor on S.B. No. 2218

The purpose and intent of this measure is to propose a constitutional amendment to increase the residency requirements for candidates for a seat in the state Senate or House of Representatives by requiring the candidates to be residents of the State for not less than five years and residents of the district from which they seek to be elected for not less than twelve consecutive months prior to the next succeeding general election.

Your Committee received testimony in support of this measure from the Iron Workers Stabilization Fund. Testimony in opposition to the five-year residency requirement was submitted by the League of Women Voters of Hawaii. One private individual submitted comments.

Your Committee finds that while the state constitution requires that state Senate and House of Representatives candidates be residents of the State for at least three years, candidates are not required to be residents of the legislative districts they are seeking to represent. Thus, it is possible for a candidate to express an intention to move into a senatorial or representative district prior to filing nomination papers without possessing sufficient knowledge of the issues concerning the voters of the district the candidate seeks to represent.

Your Committee recognizes that a person may have more than one residence, but only one domicile. Generally, a domicile is a person's legal home where the person has physical presence with the intention to make it the person's true, fixed, and permanent home. Requiring candidates to be domiciled within the district they seek to represent provides greater assurance to voters that candidates

listed on the ballot are knowledgeable about issues affecting not only the entire State, but also the district that the candidates seek to represent.

Your Committee has amended this measure by:

- (1) Deleting the requirement that a candidate be a resident of the State for five years, thereby retaining the minimum state residency requirement of three years;
- (2) Amending the legislative district residency requirement by requiring a candidate to be domiciled in, rather than reside in, the legislative district that the candidate seeks to represent; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2218, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Gabbard, Ihara, Slom). Noes, none. Excused, none.

SCRep. 2066 Judiciary and Labor on S.B. No. 2058

The purpose and intent of this measure is to add certain felonies for which criminal charges may be instituted by written information.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; the Police Department of the City and County of Honolulu; and the Department of the Prosecuting Attorney of the County of Maui. Testimony in opposition to this measure was submitted by the American Civil Liberties Union of Hawaii; the Community Alliance on Prisons; and one private individual.

Your Committee finds that as new criminal laws have been passed or amended, the written information law has not been amended accordingly to include those new or amended laws. As such, this measure adds certain felonies that are comparable to the felonies listed in the existing written information law.

Your Committee notes that the Judiciary did not submit any written testimony, and encourages the Judiciary to participate in the ongoing discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Inserting the correct section number for the crime of unauthorized entry into a dwelling in the first degree, and making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2058, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2067 Commerce and Consumer Protection on S.B. No. 2787

The purpose and intent of this measure is to authorize the Public Utilities Commission to:

- (1) Develop, adopt, and enforce reliability standards for electric systems;
- (2) Oversee electric grid access;
- (3) Contract for the performance of related duties with a party to be named the Hawaii Electricity Reliability Administrator; and
- (4) Require an electric reliability surcharge to be collected by Hawaii's electric utilities.

Your Committee received testimony in support of this measure from the Governor; Department of Business, Economic Development, and Tourism; Public Utilities Commission; Maui Electric Company, Limited; Sierra Club, Hawaii Chapter; Hawaii Renewable Energy Alliance; and Blue Planet Foundation.

Your Committee finds that the reliability of Hawaii's electric system is a central issue the State must address to achieve the maximum penetration of renewable energy generation on its grid. Your Committee further finds that Hawaii's electric utilities currently assume responsibility for maintaining system reliability. However, the rise in requests to connect to the grid with intermittent energy sources demands a more formalized and transparent interconnection process. Your Committee additionally finds that the Public Utilities Commission needs the authority to perform necessary electric system reliability and grid access oversight functions and to contract for support in the performance of its duties.

Your Committee notes that this measure will provide the Public Utilities Commission with the necessary means to ensure that reliability standards and interconnection requirements are properly monitored and enforced by knowledgeable experts.

Finally, your Committee finds that the electric reliability surcharge proposed by this measure will ensure the funding of reliability standard monitoring and enforcement.

Your Committee has amended this measure by:

- (1) Clarifying that the Public Utilities Commission has the authority to develop, adopt, and enforce reliability standards and interconnection requirements;
- (2) Clarifying the Public Utilities Commission's authority to monitor the reliability and operation of the Hawaii electric system;
- (3) Specifying the appropriate and reasonable costs for interconnections that a utility may recover under the Hawaii electricity reliability surcharge;
- (4) Clarifying that the Public Utilities Commission may contract for the performance of its duties with a person, business, or organization that will serve as the Hawaii Electricity Reliability Administrator;
- (5) Clarifying the necessary qualifications and duties of the Hawaii Electricity Reliability Administrator; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2787, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2068 Commerce and Consumer Protection on S.B. No. 2759

The purpose and intent of this measure is to correct errors, ambiguities, and inconsistencies in the securities chapter of the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that recent amendments to the Uniform Securities Act, chapter 485A, Hawaii Revised Statutes, have resulted in errors, ambiguities, and inconsistencies. This measure will promote consistency throughout the securities chapter by correcting language regarding notice filing and correct several drafting errors where internal references were wrongly cited.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2759, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2759, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Galuteria).

SCRep. 2069 (Joint) Judiciary and Labor and Public Safety, Government Operations, and Military Affairs on H.B. No. 246

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu to provide services for various state mandated programs.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Sex Abuse Treatment Center.

Your Committees find that this measure appropriates funds for grants-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu to support four programs: the Career Criminal Prosecution Unit; Hawaii's drug court program; the Hawaii opportunity probation with enforcement program; and the Honolulu victims witness kokua services program.

Your Committees have amended this measure by:

- (1) Inserting the sum of \$734,973 to be appropriated for the Career Criminal Prosecution Unit;
- (2) Inserting the sum of \$121,057 to be appropriated for Hawaii's drug court program;
- (3) Inserting the sum of \$86,888 to be appropriated for the Hawaii's opportunity probation with enforcement program;
- (4) Inserting the sum of \$502,965 to be appropriated for the Honolulu victims witness kokua services program;
- (5) Changing the fiscal year of the appropriations from 2011-2012 to 2012-2013;
- (6) Changing the effective date from July 1, 2030, to July 1, 2012; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 246, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 246, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2070 Human Services on S.B. No. 2301

The purpose and intent of this measure is to:

- (1) Permit the family court to award reasonable visitation rights to grandparents if the denial of visitation would cause significant demonstrable harm to the child;
- (2) Establish a rebuttable presumption that visitation decisions made by a parent are in the best interests of the child; and
- (3) Identify factors the court shall consider in awarding visitation rights to a grandparent.

Your Committee received testimony in support of this measure from the Family Law Section, Hawaii State Bar Association; and two individuals. Your Committee received comments on this measure from the American Civil Liberties Union of Hawaii.

Your Committee finds that innumerable children enjoy loving and beneficial relationships with grandparents who contribute to the children's experiences and establish a sense of familial intimacy. Grandparents that offer a child a comforting, safe, and secure haven should be able to visit their grandchildren.

Your Committee also finds that legal issues regarding grandparents' visitation rights in Hawaii are currently unresolved. In 2007, the Hawaii Supreme Court struck down section 571-46.3, Hawaii Revised Statutes, establishing grandparents' visitation rights, and noted that legislative action was necessary to correct the statute's unconstitutional provision (*Doe v. Doe*, 116 Hawaii 323, 336 (2007)).

Your Committee further finds that as the measure is currently drafted, the question still remains whether, and under what standards, the State can override a parent's determination regarding visitation by a grandparent. This measure, as currently drafted, does not answer this question or include such standards and may be subject to constitutional scrutiny for failure to include necessary deference to a parent's decision that is in line with that parent's constitutional rights.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2301, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3, Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Slom).

SCRep. 2071 (Majority) Human Services on S.B. No. 2450

The purpose and intent of this measure is to establish mandatory minimum prison terms for certain offenses committed against a person who the defendant knows or reasonably should have known is sixty years of age or older.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Healthcare Association of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Community Alliance on Prisons and the League of Women Voters of Hawaii.

Your Committee finds that although the law currently provides harsher penalties for felonies that cause death or serious bodily injury to an elderly person, there are no such penalties for targeted elderly persons for financial crimes. Financial crimes against the elderly have been a growing problem in Hawaii, where it is common to see several generations living under the same roof. In May of 2006, the *Honolulu Advertiser* published a series of nine articles regarding the financial abuse of seniors, indicating the Adult Protective Services had received more than one thousand eight hundred reports of suspected incidents, during the two years prior. It is believed that these numbers are expected to increase as Hawaii's baby boomers age.

Your Committee further finds that stiffening the penalties for offenders of crimes against elder persons relating to theft and identity theft will provide greater protection for Hawaii's aging population and present greater deterrence to those who would contemplate targeting Hawaii's elderly for financial gain.

Your Committee recognizes the seemingly arbitrary designation of the apparent age of victims targeted by this measure as sixty years or older and urges further discussion of the issue as this measure progresses.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2450, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2450, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Ihara). Excused, 1 (Slom).

SCRep. 2072 Human Services on S.B. No. 2309

The purpose and intent of this measure is to implement the long-term care partnership program, which allows individuals to qualify for Medicaid coverage for continued long-term care prior to exhausting their assets.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; the American Council of Life Insurers; Consumer, Family, and Youth Alliance; the National Association of Insurance and Financial

Advisors Hawaii; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services and the Policy Advisory Board for Elder Affairs.

Your Committee finds that as a matter of policy, families should be encouraged to provide for their own financial well-being. The partnership program allows people to preserve some of their assets and still qualify for Medicaid by purchasing a “partnership” long-term care policy or exchanging an existing policy for a partnership policy.

Your Committee further finds that the measure as drafted does not appear to accurately reflect the requirements of the Deficit Reduction Act of 2005.

Your Committee has amended this measure by:

- (1) Ensuring consistency and compliance with the Deficit Reduction Act of 2005 by:
 - (A) Amending the purpose section in the proposed new chapter in section 1 to encourage people to purchase long-term care insurance instead of combining funds from private long-term care insurance and Medicaid;
 - (B) Amending the definitions of “certified long-term care insurance partnership policy” and “partnership” and adding a definition for “state medicaid agency”;
 - (C) Deleting language that set a minimum level of coverage under the partnership program;
 - (D) Requiring the Department of Commerce and Consumer Affairs, rather than the Department of Human Services, to certify the policies or plans; and
 - (E) Deleting language that required the adoption of certain rules that would have either violated the Deficit Reduction Act of 2005 or are unnecessary; and
- (2) Deleting section 2, which amended section 431:10H-221, Hawaii Revised Statutes, as it is unnecessary, and the topic of exchanges would be addressed in section 1 of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2309, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2309, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2073 Tourism on S.B. No. 490

The purpose and intent of this short form bill is to amend the law relating to the Hawaii Tourism Authority.

Your Committee has amended this measure by inserting language that, beginning July 1, 2012:

- (1) Increases the allocation of the transient accommodations tax revenue for the Hawaii Tourism Authority from \$69,000,000 to \$71,000,000; and
- (2) Requires \$2,000,000 to be expended for development and implementation of initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, as amended herein, and recommends that it be recommitted to the Committee on Tourism, in the form attached hereto as S.B. No. 490, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2074 Human Services on S.B. No. 2310

The purpose and intent of this measure is to provide the Department of Human Services with the funding it requires to match federal funds allocated to the State for Medicaid benefits dedicated to adult vision services.

Your Committee received testimony in support of this measure from the Hamakua Health Center; the Hawaii Optometric Association; the Hawai'i Primary Care Association; Project Vision Hawaii; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that funding Medicaid benefits dedicated to adult vision services will greatly assist the maintenance of vision. The deterioration of adult vision often serves as an indicator of diabetes, heart disease, and other diseases with high mortality rates, and impacts the vitality of a healthy society.

Your Committee notes that although the intent of this measure is supported, opposition to the measure cautions that given the State's current fragile fiscal situation, funding this measure through a general fund appropriation would not be prudent. Therefore, your Committee urges the Committee on Ways and Means to consider other, more appropriate funding sources to restore the provision of valuable vision services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2310 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2075 Energy and Environment on S.B. No. 2824

The purpose and intent of this measure is to eliminate the dietary supplement exemption from the deposit beverage container program.

Your Committee received testimony in support of this measure from the Department of Health, Sierra Club, and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association and Grocery Manufacturers Association.

Your Committee finds that eliminating the dietary supplement exemption from the deposit beverage container program will reduce waste of the Department of Health's resources. The Department's administration of the dietary supplement exemption consumes an inordinate amount of its resources in comparison to the return, if any, to be gained by exempting dietary supplements.

Your Committee notes that the dietary supplement Ensure is distributed in "number 5" plastic bottles; consequently, Ensure is already exempt from participating in the program because "number 5" plastic bottles fall outside the scope of the program.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2824 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Slom).

SCRep. 2076 Energy and Environment on S.B. No. 2986

The purpose and intent of this measure is to make permanent the taxation rate for the liquid fuel naphtha, which is sold for use in electric power generation.

Your Committee received testimony in support of this measure from the Public Utilities Commission and Kauai Island Utility Cooperative. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

The Kauai Island Utility Cooperative testified that if the current naphtha fuel tax rate of two cents per gallon of naphtha is allowed to sunset on December 31, 2012, the default state and County of Kauai fuel tax rates would apply. The cooperative also testified that the higher tax rate would result in a tax liability that would be passed on to Kauai Island Utility Cooperative members, whose energy bills would increase by approximately seven percent. Your Committee finds that this potential increase in energy costs would not be in the best interests of the public.

Your Committee notes that no testimony was received on two other changes proposed by this measure. The first change would make permanent the definition of "power-generating facility" in section 243-1, Hawaii Revised Statutes; the second change would repeal the retroactive effect of the naphtha fuel tax rate established by Act 103, Session Laws of Hawaii 2007, as amended by Act 198, Session Laws of Hawaii 2009. Your Committee notes that the proposed repeal of the retroactive effect of the naphtha fuel tax rate should be further discussed if your Committee on Ways and Means chooses to hear this measure.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Slom).

SCRep. 2077 Energy and Environment on S.B. No. 2981

The purpose and intent of this measure is to direct electric utilities to expedite the development of geothermal resources and other indigenous renewable resources for the production of electricity.

Your Committee received testimony in support of this measure from Innovations Development Group, Indigenous Consultants, LLC, and the Hawaii Renewable Energy Alliance. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company, Maui Electric Company, Hawaii Electric Light Company, and four individuals. Your Committee received comments on this measure from the Public Utilities Commission, Division of Consumer Advocacy, Sierra Club, and Blue Planet Foundation.

Your Committee finds that the development of geothermal and other indigenous, renewable energy resources capable of producing firm power has the potential to stabilize electricity prices in the State and reduce our State's dependence on fossil fuels. However, your Committee also finds that while geothermal and other renewable energy resources capable of producing firm power are critical to meeting Hawaii's future energy demands, other renewable energy sources may be equally important to certain areas of the State.

Therefore, your Committee finds it necessary to ensure that the integrated resource planning process remain adaptable and resilient to circumstances beyond the electric utilities' control, including the development of new technologies that enhance the value of solar and wind energy.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that electric utilities must include scenarios in their integrated resource plans to replace firm power fossil fuel-based electricity generation with firm power from electricity generation using indigenous, renewable sources, rather than mandate through integrated resource plans, without alternative scenarios, the replacement of firm power fossil fuel-based electricity generation with firm power from electricity generation using indigenous, renewable sources;

- (2) Requiring electric utilities to consider indigenous, renewable energy resources as options in the planning process, rather than requiring the electric utilities to prioritize specific renewable resources in the development of their integrated resource plans;
- (3) Deleting language that required electric utilities to coordinate efforts with various state entities to establish new geothermal subzones; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2981, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2981, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Slom).

SCRep. 2078 Judiciary and Labor on S.B. No. 2061

The purpose and intent of this measure is to codify dismissals pursuant to Rule 48 of the Hawaii Penal Procedure and provide an exception for cases of abuse of family or household members, for the calculation of the six-month deadline for trial commencement.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that Rule 48 of the Hawaii Penal Procedure requires that unless a trial commences within six months, it may be dismissed by the court with or without prejudice. As such, the courts are dismissing a number of domestic violence cases.

Your Committee recognizes the City and County of Honolulu Prosecutor's current policy to prosecute domestic violence cases, and believes this measure merits further discussion so its language may be further streamlined to ensure domestic violence cases are brought to trial without infringing upon the right to a speedy trial.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2061, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2061, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2079 Human Services on S.B. No. 2088

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to notify the appropriate standing committees of the Senate and House of any intended change to Hawaii's Medicaid program no later than sixty days prior to implementing the change;
- (2) Authorize the specified standing committees to hold hearings on any intended change to the Medicaid program or any proposed Medicaid state plan amendment; and
- (3) Prohibit or require certain actions by the Department that may affect Hawaii's Medicaid program.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association, the Healthcare Association of Hawaii, the Consumer Family & Youth Alliance, and two individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that the Department of Human Services operates the State's Medicaid program, the second largest state program. Historically, the Department has effectively set and has significantly changed Hawaii's Medicaid program with little authoritative oversight from the Legislature or input from the public. This measure is a means to increase transparency and provide opportunities for the Legislature and the public to voice their comments and concerns on any changes or proposed changes to the State's Medicaid program and policy prior to their implementation.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2088 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2080 Human Services on S.B. No. 2712

The purpose and intent of this measure is to amend the definition of the term "medical institution" as it is currently defined in section 346-12, Hawaii Revised Statutes, to mean an institution created for the practice of medicine and for caring for patients on a long-term basis.

Your Committee received testimony in support of this measure from the Department of Human Services, the Department of the Attorney General, the Consumer Family & Youth Alliance, and one individual.

Your Committee finds that if a Medicaid recipient enters a “medical institution”, the Department of Human Services is allowed to place a lien upon the real property of the recipient to potentially recover the payments made for the recipient’s care. However, under the existing definition of “medical institution”, a recipient could argue that the facility in which the recipient resides in is not a medical institution, in order to prevent the Department of Human Services from putting a lien on the recipient’s real property. Your Committee finds that this measure will clarify which institutions are subject to section 346-29.5, Hawaii Revised Statutes, thereby allowing the Department of Human Services to determine whether a lien may be properly placed on a Medicaid recipient’s real property.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2712 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2081 Human Services on S.B. No. 2321

The purpose and intent of this measure is to establish a task force to determine the feasibility of establishing a limited, mandatory, public long-term care insurance program.

Your Committee received testimony in support of this measure from ILWU Local 142; the Policy Board for Elder Affairs; and three individuals. Your Committee received testimony in opposition to a portion of this measure from the Department of Commerce and Consumer Affairs because the Department felt there would be a conflict of interest if the Insurance Commissioner chaired the task force and suggested that another entity lead the task force efforts. Your Committee received testimony in opposition to this measure from the National Association of Insurance and Financial Advisors Hawaii and one individual. Your Committee received comments on this measure from AARP.

Your Committee finds that naming the Insurance Commissioner as the chair of the task force may place the Commissioner in a position of conflict. If the task force’s recommendation is the creation of a long-term care insurance program that competes with the existing private commercial market, that program, if implemented, will impact the existing private market. As the regulator of the private market, the Commissioner should avoid a conflict of interest by not taking the lead in the creation of a non-private entity that will enter the regulated market.

Your Committee has amended this measure by:

- (1) Naming the Director of the Executive Office on Aging as the convener and chair of the task force;
- (2) Extending the date by which the Director shall submit the task force’s report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014;
- (3) Extending the date on which the task force shall be dissolved to June 30, 2014; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2321, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2082 Human Services on S.B. No. 2318

The purpose and intent of this measure is to:

- (1) Adopt the Uniform Adult Guardianship and Protective Proceedings Jurisdiction Act, to ensure that only one state has jurisdiction at any one time in adult guardianship cases and protective proceedings;
- (2) Adopt guidelines to specify which court has jurisdiction to appoint a guardian or conservator for an incapacitated adult; and
- (3) Prioritize the states that may claim jurisdiction.

Your Committee received testimony in support of this measure from the Alzheimer’s Association – Aloha Chapter; Child and Family Service; and the Commission to Promote Uniform Legislation. Your Committee received comments on this measure from the Judiciary of the State of Hawaii.

Your Committee finds that the Uniform Adult Guardianship and Protective Proceedings Jurisdiction Act will provide uniformity and reduce conflicts among the states. The Act deals primarily with jurisdictional, transfer, and enforcement issues relating to adult guardianships and protective proceedings. To date, approximately thirty jurisdictions including the District of Columbia have adopted the Act, and four others, including Hawaii, are considering its adoption.

Your Committee notes the concern expressed by the Judiciary that this measure may not be necessary and may subject families and guardians to increased complexity and procedures. According to the Judiciary, families are currently able to seek guardianship for challenged minors before they turn eighteen, which provides seamless protection after the minor reaches the age of majority. This measure, as currently drafted, appears to not allow this protection as “incapacitated person” is defined as an adult. Your Committee further notes the Judiciary’s concern with regard to the measure’s potential negative impact on the Judiciary’s operations. Your

Committee recognizes that this measure would require changes to court policies, procedures, and rules and in light of the budget shortages caused by the current economic downturn, the additional work required pursuant to this measure would consume valuable and limited Judiciary staff resources.

Your Committee has therefore amended this measure by:

- (1) Changing the effective date to July 1, 2014, and encouraging the Judiciary and the Commission to Promote Uniform Legislation to work together to properly implement the salutary purposes of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2318, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2083 (Joint/Majority) Transportation and International Affairs and Energy and Environment on S.B. No. 2747

The purpose and intent of this measure is to simplify the requirements regarding parking spaces for electric vehicles, requiring places of public accommodation with at least one hundred parking spaces available for use by the general public to have at least one parking space near the building entrance designated exclusively for electric vehicles, and to be equipped with an electric vehicle charging system by July 1, 2012.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Maui County Office of Economic Development; Retail Merchants of Hawaii; Blue Planet Foundation; Better Place, Inc.; Outrigger Enterprises Group; and one individual. Comments were received from the Disability and Communication Access Board and the Sierra Club Hawai'i Chapter.

Your Committees find that appropriate incentives and requirements for electric vehicle infrastructure will play an integral role in Hawaii's clean energy future. Your Committees further find that this measure will address the frequent requests for interpretation of existing law that have been made by facility owners, electric vehicle industry personnel, and members of the public regarding the parking space requirements.

Your Committees have amended this measure by:

- (1) Clarifying the definition of electric vehicle to reduce the required battery energy storage capacity from at least five to at least 4.4 kilowatt hours, in order to expand the number of qualifying electric vehicles;
- (2) Requiring owners or managers of places of public accommodation with at least one hundred parking spaces available for use by the general public to designate at least one percent of parking spaces or up to five parking spaces, whichever is lesser, exclusively for electric vehicles by July 1, 2012, with certain conditions;
- (3) Deleting the authorization for an owner of multiple parking facilities to designate fewer parking stalls under certain conditions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2747, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2747, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, 1 (Slom). Excused, 3 (Dela Cruz, Green, Ihara).

SCRep. 2084 (Majority) Transportation and International Affairs on S.B. No. 2296

The purpose and intent of this measure is to:

- (1) Require motor vehicles to be insured prior to release from auction;
- (2) Update dealer bonding requirements;
- (3) Change the amount of the additional bond that the Motor Vehicle Industry Licensing Board is authorized to require in order to issue a dealer's license despite previous misconduct of the applicant; and
- (4) Require that an applicant for a dealer's license has a sales location that is zoned for such use, as a condition to issuance of the license.

Your Committee received testimony in support of this measure from the Hawaii Independent Automobile Dealers Association and one individual. Testimony in opposition was submitted by the Motor Vehicle Industry Licensing Board and Insurance Auto Auctions.

Your Committee finds that this measure is necessary to increase the reliability of automobile dealers in general, and in particular those who sell motor vehicles through the Internet. It is not the intent of your Committee to stifle the marketplace for motor vehicle sales, but instead to protect the consumer.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2296 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 1 (Dela Cruz).

SCRep. 2085 (Joint) Transportation and International Affairs and Energy and Environment on S.B. No. 2746

The purpose and intent of this measure is to codify Act 290, Session Laws of Hawaii 1997, relating to electric vehicles, which provides incentives for registration, licensing, parking, and operation of electric vehicles.

Your Committees received testimony in support of this measure from the State Department of Transportation; Department of Business, Economic Development, and Tourism; Honolulu Licensing Administrator; Blue Planet Foundation; Better Place, Inc.; and one individual. Testimony in opposition was submitted by the Sierra Club Hawai'i Chapter.

Your Committees find that although the laws relating to electric vehicle licensing and parking are valid laws of Hawaii, they are difficult to find and reference because they are only contained in the session laws, which are not as readily available to the public as are the Hawaii Revised Statutes, which are available online.

Your Committees have amended this measure by:

- (1) Authorizing, rather than requiring, the Department of Transportation to adopt rules for electric vehicle registration and special license plates, since electric vehicles are currently being registered with special license plates without the adoption of administrative rules; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2746, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2746, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6, Ayes with Reservations (Slom). Noes, none. Excused, 3 (Dela Cruz, Green, Ihara).

SCRep. 2086 Transportation and International Affairs on S.B. No. 2045

The purpose and intent of this measure is to prohibit moped drivers from driving or parking on bicycle paths and require moped drivers to use bicycle lanes where available.

Your Committee received testimony in support of this measure from the State Department of Transportation, Maui County, Maui Bicycle Alliance, and three individuals.

Your Committee finds that mopeds can travel at speeds up to thirty-five miles per hour. Thus, allowing a mix of mopeds with bicyclists and pedestrians increases the potential for serious accidents to occur that can result in significant injury to bicyclists, moped operators, and pedestrians.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2045 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2087 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs and Energy and Environment on S.B. No. 3010

The purpose and intent of this measure is to expedite construction projects for the bridge rehabilitation and replacement program of the Department of Transportation by providing temporary exemptions from certain state and county requirements.

Your Committees received testimony in support of this measure from Control Point Surveying, Inc., General Contractors Association of Hawaii, and one individual. Testimony in opposition was submitted by the Department of Business, Economic Development, & Tourism; Department of Health; and Office of Environmental Quality Control. Comments were received from the University of Hawaii, State Department of Transportation, and Department of Land and Natural Resources.

Your Committees find that there are currently seven hundred fifty-six state-owned bridges, of which two hundred fifty-six are functionally obsolete and thirty-nine are structurally deficient. According to testimony of the Department of Transportation, at the current rate of rehabilitation and replacement of one to three bridges per year, it will take well over fifty years to address all the deficient bridges. Meanwhile, other bridges that are not currently deficient will gradually deteriorate.

Your Committees request the Department of Transportation to give priority to the Hana Highway bridge preservation plan, as well as other bridges in the Hana district that have deteriorated over the years and may pose an imminent danger of collapse.

Your Committees wish to make note that the various departments need to see the larger picture in this measure for the greater good of the State rather than be overly concerned about their own respective operations.

Your Committees have amended this measure by:

- (1) Adding language to provide against the impairment of federal funds to the State; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3010, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3010, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Baker, Dela Cruz, Ihara, Kidani).

SCRep. 2088 Economic Development and Technology on S.B. No. 2238

The purpose and intent of this measure is to repeal Act 155, Session Laws of Hawaii 2010.

Your Committee received testimony in support of this measure from The Chamber of Commerce of Hawaii; Hawaii Alliance of Nonprofit Organizations; Chun, Kerr, Dodd, Beaman & Wong; American Council of Life Insurers; and two individuals. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that Act 155, Session Laws of Hawaii 2010, imposes disproportionate penalties for simple tax filing oversight. Act 155 stipulates possible tax-exemption revocation for a taxpayer that neglects to file the annual G-49 form within twelve months of the due date. Numerous testifiers have raised concerns that this policy does not provide sufficient due process, as it is a significant departure from the existing tax law, and will cause confusion among nonprofits in particular in terms of their tax reporting requirements and tax obligations.

Your Committee understands that the Department of Taxation issued a Tax Information Release (TIR) to provide guidance for taxpayers. While the TIR may have mitigated some of the concerns, it is an administrative pronouncement only and can be withdrawn at any time, further leading to taxpayer uncertainty.

In addition, the threat of personal liability for responsible persons raises yet another barrier to recruiting qualified volunteer board members for nonprofit organizations, particularly small volunteer organizations.

Your Committee finds that these issues raise serious concerns about the provisions of Act 155, and your Committee is in support of its repeal.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2238 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2089 (Joint) Economic Development and Technology and Commerce and Consumer Protection on S.B. No. 2739

The purpose and intent of this measure is to ensure the stability of the Small Business Regulatory Review Board by:

- (1) Transferring the Board, with its statutory duties and powers, from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs, and authorizing the expenses of the Board to be funded from the compliance resolution fund; and
- (2) Requiring each agency to notify the Small Business Regulatory Review Board on an annual basis of any rules that affect small business and are required to be amended or repealed to reflect statutory amendments or repeals.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Farm Bureau; and two individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and the Department of Human Resources Development.

Your Committees find that, despite ongoing discussions between the Department of Business, Economic Development, and Tourism and the Department of Commerce and Consumer Affairs, the two agencies have not reached an agreement on the placement of the Small Business Regulatory Review Board, or the means of funding for the Board. Your Committees also have concerns regarding a transfer of the Board to the Department of Commerce and Consumer Affairs, and believe consideration should be given to moving the Board to a non-regulatory agency, such as the Department of Accounting and General Services. If such a transfer were to take place, your Committees would want to ensure that proper protections for any staffing transfers are in place.

Your Committees urge the agencies involved to continue to explore options in order to provide the Small Business Regulatory Review Board with the financial and staffing resources necessary to meet its statutorily mandated responsibilities.

Your Committees have amended this measure by:

- (1) Deleting the transfer of the Small Business Regulatory Review Board from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs;
- (2) Deleting the authorization for the expenses of the Board to be funded from the compliance resolution fund; and
- (3) Authorizing the Department of Business, Economic Development, and Tourism to establish fees pursuant to chapter 91, to be charged to each agency submitting rules to the board pursuant to section 201M-7, Hawaii Revised Statutes, as part of the agency submission process, with the fees to be used for the expenses of the Small Business Regulatory Review Board.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2739,

as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2739, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, none.

SCRep. 2090 Economic Development and Technology on S.B. No. 2947

The purpose and intent of this measure is to ensure that information regarding the economic impact of tax credits or exemptions is reported annually by requiring the:

- (1) State agency responsible for certifying or otherwise administering the tax credit or exemption, or the Department of Taxation, as appropriate, to prepare reports disclosing certain taxpayer information, information regarding the taxpayer's fulfillment of expected results of the tax credits or exemptions, and information relating to the agency's certification determination; and
- (2) Department of Taxation to post the reports on its website no later than December 31 of each year.

Your Committee received testimony in support of this measure from the Hawaii Strategic Development Corporation and the High Technology Development Corporation. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee has heard the concerns of the Department of Taxation that the Department lacks the fiscal and staffing resources to complete the reports required in this measure. Currently, only a few economic development-related tax credits or exemptions require certifications or are administered by other state agencies. Most credits and exemptions are administered by the Department, which would place the responsibility for implementation of this measure primarily with the Department of Taxation.

Your Committee notes that the Department previously published an annual report covering the usage of various tax credits, and that it has had to halt the preparation and publication of the reports due to staff shortages and downsizing in recent years. Your Committee finds that providing funding to the Department will allow the Department to reinstate these annual reports, which would achieve the purpose for which S.B. No. 2947 was introduced.

Your Committee has amended this measure by adding an appropriation for an unspecified amount to assist the Department of Taxation in preparing the reports.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2947, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2947, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2091 Education on S.B. No. 2484

The purpose and intent of this measure is to authorize a state income tax credit for certain expenses paid or incurred by a school teacher in connection with supplementary materials used by the teacher in the classroom.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and nine individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that teachers often pay out of their own pocket for materials to provide more creative ways to be effective in the classroom. It is the intent of your Committee that the tax credit provided in this measure be claimed only for classroom materials. As this measure progresses, your Committee requests that the Department of Taxation provide the estimated impact of this measure on general fund revenues.

Your Committee has amended this measure by clarifying that a qualified taxpayer under this measure means a school teacher, special education teacher, school librarian, or counselor employed by the Department of Education, a charter school, or a private school.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2484, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2484, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2092 Education on S.B. No. 2773

The purpose and intent of this measure is to make housekeeping amendments to chapter 312, Hawaii Revised Statutes, to accurately reflect long-standing Board of Education and Hawaii State Public Library System practices.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System and Department of Human Resources Development.

Your Committee finds that this measure is necessary to align chapter 312, Hawaii Revised Statutes, with the actual practices of the Board of Education and Hawaii State Public Library System.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2773, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2773, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2093 Education on S.B. No. 2996

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate the sum of \$20,000,000 for the planning, design, and construction of a new high school in Kihei, Maui.

Your Committee received testimony in support of this measure from the Department of Education, four members of the Maui County Council, Hawaii Laborers-Employers Cooperation and Education Trust, Kihei High School Action Team, Kamali'i Elementary School Parent Teacher Association, and nine individuals.

Your Committee finds that the Department of Education has been planning to build a high school in south Maui for several years and was previously appropriated over \$32,000,000 toward the planned Kihei High School. Approximately \$20,000,000 of the appropriated funds have since lapsed and this measure will help to restore the funding necessary so the remaining planning, design, and construction work on this project may continue without delay.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2996 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2094 Education on S.B. No. 2525

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaii Pacific University.

Your Committee received testimony in support of this measure from Hawaii Pacific University. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will assist Hawaii Pacific University in financing the costs related to the acquisition and construction of additional educational facilities and to allow for the renovation of existing facilities.

Your Committee has amended this measure by adding language to clarify that:

- (1) Under section 39A-257, Hawaii Revised Statutes, special purpose revenue bonds may be issued for a single project, multiple projects, a single-project party, or multiple-project parties pursuant to the authority of one Act, or the combined authority of more than one Act, of the Legislature; and
- (2) Any limited liability company of which Hawaii Pacific University is the sole member shall be considered a not-for-profit affiliate of Hawaii Pacific University for purposes of this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2525, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2525, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2095 Education on S.B. No. 2952

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Le Jardin Academy, a private not-for-profit elementary and secondary school, with the construction, improvement, and equipping of its educational facilities.

Your Committee received testimony in support of this measure from Le Jardin Academy and the Hawaii Association of Independent Schools. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will provide Le Jardin Academy with the financial tools to leverage capital funds for campus development and improvement projects that will benefit not only its students, but the community-at-large as well.

Your Committee has amended this measure by:

- (1) Adding language to clarify that under section 39A-257, Hawaii Revised Statutes, special purpose revenue bonds may be issued for a single project, multiple projects, a single-project party, or multiple-project parties pursuant to the authority of one Act, or the combined authority of more than one Act, of the Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2952, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2952, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2096 (Joint) Education and Judiciary and Labor on S.B. No. 2541

The purpose and intent of this measure is to repeal various sections of chapter 302A, Hawaii Revised Statutes (HRS), in order to allow employer-employee issues to be negotiated pursuant to the collective bargaining process.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association and IMUAlliance. Your Committees received comments on this measure from the Hawaii Government Employees Association, HGEA/AFSCME, Local 152, AFL-CIO.

Your Committees find that chapter 302A, HRS, contains numerous sections covering employer-employee issues. Your Committees further find that many of these employer-employee issues should be left to the collective bargaining process rather than be legislatively mandated. Your Committees note that repeal of these sections does not reflect a prohibitive view of these collective bargaining issues, but rather reflects the fact that all of those areas are already permissive within the collective bargaining process.

Your Committees have amended this measure by:

- (1) Adding language to clarify that any existing rule, ordinance, executive order, directive, or provision in a collective bargaining agreement in existence on the effective date of this measure that is not consistent with this Act shall be amended to ensure that it includes language repealed by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2541, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2541, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Ihara).

SCRep. 2097 (Joint) Education and Judiciary and Labor on S.B. No. 2598

The purpose and intent of this measure is to propose constitutional amendments to article VII, section 12, and article X, section 1, of the Hawaii State Constitution, to authorize the State to issue special purpose revenue bonds and use the proceeds from those bonds to assist charter schools, not-for-profit corporations that support charter schools, and community development financial institutions that support charter schools.

Your Committees received testimony in support of this measure from the Charter School Administrative Office, Office of Hawaiian Affairs, Hawaii Association of Independent Schools, Hawaii Public Charter School Network, Lei Ho'olaha Community Development Financial Institution, Kanu O Ka 'Aina Learning 'Ohana, Hawaii Technology Academy, and Voyager School Foundation. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that funding for facilities is one of the charter school system's greatest needs. However, your Committees recognize the concerns raised by the Department of Budget and Finance and request that as this measure progresses, the Department provide clarification on whether:

- (1) The organizations specified in this measure would qualify under federal law for tax-exempt financing; and
- (2) There is any funding mechanism to ensure adequate debt coverage for the issuance of special purpose revenue bonds on behalf of charter schools.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2598 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9, Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Ihara).

SCRep. 2098 Ways and Means on H.B. No. 2002

The purpose and intent of this measure is to appropriate funds for the expenses of the Legislature, Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and the Hawaii State Ethics Commission for fiscal year 2012-2013.

Your Committee received testimony in support of this measure from the Auditor, the Ombudsman, and the Executive Director of the Hawaii State Ethics Commission.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that this measure appropriates sufficient funds to support the operations of the Legislature, its service agencies, and the Hawaii State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2002, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Fukunaga).

SCRep. 2099 Human Services on S.B. No. 2320

The purpose and intent of this measure is to establish the Aging and Disability Resource Center in the Executive Office on Aging and to make an appropriation to the Department of Health for the kupuna care program, the healthy aging partnership program, senior centers, and elder registration services.

Your Committee received testimony in support of this measure from the Department of Health's Executive Office on Aging; the Elderly Affairs Division of the Department of Community Services, City and County of Honolulu; the Agency on Elderly Affairs, County of Kauai; the County Council, County of Maui; the Maui County Office on Aging of the Department of Housing and Human Concerns, County of Maui; AARP; the Alzheimer's Association – Aloha Chapter; Catholic Charities Hawaii; Child and Family Service; the Consumer Family & Youth Alliance; the Healthcare Association; the ILWU Local 142; the Moiliili Community Center; the Policy Advisory Board for Elder Affairs; the Waikiki Community Center; and thirty-one individuals.

Your Committee finds that the growing elderly population in Hawaii requires a significant amount of assistance, which the elderly receive through programs and services such as kupuna care, the healthy aging partnership program, and senior centers. These programs and facilities assist older persons in leading independent, meaningful, and dignified lives in their own homes and communities for as long as possible. Your Committee also finds that the elder registration services will allow direct access to wanderer and caregiver personal information and emergency contact information.

Your Committee further finds that the disability component of the Aging and Disability Resource Center falls outside of the scope of the title of this measure.

Your Committee has amended this measure by:

- (1) Deleting language that establishes the Aging and Disability Resource Center;
- (2) Adding background information on the kupuna care program and emphasizing the need for affordable long-term care due to the financial burden that comes with elder care;
- (3) Inserting the legal names of the nonprofit organizations currently operating the senior centers for which grants are being made pursuant to this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2320, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2100 Transportation and International Affairs on S.B. No. 2978

The purpose and intent of this measure is to provide a tax deduction for the amount of interisland airplane carrier landing fees and terminal facility lease rents in any county with a population of less than 500,000 persons.

Your Committee received testimony in opposition of this measure from the Department of Transportation. Comments were received from the Department of Taxation, State Attorney General, Tax Foundation of Hawaii, and Hawaiian Airlines.

Your Committee finds that small turbo propeller airplanes play a vital role in the transport or conveying of baggage, passengers, and goods between the islands of this State.

The services provided by these airplanes are particularly critical for Hawaii's isolated rural communities, which often have few or no alternative means of transportation. In today's highly competitive economy, the operators of these small airplanes struggle to maintain and expand their operations to serve Hawaii's residents.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2978 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2101 Human Services on S.B. No. 2120

The purpose and intent of this measure is to:

- (1) Provide funding to increase payments for physicians providing services to Medicaid-eligible individuals, including fee-for-service, QUEST physician services, and the QUEST Expanded Access program; and
- (2) Require the Department of Human Services to include in its budget request for each year of the 2013-2015 fiscal biennium a sum at least equal to the sum appropriated for fiscal year 2012-2013, in addition to its baseline Medicaid request.

Your Committee received testimony in support of this measure from the Department of Human Services, The Chamber of Commerce of Hawaii, the Consumer Family & Youth Alliance, the Hawaii Disability Rights Center, the Hawaii Medical Association, the Policy Advisory Board for Elder Affairs, and two individuals.

Your Committee finds that health care providers are not being compensated for essential services at a level sufficient to cover costs, which are annually increasing. Increasing Medicaid reimbursement rates for physicians is important to fairly compensate physicians treating Medicaid-eligible individuals and will create sufficient incentives to provide the care that these recipients require.

Your Committee has requested the Department of Human Services to provide estimates for the following to provide more context of the seriousness of the issue:

- (1) Estimated costs if the physician reimbursement rate was increased by five percent or ten percent; and
- (2) Estimated cost savings if Medicaid rolls were reduced by five percent or ten percent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2120 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2102 Commerce and Consumer Protection on S.B. No. 2182

The purpose and intent of this measure is to make permanent the assessment and deposit of the Center for Nursing fees into the compliance resolution fund and distribution of those funds to the credit of the Center for Nursing special fund.

Your Committee received testimony in support of this measure from the Workforce Development Council; University of Hawaii at Manoa; Board of Nursing; Hawaii State Center for Nursing; Hawaii Health Systems Corporation; The Queen's Medical Center; Hawaii Association of Professional Nurses; Hawaii American Organization of Nurse Executives; Hawaii Long Term Care Association; American Academy of Nurse Practitioners; AARP Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and six individuals.

Your Committee finds that the Legislature established the Center for Nursing in 2003 to address nursing workforce issues. Since its inception, the Center for Nursing has become a leader in workforce planning, nursing research, and professional practice in the State. Your Committee further finds that the Center for Nursing has provided invaluable support to nurses throughout the State through advocacy, training, and grants, and as a resource center. Your Committee additionally finds that supporting the continued efforts of the Center for Nursing will help ensure adequate nursing education and workforce development to meet the healthcare needs of Hawaii's citizens.

Your Committee notes that the fees credited to the Center for Nursing special fund are the main source of funding for the Center for Nursing. Repealing these fees would in essence cause the demise of the Center for Nursing. Your Committee therefore concludes that making the specific fees on new and renewed Registered Nurse and Licensed Practical Nurse licenses permanent is essential for the continued funding of the Center for Nursing. Permanent funding will allow the Center for Nursing to continue its important mission of addressing nursing workforce issues.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2182 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Green, Nishihara).

SCRep. 2103 Commerce and Consumer Protection on S.B. No. 2427

The purpose and intent of this measure is to require the Public Utilities Commission to implement best practices in the areas of regulatory frameworks, rules and procedures, and information technology and public access and to appropriate funds to carry out these purposes.

Your Committee received testimony in support of this measure from the Public Utilities Commission. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Public Utilities Commission has been working on updating and implementing internal processes and developing innovative regulatory frameworks. The Public Utilities Commission has undertaken an internal initiative to update all of the Commission's administrative rules, and is working on enhancing its Document Management System to increase user friendliness and allow for electronic filing and payment.

Your Committee also finds that implementation of best practices will increase transparency and efficiency at the Public Utilities Commission and will ensure that the Commission is in the best position to make informed decisions about the State's future infrastructure.

Concerns were expressed regarding whether the appropriation associated with this measure should come from the general fund. In testimony before your Committee, it was noted that the public utilities commission special fund has generated an average of \$18,000,000 each year over the last five fiscal years, and has lapsed to the general fund approximately \$10,000,000 each year during that same period. Your Committee has concluded that it is more appropriate that the funding for this measure come from the public utilities commission special fund.

Your Committee has amended this measure by:

- (1) Specifying that funding for this measure will come from the public utilities commission special fund, rather than the general fund; and
- (2) Increasing the appropriation amount to \$100,000 to better assist the Public Utilities Commission with implementing best practices.

Your Committee finds that this measure will require an increase in the public utilities commission special fund ceiling and will result in a subsequent loss of \$100,000 from the general fund. Your Committee also believes that the appropriation contained in this measure is an important expenditure and will have minimal impact on the general fund.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2427, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2427, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2104 Commerce and Consumer Protection on S.B. No. 2784

The purpose and intent of this measure is to appropriate general funds to recapitalize the emergency and budget reserve fund and the Hawaii hurricane relief fund.

Your Committee received testimony in support of this measure from the Office of the Governor. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State has recently faced a significant budget shortfall. Last year, the Legislature made the decision to expend reserve funds, including the emergency and budget reserve fund and the Hawaii hurricane relief fund, as a last resort in extraordinary times. Although the effects of the economic downturn caused the Legislature to expend reserve funds, the Legislature made a conscious decision to make up for budget deficits in this manner and was careful to include a repayment plan.

Your Committee understands that the low balances in the State's reserve funds are not fiscally prudent and have caught the attention of state bond investors and bond rating agencies. However, your Committee notes that a successful bond sale in November 2011 will enable recapitalization of those reserves. Based on testimony heard by your Committee, your Committee finds that it is in the State's best interest to begin some level of recapitalization, especially for the Hawaii hurricane relief fund, during the current fiscal biennium.

Your Committee also notes that with the recent three percent revenue decrease in the Council on Revenues' forecast, and the uncertainty in the economy and revenue collections, it may be necessary to amend the amounts of the recapitalization plan and the funding timetable. Your Committee therefore concludes that it would be fiscally prudent to recapitalize the Hawaii hurricane relief fund over a period of three fiscal years beginning with the current fiscal year, making smaller payments during fiscal years 2011-2012 and 2012-2013 and a larger payment during fiscal year 2013-2014.

Your Committee notes that if the monies in this measure are to be appropriated prior to the passage of the supplemental appropriations bill, then a recommendation from the Governor for immediate passage of this measure is required before passage of this measure, as it appropriate funds for the current fiscal year. Your Committee also notes that the appropriation in this measure to recapitalize the emergency and budget reserve fund has been left for review by your Committee on Ways and Means, as this fund is outside the purview of your Committee on Commerce and Consumer Protection.

Your Committee has amended this measure by:

- (1) Amending the appropriations for recapitalization of the Hawaii hurricane relief fund as follows:
 - (A) An appropriation of \$27,500,000 for fiscal year 2011-2012;
 - (B) An appropriation of \$27,500,000 for fiscal year 2012-2013; and
 - (C) An appropriation of \$56,000,000 for fiscal year 2013-2014; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2784, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7, Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2105 (Joint/Majority) Energy and Environment and Commerce and Consumer Protection on S.B. No. 2339

The purpose and intent of this measure is to repeal the requirement that gasoline sold in the State for use in motor vehicles contain ten percent ethanol by volume.

Your Committees received testimony in support of this measure from two individuals. Your Committees received testimony in opposition to this measure from Pacific West Energy LLC. Your Committees received comments on this measure from the Hawaii Renewable Energy Alliance.

Your Committees find that meeting the existing ethanol mandate using local sources would contribute to the State's energy security and indigenous energy resource goals. However, landowners, technology experts, and financiers have not yet executed the type of deal that would make local ethanol production and fuel blending a reality. As such, your Committees find that the ethanol mandate reaps no economic benefit for Hawaii, requires the import of ethanol into Hawaii, and creates an economic burden for our residents and should therefore be repealed.

Your Committees have amended this measure by changing its effective date from upon approval to July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2339, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2339, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, 1 (Solomon). Excused, none.

SCRep. 2106 (Joint/Majority) Energy and Environment and Commerce and Consumer Protection on S.B. No. 2785

The purpose and intent of this measure is to establish the regulatory structure under which interisland undersea transmission cables can be developed, financed, and constructed, on commercially reasonable terms.

Your Committees received testimony in support of this measure from the Office of the Governor; Public Utilities Commission; Department of Business, Economic Development, and Tourism; Division of Consumer Advocacy; Office of the Mayor of Maui County; The Pacific Resource Partnership; International Longshore and Warehouse Union Local 142; Blue Planet Foundation; Building Industry Association; Hawaii Carpenters Union; Hawaii Laborers' Union; Hawaiian Electric Company; Castle & Cook Hawai'i; Enterprise Honolulu; Hawaii Interisland Cable LLC; and three individuals. Your Committees received testimony in opposition to this measure from Friends of Lana'i, Life of the Land, Conservation Council for Hawai'i, Hawaii's Thousand Friends, and sixty-four individuals. Your Committees received comments on this measure from the Environmental Caucus of the Democratic Party of Hawaii and two individuals.

Your Committees find that the creation of a regulatory structure for the installation and implementation of an interisland undersea electric transmission cable system is in the best interests of the people of Hawaii. A cable built in the absence of an appropriate regulatory structure will cost more to finance and place an unnecessary burden on electricity ratepayers. Your Committees note that this measure does not guarantee that an interisland cable system will be built; it only ensures the predictability and certainty of the regulatory process in the event that an interisland cable system is built.

Your Committees note that the electric utility company's revenue requirement and the electric utility company's net investment, as specified in this measure, should be further discussed by your Committee on Ways and Means.

Your Committees have amended this measure by:

- (1) Adding language clarifying that nothing in this measure is intended to require construction of an interisland cable from the islands of Molokai or Lanai to Oahu;
- (2) Adding language clarifying that a cable company selected to construct a cable system shall not commence commercial operations of the cable system until it is issued a certificate of public convenience and necessity by the Public Utilities Commission;
- (3) Deleting language pertaining to acquisition of a cable system by an electric utility and recovery of acquisition costs by an electric utility that purchases a cable system; and
- (4) Deleting definitions that are no longer used in the measure and making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2785, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2785, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9; Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, none.

SCRep. 2107 Public Safety, Government Operations, and Military Affairs on S.B. No. 2174

The purpose and intent of this measure is to require:

- (1) Any state agency, board, or commission that directly or by contract collects demographic data as to ancestry or ethnic origin to use separate collection categories and tabulations for specified categories;
- (2) The data collected pursuant to the different collection categories and tabulations to be included in every demographic report on ancestry or ethnic origin by the state agency, board, or commission published or released on or after July 1, 2013, and to be made available to the public in accordance with state and federal law, except for personal identifying information, which shall be deemed confidential;
- (3) State agencies, boards, and commissions to make any demographic data collected publicly available, subject to all applicable state and federal laws regarding personal identifying information, by posting the data on the internet web site of the agency on or before July 1, 2013, and annually thereafter; and
- (4) State agencies, within eighteen months after the decennial United States Census for the year 2020 is released to the public, to update their data collection to reflect the additional categories.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs. Testimony in opposition was received from the Department of Education and University of Hawai'i System.

Your Committee finds that Asian Americans, Native Hawaiians, and other Pacific Islanders represent 48.6 percent of the State's population. While Asian Americans, Native Hawaiians, and other Pacific Islanders are often misrepresented as a homogeneous group, they are an extremely diverse group, with ethnicities from over thirty different countries. Asian American, Native Hawaiian, and other

Pacific Islander communities in this State experience diverse social, educational, health, and economic differences that are unique to their respective communities.

Due to this diversity, the United States Office of Management and Budget's Statistical Policy Directive No. 15, entitled "Race and Ethnic Standards for Federal Statistics and Administrative Reporting," separated the "Asian and Pacific Islander" category into two distinct and separate categories, now called "Asians" and "Native Hawaiians and Other Pacific Islanders," and these two distinct categories were used in the 2000 United States Census. The United States Census Bureau currently reports data for more than twenty different ethnicities within these two categories. This measure mandates state agencies to collect and report demographic data in line with the federal practices.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2174 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2108 Public Safety, Government Operations, and Military Affairs on S.B. No. 2338

The purpose and intent of this measure is to provide rulemaking authority, not subject to approval by the mayor of the county, to semi-autonomous county public transit agencies, including the agency known as the Honolulu Authority for Rapid Transportation, to allow them to function as semi-autonomous agencies of their respective counties.

Your Committee received testimony in support of this measure from the Honolulu Authority for Rapid Transportation.

Your Committee finds that the Honolulu Authority for Rapid Transportation should be extended the same rulemaking authority as currently possessed in statute by the county boards of water supply.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2338 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2109 Public Safety, Government Operations, and Military Affairs on S.B. No. 2566

The purpose and intent of this measure is to require all public contractors to explicitly agree through a provision in their public contracts to be subject to the prohibition and penalties for any violations of campaign contribution laws.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that this measure requires by statute a provision that is already included in all state contracts acknowledging that the contractor has been notified of the provisions of existing law prohibiting contributions by state and county contractors using funds appropriated by the legislative body.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2566 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2110 Public Safety, Government Operations, and Military Affairs on S.B. No. 2898

The purpose and intent of this measure is to make a grant-in-aid appropriation to the Office of the Prosecuting Attorney of the County of Hawaii for the career criminal prosecution program.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney, Hawaii County Prosecuting Attorney, Hawaii Police Department, and one individual.

Your Committee finds that the career criminal prosecution program was created because a disproportionate amount of serious crimes were committed by a relatively small number of multiple and repeat felony offenders, commonly known as career criminals. In response, the Department of the Prosecuting Attorney of the County of Hawaii created the career criminal prosecution unit. Your Committee further finds that money spent on this unit is an efficient use of resources that provides our citizens with swift and effective justice and reduces heavy caseloads and long court delays.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2898 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2111 Public Safety, Government Operations, and Military Affairs on S.B. No. 2970

The purpose and intent of this measure is to make a grant-in-aid to the Department of the Prosecuting Attorney of the County of Maui for the career criminal prosecution program.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney and Maui Prosecuting Attorney.

Your Committee finds that the Department of the Prosecuting Attorney of the County of Hawaii created the career criminal prosecution unit because a disproportionate amount of serious crimes were committed by a relatively small number of multiple and repeat felony offenders, commonly known as career criminals. Your Committee further finds that money spent on this unit is an efficient use of resources that provides our citizens with swift and effective justice and reduces heavy caseloads and long court delays.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2970 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2112 Public Safety, Government Operations, and Military Affairs on S.B. No. 2582

The purpose and intent of this measure is to require that of the twenty percent set aside of the State's annual purchasing expenditure to small business, a combined total of not less than three percent shall be awarded to veteran-owned small businesses and service-disabled veteran-owned small businesses.

Your Committee received testimony in support of this measure from the Vietnam Veterans Post 10583 of the Veterans of Foreign Wars; General Contractors Association of Hawaii; Military Officers Association of America, Hawaii Chapter; and Oahu Veterans Center.

Your Committee recognizes that much sacrifice and hardship was endured by the veterans who served in the armed forces and supports efforts to rehabilitate and reintegrate them into society as productive and hard working individuals. Your Committee believes that this measure is a fitting and proper recognition of the men and women of our country who have gone to war to fight for and to protect our freedoms, as well as to combat tyranny and oppression of peoples throughout the world.

Your Committee has amended this measure by:

- (1) Clarifying that the veteran-owned small businesses and service-disabled veteran-owned small businesses subject to this measure shall have fifty or fewer employees, to be verified annually by the chief procurement officer; and
- (2) Changing the effective date to January 1, 2020, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2582, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2582, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2113 (Joint) Economic Development and Technology and Education on S.B. No. 2110

The purpose and intent of this measure is to:

- (1) Designate 'Ulu'ulu: The Henry Ku'ualoha Giugni Moving Image Archive of Hawai'i as the state archive for moving images;
- (2) Establish a special fund to be administered by the University of Hawaii; and
- (3) Establish a tax check-off to provide funding for the archive.

Your Committees received testimony in support of this measure from 'Ulu'ulu: The Henry Ku'ualoha Giugni Moving Image Archive of Hawai'i; Juniroa Productions, Inc.; Archival Media Consulting; Pacific Islanders in Communication; Mike May Media Services; 4 Miles LLC; Na Maka o ka 'Aina; and twenty-nine individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that Hawaii has been making movies and television shows since Thomas Edison came to Hawaii in 1908, yet over eighty percent of the State's media history has been lost due to the tropical climate and benign neglect. Entire libraries of film and video have been thrown away because of deterioration, changes in recording formats, and concerns for space. 'Ulu'ulu provides a solution using archival best practices, software tools, and state-of-the-art technology found nowhere else in the Pacific region. Currently the archive houses over 10,000 hours of recorded video and film ranging from the first commercial interisland flight in 1927, volcanic eruptions from the 1940s and 1950s, the 1978 Constitutional Convention, and over thirty years of news, sports, and programming from KGMB, including the popular children's show, Checkers and Pogo.

Your Committees commend the efforts of all those involved with 'Ulu'ulu: The Henry Ku'ualoha Giugni Moving Image Archive of Hawai'i, for their collaborative work in preserving these important moments in Hawai'i's history.

Your Committees note that there has also been extensive fundraising in support of the archive, and that 'Ulu'ulu would not be dependent on state funding if designated the state archive for moving images. Your Committees have heard concerns that the use of an income tax write-off may not be the most appropriate means of ensuring additional funding for the archive, and recommend further discussion on this point as this measure moves through the legislative process.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2110 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Solomon, Slom).

SCRep. 2114 Economic Development and Technology on S.B. No. 2737

The purpose and intent of this measure is to amend the State's Sunshine Law to allow board and commission meetings to be conducted by any form of interactive conference technology that permits interaction by audio, or audio and visual means, provided that:

- (1) All members of a board and the public are able to interact with each other at least by audio communication;
- (2) The public is given notice of all the locations at which board members will be participating in the meeting, and the public may join members to participate in the meeting at those locations; and
- (3) An agenda item may not be considered if any meeting location is connected by audio only technology, and copies of all visual aids brought or used to consider that item on the agenda are not available at all meeting locations within fifteen minutes after audio only technology is being used.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Office of Information Management & Technology; Office of Information Practices; Department of Planning and Permitting, County of Honolulu; The Chamber of Commerce of Hawaii; Building Industry Association of Hawaii; and three individuals.

Your Committee finds that this measure will reduce the instances in which a board is unable to conduct business and the public is foreclosed from participating in government for lack of a quorum. As volunteers, most members of state and county boards and commissions have obligations that from time to time prevent them from attending a board meeting. More often, however, travel time to and from a board meeting is what keeps them from attending a meeting. Your Committee further finds that this measure will allow board members to participate in their boards' meetings from locations closer to their homes, offices, or other locations.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2737 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2115 (Majority) Economic Development and Technology on S.B. No. 2226

The purpose and intent of this measure is to:

- (1) Adopt amendments to Hawaii tax laws to implement the Streamlined Sales and Use Tax Agreement, effective when the State becomes a party to the Streamlined Sales and Use Tax Agreement; and
- (2) Create a committee to oversee the Department of Taxation's implementation and administration of, and compliance with the Streamlined Sales and Use Tax Agreement.

Your Committee received testimony in support of this measure from the Hawaii Association of REALTORS; Retail Merchants of Hawaii; Hawaii Government Employees Association, AFSCME Local 152 AFL-CIO; and Walgreen Company. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that e-commerce is one of the few consistently bright spots in the nation's economic recovery. In 2011, holiday web sales alone topped \$37,000,000,000 for November and December, a fifteen percent increase over 2010. This compares with more modest growth of four percent for all retail sales during the same period. While it is difficult to assign a specific percentage of that expenditure to Hawaii, it still represents significant potential for tax revenue to the State.

The Streamlined Sales and Use Tax Agreement is the result of the cooperative effort of forty-four states, the District of Columbia, local governments, and the business community to simplify sales and use tax collection and administration by retailers and states. To date, twenty-four of the forty-four states have passed the conforming legislation. Those states have a total population of 92,781,860 representing thirty-three percent of the population. In addition to this measure before your Committee, conforming legislation has been introduced in California, Florida, Illinois, Maine, Massachusetts, Missouri, Texas, and Virginia.

In July 2011, S. 1452, the Mainstreet Fairness Act, was introduced in the United States Senate to promote simplification and fairness in the administration and collection of sales and use taxes. This was followed in November 2011, by S. 1832, the Marketplace Fairness Act, to address a states' rights issue: preserving the right of states to collect, or decide not to collect, sales and use taxes that are already owed under state law.

Your Committee believes that the State of Hawaii would benefit tremendously by adopting legislation that would enable the State to be in compliance with the Streamlined Sales and Use Tax Agreement.

Your Committee has amended this measure by:

- (1) Amending the purpose section to include additional information regarding the current status of the Streamlined Sales and Use Tax Agreement and related federal legislation; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2226, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Baker).

SCRep. 2116 (Joint) Economic Development and Technology and Public Safety, Government Operations, and Military Affairs on S.B. No. 2239

The purpose and intent of this measure is to exempt community-based economic development program grants from the procurement code; clarify that the Hawaii Strategic Development Corporation is the expending agency for the hydrogen investment capital special fund; and repeal the High Technology Innovation Corporation.

Your Committees received testimony in support of this measure from the Hawaii Strategic Development Corporation and High Technology Development Corporation. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism and testimony in opposition from the State Procurement Office.

Your Committees find that although the procurement code provides for safeguards in procuring contracts between state and private entities, exempting the grants from the community-based economic development program from the procurement code is consistent with the legislative intent when establishing the community-based economic development program, which was enacted in 1990 prior to the procurement code's enactment in 1993.

Your Committees also find that the Hawaii Technology Innovation Corporation was created to facilitate the growth and development of the commercial high technology industry at a time that the prior administration had reduced general fund support to the High Technology Development Corporation; and the High Technology Innovation Corporation's non-profit status was established as a replacement funding mechanism. Since your Committees recommend continuing state general fund support for the High Technology Development Corporation, the High Technology Innovation Corporation non-profit is no longer necessary.

Your Committees further find that the Hawaii Strategic Development Corporation has been requested to provide active oversight over the hydrogen investment capital special fund due to staff changes in the Department of Business, Economic Development, and Tourism. This measure will clarify that the Hawaii Strategic Development Corporation is the expending agency for monies in the special fund.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2239 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 3. Noes, none. Excused, 2 (Kidani, Ryan).

SCRep. 2117 Transportation and International Affairs on S.B. No. 2960

The purpose and intent of this measure is to prohibit the Department of Transportation from assessing landing fees upon air carriers operating turboprop engine air craft that provide interisland service, except between the most populous island in the State and any other island in the State.

Your Committee received testimony in opposition of this measure from the Department of Transportation, State Attorney General, and the Airlines Committee of Hawaii. Comments were received from Hawaiian Airlines.

Your Committee finds that the intent of this measure is to lessen the financial burden on air carriers servicing vital rural airports, thereby mitigating the chance of a discontinuance or reduction of flights to rural airports.

Your Committee has amended this measure by deleting the reference to turboprop engine air craft, on the recommendation of the Attorney General based on a conflict with federal regulations and unjust discrimination among air carriers.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2960, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2960, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2118 Transportation and International Affairs on S.B. No. 2977

The purpose and intent of this measure is to provide an aviation fuel tax credit for interisland airplane carriers that use turbo propeller airplanes.

Your Committee received testimony in opposition of this measure from the State Department of Transportation. Comments were received from the Department of Taxation, State Attorney General, Tax Foundation, and Hawaiian Airlines.

Your Committee finds that interisland airplane carriers provide needed competition in the interisland aviation market by setting lower fares. Any reduction in costs to these carriers would enable the carriers to keep fares low, which benefits interisland air travelers.

Your Committee has amended this measure on the recommendation of the Department of Taxation and the State Attorney General by amending chapter 243, Hawaii Revised Statutes, relating to fuel taxes, rather than chapter 235, Hawaii Revised Statutes, relating to income taxes.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2977, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2119 Transportation and International Affairs on S.B. No. 2874

The purpose and intent of this measure is to provide the Department of Transportation with more options to generate revenue from non-aeronautical users of airport property.

Your Committee received testimony in support of this measure from the Department of Transportation. Comments were received from the Office of Hawaiian Affairs and the Airlines Committee of Hawaii.

Your Committee finds that the Department of Transportation relies on revenue from airline operations, facility and space rental from aeronautical and airport-related users, revenues from concessions, and, to a very small extent, facility and space rentals from non-aeronautical or non-airport-related users. The smallest of the revenue generators is by far non-aeronautical rentals. However, the non-aeronautical revenue segment could be increased, without changing the nature of airports, by allowing additional flexibility in contracting with such users. Increasing the opportunities for revenue generation at airports from non-aeronautical users is essential to the maintenance of a healthy and self-supporting airport system.

Your Committee has amended this measure by:

- (1) Deleting language in existing law that requires leases to contain a clause allowing repossession of the property by the Department of Transportation when needed for aeronautics purposes, as this has caused difficulty for some airport tenants in getting financing;
- (2) Changing the effective date to June 29, 2012, to perpetuate the amendments made to section 261-7(a), Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2874, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2874, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2120 Transportation and International Affairs on S.B. No. 2946

The purpose and intent of this measure is to:

- (1) Extend the increase in the rental motor vehicle surcharge tax to \$7.50 per day until June 30, 2013, and deposit \$4.50 per day of the tax into the general fund until June 30, 2013; and
- (2) Extend the suspension of the rental motor vehicle customer facility charges until June 30, 2013.

Your Committee received testimony in opposition to this measure from Hertz Corporation and Avis Budget Group. Comments were received from the State Departments of Transportation, Taxation, and Budget and Finance, Enterprise Rent-A-Car, Alamo Rent-A-Car, National Car Rental, and the Tax Foundation of Hawaii.

Your Committee finds that the rental motor vehicle surcharge tax was created to provide a funding source to build consolidated rental car facilities at airports throughout the State.

According to testimony of the Department of Transportation, the Airports Division has the following projects planned, which will utilize the rental motor vehicle surcharge tax as a means of financing:

- (1) Honolulu International Airport Consolidated Car Rental Facility Design; Project Cost \$22,500,000;
- (2) Honolulu International Airport Consolidated Car Rental Facility Roadway Improvements; Project Cost \$11,600,000;
- (3) Honolulu International Airport Consolidated Car Rental Facility Interim Facility; Project Cost \$43,000,000;
- (4) Honolulu International Airport Consolidated Car Rental Facility; Project Cost \$270,000,000;
- (5) Kahului Airport Consolidated Car Rental Facility Design; Project Cost \$8,000,000;
- (6) Kahului Airport Consolidated Car Rental Facility; Project Cost \$180,000,000; and
- (7) Kahului Airport Access Road and Parking Improvements; Project Cost \$67,000,000.

Your Committee has amended this measure by adding an authorization to issue airport revenue bonds in an amount not to exceed \$500,000,000 for airport capital improvement projects.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2946, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2946, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2121 Transportation and International Affairs on S.B. No. 3040

The purpose and intent of this measure is to exempt from the rental motor vehicle and tour vehicle surcharge tax, vehicles that are rented by a car-sharing organization to members of the organization on an hourly basis.

Your Committee received testimony in support of this measure from the Blue Planet Foundation, Sierra Club Hawai'i Chapter, Green Car Hawaii, and six individuals. Testimony in opposition was received from the Department of Transportation and one individual. Comments were received from the Department of Taxation, Enterprise Rent-A-Car, and Tax Foundation of Hawaii.

Your Committee finds that many individuals and households in Hawaii do not need to own a car; rather they would just like access to a vehicle when needed. Car-sharing programs would provide another mobility alternative for individuals and households and, perhaps for some, obviate the need to purchase and own a vehicle. Car-sharing provides the benefits of having a vehicle when needed while avoiding the cost and hassle of car ownership. This measure is intended to remove one cost barrier to car-sharing by exempting car-sharing organizations from the rental vehicle surcharge tax.

Your Committee further finds that car-sharing is a green transportation innovation that significantly reduces vehicle miles traveled, oil imports, greenhouse gas emissions, and household transportation costs for Hawaii residents. Car-sharing is a fairly new transportation innovation in the United States, that has emerged only in the last ten years. It is essentially membership-based hourly car rental. Unlike traditional car rentals, however, car-sharing is not aimed at tourists or individuals who are getting personal vehicles repaired. Car-sharing members are people who either cannot afford to or prefer not to own their own vehicles, but occasionally need access to vehicles to run errands. Car-sharing enables them to enjoy the benefits of automobile access without the high fixed costs and other concerns that come with car ownership.

Your Committee has amended this measure by:

- (1) Clarifying the definition of car-sharing organization for tax purposes and making conforming amendments throughout the measure;
- (2) Restricting the period of tax exemption to not more than six hours per day per vehicle; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3040, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2122 Transportation and International Affairs on S.B. No. 2337

The purpose and intent of this measure is to provide the Department of Transportation with the authority and discretion to reach an agreement with an airport concession to modify the terms of any concession lease or permit, in exchange for revenue-enhancing improvements that are made or paid for by the concession.

Your Committee received testimony in support of this measure from the Department of Transportation; Airport Concessionaires Committee; Greeters of Hawaii; Tiare Enterprises; HMS Host; Island Shoppers, Inc.; and International Currency Exchange. Testimony in opposition was received from the Office of Hawaiian Affairs.

Your Committee finds that modernization and improvements at Hawaii's airports concessions have not kept pace with passenger needs and demands. A recent study by the State indicates that various areas at our public airports are lacking in concession space by as much as forty percent. The study finds that Hawaii's public airports are not maximizing the revenues they could be receiving from airport concession operations if additional concession spaces were provided and locations were also improved. These improvements reportedly would not only pay for themselves but would also generate additional revenues for Hawaii's public airports. The Department of Transportation needs to fast-track construction and encourage improvements that will not only benefit Hawaii's public airports but also provide critical jobs and help stimulate Hawaii's economy.

Your Committee has amended this measure by:

- (1) Adding to the authority of the Department of Transportation under this measure the authority to modify, alter, or amend concession contracts; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2337, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Dela Cruz, Slom).

SCRep. 2123 (Majority) Judiciary and Labor on S.B. No. 2060

The purpose and intent of this measure is to allow the court to order a defendant to transport a material witness to court in situations where the defendant resides with the witness, or the defendant has sole physical or legal custody of the witness.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Department of the Prosecuting Attorney of the County of Maui. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that approximately ten domestic violence cases each year do not proceed to trial because the court does not have statutory authority to order the defendant to transport a minor, elderly, or incapacitated witness to court. Although the Department of the Prosecuting Attorney of the City and County of Honolulu has tried various measures to secure the presence of these witnesses via subpoena, guardian ad litem, or other means, some cases do not proceed to trial because the defendant, as sole guardian or cohabitant of the witness, has actual or effective control over the witness' ability to appear in court.

Your Committee recognizes that this measure proposes to place the burden on the defendant to present evidence that could potentially secure a conviction against the defendant's self. Your Committee finds that this measure relates to domestic violence cases involving the abuse of a minor, elderly person, or incapacitated person. Moreover, this measure provides an additional tool for a judge to compel a witness to appear in court under these circumstances relating to domestic violence.

As such, your Committee believes that this issue merits further discussion and the language needs further streamlining to prevent unintended consequences while ensuring that domestic violence cases are brought to trial. Your Committee notes that the Judiciary did not submit written testimony and urges the Judiciary to participate in the ongoing discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2060, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2060, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2124 Judiciary and Labor on S.B. No. 2508

The purpose and intent of this measure is to amend the filing deadlines for preliminary and supplemental campaign spending reports to align with existing law or present practice.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that the date of the primary election was advanced from the last Saturday in September to the second Saturday in August. This measure changes the existing statutory deadline for filing a candidate's first preliminary campaign spending report from July 31 of an election year to thirty calendar days prior to a primary election to avoid back-to-back filing deadlines of July 31 and August 1, for the first and second preliminary primary campaign spending reports, respectively, and to align accordingly with the August primary election date.

Your Committee further finds that every candidate files a supplemental campaign spending report on January 31 of every year; not only after an election year, as stated under existing law. Thus, clarifying that these reports are due every year will align the statutory deadline with present practice.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2508, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2508, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2125 Judiciary and Labor on S.B. No. 2704

The purpose and intent of this measure is to enable the Department of the Attorney General to obtain funds necessary to prosecute civil claims of the State by retaining and depositing into the litigation deposits trust fund a percentage of any recovery from a civil action or settlement initiated or filed by the department as well as all recoveries from false claim actions.

Your Committee received testimony in support of this measure from the Department of the Attorney General. The Department of Commerce and Consumer Affairs submitted comments.

Your Committee finds that the Department of the Attorney General requests funds to initiate litigation of major claims of the State in order to hire staff, experts, or a special deputy. Major litigation, which is often document intensive, requires manpower that is not readily available to assign to these types of cases. This measure enables the department to obtain the funds necessary to hire the staff and expertise to prosecute major cases by retaining and depositing into the litigation deposits trust fund fifteen percent of any recovery from a civil action or settlement initiated or filed by the department as well as all recoveries from false claim actions.

Your Committee has amended this measure by:

- (1) Reinstating the language that exempts from deposit into the litigation deposits trust fund proceeds from actions involving departments that are able to procure their own legal services, as requested by the Department of Commerce and Consumer Affairs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2704, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2704, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2126 Judiciary and Labor on S.B. No. 2700

The purpose and intent of this measure is to make an emergency appropriation to satisfy twenty-four claims against the State and its officers or employees for fiscal year 2011-2012, because the requested funds were not appropriated during the previous regular legislative session.

Your Committee received testimony in support of this measure from the Department of the Attorney General; the Judiciary; and the Department of Education.

Your Committee finds that during the regular session of 2011, a request was made to the Legislature for funds to satisfy judgments and settlements of claims against the State for fiscal year 2010-2011. Those requested funds were not appropriated and as a result, claimants sought or threatened to initiate legal action against the State. This measure seeks an emergency appropriation to satisfy twenty-four judgments and settlements totaling \$5,790,697.12 in order to avoid further legal action and expense.

Your Committee has amended this measure by:

- (1) Correcting language to accurately request that funds be appropriated out of the harbor special fund, rather than the State harbor fund, to settle certain claims; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2700, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2700, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2127 Education on S.B. No. 2651

The purpose and intent of this measure is to extend the lapse date of the issuance of special purpose revenue bonds authorized by Act 116, Session Laws of Hawaii 2007, to assist Hawaii Preparatory Academy from June 30, 2012, to June 30, 2017.

Your Committee received testimony in support of this measure from Hawaii Preparatory Academy, Hawaii Association of Independent Schools, The Kohala Center, and four individuals.

Your Committee finds that this measure will enable Hawaii Preparatory Academy to make necessary improvements to its two campuses on the island of Hawaii.

Your Committee has amended this measure by:

- (1) Adding language to specify that special purpose revenue bonds may be issued in a total amount not to exceed \$50,000,000, to refund the special purpose revenue bonds authorized by Act 116, Session Laws of Hawaii 2007; and
- (2) Making a technical, nonsubstantive amendment to change the lapsing date to June 28, 2017, in order to avoid violating the five-year authorization period for special purpose revenue bonds in section 39A-257, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2651, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2651, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2128 Education on S.B. No. 2527

The purpose and intent of this measure is to:

- (1) Amend section 302A-1151.5, Hawaii Revised Statutes, to require the Department of Education to give charter schools and pre-plus programs the right of first refusal to occupy all or a portion of public school facilities the Department is considering for closure; provided that in the event that no charter school or pre-plus program accepts an offer to use the public school's facilities, the facilities may be used for any other purpose the Board of Education deems appropriate; and
- (2) Require the Department of Education to identify unused public schools facilities for possible use by charter schools, early learning programs, or for any other purpose the Board of Education deems appropriate.

Your Committee received testimony in support of this measure from the Department of Human Services, Charter School Administrative Office, Office of Hawaiian Affairs, and Kewalo Hawaiian Homestead Community Association. Your Committee received testimony in opposition to this measure from the Department of Education and Hawaii Carpenters Union.

Your Committee finds that this measure will provide pre-plus programs and early learning programs the opportunity to occupy or use public school facilities that the Department of Education is considering for closure. Your Committee understands the concerns of the Department of Education in requiring it to give charter schools and pre-plus programs the right of first refusal to occupy and use these facilities when the facilities may have an alternative best use by the Department.

As such, your Committee has amended this measure by:

- (1) Removing language giving charter schools and pre-plus programs the right of first refusal to occupy all or a portion of public school facilities the Department of Education is considering for closure;
- (2) Specifying that the Department of Education may consider making all or portions of facilities of public schools being considered by the Department for closure available to charter schools and pre-plus programs; provided that the facilities may be used by the Department for any other purpose the Board of Education deems appropriate;
- (3) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2527, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2527, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2129 (Majority) Education on S.B. No. 2620

The purpose and intent of this measure is to repeal the Regents Candidate Advisory Council for the Board of Regents of the University of Hawaii (Council).

Your Committee received testimony in support of this measure from the Governor. Your Committee received testimony in opposition to this measure from the Regents Candidate Advisory Council of the University of Hawaii, Association of Emeritus Regents of the University of Hawaii, and three individuals.

Your Committee finds that since the establishment of the Council pursuant to a constitutional amendment in 2006, the Senate has denied the confirmation of candidates to the Board of Regents on several occasions. This measure will provide the Governor with the authority to more directly appoint highly qualified members to the Board of Regents of the University of Hawaii rather than being obligated to appoint from a limited list of names provided by the Council.

Your Committee has amended this measure by:

- (1) Adding language to clarify that current members of the Council shall continue to serve their full terms of office and as each term expires, each member will be replaced by a member nominated and, with the advice and consent of the Senate, appointed by the Governor pursuant to this measure;
- (2) Clarifying that this measure shall take effect upon the ratification of a constitutional amendment repealing the constitutional requirement that the Governor make appointments to the Board of Regents of the University of Hawaii from pools of candidates presented to the Governor by the Council; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2620, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2620, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Chun Oakland). Excused, 1 (Taniguchi).

SCRep. 2130 (Majority) Education on S.B. No. 2005

The purpose and intent of this measure is to propose a constitutional amendment to article X, section 6, of the Hawaii State Constitution to modify the appointment process for members of the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this measure from the Governor. Your Committee received testimony in opposition to this measure from the Regent Advisory Council of the University of Hawaii, Association of Emeritus Regents of the University of Hawaii, and three individuals.

Your Committee finds that since the establishment of the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Council) pursuant to a constitutional amendment in 2006, the Senate has denied the confirmation of candidates to the Board of Regents on several occasions. This measure proposes a constitutional amendment to give the Governor the authority to more directly appoint highly qualified members to the Board of Regents of the University of Hawaii rather than being obligated to appoint from a limited list of names provided by the Council.

Your Committee has amended this measure by revising the question to be printed on the ballot to more accurately describe the proposed amendment. As amended, the ballot question posed is whether the constitutional requirement that the Governor make appointments to the Board of Regents from pools of candidates presented to the Governor by the Council should be repealed.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2005, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2005, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Chun Oakland). Excused, 1 (Taniguchi).

SCRep. 2131 Education on S.B. No. 2546

The purpose and intent of this measure is to:

- (1) Add a new section to chapter 304A, Hawaii Revised Statutes, to amend the form and function of the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Council); and
- (2) Repeal section 304A-104.5, Hawaii Revised Statutes, relating to the current form and function of the Council.

Your Committee received testimony in support of this measure from the Governor. Your Committee received testimony in opposition to this measure from the Regents Candidate Advisory Council of the University of Hawaii, Association of Emeritus Regents of the University of Hawaii, and three individuals.

Your Committee finds that while the Council has fielded many outstanding appointees to the Board of Regents, substantive concerns have been raised as to the selection process. Since the passage of Act 56, Session Laws of Hawaii 2007, to implement the amendments to article X, section 6 of the Hawaii State Constitution by establishing the Council, your Committee is aware of a number of issues resulting from the new method of Regents selection, which has hampered the work of the Council and led to questions regarding the final selection of appointees during the Senate confirmation process. This measure will reconstitute the form and processes of the Council to maximize the Governor's ability to appoint qualified and able individuals to serve as members of the Board of Regents and effectively lead the University of Hawaii.

Your Committee has amended this measure by clarifying that the members who are currently serving on the Council shall continue to serve until the Council is reconstituted by the Governor's appointment of five, rather than six, members of the Council pursuant to this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2546, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2546, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5, Ayes with Reservations (Chun Oakland). Noes, none. Excused, 1 (Taniguchi).

SCRep. 2132 (Joint) Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing on S.B. No. 2355

The purpose and intent of this measure is to utilize a public-private partnership to develop additional incarceration space on state land at Halawa Correctional Facility in exchange for a long-term lease to develop the transit-oriented development zone near Oahu Community Correctional Center.

Your Committees received testimony in support of this measure from the Department of Public Safety.

Your Committees find that the inmate population at Halawa Correctional Facility has reached its maximum capacity and that there needs to be additional incarceration space developed at Halawa Correctional Facility to alleviate overcrowding, eliminate the transfer of Hawaii inmates to jurisdictions outside of the State, and reduce the long-term costs of incarcerating people in this State.

Your Committees also find that a portion of the planned route of the mass transit rail system is on Dillingham Boulevard across from Oahu Community Correctional Center and includes a fixed guideway station nearby in Kalihi. Development of a Kalihi station transit-oriented development zone would enable the residents of Kalihi and the users of the mass transit rail system to enjoy better services and amenities as well as an improved quality of life.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2355 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Fukunaga, Kidani, Tokuda).

SCRep. 2133 Public Safety, Government Operations, and Military Affairs on S.B. No. 2771

The purpose and intent of this measure is to make an emergency appropriation for the reimbursement of funds to the Department of Defense incurred by its Corrections and Law Enforcement Divisions in providing security, arrest teams, transport teams, dignitary escort, and protection units for the Asia-Pacific Economic Cooperation meetings that were held in November of 2011.

Your Committee received testimony in support of this measure from the Department of Public Safety, State Department of Defense, and State Attorney General.

Your Committee finds that a critical fiscal need exists for the reimbursement of the costs of providing emergency management, public safety, and security services in preparation for and during the Asia-Pacific Economic Cooperation meetings held in November

2011. Seven state departments have identified expenditures made for the management, safety, and security required to host the event. Although federal reimbursement for these costs is being applied for, reimbursement is not guaranteed and also not likely to be received within the current fiscal year.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2771 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2134 (Joint) Public Safety, Government Operations, and Military Affairs and Energy and Environment on S.B. No. 2302

The purpose and intent of this measure is to create a community giveback fee to help groups perform activities and services for the greater good of their communities.

Your Committees received testimony in support of this measure from fifteen individuals. Testimony in opposition was received from the Department of Health and Honolulu Department of Environmental Services.

Your Committees find that communities in which landfills and other disposal sites are located bear a disproportionately heavy burden in meeting community needs. Violators of environmental health laws need to be responsible to help those communities they harm by paying an additional penalty.

Your Committees have amended this measure by:

- (1) Deleting the allocation of the collected community giveback fees to nonprofit organizations;
- (2) Adding a requirement that twenty-five percent of the amount of the penalty shall be deposited into a separate account of the general fund for distribution by the Department of Education in equal amounts to every high school within a ten-mile radius of the landfill which incurred the penalty; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2302, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2302, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2135 Agriculture on S.B. No. 2354

The purpose and intent of this measure is to establish criminal penalties for failure to maintain a certificate of ownership or other written proof of ownership of agricultural commodities.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation; Hawaii Farmers Union; and W.H. Shipman, Limited. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that agricultural theft is a serious problem for many farmers in the State and existing laws are not stringent enough to stop potential thieves. This measure may serve as a greater deterrent of agricultural theft by making the failure to maintain certificates of ownership or other written proof of ownership of agricultural commodities a criminal offense.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2354 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Tokuda, Slom).

SCRep. 2136 (Joint) Agriculture and Transportation and International Affairs on S.B. No. 2331

The purpose and intent of this measure is to appropriate funds to the Agribusiness Development Corporation for the operation of a boat or ferry to assist with interisland shipping of livestock and produce.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation, Leahi Foundation, and one individual. Your Committees received testimony in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawaii and three individuals. Your Committees received comments on this measure from the Agribusiness Development Corporation and Young Brothers, Limited.

Your Committees find that Hawaii faces unique transportation issues, particularly in the movement of agricultural commodities and livestock. In 2008, a report entitled "The Demand for Interisland Shipping and the Impact of Shipping Costs on Hawaii Agricultural Production" (Report) was submitted to the Agribusiness Development Corporation which contained several recommendations for the Agribusiness Development Corporation to consider.

As such, your Committees have amended this measure by:

- (1) Removing the appropriation to the Agribusiness Development Corporation for the operation of a boat or ferry to assist with interisland shipping of livestock and produce;

- (2) Adding language to authorize the Agribusiness Development Corporation to implement the recommendations contained in the Report and enter into public-private partnerships with private transportation carriers to implement the recommendations;
- (3) Requiring the Agribusiness Development Corporation to report to the Legislature on the status of implementation no later than twenty days prior to the convening of the Regular Session of 2013;
- (4) Changing the effective date of this measure from July 1, 2012, to upon approval; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2331, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2331, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Chun Oakland, Espero, Gabbard, Tokuda, Slom).

SCRep. 2137 Agriculture on S.B. No. 2646

The purpose and intent of this measure is to exempt specified nonresidential agricultural and aquacultural buildings and structures, and their appurtenances, located on commercial farms from building permit requirements other than applicable electric and wastewater regulations.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation; Oceanic Institute; Mokuleia Aquafarm; High Health Aquaculture, Inc.; Shrimp Improvement Systems Hawaii, LLC; W.H. Shipman, Limited; Hawaii Aquaculture and Aquaponics Association; Hawaii Livestock Farmers Coalition; Aquaponics Hawaii; Hawaii Taro Company; Molokai Sea Farms; Kuahiwi Ranch; Aquaculture Planning and Advocacy, LLC; Matsuda-Fukuyama Farms; Hawaii Farmers Union; and six individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that nonresidential agricultural and aquacultural buildings are often required to meet the same county permitting requirements as commercial buildings and buildings used for human habitation.

Your Committee further finds that several other jurisdictions in the United States have either state statutes or county codes that exempt agricultural buildings from zoning, building code, and building permit requirements. For example, Iowa, Illinois, and Arizona have exempted agricultural buildings from such requirements under the concept of “the right to farm.” In adopting this measure and removing burdensome obstacles for Hawaii’s agricultural and aquacultural communities, the State will be supporting the wording and intent of article XI, section 3, of the Hawaii State Constitution, which requires the State to “promote diversified agriculture” and “increase agricultural self-sufficiency”.

In addition, your Committee finds that this measure addresses the needs of Hawaii’s agricultural and aquaculture community while being mindful of health and safety concerns.

Lastly, farmers will be able to use readily available, low-cost structures to store materials, equipment, and other supplies while also protecting their assets against inclement weather, vandalism, and theft. This measure will eliminate a time consuming and costly obstacle to the construction of essential agricultural and aquacultural infrastructure while helping to improve the economic viability of Hawaii agricultural and aquacultural sectors without any financial cost to the State.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2646 and recommends that it pass Second Reading and be referred to the Committee on Public Safety, Government Operations, and Military Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Tokuda, Slom).

SCRep. 2138 Agriculture on S.B. No. 2460

The purpose and intent of this measure is to:

- (1) Allow monies in the pest inspection, quarantine, and eradication fund to be expended for the electronic importer manifest program of the Department of Agriculture; and
- (2) Make an appropriation in an unspecified amount to the Department of Agriculture from the pest inspection, quarantine, and eradication fund to implement the electronic importer manifest program.

Your Committee received testimony in support of this measure from the Department of Agriculture, The Nature Conservancy of Hawaii, Hawaii Crop Development Association, Hawaii Farm Bureau Federation, Environmental Caucus of the Democratic Party of Hawaii, and Hawaii Farmers Union.

Your Committee finds that this measure will support the Department of Agriculture’s efforts to make agricultural inspection more efficient and cost effective. In addition, this measure will help expand the Department of Agriculture’s technological capacity to help protect Hawaii from invasive species.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2460 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Tokuda, Slom).

SCRep. 2139 Human Services on S.B. No. 2798

The purpose and intent of this measure is to require all commercial health care insurers operating in Hawaii to timely share with the Department of Human Services a listing of the insurers' members for a cross-reference check of prospective and current Medicaid beneficiaries.

Your Committee received testimony in support of this measure from the Department of Human Services, the Consumer Family & Youth Alliance, Papa Ola Lokahi, and one individual. Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, the Hawaii Association of Health Plans, and HMSA.

Your Committee finds that when Congress passed the Deficit Reduction Act of 2005, P.L. 109-171, it made a number of amendments to the Social Security Act intended to strengthen states' ability to identify and collect from liable third party payors that are legally responsible to pay claims primary to Medicaid. This measure will assist the Department of Human Services in collecting amounts that are payable by third party payors before the amounts are payable by Medicaid, which is the payor of last resort for health insurance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2798, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2798, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2140 Human Services on S.B. No. 2093

The purpose and intent of this measure is to:

- (1) Provide for fair Medicaid reimbursements to acute care hospitals and long-term care facilities for the services they provide to Medicaid patients who have been treated and who have recovered sufficiently so that they may be transferred to long-term care, but for whom long-term care is not available; and
- (2) Appropriate funds for increased Medicaid reimbursements.

Your Committee received testimony in support of this measure from the Consumer Family & Youth Alliance, the Hawaii Disability Rights Center, the Hawaii Health Systems Corporation, the Healthcare Association of Hawaii, Kaiser Permanente, the Policy Advisory Board for Elder Affairs, The Chamber of Commerce of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that on any given day there is on average one hundred fifty patients in Hawaii's hospitals who have been treated and who have recovered sufficiently to be transferred to a long-term care facility. These patients are placed on a waitlist for days, weeks, months, or in some cases over a year because long-term care is not available. This represents an inappropriate quality of care for the patient and creates a serious financial drain on hospitals. Your Committee further finds that establishing Medicaid reimbursements at a level that is at least equal to the rate paid for acute care services and compensating hospitals and long-term care facilities at rates that are commensurate with the level of care that is required for the patient will help acute hospitals bear the financial burden of continuing care for patients who are waitlisted for placement in a long-term care facility or who have complex medical conditions.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2014; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2093, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2093, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2141 Human Services on S.B. No. 2092

The purpose and intent of this measure is to:

- (1) Establish presumptive Medicaid eligibility for patients who are waitlisted for a long-term care facility; and
- (2) Appropriate funds to cover the cost of any reimbursement made to providers or plans for service during the time the waitlisted patients are enrolled in Medicaid but eventually determined to be ineligible for Medicaid.

Your Committee received testimony in support of this measure from the Consumer Family & Youth Alliance, the Hawaii Disability Rights Center, the Hawaii Health Systems Corporation, the Healthcare Association of Hawaii, Kaiser Permanente, the Policy Advisory Board for Elder Affairs, The Chamber of Commerce of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that on any given day there is on average one hundred fifty patients in Hawaii's hospitals who have been treated to be well enough to be transferred to a long-term care facility. These patients are placed on a waitlist for days, weeks, months, or in some cases over a year because long-term care is not available. This represents an inappropriate quality of care for the patient and creates a serious financial drain on hospitals. Your Committee further finds that the provision of presumptive Medicaid eligibility will alleviate the current problem experienced by hospitals as well as patients who are waitlisted.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2092, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2142 (Majority) Commerce and Consumer Protection on S.B. No. 2412

The purpose and intent of this measure is to provide for the prompt payment of subcontractors by shortening the time in which subcontractors must receive progress and final payment from contractors on government and private construction contracts, and to provide for interest penalties for late payments.

Your Committee received testimony in support of this measure from the Ironworkers Stabilization Fund, Subcontractors Association of Hawaii, and Steel Fabricators and Erectors of Hawaii. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Design and Construction, Building Industry Association of Hawaii, and General Contractors Association of Hawaii.

Your Committee finds that the amendments proposed by this measure would require parties to government and private sector construction contracts to comply with certain time constraints to allow subcontractors to receive prompt payment for work they have done on construction contracts.

Your Committee understands the concerns that the requirements of this measure may not be achievable on complex construction projects, and that existing laws and rules may already address this issue. However, your Committee also understands that some subcontractors are still experiencing delays in payment. Your Committee therefore concludes that further discussion on this measure is warranted.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2412, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2412, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3, Ayes with Reservations (Taniguchi). Noes, 1 (Slom). Excused, 3 (Galuteria, Green, Nishihara).

SCRep. 2143 Commerce and Consumer Protection on S.B. No. 2764

The purpose and intent of this measure is to require anyone providing mortgage loan origination services to be licensed as a mortgage servicer.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that persons acting as mortgage servicers provide a range of services, including some mortgage loan modification services that could be considered mortgage loan originator activities. Your Committee further finds that a mortgage servicer license cannot take the place of a mortgage loan originator's license if a person is providing mortgage loan originator services. This measure seeks to ensure that anyone who provides mortgage loan origination services is licensed to do so, even if that person is already licensed as a mortgage servicer.

Your Committee additionally finds that this measure allows the Insurance Commissioner to require mortgage servicers to register with the Nationwide Mortgage Licensing System if necessary, and provides the Insurance Commissioner with more discretion when imposing fines for violations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2144 Commerce and Consumer Protection on S.B. No. 2112

The purpose and intent of this measure is to extend to January 1, 2018, the sunset date of Act 166, Session Laws of Hawaii 2007 (Act 166), thereby extending the exemption from taxation of capital gains realized from the sale of a leased fee interest in condominium units to associations of apartment owners or residential cooperative corporations.

Your Committee received testimony in support of this measure from Hawai'i Association of REALTORS, Hawaii Council of Associations of Apartment Owners, and Monarch Properties, Inc. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that there have been eighteen condominium association and cooperative housing corporation purchases since the tax exemptions under Act 166, became available. Testimony received by your Committee indicates that these sales involved 1,482 units and approximately \$107,000,000 in sale proceeds that would have been taxable without the exemptions provided by Act 166.

Your Committee further finds that extending the sunset date of Act 166 will incentivize landowners to sell their multi-family residential leased fee interests. Fee sales provide permanent fee simple ownership for many residential lessees and benefit the State by providing valuable state income tax and conveyance tax revenue.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2112 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Solomon).

SCRep. 2145 (Majority) Commerce and Consumer Protection on S.B. No. 2762

The purpose and intent of this measure is to provide the Commissioner of Financial Institutions with the authority to require money transmitters to register with the Nationwide Mortgage Licensing System, amend the fee structure for services provided by the Division of Financial Institutions for the regulation of money transmitters, and amend the fine for violations of money transmitter regulations.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the Division of Financial Institutions in the Department of Commerce and Consumer Affairs regulates money transmitter companies that transfer money domestically or internationally outside of the conventional financial institutions system. The Division's regulations protect the consumer by ensuring that these companies understand the rules and responsibilities regarding money transmission and can provide services for their customers accordingly.

Your Committee further finds that there has been a national discussion about the possibility of requiring money transmitters to register with the Nationwide Mortgage Licensing System. This measure would provide the Commissioner of Financial Institutions with the authority to mandate this registration if necessary.

Your Committee additionally finds that the Division of Financial Institutions has been inundated with new money transmitter applications. Many of these companies are off-shore and require more complex review and analysis by the Division. This measure adjusts the fees to reflect the additional time and effort it takes to review new applications. This measure also adjusts fees for the review of renewal applications, amends the time required to provide mandated services to money transmitter companies, and amends the fine for violations of money transmitter regulations.

The Division of Financial Institutions estimates additional revenues of \$346,500, based on the proposed annual fee provisions in this measure. The proposed annual fee is calculated by the time it takes to review an application multiplied by \$60 an hour.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2762 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 2146 (Joint) Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2776

The purpose and intent of this measure is to require a pre-trial risk assessment of adult offenders to be conducted within three working days of admission to a community correctional facility; expand the membership of the Hawaii paroling authority and require the use of validated risk assessments to guide parole decisions; limit the length of incarceration for first-time parole violators; increase victim restitution payments by inmates; and require a period of supervised parole prior to the expiration of the maximum term.

Your Committees received testimony in support of this measure from the Governor, Department of Public Safety, Hawaii Paroling Authority, Crime Victim Compensation Commission, The Council of State Governments Justice Center, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, Drug Policy Forum of Hawaii, American Civil Liberties Union of Hawai'i, and five individuals. Testimony in opposition was received from the Honolulu Prosecuting Attorney.

Your Committees find that:

- (1) Hawaii's pre-trial process is one of the longest in the nation. The pre-trial assessment process takes much longer in Hawaii (several months on average, whereas it takes just days or a few weeks in other jurisdictions) and budget cuts have caused these already long processes to be delayed even further. The result has been millions of dollars spent needlessly on a growing pre-trial population;
- (2) Inmate assessments are not currently being used appropriately to put the right people in the right programs, based on the research. As a result, offenders who are most likely to be successful upon release have been spending longer periods incarcerated because they are unable to get into rehabilitation and reintegration programs;
- (3) Hawaii often releases people who are most likely to reoffend back to the communities without the necessary supervision or monitoring. Parolees lacking supervision also lack accountability for their actions; and
- (4) Restitution for victims is inadequate.

This measure is a recommendation of the Council of State Governments Justice Center, which provided intensive technical assistance to Hawaii to conduct a comprehensive analysis of the State's criminal justice system and to help state leaders develop policy options that could increase public safety while saving taxpayer dollars. The Justice Center utilized a data-driven approach to identify inefficiencies, develop cost-effective policy options, and develop a plan for a reinvestment of savings that reduces recidivism and increases public safety.

The Justice Center concluded that despite a decline in crime over the past five years, the overall jail and prison population has not significantly changed. From July 1, 1999, to June 30, 2011, the State's prison and jail population grew eighteen percent, from 5,118 to 6,043. During the same period, expenditures for the corrections division of the department of public safety increased seventy percent, from \$112,000,000 to \$190,000,000. Approximately one-third of Hawaii's prison population is housed in out-of-state facilities on the mainland. The cost of housing these offenders out-of-state was \$45,000,000 from July 1, 2010, to June 30, 2011. The Justice Center's analysis found that key areas of the criminal justice system are not operating as cost-effectively as they could to reduce crime and increase public safety.

Your Committees believe that this measure would contribute to increasing public safety by:

- (1) Addressing the inefficiencies that tie up resources in ways that do not reduce crime and reinvesting in ways that do;
- (2) Focusing resources on supervision, incarceration, and treatment on those individuals who are most likely to benefit from those investments in terms of reducing their likelihood of committing another crime;
- (3) Increasing accountability in Hawaii's criminal justice system by mandating a period of supervision and increasing the amount of victim restitution collected; and
- (4) Bringing mainland prisoners home.

According to information provided by the Justice Center, fully implementing this measure could gradually reduce the current prison and jail population and generate savings of approximately 500 beds and \$9,000,000 by the end of fiscal year 2013, 850 beds and \$19,000,000 in fiscal year 2014, 1,050 beds and \$26,000,000 in fiscal year 2015, 1,150 beds and \$30,000,000 in fiscal year 2016, 1,200 beds and \$32,000,000 in fiscal year 2017, and 1,200 beds and \$32,000,000 in fiscal year 2018. Your Committees anticipate that these savings will be applied to initial and continued reinvestment in expanding and strengthening victim services, notification, and restitution collection; reentry and community-based treatment programs for pre-trial, probation, and parole populations; pre-trial and risk assessments; probation and parole officers; and research and planning staff at the Department of Public Safety.

The intent of your Committees is to realize cost savings and reinvest those savings back into the corrections system to reduce recidivism, decrease the prison population, and strengthen public safety. Your Committees strongly emphasize to your Committee on Ways and Means that implementation and success of this measure is ultimately contingent upon adequate funding. If it is determined that funding for this measure is inadequate, if savings are less than anticipated, or if substantive provisions are changed, then your Committees may consider withholding prior concurrence to any changes to this measure.

Your Committees have amended this measure by:

- (1) Clarifying the purpose section to include the most recent statistics and to provide cost savings analyses that could be utilized to apply the saved funds to other needed areas of improvement as contained in this measure;
- (2) Changing the membership of the Hawaii Paroling Authority to add two part-time members instead of one full-time member, and making an unspecified appropriation accordingly;
- (3) Adding that parole shall be granted upon completion of the minimum sentence unless the Hawaii Paroling Authority determines that the inmate poses a significant risk to the safety or property of other persons that can only be mitigated by additional incarceration; and applying that same standard to the retaking and reimprisonment for more than six months for a parole violation;
- (4) Adding an unspecified appropriation to implement this measure;
- (5) Requiring the Department of Public Safety to report to the Legislature annually for the next five years on specified information concerning the implementation of this measure and the commensurate cost savings;
- (6) Adding a savings clause; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2776, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2776, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2147 Commerce and Consumer Protection on S.B. No. 2765

The purpose and intent of this measure is to update and streamline Hawaii's captive insurance company law and ensure that risk retention captive insurance companies comply with the accreditation standards of the National Association of Insurance Commissioners.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs; Hawaii Captive Insurance Council; Artex Risk Solutions, Inc.; Strategic Risk Solutions, Inc.; and Willis Management (Hawaii).

Your Committee finds that Hawaii is a leading captive insurance domicile, nationally and worldwide. Your Committee further finds that the captive insurance market is an important factor in Hawaii's economy. Captive insurance entities contribute premium tax revenue to the State. The formation and maintenance of captive business in Hawaii also generates significant revenue and benefits in the form of general excise, income, and transient accommodations taxes paid by service providers and others who do business with captive insurance companies.

This measure provides greater flexibility in the coverage of captive risks, enables the Insurance Commissioner to better regulate the captive insurance industry, ensures that risk retention captive insurance companies comply with the accreditation standards of the National Association of Insurance Commissioners, and promotes clarity and consistency throughout the captive insurance company law.

Your Committee finds that Hawaii is facing increased competition from other states and off-shore captive domiciles for captive insurance company business. It is critical that Hawaii's captive insurance law maintain an appropriate balance between meaningful yet reasonable regulatory oversight so that the State can maintain its stature as a competitive and preferred captive insurance domicile.

Your Committee understands that this measure contains some potential issues that may adversely affect the continued growth and prudent development of the State's captive insurance industry if not properly resolved. Your Committee notes that the Department of Commerce and Consumer Affairs and the Hawaii Captive Insurance Council have been engaged in discussions regarding these issues. Both parties agree that discussion should continue to ensure that Hawaii remains a preferred domicile in the increasingly competitive captive insurance marketplace.

Your Committee has amended this measure by:

- (1) Clarifying that a captive insurance company who writes direct workers' compensation insurance policies pursuant to chapter 386, Hawaii Revised Statutes, may be subject to article 15 of chapter 431, Hawaii Revised Statutes, if the captive insurance company is deemed insolvent;
- (2) Amending the definition of "controlled unaffiliated business" by removing the reference to "other direct or indirect relationship";
- (3) Amending the definition of "association" in section 431:19-101, Hawaii Revised Statutes, to mean two or more similarly placed members;
- (4) Repealing the exemption for the filing of risk-based capital reports by class 3 association captive insurance companies;
- (5) Specifying that the Insurance Commissioner may impose a fine of not less than \$100 nor more than \$10,000 per violation for certain violations;
- (6) Specifying requirements for notice by the Insurance Commissioner to captive insurance companies when the Insurance Commission suspends or revokes a certificate of authority or imposes a fine;
- (7) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2765, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2765, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2148 Economic Development and Technology on S.B. No. 2066

The purpose and intent of this measure is to amend sections 708-895.5, 708-895.6, and 708-895.7, Hawaii Revised Statutes, to:

- (1) Raise the minimum monetary value from \$5,000 to \$20,000, if unauthorized computer access in the first degree is charged based on the monetary value of information obtained;
- (2) Increase unauthorized computer access in the first degree from a class B to a class A felony;
- (3) Increase unauthorized computer access in the second degree from a class C to a class B felony; and
- (4) Increase unauthorized computer access in the third degree from a misdemeanor to a class C felony.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the University of Hawaii System.

Your Committee finds that as society becomes increasingly reliant on the Internet for the storage and transfer of valuable and confidential information, it becomes equally tempting for would-be "hackers" to access computer networks and information systems without authorization. Expanding internet connectivity and the proliferation of mobile devices, such as tablets and smartphones, combined with the modern ease of creating or obtaining malware, have resulted in the rapid growth of online criminal activity.

Your Committee further finds that stricter penalties for unauthorized computer access will not only present a stronger deterrent for unauthorized computer access, but also emphasize to the public and would-be offenders that these types of activities will not be tolerated.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2066 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2149 Water, Land, and Housing on S.B. No. 2667

The purpose and intent of this measure is to establish a joint legislative committee on water security to delineate the meaning of water security and establish benchmarks to track improvements in water security in order to provide for reliable, adequate, and sustainable water systems to meet current and future agricultural and population needs.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation, Hawaii Cattlemen's Association, Alexander & Baldwin, Big Island Farm Bureau, and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that changing climate conditions make water security one of the most important issues facing farmers and ranchers. Agriculture's long-term success is almost completely dependent upon water and farmers and ranchers need assurances of their access to water. Thus, establishing a water policy that provides crops and livestock with a dependable source of affordable water will support and sustain agricultural operations in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2667 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2150 Water, Land, and Housing on S.B. No. 2740

The purpose and intent of this measure is to increase the revenue bond authorization of the housing loan and mortgage program, known as the Hula Mae multifamily program, from \$500,000,000 to \$750,000,000.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and the Office of Hawaiian Affairs.

Your Committee finds that the Hula Mae multifamily program is a pivotal financing tool that provides for the development or preservation of affordable rental projects through the issuance of mortgage revenue bonds for interim or permanent financing at below-market interest rates. Hawaii is in need of affordable housing, and the lack of sufficient affordable housing creates instability for many families.

Your Committee also finds that the Hawaii Housing Finance and Development Corporation's ability to issue these bonds is subject to the State's annual bond cap and approval of the Department of Budget and Finance. Since its first bond issuance, the Hula Mae multifamily program has provided \$292,432,699 in revenue bond proceeds for 2,445 affordable rental units, and an additional 722 units have been approved and are pending bond issuance. These additional units are requesting \$123,850,000 in financing from Hula Mae, leaving \$83,717,301 in uncommitted bond authority. The need for additional bond authority is critical. The passage of this measure would allow for continued assistance in the development and preservation of affordable rental housing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2740, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2740, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2151 Water, Land, and Housing on S.B. No. 2857

The purpose and intent of this measure is to authorize the State to issue special purpose revenue bonds and use the proceeds from the bonds to assist dam and reservoir owners.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Budget and Finance, Land Use Research Foundation of Hawaii, Grove Farm, Hawaii Cattlemen's Council, Alexander and Baldwin, and one private individual.

Your Committee finds that over eighty percent of the dams in Hawaii were constructed before 1940 to support sugar cane plantations. Due to the age of these facilities, deferred maintenance, and lack of safety improvements, many dams and reservoirs pose risks to life and property. Through the implementation of the Dam and Reservoir Safety Act of 2007 and other rules and regulations, dam and reservoir owners are now required to bring their facilities up to current engineering standards. However, the additional costs required to meet the new safety and regulatory requirements may create an undue financial burden on the owners, the majority of whom are farmers or agricultural operations that rely on these facilities for their livelihood.

Your Committee further finds that these dams and reservoirs serve as a valuable water source for Hawaii's agricultural industry and provide other significant benefits to the general public. Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2857, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Fukunaga).

SCRep. 2152 Human Services on S.B. No. 2140

The purpose and intent of this measure is to require Medicaid recipients to complete an advance health care directive form.

Your Committee received testimony in support of this measure from the Department of Human Services, the Consumer Family and Youth Alliance, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Disability Rights Center and one individual.

Your Committee finds that discussing advance health care directives with family members and primary care providers is important for end-of-life care and implementing end-of-life wishes. However, your Committee also finds that mandating only Medicaid recipients to prepare advance health care directive forms, as proposed in this measure, appears discriminatory. According to testimony, requiring completion of an advance health care directive for Medicaid eligibility would be a federal maintenance of effort violation that could jeopardize approximately \$500,000,000 in federal funding for Medicaid.

Your Committee has therefore amended this measure by:

- (1) Deleting the language requiring Medicaid recipients to complete an advance health care directive form;
- (2) Requiring the Department of Human Services to offer the option of completing the advance health care directive form and providing an advance health care directive form to Medicaid recipients;
- (3) Permitting Medicaid recipients to submit completed advance health care directives to the recipient's primary health care provider; and
- (4) Deleting language requiring that a directive that conflicts with an earlier directive revokes the earlier directive, as that provision already exists in section 327G-4, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2140, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2153 Human Services on S.B. No. 2661

The purpose and intent of this measure is to include among the Department of Human Services' general duties, the provision of health care preventative services to improve wellness, subject to the appropriation of state funds and available federal matching assistance.

Your Committee received testimony in support of this measure from the Department of Human Services, the Consumer Family & Youth Alliance, and one individual.

Your Committee finds that preventative services and screenings can help individuals live longer, healthier lives, and are an important part of the health and well-being of Hawaii's community.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2661 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2154 (Joint) Energy and Environment and Public Safety, Government Operations, and Military Affairs on S.B. No. 2281

The purpose and intent of this measure is to allow agencies or applicants to bypass the preparation of an environmental assessment and proceed directly to the preparation of an environmental impact statement in situations where the responsible agency determines that an environmental impact statement is likely to be required for a proposed action.

Your Committees received testimony in support of this measure from the Office of Environmental Quality Control, Office of Planning, University of Hawaii Environmental Center, The Chamber of Commerce of Hawaii, The Outdoor Circle, and one individual. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Pursuant to Act 1, Session Laws of Hawaii 2008, the University of Hawaii conducted a review of the State's environmental review system. In its report released in October 2010, the University of Hawaii recommended allowing project proponents to bypass the environmental assessment process and proceed to environmental impact statement preparation when warranted. In conjunction with that review, a working group composed of state agencies, a private trade organization, and several nonprofit groups also conducted a review of Hawaii's environmental review system. The working group unanimously recommended allowing project proponents to bypass the environmental assessment process and proceed to environmental impact statement preparation.

Your Committees find that bypassing the environmental assessment in certain situations will improve the efficiency of the environmental review process and speed the progress of proposed actions.

Your Committees have amended this measure by adopting the amendments proposed by the Office of Environmental Quality Control, which:

- (1) Add definitions for the terms “direct to environmental impact statement decision” and “direct to environmental impact statement notice”;
- (2) Replace the term “environmental impact statement publication notice” with “direct to environmental impact statement notice”;
- (3) Clarify that the Office of Environmental Quality Control is required to inform the public of the filing of any direct to environmental impact statement decision;
- (4) Create a sixty-day deadline for initiating a judicial proceeding to review:
 - (A) An agency’s direct to environmental impact statement decision; and
 - (B) The acceptance of an environmental impact statement prepared pursuant to a direct to environmental impact statement decision; and
- (5) Increase from thirty days to sixty days the deadline for initiating a judicial proceeding to review an agency’s determination that an environmental impact statement is not required for a proposed action.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2281, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2281, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2155 (Joint) Energy and Environment and Public Safety, Government Operations, and Military Affairs on S.B. No. 2288

The purpose and intent of this measure is to establish a two-year pilot program exempting state agencies from the state procurement code solely for the execution of energy savings performance contracts using the negotiated partner approach.

Your Committees received testimony in support of this measure from Honeywell and one individual.

Your Committees find that implementing the negotiated partner approach proposed in this measure is in the best interests of the people of Hawaii. The negotiated partner approach will enable state agencies to contract with vendors more quickly than they are able using the existing state procurement process. As a result, state agencies will begin to reduce their energy costs sooner than they otherwise would. Energy savings performance contracts improve energy efficiency, reduce state operating costs, create local “green collar” jobs, and provide opportunities for partnerships between unions, state agencies, and local businesses.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2288 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 1 (Green).

SCRep. 2156 Commerce and Consumer Protection on S.B. No. 2768

The purpose and intent of this measure is to eliminate the underlying producer license requirement for applying for and obtaining a surplus lines broker license; provide greater clarity and consistency in licensing insurance producers selling annuity products; and clarify reinsurance intermediary licensing requirements and remove unnecessary licensing conditions.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, National Association of Insurance and Financial Advisors Hawaii, and Asurion. Your Committee received comments on this measure from the American Council of Life Insurers.

Your Committee finds that the National Association of Insurance Commissioners has requested that all states issue stand-alone surplus lines broker licenses. The amendments proposed by this measure comply with this request and eliminate the producer license prerequisite for an applicant who wishes to obtain a surplus lines broker license.

Your Committee further finds that this measure streamlines the licensing requirements for reinsurance intermediaries. Under this measure, licensed reinsurance intermediaries will no longer have to file proof of bond, the errors and omissions policy, and the contract with the insurer and will instead be required to produce these documents upon the Insurance Commissioner’s request.

Your Committee also finds that this measure provides clarity and consistency in the licensing of insurance producers selling annuity products in the State, and permits the Insurance Commissioner to order restitution for violations of the Insurance Code.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2157 Transportation and International Affairs on S.B. No. 2871

The purpose and intent of this measure is to prohibit texting while operating a commercial motor vehicle and to prohibit operating a commercial motor vehicle without a commercial driver's license in that person's possession.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and the Hawaii Transportation Association. Comments were received from General Motors and Alliance of Automobile Manufacturers.

Your Committee finds that beginning on August 1, 2011, federal regulations regarding commercial driver's licenses:

- (1) Require that a driver have in the driver's possession a commercial driver's license while operating a commercial vehicle; and
- (2) Prohibit texting while driving.

Federal regulations also require that a state must substantially comply with the requirements in this measure as soon as practical but not later than October 28, 2013. Failure to enact the changes could result in a substantial loss of federal-aid highway funds for the first year of noncompliance and for each year thereafter that a state remains in noncompliance.

Your Committee has amended this measure by:

- (1) Excluding from the definition of texting the use of hands-free or voice operated technology, including the pressing of a button to initiate or terminate the operation of the technology;
- (2) Excluding from the definition of electronic device a device that is physically or electronically integrated into the motor vehicle; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2871, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2871, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2158 (Majority) Commerce and Consumer Protection on S.B. No. 2760

The purpose and intent of this measure is to adjust bond requirements for escrow depositories, amend fines for violations of escrow depository regulations, and amend the fee structure for services provided by the Division of Financial Institutions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from Title Guaranty Escrow Services, Inc.

Your Committee finds that the Division of Financial Institutions in the Department of Commerce and Consumer Affairs is responsible for ensuring that customers of escrow depositories receive the services for which they contracted. Your Committee further finds that escrows by customers are growing in size, and that bonding requirements should more closely coincide with the escrow account amounts. This measure proposes to raise the amount of the bonds required to more accurately reflect today's escrow transaction amounts. This measure also authorizes the Division of Financial Institutions to penalize a company for any violation of escrow depository regulations, rather than having to prove a violation was committed willfully.

Your Committee further finds that the Division of Financial Institutions must annually review escrow depositories' applications for license renewal. The fees for renewal must cover the time spent in renewing the licenses, as well as time spent on matters for which no fees are paid, including reviewing audited financial statements; reviewing renewals and replacements of escrow depository bonds, errors and omissions insurance, fidelity bonds, and capital bonds; responding to inquiries; and processing complaints.

Your Committee additionally finds that the fees assessed by the Division of Financial Institutions are low, have not been significantly reviewed or adjusted since 1987, and are not in line with what other states charge. The fees proposed by this measure have been adjusted to reflect the time spent by staff to review requests and provide services for escrow depositories.

The Division of Financial Institutions has indicated that the increase in fees is based on the Division's need to show a stable source of income for the upcoming accreditation review by the Conference of State Bank Supervisors. The Division is seeking additional fees in an attempt to replace and expand its funding source should the Division not receive its share of the franchise tax. Although the franchise tax revenue for a fiscal year is credited to the Division's fund as of June 30, the revenue is not deposited into the fund until July of the following fiscal year. This requires the Division to have thirteen months of cash reserves in its fund to meet its total operations need for the fiscal year.

The Division of Financial Institutions reviewed various states to determine which fees should be assessed for services provided, and reviewed the type of services provided to escrow companies in light of new federal laws and rules. The Division then focused on four areas of fee adjustments: new companies establishing a new escrow depository; new mergers, acquisitions, or changes in control of an existing escrow company; new branches or relocation of branches; and bond requirements.

The Division of Financial Institutions based its fees on the time spent reviewing applications from escrow depositories at the rate of \$60 an hour. The Division notes that this rate is a fraction of the actual costs for staff time spent on reviewing applications from escrow depositories and does not include overhead costs.

The Division of Financial Institutions estimates additional revenues of \$80,000 based on the proposed annual renewal fees in this measure. The Division currently receives \$3,050 in annual fees.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2760 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 2159 (Majority) Commerce and Consumer Protection on S.B. No. 2761

The purpose and intent of this measure is to establish or amend the regulatory fees charged by the Division of Financial Institutions for the review and analysis of financial institution requests.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association and the Hawaii Financial Services Association.

Your Committee finds that the Division of Financial Institutions provides numerous services for the State's financial institutions and the public, including regulatory oversight review. Your Committee further finds that the fees for the regulation of financial institutions have not been reviewed since the 1993 recodification of the financial institution laws. The new fee structure proposed by this measure comports with the regulatory oversight by the Division of Financial Institutions as federal and state laws and financial institution company organizations become more complex to review and analyze.

The Division of Financial Institutions has indicated that the increase in fees is based on the Division's need to show a stable source of income for the upcoming accreditation review by the Conference of State Bank Supervisors. The Division is seeking additional fees in an attempt to replace and expand its funding source should the Division not receive its share of the franchise tax. Although the franchise tax revenue for a fiscal year is credited to the Division's fund as of June 30, the revenue is not deposited into the fund until July of the following fiscal year. This requires the Division to have thirteen months of cash reserves in its fund to meet its total operations need for the fiscal year.

The Division of Financial Institutions reviewed various states to determine which fees should be assessed for services provided, and reviewed the type of services provided to financial institutions in light of new federal laws and rules. The Division then determined that fees should be assessed for five general categories: new companies establishing a new financial institution; new mergers, acquisitions, or changes in control of an existing financial institution; new branches or relocation of branches; requests to offer services national banks offer; and requests to extend or offer services not currently allowed under state charter.

The Division of Financial Institutions based its fees on the time spent reviewing and analyzing financial institution requests at the rate of \$60 an hour. The Division noted that the trend in states is to assess an hourly charge for any service requested; approximately nineteen states assess an hourly charge of \$90 to \$120 an hour to process every request.

Your Committee has heard the concerns that the fees increases proposed by this measure may seem inordinately high. Concerns were raised about the annual fee percentage increase and its effect on the newest and smallest Hawaii-headquartered banks, and about the increase in hourly rates for reviewing and analyzing requests. Your Committee understands these concerns and finds that certain adjustments to fees should be made. Your Committee also understands that the Division of Financial Institutions must be self-sustaining and a change in fee structure is therefore required.

Your Committee has amended this measure by:

- (1) Changing from \$1,000 to \$700 the fee to establish a new branch of a financial institution;
- (2) Changing from \$1,000 to \$700 the fee for the relocation of a principal office, branch, or agency;
- (3) Changing from \$2,000 to \$1,000 the fee to review a wild card application, wherein the Division of Financial Institutions reviews national and state laws to determine if a state chartered bank may engage in a certain banking activity;
- (4) Amending the annual tiered fee structure the Insurance Commissioner may charge, to allow new banks to be assessed a lower annual renewal fee; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Division of Financial Institutions estimates additional revenues of \$155,000 based on the provisions in this measure that increase the annual renewal fee for financial institutions. The Division currently receives \$35,100 in annual fees.

Your Committee also notes that the amendments to this measure are the result of a compromise between the Division of Financial Institutions and Hawaii Bankers Association.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2761, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2761, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 2160 Commerce and Consumer Protection on S.B. No. 2168

The purpose and intent of this measure is to direct the Insurance Commissioner to join the Surplus Lines Insurance Multi-State Compliance Compact and enact the Surplus Lines Insurance Multi-State Compliance Compact.

Your Committee received testimony in support of this measure from the National Conference of Insurance Legislators, Property Casualty Insurers Association of America, and Excess Line Association of New York. Your Committee received comments on this

measure from the Insurance Division of the Department of Commerce and Consumer Affairs and the National Association of Professional Surplus Lines Offices, Ltd.

Your Committee finds that Congress, in the federal Nonadmitted and Reinsurance Reform Act of 2010, intended for the states to adopt uniform requirements, forms, and procedures to facilitate the reporting, payment, collection, and allocation of premium taxes for surplus lines insurance. Your Committee further finds that participation in a multi-state compact is essential for the Insurance Division to continue to collect premium taxes on multistate surplus lines policies. Your Committee notes that \$8,000,000 to \$10,000,000 is collected annually on surplus lines policies.

Your Committee additionally finds that the preferred multi-state arrangement is the Surplus Lines Insurance Multi-State Compliance Compact, or SLIMPACT. Your Committee also finds that SLIMPACT has the support of all three national state government associations: the National Conference of Insurance Legislators, the Council of State Governments, and the National Conference of State Legislatures. SLIMPACT has also been endorsed by the surplus and excess lines industry and major national property-casualty and producer organizations.

Your Committee notes that when this measure is enacted, Hawaii will be the tenth state to join SLIMPACT. Hawaii's membership will put SLIMPACT over its ten state threshold and will allow the compact to become fully operational.

Your Committee also notes that the Nonadmitted and Reinsurance Reform Act requirements took effect on July 21, 2011. It is imperative that states act quickly to address the requirements of the Act. Your Committee finds that if states are unable to adopt a comprehensive solution as intended by the Act, Congress could take further action. This could result in a loss of vital premium tax revenue, further federal preemption, and possible federal oversight in the business of insurance.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2168, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2168, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7, Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2161 Hawaiian Affairs on S.B. No. 2793

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to suspend administrative rules for the purpose of awarding a lease to a native Hawaiian who has waited for a lease award for twenty years or more.

Your Committee received testimony in support of this measure from the Department of Hawaiian Homelands, Sovereign Councils of the Hawaiian Homelands Assembly, Kewalo Hawaiian Homestead Association, Nanakuli Hawaiian Homestead Community Association, Waianae Kai Hawaiian Homestead Association, the Association of Hawaiian Civic Clubs, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs and Aupuni o Hawaii.

Your Committee finds that there are over twenty thousand applicants for Hawaiian home lands lease awards, nearly one-third of whom have waited twenty years or more for a lease award. As individuals who applied for lease awards age, lease awards on some of Hawaii's most desolate, remote lands, on large houselots, may no longer be suitable for those senior citizens. Your Committee also finds that the Department of Hawaiian Home Lands is exploring various types of housing, including multi-generational and senior housing, and to allow for the suspension of the administrative rules to make viable housing options accessible to applicants who applied for lease awards no less than twenty years ago.

Your Committee has amended this measure by:

- (1) Amending the effective date to allow the Department of Hawaiian Home Lands to suspend administrative rules until June 30, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2793, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2793, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 2162 Hawaiian Affairs on S.B. No. 2669

The purpose and intent of this measure is to amend the deadline for filing nomination papers for a vacancy in the membership of the Board of Trustees of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk, County of Kauai; and Office of the County Clerk, County of Maui. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds the State risks violating federal election laws during this year's Office of Hawaiian Affairs Board of Trustees vacancy election. The National Defense Authorization Act for Fiscal Year 2010, Public Law No. 111-84, requires mailing absentee

ballots to uniformed and overseas voters no later than forty-five days prior to an election. Under existing state law, candidates for the vacancy election may file their candidacy papers up to fifty days prior to a general election. By placing the deadline for candidates to file at sixty days prior to the general election, which this measure proposes, the Office of Elections will have a sufficient amount of time within which to print and mail ballots to overseas and uniformed voters, and will not risk violating the federal election law.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2669 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 2163 Economic Development and Technology on S.B. No. 2108

The purpose and intent of this measure is to limit to retail basic exchange services the services for which a telecommunications carrier must obtain approval from the Public Utilities Commission, in order to charge a rate higher than the filed tariff rate.

Your Committee received testimony in support of this measure from Hawaiian Telcom. Your Committee received testimony in opposition to this measure from the Consumer Advocate. Your Committee received comments on this measure from the Public Utilities Commission and TW Telecom, Inc.

Your Committee finds that while the intent of the measure may be to seek consistency with the treatment of intrastate telecommunications services relating to costs, rates, and pricing, it is not clear what is covered by “basic exchange services”. Adding a definition of the term will help clarify the intention of this measure, and will assist the Public Utilities Commission and Hawaii’s telecommunications carriers obtain a better understanding of the statutory requirements.

Your Committee has amended this measure accordingly, by adding a definition of “basic exchange service”.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2108, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2108, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2164 Economic Development and Technology on S.B. No. 2222

The purpose and intent of this measure is to address the problem of “sexting”, which involves minors taking nude pictures and videos of themselves or other minors, and transmitting the nude images to others by use of a cell phone or other form of electronic communication, by prohibiting:

- (1) Adults from soliciting minors to electronically transmit nude images of minors;
- (2) Minors from electronically transmitting nude images of themselves or other minors, or soliciting other minors to do so; and
- (3) Persons from possessing a nude image transmitted by a minor, but making it an affirmative defense that the recipient made reasonable efforts to destroy the transmitted nude image.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawaii.

Your Committee finds that the electronic transmission of youth-produced sexual pictures and videos, frequently referred to as “sexting”, is a growing problem, particularly because the images can be shared with many people almost instantaneously. Once transmitted, the original transmitter has very limited ability to control or prevent further dissemination. Your Committee further finds that the images may be used as a commodity for exchange, and the threatened dissemination of these images may be used as leverage against the subject to force the subject to engage in behaviors that may cause embarrassment, at minimum, and possible mental or emotional harm.

Your Committee has amended this measure by:

- (1) Changing the effective date from upon approval to July 1, 2012; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2222, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2165 Economic Development and Technology on S.B. No. 2235

The purpose and intent of this measure is to incorporate recommendations of the Hawaii Broadband Task Force in the Hawaii State Plan, by requiring the State to promote broadband services as critical infrastructure for twenty-first century communications and encourage the public and private sectors to ensure that every home and business in the State has access to broadband service at prices comparable to those in leading economies of the world, for educational, economic, social, cultural, and medical advancement by 2018.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, High Technology Development Corporation, University of Hawaii System, and Media Council Hawaii.

Your Committee finds that the importance of broadband to the educational, economic, social, cultural, and medical well-being of Hawaii's citizens in the twenty-first century is now well-understood and incontrovertible. While there may be differences of opinion about the level of services necessary and the means to achieve them, your Committee believes that this measure would establish a shared visionary objective.

Your Committee further finds that establishing this shared vision through codification in the Hawaii Revised Statutes will provide a focus for collaborative efforts to identify and execute specific next steps to bring the vision to fruition.

Your Committee has amended this measure by requiring the Department of Business, Economic Development, and Tourism to report annually to the Governor and the Legislature on the status of efforts to promote broadband services as critical infrastructure for twenty-first century communications and encourage the public and private sectors to ensure that every home and business in the State has access to broadband service.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2235, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2166 Economic Development and Technology on S.B. No. 2563

The purpose and intent of this measure is to extend the deadlines for the Director of Finance to:

- (1) Establish an accessible searchable website that provides certain state award information, from January 1, 2009, to January 1, 2013;
- (2) Establish and implement a pilot program to test the collection and accession of data about subgrants and subcontracts and determine how to implement a subaward reporting program across the State, from July 1, 2008, to January 1, 2013; and
- (3) Terminate the pilot project, from January 1, 2010, to July 1, 2014.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the previous administration made a policy decision not to implement the website and pilot project required under section 36-2.5, Hawaii Revised Statutes, due to fiscal and staffing constraints, as well as technical concerns. Given that decision, your Committee is in agreement with the Director of Finance that extending the start and end dates for the pilot project by an additional year would be more realistic. Your Committee has also considered the Director's request to transfer responsibility of this project to the State's Chief Information Officer, as the Chief Information Officer is a more appropriate authority for this project.

Your Committee has amended this measure accordingly, by:

- (1) Changing the implementation date of the pilot program to test the collection and accession of data about subgrants and subcontracts and determine how to implement a subaward reporting program across the State, to January 1, 2014; and the termination date for the pilot project to July 1, 2015; and
- (2) Replacing the Director of Finance and the Department of Budget and Finance with the Chief Information Officer, as the entity responsible for establishment of the searchable website and pilot project.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2563, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2167 (Joint) Economic Development and Technology and Public Safety, Government Operations, and Military Affairs on S.B. No. 2774

The purpose and intent of this measure is to simplify distribution in response to changes in technology and to reduce printing, workload, and delivery costs for all agencies by:

- (1) Requiring an agency to notify the State Publications Distribution Center, established within the public library system, with identification and location information for electronic publications;
- (2) Reducing the number of print copies required to be deposited with the State Publications Distribution Center; and
- (3) Deleting the Board of Education's rulemaking authority regarding the State Publications Distribution Center.

Your Committees received testimony in support of this measure from the Office of Information Management & Technology and the Hawaii State Public Library System.

Your Committees find that this measure is in alignment with the information technology strategic plan currently under development by the administration. Providing government publications in electronic versions will not only reduce printing, workload, and delivery costs, but will also promote government transparency, increase public access to information, and preserve documents in the digital domain in a searchable manner for future reference and analysis. Your Committees further find that user comments have indicated that seven copies are sufficient for most publications, and this measure would allow the State Publications Distribution Center to request

more copies when appropriate while also relieving the center of the burden of handling unneeded materials and agencies from printing and delivering more copies than are useful.

Your Committees have also requested information from the Chief Information Officer, regarding a time frame for implementation if the requirement to deposit hard copies of documents with the State Publications Distribution Center was amended to require only that the center be notified when an electronic publication was posted online.

Your Committees have amended this measure accordingly, by:

- (1) Requiring the Chief Information Officer, with the assistance of the Office of Information Management and Technology and the Hawaii State Public Library System, to review the technology, personnel, training, fiscal, and other requirements necessary to implement a program through which state and county agencies would make all of their publications available in electronic format for online distribution, and to submit the findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2774, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2774, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 3 (Ryan, Solomon, Slom).

SCRep. 2168 Economic Development and Technology on S.B. No. 2780

The purpose and intent of this measure is to appropriate monies for the business and technology transformation initiative to prepare the State for the larger transformation activities that will be defined in the forthcoming information technology strategic plan.

Your Committee received testimony in support of this measure from the Office of the Governor and the Office of Information Management and Technology.

Your Committee finds that the Office of Information Management and Technology has been developing the statewide business transformation and information technology strategic plan, which is anticipated to be delivered in July 2012. The plan will provide a roadmap and prioritize projects over a ten-year span for implementation in two-year increments to coincide with the biennium budget timeline. Your Committee understands that while many of the projects will not be funded until the 2013-2014 fiscal year, the Office of Information Management and Technology has outlined a number of initiatives for fiscal year 2012-2013, including:

- (1) Triage Projects. \$3,400,000 to ensure continuity of day-to-day critical business operations for government services;
- (2) Business and Information Technology Reengineering. \$5,000,000 for projects that relate to business process and information technology reengineering, as well as management and oversight of information technology acquisitions;
- (3) Pilot Integration Projects. \$1,800,000 for implementation of pilot integration projects that take advantage of new technologies to increase operational capabilities or enhance current processes, resulting in reduced costs, increased employee productivity and process efficiencies, improved information assurance and cyber security standards, and enhanced capabilities and capacity; and
- (4) Statewide Financial, Acquisition, and Human Resource Management System. \$15,000,000 for capital improvement projects through the issuance of general obligation bonds in fiscal year 2013 to develop an integrated statewide financial, acquisition, and human resources management system that will be used by all departments and agencies.

Your Committee is supportive of these efforts in support of the statewide business transformation and information technology strategic plan, as a means of providing better services to the public and achieving greater efficiencies by government agencies.

Your Committee has amended this measure by extending the lapse date of the capital improvement project appropriation to June 30, 2014, and making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2780, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Baker).

SCRep. 2169 Health on S.B. No. 416

The purpose of this short form bill is to amend the law relating to health.

Your Committee has amended this measure by inserting language that authorizes the Hawaii Health Systems Corporation to bring the Hawaii Medical Center East facility under its governance through formal affiliation, acquisition, or both, and to appropriate the necessary funding.

Prior to amending this measure, a proposed S.D. 1 was prepared and made available for public review.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 416, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 416, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Wakai, Slom).

SCRep. 2170 (Joint) Transportation and International Affairs and Commerce and Consumer Protection on S.B. No. 2011

The purpose and intent of this measure is to create a driver exclusion endorsement to enable a named insured to exclude specified persons from being covered under a motor vehicle insurance policy.

Your Committees received testimony in support of this measure from State Farm Insurance Companies. Testimony in opposition was submitted by the Department of Commerce and Consumer Affairs, Hawaii Association for Justice, and Hawaii Independent Insurance Agents. Comments were received from the Hawaii Insurers Council.

Your Committees find that Hawaii insurance laws do not provide the option of excluding drivers in the household from coverage. For example, if one driver in a household of six insured drivers is convicted of operating a vehicle under the influence of an intoxicant, the insurance for that household would be increased because of that one driver. In states that allow driver exclusion agreements, insurers have been able to minimize the impact on the remaining household drivers by allowing certain drivers in the household to be excluded from coverage under the policy. As a result of Hawaii's insurance laws, insureds are faced with two choices--retain the policy for the entire household with an adverse driver or cancel the policy for the entire household and seek other independent insurance. Canceling the policy is not a viable option since it would mean going uninsured and contributing to the uninsured motorist problem. This situation is particularly common in Hawaii households with its multiple-generational families.

Your Committees believe that this measure will provide rate reductions to multiple occupant households whose premiums are based on number of persons in the household without regard to the driving record of any single individual. The broad coverage is due to the language of the policy to cover all members living in the same household who must be related. The typical hypothetical situation that this measure would address is the presence of a reckless son or daughter in the household of the named insured parent. An accident involving that son or daughter would raise the premium multi-fold. By excluding that son or daughter, the premium should manifestly decrease.

Your Committees remain concerned that this measure may curtail the benefits of the broad coverage currently offered for Hawaii motor vehicle insurance policies. The underlying purpose of Hawaii's motor vehicle insurance law is to encourage participation of all of Hawaii's drivers, rather than being selective about which drivers to include or exclude. This measure may increase the number of uninsured drivers on the road or force excluded drivers into the joint underwriting plan.

Your Committees have amended this measure by:

- (1) Clarifying language to conform with the technical terminology of insurance underwriting;
- (2) Providing that a named insured that has rejected in writing the offer of uninsured motorist coverage under a motor vehicle insurance policy shall not be entitled to the rights of claim and action against the assigned insurer, with reference to the mandatory bodily injury liability policy for accidental harm;
- (3) Disqualifying coverage to an excluded operator of a motor vehicle for an accident out of which the excluded operator's accidental harm arose;
- (4) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2011, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2011, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Ayes, 12; Ayes with Reservations (Espero, Gabbard, Kahele). Noes, none. Excused, 1 (Galuteria).

SCRep. 2171 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2224

The purpose and intent of this measure is to clarify that:

- (1) Judgments are also valid claims for purposes of encumbrances recorded in the tax lien and encumbrance record; and
- (2) State and county agencies are not required to pay a fee for the recording of an entry in the tax lien and encumbrance record.

Your Committees received testimony in support of this measure from the Department of Taxation. Comments were received from the Honolulu Licensing Administrator.

Your Committees find that there is a need to expand the ability of state and county agencies to pursue reimbursement of outstanding debts since many debtors ignore payment obligations and recovery efforts by state and county agencies. Encumbrances on real property and motor vehicles are an effective mechanism to increase the likelihood of recovering outstanding debts.

State and county agencies may record liens or claims with the Director of Finance of each county, but are required to pay a statutory fee that is deposited into the general fund. Your Committees further find that the fee is hindering some agencies from utilizing the tax lien and encumbrance record to assist in recovery of outstanding debts owed to the agency.

Your Committees have amended this measure by:

- (1) Allowing the taxpayer to enter into a payment agreement with the Department of Taxation to avoid a lien and encumbrance recordation;
- (2) Requiring state and county agencies to provide the Director of Finance the license plate number or vehicle identification number in order to be exempt from the payment of the filing fee for the lien and encumbrance; and
- (3) Making conforming amendments to the purpose section.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2224, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2224, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 4 (Dela Cruz, Hee, Kidani, Slom).

SCRep. 2172 Hawaiian Affairs on S.B. No. 2790

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to begin development of or construction for housing and other projects without having the full amount of the cost of the projects on hand at the start of the projects.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Sovereign Councils of the Hawaiian Homelands Assembly, Kewalo Hawaiian Homestead Association, Nanakuli Hawaiian Homestead Community Association, Waianae Kai Hawaiian Homestead Association, Association of Hawaiian Civic Clubs, and two individuals.

Your Committee finds that eliminating the Department of Hawaiian Home Lands' tools for creating new, affordable housing is contrary to the interests of Hawaiian home lands applicants. Act 187, Session Laws of Hawaii 2010, created financing tools for the Department of Hawaiian Home Lands to create new, affordable housing for its beneficiaries. The Department of Hawaiian Home Lands anticipates using the financing tools created by Act 187 to manage a number of upcoming projects within the next three years.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hee, Slom).

SCRep. 2173 (Majority) Commerce and Consumer Protection on S.B. No. 2202

The purpose and intent of this measure is to prohibit any employer or employment agency from publishing a job advertisement that states or suggests that an applicant for the job must be currently employed.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; International Longshore and Warehouse Union, Local 142; Pride at Work Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Civil Rights Commission. Your Committee received comments on this measure from the City and County of Honolulu Department of Human Resources and the Chamber of Commerce of Hawaii.

Your Committee finds that there is growing concern over an emerging national trend, where increasing numbers of employers and employment services run job advertisements that state applicants must be currently employed to apply. The unemployment rate in Hawaii has remained at over six percent for almost three years, and job postings that explicitly reference the employment status of applicants only hinder the efforts of unemployed persons to reenter the job market.

Your Committee further finds that the employment practice of employers or employment agencies publishing or causing to be published advertisements that exclude the unemployed from consideration for a job vacancy is against public policy. Although this exclusionary employment practice may not be prevalent in Hawaii, your Committee finds that an affirmative approach is warranted because that type of employment practice violates public policy.

Your Committee therefore concludes that a study and report on whether employers and employment agencies are engaging in this exclusionary employment practice in the State is the most appropriate method to confront this emerging employment issue.

Accordingly, your Committee has amended this measure by replacing its contents with language that:

- (1) Directs the Legislative Reference Bureau to conduct a study and gather information and data on whether employers and employment agencies are engaging in employment practices that exclude the unemployed from qualified applicant pools considered for employment in the State;
- (2) Requires the Legislative Reference Bureau to include in the study a review and survey of job notices and job advertisements that exclude the unemployed from consideration for a job vacancy, and a count of any complaints involving these practices that are filed with the Hawaii Civil Rights Commission;
- (3) Requires the Hawaii Civil Rights Commission to provide assistance and information as necessary to the Legislative Reference Bureau; and
- (4) Requires the Legislative Reference Bureau to submit a report of its findings, including examples of any posted notices or published advertisements that exclude the unemployed from consideration for a job vacancy, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013.

This measure intends to send the message that it is an unacceptable employment practice to discriminate in job postings and advertisements against someone who does not have a job.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2202, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 2174 (Majority) Commerce and Consumer Protection on S.B. No. 2763

The purpose and intent of this measure is to amend the Secure and Fair Enforcement for Mortgage Licensing Act, chapter 454F, Hawaii Revised Statutes, to reflect recent changes in federal law and adjust fees in consideration of new regulatory requirements.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Association of Mortgage Brokers.

Your Committee finds that the United States Department of Housing and Urban Development announced the final rule setting standards for state compliance with the federal Secure and Fair Enforcement for Mortgage Licensing Act of 2008. Your Committee further finds that the final rule clarifies licensing requirements related to nonprofit organizations and certain mortgage servicer employees. The amendments proposed by this measure are designed to keep state law current with federal law and guidelines.

Your Committee also finds that this measure adds fees for newly established regulatory services and adjusts fees for initial application and annual license renewals for mortgage loan originators, mortgage loan originator companies, and exempt sponsoring mortgage loan originator companies. Your Committee notes that the mortgage loan originator program began in 2010. At the end of calendar year 2011, the Division of Financial Institutions regulated approximately 840 mortgage loan originators and approximately 240 mortgage loan originator companies. However, because the initial projections for the budget were based on 3,000 licensees, the current fee levels do not permit the program to be self-sustaining.

The Division of Financial Institutions has indicated that the increase in fees is based on the Division's need to show a stable source of income for the upcoming accreditation review by the Conference of State Bank Supervisors. The Division is seeking additional fees in an attempt to replace and expand its funding source should the Division not receive its share of the franchise tax. Although the franchise tax revenue for a fiscal year is credited to the Division's fund as of June 30, the revenue is not deposited into the fund until July of the following fiscal year. This requires the Division to have thirteen months of cash reserves in its fund to meet its total operations needs for the fiscal year.

The Division estimates additional revenues of \$96,000 for 2012, based on the provisions in this measure that increase the mortgage loan originator initial application and renewal fees.

Your Committee has heard the concerns that the fee increases proposed by this measure may pose hardships for sole proprietors who are licensed as a mortgage loan originator company and a mortgage loan originator. Based on testimony received by your Committee, small mortgage loan originating companies in the State may be comprised of sole owners who must pay renewal fees for themselves and their company.

According to the Division, the Nationwide Mortgage Licensing System collects fees for each state based on set parameters for mortgage loan originators, mortgage loan originator companies, branches, and exempt mortgage loan originating companies. The Division indicated that a combination rate for a sole proprietor may not be available, as the Nationwide Mortgage Licensing System is not able to program special fees for states to charge specialized licensees. However, the Division also indicated that a fee adjustment could be possible if sole proprietors paid all required fees through the Nationwide Mortgage Licensing System then requested the State to reimburse any fees the Division chose to waive.

If the mortgage loan originator fees for sole proprietors are waived, the Division estimates a projected total loss of revenue of \$31,250. This figure includes initial and renewal sole proprietor applicants. The Division estimates \$64,750 of projected net additional revenue for sole proprietors.

Your Committee requests the Division of Financial Institutions to continue to explore ways to assist sole proprietors who must file and pay fees as both a mortgage loan originator company and as a mortgage loan originator.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2763, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Slom). Excused, none.

SCRep. 2175 Ways and Means on S.B. No. 2988

The purpose and intent of this measure is to authorize the Director of Finance to restructure the debt service for state obligations; provided that any such restructuring shall take into consideration the long-term financial obligations of the State and shall not be undertaken solely to provide short-term savings.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that this measure will provide the Director of Finance with the flexibility necessary to address the long-term and short-term obligations of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2988 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2176 Judiciary and Labor on S.B. No. 2493

The purpose and intent of this measure is to make various amendments to the campaign finance laws. More specifically, this measure:

- (1) Adds a definition for “matching payment period”;
- (2) Amends the filing deadlines for preliminary and supplemental campaign spending reports to align with existing law or present practice;
- (3) Requires noncandidate committee reports to include the aggregate totals of contributions received and contributions made by noncandidate committees, and identify candidates supported or opposed by independent expenditures;
- (4) Requires candidates to file the affidavits stating voluntary agreement to abide by spending limits at the time nomination papers are filed; and
- (5) Increases the prosecuting attorney’s campaign expenditure limit.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. The League of Women Voters of Hawaii and Common Cause Hawaii submitted comments.

Your Committee finds that this measure proposes to make several amendments to the campaign finance laws. Adding a definition for “matching payment period” will allow the Campaign Spending Commission staff to better implement the partial financing program. Amending the filing deadline for preliminary campaign spending reports will avoid back-to-back filing deadlines for candidates for their first and second preliminary primary campaign spending reports, and align accordingly with the August primary election date. Adding clarifying language to require candidates to submit supplemental reports every year will align the statutory deadline with present practice. Requiring noncandidate committees to include in their committee reports the aggregate totals of contributions received and contributions made, and identification of candidates supported or opposed by independent expenditures will recognize that noncandidate committees make and receive contributions and promote greater transparency. Requiring candidates to file affidavits to abide by statutory expenditure limitations no later than the deadline to file nomination papers will allow commission staff to better implement the partial financing program, and allow candidates to receive a discount filing fee. Lastly, increasing the campaign expenditure amount of a publicly financed prosecuting attorney candidate will correct a statutory deletion that forced the commission to place the prosecuting attorney in a lower expenditure category.

Your Committee believes that the reasons for requiring candidates to file affidavits before or at the same time nomination papers are filed for a fee discount are not compelling. Existing law allows a candidate a discounted filing fee when showing a certified copy of an affidavit that indicates the candidate voluntarily agrees to abide by spending limits at the time the candidate files nomination papers. However, your Committee has concerns regarding how this discount will be recouped in the event a candidate withdraws from the election race. The Campaign Spending Commission testified that the State has this responsibility. However, your Committee believes that a recoup action may cost more than the actual discount, and questions whether this action is worth the use of the State’s resources and time.

As such, your Committee has amended this measure by:

- (1) Deleting language that requires candidates to file affidavits to abide by statutory expenditure limitations no later than the time nomination papers are filed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2493, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2177 Judiciary and Labor on S.B. No. 2304

The purpose and intent of this measure is to require state and county law enforcement agencies to adopt uniform procedures for conducting live lineups and photo lineups for eyewitness identification in an effort to improve the State’s criminal justice system.

Your Committee received testimony in support of this measure from the Office of the Public Defender; the Community Alliance on Prisons; the American Civil Liberties Union of Hawaii; the Innocence Project; and one private individual. Testimony in opposition to this measure was submitted by the Department of the Prosecuting Attorney of the City and County of Honolulu and the Maui Police Department.

Your Committee finds that the most common causes of wrongful conviction are mistaken eyewitness identification and false confessions. This measure is an effort to improve the State’s eyewitness identification procedures by adopting uniform standards that are designed to reduce erroneous identifications. However, the Department of the Prosecuting Attorney of the City and County of

Honolulu raised a number of concerns regarding this measure. The Department indicated that existing law requires that eyewitness identifications be reviewed under “totality of the circumstances” because there are many case-specific factors that need to be taken into account; thus, adopting uniform standards for eyewitness identifications may be overly restrictive and unnecessary.

Your Committee notes these concerns and encourages the City and County of Honolulu Prosecuting Attorney to work on streamlining the language in this measure as it moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2304, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2178 Judiciary and Labor on S.B. No. 2003

The purpose and intent of this measure is to:

- (1) Increase the fees for service of civil process;
- (2) Authorize private process servers who are duly qualified by law to serve as duly qualified process servers; and
- (3) Repeal the provision that prohibits the sheriff or police chief from retaining a percentage of service of process fees or expenses collected by the process server.

Your Committee received testimony in support of this measure from one private individual. The Department of Public Safety submitted comments.

Your Committee finds that the discontinuation of the Civil Section of the Sheriff Division created a need for private civil process servers. This measure increases the fees for service of civil process and authorizes private process servers to collect these fees. However, your Committee notes that the Department of Public Safety does not have legal authority and control over private process servers, nor does the department train or supervise these process servers.

As such, your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2003, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2179 Judiciary and Labor on S.B. No. 2278

The purpose and intent of this measure is to require various establishments to post in a conspicuous place a National Human Trafficking Resource Center hotline poster to protect victims from their trafficking situation.

Your Committee received testimony in support of this measure from IMUAlliance; the Polaris Project; the Pacific Alliance to Stop Slavery; and three private individuals. Testimony in opposition to this measure was submitted by one private individual. The Department of Labor and Industrial Relations submitted comments.

Your Committee finds that human trafficking is one of the fastest growing criminal industries in the world, consisting of the subjugation, recruitment, harboring, or transportation of people for the purpose of forced labor or services, or commercial sexual exploitation. The Human Trafficking Resource Center provides a twenty-four hour daily hotline to assist and protect victims in servitude. This measure provides a tool for victims to escape their trafficking situation and for members of the public to report trafficking situations and prevent further incidences of trafficking.

Your Committee has amended this measure by:

- (1) Adding massage parlors to the definition of “establishment” thereby requiring massage parlors to post the National Human Trafficking Resource Center hotline;
- (2) Decreasing the fine for violations from \$10,000 to \$1,000;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2278, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2180 Judiciary and Labor on S.B. No. 2214

The purpose and intent of this measure is to clarify that:

- (1) The employer and exclusive representative shall negotiate the state and county contribution amounts to the Hawaii employer-union benefits trust fund for health benefit plans and group life insurance benefits for active employees and retirees;
- (2) The negotiations relating to contributions to the Hawaii employer-union benefits trust fund are subject to the impasse procedures prescribed under the collective bargaining laws; and
- (3) A decision of an arbitration panel is final and binding when parties cannot reach an agreement with respect to the amounts of contributions paid by the State to the Hawaii employer-union benefits trust fund.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the Hawaii State Teachers Association; the Hawaii Fire Fighters Association, IAFF Local 1463, AFL-CIO; and the United Public Workers, AFSCME Local 646, AFL-CIO. Testimony in opposition to this measure was submitted by the Department of Budget & Fiscal Services of the City and County of Honolulu. The Department of the Attorney General submitted comments.

Your Committee finds that the existing collective bargaining laws lack a dispute resolution procedure to resolve disagreements over the contributions to the Hawaii employer-union benefits trust fund. Existing law requires that if the employer and exclusive representative cannot agree on the amount of contributions, then the pro rata share will be determined by the Legislature while all other negotiable items may proceed to impasse. This measure will allow disputes over contributions to be treated similarly to other negotiable items and resolved through impasse procedures, such as arbitration or striking, depending on the bargaining unit involved.

Your Committee has amended this measure by:

- (1) Deleting language that allows the employer and unions to negotiate over contributions to the Hawaii employer-union benefits trust fund for retirees since retiree benefits are not subject to bargaining under existing collective bargaining laws;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2214, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2181 Health on S.B. No. 2344

The purpose and intent of this measure is to make an appropriation for the Hawaii Health Authority.

Your Committee received testimony in support of this measure from two members of the Hawaii Health Authority and one individual. Your Committee received testimony in opposition to this measure from the Office of the Governor.

Your Committee finds that funds for the Hawaii Health Authority are necessary to conduct duties required by statute and are especially needed to hire administrative staff, researchers, and consultants so that the Authority may fulfill such duties.

Your Committee has amended this measure by:

- (1) Changing the expending agency from the Department of Budget and Finance to the Office of the Governor at the recommendation of the Office of the Governor's Healthcare Transformation Leadership Team; and
- (2) Inserting an effective date of July 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2344, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2182 Health on S.B. No. 2105

The purpose and intent of this measure is to require the Department of Health to convene a mental health and substance abuse parity working group to determine how the State can come into compliance with federal mental health and substance abuse parity laws and regulations and enhance existing state parity laws.

Your Committee received testimony in support of this measure from HMSA, the Salvation Army Addiction Treatment Services, Hawaii Substance Abuse Coalition, and the Drug Policy Forum of Hawaii. Your Committee received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, and the Legislative Reference Bureau.

Your Committee finds that treatment for behavioral health disorders continues to be costlier and more difficult to obtain than general medical care. Your Committee also finds that the United States Department of the Treasury's Interim Final Rules pertaining to the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 require that group health plans have no more restrictions on mental health and substance abuse disorders than on medical or surgical benefits and require that the State take

action to ensure compliance with federal parity laws. The working group established by this measure is necessary in order to determine how to best implement and improve state parity laws.

Your Committee has amended this measure by:

- (1) Adding one licensed medical professional, psychologist, and clinical social worker, and one mental health consumer representative to the working group; and
- (2) Removing the requirement that the working group review provisions in national health care reform laws and regulations that:
 - (A) Address behavioral health provider shortage through grant programs to train and educate providers; and
 - (B) Address research needs in specialty areas of mental health care.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2105, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2183 Health on S.B. No. 2084

The purpose and intent of this measure is to prohibit an insurer from requiring a doctor's referral for annual covered mammograms for insureds over the age of forty.

Your Committee received testimony in support of this measure from HMSA BSH, Inc.; Planned Parenthood of Hawaii; the American Cancer Society Hawaii Pacific, Inc.; Kaiser Permanente; and one individual. Your Committee received comments on this measure from the State Insurance Commissioner on behalf of the Department of Commerce and Consumer Affairs.

Your Committee finds that routine mammograms are vital in the early detection and treatment of breast cancer and therefore mammograms should be made as accessible and affordable as possible.

Your Committee has amended this measure by:

- (1) Changing references to the term "mammogram" to "screening mammogram" per a recommendation from HMSA BSH, Inc. in order to differentiate screening mammograms from diagnostic mammograms, which should be performed under the direction of a physician; and
- (2) Making technical, Nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2084, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2084, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2184 Health on S.B. No. 2098

The purpose and intent of this measure is to clarify that persons and entities subject to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), who use or disclose information in a manner permitted by and consistent with HIPAA and related federal regulations, shall be deemed to be acting in compliance with state privacy laws and regulations.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Health; Hawaii Health Information Corporation; Healthcare Association of Hawaii; Hawaii Chapter, American Physical Therapy Association; Hawaii Health Information Exchange; HMSA; Kaiser Permanente Hawaii; Hawaii Disability Rights Center; Hawaii Medical Association; Hawaii Pacific Health; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and the Department of Commerce and Consumer Affairs' Regulated Industries Complaints Office.

Your Committee finds that harmonizing various state regulations governing disclosure of medical information with federal HIPAA requirements will simplify health information exchanges between providers and improve patient health outcomes.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2098 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2185 Health on S.B. No. 2106

The purpose and intent of this measure is to require health insurers to provide outpatient prescription drug coverage, prohibit health insurers from requiring coinsurance as a basis for cost sharing with the insured for outpatient prescription drug benefits, and limit the amount of copayment an insured must pay for outpatient prescription drugs.

Your Committee received testimony in support of this measure from HMSA; the American Cancer Society Hawaii Pacific, Inc.; Hawaii Academy of Physician Assistants; National Multiple Sclerosis Society – Hawaii Division; the Neuropathy Association; Arthritis Foundation – Hawaii Branch; Neuropathy Action Foundation; Advocacy for Patients with Chronic Illness; the Myositis Association; Immune Deficiency Foundation; Patient Services, Inc.; National Council of Asian Pacific Islander Physicians; Faith

Action for Community Equity (FACE); GBS/CIDP Foundation International; National Cornerstone Healthcare Services, Inc.; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and one insurance plan professional.

Your Committee finds that outpatient medical therapy is critical to quality care in an efficient health care system and that outpatient medications should be made as affordable and accessible as possible.

Your Committee has amended this measure by:

- (1) Deleting the provisions relating to mutual benefit societies that would restrict coinsurance as a basis for cost sharing, place a \$150 cap on copayments for a one-month supply of a prescription drug, and include prescription drugs in any limit of a member's out-of-pocket expenses for covered outpatient prescription drugs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2106, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2186 Health on S.B. No. 2019

The purpose and intent of this measure is to appropriate funds to restore the funding level of the Vector Control Branch of the Department of Health to its fiscal year 2007-2008 level.

Your Committee received testimony in support of this measure from the United Public Workers, Hawaii Farm Bureau Federation, and two individuals. Your Committee received comments from the Department of Health.

Your Committee finds that the Vector Control Branch serves a critical public health purpose that no other entity, private or public, addresses and that at the current funding level, the Vector Control Branch is not able to fulfill its required duties.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2019 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2187 Health on S.B. No. 2383

The purpose and intent of this measure is to extend the lapse date of the special purpose revenue bonds authorized to assist The Queen's Health Systems in Act 176, Session Laws of Hawaii 2003, as amended by Act 86, Session Laws of Hawaii 2007.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, Healthcare Association of Hawaii, and The Queen's Health Systems. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the extension of the lapse date of the special purpose revenue bonds will allow The Queen's Health Systems to further invest in infrastructure and equipment in order to continue to provide quality health care to the community.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2188 Health on S.B. No. 2409

The purpose and intent of this measure is to appropriate \$1,500,000 for fiscal year 2012-2013 for emergency medical services in the West Oahu region.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments from the Department of Health.

Your Committee finds that the closure of the Hawaii Medical Center facilities has had a negative impact on the emergency medical services in West Oahu. Your Committee further finds that an appropriation made pursuant to this measure may help to fill the need for critical medical services not only in West Oahu but wherever medical services are most needed.

Your Committee has amended this measure by:

- (1) Removing the specification that the emergency medical services provided be for the West Oahu region in order to give the Department of Health the maximum flexibility to best utilize the funds for the community; and
- (2) Changing the effective date from upon approval to July 1, 2012.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2409, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2189 Health on S.B. No. 2423

The purpose and intent of this measure is to establish and appropriate funds for the Hawaii colorectal cancer screening program.

Your Committee received testimony in support of this measure from HMSA and the American Cancer Society Hawaii Pacific, Inc. Your Committee received comments from the Department of Human Services.

Your Committee finds that one of the most efficient ways to detect precancerous growths is through screening and that the Hawaii colorectal cancer screening program will increase the likelihood of early detection, which is critical to a positive treatment outcome.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2423 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2190 Health on S.B. No. 2572

The purpose and intent of this measure is to appropriate funds for the comprehensive breast and cervical cancer control program.

Your Committee received testimony in support of this measure from HMSA, Planned Parenthood of Hawaii, and the American Cancer Society Hawaii Pacific, Inc. Your Committee received comments from the Department of Human Services.

Your Committee finds that the comprehensive breast and cervical cancer control program screens over a thousand people every year and that the early detection and treatment of breast and cervical cancer can lead to lower costs for overall treatment as well as an increased likelihood for a positive treatment outcome.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2572 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2191 Health on S.B. No. 2827

The purpose and intent of this measure is to add to the uses of the monies in the trauma system special fund the costs of staffing and operating the State's injury prevention program.

Your Committee received testimony in support of this measure from the Department of Health and the American Medical Response.

Your Committee finds that injury is the leading cause of death and disability in individuals between one to forty-four years of age and that prevention programs are the most cost-effective method to reduce the risk of injury and the resulting burden of care. Your Committee would also like to note that monies from the trauma system special fund shall not fund more than four positions in the State's injury prevention program and that only persons whose work is directly related to the injury prevention program shall receive funds from the trauma system special fund.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2827, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2192 Health on S.B. No. 2709

The purpose and intent of this measure is to allow the Department of Health to disclose the dates of vital events to government agencies within the State that are seeking to verify information contained in vital statistics records for the purpose of updating official lists.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that the disclosure of the dates of vital events will help state government agencies to determine eligibility for public benefits, correctly assess taxes, and discontinue services on behalf of deceased persons, all of which will in turn limit fraud and increase the available funds for those qualified individuals who need the funds the most.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2709 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Shimabukuro, Slom).

SCRep. 2193 Health on S.B. No. 2816

The purpose and intent of this measure is to permit the Department of Health the option of recognizing full accreditation by The Joint Commission (formerly the Joint Commission on Accreditation of Healthcare Organizations) as evidence of a hospital's compliance with state licensing requirements for the duration of the accreditation period.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Health Systems Corporation. Your Committee received comments on this measure from The Joint Commission (formerly the Joint Commission on Accreditation of Healthcare Organizations).

Your Committee finds that The Joint Commission maintains rigorous and regularly revised standards that are recognized nationwide as a symbol of quality that reflects an organization's commitment to meeting certain performance standards. Your Committee further finds that by recognizing the accreditation by The Joint Commission, resources may be used to focus on hospitals without accreditation or other health care organizations, such as nursing homes, which have historically not requested or acquired national accreditation.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Shimabukuro, Slom).

SCRep. 2194 Health on S.B. No. 2820

The purpose and intent of this measure is to amend the duties of the Hawaii Advisory Commission on Drug Abuse and Controlled Substances to focus on addressing the issue of substance abuse as a public health issue.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Advisory Commission on Drug Abuse and Controlled Substances, Department of Public Safety, Consumer Family & Youth Alliance, and two individuals. Your Committee received testimony in opposition to this measure from the Drug Policy Forum of Hawaii.

Your Committee finds that this measure will more closely align the duties of the Commission with the core functions of public health, including assessment, policy development, and the assurance of appropriate public health services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820 and recommends that it pass Second Reading and be referred to the Committee on Public Safety, Government Operations, and Military Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2195 Health on S.B. No. 2821

The purpose and intent of this measure is to give the Department of Health the authority to conduct a comprehensive mortality review of persons with developmental or intellectual disabilities and to allow for information relevant to the review to be obtained by the Department and participants in the mortality review.

Your Committee received testimony in support of this measure from the Department of Health, the Consumer Family and Youth Alliance, and one individual.

Your Committee finds that mortality reviews of persons with developmental or intellectual disabilities will assist the State's efforts to care for individuals with developmental or intellectual disabilities by reducing the incidence of preventable deaths and identifying and addressing quality of care concerns. Your Committee also requests the Department of Health to timely notify your Committee on Health of the publication of relevant reports, including the Child Death Review, upon publication of those reports.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2821 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2196 Health on S.B. No. 2825

The purpose and intent of this measure is to authorize the Department of Health to:

- (1) Allow limited access by authorized health organizations to registry information in the Hawaii Immunization Registry to produce immunization assessment reports; and
- (2) Store minimal demographic information for individuals who have elected to refuse inclusion in the Hawaii Immunization Registry.

Your Committee received testimony in support of this measure from the Department of Health, HMSA, and the Hawaii Association of Health Plans.

Your Committee finds that allowing health insurers to access the Hawaii Immunization Registry in order to generate immunization assessment reports will better enable insurers to formulate strategies to improve immunization rates among their insureds.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2825 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2197 Health on S.B. No. 2828

The purpose and intent of this measure is to revise the Hawaii Early Intervention Coordinating Council membership and functions to be consistent with the requirements regarding the State Interagency Coordinating Council in part C of the Individuals with Disabilities Education Act of 2004.

Your Committee received testimony in support of this measure from the Department of Health, Consumer Family and Youth Alliance, and one individual.

Your Committee finds that a broader membership for the Hawaii Early Intervention Coordinating Council will help to ensure the provision and coordination of early intervention services to meet the needs of infants and toddlers with or at biological risk of developmental delays.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2198 Health on S.B. No. 2833

The purpose and intent of this measure is to exempt recipients of state-funded home and community-based services from having to provide unemployment insurance, workers' compensation, temporary disability insurance, and pre-paid health care.

Your Committee received testimony in support of this measure from the Department of Health, the Consumer Family and Youth Alliance, and one individual.

Your Committee finds that this exemption will allow more flexibility for individuals with developmental and intellectual disabilities to better access needed services.

Your Committee notes that the title of this measure as introduced contains a misspelled word that is intended to mean an employment exemption for domestic services for persons with developmental and intellectual disabilities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2199 (Joint/Majority) Education and Economic Development and Technology on S.B. No. 2482

The purpose and intent of this measure is to:

- (1) Establish the public schools science and technology trust fund to facilitate initiatives that promote the learning and teaching of science and technology in public schools; and
- (2) Require the Department of Taxation to allow a taxpayer to designate a specified amount of the taxpayer's income tax refund to be paid to the Hawaii public schools science and technology trust fund.

Your Committees received testimony in support of this measure from the Department of Education, Public Schools of Hawaii Foundation, American Statistical Association – Hawaii Chapter, and four individuals. Your Committees received testimony in opposition to this measure from the Department of Taxation. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that while this measure provides a creative way to allow individuals to support the learning and teaching of science and technology in the State, it also adds the Hawaii public schools science and technology trust fund to the growing number of programs for which taxpayers may designate a portion of their income tax refund.

As this measure progresses, your Committees urge the Department of Taxation to provide a cost estimate for the implementation of the income tax refund designation proposed by this measure.

Your Committees also note that further discussion is necessary to determine the appropriate entity to oversee the trust fund, as well as which entities will be allowed to utilize trust fund monies.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2482, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2482, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, 1 (Slom). Excused, none.

SCRep. 2200 (Joint) Education and Water, Land, and Housing on S.B. No. 2534

The purpose and intent of this measure is to establish the school facilities special fund and require that the income generated by the Public Land Development Corporation from public school lands and facilities be deposited in the special fund for the purposes of new construction, upgrades, and repair and maintenance of public school facilities.

Your Committees received testimony in support of this measure from the Public Land Development Corporation, Department of Education, Hawaii Institute for Public Affairs, Hawaii Laborers-Employers Cooperation and Education Trust, Land Use Research Foundation of Hawaii, and Hawaii Carpenters Union. Your Committees received comments on this measure from the Department of Budget and Finance, Office of Hawaiian Affairs, The Pacific Resource Partnership, and one individual.

Your Committees find that this measure has the potential to provide the Department of Education with much needed capital for new school construction and the upgrade and retrofit of existing schools to meet twenty-first century standards. Your Committees further find that twenty-first century school standards should, among other things, incorporate:

- (1) Modular design and construction to provide flexibility for all types of learning;
- (2) Design that will allow the accommodation of community uses before and after school hours to maximize the benefits for students, parents, teachers, and community members;
- (3) Conduits for electricity and internet broadband capabilities throughout the school; and
- (4) Design and construction methods that will foster more efficient use of energy, space, and financial resources.

Your Committees have amended this measure by:

- (1) Adding language to clarify that funds deposited into the school facilities special fund are the proceeds less certain costs associated with bond issuance and administering, operating, and maintaining projects on public school land or utilizing public school facilities;
- (2) Giving the Department of Education, in consultation with the Board of Education, the responsibility of administering the school facilities special fund rather than the Public Land Development Corporation;
- (3) Clarifying that the school facilities special fund is to be used for the retrofit and upgrade of existing school facilities to meet twenty-first century school standards rather than general repair and maintenance; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2534, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2534, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 1 (Fukunaga).*

* On May 3, 2012, Senator Dela Cruz noted that Senator Slom's "no" vote was inadvertently recorded as an "aye" vote. The corrected record of votes reads as follows:

Ayes, 9. Noes, 1 (Slom). Excused, 1 (Fukunaga).

SCRep. 2201 Education on S.B. No. 2652

The purpose and intent of this measure is to repeal the minimum hourly and per diem rates for substitute teachers set forth in section 302A-624, Hawaii Revised Statutes, and repealing the statutory requirement that substitute teacher wage adjustments shall be based on teachers' pay and subject to legislative approval.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that this measure will provide the Board of Education and Department of Education with the flexibility to determine pay rates for substitute teachers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2652, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2652, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2202 Education on S.B. No. 2775

The purpose and intent of this measure is to provide flexibility to the Department of Education to implement student health programs by repealing:

- (1) Certain operational requirements established in chapter 302A, Hawaii Revised Statutes; and
- (2) The requirement that the Department of Education adopt administrative rules for its student health program.

Your Committee received testimony in support of this measure from the Department of Education, State Council on Developmental Disabilities, Office of Hawaiian Affairs, and Community Children's Council of Hawaii. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, HGEA/AFSCME, Local 152, AFL-CIO (HGEA).

Your Committee finds that this measure will give the Department of Education the flexibility necessary to ensure that schools are able to provide health programs and services that reflect the needs of their students and the school community. As this measure progresses, your Committee encourages the Department of Education to consult with the appropriate bargaining units of HGEA.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2775, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2775, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6, Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2203 Education on S.B. No. 2969

The purpose and intent of this measure is to require the Department of Taxation to allow a taxpayer to designate a specified amount of the taxpayer's income tax refund to be paid to the early learning trust fund.

Your Committee received testimony in support of this measure from the Department of Human Services, Early Learning Council, and Institute for Native Pacific Education and Culture. Your Committee received testimony in opposition to this measure from the Department of Taxation. Your Committee received comments on this measure from the Good Beginnings Alliance and Tax Foundation of Hawaii.

Your Committee finds that this measure adds the early learning trust fund to the growing number of programs for which taxpayers may designate a portion of their income tax refund. However, this measure also provides a creative way to allow individuals to support early learning in the State. As such, your Committee believes that further discussion on this measure is warranted.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2969 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 2204 Judiciary and Labor on S.B. No. 2738

The purpose and intent of this measure is to make an appropriation to satisfy several claims against the State for refunds of taxes, judgments and settlements, and other miscellaneous payments.

Your Committee received testimony in support of this measure from the Department of the Attorney General and the Department of Education.

Your Committee finds that this measure requests a total of \$2,228,064.01 in appropriations from the general fund to satisfy twelve claims against the State and a total of \$210,000 in appropriations from the state highway fund to satisfy one claim against the State. Timely passage of this measure will minimize interest on those amounts.

Your Committee has amended this measure by:

- (1) Deleting a settlement claim totaling \$328,250 from this measure, as requested by the Department of the Attorney General, which reduces the total amount of appropriations from the general fund to \$1,899,814.01 in order to satisfy eleven claims against the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2738, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2205 Judiciary and Labor on S.B. No. 2051

The purpose and intent of this measure is to establish a convenient means for individuals to register to vote and thereby increase voter participation. Specifically, this measure:

- (1) Authorizes the county clerk to accept electronic voter registration applications;
- (2) Makes an appropriation for \$500,000 for fiscal year 2012-2013, for the planning and design of an online voter registration system;

- (3) Repeals the provision that requires the list postings of all registered voters in each precinct at polling places, due to confidentiality concerns; and
- (4) Makes several housekeeping amendments to update the voter registration laws to conform to online voter registration, and remove references to obsolete processes and technologies.

Your Committee received testimony in support of this measure from the Office of Elections; the Office of the County Clerk of the County of Kauai; the Office of the City Clerk of the City and County of Honolulu; the Office of the County Clerk of the County of Maui; the Americans for Democratic Actions of Hawaii; Common Cause Hawaii; the League of Women Voters of Hawaii; and four private individuals.

Your Committee finds that Hawaii's voter turnout has consistently been at or near the bottom of voter turnout across the nation. This measure establishes a convenient method for individuals to register to vote in order to expedite the voter registration process for registrants and election officials. Additionally, an online voter registration system will modernize registration methods, and encourage more eligible voters to register and participate in voting.

Your Committee notes that the appropriation in this measure is for planning and design of an online voter registration system. Additional funding may be necessary in the future to facilitate the implementation of the online system. As such, your Committee believes that the dialogue regarding any necessary additional funds should be continued by the Committee on Ways and Means.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2051, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2051, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2206 Judiciary and Labor on S.B. No. 2070

The purpose and intent of this measure is to allow an appointing authority to waive the one-year residency requirement of certain appointive officers possessing highly specialized or scientific knowledge and training in the event that no other qualified applicant who does meet the residency requirement is available.

Your Committee received testimony in support of this measure from the Department of Human Resources of the City and County of Honolulu.

Your Committee finds that existing law requires that all appointive officers of the State or a county who are employed as department heads and deputies or assistants to department heads be United States citizens and state residents for at least one year. However, this one-year state residency requirement may create difficulties when hiring appointive officers to fill positions that require a certain level of highly specialized or scientific knowledge or training and for which no qualified local applicant is available to fill that position. This measure provides an exception to the law under certain circumstances, so that positions may be filled with officers possessing the necessary specialized expertise and skills.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2070, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2207 Judiciary and Labor on S.B. No. 2699

The purpose and intent of this measure is to make an emergency appropriation in the amount of \$1,725,000 for fiscal year 2011-2012, to fund the State's voting system contract for the 2012 elections.

Your Committee received testimony in support of this measure from the Office of Elections; the Office of the County Clerk of the County of Kauai; and the Office of the County Clerk of the County of Maui.

Your Committee finds that the Office of Elections is in a multi-year contract with a vendor to provide a voting system for elections. Although there was sufficient funding to cover the prior 2010 election cycle, the current biennium budget for the Office of Elections does not include funding for the 2012 election cycle of the contract. As such, this measure provides the Office of Elections sufficient funding to cover its portion of the cost for the voting system as well as ensures that the office fulfills maintenance of effort provisions of the Help America Vote Act of 2002, which is necessary to maintain the State's eligibility for federal funding.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2699 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2208 Judiciary and Labor on S.B. No. 2701

The purpose and intent of this measure is to make clarifying amendments to the laws governing the Hawaii Employer-Union Health Benefits Trust Fund. More specifically, this measure:

- (1) Defines “credited service” to align with the use of the term “service” under the pension and retirement laws; and
- (2) Clarifies the meaning of “employee” and “part-time, temporary, and seasonal or casual employee” to comport with existing public employee health benefits laws by clarifying that:
 - (A) An employee does not include a per diem employee; and
 - (B) A part-time, temporary, and seasonal or casual employee is a person that is employed for fewer than three months or whose employment is less than one-half of a full-time equivalent position; not necessarily both.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that certain terminology relating to the Hawaii Public Employees Health Fund, the predecessor of the Hawaii Employer-Union Health Benefits Trust Fund, remains in law and does not comport with existing public employee health benefits laws or reflect the Legislature’s intent to grant health fund benefits to public sector employees based on status as an employee or service credits. As such, this measure makes clarifying amendments to and updates the laws governing the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2701, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2701, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2209 Judiciary and Labor on S.B. No. 2751

The purpose and intent of this measure is to amend the statutory requirements for the Board of Trustees of the Employees’ Retirement System to require one of the non-employee board members to possess substantial experience in finance rather than be a bank officer.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, the Employees’ Retirement System, and the Department of Budget & Fiscal Services of the City and County of Honolulu.

Your Committee finds that as the size and corpus of the Employees’ Retirement System increases, so does the need for experienced trustees with desirable credentials in order to manage the system. The Board of Trustees has become more involved in the nature and substance of its investments as a means to garner the best possible return for beneficiaries while safeguarding the corpus to ensure long-term viability of the system. As such, this measure requires that one of the three non-employee members of the Board of Trustees to possess substantial experience in finance in order to be more contemporary with the requirements of managing a multi-billion dollar trust.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2751 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2210 Judiciary and Labor on S.B. No. 2753

The purpose and intent of this measure is to authorize the Hawaii Employer-Union Health Benefits Trust Fund to create a trust fund for the purpose of receiving employer contributions that will prefund post-employment health and other benefits costs for retirees and their beneficiaries.

Your Committee received testimony in support of this measure from the Department of the Attorney General; the Department of Budget and Finance; the Department of Budget & Fiscal Services of the City and County of Honolulu; the Finance Department of the County of Hawaii; the Hawaii State Teachers Association; and the United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that an audit of the Hawaii Employer-Union Health Benefits Trust Fund concluded that the trust fund does not have a separate trust fund that meets the requirements of the Government Accounting Standards Board regarding other post-employment benefits trusts. Specifically, an other post-employment benefits trust must have the specific criteria of irrevocability of contributions, dedication of plan assets to paying benefits in accordance with the plan, and legal protection of the plan assets from creditors. Currently, several counties have made pre-funded contributions toward other post-employment benefits, but are unable to receive credit for the contributions because an established trust fund does not exist that meets the Government Accounting Standards Board requirements for other post-employment benefits plans. As such, this measure is intended to provide the means for these types of contributions that complies with the Government Accounting Standards Board’s requirements.

Your Committee has amended this measure by:

- (1) Adding language suggested by the Department of the Attorney General that clarifies that this measure is not intended to bind the State or the counties to make contributions to the Hawaii Employer-Union Health Benefits Trust Fund, but only to establish a separate trust fund in accordance with the Government Accounting Standards Board requirements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2753, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2753, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2211 (Joint) Health and Energy and Environment on S.B. No. 2292

The purpose and intent of this measure is to prohibit:

- (1) The Department of Health from issuing permits for new covered sources that will burn or consume coal for energy needs and for the expansion, relocation, or modification of existing covered sources that would increase the burning or consumption of coal for energy needs; and
- (2) The Public Utilities Commission from approving new, modified, or renewed power purchase agreements that propose to burn or consume coal to generate energy

Your Committees received testimony in support of this measure from the Sierra Club Hawaii Chapter, Blue Planet Foundation, Life of the Land, and two individuals. Your Committees received testimony in opposition to this measure from AES Hawaii, Inc. and Alexander & Baldwin, Inc. Your Committees received comments on this measure from the Department of Health and the Public Utilities Commission.

Your Committees find that burning coal produces toxic mercury, adversely impacts Hawaii's air quality, and releases more greenhouse gas emissions than any other fuel source. Consequently, your Committees find that coal is not part of a clean and sustainable energy future for the State. Your Committees further find that in the Hawaii Clean Energy Initiative's energy agreement, participating parties, including the State of Hawaii and the United States Department of Energy, acknowledged that new generators fueled partly or entirely by coal are not in the interests of the people of the State and that attempts to add new coal-based generation in Hawaii would be opposed.

Your Committees have amended this measure by:

- (1) Prohibiting the Public Utilities Commission from approving a power purchase agreement for a new power plant that proposes to burn or consume coal to generate energy unless the proposed power plant replaces a less-efficient power plant of equal or greater capacity that burns or consumes fossil fuels to generate electricity;
- (2) Prohibiting the Public Utilities Commission from approving a modified or renewed power purchase agreement for a power plant that proposes to burn or consume more coal to generate energy than under the previous power purchase agreement; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2292, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2292, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.
Ayes, 6, Ayes with Reservations (Baker). Noes, none. Excused, 4 (English, Nishihara, Wakai, Slom).

SCRep. 2212 (Joint/Majority) Energy and Environment and Economic Development and Technology on S.B. No. 2666

The purpose and intent of this measure is to create a tax credit for investments in the development and construction of a biofuel production facility that may only be claimed after the production facility becomes commercially operational.

Your Committees received testimony in support of this measure from the Office of Environmental Quality Control, Aina Koa Pono, Blue Planet Foundation, International Longshore and Warehouse Union Local 142, Hawaiian Electric Company, Hawaii Bioenergy LLC, and two individuals. Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Hawaii Renewable Energy Alliance, Pacific Biodiesel, and two individuals.

Your Committees find that the long-term benefits of a locally situated biofuel production facility merit the support of the people and State of Hawaii, despite the short-term costs associated with the development and construction of such a facility. This measure proposes to set: (1) the amount of the credit at fifteen percent of the qualified development and construction costs of a biofuel production facility; and (2) the maximum total tax credits claimed by a biofuel facility at \$60,000,000. Your Committees welcome the guidance of your Committee on Ways and Means as to the appropriate percentage of the tax credit and appropriate maximum amount of total tax credits that may be claimed.

Your Committees further find that a tax credit would provide a substantial financial benefit to its recipient. Your Committees believe it is appropriate to require a recipient of the credits to refund the State the full amount of any credits earned and claimed over a period of ten years after obtaining the full amount of the credit.

Your Committees have amended this measure by:

- (1) Amending section 2, which establishes the tax credit, as follows:

- (A) Replacing references to the date on which a biofuel facility becomes “commercially operational” with references to the date on which a biofuel facility is “placed in service”;
 - (B) Replacing the term “qualified production costs” with the term “qualified development and construction costs”;
 - (C) Deleting language requiring a biofuel production facility to use locally grown feedstock for at least seventy-five percent of its production output;
 - (D) Making the tax credit non-refundable and allowing any unused tax credit to be carried forward until it is depleted; and
 - (E) Adding language that would require a recipient of the tax credit to refund the State of Hawaii the entire amount of the tax credit earned and claimed, in one payment in the tenth taxable year after the recipient obtains its final tax credit;
- (2) Changing the effective date to July 1, 2050, to ensure further discussion; and
 - (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2666, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2666, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6, Ayes with Reservations (Baker). Noes, 1 (Solomon). Excused, 2 (Green, Slom).

SCRep. 2213 (Joint) Economic Development and Technology and Energy and Environment on S.B. No. 2402

The purpose and intent of this measure is to establish a night sky protection strategy requiring all state agencies to comply with shielded lighting fixture requirements, beginning July 1, 2013.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; the Starlight Reserve Committee; the University of Hawaii System; and five individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Transportation, and Historic Hawaii Foundation.

Your Committees find that the Starlight Reserve Committee was established by Act 161, Session Laws of Hawaii 2009. The Starlight Reserve Committee held its first meeting in July 2010, and met on a regular basis throughout 2011. One of the tasks of the Starlight Reserve Committee was to develop proposed legislation for statewide intelligent lighting laws that reduce light pollution through proper shielding of outdoor lights in Hawaii. Your Committees further find that this measure provides exemptions to reduce or eliminate additional costs related to the use of properly shielded lights, where appropriate.

Your Committees have amended this measure by:

- (1) Adding an additional exemption for the refurbishment, repair, or replacement-in-kind of lighting fixtures that are character-defining features of a historic property, as determined by the Department of Land and Natural Resources Historic Preservation Division; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2402, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2402, S.D. 1, and be referred to the Committee on Public Safety, Government Operations, and Military Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Green, Slom).

SCRep. 2214 (Joint) Human Services and Health on S.B. No. 2083

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to match the federal Medicaid disproportionate share hospital allowance allocated to the State.

Your Committees received testimony in support of this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; the Hawai'i Primary Care Association; the Healthcare Association of Hawaii; Kaiser Permanente; The Chamber of Commerce of Hawaii; and two individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services.

Your Committees find that Hawaii is experiencing a hospital provider shortage. Many facilities provide services to Medicaid patients, who on average have health conditions and associated socio-economic problems that lead to higher service delivery costs. Existing facilities should be provided with the payments necessary to ensure the continued delivery of high-quality emergency and in-patient services. Your Committees also find that this measure, as currently drafted, would authorize a new appropriation over and above certified public expenditures as the State's share for the full disproportionate share hospital allowance and would result in an increase in the supplement to more than \$19,000,000 or an additional \$9,282,684 for the State's share for fiscal year 2012, which was not included in the Governor's budget.

Your Committees have therefore amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2083, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2083, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Wakai, Slom).

SCRep. 2215 (Joint) Human Services and Health on S.B. No. 2227

The purpose and intent of this measure is to provide funding for quality, cost-effective, direct health care through community health centers for Hawaii residents who are uninsured, including those who will be disenrolled from the Medicaid QUEST program pending eligibility changes in April 2012.

Your Committees received testimony in support of this measure from the Department of Health, the Hawaii Island Community Development Corporation, the Hawai'i Primary Care Association, the Healthcare Association of Hawaii, Ho'ola Lahui Hawai'i, the Kalihi-Palama Health Center, the Lana'i Community Health Center, the Waianae Coast Comprehensive Health Center, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services. Your Committees received comments on this measure from the Waikiki Health Center.

Your Committees find that approximately twenty-five percent of the patients at community health centers are uninsured. As Medicaid eligibility reductions are implemented this year, providers anticipate an increase in the uninsured population. Your Committees also find that nonprofit community health centers have proven to be effective in providing comprehensive, primary care services to residents of poor and disadvantaged communities. Community health centers also assist in keeping other components of the health care system viable by reducing the numbers of patients who require emergency care and reducing the impact of uncompensated care on other providers.

Your Committees note that if the maximum income allowed for QUEST eligibility decreases from 200 percent to 133 percent of the federal poverty level, approximately 3,000 to 3,500 adults will lose QUEST Adult benefits. Since the average monthly capitation rate is \$160 per month per adult, the estimated cost of providing annual QUEST Adult benefits to an average of 3,250 persons is approximately \$6,300,000.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2227 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Wakai, Slom).

SCRep. 2216 (Joint) Human Services and Health on S.B. No. 2306

The purpose and intent of this measure is to:

- (1) Establish a long-term care task force to coordinate and consolidate state long-term care programs and services under a single executive department or division;
- (2) Establish the position of Deputy Healthcare Transformation Coordinator under the Office of the Governor; and
- (3) Appropriate funds to establish the position of the Deputy Healthcare Transformation Coordinator.

Your Committees received testimony in support of this measure from the Office of the Healthcare Transformation Coordinator under the Office of the Governor, the Executive Office on Aging of the Department of Health, the State Council on Developmental Disabilities, AARP, the Policy Advisory Board for Elder Affairs, and one individual. Your Committees received comments on this measure from the Legislative Reference Bureau and one individual.

Your Committees find that long-term care is an important consideration for any effort to transform Hawaii's health care system, and that the magnitude, policy, and resource needs for long-term care warrant significant attention. Establishing a coordinator position will assist in managing state long-term care activities. Additionally, establishing a task force to plan for the consolidation will assist the Legislature in identifying what long-term care programs and services exist and what can be consolidated under a single department or division.

Your Committees note that testimony from the Legislative Reference Bureau requests that the task force's recommendations and proposed legislation, if any, be submitted to the Bureau on an earlier date as to ensure adequate time for drafting, review, and any necessary revisions.

Your Committees have amended this measure by:

- (1) Establishing the long-term care task force under the direction of the Deputy Healthcare Transformation Coordinator within the Office of the Healthcare Transformation Coordinator;
- (2) Allowing the task force chair to appoint additional task force members;
- (3) Delaying the date by which the Deputy Healthcare Transformation Coordinator shall submit its report of task force activities to the Legislature to no later than twenty days prior to the convening of the Regular Session of 2014;
- (4) Requiring the Legislative Reference Bureau to assist the task force in drafting legislation; provided that the task force shall submit its recommendations and proposed legislation, if any, to the Bureau no later than November 1, 2013;
- (5) Delaying the date on which the task force shall be dissolved to June 30, 2014;

- (6) Requiring nomination of the Deputy Healthcare Transformation Coordinator by the Healthcare Transformation Coordinator in consultation with the Directors of Health and Human Services, the Long-Term Care Commission, and other stakeholders, to the Governor for appointment; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2306, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2306, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Wakai, Slom).

SCRep. 2217 Human Services on S.B. No. 2589

The purpose and intent of this measure is to require the Department of Human Services to automatically enroll former foster youth in an appropriate medical assistance program and automatically re-enroll former foster youth until they reach the age of twenty-six.

Your Committee received testimony in support of this measure from Epic 'Ohana, Inc.; Family Programs Hawai'i; the Hawaii Foster Youth Coalition; the Hawaii Youth Services Network; and six individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that medical coverage is something that is vital for everyone, but even more so for the former foster youth population. When young adults lack medical coverage, it can result in serious harm from untreated illness or injury, inappropriate use of emergency medical services, and unnecessary costs. Your Committee further finds that under the federal Patient Protection and Affordable Care Act of 2010, beginning in 2014, individuals who aged out of foster care and are younger than twenty-six years of age will be eligible for Medicaid.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2589 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2218 Human Services on S.B. No. 2806

The purpose and intent of this measure is to authorize the Board of Directors of the Hawaii Public Housing Authority to set the Executive Director's compensation based on a comparability analysis and other factors.

Your Committee received testimony in support of this measure from the Department of Human Services and the Hawaii Public Housing Authority.

Your Committee finds that the United States Department of Housing and Urban Development issued a notice on August 26, 2011, to the Department of Human Services that requires all public housing authorities to report executive compensation information and to conduct comparability analyses when determining the executive directors' compensation levels. Your Committee further finds that under section 356D-2, Hawaii Revised Statutes, the Executive Director's compensation is to be no more than eighty-five percent of the Director of Human Resources Development's salary. This measure will provide the Hawaii Public Housing Authority Board of Directors the ability to set the Executive Director's compensation in conformance with the Department of Housing and Urban Development's notice and thereby avoid severe monetary penalties for non-compliance.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2806 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2219 Human Services on S.B. No. 2795

The purpose and intent of this measure is to ensure that the definition of "aggravated circumstances" in chapter 587A, Hawaii Revised Statutes, is consistent with recent changes to the federal Child Abuse Prevention and Treatment Act.

Your Committee received testimony in support of this measure from the Department of Human Services, the Department of the Attorney General, Family Programs Hawai'i, and one individual.

Your Committee finds that the Administration for Children and Families has informed the State that recent changes to the Child Abuse Prevention and Treatment Act of 2010 need to be incorporated into chapter 587A, Hawaii Revised Statutes, the Child Protective Act. These changes will allow the Department of Human Services to continue to receive federal Child Abuse Prevention and Treatment Act funding of approximately \$140,000, which is used to provide family strengthening services and child death review.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2795 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2220 Human Services on S.B. No. 2591

The purpose and intent of this measure is to require public events celebrating Children and Youth Day to be held on State Capitol grounds on the first Sunday in October if the Children and Youth Day planning committee so chooses, unless otherwise determined by the Governor.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network and two individuals.

Your Committee finds that holding Children and Youth Day events on State Capitol grounds encourages and supports citizen involvement in public policy development, promotes access to the legislative process, and informs legislators of the issues and challenges facing Hawaii's children and youth.

Your Committee notes that since young people gain their first exposure to Hawaii's legislative process by participating in the Children and Youth Summit, the Summit should also be held on State Capitol grounds.

Your Committee has therefore amended this measure by:

- (1) Adding language to direct public events such as the Children and Youth Summit to also be held on State Capitol grounds in the month of October; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2591, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2221 Human Services on S.B. No. 2095

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to respond to the United States Department of Agriculture's mandate to amend supplemental nutrition assistance program eligibility requirements, which expands program eligibility from no more than 130 percent to no more than 200 percent of the federal poverty level.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from Molokai Advertiser-News. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the supplemental nutrition assistance program, formerly known as the food stamp program, is a beneficial federal program that provides food for those with incomes inadequate to purchase food for a regular, wholesome diet. Your Committee also finds that in 2010, the federal government increased funding to the supplemental nutrition assistance program and changed the rules to set the gross income limit to the maximum allowable income of 200 percent of the federal poverty level, which allows more families to qualify.

Your Committee notes that according to the testimony from the Department of Human Services, by implementing the expanded categorical eligibility provision, which allows individuals with incomes of no more than 200 percent of the federal poverty level to be eligible for the supplemental nutrition assistance program, the Department has experienced an increase in its caseload. Since October 2010, the Department's caseload increased 12.6 percent and from July 1, 2008, to June 30, 2011, it increased 63 percent. The increased caseload coupled with the Department's substantial workforce reduction and lost time due to furloughs caused the Department to miss federally mandated deadlines for the processing of program applications and resulted in a preliminary injunction levied against the Department. Although the Department supports the intent of this measure, it cannot support the measure to the extent that it seeks to appropriate additional funds to the Department outside the Governor's supplemental budget request.

Your Committee has amended this measure by:

- (1) Deleting the dollar amount of the appropriation and leaving the amount unspecified for determination by the Committee on Ways and Means;
- (2) Clarifying that the purpose of the appropriation is for the Department of Human Services to sufficiently respond to and carry out the requirements of the United States Department of Agriculture's mandate to amend the supplemental nutrition assistance program eligibility requirement from no more than 130 percent to no more than 200 percent of the income poverty guidelines; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2095, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2095, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2222 Human Services on S.B. No. 2260

The purpose and intent of this measure is to exempt from general excise taxes rents received from qualifying nonprofits, government agencies, and certain state-contracted provider agencies that provide homeless transitional shelters.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that transition housing provides emergency shelter and support services to homeless families to help them become independent. This measure creates a tax incentive to encourage the provision of more transitional housing.

Your Committee has amended this measure by:

- (1) Adding language to clarify that the nonprofit organization, government agency, or contract agency that intends to claim the exemption is a party to the Signed lease or rental agreement on the real property;
- (2) Clarifying the definition of “transitional shelter for homeless persons” to specify that individuals or families may stay at the facility for up to twenty-four months; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2260, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2223 (Joint) Human Services and Public Safety, Government Operations, and Military Affairs on S.B. No. 2594

The purpose and intent of this measure is to require the Homeless Programs Office of the Department of Human Services to:

- (1) Establish designated safe areas in which homeless persons may live until permanent housing becomes available;
- (2) Establish rules, a code of conduct, and fees for residents of the designated safe areas; and
- (3) Partner with certain community and nonprofit organizations to provide homeless support services for residents of the designated safe areas and coordinate with state and county law enforcement officials to ensure the safety of individuals residing in the designated safe areas.

Your Committees received testimony in support of this measure from the Hawai‘i Appleseed Center for Law and Economic Justice and two individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services, the Leeward Housing Coalition, and one individual. Your Committees received comments on this measure from the Hawaii Youth Services Network.

Your Committees find that the homeless crisis is expanding at an alarming rate throughout all of the islands. Even in the best economic times, thousands of low-income individuals and families struggle to find affordable shelter. Your Committees also find that successful homeless shelter models exist and are successful due to the sensible restrictions that have been developed, including the enforcement of strict rules against the use of drugs or alcohol and the prohibition against all forms of violence.

Your Committees note that according to the Department of Human Services’ testimony, the Department is concerned about the cost of the amenities included in this measure and the impact on current levels of funding for homeless programs.

Your Committees have amended this measure by:

- (1) Inserting an appropriation of \$100,000 to be expended by the Department of Human Services for the establishment of designated safe areas; and
- (2) Changing the effective date to July 1, 2012.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2594, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2594, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2224 Human Services on S.B. No. 2803

The purpose and intent of this measure is to allow the Department of Human Services and the Department of Health to accept contract proposals from organizations that are not yet licensed to operate a child care program at a facility specified in the contract proposal.

Your Committee received testimony in support of this measure from the Department of Human Services and the State Procurement Office.

Your Committee finds that under the child care program, a contract agreement is not finalized until after the awardee meets all of the licensing requirements specified in the Department of Human Services’ administrative rules. This process is necessary because the requests for child care services are tied to a site requested by the Department. Your Committee also finds that requiring a license before an application can be submitted for a child care program limits the applicants who are allowed to submit a proposal to only those entities that are currently licensed to operate a child care program and thereby restricts new providers from entering the child care business.

According to testimony from the State Procurement Office, section 103F-401.5, Hawaii Revised Statutes, restricts competition that may affect not only the child care program but other programs as well.

Your Committee has therefore amended this measure by:

- (1) Amending section 103F-401.5, Hawaii Revised Statutes, to prohibit the performance of a contract rather than acceptance of a contract proposal, by any applicant lacking the necessary license;
- (2) Adding language that requires contract proposals submitted under chapter 103F, Hawaii Revised Statutes, to include the all-inclusive cost to the State and prohibits an award or contract from including payment for any costs not included in the proposal; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2803, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2803, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2225 Human Services on S.B. No. 2650

The purpose and intent of this measure is to amend the offense of promoting a controlled substance in, on, or near schools, school vehicles, or public parks to include public housing projects and complexes.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority of the Department of Human Services, the Police Department of the City and County of Honolulu, and one individual. Your Committee received testimony in opposition to this measure from Molokai Advertiser-News and the Drug Policy Forum of Hawai'i.

Your Committee finds that there is a cycle of substance abuse and drug trafficking common in public housing projects or complexes. This measure will establish the crime of promoting a controlled substance in, on, or near a public housing project or complex as a class C felony, or, in the case of manufacturing methamphetamine within a certain distance from a public housing project or complex, as a class A felony. These deterrents should significantly improve the ability of the Hawaii Housing Public Authority to ensure a secure, livable community for public housing residents.

Your Committee has amended this measure by including state low-rent public housing programs in the definition of "public housing project or complex".

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2650, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2226 Human Services on S.B. No. 2575

The purpose and intent of this measure is to:

- (1) Amend the definition of child abuse or neglect to include acts or omissions of any person or legal entity;
- (2) Requires mandatory reporting by certain individuals when there is reasonable suspicion of child abuse or neglect;
- (3) Expands medical personnel's duty to report wounds to include injuries suffered by a victim of labor trafficking or injuries that result from prostitution; and
- (4) Subjects a person who reports wounds to physician-patient privilege regarding patient communications for the diagnosis or treatment of the patient but not regarding the physician's observations of the patient.

Your Committee received testimony in support of this measure from Courage House Hawaii, Equality Now, IMUAlliance, the Justice Project Hawaii, Kapi'olani Medical Center for Women and Children, Pali Momi Medical Center, Tadia Rice Consulting, the Pacific Alliance to Stop Slavery, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services; the Department of the Prosecuting Attorney, City and County of Honolulu; Harm Reduction Hawaii; Hawaii Youth Services Network; the Pacific Survivor Center; the Sex Abuse Treatment Center; and one individual. Your Committee received comments on this measure from the Department of the Attorney General, Planned Parenthood of Hawaii, and one individual.

Your Committee finds that human trafficking is on the rise worldwide. Studies have shown that many victims sought medical attention while being held in captivity but were not reported as victims of trafficking. Your Committee also finds that if a health care provider encounters a possible victim of trafficking who is over the age of eighteen, the health care provider is only able to offer to notify law enforcement or a victims specialist.

Your Committee further finds that under this measure, health care providers are compelled to report certain cases to law enforcement, even against the will of the patient. This can have adverse results such as undermining the patient-provider relationship, deterring victims from disclosing their situations, and deterring victims from seeking health care services.

Your Committee has therefore amended this measure by:

- (1) Adding language to describe the background and purpose of this measure;
- (2) Deleting language that amends the definition of child abuse that included acts or omission of any person or legal entity related to a child;

- (3) Deleting language that requires an individual to report cases to the local police department if the individual has a reasonable suspicion that child abuse or neglect has occurred or that there exists a substantial risk that child abuse or neglect may occur; and
- (4) Adding language to make the reporting by certain medical personnel of injuries reasonably believed to have been caused by the use of violence or sustained in a suspicious or unusual manner, including injuries that result from labor trafficking or prostitution, discretionary, rather than mandatory.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2575, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2575, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2227 Human Services on S.B. No. 2595

The purpose and intent of this measure is to:

- (1) Require the Department of Health to develop and establish a family cost participation schedule of monthly cost participation fees for early intervention services; and
- (2) Authorize the Department of Health to offer early intervention services on a fee-for-service basis for children who are ineligible for services under part C of the Individuals with Disabilities Education Act.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that last year, the Department of Health changed the eligibility standard for children who would qualify for early intervention services. This change is projected to result in twenty-five percent fewer infants and toddlers receiving early intervention services, which include physical, occupational, and speech therapy.

Your Committee also finds that although the Department of Health already has the authority to develop a sliding fee schedule for early intervention services on a fee-for-service basis for children who are ineligible under part C of the Individuals with Disabilities Education Act, the cost to implement the sliding fee schedule may be greater than the total amount of fees that would be collected.

Your Committee further finds that providing early intervention services on a fee-for-service basis to ineligible children still does not address the children and families who may need but cannot afford services that promote child development.

Your Committee has therefore amended this measure by:

- (1) Requiring the Department of Health and any other department or office responsible for providing early intervention services to maintain the eligibility criteria or the scope of covered services for early intervention services at a minimum of the same level that was in effect on January 1, 2012;
- (2) Allowing children who were eligible as of January 1, 2012, to remain eligible for early intervention services under certain circumstances;
- (3) Allowing, rather than requiring the Department to establish a family cost participation schedule for early intervention services, which may include a sliding fee schedule; and
- (4) Allowing the Department to include in its contracts with early intervention service providers a provision that requires the provider to provide early intervention services on a fee-for-service basis, at a rate no higher than the amount the provider would have been reimbursed under its contract with the state contracting entity, to individuals who are ineligible under part C of the Individuals with Disabilities Education Act.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2595, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2228 Human Services on S.B. No. 2940

The purpose and intent of this measure is to appropriate funds as a grant to the Kalihi YMCA, Parents and Children Together, and the Susannah Wesley Community Center to support youth services.

Your Committee received testimony in support of this measure from the Kalihi YMCA, Parents and Children Together, the Susannah Wesley Community Center, and one individual.

Your Committee finds that the lack of afterschool programs adversely affects middle school students the most and may be a contributing factor to negative and anti-social behavior. Youth in Kalihi face many issues and needs and continue to be at risk for academic and behavior-related problems. Your Committee also finds that the Kalihi YMCA, Parents and Children Together, and the Susannah Wesley Community Center are in the unique position to collaborate to ensure the provision of quality community-based afterschool programs. Your Committee further finds that with the elimination of Temporary Assistance for Needy Families program funds coupled with other cuts in state funding for youth services in Kalihi, funding is inadequate to provide the quality, comprehensive services this community needs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2940 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2229 Human Services on S.B. No. 2796

The purpose and intent of this measure is to:

- (1) Make permanent the payment of a reduced lump-sum death benefit by the Department of Human Services for certain deceased medical and financial assistance recipients; and
- (2) Establish that the Department of Human Services may bear the cost for crematory and mortuary services for unclaimed dead human bodies upon a determination by the Department that a human dead body is unclaimed.

Your Committee received testimony in support of this measure from the Department of Human Services. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that pursuant to part II of Act 205, Session Laws of Hawaii 2010, the Department of Human Services is authorized to pay a lump-sum death benefit for a deceased medical and financial assistance recipient in a reduced amount, equal to the Social Security Administration's one-time lump-sum death benefit of \$255 if the recipient is ineligible for the Social Security Administration's lump-sum death benefit. Savings from this change in the death benefit was approximately \$306,000 last year. Your Committee also finds that Act 205, Session Laws of Hawaii 2010, has a repeal date of June 30, 2012. This measure makes the reduced death benefit amount permanent, enabling the Department to realize necessary cost savings.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2796 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2230 Human Services on S.B. No. 2801

The purpose and intent of this measure is to allow the Department of Human Services to conduct adult abuse perpetrator checks on providers, license exempt pursuant to section 346-152, Hawaii Revised Statutes, who care for children receiving child care subsidies from the department, applicants who want to operate a child care facility, prospective employees of the applicant, licensed child care providers, and new employees of the registered or licensed provider.

Your Committee received testimony in support of this measure from the Department of Human Services and the Hawaii Association for the Education of Young Children.

Your Committee finds that the Department of Human Services is responsible for ensuring the safety and health of children in regulated settings such as licensed child care centers and for child care providers who care for children that receive child care subsidies from the Department. This measure will allow the Department to conduct a more thorough check on the character of the individuals who are working directly with children in licensed and legally exempt settings by identifying individuals who have a history of maltreatment of vulnerable individuals.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2801 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2231 Human Services on S.B. No. 2810

The purpose and intent of this measure is to amend the definition of "employment" in the workers' compensation, temporary disability insurance, and prepaid health care statutes by clarifying the domestic services exclusion for services authorized by the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services and two individuals.

Your Committee finds that sections 386-1, 392-5, and 393-5, Hawaii Revised Statutes, exempt developmentally and intellectually disabled recipients of social service payments from providing workers' compensation, temporary disability insurance, and prepaid health care. This measure will provide further clarification and consistency by also exempting the Department of Human Services, aged and disabled recipients of home and community-based services, and recipients of state-funded home and community-based services, from having to provide workers' compensation, temporary disability insurance, and prepaid health care due to the provision of these services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2810 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2232 Human Services on S.B. No. 3046

The purpose and intent of this measure is to require the Department of Human Services to comply with the federal Child Abuse Prevention and Treatment Act of 2010.

Your Committee received testimony in support of this measure from Blueprint for Change and Family Programs Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that codifying a mandate for the Department of Human Services to comply with the Child Abuse Prevention and Treatment Act of 2010 will help ensure that the Department receives adequate funding to fulfill the requirements and conditions for federal assistance pursuant to the Child Abuse Prevention and Treatment Act of 2010.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3046 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2233 Human Services on S.B. No. 2813

The purpose and intent of this measure is to amend the purpose of the disability and communication access board special fund to allow for the receipt of monies collected as continuing education units for the credentialing of interpreters.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board and two individuals.

Your Committee finds that with the decline of available general funds, the Disability and Communication Access Board is exploring other options for revenue generation. This measure will broaden the funding sources for the Disability and Communication Access Board Special Fund, giving the Board the potential to generate more revenue to defray costs of administering chapter 348F, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2813 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2234 (Joint) Health and Energy and Environment on S.B. No. 3006

The purpose and intent of this measure is to reestablish the \$1 motor vehicle tire surcharge to assist the Department of Health in its permitting, monitoring, and enforcement activities regarding used tire management, collection, recycling, and disposal and to require the surcharge to be paid within ninety days after the importer receives the tires.

Your Committees received testimony in support of this measure from the Department of Health, Department of Environmental Services of the City and County of Honolulu, and one individual. Your Committees received comments on this measure from the Hawaii Automobile Dealers Association and one individual.

Your Committees find that though the tire surcharge established in 2000 was helpful to fund an initial cleanup of used tires, without adequate monitoring and enforcement, the tires merely piled up once more.

Your Committees have amended this measure by:

- (1) Deleting the language establishing the \$1 motor vehicle tire surcharge;
- (2) Inserting language to establish a task force that shall study ways to control or prevent the problem of abandoned tires; and
- (3) Changing the effective date from July 1, 2012, to upon approval.

As affirmed by the records of votes of the members of your Committees on Health and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3006, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3006, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 4 (English, Nishihara, Wakai, Slom).

SCRep. 2235 Health on S.B. No. 2826

The purpose and intent of this measure is to provide pharmacists with immunity from liability while performing volunteer medical assistance services.

Your Committee received testimony in support of this measure from the Department of Health, Catholic Charities Hawaii, and The Queen's Health Systems.

Your Committee finds that the lack of coverage for professional liability may discourage valuable medical professionals, such as pharmacists, from participating as volunteers of the State, thereby limiting the ability of the State to draw upon pharmacists' skills as a critical public health resource.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2826, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Shimabukuro, Wakai, Slom).

SCRep. 2236 (Joint) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2748

The purpose and intent of this measure is to:

- (1) Require holders of unclaimed property to remit all property with their November 1 abandoned property report;
- (2) Specify the percentage professional locators are allowed to charge for their services; and
- (3) Correct a reference to the unclaimed property trust fund.

Your Committees received testimony in support of this measure from the Department of Budget and Finance.

Your Committees find that this measure will make Hawaii's law consistent with other states' laws by requiring the reporting and remittance of all unclaimed property at the same time. This measure also proposes to establish a maximum ten percent fee structure for professional unclaimed property locators and clarify a reference to the unclaimed property trust fund.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2748 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7; Ayes with Reservations (Slom). Noes, none. Excused, 4 (Galuteria, Green, Ihara, Nishihara).

SCRep. 2237 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2473

The purpose and intent of this measure is to prohibit the sale, distribution, or procurement of products or packaging containing certain toxic chemicals and to establish for the Hawaii Health Systems Corporation a preference for the procurement of polyvinyl chloride-free intravenous products.

Your Committees received testimony in support of this measure from the Department of Health. Your Committees received testimony in opposition to this measure from the American Chemistry Council and the Toy Industry Association. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that it is in the best interests of the State and the health of the State's residents to utilize intravenous products that do not contain polyvinyl chloride, as doing so runs the risk of chemicals leaching into a patient's blood stream and the absorption of medication by polyvinyl chloride bags.

Your Committees have amended this measure by:

- (1) Removing parts I and II, regarding the restriction and prohibition of products or packaging that use certain chemicals;
- (2) Deleting the severability and savings clauses; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2473, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2473, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 4 (Galuteria, Solomon, Wakai, Slom).

SCRep. 2238 Commerce and Consumer Protection on S.B. No. 2769

The purpose and intent of this measure is to require the Insurance Commissioner to annually publish a list of homeowners insurers and premium information and to permit the Insurance Commissioner to set interim rates upon the disapproval of insurance rate filings for property and casualty insurance.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council, American Insurance Association, and Property Casualty Insurers Association of America. Your Committee received comments on this measure from State Farm Insurance Companies.

Your Committee finds that publication of premium information enables consumers to compare insurance rates. Your Committee further finds that making homeowners insurance information more accessible would assist Hawaii consumers make informed decisions when purchasing homeowners insurance. Your Committee understands that there are cost concerns associated with requiring publication in a newspaper of general circulation in the State. Your Committee therefore finds that an alternative method of publication, particularly in electronic format, is preferable.

Your Committee has heard the concerns regarding the provisions in this measure that would permit the Insurance Commissioner to establish interim insurance rates after disapproval of a rate filing. Concerns were raised that unilateral rate impositions would violate an insurer's due process rights and that temporary interim rates would be costly and impractical for insurance carriers to comply with.

Your Committee concludes that the Insurance Commissioner should have the authority to intervene if rates are deemed excessive, inadequate, or unfairly discriminatory, but recognizes the need for a notice and hearing process.

Your Committee has amended this measure by:

- (1) Requiring the Insurance Commissioner to publish a list of homeowners insurers and homeowners insurance annual premiums on the Insurance Division's official website, rather than in a newspaper of general circulation in the State;
- (2) Requiring all motor vehicle insurers to provide motor vehicle insurance premium information to the Insurance Commissioner within thirty days of the request;
- (3) Specifying that the Insurance Commissioner shall publish a list of all motor vehicle insurers with representative annual premiums by electronic or online publication on the Insurance Division's official website, rather than in a newspaper of general circulation in the State;
- (4) Allowing the Insurance Commissioner to intervene to adjust insurance rates if the Insurance Commissioner finds that the rates are excessive, inadequate, or unfairly discriminatory;
- (5) Requiring the Insurance Commissioner to issue a written notice of disapproval of a filed rate to an insurer;
- (6) Permitting an insurer who has received written notice of disapproval to file a written request to the Insurance Commissioner for a hearing and specifying procedures for the hearing;
- (7) Clarifying that the Insurance Commissioner's disapproval of a rate filing must be based on actuarial, statutory, factual, and legal bases;
- (8) Deleting the language that would have permitted the Insurance Commissioner to establish interim rate filings whenever the Commissioner issues a written notice of disapproval of a filing; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the amendments requiring motor vehicle insurers to provide premium information to the Insurance Commissioner upon request and requiring the Insurance Commissioner to publish motor vehicle insurers and rates on the Insurance Division's official website is a proactive measure on behalf of the Commissioner. Your Committee finds that it is in the public interest to have motor vehicle insurance and homeowners insurance information available and accessible in the same location.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2769, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2769, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2239 Human Services on S.B. No. 2779

The purpose and intent of this measure is to establish aging and disability resource centers in each county to streamline access to long-term supports and services for older adults, persons with disabilities, and family caregivers.

Your Committee received testimony in support of this measure from the Executive Office on Aging of the Department of Health; State Council on Developmental Disabilities; the Disability and Communication Access Board; the Office of Aging, County of Hawai'i; the Department of Community Services, City and County of Honolulu; the Kauai County Agency on Elderly Affairs; the Maui County Office on Aging, Department of Housing and Human Concerns, County of Maui; AARP; the Healthcare Association of Hawaii; the Kewalo Hawaiian Homestead Community Association; the Policy Advisory Board for Elder Affairs; and one individual.

Your Committee finds that the four county area agencies on aging, and the home and community-based services strategies have developed a five-year plan to implement three initiatives: (1) a statewide Aging and Disability Resource Center effort that will meet the United States Department of Health and Human Services Administration on Aging's criteria for a fully functioning Aging and Disability Resource Center; (2) the Community Living Program; and (3) the person-centered Hospital Discharge Planning initiative. This measure will assist the Executive Office on Aging and the area agencies on aging in implementing the five-year plan.

Your Committee further finds that the definition of "developmental disability" is not in accordance with the definition in the Developmental Disability Assistance and Bill of Rights Act of 2000, P.L. 106-402, and the definition of "intellectual disability" is not in accordance with the definition used by the American Association on Intellectual and Developmental Disabilities.

Your Committee has amended this measure by:

- (1) Amending the definitions of "aging and disability resource centers", "area agency on aging", "dementia", "developmental disability", "options counseling", and "intellectual disability";
- (2) Adding kupuna care to the list of federal, state, and county revenue-funded programs and services for which persons may access information through an aging and disability resource center;
- (3) Requiring the Executive Office on Aging, rather than the area agencies on aging, to coordinate the implementation of the statewide Aging and Disability Resource Center;

- (4) Requiring the Aging and Disability Resource Centers to be a function of each area agency on aging within the respective geographic service areas;
- (5) Inserting an appropriation amount of \$1,400,000 and changing the fiscal year of the appropriation to fiscal year 2012-2013;
- (6) Changing the expending agency for the appropriation from the Executive Office on Aging to the Department of Health;
- (7) Changing the effective date to July 1, 2012; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2779, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2779, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2240 (Joint) Human Services and Health on S.B. No. 2319

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Homeless Programs Office of the Department of Human Services and the rental housing trust fund;
- (2) Appropriate funds to the Department of Health for substance abuse treatment, mental health support services, and clean and sober housing services; and
- (3) Appropriate funds to the Department of Human Services for a homeless prevention program, rental assistance program, and matching funds for shelter plus care grants.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation of the Department of Business, Economic Development, and Tourism; the Department of Health; Catholic Charities Hawai'i; the Hawai'i Association of Realtors; the Hawaii Catholic Conference; the Hawaii Disability Rights Center; the Hawaii Island Community Development corporation; the Kaua'i Community Alliance; National Alliance on Mental Illness; Partners in Care; and three individuals. Your Committees received comments on this measure from the Department of Human Services and the Office of Hawaiian Affairs.

Your Committees find that homelessness is a complex issue that requires continuous resources and coordinated efforts at all levels. Providing funding to various homeless and housing programs will assist individuals facing or experiencing homelessness.

Your Committees note that funding homeless programs through the rental housing trust fund will cause a net drain on affordable housing resources in the State of Hawaii because these homeless programs will not replenish the fund. Therefore, your Committees urge the Committee on Ways and Means to consider other, more appropriate funding sources to fund programs providing services to the homeless and homeless shelters.

Your Committees further note that in transitional shelters, homeless families cannot afford market rent and are forced to turn to public housing as their only option. Funding for a rental assistance program, also known as a shallow rent subsidies program, would provide a new and critical option to expedite the transition of homeless families into permanent housing.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of:
 - (A) \$200,000 to assist homeless and at-risk homeless individuals and families with housing placement, health, education, employment, and other support services that is to be expended by the Department of Human Services;
 - (B) \$15,000,000 for the rental housing trust fund that is to be expended by the Hawaii Housing Finance and Development Corporation;
 - (C) \$2,990,300 for substance abuse treatment and mental health support services for individuals who are homeless or at risk of becoming homeless that is to be expended by the Department of Health;
 - (D) \$3,831,300 for clean and sober housing support services that is to be expended by the Department of Health;
 - (E) \$2,000,000 for a homeless prevention program, for short-term assistance to prevent homelessness and obtain or retain permanent housing that is to be expended by the Department of Human Services;
 - (F) \$1,500,000 for a rental assistance program, also known as a shallow subsidy program, that is to be expended by the Department of Human Services; and
 - (G) \$200,000 to provide matching funds for shelter plus care grants that is to be expended by the Department of Human Services; and
- (2) Changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2319, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2319, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Wakai, Slom).

SCRep. 2241 (Joint) Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2506

The purpose and intent of this measure is to:

- (1) Consolidate the driver's license and civil identification programs for the State of Hawaii under the Director of Transportation by January 1, 2013; and
- (2) Allow county examiners of drivers and county employees to issue civil identification cards at the same locations where driver's licenses are issued.

Your Committees received testimony in support of this measure from the Department of Transportation, State Attorney General, Honolulu Licensing Administrator, and one individual. Testimony in opposition to this measure was received from one individual. Comments were received from the Department of Human Resources Development.

Your Committees find that the United States Congress enacted the REAL ID Act of 2005, P.L. 109-13. The REAL ID Act sets forth in title II, specifically sections 201 and 202, the kind of documentation required and procedures to be followed in issuing driver's licenses and non-driver's, or civil, identification cards. Pursuant to section 37.51 of title 6 of the Code of Federal Regulations, the REAL ID Act must be implemented by January 15, 2013. Driver's licenses and civil identification cards that do not comply with the REAL ID Act on or after January 15, 2013, will not be recognized by federal agencies, such as the Transportation Security Administration, and may not be recognized by other states.

Your Committees further find that Hawaii is unique in that the counties, under the general supervision of the Director of Transportation, have been delegated the function of implementing the state driver's license program. Under existing law, the Department of the Attorney General issues civil identification cards. It is imperative that the two functions be combined in order to comply with the REAL ID Act.

Your Committees have amended this measure by:

- (1) Adding language to transfer the balance of all unexpended or unencumbered monies in the state identification revolving fund as of the effective date of the measure to the civil identification card fee special fund on the effective date of this measure;
- (2) Inserting a standard provision for the transfer of personnel, upon the standard recommendation of the Department of Human Resources Development;
- (3) Clarifying that the rules of the Department of the Attorney General relating to the civil identification program shall remain in full force and effect until amended or replaced by the Director of Transportation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and International Affairs and Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2506, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2506, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 3 (Dela Cruz, Hee, Slom).

SCRep. 2242 (Joint) Water, Land, and Housing and Transportation and International Affairs on S.B. No. 2875

The purpose and intent of this measure is to exempt all work involving submerged lands used for state commercial harbor purposes from permitting and site plan approval requirements for lands in a conservation district.

Your Committees received testimony in support of this measure from the Department of Transportation, Land Use Research Foundation of Hawaii, and Hawaii Harbor Users Group. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs and Historic Hawaii Foundation. Your Committees received comments on this measure from the Chamber of Commerce of Hawaii and Building Industry Association of Hawaii.

Your Committees find that the cargo system for Hawaii is dependent on the state commercial harbors system. Currently, ninety-eight percent of Hawaii's imported goods pass through the state's commercial harbors system. Thus, there can be significant detrimental impacts to the delivery of goods if harbor facilities are not maintained or capital improvement projects are not completed in a timely manner due to permit delays.

Your Committees further find that environmental protection oversight of state commercial harbors is already sufficiently provided through several authorities including the state environmental impact statements law and permit requirements by the U.S. Army Corps of Engineers, U.S. Environmental Protection Agency, and the Clean Water Act. Additional permitting and site plan approval requirements are unnecessary given these existing safeguards.

Your Committees understand the importance of timely and efficiently implementing harbor projects and do not want to create two different standards for government harbors and all other harbors.

Accordingly, your Committees have amended this measure by exempting work involving submerged lands used for any harbor purposes from the permitting and site plan approval requirements for lands in a conservation district.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2875, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2875, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 3 (Fukunaga, Tokuda, Slom).

SCRep. 2243 (Joint) Water, Land, and Housing and Transportation and International Affairs on S.B. No. 2876

The purpose and intent of this measure is to:

- (1) Clarify that persons cited by the Department of Transportation for non-criminal violations may appeal the citation and penalties pursuant to administrative procedures and not directly to District Court;
- (2) Clarify that citations and violations for traffic code and other criminal statutes are issued by law enforcement officers;
- (3) Direct rates, fees, fines, and penalties received by the Department of Transportation to be deposited into the harbor special fund; and
- (4) Authorize the Department of Transportation to collect reimbursements from tenants or harbor users that violate security rules, which causes penalties to be incurred by the Department from the United States Coast Guard.

Your Committees received testimony in support of this measure from the Department of Transportation.

Your Committees find that Act 16, Session Laws of Hawaii 2009, requires the Director of Transportation to regulate certain safety and security requirements and other related activities. However, existing statutes are unclear as to whether administrative hearings can be held to allow purported violators to contest non-criminal violations of chapter 266, Hawaii Revised Statutes. Your Committees find that it is necessary to amend the law to clarify that administrative hearings may be held rather than adjudicated in court. Further clarification is also needed to ensure that the fees and fines pursuant to these violations are properly deposited into the harbor special fund.

Your Committees further find that the United States Coast Guard is authorized under federal laws to fine the Department of Transportation for violations of environmental protection and maritime transportation security. Currently, the Department is authorized to collect amounts from the commercial harbor tenant or user who caused the environmental protection violations but not for security violations. This measure will authorize the Department to collect those amounts for security violations and any costs or expenses incurred by the Department resulting from enforcement.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Transportation and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2876, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 3 (Fukunaga, Tokuda, Slom).

SCRep. 2244 Water, Land, and Housing on S.B. No. 2305

The purpose and intent of this measure is to prohibit the taking of any amount, rather than up to one gallon per person per day, of sand and stone seaward from the shoreline, with certain exceptions.

Your Committee received testimony in support of this measure from one private individual. Your Committee received testimony in opposition to this measure from two private individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources who has no opposition to the measure and one private individual.

Your Committee finds that coastal erosion is a natural occurrence and is cyclical like many other processes in nature. However, because we are an island state that is economically dependent on tourism, it is necessary to be vigilant in protecting our natural resources, such as our beaches. It is important for us to consider the consequences of our actions and restrict the taking of sand and other marine deposits from our precious coastal areas.

Your Committee also finds that sand is a resource that has many uses, such as being mixed into concrete, filling sandbags to stave off floods, or for cultural practices, which are beneficial to our economy, public safety, and traditional values.

Accordingly, your Committee has amended this measure by:

- (1) Adding exceptions for response to public emergencies or state or local disasters, and for the exercise of traditional cultural practices; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2305, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2245 Water, Land, and Housing on S.B. No. 2360

The purpose and intent of this measure is to require the Hawaii Community Development Authority to determine the costs and benefits of selling and purchasing certain properties within the Kakaako Community Development District and report its findings to the Legislature.

Your Committee received comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that the Hawaii Community Development Authority is able to purchase and hold title to lands subject to availability of funding without any legislative action. However, legislative approval is required prior to any sale of land owned or under the control of the State.

Your Committee also finds that situations within the district have arisen where it may have been profitable or beneficial to the Authority to expedite real property transactions. These situations include the sale of a reserved housing unit purchased under a buyback option and the sale of a parcel that is not contiguous to other state lands and has no public facility value, and where the sale might allow for other beneficial economic development similar situations may occur in the future, and your Committee finds it necessary to be informed of the costs and benefits of the selling and purchasing of various properties within the district.

In order to be fully prepared for such situations in a timely manner, your Committee has amended this measure by:

- (1) Amending section 206E-31.5, Hawaii Revised Statutes, to prohibit the sale of makai lands in the Kakaako Community Development District;
- (2) Excluding makai lands from the Authority's analysis of costs and benefits of selling and purchasing certain properties; and
- (3) Requiring the Authority's report to be submitted to the Legislature no later than 90 days after the measure's effective date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2360, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2360, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2246 (Joint) Water, Land, and Housing and Agriculture on S.B. No. 3011

The purpose and intent of this measure is to require the Department of Land and Natural Resources to transfer title to all lands under its jurisdiction that are within an agricultural land use district to the Agribusiness Development Corporation by January 1, 2013, excluding lands that are being used by the Department for its offices or other administrative purposes.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, and two private individuals.

Your Committees find that the Agribusiness Development Corporation was created as a rapid response agency to stabilize deteriorating plantation water systems and vacant plantation lands and transition these lands and infrastructure into use for diversified agriculture. It was designed to be entrepreneurial in practice, with exemptions to quickly put diversified farmers onto land and settle issues related to the difficult and complex transition process. Your Committees therefore find that the Agribusiness Development Corporation is a more appropriate agency, as it is more familiar with the agriculture industry, to manage public lands within the agricultural land use district that are currently managed by the Department of Land and Natural Resources.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the language that transferred title to all public lands under the jurisdiction of the Department of Land and Natural Resources and within an agricultural land use district to the Agribusiness Development Corporation;
- (2) Adding language that requires the Department of Land and Natural Resources to transfer the parcels of land identified by tax map key numbers (9)4-0-12:001, (9)4-0-12:002, and (9)4-0-12:003 to the Agribusiness Development Corporation no later than January 1, 2013;
- (3) Adding language to make the necessary transfers of rights, powers, functions, duties, and references to the Agribusiness Development Corporation; and
- (4) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

However, your Committees are concerned about the broadness of the language and find that only certain parcels should be transferred.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3011, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3011, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Chun Oakland, Fukunaga, Tokuda).

SCRep. 2247 (Joint) Commerce and Consumer Protection and Economic Development and Technology on S.B. No. 2504

The purpose and intent of this measure is to:

- (1) Require pet sellers to implant an identification microchip in a dog or cat prior to sale or exchange and provide written documentation on each dog or cat sold; and

- (2) Prohibit pet sellers from selling an unsterilized dog or unsterilized cat.

Your Committees received testimony in support of this measure from the Humane Society of the United States, Hawaiian Humane Society, West Hawaiian Humane Society, CatFriends, Boxer Club of Hawaii, Hui Pono Holoholona, and twenty individuals. Your Committees received testimony in opposition to this measure from the American Kennel Club; American Herding Breed Association; King Street Pet Hospital; Hawaii Hulacat Club; Dachshund Club of Hawaii; Golden Retriever Club of Hawaii; Terriers in Paradise-Hawaii, Inc.; The Pet Depot; The Pet Hale; Pupukeya Ridgebacks; Leeward Training Club of Hawaii; Southern California Alaskan Malamute Club; Wolfpak Dobermans; Kona Coast Kennel Club; Labrador Retriever Club of Hawaii; Aloha Cat Fanciers; Hawaiian Chinese Shar-Pei Club; Hawaiian Kennel Club; United State Working Dog Foundation; and one hundred and ninety individuals. Your Committees received comments on this measure from Poi Dogs and Popoki and one individual.

Your Committees find that the amendments proposed by this measure attempt to better protect Hawaii's animals and consumers. This measure requires implantation of an identification microchip in a dog or cat prior to sale and sterilization of a dog or cat prior to sale. This measure also requires pet sellers to provide essential history and medical information to purchasers, animal care, and animal control agencies.

Your Committees have heard the concerns about the prohibition on the sale of unsterilized dogs and cats. Concerns were raised that this prohibition would limit the ability of Hawaii residents to obtain future generations of pets, would limit breeders' abilities to introduce new bloodlines, and would limit the healthy expansion of gene pools for purebred dogs and cats. Your Committees understand these concerns but note that this measure was not intended to target responsible breeders. However, your Committees conclude that amendments, including exempting breeders from the requirements of this measure, are necessary.

Your Committees have amended this measure by:

- (1) Amending the definition of "pet seller" to apply only to retail pet stores or those who sell dogs or cats to a retail pet store;
- (2) Adding a definition of "public place", as that term is defined in section 711-1100, Hawaii Revised Statutes;
- (3) Amending the definition of "retail pet store" to clarify that the term shall not apply to humane societies, animal control, rescue, or care organizations, or retail pet stores acting in cooperation with these organizations;
- (4) Deleting the definitions of "unsterilized cat" and "unsterilized dog";
- (5) Clarifying the microchip requirements for dogs or cats prior to sale or exchange at a retail pet store;
- (6) Requiring a retail pet store to collect the appropriate county dog licensing form and fees from a purchaser of a dog, and to submit the form and fees to the appropriate county;
- (7) Clarifying that pet sellers must deliver certain information relating to the health of a dog or cat to a retail pet store, and clarifying that retail pet stores must deliver certain information relating to the health of a dog or cat to a purchaser;
- (8) Requiring retail pet stores to provide a purchaser with written information on the health and other benefits of spaying and neutering;
- (9) Clarifying that a retail pet store, but not a pet seller, shall make certain documents available for inspection to county humane officers, animal control officers, or law enforcement officers during normal business hours;
- (10) Deleting language that would have prohibited the sale of an unsterilized dog or unsterilized cat by a pet seller;
- (11) Adding language that prohibits the sale, exchange, gifting, display for commercial purposes, or trading of any dog or cat in any public place, but exempting certain organizations who facilitate the adoption of animals;
- (12) Amending the penalty provision from a petty misdemeanor to a fine of \$500 per violation;
- (13) Inserting an effective date of January 2, 2050, to allow for further discussion; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2504, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2504, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 8, Ayes with Reservations (Solomon, Taniguchi, Slom). Noes, none. Excused, 1 (Galuteria).

SCRep. 2248 Human Services on S.B. No. 2178

The purpose and intent of this measure is to increase the asset limit for Temporary Assistance for Needy Families program eligibility from \$5,000 to \$15,000.

Your Committee received testimony in support of this measure from the Hawai'i Alliance for Community-Based Economic Development; the Office of Hawaiian Affairs; the University of Hawai'i's Bridge to Hope; and the Women's Caucus, Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that raising or eliminating the public benefit program asset limit is part of a broader asset building agenda that seeks to foster financial independence and self-sufficiency for Hawai'i's families. Your Committee further finds that a change in the asset limit may affect all public assistance programs that the Department of Human Services administers.

Your Committee has therefore amended this measure by:

- (1) Requiring the Department of Human Services to conduct a study on asset limits for public assistance programs that includes:
 - (A) An evaluation of the current asset limits;
 - (B) Promising practices, policies, and trends; and
 - (C) The effects of changing the asset limit on the Supplemental Nutritional Assistance Program, Temporary Assistance for Needy Families program, Temporary Assistance to Other Needy Families program, and Med-QUEST program;
- (2) Requiring the Department of Human Services to report its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2178, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2249 Human Services on S.B. No. 2466

The purpose and intent of this measure is to establish the nursing facility sustainability program, including a nursing sustainability fee and special fund in which nursing sustainability fees shall be deposited.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, the Healthcare Association of Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from Palolo Chinese Home. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that provider fee programs are used as a means of drawing down additional federal funds to sustain state Medicaid programs. Currently, program fees are used in forty-six states and the District of Columbia. Hawaii is one of only four states without such a program, despite the rising state budget deficit due to increasing health care costs and expanding Medicaid rolls.

Your Committee notes that the Department of Budget and Finance does not support the creation of special funds that do not meet the requirements of section 37-52.3, Hawaii Revised Statutes, which are that the special fund must:

- (1) Serve the purpose for which it was originally established;
- (2) Reflect a clear nexus between the benefits sought and charges made upon the users or beneficiaries of the program;
- (3) Provide an appropriate means of financing for the program or activity; and
- (4) Demonstrate the capacity to be financially self-sustaining.

As this measure is currently drafted, it is difficult to determine whether there is a clear nexus between the nursing facilities that are assessed fees and the nursing facilities that receive increased Medicaid payments, and it does not appear that the special fund will be self-sustaining.

Your Committee further notes that according to the Healthcare Association of Hawaii's testimony, the model for the nursing sustainability program is still being developed because the data required to design it is still being gathered. Therefore, additional amendments may be required as this measure progresses through the legislative process.

Your Committee has amended this measure by:

- (1) Adding the definitions of "continuing care retirement community";
- (2) Exempting continuing care retirement communities from the nursing sustainability fee subject to federal approval under title 42 Code of Federal Regulations section 433.68(e)(2);
- (3) Rescheduling the fee payment to a monthly basis rather than a quarterly basis;
- (4) Providing specific examples of Centers for Medicare and Medicaid Services' approvals that may be needed;
- (5) Including the Healthcare Association of Hawaii and the Hawaii Long Term Care Association as entities that will certify that the revenues received by the Department of Human Services from the QUEST and QUEST Expanded Access Plans are used exclusively for increasing nursing facility reimbursements to support the availability of services and to ensure access to care to QUEST and QUEST Expanded Access enrollees;
- (6) Correcting an incorrect reference to inpatient use;
- (7) Authorizing the State to modify the categories of exempt facilities and the rate adjustment provisions if needed for Centers for Medicare and Medicaid Services' approval;
- (8) Inserting an effective date of July 1, 2050, to ensure further discussion;
- (9) Deleting the repeal date of June 30, 2013; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2466, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2250 Tourism on S.B. No. 490

The purpose and intent of this measure is to:

- (1) Increase the allocation of the transient accommodations tax revenue for the Hawaii Tourism Authority from \$69,000,000 to \$71,000,000 until June 30, 2015; and
- (2) Require \$2,000,000 to be expended for development and implementation of initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Airlines Committee of Hawaii, Kohala Coast Resort Association, Outrigger Hotels Hawaii, Starwood Vacation Ownership, and ILWU Local 142. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that in the first quarter of this year, air seats to Hawaii are expected to rise 3.8 percent, fueled in part by capacity increases from the Japan, China, and South Korea markets. Coupled with the recent federal executive order to expand visa and travel initiatives, this offers an unprecedented opportunity for Hawaii's tourism industry. Your Committee is in strong support of this measure to provide the Hawaii Tourism Authority with funding to take advantage of the expanded options for tourism growth.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 490, S.D. 2, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2251 Human Services on S.B. No. 3060

The purpose and intent of this measure is to make it unlawful for persons convicted of certain sexual offenses committed against a child twelve years of age or younger to reside within seven hundred fifty feet of any school building or any real property comprising a school.

Your Committee received testimony in support of this measure from the Pali View Baptist Church and three individuals. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawaii.

Your Committee finds that children and families expect schools and properties comprising schools to be safe and nurturing environments. In line with this expectation, this measure will prohibit persons convicted of sexual offenses against a child twelve years of age or younger from residing within close proximity of any school building or any real property comprising a school.

However, your Committee also finds that there are studies that deem residency restrictions ineffective and indicate that residency restrictions could possibly increase the threat that registered sexual offenders may pose on public safety.

Your Committee notes that the distance of seven hundred and fifty feet from a school building or any real property comprising a school described in the measure, as is currently drafted, may make it difficult for any persons convicted of sexual offenses to reside in Hawaii.

Your Committee has amended this measure by:

- (1) Deleting the 750-foot distance requirement for residency and leaving it unspecified;
- (2) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3060, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3060, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2252 Health on S.B. No. 2091

The purpose and intent of this measure is to increase the maximum membership of the Prepaid Health Care Advisory Council to nine members and include representatives of health care organizations on the Prepaid Health Care Advisory Council to provide their perspectives regarding health plan benefits.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, The Queen's Health Systems, Health Care Association of Hawaii, and one individual.

Your Committee finds that including representation from health care organizations would give the Prepaid Health Care Advisory Council valuable perspectives on the design of health plan benefits. Members representing health care organizations may add the expertise needed to create value-based insurance benefits that could improve the prevention and treatment of chronic diseases and ultimately reduce Hawaii's health care costs.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2091 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2253 Health on S.B. No. 2100

The purpose and intent of this measure is to amend the offense of assault in the second degree to include intentionally or knowingly causing bodily injury to certain medical services providers.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii; Pali Momi Medical Center; American Organization of Nurse Executives, Hawaii Chapter; The Queen's Health Systems; and the Hawaii Chapter, American Physical Therapy Association.

Your Committee finds that a broader range of medical services providers deserve the same statutory protection provided under this measure to emergency medical services providers and that protecting the providers who deliver much-needed care and services is paramount to the well-being of the people of the State.

Your Committee has amended this measure by including intentionally or knowingly causing bodily injury to medical services staff who provide services in a dentist's office, home care agency, home health agency, hospice, long-term care facility, or physician's office under the offense of assault in the second degree.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2100, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2254 Health on S.B. No. 2101

The purpose and intent of this measure is to make permanent the state general excise tax exemption for the amounts received by a managed care support contractor of the TRICARE program for the actual cost or advancement to third party health care providers, pursuant to a contract with the United States for the administration of the TRICARE program.

Your Committee received testimony in support of this measure from the Department of Taxation; Military Officers Association of America, Hawaii Chapter; Chamber of Commerce of Hawaii; TriWest Healthcare Alliance Inc.; and HMSA.

Your Committee finds that this exemption will support the continued availability, accessibility, and strength of the TRICARE program for the many current and former military personnel as well as their families.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2101 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2255 Health on S.B. No. 2578

The purpose and intent of this measure is to require informed consent in certain circumstances before performing pelvic examinations for training purposes on anesthetized or unconscious female patients.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii State Democratic Women's Caucus, University of Hawaii John A. Burns School of Medicine, American Civil Liberties Union of Hawaii, and four individuals. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that the University of Hawaii John A. Burns School of Medicine's Department of Obstetrics, Gynecology, and Women's Health has a policy of consent currently in place regarding pelvic examinations under anesthesia. Your Committee further finds that permitting the John A. Burns School of Medicine to receive consent either verbally or in written form will allow for the most flexibility for the medical students and their patients. Your Committee would also like to note that this issue was raised by a student of the John A. Burns School of Medicine who was concerned with the state of practice regarding pelvic examinations on anesthetized or unconscious women.

Your Committee has amended this measure by:

- (1) Deleting the statement that asserts that medical students often perform pelvic examinations for training purposes on anesthetized or unconscious female patients without first obtaining the patients' informed consent;
- (2) Allowing for either verbal or written informed consent for the pelvic examination; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2578, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2578, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2256 Health on S.B. No. 2035

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds of up to \$3,000,000 for Wahiawa General Hospital to construct health care facilities.

Your Committee received testimony in support of this measure from the United Public Workers (AFSCME Local 646, AFL-CIO), the Healthcare Association of Hawaii, and one individual.

Your Committee finds that the closure of the Hawaii Medical Center facilities has resulted in the severe impairment of health care services in the State and that the funds provided through special purpose revenue bonds to Wahiawa General Hospital would allow for the expansion of facilities and for the provision of additional medical services for neighboring communities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2035 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2257 Health on S.B. No. 2103

The purpose and intent of this measure is to clarify that registered nurses are required to use reasonable judgment in carrying out the orders of a physician that are delivered through a physician assistant acting as an agent of the supervising physician.

Your Committee received testimony in support of this measure from the Board of Nursing, Hawaii State Center for Nursing, Hawaii Academy of Physician Assistants, the Puna Community Medical Center, Hawaii Medical Association, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of Professional Nurses and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that physician assistants do not just deliver the orders of a physician. Rather, physician assistants are licensed to order diagnostic and therapeutic procedures and write orders for medications per the physician-approved preauthorized practice agreement within their scope of practice. This measure allows physician assistants to provide valuable medical care to the full extent of their practice and under physician supervision.

Your Committee has amended this measure by:

- (1) Amending the definition of "the practice of nursing as a registered nurse" to authorize nurses to carry out orders of a licensed physician assistant who is practicing with physician supervision pursuant to chapter 453, Hawaii Revised Statutes, and acting as an agent of the supervising physician, rather than the orders of a physician delivered through a physician assistant; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2103, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2258 (Joint) Health and Human Services and Judiciary and Labor on S.B. No. 2126

The purpose and intent of this measure is to consolidate the authority, duties, responsibilities, and jurisdiction of the Department of Human Services and the Department of Health, as they relate to various health care services and to transfer the programs of the Department of Human Services relating to home and community-based case management, community care foster family homes, and adult day care to the Department of Health.

Your Committees received testimony in support of this measure from the Policy Advisory Board for Elder Affairs and two individuals. Your Committees received testimony in opposition to this measure from the Filipino Chamber of Commerce of Hawaii. Your Committees received comments on this measure from the Department of Health, Department of Human Resources Development, and the Case Management Council.

Your Committees find that the Department of Health has an established Office of Health Care Assurance that manages state licensing and federal certification of medical and health care facilities, agencies, and services provided throughout the State to ensure compliance with established standards of care. Given the Office's existing functions, your Committees find that similar health care services currently provided by the Department of Human Services and the Department of Health should be consolidated under the jurisdiction of the Office of Health Care Assurance to improve the efficiency, capacity, and quality of state health care services.

Your Committees have amended this measure by:

- (1) Adding an appropriation for the Department of Health to perform the duties and services that are not sufficiently funded by the funds transferred from the Department of Human Services;

- (2) Adopting the Department of Human Resources Development's language, regarding the rights and benefits of the employees to be transferred to the Department of Health;
- (3) Inserting an effective date of January 1, 2050, to allow for further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2126, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2126, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 2259 Tourism on S.B. No. 2642

The purpose and intent of this measure is to appropriate \$2,000,000 for the Hawaii Tourism Authority for fiscal year 2012-2013 for initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority; Hawaii Lodging & Tourism Association; Outrigger Hotels; AQUA Hotels and Resorts; Hyatt Regency Waikiki Beach Resort & Spa; Airlines Committee of Hawaii; Airport Concessionaires Committee; Hawaiian Airlines; ILWU Local 142; Retail Merchants of Hawaii; Enterprise Honolulu; Hawaiian Electric Company, Inc.; Oceanic Time Warner Cable; Atlantis Adventures; PHT, Inc.; Makani Kai Helicopter; Maui Classic Charters; Smith's Motor Boat Service, Inc.; Attractions Association of Hawaii; Polynesia Cultural Center; True Blue Inc.; Dragon Tours and Travel; and three individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the Travel Promotion Act of 2009 was enacted to encourage public-private partnerships to promote international travel to the United States. The recent announcement by President Obama, and the initiatives of the federal government to make it easier for international travelers to Hawaii through improved visa processing and visa waivers, will be highly beneficial to Hawaii's tourism economy and advance efforts to provide up to an estimated 154,000 jobs.

Your Committee further finds that the \$2,000,000 appropriation in this measure would fund the development and implementation of programs to take advantage of the expanded visa programs and international travel opportunities.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2642 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2260 (Joint) Health and Human Services and Judiciary and Labor on S.B. No. 2121

The purpose and intent of this measure is to:

- (1) Permit any interested person, as defined under section 334-1, Hawaii Revised Statutes, to file a written petition for emergency admission, under certain conditions;
- (2) Require an independent evaluation of a patient admitted to a licensed psychiatric facility for involuntary hospitalization in certain circumstances;
- (3) Require the Department of Health to establish and implement the crisis response pilot program, under which designated crisis responders will be authorized to conduct investigations and detain persons who are imminently dangerous to self or others or gravely disabled for up to seventy-two hours in a proper facility; and
- (4) Seek a federal Medicaid reimbursement for the maximum federal match to appropriate funds to the Department of Human Services, which shall transfer the funds to the Department of Health so that it may establish and administer the crisis response pilot program.

Your Committees received testimony in support of this measure from NAMI Hawaii, Kahi Mohala Behavioral Health, and two individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Health, Hawaii Disability Rights Center, and one individual.

Your Committees find that this measure seeks to ensure that people who need care receive care and that at the same time an individual's rights are respected.

Your Committees request that the funds that this measure proposes to appropriate for the crisis response pilot program be appropriated instead to the Department of Health.

Accordingly, your Committees have amended this measure by:

- (1) Removing part 2, which established the crisis response pilot program and appropriated funds for the pilot program;
- (2) Removing "imminently" from the term "imminently dangerous" and making conforming amendments throughout chapter 334, Hawaii Revised Statutes;

- (3) Adding language to section 334-59, Hawaii Revised Statutes, emphasizing the court's authority to appoint a guardian ad litem for individuals who receive care, at any stage of emergency admission proceedings, pursuant to section 334-82, Hawaii Revised Statutes;
- (4) Adding language to limit the persons who may file a written petition for emergency admission of an individual to persons with a clear and abiding interest in the well-being of the individual for whom care is sought, noting that the intent of this amendment is to limit involvement to persons who have knowledge of or a relationship with, but not necessarily a familial relationship, the individual for whom care is sought; and
- (5) Inserting an effective date of January 1, 2050, to allow for further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2121, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2121, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Gabbard, Wakai, Slom).

SCRep. 2261 (Joint) Health and Human Services on S.B. No. 2472

The purpose and intent of this measure is to:

- (1) Define and establish "patient-centered medical homes";
- (2) Encourage licensed health care providers and patients to partner in the patient-centered medical home;
- (3) Define quality standards that will reduce disparities in health care access, delivery, and health care outcomes; and
- (4) Improve the overall quality of health care and lower the costs therein.

Your Committees received testimony in support of this measure from the Office of the Governor, AARP Hawaii, Kaiser Permanente, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services. Your Committees received comments on this measure from the Department of the Attorney General, HMSA, and Ohana Health Plan.

Your Committees find that though defining and encouraging the utilization of patient-centered medical homes are critical to providing better care for the people of the State, the State should not define the patient-centered medical home in terms that are dissimilar to federal laws so that the State remains eligible for federal assistance in promoting the patient-centered health home under the Patient Protection and Affordable Care Act.

Your Committees have amended this measure by replacing the language that established a new chapter, the Patient-Centered Medical Home Act, with language provided by the Healthcare Transformation Coordinator of the Office of the Governor, which:

- (1) Supports the implementation of the Med-Quest Patient-Centered Medical Home Initiative to allow the State to access federal support under the provisions of the Patient Protection and Affordable Care Act;
- (2) Describes the reporting duties of the Healthcare Transformation Coordinator with regard to the Med-Quest Patient-Centered Medical Home Initiative;
- (3) Appropriates funds for the Department of Human Services to implement a patient-centered medical home pilot with federal matching funds and to the Office of the Governor to support the Healthcare Transformation Coordinator and staff; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2472, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2472, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Ihara, Wakai).

SCRep. 2262 Health on S.B. No. 2778

The purpose and intent of this measure is to appropriate funds in order to:

- (1) Collect and analyze Hawaii-specific early childhood overweight and obesity data to identify children at risk;
- (2) Increase awareness of the health implications of early childhood obesity;
- (3) Promote best practices through community-based initiatives to improve healthy life choices; and
- (4) Establish a task force to develop and recommend legislation related to the prevention of childhood obesity.

Your Committee received testimony in support of this measure from the Office of the Governor, Hawaii Association for the Education of Young Children, Consumer Family & Youth Alliance, and two individuals. Your Committee received comments on this measure from the American Beverage Association.

Your Committee finds that early childhood is a critical period within which to initiate preventative measures against obesity later in life.

Your Committee has amended this measure by:

- (1) Inserting additional background information in the purpose section;
- (2) Establishing a childhood obesity prevention task force; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2778, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2778, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Shimabukuro, Wakai, Slom).

SCRep. 2263 (Joint/Majority) Health and Judiciary and Labor on H.B. No. 466

The purpose and intent of this measure is to:

- (1) Require that independent medical examinations and permanent impairment rating examinations for workers' compensation claims be performed by physicians mutually agreed upon by employers and employees or appointed by the Director of Labor and Industrial Relations; and
- (2) Appropriate funds for the hiring of staff necessary to address workers' compensation claims.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State AFL-CIO; Hawaii State Chiropractic Association; International Association of Rehabilitation Professionals-Hawaii; Vocational Management Consultants, Inc.; ILWU Local 142; Law Office of David J. Mikonczyk; Hawaii Injured Workers Association, Plumbers and Fitters Union, Local 675; United Public Workers; and twenty individuals. Your Committees received testimony in opposition to this measure from Jack Harter Helicopters, Inc.; Property Casualty Insurers; NFIB Hawaii; Securitas Security USA; John Mullen & Co., Inc.; Society for Human Resource Management – Hawaii Chapter; Retail Merchants of Hawaii; Hawaii Insurers Council; Hawaii Employers' Mutual Insurance Company, Inc.; Building Industry Association of Hawaii; Hawaii Bankers Association; Independent Living of Hawaii, Inc.; North Shore Farms, LLC; and sixteen individuals. Your Committees received comments on this measure from the Department of Human Resources Development and the National Council on Compensation Insurance, Inc.

Your Committees find that it is in the best interest of the State and its residents to improve the fairness of the workers' compensation system and the care provided to workers who are injured on the job.

Your Committees have amended this measure by:

- (1) Requiring that the physician chosen by the Director of Health shall be paid for by the employer;
- (2) Requiring any physician mutually selected by the employer and employee or appointed by the Director of Health to examine the employee within forty-five, rather than thirty, calendar days or as soon as practicably possible;
- (3) Allowing for more than one employer-requested independent medical examination and one permanent impairment rating examination in cases where major surgery and elective surgery, or either, is contemplated;
- (4) Subject to the approval of the Director of Health, allowing an out-of-state licensed physician to be utilized for an out-of-state claimant or if there is no Hawaii-licensed physician in a relevant medical specialty, and a physician who resides outside the state of residence of an out-of-state claimant to be utilized if there is no physician available in a relevant medical specialty in the out-of-state claimant's state of residence;
- (5) Changing the effective date to October 1, 2012, except for section 3, which shall take effect on July 1, 2012, and changing the repeal date of the Act to June 30, 2017; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 466, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 466, H.D. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Slom). Excused, 3 (Ihara, Nishihara, Wakai).

SCRep. 2264 Public Safety, Government Operations, and Military Affairs on S.B. No. 2909

The purpose and intent of this measure is to limit the scope of the definition of a public safety agency, for purposes of the enhanced 911 services law, to divisions of the State or county that have the authority to provide firefighting, law enforcement, ambulance, medical, or other emergency services and private entities contracted by a state or county agency to provide these same services.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Enhanced 911 Board, Honolulu Police Department, Honolulu County Department of Information Technology, Hawaii Police Department, and one individual.

Your Committee finds that the current definition of public safety agency as a division of a governmental agency is overly broad. The intent of this measure is to clearly identify as a public service agency a division of the state or county authorized to provide firefighting, law enforcement, ambulance, medical, or other emergency services.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2909 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2265 Public Safety, Government Operations, and Military Affairs on S.B. No. 3031

The purpose and intent of this measure is to clarify that a licensee who timely prevents or suppresses any violent, quarrelsome, disorderly, lewd, immoral, or unlawful conduct of any person on the premises is not in violation of the law on certain prohibitions on liquor licensees.

Your Committee received testimony in support of this measure from Centerplate and Hawaii Bar Owners Association. Comments were received from the Honolulu Liquor Commission.

Your Committee finds that existing law provides for an "immediate" action by the liquor licensee to prevent or suppress violent, quarrelsome, disorderly, lewd, immoral, or unlawful conduct. This measure substitutes "timely" for "immediate," which is intended to afford the licensee a more practical time period in which to address the behavior.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3031 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2266 Public Safety, Government Operations, and Military Affairs on S.B. No. 2030

The purpose and intent of this measure is to allow, in a procurement pursuant to competitive sealed bidding, a bidder two additional days after the bid submission closing date to submit names of joint contractors or subcontractors, after which time the bids are required to be opened.

Your Committee received testimony in support of this measure from King & Neel, Inc.; Ralph S. Inouye Co Ltd; Building Industry Association; General Contractors Association of Hawaii; Grace Pacific Corporation; and S & M Sakamoto, Inc. Testimony in opposition was received from the Honolulu Budget and Fiscal Services Department; Ironworkers Stabilization Fund; Plumbing & Mechanical Contractors Association of Hawaii; Associated Builders and Contractors, Inc.; Subcontractors Association of Hawaii; and Steel Fabricators and Erectors of Hawaii.

Your Committee finds that this measure allows the bidder to ensure that all subcontractors who have submitted bids to the general contractor have met all of the requirements to perform work on state and county projects, including meeting all licensing, bonding, and insurance requirements. The additional time is necessary because in most cases the general contractor does not receive bid prices from the various subcontractors until shortly before the bid must be submitted to the state agency. This means that the general contractor does not have time to check whether the subcontractors who have submitted bids meet the requirements to work on the job, especially the proper licenses issued by the Contractors License Board.

Your Committee has amended this measure by:

- (1) Requiring that the submission of required bid information and bid corrections or amendments be submitted up to two days prior to the closing date for the submission of bids;
- (2) Deleting the provision requiring that bids be opened in accordance with existing law following the close of the two-day period after the closing date for submission of bids; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2030, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2267 (Joint) Public Safety, Government Operations, and Military Affairs and Human Services on S.B. No. 2071

The purpose and intent of this measure is to allow the conducting of criminal history checks by county liquor commissions on prospective liquor commission employees, and by counties on employees working with vulnerable adults or seniors; employees for fire and emergency medical services; and emergency management employees.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, the Hawaii Civil Rights Commission, the Department of Human Resources of the City and County of Honolulu, and the Department of Information Technology of the City and County of Honolulu.

Your Committees find that public trust must not be compromised when individuals are hired for positions that involve liquor investigations, emergency responses, emergency management, and community-based services. Your Committees also find that with the current influx of out-of-state individuals applying for civil service jobs in Hawaii, counties do not have an effective means of conducting a thorough background check, including reviewing prospective employees' convictions that occurred outside of the State of

Hawaii. This measure will authorize the counties to efficiently obtain criminal history record information to ensure counties are hiring individuals who are suitable to work in close proximity to children and other vulnerable citizens.

Your Committees further find that section 378-2.5(d), Hawaii Revised Statutes, exempts the counties from the following limitations:

- (1) Inquiries and consideration of conviction records for prospective employees must be made only after a conditional job offer is made; and
- (2) The employer may consider the employee's conviction record for up to the ten most recent years, excluding periods of incarceration, in the exercise of their authority to conduct criminal history record checks pursuant to section 846-2.7, Hawaii Revised Statutes.

Your Committees find that this law provides counties with an overly broad authorization to conduct criminal history record checks.

Your Committees have therefore amended this measure by:

- (1) Limiting the exemptions under 378-2.5(d), Hawaii Revised Statutes, to apply only to the conducting of criminal background checks by the counties for county employees and prospective employees working in close proximity to children in recreation or child care programs and services or involving contact with vulnerable adults, such as senior citizens and disabled citizens, or children; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2071, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2071, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2268 Public Safety, Government Operations, and Military Affairs on S.B. No. 2728

The purpose and intent of this measure is to authorize officers of the Federal Bureau of Investigation and the United States Immigration and Customs Enforcement to make arrests without a warrant and repealing the authorization to officers of Citizenship and Immigration Services to make arrests without a warrant.

Your Committee received testimony in support of this measure from the State Attorney General. Testimony in opposition was received from the American Civil Liberties Union of Hawai'i and one individual.

Your Committee finds that the authorization of arrest powers under state law will allow Federal Bureau of Investigation and the United States Immigration and Customs Enforcement officers to make arrests under limited circumstances under state law, and thereby provide support to state and county law enforcement efforts. The State and county must rely on federal law enforcement cooperation and support for natural disasters, joint law enforcement task force efforts, and major or national events. This measure aligns state law with the federally granted enforcement authority of Federal Bureau of Investigation and United States Immigration and Customs officers and corrects state law regarding Citizenship and Immigration Services officers, who do not have the authority to make arrests under federal law.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2728 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2269 Public Safety, Government Operations, and Military Affairs on S.B. No. 2731

The purpose and intent of this measure is to update the current laws on sex offender registration to address issues that have arisen in the implementation of the sex offender registration law by:

- (1) Adding comparable foreign convictions and tribal convictions to covered offenses for which registration is required;
- (2) Amending the definition of conviction to clarify that a conviction, for purposes of sex offender registration, occurs on the date judgment is entered;
- (3) Clarifying the definition of sexual offense to include certain acts that are an attempt, criminal solicitation, or criminal conspiracy to commit certain sexual offenses;
- (4) Repealing the definitions of "mental abnormality," "personality disorder," and "predatory," which are no longer used in the chapter;
- (5) Requiring offenders who are subject to sex offender registration or notification in their jurisdiction of conviction, to also register as sex offenders in Hawaii law;
- (6) Clarifying that a covered offender must register and report the offender's permanent residence or address of current temporary residence, or, if an address is not available, a description of the place or area in which the covered offender resides, whether or not a Hawaii resident, if the offender remains in the State for more than ten days or an aggregate period exceeding thirty days in one calendar year;

- (7) Clarifying that covered offenders who do not have registered residences to which the post office can deliver mail, and therefore cannot receive the ninety-day verification mailings, are required to report to any police station once per month;
- (8) Adding an element to the offense of failure to comply with covered offender registration requirements of failure to report to any police station in the State by the last day of every month for verification of registration information; and
- (9) Creating a tier classification for any covered sexual offenses that are not included within the current tier classification law.

Your Committee received testimony in support of this measure from the State Attorney General and the Kauai Prosecuting Attorney.

Your Committee finds that this measure strengthens current law to enhance the protection of the public by addressing certain deficiencies that may allow registered sex offenders to elude monitoring, as intended by the sex offender registration law.

According to testimony of the Attorney General, the title of this measure may be too narrow to include some of its provisions. Your Committee believes this measure is sufficiently important to pass out on Second Reading, although perhaps a short form bill with the proper title might be more suitable. The Attorney General should be prepared with such a bill or to amend this bill in your Committee on Judiciary and Labor.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2731 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2270 Public Safety, Government Operations, and Military Affairs on S.B. No. 2735

The purpose and intent of this measure is to require prisoners to exhaust administrative remedies before bringing a civil court action on prison conditions.

Your Committee received testimony in support of this measure from the Department of Public Safety and State Attorney General. Testimony in opposition was received from the American Civil Liberties Union of Hawai'i, and one individual. Comments were received from the Community Alliance on Prisons.

Your Committee finds that this measure is patterned after an aspect of the Federal Prison Litigation Reform Act, which was enacted in 1996. The process under this measure is currently utilized in the federal courts.

Current practice in Hawaii allows the correctional facilities the time and opportunity to address complaints internally, through the inmate grievance system, before allowing a prisoner to initiate a state lawsuit. The administrative grievance resolution system in Hawaii's correctional facilities requires a three-step procedure, with twenty days allocated to each step.

Your Committee has received complaints from prisoners about lagging response times to complaints and inadequate administrative resolution of those complaints. Your Committee is gravely concerned that prisoner complaints are not being given prompt attention and fair resolution, whatever the merits of the complaint or the reputation of the prisoner making the complaint. Inasmuch as the administrative complaint resolution process is an internal administrative matter, your Committee wishes to make clear that it will not tolerate conditions in prisons that are unacceptable by conventional and reasonable standards.

Your Committee is also concerned about the fate of Hawaii prisoners housed in mainland correctional facilities. These contract prisons are bound by the terms of the contract when it comes to prison conditions and resolving prisoner complaints. Your Committee has learned that the Department of Public Safety has not had a monitor in place for the past year or more to report on Hawaii prisoner complaints at mainland prisons. A monitor would keep the Department of Public Safety continuously informed of the welfare of Hawaii prisoners confined on the mainland. Your Committee notes that the Department of Public Safety is in the process of searching for a new monitor.

Your Committee has amended this measure by:

- (1) Limiting the administrative remedy process to sixty days, after which time the prisoner may file an action in a state court; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2735, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2271 Public Safety, Government Operations, and Military Affairs on S.B. No. 2865

The purpose and intent of this measure is to expand the allowed uses of federal reimbursement maximization special fund monies to reflect United States Department of Justice approved uses.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that existing law limits uses of federal reimbursement maximization special fund monies to provide the state match for federal grants. Since the enactment of section 353C-7, Hawaii Revised Statutes, by Act 172, Session Laws of Hawaii 2001, the Department of Justice has developed rules that allow expanded uses of the funds for correctional purposes. As federal grant

opportunities are currently diminishing, it would greatly benefit the Department of Public Safety to access federal reimbursement maximization special fund monies for other pressing needs. This measure allows the Department of Public Safety to access these monies to further the goals of corrections, including providing training for corrections officers; conducting facility or program evaluations; renting or purchasing vehicles for inmate transport; providing pre-release and re-entry programs; improving technology; and developing a plan for workforce recruitment and retention.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2865 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2272 Public Safety, Government Operations, and Military Affairs on S.B. No. 2945

The purpose and intent of this measure is to authorize, in any county with a population of five hundred thousand or more, the revocation or suspension of a liquor license for a continuing pattern of noise, disturbance, misconduct, or disorder on or about the licensed premises.

Your Committee received testimony in support of this measure from the Liquor Commission of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Hawaii Bar Owners Association and two individuals.

Your Committee finds that this measure will help ensure the health, welfare, and safety of patrons of such licensed premises, as well as improve the living environment of the community in which the licensed premises are located, by allowing a liquor board or commission to revoke or suspend an establishment's liquor license for a continuing pattern of noise, disturbance, misconduct, or disorder.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2945 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2273 Public Safety, Government Operations, and Military Affairs on S.B. No. 2950

The purpose and intent of this measure is to make a grant-in-aid appropriation to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Honolulu Family Justice Center.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney and Honolulu Department of Community Services.

Your Committee finds that a grant-in-aid to the Honolulu Family Justice Center is necessary and is in the interests of promoting public safety and welfare.

The Family Justice Center is the product of the battered women's movement in the United States and over twenty years of efforts by domestic violence intervention professionals to mainstream aggressive intervention strategies into the civil and criminal justice systems. Communities have identified the benefits of bringing together advocates, law enforcement personnel, prosecutors, and other intervention service-provider professionals to work together in serving victims of domestic violence and holding offenders accountable.

Currently, over sixty Family Justice Centers have been established across the United States and several centers are operating overseas. The Family Justice Center model has been identified as a "best practice" in delivering services to victims of domestic abuse.

The Honolulu Family Justice Center is targeting a July 2012 date to open Phase I of the Center. The Honolulu Family Justice Center will provide services to victims of domestic violence, sex assault, and elder abuse. An important service component will address the needs of immigrant victims. Efforts are underway to identify and locate space for Phase I.

Your Committee has amended this measure by inserting an appropriation amount of \$500,000.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2950, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2950, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2274 Public Safety, Government Operations, and Military Affairs on S.B. No. 2955

The purpose and intent of this measure is to authorize probation officers to carry and use electric guns.

Your Committee received testimony in support of this measure from the Hawaii State Judiciary Adult Probation Division. Testimony in opposition was received from the Honolulu Police Department. Comments were received from the Judiciary and the American Civil Liberties Union of Hawai'i.

Your Committee finds that the job of a probation officer is an essential, yet at times dangerous, occupation. Probation officers work in a dangerous environment with persons convicted of felonies.

Your Committee desires to ensure that probation officers receive the proper education and training in the safe use of electric guns.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2955, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2955, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2275 Public Safety, Government Operations, and Military Affairs on S.B. No. 3054

The purpose and intent of this measure is to require the Auditor to conduct a financial and management audit of the operations of the Department of Public Safety's commissaries, as well as the operations of commissaries in out-of-state contracted correctional facilities where Hawaii inmates are confined.

Your Committee received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, and four individuals.

Your Committee finds that commissary operations at correctional facilities in Hawaii and out-of-state contracted correctional facilities have never been audited. There is no existing information about such things as prices, overhead expenses, and profits, particularly if the commissary is a privately contracted enterprise in a mainland prison. An audit is critical to determining if there is undue mark-up in prices and if there is, where the profits are being applied.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3054 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2276 Human Services on S.B. No. 2221

The purpose and intent of this measure is to amend the offense of promoting child abuse in the second degree to include possession of thirty or more images of child pornography, where the content of at least one image contains a minor younger than the age of twelve, sadomasochistic abuse of a minor, or bestiality involving a minor.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one individual.

Your Committee finds that Hawaii's child pornography laws are weak and do not distinguish between the various forms of child pornography. Currently, possession of any form of child pornography is covered under the offense of promoting child abuse in the third degree, but a violation is only a class C felony. This measure will amend the offense of promoting child abuse in the second degree, a class B felony, to include particularly violent or egregious child pornography.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2221 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2277 Human Services on S.B. No. 2811

The purpose and intent of this measure is to eliminate the requirement for the Department of Human Resources Development to submit annual reports to the Legislature regarding expenditures of qualified community rehabilitation programs and related activities.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that the Department of Human Resources Development is instructed to submit annual reports to the Legislature regarding expenditures of qualified community rehabilitation programs and related activities pursuant to Act 213, Session Laws of Hawaii 2008. Act 213(2008) amends section 76-77(16), Hawaii Revised Statutes, which modified the statutory exemption from civil service applicable to the counties of Hawaii, Maui, and Kauai, by setting a higher monetary limitation for contract services with qualified community rehabilitation programs. Your Committee also finds that section 76-77, Hawaii Revised Statutes, does not apply to the State and because the statutory provision does not permit the State Executive Branch to contract with qualified community rehabilitation programs, the Department of Human Resources Development does not have anything to report on behalf of the State. This measure eliminates the requirement of the Department of Human Resources Development to submit annual reports to the Legislature regarding expenditures of qualified community rehabilitation programs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2811 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2278 Human Services on S.B. No. 2269

The purpose and intent of this measure is to appropriate funds as a grant to Best Buddies International, Inc., for the purposes of expanding Best Buddies Hawaii chapters on the islands of Maui and Oahu and to provide valuable support to youth with intellectual and developmental disabilities.

Your Committee received testimony in support of this measure from the Department of Education; the State Council on Developmental Disabilities; Best Buddies International, Inc.; Best Buddies Hawaii; Best Buddies Oahu Advisory Board; Best Buddies Maui Chapter; Lokelani 'Ohana; and ten individuals.

Your Committee finds that Best Buddies has been a very successful program that provides opportunities for individuals with intellectual and developmental disabilities to engage in one-on-one interactions, establish long-lasting friendships, and participate in social networking. This measure will provide Best Buddies Hawaii with funding to expand its program to the islands of Maui and Oahu.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2269, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2279 (Joint) Economic Development and Technology and Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2433

The purpose and intent of this measure is to establish standards, regulations, and procedures for zipline and canopy tour operators; responsibilities for participants, including prohibited acts; and permitting, certification, and inspection requirements.

Your Committees received testimony in support of this measure from Activities & Attractions Association of Hawaii, Frogman Charters Inc., Paradise Helicopters, Piiholo Ranch Zipline, Polynesian Cultural Center, Princeville Ranch Adventures, Skyline Eco-Adventures, Hawaii Cattlemen's Council, and nine individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committees find that zipline and canopy tours are one of the fastest growing segments of the State's activities and attractions, showcasing Hawaii's natural beauty and providing new ways for visitors to experience the islands. Your Committees further find that the safety and security for participants is of paramount importance, and this measure is a first step in ensuring that safety.

Your Committees have considered the concerns raised by the Department of Labor and Industrial Relations, and note that while the Department and the interested parties have been working in collaboration to address the various concerns, consensus has not been reached. Your Committees believe that establishing provisions similar to state law relating to activity desk providers, under the authority of the Department of Labor and Industrial Relations, may be one approach to consider, and urge the parties to continue their work on this measure.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2433, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2433, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 11. Noes, none. Excused, 2 (Galuteria, Ihara).

SCRep. 2280 (Joint) Economic Development and Technology and Public Safety, Government Operations, and Military Affairs and Judiciary and Labor on S.B. No. 2233

The purpose and intent of this measure is to require government agencies to disseminate publications of notice electronically, while retaining the option of providing additional supplemental notice in a daily or weekly publication of statewide circulation or in a daily or weekly publication in the affected county, as appropriate.

Your Committees received testimony in support of this measure from the Office of Information Management & Technology; Hawaii Community Development Authority; Office of Information Practices; Hawaii State Public Library System; the Judiciary; and the Department of Planning and Permitting, County of Honolulu. Your Committees received testimony in opposition to this measure from AARP Hawaii, Hawaii Publishers Association, Star Advertiser, Hawaii Tribune-Herald, The Maui News, West Hawaii Today, and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that under existing law, public notices are required to be published in daily or weekly publications, with publication on the State's interactive computer system as a supplemental option. As electronic posting of information has become an accepted and expected way to conduct business, your Committees agree that the State and counties should be authorized to publish public notices online. This will align with the State's strategic plan to leverage new technologies to increase government transparency and enhance citizen engagement and participation, while providing increased cost efficiencies for state government.

Your Committees further find that as the cost of publication in daily or weekly publications increases, requirements for public notice have a detrimental effect on the public as well. Your Committees have heard that mortgage foreclosure notices, for example, may cost as much as \$4,000 for the required three publications, a substantial amount in the current economy.

Your Committees have also heard concerns raised regarding residents who may not be computer “literate” or who have limited or no access to online information, such as senior citizens, the disabled, and disadvantaged groups.

Your Committees have amended this measure accordingly, by:

- (1) Authorizing government agencies to disseminate publications of notice electronically, in addition to the existing options of statewide publication in a daily or weekly publication of statewide circulation or county-wide publication in a daily or weekly publication in the affected county, as appropriate;
- (2) Requiring public notices and websites to be accessible to the disabled, the elderly, and other individuals who require state assistance to access the website;
- (3) Clarifying that if the public notice is published on the centralized website of the State of Hawaii, the public notice shall include information or links to other locations of the electronic or online notice;
- (4) Clarifying that the appropriation for the operational expenses of the Office of Information Management and Technology includes establishment of a centralized website of the State of Hawaii, and specifying features to be included on the centralized website;
- (5) Making an appropriation for support services by the Hawaii State Public Library System for the public to access and print information from the centralized website, including ADA-compliant stations with accessible printers and workstations; and
- (6) Changing the effective date of the amended public notice requirements from January 1, 2013, to July 1, 2013.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Public Safety, Government Operations, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2233, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2233, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Ihara, Kidani, Ryan).

SCRep. 2281 (Joint) Economic Development and Technology and Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs on S.B. No. 2381

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to plan, construct, operate, and maintain any lands or facilities under the jurisdiction of the Division of Boating and Ocean Recreation, including the acquisition and use of lands necessary to stockpile dredged spoils, without the approval of county agencies.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received testimony in opposition to this measure from a member of the Maui County Council. Your Committees received comments on this measure from the Environmental Center at the University of Hawaii at Manoa.

Your Committees find that Act 161, Session Laws of Hawaii 1980, granted the Department of Transportation the authority to plan, construct, operate, and maintain harbors throughout the State without the approval of county agencies. Act 272, Session Laws of Hawaii 1991, transferred the jurisdiction, functions, powers, duties, and authority of the boating and ocean recreation program from the Department of Transportation to the Department of Land and Natural Resources, but did not explicitly grant the exemption from county approvals.

Your Committees further find that this measure would expedite implementation of much needed improvement projects at the State’s boating facilities, for the benefit of residents and visitors alike.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2381 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 9, Ayes with Reservations (Baker, Ryan). Noes, none. Excused, 2 (Shimabukuro, Tokuda).

SCRep. 2282 (Joint) Economic Development and Technology and Commerce and Consumer Protection on S.B. No. 2655

The purpose and intent of this measure is to establish provisions for the sale of portable electronics insurance and to require vendors to hold a limited lines license to sell or offer coverage under a policy.

Your Committees received testimony in support of this measure from Asurion. Your Committees received comments on this measure from the State Insurance Commissioner.

Your Committees find that this measure would present the consumer with an alternative to the service contract provider authorized by chapter 481X, Hawaii Revised Statutes, but would not prevent the continued marketing of the service contract providers’ current products. Presently, service contract providers offer similar types of indemnity protections in conjunction with the service contracts and extended warranties.

Your Committees have considered a number of recommendations from the State Insurance Commissioner, which will clarify this measure while ensuring adequate consumer protection.

Your Committees have amended this measure accordingly, by:

- (1) Replacing references to the “director” with the “commissioner”;

- (2) Replacing the specific provisions related to suspension or revocation of license with sanctions for violations, which clarify that the vendor of portable electronics or its employee or authorized representative is subject to sanctions pursuant to chapter 431, Hawaii Revised Statutes, for the violation of any provision of the new chapter;
- (3) Clarifying that the termination of portable electronics insurance requires the consent of the policyholder and the customer, and requiring that the policyholder and enrolled customers shall be provided at least thirty days' notice before the agreed change becomes effective;
- (4) Clarifying that initial portable electronics licenses issued shall be valid for not less than twenty-four months and renewals for twenty-four months, requiring each vendor of portable electronics to pay to the Insurance Commissioner a fee of \$2,000 for the issuance of the initial portable electronics limited lines license plus a \$1,200 per year license fee for the initial or renewal term, and authorizing a pro-rata portion of the license fee to be applied for a partial year of the initial term;
- (5) Replacing references to "agent" with "vendor"; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2655, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2655, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Galuteria, Solomon).

SCRep. 2283 Economic Development and Technology on S.B. No. 2941

The purpose and intent of this measure is to extend the income tax credit for qualified research activities for an additional five years and to add extensive reporting requirements related to the tax credit.

Your Committee received testimony in support of this measure from The Chamber of Commerce of Hawaii, Continuum Icon, Makai Ocean Engineering, Navatek Ltd., NovaSol, Referentia, and one individual. Your Committee received comments on this measure from the Hawaii Strategic Development Corporation, High Technology Development Corporation, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the state tax credit for research activities was an effective measure to support research and development activities, and in turn, foster and encourage the innovation essential to create high-wage job opportunities in the State's economy. Your Committee understands that the tax credit claims under this program averaged approximately \$11,000,000 a year. However, it is anticipated that use of this credit in the future may fall below this average as federal spending on research activities has been reduced due to the elimination of congressional earmarks. In addition, as the credit can only be claimed for actual expenditures made in Hawaii and for only twenty percent of the qualified expenditures, the cost of the program is partially offset by taxes paid on expenditures and payroll.

Your Committee further finds that in the current economy, extension of this tax credit would provide critical assistance for research activities that are the base of success in the rapidly evolving technology industry, and for which other financial assistance is limited.

Your Committee has amended this measure by:

- (1) Repealing the definition of "basic research", as it is unnecessary;
- (2) Amending the definition of "qualified high technology business" to mean a business employing or owning capital or property, or maintaining an office, in this State; provided that more than fifty percent of its total business activities are qualified research and more than fifty percent of its qualified research is in this State;
- (3) Repealing the reference to research conducted outside of the State from the definition of "qualified research";
- (4) Establishing a fine of not more than \$1,000 for each month of a delay to file by the due date an annual survey with the Department of Taxation; and
- (5) Requiring federal and state income tax returns and documents related to deductions for tax credits for research activities to be filed as part of the survey.

Your Committee is concerned that some of the definitional changes may need further clarification, particularly in relation to the definitions for "qualified high technology business" in sections 235-110.91 and 235-7.3, Hawaii Revised Statutes. Your Committee encourages the stakeholders and the Department of Taxation to continue discussions on the appropriate terminology.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2941, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2941, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2284 Economic Development and Technology on S.B. No. 2895

The purpose and intent of this measure is to provide the Hawaii community-based economic development program with additional authority for the use of federal new markets tax credits by:

- (1) Defining “community development entity” to allow Hawaii to provide financing through a structure that facilitates the use of new markets tax credits;
- (2) Expanding the methods of delivering funding to a project by providing loans to capitalize a community development entity and providing guarantees or other credit enhancements that will facilitate private lenders’ participation; and
- (3) Adjusting loan maximums and establishing guarantees or credit enhancements to reflect current available funding and facilitate monetization of existing project assets.

Your Committee received testimony in support of this measure from Enterprise Honolulu, Oahu Economic Development Board; The AKAMAI Foundation; PMK Capital Partners LLC; Innovations Development Group; Indigenous Consultants, LLC; Waimanalo Hawaiian Homes Association and Na Kuhio ‘Ike. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the new markets tax credit program was created to facilitate projects in low-income communities, and the program has been used successfully in several other states. Your Committee understands that the first new markets tax credit project in Hawaii was recently approved in Waimanalo for the Hawaiian Homestead Community, providing financing for a community technology, education, and employment center for residents of the homestead community.

Your Committee is strongly supportive of these efforts to revitalize low-income communities throughout the State, and commends the Waimanalo Hawaiian Homes Association for securing vital funding through the new markets tax credit program. Their success will serve as a model for other communities seeking funding in difficult economic times.

Your Committee has amended this measure by:

- (1) Incorporating the provisions of S.B. No. 831, Regular Session of 2011, which establishes a state new markets tax credit and makes conforming amendments to the State’s tax laws, and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee understands that additional clarification of definitions and terminology may be considered as this measure moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2895, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2285 Health on S.B. No. 2145

The purpose and intent of this measure is to:

- (1) Require the Adult Mental Health Division of the Department of Health to provide services to people with a qualifying diagnosis;
- (2) Allow the Department of Health to bill an insurer for treatment services rendered by the State pursuant to chapter 334, Hawaii Revised Statutes; and
- (3) Make the Department of Health eligible to receive reimbursement from an insurer in exchange for treatment services rendered by the State pursuant to chapter 334, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center, Hoola Lahui Hawaii, The Queen’s Health Systems, NAMI, and two individuals. Your Committee received comments on this measure from the Department of Health, HMSA, and United Self Help.

Your Committee finds that the Department of Health rules provide that even if an individual has a qualifying diagnosis, that individual is ineligible for any services if the individual has any form of health insurance coverage, regardless of whether services offered by the Adult Mental Health Division are covered under the insurance policy. Your Committee finds that this rule restricts, for no compelling reason, the provision of valuable services offered by the Adult Mental Health Division to these individuals.

Your Committee has amended this measure by:

- (1) Inserting additional background information in the purpose section;
- (2) Clarifying that one of the Department of Health’s duties shall be to provide services to persons who have a qualifying diagnosis;
- (3) Adding language to provide that any person who has a qualifying diagnosis shall be eligible to receive services that are offered by the Adult Mental Health Division and that are not covered by any insurance policy held by or for the benefit of that person;
- (4) Inserting an appropriation of \$6,000,000 for the Department of Health to provide additional mental health services; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2145, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2286 Human Services on S.B. No. 2435

The purpose and intent of this measure is to appropriate funds for the Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services to contract for a telephone-based service to provide access to timely print media.

Your Committee received testimony in support of this measure from the Department of Human Services, the Disability and Communication Access Board, and four individuals.

Your Committee finds that it is essential for individuals who are print disabled to have access to certain print media through audible or other mechanisms. Print-disabled clients include but are not limited to clients who have blindness and visual impairments or learning disabilities. This measure will appropriate funds to the Vocational Rehabilitation and Services for the Blind Division to contract out for services that provide audible information access services to this population.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2287 (Joint) Human Services and Judiciary and Labor on S.B. No. 2590

The purpose and intent of this measure is to give preference to allowing a child who has been or is at risk of being abused to remain in a safe family home, and to require the perpetrator of the abuse to leave the home, in certain cases of reported or suspected child abuse or neglect.

Your Committees received testimony in support of this measure from the Department of Human Services. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that in the case of child abuse, it is important to ensure continuity and consistency for a child who might otherwise need out-of-home placement. This measure will offer an alternative to a child's placement in out-of-home care, such as foster care, that may be viable under certain circumstances.

Your Committees note that according to the Department of the Attorney General's testimony, there already exists a test for the court to determine whether a child should be left in or returned to the family home – whether it is more probable than not that the family home is a safe family home with the assistance of a service plan. This measure creates a different test – whether it is more likely than not that a child will be safe from harm in the family home. Rather than creating two different tests and inserting the preference throughout the entire sequence of decisions by the Department of Human Services that lead to the court's determination of placement of a child, your Committees find that the purposes of this measure may be better effectuated by inserting the preference for allowing a child to remain in a safe family home within the existing statutes that describe the court's considerations in determining whether to place a child in the family home or in foster care.

Your Committees have amended this measure accordingly by:

- (1) Deleting sections 1 to 5 of the measure;
- (2) Inserting language that creates a preference for the removal of the perpetrator from the family home, rather than the child, as described in section 587A-26(c)(2)(B), Hawaii Revised Statutes, throughout various court proceedings, including the return hearing, periodic review hearing, permanency hearing, and issuing of the protective order, which makes the language consistent throughout chapter 587A, Hawaii Revised Statutes; and
- (3) Inserting language that places the burden on the child's family to establish that it is in a child's best interest to remove the child, rather than the alleged or potential perpetrator, from the family home.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2590, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2590, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2288 (Joint/Majority) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2632

The purpose and intent of this measure is to:

- (1) Require all fee time share interests to be recorded in the regular system of the Bureau of Conveyances, rather than the Land Court;
- (2) Remove the requirement that the Land Court update the certificates of title for individual fee time share interests as a condition to deregistration; and
- (3) Allow the Bureau of Conveyances to charge a transaction fee for recording in the Bureau of Conveyances and the Office of the Assistant Registrar of the Land Court.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; the Judiciary; SVO Pacific, Inc.; American Resort Development Association – Hawaii; Wyndham Vacation Ownership, Inc.; Title Guaranty of Hawaii, Inc.; and one individual. Your Committees received testimony in opposition to this measure from the Department of the Attorney General.

Your Committees find that Act 120, Session Laws of Hawaii 2009, was intended to alleviate some of the backlog in Land Court recordings and registration by transferring fee simple time share interests from the Land Court system to the regular system. However, updating and recording the certificates of title for all fee time share interests, as required by Act 120, has exceeded the capacity of the Land Court, particularly in light of the approximately three-year backlog of Land Court recordings and registration.

This measure is intended to ease the current backlog in Land Court recordings and registration by declaring that all fee time share interests are no longer subject to the Land Court. This measure also eliminates the requirement that the Assistant Registrar of the Land Court update or record certificates of title prior to removal.

Your Committees further find that since Act 120 took effect, the Bureau of Conveyances has been charging a fee to record the certificates of title. This measure changes procedures associated with the collection of these fees. To maintain the solvency of the Bureau, this measure allows the Bureau of Conveyances to charge a temporary fee until new rules relating to recording fees can be adopted.

Your Committees have amended this measure by:

- (1) Amending the definition of “deregistered land” to recognize the different categories of land and different methods of deregistration, including voluntary deregistration of land not constituting fee time share interests, involuntary deregistration of fee time share interests, and deregistration by operation of law;
- (2) Amending the definition of “fee time share interest” to clarify that the term applies to all time share interests that include an undivided interest in registered land on or after July 1, 2011, and that those time share interests that include an undivided interest in an estate for years in registered land shall be treated as leasehold time share interests, rather than as fee time share interests;
- (3) Deleting the language that would have amended the definition of “leasehold time share interest”;
- (4) Deleting the language that would have addressed the acceptable manner in which the value of land to be voluntarily deregistered could be established, as the language could have been interpreted as beyond the scope of this measure’s title;
- (5) Amending the language declaring that fee time share interests no longer constitute registered land to conform to existing statute and to clarify when fee time share interests with a certificate of title recorded prior to July 1, 2012, were deregistered;
- (6) Clarifying that the Registrar or Assistant Registrar is required to note on the certificate of title for each fee time share interest all pertinent documents and instruments accepted for registration prior to July 1, 2012;
- (7) Clarifying that certificates of title that were recorded but not yet certified by the Assistant Registrar prior to July 1, 2012, may be modified at any time prior to their certification, even if the certification occurs after the certificate of title is recorded;
- (8) Requiring a copy of each certificate of title for a fee time share interest to be recorded in the regular system upon completion of the certification process;
- (9) Adding language that provides that the cancellation of a certificate of title will be deemed to take place as of July 1, 2012, even though the certificate of title may be recorded subsequent to that date;
- (10) Amending the existing statute relating to the effect of deregistration to reflect the distinction between land voluntarily deregistered, fee time share interests deregistered prior to July 1, 2012, and fee time share interests that will be removed from the Land Court system by operation of law on or after July 1, 2012;
- (11) Adding an amendment to section 501-71, Hawaii Revised Statutes, to reflect the three different recordation or effective dates that correspond to the three different categories of deregistered land;
- (12) Amending language to require the Department of Land and Natural Resources to assess a transaction fee on the recordation of deeds of time share interests recorded in the Bureau of Conveyances for a limited period of time;
- (13) Amending the purpose section to reflect the amended purpose of the measure;
- (14) Inserting an effective date of July 1, 2020, to allow for further discussion; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the amended version of this measure removes the reference to “leasehold time share interest” and limits the authorization of the Bureau of Conveyances to assess a transaction fee on fee time share interests. These amendments address all title concerns previously raised by the Department of the Attorney General.

Your Committees note that interested stakeholders continue to work on this measure, and a general consensus has been reached between parties. Ongoing discussions have been focused on two issues. The first issue concerns whether a time share interest comprised in whole or in part of an estate for years should be treated as a fee time share interest or a leasehold time share interest. The stakeholders agree that all time share conveyances should be recorded in the regular system of the Bureau of Conveyances, rather than the Land Court. However, discussions continue in light of the common law characteristics of an estate for years and theoretical issues regarding whether separate certificates of title should be issued to the holder of the estate for years and to the holder of the fee revision in the same parcel of land.

The second ongoing issue pertains to the best method to establish the chain of title for a fee time share interest. Under the amended measure, all fee time share interests will be deregistered as of July 1, 2012, but the certificates of title for those fee time share interests will not necessarily be recorded in the regular system of the Bureau of Conveyances and then cancelled on the records of the Land Court until some future date. A question has arisen as to whether passage of this measure is sufficient to place interested persons on notice that title to all fee time share interests has moved from the Land Court to the regular system as of July 1, 2012, or upon the earlier recordation of a certificate of title in the regular system.

Your Committees are encouraged by the collaborative efforts of all interested parties, but find that continuing discussion on this measure is necessary.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2632, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2632, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2289 Agriculture on H.B. No. 1524

The purpose and intent of this measure is to:

- (1) Require persons sentenced for theft in the first, second, third, or fourth degree for an offense involving theft of an agricultural product or commodity to pay restitution to the victim in an amount equal to the value of what was stolen and the cost of replanting; and
- (2) Include in the offense of theft in the second degree the failure to maintain a required certificate of ownership or other written proof of ownership of commercial quantities of agricultural commodities while in possession of those commodities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Waimanalo Agricultural Association; Hawaii Crop Improvement Association; Ace Farm, LLC; W.H. Shipman, Ltd.; Hawaii Farm Bureau Federation; Environmental Caucus of the Democratic Party of Hawaii; and three individuals.

Your Committee finds that agricultural theft continues to be a significant problem in the State and has resulted in millions of dollars in losses for the agricultural industry. This measure will allow prosecutors to develop stronger cases against thieves of agricultural products and commodities and will require repayment to those farmers victimized by agricultural theft.

Your Committee has amended this measure by making it effective on July 1, 2012.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1524, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1524, H.D. 2, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Dela Cruz, Shimabukuro, Tokuda).

SCRep. 2290 Agriculture on S.B. No. 2351

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish and maintain an online system of licensure for commission merchants, dealers, brokers, agents, processors, and retail merchants of farm products; and
- (2) Establish the Department of Agriculture operations special fund.

Your Committee received testimony in support of this measure from the Department of Agriculture and the Hawaii Farm Bureau Federation. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will allow the Department of Agriculture to streamline and improve procedures for licensure for commission merchants, dealers, brokers, agents, processors, and retail merchants of farm products. However, your Committee does recognize concerns that the cost to maintain an online licensure system is unknown at this time.

As such, your Committee has amended this measure by changing the effective date to July 4, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2351, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Dela Cruz, Shimabukuro, Slom).

SCRep. 2291 Agriculture on S.B. No. 2375

The purpose and intent of this measure is to allow for agricultural-based commercial operations in agricultural districts.

Your Committee received testimony in support of this measure from the Hawaii Aquaculture and Aquaponics Association; Kahuku Farms; Kamehameha Schools; Hawaii Farm Bureau Federation; Aquaculture Planning and Advocacy, LLC; Environmental Caucus of the Democratic Party of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that this measure will provide agricultural producers with an additional outlet to sell their products. This measure will allow agricultural producers to explore creative ways to market their products to the community, while connecting the general public with fresh, locally grown agricultural products.

Your Committee has amended this measure by:

- (1) Including fresh agricultural products grown in Hawaii and value-added products that were produced using primarily raw Hawaii agricultural materials displayed and sold by roadside stands or producer-operated enclosed structures as products that may be sold or displayed at agricultural-based commercial operations;
- (2) Removing the authority for agricultural-based commercial operations to sell logo items related to Hawaii agricultural operations and other food items;
- (3) Removing retail food establishments as an authorized agricultural-based commercial operation in agricultural districts;
- (4) Requiring that agricultural-based commercial operations in agricultural districts be producer-operated; and
- (5) Requiring that producer-operators certify, upon request, that the agricultural products displayed or sold by the operation meet all of the requirements for agricultural-based commercial operations in agricultural districts.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2375, S.D. 1, and be referred to the Committee on Water, Land, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Dela Cruz, Shimabukuro, Tokuda).

SCRep. 2292 Agriculture on S.B. No. 2272

The purpose and intent of this measure is to appropriate funds for the construction of a vapor heat treatment facility by the Agribusiness Development Corporation on the island of Hawaii.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Diversified Ag Products, Inc.; Calavo Growers, Inc.; Hawaii Farm Bureau Federation; Hawaii Farmers Union; and one individual. Your Committee received testimony in opposition to this measure from Hawaiian Rainbow Products and Diamond Heat Papaya Co., Ltd.

Your Committee finds that many of the tropical fruits grown in Hawaii cannot be transported to markets on the mainland or other countries that prohibit the entry of fruit fly hosts without quarantine treatment. Your Committee further finds that vapor heat treatment is lethal to pests such as fruit flies.

While your Committee understands that this measure may help to increase the amount of tropical fruits that Hawaii may export, your Committee notes that there are already four existing vapor heat treatment facilities in Hawaii and that the Agribusiness Development Corporation plans to partner with a processor and distributor on the island of Hawaii to operate a new vapor heat facility if funds are appropriated for its construction. Although it was reported that the existing vapor heat treatment facilities may be operating below full capacity, your Committee is concerned that an additional vapor heat treatment facility may be unnecessary and may actually hurt Hawaii's papaya industry by saturating the market and driving prices down for Hawaii-grown papaya.

Your Committee hopes that there will be continued discussion on the need for an additional vapor heat treatment facility as this measure progresses.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2272 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6, Ayes with Reservations (Wakai). Noes, none. Excused, 3 (Chun Oakland, Shimabukuro, Slom).

SCRep. 2293 Agriculture on S.B. No. 2352

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to guarantee up to eighty percent of the principal balance of a loan by a private lender made to a qualified farmer, food manufacturer, or cooperative;
- (2) Require the Chairperson of the Board of Agriculture to guarantee loans from commercial lenders and broaden the scope of the guarantee from important agricultural lands to all agricultural lands; and
- (3) Specify the loan application requirements for loan guarantees by the Department of Agriculture.

Prior to decision making, your Committee made available for public review a proposed S.D. 1, which deleted the contents of this measure and replaced it with language authorizing the issuance of \$20,000,000 in special purpose revenue bonds to assist Kauai Coffee Company Incorporated (Kauai Coffee) in the planning, construction, and operation of a coffee processing facility for the production of Hawaii-grown coffee products.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Farmers Union United, ILWU Local 142, and one individual. Your Committee received testimony in opposition to the proposed S.D. 1 from five individuals. Your Committee received comments on the proposed S.D. 1 from the Department of Budget and Finance.

Your Committee finds that the issuance of special purpose revenue bonds to assist Kauai Coffee with the planning, construction, and operation of a coffee processing facility will provide a benefit for all coffee producers by allowing them to process their product in Hawaii. As this measure progresses, your Committee stresses the importance of communicating the statewide benefit this measure will provide.

Your Committee adopted the amendments in the proposed S.D. 1 and further amended this measure by changing:

- (1) The amount of special purpose revenue bonds authorized for issuance from \$20,000,000 to \$10,000,000; and
- (2) The effective date from upon approval to July 1, 2012.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2352, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2352, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Chun Oakland, Shimabukuro, Wakai, Slom).

SCRep. 2294 (Joint) Agriculture and Water, Land, and Housing on S.B. No. 2362

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to finance capital improvements to various irrigation systems throughout the State.

Your Committees received testimony in support of this measure from the Department of Agriculture, Ka'u Farm Bureau, and Hawaii Crop Improvement Association.

Your Committees find that the State's irrigation systems provide one of the most essential resources to Hawaii's agricultural system. Some of the irrigation systems in the State are over one hundred years old and in desperate need of improvement. This measure is necessary to help extend the life of these irrigation systems so they can continue to be a resource for Hawaii's farmers.

Your Committees note the testimony of the Department of Agriculture that the Kau irrigation system, while being a public system, may run through a portion of privately owned land. Your Committees encourage the Department of Agriculture to continue to seek clarification on this issue as this measure progresses.

Your Committees have amended this measure by:

- (1) Adding language to clearly state that the Kau irrigation system is essential to agricultural operations in the Kau area of the island of Hawaii and that an appropriation for the Kau irrigation system is in the public interest;
- (2) Changing the effective date to July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2362, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2362, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 2 (Chun Oakland, Fukunaga).

SCRep. 2295 (Joint) Agriculture and Water, Land, and Housing on S.B. No. 2341

The purpose and intent of this measure is to:

- (1) Repeal the prohibition on overnight accommodations at accessory facilities that are connected with a farming operation; and
- (2) Authorize short-term rentals in agricultural districts.

Your Committees received testimony in support of this measure from Olomana Gardens, Windward Ahupua'a Alliance, and one individual. Your Committees received testimony in opposition to this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; and City and County of Honolulu Department of Planning and Permitting. Your Committees received comments on this measure from the Hawaii Farm Bureau Federation.

Your Committees find that agritourism has been successful in other areas of the United States, such as Napa Valley in California. Allowing more opportunities for farmers and ranchers to raise capital is something that must be taken into consideration when looking at ways to make Hawaii more self-sufficient in food production. However, your Committees also recognize the concerns raised by the Department of Agriculture and the City and County of Honolulu Department of Planning and Permitting that allowing short-term rentals may increase land values in agricultural districts and may contribute to the loss of agricultural lands to higher-value, non-agricultural leases.

As such, your Committees have amended this measure by:

- (1) Adding a purpose section; and
- (2) Allowing within agricultural districts activities or uses for short-term rentals of thirty-one days or less, in any one stay within a county; provided that the appropriate county has adopted an ordinance that specifically authorizes such use.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2341, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2341, S.D. 1, and be referred to the Committee on Tourism.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Ayes with Reservations (Kouchi). Noes, none. Excused, 3 (Chun Oakland, Fukunaga, Tokuda).

SCRep. 2296 (Joint) Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing on S.B. No. 2877

The purpose and intent of this measure is to repeal the statutory requirement that the State reimburse the City and County of Honolulu for the operation and maintenance of the fireboat.

Your Committees received testimony in support of this measure from the Department of Transportation. Testimony in opposition was received from three individuals. Comments were received from the Hawaii Fire Fighters Association.

Your Committees find that this measure allows for broader flexibility in the management of fireboat operations by the Department of Transportation. Repealing the requirement to reimburse the Honolulu Fire Department for the maintenance and operation of the State's fireboat "Moku Ahi" will allow for more economical management and enable a more comprehensive marine incident response program to be implemented. The maritime community and citizens of Hawaii will be better served by providing the Department of Transportation with this flexibility.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2877 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2297 (Joint) Energy and Environment and Water, Land, and Housing on S.B. No. 2855

The purpose and intent of this measure is to authorize an agency to adopt, amend, or repeal administrative rules on less than thirty days' notice of hearing if the agency finds an imminent peril to the natural resources or health of the environment.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Maui Invasive Species Committee, The Nature Conservancy, and Coordinating Group on Alien Pest Species.

Your Committees find it necessary to equip the Department of Land and Natural Resources with legal tools to prevent the interisland transportation of alien invasive species. The proliferation of axis deer on Hawaii island is the most recent example of the detrimental effects of interisland transportation of alien invasive species. This alien invasive species causes great damage to native habitat and agricultural crops and endangers automobile drivers on roadways. A rapid response mechanism is necessary to prevent the axis deer and other alien invasive species from establishing themselves in our State.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2855 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Shimabukuro, Solomon, Slom).

SCRep. 2298 (Joint) Energy and Environment and Water, Land, and Housing on S.B. No. 2277

The purpose and intent of this measure is to:

- (1) Authorize citizen suits to enforce habitat conservation plans or safe harbor agreements and accompanying licenses; and
- (2) Repeal the prohibition on the approval of the issuance of new safe harbor agreements, habitat conservation plans, and incidental take licenses after July 1, 2012.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawaii Environmental Center, Earthjustice, Life of the Land, Conservation Council for Hawai'i, Sierra Club, First Wind, and ten individuals. Your Committees received comments on this measure from The Pacific Resource Partnership, Land Use Research Foundation of Hawaii, Hawaii Farm Bureau Federation, and The Nature Conservancy.

Your Committees find habitat conservation plans and safe harbor agreements to be necessary to the recovery of the State's threatened and endangered species. Species that have benefited from habitat conservation plans and safe harbor agreements include the nene, montane-nesting seabirds, and the Hawaiian hoary bat. Eight habitat conservation plans and six safe harbor agreements have been issued under state law, and the Department of Land and Natural Resources anticipates finalizing ten new habitat conservation plans and three safe harbor agreements in the near future.

While your Committees recognize the need to enforce habitat conservation plans and safe harbor agreements, your Committees find that the negative impacts of citizen suits outweigh the benefits. A more promising enforcement mechanism is the contested case hearing provided under chapter 91, Hawaii Revised Statutes. Emergency situations that pose a significant risk to the well-being of any species of fish, wildlife, or plant also warrant the creation of an additional administrative remedy.

Your Committees have amended this measure by:

- (1) Replacing the language that amended section 195D-32, Hawaii Revised Statutes, relating to citizen suits with language that establishes a new section in chapter 195D, Hawaii Revised Statutes, which:

- (A) Requires that a challenge to the approval of a habitat conservation plan or safe harbor agreement and accompanying license be through a contested case hearing rather than an original court action;
 - (B) Authorizes petitions to the Board of Land and Natural Resources for an emergency stay order in cases in which an emergency poses a significant risk to the well-being of any species of fish, wildlife, or plant; and
 - (C) Authorizes additional, specified remedies for a person aggrieved by an administrative decision of the Board of Land and Natural Resources;
- (2) Adding a definition of the term "chairperson";
 - (3) Repealing section 195D-27, Hawaii Revised Statutes, which pertained to the administrative enforcement of rules, habitat conservation plans, safe harbor agreements, and incidental take licenses; and
 - (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2277, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2277, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Solomon).

SCRep. 2299 Judiciary and Labor on S.B. No. 3030

The purpose and intent of this measure is to create a uniform policy allowing salary decreases for all heads of legislative agencies by applying the salary diminishment provisions to the Auditor.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. Testimony in opposition to this measure was submitted by the Office of the Auditor.

Your Committee finds that while all salaried state officers are subject to salary cuts as provided by general law, the Auditor is statutorily exempt from these provisions. This measure creates parity with the salary diminishment provisions applied to the heads of the other legislative agencies.

The State Auditor noted that the Office of the Auditor is different from the other legislative agencies in that the auditor position was constitutionally created. The enabling statutes established a salary diminishment exemption for the Auditor without any express qualifying statements for the exemption. Your Committee believes this issue merits further discussion as this measure moves through the legislative process.

As such, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3030, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2300 Judiciary and Labor on S.B. No. 2749

The purpose and intent of this measure is to harmonize the service retirement, ordinary disability retirement, and ordinary death benefits for members of the Employees' Retirement System who become members after June 30, 2012, and restores age and service requirements for retirement parity for current members who become judges after June 30, 2012, and other contributory plan members. Specifically, this measure:

- (1) Restores parity between judges and other contributory plan members with respect to age and service requirements for retirement;
- (2) Deletes water safety officers from the list of individuals who join the Employees' Retirement System as contributory members after June 30, 2012, as this category no longer applies because officers becoming members after June 30, 2012, are Hybrid Plan members;
- (3) Applies the same benefit multiplier for service retirement benefits and ordinary disability benefits for Hybrid Plan members who become members of the Employees' Retirement System after June 30, 2012;
- (4) Makes the service requirement for payment of the Hybrid Plan hypothetical account balance as an ordinary death benefit for an individual who becomes a member after June 30, 2012, the same as the service requirement for an inter vivos withdrawal by the member after the member has terminated service; and
- (5) Makes various housekeeping amendments to correct typographical errors and avoid confusion.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and the Employees' Retirement System.

Your Committee finds that this measure makes several amendments to the pension and retirement laws in order to clarify benefit changes made under Act 163, Session Laws of Hawaii 2011. The purpose of Act 163 was to make various revisions to the Employees' Retirement System in order to reduce the system's unfunded liability. These amendments harmonize the service requirements and ordinary death benefits for individuals who become members of the Employees' Retirement System after June 30, 2012, as a result of Act 163.

In particular, your Committee notes that prior to the enactment of Act 163, Session Laws of Hawaii 2011, the age and service requirements for retirement for judges were the same as for other contributory plan members who became members of the Employees' Retirement System at the same time. However, Act 163 establishes more stringent age and service requirements for retirement by individuals who become members after June 30, 2012, and for current system members who become judges after June 30, 2012. As a result, current system members who become judges after June 30, 2012, are subject to more stringent age and service requirements than other contributory plan members of the system at the same time. In light of the reported \$8,164,000,000 Employees' Retirement System's unfunded liability as of June 30, 2011, your Committee finds that "grandfathering" in existing system members who become judges after June 30, 2012, so that the more stringent service and age requirements do not apply to these members is counterproductive to the reduction of the unfunded liability.

As such, your Committee has amended this measure by:

- (1) Deleting the provisions that restore parity between judges and other contributory plan members with respect to age and service requirements for retirements;
- (2) Changing the effective date to July 1, 2012; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2749, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2301 Judiciary and Labor on S.B. No. 2750

The purpose and intent of this measure is to address the Employees' Retirement System's unfunded liability and help ensure the system's future sustainability. Specifically, this measure:

- (1) Requires a public employee's last state or county employer to pay to the Employees' Retirement System the present value of additional benefits resulting from spiking; and
- (2) Limits the amount of compensation included in the average final compensation of Employees' Retirement System members by excluding from the calculation of average final compensation late career spikes in an employee's compensation attributable to non-base pay compensation, such as overtime, by establishing the following criteria:
 - (A) For employees who become system members after June 30, 2012: Limits the amount of compensation that can be included in the calculation of the member's retirement benefits if the member's non-base pay during the member's high-five years exceeds limits based on the average of the member's base pay during the last ten years of the member's service; and
 - (B) For employees who become members before July 1, 2012: Limits the amount of compensation that can be included in the calculation of the member's retirement benefits if the member's non-base pay during the member's high-three or high-five years exceeds limits as noted above; provided that this limitation will apply only to compensation, pay, or salary that will be earned after June 30, 2015.

Your Committee received testimony in support of this measure from the Office of the Governor; the Department of Budget and Finance; the Department of the Attorney General; and the Employee's Retirement System. Testimony in opposition to this measure was submitted by the United Public Workers, AFSCME Local 646, AFL-CIO; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the University of Hawaii Professional Assembly; the Hawaii Fire Fighters Association, IAFF Local 1463, AFL-CIO; the Hawaii State Teachers Association; the State of Hawaii Organization of Police Officers; and one private individual. Your Committee received comments on this measure from the Department of Budget & Fiscal Services of the City and County of Honolulu; the Honolulu Fire Department of the City and County of Honolulu; and the Police Department of the City and County of Honolulu.

Your Committee finds that the Employees' Retirement System is anticipating increases in the system's unfunded liability, which was reported at \$8,164,000,000 as of June 30, 2011. The continuing volatility and uncertainty of the investment markets, increasing longevity of Employees' Retirement System members, and declining payroll have a significant impact on increasing the system's unfunded liability. If these trends continue without significant increases to the investment portfolio, more solutions will be necessary to prevent the investment corpus from depletion.

As a result, this measure addresses the anticipated increases in benefits of Employees' Retirement System members and in the unfunded liability of the system by limiting the amount of compensation included in the average final compensation of new and current members (delayed by three years) and by requiring employers of current members to pay the costs attributable to the additional benefits resulting from pension spiking. Pension spiking is a process whereby public sector employees significantly increase their compensation, through overtime or other similar opportunities, in the years immediately preceding retirement in order to receive a larger pension than they otherwise would be entitled to receive. If an employee's pay increases substantially in the final years of employment, the employee's retirement benefits, which are based on the employee's three or five highest paid years, can be increased

dramatically without the years of contributions required to fund this increase. In turn, this spike in compensation increases the unfunded actuarial accrued liability of the Employees' Retirement System.

Your Committee recognizes that this measure places a certain level of responsibility and accountability on employers whose employees' compensation is spiked in the immediate years prior to retirement. As a result, employers will be forced to manage overtime and work productivity more efficiently and effectively. However, testimony submitted by several public employee unions in opposition indicate a lack of understanding of how the calculations in this measure were derived, concerns on how this measure will impact their union members' future benefits; and a desire for all stakeholders to discuss this measure and work out an equitable solution.

Your Committee further recognizes that additional time is needed to research the impact this measure may have on existing pension and retirement laws, especially on the laws relating to the determination of employer normal cost and accrued liability contributions, and the amount of annual contributions by the State and counties. Also, your Committee needs further time to consider applying similar fiduciary responsibilities under the federal Employee Retirement Income Security Act to the Board of Trustees of the Employees' Retirement System. A higher level of fiduciary duty may hold the Board of Trustees more accountable when making decisions that address the system's unfunded liability and future pension benefits of all public employees in the State. Your Committee encourages further discussion on these matters by the Committee on Ways and Means.

As such, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2750, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2750, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2302 (Majority) Judiciary and Labor on S.B. No. 2507

The purpose and intent of this measure is to address the health and safety needs of Hawaii's workers and their families by requiring employers to provide a minimum amount of paid sick and safe leave to employees in order to care for themselves or a family member who is ill, needs medical care, or is a victim of domestic violence, sexual assault, or stalking.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the United Public Workers, AFSCME Local 646, AFL-CIO; UNITE HERE Local 5; Catholic Charities Hawaii; the Hawaii State Coalition Against Domestic Violence; 9to5, National Association of Working Women; the Progressive States Network; the National Partnership for Women & Families; and seven private individuals.

Testimony in opposition to this measure was submitted by the Department of Human Resources Development; the Department of Human Resources of the City and County of Honolulu; the Building Industry Association of Hawaii; the Chamber of Commerce of Hawaii; the Retail Merchants of Hawaii; the Hawaii Food Industry Association; Hawaii Human Resources; the National Federation of Independent Business; Hawaii Employment Services, Inc.; the Hawaii Credit Union League; Suisan Company, Ltd.; Hawaii Accounting, Inc.; the Society for Human Resource Management Hawaii; RMA Sales; the Associated Builders and Contractors, Inc. Hawaii Chapter; the Hawaii Bankers Association; the Hawaii Cattlemen's Council, Inc.; Takamine Construction, Inc.; the Hawaii Restaurant Association; the Hawaii Automobile Dealers Association; the Molokai Chamber of Commerce; the Hawaii Farm Bureau Federation; the Big Island Farm Bureau; and seven private individuals.

Your Committee received comments on this measure from the Department of Labor and Industrial Relations; the International Longshore and Warehouse Union Local 142; Office of Labor Standards Enforcement of the City and County of San Francisco; and the Institute for Women's Policy Research.

Your Committee finds that vacation and sick leave benefits for employees vary from employer to employer. At times, employees must choose between caring for themselves or a family member due to illness and earning income. This measure provides a minimum amount of paid sick and safe leave to allow employees to take care of themselves or their family members. Of particular note, this measure enables victims of domestic violence, sexual assault, or stalking to participate in legal proceedings, receive medical treatment, or obtain other necessary services while maintaining a sense of financial freedom without the fear of being fired due to taking time off from work.

Your Committee notes the testimony in opposition submitted by the Hawaii Restaurant Association and the Chamber of Commerce of Hawaii which indicated this measure will have a negative impact on small businesses due to its "one size fits all" approach. This broad approach hinders an employer's flexibility in providing paid leave benefits and results in additional direct and indirect costs. Small businesses with fewer than ten employees who do not typically provide paid time off will need to give up to five days off to their employees under this measure. As a result, an already financially struggling small business may need to choose between providing paid leave benefits to their employees or closing down. Thus, the "one size fits all" approach may not be best suited for different industries with varying workforce needs.

As such, your Committee has amended this measure by:

- (1) Adopting the suggestion made by the Department of Labor and Industrial Relations to place the contents of this measure into a new chapter of the Hawaii Revised Statutes, rather than as a new part to the family leave laws;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2507, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2507, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2303 Economic Development and Technology on S.B. No. 3047

The purpose and intent of this measure is to:

- (1) Amend computer fraud statutes to capture a broader range of crimes committed through the use of a computer, computer system, or computer network, and increase penalties for all degrees of computer fraud;
- (2) Allow protective orders for harassment committed through the use of a computer, computer system, or computer network; and
- (3) Establish the crime of prohibited web design to prohibit certain acts by web designers or developers.

Prior to the hearing, your Committee made available a proposed S.D. 1, which would have established the offense of cybersquatting as a misdemeanor.

Your Committee received testimony in support of the proposed S.D. 1, from the University of Hawaii System. Your Committee received testimony in opposition to the proposed S.D. 1, from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that the proposed S.D. 1, would have addressed a situation recently experienced by the University of Hawaii in which an internet domain based on the University's institutional name was registered, put up for auction, and eventually used to purvey pornography. Subsequently, the University of Hawaii was successful in persuading the perpetrator to shut down the web site, and your Committee understands that the University is currently working with the Attorney General to devise solutions to deal with any such situations in the future.

Your Committee further finds that the provisions in S.B. No. 3047, as introduced, which amended computer fraud statutes to capture a broader range of crimes committed through the use of a computer, computer system, or computer network, and increase penalties for all degrees of computer fraud, would provide much needed updates to Hawaii's computer fraud statutes. Law enforcement agencies have expressed concerns that existing laws are too narrow to address the majority of activities thought of as computer fraud, effectively stopping prosecution of these crimes.

Your Committee has amended this measure accordingly, by:

- (1) Retaining the provisions in part I of S.B. No. 3047, as introduced, relating to amendments to the State's computer fraud statutes;
- (2) Deleting the provisions that would have allowed protective orders for harassment committed through the use of a computer, computer system, or computer network;
- (3) Deleting establishment of the crime of prohibited web design;
- (4) Changing the effective date to July 1, 2012; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3047, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3047, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Solomon, Slom).

SCRep. 2304 (Joint/Majority) Water, Land, and Housing and Agriculture on S.B. No. 2378

The purpose and intent of this measure is to restrict the entities that may apply for and be granted funding, and dispose of lands purchased with the funding, under chapter 173A, Hawaii Revised Statutes, the legacy land program, to the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, and Public Land Development Corporation and to allow the acquisition of lands under the legacy land program for regulatory functions of the State.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation and Hawaii Farm Bureau Federation. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, The Trust for Public Land, The Nature Conservancy, Maika'i Kamakani 'O Kohala, Inc., Moloka'i Land Trust, Hawaiian Islands Land Trust, Kamakani O Kohala Ohana, North Shore Community Land Trust, Conservation Council for Hawai'i, North Kohala Community Access Group, and sixteen private individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Agriculture.

Your Committees find that the original intent of the legacy land program was to assist private land owners in the purchase of development rights to help retain their agricultural or conservation lands. Furthermore, the program was to be used as a means to increase support and resources from the many conservation partners in the State. Through these public-private partnerships, the State would be able to broaden community support, landowner commitment, and acquire matching federal, county, and private funding where the state agencies alone would not have been able to qualify.

Accordingly, limiting the eligible applicants for funding under the program to only the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, and Public Land Development Corporation would jeopardize the receipt of additional funding needed for worthy projects. However, your Committees are concerned with regard to the proper oversight of the program and find that it is important to ensure that legacy land is preserved for its intended purpose in the long term.

Therefore, your Committees have amended this measure by:

- (1) Deleting the restriction that only the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, and Public Land Development Corporation may apply for funds;
- (2) Requiring nonprofit land conservation organizations to provide, in addition to a conservation easement, a deed restriction or covenant, as a condition to the receipt of funds under the legacy land program;
- (3) Requiring the Board of Land and Natural Resources to be made a full or partial owner of a conservation easement as a prerequisite to a state or county agency receiving funds;
- (4) Authorizing the Board of Land and Natural Resources to exempt the easement requirement as necessary;
- (5) Requiring applicants to submit with an application the project's public benefits and results of a consultation with the staff of the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, and Public Land Development Corporation; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2378, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2378, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8, Ayes with Reservations (Slom). Noes, 1 (Ryan). Excused, 3 (Chun Oakland, Fukunaga, Tokuda).

SCRep. 2305 (Joint) Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs on S.B. No. 2369

The purpose and intent of this measure is to require all public landscaping, highway beautification, and road projects developed to incorporate native Hawaiian plants and, when possible, to use plants on the island on which the species originated.

Your Committees received testimony in support of this measure from City and County of Honolulu Department of Design and Construction, Sierra Club, Aloha Arborist Association, Conservation Council for Hawaii, Coordinating Group on Alien Pest Species, and sixteen private individuals. Your Committees received testimony in opposition of this measure from the City and County of Honolulu Department of Budget and Finance, Irrigation Hawaii Limited, and four private citizens. Your Committees received comments on this measure from the Department of Land and Natural Resources, Landscape Industry Council of Hawaii, The Outdoor Circle, Rubber Stamp Plantation, Vetiver Systems Hawaii, and a private individual.

Your Committees find that Hawaii is known as the endangered species capital of the world with hundreds of plants and animals listed as endangered species or threatened species. As an island state, Hawaii possesses a unique beauty due to its native land plants, but we are losing species at an unprecedented rate. Your Committees find that it is important to continue the growth of these rare plants that are a part of our environment and culture and which are not found in other regions of the world.

Your Committees further recognize that during these harsh economic times, it is important to ensure the greatest value for taxpayer dollars. Accordingly, your Committees have amended this measure by:

- (1) Prohibiting the collection and redistribution of wild plants for use in any project;
- (2) Deleting the signage requirements;
- (3) Requiring the Department of Land and Natural Resources to develop a list of appropriate plants to use for each island;
- (4) Creating an exemption from the use of plants on the list when there is a lack of available cultivated native Hawaiian plants; and
- (5) Deleting the public landscaping project percentage requirement for native Hawaiian land plants.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2369, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2369, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2306 (Joint/Majority) Water, Land, and Housing and Energy and Environment on S.B. No. 3013

The purpose and intent of this measure is to establish a carbon credits program in the Department of Land and Natural Resources and require the Department to adopt rules for the sale and transfer of carbon credits among public and private agencies to ensure land conservation and reduced carbon emission standards.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received testimony in opposition to this measure from Life of the Land. Your Committees received comments on this measure from one individual.

Your Committees find that global warming has put Hawaii in a dangerous position that increases the State's dependence on fossil fuels and has been causing noticeable changes to our environment. Being a secluded island state, one of Hawaii's priorities should be to focus on promoting programs that reduce carbon emissions and protect our environment.

Your Committees further find that the buying and selling of carbon credits has gained success in Europe. Through this mechanism, businesses are incentivized to adopt environmentally friendly measures that reduce carbon emissions. However, your Committees find that a Hawaii program based on this model should have a narrower focus on the State's immediate needs regarding forests and watersheds.

Accordingly, your Committees have deleted the contents of this measure and adopted the Department of Land and Natural Resources' (DLNR) suggested draft, which:

- (1) Adds a new purpose section to appropriately reflect the new language of the measure;
- (2) Requires DLNR to establish a forest carbon offsets program, which allows the creation of forest carbon offsets that can be transferred or sold among public and private agencies in the State to guarantee sustainable management of Hawaii's natural resources and reduce carbon emissions;
- (3) Requires DLNR to set standards, develop processes, and adopt rules to implement the forest carbon offsets program and ensure that the forest management activities performed pursuant to the program meet certain criteria; and
- (4) Requires the Board of Land and Natural Resources to establish processing fees for the identification of sustainable forest carbon offsets, to be deposited into the forest stewardship fund.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3013, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3013, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8, Ayes with Reservations (Ihara). Noes, 1 (Slom). Excused, 2 (Shimabukuro, Solomon).

SCRep. 2307 (Joint) Energy and Environment and Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing on S.B. No. 2290

The purpose and intent of this measure is to incorporate provisions based on the latest edition of the International Green Construction Code in the state building code.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, International Code Council, The Asia-Pacific Center for Regenerative Design, Hawaii Laborers' Union, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Accounting and General Services, Building Industry Association of Hawaii, Plumbing and Mechanical Contractors Association of Hawaii, RMA Sales, General Contractors Association of Hawaii, and Hawaii Steel Alliance. Your Committees received comments on this measure from the Hawaii Farm Bureau Federation, International Association of Plumbing and Mechanical Officials, and The Plumber and Fitters Union, Local 675.

Your Committees find that the state building code protects the health, safety, and welfare of the people as it relates to the residential and commercial built environment. The International Green Construction Code applies only to commercial buildings, including hotels, and does not apply to residential or agricultural buildings. This measure will empower Hawaii's builders, designers, and engineers, to incorporate green materials and design into their work and result in developments that transform Hawaii's commercial built environment.

Your Committees further find that International Green Construction Code provisions and International Green Construction Code Water Efficiency Provisions should be implemented within our State at the discretion of the State Building Code Council.

Your Committees have amended this measure by:

- (1) Adding language requiring the state building code to include code provisions based on the latest edition of the International Green Construction Code Water Efficiency Provisions; and
- (2) Adding language clarifying that the State Building Code Council may exercise discretion in including code provisions from the International Green Construction Code and International Green Construction Code Water Efficiency Provisions.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2290, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2290, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 13, Ayes with Reservations (Tokuda, Slom). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2308 Human Services on S.B. No. 3036

The purpose and intent of this measure is to specify that group health insurance plans shall provide dependent coverage for natural grandchildren adopted by plan participants or beneficiaries.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and HMSA.

Your Committee finds that grandparent caregivers may have difficulty finding health insurance coverage for their grandchildren. Grandparents in the paid work force that have employer-provided group insurance still face problems securing health insurance for their grandchildren because employer-provided group health insurance is generally available for children in kinship care arrangements.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3036, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2309 Human Services on S.B. No. 2592

The purpose and intent of this measure is to create a universal children's savings account program under the Department of Budget and Finance.

Your Committee received testimony in support of this measure from the Hawai'i Alliance for Community-Based Economic Development, Kewalo Hawaiian Homestead Community Association, and Sovereign Councils of the Hawaiian Homelands Assembly. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that universal children's savings accounts are part of a broader asset building agenda that seeks to foster financial independence and self-sufficiency for Hawaii's youth and families. It provides individuals with tangible incentives to save and helps individuals gain financial success.

Your Committee notes that according to the Department of Budget and Finance's testimony, this measure, as it is currently drafted, raises concerns including the following:

- (1) The future liability to the State to fund the program as a permanent recurring expense;
- (2) The Department of Budget and Finance's ability to embark on a program of this magnitude without additional resources in staffing and costs for the initial establishment and ongoing operation of a program; and
- (3) The potential difficulty in attracting a third-party administrator for a Hawaii resident-based program due to the limited group of potential participants.

Your Committee has therefore amended this measure by:

- (1) Extending the effective date to July 1, 2014, to provide additional time so that a universal children's savings account program can be properly developed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2592, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2592, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2310 Health on S.B. No. 2087

The purpose and intent of this measure is to require health plans that provide coverage for cancer chemotherapy treatment to establish limits on out-of-pocket costs for cancer medications, including nongeneric, oral chemotherapy.

Your Committee received testimony in support of this measure from Hawaii Medical Association, HMSA, American Cancer Society, Hawaii Public Health Association, and three individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Kaiser Permanente.

Your Committee finds that the cost of cancer medications is a pressing issue, with the American Cancer Society estimating that one in five cancer patients use up all or most of their savings to pay for treatment. Your Committee further finds that oral chemotherapy makes cancer treatment less burdensome in terms of the time and commute required for individuals, especially those who do not reside on Oahu, to receive treatment.

Your Committee has amended this measure by adopting language provided by Kaiser Permanente that:

- (1) Specifies that the copayment percentage or relative coinsurance amount for oral chemotherapy drugs may be lower than the amount charged for intravenously administered chemotherapy;
- (2) Specifies that generic oral chemotherapy drugs shall also be covered by individual and group hospital and medical service plan policies and contracts; and
- (3) Makes technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2087, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2311 Health on S.B. No. 2229

The purpose and intent of this measure is to enact a recommendation made by the immunizations task force to allow pharmacists to administer the influenza vaccine to persons between fourteen and seventeen years of age under certain conditions.

Your Committee received testimony in support of this measure from the Department of Health, Ohana Health Plan, Walgreens, Times Supermarkets, Safeway, and HMSA. Your Committee received testimony in opposition to this measure from Foodland Supermarkets, Ltd. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that this measure will increase access by minors to influenza vaccinations. Your Committee also finds that a license with a longer validation period may lighten the burden for pharmacists authorized to administer influenza vaccines to minors, as such pharmacists must complete additional requirements, including additional educational requirements.

Your Committee has amended this measure by:

- (1) Inserting language to require that pharmacists who administer the influenza vaccine to persons between fourteen to seventeen years of age shall renew the license that authorizes them to do so every four years;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2229, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2229, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2312 Health on S.B. No. 2425

The purpose and intent of this measure is to require that for a place of employment where cigarettes or tobacco products are sold or offered for sale, with exceptions permitted for retail tobacco stores, bars, or establishments where the minimum age for admission is eighteen:

- (1) Cigarettes and tobacco products shall be stored for sale behind a counter;
- (2) Advertisements that promote or encourage the purchase or use of cigarettes or tobacco products shall be placed twenty-five feet away from children's products or toys or where cookies, candy, ice cream, gum, or snacks are sold; and
- (3) Advertisements that promote or encourage the purchase or use of cigarettes or tobacco products shall be placed at least four feet from the floor.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Coalition for a Tobacco-Free Hawaii, Hawaii COPD Coalition, American Cancer Society, American Heart Association, thirty-five representatives of REAL: Hawaii Youth Movement Exposing the Tobacco Industry (representatives also presented a petition with one thousand three hundred signatures), and sixty-two individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Hawaii Food Industry Association, ABC Stores, and three individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that there is a causal relationship between tobacco advertising and promotion and increased tobacco use and that retail venues have become the primary medium for the tobacco industry's marketing efforts. Your Committee further finds that smaller stores are more likely to have tobacco advertisements at the eye level of children or near youth-oriented products and snacks and that frequent visits to stores selling and advertising tobacco increases the likelihood of teenagers being susceptible to start smoking.

Your Committee has amended this measure by:

- (1) Specifying that for establishments less than one thousand square feet, advertisements promoting tobacco must be at least ten feet away from certain items whereas for establishments equal to or greater than one thousand square feet, advertisements promoting tobacco must be at least twenty-five feet away from certain items; and
- (2) Substituting the term "place of employment" with the term "establishment" as a technical amendment to more accurately describe the stores and other sites that were intended to be covered under this measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2425, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2425, S.D. 1, and be referred to the Committee on Economic Development and Technology.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Nishihara, Slom).

SCRep. 2313 Human Services on S.B. No. 2179

The purpose and intent of this measure is to require and appropriate funds to the Department of Taxation to coordinate an outreach initiative to increase awareness and use of the federal earned income tax credit.

Your Committee received testimony in support of this measure from the Department of Human Services; the Hawaii State Commission on the Status of Women; the Association of Hawaiian Civic Clubs; the Hawai'i Alliance for Community-Based Economic Development; the Office of Hawaiian Affairs; the Women's Caucus, Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the federal earned income tax credit is considered one of the nation's largest and most successful anti-poverty and work incentive programs. Your Committee also finds that although the federal earned income tax credit is widely known to reduce poverty with 104,000 families taking advantage of the federal earned income tax credit, another 19,000 families could claim the credit if they were aware of the program and their eligibility. It is estimated that Hawaii workers fail to claim between \$31,299,580 and \$41,732,301 in federal earned income tax credit benefits annually. This measure will require the Department of Taxation to conduct an outreach initiative to educate families on the federal earned income tax credit and to appropriate funds to the Department to carry out the initiative.

Your Committee further finds that the Volunteer Income Tax Assistance Program offers free tax help to persons earning \$50,000 or less, who need assistance preparing their taxes and provides free basic income tax return preparation to qualified individuals in local communities. Therefore, your Committee requests the Department of Taxation to partner with the Volunteer Income Tax Assistance Program to carry out the outreach initiative.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2179 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2314 Human Services on S.B. No. 2804

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Interagency Council on Homelessness to be administratively placed within the Department of Human Services; and
- (2) Appropriate funds to the Department of Human Services for administrative expenses of the Council.

Your Committee received testimony in support of this measure from the Coordinator on Homelessness, Office of the Governor; the Office of Veterans Services, Department of Defense; the Department of Health; the Department of Human Services; the Office of Housing and Community Development, County of Hawai'i; Catholic Charities Hawai'i; the Hawai'i Association of Realtors; the Hawaii Substance Abuse Coalition; the Hawaii Youth Services Network; the Office of Hawaiian Affairs; Partners in Care; and three individuals.

Your Committee finds that establishing the Hawaii Interagency Council on Homelessness in the Hawaii Revised Statutes will further enhance the State's ability to provide effective and meaningful approaches and solutions to address homelessness in Hawaii. Your Committee also finds that having a council membership that represents a wide cross section of the community, including representatives from the government, the business community, the faith-based community, and social services, will provide the necessary perspective and expertise that the interagency council needs to develop overall strategies to prevent and end homelessness.

Your Committee notes that the applicability of the Sunshine Law, chapter 92, Hawaii Revised Statutes, to the interagency council may cause ethical concern.

Your Committee has amended this measure by:

- (1) Adding the Chairperson of the Hawaiian Homes Commission, or designee, to the Hawaii Interagency Council on Homelessness membership;
- (2) Adding language that excludes the members of the Hawaii Interagency Council on Homelessness from the standards of conduct under chapter 84, Hawaii Revised Statutes;
- (3) Inserting an appropriation amount of \$25,000 to be expended by the Department of Human Services for administrative expenses of the Council; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2804, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2804, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2315 (Joint) Agriculture and Water, Land, and Housing on S.B. No. 2332

The purpose and intent of this measure is to:

- (1) Exempt producers of agricultural products without access to municipal water from processing the product in a certified food-processing establishment or from obtaining a permit from the Department of Health; and

- (2) Increase the volume of honey a home-based agricultural producer of honey is allowed to produce to remain exempt from processing their honey in a certified honey house or food processing establishment, or from obtaining a permit from the Department of Health.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation and one individual. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that many honey producers live in rural communities and do not have access to municipal water. Your Committees also find that honey has little impact on human health and that water is generally not added to honey during any stage of production. However, existing law requires honey producers to have access to municipal water.

Your Committees have amended this measure by:

- (1) Limiting the exceptions provided in this measure to honey producers and deleting provisions relating to agricultural products;
- (2) Requiring producers of raw unprocessed or processed honey to:
 - (A) Comply with rules adopted by the Department of Health to protect the health and safety of the public;
 - (B) Use water that has been treated to meet or exceed state and federal drinking water standards; and
 - (C) Test the water used for processing honey no less than once a month, maintain water quality records for a period of no less than two years, and make those records available to the Department of Health upon request; and
- (3) Requiring home-based agricultural producers of honey to label each container of honey sold with the statement "This honey was not produced or packaged in a Department inspected facility." in clear and conspicuous print.

As affirmed by the records of votes of the members of your Committees on Agriculture and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2332, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2332, S.D. 1, and be referred to the Committee on Health.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Chun Oakland, Fukunaga, Tokuda).

SCRep. 2316 (Joint) Hawaiian Affairs and Education on S.B. No. 3071

The purpose and intent of this measure is to appropriate funds for three permanent faculty positions and operating expenses for Ho'okulaiwi: 'Aha Ho'ona'auao 'Oiwī within the University of Hawaii at Manoa.

Your Committees received testimony in support of this measure from the Hawai'i Educational Policy Center, Sovereign Councils of the Hawaiian Homelands Assembly, Ho'okulaiwi Center for Native Hawaiian and Indigenous Education, Aupuni o Hawaii, and thirty-nine individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs and Department of Education.

Your Committees find that the underrepresentation of qualified native Hawaiian teachers in Hawaii's public schools negatively impacts native Hawaiian students. Ho'okulaiwi has initiated programs on the Leeward Coast of Oahu and on Niihau that provide training for teachers in the affected areas. Ho'okulaiwi seeks to expand its initiative by creating one additional teaching cohort to train teachers on the Leeward Coast and the island of Molokai. The Office of Hawaiian Affairs has allocated grant funding to Ho'okulaiwi for a two-year period.

Your Committees have amended this measure by:

- (1) Inserting additional language suggested by the Department of Education in the purpose section to acknowledge other components in the curricula of Hawaii's public schools;
- (2) Deleting language conditioning the expenditure of appropriated funds on the Office of Hawaiian Affairs' matching funds;
- (3) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3071, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3071, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Hee, Solomon, Taniguchi, Slom).

SCRep. 2317 (Joint/Majority) Energy and Environment and Economic Development and Technology and Agriculture on S.B. No. 2512

The purpose and intent of this measure is to:

- (1) Increase the amount of the allocation from the state environmental response, energy, and food security tax to the energy security special fund and the agricultural development and food security special fund;
- (2) Continue the existence of the Hawaii economic development task force by two years through June 2014, and rename it the Hawaii food and energy security council;

- (3) Make permanent the amendments to the state environmental response, energy, and food security tax enacted by Act 73, Session Laws of Hawaii 2010; and
- (4) Raise the spending limits imposed on the Department of Business, Economic Development, and Tourism's Energy Office and the Department of Agriculture.

Your Committees received testimony in support of this measure from The Nature Conservancy, Blue Planet Foundation, Hawaii Farm Bureau Federation, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Agriculture, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that the Legislature must increase Hawaii's food and energy independence to reverse the annual export of more than \$8,000,000,000 from the State of Hawaii for food and energy. In its final report to the Legislature, the Hawaii economic development task force recommended increasing investment in energy security and agricultural development, continuing the work of the task force through June 2014, and raising the spending limits imposed on the State Energy Office and the Department of Agriculture. Your Committees believe that these recommendations can assist the State in charting a course toward increased food and energy security and ensuring the economic well-being of future generations within our State.

Your Committees have amended this measure by:

- (1) Specifying that the state environmental response, energy, and food security tax shall be \$1.05 on each barrel or fractional part of a barrel of petroleum product;
- (2) Extending the repeal date of certain amendments to the state environmental response, energy, and food security tax, by two years, to June 30, 2017, rather than making those amendments permanent;
- (3) Changing the effective date to July 1, 2012; provided that section 3 takes effect on June 29, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2512, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2512, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, 1 (Slom). Excused, 5 (Chun Oakland, Dela Cruz, Shimabukuro, Solomon, Tokuda).

SCRep. 2318 (Joint/Majority) Public Safety, Government Operations, and Military Affairs and Health on S.B. No. 2398

The purpose and intent of this measure is to:

- (1) Allow qualified licensed tattoo artists to demonstrate their skills at a tattoo trade show, tattoo convention, or other tattoo-related event, subject to the availability of the proper facilities and equipment necessary to perform their skills or work; and
- (2) Allow the Department of Health to contract with professional testing services to prepare, administer, and grade an out-of-state examination for any applicant for a temporary tattoo license.

Your Committees received testimony in support of this measure from numerous individuals. Testimony in opposition to this measure was received from the Department of Health, Kapu Tattoo Company, and twelve individuals. Comments were received from five individuals.

Your Committees find that this measure is intended to address the possible widespread adverse health effects of the transmission of disease by persons who are not licensed as tattoo artists in this State.

Your Committees have amended this measure by deleting its contents and substituting provisions to:

- (1) Prohibit the sale of tattoo supplies to any person under the age of eighteen years, any person not licensed in Hawaii as a tattoo artist, or any tattoo shop without a permit issued by the Department of Health;
- (2) Beginning January 1, 2013, require every applicant for a tattoo artist license to pass a blood borne pathogen test developed specifically for the tattoo industry and approved by the Director of Health as a prerequisite to licensure, and to require passing the test every four years thereafter in order to continue licensure;
- (3) Condition the granting of a temporary permit for locations other than a permitted tattoo shop for a trade show, product demonstration, or educational demonstration on a prohibition of the conducting of body piercing and body modifications; and
- (4) Establish a tattoo artist task force to review administrative rules relating to the regulation and licensure of tattoo artists with the goal of enhancing regulation.

Your Committees believe that this measure, as amended, addresses the most pressing present concerns about tattoo artists and the tattoo industry.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2398, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2398, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Ayes, 7, Ayes with Reservations (Wakai). Noes, 1 (Slom). Excused, 2 (Ryan, Shimabukuro).

SCRep. 2319 (Joint) Public Safety, Government Operations, and Military Affairs and Education and Economic Development and Technology on S.B. No. 3037

The purpose and intent of this measure is to:

- (1) Establish the Pacific International Space Center for Exploration Systems (Space Center), previously known as the Pacific International Center for Exploration Systems, within the Department of Business, Economic Development, and Tourism;
- (2) Establish the Pacific International Space Center for Exploration Systems Board of Directors, to be appointed by the Governor with the advice and consent of the Senate;
- (3) Transfer the Space Center from the University of Hawaii to the Department of Business, Economic Development, and Tourism's Office of Aerospace Development;
- (4) Authorize the issuance of an unspecified amount of general obligation bonds to finance construction of the Space Center's aerospace research technology park project; and
- (5) Make an unspecified appropriation out of general revenues to construct the Space Center's aerospace research technology park project.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; and Honolulu Department of Budget and Fiscal Services. Comments were received from the Department of Human Resources Development. Testimony in opposition was received from one individual.

Your Committees find that the Space Center, including its proposed aerospace research technology park project, is an economic driver for the island of Hawaii that promotes the establishment and growth of new sustainable and green industries, associated jobs, workforce development, internships, and STEM programs. The legislature also finds that the Space Center's aerospace research technology park project will attract investment that will help to leverage costs of expanding the island of Hawaii's broadband capacity.

Your Committees further find there is continued need for the Space Center to work closely with the University of Hawaii, but also recognizes the need for swift and independent decisions and actions in the rapidly evolving aerospace sector to keep Hawaii competitive and attractive to industry partners. This is especially critical with the recent emergence of private commercial space access and a resurgence of global space initiatives. Supporting these initiatives will involve significant private sector investment in the testing, proving, and development of robotics, broadband, energy production, energy storage, recycling, and renewable and sustainable technologies that can have immediate application and use for the Hawaii economy and the general well-being of the State.

Your Committees note that a preliminary cost estimate given in testimony of the Department of Business, Economic Development, and Tourism was \$480,000 per year in operating expenses and \$1,000,000 per year in research and development for the Space Center. However, more information is needed for the purposes of the Committee on Ways and Means.

Your Committees have amended this measure by:

- (1) Changing the effective date to January 1, 2020, to ensure further discussions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Education and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3037, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3037, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 2 (Ryan, Solomon).

SCRep. 2320 (Joint) Public Safety, Government Operations, and Military Affairs and Health on S.B. No. 2262

The purpose and intent of this measure is to clarify that the medical use of marijuana is considered to be consistent with the Pain Patient's Bill of Rights, chapter 327H, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from Big Island Chapter of Americans for Safe Access, Drug Policy Forum of Hawaii, and ninety-three individuals. Testimony in opposition to this measure was received from five individuals.

Your Committees find that numerous scientific studies and anecdotal testimonies from chronic pain patients indicate that medical cannabis is a powerful pain medicine without the dangerous side effects of addictive drugs, such as Vicodin and Oxycontin. Another benefit is that medical cannabis allows patients to reduce the amount of prescriptive drugs they need to take to manage pain.

Your Committees have amended this measure by changing the effective date to January 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2262, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2262, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Ryan, Shimabukuro).

SCRep. 2321 Public Safety, Government Operations, and Military Affairs on S.B. No. 226

The purpose and intent of this measure, with regard to the law on street solicitation of prostitution, is to:

- (1) Allow an arresting officer to impound the vehicle of the person soliciting a prostitute if the motor vehicle was used in the commission of the crime and the person arrested is the registered owner of the vehicle or the vehicle is a rental vehicle;
- (2) Require counties to establish ordinances for the impoundment and return of motor vehicles and rental vehicles; and
- (3) Allow counties to enact ordinances to establish reasonable fees for the processing and storage of impounded vehicles.

Your Committee received testimony in support of this measure from Imua Alliance, The Pacific Alliance to Stop Slavery, Equality Now, and three individuals. Testimony in opposition was received from the Honolulu Police Department.

Your Committee finds that this measure is an effective deterrent to the commission of crimes of prostitution when a motor vehicle is used in the course of the solicitation. This measure is aimed at persons who entice prostitutes to commit a sex crime. The disabling of a vehicle would prevent the person from using the vehicle again within a certain amount of time.

Your Committee has amended this measure by:

- (1) Making the measure apply to the crimes of prostitution, promoting prostitution, promoting prostitution in the second degree, street solicitation of prostitution in designated areas, and solicitation of prostitution near schools or public parks;
- (2) Authorizing the use of a wheel boot or wheel clamp instead of storage of the vehicle in a county facility, in consideration of the lack of county storage yards;
- (3) Adding a special fine as a penalty which shall be divided for deposit into the domestic violence and sexual assault special fund for programs and services under the fund as well as to provide counseling to victims of domestic violence or sexual assault, and into the general fund of the county in which the arrest occurred;
- (4) Making a grant-in-aid appropriation to each county to purchase wheel boots or wheel clamps; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 226, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2322 (Joint) Public Safety, Government Operations, and Military Affairs and Health on S.B. No. 2681

The purpose and intent of this measure is to allow for the transfer of persons committed to the custody of the Director of Health to correctional facilities, under certain conditions.

Your Committees received testimony in support of this measure from the Department of Health and Department of Public Safety. Comments were received from one individual.

Your Committees find that this measure provides a mechanism to transfer an individual, who has been committed by the court to the Director of Health as being unfit to proceed, to a setting controlled by the Director of Public Safety in those instances when the individual no longer needs an inpatient level of clinical care but continues to require strict security, and is not appropriate for release into the community.

Your Committees have amended this measure on the recommendation of the Department of Health by deleting its contents and substituting language to ensure that this measure, as amended, is consistent with the Department of Public Safety's goals and provides a mechanism for the coordination of care prior to a court-ordered transfer of the defendant from a health facility to a correctional facility.

As amended, this measure is an effective mechanism to arrange for the transfer of individuals who need strict security to another, more appropriate setting. Under this mechanism, the court of original jurisdiction makes the determination to order the transfer. Your Committees find that this is an important step in improving the continuum of services and supports for the defendant.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2681, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2681, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Ryan, Shimabukuro).

SCRep. 2323 (Joint/Majority) Health and Commerce and Consumer Protection on S.B. No. 2631

The purpose and intent of this measure is to ensure the provision of quality health care procedures for all Hawaii residents by requiring coverage of and treatment for autism spectrum disorders.

Your Committees received testimony in support of this measure from Autism Speaks and eight individuals. Your Committees received testimony in opposition to this measure from HMSA and Kaiser Permanente. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and AFLAC.

Your Committees find that autism is increasing in prevalence and that early and intensive treatment efforts, especially applied behavior analysis, may prevent an individual from becoming a lifelong ward of the State. Your Committees further find that such

treatment poses a huge financial burden for families and as this treatment is not covered by health insurers, out-of-pocket costs may be upwards of \$50,000 per year. Consequently, those who cannot afford such costs cannot access critical treatment.

Your Committees also find that even though the cost of insurance may increase as a result of this measure, the assistance provided to families in need, the ability of those with an autism spectrum disorder to live a more productive life, and the long-term savings to the State as a result of positive treatment outcomes far outweigh the short-term costs. Testimony submitted by Autism Speaks refers to a Harvard School of Public Health Study which estimates that over the course of a lifetime, an individual with an autism spectrum disorder who is also a ward of the state will cost the state approximately \$3,200,000.

Lastly, your Committees find that amending the language to appropriately reflect the nuances of insurance-related terminology will best allow the people of the State to benefit from the provisions of this measure.

Your Committees have amended this measure by:

- (1) Amending the new language added to chapter 431:10A, Hawaii Revised Statutes, in section 1 to appropriately reference accident and health or sickness insurance policies and insurers;
- (2) Specifying that all accident and health or sickness insurance policies shall provide to covered individuals coverage for the well-baby and well-child screening;
- (3) Providing that the benefit for behavioral health treatment under chapters 431:10A and 432:1, Hawaii Revised Statutes, may be capped at \$50,000 per year or \$300,000 for the lifetime of the individual;
- (4) Specifying that payments made on behalf of a covered individual for any care, treatment, intervention, service, or item other than behavioral health treatment shall not be applied toward any minimum, rather than not being applied toward the maximum, benefit for behavioral health treatment;
- (5) Requiring coverage for applied behavioral analysis services under chapters 431:10A and 432:1, Hawaii Revised Statutes, only when the services are provided or supervised by a board-certified behavioral analyst or by an appropriately trained licensed psychologist, with reimbursements also to be provided for the therapists working under the supervision of the board-certified behavioral analyst or licensed psychologist;
- (6) Changing from January 1, 2015, to January 1, 2014, the date as of which benefits under this measure that exceed the essential health benefits under the Patient Protection and Affordable Care Act shall not be required of a health plan offered through the Hawaii Health Connector;
- (7) Deleting the definitions for “autism service provider” and “health insurance policy”;
- (8) Removing “guidance services” from the types of covered behavioral health treatment;
- (9) Removing psychiatrists from the group of service providers who may provide covered treatment for an autism spectrum disorder and including “related equipment” as one of the covered elements for this same treatment;
- (10) Amending the new language added to chapter 432:1, Hawaii Revised Statutes, in section 3 to appropriately reference individual and group hospital or medical service plans, policies, contracts, or agreements;
- (11) Specifying that for mutual benefit societies:
 - (A) Coverage for treatment under this measure shall not be denied on the basis that the treatment is habilitative or non-restorative in nature;
 - (B) Except for inpatient services, if an individual is receiving treatment for an autism spectrum disorder, an insurer may request a review of that treatment not more than once every twelve months, with the cost of obtaining any review borne by the insurer;
 - (C) The mandatory coverage under this measure shall not be construed as reducing any obligation to provide services to an individual under an individualized family service plan, an individualized education program, or an individualized service plan; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2631, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2631, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6, Ayes with Reservations (Nishihara, Solomon). Noes, 1 (Slom). Excused, 3 (Galuteria, Shimabukuro, Wakai).

SCRep. 2324 Health on S.B. No. 2085

The purpose and intent of this measure is to require the Hawaii Health Insurance Exchange to offer a basic health plan and, in regard to the Exchange’s Board of Directors, to:

- (1) Clearly define the consumer;
- (2) Strengthen statewide consumer and business representation; and
- (3) Address conflicts of interest by prohibiting health plans from being members.

Your Committee received testimony in support of this measure from Ohana Health Plan; Waikiki Health Center; Bay Clinic, Inc.; Molokai Community Health Center; Lanai Community Health Center; AlohaCare; and three individuals. Your Committee received testimony in opposition to this measure from HMSA and Hawaii Dental Service. Your Committee received comments on this measure from the Office of the Governor, Hawaii Health Connector, and the Healthcare Association of Hawaii.

Your Committee finds that the continued membership of health insurers and dental benefit providers in the Board will provide valuable perspectives regarding health care. Your Committee also notes that the federal rules regarding the composition of the Board of Directors may be examined going forward.

Your Committee has amended this measure by:

- (1) Amending the definition of "consumer" to conform to language provided by the Office of the Governor;
- (2) Requiring the basic health plan to be offered by the Exchange to be available on or before January 1, 2015, rather than January 1, 2014;
- (3) Reinstating insurers and dental benefit providers to the Board;
- (4) Adding a consumer to the interim Board; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2085, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2325 (Majority) Education on S.B. No. 2994

The purpose and intent of this measure is to require the State Librarian to issue licenses, revocable permits, concessions, or rights of entry, for a discretionary period, to the Friends of the Library of Hawaii and any 501(c)(3) corporations that exist for the purpose of supporting a library within the Hawaii State Public Library System.

Your Committee received testimony in support of this measure from the Kuli'ou'ou/Kalani Iki Neighborhood Board #2 and one hundred thirty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Public Library System, Friends of the Library of Hawai'i; Friends of the Libraries, Kona; and fourteen individuals.

Your Committee finds that under existing law, the State Librarian may issue licenses, revocable permits, concessions, and rights of entry to only two entities: the Hawaii State Library Foundation and Friends of the Library of Hawaii. Your Committee is concerned that allowing exclusive use of state facilities creates a special privilege for specific private entities even though other private entities may be able to provide an equal or greater benefit to the Hawaii State Public Library System if given an equal opportunity to participate. In addition, your Committee believes that the original intent of the existing law was not to create exclusive-use privileges but rather to encourage greater private-public partnerships to benefit the Hawaii State Library System.

Your Committee has amended this measure by:

- (1) Amending language to require the head librarian of each branch, rather than the State Librarian, to issue the licenses, revocable permits, concessions or rights of entry for that library's facilities and grounds; provided that the head librarian shall obtain the prior approval of the State Librarian;
- (2) Changing the effective date to June 1, 2030, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2994, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2994, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Taniguchi). Noes, 1 (Nishihara). Excused, none.

SCRep. 2326 (Majority) Education on S.B. No. 2348

The purpose and intent of this measure is to repeal the state educational facilities improvement special fund effective July 1, 2013, and provide that any funds remaining in the state educational facilities improvement special fund or lease payment for schools account shall lapse to the general fund on July 1, 2014.

Your Committee received testimony in support of this measure from the Department of Budget and Finance. Your Committee received testimony in opposition to this measure from the Department of Education. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the state educational facilities improvement special fund was first established pursuant to Act 368, Session Laws of Hawaii 1989. Over the years, capital improvement projects for Department of Education facilities have generally been authorized and funded with state educational facilities improvement special fund monies, which are then supported through general obligation bond funds.

While your Committee recognizes the opposing concerns raised by the Department of Education and the Department of Budget and Finance, your Committee encourages further discussion on the necessity of retaining the state educational facilities improvement special fund.

Your Committee has amended this measure by:

- (1) Reinstating the state educational facilities improvement special fund;
- (2) Requiring the budget and supplemental budget submitted pursuant to sections 37-71 and 37-72, Hawaii Revised Statutes, to include financial requirements for general funds or general obligation bond funds for projects authorized by the state educational facilities improvement special fund; and
- (3) Changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2348, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Taniguchi). Excused, 1 (Nishihara).

SCRep. 2327 (Majority) Education on S.B. No. 2349

The purpose and intent of this measure is to propose an amendment to the Constitution of the State of Hawaii that would repeal the state educational facilities improvement special fund's exemption from the requirement that appropriated monies be lapsed after three years.

Your Committee received testimony in support of this measure from the Department of Budget and Finance. Your Committee received testimony in opposition to this measure from the Department of Education.

Your Committee finds that S.B. No. 2348, Regular Session of 2012 (S.B. No. 2348), proposes to repeal the state educational facilities improvement special fund. The constitutional amendment proposed in this measure is necessary for housekeeping purposes in the event the state educational facilities improvement special fund is repealed. Your Committee encourages further discussion on this measure and S.B. No. 2348, as both measures progress through the legislature.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2349 and recommends that it pass Second Reading and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Taniguchi). Excused, none.

SCRep. 2328 Education on S.B. No. 2483

The purpose and intent of this measure is to require:

- (1) Every public school, charter school, private school, and the University of Hawaii to have one or more fully automated external defibrillators (AED) on the site of every sporting event; and
- (2) Every trainer and teachers at each public, charter, and private school to be trained and certified on the use of AED's.

Your Committee received testimony in support of this measure from the American Heart Association, American Red Cross, and Hawaii Association of Athletic Trainers. Your Committee received testimony in opposition to this measure from the Hawaii Educational Policy Center. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that AED's are an important tool in responding to emergency situations. In addition, your Committee finds that AED's have been used on several occasions over the past few years to save the lives of student athletes, athletic coaches, and spectators of sporting events. Your Committee recognizes the concerns raised by several of the testifiers but believes further discussion on this measure is warranted.

Your Committee has amended this measure by:

- (1) Deleting the requirement that every public school, charter school, private school, and the University of Hawaii have an AED on site at every sporting event;
- (2) Requiring that by the end of the 2013-2014 school year:
 - (A) Every public school, charter school, and the University of Hawaii shall have an AED situated at a permanent location on campus;
 - (B) Public schools and charter schools that have an athletic trainer, as well as the University of Hawaii, shall have an additional AED available at all sporting events and an athletic trainer who is trained and certified at all times in the use of AED's; and
 - (C) Public schools and charter schools that do not have an athletic trainer shall have at least two faculty members present at every sporting event who are trained and certified at all times in the use of AED's;
- (3) Clarifying that each charter school, rather than the Department of Education, shall ensure that the charter school's AED is:
 - (A) Maintained and regularly tested; and

- (B) Checked for readiness after each use and at least once every thirty days;
- (4) Removing the requirement that all public school and charter school teachers shall be trained and certified at all times in the use of AED's;
 - (5) Defining the term "sporting event" to include competitions, scrimmages, and practices;
 - (6) Defining the term "public school" to include elementary, middle, and high schools;
 - (7) Clarifying that the term "trainer" means an "athletic trainer";
 - (8) Removing all other AED requirements for private schools; and
 - (9) Requiring the Department of Education to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013 on its inventory of AED's and whether the Department requires additional funding to acquire the appropriate number of AED's to meet the requirements of this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2483, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2483, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Nishihara).

SCRep. 2329 (Joint) Education and Economic Development and Technology on S.B. No. 2528

The purpose and intent of this measure is to transfer the Hawaii 3Ts school technology laboratories fund from the Department of Education to the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Kaua'i Economic Development Board, Inc.; Maui Economic Development Board, Inc.; and four individuals.

Your Committees find that the Hawaii 3Ts school technology laboratories fund will be more appropriately placed within the Department of Business, Economic Development, and Tourism, rather than the Department of Education. Your Committees further find that the Economic Development Alliance of Hawaii, Inc. (EDAH) has successfully funded a number of projects that support the State's commitment to providing broadband and technological resources to give Hawaii a competitive advantage in the twenty-first century.

Your Committees have amended this measure by:

- (1) Removing the requirement that EDAH obtain approval from the Director of Business, Economic Development, and Tourism for all proposals for which EDAH intends to provide funding;
- (2) Clarifying that all proposals approved by the Hawaii 3Ts School Technology Laboratories board and for which EDAH intends to provide funding and contracts awarded by EDAH shall be made under as much competition as practical to execute the purposes of the proposals and contracts;
- (3) Amending the definition of "school technology laboratory" so that it refers to a multi-platform and multi-disciplinary laboratory, rather than a multi-station computer laboratory, that offers students a variety of different types of hardware and software applications; and
- (4) Requiring EDAH, as part of its annual report to the Department of Business, Economic Development, and Tourism, to include a summary of the accomplishments and student outcomes of the Hawaii 3Ts school technology laboratories fund.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2528, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2528, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, none.

SCRep. 2330 Education on S.B. No. 2535

The purpose and intent of this measure is to:

- (1) Require the Department of Education to devise four bell schedules for each grade level to standardize instructional periods across all schools, with the exception of charter schools and multi-track schools; and
- (2) Require each school to choose and implement one of the available bell schedules for each grade level beginning no later than the 2014-2015 school year.

Your Committee received testimony in support of this measure from the Department of Education, Hui for Excellence in Education, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association, IMUAlliance, and sixty-five individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that there are a number of individual bell schedules that schools have developed and implemented, and while this empowers decision making at the school community level, it has made establishing a base level of instructional time for all students difficult. This measure will allow for equitable instructional time across all schools while providing each school with a certain

amount of flexibility and continuing the discussion of how to best quantify instructional time and increase student access to opportunities where learning takes place.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Education shall devise four bell schedule options for elementary, middle, and high schools, rather than for each grade level; and
- (2) Amending the definition of “student instructional hours” to mean:
 - (A) Student learning time in elementary schools during which students are engaged in learning activities, including regularly scheduled instruction, project-based learning assignments, technology-assisted learning, learning assessments within the curriculum, and all other activities in which there is a related general learner outcome attached to such time; and
 - (B) Student learning time in secondary school during which students are engage in learning activities, including regularly scheduled instruction, project-based learning assignments, technology-assisted learning, and learning assessments within the curriculum; provided that for the purposes of determining the adequacy of instructional time for secondary schools, “student instructional hours” may include presentations by persons other than teachers, directed study, time spent in homeroom, student advisory time, statewide performance assessment, and all other activities in which there is a related general learner outcome attached to such time.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2535, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2535, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 2331 Education on S.B. No. 2654

The purpose and intent of this measure is to prohibit the Department of Education from transferring funds from the EDN 100 school-based budget program identifier (EDN 100) to any other program without legislative authorization.

Your Committee received testimony in opposition to this measure from the Department of Education.

Your Committee finds that the Department of Education should be afforded some flexibility in transferring appropriated funds between certain programs; however, funds appropriated to EDN 100 should be used solely for school-based budgeting.

Furthermore, it is the intent of your Committee that while the Department of Education is prohibited from transferring funds appropriated to EDN 100 to other program identifiers under this measure, the Department of Education should not be prohibited from transferring funds from other program identifiers into EDN 100 if necessary to cover a shortfall in funding.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the Department of Education shall have the flexibility to transfer appropriated funds and positions for the operating cost category among programs and among cost elements in a program, and between quarters, as applicable; provided that appropriations to the EDN 100 school-based budgeting program identifier shall not be transferred to any other program identifier of the Department of Education without legislative authorization; and
- (2) Changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2654, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2654, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2332 Health on S.B. No. 2958

The purpose and intent of this measure is to appropriate funds to be expended by the Department of Health for the implementation of a new bone marrow transplantation program in the State.

Your Committee received testimony in support of this measure from the American Cancer Society, Hawaii Pacific Health, and one individual. Your Committee received testimony in opposition to this measure from ACLU of Hawaii. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the closure of Hawaii Medical Center East resulted not only in the loss of Hawaii’s only certified organ transplant center, but also the loss of bone marrow transplantation services. Those needing transplants have the sole option of traveling to the mainland to receive services, which adds to the financial burden of these patients and makes it more difficult for the patient’s family and other members of the patient’s support system to accompany the patient.

Your Committee has amended this measure by inserting an appropriation amount of \$500,000.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2958, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2958, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chun Oakland, Nishihara, Slom).

SCRep. 2333 Health on S.B. No. 2422

The purpose and intent of this measure is to impose an excise tax on tobacco products, other than large cigars, in an effort to curtail tobacco use.

Your Committee received testimony in support of this measure from the Department of Health and the Coalition For A Tobacco-Free Hawaii. Your Committee received testimony in opposition to this measure from the Cigar Association of America, Inc., and three individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii and the American Heart Association.

Your Committee finds that tobacco use continues to be a pressing problem in Hawaii and the United States, causing over 400,000 deaths per year. Illness and death directly related to tobacco consumption costs Hawaii at least \$640,000,000 per year. Your Committee further finds that raising the price of tobacco products through state tax increases will prompt a reduction in tobacco use, especially among adolescents and young adults.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2422, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2422, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2334 Health on S.B. No. 2797

The purpose and intent of this measure is to make permanent the provisions of Act 205, Session Laws of Hawaii 2010, that required an individual insured under QUEST, QUEST Expanded Access, or a fee-for-service program administered by the Department of Human Services to make two unsuccessful attempts at treatment with generic psychotropic medications before the Department of Human Services may cover a brand-name medication for a new prescription.

Your Committee received testimony in support of this measure from Ohana Health Plan and one individual.

Your Committee finds that the number of individuals who require treatment for mental health issues is increasing and that prescription medications, including psychotropic drugs, have become increasingly expensive. With the difficult economic climate, alternatives, including generic equivalents to name-brand medications, must be explored to implement cost-saving measures while preserving an appropriate level of care.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to allow for further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2797, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2335 Health on S.B. No. 2569

The purpose and intent of this measure is to prohibit smoking within a presumptively reasonable minimum distance of twenty feet from all public bus stops.

Your Committee received testimony in support of this measure from the Department of Health and the Coalition For A Tobacco-Free Hawaii.

Your Committee finds that it is in the best interest of the health of the State's residents to limit involuntary exposure to second-hand smoke.

Your Committee has amended this measure by changing "public bus stops" to "public transportation stops and stations" to apply the protections of this measure to stops and stations for anticipated new forms of transportation, including a rail system, that may be established in the future.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2569, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2569, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6, Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Slom).

SCRep. 2336 Health on S.B. No. 2939

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds of up to \$80,000,000 for St. Francis Healthcare System of Hawaii to construct healthcare facilities.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, The Queen's Health Systems, St. Francis Healthcare System of Hawaii, and the Hawaii Medical Association. Your Committee received comments on this measure from the Department of Budget and Finance and the Tax Foundation of Hawaii.

Your Committee finds that supporting St. Francis Healthcare System of Hawaii through the issuance of special purpose revenue bonds is in the public interest and for the public health, safety, and general welfare.

Your Committee has amended this measure by:

- (1) Inserting language from the Department of Budget and Finance regarding the issuance of refunding special purpose revenue bonds;
- (2) Inserting an effective date of January 1, 2050, to allow for further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2939, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2939, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2337 Judiciary and Labor on S.B. No. 2967

The purpose and intent of this measure is to establish a separate collective bargaining unit for ocean safety and water safety officers employed by the State or counties.

Your Committee received testimony in support of this measure from the Mayor of the County of Kauai; the Mayor of the County of Hawaii; a Council Member of the County of Hawaii; the Honolulu Emergency Services Department of the City and County of Honolulu; the Kauai Fire Department of the County of Kauai; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; the Hawaiian Lifeguard Association; thirteen private individuals; and a petition with a total of one hundred sixteen signatures. The Mayor of the City and County of Honolulu submitted comments.

Your Committee finds that ocean safety and water safety officers are highly trained and competent emergency first responders. Ocean safety and water safety officers employed by the State or counties currently belong to bargaining units (3) and (4) for white collar employees and white collar supervisors, respectively. Bargaining unit (3) is the largest of all of the thirteen bargaining units in the State and comprises a broad and heterogeneous membership. The membership size and diversity of professions included in this bargaining unit increase the complexity and ability to address the specialized needs of ocean safety and water safety officers. By establishing a separate bargaining unit for these officers, this measure will enable these officers to more easily address with the employer any specialized needs of ocean safety and water safety officers, including fitness and equipment requirements, and improve salaries, benefits, and working conditions.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Hawaii Government Employees Association that:
 - (A) Correct language to refer to the exclusive representative rather than a public sector union; and
 - (B) Amend the law relating to elections to determine whether or by which organization employees desire to be represented in collective bargaining by excluding from such elections a new bargaining unit established and comprised of employees covered under an existing valid collective bargaining agreement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2967, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2967, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ihara).

SCRep. 2338 Judiciary and Labor on H.B. No. 302

The purpose and intent of this measure is to:

- (1) Require that the interstate transfer application fees collected from offenders who transfer their probation or parole supervision to the mainland be deposited into the probation services special fund rather than the general fund; and
- (2) Allow the monies in the probation services special fund to be used to monitor and enforce compliance with terms of probation and other supervision and to support other duties and activities related to the supervision of defendants.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that in 2008, the Legislature authorized the Judiciary and the Hawaii Paroling Authority to assess a fee for each application made by a parolee or probationer for a transfer out of the State to the mainland, and required that the fees collected be deposited into the general fund. During that same year, the Legislature established a full-time position for an interstate coordinator to manage these transfer activities, but did not fund this position. Although the interstate coordinator position was eventually funded and filled through monies from the probation services special fund, additional revenue is needed to support the cost of an interstate coordinator. The interstate coordinator is an important position within the State's Interstate Compact Office because the coordinator

oversees all interstate matters and serves as the primary contact for Hawaii probation and parole staff and mainland staff to ensure the accurate screening and timely processing of all transfer requests. This measure allows interstate transfer fees to be deposited into the probation services special fund to help defray the costs of an interstate coordinator and other related expenses.

Your Committee has amended this measure by changing the effective date from July 1, 2030, to upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 302, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 302, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2339 Judiciary and Labor on S.B. No. 2730

The purpose and intent of this measure is to bring Hawaii's false claims laws in compliance with the federal False Claims Act, and provide greater protection to individuals who allege fraud against the State. More specifically, this measure:

- (1) Provides special protection and relief to individuals who try to stop others from committing false claims violations against the State by their own conduct or through the conduct of any of their associates; and
- (2) Updates the State's false claims laws in order to comply with the federal False Claims Act, so that the State may continue to retain an additional ten percent of any civil recovery in cases involving federal programs.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one private individual.

Your Committee finds that Hawaii's false claims law establishes causes of actions that result in civil penalties and damages against individuals or entities claiming or collecting money from the State under false pretenses. Until recently, state law complied with the federal requirements thereby allowing the State to obtain a greater share of the recovery in cases where federal dollars were at stake. However, the federal government recently amended its False Claims Act and consequently requires Hawaii to update its laws by March 31, 2013. This measure ensures that the necessary statutory changes are made so that the State may continue to retain an additional ten percent of any civil recovery in cases involving federal programs.

Your Committee notes that in updating the State's false claims act, this measure also provides special protections and relief to individuals who try to stop others from committing false claims violations against the State by their own conduct or through the conduct of any of their associates. The State's whistleblower's protection act gives rise to causes of action by employees who are retaliated against by employers for providing information of wrongdoing. This measure provides far greater protection against retaliation than the whistleblowers' protection act because it includes employees, contractors, and agents from retaliatory actions by anyone who has the authority to affect the individual's status as an employee, contractor, or agent.

Your Committee has amended this measure by:

- (1) Adding amendments to the county false claims act to reflect the amendments made to the state false claims act, as suggested by a private individual and agreed upon by the Department of the Attorney General;
- (2) Allowing the State or a county to recover consequential damages in a false claims action;
- (3) Deleting the exemption that precludes actions brought for tax fraud in order to afford the State further opportunity to recover monies;
- (4) Deleting the savings clause and replacing it with language that provides a liberal interpretation of this measure;
- (5) Adding a severability clause; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2730, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2730, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2340 Judiciary and Labor on S.B. No. 2208

The purpose and intent of this measure is to support spay and neuter initiatives in Hawaii that help to reduce pet overpopulation by:

- (1) Establishing a spay and neuter special fund to cover the costs of reducing the number of feral animals through spaying and neutering, educating the public regarding the importance of spaying and neutering, and preventing homeless animal overpopulation;
- (2) Establishing an advisory committee to assist the Department of Budget and Finance in developing special fund disbursement eligibility criteria and procedures; and
- (3) Providing taxpayers with a state income tax refund of \$5 or more, or for a joint return with a state income tax refund of \$10 or more, the option of designating a portion of their income tax refund to be deposited into the special fund.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, the Maui Humane Society, and two hundred private individuals. Testimony in opposition to this measure was submitted by the Department of Budget and Finance and the Department of Taxation. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that pet overpopulation is caused by too many animal litters and lack of affordable and accessible spay and neuter options. This measure provides additional funding to help reduce pet overpopulation and decrease pet euthanasia.

Your Committee notes the concerns raised by the Department of Budget and Finance regarding its limited budget and staff complement to provide sufficient oversight of the spay and neuter special fund as well as the advisory committee established under this measure. As such, your Committee believes that the monies generated from the income tax check-off should be used to cover the special fund's administrative costs, and merits further discussion by the Committee on Ways and Means.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion;
- (2) Inserting a five-year sunset date to allow the Department of Budget and Finance to review and assess the viability of the special fund; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2208, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2341 Judiciary and Labor on S.B. No. 2498

The purpose and intent of this measure is to provide an interest rate of up to ten percent on any unfunded settlement claim against the State, its officers, or its employees.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice. The Department of the Attorney General submitted comments.

Your Committee finds that settlement claims against the State are normally funded by the Legislature on a timely basis. However, there are occasionally some settlements that are not timely funded because the appropriations bill for claims against the State is not enacted in the same calendar year that the bill was before the Legislature. As such, settlement payments are delayed for an additional year until the next regular legislative session. This measure fairly remedies this situation by allowing an interest to be paid on the monies due on any settlement claims. Thus, this measure holds the State accountable to satisfy settlement payments and further encourages parties to settle with the State rather than to engage in costly litigation.

Your Committee has amended this measure by:

- (1) Adopting the suggested language submitted by the Department of the Attorney General by:
 - (A) Deleting the amendments made to the legal rate computation section under the interest and usury laws; and
 - (B) Replacing it with language that amends the law relating to claims against the State to provide an interest rate of up to four percent on any unfunded settlement claim until the appropriations bill is enacted or the payment is made; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2498, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2342 (Majority) Judiciary and Labor on S.B. No. 2573

The purpose and intent of this measure is to:

- (1) Require an employer with twenty or more employees to make reasonable efforts to provide a clean location for breastfeeding employees to express breastmilk in privacy;
- (2) Require covered employers to post a notice in a conspicuous location; and
- (3) Establish a civil fine for failure to provide a clean location or post notice.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; the Office of Hawaiian Affairs; the American Civil Liberties Union of Hawaii; Breastfeeding Hawaii; and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Testimony in opposition to this measure was submitted by one private individual. The Hawaii Civil Rights Commission and the Chamber of Commerce of Hawaii submitted comments.

Your Committee finds that in Hawaii, over ninety percent of new mothers, which is much higher than the national average, intend to breastfeed their babies. The American Academy of Pediatrics and many other similar professional organizations recommend for infants within the first six months of life to only be given breastmilk for nourishment. Unfortunately, six months after birth, only about

sixteen percent of infants are exclusively breastfed, little more than the thirteen percent national average. One year ago, the Surgeon General addressed this public health problem by issuing a call to action in support of breastfeeding that included hospitals and healthcare practices, family and societal attitudes, and support in the workplace. This measure enables the State to respond to this call to action by requiring an employer with twenty or more employees to make reasonable efforts to provide a clean location for breastfeeding employees to express breastmilk in privacy.

Your Committee notes the testimony submitted by the Hawaii Civil Rights Commission indicating that the language of this measure partially conforms to the provisions of the federal Fair Labor Standards Act, which is under the jurisdiction of the United States Department of Labor, not the Commission's federal counterpart, the United States Equal Opportunity Commission. As a result, the Commission suggests that this measure be placed under the jurisdiction of an agency with the expertise and facilities required to effectively enforce the provisions in this measure, such as the Department of Labor and Industrial Relations.

Your Committee has amended this measure by:

- (1) Adopting the suggestion made by the Hawaii Civil Rights Commission by establishing the requirements under this measure under a new section in the Hawaii Revised Statutes that fall under the purview of the Department of Labor and Industrial Relations;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2573, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2573, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 2343 Judiciary and Labor on S.B. No. 2671

The purpose and intent of this measure is to:

- (1) Clarify the authority of the Hawaii Labor Relations Board to hire attorneys and paralegals; and
- (2) Authorize any attorney employed by the Board as a part-time or contract staff member to represent the Board in litigation, draft legal documents for the Board, and provide other necessary legal services to the Board, as the Board's full-time attorney is already authorized to do.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board; the University of Hawaii Professional Assembly; the United Public Workers, AFSCME Local 646, AFL-CIO; and the International Longshore and Warehouse Union Local 142. The Department of Labor and Industrial Relations submitted comments.

Your Committee finds that the Hawaii Labor Relations Board is limited under existing law to employing only one attorney as a staff member to represent the Board in litigation, draft legal documents, and provide other legal services to the Board. This measure will authorize the Hawaii Labor Relations Board to hire additional attorneys and paralegals as staff members. The Board currently needs legal staff to draft administrative rules to implement recently enacted laws; update rules that have not been amended since 1981; draft decisions and orders to reduce case backlog; and provide legal assistance, as needed.

Your Committee has amended this measure by adopting the suggested technical, nonsubstantive amendment from the Hawaii Labor Relations Board to remove unnecessary language.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2671, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2671, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2344 Judiciary and Labor on H.B. No. 297

The purpose and intent of this measure is to authorize the courts to assess a fee for probation services to all offenders under the supervision of the Adult Client Services Branch, including those granted deferred acceptance of guilty plea or deferred acceptance of nolo contendere plea, to hold offenders accountable for their actions and make them responsible for paying for some of their supervision costs.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that in 2000, the Legislature established probation services fees to help defray the costs of administering probation services. Offenders sentenced to probation are ordered to pay a probation services fee of \$150 for the probation term that is for more than one year, and \$75 for a probation term that is one year or less. However, this fee cannot be ordered for those offenders who are granted deferrals. This measure will allow the courts to collect probation services fees from offenders placed on deferral to make them accountable for their actions and to help pay for their supervision costs. Moreover, this measure addresses the Judiciary's need for additional revenue to meet the rising costs of supervising offenders that are not covered by the general fund.

Your Committee has amended this measure by changing the effective date from January 7, 2059, to effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 297, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 297, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2345 Judiciary and Labor on S.B. No. 3008

The purpose and intent of this measure is to provide an alternative to serving notice by publication for impoverished litigants in all family court matters after a due and diligent search for the defendant.

Your Committee received testimony in support of this measure from the Legal Aid Society of Hawaii.

Your Committee finds that the rates to serve notice by publication in a daily newspaper of general circulation have increased dramatically over the past several years. This rate increase has made it difficult for impoverished litigants to find the funds necessary to cover the publication costs for legal notices. This measure will assist in alleviating this financial burden by allowing impoverished litigants after a due diligent search, upon failing to locate a defendant to serve notice by posting pleadings at the courthouse and mailing pleadings to the defendant's or respondent's closest known relative.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2346 (Joint) Human Services and Health and Education on S.B. No. 2605

The purpose and intent of this measure is to:

- (1) Require the Department of Health to educate the public about issues that affect children's oral health;
- (2) Establish and appropriate funds for an electronic system to track data relating to children's dental health;
- (3) Require the Department of Education to operate school gardens or farms to grow fruits and vegetables to be offered to school children through school meal programs subject to all the appropriate laws, rules, and safety standards;
- (4) Require the fees that the State pays to dentists for services provided to individuals enrolled in QUEST or QUEST Expanded Access to be no less than a specified percentage of the fees prescribed by the United States Department of Health and Human Services' Medicare fee schedule beginning on January 1, 2013; and
- (5) Appropriate funds to increase payments for dental services to QUEST and QUEST Expanded Access program participants.

Your Committees received testimony in support of this measure from the Community Pediatrics Institute, Hawaii Primary Care Association, and one individual. Your Committees received testimony in opposition to this measure from the Department of Education. Your Committees received comments on this measure from the Department of Health, the Department of Human Services, and Good Beginnings Alliance.

Your Committees find that according to the Pew Center on the States' 2011 "The State of Children's Dental Health: Making Coverage Matter", Hawaii's children were rated the worst overall performer among the fifty states and the District of Columbia. Your Committees also find that more than half of Hawaii's children on Medicaid received no dental service in 2009. Your Committees further find that with the abolishment of the Department of Health's Dental Hygiene Section in 2009, the State is unable to collect crucial children's oral health data, which resulted in an ineffective state children dental health program.

This measure will improve awareness of oral hygiene, increase available data on children's dental health, and encourage the provision of dental services to QUEST and the QUEST Expanded Access program participants - all aimed to improve the oral health of Hawaii's children.

Your Committees have amended this measure by:

- (1) Deleting language requiring the Department of Education to operate school gardens or farms at every public elementary and secondary school;
- (2) Authorizing the Department of Human Services, rather than the Medicare fee schedule, to determine the fees payable to dentists for the provision of dental services to individuals who receive medical assistance through the QUEST or the QUEST Expanded Access program; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2605, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2605, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2347 Human Services on S.B. No. 2142

The purpose and intent of this measure is to:

- (1) Authorize the court to issue a permanent protective order to prevent sexual offenses or child abuse or a recurrence of such acts between family or household members; and
- (2) Amend the definition of “domestic abuse” in section 586-1, Hawaii Revised Statutes, to include sexual offenses or child abuse committed by one family or household member against another family or household member, regardless of age.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that permanent protective orders can be a legal remedy to prevent further harm of children, specifically through sexual offenses or child abuse. This measure will establish the basis for a permanent protective order if a protective order is issued to prevent sexual offenses or child abuse.

Your Committee notes that according to the testimony of the Department of Human Services, the measure, as currently drafted, would make all offenses covered by chapter 707, parts V and VI, Hawaii Revised Statutes, including misdemeanors and petty misdemeanors, the basis for issuance of a permanent protective order. This broad application for issuing a permanent protective order could prevent the engagement and growth necessary for family members to change their behavior and develop the knowledge, skills, and ability to provide a safe family home for their children.

Your Committee has therefore amended this measure by:

- (1) Specifying that a permanent protective order shall be granted based on an act that would constitute felony sexual assault or felony child abuse; and
- (2) Changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2142, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2348 (Joint) Human Services and Judiciary and Labor on S.B. No. 2579

The purpose and intent of this measure is to:

- (1) Establish the minor victims of prostitution special fund;
- (2) Amend the definition of “child abuse or neglect” to include acts or omissions of any person or legal entity;
- (3) Require mandatory reporting when there is reasonable suspicion of child abuse or neglect;
- (4) Require law enforcement to immediately report incidents of child prostitution to the Department of Human Services;
- (5) Grant the Family Court exclusive jurisdiction over any person under eighteen who is charged with certain offenses relating to prostitution;
- (6) Amend the statute of limitations under the Prostitution Coercion Liability Act, chapter 663J, Hawaii Revised Statutes;
- (7) Establish that a person who is under eighteen and suspected of or charged with certain offenses relating to prostitution shall be granted immunity from prosecution, and shall be subject to the child protective provisions of the Child Protective Act; and
- (8) Establishes a two-year victim services pilot program to address the needs of minor victims of prostitution.

Your Committees received testimony in support of this measure from IMUAlliance, the Pacific Alliance to Stop Slavery, the Polaris Project, and six individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services, the Department of Budget and Finance, and the Sex Abuse Treatment Center. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that child victims of human trafficking, the modern-day slavery, can still be prosecuted for being exploited through prostitution, and are therefore seen and treated as criminals instead of as victims. This measure enacts a comprehensive, victim-centered, legal framework to combat human trafficking, and more specifically child sex trafficking.

Your Committees also find that the amendment to broaden the definition of “child abuse or neglect” expands the scope of child abuse and neglect beyond the Department of Human Services’ ability to respond.

Your Committees further find that the mandatory reporting requirements of the measure, as it is currently drafted, are out of the scope of the Department of Human Services’ responsibilities and could potentially jeopardize pending criminal investigations.

Your Committees note from the testimony of the Department of the Attorney General that references to specific violations relating to prostitution may require further review.

Your Committees have amended this measure by:

- (1) Adding language to establish protections and support specifically for sexually exploited children under a new chapter titled “Safe Harbor for Sexually Exploited Children”;

- (2) Amending the two-year victim services pilot program to be a victim services program for sexually exploited children under the new Safe Harbor for Sexually Exploited Children chapter;
- (3) Establishing the minor victims of prostitution special fund under chapter 346, Hawaii Revised Statutes, rather than the Hawaii penal code, and amending allowable uses of fund monies;
- (4) Deleting language relating to reporting of suspected or known child abuse or neglect;
- (5) Placing persons under eighteen who are suspected of or charged with the offenses established under sections 712-1206 and 712-1207(2), Hawaii Revised Statutes, and exempted under section 712-1206(4), Hawaii Revised Statutes, under the Family Court's exclusive jurisdiction;
- (6) Amending the offense of loitering for the purpose of engaging in or advancing prostitution to exempt individuals under eighteen from prosecution and extending the supports and services of the new Safe Harbor for Sexually Exploited Children chapter;
- (7) Inserting language to exempt a person under eighteen who is suspected of or charged with a violation of section 712-1207(2), Hawaii Revised Statutes, from prosecution;
- (8) Amending language to delete the inappropriate use of the term "immunity";
- (9) Amending language throughout the measure to apply protections under the new Safe Harbor for Sexually Exploited Children chapter, rather than child protective provisions of chapter 587A, Hawaii Revised Statutes, where appropriate;
- (10) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2579, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2579, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2349 (Joint) Human Services and Health on S.B. No. 2467

The purpose and intent of this measure is to establish the hospital sustainability program, including a hospital sustainability fee and special fund into which hospital sustainability fees shall be deposited.

Your Committees received testimony in support of this measure from the Department of Human Services, the Hawaii Health Systems Corporation, the Healthcare Association of Hawaii, Kahi Mohala Behavioral Health, the Policy Advisory Board of Elder Affairs, The Queen's Health Systems, and one individual. Your Committees received comments on this measure from HMSA.

Your Committees find that provider fee programs are used as a means of drawing down additional federal funds to sustain state Medicaid programs. Currently, program fees are used in forty-six states and the District of Columbia. Hawaii is one of only four states without such a program, despite the rising state budget deficit due to increasing health care costs and expanding Medicaid rolls. Your Committees further find that provider fees have been widely implemented nationally but are now being increasingly scrutinized by the Centers for Medicare and Medicaid Services. Preliminarily, this measure raises some concerns about the likelihood of federal approval.

Your Committees note that according to the Healthcare Association of Hawaii's testimony, the model for the hospital sustainability program is still being developed because the data required to design it is still being gathered. Therefore, additional amendments may be required as this measure progresses through the legislative process.

Your Committees have therefore amended this measure by:

- (1) Authorizing the use of the provider fee to match federal uncompensated care costs funds if certified public expenditures are not sufficient;
- (2) Clarifying that the provider fee shall not exceed three percent of the net patient service revenue, as derived from the Medicare cost report ending during the state fiscal year 2010; provided that certain hospitals may be exempted from the provider fee or pay a reduced fee;
- (3) Requiring hospitals to pay provider fees on a monthly basis rather than a quarterly basis;
- (4) Providing specific examples of Centers for Medicare and Medicaid Services' approvals that may be needed;
- (5) Including the Healthcare Association of Hawaii as an entity that will ensure capitated rates by the Department of Human Services to the QUEST and QUEST Expanded Access plans are used in accordance with title 42 Code of Federal Regulations section 438;
- (6) Inserting an effective date of July 1, 2050, to ensure further discussion;
- (7) Deleting the repeal date of June 30, 2013; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2467, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2467, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Wakai, Slom).

SCRep. 2350 Human Services on S.B. No. 2936

The purpose and intent of this measure is to:

- (1) Eliminate the asset limit for Hawaii's Temporary Assistance for Needy Families program eligibility; and
- (2) Exempt the fair market value of all motor vehicles in a household when determining eligibility for Hawaii's Temporary Assistance for Needy Families program.

Prior to the hearing, your Committee posted a proposed S.D. 1 of this measure that replaced the contents of this measure with provisions that allowed the Department of Human Services to draw from other funds appropriated to the Department in the event that amounts appropriated for general assistance are insufficient to meet general assistance benefits programs.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Human Services, the Office of Hawaiian Affairs, and one individual.

Your Committee finds that the general assistance program (HMS 204) is a block grant program that provides a monthly benefit to disabled individuals. The Department of Human Services must adjust general assistance payments to remain within the general assistance appropriation when the caseload increases. Your Committee also finds that for fiscal year 2012, the payment level began at \$353, but due to caseload increases was reduced to \$319 in October 2011. To remain within the authorized appropriation, the \$319 monthly benefit must be further reduced to \$275 in April 2012 or maintained until May 2012 then reduced to \$188 in June 2012. Since these reductions and fluctuations provide little stability to households who already live below poverty levels, the Department has requested an emergency appropriation for the 2011-2012 fiscal year to maintain the \$319 monthly benefit.

Your Committee has amended this measure by adopting the proposed S.D. 1, which will reduce the future need to request emergency appropriations for the general assistance program by authorizing the Department of Human Services to utilize, when needed, savings from other programs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2936, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2936, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2351 Human Services on S.B. No. 2166

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to implement state-of-the-art technologies in its Medicaid and Children's Health Insurance Programs to increase the Department's ability to detect and prevent waste, fraud, and abuse in the programs; and
- (2) Require the Department of Human Services to submit to the Legislature and make available to the public a report after the first implementation year and after any subsequent implementation year on the status of implementation of the technologies and its effect on the cost and efficiency of services provided.

Your Committee received testimony in support of this measure from the Consumer Family & Youth Alliance and one individual. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that there is a misunderstanding of the claims review process as represented in this measure. Currently, the claims review process is not housed in the Department of Human Services, but rather with the individual plans that are contracted to implement the Medicaid program. Claims review must occur prior to the expenditure of funds. Your Committee also finds that this measure, as it is currently drafted, mandates the Department to procure and implement a technology-based system to screen and verify the appropriateness of provider billing to prevent fraud, waste, and abuse in the QUEST and Children's Health Insurance Programs. Implementing this new process that tasks claims review to the Department alters the whole system and lends itself to inefficiencies that will be counterproductive to the measure's intent.

Your Committee has amended this measure by deleting its contents and inserting the provisions of H.B. 2138, H.D. 1, Regular Session of 2012, which establishes the health insurance waste, fraud, and abuse task force to detect fraud and abuse before payments of illegitimate claims are made under the Medicaid managed care, Medicaid, and Children's Health Insurance Programs. The task force is required to report to the Legislature prior to the convening of the 2013 Regular Session.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2166, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2352 Human Services on S.B. No. 1168

The purpose and intent of this measure is to prohibit the use of tobacco products by minors and establish penalties for a violation.

Your Committee received testimony in opposition to this measure from the Department of Health, American Heart Association/American Stroke Association, and Coalition for a Tobacco-Free Hawai'i.

Your Committee finds that this measure focuses tobacco enforcement efforts on punishing the victims of tobacco, rather than addressing the victimizers. Evidence indicates that the tobacco industry pays retailers exorbitant product placement fees to ensure that tobacco products are located where they will become easily recognizable by youths, often next to candy or other sweet items that attract children's attention. The industry knows that it needs to imprint its brand on minors today to assure that they will eventually become addicted adult tobacco users.

Rather than shifting the focus to youth possession of tobacco products, focus should be shifted to the root cause of the problem - tobacco industry marketing tactics.

Your Committee has amended this measure by:

- (1) Deleting references to penalties for the minor;
- (2) Authorizing a law enforcement officer to confiscate any tobacco used in violation of the prohibition on the use of tobacco by minors; and
- (3) Changing the effective date to January 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1168, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1168, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3, Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Slom).

SCRep. 2353 (Joint) Hawaiian Affairs and Water, Land, and Housing on S.B. No. 3025

The purpose and intent of this measure is to require counties to apply affordable housing credits issued to the Department of Hawaiian Home Lands in full satisfaction of county affordable housing obligations.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Sovereign Councils of the Hawaiian Homelands Assembly, Nanakuli Hawaiian Homestead Community Association, Waianae Kai Homestead Community Association, Kewalo Hawaiian Homestead Community Association, and two individuals. Your Committees received testimony in opposition to this measure from the Kaua'i County Housing Agency. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees acknowledge that affordable housing requirements vary from county to county and impact the Department of Hawaiian Home Lands in disparate ways. However, whether the undervaluation of the affordable housing credits issued to the Department of Hawaiian Home Lands is occurring is unclear. To the extent that undervaluation of assets is occurring, your Committees find that this measure proposes an acceptable method of resolving the problem of undervaluation.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3025, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3025, S.D. 1, and be referred to the Committee on Public Safety, Government Operations, and Military Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (English, Fukunaga, Kahele, Tokuda).

SCRep. 2354 (Joint) Hawaiian Affairs and Water, Land, and Housing on S.B. No. 3053

The purpose and intent of this measure is to establish the Aha Moku Advisory Committee to advise the Chairperson of the Board of Land and Natural Resources on natural resources management.

Your Committees received testimony in support of this measure from the Aha Moku Advisory Committee, Association of Hawaiian Civic Clubs, Maunaloa Hawaiian Civic Club, Kuakini Hawaiian Civic Club, Sovereign Councils of the Hawaiian Homelands Assembly, Waianae Kai Community Association, Kewalo Hawaiian Homestead Community Association, and fifteen individuals. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii. Your Committees received comments on this measure from the Department of Land and Natural Resources and the Department of Hawaiian Homelands.

Your Committees find that traditional and customary indigenous resource management practices and concepts are invaluable tools to govern the State's natural resources. Despite the efforts of committed individuals and institutions, integrating these practices and concepts in the State's stewardship of natural resources has long proved a challenge. This measure addresses many of the concerns that precluded the success of previous, similar efforts to enhance the State's oversight of state natural resources with indigenous knowledge and practices. Nevertheless, your Committees find that the Aha Moku Advisory Committee is best suited for the Office of Hawaiian Affairs, rather than the Department of Land and Natural Resources, since the purpose of creating the Aha Moku Advisory Committee is similar to the purpose for which the Office of Hawaiian Affairs was created.

Your Committees also find that island burial councils statewide have had difficulty meeting due to their failures to meet quorum requirements. The island burial councils play a critical role in balancing diverse interests and reaching resolutions of sensitive burial issues. Procedural barriers should not prevent the island burial councils from conducting and transacting business.

Your Committees have amended this measure by:

- (1) Amending language to place the Aha Moku Advisory Committee within the Office of Hawaiian Affairs to advise the Chairperson of the Board of Trustees of the Office of Hawaiian Affairs, rather than within the Department of Land and Natural Resources to advise the Chairperson of the Board of Land and Natural Resources;
- (2) Inserting a new part establishing a quorum requirement for the meetings of the island burial councils and providing that quorum for a meeting is the number of members present at the scheduled start time of a meeting; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3053, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3053, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 4 (English, Fukunaga, Kahele, Tokuda).

SCRep. 2355 Education on S.B. No. 2116

The purpose and intent of this measure is to:

- (1) Require the Board of Education to contract for an Implementation and Transition Coordinator to assist with the implementation of S.B. No. 2115, Regular Session of 2012 (S.B. No. 2115); and
- (2) Make an appropriation in an unspecified amount to the Department of Education for the Board of Education to contract for an Implementation and Transition Coordinator.

Your Committee received testimony in support of this measure from the Governor, Charter School Administrative Office, National Governors Association, National Alliance for Public Charter Schools, Macalester College Center for School Change, Hawaii Public Charter School Network, Hawai'i Educational Policy Center, Hawai'i Island Charter Schools, Ho'okako'o Corporation, Hawaii Technology Academy, Kanu o ka 'Aina 'Ohana, Kaneohe Ranch, Kewalo Hawaiian Homestead Community Association, and two individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that the Charter School Governance, Accountability, and Authority Task Force ("Task Force") was established pursuant to Act 130, Session Laws of Hawaii 2011, in response to questions and concerns raised by policy makers and advocates alike about the integrity of Hawaii's charter school governance structure and the overall strength of Hawaii's laws in establishing clear lines of authority to ensure accountability of the charter school system.

The Task Force concluded its work and issued its report and recommendations to the Legislature, which are included in S.B. No. 2115. This measure will provide the Department of Education and charter school stakeholders with the means to create a comprehensive transition framework to implement the recommendations of the Task Force to move Hawaii's charter schools toward greater student outcomes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2116, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2356 (Joint) Health and Human Services on S.B. No. 2818

The purpose and intent of this measure is to repeal the authority of the Department of Health to deliver or distribute an unclaimed dead human body to a university, hospital, or institution for medical educational and research purposes, and to clarify the responsibilities of the person who has possession, charge, or control of an unclaimed dead human body with respect to gathering and providing information to state agencies for burial or cremation of the body at public expense.

Your Committees received testimony in support of this measure from the Department of Health, Department of Human Services, and one individual.

Your Committees find that the disposition of unclaimed corpses for research or educational purposes does not enhance or protect the dignity of either the institution or the decedent, who had no choice in the matter, nor does it reflect contemporary community standards of practice. Your Committees further find that the University of Hawaii utilizes only willfully expressed and documented anatomical gifts, so access to medical cadavers for educational and research purposes will not be affected by this measure. Your Committees also find that this measure will improve efficiency in administrative practices by consolidating the process of applying for the burial or cremation of an unclaimed dead human body at public expense within the Department of Human Services.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2818 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Baker, Wakai, Slom).

SCRep. 2357 Health on S.B. No. 2228

The purpose and intent of this measure is to establish an electronic tracking system for the sale of products containing pseudoephedrine.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association. Your Committee received comments on this measure from the Department of Public Safety and the Department of the Attorney General.

Your Committee finds that the electronic tracking system provided for under this measure will allow for real-time approval or denial of pseudoephedrine purchases at the point of sale. Your Committee further finds that efforts to improve the tracking and purchasing of pseudoephedrine are in the interests of the State and its efforts to inhibit the spread of illegal narcotics such as methamphetamine.

Your Committee has amended this measure by:

- (1) Requiring the Department of Public Safety Narcotics Enforcement Division to establish the electronic tracking system for pseudoephedrine sales in conjunction with the State's existing narcotics tracking system beginning no later than January 1, 2015; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2228, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2358 (Joint/Majority) Health and Public Safety, Government Operations, and Military Affairs on S.B. No. 2536

The purpose and intent of this measure is to establish a clean and sober home and halfway house task force.

Your Committees received testimony in support of this measure from the Hawaii Substance Abuse Coalition and the Hawaii Disability Rights Center. Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees find that clean and sober homes and halfway houses provide a means for individuals to reintegrate back into the community through support in a home-like environment. Your Committees further find that community residents have expressed concerns over the legal operation of such homes in their communities and the compliance of those homes with state laws. Your Committees acknowledge that the needs and concerns of the community must be balanced with the needs of the individuals requiring support, and therefore a clean and sober home and halfway house task force that will address these and other issues is deemed necessary.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2536 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, 1 (Kidani). Excused, 2 (Ryan, Shimabukuro).

SCRep. 2359 Health on S.B. No. 3039

The purpose and intent of this measure is to:

- (1) Prohibit a health care facility or health care provider from discriminating against a person who has human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), or AIDS-related complex (ARC), and who is in need of an organ transplantation by refusing to perform the organ transplantation; and
- (2) Specify that persons with HIV, AIDS, or ARC shall not be prohibited from receiving an anatomical gift.

Your Committee received testimony in support of this measure from the Hepatitis Support Network of Hawaii and three individuals. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from The Queen's Health Systems.

Your Committee finds that individuals with HIV, AIDS, or ARC are deserving of equal treatment and statutory protection with regard to their eligibility for potentially life-saving organ transplantation. Your Committee would also like to note that The Queen's Health Systems submitted comments regarding healthcare policies that mandate that an individual shall not be discriminated against based on gender, religion, sexual orientation, or medical diagnoses. Rather, patient eligibility for organ transplant is evaluated on a per-patient basis and based on the best possible outcome. Testimony submitted by The Queen's Health Systems also notes that transplant programs are closely regulated by the federal Centers for Medicare and Medicaid Services and the Organ Procurement and Transplantation Network.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3039 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7, Ayes with Reservations (Wakai, Slom). Noes, none. Excused, none.

SCRep. 2360 Health on S.B. No. 3022

The purpose and intent of this measure is to increase the excise tax on cigarettes and small cigars and after June 30, 2013, and thereafter, direct portions of the tax revenue to be deposited into the Hawaii cancer research special fund, trauma system special fund, community health centers special fund, and emergency medical services special fund.

Your Committee received testimony in support of this measure from the American Heart Association. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that a tax increase on cigarettes and small cigars may serve to discourage individuals, especially lower-income individuals and youths, from purchasing cigarettes and small cigars.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3022, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3022, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Slom).

SCRep. 2361 (Joint/Majority) Commerce and Consumer Protection and Judiciary and Labor on S.B. No. 2424

The purpose and intent of this measure is to:

- (1) Establish the professional employer organization special fund;
- (2) Add powers and duties to the Director of Labor and Industrial Relations regarding the registration and regulation of Professional Employer Organizations;
- (3) Amend definitions in chapter 373L, Hawaii Revised Statutes, for the purposes of consistency; and
- (4) Amend bond level requirements for professional employer organizations.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Commerce and Consumer Affairs; and ALTRES, Inc. Your Committees received comments on this measure from the Department of Budget and Finance, National Association of Professional Employer Organizations, Alpha Surety and Insurance Brokerage, Employer Services Assurance Corporation, and ProService Hawaii.

Your Committees find that professional employer organizations are businesses that partner with existing small businesses to cost-effectively outsource certain employee management tasks. Your Committees further find that thirty-eight states regulate the professional employer organization industry through licensing or registration programs. Act 129, Session Laws of Hawaii 2010, established registration requirements for professional employer organizations in Hawaii. Although the registration requirements went into effect July 1, 2011, amendments to the existing statute are needed before the Department of Labor and Industrial Relations can fully implement the law.

Your Committees note that Act 225, Session Laws of Hawaii 2007, established a new chapter in the Hawaii Revised Statutes on professional employment organizations. The main purpose of Act 225 was to provide a general excise tax exemption for these organizations. Your Committees note that both chapters in the Hawaii Revised Statutes cover the same type of entities, although professional employer organization is the correct term. Your Committees conclude that two chapters on the same subject are unnecessary, however, your Committees do believe that there is merit to preserving the general excise tax provisions established by Act 225 and codified in section 373K-2, Hawaii Revised Statutes.

Your Committees have amended this measure by:

- (1) Amending the scope of written notices of judgment, award, or sanctions a professional employer organization must provide to the Department of Labor and Industrial Relations;
- (2) Amending the conditions under which the Director of Labor and Industrial Relations may deny, suspect, revoke, fine, or deny renewal of registration of a professional employer organization;
- (3) Specifying the amount of fees the Department of Commerce and Consumer Affairs shall collect, including application, initial registration, biennial renewal, and restoration fees;
- (4) Amending the responsibilities and duties of the Director of Labor and Industrial Relations;
- (5) Deleting language that would have created new sections in chapter 373L relating to unlicensed activities and penalties, cease and desist orders, and permanent cease and desist orders;
- (6) Amending language relating to professional employer agreements;
- (7) Establishing hearing requirements and judicial review provisions to review decisions made by the Director of Labor and Industrial Relations regarding licensure or fining of professional employer organizations;
- (8) Adding a payroll cost exemption for professional employer organizations first established in section 373K-2, Hawaii Revised Statutes;
- (9) Adding definitions of "assurance organization" and "controlling person";
- (10) Amending the required information, yearly expiration date, use of a qualified assurance organization for registration, and bond requirements for professional employer organizations, Hawaii Revised Statutes;

- (11) Repealing chapter 373K, Hawaii Revised Statutes, relating to professional employment organizations;
- (12) Permitting the Director of Labor and Industrial Relations to establish three .5 full-time permanent additional positions, to carry out the requirements of chapter 373L, Hawaii Revised Statutes;
- (13) Making an appropriation of \$177,500 out of the professional employer organization special fund to carry out the purposes of this measure;
- (14) Inserting a purpose section to reflect the amended purpose of this measure;
- (15) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the amended measure is the result of collaboration among interested stakeholders. Discussions continue on the fees contained in this measure, with a necessary balance sought between the Department of Labor and Industrial Relations' needs to execute the registration requirements and fees that the professional employer organizations believe are appropriate. Your Committees are encouraged by the progress reached by all interested parties, but find that continuing discussion is necessary.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2424, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2424, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, 1 (Slom). Excused, 2 (Galuteria, Ihara).

SCRep. 2362 (Joint/Majority) Education and Judiciary and Labor on S.B. No. 2789

The purpose and intent of this measure is to provide the directive, means, and flexibility to establish a performance management system that cultivates and supports highly effective educators and that implements the State's federal Race to the Top plan commitments by requiring the Department of Education to:

- (1) Review and revise, as appropriate and based on the principles and policy framework described in the State's Race to the Top plan, its recruitment, evaluation, support, tenure, incentive, classification, and compensation policies and practices to develop, measure, and hold educators accountable for facilitating student learning and growth;
- (2) Provide data to the Hawaii Teacher Standards Board for each state-approved teacher education program regarding the performance of each teacher that completes such a program and is employed by the Department; and
- (3) Report to the Legislature no later than twenty days prior to the convening of the Regular Sessions of 2013, 2014, and 2015 on the performance management system status and effectiveness, actions taken by the Board of Education and Department with respect to the performance management system, and legislative action required to enable the system, as well as any other action required to enable implementation of the State's Race to the Top plan.

Your Committees received testimony in support of this measure from the Governor; Board of Education; Department of Education; National Governors Association; Kaneohe Ranch; Harold K.L. Castle Foundation; Hawaii Educational Policy Council; Kobayashi Development Group, LLC; and Hawaii Business Roundtable. Your Committees received testimony in opposition to this measure from IMUAlliance, and twenty-four individuals. Your Committees received comments on this measure from the Hawaii State Teachers Association and one individual.

Your Committees find that Hawaii's Race to the Top plan establishes clear principles, policy actions, and timetables for changes in policies, practices, and outcomes in areas critical to transforming Hawaii's public education system. At the time the Race to the Top plan was formulated, it received wide support from government, education, and community leaders, as well as from other education stakeholders.

Your Committees further find that ensuring educator effectiveness requires a comprehensive approach that sets forth clear expectations for students, aligned systems of support for educators, flexibility for innovation, and a performance-based management system for educational officers, principals, and teachers. In addition to the Race to the Top plan, measurements and supports to ensure educator effectiveness have been included in all versions of the reauthorization of the federal Elementary and Secondary Education Act and are likely to become core requirements for many federal title funds.

Your Committees have amended this measure by:

- (1) Adding a new section to chapter 89, Hawaii Revised Statutes, requiring that teachers be employed by the Department of Education for three years before being eligible for tenure, beginning with contracts negotiated for the contract period beginning July 1, 2013;
- (2) Making this measure effective on July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2789, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2789, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9, Ayes with Reservations (Chun Oakland, Ihara, Nishihara, Taniguchi). Noes, 1 (Gabbard). Excused, none.

SCRep. 2363 Tourism on S.B. No. 3048

The purpose and intent of this measure is to provide a stimulus, through tax relief, for large hotel and resort construction and renovation projects and for the operation of those hotel and resort projects for seven years after completion of construction and renovation.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Hawaii Lodging & Tourism Association, American Resort Development Association, Outrigger Hotels and Resorts, Marriott Vacation Club Resorts, Wyndham Vacation Ownership, Ko Olina Resort, Kyo-ya company, LLC; and The Pacific Resource Partnership. Your Committee received testimony in opposition to this measure from Page Marketing, Inc. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that this measure will provide a strong incentive for the upgrading of the State's aging hotel facilities – a key component in the successful branding of Hawai'i visitor industry product. Increasing visitor arrivals and spending depends on the improvement and enhancement of the Hawaii tourism brand, including the physical infrastructure.

Your Committee further finds that successful hotel and resort operations depend to a great extent on the employees who provide services for the guests, and that employee costs are a significant portion of overall operational expenditures.

Your Committee has amended this measure accordingly, by:

- (1) Establishing a refundable tax credit for employers who hire certain individuals at new or renovated hotel and resort facilities, that is equal to 4.5 percent of the wages paid to a qualified employee and makes the tax credit available to the employer for seven years after substantial completion of construction and renovation;
- (2) Amending the hotel and resort construction and renovation tax exemption as follows:
 - (A) Making it applicable to gross income only;
 - (B) Requiring pre-certification by the Department of Business, Economic Development, and Tourism, and authorizing a service fee for pre-certification;
 - (C) Clarifying that the general contractor and any subcontractors of the construction or renovation are signatory parties to collective bargaining agreements with the appropriate construction trade unions covering construction work in the State;
 - (D) Clarifying that construction or renovation costs shall not include costs incurred as the result of planned or routine maintenance or refurbishments that would ordinarily take place throughout the normal course of business; and
 - (E) Deleting provisions relating to ownership or operation of a hotel resort facility as eligible for the tax exemption; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee considers this measure a "work in progress" and encourages continued discussion of its merits and fiscal impacts as it moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3048, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2364 Health on S.B. No. 2935

The purpose and intent of this measure is to establish a public-private partnership to research, facilitate, develop, and implement a model and system of collaborative health care delivery in a county with a population between 100,000 and 170,000 that moves patients, including acute care patients, throughout the continuum of care efficiently, appropriately, and cost-effectively.

Your Committee received testimony in support of this measure from the Office of the Mayor of Maui County; two members of the Maui County Council; Hawaii Health Systems Corporation; Hale Makua Health Services' Board of Directors, C.E.O., and other personnel; United Public Workers, AFSCME Local 646, AFL-CIO; Maui Memorial Medical Center; Ohana Health Plan; and three individuals.

Your Committee finds that the public-private partnership established by this measure will encourage the appropriate discharge of patients not requiring acute care from acute settings and the placement of those patients into appropriate sub-acute care settings. These changes will result in more efficient and cost-effective quality post-acute care, serve patients better, and expand inpatient capacity at acute care facilities and allow acute care providers to better serve those who need care in an acute setting.

Your Committee has amended this measure by:

- (1) Requiring Hale Makua Health Services to become a membership corporation, with the Hawaii Health Systems Corporation as its sole member; provided that certain requirements are met; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2935, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Majority Leader on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2365 (Joint) Economic Development and Technology and Water, Land, and Housing on S.B. No. 3059

The purpose and intent of this measure is to implement the recommendations made by the University of Hawaii Public Policy Center in response to Act 181, Session Laws of Hawaii 2011, by requiring the Office of Planning to:

- (1) Convene a working group to establish guidelines for the Hawaii statewide sustainability partnership;
- (2) Determine key indicators for measuring sustainability and establish benchmarks for measuring short-term and long-term progress;
- (3) Translate the sustainability principles set forth in Act 181, Session Laws of Hawaii 2011, into clear objectives, specific actions, and accountability measures; and
- (4) Coordinate sustainability progress among the State and counties, including data collection, analysis, and reporting of accountability measures.

Your Committees received testimony in support of this measure from the Office of Planning; University of Hawaii System; Office of Economic Development, County of Kauai; The Nature Conservancy; Hawaii Green Growth Initiative; and one individual. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii. Your Committees received comments on this measure from the State Procurement Office, Hawaii Farm Bureau Federation, and Building Industry Association of Hawaii.

Your Committees find that considerable work has already begun to identify sustainability programs and efforts throughout the State and to obtain further input through a community survey of organizations and individuals interested in and conducting work in sustainability. Your Committees further find that major progress has been made by each of the counties. The counties of Hawaii and Kauai have adopted sustainability plans. The City and County of Honolulu and Hawaii and Kauai counties have established a sustainability coordinator or manager position, and Maui County has an environmental coordinator.

Your Committees commend the collaborative efforts of those involved in meeting the State's sustainability goals, and are in support of the new initiatives in this measure.

Your Committees have amended this measure by:

- (1) Adding representatives of county government and energy, environment, agricultural, and community organizations to the membership of the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3059, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3059, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Tokuda).

SCRep. 2366 (Joint/Majority) Economic Development and Technology and Education on S.B. No. 2990

The purpose and intent of this measure is to:

- (1) Require the University of Hawaii to contract with an independent third party to conduct a feasibility study to determine the effect of placing Aloha Stadium under the jurisdiction of the University of Hawaii rather than the Department of Accounting and General Services;
- (2) Require the University to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013 on the findings and recommendations of the feasibility study; and
- (3) Appropriate \$50,000 from the stadium special fund for fiscal year 2012-2013 for the University of Hawaii to contract with an independent third party to conduct the feasibility study.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the University of Hawaii System and the Windward Ahupua'a Alliance.

Your Committees find that, while the University of Hawaii contributes to the revenues of the Aloha Stadium, given the diversity and broad scope of stadium users it would be more productive if the feasibility study included the development of a long-range plan for Aloha Stadium. The feasibility and cost benefits of placing Aloha Stadium under the jurisdiction of the University of Hawaii would then be considered within a broader context.

Your Committees have also reviewed the recommendation that the Department of Accounting and General Services would be the appropriate agency to oversee the feasibility study, as the Department has been responsible for the stadium's construction, operations, maintenance, promotion, and management from the stadium's inception.

Your Committees have amended this measure accordingly, by:

- (1) Requiring the Department of Accounting and General Services to contract with an independent third party to develop a long-range plan for Aloha Stadium, including a feasibility study to determine the cost benefits of placing Aloha Stadium under the jurisdiction of the University of Hawaii rather than the Department of Accounting and General Services;

- (2) Requiring the Department of Accounting and General Services to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013 on the long-range plan for Aloha Stadium, including the findings and recommendations of the feasibility study; and
- (3) Appropriating \$50,000 from the stadium special fund for fiscal year 2012-2013 for the Department of Accounting and General Services to contract with an independent third party for the long-range plan and feasibility study.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2990, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2990, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 4 (Chun Oakland, Solomon, Taniguchi, Slom). Excused, none.

SCRep. 2367 Economic Development and Technology on S.B. No. 2539

The purpose and intent of this measure is to provide greater protection for victims of cyberbullying by establishing an offense of harassment by cyberbullying, with the first or second offense as a misdemeanor, and a third or any subsequent offense as a class C felony.

Your Committee received comments on this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; Hawaii Youth Services Network; and one individual.

Your Committee finds that at the 2011 Children and Youth Summit, bullying was the top priority for legislative action identified by the 125 participating youth and youth advocates, and cyberbullying was identified as one of several forms of bullying that need to be addressed.

Your Committee, however, has heard a number of concerns regarding the approach in this measure and has amended this measure to incorporate the recommendations of the Department of the Attorney General.

Your Committee has amended this measure accordingly, by:

- (1) Clarifying what constitutes the offense of harassment by cyberbullying;
- (2) Deleting the provision stating that a person convicted of harassment by cyberbullying may be required to undergo a counseling program as ordered by the court;
- (3) Deleting the definitions of "cyberbullying" and "nonconsensual contact";
- (4) Adding definitions of "electronic communication" and "public media forum";
- (5) Replacing the penalties for first, second, and third or subsequent offenses with one class C felony offense; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2539, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2539, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2368 (Joint) Economic Development and Technology and Public Safety, Government Operations, and Military Affairs on S.B. No. 2399

The purpose and intent of this measure is to:

- (1) Authorize a director of a state department to permit an individual or individuals to create urban art on property owned in fee simple by the State that is under the jurisdiction of the director's department; and
- (2) Require a director who authorizes urban art, in consultation with the State Foundation on Culture and the Arts, to select individuals to create the urban art.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Outdoor Circle. Your Committees received comments on this measure from the State Foundation on Culture and the Arts and Historic Hawaii Foundation.

Your Committees find that urban art, which includes graffiti and tagging, is a form of social commentary and a vehicle of personal expression by young generations of city youth who are continuously looking for ways to have their voices heard. This measure is an effort to turn a problem into a service that benefits the community through assigning specific locations, art supplies, and procedures whereby young potential artists can express themselves without violating the law.

Your Committees consider this a viable solution by government officials to encourage urban art, in the spirit of public murals and street art, which have successfully engaged urban populations and diverse audiences in communities around the world.

Your Committees have amended this measure by:

- (1) Deleting the proposed new chapter on urban art and replacing it with the establishment of a pilot program for the creation of urban art under the direction of the State Foundation on Culture and the Arts;

- (2) Requiring the State Foundation on Culture and the Arts to establish procedures that permit an individual or individuals to create urban art on property owned in fee simple by the State;
- (3) Requiring the State Foundation on Culture and the Arts to consult with the Historic Preservation Division of the Department of Land and Natural Resources to review any proposal to create urban art to determine if the urban art may cause an adverse effect to a historic property, and if the Historic Preservation Division determines that a proposal would adversely affect a historic or cultural property, the urban art shall not be permitted;
- (4) Repealing the pilot project to create urban art on June 30, 2015;
- (5) Requiring the State Foundation on Culture and the Arts to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015 on the status of the pilot project to create urban art and any recommendation to extend the project on a permanent basis; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2399, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2399, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 3 (Ryan, Solomon, Slom).

SCRep. 2369 (Joint/Majority) Energy and Environment and Economic Development and Technology and Water, Land, and Housing on S.B. No. 2511

The purpose and intent of this measure is to ameliorate the environmental impacts of single-use checkout bags by establishing a ten cent fee for each single-use checkout bag and using fees collected primarily to fund watershed protection, restoration, and acquisition.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, City and County of Honolulu Board of Water Supply, Maui County Department of Water Supply, Hawaii Food Industry Association, West Maui Mountains Watershed Partnership, Coordinating Group on Alien Pest Species, The Nature Conservancy, Surfrider Foundation, Zero Waste Kauai, Sierra Club, Citizens for Equal Rights, Conservation Council for Hawaii, Pearl City Highlands Elementary School Student Council, Retail Merchants of Hawaii, Sustainable UH, League of Women Voters, Safeway, Times Supermarkets, Down to Earth, Castle & Cooke Resorts, LLC, National Tropical Botanical Garden, Tamura's Market, Maui Land & Pineapple Company Inc., and forty-seven individuals. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance and Renewable Bag Council. Your Committees received comments on this measure from the Department of Taxation, Office of Informational Practices, Tax Foundation of Hawaii, Verizon Wireless, and one individual.

Your Committees find that maintaining a healthy environment free of single-use checkout bag litter is critical to the economic growth of the State and does not unreasonably impinge on individual freedom of choice. Single-use checkout bag usage degrades the ocean environment to the detriment of marine animals and plants, recreational ocean users, and beach users. The economy of the State depends in large part upon its pristine natural environment, which draws visitors from around the world. This measure places Hawaii on par with other nations around the world that have embraced a fee on single-use checkout bags to curb the unsustainable proliferation of unsightly litter.

Your Committees recognize the need to sustain a clean, fresh water supply for the people of Hawaii and future generations. As recognized by the Legislature in Act 152, Session Laws of Hawaii 2000, fresh water is a finite resource, and its high quality, quantity, and sustainability depend upon forested watersheds. By providing that a percentage of the fees from single-use checkout bags be used to fund watershed protection, this measure ensures that fresh water is available for future generations.

Your Committees have amended this measure by:

- (1) Inserting a definition for the term "proprietary information";
- (2) Inserting language excluding bags used to transport chemical pesticides, drain-cleaning chemicals, or other caustic chemicals from the definition of "single-use checkout bag", provided that this exemption is limited to one bag per customer;
- (3) Clarifying that taxes imposed on fees retained by businesses are not to be charged to any consumer;
- (4) Replacing language requiring \$800,000 of fees collected annually to be deposited into a special account in the general fund, \$11,000,000 of the fees collected annually to be deposited into the natural area reserve fund, and any remaining fees to be deposited in the general fund with language requiring all fees collected to be deposited into a special account in the environmental management special fund, of which:
 - (A) The first \$800,000 per year shall be expended by the Department of Health; and
 - (B) Any remaining balance shall be distributed to:
 - (i) The environmental response revolving fund; or
 - (ii) The natural area reserve fund;
- (5) Including administrative, audit, compliance, and enforcement activities and educational outreach associated with the single-use checkout bag fee among the purposes of the environmental management special fund; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Economic Development and Technology and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2511, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2511, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11, Ayes with Reservations (Baker, English, Green, Ryan, Solomon, Tokuda, Wakai). Noes, 1 (Slom). Excused, 1 (Shimabukuro).

SCRep. 2370 (Joint) Water, Land, and Housing and Judiciary and Labor on S.B. No. 2852

The purpose and intent of this measure is to provide for transformative administrative penalty alternatives, and for an enhanced collection mechanism for outstanding fines and penalties resulting from aquatic resource violations.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, Malama Pūpūkea-Waimea, Conservation Council for Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Nearshore Fishermen and one individual. Your Committees received comments on this measure from the City and County of Honolulu Department of Customer Services.

Your Committees find that this measure will provide the Department of Land and Natural Resources with the authority to impose natural resource related community service for aquatic resource violations. This measure will also provide the Department of Land and Natural Resources with a mechanism to encourage timely payment of administrative fines and performance of community service through the revocation or suspension of a violator's driver's license privileges administered through the county examiners of drivers.

Your Committees have amended this measure by:

- (1) Requiring the Board of Land and Natural Resources to provide a violator's social security number or driver's license number to the county examiner of drivers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2852, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2852, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10, Ayes with Reservations (Shimabukuro). Noes, none. Excused, none.

SCRep. 2371 (Majority) Water, Land, and Housing on S.B. No. 2927

The purpose and intent of this measure is to:

- (1) Rename the Hawaii Community Development Authority as the Hawaii Community Planning Authority;
- (2) Allow the Authority to create transit-oriented development zones;
- (3) Authorize the Authority to create business improvement districts and assess a special assessment to fund the improvements within the district; and
- (4) Authorize the Authority to act as a density rights bank.

Prior to the hearing, your Committee posted a proposed S.D. 1 of this measure that focused on the counties. The proposed S.D. 1 allows the counties to create county transit-oriented development programs, establish planning districts, and create a process for developers to apply for residential and commercial exceptional planning projects.

Your Committee received testimony in support of the proposed S.D. 1 from the Honolulu Authority for Rapid Transportation and Hawaii Laborers-Employers Cooperation and Education Trust. Your Committee received comments on the proposed S.D. 1 from the County of Kauai Planning Department and Land Use Research Foundation of Hawaii.

Your Committee finds that the State needs to streamline its efforts and implement ideas that would result in reasonable, rational, and equitable land use planning. Existing laws require unnecessary and often times burdensome regulations that lengthen the timing process of worthy development projects. This measure would provide for a more timely and efficient process for the development of Hawaii's lands.

Upon further consideration and cooperation with interested stakeholders, your Committee has amended the proposed S.D. 1 by, among other things:

- (1) Including a findings and purpose section;
- (2) Amending the definition of "exceptional planning project" to give flexibility to each county;
- (3) Reducing the number of days the county planning agency can extend the deadline of posting their final action to ten days;
- (4) Deleting language relating to unlicensed contractors and subcontractors;
- (5) Including state and county incentives for projects;
- (6) Changing the effective date to July 1, 2020; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2927, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2927, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Fukunaga, Ryan, Tokuda). Noes, 1 (Slom). Excused, 1 (Shimabukuro).

SCRep. 2372 Public Safety, Government Operations, and Military Affairs on S.B. No. 2457

The purpose and intent of this measure is to require a hearings officer to affirm the decision of a procurement officer in protests, unless the procurement officer's decision is shown by clear and convincing evidence to be arbitrary, capricious, fraudulent, or clearly erroneous.

Your Committee received testimony in support of this measure from General Contractors Association of Hawaii; Ralph S. Inouye Co. Ltd; Associated Builders and Contractors Inc.; Grace Pacific Corporation; King & Neel, Inc.; S & M Sakamoto, Inc.; Healy Tibbitts Builders, Inc.; Royal Contracting Co., Ltd.; Nordic Construction PCL; Rons Construction Corporation; and Forest City Military Communities Hawaii. Testimony in opposition to this measure was received from the Department of Commerce and Consumer Affairs.

Your Committee finds that the intent of this measure is to simplify and expedite the procurement appeal process by recognizing the procuring agency's experience and expertise in the procurement process, while preserving the right of review of a procuring agency's decision to the Department of Commerce and Consumer Affairs.

Your Committee has amended this measure by:

- (1) On the recommendation of the General Contractors Association of Hawaii, inserting additional language that details a hearings process that better balances the expediting of procurements delayed by constant protest appeals with preservation of the right of review of a procuring agency's decision; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2457, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2457, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2373 Public Safety, Government Operations, and Military Affairs on S.B. No. 2647

The purpose and intent of this measure is to enact a new definition in the firearms law to define "place of formal hunting" to mean an area on state or federal land where hunting is permitted or an area on private land only where the landowner has granted written permission to an individual to use the land for hunting or target shooting, and to amend all relevant statutes relating to hunting with a firearm.

Your Committee received testimony in support of this measure from W. H. Shipman, Ltd.; Hawaii Cattlemen's Council, Inc.; and one individual. Testimony in opposition to this measure was received from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Your Committee finds that this measure addresses a safety issue to farmers and ranchers and their families and workers. Persons hunting illegally can verbally inform anyone that permission was obtained from the owner or the owner's representative. Testimony indicated that existing provisions in the law are inadequate to deter persons with firearms from trespassing on lands and potentially causing bodily injury to others and damage to property, livestock, and crops. Testimony indicated that this problem is particularly serious on the Big Island where ranches with large acreage find it impracticable and nearly impossible to monitor thousands of acres of land, particularly at night when poachers appear to kill or steal livestock.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "place of formal hunting" to mean an area on private or public land where the landowner has granted written permission to an individual to use the land for hunting or target shooting;
- (2) Making it a misdemeanor to violate any provision relating to a place of formal hunting, in order to make it clear that it is not a felony, as is the case with violating certain other firearms laws;
- (3) Making amendments to chapter 183D, Hawaii Revised Statutes, relating to wildlife, to accommodate hunting in a place of formal hunting by requiring written permission by the landowners in addition to a hunting license, and to repeal the provision requiring certain procedures to enforce the law on prohibiting hunting on private lands, on the recommendation of the Department of Land and Natural Resources and the Hawaii Farm Bureau Federation;
- (4) Amending the crime of criminal trespass in the first degree to add the element of entering or remaining unlawfully on private property at night while in the possession of a firearm and deleting a requirement that premises in which a person possessing a firearm knowingly enters or remains unlawfully in or upon must be fenced or enclosed; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2647, as amended herein,

and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2647, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2374 Commerce and Consumer Protection on S.B. No. 2429

The purpose of this measure is to implement the recommendations of the Mortgage Foreclosure Task Force submitted to the Legislature for the Regular Session of 2012. Specifically, this measure, among other things:

- (1) Amends section 667-60, Hawaii Revised Statutes, which makes any violation of the mortgage foreclosure law under Chapter 667, Hawaii Revised Statutes, an unfair or deceptive act or practice subject to enhanced penalties under Chapter 480, Hawaii Revised Statutes, to:
 - (A) Specify the types of violations under Chapter 667 that constitute unfair or deceptive acts or practices;
 - (B) Limit the types of violations that may void a title transfer of foreclosed property; and
 - (C) Establish a time limit for filing actions to void title transfers of foreclosed property;
- (2) Makes permanent the process under Act 48, Session Laws of Hawaii 2011, for converting nonjudicial foreclosures of residential property into judicial foreclosures;
- (3) Addresses practical challenges in the operation of the temporary mortgage foreclosure dispute resolution program under Part V of Chapter 667, Hawaii Revised Statutes, including:
 - (A) Authorizing the Department of Commerce and Consumer Affairs to contract with approved housing counselors and approved budget and credit counselors;
 - (B) Providing owner-occupants with the option of completing the dispute resolution program election form on a website maintained by the Department of Commerce and Consumer Affairs;
 - (C) Increasing the amount of time to schedule a dispute resolution session;
 - (D) Removing the neutral foreclosure dispute resolution specialist's participation in the documentation of agreements between parties to a mortgage foreclosure dispute resolution case, to streamline the dispute resolution process; and
 - (E) Providing that failure by the mortgagee and the owner-occupant to reach an agreement does not constitute failure to comply with the requirements of the dispute resolution program;
- (4) With regard to condominium and planned community associations:
 - (A) Establishes an alternate power of sale process for the collection of unpaid assessments, modeled after the process set forth in Part II of Chapter 667, Hawaii Revised Statutes, as amended by the task force's recommendations;
 - (B) Places a two-year time limit on recorded liens for assessments, and prohibits such liens arising solely from fines, penalties, or late fees;
 - (C) Provides the associations with notice of an owner-occupant's decision to participate in the mortgage foreclosure dispute resolution program; and
 - (D) Allows associations to proceed with a nonjudicial foreclosure notwithstanding a stay of foreclosure proceedings arising from a dispute resolution case opening, if the association has not been notified of the foreclosure action by the foreclosing mortgagee or of the dispute resolution case opening;
- (5) With regard to planned community associations organized under Chapter 421J, Hawaii Revised Statutes:
 - (A) Provides these associations with the same options and protections as condominium associations with regard to association liens for assessments and the collection of unpaid assessments from tenants or rental agents; and
 - (B) Exempts these associations from the requirements of the mortgage foreclosure dispute resolution program in Part V of Chapter 667, Hawaii Revised Statutes, and the process under section 667-53, Hawaii Revised Statutes, allowing owner-occupants to convert nonjudicial foreclosures to judicial foreclosures, to parallel the existing exemptions for condominium associations;
- (6) Provides specific language explaining the foreclosure process for the public information notice that must be distributed by persons intending to use the power of sale foreclosure process under Part II of Chapter 667, Hawaii Revised Statutes;
- (7) Clarifies, improves, and corrects provisions of Act 48, Session Laws of Hawaii 2011, a mortgage foreclosure reform measure; and
- (8) Implements additional conforming amendments for consistency and clarity.

The Department of Commerce and Consumer Affairs, Legal Aid Society, and a concerned individual testified in support of this measure. The Community Associations Institute Legislative Action Committee; Hawaii State Bar Association; Hawaii Bankers Association; Hawaii Financial Services Association; Mililani Town Association; Hawaii First, Inc.; AOA 909 Kapiolani; Golf Villas at Mauna Lani AOA; Country Club Village; Villages of Kapolei Association; Certified Hawaii, Inc.; and twenty-three concerned individuals opposed this measure. The Hawaii Association of Realtors; RCO Hawaii, LLC; and Hawaii Credit Union League provided comments.

Your Committee finds that Act 162, Session Laws of Hawaii 2010, established the Mortgage Foreclosure Task Force to recommend policies and procedures to improve the way mortgage foreclosures are conducted in the State. Act 162 required the task force to submit its findings and recommendations, including any proposed legislation, to the Legislature for the regular sessions of 2011 and 2012.

Some of the task force's initial recommendations in its report to the Legislature for the Regular Session of 2011 were included in Act 48, Session Laws of Hawaii 2011, a far-reaching mortgage foreclosure reform measure that, among other things:

- (1) Temporarily authorized mortgagors who are occupying, as a primary residence, real property that is subject to nonjudicial foreclosure to either:
 - (A) Participate in the mortgage foreclosure dispute resolution program established under Act 48; or
 - (B) Convert the nonjudicial foreclosure to a judicial foreclosure;
- (2) Imposed a temporary moratorium on all new nonjudicial foreclosures conducted under Part I of Chapter 667, Hawaii Revised Statutes; and
- (3) Specified prohibited conduct and consequences of violations for foreclosing mortgagees, including making any violation of the mortgage foreclosure law under Chapter 667, Hawaii Revised Statutes, an unfair or deceptive act or practice subject to the enhanced penalties under Chapter 480, Hawaii Revised Statutes.

The task force met again over several public meetings during the legislative interim of 2011 to continue its work under Act 162. The focus of these meetings was divided among these major issues:

- (1) The new mortgage foreclosure provisions of Act 48, Session Laws of Hawaii 2011;
- (2) Matters involving condominium and other homeowner associations, including association liens and the collection of unpaid assessments; and
- (3) Mortgage foreclosure counseling and dispute resolution issues.

Based upon its deliberations on these issues, the task force adopted further recommendations in its report to the Legislature for the Regular Session of 2012.

As an initial matter, your Committee wishes to express its sincere appreciation for the significant amount of time and effort that the task force members spent reviewing the provisions of the mortgage foreclosure law under Chapter 667, Hawaii Revised Statutes, with a particular focus on the amendments made by Act 48, Session Laws of Hawaii 2011; attempting to resolve issues raised; and considering the interests and protection of consumers.

With the expiration of the moratorium (pursuant to Act 48) on new, nonjudicial foreclosures under Part I of Chapter 667, Hawaii Revised Statutes, on July 1, 2012, Hawaii will again have two discrete but overlapping nonjudicial foreclosure laws. Your Committee notes that numerous amendments have been made to the nonjudicial foreclosure process under Part II of Chapter 667 by Act 48 and this measure to craft a fair, comprehensive, and effective nonjudicial foreclosure law. Therefore, your Committee believes that repeal of the Part I nonjudicial foreclosure process should be considered.

Under Act 48, the temporary dispute resolution program, which applies only to nonjudicial foreclosures, currently is scheduled to end on September 30, 2014. Your Committee notes that although the program has been available since October 2011, mortgagees have not pursued nonjudicial foreclosures in Hawaii, ostensibly because of the perceived risk of undue liability under the provisions of Act 48 that make any violation of the mortgage foreclosure law an unfair or deceptive act or practice and thus subject to enhanced penalties under Chapter 480, Hawaii Revised Statutes. Your Committee finds that this measure addresses these concerns, and accordingly, your Committee believes that it is appropriate to make the dispute resolution program permanent in order to fairly assess the program's effectiveness in providing owner-occupants an opportunity to negotiate an agreement that avoids foreclosure or mitigates damages in cases where foreclosure is unavoidable.

In addition, your Committee finds that further amendments to this measure are necessary to ensure that association foreclosures and other remedies for the collection of unpaid assessments operate efficiently while preserving consumer protections. In particular, the application of these remedies to planned community associations organized under Chapter 421J, Hawaii Revised Statutes, needs to be carefully tailored to fit the processes and operations of these types of associations.

Finally, it has come to your Committee's attention that newspaper publication costs have soared to a level that makes compliance with requirements for publishing foreclosure notices significantly expensive. Your Committee received testimony stating that, since the passage of provisions in Act 48 requiring nonjudicial foreclosure notices to be published in a daily newspaper with the largest general circulation, the Judiciary's application of these requirements to judicial foreclosures have resulted in average advertising costs of \$2,000 per judicial foreclosure, compared with \$800 in 2008. This equates to a one hundred fifty per cent increase in judicial foreclosure publication costs between 2008 and 2011. The projected impact on publication costs for nonjudicial foreclosures, which remains to be seen given the halting of nonjudicial foreclosure proceedings since the passage of Act 48, is estimated at up to \$4,300 per foreclosure. These rising publication costs raise consumer protection issues because they are passed on to the borrower in mortgage foreclosure proceedings. Consequently, your Committee believes alternatives for publishing foreclosure notices, including an option for posting foreclosure notices on a website maintained by the Department of Commerce and Consumer Affairs, need to be explored. Therefore, your Committee has provided for website publication of notices of public sale for discussion purposes and pending further research by the Department of Commerce and Consumer Affairs on the feasibility of authorizing electronic publication for other foreclosure notices.

In light of these considerations, your Committee has amended this measure by:

- (1) Repealing the nonjudicial foreclosure process under Part I of Chapter 667, Hawaii Revised Statutes, to provide for a single nonjudicial foreclosure process under Part II of that chapter;
- (2) With regard to the mortgage foreclosure dispute resolution program under Part V of Chapter 667, Hawaii Revised Statutes:
 - (A) Making the program permanent by repealing its sunset date;
 - (B) Repealing the prohibition against participants of the program converting their nonjudicial foreclosure proceedings to judicial actions; and
 - (C) Providing that the written notification of a dispute resolution case opening, which operates as a stay of foreclosure proceedings, does not toll the time period for curing the mortgage loan default;
- (3) With regard to condominium and planned community association liens for unpaid assessments:
 - (A) Establishing provisions requiring the release of recorded liens upon full satisfaction of the recorded lien and discharge of any secured debt;
 - (B) Specifying that the associations are prohibited from foreclosing upon any lien against a unit arising solely from fines, penalties, legal fees, or late fees; and
 - (C) Eliminating the monetary cap (currently \$7,200) on the total amount of unpaid common area maintenance fees that an association may specially assess against a person who purchases a foreclosed unit, and instead limiting the recoverable amount to the last six months of fees assessed immediately prior to the completion of foreclosure proceedings, regardless of the dollar amount;
- (4) With regard to the nonjudicial foreclosure process established by this measure for condominium associations under chapters 514A and 514B, Hawaii Revised Statutes, and planned community associations under Chapter 421J, Hawaii Revised Statutes:
 - (A) Eliminating the requirement for staging open houses prior to the public sale of units subject to association foreclosures. On this point, your Committee was informed that in many association nonjudicial foreclosures, the unit's mortgage debt is higher than the unit's market value. This lowers the likelihood that anyone will bid on the unit in the foreclosure sale, and consequently, requiring public showings of the unit only increases the time and expense of foreclosures;
 - (B) Allowing associations to pursue the following remedies when the association is unable to serve the notice of default and intention to foreclose:
 - (i) Obtain court permission to proceed with nonjudicial foreclosure by serving notice only by publication and posting;
 - (ii) Proceed with nonjudicial foreclosure without court permission, after surrendering the right to a deficiency judgment and giving the unit owner a one-year right to redeem the unit; or
 - (iii) Rent out the unit, if the unit is unoccupied and the association sends notice to the unit owner's last known address;
 - (C) Providing that only the association, to the exclusion of other lienholders, may use the amount of the lien held against the unit to satisfy the downpayment required of successful bidders at the public sale of the unit;
 - (D) Amending the distribution of sale proceeds to ensure that the association's claim and foreclosure costs are paid before other claims;
 - (E) Clarifying what constitutes a "reasonable payment plan" that a delinquent unit owner may submit to the association following receipt of a notice of default and intention to foreclose;
 - (F) Allowing, rather than requiring, associations to record the notice of default and intention to foreclose in a manner similar to the recordation of notices of pendency of action;
 - (G) Adding a new definition of "assessment" to cover foreclosures of liens for assessments imposed by planned community associations under Chapter 421J, Hawaii Revised Statutes;
- (5) Amending the provisions affecting planned community associations organized under Chapter 421J, Hawaii Revised Statutes, to:
 - (A) Provide that the priority of association liens shall be as set forth in the association's governing documents, or by the date of recordation of the liens except as otherwise provided by law;
 - (B) Specify that in order to terminate a delinquent unit's access to common areas or services or demand rent from the tenant of delinquent unit owners, the association must act in accordance with a policy adopted by a majority vote of the association members present in person or by proxy at an association meeting, rather than a majority of all unit owners, or by the written consent of a voting interest equal to a quorum of the unit owners;
 - (C) Amend the provisions allowing the association to collect unpaid assessments from the tenant of the delinquent unit, to accommodate rent payments made other than monthly;
 - (D) Replace the arbitration option for a unit owner who pays the association the full amount claimed by the association with the option of mediation or filing a court claim to resolve disputes concerning the claim. This amendment was made because of the lack of specific provisions in Chapter 421J, Hawaii Revised Statutes, governing arbitrations;
- (6) With regard to the publication requirements for notices of public sale issued for the nonjudicial foreclosure process under Part II of Chapter 667, Hawaii Revised Statutes, and for the association nonjudicial foreclosure process established by this measure:

- (A) Eliminating the requirement that the notice be published in a daily newspaper with the largest general circulation within the area where the property lies, and instead establishing alternative criteria to facilitate publication in other newspapers of sufficient circulation; and
- (B) In lieu of publication by newspaper, allowing the notice to be posted on a website maintained by the Department of Commerce and Consumer Affairs, if the subject property is owned by an owner-occupant;
- (7) Changing the effective date of this measure to June 30, 2012, to ensure that the repeal of the nonjudicial foreclosure process under Part I of Chapter 667, Hawaii Revised Statutes, takes effect prior to the expiration of the moratorium on Part I nonjudicial foreclosures on July 1, 2012, pursuant to section 40 of Act 48, Session Laws of Hawaii 2011;
- (8) Eliminating the delayed effective date for the amendments to section 607-5(a) and (b) and section 667-53(a)(6), Hawaii Revised Statutes (amending the schedule of circuit court costs and fees to reference the fee for petitions to convert nonjudicial foreclosures of residential property into judicial proceedings and provide for the deposit of these fees into the Mortgage Foreclosure Dispute Resolution Special Fund); and
- (9) Making technical, nonsubstantive amendments for style, clarity, consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2429, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2429, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 6, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Nishihara).

SCRep. 2375 Education on S.B. No. 2115

The purpose and intent of this measure is to adopt the recommendations of the Charter School Governance, Accountability, and Authority Task Force (Task Force) by repealing chapter 302B, Hawaii Revised Statutes, and establishing a new charter school law that creates a solid governance structure for Hawaii's charter school system with clear lines of authority and accountability that will foster improved student outcomes.

Your Committee received testimony in support of this measure from the Governor; Board of Education; Charter School Administrative Office; Office of Hawaiian Affairs; National Association of Charter School Authorizers; National Governors Association; National Alliance for Public Charter Schools; Macalester College Center for School Change; Hawai'i Educational Policy Center; Kamehameha Schools; Hawaii Public Charter School Network; Kanu o ka 'Aina Learning 'Ohana; Ho'okako'o Corporation; Hawai'i Island Charter Schools; Hawaii Technology Academy; Hawaii Government Employees Association, HGEA/AFSCME, Local 152, AFL-CIO; Kaneohe Ranch; Sovereign Councils of the Hawaiian Homelands Community Assembly; Kewalo Hawaiian Homestead Community Association; Waianae Kai Homestead Hawaiian Homestead Community Association; Mokupuni O Oahu; Nanakuli Hawaiian Homestead Community Association; and three individuals. Your Committee received testimony in opposition to this measure from the State Procurement Office, Hawaii State Teachers Association, and six individuals. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that the Task Force was established pursuant to Act 130, Session Laws of Hawaii 2011, in response to questions and concerns raised by policy makers and advocates alike about the integrity of Hawaii's charter school governance structure and the overall strength of Hawaii's laws in establishing clear lines of authority that ensure accountability of the charter school system.

Specifically, the goal of the Task Force was to provide clarity to the relationships, responsibilities, and lines of accountability and authority among stakeholders of Hawaii's charter school system, including the Board of Education, Department of Education, Charter School Administrative Office, Charter School Review Panel, and local school boards.

In conducting its work, the Task Force looked at various sections of the Charter School Model Law put forth by the National Alliance for Public Charter Schools and used the model law as a guide in compiling its recommendations to the Legislature.

The Task Force was also fortunate to have the assistance and input of the National Association of Charter School Authorizers and the National Governors Association.

After in-depth examination and discussion, the Task Force concluded its work and issued its report and recommendations to the Legislature. This measure encapsulates the Task Force's recommendations.

Your Committee notes that Hawaii's charter schools are ranked each year by the National Alliance for Public Charter Schools (NAPCS). Last year, Hawaii's ranking fell from thirty-fourth place to thirty-fifth place, out of a total of forty-two states. NAPCS reviewed this measure and testified that if this measure passes the Legislature, Hawaii's rank would move up fourteen spots to rank as the twenty-first state.

Your Committee further finds that this measure is a major departure from the current charter school law and believes that this measure will strengthen Hawaii's charter school system and will move Hawaii's charter schools toward greater student outcomes. Understanding this, your Committee recognizes that this measure is a work in progress that will continue to evolve as it moves through the legislative process, and that the key to successfully implementing these significant changes will be the allocation of time and resources to properly transition to the new charter school system.

Your Committee has amended this measure by:

- (1) Adding preamble language to reinforce the intent of Hawaii's charter school law to create new approaches to education and genuine opportunities for communities to implement innovative models of community-based education;
- (2) Defining the term "board" as the Board of Education;

- (3) Amending the definition of the State Public Charter School Commission (Commission) to clarify that the Commission is a statewide charter school authorizer;
- (4) Clarifying that a charter contract is a bilateral contract between a charter school and an authorizer;
- (5) Clarifying that an authorizer shall not provide technical support to a charter school it authorizes in cases where the technical support will impact any decision related to the authorization, renewal, revocation, or nonrenewal of the charter school;
- (6) Removing the cap on the number of members a charter school governing board may have;
- (7) Allowing the chief executive officer, chief administrative officer, executive director, or otherwise designated head of a charter school, to be an ex officio, non-voting member of the charter school's governing board;
- (8) Clarifying that charter school governing boards must post meeting agendas, meeting minutes, and the current names and contact information for governing board members at their respective authorizer's office and on their authorizer's website rather than at the Commission's office and on the Commission's website;
- (9) Adding language to require that applicants for start-up and conversion charter schools provide to the authorizer, as part of their application, a description of the constitution of the governing board, terms of governing board members, and the process by which the governing board members were selected;
- (10) Adding language to require authorizers, in reviewing applications for start-up and conversion charter schools, to take into consideration the constitution of the governing board, terms of governing board members, and the process by which the governing board members were selected;
- (11) Adding language to clarify that the application for each conversion charter school shall be approved by a majority of stakeholders of the existing public school rather than the potential charter school;
- (12) Requiring the majority vote of stakeholders to be considered by the authorizer as the primary indication of stakeholder approval to convert to a charter school and requiring that this vote shall be a key factor in an authorizer's decision to award a charter;
- (13) Requiring an applicant for a conversion charter school to provide the authorizer with a breakdown of the number of administrative, support, and teacher personnel, and parents that actually participated in the vote conducted on whether or not to convert to a charter school;
- (14) Requiring the Department of Education to establish educational reporting procedures, rather than a uniform data reporting system, which shall include minimum procedures for charter schools to report certain data to the Department starting with the 2013-2014 school year;
- (15) Adding language requiring the Department of Education to establish a process that permits employees of Department public schools that convert to charter schools to transfer to a Department public school governed by chapter 302A, Hawaii Revised Statutes;
- (16) Adding language to allow funds in the charter schools account to be used for the implementation of the new charter school law created by this measure and for any other purpose the Legislature deems appropriate;
- (17) Amending section 302B-12(i), Hawaii Revised Statutes, to allow funds from the charter schools account to be used by the Board of Education to hire an Implementation and Transition Coordinator pursuant to S.B. No. 2116 (2012), and for any other purpose the Legislature deems appropriate;
- (18) Amending the effective date to make the amendments to section 302B-12(i), Hawaii Revised Statutes, effective upon the approval of this measure; and
- (19) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2115, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2115, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2376 (Joint) Education and Health on S.B. No. 2538

The purpose and intent of this measure is to require the Department of Education and the Hawaii High School Athletic Association to develop a concussion educational program for students and student athletes who are fourteen to eighteen years old.

Your Committees received testimony in support of this measure from the Department of Education; Department of Health; The Queen's Medical Center; Hawaii Chapter, American Physical Therapy Association; Hawaii Association of Athletic Trainers; Hawaii Medical Service Association; Hawaii Medical Association; Keiki Injury Prevention Coalition; Athletic Directors and Coaches Association; and two individuals.

Your Committees find that concussions among student athletes are a serious concern and an increase in understanding of the dangers associated with head injuries is an important step toward ensuring that the risk of serious injury is minimized. This measure will promote education on concussions and implement return-to-play guidelines targeted to minimize additional injury that a student athlete may sustain by returning to play while still experiencing symptoms of a concussion.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2538 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2377 Commerce and Consumer Protection on S.B. No. 3002

The purpose and intent of this measure is to allow the Hawaii Real Estate Commission to impose penalties or fines on real estate brokers and salespersons who negligently or intentionally make misrepresentations or false promises, or negligently or intentionally fail to ascertain and disclose material facts.

Your Committee received testimony in support of this measure from the Hawaii Association of REALTORS, Honolulu Board of REALTORS, and Prudential Locations LLC. Your Committee received testimony in opposition to this measure from the Hawaii Real Estate Commission. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the amendments proposed by this measure add a state of mind requirement as grounds for disciplinary action by the Hawaii Real Estate Commission for misrepresentations, false promises, and failure to ascertain and disclose material facts by real estate brokers and salespersons.

Your Committee has heard the concerns that the addition of a state of mind requirement may restrict the Hawaii Real Estate Commission's ability to respond to conduct and the Regulated Industries Complaints Office's ability to investigate allegations of misconduct. Your Committee has also heard the concerns that the measure's strict liability standard requires punishment for any violation, no matter how inconsequential.

Your Committee therefore finds that amendments to narrow the focus of this measure, while still preserving the investigative powers of the Regulated Industries Complaints Office and the Hawaii Real Estate Commission, are necessary.

Your Committee has amended this measure by:

- (1) Deleting the language that specified state of mind requirements;
- (2) Clarifying that a real estate broker or salesperson shall not be held liable for misrepresentations in a real estate transaction if the misrepresentations were based on a good faith reliance on information provided by third-party individuals or provided in public records;
- (3) Clarifying that a real estate broker or salesperson shall not be held liable for failure to ascertain and disclose all material facts concerning a property if the real estate broker or salesperson had a good faith reliance on a prepared disclosure statement; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that administrative relief, not legislation, should be the first level of redress. Accordingly, interested parties have requested the Hawaii Real Estate Commission to address this matter administratively later this month. This measure is progressing in case an appropriate resolution cannot be reached through those means.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3002, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Taniguchi).

SCRep. 2378 (Joint) Hawaiian Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2639

The purpose and intent of this measure is to enable the Department of Hawaiian Home Lands to place eligible native Hawaiians on Hawaiian home lands without having to wait for development infrastructure.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Sovereign Councils of the Hawaiian Homelands Assembly, and seven individuals.

Your Committees find that this measure is intended to expedite the kuleana homestead program by allowing the settlement of unimproved available lands. According to the Department of Hawaiian Home Lands, there have been no residential lease awards to dated under the kuleana homestead program. This measure provides flexibility to the Department of Hawaiian Home Lands to pursue placing more Hawaiians onto kuleana lands.

Your Committees have amended this measure by:

- (1) Inserting language to amend the Hawaiian Homes Commission Act to authorize the Department of Hawaiian Home Lands to allow lessees to settle, on a vacant homestead lot that has been awarded to the lessee, in a temporary structure for up to five years during construction of a legal, permitted, and permanent dwelling that complies with certain requirements; and
- (2) Inserting language to require the Department of Hawaiian Home Lands to conduct a public awareness campaign to educate affected communities about the provisions of this measure.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B.

No. 2639, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2639, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (English, Solomon, Slom).

SCRep. 2379 (Joint) Hawaiian Affairs and Public Safety, Government Operations, and Military Affairs on S.B. No. 2212

The purpose and intent of this measure is to repeal the congressional consent requirement for amendments made to the provision relating to community-based governance on Hawaiian home lands.

Your Committees received testimony in support of this measure from the Council for Native Hawaiian Advancement, Sovereign Councils of the Hawaiian Homelands Assembly, Nanakuli Hawaiian Homestead Association, Waianae Kai Homestead Community Association, and Papakolea Community Development Corporation. Your Committees received comments on this measure from the Department of Hawaiian Home Lands.

Your Committees find that this measure will allow the Department of Hawaiian Home Lands and the homestead associations to act without the obstacle of a congressional gridlock in order to implement the partnerships originally encouraged and intended by the Legislature.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2212 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (English, Solomon, Slom).

SCRep. 2380 (Joint) Hawaiian Affairs and Water, Land, and Housing on S.B. No. 2783

The purpose and intent of this measure is to:

- (1) Resolve all claims the Office of Hawaiian Affairs has asserted or raised, or could assert or raise, relating to the Office of Hawaiian Affairs' portion of income and proceeds from public land trust lands from November 7, 1978, up to and including June 30, 2012; and
- (2) Fulfill constitutional obligations to native Hawaiians by providing fee simple title to certain parcels of land situated in Kakaako makai to the Office of Hawaiian Affairs.

Your Committees received testimony in support of this measure from the Governor, Attorney General, Office of Hawaiian Affairs, a member of the Board of Trustees of the Office of Hawaiian Affairs, Department of Hawaiian Homelands, Kamehameha Schools, Association of Hawaiian Civic Clubs, Koolaupoko Hawaiian Civic Club, Oahu Council of the Association of Hawaiian Civic Clubs, South Kohala Hawaiian Civic Club, Na Lei Na'auao Native Hawaiian Charter Schools, Kanu O Ka Aina Learning Ohana, and ten individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the transfer of approximately \$200,000,000 worth of land located in Kakaako makai to the Office of Hawaiian Affairs constitutes a reasonable settlement of the Office of Hawaiian Affairs' longstanding claims to income and proceeds from the ceded lands. The property identified in this measure is virtually contiguous, suited for master planning, and located in an area of Honolulu that is already experiencing significant redevelopment. Your Committees recognize the value of these attributes and believe that property values could be enhanced by certain entitlements that, while not specifically provided for in this measure, could be obtained at a future date. The Office of Hawaiian Affairs may choose to work with the Hawaii Community Development Authority, the Public Land Development Corporation, or other entities to obtain entitlements, develop these ceded lands, or both.

The Office of Hawaiian Affairs, Governor, and Attorney General agree that certain disputes relating to the Office of Hawaiian Affairs' portion of ceded land receipts from the period November 7, 1978, through June 30, 2012, need to be resolved. This measure was drafted jointly by the Attorney General and the Office of Hawaiian Affairs, and introduced in the Legislature at the request of the Governor. The Office of Hawaiian Affairs testified in support of this measure, and testified that it is nearing completion of a comprehensive review of the property that this measure proposes to transfer.

Your Committees find that resolution of the decades-long dispute that has plagued state government and the Office of Hawaiian Affairs will have a positive impact on the Office of Hawaiian Affairs' beneficiaries and state government. The lands identified in this measure will provide a revenue stream to fund the Office of Hawaiian Affairs' services to its beneficiaries, while creating jobs and funding valuable programs in every corner of the State.

Your Committees further find that this measure is replete with significance for the people of Hawaii's host culture. In the future, transfer of the management and control of the Kakaako makai lands identified in this measure to the sovereign native Hawaiian entity, upon its recognition by the United States, may be appropriate. This measure not only impacts native Hawaiians in the immediate future, but also opens doorways to future reconciliation between the State and the native Hawaiian people.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2783 and recommend that it pass Second Reading and be referred to the Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 4 (Fukunaga, Hee, Slom, Tokuda).

SCRep. 2381 (Joint) Hawaiian Affairs and Water, Land, and Housing and Energy and Environment on S.B. No. 2792

The purpose and intent of this measure is to support programs funded through the Native Hawaiian rehabilitation fund by allocating to the fund a portion of geothermal royalties and revenue from public land dispositions to renewable energy producers.

Your Committees received testimony in support of this measure from the Department of Hawaiian Homelands, Sovereign Councils of the Hawaiian Homelands Assembly, and six individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and County of Hawaii Planning Department.

Your Committees find that funding to advance the purposes of the Hawaiian Homes Commission Act, 1920, as amended, has declined sharply. Programs affected by this decline in funding include higher education scholarships, financial literacy training and counseling, agricultural and pastoral technical assistance, and grants for Hawaiian homestead communities. The benefits of the transfer of payments proposed in this measure outweigh the negative impacts, if any, on existing programs or agencies.

Your Committees have amended this measure by:

- (1) Limiting the deposit of only those geothermal royalties collected by the State pursuant to sections 182-7 and 182-18, Hawaii Revised Statutes, from mining leases executed after July 1, 2012, into the Native Hawaiian rehabilitation fund;
- (2) Substituting the reference to a “renewable energy producer” in section 171-95, Hawaii Revised Statutes, with “nongeothermal renewable energy producer”, which exempts revenue from a public land disposition to a geothermal renewable energy producer from payment to the Department of Hawaiian Home Lands;
- (3) Leaving unspecified the percentage share of revenue from a disposition to a nongeothermal renewable energy producer to be paid to the Department of Hawaiian Home Lands, rather than requiring the Department of Hawaiian Home Lands’ share to be thirty percent;
- (4) Leaving unspecified the percentage share of geothermal resources royalties to be paid to a county in which geothermal resource mining occurs, rather than requiring the county’s percentage share to be not less than twenty percent;
- (5) Changing the Department of Hawaiian Home Lands’ share of royalties from geothermal resources from twenty percent to an unspecified percentage of all royalties, and conditioning receipt of those royalties on the receipt of an unspecified percentage of all state royalties by the county in which the mining operations are situated;
- (6) Leaving unspecified the rate of payment to the State for the use of geothermal resources, rather than requiring the rate to be no less than twelve percent of the gross amount or value of the geothermal resources produced under the lease;
- (7) Clarifying that the measure does not diminish the Office of Hawaiian Affairs’ pro rata portion of the public trust lands; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2792, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2792, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 6 (Fukunaga, Green, Hee, Kahele, Slom, Tokuda).

SCRep. 2382 (Joint) Commerce and Consumer Protection and Economic Development and Technology on S.B. No. 2419

The purpose and intent of this measure is to allow the scanning and retention of personal information contained in a certificate of identification or driver’s license for only limited purposes.

Your Committees received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, City and County of Honolulu Department of Customer Services, Retail Merchants of Hawaii, and American Civil Liberties Union of Hawaii. Your Committees received comments on this measure from the Consumer Data Industry Association, AT&T, and one individual.

Your Committees find that a frequently used source of identity theft is information contained on an individual’s identification card or driver’s license. Because identify theft can have lasting negative repercussions on the life of the person whose identity is stolen, it is important to minimize the widespread use of this personal information.

Your Committees further find that a balance must be obtained by entities that lawfully use an individual’s personal information. Responsible entities must respect and protect an individual’s personal information while complying with state and federal laws and regulations that govern the collection of this information.

Your Committees have amended this measure by:

- (1) Moving the language for the new section contained in this measure from chapter 487R, Hawaii Revised Statutes, to the more appropriate chapter 487J, Hawaii Revised Statutes, and amending the title of chapter 487J accordingly;
- (2) Clarifying the forms of identification subject to this measure by changing references to a “certificate of identification” to a “Hawaii identification card” and deleting the definition for “certificate of identification”;
- (3) Clarifying the entities that may scan the machine-readable zone of an individual’s Hawaii identification card or driver’s license;
- (4) Limiting certain entities from retaining or using any scanned information except for specified purposes and setting a time frame for retention of this scanned information;
- (5) Deleting the proposed penalty language, as penalty provisions already exist in chapter 487J, Hawaii Revised Statutes;

- (6) Adding a definition of “scan”; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2419, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2419, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 8, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Galuteria).

SCRep. 2383 Human Services on S.B. No. 3057

The purpose and intent of this measure is to:

- (1) Establish a rebuttable presumption that a custodial parent’s decision regarding visitation is in the best interests of the child; and
- (2) Require the Family Court to consider various factors in awarding parental visitation rights.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Family Law Section of the Hawaii State Bar Association and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the amendments proposed by this measure would determine visitation rights between a custodial and non-custodial parent. Your Committee understands the concerns that these amendments may allow a custodial parent in a child custody dispute to control the non-custodial parent’s visitation rights. This may result in custody battles between parents that are not in a child’s best interest. Your Committee also understands the concern regarding a potential unfair presumption in favor of a custodial parent. Your Committee therefore concludes that amendments addressing these issues are necessary.

Your Committee also notes that the Department of the Attorney General has raised concerns that this measure’s title, “Relating to Child Custody”, may not encompass the subject matter of this measure, which addresses child visitation.

Your Committee has amended this measure by:

- (1) Deleting language that established a rebuttable presumption that a custodial parent’s decision regarding visitation is in the best interests of the child and deleting language that set out factors for the Family Court to consider when determining parental visitation rights;
- (2) Establishing a rebuttable presumption that joint custody should be awarded if certain factors exist;
- (3) Adding language to permit the Family Court to award reasonable visitation rights for the grandparents of a minor child if denial of reasonable visitation rights would cause significant demonstrable harm to the child;
- (4) Adding language to establish a rebuttable presumption that a parent’s decision regarding grandparent visitation is in the best interests of a child and setting forth additional factors for the Family Court to consider when awarding grandparent visitation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3057, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2384 Human Services on S.B. No. 2404

The purpose and intent of this measure is to establish:

- (1) An offense of excessive discipline of a minor under the age of eighteen years if the person causes bodily injury, serious bodily injury, or substantial bodily injury in the course of disciplining a minor by the use of certain objects; and
- (2) First, second, and third degree assault penalties, depending on severity of injury to the minor.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Prevent Child Abuse Hawaii; and one individual. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that establishing a specialized offense for excessive discipline of a minor would be a deterrent for child abuse and provide greater protection for Hawaii’s children. Moreover, correlating the level of offense to the level of injury inflicted on the child would require prosecutors to obtain a doctor’s opinion as to the severity of the injuries before a felony could be charged. This requirement would mirror felony assault statutes that have similar requirements.

Your Committee has considered recommendations to strengthen the effectiveness of this measure and amended this measure accordingly, by:

- (1) Clarifying the state of mind for the separate offenses, as:

- (A) Assault in the first degree if a person knowingly or intentionally causes serious bodily injury to a minor;
 - (B) Assault in the second degree if a person recklessly causes substantial bodily injury to a minor; and
 - (C) Assault in the third degree if a person negligently causes substantial bodily injury to a minor.
- (2) Adding language to delete provisions, from section 703-309, Hawaii Revised Statutes, relating to justifiable use of force by a parent or guardian or other person similarly responsible for the general care and supervision of a minor, or a person acting at the request of the parent, guardian, or other responsible person; and
 - (3) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2404, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2385 (Joint) Water, Land, and Housing and Energy and Environment on S.B. No. 2782

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for the immediate protection of priority watershed forests to replenish Hawaii's water supplies and provide many other fundamental benefits to Hawaii's environmental health.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Land and Natural Resources, City and County of Honolulu Board of Water Supply, County of Maui Department of Water Supply, West Maui Mountains Watershed Partnership, Sierra Club, National Tropical Botanical Garden, The Nature Conservancy, Coordinating Group on Alien Pests Species, League of Women Voters, Conservation Council for Hawaii, Maui Invasive Species Committee, Good Shepherd Foundation, The Trust for Public Land, Castle & Cooke Resorts, Alexander and Baldwin, Maui Land & Pineapple Company, Hawaii Farm Bureau Federation, and sixty-seven private individuals.

Your Committees find that maintaining the supply of efficient quantities of water is a challenge due to numerous threats to the water supply, including population increase, climatic conditions, declining rainfall, loss of habitats, and forest-linked water recharge.

Forests are essential to providing water by absorbing moisture from rainfall and passing clouds that condense on thick vegetation and can increase groundwater supply by fifty percent. However, over half of our forests have been lost to invasive species. Your Committees find that the Department of Land and Natural Resources watershed program supports public-private partnerships to leverage state funds and provide a diverse range of local jobs. However, funding for these efforts is not sufficient and forest losses continue. Your Committees urge the Department of Land and Natural Resources to consider all available funding resources, including the deposit beverage container deposit special fund.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$5,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2782, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2782, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Solomon).

SCRep. 2386 (Joint) Water, Land, and Housing and Hawaiian Affairs on S.B. No. 2923

The purpose and intent of this measure is to rehabilitate the natural populations of all Hawaiian opihi species and establish a new direction for the management of the fishery. Specifically, this measure:

- (1) Establishes a ban on taking or harvesting opihi statewide, subject to open and closed seasons, bag limitations, and traditional Native Hawaiian gathering rights; and
- (2) Establishes a five-year moratorium on the harvesting of opihi on Oahu.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; the Office of Hawaiian Affairs; and three private individuals. Testimony in opposition to this measure was submitted by the Kuakini Hawaiian Civic Club of Kona; Tamashiro Market, Inc.; and two private individuals.

Your Committees find that opihi picking is a dangerous activity. "*He i'a make ka 'opihī*" means "opihī is the fish of death". A review conducted by the Department of Health reported that from 1993 to 1997, nine people drowned while picking opihi. On the Big Island alone between 1999 and 2009, at least thirteen opihi pickers died from drowning, falls from cliffs, or in one case, getting stuffed into a blowhole by waves.

Your Committees further find that despite the dangers of this activity, opihi is a delicacy that holds great cultural importance. As such, opihi populations are dwindling due to popularity and overharvesting. The breeding of adult opihi needs to be protected to ensure opihi populations will replenish themselves. Opihi have free swimming larvae that can disperse from the no take areas into

areas where harvesting is legal. However, Oahu requires more drastic actions to rehabilitate its opihi populations due to overharvesting.

Your Committees have amended this measure by:

- (1) Clarifying that the taking, harvesting, and possessing of opihi from the off-shore islets is prohibited;
- (2) Removing the provision that prohibits any person from simultaneously possessing live opihi, an underwater seeing or breathing apparatus, and an instrument commonly used as a tool to harvest or take opihi;
- (3) Changing the closed season dates for taking and harvesting opihi from above the waterline of the coastal areas or nearshore waters of the State, to align with opihi spawning times;
- (4) Clarifying that the bag limit for harvesting opihi applies to persons harvesting for non-commercial purposes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2923, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2923, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Ayes, 8, Ayes with Reservations (Slom). Noes, none. Excused, 4 (English, Fukunaga, Kahele, Tokuda).

SCRep. 2387 (Joint) Water, Land, and Housing and Agriculture on S.B. No. 3072

The purpose and intent of this measure is to transfer title to the Waiahole Valley Agricultural Park and residential lots subdivision from the Hawaii Housing Finance and Development Corporation to the Department of Agriculture.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau Federation and the Hawaii Housing Finance and Development Corporation. Your Committees received testimony in opposition to this measure from the Department of Agriculture.

Your Committees find that the Hawaii Community Development Authority adopted a resolution stating that the Waiahole Valley be developed as a farming community and that viable agricultural lands would be developed to its fullest potential. However, the current owners of the Waiahole Valley Agricultural Park and residential lots subdivision, the Hawaii Housing Finance and Development Corporation, does not have the expertise in agriculture or agricultural lands.

Your Committees further find that the Agribusiness Development Corporation is a more appropriate state agency to develop Waiahole Valley Agricultural Park to its fullest potential. Accordingly, this measure has been amended by:

- (1) Transferring the land to the Agribusiness Development Corporation, rather than the Department of Agriculture; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3072, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3072, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Chun Oakland, Fukunaga, Tokuda).

SCRep. 2388 Human Services on S.B. No. 2314

The purpose and intent of this measure is to:

- (1) Establish the offense of financial and economic exploitation of a dependent elder and accompanying penalties;
- (2) Require financial institutions to report suspected financial abuse to the Adult Protective Services and proper local law enforcement agencies; and
- (3) Require two signatures of unrelated persons as witnesses to the execution of a power of attorney for health care.

Your Committee received testimony in support of this measure from the Judiciary, State of Hawaii; the Division of Financial Institutions, Department of Commerce and Consumer Affairs; the Department of Human Services; the Department of the Prosecuting Attorney, City and County of Honolulu; the Hawaii Credit Union League; Healthcare Association of Hawaii; and three individuals. Your Committee received comments on this measure from the Hawaii Bankers Association.

Your Committee finds that there have been an increasing number of cases involving financial exploitation of the elderly not only by caregivers, but by acquaintances, friends, and family members. Financial crimes against the elderly can take many forms, and can be just as devastating as physical injuries, leaving victims isolated, vulnerable, and scared.

Your Committee finds that this measure limits the protections offered to dependent elders because the offense of financial and economic exploitation of a dependent elder only applies if committed by a caregiver. Given the unfortunate fact that this type of financial and economic exploitation is often committed by acquaintances, friends, and family members of dependent elders, your Committee finds that these acts committed by any person should constitute the offense.

Your Committee also received testimony from the Division of Financial Institutions indicating that the reporting requirements for financial institutions may be overly burdensome.

Your Committee has therefore amended this measure by:

- (1) Expanding the scope of potential violators of the offense of financial and economic exploitation of a dependent elder to any person, not just caregivers, who performs or fails to perform certain acts, and deleting the definition of “caregiver”;
- (2) Streamlining the elements of the offense;
- (3) Amending the definition of “elder” to be any person sixty-two years of age or older;
- (4) Requiring financial institutions to report suspected financial abuse to the appropriate police department by telephone immediately, and by written report via electronic mail immediately or as soon thereafter as practically possible;
- (5) Amending language to require financial institutions to report suspected financial abuse to appropriate police departments, rather than the Department of Human Services;
- (6) Deleting language that requires the Department of Human Services to determine whether it has jurisdiction over an elder suspected of financial abuse and language that requires the Department to notify the proper local law enforcement agency;
- (7) Deleting the definition of “department”, in section 412:3-114.5, Hawaii Revised Statutes; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that the Hawaii Bankers Association, the Hawaii Credit Union League, the Department of Human Services, and local police departments work collectively to develop a common reporting form and process for financial institutions to use to enhance consistent, efficient, and timely reporting.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2314, S.D. 1, and be referred to the Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2389 Human Services on S.B. No. 2123

The purpose and intent of this measure is to establish and appropriate funds for a program within the Office of Community Services to provide services, in coordination with other relevant state agencies, to survivors of human trafficking.

Your Committee received testimony in support of this measure from the Department of Human Services, the Department of Labor and Industrial Relations, Equality Now, the Hawaii Catholic Community, the Hawaii Coalition Against Domestic Violence, IMUAlliance, the Pacific Alliance to Stop Slavery, the Polaris Project, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu and the Harm Reduction Hawaii, and one individual. Your Committee received comments on this measure from the Office of Community Services, Department of Labor and Industrial Relations.

Your Committee finds that although the State has established programs that provide an array of services for victims of human trafficking, there appears to be a gap in service provided for an individual who is pending certification as a victim of a severe form of trafficking until approved by the federal government. This measure will alleviate the current gap in service for those waiting for certification by proposing a comprehensive plan coordinating relevant state-funded programs.

Your Committee notes that according to the testimony of the Department of the Prosecuting Attorney of the City and County of Honolulu, this measure, as currently drafted, imposes reporting requirements and requires sharing of confidential information between law enforcement agencies and the prosecuting attorneys offices that may be inappropriate, harmful, or possibly illegal. Your Committee also notes that establishing a program to provide services for survivors of human trafficking program under a single agency may be premature.

Your Committee has therefore amended this measure by:

- (1) Deleting its contents and inserting language to establish a working group within the Department of the Attorney General to develop a comprehensive state plan to coordinate services for survivors of human trafficking in new and existing communities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2123, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2390 Human Services on S.B. No. 2608

The purpose and intent of this measure is to allow Supplemental Nutrition Assistance Program benefits to be used to purchase hot food from lunch counters and lunch wagons, and fresh foods from farmers markets.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services and one individual. Your Committee received comments on this measure from the Hawai'i Dietetic Association, the Office of Hawaiian Affairs, and nine individuals.

Your Committee finds that many low-income households do not have access to facilities to prepare meals, store fresh foods, and plan and create nutritious meals. Although allowing low-income households to use Supplemental Nutrition Assistance Program benefits for the purchase of hot meals served at lunch counters, lunch wagons, or food vending trucks may increase this population's access to hot food, these meals are not nutritious and actually promote unhealthy lifestyles.

Your Committee further finds that per Supplemental Nutrition Assistance Program regulations, recipients are not allowed to use the program's benefits to purchase hot or prepared meals unless a state elects to operate a restaurant meals program for qualified elderly, disabled, and homeless persons. From 1992 to 1998, Hawaii administered such a program, but discontinued the program due to complaints of abuse and a lack of staff to adequately monitor the program.

Your Committee has therefore amended this measure by:

- (1) Deleting language that authorizes the use of Supplemental Nutrition Assistance Program benefits to purchase hot food from lunch counters and lunch wagons, and fresh staple foods from farmers markets; and
- (2) Adding language requiring the Department of Human Services to submit a report to the Legislature no later than twenty days prior to the convening of the 2013 Regular Session that includes:
 - (A) The prospective homeless, elderly, or disabled population eligible to use Supplemental Nutrition Assistance Program benefits; and
 - (B) The feasibility of re-administering and overseeing a restaurant meals program to allow the use of the benefits to purchase hot or prepared meals at designated restaurants or facilities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2608, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2608, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2391 Economic Development and Technology on S.B. No. 2111

The purpose and intent of this measure is to:

- (1) Increase the motion picture, digital media, and film production income tax credit to twenty-five percent of qualified production costs for any county with a population over 700,000 and thirty percent of qualified production costs for all other counties;
- (2) Increase the total tax credit cap to \$16,000,000;
- (3) Apply to qualified production costs incurred on or after January 1, 2012, and before January 1, 2027; and
- (4) Repeal the Act on January 1, 2027.

Your Committee held a hearing on this measure on February 6, 2012, and subsequently posted a proposed S.D. 1, for a hearing on February 13, 2012. As amended, this measure:

- (1) Establishes the minimum expenditure for a qualified digital media production at \$50,000;
- (2) Requires from fifty to seventy-five percent of production cast and crew positions to be filled by a legal resident of the State;
- (3) Authorizes the Director of Taxation to revoke or modify the eligibility for the production tax credit, establish grounds for forfeiture of the tax credit, and establish a penalty for submission of fraudulent information;
- (4) Requires the Department of Business, Economic Development, and Tourism to report annually on the return on investment and economic benefits of the tax credit to the State;
- (5) Adds definitions of "legal resident", "production expenditures", "qualified digital media project", and "qualified expenditures", and deletes the definition of "qualified production costs";
- (6) Incorporates language from S.B. No. 2462, to establish a motion picture, digital media, and film production infrastructure tax credit of fifty percent of qualified productions costs;
- (7) Requires the expenditure of at least \$10,000,000 in qualified infrastructure costs;
- (8) Provides for an annual payment to the Hawaii Film Office equal to one percent of the tax credit received by the taxpayer;
- (9) Provides for a 100 percent recapture of the tax credit if the infrastructure project ceases to meet the requirements of a qualified infrastructure project; and
- (10) Makes the infrastructure tax credit applicable to taxable years beginning after December 31, 2011.

Your Committee received testimony in support of this measure from Blue Water Multimedia, LLC; Cinderscape L.L.C.; International Game Developers Group; Island Film Group; Hyperspective Studios, Inc.; 1001 Stories LLC; Hawaii Media Inc.; SHM Partners/Film Studio Group; and two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and the Mayor of Maui County.

Your Committee finds that the success of the Act 88, Session Laws of Hawaii 2006, film and television production credits in generating increased production activity in Hawaii provides the State with an opportunity to evaluate the cost benefits of the Act 88 credits in comparison with actions taken by other jurisdictions to stimulate film and digital media production activity, as well as identifying the best practices among other state and international production venues.

As such, your Committee notes that Act 88 production credits have raised the level of qualified production expenditures in Hawaii to an unprecedented level of \$383,520,000 in 2010, and over \$1,200,000,000 during the period 2006-2011, and should be lauded for establishing a benchmark for the local film and television industry. It is now appropriate to evaluate the level of direct and indirect benefits to the State that have been realized through use of these credits since 2006.

Your Committee finds that, during the period 2006-2011, the costs of the Act 88 production credits exceeded the tax revenue gains reported by the Department of Business, Economic Development, and Tourism in the following years: in 2010, when qualified expenditures were \$383,520,000, the estimated cost of the credits was \$47,890,000 as compared with an estimated \$34,520,000 in tax revenue gains; and in 2011, when qualified expenditures were \$184,070,000, the cost of the credits was \$20,050,000 as compared with an estimated \$16,570,000 in tax revenue gains. For the six-year period from 2006-2011, the Department of Business, Economic Development, and Tourism's estimate of the costs of the credits was \$122,590,000 as compared with an estimated \$113,740,000 in tax revenue gains.

During this six-year period, the numbers of full-time equivalent jobs directly related to Act 88 activity rose from 458 in 2006, to 3,696 in 2010, and 1,631 in 2011. However, data compiled from a number of sources make it difficult to quantify the exact numbers of full-time equivalent jobs being created through use of Act 88 credits, and your Committee believes that a consistent set of measurements for job growth reporting would aid in the evaluation of state benefit.

Your Committee further notes that the Act 88 production credits currently require a shared-card, end-title screen credit, where applicable; evidence of reasonable efforts to hire local talent and crew; and financial or in-kind contributions to educational or workforce development efforts. Educational or workforce contributions required under the existing Act 88 production credits are identified as the lesser of 0.1 percent of a production's "qualified production costs" or \$1,000 to a Hawaii public or charter school in terms of financial contribution, or in-kind equipment or educational programs; a minimum of one on-set craft apprenticeship with a local labor organization; or participation in a film-related seminar organized by the Hawaii Film Office. The Department of Business, Economic Development, and Tourism has estimated that \$80,000 to \$150,000 in direct financial or in-kind contributions, seminars, and paid or unpaid internships have been provided to public and private and charter schools and University of Hawaii students since 2006.

Your Committee is strongly supportive of efforts to hire local residents for Hawaii's film and digital media industry. Currently, forty states and Puerto Rico offer motion picture incentives, including tax credits, rebates and exemptions. Twenty-one of these jurisdictions either have a local hire requirement in order to receive the incentive or have an increased award for hiring local residents. Five states – Colorado, Florida, Indiana, Minnesota, and Texas – have a local hire requirement in order to receive the incentive. In Colorado for example, at least twenty-five percent of the workforce must be Colorado residents in order for a project to meet state incentive guidelines, and in Texas, seventy percent of the cast and crew must be Texas residents unless it is determined and certified by the Texas Film Commission that a sufficient number of qualified cast and crew are not available. In addition, fifteen states and Puerto Rico offer a supplementary award for hiring local residents.

Based on recommendations from experienced film and digital media industry developers, your Committee therefore posted a proposed S.D. 1 incorporating the same local hiring requirements that the State of Florida has utilized with its entertainment industry financial incentive program for further comment. The amendments adopted by your Committee therefore reflect a first step toward utilizing specific local hire requirements to increase the range of film and digital media jobs created by enhanced production credits, and to require annual reporting on the job creation and wages and salaries paid to such residents. By doing so, your Committee seeks to provide state agencies, policymakers, and Hawaii taxpayers with accurate measures of the cost benefits of tax credits used to develop Hawaii's emerging film and digital media industry.

Your Committee further finds that enhancement of the State's Act 88 credits offer an opportunity to leverage current state marketing efforts to achieve promotional or marketing opportunities far exceeding the dollar expenditure of the promotions. As a result, films such as "The Descendants" and "Pirates of the Caribbean", or television series such as "Hawaii 5-0" or "Lost" can and have already yielded promotional impacts far beyond the level of traditional spending by the Hawaii Tourism Authority and its local, national, and international marketing vendors.

Your Committee has further amended this measure by:

- (1) Expanding the purpose section to highlight the successes of Act 88, Session Laws of Hawaii 2006, and focus Hawaii's motion picture, digital media and film production credits on creating quality jobs for Hawaii residents and students;
- (2) Establishing the Hawaii film and digital media special fund; and repealing part IX, chapter 201, Hawaii Revised Statutes, relating to Hawaii television and film development;
- (3) Replacing the tax credit percentages and tax credit caps with unspecified amounts;
- (4) Clarifying that the annual reports shall include an estimate of the full-time equivalent positions for legal residents of this State and aggregate wages and salaries paid for positions created by each production or project;
- (5) Clarifying that "production expenditures" means the expenditures incurred by a qualified production within the State that are subject to the general excise tax under chapter 237, Hawaii Revised Statutes, or income tax under chapter 235, Hawaii Revised Statutes, and that have not been financed by any investments for which a credit was or will be claimed pursuant to section 235-110.9, Hawaii Revised Statutes;
- (6) Adding a definition of "qualified independent and emerging media project";

- (7) Replacing an annual payment to the Hawaii Film Office equal to one percent of the tax credit received by the taxpayer with an annual payment to the State equal to fifteen percent of the qualified infrastructure project's taxable income until such time as the credit has been repaid;
- (8) Making the infrastructure tax credit applicable to taxable periods beginning after June 30, 2012;
- (9) Repealing the infrastructure tax credit on January 1, 2027;
- (10) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2111, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2392 (Joint) Economic Development and Technology and Water, Land, and Housing on S.B. No. 2678

The purpose and intent of this measure is to appropriate \$100,000 for fiscal year 2012-2013 to the Department of Land and Natural Resources to preserve and develop the internment camp site in the Honouliuli district.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Civil Rights Commission, Historic Hawaii Foundation, Japanese Americans Citizens League, Japanese Cultural Center of Hawaii, and two individuals.

Your Committees find that until recently, little was known about the location of World War II Japanese internment camps in Hawaii, and many people were unaware that any internment camp sites remained in the State. The Japanese Cultural Center of Hawaii began researching these sites over ten years ago in an effort to determine where these camps were located and what, if any, evidence of them remains. Various archaeological surveys determined the location, significance, historic properties, and area boundary of the Honouliuli site and after conducting an archaeological survey of the former internment camp site, the Honouliuli site was designated on the Hawaii Register of Historic Places in 2009.

Your Committees further find that the Japanese Cultural Center of Hawaii has been working with various organizations including Historic Hawaii Foundation, the University of Hawaii, the State Historic Preservation Division, the National Park Service, and others to identify, preserve, and interpret the Japanese internment camp experience in Hawaii. Your Committees understand that the National Park Service has awarded grant money to Hawaii-based organizations to fund work to preserve and interpret Japanese internment camp sites throughout the State, these efforts would be expanded with additional leadership and support from the State of Hawaii. Should the site be designated as part of the National Park System, it will be incumbent upon the State of Hawaii to take an active role in supporting the collection, preservation, and organization of educational resources that will help bring the history of Hawaii's wartime experience to life for residents and visitors.

Your Committees have amended this measure by:

- (1) Making clarifying amendments to the purpose section;
- (2) Requiring the Department of Land and Natural Resources to establish a Honouliuli Park Site Project Advisory Group to develop recommendations to leverage county, state, federal, and private funding for an educational resource center at the Honouliuli site;
- (3) Requiring the Advisory Group to work with the Japanese Cultural Center of Hawaii, Japanese American Citizens League, University of Hawaii at West-Oahu, historians, and other interested stakeholders, including business, veteran, community, legislative, and other organizations, and to complement the Japanese Cultural Center of Hawaii's goal of designating the Honouliuli internment-prisoner of war camp site and associated sites within Hawaii as part of the United States National Park Service;
- (4) Requiring the Advisory Group to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2013; and
- (5) Depositing the \$100,000 general fund appropriation into the Hawaii historic preservation special fund, with the monies to be expended to accelerate the collection, preservation, and organization of resources related to the World War II internment experience in Hawaii.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2678, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2678, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Tokuda).

SCRep. 2393 (Joint) Economic Development and Technology and Tourism on S.B. No. 3050

The purpose and intent of this measure is to:

- (1) Assign to the Hawaii Tourism Authority the responsibilities for film, television, digital, and new media development; and

(2) Repeal the film industry activities within the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Tourism Authority; and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Film & Entertainment Board, Screen Actors Guild, International Alliance of Theatrical State Employees (IATSE) Mixed Local 665, American Federation of Musicians (AFM) Local 677, and Hawaii Teamsters Local 996. Your Committees received comments from the Department of Taxation and Department of Human Resources Development.

As the State evaluates the cost-benefits of the film and television production credits under Act 88, Session Laws of Hawaii 2006, your Committees find that a number of other jurisdictions have leveraged their investments in film, television, and digital media production with increased emphasis on the benefits of film-related tourism.

For example, New Mexico's widely discussed economic impacts study, "Economic and Fiscal Impacts of the New Mexico Film Production Credit" (January 2009), found that the benefits of its film production tax credit program extended beyond the direct and indirect economic impacts of film production expenditures. The state's economy also benefitted from capital investment to support the film industry's growth in the state and additional film-related tourism – with fifty-eight percent of the total number of direct and indirect jobs being generated from capital expenditures and film-related tourism. The combined economic activity created by the film production tax credit program also resulted in higher state and local tax collections. In 2011, the State of Georgia also identified film-related tourism spending as having contributed toward positive economic impacts that exceeded the costs of its production credits.

Your Committees further find that this measure provides a structure to optimize the development of the tourism and the film, television, digital, and new media industries by pooling diverse and fragmented resources to market and nurture their growth. It will do so by creating a sound base that can be built upon to develop the programs and infrastructure to expand Hawaii's opportunities in film, television, digital, and new media.

Your Committees have heard the concerns raised by a number of stakeholders regarding the most appropriate home for the State's film, television, digital, and new media activities and enhancements in support of the industry. While this measure does not address all those concerns, many of them have been addressed in S.B. No. 2111, S.D. 1, which substantially amends the provisions of Act 88, Session Laws of Hawaii 2006, related to tax enhancements for the film, television, digital, and new media industry.

Your Committees believe that providing alternatives for discussion and consideration throughout the legislative process will result in a more collaborative and comprehensive means of ensuring the growth of the film, television, digital, and new media industry.

Your Committees have amended this measure by:

- (1) Requiring the Hawaii Tourism Authority to restructure the debt service for state obligations related to the Hawaii Convention Center and fund the implementation of the film, television, digital, and new media development activities for fiscal year 2012-2013 and fiscal year 2013-2014 from the savings from any debt restructuring;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees understand that the Hawaii Tourism Authority and the Department of Budget and Finance are in discussions regarding the restructuring of the debt service for state obligations related to the Hawaii Convention Center, and the subsequent use of the savings to fund the implementation of the film, television, digital, and new media development activities. Your Committees look forward to further updates on this critical matter.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3050, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3050, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Kouchi, Slom).

SCRep. 2394 (Joint) Water, Land, and Housing and Judiciary and Labor on S.B. No. 3028

The purpose and intent of this measure is to:

- (1) Ban the unlicensed destruction or harvesting of native sandalwood trees and establish penalties for violations;
- (2) Ban the export of raw or unprocessed sandalwood timber; and
- (3) Establish the Department of Land and Natural Resources' duties regarding protection of sandalwood.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Foundation for Islands of Harmony, and four individuals. Your Committees received testimony in opposition to this measure from JAWMIN LLC and two individuals. Your Committees received comments on this measure from the Hawaii Forest Industry Association and one individual.

Your Committees find that several species of sandalwood are endemic to Hawaii, meaning that they are found nowhere else in the world. Your Committees consequently find that immediate efforts to protect Hawaii's unique environment are critical in ensuring the continued future of Hawaii's rich biodiversity. Lastly, your Committees dedicate this measure to Iliahi Elementary School.

Your Committees have amended this measure by adopting language provided by the Department of Land and Natural Resources that will better enable the protection of other native forest resources that in the future may also be deemed in need of conservation.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3028, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3028, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, none.

SCRep. 2395 (Joint) Water, Land, and Housing and Judiciary and Labor on S.B. No. 2207

The purpose and intent of this measure is to ensure fair compensation is provided when public land leased for agricultural or pastoral uses is withdrawn, condemned, or taken for public purposes.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen's Council, Hawaii Farm Bureau Federation, Hawaii Aquaculture & Aquaponics Association, Hawaii Cattlemen's Association, and eight individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that this measure arises from actions taken by the Board of Land and Natural Resources in November 2008 to deprive beef cattle ranchers of portions of their leases of public lands. Previously, several of these ranchers had lost significant portions of their leases by the Board's actions. These ranchers received no compensation for takings of their lease other than a reduced lease. Infrastructure loss and a need to reduce their herd size resulted in detrimental losses, particularly to smaller ranchers. Your Committees find that rent reduction is insufficient compensation, and that this Act is necessary to provide more equitable relief to lessees of public lands from partial takings or condemnations where the lessee is prevented from using the lands as originally intended.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2207, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2207, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10, Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 2396 Energy and Environment on S.B. No. 2822

The purpose and intent of this measure is to:

- (1) Create a recycling program for all electrically powered consumer products; and
- (2) Repeal the Electronic Waste and Television Recycling and Recovery Act.

Your Committee received testimony in support of this measure from the Department of Health, Sierra Club Hawaii Chapter, and one individual. Your Committee received testimony in opposition to this measure from the Custom Electronic Design & Installation Association, Equipment Leasing and Finance Association, Association of Home Appliance Manufacturers, Retail Merchants of Hawaii, Hawaiian Telcom, Hawaiian Hope, and one individual. Your Committee received comments on this measure from the County of Hawaii Department of Environmental Management, Consumer Electronics Association, Tax Foundation of Hawaii, Sims Recycling Solutions, Covanta Energy Corporation, and one individual.

Your Committee finds that proper waste handling and recycling of valuable materials is vital to protecting the health and welfare of the people of Hawaii and building a green economy. While the goals of this measure are laudable, many testifiers questioned the feasibility of implementing this measure in its current form. The effects of a government recycling program are complex and resonate across different sectors of society and various industries, as Hawaii has experienced with its fledgling Electronic Waste and Television Recycling Act. Your Committee believes that the type of recycling program proposed in this measure warrants further study and consideration by stakeholders constituting a diverse coalition of interests.

Your Committee has amended this measure by replacing language that:

- (1) Creates a recycling program for all electrically powered consumer products;
- (2) Repeals the Electronic Waste and Television Recycling and Recovery Act;
- (3) Transfers monies from the electronic device recycling fund to the electric device recycling fund; and
- (4) Authorizes the Department of Health to hire necessary personnel for its recycling program,

with language that creates a Hawaii electric device recycling task force composed of a diverse group of interested stakeholders and led by the Department of Health.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2822, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2822, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (English).

SCRep. 2397 (Joint) Human Services and Health on S.B. No. 2248

The purpose and intent of this measure is to:

- (1) Require the Hawaii Paroling Authority and the Department of Public Safety to establish a medical release program for inmates who are permanently and totally disabled, terminally ill, or geriatric and pose no public safety risk;
- (2) Request the Department of Public Safety to assess and refer inmates to the Hawaii Paroling Authority; and
- (3) Set conditions for medical release.

Your Committees received testimony in support of this measure from the Department of Public Safety, the Hawaii Paroling Authority, and two individuals. Your Committees received testimony in opposition to this measure from the Community Alliance on Prisons and one individual. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that a medical release program, also known as a compassionate release program, is designed to ensure that prisoners who are terminally ill are no longer punished through imprisonment. The medical release program can also help states address the growing costs of keeping inmates imprisoned. Your Committees also find that without a well-developed program with defined policies and processes, many inmates will die in prison without the medical services they need even though they no longer pose a threat to society.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting language to establish a compassionate release program that is substantively similar to the medical release program, with notable differences from the medical release program that include the following:
 - (A) The compassionate release program does not require convicted sex offenders to complete a sex offender treatment program in order to be eligible;
 - (B) The compassionate release program allows requests for compassionate release to be made by not only the Department of Public Safety but also the inmate; and
 - (C) The compassionate release program does not require a released inmate's physician to submit periodic assessments to the Hawaii Paroling Authority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2248, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2248, S.D. 1, and be referred to the Committee on Public Safety, Government Operations, and Military Affairs.

Signed by the Chair and Majority Leader on behalf of the Committees.

Ayes, 5, Ayes with Reservations (Slom). Noes, none. Excused, 3 (Baker, Ihara, Wakai).

SCRep. 2398 (Majority) Energy and Environment on S.B. No. 2823

The purpose and intent of this measure is to:

- (1) Increase the solid waste management surcharge; and
- (2) Clarify that the solid waste management surcharge applies to solid waste shipped outside the State for disposal and solid waste disposed of at waste-to-energy facilities.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii. Your Committee received comments on this measure from Schnitzer Steel Hawaii Corp.

Your Committee finds that the existing solid waste management surcharge is the main funding source for the Department of Health's solid waste regulatory program. Your Committee further finds that the operating costs for the solid waste management program have steadily increased over the years. The amendments proposed by this measure will help the Department of Health address the changing waste management field and provide continued funding for the solid waste management program.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 2 (English, Ihara).

SCRep. 2399 Judiciary and Labor on S.B. No. 3001

The purpose and intent of this measure is to prohibit the interisland transportation of live game or wild mammals.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, the Coordinating Group on Alien Pest Species, the Nature Conservancy, and one private individual.

Your Committee finds that the introduction of non-native species to the State has a negative effect on Hawaii's environment and indigenous species in a variety of ways, including the direct predation on indigenous species; the spread of pathogens and diseases; competition with native species for limited food resources; the destruction of native vegetation and habitats; and erosion. For example, Axis Deer are causing great damage to native habitats and agricultural crops on Maui and are a danger to vehicular traffic on roadways. While many introductions of non-native species are accidental, others may be purposeful. This measure provides a deterrent to the purposeful spread of animals within the State and establishes penalties for the interisland transportation of live game or wild mammals.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Department of Land and Natural Resources that:
 - (A) Replace references to “live game mammals or wild mammals” with “wild or feral mammals” to more precisely and appropriately specify the animal’s targeted by this measure;
 - (B) Clarify that the prohibition of interisland transportation of wild or feral mammals includes the intentionally, knowingly, or recklessly transferring, transporting, or releasing after transporting through interisland movement; and
 - (C) Define release as the freeing of an animal from effective confinement or restraint; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3001, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2400 Judiciary and Labor on S.B. No. 2487

The purpose and intent of this measure is to make abusive conduct against an employee in the workplace an occupational safety violation by:

- (1) Defining abusive conduct and an abusive work environment;
- (2) Including abusive conduct as a work injury for which workers’ compensation benefits may be paid;
- (3) Creating a private cause of action for emotional distress caused by:
 - (A) Another employee who is claiming to have made abusive conduct and the vicarious liability of the employer; or
 - (B) The employer who directly commits abusive conduct or whose workplace is an abusive work environment;
- (4) Establishing procedures for complaints, enforcement, judgment, and remedies for abusive conduct in the workplace; and
- (5) Requiring the Department of Labor and Industrial Relations to establish an education program for employers regarding abusive work environment and its legal consequences, and requiring employers to educate their employees accordingly.

Your Committee received testimony in support of this measure from the International Longshore and Warehouse Union Local 142 and five private individuals. Testimony in opposition to this measure was submitted by the Chamber of Commerce of Hawaii.

Your Committee finds that instances of bullying, abuse, and verbal harassment in the workplace caused by the abusive conduct of a coworker may cause employees to experience physical and psychological harm that may negatively impact their job performance and safety. Existing occupational safety and health laws obligate employers to provide a safe work environment. However, these laws do not provide for a safe work environment free from abusive conduct from employees. This measure provides protection against abusive conduct in the workplace as well as cause of action and remedies.

Your Committee appreciates the courage of two employees who appeared before your Committee to share their stories about the emotional distress they suffered as a result of their supervisor’s abusive conduct toward them. In 2008, they and two other coworkers filed a workplace violence complaint against their supervisor at the Department of Transportation and for a temporary restraining order to protect themselves in the event of retaliation. In lieu of the temporary restraining order, these employees were granted by the court a three-year mutual injunction against harassment. However, after the order was granted, the harassment continued for two more years. During this time, the employees sought assistance from the Department of Labor and Industrial Relations, but were told that because they were not considered part of any protected category, the Department was unable to provide them further assistance or redress. In 2010, these employees filed in circuit court a complaint against the Department of Transportation and their supervisor. The lawsuit was settled in 2011. The employees indicated to your Committee that settling their case was in their best interests because existing law did not provide them protection or redress. As such, your Committee recognizes the emotional distress these employees suffered as a result of the abusive conduct of their supervisor, and believes that this measure will provide safer work environments and better work productivity and efficiency.

Your Committee has amended this measure by:

- (1) Inserting the statutory contents of this measure as amendments to chapter 78, Hawaii Revised Statutes, rather than to chapter 396, Hawaii Revised Statutes, to make abusive conduct against a public employee by another public employee a workplace safety and health violation with oversight by the Department of Human Resources Development;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2487, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2487, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2401 (Joint) Water, Land, and Housing and Judiciary and Labor on S.B. No. 2856

The purpose and intent of this measure is to propose an amendment to article VII, section 12, of the Constitution of the State of Hawaii, to authorize the State to issue special purpose revenue bonds and use the proceeds from the bonds to assist dam and reservoir owners.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Budget and Finance; Hawaii Cattlemen's Council, Inc.; Maui Cattlemen's Association; Land Use Research Foundation of Hawaii; Ka'u Farm Bureau; Hawaii Farm Bureau Federation; Alexander & Baldwin, Inc.; and one individual.

Your Committees find that dams and reservoirs provide many public benefits and are a critical part of our State's infrastructure. Many of the dams and reservoirs in the State were constructed before 1940. This measure will provide dam and reservoir owners with a means to improve the safety of the dams and reservoirs in our State.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2856 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Tokuda).

SCRep. 2402 Water, Land, and Housing on S.B. No. 2933

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for the installation of eight swim zone buoys at Kamaole Beach.

Prior to the hearing on this measure, your Committee posted a draft S.D. 1, which amended this measure by:

- (1) Adding language to require the Department of Land and Natural Resources to adopt rules imposing stricter regulations for the safety of ocean users; and
- (2) Requiring the Department of Land and Natural Resources to report to the Legislature, no later than twenty days prior to the convening of the 2013 Regular Session, on the status of rule making and any other measures taken to promote the safety of ocean and beach users in the State's nearshore waters.

Your Committee received testimony in support of this measure from three Maui County Council Members and eight individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that increased recreational and commercial activities in Hawaii's nearshore waters have led to safety concerns and, in some cases, tragic results. In the last year alone, there have been two fatal boating accidents in the waters off of Maui and Lanai. Installing safety features such as swim zone buoys and requiring the Department of Land and Natural Resources to adopt rules imposing stricter ocean safety regulations will ensure greater ocean safety in highly populated areas of the State.

Your Committee has adopted the amendments in the draft S.D. 1, and has further amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2933, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2403 (Joint) Hawaiian Affairs and Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs on S.B. No. 3016

The purpose and intent of this measure is to require the Department of Public Safety to plan for a model wellness center that employs native Hawaiian cultural practices on state land and to submit a report to the Legislature prior to the 2013 Regular Session.

Your Committees received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, Papa Ola Lokahi, Community Alliance on Prisons, Drug Policy Forum of Hawai'i, and eight individuals. Comments were received from the Department of Land and Natural Resources.

Your Committees find that the most recent information on the use of drugs, alcohol, and tobacco reveals a disturbing rise in the use of these substances among the native Hawaiian population. Many studies conducted nationally and statewide show native Hawaiians to be at particularly high risk for substance abuse. Among students in the eighth and tenth grades, native Hawaiian children rank highest among all ethnic groups in the use of these substances. The studies also show that substance abuse starts at an early age.

Your Committees further find that a pu'uhonua, or wellness center, based on Hawaiian cultural practices will help the native Hawaiian community and the community at-large. Unquestionably, many high risk individuals need to be cared for in a much more sensitive intervention program that will address solutions that will alleviate their problems.

Your Committees have amended this measure by:

- (1) Adding a work release pilot program on the island of Hawaii under the Department of Public Safety to allow incarcerated individuals on the island of Hawaii to work on community projects on the island of Hawaii that benefit the local community and the State, if those individuals who would work outside a correctional facility as part of the work release pilot program pose no threat to public safety, as determined by the Director of Public Safety;

- (2) Requiring the Department of Land and Natural Resources to collaborate with the Department of Public Safety to identify any potential community projects on the island of Hawaii that could benefit from using incarcerated persons;
- (3) Authorizing the Department of Public Safety to provide for the shelter of incarcerated persons outside of a correctional facility while participating in the work release pilot program on the island of Hawaii; and
- (4) Allowing the Department of Public Safety to receive public and private grants for the purposes of the pilot program.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3016, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3016, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11, Ayes with Reservations (Slom). Noes, none. Excused, 3 (English, Fukunaga, Tokuda).

SCRep. 2404 (Joint) Water, Land, and Housing and Judiciary and Labor on S.B. No. 2524

The purpose and intent of this measure is to establish the Haiku Valley Cultural Preserve Commission that will have policy and management oversight of the Haiku Valley Cultural Preserve.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Koolaupoko Hawaiian Civic Club, Koolau Foundation, Kakoo Oiwi, and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that Haiku Valley is of significant cultural and historic importance to the State and its residents. Haiku Valley is renowned for its archaeological, cultural, and historic sites, including loi, sacred sites, and burial sites. Your Committees find that preserving the Valley's cultural and historic resources and educating the public about these resources is of paramount importance.

Your Committees further find that the Valley's fragmented ownership and limited stewardship have placed its cultural and historic resources at high risk. Ensuring adequate management of, and appropriate access to, the Valley has proven elusive and consequently, a commission is deemed necessary to provide a system that recognizes the Valley's unique challenges and preserves in perpetuity its cultural and historic resources for the people of Hawaii.

However, your Committees understand the Department of Land and Natural Resources' reservations. Upon further consideration, your Committees have amended this measure by adopting suggested amendments from the Department to:

- (1) Require the Commission to establish boundaries, excluding private lands;
- (2) Change the membership of the Commission by designating the Executive Director of the Koolau Foundation and the Administrator of the Office of Hawaiian Affairs as members;
- (3) Repeal the administrative violation system as the Board of Land and Natural Resources has no process in place to vet decisions of the Commission; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2524, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2524, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10, Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2405 (Majority) Water, Land, and Housing on S.B. No. 2366

The purpose and intent of this measure is to authorize the Public Land Development Corporation to designate development districts and allocate a percentage of general excise tax revenues collected in a development district to be used by the Corporation to pay principal and interest on bonds associated with projects located in the development district.

Prior to the hearing, your Committee posted a proposed S.D. 1 of this measure that replaced the contents with the following provisions:

- (1) Renaming the Hawaii Community Development Authority as the Hawaii Community Planning Authority;
- (2) Establishing planning districts centered around rail and bus transit stations or centers;
- (3) Creating a process for developers to apply for residential and commercial exceptional planning projects within the planning districts;
- (4) Authorizing counties to establish a transit-oriented development program;
- (5) Allocating general excise tax revenues collected within a planning district to be used by the Authority to pay principal and interest on bonds associated with projects located in a planning district;
- (6) Authorizing the Authority to create business improvement districts and community facilities districts and assess a special assessment to fund the improvement within the districts; and

- (7) Authorizing the Authority to act as a density rights bank.

Your Committee received testimony in support of the proposed S.D. 1 from the Honolulu Authority for Rapid Transportation, The Chamber of Commerce of Hawaii, Building Industry Association of Hawaii, and Hawaii Laborers-Employers Cooperation and Education Trust. Your Committee received testimony in opposition to the proposed S.D. 1 from the Department of Budget and Finance. Your Committee received comments on the proposed S.D. 1 from the Hawaii Community Development Authority, County of Kauai Planning Department, Tax Foundation of Hawaii, and Land Use Research Foundation of Hawaii.

Your Committee finds that the State has reached an urgent need to streamline its current planning processes as the City and County of Honolulu moves toward the implementation of the Honolulu Rail Transit Project. Currently, there is no single entity to coordinate the additional future planning needs of the State due to our growing population and the opportunities surrounding the areas of proposed rail and bus transit stations. It is imperative that we place the necessary mechanisms for the proper planning and development of all Hawaii's lands.

Your Committee finds that the Hawaii Community Development Authority was established as a comprehensive authority for community development and is best suited as an agency to administer the state-wide planning and development. However, it is not your Committee's intent to jeopardize or supersede any existing agreements or contracts held by the authority specifically in the Kakaako community development district.

Upon further consideration and cooperation with interested stakeholders, your Committee has amended the proposed S.D. 1 by:

- (1) Including a findings and purpose section;
- (2) Amending the definition of "exceptional planning project" to give flexibility to each county;
- (3) Reducing the number of days the county planning agency can extend the deadline of posting their final decision regarding an application for an exceptional planning project;
- (4) Providing state and county incentives, such as exemptions from various fees, for exceptional planning projects;
- (5) Deleting language regarding unlicensed contractors or subcontractors;
- (6) Creating a general excise tax exemption for exceptional planning projects;
- (7) Requiring a qualified developer to submit its application first to the county planning agency and if the application is refused, allowing the developer to submit its application to the Hawaii Community Planning Authority;
- (8) Changing the effective date to July 1, 2020; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2366, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Ryan, Tokuda). Noes, 2 (Fukunaga, Sлом). Excused, 1 (Shimabukuro).

SCRep. 2406 (Joint) Water, Land, and Housing and Economic Development and Technology on S.B. No. 2918

The purpose and intent of this measure is to transfer the property surrounding the Aloha Stadium to the Hawaii Community Development Authority and create the Halawa Community Development District.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, Hawaii Building and Construction Trades Council, Windward Ahupua'a Alliance, and two individuals. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committees received comments on this measure from the Hawaii Community Development Authority and Aloha Stadium Authority.

Your Committees find that over the years the Aloha Stadium has served as a preferred venue for major entertainment and recreational events, not just for sports but also for concert events. As a central venue, the stadium is also a planned terminal point for the proposed rail transit system. Your Committees are aware of additional opportunities to incorporate mixed use and transit-oriented development to strengthen the stadium and its surrounding properties as a self-sustaining premier venue for community gathering and major events. Furthermore, in order to assist in the financing, it is your Committees' intent to add a dedicated development special or trust fund into which development monies may be deposited and not raided.

Your Committees further find that the Public Land Development Corporation was created as an agency to develop public lands into suitable recreational and leisure centers where the public can congregate and where visitors can go as part of their vacation experience. Accordingly, your Committees find that the Corporation would be the more appropriate state agency to oversee the development of the stadium and its surrounding areas. However, your Committees are concerned with the operational and logistical issues that may adversely impact events held at the stadium, which has been successfully administered by the Stadium Authority.

Therefore, your Committees have amended this measure by deleting its contents and replacing it with language to:

- (1) Transfer the development rights of the Stadium Authority for certain parcels of land to the Public Land Development Corporation; and
- (2) Allow the Stadium Authority to retain certain duties and responsibilities relating to the transferred development rights until June 30, 2013, or until it is able to effectively transfer its duties and responsibilities to the Corporation, whichever occurs first.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2918, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2918, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8, Ayes with Reservations (Ryan). Noes, none. Excused, 1 (Tokuda).

SCRep. 2407 (Majority) Energy and Environment on S.B. No. 2038

The purpose and intent of this measure is to require solar water heaters in new duplex dwellings and limit the circumstances in which a variance for a demand water heater may be granted.

Your Committee received testimony in support of this measure from the Kauai County Council, Sierra Club, Hawaii Solar Energy Association, Blue Planet Foundation, Palms Hawaii Architecture, and four individuals. Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii, Building Industry Association of Hawaii, and The Gas Company.

Your Committee finds that the administration of the solar water heater requirement has proven unusually difficult. Since the counties are directly affected by variances and keenly aware of local conditions, the counties may be better able to provide oversight of the variance process.

Accordingly, your Committee has amended this measure by:

- (1) Transferring administration of solar water heater variance applications from the Department of Business, Economic Development, and Tourism to the county permitting agencies;
- (2) Deleting language limiting the persons who may apply for a variance for a tankless, gas water heater to the occupant of the new house;
- (3) Inserting new language in section 196-6.5, Hawaii Revised Statutes, that allows the legislative body of each county to set the parameters by which its county permitting agency shall approve, disapprove, or approve with conditions any variance application; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2038, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2038, S.D. 1, and be referred to the Committee on Water, Land, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 2 (English, Ihara).

SCRep. 2408 (Joint/Majority) Energy and Environment and Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs on S.B. No. 3003

The purpose and intent of this measure is to:

- (1) Designate geothermal resources exploration and geothermal resources development as permitted uses in all state land use districts and all zones of the conservation district;
- (2) Repeal the geothermal resource subzone provisions in the state land use law; and
- (3) Exempt geothermal resources exploration from the requirements of the state environmental impact statement law.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Business, Economic Development, and Tourism, Innovations Development Group, Indigenous Consultants LLC, Pacific Resources Partnership, and Hawaii Laborers' Union. Your Committees received testimony in opposition to this measure from the Office of Environmental Quality Control, Environmental Council, Sierra Club, and one individual. Your Committees received comments on this measure from the University of Hawaii Environmental Center.

Your Committees find that regulatory barriers to geothermal resources exploration preclude development of geothermal resources. This measure will reduce the amount of time required to explore geothermal resources. Expediting the development of a firm source of renewable energy will benefit the public by reducing electricity rates throughout the State and particularly on Hawaii island in the near future.

Your Committees received testimony indicating that geothermal resources exploration may be eligible for an exemption from the preparation of an environmental assessment or environmental impact statement. The Office of Environmental Quality Control will review exemption applications this month. In light of the existence of the existing exemption process, your Committees find it unnecessary to exempt geothermal resources exploration from the state environmental impact statement law.

Your Committees have amended this measure by:

- (1) Deleting sections 2 and 7, which prohibited the Board of Land and Natural Resources and Department of Land and Natural Resources, respectively, from requiring an applicant for a geothermal resources exploration lease or permit to prepare an environmental assessment or environmental impact statement;
- (2) Deleting part V, which exempted geothermal resources exploration from the requirements of chapter 343, Hawaii Revised Statutes; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee on Energy and Environment voted four ayes and one nay in favor of the measure as amended because your Committee feels strongly that there should not be blanket exemptions to environmental review when there is a process for agencies to request approval of an exemption list from the Environmental Council. Whereas, members of your Committee on Water, Land, and Housing voted aye with reservations because they felt that exemptions would expedite and facilitate future geothermal projects. Members of your Committee on Public Safety, Government Operations, and Military Affairs voted unanimously in favor of this measure as amended.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3003, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3003, S.D. 1, and be referred to the Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 12; Ayes with Reservations (Solomon, Tokuda). Noes, 1 (Slom). Excused, 1 (Shimabukuro).

SCRep. 2409 (Joint) Energy and Environment and Agriculture on S.B. No. 2289

The purpose and intent of this measure is to authorize hydroelectric facilities as a permitted use on all classes of lands within state agricultural land use districts.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaiian Electric Company. Your Committees received comments on this measure from the Department of Agriculture and Department of Land and Natural Resources.

Your Committees find that the development of hydroelectric energy-generating facilities in Hawaii is vital to the energy security and energy independence of the State. Increased use of renewable energy resources will achieve broad societal benefits, including resistance to increases in oil prices, environmental sustainability, economic development, and job creation.

Your Committees have amended this measure by:

- (1) Adding the legislature's findings regarding food security in the purpose section;
- (2) Specifying that hydroelectric facilities, if on agricultural land, must be on land that meets certain requirements and that the facilities must meet certain requirements as well; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2289, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2289, S.D. 1, and be referred to the Committee on Water, Land, and Housing.

Signed by the Chair and Majority Leader on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 5 (Chun Oakland, English, Ihara, Shimabukuro, Tokuda).

SCRep. 2410 (Joint) Energy and Environment and Agriculture on S.B. No. 2197

The purpose and intent of this measure is to expand the classes of agricultural lands that are exempt from subdivision requirements for purposes of leases or easements for renewable energy facilities.

Your Committees received testimony in support of this measure from Hawaii Solar Energy Association and one individual. Your Committees received comments on this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; and one individual.

Your Committees find that Act 217, Session Laws of Hawaii 2011, allowed solar energy facilities on class B and C agricultural land. However, the subdivision exemption only applies to class D and E agricultural lands. The amendments proposed by this measure will bring the subdivision exemption statute in line by allowing subdivision exemptions for solar energy facilities on class B and C agricultural lands.

Your Committees understand that the Department of Agriculture would like for agriculture to remain the primary activity on agricultural land. Your Committees understand this concern but are interested in striking a balance that will preserve agriculture activity and also permit appropriate renewable energy development on agricultural land.

Your Committees have amended this measure by:

- (1) Adding language that will limit a proposed subdivision to no more than two easements per legal lot on state agricultural land with class B or C soils;
- (2) Amending language in section 201N-14(d)(3)(A), Hawaii Revised Statutes, to provide consistency with the allowances in section 205-2(d)(6), Hawaii Revised Statutes;
- (3) Inserting language conditioning the use of solar energy facilities on state agricultural land with class B, C, or D soils by adding a provision that requires ongoing activity on agricultural land, unless a non-utility generator application for a project was submitted to an electric utility, or a proposed project was submitted to the Public Utilities Commission prior to the effective date of this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2197, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2197, S.D. 1, and be referred to the Committee on Water, Land, and Housing.

Signed by the Chair and Majority Leader on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 5 (Chun Oakland, English, Ihara, Shimabukuro, Tokuda).

SCRep. 2411 Ways and Means on S.B. No. 2012

The purpose of this measure is to:

- (1) Authorize the issuance of unspecified sums of general obligation bonds and appropriate the moneys obtained therefrom, in fiscal year 2011-2012, to fund various repair and maintenance, capital renewal, and capital improvement projects of the State of Hawaii; and
- (2) Provide work for unemployed and under employed residents.

In addition, among other things, the measure:

- (1) Proposes to issue \$500,000,000 in general obligation bonds to fund various projects;
- (2) Amends the public procurement process by raising the monetary ceiling from \$100,000 to \$250,000 on the value of procurement contracts to which the small purchase procurement process applies;
- (3) Exempts all repair and maintenance, capital renewal, and capital improvement projects that are subject to the measure from all county permit, license, and certificate requirements; provided that the projects still comply with the applicable county code requirements;
- (4) Exempts the entities, to which the measure allocates funds, from the procurement requirements under section 103D-102, Hawaii Revised Statutes;
- (5) Makes permanent certain exemptions from the procurement code contained in sections 103D-102, and 304A-105, Hawaii Revised Statutes;
- (6) Makes permanent the \$100,000 and \$250,000 small purchase procurement ceiling amounts contained in section 103D-305, Hawaii Revised Statutes; and
- (7) Makes other amendments that facilitate the expeditious execution of repair and maintenance, capital renewal, and capital improvement projects to stimulate the State's economy.

Prior to the hearing, your Committee circulated a Proposed S.D. 1. While the purpose and intent of the Proposed S.D. 1 is similar to the original bill, the proposed draft:

- (1) Deleted the section of the bill that amended section 103D-102, Hawaii Revised Statutes;
- (2) Deleted the section of the bill that would have made permanent certain exemptions from the procurement code, contained in sections 103D-102 and 304A-105, Hawaii Revised Statutes;
- (3) Deleted the section of the bill that made permanent the \$100,000 and \$250,000 small purchase procurement ceiling amounts contained in section 103D-305, Hawaii Revised Statutes;
- (4) Amended the expedited procurement process for the capital improvement projects authorized under the measure by raising the proposed contract value ceiling, from \$250,000 to \$1,000,000, for goods, services, or construction to which the small purchase procurement process applies;
- (5) Added a requirement that small purchase procurements funded by this measure be conducted through an electronic system;
- (6) Added an exemption from provisions concerning protests relating to solicitations and awards, pursuant to section 103D-701, Hawaii Revised Statutes, for small purchase procurements funded by this measure; and
- (7) Clarified that the county permit, license, and certificate exemption provided in the original version of the bill for capital improvement projects applies only to capital improvement projects with a cost of less than \$1,000,000.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; the Judiciary; the Department of Budget and Finance; the University of Hawaii; the Department of Education; the State Procurement Office; the Hawaii State Public Library Systems; the Office of Planning, Department of Business, Economic Development, and Tourism; the Hawaii Health Systems Corporation; The Chamber of Commerce of Hawaii; the Hawaii Business Roundtable; the Pacific Resource Partnership; the Hawaii Construction Alliance; the General Contractors Association of Hawaii; the Hawaii Laborers' Union; BIA Hawaii; and the Hawaii Building and Construction Trades Council.

Your Committee received testimony in opposition to this measure from The Outdoor Circle.

Your Committee received comments on this measure from the Department of Land and Natural Resources and the Plumbing & Mechanical Contractors Association of Hawaii.

Your Committee has amended the Proposed S.D. 1 by:

- (1) Inserting specific sums totaling \$500,000,000 in general obligation bonds to fund the various projects, and reorganizing the listing of those projects;

- (2) Changing the expending agency designation for repair and maintenance projects for the Hawaii State Public Library System from the Department of Education to the Department of Accounting and General Services;
- (3) Authorizing designated expending agencies for capital improvement projects to delegate the execution of the project to other state or county agencies when it is advantageous for both agencies;
- (4) Establishing a legislative capital improvements program oversight committee to oversee and evaluate expenditure of the funds;
- (5) Requiring the Department of Accounting and General Services to prepare quarterly reports of the status of the appropriations and to submit those reports to the Legislature; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

In recommending passage of this measure by the Senate and Legislature, your Committee notes its intent that state agencies structure the procurement of work authorized under this measure in a manner that affords a broad spectrum of trades the ability to bid and be awarded contracts for projects appropriated by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2012, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2012, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14, Ayes with Reservations (Sлом). Noes, none. Excused, none.

SCRep. 2412 (Joint/Majority) Human Services and Health on S.B. No. 2659

The purpose and intent of this measure is to appropriate monies from the emergency and budget reserve fund to maintain funding levels of programs for public health, safety, welfare, and education.

Your Committees received testimony in support of this measure from the Judiciary; the State Council on Developmental Disabilities; the Executive Office on Aging, Department of Health; Catholic Charities Hawai'i; Child & Family Service; Kapa Ola, Child and Family Service; the Coalition for a Drug-Free Hawaii; the Domestic Violence Action Center; Goodwill Industries of Hawaii, Inc.; the Hawaii Disability Rights Center; the Hawai'i Primary Care Association; the Hawaii State Coalition Against Domestic Violence; the Hawaii Substance Abuse Coalition; Legal Aid Society of Hawai'i; Maui Family Support Services; Mental Health America of Hawai'i; Moiliili Senior Center, Moiliili Community Center; Partners in Development Foundation; PHOCUSED; the Policy Advisory Board for Elder Affairs; Read Aloud America, Inc.; The Children's Alliance of Hawaii, Inc.; the University of Hawai'i System; the Waikiki Community Center; and fifteen individuals.

Your Committees received comments on this measure from the Department of the Attorney General; the Department of Budget and Finance; the Department of Health; the Department of Human Services; the Office of Community Services, Department of Labor and Industrial Relations; AARP; and one individual.

Your Committees find that the national and global economic crisis has caused significant economic problems in numerous industries in the State. Difficult economic times and declining tax revenues have resulted in budget cuts for all state services. The current fiscal situation is threatening Hawaii's safety net of basic education, human services, and health to its most vulnerable citizens.

Your Committees also find that all of the programs included in this measure address vital needs of specific target groups or areas, including aging, child care, dental care, disability, domestic violence, and the uninsured. Each of these target groups and areas are equally important, uniquely defined as vulnerable, and deserving of priority status to be included in the State's budget.

Your Committees have amended this measure by:

- (1) In section 4, adding Catholic Charities Hawai'i on behalf of the Lanakila Multi-Purpose Senior Center and the Moiliili Community Center on behalf of the Moiliili Senior Center Program as recipients of grants;
- (2) In section 14, requiring the Department of Human Services, rather than the Hawaii Public Housing Authority, to report on the progress of the housing first pilot program;
- (3) In section 17, deleting language specifying The Path Clinic to be the recipient of a grant for services to pregnant women struggling with addiction and designating the Department of Health to provide these services;
- (4) In section 30, deleting language for the appropriation to the Hawaii Primary Care Association for outstationed eligibility worker services provided at federally qualified health centers and designating the Department of Human Services to provide this service;
- (5) In section 38, changing the expending agency to the Department of Health, rather than the Department of Human Services, for the grant to Planned Parenthood for statewide sexual health education;
- (6) In section 39, amending language that clarifies and expands the services the Partners in Development Foundation will provide;
- (7) In section 40, adding language that appropriates funds as a grant to People Attentive to Children for the preschool open doors program;
- (8) Deleting section 41, which would have provided funding to the Oahu About Face Family of Programs;
- (9) Adding language that appropriates funds to the Department of Education to provide non-school hour programs, and for the purchasing or leasing of vehicles by a school to provide students with transportation to attend the non-school hour programs; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2659, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2659, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Majority Leader on behalf of the Committees.
Ayes, 5. Noes, 1 (Slom). Excused, 2 (Shimabukuro, Wakai).

SCRep. 2413 Ways and Means on Gov. Msg. No. 585.

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 1ST TAXATION DISTRICT (O'AHU)

G.M. No. 585 AUDREY ABE, for a term to expire 6-30-2015,

Your Committee has reviewed the resume submitted by the nominee and finds that Audrey Abe possesses the qualifications to be a member of the Board of Taxation Review, 1st Taxation District (Oahu).

Your Committee received testimony in support of the nomination of Audrey Abe from the Department of Taxation, the Hawaii State Commission on the Status of Women, and four individuals.

Upon review of the testimony and other information received, your Committee finds that the nominee is a qualified candidate to serve on the Board of Taxation Review. A Certified Public Accountant since 1977, Ms. Abe has performed auditing, management advisory services, tax consulting, and tax preparation for individuals, partnerships, corporations, non-profits, and estates. She possesses a Bachelor of Arts degree from San Jose State University and a Masters in Fine Arts from California Institute of the Arts. Ms. Abe is a small business owner. She is a Certified General Appraiser and owner of Abe Appraisals since 1992. Ms. Abe also is the owner and vice-president of Salt & Light Global LLC, a green energy company specializing in consulting and coordinating the installation and design of photovoltaic solar systems. Her broad business knowledge will be of great help to the Board of Taxation Review as it hears and decides disputes between taxpayers and tax assessors. Beyond her professional experience, Ms. Abe has a commitment to community and public service. She has served as a treasurer and an advisor for several non-profit and charitable organizations. Ms. Abe has the necessary knowledge, skills, and acumen to effectively and competently serve as a member of the Board of Taxation Review.

As affirmed by the records of votes of the members of your Committee on Ways and Means that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2414 Ways and Means on Gov. Msg. No. 586.

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 1ST TAXATION DISTRICT (O'AHU)

G.M. No. 586 CURTIS SAIKI, for a term to expire 6-30-2013,

Your Committee has reviewed the resume submitted by the nominee and finds that Curtis Saiki possesses the requisite qualifications to be a member of the Board of Taxation Review, 1st Taxation District (Oahu).

Testimony in support of the nomination was submitted by the Department of Taxation and five private citizens.

Upon review of the testimony and other information provided, your Committee finds that Curtis Saiki received a Bachelor of Science in Accounting from Oregon State University, a Juris Doctor from the University of Oregon Law School with a business law certificate, and was a member of the Oregon Law Review for the years 1993-1995 he received a Master of Laws in Taxation at the University of Washington Law School. Curtis Saiki is an attorney licensed in the states of Hawaii and Washington, a current Vice-President of First Hawaiian Bank, and has accumulated almost twelve years of work experience within the field of taxation, law, and tax consulting. Mr. Saiki was also the Chairman of the Taxation Section of the Hawaii State Bar Association for the years 2004-2006, and 2011.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2415 Ways and Means on Gov. Msg. No. 587.

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 2ND TAXATION DISTRICT (MAUI)

G.M. No. 587 RANDAL TANIGUCHI, for a term to expire 6-30-2015,

Your Committee has reviewed the statement submitted by the nominee and finds Randal Taniguchi to possess the requisite qualifications to be a member of the Board of Taxation Review, 2nd Taxation District, Maui.

Testimony in support of the nomination of Randal Taniguchi was submitted by the Department of Taxation.

Upon review of the testimony and the statement provided, your Committee finds that Mr. Taniguchi is a certified public accountant and has been employed in the accounting field for twenty-five years on Oahu and Maui. Mr. Taniguchi received a Bachelor of Business Administration degree from the University of Hawaii at Manoa.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2416 Ways and Means on Gov. Msg. No. 588.

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 4TH TAXATION DISTRICT (KAUAI)

G.M. No. 588 ALBERT SPENCER, for a term to expire 6-30-2015,

Your Committee has reviewed the resume submitted by the nominee and finds that Albert Spencer possesses the requisite qualifications to be a member of the Board of Taxation Review, 4th Taxation District (Kauai).

Your Committee received testimony in support of the nomination of Albert Spencer from the Department of Taxation, University of Hawaii, Hawaii Society of Certified Public Accountants, and two individuals.

Upon review of the testimony and other information received, your Committee finds that the nominee is a qualified candidate to serve on the Board of Taxation Review. Mr. Spencer has recently retired from employment as a professor at Kauai Community College where he taught accounting, tax, and economics since 1984. He is a licensed Certified Public Accountant and has worked as an auditor for Clay and Company CPA's in Honolulu. Mr. Spencer has a Bachelor of Science in Economics from Rider College and a Master of Business Administration with a concentration in Accounting from the University of Hawaii. He is an Air Force veteran who received the Air Force Commendation Medal in 1972. He has also received the Hawaii Society of Certified Public Accountants Distinguished Service Award, the University of Hawaii Board of Regents Excellence in Teaching Award, and the Hawaii Society of Certified Public Accountants Distinguished Accounting Educator Award. His knowledge will be of great help to the Board of Taxation Review as it hears and decides disputes between taxpayers and tax assessors. Mr. Spencer has a commitment to community and public service. He participates in the Volunteer Income Tax Assistance program and has been involved in youth soccer and basketball for twenty years. Mr. Spencer has the necessary knowledge, skills, and acumen to effectively and competently serve as a member of the Board of Taxation Review.

As affirmed by the records of votes of the members of your Committee on Ways and Means that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2417 Ways and Means on S.B. No. 2771

The purpose of this bill is to reimburse seven state departments for the costs of providing emergency management, public safety, and security in preparation for and during the Asia-Pacific Economic Cooperation meetings held in Hawaii in November 2011.

Specifically, this bill appropriates the sum of \$2,709,966 in general revenues for fiscal year 2011-2012. The bill also requires that any federal reimbursement funds received for expenditures provided for by the bill be deposited into the general fund.

Your Committee finds that hosting the Asia-Pacific Economic Cooperation meetings last year provided the State a great opportunity to show the world that the State is capable of successfully hosting a globally significant event.

However, your Committee notes that although federal reimbursement for the State's expenses is being sought, such reimbursement is not guaranteed nor is it likely to be received during the current fiscal year.

Your Committee has amended this bill by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2771, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2771, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 4 (English, Fukunaga, Kim, Tokuda).

SCRep. 2418 Ways and Means on S.B. No. 2808

The purpose of this measure is to ensure the uninterrupted provision of medically necessary services to participants in health care programs and timely payments to contracted health plans by making an emergency appropriation to cover the budget shortfall for health care payments.

Specifically, this bill appropriates the sum of \$11,881,157 in general revenues for fiscal year 2011-2012.

The Department of Human Services and Ohana Health Plan testified in support of this bill.

Your Committee finds that this emergency appropriation is necessary to ensure that payments to medicaid health care plans and providers will not have to be deferred for a month at the end of the current fiscal year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11, Ayes with Reservations (Kidani, Slom). Noes, none. Excused, 3 (English, Fukunaga, Tokuda).

SCRep. 2419 Agriculture on S.B. No. 2693

The purpose and intent of this measure is to amend the policies and priority guidelines for agriculture set forth in chapter 226, Hawaii Revised Statutes, to incorporate the promotion of and an increase in the consumption of Hawaii-grown foods and products as a state policy goal.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism's Office of Planning; The Sierra Club, Hawaii Chapter; Hawaii Farm Bureau Federation; Hawaii Farmers Union; Land Use Research Foundation of Hawaii; Environmental Caucus of the Democratic Party of Hawaii; and five individuals.

Your Committee finds that making a strong and clear policy statement to support locally grown products will increase access to fresh agricultural commodities while supporting the local agricultural industry and moving Hawaii to greater food sustainability.

As affirmed by the record of votes of the members of your Committee on Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2693 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 3 (Chun Oakland, Tokuda, Slom).

SCRep. 2420 Commerce and Consumer Protection on S.B. No. 2316

The purpose and intent of this measure is to require a cemetery or pre-need funeral authority to disclose the contact information for the Regulated Industries Complaints Office to a purchaser in a written contract for services and in a written notice provided at the time merchandise or services are delivered.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure recognizes consumers' potential vulnerability to unscrupulous practices when purchasing cemetery or funeral services. This measure provides consumers with timely and important contact information that consumers may reference if they have questions or concerns about their transactions or the services rendered.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2316 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2421 Commerce and Consumer Protection on S.B. No. 3024

The purpose and intent of this measure is to modify the shareholder voting requirements for publicly traded corporations to adopt a plan of merger or share exchange.

Your Committee received testimony in support of this measure from Alexander & Baldwin, Inc. and Maui Land & Pineapple Company, Inc.

Your Committee finds that the Hawaii Revised Statutes require corporations incorporated in Hawaii before July 1, 1987, to obtain the affirmative vote of the holders of three-fourths of all issued and outstanding shares of stock prior to a merger or share exchange. Corporations incorporated in Hawaii on or after July 1, 1987, are only required to obtain the affirmative vote of the holders of a majority of each class of shares of stock prior to a merger or share exchange.

Your Committee finds that this measure should be limited to apply solely to mergers of wholly owned subsidiaries. This will enable Hawaii-based publicly traded corporations, regardless of when they were incorporated, to reorganize themselves within their family of related entities with the approval of a majority vote of shareholders.

Your Committee has amended this measure by:

- (1) Combining the amendments to section 414-313(e) and (f), Hawaii Revised Statutes, into amendments only under section 414-313(f), Hawaii Revised Statutes, that apply the shareholder voting requirement for:
 - (A) Corporations incorporated on or after July 1, 1987 (affirmative vote of a majority of holders of each class of shares), to only those plans involving a merger of a publicly traded corporation with or into a direct or indirect subsidiary corporation, of which all the outstanding shares of each class are owned, directly or indirectly, by the parent corporation; and
 - (B) Corporations incorporated before July 1, 1987 (affirmative vote of holders of three-fourths of all issued and outstanding shares of stock), to plans involving all other publicly traded corporations; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the amendments proposed by this measure would affect four corporations in Hawaii, namely Alexander & Baldwin, Inc., Central Pacific Bank, Hawaiian Electric Industries, Inc., and Maui Land & Pineapple Company, Inc. Based on testimony received by your Committee, the above corporations find these amendments acceptable.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3024, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3024, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Solomon).

SCRep. 2422 Education on S.B. No. 2772

The purpose and intent of this measure is to clarify that the transfer of certain functions pertaining to Department of Education personnel and facilities by Act 51, Session Laws of Hawaii 2004 (Act 51), does not apply to the Hawaii State Public Library System and its employees.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System (HSPLS), Department of Human Resources Development, and Department of Accounting and General Services (DAGS).

Your Committee finds that Act 51 transferred the control of certain functions pertaining to education personnel and facilities to the Department of Education; however Act 51 was silent as to HSPLS employees and HSPLS administrative and personnel functions. This measure will clarify the intent of the Legislature that HSPLS was not to be affected by this transfer of functions.

Your Committee has amended this measure by:

- (1) Adding language in the purpose section to clarify that despite the passage of Act 51, DAGS continues to be the expending agency for HSPLS' capital improvement funds and continues to perform repair and maintenance for HSPLS; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2772, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Slom).

SCRep. 2423 Health on S.B. No. 417

The purpose of this short form bill is to amend the law relating to health.

Prior to the hearing on this measure, a proposed S.D. 1 was prepared and made available for public review. Your Committee has adopted the proposed S.D. 1, which amends this measure by inserting language that changes the membership of the Hawaii Health Systems Corporation's corporation board by:

- (1) Adding a member who alternately represents the eastern and western regions of the county of Hawaii;
- (2) Replacing the regional chief executive officers with community members from each respective region; and
- (3) Removing the at-large member selected by the Governor.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417, as amended herein, and recommends that it be recommitted to the Committee on Health, in the form attached hereto as S.B. No. 417, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2424 Commerce and Consumer Protection on S.B. No. 2013

The purpose and intent of this measure is to require a dental hygienist license to be prominently displayed at all times in the office where the dental hygienist is employed or practices.

Your Committee received testimony in support of this measure from the Board of Dental Examiners, Hawaii Dental Hygienists' Association, and nine individuals.

Your Committee finds that thirty-two states mandate that a dental hygienist license be prominently displayed in a dental office. This measure would extend this requirement to dental hygienists licensed in Hawaii. Your Committee further finds that although a certificate of license signifies that a dental hygienist received a license in the State, it does not reflect whether the license is current. A pocket identification card that indicates the expiration date of a license is issued to dental hygienists at initial licensure and at each subsequent license renewal. Your Committee concludes it would be prudent for dental hygienists to display a copy of their certificate of license and have their pocket identification card available upon request.

Your Committee has amended this measure by:

- (1) Clarifying that a copy of the currently renewed certificate of license shall be prominently displayed in the office where the dental hygienist is employed or practices; and

- (2) Requiring a dental hygienist who is employed at or practices in more than one office to have the dental hygienist's pocket identification card available for viewing upon request.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2013, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2013, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Green, Nishihara).

SCRep. 2425 Commerce and Consumer Protection on S.B. No. 2438

The purpose and intent of this measure is to require the submission of an economic impact analysis with any application to the Public Utilities Commission that has a fiscal impact, and to require the Public Utilities Commission to provide a final analysis with any decision and order.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received testimony in opposition to this measure from the Public Utilities Commission, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Hawaiian Electric Company, Inc.

Your Committee finds that economic impact analyses can provide a clear picture of the advantages and disadvantages of any given proposal. However, concerns were raised that the mandatory economic impact analysis proposed by this measure may have unintended negative consequences for small businesses and would have significant budgetary impacts on the Public Utilities Commission, delaying the regulatory process.

Your Committee notes there is merit to formalizing some economic impact analysis, but understands that these concerns are important to take into account. Your Committee finds that the Public Utilities Commission considers economic impact when appropriate, and therefore concludes that a mandatory economic impact analysis is not required.

Your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with language that permits the Public Utilities Commission, in making its final determination on renewable energy projects, to take into consideration the economic impact of these projects; provided that the Department of Business, Economic Development, and Tourism first provides the Public Utilities Commission with the appropriate analysis for consideration; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2438, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7, Ayes with Reservations (Solomon). Noes, none. Excused, none.

SCRep. 2426 Human Services on S.B. No. 2713

The purpose and intent of this measure is to amend sections 346-29.5(b) and 346-37(g), Hawaii Revised Statutes, to clarify that the lien amounts stated in the Notices of Lien produced by the Department of Human Services against real property or for reimbursement of medical assistance or burial costs paid for a recipient shall be presumed to be valid.

Your Committee received testimony in support of this measure from the Department of the Attorney General, the Department of Human Services, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from one individual.

Your Committee finds that the lien amount issued by the Department of Human Services in the Notices of Lien have been challenged on numerous occasions in cases where the Department is seeking restitution for medical payments for a Medicaid recipient who was injured by a criminal defendant. Currently, when a lien amount is challenged, the Department of Human Services investigates and verifies that each charge is valid, which is expensive and time consuming.

Your Committee also finds that this measure, as it is currently drafted, presumes that the entire lien amount claimed in the Notice of Lien is valid. This is problematic because the Notice of Lien only contains the total amount claimed and does not include an itemized list of payments. Where the Department of Human Services seeks restitution in connection with criminal sentencing, persons being sentenced may not be fully aware of the nature and extent of the injuries that they caused and the treatments and their associated costs for those injuries.

Your Committee has therefore amended this measure by:

- (1) Adding language to limit the presumed validity of the entire lien amount to cases in which restitution is sought in connection with the sentencing of a third person who has caused injury to a recipient of medical assistance;
- (2) Adding language to require the Department of Human Services to provide the person against whom restitution is sought with a written notice of lien that itemizes payments and includes certain information;
- (3) Adding language to require the entire lien amount to be presumed valid absent a good faith basis contesting the amount or validity of specific line item charges in the lien; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2713, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2713, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2427 (Joint) Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing on S.B. No. 2047

The purpose and intent of this measure is to increase the time the county councils have to review affordable housing projects from forty-five to sixty days.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawai'i Association of Counties, and one individual. Testimony in opposition was received from the Hawaii County Office of Housing and Community Development.

Your Committees find the forty-five day window for a legislative body to approve, approve with modification, or disapprove an affordable housing project to be an inadequate amount of time to have a meaningful discussion on a proposed project. Allowing sixty days will still provide for an expedited review while increasing the amount of time the legislative body of a county has to exercise its due diligence in evaluating a proposed project.

Your Committees have amended this measure by deleting the authority of the county legislative body to approve with modification.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2047, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2047, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Fukunaga, Kidani, Tokuda).

SCRep. 2428 Water, Land, and Housing on S.B. No. 2742

The purpose and intent of this measure is to designate the Chairperson of the Hawaiian Homes Commission and the Director of the City and County of Honolulu Department of Planning and Permitting, or their designated representatives, as ex officio, voting members representing the Kalaeloa Community Development District on the Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the City and County of Honolulu's Department of Planning and Permitting.

Your Committee finds that the Hawaii Community Development Authority has had difficulty achieving quorum and that the membership should therefore be amended for not only the Kalaeloa Community Development District, but for the entire Authority, to encourage timely decision-making processes.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Add the Director of the City and County of Honolulu Department of Planning and Permitting, Chairperson of the Hawaiian Homes Commission, and a cultural expert appointed by the Governor as members of the Authority in each initial community district;
- (2) Remove the Director of Transportation and the two members selected from a list submitted by the Senate President and the Speaker of the House of Representatives from the membership of the Authority representing each initial designated district;
- (3) Clarify that the Governor shall appoint three additional county members if an additional district is designated;
- (4) Remove the five additional voting members for the Kalaeloa Community Development District from the Authority;
- (5) Include a purpose section to accurately reflect the amended provisions of the measure; and
- (6) Change the effective date to July 1, 2020, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2742, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2742, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6, Ayes with Reservations (Ryan). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2429 Judiciary and Labor on S.B. No. 2497

The purpose and intent of this measure is to set forth efficient and inexpensive procedures for litigants to depose out-of-state individuals or to obtain discoverable materials that may be located outside of the trial state.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that uniform procedures have become necessary as the amount of litigation involving individuals and documents located outside of the trial state has increased. The Uniform Interstate Depositions and Discovery Act addresses the problems of depositing out-of-state individuals and obtaining out-of-state discovery by setting forth uniform procedures that require minimal judicial oversight and provide clear rules governing discovery.

By adopting the provisions of the Uniform Interstate Depositions and Discovery Act, this measure eliminates the need for a trial state litigant to obtain local counsel in the discovery state or to file miscellaneous actions for a subpoena by requiring the litigant to instead present a subpoena issued by the trial state court to the clerk of the court located in the discovery state. Hence, judicial oversight is minimized. Furthermore, this measure requires discovery to comply with the laws of the discovery state, thus recognizing that the discovery state has a significant interest in protecting its residents from unreasonable or burdensome requests when they become non-party witnesses in an action pending in a foreign jurisdiction.

Your Committee further finds that twenty-one state jurisdictions have already adopted the uniform act with seven more states, including Hawaii, considering adoption this year. As such, this measure will aid in streamlining litigation procedures while recognizing the interests of the trial state and the discovery state.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2430 (Joint) Human Services and Public Safety, Government Operations, and Military Affairs on S.B. No. 2568

The purpose and intent of this measure is to require counties to provide homeless individuals and families information on and access to temporary emergency shelters upon removing them from public property.

Your Committees received testimony in support of this measure from five individuals.

Your Committees find that according to the annual Homeless Service Utilization Report, 5,678 individuals in Hawaii are homeless and another 4,013 individuals are unsheltered. Transitional housing is one way to effectively stabilize individuals and families and enable them to save money so they can secure permanent housing.

This measure will ensure homeless individuals and families who are removed from public property receive necessary information on and access to temporary emergency shelters to facilitate a transition to permanent housing.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2568 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 2 (Ryan, Slom).

SCRep. 2431 (Joint) Commerce and Consumer Protection and Health and Human Services on S.B. No. 2434

The purpose and intent of this measure is to amend Hawaii's health insurance exchange law by:

- (1) Requiring the Hawaii Health Connector to establish and administer separate risk pools for the individual market and the small group market;
- (2) Establishing a Navigator Program and specifying qualifications and restrictions for navigators;
- (3) Establishing staggered terms for the Board of Directors of the Hawaii Health Connector; and
- (4) Clarifying the role of the Department of Human Services in determining Medicaid eligibility.

Your Committees received testimony in support of this measure from the Hawaii Health Connector, Hawaii Association of Health Plans, Hawaii Medical Service Association, Kaiser Permanente, Ohana Health Plan, The Chamber of Commerce of Hawaii, and two individuals. Your Committees received comments on this measure from the Hawaii Primary Care Association, AARP Hawaii, and the American Cancer Society.

Your Committees find that Act 205, Session Laws of Hawaii 2011, established a nonprofit health insurance exchange, known as the Hawaii Health Connector, to create and administer a health insurance exchange in the State in compliance with the federal Patient Protection and Affordable Care Act. Act 205 required the interim Board of Directors of the Hawaii Health Connector to submit a report of its findings and recommendations, including proposed legislation, to the Legislature. The amendments proposed by this measure reflect the interim Board's recommendations.

Your Committees further find that the Hawaii Health Connector will help individuals and small businesses learn about, compare, and purchase insurance. The Hawaii Health Connector will also enable participants to receive federal subsidies to assist with health care and will provide a better opportunity to expand insurance coverage to the uninsured.

Your Committees note that the interim Board of Directors has made tremendous strides to ensure that the Hawaii Health Connector is fully operational by the federally mandated 2014 deadline, but additional work remains. Your Committees also note that a robust discussion of all aspects of the Hawaii Health Connector is expected and encouraged. It is therefore the desire of your Committees for the Board to conduct additional community outreach to ensure a well-rounded discussion.

Your Committees have amended this measure by:

- (1) Clarifying that the Hawaii Health Connector shall establish one separate program to serve the individual market and one separate program to serve the small group market;
- (2) Clarifying that any insurer that offers a qualified plan through the Hawaii Health Connector shall establish a separate risk pool for its qualified plans offered in the individual market and the small group market;

- (3) Specifying that recipients of navigator grants shall comply with all provisions that are otherwise required by federal law;
- (4) Establishing a timeline for Hawaii Health Connector Board member nominations and confirmations occurring on or after February 1, 2012, and July 1, 2012, respectively; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2434, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2434, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 5 (Galuteria, Shimabukuro, Solomon, Wakai, Slom).

SCRep. 2432 Ways and Means on S.B. No. 2819

The purpose and intent of this measure is to tax electronic cigarettes in the same manner as tobacco products and to prohibit the sale of electronic cigarettes to minors.

Your Committee received testimony in support of this measure from Department of Taxation, Department of Health, Honolulu Police Department, and sixteen individuals.

Your Committee received testimony in opposition to this measure from Volcano Fine Electronic Cigarettes; Michael Jay Green, Esq.; and 1,048 individuals.

Your Committee received comments on this measure from Tax Foundation of Hawaii and eight individuals.

Your Committee has amended this measure by:

- (1) Deleting language adding electronic cigarettes to the definition of "tobacco products", which would subject electronic cigarettes to the same taxation as tobacco products; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2819, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2433 Ways and Means on S.B. No. 2867

The purpose and intent of this measure is to update Hawaii's income tax law to conform to changes made to the Internal Revenue Code for calendar year 2011.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2867, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2867, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11, Ayes with Reservations (Slom). Noes, none. Excused, 3 (Espero, Fukunaga, Tokuda).

SCRep. 2434 Ways and Means on S.B. No. 2869

The purpose and intent of this measure is to extend the date for the Tax Review Commission to submit its report to the Legislature and appropriate funds to the Commission.

Your Committee received testimony in support of this measure from the Director of Taxation and the Chair of the Tax Review Commission. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that the Tax Review Commission was not able to meet because of a lack of quorum. This measure would provide additional time and money for the Tax Review Commission to complete an extensive review of the State tax structure.

Your Committee notes that the measure appropriates moneys out of the current fiscal year (FY 2011-2012). Consequently, in light of the provisions contained in Article VII, section 9 of the State Constitution, the appropriation could be considered an emergency appropriation, which requires a declaration from the Governor that the immediate passage of the appropriation is necessary. Your Committee has asked the Department of Taxation to consult with the Governor to ascertain whether it is necessary for the appropriation to be made in fiscal year 2011-2012 and to expeditiously inform your Committee on whether this appropriation should be made in the current or succeeding fiscal year.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified amount; and

- (2) Making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2869, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10, Ayes with Reservations (Slom). Noes, none. Excused, 4 (Dela Cruz, Fukunaga, Kahele, Ryan).

SCRep. 2435 Ways and Means on S.B. No. 2237

The purpose and intent of this measure is to amend the way the partial payment of taxes is allocated between the principal and interest of the taxpayer's tax liability.

More specifically, section 231-27, Hawaii Revised Statutes, presently provides that partial payments of taxes are first applied to the interest of outstanding tax assessments, then to penalties, and then to the principal balance. This measure provides for the payment to be applied to the principal first, then to interest, then to any penalties incurred. This benefits the taxpayer by lowering the principal balance, resulting in smaller compounding interest payments.

The Department of Taxation and the Tax Foundation of Hawaii submitted comments on this measure.

Your Committee notes that, while the Department of Taxation acknowledged that the measure makes Hawaii's law on crediting partial tax payments consistent with federal tax provisions, the department nonetheless expressed concern regarding the timely implementation of the measure, because developing and testing the necessary software to effectuate the change would require an estimated minimum of one year.

In light of these concerns, your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2014, to allow more time for the Department of Taxation to develop and test the software necessary to implement the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and styled.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2237, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 3 (Espero, Fukunaga, Tokuda).

SCRep. 2436 Ways and Means on S.B. No. 2998

The purpose and intent of this measure is to incorporate fairness provisions into Hawaii tax laws that are similar to those used in the Internal Revenue Code for the calculation of tax penalties.

Specifically, this measure prohibits the stacking of tax underpayment penalties.

Your Committee received testimony in support of this measure from Chun, Kerr, Dodd, Beaman & Wong, LLLP, and two private individuals.

Your Committee received testimony in opposition to this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that several tax penalties were established through the enactment of Act 166, Session Laws of Hawaii 2009, and that these penalties are similar to penalties imposed by the Internal Revenue Code. However, the state tax penalties differ from their federal counterparts, in that the federal penalties do not stack onto one another for the same violation. Your Committee further finds that this measure would promote fairness in the application of state tax penalties by prohibiting the assessment of multiple penalties for the same violation.

Your Committee has amended this measure by:

- (1) Limiting the prohibition against the assessment of multiple penalties as follows:
 - (A) Penalties imposed for wilful failure to collect and pay over tax under section 231-36.4, Hawaii Revised Statutes (HRS), shall not be stacked with penalties imposed for the erroneous claim for refund or credit under section 231-36.8, HRS;
 - (B) Penalties imposed for substantial understatements or misstatements under section 231-36.6, HRS, shall not be stacked with penalties imposed for the erroneous claim for refund or credit under section 231-36.8, HRS; and
 - (C) Penalties imposed for the erroneous claim for refund or credit under section 231-36.8, HRS, shall not be stacked with penalties imposed for substantial understatements or misstatements under section 231-36.6, HRS; and
- (2) Deleting the savings clause as unnecessary.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2998, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2998, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2437 Public Safety, Government Operations, and Military Affairs on S.B. No. 2630

The purpose and intent of this measure is to authorize the county liquor commissions to substitute the dBC weighting system for the current dBA weighting system for the purpose of administering community noise control.

Your Committee received testimony in support of this measure from the Department of Liquor Control of Kauai County, Honolulu Liquor Commission, and Downtown Neighborhood Board No. 13.

Your Committee finds that the method used by the Department of Health to measure noise is the dBA weighting system. The dBA system measures sound in decibels using the "A weighted" measurement, dBA, such that sound levels measured in dBA correspond to what the human ear hears. An alternative dBC weighting system also measures sound levels but additionally measures lower frequencies that cause physical objects such as windows and walls to vibrate. Because these lower frequency sound waves are not perceived by the human ear and are not measured by the dBA weighting system, even though they are physically felt through strong vibrations, the sound levels generated do not constitute a violation of the existing community noise control law.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2438 Public Safety, Government Operations, and Military Affairs on S.B. No. 2872

The purpose and intent of this measure is to allow any utility owner whose facility occupies a state highway right-of-way to provide its share of costs up front to the affected state agency for encumbrance of funds in related contracts by way of an agreement to pay.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that existing law does not allow for cost sharing for certain types of utility work. This measure is intended to address a long-standing challenge for the Department of Transportation to complete projects involving all types of utility work, including undergrounding and new facilities.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2872 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2439 Commerce and Consumer Protection on S.B. No. 2256

The purpose and intent of this measure is to permit a condominium board of directors to authorize the installation of utility meters to determine utility use by individual units, provided that the condominium association pays the installation cost.

Your Committee received testimony in support of this measure from the Hawaii Chapter of the Community Associations Institute, Association of Apartment Owners of Harbor Square, and two individuals. Your Committee received comments on this measure from Hawaii Energy.

Your Committee finds that many older condominium projects in Hawaii were constructed in such a way that a single meter measures the consumption of utilities for the entire condominium. Utility costs in these condominium projects are not measured by actual usage of owners or occupants, but are paid for as a common expense.

Your Committee further finds that this measure will permit an association to install utility sub-meters in each owner's unit. Individual sub-metering permits billing based on individual use and ensures that each occupant is aware of how much electricity is being used, thereby likely resulting in aggregate energy savings for a condominium project.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2256 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Nishihara).

SCRep. 2440 Economic Development and Technology on S.B. No. 2698

The purpose and intent of this measure is to authorize the Comptroller to designate a replacement to serve as chair of the Information Privacy and Security Council.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, University of Hawaii System, Office of Information Management and Technology, and Information Privacy and Security Council.

Your Committee finds that when the Information Privacy and Security Council was first established, the State did not yet have a full-time Chief Information Officer to provide the overall direction and vision for information technology. As information security and privacy currently fall under the purview of the Chief Information Officer and are being addressed in the information technology strategic plan that is currently under development, naming the Chief Information Officer as chair of the Information Privacy and Security Council aligns the Council's responsibilities with the State's strategic vision.

Your Committee has amended this measure by:

- (1) Replacing the Comptroller with the Chief Information Officer to serve as chair of the Information Privacy and Security Council; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2698, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2441 Human Services on S.B. No. 2805

The purpose and intent of this measure is to reduce from five to three the minimum number of resident board member candidates that the Resident Advisory Board of the Hawaii Public Housing Authority must submit to the Governor for consideration for appointment to the Authority's Board of Directors.

Your Committee received testimony in support of this measure from the Department of Human Services; the Hawaii Public Housing Authority of the Department of Human Services; and two individuals.

Your Committee finds that when the resident member seat on the Hawaii Public Housing Authority Board of Directors becomes vacant, the Resident Advisory Board of the Hawaii Public Housing Authority is required to submit a list of five names for consideration by the Governor. In situations where there are less than five interested individuals, the Resident Advisory Board is unable to provide a list to the Governor for consideration and may cause the resident member seat to remain vacant for extended periods.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2805 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Slom).

SCRep. 2442 (Joint) Human Services and Education on S.B. No. 2800

The purpose and intent of this measure is to add exemptions from child care licensing by the Department of Human Services for any kindergarten, school, or child care program licensed by the Charter School Review Panel, the Hawaii Council of Private Schools, or any federal agency and for child care programs conducted by counties.

Your Committees received testimony in support of this measure from the Department of Human Services and the Hawaii Association of Independent Schools. Your Committees received testimony in opposition to this measure from the Hawaii Association for the Education of Young Children.

Your Committees find that as kindergartens, schools, and child care programs are already licensed by the Charter School Review Panel, the Hawaii Council of Private Schools, and federal agencies that administer them, there is no justification for the Department of Human Services to also license these kindergartens, schools, and child care programs.

Your Committees also note the Hawaii Association for the Education of Young Children's opposition to the measure in its current form to the extent that it includes licensing exemptions for child care programs conducted by counties for children from birth through age five who receive child care subsidies.

Your Committees therefore request the Department of Human Services to confer with the Hawaii Association for the Education of Young Children to address and make recommendations to allay the concerns regarding children who receive child care subsidies. Your Committees also request the Department to work with the Hawaii Association of Independent Schools to ensure that the program the Association develops meets the Department's licensing standards and that the Association has the capacity to take over the Department's responsibilities of child care licensing.

Your Committees note that according to the Hawaii Association of Independent Schools' testimony, should the Hawaii Association of Independent Schools and the Hawaii Council of Private Schools become responsible for licensing child care programs, the existing elementary and secondary licensing program would require some modification to reflect the rigorous standards expected for schools with responsibility for young children.

Your Committees have therefore amended this measure by extending the effective date to July 1, 2013, to ensure sufficient time to develop and implement a comprehensive private school child care licensing program.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2800, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2800, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Ihara, Nishihara, Taniguchi).

SCRep. 2443 Public Safety, Government Operations, and Military Affairs on S.B. No. 2866

The purpose and intent of this measure is to create the Offender Reentry Office to oversee the comprehensive offender reentry system and restore the purpose of the intake service centers to screen, evaluate, and classify the admission of persons to community correctional centers.

Your Committee received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, and Drug Policy Forum of Hawai'i.

Your Committee finds that existing statutes require that the intake service centers also provide reentry services. Chapter 353H, Hawaii Revised Statutes, relating to the comprehensive offender reentry system, was enacted specifically to address an offender reentry system. However, your Committee believes that little has been done to implement offender reentry programs and services which may account for, among other things, prison overcrowding since inmates cannot get the programs and services required to release them from incarceration and onto parole.

Your Committee further finds that the responsibility of providing reentry services requires an entirely different set of skills than intake services. Rather than combining the two functions into the same unit, this measure separates the offender reentry services into a separate office that is intended to provide enhanced effectiveness of reentry services to reduce recidivism and enhance public safety by improving programs and services for offenders exiting correctional facilities.

According to testimony of the Department of Public Safety, the Offender Reentry Office will specialize in designing, monitoring, and evaluating programs and services to reduce recidivism, prevent further victimization, and enhance public safety. A variety of programs and services are essential during an offender's transition to the community to enable an offender to acquire the appropriate skills and treatment to re-enter the community and reduce recidivism.

Your Committee has amended this measure by:

- (1) Requiring the Offender Reentry Office to work closely and collaborate with community partners such as organizations, businesses, and concerned citizens;
- (2) Reconstituting the Reentry Commission, established by Act 24, Special Session Laws of Hawaii 2009 (Act 24), as follows:
 - (A) Three members to be selected by the Governor, one of whom shall be a rehabilitated former inmate;
 - (B) Three members to be selected by the Senate President;
 - (C) Three members to be selected by the Speaker of the House of Representatives; and
 - (D) Making the Reentry Coordinator an ex officio nonvoting member;
- (3) Amending Act 24 to require the Reentry Commission to ensure that the comprehensive offender reentry system under chapter 353H, Hawaii Revised Statutes, is implemented as soon as practicable to provide programs and services that result in the release of inmates onto parole when maximum terms have been served instead of delaying the release for lack of programs and services;
- (4) Further amending Act 24 to change the repeal date of the Reentry Commission from July 1, 2014, to December 1, 2015; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2866, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2444 Commerce and Consumer Protection on S.B. No. 3062

The purpose and intent of this measure is to require viatical settlement providers to be licensed by the Insurance Commissioner and require the Insurance Commissioner to regulate the conduct of this business.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the National Association of Insurance and Financial Advisors Hawaii, and American Council of Life Insurers.

Your Committee finds that a viatical settlement contract is a means for a terminally ill person to receive a cash payment for that person's life insurance policy prior to that person's death. A life settlement contract is similar to a viatical settlement contract but is available without regard to a policyholder's life expectancy.

Your Committee further finds that thirty-nine states currently regulate viatical or life settlements. Act 177, Session Laws of Hawaii 2008, was Hawaii's insurance regulation of viatical and life settlement contracts. Act 177, which was codified upon enactment as chapter 431E, Hawaii Revised Statutes, implemented the Life Settlements Model Act as adopted by the National Conference on Insurance Legislators. Chapter 431E, Hawaii Revised Statutes, was intended to protect individuals, particularly senior citizens and those suffering from chronic or terminal illness, from fraudulent activity relating to the selling and buying of life insurance policies, but Act 177 sunsetted in 2010.

However, later in 2010, Act 59, Session Laws of Hawaii 2010, was enacted to reestablish life settlement contracts and the appropriate license fees for those contracts. Nevertheless, the fees established in Act 59 were short lived because in 2011, Acts 81 and 186, Session Laws of Hawaii 2011, repealed the provisions for life settlement contracts in section 431:7-101(a) and (b), Hawaii Revised Statutes.

Due to the repeal provisions in Acts 177, 81, and 186, life settlements are currently unregulated in Hawaii. Your Committee concludes that Hawaii consumers and the elderly need effective and comprehensive laws, such as the establishment of chapter 431E in Act 177, to protect against stranger-originated life insurance transactions and other fraudulent life settlement practices.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting certain provisions from Act 177, Session Laws of Hawaii 2008, which:
 - (A) Implements the Life Settlements Model Act adopted by the National Conference of Insurance Legislators, which regulates permissible life settlement contracts and prohibits stranger-originated life insurance transactions; and
 - (B) Permits the collection of licensing and regulatory service fees;
- (2) Making permanent the fees for life settlement contract providers and life settlement contract brokers;
- (3) Inserting an effective date of July 1, 2012; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3062, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3062, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Nishihara).

SCRep. 2445 Water, Land, and Housing on S.B. No. 2906

The purpose and intent of this measure is to require the Department of Land and Natural Resources to adopt rules for the operation of thrill craft to conduct ocean cleanup activities.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and three individuals.

Your Committee finds that thrill craft are being used by lifeguards, fire departments, and state agencies due to their ability to operate in shallow water with no threat to natural resources. With this advanced technology, your Committee finds that thrill craft have become a valuable tool when dealing with issues in nearshore waters. This measure would allow thrill craft to be used for timely ocean cleanup of pollution in our nearshore waters.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2906, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2906, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2446 Energy and Environment on S.B. No. 2873

The purpose and intent of this measure is to:

- (1) Exempt secondary actions from the state environmental impact statements law, chapter 343, Hawaii Revised Statutes; and
- (2) Require applicants, rather than affected agencies, to prepare environmental assessments for certain proposed actions.

Your Committee received testimony in support of this measure from the Department of Transportation, The Chamber of Commerce of Hawaii, Building Industry Association, Land Use Research Foundation of Hawaii, and National Association of Industrial and Office Properties of Hawaii. Your Committee received testimony in opposition to this measure from the Office of Environmental Quality Control, Sierra Club, and The Outdoor Circle. Your Committee received comments on this measure from Hawaiian Electric Company, Inc.

Your Committee finds that this measure will relieve agencies from conducting environmental assessments when the agencies have not proposed the action. By requiring an applicant for a proposed action to prepare the environmental assessment in lieu of the approving agency, this measure prevents waste of taxpayer monies. This measure will also prevent unnecessary delays for secondary actions that would be clearly exempt from environmental assessment requirements, such as an installation of a utility line across a public right-of-way.

Your Committee has amended this measure by:

- (1) Deleting language that requires certain secondary actions to be exempt from chapter 343, Hawaii Revised Statutes;
- (2) Adding language that authorizes an agency to exempt certain secondary actions from chapter 343, Hawaii Revised Statutes;
- (3) Inserting language clarifying that the applicant for the primary action is the applicant responsible for submitting documentation from the appropriate agency confirming that no further discretionary approvals are required;
- (4) Clarifying that a secondary action refers to any action on infrastructure within the highway or public right-of-way that is ancillary or incidental to the primary action;

- (5) Deleting the measure's repeal date; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2873, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2873, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2447 (Joint) Energy and Environment and Water, Land, and Housing on S.B. No. 2745

The purpose and intent of this measure is to add priority guidelines to the Hawaii State Planning Act, chapter 226, Hawaii Revised Statutes, to address the expected impacts of climate change.

Your Committees received testimony in support of this measure from the Office of Planning, Department of Planning and Permitting of the City and County of Honolulu, University of Hawai'i School of Ocean and Earth Science and Technology, Building Industry Association, The Chamber of Commerce of Hawaii, The Nature Conservancy, Center for Island Climate Adaptation and Policy, and Marine and Coastal Zone Advocacy Council. Your Committees received comments on this measure from the Windward Ahupua'a Alliance.

Your Committees find that climate change is a serious threat to the State of Hawaii and its people, natural resources, economy, food and water security, and public infrastructure. Adding climate change priority guidelines to the Hawaii State Planning Act will provide the basis for climate change considerations in all state and county planning, the necessary authority for agencies to commit resources, and a statewide framework to guide state and county agencies, as well as other stakeholders, in reducing Hawaii's vulnerability and increasing resilience to the effects of climate change.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy and Environment and Water, Land, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2745, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2745, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Tokuda, Slom).

SCRep. 2448 Judiciary and Labor on S.B. No. 2158

The purpose and intent of this measure is to require law enforcement agencies to accept cash bail, certified copies of pre-filed bail bonds, and original bail bonds when the court is closed, including nights, weekends, and holidays, to facilitate the prompt release of the detainee after bail is accepted.

Your Committee received testimony in support of this measure from the Professional Bail Agents of Hawaii; Da Kine Bail Bonds, Inc.; and one private individual. The Department of Public Safety and the Office of the Public Defender submitted comments.

Your Committee finds that if a person is taken into custody during non-regular business hours, such as during the night, weekend, or holiday, that person is not able to post bail because the courts are closed, even if the person possesses the bail amount at that time. Individuals are required to pay their bail amount at the courts only during regular business hours. Thus, even if a person who is detained Friday night possesses the bail amount on Friday, that person will remain detained until Monday morning, when the court opens. This measure ensures the right to bail at all hours, not just during normal business hours.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2158 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2449 Judiciary and Labor on S.B. No. 2971

The purpose and intent of this measure is to amend the negligent injury offense laws to include more types of vehicles that if operated by a person in a negligent manner that results in the bodily injury of another person, would constitute the offenses.

Your Committee received testimony in support of this measure from the Department of Transportation; the Department of the Prosecuting Attorney of the County of Maui; the Maui Police Department; Mothers Against Drunk Driving Hawaii; and one private individual.

Your Committee finds that a person is guilty of a negligent injury offense if that person causes serious or substantial bodily injury to another person while operating a motor vehicle. This measure allows this negligent injury offense to also include the negligent operation of a moped or vessel. Adding a broader definition for vehicles under the Hawaii penal code will hold vehicle operators more accountable for their actions, especially when their actions involve the safety of others.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2971 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2450 Judiciary and Labor on H.B. No. 461

The purpose and intent of this measure is to ensure the ability of members of the military and others eligible voters who are overseas to participate in all elections for federal, state, and local offices by adopting the Uniform Military and Overseas Voters Act.

Your Committee received testimony in support of this measure from the United States Department of Defense State Liaison Office, the Federal Voting Assistance Program of the United States Department of Defense, the Department of Defense, the Commission to Promote Uniform Legislation, and the Oahu Veterans Center. Testimony in opposition to this measure was submitted by the Office of Elections, the Office of the County Clerk of the County of Maui, and Office of the County Clerk of the County of Kauai.

Your Committee finds that military personnel and overseas civilians face a variety of challenges when voting in United States elections, such as difficulty in registering abroad, frequent address changes, slow mail delivery, ballots or ballot applications that never arrive, difficulty in obtaining information about candidates or the issues, the inability to comply with notarization or verification procedures, or failure to properly comply with non-essential requirements for absentee materials. The federal Uniformed and Overseas Citizens Absentee Voting Act of 1986 and the Military and Overseas Voter Empowerment Act of 2009 have not been wholly effective in overcoming the difficulties overseas voters face. Furthermore, these federal laws do not apply to state or local elections, which results in states conducting elections under procedures that vary dramatically from state to state. The lack of uniformity between jurisdictions and the non-applicability of federal law complicate efforts to engage voters and represents a major impediment to the ability of military personnel and overseas civilians to vote.

By adopting the Uniform Military and Overseas Voters Act, this measure addresses these issues by extending the assistance and protections for military and overseas voters under existing federal law to state elections. This measure also uniformly applies the military and overseas voting process to all covered elections of which the State has primary administrative responsibility.

Your Committee has amended this measure by adopting the proposed language submitted by the Commission to Promote Uniform Legislation by:

- (1) Adding clarifying language regarding the role and authority of the chief elections officer and allowing the chief elections officer to use a system developed by the United States Department of Defense's Federal Voting Assistance Program in lieu of developing a new system in order to comply with the electronic transmission system requirement;
- (2) Deleting language regarding the methods of informing the election officials that the voter is a covered voter under the new chapter;
- (3) Adding language that aligns timeframes for overseas ballot applications with current timetables used by the chief elections officer;
- (4) Incorporating the "standing request for ballot transmission" concept, and clarifying that the standing request shall run only through December 31 of the year of the request, instead of December 31 of the following year;
- (5) Requiring application ballots arriving after the forty-five day window be filled within two business days or as soon as allowable after the application arrives;
- (6) Adopting the "close of polls" standard for the casting and receipt of ballots to roughly have the same effect under existing Hawaii law and election procedures;
- (7) Changing the election notice publication requirement from one hundred days to as soon as practicable, and inserting language that bolsters the ability of election officials to satisfy this requirement electronically;
- (8) Prohibiting the award of attorney's fees in any private cause of action;
- (9) Making conforming amendments to the absentee voter laws;
- (10) Changing the effective date of this measure from July 1, 2020, to July 1, 2012; and
- (11) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 461, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 461, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2451 Judiciary and Labor on S.B. No. 2486

The purpose and intent of this measure is to include pets and livestock as property that, if threatened to be damaged or harmed, may constitute the offense of terroristic threatening.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society and fifty-four private individuals. Testimony in opposition to this measure was submitted by one private individual. The Office of the Public Defender submitted comments.

Your Committee finds that this measure clarifies that threatening to cause serious damage to the property of another person includes threatening to damage or harm the pets and livestock of that person under the terroristic threatening offense. However, your Committee notes the concerns raised by the Office of the Public Defender regarding language in this measure that may be

misinterpreted to mean that the defendant committed a felony with the intent to terrorize the pet or livestock rather than the person. This interpretation could result in the prosecution having to prove that the pet or livestock animal felt terrorized, which is difficult to prove.

As such, your Committee has amended this measure by:

- (1) Removing language to clarify that the terrorization is to another person, not the pet or livestock animal;
- (2) Inserting a savings clause;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2486, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2452 Judiciary and Labor on S.B. No. 2492

The purpose and intent of this measure is to ensure that dogs at large-scale breeding facilities receive a minimum standard of care. Specifically, this measure:

- (1) Prohibits the ownership or custody of more than thirty dogs over the age of six months with intact sexual organs;
- (2) Requires owners of ten or more dogs over the age of six months with intact sexual organs to meet minimum standards of care to ensure the proper treatment and care of the dogs and the dogs' offspring;
- (3) Requires owners of ten or more dogs over the age of six months with intact sexual organs to maintain specific written records of each dog for a specified period;
- (4) Prohibits certain types of dogs to be placed in the same enclosure; and
- (5) Establishes penalties.

Your Committee received testimony in support of this measure from the Hawaiian Human Society, the Maui Humane Society, and ninety-four private individuals. Testimony in opposition to this measure was submitted by the American Kennel Club, the Hawaiian Kennel Club, and twenty-three private individuals.

Your Committee finds that profit-driven breeding is prevalent in Hawaii. Recent research conducted by the Hawaiian Humane Society reveals that during a two-week period in November on Oahu, over three hundred sixty puppies were available for sale. This number projected over a one-year period is approximately \$9,400,000 in revenues from the sale of dogs. Unfortunately, existing state and federal laws regarding the care and husbandry of dogs inadequately regulate large-scale breeding facilities in Hawaii. This measure ensures that dogs at large-scale breeding facilities receive sanitary living conditions, proper and timely medical care, the ability to move freely at least once a day, and adequate shelter from the elements.

Your Committee has amended this measure by:

- (1) Adopting amendments suggested by the Hawaiian Humane Society to:
 - (A) Clarify minimum standards of care, including regular exercise, sufficient food and clean water, sufficient housing or shelter, sufficient space for movement, and veterinary care;
 - (B) Lower the age of a dog entitled to receive a minimum standard of care from six to four months in order to conform to county minimum dog age requirements for licensing;
 - (C) Clarify the recordkeeping requirements applied to owners of more than ten dogs and add a recordkeeping requirement for microchip implants;
 - (D) Prohibit the breeding of a dog to produce more than two litters in any eighteen-month period; and
 - (E) Insert a severability clause;
- (2) Amending language to prohibit the ownership or custody of more than thirty dogs over the age of one year rather than six months;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2492, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2453 Judiciary and Labor on S.B. No. 2503

The purpose and intent of this measure is to:

- (1) Add equines to those animals that may be subject to forfeiture prior to the final disposition of an animal cruelty case, upon a petition by certain entities for forfeiture of the animal;
- (2) Allow the petitioner an award of attorney's fees and court costs incurred by the petitioner in the filing of the petition for forfeiture of an animal; and
- (3) Cover any offspring born during a pet animal's or equine's impoundment under section 711-1109.2, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, the Hawaiian Humane Society, and seventy-three private individuals.

Your Committee finds that Hawaii's animal cruelty laws acknowledge equine animals as companion animals like other pet animals that typically have special meaning to or a relationship with their owners. However, the forfeiture law does not include equines that are often held in limbo during animal cruelty investigations. As such, this measure provides the same protections to equine animals that are afforded to pet animals.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Hawaiian Humane Society to:
 - (A) Use "equine animal" throughout this measure rather than "equine" to be consistent with its definition;
 - (B) Amend section 711-1109.1, Hawaii Revised Statutes, relating to the impoundment of animals, to include equine animals;
 - (C) Allow the court discretion to determine whether attorney's fees shall be awarded to the petitioner and clarify that such award shall serve as restitution following the conviction of the defendant; and
 - (D) Clarify that a pet animal or equine animal includes any offspring from a pet animal or equine animal that was pregnant at the time of the rescue and born during the impoundment of the pet animal and equine animal;
- (2) Adding a savings clause;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2503, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2503, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2454 Judiciary and Labor on S.B. No. 2703

The purpose and intent of this measure is to ensure that state child support enforcement laws are in compliance with recently enacted federal laws. Specifically, this measure:

- (1) Clarifies the requirement for new hire reporting to include the date on which services for remuneration were first performed by the employee as part of the information furnished by employers to the Hawaii Child Support Enforcement Agency, a division within the Department of the Attorney General; and
- (2) Clarifies that employers receiving a notice of medical support have twenty business days after the notice date to transfer the notice to the appropriate plan providing health care coverage and are required to notify the Hawaii Child Support Enforcement Agency when employment is terminated.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that the federal Claims Resolution Act requires employers to report to the State Directory of New Hires the date on which an employee first performs services for pay. This is an anti-fraud measure aimed at reducing the number of overpayments to individuals receiving unemployment insurance benefits. This measure will allow the State to comply with this new federal reporting requirement, which became effective on June 8, 2011.

Your Committee further finds that amendments to the federal Social Security Act requires employees to transfer a medical support notice twenty days after receiving the notice to the appropriate plan providing health care coverage and requires employers to notify the state child support enforcement agency when employment is terminated. This measure will allow the State to comply with this new federal requirement, which also became effective on June 8, 2011.

Your Committee recognizes that this measure not only ensures compliance with federal law, but also maintains eligibility for federal welfare funding and federal funding of child support enforcement programs.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2703, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2703, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2455 Judiciary and Labor on S.B. No. 2720

The purpose and intent of this measure is to repeal certain laws under chapter 414D, Hawaii Revised Statutes, the Hawaii Nonprofit Corporations Act, that authorize nonprofit corporations to covert to other legal entities.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that certain laws under the Hawaii Nonprofit Corporations Act do not conform to the Revised Model Nonprofit Corporations Act, which Hawaii's law is based on, and allows the assets of a charitable corporation to be converted and used for non-charitable purposes. These provisions are an invitation to abuse.

Assets held for charity, whether trust, or corporate form, should be in a "lock box." The charity may dissolve and distribute its assets to other charities, use the assets for purposes of charitable or program services, or sell its assets and use the proceeds to support its charitable purposes. However, allowing charities to convert to a for-profit is antithetical to the concept that charitable assets should be perpetually devoted to charitable uses.

Your Committee notes that in April 2010, the attorneys for American Pacific University notified the Department of the Attorney General of its plans to file articles of conversion to covert the nonprofit corporation into the for-profit American Pacific University Inc. In June 2011, American Pacific University attained a for-profit status. This measure will prevent additional charitable corporations from doing the same and ensure that charitable assets continue to be used for charitable purposes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2720, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2720, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2456 Judiciary and Labor on S.B. No. 2845

The purpose and intent of this measure is to require the Director of Labor and Industrial Relations to make a decision, without a hearing, within thirty days of the filing of a workers' compensation dispute between an employee and the employer or the employer's insurer regarding a proposed treatment plan or whether medical services should continue.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; the United Public Workers, AFSCME Local 646, AFL-CIO; the Hawaii Laborers' Union; and two private individuals. Testimony in opposition to this measure was submitted by the Property Casualty Insurers Association of America; the Society for Human Resource Management, Hawaii Chapter; and two private individuals. The International Longshore and Warehouse Union Local 142 submitted comments.

Your Committee finds that when a workers' compensation dispute is filed regarding a proposed treatment plan or whether medical services should be continued, the Director of Labor and Industrial Relations is required to make a decision within thirty days of the filing of the dispute. Due to the reduction of staff, the Department of Labor and Industrial Relations currently takes three to four months to schedule a hearing, provide notice to the parties, conduct the hearing, and render a decision. This measure allows injured workers, insurance carriers, and employers to obtain more prompt decisions and reduces the number of hearings scheduled. Moreover, this measure provides the Director greater ability to meet the thirty day deadline to render a decision.

Your Committee recognizes the testimony submitted by the Property Casualty Insurers Association of America that suggests this measure presents barriers because employers will have insufficient time to solicit a supporting medical opinion to counter unreasonable and unnecessary medical treatment requests. Furthermore, Property Casualty Insurers indicated that eliminating the hearing requirement deprives the Director of a complete record on which to render a decision on whether the proposed treatment plan or medical service is appropriate and effective for the injured worker. Instead, Property Casualty Insurers suggested language that would allow a hearing to be waived only upon the mutual consent of both parties. Your Committee believes this matter merits further discussion and encourages Property Casualty Insurers Association of America, the Department of Labor and Industrial Relations, and the Hawaii Insurers Council to discuss this matter as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Amending the language to allow rather than require the Director of Labor and Industrial Relations to make a decision on disputes regarding treatment plans and continued medical services without a hearing;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2845, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Ihara).

SCRep. 2457 Judiciary and Labor on S.B. No. 2858

The purpose and intent of this measure is to:

- (1) Establish a process for a state agency to seek judicial review by a circuit court of a decision rendered by the Office of Information Practices that directs the agency to disclose a requested record under the Uniform Information Practices Act or prohibits disclosure under the Sunshine Law;
- (2) Require a circuit court to consider the opinions and rulings of the Office of Information Practices as precedent unless found to be palpably erroneous; and
- (3) Specify that the opinion or ruling upholding the agency's denial of access to the requestor shall be reviewed de novo.

Your Committee received testimony in support of this measure from the Office of the Governor; the Department of Public Safety; the Department of Human Resources Development; the Department of Commerce and Consumer Affairs; the Department of Taxation; the Department of Land and Natural Resources; the Office of Information Practices; the Board of Education; the Executive Office on Aging; the Hawaii Public Housing Authority; the Office of Language Access; the Hawaii Community Development Authority; the League of Women Voters of Hawaii; the Hawaii Employers' Mutual Insurance Company, Inc.; and one private individual. Testimony in opposition to this measure was submitted by three Council Members of the County Council of Maui and one private individual.

Your Committee finds that the Uniform Information Practices Act allows members of the public whose record requests are denied by a government agency to have the Office of Information Practices review the agency's denial. If the Office upholds the agency's decision to deny the record request, the requestor may bring an action in circuit court for a de novo review of that decision. However, the Uniform Information Practices Act does not provide a similar process for a government agency to file an action in circuit court to appeal an adverse decision rendered by the Office of Information Practices. As such, this measure establishes a uniform process for a state agency to seek judicial review of a decision rendered by the Office of Information Practices that directs the agency to disclose a requested record.

Your Committee recognizes the concerns that this measure lacks a reasonable time limit for an agency to file a complaint in circuit court to appeal an adverse decision. The Office of Information Practices suggested a time limit of thirty days based on the time period permitted for appeals of administrative and judicial decisions.

As such, your Committee has amended this measure by:

- (1) Requiring that an agency has thirty days from the date of the adverse decision to file a complaint in circuit court to initiate a special proceeding for judicial review;
- (2) Inserting a savings clause;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2858, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Slom).

SCRep. 2458 Judiciary and Labor on S.B. No. 2859

The purpose and intent of this measure is to improve government efficiency by providing additional tools for state board and commission members and the public to receive and access information. Specifically, this measure:

- (1) Allows board and commission members to hear public testimony and presentations on items listed on an agenda during a scheduled meeting even though that meeting must be cancelled due to the lack of quorum, with certain limitations;
- (2) Allows less than a quorum of board and commission members to attend informational meetings or presentations on matters related to official board business, with certain limitations;
- (3) Allows less than a quorum of board and commission members to discuss official board business via social media; provided that the discussion is continuously accessible for public viewing and participation and meets other requirements;
- (4) Clarifies that written public notice shall be given for emergency meetings when anticipated in advance; and
- (5) Provides for the electronic filing of meeting notices.

Your Committee received testimony in support of this measure from the Office of the Governor; the Department of Commerce and Consumer Affairs; the Department of Public Safety; the Department of Human Resources Development; the Department of Transportation; the Department of Taxation; the Department of Hawaiian Home Lands; the Department of Land and Natural Resources; the Department of Business, Economic Development, and Tourism; the Board of Education; the Office of Information Practices; the Hawaii Strategic Development Corporation; the High Technology Development Corporation; the Office of Language

Access; the Office of Information Management and Technology; the Hawaii Public Housing Authority; the Executive Office on Aging; the Hawaii Community Development Authority; the Department of Planning and Permitting of the City and County of Honolulu; six members of the County Council of Maui; one member of the Hawaii County Council; the Chamber of Commerce of Hawaii; the Building Industry Association of Hawaii; the Hawaii Employers' Mutual Insurance Company, Inc.; and one private individual. Testimony in opposition to this measure was submitted by one private individual. The Office of Hawaiian Affairs and Common Cause Hawaii submitted comments.

Your Committee finds that chapter 92, Hawaii Revised Statutes, the Sunshine Law, requires a quorum for a state board or commission to conduct business and make any board or commission action valid. However, there are a number of permitted interactions between board or commission members consisting of less than a quorum to conduct limited business without violating the Sunshine Law. This measure provides additional permitted interactions to allow less than a quorum of members to attend informational meetings or presentations, and allow members present at a cancelled scheduled meeting to only hear public testimony on the items listed on the filed agenda. Furthermore, this measure incorporates technology by allowing members to discuss board or commission business via social media and allowing meeting notices to be electronically filed and posted on the State's electronic calendar.

Your Committee recognizes the concerns raised in the testimony regarding ensuring a certain level of privacy when using social media for board discussions and implementing the electronic filing of meeting notices. As a result, your Committee requested the Office of Information Practices to address these concerns. Your Committee notes that the discussion regarding electronic notices has been addressed in S.B. No. 2234, Regular Session of 2012, as amended.

As such, your Committee has amended this measure by:

- (1) Inserting a repeal date of June 30, 2016, for less than a quorum of board or commission members to discuss business via social media; provided that the board or commission has previously adopted a social media use policy and no commitment to vote is made;
- (2) Removing language that provides for the electronic filing of meeting notices; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2859, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2859, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2459 Judiciary and Labor on S.B. No. 2899

The purpose and intent of this measure is to amend the Hawaii Rules of Evidence to allow the prosecution to attack the character of the accused when the accused attacks the character of the alleged victim.

Your Committee received testimony in support of this measure from the Judiciary, and the Office of the Prosecuting Attorney of the County of Hawaii. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that in general, evidence of a person's character or a trait of a person's character is not admissible for the purpose of proving action in conformity with a particular occasion. As such, the accused may attack the alleged victim's character and remain shielded from equally relevant evidence concerning the same character trait of the accused. This measure conforms rule 404(a)(2), Hawaii Rules of Evidence, to its federal counterpart, the Federal Rules of Evidence, and provides that when the accused attacks the character of the alleged victim, the door is open for an attack on the same character trait of the accused.

Your Committee notes the example provided in the Judiciary's testimony that involves a homicide or assault case in which the defense asserts self defense. The question typically presented is whether the accused or the victim was the first aggressor. If the accused offers evidence of the violent character of the victim under Rule 404(a), Hawaii Rules of Evidence, this measure then allows the prosecution to offer similar evidence of the same character trait of the accused.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2899, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2899, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2460 Public Safety, Government Operations, and Military Affairs on S.B. No. 2402

The purpose and intent of this measure is to establish a night sky protection strategy requiring all state agencies to comply with shielded lighting fixture requirements, beginning July 1, 2013.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; Department of Land and Natural Resources; Starlight Reserve Committee; and University of Hawaii System. Comments were received from the Department of Transportation.

Your Committee finds that many of Hawaii's problems with light pollution are caused by improperly shielded lights. Poorly shielded lights direct energy straight into the atmosphere, where it is wasted. The wasted light produces sky glow, which limits residents' ability to see stars. For example, in Honolulu only about the brightest twenty stars are visible, whereas about two thousand stars can be seen from a dark location outside of Honolulu. Poorly shielded lights also cause glare, which diminishes a person's ability to see at night, and enter locations where the light is unwanted (light trespass), including bedrooms, making it difficult for residents to sleep. Improperly shielded lights on the island of Kauai have led to many bird deaths, particularly of the endangered Newell's shearwater. This measure sets reasonable light shielding requirements in order to preserve the night sky and quality of life for Hawaii's residents.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2402, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2461 Public Safety, Government Operations, and Military Affairs on S.B. No. 2820

The purpose and intent of this measure is to amend the duties of the Hawaii Advisory Commission on Drug Abuse and Controlled Substances to allow the Commission to focus on addressing the issue of substance abuse as a public health issue.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, and one individual. Testimony in opposition was received from the Drug Policy Forum of Hawaii.

Your Committee finds that this measure will more closely align the duties of the Commission with the core functions of public health, including assessment, policy development, and the assurance of appropriate public health services.

Your Committee expressed concern that, as a result of this measure, the Commission may not have the ability to advise the Department of Public Safety regarding controlled substances. However, testimony indicated that the Commission has not advised the Department of Public Safety for many years. It appears that the scheduling of controlled substances is largely a matter of federal law with rare exceptions for local circumstance. Nonetheless, your Committee prefers that there be open communication and dialogue between the Commission and the Narcotics Enforcement Division when appropriate.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2462 Judiciary and Labor on S.B. No. 2184

The purpose and intent of this measure is to make permanent the law that prohibits private transfer fees for the future transfer of real property by repealing its sunset date.

Your Committee received testimony in support of this measure from the Hawaii Association of Realtors.

Your Committee finds that a private transfer fee is a fee imposed by a private party that requires the payment of a certain amount, usually a percentage of the sales price, for future conveyances of a property, potentially in perpetuity. Because private transfer fees are funds due at closing, they can be a substantial burden for real property buyers. Moreover, because these restrictions run with the land, these fees may not be disclosed to subsequent purchasers of the property. By prohibiting private transfer fees, this measure prevents such fees from creating a financial barrier to homeownership and from misuse.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2184 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2463 Judiciary and Labor on S.B. No. 2221

The purpose and intent of this measure is to address a weakness in the State's child pornography laws and provide greater protection for children by addressing instances of possession of particularly violent or egregious child pornography. Specifically, this measure amends the offense of promoting child abuse in the second degree to include possession of thirty or more images of child pornography, where the content of at least one image contains a minor younger than the age of twelve, sadomasochistic abuse of a minor, or bestiality involving a minor.

Your Committee received testimony in support of this measure from the Department of the Attorney General and two private individuals.

Your Committee finds that child pornography is a permanent record of the actual sexual abuse, exploitation, and assault of innocent and helpless children. However, Hawaii's child pornography laws are weak and do not distinguish between the various forms of child pornography. Currently, possession of any form of child pornography is covered under the offense of promoting child abuse in the third degree, but a violation is only a class C felony. This measure strengthens Hawaii's child pornography laws by amending the offense of promoting child abuse in the second degree, a class B felony, to include particularly violent or egregious child pornography.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2221, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2221, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2464 Judiciary and Labor on S.B. No. 2737

The purpose and intent of this measure is to amend the State's Sunshine Law to allow board and commission meetings to be conducted by any form of interactive conference technology that permits interaction by audio, or audio and visual means, provided that:

- (1) All members of a board and the public are able to interact with each other at least by audio communications;
- (2) The public is given notice of all the locations at which board members will be participating in the meeting, and the public may join members to participate in the meeting at those locations; and
- (3) An agenda item may not be considered if any meeting location is connected by audio-only technology, and copies of all visual aids brought or used to consider that item on the agenda are not available at all meeting locations within fifteen minutes after audio-only technology is used.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; the Department of the Attorney General; the Office of Information Practices; the Office of Information Management and Technology; the High Technology Development Corporation; the Department of Planning and Permitting of the City and County of Honolulu; and the Building Industry of Hawaii.

Your Committee finds that this measure will reduce the instances in which a board is unable to conduct business and the public is foreclosed from participating in government for lack of a quorum. As volunteers, most members of state and county boards and commissions have obligations that from time to time prevent them from attending a board meeting. More often, however, travel time to and from a board meeting is what keeps them from attending a meeting. This measure will allow board members to participate in their boards' meetings from locations closer to their homes, offices, or other locations.

Your Committee notes the discussion regarding the provision in this measure that requires all locations at which board members will be participating in the meeting to be accessible to the public. The Office of Information Practices clarified that the requirement depends on the board business matter, the type of board, and the location. Thus, this measure does not require a board member to select a location with space available to accommodate fifty or more people, but enough to accommodate those who are interested, and with audio or audio and visual means that best serve the situation. However, your Committee also recognizes the comments made from the High Technology Development Corporation that additional limits should be placed on the location requirement to address situations in which a board member is located in an area that cannot easily accommodate the public, such as if the board member attends a meeting from the member's hospital room while recuperating.

As such, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2737, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2737, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2465 Water, Land, and Housing on S.B. No. 2397

The purpose and intent of this measure is to prohibit counties from requiring installation or retrofitting of automatic fire sprinklers in new or existing one- or two-family dwelling units used only for residential purposes.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation; General Contractors Association of Hawaii; Building Industry Association of Hawaii; The Pacific Resource Partnership; Gentry Homes, Ltd.; Alan Shintani Inc.; and Complete Construction Services. Testimony in opposition to this measure was received from the Department of Labor and Industrial Relations, County of Maui Department of Fire and Public Safety, Kauai Fire Department, City and County of Honolulu Board of Water Supply, and one individual.

Your Committee finds that there have been significant improvements to the fire safety of homes over the past few decades, which has led to a dramatic and continued decrease in fire incidents, injury, death, and property loss. Further, no data exists that suggests that the installation or retrofitting of automatic sprinklers will significantly improve the fire safety of homes. Therefore, your Committee finds that the mandatory installation of automatic fire sprinklers is unnecessary at this time. However, to encourage further discussion on the issue, your Committee has retained the effective date of January 1, 2025.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2466 Water, Land, and Housing on S.B. No. 2375

The purpose and intent of this measure is to allow agricultural-based commercial operations in agricultural districts and to include agricultural-based commercial operations under the definition of "farming operation" in chapter 165, Hawaii Revised Statutes, the Hawaii Right to Farm Act.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farm Bureau Federation, Kamehameha Schools, and Kahuku Farms. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that existing laws do not permit agricultural-based commercial operations in agricultural districts. This restriction increases permitting requirements, limits farmers' economic opportunities, and places farmers at a disadvantage with neighboring landowners. By allowing agricultural-based commercial operations in agricultural districts, this measure will improve and diversify farmers' economic opportunities.

Your Committee has amended this measure by:

- (1) Specifying that the allowed agricultural-based commercial operations be producer-operated;
- (2) Including the sale of logo items related to a producer's agricultural operations and other food items as an agricultural-based commercial operation;
- (3) Including the preparation and sale of certain food by producer-operated retail food establishments as an agricultural-based commercial operation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2375, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2467 Judiciary and Labor on S.B. No. 2071

The purpose and intent of this measure is to provide county agencies the ability to access national criminal history record information in addition to state conviction information for the purposes of determining the employment suitability of prospective and existing employees. Specifically, this measure allows the counties to obtain criminal history record information for current and prospective employees for work involving liquor control investigations, for work in firefighting or emergency medical services that involves contact with children or dependent adults, and for work assisting vulnerable and disabled citizens during emergencies or crises.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, the Department of Human Resources of the City and County of Honolulu, the State Fire Council, the Honolulu Fire Department, the Department of Fire and Public Safety of the County of Maui, and the Kauai Fire Department.

Your Committee finds that the administration and hiring of county personnel is primarily based upon a merit system, in which individuals are selected for jobs based on their fitness and ability for public employment and employee retention is based on their demonstrated appropriate conduct and productive performance. Part of determining the fitness of a prospective employee is determining whether the applicant has a criminal history, and if so, assessing the relevancy and potential impact of the conviction on the applicant's fitness for the job.

Your Committee further finds that with the current influx of out-of-state individuals applying for civil service jobs in Hawaii, the counties do not have effective means of conducting a thorough background check, including reviewing prospective employees' convictions that occurred outside of the State. This measure authorizes the counties to obtain national criminal history record information for certain prospective employees, enabling the counties to make well-informed decisions regarding those prospective employees' fitness for jobs that involve liquor control or contact with children or vulnerable adults.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2071, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2071, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2468 Judiciary and Labor on S.B. No. 2669

The purpose and intent of this measure is to amend the deadline for filing nomination papers for a vacancy in the membership of the Board of Trustees of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Office of Elections, the Office of Hawaiian Affairs, the Office of the County Clerk of the County of Maui, and the Office of the County Clerk of the County of Kauai.

Your Committee finds that the State risks violating federal election laws during this year's Office of Hawaiian Affairs Board of Trustees vacancy election. The National Defense Authorization Act for Fiscal Year 2010, Public Law No. 111-84, requires mailing absentee ballots to uniformed and overseas voters no later than forty-five days prior to an election. Under existing state law, candidates for the vacancy election may file their candidacy papers up to fifty days prior to a general election. By placing the deadline for candidates to file at sixty days prior to the general election, which this measure proposes, the Office of Elections will have a sufficient amount of time within which to print and mail ballots to overseas and uniformed voters, and will not be at risk of violating the federal election law.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2669, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2669, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2469 Education on Gov. Msg. Nos. 524, 525, and 526.

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII TEACHER STANDARDS BOARD

- G.M. No. 524 EDWARD PATRICK, for a term to expire 6-30-2015;
G.M. No. 525 JUSTIN MEW, for a term to expire 6-30-2013; and
G.M. No. 526 TERRY HOLCK, for a term to expire 6-30-2014,

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Edward Patrick, Justin Mew, and Terry Holck to possess the requisite qualifications to be nominated to the Hawaii Teacher Standards Board.

Your Committee received testimony in support of the renomination of Edward Patrick from the Hawaii Teacher Standards Board and eight individuals.

Your Committee finds that Mr. Patrick graduated Magna Cum Laude from St. Leo College with a Bachelor's degree in Business Administration Management. Mr. Patrick received a Master's degree in Public Administration from Troy State University. Mr. Patrick went on to receive a Master's degree in Strategic Studies from Air University.

Mr. Patrick is a retired military officer. Over the past twelve years, Mr. Patrick has held a number of executive positions within the United States Air Force, United States European Command, United States Transportation Command, United States Pacific Command, Department of Defense Education Activity, and the Pentagon. Mr. Patrick currently serves as the Deputy Director of Human Resources for the United States Army Pacific Command.

Mr. Patrick also has experience serving as a member of a parochial school board and has served in numerous positions within the Department of Defense Dependents' School System, including the European Schools Council, Pacific Theater Education Council, and Federal Advisory Council for Dependent Education. Since moving to Hawaii, Mr. Patrick has served as the co-chair, along with the Superintendent of Education, of the Joint Venture Education Forum. He has also served as the non-voting military representative on the Board of Education.

Mr. Patrick currently serves as a member of the Hawaii Teacher Standards Board and serves on the Hawaii Teacher Standards Board's Budget, Personnel, and Strategic Committee, as well as the Teacher Education Committee.

Mr. Patrick stressed to your Committee that teacher licensing is the foundation upon which Hawaii can ensure that only well-trained teachers are teaching in Hawaii's public schools.

Mr. Patrick expressed to your Committee that his short-term goal as a member of the Hawaii Teacher Standards Board is to educate the public and the educational community about the mission and function of the Hawaii Teacher Standards Board. Mr. Patrick views the role and responsibility of the Hawaii Teacher Standards Board to set high teacher licensing standards to provide highly qualified teachers, promote professionalism, build confidence in the teaching profession, and provide more accountability.

Mr. Patrick's long-term goals are to see the Hawaii Teacher Standards Board be more responsive to teachers, make the licensing process more user-friendly, and make the Hawaii Teacher Standards Board self-sufficient. Mr. Patrick also noted that the Hawaii Teacher Standards Board must be cognizant of new and innovative ways of teaching to support and sustain highly qualified teachers in the State.

With his many years of working within the educational arena, your Committee believes that Mr. Patrick will continue to provide a unique perspective as a member of the Hawaii Teacher Standards Board.

Your Committee received testimony in support of the nomination of Justin Mew from the Hawaii Teacher Standards Board; Hawaii Government Employees Association, HGEA/AFSCME Local 152, AFL-CIO; and eight individuals.

Your Committee finds that Mr. Mew received his Bachelor's degree in Education, and Master's degrees in Secondary Education and Educational Administration from the University of Hawaii.

Mr. Mew is currently the Principal of Niu Valley Middle School. He previously served as the Principal of Aina Haina Elementary School, Vice Principal of Moanalua Intermediate School, Vice Principal of Aiea Intermediate School, and as a State Science Education Specialist.

Mr. Mew has received numerous awards and accolades and was named the Hawaii State Middle School Principal of the Year in 2011.

Mr. Mew provides the Hawaii Teacher Standards Board with the perspective of a sitting principal and a trained/certified teacher intake interviewer for the Department of Education. These roles have given Mr. Mew the experience of evaluating teachers for hiring and continued employment.

Mr. Mew stressed to your Committee the importance of having highly qualified and highly effective teachers in the classroom in order to support maximum student learning and growth. It is Mr. Mew's belief that there is a direct correlation between teacher quality and student achievement. As such, Mr. Mew sees the responsibilities of the Hawaii Teacher Standards Board to include establishing strong licensure standards and policies, participating in efforts relating to teacher quality, and establishing penalties for teacher misconduct, including license revocation.

Your Committee believes that Mr. Mew will bring valuable experience, knowledge, and leadership to the Hawaii Teacher Standards Board.

Your Committee received testimony in support of the nomination of Terry Holck from the Hawaii Teacher Standards Board, Hawaii State Teachers Association, and eight individuals.

Your Committee finds that Ms. Holck received a Bachelor's degree in Education from the University of Hawaii at Manoa. She has served as a teacher in various Department of Education public schools as well as at Voyager Charter School. Ms. Holck has also served as an educational trainer and a mentor for teacher candidates.

Ms. Holck testified that she first became interested in serving on the Hawaii Teacher Standards Board because she was concerned about the lack of response she and fellow teachers experienced when trying to get information from the Hawaii Teacher Standards Board. Since joining the Hawaii Teacher Standards Board in July 2008, Ms. Holck reported to your Committee that the Hawaii Teacher Standards Board has improved its customer service, responding to teachers within two days of an inquiry.

Ms. Holck currently serves as the Chairperson of the Hawaii Teacher Standards Board. She has also served on the Hawaii Teacher Standards Board's Teacher Standards Committee, Legislative Committee, and License Renewal Committee.

Ms. Holck's long-term goal as a member of the Hawaii Teacher Standards Board is to streamline the licensing processes, including the way data and information is shared between teacher preparation programs, the Hawaii Teacher Standards Board, and employers, to make the entire system more user friendly.

Your Committee finds that Ms. Holck's leadership qualities and commitment to education continue to make her an asset to the Hawaii Teacher Standards Board.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Kidani).

SCRep. 2470 Human Services on Gov. Msg. Nos. 528 and 529.

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

G.M. No. 528 CHRISTIAN BUTT, for a term to expire 6-30-2015; and

G.M. No. 529 JEFFREY OKAMOTO, for a term to expire 6-30-2015,

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Christian Butt and Jeffrey Okamoto to possess the requisite qualifications to be nominated to the State Council on Developmental Disabilities.

The State Council on Developmental Disabilities' federal mandate, Public Law 106-402, determines the composition of the Council to ensure that all stakeholders involved in the development, implementation, and use of developmental disability supports are represented. The law specifically requires that sixty percent of the membership of the Council be comprised of individuals with a developmental disability, their parents, or family members. Additionally, the following agencies are required to be represented on the Council: Department of Health; the agencies that administer funds provided under the Rehabilitation Act of 1973, the Individuals with Disabilities Education Act, the Older Americans Act of 1965, Titles V and XIX of the Social Security Act; the Protection and Advocacy Agency; the Centers for Excellence in Developmental Disability Education, Research, and Service; and agencies and private non-profit organizations concerned with services to individuals with developmental disabilities. Your Committee finds that the nominees meet the federal requirements for Council membership.

Your Committee received testimony in support of the nomination of Christian Butt from the Med-QUEST Division, Department of Human Services; the State Council on Developmental Disabilities; Hilopa'a; and three individuals.

Mr. Butt has an extensive background in public service and a thorough knowledge of contract administration. He is currently the Section Administrator of the Contracts Monitoring and Compliance Section of the Department of Human Services. Previous to his current position, he oversaw procurement activities as the Senior Contracts Manager for the Hawaii Health Systems Corporation and

the Contracts Manager for the School Based Behavioral Health Section and Director of the Procurement and Contracts Branch of the Department of Education. Mr. Butt also holds a Juris Doctorate from the William S. Richardson School of Law, University of Hawaii.

Testimony received by your Committee indicates that Mr. Butt has invaluable knowledge from his position with Med-QUEST and his involvement with the contract monitoring activities of the QUEST Expanded Access program. His expertise will strengthen the Council's advocacy to assure that individuals with developmental disabilities have access to and information on medical and dental care. Specifically, Mr. Butt's background and experience with the QUEST Expanded Access program will assist the Council in its State Plan activity to develop a one-page informational sheet that provides clear, concise, and current information on the QUEST Expanded Access program for individuals, families, caregivers, QUEST Expanded Access program care coordinators, and developmental disabilities case managers.

Your Committee finds that Mr. Butt's appointment would fulfill the federal requirement for a representative of Title XIX of the Social Security Act. Your Committee also finds that Mr. Butt's experience will provide the Council with valuable information regarding the issues and concerns for persons with developmental disabilities.

Your Committee received testimony in support of the nomination of Jeffrey Kunio Okamoto from the Department of Health; the State Council on Developmental Disabilities; Hilopa'a; the Center on Disability Studies, University of Hawaii; the Department of Pediatrics, John A. Burns School of Medicine, University of Hawaii; and one individual.

Dr. Okamoto is a medical doctor with an extensive background in pediatrics and developmental disabilities. Currently, Dr. Okamoto is the Medical Director and Interim Division Chief of the Developmental Disabilities Division (Medicaid Waiver) at the Department of Health; a Developmental-Behavioral Pediatrics Subspecialist at the Kapiolani Medical Center for Women and Children; and an Assistant Professor of Pediatrics at the John A. Burns School of Medicine, University of Hawaii.

Dr. Okamoto is a graduate of the John A. Burns School of Medicine at the University of Hawaii. He went on to do his residency in Los Angeles, California, at Kaiser Permanente specializing in pediatrics and later went on to complete a fellowship in developmental behavior pediatrics at the Children's Hospital, Los Angeles. Most recently, Dr. Okamoto was a Fellow at the Joseph P. Kennedy Jr. Foundation in Washington, D.C., where he was placed in Congress with the Senate Subcommittee for Children and Families in the Office of Senator Barbara Mikulski (D-Maryland), with the National Council on Disability, and in the Disability Policy Collaboration Office of The Arc of the United States.

Dr. Okamoto has received numerous awards for his work and contribution to the fields of pediatrics and developmental disabilities. He has demonstrated his strong interest and commitment to children and the developmentally disabled through his extensive involvement in local and national organizations dedicated to these communities.

Testimony received by your Committee indicates that Dr. Okamoto has extensive experience in evaluating, managing, and supporting children and teens with developmental disabilities. He has demonstrated to your Committee a strong motivation to utilize his tremendous wealth of knowledge and clinical experience in the area of developmental and intellectual disabilities. Dr. Okamoto's background and experience in general and developmental pediatrics, policy experience as a Kennedy Public Policy Fellow, and positions in the community on the federal and state level will contribute greatly to the Council's activities addressing the areas of community supports, early childhood, education, employment, and health.

Your Committee finds that Dr. Okamoto's appointment would fulfill the federal requirement for a representative of relevant state entities on the Council. He would serve as the representative for the Department of Health as a relevant State entity and in this capacity he would be the liaison to provide information to and from, and coordination with other Divisions within the Department of Health such as the Adult Mental Health and Child and Adolescent Mental Health Divisions.

Your Committee also finds that Dr. Okamoto's experience would provide the Council with direct and ongoing information about the status of the Developmental Disabilities Division's budget and programs. Furthermore, Dr. Okamoto's nomination will greatly assist the Council in establishing a comprehensive system of supports and services for individuals with developmental disabilities and their families.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 2471 Human Services on Gov. Msg. Nos. 530, 531, and 532.

Recommending that the Senate advise and consent to the nominations of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS

G.M. No. 530 JOHN A.H. TOMOSO, for a term to expire 6-30-2016;

G.M. No. 531 VALORIE TAYLOR, for a term to expire 6-30-2014; and

G.M. No. 532 JOY MIYASAKI, for a term to expire 6-30-2013,

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds John A.H. Tomoso, Valorie Taylor, and Joy Miyasaki to possess the requisite qualifications to be nominated to the Policy Advisory Board for Elder Affairs.

Your Committee received testimony in support of the nomination of John A.H. Tomoso from the Executive Office on Aging, Department of Health; the Department of Housing and Human Concerns, Maui County Office on Aging, County of Maui; the Policy

Advisory Board for Elder Affairs; the Hawaii Government Employees Association; the Hawai'i Public Health Association; Maui Native Hawaiian Chamber of Commerce; Papa Ola Lokahi; and four individuals.

Mr. Tomoso has extensive knowledge and experience in the public and nonprofit sectors as a social worker, administrator, grants specialist, and probation officer, to name a few of his professional experiences. He is currently the Executive Director of Hui No Ke Ola Pono, Inc. in Wailuku, Maui. He was also the Executive on Aging for the Maui County Office on Aging, a position he held for eight years. He has a Master's degree in Social Work from the School of Social Work at the University of Hawaii and has demonstrated his commitment to kupuna through his professional career and affiliations.

Testimony received by your Committee indicates that Mr. Tomoso is highly committed to serving the needs of the community and more specifically, the elderly. He demonstrates a keen awareness of the needs of Maui County kupuna and exhibits the ability to effectively communicate those needs.

Your Committee finds that Mr. Tomoso resides on the island of Maui, thus ensuring broader representation and perspectives on the Board. The neighbor island perspective that Mr. Tomoso provides is crucial to ensure that the direction of the Board encompasses the needs of all islands. His passion to make a positive contribution as demonstrated by his appointment to and service on numerous boards and commissions is a testament to his commitment to the work of the Policy Advisory Board for Elder Affairs.

Your Committee received testimony in support of the nomination of Valorie Taylor from the Executive Office on Aging, Department of Health; AARP; the Alzheimer's Association, Aloha Chapter; the Policy Advisory Board for Elder Affairs; Catholic Charities Hawai'i; Child & Family Service; Moiliili Community Center; and eight individuals.

Ms. Taylor is presently the Gerontology Program Director at Child and Family Service where she manages six programs and approximately 50 staff and volunteers providing services to approximately 1,500 seniors. Previously, Ms. Taylor was the Director of Assisted Living and Memory Support at Hi'olani Assisted Living at Kahala Nui, and she has held multiple leadership and managerial positions in residential care facilities in Hawaii. She has also held positions on various boards, coalitions, and task forces focused on health and social services. Ms. Taylor earned an Associate's degree in Liberal Arts from the Niagara County Community College, a Bachelor of Social Work degree from Buffalo State College, and completed a semester in the Master's in Social Work program at the University of Hawaii.

Testimony received by your Committee indicates that Ms. Taylor has a great understanding of issues faced by individuals with disabilities. Her experience as a front-line professional working with older adults and their families and her understanding of the impact of public policy in shaping long-term care services and supports make her an ideal candidate who is well-qualified to serve on the Policy Advisory Board for Elder Affairs.

Ms. Taylor indicated from her personal statement that her life and professional experiences have given her the qualifications to serve on the Board. Having worked closely with others in the aging network, she understands the place the Executive Office on Aging and the Policy Advisory Board for Elder Affairs has in leading Hawaii to best provide services to Hawaii's kupuna. As Hawaii's elderly population continues to grow, the Office and the Board will play a vital role not only in providing direction but also in ensuring the quality of the services provided. Given this, she is committed to being a part of the team heading in that direction.

Your Committee is confident that Ms. Taylor's knowledge and expertise combined with her ability to clearly articulate information makes her a highly valued resource on senior issues.

Your Committee received testimony in support of the nomination of Joy Miyasaki from the Executive Office on Aging of the Department of Health, the Policy Advisory Board for Elder Affairs, and seven individuals.

Ms. Miyasaki is an attorney with extensive experience in all aspects of estate planning and trust and estate administration. She earned a Bachelor's degree and Juris Doctorate from Georgetown University. She assists clients in the formation of tax-exempt organizations and provides ongoing representation to tax-exempt organizations. She teaches estate planning as an adjunct faculty member at the William S. Richardson School of Law at the University of Hawaii and was selected as an Adjunct Professor of the Year in 2008.

Ms. Miyasaki continues to demonstrate her commitment to and excellence in the legal profession and the field of estate planning. She is listed in *The Best Lawyers in America* and *Hawaii Super Lawyers*. She is affiliated with numerous legal organizations, holding positions such as Fellow of the American College of Trust and Estate Counsel, Member of the Editorial Board of the *Practical Lawyer* magazine, Member of the Board of Directors of the Hawaii Women's Legal Foundation, Member of the Disciplinary Board of the Hawaii Supreme Court, Member of the Hawaii Estate Planning Council, and Member of the Advisory Council for Project Dana.

Testimony received by your Committee indicates that Ms. Miyasaki possesses a great deal of knowledge with regards to senior issues, especially in the area of protecting their finances and estates. Her skills and expertise are invaluable to the Policy Advisory Board for Elder Affairs as the issue of protecting the assets and finances of seniors becomes a more prevalent issue.

Your Committee believes that Ms. Miyasaki's dedication and leadership skills coupled with her knowledge in the area of trusts and estates make her uniquely qualified to serve on the Board. The Policy Advisory Board for Elder Affairs will greatly benefit from her appointment.

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

The purpose and intent of this measure is to authorize employees to take family leave to care for a sibling with a serious health condition.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and seven private individuals. The Department of Human Resources Development submitted comments.

Your Committee finds that employees are entitled to a total of four weeks of family leave during any calendar year upon the birth of a child of the employee, upon the adoption of a child, or to care for the employee's child, spouse or reciprocal beneficiary, or parent with a serious health condition. However, taking family leave to care for a sibling is not a covered benefit. By extending employees' authorization to take family leave to care for a sibling with a serious health condition, this measure exemplifies Hawaii's rich tradition of ohana and caring for family members.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 884, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 884, H.D. 1, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2473 Judiciary and Labor on S.B. No. 2588

The purpose and intent of this measure is to provide victims of sexual abuse a fair chance to bring a civil action against an individual or entity. Specifically, this measure:

- (1) Extends the statute of limitations from six to eight years to allow individuals subjected to sexual offenses as a minor to bring a civil action against the individual who committed the offense;
- (2) Provides a two-year period for a victim after the lapse of the statute of limitations to bring a civil action against an entity, except for the State, when the entity was grossly negligent;
- (3) Authorizes the court to award the recovery of attorney's fees to the defendant if the sexual abuse accusation was made without basis of fact and with malicious intent; and
- (4) Requires a plaintiff to file with the court a certificate of merit acknowledging the basis that reasonably concludes the plaintiff was a victim of a sexual offense.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center at the Kapiolani Medical Center for Women & Children; and four private individuals. Testimony in opposition to this measure was submitted by the Hawaii Catholic Conference. The Department of the Attorney General and two private individuals submitted comments.

Your Committee finds that child sex abuse is an epidemic that unfortunately is not adequately addressed because a vast majority of child abuse victims fail to go to the authorities. As a result, claims expire before these victims are capable of seeking court action. Many victims suffer the effects of sexual abuse in silence due to the shame and secrecy of this act while their perpetrators remain hidden with a potential opportunity to sexually abuse additional victims. This measure protects children from sexual abuse by allowing additional time for victims to seek action.

Your Committee has amended this measure by:

- (1) Adopting the suggestion from the Department of the Attorney General to delete repetitive language that may cause confusion regarding when the statute of limitations begins to toll;
- (2) Requiring that the plaintiff's certificate of merit be sealed and remain confidential; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2588, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2588, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2474 Judiciary and Labor on S.B. No. 2576

The purpose and intent of this measure is to authorize a person convicted of a prostitution-related offense to file a motion to vacate the conviction under certain circumstances, and to establish procedures for the motion to vacate judgment.

Your Committee received testimony in support of this measure from the Polaris Project, the Pacific Alliance to Stop Slavery, IMUAlliance, Harm Reduction of Hawaii, and three private individuals. Testimony in opposition to this measure was submitted by the Department of the Attorney General, the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Police Department of the City and County of Honolulu. The Office of the Public Defender submitted comments.

Your Committee finds that human trafficking, consisting of the subjugation, recruitment, harboring, or transportation of people for the purpose of forced labor or services, or commercial sexual exploitation, is one of the fastest growing criminal industries. This measure assists in combating human trafficking by allowing trafficking victims who were forced into prostitution to file a motion to have their prostitution convictions vacated from their records.

Your Committee recognizes the concerns raised in the testimony submitted in opposition with respect to the lack of clear filing and motion to vacate judgment procedures, usage of vague terms, and unclear application or inclusion of certain prostitution-related crimes referred to in this measure. Moreover, the testimony in opposition indicates that Rule 40 of the Hawaii Rules of Penal Procedure already provides an established process for defendants to challenge their convictions in a post-conviction proceeding. As such, your Committee believes that these issues merit further discussion as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Polaris Project to:
 - (A) Delete section 712-1203, Hawaii Revised Statutes, relating to promoting prostitution in the second degree, and the federal offenses under title 18 United States Code sections 2422, 2423(a), and 2425 as crimes a defendant may claim having been a victim of in order to file a motion to vacate a prostitution conviction;
 - (B) Specify that official documentation of the defendant's status as a victim of trafficking may be from a law enforcement agency, which may be a federal, state, or local agency;
 - (C) Delete victim services organizations, attorneys, clergy, or medical and other health care professionals as sources from which a defendant may obtain a sworn statement to serve as official documentation that the defendant's participation in prostitution was a result of having been a victim of trafficking; and
 - (D) Delete the court's ability to take any additional action as is appropriate in the circumstances or as justice requires in addition to granting a motion to vacate;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2576, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2576, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2475 Judiciary and Labor on S.B. No. 2052

The purpose and intent of this measure is to allow the mailing of absentee ballots to all registered voters residing in population areas of less than five hundred voters in lieu of operating polling places for voters in those areas.

Your Committee received testimony in support of this measure from the Office of Elections, the Office of the County Clerk of the County of Maui, the Office of the County Clerk of the County of Kauai, the League of Women Voters of Hawaii, and one private individual.

Your Committee finds that in a normal reapportionment year, attempts are made to line up boundaries to avoid areas being unnecessarily divided on the basis of county council, state representative, state senator, and congressional district lines, and to avoid small population pockets that require the development of their own unique ballot types. A ballot type contains the specific contest, questions, or issues that voters who reside in that specific area are entitled to vote on.

However, due to the invalidation of the 2011 legislative reapportionment plan, the Reapportionment Commission has a limited amount of time to redraft the plan. As such, the boundary lines may not line up with each other so as to avoid small population pockets. Given the small number of voters in each of these possible population pockets and the financial resources and personnel required to establish and operate a polling place for these pockets, this measure allows the county clerk to mail an absentee ballot to each registered voter who resides in a population pocket of less than five hundred voters in lieu of operating a polling place.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2052, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2052, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2476 (Joint) Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs on S.B. No. 2335

The purpose and intent of this measure is to clarify the definition of "development" to allow counties to concurrently process subdivision and special management area permits which would expedite the processing of county permit applications.

Your Committees received testimony in support of this measure from the County of Maui Department of Public Works and Land Use Research Foundation of Hawaii. Your Committees received testimony in opposition to this measure from the Office of Planning and Office of Hawaiian Affairs.

Your Committees find that the increase in the number of minor construction projects and the shortage of county personnel in the various county planning offices have significantly delayed the review and processing of minor projects within special management

areas. By excluding "tentative or preliminary subdivisional approval" it will expedite and facilitate work on projects that have been or may be stalled due to delays relating to special management area permitting requirements.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Public Safety, Government Operations, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2335 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Fukunaga, Tokuda).

SCRep. 2477 Judiciary and Labor on S.B. No. 2846

The purpose and intent of this measure is to authorize the Director of Labor and Industrial Relations to accept notices of employers' insurance from approved third party agencies on a form approved by the Director.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and the International Longshore and Warehouse Union Local 142.

Your Committee finds that existing law requires employers to file with the Director of Labor and Industrial Relations a notice of the employers' insurance on a form prescribed by the Director. All workers' compensation insurance coverage information is submitted on paper forms and manually inputted into the Department's information system. However, budget cuts and staff reductions have reduced the Department's ability to input insurance information in a timely manner thereby affecting the reliability of the data. This measure will allow the Department to accept and input the insurance information electronically and eliminate the labor-intensive process the Department currently employs.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2846, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2846, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Slom).

SCRep. 2478 Judiciary and Labor on S.B. No. 2842

The purpose and intent of this measure is to make the law relating to the filing of civil actions in housing discrimination cases consistent with the federal laws under the Fair Housing Act. Specifically, this measure:

- (1) Allows an aggrieved person to file a civil action in an appropriate court no later than two years after the occurrence or termination of an alleged discriminatory housing practice; and
- (2) Directs the Hawaii Civil Rights Commission to issue a right to sue on a complaint filed with the Commission if it determines that a civil action alleging similar facts has also been filed.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, the Hawaii Civil Rights Commission, and one private individual. One private individual submitted comments.

Your Committee finds that existing law allows an aggrieved person to file a civil action after filing an administrative complaint with the Hawaii Civil Rights Commission and obtaining a right to sue, which does not comport with the enforcement provisions under the federal Fair Housing Act. Instead, federal law provides the aggrieved person an option to file a civil action without first filing an administrative complaint.

Your Committee notes that in May 2010, the Hawaii Civil Rights Commission received a notice from the Director of the Fair Housing Assistance Program Division of the United States Department of Housing and Urban Development, directing the Commission to seek an amendment to Hawaii's laws to make it substantially equivalent to the federal Fair Housing Act by providing for civil enforcement by an aggrieved person through the commencement of a court action without exhaustion of administrative remedies. This measure satisfies the federal law requirement of substantial equivalency, as required for continued receipt of federal funds. The United States Department of Housing and Urban Development reviewed and approved the language in this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2842, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2842, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2479 Judiciary and Labor on S.B. No. 3068

The purpose and intent of this measure is to streamline enforcement procedures for bail bondsmen regarding bail bond forfeitures.

Your Committee received testimony in support of this measure from the Da Kine Bail Bonds, Inc. The Judiciary submitted testimony in opposition to this measure.

Your Committee finds that the existing procedures for bail bond forfeitures is long and tedious, and fails to properly hold the bail bondsman and bail insurance company timely accountable for the forfeited bail bond. As a result, Da Kine Bail Bonds, Inc., testified that the State is unable to recoup approximately \$9,000,000 in forfeited bail bonds due to this process. While your Committee recognizes the concerns raised by the Judiciary, your Committee believes that this measure proposes a method that improves the procedures for the payment of forfeited bail bonds. As such, your Committee encourages the Judiciary and Da Kine Bail Bonds to continue the discussion on this matter and develop more streamlined language as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3068, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3068, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2480 Judiciary and Labor on S.B. No. 2648

The purpose and intent of this measure is to authorize campaign funds to be used to award scholarships to students attending an institution of higher education or vocational education school full-time in a program leading to a degree, certificate, or other recognized educational credential.

Your Committee received testimony in support of this measure from one private individual. The Office of Hawaiian Affairs, the Campaign Spending Commission, and Common Cause Hawaii submitted comments.

Your Committee finds that this measure provides additional scholarship opportunities for students seeking higher education by allowing campaign funds to be used to award scholarships, with certain limitations. Additional scholarship opportunities provide greater incentives for students to work toward obtaining their degrees and achieving their career potential.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2648 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4, Ayes with Reservations (Gabbard, Slom). Noes, none. Excused, 1 (Ihara).

SCRep. 2481 Commerce and Consumer Protection on S.B. No. 2167

The purpose and intent of this measure is to amend the definition of “land surveying” and clarify the definition of “landscape architect”.

Your Committee received testimony in support of this measure from the Board of Professional Engineers, Architects, Surveyors and Landscape Architects; Hawaii Land Surveyors Association; and three individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the existing definition of “surveyor” or “land surveyor” is outdated and does not reflect the full scope and practice of land surveying. The clarified definition of “land surveying” proposed by this measure will clearly express the requisite education and experience that is required in order to hold oneself out as a professional licensed land surveyor.

Your Committee has amended this measure by:

- (1) Further revising the definition of “land surveying”; and
- (2) Inserting an effective date of July 1, 2050, to allow for further discussion.

Your Committee notes that the amended definition has been worked on by the Board of Professional Engineers, Architects, Surveyors and Landscape Architects; the Regulated Industries Complaints Office; the Office of the Attorney General; and the Hawaii Land Surveyors Association.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2167, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 2482 (Majority) Commerce and Consumer Protection on S.B. No. 2284

The purpose and intent of this measure is to require condominium property managers, associations of apartment owners, and planned community associations to make association documents available to owners under reasonable terms and for reasonable costs.

Your Committee received testimony in opposition to this measure from the Community Associations Institute – Hawaii Chapter and one individual. Your Committee received comments on this measure from the Hawaii Real Estate Commission.

Your Committee finds that the amendments proposed by this measure relating to condominium associations may be overly broad. Therefore, this measure may not be the best mechanism to provide association documents to condominium owners.

Your Committee further finds that time share owners are sometimes unable to obtain an accurate and current list of the names and addresses of other time share association members. Your Committee concludes that plan managers should be required to provide membership lists to time share owners for a reasonable fee.

Your Committee has amended this measure accordingly by deleting its contents and inserting language that requires:

- (1) A plan manager of a time share to keep an accurate and current list of the names and addresses of time share association members; and
- (2) The list of time share association members to be made available to owners under certain terms and for reasonable costs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2284, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2284, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Solomon, Slom). Excused, 2 (Galuteria, Nishihara).

SCRep. 2483 Commerce and Consumer Protection on S.B. No. 2392

The purpose and intent of this measure is to require professional and vocational licensing authorities to accept military education, training, and service toward the qualification for a license and to adopt rules accordingly.

Your Committee received testimony in support of this measure from the United States Department of Defense State Liaison Office; The Chamber of Commerce of Hawaii; and Military Officers Association of America, Hawaii Chapter. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs; Hawaii State Center for Nursing; University of Hawaii at Manoa School of Nursing and Dental Hygiene; Niwao & Roberts, CPAs; and one individual.

Your Committee finds that service members who leave the military often experience delays finding post-service employment. Transitioning service members leave the military with documented training and experience that can prepare them for civilian employment; however, this documentation is not always used by state entities when determining qualifications for an occupational license.

Your Committee has heard the concerns that every licensing authority in the State has its own statutes and rules, with specific requirements for licensure. However, your Committee notes that this measure is not intended to require state licensing authorities to accept any military education, training, or service regardless of whether the education, training, or service has any relevance to the specific licensing area. Rather, this measure is intended to support military veterans by recognizing that the military education, training, or service veterans receive while employed in the United States Armed Forces or Reserves is substantially equal to some of the requirements mandated by the State for obtaining certain licenses.

Your Committee has amended this measure by:

- (1) Requiring professional and vocational licensing authorities to consider, rather than accept, relevant military education, training, or service that is substantially equivalent to state standards for licensure;
- (2) Deleting the requirement for licensing authorities to adopt rules to implement the provisions of this measure;
- (3) Requiring the Licensing Administrator of the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs to communicate the intent and parameters of this measure to each licensing authority and submit a report to the Legislature detailing plans for the implementation of this measure no later than twenty days prior to the convening of the Regular Session of 2013;
- (4) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2392, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Solomon, Taniguchi). Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 2484 Commerce and Consumer Protection on S.B. No. 2432

The purpose and intent of this measure is to make permanent the exclusion of pest control operators' activities from the definition of "excavation" under the One Call Center law by repealing the sunset provision in Act 72, Session Laws of Hawaii 2009.

Your Committee received testimony in support of this measure from the Hawaii Pest Control Association and Accu-Pest & Termite Control Services. Your Committee received testimony in opposition to this measure from the Public Utilities Commission, The Gas Company, Building Industry Association of Hawaii, and One Call Concepts, Inc.

Your Committee finds that this measure would exempt all pest control operators from having to comply with the State's One Call utility notification law.

Your Committee has heard the concerns that requiring pest control operators to participate in One Call Center activities will increase costs of termite inspections, incur unnecessary delays, and subject pest control operators to severe penalties. Your Committee is cognizant that complaints about the shallow excavation done by pest control companies are miniscule.

Your Committee further finds that federal law permits a state to assess, rank, and consider appropriate participation by excavators in a state one call notification program. Your Committee therefore concludes that amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Specifying that only pest control activity that is not performed under contract with any state or county agency is exempt from the definition of "excavation";
- (2) Extending the sunset date of Act 72, Session Laws of Hawaii 2009, until June 30, 2014;
- (3) Requiring exempt pest control operators to attend training provided by the Hawaii One Call Center;
- (4) Requiring the Public Utilities Commission to conduct an investigation on the risks of residential pest control application and report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2014;
- (5) Amending section 1 of this measure to reflect the amended purpose of this measure;
- (6) Inserting an effective date of June 29, 2050, to allow for further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2432, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2432, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Solomon). Noes, none. Excused, 2 (Galuteria, Nishihara).

SCRep. 2485 Commerce and Consumer Protection on S.B. No. 2465

The purpose and intent of this measure is to allow petitioners adequate time to be heard at a requested special association meeting and prohibit a condominium board from adopting rules for association meetings that would otherwise require a vote of a majority of the quorum to change.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Community Associations Institute – Hawaii Chapter and Hawaii State Association of Parliamentarians.

Your Committee finds that current rules generally used for special association meetings limit the opportunity to be heard for the owners who request these meetings. Your Committee further finds that certain provisions in this measure may conflict with Robert's Rules of Order Newly Revised, the guidebook on meeting management that governs association and board meetings. Your Committee additionally finds that condominium associations, not condominium boards, generally have the power to adopt rules for association meetings.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the requirements for an adequate opportunity to be heard at a special association meeting; and
- (2) Specifying when an association is prohibited from adopting any rule for association meetings that would otherwise require a vote of a majority of the quorum to change.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2465, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2465, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2486 (Joint) Water, Land, and Housing and Agriculture on S.B. No. 2350

The purpose and intent of this measure is to allow the building of ohana dwellings on lands within the agricultural district, as permitted under section 205-6, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from three Hawaii County Council Members, the Hawaii Association of Realtors, and one individual. Your Committees received testimony in opposition to this measure from the Department of Agriculture and City and County of Honolulu Department of Planning and Permitting. Your Committees received comments on this measure from the Hawaii Farm Bureau Federation.

Your Committees find that allowing ohana dwelling units encourages the private sector to create more housing units without government subsidy, preserves green fields, and eases housing affordability. Your Committees note that the County of Hawaii had previously allowed for ohana dwellings in agricultural districts until it was discovered that there were no existing state laws explicitly permitting ohana dwellings. This measure will allow the counties to authorize special permits for the construction of ohana dwellings.

Your Committees understand the concerns expressed by the Department of Agriculture and the City and County of Honolulu and have amended this measure by:

- (1) Restricting ohana dwellings to counties with a population of 500,000 or less;
- (2) Prohibiting an ohana dwelling from being designated as a limited common element in a condominium or rented as a single unit separate from the primary farm dwelling units;

- (3) Clarifying that ohana dwellings must be located on and used in connection with a farm or located where agricultural activity provides income to the occupants of the farm dwelling; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2350, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2350, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9, Ayes with Reservations (Kouchi). Noes, none. Excused, 3 (Chun Oakland, Fukunaga, Tokuda).

SCRep. 2487 Water, Land, and Housing on S.B. No. 2850

The purpose and intent of this measure is to shorten from seventy-two hours to twenty-four hours the length of time within which an owner of a vessel grounded on coral reef or in imminent danger of breaking apart must remove the vessel before the Department of Land and Natural Resources may assume control of the vessel.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Ocean Tourism Coalition.

Your Committee finds that vessels grounded on coral reefs are likely to cause extensive and irreparable damage to the State's precious ocean environment if not disposed of in a timely manner. If left unattended, grounded vessels may also break apart and cause marine pollution and other hazards due to wave action. Thus, it is important to dispose of these vessels in a timely manner. However, your Committee understands that it is important to protect the rights of the owner as some of the vessels may be worth millions of dollars.

Accordingly, your Committee has amended this measure by adding language to:

- (1) Allow owners the first right to salvage their grounded vessels if the owners are able to initiate efforts to salvage their grounded vessels within twenty-four hours of grounding; and
- (2) After the twenty-four-hour period has expired, allow owners to continue as the primary agent in salvaging their vessels if the owners provide proof of:
 - (A) A marine insurance policy listing the State as an additional insured for at least \$1,000,000; and
 - (B) Actively and effectively initiating a salvage effort with reasonable evidence that the grounded vessel can be saved within seventy-two hours of grounding or, if the Department of Land and Natural Resources determines that no additional environmental damage exists, beyond seventy-two hours.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2850, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2850, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2488 Judiciary and Labor on S.B. No. 2056

The purpose and intent of this measure is to require a defendant's probation officer to provide the court information regarding the defendant's compliance or non-compliance with the probation prior to the court determining whether to grant an early discharge from probation.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that under existing law, the court may grant early discharge from probation without input from a defendant's probation officer regarding that defendant's compliance with probation terms. This measure serves as an additional tool for the courts to use in its determination of whether a defendant should be discharged from probation early.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2056 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2489 Judiciary and Labor on H.B. No. 1927

The purpose and intent of this measure is to amend the filing deadlines for preliminary and supplemental campaign spending reports to align with existing law or present practice.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that the date of the primary election was advanced from the last Saturday in September to the second Saturday in August. This measure changes the existing statutory deadline for filing a candidate's first preliminary campaign spending report from July 31 of an election year to thirty calendar days prior to a primary election to avoid back-to-back filing deadlines of

July 31 and August 1, for the first and second preliminary primary campaign spending reports, respectively, and to align accordingly with the August primary election date.

Your Committee has amended this measure by replacing its contents with the contents of S.B. No. 2508, S.D. 2, which is substantially similar but does not amend section 11-334(a)(4), Hawaii Revised Statutes, relating to the filing deadlines for supplemental reports.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1927, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1927, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2490 Judiciary and Labor on S.B. No. 2232

The purpose and intent of this measure is to prohibit the selling, buying, transporting, delivering, offering for sale or transportation, or receiving for transportation in intrastate commerce, any product, item, or substance containing, labeled, or advertised as containing bear gallbladders or bile.

Your Committee received testimony in support of this measure from Born Free USA, the Hawaiian Humane Society, the Species Survival Network, the World Society for the Protection of Animals with a petition of sixty-eight individuals support, and fifty-three private individuals.

Your Committee finds that the methods of extracting bear bile are horrendously inhumane. Bears are commonly kept in extraction cages that measure 2.6 feet by 4.4 feet by 6.5 feet for a bear weighing between one hundred ten to two hundred sixty pounds. These cages prevent the bears from standing upright and severely restrict their movement. The process for extracting the bile involves pushing a hollow steel catheter through the bear's abdomen to "milk" the bile out of the bear.

Despite this inhumane treatment, bear gallbladders and their bile byproduct are used in Asia and the United States to create medicines and some luxury cosmetic items and toiletries. The high worldwide demand for bear gallbladder and bile translate into a high-profit industry. According to testimony, Hawaii is one of the few states that still allows the trade of bear gallbladders taken from bears outside of the State. Your Committee notes that products containing bear bile were found available for sale in Chinatown at \$500 for approximately twenty-eight grams. By prohibiting commercial activities involving any product, item, or substance containing bear gallbladder or bile, this measure allows Hawaii to join the other states that have fully banned this trade.

Your Committee has amended this measure by:

- (1) Correcting language to reflect the intent of the measure to prohibit the receipt of certain bear gallbladder or bile items for transportation in interstate, rather than intrastate, commerce;
- (2) Clarifying that the items prohibited include bear gallbladder or bile, not just items containing bear gallbladder or bile; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2232, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2232, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2491 Judiciary and Labor on S.B. No. 2505

The purpose and intent of this measure is to allow the court to issue a temporary restraining order (TRO) based on sworn oral testimony communicated to the court by telephone, radio, or other means of electronic voice communication when exigent circumstances exist that prevent the applicant from appearing in person.

Your Committee received testimony in opposition to this measure from the Judiciary, the Office of the Public Defender, the Hawaii State Commission on the Status of Women, the Hawaii State Coalition Against Domestic Violence, the Windward Oahu Branch of the American Association of University Women, and one private individual.

Your Committee finds that under current law a court may grant an ex parte TRO based on a written application that serves as a sworn statement describing the reasons a TRO is necessary. Thereafter a judge will review the application and determine whether to issue a TRO based on the statements in the application.

Your Committee is particularly concerned with situations where an abused victim needs a TRO immediately in order to protect oneself from further harm, but due to exigent circumstances, is unable to submit a written application to the court. This measure provides the means for such victims to immediately obtain a TRO by allowing courts to accept sworn oral testimony by telephone, radio, and other means of electronic voice communication.

Your Committee is aware of the testimonies in opposition to this measure, and the concerns raised regarding how sworn oral testimony will be accepted and verified, whether the courts have the means to implement this measure, and whether this measure may diminish the enforceability of a temporary restraining order.

Your Committee believes the intent of this measure can be developed and effectively implemented to enable victims of abuse the opportunity to more easily protect themselves using current electronic technologies.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2505, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2505, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2492 Judiciary and Labor on S.B. No. 2849

The purpose and intent of this measure is to amend the definition of “sailing school vessel” under chapter 200, Hawaii Revised Statutes, to align with federal regulations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure aligns the definition of “sailing school vessel” with the federal regulations that governs sailing school vessels. As a result, this measure ensures the legitimacy of sailing school vessels operating in Hawaii by meeting federal requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2849, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2849, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2493 Commerce and Consumer Protection on S.B. No. 2816

The purpose and intent of this measure is to authorize the Department of Health to allow accreditation of the Joint Commission on Accreditation of Healthcare Organizations to substitute for state licensing inspections of hospitals.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii.

Your Committee finds that accreditation by the Joint Commission may substitute for the state inspection in the year in which the accreditation is issued. This measure extends the substitution for the entire three-year accreditation period, while also retaining the Department of Health’s authority to conduct unannounced inspections and investigate complaints. This measure complements the Joint Commission accreditation process and ensures quality care at Hawaii hospitals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2816, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2494 Public Safety, Government Operations, and Military Affairs on S.B. No. 2646

The purpose and intent of this measure is to promote and support diversified agriculture and agricultural self-sufficiency in the State by exempting certain nonresidential agricultural buildings that are on commercial farms and ranches located outside of urban districts and used for agricultural or aquacultural operations from county building permit requirements other than applicable electric and wastewater regulations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Farm Bureau Federation; Hawaii Farmers Union United; Oceanic Institute; Hawaii Aquaculture & Aquaponics Association; Shrimp Improvement Systems Hawaii LLC; High Health Aquaculture; East Oahu County Farm Bureau; Hawaii Livestock Farmers Coalition; Matsuda-Fukuyama Farms, Inc.; Aquaculture Planning & Advocacy, LLC; and numerous individuals. Testimony in opposition to this measure was received from the City and County of Honolulu Department of Planning and Permitting. Comments were received from the Office of Hawaiian Affairs.

Your Committee finds that existing building codes and permitting processes are not efficiently tailored to meet the needs of the State’s commercial agriculture and aquaculture industries and add substantial costs to establishing or expanding farming and ranching. Existing building codes do not effectively facilitate the State’s goals of expanding local food and bioenergy production. Nonresidential agricultural and aquacultural buildings are often required to meet the same county permitting requirements as commercial buildings and buildings used for human habitation.

Your Committee heard testimony on the plight of agricultural farmers and aquaculture producers who are unable to erect low-cost structures to store materials, equipment, and other supplies while protecting their assets against inclement weather, vandalism, and theft. This measure eliminates a time-consuming and costly obstacle to the construction of essential agricultural and aquacultural infrastructure, which improves the economic viability of Hawaii’s agricultural and aquacultural sectors without any financial cost to the State.

Your Committee is concerned that agricultural or aquacultural buildings and structures exempted from building permits may pose issues for nearby residential neighborhoods whose residents may take umbrage to such structures.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of this measure is to encourage and support diversified agriculture and agricultural self-sufficiency in the State by providing an agricultural building exemption for commercial farms and ranches located outside of the urban district;
- (2) Requiring that the exempted building or structure be:
 - (A) Constructed or installed on a property that is one or more contiguous acres in area if located in a non-residential agricultural or aquacultural park; and
 - (B) Serviced with electricity that complies with state building code electrical standards;
- (3) Exempting certain masonry or wood-framed buildings or structures and appurtenances thereto designed or engineered according to the state building code;
- (4) Clarifying the definition of "agricultural building or aquacultural building" as nonresidential buildings or structures used in or necessary for the operation of the farm or ranch, or for the processing and selling of farm or ranch products;
- (5) Specifying that the new section established by this measure shall not supersede public or private lease conditions;
- (6) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2646, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2646, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2495 Public Safety, Government Operations, and Military Affairs on S.B. No. 2248

The purpose and intent of this measure is to require the Hawaii Paroling Authority to establish a compassionate release program for inmates who are terminally ill or have a serious debilitating and irreversible mental or physical condition and meet other requirements.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Community Alliance on Prisons, and seven individuals. Comments were received from the Office of Hawaiian Affairs.

Your Committee finds that correctional facilities across the United States are becoming home to a growing number of elderly adults who often have extensive and costly medical needs that are driving up the cost of incarceration. Concern over how society should deal with the aging and seriously ill prison population has led policymakers in many states to adopt early release, more commonly referred to as compassionate release, for older and seriously ill prisoners who pose a low risk to public safety. As of 2009, thirty-nine states had laws governing compassionate release.

Testimony indicated that there are inmates at Halawa Correctional Facility who are suffering serious debilitating illnesses requiring dialysis and chemotherapy. One inmate who has been diagnosed with cancer is reportedly confined to the Saguaro Correctional Facility. Many inmates are elderly and suffer from chronic diseases that normally occur with aging. Some are disabled in wheelchairs, bedridden, and unable to care for themselves. They need medications, insulin injections, chemotherapy, and other forms of life-sustaining medical measures.

Your Committee believes that this measure is pono, which in Hawaiian means good, upright, and just. More commonly, pono is used to describe an action that is the right thing to do. Your Committee believes that the State has an ethical obligation to do what is pono--provide appropriate medical care of persons confined to correctional facilities.

Your Committee has amended this measure by deleting its contents and inserting substantially similar provisions that create a medical release program for certain ill, disabled, and geriatric inmates who pose a low risk to public safety. The medical release program under this amended measure allows physicians and other medical professionals to use their unique expertise and knowledge of prognosis, geriatrics, cognitive and functional decline, and palliative medicine to determine whether an inmate meets the criteria for medical release. Using this medical foundation, the Hawaii Paroling Authority can balance the need for punishment with an eligible individual's appropriateness for release.

As affirmed by the record of votes of the members of your Committee on Public Safety, Government Operations, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2248, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2248, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Slom).

SCRep. 2496 Judiciary and Labor on S.B. No. 2305

The purpose and intent of this measure is to prohibit the taking of any amount, rather than up to one gallon per person per day, of sand and stone seaward from the shoreline, with certain exceptions.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, and seven private individuals. Testimony in opposition to this measure was submitted by three private individuals.

Your Committee finds that coastal erosion is a natural occurrence and is cyclical like many other processes in nature. However, due to the State's dependence on tourism, it is necessary to be vigilant in protecting the State's natural resources, such as its beaches. This measure recognizes the consequences of taking sand and other marine deposits from coastal areas by prohibiting the taking of any amount of sand and stone seaward from the shoreline, with certain exceptions, such as for a public emergency response or the exercise of traditional cultural practices authorized by law or the Hawaii State Constitution.

Your Committee notes the concerns raised by the Office of Hawaiian Affairs regarding the elimination of the one gallon per person per day exception from this measure. However, your Committee further notes that the intent of this measure is to prohibit the taking of sand in any amount; allowing the inadvertent taking of sand of up to one gallon would undermine the intent of this measure. Furthermore, your Committee notes the concerns raised by commercial aquarists that this measure would prevent them from taking sand from the beach containing microorganisms, which is preferable and more beneficial to use in aquariums. However, it was brought to your Committee's attention that similar types of sand are available for purchase in retail stores. Your Committee finds that this is a preferable alternative to allowing further depletion of sand from Hawaii's beaches. Lastly, your Committee recognizes the concern regarding shells and beach glass that are washed up on the sand that may be used for decorations and jewelry.

Accordingly, your Committee has amended this measure by:

- (1) Adding an exception for the taking of driftwood, shells, beach glass, glass floats, or seaweed from the shoreline area; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2305, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2497 Judiciary and Labor on S.B. No. 2354

The purpose and intent of this measure is to establish criminal penalties for failure to maintain a certification of ownership or other written proof of ownership of agricultural commodities.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation and the Hawaii Farmers Union United. The Department of Agriculture submitted comments.

Your Committee finds that agricultural theft is a serious problem for many farmers in the State and existing laws are not stringent enough to stop potential thieves. This measure may serve as a greater deterrent of agricultural theft by making the failure to maintain certificates of ownership or other written proof of ownership of agricultural commodities a criminal offense.

Your Committee has amended this measure by:

- (1) Strengthening existing law to require that the certificate required to be completed upon each sale transaction of an agricultural commodity also include the amount and value of the commodity; seller's name, address, telephone number, and license plate number of any vehicle used to deliver the commodity; farm owner's name and address of origin; buyer's or consignee's name; seller's signature; and buyer's or consignee's signature;
- (2) Making theft of agricultural commodities marketed for commercial purposes and for which a person has failed to maintain a certificate of ownership an offense of theft in the second degree;
- (3) Establishing failure to retain the required certificate of ownership while in possession of agricultural commodities as prima facie evidence of theft in the second degree;
- (4) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2354, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2354, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2498 Judiciary and Labor on S.B. No. 3002

The purpose and intent of this measure is to establish that real estate brokers and salespersons shall not be held liable:

- (1) For misrepresentations based upon a good faith reliance on certain information; and
- (2) For failure to ascertain and disclose all material facts concerning a property if there was a good faith reliance on a prepared disclosure statement.

Your Committee received testimony in support of this measure from the Hawaii Association of Realtors, Prudential Locations LLC, the Honolulu Board of Realtors, and the Oahu Chapter of the National Association of Residential Property Managers. Testimony in opposition to this measure was submitted by the Department of Commerce and Consumer Affairs and the Real Estate Commission.

Your Committee finds that this measure provides a clearer legal standard for the Real Estate Commission to use in determining whether to revoke or suspend real estate broker or real estate salesperson licenses or whether to fine real estate brokers or salespersons.

This measure requires the Real Estate Commission to use the reasonable care standard, rather than the strict liability standard under existing law, when enforcing violations.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Hawaii Association of Realtors to:
 - (A) Identify specific individuals who could misrepresent information that real estate brokers or salespersons may rely on in good faith; and
 - (B) Clarify that real estate brokers and salespersons shall not be held liable for failure to ascertain and disclose all material facts concerning a property if there was reliance in good faith and with due care on a prepared disclosure statement; and
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3002, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2499 Commerce and Consumer Protection on S.B. No. 2103

The purpose and intent of this measure is to authorize registered nurses to execute orders written by physician assistants acting within their scope of practice and acting as agents of their supervising physicians.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, Hawaii Academy of Physician Assistants, and two individuals.

Your Committee finds that this measure authorizes and clarifies conditions under which nurses may execute orders written by physician assistants. This measure is aligned with the Board of Nursing's conclusion that nurses may execute orders given by physician assistants acting as agents of their supervising physicians.

Your Committee further finds that situations may arise that require clear authorization and conditions under which licensed practical nurses may also act on orders from physician assistants acting as agents of their supervising physicians; therefore, similar amendments to the definition of "the practice of nursing as a licensed practical nurse" should be made.

Your Committee has amended this measure by:

- (1) Amending the definition of "the practice of nursing as a licensed practical nurse" to include carrying out the orders of a licensed physician assistant practicing with physician supervision and acting as an agent of the supervising physician;
- (2) Amending the purpose section to reflect the amended purpose of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2103, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2103, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2500 Commerce and Consumer Protection on S.B. No. 2228

The purpose and intent of this measure is to establish an electronic tracking system for the sale of products containing pseudoephedrine as a base and require the Department of Public Safety Narcotics Enforcement Division to implement the electronic tracking system.

Your Committee received testimony in support of this measure from the Department of Public Safety, Legislative Information Services of Hawaii, and Hawaii Food Industry Association.

Your Committee finds that an electronic tracking system will assist the State in tracking retail pseudoephedrine sales and decrease the production of methamphetamine. This measure will also improve a retailer's ability to safely sell products containing pseudoephedrine to consumers by permitting a retailer to check a computerized database prior to sale.

Your Committee has amended this measure by requiring a pharmacy or retailer to seek an exemption in writing to the Administrator of the Narcotics Enforcement Division, rather than the Board of Pharmacy, as the Narcotics Enforcement Division Administrator has responsibility for tracking controlled substances and regulated chemicals utilized to manufacture controlled substances.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2228, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2228, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2501 Commerce and Consumer Protection on S.B. No. 2803

The purpose and intent of this measure is to prohibit the performance of a contract by any applicant who lacks an appropriate license and require contract proposals submitted under chapter 103F, Hawaii Revised Statutes, to include the all-inclusive cost to the State.

Your Committee received testimony in support of this measure from the Department of Human Services and the Hawaii Association for the Education of Young Children.

Your Committee finds that this measure would require the performance of a contract, and not the submittal of a contract proposal, to be prohibited if the applicant lacks the appropriate license. However, your Committee further finds that the amendments proposed by this measure are not consistent with the title of this measure, which was originally intended to address problems for child care contracts.

Accordingly, your Committee has amended this measure by replacing its entire contents with the original S.B. No. 2803, which allows the Department of Human Services to accept contract proposals from organizations that are not yet licensed to operate a child care program at specific locations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2803, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2803, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2502 Commerce and Consumer Protection on S.B. No. 2084

The purpose and intent of this measure is to prohibit an insurer from requiring a doctor's referral for annual covered screening mammograms for insureds over the age of forty.

Your Committee received testimony in support of this measure from the Hawaii Association of Health Plans and the American Cancer Society.

Your Committee finds that the lives of over one thousand women in the State are lost each year to breast cancer. Your Committee further finds that the early detection of breast cancer is critical to the success of treatment efforts and that consequently, screening mammograms should be made as accessible as possible.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2084, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2503 Judiciary and Labor on S.B. No. 2250

The purpose and intent of this measure is to encourage the Hawaii Paroling Authority to work with offenders in the community by authorizing the Hawaii Paroling Authority to use a continuum of administrative sanctions in lieu of revocation of parole when a parolee violates a term or condition of parole.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the continuum of administrative sanctions in this measure gives the Hawaii Paroling Authority a broad range of appropriate alternatives to revocation of parole, from modifications or additions to the terms and conditions of parole to the imposition of other appropriate and available sanctions. Your Committee further finds that these alternative sanctions are extensive, including reimprisonment, community service, house arrest or home detention, electronic surveillance or monitoring, and treatment and counseling services.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2250, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2504 Judiciary and Labor on S.B. No. 2262

The purpose and intent of this measure is to clarify that the medical use of marijuana is considered to be consistent with the Pain Patient's Bill of Rights, chapter 327H, Hawaii Revised Statutes.

Your Committee did not receive any testimony on this measure.

Your Committee finds that various studies show that medical marijuana can provide relief to and improve the quality of life for those who suffer from chronic pain. The Pain Patient's Bill of Rights gives patients the right to request or reject all treatment modalities to relieve severe acute or chronic pain. This measure will ensure that patients who use medical marijuana to reduce their pain and improve their quality of life have these same rights.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2262, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2505 Judiciary and Labor on S.B. No. 2318

The purpose and intent of this measure is to:

- (1) Adopt the Uniform Adult Guardianship and Protective Proceedings Jurisdiction Act, to ensure that only one state has jurisdiction at any one time in adult guardianship cases and protective proceedings;
- (2) Adopt guidelines to specify which court has jurisdiction to appoint a guardian or conservator for an incapacitated adult; and
- (3) Prioritize the states that may claim jurisdiction.

Your Committee did not receive testimony for this measure.

Your Committee finds that the Uniform Adult Guardianship and Protective Proceedings Jurisdiction Act provides uniformity and reduces conflict among state jurisdictions. The Act deals primarily with jurisdictional, transfer, and enforcement issues relating to adult guardianships and protective proceedings. To date, approximately thirty jurisdictions, including the District of Columbia, have adopted the Act with four other states, including Hawaii, considering its adoption.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2318, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2506 Judiciary and Labor on S.B. No. 2444

The purpose and intent of this measure is to implement amendments to article 9 of the Uniform Commercial Code, as set forth by the Commission to Promote Uniform Legislation.

Your Committee did not receive testimony for this measure.

Your Committee finds that this measure provides greater clarity regarding the name of an individual debtor to be provided on a financing statement, improves the filing system for financing statements, and provides greater protection for an existing secured party with a security interest in after-acquired property upon a relocation or merger of its debtor. Furthermore, this measure allows Hawaii's version of article 9 of the Uniform Commercial Code to be consistent with article 9 as it has been adopted in other jurisdictions, which is necessary to avoid conflicts and confusion with respect to interstate transactions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2507 Commerce and Consumer Protection on S.B. No. 3036

The purpose and intent of this measure is to specify that group health insurance plans shall provide dependent coverage for natural grandchildren adopted by plan participants or beneficiaries.

Your Committee received no testimony on this measure.

Your Committee finds that requiring group health insurance plans to provide dependent coverage for adopted grandchildren and grandchildren who are going through a formal adoption process is reflective of the current practice of insurance providers in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3036, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2508 Judiciary and Labor on S.B. No. 2826

The purpose and intent of this measure is to provide pharmacists with immunity from liability while performing volunteer medical assistance services.

Your Committee received testimony in support of this measure from the Department of Health, The Queen's Health Systems, and one private individual.

Your Committee finds that medically licensed volunteer workers who perform volunteer medical assistance services within the scope of their license are indemnified under state law when responding to an emergency and during non-emergency situations, such as school-based immunization clinics. By indemnifying pharmacists who perform volunteer medical assistance services, this measure will assist in providing further medical coverage in emergency and non-emergency situations and provide a critical public health resource.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2509 Judiciary and Labor on S.B. No. 1168

The purpose and intent of this measure is to prohibit the use of tobacco products by minors and to allow a law enforcement officer to confiscate tobacco used by the minor.

Your Committee received testimony in support of this measure from the Department of Health, the Coalition for a Tobacco-Free Hawaii, and one private individual. Testimony in opposition to this measure was submitted by the Police Department of the City and County of Honolulu.

Your Committee finds that smoking and tobacco use are the leading causes of preventable illnesses and deaths in the nation. This measure prohibits a minor from not only purchasing, but also using tobacco products, and allows law enforcement officer to confiscate the tobacco product used by the minor. In comparison to creating criminal penalties for the minor, the confiscation of the tobacco product is the preferred means of sending a clear and correct message that persons under the age of eighteen should not use tobacco products.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1168, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2510 Judiciary and Labor on S.R. No. 19

The purpose and intent of this measure is to urge Grove Farm Company to allow Koloa Plantation Camp tenants to remain on the camp property past the eviction date and assign the tenants affordable housing units once the company's proposed development project is complete.

Your Committee received testimony in support of this measure from a member of the Board of Trustees of the Office of Hawaiian Affairs and five private individuals. Testimony in opposition to this measure was submitted by two private individuals. A Koloa Plantation Camp resident submitted comments.

Your Committee finds that the Koloa Plantation Camp is a small, rustic neighborhood that is comprised of century-old homes from Hawaii's first sugar plantation. Thirteen tenant families currently live at Koloa Plantation Camp. Two weeks prior to Thanksgiving 2011, these tenant families were served with eviction notices directing them to vacate their homes by March 8, 2012, providing them with less than one hundred twenty days to leave their homes.

Your Committee finds that Grove Farm Company owns the land on which Koloa Plantation Camp is located and is proposing to develop a fifty-unit residential subdivision on the plantation camp land. As a result, the Koloa Plantation Camp community has united to form Save Koloa Camp to stop the evictions. While Save Koloa Camp is not against the affordable housing project, the group believes that there are many reasons why Koloa Plantation Camp is a poor choice for this proposed development location. As such, Koloa Plantation Camp tenants have proposed an alternative solution that they believe is beneficial to the tenants and the landowner.

Your Committee commends the individual representing the Koloa Plantation Camp tenants who provided comments and information, and appreciates this individual's dedication to saving Koloa Plantation Camp, which is the birthplace of the sugar industry in Hawaii. According to this individual's testimony, the Koloa Plantation Camp tenants support the portion of this measure to allow them to stay on the property past the eviction date. However, they do not want Grove Farm Company to assign them affordable housing units upon completion of the proposed development project. Instead, the tenants want an opportunity to engage in formal discussions with Grove Farm Company to develop an alternative solution that would enable them to remain in their homes and allow Grove Farm Company to build the proposed development elsewhere.

Your Committee strongly believes that razing the historic Koloa Plantation would be a tragic loss not only to the plantation tenants who stand to lose their homes, but also to the State. Koloa Plantation is one of the last remnants of century-old homes that are a historic living symbol of local culture and lifestyle of Kauai and the State. While your Committee recognizes the legal parameters arising from Grove Farm Company's vested rights as landowner and landlord with regard to the Koloa Plantation Camp, it believes the exercise of these rights should be done with due care.

Accordingly, your Committee has amended this measure by:

- (1) Changing the purpose and intent of this measure to:
 - (A) Urge Grove Farm Company to place an immediate stay of eviction to allow the Koloa Plantation Camp tenants to remain in their homes until alternative solutions are developed; and
 - (B) Urge Grove Farm Company to engage in meaningful discussions with the tenants of Koloa Plantation Camp regarding the future plans for the plantation property and the development of alternative solutions;
- (2) Changing the title of this measure to accurately reflect the position of the Koloa Plantation Camp tenants as indicated by the submitted testimony;
- (3) Adding language to provide the following information:
 - (A) The historical significance and value of the Koloa Plantation Camp and the structures that exist on the property;
 - (B) The historical relationship between plantation landowners and the plantation tenants;
 - (C) The relationship between Grove Farm Company and the tenants of Koloa Plantation Camp; and
 - (D) The details regarding the alternative solution proposed by the Koloa Plantation Camp tenants;
- (4) Adding individuals and agencies to whom certified copies of this measure shall be transmitted; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 19, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 19, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2511 Judiciary and Labor on S.C.R. No. 52

The purpose and intent of this measure is to urge Grove Farm Company to allow Koloa Plantation Camp tenants to remain on the camp property past the eviction date and assign the tenants affordable housing units once the company's proposed development project is complete.

Your Committee received testimony in support of this measure from a member of the Board of Trustees of the Office of Hawaiian Affairs and five private individuals. Testimony in opposition to this measure was submitted by two private individuals. A Koloa Plantation Camp resident submitted comments.

Your Committee finds that the Koloa Plantation Camp is a small, rustic neighborhood that is comprised of century-old homes from Hawaii's first sugar plantation. Thirteen tenant families currently live at Koloa Plantation Camp. Two weeks prior to Thanksgiving 2011, these tenant families were served with eviction notices directing them to vacate their homes by March 8, 2012, providing them with less than one hundred twenty days to leave their homes.

Your Committee finds that Grove Farm Company owns the land on which Koloa Plantation Camp is located and is proposing to develop a fifty-unit residential subdivision on the plantation camp land. As a result, the Koloa Plantation Camp community has united to form Save Koloa Camp to stop the evictions. While Save Koloa Camp is not against the affordable housing project, the group believes that there are many reasons why Koloa Plantation Camp is a poor choice for this proposed development location. As such, Koloa Plantation Camp tenants have proposed an alternative solution that they believe is beneficial to the tenants and the landowner.

Your Committee commends the individual representing the Koloa Plantation Camp tenants who provided comments and information, and appreciates this individual's dedication to saving Koloa Plantation Camp, which is the birthplace of the sugar industry in Hawaii. According to this individual's testimony, the Koloa Plantation Camp tenants support the portion of this measure to allow them to stay on the property past the eviction date. However, they do not want Grove Farm Company to assign them affordable housing units upon completion of the proposed development project. Instead, the tenants want an opportunity to engage in formal discussions with Grove Farm Company to develop an alternative solution that would enable them to remain in their homes and allow Grove Farm Company to build the proposed development elsewhere.

Your Committee strongly believes that razing the historic Koloa Plantation would be a tragic loss not only to the plantation tenants who stand to lose their homes, but also to the State. Koloa Plantation is one of the last remnants of century-old homes that are a historic living symbol of local culture and lifestyle of Kauai and the State. While your Committee recognizes the legal parameters arising from Grove Farm Company's vested rights as landowner and landlord with regard to the Koloa Plantation Camp, it believes the exercise of these rights should be done with due care.

Accordingly, your Committee has amended this measure by:

- (1) Changing the purpose and intent of this measure to:
 - (A) Urge Grove Farm Company to place an immediate stay of eviction to allow the Koloa Plantation Camp tenants to remain in their homes until alternative solutions are developed; and
 - (B) Urge Grove Farm Company to engage in meaningful discussions with the tenants of Koloa Plantation Camp regarding the future plans for the plantation property and the development of alternative solutions;
- (2) Changing the title of this measure to accurately reflect the position of the Koloa Plantation Camp tenants as indicated by the submitted testimony;
- (3) Adding language to provide the following information:
 - (A) The historical significance and value of the Koloa Plantation Camp and the structures that exist on the property;
 - (B) The historical relationship between plantation landowners and the plantation tenants;
 - (C) The relationship between Grove Farm Company and the tenants of Koloa Plantation Camp; and
 - (D) The details regarding the alternative solution proposed by the Koloa Plantation Camp tenants;
- (4) Adding individuals and agencies to whom certified copies of this measure shall be transmitted; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 52, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 52, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2512 Commerce and Consumer Protection on S.B. No. 2522

The purpose and intent of this measure is to establish a veterinary license renewal requirement of at least twenty credit hours of continuing education during each licensing biennium.

Your Committee received testimony in support of this measure from the Board of Veterinary Examiners, Hawaii Veterinary Medical Association, Windward Community College, and two individuals. Your Committee received comments on this measure from the Hawaii Farm Bureau Federation.

Your Committee finds that the veterinarian profession is dedicated to a lifetime of learning. Veterinarians attend conferences, read medical journals, and complete online continuing education courses. This measure would require continuing education so that veterinarians may continue to provide the best care for their animal patients. Your Committee further finds that the Board of Veterinary Examiners, Hawaii veterinarians, administrators in the Department of Commerce and Consumer Affairs, education providers, and legislators are all in agreement about mandating continuing education.

Your Committee has amended this measure by:

- (1) Clarifying which courses are acceptable to meet the twenty credit hour continuing education requirement;
- (2) Specifying that failure to renew a license on or before June 30 of each even-numbered year shall constitute forfeiture of the license, until certain requirements are met for restoration of the license;
- (3) Delaying the application of the continuing education requirement until the licensing renewal deadline of June 30, 2016, in order to hold a valid license for the period beginning July 1, 2017, and thereafter;
- (4) Removing the provision that would have provided for the suspension of a license until continuing education requirements were met and the license was renewed; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2522, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2522, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5, Ayes with Reservations (Solomon). Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 2513 Commerce and Consumer Protection on S.B. No. 2009

The purpose and intent of this measure is to regulate the use of claims history information for homeowners insurance and provide certain consumer protections with respect to the use of this information.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council, Property Casualty Insurers Association of America, State Farm Insurance Companies, and National Association of Mutual Insurance Companies.

Your Committee finds that claims history databases provide insurance companies access to consumer claims information. This measure regulates the use of claims history reports by home insurers in Hawaii.

Your Committee has heard the concerns that some of the provisions in this measure may result in higher prices or reduced availability of homeowners insurance. Your Committee notes that the federal Fair Credit Reporting Act provides consumers similar rights with regard to claims history reports and credit reports; however, there is merit to establishing certain state controls over the use of claims history reports when no claim is made.

Your Committee has amended this measure by:

- (1) Adding the new part, Homeowners Insurance Claims History, to chapter 431, article 10E, Hawaii Revised Statutes, rather than chapter 431, article 10, Hawaii Revised Statutes;
- (2) Deleting certain definitions and the sections relating to the use of insurance claims history information generally, dispute resolution and error correction, disclosure to insurance consumers, treatment of certain information, and disclosures by claims history report providers;
- (3) Clarifying how an insurer may use inquiries made by a consumer; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2009, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2514 Commerce and Consumer Protection on S.B. No. 2469

The purpose and intent of this measure is to amend medical claim conciliation laws to reflect the conciliatory role, rather than the adversarial nature, of medical claim conciliation panels.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice, Hawaii Medical Association, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your

Committee received comments on this measure from the Office of Administrative Hearings of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure will reduce the current adversarial nature of the medical claims conciliation process and emphasize its originally intended conciliation role. The medical inquiry and conciliation process proposed by this measure will facilitate communication and encourage amicable resolution of disputes between doctors and patients.

Your Committee has heard the concerns that requiring a potential plaintiff to meaningfully participate in an inquiry prior to instituting litigation is a one-sided requirement with potentially negative consequences. Although the primary goal of this measure is to move away from adversarial proceedings, requiring proof of a plaintiff's meaningful participation may invite substantial future litigation.

Your Committee has also heard the concerns that the Office of Administrative Hearings needs sufficient time to obtain and train panel members who are interested in the conciliation process. Your Committee concludes that a delayed effective date of this measure is necessary.

Your Committee has amended this measure by:

- (1) Deleting the provision that would have required potential plaintiffs to meaningfully participate in the conciliation process prior to instituting litigation;
- (2) Inserting an effective date of January 2, 2014; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2469, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2469, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 2515 Judiciary and Labor on S.B. No. 650

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to authorize the Chief Justice of the Hawaii Supreme Court to appoint judges who have retired upon attaining the age of seventy years to serve as per diem judges or judicial mentors for terms not to exceed three months.

Your Committee received testimony in support of this measure from the Judiciary. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that this measure recognizes the knowledge and experience of retired judges as valuable resources. Retired judges can serve as judicial mentors to other sitting judges, and can assist in expediting the disposition of cases.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 650 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2516 Judiciary and Labor on S.B. No. 2495

The purpose and intent of this measure is to create a misdemeanor offense for and specify conditions that constitute maintaining a property nuisance.

Your Committee received testimony in support of this measure from six private individuals. Testimony in opposition to this measure was submitted by the Office of the Public Defender, the Department of Environmental Services of the City and County of Honolulu, and Insurance Auto Auctions. Comments were received by the Department of the Attorney General, the Department of Design and Construction of the City and County of Honolulu, and the Honolulu Authority for Rapid Transportation.

Your Committee finds that this measure provides an effective mechanism to protect residential neighborhoods from individual investors who purchase large blocks of property for the purpose of blighting the neighborhood. This practice is called "block busting" with the goal of lowering the overall property values to make it easier for the investor to buy the rest of the surrounding properties in the neighborhood at a lower price.

Your Committee notes the concerns that the language in this measure may be overly broad, vague, or subjective and fails to take into account various lawful permitted or zoning activities that may be subject to this measure. Furthermore, testimony indicated that visual blight is subject to a broad interpretation that may be too subjective to effectively prosecute. As a result, your Committee encourages stakeholders to discuss these matters and develop language to streamline this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the conditions or activities that constitute the offense of maintaining a property nuisance;
- (2) Adding a definition for "visual blight" to provide further clarity;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2495, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2495, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Gabbard).

SCRep. 2517 Judiciary and Labor on S.B. No. 2496

The purpose and intent of this measure is to create a cause of action against any person who maintains a property nuisance that causes injury or damage to the person or property of another, and to specify the conditions that constitute a property nuisance.

Your Committee received testimony in support of this measure from five private individuals. Testimony in opposition to this measure was submitted by the Department of Environmental Services of the City and County of Honolulu, and Insurance Auto Auctions. Comments were received by the Department of the Attorney General, and the Department of Design and Construction of the City and County of Honolulu.

Your Committee finds that this measure provides an effective mechanism to protect residential neighborhoods from individual investors who purchase large blocks of property for the purpose of blighting the neighborhood. This practice is called “block busting” with the goal of lowering the overall property values to make it easier for the investor to buy the rest of the surrounding properties in the neighborhood at a lower price.

Your Committee notes the concerns that the language in this measure may be overly broad, vague, or subjective and fails to take into account various lawful permitted or zoning activities that may be subject to this measure. Furthermore, testimony indicated that visual blight is subject to a broad interpretation that may be too subjective to effectively give rise to a cause of action. As a result, your Committee encourages stakeholders to discuss these matters and develop language to streamline this measure.

Your Committee has amended this measure by:

- (1) Clarifying the conditions or activities that constitute a property nuisance;
- (2) Adding a definition for “visual blight” to provide further clarity;
- (3) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2496, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2496, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Gabbard).

SCRep. 2518 Judiciary and Labor on S.B. No. 2900

The purpose and intent of this measure is to impose a time limit of five years during which inmates may seek post-conviction relief in the state courts, and limit the number of successive complaints a petitioner may file.

Your Committee received testimony in support of this measure from the Department of the Attorney General, the Office of the Prosecuting Attorney of the County of Hawaii, and the Department of the Prosecuting Attorney of the County of Maui. Testimony in opposition to this measure was submitted by the Office of the Public Defender, the Community Alliance on Prisons, and the American Civil Liberties Union of Hawaii.

Your Committee finds that existing law does not have a statute of limitations on petitions for post-conviction relief in state courts. Defendants are able to file challenges to their convictions and custody long after the actual events, which makes it difficult to address the merits of the challenges and, if necessary, to hold retrials or new hearings. Establishing a five-year statute of limitation ensures that conviction and custody challenges are reviewed and decided upon when the record and witnesses are more likely to be available. Furthermore, a statute of limitations promotes finality to convictions and sentences within a more reasonable timeframe and prevents the filing of numerous frivolous and repetitive petitions.

Your Committee recognizes the testimony submitted in opposition to this measure that indicates this measure may unfairly prevent defendants from seeking relief in the courts for a wrongful conviction thereby potentially penalizing them for circumstances that may be beyond their control. For example, the number of exonerations is rising due to post-conviction DNA testing, which is a test that may not have been available at the time of a defendant’s conviction.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an exemption for post-conviction DNA testing under part XI of chapter 844D, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2900, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2900, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 2519 (Joint) Water, Land, and Housing and Energy and Environment on S.B. No. 2001

The purpose and intent of this measure is to amend the Hawaii State Planning Act to include promoting the development of geothermal energy resources that are located on public trust land as a source of firm power and ensure that the development of energy resources on public trust land directly benefits Native Hawaiians and public beneficiaries of the trust.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Native Hawaiian Chamber of Commerce, Innovations Development Group, Association of Hawaiian Civic Clubs, and four individuals.

Your Committees find that this measure is consistent with the State's goals and initiatives to promote renewable energy resources. Further, renewable energy resources are assets of the public trust but have not been recognized or developed by the State as public trust assets. Renewable resources within the trust include geothermal, tidal, wave, and ocean thermal energy conversion energy resources located on submerged lands. Specifically, for over seventeen years, geothermal resources have been developed for electricity on the island of Hawaii. Although these are public trust assets, their development has never brought a real or direct benefit to the resident beneficiaries.

Trust law requires the State, as trustee of these renewable energy assets, to ensure that there is a direct benefit for the beneficiaries of the public trust land who are Native Hawaiians and the public.

Accordingly, your Committees have amended this measure by clarifying that indigenous renewable energy resources, not just geothermal energy resources, located on public trust land should be promoted and developed for the benefits of Native Hawaiians and public beneficiaries of the trust.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2001, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2001, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Tokuda, Slom).

SCRep. 2520 (Joint) Judiciary and Labor and Ways and Means on H.B. No. 2438

The purpose and intent of this measure is to make an emergency appropriation to satisfy twenty-four claims against the State and its officers or employees for fiscal year 2011-2012, because the requested funds were not appropriated during the previous legislative regular session.

Your Committees received testimony in support of this measure from the Department of the Attorney General, the Judiciary, and the Department of Education.

Your Committees find that during the Regular Session of 2011, a request was made to the Legislature for funds to satisfy judgments and settlements of claims against the State for fiscal year 2010-2011. Those requested funds were not appropriated and as a result, certain claimants have sought or threatened to initiate legal action against the State. This measure seeks an emergency appropriation to satisfy twenty-four judgments and settlements totaling \$5,790,697.12 in order to avoid further legal action and expenses.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2438, H.D. 2, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 15. Noes, none. Excused, 3 (Dela Cruz, Fukunaga, Ihara).

SCRep. 2521 (Joint) Judiciary and Labor and Ways and Means on H.B. No. 2437

The purpose and intent of this measure is to make an emergency appropriation in the amount of \$1,725,000 for fiscal year 2011-2012, to fund the State's voting system contract for the 2012 elections.

Your Committees received testimony in support of this measure from the Office of Elections, the Office of the County Clerk of the County of Kauai, and the Office of the County Clerk of the County of Maui.

Your Committees find that the Office of Elections is in a multi-year contract with a vendor to provide a voting system for elections. Although there was sufficient funding to cover the prior 2010 election cycle, the current biennium budget for the Office of Elections does not include funding for the 2012 election cycle of the contract. As such, this measure provides the Office of Elections sufficient funding to cover its portion of the cost for the voting system and ensures that the office fulfills maintenance of effort provisions of the Help America Vote Act of 2002, which is necessary to maintain the State's eligibility for federal funding.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2437, H.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 15. Noes, none. Excused, 3 (Dela Cruz, Fukunaga, Ihara).

SCRep. 2522 (Joint) Hawaiian Affairs and Economic Development and Technology on S.B. No. 2175

The purpose and intent of this measure is to designate the month of February as "Olelo Hawaii Month" to celebrate and encourage the use of Hawaiian language.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, an individual member of the Maui County Council, Association of Hawaiian Civic Clubs, Kuakini Hawaiian Civic Club of Kona, Sovereign Councils of the Hawaiian Homelands Assembly, Kewalo Hawaiian Homestead Community Association, Waianae Kai Homestead Community Association, Nanakuli Homestead Community Association, Anuenue School, and four individuals.

Your Committees find that while the Hawaiian language was once spoken throughout Hawaii by Native Hawaiians and foreigners alike, the language was considered to be nearly extinct by the 1980s, when fewer than fifty fluent speakers under the age of eighteen were left. A major reason for the deterioration of the Hawaiian language was an 1896 law that required English instruction in Hawaii schools, which essentially banned Hawaiian students from speaking their native tongue. However, great strides have been made to bring about a renaissance of the Hawaiian language through programs such as 'Aha Punana Leo's Hawaiian language immersion schools, the Department of Education's Hawaiian language immersion program, and the Hawaiian language programs of the University of Hawaii System.

Your Committees also find that usage of the Hawaiian language will increase if state and county documents, letterheads, symbols, and emblems, when newly created, replaced, or reprinted, contain accurate, appropriate, and authentic Hawaiian names and language.

Your Committees have amended this measure by:

- (1) Inserting language from S.B. 1130, S.D. 1, Regular Session of 2011, which requires all newly created, replaced, or reprinted, state and county documents, letterheads, symbols, and emblems, to contain accurate, appropriate, and authentic Hawaiian names and language;
- (2) Inserting language translating section 1 of S.B. 1130, S.D. 1, into the Hawaiian language; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2175, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2175, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Baker, Galuteria, Hee, Slom).

SCRep. 2523 (Joint) Hawaiian Affairs and Economic Development and Technology on S.B. No. 3007

The purpose and intent of this measure is to designate the second Monday in October as Indigenous Peoples' Day, rather than Discoverers' Day.

Your Committees received testimony in support of this measure from the Kewalo Hawaiian Homestead Community Association, Ka Pakaukau, United Confederation of Taino People, and twelve individuals. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committees received comments on this measure from the Association of Hawaiian Civic Clubs and Ke Aupuni o Hawaii.

Your Committees find that the intent of this measure is to express solidarity with and support for indigenous peoples. As recognized in the United Nations' Declaration on the Rights of Indigenous Peoples, indigenous peoples have the right to the full enjoyment, as a collective or as individuals, of all human rights and fundamental freedoms. Your Committees further find that Indigenous Peoples' Day should also serve as a memorial to the State's recognition of the Native peoples of Hawaii and stand as a testament to that recognition.

Your Committees have amended this measure by:

- (1) Retaining language in section 8-1.5, Hawaii Revised Statutes, that recognizes the Polynesian discoverers of the Hawaiian Islands;
- (2) Deleting language that recognizes indigenous people who have survived the past five hundred years and calls for educating the general public about the ongoing plight of indigenous people;
- (3) Inserting language that recognizes the accomplishments of indigenous voyagers who settled the Pacific Ocean before Columbus was born and designates Indigenous Peoples' Day as a day to educate the general public on the State of Hawaii's obligations to the Native peoples of Hawaii; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Economic Development and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3007, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3007, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Baker, Galuteria, Hee, Slom).

SCRep. 2524 (Joint) Public Safety, Government Operations, and Military Affairs and Energy and Environment on S.B. No. 2640

The purpose and intent of this measure is to allow the use of individual wastewater systems as an on-site means of wastewater disposal in lieu of county-operated wastewater treatment works.

Your Committees received testimony in support of this measure from Ka Honua Momona International, Honson Company, Inc., Life of the Land, Sierra Club, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health and Department of Environmental Services of the City and County of Honolulu.

Your Committees find that Hawaii's fresh water sustains all life within this State, and that conventional wastewater treatment systems use more of this finite resource than many innovative, individual wastewater treatment systems. Individual wastewater treatment systems should be allowed under specific circumstances to enable the State to meet its sustainability goals.

Your Committees have amended this measure by:

- (1) Clarifying that counties shall permit individual wastewater treatment systems as an on-site means of wastewater disposal when the system pre-dates a county-operated wastewater treatment system and the county determines that allowing the system is fair and equitable;
- (2) Requiring the counties, no later than December 31, 2013, to adopt rules or ordinances allowing individual wastewater treatment systems; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Government Operations, and Military Affairs and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2640, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2640, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 3 (Baker, English, Green).

SCRep. 2525 Ways and Means on S.B. No. 2169

The purpose and intent of this measure is to address the recommendations of the Auditor in the "Study Regarding the Transfer of Non-General Funds to the General Fund", prepared pursuant to House Concurrent Resolution No. 166 of the Regular Session of 2011.

Your Committee received testimony in opposition to this measure from the State of Hawaii- Office of the Auditor.

Your Committee finds that this measure provides a vehicle for any recommendations of the Auditor, pursuant to House Concurrent Resolution No. 166 of the Regular Session of 2011, which requested the Office of the Auditor to identify non-general funds that can be transferred to the general fund as well as to propose legislation to implement any recommended transfers.

Your Committee also finds that this measure should continue to move through the legislative process in order to ensure that a viable legislative vehicle remains available to insert any proposals the Auditor may provide at a future date during the 2012 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2169, and recommends that it pass Second Reading and placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Kim).

SCRep. 2526 Ways and Means on S.B. No. 2544

The purpose and intent of this measure is to repeal the temporary limit on the amount of itemized deductions that may be claimed for the purposes of state income tax by certain taxpayers, as established by Act 97, Session Laws of Hawaii 2011.

Testimony in support of this measure was submitted by the University of Hawaii Foundation; Child and Family Services; Genoa Keawe Foundation Hawaii Music and Dance Hall of Fame, Papakolea Community; National Tropical Botanical Garden; Catholic Charities Hawaii; Agricultural Leadership Foundation of Hawaii; Hawaii Food Bank; Lanakila Pacific; Conservation Council of Hawaii; The Arc in Hawaii; Honolulu Museum of Art; Ola Hawaii 2020; and fifty-eight individuals.

Testimony in opposition of this measure was submitted by four individuals. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that charitable donations are an important source of funding for nonprofit and charitable organizations in Hawaii. Your Committee also finds that the majority of itemized deductions that are claimed by taxpayers are for donations to charities and nonprofit organizations. Your Committee further finds that eliminating the cap on itemized deductions will provide an additional incentive for persons to make donations to charitable and nonprofit organizations in the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2544, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2544, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Kim).

SCRep. 2527 (Majority) Ways and Means on S.B. No. 2868

The purpose and intent of this measure is to authorize the Department of Taxation to collect a fee of \$20 for each tax clearance application submitted by a taxpayer and a fee of \$5 for each certified copy of a tax clearance issued to a taxpayer.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received testimony in opposition to this measure from the Hawaii Alliance of Nonprofit Organizations and one concerned individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Department of Taxation provides tens of thousands of tax clearance documents to taxpayers each year at no charge. Each request via paper form for tax clearance requires a significant amount of time for Department staff to research and prepare. This measure would allow the Department to collect fees for processing taxpayers' requests for tax clearance documents to offset the staff time and resources that are used. Your Committee further finds that the collection of fees for providing documents is not unusual among state agencies. For example, the Department of Commerce and Consumer Affairs collects fees for providing copies of certain documents. However, your Committee recognizes that the imposition of these fees represents yet another cost for many businesses and nonprofit organizations, as well as individuals, in the State. Accordingly, your Committee finds that the Department should charge fees for a tax clearance only if taxpayers request a tax clearance using a paper form. Electronic filing of tax clearance requests should be available without charge to encourage this more efficient method of filing tax clearance requests.

Your Committee has amended this measure by:

- (1) Including the proviso that the Department of Taxation may charge fees for tax clearances and certified copies of tax clearances only if electronic versions of those documents are available to taxpayers online at no charge; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2868, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Slom). Excused, 3 (Espero, Fukunaga, Tokuda).

SCRep. 2528 Ways and Means on S.B. No. 2948

The purpose and intent of this measure is to clarify that certificates of participation for the State's financing agreement program do not require legislative approval.

Your Committee received comments on this measure from the Director of Finance.

Your Committee finds that although current law does not require legislative approval prior to the issuance of a certificate of participation, the debt service for certificates of participation issued pursuant to chapter 37, Hawaii Revised Statutes, is subject to annual appropriation by the Legislature to avoid being considered a state debt. As written, the bill could result in the issuance of certificates of participation being considered debts under the state constitution, and thus subject to constitutional debt limits.

As a result, your Committee has amended the measure to clarify that, while a certificate of participation does not require legislative approval prior to being issued, it is subject to the limitation on financing agreements pursuant to section 37D-2(b)(1), Hawaii Revised Statutes, restricting, to available moneys, the amount payable under a financing agreement by an agency or the Department of Budget and Finance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2948, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2948, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2529 Judiciary and Labor on S.B. No. 2502

The purpose and intent of this measure is to prohibit the use of certain lethal methods for the control of animals. Specifically, this measure:

- (1) Requires dogs or cats that are captured or killed in a snare or trap to be reported to a county animal control officer;
- (2) Establishes an animal cruelty offense for the use of steel-jawed leg-hold traps or the use of snares, conibear, and foot- or leg-hold traps in residential or other prohibited areas;
- (3) Establishes the offense as a misdemeanor; and
- (4) Provides exemptions for activities carried out by state and federal agencies.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, the Hawaiian Humane Society, the Maui Humane Society, the Nature Conservancy, Born Free USA, and one hundred private individuals. Testimony in opposition to this measure was submitted by one private individual. One private individual submitted comments.

Your Committee finds that this measure allows for the use of appropriate tools to control feral animals, such as pigs, goats, sheep, deer, and wild cattle, where there is a potential for these animals to damage natural resource areas. At the same time, this measure establishes reasonable additional protections for pet animals in residential areas where they are most likely to be inadvertently caught if certain animal control tools are employed.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Department of Land and Natural Resources to additionally exempt activities carried out by authorized agents of state or federal agencies;

- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2502, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Slom).

SCRep. 2530 Judiciary and Labor on S.B. No. 3029

The purpose and intent of this measure is to make various housekeeping amendments to the Hawaii Revised Statutes and Session Laws of Hawaii to correct errors, omissions, or obsolete laws.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau. The Real Estate Commission submitted comments.

Your Committee finds that the Legislative Reference Bureau is authorized to conduct a systematic and continuing study of the Hawaii Revised Statutes and Session Laws of Hawaii for the purposes of improving clarity in the laws by reducing the number and bulk and removing inconsistencies, redundancies, and repetitions. All of the amendments in this measure are intended to be technical in nature to correct errors, omissions, or obsolete laws. Any changes that may have a substantive effect are intended to provide further clarity and consistency.

Your Committee has amended this measure by:

- (1) Adopting the amendments suggested by the Real Estate Commission to ensure that the housekeeping amendments made to the condominium laws do not preclude any ongoing condominium disputes in mediation stemming from the now expired condominium dispute resolution pilot program from reaching a resolution;
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3029, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2531 Economic Development and Technology on S.B. No. 2236

The purpose and intent of this measure is to clarify that the Information Technology Steering Committee shall consist of thirteen members, including the Chief Information Officer, to assist the Chief Information Officer in developing the State's information technology standards and policies. Specifically, the membership shall include four members to be selected by the Senate President, four members to be selected by the Speaker of the House of Representatives, and four members to be selected by the Chief Information Officer.

Your Committee received testimony in support of this measure from the Office of Information Management and Technology, Department of Commerce and Consumer Affairs, Department of Education, and Judiciary.

Your Committee finds that authorizing the Chief Information Officer to select four members of the Information Technology Steering Committee will ensure that the Committee has the breadth of skills, expertise, and experience necessary to assist the Chief Information Officer in addressing the priorities of the State's information technology goals and objectives.

As affirmed by the record of votes of the members of your Committee on Economic Development and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2236 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Solomon).

SCRep. 2532 (Joint) Economic Development and Technology and Judiciary and Labor on S.B. No. 2234

The purpose and intent of this measure is to support efforts to facilitate public access and reduce costs associated with the printing and duplication of paper copies of documents by:

- (1) Eliminating the requirement to post hard-copy notices of public meetings with the Lieutenant Governor's office;
- (2) Requiring all government agencies, boards, commissions, and committees to post electronic copies of their agendas, minutes, and related documents online; and
- (3) Encouraging state agencies to broadcast their proceedings online.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor; Office of Information Management and Technology; Office of Information Practices; High Technology Development Corporation; Hawaii State Public Library System; Department of Planning and Permitting, City and County of Honolulu; and Neighborhood Commission Office, City and County of Honolulu. Your Committees received testimony in opposition to this measure from three members of the County

Council of Maui. Your Committees received comments on this measure from the Disability and Communication Access Board and one individual.

Your Committees find that this measure is one of several measures introduced this legislative session to facilitate public access while reducing costs associated with the printing and duplication of paper copies of public documents. Your Committees further find that the Chief Information Officer and the Office of Information Management and Technology are currently developing the statewide information technology strategic plan, which will modernize the State's information technology systems, procedures, and policies, and that any costs associated with the electronic access provisions in this measure are being addressed in S.B. No. 2233, S.D. 2, through collaboration among the Office of Information Management and Technology, the Hawaii State Public Library System, and affected agencies.

Your Committees have heard a number of concerns regarding issues of compliance with and enforcement of the provisions of this measure, as well as problems encountered by individuals who have disabilities or other hindrances that make it difficult to attend or follow the actions of some state boards and commissions. Your Committees believe these are legitimate concerns, and have sought guidance from the Office of the Lieutenant Governor, the Office of Information Practices, and the Office of Information Management and Technology to develop an appropriate means of enforcing compliance.

Your Committees have amended this measure accordingly, by:

- (1) Clarifying that the notice required by section 92-7, Hawaii Revised Statutes, is the only notice required for a board meeting that is subject to the Sunshine Law, to prevent conflicts with more general notice provisions;
- (2) Clarifying that the electronic notice shall be posted on the State of Hawaii's internet website or a county's internet website, rather than the Lieutenant Governor's or a county clerk's website, for consistency with the expected online location of the electronic calendars;
- (3) Authorizing a provisional filing of notice in the Office of the Lieutenant Governor or appropriate county clerk's office in the event of an interruption in online service;
- (4) Clarifying that the deadline for transmitting notice to persons on a board's mailing list is at least six calendar days before the meeting;
- (5) Requiring a notice to be rejected by the electronic calendar if a meeting notice is not posted at least six days before a meeting, and providing that a printout of the electronically time-stamped agenda shall be conclusive evidence of the agenda's filing date if the filing's timeliness is disputed;
- (6) Requiring, with respect to a meeting notice that is not timely filed online, that paper copies of a notice of cancellation of a meeting be posted in the board's office and, when feasible, at the meeting location;
- (7) Clarifying that the Attorney General, in the case of a state board, or the county counsel agency for each county in the case of a county board, shall concur that an emergency meeting based on an unanticipated event is necessary;
- (8) Deleting the requirement that minutes shall be posted online, "whether in draft or final form," as boards already must provide minutes within thirty days regardless of whether the board considers the minutes final;
- (9) Specifying that for state boards, posted minutes shall include only those additional written materials distributed to a board at the meeting that would be public under the Uniform Information Practices Act;
- (10) Inserting an effective date of July 1, 2050, to ensure further discussion, and July 1, 2012, for section 4; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2234, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2234, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (Gabbard, Solomon).

SCRep. 2533 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2436

The purpose and intent of this measure is to require the Insurance Commissioner to develop a uniform prior authorization form for prescription drugs no later than July 1, 2013, to be used by prescribers and health care insurance providers beginning January 1, 2014.

Your Committees received testimony in support of this measure from the Hawaii State Center for Nursing, Faith Action for Community Equity, Hawaii Medical Association, National Multiple Sclerosis Society, Epilepsy Foundation of Hawaii, CVS Caremark, Hawaii Academy of Physician Assistants, American Cancer Society, HMSA, University of Hawaii, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, HMSA, and AlohaCare. Your Committees received comments on this measure from Kaiser Permanente.

Your Committees find that testimony submitted by the Insurance Commissioner indicates that the Department of Commerce and Consumer Affairs does not have the medical expertise necessary to create and implement the uniform prior authorization form for prescription drugs. Your Committees note that the Department of Human Services is actively making effective strides toward achieving purposes similar to this measure.

Your Committees have amended this measure accordingly by:

- (1) Requiring the Director of Human Services, rather than the Insurance Commissioner, to develop the uniform prior authorization form for prescription drugs;
- (2) Changing the definition of “dispenser” to mean “a practitioner who dispenses”;
- (3) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2436, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2436, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Shimabukuro, Wakai).

SCRep. 2534 Health on S.B. No. 417

The purpose and intent of this measure is to change the membership of the Hawaii Health Systems Corporation’s corporation board by:

- (1) Adding a member who alternately represents the eastern and western regions of the county of Hawaii;
- (2) Replacing the regional chief executive officers with community members from each respective region; and
- (3) Removing the at-large member selected by the Governor.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation and one individual.

Section 323F-3.5, Hawaii Revised Statutes, requires that the term for a member of the regional system board of directors shall be three years. Section 26-34, Hawaii Revised Statutes, prohibits any board member from serving for more than two consecutive terms or for more than eight years. Consequently, the maximum number of years that a regional system board member may serve is limited to six years. Your Committee finds that the existing staggered terms of corporation board members result in half the board leaving one year and the other half leaving the next. Your Committee further finds that learning the intricacies of the health care system takes time and other resources and that more flexibility in the length of a member’s term would allow knowledgeable individuals to remain on the board for a longer period to sufficiently transfer their knowledge base to other members and result in more effective use of a staggered membership.

Your Committee has amended this measure by:

- (1) Changing the regional system board membership term from three years to a membership term between two and five years, with the specific term length to be established by a two-thirds affirmative vote of the existing regional system board members;
- (2) Amending the purpose section to reflect the amended purpose of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 417, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Green, Slom).

SCRep. 2535 (Joint) Health and Ways and Means on S.B. No. 416

The purpose and intent of this measure is to authorize the Hawaii Health Systems Corporation to bring the Hawaii Medical Center East facility under its governance through formal affiliation, acquisition, or both, and to appropriate the necessary funding.

Your Committees received testimony in support of this measure from Hawaii Health Systems Corporation and one individual.

Your Committees find that this measure will address the shortage of long-term care beds, the resulting burden on acute care facilities, and quality of care issues for wait-listed patients.

As affirmed by the records of votes of the members of your Committees on Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 416, S.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 10, Ayes with Reservations (Kidani, Slom). Noes, none. Excused, 8 (English, Fukunaga, Green, Kahele, Kouchi, Ryan, Shimabukuro, Tokuda).

SCRep. 2536 Commerce and Consumer Protection on S.B. No. 2295

The purpose and intent of this measure is to allow members of an association of apartment owners to have electronic access to an association membership list and contact information for vendees under an agreement of sale.

Prior to the hearing on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deleted the contents of the measure and inserted provisions that require assessments for health care services or services relating to personal care that are offered or provided to unit owners at a condominium licensed as an assisted living facility to be

assessed only against the units occupied by persons who utilize these services, and not be included as part of the common expenses of a condominium.

Your Committee received testimony in support of the proposed S.D. 1 from three individuals. Your Committee received comments on the proposed S.D. 1 from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that as the State's population ages, many senior citizens will explore their options for aging in place. Existing condominiums may consider providing assisted living services, including health care services or personal care services, to their unit owners or residents so that these individuals may age in place. A condominium licensed as an assisted living facility may offer services or invite vendors to provide services for its aging residents. However, condominium owners have expressed concern because the costs for health care services or services related to personal care are included in a condominium's maintenance fees. These fees are then allocated to all owners, not just the owners who have contracted for these services.

Your Committee concludes that it is not appropriate to require all unit owners in a condominium to pay a share of expenses related to the operation of an assisted living facility in a condominium project, and that these expenses should be assessed against a unit owner only when a unit owner or resident of a unit owner elects to utilize such services.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that any and all assessments for health care services or services relating to personal care that are offered or provided to unit owners or residents of unit owners at a condominium licensed as an assisted living facility are to be assessed against the units occupied by persons who utilize these services;
- (2) Amending the purpose section of this measure for clarity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2295, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Taniguchi, Slom).

SCRep. 2537 Commerce and Consumer Protection on S.B. No. 2395

The purpose and intent of this measure is to require professional and vocational licensing authorities to allow applicants to demonstrate competency in lieu of work experience and establish procedures to expedite the issuance of licenses, certifications, or permits to military spouses.

Your Committee received testimony in support of this measure from the United States Department of Defense State Liaison Office; The Chamber of Commerce of Hawaii; Military Officers Association of America, Hawaii Chapter; and one individual. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs; Niwao & Roberts, CPAs; and Hawaii Association of Professional Nurses.

Your Committee finds that military families are a unique population who move across state lines and move more frequently than their civilian counterparts. As a result of frequent moves, military spouses who obtain professional degrees or licenses may not remain in one state long enough to progress in their occupations. A lengthy license evaluation process with reviewing and processing delays may leave a military spouse little time to search for employment, placing them at an unfair disadvantage. These delays in employment can cause significant hardship on military families because of a loss of needed income, and may also deprive the State from receiving valuable service and expertise during the military spouse's temporary domicile.

Your Committee further finds that military spouse employment is an important retention and readiness issue, with a majority of married service members reporting that their spouses' ability to maintain a career impacts their decision to remain in the military. The First Lady of the United States has addressed this issue as well, urging all states to pass legislation that will remove employment barriers and support the unique needs of military families. Your Committee concludes that Hawaii should be a part of this nationwide effort to assist service members and their spouses.

Your Committee has heard the concerns that every licensing authority in the State has its own statutes and rules, with specific requirements for licensure. However, your Committee notes that this measure is not intended to require state licensing authorities to accept licensure by endorsement or licensure by reciprocity if a nonresident military spouse is not qualified. Rather, this measure is intended to support military families by recognizing nonresident military spouses who are already licensed in another state under licensure requirements that are equivalent to or exceed the requirements mandated by the State for obtaining certain licenses.

Your Committee has amended this measure by:

- (1) Clarifying that the licensure by endorsement, licensure by reciprocity, and temporary license allowances of this measure apply to nonresident military spouses;
- (2) Deleting language that would have required every licensing authority to establish, by rule, procedures to expedite the issuance of a license, certification, or permit to a military spouse, and a method to issue temporary permits;
- (3) Establishing procedures by which a nonresident military spouse shall receive a license pursuant to licensure by endorsement or licensure by reciprocity from the licensing authority in the State;

- (4) Requiring the licensing authority to issue a nonresident military spouse a temporary license in certain circumstances and only for those professions with standards that are substantially equivalent to or exceed those established by the licensing authority in this State;
- (5) Requiring the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a nonresident military spouse; and
- (6) Inserting an effective date of July 1, 2050, to allow for further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2395, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Taniguchi, Slom).

SCRep. 2538 Commerce and Consumer Protection on S.B. No. 2421

The purpose and intent of this measure is to establish a peer review process for public accounting firms that engage in attest work.

Your Committee received testimony in support of this measure from Niwao & Roberts, CPAs, and six individuals. Your Committee received testimony in opposition to this measure from the Board of Public Accountancy, Hawaii Society of Public Accountants Board of Directors, and four individuals.

Your Committee finds that the amendments proposed by this measure require all public accounting firms to undergo a peer review on the firm's attest work every three years.

Your Committee has heard the concerns that certain provisions of this measure may make it difficult for peer reviewers and public accounting firms to comply with the requirements of the measure and the American Institute of Certified Public Accountants standards for peer reviews. Your Committee has also heard the concerns that mandatory peer review enacted pursuant to Act 66, Session Laws of Hawaii 2010, has not been enforced because of a lack of administrative rules.

Your Committee acknowledges the efforts of the Investigative Committee on Peer Review to produce a draft of administrative rules. However, your Committee believes it is important for this measure to move forward so that discussions on the peer review process may continue.

Your Committee has amended this measure by:

- (1) Clarifying the requirements for a peer review compliance reporting form, including when a contemporaneous supplemental Hawaii peer review report must be included with the peer review compliance reporting form;
- (2) Clarifying procedures to supplement the peer review report;
- (3) Authorizing the Board of Public Accountancy to impose restrictions on attest work based on findings or conclusions of a firm's peer review;
- (4) Amending the process of appealing a rating on a peer review compliance reporting form that may result in a restriction on a firm's or an individual's ability to perform attest work;
- (5) Amending the Board of Public Accountancy's oversight of sponsoring organizations;
- (6) Requiring the Board of Public Accountancy to retain a peer review oversight committee and specifying the purpose, duties, and composition of the peer review oversight committee;
- (7) Amending the requirements for a peer reviewer for a Hawaii supplemental peer review;
- (8) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure represents a collaborative effort amongst several interested parties. Your Committee encourages all interested stakeholders to work to ensure that progress on this measure continues.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2421, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Galuteria, Slom).

SCRep. 2539 Judiciary and Labor on S.B. No. 223

The purpose and intent of this measure is to:

- (1) Allow a temporary restraining order to remain in effect for ninety days or until service of a protective order, whichever occurs first; and
- (2) Amend the law to provide that protective orders orally stated by the court on the record shall be effective upon service on the respondent.

Prior to the hearing of this measure, your Committee posted a proposed S.D. 1 for review and comment. The proposed S.D. 1 deletes the contents of the measure and inserts language that amends section 709-906, Hawaii Revised Statutes, to require a police officer to order a person whom the officer has reasonable grounds to believe has physically abused or harmed a family or household member, to have no contact with the family or household member for a twenty-four hour period, or longer if the incident occurs on the weekend, when the police officer has reasonable grounds to believe that there is probable danger of further physical abuse or harm to the family or household member.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii State Commission on the Status of Women, the Department of the Prosecuting Attorney of the City and County of Honolulu, the Domestic Violence Action Center, the YWCA of Kauai Family Violence Shelter, the Hawaii State Coalition Against Domestic Violence, and one private individual. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Your Committee finds that domestic violence is a public health epidemic and this measure assists in addressing this epidemic by requiring the uniform implementation and issuance of no contact orders. Your Committee further finds that a twenty-four hour no contact period is beneficial to domestic violence victims because it creates a safe period in which the victim may seek refuge in a shelter or use other safety options. A no contact order has the same effect as a temporary restraining order, but victims may use a no contact order when the courts are closed then follow up their request for a temporary restraining order with a no contact order issued by the police as justification.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2540 Judiciary and Labor on S.B. No. 212

The purpose and intent of this measure is to require the apportioning of the state House of Representatives among multi-member house districts of not more than three members that conform to the state Senate district boundaries, where practicable.

Prior to the hearing on this measure, your Committee posted a proposed S.D. 1 for review and comments. This proposed measure:

- (1) Defines "permanent resident" for purposes of legislative reapportionment as any individual counted as a usual resident of the State in the last preceding United States census; and
- (2) Requires reapportionment of each house of the Legislature to be done using data on the total number of permanent residents in the State.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii State Chapter of the Military Officers Association of America, and two private individuals. Testimony in opposition to the proposed S.D. 1 was submitted by one private individual. Common Cause Hawaii and the League of Women Voters of Hawaii submitted comments.

Your Committee finds that the Constitution of the State of Hawaii requires the Hawaii Reapportionment Commission to allocate the total number of members of each house of the state Legislature being reapportioned among the four basic island units by using the total number of permanent residents in each of the basic island units. However, "permanent resident" is not defined and has caused the Commission difficulty in achieving an acceptable reapportionment plan. By defining this term, this measure ensures the accuracy of the enumeration excluding nonresidents.

However, your Committee has concerns regarding the use of federal population data in drafting a reapportionment plan, particularly whether the definition of permanent resident may conflict with or affect the use of the term in the State Constitution and the various provisions of the Hawaii Revised Statutes. Your Committee encourages further discussion and research on this issue and a determination of the appropriateness of using federal census data for reapportionment purposes.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2541 (Joint/Majority) Economic Development and Technology and Ways and Means on S.B. No. 2893

The purpose and intent of this measure is to:

- (1) Require the Department of Business, Economic Development, and Tourism to convene a ten-member task force to perform a comprehensive analysis of the costs and benefits of various types of gambling to enable legislators to make informed decisions regarding gambling;
- (2) Require the task force to report its findings and recommendations to the Governor and the Legislature no later than October 1, 2012; and
- (3) Dissolve the task force on June 30, 2013.

Prior to the hearing, your Committees made available to the public a proposed S.D. 1, which:

- (1) Established a nine-member gambling commission, rather than a task force, with three members each to be selected by the Governor, Senate President, and Speaker of the House; and
- (2) Appropriated an unspecified amount for fiscal year 2012-2013 for the gambling commission to perform the analysis.

Your Committees received testimony in support of this measure from Radcliffe & Associates, LLC, and two individuals. Your Committees received testimony in opposition to this measure from the Mayor, City and County of Honolulu; Honolulu Police Department; League of Women Voters of Hawaii; Aupuni O Hawaii; Hawaii Coalition Against Legalized Gambling (HICALG); Hawaii County HICALG; Hawaii Family Forum; Hawaii Appleseed Center for Law and Economic Justice; and four individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism and Spectrum Gaming Group.

Your Committees have heard a number of concerns raised regarding this measure, including references to numerous past socio-economic studies conducted on both sides of the issue of gambling, the anticipated cost of the proposed analysis, the perceived focus of the analysis on the financial impacts of gambling in Hawaii, and the lack of specificity regarding the selection of gambling commission members, among others.

Your Committees understand these concerns, but find that a serious, independent study of the potential impacts of gambling in Hawaii may indeed be beneficial. In addition to the broader, generic issues covered in many of the studies on gambling, Hawaii has several unique factors to consider, including the impacts for the neighbor islands and how gambling may affect Native Hawaiian concerns. Gambling legislation has been introduced in the Legislature every year for many years, and conflicting and partisan information regarding the impacts of the proposed legislation hampers the Legislature's ability to determine the merits of these measures.

Your Committees agree that addressing the concerns raised by many of the testifiers would strengthen the measure, and have amended this measure accordingly by adopting the proposed S.D. 1 and further amending this measure by:

- (1) Expanding the scope of the independent analysis the gambling commission is to undertake to include:
 - (A) The social impacts of gambling on individuals, families, and communities;
 - (B) Infrastructure impacts, including increased traffic and possible disruption of neighborhoods where casinos might be located;
 - (C) The availability of an adequate labor force, and educational and training opportunities;
 - (D) How gambling might complement or detract from existing businesses, tourism activities, attractions, and Hawaii's unique culture;
 - (E) The role of the public sector, including state and county executive and legislative branches, regarding any legalization of gambling, the related establishment of a regulatory body or bodies, and any additional public policy requirements;
 - (F) The role of the private sector, including but not limited to the casino industry and other affiliated business interests; and
 - (G) Other information that may be deemed appropriate;
- (2) Requiring gambling commission members to be selected based on their educational backgrounds, business and financial expertise, and community involvement, and comprise a balanced representation of members in support of and members opposed to gambling in Hawaii;
- (3) Requiring the gambling commission to be administratively attached to the Office of the Auditor;
- (4) Requiring the gambling commission to ensure adequate opportunities for public comment on the results of the analysis, and to submit to the Governor and the Legislature a preliminary report on the status of the analysis no later than twenty days prior to the convening of the Regular Session of 2013, and a final report on the analysis and its findings and recommendations no later than twenty days prior to the convening of the Regular Session of 2014;
- (5) Dissolving the gambling commission on December 31, 2013;
- (6) Authorizing the appropriation to be expended for contracts for services for the analysis;
- (7) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Technology and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2893, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2893, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, 1 (Slom). Excused, 4 (Chun Oakland, English, Espero, Tokuda).

SCRep. 2542 (Joint/Majority) Judiciary and Labor and Ways and Means on S.B. No. 2057

The purpose and intent of this measure is to clarify Act 85, Session Laws of Hawaii 2009 (Act 85), as amended by Act 57, Session Laws of Hawaii 2011 (Act 57), with regard to salary rates for executive, judicial, and legislative officials to conform to the effective dates in the recommendations of the 2006 Salary Commission.

Your Committees received testimony in support of this measure from the Judiciary and the Hawaii State Bar Association.

Your Committees find that Act 85, as amended, establishes salary reductions for executive, judicial, and legislative officials to extend through December 31, 2013. A new Salary Commission will convene in November of 2012 to develop salary recommendations for consideration by the Legislature convening for the Regular Session of 2013. Based on past practice, salary recommendations will presumably include salary rates for executive and judicial officials effective July 1, 2013, and for the next five fiscal years.

Your Committees further find that Act 85, as amended, provides that effective January 1, 2014, executive and judicial officials shall be paid at the rate effective July 1, 2009, while legislators shall be compensated at the rate for January 1, 2014. This measure allows the new Salary Commission to make recommendations on salaries as contemplated in Article XVI, Section 3.5, of the Hawaii State Constitution, for all salaried officials.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2057, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2057, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 14. Noes, 1 (Slom). Excused, 3 (Dela Cruz, Fukunaga, Ihara).

SCRep. 2543 Ways and Means on S.B. No. 2227

The purpose and intent of this measure is to appropriate moneys to community health centers that provide direct healthcare for uninsured persons, including persons who will be considered ineligible for Medicaid QUEST benefits pending proposed changes to eligibility requirement changes that will take effect in April 2012.

Written comments in support of this measure were submitted by Kalihi-Palama Health Center and one private citizen.

Your Committee finds that this measure's appropriation to community health centers will allow for continued access to healthcare for uninsured individuals who may no longer meet the QUEST eligibility requirements and would be without health coverage.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2227 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2544 Ways and Means on S.B. No. 2281

The purpose and intent of this measure is to authorize agencies to bypass the preparation of an environmental assessment and proceed directly to the preparation of an environmental impact statement, or allow an applicant to do the same, if the agency determines that an environmental impact statement is likely to be required for a proposed action.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and BIA Hawaii. Your Committee received written comments in opposition to this measure from the Land Use Research Foundation of Hawaii and one individual.

Your Committee finds that allowing agencies or applicants to bypass the preparation of an environmental assessment in certain situations will improve the efficiency of the environmental review process and expedite the completion of those proposed actions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2281, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2545 Ways and Means on S.B. No. 2740

The purpose and intent of this measure is to assist residents in obtaining affordable housing by increasing the Hula Mae multifamily revenue bond authorization ceiling from \$500 million to \$750 million.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; the Hawaii Housing Finance and Development Corporation; the Office of Hawaiian Affairs; and the Hawaii Association of Realtors.

Your Committee finds that the Hula Mae multifamily program has been a successful financing tool to support affordable housing and that additional bond authority is necessary to ensure its continued use.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2740, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2546 (Majority) Ways and Means on S.B. No. 2824

The purpose and intent of this measure is to make dietary supplement liquid containers subject to the deposit beverage container program.

The measure accomplishes this purpose by deleting dietary supplement liquids from the list of liquids excluded from the definition of "deposit beverage".

Written comments in support of this measure were submitted by Aloha Shell Service and eleven private citizens.

Your Committee finds that, presently, there are energy drinks on the market that also qualify as dietary supplements. Deleting the "dietary supplement" exemption will result in more consistent eligibility determinations regarding the deposit beverage container program. Your Committee also finds that including dietary supplement and energy beverage containers in the deposit beverage container program will provide increased revenue to the deposit beverage container deposit special fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2824 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13, Ayes with Reservations (Kidani). Noes, 1 (Slom). Excused, none.

SCRep. 2547 Ways and Means on S.B. No. 2857

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds and use the proceeds from the bonds to assist dam and reservoir owners.

Your Committee finds that reservoirs and dams are essential to the State's water resource infrastructure, especially for farms and ranches in times of little or no rainfall. This measure will assist dam and reservoir owners by providing the economic means necessary to bring their facilities up to current safety standards.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13, Ayes with Reservations (Kidani, Slom). Noes, none. Excused, 1 (Fukunaga).

SCRep. 2548 Ways and Means on S.B. No. 2778

The purpose and intent of this measure is to prevent child obesity.

Specifically, the measure appropriates funds to:

- (1) Collect and analyze early childhood obesity data pertinent to Hawaii, to identify children at risk;
- (2) Increase awareness of the health implications of early childhood obesity;
- (3) Promote best practices through community-based initiatives to improve healthy life choices; and
- (4) Provide support, including travel reimbursements, for a task force to develop and recommend legislation related to the prevention of childhood obesity.

Written comments in support of this measure were submitted by the Office of Hawaiian Affairs, the Hawaii Association for Education of Young Children, and the Papa Ola Lokahi-Native Hawaiian Health Board.

Written comments were also submitted by the American Heart Association.

Your Committee finds that obesity is a common condition of chronic diseases, and data suggests that Native Hawaiians and other Pacific Islanders are at higher risk of obesity and obesity-attributable health complications.

Your Committee also finds that this measure promotes the prevention of obesity from an early age and raises awareness of its adverse and long-lasting health effects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2778, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Kouchi).

SCRep. 2549 (Majority) Ways and Means on S.B. No. 2747

The purpose and intent of this measure is to clarify the existing electric vehicle parking space law to require owners and managers of public accommodations with at least one hundred parking stalls to designate some of those stalls as exclusively for electric vehicles and to install an electric vehicle charging station for at least one of those stalls.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development and Tourism; Retail Merchants of Hawaii; and one individual. Your Committee received written comments in opposition to this measure from the Department of Design and Construction, City and County of Honolulu. The Office of the Mayor, City and County of Honolulu, submitted written comments on this measure.

Your Committee finds that promoting electric vehicles by requiring public accommodations to designate parking stalls as exclusively for electric vehicles is an integral part of Hawaii's clean energy future, including goals of reducing dependence on foreign fuel.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12, Ayes with Reservations (Kidani, Kim). Noes, 1 (Slom). Excused, 1 (Fukunaga).

SCRep. 2550 Ways and Means on S.B. No. 2746

The purpose and intent of this measure is to encourage the use of electric vehicles by codifying the provisions of Act 290, Session Laws of Hawaii 1997, which exempt electric vehicles from most state and county parking meter fees and high occupancy vehicle lane restrictions, as new sections in chapter 286, Hawaii Revised Statutes.

Written comments in support of this measure were submitted by the Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; and High Technology Development Corporation.

Your Committee finds that the provisions of Act 290, Session Laws of Hawaii 1997, support the development and widespread consumer acceptance of electric vehicles in Hawaii. Your Committee further finds that codifying these exemptions in chapter 286, Hawaii Revised Statutes, will increase public awareness of the law and further promote the use of electric vehicles in Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2746, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Fukunaga).

SCRep. 2551 Ways and Means on S.B. No. 2460

The purpose and intent of this measure is to:

- (1) Allow moneys in the pest inspection, quarantine, and eradication fund to be expended for the electronic importer manifest program; and
- (2) Make an appropriation in an unspecified amount to the Department of Agriculture from the pest inspection, quarantine, and eradication fund to implement the electronic importer manifest program.

Written comments in support of this measure were submitted by the Department of Agriculture and The Nature Conservancy of Hawaii.

Your Committee find that full implementation of the electronic importer manifest program is important because it provides for the transfer of data from an importer to the plant quarantine inspector, and therefore allows for more efficient movement of selected commodities through the port.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2460 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2552 (Majority) Ways and Means on S.B. No. 2422

The purpose and intent of this measure is to impose an excise tax on tobacco products, other than large cigars, in order to decrease the prevalence of tobacco consumption.

Written comments in support of this measure were submitted by the Coalition for a Tobacco-Free Hawaii and the Papa Ola Lokahi-Native Hawaiian Health Board. Written comments were submitted by the Tax Foundation of Hawaii and the American Heart Association.

Your Committee finds that tobacco use continues to be a problem in the State. Tobacco products are addictive and inherently dangerous to health, and while cigarette usage among Hawaii's youth has decreased, smokeless tobacco use has not.

Your Committee believes that increasing the State excise tax on tobacco products will facilitate a reduction in tobacco use, especially among adolescents and young adults.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2422, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, 1 (Slom). Excused, none.

SCRep. 2553 Ways and Means on S.B. No. 2121

The purpose and intent of this measure is to ensure that people who need mental health treatment get the treatment they need while ensuring that their rights are protected.

Specifically, this measure:

- (1) Permits any interested person with a clear and abiding interest in the well-being of the individual to file a written petition for emergency admission for commitment to a psychiatric facility;

- (2) Requires an independent evaluation by a psychiatrist or psychologist employed at the licensed psychiatric facility where the patient is admitted for involuntary hospitalization when the licensed physician, physician assistant, or psychologist who directed the admittance is not an employee or an agent of the licensed psychiatric facility;
- (3) Removes the threshold requirement that a person be “imminently dangerous” and replaces it with “dangerous” when a law enforcement officer is making a determination on whether emergency mental health workers should be contacted; and
- (4) Provides that at any stage of the proceedings, the court may appoint a guardian ad litem for the patient.

Written comments in support of this measure were submitted by Kahi Mohala Behavioral Health; and one private citizen. Written comments in opposition of this measure were submitted by the American Civil Liberties Union of Hawaii. Written comments were submitted by the Hawaii Disability Rights Center.

Your Committee finds that this measure strikes the appropriate balance between providing mental health services to people who need them and protecting the patient’s rights in the process.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2121, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14, Ayes with Reservations (English, Kidani, Ryan, Slom). Noes, none. Excused, none.

SCRep. 2554 Ways and Means on S.B. No. 2874

The purpose and intent of this measure is to provide the Department of Transportation with greater flexibility in generating revenue at airports through the disposition or the granting of use and occupancy of airport lands under its jurisdiction.

More specifically, the measure:

- (1) Deletes the requirement that any arrangement between the Department of Transportation and a tenant contain a clause that reserves to the Department, the right to repossess the land occupied by the tenant upon thirty days notice to the tenant by the Department; and
- (2) Expands the definition of “airport-related” to include an activity that generates revenue for the airport system.

Your Committee finds that both state law and federal regulations require the State’s airport system to be economically self-supporting. By increasing the opportunities for revenue generation at airports from non-aeronautical users, this measure will contribute to the maintenance of a healthy and self-supporting airport system.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2874, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2555 Commerce and Consumer Protection on S.B. No. 2394

The purpose and intent of this measure is to authorize the Director of Commerce and Consumer Affairs to enforce certain federal laws to protect military members and their families from abusive lending practices.

Your Committee received testimony in support of this measure from the Office of Consumer Protection, The Chamber of Commerce of Hawaii, and one individual.

Your Committee finds that members of the armed forces may be particularly vulnerable to abusive lending practices. The United States Department of Defense has declared these abusive lending practices a serious quality of life concern and has requested assistance from states to enforce certain consumer protection regulations for service members and their families.

Although Hawaii’s payday lending law, codified as chapter 480F, Hawaii Revised Statutes, affords significant protections to consumers, certain federal laws and regulations offer protections specific to service members and their families that are not found in chapter 480F. This measure provides the Office of Consumer Protection with the authority to enforce these additional federal consumer protections.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2394, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Green, Taniguchi, Slom).

SCRep. 2556 (Joint) Water, Land, and Housing and Energy and Environment on S.B. No. 2670

The purpose and intent of this measure is to require the Board of Land and Natural Resources to seek input from existing lessees or public land during the Board’s consideration of a renewable energy producer’s proposal and whether to lease that land to the renewable energy producer.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen’s Council, Molokai Farm Bureau, and five individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that this measure stems from actions by the Board of Land and Natural Resources in November 2008 where there was a proposal for a direct lease to be awarded to a bio-fuels company for 37,000 acres of state lands that had been leased to several ranchers at the time. Those tenants were never notified of the proceedings.

Because of the demise of many segments of Hawaii's livestock industry, it is important to work with existing producers to ensure the industry's sustainability. This measure would encourage state agencies and leaseholders to work together to allow renewable energy projects to co-exist with current leaseholders' industries. For example, compromises can be negotiated to improve the infrastructure of the land to accommodate both projects' needs. As another alternative is for a displaced tenant's losses to be offset where it appears equitable and feasible, as a condition of taking back a portion of the lease. Losing control of large tracts of land that are mostly leased from the State will only contribute to the already fragile state of the livestock industry.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Energy and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2670 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Fukunaga, Green, Tokuda).

SCRep. 2557 Water, Land, and Housing on S.B. No. 1312

The purpose and intent of this measure is to authorize the Chairperson of the Natural Area Reserves System (NARS) Commission to designate a member of the NARS Commission to serve as the Chairperson's representative on the Legacy Land Conservation Commission and allow the members of the Legacy Land Conservation Commission to elect their own chairperson.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy. Testimony in opposition to this measure was received from one individual.

Your Committee finds that members of state boards and commissions receive no compensation for their time commitments to serve the State. These commitments can sometimes overburden the members who are basically serving in a volunteer position. This time can also divert their attention away from their required duties for the State. This measure alleviates the burden of the Chairperson of the NARS Commission in serving on these commissions but maintains representation of the interests and expertise of the NARS Commission on the Legacy Land Conservation Commission.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Solomon, Tokuda, Slom).

SCRep. 2558 (Majority) Judiciary and Labor on S.B. No. 2571

The purpose and intent of this measure is to:

- (1) Amend the various statutory provisions to reconfirm and clarify the original intent of Act 1, Session Laws of Hawaii 2011, that civil union partners shall have all the same rights, benefits, protections, and responsibilities under law as are granted to those who contract, obtain a license, and are solemnized pursuant to chapter 572, Hawaii Revised Statutes;
- (2) Establish a transition period for two individuals who terminate their reciprocal beneficiary relationship and enter into a civil union to ensure that both events occur substantially concurrently and that all rights, benefits, protections, and responsibilities under the reciprocal beneficiary relationship continue upon entering into the civil union;
- (3) Make various housekeeping amendments to statutes to assist with the implementation and interpretation of Act 1, including the laws relating to public employee benefits, property held as tenants by the entirety, parent-child relationships, and adoption; and
- (4) Make it retroactive to January 1, 2012.

Prior to the hearing on this measure, your Committee posted a proposed S.D. 1 for review and comments. This proposed measure makes further amendments to clarify and reconfirm the original intent of Act 1, Session Laws of Hawaii 2011, to:

- (1) Delete language that provided continuity of rights and benefits for couples who terminate their reciprocal beneficiary relationship and enter into a civil union substantially concurrently;
- (2) Delete the various housekeeping amendments to the laws relating to public employee benefits, employment practices, Land Court registration, real property transactions, and marriage contracts;
- (3) Clarify that any gender-specific terms referring to spouses or previous spouses shall be construed to include civil union partners to prevent unintended consequences that may occur as a result of amending all such references in the Hawaii Revised Statutes;
- (4) Clarify the provisions relating to a union performed in other jurisdictions; and
- (5) Amend the various statutory provisions relating to a parent-child relationship with respect to a child born or adopted prior to, during, or shortly after the termination of a civil union.

Your Committee received testimony in support of the proposed S.D. 1 from the LGBT Rights Network, Equality Hawaii, and three private individuals. Testimony in opposition to the original measure was submitted by the Hawaii Family Forum. Your Committee received comments on this proposed S.D. 1 from the Hawaii Civil Rights Commission, the Hawaii Catholic Conference, and one private individual.

Your Committee finds that Act 1, Session Laws of Hawaii 2011, established the status of civil unions in this State, which granted eligible couples all the same rights, benefits, protections, and responsibilities under law, whether derived from statutes, administrative rules, court decisions, the common law, or any other source of civil law, as are granted to those who contract, obtain a license, and are solemnized pursuant to chapter 572, Hawaii Revised Statutes. Your Committee recognizes that a collection of rights, benefits, and obligations applicable to married couples and families are woven into state law and through Act 1, the Legislature intended that these rights and benefits be applied identically to civil union partners. This measure reconfirms and clarifies the original intent of Act 1, that civil union partners shall have all the same rights, benefits, protections, and responsibilities under law as are granted to those who contract, obtain a license, and are solemnized pursuant to chapter 572, Hawaii Revised Statutes.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending this measure by:

- (1) Adding a new section to chapter 509, Hawaii Revised Statutes, to preserve a couple's tenancy by the entirety when the couple moves from one qualifying legal relationship to another, either concurrently or within ninety days;
- (2) Inserting language that makes certain rights, benefits, protections, or responsibilities of individuals created by a reciprocal beneficiary relationship accrue as of the start date of the reciprocal beneficiary relationship if the individuals terminate their reciprocal beneficiary relationship and enter into a civil union either simultaneously or ninety days immediately preceding their entry into a civil union;
- (3) Inserting a provision that restores continuity in reciprocal beneficiary rights and benefits for couples who terminated their reciprocal beneficiary relationships after November 1, 2011, but before the effective date of this measure and entered or enter into a civil union within ninety days after termination of their reciprocal beneficiary relationship;
- (4) Adding language that allows a reciprocal beneficiary couple who formed a legal union in another jurisdiction before the effective date of this measure that is substantially equivalent to a civil union under chapter 572B, Hawaii Revised Statutes, to voluntarily terminate their reciprocal beneficiary status before the legal union will be mandatorily recognized as a civil union in this State no later than one year after this measure becomes effective; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2571, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2571, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Slom).

SCRep. 2559 Judiciary and Labor on S.B. No. 2494

The purpose and intent of this measure is to require the licensing of breeders to ensure that every dog under a breeder's care is provided with adequate care, and to prohibit the sale of unsterilized cats and unsterilized dogs to address the irresponsible and indiscriminate sale of cats and dogs.

Prior to the hearing on this measure, your Committee posted a proposed S.D. 1 for review and comments. The proposed S.D. 1 deletes the contents of the measure and inserts language to:

- (1) Establish a standard of care for dogs to ensure proper treatment of dogs and the dogs' offspring by:
 - (A) Prohibiting the ownership or custody of more than thirty dogs over the age of one year with intact sexual organs, at any time;
 - (B) Requiring owners of ten or more dogs over the age of four months with intact sexual organs to meet minimum standards of care to ensure the proper treatment and care of the dogs and the dogs' offspring;
 - (C) Requiring owners of ten or more dogs over the age of four months with intact sexual organs to maintain specific written records of each dog for a specified period;
 - (D) Prohibiting certain types of dogs to be placed in the same enclosure; and
 - (E) Establishing penalties; and
- (2) Ensure every dog under a dog breeder's care is provided a minimum standard of care by:
 - (A) Requiring the licensing of dog breeders;
 - (B) Authorizing each county the flexibility to assess the county's own situation, and determine the need for and develop appropriate rules for housing and treatment of dogs by dog breeders, if necessary;
 - (C) Requiring each county or its contracted local humane society to assess appropriate license fees for dog breeders, and to pursue civil penalties for noncompliance; and
 - (D) Authorizing a county agent or its contracted designees to inspect a dog breeder licensee's premises unannounced and during regular business hours.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of the Prosecuting Attorney of the City and County of Honolulu, Best Friends Animal Society, and seven private individuals. Testimony in opposition to the proposed S.D. 1 was submitted by the American Kennel Club, the Hawaiian Kennel Club, Terriers in Paradise-Hawaii, and fifty-three private individuals. Your Committee received comments on the proposed S.D. 1 from the Hawaiian Humane Society and four private individuals.

Your Committee finds that profit-driven breeding is prevalent in Hawaii. Recent research conducted by the Hawaiian Humane Society reveals that during a two-week period in November on Oahu, over three hundred sixty puppies were available for sale. This number projected over a one-year period is approximately \$9,400,000 in revenues from the sale of dogs. Unfortunately, existing state and federal laws regarding the care and husbandry of dogs inadequately regulate large-scale breeding facilities in Hawaii. This measure ensures that dogs at large-scale breeding facilities receive sanitary living conditions, proper and timely medical care, the ability to move freely at least once a day, and adequate shelter from the elements. Furthermore, this measure ensures that every dog under a dog breeder's care is provided a minimum standard of care by requiring the licensure of dog breeders.

Your Committee has amended the measure by:

- (1) Adopting the language of the proposed S.D. 1; and
- (2) Inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2494, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Gabbard, Ihara). Noes, none. Excused, 1 (Slom).

SCRep. 2560 Judiciary and Labor on S.B. No. 1500

The purpose and intent of this measure is to require anatomical gifts to be accepted if these gifts are medically suitable for transplantation.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation and one private individual.

Your Committee finds that chapter 327, Hawaii Revised Statutes, was enacted with the intent to save lives and improve the lives of people in need of an organ transplant. However, the anatomical gifts laws are not consistently being followed. Organ transplant procurement organizations have ignored an organ donor designation on an individual's drivers license, thus decreasing the number of available organs for transplant. This measure enforces the organ donor gifts procedures and ensures that organ donor designations are followed.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1500 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2561 (Joint/Majority) Water, Land, and Housing and Judiciary and Labor on S.B. No. 682

The purpose and intent of this measure is to increase the reserved housing requirement for developments in the mauka area of the Kakaako Community Development District.

Prior to the hearing, your Committees posted a proposed S.D. 1 of this measure that deletes the language relating to reserved housing requirements for developments in the mauka area of the Kakaako Community Development District and adds language that removes the residential development restriction from two lots in the makai area of the Kakaako Community Development District; provided that at least twenty percent of the units are designated for residents in low- or moderate- income ranges. The proposed S.D. 1 also exempts those two lots from public facilities fees.

Your Committees received testimony in support of the proposed S.D. 1 from the Governor, Attorney General, and the Office of Hawaiian Affairs. Testimony in opposition to the proposed S.D. 1 was received from the Outdoor Circle and Friends of Kewalos.

Your Committees have concerns whether the transfer of approximately \$200,000,000 worth of land located in Kakaako makai to the Office of Hawaiian Affairs constitutes a reasonable settlement to the Office of Hawaiian Affairs' longstanding claims to income and proceeds from the ceded lands. For example, your Committees note that the appraised values represented are not current and that the settlement compromises the Office of Hawaiian Affairs' self-determination by requiring the Office of Hawaiian Affairs to comply with Hawaii Community Development Authority rules, covenants, and restrictions. Your Committees further recognize that extensive soil mitigation and remediation is necessary at the former Kakaako landfill site.

Your Committees recognize the value of these properties and believe that the properties' values could be enhanced by certain entitlements that are specifically provided for in this measure. In addition, your Committees acknowledge the concerns regarding residential development in the makai area; however, are assured that the two lots are located on the mauka edge of the district and will not impact access to the ocean in any way.

Your Committees find that a resolution of the decades-long dispute that has plagued state government and the Office of Hawaiian Affairs will have a positive impact on the Office of Hawaiian Affairs' beneficiaries and state government. The amendments in this measure will provide the Office of Hawaiian Affairs with the option to develop two parcels as residential properties and produce a steady revenue stream to fund the Office of Hawaiian Affairs' services to its beneficiaries, while creating much needed rental housing and jobs in the near future.

Your Committees are also aware that the two lots are pending legislative approval for conveyance to the Office of Hawaiian Affairs through S.B. No. 2783. Accordingly, your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by making the measure effective upon conveyance of the two lots to the Office of Hawaiian Affairs.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Housing and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 682, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 682, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 3 (Fukunaga, Ihara, Slom). Excused, 1 (Tokuda).

SCRep. 2562 Health on S.B. No. 2332

The purpose and intent of this measure is to encourage beekeeping operations in the State by exempting honey producers from being required to process the product in a certified honey house or food-processing establishment; provided that certain requirements are met.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau Federation and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that exempting honey producers without access to municipal water from having to process honey in a Department of Health-certified food processing establishment, provided that certain conditions are met, has significant negative fiscal implications. The cost of reviewing and testing the non-municipal water and related equipment would cost the Department of Health and small-scale honey producers thousands of dollars, and this prohibitive cost is contrary to the intent of this measure.

Your Committee has amended this measure by:

- (1) Deleting section 2, which exempts honey producers without access to municipal water from having to process honey in a food processing establishment certified by the Department of Health, provided that certain conditions are met;
- (2) Amending the conditions under which a home-based agricultural producer of honey may be exempt from processing honey in a certified honey house and obtaining a permit by:
 - (A) Adopting standardized warning language provided by the Department of Health to be used on the honey container's label; and
 - (B) Requiring home-based agricultural producers of honey to attend a Department of Health-approved food safety workshop, pass the food safety certification examination, maintain records of honey production volume and distribution for at least two years, and make the records available to the Department of Health upon request; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2332, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2332, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Green, Slom).

SCRep. 2563 Commerce and Consumer Protection on S.B. No. 2087

The purpose and intent of this measure is to require health plans that provide coverage for cancer chemotherapy treatment to limit out-of-pocket costs for cancer medications, including generic and nongeneric oral chemotherapy.

Your Committee received testimony in support of this measure from Kaiser Permanente, Hawaii Medical Association, and American Cancer Society.

Your Committee finds that oral anti-cancer medications can have high copayments, coinsurance, and out-of-pocket costs. Your Committee further finds that cancer patients are sometimes forced to make their treatment choice based on cost rather than efficacy. This measure ensures that the costs associated with oral and intravenous chemotherapy procedures are affordable to cancer patients.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2087, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2087, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2564 Commerce and Consumer Protection on S.B. No. 2229

The purpose and intent of this measure is to allow pharmacists to administer the influenza vaccine to persons between the ages of fourteen and seventeen under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Association of Health Plans, Safeway, Times Supermarkets, and Walgreens. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that allowing pharmacists to administer vaccinations is a low-cost and convenient way to meet an important public health need. This measure will increase minors' access to the influenza vaccine and promote public safety.

Your Committee has amended this measure by:

- (1) Specifying that pharmacists who administer the influenza vaccine to persons between the ages of fourteen and seventeen shall complete a training program approved by the Accreditation Council of Pharmacy Education and submit the completion certificate for the training program to the Board of Pharmacy prior to administering the influenza vaccine to persons between the ages of fourteen and seventeen years;
- (2) Removing the provision that would have required only those pharmacists who administer the influenza vaccine to persons between the ages of fourteen and seventeen to renew a license every four years, as this provision conflicts with biennial renewal requirements;
- (3) Clarifying that upon the failure of a licensee or permit holder to comply with any provision, not just training or reporting requirements, of the new section of chapter 461, Hawaii Revised Statutes, established by this measure, the Board of Pharmacy may deny, revoke, or suspend the license or permit and fine or discipline the licensee or permit holder; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that this measure, as amended, aligns training requirements for influenza vaccinations with current pharmacist training and continuing education requirements.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2229, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2229, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Galuteria, Solomon, Slom).

SCRep. 2565 Judiciary and Labor on S.B. No. 2504

The purpose and intent of this measure is to:

- (1) Require retail pet stores to:
 - (A) Implant an identification microchip in a dog or cat prior to sale or exchange;
 - (B) Collect appropriate dog licensing forms and fees from a purchaser;
 - (C) Provide specific written documentation regarding each dog or cat sold;
 - (D) Provide written information on the health and benefits of spaying and neutering to the purchaser; and
 - (E) Provide written information for inspection and copying upon request from a county humane officer, animal control officer, or law enforcement officer;
- (2) Prohibit the sale or trading of dogs and cats in public places, except by humane societies or certain animal control, rescue, or care organizations facilitating adoptions; and
- (3) Establish penalties.

Your Committee received testimony in support of this measure from the Humane Society of the United States, the Maui Humane Society, K9 Kokua, the West Hawaii Humane Society, and thirty-seven private individuals. Testimony in opposition to this measure was submitted by twenty-seven private individuals. The Pet Industry Joint Advisory Council submitted comments.

Your Committee finds that the amendments proposed by this measure attempt to better protect Hawaii's animals and consumers. This measure requires implantation of an identification microchip in a dog or cat prior to sale and requires pet sellers to provide essential history and medical information to purchasers, animal care, and animal control agencies.

Your Committee has amended this measure by:

- (1) Deleting county humane officers and animal control officers from the list of individuals who may inspect the written information maintained by the pet seller upon request;
- (2) Clarifying that a law enforcement officer shall inspect or copy written information maintained by a pet seller only upon the receipt of a violation complaint; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2504, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Gabbard).

SCRep. 2566 Judiciary and Labor on S.B. No. 2222

The purpose and intent of this measure is to address the problem of "sexting", which involves minors taking nude pictures and videos of themselves or other minors, and transmitting the nude images to others by use of a cell phone or other form of electronic communication, by prohibiting:

- (1) Adults from soliciting minors to electronically transmit nude images of minors;
- (2) Minors from electronically transmitting nude images of themselves or other minors, or soliciting other minors to do so; and

- (3) A person from possessing a nude image transmitted by a minor, but making it an affirmative defense that the recipient made reasonable efforts to destroy the transmitted nude image.

Your Committee received testimony in support of this measure from the Department of the Attorney General and two private individuals. Testimony in opposition to this measure was submitted by the Office of the Public Defender and the American Civil Liberties Union of Hawaii.

Your Committee finds that the electronic transmission of youth-produced sexual pictures and videos, frequently referred to as “sexting”, is a growing problem, particularly because the images can be shared with many people almost instantaneously. Once transmitted, the original transmitter has very limited ability to control or prevent further dissemination. Your Committee further finds that the images may be used as a commodity for exchange, and the threatened dissemination of these images may be used as leverage against the subject to force the subject to engage in behaviors that may cause embarrassment, at minimum, and possible mental or emotional harm.

Your Committee notes the concerns raised regarding criminalizing the possession of a nude picture or video of a minor sent by that minor via electronic communication. The Office of the Public Defender indicated its concerns regarding prosecuting or defending cases under certain situations, such as when a nude photo of a minor is sent to another minor, but is inadvertently forwarded to an adult; when a seventeen-year-old male minor and eighteen-year-old female adult exchange nude photos with each other by electronic means; or when minors take nude photos of themselves, but rather than disseminate the photos via electronic means, send these photos through the postal service.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2222, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2222, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2567 Judiciary and Labor on S.B. No. 2381

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to plan, construct, operate, and maintain any lands or facilities under the jurisdiction of the Division of Boating and Ocean Recreation of the Department of Land and Natural Resources, including the acquisition and use of lands necessary to stockpile dredged spoils, without the approval of county agencies.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Testimony in opposition to this measure was submitted by a Council Member of the County Council of Maui and Hawaii’s Thousand Friends.

Your Committee finds that Act 161, Session Laws of Hawaii 1980, granted the Department of Transportation the authority to plan, construct, operate, and maintain harbors throughout the State without the approval of county agencies. Act 272, Session Laws of Hawaii 1991, transferred the jurisdiction, functions, powers, duties, and authority of the ocean recreational boating and coastal activities programs from the Department of Transportation to the Department of Land and Natural Resources, but did not explicitly grant an exemption from county approvals. By allowing the Board of Land and Natural Resources to proceed with certain projects under its jurisdiction without the approval of county agencies, this measure will expedite implementation of much needed improvement projects at the State’s boating facilities, for the benefit of residents and visitors alike.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2381, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Slom).

SCRep. 2568 Judiciary and Labor on S.B. No. 2005

The purpose and intent of this measure is to propose a constitutional amendment to article X, section 6, of the Hawaii State Constitution to modify the appointment process for members of the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly. Testimony in opposition to this measure was submitted by the Regent Candidate Advisory Council of the University of Hawaii.

Your Committee finds that since the establishment of the Candidate Advisory Council for the Board of Regents of the University of Hawaii (Council) pursuant to a constitutional amendment in 2006, the Senate has denied the confirmation of candidates to the Board of Regents on several occasions. This measure proposes a constitutional amendment to give the Governor the authority to more directly appoint highly qualified members to the Board of Regents of the University of Hawaii rather than being obligated to appoint from a limited list of names provided by the Council.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2005, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2005, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Gabbard).

SCRep. 2569 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 2349

The purpose and intent of this measure is to propose an amendment to the Constitution of the State of Hawaii that would repeal the state educational facilities improvement special fund's exemption from the requirement that monies appropriated from the fund be lapsed after three years.

Your Committees received testimony in support of this measure from the Department of Budget and Finance. Testimony in opposition to this measure was submitted by the Department of Education.

Your Committees find that S.B. No. 2348, Regular Session of 2012 (S.B. No. 2348), proposes to repeal the state educational facilities improvement special fund. The constitutional amendment proposed in this measure is necessary for housekeeping purposes in the event the state educational facilities improvement special fund is repealed. Your Committees encourage further discussion on this measure and S.B. No. 2348, as both measures progress through the Legislature.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2349, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2349, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 15. Noes, none. Excused, 3 (Dela Cruz, Fukunaga, Ihara).

SCRep. 2570 Judiciary and Labor on S.B. No. 2810

The purpose and intent of this measure is to amend the definition of "employment" in the workers' compensation, temporary disability insurance, and prepaid health care statutes by clarifying the domestic services exclusion for services authorized by the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services, the Department of Health, and the Department of Labor and Industrial Relations.

Your Committee finds that sections 386-1, 392-5, and 393-5, Hawaii Revised Statutes, exempt developmentally and intellectually disabled recipients of social service payments from providing workers' compensation, temporary disability insurance, and prepaid health care. This measure provides further clarification and consistency by also exempting aged and disabled recipients of home and community-based services authorized by the Department of Human Services and recipients of state-funded home and community-based services, from having to provide workers' compensation, temporary disability insurance, and prepaid health care due to the provision of these services.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2810, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2810, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4, Ayes with Reservations (Slom). Noes, none. Excused, 1 (Gabbard).

SCRep. 2571 Judiciary and Labor on S.B. No. 2825

The purpose and intent of this measure is to authorize the Department of Health to:

- (1) Allow limited access by authorized health organizations to registry information in the Hawaii Immunization Registry to produce immunization assessment reports; and
- (2) Store minimal demographic information for individuals who have elected to refuse inclusion in the Hawaii Immunization Registry.

Your Committee received testimony in support of this measure from the Department of Health, the Hawaii Medical Service Association, AlohaCare, and one private individual. Testimony in opposition to this measure was submitted by one private individual.

Your Committee finds that this measure enables health insurers access to the Hawaii Immunization Registry for the limited purpose of producing immunization assessment reports. The Department of Health's ability to share immunization data with health insurers can assist in the formulation of strategies to improve immunization rates.

Your Committee further finds that authorizing the Department of Health to store minimal patient demographic information in the Hawaii Immunization Registry enables the system to automatically identify patients who have elected to opt out of the system. This measure will prevent the inadvertent data entry or data transfer of restricted patient information into the registry and thereby ensure further privacy protections for these individuals.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to ensure further discussion; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2825, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2825, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2572 Judiciary and Labor on S.B. No. 3039

The purpose and intent of this measure is to:

- (1) Prohibit a health care facility or health care provider from discriminating against a person who has human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), or AIDS-related complex (ARC) and who is in need of an organ transplant by refusing to perform the organ transplantation; and
- (2) Specify that persons with HIV, AIDS, or ARC shall not be prohibited from receiving an anatomical gift.

Your Committee did not receive any testimony on this measure.

Your Committee finds that individuals with HIV, AIDS, or ARC were previously prevented from receiving organ transplants due to doubts that these patients could survive the procedure given their weakened immune systems. However, with advances in treatment, people with HIV, AIDS, and ARC are living longer now than they were twenty years ago. This measure provides people with HIV, AIDS, or ARC with a fair opportunity to receive potentially life-saving organ transplants.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to allow for further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3039, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3039, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2573 Judiciary and Labor on S.B. No. 2098

The purpose and intent of this measure is to clarify that persons and entities subject to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), who use or disclose information in a manner permitted by and consistent with HIPAA and related federal regulations, shall be deemed to be acting in compliance with state privacy laws and rules.

Your Committee received testimony in support of this measure from the Office of the Governor; the Department of Health; the Hawaii Health Information Exchange; AlohaCare; Hawaii Chapter, American Physical Therapy Association; the Healthcare Association of Hawaii; the Hawaii Association of Health Plans; Kaiser Permanente Hawaii; the Hawaii Disability Rights Center; the Hawaii Medical Service Association; and the Hawaii Health Information Corporation. Testimony in opposition to this measure was submitted by the Hawaii Association for Justice. The Department of Commerce and Consumer Affairs submitted comments.

Your Committee finds that this measure facilitates the exchange of health information and simplifies the complex analysis of applicable state privacy laws by harmonizing various state laws and rules governing the disclosure of medical information with federal HIPAA requirements. By simplifying the health information exchange between providers, this measure will aid in improving patient care, reducing health care costs, and enhancing the quality of health care operations without compromising privacy protections.

Your Committee recognizes the work of the representatives from the Office of the Governor, the Department of Health, the Department of Commerce and Consumer Affairs, the Department of the Attorney General, and other health care stakeholders who developed and streamlined the language in this measure for consideration.

Accordingly, your Committee has amended this measure by:

- (1) Revising the purpose section to state that the purpose is to assure that covered entities and their business associates subject to and in compliance with HIPAA shall be in compliance with state privacy laws and rules and specifying the laws subject to this measure, including the use and disclosure laws for Human Immunodeficiency Virus (HIV), Acquired Immune Deficiency Syndrome (AIDS), or AIDS Related Complex (ARC); developmental disabilities; and mental health records;
- (2) Deleting references to laws enacted prior to HIPAA to clarify that this measure applies to laws that pre-date and post date the enactment of HIPAA;
- (3) Deleting language that protects any state law or rule that requires notification of other security or privacy breaches from this measure and adding language that protects any evidentiary privilege, discovery limitation, or confidentiality protection provided by law, rule, order, or decision in relation to individually identifiable health information sought, used, or produced in any judicial or administrative proceeding from this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2098, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2098, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2574 (Majority) Judiciary and Labor on S.B. No. 2386

The purpose and intent of this measure is to:

- (1) Require the Native Hawaiian Roll Commission to be responsible for receiving and maintaining verification documents from individuals seeking to be included in the roll of qualified Native Hawaiians;
- (2) Require verification documents to be kept confidential; and
- (3) Prohibit the Native Hawaiian Roll Commission from publishing or releasing any verification documents of any qualified Native Hawaiian on the roll.

Your Committee finds that there is no public interest in disclosing any verification documents submitted to the Native Hawaiian Roll Commission. This measure addresses concerns about the disclosure of private information that, if left unresolved, would have a chilling effect on the registration of qualified Native Hawaiians. Making verification documents confidential ensures that individuals can register without fear of disclosure of private information.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to ensure further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2386, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2386, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, none.

SCRep. 2575 Judiciary and Labor on S.B. No. 3031

The purpose and intent of this measure is to clarify that a liquor licensee who timely prevents or suppresses any violent, quarrelsome, disorderly, lewd, immoral, or unlawful conduct of any person on the premises is not in violation of the law.

Your Committee did not receive any testimony on this measure.

Your Committee finds that existing law provides for an "immediate" action by the liquor licensee to prevent or suppress violent, quarrelsome, disorderly, lewd, immoral, or unlawful conduct. This measure substitutes "timely" for "immediate," which is intended to afford the licensee a more practical time period in which to address the behavior.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to ensure further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3031, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3031, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2576 Ways and Means on S.B. No. 2695

The purpose and intent of this measure is to create a livestock feed feasibility pilot project to research the viability of growing and processing feed in the State. In addition, the bill directs the development of a livestock feed program, to the extent possible, on lands held by the Department of Agriculture.

Your Committee finds that the rising cost of feed for livestock animals has resulted in the closure of a number of dairies. The livestock feed feasibility pilot project in this measure would improve the State's food security by allowing local dairies to obtain locally produced feed, thereby allowing consumers to obtain locally produced milk and beef, and decreasing the State's dependence on imported foods.

Your Committee has amended this measure by:

- (1) Clarifying that the livestock feed feasibility pilot project shall explore the viability of growing and processing livestock feed within the State and, to the extent feasible, begin growing and processing livestock feed on land held by the Department of Agriculture;
- (2) Changing the appropriation to an unspecified sum; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2695, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2695, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14, Ayes with Reservations (English). Noes, none. Excused, none.

SCRep. 2577 Ways and Means on S.B. No. 2112

The purpose and intent of this measure is to extend, through 2017, the exemption from taxation on capital gains realized from the sale to associations of apartment owners or residential cooperative corporations of leased fee interest in condominium units.

Your Committee received written comments in support of this measure from the Hawaii Association of Realtors and Monarch Properties, Inc.

Your Committee finds that the extension of the tax exemption in this measure will encourage landowners to sell condominium lessees the fee interest in their units, thereby promoting the long-term stability in Hawaii's condominium housing market and encouraging home ownership.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2112, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2112, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Kouchi).

SCRep. 2578 Ways and Means on S.B. No. 2427

The purpose and intent of this measure is to require the Public Utilities Commission to adopt best practices in all commission activities for purposes of increasing transparency and efficiency.

Written comments in support of this measure was submitted by the Public Utilities Commission and the Department of Budget and Finance.

Your Committee finds that requiring the Public Utilities Commission to adopt utility and regulatory best practices will help ensure that Hawaii utilities are regulated by policies that are up-to-date, streamlined, subject to current information technology standards, and transparent.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount for purposes of further discussion; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2427, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2427, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14, Ayes with Reservations (Slom). Noes, none. Excused, none.

SCRep. 2579 Ways and Means on S.B. No. 2758

The purpose and intent of this measure is to clarify or correct errors, ambiguities, and inconsistencies in Hawaii's business registration laws.

Your Committee finds that this housekeeping measure will facilitate compliance with and efficient administration of Hawaii's business registration laws.

Your Committee has amended this measure by:

- (1) Clarifying that registered agents maintained by nonprofit corporations pursuant to section 414D-71, Hawaii Revised Statutes, must fall into one of the categories listed in that section; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2758, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2758, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2580 (Majority) Ways and Means on S.B. No. 2763

The purpose and intent of this measure is to amend the Secure and Fair Enforcement for Mortgage Licensing Act to reflect recent federal changes and adjust fees in consideration of new federal requirements.

Written comments in support of the measure were submitted by the Mortgage Bankers Association of Hawaii.

Your Committee finds that the measure exempts loan originators who are employed by mortgage servicer companies and nonprofit organizations from the licensure requirements of the State's Secure and Fair Enforcement for Mortgage Licensing Act and makes other amendments to conform state law to federal law.

Your Committee has amended this measure by:

- (1) Changing the effective date of the bill to July 1, 2050, to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2763, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2763, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Ayes with Reservations (Chun Oakland). Noes, 1 (Slom). Excused, none.

SCRep. 2581 Ways and Means on S.B. No. 2768

The purpose and intent of this measure is to conform to unified standards adopted by the National Association of Insurance Commissioners, by eliminating the underlying producer license requirement as a prerequisite for applying and obtaining a surplus lines broker license.

In addition, this measure:

- (1) Provides greater clarity and consistency in licensing insurance producers that sell annuity products; and
- (2) Clarifies the licensing requirements for reinsurance intermediaries and removes unnecessary licensing conditions.

Your Committee finds that the amendments in this measure would enable the Department of Commerce and Consumer Affairs to more efficiently license surplus lines brokers, insurance producers, and reinsurance intermediaries and to better protect the interests of Hawaii consumers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2768, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2582 Ways and Means on S.B. No. 2362

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to provide funding for improvements to irrigations systems throughout the State.

Written comments in support of this measure were submitted by the Kau Farm Bureau. Written comments were also submitted by the Department of Agriculture.

Your Committee finds that a reliable irrigation system is essential for the maintenance of agriculture, and that sufficient funding is needed to maintain and improve the water irrigation systems in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2362, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2583 Ways and Means on S.B. No. 2435

The purpose and intent of this measure is to appropriate funds for the Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services to contract for a telephone-based audible information access service.

Written comments in support of this measure were submitted by the Department of Human Services and the National Federation of the Blind of Hawaii.

Your Committee finds that many persons in Hawaii have visual disabilities, and while it may not be practical for the State to provide time-sensitive printed materials in formats such as braille, large print, and audio recordings, another option is to provide telephone-based audible information access services for persons who are visually impaired. This measure provides funds to maintain a telephone-based audible information access service.

Your Committee has amended this measure by deleting the specific amount appropriated to promote further discussion of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2435, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 2 (Dela Cruz, Kouchi).

SCRep. 2584 Ways and Means on S.B. No. 2796

The purpose and intent of this measure is to make permanent the decreased death benefit amount for medical and financial assistance recipients that was implemented by Act 205, part II, Session Laws of Hawaii 2010.

This measure also clarifies that the Department of Human Services is responsible for payment of mortuary and crematory services for unclaimed dead human bodies only after reviewing and approving the efforts made to determine that the body is unclaimed.

Your Committee received written comments in support of this measure from the Department of Human Services.

Your Committee notes that, although the savings from the change in the death benefit was approximately \$300,000 last year, the Department of Human Services continues to struggle to maintain the level of services necessary for the neediest populations in the State. Your Committee finds that permanently adopting the measures taken by Act 205, part II, Session Laws of Hawaii 2010, will assist the Department of Human Services in maintaining other current services while minimally impacting the public.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2796, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2796, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, 1 (Kouchi).

SCRep. 2585 Ways and Means on S.B. No. 2101

The purpose and intent of this measure is to make permanent the general excise tax exemption on funds received by a managed care support contractor of the TRICARE program for the actual cost or advancement to third-party health care providers pursuant to a contract with the United States.

Written comments in support of this measure were submitted by TriWest Healthcare Alliance, Inc. Written comments were submitted by the Tax Foundation of Hawaii.

Your Committee finds that making permanent the temporary TRICARE program general tax exemption provided by Act 70, Session Laws of Hawaii 2009, would help alleviate the need to increase healthcare costs for services delivered through the TRICARE program for members of the military and their families.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical, nonsubstantive amendment for style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2101, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2101, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2586 Ways and Means on S.B. No. 2383

The purpose and intent of this measure is to support health care services by extending until June 30, 2018, the authorization to issue special purpose revenue bonds to assist The Queen's Health Systems with the renovation and expansion of its health care facilities.

Your Committee finds that it is in the public interest and for the public health, safety, and general welfare to assist in the improvement of health care for residents of the State. Your Committee further finds that this measure will allow The Queen's Health Systems to continue its ongoing renovation and construction of health care facilities and acquisition of equipment, land, and information technology, ultimately improving the level of health care services to the residents of the State.

Your Committee has amended this measure by:

- (1) Clarifying that the extension of bond authorization is not subject to the five-year limitation of section 39A-37(a), Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2383, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2587 Ways and Means on S.B. No. 2958

The purpose and intent of this measure is to appropriate moneys to the Department of Health for the implementation of a new bone marrow transplantation program in the State.

Written comments in support of this measure were submitted by one individual.

Your Committee finds that bone marrow transplantation services are no longer available in the State and that persons must travel to the mainland to receive these services. This is not only costly, but can be potentially harmful to the health of the person.

Your Committee also finds that an appropriation to implement a new bone marrow transplantation program in the State will enable persons residing in the State to receive bone marrow transplantation services without having to travel to the mainland.

Your Committee has amended this measure by:

- (1) Deleting the appropriation amount to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2958, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2958, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2588 (Majority) Ways and Means on S.B. No. 3006

The purpose and intent of this measure is to establish a task force to study ways to prevent or control the problem of illegal dumping of abandoned tires.

Your Committee received written comments in support of this measure from one individual.

Your Committee finds that discarded motor vehicle tires continue to blight many neighborhoods, particularly in rural and isolated areas. This is due, in large part, to the repeal of the motor vehicle tire surcharge that the Department of Health used to fund and promote tire recovery and prevent illegal dumping. Your Committee finds that new ideas are needed to address the problem of abandoned tires throughout the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3006, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3006, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13, Ayes with Reservations (Dela Cruz, Kidani, Kim). Noes, 1 (Slom). Excused, none.

SCRep. 2589 (Majority) Ways and Means on S.B. No. 2060

The purpose and intent of this measure is to facilitate the prosecution of domestic violence cases by allowing family courts, under certain conditions, to require the accused in a criminal matter to transport any material witness to court, if the witness is a minor, elderly person, or incapacitated person who resides with or is under the custody of the accused.

Your Committee finds that in some instances, domestic violence cases fail to proceed to trial because the court did not have express authority to order the defendant to transport a minor, elder, or incapacitated witness to court. These cases reach a standstill when the accused may be intentionally precluding the appearance of the witness in court, particularly in cases where the witness is the alleged victim of the accused. This measure seeks to empower family courts to hear domestic violence cases in which minors, elders, and incapacitated individuals may have been victimized by their own relatives or caregivers.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2060, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2060, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, 1 (Slom). Excused, 1 (Kouchi).

SCRep. 2590 (Majority) Ways and Means on S.B. No. 2323

The purpose and intent of this measure is to appropriate funds for collective bargaining costs for registered professional nurses under bargaining unit 9.

Written comments in support of this measure were submitted by the Hawaii Government Employees Association. Written comments on this measure were submitted by the Department of Budget and Finance.

Your Committee finds that the registered professional nurses under bargaining unit 9 are currently negotiating their collective bargaining agreements. If an impasse occurs, an arbitration panel may award terms requiring appropriations for collective bargaining costs. This measure provides a vehicle for these appropriations.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation for cost adjustments for excluded executive branch employees in section 15 of the measure is for Hawaii Employer-Union Health Benefits Trust Fund costs, consistent with the appropriation for their civil service counterparts under section 13 of the measure; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2323, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2323, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, 1 (Slom). Excused, none.

SCRep. 2591 Ways and Means on S.B. No. 3001

The purpose and intent of this measure is to prohibit the transfer, transport, or release after transport of wild or feral mammals and to establish mandatory fines for violations.

Written comments in support of this measure were submitted by The Nature Conservancy and one individual.

Your Committee finds that invasive animals, insects, and other pests pose some of the greatest threats to Hawaii's economy and ecosystem.

Your Committee also finds that preventing new pest establishment is more economical and efficient than eradicating a pest or, even worse, controlling it indefinitely once it becomes established.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3001, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3001, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 2 (Dela Cruz, Tokuda).

SCRep. 2592 Ways and Means on S.B. No. 2225

The purpose and intent of this measure is to reduce frivolous litigation while preserving prisoner rights, by imposing certain conditions on prisoner lawsuits brought in forma pauperis (without having to pay court fees).

Specifically, this measure, among other things:

- (1) Requires any prisoner seeking to file a lawsuit in forma pauperis to submit financial documents, certified by the correctional facility, indicating the prisoner's inability to pay court filing fees;
- (2) Authorizes courts to require prisoners to make partial payments of filing fees as funds become available in the prisoner's account, when the prisoner's lawsuit does not meet the requirements for in forma pauperis actions; and
- (3) Provides that after a prisoner has had four or more in forma pauperis civil actions or appeals dismissed by a court as frivolous or malicious, or for failure to state a claim, the prisoner must pay the full filing fee in advance for any future lawsuits during the period of incarceration, unless the prisoner is in imminent danger of serious injury.

Your Committee received written comments in opposition to this measure from the Community Alliance on Prisons.

Your Committee finds that a prisoner may bring a court action in forma pauperis if the prisoner demonstrates an inability to pay court fees. This measure structures the process for filing these prisoner lawsuits to eliminate fraudulent assertions of poverty and reduce frivolous lawsuits that divert government resources away from other litigation that have or may have merit.

Your Committee has amended this measure by:

- (1) Clarifying an internal cross-reference with respect to the payment of the full amount of costs ordered in a judgment against a prisoner in an in forma pauperis action; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2225, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2225, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2593 (Majority) Ways and Means on S.B. No. 2245

The purpose and intent of this measure is to provide funding for the hiring of staff to administer the Reduced Ignition Propensity Cigarette Program.

This measure accomplishes this purpose by appropriating \$400,000 from the temporary deposits account in the trust fund of the Department of Labor and Industrial Relations to the Reduced Ignition Propensity Cigarette Program Special Fund for the cost of implementing the program and the hiring of staff.

Written comments in support of this measure were submitted by the State Fire Council, Honolulu Fire Department, County of Hawaii Fire Department, County of Maui Department of Fire and Public Safety, State Fire Council, and County of Kauai Fire Department

Your Committee finds that the State Fire Council has been understaffed since it replaced the State Fire Marshal's office in 1979, and currently it consists of only one part-time staff member. An appropriation is needed to hire two full-time personnel to the State Fire Council to effectively implement the Reduced Ignition Propensity Cigarette Program's purpose of reducing the number of fires caused by discarded cigarettes.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts in sections 3 and 4 to unspecified sums; and
- (2) Clarifying that the funds to be appropriated from "temporary deposits account in the trust fund of the Department of Labor and Industrial Relations" are moneys collected pursuant to section 132C-4, Hawaii Revised Statutes, for the Reduced Ignition Propensity Program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2245, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12, Ayes with Reservations (Kim). Noes, 1 (Slom). Excused, 1 (Dela Cruz).

SCRep. 2594 Ways and Means on S.B. No. 2396

The purpose and intent of this measure is to enhance the performance of the Hawaii Paroling Authority by:

- (1) Adding two part-time members to the Paroling Authority, for a total of four part-time members and one full-time chair;
- (2) Requiring the Governor to establish the salary of the chair of the Paroling Authority; and
- (3) Appropriating funds for the additional expenses of the new part-time members of the Paroling Authority.

Your Committee received written comments in support of this measure from the Department of Public Safety.

Your Committee finds that the Hawaii Paroling Authority has maintained the same number of members for decades even though its workload has risen significantly over the years due to an increase in incarceration rates. The adding of members to the Paroling Authority will facilitate the proper deliberation of issues when the Paroling Authority reviews cases and makes decisions that are vital to public safety.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion of this measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2396, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 4 (Dela Cruz, Kahele, Kim, Kouchi).

SCRep. 2595 Ways and Means on S.B. No. 2584

The purpose and intent of this measure is to broaden the accessibility to the State's tuition assistance program for National Guard members.

Specifically, the measure:

- (1) Makes the existing tuition assistance program available to all Hawaii National Guard members;
- (2) Prioritizes funds to Hawaii National Guard member-students working toward an undergraduate degree; and
- (3) Appropriates funds for the tuition assistance program.

Your Committee finds that tuition assistance should not be limited to only selected members of the Hawaii National Guard, but should be made available to all Hawaii National Guard members to allow them to continue their education and prepare them to enter the workforce. Expanded tuition assistance will also benefit the Hawaii National Guard's recruitment and retention efforts.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified amount; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2584, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2584, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2596 Ways and Means on S.B. No. 2681

The purpose and intent of this measure is to improve the management of criminal defendants who have been determined unfit to stand trial and committed to the custody of the Director of Health, by allowing these defendants to be transferred to correctional facilities under certain conditions.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that this measure addresses the situation that arises when a defendant who has been committed to the Hawaii State Hospital has been treated to clinical stability, but continues to require high-level security. This measure allows the transfer of these individuals to an appropriate setting, once their treatment needs have been met.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2681, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2681, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, 1 (Kouchi).

SCRep. 2597 Ways and Means on S.B. No. 3040

The purpose and intent of this measure is to promote car-sharing by exempting rentals made from car-sharing organizations from the rental motor vehicle surcharge.

Your Committee received written comments in support of this measure from the Department of Transportation and the Blue Planet Foundation.

Your Committee finds that there are over a million vehicles in Hawaii, with the vast majority being passenger vehicles. Some of these vehicles are owned by residents who drive them only a few times a week or by those who must purchase a large vehicle for work, but cannot afford to purchase a second fuel-efficient vehicle for personal use. Your Committee finds that car-sharing programs can address the needs of these residents and others while simultaneously reducing Hawaii's fuel consumption and the concomitant toll on the environment. Your Committee further finds that providing a rental motor vehicle surcharge tax exemption to car-sharing programs will remove one barrier hindering the growth of car-sharing programs in this State.

Your Committee has amended this measure by:

- (1) Clarifying, within the definition of "car-sharing organization", that the term refers to non-profit car-sharing organizations;
- (2) Deleting the new paragraph (3) being added to section 251-2(a), Hawaii Revised Statutes, because it is redundant of the proviso language being added to the same section to exempt a car-sharing organization from the rental motor vehicle surcharge tax;
- (4) Changing the effective date to July 1, 2050, to promote further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3040, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13, Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Fukunaga).

SCRep. 2598 Ways and Means on S.B. No. 490

The purpose and intent of this measure is to provide funding to develop and implement initiatives that take advantage of expanded visa programs to increase travel opportunities for international visitors to visit Hawaii.

The measure provides funding by increasing the allocation of the transient accommodations tax revenue to be deposited into the tourism special fund from \$69,000,000 to \$71,000,000 and then allocating the \$2,000,000 to be expended for the development and implementation of such initiatives.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the federal government has recently announced initiatives to significantly increase travel and tourism in the United States. This measure will help promote economic development and expand Hawaii's tourism by targeting international markets.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 490, S.D. 3.

Signed by the Chair on behalf of the Committee.

Ayes, 14, Ayes with Reservations (Espero). Noes, none. Excused, none.

SCRep. 2599 Ways and Means on S.B. No. 2642

The purpose and intent of this measure is to appropriate funds for the Hawaii Tourism Authority to take advantage of new initiatives for increased travel and tourism in the United States, which will further establish Hawaii as a global destination and benefit the State's economy.

Your Committee received written comments in support of this measure from Hawaiian Airlines.

Your Committee finds that the federal government's recent travel and tourism initiatives will be highly beneficial to Hawaii's tourism economy and will advance efforts to stimulate job growth. The funds appropriated by this measure will help the Hawaii Tourism Authority to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to an unspecified sum; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2642, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2642, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 14, Ayes with Reservations (Espero). Noes, none. Excused, none.

SCRep. 2600 Ways and Means on S.B. No. 3048

The purpose and intent of this measure is to stimulate new construction and renovation work through tax relief for:

- (1) Employers that hire certain individuals at new or renovated hotel and resort facilities; and
- (2) Large hotel and resort construction and renovation projects.

Your Committee received written comments in support of this measure from Goodsill Anderson Quinn and Stifel and The Pacific Resource Partnership. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that traditional financing has failed to generate new construction and renovation work in the hotel and resort industry. The tax incentives in this measure will encourage new construction and renovation of hotels and resorts, thereby stimulating job growth in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3048, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2601 Ways and Means on S.B. No. 2933

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to adopt and enforce stricter rules and regulations that protect ocean users; and
- (2) Appropriate moneys for swim zone buoys at Kamaole Beach.

Written comments in support of this measure were submitted by the County Council of the County of Maui, and one individual.

Your Committee finds that there were at least four reported accidents in 2011 that involved swimmers and divers being struck by boats. The increased recreational and commercial activities in Hawaii's near-shore waters have led to safety concerns, especially at Kamaole beach on the island of Maui. Your Committee finds that there is a compelling need to provide safe and suitable areas for residents and visitors to enjoy the waters.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum; and
- (2) Making technical nonsubstantive amendments for style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2933, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2933, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (Kouchi).

SCRep. 2602 Ways and Means on S.B. No. 2986

The purpose and intent of this measure is to make permanent the provisions of Act 103, Session Laws of Hawaii 2007, as amended by Act 198, Session Laws of Hawaii 2009, the taxation rate for naphtha, a liquid fuel that is sold for use in electric power generation.

Written comments in support of this measure were submitted by Kauai Island Utility Cooperative.

Your Committee finds that the provisions of Act 103, Session Laws of Hawaii 2007, as amended by Act 198, Session Laws of Hawaii 2009, have helped to stabilize energy costs and is in the best interest of the public.

Your Committee, after further consideration, has instead amended this measure by extending the repeal date of the taxation rate for naphtha from December 31, 2012, to December 31, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2986, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 1 (English).

SCRep. 2603 (Majority) Ways and Means on S.B. No. 2110

The purpose and intent of this measure is to:

- (1) Designate Uluulu: The Henry Kuualoha Giugni Moving Image Archive of Hawaii as the official state archive for moving images;
- (2) Establish a special fund to be administered and expended by the University of Hawaii to support activities of the Archive; and
- (3) Provide an income tax check-off for the benefit of the special fund.

Your Committee received written comments in support of this measure from two private citizens.

Your Committee finds that establishing a moving image archive will help ensure that Hawaii-related films, videotapes, and audiovisual materials will be preserved for future generations while concomitantly honoring Henry Giugni, the first United States Senate Sergeant-at-Arms of Polynesian descent.

Your Committee has amended this measure by:

- (1) Deleting the establishment of an income tax check-off for the benefit of the Archive's special fund;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2110, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2110, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, 1 (Slom). Excused, none.

SCRep. 2604 Ways and Means on S.B. No. 2233

The purpose and intent of this measure is to allow government agencies, when required to give public notice or publish notice, to give the notice by electronic or online publication on the centralized website of the State or the website of the affected county, as applicable.

In addition, the measure appropriates unspecified sums for:

- (1) The operational expenses of the Office of Information Management and Technology; and
- (2) Support services by the Hawaii State Public Library System for the public to access and print information from the centralized website of the State.

Your Committee received written comments in support of this measure from the Office of Information Management and Technology and the Hawaii State Public Library System. Your Committee received written comments in opposition to this measure from Midweek and Oahu Publications. The Judiciary submitted written comments on this measure.

Your Committee finds that requiring government agencies to give public notice in a daily or weekly publication is costly and does not take full advantage of enhancements in communications technology. This measure allows government agencies to give notice on state or county websites, as appropriate, which will provide significant cost savings for state and county governments.

Your Committee has amended this measure by:

- (1) Clarifying that the affidavit of the appropriate county representative shall be proof of publication via the website of the affected county;
- (2) Clarifying that if the notice is published on the website of the affected county, the public notice shall include information or links to other locations of the electronic or online notice; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2233, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2233, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2605 Ways and Means on S.B. No. 2238

The purpose and intent of this measure is to repeal Act 155, Session Laws of Hawaii 2010.

Written comments in support of this measure were submitted by the Chamber of Commerce of Hawaii.

Your Committee finds that Act 155, Session Laws of Hawaii 2010, was enacted to improve the efficiency of the state general excise tax by requiring all businesses with excise tax exemptions to register to do business in Hawaii, file their tax returns in a timely manner, and expressly claim their entitlement. Your Committee also finds that, while well-intentioned, it is unclear whether Act 155 has resulted in any increase in tax revenues.

Your Committee also finds that Act 155 imposes disproportionately severe penalties for failure to file tax returns. These penalties include forfeiture of any general excise tax benefits (exemptions, deductions, income splitting, credits, wholesale rates) of a taxpayer who fails to file an annual return in a timely manner, regardless of whether the taxpayer has filed all necessary periodic returns or has any tax liability.

Your Committee has received written comments indicating that the taxpayers most likely to inadvertently violate the technical requirements of Act 155 are small businesses, individuals, and non-profit organizations who are least likely to have access to sophisticated tax advice and are least able to bear the burden of such severe penalties. Your Committee believes that repealing Act 155 will make the state general excise tax law fairer and more reasonable.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2238, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2238, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2606 Ways and Means on S.B. No. 2239

The purpose and intent of this measure is to:

- (1) Exempt grants made under the community-based economic development program from the Hawaii public procurement code;
- (2) Clarify that the Hawaii Strategic Development Corporation is the expending agency for the moneys in the hydrogen investment capital special fund; and
- (3) Abolish the High Technology Innovation Corporation.

Your Committee received written comments in support of this measure from the Hawaii Strategic Development Corporation. The High Technology Development Corporation and the High Technology Innovation Corporation submitted written comments in opposition to this measure, and the Department of Business, Economic Development, and Tourism submitted written comments.

Your Committee finds that exempting the grants of the community-based economic development program from the Hawaii public procurement code is in accord with legislative intent surrounding the establishment of the community-based economic development program in 1990.

Your Committee also finds that, due to continuing state general fund support for the High Technology Development Corporation, the funding mechanism provided by the non-profit High Technology Innovation Corporation is no longer necessary.

Your Committee further finds that clarifying the Hawaii Strategic Development Corporation's expenditure authority over the hydrogen investment capital special fund would facilitate the efficient and appropriate use of the fund.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2239, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2239, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12, Ayes with Reservations (Kidani, Slom). Noes, none. Excused, 2 (Dela Cruz, Ryan).

SCRep. 2607 Ways and Means on S.B. No. 2739

The purpose and intent of this measure is to ensure the stability of the Small Business Regulatory Review Board by:

- (1) Authorizing the Department of Business, Economic Development, and Tourism to charge fees to an agency that submits rules for review to the Small Business Regulatory Review Board to offset the expenses of the Board; and
- (2) Requiring agencies to notify the Small Business Regulatory Review Board, on an annual basis, of any rules that affect small business and that need to be amended or repealed to conform to statutory amendments or repeals.

Written comments in opposition of this measure were submitted by the Department of Business, Economic Development and Tourism.

Your Committee finds that authorizing the Small Business Regulatory Review Board to charge fees to offset the costs incurred by the Board in conducting its administrative rules review will help ensure a stable funding source for its operations. Your Committee also finds that requiring agencies to inform the Board of any rules affecting small business that need to be amended or repealed will improve the efficiency of the administrative rules review process.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2012, to July 1, 2050, to facilitate further discussion; and
- (2) Making technical nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2739, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2739, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2608 Ways and Means on S.B. No. 2947

The purpose and intent of this measure is to require state agencies that certify or otherwise administer a tax credit related to economic development to submit an annual report containing certain required information to the Department of Taxation. This measure also requires the Department of Taxation to post the reports on its website.

Written comments in support of this measure were submitted by the Hawaii Strategic Development Corporation and High Technology Development Corporation.

Your Committee finds that this measure enhances the concept of an open government, because providing public access to the reports will promote a greater understanding of the types of tax credits and exemptions that exist to encourage economic development in this State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2947, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2947, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, none.

SCRep. 2609 (Majority) Ways and Means on S.B. No. 2990

The purpose and intent of this measure is to require the Department of Accounting and General Services to hire an independent third party to develop a long-range plan for Aloha Stadium, including a feasibility study to determine the cost benefits of placing Aloha Stadium under the jurisdiction of the University of Hawaii rather than the Department of Accounting and General Services.

In addition, the measure:

- (1) Requires the Department of Accounting and General Services to report its findings and recommendations to the Legislature prior to the convening of the Regular Session of 2013; and
- (2) Appropriates \$50,000 for the Department of Accounting and General Services to contract with an independent third party to develop a long-range plan for Aloha Stadium.

Your Committee received written comments in support of this measure from The Pacific Resource Partnership and one individual. Your Committee received written comments in opposition to this measure from the Aloha Stadium Authority.

Your Committee finds that Aloha Stadium has a broad and diverse spectrum of users, including the University of Hawaii. The feasibility study required by this measure will allow the State to make an informed decision regarding the efficacy of placing the stadium under the jurisdiction of the University of Hawaii.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified sum; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2990, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2990, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12, Ayes with Reservations (Dela Cruz, Espero, Kim, Ryan). Noes, 2 (Chun Oakland, Slom). Excused, none.

SCRep. 2610 Ways and Means on S.B. No. 2525

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaii Pacific University, a Hawaii not-for-profit university, and one or more of its not-for-profit affiliates, with costs related to educational facilities.

Written comments were submitted by Hawaii Pacific University.

Your Committee finds that it is in the public interest and for the public health, safety, and welfare to assist in the improvement of the educational system for residents of the State. This measure will allow Hawaii Pacific University to construct additional educational facilities including student housing and athletic facilities, renovate existing facilities, purchase land and improvements, and acquire and install information technology.

Your Committee has amended this measure to allow maximum flexibility in financing and constructing programs, including allowing interest on the bonds to be included in gross income for federal income-tax purposes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2525, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2525, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, none.

SCRep. 2611 Ways and Means on S.B. No. 2540

The purpose and intent of this measure is to clarify and resolve conflicting and inconsistent language related to the Department of Education by amending or repealing various sections of Chapter 302A, Hawaii Revised Statutes.

Your Committee received written comments on this measure from one individual.

Your Committee finds that the amendments in this measure will assist the Department of Education in meeting its core mission. Your Committee also finds that it is appropriate to repeal sections that are no longer necessary, are addressed by federal law, or are duplicative of an administrative rule, Board of Education policy, or another statute.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2540, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2540, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, 1 (Kouchi).

SCRep. 2612 (Majority) Ways and Means on S.B. No. 2545

The purpose and intent of this measure is to establish a comprehensive approach to developing and implementing early learning strategies for Hawaii's children.

Specifically, the measure:

- (1) Establishes the Executive Office on Early Learning;
- (2) Establishes the Early Learning Advisory Board to replace the Early Learning Council;
- (3) Repeals junior kindergarten programs at the end of the 2013-2014 school year;
- (4) Requires students, beginning with the 2014-2015 school year, to be at least five years of age on July 31 of the school year in order to attend kindergarten; and
- (5) Makes an appropriation of \$500,000 to pay for expenses for the Executive Office on Early Learning.

Written comments in support of this measure were submitted by the Department of Education; Department of Human Services; Be My Voice Hawaii-Leadership Council; and Hawaii Association for the Education of Young Children. Written comments in opposition of this measure were submitted by the HE'E Coalition. Written comments on the measure were submitted by the Hawaii State Teachers Association and Good Beginnings Alliance.

Your Committee finds that early childcare systems that encourage learning at early ages provide significant, long-term benefits and that there is a need for high-quality early learning programs for the children of Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that one purpose of the measure is to provide for an implementation plan and projected financials to ensure a seamless transition from junior kindergarten to the Keiki First Steps Program;

- (2) Requiring the transfer of the Hawaii Head Start State Collaboration Office from the Department of Human Services to the Executive Office on Early Learning;
- (3) Changing the appropriation to establish the Executive Office on Early Learning to an unspecified sum; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2545, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2545, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12, Ayes with Reservations (Ryan). Noes, 1 (Slom). Excused, 1 (Kouchi).

SCRep. 2613 Ways and Means on S.B. No. 2546

The purpose and intent of this measure is to amend the form and function of the candidate advisory council for the board of regents of the University of Hawaii.

Your Committee received written comments in opposition to this measure from the Regent Candidate Advisory Council of the University of Hawaii.
